

LORD MINTO SEES DANGER IN INDIA.

Reports Indicate Spread of Sedition in Country.

APPEAL TO NATIVES IN KING'S MESSAGE FAILS IN ITS OBJECT.

London, November 20.—The daily record of violence and seditious acts in India has long shown that the unrest there is increasing, rather than abating, and the opinion is becoming general that the situation is growing more serious. One of the latest indications of this is the trouble in the Punjab, which has not been known since the apparent failure of the appeal to the natives in the King's message is causing anxiety. It is felt that as a consequence of this and other marked indications of increasing unrest there are reasons to believe that greater powers are about to be given

Some of the newspapers here advocate other methods in suppressing the seditious, which, in their opinion, requires a revival of the race hatred which has not been known since the apparent failure of the appeal to the natives in the King's message is causing anxiety. It is felt that as a consequence of this and other marked indications of increasing unrest there are reasons to believe that greater powers are about to be given

LORD MINTO, Viceroy of India, formerly Governor-General of Canada.

to the Indian authorities to deal with the situation. Among the measures contemplated is believed to be the establishment of special courts to deal with the situation. The Daily Mail published a conspicuous article by an anonymous Anglo-Indian official of wide experience, who, it is declared, is incapable of entertaining panicky views. He takes a serious view of the situation, the gravity of which he says is not realized in Great Britain. The truth, however, is that the situation has reached the high water mark of danger. It is inevitable that the native states are becoming more and more alienated, and their chiefs are manifesting the manifestations of British weakness. He declares it is time that the Viceroy bestirred himself.

VICEROY SEES DANGER.

Lachow, November 20.—The Earl of Minto, viceroy of India, upon being presented with a loyal address here, is believed to be persuaded by the seditious part of India that the situation is growing more serious. He would not admit that the reputation of the whole nation was affected by the fanatical attacks of a section of it. Nevertheless, the existing dangers could not be underestimated. They were face to face with an anarchical conspiracy, and special weapons must be forged to meet it and the evil finally eradicated.

TIME LOST BY WORKINGMEN.

The great inroad made upon the time of the workingmen by the wages of the day is being pointed out by the use of statistics secured by Dr. Rosenmann in the course of an investigation of accidents in one of the manufacturing districts of Austria. The statistics for the five years, 1899-1903, show that the average amount of wages lost by the workmen on account of accidents and unexplained absences from work on the day after an ordinary working day was 2.25 per cent. The day following an accident, the amount of wages lost was 6.3 per cent. and after the regular pay day 7 per cent.

LOST TEN SHEEP.

Nov. 20.—(Special)—Mr. M. Davidson has had the misfortune to lose ten of his sheep. No trace of them can be found anywhere.

DETAILS OF DEATH OF CHINESE RULERS.

Official Denial of Reports That They Were Poisoned.

DOWAGER ISSUED EDICTS WHICH IN THE VALLEY OF THE SHADOW.

Peking, November 20.—An official of the Foreign Board Government, in reply to a direct question yesterday, gave formal assurance that the new administration would promote with vigor the reforms inaugurated by the late Emperor Kuang-Hsu. A number of edicts with a political bearing have been promulgated since November 15, and they all show that a progressive and modern government for the Chinese empire is intended. Several specific reforms already have been entailed for fulfillment upon the regency of Prince Chun.

Prince Ching, president of the Board of Foreign Affairs, has forwarded direct to a powers, hence to China a personal letter in the name of Pu Yi, the infant Emperor of China, setting forth the crisis through which the throne has passed during the last week.

These communications make a plea for the new rulers of China, who are unaccustomed to Chinese procedure, and emphasize the efficiency with which the events of the past week have been conducted.

Another edict that was issued in the name of the late Dowager Empress says in part:

DOWAGER SICK UNTO DEATH.

"My attention has been given to a myriad of affairs, and my strength and my heart are exhausted. For long I have been without appetite, nor have I been able to sleep. On November 15 came the sorrow of the death of the Emperor. Following this day this illness increased, until now I am not able to rise from my couch.

"Reforms in the method of government has begun, and these ideas will be continued and developed. The Regent and all other officials should exert themselves to strengthen the foundations of the Empire. Let the Emperor Pu Yi make the affairs of the Empire of the first importance, and to this end let him be adequately instructed."

The edicts are considered to commit the new regime to a programme of reform.

EMPEROR'S LAST ILLNESS.

The Foreign Board denies emphatically and without qualification the rumors that either of their majesties was poisoned, and declares that death was due to natural causes. The Emperor made a speech less than one hour before his death. He passed away during a period of the greatest excitement and confusion. His native physicians had been temporarily dismissed under the impression that there was no change in the condition of His Majesty, and that he might live for some time. There was a sudden turn for the worse, however, and they were quickly recalled. They gave orders in accordance with a custom the Imperial family has observed for centuries past, that the Emperor be dressed for death, and the Imperial yellow flag be spread over the road leading from the winter palace to the Forbidden City. At the same time an imperial conveyance was made ready to convey the Dowager Empress to the death chamber.

The last illness of the Dowager Empress was dated from November 1 and on this day the court was terrified by an outbreak of uncontrolled temper from the Emperor. On the 12th of November she suffered a paralytic stroke upon being informed of the precarious condition of the Emperor. On November 13 Prince Ching returned from her mausoleum in the Eastern Hills, whither she had sent him to make a religious offering, in the hope of propitiating the ghost that, in her dreams, had beckoned her to follow him out to these hills.

THE COMING OF THE REAPER.

An official of high standing said yesterday that the Empress had died of apoplexy and that she was able to talk, and did talk up to within a few hours of passing away. Both their Majesties awaited the coming of the grim reaper clad in their official robes and surrounded by hundreds of court officials and followers. It was a barbarous exhibition of the soulless and inhuman formality and etiquette of the court.

Soon after the deaths were announced hundreds of men, including everybody attached to the household, collected in the palace and remained there for five days.

WAILING AND PANDEMONIUM.

As soon as it was actually known throughout the palace that their Majesties were dead, a condition of panic ensued. The widow of Tung-chi attempted to commit suicide because she perceived she would not be made Dowager Empress. There was an outbreak of wailing and general pandemonium such as accompanied the giving of the order that their Majesties should be clad in their Imperial robes for death. Many of the palace eunuchs fled, carrying with them such valuables as they could lay their hands on. The Dowager Empress Yehonala was one of the few who retained their presence of mind. She ordered that the gates be guarded and gave other instructions for the maintenance and restoration of order.

THE GERMANS ARE STILL DISSATISFIED.

Appear to Doubt the Imperial Word.

NEWSPAPERS INTIMATE THAT THE EMPEROR WILL NOT FULFILL HIS IMPLIED OBLIGATION.

Berlin, Nov. 20.—Two days have passed since Emperor William made his statement to Chancellor Von Buelow regarding his observance in the future of the constitutional requirements of the Empire in the matter of interfering in the foreign relations of the State, and the German people are even less satisfied with the Imperial assurances than in the beginning. There is throughout the country an almost universal tendency to doubt the sincerity of the Emperor's promises. In fact the people seem to be thoroughly dissatisfied with the Imperial assurances as conveyed by the Reichsanzeiger. The press does not hesitate to intimate that the Emperor will not fulfill his implied obligation to leave the conduct of the nation's affairs to the responsible ministers and in some quarters his words are almost classified as untrue.

The matter will not be allowed to rest by the Reichstag, if the indications of yesterday are fulfilled, and there is reason to believe that the contest between the Crown and the people has only begun.

Chancellor Von Buelow made a lengthy speech in the Reichstag on the new measure to increase the Imperial revenues. The house was only half filled. He spoke in praise of the British and French methods of finance, especially the sinking fund, and concluded, amid mingled cheers and hisses, with these words: "Germans desire quiet at home and abroad, but their fault is that, although able, they are unwilling to pay more taxes."

C. P. R. MECHANICS.

FINANCIAL ASSISTANCE FOR STRIKERS WHO HAVE NOT BEEN TAKEN BACK.

Winnipeg, Nov. 20.—The C. P. R. mechanical unions have decided to extend financial assistance to their brethren on the eastern division who have not been taken back to their former employment following the strike. Every union man in the local shops when he drew his pay this week, handed one dollar as the nucleus of a fund to be contributed to the needy mechanics in the east.

"I'm for woman's suffrage," declared Miss Prettyjohns. "I want a vote." "Wait! I've an idea," said Mr. Bright. "Let us pair off and then it will amount to the same thing."

BROMPTON CO. SAVES ITS LOG DRIVE.

All Between Lennoxville and Brompton Goes to Mill.

BALANCE HAS BEEN PILED ON THE RIVER BANKS.

The Brompton Pulp and Paper Company has met with a good deal of success in getting its pulpwood down to the mills.

It is stated that by to-morrow all the wood which has been hung up between Lennoxville and Brompton will have reached its destination.

That between Lennoxville and Angus, some three or four thousand cords, has been piling on the banks of the river awaiting the return of high water to float it down.

It is now assured that the company will not lose any of its wood through freezing in the ice.

COLLEGES MAKE DRUNKARDS, HE SAYS.

"WINE, WOMEN AND SONG" IN STUDENT LIFE SEND MEN TO SLUMS, DECLARES ONE WHO HAS REFORMED.

Chicago, November 20.—Higher education was given as a cause for the filling of prisons by E. C. Mercer, a reformed drunkard, now engaged in evangelistic work, who addressed the students at Northwestern University. "During the last few years I have been working in the Water Street Mission in New York," he said, "and I have learned that one-third of the men who came there ragged and dirty and begging for food were college-bred. I have found them on the Bowery making up beds and waiting on table, and I have even met them in the street-cleaning brigades. During February of last year more than 400 of them stood in the 'bread-line' at our mission. Seventy-five per cent of the prisoners at Sing Sing prison are college-bred men."

"Wine, women and song" in college life are responsible for this condition, I could name man after man who because of that desire for strong drink cultivated while at college has pursued a downward course."

THOSE ARMY RIFLES.

A PROTEST FROM LAKE MEGANTIC — DANGEROUS WEAPON.

Local hunters and rifleman earnestly deprecate the use of certain foreign army rifles in our woods. These deadly weapons will kill at over a mile, and their low cost places them at the command of all and sundry and especially are they tempting to boys and others entirely unfamiliar with the use of firearms, who having secured the dangerous gun rush off to the woods "to kill something." In the woods the slightest movement of the bush draws their fire in that direction—they are all excitement, "buck fever" or what not—they fire without the slightest reason or care, and many alleged "accidents" are the result. Surety young persons, at least who are too young to be criminally liable in case of such "accidents," are too young to be allowed to carry a rifle in the woods. There should be an age limit; and certain classes of rifles only should be allowed to the sportsmen for the game our woods afford, while certain "army" and other rifles should be penalized and their use in the woods prohibited by the authorities. A rifle to kill at 250 or 300 yards is powerful enough for the destruction of any game which allows the hunter to get within that distance. Where this is the case the use of a deadly rifle killing at nearly two miles, should be made illegal.

SIR WILFRID LAURIER GOES SOUTH TO-DAY.

Date of Opening of Parliament Not Decided.

FALLING OFF IN REVENUE WILL FORCE POLICY OF ECONOMY.

Ottawa, Nov. 20.—Preliminary to Sir Wilfrid Laurier's departure for the South to-day, there was a meeting of the Cabinet yesterday afternoon. It is understood that the fixing of a date for the opening of Parliament was left over until the return of the Premier, about the 5th of December, but undoubtedly the event will occur as early as possible in January. There is an impression that the vacancy in the Cabinet caused by the defeat of Hon. Mr. Templeman in Victoria, will be filled before the House meets, and that Sir Wilfrid will offer the portfolio to Mr. Ralph Smith, the member for Nanaimo.

Among the appointments to be announced shortly as a result of yesterday's decision in council is that of Mr. Parmelee, ex-M.P., to be King's Printer.

At the meeting of the Cabinet there was general discussion of the legislative work for the coming session. The programme, however, will not be definitely marked out until the return of the ministers to the Capital next month. It is not expected that the session will be a heavy one in point of legislation, and it is hoped that it will be a comparatively short one. The insurance bill, left over from the last session, will be one of the important subjects which the members will be asked to deal with. There will also be a bill to create a portfolio of labor, preliminary to the calling of Mr. W. L. Mackenzie King to the Cabinet. It is possible that legislation will be proposed to amend the rules of debate in the Commons with a view to expediting business and preventing useless prolongation of debates.

INQUEST IS HELD AT RICHMOND.

Verdict in Accordance With Circumstances Returned.

BOTTLE OF CARBOLIC ACID FOUND IN THE ROOM, BUT CONTENTS UNTOUCHED.

Owing to the inability of Dr. Bachand to be present at the inquest held in Richmond yesterday in connection with the death of W. E. McLellan, it was conducted by his son, Deputy Coroner, C. Bachand.

The coroner's jury was composed of the following: Samuel McMorine (foreman), Thomas McCourt, P. Cleveland, Alfred Rainback, J. A. Goyette, Wm. Roy. After all the evidence available had been received from the people who first found the body and from the evidence of Dr. Richard Delaney Johnson, the jury rendered the following verdict in accordance with the facts, namely that on November 15th, at Mrs. Fynan's boarding place, in his own room, he wilfully ended his life by hanging himself to the bedpost.

Messrs. Peter Stewart and O. L. Fuller were the principal witnesses and stated that they were the ones to open McLellan's door, and on entering they found him hanging to the bedpost.

Dr. Johnson stated to the jury that he was called at about 7.30 p.m. and went immediately to the scene of the tragedy. He was accompanied by Mr. J. V. Brooks, who on entering the room, cut the rope. Dr. Johnson also stated that the body was lifeless and had been so for several hours when he arrived.

A bottle of carbolic acid was found in his room, but upon examination, it was found that the unfortunate victim had not taken any of the poison. The letter left by McLellan was written in lead pencil and had the appearance of having been written in haste.

Built on the Same Lines! as the "Sygnet"

WILL PROBABLY MAKE ITS FIRST FLIGHT TO-MORROW.

Hullifax, Nov. 20.—Professor Alexander Graham Bell's immense tetrahedral aerodrome on the construction of which experts have been busy all summer, is completed, and a trial flight will likely be attempted to-morrow. The new aerodrome, which was built under the supervision of W. F. Baldwin, chief of Prof. Bell's staff, is on the same lines as the "Sygnet," in which Lieut. Selridge, of the United States Signal Corps, made several successful flights last December, but is much larger and carries a number of improvements which the experiments with the "Sygnet" and other airships suggested to Prof. Bell. It contains 5,000 tetrahedral cells. If weather permits it is expected that the first test with the new aerodrome will be made to-morrow. Lieut. Selridge, made to-morrow at Cape Breton headquarters of the Canadian inventor, will likely be chosen to make the initial flight.

ORIGIN OF TWO SAYINGS.
The story of a down east farmer, who put a cat in a bag and sold it for a pig gave birth to two sayings: First, "Never buy a pig in a poke," "poke" being related to "pouch," meaning a sack or bag. This expression was the moral drawn by the purchaser of the pig after he had "let the cat out of the bag."

BONUS PROPOSITION AT RICHMOND

Aid for Establishment of a Furniture Industry.

MEETING OF RATEPAYERS MONDAY—EXEMPTION AND GUARANTEE OF BONDS.

Richmond, Nov. 20.—(Special.)—On Monday, Nov. 23rd, the ratepayers of Richmond will convene at the Town Office to consider the various provisions of by-law No. 93, and demand a poll if they see fit. The purpose of the by-law is to assist the Richmond Furniture Company in the establishment of a new industry in the town of Richmond. Besides the usual municipal exemptions from taxes and a 25 per cent. reduction for a period of 10 years, the by-law provides for material assistance, which takes the form of a guarantee furnished by the corporation upon the Richmond Furniture Co.'s bond issue of \$25,000. These bonds are payable semi-annually, bearing 4 1/2 per cent. interest for a period of 25 years. Prior to granting this guarantee, and in order to protect its own interests the corporation will exact a first mortgage for \$25,000 upon all the real estate, plant and machinery of the company. On its part the company will erect and equip a building and plant valued at not less than \$35,000, the whole subject to the approval of the expert advisers of the corporation. Furthermore, the company agrees to maintain \$25,000 insurance on the plant.

It is the intention of the corporation to employ not less than 50 hands daily for 25 years thereafter. In the event of failing to fulfill its obligations the company will forfeit all privileges and exemptions and the mortgage shall become exigible in favor of the town. Industrial experts are called in to advise the best interests of the town, and we have but to look around us to see the progress and thrift of less favored towns which are giving considerable encouragement and impetus to manufacturing enterprises. Richmond is an advantage to locate, particularly for such business as it is proposed to establish, good railway connection, and the raw material in abundance near at hand. It is worthy of note in connection with this proposed by-law that the Richmond Furniture Co. authorized its stock to be sold at \$40.00 of which has been already subscribed by citizens of Richmond and vicinity. It would not appear a hazardous enterprise for the ratepayers to support a proposition backed in greater part by the townspeople and there is every reason to conclude that the progress of business men of the town who are so largely interested in the company are capable of bringing the enterprise to a successful issue.

On a poll being demanded the voting will take place the 25th and 26th inst. A by-law of such importance should necessarily attract the serious consideration of all the ratepayers who should make it a duty to record their votes on polling day. There can be little doubt that the establishment of three or four live industries would help to develop the town.

DEAFNESS CAUSED BY RAGE.

The famous composer, Beethoven, gives the following explanation of his deafness:

"I was writing an opera. I had to deal with a very tiresome and capricious tenor. I had already written two great arias to the same words, neither of which pleased him, and a third, which he did not care for the first time he tried it, although he took it away with him. I was thanking heaven I had done with him and had begun to settle myself to something else which I had laid aside. I had hardly worked at it for an hour before I heard a knock at the door, which I recognized as that of my tenor."

"I sprang up from my table in such a rage that, as the man came into the room, I flung myself upon the floor, as they do in the stage, (there he threw up his arms and gesticulated in illustration) but I fell upon my hands. When I got up I found I was deaf—and from that moment I have remained so. The doctor said I had injured the nerve."

GRIM HUMOR.

Harry Furniss continues his series of stories illustrating "The Comic Side of Crime" in the December number of the Strand Magazine. One story, which for grimness has rarely been beaten and for the truth of which he vouches, is the following. It was related to the famous Punch artist by an old friend who was the colonel of a Sikh regiment in India. "The officers," says Furniss, "were much annoyed by some native hanging about the mountain above their camp and sniping them with a rifle. Bullets occasionally came through the officers' tent and rendered matters somewhat alarming. The colonel sent for his orderly, a native soldier, and said he wanted a squad to go over the mountain that night and catch the miscreant who was annoying them. The orderly saluted, and begged to be allowed to act alone, assuring his colonel that he would soon catch the culprit. The officer, admiring his pluck, agreed, and the next morning the soldier walked in with the head of the sniper. The officers were loud in their praise of the soldier's valor. "Oh, sirs, I had no difficulty," he said. "You see, I knew his ways. He was my father."

You Have Perfect Control of the Heat

with the "Premier Royal" Range. The Oven-Heat Indicator shows the exact temperature of the oven. The glass covered dial is on the outside of the oven door so you can see what the heat is without opening the door.

Another "Premier Royal" improvement is, One Damper that does the work of two. The temperature of both fire and oven may be accurately regulated simply by moving a knob on top of the stove to any one of the three positions:

The kindling position is marked "KINDLE."
The baking position is marked "BAKE."
The position for checking fire is marked "CHECK."

Write us direct if your dealer cannot show you one of these ranges. Meanwhile don't be persuaded to buy another make, until you have received our booklet which will be found interesting. The superior qualities of the "Premier Royal" Range are clearly pointed out in plain language and by the novel illustrations used.

Letters to the Editor

CHURCH OF ENGLAND SERVICES BY FIRE AT FERNIE, B.C. To the Editor of the Record: Dear Sir—May I beg the use of your columns to make an appeal to the members of the Church of England throughout Canada, on behalf of their fellow members in Fernie, B.C., who have lost their homes and their Church in the recent disastrous fire.

My appeal is for the re-placing of the Church and furniture, as this must be done through outside assistance, the unfortunate people having all they can do to rebuild their homes.

The Rev. R. S. Wilkinson, feels much discouraged at the isolation in which he finds himself from the great body of sympathizers who would come to his relief if they could be reached.

This is pre-eminently a case in which the strong are called to come to the relief of the weak. In the body if one member suffers all the members suffer with it.

Table listing financial details: Value of Church \$8940.00, Furniture, etc., in Church 2000.00, Value of Rectory 2500.00, Less Insurance 13740.00, Mortgage on Rectory and other debts 1300.00, Total 8940.00.

At the time of writing he had received the sum of \$385.25.

In making this appeal to all the dioceses my hope is that a very large number will gladly send small subscriptions. The total sum of \$9,000 will meet all the necessities of the case and provide a building of non-combustible materials. A cement basement with reinforced concrete floor is already being proceeded with.

Very faithfully yours, ARTHUR TORONTO, Primate of all Canada.

THE VIRGIN'S TREE.

J. A. van der Stok, writing in the Christmas Strand Magazine, describes a curious tree which grows in the little Egyptian village of Matariyah, which is partly built on the ruins of Heliopolis and situated about four-and-a-half miles to the north of Cairo.

It is certainly something for every farmer in Canada to think of and be broad enough to make it available for the best good.

THE GOOSE HONKS HIGH.

On Saturday Mr. Jack Horan added a few tame geese to his stock of feathered birds, and being strange, he kept them in captivity during Sunday. On Monday morning they were given their freedom with the rest of the flock, and it is not really known whether they had determined to immigrate to southern latitudes, at any rate they suddenly took wing and sailed towards the town.

Deaths Reported.

DAVID YOUNG, FORMERLY OF LAKE MEGANTIC. Lake Megantic, Nov. 20.—(Special)—News is to hand of the death after a protracted illness of four months, of Mr. David Young, second son of Mr. and Mrs. John Young, formerly of Lake Megantic, which took place at his father's home at Kintore, Victoria County, N.B., last Monday, Nov. 16th at the age of 32 years.

NEW FACTOR IN VERMONT POLITICS.

Farmers Are Now Making Their Power Felt.

THEY CONTROL THE SITUATION IN LOWER HOUSE OF THE STATE.

Rock Island, Nov. 20.—(Special)—Eight years ago the farmer members of the Legislature of Vermont organized a Farmers' Club, and each session since has perpetuated this movement. This year this Club has sufficient membership and individual members of sufficient ability as leaders to control the Lower House.

There has been a strong effort backed by the State administration to repeal the law that provides for an Agricultural Commission of five for the State, and the passage of a measure that places this work in one man's hands, he to devote all his time to it and be supplied with funds for carrying on the work, by an appropriation of \$5,000 annually for the purpose.

Mr. Wilkinson states the loss incurred by the Church property as follows: Value of Church \$8940.00, Furniture, etc., in Church 2000.00, Value of Rectory 2500.00, Less Insurance 13740.00, Mortgage on Rectory and other debts 1300.00, Total 8940.00.

At times it looked as though the case would be settled out of court but some hitch always occurred just when the various interests were about to reach what looked like a mutually satisfactory basis.

THE FAMOUS STEEL-COAL CASE.

The Last Stage of the Case Commenced Yesterday.

THE CASE WAS TAKEN UP BY THE PRIVY COUNCIL IN ENGLAND.

Montreal, Nov. 20.—The last stage of the famous Steel-Coal case which has occupied the attention of the whole Dominion and has been the cause of several sensational flurries in the stock market, commenced to-day, when the suit was taken up by the Privy Council in London, England.

Both sides appear confident of victory and it is impossible to form any conjecture as to the outcome of the hearing.

The hearing of the suit between the Dominion Iron and Steel Company, and the Dominion Coal Company before the Privy Council, makes the third one in the big fight between these two Canadian corporations. The original action was instituted by the Steel Company against the Dominion Coal Company for alleged breach of contract to supply it with a certain amount of coal suitable for steel purposes each month.

At times it looked as though the case would be settled out of court but some hitch always occurred just when the various interests were about to reach what looked like a mutually satisfactory basis.

DOLPHIN HUNTING AN EXCITING SPORT.

In the Wide World Magazine for December, Victor Forbin, a young French journalist, gives a vivacious account of the curious sport of dolphin-hunting, of which practically nothing is known in this country, though the sport is old to the Malouins—the inhabitants of St. Malo. Several species of dolphins are to be met with near the shores of Brittany. The largest is known as science as Delphinus delphis, and differs from other varieties by its long jaws—very like the beak of a big bird, and armed with about sixty teeth as hard and sharp as steel. Its length may reach nine feet, and it weighs from three to four hundred pounds. A swift swimmer, it follows them right up to the Scottish waters. In spite of its greed, it is noted for its mild temper and frequently amuses itself by playing around ships in the open sea. Then there is the Delphinus tursio, or scouffeur. This is smaller, and its beak is shorter, though armed with strong, powerful teeth that enable it to attack a big fish, pinning it down to the rocks with such force that its nose is often deeply marked with numerous cuts. This dolphin hates the very sight of a ship and never comes close to one. Finally there is the porpoise, or marstin, the smallest species of the genus. Much sport may be obtained by hunting these various dolphins, and the account given by M. Forbin will possibly tempt visitors from the States to try their luck in "porpoise-shooting" in the waters of Brittany.

NEW STYLE OVERCOAT. \$20.00.

Here's a neat & comfortable Appearance

Look at the style, material and finish of these garments—Dressy, clean looking and comfortable.

Look at the shoulders and the shape of the collar; there's no flat iron in the world can do it. The shape is lasting, because it is cut that way—there's careful work of the best material in it and the price is the nearest we can make for such work.

Remember the prices are low. This SUIT and OVERCOAT is a perfect piece of workmanship. Come in and see these styles: it's worth while to wear garments like these.

Mrs. Rupert Kaubach of Lunenburg, N.S., Miss Edith Pyle and Miss Stimpson, of Halifax, N.S., who are visiting friends in town, left this morning to spend a few days in Montreal.

Every chance is being given those who are in arrears for water to square up, but inquiry at the office reveals the fact that there are quite a number whom nothing can move except having the water cut off. Such extreme measures are only used as a last resort but if people will not settle there is nothing else left but to deprive them of water.

FORGOT WHERE HE HIRED THE HORSE AND RIG.

A very peculiar incident occurred at the American House at about 1.40 this morning when a man drove up to the hotel and stated that he had hired the horse and rig he was driving from someone and that he had forgotten who the party was.

He left the rig in care of the proprietor and went away. The man was under the influence of liquor and for that reason could not remember where he had hired the rig. The horse is still at the American House and the owner may have the same by communicating with the proprietor.

POLICE STATION NOTES.

A message was received by the police that a number of boys were sliding on the sidewalk on Montreal street. The boys were sliding on the road when the police arrived.

The police were called to the Grand Union Hotel, where a disturbance had been taking place. Everything was quiet on their arrival. A door of a well known business house was found open last night and was locked by the officer.

The ambulance was called by Dr. Lynch to meet the C.P.R. train from Halifax to convey a patient to the Protestant Hospital.

The fire brigade was called out at 4.55 for a bad chimney fire at the St. Louis Hotel. No. 3 answered the call.

SPORTING NEWS. SNOWSHOEING.

MEETING OF THE GENERAL COMMITTEE HELD LAST NIGHT.

A largely attended meeting of the general committee for the coming world's championship snowshoeing meet was held in the Monument National last night. The interest taken in this event is continually increasing and the manner in which the various committees are taking up the work insures its success.

The minutes of the previous meetings were read and adopted and the committee then proceeded to receive the reports of the various sub-committees. Mr. Desève read the report of the joint meeting of the Tuque Rouge and Sherbrooke snowshoe clubs.

The names of the following gentlemen were added to the various committees: Patrons—Rev. Father Tanguay, Dr. Parrock and Dr. Bidwell.

Judges—Judges Hutchinson, Mulvena and Demers. Reception—Dr. Darche, F. H. Hebert, Parvovoy—T. S. Somers.

Finance—C. Therrien, S. Fortier, Building—N. J. Simondeau, C. Beauchesne, Mr. Dion, J. A. Verret and C. Desautels.

Parade—J. G. Ethier, F. O. S. Denis, Dr. Williams. Sports—A. T. Boydell, J. A. Cook.

Considerable discussion took place in connection with the dates agreed upon, several being of the opinion that it would be a good thing to have the dates changed to the 4th, 5th and 6th of February, instead of the 6th, 7th and 8th. There was nothing definite decided in this connection.

It was unanimously decided that the financial committee prepare a petition to the Council to ask financial aid towards the coming snowshoeing carnival. The finance committee was also authorized to go ahead and secure subscriptions to the amount of \$2,000 or more.

The publicity committee was authorized to spend \$100 to cover immediate expenses. This committee has already taken steps to bring the carnival before the public in every way.

The programme committee was requested to prepare a programme for the coming snowshoe meet. The meeting adjourned to meet again on Thursday, December 3rd.

ANOTHER INDIAN RUNNING WONDER

THIS ONE DOES 200 MILES A WEEK ALL THE YEAR ROUND. Toronto, Nov. 20.—The woods are full of Indian wonders. The Peterboro hockey player, now of Edmonton, who was one of the men behind Fred Simpson when he first jumped into the running race, has another Indian in view for the Hamilton Herald race at the end of the year.

He is Fred Fraser, an Arctic Circle Indian, who does 200 miles a week, week in and week out, the year around, with a dog team, carrying the mails north from Fort Chipewyan Island.

"Fraser is a big fellow like Fred Simpson, but better built," said Whitcroft this morning on his way to Toronto with the nucleus of the Edmonton hockey team for the Stanley Cup series.

"He's won the only two races he ever entered. In the past he did 10 miles in 41 minutes, running in moccasins. I saw him go five miles over a sandy track in 28 minutes. He is a natural runner, with a grand wind and is tireless. He is 21 years of age, and should be right for this Hamilton race next fall. We'll win that cup yet from the West."

Whitcroft does not know much about Acoos, the other western Indian wonder.

MAD RUSH FOR SEATS. MORE THAN 75,000 PERSONS UNABLE TO SECURE TICKETS FOR YALE-HARVARD GAME.

New Haven, Conn., November 20.—More than 65,000 people who want to see the Yale-Harvard football game here Saturday will be disappointed, according to estimates made Wednesday night.

There at least 50,000 persons of the general public whose wish to get tickets must be ignored. There are fully 25,000 more New Haveners, Yale alumni, and undergraduates who are usually included in the list allotted tickets who cannot be cared for this year.

The rush to secure seats for the game has become almost maddening. The Yale football officials announced yesterday that they had returned \$10,000 that was forwarded and accepted conditionally for tickets, and unable to be retained because tickets do not exist to fill the demands. They estimate that they must send back \$20,000. The sum sent when it seemed certain that each alumna and undergraduate could be awarded three tickets. When the number had to be cut down to two the extra \$2 for each odd seat had to be returned.

Yale has taken up the pressing need of a stadium, and while the Athletic Committee say that they cannot yet state definitely that one will be built soon, they believe that the game Saturday will be the last Yale-Harvard match which will be played in the present wooden enclosure. The fact that it has been necessary to cut down the number of tickets available for Yale and Harvard alumni and undergraduates to two each has thoroughly aroused Yale men, and a demand has been sharply voiced the past few days that the Athletic Committee proceed with plans for the proposed structure.

Sales have been looked over and one that has found favor is situated in Hamden, between New Haven and Hartford, just off the line of the New Haven & Northampton Division of the New Haven Road. It can be reached by two trolley car lines and is favorably considered by many prominent Yale athletes advisers. Other sites have been

HON. P. H. ROY'S TRIAL.

FIRST GAME DEC. 28TH.

STANLEY CUP TRUSTEES ORDER EDMONTON TO PLAY WANDERERS ON THAT DATE. Montreal, Nov. 20.—Montrealers will have their first taste of senior hockey at the Arena on Monday, December 28th, with the first game of a Stanley Cup series between Wanderers and Edmonton, and on Saturday, January 1st, league hockey will open, but whether with professional or amateur teams on the ice is yet to be decided.

BOWLING.

STRIKERS DEFEATED BY THE CUBS LAST NIGHT. The Strikers were defeated by the Brigadiers in last night's bowling match. The both teams were of color and as a result very poor scores were registered. This puts every team in the league on an even footing and the final outcome will be watched with interest.

SPORTING NOTES.

The Bishop's College Basketball team open up the season by playing the first match in the Eastern Townships Basketball League against Stanstead College to-night.

The Tiger hockey club will hold their regular meeting at the Massey House tomorrow night. The officers of the club will be elected and the players chosen.

CARNEGIE FOUNDATION.

CANADA REPRESENTED BY PRINCIPAL PETERSON AT MEETING OF TRUSTEES. New York, Nov. 20.—Wealth is in itself no ground for honoring a man. It is of value to the community only as it is put to service, and it is only the man who puts to service that which he has either of wealth or of ability in some other line that he has a right to claim the friendliness and good will of the community.

These sentiments, expressed by Mr. Andrew Carnegie, sounded the keynote of the annual meeting of the trustees of the Carnegie Foundation for the Advancement of Teaching, which was held at the headquarters of the Foundation here.

Mr. Carnegie again made clear his purpose to have the revenue from the fifteen-million-dollar fund donated by him to the Foundation be expended in the most judicious manner for the benefit of the heretofore retiring college presidents and teachers, and in no sense a charity.

President Eliot, of Harvard, presided at the meeting as chairman of the board of trustees. Dr. Eliot will himself receive the annuity prescribed for all retiring college officials of the highest rank and class, that is, four thousand dollars per annum, will be paid, according to custom, through the treasurer of Harvard University.

Other prominent university presidents at the meeting were David Starr Jordan of Leland Stanford, and Arthur D. Hadley, of Yale, Jacob Gould Schurman, of Cornell, and Woodrow Wilson, of Princeton.

As the representative of Canada on the board, there was Principal William Peterson, of McGill University, Montreal.

As yet Massachusetts State University is the only one of that state institution which has qualified for retirement annuities under the terms of Mr. Carnegie's donation.
