RETIREMENT OF KRUGER.

If Stephen B. Paul Kruger, ex-President of the late Boer Republic, makes good his escape to Europe, the British Government will not waste any vain regrets over the fact that he has eluded Lord Roberts. It has long ago been made clear that a conquered leader is a most undesirable prisoner in the hands of a civilized power. By the disavowal of war the ex-President of the Republic would claim at the hands of England treatment as a royal hostage, and would prove a most embarrassing charge for the Government. As a prisoner he would be an object of sympathy, for whose rescue plots would be hatched in every country that is hostile to the English. As a fugitive who has abandoned his people in their extremity Mr. Kruger will be deprived of any prestige and power he might otherwise exert. The six months leave of absence which he has given himself is like the six months hoist in Parliament, it is perpetual retirement. As to the idea that he will be able to work for the late Republic in Europe, it is more than absurd. If the representatives of the Boer power were unable to move Europe when the Transvaal army was flushed with victory, it will be much more difficult to obtain a hearing now that the Republic is crushed out and done for. Mr. Kruger is an old man, and doubtless he feels that he is entitled in his seventy-fifth year to lay aside the burdens of public life. He has seen the beginning and the end of the struggle between the Boer and the Anglo-Saxon in South Africa. It has been a sad experience for many, but it has amassed great wealth for one man, who will take a goodly share of it with him to Europe.

THE FUTURE OF MORRIS COLLEGE.

From an official notice, which appears elsewhere, the public of Quebec will learn that the Board of Governors of Morris College contemplate making provision for continuing the work of high education in that institution. It is to be regretted that circumstances rendered it necessary to suspend the Arts Course for the present, but the public may feel assured that the action which the Board proposes to adopt with a view of meeting so far as possible this loss, will secure for the city of Quebec the means of a higher culture than our ordinary school system provides for should it be appreciated and encouraged by our progressive citizens. The action of the Governors will depend on the value our citizens place on higher education and their promptness in assuring the Board that advantage will be taken of the opportunity afforded them. Several proposals have been made looking towards the application of the resources of the college in other ways, but the Governors, who are the trustees of the fund, believe that in offering Quebec an opportunity, closely resembling university extension, they are more nearly carrying out the trust imposed upon them than they can do in any other way. Those who are prepared to take advantage of the opportunity should not fail to signify their intention forthwith.

PREDICTIONS AND PREDICTIONS.

The Liberal press is extracting encouragement out of the prediction made by Sir Charles Tupper in 1896 that the Conservatives would be returned to power by a greater majority than ever. As events turned out, Sir Charles was wrong, and the Liberals, who predicted a victory for themselves, were right. All this goes to show that a good prophet may once in a long while be very far astray. Once in twenty-two years the estimate that Sir Charles Tupper had made of the prospects of the political parties has failed, and once in the same period the Liberal predictions have been verified. On the whole it must be conceded that the record is not a bad one for the Conservative leader, especially when it is compared with the long list of Liberal prophecies that have gone wrong. Sir Charles Tupper, and the Conservatives, have learnt an important lesson since the last election. They have been forcibly reminded of the familiar fable of the bundle of sticks which were unbreakable when united, but easily destroyed when divided. When Sir Charles Tupper predicted a Conservative victory in 1896, he failed to appreciate fully the significance of the Liberal efforts to divide the Conservative party. That the plan succeeded beyond the expectations of its promoters was made clear on the night of the 23rd of June, but even in the face of the overwhelming defeat the veteran leader predicted the reunion of the Conservative party, and its early vindication at the polls. He was right about the reunion; he is right as to the result of it. In business affairs experience is considered a fairly good guide, though, of course, it is not infallible. In politics it may help those who are anxious to anticipate the outcome of an election to forecast the future. The one fact that is clear and undeniable in Canadian politics is that the Liberals have never carried the country when the Conservatives were united. In 1874,

in an hour of suspicion, distrust and division, the Conservatives were defeated. Again in 1896, they divided their ranks and gave victory to the Liberals. As in 1878 the forces of the Conservative party are in 1900 reunited and well officered. If we cannot be sure now of the outcome of the coming contest, we can at least understand that the conditions under which it will take place are those which invariably have resulted in Conservative successes. This may mean much, or it may mean little, but so far as experience is a safe guide, we are warranted in believing that Sir Charles Tupper will be Premier of Canada in a few months.

The great storm, which devastated Galveston, has swept from one end of the continent to the other leaving destruction and death in its wake. It is impossible yet to accurately determine the loss of life at Galveston, but it is certain that the numbers go into the thousands, and that, like the dead on a battle field, the unburied bodies of the victims are becoming a fearful menace to those who have survived. Special relief trains have been sent from the leading cities of the north, and everywhere an appeal is made to public generosity to provide assistance and succor for the sufferers.

THE GRAIN TRADE

Discussing the Great Northern Railway, the Ottawa Citizen says that: "At Hawkesbury the Great Northern connects with the Canada Atlantic railway, and the latter will have a more direct route than ever before for its through grain traffic from the west. This, it is understood, is the reason why the company has not of late exerted any great efforts towards securing harbor facilities in Montreal. In future years most of the grain is likely to be put on the ocean boats at Quebec." The prediction here made that Quebec will become the point for the exportation of most of the western grain is too well founded to cause any surprise among those who are conversant with the changed conditions Quebec, by the new routes, can be reached quite as cheaply as Montreal, and, moreover, it can attract vessels that cannot do business further inland. It is beginning to be generally understood that on the whole it will be cheaper to export grain by way of Quebec than Montreal, and that is believed to be the principal reason the Cornors syndicate has hesitated to invest its \$4,000,000 in terminal facilities further up the river. It has been fully recognized here that the position of the port will eventually enable it to command the commerce of the St. Lawrence route, hence the preparations now well advanced, to enable us to handle the business.

HAVE GIRLS LOST HEALTH?

Has Nineteenth Century Life Lowered Their Vitality and Wasted Their Nerve Power? The Remarkable Restorative Worth of Dr. Chase's Nerve Food.

What girl or woman of to-day can boast the health, vitality and bodily vigor of her grandmother. In spite of the remarkable improvement in sanitary conditions, the attention paid to pure food and the wonderful advance in medical science, the fact remains that the majority of women and girls are suffering from the modern malady—nerves.

From the working girl, worn out by standing long hours behind the counter by close confinement in ill ventilated rooms, by the nerve racking hum of machinery, or by toil too arduous for her delicate body to withstand, to the lady of education, refinement and social standing whose nerve power is exhausted by late hours, loss of sleep and foods not suited for nourishment of the blood and nerves, all alike suffer from nervous disorders and irregularities which make life hard to endure.

From nerve and brain exhaustion, headache and nervous dyspepsia, sleeplessness, irritability and nervousness, the way to paralysis, nervous prostration and insanity is short, and the return to health next to impossible. But science has ever kept pace with civilization, and while the life of the present day is productive of nervous troubles, which cause pain, misery and death, there is hope for all in the great restorative of exhausted nerves and worn out bodies—Dr. Chase's Nerve Food.

There is no stronger proof of the remedial and restorative value of Dr. Chase's Nerve Food than in that it increases weight, rounds out the wasted form, and returns the color to the cheeks. It is not a stimulant nor opiate, but a blood-forming, body-building restorative of unapproachable worth.

Dr. Chase's Nerve Food is acknowledged by physicians to be wonderfully effective as a blood builder and nerve restorative. Hundreds of doctors recommend Dr. Chase's Nerve Food to their patients as the greatest system builder and revitalizer that can possibly be obtained. 50 cents a box, sold everywhere. Edmondson, Bates & Co., Toronto.

PRESENCE OF MIND.

A good story comes from the Windy City regarding a well-known San Franciscan, who is now a pilgrim to the "Centre of the universe." Mrs. Dr. Cool went east a short time since as a delegate to the world's dental congress at Chicago. On arriving at her destination she made an early visit

to the fair grounds, and as usual with sojourners in that seductive place, found upon leaving that she had spent all her ready cash. On her way back to her hotel, therefore, she stopped at a bank to have a check cashed. As usual the clerk informed her that she would have to be identified. As Dr. Cool was a stranger in a strange land she found herself in a dilemma. She presented her card, but that would not do, when a brilliant idea struck her. Flushing a beam from the diamond set in her front teeth upon the clerk she said: "Please look into my mouth."

"Another one gone crazy," thought the clerk, but he complied with the request, looked astonished, smiled and paid the check, for on the crown in the dentist's mouth the clerk read the inscription: "L. Cool, 1893." Identity was thus established beyond a question, and Mrs. Cool went on her way rejoicing.

BLUNDER OF THE POLICE.
ARREST OF AN AMERICAN LADY
IN ENGLAND—CHARGED
WITH SMUGGLING—SEARCH-
ED IN THE STATION BY MEN
— U. S. MINISTER PROTESTS.

London, Sept. 13.—The United States Charge d'Affaires, Mr. Henry White, protested at the Foreign Office to-day against the treatment to which Mrs. Mary Rowe, of Denver, has been subjected by the police of Westgate-on-the-Sea. On Sept. 9 she was arrested, accused of smuggling, and was searched at the local police station by men, Mrs. Rowe alleges she suffered indignities and was not allowed to commu-nicate with friends and was locked up over night. Her nephew, Mr. Good, who is a prominent resident of West-gate, and who married a daughter of former Senator Rollins, of New Hamp-shire, got Mrs. Rowe out of the police station and induced the United States Embassy to protest. The police say it is a case of mistaken identity.

DETERMINED CASE OF SUICIDE.
Winipeg, Sept. 13.—Mrs. Paul W. Lipke died yesterday at Neepawa as a result of cutting her throat. Mrs. Lipke had been ill for several weeks and on Tuesday afternoon attempted to take her life by poison. Restora-tives were administered and she was revived. She later, however, cut her throat, severing the windpipe and jugular vein and desperately resisted all attempts to dress the wound until too late. The woman's husband is in the employ of the Winnipeg Electric Street Railway. The family came from Perth about three years ago. There are four children, the youngest being only a month old.

A LONG VACATION IN KINGSTON
Sault Ste. Marie, Ont., Sept. 13.—William McGuire and Jay Dowling, hailing from Bay City, Mich., were tried before Judge Johnson on two charges of breaking into a dwelling and stealing therefrom a quantity of goods and cutlery and the burglary of a store at Webwood. McGuire was charged also with having fired three shots at the constable who attempted to arrest him. Both men were found guilty and sentenced, McGuire to 14 years and Dowling to 7 years in King-ston penitentiary.

FELL OFF A SPECIAL TRAIN
Sydney, C.B., Sept. 13.—Sep. Len-bridges, a native of Charlottetown, now insurance agent at East Boston, was found dead on the track of the Louisburg Railway to-day. He had been drinking and fell off a special train. He was a graduate of a leading American university. He leaves a wife and five children.

HORSES FOR SOUTH AFRICA.
Listowel, Ont., Sept. 13.—Major Pout, Inspector-General of Remounts, has just made his third inspection in this town of army horses for South Africa, and has selected about 150 horses for the cavalry and artillery service. In all nearly six hundred horses have been bought this summer in this neighborhood. The amount ex-pended was \$60,000. The horses will be shipped from Montreal next week in the Cervonia and Canina.

London, Sept. 13.—The War Office has been notified officially that the six Strathconas, Sergeants Crogan and Brothers, and Ptes West, Cruickshanks, Jones and Wiggins, at first reported missing, were killed.

September is the finest month in the year to visit Lake St. John. Protected by the mountain ranges from the cold winds of the Lake St. John Valley in the autumn is very delightful. The lake and mountain scenery of the Cana-dian Adirondacks through which the railway passes is beautiful. Unsurpassed accommodation at the Oberval Hotel.

DRIVEN ASHORE.
St. John, N.B., September 13.—Nor-wegian bark Ingomar, bound up the bay was driven ashore near Red Head, at the entrance of St. John Harbor, in the gale last night. The vessel is a total wreck. Crew saved and land-ed at St. John.

Bathurst, N.B., Sept. 13.—Norwegian bark Andvake, lumber laden, and bound for London, and Italian bark Gilda, partly loaded, was driven ashore at Sutherland's Point, five miles from here, in a gale last night. Vessels in bad positions, will probably be total losses.

DRIFTED ASHORE.

Conneaut, Ohio, Sept. 13.—The tug Day went to the supposed scene of the steamer Lyons disaster at daylight to-day and steamed about four hours without finding any trace of the ves-sel or her crew. Eleven persons are believed to have gone down with the steamer in the great storm of Tuesday night. Five survivors, two women and three men, drifted ashore here yester-day afternoon lashed to a mast. They had been in the water 15 hours. The Lyons carried a crew of sixteen.

RUN ON A BRAZILIAN BANK
Rio Janeiro, Sept. 13.—A run on the Bank of the Republic has obliged it to use its prerogative to issue checks at 60 days' sixty on deposits. The president of the bank and one of the di-rectors have resigned. The Govern-ment has promised assistance, but has refused to permit the issue of a single note of paper money. Complete calm prevails and an early satisfactory ar-rangement is expected.

THOU SHALT NOT STEAL.
London, Sept. 13.—C. J. Goss, a former clerk of Parr's Bank, accused of stealing about \$300,000 from the bank in January, 1899, pleaded guilty in the Old Bailey to-day, and was sen-tenced to seven years' penal servit-ude.

GREAT DESTRUCTION OF FRUIT.
A Million Dollars Worth Blown Away at Niagara.

Hamilton, Sept. 13.—The wind storm which swept Western Ontario early yesterday morning caused an es-timated loss to fruit growers in the Niagara district of nearly \$1,000,000. Through the Winona, Grimsby and Fruitland districts the loss will be fully one half the crop. That section although given largely to peaches, of which the harvest except of the late varieties, is mostly over, has a great many fine apple orchards and lots of pears. Around Burlington and in the fruit section of Halton, the loss to apple orchards is very great. Fully two-thirds if not three-fourths of the fruit is on the ground and will be lost. In addition thousands of trees were blown down and destroyed. The storm was the severest this section has experienced in thirty years.

HIS INTIMATE FRIENDS.
Father Darcy, an Irish wit, was once invited by a man who was known as an ignorant braggart to visit a new and beautiful house which the person, who had become wealthy suddenly, had bought. With more than his usual pomposity the host dragged the priest over the place and expatiated on the excellence of everything he owned. Finally they reached the immense li-brary, where there were thousands of volumes, all splendid in binding. The host sank into the great leather cov-ered chairs with a sigh of contentment and exclaimed:

"But, after all, father, what is all this luxury compared with my favor-ites here?" The other rooms maybe give pleasure to my wife and daugh-ters, but this is my place—right here among these books, which are my friends. And these here on the desk"—pointing to a score of fine volumes—"are what I may call my most in-timate friends."

Father Darcy got up and examined one of them, when a broad grin spread over his good-natured face. "Well, it's glad I am to see that you never cut your intimate friends!" he exclaimed.

THE FLIGHT OF OLD MAN KRUGER

Opinion of the London Press
on the Subject.

HAS BOTH MADE OVERTURES.

OF PEACE TO THE BRITISH COM-
MANDER? — OFFICIAL DES-
PATCH FROM LORD ROBERTS—
MOVEMENTS OF THE BRITISH
FORCES — BULLER AND
OTHER GENERALS DRIVING
THE ENEMY BEFORE THEM —
BOERS SHORT OF AMMUNITION — A DISGUISED FRENCH
SURGEON.

Lorenzo Marques, Sept. 13. — President Kruger, with several Transvaal officials, including Piet Groebler and Auditor-General Marais, has arrived here and is staying at the residence of the Transvaal Consul. State Secretary Reitz does not accompany the party. Many statements are current regarding President Kruger's intentions for the future, but none of them can be authenticated. It is said that he was examined by two physicians before he left the Transvaal, and as a result of their examination he received six months leave of absence. He will sail for Europe on the German SS. Herzog about September 24, and will endeavor to obtain European intervention. Gen. Schalkburg has been or will be appointed Acting President during Mr. Kruger's absence. The Boers generally are ignorant of the President's departure from the Transvaal. Boer sympathizers here think that his absence will prove favorable to the Boer cause, as the burghers will be less hampered than heretofore, and will adopt guerilla warfare wholly. Dr. Steyn, formerly President of the Orange Free State, remains in the Transvaal.

The Standard regards it as an informal confession of defeat, and as marking the close of the campaign. It half regrets that he was not compelled to surrender in person, but contends that as a practical matter his flight is more convenient than his capture would have been.

The Morning Post and the Daily Telegraph on the contrary say they do not venture to believe that his departure necessarily implies the end of the war. They fear a prolongation of guerilla warfare, though the Morning Post considers Captain Reichmann's recall by the United States War Department as being of the utmost significance.

The Daily News regards it as probable that the only duty of Acting President Schalkburg will be to accept the humiliation President Kruger avoided. That is to make submission to the British.

The Daily News and Chronicle dwell upon the pathos of President Kruger's position. Some of the other papers, however, condemn what they call his meanness for deserting the burghers whom he misled.

LORD ROBERTS' REPORT.

A despatch to the Central News from Pretoria, dated September 11, says, it is reported that Gen. Botha the Boer commander-in-chief has made overtures to Lord Roberts for surrender. The War Office has received the following from Lord Roberts:—

Pretoria, Sept. 11 — 7.45 p.m. — "Methuen attacked Varmans camp at Mala, Sunday, and dispersed the enemy. He took thirty prisoners. The British had six wounded. Several Boers were seen to fall. General Buller is at Kuppe and is driving the Boers before him. He has captured several tons of food. The Boers destroyed a gun tackle and thirteen wagons of ammunition to prevent their capture by the British. The mounted infantry which started from the Ventersburg road station attacked the enemy at Cypergat kopje on Sept. 9, and captured cattle and horses which had been stolen from the farmers. The British casualties were two killed and two slightly wounded."

Hildyard reports that he drove the enemy from Lankwaite Pass on September 10 and followed them through the Pass, on the way to the hills east of Utrecht. The British officers were captured by the Boers were fairly treated. The food furnished the non-commissioned officers and men, however, was inadequate in quantity and in quality. The inhuman treatment of the sick prisoners reflects the greatest discredit on the Boer authorities.

DISGUSTED FRENCH SURGEON.
Johannesburg, Sept. 10.—A division of colonial troops has been sent to clear the Boers out of the Heidelberg Hill. General Barton has cleared the country about Krugersdorp of burghers. He also burned the house of Mr. Van Seyl, which was a notorious refuge for the Boers. The movement of General Hart towards Potchefstroom was successful. Gen. Theron, the Boer leader, was positively identified among the killed. Dr. Conder, of the French ambulance corps with the Boers, has entered the British lines. He says that he has left the Boers for good. He is disgusted with the treatment he received and has been disillusioned regarding the Boer character. He says that he worked hard all through the war without receiving any pay, and with little food. He has still to receive the first "thank you" from the Boers. He intends writing up his experiences in order to help the French people to a better understanding of the Boers.

Twenty-one delegates from mining and commercial bodies sent here by Governor-General Sir Alfred Milner, of Cape Colony, have arrived. The general conclusion of the delegates is that it will be impossible for the people of the town to return here for a while.

SHORT OF AMMUNITION.

Pretoria, Sept. 13 — It is evident from the wounds of the British troops being sent to hospital here from

the front that the Boers are running short of ammunition for their rifles, and are using Martini-Henry and sporting guns. There has been a noticeable increase in the number of wounds caused by the bullets from the last named gun in the past two months. Previously the wounds were mostly all caused by Mauser bullets.

FRENCH AND HUTTON ENGAGED.
London, Sept. 13 — Lord Roberts reports from Machadodorp under date of Wednesday September 12, that General French was heavily engaged that day with the Boers in the hills west of Barberton, and that General Hutton had gone to General French's support.

MRS. KRUGER WOULD NOT GO.
Lorenzo Marques, Sept. 13 — Mr. Kruger telegraphed his wife to join him before sailing, but she has replied that her health will not permit.

BOTHA RESIGNS.
It is reported that Commandant Gen. Louis Botha has resigned the chief command of the Transvaal forces to Commandant Viljoen.

GERMAN OPINION.
Berlin, Sept. 13 — The German papers, discussing Mr. Kruger's arrival at Lorenzo Marques, interpret it as tantamount to the end of the war.

The National Zeitung says:—This remains true, even if Mr. Kruger is only temporarily absent, to make efforts for the intervention of Europe. The Vossische Zeitung observes:—The friends of the Boers must recognize themselves to the fact that the Boer power resistance is definitely broken.

VON KETTELER'S MURDERER.

The Japanese have arrested the assassin of Baron Von Ketteler, the late German Minister to China, and handed him over to the Germans. He has confessed his guilt. He was arrested for trying to sell to a Japanese officer a watch with initials which he admitted taking from the body of Baron Von Ketteler. He afterwards admitted the crime, saying the Imperial Government ordered the commission of the act.

Admiral Alexieff arrived last night for a three days' visit and inspection.

BOXERS DEFEATED.

Colonel Tretieff's party yesterday engaged five hundred Boxers seven miles from Machipo. The Boxers were armed only with swords and spears. The Russian cavalry charged on them, killing many of them with sabres. The charge was made through the cornfield and the Russians succeeded in killing the commander of the enemy's forces. The casualties among the Boxers are estimated at 200. A Russian officer killed and two cossacks were killed.

LI HUNG CHANG'S OFFER.

London, Sept. 13. — A special despatch from Shanghai, dated yesterday says:— "Li Hung Chang declares that he is willing to negotiate for the restoration of Emperor Kwang Su, but not for the punishment of Prince Tuan, Yung Lu or Kang Li (President of the Board of War)."

Prince Ching has informed Li Hung Chang that a certain power proposed four conditions to be accepted before agreeing to an armistice—the neutralization of Tien Tsin, the creation of the Ich-Lang-Kiang as a buffer state, the placing by the powers of international garrisons at the treaty ports, and the execution of the Boxer chiefs.

NEW PEACE COMMISSION.

The Shanghai correspondent of the Times, writing Tuesday, says:— "Li Hung Chang has received an edict appointing Prince Ching and General Yung Lu additional peace commissioners. He has advised Yung Lu frankly to confess that his troops were beyond control and attacked the foreigners. Li Hung Chang will then inquire whether the allies are prepared to accept Yung Lu as a commissioner. Chang Chih Tung, the Wu-Chang Viceroy, says Yung Lu is willing to return to Pao Tung Fu, but is reluctant to accept the appointment."

OCCUPY RAILWAY STATIONS.

Peking, August 30 — Via Take, Sept. 10 — To-day the British occupied the railway junction at Feng-Tai, south-west of Peking, on the line to Pao Tung Fu. This was intended to forestall any damage there or an approach by the Chinese from that direction. It is believed that there are no armed Chinese in this neighborhood except in small parties, but the plan is to extend the outpost so as to prevent a hostile combination within striking distance of Peking.

After the parade through the forbidden city the Imperial palace was left in charge of the Chinese attendants, with the Russians camped outside the gate at one end and the United States infantry preventing approach or departure by the other gate.

MISSIONARY MURDERED.

Washington, Sept. 13 — Minister Conger cables the State Department under date of September 6, as follows:—"Hodges killed, Pao Tung Fu." Hodges was a Presbyterian missionary.

Minister Conger's message is in answer to a cable inquiry from the State Department as to the fate of Missionary Cortland Van Rensselaer Hodges and wife, Elsie Campbell Hodges. The couple were natives of Philadelphia, and belonged to the Presbyterian mission.

TERRIBLE RAILWAY ACCIDENT.

Nine Persons Killed and Six Seriously Injured.

Memphis, Tenn., Sept. 13. — A special to the Commercial Appeal from Cairo, 12, says the special car of the Duncan-Clark female minstrel troupe, was wrecked at Mounds yesterday afternoon, and of sixteen occupants nine are now dead and six others seriously injured, some of them mortally.

The dead are Alice Williams, Olie Enright, Etta Patterson, Patrick Patterson, Marguerita Compella, Anna Bell, Betty Ruby, Etta Howard, Faith Hamilton.

MR. TARTE'S OPINION.

Montreal, Sept. 13. — Hon. J. I. Tarte, speaking at the inaugural meeting for the season of the East End Liberal Club last evening, announced definitely that he would be a member of the Liberal Government which would go to the country shortly. He announced that the date of the elections is now very near and asserted that the Liberal party was in a splendid state of preparedness. In Montreal especially was the party strong, having done more for the port than any other previous Government in the history of Canada, having been successful in establishment of Montreal as a National port.

"I remain in the Cabinet," said Mr. Tarte. "Those who asked for my retreat will not have it. The Hon. Hugh John Macdonald, he is a gentleman, but he only reached power by exploiting the school question and Greenway. I predict that he will be beaten at Brandon. As to the elections, we will carry the majority in the West, the Maritime Provinces and Ontario. But supposing that we divide the English provinces, we can even up in Quebec, in which I have the ambition to take fifty-five seats this year. I entered the Liberal party loyally at a time when it was not very strong. I am going to fight. Be prepared, we will soon have the elections. I will not be guilty of that vulgarly of saying that the elections will come like the angel of death. The elections will come soon because we are ready."

TOPICS OF THE HOUR

FIRE INSURANCE IN CANADA.

The report of Mr. Fitzgerald, superintendent of insurance, for Canada, for the past year, has been issued. It furnishes the figures which have been given by the insurance companies regarding the losses in the Hull-Ottawa fire. Mr. Fitzgerald adds:—

"It is satisfactory to note the ability of every licensed company to meet promptly all proper demands upon it in respect to the fire, and also to the fact that many of the companies, in addition to the payment of the legal claims against them, made handsome contributions to the fund raised for the relief of the sufferers."

The following is the statement of the losses by the Canadian, British and American companies, less the re-insurances in licensed companies. It shows the aggregate was:—

Mr. Fitzgerald adds: "In prosperous times it is well to prepare for the day of adversity. Conflagrations such as this must be looked for at irregular intervals, of course, and probably widely separated from each other as regards both time and place. Such disasters are experienced in every country. The recent fire was the most disastrous one which has occurred in the Dominion since the St. John, N.B., fire in June, 1877, but there has been in the interim several of minor importance, for example, that at Windsor, N.S., on October 17, 1897, and that at New Westminster, B.C., September 10, 1898. The possibility indeed, the probability, of such a disaster constitutes a liability on the part of the fire insurance companies for which provision should be made by the creation of special funds, varying according to the nature of the business transacted, and to the many conditions and circumstances to which the business of each company is subject, but which it would be impossible to enumerate. Such a liability cannot be accurately estimated but it should always be regarded as substantial in amount, and the fund created to meet it should be looked upon as an actual liability, and not treated as a surprise. The report further shows that of the eight Canadian companies doing business in the Dominion, four had an income in excess of the expenditure last year, and four had a reverse. Some of the British companies made money in their Canadian business and some did not."

EDUCATIONAL

MORRIN COLLEGE.

The Board of Governors of Morrin College have resolved to provide a course of instruction in advance of what is prescribed for High Schools, should a satisfactory number of students avail themselves of the privilege. The course will embrace the Classical and Modern Languages, English, English Literature, Mathematics and Elocution. Any or all of these subjects may be taken at the option of the student. Also to meet the wants of those who cannot attend the day classes, evening classes will be formed in the same subjects, and others of a practical nature if required. Application should be made without delay to Prof. Crockett, L.L.D., College Court, who will be glad to furnish any information.

FOUND DROWNED.

The nine year old daughter of Mr. Benjamin Bolduc, jeweller, of Lower Town, disappeared from her home on Wednesday afternoon. When last seen she was playing on the Champlain pontoon steps, and as she had not returned late in the evening her parents were entertained that she was drowned. Yesterday morning Mr. George Jeffrey began grappling at the foot of the steps, and yesterday afternoon about three o'clock found the body of the young girl. Dr. Belleau will hold an inquest to-day on the remains of the young victim.

BAND ON THE TERRACE.

The band of the R.C.A. will play on Duferin Terrace this afternoon from 4 to 6, weather permitting, the following programme:—

HOTEL ACCOMMODATION.

The rush of tourists to Quebec, which is constantly increasing year by year has had the effect of raising the hotel rates. They are beginning to see that accommodation in Quebec during the summer months is woefully inadequate and that unless something is done to enlarge our hotel capacity, the city will be bound to get a bad reputation among the travelling public. To meet this increased demand for accommodation, plans have been proposed for the enlargement of the Victoria Hotel, and the work will commence as early as possible next spring. Mr. Resther, the proprietor, proposes to double the capacity of his house by adding two stories to the main building, and extending the hotel to Charlevoix street. An elevator will be put in and 25 of the 100 new rooms will be fitted with baths. The hotel has been crowded during the whole of the season.

USEFUL DEVICES.

Two New Jersey men have patented a handy gas-lighting device, which uses, in connection with a wax taper, a parallel strip of friction caps, pressure on one end of the lighter forcing the taper out a short distance and striking one of the caps to ignite it.

To prevent the stealing of coal and protect it from the weather an Illinois man has patented a coal car, with an adjustable cover, which is folded up in a pocket on the side of the car when not in use, and can be drawn over the car and locked to cover the coal.

To prevent the reins from catching under the horse's tail a new harness attachment is formed of a metal yoke secured to the back strap, with fingers extending on either side to carry the lines, a brace being set at right angles with yoke to hold it vertical.

To prevent the flow of gas when a jet is accidentally extinguished an improved burner has a metallic rod connecting the tip with a valve inside the pipe, the rod expanding under the heat of the match to open the valve and allow the gas to flow until the flame is extinguished.

By the use of a Tennessee man's device horses can be checked and unchecked without leaving the carriage, a short strap being used to connect the reins over the back pad, with a second strap joining the first strap to the check rein, in order that a pull on the reins can guide the check over the hook.

A RUMORED ABSORPTION.

The Ottawa Citizen says that it is not improbable that at some future time the Great Northern will pass under the control of or amalgamate with the Canada Atlantic Railway—the Booth system. So far as can be gathered the project is so far in the future that it cannot yet be anticipated. Certainly nothing is known of it here.

CAUGHT AT MONTREAL.

Three Italian immigrants, who had evaded inspection by the immigration officers in Quebec, and were attempting to enter the United States in violation of the immigration laws, have been placed in detention by Mr. Joseph Frazer, the American inspector of immigration in Montreal. The men are about 22 years of age, and were bound for Boston and Pittsburg. They did not possess sufficient funds to entitle them to land in the States, and they were found to be suffering from a loathsome disease of the head known as favus, from which many new arrivals from the European continent suffer, and which is very infectious, and frequently incurable.

SPEAKS WELL OF QUEBEC.

The executive committee of the Minnesota editors, who lately visited Quebec, writes as follows regarding the city of Quebec: "The Grand Trunk whirled us to Quebec, that quaintest of cities of the new world, with its famous hostelry, the Chateau Frontenac, perched upon the lofty hillside, with the Citadel as a background. Quebec gave us a splendid reception. Its committee, headed by Mr. L. J. Demers, President of the Press Association of the Province of Quebec, a prince of entertainers, showered us with attention. A reception by His Honor the Hon. L. A. Jette, and lunch at the parliament building, a trolley ride about the city, which, it seemed, might have been dropped there out of ancient Europe."

MEETING OF THE CITY WATER WORKS COMMITTEE

Discussion With Regard to the Water Main—Mr. Gallagher to Have Full Charge.

Three Municipal Committees, Market, Fire and Waterworks, held meetings last evening, which were attended by most of the civic fathers, those present being Mayor Parent, Aldermen Casgrain, Tanguay, Vincent, Reynolds, Marois, Byrne, John, P. Cote, Cummings, Roy, Tanguay, U. Cantin, Fortier, Madden, Leonard, Norris, Belanger, Drolet, Rancourt, Caschereau, Plamondon, Drouin, P. J. Cote, L. Cantin, Barry and Duchaine.

MARKET COMMITTEE.

At the Market Committee, presided over by Ald. Vincent, a letter was read from Mr. Berlin, lessee of the Jacques Cartier Hall, requesting that certain repairs be made to the interior of the building. This letter was left over for further consideration.

A letter from Mr. J. C. Colombe applied for the lease of a stall in the St. Roch's Market, the former offering \$12 monthly and the latter \$10, but as he agreed to pay \$12, the Committee gave him the preference.

FIRE COMMITTEE.

Very little work was brought up before the Fire Committee, presided over by Alderman Madden. M. Benn was appointed to the Fire Brigade.

A letter was read from the Manager of the Chateau Frontenac, complaining of the great inconvenience that the hotel was put to lately by the want of water, and informing the Committee that arrangements had been made with the Street Railway Company, by which, if similar accidents would happen, the watering car of the Railway Company would convey water to the reservoir, and asking for the use of a fire engine to fill the car with water, the Chateau Frontenac to pay the expenses. This request was granted, and the Committee adjourned.

WATER WORKS COMMITTEE.

The most important meeting was that of the Water Works Committee, presided over by Alderman Drolet. A number of letters were read, asking for the introduction of water into certain streets. These letters were deferred until the Engineer of the Department should report thereon.

A demand of the Christian Brothers, of St. Sauveur, asking that their water rates be reduced by half was referred to the Finance Committee, while a letter from Messrs. Amyot & Gauvin complaining of the great loss to their brewery by the breaking of the water pipes was allowed to remain on the table.

A letter from Mr. St. G. Legendre asking for the connection of the water pipe at the corners of Garneau and St. Flavien streets was granted.

The Committee decided to call for tenders for hydrants. The Departmental pay lists for several weeks past were then presented, and caused quite a discussion. Mayor Parent remarked that the system of continually paying extras for work done by the foreman and laborers was a bad one. The foreman was paid \$3.50 daily and had to pay for a horse and vehicle out of that amount, and he considered the official sufficiently paid; however, the latter has put in his account for eleven days' work last week, which was overtime done during the night when trouble existed in the water system. Moreover, they charge as they like, and he thought it was time to put a stop to the system. It would be better to pay Mr. Hatch so much a day and allow him no more for his horse and vehicle, with the understanding that he should be paid for his work.

SPLENDID FISHING RESERVE.

Lake Kenogami, situated 12 miles from Chicoutimi, by rail or by carriage is during the month of September one of the finest spots for fishing in this Province. All arrangements can be made at the Chateau Saguenay, Chicoutimi. At the lake are two fine camps one which may be used as sleeping quarters and the other as a dining room. Boarders do not pay anything for the fishing privileges or for the use of boats, as the board, \$2.00 to \$2.50 daily, comprises everything. Trout varies from 2 or 3 pounds to 8 pounds.

ALDERMEN ELECTED.

Yesterday was nomination day for representation in the City Council, for Montcalm and Jacques Cartier Wards, and Mr. J. E. Walsh, stationer, and Mr. J. B. Morissette were elected by acclamation, to replace Ald. Gilchen and Ald. Dussault. Both the newly elected Aldermen will be an acquisition to the City Council.

OFFICIAL VISIT.

B. J. Barrington, Esq., D.D.G.M., I.O.O.F., visited all the city lodges during the present week. On Tuesday evening Mercantile Lodge was visited, Albion on Wednesday and Britannia last evening. He received a very cordial reception at them all. His term of office promises to be a successful one as he is most popular among the members.

HARDWARE MEN MEET.

List of Those Present.—Dinner at the Garrison Club.

The Canadian Wholesale Hardware Association met in convention, yesterday morning, in the Chateau Frontenac, the following gentlemen being present: Messrs. T. H. Newman (President), of Canbyville, Leamouth & Co., Montreal; Peter Howland, H. S. Howland, Sons & Co., Toronto; W. Valance, Wood, Vallance & Co., Hamilton; J. Bowman, Bowman Hardware Co., London; G. McPherson, A. McPherson & Son, Montreal; W. Starke, Howden, Starke & Co., Montreal; W. St. Arnaud, Canada Hardware Co., Montreal; Wm. Shaw, E. N. Chinic and H. Edmond Dupre, Chic Hardware Co., Quebec; V. Lemieux, Lemieux & Fils, Quebec; R. Angers, Frothingham & Workman, Montreal; A. Jannotte, of L. H. Hebert, Montreal; J. Seybold, Seybold, Son & Co., Montreal; A. B. Lee and T. B. Lee, Rice, Lewis & Son, Montreal; T. Birkett, T. Birkett & Son, Ltd., Montreal.

Mr. J. T. Fernley, Secretary-Treasurer of the National Hardware Association of the United States, is also attending by invitation.

Last night Mr. T. H. Newman, President of the Association, tendered a dinner to the delegates at the Garrison Club. About 30 sat down, the place of honor at Mr. Newman's right, being occupied by the guest of the Association, Mr. T. F. Fernley, the United States trade representative. Mr. Wm. Shaw, of the Chic Hardware Co., this city, was on the President's left. After the proper assimilation of the excellent repast provided, the toast of the Queen was presented, and the National Anthem sung in response. Only two other toasts were on the programme, "The President of the United States" and "Our Guests." The speech-making was very happy and the evening was spent most enjoyably. The party separated about midnight after singing Auld Lang Syne.

The Convention will meet again this morning, when the officers for the coming year will be elected, and this afternoon the visitors will be tendered a trip around the harbor on the steamer Lord Stanley.

Among the guests at the banquet last evening was Mr. John Shaw, of this city.

A SHREWD FARMER.

A city gentleman who had just purchased a farm in the country wished to buy some cattle with which to stock it. He therefore attended an auction where cows were to be sold. One of them, a remarkably fine animal soon attracted his attention, and he bought her at a fair price. He was examining his purchase, when a farmer, who unfortunately had arrived too late to buy the cow himself as he had intended, drove up, and thus accosted him: "I say, friend, did you bid off that cow?"

"I did," was the reply.

"Well, did you know that she had no front teeth in the upper jaw?"

"No," replied the gentleman, indignantly.

"Well, she has none."

"Is that so?"

"You can see for yourself."

The gentleman examined the mouth of the cow and finding no upper teeth, immediately went to the auctioneer and requested him to sell the cow again.

"What's the trouble?" asked the auctioneer.

"She hasn't any upper front teeth," was the reply.

"Very well," replied the auctioneer with a smile, "I'll put her up once more."

He did so, and the shrewd farmer who had given the information to the city gentleman, bid her off at the same price.
