SHERBROOKE, CANADA, THURSDAY, APRIL 21, 1932.

Thirty-Sixth Year.

CENTRALIZED RAILWAY CONTROL IS SUGGESTED BY STANSTEAD MEMBER

John T. Hackett, Again Discussing "Canada's Greatest Problem," Declares that Elimination of Duplicate Freight and Passenger Services Would Save Two Roads Eighty Million Dollars a Year—Says Financial Doom of Canada Conceded if Practice Is Continued of Adding Millions of Dollars to National Debt Each Year.

Ottawa, April 21.—Centralized control of the Canadian National and Canadian Pacific Railways as a temporary solution to "the problem surpassing all others in perplexity and peril," was urged in the House of Commons yesterday by John Hackett, Conservative member for Stanstead. Elimination of waste and duplication, possible only under pooled control, would save the two roads about \$80,000,000 a year, he declared.

Canada's two continental roads must for the present remain separate entities, said Mr. Hackett. But as a temporary and conservative measure, until a permanent solution to the railway problem is evolved, a central board of control should operate the two systems as one. Duplicating freight and passenger services might be eliminated, overhead charges reduced and a general saving of twenty-five per cent. on operating costs made.

As an object lesson to Canadians and to impress upon them the vast sums of money that must be raised every year for the Government-operated system, Mr. Hackett suggested a special "Canadian National Stamp Tax." It would be payable on every retail purchase except food, and might be set at one-half of one per cent. The financial doom of Canada was conceded, he said, if the practice continued of adding millions of dollars to the national debt each year.

While the House proceeded with the budget debate, the Senate continued with Senator A. D. McRae's proposal for Dominion control of radium production and distribution. Senator F. L. Schaffner suggested the establishment of cancer clinics, with both Dominion and Provincial Governments co-operating. This would combine Government control of radium and a system of expert treatment of cancer.

The Dominion may be trusted to safeguard Canadian rights in connection with the St. Lawrence waterways development, said Hon. Alfred Duranleau, Minister of Marine, speaking in the budget debate. A tendency existed in some quarters, he said, to turn the scheme into a political football, and "strange voices and strange arguments are heard, particularly in Quebec."

"The Government," proceeded the Marine Minister, "never will relax its vigilance over the safeguarding of Canadian rights, no matter whether those interests may be found in Quebec, Ontario, Montreal or the head of the lakes."

Percy G. Davies, who was elected as a Conservative in the Athabasca, Alta., bye-election, was introduced to the House by Premier R. B. Bennett and Hon. Hugh Guthrie, Minister of Justice. He took his seat as the youngest member of the House.

Others taking part in the budget debate were: Hon. Fernand Ginfret, Liberal, St. James, and G. C. Coote, U.F.A., MacLeod.

LICENSING OF INSURANCE COMPANIES FORCES DEBATE

Ottawa, April 21.—Considerable time was spent yesterday by the Senate banking and commerce committee studying the problems of the foreign mutual and reciprocal insurance companies operating in the Dominion. The bill governing the operations of insurance companies generally was under consideration, and numerous clauses dealing with technical features of insurance work were given rapid approval.

But when the clause requiring the foreign mutuals to maintain reserves in Canada for the protection of their Canadian policy holders came up a long discussion ensued. Some Senators argued that since Canadian companies operating in Canada were required to hold their assets for the benefit of Canadian policy-holders, foreign companies should operate under the same conditions. On the other hand, some insisted that foreign companies might discontinue their operations in Canada and thus deprive Canadians of low rate insurance.

Aime Geoffroy, K. C., representing the New England mutuals, declared it had never been a policy of these companies to segregate their assets in any particular states for the benefit of the assured in those states. The companies had no objection to depositing money in Canada; they had, as a matter of fact, large investments in the Dominion, but they did protest against being required to earmark these for the exclusive benefit of Canadians. Their assets were held for the general benefit of all their policy-holders.

The argument of Mr. Geoffroy was regarded by Senator Laird as the best answer to the question propounded. The Canadian manufacturers operated under the protection of a very high tariff, but apparently the Canadian insurance companies were to be compelled to operate without any protection whatever. Canadian companies operating in New York were required to deposit \$500,000 in that state before they could commence business.

A total of 2,782 mutual and reciprocal companies had gone into liquidation since 1891, J. A. Mann, K. C., told the committee. In that period only one Canadian company—the Dominion Gresham—had gone to the wall. Mr. Mann said he was representing over 300 "line" companies in Canada.

Any foreign insurance enterprise entering the New York field had to make a deposit of half a million dollars, and also had to maintain \$200,000.

NO PLACE FOR UNEMPLOYED OF UNITED STATES

Government Officials and Mounted Police Co-operating to Prevent Entry of Jobless into Dominion.

Ottawa, April 21.—Immigration and customs officials of the Dominion Government, with members of the Royal Canadian Mounted Police, are closely co-operating to prevent the unemployed of United States from entering Canada.

Provisions of the Immigration and Labor acts will be applied in a strict manner to job seekers who attempt illegal entry into Canada. Some months ago an order-in-council, especially dealing with contract labor, was passed. These provisions, which will likewise be rigidly enforced, are aimed to prevent the entry of people who come to this country under a contract of employment or to negotiate for unemployment.

Washington, April 21.—Subpoenas for a score of traders and brokers whose names appear on the list of short-sellers furnished by the New York Stock Exchange, have been issued by the United States Senate Banking Committee.

MORATORIUM IN CONNECTION WITH PROPERTY MORTGAGES IS REFUSED

Premier Taschereau Claims Such a Step Would Result in Stagnation of Building and Construction Work, and Would Be Very Detrimental to Business Life of the Province.

Quebec, April 21.—Claiming that it would result in stagnation of building and construction work, Premier L. A. Taschereau yesterday refused to grant a moratorium in connection with mortgages on properties in the province as requested by a delegation from Montreal.

The Province of Quebec would certainly not consent to such a step, he said, pointing out that if a moratorium was instituted financiers would not be prepared to loan money on mortgages, and the result would be very detrimental to the business life of the province.

Asked whether the Quebec Government would be able to do anything in regard to upwards of five hundred families of local unemployed residents, who are in danger of being evicted because they cannot meet their rental obligations on May 1, Premier Taschereau stated that he had not been approached on the matter.

"If this situation really exists and we are approached, the Government will consider what can best be done to relieve the distress," the Premier said.

BUILDING OF MONTREAL BOULEVARD POSTPONED

Quebec, April 21.—The fifteen million dollar metropolitan boulevard will not be proceeded with this year, Alderman Leon Trepanier, who headed a delegation from the City Council of Montreal, announced following a conference with Premier L. A. Taschereau here yesterday.

This is due to the fact that owing to necessary expropriations, the cost to the city alone would be in the neighborhood of \$9,000,000 and that the Federal Government, which with the Provincial Government was to have paid a third of the cost of construction, has intimated that it is not prepared to do so for the present.

The delegation discussed the question of the continuation of unemployment relief works from May 1 until July 1, and was advised by the Premier that the Quebec Government would be prepared to permit the extension, if it is also granted by the Ottawa Government. He stated that Montreal would endeavor to find out from Ottawa what the Federal Government proposed to do in the matter.

A MINIMUM WAGE LAW FOR BOYS WILL BE REQUESTED

Montreal, Que., April 21.—The passage of a law whereby wages for boys shall not be any less than the corresponding wages set for girls is the best answer to the question propounded. The Canadian manufacturers operated under the protection of a very high tariff, but apparently the Canadian insurance companies were to be compelled to operate without any protection whatever.

Canadian companies operating in New York were required to deposit \$500,000 in that state before they could commence business. A total of 2,782 mutual and reciprocal companies had gone into liquidation since 1891, J. A. Mann, K. C., told the committee. In that period only one Canadian company—the Dominion Gresham—had gone to the wall. Mr. Mann said he was representing over 300 "line" companies in Canada.

Any foreign insurance enterprise entering the New York field had to make a deposit of half a million dollars, and also had to maintain \$200,000.

ORDER BROKERS TO TELL ABOUT SHORT SELLING

Activities of 350 of the Largest Short Traders to Be Investigated by United States Senate Committee on Exchange Operations.

Washington, April 21.—Built up to a swift climax by the sudden summoning of a score of brokers, the United States Senate's stock market investigation reopened today in an atmosphere charged with expectancy, and with the prospects that names of many big short sellers would be published at last.

Richard Whitney, president of the Exchange, was recalled once more to testify, but interest centered on the prominent New York and Chicago brokers subpoenaed before the committee with the books and records of their short accounts. They were to testify after him.

Committee agents had separated from the list of 24,000 short sales submitted by Whitney, 350 of the larger short accounts, involving 2,500 shares or more. From this list of big traders, they selected the names of the brokers who were subpoenaed yesterday in a sudden raid on Wall Street.

Though the entire list of short traders has been withheld, William A. Gray, committee counsel, said the 350 names would be made public today, if Chairman Norbeck consented. The list is a full record of short accounts on the books of the Exchange members at the close of business on April 8th. It gives the names of the brokers and the clients for whom the accounts are maintained.

Harry Content, of H. Content and Co., who has been active in the market for years and whose name has been connected with big market operations, was personally subpoenaed, with the books of his firm. The other subpoenas were issued against the firms and their records.

whereby in the case of boys under the age of 13 it was provided that the wages must not be less than the rates set by the Women's Minimum Wage Commission in that province. Existing industrial depression has naturally affected the operations of the Quebec Women's Minimum Wage Commission, and the adequate carrying out in effect of the awards which have been made in the different trades.

The main problem for the Commission is that batches of girls are sent to them by employers with the story that they are to be dismissed unless the Commission will permit their further employment at apprenticeship wages. The Commission has power to do so at discretion, and the pressure for such permits has been very heavy of late. It is largely upon refusal to issue such permits on a wholesale scale, which would have the effect of nullification of the awards themselves, that the threats to dismiss girls on a wholesale scale and replace them with young boys from 14 years upwards have been made.

MACDONALD AND TARDIEU VISIT HENRY STIMSON

Private Conference Held at Stimson's Villa After Arrival of the Two Premiers in Geneva Today.

Geneva, April 21.—Prime Minister Ramsay MacDonald of Great Britain and Premier Andre Tardieu of France met with Secretary of State Henry L. Stimson today in a private conference at Secretary Stimson's villa shortly after the arrival of the two Premiers from Paris on a morning train.

Secretary of State Stimson called for Mr. MacDonald at the latter's hotel shortly after he and Premier Tardieu arrived on the train from Paris.

Immediately after the British and French Premiers arrived a bustle of preparation began for the conferences of the officials of the four powers. In the meantime, the Disarmament Conference resumed its debate on the resolution for "qualitative" disarmament presented yesterday by Sir John Simon, British Secretary of Foreign Affairs.

Sir George Perley, head of the Canadian delegation, supported the Simon resolution warmly, declaring that the abolition of offensive weapons would increase confidence through the world, which would be the best guarantee of peace.

After a brief conference with Secretary Stimson, Prime Minister MacDonald came to the arms conference session, arriving at the same time as Chancellor Heinrich Brüning of Germany. They came in just before Ambassador Hugh Gibson, chief of the American delegation, rose to speak.

Joseph-Paul Boncour, French delegate, had announced that France was unable to accept Sir John Simon's proposal in its present form.

Ambassador Gibson reported Sir John Simon's resolution as in full harmony with the United States proposal. He carefully explained the American attitude was in no way intended to prejudice the French plan for armament limitation.

WILD BLIZZARD SWEEPED ACROSS CALGARY TODAY

Communication Lines Snapped as Snow and Sleet Rode into Rich Farm Belt on High Wind.

Winnipeg, April 21.—A wild spring blizzard that raged through Southern Alberta until early morning, today had snapped communication lines, broken and nearly two hundred telegraph and telephone poles, and left the Calgary district entirely cut off from communication east. The storm centered on a region extending one hundred miles east of Calgary.

Snow and sleet, which rode into the rich farm belt on a high wind, chasing busy farmers from the land and causing heavy destruction, was four feet deep in some areas today.

KING WINTER AGAIN REIGNS IN FULL FORCE

Los Angeles, April 21.—King Winter, playing a belated encore, left blizzards, snow, cold rains, high winds and badly interrupted shipping and air schedules in various sections of the west today. Several fishing boats were destroyed when driven ashore by a wind that reached a velocity of fifty miles an hour. No lives were lost.

Coast guard cutters endeavored today to save the fishing barge Melrose, which snapped its anchor during the night and drifted toward the rocks near San Pedro. Five men were aboard the vessel and fear was expressed for their safety.

AVIATRIX AND COMPANION HELD FOLLOWING SHOOTING

Miami, Fla., April 21.—Mrs. J. Keith-Miller, Australian aviatrix, and Captain W. M. Lancaster, an associate in several flights here and abroad, were held in county jail today for investigation of the shooting early today of Haden Clark, aeroplane pilot, at their home here. Statements given police by the two admitted a wound in Clark's head to a suicide attempt.

In a statement to police, Mrs. Keith-Miller said she was awakened shortly before daylight by Lancaster, who told her Clark had shot himself.

She said she went with Lancaster to the place where Clark's body lay and saw a pistol under the body.

Portsmouth, Ohio, April 21.—A passenger train on the Norfolk and Western Railroad was wrecked by an act of sabotage, twenty miles east of here early today, and two of its crew were killed.

Railroad investigators said the wreck was caused by the malicious removal of four bolts from a switch.

GODBOUT HEARD BY COMMITTEE ON BANKRUPTCY

Quebec Complains that Under Present Law Trustees Go Among Farmers and Solicit Them to Make Assignments.

Ottawa, April 21.—Hon. A. Godbout, Quebec Minister of Agriculture, is being heard today by the committee on bankruptcy regarding the bill now before the committee to amend the Bankruptcy Act.

Protests from the Province of Quebec against farmers in that province being permitted to make assignments have caused an unusual situation.

In 1919 the Dominion took over the bankruptcy machinery and in an act made provision that while other classes of persons could either go into bankruptcy voluntarily or be forced into it, farmers were unable to make an assignment voluntarily, but could not be forced to do so. It also provided that any person who could put up proper security was eligible to become a trustee and manage the winding up of estates.

The bill now before the committee proposes that only licensed trustees should be permitted to handle bankruptcies and that a department of bankruptcy should be established under the finance department to manage the system. It is being suggested that G. D. Pinajon, superintendent of insurance, be also appointed superintendent of bankruptcy.

The complaint from Quebec is that under the present law trustees go among the farmers and solicit them to make assignments. This resulted in a great number of farmers going into voluntary bankruptcy and has hurt the credit of the farmers as a class, it is claimed.

MANY MILLIONS INVOLVED IN PROJECTED PAPER MILL

Portland, Maine, April 21.—Two Maine men, who are seeking an agreement with the Newfoundland Government for the development of a pulp and paper mill and a hydro-electric plant, have announced that they have remained non-committal as to their plans today.

SUDDEN DEATH IN GRANBY OF RAILROAD MAN

Arthur Harvey Left Railroad Work Shortly After Spectacular Wreck in Montreal in 1909.

Granby, April 21.—There passed away at his home here after a short illness, Arthur Harvey, who was in his fifty-eight year.

Mr. Harvey had been employed for twenty-three years by the Miner Rubber Company, Limited, here, and held the position of foreman of one of the departments for the past six years.

He had also served seventeen years with the Canadian Pacific Railway and was the conductor of the Boston Express that crashed through the Windsor station at Montreal on March 17, 1909, when several persons were killed. He left the employ of the railway company shortly after this accident and obtained a position with the Miner Rubber Company, Limited, where he remained until his death. He was taken ill a week ago.

He is survived by his wife, nee Alice Williams, and by one daughter, Miss Jeannie Harvey, of Granby, and by two step-daughters, Mrs. Elmer Black, of Toronto, and Miss Oryl Ball, of Montreal.

AGED SHOPKEEPER IS SHOT DOWN BY TWO HOLD-UP MEN

Tetragouche, N.B., April 21.—Brutal murder disturbed the peace of this Gloucester County village last night when George Smith, storekeeper, aged eighty-five years, was fatally shot by one of two robbers. Posses, including the Royal Canadian Mounted Police, were scouring the countryside today in search of the assassins.

The crime had an additional tragic result on the condition of Smith's aged wife, who had been confined to bed by illness for several weeks and was imprisoned in the building for a brief period.

Mrs. Smith said she and her husband were asleep at nine o'clock when they were disturbed by a pounding on the store door. Her husband dressed, went downstairs, and admitted two men, whom she heard ask for cigarettes. A shot followed, she screamed and the two strangers ran upstairs, demanding what money there was in the place. They secured \$40 and told Mrs. Smith her husband "would be all right in the morn-

BABY'S RETURN STILL APPEARS VERY DOUBTFUL

Fifty-One Days Since Lindbergh Kidnapping, But So Far Efforts Have Brought Little Encouragement.

Hopewell, N.J., April 21.—The fifty-first day of the Lindbergh kidnaping mystery today saw Colonel Charles A. Lindbergh, his emissaries and the police still working behind a screen of secrecy from which there came no indication that the return of Charles A. Lindbergh, Jr., is any nearer.

Developments were scanty. Dr. John F. Condon, the "Tajsis" who made the futile \$50,000 ransom payment, went for an automobile ride in the vicinity of Spuyten Duyvil, New York, yesterday. He was driven by Al Reich, former prize-fighter, who is acting as his guard, but the purpose of the drive was not disclosed.

Optimism still was felt at Norfolk, where Dean B. Dobson-Peacock, former Canadian doctor, and two other intermediaries are still hoping to get the baby back. John E. Curtis, one of the Dean's colleagues, departed Monday from his home, perhaps to visit Col. Lindbergh and try to make contact with the kidnapers. He has not returned.

FURTHER LOWERING OF BANK RATE TO RESTRICT INFLOW OF CAPITAL

Bank of England Hopes to Prevent Unsettling of the Exchange Market by Lowering Rate to Three Per Cent.—Gilt Edge Offerings Advance on London Stock Exchange—Expect Conversion Operations to Be Facilitated by Rush to Long-Term Securities.

London, April 21.—The bank rate was reduced today from three and a half to three per cent.

With the budget details completed, it was announced, the bank was able to make this further move for cheaper money in the hope of checking the influx of foreign money for short term investments. This influx already had caused a rise in sterling exchange to the point where it was handicapping exporters.

By lowering the bank rate nearer the level of money rates in other centres, it was pointed out, there is a possibility that London may prove less attractive for foreign funds which are moveable on short notice and cause disturbance in the money market.

Today's reduction already has been discounted in the money market, which lowered rates well below the bank rate. The Stock Exchange also had anticipated the move, by marking up gilt-edged offerings since the three and a half per cent. rate was imposed. Today's announcement had the effect of merely steadying quotations at the point to which recent rises had taken them.

Market men generally expressed the belief that gradually lowering the bank rate would divert much short term money to long term securities and facilitate conversion operations.

WOMAN DROWNED CHILDREN AND ATTEMPTED SUICIDE

Rescued by Her Husband and Nineteen-Year-Old Son When Found in Cistern.

Grand Rapids, Mich., April 21.—Mrs. Etta Butts, thirty-nine, wife of Carl Butts, who lives southwest of here, early today drowned three of her four children in a cistern and then attempted to take her own life. The dead are Betty Jane, four; Ross, seven; and Mas, nine.

Mrs. Butts was found by her husband and son, Jack, nineteen, in the cistern and was rescued. Her condition was said to be serious. Authorities said she apparently was mentally deranged.

THE WEATHER

FAIR AND MODERATELY WARM

The weather is becoming much cooler in the Western Provinces, with strong winds. Some heavy snow and rain have fallen in Southern Alberta. It has been fair and moderately warm in nearly all other parts of the Dominion, but a storm has developed rapidly off the Newfoundland coast causing showers in the Maritimes. Pressure continues abnormally high in the Northwest Territories and low throughout the Western States.

Forecast: Moderate northerly winds; fair and moderately warm today and Friday.

New England States: Fair tonight and Friday; slightly cooler on the south coast tonight.

Temperature yesterday: Maximum 60, minimum 32.

Same day last year: Maximum 68, minimum 25.

UNUSUAL ACTION IS REQUIRED TO SOLVE GREAT RAILWAY PROBLEM

Member for Stanstead Would Bring Home to People of Canada Just What They Are Paying for Government-Owned Railway System—Canada Cannot Continue to Add One Hundred to One Hundred and Forty Millions a Year to Its Debt on Railway Account.

Ottawa, Ont., April 21.—Pooling of the operations of the Canadian National and Canadian Pacific Railways, with a resultant saving of possibly eighty millions a year, was the suggestion thrown into the budget debate in the House of Commons yesterday.

The appointment of an operating board to run the two systems as one, with consequent elimination of waste and duplication, was held up as a possible temporary solution of the serious transportation problem with which Canada is faced, while operations would be pooled, the roads would remain as distinct entities.

The properties would stay just as they are now. J. T. Hackett, Conservative member for Stanstead, made the suggestion. As he had frequently done before, the Stanstead member devoted his entire speech to a discussion of the transportation problem.

He declared, with emphasis, that Parliament must "stem the gush of financial life of this country," by grasping any opportunity to solve the problem. His proposal, he asserted, was merely temporary, and he expressed the hope that the Transportation Commission would have some beneficial remedies to offer.

If the railways were unable to come to an agreement for pooling operations, Mr. Hackett offered another suggestion for bringing home to the people of Canada the gravity of the situation. He advocated the imposition of a tax on all articles of retail purchase, with the exception of food, to pay the operating deficit of the Canadian National Railways.

He proposed to have the impost in the form of a stamp tax to be termed "The Canadian National Stamp Tax," and he suggested that it might be rated at one-half of one per cent.

That it would be brought home to the Canadian people just what they are paying for the government-owned system.

He appreciated that this proposal was extraordinary, Mr. Hackett informed the House, but this was a day of extraordinary measures.

Parliament had done some "unusual things" during the present session. Reduction of civil service salaries, of seasonal indemnities, the voting of large sums for farm and direct relief—these were unusual.

It was a time of exceptional proposals. The railway situation was grave. One road had produced a loss last year of nineteen million dollars. "I cannot believe that the C.P.R. is very proud of that," commented the member for Stanstead.

The Canadian National had lost sixty millions. He did not think the people of Canada were very proud of that. What was to be done? "I suggest to the Government that it will not have done its full duty unless it avails itself of every opportunity of effective economy, even while the Royal Commission is carrying on its work," remarked Mr. Hackett.

He waxes at some length into the financial position of the Canadian National, and with more brevity into the C.P.R.

When the Minister of Finance had told the House that the country's financial operations had resulted in a deficit of \$119,000,000 there had been a murmur of dismay throughout the House. This was true, although the amount of the deficit was previously known almost to a nicety by every member, Mr. Hackett said.

This total included \$55,000,000 of special expenditure, in which was \$11,000,000 for wheat bonus and \$38,000,000 for unemployment and farm relief.

There was a difference of \$44,000,000 between revenue and ordinary expenditures and about \$3,500,000 of non-active advances.

That, said Mr. Hackett, was the euphonious way of describing money that had been paid, but on which no interest was received or expected.

When Mr. Rhodes told the House there was a difference of \$109,000,000 between the earnings and requirements of the Canadian National Railways, the House was silent, he continued, and expressed neither amazement nor dissent. It was a failure to receive as much as was spent in the financial operations of the country was an extraordinary event; but, on the other hand, the loss of something over \$100,000,000—the requirement by the Canadian National of \$109,000,000—was not an extraordinary event.

It had become very ordinary, indeed, so customary for the past ten or fifteen years, the country had paid and paid and had continued to pay until this had become the major problem of Canada.

Yet, that fact seemed to provoke very little interest in the House. In 1929, he proceeded, the Canadian National increase in debt to the public was \$114,000,000. In 1930 it was \$92,000,000. Last year the amount was \$112,250,000.

The Minister of Railways said this year it would be seventy millions. It was so great that the railway problem was conceded to be the major problem of Canada today. To meet that problem the Government had appointed a Royal Commission. It was composed of men of high standard. It had been hoped that the recommendations of this Commission would be available for this session of Parliament, but it was now apparent that this could not be.

This meant that the report could not receive legislative enforcement for another year. While the Royal Commission was sitting and seeking

MEGANTIC CO. HAPPENINGS

CRAWFORDVILLE

Miss Gwendolyn Bailey is spending a few days with her uncle, Mr. T. Bailey.

Mr. Everade McKee is able to be up again, after being confined to his bed for a couple of weeks through illness.

Mrs. Tom Crawford has returned home from Montreal, after spending a few weeks with her sister, Mrs. J. Harvey.

Mr. and Mrs. William Crawford were recent guests at Mr. David King's. The many friends of Mr. King are sorry to learn he is not improving very rapidly.

Messrs. Jack Grady and Elmore Guy spent an evening at Mr. T. Bailey's, recently.

Mr. Frank Woods, of Lower Ireland, was a recent guest of Mr. Chester Harroon.

Mr. and Mrs. Fred Crawford were guests of Mr. and Mrs. John Guy, on Sunday evening.

Mr. and Mrs. William Crawford were visiting Miss Mary Bailey, who is not as well as her many friends would wish.

Mr. and Mrs. Richard Rickaby were recent guests of Mr. and Mrs. Everade McKee.

Mr. and Mrs. Eddie Canning were recent guests of his parents, Mr. and Mrs. Charlie Canning, Lower Ireland.

Mr. Ayton Cruickshank, of Maple Hill, and Miss Louise Breyer, Kinnear's Mills, were visiting at Mr. T. Bailey's, recently.

Mr. John King, of King's Corner, was a recent guest of his cousin, Mr. Fred Crawford.

Mr. and Mrs. William Crawford spent an evening at Mr. John Guy's, recently.

Mr. James Peary is visiting friends in Lemesurier.

Miss Marie-Anne Labarre, of Theford Mines, is the guest of Mrs. Alfred Harroon.

Mr. Robert Jamieson was a recent guest of Mr. Everade McKee.

The people of this place were sorry to learn of the passing away of a former resident of this place, Mr. Robert Scott, at Theford Mines.

Mr. Ivan McKee has returned from Toronto, and is working for Mr. A. Harroon.

Mrs. Chester Harroon spent a day with Mrs. Fred Crawford, recently.

Mr. John Peary was visiting his cousins, Messrs. James and Thomas Peary, recently.

Mr. and Mrs. Fred Crawford and son, George, spent an evening with Mr. and Mrs. Magwood and family, recently.

Mr. Alfred Harroon had the misfortune to lose one of his work horses recently.

NORTH THETFORD

A peculiar and unfortunate accident befell Wilfred Routhier, a young married man of this place, when he and his younger brother went to their sugar woods, before starting to gather their sap, they tested the syrup which was boiling in the evaporator. The younger man took the thermometer from the syrup and, as his brother bent forward to look at the test, the thermometer exploded and he received the contents and glass in his eyes.

Dr. Fortin, of Robertson, was called and removed the unfortunate young man to the hospital at Theford Mines, where fears are held for the recovery of his eye-sight.

Death claimed another old resident of the parish on Saturday, April 16, in the person of Mrs. Marcel Tanguay, nee Rosy McKlusky, at the advanced age of ninety years.

MAPLE HILL

Mr. Earl Savage, of Sherbrooke, spent a recent week-end with his parents here.

The many friends of Miss Agnes Kinghorn will be sorry to learn of her death on April 5. The funeral was conducted by her pastor, Rev. John Murray, on Thursday, April 7. Burial was in the family lot, Kinnear's Mills.

Messrs. Lyman Kinghorn, of Bradford, Vt., and Charlie M. Kinghorn, of Drummondville, were here to attend the funeral of their aunt, Miss A. D. Kinghorn.

The W.M.S. met with Mrs. Amos Savage on Thursday, April 14.

SPAIN'S EX-ROYALTY GOES TO CHURCH

It's a contrast to former days of regal elegance when Spain's erstwhile royal folk attend church services near their retreat in Fontainebleau, France. Not in formal attire but in the tweed suit and bright-colored sweater of a sportsman, the former King Alfonso is shown at right in front of the Church of the Kings of France at Avon. At the left you see the deposed monarch's daughter, the Infanta Beatrix, stepping unassisted into a small car to drive to Easter services.

neighbors. Those from a distance to attend were his brother and sister and two nephews from New Jersey and one nephew from Richmond. He leaves to mourn his loss his five children, his wife having predeceased him six years ago, two brothers and one sister, a number of nieces and nephews and many friends.

On Thursday, April 7, the funeral of the late Miss Agnes Kinghorn was held. The service, which was conducted by the Rev. Mr. Murray, was held at the home of her niece, Mrs. Charles Allan, with whom she made her home.

Miss Kinghorn had reached the advanced age of eighty-two years. Miss Kinghorn leaves one brother, Mr. John Kinghorn, and a large number of nieces and nephews to mourn her loss. Those who came from a distance to attend the funeral were, two of her nephews, Mr. Lyman Kinghorn and Mr. Charles Kinghorn.

Miss Mary Bailey, who is seriously ill, is not improving as quickly as her friends would wish.

Mr. James Bailey, of Sunday River, spent last Sunday with his parents.

Misses Vivian Lowry and Delma Robertson spent the week-end with Mrs. Lloyd Bennett, Lower Ireland.

Mr. Tom McElroy, of Theford Mines, was visiting friends here the past week-end.

Miss Gwen Bailey and Eva Maury spent the week-end, the guests of Miss Gladys Dunn, Lemesurier.

The Rev. Mr. Murray was called to Theford Mines on Friday for the purpose of conducting the funeral service for the late Robert Scott, of that place. The remains were brought to Kinnear's Mills for interment.

Mrs. Ernest Bailey and Mrs. William Thompson were visiting at Mrs. W. R. Thompson's on Saturday.

Mrs. Ernest Bailey and Mrs. William Thompson were visiting at Mrs. W. R. Thompson's on Saturday.

Mrs. Ernest Bailey and Mrs. William Thompson were visiting at Mrs. W. R. Thompson's on Saturday.

Mrs. Ernest Bailey and Mrs. William Thompson were visiting at Mrs. W. R. Thompson's on Saturday.

SYRACUSE MAYOR TO TRY UNEMPLOYED RELIEF DIET

Syracuse, N.Y., April 21.—For the next week Mayor Rolland B. Marvin is going to live on food costing exactly nine cents a day. That is the cost of food per diem under the dietary schedule worked out by Dr. George C. Ruhland, city health commissioner, and his advisory committee, to be used in feeding thousands on the city's welfare rolls.

Said the mayor: "I do not want to give to the people of the city a diet that I would not use. I will note the effect the diet has on me and I will be able to judge whether it is sufficient."

He begins the diet today. Mrs. Marvin will prepare the food.

(Blue Label).

Couldn't Comb Hair

Crippled by Rheumatism

"I had been suffering with rheumatism for about 2 years, and about this time last year was laid up for 10 weeks. My hands and arms and knees were the worst affected. I could not get about at all. I could not wash my face or comb my hair. All this had to be done for me. At the beginning of this year I started taking Kruschen Salts every morning, and I am pleased to say I am quite well now and able to see to my home and can go out in all kinds of weather without it affecting me."—Mrs. P. K. Rheumatism is associated with an excess of Uric Acid in the system. Two of the ingredients of Kruschen Salts have the power of dissolving uric acid so as to render it capable of being easily washed out of the system. Other ingredients of Kruschen assist Nature to flush out this dissolved uric acid through the bowels and the kidneys. Other ingredients still prevent food fermentation taking place in the intestine, and thereby check the formation not only of uric acid but of other impurities which poison the blood and pave the way to ill-health.

Mr. Frederick Sanborn, of Montreal, was a recent guest of Mr. and Mrs. C. Teel.

NEW MANUFACTURE BEING ESTABLISHED IN GRANBY

Foundation Work for New Factory Reported to Be Under Way.

Granby, Que., April 21—Another new plant has been established in this city, namely, the Mannattam Mills, which will manufacture dress goods, it was reported at the regularly meeting of the Granby Board of Trade by the president, Mr. J. H. Leclerc. Foundation work for the new factory is now under way, he said.

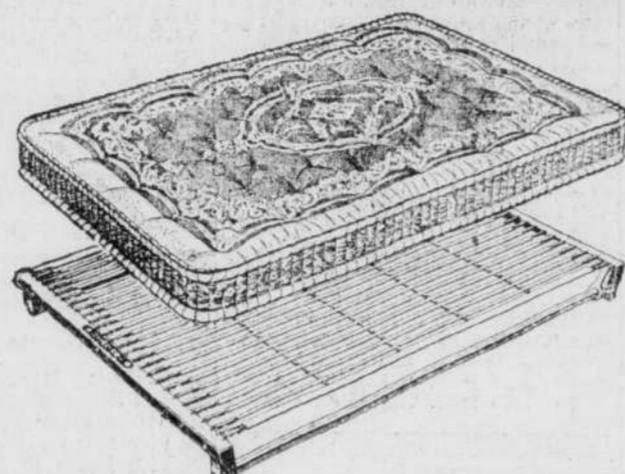

The president of the firm, Harry Aton, told the members that it was hoped the foundation work would be finished in a week and that the factory would be erected in a short time. There were at present seventeen cars loaded with machinery on their way from the head office in Taunton, Mass., to Granby, some of the cars having reached Granby already, so that the work of installation would go ahead rapidly. The machinery is being stored in the Granby Fair buildings pending the installation.

"Does his wife still play second fiddle to his mother?"

"She's not even in the orchestra."

MAGISTRATE'S COURT RULING IS MAINTAINED

Mr. Justice Joseph Archambault Yesterday Dismissed Appeal Entered by Gerard Houle, of Asbestos, Against Fine Imposed by Magistrate.

A decision recently rendered in the Magistrate's Court was confirmed yesterday by Mr. Justice Joseph Archambault when he dismissed the appeal entered by Gerard Houle, of Asbestos, asking that the judgment pronounced against him for interfering with an officer in the discharge of his duties be annulled.

In his judgment, His Lordship pointed out that the proof showed that a complaint had been taken against Houle containing the double offence of having operated a car while under the influence of liquor and assaulting a constable while in the exercise of his duties.

By the consent of Houle's counsel and the Crown, the original charge was withdrawn and substituted by another complaint for each of these two counts. The case which was taken to appeal was the charge of having interfered with an officer in the discharge of his duties.

The proof showed, continued the Court, that Houle resisted the officer and prevented him from performing his duties. The officer had the right to arrest Houle without a warrant, the judgment read, citing Section 58, Chapter 95 of the Revised Statutes of Quebec, 1876, as covering this point.

In conclusion, His Lordship stated that it had been established that the constable who tried to make the arrest had been reliably informed some time previously that Houle had committed an offence against the motor-vehicular act by operating an automobile on a public highway while under the influence of liquor and that he drove his car at an excessive rate, faster than the speed permitted by law.

Houle, who is at present serving a term in the local jail for the illegal possession of liquor, was led into the prisoner's dock and listened to the reasons why his appeal was dismissed with costs.

Fresh Caught Halibut

CHARMING LITTLE LADY OBSERVING HER BIRTH-DAY TODAY

Birthday greetings are today extended to a charming little lady who can now proudly say she is six years old. This golden-haired little damsel is none other than Her Royal Highness Princess Elizabeth, the daughter of the Duke and Duchess of York, granddaughter of Their Majesties King George and Queen Mary and the most popular child in the British Empire.

Princess Elizabeth has not yet made her first visit to Canada, but when she does she will find awaiting her the same sincere welcome which has greeted other members of the Royal family.

A CANADIAN AT THE HEAD

W. G. Wright, a former professor at McGill University, has demonstrated that the professional mind can adapt itself to big business. Mr. Wright was in this city a few days visiting Lennoxville, head of the H. C. Wilson & Sons, and he is now general manager of the Canadian Frigidaire Corporation, having for some time been connected with the development of this wonderful electrical refrigeration. As a master of science, and a teacher of engineering and practical technology, the Frigidaire Corporation some years ago sought the services of an outstanding authority on a system which was then in its infancy, and which, by engineering skill such as that taught in the universities, has been brought to its now perfect state. With a Canadian-born engineer at its head the all-Canada Frigidaire can be proudly proclaimed as "made in Canada."

THOSE WHO HAVE HELPED CARRY ON WORK OF CHARITY

Generous donors still continue to show a practical interest in the work of the Social Service organization, and at times when the treasury seems to be empty along will come a bit more money from providential sources, from the kind hearts of those who know of

A. Giovetti

JUDGMENTS ARE HANDED DOWN IN HIGHER COURT

Mr. Justice Joseph Archambault Dismissed Action for Alienation of Affections and Condemned Employee to Pay Damages Resulting from Automobile Mishap.

The action taken by Auguste Quirion, of this city, against Alfred, alias J. A. Lafond, of Gravelbourg, Sask., asking for \$3,000 for alleged alienation of affections, was dismissed with costs this morning by His Lordship, Mr. Justice Joseph Archambault, in the Superior Court; while Edgar Stoddard, of Sawyerville, was ordered to pay Joseph St. Pierre, of the same place, damages to the extent of \$350.25 in an action which St. Pierre took against Stoddard and his employer, Thomas French, also of Sawyerville.

In the estrangement of affection suit, Quirion claimed that Lafond had alienated the love of his wife, Marie Louise Lessard, whom he married at Saint Evariste, Frontenac County, in January, 1914. He alleged that the defendant brought his (Quirion's) wife and children to Quebec on two separate occasions had returned to Quebec accompanied by Mrs. Quirion and her family.

In reply to the declaration, Lafond pleaded that Quirion's wife had gone to Saskatchewan because the plaintiff had failed to support her, and he retained recourse for damages on the allegation that he had lived with the plaintiff's wife in a married state.

The court's judgment pointed out that it was imperative for the plaintiff to prove in a conclusive manner that the defendant by his actions, had alienated his wife's affections and ruined his household, causing irreparable losses. His Lordship commented on the fact that it was a dangerous practice for the courts to accord damages in actions of this nature unless a positive proof of quasi-delict was made, because in a number of such cases there was danger of collusion between the husband and wife to extort money from a third party falling into a trap set by the wife with the assistance of her husband. In this case, however, there was no evidence of such a state of affairs, the judgment stated.

An automobile accident in which three of the plaintiff's children were injured formed the grounds for the action of Joseph St. Pierre, of Sawyerville, against Thomas French and Edgar Stoddard, both of the same place. The mishap occurred when the automobile driven by Stoddard struck the young children who were picking berries by the roadside. The defendants pleaded separately to the action, French contending that his employee, Stoddard, was employed merely to wash and grease cars and had been forbidden to drive the automobiles which were brought to his garage for repairs. He claimed that on the day of the accident Stoddard had taken the vehicle without permission, and by this fact he was relieved of all responsibility.

Stoddard admitted that he had taken the car, not in the interests of his employer, but merely for a "joy ride," and His Lordship, citing jurisprudence in several cases of a similar nature, dismissed the action against French and condemned Stoddard to pay the amount of damages asked by the plaintiff, St. Pierre, which amounted to \$350.25.

Wrecked Motorist (opening his eyes)—"I had the right of way, didn't I?"

Bystander—"Yes, but the other fellow had a truck."

MARRIAGES, BIRTHS, DEATHS

BIRTHS ROWLEY—On April 20th, at the Royal Victoria Maternity Hospital, Montreal, to Mr. and Mrs. R. B. Rowley, (Frances D. Armistage), 590 Outremont avenue, a son.

SOCIAL ITEMS OF SCOTSTOWN AND VICINITY

Short Session of W.M.S.—General Notes and Personal of Interest.

Scotstown, Que., April 21.—Miss Annie, daughter of Mr. and Mrs. A. D. Morrison, was removed to Sherbrooke on Saturday last, where she underwent a successful operation. Mrs. John Smith accompanied her to the hospital.

Mr. Ewen MacLeod, of Milan, was a recent visitor in town. Mrs. A. D. Morrison, was removed to Sherbrooke on Saturday last, where she underwent a successful operation. Mrs. John Smith accompanied her to the hospital.

Mrs. J. F. Smith, of Sherbrooke, who has been visiting her sister, Mrs. D. Robertson, and Mr. Robertson, has returned to her home. During her visit here, Mrs. Smith was a guest at several luncheons given in her honor.

Rev. D. Robertson and Mrs. Robertson spent the week-end in Sherbrooke. During Mr. Robertson's absence, Rev. Mr. Brundage, of Lennoxville, supplied the pulpit of St. Andrew's United Church.

The Women's Missionary Society of St. Andrew's United Church met on Wednesday, April 14, in the church on an average attendance. The

president, Mrs. A. G. Sherman, presided, and Mrs. J. N. MacIver acted as secretary, in the absence of Mrs. Bowman. The meeting opened with a hymn, followed by devotional exercises. Mrs. P. A. Sherman gave a reading on Matthew, "The Man Of Business," and Mrs. MacDonald gave another reading on "Fruits On Christians Missions in Canada." The minutes and other items of business were disposed of. The roll was called, each member responding with a verse of the Bible commencing with the letter H. Delegates to the Quebec-Sherbrooke Presbyterial, to be held at Ayer's Cliff on May 17, 18 and 19 were appointed, with alternates. The study period followed, led by Mrs. William Murray and assisted in by Mrs. Robertson, Mrs. P. A. Sherman, Mrs. MacDonald, Mrs. MacIver and Mrs. A. G. Sherman. Mrs. Robertson, leader of the C.G.I.T., gave a report on the work of that organization, which was both interesting and encouraging. The meeting closed with the singing of a hymn and the benediction.

Mr. J. M. MacKenzie, Hilton, has returned from Montreal, where he spent a number of weeks receiving medical treatment. His friends are glad to see him very much improved in health.

Mr. George Beard, of Cookshire, is in town.

Mr. Albert MacLeod had the misfortune of losing a valuable horse during the first part of the week.

Mrs. A. Henderson, Lingwick Road, has returned from a visit with her sister, Mrs. D. Stewart, of Bury.

Mr. J. Fairfield and family, of Providence Ford, Va., and Mr. James, motored to town, and have taken up residence in Mr. George

NEW ZEALAND GOVERNMENT CENSORS PRESS MESSAGES

Government Hopes to Prevent Alarmist Reports of Conditions in Country from Reaching the Outside World

Wellington, New Zealand, April 21.—A censorship on messages sent abroad will be instituted by the Government in order to prevent alarmist reports concerning possible recurrence of disorders in Auckland or elsewhere, being cable overseas. The Government decided to enforce the provisions of the postal regulation which gives this power.

Meanwhile both Houses of Parliament have passed the Government's bill seeking emergency powers to deal with disturbances such as those at Auckland last week when mobs of unemployed got out of hand and did considerable property damage and looting. Auckland and other New Zealand centres remained quiet today while jobless demonstrators paraded in orderly fashion.

Cowan's newly-remodeled house next to the United Church.

Mrs. Reginald Buzzell, of Newport, Vt., is a guest of her parents, Mr. and Mrs. Joseph Start.

Mrs. Ross Taylor received the members of the Bridge Club at her home on Tuesday, for their weekly bridge party. Honors in the game went to Mrs. A. H. Cowling and Mrs. A. L. Sherman. The hostess served refreshments.

Mr. Herman Lax has gone to Montreal on a short trip.

Mr. Cecil Lefebvre, of Cookshire, was a visitor in town on Monday.

On Sunday evening, at the St. Paul's Presbyterian Church, a solo in Norwegian was beautifully rendered by Mrs. Helgesen.

Mr. Donald Matheson, Marsboro, is a visitor in town.

Mrs. O. L. Worthen has returned to town after spending the winter months in California.

Miss Lucille MacLeod, who has spent a number of weeks in Spring Hill, caring for Miss Annie Morrison, during her illness, has returned to her home.

DUMPING DUTIES ADD TO CHARGES FOR GASOLINE

Shrinkage Due to Change in Temperature Also Cause for Further Difference in Price, Dealer Tells Committee.

Ottawa, April 21.—Olin A. Beach, president of Beach Motors Limited, Ottawa, was the first witness to give evidence before the House of Commons Committee on Banking and Commerce which is investigating the price of gasoline in Canada.

Beach Motors Limited sold nearly a million gallons a year. At the present time the company was buying only Canadian gasoline, but had frequently purchased from the United States.

"Laid down price of gas in Ottawa from the States would be about 2.7 cents cheaper than we pay Canadian companies were it not for the duty and the dumping duty," said Mr. Beach.

S. Coplan, owner of the Super Service Gas and Oil Company, Ottawa, was the next witness. One of the problems he was faced with was the shrinkage of gasoline with change of temperature. Illustrative of that was the loss of 519 gallons of his purchase from the British American Oil Company during January, 1931. He had paid 519 gallons less than he had paid for and the province taxed him on the total he had purchased, including the 519 gallons lost. Since he had been in business no allowance for shrinkage had been given by the

major Canadian companies. United States companies frequently gave allowances, he said.

Dr. G. D. Stanley (Cons., Calgary East) suggested the committee hear expert evidence on the temperance question.

The committee adjourned until today.

MILBY

The Milby Centre W. C. T. U. held a most enjoyable meeting at the home of Mrs. Beattie. The greater part of the day was spent in quilting a quilt. At noon a delicious dinner was served by Mrs. Beattie assisted by Mrs. Burns and Miss Burns. At four o'clock a business meeting was held. In the absence of the president, Mrs. Smith presided. Several bills were ordered paid. A letter was read by Miss Gwendolyn George from the Western Relief Committee asking for contributions. It was decided to send several magazines. Mrs. Campbell and Miss Yates were appointed as committee to pack and ship the magazines. The May meeting will be held at the home of Mrs. Campbell.

VALUABLE LISTS FOUND IN POCKET OF PRISONER

Contain Names, Positions and Cargoes of Vessels Engaged in Rum-Running Trade.

Boston, April 21.—Information obtained from papers in a prisoner's pockets regarding the position of ships on rum carrying cargoes valued at \$250,000 believed consigned to Boston is being investigated by local and federal authorities.

The data, believed to be of great value, was found on Alexander Levy, aged thirty, of New Bedford, arrested here on a narcotic charge and was said to consist of the names and positions of at least a dozen rum ships, and the names of their captains, and the amounts of liquor consigned to leading bootleggers of this city.

Coast guard authorities revealed that a guard boat would be assigned to each ship mentioned.

Levy was named defendant in a \$200,000 alienation of affection suit by a Brooklyn man last month.

The Household Word For Tea

"SALADA" TEA

"Fresh from the Gardens"

ASK any experienced housewife what she considers to be the best all around laundry soap and she will probably say, "Why Comfort, of course."

Comfort Soap has been popular with thousands of Canadian housewives for over fifty years. You will find it equally efficient in the wash-tub or machine. It does a better job with less effort than most soaps. It does not waste away in the water and it is inexpensive to buy.

CONFERENCE WAS HELD AT COWANVILLE

Interesting Addresses Delivered at Sessions of Social Service Council of Canada.

Cowanville, April 21.—The Social Service Council of Canada held conferences on Christian social service on Friday afternoon and evening, April 15, in the Assembly Hall of the High School and on Sunday morning and evening in the Anglican and United Churches. On Friday afternoon at 2 o'clock the meeting was conducted by Dr. M. F. McCutcheon, D.D., on "Local Social Problems," at 3 o'clock an address was given by Rev. J. Coburn. In the evening, addresses were delivered on "Christianity and Social Progress" by Rev. J. Coburn, and "The Contribution of the Rural Community to our National Life," by Canon C. W. Vernon, D. C. L. Canon Vernon contrasted rural and city life. He said that the people of the rural community were not in danger of mob-mindedness as much as city people, the farmers were alone with Nature and had more of an opportunity of thinking about their problems, instead of being influenced by the opinions of the mob. He believed that rural citizens were the backbone of progress and intellectual thought. The rural community has better advantages for industrial life, he said and enumerated some of the contributions of the rural community. The rural community, he said, is the backbone of the preservation of the home. "The home in the city is practically a boarding house," he continued, "but in the country, the family are more closely connected, because they see more of each other." He spoke of the work-shops in the Middle Ages which did not promote thought, which is so prominent today.

Rev. J. Phillips Jones, D.D., gave an address on "Developing a Community Conscience." "Our Community is what we make it," he said. "The end of life is not to acquire money but to build character. One of the things that menace the home today is the lack of a higher standard of religion."

"It is up to the present generation," he said, "to see that the children are given every advantage, so that the next generation may be of a higher tone."

Rev. Norman, chairman of the meeting, called on Rev. Coffin, of Dunham, to move a vote of thanks to the speakers.

The services in the United Church were conducted by Rev. J. Coburn, in the morning, and Rev. J. Phillips Jones in the evening. The evening service in the Anglican Church was conducted by Rev. Canon C. W. Vernon, D.C.L.

EMIGRATION TO UNITED STATES AT LOW LEVEL

Drop of Ninety Per Cent. Registered in Visas Issued to Canadians Desiring Entry into the United States During January.

Montreal, Que., April 21.—Only two hundred and ninety-eight native born Canadians received immigration visas for admission to the United States during January, 1932, a report at the Department of State from the American Consul-General in this city reveals.

The figure represents a decrease of 90 per cent. from the 2,902 such visas granted during January, 1929, the corresponding month of the last normal fiscal year, and thus shows the large reduction in the number of immigration visas issued to natives of Canada since the enforcement by American consular officers of the "likely to become a public charge" provision of the Immigration Act of 1917 in the light of the

serious unemployment in the United States. The foregoing is taken from data on immigration restriction forwarded from Washington to the American Consul-General in Montreal.

This information goes on to say that the official statistics for the first sixteen months of the enforcement of the provision referred to (October 1, 1930, to January 31, 1932) indicate a total issue of 8,895 immigration visas, which when compared with the issue of 68,498

immigration visas during the same period of 1928, 1929 and 1930, shows a decrease of 86 per cent. While the present unfavorable economic conditions in the United States undoubtedly caused a decline in the number of Canadian applicants for immigration visas, the reduction in the number of immigration visas issued resulted largely from the fact that the majority of those who applied for visas were refused under the existing statutes.

DUDSWELL

Mr. and Mrs. Anthony Sutcliffe, of Montreal, arrived on Saturday last and are guests at Mr. and Mrs. A. L. Covell's.

Mrs. H. Gillespie, Miss Reta Johnson and Mr. Everett North, of East Angus, Mrs. A. Sutcliffe and Miss Ada Covell spent Sunday evening at Mr. Gillespie's.

Miss Mary Robart is working at Mr. Sidney Bishop's shop.

Country and Dairy Produce Prices

Montreal, April 21.—Montreal's first day of sunny weather this year brought with it lower prices on the dairy markets of butter, eggs and cheese.

The butter market was mostly 14c per lb., as trading came to an end for the day. This was a decline of 1c for the day.

The egg market became mostly 17c for extras, 15c for firsts, and 13c for seconds, on graded Ontario fresh eggs.

The cheese market was quoted mostly 10 1/4c per lb. for current receipts, fractionally easier, while summer remained at 12c to 12 1/2c per lb.

More poultry was reported sold for export to England. Live poultry at Montreal remained at 15c to 21c per lb.

Quotations to retailers on dressed poultry are as follows, per pound, the prices being for "A" and "B" selected dressed poultry.

CENTRALIZED RAILWAY CONTROL IS SUGGESTED BY STANSTEAD MEMBER

(Continued from page 1) 600 in excess of its reserves, he said. The benefit given to the foreign reciprocal and mutual companies...

RINFRET DEMANDS THAT TERMINAL WORK RESUME

Ottawa, April 21.—Demanding that work on the Federal Government projects in Montreal, the postal terminal and the new Canadian National Railway station, be resumed at once in order to relieve unemployment, Hon. Fernand Rinfret, recently elected Mayor of Montreal, made his first speech in the House of Commons yesterday following his recent civic victory.

UNUSUAL ACTION IS REQUIRED TO SOLVE GREAT RAILWAY PROBLEM

(Continued from page 1) a remedy, he did not think that Parliament would have discharged its full duty if it merely sat by and awaited events.

He did not wish to see the Canadian National swallowed by the C.P.R. or vice versa, declared Mr. Hackett. He believed in competition. The reason that the railways were unsuccessful was that there was insufficient business in Canada to maintain them both in their present state.

Not only was that the case, but there would continue to be insufficient business until Canada had a population of twenty millions people. He then made this suggestion for pooling of operations.

If the two railways would agree to "eliminate this wasteful competition which is gnawing at the vitals of both," he felt that appreciable progress would be made.

Under present conditions duplication is constantly going on. Every day two fully appointed passenger trains left Montreal for Ottawa at approximately the same time.

His proposal for pooling, asserted Mr. Hackett, was only offered until some better method was worked out, and "until this tempest blows itself out."

Railway rates in Canada were low, but they could hardly be raised. On the other hand, Canada could not continue to add from one hundred to one hundred and forty millions a year to its debt on railway account.

could persuade the Minister of the necessity of completing the work. "We cannot leave the city as it is," he declared. "This condition is not altogether chargeable to the present Government, but is mainly the result of misrepresentations made by former civic authorities in Montreal."

Turning to conditions in Montreal, Mr. Rinfret said the desire for economy was just as great in the Government of Canada. "We have," he said, "to find millions of dollars to house, clothe and feed the unemployed."

"The situation in Montreal is perfectly appalling," he continued. "It is much more disquieting than I thought it could be before my election to the mayoralty. Every day in the City Hall we have armies of unemployed coming to us men in the most destitute condition."

"The best way of dealing with the unemployment problem is to undertake work of such a character as to leave as much as possible, of the money to be paid over to the working men directly. I see now there is a tendency to abandon unemployment relief works altogether and to favor direct relief. There are social and moral objections to that plan."

"I think if we could have the people work for the money that we give them it would appear very much more to our sense of equity and social economy. The main problem is to look after those unemployed men." On May 1, he added, thousands of families in Montreal would have to vacate their homes because of arrears of rentals, and he concluded this part of his speech by urging the Government to extend the relief contributions a few months longer.

Careless spending and careless investing make a bad combination... but you can avoid the latter by buying only sound securities.

SHERBROOKE TRUST COMPANY

LOCAL MILITIA WILL REMEMBER NOTED BATTLE

Church Parade Will Be Held in Commemoration of the Second Battle of Ypres.

The seventeenth anniversary of the Second Battle of Ypres will be commemorated by the returned men of Sherbrooke on Sunday next, when a church parade will be held.

The Canadian division which was in Belgium in the spring of 1915 carried out its first major engagement on the 22nd and 23rd of April of that year, at which time the German army, through the use of poison gas for the first time, succeeded in creating a gap in the Allied line.

Since the close of the war commemorative services have been held annually by the local garrison, and orders have been issued by Col. M. W. McNulty for the parade next Sunday. The following units will fall in at the Sherbrooke Regiment Armory at 10:15 o'clock to parade to St. Peter's Church: 35th Battery 3rd Troop Canadian Corps of Signals, Sherbrooke Regiment and Canadian Army Service Corps.

At the conclusion of the service at the church these units will be joined by the officers of Les Carabiniers de Sherbrooke, and will march past the saluting base, where the salute will be taken by Col. McNulty.

All returned soldiers are invited to attend this parade, and will march to the church in a body. Assembly will be at the Sherbrooke Regiment Armory at 10:15 a.m. Officers, not on strength of local units, will also fall in at the same time.

The brass band of the Sherbrooke Regiment will fall in at 10:15 a.m. and will be attached to the officer commanding the parade. The bugle band will march with the Sherbrooke Regiment.

The Sherbrooke Regiment will parade tonight at eight o'clock for drill instruction and recruit training. Recruits that are acceptable will be taken on strength at any of the regular parades, which are held Tuesday and Thursday nights of each week.

BRITISH CURRENCIES FIRM AT NEW YORK

New York, April 21.—British currencies were firm during early trading today on local foreign exchanges. The Canadian dollar was bid at 90 1/4 cents in United States funds, one-eighth of one per cent higher than yesterday's close. The pound sterling held steady at \$3.76 1/4, unchanged.

KINGSEY

Five inches of water flooded the floor of Mr. Edmond Westworth's house during the recent flood in this district, when the St. Francis River overflowed. Mr. F. B. Abercrombie's cattle stood in water for several hours, although no casualties were reported.

Mr. W. T. Shaw was called to Valleyfield on Sunday by the serious illness of his mother, Mrs. O. C. Shaw. Mr. and Mrs. Shaw are guests of their daughter, Mrs. C. W. Gurnham and Mr. Gurnham.

There was also a considerable decrease in passenger revenue, which was due to a large extent to the depression and also to automobile competition.

The Quebec Central Transportation Company, a subsidiary of the railway company, will resume this summer a highway motor coach service between Levis and Montserrat over the Levis-Jackman highway, and a motor coach service will also be inaugurated between Sherbrooke and Newport, Vt., some time next month over the splendid new concrete highway which was completed last fall.

MANY FACTORS ENTERED INTO EARNINGS DROP

General Depression and Automobile Competition Curtail Income of Quebec Central—All Officers Re-elected.

The annual meeting of the Quebec Central Railway was held in Montreal yesterday under the chairmanship of Mr. Grant Hall, president, when the financial reports and working results for the year ended December 31, 1931, were made public and approved.

The general depression very acutely affected the pulpwood, paper, asbestos, lumber and forest products, building materials and other industries located on its line and which represent its principal sources of freight traffic.

The Quebec Central Transportation Company, a subsidiary of the railway company, will resume this summer a highway motor coach service between Levis and Montserrat over the Levis-Jackman highway, and a motor coach service will also be inaugurated between Sherbrooke and Newport, Vt., some time next month over the splendid new concrete highway which was completed last fall.

The board of directors of the railway company, will be re-elected as follows: Messrs. Grant Hall, Montreal; J. H. Walsh, Sherbrooke; A. D. MacTier, Montreal; J. Leslie, Montreal; C. D. Brassey, London, England; and Thos. Lindley, London, England.

REALIGNMENT IN QUEBEC PAPER INDUSTRY RUMORED

Despatch Tells of Price Brothers Passing to British Hands and Rossiter Taking Over Canada Power.

Toronto, April 21.—A special despatch from Quebec today said control of Price Brothers, Limited, one of the oldest pulp and paper companies in Quebec, was reported to have passed into the hands of Lord Rothermere and British Associates.

The despatch also said there were rumors that the management of Price Brothers properties would be taken over by Anglo-Canadian Pulp and Paper Mills, Ltd., representing the Rothermere interests.

The story said there were further rumors that Ernest Rossiter, president of the St. Lawrence Corporation and numerous other companies, with his associates, had completed arrangements to absorb the Canada Power and Paper Corporation.

The board of directors of the Quebec Central Transportation Company were also re-elected as follows: Messrs. Grant Hall, president, Montreal; J. H. Walsh, vice-president, Sherbrooke; A. D. MacTier, Montreal; J. Leslie, Montreal; G. D. Wadsworth, general manager, Sherbrooke. Mr. H. C. Oswald is secretary and Mr. A. H. Bradford, treasurer, of the transportation company.

HEAVY HITTING CONTINUES IN MAJOR LEAGUES

Three Homers Registered as Yankees Turn Back Athletics—American League Hitters Have Made 38 Circuit Clouts and National League 19.

New York, April 21.—While it doesn't show in the records, it appears this early that the two major league baseball teams will provide a "show-down" this season on the brand of ball the customers want. The American League, standing by its "rabbit" ball, is fashioning more and more home runs than ever before. It's still a hitters' league in the fullest sense of the word. The National circuit, with its less lively sphere, is playing them close to the vest, regaling its patrons with low-hit, fast-fielding exhibitions.

Through yesterday's games there had been a total of thirty-eight four-baggers hit in the American League, compared with nineteen in the National. And the pitchers of John Heydler's league generally have fared much better than those of the "Big Six" circuit. Just what the final decision will be still is a matter of conjecture, but the American League magnates received a world of encouragement yesterday when sixty thousand packed into Yankee Stadium to watch Joe McCarthy's sluggers open the home season with an eight to three victory over the Athletics. It was the largest crowd of the season thus far, and it was treated to a typical slambang performance. Connie Mack's two aces, "Lefty" Grove and George Barnshaw, were treated very roughly. Ruth, Larry and Dickey leading the assault on them with the Yanks' daily quota.

The slim Castilian, "Lefty" Gomez, scored his second win of the year over the league champions. The Washington Senators kept pace with Detroit at the top of the standing with a ninth inning rally that beat the Red Sox, four to three. In addition to pitching five-hit ball, Bobby Burke singled across the winning run in the ninth.

Cleveland's opening day crowd saw the Indians drop a two to one decision to the fast-travelling Detroiters. George Uhl, Tiger veteran, allowed only five hits, three of which were bunched in the second inning for the Indians' lone run.

Sam Gray, of the St. Louis Browns, hurried his second shutout of the year in downing the weak-hitting White Sox by five to nothing. Carey Smith, rookie infielder, made two of Chicago's three hits.

"Red" Lucas, who at last seems to have a club back of him worthy of his talents, pitched the ambitious Cincinnati Reds to a seven to two win over the Chicago Cubs before an inaugural crowd of thirty thousand at Wrigley Field. Joe Morrissey, rookie shortstop, knocked in four of the Red Sox's runs.

The champion St. Louis Cardinals plunged to new depths as they lost their fifth consecutive game to the Pittsburgh Pirates by seven to nothing and fell a deadlock with the Giants for last place in the National League. It marked the first time in the last three seasons that the Red Birds have dropped five in a row. Steve Swartz, allowed the champs only three hits, all singles.

The Giants, led by bruising Bill Terry, tore into four Phillie pitchers for seventeen hits and a fourteen to five triumph at Baker Bowl. Terry hit two homers for the second straight day and batted in five runs. Old Clarence Mitchell did the pitching honors.

Brooklyn and Boston Braves had an off day.

READING SHOWS SIGNS OF BECOMING POTENT CON-TENDER

New York, April 21.—The Reading Keystones still appear to be in the experimental stage but the indications are that if Manager Clarence Rowland can find the proper combination of his various players the Keys will have a team that will make a lot of trouble for its International League rivals.

The Keys have been hitting hard and getting occasional good pitching but so far the best they have been able to get out of it was an even break in their first eight games of the season.

After losing three straight games to the slugging Buffalo Bisons, Rowland shifted his line-up considerably yesterday. Whether or not it was caused by the shift, the Keys came through with a ninth-inning rally that brought two runs and a four to three victory over Buffalo.

The defeat checked Buffalo's winning streak after six straight victories and dropped the Bisons into a first-place tie with the Newark Bears. Newark spotted the

SPORTING NOTES

BASEBALL'S BIG SIX

The New York Giants, who clouted Philadelphia pitching for seventeen hits yesterday, took complete possession of the leading places on the National League batting list. Freddy Lindstrom, with three hits in five tries, held the league lead with a .452 average. Hughey Critz, with the same results, took third place, and Bill Terry, with three out of six, went into second.

"Babe" Ruth made the only change among the American League leaders, poking out two hits in three times at bat to gain second place. Lou Gehrig was shoved down to third and Roy Johnson was ousted from the "Big Six" list. Jimmy Foxx, of the Athletics, continued to lead both circuits, although one hit in four times at bat dropped his average to .481.

Table with 5 columns: Team, G, A, R, H, PC. Rows for Fox, Athletics; Ruth, Yankees; Gehrig, Yankees; Lindstrom, Giants; Terry, Giants; Critz, Giants.

HOME RUN STANDING

Home runs were recorded yesterday by Terry, Giants, 2; Jackson, Giants, 1; Lindstrom, Giants, 1; Ruth, Yankees, 1; Larry, Yankees, 1; Dickey, Yankees, 1; Cochrane, Athletics, 1; McManus, Red Sox, 1; F. Schulte, Browns, 1; and Melillo, Browns, 1.

PROMISING MATERIAL UNCOVERED AT Y.M.C.A. GYMNASIUM

Three popular branches of athletic activity, boxing, wrestling and fencing, are receiving increased attention at the local Y.M.C.A., and the weekly classes on Monday, Wednesday and Friday evenings are attracting many pupils. As the season advances considerable enthusiasm is noted, and last evening the three groups were well patronized. New material made its appearance from Bishop's University, and Vincent Stracchino, local wrestling star, was hard pressed to retain his superiority over the visiting competition.

Some promising material turned out from the High School to demonstrate their pugilistic ability, while a contingent from Lennoxville gave a clever display of fencing. It is now definitely planned to stage a boxing, wrestling and fencing tournament next month.

The Y.M.C.A. juniors last evening enjoyed their bi-monthly supper after their regular gym class. At the short meeting plans were discussed to help the annual circus and financial drive.

Rochester Red Wings five runs in the fourth inning when Pinky Shoffner weakened, then came back with seven runs in the next two frames to win one to seven.

The Jersey City Skeeters and Montreal Royals, scrapping to keep out of the cellar, exchanged places again as the Skeets won and Montreal lost. The Jerseys bunched their hits off Milligan and Cook, of Toronto, with the eleven walks the two Leaf moundsmen gave out and took Toronto over the hurdles by an eleven to two count.

Montreal moundsman was as ineffective as Toronto's and the Baltimore Orioles hammered out eleven hits and a nine to four triumph over the Jays.

INTERMEDIATE TITLE WON BY LONDON CAGERS

Defeated Quebec Title Holders 25 to 22 in Second Game to Bring Forest City Its First Dominion Basketball Championship.

London, Ont., April 21.—London's speedy and well-balanced Y.M.C.A. Aces are today Intermediate basketball champions of Canada. After a courageous display in which they were extended to the limit by the Quebec City representatives last night, London finished on the long end of a 25 to 22 count to bring the Forest City its Dominion cage title.

Featuring a tightly-woven passing attack, backed up by a stout-hearted defence, as in the first game of the final round when they trounced the Quebec champions by 44 to 16, the Y.M.C.A. snipers clearly deserved last night's victory. It was not an easy victory, however, as the raring squad of Quebecers gave their best in an effort to overcome the huge point edge carried over from the first game on Monday.

The Aces' powerful front line of Noble, Logan and Manness proved instrumental in the homers' victory, ringing up a total of twenty-two points among them, while the other three points were credited to Cook on left guard.

Smooth-striding Dave Walker, rangy centre of the Quebecers, was the outstanding performer for the Irish with a total of nine points, while Donaldson and McTeer were each credited with four.

Interest in Senior basketball circles runs high today with the spotlight centring on Saint John and Winnipeg.

In the Western circuit, Raymond Union Jacks, Alberta champions and conquerors of Westminster Adanacs and University of Saskatchewan, meet the Winnipeg Trollers in the second of a two-out-of-three game series for the right to represent the West in the Canadian final. A 33 to 30 triumph gave the Trollers the first game, but the result might easily be reversed tonight, as the Raymond quintette had just finished a long train jaunt previous to the first game.

Saint John holds the stage in the East where the first game of the Eastern Canadian finals will be played. Windsor-Walkerville Alumni, Ontario Champions, will furnish the opposition for the Trojans of that city. The Ontario speedsters will be greatly weakened for the game as four of their regulars who have played in the majority of their games to date will be absent from the line-up.

Johnny Murray and Eddie Dawson, two stellar guards, were both ruled ineligible for amateur competition by the Ontario branch of the Amateur Athletic Union of Canada, while Bill Butcher and Frank Dowd, a pair of sharpshooting forwards, were unable to make the trip.

A candidate for election addressing his constituency was surprised by a voice which, coming from the back of the hall, said:

"Well, I don't care wot yer says, gov'nor, I wouldn't vote for you if you was the angel Gabriel." Quick as lightning came the reply: "If I were the angel Gabriel, you wouldn't be in my constituency."

HONOLULU CASE TODAY NEARING ITS EPILOGUE

Mrs. Massie's Tear-Drenched Story Marked Conclusion of Defence Testimony Yesterday—Outburst of Applause in Court Room.

Honolulu, April 21.—Having been turned momentarily into a spectacle of wrath by the witness stand outburst of Mrs. Thalia Massie, the trial of four persons accused of lynching Joseph Kahahawai reached the beginning of its epilogue today.

The white spark of fury which flashed first from the witness and then in turn from judge and prosecutor yesterday not only signalled the end of Mrs. Massie's tear-drenched story, but also marked the finish of the defence testimony designed to clear her husband and three other persons of a second degree murder charge.

A paper, supposedly containing a written admission by Mrs. Massie of a rift between herself and her husband, provided the fuel for the mental conflagration.

Under cross-examination Mrs. Massie had admitted having taken a psychopathic examination at the University of Hawaii last summer, a few months before she was attacked by five men, of whom Kahahawai allegedly was one.

Public Prosecutor John C. Kelley handed Mrs. Massie a paper, presumably containing her answers in the examination. The prosecutor asked if it was in her handwriting.

"This is a confidential paper be-

tween a physician and his patient. Where did you get it?" Mrs. Massie demanded, stiffening in her seat and turning her blazing eyes on Kelley.

"I am asking questions, not answering them," said Kelley. "I refuse to say whether I wrote it," Mrs. Massie stormed and tore the paper to bits. A wave of applause came from the audience.

His voice shaking with anger, Judge Charles S. Davis lectured the spectators for the demonstration. As Mrs. Massie left the stand the prosecutor arose and said: "Thank you, Mrs. Massie. At last you've shown yourself in your true colors."

Kelley's demeanor reflected his wrath. Before Mrs. Massie left the chair he asked: "Are you sure that man is a doctor?"

"Yes, positive." The exasperated young woman left the stand and sat by her husband and her mother, Mrs. Granville Fortescue, another of the accused. With Massie's arms around her she sobbed: "They are trying to say I don't love you. Everybody knows I love you."

Under the gentle questioning of Clarence Darrow, chief of defence counsel, Mrs. Massie had testified to many details of the attack and subsequent events bearing on the asserted insanity of Massie at the time he faced Kahahawai with drawn pistol and supposedly heard the native admit taking part in the attack.

Mrs. Massie had acknowledged hearing rumors about herself and

LONDON PAPER COMPARES FREE STATE WITH INDIA

London, April 21.—The Morning Post today editorially accused President Eamon de Valera, of the Irish Free State, of using Dominion Status as a step towards separation from the British Commonwealth of Nations.

Drawing a parallel between the Free State and India, the newspaper said that if de Valera could use Dominion status as a starting point to independence from the British Empire, Mahatma Gandhi, Indian Nationalist leader, could do the same.

her husband after a jury had disagreed as to the guilt of the five men she had accused. She had heard reports that a naval officer was her attacker, that Massie was getting a divorce, and that it was Massie instead of Kahahawai who had broken her jaw.

With Mrs. Massie's story ending the defence's case, the prosecution's rebuttal was in order today. Kelley announced Dr. Paul Bowers, Los Angeles alienist, would arrive during the day to testify for the prosecution regarding the insanity plea in Massie's behalf. He declined to say when Dr. Bowers would take the stand, but expressed the belief the trial would end tomorrow.

"We are through," Darrow said last night with respect to the defence's side of the case. "I'm pretty well satisfied," he added with a tired smile. Already the defence has begun preparing its summary to the jury.
