Thirty-Fourth Year.

CREATION OF SIX NEW ELECTORAL DISTRICTS SUGGESTED

Redistribution Committee Makes Recommendations to Government—Addition of Proposed Districts Would Mean Ninety-One Assembly Members—Session Yesterday Afternoon Was Brief One.

QUEBEC, March 15.—Continuing itself with recommending the creation of six new electoral divisions, the report of the redistribution committee, which has been at work studying rural redistribution since February 4th, in its report made public yesterday, left to the Legislative Assembly the task of deciding if there was to be a readjustment on the island of Montreal.

The question was raised as to Montreal that a part of Jacques Cartier should be detached and added to Westmount. This would make Jacques Cartier more safe for the Liberals and mean only so many more Conservatives to be added to the majority of Brigadier-General C. A. Smart when the elections come. The Conservatives countered this by accepting the detached parts of Jacques Cartier offered, but bringing in an amendment to divide Westmount, in its enlarged form, into two electoral districts.

The Liberal members of the committee failed to appreciate this idea, since it would mean the Conservatives could probably be elected in each of the two divisions. The other proposal was in regard to Laval county. The Liberal proposal there was that Villars and Ahuntic should be detached from Laval and added to Dorion. This would have meant weakening Jos. Renaud, Conservative M.L.A. for Laval, at the next election but at the same time helping Aldéric Blain in Dorion. It was another such proposition as that with Jacques Cartier and Westmount, the one made famous when Sir John Macdonald told of "hiving the Geese" only this time the idea was to "hive" the Conservatives in Dorion and Westmount. There was objection taken, and the two Conservative members of the committee, Messrs. Blain and Renaud, countered with a proposition similar to that they had made for Westmount. It was at this point that the question of power arose. To quote the report of Hon. Hector LaFerte on this matter:

A long discussion arose as to whether it would not be preferable to make an addition to county out of Jacques Cartier and Laval. Finally the members of your committee deemed it expedient to leave it to the decision of the House, the more so because of the serious doubt as to whether the resolution of the House appointing them a special committee allowed them, without special instructions, to create one or more urban electoral districts.

The proposal as to Westmount being added to was made by Gustave Delisle, Liberal M.L.A. for Châteauguay, seconded by Leon Casgrain, Liberal M.L.A. for Temiscouata. Blain moved, in amendment, that Westmount county be divided in two, one part including the city of Westmount, the town of St. Laurent, and the village of St. Luc, and the other part comprising the city of Outremont, Cote des Neiges parish and village, the town of Mount Royal, and the town of St. Laurent.

The amendment was defeated. General Cartier appeared before the committee to ask for reconsideration, and it was on the discussion to reconsider that the committee decided to leave the matter to the House.

As regards the rural redistribution, the committee considered the situation of Abitibi, Temiscamie, Hull, Beauport, Beloeil, Dorchester, Temiscouata, Charlevoix-Saguenay, Champlain, Lake St. John, Gaspé and Bonaventure, in addition to the "unrested" district, and the district of St. Sauveur. As regards the latter it was decided to detach from St. Sauveur and add to Quebec east the village of Stadacona and a portion of the first avenue of St. François d'Assise. The committee was unanimous as to the redistricting of Gaspé, Temiscouata, Lake St. John, Champlain and Hull. Gaspé will be divided into two portions, and called Gaspé North and Gaspé South.

Temiscouata will be divided into two portions, called Temiscouata North and Temiscouata South. Lake St. John will be divided into two portions and called Lake St. John and Roberval. Champlain will be divided into two portions and called Champlain and Lavolette, the latter name in honor of the founder of Three Rivers. Hull will be divided into two, one part called Hull and the other G. G. G.

The committee unanimously decided against any changes as regards Abitibi, Temiscamie, and Bonaventure. There was a divergence of opinion as regards Charlevoix-Saguenay and Dorchester. Messrs. Renaud and Blain declared for a division of Charlevoix-Saguenay. Messrs. Casgrain, Delisle and Oliver, of Beauport, against. As to Dorchester Messrs. Renaud and Blain were against a division. Messrs. Casgrain and Oliver in favor. It was decided to divide the county into two, but several parishes from Beloeil were

HIGHER MAPLE SUGAR DUTIES ARE APPROVED

New Rates of Eight Cents a Pound on Sugar and Five and a Half Cents on Syrup Maintained by United States Senate Yesterday.

WASHINGTON, D.C., March 15.—Hopes of the maple sugar producers of Quebec and Ontario were blasted yesterday when the Senate refused to reconsider its former decision to place a tariff levy of eight cents a pound on maple sugar and five and one-half cents a pound on maple syrup. The eight cent rate represents an increase of one hundred per cent.

After voting again to retain in the tariff bill the existing levies on wrapper tobacco and rejecting cuts in the increases on maple sugar and syrup, the Senate last night rejected by a forty-two to twenty-five vote proposed rates of five and nine cents a pound, respectively, on green and cured hides, now on the free list. This did not settle the issue, however, as further amendments remained to be acted upon.

TRADING ON CANADIAN EXCHANGES FEATURED BY SMALL PRICE RANGE

Striking Change in Trading and Investment Psychology Noted—Distinct Response to News or Even Rumor of Constructive Character—Buying Still Highly Selective.

(Written for the Canadian Press, by Thomas C. Thompson)

ONTARIO, Ont., March 15.—Narrow price changes, in which losses predominated in spite of outstanding advances by such issues as Ford of Canada and Famous Players Canadian Corporation, were the chief characteristics of trading on Canadian stock exchanges this week.

Yet, beneath the apparently listless markets of the last five days could be discerned a striking change in trading and investment psychology. There was no hint of the former enthusiasm which marked the beginning of the year.

As regards the rural redistribution, the committee considered the situation of Abitibi, Temiscamie, Hull, Beauport, Beloeil, Dorchester, Temiscouata, Charlevoix-Saguenay, Champlain, Lake St. John, Gaspé and Bonaventure, in addition to the "unrested" district, and the district of St. Sauveur. As regards the latter it was decided to detach from St. Sauveur and add to Quebec east the village of Stadacona and a portion of the first avenue of St. François d'Assise. The committee was unanimous as to the redistricting of Gaspé, Temiscouata, Lake St. John, Champlain and Hull. Gaspé will be divided into two portions, and called Gaspé North and Gaspé South.

Temiscouata will be divided into two portions, called Temiscouata North and Temiscouata South. Lake St. John will be divided into two portions and called Lake St. John and Roberval. Champlain will be divided into two portions and called Champlain and Lavolette, the latter name in honor of the founder of Three Rivers. Hull will be divided into two, one part called Hull and the other G. G. G.

The committee unanimously decided against any changes as regards Abitibi, Temiscamie, and Bonaventure. There was a divergence of opinion as regards Charlevoix-Saguenay and Dorchester. Messrs. Renaud and Blain declared for a division of Charlevoix-Saguenay. Messrs. Casgrain, Delisle and Oliver, of Beauport, against. As to Dorchester Messrs. Renaud and Blain were against a division. Messrs. Casgrain and Oliver in favor. It was decided to divide the county into two, but several parishes from Beloeil were

IS SUFFERING FROM BRUISES AND LYE BURNS

Sixteen-Year-Old Anne Matthews in Simcoe Hospital as Result of Alleged Ill-Treatment by Woman With Whom She Was Working.

SIMCOE, Ont., March 15.—Frightfully bruised from head to foot and her back severely burned and blistered by lye, sixteen-year-old Anne Matthews lies in a hospital here physically in agony but mentally, she says, enjoying the first peaceful moments in two months.

She was brought here from Waterford by H. A. Carter, agent for Norfolk Children's Shelter. She arrived in Waterford after walking more than eight miles over railroad ties from Vanessa where, for the last fifteen months, she has been acting as a domestic for people who took her from the Children's Aid Society.

"She tells me the woman with whom she lived did this to her," said Mr. Carter. "She tells me this woman burned her with lye, kicked and struck her over the head with a milk bottle, dragged her upstairs by the hair. It all happened. Anne tells me, because she had taken an orange and some candy belonging to the woman's children."

"It is the most frightful case of brutality I have ever seen. Court action is proceeding at once," said Mr. Carter.

EARL OF BALFOUR PASSED A GOOD NIGHT

WOKING, Surrey, England, March 15.—The Earl of Balfour, who is ill at his brother's home, passed a good night and was able to take nourishment this morning.

HER MAJESTY PAYS VISIT TO PUBLIC HOUSE

"I Have Enjoyed Myself Tremendously. I Think It Is a Splendid Place, So Cozy and Homely," Queen Mary Remarked After Completing Her Friendly Visit.

LONDON, March 15.—Queen Mary knows considerably more of beer, bartenders and bar rooms today than she has ever known before. Yesterday she visited a public house and found out for herself some of the things of which so much has been written and spoken here and abroad.

Her comment upon leaving the bar room was: "I have enjoyed myself tremendously. I think it is a splendid place, so cozy and homely." The silence of astonishment and bashfulness fell upon the men in the crowded public house when Her Majesty, wearing a mauve gown, appeared behind the bar and looked round her with a friendly smile.

The men doffed their hats but said nothing until an elderly man whispered to his neighbor "Ain't she lovely?" The compliment did not escape the Queen, who laughingly acknowledged it and in so doing set the whole party at ease.

Determined to learn all about the beer shop trade, Queen Mary addressed the bartender, a young man who conquered his bashfulness and replied to her query as to what his job was with the words "to draw beer."

Queen Mary was not just sure how beer was drawn, so the bartender pulled a lever and drew a glassful to show her, explaining how the beverage was pumped from a cellar. She then questioned other workers who detailed their various employments, and visited the cellars where she saw how beer is stored.

The public house was the Anchor Inn, in Somerset, a slum district of North Central London, and is the "model" establishment conducted by the Rev. Basil Jellicoe, cousin of Admiral Lord Jellicoe. After leaving the Anchor Inn Her Majesty accompanied Rev. Mr. Jellicoe on a visit to some slum dwellings. In a five room house where five families are living, she asked sympathetically to the inmates, asking a number of questions and remarking to one woman: "It must be terribly inconvenient to cook your meals in such a small place." The woman, afterwards relating her experience said, "You could see the sight had a saddening effect upon her."

From these miserable surroundings the Queen was taken to a block of new tenements replacing the recent hovels. Here she was more cheerful and chatted gaily with the occupants. She patted three-year-old Ernie Barton on his head, and learning it was his birthday congratulated him.

She asked Ernie's mother how many other children she had, and received the reply, "Thirteen, Your Majesty."

"My word," Her Majesty commented.

PARIS, March 15.—A Brussels despatch to the newspaper Intransigeant says that the bodies of the three French airmen, Roux, Caillot and Dodemont, who left Madagascar last January for Paris, have been found beside their wrecked plane in the Belgian Congo.

The men left Madagascar on January 10th, and were last seen on January 12th, near Port Franqui fighting high winds. They were found in the Great Kasai forest.

COMPLETE AGREEMENT REACHED BY BRITAIN, AMERICA AND JAPAN

Approval by Home Governments of United States-Japanese Settlement, Which Was Reached Yesterday, Said to Be Only Thing Remaining to Enable Three Delegations to Write "Finis" to Their Naval Conference Difficulties.

LONDON, March 15.—A one hundred per cent. agreement among the United States, Great Britain and Japan was said in Naval Conference circles today to be an accomplished fact as far as the delegations are concerned.

Approval by the home governments of the United States, Japanese settlement, which was reached yesterday, was said to be the only thing remaining to enable these three delegations to write "finis" to their Naval Conference difficulties.

For days these delegations have been so close to agreement that there was said to be little between them. A provisional American-Japanese agreement, achieved by Senator Reed, of the United States delegation, and Ambassador Matsudaira, is understood to have been the one thing needed to complete the circle.

Observers said that what this amounted to was that if this agreement is approved by the home governments, the United States, Great Britain and Japan will be in a position to sign a three-power pact at any minute if this should seem desirable.

There remains the crisis surrounding France and Italy, and the next move would seem to be up to these two.

The Conference today was more or less marking time awaiting the arrival of Premier Tardieu from Paris for a conference with Premier MacDonald tomorrow. Upon this important conversation may depend the outcome of the Naval Conference as far as a five power pact for limitation is concerned.

Both United States Secretary of State Stimson and Premier MacDonald were resting today after their week's arduous labors in trying to solve the crisis evolving about the French demand for a 724,000 ton navy.

HER MAJESTY PAYS VISIT TO PUBLIC HOUSE

RESUMED TREK TO JALALPUR THIS MORNING

Mahatma Gandhi and Seventy-Nine Devotees Begin Fourth Day of Journey to Coast, Where They Will Manufacture Salt in Violation of British Monopoly.

AHMADABAD, India, March 15.—Mahatma Gandhi and his seventy-nine devotees who are marching with him to Jalalpur, on the Bay of Cambay, where they will manufacture salt in violation of the British monopoly, left the village of Matar after prayers this morning, commencing the fourth day of their journey.

The Mahatma announced that some of his volunteers had fallen ill and would accompany the party by car. There are still sixteen days left before the pilgrims reach the coast and begin in real earnest their "civil disobedience" campaign by which they hope to get independence for India from Great Britain.

The textile labor association founded here by Mahatma Gandhi decided today to join in the "war for independence" and will enlist volunteers for a passive resistance campaign from the ranks of labor.

TO FIX DAY FOR CIVIL RESISTANCE

MADRAS, India, March 15.—It was understood today the Andhra Provincial Congress Working Committee had appointed Konda Venkatapaya as director and had authorized him to fix a day and place for starting the civil resistance campaign in Andhra province.

TO OBSERVE HARTAL TODAY

CALCUTTA, India, March 15.—A partial hartal—cessation of work—was observed here today in protest at arrest of Mayor Sengupta Thursday on charges of sedition. Most schools and colleges remained closed.

The secretary of the local Students' Association announced the students intended to join Mahatma Gandhi's civil disobedience struggle and would observe a complete hartal today.

POLISH GOVERNMENT RESIGNS

WARSAW, Poland, March 15.—The Government of Premier Bartel, which has been in office since last December 29th, resigned yesterday after the diet had passed a vote of censure on the Minister of Labor.

A. M. REAPER ON WITNESS STAND FOR LONG TIME

Evidence Designed to Show that Any Depreciation of Davis Estate Was Due to Fluctuations of Stock Market.

MONTREAL, March 15.—Alexander M. Reaper, co-defendant with Lord Shaughnessy in the action brought by Lady Davis and her stepson, Mortimer B. Davis, to oust them as executors of the estate of the late Sir Mortimer Davis, Canadian tobacco magnate, completed nearly two weeks on the witness stand yesterday. The evidence, largely adduced by George Campbell, K.C., of the defence counsel, was designed to show that any depreciation of the estate was due to the fluctuations of the stock market and not to the lack of careful management. Evidence was also given to prove that every effort had been made to conserve the real estate, mainly the property in Montreal and at St. Agathe in the Laurentian Mountains.

It was shown that the \$180,000 paid in annuities provided in the will of the late financier had been paid out promptly in monthly instalments. Mr. Reaper testified that the Montreal estate had been valued at \$300,000, but the best offer to date had been \$150,000. The St. Agathe estate had been valued at \$100,000, and the best offer had been \$45,000.

STOCK SALESMAN ARRESTED

LONDON, Ont., March 15.—Fred C. Taylor, stock salesman of this city, was arrested late last night on a warrant. The arrest is a direct result of information secured by Col. Denison while on a recent visit here to check up on non-member brokerage houses and passed on by him to local authorities for action.

MEASURE ON STATUS OF WOMEN TO BE PUT OFF UNTIL NEXT SESSION

Learned Today from Excellent Sources that No Legislation Amending Civil Code in Matter of Women's Rights Will Be Brought Down in Quebec Legislature During Present Session.

QUEBEC, March 15.—It was learned here today from excellent sources that it is not likely that legislation amending the Civil Code in the matter of women's rights will be taken up in the Quebec Legislature during the present session. The reason given for this is that it has been found impossible to do anything of an adequate nature, and it is felt that it would be much better to wait another session when there will be a proposal of this nature ready for the legislature at the commencement of the session.

POWER COMPANY IS PLANNING BIG DEVELOPMENT

Authority to Undertake \$6,000,000 Construction Has Been Requested by Southern Canada Power Company.

MONTREAL, March 15.—Construction of a \$6,000,000 hydroelectric development by the Southern Canada Power Company, Ltd., on the St. Francis River, about six miles northwest of Drummondville, Que., is heralded by the application of the company to the Quebec Public Service Commission for the permission required by law. Two municipalities and one township are objecting to parts of the scheme involving the flooding of 1,300 acres. The case will be heard here Tuesday.

The development is to take place at Spicer Rapids, where a dam, plant, power lines and other auxiliary works would contribute to the ultimate production of 50,000 horse-power available for distribution throughout a region which would extend the industrial area the company has been creating around the Hemming's Falls hydro plant further up the St. Francis.

Plans submitted to the Commission show that four 12,000-horsepower units would be scheduled to go into commission as the demand for power dictated. The dam would be built across the river from one bank to Jersey Island, thence to the other bank. Completion of the development would require the flooding of some 1,300 acres of land, 800 of them wooded, 200 in pasture, and 300 under cultivation. Because of the topography of the district, the company proposes to purchase 4,200 acres, leaving 2,900 for cultivation. already 2,800 acres are owned and negotiations are proceeding for the balance.

An emphyteutic lease has been obtained from the Quebec Government covering water rights, approval has been secured from such local authorities as are directly affected by provisions of laws applying, Government approval of the dam was secured early this year, and now the Southern Canada Power Company, Ltd., seeks approval by the Commission of its plans and authority to construct.

Notice of objection has been filed by the municipalities of St. Joseph and St. Maurice and by the township of Wendover and Simpson.

NO PRESSURE BY UNITED STATES ON LIQUOR EXPORT, CLAIMS KING

Bill Preventing Liquor Clearances Aimed Exclusively at Control of Canadian Officials, Declares Premier—Opposition Leader Chides Government for Long Delay in Introducing Measure.

RUMORS OF ANY PAPER MERGER ARE UNFOUNDED

Prospects of a New Agreement Between International Paper Company and Canadian Mills Allied With Canadian Newspaper Institute Denied.

NEW YORK, March 15.—W. N. Hurlbut, vice-president of the International Paper Company, denied yesterday that there were prospects of a new agreement between his company and the Canadian mills allied with the Canadian Newspaper Institute, or for a merger with his company of the Abitibi and certain mills now controlled by Dominion Securities.

Mr. Hurlbut also denied the prospect of a \$5 a ton rise in the price of newsprint, which, together with the reported merger, was reported from Toronto, Ont., on Thursday. He asserted there were no new developments of any kind in the situation. He said that International Paper was purchasing approximately 80,000 tons of newsprint from Canadian mills this year, but this figure was about the same as last year and involved no change of relations with the Canadian mills.

MEASURE ON STATUS OF WOMEN TO BE PUT OFF UNTIL NEXT SESSION

Learned Today from Excellent Sources that No Legislation Amending Civil Code in Matter of Women's Rights Will Be Brought Down in Quebec Legislature During Present Session.

QUEBEC, March 15.—It was learned here today from excellent sources that it is not likely that legislation amending the Civil Code in the matter of women's rights will be taken up in the Quebec Legislature during the present session. The reason given for this is that it has been found impossible to do anything of an adequate nature, and it is felt that it would be much better to wait another session when there will be a proposal of this nature ready for the legislature at the commencement of the session.

POWER COMPANY IS PLANNING BIG DEVELOPMENT

Authority to Undertake \$6,000,000 Construction Has Been Requested by Southern Canada Power Company.

MONTREAL, March 15.—Construction of a \$6,000,000 hydroelectric development by the Southern Canada Power Company, Ltd., on the St. Francis River, about six miles northwest of Drummondville, Que., is heralded by the application of the company to the Quebec Public Service Commission for the permission required by law. Two municipalities and one township are objecting to parts of the scheme involving the flooding of 1,300 acres. The case will be heard here Tuesday.

The development is to take place at Spicer Rapids, where a dam, plant, power lines and other auxiliary works would contribute to the ultimate production of 50,000 horse-power available for distribution throughout a region which would extend the industrial area the company has been creating around the Hemming's Falls hydro plant further up the St. Francis.

Plans submitted to the Commission show that four 12,000-horsepower units would be scheduled to go into commission as the demand for power dictated. The dam would be built across the river from one bank to Jersey Island, thence to the other bank. Completion of the development would require the flooding of some 1,300 acres of land, 800 of them wooded, 200 in pasture, and 300 under cultivation. Because of the topography of the district, the company proposes to purchase 4,200 acres, leaving 2,900 for cultivation. already 2,800 acres are owned and negotiations are proceeding for the balance.

An emphyteutic lease has been obtained from the Quebec Government covering water rights, approval has been secured from such local authorities as are directly affected by provisions of laws applying, Government approval of the dam was secured early this year, and now the Southern Canada Power Company, Ltd., seeks approval by the Commission of its plans and authority to construct.

Notice of objection has been filed by the municipalities of St. Joseph and St. Maurice and by the township of Wendover and Simpson.

OTTAWA, March 15.—In presenting his bill in the House of Commons yesterday to prevent the shipment of liquor from Canada to any country where its importation is prohibited, Premier King took great pains to emphasize that the measure was not introduced because of any pressure from the United States, while Hon. R. B. Bennett, leader of the Opposition, vigorously assailed the Government for tardiness in the matter.

Mr. King declared that "This is a Canadian measure relating exclusively to Canada, relating to the conduct of our Government officials, and does not go beyond seeking to control the action of those officials." The Prime Minister, in the course of a two-hour speech, also stated that it was not a prohibition or a temperance measure, that it had nothing to do with either, that it would in no way restrict in Canada the purchase of alcoholic beverages.

"The purpose of this bill is to prevent the shipment of liquor to a country where its importation is prohibited, to prevent even the countenance by Canadian officers of anything resembling the smuggling of liquor into a country that has declared against such importation."

Mr. Bennett, at the outset, taunted the Prime Minister with bringing in such a measure, after three or four years' delay, on the eve of a general election, and amid loud applause from his fellow-members in the Opposition, declared that he "would strip from the Prime Minister that mantle of assumed virtue which he displayed here today."

Dorville laughter came from the Liberal seats, however, when Mr. Bennett, early in his remarks, stated that the Conservatives in the House could now with some satisfaction support a measure which, by the rules of the House, they were unable to previously themselves to present. In the course of a number of references by him to the report of the special committee of the House, which investigated customs matters in the session of 1926, Mr. Bennett was treated to some animated interjections from Liberals' seats, including even those of the Prime Minister and of Hon. Lucien Cannon, Solicitor-General, who warmly stated that those who represented the majority in adopting the committee report in the House, and which condemned the Liberal administration were a little late thrown out of office by the electors.

To this the leader of the Opposition, with equal force asserted that this ousting of the Conservatives in the 1926 contest was made possible by a combination of the forces or interests referred to in the report of the special committee, which pointed to some association between the law-breakers and the Government. Mr. Bennett, however, pointed out that the present Government was not making a fine display of moral indignation, of tender solicitude for the moral welfare of Canadians long after the disclosure of conditions that would warrant such action, and that the reason for the long delay was the approach of a general election.

After stating that the purpose of his bill was to prevent smuggling, moreover to prevent Canadian customs officers from even giving countenance to liquor smuggling, Premier King dealt at length with the present procedure of the officers of the Department of National Revenue in regard to dealing with liquor for sale in Canada and with liquor for export to other countries other than the United States. He stressed the fact that officers of the Department of National Revenue were concerned only with collecting of revenue and then pointed out that "Canada's customs and excise laws were enacted long before any other country had enacted laws prohibiting the importation of liquors and were enacted at a time when liquor could be freely exported to any or all countries."

Distinguishing between the methods of dealing with liquor bound for the United States and for other countries, Premier King pointed out that excise was not collected on liquor exported to countries other than the United States. Upon liquor bound to those other countries Canada imposed a bond equal to an excise tax of \$18 per gallon.

That is twice the amount imposed on that which now reached the United States, but when the department reached the destined country the bond was cancelled. Premier King then gave to the House in detail the whole procedure of Canadian officers of liquor going to the United States. Brewing and distilling in Canada were perfectly legitimate industries in the eyes of Canadian law, Premier King said, but the duties of the department officers, in connection with

ST. CYR

Mr. and Mrs. Pierre Dionne have returned from an extended visit with relatives and friends in Three Rivers, Montreal, St. Hyacinthe, St. Leonard and St. Bonaventure.

Mrs. Aime Tremblay has returned from St. Rose, where she went to attend the funeral of her uncle.

Mrs. J. E. Smith was a guest recently of her sisters, Mrs. A. E. Peck and Miss Grace Frost, in Sherbrooke.

STANSTEAD

Mr. George Terrill has returned to Stanstead from a business trip to Montreal.

Mr. A. L. Fuller has been spending a few days in Montreal on business.

Mr. A. W. Seaton, of Hatley, was the guest speaker at the 126th anniversary supper at Centenary United Church Tuesday evening, March 11th.

Miss J. J. Bissonnetti has returned to her home after spending several weeks in Daytona, Fla.

Mrs. H. A. Searth, of Scottstown, has been spending a few days with her mother, Mrs. McIntosh, at Stanstead.

Miss Mary Flint has been confined to her room during the past week.

Master Henry Stratton cut his foot quite badly on Tuesday, necessitating a visit to the doctor.

Suffered For Years From Rheumatism

Regained Health Through the Use of Dr. Williams' Pink Pills

Rheumatism is a disorder of the blood—caused by too much uric acid in the blood—and must be treated through the blood. It attacks its victims when vitality is low, thus setting up inflammation in the muscles and joints. Wet and cold weather may start the tortures of rheumatism but it is not the cause. The cause is the blood—bad blood. Enrich and purify the blood and rheumatism will disappear. If you are a sufferer from this painful malady begin the use of Dr. Williams' Pink Pills at once. They will enrich the blood and purify the blood and good blood means good health.

Mrs. John C. McPherson, St. Mary's, Ont., was a victim of rheumatism for years and writes as follows of her illness and recovery. She says: "I suffered from rheumatism for nearly sixteen years and for eleven years I was unable to walk. I tried a number of medicines as well as massages and chiropractic treatment without any permanent benefit. I was then told that I was at a loss to know what to try next. I noticed in different papers how strongly Dr. Williams' Pink Pills were recommended for cases like mine so I decided to try them. After taking several boxes I noticed that my appetite was improving. The pains became less severe and my color improved. I continued their use and now I am able to do light housework. I wish I could impress on all rheumatic sufferers just what these wonderful pills have done for me."

Dr. Williams' Pink Pills do one thing but they do it well—they enrich and purify the blood. This rich red blood banishes such troubles as rheumatism, sciatica, neuralgia and neuritis and leaves the former sufferer robust and healthy and well able to take his or her place in doing the duties expected of him. The pills are sold by medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

AYER'S CLIFF GENERAL NEWS OF INTEREST

News Items and Personals of General Interest from Ayer's Cliff and Neighborhood—St. Patrick's Supper Held—W.M. S. Meeting.

AYER'S CLIFF, Que., March 15.—Mr. and Mrs. Heskiah Keeler enjoyed a call from old time neighbors last week when Mr. and Mrs. John Chapman, of Moose Jaw, Sask., paid them a short visit. Mr. and Mrs. Chapman were on the return trip home after an extended visit with friends and relatives in Boston.

Mr. William Craig, of Waterloo, was a visitor over a recent weekend of her mother, Mrs. Jennie Martin.

Miss Milne, of Montreal, is a guest of her sister, Mrs. L. W. Mahaffey.

Mrs. Nettie Chadsey has been quite indisposed the past week with influenza.

Messrs. M. W. Johnston, E. E. Temple, M. R. Thompson, F. A. Johnston, M. R. Rexford, W. E. Hurd were among those of the I.O.O.F. members who attended the late Stephen Coll's funeral on Thursday.

Friends of Mr. W. H. Rediker will regret to learn that she is a patient in the Sherbrooke Hospital, having undergone a serious operation on Thursday.

Mrs. G. G. Fish, of Lennoxville, was a guest on Thursday of her sister-in-law, Mrs. W. E. Hurd.

Mrs. Lelia Hamilton and Mrs. Davis were in Sherbrooke Thursday.

Mrs. Charles Audet, of Coaticook, has been visiting at the home of her parents, Mr. and Mrs. Alden Hall.

Mrs. W. H. Rexford will open her home for the Women's Institute meeting at which Miss McEwan will speak. This will be on Wednesday evening, March 19th.

Mr. and Mrs. Eugene Coll, Mr. and Mrs. Elmer Coll attended the funeral in North Hatley, Thursday afternoon of their uncle, the late Stephen Coll.

The St. Patrick's supper served in the United Church vestry on March 11th was very successful in every way. The shamrock soup, the golden harp supplemented by a lattice of green at the front of the platform, tables covered with white cloth with trimmings of green paper and candles added much to the interior of the room. The decorations were in charge of Mrs. Thomas and her helpers for the attractive appearance. Supper was served by the waitresses, whose costumes were in keeping with the decorations.

Following the supper was a program consisting of an address by Rev. W. H. Thomas on the life and works of St. Patrick in whose memory and honor, yearly celebrations are held. Musical members also contributed, violin solos by Miss Heath, of the Stanstead Conservatory of Music, the male quartette, Messrs. W. H. Thomas, F. A. and M. W. Johnston, H. W. MacFadden gave two numbers; vocal solos by Mrs. Churchill Moore, Jr., and Mr. H. I. MacFadden concluded an enjoyable evening. The weather being favorable, the attendance was very good and a substantial sum was added to the funds of the Ladies' Aid.

Mr. E. Galvin, of Lennoxville, was a business visitor in town Wednesday.

The W.M.S. held an interesting session at the home of Mrs. E. E. Temple. The devotion period was conducted by Mrs. F. J. Brown. The minutes of the last meeting were read by the secretary, Mrs. H. G. Buck, after which the president, Mrs. W. H. Rexford, read a letter from the Presbyterian of St. Mary's, N.H., Mr. F. A. Johnston, stressing the need of not only meeting the allocation but exceeding them as much as possible in view of the great need for necessary funds to carry on the work in the many and varied fields of missionary enterprise, both within the Dominion and in foreign lands. The programme of the day of prayer was announced and some instructions regarding it was given by the president. Secretary of supply work, Mrs. Chamberlain, read a letter of thanks for the box of supplies sent to the school at Tourville, Que. The greater part of the time was taken up with reports by the heads of the work being done in the following countries: India, by Mrs. Berwick; Africa, by Mrs. Libby; North and South China, by Mrs. Rexford; West China, Mrs.

Mr. Mickey Turner has gone to East Hatley to assist Mr. C. Mouton during the sugar season.

Mr. Robert McClatchie spent a few days in Cowansville recently.

The community was saddened on Monday by the death of Mr. Stephen C. Coll, a highly respected citizen and a life-long resident of Hatley, and one who had endeared himself to the community in which he lived. His passing was felt with the deepest sorrow by all who knew him, and the sympathy of the community is extended to the family.

Mrs. Adrien Wilson, of East Angus, visited her parents, Mr. and Mrs. M. A. Smith, at the Valley House, over the weekend.

Mrs. L. H. Taylor recently underwent an operation at the Sherbrooke Hospital. Her many friends hope that she may soon be restored to health.

Mr. John McKay, who recently was operated on at the Sherbrooke Hospital, is reported as progressing favorably. His many friends hope for a speedy recovery.

HUNTINGVILLE

The sugar social under the auspices of the W.C.T.U., was well patronized. Mr. T. Bozer brought up a party of seventeen from Lennoxville, besides a good attendance from the surrounding community. The ever delectable sugar and doughnuts were generously served after which progressive "500" was played at several tables. A "mystery" table and two guessing contests also provided amusement. The proceeds were very satisfactory. The local Union wishes to thank Mr. C. H. Hunting for installing a radio for the evening.

Mrs. Ernest Dewing and Mrs. W. A. Hunting entertained the W.C.T.U. at the home of the latter on Tuesday March 11th, with a good attendance of members and visitors. The business session was short, as the afternoon was spent at work on a quilt for a family recently deprived of their home by fire. Members were requested to be ready with suggestions at the next meeting for a programme to be adopted during the coming year. It was decided to change the day of meeting to the second Wednesday of each month, the next to be held at the home of Mrs. C. H. Hunting, when the annual business meeting and election of officers will take place.

At the close of the afternoon the usual refreshments were served. Work in the saw mill here has been suspended for several days owing to the accumulation of ice and debris in the lower part of the mill, caused by an unusual backing up of the waters below the dam.

KNOWN SOLAR SYSTEM IS ENLARGED BY DISCOVERY

President of Royal Astronomical Society Comments on Discovery of New Planet by American Astronomers.

LONDON, March 15.—Astronomers at the Royal Observatory were greatly interested over announcement from America of discovery of a new planet.

Sir Frank Dyson, Astronomer Royal, said he had a cable announcing the discovery and had no doubt of its authenticity. "It is extremely important," he said.

Prof. A. C. Crommelin, president of the Royal Astronomical Society, said: "It is a discovery that enlarges the solar system. Neptune was the outside planet before. Now this one will be. Neptune takes 165 years to go around the sun. This one will take over 200 years."

Temple, Japan, Mrs. Thomas and Korea, by Mrs. Brown. These reports were summarized from the Blue Book. It was found that one afternoon was far too short in which to review the interesting activities that are recorded of these hard-working missionaries and their native helpers. A carefully prepared review by Mrs. Lyon was left to a future meeting when there would be more time to enjoy it. The meeting closed with the usual benediction. The April meeting is promised Mrs. Matthews, of Lennoxville, as special speaker.

PRESENTATION TO MR. HAND

A short time ago, Mr. Fraser was instrumental in starting a subscription list for Mr. Lawrence C. Hand, who is a paralytic and has been confined to the house and his bed for the past ten years, to enable him to purchase a radio to amuse himself in his leisure moments. As the amount subscribed was not sufficient for the purchase of a radio, it was decided that Mr. Hand should receive the amount collected, which has been handed over to him and for which he now expresses his sincere thanks to all those who kindly contributed, especially Mr. Fraser for his kind efforts.

The following is the list of those who so kindly contributed: Messrs. Clarence O. Fraser, \$1; Geo. W. Newman, \$1; J. M. Martin, 25c; A. Slack, 50c; H. P. Stone, \$1; M. Leavitt, \$1; K. L. Mosher, 50c; Rand Coll, \$1; N. S. Harrison, \$1; S. W. Emery, \$1; Elmer Coll, \$1; E. Johnston, \$1; M. Stewart, 50c; P. Dezan, 50c; L. Piercy, 50c; W. Keet, 50c; E. R. Rousseau, 50c; Carl Mosher, 25c; Mr. and Mrs. Leon Clough, \$1; Mr. T. D. Hunter, \$1; Mr. D. E. Pepin, \$1.

The following is the list of those who so kindly contributed: Messrs. Clarence O. Fraser, \$1; Geo. W. Newman, \$1; J. M. Martin, 25c; A. Slack, 50c; H. P. Stone, \$1; M. Leavitt, \$1; K. L. Mosher, 50c; Rand Coll, \$1; N. S. Harrison, \$1; S. W. Emery, \$1; Elmer Coll, \$1; E. Johnston, \$1; M. Stewart, 50c; P. Dezan, 50c; L. Piercy, 50c; W. Keet, 50c; E. R. Rousseau, 50c; Carl Mosher, 25c; Mr. and Mrs. Leon Clough, \$1; Mr. T. D. Hunter, \$1; Mr. D. E. Pepin, \$1.

WESTERN COAL INTERESTS ARE NOT OBJECTING

Have Not Discussed or Protested Against Any Proposals Which Would Have Facilitated Movement of Canadian Grain to Old Country, Chairman of Canadian Coal Commission Says.

Bedford District

KNOWLTON

The services in St. Paul's Church and parish next Sunday, March 16th, are as follows: eight a.m., Holy Communion; 9:15 a.m., Sunday school; 10:30 a.m., morning prayer; two p.m., St. Andrew's, Bolton Park; 7:30 p.m., St. Paul's evensong.

Mrs. W. Stone returned on Monday from Sherbrooke, where she spent several days the guest of Mr. and Mrs. Bruce McKay.

The W.M.S. will meet on Tuesday, March 18th, at the home of Mrs. G. H. Robb. A large attendance is requested on account of a special feature of this meeting.

Messrs. Douglas and Jack Erskine, of Montreal, were weekend guests at the home of their parents, Mr. and Mrs. K. Erskine.

A well attended meeting of the Parochial Guild was held on Wednesday afternoon at the residence of Mrs. A. T. Woodley. After the business part of the meeting, refreshments were served, by the hostess being assisted by Miss Dorothy Bancroft and Mrs. F. N. Williams.

Mr. Perry, of the Southern Canada Power Company, Montreal, was in town on business on Wednesday.

The Senior Bridge Club was entertained on Monday afternoon by Mrs. Fay at the Lake View House. The usual number were present. Mrs. George Dryburgh winning the prize. Refreshments were served after the game.

While in the Creek recently Mr. Dennis Taylor saw in a tree what proved to be the remains of a small balloon to which was attached a cylinder containing an instrument. The metal case had instructions for the finder to handle carefully as the instrument contained valuable records of the upper air conditions. The finder was also requested to send information to the Meteorological Department at Toronto, who would send a suitable box for its safe carriage. Mr. Taylor carried out these requests and has since received the thanks of the Department interested.

DUNHAM

Mrs. H. H. Smith, accompanied by Mr. and Mrs. McElroy, attended the funeral of Mrs. Smith's brother, the late Mr. Bowker, in Brigham last week. Mrs. Smith remained with Mrs. Bowker for a few days.

Miss Maud Selby, who has been a guest of Nurse Annie Yeats and other friends in Montreal and Rev. and Mrs. Winch in St. Johns for three weeks, has returned home.

Mrs. J. F. Carleton is reported as gaining as rapidly as can be expected from her recent operation, although it will be some time before she returns home.

Mr. H. A. Richer attended the roadmakers' convention in Quebec last week.

Mr. and Mrs. Richer recently entertained the following friends at tea: Mr. and Mrs. Lorne Rudd, Mr. and Mrs. E. A. Fontaine and Mr. and Mrs. Oscar Levesque.

Mr. and Mrs. George Doherty entertained at dinner on Saturday evening.

Mr. and Mrs. George Elvidge, of Notre Dame de Grace, were weekend guests of Mr. and Mrs. Arthur Brown.

Mr. and Mrs. George Taylor and little daughter motored to Waterloo on Saturday and spent the weekend with Mr. and Mrs. John Taylor.

Mr. and Mrs. Murray Rutter, of Cowansville, spent several days with Mr. and Mrs. George Doherty this week.

Mrs. Ten Eyck left on Thursday for New Britain, Conn., to spend some time with her son and daughter-in-law, Mr. and Mrs. Earl Bishop.

Mrs. George Doherty and Mrs. Oscar Martin were guests on Wednesday of Mr. and Mrs. Murray Rutter in Cowansville.

Mr. Luther Smith and children, of Richford, arrived on Wednesday and will spend a couple of weeks with her sisters, Mrs. W. A. Doherty and Mrs. Gordon Garriek.

Mr. and Mrs. Harry Gilbert, of Montreal, spent last week-end with Mr. and Mrs. James Gilbert.

Ureby Rebekah Lodge held its regular meeting on Tuesday evening. Plans were made for a masquerade on March 28.

STANBRIDGE RIDGE

The death occurred on March 6 of an aged resident of this place in the person of Mr. Thomas Vance. The late Mr. Vance, who had attained the age of 88 years, sustained a stroke of apoplexy and passed away after only a few hours' illness. Until recently the deceased had been in comparatively good health and was remarkably active for a man of his advanced years.

The funeral service, which was held at the house on Saturday, March 8, was conducted by Rev. J. F. Carleton, with Mr. A. O. Wescott as manager. The bearers were Messrs. Leslie Martindale, nephew of the deceased; Arthur Montagne, Archie Sager and Marvin Corey. Interment was in the Ridge cemetery.

Mrs. Ramsey spent a couple of days in Montreal recently.

Mr. H. Baker and family, Mr. and Mrs. Arthur Vaughan, Miss Winnie Douglas, Mrs. Delbert Corey and Messrs. Thomas and Charles McGovern among those who have been suffering from severe colds.

The meeting of the Ladies' Aid has been cancelled. The April meeting will convene with Mrs. Charles Smith on the first Thursday of the month.

COWANSVILLE

Mr. Bruce Miner received the sad news on Wednesday that his eldest brother, Mr. Henderson Miner, of Springfield, Mass., formerly of Dunham, had suffered a severe paralytic stroke.

Miss Ada Tibbitts spent a few days in Enosburg, Vt., recently.

Mr. and Mrs. Barber, of Sweetshur, and Mrs. Wm. Johnston, of Springfield, Mass., formerly of Dunham, had suffered a severe paralytic stroke.

Brimmed Straw Hats to Top the Spring Mode

Intricately Modeled Millinery For Dixie Resort Wear Is Harbinger Of Next Season

Heading Palm Beach chic are (left to right): a tucked bakon hat, in spring green, has its wider right brim scalloped and its own trimmed with a "dressmaker" touch in the form of a fan-like spray of tucks. For wear with one-piece white frocks, a wide-brimmed hat is of rough weave straw, in light rust tone, banded with three shades of green souteache braid. The fabric beret and scarf set are in a spring-weight Shetland jersey in rose and grey.

BY HENRI BENDEL
Written for NEA Service

NEW YORK, March 15.—Palm Beach hats have real importance because of the fact that the styles that crystallize in January are really the one that march in the Easter parade as the outstanding fashions of spring.

There is an increased tendency toward brims, though many of the Southern resort hats flare their brims back to make off-the-face models. But even these are apt to have some intricate modeling that gives them a new air and new feeling.

Straws are of utmost importance. Just as fabric hats have superseded felts for many winter occasions, straws of new and supple weaves will rival lightweight felts for spring.

Straws Combine With Felts
There is a likelihood that many straws will compromise with felts by combining with them to create chic chapeaux of elaborate working. But the all-straw hat is the one the smart woman will watch.

Cellaphone and many of the other Italian novelty straws supplement the fine novelty bakers and panamas. Cloche hats there are in numbers, but they are cloches that are different. Made of pliable straw, they grow lovely and light and very feminine looking.

Widening at sides, many brims extend well down the neck in the back. Often they are folds and pleats of material. Medium brims are better than exaggerated ones. There is a hint of tam-o'-shanter in some of the modified berets.

Trimmed hats are in great numbers. Jeweled pins, fancy handbags, feather fans, tiny bunches of crystal flowers, ribbons, wool flowers, and other trifles add their color and decorative touch.

The fabric beret with scarf to match still persists, but in such charming new style as to be welcome. Such a set comes in a spring-weight Shetland jersey in rose and grey. The beret has a flared back brim effect that swings like a beret over one ear. The scarf is an Ascot, though it may be worn over one shoulder.

For a dressy daytime frock, there is a tucked bakon in spring green.

It has a scalloped mushroom brim, with the scallops in the longer side. Flaring up the crown is a fan of tiny tucks, running out from a center over one eye. There are two little tucks running around the crown, banding it. This hat is an example of the "dressmaker" touch in millinery that will be so popular this spring.

Big Brimmed Hat's Place in Mode

For wear with one-piece frocks, of the sleeveless or short sleeve variety, the big brimmed hat of rough straw is very good. Basket straw is popular, either in off-white or one of the brilliant colors the South sponsors. The capucine shades are good, so are greens, and medium and light blues are gaining in popularity.

One of these is a rust-red basket straw, a soft rust color. It has a very wide brim that is scarcely shorter in the front than in the back. It is a novelty weave, with its seaming giving the effect of zig-zag striping. Its only ornament is a chic souteache banding of three shades of green, with a little tassel at the very back.

is now at Sutton, visiting Mr. and Mrs. Charles Fuller. Mrs. Draper may also return and they may spend the summer at their home here.

All will be glad to read that Mrs. Charles Shepard, who has been seriously ill, is on the road to recovery.

A fine run of sap is reported by the farmers in this vicinity. Reports are prevalent of much syrup of good quality. Drums for storage, it is understood will be furnished by prospective buyers, but the price that will be paid seems not to have been yet decided.

Mr. Daniel Green, of Knowlton, and Mr. William Rockwell, of Bromes, were in town on Thursday.

Mr. and Mrs. E. Grant went to Montreal on Wednesday morning to visit their son, Roy, who is in the Royal Victoria Hospital.

The funeral of the late Edward Ducaite, of West Shefford, on March 6th with many relatives and friends in attendance. Mr. Ducaite's entire life has been spent in this vicinity and he was universally respected by both French and English speaking people and Mrs. Ducaite and family have the sympathy of the entire community in the loss of a kind husband and father. His death occurred on March 4th after a long and tedious illness from cancer. Mr. Ducaite was a kind and obliging neighbor and will be greatly missed. In politics he was a staunch Liberal.

Mr. Harold Wright went to Montreal on March 10th.

Mr. H. N. Doe and Mrs. Mooney went to Waterloo on Tuesday to see Mr. Heran Doe, who is seriously ill.

Miss Alice Thompson spent a recent week-end with Waterloo friends.

The funeral of the late Edward Ducaite, of West Shefford, on March 6th with many relatives and friends in attendance. Mr. Ducaite's entire life has been spent in this vicinity and he was universally respected by both French and English speaking people and Mrs. Ducaite and family have the sympathy of the entire community in the loss of a kind husband and father. His death occurred on March 4th after a long and tedious illness from cancer. Mr. Ducaite was a kind and obliging neighbor and will be greatly missed. In politics he was a staunch Liberal.

Mrs. C. M. Bedard visited relatives in Sutton for a few days recently.

Mrs. Arthur Leduc is able to be about once more, after having been confined to the house from the effects of being hit by a passing automobile while walking along the street.

Word has been received that Mrs. Frank Aiken, who is a patient in the Montreal General Hospital, is slowly improving after her recent operation for goitre.

Mrs. B. W. Chappell is visiting relatives in Westwater and Richford, Vt., this week.

Mrs. Leah Labare, of Newpout, Vt., is assisting in caring for her sister, Mrs. Israel Lamothie, who continues very weak.

Mrs. Carl Merriam, of North Troy, Vt., spent last week at the home of her grandparents, Mr. and Mrs. Fred Jersey.

The Recreation Club in connection with the Ladies Guild of St. Paul's Church met on Wednesday afternoon at the home of the president, Mrs. Willard. Cards were played during the afternoon, after which refreshments were served by Mrs. Willard, assisted by her daughter, Mrs. D. G. Eldridge.

Mrs. Henri Perrault has returned home after accompanying her eldest daughter, Roberta, to Montreal, where she has already passed through a successful operation for appendicitis. Mrs. Perrault expects to return to the hospital next week with another daughter, Lucille, who will be operated upon for adenoids and tonsils.

Mr. A. Camille, of Granby, is a business visitor in town this week.

Mr. and Mrs. J. N. Bourassa have moved into the tenement owned by Mr. C. Drouin and recently occupied by Mr. L. C. MacLean. Mr. Bourassa's household goods arrived by truck from Montreal via Richford, Vt., on Tuesday, giving proof of the excellent condition of the roads for this season of the year.

The funeral services of the infant son of Mr. and Mrs. Lynn Reid, of Highwater, were held in St. Paul's Church on Thursday afternoon at two o'clock. The child was recently severely scalded by upsetting a cup of hot tea and died in a Montreal hospital a few days later. Much sympathy is felt for the bereaved parents and grandparents of the little one.

FULFORD

Mrs. Korner went to Montreal on March 10th hoping to bring Mr. Korner back with her when she returns. Mr. Korner has been in a hospital since about Christmas but his many friends are pleased to learn he is much improved in health.

The meeting of the Ladies' Aid at the home of the president, Mrs. David Bull, on March 6th was unusually well attended and considerable business transacted and work accomplished. Refreshments were

GENERAL NEWS OF WATERLOO AND VICINITY

Personal and Reports of Interest to Residents of Waterloo.

WATERLOO, March 15.—During the critical illness of Mrs. Edward Golden's sister, Mrs. Tibbitts, who is a patient in the Sherbrooke Hospital, the W.C.T.U. will meet at the home of Mrs. Pauline Harvey, on Tuesday afternoon, March 18th, at two-thirty p.m., instead of meeting at the home of Mrs. Golden as previously arranged.

Miss Frances Lindsay has received cards from Mr. and Mrs. James Davidson, of Montreal, who are enjoying several weeks in Jamaica.

Mr. G. G. Bross, of Verdun, was in town, on Thursday, on business.

The regular meeting of St. Luke's Parochial W. A. was held in the church hall on Wednesday afternoon. The meeting was opened with the Doxology, the president, Mr. Bridge, presiding. Several important items of business were attended to and a considerable amount of sewing accomplished during the afternoon. Following the Benediction, refreshments were served by Mrs. Gardner Kendall, Mrs. Hackwell and Mrs. Robert Neil.

On Monday afternoon, March 10th, little Miss Betty Moyse, only daughter of Dr. and Mrs. W. D. Moyse celebrated her fifth birthday by entertaining several of her young friends from three until six p.m. Games were enjoyed by all until five o'clock when refreshments were served by Mrs. Moyse.

The regular monthly meeting of Beaver Chapter No. 7 O.E.S. was held on Monday evening, March 10th, in the Masonic Temple, with a large attendance of members. Following the routine business, initiation, degree work and closing ceremonies, refreshments were served in the banquet hall, by Mrs. C. W. Slack, Mrs. E. J. McKenna and Mrs. H. W. Moynan.

Miss Edith Mairs has gone to Warden where she will be the guest for a few weeks, of her brother, Mr. Judson A. Mairs and family.

Master Harold C. M. Bullock, who is convalescing from an illness occasioned by mumps and ear complications is home from "Eller Institute," where he is attending school and this week was visiting his aunt, Mrs. S. J. Irwin and Mr. Irwin.

On March 9th, Mrs. Charles Whitcomb entertained Mrs. Newell and Mrs. Pauline Harvey at the dinner hour in honor of Mrs. Newell's eighth birthday.

Mr. and Mrs. George Wilkinson, of Knowlton, were in town a couple of times, last week, and visited the property recently purchased from Mr. J. Emerson England. Mr. and Mrs. Wilkinson expect to soon move to their new home.

Friends will regret to learn that on Monday afternoon Mr. Leland Holden went to the Royal Victoria Hospital, where he was operated on for some throat trouble which for several weeks has been in evidence. Mrs. Holden left on Tuesday afternoon for Montreal to be near her husband. Very satisfactory reports of the success of the operation have been received by relatives here.

Mrs. George Benton, of Montreal, was the guest, on Monday, of her sister, Mrs. Percy de F. Boright and family while here to attend Beaver Chapter No. 7 O.E.S.

Messrs. William and Mack Hill, of Barnwell, Alta., were guests on Monday afternoon and evening, of Mr. and Mrs. J. A. Mairs and family.

Miss Jessie Cook, who has been visiting friends in Freighsburg, is now the guest of her sister, Mrs. W. H. Snodgrass, and niece, Miss Dorothy Snodgrass, of Mansonville.

Mrs. Percy Boright visited her mother, Mrs. C. W. Parker and other relatives in Montreal, last week.

Mrs. F. W. Savage and Mrs. F. E. Taylor were calling on friends in Granby recently.

Mrs. Donald Kavanagh, of Farnham, was the guest, on Saturday, March 8th, of her parents, Mr. and Mrs. Boright, and brothers, Ralph and Robert Boright.

Mr. and Mrs. Ronald Robinson and little son, of Montreal, were weekend guests of Mrs. Fuller and Mr. and Mrs. A. Foster Robinson. Mrs. Robinson and little son remaining for a few days.

Mrs. L. Keith Allen and Miss Jean Allen spent Saturday, March 8th, in Montreal.

Mr. Fred Slack has been confined to his home for a couple of weeks' suffering from bronchitis.

Mr. and Mrs. Lyle Johnson and little son have returned to their home in South Bolton, after residing in town for several months.

Mrs. Charles Lawrence received, on Saturday last, news of the critical illness of his sister, Mrs. Eva Burt, who had suffered a paralytic stroke at her home in Springfield, Mass.

Mr. R. A. Hanson entertained the Junior Bridge Club, on Wednesday evening.

Rev. A. W. MacFarlane, of South Stukely, was recently calling on Mrs. Peasley and sons.

Mrs. W. L. Craig spent a recent week-end in Ayer's Cliff with her mother, Mrs. Jennie Martin, brother, Mr. Leonard Martin and Mrs. Martin.

On March 8th, Mr. Evered Martin, and family, of Lennoxville, Mr. and Mrs. James Hunter, of Bondville, Mr. E. Phelps, of Foster, Mr. and Mrs. C. J. Farrell, of Knowlton, visited Mrs. Peasley and sons for a recent week.

On Thursday afternoon, March 13th, Mrs. R. A. Hanson entertained at two tables of bridge in honor of Mrs. Reid, who, with Mr. Reid, recently moved here from Winnipeg, Man. The prizes were won by Mrs. Reid and Mrs. Bradley.

Much sympathy is felt for Mr. and Mrs. George Magoon, of Eastern Avenue, whose infant son passed away on Tuesday last. The interment took place in the Protestant Cemetery, at South Stukely, Rev. Norman Egerton officiating.

Friends all over the Dominion will regret to know that Mr. Charles A. Nutting, K.C., is quite seriously ill at his home here.

On Tuesday evening a rare treat is in store for the members of St. Luke's A.Y.P.A. and their friends, when a "moving picture entertainment" will be given in the church hall through the courtesy of Mr. E. C. Elliott, general passenger agent, and Mr. C. K. Howard, manager of the tourists' bureau of the C. N. R. The subject, "Trips in Canada," will be presented by Mr. H. M. Peattie, who will be the guest of Rev. Norman Egerton and Mrs. Egerton while staying in Waterloo.

On Saturday evening, March 8th, in spite of the severe wind and snow storm, twenty-five boys registered at the first meeting of St. Luke's Troop of the Canadian Boy Scouts, the rector, Rev. Norman Egerton, being appointed scoutmaster. The

Nerves!

Too much excitement, too much work, too much worry, too much pleasure—all overtax and weaken the nervous system.

Fellows' Syrup contains mineral foods which feed and so restore the nervous system to a healthy condition. It also has valuable ingredients that induce normal sleep, aid digestion, and strengthen the body. It cannot be successfully imitated.

Fellows' Laxative Tablets are specially prepared for the rational treatment of, and ultimate recovery from constipation.

troop will meet every Friday night at seven o'clock. Keep interest and enthusiasm in the movement was manifest by some of the young men who walked over two miles to attend and sign up. A cub pack is being organized with Mr. Cyril Lewis as cub master. They will also meet each Friday evening at the same hour.

At the meeting, on Tuesday evening, March 10th, of St. Luke's A.Y.P.A., it was decided to hold a novelty sale on Tuesday, April 15th, the object being to raise one hundred dollars or more to equip the interior of the new Anglican church which will not doubt be named "St. Luke's" after St. Luke's parish. At the above mentioned sale, an address will be given by Mrs. Arthur Reeves, of Outremont, who will tell of her recent trip to Palestine, where she spent Good Friday at Calvary. Mrs. Reeves will bring with her, costumes worn by the natives of Bethlehem and Jerusalem, and photographs of the children's games, etc.

At the Wednesday evening service on April 2nd, the members the A.Y.P.A. will have as their guest the Rev. Professor C. A. Brodie Brockwell, head of the department of Hebrew at McGill University, who will speak on the "Creation".

SO CHEAP, NO NEED TO SEEK FREE ADVERTISING.

Any want you may conceive can be satisfactorily achieved through the Record Want ads. If you will look over the columns of our Daily Market Place and study the contents, you may be found quite as interesting as some of the news columns. With the modest rate of 2 cents a word the man who asks for free advertising of some concert or meeting where tickets are sold must feel mighty cheap. A Want ad at 25 cents is a profit-bringer.

PRE-ESTER SERVICES AT ST. ANDREW'S CHURCH
Pre-Easter services will be continued in this church tomorrow with Rev. Joseph Corder, B.D., as the preacher.

The music of the morning service will include an anthem by the church choir entitled "Let Not Your Heart Be Troubled" (Myers Foster). The subject of the sermon will be "Knocking At Mid-Night." The primary department will be in session as usual at ten-forty-five o'clock, and the church school and senior classes will meet at half-past-two o'clock in the afternoon.

At the seven o'clock evening service the address will bear the title "The Dimensions of Divine Love." A mixed quartette will sing "Christ the Holy One" (Davenport). There will be other suitable praise for everyone.

HANDY REFERENCE BOOK PUBLISHED

The 1929-30 edition of the reference book published by the Canadian Newspaper Service, Registered, Montreal, has been issued and again this year is of the same high quality which has made previous issues of this book so valuable.

This book contains biographical reference data and other general information, which makes it very valuable for the use of libraries, newspapers and personal reference. It deals with prominent Canadians and gives brief but accurate accounts of the lives of many outstanding Canadians of the present day.

The 1929-30 edition has several new features, including a larger and more comprehensive list of Boards of Trade and Chambers of Commerce, a greatly improved classified index and includes in chronological order birthday dates of those whose biographical data appear in this issue. Altogether the book contains a valuable amount of information.

TEXTS OF SERMONS TOMORROW AT PLYMOUTH CHURCH

The services in Plymouth United Church on Sunday will be conducted by the minister, Rev. Dr. Ellyer Read. At the morning service the subject of the sermon will be "Ceremony and Ritual." This is the second of the Lenten course of sermons on "Religion and Life at Christ's Valuation." The choir will sing the anthem, "What are These That are Arrayed in White Robes" (J. Stainer).

At the evening service the subject of the sermon will be "Peter, the Denier of His Lord," the second of the Lenten course on "Characters Connected With the Trial and Crucifixion of Christ." The choral music will include the anthem by the choir, "The Heavens Proclaim Him" (Beethoven), and the male quartette, "My Anchor Holds" (Towner), sung by Messrs. C. C. Jameson, W. Westlake, R. Laver and Roy Whitehead. The church school will meet at the hours announced in the church notice.

REV. DR. LENNON'S TEXTS TOMORROW AT TRINITY CHURCH

Rev. Dr. W. S. Lennon, pastor of Trinity United Church, will preach at both services tomorrow, and will also give a talk to the Trinity Brotherhood at 2:30 p.m. At the morning service the sermon, which is the second in Dr. Lennon's series on the first Lenten season of nineteen hundred years ago, will be entitled "Two Seekers After God." The choir will render "Sir John Gosses' anthem, 'O Saviour of the World,' and Mrs. A. G. Nakash will sing Metropoli's "O, Saviour of Mankind."

The subject of the talk in the Brotherhood meeting at 2:30 p.m. will be "The Lost Chord," a review of chapter three of Dr. Stanley Jones' great book on "The

7 p.m. Evening Worship: "When Eastern Skies are Red: I, The Imprisoned Splendor."

Christ of Every Road—A Study in Penitence.

In the evening Dr. Lennon will preach on the subject "Life, What is It?" and will deal with the Apostolic and other answers to the question.

The choir's special contribution to the evening service will be the rendering of Dudley Buck's anthem, "God Who Madest Earth and Heaven."

ELECTION CASE WAS DISMISSED BY MAGISTRATE

Election of J. A. Plourde as Councillor of Wottonville Declared Legal by Judge Lemay.

An Appeal Court ruling to the effect that a man is eligible to occupy a council seat of a municipality if he holds property, whether it is registered or not, was cited by Judge J. H. Lemay in the Magistrate's Court yesterday in a judgment dismissing the action of Joseph Gilbert, of Wottonville, to annul the election of J. A. Plourde, also of that place, as councillor of that municipality.

On January 13th last Plourde was elected councillor of the municipality of Wottonville. Gilbert claimed that the newly-elected councillor did not possess the qualifications to allow him to occupy a council seat.

The case was heard in the Magistrate's Court here and the evidence showed that the defendant owned three different properties in the village, two of which were mortgaged at more than their valuation. The accused had a third property, but the deed was not registered until two hours after the polls opened on election day. Gilbert alleged that, under the circumstances, Plourde did not have the qualifications necessary to hold a council seat, and requested that the election be annulled.

In his judgment, Judge Lemay pointed to a Court of Appeals ruling in a similar case in which the right of a citizen to be elected to the Council was upheld if he had property at the time of the election, notwithstanding that the deed had not been registered at the time. He stated, however, that Plourde should have notified the electors that he was a property holder and, as this had not been done, contended that the costs of the present action should be borne by the defendant.

Don't neglect to read the Classified Advertisements in this issue. They likely name something you want.

"ANCESTOR JORICO"

by WILLIAM J. LOCKE

"That's about it. Wanted to know if any thing was worrying him. I know what's worrying him — the treasure. I tell you, I'll be glad when I drop those sacks on the yacht."

Jane sighed a "So shall I."

"It's a strain on everybody. Even on Hettie, who's the calmest and most level-headed woman I know."

"That accounts for you three," said J. "What about Toby?"

"I wish to God he'd take a little more practical interest in the thing," he cried with some heat.

"You leave Toby alone," said Jane. "He's the only of you except Tom (who doesn't count) that has got it screwed into his mind that I'm his hostess."

I am pretty sure that Toby was as nervous as the other three over the treasure, but he had his own way of dealing with his condition.

"Where's Hettie?" Jane asked. Binkie waved a vague westerly hand. "Playing bridge with the Wilsons." He looked at his watch. "By Jove, I promised to call for her. Good night, my dear."

He went off down the lazily humming veranda, down the front steps of the hotel and out of the gate. I laughed.

"Romance, my dear. Ill-mannered or not. Take it or leave it. There it is all the time. Hettie Dalrymple might do worse."

Suddenly Jane touched my arm and pointed to two figures in the savannah, some fifty yards away, the moon behind them casting fantastically long shadows.

"There's another pair," she said. "I didn't put the yacht into commission for a voyage to Cythera."

As the figures drew near I recognized Toby and Ruth. They crossed the road together in the coolest possible way. When they parted, she to the further side of the hotel, he to mount the front steps, he took off his hat with a friendly "good night."

"Pleasant stroll about the savannah?" asked Jane with a touch of acidity.

"Very," he replied, sitting down. "What are you drinking, sir? I

think I'll have some. Walter!" He gave his order. "Ruth Tellifer, my dear Lady Jane, is a highly intelligent girl."

"She also happens to be my maid," said Jane.

"You may rest assured," said Toby, "that both of us have every conceivable kind of appreciation of the fact. So don't worry. But she also happens to be the first cousin of my man, Jones, who is following her like a dog, a humble and adoring dog, and she doesn't know what to do with him. He also seems to have something else on his mind which she can't get at. As I'm the only person in the world who, she things, can get at Jones, she comes to me. Or rather, when we quite accidentally bump up against each other as we did a quarter of an hour ago, she pans out about Jones."

"And that's that," said Jane, lighting a cigarette.

Toby bent forward. That isn't quite as 'that' as you seem to think, my dear. I'm not out to seduce village maidens—or even to philander with them. In my trade I've had hole-and-corner suggestions, invitations—God knows what—enough to make a decent man sick. If ever I want a woman, I'll want her before the whole world and there'll be no hole-and-corner about it."

"But, my dear boy," said I, in gentle remonstrance. "Why this—let us say, fervid proclamation?"

Toby replied: "I don't want my hostess to think that I'm abusing her hospitality by making love to the maid who came to her on my recommendation. It's the sort of thing a decent man doesn't do."

Jane shook her wise, kind head, very attractive in its trim clipped grayness.

"Methinks the gentleman doth protest too much. Ruth is an unusual girl. I can understand any man being taken by her. I am, in a way, myself. She has distances."

"That's just it," cried Toby. "You have got it in a word. 'Distances.' That's what I felt when I first came across her digging in the garden be-

A NEW HONOR FOR "IMMORTAL" EDISON

"Living immortal" was the term applied to Thomas Alva Edison when, as pictured above, the 83-year-old inventor, left, was awarded an honorary degree of doctor of science by Dr. Hamilton Holt, right, president of Rollins College at Winter Park, Fla. The event was celebrated with a founders' week convention.

fore her little cottage in Kent."

"And now," said Jane, who was concerned about her worrying over Jones' adoration for her."

"It puts the girl into an unhappy position," said Toby, glass in hand. "That's obvious," he mentioned, setting it down after a long, cold draft.

"He's a lovable chap, a pathetic chap. The human being who would hurt Jones willingly would be capable of torturing a child. What's the poor girl to do? I give him the standard wages of a confidential man-servant—he hasn't a bean of his own, of course—and he spends Heaven knows what on presents for Ruth. He bought her lately a shark's tooth necklace at some little Chinese shop in the town, as a memento of the place. The beastly thing either came from the Pacific or from Birmingham. Fancy any educated young Englishwoman wearing a thing like that. How did she get away with it, without hurting his feelings? Well, the first night we were it at dinner. The next day when he asked her to go out walking she wrapped it around her wrist and a few days later she stuck it on to some kind of bag."

"I saw it," exclaimed Lady Jane, "one day when she was going. Most artistic. I wanted to know where she had picked it up—but of course I didn't like to ask. My Lord! How little we know of the folks around us."

"In this case," Toby went on, "Jones was pleased, flattered, gratified; but a girl can't go on cutting her brains all the time as to the means of pleasing, gratifying and flattering a man who is showering gift white elephants all over her. . . You see, my dear Lady Jane, I've got to protest in a way. You catch me walking in the moonlight with your maid. You had a perfect right to be snuffy."

"Oh, Toby, for God's sake, don't say that!" cried Jane on a lovely note of sincerity.

"You were," he laughed. "But now I've explained."

She looked at her watch and rose. We rose too.

"Yes, now you've explained I think you're rather an ass to have let her talk about Jones all the time. Good night, my dears."

She made a swift and commanding exit. He followed her receding figure down the thinned veranda, our mouths agape. We sat down. Toby called the waiter.

"They're all alike, the whole lot of them," said Toby.

"Lot of whom?"

"Women. I did think that Jane Crowe could see things from a man's point of view."

"I'm not so sure that she doesn't," said I.

Toby flamed round on me—the nasty look in his eyes.

"If you think I'm carrying on a vulgar amour with this girl, say so—and I'll clear out of the island by the very next boat."

With the smile and gesture of old authority, I soothed him. I spoke to him like a dozen grandfathers: angles and elder brothers rolled into one. He was a man who had lived a life of unimpeachable honor and integrity. But he was also a young man with the spring-sap of youth in his blood, a very human young animal, for all the cynical disillusion resulting from his trade. And, on the other hand, there was a magnificent female young animal with the spring-sap of youth in her blood working, without any regard to the "distances" and whatever other psychological claims to distinction she might possess.

"You find," said I, "a common ground of interest in Jones. There are limits to one man's interest in another. A long life has taught me this. There's no folly so insensate as that of a man who interferes with another man's pursuit of a woman. Provided, of course—a question which, in this case, doesn't arise—that the interferer doesn't want the woman for himself. Otherwise the man's a fool. He's letting off revolvers in the dark."

Toby grinned and finished his drink.

"Perhaps you're right, sir. I got into the habit of thinking so many years ago."

To turn the conversation I asked him what the girl meant by saying Jones had something on his mind. Toby didn't know. He would try to find out. He had gathered that it lay apart from his apparently unrequited affection for Ruth.

"He has been rather queer the last few days," said Toby. "Ever since the expedition."

"Why should he worry about that?"

Toby puffed at his pipe. "It's as if this rotten treasure hunt is getting on everyone's nerves."

"But Jones knows nothing about it."

"Of course not. Not even Ruth. No one but the six of us."

But Binkie did not appear to be in the violent hurry so much desired. He must, at first, said he, establish his little reputation as a man of science.

"While you're doing that," said Lady Jane, "I'll have time for a leisurely cruise."

(Continued in our next issue)

COUNCIL HELD BUSY SESSION AT EAST ANGUS

Several Important Matters Settled at Regular Session of East Angus Council—New Committees Appointed.

EAST ANGUS, Que., March 15.—At an adjourned meeting of the council held Tuesday evening, March 4th, all the members of the council were present with Mayor Fenner presiding.

The regular monthly accounts were presented and approved for payment.

The following communications were read:

A letter from Col. E. Rioux, advocate, saying there was no account against the town re the Girard case.

Letter from the Road Department at Quebec, saying the paving of the main road in the town was under consideration, as well as taking over the upkeep of the bridge.

Request from the Union of Municipalities urging the council to protest against the bill now being discussed at Quebec, to exempt the poles and works of the electric light and telephone companies from being taxed.

Offers from the Southern Canada Light Co., St. Cyr and Co., and Mr. Baillargeon to supply lamp bulbs to the town.

A resolution was presented to oblige all theatres in the town to close on Sunday and church holidays. Some of the council thought this was too sweeping a motion and it was amended to read to close on Sundays.

The grant to the band was discussed and a monthly grant of \$93 was finally decided upon.

The request for the council to accept the new street lights recently installed at the intersection of the streets, was brought up again while the extra lighting was ap-

proved by all the aldermen, it was thought the monthly lighting account was all the town could afford, and the matter left with the light and road committee to consider.

It was decided that one pool room was sufficient for the present and the requests for other licenses were not considered.

The several committees for 1930 are as follows: Water, police, fire, Aldermen Adam, Montgomery and Beaudoin; roads and light, Aldermen Bilodeau, Aubin, Beaudoin; finance, Aldermen McFadden, Beaudoin, Aubin; poor, Aldermen Aubin, Bilodeau, Adam; health, Aldermen McFadden, Beaudoin, Aubin; poor, Aldermen Aubin, Bilodeau, Adam; health, Aldermen Beaudoin, McFadden, Beaudoin, Aubin; market, Aldermen Beaudoin, McFadden, Adam.

The following valuations were appointed: Messrs. Henry Labonte, David Ashby and Jos. Vallee.

A motion was passed that only the mayor can in the future take legal information in the name of the town, without authorization of the council, and that such information must be given in English and French for the records of the town office.

Notice of motion was given that a resolution will be presented at next meeting of the council re advanced time.

Notice of motion that a by-law will be presented at the next meeting asking for the establishment of a liquor store and granting of grocery licenses.

A motion was presented that the services of Mr. Laramee chief of police, were no longer required and that he be dismissed. For the motion, Aldermen Beaudoin, Bilodeau and Adam; against the motion, Aldermen Aubin, Montgomery, McFadden, the mayor voting for the motion. It was carried.

A motion was passed that Mr. Joseph Menard be engaged to take over the police work at a salary of \$425 per day, 7 days a week, and he is to work in the road department under the superintendent of roads when not engaged in police work.

The meeting then adjourned.

KILLING TIME WITH TALK OF PEACE.

With the Ottawa Government unprepared to go on with the real business of the session, all the "ists" and "isms" are having a grand innings in the House of Commons, while the country listens in at a cost of \$50,000 a day.

The Opposition took the wind out of the Cabinet when they refused to discuss a "Speech from the Throne" which was as meaty as a lemon pie.

Woodsworth, of Winnipeg, Heaps, the other Socialist, Irvine, of Wetaskiwin, and Aggie MacPhail, of Grey County, are having just a glorious time killing time with talk.

Some of their theories are mighty good, others are fantastic, and the Prime Minister takes them seriously enough to have them talk on and on like a babbling brook.

Aggie thinks we ought to endow a chair in every university to teach universal peace, and all the impractical pacifists agree with her.

Premier King objected on the ground that he would not have Howard Ferguson, of Ontario, selecting a professor of peace for Toronto University with money he had granted. He proposed putting framed peace mottoes in every school, high school, university and doll's house in Canada—at "considerable expense," the job to be looked after by the Minister of External Affairs, who is not overly busy looking after the voluminous correspondence from the Japan tea connoisseur at Tokio; or the authority on the length of the lady's new dresses from Paris.

The only sensible suggestion came from Henri Bourassa, who has wisdom, though unpolitic at times in expressing it.

Henri suggested that the League of Nations should enforce the suggestion that before a Nation goes to war, a vote should be taken upon it by all the people of the nation. Which would give them time to cool off, and study the foolishness of war.

But Henri should know that a Labor Union never takes a strike vote until the executive are sure the "bluff" will be carried by a majority. Let us talk peace, teach peace and preach peace. But not while it wars upon the overburdened purse of the patient taxpayer.

Get on with the real business of the country.

WHY THEY LEFT US.

Had you a friend who ceased to be as friendly as before, and who gradually drifted away from you for no reason known to you?

I have been contradictorily advised that the Canadian General Electric Company, now in Peterboro, and once in Sherbrooke, did not leave this city for the reason ascribed by the writer. This Company, with an industry on a par with our own Ingersoll-Rand, now employs 1,500 men, and has invested over \$5,000,000 in its Peterboro plant.

Indirectly the writer was told that he was at fault in stating that it was the Socialistic public ownership ideas that persuaded the General Electric to avault.

The writer was editor of the Peterboro daily newspaper in 1890 and 1891 at that time, and Senator George A. Cox, with the late Frederic Nicholls, engineered and carried out the removal.

To the writer these two gentlemen expressed the reason ascribed. Other causes they may have had in their minds, the chief ones being that Senator Cox sold them the land, and Peterboro was closer to their home city of Toronto. But the chief reason was the municipal unrest on the private or public ownership of power. Capitalists fight shy of the Socialistic theory. They have a horror of its existence in any community.

Admitted that we have done pretty well, thank you, because of our other advantages, there remains this outstanding truth of the timidity of capital in entering any community where there is neither railway nor electric power competition. This is apparent to any student of psychology. To the man without imagination this factor may not be understood.

Nor did the chief men of the General Electric disclose to the City Council of 1890 their full reasons for becoming unfriendly. They made their decision, and they carried out their plans without advising either the then Board of Trade or the City Council of that time.

This the writer knows best, because he was one of the reception committee at the other end of the transfer.

WHO IS OUR VERY OLDEST OUT-OF-TOWN SUBSCRIBER?

With fifty thousand friends in the Eastern Townships, of whom nine one-half live in the towns and villages adjacent, a discussion arose as to our oldest subscriber outside the City of Sherbrooke.

Mr. Fuller, of South Bolton, claims twenty-seven years of consecutive reading, and we should be delighted to hear from any of our valued readers who can ante-date his splendid record.

The editor left the city yesterday for a hurried journey to attend a birthday party of a Toronto patriarch who has reached his ninety-first birthday, and who proudly claims that he has been a subscriber of the Toronto Globe for seventy-one years, never having missed an issue in all that time. This is surely a record which the Toronto paper can boast of, for 'tis a record

of loyalty seldom, and perhaps never before attained by any published in Canada.

EDITOR'S NOTE BOOK.

Members of Parliament, who sought to interest the Government in an expenditure on a transcontinental motor highway, had their views smartly combatted. They lacked the suavity of Sir Henry, who can hypnotize the Government members into further capital expenditure at any time and to any place. One member, urging the Government to be practical, pointed to the expenditure of over \$5,000,000 in the City of Ottawa, where hotels, theatres, stores, office buildings, City Halls, and Post Offices were to be razed to the ground to make way for a bare plaza as a vista for the C. N. R. hotel. Again, my dear Sir Henry!

Much correspondence which we have received we do not care to print, and therefore do not. When a correspondent oversteps the bounds of courtesy in debate the editor declares him out of bounds. It is not "cricket" to ascribe motives which do not exist nor to contradict without proof, nor yet to be insulting and abusive. It is unsportsmanlike to attack under a non de plume. The members of the staff of the Record appear at the flagpole of this page, and they assume responsibility for their own utterances, and are held responsible for any letters bearing assumed names. We cheerfully shoulder the blame, and as quickly as can be done correct any errors which may creep in during the daily rush to the hour of going to press. We try to play the game, without rancour or personal affront.

With saving deposits of about a billion-and-a-half dollars in the eleven chartered banks of Canada, the thought occurs to the poor editor that he ought to be able to borrow forty-seven cents from George Ewing, of the Bank of Commerce, as soon as the March subscribers all renew. The Daily Record circulation has already advanced by over 400 this year, and our aim is to get three thousand more readers in 1930.

Henry George was a single-tax advocate, but if Henry were alive now he would find in every province in Canada about twenty-nine different varieties of known taxes, and about as many more hidden taxes. The talkative little Englishman with his half-baked theories was the first advocate of Socialism, which in Russia they call Bolshevism.

Yours truly, A. W. BISHOP.

EVENING CHIRPINGS

The alimony-paying American isn't the only one. In the Balkans a cow is worked to the plow when she goes dry.

Wine, women and song are with us yet, but now they are young and raw.

How pleasant marriage would be if our own age and fat would reconcile us to age and fat in others.

There are just three seasons for most of us—summer, fall and bad cold.

There was more horse sense on the highway in the old days, but the horse had it.

The law can be enforced, all right. You never saw anybody kick a bulldog.

A college degree is much like a medal of honor. The value of the medal depends on where you got it.

You can tell when a man has been in business ten years. He no longer uses the restaurant table cloth as a slate.

There's nothing new. The jazz age seems new because old-timers didn't act that way except on an indoor drunk.

Correct this sentence: "Even on rainy days when my husband is hateful," said she, "I never day-dream about my old sweetheart."

AT THE BREAKFAST TABLE.

We are told that breakfast should be eaten in silence, and it generally is if each member of the family can secure a part of the newspaper.

GOLDEN SILENCE.

Isn't wireless wonderful? Think of the jazz bands, the sopranos, the bedtime stories, the speeches, the poetry, and the thousand and one things you can silence with one little turn of a dial.

POOR CONSOLATION.

A Toronto jury, after investigating the case of a man who died under an anaesthetic, decided that no one was to blame for his death, the evidence being that he would have died anyway. Such a verdict is poor consolation to the relatives of the dead man. The physicians in charge should have known whether he was a fit subject for an anaesthetic before it was given to him.

FRENCH-CANADIANS AND THE EMPIRE.

It is because French-Canadians see that the Commonwealth of Nations, as it is at present constituted, allows them more than ever the privilege of remaining French-Canadians, while they are doing their share in the total of Imperial co-operation, that they want to see our Dominion retain its British character, and it is for this reason also that they remain faithful to the Mother Country as they have always been. Our interests are bound together with a permanent bond; by defending the British tie we are protecting ourselves efficaciously against all attempts to undermine our national integrity.

LETTERS TO THE EDITOR

CANADIAN WHEAT AND THE PULPWOOD EMBARGO

To The Editor.

An outstanding example of the all importance of market in the successful prosecution of any business is found in the present difficulties of the Canadian wheat owners. Despite the power of the great wheat organizations supported by the Canadian Banks they have not been able to force wheat on the market at the upset price. The old and generally acknowledged law of supply and demand has stood in the way. These wheat owners should not be blamed for holding out for a fair price; it is to be hoped they will ultimately get it. My point is merely that price fixing of commodities cannot be successful in defiance of economic law.

Some among us are unwilling to accept this, however, and we have recurring proposals for Government to legislate for this and that form of control. Just now notice is given by a member of the Federal House that he will submit a resolution favoring embargo on pulpwood with a proviso that settlers' interests must be protected and a fair remuneration secured for their pulpwood. Presumably the Government would fix a price which the Domestic paper mills would be required to pay to settlers and farmers in closed domestic market when embargo shall have removed all outside competition.

This wood now enjoys access to the markets of the world. Its price is on the average less than the cost of wood made from Crown areas leased by the mills: there is no just reason why the Canadian mills do not buy it in the open market. Thus only can the wood owners get a fair deal. Government can correct matters more equitably by compelling the lessees of their timber to cut less and buy more in the open market, rather than by encroaching on the rights of private property by restraining owners from selling in the best market, creating hardship for them, loss of employment for operatives, diminishing the business of the country as a whole, and leaving a large group of citizens with a feeling that they have been unjustly dealt with. As to the notion that price-fixing will overcome this handicap—experience is all against it. Let us hope that Parliament will do so.

Yours truly, A. W. BISHOP.

PRODUCTION OF MINERALS HIGH IN PAST YEAR

Value of Quebec Minerals for Year \$44,814,021, an increase of \$7,488,734 Over 1928.

The production of mines and quarries of the Province of Quebec during the year 1929 reached a new high record value of \$44,814,021, which is an increase of \$7,488,734 over the previous high figure of \$37,325,287 in 1928. In 1928 Quebec reached the third place as a mineral producer among the Canadian provinces and easily maintained the place in 1929. It is now exceeded only by Ontario and British Columbia. Asbestos was in first place regarding value production. In 1929 there was an output of 2,067,055 tons, with a value of \$13,172,581, as against a production value of \$11,283,361 in 1928. Copper ore was second, with a value of \$10,019,901, as against \$4,909,792 in 1928.

During the first eight months of the year mining in Canada was very active, the demand for mineral products being excellent and prices satisfactory. In the last quarter, however, consumption fell off appreciably, and while there was improvement in demand toward the end of December, it remains to be seen whether this amelioration will continue.

Quebec Province shared fully in the prosperity of the mining industry in Canada during the first part of the year and its review, and has not been unduly affected by the slight reaction of the last three months. The mineral production has steadily risen from \$10,000,000 in 1924 to \$44,814,021 in 1929, and is expected to show annual progress.

W. G. MITCHELL AS CANDIDATE FOR MAYORALTY

Former Provincial Treasurer Mentioned With That of Hon. David and Judge Monet as Possible Candidates in Coming Municipal Elections in Montreal.

MONTREAL, March 15.—Dame Rumor is busy again suggesting names of candidates for the Montreal mayoralty campaign, the latest suggestion being that of Hon. Walter G. Mitchell, K.C., former Provincial Treasurer of Quebec and former member of Parliament. Voting takes place on April 7th.

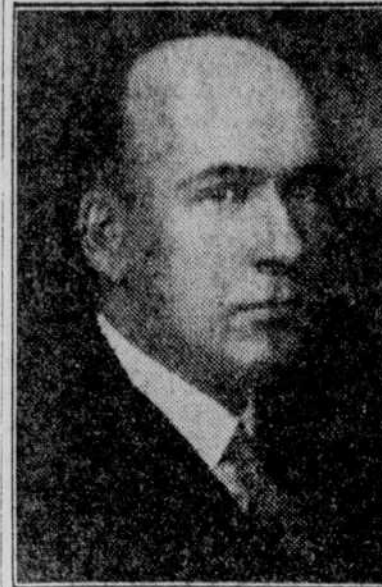

Other names mentioned recently as possible candidates have been Hon. Athanas David, Provincial Secretary, and Judge Amodeo Monet.

The only candidates actually in the field are Mayor Camille Houde and Alderman Joseph Mercure.

USEFUL AFTER EATING GRAPEFRUIT

Texas paper—Mrs. King, located at 2008 Main, has first-class table board, with or without private bath.

Moves to Montreal

J. S. MCGOWAN

The appointment of J. S. McGowan as Assistant Director of Colonization and Agriculture, Canadian National Railways, with headquarters at Montreal, is announced by Dr. W. J. Black, Director of the Departments of Colonization, Agriculture and Natural Resources. Mr. McGowan has been Western Manager of Colonization and Agriculture, at Winnipeg, for the past two and a half years. Coming to Canada from Ireland to engage in farming, Mr. McGowan, after his war service, took a course in agriculture at the Manitoba Agricultural College, and was later stationed in London, Eng., in connection with the Correspondence Course in Canadian farming methods prepared by the National System for use by intending settlers from Britain.

FIRE CAUSED HEAVY LOSS AT EVERETT, MASS.

Seven Buildings, Three and Four Storey Wooden Structures, Were Burned With Contents and Equipment—Several Firemen Overcome by Smoke and Sulphurous Fumes.

EVERETT, Mass., March 15.—Fire destroyed the Merrimac Chemical Company plant, at South Everett, with a loss of \$500,000. Firemen from eight cities fought the flames, with frequent explosions and flames endangering their lives.

Seven buildings, three and four storey wooden structures, were burned with their contents and equipment. Chief Philip Ham, veteran Chief of the Everett Fire Department, and Chief Sennott, of the Boston Department, and five other men were overcome and one hundred firemen were affected by the sulphurous fumes.

Borne on a stiff wind, the smoke and fumes were carried toward the heart of the city and three hundred families were roused by police and volunteer workers to leave their tenements. Flaming brands spread over a wide area, starting small fires on several buildings and in the oil-soaked marsh behind the oil company's plant.

The fire started in the Lacquer building of the plant. Aid was summoned from Boston, Melrose, Malden, Chelsea, Revere, Medford, Somerville and Winthrop. A fire boat fought the flames from the river side of the plant.

BILL COMPELS DEPOSIT BY LEGISLATURE CANDIDATES

Premier Ferguson Introduces Legislation Asking for Guarantee of Good Faith from Political Aspirants.

TORONTO, March 15.—Premier G.H. Ferguson introduced a bill in the Legislature recently which would compel all candidates in provincial elections to post deposits. The terms would be practically the same as the Federal legislation.

The deposit would be \$200, and would be returned to the candidate if he were successful or if he secured one-half as many votes as the candidate elected.

The bill also included an amendment to the Election Act, which would bar from voting any person whose name does not appear on the voters' list on the day of the election.

Hon. W. H. Price, Attorney General, introduced an amendment to the Insurance Act which would include practically all the recommendations concerning automobile insurance contained in the report of Mr. Justice Hodgins, tabled a few days ago.

IMPAIRED VISION

"Mike, how did the accident happen?"

"Mike—Well, boss, ye see 'twas like this: I was drivin' me truck up Wellington street when I had to stop suddenly, and a fellow in a big Packard car crashed in the rear of me truck. Sure, it didn't hurt his machine very much, but he jumped off, ran up to me and, a'shakin' his phist, said: 'Hey, you little Harp why didn't you put out your hand?' 'Put out me hand,' said I. 'Ye dang fool, if ye couldn't see the truck, how the devil could you see me hand?'"

SLIGHT FALLING OFF IN CANADA FUR PRODUCTION

Value for Twelve Months Ended June 30, 1929, Totalled \$18,054,429, Compared With \$18,758,177 in Preceding Season.

OTTAWA, Ont., March 15.—The raw fur production of Canada for the twelve months ended June 30, 1929, had a total value of \$18,054,429 compared with \$18,758,177 in the preceding season. These figures represent the value of pelts of fur-bearing animals taken by trappers and those of ranch-bred animals. Muskrat leads with a total of 2,685,197 pelts, valued at \$3,789,890 and silver fox following with 25,704 pelts, valued at \$2,681,924. Mink is third with 77,309 pelts valued at \$1,809,370 and beaver fourth with a total of 54,338 pelts, valued at \$1,451,573. Figures were made available at the Dominion Bureau of Statistics.

"—with all his worldly goods"

HERE, in this old strong-box, so long guarded and locked, is his "estate" . . . the "worldly goods" which he has bequeathed to her.

One by one her adviser takes out the temptingly engraved certificates and examines them. One by one he lays them down with a sorrowful shake of the head—

Slowly the truth dawns upon her. Those wonderful purchases that were to make them rich . . . independent. These speculations that were to lead them

to fortune . . . many of them now are WORTHLESS!

But at the bottom of the box there lies an unpretentious document, which suddenly she recollects. It cannot have depreciated. It must still be safe and sure . . .

She reaches in and draws forth his Life Insurance Policy.

Amid the wreckage of thousands of estates, Life Insurance stands as the final and enduring refuge in time of need.

It is the *one* investment no man can afford to be without.

The Love That Never Dies

BIRTHDAY OF BEEBE WOMAN REMEMBERED

Presentation Made to Old Member of Beebe Missionary Society—Personal Items from Beebe.

BEEBE, Que., March 15.—Friday, February 28th, the Ladies' Aid of Wesley Church met at the Parsonage, where they were pleasantly entertained by Mrs. Adey.

There was a good attendance and a delightful and unusual feature of the meeting was the celebration of the eighty-sixth birthday of a remarkable old lady, Mrs. Emma Moir, who is such an active worker for the benefit of the church.

Her hand-made rugs and other useful articles have such a high reputation that they always bring high prices and add much to the success of the annual bazaar sale.

At this meeting a beautiful birthday cake, made by Mrs. H. S. Beane, president of the society, was presented to Mrs. Moir along with a copy of Edgar Guest's poems and these original lines by an old friend.

We've looked the folks all over For the old sport in town And found her down on Junction street.

Where she's won a great renown As the neatest, slickest worker In all this country town For making rugs and mittens, Not a stitch is out of line, So the work that she turns out Is just always very fine.

After wishing Mrs. Moir many more years of health and happiness the meeting was adjourned by singing "Should Old Acquaintance Be Forgotten."

The first sewing party sponsored by the physical department will be held on Monday afternoon next at two o'clock. The object of the meeting is the making of costumes for the demonstration which will be held on April 10th and 11th. All are welcome.

this cereal TALKS!

It's so crisp it pops and crackles when you pour on milk or cream. And what a flavor! Crunchy rice grains—tasted golden brown.

Rice Krispies are fine for any meal. Give them to the children for supper. Easy to digest. Order a red-and-green package from your grocer. Try the recipes for macaroons, etc. Made by Kellogg in London, Ontario.

QUEBEC MAN IS REMANDED TO STAND TRIAL

Man Giving Name of Albert Letour Charged With Stealing Watch from Patron of Canadian National Railways Last Week.

A man giving his name as Albert Letour and address as Quebec City was remanded for trial at the next session of the Court of King's Bench to answer to a theft charge by Judge J. H. Lemay at the conclusion of the enquete in the Magistrate's Court yesterday afternoon.

According to the evidence submitted, Letour was sitting next to a patron of the Canadian National Railways at the local station last week when the man discovered that several personal articles, including a valuable gold watch, were missing. Constable Emile Brosseau, of the Railway police force, was notified, and Letour's arrest followed. When searched by the constable, a watch which the patron claims was his, was discovered on Letour's person.

CITY BRIEFLETS

Floors sanded and refinished. Phone 1305-J. Davey & Marchand.

PARENTS PAID VISIT TO "Y"
Last night the juniors, with their parents as pleased spectators, put on their programme of class work at the Y.M.C.A. gym. In this it was shown just what is being done in the building up of stronger minds and healthier bodies.

S. A. MEMORIAL SERVICE TOMORROW
A memorial service for the late Miss Grace Bell, daughter of Mr. and Mrs. H. E. Bell, will be held in the Salvation Army Citadel, Wellington Street South, tomorrow night with Captain Lorimer officiating. Appropriate music by the band and Sunday School will feature the service.

SUNDAY EVENING SONG SERVICE
Tomorrow evening the united song service held under the auspices of the Y.M.C.A. and Y.W.C.A. will be held after church in the Y.M.C.A. when it is expected that Messrs. Watson will assist in the programme. To this gathering all young people are specially invited and others will be welcome.

Y.M.C.A. BOARD OF DIRECTORS' MEETING
The regular monthly meeting of the Board of Directors of the Sherbrooke Young Men's Christian Association, which had to be postponed last Tuesday, is to be held on Tuesday evening, March 18th, at eight o'clock, to receive reports and make arrangements for the financial campaign which is to open on April 10th.

BOXING AND WRESTLING TOURNAMENT AT THE "Y"
Tonight the juniors in the Y.M.C.A. boxing class will put on quite a heavy programme of boxing and wrestling when ten bouts will be carried through. On the programme also is an exhibition bout when Mr. R. K. Bowdree recently from New York and an enthusiastic boxer, will meet E. Sarasin, of Waterville.

GAVE ADDRESS ON "PLAYING THE GAME"
"Playing the Game" was the appropriate subject selected by Mr. G. D. Wadsworth when he addressed the Hi-Y Club last night. During the address the speaker pointed out some of the changes that have taken place in living conditions, but stated that living conditions had little to do with the playing of the game in life. Underneath the conditions were basic principles, which had to be carried through in every instance if one is going to be a success.

WOMAN SPRAINS ANKLE
The slippery condition of the sidewalks, caused by the severe cold wave following the recent prolonged thaw, was the cause of a slight accident at the corner of Sanborn and Wellington Streets last evening. About eight o'clock Mrs. Samuel Claude, residing at 96 Pall Street, was coming down Sanborn Street hill, when she slipped and fell. A passing taxi driver picked her up and removed her to her home. Enquiries by the police this morning indicate that she is suffering from a badly sprained ankle.

THREE CHIMNEY FIRES IN TWENTY-FOUR HOURS
Three chimney fires, none of which caused any serious damage, required the attention of the fire department during the past twenty-four hours. The first call was received at 2:15 o'clock yesterday afternoon from 12-12 St. Gabriel Street in a house owned by Nicholas Zakab and occupied by tenants. The second broke out at 7:15 a.m. today in the property of the Arcadia Knitting Mills on Frontenac Street, while the third was an hour later at the residence of Mr. J. E. Trepanier, Montreal Road, just outside the city limits.

LENNOXVILLE

There will be no Sabbath school in the United Church until further notice.

CARDINAL MISTRANGELO SERIOUSLY ILL
FLORENCE, Italy, March 15.—Cardinal Archbishop Mistrangelo is seriously ill with bronchial pneumonia.

Social and Personal

Miss Shirley Berwick, Brompton Road, spent a few days in the city the guest of Mr. and Mrs. Henry Hall.

Mr. Elgin Decoteau, Brompton Road, spent the week-end in Sherbrooke with his brother, Mr. Russell Decoteau, and Mrs. Decoteau, Meadow street.

The many friends of Mrs. Nowell Bishop, of Bishop's Crossing, will regret to hear that she is a patient in the Sherbrooke Hospital, where she recently underwent an operation.

The many friends of Miss Ruth Harrison, London street, will be pleased to hear that she is improving after her serious illness, although she is still confined to her room.

The C.G.I.T. of Plymouth United Church met last evening in the church hall. Business meetings were held by the Dakonya and Everona groups, who afterwards united for the devotional period. Games were played and the evening closed with "Taps."

The Sherbrooke Ladies' Curling Club will hold their closing tea for this season on Tuesday afternoon, March 18th. A bridge party has been arranged in conjunction with the tea, and friends of the club wish to arrange a table for the afternoon will be most welcome. The hostesses will be Mrs. K. B. Jencks, Mrs. T. McKenzie and Mrs. J. Stein.

Mrs. Gordon Miller entertained informally at bridge yesterday afternoon at her home on Magog street. Bridge was played at three tables, the prizes being won by Mrs. P. M. Robins, Mrs. Augustus Wood and Miss Mary White. At the tea hour pink roses with candles to match were effectively used on the tea table.

Mrs. W. S. Fry, who has been a guest of Mr. Justice and Mrs. C. D. White, Victoria Street, for the past few weeks, left yesterday for Montreal, where she will spend the week-end. From there she will go to Kingston, where she will be guest of her sister, Mrs. H. A. Tofted, and Mrs. H. Duff, for a few days. On her return trip to her home in Kelowna, B.C., Mrs. Fry will stop off at Edmonton, Alta., for a day or so.

A meeting of St. Paul's A.Y.P.A. was held in the church hall on Thursday evening with an attendance of ten members. The meeting, which was in charge of the president, Mr. B. J. Thorne, was opened with a hymn and prayers, followed by the reading and confirming of the minutes of the previous meeting. Miss L. Smith, on behalf of the entertainment committee, requested that all those desiring to take part in one-act play to be presented by St. Paul's A.Y.P.A. in the inter-club dramatic contest hand in their names to her by the end of this week. A few other items of business were discussed, after which the roll was called and the meeting was closed with prayer. Miss L. Smith then read a very interesting paper, the subject being the Knowlton Conference held last July. A vote of thanks was rendered to Mr. Smith after which the members enjoyed a social hour. At the close of the evening refreshments were served. The next meeting will be held on March 27th. The answer to the roll call will be "My Favorite Author and the Title of One of His Books."

A very delightful musicale and tea was given in honor of St. Patrick in St. Andrew's Church hall yesterday afternoon under the auspices of the Ladies' Aid. The many guests were received by Mrs. J. Gordon and Mrs. Lewis Dunmore. The hall was charmingly arranged and the entire decorations were carried out in honor of St. Patrick, even the foot table, laden with home made bread, cakes, jam, etc., being centered with green and gaily trimmed with cuttings in the rocks. This department was in charge of Mrs. C. Ross, Mrs. M. MacKay and Mrs. W. Duncan, and at the close of the afternoon they were sold out. The informal musical programme was very enjoyable. Two pretty songs were rendered by Miss Beatrice Lawrence, "Sleepy Hollow Tune" and "Mother Macree," accompanied by Mrs. Cross; two piano duets were brilliantly played by Mrs. W. G. Cross and Mrs. J. Rosenbloom, "March, from the Hungarian Rhapsody" and "The Doll Dance," while Mrs. P. D. Mathias was heard with pleasure in two lovely songs "I Hid My Love" and "Songs My Mother Taught Me." Later in the afternoon Mrs. Mathias sang again, her last selection being "Someday in My Dreams," and her accompaniments were beautifully played by Mrs. Rosenbloom. Mr. Ernest Armitage very kindly sang two songs during the tea hour. The selections were a happy choice, the first song being "I Listened For You" and the second "Tommy Lad," the latter, a quaint little song and well rendered. Mrs. Diplock was the accompanist for Mr. Armitage, and his numbers were very heartily applauded. Mrs. Arthur Edwards, on behalf of the Ladies' Aid, extended a cordial vote of thanks to all who took part in the musical programme and helped so much to make the St. Patrick's tea party such a splendid success. Mrs. P. P. Houlahan, Mrs. A. C. Bissell and Mrs. Hammond were the hostesses at the tea hour, and Mrs. Arthur Edwards and Mrs. Hill. Ross presided at the pretty tea table, which was daintily arranged with green flowers in a silver basket and tall green tapers in silver holders. The assistants were white uniforms with cute little caps and aprons trimmed with green. They were Mrs. Norton, the Misses M. Robins, B. McKee and M. Johnston. The small tables were also done in green and white, completing the color scheme in a very effective manner. The receipts were very satisfactory. Mrs. Cleveland acted as cashier.

FRENCH PREMIER ON WAY TO LONDON
PARIS, March 15.—Premier Tardieu left for London Naval Conference this afternoon. He declined to make any comment before leaving. He will arrive in London this evening.

Others who spoke on the measure were: W. Irvine (U.F.A., Wetaskiwin), C. G. Power (Liberal, Quebec South), J. L. Brown (Liberal, Progressive, Lisgar), and John Evans (Progressive, Rosetown).

PRINCE CAROL AND MME. LUPESCO HAVE SEPARATED

Unconfirmed Reports from Bucharest Tell of Parting of Rumanian Prince from Woman of His Choice.

BUCHAREST, Rumania, March 15.—Reports emanating from alleged reliable sources today said Prince Carol, father of the infant King Michael, has separated from Madame Helene Lupescu, Rumanian woman for whom he renounced his rights to the throne of his country.

MEMBERSHIP OF LOCAL LIBRARY IS INCREASING

More Interest Being Shown in Sherbrooke Library—February Proved to Be Record Month, With 2,035 Books Taken Out—Sixty New Books Put into Circulation.

The increasing interest being shown by the people of Sherbrooke and district at the present time in the Sherbrooke Library is evinced by the substantial increase in books taken out by subscribers during the past few months. The month of February, although the shortest in the year, proved to be outstanding in the history of the Library, 2,035 books being taken out during the four weeks' period as compared to the 1,571 books borrowed during the same period of 1929. This month, it is estimated, at least 2,200 books will be borrowed, an increase of over four hundred over March, 1929.

Some sixty new books, including fiction, non-fiction and juvenile works, were recently put into circulation, a list of which follows: Fiction, £1,000,000 Deposit, (E. P. Oppenheim); Our Yesterdays, (H. M. Tomlinson); Exiles, (Warwick Deering); A House Is Built, (M. B. Eldershaw); The Seven Days' Secret, (J. S. Fletcher); Murder on the Palisades, (Will Levis); Giving the Bride Away, (Margot Neville); The Dusty Highway, (Christine Parmenter); They Tell No Tales, (Lee Thayer); The Manning-Burke Murder, (Louis Tracy); Pamela's Spring Song, (Cecil Roberts); Through the Eyes of the Judge, (Bruce Gramme); The Bookshop Mystery, (James Childers); The W. Plan, (Graham Seton); Freckles Comes Home, (Jeanette Stratton-Porter); Courts of the Morning, (John Buchan); The Hunchback, (John Maschfield); The Hidden City, (Philip Gibbs); The Man who Pretended, (W. B. Maxwell); Gather the Stars, (Diane Patrick); Pursuit of a Dream, (Sophie Cole); To Love and to Cherish, (Constance Sweetnam); Hudson River Bracketed, (Edith Maude Eaton); Temple Tower, ("Supper"); Isle of Illusion, (George Gibbs); and Another Day, (Jeffery Farnell).

Non-fiction: Isles of Romance, (George Allan England); Winged Sandals, (Lucien Price); The Magic of Morocco, (Eleanor Blinn); East of Siam, (Harry Frank); Escapes, (Francisco Nitli); Sicily, (P. H. Jackson); Wm. Kirby, (Lorne Pierce); More Heroes of Modern Adventure, (Bridges and Tiltman); Town Hall Tonight, (Walter Meade); The Trial of the Broad Highway, (M. Pellerin and B. W. Price); Old Indian Trails of Canadian Rockies, (Mary Schaffer); Memories that Live, (S. Morcan-Powell); These be your Gods, (Leslie Roberts); New Worlds to Conquer, (Eleanor Blinn); July '14, (Emil Ludwig); The Lawrence Navigation and Power Project, (Moulton, Morgan and Lee); In Search of Scotland, (H. V. Morton); Peaks of Hazard, (Sir Michael Bruce); and H. R. H. The Prince of Wales, (W. A. L. Townsend).

Juvenile: Glenna, (Josephine Lawrence); Kidnapped by Air, (Dillon Wallace); Bob North with Dog Team and Indians, (Robert C. North); Featherland, (Etta C. Garson); A Boy Scout in the Grizzly Country, (Dick Douglas); Grantham Gets On, (R. H. Barbour); Boy Scouts' Jamboree, (J. E. West); The Rigor of the Game, (Arthur S. Pier); Jerry Hicks and his Gang, (Wm. Heyliger); Lost at the South Pole, (F. W. Dixon); Camp Ken-Jockey, (Etta L. H. Bennett); and Rex Lee's Mysterious Flight, (T. Burris).

Juvenile: Glenna, (Josephine Lawrence); Kidnapped by Air, (Dillon Wallace); Bob North with Dog Team and Indians, (Robert C. North); Featherland, (Etta C. Garson); A Boy Scout in the Grizzly Country, (Dick Douglas); Grantham Gets On, (R. H. Barbour); Boy Scouts' Jamboree, (J. E. West); The Rigor of the Game, (Arthur S. Pier); Jerry Hicks and his Gang, (Wm. Heyliger); Lost at the South Pole, (F. W. Dixon); Camp Ken-Jockey, (Etta L. H. Bennett); and Rex Lee's Mysterious Flight, (T. Burris).

NO PRESSURE

(Continued from Page One.)
the permits issued for shipping liquor to the United States, were to see that liquor was not "short circuited" back to the United States. "We all know," said the Prime Minister, "that liquor cannot be legally imported into the United States, that it can only get into that country through the agency of rum-runners, bootleggers and criminal gangs who make their living out of violating the laws of a country," and, in effect, the present situation was that Canadian officers were virtually the necessary link between brewers and distillers in this country on the one hand, and rum-runners and bootleggers desiring to get the liquor into the United States. "That is a situation," he declared, "which I think the people of Canada would not tolerate for a single day."

Mr. Bennett referred at length to the report of the Royal Commission, named by the present government, to continue the customs inquiry inaugurated by the special committee of the House and read the words of "Rat Fund" used in evidence before that commission by a Liberal supporter. He intimated that this "Rat Fund" helped the Liberals to get re-elected in 1926. "This country," said Mr. Bennett, "is getting weary of the Prime Minister's high moral indignation about continuance of international difficulties and this smuggling business."

Replying to a statement made by the Prime Minister Mr. Bennett said that the 1924 treaty between Britain and the United States and approved by Canada expressly provided for the "suppression of smuggling," and he pointed out that, instead, the Government through the nature of the regulations issued by the Department of National Revenue, in pursuance of that treaty, was assisting bootleggers to get liquor into the United States by enabling the bootleggers to get the liquor out of bond.

Others who spoke on the measure were: W. Irvine (U.F.A., Wetaskiwin), C. G. Power (Liberal, Quebec South), J. L. Brown (Liberal, Progressive, Lisgar), and John Evans (Progressive, Rosetown).

PRINCE CAROL AND MME. LUPESCO HAVE SEPARATED

Unconfirmed Reports from Bucharest Tell of Parting of Rumanian Prince from Woman of His Choice.

BUCHAREST, Rumania, March 15.—Reports emanating from alleged reliable sources today said Prince Carol, father of the infant King Michael, has separated from Madame Helene Lupescu, Rumanian woman for whom he renounced his rights to the throne of his country.

FAVOR PLAN FOR TUNNEL FROM ENGLAND TO FRANCE

Nothing Against Project Seen by Committee, Providing Pilot Tunnel Successfully Constructed

LONDON, March 15.—Committees studying the project for an English channel tunnel to connect England and France made public a report yesterday saying that they could see nothing against the feasibility of such a project.

They added, however, that no definite opinion could be given until the ground was proved by construction of a pilot tunnel.

If that was successfully constructed, they held, the practicability of constructing traffic tunnels may be regarded as established.

The committee considers that a tunnel could be built, maintained and operated by private enterprise at a cost which would permit traffic being conveyed at rates not higher than those now in force on the short cross-channel route.

The respective cost of pilot and traffic tunnels would be £5,000,000 and £25,000,000.

SOVIET ORDERS CENSUS BEFORE CHURCH CLOSURES

Central Committee of Communist Party Issues Sweeping Orders Against Forcible Closing of Churches Without Consent of Majority.

MOSCOW, March 15.—The Central Committee of the Communist Party, which formulates the policies of the Russian Government, today issued sweeping orders against the forcible closing of churches, mosques or synagogues, without the consent of the overwhelming majority of the population in each case, and the formal sanction of the Central authorities.

Village officials or party workers found guilty of jeering or deriding the peasants for their religious beliefs will be severely punished.

Condemning recent wholesale closing of markets, bazaars and stores, the Committee ordered that all such places be immediately reopened. Peasants, including members of the collective farms set up by the state, are in no way to be prevented from freely selling their products in open market.

Village officials are forbidden under pain of severe punishment to use force in recruiting peasants for the collective farms. Those who err in this aspect will be dismissed from their posts.

The Commission also forbids the confiscation or socialization of dwellings, cattle and poultry belonging to peasants who become members of collective farms. Such actions, it says, discredit the whole collective farm movement and frequently result in the abandonment of the farms by the peasants.

RECORD TROPHY PLAY RESUMED LAST EVENING

Semi-Finals Will Be Played This Afternoon and Finals Tonight—Close Contests Feature of Bonspiel.

Favored with excellent weather conditions, the postponed event in the Sherbrooke Curling Club annual bonspiel got underway yesterday afternoon, when the first match in the Mitchell Cup competition was played, a rink skipped by Mr. A. H. Foss defeating Mr. W. E. Loomis by a count of eleven to nine. These two rinks were tied at the end of the regulation twelve ends and an extra end, which netted Mr. Foss two points, had to be played.

In the Sherbrooke Record Trophy play last night close games were again the rule, two of the three encounters being decided on the last end. J. P. Watson's quartette nosed out A. H. Cross' rink by a count of eleven to nine, while P. N. Boucher's rink had an even more difficult task disposing of J. W. McKee's team, only obtaining an advantage of one point. R. J. Balfour's Lennoxville rink took the lead from R. G. Costley's Sherbrooke quartette early in the play and slowly increased their majority as the game progressed, winning by a count of eight to five. This was an evenly fought battle, however, only thirteen stones counting on twelve ends.

This afternoon the semi-finals in the Record Trophy will take place, with the finals this evening. The remaining fixtures in the Mitchell Cup contest also will take place during the course of the afternoon and evening.

The results of the games played yesterday follow:

Record Trophy.

THEFT OF MINES HERE ON MONDAY

If the present cold snap continues, two rinks from the Theft of Mines Club will take place on Monday night in an attempt to capture the Southern Canada Cup, the blue ribbon challenge event in Eastern Townships curling.

The miners expected to pay a visit here this afternoon, but circumstances compelled an alteration in the plans late yesterday.

SUPPER AT CURLING CLUB THIS EVENING

A supper will be served at the Sherbrooke Curling Club this evening on the occasion of the annual club bonspiel.

BOXING

DEVOS AWARDED DECISION
CHICAGO, March 15.—Rene Devos, Belgian middleweight, was awarded decision over Clyde Chastain, blond youth from Dallas, Texas, at the end of their ten round battle in the Chicago Stadium last night.

DEMPSEY PLANS TO GO INTO TRAINING

DETROIT, Mich., March 15.—Jack Dempsey said here last night that he intends to go into training as soon as he completes the theatrical tour in which he is engaged at present. "If I find that I can get into proper condition," said the former heavyweight champion, "I will be ready to meet the outstanding claimant of the title."

Physical conditions rather than financial consideration will determine his future course, Dempsey asserted.

The trouble with the heavyweight situation at present, Dempsey believes, is that there are too many logical contenders and not sufficient elimination to produce a champion.

He outlined what he considers the proper way of arriving at a title claimant. Tuffy Griffith should be matched with Otto Von Porat, he said, the winner to meet the survivor of the Jack Sharkey-Max Baerling bout. "The ultimate survivor should be matched with Carnera, provided he survives a real test," continued Dempsey, "and then I might stage my comeback with the title at stake."

RESULTS OF BOUTS LAST NIGHT

Fights last night resulted as follows:

Chicago—Rene Devos, Belgium, outpointed Clyde Chastain, Dallas, Texas, 10 rounds; Harry Dublin, Chicago, outpointed Emory Cabana, Philadelphia, eight rounds; Vidal Gregorio, Spain, outpointed Frankie Florio, Chicago, 3 rounds; Frankie Hayes, Philadelphia, outpointed Jimmy Lundy, Los Angeles, 6 rounds.

New York—Tony Canzoneri, New York, outpointed Stanislaus Loayza, Chile, 10 rounds; Sammy Dorfman, New York, outpointed Jackie Pilkington, New York, 10 rounds; Vincent Serrit, New York, outpointed Charlie Rosa, New York, 10 rounds; Buffalo—Tommy Paul, Buffalo, and Al Brown, Panama, draw, 6 rounds.

Sioux City, Ia.—Haskell Lee, Omaha, knocked out Billy Jackson, Sioux City, 1 round.

Hot Springs, Ark.—Kid Adams, San Antonio, outpointed Mickey Gill, Chicago, 10 rounds.

Akron, O.—Gorilla Jones, Akron, stopped Meyer Grace, Chicago, 4 rounds; Al Nesser, Akron, knocked out Rough Rits, Wheeling, Va., 1 round; Frankie Kitz, Akron, stopped Jack Roberts, Pontiac, Mich., 3 rounds.

Hollywood, Calif.—Vigo Doman, Los Angeles, knocked out Tony Fuente, Hollywood, 2 rounds.

Denver, Colo.—Joe Marcus, Portland, Ore., outpointed Micky Cohen, Denver, 10 rounds.

SONNENBURG KNOCKED OUT DEVITO

TORONTO, March 15.—Gus Sonnenberg, Boston, world's heavyweight wrestling champion, knocked out Joe Devito, Italian champion, in the main bout of a wrestling card here last night. The knockout came about when Sonnenberg crashed the Italian to the canvas with a backward slam, shortly after Devito had climbed back into the ring after being hurled out by the Boston grappler.

BUT EIGHT MORE N.H.L. MATCHES ON SCHEDULE

Four Contests Will Be Played Over Week-End—Ottawa Has Chance to Overtake Canadiens for Second Place.

NEW YORK, March 15.—Eight games remain on the National Hockey League schedule before the annual Stanley Cup play-offs, but only two or three of them can have any bearing on the final standing of the clubs.

It already has been determined that the Boston Bruins, champions of the United States section, will meet the Montreal Maroons, title holders in the Canadian group, in one play-off series; and the chances are that Canadiens of Montreal will be paired with the Chicago Black Hawks in another and the New York Rangers with the Ottawa Senators in the third.

The Canadiens hold second place in the Canadian group by one point over the Ottawa Senators and each have one game yet to play. A victory for the Canadiens will automatically clinch second place for them. Chicago, with one more game to play, leads the Rangers by three points in the race for second place in the American group. The Rangers only chance of nosing out the Black Hawks lies in winning their two remaining games, while Chicago loses its last contest.

Some of these questions undoubtedly will be removed over the week-end when four games will be played. Tonight the New York Americans clash with Ottawa at Atlantic City, Toronto with the Maroons at Montreal and Detroit with Boston at Boston.

Tomorrow night Pittsburgh plays the Rangers at New York. This game originally was scheduled to be played tonight at Pittsburgh.

FIRST GAME IN ELIMINATION SERIES

OTTAWA, March 15.—Hamilton Tigers, Ontario's Hockey Association champions and victors over Iroquois Falls, come to Ottawa today to play the local Shamrocks in the first of a two-game series in the Allan Cup elimination.

M.A.A.A. DEFEATS ST. FRANCOIS IN OVERTIME GAME

Montreal Seniors Won Right to Represent Province in Allan Cup Playdowns Last Night by Nosing Out Intermediate Title-holders 1 to 0 to Win Series by 2 to 1 Count.

TORONTO, March 15.—After three exciting games, the team to represent the Province of Quebec in the Allan Cup playdowns has been decided. Last night Montreal A.A.A. Senior champions, emerged victorious over St. Francois Xavier, Intermediate title holders, by a one to nothing score, to earn the right to advance in the playdowns.

It was the third "test" of the series and the most exciting. Neither side could enter the scoring rammary until early in the third overtime period, when Gillespie notched the winning goal unassisted. The Intermediate had a splendid chance to gain a victory in the second frame when penalties to the winners reduced their ranks to three, but the losers were unable to take advantage of the break.

Previously the teams had played to a scoreless draw in the first game of the series and to a one-all deadlock in the second contest, which went thirty minutes overtime, as last night's game did. M.A.A.A., therefore, won the right to meet Toronto Beavers, champions of the Maritime Provinces, by a two to one count on the round. The first game against Truro will be played on Monday and the second on Wednesday.

Hamilton To Meet Ottawa.

Hamilton Tigers, seniors of the Ontario Hockey Association, journeyed to Ottawa last night, where they will meet the Shamrocks, Ottawa and district champions, today in the first of a two game series in the first round of the Allan Cup playdowns. The return match will be played at Toronto on Tuesday, March 18th, having been advanced twenty-four hours on account of an indoor track meeting being staged in Hamilton on the nineteenth.

It has been many years since the Ottawa Champions advanced into the Eastern Canada final at the expense of the O. H. A. title holders. The latter have a process of elimination which makes it certain that none but the fittest shall survive. Naturally, it is the cream of the province that makes the annual excursion to Ottawa, and this year there has been no exception, the Tigers being a worthy team. This factor, however, never daunts the boys from Canada's hockey nursery, and they are quietly confident of turning back their rivals.

Memorial Cup Games Today.

The Memorial Cup games will be played today. At Montreal, Ottawa Rideaus will attempt to wipe a one goal deficit and advance at the expense of M.A.A.A. The latter team defeated the Capital City youngsters on their own ice by a two to one count and are favored to meet the winners of the West Toronto-Sault Ste. Marie series in the Eastern Canada final.

The game will be played in the afternoon. Montreal displayed the most finished hockey at Ottawa, but lacked the sustained speed of the Rideaus, who would have made things warm for the Montrealers had they used more combination. At Toronto, Sault Ste. Marie

Greyhounds, champions of the Northern Ontario Hockey Association, make their 1930 debut in southern Ontario in the first game against West Toronto, Ontario Hockey Association titleholders. The second game will be decided Monday and the winner on the round will clash with either Ottawa or Montreal for the right to travel west for the Canadian championship.

AND YOU'LL JOLLY WELL EAT IT

A businesslike man stepped into a butcher's shop, "A piece of beef for roasting," he ordered briskly. The meat, mostly bone, was thrown on the scales.

"Look here!" remonstrated the man, "you're giving me a big piece of bone!"

"Oh, no, I ain't," said the butcher, grumpily, "you are paying for it." [Belfast Telegraph]

BISHOP'S PLAY FOR DOMINION TITLE TODAY

Will Meet Toronto University in "Sudden Death" Game at Ottawa This Afternoon—Team Left for Capital Yesterday.

The Bishop's University Intermediate hockey team, intercollegiate champions of Quebec, set out yesterday afternoon for Ottawa, where they will meet the University of Toronto representatives in a "sudden death" game to decide the Dominion Intermediate Intercollegiate championship. The Toronto boys, by virtue of their victory over Queens University, are holders of the western division title, and the lucky team in the Ottawa game on Saturday afternoon will garner in the Dominion laurels.

The game in Ottawa will be played in the Auditorium at four o'clock and as the ice is artificial, both teams are hoping for a good game which will definitely decide the winners.

Excitement hovers in the air around Bishop's today, as the hockey team makes its big bid for Dominion honors. The players are in splendid condition in spite of the fact that they have had no games lately; and Monty, their coach, feels that they will make a good showing against the Ontario representatives. In their last game, which was played

ed against the Canadiens of Sherbrooke, the Bishop's team came through with a victory, and they are still tied with that team for first place in the Sherbrooke County Hockey League. They finished their Intercollegiate games with a victory over the strong Loyola sextette, and are certain to prove a tough handful for the Varsity puck-chasers.

In anticipation of the play-off,

The in New Gillette Razor

Spend a few pennies today for the greatest shaving improvement in twenty-eight years

THE old Gillette was a good servant. The New Gillette Blade and Razor (patents pending) is a better one—very much better.

You never need waste your time wiping this razor dry. And there's never any "razor pull" to deprive you of shaving comfort. These are only two of many improvements that have been made.

In tackling the problem of "razor pull," thousands of men were interviewed. Tens of thousands of razors were examined. The evidence all pointed one way. Most razors had been dropped and the corners dented. The dent threw the blade out of alignment. And this caused "razor pull." The smallest dent could do great harm, for your Gillette is a finely precisioned instrument.

Now the trouble is solved. In the New Gillette Razor the four corners have been reinforced to withstand the hardest knocks. The four corners of the new

blade are cut out. The blade is not held at its corners at all when cap and guard are screwed together. There's no chance of its being thrown out of alignment even if the razor is dropped.

When you're through shaving with this new razor, there's no wiping necessary. You don't need to take it apart. Because this new blade is specially processed to resist rust, you merely hold razor under hot running water, shake thoroughly . . . and lay on the shelf.

Gone are the old posts that held the blade and accidentally stubbed so many keen edges. Please note too, how the new guard teeth are rounded back farther, to meet the skin more smoothly, more comfortably.

Another great convenience — the ends of the new blade are square, for safer handling with wet fingers. The square ends fit flush with cap and guard and permit closer shaving around the tight little corners of mouth, nose and ears.

Changed and improved as this new Gillette Blade is, it has been designed so it will fit your old razor until you are able to get your New Gillette. The new razor, 24K. gold-plated, and in a beautiful case with New Gillette Blade is only one dollar. The new Gillette Blade in the new green package costs one dollar for ten, or fifty cents for five.

GILLETTE SAFETY RAZOR CO. OF CANADA, LIMITED, MONTREAL.

QUICK FACTS

1. New blade can be used in your old Gillette
2. New processed steel; new blade resists rust
3. Cut-out corners of blade prevent "razor pull"
4. To clean, turn guard at right angles . . . then re-tighten . . . rinse . . . shake dry
5. New shape guard channel gives full shaving clearance
6. New shape guard teeth meet skin smoothly, naturally
7. No projecting posts to dull blade edges
8. Reinforced razor corners prevent damage if dropped
9. Square blade ends safer to handle
10. Shaves easier around mouth, nose, ears
11. New blades same price as old
12. New razor, 24K. gold-plated, with one new blade, in case, \$1.00

\$1.00
for ten
and 50c

VALUE OF FOREST PRODUCTION IN CANADA NOW OVER \$205,000,000 ANNUALLY; HISTORY IS REVIEWED

Steps Being Taken Toward Placing Forests on Sustained Yield Basis—Modern Improvements Responsible for Increased Production—Markets at Present Situated Throughout World—Growth of Pulpwood Industry Taken Up.

Of the total land area of Canada, estimated at 3,542,049 square miles, about 15.8 per cent. is agricultural and 30.2 per cent. is more suitable for forest growth. The remaining fifty-four per cent. consists of all other land which under present conditions is unsuitable for either agriculture or forestry.

The total area covered by forests at present, including the forested agricultural land, has been estimated at 1,151,454 square miles, of which about 17.3 per cent. carries mature, merchantable timber; 9.7 per cent. carries immature but nevertheless merchantable forest products, and 48.2 per cent. consists of accessible young growth which will eventually be merchantable. The remaining 24.8 per cent. is inaccessible or unprofitable under present conditions.

The total volume of standing timber has been estimated at 224,304 million cubic feet capable of being converted into 424,637 million board feet of lumber and 1,121,993,000 cords of pulpwood, ties, poles and similar forest products. The total annual drain on the forest including loss by fire, etc., has been estimated at 4,400 million cubic feet, but it does not follow that our capital will be exhausted in the fifty years which a simple calculation might imply. The rate of utilization will no doubt be reduced as the supply diminishes and losses due to fires, wasteful utilization and other preventable causes are curtailed. An annual increment of ten cubic feet per acre, which is quite possible under forest management, would provide for the needs of a population of over twenty millions at our present annual rate of use, which amounts to about 303 cubic feet per capita.

Sustained Yield Basis

Steps are now being taken toward placing our forests on a sustained yield basis, and it is now profitable as a commercial investment to plant trees in Canada under certain conditions which are steadily becoming more favorable, though the full benefit of intensive management

will take some time to appear.

Represented in the three great forest divisions of Canada are approximately 100 different species of plants reaching tree size. Thirty-one of these species are coniferous, the wood of which forms eighty per cent. of our standing timber, and ninety-five per cent. of our sawn lumber. Merely to catalogue the merchantable woods of Canada is impossible here.

To present an adequate survey of this great national asset it is necessary first to give a general review of operations in the woods following this by surveys of saw-mill operations and of pulp and paper manufacturing respectively, the two great primary industries founded directly upon the forest. Again, on lumber and paper are founded the long and varied array of our wood and paper-consuming industries.

Operations in the Woods

The value of forest production resulting from operations in the woods of Canada is now over \$205 millions annually, being made up of logs and bolts for saw-mills valued at \$74 millions; pulpwood for domestic use and export valued at \$70 millions; firewood valued at \$40 millions; hewn railway ties valued at \$6 millions; poles and round mining timber valued together at over \$5 millions; and other primary forest products, such as square timber, fence posts and rail, and wood for distillation. It has been estimated that our total primary forest production involves the cutting of over 2,880 million cubic feet of standing timber annually.

Growth of Lumber Industry

Lumbering first began in the Lower St. Lawrence area and the Maritimes; extended to the Ottawa; thence to Georgian Bay, Rainy River, and the spruce regions north of the Prairies; thence westward to British Columbia. British Columbia now furnishes over one-half of Canada's lumber; twenty years ago it furnished less than one-fifth. To the

pioneer the forest was the central fact of existence, furnishing his house and fire but bitterly opposing his plough. Coming to the trading era; the first lumber shipped to Europe was during the French regime and consisted of masts and spars for the French navy. The historic square timber trade of which so much has been written centered in Quebec, reaching its height in 1864, when over 1,350 vessels entered that port, carrying away over twenty million cubic feet. When the sawn lumber trade and the deal trade developed the centre shifted to Montreal.

Improvements Made

In the early days most of the work consisted in the felling of pine and the squaring of timber by hand in the woods, the timbers then being hauled by oxen or horses to the nearest stream, assembled in rafts and floated down to Quebec, where they were loaded on vessels for the United Kingdom. Today, with the increased costs of longer haulage as the more accessible forests become exhausted, many improvements have been introduced. Logging railways in some cases now transport the logs direct from the woods to the mill; tractors replace horses in many cases; and in pulp and paper operations there is a tendency to cut pulpwood throughout the year so as to keep up a steady supply for the mills. In British Columbia the scarcity of drivable streams and the greater size of the logs have resulted in methods differing radically from those of the East. One of the most characteristic of these developments has been the use of cable systems whereby the logs are hauled and assembled by donkey engines.

Except in Nova Scotia, ninety per cent. of the forest land is still the property of the Crown—the lumbermen having been granted cutting rights only—and its administration by the various Provincial Departments.

4,098,081 M Board Measure Annually

Canada's sawmills produce annually some 4,098,081 M feet board measure of sawn lumber, valued at \$97,508,786. The greater part of this lumber is coniferous softwood, as the supply of the more valuable hardwoods such as hickory, oak and walnut (once plentiful in southern Ontario and Quebec) has been almost exhausted. The mills also produce 2,837,281 thousand shingles, valued at \$8,716,085; 1,322,665 thousand lath, valued at \$5,993,396; 1,108,812 cords of pulpwood, valued at \$19,722,718; and 4,609,647 sawn railway ties, valued at \$2,882,487; as well as large quantities of box shooks, veneer, pickets, staves, hoops, and heading, spoolwood and other miscellaneous products; bringing the

Goes West

ROBERT ENGLAND, M.C.

It is with a wide experience in immigration matters that Robert England, who has become Western Manager of Colonization for the Canadian National Railways, with headquarters at Winnipeg, comes to Canada. Mr. England, who has for some years been Continental Superintendent of the railway in Europe, came to Canada from Ireland in his youth and graduated in Arts from Queens University. His knowledge of the immigrant peoples began when, as a teacher in Saskatchewan, he won a scholarship in connection with the Masonic Order's work among new Canadians in the West. Under this scholarship he extended his studies to Paris. After his service in the war, in which his distinguished conduct brought him the Military Cross, he joined the Canadian National Railways. He is the author of a recently published book "The Central European Immigrant in Canada."

four times that of Confederation days.

Markets Throughout World

Markets for Canadian lumber now include practically all the more important countries of the world, having extended even into the Orient. There is also a considerable trade between British Columbia and the Atlantic Coast States and Provinces via the Panama Canal, which increased considerably during 1929, shipments having been made during the year from British Columbia ports to points as far west as Toronto. The past year has been character-

total value of the products of the industry up to \$133,520,554, over-ized by a tendency toward the consolidation of companies especially in the matter of timber holdings. Although eastern Canada still possesses large quantities of white pine timber, a few of the large sawmills in Ontario and Quebec have found operations unprofitable at present prices and have closed down, in some cases permanently. Large areas of spruce and balsam timber in Eastern Canada, being no longer a profitable source of saw timber have been taken over by the pulp and paper industry. Preliminary estimates of lumber production for 1929 indicate a continuation of the decline in lumber production in Ontario, Quebec and the Maritime Provinces, which characterized operations in 1928. In the Province of British Columbia which now produces over half the total cut or sawn lumber in Canada, the industry was fairly active during the first part of the year with a tendency toward a slackening off during the last few months. Production in the Prairie Provinces probably held its own during the year. It is fairly certain that final figures will show that lumber production in Canada as a whole in 1929 was slightly less than in the previous year.

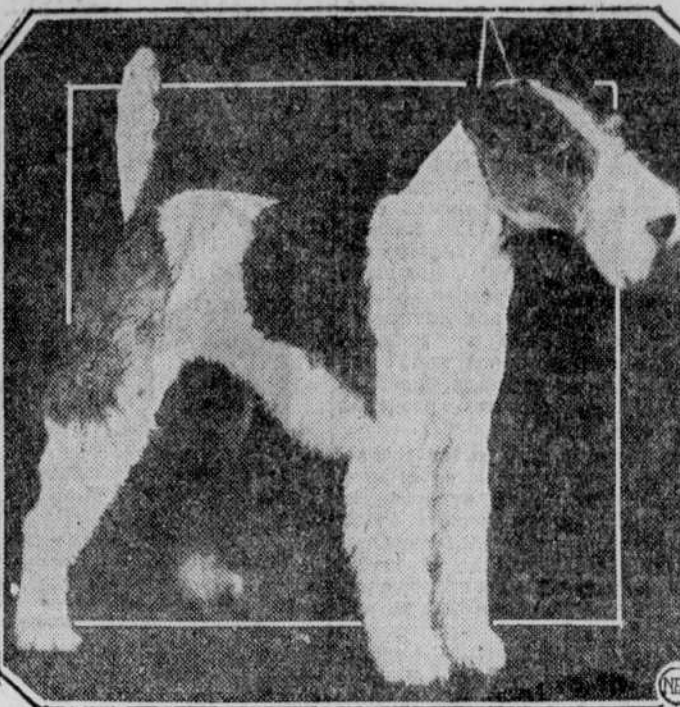

Pulp and Paper Industry

The pulp and paper industry today ranks first among Canadian manufacturing industries in gross and net value of products, as well as in wages and salaries paid. This development has taken place for the most part during the present century.

The first paper mill in Canada was established in 1803 at St. Andrews, Quebec. Upper Canada's first mill, which is still in operation, was built in 1813 at Crook's Hollow (now Greenville) near Hamilton, and the Maritime Provinces entered

"Some fellow who owned a flivver, I'll bet."

MAINE RESORT CONTINUES BAN ON MOTOR CAR

Islesboro, Island Town in Penobscot Bay, Votes Down Proposal to Ask Legislature to Repeal Act Prohibiting Automobiles.

AUGUSTA, Me. March 15.—Islesboro, an island town and summer resort in Penobscot Bay, is the only remaining jurisdiction in the State where motor vehicles are banned by law.

At the annual town meeting the town has just voted down, 98 to 57, a proposal to ask the next Legislature to repeal the act prohibiting automobiles.

The act was passed in 1913, when automobiles were considered a great nuisance by teamsters as well as by pedestrians. Several of the island towns, including Mount Desert, obtained prohibitory laws for motor vehicles. By degrees, however, all the other island communities have succumbed to the motor age and had their restrictive statutes repealed. Repeal has been brought up in Islesboro several times, but without success.

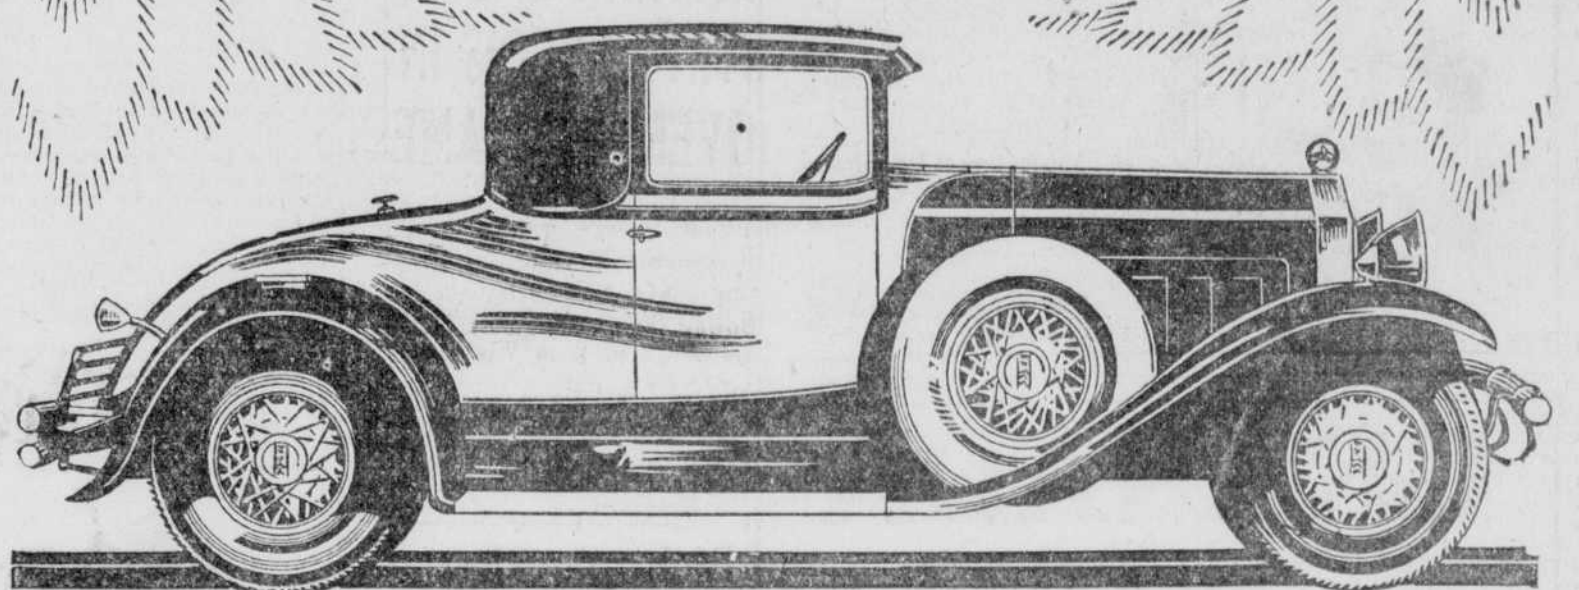

The island is 13 miles long and only three miles wide at the widest point. It has few intersecting roads and short-cuts, so those who have business to transact in different parts of the town must make up their minds to travel behind a plodding horse. The roads are still narrow and unpaved.

The major summer resort colony is Dark Harbor, where the names Forbes, Shattuck, Derby, Drexel, Biddle, Atterbury and Gibson, reminiscent of Boston, New York and Philadelphia, are familiar.

Designed and Built

for those Canadians

who want the Finest

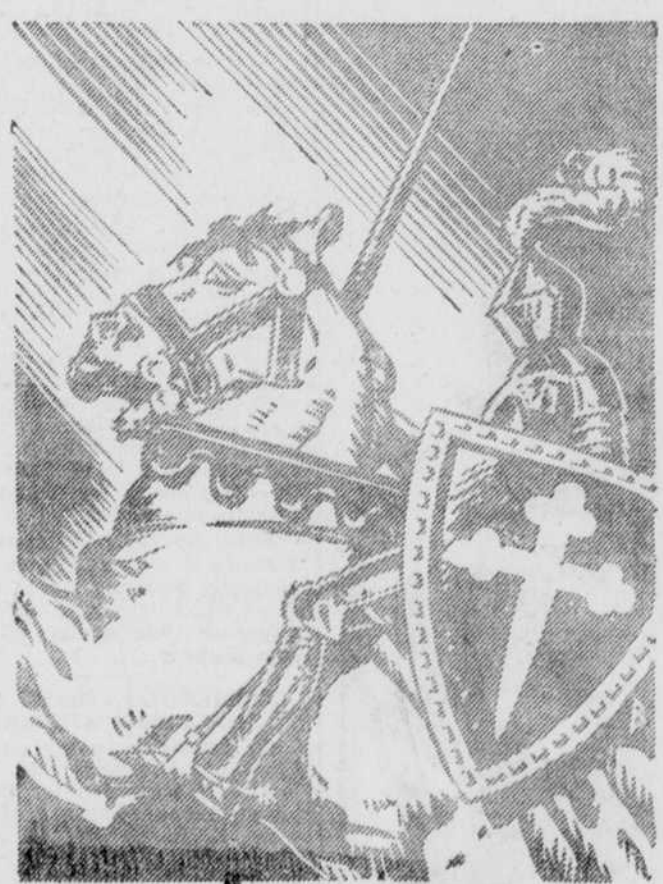

Where one finds people of distinction, one also finds cars of distinction. At Murray Bay, for instance—at Banff, Kenora and all other fashionable resorts—the modern Willys-Knight is an accustomed sight.

The increasing popularity of this magnificent car among the socially prominent follows an established European precedent. King George and the Prince of Wales have long driven in Knight-motored cars. King Albert of Belgium, King Alfonso of Spain and half the aristocracy of the continent prefer them for personal use.

To Willys-Knight owners the reasons for this preference are obvious.

The Knight double sleeve-valve engine has established trouble-free motoring. Its power and smoothness are

Just as shields of the above design symbolized the rank and wealth of the great English house of Scott from the 16th to 19th centuries, so ownership of the new Willys-Knight symbolizes unquestioned social distinction today.

undiminished after one hundred thousand miles of driving... its patented sleeve-valve principle eliminates the necessity of lay-ups for valve-grinding and carbon-cleaning... in it there are no valve springs to weaken, no tappets to become noisy.

The mechanical excellence of the Knight motor, however, is taken for granted by its many owners. They regard Willys-Knight in terms of regal beauty and luxurious transportation. They know only that the Willys-Knight takes them where they want to go, when they want to go, in refreshing comfort; and that to be seen in it is a constant stimulation to their pride.

Great Six Coupe (as illustrated), Sedan, Touring, Roadster, 5-passenger Coupe, all \$2675 (6 wire wheels and trunk rack included). The new Willys-Knight 70D ranges from \$1275 to \$1575. All prices f.o.b. factory, Toronto, Taxes Extra. Willys-Knight Sales Co. Limited, Toronto, Ont. Branches: Toronto, Montreal, Winnipeg.

DE SOTO SIX had to excel . . .

to capture such popularity

There is no royal road to success. It must be earned by outstanding achievement . . . To capture public favor so decisively, the Chrysler-built De Soto Six had to prove itself superior to its field. To sweep past so many other sixes in such an incredibly short time, it had to excel in all elements of style, luxury and performance and prove that it offered more than had ever before been offered by any Six so low in price. The public has seen the De Soto Six come up like a meteor—breaking all sales records for a first-year motor car. There is only one answer to a success like this—and the answer is dominant quality, dominant performance and dominant value. Everybody is invited to make comparisons.

THE STAGE AND SCREEN ATTRACTIONS

THE PREMIER

"Look For the Silver Lining" and "A Wild, Wild Rose," sung by Marilyn Miller and her cast in the original stage version of "Sally" will be heard next week at the Premier Theatre when this First National and Vitaphone picture will be shown for four days, beginning on Monday.

The picture has been adapted from Miss Miller's greatest stage success, and is an all-dialogue production with singing and dancing on the most lavish scale ever attempted on the screen. An all-star supporting cast is seen with Miss Miller. Pert Kelton, who played in Ziegfeld's "Rio Rita," is in the ingenue lead and Alexander Gray, the musical comedy favorite who sang in "The Desert Song," appears in the romantic lead. Joe E. Brown, Ford Sterling and T. Roy Barnes are the chief comedians in the gay and rollicking story of a grand duke who becomes a waiter and a

humble waitress who becomes a stage star. The famous Albertina Rasch dancers appear in the ensemble numbers, and a company of more than one hundred is seen in support of the star.

Mingling the drama and sinister influence of the underworld with the culture and extravagant contentment of society, "The Racketeer," starring Robert Armstrong and featuring Carol Lombard, which comes to the Premier Theatre on Friday, Saturday and Sunday of next week, presents a romance that for entertainment and color is said to be one of the most effective all-dialogue pictures produced for a long time.

Armstrong is cast as the racketeer. His suave manner, covering a character that packs dynamite in every swift, dangerous move, keeps the audience on edge with suspense, wondering what will happen next. Yet the romantic side of his character inspires the hope that he will get the breaks.

Carol Lombard, as the girl who is torn between the love of a dissipated musician and gratitude for this smartly dressed wolf of the underworld, is said to give her finest performance to date. Other stars are Ronald Drew, as the musician;

Scene from "Sally," the First National and Vitaphone picture, starring Marilyn Miller, which is to be shown four days at the Premier Theatre, starting on Monday next.

Kit Guard as the racketeer's right hand man; Hedda Hopper, as a society woman; Al Hill, as a gangster chauffeur; Jeanette Loff as a society flapper and John Loder as a rich idler.

SETBACK FOR OXFORD CREW

LONDON, March 15.—The Oxford boat crew met a setback yesterday, when Martineau, the stroke, sustained a strain in the afternoon's outing. The injury was only slight, but will put back training at least forty-eight hours. It is expected the stroke will be fit again by Monday.

BOY SCOUT NEWS

SIXTH TROOP AND PACK HAVE INTERESTING MEETINGS

With a full turnout of Scouts and Cubs at the sixth troop and pack, two very interesting and instructive programmes were run off. The Cub meeting was in charge of A. C. M. Livingston, and after the usual opening followed by inspection by the A. C. M., assisted by the Pack Leader, several instructive games were played. During the six corner period, A.C.M.'s Livingston and Woolgar and the S. M. examined a number of cubs in star tests. Several more lively and instructive games followed, and the pack dismissed to the library where A. C. M. Woolgar told a very interesting story of the Scout Coast guard service. Several announcements were made and the meeting was brought to a close with Grand Howl and prayer.

The Scout meeting was in charge of A. S. M. Wilson and T. L. Hall. After flag break, Scout silence and inspection, the patrols dismissed to their corners where instruction and test passing was carried on in charge of the P. L.'s. After patrol corners, a half hour of games including a tug o' war, two old favorites and a new instructional compass game were played, and they proceeded to the council fire, where songs were sung and the S.M. told several amusing experiences of his first camping. Several verses to the Scout song, especially written by the Scouts were tried over, and the meeting closed with the Scout Day and prayer. Several important items were discussed at the Court of Honor meeting held afterwards.

COMMERCIAL TEAMS CLASH TOMORROW AFTERNOON

An inter-city hockey clash that has aroused considerable interest locally is scheduled for the Exhibition Arena tomorrow afternoon, when J. A. Savard, Ltd., of the Sherbrooke Commercial Hockey League, will cross sticks with Alphonse Racine, Ltd., champions of the Montreal Industrial Hockey League.

This game, to which admittance is free, will start at 2:30 o'clock. A band will be in attendance.

WESTERN PLAY-OFFS

WINNIPEG, March 15.—Another week and 1929-30 hockey kings of the west will be known.

Tonight at Saskatoon the Quakers, Saskatchewan senior champions, meet the Trail "Smoke Eaters," British Columbia title holders and conquerors of the Blairmore Bears, to qualify for the journey to Winnipeg for the Allan Cup western final.

In Winnipeg, the junior elimination series continues with Fort William Legion playing the young Elmwood Millionaires. The Millionaires take a three goal lead into the fray.

To the east will come the flashy youths from Calgary, the Canadians, after a victorious series at the coast, where they earned the right to meet the Regina Pats, junior champions of Saskatchewan.

Last night the Calgary Canadians stemmed the fierce offensives of the Ex-King Georges of Vancouver 2 to 1, repeating the tally of the first match to take the round of the British Columbia-Alberta tussle 4 to 2.

announcements were given. The ninth scout law, "A Scout is thrifty," is to be observed for the coming week. All members are to hold a clean-up week about their dwellings.

The patrol competition came to a close. The winners for this period of six weeks were the Wolf Patrol, P.L. Edgar Martin, followed by the Fox Patrol, P.L. Howard Simms. The meeting was brought to a close by flag lowering, scout silence, dismissal.

CHIEF PURPOSE OF WHEAT POOL HAS BEEN OUTLINED

Minister of Agriculture in Alberta Government Makes Reply to Hon. Frank Oliver.

EDMONTON, March 15.—All the Canadian Wheat Pool is endeavoring to do is to secure reasonable balance between producer and consumer,

Hon. George Hoadley, Minister of Agriculture in the Alberta Government, declared in commenting on remarks of Hon. Frank Oliver in an address at Toronto.

Mr. Oliver's argument, said Mr. Hoadley, left out the fundamental fact that the world must have wheat as food. It was a world and not a Canadian problem only. Price entered into the question, but lives of both producer and consumer had to be considered primarily. Nature always swung towards balancing of

things by swinging back on the crop supplies; and the marketing of those supplies must be balanced also.

"The pool is not a gambling agency," continued Mr. Hoadley, "and in that direction it is accomplishing its purpose. I am convinced, even in spite of the present price, that if the old marketing system were in vogue, with the wheat thrown on the market bulk there would have been a price now nearer fifty cents than the present figure."

CHEVROLET

» » » matches Six-cylinder Performance with Striking Economy

FROM the standpoint of dollar-for-dollar value, no other car can match the new Chevrolet Six. For Chevrolet combines the smooth, quiet, powerful performance, which nothing less than a six can give, with low first cost and the keenest economy.

Its sturdy, six-cylinder engine has been stepped up to 50 horsepower with correspondingly improved acceleration and hill-climbing ability. Yet this increase in power is accompanied by no increase in fuel consumption. Definite new advancements in carburetion and manifolding and new cylinder-head design ensure unsurpassed economy.

Chevrolet's greater power is under easy, instant control—because of the new, improved steering unit and the fully-enclosed, weather-proof, four-wheel brakes. And a heavier, stronger power transmission system throughout makes it a more dependable and long-lived car.

The new Chevrolet Six offers, too, the beauty and luxury characteristic of high-priced cars. Its fine appearance is distinguished by the long, low lines and beautiful colorings of its new Fisher bodies by larger balloon tires distinctive radiator design and chromium-plated bright-work, inside and out. Wide, deeply-cushioned seats with form-fitting backs give unusual riding comfort intensified by Delco-Lovejoy shock absorbers, front and rear. The driver's seat is adjustable. The Fisher non-glare windshield is but one of many safety features.

Before you buy your next car, drive the new Chevrolet Six and weigh its assurance of greater beauty, finer performance, economy and long life against all that any other car in its price field can offer you. Eight beautiful new models to choose from at extremely low prices and all available on the G.M.A.C. Deferred Payment Plan.

NATIONAL PARK FEBRUARY WAS LANDS ATTRACT BUSY MONTH AT U. S. TOURISTS BOUNDARY LINE

Two More Parks Set Aside in Dominion-To Establish Parks in Every Province of Dominion.

Canada's fine system of national parks has recently been augmented by two interesting additions: the Riding Mountain national park in Manitoba and the Georgian Bay Islands park in Ontario. The Riding Mountain park originally formed part of Riding Mountain forest reserve. It covers over 1,100 square miles of rolling wood-land country dotted with several beautiful lakes and a well known Riding Mountain. It is a natural home for big game and its reservation as a park will not only conserve a typical example of the scenery of Manitoba but will make provision for the recreational needs of the people of this part of Canada and become an important big game sanctuary and tourist attraction as well.

The Georgian Bay Islands park consists of twenty-nine island reservations in one of the most beautiful regions of Canada, which in recent years has become a resort of large numbers of summer residents, many of them from across the international boundary. Owing to the popularity of this region the islands have been rapidly passing into private hands and it was clear that unless provision was immediately made no access would be possible to the general public for camping and picnicking. Beausoleil island was in fact the last large island which had not yet been taken up. This island in itself is extensive enough to become a considerable resort. It covers nearly five square miles and possesses fine bathing beaches, beautiful groves of trees and a varied bird and plant life. Its historical traditions and remains will also add to its interest.

None of the provinces east of Ontario as yet possess national parks with the exception of two small historic parks, covering only a few acres, in Nova Scotia. Strong representations have recently been made that a park should be created in New Brunswick and it is understood that the matter is now receiving the consideration of the Government. The Hon. Charles Stewart, Minister of the Interior, in a recent public address stated that it was his desire to see a national park established in every province of the Dominion, so that the benefits to be obtained from these great playgrounds and reserves should be made available to citizens in every part of Canada.

While the immaterial benefits are many and must increase as time goes on, there are also material ones which are readily obvious. The way in which a national park may contribute to general prosperity through the stimulation of tourist travel is well shown in the case of the Prince Albert park in Saskatchewan. Although established less than two years and situated seventy miles from the nearest railway it drew in 1929, 10,000 visitors, while Point Pelee park, a small reservation in southern Ontario, which draws a large percentage of United States visitors, increased its registrations from 50,000 to 100,000 in one year.

A recent analysis of the inducements which bring visitors to Canada from across the line showed that the strongest attraction was new and striking scenery. "Beauty, spiced by wonder," said Mr. Stephen Mather, former Director of the United States Park Service, "is the greatest lure to travel," and this is the outstanding appeal made by the national parks. But while the parks are an increasing lure to foreign travel they are also becoming more and more the playgrounds of Canadians themselves. In the parks in the Rockies an increasing percentage of visitors is drawn from the Prairie Provinces, British Columbia, and Eastern Canada.

The sums spent by the people of the United States in travel are astonishing. Figures published by the United States Department of Commerce show that in 1928 the total expenditure of United States citizens on travel outside their own boundaries was approximately \$181,606,000. Of this sum \$950,000 was spent outside of North America. In 1929 the total expenditure is estimated to have reached the colossal sum of one billion dollars. This, it is stated, represents about one per cent. of the total annual income of the country. In recent years Canada has been receiving a rapidly increasing share of this traffic. Figures published by the Dominion Bureau of Statistics placed the tourist revenue of the country in 1928 at over \$250,000,000. The figure for 1929 has been placed by a preliminary estimate at \$300,000,000. The total value of Canada's mineral production for 1929 is estimated at \$303,876,000 which indicates how rapidly tourist travel is climbing into one of the first places among our sources of national wealth.

As Hon. Mr. Stewart pointed out, valuable as the parks are already recognized to be, they are likely to be appreciated more and more as time goes on and the wild places of the country are taken up. Already public men in the United States are deploring the almost complete disappearance of unspoiled scenic conditions there. Canada realizes that while she is today numerically a small people, the day will inevitably come, much sooner perhaps than is realized, when she will be a developed, and supporting a large population. The rapidity with which such changes can be brought about has been greatly accelerated in recent years. Today thanks to the use of the aeroplane, Canada's immense northern areas are being so swiftly opened up that it is hard to realize what is going on. Each year the northern boundary is pushed farther back and regions which, in the ordinary course of events must have

Report from St. Albans, Vt., Shows that Over 13,000 Bottles of Prohibited Liquors Were Seized and Vehicles and Merchandise Amounting to \$3,375 Taken During Month.

ST. ALBANS, Vt., March 15.—In making public his monthly report on law enforcement activities for February, Collector Harry C. Whitehill, of the Vermont Customs district, states that the customs and border patrol officers under his direction, confiscated over 13,000 bottles of prohibited liquors and seized vehicles and merchandise amounting to \$3,375, during the month.

The largest single seizure of the month was made when a railway freight car, supposed to be loaded with a shipment of firewood, was found on examination to contain a large quantity of contraband liquor. The three cords of wood, which was used to conceal the contraband cargo, formed but a small part of the carload, the bulk of which was made up of 5,688 bottles of ale. In addition to eight automobiles and a motorcycle, which were valued at \$3,024, the seizures for the month included several articles of merchandise, the most important item of which was a fur coat, valued at \$537.

A total of sixty-three violations of the customs laws were discovered and handled in February, and fines and penalties aggregating \$1,708.56 were assessed and collected during the month.

PUNCH THE MAILMAN
Boxing Instructor (after first lesson)—Now, have you any questions to ask?
Beginner (dazed)—Yes; how much is your correspondence course?

waited many years for development, have been brought within the touch of civilization. What the next fifty years have in store for Canada it is impossible to foretell, but that there will be a great expansion, is generally acknowledged. It is fortunate, therefore, under these conditions that by forethought Canada is preserving regions of outstanding natural beauty as represented by the growing system of national parks.

VALUE OF FOREST PRODUCTION IN CANADA NOW OVER \$205,000,000

(Continued from page 9)

the industry in 1919 with a mill at Bedford Basin near Halifax.

At this time and until Confederation the industry was largely confined to the manufacture of paper from rags, no wood pulp being used or produced prior to 1860. The supply of rags, however, was limited and the manufacturers were soon forced to experiment with other raw materials, but the small proportion of paper-making material recoverable from the other sources soon led to experiments in the use of wood. Finally spruce, balsam, fir and hemlock were found to be the most suitable for the manufacture of paper of the average grades, although rags are still used for certain fine papers.

First Good Grinder at Valleyfield

In 1866, Alexander Buntin installed at Valleyfield, Quebec, what is claimed as the first wood grinder in America and began the manufacture of wood pulp by the mechanical process. During the same year Angus Logan and Company built the first chemical wood pulp mill in Canada at Windsor Mills in Quebec. During the next decade the use of wood pulp in paper-making was extensively developed, and in 1887 Charles Riordan installed the first sulphite mill in Canada at Merriton in the Niagara Peninsula; by the beginning of the century the output of the industry had exceeded eight million dollars. In 1907 the Brompton Pulp and Paper Company at East Angus in Quebec, built the first mill in America to manufacture chemical pulp by the sulphate or kraft process.

The gross output of the industry increased rapidly and steadily until the boom years following the Great War when it jumped to a peak of over \$232 millions in 1920. This was followed by a drop in 1921 which was general throughout the industrial field. Since that year there has been a steady recovery, resulting in a total for 1929 of \$233,635,326, which exceeds the abnormally high total value reported in 1920.

Three Classes of Mills

There are today three classes of mills in the industry. Those in 1928 numbered 33 mills making pulp only, 46 combined pulp and paper mills, and 31 mills making paper only. The present tendency is toward the building of the larger combined mills of the type known as "self-contained newsprint mills," and also a tendency toward the merging of individual companies into a comparatively small number of large groups.

In 1928 the seventy-nine mills making pulp produced 3,610,724 tons valued at \$121,458,078, and of this, seventy-three per cent. was made in combined mills and used by them in paper-making. About three per cent. was made for sale in Canada and twenty-four per cent. was made for export. The manufacture of pulp is increasing in Canada both in quantity and value, particularly with regard to pulp made in

Goes to United States

E. H. GURTON

who has been appointed Manager of the Land Settlement and Development Service of the Canadian National Railways in the United States with headquarters at St. Paul, Minn. Mr. Gurton, who came from England as an immigrant in 1903 and was a farmer, construction worker and bush-whacker, entered the service of the National System in the Land Department, Winnipeg, in 1923, and became Eastern Manager of Colonization at Montreal in 1927.

ARGENTINE RAILWAYS ARE CONSIDERABLY DAMAGED BY DISSATISFIED EMPLOYEES

BUENOS AIRES, March 15.—Damage estimated at almost \$400,000 was done to Argentine railways recently when dissatisfied railway workers throughout the country began "working to rules," strictly following the clauses of a government decree issued years ago to govern work on the railways.

All trains were delayed and workers did much to damage local trains and stations, breaking windows and in some cases setting coaches on fire.

AND WEATHER PROMISES GOOD

"If you spend so much time at golf you won't have anything laid aside for a rainy day."
"Won't I? My desk is loaded up with a work that I've put aside for a rainy day."

—Montreal Star.

cent. as compared to less than 30 per cent. in the United States. Since 1926 there has been an actual, as well as a relative, decrease in the United States production. With several of the larger companies adopting a definite policy of shutting down their old mills in the United States and building new mills in Canada to duplicate or exceed their previous production it seems reasonable to assume that the Canadian production will increase for some years to come with little or no increase in the United States.

Volume Greatly Increased

Volume production in the newsprint industry which forms such an important part of the pulp and paper industry has increased enormously during the last few years. New mills were projected, many were actually under construction and additions to equipment in existing mills, which were being planned and in some cases actually undertaken, were all leading to an increase in capacity which would have resulted inevitably in overproduction and a serious slump in prices. Conferences between the producers

and provincial government officials, however, finally resulted in an agreement as to prices and rate of production.

During the period of uncertainty many mills closed down temporarily while others operated on curtailed time, but in spite of these disturbing influences the production of newsprint increased during the year and in July Canada's output was more than double that of the United States. However, the crisis had the result of retarding the unwise expansion of the industry and the building of new mills was postponed in many cases although many new machines came into production in existing mills. The demand for groundwood pulp continued to decline but that for the better grades of chemical fibre showed an improvement. The demand for the finer grades of paper, paper specialties and paper boards also improved during the year.

Research Institute Founded

The opening in Montreal during 1929 of the Pulp and Paper Research Institute as a result of the combined contributions of the paper producers, the Federal Forest Serv-

ice and McGill University marked an important step toward the higher single item of export thus ranked at development of the industry.

The preliminary figures of newsprint production for 1929, are as follows:

January	212,190
February	187,200
March	218,147
April	221,784

Increased Trade

A striking reflection of the increased production of newsprint is seen in the trade figures. The export trade in paper did not develop until the beginning of the present century. By 1910, however, the exports of newsprint paper were valued at over \$2,000,000; in 1929 they were valued at over \$53,000,000; whilst during the fiscal year 1928-29, Canada exported 2,263,229 tons of newsprint valued at \$142,843,064. This

present second only to wheat. Canadian newsprint is exported to 26 different countries and our total exports are greater than those of the rest of the world combined.

During the earlier stages of industrial development the exports of the wood group were made up largely of unmanufactured products such as square timber and logs. At the time of Confederation these raw materials made up over 41 per cent. of the total export trade. Today, while the wood and paper group forms a smaller part of the total (about 21 per cent. in 1929), owing chiefly to the increased exportation of wheat, its character has changed. Of the exports of products of forest origin, fully or chiefly manufactured goods now form 53 per cent. and partly manufactured goods make up about 33 per cent. Raw materials form less than 9 per cent. of the total. The forest industries in Canada have ceased to exist merely as "hewers of wood" for the wood-using and paper-using industries of Great Britain and the United States; each year sees a larger proportion of our forest products retained in Canada and subjected to some further form of manufacture by the industries

which have developed in this country.

Industries Founded on Wood and Paper

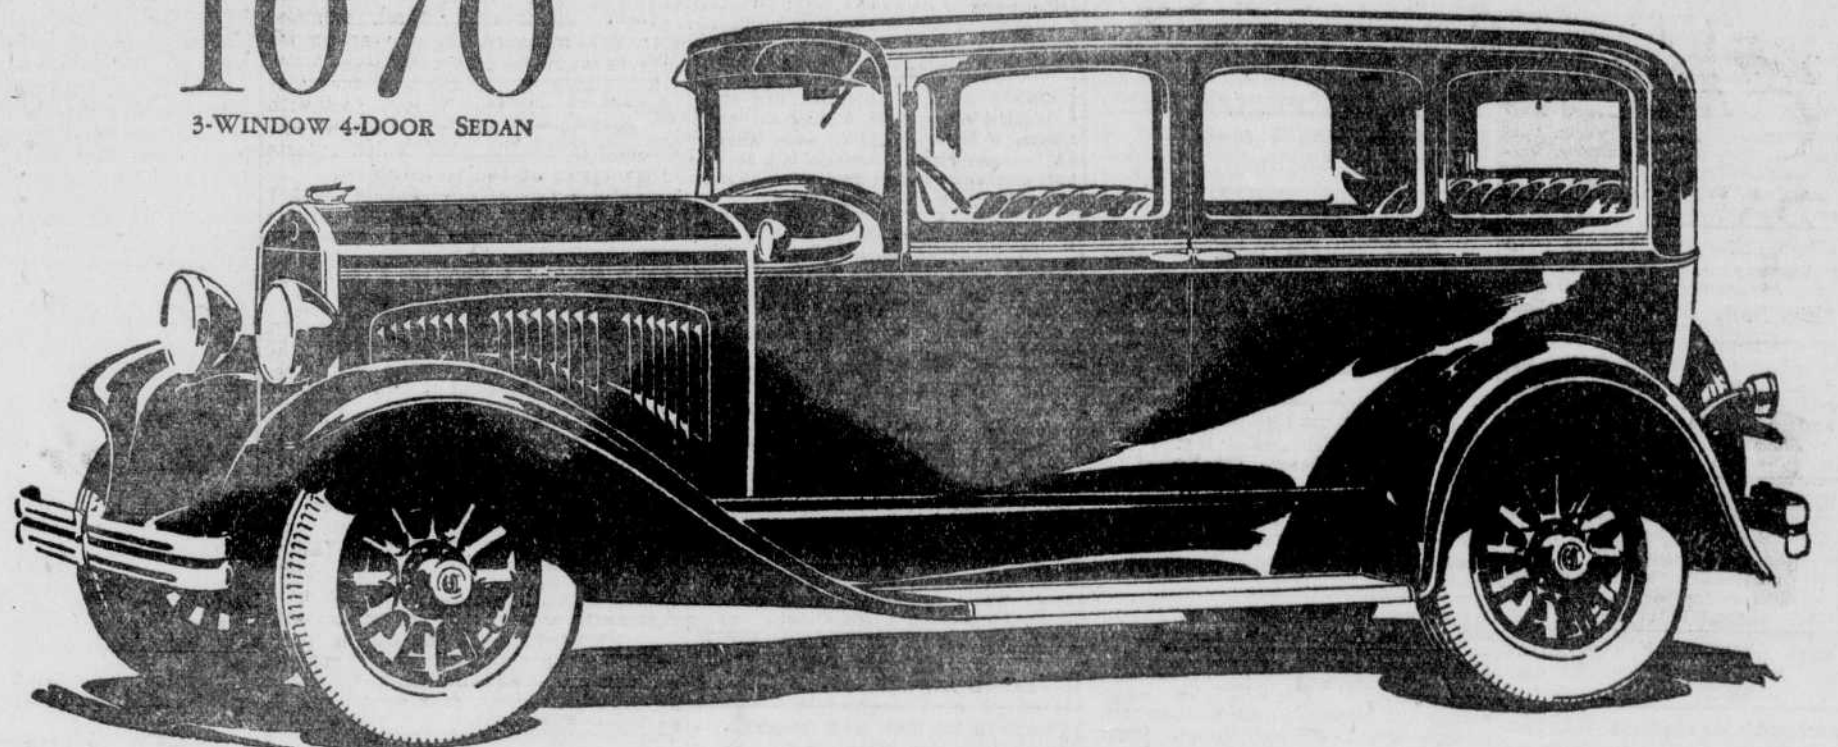

According to the latest available statistics there are 3,977 establishments, consisting of 2,043 depending on saw-mills, and 1,928 depending on the paper-mills for their raw materials. They employ 73,706 workers who are paid over \$87 millions, and their products are valued at more than \$276 millions.

The manufacture of silk of a quality in many respects superior to the product of the silk worm, from Canadian spruce wood; the production of linoleum, dynamite, and gramophone records from a flour made of wood; the operation of saw-mills having a capacity of over half a million feet board measure in ten hours; the production of newsprint paper in a continuous sheet over twenty-two feet wide at the rate of over half an acre a minute from a single machine; these are a few of the developments of the forest industries in Canada that could hardly have been foreseen even a few years ago.

Announcing the NEW CHRYSLER SIX

\$1070

3-WINDOW 4-DOOR SEDAN

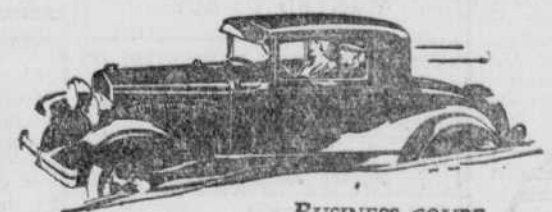

The Lowest-Priced six ever to bear the Chrysler name

Chrysler today introduces a brand-new Chrysler Six—priced from \$1005 to \$1070—the lowest-priced six ever to bear the Chrysler name.

Here is Chrysler engineering—with such progressive developments as internal-expanding 4-wheel hydraulic brakes; 62-horsepower high-compression engine mounted on rubber; Iso-therm pistons; fuel pump instead of a vacuum tank; low-slung chassis; special-type spring shackles and hydraulic shock absorbers; small base wheels with large balloon tires; typ-

ically Chrysler-styled all-metal bodies of new design and rigid construction.

Here is Chrysler craftsmanship—that precision craftsmanship characteristic of Chrysler Standardized Quality.

BUSINESS COUPE

Touring \$1055
Coupe (rumble seat) . . . \$1055
Roadster \$1055
Sedan \$1070

\$1005

P. O. B. Windsor, Ont. (Special Equipment Extra)

Here is Chrysler performance—all of that snap, speed, smoothness and stamina for which Chrysler has been famous ever since its beginning.

Inspection, trial and comparison inevitably lead to the one positive conclusion that by all current measurements of performance, smartness, comfort, safety, economy and quality, the new Chrysler Six takes its place as the greatest six-cylinder value in the world.

We are eager to place a new Chrysler Six at your disposal—today.

WIFE OF JAS. COWARD GIVES
UP BIG FORTUNE FOR LOVE

Will of Late New York Millionaire Stipulated that Life Interest in Estate Should Be Reduced to \$500,000 if She Remarried.

NEW YORK, March 15.—Technically the bride of Levington Carroll, a descendant of Charles Carroll, of Carrollton, is giving up \$800,000 for love. The will of J. Mortimer Coward, her first husband, stipulated that her life interest in his estate, if she remarried, should be reduced from one third of the estate to \$500,000 the balance going to her son, now six years old.

OTTAWA, Ont., March 15.—The Government intends shortly to introduce a bill amending the Copyright Act, Hon. Fernand Rinfret, Secretary of State, informed Leon J. Ladner, (Conservative North) in the House of Commons last night. Mr. Ladner had a bill on the order paper dealing with this, but on receiving the assurance of the Government's intention from the Secretary of State he allowed his bill to stand.

GOSSIP IN THE
WORLD OF FINANCE

Furnished by
Johnston & Ward.

INCREASE IN DIVIDEND STOCK
PURCHASE EXPECTED

NEW YORK, March 15.—Advisory Service says today: With the call money available at the lowest rate in years, you can expect an increase in purchases of stocks with dividend yields which are large enough to cover current low brokerage carrying charges and leave an income profit besides. For example a four dollar dividend payer selling at fifty-dollars yields eight per cent. Assuming a carrying charge this year of say four per cent to five per cent, there will remain an excess dividend yield profit of from three per cent to four per cent on the investment without taking into consideration possibilities for market enhancement.

Goodyear, suggested earlier in the week, discloses a strong call of buying which appears intent on placing this stock in a higher range. It is a type of buying which we would be inclined to follow.

REACTION NOT PLEASING

NEW YORK, March 15.—Today's Wall Street Mirror says: The reaction of the market to the reduction in the rediscount rate, the last big piece of constructive news due for some time, cannot be said to have been pleasing. The market now faces more bad news than good. First quarter reports will soon be coming to hand and these in numerous instances will not be good reading. Under the circumstances, the feeling is that profits should be taken on rallies with the idea of replacing stocks thus sold lower down. An out and out bearish attitude is out of the question for the reason that with these seasonal bad reports out of the way the market will be open for fresh advances later in the year. The cheap money situation coupled with low rediscount rates will in the long make for better stock market prices. The selling movement, which we are not unlikely to witness, will not hit all issues because some companies having done very well. However a policy of extreme caution should now be maintained in making market commitments.

The books of the Freeport Texas Company will close on Monday and, in view of the battle against the management, the situation is quite interesting.

MARKET SUMMARY.

Vanadium Corporation in 1919 earned \$4.89 a share against \$4.53 in 1928.

Curtiss Aeroplane and Motor Co. omits quarterly dividend of 50 cents due at this time.

Columbian Carbon in 1929 earned \$7.83 on 46,929 shares against \$6.39 on 442,344 shares in 1928.

Ludium Steel common holders get right to subscribe to one additional share at \$33 for each five shares held.

National Cash Register Company, 1929 earnings \$6.24 a share on 1,900,000 Class A and 400,000 Class B common shares, against \$5.21 a share on 1,100,000 Class A and 400,000 Class B shares in 1928.

Public Service Commission granted petition of Niagara Hudson Power corporation authorizing it to acquire and hold not exceeding 450,000 shares, or about fifty per cent, of common stock of Central Hudson Gas and Electric Corporation.

Friday's range of average price of thirty industrials, high 275.82, low 270.38, last 271.34 off 2.13. Twenty rails, high 132.56, low 131.60, last 132.08, off .24.

INTEREST AT LOW EBB

MONTREAL, March 15.—Financial Service says today: The local market yesterday gave only a repetition of what has occurred throughout the week, with trading again on a very light scale and few changes of importance to be seen. The strength of the public utility stock in New York found no reflection whatsoever in the local list. On the whole, interest in the local list was at low ebb.

Winnipeg Electric sold down to 40 yesterday, which equalled the record low touched in the panic of last November. Expenditures by the company on capital account, over the past twelve months, ran into several million dollars. Net income for the past year is expected to show an increase of over \$200,000, which is equal to about \$1.25 a share on the 200,000 shares outstanding. In 1928 the company earned \$4.32 a share on the common.

Talk is being revived with regard to Canadian Car's war claims, and it is stated that there is a good possibility of this being cleared up before the end of the current year. This has resulted in some buying of the security. The impression prevails that Canadian Car would only be relieved about 25 per cent of its entire claim after all expenses are deducted for lawyers' fees and litigation. As the total of the claim, with interest, is in the neighborhood of \$6,000,000, it is evident that the company, even in such an event, would still receive approximately

POWER STOCKS
WEAKER TODAY
AT MONTREAL

Canada Power and Paper Showed Only Gain at Exchange Opening This Morning, Being Up a Small Fraction.

MONTREAL, March 15.—Further weakness in the power stocks featured the opening of the Montreal Stock Exchange today. Montreal Power dropped a point to 131. Power Corporation and Shawinigan Power were each off a half at 70 1/2 and 73, respectively.

The balance of the list was generally weak, Nickel slipping 1/4 to 38 1/2, Canada Car off 1/4 at 26, Dominion Bridge off 1/4 at 70, Canadian Industrial Alcohol off 1/4 at 8 1/2.

Steel of Canada at 44, Famous Players totting trust at 49 and Smelters at 22 1/2 were each off a point.

Canada Power and Paper showed the only gain, being up a small fraction at 13 1/4.

QUOTATIONS LOWER TODAY
ON NEW YORK EXCHANGE

NEW YORK, March 15.—With few exceptions, stock prices were lower at the opening of today's market on a renewal of the liquidation which began towards the close of yesterday's market. Westinghouse Electric, Safeway Stores and Worthington, which had been a point or more, and American Telephone, American and Foreign Power and Kennecott Copper showed initial fractional recessions, the last named touching a new low level for the year. American Tobacco "B" opened 1 1/2 points higher, and Simms Petroleum crossed 31 to a new 1930 high.

LITTLE TRADING TODAY ON
WINNIPEG GRAIN EXCHANGE

WINNIPEG, MAN., March 15.—Little trading developed at the opening of the Winnipeg Grain Exchange today, when quotations in all three futures were fractionally lower.

Decreased quotes at Liverpool coupled with absence of overnight export trade, caused the initial decline.

May was 1/2 to 1/2 cent lower at \$1.02 1/2 to \$1.03 1/2, July lost 1/4 to 1/2 cent at \$1.03 1/2 to \$1.04 1/2, October was 1/2 to 1/2 cent lower at \$1.06 1/2 to \$1.07 1/2.

\$1,500,000, which would be quite a tidy sum to add to its already fair-sized surplus account.

The official announcement by the president of Canada Steamship that new financing was contemplated for the near future, came as a surprise to the street. The publication of the annual statement for the past year, which revealed a considerable falling off, simultaneously with the announcement of new financing did not result in any appreciable decline in either the common or preferred shares, indicating that the public is satisfied that the financing is in the best interests of the company, and also that the future of the Canada Steamship Lines warrants a feeling of confidence.

Maunagement of dividends of Canada Wire and Cable "B" is predicted for the near future.

BROKERS' OPINIONS

Hornblower & Weeks—We expect the lower Federal Reserve discount rate to supply the necessary stimulus for a continuance of the upward trend which, despite the recent irregularity of the market, never did reverse itself.

Frazier, Jenks and Co.—It should be remembered that stocks are discounting the future recovery rather than reflecting the current depression. The depression was discounted last November.

Trading forecast and factors—Further weakness in special issues is expected to cause continued irregularity in today's short session.

SEALING FLEET SLAUGHTERS
63,000 SEALS IN TWO DAYS

Word Received at St. John's, Nfld., Today of Progress Being Made by Sealers.

ST. JOHN'S, Nfld., March 15.—Sixty-three thousand seals have been slaughtered by the sealing fleet in two days according to word received here today. The vessels with their respective catches are as follows: Nasconic, 12,000; Ungava, 14,000; Imogen, 14,000; Eagle, 7,000; Viking, 6,000; Neptune, 3,000; and Ranger, 2,000.

The Thetis and Terra Nova in the Gulf report slow progress because of heavy ice.

THE "TIGER" HELD
NO HOPE FOR
WORLD PEACE

Clemenceau Once Said that It Was Possible for Nations to Live Together in Peace, But Not Probable.

NEW YORK, March 15.—George Clemenceau, "Tiger of France," never saw any likelihood of world peace becoming an accomplished fact according to his own statement quoted in a biography entitled "Clemenceau, b Jean Martet," his wartime secretary, published here recently.

In reply to a question as to whether he thought there would always be war Clemenceau said: "Perhaps there will come a day when the peoples will come together in a fraternal embrace to the sound of the flute, when alone among all things that are born, live and die, man will live out his allotted time in peace. It isn't probable; it is possible."

Mr. Martet joined Clemenceau's secretarial staff in 1915, became his head in 1917, and served until Clemenceau's retirement. In 1927 he began the series of conversations by which this volume is the result. During these conversations, the publisher, Clemenceau put at Martet's disposal the full documentary records of his life, and expressed his opinion about everything from Aeschylus to Afghanistan.

Clemenceau believed that the successful politician must be prepared at all times to break with friends.

SAFETY POINTS
ARE PREPARED
FOR AVIATORS

Six Facts Pointed Out Which Would Tend to Prevent Accidents While Planes Are in Motion.

NEW YORK, March 15.—The "fool proof" aeroplane hasn't been made as yet and probably never will be but there has been progress in insuring safety of flying, the Daniel Guggenheim Fund Committee said in making public its final report that on the international safe aircraft competition. In summarizing the results of the test the committee, headed by Orville Wright as chairman, said that the following revolutionary safety devices had been proved practicable.

Automatic leading edge slots. These amount practically to an extra narrow wing, attached to the forward edge of the wing or wings and giving them greater lift. Where the edge slot is immovable it proved to be a deterrent to high speed and of unproved value at low speed.

Flaps either automatically or manually controlled. These are extensions on the rear edge of the wings, which can be lowered to decrease landing speed or to give lift in rising.

Floating ailerons. These appear to be extensions of the lower wing tips but do not contribute to the supporting areas of the lower wings. They differ from all other types of ailerons, the report said, "in that they at all times assume automatically a position parallel to the relative wind set up by the motion of the aeroplane in flight."

Long stroke oleo landing gear with provision for locking in the position assumed under load. This is a shock absorber fitted to the usual V type construction landing gear. It allows steeper angle in landing.

Extreme range adjustable stabilizer. This is the tail plane, larger and with a greater range than usual, making it easier to control when the lead in the plane is changed.

Brakes. Independent brakes on each wheel, which aid in grand manoeuvres.

Preparing to travel into strange land.

Expedition Will Study Effects of Volcanic Eruptions in Valley of Ten Thousand Smokes.

WASHINGTON, March 15.—An expedition into the Valley of Ten Thousand Smokes and the Katmai Volcano region in Alaska during the coming summer to study the closure of great earth wounds caused there by volcanic eruptions has been announced by the National Geographic Society.

The party will be led by Dr. Robert F. Griggs, who discovered the famous smoky valley in 1916, when it was described as a "seething inferno of hot rocks, steam and acid gases." It was later made part of a national monument by President Wilson.

Several possible results of the expedition are advanced by the Geographic Society. Recent studies, it was said, indicate that many of the world's ore bodies originated under just such conditions as those exemplified in the Valley of Ten Thousand Smokes. It was held possible also that the vents through which vapor is poured into the valley may be dying out, and eventually will form hot springs like those of the Yellowstone National Park. Temperature studies will be made to compare with data gathered by previous expeditions.

Conditions in and around the valley after the last eruption, it was said, were comparable to the condition of the world itself in the remote past, before soil was formed. A study of the plants growing in the pumice-covered areas, therefore, was described as a clue to the processes of humus formation, and a possible solution of many still unsolved agricultural problems.

leaving the last eruption, it was said, were comparable to the condition of the world itself in the remote past, before soil was formed. A study of the plants growing in the pumice-covered areas, therefore, was described as a clue to the processes of humus formation, and a possible solution of many still unsolved agricultural problems.

NEW PROPOSAL IS ADVANCED BY VETERANS

Suggestion Will Be Made to Government that in Case of War Aggravation of a Pre-War Disability, Latter Should in No Case Be Estimated at More Than Ten Per Cent.

OTTAWA, Ont., March 15.—War veterans' representatives, through the Canadian Legion, will propose in their legislative proposals to the Government that in the case of war aggravation of a pre-war disability at the time of enlistment such disability should, in no case be estimated at more than ten per cent.

Under the present Pension Act, where there is a disability that existed prior to enlistment, the Pension Board may assess the amount of aggravation caused by war services, and in some cases, legion officials claim, the Board has ruled in cases of men with one hundred per cent disability that only twenty-five per cent was war aggravation, deciding the men were seventy-five per cent disabled on enlistment.

In the view of veterans' officials, no doctor would have permitted a man to go to war with seventy-five per cent disability.

MAIN CAUSE OF AIR FATALITY IS DETERMINED

"An Error of Judgment," Verdict Arrived at by Board of Enquiry Investigating Cause of Accident Which Claimed Life of Canadian "Ace."

OTTAWA, March 15.—An "error in judgment" on the part of Lieut.-Col. William G. Barker, V.C., D.S.O., M.C., caused the airplane crash in which he lost his life here last Wednesday, according to the finding of an official board of enquiry.

The primary cause of the accident was an error in judgment on the part of the pilot in performing aerobatics without sufficient altitude for safety, says the report of the investigating board, issued early last night.

Eye-witnesses of the fatal crash, which occurred at the Rockcliffe aerodrome, when Col. Barker took a new Fairchild bi-plane "up for a flip," declared the machine seemed to stall in mid-air when the famed aviator attempted a steep climb from an altitude of two hundred feet. The opinion was expressed by other airmen at the scene that Col. Barker apparently had miscalculated the ability of the ninety horsepower engine with

QUEBEC CITY FIRM MADE VOLUNTARY ASSIGNMENT

Firm of Lambert, De Lottinville and Company Have Assets of \$250,000, Exceeding Liabilities by \$18,000.

QUEBEC, March 15.—The firm of Lambert, De Lottinville and Company, which made a voluntary assignment Thursday for the benefit of their creditors, have assets of \$250,000, exceeding their liabilities of \$232,000 by \$18,000, according to a statement by the registrar of bankruptcy.

The failure of the firm is attributed to the recent failure in Toronto of a mining brokerage firm which was heavily indebted to the assignee.

The plane was equipped to pull it through a sharp climb. The board of enquiry, comprised of three members of the civil aviation branch and set-up by order of Col. J. L. Ralston, National Defence Minister, found that the aircraft was airworthy immediately before the fatal flight, and showed no evidence of having become otherwise during the last sky ride of the national hero.

"The pilot was a commercial pilot in good standing," says the board's report, "and was well at the time of his flight. No air regulations were broken and the board recommends that all pilots be cautioned and advised most strongly against carrying out any form of aerobatics at low altitudes."

BURNS PROVED FATAL TO TOT AT DIXVILLE

Little Daughter of Mr. and Mrs. Fauteux Pulled Dish of Hot Water Over Herself.

DIXVILLE, Que., March 15.—A very sad accident occurred here on Wednesday, which resulted in the death of a little daughter of Mr. and Mrs. Fauteux, who live about two miles from the village. In some way the little child pulled a dish of hot water onto herself, receiving severe burns which terminated fatally about twenty-four hours later. The occurrence seems doubly sad as the family have lost two children during the past year, previous to this one.

GENERAL NOTES

The many friends of Mrs. Edgar Humphrey will regret to learn that she is again quite indisposed. Mrs. Humphrey is spending some time at the home of Mr. and Mrs. Fred McCoy, Parker Hill.

Owing to prevailing illness, the attendance at the young people's service on Wednesday evening was not as large as usual, but a very good meeting was held. Mr. Harold McIntyre fulfilled the duties of chairman. After the opening song service, prayer was offered by Mr. Thomas. Responsive reading, Mr. Kenneth Norris, and Scripture lesson, Master Tom Robinson. Enjoyable solos were rendered by Mrs. Fred McCoy and Mr. Swales. The topic was in charge of Mr. Ervin McIntyre and was taken from the text, "Great peace have they who love Thy law, and nothing shall offend them." The hymn for the roll call was "Great peace" and "Love." After a hymn, the service closed with the mizpah benediction.

Mayor E. W. Damon and Mr. T. J. Grady attended the meeting of the county council at Ayer's Cliff on Wednesday last.

Mr. E. B. Parker, of Coaticook, was in town Tuesday on business.

Mr. Kenneth Drew, who has been here with his brother, Mr. Cyril Drew, and family, is leaving shortly for Coaticook.

The friends of Mr. H. H. Howe, of Montreal, formerly of this place, will sympathize with him in his recent bereavement in the death of his wife, which occurred at his home on Monday morning following a painful illness which extended over a year. Deceased is mourned by her husband, one daughter, Olive, besides other relatives and friends in this city.

The Ladies' Mission Circle held their regular meeting at the home of Mrs. Parker on Thursday afternoon, with the president, Mrs. E. McIntyre, in the chair. After the missionary lesson, a duet was given by Mrs. Parker and Miss Jones. The meeting closed with a hymn, and the ladies engaged in serving on articles for the box for India.

A little maple sugar and syrup have been made by the farmers in this vicinity.

Mr. W. T. Parker recently spent a couple of days in Montreal and attended the funeral of his sister-in-law, the late Mrs. Howe.

All are sorry to hear of the illness of Little Marguerite, daughter of Mr. and Mrs. Raymond Robinson, who is attended by Dr. Walters, of Coaticook.

NO COMMENT ON CHANNEL PLANS BY GOVERNMENT

Government Officials Refuse to Discuss Proposal to Deepen St. Lawrence River Channel from Lake Ontario to Prescott—Question May Be Debated in House.

OTTAWA, March 15.—Government officials here were reticent today to discuss the situation between the United States and Canada in respect to the negotiations for deepening the St. Lawrence river channel from Lake Ontario to Prescott. The general belief is that a debate will be launched in the House of Commons in the near future over it and under such circumstances little information is given out except through the medium of questions and answers in the House itself.

Despatches from Washington, indicating that Canada was prepared to go ahead with the deepening of the stretch of the waterway on the United States side, as well as the Canadian side, were approximately \$1,750,000, could be neither confirmed nor denied. There is precedent for such a step in the case of St. Mary's river, where the United States had done considerable improvements to the channel on the Canadian side.

The Welland ship canal will be opened around July. This will permit the big upper lake boats to reach Lake Ontario. The charts of the Government engineers show that the boats could proceed as far as Alexandria Bay, N.Y., which is the heart of the Thousand Islands. Here some shoals would have to be removed to make the channel wide enough for such big craft. These are on the United States side of the river and the original plan was for them to be blasted out by the United States. No further difficulty would be encountered until the boats reach Brockville narrows, some three miles above Brockville. Here a number of shoals have to be removed, which is being handled by the United States. Canada was to remove these, as they are in Canadian territory.

Canada went ahead and last summer awarded contract for removal of the Brockville narrows shoals. Work was well under way when the cold weather set in. It will be resumed in a few days. Meanwhile the same progress was not being made in the United States. The appropriation for the work was not reached in Congress last year and so no steps were taken to start the undertaking.

The situation is very important from a Canadian standpoint. Large terminals are being constructed at Prescott to accommodate the upper lake ships when they arrive loaded with grain. If the ships were not able to reach Prescott, then the use to which this terminal would be put would be very limited.

There is the alternative of making an all Canada route but this would entail heavy expenditure.

Washington despatches quote Senator Henry J. Allen, of Kansas, as stating, after a conference with President Hoover, that permission

A. R. GRAUSTEIN IS PRESENT AT MILL OPENING

Dalhousie Newsprint Mill of International Paper Company Opened Yesterday

DALHOUSIE, N.B., March 15.—Formal opening of the Dalhousie Newsprint mill of the New Brunswick International Paper here yesterday constitutes an outstanding industrial event in the history not only of the province but also in the affairs of the company. The new mill, the most modern of its kind, will, when completed, have four machines having a capacity of 550 tons of newsprint. Two machines with a capacity of 125 tons each, are now installed and it is proposed to set up two new additional machines during the summer.

The official ceremony was attended by an important group of leaders in the political life of the province and directors of the paper company. A luncheon was featured by addresses by A. R. Graustein, president of the company; Hon. J. B. B. Baxter, Premier of New Brunswick; Hon. Charles D. Richards, Minister of Lands and Mines, and George L. Miller, provincial forester.

Particularly interesting in Mr. Graustein's speech, in addition to his reference to the extensive investment in the province of New Brunswick by the company, was his comment on the International's policy on newsprint capacity. While for many years the company has been referred to as the world's largest producer of newsprint, the company's president indicated that for 1929 the company produced only 17.6 per cent of the total output on the North American continent, while fifteen years ago the company produced 18.9 per cent of the total. Mr. Graustein also took occasion to reiterate the company's intention to build a mill at Miramichi, in accordance with the agreement made with the province of New Brunswick. The delay in starting that construction, he stated, had been due to conditions beyond the control of both the company and the province.

Over 600 guests were present at the luncheon, including representative figures in the political and financial life of the province, and the official party from Montreal and New York included company officials, directors, representatives of the pulp and paper industry, financial houses and press representatives. The official party from Montreal included: From the company, Mr. and Mrs. Archibald R. Graustein, General and Mrs. J. B. White, Mr. and Mrs. N. C. Head, Mr. and Mrs. G. Gordon Gale, Mr. E. A. Charlton, Mr. H. J. Webb, Mr. T. B. Peck, Mrs. E. Kay, Mr. A. D. Huff, Mr. F. A. Aufferman, Mr. J. A. Henderson, Mr. Allen Brown, di-

will be given Canada to do this work in the United States and the channel will be made a minimum of twenty-seven feet deep. The contract in connection with the Brockville narrows shoals calls for their removal to a depth of twenty-five feet.

rectors of Canadian International Paper Co. Senator Smeaton White, Mr. Victor M. Drury, Mr. J. A. Eccles, Mr. Russell C. Ronalds, Col. J. H. Price, Mr. Geo. M. McKee, Mr. Edward Beck, Mr. R. S. Kellogg, Mr. R. H. Dean. Among the New Brunswick party at the opening ceremony were Senator Walter E. Foster, Howard P. Robinson, director of the Canadian International Paper and well-known New Brunswick financier and publisher; Hon. A. A. Dysart, M.L.A.; Hon. J. B. B. Baxter, Premier of the province; G. D. Berace, manager of the Dalhousie Paper Mills, and C. W. Nelson, mayor of Dalhousie.

Canadian Exchange

(Continued From Page 1.)

and buying was still highly selective. One or two Canadian issues attracted the attention of buyers following a period of inactivity, and higher prices for Ontario Silknit and Waterloo Manufacturing reflected the belief that both companies have experienced somewhat improved business during the last few months. In the main, however, industrial stocks were left to follow the line

of least resistance, and the Canadian market relied to a great extent on price tendencies at New York. Individual price changes were not of major importance. Massey Harris, Walker's, Cockshutt Plow, Steel of Canada common, Brazilian Traction and the food stocks show little change from their prices of a week ago, but steel shares in general, oils and leading Canadian utilities have been pressed downward. British American Oil at 36 1/4 compares with 36 1/2 last week, after selling as low as 35 1/4, while Imperial Oil at 24 1/2 and International Petroleum at twenty compare with 24 and 19 1/4 a week ago.

Mining issues moved in highly irregular fashion during the week, and price changes were extremely confusing to those who seek some definite indication of the real trend in mining share values. Losses predominated, however, and in spite of fluctuations, which at times were meaningless, the majority of mining issues appeared to be governed by the lack of constructive news concerning the financial situation in Montreal. Noranda at \$39.75 yesterday was more than \$2 below its corresponding price of a week ago, and other than a late recovery in Consolidated Mining and Smelting, which rose to \$330 yesterday, price changes in Canadian mines could not be termed significant.

Do Some Figuring and You'll Decide on ICE Refrigeration

Work out for yourself in dollars and cents just how much you save yearly with ICE, the safe, silent, reliable refrigerator, that alone preserves the full original flavor of food and carries away odors and impurities. You'll find its cost is only a fraction of that of any mechanical chemical form of refrigeration. Not only is there no heavy outlay, no money tied up in

apparatus, no interests nor depreciation charges, but there are no power bills to meet monthly, no service charges for oil or expert attention, nothing to get out of order and no money spent for refrigeration you don't require. For a few cents a week the ICE man supplies just what you want and only when you want it.

CREATION

(Continued From Page 1.)

county will be added and the enlarged area will be divided into two, one called Dorchester, and the other Garneau, in honor of the great Canadian historian, grandfather of Leon Garneau, K.C., and Hector Garneau, city librarian of Montreal. This means six new counties, and will mean a Legislative Assembly of 91.

Afternoon Session Was Brief.

A full session of the House yesterday afternoon was relieved only by its brevity.

Premier Taschereau put through his measure respecting Justices of the Peace. This is to provide for care of the newer regions of the province.

Hon. A. R. McMaster, Provincial Treasurer, got third reading for his bill to amend the Beneficiaries Seizure Act. He explained that when this act was passed the articles of the Civil Code affected were not specified, as is claimed in some quarters should have been done, and the present bill is merely to remove any question of legality.

Premier Taschereau's bill to help farmers get electricity at lower prices was distributed yesterday. It contains but one clause, namely, that any municipality other than a city or town municipality may by by-law, contribute, by means of a loan or otherwise, to half the cost of the installation, within and without the territory of the municipality of poles, wires, conduits, and apparatus for the transmission of the electricity in such municipality. Such by-law, even if it enacts a loan, shall be subject only to the approval of the Lieutenant-Governor in Council.

The bill, also in the name of Premier Taschereau, to prevent a municipality selling its public utilities; reads that "no municipality may sell, lease or otherwise alienate any public utility service belonging to it, except by a by-law approved by the affirmative vote in number and in value of the elector-proprietors who have voted, and by the lieutenant-governor in council."

LION TAMER'S HEROIC EFFORT PROVED FATAL

CASSEL, Germany, March 15.—A woman lion tamer's heroic attempt to separate a battling lion and bear in a circus menagerie wagon proved fatal to herself and to the beasts.

The tamer entered the cage, armed only with a wire whip, and wrenched the bear from the lion's claws. Suddenly the lion leaped on the woman and clawed her. Attendants dragged her from the cage after shooting the lion. The bear died from its injuries.
