STATEMENTS BY TWO MEN FORM CHIEF DEVELOPMENT IN MYSTERY OF EXPLOSION

One Claims To Have Seen Death Wagon Standing Near The Assay Office — Other To Have Seen Three Men Run Away Before Blast Occurred.

New York, Sept. 20 — Statements by two men, one of whom claims to have seen the "death wagon" whoch carted the explosive standing near the Assay Office at 10:30 a.m. Thursday, one and one-half hours before the explosion occurred, and the other who claims to have seen three men running away from the scene just before the blast, furnished the most important developments today in the several investigations that are being made of the disaster.

Other interesting developments of the day included:

Announcement by the District-Attorney's Office that Edwin P. Fischer, lawyer and former employee of the French High Commission, who sent post card warnings of the disaster from Toronto, had virtually eliminated himself from any direct knowledge of complicity in the case after eight hours questioning.

Receipts of warnings by William H. Edwards, Collector of Internal Revenue, that an attempt would be made to destroy the Customs House at 2 p.m. tomorrow. This is understood by the officials as a hoax.

Identification of the hitherto unidentified body previously believed as probably that of the driver of the explosive-laden wagon, as that of Elmer W. Keprer, an unemployed chauffeur and lack of any evidence connecting him with the crime.

Release of Alexander Brallovsky, a Russian journalist, who was arrested on a technical charge of being an undesirable alien after he admitted having been seen in the vicinity of Broad and Wall streets shortly after the explosion took place.

Search by Federal agents for a reported cache of explosives on Plum Beach Island, a Government reservation off Sheepshead Bay, where a quantity of T. N. T. was found in an abandoned vessel several months ago.

Joseph Meade, an agent of the Society for the Prevention of Cruelty to Animals, is the man who claims to have seen the "death wagon" in Wall Street at 10:30 Thursday morning. He said that he had been to Manhattan from a Brooklyn court to serve a summons and while walking up Broad street noticed an odd red delivery wagon in front of the Assay Office around the corner. He did not examine closely the contents of the wagon but described it as "an ordinary, dilapidated express wagon."

Meade also told the police that the collar worn by the horse was of the K. type and this is the kind of a collar that was found in the street after the explosion. He also noticed that all the ornamental knobs and other markings had been stripped from the harness and in this, too, his description tallies with that of the material actually found. He also stated the horse had been but recently clipped and that the wagon bore no name but had some numerals on the side.

Police attach considerable importance to Meade's statement and are using the material he furnished in their investigation into the identity of the wagon and its driver.

Information that three suspicious-looking men were seen running from the scene was furnished by Samuel B. Wellington, President of the West Indies Trading Company.

At the conclusion of Fischer's examination tonight he was sent to the psychopathic ward of the Bellevue Hospital for observation. If adjudged insane measures will be taken to have him committed to an insane asylum, it was announced by the District-Attorney's Office.

Secret Service operatives declared Fischer had been investigated four years ago and found a "harmless letter writer". He is alleged to have sent President Wilson several "crank letters". In 1916, posing as a religious pacifist and calling upon him to stop the war and by so doing put an end to the slaughter of human beings.

No action was taken against Fischer at that time.

Testimony tending to contradict that of Meade was later furnished by Oscar Sayre, a Y.M.C.A. secretary, who said an auto truck drew up in front of the Assay Office to carry away ashes at 11:46 a. m. Thursday, and that no ather vehicles were parked near there at the time. This was confirmed by the men who took away the ashes.

One of the "freak" happenings of the explosion became known today when a Wall Street brokerage firm reported that a package containing $400,000 worth of seculties wa sbo o t ehhnrlmwfr was blown from the hands of a messenger, who was near the scene, through the third story window of another firm. When the messenger who was knocked down but uninjured, regained his senses, was notified that the securities had been blown into the shattered window of a stock exchange firm at No. 7 Wall street and were safe.

Frederick McT. Carpenter, a bank clerk, suffering from shattered nerves as a resuk of his experience in the explosion, jumped to his death today from the roof of the National City Bank, No. 55 Wall Street, near the scene of the blast.

Carpenter was returning to the bank from lunch when the explosion occurred. He collapsed, was carried into the bank and later sent out of the city to recuperate. He returned to work today.

William Peterson, 29 years old, Bogota, N. J., died at the Broad St. Hospital tonight from injuries. He was the thirty fifth victim

Questioned at headquarters concerning a visit two weeks ago to a Japanese chemist's home at Clifton, N. J., Fischer admitted that he had on that occasion warned the chemist and a few of his friends that "something dreadful" was going to happen in Wall Street at 2 p.m. September 15, the day before the explosion. Fischer explained to the police that he had a "vision and could have told of more terrible things that are going to happen in the near future".

The police at once sent for Jokichi Takamine, Jr., the Japanese chemist, and announced that upon arrival would ask him if Fischer in uttering his warning used the words "explosion or explosives".

Fischer admitted having been committed to Bloomingdale Asylum but said that he would "rather not discuss it".

While in Commissioner Knight's office, Fischer washed his face and hands. He refused to use a towel, declaring he preferred to let the water remain.

Fischer saw the District Attorney walking up and down in front of his offices and hurrying up to him, said:

"Hello, Judge Swan, don't you remember me?"

"I don't recall that I do," the District Attorney replied somewhat crisply.

Fischer said he arrived at the date and time for the explosion by "figuring it on Greenwich time when I got the message from the air."

Becoming hungry, Fischer suggested that luncheon would appeal to him, and on the way out of the District Attorney's office refused to talk to newspaper reporters other than to say:

"You are full of soup."

BUFFALO HERDS SEEN IN MACKENZIE DELTA

This Exclusive To North America Animal Maintaining Itself In Far North.

Winnipeg, Man., Sept. 20.—A herd of wild bisons, numbering over a thousand animals, said to be the last herd on the North American continent, has been discovered roaming in the country in the MacKenzie River Basin.

F. H. Kitto, D.S.L., exploring engineer of the Natural Resources Intelligence Branch of the Department of the Interior, Ottawa, is the discoverer and states he received reports of another herd equally as large further north.

Mr. Kitto is a visitor here today enroute to Ottawa after a trip of five months in the Far North.

INDUSTRIAL WAR IS IMMINENT

Little Hope Left Of Averting Strike Of British Coal Miners.

London, Sept. 20—There was little hope tonight that the strike of the coal miners, set for September 27, could be averted. The Executive of the Miners' Federation had another long conference today with Sir Robert Horne, President of the Board of Trade, but no agreement could be reached on the question of an increase of two shillings per day in wages as demanded by the miners. The Federation insisted that the Government should grant the increase immediately while Sir Robert Horne pressed his proposal that the question should be submitted to an independent tribunal.

Robert Smillie, on behalf of the miners, concluded his argument for an immediate increase with the statement that the Executive committee could meet the delegates in conference tomorrow with a clear conscience and say that there was no other step to take but that which the ballot vote of the miners had indicated—to strike.

The delegates' conference can decide upon a withdrawal of the strike notice, which expires Saturday but it is hardly expected they will act contrary to the recommendations of the Executive Committee, the members of which consider that they have receded considerably in withdrawing their demand for a reduction in the price of domestic coal.

LABORS DEMANDS OVERWHELMING

They Killed The Goose That Laid The Golden Egg— Company Closes Shop.

Toronto, Ont. Sept. 20 — That labor's demands killed the Dominion Shipbuilding Company, in liquidation here, and there is no possibility of reviving this plant, was the declaration today of the Solicitors of the concern, when they appeared before the court of revision and asked for a big cut in their business assessment. The court reduced the assessment from $300,000 to $128,000 on the strength of th's argument.

ORR LEWIS NOW ORR ORR-LEWIS

Toronto, Ont., Sept. 20.—Sir Frederick Orr-Lewis, baronet, hardware merchant, Montreal, and Canadian agent for Vickers, Limited, had his name changed today by a deed poll registered at Osgoode Hall here to Sir Frederick Orr Orr-Lewis, on behalf of himself, his wife and children. Sir Frederick was born at Hamilton, Ont., in 1860, and it was because of his birth having been in Ontario that the change of name has been recorded at Osgoode Hall.

TELEPHONE RATE CASE IS OPENED

Counsel For Company Are MacFarlane Of Montreal And Glyn Osler Of Toronto.

Ottawa, Ont., Sept. 20.—Great interest attaches to the hearing of the Bell Telephone Company's application for increased rates, which opens before the Railway Commission at ten o'clock to-morrow morning. It is expected that the presentation of the company's side of the case will occupy most of the Tuesday and Wednesday sittings.

Counsel for the telephone company ar Lawrence MacFarlane, Montreal, and Glyn Osler, Toronto. H. G. Atwater and K. S. McHugh, New York telephone rate specialists, are expected to be called by counsel for the company on Wednesday. Financial experts from Toronto, Montreal and Boston are also likely to be heard, as well as F. C. Sise, Vice-President and General Manager, E. Palm, Comptroller, and other officials of the company.

THE TOUR WILL BE EXTENSIVE

Grand Trunk Arbitrators To Inspect Whole Railroad System Thoroughly.

Ottawa Ont., Sept. 20.—(By Can. Press)—The tour of Sir Walter Cassels Sir Thomas White and ex-Pres. Taft of the United States, the three members of the Board of Arbitration that will decide the amount the government is to pay for the Grand Trunk Ry., will extend over both the Grand Trunk and Grand Trunk Pacific systems. The inspection of the Grand Trunk system will terminate at Chicago after which the arbitrators will proceed to Winnipeg and go over the G. T. P. located between that city and Prince Rupert. The work of inspection which commenced at Montreal today will keep the arbitrators busy until well towards the end of October and the first formal sittings of the inquiry will be held in Montreal early in November. Between now and November, the work of putting the information gathered by the parties which have during the summer months made a preliminary survey of the Grand Trunk lines into shape for the consideration of the arbitrators will be proceeded with by the staff engaged upon this task in Montreal.

MEXICAN NORTHERN WANTS BIG DAMAGES

Action By Receiver Against Mexican Government To Recover $5,000,000.

Mexico, Sept. 20.—In an effort to recover from the Mexican Government compensation for damage and loss suffered to the property of the Mexican Northwestern Railway, Mr Justice Middleton has issued an order approving of the action of R Home Smith, receiver of the company, in filing a claim for $5,000,000 in gold. This is the aftermath of the unsettled revolutionary period during which the company's interests suffered severely. Some weeks ago a report was issued by Mr. Smith, which pointed out that long efforts in the rebuilding of mills and bridges and the railway itself were only followed by further destruction when the Villistas once again raided Northern Chihuahua, while as a climax, the saw mills and box factory at Maderia were destroyed by fire from unknown causes in April, 1919. At that time, it was pointed out that the restoration of the Mexican Railway to its owners aroused reasonable expectations of a similar course in respect to other lines, and provided fair compensation was granted to make good the damages caused by the revolution, better times were at last in sight for the company.

Mr. Smith was appointed receiver of the road in 1914 by bondholders, who sought to enforce a mortgage, and has drawn $50,000 for his services. Sir Alexander Mackenzie, Robert Fleming, of Dundee, Scotland, and the Bank of Scotland, all large bondholders approve of his drawing $25,000 more.

DISTILLERS FAVOR CONTROL OF LIQUOR

Winnipeg, Man., Sept. 20.—Distillers of Canada strongly favor complete control of liquor legislation by the Provincial Governments which will result from an affirmative on October 20 for the referendum. This was the statement today by R. T. Ferguson, representative of the Canadian distillers in the study of liquor legislation.

"Until the Provincial Governments have complete control of the liquor traffic, it will be impossible to provide legislation which will adequately meet the situation and do away with present abuses", he said.

LABRIE CASE IS CONTINUED

Judge Greenshields Thinks Judge Duclos May Have Exceeded Jurisdiction.

Montreal, Sept. 20.—The Labrie case was continued this morning in the Court of King's Bench. C. C. Cabana, K.C., counsel for the prisoners, resuming his argument at the point he had left on Friday. He said that his clients were liberated from the penitentiary where they were serving a sentence for manslaughter by a judge of the Superior Court and notwithstanding this order, the Minister of Justice, acting in conjunction, it has been stated, with the provincial attorney general, took upon himself to have the Labries re-arrested without any warrant. The arrest, he stated, took place in the middle of the night and the prisoners were not allowed to consult their counsel. Even without any apparent existing verbal order they were forcibly conveyed to the St Vincent de Paul penitentiary where they are now.

Mr. Justice Greenshields said that it appeared to him that Mr. Justice Duclos who liberated the Labries had gone beyond his jurisdiction in revising the sentence imposed upon them.

Mr. Justice Lamothe said: "It is evident that if this court comes to the conclusion that Mr. Justice Duclos did not exceed his jurisdiction we will dismise the appeal as there is no appeal in matters of habeas corpus."

The case was adjourned thill this afternoon.

THE MENNONITES STILL REFUSE

To Send Their Children To Government Schools—Will Be Prosecuted.

Winnipeg, Man., Sept. 20.—The Winnipeg Telegram this afternoon states.

In absolute defiance of the school laws of the Province, Mennonites of the Houston Division, who appealed to the Privy Council early this summer for separate schools, are refusing to send their children to the public schools recently opened in the district. This is the gist of a report made today by F. J. Greenway, Assistant-Deputy of Education, who has just completed an inspection trip of the entire Mennonite district.

"Through pressure brought to bear upon the people by the priests of the district there has been a solid resistance against sending their children to schools offered by the community with the result that we are now forced to start prosecution", Mr. Greenway announced, "and the matter has been placed in the hands of the Attendance Officers and will be dealt with according to our School Laws."

SENATOR BELCOURT LOSES WIFE

Ottawa, Sept. 20t.—Mrs. Mary Margaret Belcourt, wife of Senator N. A. Belcourt, died suddenly at her home here today.

The Weather.

Toronto, Ont., Sept. 20.—Pressure is lower in Alberta and Saskatchewan and highest in Ottawa and Upper St. Lawrence Valleys. The weather has been fair today throughout the Dominion with the exception of a few light showers in the vicinity of Lake Erie and Ontario and also in Saskatchewan.

Temperatures:

	Min.	Max.

St. John	38	56
Halifax	40	58

Forecasts:

Lower Lakes and Georgian Bay: Moderate easterly winds, mostly fair, a little higher temperature.

Ottawa Valley and Upper and Lower St. Lawrence: Fair, not much change in temperature.

Gulf and North Shore: Moderate westerly winds, fair and cool.

Maritime Prov.: Moderate winds, fair, not much change in temperature.

Superior: Fresh southeasterly winds, fair, stationary or a little higher temperature.

Manitoba: A few local thunderstorms but mostly fair and warm.

Saskatchewan and Alberta: A few local showers but mostly fair with stationary or a little lower temperature.

TWO MINISTERS ARE ELECTED IN BYE-ELECTIONS

McCurdy Defeats Farmer In Nova Scotia—Wigmore A Liberal In St. John.

LARGE MAJORITIES.

Biggest Ever Polled In Colchester—Dr. Emery Loses His Deposit.

St. John, N. B., Sept. 20 — Bye-elections which were held today in St. John and Albert counties, New Brunswick, and Colchester, Nova Scotia, resulted in the return of Hon. E. W. Wigmore, Minister of Customs and Inland Revenue, in the former constituency, and Hon. F. B. McCurdy, Minister of Public Works in the latter.

Both ministers had sought endorsation at the hands of their constitutents after assuming Cabinet positions in the Federal Government of Right Hon. Arthur Meighen.

Mr. Wigmore was opposed by Dr. A. E. Emery, Liberal; Mr. McCurdy by Capt. Hugh Dickson, who ran as a United Farmer-Labor candidate.

"Mackenzie-King, who forced this election, has got his answer", shouted Hon. R. W. Wigmore in a speech he made this evening in the Seamen's Institute when his majority had reached 4,000 and his election was conceded.

Complete returns in the St. John-Albert bye- election today give the following results:

St. John City, Wigmore 5,148; Emery 2,064.

St. John County, Wigmore 1,466; Emery 744.

Albert County, Wigmore 1,414; Emery 1,030.

Total for Wigmore, 8,028; Emery 3,838.

Wigmore's majority 4,190.

Dr. Emery, defeated candidate, lost his deposit.

Colchester Results.

Truro, N. S., Sept. 20—Hon. F. B. McCurdy was returned by a majority of approximately 1500 over his Farmer-Labor opponent, Captain Hugh Dickson. Mr. McCurdy carried Truro town by upwards of two thousand majority and all but held his own in the country districts, which were expected to poll a heavy vote for the Farmer candidate.

At the last Provincial election, Truro gave the Conservative candidates a majority of 2,095 over their farmer opponents.

Out of seven county polling districts, McCurdy carried four and Dickson three. In the last Provincial election the farmers carried 5 of these districts by a fair majority and lost in two.

A telegram from the Right Hon. Arthur Meighen was received by Hon. Mr. McCurdy, in which the Premier congratulated him and expressed his appreciation and thanks to the Colchester electors for the support given his Government through the election of his colleague "by the largest majority ever polled in the county."

Asked tonight for a statement on the result of the election Mr. McCurdy replied:

"I have been re-elected by a majority of 1,505. I can say no more to-night."

Captain Dickson, also interviewed, was more communicative. He said that his party had fought a clean fight and that he was "satisfied with the result as far as the honest electors were concerned."

He added that the United Farmers "were not down-hearted".

Press Comment

Montreal, Que., Sept. 20. — The Canadian Press has gathered the following editorial comment on the results of the Federal bye-elections in St. John, N.B., and Colchester County, N.S.:

Montreal Gazette:—

"The victory of the Government in the first bye-elections since Right Hon. Mr. Meighen became Premier may not be significant of the general feeling towards his Government but it surely is encouraging to those who believe in the principles and policy for which that Government stands. It has been made a reproach of the Meighen Ministry that it did not represent the people and upon this point there has been incessant play of words. The Meighen Ministry has now been judged by the electors of two Maritime constituencies and the answer is emphatic. The Meighen Ministry has the support of New Brunswick and has the support of Nova Scotia and from the support registered yesterday, the Premier may take hope and courage that his policy accords with the opinion of the people. The results of yesterday's elections is a tribute to Hon. Mr. Meighen. He has mounted the first hurdle, has the courage and the cause to mount others and from this primary success, may take hope to give to Canada some years of stable Government and sensible administration."

St. John, N.B., Standard:—

"In the election of Hon. Mr. Wigmore, the Maritime Provinces have given Mr. MacKenzie-King his answer in no mistakeable terms. The people of these Provinces are a prudent and far-seeing race, too prudent and far-seeing to be led away by the tinselled oratory to which he is so given. They are not of the class that are willing to lose the substance of benefits which they already possess in order that they may grasp at the shadow of specious promises which can never materialize. They are satisfied that the programme of the National Liberal and Conservative Party, which the Meighen administration is pledged to carry out, will be to the material and moral benefit of the country as a whole, and that the prosperity which may be expected to ensue from it they will share in."

Le Canada:—

"The two new members of the Meighen Ministry were returned at the partial elections of yesterday. Opposition was made to them rather on principle than in the hope of success. Being forced to have two Ministers elected, Mr. Meighen called to his Cabinet not the two men who had the most worth, but those who had the most chance of being successfully elected. If we have one regret it is that the double election, carefully prepared and colored beforehand, will serve as an excuse to Mr. Meighen to tighten his hold on his usurped power but if yesterday's result means anything at all, let Mr. Meighen dare to call a general election."

By Appointment Furriers to His Majesty King George V.

CHARMING FURS FOR AUTUMN DAYS

Scores of beautiful stoles are here just awaiting your choice, in a marvelous variety of styles, from the cunning little Choker—Or perhaps one of the long sraight stoles is what you prefer, or a stylish coatee.

Which ever it is we are sure you will find it here.

In Squirrel—Mole—Opposum
Mink—Fisher—Sable.

Holt, Renfrew & Co.

PRESENTS FOR MEN

This season we show extra fine qualities in goods that are used by men.

First on the list are the new very thin watches, high grade movements in handsome cases, the cases and dials are selected specimens of the jewellers art in gold.

The next item of interest are smokers requisites in Fine Gold and Solid Silver. There are Cigarette Cases, Cigarette Tubes, Cigar Cutters and Match Boxes.

We would direct attention to the Solid Gold Cigarette Cases, these cases were made to our order, they are extra heavy, beautifully designed.

By way of additional embellishment we engrave Art Monograms, we design applied monograms either in all gold or gold set with Precious Stones.

Such Cigarette Cases may cost anywhere from $75.00 to $500.00 according to the style of monogram.

For men we have also Waldermar Watch Chains in gold, original patterns, hand finished designs, these chains are worn with the thin model watches.

Among other articles suitable for men, there are solid gold mounted Pocket Knives and Pencils, Gold and Enamelled Cuff Links, Gold and Platinum Cuff Links and Diamond Set Cuff Links.

If you are thinking of making a present to a man now is the time to place the order. The demand for the work of the skilled craftsman is greater than it was a few years ago and the factory hours are shorter.

We design the finest and most artistic monograms, we give these special orders our personal attention, we take great pride in producing works of art in gold, but such work requires time.

GAMBLING EVIL IS RAMPANT IN MONTREAL

Prominent Manufacturer Calls Attention Of Administrative Commission To It.

Montreal, Que., Sept. 29— The St. Lawrence Broom and Brush Company, through Rodrigue Langlois, has sent a letter to E. R. Decary, Chairman of the City Administrative Commission, asking that something be done to put an end to the gambling dens that exist in different parts of the city. The letter adds that a bank clerk, who had been frequenting a certain "gambling den" on St. Catherine Street East, had gone away with $7,000 in the last two days and that a commercial traveller had gambled away $2,000 belonging to his employers at the same place.

POLES TAKE DUBNO.

Warsaw, Sept. 20 — An official statement says the fortress of Dubno has been taken by the Poles after heavy fighting and they are advancing in the direction of the fortress of Rovno, the cature of which is exected shortly.

HOUSEHOLD NECESSITY

Gillett's Lye has long been regarded as a household necessity because of the fact that it is useful in so many ways, and so satisfactory in every respect that no woman feels that she can keep house without it. Makes the finest kind of soap for washing and cleansing. One can of Gillett's Lye will make ten pounds of good soap in twenty minutes. Many of its uses are shown in booklet under the label.

"GILLETT'S LYE EATS DIRT"

Made in Canada.

PULP AND PAPER PLANT

Pringe George, B.C., Sept. 20. — Announcement is made by Hon. T. D. Patullo, Minister of Lands, British Columbia, that a large pulp and paper making plant will probably be established here as a result of extensive investigations this summer by eastern concerns of the immense stands of spruce and balsam about the city.

"BOB WHITE" BEBAN WANTS TO BE CARPENTER

George Beban's talented little five year old son, "Bob White" Beban has one great ambition. He craves to be a real honest-to-goodness carpenter, wear overalls and be to hammer and saw from morn till night. During the filming of "One Man in a Million," George Beban's latest photoplay, little "Bob White", who plays an important role in the picture, used all his spare time in seeking boards to nail down or saw upon, in view of the charm of a hammer and pocketful of nails on the little fellow, the studio carpenters held a meeting at which all studio players including Mr. Beban, were present. The chairman of the carpenter's local made an address in behalf of "Bob White," concluding by giving him a union card and telling him that from then on he a "fellow worker. Now "Bob White" has a regular job to fall back upon if Papa Beban cancels him from his picture making.

PENMANS have put a world of character into knitted coats of all sorts. Sport coats with their charming—if perhaps bizarre—color contrasts open up new avenues of expression for artistry in dress.

When these clever creations bear the Penman label all doubt as to their holding shape and fit is at once dispelled.

In buying, it is a simple precaution to remember the name—Penmans.

Chronicle Files 100 Years Ago

The Weather.

The first frost which has been discernable in this part of the country, the present season, made its appearance yesterday morning and this morning. It has not been, however, sufficient to do any injury. Indeed the season is now past when it can do any mischief to the crops, excepting to very late planted potatoes and oats. Turnips are not affected by any frosts usual in September or October, and the harder sorts, the Swedes and the Yellow, have been known to have stood out all winter without accident.

The Quebec Gazette.

Quebec, 21st Sept. 1820.

The One Thing Needed

We borrow water from Toronto Junction and watering carts from Hamilton. Now if some kind municipality would only lend our Council brains, Toronto might again hold up her head among Canadian cities. — Toronto Telegram.

The Pope.

Solemn services for the restoration of the temporal power of the Pope were held in the various Roman Catholic Churches yesterday morning, and attended by crowds of the faithful. Mgr. Maro's officiated at the Basilica, and the choir was filled with high church dignatories and clergy. The musical part of the service was rendered by a choir of ladies. Mr. Gustave Gagnon presiding at the organ. Rev. Cure Gauvreau officiated in St. Roch's Churc, and Rev. Father Perron, O.M.I., in that

BLACK BRAID TRIMS THIS DRESS

(By GERTRUDE BERESFORD)

Suggestive of Russian origin, this dress is fashioned from blue duvetyn and white flannel. There is a very tight underskirt of the duvetyn. Over this flares a full circular skirt in which the blue and white are interestingly combined. Lest the latter might effect too great a contrast row upon row of black braid adorns it. Similar treatment distinguishes the bodice and sleeves. The collar is particularly attractive. Like a double cuff it sets loosely about the neck, the white flannel being unrelieved by any braiding. The hat is made of white coque feathers and is worn low on the face.

Some New Dinner Frocks

(By RITA STUYVESANT)

Lovely as the foliage of Fall are the newest dinner frocks with their Autumnal tints borrowed from the woods and meadows.

Brown promises to be one of the most popular shades for the coming season. Among the individual styles of early Fall, there is a dinner frock of brown tulle compellingly attractive. The foundation frock is of brown georgette crepe rather full and picoted at the bottom. Over this is the billowy tulle cut and pointed in a most fascinating manner. To top this frock is a bandeau bodice of the georgette with the tulle folded and draped.

Tiny sleeves of the tulle are another attractive feature and then as an afterthought there was a slim girdle of bright orange ribbon hung from a ruge flower of orange velvet.

A taffeta frock of scarlet is a new note for Fall. The skirt is inclined to flare,. scant at the hips, but measuring about three yards at the bottom. It is corded at intervals of eight inches, to accentuate the flare. But it is the snug fitted bodice that is really striking. Without sleeves, although the armholes are corded, there is a deep V cut from the front, right to the waistline, framed with a roll collar and filled in with a flat vest of shiny silver cloth. Added to this is a bit of silver foliage at the waistline, which ends in a pointed stomacher, lending a quaint touch.

Melting shades of gold and brown combine into another smart dinner dress. This frock is created from gold colored georgette crepe banded with brown baronet satin. A tunic model, this frock boasts five bands of brown at hip-length, and the blouse opens over a dainty vest also of brown. A charming finish is accomplished by a broad girdle of the satin.

"Diamond Dyes" Don't Spot, Run

Don't Risk Material in Poor Dyes that Fade or Streak

Each package of "Diamond Dyes" contains directions so simple that any woman can diamond-dye a new, rich, fadeless color into worn, shabby garments, draperies, coverings, whether wool, silk, linen, cotton or mixed goods.

Buy "Diamond Dyes" — no other kind — then perfect results are guaranteed even if you have never dyed before. Druggist has color card.

ESTABLISH PULP MILL

Nelson, B.C., Sept. 20.—The Nelson Board of Trade have been energetically working to get a pulp plant established in the vicinity and if an existing company does not come in to commence operations there it is possible that a local company will be formed with a large number of citizens as small shareholders to finance the project. The location is an ideal one furnishing a large supply of the raw material, having an abundance of water, and transportation facilities that need but little adjusting.

of St. Sauveur, the latter having Rev. Messrs. Drouet and Burlin as deacon and sub-deacon. The service in Noter Dame des Victoires took place last evening and was attended by the Pontifical Zouaves. Numerous protests were sent to Rome from Canada against the deprivation of the Pope of the temporal power and the Italian fetes now in progress in commemoration of the 25th anniversary of the same.

A Gift

A 10-Day Tube of Pepsodent is sent to all who ask. See coupon.

Five Things Happen

When you brush teeth in this way

All statements approved by authorities

Dental science has produced a new teeth-cleaning method. Millions of people have already adopted it. Leading dentists everywhere advise it.

In effective ways it combats the film on teeth. And it deals with this tooth wrecker as was never done before.

The fight on film

Modern dentistry finds that most tooth troubles are caused by film. The film at first is viscous. You can feel it now. But it clings to teeth, enters crevices and stays.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acids. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Very few people have escaped these film-caused troubles.

Ordinary methods do not end this film. So millions who brush teeth daily find they still discolor and decay.

A multiple attack

Now new ways have been found to fight film. Careful tests have proved them. High dental authorities approve them.

They are all combined in a dentifrice called Pepsodent. It meets every modern requirement. And this new tooth paste is fast coming into world-wide use.

You'll know in a week

Some results of Pepsodent appear rapidly. Within one week the good effects will be amazing to you.

One ingredient is pepsin. One multiplies the starch digestant in the saliva, to digest starch deposits that cling. One multiplies the alkalinity of the saliva to neutralize mouth acids.

Two factors directly attack the films. One of them keeps the teeth so highly polished that film cannot easily cling. In all these ways it brings and maintains whiter, safer teeth.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how the teeth whiten as the film-coat disappears.

Compare the results with your old methods. Then let those evident results tell you what is best. Cut out the coupon now.

A POLICY OF ADEQUATE PROTECTION

Demanded By Canadian Manufacturers At Meeting Of Federal Tariff Comm.

AMERICAN COMPETITION

A Factor That Must Be Offset —Empire Interchange Of Commerce Advocated.

Vancouver, B.C., Sept. 20.—(By Canadian Press).—At the initial sitting of the Federal Tariff Commission on the coast here this morning, the British Columbia division of the Canadian Manufacturers Association outlined their reasons for urging a policy of "adequate protection". The organizations brief, presented by J. B. Thomson, provincial chairman, further declared that a preferential tariff within the British Empire should be arranged. The United States with thirteen times Canada's population said Mr. Thomson is the main competitor with the home manufacturer for the Canadian market. Their long established industries enjoy many advantages, such as proximity to important markets, and firmly established transportation systems, that place the majority of industries of Canada in the position where without protection they cannot hope to survive, he continued.

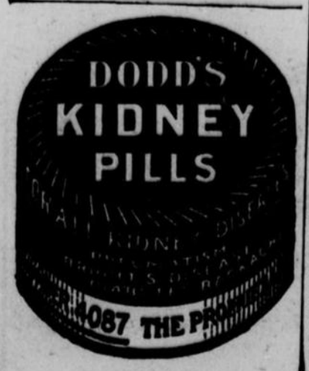
Referring to Oriental competition, Mr. Thomson stated that even with protection afforded certain industries heavy importations of manufactures from these countries have come in, and with the low labor cost in the Orient under a policy of free trade, it would be utterly impossible for Canada to compete. J. B. Thomson, chairman of the British Columbia division of the Canadian Manufacturers Association, in submitting the brief of the British Columbia division for the tariff commissioners at their sitting here today, stated that as a part of the Association of Canadian Manufacturers, the division desired to affirm the position taken by the president, Mr McKinnon, in submitting his brief to the commissioners at Winnipeg on September 14, that the members endorse the policy of adequate protection enunciated by Mr. McKinnon.

"All countries", declared Mr. Thomson "which have progressed in industrial life and have become foremost nations, have enjoyed the benefits of a protective tariff. The war has taught us that is essential as maintaining an army and navy, is the fostering of the industrial and agricultural life of a country so that should it any time be forced through the acts of war, to abandon its inter-change of trade with other nations, it can, from the products of its own resources, be able to produce all required for the comfort and welfare of its people."

"This province is a vast storehouse of undeveloped resources' continued Mr. Thomson. "It is true that the majority portion of manufactured output here is made from our raw products and rightly so, but we must not forget that it is essential to provide employment for others than those actively engaged in many of our larger industries."

Referring to American competition, Mr. Thomson said that United States manufacturers are the main competitors with home manufacturers for the Canadian market. "Their industries," he declared "have sprung up during a century of stable and permanent protection; the certainty of the necessary protection has provided them with ample capital permitting the costly experimentation on the most advantageous methods of production; large scale production has caused specialization and corresponding reduction in overhead expenditure; firmly established transportation systems and close proximity to a large market has furnished an added advantage; favorable climatic conditions have rendered the initial cost of production less than they would be in a northern country. All of the advantages coupled with the fact that the United States concerns are much longer established than are Canadian concerns, places the majority of the industries of Canada in the position where, without protection, they canot hope to survive" said Mr. Thomson.

"That a preferential tariff should be arranged within the British Empire," was voiced by Mr. Thomson. "The war," he said, "has linked the whole empire closer together "Canada's part in the co-operative action for the protection of the empire has won her a place in the councils of the nation which otherwise she might not have obtained for many years, and one of the greatest safeguards against future wars would be that, as far as possible within the empire, we would be able to obtain by inter-change all requirements for the British nation."



Afternoon Session

At the afternoon session of the Tariff Board on behalf of the Manufacturers Association of British Columbia, A. B. Weeks presented a memorandum approving of the present protective tariff, subject to more general application of the powers conferred on the Government by the Customs Act.

The Association also went on record as favoring the granting of a drawback of the whole or part of the duty paid on articles which have been used on Canadian manufacturers, on the granting of a specific sum in lieu of such drawback.

The Association also approved of the present policy of British preference, and recommended that an effort be made to extend the preference to all British territory.

Appointment of a permanent tariff board was also favored the board to be representative of Eastern, Middle-Western and Western interests, its duty to be along similar lines to the Board of Railway Commissioners.

The memorandum concluded that adequate protection was absolutely necessary for the manufactured products of British Columbia, relief to be given in cases where any commodity, temporarily unobtainable in Canada, had to be imported.

At the morning session, W. H. Barker, of the British Columbia Salmon Packers' Association, strongly urged that the present tariff of thirty percent on canned salmon be maintained.

M. Steeves, a farmer, advocated the single tax system. He said that the country was faced by either one of two things—single tax or socialism, and he preferred the former.

SIDELIGHTS ON IMMIGRATION

Furnished By Experts Who Urge Directing The Emigrant Toward Agricultural Labors.

Ottawa, Ont., Sept. 20—J. W. McMillan, Professor of Sociology in Victoria University, Toronto in an address before the American Association of Public Employment Offices here this morning urged that great efforts should be exerted by the Government officials to have immigrants go on the land. A special department should be established to look after the newly arrived immigrants. He referred to their tendency to locate in the cities.

Prof. A. E. Jackson, whose subject was a survey of employment in Canada, complaining that the charts issued by the Labor Department gave little information to the average person.

R. A. Rigg, of Winnipeg, stated that he spoke rather from the standpoint of the worker that the Government employ, held that a big influx of immigrants did not necessarily mean an asset to the nation, but unempolyment was undoubtedly a liability. The only immigrants required in Canada were a sufficient number to do the work that could not be done by those already i nthe country. When that demand was reached the lid should be put on.

THOROLD RIOT INQUIRY TO BE HELD IN SECRET

For The Reason That More Candid Testimony May Thus Be Obtained.

St. Catharines, Ont., Sept. 20—It was announced at Thorold this after noon at the opening of the official inquiry into the attempt destruction of the Thorold town hall on August 16 last, when a riot occurred and an attempt was made to lynch David McNeal, accused of the murder of Margaret Boucock, 4 years of age, that the first inquest would be held in secret and that the press would be excluded. It was stated that this action was the outcome of a conference with Attorney - General Raney, Toronto. The reason given for holding the inquiry in camera was that in this way more candid testimony would be obtained. Only one witness will be allowed in the room at a time. A statement will be made in the evening by the Fire Marshal concerning the proceedings of the day.

The opening session today was short. Fire Marshal Heaton found the room too cold for comfort, and after having outlined the course of the proceedings adjourned the hearing until tomorrow morning. No witnesses were called.

FISHERIES CONVENTION OPENS

Ottawa, Sept. 20—The 50th annual convention of the American Fisheries Society opened today in the Parliament Buildings. The forenoon session was largely taken up with addresses of welcome, which were replied to by Dr. Wm. C. Adams, Director of the Division of Fisheries and Game Dept. of Conservation of Massachussetts.

CHAMBERS OF COMM. MEETING HONORED BY KING

Geo. V. Sends Commendatory Message In Answer To Cable Expressing Loyalty.

SALUTARY SUGGESTIONS

Made Including Empire Cotton Growing—Imperial Air Fleet—Cable Extensions.

Toronto, Ont., Sept. 20—The question of preferential trade within the Empire was introduced by Sir James Woods, of this city, who moved a resolution that the Congress should affirm its opinion in favor of preferential trade.

W. F. Cockshutt, M.P., Brantford, Ont., seconded the motion. He deplored the fact that while the principle of preferential trade within the Empire had been fairly well recognized in various parts of the Empire, "the Mother Country is the slowest to move in a matter of this great importance, where she should have been the leader."

Mr. Cockshutt said the Mother Country had accepted preference from various Dominions and Colonies, but had made very small advances in the matter of making concessions herself.

"As Canadians," declared Mr. Cockshutt, "it is not fair or just that we should give our loyalty to the Mother Land and our dollars and cents to the United States."

Stanley Machin, London, Eng., while supporting the resolution, pointed out that Great Britain was a free trade country and had very little to give. "Ours is the only free trade country in the Empire," he said, "our possibilities are limited. We are met with great difficulties and agreements. The exchange is heavy against us."

Urging the necessity of establishing a net-work of high power wireless stations throughout the Empire wireless telegraphy and wireless telephony, a resolution made by P. L Symonds, London, England, was passed, asking that the British and Dominion governments take the necessary steps to this end without delay. Mr. Symonds said he looked forward to the day when aeroplanes would be fitted with high power wireless.

The Congress, on motion of Mr. Herbert G. Longford, Birmingham, England, congratulated the Imperial Air Fleet Committee on the committee's success under the presidency of Lord Desboro in connection with the movement initiated n 1913 for the purpose of promoting the establishment of an Imperial Air Fleet and an all-red route of airplanes and airships around the British Empire in the interests of the development of closer relations between the United Kingdom and His Majesty's Dominions beyond the seas.

Toronto, Ont., Sept. 20— Recognition of the importance of the British Empire, of the Congress of the Chambers of Commerce, now in session here, were emphasized by King George in a cable message read to the Congress this morning, in acknowledgement of the loyal greetings expressed by the Congress in a cable sent on Saturday. Lord Stamfordham, the King's Secretary, cabled as follows:

"The King fully recognizes that these meetings are conductive not only to the commercial interests, but to the success that may result from your deliberations."

The Congress discussed this morning the creation of a permanent bureau of standardized information on all colonial methods of valuing imports and exports and decided on its establishment.

Mark Hildon, of Australia, commenting on the formation of the Imperial Shipping Committee, expressed disapproval of the exclusion of the Dominions and dependencies from membership in the committee. A resolution, which was passed, added to this protest a demand that the British Government afford the Dominions an opportunity to nominate their representatives of shipping and trading interests to serve on the Committee.

Sir Alex. McRobert, of Cawnpore, India, asked that passenger accommodation be included in the scope of the shipping committee

Lieutenant-Colonel Penton, of Belleville, introduced a resolution on the development of Empire natural resources, through greater production with the assistance of British capital, industry and shipping, with a view of making the Empire self-dependent. He recommended subsidizing such a movement, backed by a published periodical summary of British resources and activities. The resolution was well supported and passed the Congress.

Sir Harold Boulton (London) moved a resolution affirming that timber consuming interests in the Empire should use a larger proportion of timber grown in the Empire. To this Stuart Kay (Lancashire) moved a rider welcoming the movement initiated by the British Empire Congress on Forestry with a view to the development of practical forestry in every British country on scientific lines. The resolution passed.

Geo. F. Huggins (Trinidad) moved a resolution, which was adopted, demanding direct cable communication between the West Indies and the rest of the Empire. Direct wireless communication was also urged.

Geo. Leeming, of Manchester, moved that Impartial and colonial governments take all possible steps to advance and promote the growing of cotton within the Empire. The resolution was adopted.

"IF HE IS WE DON'T KNOW IT"

Home Office Thus Answers Query If Mayor MacSwiney Is Fed.

London, Sept. 20—The question whether Lord-Mayor MacSwiney is being fed is answered by the Home Office with "if he is we do not know it."

In this connection it is pointed out that it would be virtually impossible for anyone to administer nourishment without the attending physicians becoming aware of it, and, the Government officials argue if the doctors ascertained that the Lord-Mayor was getting any food whatever, the entire effects of his earlier starvation would be nullified.

The Government physicians and Government nurses have done everything they could think of to induce the Lord-Mayor to eat, and if their efforts had met with any success, the officials say, they certainly would report it to the Home Office, which they have not done.

The case has dragged so long, with such similarity in the reports from the bedside daily, that most of the London papers confine their accounts to paragraphs, some on the inside pages.

Today, however, the Evening News says it has a report from a trustworthy source that "the Lord-Mayor is far from being cheerful, was very sulky Sunday and disinclined to answer questions."

The paper added: "And he slept most of the night, from 10:30 onwards; his temperature was 97; pulse 48 and varied from weak to regular. During the night he had drunk some hot water. In the afternoon he was able to sit up in bed and be washed. He seemed to have sufficient strength to assist in the process. He was able to talk a good deal and read newspapers with interest."

The League bulletin issued at 10 o'clock tonight says MacSwiney is a little brighter this evening than he was this morning but there is not material change in his condition. He is still conscious. Mrs. MacSwiney said that her husband was able to say a few words to her this afternoon

MENNONITES HAVE DEFINITELY DECIDED

Winnipeg, Man., Sept. 20.— That the officials of the Mennonite Church in Rhineland had definitely decided to establish a colony in the Abitibi District of Quebec, is the report of J. F. Greenway, Assistant Deputy-Minister of Education, who has returned from a tour of inspection of the Mennonite settlement in Manitoba. Mr. Greenway stated he was informed that some of the leaders might sell out and go to Quebec next spring to prepare for the movement, which could not take place before two years. That numbers of the younger adherents of the church would not leave was the effect of the statements he had heard made.

PART OF RECORDS MYSTERIOUSLY MISSING

Boston, Sept. 20.—Part of the records of Charles Ponzi' Securities Exchange Company are "mysteriously missing", Miss Lucy Meli, his office manager testified today. The missing records, she testified, were in the form of cards containing accounts of individual investments and payments.

The testimony of the girl, who stepped from a business school to the management of the office which handled business that ran into hundreds of thousands of dollars daily, was given at a hearing held in connection with an attempt by creditors of Ponzi to show that he had partners in his financial operations who should be held liable with him for the millions of indebtedness outstanding when the crash came. Miss Meli's examination on this point was negative.

VALUABLE CROPS

Regina, Sask., Sept. 20. — The value of the crop now being taken off five greater production farms is estimated at $2,500,000, by official of the Department of Indian Affairs here. It is stated that the wheat on the Alberta farms is running 45 bushels to the acre and is grading number one. Fifteen cars have been moved east. The wheat is being threshed at the rate of 20,000 bushels a day by ten outfits. About 100,000 of the estimated 500,000 bushels crop has been threshed. The year's profits will be well over $1,000,000.

AN INHUMAN SON

Montreal, Que., Sept. 20—John Connor, a one-armed man, was today sentenced to two months' hard labor by Recorded Geoffrion for having brutally ill-used his mother, who appeared in court to give evidence against her son, bearing the marks of his brutality on her face. Connor pleaded guilty.

HIS ACCEPTANCE SOLVES CRISIS

Millerand's Election To Presidency Conceded As Foregone Conclusion.

Paris, Sept. 20.—M. Millerand's acceptance as a candidate for the presidency has virtually solved the presidential crisis as it is conceded by all sides in the Chamber of Deputies and Senate that his election is a foregone conclusion. He would receive more than 700 votes, no other candidate officially entering the field.

The Premier's opponents have decided to refrain from voting and expect to muster about 100 blank ballots.

The question uppermost in the discussion among the deputies and Senators at present is the formation of the new Cabinet to replace that headed by M. Millerand. At least two ministers of the Millerand Cabinet are slated to go. M. Briand will probably become Minister of Foreign Affairs, with M. Jonnart as Premier. Ex-President Poincare's name has been mentioned as Finance Minister in place of Frederic Francois-Marsal although there is strong opposition to Mr. Poincare in the Chamber, while he is popular with the Senate.

McGILL WOULD EXTEND HER SPHERE OF INTEREST

Sir Arthur Currie Will Carry Propaganda From Coast To Coast.

Montreal, Que., Sept. 20— Announcement was made at McGill University today that Sir Arthur Currie will leave early in October for a tour of many of the principal cities of Canada in each of which he will present the case for McGill before graduate bodies of that University and others interested in the matter of Canadian education.

Principal Currie said that one of the main objectives of the tour will be to establish a liason between the University and her graduates and it is hoped also to encourage post-graduate study at McGill by graduates of other institutions throughout the Dominion.

The itinerary will include, Ottawa, Toronto, Hamilton, Winnipeg, Regina, Edmonton, Calgary, Vancouver and Victoria.

BRIGHT PROSPECTS FOR DEVELOPMENT

Victoria, B.C., Sept. 20.—Never in the history of British Columbia has the prospect for development of the manufacturing stage of the iron and steel industry been so bright as at the present time, according to statement made here today by Major Martyn, Provincial Industrial Commissioner, who, with James H. McVity, and Nicol Thomson, has returned from a trip of investigation and inquiry in the United States and Eastern Canada, for the Government.

Major Martyn indicated that negotiations were interlocked with the plans of a British Columbia syndicate and a group of British capitalists.

LEAGUE COUNCIL HAS ADJOURNED

Difficulties Between Four Nations Smoothed Out, Averting Possible Wars.

Paris, Sept. 20—The ninth session of the Council of the League of Nations adjourned today after having smoothed out difficulties between four nations in controversies which at one time threatened to result in war. Through its action in the Polish-Lithuanian crisis, the Council succeeded in getting the two countries to agree to an immediate suspension of hostilities pending a settlement of their dispute which both sides agreed to accept

The Polish-Lithuanian accord came after the Council had passed a resolution calling on the countries to cease hostilities immediately. The resolution asked Lithuania to adopt the provisional line of the frontier fixed by the Supreme Council in December last and withdraw her troops from the territory to the west of the line while Poland was asked, during its war with Soviet Russia, to respect the neutrality of the territory occupied by Lithuania east of the line of demarcation fixed by the Supreme Council.

Finland also ironed out her difficulties with the Council by accepting, with certain reservations, the report of the Council on the Aland Islands question which calls for an investigation by three commissioners.

League officials explained that although neither Finland nor Sweden was legally bound to accept the League's decision they were morally bound to accept it. It was further pointed out that a settlement "if backed by public opinion, would virtually compel acceptance."

MAY RETIRE FROM THE PUBLIC SERVICE

Ottawa, Ont., Sept. 20.—(By Can. Press)—Mr. Alex Johnson, Deputy Minister of Marine and Fisheries who returned to the capital today stated that he had not as yet any announcement to make in regard to his possible retirement from the public service to accept an important post with the British Empire Steel Co.

When seen by a representative of the Canadian Press Mr. Johnson said that he would discuss the matter with Hon. C. C. Ballantyne the Minister in charge of the Department before making a definite statement. Mr. Ballantyne is at present in Montreal and will accompany the Prime Minister in his tour of the Eastern Townships this week.

LOOK AT CANADA

New York, Sept. 20.—(Canadian Press).—A special article on the housing question is published in the World this evening urging legislators and New York State officials when they go into special session this evening to 'give a look, as it were, at what Canada has done."

Writing from Ottawa, the World's special correspondent says: "Our business-like little neighbor has tackled the housing problem and taken a fall out of it."

THREE NEGROES SEEK SANCTUARY

Were Besieged For More Than An Hour In Chicago Church.

Chicago, Sept. 20—Three negroes were besieged for more than an hour in St. Gabriel's Church on the South Side tonight. A mob of a thousand persons were after the negroes who had killed a white man, Charles Barret, who is said to have gone to the rescue of a white girl insulted by the negroes. They were rescued and placed in jail when squads of policemen were sent to avert a possible race riot.

Chief of Police Garrity ordered the entire police force mobilized and placed several hundred extra policemen around the scene of the murder, which was at the southeast corner of the Stockyards where several thousands of negroes are employed.

Shortly after Barret had been killed, three negroes were dragged from a street car two blocks away and severely beaten. The negroes who killed Barret, cutting his throat with a razor, were chased several blocks by a continually increasing crowd and finally dashed into the church. Two hid in the confessional and one back of the altar. Sticks and stones were thrown at the church and frequent yells of "Lynch them" came from the crowd. Burke, pastor of the church, appeared at the entrance and for several minutes pleaded with the crowd to disperse but without avail. Only when policemen armed with rifles appeared, did the mob break up.

The South Side "black belt," the scene of disastrous race riots a year ago, was placed under heavy guard, as was the Stockyards quarter.

LIBERAL CHIEF AND SIDE PARTNERS OFF WEST

Ottawa, Ont., Sept. 20.—Messrs. Andrew Haydon, National organizer of the Liberal Party, William Duff, M.P., for Lunenburg, N.S., and Lucien Giguere, Private Secretary to Hon. W. L. MacKenzie-King, the Liberal Leader, left Ottawa to-night for Victoria, where they will join Mr. King at the commencement of his tour of the West. Mr. King opens his tour with a speech at Victoria, B.C., September 27. Other Eastern members who will take part in the campaign are Hon. H. S. Beland, M.P., for Beauce, and formerly Postmaster-General in the Laurier Administration: Ernest Lapointe M.P., for Quebec-East, and W. C Kennedy, M.P., for Essex, the Commons.

WILL SEARCH FOR OIL

Montreal, Sept. 20—At the C.P.R. office today, it was stated according to Mr. Dowling, Dominion Geologist, that the most extensive exploration for oil ever taken in the West save by the Imperial Oil Company, will be conducted next year by the White Hall Oil Company of England. This company is composed of a group of British capitalists at the head of whom is Lord Cowdray.

A HOT BATTLE WAGED SUNDAY

Large Party Of Armed Men Attacked Police Barracks Near Waterford.

Waterford, Ireland, Sept. 20.—A hot battle was waged Sunday morning at the police barracks twelve miles from Waterford, where a large party of armed men attacked the police. There was a heavy exchange of rifle fire, but the police held off the attacking forces until they had attracted the attention of the military at a station six miles distant by means of Very lights. A force of soldiers arrived and beat off the besiegers.

No casualties have been reported.

Lorry Ambuscaded.

Dublin, Sept. 20.—Armed civilians this morning ambuscaded a military lorry escorted by ten soldiers in Church Street. A battle ensued in which two civilians and two soldiers were wounded.

It is reported that one of the soldiers later died from his injuries.

Military reinforcements arrived and drove off the assailants, two of whom were said to have been captured.

Mobs Clashed.

Belfast Sept. 20.—Rival mobs clashed in the East End of the city last night and fought with stones until the police arrived and dispersed them by firing over their heads. Last night was the last in which the curfew law was effective.

ALLEGED OVERPAYMENT OF A BANK CHEQUE

North Sydney, N.S., Sept. 20.—J. R. Horwood, charged with stealing one thousand dollars from the Royal Bank here through alleged overpayment of a cheque, was formally committed to the Supreme Court for trial by Stipendiary Ledbetter today. He was admitted to bail in the sum of $2,000.

Giving evidence at the preliminary examination of Horwood Miss F. W. MacLean, teller at the Royal Bank, and plaintiff in the case, testified that she cashed a cheque for $1,800 for Horwood, giving him $800 in ten and twenty dollar bills and a package which she thought at the time contained $1,000. Horwood, she said, commenced to count the money before the wicket, but in a few moments left the office. Half an hour later the plaintiff discovered her cash $1,000 short, having given, she declared a $2,000 package to Horwood instead of a $1,000.

HON. J. A. CALDER'S PLANS

Ottawa, Ont., Sept. 20—(Canadian Press).—Hon. J. A. Calder, Minister of Immigration and Colonization, is expected to arrive from England on the steamship Mauretania, reaching New York on Friday. Hon. Mr. Calder will come first to Ottawa, arriving here about noon on Saturday and will probably leave on the Trans-Canada Limited, the same evening, to join Sir Henry Drayton and Hon. G. D. Robertson, who are at present conducting the tariff hearings in the West.

HEARTY SUPPORT FOR FINE ARTS

The organizers of the Fine Arts Exhibition which will be held next month in the Commercial Academy are receiving hearty support on all hands, and notably from Hon. L. A. David, Provincial Secretary, who has made a grant of $500 to help along the movement. In his letter Mr. David says in part:—

"I am happy to see that taste for arts is progressing so well. This is only the beginning, and I hope that art exhibitions will soon become annual events in Montreal and Quebec.

MR. JAMES SPONZA IS LAID TO REST

The funeral of the late Mr. James Sponza, for a number of years a member of the Quebec Fire Department, was held yesterday morning and was an imposing tribute to the memory of the deceased. The hearse was preceded by a detachment of the Police Force under Deputy Chief Burke, and a detachment of the Fire Brigade, under Chief Talbot and Adjutant Chief Donnolly. Following the hearse was a lengthy cortege composed of the relatives and friends of the deceased. At St. Patrick's Church, McMahon Street, the solemn requiem service was chanted by Rev. Father Baines, C. SS.R., assisted by Rev. Fathers O'Hare and Sullivan, C.SS.R., as deacon and subdeacon respectively. A full choir was in attendance and several solos were feelingly rendered. The chief mourners were Mr. James Sponza, Jr., son; Mr. John Roe, nephew; Masters Paul Kelly and Francis Chartier, grandsons: J. J. Kelly, J. Bryson, J. Foley, and F. T. Chartier, sons-in-law; and Mr. P. Moran. After the service the cortege reformed and walked as far as De Salaberry street where the mourners took carriages and followed to the cemetery. Rev. Father D. Holland, C.SS.R., recited the last prayers at the graveside. The family received a large number of spiritual bouquets and floral tributes.

QUEBEC, SEPT. 21, 1920.

FIRST BLOOD DRAWN.

The new Meighen Administration has not only drawn first blood but scored a clean-cut right and left by its twofold victory in the Maritime Provinces, which was conceded at an early hour last evening. The bye-elections in Colchester Riding, Nova Scotia, and St. John and Albert Counties, New Brunswick, were necessitated by the elevation of Hon. Messrs. F. B. McCurdy and R. W. Wigmore to Cabinet rank, as Minister of Public Works and Minister of Customs and Inland Revenue, respectively. The former was opposed by a farmer candidate, Capt. H. Dickson, M.C. and the latter by a straight Liberal in the person of Dr. Emery, who claimed to be running at the personal solicitation of his leader, Hon. W. L. Mackenzie-King.

Mr. Wigmore apears to have romped home by a comfortable majority of about 4,000 votes, while Mr. Mr. McCurdy is approximately 1,500 to the good after a much harder fight; thus both the opponents of the Government to have been clamoring for early elections may be said to have received a decided set-back. Mr. Wigmore's success is pleasant but not unexpected, as the Liberal opposition was half-hearted at best, and there is far more importance to be attached from a national and political point of view to the result in Colchester, where Mr. McCurdy was pitted against the whole strength of the United Farmers' Federal organization and a win, although looked for with reasonable confidence, was by no means so certain.

In this Riding a strenuous campaign was waged as the contest was regarded as a direct trial of strength between the Government and the Farmers and other class groups. The followers of Mr. Crerar openly declared that the election was a vital one to them and, therefore, brought every effort to bear upon the result. Colchester is seventy five percent rural and Truro is the headquarters of the United Farmers movement in the Maritime Provinces. Their candidate was selected, not only as being one of the most prominent farmers in the constitutency, but also a returned soldier and holder of the Military Cross. The opposition campaign was directed personally by Mr. Burnaby, President of the United Farmers of Ontario, supported by Mr. MacMillan of Seaforth, Ont., a former Liberal and now one of the chief platform speakers of the Farmers' party.

When these facts are considered, as also that in the last Provincial elections the Farmers carried five out of seven electoral districts in Colchester by a fair majority, it is not so much of a surprise that Mr. McCurdy should have led by only 1,500 votes as that the Farmers should have encountered such a decisive reverse in their chosen stronghold and in spite of their most desperate efforts.

Coming after the recent trial of strength in the Manitoba Provincial elections, this result would seem to indicate that earlier successes of the Farmers were rather so many flashes in the pan than real evidence of political strength; which, if true, is an excellent thing for Canada. We may be doomed, as certain prophets forcast to a Farmers' Government in a Parliament of contending class groups but it is highly desirable that these rural radicals should not be given too emphatic a mandate to undermine the industrial fabric of the Dominion as they propose to do. The real meaning of Colchester is probably that even the responsible farmers themselves are beginning to realize the danger of theoretical and sectional policies.

One or even two swallows do not make a summer, and a couple of bye-elections will not make a Government victory in the next general elections: the Chronicle does not wish to exaggerate the importance of yesterday's victories nor to under-estimate the strength of the opposition forces. At the same time we believe that there is room for distinct encouragement to those who wish for ordered progress along lines of principle rather than those of class or sectional interests; and in that sense we rejoice at the decision of the Maritime voters. Needless to say our heartiest congratulations are extended to the two Ministers, both of whom are well worthy of the honors they have fairly won.

PRAISE INDEED.

We had to rub our eyes to make sure that they were seeing correctly when we came upon an article in "Le Devoir" by Leo-Paul Desrosiers, entitled "The Soldier on the Land". As is well known, this publication has little love to waste upon this Administration or upon its predecessors; for which reason, when it is moved to find words of praise—even though the sting in their tail is not lacking—for any particular policy or measure, we may feel fairly confident that such measure or policy is likely to prove wise and beneficent.

"Photographs are scattered everywhere in the office," observes the writer, "some hang from the walls, others are in book form. They are a treat to look at. Here you can see the farmer's wife feeding her healthy and greedy chickens. Elsewhere the cow is pasturing accompanied by her calf, while the spirited horse grazes the green meadow. This tract of land has recently been cultivated and the tents thereon erected will soon be replaced by new and prmanent homes. Fruit trees grow in abundance rendering bountifully. Privileged are those who can wander in those surroundings on a hot August day. Further away, are immense fields of oats and wheat grown to prodigious height, and bending under the weight of well filled kernels. Alongside what was a virgin forest is now a vast area of stumps.

"There are hundreds of such photographs showing the doings of our returned soldiers, placed on the farm by the government, unionist, thanks to Mr. Robert Borden, and to the National-Liberal Conservative party—(why not have added Nationalists, Agricultural and Labor?)—thanks to Mr. Arthur Meighen.

"Never before has more initiative been shown than in this instance. For once our legislators have forgotten themselves; they have adopted a law which will be useful to our country. If all this be true, many sins will be forgiven them."

How all these wonders have been brought about is then demonstrated by reference to a small pamphlet issued by the Minister of the Interior, dealing with the policy of the Government. His intention, states Le Devoir, is to invite returned men to engage in agriculture. The invitation is extended to all, to promote farming on the existing and projected lines of railways and further to encourage settlement on the land and to buy what is best in cattle and agricultural implements in the lowest markets. Neither was the farmer's wife neglected, as she is supplied with the best advice as regards home comfort, both social and economical. However, milking cows and feeding chickens do not appeal to everybody. For that reason applicants must measure up to the standard, and only bona-fide applicants can secure the advantages proffered.

So far, 17,872 loans have been made representing the sum of $70,555,434; moreover 7,151 soldiers have secured free government lands and they now have 1,726,000 fertile acres under cultivation. Up to June 14 1920, 49,095 soldiers have thus applied for these lands, of this number 39,307 have been favored.

To date 128 such colonisers have repaid their loans. In this regard, Mr. C. W. Cavers, earstwhile a journalist, relates some very interesting incidents. Thus last year, one, D. Jones of British Columbia secured a ten acre plot and a loan of $5000. His first crop brought him $6000. He immediately paid up his loan. One George P. Laycock took a 360 acre farm at Browning, Sask. This farm was valued at $35 an acre, and he recently refused $55 an acre. His banker reckons his crop is worth $17,000. Is this not going some, to use a common vernacular?

The four Western Provinces appealed best to the soldier farmer. In Quebec, out of 2252 applicants 1111 were found fit to benefit by this legislation. Of these 409 have already secured loans totalling $1,689,444. The Lennoxville Agricultural College has the tutoring of these.

It is indeed consoling to note that even this consistent opponent of the Government has been able to discover one respect, at all events, in which the devil is not as black as he has been painted. Perhaps if he looks hard enough through uncolored glasses, he may yet find other subjects for commendation, and eventually reach the surprising conclusion that the fancied devil is not really a devil at all but a fellow-Canadian.

THIS LUCKY GENERATION.

Nowadays, when we are all discontented with our lot and demand that "something be done about it" immediately, if not sooner, it is refreshing to meet with someone bold enough to say that we are really quite well off and, in fact, much better off than were our grand-parents. Such a man is Mr. Robert Blatchford who in an article contributed to the London Sunday Chronicle the other day, indulged in praise of the present times in which we live and proves them to be immensely superior to the so-called "spacious days" of the Victorian era by simply comparing our advantages with the disabilities of the earlier period.

He reminds us, among many other things, that in those "good old days" there was no compulsory or free education: no cheap books or newspapers: very few public libraries: no Atlantic cable, no telephones, no dining or sleeping cars on trains: no antiseptic surgery, no painless dentistry: no ballot box, no technical education, no gas stoves, no bathrooms, no electric light.

On the other hand, there were many things prevailing then which we ought to be very thankful do not prevail today. The condition of labor, for instance—the low wages, the long hours, the exploitation of child and woman's labor. "That was the day of the working man in corduroy and paper cap, the day of the illiterate, inarticulate masses," as Mr. Blatchford puts it. He recalls the struggle for the right to combine and the growth of trades unionism, also the fight for a working-class franchise. Then there were those awful schools, "kept by uneducated bullies," the most prominent plank in the curriculum being corporal punishment.

Worse even than these things, was the theology with its continual thundering of the doctrine of everlasting damnation—"thousands of young lives were rendered miserable, and thousands of grownups were mentally and spiritually ruined by the ever - present nightmare of hell." One denomination despised another, "religious intolerance was general and severe." One class looked down upon the class immediately below it in the social scale, suspicion and bad blood was the usual attitude between the nations. "Snobbery was rampant, sentimentality was as thick as it was sickly." But in spite of all—"we were painfully, uncomfortably, blatantly respectable and smugly proper. Mixed bathing would not have been tolerated; but women were exposed to risk of insult or molestation in city streets or country lane."

Mr. Blatchford in short, is filled with an optimism that is highly infectious. Here is his summing-up of the matter:

"I, who lived in the spacious Victorian days, do vow and declare that this is a more enlightened, more tolerant and gentle time. That it is a time less disfigured by humbug and sentimentality and vanity. That it is, with all its faults, the sanest, cleanest, healthiest and most human epoch in the history of the British people. And because the present time is better than the past, shall the future excel the present. We have not glimpsed yet the New Jerusalem, but we shall arrive."

Press Comment.

IT HURTS.

(Buffalo News)

The withdrawal of 100,000 farmers from the United States—men of substance, to judge by their acquisitions of land in the Dominion— should be a matter of searching concern. Their places cannot be filled by European immigrants. Their going means a very considerable decrease in production. It should interest our Government to discover the reasons for the ever-increasing exodus of Middle West farmers—to discover wherein opportunity for them in the United States falls short of opportunity in Canada. Discovering the disadvantages that attach here to this all-important industry of agriculture, the Government should set about to remedy conditions.

THE IMPORTANT MIDDLE CLASS.

(London Daily Telegraph)

The secret of our prosperity is to be found less conspicuously in the foresight and courage of the Capitalist and the skill of the workman than in the trained intelligence and arduous and unremitting labors of those who constitute the middle class. We do not underrate the value of Capital or the achievements of Labor, but it cannot be doubted that the most important element in the community consists of those who occupy the midway position between the extremes.

NEW ZEALAND AND THE PUBLIC DEBT

Government Declares it Has Been Doubled Since 1914--Increase Largely Non-Reproductive

Wellington, N. Z., Sept. 20—The Government of New Zealand, meeting for the first time the new Parliament, has told the members bluntly that the financial position is difficult. The public debt has been doubled since 1914 and the increase of £90,000,000 or so is almost entirely non-reproductive, the money having been spent for war purposes.

The Dominion used to be proud of the fact that a very large part of the public debt was represented by tangible assets, such as railways, roads, land and invested funds. The new debt is not so represented. Then there is a very big pension bill to be paid and much leeway to be made up in the development of the country.

"Many of the conditions created by the war it is beyond our power to remedy," says the government. "We cannot to any apreciable extent control the landed prices of imported articles, or the rates of foreign exchange; nor can we materially reduce our public debt, or the burden of the greatly-increased interest and sinking fund, which drains our revenue and compels the levy of taxation at rates above anything in our experience before the war; nor can we obtain from the English money market the loan moneys to meet the demands for works of all kinds, many of which are absolutely necessary.

Need to Borrow.

"The Government is faced with demands for expenditure far beyond anything which the ordinary revenues of the Dominion can meet, and or only resource is to borrow within our own borders. The revenues can barely provide the great increase in salaries, wages and charges which cannot be avoided."

This makes rather gloomy reading for members of Parliament, who have come to Wellington eager for public expenditure in a hundred directions. It is easy to show that the building of railways and roads, the development of hydro-electric power, the settlement of land and the extension of public facilities will increase production and stimulate the prosperity of the Dominion. All these works, in New Zealand, are performed chiefly or entirely by the State. Even the housing difficulty, which is acute in some districts, is a State responsibility, since the government must either build houses itself or find the money for the city and the borough authorities to do it.

The question for the government to decide now is how far it can proceed, under present conditions, with the expenditure of borrowed capital on works that in themselves are legitimate and desirable.

Country Prosperous.

The financial difficulties of the government do not mean that New Zealand is short of money. The country is more prosperous than it ever was before. Bank balances and savings bank deposits have grown enormously during the last five years and they are still increasing. The farmers, who produce nearly all New Zealand's exports, are handling more money than they dreamed of seeing in pre-war days, and though there are some difficulties ahead of them, they can face the future with confidence. Wages are higher than ever, industries are flourishing, and the income tax returns are telling a tale of large salaries and high profits. But the government feels that a young country, dependent on its primar industries and with an enormous amount of development work still ahead of it, cannot afford either to make taxation oppressive or to draw too heavily on local stores of capital. The country must have time to accommodate itself to the war burden.

INNOCENCE ON THE RACE-COURSE.

As everyone knows, the Australians are sportsmen to a man, and not unnaturally, therefore, the following story, related by the Prince of Wales to an audience of "diggers" during his recent visit, evoked loud laughter.

It concerned a young lady who (said the Prince) had never been on a race-course before.

"Now, you must have a bet on this race," her companion said. "I'll put you a sovereign each way on the favorite." She thanked him.

The race was run, and the favorite was among the "also rans."

"How much do I win?" she said.

"Well—er—in fact, nothing."

"Oh, but I thought each way meant whether the horse won or lost."

The Facts of Our Case!

We have shown in our published statements

—that the average wage of our employees has increased 95.1 per cent in 5 years;

—that material costs have gone up anywhere from 100 to 350 per cent;

—that the return on our investment has been reduced to one-fifth of one per cent;

—that there is no water in our stock, every share having brought in an average of $106 per hundred dollar share;

—that no shareholder has ever received a bonus in either cash or stock;

—that all surplus and reserves have been turned back into the business, relieving present revenues of interest charges of nearly a million a year;

—that we are facing the greatest demands for new telephones in our history, requiring for years to come, an annual expenditure of about ten millions;

—that these huge sums cannot be secured unless a fair return is assured on the present investment.

These are fundamental facts in our case.

Public necessity and public safety demand the maintenance of adequate telephone service. Adequate service depends on adequate revenue. Inadequate rates must check development and react upon the service.

Fair rates for telephone service are not easily determined! Many factors enter into consideration. Off-hand judgments are of no value. Expert testimony weighed by competent authorities must determine the question.

BEET SUGAR CROP SHOWS INCREASE

Large Production Will Have Effect of Keeping Down Sugar Prices

New York, N.Y., Sept. 20 — The withdrawal from the market of the American Sugar Refining Company and the declining market, are features of the sugar situation, which is connected, in no small degree, with the large domestic beet sugar crop thos year, according to sugar circles here. Latest estimates of this year's beet sugar crop place it at 2,010,000,000 pounds, a substantial increase over last year's crop.

No one in the supposedly "inner circle" of sugar men here will go further in speaking of the probable course of sugar prices within the next few months than to say that the large beet sugar crop will have its effect in keeping prices low, at least until the domestic crop is exhausted. The action of the eastern refineries in withdrawing from the market is not an innovation. This year it is receiving more attention than usual, because of the public interest in sugar. But for a long while the cane sugar refiners have either withdrawn from the market or reduced materially their output about this time of the year, when California beet sugar begins to arrive. Their policy has been and is to hold their cane sugar product from the market rather than compete with beet sugar supplies. The price of cane sugar is thereby maintained at a higher level.

Yesterday's quotation of sugar — 1-2 cent reduction in granulated — indicates that the withdrawal of the American and Warner people has not checked the decline, a representative of the press was told by an official of a trade journal in close touch with the sugar situation

IN AND ABOUT TOWN

IN MIDST OF BOMB OUTRAGE

New York Representative Of London Telegraph Describes Thrilling Sensation.

Mr. P. S. Bullen, New York representative of the London Telegraph has arrived in Quebec to meet Viscount Burnham, proprietor of that newspaper, and is a guest at the Chateau Frontenac.

Mr. Bullen was in the midst of the recent bomb outrage on Wall street, his office at No. 66 Broadway being close to the scene.

In an interview, thus described the explosion:

'I was working away at the office on Thursday, when shortly before noon there was a terrific explosion, which smashed all the windows in the building, and threw several of our staff out of their chairs. As soon as we recovered from the shock most of us hurried to the windows to see what had happened, while one of our men ran down to look out on the street. He came back a minute or two later, very badly shaken up, and said that just as got outside the entrance he had fallen over a badly dilapidated body that had been blown there, while there were a number of others lying dead around.

"As to the explosion itself," said Mr. Bullen, "I am convinced that it was from a time bomb, the theory that it was dropped from the roofs being absurd. I had a good deal of experience in France during the war, and was uncomfortably close to a number of big shells during that time. The explosion was exactly like the detonation of a big shell, and when I looked up I could see a big roll of heavy, dark smoke curling away, just such as we used to see after a big shell had exploded.

"There was a wagon—or what had been a wagon—on the scene, blown to splinters, while the horse had been blown in all directions. It looked almost certain that this was the origin of the explosion, and that a heavy time bomb had been left in the wagon, fixed so that the anarchists, or whoever plotted the outrage, had plenty of time to get away. The pitiful feature of it was that if the bomb had been aimed at any people in the financial world, it missed them, and merely killed or maimed a lot of people on the street."

EUROPEAN MAILS.

I beg to inform you that following mails intended for despatch per SS. Canada, sailing on the 25th inst., will be closed at 12:00 noon, on that date.

STABBING CASE OPENED YESTERDAY

The preliminary investigation into the case of Lackis, charged with stabbing a citizen who had visited a Greek restaurant in which defendant was employed, was commenced at the Court of Sessions in Camera yesterday afternoon.

CANADIAN CLUB LUNCHEON

The luncheon of the Canadian Club today, at which Lord Burnham will be the speaker, promises to be well attended, but all members who have not already done so are requested to phone either to the president, Mr. J. C. Sutherland, or to the honorary secretary, Mr. Maurice Dupre, before 9:30 o'clock, their intention to be present.

The management of the Chateau Frontenac find it necessary, at this time of the year, to be apprized several hours beforehand as to the number likely to be in attendance.

MISS VERYL AN ATHLETIC SINGER

Like most American girls Marian Veryl, the well known soprano with the Creatore Opera Company, is a real athletic. Miss Veryl likes to skate and ride horse back. She believes that every young singer can do better work if he or she gets out and gets some real exercise. She never fails to take a long walk every morning before rehearsal. In this way she keeps in good voice, excellent health and physical form Miss Veryl comes to this city with the famous Creatore Grand Opera Company.

REACH DEEP LEVEL.

Cardston, Alta, Sept. 20. — The 3,000 foot level has been reached by the British-American Oil Company drilling in the boundary country south of here. This is one of the deepest wells in the province and the company anticipates results with the next few weeks of drilling.

SUPREME.

That is the best term with which to qualify the Exhibition of styles which opened at our store yesterday.

Nothing was neglected to make it an event worthy of the well-dressed ladies of Quebec.

SESSIONS COURT A BUSY PLACE

Growing Volume Of Cases Keeps Judges Lachance And Choquette Employed.

Judge Lachance, since his appointment as Judge of the Court of Sessions, has had a busy time. The business of the court keeps growing daily, and Judges Lachance and Choquette, together with the officials are kept busy from the opening in the morning until the closing hour in the afternoon. Besides the criminal offenses, the Court is continually occupied with offences against the Scott Act and the Automobile Act, yesterday morning when the Court convened, Mr. Lucien Cannon, K.C., Crown Prosecutor, insisted that cases in which the crown was interested should be called first, which Judge Lachance accorded.

Mr. Alleyn Taschereau, representing Jack Collin, charged with assaulting one Winniger on Bridge street on Friday evening last, made application to the Court that his client be allowed out on bail. Crown Prosecutor Cannon objected, claiming that all parties implicated were not yet arrested, and that it would be against the interests of justice to release the accused on bail. At the request of Mr. Taschereau, it was finally decided that the question would be discussed on Wednesday.

A number of cases in connection with recent seizures by the Provincial Revenue Officers, including those in connection with operation of a still on Sault au Matelot street, are likely to come before the Court during the present week.

A clerk in the employ of the firm of W. Doyle, hardware, was arraigned on the charge of neglecting to account for certain amounts of money received in payment for goods and pleaded not guilty. He was remanded for investigation.

OLIVE THOMAS AT THE CLASSIC

In "Prudence On Broadway" The Audience Enjoys A Rare Treat.

The Classic patrons enjoyed something unusually good last night when Olive Thomas admirably played the role of Prudence in the special production entitled "Prudence on Broadway." In this exquisite romantic comedy, rich in satire, Olive Thomas is seen as a charming vivacious little Quekeress.

Unsophisticated! That's what everybody thought of this little Quakeress when she was introduced to New York society. They knew more about poker than "Prudence." But she cleaned them up at bridge. She captures the catch of the season and teaches the other debutantes a lesson in demureness .And she cleverly turns the tables on a jaded New Yorker capturing him in his own trap.

This exceptional play will be repeated today and tomorrow when still more will have the opportunity of enjoying a rare and excellent entertainment.

The other subjects were excellent.

PERSONAL

Mr. V. R. Hansen attended the groom while Mr. John Lawrence attended his daughter.

A very pretty wedding was solemnized yesterday when Mr. Alfred V. Neilson, formerly of Copenhagen, Denmark, and at present attached to the Canadian National Railway's staff at Levis, was married to Miss Marion Lawrence, daughter of Mr. and Mrs. John Lawrence, of this city.

The bride looked charming in a navy-blue suit with hat to match and carried a bouquet of roses. The newly married couple left immediately after the ceremony on their wedding tour, and on their return, will take up their residence in Levis, where Mr. Neilson holds a responsible position with the Canadian National Railways.

The bride who was very popular, received many costly and useful presents.

Dr. George McGauran, a former Quebecer, and now residing at Newbury Port, Mass., with Mr. Eugene Chawshaw, are in town the guests of Mr. and Mrs. Joseph Delany, Mount Carmel street. Dr. McGauran is a nephew of the late Rev. Father McGauran, a former pastor of St. Patrick's Church.

MUCH WOOL IS SHIPPED

Regina, Sask., Sept. 20—Up to date 28 cars, or 662,465 pounds of wool have been shipped out of Saskatchewan and 15 cars or 353,562 pounds have been shipped out of Manitoba this year by the Canadian Co-operative Wool Growers Ltd. There is still at least 50,000 pounds to come in from the country which will make a total shipment from the two provinces for the year of approximately 1,066,000 pounds or an increase of about 188,000 pounds over the amount shipped y the association last year.

Cadiz is one of the best fortified cities of Spain.

LOCAL BOYS RESUME STUDY

Boys High School Assumes New Era Of Activity And Usefulness.

It will afford many old boys of the High School of much pleasure to learn that their alma mater is making even greater headway than it has been doing during the last few years, especially the period of the war, when it was a very difficult matter indeed to secure masters, owing to so many of those following the scholastic profession having thought it their duty to offer their services to a cause that demanded the assistance of all and sundry, and this left the management of the school in a somewhat awkward position in furnishing that tuition which the reputation of the school called for.

With the close of the war the situation improved considerably and in consequence thereof, a number of former professors were released from service in the army which enabled the High School of Quebec to avail itself of the best material offering and now the establishment has a staff of masters of which it may well be proud. The majority of them are graduates of well-known Universities of the British Isles and Canada, and besides having had brilliant university courses, are also experienced and capable in every way of taking care of their respective classes.

This year the school has made an excellent start, there being almost one hundred boys in attendance, and it is expected that this number will be considerably augmented in the near future.

It is hoped to raise an endowment fund of $100,000, and the efforts of those endeavoring to promote this commendable project have been so far successful that the handsome sume of $47,000 has been subscribed The Directors and Committee of Old Boys feel assured that the balance of the required amount will be forthcoming with in a year or so, and thus place the school on an absolutely solid basis.

There is no doubt of the school having resumed its career on real progressive lines, and that all interested in its welfare can look forward to a new era of educational advancement, thus assuring the upholding of those high traditions of which the institution is justly proud after so many years of existence, during which it has turned numerous graduates.

Besides being well equipped in the teaching facilities, the school has also a very fine Cadet Corps, and this year a good deal of time will be devoted to shooting, also physical and other drill, so that if ever the necessity arose again, the graduates will uphold the magnificent reputation of the Institution in the Great War, when so many of its old boys gained high honors.

Besides this drill, steps have also been taken to foster amongst the pupils an even greater interest in various forms of sport, such as football, hockey, basket-ball and other games, under the guidance of a master. Unfortunately one of the great handicaps to the fostering of games has been the lack of suitable grounds, but it is hoped that this will be overcome in the near future, but in the meantime any available ground will be taken advantage of to encourage the boys in following up legitimate sport.

Altogether there is a very bright outlook for the school and Quebecers may look forward to its maintaining its usefulness as a means of education to succeeding generations .

INDIANA TO FIX PRICES OF COAL

Under New Law Plans Restrictive Regulation in Peace Emergency.

Indianapolis, Ind., Sept. 20—September 27 has been set as the date for the first hearing to be held by the special coal and food commission, to obtain information on which the commission may base coal prices in Indiana. The hearings will be directed only to the sale of coal by mine operators to jobbers, wholesalers and retailers. Notices of the hearing have been sent to nearly 200 coal operators in Indiana.

The second hearing has been set for September 89, when the commission will obtain information "as to prices from jobbers and wholesalers." It is expected retail coal dealers will be summoned for a third hearing.

The hearing will mark a new epoch in state regulation of industry inasmuch as Indiana is the only state in the union to have a law providing for industrial regulation such as conducted by the federal government under its war-time power.

Coal operators attacked the constitutionality of the act soon after it was passed at the recent special session of the General Assembly. Judge Francis E. Baker and Judge Evan A. Baker, of the United States Circuit Court of Appeals, Chicago, and Judge Ferdinand A. Geiger, of the United States District Court of Wisconsin, sitting at a special court, handed down a unanimous decision holding the law valid and operative under the police powers of the State.

It is said the decision sets a precedent as to the police power of the State, inasmuch as there has been no state regulation of the coal industry in times of peace since the English Parliament, in 1662, passed a law regulating measures and prices.

ED. HAMEL, N.P., IN PORTNEUF COUNTY

Liberal Convention Was Held Yesterday — Sir Lomer Gouin Delivered Address.

Mr. Edouard Hamel, N.P., of Pont Rouge, was the choice of the Liberal Convention held at Cap Sante yesterday, as candidate to succeed Sir Lomer Gouin who resigned and was appointed to the Legislative Council.

The convention was presided over by Hon. J. E. Caron, Minister of Agriculture, who accompanied Sir Lomer Gouin from Quebec.

At the opening of the meeting a letter was read from Capt. E. E. Cinq-Mars, dated the 16th instant, requesting that his name be not put up before the convention.

When the first ballot was taken Mr. Hamel secured 29 votes; Mr. Charles Laganiere, of Grondines, 15; and Dr. Jules Desrochers, of St. Raymond, 12. As Mr. Hamel had secured the absolute majority, his two opponents decided to withdraw and support him.

Sir Lomer Gouin was presented with an address by his former constituents, and replied with one of his eloquent speeches which brought forth cheers from his audience on many occasions.

Mr. Edouard Hamel, the choice of the convention, also spoke.

WHAT BECAME OF BAIL MONEY?

Strange Matter Now Being Investigated By The Attorney General's Department.

The following despatch was received here from Montreal yesterday:—

Montreal, Sept. 20—Investigations which may lead to startling disclosures are now being made by members of the Attorney-General's Department, Quebec, in an effort to discover what has become of sums of money deposited by accused persons allowed their liberty on cash bail and who when their time for trial came had disappeared, the bail being ordered confiscated.

Sometime ago a Montreal newspaper started an investigation into the matter although at the time it was merely its intention to find out the number of "bail jumpers" there were in Montreal courts. In order to get as many details as possible all the names of "bail jumpers" were listed and this list was handed to Dan Gilmour, Crown Prosecutor, who, in order to verify the correctness of the statements, sent the names to Quebec to have the matter looked up in the books there to compare with the cash sheets sent from Montreal. On Thursday last a letter was received here from the Attorney-General's Department stating that none of the names on the list could be found on the records at Quebec, nor had any of the sums of money been received there.

Following this startling disclosure, the Hon. L. A. Taschereau was communicated with and with the Hon. Walter Mitchell came to Montreal. Finding conditions as they had been informed, an investigation was immediately ordered and Charles Lanctot and P. A. Juneau arrived here on Friday to look up the records.

Various officials have been subjected to examination and the investigation is still in progress although no statement has yet been made.

Local officials when asked about the case said there was nothing to be announced just yet.

THE ROYAL RIFLES OF CANADA.

All officers posted to Battalion H. Q. and to Companies of the above Unit are reminded that they will please attend an important meeting in the room of the Officer Commanding at the Drill Hall on Tuesday evening, 21st September, 1920, at 8.15 p.m. sharp.

By order,

R. M. BECKETT,
Lt.-Col.

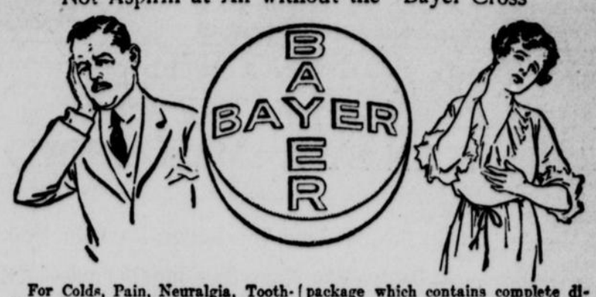
SPECIAL INVITATION

Ladies and Misses are respectfully invited to visit our Exhibition of styles which according to the testimony of those who came yesterday surpasses in richness and in elegance anything of the kind ever seen in Quebec.

MARCEAU & CIE., 155 St. Joseph St.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"



For Colds, Pain, Neuralgia, Toothache, Headache, Earache, and for Rheumatism, Lumbago, Sciatica, Neuritis, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all.

Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer" package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin prescribed by physicians for over nineteen years. Now made in Canada.

Handy tin boxes containing 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer"

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

BIG MATCH RACE SEEMS A CERTAINTY

LATEST IN THE WORLD OF SPORT

CHARLIE WHITE AND BENNY GOULD IN DRAW.

EXCITING BOXING BOUTS AT RUSTIC THEATRE WERE SEEN BY A SMALL CROWD

White And Gould Fought Good Ten Round Draw In Main Attraction—Legare Won From Corrigan On Foul—Last Bouts Of The Season—Montminy And Paradis Were Referees.

The last of the open-air boxing bouts of the season was held at the Rustic Theatre last evening, and was the attraction for the smallest crowd of the season. The audience, however, made up in lung power what they lacked in numbers, and a fearful noise was raised several times during the course of the semi-final and main attractions. The final was one of the best bouts ever seen in Quebec, and those who took in the bouts were more than recompensed for their trouble.

The main bout was a return engagement over the ten round route between Benny Gould, of Toronto, and Charlie White, the local bantamweight, and during the ten rounds the pair were in the ring, there was never a dull moment. The bout was fully one hundred per cent better than the first meeting between the two boys. White fighting much better than when he ran up against Gould a few weeks back, while the Toronto boy, also seemed to be inclined to cut loose oftener than before.

In the preliminary, Young Denis knocked out Young Brousseau in the second round, after the latter had been having the best of the fight throughout. The winner caught Brousseau coming in, and cracked a vicious right to the stomach, putting the latter down for the count. The referee had reached 8 in the counting out when the gong rang, but Brousseau could not come out for the third round, and inconsequence, Denis was declared the victor.

The semi-final attraction between 'Lightning' Corrigan, of Stoneham, and Soldier Legare, of Quebec, saw the latter win on a foul in the third round. The first round was fairly even, but in the second the Stoneham lad drew blood from his opponents' nose. In the third and last round, Legare started after his man in dead earnest, and the pair exchanged several stiff punches. Legare, however, landed oftener than Corrigan, and the latter looked as if he was tiring for he made no effort to dodge Legare's blows for a time. Suddenly, however, he rushed and drove his opponent to the ropes, where he got in several good punches, one of them landing in the pit of the stomach. The blow was a trifle below the belt, and Legare immediately dropped to the ground, claiming a foul. The bout was stopped for a couple of minutes, in order to see if Legare would continue, but he refused to do so, and was awarded the bout on a foul.

The main bout of the evening was the ten round tilt between Renny Gould and Charlie White. The two boys put up a rattling good argument, and were very evenly matched. A draw would be about the best way to decide which of the two was the winner. Gould had a couple of inches extra reach, and was the more scienced of the two, but White made up for this by boring in unfailingly during the ten rounds.

The first round saw both boys feeling each other out, and no very hard blows were struck. There was a considerable amount of infighting indulged in this round by both men. The next stanza saw the boys start to mix matters up a little, and the pace increased. White used a straight left with good effect, while Gould relied mainly on his right, although he used the one, two on a couple of occasions. The first two rounds were even.

In the third round Gould sprung his surprise on the crowd, and White as well. The local boy rushed out of his corner, and jabbed five light lefts to Gould's side. The Toronto boy broke loose, and rained rights and lefts on White, both to the body and head. The latter looked as if he could not stop any of them and endured his punishment, covering up a lot. Towards the end of the round, he rallied, but the honors went to Gould, who did the major share of the fighting.

The local lad came back strong in the following session and rushed Gould into his own corner, where he gave him a hot time for about a minute. He landed several hard lefts and rights, especially to the jaw, and jabbed enough to gain the spoils in this round. When Gould went to his corner he spat blood.

The fifth round, in which honors were divided, was not as fast as the third and fourth, but still the boys mixed it up enough to arouse the enthusiasm of the spectators. In the sixth session both boys clinched a lot, and did not do much work. The seventh saw White draw blood from Gould's nose with a straight left, but the honors were again divided, the two boys slowing down.

The eighth stanza saw Gould walk into a flock of lefts and rights, at the beginning of the round, but he staged a rally towards the end that enabled him to split even on the round.

The ninth and tenth rounds saw the two boxers setting a dizzy pace. They went for each other like two mad dogs, and exchanges of hard blows were numerous. White landed a lot of times with his left poking it into Gould's face in an annoying way, but the latter evened the count by the way he brought his right cross into play. Gould landed a beautiful jab with his right to White's eye, but the latter replied with a hard left to the jaw. In the final round the Toronto boy did not seem to mind White's left at all, for he walked right into it time and time again.

The conclusion of one of the best bouts that has been witnessed in the Ancient Capital saw both boys in the middle of the ring. A draw would be about the only proper decision to give, as there was very little to choose between the two boys.

Jean Paradis, the wrestler, refereed the main bout, Gould's manager "Darky" Daniels, refusing to let his protege enter the ring with Montminy as referee. Montminy refereed the first two bouts.

BIG MATCH RACE SEEMS CERTAIN

Exterminator's Owner Willing To Have His Horse Meet Other Pair.

Toronto, Ont., Sept. 20.—A. M. Orpen, of this city, chief stock holder in the Kenilworth Race Track at Windsor, Ont., received a telegram today from Willis Sharpe Kilmer, owner of Exterminator, the best five year-old racer in America, stating that he was willing to start his champion against Samuel Riddle's Man O'War, the best three year-old in America, and Commander J. K. L. Ross, Sir Barton, the king of the four year-old racers, in a special match race for $50,000 and a $5,000 gold cup, winner to take all. The question of distance would be settled later, but probably would be at least a mile and a quarter.

THIRD FIRE AT WHITE SOX PARK

Chicago, Sept. 20.—The third fire in two days at the Chicago White Sox Baseball Park last night, did damage estimated at $1,000 to the left field bleachers. Rumors of a plot was scoffed at by club officials and firemen. Both the other fires were small and quickly extinguished.

JACK JOHNSON IN PEN.

Leavenworth, Kans., Sept. 20.—Johnson former heavyweight championship was received at the Federal Penitentiary here yesterday to begin serving a sentence of a year and a day imposed upon him at Chicago after his conviction on a charge of violating the Mann Act.

Johnson has been made orderly of the prison baseball park. His duties are to keep the athletic grounds in good condition. Later on, according to the warden, he will be made director of athletics.

ROSS SCOTT MADE WORLD'S RECORD

Fall Meeting Of Grand Circuit Opened Auspiciously At Columbus Yesterday.

Columbus, Ohio, Sept. 20 — The fall Grand Circuit meeting opened here today with weather conditions ideal and the making of a new season's race record by Rose Scott in the 2-year-old trot, the Horse Review Futurity. The filly won this race which was the fastest three heat event of the year for two-year-olds. Her mile is 2:06½ and also lowered the season's mark for this age, held until today by Bogalusa at 2:08.

Nelson Dillon won the first heat of this race, but could not ward off the Murphy entry in the remaining miles. Because of the illness of Mr Murphy, Harry Fleming was behind Rose Scott in her record performance.

Miss Perfection, favorite in the 2:11 trot, won after dropping the first heat to Winter Wood, who broke in each of the succeeding heats in the stretch. Hal Malone, played to win the King Stakes for 2:06 eligibles, captured this race in straight heats. Russell Boy, who finished second in the first heat, was later drawn on account of lameness. So many horses were entered in the 2:18 pace, that it was split into two divisions. Oro Direct won first money in the first division and Dan Elger in the second.

Summaries.—

2:11 Class Trot, 3 Heats, Purse $1,000.

Miss Perfection, b.m. (McMahon)	2	1	1
Winter Wood (McDonald)	1	4	4
Peter Thornhill, b.g. (Valentine)	3	2	2
General Burkew, b.g. (Willis)	4	5	3
Oscar Watts, b.g. (Hide)	5	3	5

Betty Thornton was distanced.
Time—2:07¼; 2:06¾; 2:08¾.

Two-Year-Old Trot, The Horse Review Futurity, 2 in 3, Purse $2,500.

Rose Scott, br.f. (H. Fleming)	3	1	1
Nelson Dillon, b.c. (Serrill)	1	2	3
Bogalusa, ch.c. (Valentine)	2	4	2
Miss Rhinelander, b.f. (White)	9	3	7
Marge The Great, br.f. (Cox)	4	6	4

Guavetta, Heather, Belvue, Favonian and Miss Talbot also started.
Time—2:07¼; 2:06½; 2:09¼.

2:06 Calss Pace, The King Stake, Three Heats, Purse $3,000.

Hal Malone, b.g. (Childs)	1	1	1
Drift Patch, b.g. (McMahon)	3	2	3
Edna Early, b.m. (Valentine)	7	3	2
Royal Earl, b.g. (Edman)	4	4	4
Ethel Chimes, b.m. (Cox)	6	5	5

Russell Boy and Cargary Earl also started.
Time—2:02¼; 2:02¼; 2:04¼.

2:18 Class Pace, First Division, Three Heats, Purse $800.

Oro Direct, ch.g. (Palin)	2	1	1
Louise Beveridge, ch.m. (A. C. Pennock)	1	2	2
Parker Boy, b.g. (Scott)	5	3	3
Auto Pace, blk.g. (Shank)	3	4	4
Peter Kennedy, b.g. (Burrell)	4	5	5

Hedgewood Star and Kilty McKim also started.
Time—2:06¼, 2:06¼; 2:09¼.

2:18 Class Pace, Second Division, Three Heats, Purse $800.

Dan Elger, br.g. (Vance)	1	1	4
Guess Work, b.m. (White)	3	2	1
Rolla Chimes, b.m. (Whitehead)	7	3	2
Gray Eagle, gr.m. (Mallow)	2	4	5
Bonnie Bar, b.m. (Palin)	9	6	3

Carter June, Gaynella Patch, Allie Clay, Mr. Jefferson, B. P. M., and Mr. Douglas also started.
Time—2:06¼; 2:06¼; 2:07¼.

Sporting Notes

The correct scores in Sunday's games in the local ball league were as follows: C. B. 5, Bell Telephone 11; Standards 3, Napoleons 13. Owing to the fact that it was impossible to obtain the box scores of the games, the scores were inadvertantly inserted.

• • •

Promoter George Beauger says that he is through with boxing for the winter, and that last night's bouts are the last until next year.

• • •

There will be no local ball games on the Exhibition Grounds next Sunday, as horse races will be staged. However, all the Sundays in October are at the disposal of the local league, if they wish to utilize them.

• • •

The first game of the home and home series for the lacrosse championship of the Province of Quebec will be played on Sunday next at the Kent House enclosure, when the Sherbrooke champions will play the Frontenacs. The return game will take place in Sherbrooke the following week.

• • •

Johnny Howard and Soldier Bloomfield meet in a ten-round bout in Montreal on Friday evening.

• • •

Last night's scrap between White and Gould was one of the best seen in the Ancient Capital for a long time.

• • •

The International League season is finished, and the Buffalo and Rochester teams will probably not operate next year, as their owners wish to dispose of their franchises.

Sol. Lesser is now busily engaged in mapping out exploitation matters for "One Man in a Million," George Beban's latest photoproduction. Mr. Lesser is Mr. Beban's associate in this enterprise and plans many novel ideas in the distribution of the film.

BASEBALL IS ON "HOME STRETCH"

Cleveland And Brooklyn Appear Strongest Teams In The Pennant Race.

New York, N.Y., Sept. 20.—The Brooklyn Nationals and Cleveland Americans appear the strongest teams in the major league pennant race which today entered the final two weeks spurt. The Chicago Americans are close behind the Indians, however, and may oust them from first place in the series starting Thursday. The Brooklyn Nationals have a lead of 5 games over New York and can clinch the pennant by winning six of their eight remaining contests. New York, with 12 to play, and Cincinnati with fifteen could then win all their games without coming up to the Dodgers. If the Cleveland Americans win seven out of their thirteen games, Chicago would have to win 7 out of 10 and New York 8 out of 9 to equal them.

While Brooklyn was winning Sunday, New York kept pace by defeating Cincinnati in a hard 11 inning battle. The Dodgers displayed good pitching strength last week, except in the two games lost to Chicago and Cincinnati. Brooklyn withstood the attack of the Reds taking the series two games to one, after capturing four out of five from Chicago. New York went into second place by outplaying Pittsburg.

Cleveland gained last week at the expense of second division teams and won its fifth straight victory Sunday when Bagby blanked Boston with four hits. It was his second shut-out game within a week. Washington dropped three straight to the Indians after winning the order of the game of the series from Chicago. The White Sox then came back and pounded out three victories over New York pitchers and won their fourth straight game Sunday by defeating Philadelphia. The Yankees slid back by dropping their fourth straight contest yesterday when they batted and fielded poorly against St. Louis.

The Brooklyn Nationals increased their lead over New York today to five and a half games while the three American League leaders all won, Cleveland retaining its game and a half lead over Chicago.

Brooklyn won from Pittsburg and gained a half game, as New York and Cincinnati split a double header. The Dodgers have only to win four games out of seven to place the pennant beyond New York's grasp, and three out of seven to make it impossible for Cincinnati to reach the top.

In the American League both Chicago and New York put much hope in the Cleveland-Chicago series beginning Thursday. The White Sox expect to overcome the Indians' lead and the Yankees feel sure that they would keep pace with Chicago by taking the Washington series and make the race even a closer one. If Cleveland wins half of its remaining twelve games the White Sox would prove to win six out of nine to tie them and the Yankees seven out eight.

ATHLETICS DEFEATED GRANBY

Montreal, Sept. 20.—Athletics defeated Granby 2 to 0 here yesterday in the second game of the series for the Provincial baseball championship. The first game at St. Hyacinthe on Saturday was halted by rain.

AUTO RACER KILLED.

Colorado Springs, Colo., Sept. 20 An unidentified racer in the Denver-Times Denver-Pueblo automobile road race which started at 9.30 o'clock this morning from Denver was killed shortly after 11 o'clock when his car overturned at a point on the road six miles south of Colorado Springs.

INTERNATIONAL FLAVOR FOR LADIES GOLF MATCHES

Hamilton, Ont., Sept. 20.—An international flavor is given to the early arrivals here today for the ladies golf tournament which opens in this city to-morrow in connection with the ladies amateur golf championship, for the Dominion by the presence of Miss Alexis Sterling, Atlanta, Ga., champion woman golfer of the United States.

Miss Sterling will be pitted against Miss Ada McKenzie of the Mississauga Club, the present Dominion champion, who is said to be playing better golf this season than ever before. Among other prospective contestants for the championship are Miss Sydney Peplor, Miss Emsley and Miss Hutton, Toronto, and Miss Kate Robertson, of the Beaconsfield Club, all of whom are playing good golf. There are 172 entries and as these include many well-known players it is expected that the golf tournament here this week will be exceptionally interesting.

MOVEMENT OF GRAIN CROPS

Port Arthur, Ont., Sept. 20—The first season's grain crop shows that 97,476,240 bushels of the total passed through the public and private elevators at the twin cities of Port Arthur and Fort William. Two main streams of wheat are shown as going to the United States. Of these 2,797,037 bushels went by way of Buffalo, and 1,167,959 via other United States lake ports, and 19,037,331 bushels moved by rail from the eastern pool whilst 184,169 bushels were cleared for consumption in the United States from the shipments from the east, and 3,964,996 bushels from the shipments via lake ports.

VIVE M'GEE TOOK FEATURE EVENT

Long Shot Captured Joliette Handicap At Dorval Yesterday—The Results.

Montreal, ept. 20.—Dorval Park results:

First race, $800, 2 yr-olds, 6 furlongs—Little Dear, 103, Hmphy, $17.10, $8.80, $4.20, won; Charley Boy, 106, Hunt, $9.70, $4.70, second; Mad May, 96, Stearns, $3.20, third. Time 1:17. Crow Mey, Miss Holland Geo. Co., Jr.; Voormel and Fornovo, also ran.

Third race, claiming, purse $800, 3 yr-olds and up, six furlongs — Highland Lad, 115, Thurber, $7.30, $4.30, $3.50, won; Assumption, 117, Hunt, $8.60, $5.80, second; Mannikin II 105, Sammers, $11.10, third. Time 1:16 3-5. Mouette, Princess Myrtle, Hemisphere, Lillian G., Oliver James, Lady Ione and American, also ran.

Fourth race, Joliette Handicap, purse $1,200, 3 yr-olds, and up, 6 furlongs—Vive McGee, 99, Dryer, $26.20, $7.80, $3.80, won; Flibberty Gibbet, 116, Hunt, $3.00, $2.70, second; Blazonry, 104, Hinphy, $3.80 third. Time 1:16. Sinn Feiner, Toe The Mark, Sedan, also ran.

Fifth race, claiming, purse $900, 3 yr-olds and up, mile and seventy yards—Discord, 106, Eames, $10.90, $4.40, $3.30, yon; Track Star, 105, Marenelli, $3.40, $2.80, second; All Amiss 102, Stearns, $7.80, third. Time 1:50. Sweeplet, Pulaski, W. M. Baker, Keen Jane and Aigrette also ran.

Sixth race, claiming, purse $900, 4 yr-olds and up, mile and a sixteenth — Pierrot, 109, Hayward, $11.90, $5.80, $3.40, won; Antiphon, 101, Tryon, $16.80, $8.30, second; Trickster II 104, Thurber, $5.10, third. Time 1:50 4-5. Miss Orb Mannchen and Dragoon, also ran.

Seventh race, claiming, purse $900 4 yr-olds and up, mile and a quarters—Little Nearer, 99, Bulcroft, $3.40, $2.80, $2.50, won; Wilfreda, 104, Myers, $4.70, $3.30, second; Leinster 96, Penman, $4.90, third. Time 2:13. Ray O'Light Cadillar, and Sky Pilot, also ran.

RIFLEMEN ARE KEEPING BUSY

Annual Meeting Held Recently —Prize Meeting At Levis Tomorrow Week.

The R. C. G. A. Rifle Association held their annual meeting on Friday last, the officers and committee elected for the ensuing twelve months being:

Patron: Colonel A. T. Ogilvie, C.R.C.A.

Vice-Patron: Lieut.-Col. A. E. Harris, O.C., R.C.G.A., Quebec.

President: Capt. C. C. Shaw.

Sec'y.-Treas.: S.M.I. (W.O.) T. E. Cox (re-elected).

Committee: Sergts. W. Creegan, M. R. Pugh and W. Arthur, Col. W. Henry, and Gnr. A. Hay.

It was decided to hold the annual Prize Meeting at St Joseph de Levis Rifle Ranges on Wednesday, Sept. 29th, weather permitting.

The committee have forwarded a letter to W. C. Macdonald, Reg'd., of Montreal, expressing their very warm appreciation of their generous donation of $25.00 and 25 lbs. of their "Cut Brier" tobacco to the prize list, through their Provincial Agent, H. C. Fortier. This firm have done much to encourage rifle shooting this year by their large donations to the P.Q.R.A. and D.R.A. prize lists.

PROTECT THE SPARES

Automobile tires are wrapped in paper by the manufacturers because tire makers know that sunlight and air sap the strength of rubber, says Motor Life. It should be protected until it actually goes on the rim for road service.

Statistics prove that a tire good for an average of 6,000 miles when it leaves the factory will lose approximately 2,000 miles of life by being carried unprotected as a spare for one year.

A tire cover made of rubberized coated fabric will outlast many tires. It will cost less than the 2,000 lost mileage on one unprotected spare.

Neatly covered tires look so much better hanging on the back of the machine than do bare tires. The covers are waterproof and can be washed without injury as often as the car is washed. They come in colors to match the body finish.

CAMPAIGNING FOR WOMEN.

Asbury Park, N.J., Sept. 20.—A school for instruction of newly enfranchised women in the art of successful political campaigning has been opened here. The course includes campaign methods, "the proper way to approach voters," the "model campaign speech," and the methods of "stump orators." The school will be run under the auspices of the republican party.

BY-LAW NO. 11 A

By-Law to Amend By-Law no. 11 Concerning the Widening of the Prolongation of St. Valier Street.

(Drawn up in the French Language)

At a meeting of the Municipal Council of the City of Quebec, held at the City Hall, in the said City of Quebec, on the twenty-seventh day of August, one thousand nine hundred and twenty, (1920) in conformity to law, and in virtue of a by-law passed by this Council, pursuant thereto, and after the due observance of all the formalities prescribed by the statute in such case made and provided, at which meeting were present the absolute majority of the members composing the Council of the City of Quebec, that is to say: His Worship the Mayor, Aldermen Bertrand, Bouchard St. R.; Bouchard, J. C.; Fiset, Delagrave, Labrecque, Lantier, Lesage, Martin, Mercier.

It is ordered and enacted by the Municipal Council of the City of Quebec and the said Council doth hereby ordain and enact as follows:

Article 1 of By-Law No. 11 is amended by replacing the 2d and 3d paragraphs by the following:

On No. 2349—About 490 square superfical feet.
On No. 2350—About 575 square feet in superficies.
On No. 2351—About 240 square feet in superficies.
On No. 2352—About 255 square feet in superficies.
On No. 2353—About 295 square feet in superficies.
On No. 2354—About 1884 square feet in superficies.
On No. 2355—About 8045 square feet in superficies.
On No. 2356—About 11,830 square feet in superficies.
On No. 2357—About 900 square feet in superficies.

As is figured on the plan deposited in the City Engineers office, on the 20th December 1915 and prepared by the Land Surveyor Hugh O'Donnell and revised the 14th June, 1918 and the 11th June 1920 by the Land Surveyor Edouard Hamel.

BY-LAW NO. 11A.

By-law to Amend By-law No. 11 Concerning the Widening of the Prolongation of St. Valier Street.

(Drawn up in the French Language)

At a meeting of the City Council of the City of Quebec, held on Friday, the 23rd July (1920), the following By-law was read for the first time.

It is hereby ordained and enacted by the Municipal Council of the City of Quebec, and the said Council ordains and enacts:

Article 1 of By-Law No. 11 is amended by rrplacing the 2d and 3d paragraphs by the following:

On No. 2349—About 490 square superfical feet.
On No. 2350—About 575 square feet in superficies.
On No. 2351—About 240 square feet in superficies.
On No. 2352—About 255 square feet in superficies.
On No. 2353—About 295 square feet in superficies.
On No. 2354—About 1884 square feet in superficies.
On No. 2355—About 8045 square feet in superficies.
On No. 2356—About 11,830 square feet in superficies.
On No. 2357—About 900 square feet in superficies.

As is all figured on the plan deposited in the City Engineers office, on the 20th December 1915, and prepared by the Land Surveyor Hugh O'Donnell and revised the 14th June 1918 and the 11th June 1920 by the Land Surveyor Edouard Hamel.

Public Notice.

is hereby given that in conformity with the dispositions of the law, the above By-law shall be read a second time for adoption on on Friday, the 27th of August 1920.

By order,
H. J. J. B. CHOUINARD,
City Clerk.

Don't Spoil Your Hair By Washing It

When you wash your hair, be careful what you use. Don't use prepared shampoos or anything else, that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulsified cocoanut oil, for this is pure and entirely greaseless. It's very cheap, and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

ARE LESS FAIR THAN FORMERLY

So Says Mrs. Asquith in Her Memoirs, Now Running Serially.

Mrs. Asquith has stirred up the popular press of England by a sort of assault on the beauty of the women of today. She claims that beautiful women are not so beautiful as they used to be. This is the first challenge made by her memoirs, now running serially and expected to contain much provocative comment on things and people. The New Statesman (London) deals at length with the charge, but thinks that it is "capable neither of proof nor of disproof, and therefore an admirable subject for controversy." It glances dubiously at the times and sees that "we are at present in the trough of the wave in many other respects besides beauty. We have reached the Land's End of littleness in statemanship and the arts. We have swerved into the era of nobodies." With a sly glance at possible protestors it observes that "luckily, boys of eighteen do not know what they missed by being born twenty years late. . . . Where there is youth there will always be beautiful women and great men." The word "beautiful" itself needs some examination, which this paper proceeds to supply:

"Who can define a beautiful woman? What is the sine or cosine of the angle of her nose? How shall we measure the whorls of her ears? Is there a standard size for beautiful hands and feet? How far is wit a necessary element in a woman's beauty? How far animation or even animality? There is no fixed answer to any of these questions. We call a woman beautiful as we call a scene beautiful—merely, perhaps, because a certain kind of beauty is in fashion. Rossetti's women may appear beautiful to one generation and hideous to another. It is all a matter of taste, like the beauty of a London fog. Today, it is possible, there are people who regard Mr. John's women as beautiful. Even Mr. Epstein's contemptuous Venus may have charms for a sufficiently young and fashionable age. There is no denying that the fashion of beauty has altered in all the arts, and that, where our fathers loved regularity and smoothness, our younger brothers prefer irregularity and roughness. In the next generation boys will probably swear that Juliet's nurse is more beautiful than Juliet, if they do not do so already. The present age is more incapable than any recent age of producing a Venus de Milo because it infinitely prefers a Venus de Kongo. One wonders at times whether this is only a pose or whether youth has lost the power of making proper use of the human eye."

The writer is perhaps in fear of being dismissed as an old fogy, or a disappointed and disillusioned blight; and he softens the severity of his structure on the extravagances of youth, which, he says, has "merely altered a myth."

"We have made a myth of a small number of names, and the very mention of them brings a light into the room—Helen, Cleopatra, Mary Queen of Scots — but it is possible that in counting their possessors beautiful we are deceived. Horace Walpole bought an old account of the trial of Mary Queen of Scots in which she was described as 'a large, lame woman.' It is no large, lame woman that we worship under her name, but beauty frail, impassioned, defeated. Her portrait haunts us with its appeal, irresistible and helpless. We feel toward her as Burke felt with regard to Marie Antionette: "I thought ten thousand swords must have leapt from their scabbards to avenge even a look that threatened her with insult.' There are men for whom a beautiful woman justifies any cause. To take the life of a beautiful woman seems to them the very peak of crime. They are romanticists who demand a lovely heroine and who would embrace Bolshevism itself for the sake of a pair of blue eyes. Even those of us whose love of beauty is tempered with common sense can not but wish that the cause in which we believe had not shed the blood of a beautiful queen. We are of the queen's party, even though we rejoice in the French Revolution and though if she had lived on into wrinkled prosperity, we might have hated her. Burke's bombast, however we may smile at it, weakens an echo in our hearts. 'Surely never lighted on this orb, which she hardly seemed to touch, a more delightful vision. I saw her just above the horizon, decorating and cheering the elevated sphere she had just begun to move in; glittering like the morning star, full of life, and splendor, and joy.' It is strange that the women whose beauty we are most inclined to exalt and idealize should be women who suffered tragically. It is as though pity were a necessary part of the sense of beauty. The beautiful woman who does not engage our emotion is, as a rule, merel a comedy character. By suffering alone can a beautiful woman add a cubit to her stature. If Rossetti's women appear beautiful, it may be largely due to the fact that they are obviously unhappy."

A beautiful woman, we are reminded, is "usually a disappointment to those who have heard of her beauty and see her for the first time." For—

"The imagination conjures up in advance a vision which no reality can live up to. One expects one's knees to be turned to water by the sight of the supreme loveliness, and lo! one stands in its presence, a critic, comparing this shell to the image in one's mind, missing the ecstasy one had felt in anticipation. It has been said that the cleverest man is only a little cleverer than other men. It may be that the most beautiful woman is only a little more beautiful than other women. We expect too marked a difference between her and the rest of human beings. The desire to insist upon the difference led the writer of 'The Song of Solomon' to declare of a beautiful woman that 'her nose is like the tower of Lebanon that looketh toward Damascus.' It was intolerable to him to think that the queen of women should have a nose that was only like a nose. We have always had a deep respect for Rudel, the Troubadour, because he was able to continue to the real woman the worship he had given to an image. When he fell in love with the Countess of Tripoli, he knew nothing of her but what he had heard of her beauty from pilgrims:

"'And for the sake of her he took the Cross and set out to sea. And on the voyage a grievous illness fell upon him, so that those who were in the ship thought he was dead, but they brought him to Tripoli and carried him to an inn, thinking he was dead. And it was made known to the Countess, and she came to him and took him in her arms, and he knew she was the Countess, and recovered consciousness, and praised God and thanked him for having let him live to see her. And so he died in the lady's arms.'

"We know how Anatole France would have ended that story. He would have made the Countess of Tripoli considerably worse than a large, lame woman even though in pity he would probably not have allowed her lover to recover consciousness and learn the truth. Our age takes more pleasure in knowing that illusions are illusions than men of a more romantic time took in the illusions themselves. It may be, for all we know that the beautiful Countess of Tripoli was an illusion and that Rudel was simply, like Don Quixote, a man unamendable to experience. We envy him, however, for in a world of disappointed men, the man who is not disappointed is a king."

LEMON JUICE FOR FRECKLES

Girls! Make beauty lotion for a few cents—Try it!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and rosy-white the skin becomes. Yes! It is harmless and never irritates.

When you "know" you have a stomach it's time to suspect your liver. You need Beecham's Pills. A lazy liver and overworked kidneys allow food poisons to circulate in the blood and irritate the entire body.

Largest Sale of any Medicine in the World. Sold everywhere In Canada. In boxes, 25c. and 50c.

Let The Homes of Canada Reflect The Nation's Prosperity

CANADIANS have every reason to feel optimistic, courageous and self-reliant to-day —to look to the future with calmness, optimism and confidence—to work energetically, to live happily and to enjoy the refinements, comforts and home-life of a well educated, progressive and prosperous nation.

As a Toronto "Globe" editorial so truly stated:—

"In the topsy-turvey world of to-day, few nations have a better outlook than Canada, the well-being of which is based firmly upon the fertility of her boundless fields."

Greater Interest in Home Improvement

One of the most impressive evidences of the progressive and prosperous condition of the Canadian nation is the great interest that is developing in the beautifying and improving of our homes. More care and more thought are being given to the furnishings. Greater consideration is shown for beauty and harmony. An atmosphere of cheerfulness, brightness and attractiveness is being carried throughout the home.

It is really surprising how readily an ordinary, uninteresting house can be transformed into a real home, in which it is a pleasure to live, by the magic of beautiful, yet not necessarily expensive, furniture.

And in view of the solid, prosperous condition of the country, and the outlook for a promising future, Canadians should feel encouraged to proceed with the beautifying and improving of their homes with better furnishings.

Nothing that you can buy will give you and your family so many years of happiness, comfort and solid satisfaction as beautiful furniture.

The Influence of Furniture in the Home

Beautiful furniture brings an atmosphere of cheerfulness and brightness into every room. It delights the eye. It gives comfort and rest to the body. It brings contentment to the mind and has a refining influence on character. It gladdens the heart. It is the pride of the owner.

A beautiful library table or a luxurious chair costs no more than a tailor-made suit. A Chesterfield no more than a set of furs. Three or four suites of elegant furniture are obtainable for the price of an ordinary motor car. Other things last but a few months or a few brief years, whereas good furniture lasts more than a life-time.

During the last decade there has been a wonderful change and improvement in the appearance of furniture.

Modern furniture designers have received their inspirations from the "Period Designs" of the old masters, but have not copied their work, because some of the old masterpieces were either too frail or too cumbersome for utility.

Modern Designs for Average Homes

While the average family might not care to furnish their homes with the original work of the old masters, the modern reproductions and adaptations of them, as produced by Canadian furniture craftsmen, ideally meet the present-day demands for furniture that combines art and beauty with comfort and utility.

Modern Canadian furniture is noted for the excellence and soundness of its construction as well as its artistic appearance. There are no more skilled craftsmen operating wood-working machines, no more dextrous carvers of patterns that enrich the furniture, no finer cabinet makers, no more careful polishers, stainers and finishers, no better upholsterers, than are working to-day in Canadian furniture factories.

Moderately Priced Suites and Pieces

And this beautiful, modern, well-made Canadian furniture is obtained in moderately priced sets and individual pieces, as well as in the more elaborate and expensive suites.

From the cradle to old age, from the cottage to the mansion, there is Canadian-made furniture suitable for every purpose and every pocket-book.

The individual earnings of Canadians are greater than those of almost any other race. We are living in prosperous times, and in a country with a glorious future. The new era commencing with the close of the war is proving to be the most progressive and prosperous in the history of the Dominion, and Canadians can well afford to brighten up their homes with better furniture.

"Better Furnished Homes Mean Greater Happiness"

This announcement is inserted by

THE HOME FURNISHINGS BUREAU

Bank of Hamilton Building Toronto, Canada

NOTE—The Home Furnishings Bureau does not sell furniture or goods of any kind. Its object is to promote a greater interest in the furnishings of Canadian homes. Your local dealer will be pleased to give you any information you desire about suitable furniture for your home.

LEAGUE OF NATIONS CODE

New York, Sept. 20.—Herman Werz has just returned from Haiti, where he has completed the installation of the League of Nations code. It has also been adopted in Italy, Serbia, and Switzerland. The code consists of only ten symbols, five letters and five cyphers. By using the characters in combinations official messages of any length can be sent It is the shortest code ever devised.

A beaver in a park was experimentally placed at work on a tree twelve feet long and two feet six inches thick, just as the town clock sounded the hour of noon. The beaver began by barking the tree a foot above the ground. That done, he attacked the wood. He worked hard, alternating his labor with dips in his bathing pons. He bathed and labored alternately then he ate his supper of bread and carrots, which the keeper brought him, and paddled about in his pond until half-past 5 o'clock. Ten minutes later, when only one inch of the tree's diameter remained intact, he bore upon his work and the tree fell. Before it fell the beaver ran as men run when they have fired a blast. Then as the tree lay on the ground he portioned it out mentally and began to gnaw. He worked at intervals all night; cut the log into three parts, rolled two of the portions into the water, and reserved the other third for his permanent shelter. The work done, he took a bath.

John B. Sietz, has been chosen to command the battery of ten cameramen who will be used by Rex Ingram in photographing the Ibanez' masterpiece, "The Four Horsemen of the Apocalypse." Seitz is a member of the American Society of Cinematographers.

VOTING POWER IN THE LEAGUE

Cox Says Canada Cannot Sit If She Has A Dispute.

San Diego, Calif. Sept. 20— "If Canada has a dispute she cannot sit and only vote would be accorded England and all her colonies, Governor Cox, Democratic presidential candidate, declared today in the course of his campaign speech in which he tried to explain to his audience how Senator Hitchcock's League reservation met the objections of those who declare the British Empire would have six votes to the United States one in the League of Nations.

The Governor reiterated that he would present Ireland's cause to the League, adding that he would answer any questions on the Irish or other subjects.

"That's why I"m here and not on my front porch", he said.

Referring to the Republican front porch campaign, Mr. Cox sa'd if he remained at home there might have been an impression that he was "afraid to face an audience." He asserted that a great many reactionary newspapers are not printing the news of the campaign stating that "one of the deliberate plans of the 'Senatorial oligarchy' was to control as many newspapers as possible.

He repeated his intention, if elected, to enforce the prohibition Act.

C. N. R. OFFICIALS VISITING NEW BRUNSWICK LINE

Fredericton, N.B., Sept. 20.—President D. B. Hanna, of the Canadian National Railways and a party of C. N. R. officials including F. P. Brady, and several other vice-presidents, spent this morning in Fredericton considering various phases of the development work which is being undertaken here to give the C. N. R. a new line for transcontinental traffic from the West to the port of St. John via the National Trans-Continental, Canada eastern and St. John Valley railway divisions.

After conferring with Mayor Reid and a civic delegation including representatives of the Board of Trade President Hanna and several members of his party spent an hour in a motor drive about town and left here early this afternoon for St. John.

Mr. Hanna said it was the intention to visit all the lines of the C. N. R. in the Maritime Provinces going as far east as Sydney.

BEAVERBROOK LUNCHED BY MOVIE MEN

New York, Sept. 20.—(By Can. Press),fl—Lord Beaverbrooke today attended an informal luncheon given in his honor by leaders of the moving picture industry in the United States. He spoke briefly on the Irish question, which, he said, was not a measure of local self-control such as easily could be granted, but a division between the North and South of Ireland. He added that if there could be brought about unanimity of opinion there as to what what was most needed, the matter could be adjusted at once. There was not a man in public life in Great Britain who would not welcome a settlement of this matter, he said.

LABRIES BROS FIGHTING FOR FREEDOM

Montreal, Que., Sept. 20.—The Court of Appeals this afternoon reserved judgment on the appeal of the Minister of Justice to quash a writ of habeas corpus granted by the Superior Court on June 14 last and ordering the release of Joseph and Emile Labrie, sentenced to twenty five years and life imprisonment, respectively, for the crime of manslaughter. N. K. Laflamme, K.C., on behalf of the Minister of Justice, claimed absence of jurisdiction of the judge who freed the Labries.

FIRE DESTROYS SIX HOUSES

Ottawa, Sept. 20.—A fire which broke out at 2:30 this morning at Angers, Que., totally wiped out six houses, a hotel and a bakery and for a time threatened the entire village. It was only the excellent work of the adult population, who formed a bucket brigade that saved the rest of the village. The principal sufferer were David Barnaby, hotel proprietor; A. Lalonde, baker; Mr. Cote, Jos. Routhier and O. Gauthier.

DANGEROUS CHARACTER

Montreal, Que., Sept. 20—Charged with having dynamite in his possession and exploding a charge near a building with intent to do bodily harm, Walter E. West, who gave his address as the United States, was arraigned before Judge Cusson in the Enquete Court this morning and enquete was fixed for September 24.

$100,000 WANTED FOR NAVY LEAGUE

Montreal, Que., Sept. 20 — A financial drive for $100,000 on behalf of the Navy League in the Province of Quebec was decided at a meeting held this afternoon in the offices of the Sun Life Building here which was attended by a group of influential citizens. The amount is to be raised in Montreal.

ABNORMAL PROFITS.

Toronto, Ont., Set. 20 — (Can. Press)—Profits ranging as high as 719 ercent are taken by Toronto restaurants on the sale of a cup of tea, according to the report of the comm'ttee appointed by Mayor Church to investigate prices and profits of Toronto restaurants, which was submitted today.

At The Theatres

THE EMPIRE.

Robert Warwick in "Thou Art The Man", and Herbert Rawlinson in "The Silken Banknote" are the titles of the twin bill offered at the Empire Theatre. In the first named picture Robert Warwick plays the part of a stalwart adventurous soldier of fortune who goes to jail falsely accused to shield the girl he loves. Adventure and romance in the far-famed diamond fields of South Africa together with the said soldier comprise the theme of the story, which is simply great.

The second half of the bill sees a picture founded upon the facts of a celebrated criminal case in the States, and discloses the methods used in tracking down present day criminals. Chief of Detectives Wm. Flynn, of New York, is seen in this picture, which has been pronounced by experts a perfect gem of a screen play. It has uncanny mystery, gripping suspense and an unexpected ending.

In addition to the twin feature offering, there is a Strand comedy, as well as the latest Screen Magazine on the bill.

THE ALLEN.

"The River's End", Marshall Neilan's super-picture, was the attraction at the Allen Sunday and yesterday, and will be shown again today and tomorrow. It is one of the most stupendous pictures ever produced, and ought to repeat attendance records today and tomorrow again.

In ddition to the picture, there is the first musical tableau ever presented in Quebec. "Autumn", with Mr. B'aquiere, bass, attending to the singing end of the tabbeau . It was presented both on Sunday and yesterday, and, although it was a complete novelty to local theatregoers, was very favorably received. The musical tableau is presented with special settings, and the music rendered is specially chosen for the occasion by Mr. Sid Hoffman, the orchestra leader of the Allen.

A number of special selections were run off by the orchestra, with Mr. Blaquiere singing, and his deep bass voice, accompanied by the soft music of the various instruments, seemed to make a deep impression on the audience, for they applauded the production to the echo.

In addition to the feature picture and the musical tableau, there is also a comedy on the same bill, and, from the way things are going now at the Allen, it is bidding fair to become Quebec's most popular theatre.

THE CLASSIC.

Olive Thomas in "Prudence On Broadway", is the title of the feature attraction at the Classic for the first half of the week. In this picture the recently deceased star is seen as the daughter of strict Quaker parents in a little sleepy town in Pennsylvania. She is a girl who dearly loves to dance and attend the theatres, but her parents simply abhor the latter, and won't hear of her doing the former. She is sent away to boarding school, where she is the life of the place, and later is sent to New York, to join a cousin of her parents.

What happens when she reaches New York, and how she turns her other cheek when kissed on one, make a delightful story, in which the Madonna-like beauty of the late Miss Thomas is seen to great advantage. It is a comedy drama of the highest order, teeming with entertainment and full to overflowing with amusing situations. The role admirably becomes Miss Thomas.

The picture is one that attracted capacity crowds to the Classic yesterday afternoon and evening, and should repeat again today and tomorrow.

In addition to the feature picture there is a Comedy, Classic Weekly News and Topics of the Day on the same bill.

THE AUDITORIUM

Five excellent acts of vaudeville were offered to the public at the Auditorium yesterday afternoon and evening, and they proved very popular. Lung Tchang Yuen, a Chinese magic act, was the first on the bill, and displayed several good stunts, being followed by Morse and Foss, two girls in a singing and novelty fancing act. Mayah, a devotee of mental telepathy, was the third number, and created quite an impression. The man has two girls go round and collect messages, which are then burned in two jardinieres without reaching his hands at all, whereupon he gazes into a crystal ball, and reads the question as well as giving the answer.

The fourth turn is that of Ferne and Sett, two black faced comedians, who introduced some new songs, while the last, but not least, was Carson and Girlies in a novel music and dancing number, in which the girls portrayed classic dances, while Carson went through several novel steps of his own. The entire bill is very good, and ought to draw big houses.

For the motion picture attraction there is "Madame X" featuring Pauline Frederick in one of her most emotional roles, while a really good comedy is also on the bill.

The Auditorium bill this week is hard to be equalled.

THE VICTORIA

"The Cheater" starring May Allison, was the stellar attraction at the Victoria yesterday afternoon and evening, and attracted huge crowds. This is a picture similar to "The Miracle Man," and Miss Allison has the part of a girl who is brought up with charlatans. She claims to have the power to heal human ills by mental concentration. She is brought to the house of a young nobleman, whose sister is an incurable cripple, where she is suddenly confronted by the fact that she has been deceiving everybody all along. Whether to continue with the nobleman is another matter, for love had dawned, and she does not know what to do, whether to continue deceiving the man who has trusted her implicity or not.

Her decision carries her to the greatest spiritual heights, while the dramatic situation evolved is compelling in its force and the denouement is one of the most unexpected and thrilling ever witnessed. As Lily, the 'human faith healer' Miss Allison has a role that is fascinating in its grip on the emotions, and in which she rises to new heights of acting. A notable company is in support of the star.

A comedy, Pathe Weekly, and other subjects are on the same bill.

ALBERTA WHEAT IS GRADING HIGH

Edmonton, Alta. Sept. 20.—The bulk of Northern Alberta wheat now being marketed is grading No. 1 Northern, according to reports at the offices of the Government and Provincial elevators here.

It is all of a good color and with practically no evidences of frost.

It is estimated that the average yield will run from 20 to 25 bushels an acre.

SUICIDE IN BOTH CASES

Montreal, Que., Sept. 20.—Two verdicts of suicide were rendered in the Coroner's Court this morning. This was in the case of Mrs. Thomas Rankin, 32 years old, of 359 Ville Marie Street, who slashed her throat with a bread knife last Saturday morning and died a few hours later.

Saturday was also the verdict in the case of Philip Christie, 27 years old, of 375 Notre Dame Street, who shot himself in the head last Saturday afternoon, after writing a note in which he explained that he was tired of life.

MECHANICS FOR HARVEST.

Calgary, Alta., Sept. 20.—Thousands of automobile mechanics from the automobile factories at Detroit have come to the Canadian west on the harvest excursions. All trains arriving at Winnipeg from Detroit have been filled with these young men bound for the golden grain fields and the life of the open. Many of them have considerable capital with them and express the intention of purchasing farms for themselves when harvesting is completed.

A Festival of BEAUTY in FALL STYLES For 1920

The Reasons Why You Should Participate in This Demonstration

From the 20th to the 25th of September you cannot afford to abstain from visiting our stores.

It is our Exhibition of Autumn Styles. You will find a most varied display of goods of quality, of elegant clothing and of really artistic hats.

You must also consider the interests of your pocket-book.

Our Sales-Ladies will supply bargain prices which are always agreeable to pick up.

All are invited to visit our stores this week, which will be the most interesting of the year.

FRENCH LABOR IN MODERATE MOOD

Minority in Labor Confederation, Declares it Will Join With Third International

Paris, Sept. 20.—There are happily signs that the Confederations Generale du Travail, which was becoming more and more extremist, is now taking up a more moderate attitude. It will have nothing to do with Bolshevism. True, there is a minority which declares that in spite of the decision of the larger section, it will, nevertheless, join up with the Third International of Moscow. If this threat is fulfilled, there will be a schism. But for the most part the confederation, which was so much feared by the government a few months ago, may become one of the best bulwarks against Bolshevism.

Every endeavor was made to plunge the workers of France into revolution. Some of the hotheads of the confederation stampeded it and a series of strikes, which were by no means syndicalist in character, were entered upon. The wiser leaders, such as Leon Jouhaux and Charles Merrheim, were carried away by this tempest. The French Government took strong measures. The extremists, who had a half-hearted following, were put to rout. The reaction in favor of a sober policy more strictly confined to the establishment of professional claims has now set in.

Mr. Jouhaux, for example, at the National Council of the Confederation of Labor declared that hitherto they had not wished to take up a position against the Third International. But the recent proclamation of Mr. Zinovieff, addressed to the workers of the world, amounted to a declaration of war against the syndicates and trade unions. It was there affirmed that they should disappear, to give place to an international federation which would receive its commands from Moscow.

The confederation is, however, clearly opposed to any war and promises to go outside what may be held to be the limits of its legitimate action if and when war becomes imminent. It definitely reserves the right to join up with all other working class and socialist organizations with the object of preventing any attempt to renew war in Europe.

As for Mr. Merrheim, who has made a special study of Bolshevism and has always been regarded as one of the most advanced Labor leaders, he condemns the doctrines and the practice of Bolshevism in a series of articles which have provoked great discussion in syndicalist circles in France. His analysis is really remarkable. He shows how the Bolsheviki, who were anti-militarists, created an army with an iron discipline. They were opponents of capital punishment, but they employ such punishment constantly. They were Communist but they promised to protect the peasant proprietor. They were against capitalism but they invited foreign capitalists to come into Russia, offering them advantageous concessions. Indeed, every point of their program has been ruthlessly falsified.

Thus he concludes that French socialism and French syndicalism can have nothing to do with Russian methods. Bolshevism only remained in power by the dictates of all individual or a group of individuals who employed violence and terror and kept an army of mercenaries.

At the same time as Marcel Cachin and Mr. Frossard are trying to lead the Socialist Party into Bolshevism, the sydicalists are taking the opposite route. They have returned to prudence and to their original position. The extremists have lost ground. The policy of adventures is discredited.

The railway men who were the most active have now thrown over those leaders who were responsible for the ill-fated strike a few months ago. They then attempted to impose their will on the government by a general strike. The movement was absolutely revolutionary, and those who follow closely the trend of events in France had reason to believe that had the extremists succeeded the syndicates would have been erected into rivals of the government. Such a danger appears now to be passed. Not only is the railroadmen's organization seriously enfeebled as a result of that strike, but the sounder elements in the movement have recovered their authority and the revolutionary elements have been rejected.

As a matter of fact the reports of Mr. Frossard and Mr. Cachin, although they were intended to support Bolshevism, have only succeeded in turning thinking men in France further away from Bolshevism. However favorable they were, the grave defects of Bolshevism could not be disguised, and the working classes in France quickly expressed their determination not to seek similar adventures to those which have plunged the Russian people in their present position. Everywhere the methods of Nicholas Lenine are condemned, and it may now be safely said that the menace of an imitation of the Russian revolution is removed in France.

MORE LABOR TROUBLES HAVE BROKEN OUT

Niagara Falls, Ont., Sept. 20.—Labor troubles have broken out again on the Queenstown-Chippewa Canal at noon today. Sixty linemen walked off the job, the Hydro Commission having refused to give the men seventy seven cents an hour as recently awarded by the Gillen-Bancroft-Moore Conciliation Board to the linemen of the Toronto Power Company. The men have negotiated since July 8, but Friday last the men took a vote and unanimously decided in favor of a strike if a satisfactory answer was not received by noon today.

No answer was received and the men walked out at noon. The effect of the walk-out will be that in a short time it will not be possible to operate the main disposal dumps.

New York, Sept. 20.—Another installment of $10,000,000 in gold to be applied toward France's half share of the $500,000,000 Anglo-French loan, arrived here today aboard the French Line steamer Havre.

THREE LINERS HERE YESTERDAY

Scotian, Corsican And Canada Discharged Passengers And Proceeded Up.

Three passengers liners, two C. P. O. S., the Scotian and Corsican, and the White Star-Dominion Line steamer Canada, arrived at Quebec yesterday with 3,994 passengers, 2,717 of whom were third-class and landed at the Louise Docks for immigration inspection and to entrain for their Western and American destinations.

The C. P. O. S. Scotian, which arrived at 8:30 Sunday night, was the first of the three vessels to arrive, followed by the C. P. O. S. Corsican, which arrived at 5.50 a.m. yesterday.

The latter, by request of the company's officials, was the first to land her third-class passengers yesterday morning This steamer, coming from Liverpool, carried 433 cabin and 978 third-class passengers, all British, with the exception of 200 Italians booked for the United States who were handed over to the United States immigration officials for inspection and a number of whom were detained for re-inspection. The remainder of the new arrivals were forwarded to their destinations.

C. P. O. S. Scotian.

The C. P. O. S. Scotian, which brought 1,318 passengers, 330 cabin and 988 third-class. The latter were landed at 10:30 o'clock and conducted to the immigration buildings for inspection. The Scotian, coming from London and Havre, brought among its third-class passengers 500 Italians booked for the United States, and other foreigners. There was one birth during the voyage that took place coming up the St. Lawrence. One of the Italian women passengers in the third-class, named Mrs. Battiston, gave birth to a child who was christened on board the ship and given for its Christian name, Scotian.

The cabin passengers were largely returned Canadians from various centres of Ontario and the West. Among the British were a number of delegates to the International Brotherhood Convention at Washington, who included Mr. Ben. Spoor, M.P. Booked for Quebec were Mr. and Mrs. Plamondon, Mr. L. Plamondon, Miss Irene Plamondon. Quite a number of the 500 Italians booked for the United States were detained by the American immigration officials for a second inspection.

SS. Canada.

The White Star-Dominion Line steamer Canada, from Liverpool, which arrived yesterday afternoon, brought out 1,220 passengers, 469 cabin and 751 third-class. The latter were landed at 4 o'clock for immigration inspection and included a number of Jews and foreigners from continental Europe. Among the cabin passengers were Sir Thomas W. and Lady Robinson, with twenty-three delegates from the Rexall Remedies Company, Great Britain, en route to attend the Druggists' Convention to be held at Cleveland, Ohio.

Capt. J. W. Christie, Commander of the Canada, speaking of the trip across said the ship was delayed two days by a regular black fog east of Belle Isle, otherwise the passage was pleasant.

NOBODY TO BLAME.

Montreal, Sept. 20 — That no blame attaches to any one concerned was the verdict rendered in the Dominion Wreck Commissioners' Court this morning after enquiry into the circumstances attending the grounding of the Canadian Pacific Ocean Steamships liner Metagama. The Metagama, inward bound from Liverpool, ran ashore on a mudbank on September 11, about 25 miles from Montreal. She was released undamaged and sailed on her return voyage for England on Saturday.

H. M. S. CONSTANCE TO RECEIVE NEW CREW

St. John, N.B., Sept. 20—H. M. S. Constance, which has been in port for the last nine days, sailed for Halifax this morning, where she will pick up a new crew, now on the way from England, and sail for home.

SHIPPING NOTES.

The Anchor-Donaldson Line steamer Saturnia, Robert Reford & Co., agents, passed Cape Salmon at 5:20 p.m. yesterday and arrived at Quebec last midnight. She will land her third-class passengers at 7 o'clock this morning.

* * *

The C. P. O. S. Victorian passed Belle Isle at 2:30 p.m. yesterday and is due to arrive at Quebec at 3 p.m. Wednesday.

* * *

EGG MARKET

Ottawa, Ont., Sept. 20.—A complete change in the egg market has been reported for this week's trading. There is very little new export business passing, but shipments overseas are fairly heavy in storage stocks to fill previous sales. For the week ending September 18, twenty seven inspections were made in the Eastern section covering 2,500 cases of fresh, and 8,700 cases of storage, all for export, 336,000 dozens in all.

Toronto easy, no change in jobbing prices. Dealers report buying current receipts at 58c, f. o. b.

Montreal firm for specials at 75c and extras 68c. Firsts slow in sale at 59c to 60c, seconds 56c to 52c. Sales of storage firsts reported at 70c to 71c for export.

ECZEMA You are not experimenting when you use Dr. Chase's Ointment for Eczema and Skin Irritations. It relieves at once and gradually heals the skin. Sample box Dr. Chase's Ointment free if you mention this paper and send 2c. stamp for postage, etc. a box; all dealers or Edmanson, Bates & Co., Limited, Toronto.

GOOD-BY WASH DAY, OR MONDAY AT THE MOVIES.

Justifying the increased charges for laundry work, Mr. E. C. Boughton, assistant secretary of the National British Federation of Launderers, said to a press representative recently:

"The fact that the sub-committee of the Central Profiteering Committee has declared that laundry work is estimated to cost 135 per cent. more than the pre-war cost, and that the average price charged to customers is not more than 120 per cent., is proof that there is no general profiteering.

"As the report states, a laundry proprietor views with great concern every increase in the charges he is forced to make because he is faced all the time with the possibility that his customers may withdraw their custom and do the washing at home."

It makes one sigh, the sweet concern of the profiteering laundryman that a woman will rub out a few things, but he need not worry, for the profiteering landlord provides no room in which to wash. The housewife can only smile and say that she didn't want to give up her feminine frills and petticoats, and she wishes the baby were neater, but—

CANADIAN SHOES FOR CANADIAN PEOPLE

Why You Should Buy Shoes *Now!*

WE Shoe Manufacturers of Canada—and there are 158 of us in all—feel that there are certain features relating to our industry that you should know.

One of the principal things is this—

There is little likelihood that shoe prices will be very much lower than at present, for some months to come, at least.

IN any event, any reduction that the manufacturer may be able to make to the retailer will be slight; on the other hand, there is a possibility that prices on some styles may be higher.

Your shoe retailer bases his prices to you on what he pays the manufacturer. We, in turn, are dependent on the cost of leather and other things, as well as of labor.

We buy our materials months before our shoes are on your feet, and the price of these shoes is naturally regulated by the cost of the materials of which they are made, and of the handiwork expended on them.

Therefore, our advice to you—and we give it in all sincerity—is to BUY NOW any shoes you need for your self or your family. Don't buy extravagantly or recklessly, but do so carefully and judiciously.

Your retailer will give you this same advice too, if you ask him. He knows, as we do, that if the public demand for footwear suddenly started up abnormally, scarcity of shoes and higher prices would probably result.

This is a situation that should be mutually avoided, and will be if you buy what shoes you need, as you need them.

Canada produces footwear of every desirable type, and of standard quality in all grades. When you buy Made in Canada Footwear you are assured, at fair prices always, of the utmost that modern skill can produce in Comfort, Service and Style.

Semi-Colonial Cottage for Woman Who Does Her Own Work

DESIGNED BY CHARLES S. SEDGWICK

IN these servantless days, convenience of floor plans is the first consideration of the home builder. The house shown today is designed especially for the woman who does her own work, the rooms being arranged after the most convenient plan. This semi-Colonial cottage, which is 38 feet wide by 32 feet deep is of frame construction with brick foundation that extends up to the first story window sill, above which it is covered with "Colonial" siding. The roof is shingled and stained a moss green. Entrance is through a centre vestibule into a wide hall from which the stairway ascends. An attractive fireplace is in the center of the living room, the chimney being carried up on the outside through the gables. In the rear of the kitchen is a glazed porch with space for refrigerator. The first floor is finished in Flemish with oak floor.

Four good sized bed rooms, a sewing room, bath room and ample linen and clothes closets comprise the second story which is finished in pine painted white and enameled and with birch floor. The attic space is low but can be used for storage. The approximate cost of building this home, exclusive of heating and plumbing, is between $5,000 and $6,000. Painted white with green trimmings and with red brick chimneys and beds of scarlet sage and vivid nasturtiums around the base lending contrasting color notes, no home could be more attractive. The low, broad porch is inviting while the unique roof line gives an air of distinction which would permit this model to grace even the most exclusive of suburban sections.

ASBESTOS

The Permanent Building Material

When you are going over the figures for buildings, you want, most of all, to specify material that will require the least amount of attention. In short, you want to obviate REPAIRS—use "Asbestoslate" shingles.

With the "Asbestoslate" you construct a roof or side wall that is weatherproof, will not admit rain or moisture, cannot burn or carry fire and is not affected by sudden change of weather. You provide a roof that will practically last forever without repairs or patches. A roof that will never require paint.

Besides all these desirable qualities, the use of Asbestos allows a decorative treatment unsurpassed. You get strength without bulk, permanence without expense, and beauty as well as economy.

We have some interesting illustrations showing Asbestos shingles used in many types of buildings. Write us today for complete information.

STILL AFFECTED BY 'TIGHT' MONEY

Canadian Market Dealings Continue Within Comparatively Narrow Limits.

(Financial Post)

There was again a complete absence of stimulating feature to relieve the monotony of stagnation, which has been characteristic of the Canadian stock markets throughout the past few weeks. Trading continues within comparatively narrow limits, and stocks have for the most part sold consistently at low levels.

The credit stringency is the restraining element. The tightness of money continues unabated. The funds of banks are being called upon to the limit these days for the purposes of the Canadian crops, and there is no surplus available for the investor or speculator. As long as present conditions prevail no bullish development on the stock market can be looked for, and there is much speculation now as to the duration of the present situation. No relief is anticipated, until substantial progress has been made in moving the western crops, and for this reason it appears improbable that bullish developments on an extended scale will materialize until the latter part of the year.

The Montreal exchange has been consistently dull throughout the week, while minor flurries of short duration served to infuse a slight animation into the Toronto market. The sentiment appeared to run in favor of the purely investment features, and for this reason the issues which have subjected to speculative manipulation in the past were not prominent in the active list. Bank stocks received some attention, while the traction issues continued the strength noted last week, and the turnover was again of substantial proportions. Rumors of favorable developments in connection with one or two others was sufficient stimulus to start some activity. Wall Street brightened up under the influence of what was regarded as favorable political developments, but there too the depressing forces continue to exert an overwhelming influence and the advance was not sustained. The temporary gain was not, however, sufficiently pronounced to extend its influence to the local exchanges which were unaffected.

The undertone of the Canadian markets may be considered as fairly satisfactory. It is the common belief that the low price level has been reached, and that any change will be in an upward direction. There appears to be a desire on the part of the public to purchase stocks at present levels, but the money situation is an insurmountable obstacle which has a decidedly curtailing effect upon dealings.

Goodwin's, Limited: Usual quarterly dividend of 1 3-4 per cent. on the preferred shares, payable October 1 to shareholders of record September 21.

Commercial and Financial News

CLOSING LETTERS BY THE CANADIAN PRESS

(By Canadian Press)

New York, Sept. 20—The week on the Stock Exchange began with a resumption of the recent comprehensive inquiry for railroad and oil shares at irregularly higher quotations, various miscellaneous issues also strengthening.

Net gains of 1 to 5 1-2 points were registered by such stocks as Crucible Steel, Atlantic, Writing Paper Preferred, American Tobacco and Mexican Petroleum. Rails fell back on profit-taking in the final hour and some of the specialties, notably leathers list gained a rumors of prospective dividend reductions. Sales amounted to about one million shares, the largest turnover in many weeks.

Events over the week-end,including the enormous expansion of clearing house loans, imposed occasional restraints on the bullish operations of pools. A survey by the Department of Labor showing a decrease in the number of employees of the leading industries in the United States for August may have accounted for the backwardness of steels, equipments and kindred stocks.

Better freight conditions were reported by railroad officials at Western and South-Western terminals, but thees were tempered by advices from the same sections suggesting greater caution in purchases of general merchandise. Financial interests again stressed the need of conservative credits, but this attitude had no perceptible influence upon the call money market which ruled at seven percent. Very little time money was offered, however, except for the shorter periods.

Conditions bearing upon international exchange remained unaltered, save for another moderate rally in British rates. Paris remittances also improved slightly and more gold was received to meet the French obligation in the Anglo-French loan.

Domestic bonds, including rails and Liberty issues, were firm, but internationals moved contrarily. French municipalities made further gains, but the new French 8's and United Kingdom's eased. Total sales (par value) aggregated $12,375,000.

Old United States bonds were unchanged on call.

Hornblower & Weeks wired O'Brien & Williams: "Stocks gave an appearance of extreme strength, due to a good-sized volume and the fact that there were some substantial advances in specialties. Rails were the leaders, among which Southern Railway and B. & O. were prominent. Heavy realizing sales were made this morning, however, and as a whole the market was decidedly irregular in character. Traders were bearish."

DAILY GOSSIP ON THE LEADING STOCKS

Buyers of woollens state that the reduction of 20 to 25 per cent. announced by largest woollen mills in the United States will have little effect in Canada and Canadian mills will not lose. It is maintained by wholesale buyers that prices in the States were far higher than in Canada, and that a 20 per cent. reduction leaves them still as high. Canadian mills are overloaded with orders.

• • •

The advance in Canadian Pacific Railway shares in the half-holiday stock market yesterday was attributed chiefly to the improved outlook for that company's earnings as the result of increases allowed in freight and passenger rates on the Canadian railways.

These come close, in the average, to the average granted to railroads in the United States, and some observers who in the past saw but little ahead for Canadian rails now feel that the outlook is far from being as dark as it was. In fact, the sentiment is that it will not require a great time for some of the Canadian roads to re-establish themselves on a firm, and even comfortable, footing.

• • •

The annual general meeting of the shareholders of the Ogilvie Flour Mills Company, Ltd., will be held in the head offices of the company in Montreal, Thursday, October 14th, at 3 p. m. In common with other flour mills the Ogilvie company has not had nearly as large a production during the year that ended August 31st as it had the previous year. That was owing to the falling down in export orders for Europe, through the Canadian Wheat Board. Fortunately from the earnings standpoint the Ogilvie Company has fully as large an earning capacity from other sources, such as elevators, of which it owns a large number in the West, so that relatively its statement should be rather better than the average of majority of other companies. Little has been heard during the past year of a splitting up of the capital stock of the Ogilvie Company but it is understood that this still forms part of the plans of the company although when it will be carried out still is indefinite.

• • •

Can. Consolidated Rubber: Quarterly dividend of 1 3-4 per cent., payable October on the common stock, payable October 15 to holders of record October 5.

• • •

The usual dividends of 6 and 7 per cent were declared on the common and preferred shares of Asbestos Corporation, respectively thereby putting forward by a quarter expectations of an increased participation in the earnings of the company by the holders of both securities. The common was somewhat prominent in the sales reports of the week-end, firming a half to 90 1-2, while the preferred ruled unchanged in light trading at 100. Earnings of the Corporation, it is stated, are running between 25 and 30 per cent on the common stock. The next declaration of disbursements on the two stocks is due around Christmas and, if precedent is followed, may be increased at that time.

THE TORONTO PRODUCE MARKET

Toronto, Ont., Sept. 20—The grain quotations on the Board of Trade today were as follows:

Manitoba oats, Canadian Western, No. 1 78 1-2c; No. 2 76 3-4c; extra No. 1 feed 75c; No. 1 feed 75c; No. 2 feed 71c, in store Fort William.

CLOSING LETTERS BY THE LOCAL BROKERS

(By Bruneau & Dupuis)

New York, Sept. 20.—We have had an active market today, but apparently the advance has gone far enough to tempt profit taking, and although in the first two hours the market was materially higher than Saturday, it later sold off. We believe that the Republicans successful in November and no matter what one's party may be it is an incontestable fact that our best market's have been in Republican times and we believe that this fact will be the reason for a continued gradual rise until November. Of course, we will have setbacks and upset, but the trend is apt to be upward and market ought to be a purchase on reactions. We think that the rails are going to be the leaders and that they are the things to buy for the time being anyway. We have had a broader interest in the market today than for a long time.

Sales 1,063,000.

(By Breen & Gourdeau)

New York, Sept. 20.—The consistent strength that characterized the market last week was still present at the opening today, nothing having occurred over the week end to offset that condition, and was fairly well maintained throughout the greater portion of the day. The demand was pretty general at the outset and broadened somewhat later. The rails and oils led the market in the day's initial trading, in which the more prominent features included Erie, Reading, Southern Pacific and Mexican Petroleum. The tobacco stocks developed activity and strength around mid-day, followed by the equipment and shipping issues, many of which were advanced spiritedly. The high prices invited profit-taking toward the close of the session, with the result that good sized recessions were shown in a large number of stocks in the final quotations. The tone at the close of the market, nevertheless, was good, and no impairment of its constructive side was reflected. While the indications point to a continuation of the advancing tendency, we still favor holding to a trading position for the immediate present.

Sales stocks, 1,063,700; bonds, $7,832,000.

(By L. G. Beaubien & Co.)

New York, Sept. 20.—Some issues sold up to new high points in the early afternoon, among them being Baldwin and Atlantic Gulf. Other equipments were also strong. Atlantic Gulf is moving up on its oil developments rather than the shipping business. In the last hour profit taking made its appearance in considerable volume and the market receded to some extent. The oil stocks were affected more than the rest which was natural as they have had the most pronounced advances. The rails and coppers also went off, the latter being affected by trade reports of a price decline for copper metal. Money was unchanged, remaining easy, so that there were no developments to unsettle the market and the mild reaction which took place was largely technical.

MONTREAL EXCHANGE

(By Canadian Press)

Montreal, Que., Sept. 20 — The heaviest day's trading for weeks past was recorded today with a total of 27,000 shares and of this Brompton took up the major portion, establishing a new high record at 85 in early dealings, but in the afternoon sent off the price to 82 with closing point 83, down a point from Saturday.

The Spanish River issues shared conspicuously in the activity, the common netting a gain of 2¾ points at 122¾ after selling up to 123¼ and the preferred shaded its day's best at 129 to 128½, a net gain of over two points.

Abitibi advanced to 84½ and closed at 84, up half a point; Laurentide netted a gain of a point at 118½ after reaching 119. The recently listed St. Maurice Paper continued up, establishing a new high at 158, netting three points from Saturday, but Howard-Smith Paper was the most spectacular, breaking into fresh ground at 167 or nine points up, the last appearance on 'change.

Breweries common displayed outstanding strength on the morning board, but advancing 2½ points to 69 and later receding on profit-taking to 67½, a gain of a point.

Atlantic Sugar selling ex-dividend 2½ per cent., rose to 144 and ended at 143½, a net gain of over five points, cumulative dividend. Today was the last day on which the privilege of converting the preferred issues in common with benefit of the dividend could be taken advantage of.

Total sales, 27,900 shares; Bonds, $6,900.

Ribs, September $17.70; October $17.80.

What "Redistribution" will Achieve

Since the outbreak of war, more than $2,000,000,000 of Canadian War and Victory Loan Bonds have been issued.

Due to war time pressure, these bonds were, of necessity, hastily placed. Consequently, some of them are now in the hands of those who are unable to retain them as permanent investments, and contributions to the floating supply are therefore made from time to time.

With the redistribution now under way, these bonds are reaching the hands of those who plan to hold them until maturity. As a result, the floating supply should gradually diminish.

At existing prices, the securities of the Dominion of Canada can be bought to yield an interest return higher than ever before obtainable in the history of Canada. The 1934 maturity, at 93 and interest, yields 6¼%, while the 1933 maturity (tax free) which we recommend to those with incomes exceeding $6,000 a year, at 96½ and interest, yield 5.87%.

Mail your order or write for particulars.

Want to Quit Tobacco?

If you want to quit tobacco or to use less, get a package of Nicotol tablets from your druggist. You will be surprised how easy it is to quit. Nicotol drives nicotine from your system and kills the craving for tobacco, and lo! the tobacco habit quits you. All druggists are authorized to sell Nicotol under a steel-bound money-back guarantee, so it costs you little to quit and nothing if Nicotol fails.

Note—Ask your druggist what others say about the wonderful power of Nicotol to break the tobacco habit. He knows and he can be trusted to tell you the full truth.

Godbout, while the groom was attended by Mr. Lucien Frigon. Mr. and Mrs. Savard left by the C.P.R. for Montreal, New York, and other American cities.

At The Theatres

Lazaro Will Sing Twice at the Auditorium in October

WILL SING ON MONDAY OCTOBER 4th, IN AIDA, WITH CREATORE GRAND OPERA, ALSO WEDNESDAY OCT. 6th IN RIGOLETTO

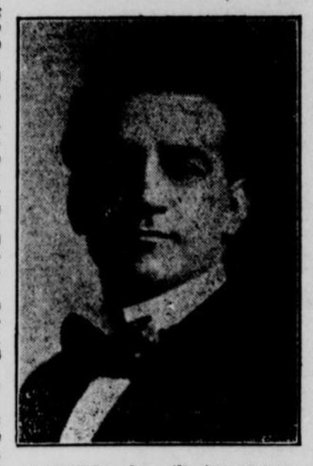
Quebec is awaiting with anticipation of keen enjoyment, the coming at the Auditorium in October, with the Creatore Grand Opera, of Lazaro the noted singer.

It had originally been arranged that Lazaro was to appear only once, with the Creatore Grand Opera Company, but after a continued correspondance and a considerable addition to the price set upon, Lazaro has arranged to sing on two different occasions at the Auditorium during Grand Opera Week; he will sing first on Monday evening, October 4th, appearing in "Aida". He will then sing on Wednesday evening in "Rigoletto," his two most pronounced successes.

Prices for these two evenings, on which Lazaro will sing with the Opera, will be as follows: Boxes, $5. Orchestra $4 and $3.50; Balcony $3 and $2.50; gallery $2 and $1.

On the other performances of the Creatore Grand Opera company at the Auditorium during the week of October 4th, prices will be as follows: Boxes $3.50; Orchestra $3; Balcony $2 and $2.50; gallery, $1 and $1.50.

Tickets will be on sale Thursday at 10 o'clock in the morning, at the Auditorium box office.



LAZARO, who will sing at two performances of the Creatore Grand Opera shortly at the Auditorium.

Picture and Music Supreme at "Allen."

The management of the Allen Theatre have exceeded all previous efforts to make "Gala Week" a week of popular approval, and judging from the crowded and appreciative houses that greeted their amusement "different" the efforts were not in vain.

The super picture "The River's End" has all the substance that make the movie the most popular pastime in the world. The picture is Canadian in locale, story, and action, and the numerous stars were never seen to better advantage.

The musical tableau "Autumn" by the Allen Concert Orchestra and Mr. Arthur Blaquiere, Bass Soloist—was even more beautiful, and astounding than expected, and, as one patron was heard to remark "If this is the class of entertainment presented by the 'Allen' you can count me as a regular patron."

Robt. Warwick and Herb. Rawlinson in Double Bill at the Empire Theatre

Robert Warwick as a soldier of fortune in the diamond fields of South Africa is the hero of a rather striking photoplay "Thou Are The Man" which opened a three days' engagement at the Empire yesterday. An insight into a cleverly conducted though illegal business is given in the story, which presents the hero in the role of an ex-convict, who goes to prison in order to shield a girl. The picture abounds with romance and adventure. The Hebert Rawlinson picture is a fascinating detective story taken from the official records of Chief Detective Flynn of the U.S. Secret Service, and is therefore founded upon actual facts. It is a mystery drama of high order and makes a fascinating screen play. A Strand Comedy and the Screen Magazine complete the program which will be shown again today and tomorrow.

SELL AMERICAN CAMPS IN FRANCE

Methods Used in Disposing of The Large Stocks Are Explained

Paris, Sept. 20 — It has been persistently suggested that large American camps in France, consisting chiefly of motor cars and accessories have been sold en bloc to private persons without inviting public offers. Therefore, it seemed desirable to ascertain the truth about the methods employed in disposing of these large and valuable stocks and, accordingly, Charles Brousse, who is in charge of these sales, was consulted.

"Certainly," he declared, "these sales are not effected without notice being given. It is only necessardy to open ony French journal of any importance and you will find an advertisement relative to the liquidation of these stocks. We seek to obtain the best price possible. There are three methods which we have adopted. First, there is the method of sealed offers, the goods going to those who offer the highest price. Second, there is a freer kind of bargain. Third, there is the sale by auction. The goods that still remain are being disposed of in all three ways. Each has its advantages and its inconveniences.

Selling to Highest Bidder.

"When sealed offers are received, the state is obliged to sell to the highest bidder. Now it often happens that the bidders come to an understanding among themselves, and the state is, thereupon, forced to sell at prices inferior to the real value.

"Sale by auction is often impracticable when there are large quantities of goods which should be got rid of quickly. In certain camps constructed upon marshland the goods lose something of their value everyday. Moreover, the sale by auction gives us little guarantee that the material is really disposed of, since delivery is not always taken. In one camp alone there were more than 2000 buyers who refused delivery in consequence of the fall in prices.

"All the goods have been valued by experts. We have then no reason when a large buyer proposes a price superior to that fixed by our experts to refuse the method of free bargaining.

"The idea that such buyers are probably favored is of course resented. There can be no corruption if the valuation has been seriously conducted and this does not seem to be open to doubt.

"The sale en bloc also offers the advantage of being guaranteed by one or several banks. Further, no contract above 1,000,000 francs is signed by the Undersecretary of State without the consent of the Sales Commission.

"This Sales Commission is composed of deputies and of specialists who are altogether independent of the administration. It was the commission which recommended the liquidation en bloc of certain stocks. The reason was that the liquidation had reached such a point that goods of the best qualities had all been sold and it was better to take a round price for the rest.

In Interest of State.

"These sales are in the interest of the state. There had been placed to the credit of the 1920 budget the figure of 2,000,000,000 francs as an estimate of such receipts. But already we have sold goods or 2,900,000,000 francs, and we hope soon to bring th amount to 3,000,000,000.

"What happens is that we send our circulars to all interested persons and to all chambers of commerce indicating the quantity and the quality of the goods to be sold. There is no question of favoritism. In this way we have obtained an excellent price for the large stocks or oil which were in the camp of Givres.

"As for the smaller buyers we receive their offers and deal with them quite fairly. Indeed, at the same time as these sales en bloc are taking place there are also auction sales."

"CORNS"

Lift Right Off Without Pain

Don't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

BEST IN THE WORLD DECLARES VAN WIE

Three Bottles Of Tanlac Freed Him Of Ten Years Of Troubles States Toronto Man.

"After my experience with Tanlac, I don't hesitate to pronounce it the best medicine in the world," said John A. Van Wie, of 101 Coady Ave., Toronto.

"For fully ten years I suffered from the worst kind of indigestion, and in spite of all I could do, steadily got worse. Nothing tasted right to me and I dreaded to eat anything at all because it always soured on my stomach and formed gas that bloated me up till I was in perfect misery. The pain in the pit of my stomach at night was so severe I could get but very little rest, and what little sleep I did get seemed to do me no good.

"My liver was all out of fix and I frequently had frightful dizzy spells when black spots would swim before my eyes and I had to grab hold of something to save myself from falling. I dropped down from a hundred and sixty to a hundred and forty-two pounds in weight, and became so weak I could hardly drag around, I just felt tired and worn-out all the time.

"So many people told me to try Tanlac that at last I bought a bottle, and I want to say it was the best thing I ever did for it very soon fixed me up in fine shape. I never had such an appetite as I have now, and I'm never bothered a particle with indigestion or dizzy spells.

"I have already gained thirteen pounds in weight and am feeling as fit as a fiddle. I sleep like a log the whole night through and get up in the mornings feeling just fine. In my opinion, there's nothing equal to Tanlac."

Tanlac is sold in Quebec by Jolicoeur's pharmacies and by Martel & Dion and in Levis by Maurice Dion, under the personal direction of a special Tanlac representative.

BY-LAW NO. 37.

By-law Concerning the Maintenance of Order and Peace.

(Drawn up in the French Language)

At a meeting of the City Council of the City of Quebec, held on Friday, the 17th day of September (1920), the following By-law was read for the first time.

It is hereby ordained and enacted by the Municipal Council of the City of Quebec and the said Council ordains and enacts:

1. It is expressly forbidden to all children of less than sixteen years of age, to ramble, to loiter, play or go out on streets, lanes and on public places, or on any vacant lots in summer time after nine of the clock in the evening, and after eight of the clock in the evening, in winter time, until five o'clock in the morning, on the following day, without being accompanied by either the father, mother, brother, sister or master or mistress.

2. Every infraction to any of the dispositions of the present By-Law shall be punished, on being condemned before the Recorder's Court, to a fine not exceeding $40 and in default of payment of the said fine and costs, to an imprisonment for a space of time not exceeding two months.

Public Notice.

is hereby given that in conformity with the dispositions of the law, the above By-law shall be read a second time for adoption, on Friday, the 1st day of October 1920.

By order,

At a meeting of the City Council of the City of Quebec, held on Friday, the 17th day of September (1920), the following By-law was read for the first time.

It is hereby ordained and enacted by the Municipal Council of the City of Quebec, and the said Council ordains and enacts:

The two following articles are added after article 49 in By-Law No. 33, passed on the 20th of April 1917, to wit:

49A Learmonth Avenue—a street from Moncton Avenue going eastward, formed by lot 92-33 of the cadastral plan of the parish of Notre Dame of Quebec, Banlieu, measuring 40 feet in width by about 311 feet in length, which shall be in future named "Learmonth" Avenue.

49B Lemesurier Street—A street from Moncton Avenue running Eastward, formed by lot 92 sub-division 25 of the cadastral plan of the parish of Notre Dame of Quebec, Banlieu, measuring 40 feet in width by about 301 feet in length, which shall be named in future "Lemesurier" street.

Public Notice.

is hereby given that in conformity with the dispositions of the law, the above By-law shall be read a second time for adoption on Friday the 1st of October, 1920.

By order,

H. J. J. B. CHOUINARD,
City Clerk.
