ALLIES TELL GREECE TO JOIN THEM AND OBSERVE TREATY WITH SERBIA OR DEMOBILIZE

Kitchener Takes Firm Stand With King Constantine And Premier Venizelos—Greek Cabinet Considers Situation And Has Already Reaffirmed Friendliness Toward Allies—Serbians And Montenegrins Are Being Forced Back

London, Nov. 21.—The Entente Allies have demanded that Greece either join with them and fulfill her treaty obligations to Serbia, or demobilize, and to impress King Constantine that they mean what they say the Allies have declared a commercial blockade of the Hellenic Empire, according to despatches from Athens.

There is no confirmation of these statements available here, but it is very certain that Lord Kitchener, the British War Secretary, who had an hour's audience with the King of Greece yesterday, and afterwards saw Premier Skouloudis, took a firm stand and told them what the Allies could and would do unless the demands were conceded.

The Greek cabinet met to consider the situation, and a few hours should show what Greece's future attitude will be. The Greek government again has affirmed its friendliness to the Allies, but has not yet taken the steps required to prevent Greece from being counted among the friends of the Central Powers.

The Entente Allies will not permit any delay; the position of the Serbian armies makes any prolongation of the present uncertainty impossible. Already the Serbians are making what may be their last stand before Monastir and also on the plains of Kossovo.

The Bulgarians, it is true, are being held up by unfavorable weather conditions, but they must be almost at the gates of the Macedonian capital by this time; while the Austro-Germans and Bulgarians are slowly but surely pressing back the northern army.

The Germans announce today the capture of Novipazar, and are therefore on the direct road to Mitrovitza, which has been the Serbian capital since Nish fell into the hands of the Bulgarians.

Other armies are pressing in from the north, the north-west, the north-east and the east, and even the Montenegrins, who held their positions for so long, are being forced back.

Of the French and British troops in the south no news has been received. Apparently they are only holding their positions and can no longer hope to render assistance to the Serbians except by keeping a large number of Bulgarians engaged. According to German reports an effort will be made by the French and British to save the Serbian armies by sending troops through Montenegro and Albania, but, with poor roads, it will take a long time for them to reach the battlefield.

There is no change on the other battle fronts. The Italians are still fighting for Gorizia, and the Russians are regaining ground which they lost along the Sty river last week. Czartorysk, a little village unknown before the war and which became famous for the bitter fighting that has occurred around it, is again in the possession of the Russians, who evidently let the Germans enter simply to shell them out the next day.

The German attack, which met with initial success, was doomed to final failure, as the country around is a great marsh, and, in the opinion of Petrograd, the offensive was taken for political, not military, purposes, with the object of impressing the Rumanians.

In Courland the weather has enforced idleness upon both armies.

Copenhagen, via London, Nov. 21, 3:15 p.m.—A newspaper of Ribe, Denmark, says it learns that Zeppelin No. 18 was destroyed as a result of an explosion while it was being inflated in a shed at Tondern, Prussia, on Wednesday. One German soldier was killed and eight were wounded, and the roof of the shed was blown off, adds the paper.

All the London morning papers make a feature of an interview given by Eleutherios Venizelos, the former Greek Premier, in Athens, Nov. 8, in which he said:—"Two things seem quite clear to me—first, that Germany is bound to lose in the long run; second, that the new battle ground in the Balkans offers favorable conditions to the Allies."

Geneva, Nov. 21, via Paris.—It is reported unofficially in despatches from Laibach, Austria, that the fortifications of Gorizia have been almost destroyed by the Italian artillery.

CANADIANS ARE INTERESTED IN RAILWAY SCHEME

PROPOSED LINE ACROSS NICARAGUA, ATLANTIC TO PACIFIC.

Washington, Nov. 21.—Efforts are being made by Canadian capital, it was learned here, to secure from the Nicaraguan government permission to build a railroad across Nicaragua from the Atlantic to the Pacific. A representative of the Canadian company whose headquarters are in Winnipeg, has just returned, it was said, from Managua where he discussed the matter with President Diaz.

Nicaraguan officials are understood to have decided against granting the concession at present, but have indicated it might be granted later if the United States Senate fails again at the coming session to ratify the Nicaraguan treaty, designed to rehabilitate Nicaraguan finances.

The Weather

Toronto, Nov. 21.—The winds continue very strong on the Great Lakes, accompanied by some light snowfalls or flurries. A few showers have occurred in Quebec and the Maritime provinces, while in the west the weather has been fair and for the most part cold.

GIVES UP PRESIDENCY OF DARTMOUTH COLLEGE.

Boston, Nov. 21.—The retirement of Dr. Ernest Fox Nichols from the presidency of Dartmouth College at the close of the present college year was announced by the Board of Trustees today. President Nichols has accepted an invitation to a chair of physics at Yale, thus returning to a field that in the past he told the trustees, had gratified his every ambition and which he left reluctantly to accept the call to Dartmouth six and a half years ago.

PRISONERS ARE ILL-TREATED IN GERMAN CAMPS

AMERICAN AMBASSADOR MUCH DISAPPOINTED—PRISONERS TREATED LIKE CRIMINALS—LACK OF OVERCOATS—DOGS TEAR CLOTHES—DISEASE RAMPANT.

London, Nov. 21—2.47 a.m.—The British Press Bureau has published the reports of James W. Gerard, the American Ambassador to Germany, and members of the Embassy staff in Berlin, relative to the condition of the British prisoners of war in the camps at Wittenberg, Prussia.

Lithgow Osborne reported that his whole impression of the camp authorities was utterly unlike that which he had received in every other camp he visited. Instead of regarding their charges as honorable prisoners of war, he stated, they apparently regarded them as criminals whom a regime of fear alone sufficed to keep in obedience.

"All evidence of kindly human feeling between the authorities and the prisoners was lacking," said Mr. Osborne, "and in no other camp have I found signs of fear on the part of the prisoners that what they might say to me would result in suffering for them afterwards."

The following extracts are taken from Ambassador Gerard's report: "I regret to state that after a careful examination of the camp and long conversations with the prisoners my impression is even more unfavorable than I had been led to expect."

"Upon my arrival at the camp, I was not received by the General who acts as commandant, but by a Major. There were over four thousand prisoners in the camp, of whom 278 are British. Among these I found only sixteen overcoats. The men, on the whole, are insufficiently clothed."

"The men told me that one of the British medical officers in the camp recently was struck by a German non-commissioned officer, and this fact proved to be true."

"Many prisoners complain that dogs were brought in by German soldiers at night and that in certain cases prisoners had their clothes torn by these dogs. I asked the authorities whether they considered dogs necessary for the preservation of order, saying that at no other camps had I seen dogs used for this purpose, and they informed me that they considered it absolutely necessary and that dogs were needed to protect the German soldiers on duty. I was shown half a dozen of these dogs, which were of the usual police type."

"Two prisoners informed me that the conditions in the camp had unquestionably improved greatly in the last few months; that last year when an epidemic of spotted typhus existed, the camp conditions had been indescribably bad. They said that they then implored the German authorities to put the British soldiers in barracks by themselves, as this was the only way to prevent an outbreak of the epidemic which had been brought to the camp by Russians. This request was refused on the ground that the British should learn to know their allies better. Largely because of this fifty British military prisoners and nine civilians died of the disease."

"The attitude towards the British prisoners seems to be based on suspicion. They have no opportunities for playing games or for exercise except walking. I am sending a check

POPE'S BIRTHDAY WAS YESTERDAY

Rome, Nov. 21—Today being the sixty first birthday of Pope Benedict countless messages of felicitation have arrived at the Vatican from all parts of the world. Among the despatches are a large number from the belligerent countries, expressing the hope that the efforts of the Pope to hasten the conclusion of peace will be successful.

PORTER CHARLTON RELEASED YESTERDAY

Como, Italy, via Paris, Nov. 21.—Porter Charlton, the American who recently was tried on a charge of murdering his wife and who was found guilty and sentenced to six years and eight months imprisonment was released today. Charlton is in good health and spirits.

By reason of the time that Charlton had been under restraint and an additional one year taken from his sentence under an amnesty, Charlton was compelled to serve only twenty-nine days in prison following his conviction and sentence. Charlton killed his wife in 1910 and placed the body in a trunk and threw the trunk into Lake Como.

FRENCH WON'T ALLOW ANY SALE OF SHIPS.

Washington, Nov. 21.—The French government has prohibited the voluntary sale to a foreigner of any French sea-going vessel during the remainder of the war and for a period of six months after the cessation of hostilities. A despatch today from Ambassador Sharp at Paris reported the decree, which applies to French vessels in home waters and abroad.

Heavy punishment is prescribed for violations.

BRITISH CREW FORCED TO LAND IN AFRICA.

London, Nov. 21.—The Admiralty states that the crew of the British boarding steamer Tara, which was sunk early this month in the eastern Mediterranean by a German submarine, has been compelled to land on the African coast beyond the Egyptian frontier. The British authorities in Egypt are endeavoring to ascertain their whereabouts.

for 2,000 marks to Captain Viday to be spent for immediate relief."

Sir Edward Grey, after commenting severely on the facts mentioned, says that he much appreciates Ambassador Gerard's action in visiting the camp personally, and asks Walter Hines Page, the American Ambassador to Great Britain, to convey to Mr. Gerard his cordial thanks for the reports.

STEAMER ESCAPES FROM SUBMARINE

Paris, Nov. 21.—Private information received at Madrid by wireless, according to a despatch from that city to the Havas Agency, indicates that the steamer Verona encountered a submarine and that an exciting chase followed. The Verona managed to escape owing to the heavy fog.

OFFICIAL

RUSSIAN STATEMENT.

Petrograd, via London, Nov. 21.—11 p.m.—The statement issued by the War Office today says:

"On the western front the situation is unchanged.

"In the Caucasus, in the region of Tortum and the coast there was artillery and rifle firing and skirmishing between advanced guards.

"North of Lake Van and south of Lake Uruman there have been engagements with bands of Kurds."

FRENCH STATEMENT.

Paris, Nov. 21.—The following official communication was issued by the War Office tonight:

"The artillery actions have been very spirited in Artois, around Loos and Hulluch, as well as to the north of the Somme and to the north of the Aisne, in the region of Armancourt, Dancourt and Tilloloy, and also near Soissons. The enemy works were very badly damaged by our fire.

"In the Argonne, at Boland, we exploded successfully two series of mines. A very violent cannonade has taken place at Vauquois.

"On the heights of the Meuse, in the Bois Des Chevalliers, the explosion of a German mine caused no damage in our lines.

"The Belgian communication reads: 'Our advance posts and our positions in the neighborhood of Dixmude were bombarded. Our artillery has counter shelled the German batteries and trenches, and dispersed groups of military pioneers at divers points along the front. In reply to the bombardment of Furnes, our aviators bombarded the enemy cantonments at Nessen.'"

"Army of the east: Quiet has prevailed on the French front since the Bulgarian counter attacks on our positions in the direction of Kovurino. All the attacks were repulsed with appreciable losses to the enemy.

"The landing of French and British troops at Saloniki continues without incident."

ITALIAN OFFICIAL.

Rome, Nov. 20, via Paris, Nov. 21.—Intense bombardment of Austrian positions in the Gorizia zone by Italian artillery continues according to the official statement issued today at the headquarters of the General Staff. A successful attack was begun north-west of Oslava and Italian infantry obtained a firm footing on part of the summit of Monte San Michele. The text of the communication follows:

"In the Cordevlo valley, after an intense artillery preparation, the enemy launched large forces in an attack on the summit of Monte Colombing but was repulsed. In a counter attack he was put to flight with great loss leaving on the field arms, munitions and hand bombs.

"Along the Isonzo front the struggle continued vigorously yesterday. In the Zagora sector we took by assault a strong barrier in the Fondo valley, making 37 prisoners.

"In the Gorizia zone the intense bombardment by our artillery continues. We have begun successfully an attack on the heights north-east of Oslava.

"On the Carso plateau, after a brilliant assault, our infantry got a solid footing on a portion of the top of Monte San Michele.

"Aerial raids continue. One aviator was brought down by our anti-aircraft guns in the Millegna zone on the plateau north-west of th Arsiero.

All payments are to be made to a chartered bank for the credit of the Minister of Finance. Failure to pay any instalment when due will render previous payments liable to forfeiture and the allotment to cancellation.

Applications, accompanied by a deposit of ten per cent of the amount subscribed, must be forwarded through the medium of a chartered bank. The bank will issue a provisional receipt.

This loan is authorized under Act of the Parliament of Canada and both principal and interest will be a charge upon the Consolidated Revenue Fund.

Forms of application may be obtained from any branch of any chartered bank in Canada, and at the office of any Assistant Receiver General in Canada.

Subscriptions must be for even hundreds of dollars.

In case of partial allotments the surplus deposit will be applied towards payment of the amount due on the January instalment.

Scrip certificates payable to bearer will be issued, after allotment, in exchange for the provisional receipts.

When the scrip certificates have been paid in full and payment endorsed thereon by the bank receiving the money, they may be exchanged for bonds with coupons attached, payable to bearer or registered as to principal, or for fully registered bonds without coupons.

Subscription Lists will close on or before 30th November, 1915.

Finance Department, Ottawa, 22nd November, 1915.

Delivery of scrip certificates and of bonds will be made through the chartered banks.

The interest on the fully registered bonds will be paid by cheque, which will be remitted by post. Interest on bonds with coupons will be paid on surrender of coupons. Both cheques and coupons will be payable free of exchange at any branch of any chartered bank in Canada.

Holders of fully registered bonds without coupons will have the right to convert into bonds with coupons, payable to bearer or registered, without payment of any fee, and holders of bonds with coupons will have the right to convert, without fee, into fully registered bonds without coupons at any time on application in writing to the Minister of Finance.

The issue will be exempt from taxes—including any income tax—imposed in pursuance of legislation enacted by the Parliament of Canada.

The bonds with coupons will be issued in denominations of \$100, \$500, \$1,000. Fully registered bonds without coupons will be issued in denominations of \$1,000, \$5,000 or any authorized multiple of \$5,000.

Application will be made in due course for the listing of the issue on the Montreal and Toronto Stock Exchanges.

The loan will be repaid at maturity at par at the office of the Minister of Finance and Receiver General at Ottawa, or at the office of the Assistant Receiver General at Halifax, St. John, Charlottetown, Montreal, Toronto, Winnipeg, Regina, Calgary or Victoria.

The books of the loan will be kept at the Department of Finance, Ottawa.

Recognized bond and stock brokers will be allowed a commission of one-quarter of one per cent on allotments made in respect of applications which bear their stamp.

TRICOLOR OF FRANCE.

First Adopted in 1794, it Fell and Rose Again in 1830.

The French have always favored the colors of red, white and blue, and throughout their history red banners, white plumes and blue scarfs have been largely used in connection with royalty and the army.

The French national flag, the tricolor, however, which combines the three popular colors of France, is comparatively modern. The flag was first adopted about 1794. A decree was issued which gave to all flags a knot of tricolor ribbons at the top of the staff, and later the red, white and blue design was chosen for the national flag. Some years after it was abolished for the white flag of France made famous by Henry IV, and it was not until 1830 that the tricolor came into its own again. Since then the flag has been the national banner of France.

The divisions on the tricolor are not all the same size. The red occupies the largest space, the blue is slightly smaller than the red, and the white is the narrowest stripe of the three. The space occupied by the colors has been scientifically worked out in order to make the flag visible at long distances, a necessary asset for naval purposes.

The tricolor forms the base of nearly every flag connected with the army, navy and merchant service of France. The president's flag consists of the tricolor, with his initials in gold worked into the white stripe.—London Standard.

BRITISH COLUMBIA HAS OFFERED BANTAM BATTALION.

Ottawa, Nov. 21.—An offer of a "bantam" battalion, that is, of men all under the regulation height of five feet four inches, has been accepted by General Hughes. It will come from British Columbia.

RUSSIAN GENERAL DIES.

London, Nov. 22.—A despatch to the Morning Post from Stockholm, says that Lieut.-General Samsonoff, who commanded the Russian troops in the battle of Tannenberg, died a prisoner of war in Germany. His body is now in Stockholm on the way to Russia.

An official communication from Petrograd dated Sept. 1, 1914, announced that General Samsonoff was among the officers killed in the fighting in East Prussia.

SUBMERGING A SUBMARINE.

Submarines are not easy to handle and it takes considerable skill and daring to navigate them successfully. Many people have the idea that as soon as a submarine sees an enemy the officer in command gives a sharp order, and almost before it has left his lips the submarine is diving beneath the waves.

As a matter of fact the very latest submarines take a clear five minutes before they can become submerged. Many of the older submarines took ten minutes to a quarter of an hour to sink.

The reason that a submarine cannot dive quickly, like a fish, is because the water which must be let into her tanks to make her heavy enough to sink, must be let in comparatively slowly. If it were let in with a rush the chances are the vessel would go down on an even keel, but would heel over and be in great danger of disaster. If water, too, were let in too quickly there is a danger of letting in too much and in that case the submarines would sink like a stone to the bottom of the sea.

The depth at which a submarine travels under the sea is regulated by horizontal rudders. The water that is let in the ballast tanks is just sufficient to "balance" the vessel in the sea without rising or sinking.—London Spectator.

AN IMPRACTICAL SUGGESTION.

"Why don't you tell your troubles to a policeman?" "I don't dare," replied the gloomy person. "He'd probably arrest me."—Washington Star.

CALL HIM OFF.

"Didn't you say your dog's bark is worse than his bite?" "Yes." "Then, for goodness' sake, don't let him bark! He's just bitten me."—Pittsburgh Dispatch.

GOMPERS ELECTED PRESIDENT AGAIN.

San Francisco, Nov. 21.—Samuel Gompers of New York city was re-elected president of the American Federation of Labor at the concluding session of the annual convention Saturday.

PEACE CONGRESS.

German Delegates Refuse to Attend It.

Berne, Switzerland, Nov. 21, via Paris.—Promoters of the congress which it has been proposed to hold here for the study of basis for a durable peace have encountered another obstacle. The German delegates have given notice they will not attend the meeting announced for Dec. 14 thus following the example of the French representatives. It is understood here the Germans were instructed by their government not to participate in the proposed congress.

THE ANNOUNCEMENT.

The announcement was made a short time ago that the peace conference had been indefinitely postponed but it was stated that it would be held in December as originally intended.

CONFLAGRATION SWEEPS ST. GEORGES DE BEAUCE

SEVENTY-FIVE HOUSES ARE DESTROYED—CHILD IS BURNED TO DEATH—DAMAGE TO EXTENT OF \$300,000.

A conflagration of large proportions swept over the village of St. Georges de Beauce yesterday and the result was that about seventy-five houses were destroyed, a child was burned, hundreds of people were rendered homeless and damage to the extent of some three hundred thousand dollars was caused.

The fire is said to have started in a small store owned by a Syrian and spread rapidly along the south bank of the river. The wind helped it on its destructive course and, as many of the houses were of wood, it found an easy prey and practically had to burn its way before it stopped.

Details are hard to obtain as the telegraph wires were put out of business and telephone communication was also interrupted. The blaze began about four o'clock in the morning and among the houses destroyed were a number of hotels and stores. The hotels included the Bellevue and the Murtha, while three others were razed to the ground, and the store of Mr. P. T. Legare was also a victim. One child was burned but no names are available as yet.

The Bank of Commerce branch is reported to have been destroyed but the branch of La Banque Nationale was evidently saved. No damage occurred on the north side of the river where the church is situated.

Fuller details of the fire will be given in tomorrow's issue of this paper.

GREECE PREPARING FOR ELECTIONS

LEADERS OF VENIZELOS PARTY HOLD MEETING TO DECIDE THEIR ATTITUDE.

London, Nov. 21.—3:12 p.m.—Leaders of the Greek party of Eleutherios Venizelos, who twice resigned the Premiership on account of King Constantine's opposition to his policy of entering the war on the side of Serbia and her allies, held a meeting in Athens today to decide upon their attitude in regard to the forthcoming general elections. Reuters correspondent at Athens wires that the leaders decided to urge the party not to participate in the election, inasmuch as the men serving with the colors will not have opportunity to do so. Moreover, it is considered doubtful whether, in the event of another victory at the polls for the Venizelos party, it would be able to put its policy into effect.

MUSICAL FETE AT ST. JOHN'S CHURCH

50TH ANNIVERSARY OF THE FOUNDED OF "L'UNION MUSICAL DE QUEBEC."

The Fete of St. Cecile, the patroness of music, was celebrated in St. John's Parish yesterday, the occasion also marking the golden jubilee of "L'Union Musicale de Quebec." Last evening the sacred edifice was brilliantly illuminated and crowded to the doors with citizens from all parts of the City who were enraptured with the grand concert which was held and in which the "Beatitudes" of Cesar Frank were rendered in excellent style, by the choir accompanied by a full orchestra.

This evening the golden jubilee of the Union will be further celebrated by a banquet at the Auditorium Cafe.

SITUATION IN PERSIA.

Diplomacy of Allies Meets With Success There.

London, Nov. 22—1:45 a.m.—Congratulating the government on the success of the diplomacy of the Allies in Persia, the Morning Post, in an editorial, expresses satisfaction at "this escape from what might have proved a dangerous situation," and adds: "Our diplomatic successes lately have not been so conspicuous but that we may take some stock in this success."

The Post goes on to suggest that through the arguments used at Tcheran by the British and Russian representatives can only be guessed at. "It is not improbable that it was pointed out that there is an ex-Shah residing in Russia as a guest, who was extremely anxious to resume sovereignty."

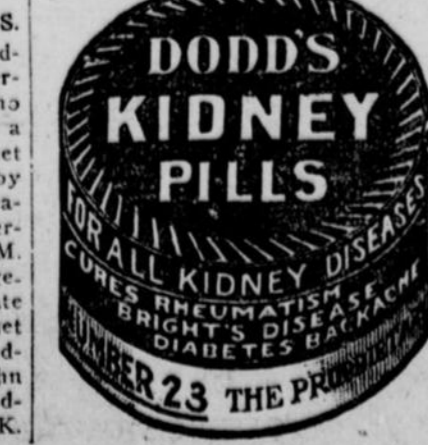

By retaining the goodwill of the Shah of Persia, the Post considers the Allies had a narrow escape, since its defection towards the Teutonic powers "would have meant complete anarchy in Persia, which would probably have led to a upheaval in Afghanistan and possibly trouble in India."

INSTANTLY KILLED.

St. Catharines, Ont., Nov. 21—Hudson Payne, of Toronto, aged 49 years, foreman on No. 2 section Welland ship canal was instantly killed yesterday when he fell from a train of dump cars on the breakwater at Port Weller.

TORONTO WELCOMES RETURNED SOLDIERS.

Toronto, Nov. 21—Toronto accorded a magnificent reception this afternoon to the 142 returned soldiers who arrived shortly after 12 o'clock on a special hospital train. They were met by sixty decorated cars, supplied by members of the Ontario Motor League, and taken through lines of cheering spectators to the Central Y. M. C. A. building, where special arrangements had been made to facilitate meetings with relatives. A banquet was subsequently held at which addresses were delivered by Sir John M. Hendrie, Mayor Church, Sir Edmund Walker, N. W. Rowell, W. K. George and others.

EYEWITNESS TELLS OF EVENTS ON CANADIAN FRONT

GENERAL HUGHES RECEIVES COMMUNICATION FROM SIR MAX AITKEN.

Ottawa, Nov. 21.—The Minister of Militia, Major-General Sir Sam Hughes, tonight received the following communique from Sir Max Aitken, the Canadian Record Officer now serving with the Canadian army corps in France:

Canadian General Headquarters in France, Nov. 20.—During the week Nov. 12th to the 19th the general situation on the Canadian front remained unchanged. Weather conditions showed an improvement of the preceding week. The temperature was generally lower with occasional frosts at night. Heavy rainstorms were less frequent.

Good progress has been made by our working parties in the improvement and drainage of our trenches, and profiting by recent experience, measures are being taken to guard against any further flooding of sections of our lines owing to abnormal rains. The enemy does not yet appear to have completed repairs to his trenches and sounds of pumping and baling continue to be heard. His working parties on several occasions have been dispersed by the fire of our artillery and machine gun batteries.

Owing to the poor state of his communicating trenches the enemy has been forced to show himself in the open more frequently than usual. Full advantage has been taken of this condition by our snipers, with good results. Retaliation by the enemy snipers has been generally ineffective. There has been considerable artillery activity on the part of the enemy during the period, but on each occasion prompt retaliation by our artillery with its superior weight of fire has reduced the hostile batteries to silence.

Night Patrol Work.

A bright moon and the marshy condition of the land between the opposing trenches have added to the difficulties of night patrol work. The enemy has displayed little inclination to leave his trenches and our patrols have been hampered in their work by prevailing conditions.

In order to gain information a minor operation was undertaken by our second brigade on the night of Nov. 16-17 against two points on the enemy's front line. Small parties of our fifth Western Canadian and seventh British Columbia battalions were selected for the enterprise and for several days previously underwent special training and preparation. On the afternoon of Nov. 16 our artillery cut the German wire opposite the points of attack. The wire was cut in other places also in order to mislead the enemy. Trees interlarded somewhat with the wire cutting operations in front of our seventh battalion and scouts were sent forward after dark to complete the work. These scouts under command of Lieut. W. Holmes, 7th battalion, remained out for several hours and succeeded in cutting three lanes through the German wire without attracting attention.

Punctually at 2:30 on the morning of Nov. 17 the two parties moved forward. The 5th battalion party under command of Lieut. J. E. Furslow and K. T. Campbell was checked in front of the enemy's parapet by a ditch twelve feet wide. Both officers entered the ditch which was shoulder high with water, and found the bottom entangled with barbed wire. Efforts were made to overcome this obstacle but without success.

The German trenches were then bombed from positions close to the ditch causing casualties among the enemy. The party returned safely to our trenches.

The 7th battalion party, consisting of brigade bombers under Capt. C. T. Costigan and riflemen under Lieuts. Wrightson and McIlroy, reached the enemy's parapet unobserved under cover of a heavy rainstorm and entered his trenches. A telephone was carried with the party and touch was maintained throughout with Lieut. Col. Odlum in our front trenches.

The party bombed its way down German trenches and communicating trenches. Many Germans were bayoneted or killed by bombs in their dugouts. Twelve prisoners taken. This objective having been accomplished our party was then recalled by pre-arranged signals and returned to its trenches with its prisoners. Our casualties were one accidentally killed and one wounded.

During the above operation our artillery prevented the enemy in adjoining trenches from rendering assistance at the point of attack. On the return of our party our artillery shell ed heavily the German front line trenches and all roads, tracks and communicating trenches along which reinforcements might be sent.

Retaliation by the enemy's artillery was weak. The prisoners taken afforded useful information as to the composition of the forces opposing us. In anticipation of an attack the enemy had manned his trenches, thereby affording our party an excep-

SERIOUS CHARGE AGAINST HAMBURG AMERICAN LINE

Conspiracy and Defraud, to Deceive United States Government.

THE MAXIMUM PENALTY

Defendants Chartered Ships to Aid German Cruisers Last Year.

New York, Nov. 20.—One hundred or more witnesses to testify against high officials of the Hamburg American Line at their trial on charges of conspiracy, which begins next Monday, have been summoned by the government, it was announced today. The trial probably will last a week. Four of the five defendants have pleaded not guilty and the fifth has not been apprehended. The maximum penalty for the crime charged is two years imprisonment and \$10,000 fine on each of the two indictments.

The defendants are Karl Buecz, managing director of the line, in command of a great fleet of German merchantmen and liners which sailed under the Hamburg-American house flag; Adolph Hochmeister, purchasing agent of the line; Joseph Poppenhaus, a second officer in the line's employ; George Kotter, superintendent of the line, and Felix Seffner, alleged super-cargo on one of the vessels which sailed to the German cruisers aid. Seffner has not been found.

A charge unique in American jurisprudence faces them—conspiracy to defraud and deceive the government by obtaining clearance papers on false representations. To facilitate the trial, counsel for the defense admits that the defendants chartered certain ships and sent them with supplies to the German cruisers, Kaiser Wilhelm and other German men-of-war active in the Atlantic in the late summer and early fall of 1914, as charged, but denies that these acts constitute a conspiracy to defraud or deceive the United States. The intent, it is claimed, was to deceive the Allies, instead.

So well did the German agents know that war was inevitable, the government charges, that some of the fifteen ships involved were chartered weeks before the war began and several actually sailed on their alleged errands of war before war had actually been declared.

GERMANS TRY TO INFLUENCE CHINESE

ALLIES ARE DEVISING PLANS TO CHECK ACTIVITIES OF HUNS.

Tokio, Nov. 21.—The keenest interest has been aroused in Japan by Washington advices to the effect that representations have been made to China to induce her to join the Entente Allies. The Foreign Office declines to discuss the matter at this time. Persons who are in close touch with the foreign affairs assert that thus far no formal agreement has been entered into by them.

The explanation most generally offered in Tokio is that the Allies are endeavoring to devise a plan to put an end to certain German activities in the Orient. It is learned that strong representations have been made at Peking in regard to various matters touching the interests of the Allies. One of these is an anti-Russian movement in Manchuria, which is said to be fostered by Germans. Particular attention is paid to various reports concerning the forwarding of arms to India and Afghanistan. It is also reported there have been secret movements from Asiatic countries of war materials destined for Germany by way of the Americas.

EIGHT TIED IN

BICYCLE GRIND

Chicago, Nov. 21.—Eight teams tied for first place in the six-day bicycle race at 11 o'clock tonight, the 49th hour of riding, at 1032 miles, seven laps. Lawson and Root and Lawrence and Hanley were a lap behind the leaders.

Field Marshal Sir John French sent a message congratulating our troops on the success of this enterprise. The health and spirits of our troops remain excellent.

ALLIES BLOCKADE GRECIAN PORTS

ECONOMIC AND COMMERCIAL PRESSURE IS NOW BEING APPLIED.

Paris, Nov. 21—3:20 p.m.—The Athens correspondent of the Havas News Agency, in a despatch filed yesterday, confirms the report that the Entente powers have declared a commercial blockade of Greece. The announcement to this effect, made in the form of a note issued by the British legation at Athens, is given as follows:

"Because of the attitude taken by the Hellenic government in regard to certain questions touching closely the security and liberty of action to which the Allied troops have the right under the conditions of their disembarkment on Greek territory, the Allied powers have deemed it necessary to take certain measures which will have the effect of suspending the economic and commercial facilities which Greece has received from them heretofore.

"It is not the intention of the Allied powers to constrain Greece to abandon her neutrality, to maintain which, in their eyes, is the best guaranty of her interests. The Allied governments have been somewhat disturbed by certain illusions to eventual measures which, is taken by the Hellenic government, would appear to them to be contradictory to assurances they have received.

As soon as your doubts on that subject—due, no doubt, to a misunderstanding—have been dispelled, the powers will be happy to remove the obstacles now opposed to the arrival of merchandise in Greece and to accord any facilities which result from normal relations."

MUNITIONS PLANT STRIKE CALLED OFF

THREAT TO TIE UP COMPANIES AT BRIDGEPORT NOT REALIZED.

Bridgeport Conn., Nov. 21.—The threatened strike of 1500 machinists employed at the Union Metallic Cartridge Company here was called off tonight, when it was announced that the company had agreed to revoke orders issued on Saturday, changing the working hours and reducing the bonus pay. The machinists voted to strike tomorrow afternoon, and also threatened to tie up the Remington Arms plant, unless the orders were revoked. Both companies are working day and night on war orders.

THE GRECIAN BLOCADÉ.

London, Nov. 22—3 a.m.—The Times in an editorial today says: "It considers the reports of a prospective blockade of Greece greatly exaggerated. While Greece's attitude is still doubtful, the newspaper adds, it would be neutral for the Entente Allies, who control the sea routes, to consider the expediency of stopping the further passage of military and other supplies to Greece, but no extreme steps have yet been taken.

The Entente Allies, the Times continues, recognize that King Constantine is in a difficult position. They desire to take his embarrassments fully into account, and should Greece agree to demobilize it would instantly relieve the crisis and solve the awkward constitutional question presented by the impending elections.

RELICS OF A LOST RACE.

Articles That Were used by the Arawak Indians of Jamaica.

When in 1494, on his second voyage, Columbus discovered the island of Jamaica, it was populated by the Arawak Indians, who, although at first hostile to him, became friendly on his giving them clothing and other articles before unknown to them.

When later the Spaniards settled the island they forced the Indians not only to do agricultural work in their own island, but to labor in the gold mines of Haiti. So hard were the Spanish taskmasters that by 1558 the whole Arawak nation was exterminated.

During recent years G. C. Longly of Pelham Manor has been seeking to recover all possible traces of the lost race. To that end he spent much time on the island in exploring the old kitchen middens or refuse heaps of the Arawaks, in which he has found, besides shells and pottery and fish, turtle and cony bones, many celts or rud chisels, grinding stones, stone pendants and axes—1,500 objects in all.

The whole collection he has given to the American Museum of Natural History in New York city. The most interesting objects are the cylindrical stone pendants, which were fashioned with sand and stone by endless rubbing. Pendants of exactly the same sort are worn today as incignia of office by chiefs or head men of tribes in northern South America.—Youth's Companion.

LORD KITCHENER CONFERS WITH GREEK GENERAL

GREEK NEWSPAPER SAYS THAT GREAT IMPORTANCE IS ATTACHED TO THIS CONFERENCE IN POLITICAL CIRCLES.

Paris, Nov. 22.—An Athens despatch to the Havas Agency says:—"After Premier Skouloudis called on Lord Kitchener, the British Secretary for War, at the British legation yesterday, the Field Marshal had a two hours conference with General Dousmanis, chief of the Greek General Staff, and Col. Metaxas, chief assistant on the General Staff, at which the officers accompanying Lord Kitchener were present.

"Great importance is attached to this conference in political circles. The government organ Embros affirms that the King and the Greek government yesterday gave Lord Kitchener formal assurances that Greece in no case would take measures hostile to the Quadruple Entente and that a conciliatory solution of the present differences would be reached.

"The Embros adds that those who had the opportunity of seeing Earl Kitchener after his visit to the King and Premier Skouloudis brought away the impression that the questions now in suspense have lost much of their acute character.

"The statements made by the Embros are not confirmed from any official source. Lord Kitchener and his staff left Athens late Saturday night."

London, Nov. 22—3:05 a.m.—Telegraphing from Athens Saturday the Times correspondent says he learns that Earl Kitchener's conference with King Constantine and Premier Skouloudis had the good result of warranting more favorable views regarding the prospect of a settlement of the question of the treatment of Entente Allied troops if they are forced into Greek territory.

The correspondent adds that the municipalities of Athens and Piræus had intended officially to welcome Earl Kitchener, but that his visit was too unexpectedly sudden and brief to permit of any formal reception.

London, Nov. 22—3:14 a.m.—A despatch to the Daily Chronicle from Athens says the newspapers not in accord with the policy of M. Venizelos, the former Greek Premier, in discussing the blockade refers especially to grain cargoes destined for Greece and declare that in a few days a total lack of bread for non-combatants will result if such ships are held up.

London, Nov. 22—3:48 a.m.—A Daily News despatch from Athens filed Saturday, says: "The newspapers here take the view that the Allies action in imposing a commercial blockade upon Greece is contrary to international law because non-combatants will suffer from the fact that grain cargoes destined for Greece have been held up. The newspaper Hestia declares Greece will not give the declaration demanded by the Allies.

"Bulgarian troops have ceased their attack from Prilep towards Monastir because they fear Serbian troops at Katchanik will advance and encircle them."

ALLIES EXPECTED BLOCADÉ.

London, Nov. 22—2:54 a.m.—Telegraphing from Athens the Daily Mail correspondent says:

"The Allied blockade of Greece has excited little comment at Athens, where such a move had long been expected. But there is much perturbation at Piræus, which is the port of Athens. The great mass of public opinion is now favorable to the Entente Allies, but the Greek people are a commercial race and in striking at their commerce the Entente powers will alienate friends who are in no way responsible for the political situation."

In an editorial the Daily Mail puts a comparison with the present blockade and that of the Powers in 1886, when Greece refused to obey the ultimatum of the Powers to disarm, but declares that in the present instance what is contemplated is not so much a blockade as an embargo or a prohibition of certain exports from Allied territories, such as rifles, uniforms, ammunition, coal, rubber, petrol and wool.

THE ZEALANDIA CASE.

New York, Nov. 22.—The American steamship Zealandia was within the three miles limit when searched by the British cruiser Iris off Progresso, Mexico, on November 5th, according to Fred Jensen, her chief engineer, who arrived on the steamer Moro Castle today from Havana and Mexican ports. The incident resulted in a protest by the captain to the State Department. "The Zealandia was anchored off Progresso about seven-tenths of a mile inside the three mile limit," said Jensen, "when the Iris sent a boarding party to her. After they had examined the ship's papers Captain Devantier announced that he was going to make a protest against such action." The visitors remained aboard a short time, Jensen added.

REDMOND'S TRIP EXCITES INTEREST

SHELL FRAGMENTS FROM HUN AEROPLANES FALL NEAR THE IRISH LEADER.

London, Nov. 22—2:22 a.m.—John Redmond's trip to the front for the purpose of inspecting the Irish regiments is being followed with great interest in the United Kingdom. The tour of the Irish Nationalist leader opened dramatically, according to the accounts forwarded by the correspondents.

Mr. Redmond was making an inspection of a battalion of the Royal Munster Fusiliers, which had taken a notable part in the fighting from the first days of the British entry into France. The inspection took place close to the trenches, and a German aeroplane appeared overhead just as Mr. Redmond arrived.

The British artillery opened on the aeroplane from all directions; some shell fragments fell unpleasantly near to Mr. Redmond and his party, and the inspection was abruptly concluded.

The Irish leader has been making speeches to the troops, and they have been received with unbound enthusiasm.

SERBIAN PREMIER'S LIFE ATTEMPTED

MAJOR WHO SHOT AT HIM IS SENTENCED AND EXECUTED.

Budapest, via London, Nov. 21.—A roundabout report of an attempt upon the life of Premier Pachitch of Serbia by a Major attached to the Serbian General Staff is printed in a local newspaper which says the information was obtained from Bucharest. According to the story the incident occurred during the brief stay by the Serbian government at Raska. The Major is reported to have met the Ministers at the railway station and commenced to berate M. Pachitch and his associates for a policy "which was leading the nation to destruction." The Premier attempted to argue with the staff officer who upon latter drew his revolver and fired twice at M. Pachitch. The Major, it is said, was disarmed, tried by a "drumhead" court martial, sentenced to death and executed.

FIRE AT BEAUCE.

Though full details of the fire at St. George, Beauce, are not forthcoming as yet, there can be no doubt that this village has been visited by a bad conflagration which means serious financial loss and has left a large number of people homeless.

SOME GERMAN FAILURES.

Cabled rumors are not always approximately cold facts. Many good people are worried over the probable attitude of Mohammedans, but overlook the manifest fact that the overwhelming majority of Mohammedans are supporting the Allies.

There can be no discouragement for anyone who has seen the British Fleet the Great Armada that today holds the peace of the seas. Rev. Norman Maclean, who has visited the ships in the great North Sea, sends this message: "By the might of the fleet a whole continent has been delivered from the withering flight of German culture."

No one kicks and squeals on such easy provocation as the Britisher; no one is so ready to find fault with himself and his blood relation and his neighbor and his servant and his chief.

Mr. A. J. Balfour, first lord of the British admiralty, has announced that he will not reply to criticisms on the conduct of the war on the ground that all criticisms of the conduct of the war must, until after the war is over, and, indeed, long after, be a matter almost impossible to deal with because the facts are not and cannot be known.

It is here that developments within the past few days seem to have crowded one after the other. After a prolonged series of successful plottings and murderous attacks upon the Consuls for the Allies the plotters seem to have persuaded the Shah to move from Teheran to Ispahan, where he would have been under their control, but the arrival of Russian troops in considerable force later advised say caused the Shah to

remain in Teheran, under Allied protection. Russia is pressing southward through Persia and the British northwards through Mesopotamia, and the popular resistance certainly lacks any marked proofs of an enthusiastic Holy War.

PRESS COMMENT.

The Entente nations do well to prepare for a long contest of endurance. Theirs is the power which will win in the end. But as says, Germany is already on the ebb militarily. The Balkan crisis but serves to postpone the inevitable.

Tip your hat when the flag is passing. It is not much to do but it means a great deal. That combination of red, white and blue bunting is something more than a bit of colored textile fabric at the end of a pole. It is symbolic of the empire. It means honor, justice fair dealing and courage. It means the defence of the helpless, the succor of the oppressed, the maintenance of the noblest ideals of chivalry and Christianity.

The really successful teacher always exerts a refining influence upon the pupils and the community. The teacher should be able to enter into the spirit of childhood and youth, but should silently exert a refining influence upon the pupils. The things people love are more significant than the things they know.

Norman Maclean, who has visited the ships in the great North Sea, sends this message: "By the might of the fleet a whole continent has been delivered from the withering flight of German culture, and the might of Germany crushed in Africa. Proud, the great Northwest to the long wash of Australasian seas, not an inch of territory is left to that culture which trod the Cross underfoot that it might dominate the world with its mailed fist.

VICTOR HUGO'S VISION.

The Day When Weapons of War Will Be Regarded as Curiosities.

A day comes when you, France—you, Russia—you, Italy—you, England—you, Germany—all you nations of the continent shall without losing your distinctive qualities and your glorious individuality blend in a higher unity and form a European fraternity, as Normandy, Brittany, Burgundy, Lorraine, Alsace, all the French provinces, blended into France.

A day will come when bullets and bombs shall be replaced by ballots, by the universal suffrage of the people, by the sacred arbitrament of a great sovereign senate, which shall be to Europe what the parliament is to England, the diet to Germany, the legislative assembly to France.

To you I appeal, French, English, Germans, Russians, Slavs, Europeans, Americans, what have we to do to hasten the coming of the great day? Love one another.—Victor Hugo.

BOARD OF TRADE MONTHLY MEETING

PRESENTATION AND LECTURE AT THE REUNION ON TUESDAY AFTERNOON.

There will be an interesting meeting of the Quebec Board of Trade tomorrow (Tuesday) afternoon at three o'clock when the presentation of a gold medal will be made to Mr. J. H. Gignac and a lecture will be delivered by Mr. George Gonthier, L.L.C., of Montreal.

The gold medal, which will be presented to Mr. Gignac, is the annual prize which is given for the best exhibit of manufacturing industries at the Quebec Provincial Exhibition, and was won by the firm of J. H. Gignac, Limited, at the last Exhibition.

Mr. Gonthier, who is President of the Province of Quebec Institute of Auditors and Accountants, will speak on "Accountability as applied to the compilation of statistics."

The Board will then be called upon to discuss a proposed amendment to the by-laws whereby a member of the Council must attend at least one-third of the Council meetings, regular as well as special, during the year, in order to be eligible the following year.

NEW BOND ISSUES.

We draw the attention of our readers to the new bond issues offered by the Provincial Securities Ltd., which will certainly draw a great demand from the investing public.

MRS. LAWRENCE LAWSON HAS PASSED AWAY

The death occurred on Saturday of Mrs. Lawson, wife of Mr. Lawrence Lawson, day watchman at the Chateau Frontenac. The deceased had been ill for a long time and during her indisposition she suffered with patient resignation until the end came peacefully. The late Mrs. Lawson was possessed of a kindly manner and had a large circle of friends who will sympathize with her sorrowing relatives in their affliction.

The deceased is survived by her husband, Mr. Lawrence Lawson, and two children, Miss Mamie Lawson and Mr. William Lawson.

FUNERAL OF THE LATE MRS. EDWARD NEVILLE

The funeral of the late Mrs. Edward Neville, who passed away last week, took place on Saturday morning and was attended by a large concourse of mourners testifying to the esteem in which the deceased lady was held and the sincere sympathy which is felt for her bereaved relatives. In the mourning train which followed the remains to St. Patrick's Church were representatives of all branches of society and the coffin was covered with a profusion of floral tributes. The chief mourners were Messrs. Edward and Martin Neville, sons of the deceased; Messrs. Edward Jacques and Neville Turgeon, grandsons; Messrs. E. Turgeon, E. Jacques and H. MacDonald, sons-in-law.

The pall-bearers were Messrs. John Delaney, Denis Butler, George Mulroney, W. O'Connell, J. McLaughlin and P. Ryan, and at St. Patrick's Church the solemn requiem service was chanted by Rev. Father Healey, assisted by Rev. Fathers McCallister and Meehan as deacon and sub-deacon.

A large number of the mourners followed the remains to the cemetery where the last prayers at the grave were said by Rev. Father Mohan.

PAINFUL ACCIDENT AT POWER HOUSE

MR. ALEX. KIRKWOOD TERRIBLY BURNED ABOUT FACE AND BODY.

Mr. Alex. Kirkwood, of Artillery street, lies in Jeffery Hale's Hospital suffering from severe burns received in an explosion at the Q. R. L. & T. Co., power house, Queen street, yesterday morning.

The victim, who is one of the oldest and most valued employees of the Quebec Railway power division, was on duty yesterday morning and at 10.30 a.m. had just taken a look at a motor but recently installed, when an explosion occurred behind him. The shock of the report caused him to draw back and a sheet of flame ignited his clothing. His eye-lashes, and hair were singed off and his arms, face and right side painfully burned before the fire in his clothing could be extinguished.

Mr. A. Rochoon, a fellow employee, rushed to the assistance of Mr. Kirkwood immediately, and rendered valuable aid, being himself burned about the hands and arms. The ambulance was summoned and the unfortunate man was removed to hospital suffering considerably.

The accident occurred just at the time when the street car service was stalled for a short time and it evidently caused the tie-up.

MAN IS STRUCK BY STREET CAR

EUCHAISTE GOUPIL PAINFULLY HURT ABOUT THE HEAD SATURDAY.

Eucharistie Goupil, living at 95 Cote d'Abraham, was painfully hurt about the head when he was struck by a street car in the vicinity of the Singer Sewing Machine store, St. John street at about 8 o'clock Saturday evening. He was in the act of crossing the street when the car hit him. He was picked up in a dazed state with blood flowing from his head, and was taken into the J. E. Turcot drug shop, where his injuries were treated by Dr. Turcot. The victim recovered in a short time and was taken to his home. His injuries are not thought to be of a very serious nature.

CHINESE COURTESY.

A Native View of the Oriental Brand of Politeness.

A Chinese, unlike an American, who would oppose other men's viewpoint till it finds in an altercation, is always courteous and answers a question with "Yes, yes, yes, yes." In case he disagrees with his opponent he will say: "Your honor will take more time to reach a better conclusion. Your honor is quite right, but perhaps you may have a wiser opinion later on. I, worthless little brother, think somewhat differently from you. However, my ignorant conclusion may be wrong and yours right. I beg your excellency to think over the matter."

But oriental politeness has its bad aspect. It takes too much time. If a guest is leaving his host's door he has to turn his head and ask a dozen times that the host should not accompany him any farther. The same is true of tea drinking, and there

WISE WORDS.

A Physician on Food.

A western physician has views about food. He says: "I have always believed that the duty of the physician does not cease with treating the sick, but that we owe it to humanity to teach them how to protect their health especially by hygienic and dietetic laws. "With such a feeling as to my duty I take great pleasure in saying, that in my own experience and also from personal observation, I have found no food to equal Grape-Nuts and that I find there is almost no limit to the great benefit this food will bring when used in all cases of sickness and convalescence. "It is my experience that no physical condition forbids the use of Grape-Nuts. To persons in health there is nothing so nourishing and acceptable to the stomach especially at breakfast to start the machinery of the human system on the day's work. "In cases of indigestion I know that a complete breakfast can be made of Grape-Nuts and cream; and I think it is necessary not to overload the stomach at the morning meal. I also know the great value of Grape-Nuts when the stomach is too weak to digest other food. "This is written after an experience of more than 20 years treating all manner of chronic and acute diseases, and the letter is voluntary on my part without any request for it."

90TH ANNIVERSARY OF TRINITY CHURCH

FORMER PASTOR, REV. E. J. ETHERINGTON, PREACHED AT BOTH SERVICES.

The 90th Anniversary service of Trinity Church, were held yesterday the special preacher for the occasion being Reverend E. J. Etherington, of Hamilton, Ontario, who from 1896 to 1903, was rector of the Church. Mr. Etherington preached at both morning and evening services.

There was a large attendance of the congregation at both services.

At the morning service the former pastor touched on the war and Canada's duty regarding the same. He advocated the active participation in it of all those capable of taking part and stated the cause of the Allies would triumph as it was a just one.

At the evening service the Reverend gentleman took as his subject the question of Church Unionism and stated that in spite of many obstacles that Church Unionism would be an accomplished fact at no great distant date.

There will be a Banquet under the auspices of Laymen's Missionary Society of the Church, this evening at 7 p.m. When the Reverend Mr. Etherington and the Very Reverend the Dean of Quebec will be the speakers of the evening.

MATTER SHOULD BE INVESTIGATED

RECRUITING OFFICER FOR GRENADE GUARDS REFUSED FRENCH-CANADIANS.

During the past week or so an officer and sergeant were sent down by Lieut.-Col. Meighen of the Grenadier Guards, Montreal, to recruit for that battalion here.

It is said that they only succeeded in enlisting one recruit, and it is reported about their methods of recruiting is correct, that is about all they deservd.

The Chronicle is given to understand that at least one French-Canadian who desired to enlist and who apparently filled all the necessary requirements, besides being a good specimen of a man, was turned down solely on the ground that the Grenadiers did not want any French-Canadians.

This report should certainly be investigated at once, especially when one or two agitators in this Province are doing their utmost to discourage enlistment. No obstacle whatsoever should be placed in the way of any French Canadian who desires to volunteer for the front.

The Annual Exhibition of the Quebec Studio Club will be held on the 26th, 27th and 28th of November, at Room 113 City Hall. This year's exhibition comprises an exceedingly interesting and attractive collection of pictures and China which everyone should make a point of seeing.

During the exhibition there will be raffled for the benefit of the Red Cross a charming sketch of Quebec by one of the members of the Club, and a pair of beautiful hand painted plates. Tickets for these raffles can be had from any of the members of the club, also at the exhibition. A small entrance fee will be charged for the benefit of the Red Cross.

is a great deal of ceremony between host and guest. So it is with dinners and every social gathering. Even in fighting a duel one person—provided both are gentlemen—will say to the other, "Pray hit me first." The other refuses and says, "Oh, no; please you hit me first."

Politeness is especially manifested in the form of an invitation. Few Chinese go to an invited dinner on time; instead they delay for an hour or so. Polite in the extreme, although consenting to accept the invitation, they would not go to dinner until pulled and dragged in a gently rough manner by their hosts. Knowing the habit of his guests, the host always turns out all the members of his family to drag one after another of his invited friends to the dinner. A youngster is often sent out by his mother to hunt their guests like a hound, and finding them, drag them like mules to his mother's house. Observing such customs, foreigners usually laugh, but they laugh mistakenly.—H. K. Tong in New York Independent.

DYNAMITE IS FOUND.

Tarrytown, N.Y., Nov. 21.—That four sticks of dynamite with wire and caps wrapped in paper, were found on the estate of John D. Archibald, president of the Standard Oil Company of New Jersey, became known today when the financier issued instructions to increase the number of guards. The police are looking for a man who was seen last Friday near the place where the explosive was found.

Sporting Notes

Hamilton Tigers have taken the Dominion Rugby championship. Now they should jump in and take a whirl at the N.H.A.

Though Harvard beat Yale 41-0, a despatch says Yale, however, was not disgraced and fought on as only Yale can fight. Unfortunately for Yale their fighting was useless and Harvard got the decision on points.

They only scored 41 points, their back division showed weakness, while Captain Mahan was not in form, failing to score several field goals from easy chances, etc.

Jimmy Lonergan has signed up with the Sons of Ireland. Jimmy is starting with the Loyola football team, and is also a most promising hockey player.

Harry Hyland stated last year that Lonergan would be as good as any N.H.A. man in a couple of years.

The Canadiens have signed up Jacques Fournier, who played with Ottawa last season.

And now it is said that the alien labor law would not permit Canadian players going to Boston to play in the Shamrock franchise were shifted to the Bean-field City.

When Pres. Sam Lichtenhein, of the Wanderers, comes back from his visit to the United States, President Quinn is going to recommend him to get Claude Wilson, the spare goalkeeper of Toronto last year, to fill the gap which the probable loss of Charlie McCarthy will make.

Jack Marshall thinks Wilson is practically as good as Harry Holmes, but he seldom got a chance when the latter was playing. Now that Holmes has jumped to the Coast, owner Livingston has taken over Percy Lesueur for Toronto, and will not need Wilson.

A new feature has made its entry into Quebec's alley bowling. This is the "hesitation" step and "bang" ball. The originator is a well-known dancing master.

Albert Molynaux, of Sherbrooke, who is at present a member of the 8th R. R., has signed up with the Sons of Ireland.

A meeting to form a league composed of players whose ages were 17 years and under, took place in the Victoria Hotel last evening.

Steve Newton, the celebrated backstop of the champion St. Patrick's ball team, is expected to help out the St. Pat's hockey team.

It is with regret that we learn of the illness of Jimmy Walsh, and trust that the well-known athlete will speedily recover.

The Senators and Daily Telegraph teams will play on Quebec alleys on Tuesday night.

HAMILTON TIGERS DOMINION CHAMPS

DEFEATED TORONTO R. & A. A. TEAM AFTER OVERCOMING EARLY LEAD.

Toronto, Nov. 21.—Hamilton Tigers defeated Toronto Rugby and Athletic Club team, 13 to 7 today, and won the Dominion championship, but they failed to outclass the Ontario Rugby Football Union champions.

It was a close, hard fight all the way. At one time in the last period Toronto had the ball on Tigers goal line, but could not buck it over.

CRIMSON ROLLED UP SCORE OF 41 TO 0 AGAINST THE BLUE.

The Stadium, Cambridge, Mass., November 20.—Harvard smeared Yale with the worst defeat a Blue team ever suffered at the hands of the Crimson here this afternoon.

The Yale team, though beaten, was far from disgraced in the game. The Blue fought only as Yale can fight, but the smooth running, powerful Crimson team simply outclassed them.

BOXING BOUTS THIS EVENING

ALF. LYNCH WILL HAVE TO FACE BURNS INSTEAD OF YOUNG O'LEARY.

Manager Drapeau, of the Quebec Sporting Club, is in hard or good luck, it is hard to say. First of all Hume wired that he could not fill in his engagement against Hays, and Kramer, a better man was secured, and now comes the tidings that Young O'Leary cannot be on hand to fight Lynch.

There is no doubt that the non-appearance of O'Leary will occasion some disappointment, but Burns' record shows that he has met the best boys in the country and there is every reason to congratulate Lynch on his sportsmanlike action in agreeing to go on with him.

The following letter from H. Schaefer, O'Leary's manager, explains the cause of the failure of O'Leary to fill his engagement.

Young O'Leary boxed here last night and received a very bad cut on his eye, which will make it an impossibility for him to box Monday night. However, as I do not want to put you in a hole, I have engaged a suitable substitute in Pinkey Burns, the bearer of this letter.

He has boxed at Montreal several times last year, and made a big hit. He was matched with Alfie Lynch at Montreal, but at the last moment it was Lynch who pulled out of it.

Burns has boxed Johnny Daly, a boy who boxed Johnny Coulon, Kid Williams, ten rounds. Tommy Sullivan, Eddie Wallace, Jimmy Tolyer, Young Rose, Young Lippy. He put out Jimmy Curtis in seven rounds.

Both boys will come in under 115 pounds, and the match should be a hummer. Lynch completed his training yesterday, and Manager McDermott is overjoyed at this splendid condition.

Burns and Lynch should put up a clever, scientific bout. There has been a lot of slugging in recent bouts. While the crowd relishes some of the "heavy stuff," yet Quebecers always appreciate the tricky swift boxer who can land often and yet escape without getting much in return.

The following members have joined the Overseas Contingents, and are now doing duty in Europe: C. J. Fletcher, Raymond Fletcher, Russell Fletcher, Neven Hewton, Captain Garon, Harold Phillips, Ian Crawford, Percy Stewart.

I deeply regret to inform you that Mr. Garnet W. Lemesurier, one of our most energetic and untiring members, was killed during the battle of Langermecke, 1915.

I would inform you that there were 46 members in good standing at the close of the season, and a balance to our credit in the bank of \$90.27, with which to carry on the club for another season.

Orders have been sent out from Ottawa to all registrars of alien enemies, the police who are acting as such, and the Royal North-West Mounted Police in Western Canada.

QUEBEC SKI CLUB ELECTS OFFICERS

NINTH ANNUAL MEETING WAS HELD AT THE CHATEAU, ON SATURDAY.

The 9th annual meeting of the Quebec Ski Club was held at the Chateau Frontenac on Saturday, with a record number of members in attendance, which speaks very well for the prospects of the coming season.

Several suggestions were made regarding trips to Portneuf, St. Raymond, Petit Village, etc. A jump will also be erected at the Club's excellent hill at Sandy Bank, which it is thought will satisfy the most exacting.

The election of officers then took place, and resulted as follows: President: J. W. Russell. Vice-President: W. Thoburn. Secy.-Treasurer: A. M. Blanchet.

The officers would like all members to offer them as many suggestions as possible that will further the interest of the club, and would further like them to remember that a hearty co-operation between the members and the executive is necessary to make the season of 1915-16 a banner one for the Quebec Ski Club.

THE EIGHTH ANNUAL REPORT OF THE QUEBEC SKI CLUB

In submitting the Annual Report for the Season of 1914-15, I beg to state, that owing to the unfavourable weather of last Winter, we were unable to carry out our programme as we had wished, and considering that the membership fee was reduced to \$1.00 for the Season, we did not have the amount of Members we should have had, also it was owing to this small admission that we were obliged to cut down our events considerably.

Our new hill at Sandy Bank seems to have proved a big surprise to the Members, who have in past years devoted their skiing to the Glacis, we hope this year will see a bigger attendance of jumpers than heretofore.

Our Cross-Country Run was held on February the 20th, under very unfavourable conditions, the snow being very wet, and sticky, and in some places water was spread over the route, this as you know took away from the speed of the runners, which was behind the record of the year before.

If you like watching boxers with a nice lead, watch Alfie Lynch's left tonight. Lynch sticks out his left and keeps it in his opponents face during the whole proceedings.

Burns and Lynch should put up a clever, scientific bout. There has been a lot of slugging in recent bouts. While the crowd relishes some of the "heavy stuff," yet Quebecers always appreciate the tricky swift boxer who can land often and yet escape without getting much in return.

The following members have joined the Overseas Contingents, and are now doing duty in Europe: C. J. Fletcher, Raymond Fletcher, Russell Fletcher, Neven Hewton, Captain Garon, Harold Phillips, Ian Crawford, Percy Stewart.

GOOD PLAYERS ARE ESSENTIAL

DOWNFALL OF YALE PROVES COACHES MUST HAVE MATERIAL TO WIN.

Harvard's 41-0 victory over Yale, coming as it did on top of all that has been written about "Miracle-man" Shevlin's brilliant handling of the Blue; the spirit which he instilled into the team and, in fact, as the American press football experts said, "moulded a real team out of a scrap heap," should provide food for thought for many of these writers who instantly placed on a lofty pedestal, a man who by some good fortune happens to manage or coach a winning eleven or championship baseball club.

There is no doubt, that coaches are necessary to instruct football players and teams, but no matter who the coach is he cannot make a winning if he has not the material. Yale was going bad all season. Defeats by Colgate and other smaller colleges nearly drove the faithful followers of Old Eli to despair.

The election of officers then took place, and resulted as follows: President: J. W. Russell. Vice-President: W. Thoburn. Secy.-Treasurer: A. M. Blanchet.

The officers would like all members to offer them as many suggestions as possible that will further the interest of the club, and would further like them to remember that a hearty co-operation between the members and the executive is necessary to make the season of 1915-16 a banner one for the Quebec Ski Club.

In submitting the Annual Report for the Season of 1914-15, I beg to state, that owing to the unfavourable weather of last Winter, we were unable to carry out our programme as we had wished, and considering that the membership fee was reduced to \$1.00 for the Season, we did not have the amount of Members we should have had, also it was owing to this small admission that we were obliged to cut down our events considerably.

Our new hill at Sandy Bank seems to have proved a big surprise to the Members, who have in past years devoted their skiing to the Glacis, we hope this year will see a bigger attendance of jumpers than heretofore.

Our Cross-Country Run was held on February the 20th, under very unfavourable conditions, the snow being very wet, and sticky, and in some places water was spread over the route, this as you know took away from the speed of the runners, which was behind the record of the year before.

If you like watching boxers with a nice lead, watch Alfie Lynch's left tonight. Lynch sticks out his left and keeps it in his opponents face during the whole proceedings.

Burns and Lynch should put up a clever, scientific bout. There has been a lot of slugging in recent bouts. While the crowd relishes some of the "heavy stuff," yet Quebecers always appreciate the tricky swift boxer who can land often and yet escape without getting much in return.

The following members have joined the Overseas Contingents, and are now doing duty in Europe: C. J. Fletcher, Raymond Fletcher, Russell Fletcher, Neven Hewton, Captain Garon, Harold Phillips, Ian Crawford, Percy Stewart.

I deeply regret to inform you that Mr. Garnet W. Lemesurier, one of our most energetic and untiring members, was killed during the battle of Langermecke, 1915.

I would inform you that there were 46 members in good standing at the close of the season, and a balance to our credit in the bank of \$90.27, with which to carry on the club for another season.

Orders have been sent out from Ottawa to all registrars of alien enemies, the police who are acting as such, and the Royal North-West Mounted Police in Western Canada.

AT THE THEATRES

THE GOLD ROOSTER FILMS KNOW AS MOST ARTISTS

THE OLYMPIA IS SHOWING EXCLUSIVELY THESE PRODUCTIONS.

Special Programme Today and Tomorrow.

The Gold Rooster Films, presented at the Olympia Theatre, as known today all over America, as the cleanest, the classiest and most educational films produced on this continent. They are all released by Pathe Exchange and this alone would be for them a guarantee that any manager would consider sufficient, but the producers have done more to make their pictures popular. They have engaged the best artists, chosen the most dramatic plays and brought the most successful essays to screen them and present them to their patrons who are today innumerable. They bear such a distinctive mark of perfection that even if the name of Gold-Rooster were not on them, all picture lovers would recognize them as soon as they appear.

The Olympia, whose policy has been to show only the best pictures that money can procure to its patrons, was the first to show Gold Rooster productions in Quebec and has the exclusive right of showing these pictures today.

It has booked for today and tomorrow one of the most artistic presented yet "The Menace of the Mute". Ashton-Kirk is a young man of high social position and great wealth; he is a deep student and learned in the lore of ancient tablets and forgotten books. His keen mind delights in those mysteries which have proven too shadowy for the police. He finds a joy in the hunt; there is a thrill in matching his intelligence against the craft of the criminal.

In "The Menace of the Mute," Pathe's second release of the "Arnold Daily Series," Mr. Daly again essays the role of the detective. The story deals with the murder of one David Hume, a mysterious individual, who has stolen the plans of a new submarine belonging to the father of Allen Morris. Edith Vale, sweetheart of Morris, notes that her fiancé is the victim of some obsession and through Pendleton, his close friend, enlists the aid of the great detective. Ashton-Kirk takes up the case.

Through a single little piece of paper made by a conductor's punch, the detective is enabled to get on the proper scent. This enables him to find his man, who proves to be a mute, and through a note dropped by the latter while in conversation in writing with a friend he learns the perpetrator of the crime. Then, back in the home of Hume, he is secreted when the mute Sagon enters to recover the plans which Hume had in his possession and for which the murder was committed. They are returned to Morris, and he and Edith are

FRANCIS X. BUSHMAN. The Second in Command.

Francis X. Bushman, most popular of screen artists and the highest paid star in motion pictures will appear at Victoria today, tomorrow and Wednesday in the great Metro Star-film in "The Second in Command" a British military play which is full of thrills and incidents specially interesting during the war times.

Mr. Bushman as a British Officer is handsomer than ever and instantly won the hearts of Montreal audiences able to enjoy the bliss for which they had longed.

What will his next job be? Watch for it.

"BIRTH OF A NATION" GREAT RECORD BREAKER'S MARVELLOUS POPULARITY

That Picture Will be Shown all Next Week at the Auditorium, Has Records of Attendance in Many Cities.

D. W. Griffith's great production "The Birth of a Nation" has broken so many records that it is hard to keep track of them. For the length of its run and the total attendance it holds the season's record in New York, Boston, Chicago, Los Angeles, San Francisco, Toronto and Montreal. These records are being added to in numerous other cities where the big spectacle is now piling up unprecedented to substantiate its marvelous popularity.

This great film will be shown next week at the Auditorium. The tickets are now on sale.

FUNNY INCIDENT TOLD THE GREAT LA FOLLETTE HIMSELF

How Kellar, the Great Magician Found Out that he Was a Plain American and not a Mongolian.

The "Great LaFollette," who is to appear today for the first performance at the Auditorium, was better known, some years ago, as Rush Ling Toy. He tells himself of a funny incident in his stage life that happened in Los Angeles. He was then playing under the name of Rush Ling Toy, Kellar, the world renowned magician, was sitting in a box and after the performance he found his way on the stage to congratulate what he thought sure to be a Mongolian. He was very much taken back when La

Follette removed his make up. "Since then, says LaFollette, Mr. Kellar and myself have carried on a correspondence and only two weeks ago I saw him, a white-haired old man. This is my reason for using a white wig in my impersonation of the famous magician."

As we said Saturday, LaFollette is not the only star act on the bill this week at the Auditorium. The four others have been featured in more than one theatre and would deserve to be here just as well.

Sonia, the dancing and singing violinist, will be a great novelty; her playing as well as her appearance cannot fail to attract the crowd at the Auditorium.

The Equilos, who entitle their act "Aerial Teeth Novelty," are famous actors known throughout America. Their work has been appreciated by the most critical audiences in larger houses than the Auditorium and their reputation enables them to command a high salary for their turn.

Arding and Arding, a lady and a gentleman, will be the delight of the musicians and Garry Owen and Betty Calhoun present a very amusing and entertaining musical skit.

The Eleventh Chapter of "The Goddess," the most sensational of the series up to now, is on the bill with all these attractions.

TURKISH SPY SYSTEM.

It Not Only Keeps Tab Upon Strangers, but Spies Upon itself.

Turkey boasts of more spies to the square mile than any other country, as any one who has been to Turkey will agree.

The peculiar thing about these spies is that they themselves cannot be trusted, so that a regular chain of spies is the result. There are spies to spy upon the spies.

The government officials have their own spies to watch other people, but even the great authorities themselves are already being spied upon.

What is more, the method of spying is quite open, for the spies will stand by wherever two or three foreigners are gathered together and listen to the conversation. Visitors to Turkey naturally get worried over such attentions, especially when it might be their bad luck to be followed about for weeks or months.

It is the "uninitiated" visitor who usually receive the most attention, since he or she will carry on conversation in a quiet understone. The person who knows Turkey converses in a loud tone for all and sundry—the spies especially—to hear that he is only engaged in pleasure or legitimate business, and the wise man leaves the topic of politics severely alone.—London Answers.

THE DOG TEAM.

Now the modus operandi of a dog team is as follows: The leader and wheel dog are the whole works on the basis of 75 to 255. The leader starts 'em, he stops 'em, he picks the trail, he turns 'em. When he walks, the rest do; when he gallops, they gallop. All the wheel dog does is to guide the nose of the sled, materially assisted by the driver. The rest of the team merely pull and yelp.

From which follows that a good leader is a very desirable thing to have and a poor leader is worse than useless. The driver, at the handlebars is often thirty feet from the leader, the dogs being driven tandem and controlled by word of mouth and a whip.—Outing.

INAUGURATE NEW ATLANTIC S.S. LINE

TRANSPORTATION OF HORSES FOR ALLIES FEATURE SERVICE THIS WINTER

Boston, Nov. 21—The inauguration of a new line of trans-Atlantic steamers under the direction of the France and Canada Steamship Company was announced here last night. The new service, it is said, would be maintained by ten vessels including the Carpathia and Ultronia formerly of the Cunard Line, and others of nearly equal tonnage. Transportation of horses for the Allied armies in Europe will be a principal feature of the service this winter, after the port of Montreal is closed by ice.

FINE PASSENGER SEASON REPORTED. Ocean Steamship Companies Report Better Business Than Last Year.

Montreal Nov. 20—Enquiries at the various ocean shipping offices yesterday elicited the information that the present year had been a far better one for Atlantic passenger business than last, despite the war. Practically at every office the statement was made that during the season every available vessel had carried either a good or a capacity passenger list on their eastward trips. The business on the westward journeys was much lighter, but this had been helped out by the large number of returning Canadian officers and soldiers invalided home, who were booked as passengers.

Of course the explanation for the crowding on the eastern trips was that there were so few vessels left for regular runs. In addition to this it was stated the demand for accommodation had been greater than last year. Part of this was due to the large number of relatives of volunteers who wished to accompany their soldier friends to England, or else go home while they were at the front. This business was particularly marked from the western provinces, where there are so many men not many years out from the Old Country, a large percentage of whom have joined various contingents for the war, or else gone home as reservists.

In a great many cases these men sent their families home, in such numbers that frequently there was not sufficient accommodation here, and the passengers had to be sent via New York.

This increase was also partly due to the fact that while last year was a light one all through, owing to unsettled conditions, passenger traffic practically dropped out of sight from the declaration of war until the close of navigation.

Another satisfactory feature of the season's business, it was stated by officials at the Reford Lines and the White Star-Dominion Line, was the fact that there had been no apparent hesitation using vessels flying the British flag, either from Montreal or New York. A number of Canadians had availed themselves of these ships, but not more than in a normal season.

"It has been an abnormal season in every way," said Mr. McClure, of the Reford Lines, "and it will take some time to figure out just how the trade has gone. But on general results it seems to have been better than last year."

COMMERCIAL NEWS

NEW YORK MARKET.
(Canadian Press).

New York, Nov. 21.—Weakness in war stocks and kindred specialties, which later spread to some of the more stable issues, characterized the light dealings of Saturday's short session. Some losses were largely retrieved before the close, while oil stocks were absolutely strong, with a gain of over ten points for Texas Company, at 203.

Such stocks as Bethlehem Steel, Studebaker, Willys Overland and Baldwin Locomotive were from 4 to 10 points under Friday's close, and coppers also were backward, regardless of a further advance in the metal of 19% cents. United States Steel reflected pressure of the same character recently noted, and rails in the investment division were a point or more down. Short covering rectified this condition in part toward the end, but the close was irregular. Total sales amounted to 328,000 shares.

The day's budget of news included reports from mercantile agencies which fully confirmed earlier advices of general trade expansion and a wider distribution of most classes of merchandise, this condition being logically accompanied by greater activity in many lines of industry, particularly Textiles. Betterment also is reported in bank collections, with an increased demand for money.

Indications point to another advance in most finished products of the steel mills, and it is confidently predicted that high grade copper will cross 20 cents during the coming week, with correspondingly higher quotations for lead, spelter and like products. Several of the Standard Oil subsidiaries announced a further rise in prices of oils. Stocks of that calibre have been the feature of the week on the curb, and added little to the day's operations on the Stock Exchange.

Instead of the large gain in cash which local banks were expected to show on the week's business, a nominal decrease was reported with virtually no change in actual reserves. Bonds were fairly firm during the week, showing more or less independence of the movement in stocks. Total sales, par value, \$2,055,000. United States bonds and Panama issues were higher by 1/4 to 1 per cent. on call during the week.

New York, Nov. 21.—Weakness in war stocks and kindred specialties, which later spread to some of the more stable issues, characterized the light dealings of Saturday's short session. Some losses were largely retrieved before the close, while oil stocks were absolutely strong, with a gain of over ten points for Texas Company, at 203.

Such stocks as Bethlehem Steel, Studebaker, Willys Overland and Baldwin Locomotive were from 4 to 10 points under Friday's close, and coppers also were backward, regardless of a further advance in the metal of 19% cents. United States Steel reflected pressure of the same character recently noted, and rails in the investment division were a point or more down. Short covering rectified this condition in part toward the end, but the close was irregular. Total sales amounted to 328,000 shares.

Instead of the large gain in cash which local banks were expected to show on the week's business, a nominal decrease was reported with virtually no change in actual reserves. Bonds were fairly firm during the week, showing more or less independence of the movement in stocks. Total sales, par value, \$2,055,000. United States bonds and Panama issues were higher by 1/4 to 1 per cent. on call during the week.

MECHANICS SUPPLY CO.

SUBSCRIPTIONS FOR CANADA'S DOMESTIC WAR LOAN BEGIN

ISSUE IS TO TOTAL \$50,000,000 AT 5 P. C. BONDS MATURING IN 1925.

Ottawa, Nov. 21.—Subscriptions begin tomorrow for Canada's Domestic War Loan.

The issue is to total \$50,000,000 of 5 per cent. bonds maturing Dec. 1st, 1925 and re-payable at par. The issue price is to be 97 1/2 and a full half year's interest will be paid on June 1st, 1916.

Applications accompanied by a 19 cent deposit of the amount subscribed must be forwarded through the medium of a chartered bank and such forms may be had at any bank or the office of the receiver-general. Ten per cent must be paid on application, 7 1/2 p. c. on Jan. 3rd; 20 per cent on Feb. 1st, 20 per cent March 1st, 20 per cent April 1st and 20 per cent on May 1st, 1916. All payments are to be made to the banks to the credit of the Minister of Finance.

The bonds with coupons will be issued in denominations of \$100, \$500 and \$1,000. Fully registered bonds without coupons will be issued in denominations of \$1,000, \$5,000 or any authorized multiple of \$5,000.

Subscription lists will close on or before Nov. 30th.

Hon. W. T. White has issued the following appeal in connection with the war loan:

"The Canadian war loan is now offered for public subscription. Particulars of the price and terms of the issue with full information as to the mode of subscribing are contained in the prospectus which will appear in all the press Monday. The government confidently appeals to the Canadian people to support this loan and thus further demonstrate the strength, unity and solidarity of the Empire and our invincible determination to prosecute the war to a victorious conclusion."

VICTORIA IN WAR TIME.

British Columbia City Feels Spirit Even More Keenly Than East.

War time in Victoria, B.C., is, in many ways, like war time in the inland cities; in one or two important respects, however, it is different.

For one thing, although the eastern cities as a whole realize the seriousness of the situation, and are responding splendidly to the call, yet their citizens, individually and collectively, can hardly view the contest in quite the intimate way the people do on the Pacific coast. Ontario, although she is sending her sons to Europe, is not in any danger herself. British Columbia, on the other hand, is an exposed coast province, and has been in actual danger of attacks from the Germans.

For several months last year, however, at the beginning of hostilities, there was a genuine chance that Victoria might be attacked. This proximity to actual fighting threw Victoria citizens into a particularly serious and determined mood from the very start and this feeling has remained constantly with them, and has been transmitted in to zealous and efficient work, both in actual enlistment, and in all activities connected with the war.

Toronto has its aeroplanes, but Victoria has its cruisers, and more interesting still, its submarines. If you want to feel quite a new sensation, and to have it driven home to you graphically that Canada is developing war-time scenery of her own, take a peep through the periscope of one of the submarines in Esquimault Harbor, a few miles from Victoria, says a writer in Toronto Star Weekly. Not only with the actual experience of being in a submarine and looking through one of the periscopes, which, owing to the abuse of submarines by Germany, have come to stand in the world for something sinister and alarming, but of interest in itself, but through the lens you are as likely as not to see the Rainbow or the Kent floating at anchor in the harbor. The Rainbow is a cruiser of the Canadian Navy, now used as a training ship. The Kent is a cruiser of the British Pacific fleet, which, after doing its share in the work of expelling the Germans from the Pacific, and being utterly battered in the task, came to Esquimault for recuperation. To view this war-scarred and battle-wounded ship even from an ordinary point on the shore is to feel one's blood course faster with excitement and with pride. To see the veteran through the periscope of a submarine adds to the effect, both dramatically and picturesquely.

Both good sense and censorship

prevent any detailed description of Canada's submarines, but, as may be imagined, anyone privileged to inspect one of these craft, find the visit a fascinating experience.

The submarines in Victoria are now officered and partially manned by members of the staff and crew of the Kent, which, as mentioned above is now in Esquimault Harbor. They are under direct control of the British Admiralty.

A NEW RAIL METAL. Molybdenite Used With Tungsten to Harden Steel Costs \$3,000 Ton.

The action of the Dominion Government recently in placing molybdenite on the list of minerals that cannot be exported from Canada has attracted particular attention to this rare mineral which has been recently found in considerable quantities in this country, particularly in Addington county and in the vicinity of Mount St. Patrick in Renfrew county.

In both these places good showings are reported and strong companies are about to operate the veins. A splendid showing has been also discovered in the Gattineau district in the Township of Eardley, some 18 miles from Ottawa, and only three and a half miles distant from the Gattineau Railway. This mine is owned by Charles Higginer, of the capital, and several engineers who have seen the vein recently are very favorably impressed with its showing.

There is said to be one vein 140 feet long and in some places six to eight inches wide, and all of the purest quality of this rare metal. The rock formation of the vein is granite and pyrites, and, according to the experts, most promising, so that a company may be organized at once to develop the mine as several capitalists are now developing mines at Mount St. Patrick and in Addington county.

This mineral is said to have a big demand on account of the war, as it is used in the manufacture of shells. One of the particular uses of molybdenite is for hardening, for which it is said to be as valuable as tungsten. They, in fact, are the two minerals most used for hardening steel and are in demand in all concerns using high speed steel and so-called special steels used for war and trade purposes generally.

High grade molybdenite ore is valued at close on \$3,000 a ton. The addition of molybdenite to steel increases the hardness, toughness, and elongation of the metal, and machine tools hardened with it will, it is claimed, retain their hardness for a very long time. The compounds of the metal are also used in a great number of the arts and industries and the acid is used in many laboratories as a reagent. Its compounds are also used for the production of a yellow color or porcelain. The metal is found in comparatively few countries and is a rare one and its special qualities make it particularly valuable at the present time.

GLIMPSES OF OLD QUEBEC

From the Files of THE CHRONICLE, Nov., 1885 and 1815.

THIRTY YEARS AGO TODAY

The Riel Agitation.

The Riel agitation goes on apace. A public meeting to protest against the execution of Riel was held at Bienville last night, 30 years ago, at which forcible resolutions Commemorative of the government were adopted. A mass meeting will be held tonight at the Montcalm Market for the same purpose, and another will be held tomorrow at Charlebourg. The speakers announced for these meetings are Hon. W. Laurier, Hon. C. A. F. Pelletier, Hon. P. Garneau, Hon. F. Langelier, Messrs. L. P. Pelletier, President of the Carlier Club, P. B. Casgrain, M.P., F. X. Lemieux, M.P.P., G. Amyot, M.P., Chas. Langelier, J. E. Bedard, G. M. Deschênes, Arthur Delisle and others. These gentlemen are composed of the very elite of the community and their protest no doubt will have a far reaching influence throughout the Province of Quebec among a certain political party. The fact is, these meetings are purely for party purposes and are intended to lead our people to forget themselves. Party is all well enough in its way. We cannot carry on public affairs perhaps, without party, but in all consciousness let us keep the thing separate from the administration of the laws of the Country. There are many good men in the world who do not.

Believe in Capital Punishment.

We may respect their opinions, and in time the death penalty may be stricken out of our Statute books. The sentiments of the above named gentlemen are worthy of all respect if sympathy for Riel is the motive of their meetings, but when their object is clearly shown to be resentment and jealousy of the Conservative administration at Ottawa and an endeavor to saddle on it the responsibility for the fate of Riel and to discontinue it in the eyes of the electors of the Country, when in reality the Ottawa administration had no responsibility in the matter and merely allowed the law of the Country to take its legitimate course

Contradictory News.

It is difficult for us situated in Quebec 3,000 miles from the field of affairs in Europe to grasp the real truth of happenings there. We have received Paris papers, they assure us again and again that peace has been signed between the allied powers and France and nearly in the same breath enumerate several fortresses as still being vigorously besieged by the allied troops.

Cherbourg Still Holds Out.

The great fortress of Cherbourg seems still to be in the hands of the Bonapartists, where the exiled Emperor has a great many adherents. Longwy another fortress is still resisting the allied forces and are determined to hold out to the last extremity. The siege of fort Salins is being persevered in and preparations are being made for the siege of Neuhrich, while the allied forces have abandoned the siege of Charlemont and transferred their energies to Montmedy. In the meantime Francis—being bled white supporting the allied troops and the end of it all is not yet in sight. Louis the 18th is looked upon throughout France as a nonentity. Talleyraud, Fouché, etc., whose devious ways none can understand and the Bourbon regime is very far from being secure. What France really wants at the present time is a Napoleon to bring order out of chaos.

They will soon discover that all their efforts in that respect will prove futile.

A HUNDRED YEARS AGO TODAY

Bonaparte is on the high seas en route for his future home on St. Helena. Louis the 18th is once more on the throne of France, his ministers, Talleyraud and Fouché seem to be chief advisers—whose subtle diplomacy is as incomprehensible as it may prove to be dangerous. If peace has been signed then why those bombardments of fortresses? It would seem to us that neither the allied powers nor Louis the 18th are yet the masters of France.
