SHERBROOKE, CANADA, FRIDAY, JULY 29, 1932.

Thirty-Six Year.

## REBUKE TO DOMINIONS DEMANDING A 'BARGAIN DAY' IN PERPETUITY

Stanley Baldwin's Memorandum Is Regarded as a Gentle Slap on the Wrist to Some Dominions—Points Out that Balances of Trade With Dominions Are All on Side of Latter.

Ottawa, July 29.—Meetings of the various committees of the Imperial Economic Conference continue their sessions and discuss "matters of interest to the Commonwealth." The general character of their discussions are known. It is known, for example, that they are concerning themselves with currency, the stabilization of customs values, the standardization of manufactured goods, Empire content, marketing, and the promotion of trade generally. What views are being expressed, to whom and about what, are, however, quite unknown, and the delegates won't say.

Several interesting items emerged yesterday, however. One was the supplementary statement by Rt. Hon. Stanley Baldwin, head of the British delegation, wherein he set forth some pointed views on preferences. Mr. Baldwin's memorandum was regarded here as a gentle slap on the wrist—very gentle, but nevertheless, with an unmistakable gesture—to those Dominions who are clamouring for the United Kingdom to establish a "bargain day" in perpetuity.

Balances of trade with the Dominions, Mr. Baldwin pointed out, were all on the side of the latter. Practically all of the Dominions' exports had previously enjoyed free entry into Great Britain—a concession that had never been reciprocated by the Dominions. Also trade uncertainty had ensued, said Mr. Baldwin, upon the application by some Dominions of customs regulations which set values for duty purposes in accordance with the continuous fluctuations in exchange.

Southern Rhodesia "came to bat" with concrete proposals as to what that colony wanted, and what it was prepared to give in exchange. A freer market for tobacco, asbestos, chrome and other commodities would be rewarded by extended preferences on Empire goods.

India, the Irish Free State, New Zealand and Newfoundland have not as yet issued any supplementary statements; and these are awaited with interest. Earlier in the week the Free State heads indicated that they would wait until all the others had submitted proposals before they put in their own. Some doubt now surrounds the question of whether they will do so at all or not. Efforts are being made by the Free State to enter into bi-lateral agreements with the other Dominions. This policy may render the issue of a formal memorandum unnecessary.

Members of the Indian delegation said on Wednesday that India would not submit proposals, but that the statement by Sir Arthur Chatterjee at the first plenary session contained all that India had to say on the matter of Empire preferences. What Sir Atul did say was that in relation to industrial development and to matters dealing with public health in India, little had existed for extending any preferences.

Hon. Gordon S. Harington, Premier of Nova Scotia, and Hon. Percy Black, his Minister of Highways, joined the official observers yesterday. Nova Scotia is really interested in any development relating to coal and steel, to lumber and orchard fruits. Also that province has for a long time urged that preferences throughout the Commonwealth should apply only to those commodities which have been transported by Empire facilities.

Official delegates outnumber newspapermen by fifty-nine—with 272 of the former, including all their staffs, and 213 of the latter. Canadian newspapers have 137 reporters present. From the United States there are thirty-two, including the British has sent eighteen. Among the others are Australia, five; South Africa, two; Ireland, three; New Zealand one. Four newspapers in Palestine are represented, and foreign countries have sent the remainder, with Denmark, Italy, France, Germany, Argentina and Belgium all present.

Two Minto Miners Sacrificed Their Lives in Valiant But Vain Attempt to Rescue Boys from Abandoned Mine.

Minto, N.B., July 29.—Four boys heard somewhere that they could see the moon in broad daylight if they climbed to the bottom of a mine shaft. Today three of them are dead. So also are two men, miners, who tried to rescue them. And, for a time, others were endangered. Mine gas snuffed out the five lives.

The dead are: Allan Gaudine, 9, son of Mr. and Mrs. Dominic Gaudine; Cyril Stack, 13, son of Mrs. Edward Gormley; Vernon Stack, 10, a brother; Vernon Betts, 37, father of five children, and Thomas Gallant, 43, father of nine children. The two Stack boys, young Gaudine and six year old Joe O'Leary, son of George O'Leary, set out from their homes here yesterday morning to explore the disused shaft of a worked-out vein on the property of the Miramichi Lumber Company, Ltd.

Allan Gaudine lost his hold on the mine ladder rungs and hurtled 40 feet to land in a foot-deep puddle of water at the bottom of the shaft. Then Cyril Stack and Vernon Stack followed. The three lay still—sprawled face down in the muck in the dim depths of the shaft. Joe, terrified, scrambled up the ladder and ran for help.

Thomas Gallant went after the three boys to his own death. And last night they stood in groups around his small house, trying vainly and self-consciously to comfort the widowed mother of Tom's nine children.

Betts went next. He started down the ladder as soon as they realized that Gallant was gone. Betts got half way down to the bottom. Then he knew that he was losing consciousness. Raymond Shirley started down to help him and put his hand out. Betts clutched it, it missed and followed the others.

Five were dead. Shirley struggled to the top. Harry Tooke, 20, tried to descend, but like Bartholomew Stack he was overcome when he reached the bottom. Harry Bauer, mine foreman, was the next to face death. He, too, was overcome. Harry Bauer, Jr., saw his father's peril. He made a dash for the shaft. Hands of other miners who had gathered by this time restrained him. They tied a rope around him so they could pull him up if he lost consciousness and they gave him another rope to tie to his father. Then they let him go.

In two minutes Bauer, Jr. was unconscious, but he had tied a rescue line around his father. A. D. Taylor, manager of the Miramichi Lumber Company, had called all employees—numbering more than a hundred—for the rescue efforts. The Mounted Police were notified. The Department of Lands and Mines at Fredericton, N. B., had also been informed of the disaster, and hurried masks and (Continued on page 2)

## Welcome Awaits Them In Eastern Townships

Above are seen the happy group of Empire Farmers who will be welcomed to the Eastern Townships on Wednesday next. Arriving at Magog, at eleven-thirty o'clock in the morning, they will be accompanied by the executive of the Eastern Townships Settlement Society and prominent Eastern Townships citizens on a tour which will take them to North Hatley and Ayer's Cliff, where they will have dinner, then on to Rock Island, Dufferin Heights, Coaticook, Compton and Lennoxville, at which place they will visit the Experimental Farm. Upon their arrival in Sherbrooke they will be entertained at dinner at the New Sherbrooke House at six-thirty o'clock.

The members of the tour, which is sponsored by the British National Union, are seen on the Canadian Pacific liner Empress of Australia at Quebec just after arrival. Fourth from the left seated is Daniel Crawford, former treasurer of the National Union of Farmers (England) and on the extreme right seated is Arthur Canham, director of the tour and formerly South African Trade Commissioner in Great Britain. Others in the group are: Staff-Captain W. B. Coyle, R.N.R., of the Empress of Australia; Miss J. L. Crawford, Herts; Mr. and Mrs. A. M. Prasad, Suffolk; Mr. and Mrs. J. Sagar, Preston, Lancs; A. D. Chard, Chatham, Kent; B. W. Cole and Miss Cole, Scraptoft Hall, Leics; W. T. Davis, Gillingham, Kent; A. Dewhurst, Bradford, Yorks; J. Durrell, Norwich; J. Hill, Kirkham, Lancs; Miss D. W. Parker and W. Parker, King's Lynn; S. A. Parker, Warwick; Mrs. H. Russell-Ferguson and Miss D. W. Russell-Ferguson, Appin, Argyl; J. F. Sutton, Derby; L. C. Tipper, Moseley, Birmingham; D. N. Sinclair, Royston, Herts; W. E. Nosworthy, Moretonhampstead, Devon; Mr. and Mrs. C. A. Webb, Malow, Co. Cork, I.F.S.; M. G. Viljoen, Caledon, Cape Province, S.A.; N. Bester, Derby, Transvaal, S.A.; P. R. Boon, Boons, Transvaal; W. Clark Kenterton, Natal, S.A.; H. H. Dilley, Tzaneen, Transvaal; Mrs. C. E. Larkin, Whiteless, Cape Province; Mrs. G. A. Murray, Pretoria; G. Nicholson, Marquard, Orange Free State; Mrs. J. Pistorius, Barberton, Transvaal; Miss J. M. Robertson, Port Elizabeth, Cape Province; and Miss O. Welch, Kenterton, Natal; and Gordon Williamson, C. P. R. passenger agent.

## PLANS TO CARRY ON HIS EMPIRE CRUSADE FIGHT

Lord Beaverbrook Intends to Run One of His Candidates in the Pending Twickenham Bye-Election.

London, July 29.—Leaders of the Conservative forces in Twickenham were notified last night that Lord Beaverbrook has decided to run an "Empire Crusade" candidate in the pending bye-election. This contest has been postponed until September by mutual agreement; ostensibly because all sides are awaiting the outcome of the Imperial Conference.

Lord Beaverbrook's Empire trade views have been given wide publicity through his newspapers, but so far have attracted little support at the polls. Vice-Admiral E. A. Taylor won as an "Empire Crusader" at the South Paddington bye-election of 1930, but in the general election of October 27, 1931, he was returned as an official Conservative.

The newspaper peer's decision is linked by political observers to his attack on Rt. Hon. Stanley Baldwin in the Sunday Express of July 24, in which he expressed the strongest dissatisfaction with Mr. Baldwin's leadership as Ottawa.

## LOWERING OF SCHOOL AGE UNDER BY ONTARIO MAYORS

Increasing Cost of Education to Municipalities Discussed at Conference of Mayors.

Kitchener, Ont., July 29.—Lowering of the school age from 1 to 15 years and increasing the age from five to seven for beginners as a medium for lowering the increasing cost of education to municipalities was suggested by various speakers at the meeting of Ontario mayors at the opening session in the City Hall here. The cost of education was blamed. Mayor Peebles of Hamilton said, has caused a situation calling for remedial measures to relieve the municipalities. Mayor Peebles pointed out that in the time of the Drury administration there was passed the statute raising the school ages from 14 to 16 years with the result that municipalities had to make more provision for pupils and for larger teaching staffs, all of which necessitated more taxes.

The Hamilton Mayor suggested a more equitable distribution of the cost between the Government, Provincial and Federal Government, a sharing of liquor store profits between the Government and the municipalities, although he said, he was an abstainer; the taxing of hydro power enterprises similar to private ventures, and the taxing of Provincial and Federal Government properties in the municipalities and the reduction of educational costs as under.

London, July 29.—J. A. Mollison and Miss Amy Johnson, two of the British women noted in the distance flyers, were married today.

## DAMAGE CAUSED BY RADIO ADVERTISING IS OUTLINED

Said to Have Robbed the Stage, Killed the Musicians' Means of Livelihood and Injured the Printing Industry.

Glen Falls, N. Y., July 29.—Branding radio advertising as a "parasite," delegates to the state convention of the allied printing trades council considered a resolution favoring banishment of advertising matter from the air.

Radio advertising was assailed by Stephen A. Kelly, of New York, as having "robbed the stage, killed the musicians' means of livelihood and injured the printing industry." John P. Burke, president of the International Brotherhood of Pulp, Sulphite and Paper Mill Workers, said radio advertising was one reason why half the members of his organization are unemployed.

CANADIAN DOLLAR FIRMS New York, July 29.—The Canadian dollar recovered part of yesterday's loss in early trading on the New York foreign exchange market today, but sterling continued its downward trend. The dollar was quoted at 87 1/2 cents. The pound was traded at 83.60% at the opening, off 3/4.

## BONUS SEEKER KILLED AS TROOPS CLEAR CAMPERS FROM U.S. CAPITAL

President Hoover Summoned Army When Police Failed in Efforts to Clear Federal Property of Trouble-Makers—Four Scarred Areas Bear Mute Testimony to Scenes Without Parallel in United States History.

Washington, July 29.—The United States Army, summoned by President Hoover, today has smashed the grip held on Washington for months past by thousands of veterans demanding immediate payment of the bonus for war-time army service.

Mute evidence of a struggle that has no identical parallel, four scarred areas mark the once-populous encampments of the bonus expeditionary force, one ex-soldier lies dead, and scores are nursing injuries.

The troops remained in command. The veterans, driven forth by tear gas and flaming torches applied to their crude shelters, clustered in small groups or headed from the city seeking to reorganize elsewhere.

The use of troops—cavalry, infantry, tanks and machine gun corps—was ordered by the President after police efforts to carry out a demand for immediate evacuation of federal property had precipitated a riot. In it bricks and slabs of concrete flew, and finally shots were fired by police as they found themselves almost overpowered by the angry mob of ex-soldiers. One man, William Huska, 37, Chicago veteran, was killed.

The district of Columbia authorities turned to the White House. The President summoned cabinet aides and an order went forth bringing in from Fort Meyer, Virginia, nearly 300 cavalrymen and 850 infantry. They assembled near the White House and then marched down Pennsylvania Avenue to the first of the bonus army camps, almost in the shadow of the Capitol.

After a pause to give the hundreds of veterans there a chance to move out peacefully, the khaki line, steel-

## FINDS CANADA MAIN HOPE OF GOLD SEEKERS

Canada, and Possibly Russia, Only Places Where Sufficient Gold Can Be Discovered to Raise Commodity Prices.

Washington, July 29.—Experts of the United States Geological Survey are convinced that only two countries—Canada and Russia—hold possibilities of new discoveries which would have any particular effect on the world's gold supply. They are doubtful of any gold rushes like those of '49 and '98 coming soon enough to bring the rise in commodity prices which many economists believe would help the economic situation.

G. F. Loughlin, in charge of the survey's section on metalliferous deposits, recently received reports that placer deposits had been found in Siberia which yield 325 per cubic foot of gravel.

Having in mind the many contradictory reports that have come out of Russia, he reserved judgment. He believes, however, there is a good possibility of rich deposits in Siberia and unexplored portions of Canada's Hudson Bay section.

There is a possibility, but not a probability, Loughlin says, of additional rich finds in the United States. Undoubtedly a few areas will be developed, but he thinks the day of the gold rush is about over in the forty-eight states and Alaska.

## LAD ON OTTAWA VISIT A VICTIM OF KIDNAPPERS

Police and Immigration Officers Making Determined Efforts to Trace Men Who Snatched Away Eight-Year-Old Boy.

Ottawa, July 29.—Kidnappers last night snatched away an eight-year-old visitor to Ottawa from New Haven, Conn., and today police of cities and provinces were searching for a "brownish colored" couple, while immigration officers were watching the international border for two men and the missing child.

Joseph Esposito, visiting here with his mother from New Haven, went to a nearby store last night and gave his order for some small purchase. While the storekeeper was in another room filling the order, the lad disappeared. Witnesses told police they saw a car stop by the store and one of the two men got out and spoke to the boy. The latter ran across the sidewalk and entered the car, police were told, and the car was driven away.

The lad's mother notified the police when she was told what had occurred. The missing boy's father is said to be at present in Honolulu. Mrs. Esposito had been here with her son for a month. Two other children remained in New Haven.

## DETAILS OF FINDING OF MAN'S BODY IN LABRADOR

Remains Brought Out of Wilderness in Plane Believed to Be Those of Either Herman Kohler or Fred R. Connell.

St. John's, Nfld., July 29.—Information received here from Labrador gives details of the finding of the white man's body, believed to be that of one of the American explorers, Herman Kohler or Fred R. Connell, of New Jersey.

The body brought out of the wilderness in the plane of Harold J. Crowley, of Boston, was discovered by Nascope Indians in June. It was naked and no vestige of clothing or weapon of any kind was found in the vicinity. Nearby were the remains of a small fire.

It was the body of a man about five feet eight inches tall. No trace of other members of the party last seen in September by nomadic Indians at Indian House Lake, twenty miles from the coast, has been discovered. When seen by the Indians all were well and confident of reaching their destination after an overland trip. The theory is they lost their canoe and supplies and one of them came to his end near the upper reaches of the Georges River.

St. Hyacinthe, Que., July 29.—Fire, of so far undetermined cause, destroyed the barns and outhouses of J. Lavoie, farmer, on the fourth range of Actonville, twenty-seven miles from here, causing damage which will reach several thousand dollars. The loss is only partly covered by insurance.

When the flames were discovered they had already taken hold on the barn, containing a large quantity of hay harvested only a few days ago, the stable, the pig pen and other buildings. A number of agricultural machines were also destroyed.

## ALARM INCREASING IN GERMANY AS HITLER STORM TROOPS GATHER

Despite Official Assurance that Complete Measures Have Been Taken to Ensure Order, Populace Believes that Nazis Are Prepared to Take Advantage of Any Outbreak Should Sunday's Election Go Against Hitler.

Berlin, July 29.—Reports that National Socialist storm troops were concentrating in various provinces of Germany today caused considerable alarm in spite of official assurance that most complete measures have been taken to maintain peace and order during and after next Sunday's elections.

The reports said that the Hitler storm troops apparently mean business. From various points in Pomerania, Mecklenburg and Silesia the news came that local Nazi organizations had received orders to stand by.

There was no precise indication as to the purpose of the concentration except that they were instructed to provide themselves with three days' rations and sleeping equipment.

Hitler and other Nazi leaders have given the Von Papen Government assurances that they are planning no violent action, but anti-Nazi quarters said the possibility remains that some sectional hotspur might break away and start a "Putsch" on his own account if the election failed to bring victory to Hitler.

Nazi leaders, it was suggested, could disclaim direct responsibility for any such outbreak while reaping the fruits of it.

The Opposition also jumped upon what it called an admission by Hitler that his party might not win in the elections Sunday. The incident occurred at Cologne, where Hitler told a crowd of 80,000—

"National Socialism will continue the fight undaunted, even if July 31st does not give a final decision."

Hitler's address was brief. "The Nazis have for a goal the destruction of party politics in Germany," he said. "Germany's convalescence can come only from within, and foreigners must be prevented from bringing the German people again to their knees. My opponents know that next Sunday will decide more than a mere approval of the last six weeks of German history."

## LARGE SHIPMENT OF SOUTH AFRICAN SUGAR TO CANADA

60,000 Tons of Sugar from South Africa Will Be Imported During Current Year.

Montreal, July 29.—More than 17,000 tons of South African sugar is on its way to Montreal. The Elder Dempster liner Calumet is bringing 8,350 tons and the steamer Anglo African 9,000 tons. Information that the sugar is on its way comes as a sequel to the announcement from Ottawa that some 60,000 tons of sugar from the Union would be imported during the current year.

In addition to sugar, the Calumet carries 100 bales of wool and a quantity of canned fruit. From Southern Rhodesia it is bringing 713 cases of oranges, loaded at Beira, Portuguese East Africa.

Because this citrus fruit was embarked at a foreign port it is not at present eligible for Empire preference. It is expected something will be done to provide for this peculiar situation. Discussing this subject, Premier H. U. Moffat, of Southern Rhodesia, now attending the Ottawa Conference, said South Africa at present has no port of its own, and must ship its produce through Beira or south over 1,650 miles of rail to Cape Town, Durban or Port Elizabeth, which are all within the Union of South Africa.

to mark time to see what will emerge from the Imperial Conference, for, this authority pointed out, if provision is made for a much larger entry of Canadian wood in the British market, the special problem of colonization will right itself.

"If," it was pointed out, "the arrangements made at Ottawa, and the larger cut in the forests for Quebec pulp and paper mills should result in an additional 25,000 men being employed in the upper counties of the province, the urge for colonization will of necessity be modified, for the men now unemployed will certainly prefer work in the shanties to heading out homes in colonization areas. The employment of an additional 25,000 men in the woods next winter would mean that a population of more than 100,000 people would be cared for without public assistance next winter."

Mexico City, July 29.—The gold rush that resulted from recent placer findings in the state of Sinaloa has attracted more than one thousand families to that district, it was reported today.

## THE WEATHER

FAIR, QUITE COOL TONIGHT Pressure is low over the Gulf of St. Lawrence and along the Atlantic Coast, also over the Mackenzie Valley and Alberta, with high pressure covering Manitoba and the Northwest States. Light showers have occurred in some districts of Eastern Canada and Southern Alberta, while it has been fair in Saskatchewan and Manitoba. Below normal temperature has prevailed from Manitoba eastward, with a tendency toward higher temperature in the Far West.

Forecast: Moderate northwest winds; fair and quite cool tonight. Saturday fair, with moderate temperature. Sunday probably fair.

Temperature yesterday: Maximum 79, minimum 60. Same day last year: Maximum 88, minimum 67.

NEW YORK QUOTATIONS

Table with columns for various commodities like Am. Smelting, Am. T. & T., etc., and their prices.

AN IRREGULAR TREND TODAY AT MONTREAL

Majority of Issues on Montreal Stock Market, However, Held Firm, Indicating Considerable Power of Resistance.

Montreal, July 29.—The Montreal Stock Market today, the majority of issues held steady, however, indicating considerable power of resistance in the market. Volume was fair.

Montreal Power and National Breweries, yesterday's market leaders, both lost ground, Power receding one-quarter to 32 3/4 and Breweries losing one-half to 17 1/2.

Consolidated Smelters lost two points of yesterday's advance to sell at 57 and General Steel Ware was one-eighth lower at 1 1/2.

Shawinigan at 12 3/4 and B.C. Power at 20 were unchanged. In the banks, Montreal lost two points to 188.

LOSSES AT NEW YORK WERE REGAINED BY NOON TODAY

New York, July 29.—Stocks quickly absorbed early profit taking today and around noon had erased most of their losses, with many active issues advancing around a point net on the day.

American Telephone and Union Pacific, that had reacted about 2 points, more than regained their losses. American Can, Allied Chemical and Consolidated Gas moved fractionally higher.

Country and Dairy Produce Prices

Table listing prices for various produce items like Butter, Eggs, Cheese, etc.

ASTRONOMERS PREPARING FOR GREAT ECLIPSE

Party of Forty Distinguished Experts Arrive at Quebec—Have Ten Tons of Scientific Instruments.

Quebec, July 29.—A party of forty distinguished astronomers headed by Sir Frank Dyson, Astronomer Royal of Great Britain, arrived in Quebec yesterday, prepared for keen observation and hard work in connection with the eclipse of the sun on August 31st.

The corona, that flaming disc that appears for a few minutes, is not only an interesting sight, but its flames contain half the metals found on the earth.

Professor Dingle, leader of the Imperial College of Science and Technology group, will observe the eclipse from McGill University, Montreal.

Results attained as a result of the observations of pure science, he pointed out that, in 1868, following an investigation of the corona of the sun to check up observations made during an eclipse, the presence of a new line in the sun's spectrum was noted.

All the astronomers united in stating that the "shadow-bands" have no importance whatsoever in the realm of pure science.

As to the effect of the eclipse on radio, Sir Frank had little to say. He did offer the suggestion, however, that radios should be checked to see if the temporary darkness of the eclipse would produce the strengthening of signals usually found after nightfall.

Ashore with the astronomers went ten tons of scientific instruments, spectroscopes, long telescopes and many other devices in ten packing cases.

INCREASE RECORDED IN NET REVENUES OF N.C.R.

Betterment Effected Despite a Heavy Drop in Gross Receipts.

Montreal, July 29.—An increase of \$1,322,861 in the net revenues of the Canadian National Railways for June, 1932, as compared with June, 1931 is shown in the monthly statement of operating revenues and expenses issued at Canadian National headquarters today.

REBUKE TO DOMINIONS DEMANDING A "BARGAIN DAY" IN PERPETUITY

Continued From Page 1. free trade at the last general election, and therefore Mr. Baldwin has no alternative but to go forward.

STRESSED INTERNATIONAL EFFECTS OF CONFERENCE

London, July 29.—The international influence of the Imperial Conference at Ottawa was pointed out by the Prince of Wales today in an address before the International Congress of Commercial Education here.

"Ottawa is not in its constitution international," said the Prince of Wales, "but if, as we hope, it promotes the prosperity of the British Empire, it will be international in its influence."

Referring to present conditions throughout the world, His Royal Highness continued: "If all employment were employed for a reasonable number of hours weekly the world would have a volume of commodities and services enabling the entire population to live on a higher level of comfort and well-being than was ever contemplated in the roughest terms of the social reformer."

PRIVY COUNCIL FINDS RULE ON CUSTOMS VALID

Dominion Can Pass Laws Declaring Jurisdiction Over Canadian Vessels Twelve Miles from Coast.

London, July 29.—Allowing the appeal of E. R. Croft from the Supreme Court of Canada today, their Lordships of the Judicial Committee of the Privy Council upheld the validity of the Canadian statute which enacts that so far as Canadian vessels are concerned, Canadian territorial waters extend for twelve marine miles from the coast.

It has long been recognized, the judgment points out, that for certain purposes, notably police, revenue, public health, and fisheries, a state may enact laws affecting ships on the sea to a distance exceeding the ordinary limits of its territory.

Once it was found that the particular topic of legislation was among those on which the Dominion Parliament might competently legislate, their Lordships saw no reason to restrict the scope of such legislation by any other consideration than those applicable to a fully sovereign state.

Parliament, in bestowing plenary powers on the Dominion Parliament, intended to withhold the power to enact provisions similar in scope to those which had long been an integral part of Imperial customs legislation.

ACTRESS, LOVE SICK, ATTEMPTS TO END LIFE

Lina Basquette Swallowed Poison Today Following Engagement to Former Trainer of Jack Dempsey—Condition Critical.

Los Angeles, July 29.—Lina Basquette, twenty-five year old actress, swallowed poison today a few hours after she announced her engagement to Teddy Hayes, former trainer of Jack Dempsey, to stifle rumors she might marry the former world's heavyweight champion.

Beside the actress when police found her in her apartment was a note addressed to "Jack," it reads: "I love you. Only you, I couldn't help it. I couldn't go on without you."

Physicians said her condition was critical. The twice-married actress took a caustic poison after spending the evening with Hayes. She had been so despondent, Hayes said, that he telephoned her when he reached home.

"Are you all right?" Hayes said she asked. "Sure, I'm all right," he quoted Miss Basquette as replying, "I have just taken poison."

He said he rushed to the apartment and was so busy giving first aid treatment he could not open the door to let police in.

The police came in answer to an anonymous telephone call. They broke in the door of the Hollywood Apartment and found Miss Basquette writhing in agony on the divan.

She was taken to the police emergency hospital where first aid treatment was administered before she returned to her home under the care of her private physician.

DISCIPLINE IN UPBRINGING OF CHILD NEEDED

Dr. G. W. Parmelee Criticizes Policy of "Self-Expression" Being Carried Too Far in School Training.

Quebec, July 29.—In condemning the carrying of the policy of "self-expression" too far, Dr. G. W. Parmelee, former Deputy Protestant Minister of Education for Quebec, pleaded for discipline being taught in the schools of Canada.

In speaking before a local service club yesterday, Dr. Parmelee admitted that sixty or seventy years ago the theory of discipline had been carried too far. However, he declared that persistence and courage in solving problems of all kinds and familiarity with work and difficulties were instilled in the pupil with the discipline theory of former years.

"The theory of liberty, on the contrary, consists in letting the child do just as he pleases, and take up simply those subjects in school which he prefers, to allow him to develop his powers of self-expression." The speaker said that the general term "self-expression" could mean a lot of things. He criticized the principle of self-expression on the grounds that it made the student ignore all self-control and operated on the belief that the child would get all ideas of right and wrong by practising the theory of trial and error, for which he should be allowed as much freedom as was possible.

DESIRE TO SEE MOON BROUGHT DEATH TO FIVE

Continued From Page 1. pulmotors to the scene.

The two Bours, father and son, pulled out of the forty-eight-foot deep pit by safety lines, were laid a few yards away from the mouth of the death shaft on a little shaded knoll.

Alex Tooke was next to descend into the shaft, and succeeded, before he was himself overcome, in fixing a rope around Tom Gallant's body. Mathias Wulfr followed Tooke, with a piece of gauge soaked in aromatic spirits of ammonia tied over his mouth, the courageous miner descended seven times, each time being lifted out unconscious after he had fixed a rescue line to one of those in the bottom of the pit.

Others, including Norman Brittain, of Saint John, made expeditions into the shaft and Britain succeeded in bringing up the body of Allan Gauvine.

LITTLE PROTECTION GIVEN BY BOSTON COAST GUARDS

Yachtsmen and Fishermen in Massachusetts Waters Receive Little Assistance When in Trouble, It Is Charged.

Boston, July 29.—Jonathan Brown, 3rd, of Newton, Mass., charges local Coast Guard men with giving yachtsmen and fishermen in Massachusetts waters "little protection because the Coast Guard is interested primarily in liquor."

The charges grew out of an incident Monday night, when five prominent Bostonians, two of them women, spent the night in a crippled and leaking motor cruiser off Mingo's Light. Brown accused the Coast Guard of ignoring the pleas of friends who knew the stranded party must have met with mishap.

Brown was owner of the stranded craft, the Elmatop II. Other members of the party were Mrs. Brown, Mr. and Mrs. W. Bowen Fairfax, of Chestnut Hill, and W. Lloyd Byers, of Andover.

Brown, who filed charges at Washington against the Coast Guard a year ago, when he was nearly swamped by a patrol boat running without lights in Beverly Harbor, demanded to know where the patrol boats asked to search for him were during the ten hours he and his friends were waiting for aid.

WILSON'S FLY PADS REALLY KILL

10 CENTS PER PACKET WHY PAY MORE? THE WILSON FLY PAD CO., MILWAUKEE, Wis.

GREAT BRITAIN WELCOMES PLANS FOR EXPANSION OF EMPIRE TRADE

In Outlining British Stand on Preferential Tariffs, Rt. Hon. Stanley Baldwin Tells Imperial Conference that Ninety Per Cent of Dominion Goods Enter Old Country Market Free of Duty—Britain Determined to Make Full Contribution to Extending Empire Trade.

Ottawa, July 29.—The many advantages that Dominion goods enjoy at present were outlined in a statement that Rt. Hon. Stanley Baldwin, leader of the British delegation read to the Imperial Conference yesterday afternoon. Discussing future policy, Mr. Baldwin gave only a general indication. "The representatives of the United Kingdom," he declared, "have entered this Conference with the intention of making their full contribution to a still further extension of Empire trade. They have put frankly and fully to the dominions the articles on which they desire to secure further advantages in Dominion markets; and they will equally welcome from the dominions an equal full statement of the corresponding advantages they seek in the market of Great Britain."

"The United Kingdom delegation will approach the examination of these statements as they are received with an unprejudiced mind and indeed with an earnest desire to give effect to the wishes of the dominions; and they are convinced that in their turn their own views will be given equally favorable consideration."

Although the Australian statement is not mentioned, Mr. Baldwin's statement may, in a sense be considered a rejoinder to that in which Mr. Bruce spoke of Great Britain's "lardy response" to what Australia had already done.

Following are points from Mr. Baldwin's statement: "The proportion of imports from the dominions which still enjoys free entry of Great Britain in some cases exceeds ninety per cent."

Since Britain changed her fiscal policy, only thirty per cent. of her imports from foreign countries enjoy free entry.

In the case of imports from the four principal dominions, there is today practically no free entry. That is to say a duty or tax of some kind is charged on almost all goods imported into these dominions.

Over considerably the greater part of the preferential field, the preference accorded by the United Kingdom is in the form of a total remission of the duty payable by foreign goods.

The visible trade balance in favor of the dominions is nearly one hundred million pounds sterling. During the year 1930, imports into the dominions from foreign countries amounted to nearly 350 million pounds sterling.

The British delegation urges that preferential rates of duty charged should be so graduated as to give to the products of the United Kingdom a reasonable chance of competing on even terms, and that the rate of duty against United Kingdom products should be fixed for protective purposes no higher than is necessary to give a reasonably efficient industry in the Dominion a fair chance.

It is necessary also to remember the importance of certainty as affecting trade, the statement proceeds. In order to enable a manufacturer or importer to carry on business, it is essential that he shall be able to assess with reasonable assurance the cost of the article delivered to the consumer.

The statement emphasizes the vital need to Great Britain of her export trade, her two three-fourths million of unemployed. "The United Kingdom," adds the statement, "after citing a table of figures, 'has been doing her share in encouraging the trade and industries of the dominions; she takes a very large proportion of Dominion exports for many of which there would be no other outlet available in the world; she has consistently made it easy for these exports to enter her ports on the best possible terms and with the least possible interference by government policy or by customs duty. She has been eager to give to the dominions an extensive preference in every case in which she has found it possible to build up a substantial favorable visible balance of trade."

and, consequently, becomes moral habitually. The theory, while containing some valuable principles, was being much overdone, especially in the United States, where the movement originated. The result was children were considering themselves monarchs of all they surveyed and were not even taught obedience.

"This exaggerated system of training is not only wrong, but it is also contrary to the child's needs, for later life and all these independent ideas of absolute freedom will have to be corrected and knocked out of him before any progress can be made with his character," he pointed out.

"The theory of education is psychologically wrong as children cannot distinguish between right and wrong themselves; a child usually learns that condemned things are wrong and approved things right,

RHODESIA ASKS LOWER DUTIES ON TOBACCOS

Increased Empire Preference Would Increase Dominions' Share of British Market, Says Rhodesian in Announcing Policy.

Ottawa, July 29.—Southern Rhodesia has offered Great Britain increased tariff preferences and will make similar advances to other Empire countries willing to reciprocate. "The colony is prepared," says a statement issued by H. W. Moffatt, leader of the Rhodesian delegation at the Imperial Economic Conference, "to grant increased preferences on certain classes of British goods with a view to providing further protection against foreign competition and, after discussion and consultation with representatives of the United Kingdom, a schedule has been submitted, which provides for these increases. Similar consideration will be extended other British countries which will reciprocate."

Rhodesia seeks increased markets for tobacco, citrus fruit, white maize, dairy products and eggs, asbestos, chrome, copper and meats.

Southern Rhodesia is one of Canada's competitors in the British tobacco market. In 1931, the colony shipped 6,250,000 pounds.

"The tobacco preference granted by the United Kingdom," continues the Rhodesian statement, "has led to the use of increasing quantity of Empire leaf, including Rhodesian; but it has not been effective in reducing the existing figure of the consumption of foreign tobacco in the United Kingdom."

In 1930, Great Britain imported 125,285,000 pounds of foreign tobacco and 25,652,000 pounds from the Empire.

"It is felt," says the communique, "that an increase in the preference would lead to a quicker change from foreign to Empire leaf and to a diminution in the imports of foreign tobacco."

"Insofar as the Dominion markets are concerned, most of the Dominions are producers, although, at the same time, importers of a considerable amount of tobacco. There should therefore, be room for the admission of Rhodesian and other Empire leaf to supplant foreign leaf imports. This would be assisted by the imposition of duties intermediate between the excise levied on the local product and the duty on the foreign leaf."

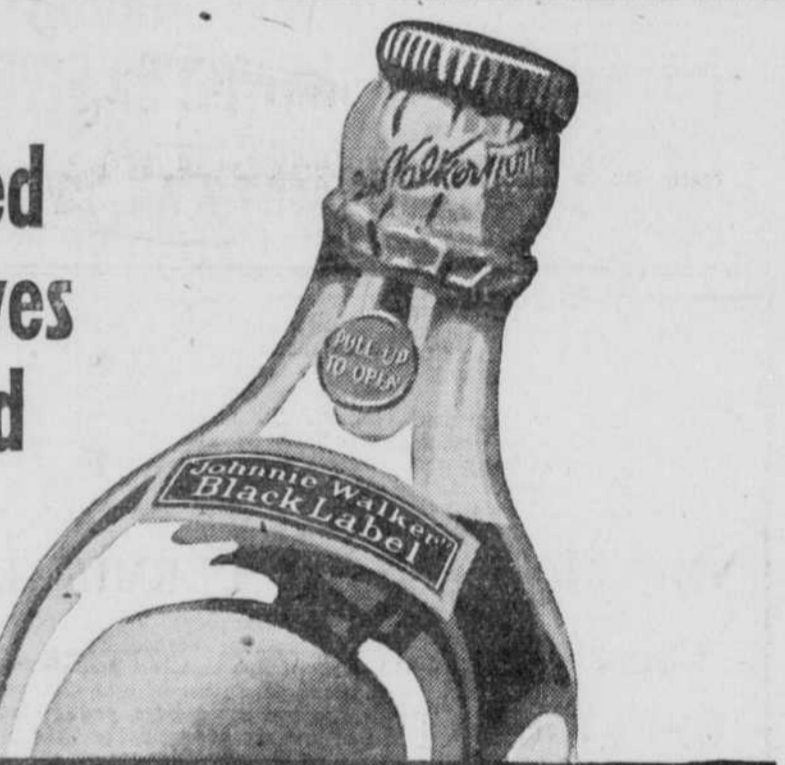

The Rhodesian premier suggested a specific duty, rather than an ad valorem levy, against foreign citrus fruit entering the British market. A duty was suggested also against foreign white maize and against products manufactured from it, including starch and glucose.

# PLEASANT PLACES TO DRIVE AND DINE

## ECLIPSE WILL BE ATTRACTION FOR TOURISTS IN EASTERN TOWNSHIPS

Solar Display Featuring Period of Complete Darkness Will Be Treat in Store for Those Travelling Through Townships on Afternoon of August 31.

Many tourists will be attracted to the Eastern Townships at the end of August. There will be two main attractions—Canada's Great Eastern Exhibition, to be held in Sherbrooke, and the eclipse of the sun. A solar display featuring a period of complete darkness at practically the height of a summer's day will be the treat in store for those travelling through the Eastern Townships on the afternoon of August 31. A total eclipse of the sun, with Magog as the principal point of vantage, will take place on that day

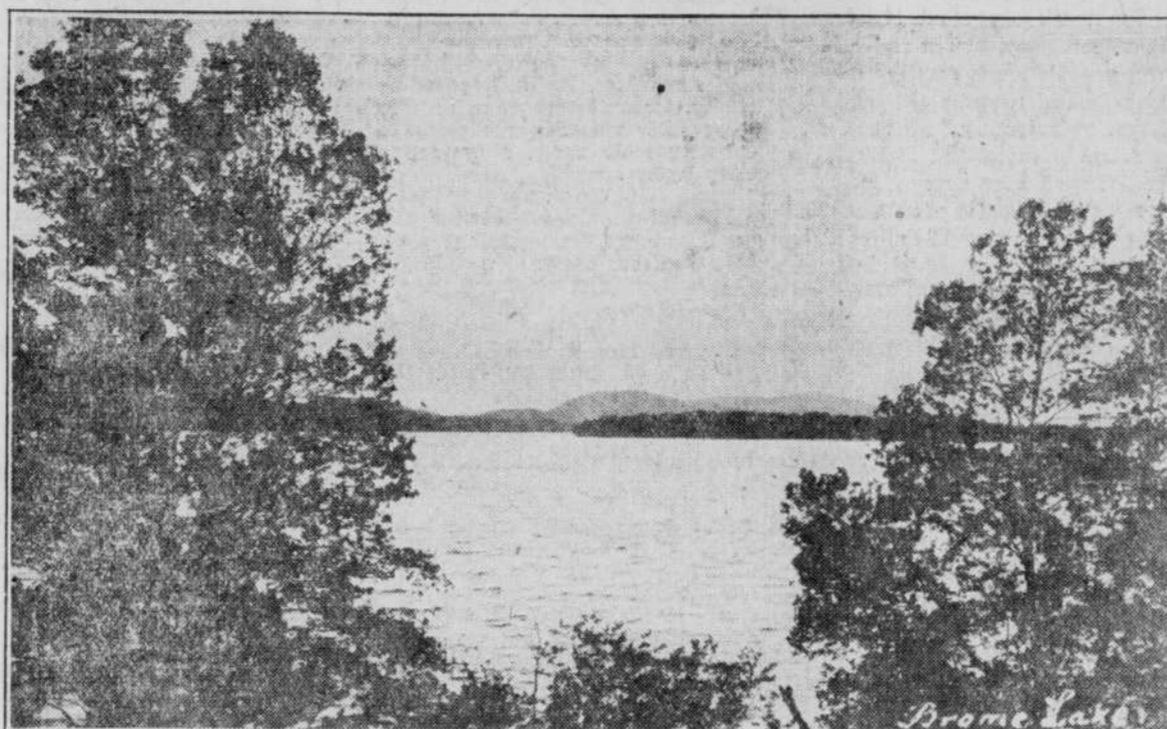

and a black shadow will sweep southerly across the province turning day into night as it races out of the Arctic seas and disappears into the Atlantic Ocean. Not until 1963 will another eclipse be visible in the more settled parts of Canada. The shadow band of total darkness, travelling at the rate of slightly more than one-half mile per second, will embrace an area one hundred miles wide. As it passes over the St. Lawrence river it will extend from the city of Montreal to the village of Les Grondines some fifty miles west of Quebec city. The central line of this darkened zone will pass a few miles east of the town of Parent on the transcontinental line of the Canadian National Railway, cross over lake St. Peter, an enlargement of the St. Lawrence river, at a point ten miles east of Sorel and over the International boundary just a few miles east of the border towns of Derby and Rock Island. The actual time of crossing the St. Lawrence is calculated to be 3:24 p.m., the boundary line 3:27 p.m., after which the shadow touches the northern parts of New Hampshire and Vermont and passing across Maine reaches the Atlantic Ocean at Portland at 3:31 p.m., Eastern Standard Time.

This will be a red letter day in the lives of scientists and parties will locate at selected spots. The full duration of the eclipse will cover

## Brome Lake In All Its Splendor

Charming Brome Lake, one of the most picturesque spots in the Eastern Townships, is an ideal place to spend a holiday or to loiter about for an hour or a day. This beautiful lake reposes as peacefully today as it first did when devised by the hand of nature. The above scene is but one of the many delightful spots to be found throughout this section of historic old Quebec Province.

A period of two and one-quarter hours, though the period of totality will be only 101 seconds. The scientists alone, equipped with powerful instruments, will enjoy the impressive spectacle for the full period, but the majority of observers, content with smoked glass and perforated card, will be restricted to one hour during which to observe the eclipse in its partial and total stages.

The impressive phenomenon will be an unique addition to the already well rounded out programme of attractions which the province of Quebec has to offer for the entertainment of its visitors. The wealth of physical assets and historical associations and the excellence of the sporting fields of Quebec yearly draw visitors from far and wide. Among the many monuments that portray the successive development of state, church and industry they may participate in the gay life of the summer colonies along the St. Lawrence river, enjoy the invigorating air of the mountain resorts, or paddle on northern rivers in an environment of game, fish, camp fires and wooded solitude.

Criminals don't flourish where the good folks behave. The weeds can't get very high if you keep the grass mowed.

The one objection to saying it with flowers is that there's no way to print a price mark on a flower.

When the grocer deducts losses on his income tax return, he just totals the accounts of those who have purchased new cars.

## NEW MOTORCOACH TERMINAL

Consolidates Sherbrooke Service  
OPENING SATURDAY, JULY 30

THE splendid new terminal at 13 Wellington Street South jointly operated by Provincial Transport Company and Sherbrooke City Transit Co., Ltd., provides a central station from which motorcoaches will depart and where tickets may be bought both for city, local and long distance services. Comfortably appointed waiting rooms will make this terminal a convenient meeting place. We invite the Sherbrooke public to visit our new terminal, assuring them of prompt and courteous service in all matters relative to motorcoach travel.

### Private Coaches for Hire

It is far less expensive than you may imagine to hire a private coach for your party for any type of outing. Where groups of friends wish to travel together, a charter coach is an economical and satisfactory mode of transportation.

### Express Parcel Service

For quick delivery and economical rates, we recommend our express parcel service. Our coaches carry express parcels to almost all parts of the province.

### SHERBROOKE-MONTREAL SERVICE

Lv. Sherbrooke 6.30 a.m. Daily. 12.00 (Noon) Daily, 5.30 p.m. Daily.

One Way \$3.00. Return \$5.40.

Sherbrooke-Coaticook: One Way 65c. Return \$1.20.

Sherbrooke-Scotstown: One Way \$1.10. Return \$2.00.

For motorcoach rates and schedules and for reservations, telephone the new terminal. Phone number 921.

ALFRED WOOD, President and Editor.  
GORDON MILLER, Managing Editor.  
C. F. BUCKLAND, Advertising Manager.

We idealize our inventors and idolize their successes. Yet never was a human machine nor a mechanical one produced without many trials and many failures. Whereas, this world and its firmament, in all their endless complications, were perfected in their first production by the one Great Author.

## THE SENATOR IS DEEP.

Senator Borah is one of the thinkingest men in the United States, and his last word on a public question is always looked for and given consideration by his fellow-countrymen. Borah is of presidential calibre, but just somehow lacks the "it" which is possessed by men of lesser mental fibre. Even after the Senate adjourns at Washington, Senator Borah remains in session, and issues a summary of his thoughts.

Over the radio, which is a risky way of making a public speech, the Senator seems to have advocated a direct cancellation of all war debts.

But through the newspapers the Senator is more explicit, and would explain that he had in mind a cancellation of the debts owing to the United States for "considerations," and he now proposes a conference of the debtors and creditors at Washington in the spirit of a "harbinger of peace and the hope of humanity."

He does confess that he would wish for a practical form of world disarmament, which is the spirit of humanity in his mind.

But back of it all there are reservations in his expression of "other considerations."

What are they? We have no doubt that in the back of the mind of the able Senator, whose influence in the United States may be likened to that of Henri Bourassa in French Quebec, there lies the idea of a readjustment of the territories so unwisely arranged by the Big Four at the Versailles Treaty.

England may be asked to pay her debts in the surrender of territory contiguous to the United States, as may France also be asked to surrender the fishery islands which have been turned into rum-smuggling headquarters.

The Senator is deep.

He knows that there are islands in the West Indies which are worth a King's ransom, to the United States, whilst to England they are a liability rather than an asset. British Honduras is another colony in the South American peninsula which is not worth shucks to England, but would be another key to the Panama Canal, for it is on the mainland adjoining Nicaragua and Guatemala, which small countries are now under United States influence.

Canada is inviolable. Already, for the sake of peace and good-will which was never accorded Britain, the British diplomats have contributed slices of Canada, such as the whole State of Maine, the States of Washington and Oregon, and the Alaska panhandle. But never again!

## A CANDID EXPOSURE.

Answering an oft-repeated enquiry as to why the Record so often mentions Nixon Dean and his farm on the Huntingville road, we will take our readers backstage and let them into the secret.

We propose to nominate Mr. Dean as a parliamentary candidate as "the speechless wonder," for he might promise to run for Ascot and Sherbrooke, and not make a single speech from a platform.

Then will we be saved from having to listen to Charlie Howard talking at a farmers' meeting, and telling them how to farm—with railway ties. That will be a relief.

We have maintained that the campaign expenses of a candidate who could walk and work better than he could talk and shirk should not exceed five hundred dollars. The able executive is not always a glib talker.

## A LITTLE LABRADOR INCIDENT NEARER HOME.

Premier Taschereau has a little Labrador affair on his hands, only it appears to be on the opposite side of the case which went against Quebec.

In Three Rivers the paper manufacturers, located in the eastern end of the city, seek a dissolution with the municipality and annexation to an adjoining one, Cape Madeline. The City Council of Three Rivers, in return for reduced taxation, ask that the mill workers live within the boundaries of Three Rivers and thus help make up the loss of taxes.

The pulpwood and paper makers of Newfoundland, refused certain concessions by the Quebec Government, were able to convince the Privy Council that the Labrador Coast belonged to Newfoundland, and so it was severed from Quebec.

This severance of ties, as sought by the paper-makers, would be a bad precedent to admit. A

larger attempt of the kind in the United States, resulted in a Civil War.

We had thought we had seen the last of the slices taken off Canada by those who, across the water, had little understanding of our topography or geography, but this Labrador incident cries out for rectifying. The Government of Newfoundland, responsible for the barefaced theft, has been wrecked for its other sins of commission.

## HURT THE CAUSE THEY ESPOUSE.

Every party has its rabid supporters who do much injury to the cause of the whole party. They are the ill-balanced ones, the men who say the wrong thing and who destroy the chances of those whom they support.

The Democrats are carrying a load of dynamite when they welcome the support of Hearst and his supporting chain of newspapers. Hearst has no fixed principles.

It takes courage and diplomacy to suppress the indiscreet supporter of any cause, whether it be moral or political, and many a party has been wrecked by indiscretion.

People of a certain type should be labelled "dangerous."

We had warned our farmer friends in their re-awakening to demand and enforce the selection of more farm members in our legislative chambers to beware of the professional politician, yet some were admitted to the convention at Ottawa, Good speakers they were, both entertaining and instructive, but too rabidly partisan in spirit to be depended on in an emergency. They are the sort of folk who have a blow-out when rounding a curve.

## WHERE MEN ARE POLITE TO THE LADIES, BUT FIRM.

As it is in Quebec Province, so it is in France. We hand the ladies bouquets and use pretty phrases, but decline to give them the right to vote.

By 233 votes to 40 the French Senate shelved the bill to give to all women over twenty years of age the franchise, with the right to vote in parliamentary and local elections.

In 1922 a similar measure was defeated by 156 to 134, even though the principle was adopted and it was supported by statesmen like M. Viviana and M. Briand.

The female suffragists have not given up hope and will continue to work and to agitate. Offering them the sop of a bill designed "to bring the power of husbands to an end," will not do. This bill is designed to allow women to administer their own property, run their own business, have their own bank accounts, and to suppress the right of any husband to open his wife's letters. Also the pledge "to obey" is to be subtracted from the marriage services.

The women may accept all these gains in independence, but in both France and Quebec they will persist in demanding "Votes for Women." We will see what will happen to the deputy in the Quebec Legislature who was insulting when the Women's Suffrage bill was last debated in Quebec.

## EDITOR'S NOTE BOOK.

The Scripps-Howard string of newspapers, twenty-seven in all, is supporting Roosevelt and so is the Hearst chain; the latter support being a liability. In England, the Rothermere and Beaverbrook chains vie with each other in influencing parties and governments, and their proprietors are now trying to influence the Ottawa Conference. It is difficult to place limitations upon the activities of ambitious men who are wealthy enough to control the daily reading of millions of voters, but it is a power which should be wielded cautiously.

Analyzing trade returns has been more than a pastime in England. There was criticism of Denmark, from whence Britain imports a large percentage of its butter and bacon, and that country was buying very little of British manufactures. Published protests were met by swinging a Government contract for a steel bridge to cost \$10,000,000. All the steel is to be made in England. We make our own bridges in Canada, but we do not use British printing presses.

## THIRTY YEARS AGO TODAY

From the Files of the Sherbrooke Record.  
July 29th, 1902.

The Lotbiniere Lumber Company, formed to carry on a general lumbering business and to operate the Lotbiniere and Megantic Railway, was duly organized with E. W. Tobin, M.P., as president. The directors comprised F. N. McCrea, F. Campbell, B. Quinn and J. A. Begin.

Judge H. W. Mulvena resigned as chairman of the Board of Catholic School commissioners and was succeeded in that position by Dr. P. Pelletier, M.L.A. T. A. Bourque was elected a commissioner to fill the vacancy on the board.

The funeral of Mrs. Neil Campbell, aged 77 years, was conducted by Rev. Wm. Shearer. The bearers were her sons, grandsons and son-in-law, J. W., John and James Campbell, William Long, James Daye and Thomas Long.

Miss Myrtle Fuller, while visiting the family of her uncle, W. H. Fuller, at Garthby, broke the record for lady anglers by landing, unassisted a ten-pound lung.

William Gillespie, Grand Trunk car foreman at Richmond, was presented by his friends with an address and a silver tea service prior to leaving for Battle Creek, Mich., to which point he had been transferred.

North Hatley's summer visitors won a match from the Lennoxville Golf Club, whose team consisted of L. D. Abbott, R. McDonald, Smith, T. McDonald, Dr. Simpson, W. M. Tomlinson and R. R. Burrage.

W. S. Dresser and C. W. Cate, K.C., were announced as visiting governors of the Protestant Hospital for the month of August.

Dr. Russell Thomas returned to Lennoxville after a short period of service with the Canadian Medical Corps in South Africa.

J. Douglas Odell left the office of Worthington & Borlase to accept a position in Montreal.

## LOONBEAMS

by Ted Bullock.

### A SACRED COLUMN IN A SACRED CAUSE

A prize bit of loose thinking comes my way in the form of an editorial in The Boston Record, a tabloid newspaper which I buy frequently in the hope of being able to find out some day why people read tabloids.

The editorial in question is a plea for modification of prohibition in the United States.

In it the argument is advanced that "modification will revive industry, provide much employment, furnish federal revenue and smash the liquor racketeering."

A more superficial blathering of half-truth I have never seen.

No prohibitionist myself, no lover of persons who would enforce on me their own moral standards and theological opinions, I cannot understand why others of moderate views, in an effort to dislodge prohibition, must resort to the very type of argument which made prohibition a farce.

The only statement in the sentence I have quoted which makes any sense at all is the claim that modification will furnish federal revenue.

"Modification will revive industry." What industry? The liquor industry, perhaps; but every dollar spent on hooch of one kind or another will be diverted from some other product.

"Modification will provide much employment." Where? In the breweries, distilleries and pot-houses, perhaps; but the soft drink and other allied industries will suffer in proportion.

"Modification will smash the liquor racketeering." On the face of it, true. But racketeers are trained criminals, and if their liquor business is dried up on them will they not resort to some other brand of crime perhaps even more pernicious?

No, no, my good confreres of the Boston Record.

If you must fight prohibition, at least do not descend to the silly, blatant kind of pseudo-economic preaching which the prohibitionists themselves used to foist their fatuous dream on an unthinking public. There is only one honest way of preaching the "wet" cause.

Admit at once that liquor is wasteful. Admit that it is a drain on the physical and economic and moral resources of a nation. Admit that it is a concession to human weakness. Admit that the man who drinks excessively is inefficient.

Take your stand on the sacred right of the individual to go to Abaddon in his own sweet way, and stick to it.

Your Declaration of Independence sets out certain principles of government which are indisputable in theory.

Your nation is said to be founded on a desire for freedom from unreasonable infringements of your liberties as individuals.

The minute you lose sight of the broader aspects of the basic principles on which your nation is supposed to be built, the minute you attempt to maintain those principles by the petty, niggling appeals-to-expediency which the fervid enemies of liberty have used so successfully among the ignorant to upset those principles, in that minute you become no better than they.

Prohibition succeeded for a while, because for a while prohibition was made a "sacred cause."

When prohibition began to spawn creatures who would lie, and cheat, and advance false statistics, and steal, and murder, everybody got wise to it, and it collapsed.

Modification is in the same boat.

If you want to succeed with it, hold it up as a "sacred cause" so high that no one can see it quite clearly enough to doubt its sacredness.

The reason kings invented thrones in the good old unwashed days beyond the Middle Ages was so that the public would be too busy gawping at the gold and jewels to see the blackheads in the royal noses.

Get your modification first, then lie about it afterwards if you like. But do not begin with the end which killed prohibition.

## CITY BRIEFLETS

### SUCCESSOR APPOINTED TO LATE J. LEMIEUX

It was announced at the City Hall this morning that George Berard, formerly connected with the Ingersoll Rand Company, had been engaged as successor to the late Joseph Lemieux.

Mr. Berard's duties will be to investigate cases which apply to the city for municipal relief. Mr. Berard is well known in Sherbrooke and is a popular member of the Harmony Band.

### PROBE SUDDEN DEATH

Coroner Leonidas Bachand last evening investigated the circumstances surrounding the sudden death of Antonio Cosmo, Grove street, Cosmog, the father of a

## Social and Personal

Miss Arlene Buzzell, of Magog, is spending a week in Montreal a guest of Miss Helen Turner, Victoria street.

Master John Wiggitt, Queen street, is a guest of his aunt, Mrs. Hugh Hatch, Quebec City, for a week.

Mrs. J. S. Baldwin, Short street, is at Lake Park a guest of Mrs. R. E. Butler, Jr., at her cottage by Little Lake Magog.

Master Billy Largy, of Toronto, is spending his holidays in Sherbrooke and Ascot Corner, a guest of friends and relatives.

Mr. and Mrs. E. M. Wiggitt and family, Queen street, have returned home after spending the month of July at their summer cottage at Lake Lyster.

Miss Ruth Cowdy, of Sulphide, Ont., who has been spending a few days with her cousin, Miss Marguerite Cotton, Elm street, is leaving this afternoon for Montreal.

Mr. and Mrs. Arthur Labere and two children, from Stanstead, Miss E. Labere, of Newport, Miss E. Labere and Byron Ellis, of Rock Island, were recent guests of Mr. and Mrs. Walter Graham, Stoke Road.

Miss Ruby Bailey, Winter street, is leaving this afternoon for Montreal, from whence she sails tomorrow aboard the S. S. Silvia for a cruise in the Gulf of St. Lawrence, during which stops will be made at St. Johns, Nfld., Pierre Miquelon and Charlottetown, P. E. I.

Members of the Business and Professional Women's Club motored out to Little Lake yesterday afternoon, where they were delightfully entertained at the Y. W. C. A. Girls' Camp. A cordial welcome was extended to the guests by the "Home City" of Newport, Martine and the girls, who gave them the "freedom of the camp" and arranged a jolly swimming party in which campers and visitors participated. Later an appetizing supper was very much appreciated after the swim.

Quite a large party of ladies motored from Sherbrooke yesterday afternoon and took possession of "The Shack" at North Hatley, which through the courtesy of Mr. McKay and Miss McKay was placed at the disposal of the Y. W. C. A. for a benefit bridge. Mr. Frederick Howay and Miss Bulmer were the conveners in charge of arrangements, and everything possible was done to make the event enjoyable. Success crowned the efforts of the organizers, and eight tables were occupied with players at The Shack, while several additional games were played at Sherbrooke homes by those who could not very well journey to North Hatley. A prize was given at each table, and following the game very delicious refreshments and tea were served. Quite a number of guests came in at the tea hour, helping to augment the proceeds and adding to the festivity of the party. The generous hospitality of Mr. McKay, and the kindly response to an appeal for "cars" to transport the party to and from North Hatley, is greatly appreciated by those in charge.

## MARRIAGES

### DEGUIRE-PROULX

Sweetsburg, July 29.—A quiet but very pretty wedding took place on Monday morning, July 25, at the Church of Ste. Rose de Lima, Sweetsburg, when Miss Alice Proulx, daughter of Mr. and Mrs. Henry Proulx, of "Yanaka Farm," was united in marriage to Mr. Alfred Deguire, eldest son of Mrs. G. Goyer and her first husband, the late Mr. Deguire, Rev. Father J. V. Cordeau, parish priest, officiating.

The bride was gowned in pale green crepe, with hat and shoes to match. After the wedding breakfast, which was daintily served at the home of Mr. and Mrs. Goyer, the happy couple left, amid showers of confetti and good wishes, for a motor trip to St. Hyacinthe, Quebec and other places.

Mr. Renaud, of Cowansville, played the wedding music and Miss Cecile Boisvert sang a solo after the ceremony had been concluded in the church.

About twenty-five relatives and close friends were present at the wedding and the breakfast.

fairly large family and relying upon the municipal authorities for support, dropped dead at the end of his day's work yesterday afternoon. He has been cutting wood for the city near the limits. His death was declared to have occurred through natural causes.

### FORTUNATE ESCAPE

There was a lucky star shining in the heavens last night for a certain Sherbrooke salesman—Moody Sunbury.

Moody was returning home at about ten o'clock last evening from the direction of Bromptonville, when he was blinded by the headlights of an oncoming car and lost control of the vehicle he was driving.

He zig-zagged across the road near the Sherbrooke incinerator and plunged into a twelve-foot ditch. The car came to rest against a telephone post. Moody was pinned beneath.

Jalbert's ambulance was called, and the imprisoned driver, whose foot appeared to be badly crushed, was released.

But to the great surprise of the many people who had gathered upon the scene, Sunbury was able to walk as soon as he was freed from the overturned car. He was uninjured.

Miss Mamie Smith, of Lennoxville, is spending a week in Montreal a guest of Mr. and Mrs. Lee Hardy.

Mrs. Albert Webb, of Guelph, Ont., has been a guest for a week of Mr. and Mrs. Edwin Cotton, Elm street.

Mrs. William Hatcher, of Montreal, is visiting her sister, Mrs. Lee D. Hyndman, and Mr. Hyndman, Moore street.

Mrs. A. E. Colburn, of Magog, was a recent guest of her brother, Mr. W. K. Foss, and Mrs. Foss, Beckett Road.

Miss Ruth Labere, of Rock Island, is visiting her aunt and uncle, Mrs. Walter Labere and Mr. Labere, Stoke Road.

Mrs. F. W. Squire, Main street, Lennoxville, has returned from North Adams, Mass., where she visited friends and relatives.

Miss Andrea Hyndman, Moore street, returned yesterday from Little Lake Magog, where she was a guest of her cousin, Miss Edna Rose.

Mr. Alfred Mitchell, who has been a guest of Mr. and Mrs. W. K. Foss, Beckett Road, for the past ten days, has returned to his home in Montreal.

Dr. and Mrs. A. E. Whitehead and Miss Betty Whitehead sailed last night from Montreal, aboard the Lady Somers, for a trip to Bermuda.

The Ven. Archdeacon and Mrs. C. W. Balfour and Mrs. J. G. Balfour occupied a cottage at Ayer's Cliff for the past two weeks, are leaving by motor tomorrow en route for their home in Sault Ste. Marie, Ont.

Miss Noreen Dunsmore, who has been a guest of Miss Betty Johnston, a former sister-student at Macdonald College, at the latter's home in Lisgar for the past week, is expected home tomorrow night.

Mrs. Henry Gordy and her son, Gilbert, who have been visiting friends and relatives in Sherbrooke, have left for Montreal, where they will spend a few days the guests of the former's sister, Mrs. W. Herington, en route for their home in Sulphide, Ont.

Mrs. W. J. Nutbrown and her daughter, Miss Dorothy Nutbrown, High street, are leaving tonight for New York City, where they will be guests of the former's sister, Mrs. W. H. Adams. Later Mrs. Nutbrown and her daughter will go on to Old Orchard Beach, Me., where they will be joined by Mr. Nutbrown, who will accompany them home to Sherbrooke.

## THEFT CHARGE DISMISSED FOR LACK OF PROOF

Lorenzo Gagnon, of Sherbrooke, Denied He Had Stolen from Bown Company at Lennoxville After Alleged Accomplice Implicated Him in Robbery.

Donat Desharnais, of Lennoxville, complained to the Magistrate's court this morning that Lorenzo Gagnon, 23, of this city, had started him on his short career of crime while the pair were attending school together. This evidence was given when Desharnais testified against Gagnon who faced the court on a charge of stealing lumber, shingles and paint from the Bown Company at Lennoxville.

Desharnais, already serving time for another offence, appeared in the witness stand in prison garb and, after asking the protection of the tribunal, related that he had accompanied the accused when the theft was committed. He claimed that Gagnon had shown him the "ropes" and placed the entire blame on the shoulders of the accused.

After Gagnon had been placed on guard, he entered the box and denied any knowledge of the robbery. The case was accordingly dismissed, the prosecution reserving the right to continue the affair if additional evidence is unearthed.

Oliva Samson, of Kingscroft, was condemned to the time he had already spent in jail when he pleaded guilty to a charge of simple assault. The charge arose from a family quarrel.

Consideration of his youth and sympathy for his family caused justice to be tempered with mercy in the case of Joachim Bourret, of Johnville. The young man had been found guilty of several thefts and received six months sentence on one occasion, but sentence was suspended on the other complaints. Bourret, however, was warned that he would be sent to the penitentiary if he continued his waywardness after his release from jail.

Philodolphe Fournier, of Magog, pleaded guilty to a charge of the illegal possession of a still. The accused was arrested by Constable O. Lessard, of the R.C.M.P., and received the minimum sentence of one month in jail, \$200 and costs or six additional months in default of payment. Before he was returned to jail, Fournier was brought back into court, and it understood was freed on bail for fifteen days to allow him an opportunity of collecting sufficient money to pay his fine and the costs of the Court.

For driving a car without this year's registration and without a license, Delphis Allaire, of Scottstown, was fined ten dollars and costs on each charge.

## ALDERMEN HAD A FINE HOLIDAY AT CONVENTION

Various Delegates to Municipal Convention Spoke in Very Praiseworthy Manner About Sherbrooke.

Sherbrooke's three municipal pilgrims, Aldermen E. H. Fortier, M.P.P., Omer Blais and F. Gelinas, have returned to their home port after attending the fourteenth annual convention of the Quebec Union of Municipalities, which was held on board the SS Laurentic as it peacefully made its way from Montreal to New York.

They returned full of optimism and thoroughly satisfied with the trip. When encountered at the City Hall this morning Mr. Fortier wore his usual pleasant smile, and although he was glad to be back home again, nevertheless reported a pleasant and profitable journey. "It was certainly very encouraging for us to hear all the nice things which were said about Sherbrooke. Whether speaking in a public way or in intimate and personal conversation, all delegates from outside points were agreed that our city was in a very praiseworthy condition, especially financially," Alderman Fortier said.

Alderman Omer Blais was another optimistic soul. He likewise spoke favorably of the gathering, but admitted that he was glad to be in Sherbrooke once more. "Sherbrooke is always Sherbrooke and home no matter where you go," he said.

One of the most important resolutions adopted by the Union prior to its conclusion was the modification of the municipal contributions to the "back-to-the-land" federal project. The resolution was moved by Alt. J. M. Gabis, of Montreal, and asks, in its essence, that the municipality should be called upon to pay no more for establishing a family on the land than it costs to pay towards its direct relief. The resolution reads as follows:

Resolved: Whereas colonization and the establishment on arable lands has always been considered,

and is still considered, as being within the executive domain of the federal and provincial governments;

Whereas, municipalities should restrain their activities to the development of their own territory and it is not reasonable that they should be held to contribute to the development of other municipalities or development in unorganized territory;

Whereas, in the present "back-to-the-land" project the municipal contribution is set at a rate equal to that of the federal Government and of the provincial government;

Whereas, this proportion is excessive for the municipalities since it imposes upon them a burden too heavy in view of the real benefits which they will derive from the carrying out of this project;

Whereas, the municipalities are not specially interested in the project beyond the extent of the amount by which their direct relief funds will be lightened;

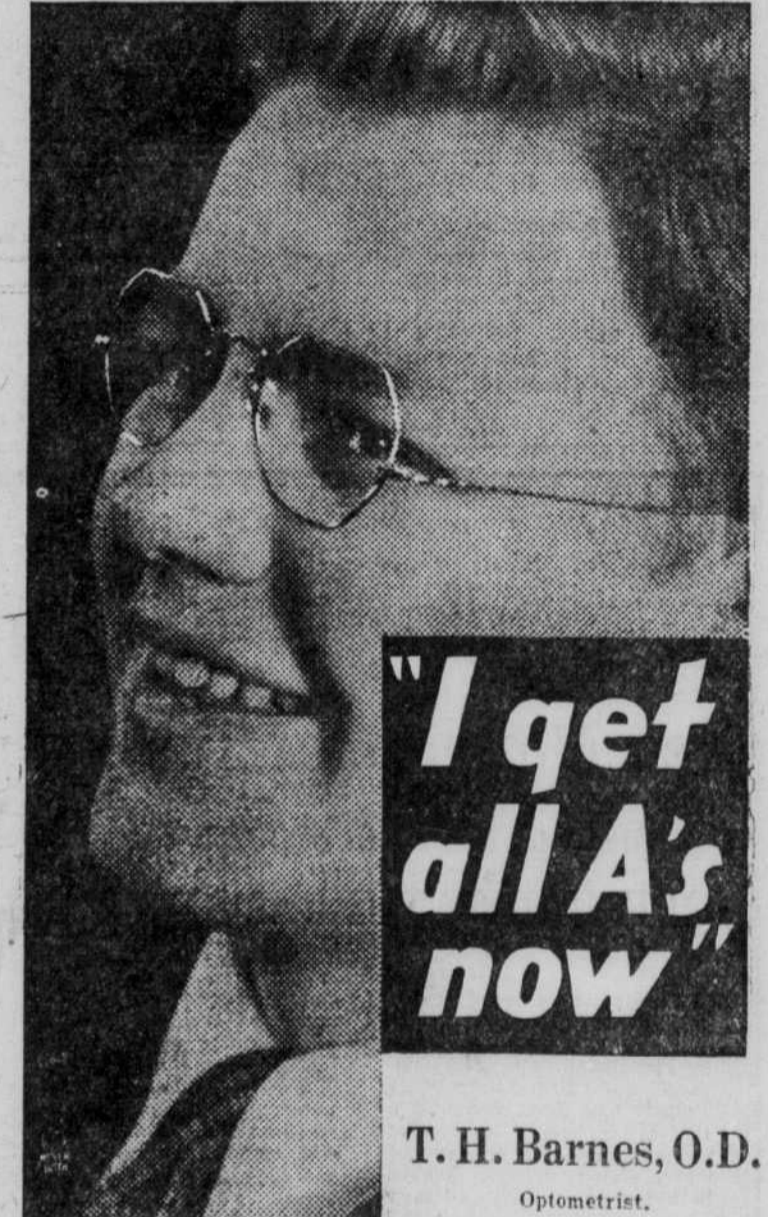

Whereas, this direct relief help will be less costly than expenditure under this "back-to-the-land" project;

In consequence, it is resolved that representation be made to the federal and provincial governments asking for a modification of the project whereby the contributions of the municipalities will be reduced to the basis of direct benefit, and, furthermore, if the governments cannot maintain their contributions at present maximums because of lessening municipal support, the said governments be begged to permit the municipal authorities to subscribe an amount less than \$300, the governments engaging to triple this amount by each subscribing an amount equal to that of the municipality.

## FORMER SHERBROOKE PHYSICIAN DEAD

A former prominent Sherbrooke physician in the person of Dr. W. O. Lambly has passed away at the Hanover, N.H., hospital. Dr. Lambly was well and favorably known in this city a few years ago, and had many friends who are grieved to hear of his death. He formerly lived at 16 Montreal street and was a member of the staff of the Sherbrooke Hospital. He moved to Lebanon nine years ago and practised there up to the time of his death.

Mrs. Lambly is returning to Canada to live, and will make her home in Stanstead.

"I get all A's now"

T. H. Barnes, O.D. Optometrist.

Offers you the use of his scientific instruments for testing your eyesight and for proving the glasses which may be prescribed to save or conserve any failing in vision.

You'll be happy to see and happier to know.

T. H. BARNES or his Associate, G. G. CODERE, 41 King street west, Upstairs.

Montreal Office: 432-436 Old Birks Building.

**MORE FREQUENT COLLECTION OF GARBAGE ASKED**

**Citizens Claim that Present Infrequent Removal of Refuse is Endangering Health of Taxpayers.**

The system, or rather lack of system, of the Municipal Health Department in the removal of garbage is bringing in a stream of complaints from Sherbrooke citizens. In years past the refuse from the houses was collected twice a week by the municipal employees, but last fall, in an endeavor to compensate for the heavy expenses of St. Francis street, a wave of economy swept the City Hall and the number of collections was cut down to one a week.

During the fall and winter months the inconvenience was suffered uncomplainingly as the cold weather served to prevent unduly rapid decay of the excess food thrown into the receptacles. Citizens also believed that in the spring the officials would help alleviate the unemployment situation by taking on a number of men and improving the collection service.

But spring came and no additional calls were made by the collectors. The same old weather and the disadvantages of the once-a-week system became apparent. Food placed in the cans the day after the collection remained there for six days, and sometimes longer. The result was that in many cases it made its presence known.

One housewife complained that she bought a large roast of beef for the week-end. The garbage was collected on Monday morning. On Tuesday, the roast being found to be unfit for further human consumption was thrown into the receptacle. Days passed and the meat began to make its presence known. Monday came, but no collector. Tuesday passed without the container being emptied, and it was not until Wednesday that it was finally removed.

Another householder also had her tale of woe. Some of her neighbors had dogs. And dogs and garbage pails seem to have an affinity, for on several occasions the refuse containers were overturned by the canines. When the refuse was never over three days old, the task of collecting the contents of the receptacle, although unpleasant, was not unbearable. But with foodstuffs in a five or six day stage of decay the duty was, to say the least, sickening.

It is not alone on the grounds of odor that the citizens are demanding an improvement in the present methods of gathering refuse. The health of the children and even of the adults is endangered by the practice of leaving decayed foodstuffs on back porches for as long as a week at a time. And where else can the refuse be left unless it is removed by the city department charged with the work.

Citizens feel that with an expensive incinerator constructed last year, better arrangements could be made to protect the comfort and health of the taxpayers.

**"STREET FAIR" TO OFFER MANY ATTRACTIONS**

Afternoon tea, pony rides, ice-cream, soft drinks, mystery table, "Bingo" and "Fish Pond" among features at "Street Fair," Mitchell Park, Thursday next, weather permitting.

**BANK CLEARINGS DROP.**

The bank clearings the past week amounted to \$472,567.44, according to statistics issued by the Sherbrooke Clearing House this morning. This is a decrease of \$118,485.82 compared with the total of \$591,053.26 for the corresponding period last year.

The past week's total also recorded a decrease of \$182,350.96 compared with the clearings for the same week in 1930 of \$654,918.40.

**"WHEN YE GANG AWA"**

The Record will be sent to you for a day, a week, a month, or for the summer season, should you go away during the vacation.

Should you wish to stop your town delivery, the short term subscription stands as before:

The Record reaches most every place in Quebec Province the same day, or early next morn.

**GIRDLING THE EARTH WITH CORN FLAKES**

An interesting example of the international scope of the appreciation accorded Kellogg's ready-to-eat cereals is provided by the gold medal award given Kellogg's Corn Flakes at the recent Levant Fair at Tel-Aviv. This is the first international exposition held in Palestine's rebuilt and modernized city. Presided over by Lieut. Gen. Sir Arthur Grenfell Wauchope, High Commissioner for Palestine, the fair attracted exhibits from a large number of manufacturers.

**HIGH BLOOD PRESSURE**

Relieve this with a new preparation which is the extract and the very essence of the green stuff of plant life. Not a drug or stimulant, and is non-habit forming. It is claimed by an English scientist that the Tablets are equivalent to taking four pounds of Spinach per day, yet are easy to take and do not interfere with any other medicine or treatment. Write to JUVENITE, 112 McGill street, Montreal for circular. One bottle will last three weeks and will cost \$1.25 post paid.

**NOTE LULL IN POLICE WORK IN THIS CITY**

**Statistics Record that Although Robberies in City Increased Slightly Compared With Same Period Last Year, There Was a Decline in Other Offences.**

"It's the depression!" one might say in trying to explain the lull in police work during the past seven months.

There are few people that this much discussed depression has not affected, and even the lawbreaker has not been immune. Police records show that while robberies in the city increased slightly compared with the same period last year, other offences have diminished in number.

The motorist has deemed it wise, and more economical, to drive slowly—and save his money. Seventy-six automobilists to date were arrested and fined in the Police Court, compared with no less than 105 during the same period last year. June and the present month proved to be the trying periods for the auto drivers that failed to observe the municipal by-laws, no less than fifty-seven being apprehended. The latter part of this month has witnessed a noticeable improvement in the situation. In fact, the motorists seem to have learned their lesson.

In all, to date, there have been 281 arrests in the city this year, compared with 401 for the same time in 1931.

The principal item is the arrest

of Frederick Appleton for the murder of Alderic Couture, resident of Milby. This was the only homicide among the several committed in the Eastern Townships which fell, indirectly, within the jurisdiction of the Sherbrooke police.

Ten persons were arrested for robbery this year, compared with thirteen in the first seven months of 1931. The present month witnessed the apprehension of Cadorette and Lafrance, two bold characters, who faced the local Magistrate and were convicted on a number of offences.

Also as a result of the "depression" fewer inebriated gentlemen have appeared in the Police Court this year. There have been only 115 cases of drunkenness on the roll before Recorder Forest to date, compared with 163 last year.

But while there has been a lull in these phases of police activity, the members of the force have certainly not been idling or resting upon their oars. There has been work aplenty to do. Unfortunate local families, helpless and penniless, have received protection and assistance.

There was an increase of 223 persons seeking protection at the police station this year compared with last year's figures. To date, 1,209 homeless characters have applied at the station for shelter and have been taken care of. Last year during the same period 986 persons made application.

Mrs. Cora Sullivan has returned home from North Hatley where she has been for some weeks. She spent the week-end with Mrs. W. Horn.

Mrs. Sullivan has been engaged to teach school at Georgeville the coming year.

WINDSOR MILLS

On Friday evening, July 22nd last, D. D. P. Sister Clara Robinson and suite installed the following officers of Willowdale Rebekah Lodge No. 24, I.O.O.F.: Noble Grand, Sister Mildred Varney; Recording Secretary, Sister Mabel Campbell; Financial Secretary, Sister L. Fowler; Treasurer, Sister N. Sykes; Warden, Sister G. Noble; Conductress, Sister M. Perkins; R.S.N.G., L. Tamer; L.S.N.G., J. Robinson; R.S.S., Sister C. Wark; L.S.S., Bro. H. Ward; Inside Guard, Bro. S. H. Ward; Outside Guard, Bro. I. Robinson; Organist, Sister L. Sims; R.S.V.G., Sister A. Greenlay; L.S.V.G., Sister M. Gilkerson.

On Thursday evening, July 21st last, the 1st Troop Rover Scouts of Windsor held a dance at the home of Mr. and Mrs. J. J. Watt. There was a large crowd of the younger people present. Mr. Norman Sandberg acted as M. C., and Rover Mate, H. Dubuc was in charge of the refreshments.

The members of the parish of St. George, Windsor Mills, were shown on Tuesday, July 7th, how attractive an object lesson can be. We, who, in these days are apt to congratulate ourselves upon our sophistication, might well consider, after seeing the performance given by our Ladies' Guild, how very unfavorably the gala night compares with the simpler pleasures of an earlier day on the village green, when the folk danced, and maypole dance was the most popular and most picturesque, and it would be a great pity if it were lost to future generation. Various folk dancing societies are doing excellent work in portraying the many more or less intricate dances, which were, one imagines always more of a spectacle performed by

experts than a general jollification, but 'round the maypole the whole village gathered, young and old. Everyone could do the more simple weaving of the maypole ribbons and there were always a number who could make the most complicated designs. It is not to be expected that the children of Windsor Mills should be able at short notice, to weave and unweave, but they gave a very pleasing performance and the little white-clad dancers were effective against the background of the beautiful garden of Mr. and Mrs. J. G. Harley's house. Mrs. Ellis was the producer of the entertainment which opened with a procession, headed by two Boy Scouts followed by the May Queen (Miss Dorothy Ellis) whose tiny trainbearers were Frances Johnston and Shirley Watt. These babies looked very sweet, one in green and the other in pink. The King (Bruce Harley) who followed, had his train carried by Beresford Watt, dressed as a page. Behind him came the white-clad dancers. These were Mildred Varney, Muriel Varney, Alva Perkins, Christine Castonguay, Daisy Sundborg, Betty Sundborg, Grace McCarthy, Katherine Witty, Mary McCubbin, Katherine Thompson, Eunice Moore, Ethel Frame, Mary Frame, Lorraine Hobbs, Thelma Hobbs and Margaret McCrachen. After the other dances, a solo dance was given by Marjorie Dunn, whose butterfly costume and clever dancing were the outstanding features of the day. Tea was served on the spacious verandah by the members of the guild. The weather, which had given some cause for anxiety, was everything that could be desired and contributed to the success of a delightful afternoon.

CANTERBURY

Mr. and Mrs. Bert Gove, of Boston, Mass., Mr. and Mrs. Harry Cowing and Mr. and Mrs. Charles Bennett, of Scottstown, were guests Sunday of Mr. and Mrs. Neva Asker.

Mr. and Mrs. Robt. Mayhew, of Bury, were guests of Mr. Wm. Mayhew, Sunday.

Choose the oil that gives you "DEPRECIATION CONTROL!"

DEPRECIATION is the glutton of car expenses. It eats up 30% of the total cost of running the average car. Control depreciation—and you have achieved the maximum saving in car operation! And depreciation can be controlled—your car's life prolonged—its resale value kept high—by using the correct oil! Oil containing all four essentials of correct lubrication as specified by automotive engineers. The crudes from which Shell Motor Oil is made are selected, refined, and blended so as to make a perfectly balanced lubricant embodying all four of these qualities.

Depreciation, gasoline, and repairs total 58 per cent of car operation expenses. Shell Motor Oil will only 3.5%—affects all three. Shell Motor Oil will protect your investment—keep gasoline and repair bills down. It's economical to change to Shell.

How will YOUR car be running at a mileage figure like this? Use Shell Oil; change irregularly... you will get the same splendid performance and long mileage as thousands of other Shell users in Canada.

In a test of six nationally-known motor oils, Shell was the only one to make a perfect score on all four lubrication essentials. Samples of Shell Motor Oil pass 259 laboratory tests to assure that this high standard is maintained. Shell offers the highest protection for your car. And yet, it is not a premium-priced oil! It's a waste to pay more than it costs... and it's unsafe to pay less! Let the Shell man change your oil this week-end. There's a station, or dealer near you!

For your protection—change to SHELL

BRINGING UP FATHER

Miss Norma Smith is home after spending a few days with her sister, Mrs. Harold Snaden, at Danville.

BURY

At a meeting of the school board held on Saturday afternoon, July 23, at which a full board was present, considerable business was transacted. The two new members, Messrs. A. Whitehead and W. G. McLeod, were duly sworn in. Mr. Whitehead was reappointed chairman for the ensuing year. A resolution of appreciation by the board was made for Mr. J. F. Groom, the school commissioner who has been a faithful member of the board for twenty-four consecutive years. It was decided to call for legal tenders for the conveyance of the pupils for the three schools, Bury High School, the Brookbury and Canterbury Consolidated Schools, also for janitor for the same, all tenders to be in by noon, August 13, when the next meeting will be held and the contracts awarded.

A delegation from Sawyerville, composed of Rev. E. M. Wilson and Messrs. A. G. Hurd and L. H.

Hunt, was present to make arrangements for the accommodation of the pupils from the Township of Newport.

The tax for the ensuing year was levied, being placed at eight mills, same as last year. The school fees are also to be the same as last term, namely any resident ratepayer or whose school tax amounts to \$5 or over is exempt from paying school fees for his children. The auditor's report was read and accepted, and other business matters disposed of, after which the meeting adjourned until August 13.

The results of Grades IX and X of Bury High School have been received from Quebec and are as follows: Grade X—Patricia Bennett 617, Gordon MacRae 610, Ina Davies 547, Dorothy Rich 511, Reta Mayhew 458, Nellie Midwood 440, Verna Goodin 335.

Brookbury Consolidated School, Grade X—Verlie Martin, 723, George Coates 451.

Bury High School, Grade IX—Glenna MacRae 1,052, Evelyn Saunders 893, Edmund McDonald 875, Gonet Card 859, Clara Ross 835, Gordon Kirkpatrick 825, George McCintock 800, Edwin Johnson 730.

Brookbury Consolidated, Grade IX—Reta Batley 1,082, Flora Hooker 1,061.

Mr. and Mrs. H. C. Barter and family, of Newington, spent a week with Mr. Barter's parents, Mr. and Mrs. Oliver Barter, and left on Saturday, July 23, for Stanstead, where Mrs. Barter and children are remaining a week with the former's parents, Mr. and Mrs. P. L. Ellis. Mr. Barter will return for his family the end of this week.

Mr. and Mrs. J. H. Worby have returned from a few days' visit with relatives at Beebe.

Mr. George Morrow of Montreal, is spending his vacation with his parents, Mr. and Mrs. Hugh Morrow.

Mrs. Roe is spending a vacation in West Stewartstown, N.H., with her daughter, Mrs. Fred Morrill, and Mr. Morrill.

Dr. and Mrs. Brazenall were in Colebrook, N.H., over the week-end the guest of relatives.

Messrs. J. W. Kinley, Clifford Anderson, Victor Palmer and Nelson Ward left on Sunday morning, July 24, for the Canadian west, where they hope to secure employment in the harvest fields. They are making the trip by motor.

Mr. Eddie Pehlemann has returned to Quebec after spending his vacation with his parents, Mr. and Mrs. A. Pehlemann. Miss Annie McLean was also a recent guest at the same home.

Mrs. R. L. Manchester, of East Hampton, Mass., and Mrs. McDowell, of Nashua, N.H., were recent guests of the former's sister, Miss Emma Pehlemann, and other relatives.

Mr. and Mrs. Thos. Warburton and children, of Nashua, N.H., were recent guests of Mrs. Warburton's mother, Mrs. Tallie Olson, and Mr. and Mrs. Ole Olson.

Dr. Shippam's many friends will be interested to know that he is enjoying a holiday which will be spent partly in Vancouver and also at Edmonton, Alta., with his father.

Mr. and Mrs. A. J. Hunt motored to Montreal on Sunday, July 24, and spent a few days.

Mr. and Mrs. M. T. Stokes and Mrs. W. E. Goedenough were in Montreal on Thursday, July 21.

Miss Edith Ward, of Lynn, Mass., has been visiting her sister, Mrs. Fred Gilbert.

Mr. Donald Stokes was home from South Stukely on Sunday, July 24.

Mr. Romeo Lapointe was in Sherbrooke for a few days last week. Mrs. Lapointe's sister, of

Lake Megantic, is visiting her.

Mr. Arthur Allison had the misfortune to have a fine horse killed by lightning on Saturday, July 23.

Mrs. Murdock, of Stanstead, is spending a couple of weeks with Mrs. Sam Ord.

The St. Paul's Guild social which was held recently in Memorial Park was a great success. The Bury Band was augmented by members of the Scotstown Band, a few of whom were young ladies. The various and many selections played by the band were much enjoyed by the large audience present. During the evening the rector on behalf of the officers of the St. Paul's Guild, thanked all the performers, especially the ladies, for their appreciated kindness and valuable assistance.

On Sunday, July 24th, the infant daughter of Mr. and Mrs. Cecil Dunsmore, of Sherbrooke, was baptized in St. Paul's Church by the Rev. C. T. Lewis, rector, and was named Marion Louise.

The annual service for the Little Helpers' branch of the W.A. was held in St. Paul's Church on Wednesday morning. There was an attendance of forty. An appropriate address was given by the rector, Miss Trombly presided at the organ and the children's hymns were sung heartily. After service the Little Helpers were joined by the teachers

and scholars of St. Paul's Sunday school and a picnic was held in the Memorial Park. Officers and members of the W.A. served coffee, cake, and ice cream to every one present.

### RUTH RETURNS TO SMASH TWO CIRCUIT BLOWS

**Crippled "Babe" Drove in Seven Runs as Yankees Trounced Cleveland—Piet Helped Pirates to Down Giants Twice—Chicago Turned Back Slipping Boston Braves.**

New York, July 29.—The Texas League, proving ground for the hero of the last world series, Pepper Martin, may also have spawned the shining light of the next play-off games. Tony Piet, the young second baseman of the Pittsburgh Pirates, who walloped six hits, including a pair of home runs, drove in nine runs and scored four times himself to help trounce the Giants twice yesterday by ten to seven and nine to one, has all the earmarks.

Piet, like Martin, took over his berth with the Pirates at the start of the season without benefit of halcyon. And, while opposing teams have waited for George Gibson's juvenile infield to "blow," Piet has become an outstanding star on a team that appears headed for a pennant.

Born at Berwick, Pa., twenty-five years ago, Piet played with a semi-pro outfit around Chicago before he signed with Corsicana, Texas, in 1928. With Waco, of the Texas League, he batted .446 in 1929, and in 1930 clocked for a .320 average. The Pirates brought him up last season and in forty-four games he hit .229 and had a fielding mark of .987, second best among National League infielders.

A six-footer, weighing around 185 pounds, Piet has proved he can field and hit with the best of them this year. Where he didn't hit a single home run last year, his two circuit smashes yesterday ran his season's total to five, and he was hitting an adequate .311 today. In addition to his great hitting exhibition against the Giants yesterday, Piet handled nineteen chances without an error. The two victories gave the Pirates five out of six games for their current series with the New Yorkers, and put them five and a half games in front of Chicago.

For their part, the Cubs turned back the slipping Boston Braves by four to one, with Len Warneke hanging up his ninth straight win and his sixteenth victory of the year. Warneke knocked in two runs.

The Cincinnati Reds halted the Phillies again by seven to four, when George Grantham smote a home run in the ninth inning with two mates on base. Brooklyn made it four out of five games over the St. Louis Cardinals by splitting a doubleheader. The Dodgers took the first by nine to six and dropped the nightcap by eight to six.

With Babe Ruth, the old "has-been" himself, returning to the line-up to bang his twenty-seventh and twenty-eighth home runs of the campaign and drive in seven runs, the Yankees took a ten to one fall out of the Cleveland Indians in an American League fixture. Earl Averill's four-bagger deprived Ruffing of a shutout.

Eddie Durham pitched pretty ball, keeping nine hits well spaced, to give the Boston Red Sox their third straight triumph over Chicago by two to one. Walter Stewart pitched the St. Lou's Browns to a six to four win over Washington and singled across two runs.

Detroit made enough runs off Kim McKethan, former Duke University star, in the two and a third innings that marked his debut with Philadelphia to defeat the Athletics by four to two.

### YESTERDAY'S INTERNATIONAL LEAGUE RESULTS

Montreal 2, Rochester 1.
Newark 2, Reading 1.
Buffalo 11, Toronto 6.
Baltimore 9, Jersey City 6.

The home run leaders, including yesterday's games, are: Fox, Athletics, 41; Klein, Phillies, 30; Ruth, Yankees, 28; Simmons, Athletics, 26; Gehrig, Yankees 24; Averill, Indians, 24.

### MEN'S SINGLES PLAY REACHES SEMI-FINALS

**Mac Dunsmore and Guy Bertrand, Both Members of St. Francis Club, Enter Select Circle—Dunsmore Provided Upset by Downing Lennie Wolfe in Straight Sets.**

Two semi-finalists in the men's singles event of the Sixth Annual City Championship Tourney were declared last evening, one a youngster tasting his first tournament experience and the second a veteran who has participated in several tournaments. Mac Dunsmore, a youthful member of the St. Francis Tennis Club, graduated to the select four by providing an upset in the quarter-finals when he downed Lennie Wolfe, Y.M.C.A., in straight sets, 8-6, 6-3. The younger player's better condition proved too great an obstacle for the veteran Y.M.C.A. man, who was routed in the second set after carrying Dunsmore to fourteen games in the opening chapter.

The second semi-finalist, in the lower bracket, is Guy Bertrand, who avenged the defeat suffered by his younger brother, Claude, at the hands of Lucien Goyette, Bertrand, ranking number two player at St. Francis, made the opening set a walk-away, losing only one game, but was pressed over the second route, which he captured by a count of 7-5.

Bob Dunsmore, number five ranking player at the Park avenue club, earned the right to meet the winner of the Gregoire-Biron match this evening by trouncing Earl Hall in straight sets. Dunsmore's superior steadiness was the deciding factor in the battle which he won by scores of 6-1, 6-2.

Armand Ledoux, ranked third at St. Francis, after drawing a bye in the elimination round, was carried to three sets to turn back A. Reid, 8-6, 6-2, 7-5, while Raoul Gagne, the defending champion, found little difficulty in eliminating Christopher Vincent by 6-3, 6-4.

Only one ladies' singles match, was played, Miss Helen Wolfe, runner-up to Mrs. Lillian Lowe in the St. Francis ranking system, suppressing the threat afforded by Miss Eileen Barlow. Both young ladies provided keen entertainment for the large gallery, Miss Barlow's courageous stand in the second set falling short of evening matters. Miss Wolfe captured the opening set by 6-2 and trailed four to two in the second set before rallying to take four games in a row for the match. The victory placed Miss Wolfe in the quarter-finals, meeting Miss Sylvia Loomis this evening for the right to play Miss Kay Merrill tomorrow afternoon in the semi-finals.

Two mixed doubles pairs entered the semi-finals in this division. Mrs. Lillian Lowe and Connie Gregoire, seeded number one team, outdrove Miss Bernadette Langis and Emile Moneasa to win in straight sets by scores of 6-3, 6-2. The four players drove continually the long rallies and beautiful placements drawing applause from the gallery.

In the second match Miss Mariette Daigneault and Gaston Cote came from behind in both sets to defeat Miss Irene Olivier and Hugh Crochere by scores of 6-4, 7-5.

The games scheduled for tomorrow afternoon are as follows: St. Francis Club courts—2:30 o'clock, court No. 1, Miss F. Bradley will play winner of Miss Langis vs. Mrs. L. Lowe, court No. 2, Miss K. Merrill will play winner of Miss H. Wolfe vs. Miss S. Loomis; 3:30 o'clock, court No. 1, Gregoire and Bertrand vs. Goyette and Robert; 4:30 o'clock, court No. 1, Misses Olivier and Goyette vs. Misses Bradley and Loomis.

Country Club courts—2:30 o'clock, court No. 1, A. Reid and T. Stevens will play winners of M. Dunsmore and R. Dunsmore vs. J. Kelly and A. Hibbard; 3:30 o'clock, court No. 1, Wolfe and Hall will play winners of Cote and R. Gagne vs. Flanders and McKenna.

The detailed results of yesterday's games are as follows: Men's singles—R. Dunsmore defeated E. P. Hall, 6-1, 6-2; M. Dunsmore defeated L. Wolfe, 8-6, 6-4; A. Ledoux defeated A. Reid, 7-5, 6-2, 7-5; R. Gagne defeated C. Vincent, 6-3, 6-4; G. Bertrand defeated L. Goyette, 6-1, 7-5.

Ladies' singles—Miss H. Wolfe defeated Miss E. Barlow, 6-2, 6-4. Mixed doubles—C. Gregoire and Mrs. Lowe defeated E. Simoneau and Miss B. Langis, 6-3, 6-2; G. Cote and Miss M. Daigneault defeated H. Crochere and Miss I. Olivier, 6-4, 7-5.

### TWO CANADIANS AND TWO AMERICANS IN CANADIAN SEMI-FINALS

Ottawa, July 29.—Around the dapper Marcel Rainville, of Montreal, and the tall, rangy Walter Martin, of Regina, both members of Canada's Davis Cup team, are converged the Dominion's hopes of victory in the Canadian men's singles championships against two strong American invaders, George Lott, Jr., of Chicago, and the youthful Milwaukee boy wonder, Frankie Parker. In the semi-finals this afternoon the flashy Montrealer opposes Lott, second ranking United States player, while Martin plays Parker.

In the quarter-finals yesterday, Parker gained an easy victory over Roland Longtin, of Montreal, by scores of 6-1, 6-1, 6-1, while Lott was forced to four sets before downing Leo Boucher, of Montreal, by 6-3, 2-6, 7-5, 6-4. Gilbert Nunn, another Canadian Davis Cupper, fell before Rainville in straight sets, 6-2, 6-2, 7-5, and Martin eliminated the third American threat,

### CANADIANS END TRAINING FOR OLYMPIC GAMES

**Canuck Track and Field Hopefuls Pronounced in Peak of Condition—Jimmy Ball Expected to Be Ready to Face Starter's Gun—Scullers Receive Pre-Game Attention.**

Los Angeles, July 29.—Training for Canada's track and field troops tapered to an end today, forty-eight hours before the athletic battalions of the world clash in the opening engagements of the tenth modern Olympic games. With the single exception of Jimmy Ball, of Winnipeg, the Canuck hopefuls were pronounced in the peak of condition for the contests. Ball has another week to recover from a leg injury and is expected to be ready for the starter's gun in the 400-metre event.

Stern opposition faces the Dominion's outstanding performers in the second set after carrying Dunsmore to fourteen games in the opening chapter. Young Bert Pearson, Hamilton schoolboy sensation, is bracketed with the United States' greatest dashman, Ralph Metcalfe. The defending Olympic champion, Percy Williams, meets Kornig, veteran German star. Until the draw is officially announced, it will not be known what opposition faces Harold Wright, third Canadian entry in the sprints.

Attention of pre-game observers yesterday was diverted to the scullers, with Hamilton Leanders' great eight drawing more than a little applause. The oarsmen are working out at Long Beach, twenty miles from here, and are trying to become accustomed to the "feel" of salt water. The Halifax Mic Maes with their four-oared boat has shown great improvement since their arrival, while the Vancouver doubles team of Noel DeMille and Ned Pratt are in splendid shape. Joe Wright, Jr., Toronto, former Diamond Sculls winner, who lost to Rutherford, of Cornell, at the Canadian Henley, is believed to be in better condition and is expected to garner a few points for the Dominion.

Swiftly and without the remotest loophole for repeal, the great Finnish athlete stood barred today from all Olympic competition by a curt decision respecting his entry, based upon charges that he became a professional by accepting money beyond his expense requirements for a 1931 barnstorming trip through Germany.

As a result, the Olympics suddenly have been bereft of their greatest track and field drawing card, Nurmi's ambition to crown a fourth Olympic appearance with a marathon triumph has been shattered, and Finland's rugged little athlete band has been thrown into a state of semi-revolt.

Imports from Germany covered a wide range of products, but the chief items were classed under chemicals and chemical products, amounting to \$778,020 in the last three months; iron and its products \$352,155; non-metallic minerals, including coal, \$211,036; fibres \$311,623; miscellaneous \$456,731.

During April, May and June of 1932 imports from Germany were valued at \$2,576,845 as compared with \$3,209,499 in the same period of 1931. The exports to Germany in the last three months totalled \$1,210,119 as against \$4,051,681 last year. The falling off in the volume exported is large.

Imports from Germany covered a wide range of products, but the chief items were classed under chemicals and chemical products, amounting to \$778,020 in the last three months; iron and its products \$352,155; non-metallic minerals, including coal, \$211,036; fibres \$311,623; miscellaneous \$456,731.

### CANADIAN SPRINTER FAVORITE

Los Angeles, July 29.—Percy Williams is the darkest cloud on the sprint horizon for Lawson Robertson, United States track coach. Robertson today named Canada's double winner at Amsterdam as the man, Ralph Metcalfe, Marquette negro, most feared in the Olympic 100 and 200 metres. After Williams he regards Arthur Jonathan, of Germany, and Takayoshi Yoshio, of Japan, as the chief opponents of the United States flyer.

Tom Hampton, the Briton, is the man to beat in the 800 metres, Robertson believes, holding that whoever turns the trick must shade 1:50. Eddie Gemung is the chief United States hope. Robertson is convinced that

Keith Werner, of Philadelphia, to the tune of 6-2, 8-6, 6-1. A Canadian finalist is assured in the women's singles. Two Toronto girls, Olive Wade and Jean Adele Burritt, stroked aside strong opposition to earn the right to meet in one bracket of the semi-finals, while the Victoria veteran Marjorie Leeming, will cross racquets with the sole American survivor, Helen Fulton, of Chicago, in the other half.

Rainville and Lott will contest the men's doubles finals this afternoon against Martin and Nunn, while in the ladies' doubles four Canadian combinations will battle for honors.

BOROTRA DEFEATED VINES. Stade Roland Garros, Paris, July 29.—Jean Borotra, fading French tennis veteran, today sprang a stunning upset as he defeated Ellsworth Vines, Jr., ace of the United States team, 6-4, 6-2, 3-6, 6-4 in the first match of the Davis Cup final between the United States and France.

### ARREST THREE FOR ST. LEON BANK ROBBERY

**Police Succeed in Recovering \$5,528 of Stolen Money—Expect Written and Signed Confessions.**

Montreal, Que., July 29.—The police state they expect the signed written confessions by Monday of the three men they have under arrest for the \$6,000 bank robbery at St. Leon, Que.

The police were successful in recovering \$5,528 of the money stolen from the bank. The men, who have made verbal declarations, are now being held at provincial police headquarters pending further investigation. They are expected to appear on Monday in the Three Rivers court.

The robbery occurred early on Sunday morning when the manager, his mother and two sisters were held up by three men. The women were tied up with strong cord, while Georges Laferriere, the manager, was forced to open the safe containing the money. The men then took the cash and made their escape in an automobile. As the telephone wires had been cut from the outside, Laferriere could not communicate with the police until twenty-four hours later. By this time the men were well on their way.

Fingerprints gave the police a clue, and they started a search for certain men whom they knew. On Wednesday night at eleven o'clock they succeeded in locating one of the men on St. Lawrence boulevard, and placed him under arrest. At first he denied knowing anything about the hold-up but questioning by the police led him to give them a certain address on Visitation street.

Proceeding to that address, the police found the man they wanted. Questioning elicited the fact he was the man who was a former resident of St. Leon, and who had been there on Saturday and Monday. He denied any knowledge about the hold-up, but the officers noticed that he was nervous, and kept looking at a certain spot on the wall where a religious picture hung. One of the detectives took the picture down and found that the wall was newly papered. Tearing the paper off, he found a stovepipe hole in the wall, where the money was hidden. Here they found \$5,000 in cash. Under a carpet in the man's bedroom the officers found \$528 in cash. The latter amount, the police say, was given the man to hide the \$5,000. Information secured from this man led to another arrest early yesterday morning.

A man struck a match to see if the petrol tank was empty. It wasn't.

A man patted a strange bulldog on the head to see it was affectionate. It wasn't.

A man speeded up to see if he could beat the train at the level crossing. He couldn't.

A man undertook to pass two speeding cars on the highway. He didn't.

A man cut his advertising to see if he could save money. He's broke.

### FOOTBALL

**TWO LEAGUE FIXTURES ON THIS WEEK'S SOCCER CARD**  
Sherbrooke and Drummondville will be the scenes of action in this week's soccer schedule. The local squad will play host to East Angus, while the Celanese entry will be opposed by Asbestos. Victory for Sherbrooke would place them in second place, no matter how the game at Drummondville results. A win for Celanese would increase Drummondville's lead over the pack, while should Asbestos and Sherbrooke win, a three-cornered tie would result for the leadership.

Sherbrooke's line up at the Parade Grounds, where Ambrose Wootton will officiate, will be as follows: Stoyles, Duffy, Pierce, Gardiner, Taylor, Elford, H. Grime, McNally, B. Grime, Foley and Bell with C. Stocks as reserve.

### BOXING

**BENNY LEONARD ADDS HIS TWENTIETH VICTORY TO COMEBACK**  
New York, July 29.—Thirty-seven year old Benny Leonard has gone a long way toward disproving the old adage that they never come back.

The former lightweight champion today had chalked up the twentieth straight victory of his comeback campaign, the result of a clean-cut ten round decision over Billy Townsend, of Vancouver, last night at Queensboro Stadium. Leonard, weighing 151 pounds, was credited with eight rounds to two for his 144-pound opponent.

Ottawa, July 29.—Canada has been a better purchaser of German merchandise in the last three months than Germany has proven herself to be of Canadian products. In fact, while Canada has kept up her purchases of German merchandise, so far as volume is concerned, at pretty much the same level in the past three months as in the same period of 1931. Germany's purchases from Canada have dropped off considerably.

### RAISING DEFENCE FUNDS FOR THIRTEEN POLICEMEN

**Increase in Racketeering Seen if Officers Are Condemned in Third Degree Death Case.**

New York, July 29.—A "police defence committee" has been formed in Mineola, N.Y., to raise money by public subscription for the defence of the thirteen Nassau county policemen accused in the third degree death of Hyman Stark, New York racketeer.

"If you let down the bars and kiss these gangsters on each cheek and offer them pink tea," said George Loft, chairman of the committee, "our women and children will not be safe. In the words of big Chief Devery: 'There is more law in the end of a nightstick than in all the courts of the land.'"

### APPLICATION FORM

### GERMAN PURCHASES FROM CANADA RECORDED DECLINE

**Dominion, However, Has Continued Imports of German Merchandise at Same Level as Last Year.**

Ottawa, July 29.—Canada has been a better purchaser of German merchandise in the last three months than Germany has proven herself to be of Canadian products. In fact, while Canada has kept up her purchases of German merchandise, so far as volume is concerned, at pretty much the same level in the past three months as in the same period of 1931. Germany's purchases from Canada have dropped off considerably.

During April, May and June of 1932 imports from Germany were valued at \$2,576,845 as compared with \$3,209,499 in the same period of 1931. The exports to Germany in the last three months totalled \$1,210,119 as against \$4,051,681 last year. The falling off in the volume exported is large.

Imports from Germany covered a wide range of products, but the chief items were classed under chemicals and chemical products, amounting to \$778,020 in the last three months; iron and its products \$352,155; non-metallic minerals, including coal, \$211,036; fibres \$311,623; miscellaneous \$456,731.
