## LOCAL EMBELLISHMENT CAMPAIGN CLOSES WITH AWARDING OF PRIZES

**Ald. Charles Bourassa Presents Cups to Winners in Outremont Contest—Preservation of Civic Property Greatly Enhanced by Annual Drive.**

The recent Outremont Embellishment Campaign officially came to a very successful finale this year, and the decisions of judges made known to the winners in the beautifying contest. A full report of this year's campaign was not available other than the names of the lucky contestants, but it is heartily anticipated that the benefits derived from this drive will be nothing short of the effects of last year's contest.

In the North Ward, the two winners were: W. C. Reeve, 230 Bloomfield avenue, and R. Gordon, 5662 Hutchison street, The South Ward: J. O. Dandurand,

50 Maplewood avenue, and Tancrede Payette, 30 Hazelrood ave. The West Ward: Paul Beique, 615 Dunlop, and Fred Trudeau, 625 Dollard.

In every case the above contestants well qualified for the prizes given by Ald. Bourassa, firstly in following closely the rules of the contest, and by the example to others to maintain the civic beauty of the City.

Further figures will be posted later on the results of this campaign as regards city property, and the preservation and care exercised by citizens, made possible through the present Embellishment Campaign.

## DISPLAY DRAWS LARGE CROWD

**Many Assemble to View Civic Playground Demonstration**

Several thousand spectators assembled on Fletcher's Field this week to witness an interesting exhibition of brawn and muscle in the youth of a section of Montreal at the annual physical display of the boys who have been training this summer on the civic playgrounds. This event marked the official closing of Montreal's civic playgrounds for this season.

For more than two hours, a score of boys, the pick of those who had been training this summer, went through the various exercises. These ranged from bar exercises to jumping and pyramid formation.

At the close of the display, Peter Bercovitch, M.L.A., and Ald. Joseph Schubert were called upon to address the crowd. Mr. Bercovitch complimented the boys on their excellent showing and stressed the value to them in after life of the work they were doing.

Alderman Schubert declared he would endeavor to have the city appropriate more money for the promotion of playground work.

The cup winners were Kodophe Korjes, first; Sam Gilman, second; Mendal Rocuenger, third; Michael Recarey, fourth; Izzie Jansky, fifth; Bernard Schillap, sixth; the Scotty brothers, seventh; David Musovitch, eighth; Mose Feldman, ninth, and Iof the event.

## Poison Taken Proves Fatal

Mistaking a bottle of carbolic acid for a headache lotion cost Joseph Levine, age 60, of 720 Querbes avenue, his life, for he had swallowed some of the acid before he discovered his mistake and died in the Royal Victoria Hospital later.

At the inquest Mrs. Levine stated that on Friday evening her husband seemed to be as usual. He had been suffering from severe neuralgic pains in the head, for some time. He went to bed and an hour later she heard him call for some water. She went to the bathroom and found him unconscious. He had apparently gone to the medicine chest in the bathroom to get some medicine for his headache and had taken the carbolic acid bottle by mistake. A verdict of accidental death was returned.

Society today consists of a number of widely-scattered ostriches which, with their heads buried in a patch of sand, are exclaiming in a muffled tone that theirs is the only patch of sand which it is really worth while for anybody to bury their heads in.

An accident prevention association sends us a bulletin all about the safe way to crank a car by hand. Evidently they still do that in Toronto.

Schaeter, tenth. Izzie Potofsky, instructor on Fletcher's Field, was in charge

## GASOLINE STOLEN FROM BUILDING

Ninety gallons of gasoline disappeared with four men who broke into a building now being erected at Cote des Neiges Road and Van Horne avenue, by the Local Construction Company, of Iberville St. They threatened the watchman, George Farnham, with revolvers and locked him in the building, and by the time he had freed himself, the robbers had made off with the 90 gallons of gasoline. The police have no clue as to the thieves.

## TRAM SERVICE TO MOUNT ROYAL TO BE IMPROVED

**Tramways Commission Agree to Substitution**

At a meeting of the City of Montreal, of the town of Mount Royal, and of the Montreal Tramways Commission, Thursday morning, it was agreed to the substitution of a tramway line on Jean Talon avenue to replace the old one on Beaumont street, as the best means of improving communications between Mount Royal, Park Avenue Extension and the down town section of Montreal.

The city was represented by: Aldermen Allan Bray, Alfred Mathieu, W. S. Weldon and J. M. Savignac, members of the Executive; Ald. Zenon Lesage, representative for St. John Ward; Ald. W. H. Biggar, leader of the Council, and J. E. Blanchard, engineer-in-chief; while the Town of Mount Royal was represented by Mayor Darling, J. F. St. Cyr, chairman; J. S. Archibald, and Paul Beique, commissioners; A. Duperron, engineer, represented the Montreal Tramways Commission, while the company was represented by K. B. Thornton, general manager; R. N. Watt, assistant to the president, and D. E. Blair, general superintendent.

## The Weekly Boost

For thirty-five cents last week a resident of the North End sold a dining room suite, three odd chairs and hall furniture. She had wisely telephoned the "Classified Department" of the "Examiner" and inserted a small advt. in the paper and by the end of the week all the articles were disposed of. Try a "Want" ad the next time you have anything to sell or want to rent those vacant rooms. Phone CRes. 0157.

## INCREASE SHOWN IN OUTREMONT VALUATION AT COUNCIL MEETING

**Ald. E. W. Sayer and Ald. Ernest Pitt Vigorously Oppose Increase in Taxations—Present Depression Cited as Reason—Increase of \$228,000 Shown in Report.**

The increases in Municipal valuation of property in Outremont of some 38 properties of the city was cast into open dissension at a meeting of the Council Wednesday night.

Preliminary discussion failed to satisfy either the council or protesting citizens affected by the increase, and a one hour adjournment was called for mutual discussion of the valuations in question.

Alderman Pitt and Sayer objected vigorously to any increases for reasons relative to the present depression.

Several motions that the present valuations be maintained were won by these aldermen, while alternative cases were passed, only after considerable dispute.

Each of the 38 proprietors was heard by the council and gave his reasons why the valuation should not be increased.

Total valuation of taxable and non-taxable land and buildings in Outremont is now \$51,098,723, of which \$9,258,981 is non-taxable. This represents an increase of \$228,053 over last year's report.

Routine business was proceeded with by the council after the assessors' report was adopted. Mayor Beaubien was in the chair, and the aldermen present were: Ald. Ernest Pitt, Ald. Charles Bourassa, Ald. E. W. Sayer, Ald. J. Gillette, Ald. Emile Vaillancourt, Ald. Geo. Pratt, Ald. A. Dansereau, Ald. J. D. Hudson. The meeting was adjourned at 1 o'clock in the morning.

## Local Resident Killed in Crash

One girl was killed and her two companions injured early last Sunday morning, when their car crashed into a parked car on Park avenue between Rachel and Marie streets.

The victim was Miss Florence Kotler, 19, 5874 Esplanade avenue, whose death was attributed to a fracture of the skull and internal injuries. Her two companions Cecil Levy, 22, 5754 Park avenue, and Lena Marks, 22, 6474 Hutchison street, suffered severe cuts on the head and body.

Levy was driving his car north on Park avenue when he swerved to the right to avoid a collision with an approaching auto and crashed into a truck which was parked at the side of the road. Miss Kotler, who was sitting in the front seat, was thrown against the windshield and instantly killed, while Levy and Miss Mark were cut by flying glass. Passing motorists took the three to the Western Hospital. Miss Kotler, who was pronounced dead by the medical authorities, was taken to the morgue while her two friends were given treatment and removed to the Royal Victoria Hospital. A verdict of accidental death was returned by the coroner on Monday.

The trouble in England is that sport is playing far too big a part in the lives of its men and women.

## FRENCH STUDY ON INCREASE

**W. A. Walsh Announces Two New Scholarships**

The study of French will be greatly emphasized in the Outremont Protestant schools during the coming year, it was announced this week by W. A. Walsh, principal of Strathcona Academy.

Two sets of scholarships have been established in the schools to encourage pupils to become bilingual. In 1921, Alfred Joyce, who died recently, founded a trust fund providing an annual income of \$100. The annuity is divided into four prizes of \$25 each. Two are given to pupils of the Alfred Joyce school, and two to pupils of Strathcona Academy.

The scholarships are given to the boy and girl who make the greatest progress in the study of French during the year, and have the necessary qualifying per cent of 85.

A similar fund has been established in memory of Capt. Guy Drummond providing six prizes of \$10 yearly for students in Strathcona Academy and the Guy Drummond School.

It beats all how governments are casting about for additional revenue these days. And usually they manage to hook the taxpayer.

## The Ban On U.S. Publications

This week the new taxes on American magazines and newspapers went into effect. Although no one apparently knows what the details of the new duties are, the principle of the thing will be applauded by most thinking Canadians; that is to say, it will be applauded now that the better class of publications are not to be affected. The original intention of the government was to levy a heavy impost on all publications entering the country—so heavy, in fact, that in many cases it was prohibitive. The Saturday Evening Post, for example, would have cost something like fifty cents a copy. This, however, was too obviously an attempt to pander to a group of Canadian publishers, and did not consider the reader's desires at all. In view of widespread protest, the ruling was changed, and now only those publications which are cheap in character, sensational, suggestive and so forth are banned. In other words, the morals of the people are to be protected rather than the dividends of the publishers. Few will now object to the ruling; it is only to be regretted that many of the publications on the list were not banned altogether. Some of the confession magazines, the tabloid newspapers, some of the "art" magazines and the racing tout sheets are not fit for the people to read. The people, however, are not, collectively speaking, too discriminating in their choice of reading matter and action by the government is, unfortunately, necessary.

## Character In Business

Adversity brings out strength of character, and this applies to business as well as to the individual. The present world-wide recession of business has served to show the character of the men behind our largest institutions. An example of this was furnished last week by the action of the employees of the firm of Jas. A. Ogilvy's, Limited, in voluntarily offering the management an extra half-hour's work each day in return for the fair dealing they had received at the hands of the management during the period of depression. Most of the other large department stores in the city have cut salaries to compensate for loss of revenue and many have laid off men and women. The Ogilvy Company is one, however that recognizes a duty to its employees in times of stress, and this consideration has been more than appreciated by them.

### FAIRMOUNT-ST. GILES NOTES

Next Sunday, September 6th, the Fall and Winter work in connection with the Fairmount-St. Giles Church, Outremont, will open under the direction of the recently appointed pastor, Rev. Burton H. Robinson, M.A. At both morning and evening services, Mr. Robinson will be the preacher and special music will be furnished by the augmented choir under the direction of A. J. Binnie, organist and choir director. Two new soloists have been appointed, Mrs. McAuslane, soprano and Mrs. Mills, contralto, both of whom will sing at Sunday's services. Under the new auspices now existing in Fairmount-St. Giles, a successful year's work is anticipated. Mr. Robinson has already conducted several services in his new charge during the month of July and has thus

obtained a preliminary insight into the work which is an extensive one—the church membership being well over one thousand and a Sunday School of approximately eight hundred. The institution is under the superintendency of Roy P. Bissell, B.A., with an able staff of assistants and teachers. The various other organizations associated with the church will resume activities during the next fortnight.

The Executive of the Sunday School of MacVicar Memorial Presbyterian Church extends a very cordial invitation to all young people who may be new residents of this part of the City and not connected with any other school, to take advantage of the privileges afforded by MacVicar Memorial in all the departments of a Bible School.

### MacVICAR CHURCH NOTES

The Executive of the Sunday School of MacVicar Memorial Presbyterian Church extends a very cordial invitation to all young people who may be new residents of this part of the City and not connected with any other school, to take advantage of the privileges afforded by MacVicar Memorial in all the departments of a Bible School.

## COMMISSIONERS KEEP TEACHERS

### Same Staff to be Retained at Local School

Parishioners of St. Michael's have reason to rejoice at the recent privilege of the School Commission in permitting the same staff of teachers to remain this year at Luke Callaghan Memorial School.

And there is further cause for gratification in the announcement made from the pulpit by the Reverend Father Singleton that the Mother General of the Order of Sisters of St. Anne had re-appointed the same staff of teaching religious, for the various grades, as had accomplished such magnificent results in the year that ended last June.

Nothing succeeds like success. If St. Michael's people take this as a criterion of value they will be anxious to see past performances repeated in the case of this year's students. Parents play a most important part in school work, their co-operation may, to a great extent, make or mar a fruitful term. The outcome of this experiment which the Commissioners have agreed to will have an important bearing on education as a whole, being likely to lead to the establishment of the Luke Callaghan Memorial School as a permanent seat of higher learning and a feeder for the universities.

It is said that a shiftless transmission for the automobile has been invented. Now what is needed is to get rid of the shiftless driver.

Class hatred is rapidly dying out, because more and more people realize that there is only one class.

## PASSION PLAY TO BE SHOWN AT FORUM IN SEPT.

### Unusual Interest Being Shown in Religious Drama

#### BIBLICAL

### Georg Fasnacht, Sr., Au- gusta Fasnacht and G. Fasnacht, Jr., in Cast

Unusual interest is shown in the coming of the original "Freiburg Passion Play" to the Forum, the entire week of September 21st, with performances every evening and on two afternoons. The opening scene will be enacted promptly at eight o'clock each night and at two fifteen in the afternoons.

George Fasnacht, Sr., who portrays the role of Judas admits that he likes the part better than any other in this sacred and sublime drama, but he feels that the character is greatly misunderstood. Judas was an idealist and not a man of intriguing nature. This was proven by his great remorse, directly following his grievous error in betraying on impulse, the Saviour. That he was tempted in a moment of weakness may be readily understood, but when he considered the enormity of his sin, he took his life by his own hand.

Two characters of this biblical pageant which hold the interest of the awe-enthralled spectators, are those of the Christus and Mary the Mother of Jesus. The portrayal of the Christus is entrusted to Georg Fasnacht, Jr., who gives to it a beautiful and finished interpretation necessary and quite in keeping with the quiet restraint traditionally associated with the character. Mary the Mother is enacted by Augusta Fasnacht, who in real life is the mother of Fasnacht, Jr., who plays the Christus. Mrs. Fasnacht first portrayed Mary thirty-one years ago, and is said to give the part a sweetness, marvellous in the interpretation of the role.

The large company of players all have their part to do and from advance information perform same in a painstaking and altogether satisfying manner. The exact replica as to scenic investiture, historically correct costuming and armor, and other electrical prismatic and lighting ef-

### PARK AVENUE FIRE CAUSES DAMAGE

Fire broke out in the basement of the residence of Dr. O. Marcuse, 5334 Park Avenue at 11.05 Tuesday night, which was discovered by a passerby who rang in the alarm to the Laurier Fire Station.

The fire was soon under control after three streams of water were poured into the blazing cellar. Considerable damage was reported. No casualties are said to have occurred, as the occupant of the house succeeded in getting out at the outbreak.

## OLD QUESTION AGAIN REVIVED

### M. M. L. to Urge Compul- sory Lights on All Vehicles

Compulsory lights on all horse-drawn vehicles throughout the province will be the principal plank in the platform of the Montreal Motorists' League to be placed before the Hon. L. A. Taschereau at the next session of Parliament. Several requests for amendment to the Motor Vehicle Act are now being prepared by officials of the League and the question of compulsory lights is the one that will be given the most attention as all authorities on the subject are unanimous on its importance. Mr. Charles Fyon, president of the Montreal Motorists' League, tages that this amendment has been asked for from the provincial parliament for many years, but on account of the heavy and continuous objection on the part of the cartage companies in Montreal the request of the motorists has always been turned down.

Motorists object most strongly to horse drawn vehicles being allowed on the road without a light, and from the standpoint of safety alone it is difficult to see why the drivers of these vehicles do not equip them with lights for their own protection. A strong campaign will be carried out through the coming winter by the League to have this law made compulsory throughout the entire province.

In the opinion of federal and provincial governments, this is a good time for the red agitator to take a holiday.

facts will be used in the local presentations at the Forum. It is now certain that over one thousand people will participate in this world-wide historical and biblical presentation.

Already preparations are being made on a scale never before attempted in Montreal and the vast number of supernumeraries will be carefully rehearsed in their respective parts. The Montreal presentation is sponsored by the Canadian Musicians Benevolent and Educational Association and many local charities will benefit. Owing to the religious nature of the presentation great interest is being shown in the church circles and already many of the local religious societies are arranging for large quantities of tickets.

## Social & Personal

The marriage is taking place in St. Paul's Anglican Church, Vancouver, B.C., on the 18th, of Marion Lenora, daughter of Mr. and Mrs. W. F. Irwin, of Vancouver, to Mr. Ian Douglas, son of Mr. and Mrs. Gordon Douglas of Mount Newton, Cross Roads, Saanichton, V.I. Miss Irwin and her fiance are both graduates of the University of British Columbia, and the former, after graduating there, came to Montreal to attend McGill University, where she received her Master of Science degree in bacteriology.

The marriage of Miss Isla Stephanie Morton, only daughter of Mr. and Mrs. Robert R. Morton, of Outremont, to Mr. Ernest Leslie Miller, eldest son of Mr. and Mrs. Ernest E. Miller, of St. Catharines, Ont. took place quietly Tuesday morning in the Church of the Ascension, the Rev. Norman Egerton, of St. Luke's Church, Waterloo, officiating. The bride was given away by her father. Both bride and groom were unattended. Following the ceremony Mr. and Mrs. Miller left for Toronto, Niagara Falls and Buffalo. On their return they will reside in Montreal.

The wedding took place very quietly in the presence of immediate relatives only, on Saturday evening, August 22, at eight-thirty o'clock at the residence of the bride's mother, of Muriel Stuart, daughter of the late Mr. R. A. Eaton and of

Mrs. Eaton, of Outremont, to Mr. Walter Drummond Burgess, son of the late Mr. W. D. Burgess and of Mrs. Burgess, of Montreal. The Rev. C. G. Smith officiated at the ceremony.

The bride who was given in marriage by her brother, Mr. Lorne H. Eaton, was unattended. Immediately following the ceremony Mr. and Mrs. Burgess left for New York and Atlantic City. Upon their return they will reside in Montreal.

The Rev. Dr. and Mrs. Potter have returned to the city from Toronto where they were the guests of Mr. and Mrs. Grant Potter during the latter part of August. Dr. Potter will occupy the pulpit of MacVicar Memorial at both services on Sunday.

# RHEUMATISM

## Constitutional and Nervous Disorders

**Asthma, Arthritis, Bronchitis, Catarrh, Cramp, Constipation, Debility, Deafness, Eyesight, Facial Nervous Contractions, General Weakness, Gout, Head Noises, Headaches, Hayfever, Incontinence of Urine, Insomnia, Indigestion, Irregular Blood Pressure, Muscular Aches, Lumbago, Menstrual Irregularities, Nervous Exhaustion, Nervous Debility, Neuritis, Neurasthenia, Paraplegia, Paralysis Agitans and Infantile, Sexual Weakness, Stammering, Sciatica, Wrinkles, etc.**

### Explanation of the Treatment

Nevertheless hundreds of newspapers from Europe—Latin and North America, including some of Montreal, have written about Endonasal Reflex Therapy, many interested people do not know what it is. Thousands of letters and telephone calls we have to answer and to save ourselves this work, we will explain in a few words our treatment. We do not use Electricity nor Massage or Diathermia, neither X-rays or Ultra Violet, nor Infra Red. Our method, known since 1926 as Endonasal Reflex Therapy, is a simple stimulating of the Nervous system, producing at the same time a normal Blood circulation. Stiffness or paralysis produced by rheumatism disappears, and so far as nervous disorders are in a very high

percentage the cause of many other diseases, it will be in a short time the preferred method to cure illnesses printed at the top of this curcular, and mentioned in the testimonials published in the same.

We repeat: No electricity or massage, and it is not Chiropractic.

The Stimulating is painless and harmless and children from two years on are treated without any difficulty.

"La Presse" of Montreal, May 29th, 1931 — "The Standard" of May 30th, 1931 — "Le Petit Journal" of May 31st, etc., give an exact idea of this method.

It is extremely quick, without the least pain and the results are generally practical and instantaneous. In the past five years over 75,000 patients have been treated with good results, and in all this time, for not one patient was it necessary to repeat the treatment.

**REFLEX-THERAPY** is not only good **FOR SUFFERERS**, but also **FOR HEALTHY PEOPLE**. Amongst 75,000 patients treated, there were over 20% between 50 and 90 years and without exception all feel as if they are 20 years younger.

### IMPORTANT

The "Ligue Internationale Contre le Rhumatisme" recommend in their "Acta Rheumatologica" of September 1930, **REFLEX THERAPY**, stimulating of the nerves and the vaso motor for sufferers from Rheumatism in all its forms, Lumbago, Sciatica, Arthritis, Acute Rheumatism, Chorea, Muscular Rheumatism, Chronic Rheumatism, etc.

The headquarters of this league are 489 Keizersgracht, Amsterdam, Holland. The committee is composed of the following well-known physicians:

Dr. R. Fortescue Fox, President, London; Prof. Dr. Dietrich, Ministerial Director, Vice-President, Berlin; Dr. H. Forestier, Vice-President, Paris; Prof. Dr. I. Gunzberg, 2nd Secretary, Antwerp.

Chief Editor and Director, Dr. J. Van Breeman, Amsterdam.

Dr. August Boehm, Chief Physician of the Medical Board of Vienna; Dr. G. Danischewsky, Director des Zentr. Staats Instituts for Baederkunde, Moscow; Prof. Dr. M. Kontchavolsky, President Russian National Committee, Moscow; Dr. P. H. van Eden, Amsterdam; Dozent Dr. Freund, Vienna; Prof. I. Gunz-

burg, Director of the Advisory Bureau on Rheumatism, University, Brussels; Medical Director Nils Hellstroem, M.D., Stockholm; Dr. Max Hirsch, Secr. of the Deutsche Gesellschaft for Rheumabekämpfung, Berlin; Privatdozent Dr. Hans Jansen, dirig. Arzt des Physikalisch Theapeutischen Instituts am Bispebjerg - Hospital, Copenhagen; Dr. Gunnar Kahlmeter, Overlaekare Docent, Stockholm; Prof. Kuenen, Holland; Dr. Ralph Pemberton, Philadelphia, Pa.; Prof. Dr. Comm Sante Pisani, Firenze, Italy; Miss van der Putte, Belgium; Dr. L. Schmidt, Puttany; Dr. Cornel Scholtz, Budapest; Dr. Timbal, Brussels; Dr. Matthieu Pierre Wail, Paris; Dr. Bernard Langdon Wyatt, Tucson, Arizona, U.S.A.; Dr. Arnold Zimmer, Berlin.

Mr. Cast Broberg, Stockholm; Prof. A. Kissel, Moscow; Prof. M. Dietrichs, Moscow; Dr. H. Forestier, Paris; Prof. I. Hedenius, M.D.; Stockholm; Dr. Fernand Merlin, Paris; Dr. M. S. Henderson, Rochester; Dr. Paul Holbrook, Tucson; Dr. Robert B. Osgood, Boston; Dr. E. C. Rosenow, Rochester, Minn.; Dr. Homer Swift, New York; and several hundred eminent physicians.

Extract from Monitor

### Endonasal Reflex-Therapy

In addition to the article published in the "Monitor" and in the interest of the general public, specially for sufferers from Rheumatism, Neuritis, Asthma, Deafness, Nervous and Stomach Trouble, etc., etc., we now are in a position to make the following and important statement.

We have controlled and in several cases witnessed during the past week the treatment of about 30 patients (chiefly sufferers from Rheumatism) most of them had been ill for years and some of them were in a very advanced state; notwithstanding that the results were amazing and the Endonasal Reflex Therapy has worked wonders. We are in the happy position to testify that in nine out of every ten cases, the treatment was entirely successful and the others, sufferers from Tabes and Parkinson disease although not totally cured, were relieved to such an extent that they expressed great appreciation on leaving the Institute after the first treatment.

In our publication we stated, that Dr. Jacq. J. Harpman is in charge of the Institute here, which is not the case. He is the discoverer of the Endonasal Reflex Therapy treatment, and is only in Montreal for a short period to supervise the treatment given by established medical men here.

The Institute is on Mountain street, 1517, near Sherbrooke, and we have no doubt that in time many sufferers will acknowledge it as the Lourdes of Canada.

Two or three treatments give a stronger nervous system and also a normal circulation. Women after a few treatments are quite different than before, wrinkles disappear, etc., in one word, **ENDONASAL REFLEX-THERAPY IS A REJUVENATING CURE.**

### These Names and Testimonials are Published ONLY WITH the CONSENT of the PATIENTS

#### PARALYSIS IN BOTH LEGS

I had the beginning of paralysis in both legs and suffered from nervous disorder. I am glad to state that after a few treatments of Endonasal Reflex-Therapy I feel now very well.—Patrick Cregan, 1563 St. Matthew Street, Montreal.

#### WEAK MUSCLES

I can confidently recommend the treatment of Endonasal Reflex-Therapy for weak muscles, debility, bad digestion, and also nervous disorders in view of the fact that I was a sufferer for many years and now completely cured in a few days in the Institute of Endonasal Reflex-Therapy.—Georges Leonard, 1045 Marie Anne, Montreal.

#### RHEUMATISM

Herewith I take the opportunity to express my gratitude for being cured of my chronic rheumatism and nervous disorders by the Endonasal Reflex-Therapy. Before I could not walk because of the pains I was suffering for many years, and now I feel twenty years younger.—W. Martin, 395 Betty street, Montreal.

#### LUMBAGO FOR FOR 3 YEARS

I undersigned, I. A. Lanceault, No. 4871 St. Dominique street, Montreal, have been suffering from lumbago for three years and have been completely cured by Endonasal Reflex-Therapy and allow to make use of this statement. Signed—I. A. Lanceault.

#### HEADACHES

Juliette Thibault, 8036 St. Hubert street, has been suffering from constant headaches, dizziness, great weakness and loss of appetite from early childhood. She has taken 3 treatments, since then she has been free of headaches and dizziness, eats with normal appetite, does not suffer any more with sleeplessness and is now indefatigable. Signed—Juliette Thibault.

#### MUSCULAR ACHES

#### KIDNEY

#### RHEUMATOID

Cregan, 1563 St. Matthew Street, Montreal.

### RHEUMATOID-PAINS

I was a great sufferer from rheumatoid pains in my hands, knees and ankles for the last 9 years. Since I took a few treatments of Endonasal Reflex-Therapy I am absolutely cured and I allow you to publish this statement so that other sufferers may know how to get relief.—Mrs. A. Jones, 5658 St. Dominique St., Montreal.

### RHEUMATISM IN THE NECK

I suffered for a long time from rheumatism in the neck and back and noises in the head and certify that a few treatments of Endonasal Reflex-Therapy relieved me completely from my sufferings.—E. Simard, 5023 Henri Julien avenue.

### EXTREME DEBILITY AND SLEEPLESSNESS

Extreme debility, nervousness and sleeplessness were my trouble for many years. Friends recommended me the Endonasal Reflex-Therapy treatment and I am glad that I tried this because a few applications restored me to complete health.—G. Simard, 5023 Henri Julien avenue.

### RHEUMATOID-PAINS

During 10 years I suffered from rheumatoid pains and catarrh, preventing me from sleeping comfortably. I tried several treatments without any result, but a few applications of Endonasal Reflex-Therapy cured me absolutely.—Mrs. E. White, 1071 Sanguinet street.

### NERVOUSNESS

I am 64 years old and was suffering for a long time from decreasing of hearing, dizziness, nervousness and rheumatism, especially in knees and feet, causing me much difficulty with walking. After a few treatments of Endonasal Reflex-Therapy I state with much pleasure that I feel absolutely normal.—John Duncan, 741 Willibrord Ave. Verdun.

### NUMBNESS IN BOTH LEGS

Numbness in both legs and nervousness were my troubles for a long time and I suffered much. Nothing could relieve me, so I decided to try the Endonasal Reflex-Therapy with the utmost results and I should like to recommend this cure to all sufferers.—Andre Ouellet, 1675 St. Catherine E., Montreal.

Reflex-Therapy—Georges Leonard, 1045 Marie Anne, Montreal.

### CONSTIPATION

About two months ago I have taken four treatments of Endonasal Reflex-Therapy and the results have been very satisfactory. I was a sufferer during 15 years of constipation, pain in back and shoulders and very nervous. Now I feel completely well and allow myself to recommend your treatment and to publish my statement.—Edmond Daoust, 1131 Belanger street, Montreal.

### PARALYSIS OF THE TONGUE

I came to the Institute of Endonasal Reflex-Therapy unable to speak clearly because of paralysis of the tongue, for 4 years and besides I was suffering from rheumatoid pains and swelling of the feet. After the very first treatment I could speak normally, the pains were much better and the swelling was gone.—Mrs. McMahon, 3031 Delisle street, Montreal.

### NOISES IN THE HEAD

After suffering for many years from noises in the head and neuralgia and having tried several treatments without result, I decided to take the Endonasal Reflex-Therapy and certify that after a few treatments I was completely cured.—Mme. Robidoux, 6372 Des Ecoles.

### RHEUMATISM

Since many years I was treated with all kinds of medical products to cure my illness but without any result. Three treatments of Endonasal Reflex-Therapy were enough to restore my health. I have no more pains produced by rheumatism. I sleep well, have a good appetite, do my work with pleasure and am very grateful therefor.—David L'Abbe, 1159 Laguachetiere East.

### RHEUMATISM

After suffering for ten years from chronic rheumatism, I have noticed that Endonasal Reflex-Therapy is a miraculous treatment which has cured me completely. I feel after 4 treatments strong; the pains disappeared. I am not nervous at all, I sleep now well and have a good appetite; the constipation is gone; in one word, I feel renewed.—Louis Sebrecs, 1638 Sherbrooke W.

### CONSTIPATION, SCIATICA, ETC.

The very well known professor Oswald Bernard 68 years old, 3437 Beaconsfield avenue, Montreal, was a sufferer since many years from constipation, sciatica, headaches and decreasing of hearing and sight. After a few treatments of Endonasal Reflex-Therapy he feels normal has no more pains nor constipation and his sight and hearing have satisfactorily improved.

many years, and now I feel twenty years younger.—W. Martin, 395 Betty street, Montreal.

### MUSCULAR ACHES

Mr. S. Cats, 1730 Dorchester Street, Montreal, was a sufferer for several years from muscular aches and stomach trouble. By stimulating his nervous system the result of the first application was that the pains disappeared immediately, and that three treatments proved sufficient to overcome the trouble.

### SCIATICA ON BOTH SIDES

Mr. Clement, engineer, 1250 Guy street, Montreal, had been unable to walk for a period of several months, due to sciatica on both sides. One application, lasting hardly three minutes, brought his complete recovery.

### PARALYSED BY RHEUMATISM

Before

After

M. B., son of a doctor, since 1926 paralysed by rheumatism, came to the Institute of Endonasal Reflex-Therapy with crutches and after one treatment of 3 minutes he was able to walk without aid.

### RHEUMATISM AND STOMACH TROUBLE

I undersigned, Mr. C. Chapdelaine, No. 995 Cherrier street, Montreal, have been suffering from rheumatism and stomach trouble and sleeplessness and have been completely cured by Endonasal Reflex-Therapy and allow you to make use of this statement. Signed. E. M. C. Chapdelaine.

### BRONCHIAL ASTHMA

I was a victim of violent attacks caused by bronchial asthma for 18 years, and thanks to treatment by Endonasal Reflex-Therapy I was absolutely and quickly cured.—L. Bernier, 6550 13th avenue, Rosemount.

### HEARTBURN, SLEEPLESSNESS

Lavaltrie, P.Q.—Owing to unforeseen circumstances, I was compelled to return here yesterday without receiving my fifth treatment. I shall go to Montreal soon again and drop in at the Institute. I am pleased to say right here, that I feel greatly improved inasmuch that I have had no heartburn since my first session, that I have slept very well since last Tuesday, and that my sense of smell has improved to the extent that I am so happy I am almost afraid it shan't last. Kindly accept my thanks for having encouraged me to take your marvellous cure. Yours very truly, Mrs. B. S.

### KIDNEY TROUBLE

Mr. L. Frottier, of the C.P.R., 5311 Park avenue, Montreal, was afflicted by kidney trouble for a long time. After 4 applications of the Endonasal Reflex-Therapy the pains disappeared and he can do his work now without any trouble.

### CONSTIPATION

Mr. James Mancini, No. 7089 St. Valier street, Montreal, was a sufferer of constipation and nervous trouble for 15 years and also the last year from lambo. He told us that after the first treatment the pain stopped. A few treatments more showed that his nervous system was completely normal, he sleeps well, has now a good appetite and his constipation does not give him any more trouble.

### RHEUMATISM

Mrs. Marie Lanceault, 4871 St. Dominique street, was afflicted for several years with articular rheumatism, very painful in back and arms, specially during the night and unable to sleep. Not more than 4 treatments were necessary to restore her and now she is absolutely free of pain and sleeps well. Signed—Marie Lanceault.

### STIFFNESS AND PAIN

Mr. Emile Bodin, 3426 Colonial avenue, was suffering for a long time from stiffness and pain in both knees and continuous pains in the abdomen. After 3 treatments with intervals of one day, he recovered his health completely. He walks normally and the pain in the abdomen disappeared. Signed —E. Bodin.

### RHEUMATISM

Mr. Frank Labelle, 1887 Joliette street was suffering for 5 years from acute rheumatism and for the last 2 months he was forced to remain in bed. He had been subjected to all kinds of treatments without any result. No medicine was able to relieve him. He was helped into the Institute and the first treatment enabled him to walk without aid and after two applications more, each one of 3 minutes, he was completely cured. Signed—Frank Labelle.

### DECREASING HEARING

I am a stenographer and nearly lost my job because of decreasing of my hearing. I tried several treatments without practical result but after a few of Endonasal Reflex-Therapy I am now able to do my work without difficulty.—L. Morvan, 5062 Christophe Colomb street.

### Rheumatoid-Arthritis

Mr. Bennett, 163 Pine avenue, East, has been suffering from rheumatoid-arthritis in his knees for the past 3 years to such an extent that he was unable to do his work most of the time. After three treatments the pain and stiffness completely disappeared and he is now able to walk and perform his work without the slightest pain.

### DEAFNESS

At the age of six I had (in 1910) an attack of meningitis which left me deaf in the right ear. I had decided to go to New York and undergo treatment in the Institute of Endonasal Reflex-Therapy there when, fortunately, I learned in reading your paper that the discoverer of the system was in this city. I took the treatment at the Institute 1517 Mountain street, and hereby certify that one treatment restored my hearing and I could hear in both ears quite normally. Mrs. Lina van Wien, 1730 Dorchester street, Apt. 15, Montreal.

### NERVOUS TROUBLE

Mr. E. Marchand, 6601 St. Andre street, Montreal, suffered for the past 17 years from nervous trouble, deafness and also noises in both ears. He has tried internal and external medicines without any result. The first treatment of Endonasal Reflex-Therapy improved immediately the deafness and after three treatments he was able to hear without any force; the noises disappeared completely and this being the cause of his nervousness, his nervous system is now normal, he sleeps well, has a good appetite and does his work with pleasure.

### NEURITIS FOR TWO YEARS

I had neuritis for two years in my hands and feet, and was unable to walk, but after a few treatments of Endonasal Reflex-Therapy I feel quite different, and, although that I am 90 years old, I walk now like a young man so that I am absolutely satisfied. My daughter had broken her wrist and hurt her shoulder badly so that she could hardly move her arm. I state gladly that after 3 treatments of this marvellous cure she could again use her arm nearly normal.—William Carey, 5437 Jeanne Mance Street.

### ARTHRITIS IN ARMS AND LEGS

An Officer from the Salvation Army suffered from ARTHRITIS in legs, arms and hands, and also Sleeplessness.

I was suffering from arthritis in legs, arms and hands, and was stiff all over and extremely weak. I went to many doctors, and was told that there was no cure for me. I am quite young, and could not resign myself to be a cripple for the rest of my life. I heard from marvellous cures by the Endonasal Reflex-Therapy and as a last hope I went there and now I gladly state that I walk without difficulty, have no more pains and sleep very well. So that other sufferers may know how to get cured, I beg you to publish this statement.—Mrs. Wm. Millar, 663 Chatham street, Montreal.

## LOCAL LACROSSE CLUB GOES DOWN BEFORE OKA INDIANS BY 6-3 SCORE

Outremont Squad Net First Two Tallies—Oka Stages Neat Comeback to Take Lead—Return Match to be Played Shortly.

OKA, Que., (By H. W. Sylvester)—Outremont's much expected hopes for victory last Sunday in Oka against the Indian lacrosse team there, were sullenly upset when the Okians led 6 to 3 at the beginning of the fourth session, and Outremont failed to change the score up to the end of the game.

It was an eventful day at Oka, such as it is when any visiting lacrosse team arrives, and a large number of spectators were on hand.

The Indians played better and harder in this contest to down the visitors and there were no serious complications with any of the players on the field, though the scene did not appear any too tranquil at times. Few injuries were sustained by the players, but these were of a minor nature and did not affect the players' game very seriously. Hard checking and fearless driving for each other's goals marked the game throughout.

### Outremont Scores First

Loose playing was greatly responsible for Oka's first period losses, and the Outremont team outplayed them with well carried out combinations. Leonard and Bohemier playing opposite on the field tossed the ball between each other before the first goal for Outremont was scored. Leonard took a last pass from Bohemier and went through the Oka defence. Angus charged Leonard vainly to stop a shot, but the ball whirled from the Frenchman's stick into the goals. This was the first goal scored in the game, but several minutes after the whistle. It appeared to dwell heavily upon the Indians, for they later tightened up into vigorous play. Lecoq and Morris, both heavy rursing forwards made repeated dashes through the Outremont foursome on defence, but were more often repelled without even a shot. Webster and Joe McCartan guarded the left flank to contend with the strenuous efforts of their opponents on this side of the defence, while C. Langevin and R. Boston acted on right emergencies.

The first goal indeed furnished plenty of initiative for the Indians to retaliate as the opening

set progressed. They felt content at wearing down the speed of their opponents with well executed combinations. These passes generally led Outremont out of position on the field, until at one time when the defence line looked badly depleted, Vincent salted a hard one from the side to even the score.

At this time the game appeared to break into a real struggle for victory, and the daringly made rushes upon both goals by either sides offered a doubtless issue to depend upon. But, Outremont was working gamely for an opening in the lasting minutes of the first quarter and when a breach was made and a quick opportunity showed itself, Leonard was again in the limelight without any assist, and tallied for the second time.

### Indians Take Lead

It was a long road to ride for the Okians to overtake Outremont, as the second period opened, but, apparently the path was very little obstructed as may be judged by the series of counters marked against Outremont.

Never before had this local team taken such a pounding that befell them in the second period of this game, though they fought hard against such a possibility, only to be the losers.

Oka displayed a brand of lacrosse scarcely obvious enough in the earlier part of the game to discomfort Outremont, as they circled the field with cross combinations that baffled their near opponents. Outremont played up to them at the same time, partly neglecting the defence line and left McCartan open for many closely fired shots, until five goals went up against them. Oka led the score 6-3 at the end of this half.

### Outremont Commands Game

Hardly deprived of victory at the opening of the second half, Outremont set out to revive the score in their favor.

It was clear to spectators that Outremont was more eager to get the better of the score. The tricky combinations of the leaders that succeeded so highly but a short while before, were now disrupted and the race for victory seemed entirely dependent

### TENNIS FINALS ARE NOW BEING PLAYED

Stewart Courts are now holding their final tennis tournament of the season.

Due to the return home of many of the club's best players from summer vacations, a rare display of tennis may be seen on these courts.

Upon conclusion of the contests cups will be given to the winners for annual competition.

### Y. W. H. A. NOTES

Miss Bertha J. Merovitz, Summer Vacation School Director, outlined in her report, the work done by the Juniors and Midgets of the "Y" Summer School. Trips to different places, picnics on Mount Royal, nature study walks, dramatics, basketry, handwork, clay modeling, raffia work, sing songs, rhythmic and a swimming treat all combined to make a lovely programme for the children who were in the city during the summer months.

The Summer Vacation School closed on Sunday, August 30th, with a programme consisting of two plays, "The Proud Princess" and "The Enchanted Garden", an exhibition of rhythmic exercises, and sing song, which met with enthusiastic applause. Proud parents and friends viewed the display of handwork including reed and raffia baskets, oilcloth bunnies, elephants and felixes made of cloth, clay models, fancy work and picture frames, prizes for which will be given at some later date. In closing Miss Merovitz thanked the Misses Mary and Elise Vineberg, Clara Stein, Dr. Streat, Mr. Golden of the Y.M.H.A., Miss Helen Park, Mr. and Mrs. Farley, Mrs. I. A. Schlesinger, Miss M. Chananie and Miss N. Goldman.

Much of our youth is spent in learning the virtues of team-work much of our age in refusing to practice that knowledge.

Nowadays when the average American gangster is sentenced it's all over but the appeal and delay and final acquittal.

upon the driving power of Outremont and the retaining strength of the Indians.

Their efforts were very little rewarded in the third period, apart from Leonard who rammed home the third and final counter for his team. Outremont kept Oka to a shut-out, and worked unflinchingly to the end of the last quarter.

Had Outremont showed near the same signs of opposition to Oka in the preceding two periods, they could have easily cinched the game.

The line-up:  
Oka (6)—Angus, Tushaw, Jacobs, Vincent, F. Oke, Nelson, Etienne, Laforce, Lecoq, H. Oke.  
Outremont (3)—B. McCartan, J. Webster, R. Langevin, C. Langevin, Leonard, Fink, Bohemier, Fortin, Dorais, R. Boston, Moquin, Marcel, Fortier.

## SPORT BRIEFS

By  
H. W. SYLVESTER

### OUTREMONT'S SECOND DEFEAT AT OKA

Another crashing defeat met the Outremont lacrosse aggregation at Oka last Sunday, when bright hopes for victory had loomed above the horizon, with the team's remarkable victory over Verdun Juniors.

Now, of all things apparent in the game, there should be no doubt that the local boys played a fine game, even to equal half of Oka's final figure of six.

Unfortunately, with the absence of Raymond and Charbonneau again, the team appeared rather discomforted to begin with. The first period, however, had all the earmarks of a steady climb to victory for Outremont when they took the lead early. Here they excelled immeasurably by steady and aggressive play. Robust play and unprecedented action were packed high with cross-floor sallies goalward.

The Indians retaliated differently in the second set when they keenly edged the play into their own hands and disposed handily of numerous close shots. Each player concentrated individually upon the Outremont boys, and at such time when the team's line looked rather disrupted in position, they cinched a record scoring session. Many desirable openings for shots had been made by the single-handedness of the Indian boys to command the play and their efficiency baffled the vain efforts of their opponents to repel them. If Outremont had been playing in their positions and covering up, as they later did, no such scoring could have been made by Oka. The gameness of the counter leaders was fairly convincing enough for the local boys to use more aggressive tactics to overcome them.

### ELECTING A PRESIDENT

The early movements of the Outremont Hockey League directors to establish this league on a sound basis for the coming season may be taken as a definite step towards the permanent formation of an athletic circle of this kind in Outremont.

To further enhance the interest in this sport, Roger Lacoste has again undertaken on his own accord to make an early start this year.

The fact that up to the present no other candidate for the presidency of the League has come forward seems indicative of the ability of Lacoste to further give his valued efforts as he did last year.

The formation of the Outremont Hockey League was the first successful enterprise of its kind ever undertaken in the city and its remarkable success and popularity gained the admiration of scores of sporting enthusiasts who saw little of this sport until last season.

Many new arrivals as well as the addition of several teams to the League will no doubt add to the interest in this sport here.

The City of Outremont has promised their well needed co-operation again and this, with the much appreciated services of Roger Lacoste as the next President-elect, would undoubtedly tend to a successful season this year.

### PREFERRED BY WOMEN OF GOOD TASTE

The fine grain and glowing tone of Canada Flooring hardwoods (manufactured by the Canada Flooring Company, Limited, harmonizes perfectly with the clear-cut lines and beautiful color schemes of modern interior decorations. There is also a half-inch Canada Flooring board, specially made to lay over old floors. This is a very simple operation, requiring no re-adjustment whatever to your woodwork or doors.

# ROGER LACOSTE LIKELY TO BE AGAIN NAMED AS HOCKEY LEAGUE LEADER

Was President of Loop Last Term—Meeting Thursday Night—Other Offices to be Filled—Coming Season Plans to be Discussed.

The Outremont Hockey League will hold its first official meeting next Thursday night at the League Headquarters, 582 Rockland avenue, when the personnel of the League will be appointed to new or similar positions occupied last season.

Thursday night will be a big affair in the minds of local supporters of the League who will vote for the various candidates to executive positions.

No aspirant to Presidency has been announced as yet other than Roger Lacoste, who occupied the chair last season, and it is hardly expected any change will be made.

For Vice-President, etc., a complete change is anticipated, as many followers are now entering their names as candidates.

It was learned, though unof-

ficially, that the same honorary directorate as last year would act again this season.

A new secretary-treasurer will be named by the president without election, but for the other posts lots will be drawn.

No attempt will be made to exclude any suitable person from entering for election if their references comply favorably with the requirements and limits of the league.

At this meeting, various plans for the coming season will be discussed and taken for adoption.

This will then be the last assembly of the League until the near opening of the hockey season, and all plans will have been formulated for execution.

## WIDENING OF COTE DE LIESSE ROAD

Cote de Liesse Road, linking the Town of Mount Royal to Dorval and offering additional westward outlet from Montreal will soon be paved in oil macadam 16 ft in width by the end of this month, it was learned at local Provincial Government offices this week.

The road runs through the northern sections of Dorval, Lachine and the parish of La Presentation. The total improved distance is 2.66 miles, apportioned as follows: Dorval-La Presentation, .28; and La Presentation 1.3 miles.

## DOG OWNERS ARE WARNED

### Canines Are Danger in This Section

Unlicensed and unleashed dogs will not be allowed to run loose in Outremont, it was decided at the Council meeting on Wednesday night.

Dog owners who either fail to secure licenses for their pets or

## TREE SURGEON FOR MOUNT ROYAL PARK

### Survey of All Trees to be Made Soon

Professional attention from a tree specialist will soon be given to the trees on Mount Royal Park, according to Ald. Dr. Fred Gilday.

For some years the City has had a specialist whose duty it was to look after trees in the City generally. In spite of this, however, it was found that the trees on Mount Royal could not

who permit them to roam about off the leash will be prosecuted, it was ordained by the council, which gave instructions to this effect to the police department.

The measure followed the hearing last night of J. Wilkinson, who came before the council and declared that "dogs in St. Cyrille Park endanger the lives of children, adults and in some cases, of other dogs."

receive the attention they required, the 600 acres forming the mountain park being so large that a part time tree expert was not adequate.

A survey of every tree in the park will be made and for this purpose the specialist will be given enough assistants to do the job properly. When the survey has been made, all dead and decaying trees will be cut down.

When the preliminary survey is completed the work of saving every good tree on the mountain will be started and will continue until the park has been entirely covered.

As was done last winter, it is probable that dead wood will be carted away to charity institutions for free distribution to the needy for fuel. It is estimated that several hundred cords of wood will be salvaged in the work and that thousands of trees now doomed to die for want of attention will be saved.

Still, in some countries where they have these intermittent revolutions, arms aren't really what the armies need so badly as legs.

Now, if ever, Americans need a sense of humor. There are so many things to be laughed off.

## WITHOUT "ENZYMES" THE HUMAN BODY WOULD WASTE AWAY!

Malted barley, which is the foundation of the brew of Dow Old Stock Ale, is rich in ENZYMES.

In the brewing of Dow Old Stock Ale, a special process assures that the Enzymes act fully to cause the goodness of malted barley to pass right into the ale!

In Dow Old Stock Ale you are sure that you are receiving an extra supply of health and strengthening qualities, in addition to a refreshing, mellow drink.

No wonder Dow Old Stock Ale is the choice of healthy men . . . always!

### ENZYMES

These are essential substances, present in digestive juices and in certain foods, that turn the nourishing elements of food into forms that living cells can assimilate.

Without their aid, most living things would derive no nourishment from food.

Their action is part of Nature's life process that supports all growth, development and maintenance of strength.
