## LORDS PRESENT THEIR POSITION

Resolutions Which Lord Lansdowne Will Introduce Tomorrow in Upper House.

London, Nov. 21.—The Lords to-day presented their case to the country in the coming electoral struggle, a case which John E. Redmond, leader of the Nationalists, in a speech at Islington to-night, characterized as "metaphorically committing suicide as fast as possible."

It is understood that the resolutions which Lord Lansdowne gave notice he would introduce on Wednesday represent the attitude taken by the Unionists' side in the veto conference and the rock on which the conference foundered. These resolutions follow:—

The resolutions which Lord Lansdowne gave notice that he would introduce on Wednesday are as follows:—

"It is desirable that provision be made for settling differences that may arise between the House of Commons and this House, as reconstituted, reduced in numbers in accordance with the recent resolutions of this House.

"That as to bills other than money bills such provision should be made on the following lines:— If a difference arises between the Houses in regard to any bill other than a money bill in two successive sessions and during an interval of not less than one year and such differences are unable to be adjusted by other means, it shall be settled at a joint sitting composed of the members of the two Houses, provided that if the measure relates to a matter of great gravity and has not been adequately submitted to the judgment of the people, it shall not be referred to a joint sitting, but submitted for decision to the electors by a referendum.

"That as to money bills, the provision should be on the following lines:— The Lords are prepared to forego their constitutional right to reject and amend money bills which are of a purely financial character, provided effectual provision is made against 'tacking,' and provided that if any question arises as to whether a bill or any of the provisions thereof are of a purely financial character, that questions shall be referred to a joint committee of both Houses, with the Speaker of the House of Commons as chairman, who shall have a casting vote only. If the committee holds that the bill or the provisions in question are not of a financial character, they shall be dealt with forthwith at a joint sitting of the Houses."

The Liberals contend that the adoption of these resolutions would render future Liberal governments as powerless as ever against the House of Lords. The present situation appears to be that the House of Lords will discuss these resolutions, instead of passing the second reading of the veto bill.

## THERE IS NO HOPE FOR DR. CRIPPEN.

London, Nov. 21.—Dr. Crippen's petition for reprieve was denied to-day, the Home Secretary announcing that he declined to interfere with the sentence of the court. Crippen will be executed on Wednesday morning next.

## MONTREAL GAOL GUARDS GAVE PRISONERS DRUGS.

Montreal, Nov. 21.—Two guards at the Montreal gaol have been dismissed and five others suspended as the result of an investigation of how prisoners were able to secure cocaine and other drugs after being sentenced. It was found that the guards were guilty of the practice with the above result.

## CATHOLIC POPULATION OF ST. ROCH.

A church census of St. Roch, which has just been taken shows the Roman Catholic population of the parish to be 11,871 souls. There are 2,408 French-Canadian families with 9,240 communicants; 504 Irish-Canadian families; 48 Protestant families; 5 Chinese families; 1 Greek; 1 Italian and 57 Jewish families.

## THREATENING FIRE IN BUSINESS DISTRICT.

Harrisburg, Pa., Nov. 21.—Fire which started in the Cottler office building in Market Square threatens more than a dozen of the big buildings in the heart of Harrisburg to-night. The Patriot office building was endangered by sparks and the office force moved to the Telegraph building. Surrounding towns have been asked for aid.

## CIVIL SERVICE ACT IGNORED

Report of Auditor-General—Insurance Superintendent Reports Fire Losses.

Ottawa, Nov. 21.—The Dominion Auditor General's report states that the civil service act is being ignored by paying certain employees of the Senate and House of Commons more than the schedule. The Printing Bureau scandals are referred to.

The annual report of the Superintendent of Insurance for the year ending December 1, 1909, shows the fire losses to have been \$8,646,826 in the year, less than the year before by \$1,632,629. The premiums paid amounted to \$17,049,474, an increase of \$22,199 over 1908. The loss rate for the past year was 50.72, 13.49 below the average of the past 41 years.

It is expected that Mr. Hance J. Logan, the former member of Parliament for Cumberland, will be appointed to the vacancy in the Senate caused by the elevation of Hon. J. D. McGregor to the lieutenant governorship of Nova Scotia. Mr. Logan's chief competitor is Dr. Black, M.P. for Hants, but it is understood that Mr. Logan is slated for the appointment.

The moving picture men of the city, alleging that they have been unfairly discriminated against by certain of the Aldermen, with regard to the boosting of their license fees to \$200, have decided to retaliate by advising the general public who patronize their establishments to vote against the Alderman in question at the municipal elections. Lantern slides to this effect will be thrown on the screens at the various moving picture houses at election time.

Colonel Sam Hughes has given notice of an enquiry as to whether it is the intention of the Government to send to the coronation a detachment of the Royal Military College cadets and a small representation from each cadet corps in the country.

## TORONTO WILL HAVE AN ARTIFICIAL RINK.

Toronto, Nov. 21.—It is stated on reliable authority to-day that a new artificial hockey rink will be erected in Toronto at an early date. The company behind the scheme claims to have financed the matter so as to be ready to go ahead at any time. One or two of the names mentioned in connection with the scheme are substantial business men, and it looks like a go this time. They are not ready to announce the site selected or expected to be chosen, but it is stated that they have already let some of the contracts.

## DISTURBER OF PUBLIC WORSHIP BOUND OVER.

Hamilton, Ont., Nov. 21.—George E. Dunn, who was prosecuted by the management of Victoria Avenue Baptist Church, on a charge of disturbing the worship, was bound over in the sum of \$50 to keep the peace to-day and ordered by the court to keep away from the church. Rev. Edgar Allan, the pastor, said that every time he spoke of the brotherhood of men or mentioned hypocrisy, Dunn had an aggravating habit of coughing and disturbing the congregation. This had been going on for two years. Deputations had waited on Dunn, who paid no heed. "A man who would do that cannot be a Christian," said Magistrate Jelfs.

## STATEMENT OF THE SHELTON LIABILITIES.

Montreal, Nov. 21.—Wilks & Burnett, the joint curators of the insolvent C. S. Sheldon estate, were busy to-day addressing and mailing to the 5,000 customers of the former "blind pool" operator legal notices of their appointment by the Superior Court, and the approximate figures of the assets and liabilities of the fugitive broker. This statement is as follows:

In response to numerous enquiries, we take the opportunity of giving what information we have to date, figures being approximately only, as we have not yet been able to obtain fuller details.

Liabilities.—5,000 creditors, about \$750,000.

Assets.—Cash, \$10,000; equity in house, \$5,000; other assets, \$3,000.

We are making a careful investigation concerning further assets, but we have great difficulty in obtaining definite information, the books of the insolvent only containing records of liability.

Mr. W. J. Wilson, of Montreal, is registered at the Neptune Inn.

## SITUATION IN MEXICO SERIOUS

All Telegraphic Communication Through Regular Channels Has Been Cut Off

Laredo, Texas, Nov. 21.—The situation in Mexico appears serious to-night. For the first time in the fifteen years of operation, the leased wire of the Associated Press from Laredo to Monterey and Mexico City was to-night commandeered by the Mexican Government on the plea of military need.

The federal telegraph circuit manager in Nuevo Laredo was ordered to cut off the Laredo office of the Associated Press to prevent the gleaming of information from messages moving over the wires. These instructions emanated from the headquarters of the federal telegraphs in Mexico City, where it was explained that the Government would require the full capacity of all its telegraph facilities throughout the night.

Coming as it does after what was officially reported to have been a perfectly tranquil Sunday throughout the greater part of Mexico, broken only by a few almost insignificant disorders in the smaller places, this action on the part of the Government would appear to lend substance to the rumors of bloody riots at Zacatecas, Gomez, Placio and Torreon, the authenticity of which had been in doubt. These three important cities are situated in a region which had been disaffected for years. Gomez, Placio and Torreon are cities of about 15,000 and 25,000 inhabitants respectively and are four miles apart in the Laguna district of Coahuila. This territory was the scene of the insurrection in 1903, which was quickly quelled by the federal government and which is supposed to have resulted in sending Gen. Bernardo Reyes out of Mexico. Gen. Reyes at that time was Governor of the contiguous state of Nuevo-Leon. The revolutionists proclaimed him as their leader. Repeated disavowals on his part did not seem to convince the central government that he was covertly abetting the disaffection. He was dispatched to Europe, ostensibly on a military mission and he has not yet returned. Almost at once, the element that had recognized Reyes as their standard bearer turned to Francisco I. Madero and nominated him for president of the republic in opposition to the incumbent Porfirio Diaz in the elections last spring. Madero and his supporters said that they were not accorded fair treatment in the campaign. Madero was imprisoned on the charge of insulting the Government by his statement that he could not get justice in the courts. He was held in prison until several weeks after election day, when the existing government was overwhelmingly returned to power. After that he was released on bail.

Madero made his way to San Antonio, being secretly preparing his partisans for the widespread revolt which was planned to begin yesterday. Last Friday Madero slipped out of San Antonio, made his way on a train to Cotulla, Tex., where he was met by four companions with horses and a guide. They departed in a westerly direction. It was then said that he was going to the family estate in Coahuila, to take personal command of the anti-government forces in the field. No further word has been obtainable regarding his movements, and it is believed he is in Mexico to-night. Every precaution is being taken by American officers to prevent violation of neutrality laws on United States soil. Governor Campbell, of Texas, is reported to have ordered the entire force of Texas Rangers to the Rio Grande. The commanding officer of Fort McIntosh has placed a double guard on the gun racks in each barracks of the four companies of infantry stationed here, as a precaution against theft or seizure by Mexican revolutionists.

It is said in Laredo to-night that the Mexican military authorities are conscripting large numbers of the residents of Nuevo-Laredo into the army for emergency service.

Mexico City, Nov. 21.—Fierce fighting occurred to-day at Durango, Torreon, Parral and Gomez-Placio, the latter two falling into the hands of the rebels. Three hundred of the federal troops at Gomez-Placio are said to have gone over to the insurgents, who are now attacking the loyal forces at Torreon. The fighting at Durango at 4 o'clock this afternoon and an hour later all the wires were cut. It is reported that 25 persons have been killed at Seacatecas. The Government troops it is reported quelled the uprising there to-night and are in control to-night. The wires north of Monterey have been cut and no reports are obtainable from beyond that point. It is believed that the insurgent cut the wires.

Mexico City, Nov. 22.—It was reported here early to-day that Francisco I. Madero, the revolutionary leader, entered Mexico yesterday with 600 followers at some point between Eagle Pass and Laredo, Texas. Gen. Goronimo Trevino, commander of the military zone in which Monterey is situated, has gone north at the head of a strong body of troops to meet him.

## 28 Shopping Days Before Christmas 28

**First Message From Santa Claus**  
North Pole, November 21st, 1910.  
Dear Little Boys and Girls:—  
I will be with you this year as usual and will make my headquarters at Paquet's. I am getting ready to start on my long journey to Quebec and expect to be there in about ten days.  
I have been in terrible trouble over the Big Toy Factory at the North Pole. Ever since those men Cook and Peary discovered my hiding place there has been a lack of harmony among my Esquimaux workmen who make the Toys. Some say that Cook got here first and others give the honor to Peary. The result is that arguments are entered into three or four times a day, and sometimes these arguments bring on a fight.  
This condition has rather delayed the Factory and cut down the output, so I will have Toys enough for those who have been very good all year and those who have been a little bad but are now very sorry. I will send you another message to-morrow—look for it.  
Your old friend,  
SANTA CLAUS.

**MEAT FOR INSANE PATIENTS STOLEN**  
Over Two Hundred Thousand Pounds Disappeared—Long Standing Frauds.

New York, Nov. 21.—Wm. Mabon, Superintendent of the State Hospital for the Insane on Ward's Island, testified to-day before Commissioner Fosdick, of the Department of Accounts, that in the last three years during which he had been superintendent 216,000 pounds of meat intended for the patients had been stolen.

"It is surprising," he testified, "that these thefts went so long undetected and it is apparent that a conspiracy permitted systematic stealing. As for the patients I do not believe they suffered, for we continued to distribute the usual prescribed rations. However, we are making investigations on that score which may show that in order to make up the loss of the stolen meats, enough additional was ordered to provide for the patients."

The exposure of long standing frauds of such magnitude came through the arrest last week of Simon Katzenstein, a refuse collector who had the contract to remove bones and fat from Ward's Island. He is out on bail, specifically charged with the theft of seven barrels of meat and chicken, which when seized were found to be thinly covered on top with a layer of bones.

**MONTREAL MOTHER'S MISSING SON.**  
Toronto, Nov. 21.—The police are now searching for John Demetelin, of 144 St. Antoine street, Montreal, who disappeared here at the beginning of the month. The following letter has been received from his mother:—  
"Honorable Chief of Police, Toronto, Ontario: My dear sir, I do hereby respectfully beg to inform you that I have missed my 13-year-old child, John Demetelin, whose picture I herewith enclose. He sent me a letter from Toronto, in which he stated that he is working at \$5 per week. You cannot imagine how grateful and thankful I will be to you if you locate him and telegraph to me in order to bring him back to Montreal. He was last seen at 33 Queen street west where he took his picture. I also will be very thankful to you to send me back the picture as this might be my only consolation. Yours very respectfully, (Sgd.) Irvin Demetelin."  
So far the police have been unable to get any trace of the youngster.

## PROGRESS

During the past three months, the carpenters, the masons, and the electricians have been at work on the Garneau street extension to our building; the result is that we will this Christmas season have the pleasure of showing our customers through a greatly enlarged establishment, for our floor space is practically double what it was a year ago.

Our new Show Rooms will be a revelation to Quebecers, each additional room is a store in itself.

To provide suitable goods for these new rooms our English and Continental Agents have been steadily at work for many months keeping us informed about the latest and most attractive novelties and art goods to be found in the European marts, the consequence is that we have a stock of the choicest merchandise purchased direct from the makers at the minimum cost.

While the alterations were in progress, we have, by our Saturday sales, been steadily reducing the surplus stock so that when we open up the new Show Rooms in December our Customers will have an opportunity to see the latest European manufactures.

## LOOKS LIKE BUSINESS.

All the tenants of the Champlain Market have received an official notice signed by Hon. S. N. Parent, the Chairman of the Transcontinental Railway Commission, and ordering them to vacate their stalls on or before the 15th of January. This looks as if the Commission really meant business at last.

## SIR WILFRID'S LETTER

Qui s'excuse, s'accuse. Sir Wilfrid Laurier is not generally addicted to the practice of writing to the newspapers in order to defend his politics. So far as we know the last occasion of this sort was just before the election of 1896 when he wrote a letter to Mr. Bertram denying that the Liberals would destroy the tariff. That letter was published with his consent, but during the fourteen years that have elapsed since then Parliament and the hustings were the sole scenes of his communications. That he should take this unusual step is significant and shows that he intends to make strenuous efforts to win over his old flame, Quebec.

"In former times," says the Premier, our great shipyards of Quebec disappeared with the elimination of the sailing vessel. It is by the construction of Cruisers that we hope to revive the ancient industry."

And then Sir Wilfrid goes on to draw a highly colored picture of the opening that will be created by the navy for "Captains, mates and clerks as well as carpenters, electricians, mechanics, firemen, sailors and so forth."

The above is no doubt very comprehensive and should prove inspiring to the would-be captains and mates, if any can be found. But we always thought that tradition generally let in the bos'un as the tertium quid. It seems uncharitable of the Premier to have omitted so important an official, but no doubt the omission will be rectified.

Again, was it the "great shipyards" of Quebec that furnished the sailors of old? Or was it the crimps and boarding houses that supplied the ships with the flotsam and jetsam of every foreign port? There were practically no Canadian sailors at that time.

Had he been writing a defence of his policy to a Western paper Sir Wilfrid would probably have repeated his Regina statement that, if occasion came, the navy would "rush to the help of Great Britain. But that tale will not do for Quebec. The suggestion of Imperialism in this province might be fatal. "Autonomy" must be the slogan here, and that, he is careful to impress upon the French-Canadian, has been preserved by a clause which reserves to Parliament the absolute control of a service, which is its own creation, and which cannot be used otherwise than by the will of the representatives of the people."

If Sir Wilfrid had said—"which is Laurier's own creation," it would have been more appropriate.

## RUSSIA AND THE CHOLERA.

The recent arrival of a cholera case in the person of a Russian immigrant at this port has aroused much conjecture as to the ignorance, superstition and squalor which promotes the disease in that country. These conditions are fairly general among the Russian mujiks. And yet, as was pointed out in these columns recently, one of the peculiarities about this disease, which was lately commented on by Professor Metchnikoff, is the fact that certain districts are immune from the germ, which cannot live in them. It is said that patients suffering from cholera will recover if they go to Versailles, to Lyons or to Stuttgart, nor can they communicate the disease to the citizens there. What has been found to be true of these places may apply to many others also which have never been tested. Some time ago the idea was that there was "something in the air" that caused or prevented cholera. Prof. Metchnikoff says that cholera is easier to avoid than catarrh, and that as long as drinking water is boiled one need not fear the disease.

As we said in a former article on the subject the mujik believes that disease comes from God, and is, therefore, inevitable; that cholera, in particular, is a fad of learned men, who, failing a sufficiency of cases to enrich them, do not hesitate to infect whole districts with the cholera poison. As the people have no clear idea—their besotted ignorance seems to make it impossible to convey to them any clear idea, even in such a centre as St. Petersburg—of what cholera is and whence it comes, they seize with the avidity of superstition upon any idle tale. Here a harmless botanist collecting specimens of the flora of a district is "moved on" by an angry crowd be-

yond the confines of their village lands; there a new-comer, quenching his thirst at the village well, is threatened with death for "poisoning the water;" disinfecting operations, which include sprinkling of yards and dwellings, even in the capitals, are resented, the people openly growling that the "doctors are sowing cholera;" a hospital is to the common people of Russia an object of tenfold more dread than any prison. Cases of cholera have to be sought for vigilantly and placed in hospitals by force.

The best efforts of the Government in such cases hardly go beyond the task of disposing, not with decency but with safety, of the dead that lie huddled about everywhere. Ignorance goes hand in hand with superstition, and while the common people look upon sanitary precautions as a useless nuisance, they will not only listen to, but even pay money to hear, all sorts of curious items of ancient folklore and modern quackery. The doctor and his assistants often go in fear of their lives, but the village "wise woman" and the local "wizard" are persons both feared and honored.

There is a custom—to name only one of hundreds such—in the villages in many parts of Russia to bathe a sick person and then return to the village well the used water, the belief being that the disease will thus be divided equally among all and none will feel the burden of so minutely divided a sickness at all troublesome for his health! Naturally, the community is not always asked whether it is willing to relieve the sick person of his disease.

## CANADIAN GOODS IN ENGLAND

According to the Canadian Trade Commissioner at Leeds, England, Canadian goods are getting a good footing in the Old Country markets. It is surprising to find what a number of manufactured articles supplied by the Dominion are meeting with favor in Britain considering that is almost a case of sending coals to Newcastle. Agricultural implements and manufactured wooden articles find the most ready sale and leather goods from this country are also largely sold.

## STOCK MANIPULATION.

The extraordinary gymnastics in which the stock of the Quebec Railway, Light and Power Company has been indulging during the last two or three days is not likely to commend it to the investor. Last Saturday on the Montreal Stock Exchange it jumped over ten points and then dropped back eight. Yesterday it again rose as high as 60 only to fall once more. It is therefore quite evident that the so-called boom is entirely fictitious and that the stock is being manipulated by a clique of speculators.

## NO LIQUOR IN ONTARIO LODGES.

A recent decision given by Judge Widdifield in Ontario has led the license department of that province to interpret it as a ban upon the supply of liquors by fraternal and secret societies to their membership. These are therefore brought under the liquor license act which says that the consumption of liquor upon any premises of any unincorporated club or society shall be conclusive evidence of the law's infraction.

A general tendency towards prohibition has been noticeable during the past few years in Ontario lodges.

## THE BRITISH CRISIS.

The English Liberals argue that the pending election will be a contest between popular government and hereditary privilege. But the Liberals have sacrificed their convictions to the Radicals who, for their part will be satisfied with nothing less than the total abolition of the House of Lords.

The system of constitutional monarchy in England has by its stability and satisfaction aroused the admiration of the world. England with a single chamber is inconceivable unless it means a repetition of the old-time mistakes in Paris. The Liberal party of to-day seems to be at the mercy of the Radicals, the Laborites under the spurious glamour of Socialism. But the inevitable reaction must come.

## THE DECADENT PARTY.

The following extracts are from articles by the Eastern Chronicle, of New Glasgow, one of the Liberal organs of Nova Scotia. Read in the light of other articles from Liberal newspapers which have lately been reproduced in these columns, they show the dissatisfaction and disappointment that exist in all parts of Canada in the moribund Liberal party. Here is what the Chronicle says:

"The government, by the manner in which they placed a navy on the Dominion, violated the fundamental principles of responsible government and the Premier's own countrymen have inflicted the first spanking—and goodness knows where it will end."

"Public administration at Ottawa has developed into a bureaucracy as hard and close as that of Russia."

"Government and parliament should realize that the people of Canada are possessed with the idea that they rule the Dominion—even rule governments and parliaments."

"One thing more in this connection: The Liberals of the older Provinces of the Dominion have an impression, or is it a tradition, that they owe their party birth to the fact that their fathers fought for and obtained responsible government for their provinces. It therefore makes them sore when a government that they helped to elect adopts an important policy without consulting them. And, by heavens! they are right; and the lesson will be taught if a dozen administrations are defeated."

## A CURIOUS DEFECT.

A curious defect in the governmental system of the United States will shortly be in evidence, when the moribund Congress assembles early next month for its final session. The electors have passed judgment upon it, and condemned it. A new House of Representatives has been elected, containing a Democratic majority. But that new House will not assemble until March next. Meanwhile the present House, with a Republican majority and Speaker Cannon in full power, will do business. In like manner a President holds office four months after his successor is elected. Lincoln, when he was elected the first time, had to wait in absolute powerlessness while President Buchanan did everything to strengthen the South for the impending civil war.

## THE HUNTERS

More instances of the man "who thought it was a deer" are continually brought to light in the press and the slaughter of the innocents by the innocents goes marching on with all the fatal persistency of the soul of that time-honored hero, John Brown. The need of caution is evident but the caution must be general or that very caution may lead to a man's undoing—a lesson which is illustrated from the following verses which appear in a Philadelphia paper:—

A hunter popped a partridge on a hill;  
It made a great to-do and then was still.  
It seems (when later on his bag he spied)  
It was the guide.

One shot a squirrel in a nearby wood—  
A pretty shot offhand from where he stood.  
(It wore they said, a shooting coat of brown,  
And lived in town).

And one dispatched a rabbit for his haul  
That later proved to measure six feet tall!  
And, lest you think I'm handing you a myth—  
Its name was Smith.

Another Nimrod slew the champion fox  
He glimpsed him lurking in among the rocks.  
One rapid shot! It never spoke or moved—  
The inquest proved.

A "cautious" man espied a gleam of brown;  
Was it a deer—or Jones, a friend from town?  
But, while he pondered by the river's rim,  
Jones potted him.

## Mistakes May Happen

to you,—as they do to everyone. If you eat too fast, do not masticate properly, or take food that does not agree with you, digestive derangements are almost sure to come, and indigestion generally leads to very serious physical troubles.

## BEECHAM'S PILLS

relieve and cure indigestion. They have a quick and tonic action on the stomach and its nerves, and so they give direct aid to digestion. They carry away also the indigestible matter. With their use dyspepsia, hiccoughs, bad taste, unpleasant breath and flatulence disappear. You should be careful and remember Beecham's Pills

## Do You Suffer from Piles?

If so, we would ask you to enquire amongst your friends the value of Zam-Buk for this ailment! You cannot but meet with some one who has proved how excellent it is.

Mr. H. E. Hill of Shelvin, Man., writes:—"I suffered a long time with piles and tried numerous remedies, but without effect. Having tried a sample of Zam-Buk and being encouraged by the result, I persevered, using two boxes. It worked like magic, and effected a complete cure in a very short time."

Mr. James Ruddy of Killaloe, Ont., says:—"I suffered greatly from piles. The pain from these—as anyone who suffers from them will know—was almost unbearable. I tried first one remedy and then another, but all without effect. Then I heard about Zam-Buk and determined to give this wonderful balm a trial. I obtained a supply and commenced with the treatment, and to my great joy, after perseverance with Zam-Buk, I obtained permanent relief from the agonizing pain of the piles. Having been cured by Zam-Buk I heartily recommend the balm to all sufferers."

Zam-Buk also cures inflamed sores, eczema, scalds, ulcers, abscesses, cold sores, chapped hands, frost bite, cuts, burns and all skin injuries and diseases. All druggists and stores sell at 50c box or post free from Zam-Buk Co., Toronto, for price. Refuse substitutes and imitations.

## MYSTERY BEHIND DISAPPEARANCE

Was to Have Been Married a  
Few Hours Before He Was  
Lost to Sight.

New York, Nov. 21.—An unusual mystery is believed to lie behind the disappearance of William Lewis, said by Philip Meagher and his wife to be the owner of the trunk in which there was found on last Thursday the body of a man who apparently had been dead for eight years. Lewis was said to-day to have disappeared in January, 1906, three hours before he was to have been married to Miss Ellen Enright, a nurse. This William Lewis lived in Harlem and was an accountant and a man of some means. The William Lewis who came to live with the Meaghers in January, 1905, and remained there until July of that year, when he disappeared, was known as a waiter in cheap restaurants. A photograph of the Harlem William Lewis was seen by the Meaghers to-day, and they recognized it as a likeness of the Lewis they knew. Miss Enright never heard from her fiancé after his disappearance.

## ANCESTRAL HOME IN KENT WAS BURNED.

London, Nov. 20.—Lees Court at Faversham, Kent, the ancestral home of the Earl of Sondes, with its priceless contents, was burned this morning. The damage is estimated at \$500,000, but no intrinsic value could be placed on many of the treasures with which the house was filled. Lees Court was occupied by Reginald Halsey Laye and a house party, awakened by the smoke and flames, escaped from the building scantily clad. Prince Henry of Prussia was recently a guest at the court.

## U. S. OFFICIAL DEAD TAKEN ILL IN CANADA.

Washington, Nov. 20.—Henry Martyn Hoyt, Counsellor for the U. S. Department of State, died at his home here this morning from peritonitis. Mr. Hoyt was taken ill in Canada while there in connection with the reciprocity negotiations between the United States and that country. Since his return to Washington last Monday he had been confined to his home, and physicians considered the case extremely serious from the beginning.

**OLD ORKNEY WHISKY**

**Water and Whisky**

The delightful flavor of "Old Orkney" Whisky is due much to the pure water used in distilling it. Just as champagne owes its flavor to the peculiar conditions of soil and climate under which the grapes are grown, so "Old Orkney" Whisky owes much of its superiority to the pure water springing from the heather-clad hills of Orkney.

We can honestly guarantee "Old Orkney" because we always hold a 10 years supply in our bonded warehouses and bottle every drop of it ourselves.

## REMARKABLE RAILWAY

### ACCIDENT CAUSES DEATHS

Altoona, Pa., Nov. 20.—The exploding boiler of a freight locomotive rose from its tracks at Thirteenth street, on the Pennsylvania railroad here yesterday and falling over the adjoining track, was struck, while yet in mid air, by the locomotive of a train coming up from behind. The remarkable wreck that was caused brought death to three trainmen and caused injuries to three others. A train west-

bound was just starting up the mountain, helped in the rear by two locomotives, when the boiler of the second of the rear engines exploded. The boiler rose from the engine frame and was hurled through the air just as an express train, also westbound, came along on the next track. The express train was being drawn by two locomotives. The first engine struck the falling boiler and hurled it over an embankment 300 feet from where it had left the engine trucks. The

impact derailed both locomotives hauling the express train and threw them against the freight train, knocking over several freight cars.

HOW SKIN TROUBLES  
HAVE BEEN CURED

A Remarkable Record of Itching,  
Burning, Disfiguring Eruptions  
Successfully Treated.

That those who have suffered long and hopelessly from eczema and other torturing, disfiguring eruptions of the skin and scalp and who have lost faith in all manner of treatment, may learn that there is one way to find immediate relief, the following remarkable series of condensed testimonials is published:

W. H. White, 315 E. Grand St. Philadelphia: "Knee to ankle a mass of eruption. Suffering simply indescribable for six long years. Had to scratch till blood ran and health was undermined from lack of sleep. Cuticura Remedies cured it without a mark."

Mrs. M. C. Maitland, Jasper, Ont.: "Itchy red on her baby's head when but three months old. It spread over entire body. Put Cuticura on him to prevent tearing skin. Healed. Cuticura cured it without a mark."

Mrs. Wm. Hunt, 460 Fairmount Ave., Newark, N.J.: "Whole body a mass of raw, torturing eczema. Agony was beyond words. Hair all fell out and ears seemed ready to drop off. Cuticura Remedies cured it without a mark."

Mrs. J. B. Bennett, 277 Montana St., Montreal: "Treated by doctors 25 years for head eczema on leg. It peeled from nose down. Suffered twelve years. Doctor advised cutting leg off. Decided to try Cuticura Remedies first. In two months use of Cuticura Remedies was cured."

Mrs. Nora Emmett, 26, Lena Gardens, Brock Green, London: "Two little girls had dreadful eczema. One bath with Cuticura Remedies. Cured with intense itching. Hospital treatment gave frightful pain but did not cure. Cuticura Remedies cured it without a mark."

Mrs. J. B. Bennett, 277 Montana St., Montreal: "Treated by doctors 25 years for head eczema on leg. It peeled from nose down. Suffered twelve years. Doctor advised cutting leg off. Decided to try Cuticura Remedies first. In two months use of Cuticura Remedies was cured."

Mrs. Kate Brougham, 100 Dewey St., Burlington, Vt.: "Eczema on my baby and on my head and body. He was a fearful sight and all attempts at cure were fruitless. Cuticura Remedies cured it without a mark."

TRIBUTE TO HON.  
ADELARD TURGEON

Canadian Journal Speaks in  
High Terms of President of  
Legislative Council.

The Canadian Century publishes the following interesting article in connection with our friend the Hon. Mr. Turgeon.

Ten years ago "young Adelard Turgeon" was the rising sun of Liberalism in the Province of Quebec. He held an important portfolio in the Parent administration. A seat in the Commons, with another at the Federal council-table, might have been his for the asking. He was looked upon as the surest successor of Sir Wilfrid Laurier in the affection of the men of his own race.

To-day the Honorable Adelard Turgeon, prematurely old, is reduced to presiding the Legislative Council, the limbo of local politicians.

Now why did the Nationalists way-lay him? Fair warning—we are about to make an imputation of motive. We are mindful that such a thing is deprecated by the highest authority, but, in this case, we are willing to risk the condemnation. At any rate the Nationalists themselves cannot protest. They could not come into this equity with the clean hands. Our explanation of their concerted aggression is this, that they thought him likely to rise too high above the level of his compatriots. Can you suggest a better?

Let us think facts. It is the most unfortunate trait of the French-Canadians—and the Nationalists take pride in exaggerating their racial characteristics—that they must have absolute parity among themselves. Other races hoist their natural aristocrat upon united shoulders to a point of vantage. The French-Canadians watch their climb, and, when they think he has got too high, they drag him down, and sit upon him. In more than a hundred years Laurier alone escaped this fate, and it is rumored that Nationalism has him by the heel.

Ten years ago in the fullness of promise, Turgeon was the beau-ideal of a statesman-orator. He filled the eye, the ear, the mind. Physically, built upon the lines of Laurier—tall, slim, erect, graceful, classical-severe in gesture.

His language was, if anything, more compact, more precise, more "stripped," than that of his Federal leader, which is often loose and overluxuriant. He possessed the faculty—rare in a politician—of discussing a subject in a manner detached from the passions which, roused, might wrongfully sway it. He was less of a stump-speaker and more of an Academician—the lone "parliamentarian" in the Quebec Legislative Assembly.

Had his choice been untrammelled, he would have preferred the pursuit of the "belles-lettres" to that of politics. But literature is a starveling profession in this country and province. So he took to the law instead. But, "chassez le naturel, il revient au galop." At banquets, and in places where men foregather to hear and be heard, he unconsciously lapsed into the discussion of subjects like "Language, the hand-maiden of thought," and held his audiences in thrall.

Consequently, when they unveiled a statue of Jacques Cartier at St. Malo, in Brittany, and Old France called upon New France to be represented at the ceremony, it was fitting that Adelard Turgeon should go. Whoever went had to address a gathering pre-ter-Athenian in critical disposition. The good average speakers shrank from the ordeal. Turgeon did not shrink. He went, he spoke—and a corking good oration he delivered. In fact "Le Figaro," which has no easy enthusiasms, commended it for imitation to the would-be-orators of France itself. And the President of the Republic pinned the red ribbon of the Legion of Honor on Turgeon's left lapel.

Here was enough and more than enough to stir the ire of the group of Nationalists, then just nascent. They flouted the decoration, even though it came from "notre chère ancienne mere-patrie." They searched through the library shelves until they hit upon a deadly parallel. And they accused Turgeon of plagiarizing.....Jules Verne.

Had it been any of the literary giants..... But Jules Verne! It was as if you were to charge Lord Rosebery with lifting into a Rectorial Address, a passage from Rosa Nouchette Carey!

Yet it is not strange that the charge was made. The strange part is that Turgeon had to defend himself against it. That, look you, is typical of Quebec. Imagine the same accusation laid at Bob Rogers' door. He would have said, simply: "Well, what of that? There were quotation-marks in my voice. The reporters forget to put them down, that's all!" And next day Manitoba would have forgotten the incident.

But in Quebec literary plagiarism is one of the deadly sins. By the same little token it is a sin that Quebec literary folks are constantly committing. There is a controversy per author. The most indecent of the lot was had when the two "great national poets," Frechette and Chapman, each accused the other, at great length and with many "proofs," of poaching on his poetic preserves. Its echo is sounding yet.

All this is rank digression. To return to Turgeon. His defence was, to submit the parallel passages to a jury of experts, headed by a literary rival and a political opponent, the Honorable Mr. Chapais. They pronounced the parallelism one of those queer coincidences of language which abound in the history of literature.

"Alright," said the Nationalists

## Restful Sleep

is a necessity to everyone. Lack of it results in no energy, no vitality, despondency, poor digestion and nervousness.

Duffy's Pure Malt Whiskey

the old family remedy, will bring you refreshing sleep and you will become full of new life and energy.

gestion and nervousness. Gives power to the brain, strength and elasticity to the muscles and richness to the blood.

Read what Mr. James Byrne, 129 Illinois St., Indianapolis, writes: "I am a hotel night clerk. Eating irregularly and trying to sleep in the day time had made me a very weak man physically. I was finally compelled to take to my bed. I started to use Duffy's Pure Malt Whiskey, and in 3 days I was back on my job. I am sleeping fine, eating with a real appetite and am regaining my lost flesh, which is the hardest thing to do."

All grocers and liquor dealers, or direct, \$1.25 a large bottle. Our Aseptic Drinking Cup, also medical booklet and doctors' advice sent free on application.

The Duffy Malt Whiskey Co., Rochester, N.Y.

then, "You may not be a plagiarist—though we still believe you one. But.....you are a grafter." And they charged him not with deriving undue financial advantage from his portfolio, nor even with having actually attempted to do so,—but with having one day conceived the possibility of doing so.

This, upon the testimony of a decayed Belgian baron, bolstered up by the after-thought copy of a letter he said he had written to Turgeon, which copy the baron himself admitted having copiously altered and interlined. An Anglo-Saxon community would not presume convict a chicken thief upon such evidence.

But Turgeon's spirit was broken. His elevation to the Upper House, following upon a resignation from the Cabinet warped him into a longed-for haven of rest. Though even there, his persecutors continued their works. He was accused of illegally selling water-front lots along the shore of the ancient capital, illegally and grafting. This was unhandsome, as the matter was before the Courts. Again Turgeon defended himself, successfully, except in the estimation of the rabidest opponent. And his position was subsequently sustained by the Bench.

## CHANGED HER MIND

ABOUT SEEING POPE.

Rome, Nov. 21.—"I should not care to visit the Pope," remarked Miss Lena Stadtmiller, of Boston, Mass., as she sat talking with a friend in the drawing-room of a leading hotel in Rome. "You are obliged to kiss his toe. At least, that is what I have always understood."

The remark was overheard by another American citizen, a Catholic priest, Father E. J. Fischer, of Morrisdale, Pa.

"You are in error," he said quietly. "and in order to kill this popular fallacy I shall arrange for you to be received at the public audience at the Vatican to-morrow."

Father Fischer, who was spending a few days in the Eternal City, was as good as his word, and Theodore Stadtmiller and his sister, Miss Lena, were among the privileged few admitted to the presence. Although called "public" audiences, the rule of getting a proper introduction has been rigidly enforced since an American tourist caused a scandal by refusing to conform to usage in the presence chamber.

"It was an interesting function," said Miss Stadtmiller on her return from the Vatican. "We were ushered into a grand room with magnificent decorations. On one side was the Papal throne surmounted by the Dove, representing the Holy Spirit. When the Pope entered, accompanied by his private secretary and body-guard of three gentlemen, he passed down one side of the room and all knelt. The same ceremony was repeated on the opposite side. Then we filed past and kissed—not his toe, but either his hand or the massive emerald ring on one finger. I kissed the ring."

"The Pope impressed me as a serene figure dressed in white, with red shoes and white skull cap, a dignified manner, a quiet, resonant voice and a kind fatherly smile. Yet it was difficult to realize that we were in the presence of the most prominent man on earth."

## BRITAIN'S FUTURE KING

TO LOOK OVER THE EMPIRE

London, Nov. 21.—King George's decision to send the Prince of Wales on a cruise on board a man-of-war on leaving Dartmouth is another evidence of his respect for the late King's judgment. King George, with his elder brother, the Duke of Clarence, by their father's wish made a voyage in the Bacchante that lasted about two years, during which time they visited every part of the Empire. Although these young princes were treated on board ship exactly like their fellows and were nowhere received officially, they mixed a good deal in society, at the various colonial centres they visited. The same plan will probably be followed in the case of the Prince of Wales, who will thus be able to make acquaintance with many of the King's subjects in different parts of the world.

URGES TEMPERANCE

Nation Which Uses Smallest  
Amount of Alcohol Will  
March at Head.

Fleensburg, Prussia, Nov. 21.—In opening the new Naval Academy at Muerwik to-day, Emperor William read an order in council laying stress upon the qualifications necessary to naval officers and later, speaking extemporaneously, made a plea for temperance on the part of the cadets. The times, the Emperor said, required iron-hearted men. Character was the first essential, and character was founded upon strong religious convictions.

In his temperance talk he cautioned the cadets against excessive drinking, which he said undermined the nerves, and the strenuous naval service of to-day required strong nerves. He counselled total abstinence, suggested that the young men join the Good Templars and added that the nation which in the future used the smallest amount of alcohol would march at the head of the column on the fields of art and war.

## VICTORIA LOUISE

RIDES TO HOUNDS.

Berlin, Nov. 21.—Princess Victoria Louise had lately her first hunt with the Emperor's hounds. She is an expert horsewoman, but her mother, the Empress, does not approve of young girls riding to hounds and has several times commented unfavorably on the custom in the English hunting shires. So the Princess was not allowed to join the hunt until she "came out."

The ride was not a very long one and there were only two or three dikes to negotiate this time—much to the Princess's disgust, for she is fond of a good jump and rather prefers a post and rails.

After twenty-six minutes of fast running the hounds had a wild boar down at the foot of a hill. A smart lieutenant gave the coup de grace and cut out the tusks, one of which the Emperor immediately presented to Princess Victoria as a memento of her first ride. The other tusk was given to the Crown Prince, whose last hunt it was before leaving Germany for an extended tour of other countries and continents.

"You'll be hunting other game soon," said the Emperor, who rather envies his son's good fortune. The Prince means to bag a tiger or two if possible during his stay in India.

A recent photograph of him, which is very popular, shows him standing behind a huge pair of antlers, one of his hunting trophies.

## CENSUS OF MANUFACTURES.

On June 1 of next year a census will be taken of the manufactures of Canada. It will ascertain the capital employed in works in 1910, together with the value of land, buildings and plant, the kind or class of products of the works by quantity or number of finished articles and their value in the year. These statistics will relate generally to factories employing five hands or more during the year, but in such industries as flour and grist mills, brick works, saw and shingle mills, electric light and power plants, and a few others where the value of products is large in proportion to the number of persons employed, returns will be required without regard to the number of employees. The employees of work will include managers, superintendents, etc., on salaries; officers, clerks, etc., on salaries; operatives or years, on wages; and piece-workers employed outside of the works. Salaries, wages and payments to all officers and employees will be entered on the schedule for the census year by sex, and will include the aggregate wages employed in the year, average hours of working time per week, and aggregate wages paid to time and the aggregate wages paid to piece-workers.

For the year, while the average hours of working time will refer to an average computed for all employees in the year for one week only. For piece-workers outside of the works the statistics are required to show by sex the aggregate payments made to this class in the year, and also the aggregate value of their products. The power employed in the works will show the number and horse power of steam, gas and gasoline engines, water wheels and electric motors, as well as the power sold to or bought from other public or private companies. The fuel used at the works will show the quantity of coal, wood or other fuel and its value laid down at the works, including transportation and duties. The coal will be classified by measure to show whether it is foreign or Canadian. Custom work and raw materials will be reported by kind or class, and entries will be made to show amounts received in the year for custom work and repairs; and the cost value of raw or partly finished materials used at the works. The kind or class of products of the works in 1910 will be entered by separate name if more than one is made, the quantity or number of each finished article and the value of separate products in the year. The aim of this record is to show the extent and variety of manufactures in each province and district; but it will be understood that the statistics as compiled and published will give away no records of individual business. Totals will be published only where three or more industries of a class or kind are reported. All information here referred to will be collected by enumerators on Schedule No. 9.

The census of the dairy industry, relating to the production of butter, cheese, cream and condensed milk, will be taken on Schedule No. 12, and will show for each kind of product its quantity and selling value, and the quantity of milk and cheese used for conversion at the factories, the number of patrons, and the amount of money distributed to them in the year.

## IN AND ABOUT TOWN

### WHISKEY, BEER AND MILK

Have Occupied the Whole Time of a Judge Since Wednesday Last.

Judge Malouin has been presiding in the Superior Court since Wednesday last, and most of his time has been taken up hearing evidence in cases where whiskey, beer and milk have played a prominent part. The first action which was brought before His Lordship was that of the Robitaille Eureka Distillery against a local merchant on a claim for whiskey supplied. When that case was concluded, the Court took up the case of Proteau & Carignan, who sued a firm for an account for beer, and yesterday the case of Cloutier vs. Demas, a milkman, was taken up. This later action was one for damages, the plaintiff claiming that defendant had complained of the quality of milk supplied by the plaintiff.

**COURT OF SESSIONS.**  
A man, charged by his wife with disturbing the peace, was fined \$6 and costs and bound over to keep the peace in the Court of Sessions yesterday. A carter was condemned to pay \$1 and costs for assault. A man arrested for hunting in the National Park, without a permit, was fined \$5 and costs.

**TO CURE COLD IN ONE DAY**  
Take LUXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

**EPIDEMIC OF MEASLES.**  
A regular epidemic of measles has broken out at Chicoutimi and Jonquiere. It started originally at the latter place, but there is now hardly a house in Chicoutimi where there are children which is not suffering, some houses having five or six children ill.

**20 PER CENT DISCOUNT.**  
If you want any Brussels or Axminster carpets we have just received a splendid assortment which we will dispose of at 20 per cent less than value. Come and examine the stock. We make a specialty of rugs in all sizes.

**NOTIFIED TO VACATE**  
**CHAMPLAIN MARKET HALL.**  
All the butchers and other tenants in the Champlain Market Hall have received official notice from the chairman of the Transcontinental Railway Commission to vacate the building on or before the 15th of January next. Some of the tenants have a feeling of sadness on being compelled to leave a building in which members of their families and themselves have carried on business since its erection.

**QUEBEC HUNT CLUB.**  
The splendid recital which has been organized by the Quebec Hunt Club will take place this evening at their quarters, the Villa Balvanie, at 8.30 o'clock sharp. Those intending to go are requested to be at the St. Foye Toll-gate at 8 p.m. There they will find a number of vehicles at their disposal to carry them to the club house.

After the recital the Chabonneau Orchestra will play. Tickets may be obtained from the directors of the club. The evening should well repay those who attend.

**READY-MADE CLOTHING.**  
Don't allow yourselves to be imposed upon, as we offer you goods at prices which will surprise you. The cut and elegant style are perfect. We make a specialty of fur-lined overcoats with creamer collar. A visit is solicited.  
FAGUY, LEPINAY & FRERE.

**SPENT PLEASANT EVENING.**  
A very pleasant and successful euchre was given last evening in Tara Hall by the Ladies' Auxiliary, A.O.H. There was a large attendance and the contest for the handsome prizes was keen. At the close of play the following were declared winners:—Ladies: First, Miss S. Croighton; second, Miss H. Murphy; third, Miss N. O'Doherty; fourth, Miss Jobin. Gentlemen: First, D. Neillan; second, P. W. Brown; third, P. Cassidy; fourth, J. McManamy. After the euchre there was a short but select programme of vocal and instrumental music, which was much appreciated by all present.

**DO YOU REQUIRE ANY ?**  
If you require a carpet come and see the splendid assortment we have just received, to be sold at 20 per cent less than current prices. For this week only. A specialty in rugs of all sizes.  
Faguy, Lepinay & Frere.

**RECORDER'S COURT.**  
Seven persons charged with drunkenness appeared before the Recorder yesterday. They were fined in sums ranging from \$2 and costs or eight days in jail to \$10 and costs or one month, respectively.

A man out on bail failed to appear and a bench warrant was issued for his arrest.

**ACCIDENT ON BOARD SHIP.**  
Mr. Patrick McLean, ship laborer, met with a serious accident yesterday morning. He was working in the hold of the Steamer Cairdon, lying in the Louise Basin, when a deal slipped from a sling pulley, which was being placed on board the vessel, striking him on one of his legs, badly injuring the limb. He was immediately picked up and conveyed to his residence in Champlain Street.

### EARLY SESSION OF LEGISLATURE

May Meet Next Month or Latest at Commencement of January.

The Provincial Legislature will have an early meeting this year, as all the Departmental reports are now in the hands of the printers, and as soon as they have got through their work the Legislature will be convened. This may happen some time next month or, at the latest, in the commencement of January next, possibly the 3rd.

### NO FURTHER CASES OF CHOLERA

Dr. Adami Justifies the Action of Dr. Bailey — Lengthy Report.

The first verdict of Dr. Adami, the McGill expert, on the result of the bacteriological examination in the case of the Russian immigrant, who was held up at this port by Dr. Bailey, of the American immigration staff, as a cholera suspect, came in the form of a telegram, which read thus:—"Definitely decide case one of cholera.—Adami." Yesterday this was followed by a voluminous report so full of technical terms that it would probably break all the machines in this building to reproduce it in the Chronicle, and even then it would be so much Greek. However, it establishes the fact that but for Dr. Bailey's readiness in recognizing the symptoms the cholera might have been introduced to this continent, and he has unquestionably rendered the public a service.

There were several rumors in town yesterday to the effect that fresh cases of cholera had been reported, a report being persistently repeated that one of the crew of the Royal George had developed symptoms of the disease and some saying that this had taken place at Grosse Ile, while others declared that it had broken out at Montreal. But it seems that these rumors are without foundation.

It is understood that the Canadian Northern Steamship Co. is making arrangements with the Quebec & Lewis Ferry Co. for the removal of the passengers detained at Grosse Ile, and that this is likely to take place on Wednesday.

### NEW COFFEE PERCOLATOR.

The free coffee demonstration at Copeman's Tea and Coffee Emporium, 135 St. John Street, is still attracting large numbers of citizens daily. Of course there are demonstrations and demonstrations, but this is one of the demonstrations, new, novel and very interesting. If you have not been there, go to-day, and see for yourself how that expert Tamil Indian makes delicious coffee in four minutes with the New Castle Blend Coffee Percolator. Visitors are given a free cup of coffee.

### DEATH WAS DUE

**TO HEART DISEASE.**  
Death from syncope of the heart was the verdict rendered by the Coroner's jury at the inquest on the remains of Alfred Bourret, who died at Notre Dame des Anges, Portneuf County, on Sunday. The deceased was a well-known St. Roch carter.

### REQUIEM MASS.

A requiem mass will be celebrated tomorrow (Wednesday) morning at 8 o'clock, at the Basilica for Lt. P. A. Gastonguay, of Field Ambulance No. 7, recommended by the commanding officer and officers of that unit. All officers of the militia and friends are requested to attend.

### ANOTHER BIG BILL

**AT THE AUDITORIUM.**  
There were the usual crowded audiences at the Auditorium yesterday, when the new vaudeville bill and pictures went into operation. The vaudeville bill is a more than usually interesting and novel one, and includes three acts which are bound to prove popular. Mlle. Dolores & Co. have an act which is called "Monkey Shines," and it is one which is a shine, all right. A neat musical act and an Irish treat, which sang Irish songs with good effect, complete the vaudeville. The motion pictures are of the high-class order, which have made the Auditorium famous, and all of them are of the greatest interest. The large crowds present at the different performances yesterday seemed to be greatly delighted with the bill, and it looks as though the Auditorium was in for another record week's business.

### ENDS INDIGESTION IN A FEW MOMENTS

Gas, Heartburn, Headache and all Misery from Stomach Vanishes Before You Realize It.

Nothing will remain undigested or sour on your stomach if you will take a little Diapepsin occasionally. This powerful digestive and antacid, though as harmless and pleasant as candy, will digest and prepare for assimilation into the blood all the food you can eat.

Eat what your stomach craves, without the slightest fear of indigestion or that you will be bothered with sour risings, belching, gas on stomach, heartburn, headaches from stomach, nausea, bad breath, water brash or a feeling like you had swallowed a lump of lead, or other disagreeable miseries. Should you be suffering now from any stomach disorder you can get relief within five minutes.

If you will get from your pharmacist a 50-cent case of Pape's Diapepsin you could always go to the table with a hearty appetite, and your meals would taste good, because you would know these would be no indigestion or sleepless nights or headache or stomach misery all the next day; and, besides, you would not need laxatives or liver pills to keep your stomach and bowels clean and fresh.

Pape's Diapepsin can be obtained from your druggist, and contains more than sufficient to thoroughly cure the worst case of indigestion or dyspepsia. There is nothing better for gas on the stomach or sour odors from the stomach or to cure a stomach headache.

You couldn't keep a handier or more useful article in the house.

### "SHERLOCK HOLMES" A GREAT SUCCESS

French Stock Company at the Theatre Nationale Gave a Fine Presentation.

The stock company at the Theatre Nationale have given a number of remarkable performances during the present season. They have given the public a wide range of dramas, and in all of them the capabilities of the company have been well tested. Last evening the company appeared in a dramatization of the well-known story of Conan Doyle, "Sherlock Holmes," played in French. The drama was placed on the stage in a splendid manner, the scenery and settings leaving little to be desired. There was a large audience in attendance, and the production made a great hit. Paul Marcel appeared in the title role, and he gave a specially fine presentation of the part. Those who saw him a year or so ago at the Auditorium in the role of "Arsene Lupin," a kindred character, can imagine the manner in which he handled the role. His work was finished and artistic and he made a great hit. Of course, M. Marcel dominated the production, but all of the company played their parts in a manner to make the whole production a notable one. Mme. Ducauge, in the role of "Alice," being seen to great advantage.

Between acts, Marcel Fleury was heard in a couple of songs, which won for him numerous recalls. M. Fleury is an artist of merit, and his success in his own particular line last night won for him the success which he deserves.

Judging by the reception which "Sherlock Holmes" received last night, there will undoubtedly be large houses all the week.

LA VALERA AT THE NICKEL THEATRE.

The head-liner at the Nickel Theatre this week is La Valera, the famous Spanish danseuse, formerly with Lew Field's "Midnight Sons." She is an artist in every respect and like every other artist she has her own particular fad. In La Valera's case it is dogs. Not little fluffy, toy spaniels, so dear to the feminine heart, but bull terriers, and on her ranch in California she has a kennel of forty of this breed, said to be the finest in the United States. A large room is required to keep the trophies which her pets have won for the charming little actress in many a hard-fought contest in the bench shows all over the world. The prize of her kennel is Champion Brooklyn Patsy. A well-known New York millionaire and dog fancier made her an offer of \$1,500 for Champion Patsy. No millionaire could, however, buy an ounce of Patsy, for he is the darling of La Valera's heart and is not for sale.

## SCHOONER ASHORE.

Halifax, Nov. 21.—The schooner Arelight, with cargo valued at \$2,000, which sailed Thursday from Charlottetown for St. Pierre, is ashore at Flat River, P. E. I. The Arelight was unfortunate from the outset of this trip. It was midnight when she left Charlottetown and she had only got outside the harbor when she met in collision the three-master schooner Abbie C. Stubbs, of New York, bound from Miramichi for Cuba with a cargo of lumber. The Abbie C. Stubbs was putting into this port when the accident occurred. The Arelight had her bowsprit and headgear carried away, and the American vessel was slightly damaged. Yesterday afternoon Carvell Bros. received word that the Arelight had run ashore at Flat River. To what extent she is damaged has not been learned. The Arelight is a vessel of 103 tons, built in 1898, and is commanded by Captain Poole, of North Sydney.

## NOTES.

## SPELLBINDERS LOOSE UPON BRITAIN

Campaign Will be Hot, But will Not Interfere Much With Christmas Trade.

London, Nov. 21.—All parties have now entered upon the election campaign in deal earnest, and the floodgates of hustings oratory have been thrown open.

Prime Minister Asquith struck his party's keynote to-day in a speech before the Liberal Club. He showed that he intends to fight on the House of Lords issue.

The Conservatives are exercising the ingenuity to the utmost to keep the House of Lords in the background and to make Home Rule and American dollars the issue.

The Irish party members do not shirk this. On the contrary, they welcome it. Mr. John Dillon said last night that there is nothing Irishmen are more proud of than the generous support given their homeland by the exiled children and the great people among whom they have settled.

## Chamberlain has Said Nothing.

So far nothing has been heard from Joseph Chamberlain, except that he regards this election as the most critical yet for tariff reform. The issue is not being pressed into prominence by the Unionists. They know that in the Midlands, the North of England and Scotland it spells ruin of their candidates.

The Liberals are circulating vast quantities of election posters exposing the inconsistencies of the tariff reformers and in particular warning the workmen against the certain increase of cost of the necessities of life if a protective tariff is adopted.

All of John Redmond's old speeches attacking English rule as being raked up, and an attempt is being made to frighten Englishmen into believing that under home rule Ireland, without an army, navy or money, would revolt from the empire.

Lloyd-George will open his campaign in the East End next week and afterward will speak in several important centres in the south and west of England where the Liberal cause is weakest.

Winston Churchill will go to Lancashire to denounce protection, as he did with tremendous effect in the last election campaign.

In Ireland William O'Brien, the Times asserts, will have plenty of money supplied him to contest thirty seats in Parliament held by Nationalists, not with any hope of winning any but to prevent Irish Nationalist members, who otherwise would be returned unopposed, from coming over to England and Scotland to work for the home rule cause here. O'Brien's money is coming, it is believed, from the English Tory warchest.

In two or three cases in Ulster where Nationalists seats are held by majorities under fifty, O'Brien candidates will be expected to detach just enough votes to give the seats to Tory Unionists. Otherwise there will be no material change in the Irish representation.

The first polls will be held Dec. 3. The election will not be finished until Dec. 17, but by Dec. 7 the result will be pretty clear. The Liberals count on winning ten seats, which will increase their present majority by twenty.

## Suffragettes Are Disgusted.

The Suffragettes are well provided with campaign funds, but the public has lost interest in them. To their chagrin the 116 arrested last week while trying to force an audience with Premier Asquith were discharged in the Bow Street Police Court to-day. They were released on bail last night. When arraigned to-day the Crown attorney announced that Home Secretary Churchill had decided on the ground of public policy that no benefit would be gained by proceeding with the prosecution. The willing martyrs to the cause of woman suffrage received this statement with hisses and boos.

## HE KNOWS WHAT FIXED HIM UP

Dodd's Kidney Pills Cured S. D. Vickar's Lumbago

He Suffered Three Years, But the Great Canadian Kidney Remedy Made Short Work of His Trouble.

Edenbridge, Sask., Nov. 21.—(Special).—"It was one box of Dodd's Kidney Pills that fixed me up." This is the cheerful answer Mr. Sam D. Vickar is giving his enquiring neighbors in this district. Everybody around here knows that for three years he has been suffering from Lumbago. Now he's strong and well again.

"My Lumbago developed from a cold," Mr. Vickar goes on to say. "My head would ache. I was always tired and nervous. I had a bitter taste in my mouth in the morning, was troubled with dizzy spells and was always thirsty. The doctor told me I had Lumbago, but did not help me very much. Dodd's Kidney Pills cured me."

Dodd's Kidney Pills went straight to the root of the trouble. They cured his kidneys. The cured Kidneys strained the uric acid out of the blood, and Mr. Vickar's Lumbago vanished. Dodd's Kidney Pills are no cure-all. They simply cure sick kidneys. They never fail to do that.

like illness, it is often necessary quickly to raise the temperature of a room. For instance, in those hours between midnight and dawn, when the day temperature has been allowed to drop, if you are called upon to get up, the room is chilly and cold. Absolutely smokeless and odorless

It quickly gives heat, and with one filling of the font burns steadily for nine hours, without smoke or smell. Has automatic-locking flame spreader which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back, so the wick can be cleaned in an instant. It has a cool handle and a damper top.

An indicator always shows the amount of oil in the font. It has a filler-cap which does not need to be screwed down; it is put in like a cork in a bottle, and is attached to the font by a chain.

The burner body or gallery cannot become wedged, because of a new device in construction, and consequently it can always be easily unscrewed in an instant for reworking.

The Perfection Oil Heater is finished in Japan or nickel. It is strong, durable and well made, built for service, yet light and ornamental.

## LOST HALF MILLION IN FOUR YEARS

Speculated in Wall Street, But Judge Said He Squandered Money.

New York, Nov. 21.—That Irving W. Childs, who five years ago inherited \$1,250,000 from the estate of his father, Wm. H. Childs, had lost \$500,000 of his inheritance in Wall street in the past four years was alleged by counsel to-day in a hearing before Justice Blackmar in the Supreme Court, Brooklyn. The young man's alleged plunging was the basis for application in behalf of his wife, Mrs. Gertrude E. Childs, for a bond to protect the alimony granted her when she obtained a decree of separation. Counsel for Childs opposed the motion and said there was no necessity for a bond.

"Is it true," asked Justice Blackmar, "that your client squandered half a million dollars within the past four years?"

"No, he did not squander it," replied the lawyer. "He lost it in Wall street."

"Lost it in Wall street," said the judge. "Don't you call that squandering it? I do and the very worst way of squandering money."

Decision was reserved.

### RENEWAL OF RIOTING IN MEXICO.

Laredo, Tex., Nov. 21.—Reports reaching this city from what is considered to be a reliable source are to the effect that rioting was renewed in Puebla, Mexico to-day and that thirty persons were killed in the rioting.

### TWO COUNCILMEN MUST GO TO GAOL.

Philadelphia, Pa., Nov. 21.—Two former councilmen of Pittsburgh, by a decision announced to-day by the State Superior Court, must go to jail for accepting bribes to influence their votes as councilmen. The court sustained the convictions against M. F. Swift, jr., and A. V. Simon in the Allegheny County Court, the former for receiving \$1.10 for his vote in favor of vacating a city street and the latter for accepting a bribe for his vote on the street ordinance and \$100 for his vote on a measure designating certain banks as depositories for city funds.

### THE BEETHOVEN TRIO.

Next Monday evening, Nov. 28th, at the Loyola Hall, the artists of the "Beethoven Trio" will, for the first time, bow to a Quebec audience. It will unquestionably be a memorable artistic event for us all, as much as, outside of the individual merit of the artists, it will procure us the invaluable advantage of getting acquainted with master works never heard before in our city. This reason alone should drive to the Loyola Hall, next Monday evening, the great majority of the cultured people of our city. But, besides the inestimable advantage of learning unheard of tone-poems, the public will find in the "Beethoven Trio" a notable combination of sterling artists who are fully competent to give the finest examples of chamber music a thoroughly scholarly and artistic interpretation. These artists will be heard in solo work as well as in ensemble music and the audience will therefore be able to fully appreciate the individual merit of the artists as well as to deeply enjoy their interpretation of some of the master works of the great composers. In its report of the concert given in Montreal by the Beethoven Trio, at the Windsor Hall, last month, the Montreal Star begins its appreciation in the following terms: "The Beethoven Trio's opening concert in the Windsor Hall last night was a decided success; not merely a 'succes d'estime,' but a genuine all-round success. An audience of such proportions as have never been previously apparent at the trio's concerts proved exceptionally enthusiastic. A nervous opening was followed by a delightfully crisp rendering of the scherzo, and for dignity and a full revelation of its stately beauty the playing of the Andante could scarcely have been improved upon. There was a delightful homogeneity and an entire absence of overweighing in any direction. The Trio will distinguish itself for precision and brilliancy of attack and for comprehensive realization of tone-colors was amply evident."

### QUEBEC MINISTERIAL ASSOCIATION.

The fourth session of the Association was held in the rooms of the Y.M.C.A. on Monday, the 21st inst., at 10.30 a.m. There was a full attendance of members, the President in the chair. After devotional exercises and the reading of the minutes, the following items of business were attended to:—

1. A resolution re the prospective departure of Revd. Wylie C. Clark, B.D., called to Saskatoon, Sask., which was fittingly presented, and carried unanimously, and very suitably and feelingly acknowledged by the Revd. Mr. Clark.

2. It was arranged that the Revd. Wm. Jackson, D.D., be the Essayist at next meeting, Dec. 5th.

3. Programme for universal week of prayer adopted, subject to any change suggested by the pastors.

4. Union Evangelistic services, correspondence read by the Secretary. A special meeting of pastors and laymen to be held on Monday, the 28th, at 5 p.m., in the Y.M.C.A. to further consider the matter.

5. Revd. Dr. Love extended a special invitation to the pastors and their wives to attend the social gathering in St. Andrew's Church, in connection with its centennial services, which was duly accepted. St. Andrew's Night.

6. Attention was called to the Boys' High School paper, The Wasp, and the President of the Association was requested to write the Rector of the school a kindly note suggesting a careful supervision of the paper.

The paper by Mr. J. Morley Carson, Y.M.C.A. Secretary, re the "Interrelation of the Church and the Y.M.C.A." was a brief, bright and able presentation of the subject, for which he was heartily thanked. The Revd. Dr. Jackson closed with the benediction.

The resolution re Revd. Wylie C. Clark, B.D., is as follows:—

Be it Resolved,—That we the members of the Quebec Ministerial Association contemplate with unfeigned sorrow the removal of the Rev. Wylie C. Clark, B.D., from Quebec city to Saskatoon, Sask., Western Canada; and we would place on record our high regard for him as a man, and as an able minister of our Lord Jesus Christ, who during a period of six years has rendered most valuable service in all departments of our work as an association, and besides Mr. Clark has taken an active interest in everything making for the betterment of our city and has been universally esteemed. We would assure him that he has a large place in the hearts of the people of Quebec of all denominations.

This meeting prays that the blessing of Almighty God may rest upon his labors in his new field of work in the growing and important city of Saskatoon.

A copy of this resolution to be given to the press and to the Revd. Mr. Clark.

## Sectional Filings Cabinet

Filing cabinets made in sections have come into such general use that, as with our sectional bookcases, the principle needs no extended description. The modern business office demands expensive equipment that will always harmonize with the original purchase.

Our filing devices offer a complete variety to select from—Vertical Letter Files, Card Index Files, Document Files, Check Files, Legal Blank Files, cap size, Vertical Files, Report Files, Catalogue Files, Insurance Files, etc.

We sell equipment suitable for any system in any business, and we furnish a higher class of equipment at lower prices than the so-called system experts who, to introduce their methods, often neglect the important question of construction, quality and utility.

### ANGRY SKIN HEALED

No Doubt About Poslam's Power to Kill Germ Life.

In any bacterial infection of the skin poslam, the new skin remedy, shows its power to annihilate germ life by stopping the itching at once and causing the trouble to quickly disappear. Poslam acts in this manner in any surface skin disease, including all eczemas, salt rheum, skin scale, seven-year itch, psoriasis, barber's itch and similar troubles. Every day brings records of remarkable cures exceeding all claims made for it. "For sixteen months I suffered with eczema," writes Mr. W. Noeman, Elmira, Ont.; "spent two months in a hospital, tried everything known, with little or no effect. On December 29 I procured poslam, and am happy to say that on January 7th (9 days later) I am perfectly healed; my skin is as clear as a baby's."

In minor skin affections, such as pimples, red noses, complexion blemishes, rash, scalp scales, itching feet, etc., a small quantity of poslam will do the work, results being seen overnight.

Poslam is sold in two sizes (trial, 50 cents; regular jars, \$2) by all druggists, particularly Henry Willis, 4 St. John street. For a free sample write to the Emergency Laboratories, 32 West Twenty-fifth street, New York City.

New York, Nov. 21.—For the first time

opening market was lower, with little

activity. Amalgamated Copper was conspicuous with a full point drop, but it opened down  $\frac{3}{4}$  and Union Pacific  $\frac{5}{8}$ , Paul  $\frac{3}{4}$  and Southern Pacific  $\frac{5}{8}$ . At end of the first half hour the speculation was stronger, with rallies of  $\frac{1}{2}$  of initial loss. In the afternoon the dullness was relieved by a sharp break of a

**QUEBEC BANK.**

**Sharp Rise in Shares Gives Rise  
Increased Dividend Talk.**

Montreal, Nov. 21.—The recent rise in the stock of the Quebec Bank has drawn attention to its position and

there are many who are ready to predict an increase in the dividend but whatever the reason, the value of the stock is certainly far above the figures at which it sold in the early part of this month. A study of underlying conditions by those accustomed to the stock market indicates

to look closely into market institutions has brought forth the statement that the talk of increased dividends cannot be assigned as the true reason for the advance. The Quebec Bank is one of the most conservative Canadian banks, and has, with solid financial methods, gradually

placed itself among the foremost Canadian financial institutions. By analysis of the last annual report stock is worth at least much more than it has ever sold at, and there is nothing astonishing therefore that the stock should have moved up to the

In the rush for apparently more attractive speculative issues, the value of Quebec Bank stock as an investment has been ignored in the past and in view of the fact that the shares are only occasionally traded in,

being closely held, any activity liable to cause an extended range of prices. The action of the bank in opening branches in the West may be assumed as a change of policy, and this too speaks well for the organization: for with branches extended

throughout Canada the results bound to be beneficial to the value of the stock by reason of its wider range and the greater public interest which will result in its coming more prominently to the notice of the investing public. A rise in the stock, therefore,

Quebec Bank stock is not by means at its highest record. From 1904 to 1907 the stock was very low, below 130, while in June, 1907, it touched 145, its highest mark. The bank's position is stronger now than it was then.

## THE BANQUET AT TRINITY CHURCH

In Connection With the Laymen's Missionary Movement a Great Success.

There was a large attendance in the basement of Trinity Church last evening, at the banquet held in connection with the Laymen's Missionary Movement. Mr. W. H. Wiggs occupied the chair, having on his right Rev. A. R. Beverley, Rector of the Church.

After an excellent menu had been gone through, the Chairman proposed the health of the King, which was right royally received, all present singing the National Anthem. The only other toast was that of the Ladies, proposed by the Chairman, and responded to in a witty speech by Mr. Campbell.

Mr. F. Fanning then sang in a pleasing manner a sacred solo. A discussion on missionary work was next in order, the Chairman opening the discussion with an interesting address, which was received with warm applause.

Mr. F. Campbell moved a vote of thanks to the Chairman, and in doing so commended the work of the Laymen's Missionary Movement, and spoke of the gifts of the Grand Trunk Railway to the Y.M.C.A.

Mr. A. Veasey, in seconding the motion, said that the Laymen's Missionary Movement brought all men together and was a live movement, and should have a glorious result.

Mr. Wiggs, in returning thanks, said that anything he could do to help the movement of Trinity Church, would be a pleasure.

Rev. Mr. Beverley in the course of his remarks, said the Laymen's Missionary Movement was a manly movement, and it required pluck, courage and determination to carry on this work. The movement invited every man to lend his aid.

Mr. W. Fellows then sang a sacred solo in a manner which was much admired.

The following resolutions were put to the meeting and unanimously carried:

Moved by Mr. W. C. Scott: Whereas the total goal for Home and Foreign Mission offerings in Canada, placed at \$500 per communicant member at the Toronto Congress, has since been endorsed by the denominational bodies, therefore: Resolved that we accept this sum as the minimum goal to be aimed at by this congregation. To this end we urge that an immediate canvass be made in this congregation, and concluded not later than Dec. 31st next. That we approve of the weekly offering for missions and urge its adoption by every member and individual in this congregation. That we urge the appointment of a Men's Missionary Committee in this congregation and that they be requested to co-operate with other churches in this city and district having no missionary committee, etc.

Moved by Mr. G. Gale, seconded by Mr. R. Smith: Resolved that a Laymen's Missionary Committee be immediately formed to solicit the increased adoption of the envelope system in this congregation, as a means thereby of increasing the contributions towards current expenses and mission work, and that this committee be composed of the following gentlemen:—W. H. Wiggs, Convener; W. C. Scott, W. Wilkinson, C. A. Sewell, A. W. Colley, G. M. Kelly, F. Fanning, C. W. Wiggs, George Gale, Amos Campbell.

Moved by Mr. A. W. Colley, seconded by Mr. C. A. Sewell: Whereas the objective, viz., the evangelization of the world in this generation is now being placed before all congregations, thereby calling for increased giving by individual congregations to Home and Foreign Missions, be it resolved that the goal this congregation should aim at for 1911-12 be the sum of \$500.

After the singing of a hymn, the Rector pronounced the Benediction and a most successful meeting was brought to a close.

We have prepared some real bargain tables covered with useful and ornamental articles, ranging in price from ten cents to one dollar.

The bulk of these articles has cost us double the price they are now marked at, but they must go.

NO NEWS OF THE FIGHTING AT GUERRERO.

Laredo, Tex., Nov. 21.—It has been impossible to obtain details of yesterday's fighting at Guerrero, Chihuahua. Soldiers are said to be on guard in the telegraph office at Guerrero and further than the statement that rioting occurred there on Sunday no word has been permitted to come out. Guerrero is an isolated village, far removed from the railroad. It has no telegraph or telephone connection, except the Mexican Federal line.

Soprano.  
MISS BLANCHE SHOWALTER.

The soloist of the First Symphony Concert, at the Auditorium, the 2nd of December, will be Miss Blanche Showalter, the young American coloratura soprano, whose success has been a tremendous one at the Cincinnati festival, in October. She sang alternatively with Madame DePasquale, the title role of the new opera "Paoletta," and her success was as great, not to say greater, than that of the prima donna.

As a result, Walter Damrosch immediately engaged her, and she is now on tour with the New York Symphony orchestra.

Miss Showalter is still a very young artist, and she comes to Canada for the first time.

Subscription tickets for the Symphony Concerts are to be had from members of the orchestra or at Lavigne's Hutchison, John street store. They sell at six \$1.00 tickets (two for each concert) for \$5.00.

HOBOES WILL BE ORGANIZED IN UNION.

St. Louis, Nov. 21.—The convention endorsed a resolution unionizing the "hoboes" of the country as members of the "Migratory Laborers' Union." It was also voted to admit the White Rats, along with the Actors' Union of America. The dues of the members of the Federation of Labor were raised by resolution and a committee was named to decide on the amount of the increase.

CAUSE OF TUBERCULOSIS AMONG THE CHILDREN.

New York, Nov. 21.—Fully one-half of the children who contract tuberculosis do so because they are cared for by tuberculosis adults. Dr. Woods Hutchinson and Dr. W. H. Park made this assertion today in arguing before the Committee on Congestion of Population for consumption hospitals and camps. The total outlay necessary for New York City, they estimated, would be \$9,000,000 for plant, with \$5,000,000 for maintenance the first year.

A demand under the winding-up act was made yesterday by La Banque Nationale on the Beauport Brewery, and Mr. George Lefaire, accountant, was appointed provision liquidator.
