THE PRIZE SAFE,
MADE BY
S. C. HERRING, NEW YORK.
THE Subscriber has now on hand a complete assortment of the above celebrated SAFES, with all the late improvements as introduced only by Mr. Herring. The superior workmanship of Herring's Safes has always given them a decided preference over other makers, so much so, that nearly 11,000 have been sold within a few years, and are in use in Europe, the United States and Canada. They have been exposed to the most severe trials, and never in a single instance have failed to preserve their contents uninjured.
The Subscriber can refer, amongst many severe fires in which Herring's Safes have come out victorious, to the well known fire in this city of the 6th of June, 1852, in which one of the Safes sold by him to the Harbor Commissioners was exposed to a degree of heat quite unusual in any ordinary fire. In addition to the flames of several buildings, which were blowing in the direction of the Safe, it was exposed to a still greater heat by being over the ship chandlery store of Mr. Mullins, whose stock, consisting of tar, rosin, &c., &c., made a fire to which a Salamander is seldom exposed. After remaining 36 hours in the ruins, without a drop of water being thrown upon it (as is the case in most fires,) the money and papers inside were found in PERFECT SAFETY.
Purchasers will please call, and make their selections of sizes, and examine the Safes, at the Warehouse of

Prize Piano Fortes.
LIGHTE, NEWTON & BRADBURY'S,
NEW YORK.
THE above Makers have received the First Premium at the New York Crystal Palace, for late improvements and for excellency of tone.
The highest encomiums have been paid them by the most eminent professors, for combining so perfectly great *volume and power* with that delightfully pure, full, round, and *singing tone* peculiar to their instruments. Such a tone is not only delightful to listen to, but is of great assistance to the singer, giving him at once a model tone to imitate, and blending beautifully with the tones of his own voice.
Their Instruments are all made of the very best materials, thoroughly seasoned and kiln-dried, and are therefore capable of enduring the changes of any climate.
Their Pianos also received the First Premium (a gold medal) at the Annual Fair at Castle Garden, in October, 1853, the judges being the following eminent professors and artists, viz: L. M. Gottschalk, Pianist; Theo. Eisfield, George F. Root, &c.

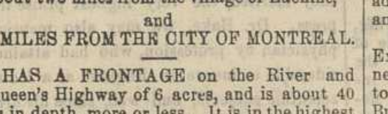
FOR SALE, OR TO LET.



ONE OF THE
Most Beautiful Farms
In the Country, delightfully situated on the
North Bank of the River St. Lawrence,
About two miles from the village of Lachine,
and
SIX MILES FROM THE CITY OF MONTREAL.
IT HAS A FRONTAGE on the River and Queen's Highway of 6 acres, and is about 40 acres in depth, more or less. It is in the highest state of cultivation. There is about 100 acres of valuable Wood Land, including hickory, white oak, white and grey ash, elm, beech, birch, soft and hard maple, and there is about 75 acres under crop this season, which may be had at a valuation, if required, by the purchaser, and about 65 acres in meadow. There are several Orchards and Gardens on the Farm, and Two Farm Houses in the best order, with Barns, Stables, Cow Houses, Pigeries, Root Houses, Ice House, besides several good houses occupied by farm laborers, a Blacksmith's Shop and Dwelling House, Cooper's Shop, and many other buildings used as Store Houses. There is also on the land a very superior two-story Wooden Cottage, lined throughout with brick inside, in the highest state of repair. Attached to it are Stables, Coach House, Barn, and two good Gardens. This Property needs no other recommendation but that it has been cultivated and improved under the management and directions of CHARLES and JOHN PENNER, Esqs., for a number of years past, and is well known as Penner's Lower Farm. The above Property will soon become very valuable, as it must of necessity become an inlet to the contemplated improvements on the river side. The whole is commuted, and a ratification title will be given.—Terms of payment made to suit the purchaser.—Apply to the Proprietor on the Upper Farm.

MILL SITE FOR SALE.
THAT VALUABLE ISLAND at the mouth of the RIVER ST. MAURICE, called L... LA POTTERIE, containing about 100 arpents superficies, surrounded by the waters of the St. Lawrence, and two of the Channels of the St. Maurice.
Also, a PART of the TWO other ISLANDS adjacent.
Also, the LAND on CAP DE LA MAGDELAINE, forming a frontage on the Cap of two arpents, by half an arpent in depth.
This Property, being situated partly in the River St. Lawrence, forms one of the finest situations in the country on which to erect a Saw Mill.
In addition to the advantages of this Property to draw supplies of logs from the immense sources of the St. Maurice, it could also be available for supplies of logs from any stream falling into the St. Lawrence *above* the St. Maurice, thus having advantages such as no Mill in the county at present enjoys. Vessels of the largest class could load deals from the wharves of this Property, and thus save the expense of rafting, piling, &c.

We have in the hands of a Wood Engraver in New York, a MAP OF THE **BALTIC**, which we will publish in the DAILY HERALD in a few days.

THE FUGITIVE SLAVE INIQUITY.—The *New York Journal of Commerce* thus comments upon the late case of judicial man-stealing in Boston:—

"It is with great satisfaction that we announce to our readers the complete triumph of law in Boston over one of the most ferocious gangs of abolitionists, black and white, clerical and laical, that ever disgraced the country. Anthony Burns, the fugitive slave of Col. Suttle, of Alexandria, Va., was yesterday restored to his owner by U S Commissioner Loring, after a full and impartial hearing, and was conveyed on board a revenue cutter, then lying at Boston, which is now on her way to Alexandria. The ... police force, under the direction of the U.S. Marshall, supported by a brigade of Massachusetts militia, cooled the ardor of the mobites to such a degree that they could see the laws of their country enforced without pulling a trigger or even attempting a rescue. Perhaps the ghost of the murdered Batchelder stood before them and warned them out. At any rate, their courage, with abolitionists when they come to the scratch. They are mighty with the tongue ... resolutions; but that ... talent is exhausted. ... conventions and ... being done, their ... manuscript mourns that $30,000 to $50,000 ... the surrender of Burns ... "The Worcester ... from the United States Tre... been $300,000 the money ... well expended, rather than ... to his ... have been ... enacted to carry out a ... law of the national compact, to ... fundamental ... under foot. But who made this ex... trample ... necessary? The abolitionists. And ... expenditure ... slave law is to be amended, we ... it will be so amended as to assess all future ... expenditures which may be rendered necessary ... attempts at resistance or demonstrations of resistance by the abolitionists, upon the abolitionists themselves. This is no more than strict justice. They render the expenditure necessary, by all means let them pay the fiddler."

Immediately following this melancholy example of subserviency to Southern dictation, we have the following pious reflections upon the "sad fall" of a Presbyterian clergyman, the Rev. William T. Hamilton, D.D., of Mobile, recently deposed from the ministry for immoral practices. It is thus that our New York contemporary, while ignoring its spirit, quotes the words of the Apostles:—

"Cases, of this kind, although they give new courage to infidels and skeptics, do not, in fact, shake the foundation on which evangelical religion rests; for, in the first place, the offender may always have been a hypocrite or self-deceiver. In that case, the ultimate exposure of his true character no more disproves the reality of Christian faith than the exposure of a counterfeit coin disproves the reality of the genuine.—Again, it is not for man to say how far a true Christian may be suffered to sink, under peculiar circumstances of temptation, connected with a peculiarity of constitutional temperament, vicious habits in youth, &c. This lesson, at least, should be learned from such cases:—"Let him that thinketh he standeth take heed lest he fall." "Nevertheless the foundation of God standeth sure." 'He that hath his hope in Him purifieth himself.'"

No; the "sad fall" of such a man as this William T. Hamilton, can have little effect, one way or the other, upon the religious convictions of any man of common sense; but strong, indeed, must be the foundation on which our contemporary's "evangelical religion" rests, if it can resist the effects of such attacks upon Christian morals and Christian doctrine as its professors daily indulge in, on the subject of slavery and the fugitive slave law. We are not fanatic abolitionists; we can understand and appreciate the enormous difficulties which surround the question of negro slavery; we can sympathize with the feelings, almost with the actions, of Southern slave-owners, irritated by the universal condemnation, by all Christian people, of a system under which they have been born and bred, and the wickedness of which they, from early habit and prejudice, cannot see; we can believe in their sincerity, even when they misinterpret the language and misapply the doctrines of the bible, in support of their "domestic institutions." But we have no sympathy, with no belief in the sincerity of any *Northern* professor of evangelical religion, who, while vilifying the friends of the escaped slave as a "ferocious gang of abolitionists, without courage to pull a trigger," turns up the whites of his eyes and thanks God that he is not as other men are, infidels, sceptics, unjust, adulterers, or even as this William T. Hamilton, of Mobile! The Southern slave-owner may be—nay, we know that he, not unfrequently, is—a high-minded, honorable, and benevolent man; who, misled by education and all his early associations, domestic and industrial, sincerely and firmly believes in the "divine right" of the master over the slave, and exercises that supposed right with humanity and moderation. Such a man, we can respect and esteem, even when we utterly repudiate and deplore, what we consider, his moral and political obliquity of mind; but, we confess, we can have no sympathy with nor even charity for the northern pharisee, who, in spite of education, and altho' he has had from his youth upward the inestimable blessings of freedom ever before his eyes, with affected piety, puts his "hope in Him who purifieth"; and, at the same time, hammers and rivets the shackles of slavery upon the bodies and upon the souls of his fellow-men. The Southern slave-holder we look upon as an honourable opponent, the victim—in many instances, at all events—of passion and of prejudice, whose motives may be pure and patriotic, so far as his lights enable him to judge; but his northern apologist we can only regard as a mercenary, whose only object is "pay and provend," as Sir Dugald Dalgetty has it; and we greatly fear that, if the fortress of christianity depended upon such evangelical "defenders of the faith," against the assaults of the sceptic and the infidel, its fall would be as certain as that—there are one hundred cents in a dollar!

WATER WORKS.—We publish to-day a full statement of the yearly expenditure and income, and present condition of the Water Works department of the city. It will be seen that, after paying all interest and expenses, the department yields a small profit. It is to be hoped that by this time next year, the new works will be in full operation, and that we shall have even had an opportunity to test them in a pecuniary as well as sanitary point of view. We observe that a contemporary, who a few days ago was calling upon the city authorities to undertake something in the way of Water Works, has since ascertained that this something has been done, and the complaint seems now to be that too much has been done, at least that a great deal of money has been spent, in a way that he cannot understand. It is not much to be wondered at, since it is within the week that he found out that anything at all in that line was going on. ... these works, we may perhaps ... say, though their construction has been attended with a great deal of ... probably some disappointments to ..., that we are quite satisfied, for our ... wait and see the end before we be... There is no one who knows any... works of the greatest engineers, Smeaton, Brindley, Bruel, Stephenson and others, who is not aware that some of their most successful works, the noblest monuments of their genius, were only completed after several essays, and the frequent failure of the means by which, in the outset, they hoped to effect their purpose. We do not mean that there has been even this partial or temporary failure in the Water Works; but we dare say it is not an exception to every similar work, in having presented obstacles that the engineer could not foresee. Some of these obstacles, indeed, were of a very peculiar nature, for the engineer's plans for passing the canal had to be changed for those of others, while he was held responsible for their execution. To return, however, to the accounts, it will be seen that they are made out in a very plain, business-like manner, which is creditable to Mr. Dupré, the able Accountant of the Department.

Latest News from the Pacific.

by steamship *Star of the West*, which arrived at New York on Thursday evening last, from San Juan del Norte, on the evening of the 31st ult. She brought 513 passengers, $1,286,097 on freight, and $500,000 in the hands of passengers. The steamship *George Law* arrived the same evening, from Aspinwall, with California mails to the 18th ultimo. She brought 434 passengers, and $97?,472 on frieght—thus, on one day, there arrived at New York, from the Pacific, 947 passengers, and nearly three millions of dollars in specie—the amount brought by the passengers of the *George Law* not being given, we guess at it. This is, certainly, an amazing evidence of the importance of California to the older States of the Union. The news brought by these ships would not much interest our readers. We give a short summary, from the New York papers:—

FROM THE MINES.

The papers generally speak of the mining intelligence as favorable.

There have been several small showers during the past fortnight in the different portions of the mines, though there has been no rain in this city. The waters continue to be favorable to gulch mining, though many of the smaller ravines are beginning to be dry.

On the 2nd of May a lump of gold weighing 30 lbs. 3¾ ozs. was found at Vallecito, in Calveras County; a number of other smaller lumps were found near the same time and place.

AN EXPEDITION FOR JAPAN.

Silas E. Burrows, formerly of New York, and his son, left San Francisco on the 11th of May, in a clipper-ship of five hundred tons, for Japan. The San Francisco *Herald* gives the following ... count of the expedition:—

Mr. Silas E. Burrows, one of our most ... ents of ... relative to the opening of the ports of Japan to the trade of the world, conceived the idea of making a voyage to Jeddo, for the purpose of ascertaining the truth of the rumor, and if so, to open a trade at once with the Japanese. For this purpose he has fitted out one of his clippers—the *Race Hound*, but which for the trip he has named the *Lady Pierce*, in honor of our present Chief Magistrate—and sailed yesterday.

The *Lady Pierce* is a beautiful little clipper, fitted up in the most costly and luxurious manner. Her cabins and general appointments fully equal those of the most magnificent of our floating palaces. She also mounts five guns of small calibre, not so much to intimidate as for her own protection in case of attack from any of the Hongkong pirates who infest those waters. Her mission is essentially pacific. It is expected that she will make the voyage inside of forty days, and if Commodore Perry and his squadron should be anchored off Jeddo at the time of her arrival, it will no doubt be a joyful surprise for him to find an American merchant the first to avail himself of the benefits of the negotiation in which he has been engaged. This expedition of Mr. Burrows is regarded with considerable interest, and advices will be anxiously looked for from him.

The Alta California states that it was the intention of Mr. Burrows, if well received, and permitted to remain, to present the vessel to the Emperor.

THE FRENCH CONSUL.

In the United States District Court, on the 15th of May, the grand jury presented an indictment against Patrick Dillon, Esq., consul of France at San Francisco, for a violation of the neutrality laws of 1818, and a bench warrant was issued for his arrest.

The indictment charges that Patrick Dillon, late of the Northern District of California, on the 6th of March, 1854, at San Francisco, did hire a certain person, to wit: one Eugene Didier, to enlist himself as a soldier in the service of a Foreign State, to wit: the Republic of Mexico. Secondly, That he hired a great number of persons to enter as soldiers in said foreign service. Thirdly, That he hired a thousand persons to enlist themselves as soldiers in said foreign service. Fourthly, That he retained one Antoine Gonin to enlist himself as a soldier in said foreign service. Fifthly, That he retained a great multitude of persons to enter as soldiers said service. Sixthly, That he retained one thousand persons to enlist as soldiers in said service. Seventhly, That he hired one Eugene Didier to go beyond the limits of the United States, with intent to be enlisted as a soldier in said service. Eighthly, That he retained a great multitude of persons to go beyond the jurisdiction of the U. States, with intent to be enlisted as soldiers in said service. Ninthly, That he retained one thousand persons to go beyond the limits of the United States, with intent to be entered as soldiers in said service. Tenthly, That he hired and retained one Antoine Gonin to enlist and enter himself as a soldier in said service. Eleventhly, That he hired and retained certain persons to go beyond the limits and jurisdiction of the United States, with intent to be enlisted and entered in said service. And, twelfthly, That he retained a great number of persons to go beyond the limits of the United States to Sonora, one of the United Mexican States, with intent to be there enlisted and entered as soldiers in the service of a foreign people, to wit: the Republic of Mexico—contrary to the form of the statute of the U. States of America in such case made and provided, and against the peace and dignity of the said United States of America.

FROM SOUTHERN CALIFORNIA.

The steamship Southerner arrived at San Francisco on the 15th May, bringing intelligence from San Diego to the 9th of that month. On board were Capt. H. S. Burton and Lieut. G. H. Derby, of the U. S. army, and Mr. Walker and the remainder of the Sonora invading party, thirty-four in number, who surrendered themselves to Major McKinstry, as prisoners on parole, on the 8th of May. The particulars we abridge from a letter in the San Francisco Herald:—

SAN DIEGO, Cal., May 9.

Major McKinstry, U.S.A., arrived here on the 5th inst. from San Francisco, and immediately put himself in communication with parties supposed to be conversant with the state of affairs in Lower California. The excitement in relation to Walker and his party was at its height. Walker was known to be on his march up the country, and the inhabitants of the lower country had fled to this place for protection—bringing with them, and industriously circulating, all manner of tales, attributing unheard of outrages.

Valiant men at arms were distributed along the roads and the mountain passes, and hill-tops swarmed with fighting men, only too anxious to strike one blow for "His Highness" and the integrity of their homes. Through all these difficulties on came the army of the Republic of Sonora, *thirty-three* strong. General Melendrez, with colors flying, at the head of his cavalry, maintained a respectable distance on the mountain sides. Walker very quietly pursued his way along the main road, and took possession of the hacienda "La Tiajuana," three miles to the South of the boundary line. General Melendrez crowned the heights in the vicinity and hoisted the Mexican colors. This was the condition of affairs on Sunday.

On Monday morning, Major McKinstry, accompanied by Don Santiago Arguello, (one of the owners of the hacienda,) and Messrs. Reiner and Crestewaite, of this place, left here for the purpose of having an interview with Walker. They arrived at La Tiajuana about noon of that day. After a short conversation between the Major and Walker, a mounted messenger was despatched to Capt. Burton, commanding the American forces on duty on the line;—Capt. Burton sought for and obtained permission of General Melendrez to cross the line, bringing with him a demand from the Mexican General for Walker to surrender conditioned as follows: "Walker and party to be permitted to cross the line into the U.S Territory upon surrendering his arms, and an individual by the name of Carillo, who had been captured by Walker and used as a guide up the country"—Melrendez supposing that he had deserted his service and entered that of Walker.

General Melendrez also announced his intention of executing Carillo immediately upon obtaining possession of him. Walker replied that his arms and his men were at the service of Melendrez, if he were able to capture them.

The Mexican forces commenced manœuvring, and hung upon his flank till within one mile of the boundary line. At this point many of the inhabitants of San Diego had assembled (by invitation) to witness the prowess of General Melendrez. Upon a small hill opposite the spectators General Melendrez planted his colors and displayed his forces. To judge from the cavorting steeds and the riding up and down the line by the General, and the hurrying to and fro of impatient aid-de-camps, all were eager for the affray. As Walker neared the enemy he deployed his advanced guard of nine riflemen, who, with a cheer, charged the Mexicans; the latter, without firing a shot at their enemy, put spurs to their horses and disappeared in a cloud of dust, from out of the midst of which the Mexican flag could be discerned waving over as arrant a set of cowards as ever attempted to "play soldier." A shout of derisive laughter went up from the valley highly expressive of a filbustier's opinion of Mexican courage. Walker halted his command within a few feet of the boundary line, and crossed to meet Major McKinstry and Captain Burton.—Maj McK. announced the terms upon which he would receive their surrender, which having been agreed to, the filbusters gave three cheers for the United States, and three for their own officers.

AGREEMENT.

The undersigned, representing respectively the Government of the United States and the (so-called) "Republic of Sonora," have agreed as follows:—

Col. Wm. Walker (President of the Republic of Sonora) and party agree to surrender themselves to the United States as prisoners, to abide an investigation of there alleged violation of the act of 1818, in reference to the neutrality of the United States, on the following conditions to wit:

Major J. McKinstry and Capt. H. S. Burton, of the army of the United States agree to provision and quarter Col. Walker and command at San Diego until the arrival of a steamer, when they shall be furnished with transportation to San Francisco, upon condition of reporting themselves (under the direction of Capt. Burton) to Major General J. E. Wool, United States army, at San Francisco, as prisoners on their parole of honor.

At anchor, off La Punta, California, May 8th, 1854.

J. MCKINSTRY, Bt. Maj. U. S. A.
H. S. BURTON, Capt. U. S. A.
WM. WALKER, Pres Rep. of Sonora.

PAROLE OF HONOR.

The undersigned officers and privates of the (so-called) "Republic of Sonora," do solemnly pledge their word of honor to report themselves at San Francisco, Cal., to Major General Wool, of the U. S. Army, charged with having violated the Neutrality Laws of the United States.

Mr. Warren an express messenger of Adams & Co., who was on board the Southerner, states that the force under Melendrez consisted of about 90 men.

On the arrival of the Southerner, Mr. Walker reported himself and party to Gen. Wool, who accompanied him to the office of the U. S. District Attorney, where his *parole* to hold himself subject to the action of the Government authorities, for the purposes of an investigation, was verbally renewed. No bail was required.

SHARP PRACTICE.—We observe by the Quebec papers of Saturday, that, on the previous day, what the *Chronicle* calls "an unusual but not very wonderful" scene *came off* in the Police Court of that city—our contemporary thus describes it:—

At about two o'clock in the afternoon, Mr. John O'Farrell, an Advocate, entered the Court, and addressing himself to Mr. Maguire, the Police Inspector, requested him to sit in a case in which he (Mr. O'Farrell) was concerned.—To this request Mr. Maguire replied "I cannot hear you Sir, you are under conviction." A few moments after, Mr. Falconbridge, a constable, came to where Mr. O Farrell was standing, and having announced his intention to arrest him for a contempt of Court committed on Thursday afternoon, Mr. O'Farrell drew a pistol from his pocket, and declared that he should not allow any one to arrest him whilst engaged in conducting a case, and at the same time demanded the Constable's authority. Mr. Falconbridge quickly seized the pistol with which Mr. O'Farrell was armed, and Mr. T. Pope, Advocate, having interfered, it was handed over to him. The warrant was then shewn to Mr. O'Farrell, and he permitted himself to be conducted to the prison.

After remaining a short time in jail, Mr. O'Farrell paid the fine imposed upon him, under protest, and was liberated. Whatever may have been the learned advocate's conduct in the first instance, he well merited both fine and imprisonment for his foolish braggadocio resistance to the authorities, in the second.

The Board of Works would do well to send out one of its employées to examine the Toll Road round from Jones' Bridge, St. Athanase, to Spear's Corner, Stanbridge, and report what state it is in. We are told that there never was a greater imposition on the public than the tolls exacted on this road; there is scarcely a whole plank from one end to the other.

THEATRE ROYAL.—Mr. Buckland's excellent company, we are glad to see, attract large audiences every evening to this elegant place of amusement. On Saturday night, *The Merchant of Venice* was exceedingly well performed, the leading characters being sustained in a manner that would have done credit to any theatre on the Continent. Mr. Fisher's impersonation of the revengeful *Shylock* was true to nature—vigorous and forcible, but free from the exaggeration and rant with which the character is too often injured. Mrs. Buckland's *Portia*, also, was a thoroughly effective and most pleasing portraiture of the fair young doctor of Rome—the "wise young judge," by whom the vindictive Jew was so completely overreached. Last night, Buckstone's popular melo-drama, *The Dream at Sea*, went off with great *eclat*; and this evening, as will be seen by the advertisement, we are to have a capital comedy and other attractive performances.

CONCERT-LECTURE.—We would remind our musical friends that, this evening, Dr. Hake gives his first lecture, in the Odd Fellows' Hall, Great St. James Street, on the vocal music of England—a most interesting subject, whether viewed historically or artistically. We have heard much of Mrs. Neill's gifts and accomplishments as a vocalist, and anticipate a rich treat in her songs, illustrative of the learned lecturer's facts and theories. A glance at the programme, in another column, will, we think, satisfy our musical readers that we do not over-estimate the very interesting nature of the evening's entertainment. It may be well to mention that, although much admired, as an amateur, by a large circle of friends in England, Mrs. Neill never sang in public, until very recently, in New York, where her performances met, as we doubt not they merited, the very highest praise from the press. Dr. Hake, we may also mention, is a physician by profession, who had attained considerable eminence in England as a lecturer on scientific subjects, and who, since his arrival in America, has lectured to very large audiences in Boston, before the Lowell Institute of that city.

NEW MUSIC.—"Rose of my Heart," a ballad, written by Geo. Linley, composed by Walter Maynard. "Kate of Kildare," ballad, by the author and composer of "What are the Wild Waves saying?" These two very beautiful ballads have just been issued by Frith, Pond & Co., of New York, and may be had at Prince's Music Store, Notre Dame Street. The composers, whose names are attached, are a sufficient guarantee for something more than common, and render any encomium on our part superfluous. "The Black Bird Quadrille," by Ricardo Linter, composer of "The Pretty Bird Quadrille." These charming quadrilles (reprinted from the London copy) may be had now, we are told, at half price We strongly recommend them.

ERRATA.—The compositor makes us speak, on Saturday morning, of a "band of honor," instead of a "guard of honor;" and, yesterday, of General Lindsay, the "Governor," instead of the "Convenor" of the County of Fife, in Scotland.

The Ladies of the ... Rev. Mr. Smart's Congregation in Brockville ha... presented him with a very beautiful Silver ... Salver, as a memorial of their early acquaint... ance, continued friendship, and sincere attach... ment. The subscription to purchase this Salver ... was first set on foot by the late Mrs. Sherwood; ... but, alas! the kind friend who suggested the ... token, lay cold in her grave before the intended p... resent arrived from New York.

APPOINTMENTS.

SECRETARY'S OFFICE,
Quebec, 10th June, 1854.

His Exc... ellency the Administrator of the Government ... has been pleased to appoint Chauncey Bull..., of Stanstead, Esquire, a Collector in Her M... ajesty's Customs.

CROWN LANDS DEPARTMENT.
Quebec, 19th May, 1854.

His Excellency the Administrator of the Government in Council has been pleased to appoint George Jackson, Esquire, of Durham, Crown Timber Agent for the Townships in the County of Grey, heretofore under the charge of George Snider, Esquire; and

Andrew Geddes, Esquire, of Elora, for the whole of the County of Wellington.

CROWN LANDS DEPARTMENT,
Quebec, 12th May, 1854.

His Excellency the Administrator of the Government has been pleased to appoint Charles E. Belle, Esquire, of Montreal, Crown Timber Agent for the Territory lying between the Agencies of A. J. Russell, Esquire, of Bytown, and Oliver Wells, Esquire, of Three-Rivers, extending to the St. Lawrence and westerly boundary of the County of Grenville; and Jos Fraser Way, Esquire, of Belleville, for the Territory lying between the westerly boundary of the County of Grenville and Toronto, extending back to the Agency of A. J. Russell, Esquire, of Bytown, at the height of land between the Tributaries of the St. Lawrence and the Ottawa.

LOWER CANADA.

THREE RIVERS.—Since the erection of Three Rivers into a port of entry, we are happy to learn that several of our leading mercantile firms have imported direct from the United States. This is as it should be, and we sincerely trust that the experiment may prove successful.

The amount of duties received by our Collector, from the 18th of May up to this date is about £500. Not so bad this for our little city.—*Three Rivers Inquirer.*

There is not in our Town a single house wanting a tenant. It is scarcely possible to procure even a room, rents at an average are 50 per cent higher than last year, in some instances they have advanced one hundred per cent, Provisions keep pace with rent. The pressure on tenants will soon be lessened as Messrs. E. Picaud and E. Hart are erecting some beautiful shops and dwelling-houses while others of the inhabitants, though on a more limited scale, are following their example. This fall and next spring will find us prepared to accommodate a large addition to our population. Some shops are rented at £100, shop and dwelling £125, this is treading on the Montreal and Quebec rates. There is no question that if the resources of the St. Maurice, and adjacent lands are effectually developed, our population in a few years will treble its present amount.—*Ib.*

Arrival of the "PACIFIC."

NEW YORK, June 12.

The Pacific arrived last night with Liverpool dates to the 31st ult.

It is reported that the town of Kaffar has been bombarded and captured.

The Turks were still in possession of Silistria, from which port the Russians had been repelled with severe loss.

Naples has officially declared her neutrality.

The detached forts at Argo had been destroyed by three steam frigates.

The Russians lost heavily. The British had 3 killed.

THE VERY LATEST.

A private despatch states that up to the 26th ult., the fortress of Silistria had not surrendered.

The Turks have encamped near Asta.

In Greece Thessaly is in open Rebellion.

A very hostile feeling is being felt in St. Petersburg against Austria, and it is rumored that the Russians upon the frontier of Burkopatna have commenced hostilities.

The corps Deolm, it is said, numbers 150,000 men.

Montenegro, at the latest dates, was tranquil.

There were 10,000 Turks in possession of Krajova on the 11th.

The Chancellor of the Exchequer had announced, through the London journals, that he could not pledge himself unconditionally that there should be no increase of funded debt.

Odessa, at latest advices, was closely blockaded. No neutral vessels were allowed to pass from Odessa into the Black sea, except those loaded with coal and naval stores.

On the 23rd, Sir Charles Napier was before Hango, to attack the principal forts.

One account from Silistria states, that the Russians stormed one of the ramparts, and another announces the complete investment of the place by the Russians.

The Retribution had captured several Russian prisoners in the Black Sea, an official account of which had been forwarded to England.

The cause of the bombardment of Kaffar was the refusal to deliver over to the allies several Russian vessels in the harbour. The bombardment lasted two days.

NAPLES, May 18.

The Neapolitan *Gazette* publishes a decree which embodies a declaration of Neutrality:—

1. Armed vessels shall not be admitted into the port or roadstead of the Royal Dominions of the two Sicilies; nor shall they be furnished with any munitions of war or ship stores.

2. Vessels shall not be permitted to enter the port, except from stress of weather.

3. Nothing will be allowed to be bought from privateers.

4th. The Neapolitan subjects are forbidden to communicate with privateers.

5. Neapolitan vessels shall not carry to any of the belligerent powers articles contraband of war.

6th. Neapolitan vessels shall not enter ports under blockade.

The rules which the belligerent powers observe respecting neutrals are, the flag protects the goods.

The property of neutrals on board of vessels, even of the enemy, shall be respected, saving war stores.

Letters of Marque shall not be granted.

The division which is now being concentrated at Avignon will occupy Greece.

Spain has issued a decree for a loan. The financial embarrassments of the Government are very great.

THE WONDER OF THE WORLD!

DEVINES'

COMPOUND PITCH LOZENGE!!!

THE GREAT REMEDY is at last discovered, and that fell destroyer, of human happiness at length is conquered! Consumption shall no longer rob our friends of their brightest ornaments, and sink many a gentle spirit to an untimely grave. Consumption can be cured; Asthma will soon be as the things that were; and Coughs and Colds, the parents of that fell disease that so often brings woe to the houses of our land, vanish, as if by magic, before this SOVEREIGN REMEDY.

DEVINES' COMPOUND PITCH LOZENGE.

This pleasant and safe remedy for COUGHS, COLDS, ASTHMA, CONSUMPTION and CONSUMPTION, is beyond doubt the cheapest and most efficient medicine ever offered to the public; and should be constantly kept on hand by every family, *especially for children to use for* colds, coughs, &c. One man remarked, after having been kept awake all night with his children, who were sick with colds, that "the first box he used was worth a five dollar ill to him," and, reader, it only cost him 25 cents; and $5 would buy 25 boxes or more.

IT SELLS WELL.

Read this letter from Alderman Rung:

Mr. Devines—Sir: Your Lozenge sells well, and gives general satisfaction for all Pulmonary complaints. In fact, I hardly know of a case where it has been used, but what it has performed a cure. I recommend it with confidence. You may make this public if you think proper, for I think all valuable medicines should be made known.

CHARLES H. RUNG,

Druggist, N. Y.

December 29, 1852.

IT CURES HARD COLDS ON THE LUNGS.

New York, Oct. 28, 1851.

Mr. Devines—Dear Sir: It is with the highest gratification I inform you that your Compound Pitch Lozenge has entirely cured me of a very hard cold I have had on my lungs for some time. I felt the effects of them in a very few hours. Tobacconist, 442½, Broadway.

P.S.—I have recommended your Lozenge to a number of my friends, who, since then, have used it, and find it to fit in the highest degree.

BUSINESS MEN! READ THE FOLLOWING.

Having sold Devines' Compound Pitch Lozenges for the last three months, we hereby certify that they meet with a ready sale; and judging from the representations of those who have used the medicine, we believe it to be a valuable remedy for the diseases for which it is recommended and entitled to the confidence of the public.

MOORE & SMITH, Merchants.

Pittsfield, Mass., January 14, 1852.

This is that which has so long been sought for, and is in full faith offered to the public as a certain cure for Coughs, Colds, Whooping Cough, Croup, Asthma, Consumption, and Consumption, and will in any case where these diseases are left to sustain life, check the ulceration and raise the patient to health.

Certificates of cures to be relied on, found in the circulars left with the agents—and the public may be assured we shall never publish anything we do not believe to be entitled to the fullest confidence, as truth "and nothing but the truth."

Connecting with Express Companies for all parts of the United States, California, Australia, &c.

CIRCULAR.

THE BRITISH AND NORTH AMERICAN EXPRESS COMPANY

HAS been organized for the purpose of facilitating the transit of Money, valuable and other parcels, and Merchandize of every description, between all the principal Cities, Towns and Villages in British North America, Great Britain and Ireland, and the United States.

The accountability of the present Company may be judged of by the responsibility of its President and Directors, and the public may rest assured that no efforts will be wanting on its part to give the utmost satisfaction in the transaction of any business that may be entrusted to it.

The great trouble and expense hitherto experienced in the forwarding of parcels and light packages to and from Great Britain and this country, will in a great measure be obviated by this Company, as they purpose establishing Agencies in the principal cities in England, Ireland and Scotland, and also of availing themselves of the direct communication afforded by the Canadian Line of Ocean Steamers, by which time, and to a great extent, the exorbitant commission and customs charges incurred at the ports of New-York and Boston, as well as the high rates of freight exacted by United States Express Companies will be saved.

Besides the *Money* and *Parcel* branch of the Express business, this Company will be prepared to contract with merchants and others, for the delivery of Goods and Merchandize of every description both in the Canadas and United States, by fast freight lines. Also, to receive consignments of Goods from any part of the world, pass them through the Customs and forward them to their destination with the utmost despatch. All such consignments must be accompanied by invoices for entry when coming to Quebec or Montreal, and by Consular certificates when shipped in winter via Portland.

Having contracted with the Grand Trunk Railroad Company for the exclusive privilege of the Express portion of their business, and arranged with the Proprietors of the River and Lake lines of Mail Steamers, for the conveyance of their Messengers and Freight, the BRITISH AND NORTH AMERICAN EXPRESS COMPANY respectfully announce that on the opening of navigation, they will commence running a Daily Express between Quebec, Montreal, Kingston, Toronto, Hamilton, and intermediate places; also, between Boston, and Portland and Montreal. A Messenger will accompany all Goods, Bank Notes, Specie, Collections, &c., which may be committed to them, and each Steam Boat and Train on which they ride, will be provided with suitable iron safes in which to deposit valuables.

To ensure the speedy delivery of Goods shipped to or from ports in Britain, they must be *distinctly marked* "Care of the British and North American Express Co.," as the Company will have Agents at all the Canadian and British Ports to receive and forward the same.

Re these safe and expeditious means of transit and moderate charges, the Company expects a large share of public patronage.

N.B.—Arrangements for opening Offices from Quebec to the Upper Lakes cannot be perfected before the 10th or 15th of May, of which due notice shall be given, together with Agents' names.

THIS INSTITUTION was originally established under a different title in the year 1839, on the plan of admitting the assured to participate in four-fifths only of the profits; but the Society has since been remodelled so as to become a strictly "Mutual Association."

The whole of the funds and property belong to, and are accumulated for the exclusive benefit of the Assured.

The profits are divided annually among the Policy-holders, and applied in reduction of the current year's premium; thus constituting, in effect, an immediate cash payment to the Assured.

Half-credit Policies are granted on terms unusually favorable to the holders,—the amount for which credit is given being gradually liquidated out of the profits.

Two Tables of Rates have been computed; one entitling the Assured to participate in the profits after payment of five annual premiums; the other considerably lower, in which the period of participation is deferred two years longer: the premium ultimately payable by the Assured is, however precisely the same, whichever Table of Rates may in the 1st instance be selected.

General Meetings of the Members are held annually; to whom full and complete statements of the affairs and funds of the Society are submitted, and by whom the divisions of the profits are from time to time declared.

At the Annual General Meeting held on the 27th April last, a dividend of 30 per Cent. upon the current year's premium was awarded to all Members who had made the requisite number of payments on their respective Policies.

By order of the Board of Directors,

E. R. FOSTER, Resident Director.

ANDREW FRANCIS, Secretary.

London, May 1st, 1852.

☞ The "Britannia Mutual Life Association" is altogether distinct from, and independent of, the Proprietary Office transacting business under the name of the "Britannia Life Assurance Company." The only connection between the two establishments is, that their affairs are conducted on the same premises and by the same officers by which means the entire disbursements of the Mutual Association are reduced to a small per centage on the receipts.

THIS OFFICE insures against Loss or Damage by Fire, all descriptions of Buildings, including Mills and Manufactories, and the Goods, Wares and Merchandize in the same, Ships in harbor or in dock; Craft on Navigable Rivers and Canals, and the Goods taken on the same; and Farming Stock of all descriptions.

The "Equitable" Fire Office will, by a constant analysis of its own experience from time to time, adopt such rates of Premiums as the nature of the risk may justify.

With this view, an annual investigation will be made into each class of risk, and a return of one moiety—or fifty per cent;—of the nett excess will be made to all classes of Insurers, whose Policies have been in force for three years.

The engagements of the Equitable are guaranteed by a responsible proprietary, and an ample subscribed Capital. The insured are free from the liabilities of a Mutual Insurance Society, and entitled, according to the plan of the Company, to a return of half the profits.

Losses are made good, without deduction or discount, and adjusted and paid in Montreal, without reference to London.

☞ By a Resolution of the Court in London, PREMIUMS ARE RETAINED IN MONTREAL, to pay Losses and ACCUMULATE a FUND of £10,000.
