Eisenhower Visits Queen In Scotland

DYCE, Scotland (AP)—President Eisenhower landed in Scotland today to visit the Queen.

An RAF Comet jet brought the American leader from London for a social interlude in his harmony mission to Europe.

Prince Philip was waiting at the airport near Aberdeen as the Comet landed in cold, windy weather under grey skies. Rain started pelting down as the plane taxied up to the arrival strip.

A crowd of 500 Scots, wrapped in topcoats and mufflers, sent up a big cheer as Eisenhower walked down the steps from the plane and lifted his hat.

He and Philip got into a waiting black limousine for the 30-mile drive to Balmoral Castle, where the Royal Family is vacationing.

WEEKEND TALKS

Eisenhower flies back to London Saturday, then drives to Chequers, the country home of Prime Minister Macmillan, for a weekend of talks about the approaching exchange of visits with Soviet Premier Nikita Khrushchev.

Eisenhower got an early start today, leaving U.S. Ambassador John Hay Whitney's Regent's Park residence at 7:30 a.m. Macmillan made the 16½-mile drive to the airport with him. Hundreds of Britons going to work cheered the motorcade.

The first sour notes of Eisenhower's visit sounded as he and Macmillan left Whitney's residence. A loudspeaker truck parked outside the gates suddenly blared out:

"The Empire Loyalists ask why Harold Macmillan has invited to London the great victor of Suez. Why has Macmillan placed us militarily entirely in the hands of a traitorous ally?"

U.S. FORCED HALT

The League of British Empire Loyalists feels that U.S. pressure forced the halt in the 1957 British-French intervention in Suez, when Sir Anthony Eden was prime minister.

But overwhelming the heckling was the warm welcome that 500,000 Britons gave Eisenhower Thursday night as he drove into the city after his arrival from Bonn. It was the biggest ovation since the coronation.

Eisenhower is going into his talks with Macmillan satisfied that he has succeeded in setting

Require UN Police Force

PUGWASH, N. S. (AP)—The "only sensible way" to cope with world disarmament is to set up a United Nations police force to prevent aggression, Dr. Brock Chisholm, of Victoria, B.C., former head of the World Health Organization, said here Thursday night.

Dr. Chisholm, who last week addressed a state health conference in Pennsylvania, doesn't foresee a slow death for the UN. "It is not to be expected that any government could find it politically possible to disarm because there is nobody ready to police armament."

Dr. Chisholm, who last week addressed a state health conference in Pennsylvania, doesn't foresee a slow death for the UN. "It is not to be expected that any government could find it politically possible to disarm because there is nobody ready to police armament."

Although the UN has not been able to cope with the nuclear field, he said he didn't think there is a government in the world willing to see the organization die.

"The history of the League of Nations, provides an example of how a useful implement in international relations can die and all powers are aware of the mistakes of the past."

"Until the nations of the world recognize that on one can use atomic and hydrogen weapons without complete annihilation, only then can the UN be a force in the field of nuclear weapons," he said.

Schedule Visit

THE HAGUE (AP)—Dutch Premier Dr. Jan de Quay and his wife leave Sept. 16 for Montreal to visit two of their children who emigrated two years ago to Canada. The children, an unmarried son of 20 and a married daughter, are living at Beauport farm near Toronto. The de Quays have seven other children.

at rest any misgivings the West German government may have had about his coming exchange visits with Khrushchev.

Flying to London Thursday night from Bonn, Eisenhower radioed West German Chancellor Konrad Adenauer from his plane "I believe that we have achieved much."

Macmillan told Eisenhower on welcoming him:

"We have . . . confidence that, as leader of a great sister democracy, you will carry through your task with the same courage and the same success as when you were the general leading the Allied forces in World War II."

Intervention Comes From MD Hostility

CHARLOTTETOWN, (CP)—Members of the Canadian Medical Association were told today by their deputy president that hostility by doctors to pre-paid health plans is the surest way to bring government intervention in this field.

Dr. E. Kirk Lyon of Leamington, deputy to the Duke of Edinburgh, CMA president, spoke to the first of six CMA divisional meetings he will attend this year.

Text of his remarks was released to the press before delivery.

"This year, he said, the government has intervened in the field of hospital insurance and the realm of medical practice of those closely associated with hospitals."

SOME HOSTILE

"In spite of this increase in popularity of medically-sponsored health insurance programs in Canada there has been from some of the members of the medical profession a cool reception, in fact, open hostility has at times been evident."

"Labor across this country has been clamoring for years for some type of government health insurance and unless we as a profession can lead the way and supply the need our politicians will be forced sooner or later to heed the demands of their constituents and supply the Canadian people that which we deny them."

Noting provincial governments spend \$552,000,000 in the health field this year, he said the expenditures will probably increase still further as the public demands more and more benefits of health services by government assistance.

Cancel Happy Gang

TORONTO (CP)—The CBC said Thursday it will drop the radio variety show Happy Gang, now 22 years with the network, from its regular time slot. Its summer replacement, the Tommy Hunter Show, will fill the 1.15 P.M. daily slot through fall and winter because of audience and sponsor interest. The CBC said if sponsorship can be found the Happy Gang will be given another network period.

Polio Outbreak Level Evens Off In Montreal

MONTREAL (CP)—The polio outbreak that has struck eight provinces and the northland has shown signs of levelling off in Montreal, Canada's hardest-hit city.

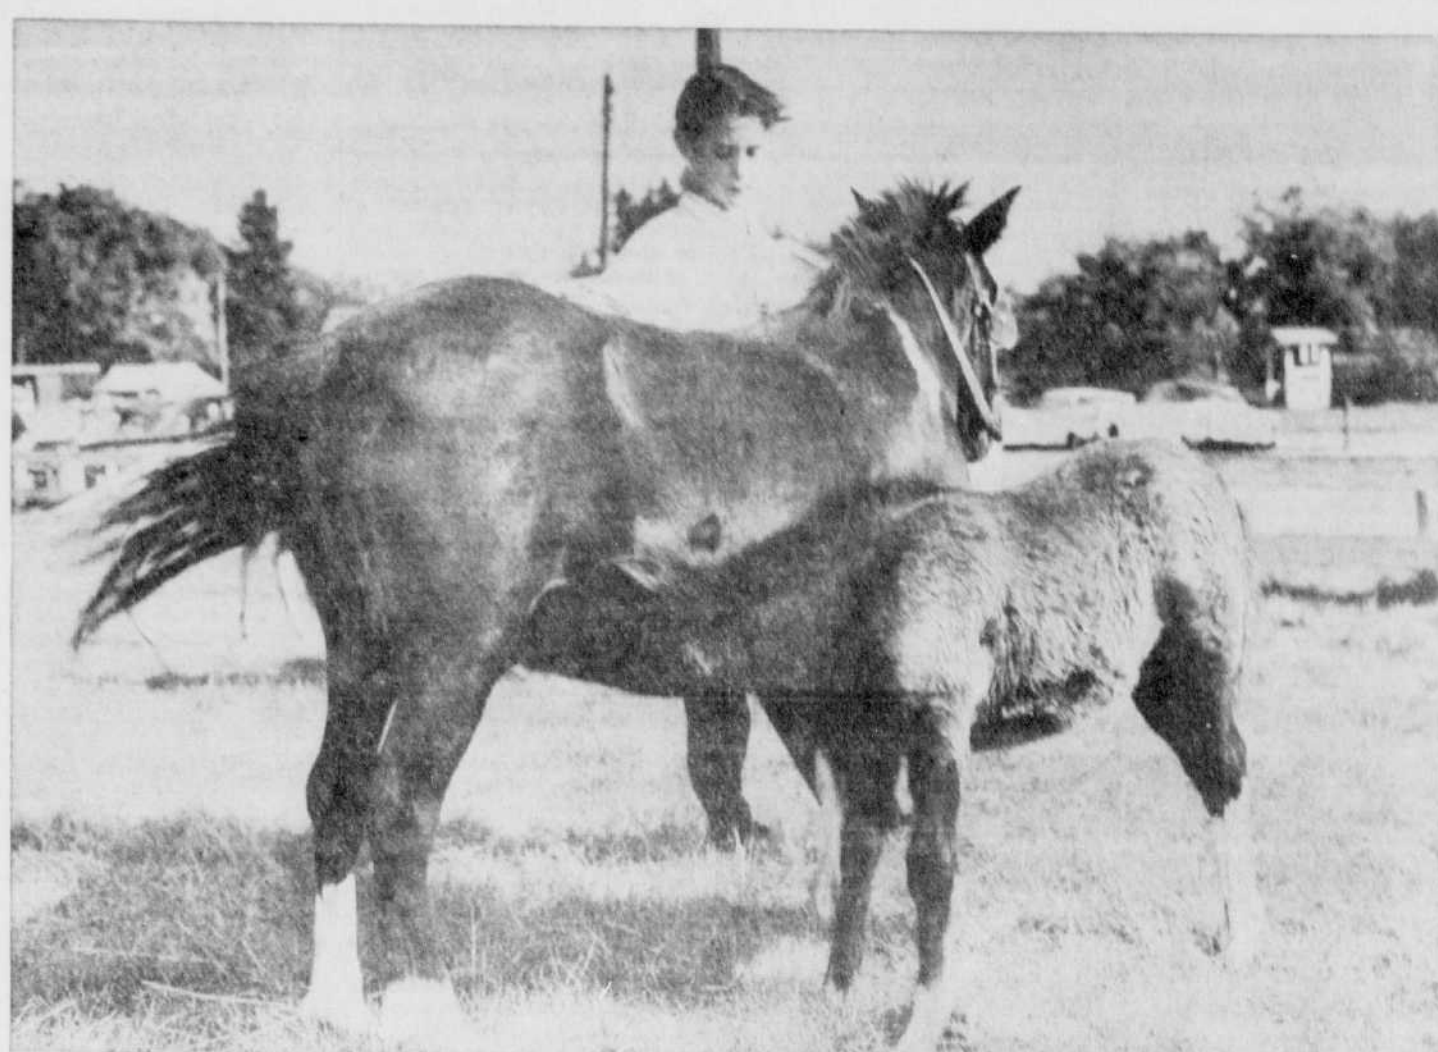

Dr. Adelard Groulx, Montreal health director, reported Thursday that the daily average number of new cases in the city dropped to nine this week from 15 last week.

But he said 21 new cases have been admitted to Montreal hospitals since Wednesday, raising the toll to 521 since the outbreak of the epidemic six weeks ago.

There have been 28 deaths here. Dr. Groulx said a shortage of anti-polio vaccine is not expected to influence the course of the outbreak.

CANADIAN STATISTICS

In Ottawa Thursday, the federal health department reported statistics up to Aug. 22 showed Canada had seven times as many paralytic cases of the disease, compared with last year.

THE SHOW MUST GO ON — With the young, impatience is a common occurrence, and when they're hungry, that means dinner time. Yesterday at the Ayer's Cliff Fair, a mare and foal, owned by Clark Jones of Rock Island, shown by Alex Bernais, also of Rock Island, were being judged when "hungry time" came around. The foal carried on with its feeding while the judge continued his judging. (Record Photo by Gerry Lemay)

Aged 73, Won't Hit An Old Man

DETROIT (AP)—Anastasia Yesue, 73, told police he was clobbered with a cane wielded by Frank Archibald, 96, and suffered a black eye as a result. Asked why he didn't hit back, Yesue replied:

"I didn't want to hit an old man."

Both Yesue and Archibald were ordered to tell it to a municipal court judge Sept. 3.

"K", Ike Should Follow Quebec

MONTREAL (CP)—Hon. Daniel Johnson, Quebec minister of hydraulic resources, said Thursday night a "happy co-existence" between French and English-speaking Quebecers stands as an example for the forthcoming summit conference.

He said it might be a "good thing" if Mr. Eisenhower and Mr. Khrushchev learned something about how we practice co-existence in Quebec before they get together next month.

"If we in Quebec have progressed as far as we have it is largely because we have learned to live together in harmony and peace."

Mr. Johnson spoke at a provincial dinner for delegates to a convention of the International Association for Hydraulic Research. The three-day meeting ended Thursday.

CCF May Drop Some Socialism

WINNIPEG (CP)—The CCF may drop a considerable amount of its socialist ideas to get the backing of the 1,000,000-member Canadian Labor Congress for a "new" political party.

As a meeting of CCF and labor politicians opened here today to set up the foundations of the party, it received a report suggesting that the CCF will have to throw away thoughts of nationalizing industry in Canada if it wants CLC and other political support at the polls.

A report from a sub-committee on the new party, presented today to the opening session of the CLC-CCF "seminar" struck out at the old socialist idea of nationalizing industry to get votes.

Liquor Prices Up

EDMONTON (CP)—Alberta liquor prices will be increased Sept. 1, the Alberta Liquor Control Board announced Thursday. Beer and wine prices will remain unchanged. The liquor prices will be increased generally 20 cents on 25 and 26½ ounce bottles and 10 cents on 12 and 13½-ounce bottles. George Clash, board chairman, said the increases resulted from increased taxes announced in the federal budget.

Prevention Is No Cure

RICHMOND, Ky. (AP)—All Whitaker took his car keys into the house for safekeeping, the first night in years he hadn't left them in the ignition. Somebody stole the car.

16 Mexicans Die In Quake

MEXICO CITY (AP)—The confirmed death toll stood at 16 today in Mexico's worst earthquake of the year but many areas in the quake area in southern Mexico still had not been heard from.

All the dead so far were reported from Veracruz state, in an area of the Isthmus of Tehuantepec bordering and just south of the Gulf of Mexico.

Officials said there were at least 60 injured in the state.

Another light shock was felt Thursday at the port of Coatzacoalcas, already hard hit by Wednesday's severe quake. A few damaged houses collapsed.

Premier Blasts Indifference To School Situation

TROIS-RIVIERES, Que. (CP)—Premier Duplessis says there is too much apathy, too much indifference to the present school situation in Quebec.

There is a trend away from hard study and experience based on history show there is no real progress unless based on traditional teaching and tradition itself.

"A neutral school is a school without God," Mr. Duplessis said, speaking in French.

Mr. Duplessis warned his audience not to be taken in by claims about Russian education.

"In Russia," he said, "you, the farmers, could not have land. In Russia farmers are only employees of the state."

"Here the farmer is the owner of his land because it belongs to him by tradition and by tradition."

FRUITS OF EXPERIENCE

Mr. Duplessis said the fruits of hard study and experience based on history show there is no real progress unless based on traditional teaching and tradition itself.

"We are at the crossroads of future," Mr. Duplessis said, "and the movements that are growing daily are an indication of the danger that threatens us and a sign it is our duty to lend a hand for the triumph of truth and justice."

Warn P.E.I. Voters Against PC Guile

CHARLOTTETOWN, (CP)—Liberal Premier Alex Matheson said Wednesday night that with only a few days left to campaign the Progressive Conservatives may promise anything in their bid to take over the Prince Edward Island government at the polls Tuesday.

"We may get the causeway yet," he told 300 persons at a Liberal rally at Montague, 30 miles from here. "We may get anything."

Premier Matheson said the Conservatives were wrong in calling themselves "the party of the causeway." Improved transportation to the mainland, now linked by ferries, "should not be a political issue" whether it was a causeway or some other improvement. Two Ontario engineering firms were interested in building the nine-mile-long causeway across Northumberland Strait to New Brunswick. It would pay for itself in no time on a toll basis, he said.

Nehru Tells Parliament

NEW DELHI (Reuters)—Prime Minister Nehru said today that Communist Chinese troops have crossed the Indian frontier and are fighting Indian troops at attempting to drive them back.

Speaking in the Indian Parliament, Nehru accused China of aggression against India.

He disclosed that Indian and Chinese forces are fighting on the borders of the Subansiri frontier division of Northeast Frontier Agency.

He announced that the Indian Army has taken charge of the whole Northeast Frontier area.

Chinese Aggression Against India

BE PREPARED

While stating that he could not imagine that this and recent incidents were "the precursor to anything more serious," he added:

"But so far as we are concerned we should be prepared for any eventuality."

Nehru said that an Indian outpost almost encircled by invading Chinese was running short of ammunition.

The Indian Air Force had tried to drop supplies to the outpost of 38 men but had failed because of the mountainous terrain.

A strong force of Chinese troops attacked the post Tuesday, he said, after capturing 12 men of an advance patrol. Eight of them

Federal Government's Steps To Lower Rate Meeting With Success

OTTAWA (CP)—The federal government's move to bring down the Bank of Canada interest rate apparently is meeting with success, amid signs of a slight easing in the tight money situation.

For the second week, the government put up for bid a smaller-than-usual amount of treasury bills. A drop in the average interest yield on the bills followed. Since the Bank of Canada's interest rate is set at one-quarter of one per cent above the treasury bill yield, the bank rate also slipped.

From a record high of 6.41 per cent two weeks ago, the rate dipped to 5.58 per cent this week, the Bank of Canada announced Thursday. The decline of .71 per cent from the rate of the previous week was the largest in at least 4½ years.

Finance Minister Fleming announced that the government again will call for bids on a reduced amount of treasury bills next week.

The effect of this step, reducing the demand on the supply of money available for short-term loans, is to leave more money available for lending to non-government borrowers.

And at the same time, there were other indications of an easing of demand on the money available for loans. Cash reserves of the chartered banks, the basis of their lending, rose in the last week to \$1,043,000,000 compared with \$981,000,000 in the first few days of the month.

The total money supply, controlled by the Bank of Canada, has remained relatively unchanged during this period, standing at \$13,371,000,000 at Aug. 19. It was up only slightly from \$13,368,000,000 July 1 when the bank rate began a six-week climb that culminated in the record 6.41 per cent two weeks ago.

Continuing its policy of reducing through treasury bills, the government will call for bids on \$100,000,000 of 91-day bills. Usually \$115,000,000 are put up for tender.

Peer Joins The Crowd

TORONTO (CP)—Lord Louis Mountbatten, admiral of the fleet, put on a grey flannel suit Thursday night and joined the crowds touring the Canadian National Exhibition's midway.

Earl Mountbatten, guided by CNE president Harry Price, took two trips on the midway's roller coaster but was hardly noticed by the crowd, part of the 115,000 visiting during the 16-day show's second day.

The Earl, sitting in the front compartment of the roller coaster, said the ride was "wonderful" but could not persuade Lady Mountbatten to join him.

While Earl Mountbatten saw the fair, the band of Her Majesty's Royal Marines, featured band at the CNE, performed the ceremony of beat retreat at the grandstand.

WARNING TO RETURN

The band, conducted by Lieut. Col. Vivian Dunn is from the Royal Marines School of Music at Deal in Kent. The original purpose of the beat retreat ceremony, performed by drummers only, was to collect and post guards and warn soldiers to return to camp.

Earlier Thursday Earl Mountbatten, standing rigidly to attention on the yacht Osceola's forward deck, made a half-hour tour of the 19-ship NATO fleet anchored off the exhibition grounds.

The Earl goes to Ottawa today but returns Saturday to take the salute at the Warrior's Day parade.

Today Ellen Fairclough, minister of citizenship and immigration, will address the Women's Day luncheon given by CNE directors.

There are many people of Tibetan stock and Lamaistic faith living in these frontier regions and several of the less-savage tribes have been colonised by Tibetans who infiltrated far to south.

Cowansville Band Concludes Open Air Concerts

COWANSVILLE — On Tuesday evening the Cowansville Harmony Band gave their last open air concert of the season in the Municipal Park. The well-balanced program received enthusiastic applause from the large audience, which filled the available benches, stood on the lawns, or sat in parked cars.

Marches played included Sousa's King Cotton, Maisonneuve Imperial Echoes, Colonel Bogey, Little Giant and Them Basses. In the popular department, there were Green Doors and Riff Riders. There were also two delightful Overtures: Determination and Purple Horizons.

The concert was an enjoyable conclusion to a most successful season. Congratulations are due to Bandmaster Edward Benoit, to Band President J.P. Lamarre, and indeed to all the musicians, who add so much to the aesthetic life of this community.

Sherbrooke Exhibition Opening This Evening

Hailed as the "Show Window of the Eastern Townships," the 74th annual Sherbrooke Exhibition will get underway tonight, the attraction for the opening night being a grand bingo in the Arena.

The Midway is expected to arrive late this afternoon or early this evening and should be in operation early tomorrow, when the fair is expected to be in full operation.

Judging starts tomorrow in the sewing, fancy work, handicraft, cooking, poultry, field crops, vegetables, fruit, maple products and flowers.

Tomorrow evening, there will be a big square dance competition in the arena with harness racing in front of the grandstand.

The official opening of the Exhibition will take place in front of the grandstand Sunday, the brief ceremony being followed by the first presentation of the Barnes-Carruthers show, said to be the biggest and best grandstand performance ever brought to Sherbrooke.

This performance will be repeated each evening through Thursday, while each afternoon, Sunday through Thursday, there will be a program of horse racing and other attractions.

Monday is scheduled as Children's Day, when the youngsters will be given free admission at the main gate and will be offered special price concessions on the midway.

There will also be a special program for children on the grandstand in the afternoon.

Judging will get underway in the dairy products, Guernsey and swine classes on Monday. Tuesday will see judging of 4-H calves, sheep, heavy horses, and Ayrshires, Jerseys and Holsteins will be judged Wednesday with Canadian classes on Thursday.

The parade of 4-H calf club calves will be held before the grandstand Wednesday and Thursday afternoon, with the grand cattle parades being held in the arena on the same day.

The exhibition will wind up Thursday evening with the drawing for five automobiles.

Several Fined For Breaches Of Traffic Rules

Several men pleaded guilty to breaches of the Quebec traffic code before Judge Joseph Marier in Court of Sessions yesterday and were given the customary fine.

Roger Laurin, of East Angus, was fined \$50 and costs on charges of excessive speed and of having gone through a red light. He was given a one month delay to pay.

Josaphat Beaudoin, of Sherbrooke, was found guilty of letting a person without a permit drive his car on a public highway. The same fine was imposed.

Alphonse Gervais, of Chartierville, was fined \$50 and costs after he was found guilty of driving an automobile without a license.

Finally, Gerard Huppe, of Sherbrooke, saw charges of letting a person drive his car without a permit, dismissed after the defence attorney noticed that the name on the accusation list did not correspond with that of the accused.

Shorter Congresses

MONTREAL (CP) — The arrangements committee of the ninth International Botanical Congress is considering making future congresses smaller and more frequent, it was learned Thursday. Many delegates to the congress—one of the largest scientific meetings ever held in Canada—have complained they are unable to get an overall picture of what is going on. Some speakers said they had to give in 10 or 15 minutes a report which took years to compile and months to write.

Fire Chiefs Meet Here During 1962

The Canadian Association of Fire Chiefs will hold its annual convention in Sherbrooke in 1962. Director Percy Donahue of the local fire department announced today on his return from the 1959 gathering held in Windsor, Ont.

At the Windsor gathering, Chief Donahue was elected president of the Association. He succeeds Chief Ken Pitnam, of Kitchener, Ont.

Walter Redman, of Flin Flon, Man., was elected first vice-president and R. Swanborough, of Hamilton, Ont., second vice-president. Other members of the executive include A. H. Clark, of Lakefield, Ont., secretary, W. J. Scott, Toronto, International director, Walter Scott, Galt, Ont., sergeant-at-arms and J. S. Arnot, Toronto, conference manager.

J. M. Burnett, of Three Rivers, was elected to the board of directors.

Topics discussed brought the realization of a Provincial Fireman's Training School in Sherbrooke closer to achievement. Other provinces reported progress in this field and Chief Donahue expressed the hope that Sherbrooke would have the school within two years.

The Association also appealed to the National Research Council in Ottawa to prepare a model by-law which would regulate the sale of fireworks across Canada.

The resolution was aimed at cutting down the number of deaths and accidents caused every year by fireworks.

One youth was killed and one other seriously injured in Sherbrooke six years ago resulting from an accident with fireworks, Director Donahue said.

George S. Mooney, executive director of the Canadian Federation of Mayors and Municipalities addressed the Windsor gathering asking that Chiefs consider a change over from sirens to bells as a warning system on their trucks.

The bells, according to Mr. Mooney, would be equally effective and cause less disturbance during the night.

Commenting on the proposal, the new president stated that the Sherbrooke Department had never been faced with the problem and to date had never received complaints on the matter.

"The clean record could possibly be attributed to the moderate use of sirens in the City," he said.

Brigadier Arthur Winch, General of Survival Operations for the Army, spoke to the Chiefs on the civil defence program practiced in Canada.

The Association also reported on the benefits derived from the recent amalgamation with the Association of Canadian Fire Marshalls. The two bodies are now working together on an intensive fire prevention campaign in Canada.

A vote among members of the Association revealed that fire departments across Canada are not in favor of integration of police and fire departments. In many instances in small communities the Fire and Police chiefs are one.

F. W. Delves, Chief Officer of the London, England, Fire Department addressed the group relating experiences during the Second World War and in particular methods employed to save St. Paul's Cathedral.

Good Start

Fine Weather Favored Ayer's Cliff Fair Opener

By PAT BOUGIE
AYER'S CLIFF — The 114th annual exhibition of the Stanstead County Agricultural and Horticultural Societies got underway yesterday under bright and balmy skies but rather humid temperatures.

Good crowds passed through the many barns and exhibit halls to see the large number of entries on the part of exhibitors.

Yesterday, children's day, saw large groups of youngsters from all over the county joyfully admire and partake in the many T. Green midway attractions, of which one entitled the Sputnik House is a new attraction to this year's games.

As part of the Children's day activities, youngsters were admitted freely to the spectacular Grandstand show put on by the Unity Boys Club Revue of Montreal, a troupe sponsored by the Westmount Rotary Club. The troupe is under the able direction of Maurice Marisane.

Able taking care of the musical part of the grandstand show was the Coaticook Harmony Band.

Not only the children enjoyed the midway rides, but also two provincial policemen. At one time during the afternoon, they were seen up and down and around and around in the T. Green ferris wheel.

One of the main events of opening day was the Junior Breeders' competition and banquet.

Present at this banquet were Denis Gerin MPP for Stanstead and Rene Letourneau, M.P.

The government officials in addressing the young breeders encouraged them to keep up the good work they had been doing the past few years.

Among special cups and trophies awarded yesterday was the Ayer's Cliff Junior Committee Trophy that went to Raymond McConnell, of Sawyerville, for the best heifer in the 4-H club competition.

Heather Johnston, of the Hatley 4-H club was awarded the Royce Pope Memorial Silver cup, for the best junior calf in the Hatley club.

In the pony potato races Pauline Houle took top honors followed closely by Wesley Jones, Lise Houle, Dianne Bronson, Peter McHarg and Rene Voisard.

The pony musical chair competition was taken by Wesley Jones followed by Lise Houle and Peter McHarg.

Grand Champion male was owned by John Rose, of Waterville, re-

serve by Frank Tarte, of Sherbrooke.

Other prize-winners were: Grand Champion Female, James Hargreaves, of Massawippi, reserve, McRae Brothers, of North Hatley.

Senior Champion Female, James Hargreaves, of Massawippi.

Junior Champion Male, Frank Tarte, of Sherbrooke, Junior Champion Female, Richard Nadeau, of Waterville.

In the horses, the Grand Champion stallion Percheron was owned by Eric Webster, of North Hatley.

Grand Champion Belgian Mare was owned by Gordon Cass.

Champion standard bred mare was awarded to Gordon Cass. Best standard bred stallion went to Wendell Mosher.

Grand Champion Pony Mare was owned by Faith Detchon.

Best general pony led by a child went to Faith Detchon, Dianne Glass and Leola Helych.

In the poultry classes, the Sherbrooke Daily Record prize for the best pen was awarded to

M. B. Corey and Sons, of East Hatley.

The best pair of steers in the grade beef cattle was won by W. E. Hatch, of Tomifobia.

The Junior class of the grade dairy cattle was won by Norman Dery, closely followed by Lucienne Pelletier and Pierre Bergeron.

Senior class grade dairy cattle; Denise Morin, Nicole Clement and Richard Tremblay.

A special award, given for the first time this year, The Four Roses Trophy, for the best selection of roses went to Mrs. John Dezan, of McConnell.

The winner of the Stanstead Women's Institute award for the best home orchard grown apples went to Sharon Pedersen, of Ayer's Cliff.

The best display of maple products was won by Mrs. Norbert Gosselin, of Barnston.

Today at the fair is Golden Jersey Day. Entries are expected to be judged by Bud Baird.

Among other activities to be held today will be the judging of

the Aberdeen Angus, Hereford and Shorthorn cattle, together with Canadian cattle entries.

A grandstand show put on by the Blue Sky Revue in the afternoon will be followed by a cattle parade, horse parade and repetition of the grandstand show in the evening.

Expensive Permit

MONTREAL (CP)—Webb and Knapp (Canada) Limited Thursday paid one of the largest amounts ever paid for a building permit to the City of Montreal—a sum of \$24,301. The company is building Montreal's largest structure, a 42-storey cross-shaped building on place Ville Marie, adjacent to the Queen Elizabeth Hotel on mid-town Dorchester Street.

Friends of Mr. THOMAS KEELEY are advised of his change in address, to 434 Elizabeth Street.

The Immediate Danger

There need be no mistake about it. The Communists, in their knifing assault upon the Indo-Chinese state of Laos, are undertaking the first important physical aggression they have dared in more than five years.

Insurgent forces, obviously inspired and supplied by Red-led North Viet Nam and Red China, have evidently pushed alarmingly within 50 miles of the Laotian capital, Vientiane.

On its western fringes, Laos has a small border with neutral Burma, and a long, crucial border with Thailand, a principal Western ally in southeast Asia. Both of these nations would be under increasing pressure, and peril, should Laos come under Communist domination.

In addition, Laos has borders with small, neutral Cambodia and pro-Western South Viet Nam, both Indo-Chinese states.

It is fair to assume that the chief initiative for this bold drive comes from Peiping. Red China never has ceased watching for timely opportunities to press for broader conquests in Asia.

Where Moscow stands in the picture is not totally clear. Ho Chi Minh, president of North Viet Nam, just finished a month's vacation in Moscow. On the

way home he met in secret conference with Red Chinese leaders in Peiping.

Moscow may voluntarily have endorsed and encouraged the Laos invasion project. On the other hand, some observers feel Moscow may regard the move as embarrassing to the coming Khrushchev visit to America, and that this is Peiping's way of indicating disapproval of that visit.

Washington officials definitely pin blame on Moscow for "complicity" in starting the fighting.

However the blame is to be divided between Moscow and Peiping, plainly the goal is to chew up one more vital segment of Asian real estate, with the longer-range aim of weakening the whole free structure in the Southeast.

The matter obviously belongs on the United Nations agenda and demands immediate attention. Furthermore, it ought to take top priority in any talks between Khrushchev and President Eisenhower.

We must hope that, in advance of that, the President will seek accord on this issue with his Western allies on his European swing just getting under way.

Berlin is a serious threat to peace, but so far it is still a talking matter. In Laos, however small and far it is from us, soldiers bent on the destruction of freedom are marching.

Some Meeting

As boss of the International Teamsters' Union, James R. Hoffa holds conferences with all kinds of people and in all sorts of places — including one held recently at the swank White Sulphur Springs resort in West Virginia.

It must have been quite a do, for a press despatch describes the meeting thus:

"Teamster President James R. Hoffa conferred behind closed doors with more than 100 Teamster lawyers today on labor reform legislation and other legal problems facing his scandal-stricken union."

That seems to be quite a lot of lawyers and might conceivably lead to a confusion of opinion as lawyers are noted for their sharp differences. However, as there are Teamsters' lawyers in every city or region covering the

United States, Jimmy would want them to reach unanimity on pressing present problems — especially as how he is to avoid going to jail for mishandling the union funds to the extent of millions of dollars.

There was no necessity for a conference of that kind if Mr. Hoffa had conducted the affairs of the Teamsters' union on honest lines and in accordance with the law of the land.

This meeting was for the purpose of seeing how Mr. Hoffa may be able to thwart the new legislation and carry on in the old racketeering way so that he and his gangster officials and friends could continue to line their pockets.

However, the expense of this conference will come out of union funds, not Jimmy's bank account. They would have a nice time wining and dining and undoubtedly everybody reported having a good time.

Tie This

A man's necktie, two London clothiers assert, is an index of his character. If, for instance, he wears a white or very pale colored tie, he is apt to be a wolf. If his tie is of printed silk, he's a tightwad. If his tie matches his suit, he's timid; if he wears off-color ties, he's a lady-killer; if he wears maroon ties, he's dull; if he wears bow ties, he's unconventional, et cetera, et cetera.

This argument will not be accepted by the average man. The ordinary in-

dividual knows that generally he wears a white tie or a red tie or a bow tie because his wife bought it for him or because some maiden aunt gave it to him for Christmas. So, instead of reading character into the wearers of ties, it would be better to connect it with the givers.

Perhaps the giver of a white tie is a wolfess — we don't pretend to know. But don't blame the man who wears one.

Press Comment

NO HANDCUFFS

(Brandon Sun)
The murder of a London police officer a few days ago after he had arrested a man has once more raised the question whether Britain's police should be armed. Opinion, including that of the police themselves, is on the whole firmly against it.

If the police carry firearms, more criminals will, in turn, start carrying firearms, and the number of shootings will increase. The traditional "friendly" relations between Britain's criminals and police will then be ended, and violence will become commonplace — which it is not at present, and never has been.

But one other proposal has been made: that London's police force should be issued with handcuffs. Yes, believe it or not, the London Bobby does not even carry handcuffs.

It would be contrary to the British sense of fair play to have a man walk through the streets in handcuffs after he had been arrested.

On the other hand, it is pointed out the police officer who was shot the other day

might have been alive today had he been able to handcuff his assailant before he had time to draw a gun.

But the issue of handcuffs would need a major decision, perhaps even an Act of Parliament, and is bound to provoke a great deal of controversy. So nothing will probably be done about it.

OF COLLARS AND CHICKENS

(Charlotte, N.C. Observer)
In his nasal and knowing way the other night, the esteemed Mr. Edward R. Murrow argued mightily for the liberation of the male animal. It was a masterful performance. But a futile one.

Futile because Mr. Murrow would have men flout conformity, rebel against convention, defy taste-conscious wives and refuse to be taken in by those pretty ads that exalt sartorial male of distinction.

In short, Mr. Murrow would have men refuse to submit to the punishment of wearing stiff collars, choking ties and coats during summertime. He went so far out on a limb as to sug-

gest that comfort was important, even on the job.

By his own count, the average white-collar American goes the sweltering days of summer with no less than seven layers of cloth around his neck. He has developed the ability to produce bombs that he can destroy the world but he has not, as yet, developed enough courage to report for work in open necked shirts and knee-length trousers.

Why? In his suffering he deludes himself by thinking that his position is important enough to demand these sacrifices to conformity. But consider the farmer, says Mr. Murrow. No job is basically more important than producing the bread by which we live but does the farmer submit to any such nonsense in dress?

It's a point well made. We stand four-square behind Mr. Murrow in this matter. But we'll continue to stand way behind him until he conducts a "Person-to-Person" interview on our television screen wearing a sport shirt and Bermuda shorts.

What it amounts to is that we're chicken, too.

This Time for Peace

India's Experiment

Democracy Replacing Autocracy

MYSORE, India (CP) — With the flag of the Indian republic flying over his palace, the maharajah of Mysore personifies India's experiment to substitute democracy for autocracy in the former princely states.

Once ruler of one of India's best-administered independent states and one of the country's wealthiest men, the maharajah today is the constitutional representative of the president of the Indian republic and governor of Mysore.

Integration of the 554 princely states into the Indian union has been a major contribution to consolidating the unity and political stability of independent India. Their relatively speedy and peaceful transition was largely due to the strong guiding hand of the late home minister Sardar Patel.

Although states were permitted to join by choice either India or Pakistan, the logical geographical pattern of assimilation was departed from in only several isolated instances. Apart from still-disputed Kashmir, the most difficult case was the large state of Hyderabad in the heart of India, where the ruling nizam wished to establish an independent state. Civil strife broke out, the Indian army intervened and order was restored.

In travelling through India today, the visitor is not likely to hear even a whisper of a desire for a return to the old days. The

more important princely states and their rulers have adapted themselves to the new regime. Hundreds of small principalities have been swallowed up in successive reorganizations of India's new states.

Mysore, whose economy prospered under benevolent maharajahs, has made further significant progress. Bangalore, its capital, is a go-ahead city of more than 1,000,000 and perhaps the fastest-growing industrial centre in India.

The old Hyderabad state has been dismembered and Hyderabad city now is capital of a new state — Andhra Pradesh. Many Moslems still live in Hyderabad but little unrest is reported. For the first time a concerted effort

is being made to improve conditions among the backward rural population.

Travancore-Cochin, which formed the new Kerala state, has had an unhappy political history. Unrest culminated in the dismissal of the country's first elected Communist state government and a re-establishment of presidential rule.

Baroda, another state widely known for its good administration, remains a leading educational centre in Bombay state. Its former ruler, the gawkwar, is parliamentary secretary to the defence minister and manager of the Indian cricket team now touring England.

Like the gawkwar, many princes have gone into active politics. Some like the maharajah of Bikaner are prominent independent MPs. Others are members of the ruling Congress Party.

While a few former maharajahs have been content to retire on compensatory privy purses from the central government, most of the younger men have adjusted well to the new conditions in which they no longer are assured of easy incomes from large land holdings. Many now are trying to find a new road to riches in the professions or business world.

HUMILIATING!

(Hamilton Spectator)

Some people say that rabbit, properly prepared, tastes just like chicken. Others claim the same for groundhog. In fact just about every type of meat just about every type of meat is supposed to taste "just like chicken" when it comes from the sizzling saucepan of a gifted cook.

That is why we were shattered to read a C. P. dispatch from Sydney, Australia, which said that a United States pet food manufacturer had ordered a sample shipment of six tons of kangaroo meat for sale as food for domestic animals.

It is claimed that kangaroos have reached plague proportions in parts of New South Wales, and that mighty efforts must be made to reduce their numbers. But the thought of loyal Australian kangaroos being shipped by the ton outside the Commonwealth can't appeal to loyal Canadians.

Our trade commissioners, dietitians and chefs should pool their ingenuities to evolve a recipe rendering kangaroo palatable to humans, to be followed by an advertising campaign to assure consumers that tinned kangaroo meat won't jump off their kitchen shelves unless it's stored in pouches.

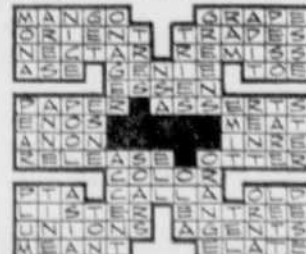

There must be some way of making kangaroo taste "just like chicken," and so save this proud Australian animal from going to the dogs.

RAIN AFTER DROUGHT

Gay sunshine can be healthful, bright;
But rainless weeks become a blight;
The blue streams shrink to muddy brown;
The lawns turn yellow in the town.
The farmer mourns his sear, parched field;
The need for balance is revealed.
With hope all view the gathering cloud,
Speak praise for showers — long and loud.
For welcome is the blessed rain!
And now the grass is green again!

AVERAGE SCORES OVER EXPERTS

An average bridge player would have no trouble with today's slam contract. He would have worried about the club suit but eventually he would have played ace and another club and West would have been forced to play the king.

Unfortunately for North and South it was an all-expert game and South had what appeared to be better ideas. He won the first heart in his own hand, drew trumps, cashed both dummy's high spades and king of hearts and ruffed the last heart.

Now South had to attack the club suit. Since West has already shown two spades, six hearts and three diamonds he could not have more than two clubs. South led a low club and West had no trouble playing the eight. It takes considerable intestinal fortitude to blank a king that way but West had it.

South played dummy's nine. East won with the ten and led back the deuce. South played low and West's ungarded king set the hand.

CARE FOR CHILDREN

(Winnipeg Free Press)
The Manitoba Legislature has approved, in principle, legislation designed to save children's lives. Very few people will disagree with the intention of the amendments to the Child Welfare Act.

The Bill provides that where it is believed that a child may die or suffer serious injury because his parents deny him necessary and immediate medical care (or because they may not be readily available to give their consent), the child can be made a ward of the province without delay and given the needed operation, care or treatment. At present, 14 days must elapse between any move by the province to get custody of a child and his actual commitment into custody. In that time he may die as a child did die last year.

matter of FACT

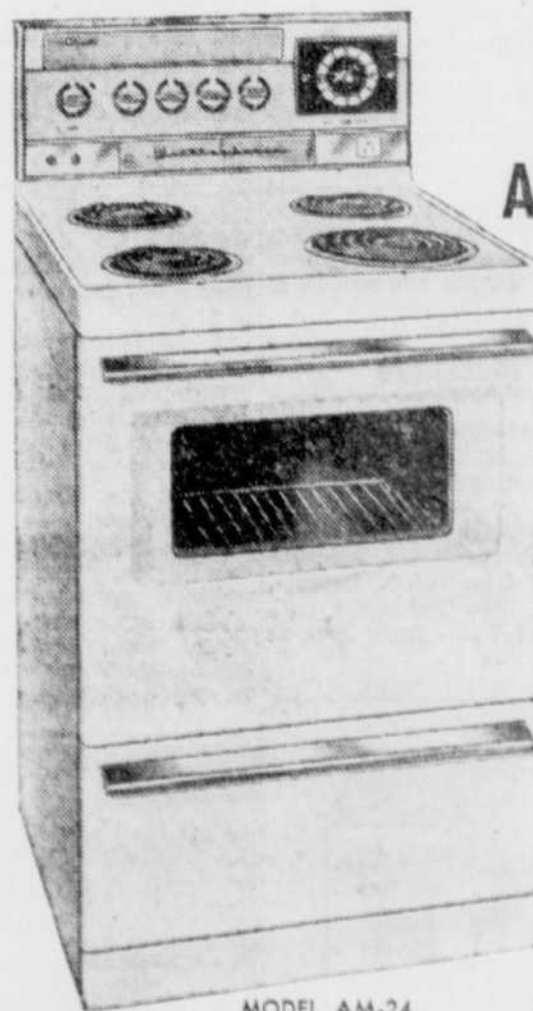

Paul Revere, famous for his midnight ride from Boston to Lexington on April 18, 1776, was probably the most famous American silversmith. He made gunpowder, false teeth, church bells, the boiler plates for Robert Fulton's steamboat and planned and engraved the first bank notes for Congress. But by trade he was a silversmith. More than 60 pieces of his fine work are extant.

and great personal charm, a kind neighbor always ready to lend a helping hand. She was a member of St. Andrew's United Church, of the Women's Association of the church, the Women's Missionary Society, the Women's Institute and was for many years correspondent to the Sherbrooke Daily Record from Scottstown.

Funeral service was held in St. Andrew's United Church in Scottstown on August 11th. Rev. Dr. R. Pounder officiating. The organist was Mrs. J. B. Scott, hymns sung were "Unto the Hills Around" and the 23rd Psalm. Bearers were the four sons, Ross, Keith, Carroll and Wilmer and her grandsons Alan Woodside and John R. Wilson. Interment was in the family lot in Riverview Cemetery.

There were many beautiful floral tributes from personal friends and from various organizations.

Friends at the funeral from out of town included Mrs. W. T. Pearson, Mrs. O. L. Worthen of Lennoxville, Mrs. W. D. Buchanan of Sherbrooke, Miss M. Buchanan of Drummondville, Mr. and Mrs. Gordon Planché of East Angus, Mrs. J. N. MacMillan and Mr. Angus MacMillan of Gould Station, Rev. Mr. Carey, a former pastor, and Mrs. Carey, on furlough from Japan.

RALPH C. MERRILL
Of Waban, Mass.
(Formerly Of Rock Island)

WABAN, Mass. — It was with sadness relatives and friends learned of the sudden death of Ralph C. Merrill at his home in Waban, Mass., on July 25 following a heart attack.

Mr. Merrill was born at Stanstead, in 1898, a son to Herbert and Elizabeth (Fadden) Merrill. He spent his youth here, attending and graduated from Stanstead College. Later he went into the lumber business with his father and was also a former employee at the Southern Canada Co. office in Rock Island.

Leaving here he went to Roanoke, Virginia, where he was employed by the W. M. Ritter Lumber Co., and it was here he learned about the hardwood business. In 1926 he joined the firm of Shepard and Morse as sales representative in the Albany office, and returned to the home office in 1942, where he was promoted to sales manager, later to be elected a vice-president of the company.

In 1936 Mr. Merrill was united in marriage to Laura Stata, of the Eastern Townships, and to this union were born two daughters, Mrs. Winslow Tisdell, (Elizabeth) of Tucson, Arizona, and Mary Louise, at home, and by whom he is survived.

Mr. Merrill's parents and another brother, Harold, died with

CCF MAY DROP

"It seems," it said, "nothing can be done by nationalization to redistribute income and wealth that cannot be done much more easily and equitably by other devices, particularly taxation, transfer payments and the provision of social capital."

Boiled down this seemed to mean that more money spread around from the federal treasury would do the trick that socialism was supposed to do earlier.

DISCUSSION ONLY

It was carefully explained by officials of the three-day seminar of some 300 people that the committee report "is being presented for discussion purposes only."

"The material should be treated as ideas thrown out for purposes of discussion," it was stated. But meanwhile, a high officer of the congress said there is no doubt the CCF is going to have to back away from the old socialist doctrine if it wants the moral—and maybe financial—backing of the big labor body.

There is a split in the congress, it became known here, on the proposed tieup with the CCF in the new party.

While it was endorsed at the congress's biennial convention here last year, many top men in big congress unions are highly unenthusiastic, privately.

**Red Attack
On Vientiane**

VIENTIANE, Laos — (Reuters) — Pro-Communist Pathet Lao rebels made a hit-and-run attack on a small army post 16 miles east of this capital Thursday night, military sources reported today.

The sortie against the 15-man post caused no government casualties and no known losses among the rebels.

It was the closest rebel strike to the capital since fighting started in mid-July and was seen as an attempt at psychological warfare by the insurgents.

Military sources said the rebels melted into the jungle around the post when the army sped reinforcements there by truck.

In 16 weeks of each other in 1935, Mr. Merrill was highly respected in these communities and was a member of Golden Rule Masonic Lodge No. 5, A.F. & A.M., Stanstead.

The funeral was held on Monday afternoon, July 27, in the Chapel of Newton Cemetery. The remains were cremated and the

**Trade, Demand
Good In Montreal
Cattle Market**

MONTREAL (CP) — Demand was good and trading active this week on the Montreal livestock markets. Cows were 25 cents higher and steers 50 cents higher than last week. Heifers were steady to strong and bulls steady.

Receipts: 1,908 cattle, 2,838 calves, 1,168 hogs, 818 sheep and lambs.

This week's cattle receipts were 79 head less than last week and 1,054 head less than the corresponding week last year. Ontario sent 251 steers, 131 heifers and cows and 36 bulls. The Maritimes sent 9 steers, 41 heifers and cows and 23 bulls. Other receipts originated in Quebec. Steer receipts totalled 387, mostly good and choice.

Choice steers brought 25-26.60, one at 28.25, good 24-25, medium 23-24, common 20-23 and a few down to 18. Good cows brought 18-19.25, a few to 21, medium 17-18, common 15-17, canners and cutter 11-15 and a few down to 8. Good heifers brought 20.50 - 21.50, a few to 22.75, medium 19.50 - 20.50, common 17-19.25 and a few down to 14. Good bulls brought 19-20.25, a few to 21.25, common and medium 15-19 and a few down to 13.25.

All vealers were in good demand. Trading was active and prices were steady with last week. Drinkers, yearlings and grassers were 1.00 lower this week because of greater receipts. Good and choice vealers brought 28-30, a dozen brought up to 31, common and medium 15-27.50, grassers 14-15, a few to 16.50, drinker and yearlings 14-17.50 and a few for feeding to 19.

Hogs were steady with last week on the east-end and west-end markets but sows, steady on the west-end, were ready to 50 cent lower on these east-end.

Receipts of 1,210 hogs and sows on the west-end market brought 25.25 for grade A hogs, and 13 for sows. On the east-end 468 hogs and sows brought 25 for grade A hogs with 30 at 25.25 and sows 15.

ashes brought back for interment in the family plot in Crystal Lake Cemetery, Stanstead.

Stringent Tests

TORONTO (CP) — The Canadian Association of Parks and Recreation Thursday heard resolutions calling for stringent tests for motorboat operators and more intensive lifeguard training. "The lifeguard situation in Canada is abominable and lifeguards are not properly trained," John E. McCutcheon, executive secretary of the Royal Life-Saving Society, said.

Card of Thanks

WARD — I wish to acknowledge, with sincere thanks and appreciation, the many acts of kindness to my husband during his long stay in the Sherbrooke Hospital and at the time of his death. To all those who took me to and from the hospital every day, those who helped out here at home and did so much for his comfort the few weeks he was allowed to come home, especially the Brother of the Order of St. John, St. Vincent and Golden Rule No. 13, Danville for loaning a wheel chair.

Doctors Charles Fountain and H. McLeod, the nurses, nurses aides, orderlies, and internes and his room mates on the second floor at the hospital, and especially Miss Hendaw at the time of his death. The Rev. Jervis Read and Rev. James Young and to all who came so many miles. Those who sent donations to Christ Church, Brompton, flowers, letters, and cards of sympathy, for food sent in and to all those who helped out in so many ways. We do thank them all. ALBERTA WARD, wife, SADI, sister, MURIEL & FRED daughter and son-in-law, KENNETH & LOIS, son and daughter-in-law.

BEANCHE — I wish to thank all my relatives and those of my husband, our friends, and all those who assisted me in any way during my recent bereavement. A special thanks to Rev. Mr. Tucker, Dr. Dougan, our neighbours, Mr. and Mrs. Marcoux, the bearers, Mr. Ashurst, the neighbours at the lake who sent flowers, my husband's C.P.R. friends, all others for the beautiful flowers, cards and to my alumnae friends who wrote. To the many who called, I can only say that I am deeply grateful and thank you all. MILDRED BALDWIN BEANCHE

In Memoriam

ROLFE — In loving memory of a dear father and grandfather, Benjamin, who passed away suddenly, Aug. 28, 1957.

I do not need a special day To bring you to my mind The days I do not think of you Are very hard to find.

You raised me from a baby, And taught me good from bad, I was and always will be proud Mom picked you for my Dad.

To those who have a father, Cherish him with care; You do not know how much you miss him.

Until he's no more here, If everyone had a Dad like mine What a wonderful world this would be.

So patient, so thoughtful, so loving and kind, He was all a father could be. But God came down and took him away.

Just why I do not know — Forgive me Lord, if I mourn for him But he was my Dad, and I loved him so.

I know he's happy up in Heaven, So safe and free from pain, But I'll treasure his love till that happy day.

When I'll see my Daddy again, Lovingly remembered and longed for, Daughter, BEBE GERRY, R.N., and grandchildren, CECE, ROBERT GERRY JR., ROGER and little baby MICHAEL LEGARE.

MEERS — In loving memory of a dear husband and father Hubert, who passed away August 28, 1958. We little knew when we woke that morn,

The sorrow the day would bring. The call was sudden, the shock severe.

To part with one we loved so dear, Sometimes it's hard to understand Why some things have to be.

In His wisdom God has planned Beyond our power to see, Sadly missed by,

MARY, wife, PEGGY, daughter, JACK, son, GORDON, son, JIMMY, son.

ELSTON — In loving memory of our dear father, Ralph Elston, who passed away August 27, 1959, and our dear mother, Mildred Elston, who passed away August 25, 1958. Many years have passed since that sad day.

The ones we loved were called away. God took them Home, it was His will.

But in our hearts, they live still. Sadly missed and always remembered, WALLACE, ELEANOR and SUSAN, son, daughter-in-law, granddaughter, Waterloo, Que.

SOLOMON — A tribute to the memory of Marcus G. Solomon, as it dwains three years ago today, since he went away.

"But we keep in our memory the love of the past, For deep in our hearts it was planned to last."

ETHYL (wife), MARYBONA (daughters), Richmond, Que.

Marriage

CAMPBELL - CAMPBELL
METIS BEACH — The marriage of Doris Annie, daughter of Mr. and Mrs. Lawrence Campbell of Metis Beach, to Donald Stewart, son of Mr. and Mrs. Stewart Campbell of Grand Metis, took place recently in the Metis Beach United Church, with the Rev. R. A. Mitchell of Magog officiating at the ceremony. Mr. Robert Mitchell Jr., nephew of the bride, played the wedding music. The Church was decorated with pink and blue summer flowers, the guest pews being marked with white satin bows and sweet peas.

The bride, given in marriage by her father, wore a street length dress of pale blue nylon tulle and lace over taffeta, the long sleeves ending in points over the hands, and a matching hat of lace and tulle. She carried a cascade bouquet of pink and white carnations.

Mrs. R. A. Mitchell, as matron of honor for her sister, wore a dress of flowered nylon organza over taffeta, a pink flowered hat, and she carried a colonial bouquet of carnations.

Mr. Keith Campbell of Roberval acted as best man for his brother. The ushers were Mr. Ross Campbell and Mr. Robert Campbell of Beloeil, brothers of the bride.

The bride's mother wore a dusty rose tissue faille dress with matching hat of velvet leaves with navy accessories, and a corsage of pink delight roses.

The bridegroom's mother was in a periwinkle blue figured silk jersey dress with matching velvet hat, white accessories and a corsage of pink delight roses.

Following the ceremony a reception was held at the Knotty Pine Tea Room in Metis Beach.

For her wedding trip the bride wore a blue and gold checked suit, beige feather hat and accessories, and a corsage of pink carnations.

Guests were present from Halifax, N.S., Roberval, Beloeil, St. Lambert, Magog, and Montreal West.

Mrs. E. Marshall, Mr. and Mrs. William Crichtley and daughter, Betty, have returned to their home in Lennoxville after visiting relatives in Newport and Burlington, Vt. Recent visitors at their home have been Mrs. William Peacock, of Newport, Vt., and Mr. and Mrs. Robert Peacock, of Burlington, Vt.

Mr. and Mrs. E. A. Duke, of Corning, N.Y., are visiting at the homes of Mr. and Mrs. John Sterling and Mr. and Mrs. Harvey Davidson in Lennoxville.

Mr. and Mrs. William Petery, of Thetford Mines, were recent guests of the latter's sister, Mrs. C. W. McVety, Queen Street, Lennoxville. Mr. and Mrs. Richard MacKay, of Eaton Corner, were guests at the same home.

Mrs. Myrtle Watkins, Mrs. Jean Fraser and Mrs. Clara McVety, of Lennoxville, were in Greenlay on Sunday to attend the funeral of Mr. Howard Ward.

Teen - Agers Primp For Return To School

FIRST DAY BACK AT SCHOOL means a lot to any teen-ager. She'll see friends she hasn't seen all summer. She's eager to look well, to do well in classes and fun. This teen-ager uses complexion brush (left) to get her skin into glowing shape. She gives herself a daily soapuds facial and uses the only make-up she needs: powder and lipstick. Morning or evening, she polishes her hair and keeps it healthy (center) with 100 strokes of the brush. She's careful to shampoo her hair once or twice a week. And here she is, ready for classes, ready to see her friends and ready to have fun. (right).

When school closes in June, math and history are promptly replaced by swimming and picnics. And the world seems like a fine place indeed to every girl in her teens.

But if you're honest, you'll admit that summer vacation fun begins to wear a bit thin when mid-August rolls around. You find that you're looking forward to crisp autumn weather and new fall clothes. Even the busy high school days ahead are not unwelcome.

Whether you're the bright gal who always leads her class, or the average student who just manages to get by, you do have one common goal. Every girl wants to lead a satisfying social life at school.

All you need to achieve the well-groomed beauty that will

make you popular is a little common sense. If you look well, you'll feel well, and the confidence and poise that feeling brings can zoom up your popularity like a rocket.

Daily bathing, of course, is a "must" on any beauty list. Let the rich lather prove how well

it can work for you. You'll need it to remove the perspiration that results from gym classes and the grime that your desk deposits on your elbows. A leisurely, sudsy bath relaxes not only your body, but your mind, too. And that's a point to remember when you're cramming

for an exam. You will probably have fun experimenting with new make-up this fall. But no matter how artfully you learn to apply it, it won't look its best unless you pay equal attention to removing it. Pores clogged with cosmetics that have not been thoroughly washed away result in blemishes and blackheads. So wash your face carefully several times a day.

A good way to keep your complexion glowing is to give yourself a soapuds facial every night. Massage rich suds on your skin with upward motions. Then rinse thoroughly with warm water and splash with cold water as a finishing touch. Your skin will be both clean and stimulated.

As to your hair, brush it vigorously each day to increase its luster and vitality, and shampoo it whenever it seems to need it. Frequent shampooing will not hurt your hair.

Make certain that your clothing is always crisp and clean. Even the loveliest of fashions look unattractive if they're soiled or unpressed.

Many a girl is considered pretty simply because she is well groomed. So if you want to make a success of your social life at school, don't shrug off cleanliness as unimportant. It's the basis for all beauty.

There's Nothing Like Home Made Pickles

Kitchens are a beehive of activity these days.

In September—when the children are back in school and there's more time to concentrate on filling those pickle jars with your favorite chili sauce, relish or dills.

Discard those old jars of spice that have lost most of their wonderful aroma and use fresh spice in your pickling. Remember, the fresher the spice the better the flavour of the finished product.

CRISP, CRUNCHY, SWEET-SOUR PICKLES

14 large (dill type) cucumbers, Boiling water, 4 cups vinegar, 4 pounds sugar, 2 tablespoons mix-

ed pickling spice 2 tablespoons salt.

Wash cucumbers thoroughly. Cover with boiling water, let stand 24 hours, drain. Again cover with boiling water and let stand another 24 hours. Repeat for another two days. The fifth day slice cucumbers about 1/3-inch thick. Boil vinegar and remaining ingredients for 5 minutes. Pour hot over pickle slices and let stand 24 hours. Drain off syrup, reheat to boiling and again pour over slices. Let stand another 24 hours. Repeat twice more. On the final day, drain, heat syrup to boiling, add cucumber slices, bring only to boiling. Pack in sterilized sealers. Yield: about 6 1/2 pints.

SLICED ICICLE PICKLES

This recipe turns out really good ones every time.

Mix, using plenty of ice, and let stand 3 hours:

4 quarts medium small cucumbers, sliced thin, 12 small white onions, sliced thin, 1 green pepper cut in strips, 1 sweet red pepper, cut in strips, 1/2 cup dairy salt, ice cubes or cracked ice.

Drain, add remaining ingredients:

5 cups sugar, 5 cups cider vinegar, 2 tablespoons mustard seed, 2 1/2 teaspoons celery seed, 1/2 teaspoon turmeric, 1/2 teaspoon powdered cloves.

Heat just to boiling. Seal at once in hot sterilized jars. Yield: about 6 pints.

HOT DOG OR BARBECUE RELISH

4 cups chopped cabbage, 2 cups chopped green pepper, 2 cups chopped sweet red pepper, 2 cups chopped onions, 1/3 cup salt, 1/2 cup sugar, 4 cups vinegar, 2 tablespoons celery seed, 1/2 teaspoon cayenne or more if desired.

Put vegetables through coarse blade of food chopper. Mix together, add salt and enough water to cover. Let stand overnight. Drain, and add remaining ingredients. Cook slowly about 15 minutes. Pour into hot sterilized jars and seal. Yield—about 3 pints.

Missionaries Need Confidence Of Japanese

CALGARY (CP) — A young, pretty Japanese Anglican missionary said here that Christians must work hard to gain the confidence of the Japanese, who are mostly Buddhists.

Fujioka Yokota said the Japanese feel they don't need Christianity in their lives. "With only 25 Anglican missionaries in Japan, it is very difficult to win converts. The biggest problem is winning the confidence of the people, and encouraging them to attend church services."

The Anglican church believes that Japanese missionaries might be more effective than white church workers, she said, and is attempting to gain missionaries through a native education program. In Japan, three-year missionary courses are offered.

Miss Yokota, a graduate of one of these schools, now is heading th church.

Teachers Trained To Deal With Gifted Students

VANCOUVER (CP)—A course in the psychology of exceptional children is being given at the University of British Columbia this summer by Professor Wilda Rosebrook of Ohio State University.

Miss Rosebrook, a little woman with greying hair and boundless enthusiasm, has devoted her life to teaching.

She is impatient because progress is slow in the training of children who deviate mentally and physically from the normal. At first she was a high school teacher and then became a clinical psychologist.

In this role, she says, she realized that gifted children as well as mentally or physically retarded children could best be helped in school, and by well-trained teachers.

ALSO HELPS PARENTS
So she started her present career of teaching teachers, administrators and psychologists.

Miss Rosebrook instructs parent and mental health group in her spare time.

"When one realizes that five per cent of the children have defective speech, 10 to 15 per cent have learning problems and one to two per cent are gifted, one realizes the importance of such training," she said in an interview.

"The teacher - training is important, but one must realize it is equally important that parents learn to live with and work with these children 24 hours a day."

"Always encourage people to give money towards basic research and teacher training. Let's modify the football fields if necessary."

Homemaking

One of the adhesive wall coverings, applied to walls of a hall from baseboard upward some four feet, makes a "mud room" where small fry can hang outdoor clothes. Supply hangers, of course, and a rack for muddy boots.

Dirty collars and cuffs come clean with less work and less wear-and-tear on fabric from abrasion of rubbing, if the home-maker uses one of the new, spot-cleaning solutions for such soiled areas.

Friends Fete Bride - Elect At Highwater

HIGH FOREST — Misses Lois Forgrave and Barbara Blair were hostesses recently at a miscellaneous shower in honor of Mrs. Phyllis Stowe, an August bride-to-be.

Upwards of 75 were present for the event held in the town hall in Sawyerville, which was attractively decorated for the occasion.

On the arrival of the guest of honor, she was met by Barbara Blair, who presented her with a corsage of yellow gladioli, and led her to the chair between her mother, Mrs. Reta Stowe and a future sister-in-law, Mrs. Roland Lowry.

Mrs. Verne Wilson then presented her with a number of

gifts for her new home. During the opening of the gifts, the ribbons were tied together through which the engagement ring was passed around the room several times before being returned to the bride-to-be. After the gifts had all been opened the guest of honor thanked her friends for their gifts.

Lunch was served, the bride's table being nicely decorated and centered with a bride's cake iced in pink and white and was made by Miss Myrtle Thompson. Assisting the hostesses were Mrs. H. Lasenba, Misses Myrtle Thompson, Lois Gilbert, Muriel French and Darlene Bain. Several flash pictures were taken during the evening.

Former Springhill Coal Miner Asks Why Go Back And Live On Scenery

"Why go back and live on scenery?" queries former Springhill, N.S., coal miner Tom McManaman who now has a job in Calgary.

The question sums up the attitude of many of the miners who left the small Nova Scotia town last year to seek work elsewhere after 75 of their mates died as the result of an underground upheaval Oct. 23 at the Cumberland Railway and Coal Company's No. 2 mine.

The exodus from the town of 4,500 started just after the disaster when the mine was closed down. Many of the men turned their backs on mining for good.

One hundred and seventy-four men were trapped in the depths of the mine. The same day of the "bump", 81 reached the surface. Six days later 12 survivors were brought up. After another seven days seven more miners were found alive. One man died from his injuries a month after the disaster.

55 FAMILIES MOVE

Mayor Ralph Gilroy of Springhill said 55 families have moved from the town since mining operations were abandoned. He said many had to sell their homes at low prices, taking heavy losses. Unless conditions improve, he said, many more families will seek employment elsewhere this winter.

Adopted by the city of Calgary, Mr. McManaman, father of three, says he doesn't intend returning to Nova Scotia.

"To go back to nothing seems so silly," he said, commenting on the decision of another former Springhill miner, Ken Smith, to move his family from Brandon, Man., back to Springhill because it is "home."

Mrs. Ivan McCormick, whose husband lost his father, a brother and two cousins in the disaster,

says her family is happy in Flin Flon, Man.

"Ever since I can remember at Springhill, our lives were geared to the danger of the mines," she said. "We were never sure the men would come home after a shift. There were always injuries—every day—and it was exhausting work."

"It's a much happier life here for all of us. We don't have to have the constant fear of trouble in the pits. And when our men come home from shift here they still have the energy to take part in community life."

Mrs. McCormick's 36-year-old husband, who has spent 13 years as a coal miner, has a job with the Hudson Bay Mining and Smelting Company Limited. The McCormicks have five children.

FEEL SAFER

More than 12 former Springhill miners work in Flin Flon. They say they feel a lot safer there than they did at Springhill.

Ed McCormick, 31, Ivan's brother, who found 52 men entombed in a mine during an earlier Springhill disaster in 1956, is still looking for work at Flin Flon.

In the 1956 disaster, the 52 men were saved. The mine was closed, however, with 39 known dead. Another survivor of the 1956 bump Fred Bagniski, is working underground at Flin Flon.

Neil McKinnon, Mrs. McCormick's brother, has a security guard job with the Hudson Bay company. He works with fellow Springhill miner Len Osmond, of three. Mr. McKinnon's younger brother, Bob, works in the company's paint shop.

Ron Atkinson, father of three, is in the power department, and Tom and Hazel Barrow and their two children, and Rod Chell, his wife and four children, are working at the company's Snow Lake, Man., properties.

Jim Chell, Rod's father, who was an official at the Springhill mine for many years, is caretaker of a Flin Flon school. Bob Cuddeha, a former miner, is doing odd jobs around the town. Mrs. Alex McNeil, whose husband died of a heart attack in the mine, works in the Hudson Bay company's dormitories.

Miner Doug Ross not only found work in Flin Flon, but also found a wife.

Arthur Rector, now a Kitchener, Ont., truck loader, has no qualms about leaving the mines.

ON TOP, STAYS THERE

"No sir, the man with the black cloak doesn't usually give you a second chance," he said. "I made my mind up while down in the mine if I ever got on top again I'd stay there."

Mr. Rector, who has two daughters, added: "I could make \$20 a day in the mines. Now though, I'm on top of the ground and I feel a lot safer."

Leonard Boss also went to Kitchener on the advice of a Springhill friend, but returned to Nova Scotia with his wife and two children when his parents became ill.

They're homesick sometimes, but three miners who settled in Montreal don't think they'll ever go back—except for visits. Ken Murray, 32, Stan Pashkoski, 31, and Ralph Henwood, 36, are employed by a Montreal oil refinery.

"It's always difficult to leave

home," Mr. Murray said. "I'll get over it, I guess, but it sort of frightens me to think about bringing up a child in the traffic and noise of the city."

RETURNED HOME

Ken Smith, 34, who took his wife and 13-year-old son to Brandon, Man., after the disaster, has returned to Springhill because it is "home." He said they will never want to move again. He had not lined up a Springhill job, and said: "I suppose it's a gamble. Many things are a gamble."

His wife, Renovia, said the decision to go home was unanimous. "There was no coaxing on either side. We both wanted to go home."

Gerry Boss, a miner who helped in rescue operations last year, moved to Moncton, N.B., where he has a job as a city workman. He played hockey last season with Moncton Hawks of the North Shore Hockey League, and is playing softball this summer. He and his family still make frequent trips to Springhill, about 60 miles from Moncton.

Murray Cottenden, an office employee with Cumberland Railway and Coal Company, has been transferred to the Dominion Steel and Coal Corporation's Sydney, N.S., office. A few other disaster survivors have found work in the Cape Breton coal fields, but there is little work there for the Cape Breton miners left alone the Springhill men.

Herb McLeod, who worked in the mines after he returned from the United States where he played professional baseball for several seasons, is coaching baseball in Sackville, N.B., about 30 miles from Springhill. He also makes many trips home and probably will return after the baseball season.

FAMED DRAEGERMAN

Allie Maddison, one of Springhill's famed draegermen, is also playing baseball in Sackville, but will return home after the season unless he can find full-time employment.

Allison Hollis operates a car agency in Moncton and many of his fellow Springhillers have found work with him. A group of former miners were employed by the Fairway Aviation Company at Dartmouth, N.S., but were laid off during the spring. The men will get their jobs back if employment conditions improve.

Springhillers hope to find work when a federal prison farm opens in the area soon. A U.S. storage battery firm is reported considering plans to open a branch plant that would employ about 80. The only other probable source of work in sight is a woodworking plant that would employ 15 to 20 workers.

Baby Shower Given Mrs. C. Roy At Stanstead

STANSTEAD — Mrs. Conrad Roy was pleasantly surprised on Tuesday evening, August 18, when upon returning to her home, she found 34 relatives and friends awaiting to shower her with stork gifts.

Amid salutations she was escorted to a chair decorated in pink and blue and garlands from the chair reached to the ceiling, and presented with a corsage of ribbons and baby rattle. Daintily wrapped gifts in a bassinet were presented to the honoured guest, as well as a stroller, highchair and a bathinette. Mrs. Roy was assisted in opening these by her mother, Mrs. A. Michaud and mother-in-law, Mrs. T. Roy. In a few well chosen words Mrs. Roy voiced her appreciation to all for their thoughtfulness.

Bingo was then played and prizes awarded to the winners. The hostesses, Mrs. Ann Reed and Mrs. Henry Nadeau served refreshments which included a lovely stork cake, made and decorated by Mrs. Reed. The three tiers decorated in white with miniature baby dolls, pink and blue flowers and love birds, were topped with a stork. The initial cut was made by Mrs. Roy. Guests attended from the Boundary Villages and Ayer's Cliff.

AUSTIN —

Master Billy Smith, of Newport, Vt., has been a guest of his aunt, Mrs. W. P. Stone, and Mr. Stone.

Mr. and Mrs. M. Kingsland, St. Johnsbury, Vt., were guests of Mrs. Kingsland's parents, Mr. and Mrs. W. E. Juby.

Sunnyside To Open As High School This Fall; New Addition Completed

ROCK ISLAND — An enlarged Sunnyside School will open classes in September 1962 as a second year in September grade school. A new addition has been completed to serve the school in its new capacity. Modern in every way, the new wing holds several classrooms, a cafeteria and kitchen, domestic

science room, manual training room, a large size play room which later may be used for additional classrooms, locker space and fully equipped lavatories including showers.

The classrooms are decorated in shades of blue, green and yellow and the corridors in green and yellow (which incidentally are the school colors) and blue tones. The entire building is fireproof.

A few changes have been made in the older part of the School - the Grace Libby Library has been enlarged; what was formerly the cafeteria and later used as classroom will be the new teachers' room; the former teachers' room will become the principal's office.

From the time the school opened seven years ago, Mrs. Hugh McClary was principal, taking a motherly interest in her students and having the affection of the entire teaching staff through the years. Mrs. McClary resigned as principal of the school last spring and has accepted a position on the Stanstead College staff.

The new principal is Dr. Kathleen Harper, former principal of Sutton High School and highly recommended as a most efficient teacher.

The new addition to the building cost an estimated \$328,000. A grant from the government over a five-year period has been given.

Architect of the new building was Alphonse Belanger of Sherbrooke.

The contract for building went to William Lavallee of Sher-

brooke and excavation was done by Couillard Construction Ltd., of Coaticook. Steel work was secured from MacKinnon Structural Steel Co. Ltd., of Sherbrooke and wood was furnished largely by the Three Villages Building Association of Rock Island.

The plumbing installation was done by Cloutier Brothers of Sherbrooke who also installed the heating and ventilation system. The ornamental iron work is that of Therrien and Freres, Sherbrooke.

Millwork was done by Joe Mercure, of Drummondville, plastering by Willie St. Laurent, of Sherbrooke and roofing by Arthur Couture Sherbrooke. E. T. Terrazo Tile Marble Ltd., supplied the flooring.

Ont., and will return to his studies at Bishop's University in September.

Guests for several days of Mr. and Mrs. E. J. Curtis, Stanstead, were their daughters, Dr. and Mrs. Bruce Philips, Diane and Ian, of Montreal, returning from Bridgeport, N.S., Rev. and Mrs. H. A. MacLeod, Burns and Bonnie, of Bridgeport, N.S., en route to Whitehorse, Yukon, where

Mr. MacLeod will be airforce chaplain. While they were here, Mrs. Curtis entertained at a family gathering and supper. Other guests for this event were Mrs. E. T. Gill, son Billy, and daughter, Gloria, and her husband, of Verdun, Mr. and Mrs. George Caines and three children, who are holidaying at a cottage at Bacon's Bay, Ayer's Cliff.

Mr. Arthur Currie, Counsellor at Shore Acres YMCA camp, was an overnight guest of Mr. and Mrs. George Hatch and Elizabeth, Rock Island.

New Building Added To Stanstead College

VIEW OF THE NEW JUNIOR BOYS' RESIDENCE, STANSTEAD COLLEGE

STANSTEAD — When Stanstead College school term opens next month, the Junior boys will be in residence in a smart new building.

Constructed during the past year and modern in every respect, the building is fireproof and brick encased. Accommodation will be available for 40 boys in the three-storey structure, each bedroom being shared by

two boys. The rooms are well lighted and attractively decorated in pastel shades.

In addition to the bedrooms there will be playrooms, trunk room space and living quarters for the House mother.

This is the third new building added to the College in the past few years. The main building, Colby Hall, was opened about 20 years ago, replacing the one

destroyed by fire in 1938. Restored Pierce Hall and Davis Hall were both officially dedicated last year.

The Junior boys' residence is a part of the master plan for expansion of the College quarters, future additions to include a gymnasium, a chapel and a hospital.

Colin Copeman, of Montreal, was architect of this building and the contract for its construction was given to Williams Construction of Sherbrooke.

Among the companies who sup-

were Three Villages Building Association of Rock Island and Goudreau Construction, Stanstead.

Plastering was done by Willie St. Laurent, of Sherbrooke and cement was supplied by Lionel Grenier, of Stanstead.

Ornamental iron work found in the building came from Florent Brochu, of Sherbrooke, and the terrazzo flooring was also the work of a Sherbrooke firm, Eastern Townships Terrazzo.

Bride-To-Be Entertained At Island Brook

ISLAND BROOK — A very enjoyable evening was spent in the Town Hall when upward of fifty people gathered to honor Miss Mary Cooper, a bride of the month. Mrs. Earl Dawson played the music and Miss V. Lister and Miss Barbara Lister met the bride-to-be, her mother and mother-in-law to be and escorted them to special chairs in front. The hall was decorated with pink and white streamers and summer flowers.

Miss Cindy Lister then wheeled in a decorated carriage filled with numerous lovely gifts and presented them to the bride-to-be. Miss Cooper was assisted in unwrapping by her mother and mother-in-law to be. After the gifts had been admired, refreshments were served by several of the young girls.

GARDEN PARTY
The Women's Association held a garden party, at the home of Mr. and Mrs. H. V. Burns. The weather being favourable there was a large crowd of ladies from Bury and Cookshire and several from Island Brook. For entertainment there were contests held with prizes going to the winners.

After the contests were completed, a salad tea was served by the W.A. ladies of Island Brook, thus bringing an enjoy-

The Doctor Says

PROPER HANDLING OF INFANTS IS IMPORTANT TO LATER LIFE

There is probably nothing so bound with tradition and prejudice as the care of babies. Any one and everyone offers free advice on how the baby should be fed, clothed and how it should be trained.

Most of this advice is worth what is paid for it — exactly nothing. It is given with the best intentions, but usually comes from a strange mixture of what grandmother did, or what somebody's neighbor or aunt said.

A few years ago, the late Dr. C. Anderson Aldrich and Mrs. Aldrich wrote a book called "Babies are Human Beings" which I hope is still in print. The main theme is that babies should not be treated as objects, because their individual personalities would have little chance to develop.

As the Aldriches' point out, babies are different even at birth. In a hospital nursery for newborns, a great difference between one baby and another in appearance and behavior can be noticed. Every mother instinctively recognizes that her baby is "different."

One question which the Aldriches discuss is about fondling or living babies. Conscientious mothers often ask whether fondling is proper. For some reason they sometimes feel that it may be wrong for babies to be rocked, hugged or mothered, and that the infant in order to be healthy must be raised as practically "untouched by human hands."

It is not good, of course, for a baby to have excessive fondling by friends and relatives. Like everything else, this matter can be overdone, as more people who come in close contact with the baby there is a greater chance of giving the infant some infection. I feel that a mother and father who do not give the infant physical affection, however, is to inflict unintended cruelty. Everyone thrives on some affection and probably infants most of all. Of course, it is good to fondle babies — good for the baby and good for the parents. This does not mean bouncing a baby around roughly or exposing it unnecessarily to colds or other infections.

Two principles should govern: treat a baby as you would like to be treated if you were young and helpless; and remember that signs of affection are appreciated even before a child can talk. The rewards of proper handling in infancy will be reaped when the child gets older.
