**UNDER THE SNOW**  
**THERE IS A NEW**  
**LIFE DAWNING - -**

If our vision were keen enough, we might even see the little roots beginning to show signs of life; we might hear the rustle deep under the fallen leaves of wild flowers turning over in the last sleep of their waking hours.

Days are growing longer — other changes are taking place.

There is an air of expectancy about the store. It seems as though some new interest had arisen.

It is Spring — the very first harbingers of Spring have arrived. Changes are taking place behind the scenes, and soon it will all be revealed — in new merchandise.
