TEXT OF NOTE IS MADE PUBLIC
British and French Premiers'
Missive to President Wilson
On the Adriatic Question

Washington, D.C., March 5.—The text of the note from the British and French premiers on the Adriatic situation to which President Wilson's reply was delivered in London today, was made public tonight by the State Department. It conforms closely to the summary cabled from London, February 27, and emphasized the importance attached by the Premiers to the fact that Mr. Wilson had previously "expressed his willingness" to accept a settlement arrived at by direct negotiations between Italy and Jugoslavia.

It has been assumed here that the President's reply will be found on publication to deal mainly with the invitation of the Premiers that he join them in formally proposing such negotiations to the Italian and Jugoslav Governments. No intimation of his answer, however, has been given out and owing to the fact that it was necessary for the President's most recent note to reach Premier Millerand in France, it will not be made public until Monday.

The Premiers' note after reiterating that they "have never had the intention of making a definite settlement of the questions raised without obtaining the views of the American Government," adds that the further "explanation of the view" contained in the President's memorandum is for them "a matter of very great interest and importance."

"All the more so," the note continues, "since it shows that the United States Government do not wish to disinter themselves from the general question of peace."

In expressing agreement that direct negotiations between those people "would be the ideal way of settling the question," the Premiers said they were ready to withdraw their settlement proposals of December 9 and January 29, as they felt "that if the two parties principally concerned believe that the various Allied and Associated Powers are committed to supporting them in any particular solution it will be more difficult to secure a voucher for agreement between them."

In accordance with this feeling, President Wilson was invited to join the Premiers in proposing that the "settlement" proposals of December 9 and January 29, as they felt "that if the two parties principally concerned believe that the various Allied and Associated Powers are committed to supporting them in any particular solution it will be more difficult to secure a voucher for agreement between them."

In conclusion the note said a speedy settlement of the Adriatic dispute, a dispute which is now "gravely threatening the peace and delaying the reconstruction of South Eastern Europe" was urgently necessary.

WILL STUDY RENEWAL OF BIG CITY LOAN
Special Private Meeting of the Finance Committee Called This Morning

DEFENDS IRISH ADMINISTRATION

Ian MacPherson Tells Commons That the Situation is Tremendously Dangerous

London, March 5.—Ian MacPherson, Chief Secretary for Ireland, rebutting in the House of Commons last night attacks on the Irish administration, said: "It is obvious we are up against a tremendously dangerous situation in Ireland."

He added that the Sinn Fein had at least 200,000 men prepared to commit murder at any hour of the day or night.

Secretary MacPherson asserted he had received letters from Loyalists in the West and South of Ireland, begging the Government to take steps to get them out of the country. The Easter rebellion of 1916 had not been stamped out, he said, and had left behind it a spirit more malignant and revolutionary than Ireland had ever known.

Basils of Comment. London, March 5.—The speech of Sir Horace Plunkett at Dublin last night in which he sharply criticized the new Irish Home Rule bill, taken with Ian MacPherson's defense of the Irish administration in the House of Commons formed the basis of comment in some of the morning newspapers.

The Daily News, severely condemning the "new Home Rule measure," asks: "Can the Irish Home Rule measure be anything but a disaster to the Irish people?"

"The Post charges Viscount French, Lord-Lieutenant of Ireland, with responsibility for the present 'shameful' position. The newspaper tells the Viceroy his duty is to order that after a given date all proven guilty of crimes or violence be court-martialed and shot. Otherwise, the Post says, he ought to resign."

"Viscount French was appointed to govern Ireland," the Post declares. "He has failed. He must know he has failed, and it is inconceivable how he justifies his continuance in office."

PHYSICAL INSPECTION. Calgary, Alt., March 5.—To make children by public health nurses children by public health nurses obligatory next year, and universal in the province within three years, is the objective of Hon. A. G. MacKay, Minister of Public Health for Alberta.

QUEBEC APPEAL IN THE SUPREME COURT. Ottawa, Ont., March 5.—In the Supreme Court this morning in the Quebec appeal of Breakley vs. the Corporation of the Township of Mergemette Nord, a motion was made to quash for want of jurisdiction. The question in issue is the contestation of a valuation role and whether the right to cut timber on limits is an immovable right or not.

Romeo Langlais, K.C., for the motion. Louis St. Laurent, K.C., contra. Judgment was reserved.

TWO CONVERTS WILL JOIN THE CROSS-BENCHERS

Dr. Clark and Major Andrews To Vote for the Amendment

CLASS LEGISLATION The Can. Manufacturers Have Always Had Members In the House

Ottawa, Ont., March 5.—Cross-benchers in the House acquired today a new name and a convert. The "National Progressive Party," so Dr. Clark, of Red Deer, referred to the movement led by Creair; and speaking a little later, Major Andrews, of Winnipeg, announced his intention of voting for the Opposition amendment, then of passing over to the cross-benches. On several occasions, last session, Major Andrews took his seat on the cross-benches. He told the House today how when last he cast a vote against the Government, he placed his resignation in the hands of his constituents. They declined to accept it. They gave him a free hand. Now, therefore, although he did not like this sort of thing, he would join the cross-benches. He would feel freer there, Major Andrews, it may be added, is the first Government member to announce his intention of supporting the amendment.

Previously Dr. Clark strongly disclaimed any intention, on the part of the "National Progressive Party," of class legislation. "Had there been no class legislation before," Dr. Clark asked. Yet there was "holy horror" when the Government began to talk. What about the Canadian Manufacturers' Association? Dr. Clark pressed. "So far as I have been able to see," he went on, "nine-tenths of the activities of that body are political activities."

Mr. Middlebro, of North Grey, interposed a question: "Would you approve of the Canadian Manufacturers' Association putting candidates in the field?" he questioned sharply as ministerial members cheered.

There were counter-cheers from the cross-benches as Dr. Clark replied: "The Canadian Manufacturers' Association always had candidates in the field and members in the House."

Mr. Middlebro retorted that the answer was no reply. On this Dr. Clark responded that certainly he was not in favor of the Canadian Manufacturers' Association putting candidates in the field. But were there not already "interests" in politics? The battle of the farmers was the outcome of conditions under which they lived and "surely it is time for a little more honest democracy at home." Dr. Clark announced that he too would support the amendment.

Two other cross-benchers Mr. MacNutt, of Salt Coats, and Mr. Levi Thomson, of Qu'Appelle also contributed to the debate before the House rose at six o'clock to adjourn till Monday. Mr. MacNutt in the course of his remarks, submitted a scheme of redistribution based on an estimated increase of 1,718,738 in population. Such an increase Mr. MacNutt said, would give a total House membership of 247 with an increase of 15 seats for the four Western provinces.

MANY TOURISTS. Winnipeg, Man., March 5.—Figures gathered from various authoritative sources on the tourist traffic indicate that 12,000 persons from the prairie provinces spent the early part of the winter in California. At least approximately that number purchased tickets from the three middle west provinces for destinations located in the tourist resorts. A local business man who returned from a trip to the Canadian and American Coast Cities declared that many of the Canadians had found the drain on their purses from the rate on exchange and high prices more serious than they had anticipated and were returning to spend the remainder of their winter vacation in Vancouver and Victoria.

COLLECTION OF ROYALTIES WOULD KILL FUR TRADE. Winnipeg, Man., March 5.—Claiming that collection of royalties would "kill the fur trade," representatives of the Manitoba Fur Dealers Association have protested to the legislature against the amendments to the Game Protection act, imposing a royalty on furs taken in Manitoba and to a provision requiring all imported skins to be accompanied by affidavits as to place of origin. The fur men maintain that as Saskatchewan and Alberta have no such laws, the fur trade will centre in future in Prince Albert or Edmonton if the legislation is enacted.

WILL BE ILLEGAL. Edmonton, Alta., March 5.—Taking telephone orders in stores which are closed according to city-by-law will be illegal if a proposed charter amendment weathers the legislature. City officials proposed to put an ironclad definition on the word "closed," which will leave no room for doubting its meaning. It is claimed that some stores have been doing business after closing hours by utilizing telephone service. This to some extent nullifies the aim of the early closing act, so a charter amendment is needed.

MOTOR TRANSPORTATION. Winnipeg, Man., March 5.—Motor buses will be the prevailing system of transportation in Winnipeg within seven years, J. G. Glasco, manager of the City Light and Power Department, predicts. He said he believed the present street car system will be obsolete by that time and that rails would be removed from the streets.

MACKENZIE KING HURLED THREAT

Will Invite People to Rise If the Government Defeats Amendment

Ottawa, Ont., March 5.—(Can. Press)—That if the amendment calling for a general election is defeated by the Government when the vote is taken probably Tuesday night the Liberals would go across the country from the Atlantic to the Pacific and expect the people to rise up with them and demand that the Government resign was the statement of Hon. W. L. Mackenzie-King, leader of the Opposition, addressing the annual convention of Eastern Ontario Liberals in St. Patrick's Hall here tonight. "The people of Canada have been grossly deceived and they are asking today for a chance to express themselves. Any member of the House who votes for a continuation of the present administration is defaming the name of Liberalism, no matter whatever excuse he may seek to give," Hon. Mr. King declared. "The people are in a state of unrest, mainly because they want a chance to govern themselves. This right to govern themselves is one of the fundamental principles of Liberalism. I am prepared to trust the people and I believe with Gladstone that the true meaning of Liberalism is to trust the people and qualify it with prudence. Today we have on Parliament Hill what Gladstone described as the opposite of Liberalism, mistrust of the people, qualified with fear."

Referring to what he termed new parties, Hon. Mr. King exhorted his hearers to examine their policies very closely and not to be alarmed by their presence. "If they stand for what is right, and just and the principle of their Government by the people themselves, then they are Liberals no matter by what other name they may call themselves."

"Liberals are not opposed to the farmers. They are not opposed to the men who are opposed to any one class seeking to obtain privileges for themselves which they are unwilling to grant to the masses," he said. Lady Laurier before the speeches were delivered, was presented with a beautiful bouquet. It was also said that the first issue of the new Liberal organ will be issued tomorrow.

MEMBER RESIGNS. Victoria, B.C., March 5.—M. H. Blyden, who has been a member of the British Columbia Land Settlement Board since its inception and chairman for more than a year, has resigned. No reason is given.

PUT ALBERTA ON MAP. Edmonton, Alta., March 5.—To put Alberta on the financial map of Canada, with a bank of its own that shall be a recognized provincial institution is the object of a movement now afoot for the organization of the Bank of Alberta. Notice has been given that an application will be made at the approaching session of the Dominion Parliament for a charter to such a bank, and it is expected that a favorable reception will be given it, that the charter will be ready to open business in probably six months' time.

MAID SERVANTS DEMAND TWO CIGARETTES A DAY. Rome, March 5.—The maid servants have held a mass meeting at Ferrara and have unanimously adopted a resolution regarding their claims. These include among others the demand for a fortnight's vacation so that they may go to the seashore at the expense of their employers, who during that time must pay them double wages owing to the expenses at summer resorts. They also demand two cigarettes daily throughout the year.

SENATOR ROSS IMPROVING. Regina, Sask., March 5.—Hon. Walter Scott, ex-Premier of Saskatchewan who is accompanying Senator J. H. Ross on a trip around the world for the benefit of the latter's health, states in a letter received by a friend here that Mr. Ross is distinctly improving in health. They left San Francisco shortly before Christmas, spent eight days in Japan, arriving at Manila, where the letter was sent from, on Jan. 3. They intend visiting Egypt and India, thence across the Mediterranean to Italy, and across Europe through France and England.

FAVORS RETURN TO PENSION STATUS. Ottawa, March 5.—Colonel John A. Currie, has filed a motion in the Commons favoring the return to the pensions status on the Grand Trunk and associated railways of all men employed thereon, who were penalized for taking part in any strike by having their pension standing reduced, and that the arbitrators in connection with the taking over of the Grand Trunk be instructed to take into account as a debt the amount required to make good these pensions.

HOLLAND AGAIN REFUSES TO GIVE UP KAISER BILL

Promises to Prevent Him from Endangering Peace Of the World

RIGHTS OF FUGITIVE Supreme Duty to Respect the Constitutional Laws of Kingdoms

The Hague, March 5.—The Dutch Government today for the second time refused to deliver the former German Emperor to the allies for trial. In a note addressed to David Lloyd-George the British Premier, however, the government promised to take all necessary measures to minimize the liberty of Wilhelm and prevent him from endangering the world's peace.

The second communication from the Dutch Government, which was delivered in London this morning states that these precautions will be taken "on the spot." While Doorn is not mentioned in the text of the note, it is understood that in conversations with the Allied diplomats here the Dutch authorities have assured them that close guarding and censorship will be instituted when Wilhelm occupies his estate at that place.

The Dutch Government, while appreciating the motives actuating the Allies, declares its inability to change its previous decision. It says it is not forgetful of the inhuman acts committed during the war, but since Holland is not a party to the Versailles treaty the Queen's Government finds itself in a different position from other powers with regard to these acts. "The Government's supreme duty is to respect the constitutional laws of the kingdom," the note continues, "and it can only emphasize that it would be committing an act contrary to law and justice and incompatible with the national honor if it consented to violate the laws by abolishing the rights accorded to a fugitive finding himself on Dutch territory."

Protesting that this attitude does not put Holland outside the community of nations, the note declares Holland is fully conscious of the duties the presence of the former Emperor lays on the Netherlands Government with regard to the country's own interests as well as international security. The note protests that, contrary to the impression derived from the Allied note, the Dutch Government from the beginning has observed the obligation entailed by these duties.

The Government, the note says, will continue to do so, being able in the exercise of Dutch sovereignty to take on the spot all precautionary measures deemed requisite to subject the freedom of the former Emperor to necessary limitations. The Netherlands Government says it is anxious to place the declarations on record in the most formal manner, and in conclusion declares it to be its opinion that the declarations, which prove that the Government realizes the danger which the Powers dread, will dispel their apprehensions.

NEW INDUSTRY. Winnipeg, Man., March 5.—Winnipeg is to have a new industry one new to Canada in every sense of the word. The Manitoba Gypsum Company, Winnipeg, will in less than two months from now, begin turning out a high grade of whiting. This product, used in many trades including that of building, has hitherto been obtained almost entirely from Britain.

The Weather. Toronto, Ont., March 5.—The disturbance which was over the Great Lakes last night has moved to the Lower St. Lawrence Valley, with diminished intensity and another has developed on the Middle Atlantic coast, indicating stormy weather in the Maritime Provinces. It has turned colder throughout Ontario and continues quite cold in the West.

COLORS MAY LURE MEN TO CAPTURE

Bachelors Should be on Guard Against New Plan of Beguilement

New York, March 4—Bachelors should be on their guard against a new plan of beguilement.

Someone has discovered that men are very much more affected by color than has been supposed, or even than they themselves are aware of.

Still further, every male person has his special shade; this will have a more powerful effect than a call of the most beautiful siren.

In a general way the new scheme of capture by color is on the following lines: Where a girl has a boy putting the question she should lose no time in finding out his favorite shade. It is a mistake to wear the color at all times; rather, one should choose a special occasion for suddenly bringing the charm to bear upon the victim. Where there is warmth, soft light and dreamy music let the unsuspecting man be confronted with his color, and something will happen.

Quite a number of men are unaware of the fact that they have a special color attraction. In such cases a little test may be tried. Take your boy the round of the shop windows, paying special attention to the ones which lure the passerby with color.

Divert your companion with cheer, full talk to prevent the boredom, and he will soon become interested. Even the most practical individual will show signs of having a preference for a particular shade, and this he will pick out again and again. So the desired information is secured.

It is surely to the interest of any bachelor to discover the color which appeals to him most strongly. This he should regard as his danger shade the color that may cause him to lose his head at a critical moment.

If his favorite hue is primrose, and he is asked to take a girl in to dinner wearing just the right shade, he will surely feel an immense interest in her. To be safe, he must ask himself would the lady appeal to him just as strongly if she were dressed in blue, a color that leaves him cold.

The worst if it is, when a man is confronted with the shade that arrests him above all others, he passes into a state of mind in which cool reasoning is not an easy matter.

MARCH WEATHER DANGEROUS TO BABY

Our Canadian March weather—one day bright, but sloppy, the next blustery and cold—is extremely hard on children. Conditions make it necessary for the mothers to keep the little ones indoors. They are often confined to overheated, badly ventilated rooms and catch colds which rack their whole system. To guard against these colds and to keep the baby well till the better, brighter days come along, a box of Baby's Own Tablets should be kept in the house and an occasional dose given the baby to keep his stomach and bowels working regularly. The Tablets are a mild but thorough laxative which never fail to regulate the stomach and bowels, and catch colds which rack their whole system. To guard against these colds and to keep the baby fit. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

THE TRAMP ONCE MORE.

Itinerant hawkers, street "tricksters" and the vagrant class are on the increase. Rowton houses are full. Masters of casual wards in different parts of England are reporting a plentiful crop of "hoboes" for whom they provide lodging. And so it would appear that the war has been no more successful in driving the tramp from the roads than that "all-sweeping beam of socialistic reformation" of which Lamb is much disapproved. There are tramps and tramps, of course; there is the tramp from choice and the tramp from hard necessity, but whether he takes to the road or is forced on to it he may in either case be peer or pauper. The call of the road is heard and the response comes as delightedly from silk and satin as cotton and rags. Its lure is a good deal more primitive than class, though more productive of varieties among its brotherhood. The after-war tramp is one of them. He has his own characteristics, being described often as an unlicensed hawk of worthless articles, a fellow living by his wits, as in fact, maybe he is maligned, a worthless imitation of the old hawker whose tray was a legitimate blessing of the country-side. But even the 1920 variety of the ancient brotherhood may produce tramps—and tramps.

MATTER OF PRIORITY.

While the people of Denmark are glorying in the antiquity of their national flag, the "Dannebrog", which claims the honor of seniority among all the national flags, and are commemorating its origin in the thirteenth century, Belgian and German patriots are scouring the Middle Ages for a mission of vital import to their respective flags. The new German state has given indications of adopting for its colors black, yellow and red, disposed horizontally. This has aroused protests in Belgium, which claims priority in precisely the same colors, similarly disposed, and patriotic societies are said to be forming to take action to prevent Germany's adoption of them. The Belgian claims are based on the colors of the Princes of Flanders and Brabant in the thirteenth century, while the German case is said to rest on the use of the colors in question by the ancient Germanic empire.

Week End at Paquet's

Special values in ready-to-wear articles for ladies and gentlemen. If you are missing anything for your toilet, or if you need a complete new toilet, you will find everything here to your taste to clothe you from head to foot.

SHOE AND LEATHER MARKET IS QUIET

Attributed to Action of Packers Trying to Force Winter Hides Upon the Traders

Boston, March 5—There is a tendency among the wholesale buyers in the Boston shoe market to defer ordering next season's supply of footwear although the larger houses have anticipated to some extent, low production being a factor which compels them to order more or less, irrespective of a hoped-for drop. The situation is peculiar inasmuch as the larger manufacturers declare there is no prospect of a decline in value, and some lack their opinion by advancing their prices. Investigation shows that the variance occurs among the smaller concerns and is attributable to the difference in the method of buying, one contracting for a whole season's needs, the other buying as business requires, at current rates. Although concessions on side upper leather footwear have been allowed by a few, the firmness of calf and kid shoes is noticeable. Moreover, the condition is not liable to change in the spring, for goatskins are very high at the shipping points, and high-grade calfskins are scarce. Packer Hide Market: Business is quiet. Tanners are having trouble in the determination of the packers to force winter hides upon the traders in the exclusion of fall pull-offs. This is stated to be the primary cause of the dullness, for although inactivity usually is experienced during midwinter, the demand for leather is sufficient to keep hide buyers moderately interested.

but not enough to permit grubby, long-haired hides to constitute their entire purchase. It is thought that without an early resumption of foreign buying the prospective hide supply may be difficult to market at the packers' valuation. It is claimed that the chief hindrance to activity just now is the firm stand the holders of hides poorer quality stock now offered. Therefore it is the opinion of prominent merchants that little change at conditions will be noticed until sellers and buyers compromise on the value of the hides now being offered for sale.

Leather Markets

A shortage of leather in some of the larger factories is noted and many were obliged to close down when the receipt of leather was interrupted by the blocking of transportation. This shows that buying will continue, even though it may be done conservatively. Therefore the leather business regardless of adverse conditions.

ACCEPTED AS A SUBSTITUTE.

"How did they happen to meet?" "He ran over that puddle of which she was so fond." "Did he replace it?" "Looks that way. He and she are now engaged."—Stray Stories.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" identifies the only genuine Aspirin—the Aspirin prescribed by physicians for over nine-tenths of the cases of Rheumatism, Neuritis, Joint Pains and Pain generally. Always buy an unbroken package of "Bayer Tablets of Aspirin" which contains proper directions for Colds, Headache, Toothache, Earache, Neuritis, Lumbago, Rheumatism, Neuritis, Joint Pains and Pain generally. Tin boxes of 12 tablets cost but a few cents. Larger "Bayer" packages. There is only one Aspirin—"Bayer"—You must say "Bayer" Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoclonaloider of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

QUEBEC, MARCH 6, 1920.

PROVINCIAL HOUSING POLICY.

A purely unofficial but nevertheless authoritative explanation of the Provincial Government's Housing policy has been given to the Chronicle following upon our leading editorial of yesterday morning and we are glad to give equal prominence to the same as a matter of simple justice.

Put briefly the position of the Government representative is as follows: "There has been no real estate scheming on the part of any Minister in connection with the Housing Act. On the contrary, it has been used already to defeat two contemplated deals. The best advice available has been taken and all are agreed that the Federal Law is unsatisfactory and is failing to work everywhere."

We have sought to make the foregoing summary as fair and accurate as possible but submit that it does not in any way refute the main contentions of yesterday's article. Indeed, it admits in so many words that the Provincial Government intends to wash its hands of all share in or responsibility for the Housing programme initiated by the Federal Government.

In the first place, the Chronicle never desired to convey the impression that there was any official implication in real estate schemes, nor do we believe that our observations can be fairly interpreted in that sense. If we had intended to make such an accusation it would have been couched in no ambiguous terms.

In the next place, we do not know the identity of the experts consulted and have no wish to dispute their condemnation of the Federal Housing Act, further than to point out that the actions of other Provinces outlined by us yesterday morning does not seem to bear out their contentions as to its failure.

Again we are unaware who it is in Montreal that seems to apply for a cent of the Federal loan but we are sure it is not the thousands of people who have to pay through the nose for any kind of accommodation which is notoriously at a premium in that city.

It is not true to say that the group of citizens in Quebec who are applying for \$2,225,000 are unwilling to put up five dollars themselves; they are simply unable to do so and were deliberately selected for that reason. Even politicians have been known to die poor men without rude reflections being cast upon their intelligence or administrative ability.

Thirdly, the Chronicle heartily endorses the desire of the Administration to assist the laboring class. We do not know of many persons buying Victory Bonds who would be interested in suburban homes, although we do know of not a few forced to live in genteel poverty in order to protect their business and social positions.

Fourthly there is nothing in the nature of State

Housing in anything that has been proposed and there was no fear of the Administration having any houses upon its hands. Provided that the Municipalities act wisely there is no reason why they should not handle the money loaned but Municipalities in too many instances are susceptible to doubtful influences and we can conceive of no more promising method of encouraging profiteering than for the Government to say cynically: "Here is money, take it and spend it. We do not believe that this project amounts to anything and we want to have no more to do with it than we can help."

Finally we learn from one of the promoters of the model city at Chicoutimi that application was made as stated for permission to have the municipality administered by a General Manager and refused, though not on democratic grounds but because the General Manager might be too much under the control of the promoting corporation.

The Chronicle has no desire to criticize the Provincial Government gratuitously or to do it any injustice. Our views may be altogether erroneous and we remain subject to correction. Meanwhile it is unfortunate if so important and so urgent a problem as that of Housing should be shelved or indifferently attacked through prejudice or political disputes.

NEEDLESS OBJECTIONS.

The New York Globe reproduces an editorial from the Watertown Daily Times setting forth the farmer's argument against daylight saving, in which the main point is its interference with production. His plea is said to be economy and is stated thus:

"You can't ask a hired man to go to work before daylight. It isn't done any more. And you can't ask him to stay in the field, and therefore you can't stay yourself, after 6 or 7 in the evening. Whatever the quitting time fixed, so long as work doesn't continue till dark—and that custom is a vanished one—you lose an hour by setting your clock ahead. The city man's or woman's vote in favor of daylight saving has been won usually by that extra hour of sunlight in the evening for recreation. The farmer, says the Watertown Times, is not asking recreation. He wants to get his work done. It's a worthy ambition, and not one to be lightly set aside."

Such a statement probably sums up the views of the farmer in Canada no less accurately than it does those of the farmer in the United States. Hence it is important to remember that the agricultural worker can adjust himself to artificial time standards far more easily than the industrial worker. To all intents and purposes each farm is a unit and can be operated independently of every other farm.

Now the advantages of daylight saving in municipalities is generally admitted and for the reason given it can be ignored in the country, while still maintaining one Dominion-wide time standard, with little difficulty, unless it be in the matter of the movement of railroad trains. Accordingly it would seem gratuitous selfishness for the farmer to oppose a day-light saving law and we believe that his objections could be removed by proper representations along these lines.

Some Things the Public Would Like to Know:

Where a number of tenants are going to camp on the 1st of May next?

Why the firemen don't take advantage of a mild day like yesterday, and flush off some of the surplus dirt on our streets?

Press Comment.

THE QUEBEC CHRONICLE WAR EDITION. (Ottawa Journal)

"Canada's Shares in War, Victory and Peace" is the effective designation of an attractively illustrated edition of the Quebec "Chronicle" recently issued. In many important respects, the number is the most pretentious enterprise of its kind yet published by way of graphically describing Canada's contribution to the great war conflict in the actual offensive operations in the field.

It is peculiarly fitting that the responsibility of producing such a work should have been undertaken by the Quebec "Chronicle", the proprietor of which, Sir David Watson, K.C.B., was the outstanding representative of the newspaper profession in Canada in the Canadian Expeditionary Force. With great distinction General Watson successively commanded a battalion, a brigade, and a division, being at the conclusion of hostilities the senior divisional commander of the Canadian corps. He was, therefore, in a unique position to direct the publication of an historical edition, the dedication of which reads:

"To the officers, non-commissioned officers and men of the Canadian Expeditionary Force, who, content to die for Canada, sleep beneath the soil of France and Flanders, this short record of the Canadian Corps, is dedicated in grateful remembrance, and with proud and reverent admiration."

In this literary effort generous use has been made of the official Canadian war photographs accumulated during the war. The illustrations, numbering upwards of four hundred, constitute an excellent pictorial review of Canada's activities overseas, with particular reference to the achievements of the 4th Canadian Division. The descriptive narrative, also based on official records, portrays accurately the varied operations of the Canadian army in the theatre of war. Typographically, the number is a distinct credit to its publishers who have left nothing undone to make the production a model of printing efficiency.

It is not an easy task to do justice to Canada's part in the war within the limits of an individual publication, but The Journal can sincerely congratulate Sir David Watson and the Quebec "Chronicle" on the notable contribution they have made to this end in the edition just published.

TOPICS OF THE DAY

"If Uncle Sam wants to get out of debt all he needs to do is to turn his shipyards into ouija-board factories."—New York World.

The Dead-Line of Sedition

"It ought to be a simple matter," an Indiana editor remarks, "to mark and brand the real secessionist." But it is not a simple matter apparently for Congressmen to devise a measure which will satisfy at once those who fear that our institutions will be overthrown by seditious propaganda, and those afraid they will be undermined by interference with civil liberties.

THE LITERARY DIGEST for March 6th presents these opinions, and taken as a whole, gives a constructive basis upon which to build. While the Dayton News believes that "public meetings where the Government of the United States is attacked and insulted should be stopped everywhere and those who persist in traitorous activities should be jailed, fined, or deported, as the case deserves," the Kansas City Star declares that "additional legislation is more dangerous than soap-box oratory or foolish publications."

Other particularly timely news-features in this number of the "Digest" are:

KEEP BRITISH BARGAINS OUT

Protection of Canadian Victory Bonds Reason For the Latest Embargo

Ottawa, March 5.—The embargo which has been placed on trading in stocks, bonds or other securities of outside countries has been taken, it was learned in official circles to prevent the flooding of the Canadian market with bonds and stocks from Britain which was resulting in the impairment of Victory bonds, the cardinal Canadian security.

For some time past British securities have been flooding the Canadian market, the sellers in Britain reaping a handsome profit owing to the premium on the Canadian dollar in London. The Government and the leading Canadian financial interests came to the conclusion that in the interest of maintaining the standing of Canadian Victory Bonds, which naturally, was being injured by such a development, the drastic measure indicated was necessary.

Margin Buying Continues. The measure taken, while it also affects trading in New York, is not expected to have so great an effect upon trading in American bonds or stocks, as there is no restriction against buying on margin, and also for the reason that since the Canadian dollar has been at a discount in New York purchases of United States Securities have considerably fallen off.

The embargo, it was officially intimated would remain in force until such time as the exchange situation permitted of its being lifted without Canadian Securities being again subjected to danger.

Buying Canadian Issues. Local brokers informed the Journal that Canadians were turning in greater numbers to home securities, and that Canadian bonds and stocks offer as secure and remunerative investments as American. The combined result of the order the adverse exchange will be, local brokers say, a steady improvement in conditions in Canada, as investors to save exchange will purchase industrial and other securities. The general trend of buying lately upholds the theory, and the order prohibiting the purchase of foreign

change is a greater volume of selling to the United States. Securities estimated to total a billion and a quarter dollars will be affected by the recent agreement. The securities are Canadian securities—Government, municipal, and industrial—sold in London before the war. Now owing to the collapse in sterling, they are being bought in London and dumped on the Canadian market. DREAM TO REALIZE. Edmonton, Alta., March 5.—In an editorial The Journal says: "The Journal some weeks ago referred securities will have immediate and favorable results. "Canada," said one broker this morning, "has as good and sound securities as the United States." Highly Beneficial. One local broker stated this morning that the market was not greatly affected by the order but that the country at large would benefit. The order generally is regarded as highly beneficial to Canada. Inquiries as to the effect of the order on the discount on Canadian money in the United States elicited the information that the exchange would not be greatly affected. The general opinion seems to be that the only remedy for the adverse ex-

IN AND ABOUT TOWN

COUNCIL FORMS ITS COMMITTEES

Chairmen Elected as Already Outlined—A Resolution of Condolence Was Passed

There was a short meeting of the City Council last night at which the most important business was the formation of the permanent committees of the Council and the approval of the election of the chairman of each committee.

As foreshadowed by the Chronicle the chairmen were elected as follows:—

Finance Committee—Ald. A. A. Lantier (Champlain Ward).

Public Works Committee—Ald. J. Albert Bouchard (St. Roch's Ward).

Waterworks Committee—Ald. Emile Bouchard (Jacques-Cartier).

Fire Committee—Ald. P. Bertrand (St. Sauveur Ward).

Police Committee—Ald. Jos. Mercier (Belvedere Ward).

Health Committee—Ald. P. H. Bedard (St. Jean Baptiste Ward).

After the opening preliminaries of the meeting, second reading was given to the by-law providing for the increasing of the number of committees from four to six, and then the report of the special committee was made on the membership of the standing committee for the term 1920-22.

After this the committees repaired to the Finance Committee room where they elected their respective chairmen, as already given.

The membership of the different committees is as follows:—

Finance—Aldermen Lantier, Bedard, Martin, Bouchard, (Jacques Cartier), Bertrand and Mercier.

Public Works—Aldermen Bouchard (St. Roch's), Collier, Fiset, Lavoie, Bouchard (Jacques Cartier), Lavoie.

Fire Committee—Aldermen Bertrand, Mercier, Lantier, Bouchard, (St. Roch's) Delagrave and Labrecque.

Police Committee—Same membership as Fire Committee.

Health Committee—Aldermen Bedard, Fiset, Collier, Martin, Lavoie and Labrecque.

At the opening of the meeting a letter was received from the family of the late Mr. E. H. Walling, thanking the City Council for the resolution of condolence passed on the occasion of his death.

The resignation of Mr. Maurice Lavigneur as an employee of the Treasurer's Department was received and referred to the Finance Committee.

Notification was received from former Mayor H. E. Lavigneur that he had resigned from the Catholic School Commission, and on motion of Ald. Fiset, seconded by Ald. Delagrave Mayor Samson was appointed to succeed Mr. Lavigneur on the School Commission.

The motion was carried, Ald. Fiset spoke briefly in support of the request recently made by the school teachers for increased salaries, and said that if there was a tax which the people should pay cheerfully it was that which would go to give a fair salary to school teachers. He said he knew Mayor Samson well enough to know that he would deal justly with the demands of the school teachers.

As Ald. Fiset concluded his remarks, an enthusiastic citizen applauded loudly in the galleries, and Chief Trudel called for silence.

A petition from the residents of Charlesbourg Road urged that the street railway line be extended to the City Limits before the paving work on that thoroughfare is completed. The document was referred to the Public Works committee.

On motion of Ald. Lantier, seconded by Ald. Collier, a resolution was passed expressing regret at the death of the late Misael Thibaudau a former member of the Council.

FAIR PLAY FOR JUDGE CHOQUETTE

Senator Loughead Complies With Request to Correct Wrong Impression

Hon. Judge P. A. Choquette, on resigning his seat as a member of the Canadian Senate addressed the following letter to Hon. Sir James Loughead, leader of the Senate in connection with expressions of disloyalty that had been made against him in connection with his attitude during the late war against conscription, which the former Senator took exception to and insists that he is a loyal subject, and requested that statements made on a previous occasion in the Senate by the leader of the Upper House be corrected:

Quebec, February 24th, 1920.

Sir J. Loughead,

The Senate, Ottawa.

Dear Sir James,—Without regretting my seat in the Senate to quietly administer justice here, I must say that I am sorry not to meet again all those good friends like you, and foes, at Ottawa, but I might some day go and shake hands.

Now that the war is over, and the eyes and mind being opened, I am sure that you do not now believe, and I doubt whether you did before, that I am and I was, in 1917, a disloyal man preaching sedition, as you accused me of doing, in the Senate, on the 6th of September 1917, as it appears at page 929, second column, and page 933 first column, in the Senate debates, French version, not having the English one on hand, I would ask you to be good enough to find an occasion to correct that and render me justice.

You might find occasion to so correct those statements on the address when you will have to congratulate my successor, Honorable Mr. Chapais, who I understand will move on second the address, Mr. Chapais had the same views I had on war, conscription, etc., and be sure that like me, he is not a disloyal man.

Now, in order that these accusations against me shall not be hurled later on at my children's face, I would like you to correct those statements, I think it will be very easy for you.

Moreover, you might say that in spite of my views, one of my children voluntarily enlisted, though being only eighteen.

You understand me, and I am sure you will render me this justice in due time, and I hope, on the address.

I may add that I was glad to be replaced by Mr. Chapais, being unable to leave my place to a good independent liberal like myself.

Thanking you in advance, Believe me,

Yours very truly, (Signed) P. AUG. CHOQUETTE.

Request Complied With

Hon. Sir James Loughead government leader in the Senate in his speech on the motion for an address in reply to His Excellency the Governor General's speech at the opening of the Session, on Tuesday, after complimenting the mover and seconder of the motion, in the course of his remarks said:

"My honourable friend who seconded the Address made some allusions to his predecessor (Hon. Mr. Choquette). We all have a very pleasant memory of that gentleman's presence in this Chamber. I had a letter from him a few days ago expressing regret at his parting company with the members of the Senate, and also recalling to my mind that in September, 1917, we had a very heated debate in which reflections were made upon his loyalty to the policy which Canada had adopted in connection with the war. Naturally he desired, upon retiring from this Chamber, that he and ourselves should continue to have a favorable remembrance of his presence with us, and that I should correct a charge which I made at that time regarding his attitude on the Military Service Act. In his letter he has assured me of his loyalty to Canadian institutions, and particularly to Canada's part in the war, and of my entirely mistaking his sentiments on that question. I am very glad to accept the statements which the honourable gentleman has made with reference to the debate to which he refers, and to express my regret if I wrongly construed the sentiments which he expressed upon that occasion. I should be very sorry indeed to give any pain or distress to the honourable gentleman, for whom I have always entertained the highest respect, and I desire to say that if I construed wrongly the attitude which he took in regard to the very important legislation we were then discussing, he will not think I will fully did him an injustice, and will accept this explanation of the construction I then placed upon his remarks."

MR. ALEX MACLEAN RECEIVES PRESENTATION

Prior to his departure for Vancouver, Mr. Alexander MacLean, formerly Quebec representative of the Assistant Director of the Department of Re-Establishment was recipient of a presentation from the Quebec staff.

Mr. Byrne, on behalf of the staff read an address to Mr. MacLean, and then presented him with a handsome silver cigarette case and a beautiful pair of gold cuff links.

Mr. MacLean, who was greatly touched at this mark of esteem from his fellow workers, made a suitable reply in which he thanked them for their kind address and presentation.

LOST CONSCIOUSNESS AND PASSED AWAY

Wilfrid Lafamme, a widower, residing at No. 49 Sinal street, fell suddenly unconscious after his lunch yesterday and passed away without regaining consciousness. He was a foreman in the Marsh shoe factory and was at work as usual yesterday morning.

FORWARD MOVEMENT THANKSGIVING SERVICE

Quebec is to be favored on Sunday by the presence in our city of one of the distinguished preachers of Canada, the Rev. Dr. George C. Pidgeon, Minister of the Bloor St. Presbyterian Church, Toronto. Dr. Pidgeon will be the special preacher for the day at the United Thanksgiving Services in Chalmers' Church in the morning and in St. Andrew's Church in the evening. Those united services have been arranged in gratitude for the splendid success in the Peace and all over Canada of the Peace Thank-offering for victory in connection with the great Forward Movement. The public are cordially invited.

Get your costume ready for the big masquerade Thursday night at Kent House.

EPIDEMIC IS NEARLY SPENT

City Health Department Feels Confident That the Worst Is Past

The City Health Department feels confident that the influenza epidemic, as far as it applies to Quebec city, has nearly spent its force. Twenty-three additional cases were reported to the Health Department yesterday up to four o'clock by physicians, and fully half of these cases came from belated reports. In the meantime, Dr. C. R. Paquin advises the public to take no chances and continue to take every precaution against contracting the disease. He left yesterday to attend a meeting of the Provincial Board of Health to be held at Montreal today, and before leaving the city had a circular letter sent to all the members of the clergy, requesting them to advise their parishioners, from their respective pulpits on Sunday, to advise and impress upon the Quebec people not to send their children to school if there should be any sickness from influenza, diphtheria, scarlet fever, measles, etc., in their families.

He also has addressed a circular letter to the teachers of all city schools to be sure and obtain a clean bill of health from all pupils before allowing them to attend school and mix with healthy pupils.

Dr. Paquin said that he was endeavoring to carry out his duties as health physician, and if his instructions were adhered to by the public, influenza and the other diseases in existence would soon come to an end.

MANY VISITORS ARE EXPECTED

Prospects of a Large Tourist Traffic to This City is Very Bright

In conversation last evening with Mr. B. A. Neale, the energetic and popular manager of the Chateau Frontenac, a Chronicle representative learned that the prospects of a big tourist traffic this summer to Quebec were extremely bright, and indeed there was already every indication of an influx of visitors during the season now approaching equally as large as, if not larger, than that of last year.

Every preparation is being made by the Chateau Frontenac management to cope with the large increase in business expected. As was the case last year, the automobile will be an important factor in the number of visitors arriving in the city. The ever-increasing good roads throughout the Province is well-known to motor owners residing in the South, and as Quebec is within easy distance for cars from many centres of the United States there is every reason to believe that every opportunity will be availed of by visitors to this city, which is so replete with interesting relics of the past.

As a proof of the interest taken in Quebec by the people in the Southern States, Mr. Neale mentioned that already the American Express Company had made five hundred and fifty reservations for different dates next summer. Several conventions will also be held, amongst them being that of the Imperial Press and the Georges Collin manufacturers.

It might also be mentioned that the ordinary boat traffic is expected to be exceedingly large. The Montreal-Quebec and Saguenay lines promises to be very brisk in passenger traffic, as also does the ocean liners.

With regard to the construction of the new wing of the Chateau, Mr. Neale stated that the excavation work was going on well, and the construction of the building will be pushed ahead as quickly as possible, but it will be some time before it can be counted upon for accommodation purposes.

MUNITIONS BEATEN BY SONS FIVE TO ONE

LATEST IN THE WORLD OF SPORT

CAZEAUX WON FROM DRAAK YESTERDAY

SONS OF IRELAND DEFEATED MUNITIONS TEAM OF OTTAWA BY SCORE OF FIVE TO ONE

Ottawa Sextette Led at End of First Period by One to None, But Sons Wore Opponents Down—Hammy Laroche Put in Four Goals—Sons Now Play Intercollegiate Champs.

Montreal, Que., March 5—Overcoming a one-goal handicap scored against them in the first period and gradually wearing down their opponents in the final twenty minutes, Sons of Ireland, champions of the Quebec City Hockey League, won the championship of the Quebec Amateur Hockey Association from Munitions of Ottawa here tonight by defeating them 5 to 1. The victory gives the Sons of Ireland the right to play off with the winners of the inter-collegiate championship game between McGill and University of Toronto teams in the preliminary round for the Allan Cup.

Outplayed and outchecked in the first twenty minutes, Sons of Ireland never lost heart and when Laroche tied the score in the second period, the Quebec players struck their stride and thirty seconds later were in the lead by two to one. From then on to the end they were leaders in the play and showed greater shooting ability.

The ice was soft and sticky and Sons were in better condition to stand the grueling. Munitions cracked up in the closing moments of play and enabled the winners to pile up the score. The game was practically free from rough play, the three penalties imposed being for minor offences. Boucher was one of the outstanding players for the Ottawa team, sent to bench for three minutes. On passing Judge of Play Ernie Russell Boucher used abusive language and his penalty was stretched out to eight minutes which greatly impaired his team's chances. Sons of Ireland, however, lived up to their promise shown in the Victoria game and will be a hard nut to crack for the inter-collegiate champions.

Table with 2 columns: Sons of Ireland, Munitions. Lists players and scores for various periods.

Summary table showing scores for first, second, and third periods.

OTTAWAS WERE GIVEN LUNCHEON

N. H. L. Champions Feasted at Chateau Laurier—Each Man Given Big Ovation

Ottawa, Ont., March 5—The members of the Ottawa Hockey Club squad, prospective champions of the National Hockey League, were guests of honor today at a luncheon given at the Chateau Laurier by the Ottawa Kiwanis Club. Several hundred of the leading business men of the capital attended and President Alexander Fitzsimmons, after reviewing the remarkable record of the Senators this season, introduced the club officers and players in turn. Each man was given a big ovation. Eddie Gerard, speaking in behalf of the players, said that they considered it a great honor to be guests of the Kiwanians. He added that the knowledge that their home town people were always behind them had inspired the players greatly. Gerard said that he was out to win the Stanley Cup and invited the Kiwanis members to be present when Vancouver or Seattle played here for the silverware.

President Fitzsimmons welcomed the hockeyists and declared that the feat of the Ottawas in winning the League honors without a playoff, established the integrity and honesty of the National League and placed professional hockey on a much higher plane than it had ever occupied. He congratulated the League and the Ottawa management on the manner in which things were conducted and expressed the hope that the present team would achieve their ambition and bring back the Stanley Cup.

London, March 5.—Joe Beckett, the heavyweight pugilist, knocked out Dick Smith, light-heavyweight champion of England, in the fifth round at Albert Hall tonight. The fight was for the championship of Great Britain.

Sporting Notes

Hammy Laroche seems to like scoring goals in Cup games. Out of the eleven points made by the Sons so far, he has scored no less than seven. The other tallies are credited to Derouin, two, and McNaughton and Morency, one each.

The Quebec team only left by the 11:45 last night for Toronto, and will get in the Queen City at 5:30 this evening, providing the train is on time. Carey accompanied the team and will probably play, but Frank Brophy did not make the trip, his place in goal being taken by big Harry Mummy.

"Cazooks" appeared in the ring last evening with his famous drooping mustache all trimmed down to a mere nothing. It is not going to be an easy thing pulling his mustache now, and causing the giant Frenchman to lose his temper.

George Kennedy says that his team will make a desperate effort to trim the Ottawa Senators in Montreal tonight. Quebec will do the same next Wednesday when they close the hockey season by playing the Senators. Quebec hope to score their first victory over the Senators this season next Wednesday.

QUEBEC TEAM LEFT FOR TORONTO LAST NIGHT

The Quebec team left for Toronto by the 11:45 last night, on their way to the Queen City, there to meet the Toronto St. Pats in their last game of the season. The Bulldogs will be without the services of goalie Frank Brophy, who has been forbidden by his physician to make the trip, and his place will be taken by big Harry Mummy. This means that Carpenter and Ritchie will play on the defence, with McLean as spare, while Malone will play centre, and possibly Carey on right wing. George made the trip to Toronto and will probably play, while McCarthy will most likely switch over to the other wing, with Jackie McDonald as spare. The team is going to play good hockey tonight, and will do their best to defeat the Greenshirts, and should put up a great game.

RADEBOLD WINNER

New York, March 5—"Silent" Radebold the deaf and dumb boxer, of the Union Settlement Athletic Club, added two other knockout victims to his credit in the amateur boxing tournament held by the Automobile Engineers in their club last night. Radebold beat his first opponent in the 3rd round and winning the final in the second round. He was fighting in the 160 lb. class.

HOLLAND AS CHALLENGER

Sydney, N.S.W., March 5—Holland has been added to the list of challengers for the Davis Cup, the chief lawn tennis trophy of the world and the draw to decide upon competitors has resulted in Great Britain opposing Holland and the United States meeting South Africa in the first round.

ANOTHER RECORD MADE

Philadelphia, Pa., March 5—Miss Marie Hillegas, Phila., broke the American 100 yards breast stroke swimming record for women here last night in winning the Middle Atlantic A.A.U. championship. Her time was 1 minute 25 seconds. The old time was 1:29.

CAZEAUX BEAT DRAAK YESTERDAY

Frenchman Gained Two Falls Straight, in Match at Drill Hall

Raymond Cazeaux defeated Tom Draak, of New York, here last night in two straight falls. The match, which was under the auspices of the 5th Machine Gun Brigade, attracted about seven hundred people, and they were treated to an exhibition of wrestling, slapping, shouting, clawing, and other measures resorted to by the two grapplers.

The first fall went to Cazeaux after 31 minutes and 45 seconds of wrestling the Frenchman pinning his adversary's shoulders to the mat after Draak had picked the Frenchman up and was pivoting him round the ring with the obvious intention of making him dizzy. After having made several turns, Cazeaux suddenly went down, but as he did he twirled over and landed with Draak underneath.

After an interval of ten or fifteen minutes, the men again resumed hostilities. Immediately on starting out for the second fall, Draak got Cazeaux to the mat with a body scissors, but after a couple of minutes the Frenchman wriggled out of the hold, and got a toe hold on the man from New York, which proved ineffective.

Both men assumed erect positions, and then followed a bout of slapping faces, etc., Cazeaux showed a tendency to dig his finger into his adversary's nostrils, which was allowed to pass unnoticed by the referee as were several other things.

Finally after twenty minutes and fifty seconds Cazeaux was awarded the second fall when he pinned Draak's shoulders to the mat, after Cazeaux had got his elbow jammed into his opponent's windpipe, and had proceeded to slowly choke him. The referee should never have allowed the Frenchman to use the hold he employed, but nevertheless, nothing was done about the matter, and the New Yorker was forced to succumb to the combination of strangle hold and body scissors used by Cazeaux.

Draak weighed around 240 pounds, while Cazeaux tipped the beam in the vicinity of 215. The man from New York had the crowd rooting for him, on account of his clean style of wrestling, but there is no doubt that Cazeaux has improved wonderfully in his wrestling. He is faster, and more scientific, and appeared in the ring with his famous mustache clipped down to a mere pin point, so short in fact, that it was practically impossible for Draak to pull it. On a couple of occasions, however, the New Yorker took hold of a generous handful, which did not serve to improve Cazeaux's fiery temper, which he could not keep under control all the time. At some stages of the match the event promised to develop into a boxing bout rather than a wrestling exhibition. Draak showed an inclination to land his mighty right fist on Cazeaux's face on more than one occasion, but managed to restrain himself.

In the fifty minutes that it took to secure the two falls, the men nearly went out of the ring on a dozen occasions, and on more than half of the number of times the men were obliged to break Cazeaux had a good hold on his man, and resented the order of the referee to get to the centre of the ring in explicit language on one occasion asking the official in question if he was satisfied.

BROTHER BEAT BROTHER

Boston, Mass., March 5.—Edgar T. Appleby, of New York, defeated his brother, Francis S. Appleby, today, in the last afternoon match of the National Amateur Class "A" 15-2 balk-line billiard tournament at the Boston Athletic Association. The score was 309 to 234 in forty innings.

STAR TUBERCULOSIS PATIENT

James, age seven, is a patient at Sunnyside and came into the city for tonsillotomy. While in one of the hospitals overnight James could not sleep because he missed his sleeping porch, so he called the nurse and pleaded his case (for air). The weather was zero and the nurse explained as much to James and thinking she has satisfied his mind she let him, but no sooner had she gone than James became restless for his old haunts and called her. Again she refused to open the window and James, who is a "star care taker," proved his mettle; he threw his shoe through the window pane.—Indianapolis News.

CHINATOWN HIDES JOSS

The transforming of Chinatown that has been in progress for a decade has finally thrust its Americanizing influences into the Chinese temple in Mott street with the re-

Advertisement for Macdonald's Crown Quebec's Favorite. Includes text: 'The Province of Quebec has 111 1/2 million acres of forest preserves valued at 445 million dollars. The estimated quantity of pulpwood derived therefrom is 600 million cords.' and 'The Tobacco with a heart' logo.

H. C. FORTIER Selling, Agent, Montreal

The Big Studebaker and Gray Dort Automobile Show Room

Has attracted more visitors than were expected. Never was an exposition of this kind so popular; the spacious hall at the Quebec Railway Building is continuously filled. The general appearance is very attractive. The quantity and quality of automobiles has never been surpassed since such commerce has been carried on in Quebec.

To meet a general demand and for the benefit of those who could not respond to our invitation, we have consented to keep our exposition open all next week from the 8th to the 14th of March.

The orchestra will execute a select program every evening. An amiable and courteous staff will do everything possible to give you all necessary explanations regarding these celebrated machines.

A CORDIAL GREETING TO ALL.

P. L. LORTIE, Limitee, QUEBEC

FOUR PERFORMANCES DAILY

Chronicle's Review of Coming Attractions For Next Week

AT THE AUDITORIUM

The Auditorium will open its doors next week, after an interval of one week, during which time the theatre was closed for repairs and decorating, with a first line run of vaudeville and pictures. No less than five acts of vaudeville will be shown, in addition to the first episode of the famous Jack Dempsey serial, entitled "Daredevil Jack," in which the world's heavyweight champion boxer has the leading part.

Five top notch vaudeville acts will be on the bill, as follows: Dunbar's White Hussars, Vaudeville's greatest instrumentalists; The Sylvester Family, featuring the cleverest child entertainer in the world; The Three Londers, comedy bar and trampoline artists; Fred Norman, the funny fellow who juggles and Ethel Leclair, a charming vocalist.

With these five first class vaudeville acts, and the Dempsey serial, in addition to a Pathe Weekly, a comedy and a big special feature entitled "The Open Door", it is easy to see that the Auditorium will attract record breaking audiences to all performances.

AT THE VICTORIA

For the first two days of the coming week, Monday and Tuesday, the Victoria will offer to its patrons Eugene O'Brien's latest release "Sealed Hearts". This is O'Brien's best picture, and is a gripping, forceful story of two men's love for the same woman and her choice between youth and age. It is a beautiful picture, in which a beautiful young girl storms the hearts of two strong men, father and son—and proves the dominant power of youth. A Pollard comedy and a weekly will complete the bill.

For the remainder of the week, Wednesday, Thursday, Friday and Saturday, Nazimova, declared to be the most emotional actress on the screen, will be seen in "The Brat," her latest production. This picture is her latest release, and she excels all her other works, such as "The Red Lantern" and others by a wide margin.

It is the story of love's ennobling influences. Its heroine and dominating character is a wife of the city's slums who has never known any name save "the brat". To eke out a precarious existence she plays in the chorus of a cheap musical comedy. But the pittance she receives for wages is not enough to clothe her in even the half decent style of the other girls. "Fired" for being shabby, she faces the world desperate. After trying experiences, she is treated kindly and love is kindled, but jealousy follows in her wake, and there ensue a drama of heart throbs and smiles with surprises and tremendously moving climaxes.

A Harold Lloyd comedy, entitled "His Royal Slynness" is also on the bill. Do not be surprised to see what you think is the double of the famous Harold on the screen. It is his brother, who plays with him, and the latest comedy from the king of fun makers.

Another episode of "The Adventures of Ruth", Ruth Roland's latest serial, will complete the bill.

AT THE EMPIRE

Charming Constance Talmadge, Select star, in a rollicking, laughing farce, entitled "Experimental Marriage," is presented at the Empire Theatre, Monday, Tuesday and Wednesday this coming week in conjunction with "Fatty Arbuckle" in his latest Paramount-Arbuckle comedy, "The Garage". "Experimental Marriage" is based upon the stage play "Saturday To Monday" and is one of those attempts at screen adaptation that has proved beyond all doubt a great success. "Motion Picture News" has this to say regarding "Experimental Marriage." "It couldn't help but give satisfaction, because, for one thing, it holds the interest, for another, it creates good hearty laughs. In fact, it may well be considered as good a picture as any in which Miss Constance Talmadge has ever appeared", and that is saying a whole lot. The foundational idea of the plot is extremely odd, and should please and give particular satisfaction to the most discriminating audience. Harrison Ford takes the leading masculine role. "Fatty" Arbuckle in "The Garage" probably causes more laughs and chuckles in the picture than he ever did before. For refreshing novelty of theme and all-round entertaining qualities the picture is among the best directed by the heavyweight comedian with the expansive smile and quick sense of humor. Roscoe's chief helper in keeping the fun on the jump is the lightly bounding and seemingly unbreakable "Buster" Keaton. An interesting news weekly is also to be shown.

For Thursday, Friday and Saturday, Bessie Barriscale, the blonde star, is presented in "Two-Gun Betty", a distinct departure from the roles usually taken by Miss Barriscale. "Two-Gun Betty" may best be described as a story with a succession of kicks—comic kicks and tragic kicks—and a little blonde star who is a scintillating comedienne one instant and a dramatic queen the next. Tenth episode of "The Lion Man" and comedy are also to be shown.

AT THE ALLEN

For the three first days of the coming week, the Allen offers to its patrons William Russell in "Sacred Silence." This is Russell's latest release and is declared to exceed all other productions in which this popular star has ever appeared.

The story, an intense drama, was adopted to the screen from "The Deserter" the famous stage play, and the action revolves around the ever-popular theme of a man's sacrifice to preserve a woman's honor at all costs.

Some of the most thrilling moments ever depicted on the screen are seen in the picture, one of them being when a man believes himself guilty of a murder he didn't commit. A cast of exceptional strength supports the virile star in his latest release, and critics who have witnessed the picture are unanimous in their praise for the splendid qualities that the picture possesses.

Christie comedy, Bruce scenic and Mutt and Jeff cartoon will complete the bill.

For Thursday, Friday and Saturday, Norma Talmadge in "The Moth" is the attraction, in addition to the twelfth episode of "The Invisible Hand", starring Antonio Moreno, and Hank Mon special comedy in 2 parts. Miss Talmadge's latest picture, in which she is seen to particular advantage tells the story of a young society woman who wastes her time seeking diversion and flirting with fate until sharply brought to her senses by a dramatic incident calculated to thrill the most blasé of movie fans. The picture has been called the greatest that Miss Talmadge, who is titled the "Empress Josephine Of The Movies" has ever appeared in, and should attract record attendances at each show.

SPIRIT NEVER KNEW DEFEAT

Sir Douglas Haig's Two Volumes of Despatches Cover Interesting Period

New York, March 1— Under the title, "The Spirit That Never Knew Defeat," the Ninteenth Century Magazine for January publishes a most interesting article. Its basis is the two volumes of Sir Douglas Haig's war period, December, 1915, to April, 1919. There are many things in these despatches to give satisfaction to British readers, but perhaps none that will do more to establish Sir Douglas Haig's true greatness than the fact set out in the Introduction by Marshall Foch as follows: "Was it not the insight of an experienced and enlightened commander which led him (Sir Douglas Haig) to intervene as he did with his own Government on the 24th of March, 1918, and with the Allied Governments assembled in Doullens on the 26th, to the end that the French and British armies might at once be placed under single command, even though his personal position should thereby suffer?" To appreciate this act of wonderful magnanimity one needs to remember that, as the despatches show the 1917 campaign went astray apparently through French influence, when Nivelle succeeded Joffre.

Ludendorff's Admission.
One can easily suppose that had Haig's plan for 1917 gone forward, the Germans would have been at least driven back to the Meuse, or even out of France and Belgium in the fall of that year. This supposition is not unreasonable and Ludendorff's remarks on the final stages of the 1917 campaign are interesting. He writes: "The fifth act of the great advance in Flanders opened on the 22nd of October, (1917). The horror of the shell-hole area of Verdun was surpassed. It was no longer life at all, it was unspeakable suffering. It must be admitted that certain units (German) no longer triumphed over the demoralizing effects of the defensive battle as they had done formerly. He denied it (the line) in many places and it seemed as if he must knock it down. But it held, although a faint tremor ran through the foundation. We knew that the enemy suffered heavily, we also knew that he was amazingly strong, and what was equally important, had an extraordinary stubborn will. Lloyd George wanted Victory. He held England in the hollow of his hand. Only one thing we did not know: how long the battle would continue. The enemy must tire some time.

Haig's Plan.
This admission by Ludendorff is of especial interest to Canadians because the culmination of this attack was the capture of Passchendale by The Canadian Corps. Haig's plan would have let loose this attack early in the year, and if it had proved as successful as it did later in less favorable circumstances it would have gone much farther and very likely utterly broken the German morale, if not the enemy's power of resistance. At Doullens therefore, he could have criticized French strategy, but he did not do so. He realized the need of unified command. He was big enough and good enough to sink personal ambitions in the interest of united and undiminished effort. We may venture to predict that when the record of the failures and successes of the Generals, Field Marshalls and others who had important positions in connection with the Great War, have been analyzed, it will be found that none did more to wear down the enemy, destroy

Drops of Magic! Apply a little Freestone on that bothersome corn, instantly that corn stops hurting, then you lift it off with your fingers. No pain at all! Try it!
Why wait? Your Druggist sells a tiny bottle of Freestone for a few cents, sufficient to rid your feet of every hard corn, soft corn, or corn between the toes, and calluses, without soreness at all.

his morale and bring about his utter defeat than the Commander-in-Chief of the British Forces in France and Belgium.

A Difficult Problem.

Sir Douglas in his despatches explains the plans to meet the March 1918 German offensive in which the fifth army was so terribly mauled. The necessity of maintaining the northern end of our line, which ran dangerously close to the sea, and protected the channel ports, is set out. Extracts from Ludendorff's book showing that the Germans appreciated the vital nature of this northern section are quoted. Haig's duties became very onerous. The channel ports had to be protected, a branch of the line from Arras to the north could not be permitted, and hence, reserves must be maintained in that section, while at the other end of the line, the British were called upon to take over a section from the French, and it appears that that section was not in as good condition for defence as was necessary.

The Lines Held.

Despite German initial successes, which drew from the British Commander-in-Chief his thrilling "backs to the wall" message, Ludendorff confesses that on March 25th he had to change his plans. "By April 6th," he says, "it was an established fact that the enemy's resistance was beyond our strength. . . . G. H. Q. had to take the extremely difficult decision to abandon the attack on

Amiens." Other sections of the British front were successively attacked and slight gains made such as between La Bassée and Armentières, against the Ypres salient and the capture of Mount Kemmel. Haig's reserves, however, were able to hold these up at short distance advances, and the last German offensive against the British died out. To Canadian readers the despatches covering the British offensive east of Amiens on August 8th and following days are of great interest. The object of this attack was to free Amiens from further danger, and if successful, "to strike directly at the vital lateral communications running through Maubeuge to Hirson Mezieres by which alone the German forces on the Champagne front could be supplied and maintained." It was here that the Canadian Corps, moved secretly down from near Arras for the purpose, formed the spear head of the army that started the Germans back to ultimate and crushing defeat. August 23rd, 1918, is called by Ludendorff "the black day of the German army in the history of the war." August 8th, 1918, was one of the brightest if not the brightest day in the annals of the Canadian Corps. It was the beginning of the 100 days. Sir Douglas Haig's despatch says of this period: "The sweeping character of this success opened a clear field for the measure of exploitation determined upon to meet such an event.

WHAT'S IN A NAME.

Naming a plant or flowers after a celebrity is a delicate compliment, and one that no doubt at times adds something to the market value. But there are exceptions. That beautiful variety of the lobelia, for instance, known as "Emperor William," would perhaps hold up its imperial head a little more proudly just now if it had had a more fortunate christening.

Stray thoughts on these lines may have been flickering in the mind of a vendor in London market-place as a likely looking buyer, while examining a box of the old favorite asked what variety it was. Without deranging the muscles of an eyelid the coxter (and she was a "lady," too) replied: "Douglais 'Aig! Four-and-a-tanner a box."

"Cascarets" act on Liver and Bowels without Gripping or Sicknessing you—So Convenient! You wake up with your Head Clear, Complexion Rosy, Breath and Stomach Sweet—No Bitterness, Headache or Upset Stomach.

Eddy's Milk Pail
On the farm, Eddy's pails are a great convenience. Easy to clean because there are no seams or rivets. They will not dent or fall apart, and will stand a lot of hard usage.

Eddy's Better Tub
The storekeeper knows that this is the most sanitary way to pack butter. Each superior to wood, which often imparts odors. Owing to their toughness and durability, they can be used many times over. They are light for shipping, too.

Eddy's Household Pail
Housewives without number will testify to the superiority of Eddy's pails, etc. They are light and easy to handle and they never leak or come apart. Moderate in price and most satisfactory in every way.

Popular with Everybody
EDDY'S one piece tubs, pails, etc., meet with favor everywhere, because they lighten labor and last practically for ever. They are made of wood pulp—moulded into shape—pressed by machinery, dipped in solution, and bed for days, till they emerge from the ovens hard as flint, and with a glazed surface that is impervious to all liquids, taints and odors. They are not leak—cracks—or fall apart. Head and handle as good. Lighter than wood. Once you try one, you'll never go back to the old style.

EDDY'S FIBREWARE INDURATED

THE E. I. HUNT CO., Limited, 1001, 1011, Canada
Makers of the Famous Eddy Pails

SEVERE WINTER WEATHER MEANS A GOOD FUR YIELD
Nature provides fur-bearing animals with coats which vary in weight to suit the climate of different localities, being heavy in cold regions, and lighter where the high-temperatures are the rule. Taking advantage of this fact, a western trapper transports live catches made in the lowlands to the mountains, where the weather is more severe, and holds them in captivity for some time before disposing of their pelts, which are greatly increased in value by this means. As an experiment 10 raccoons, caught near the coast, were taken to a ranch, located 9,000 ft. above sea level and kept for six weeks, during which time they were carefully fed. The animals were then killed and skinned. Because of the improvement in quality, the hides were sold for three times the amount they would have brought in their original condition.—Popular Mechanism.

supposed to be indicated by its name and by the words "check mate," says The Tablet of London. It appears in the Celtic literature whose home was in the farthest west of Europe.

Maimed Soldiers Getting Used to Them—Special Instruction Classes Organized. Ottawa, March 5—To assure exercise men of the fullest possible benefits from the prosthetic aids furnished, the orthopaedic and surgical appliances branch of the department of soldiers' civil re-establishment, recently organized throughout Canada.

From the original class in Toronto, the work has developed and has caused such keen interest among men who lost arms that there has been an increasing demand upon the government factory in Toronto to supply the "Canada" arm and other appliances of a similar nature.

At the early stages, many men had no faith in "working arms," and accepted only the willow "dress arm," which is, as its name indicates, ornamental and unsuitable for working purposes.

The officials of the orthopaedic and surgical appliances branch of the department of soldiers' civil re-establishment, maintain the continuous research with a view of improving all existing models. A new design in artificial legs has been adopted for disarticulation of hip cases, and has proved a gratifying success.

CLAIMS IRISH WERE PEOPLE TO INVENT GAME OF CHESS. Can the Irish claim the invention of the royal game of chess? If not, they at any rate played it at a very early day, and it figures picturesquely in the early literature.

THE EASTERN ORIGIN OF THE GAME IS. The eastern origin of the game is supposed to be indicated by its name and by the words "check mate," says The Tablet of London.

IDEALISM A NOTE IN AMERICAN LIFE

High Tribute Paid in Australia To the Business Men of North America

Melbourne, March 5—American business men in Melbourne, associated in a "get together club," gave occasion recently for mutual expressions of the good will and respect existing between the United States and the Commonwealth.

T. Sammons, the new American Consul-General, presided, and the guests included H. Y. Braddon, until recently Australian Trade Commissioner in the United States, and T. E. Burton, a former United States Senator.

Mr. Braddon paid a very high tribute to the business men of the States. "When I first went to America," he declared, "I was a little skeptical about the idealism about which I had heard so much, but closer acquaintance has removed all doubts.

Basic Wage Declared Sound. Mr. Braddon said that he had found the kindest possible feeling existing towards Australia and particularly towards the young Australian soldiers then in America.

Value of Good Will. Mr. Burton laid special stress upon the value of good will between the British Empire and the United States, and said that in America there was no feeling for Australia except one of absolute friendship.

Senator Milten, Minister for Reparation, welcomed Mr. Braddon on behalf of the Australian Government. He congratulated Mr. Braddon on the admirable manner in which he had discharged his duties as Trade Commissioner.

THE AERO CLUB OF AMERICA HAS ANNOUNCED TONIGHT THAT IT HAS RECEIVED A CHALLENGE BY CABLE FROM THE AERO CLUB OF BELGIUM FOR THE JAMES GORDON BENNETT INTERNATIONAL BALLOON TROPHY.

"California Syrup of Figs"

For a Child's Liver and Bowels. Mother! Say "California," then you will get genuine "California Syrup of Figs." Full directions for babies and children of all ages who are constipated, bilious, feverish, tongue-coated, or full of cold, are plainly printed on the bottle. Children love this delicious laxative.

Any time of day BAKER'S COCOA is welcome.

Do not make the mistake of thinking that cocoa is only an occasional drink. It is so valuable a food beverage, so rich in the elements of nutrition, so delicious in flavor, and so wholesome that it should be used regularly and often.

AIRCRAFT NEEDS IN GT. BRITAIN

Requires Defense Against An Invasion or the Increase in Speed by Air

London, March 5.—"If things go on as they are, I believe that you will be unable a year hence, in this country to buy an aeroplane or an engine," was the pessimistic remark made by G. Holt Thomas, who gave an address on "Commercial Communication by Air," at a luncheon under the auspices of the Association of British Chambers of Commerce at the Connaught rooms.

Ten years ago, he said, he was teaching the necessity for taking up aviation from the War Office point of view to a very apathetic government and public. The war came, and aircraft automatically came into its own, but it was astounding to him that after the war they had gone back to pre-war apathy. Thus he was again in the pulp.

So far as any announcement on the part of the government went, today they knew that the striking force of Great Britain was to be two squadrons for 1920-21, to be increased to four squadrons in 1921-22, and thereafter no increase. In addition to this perfectly ridiculous and absurd provision for the protection of

their Isles from what was the most likely means of attack in the future, namely, an aerial attack, the whole of their undoubted lead, and which they prided themselves on, and on which every Cabinet Minister had made a speech, was crumbling away. Aircraft was not reckoned by the government as any danger at all.

Sunk by Aircraft.
Lord Fisher had said the fleet would be sunk by torpedoes from aircraft. "I believe that in a certain port, within the last few months, this was actually done," said the speaker. "I believe that every torpedo hit its mark, and that no aircraft were estimated to have been hit. If we were to have no more war, then we want no army or navy. If we are to be prepared to defend ourselves then I must emphatically say aircraft is the primary importance."

Already the Bolsheviks had obtained up-to-date machines, Mr. Holt Thomas proceeded, and we are using a rigid type airship. So long as the horizon was as doubtful and ominous as it was today, they were bound to protect themselves against the menace of an air attack. Germany had in operation or projection more than 20 air mail services between her cities, and she had 7000 miles of airways in operation and organization. Many routes were being equipped for regular night flying, and the construction was being encouraged of large multi-engine machines carrying as much as three tons.

Official Aloofness.
It might be said that from practically every great country today save Britain, news reached them which showed they were alive to the importance of flying. In no other country had there been such an attitude of official aloofness. A letter sent by aerial mail, he pointed out, was delivered quicker than any telegram, but cost no more than a boy messenger crossing London.

One of the great disadvantages of aerial transport today was the terminal delay, especially on a short route like London-Paris. If the business men of Britain demanded it, a pneumatic tube, or other means of conveyance would be laid from the post office to the aerodrome, and they could then safely say that a letter and goods could actually be delivered from the general post office in London to the office in Paris in, say 2 1/2 hours.

If a load of 400 pounds a day of first-class mail matter be guaranteed to their service, they would be glad to carry it at 4s. a pound, and the cost would be just over 1d. a letter. If the load were 800 pounds the cost would be about 1/2d. a letter.

Five Days From Australia.
With a guaranteed load of 2000 pounds goods today could be conveyed between Paris and London in two hours, leaving out collection and delivery at 1s. 3d. per pound, whereas the charge for Grande Vitesse, which took several days, was 1s. 10d.

He was certain that Australia could be brought within five days of London, flying night and day at 100 miles per hour.
Taking the cost of conveying 800 pounds of mail from London to Paris at about 1 1/2d. a letter, the cost of conveying a letter from London to Australia in four days would be about 2s. which was exceedingly cheap. This route would not simply serve London-Australia, but towns all along the route—in France, Italy, Egypt, Mesopotamia, India and so forth, and the weight of mails asked for should be easily attained.

Guaranteed Load Essential.
The establishment of an aerial mail service between Cairo-Karachi, would, on the Indian mail alone, save eight days, and with a guaranteed load—the essential feature in any calculation—the extra postage per ordinary letter would only mean a few pence. The London-Amsterdam trip, and thence to the whole of northern Europe would only take 2 1/2 hours, whereas the quickest peace-time route was 15 hours. The Postmaster-General of Holland was very enthusiastic, and Dutch business men were prepared to cooperate financially and otherwise. The business men of Great Britain must encourage it, too. There were two interests in the encouragement of British aircraft.

Firstly, the absolute necessity for defending themselves against the most likely form of invasion, and secondly, the increase of British trade by the increase in speed of communications. He was anxious to see the post office start an air mail in England between, say London, Manchester, and Sheffield.

THE "HOMAL."
Perhaps the most picturesque sight in any of the large Turkish harbors is the "homal." This man is the human pack horse of the country and is often seen carrying on his leather back saddle loads which require at least six men to place there. One frequently meets a "homal" strolling along the street with a huge office desk or piano strapped on his back.

A certain lady threw a stone at the village constable one day, hitting him on his helmet. The perpetrator of the outrage escaped detection until on examining closely the missile which struck him, the constable remembered having seen it lying on the window sill of a house whose occupant he forthwith charged with assault. "I experimented with the stone, your worship," the policeman explained in court, "and found that when I threw it at an old helmet of mine it made an exactly similar mark."

"But what good was that when your head wasn't inside the helmet?" asked the suspect.
"Ah!" retorted the triumphant officer, "I thought of that, and put a block of wood inside, just the same as if my head was there!"

A MATTER OF COLOR.
Of costly books he owns a stack,
He even reads in bed,
And though I know his name is Black,
He's certainly well-read.

IMPOSSIBLE.
"Gabbleton tells a funny story of how he short changed a taxicab driver."
"The infernal liar!"
"Ah! You know Gabbleton?"
"No; but I know taxicab drivers."

SUNDAY TEA IS NOW POPULAR

Day of Rest is Growing More and More Popular for Mak- ing Visits

Boston, March 4.—Sunday is growing more and more popular as a visiting day. Few hostesses have time any more to receive on a regular week day afternoon. Rare, indeed, now, is the calling card with "Tuesdays" or "Thursdays" written across the lower left-hand corner, and even "first and third Wednesdays" have gone out of fashion. Nobody has time now to set aside a regular at-home day—except Sunday. And more and more is the custom growing for people to drop in on Sunday afternoon.

Sometimes the Sunday afternoon informal reception is a regular thing. Good friends who sing, or play the piano, or perhaps the violin add music to these informal affairs. There is a glowing fire in the open grate. People drop in informally and there is much pleasant chat and good cheer in the dining room. Sometimes a Sunday supper with seats for eight or 10 at the table is part of the informal afternoon party. Sometimes sandwiches and cakes are passed about while coffee and hot chocolate are served from the table. Any woman with a pleasant home and a circle of good friends can establish a little Sunday salon of the sort. After a while the music, the open fire, the delicious refreshments and the atmosphere of hospitality and good cheer will make the "Sunday afternoons" of that hostess affairs to be sought after and invitation to "drop in on Sunday" a prized privilege.

It is not necessary to serve a substantial repast. If the guests gather round the table, have one hot dish like creamed oysters or lobster, or a good Welsh rabbit. Small hot rolls or toothsome sandwiches, coffee and tea, olives, and a generous layer of cake make a very satisfactory repast for the 5 o'clock tea hour. Or the table made lovely with fine linen centerpiece and dories, a bowl of flowers and small dishes of almonds and bonbons, may hold hold only piles of plates and napkins. At one end will be the tea service, at the other end the coffee percolator and two charming women guests will preside over these. Sandwiches and cake will be passed around by the masculine guests.

LABORER ONLY SERF IN RUSSIA

Workmen Are Allowed No Liberty At All By the Kind Soviets

New York, March 5.—The Soviet government of Russia under its code of labor laws recently published, has imposed upon labor a state of tyranny and serfdom without parallel in the history of the last century, according to an analysis of the code made public today by William C. Redfield, president of the American Russian Chamber of Commerce, and former secretary of commerce. Ostensibly, Mr. Redfield declared, publication of the code, in a form of propaganda, but careful reading will be sufficient to disillusion American workmen that the Soviet government is a workingman's government.

Compulsory Labor.
"In the first place," Mr. Redfield's statement said, "all citizens of Soviet Russia between 16 and 60 who are not incapacitated by injury or illness are subject to compulsory labor. All laborers are divided into categories by the authorities and are subject to wage scales and labor conditions laid down by the state. Every laborer must carry a laborer booklet, which is like a passport. In it must be entered every payment he receives, the hours he works or is absent, the group and category to which he has been assigned by the Valuation Commission, and every other detail of his life and activity."

"A wage earner is not permitted to change from one job to another except by permission duly certified by the labor authorities, under whom he becomes virtually an industrial serf, bound to his job. If a man wishes to quit work, he must secure a certificate from the bureau of medical experts proving his disability, and whether it is temporary or permanent. Leaves of absence may be granted by agreement between the management of enterprises and workers' committee, but a wage earner shall not be allowed to work for remuneration during his leave of absence."
"No American workman would submit for a moment to such a tyrannical and oppressive system, and a reading of this code shows clearly how far the autocracy at Moscow has gone in the direction of reaction and destruction of the liberty and right of the individual."

THE MINIMUM WAGE.
It is said that in Italy the workers are giving two hours of their time as a free gift to the state. They realize that increased production means ultimately increased wealth. In Germany there are signs of the same spirit among the colliers. But in old England the following story admirably illustrates the industrial situation: Two miners were discussing the minimum wage. "Say, Bill," said the first, "What's this 'ere minimum wage?' Bill spat. "The minimum wage! That's what we gets for goin' down; an' if we wants ter make any more brass, we goes and does some work for it!"

GOOD NEWS MAPLE LEAF TRUCK

P. L. Lortie, Limitee, Has the Exclusive Agency

This truck is manufactured in Montreal and offers special advantages. The purchaser of this truck secures a matchless value, and a price which is exempt from customs duties or exchange rates on his money; and accordingly he economizes nearly half the value of an automobile of like quality.

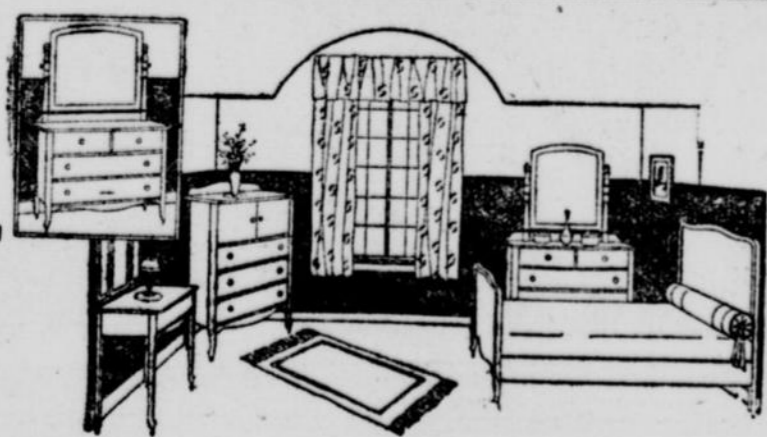

The build of the Maple Leaf 2 ton truck is just as strong as any 3 ton truck of another make. Everything is of first quality, Bosch Magneto, Worm Gear Drive, etc. No delay in the delivery of spare parts, since they are made in Montreal.

Buy a Maple Leaf it will encourage Canadian Manufacturing, without regard to the fact that this Truck may be compared to all high price makes.

Ask for our prices for 1-2 to 5 tons and the catalogue.

DUKE OF JASSY VERY DARING

Canadian Made Fortune In Klondike Before Becoming Rumanian Noble.

Toronto, March 2—If the Duke of Jassy were to come over from Roumania and walk down Yonge street, Toronto, many a man would top him on the street and call him Joe.

Roumania. He operated most of the time as a sort of free lance, going it alone, and even in his boldest moments was handicapped by the difficulty of having to speak through an interpreter.

the British fleet had entered Constantinople, and was about to invade the Black Sea for the purpose of crushing the Black Sea fleet, as a punishment for the Bolshevik making war on Roumania.

Tired after his long journey, the missionary was soon asleep. He slept several hours when he was suddenly awakened by the feeling that some uncanny presence was in the room.

He looked around him with half-shut eyes, and then his heart began to flutter at what he saw. There descending as it were through "the well of heaven" appeared the figure of a woman with face as if distorted with hate and agony.

Unquestionably there will be a shortage of these cars at \$1365. You had better see the Gray-Dort dealer now.

CLEAN-CUT GOOD-LOOKS The Gray-Dort is not startlingly extreme, the Gray-Dort is a car of quiet beauty—smooth lines and perfect proportions.

P. L. Lortie, Ltd., 76 Rue Richardson & 188 Du Pont St., QUEBEC.

GRAY-DORT Dealers Lead

Most good automobile dealers know motor cars inside and out. They've watched the business from its infancy. They've seen cars come and go. Above all they know motor car values. They have to.

You will find in practically every city and town in Canada, that the leading motor car dealer is a Gray-Dort dealer.

Every motor car dealer knows the reason for this. Every Gray-Dort owner knows the reason. The Gray-Dort offers unequalled value to motor car purchasers.

The \$1365 GRAY-DORT is Dominant Value

What other car at anywhere near \$1365 offers you these Gray-Dort qualities?

A motor larger and finer than usual for light cars—3 1/2" bore and 5" stroke—built from flawless castings and tough, high-carbon steel—and finely finished.

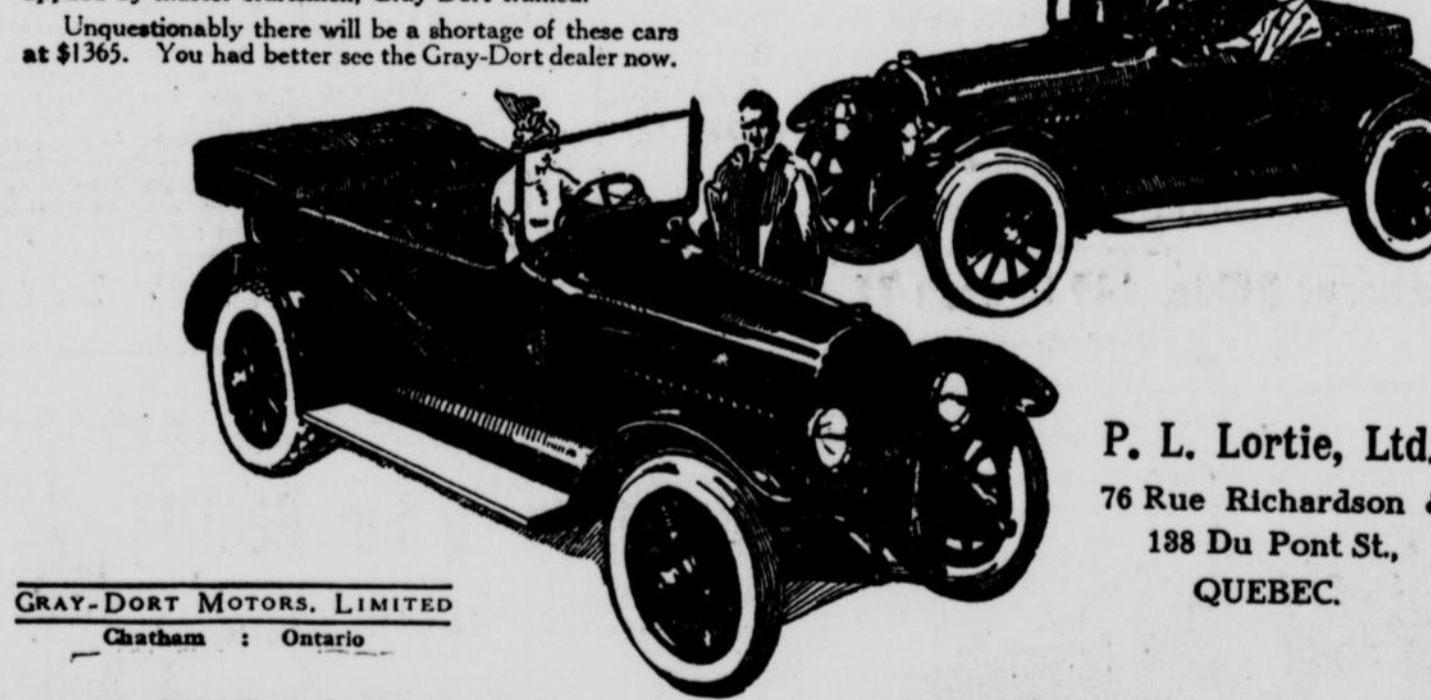

There's over-strength in the Gray-Dort frame of heavy channel steel; in the husky, Chatham-built rear axle; in the long, cantilever rear springs; in the specially designed, new steering gear; in the big brakes, now lined with Thermoid.

Convenience of riding and driving is in the Gray-Dort. The steering wheel is of the height and size for tireless driving. The gears can be shifted with two fingers' pressure.

A shorter and smarter cowl now gives more room in the driving compartment. A new Gray-Dort feature has greatly increased the leg-room in the tonneau.

CLEAN-CUT GOOD-LOOKS The Gray-Dort is not startlingly extreme, the Gray-Dort is a car of quiet beauty—smooth lines and perfect proportions.

Unquestionably there will be a shortage of these cars at \$1365. You had better see the Gray-Dort dealer now.

DESIGNED BY CHAS. S. BRIDGWICK, ARCHTCT

CHIS LOW appearing square cottage is 28 ft. wide and 27 ft. deep, exclusive of sun room and rear porch. It is frame construction, with full basement and concrete foundation wall. The outside of frame is covered with wide siding carried down over the foundation to grade line and up to the second story window sills and above this sill to the roof the walls are paneled with "Half Timbers" and cement stucco between, giving a very pretty effect. The lower wide siding is to be stained a shade of brown creosote stain and the casings, cornices, sash, etc., to be painted a light cream color or white to suit the taste. The roofs are shingled and the shingles dipped in creosote stain of moss green color, the entire exterior combination is unique and pretty.

The arrangement of rooms is attractive with a front living room and small den out of same on the right side and a sun room on the left with French glazed doors connecting and the vestibule entrance between sun room and living room. The main stairs extend up back of den and with

combination feature, i. e. stairs from kitchen up and connected with the main stair platform and basement stairs below with grade entrance. The kitchen and dining room are well arranged and in the rear is a liberal porch with refrigerator space. The dining room connects with living room with glazed French sliding doors. The finish of this main floor is oak with dark Flemish stain in living room and den. The finish in kitchen is white enamel. There is

one chimney with wide fireplace in living room. The second story has two bed rooms and a sleeping porch, also a convenient sewing room and ample clothes closets with bath room and rear balcony. The finish is in natural birch with birch floors and tile in bath room. The estimated cost is \$2,800 to \$4,800, exclusive of heating and plumbing. This arrangement of rooms is well suited to an east frontage but could easily be adapted to either frontage.

When it Comes to the Roof
Let Us Settle Your
Problem.

"Legare" roofings have all the advantages of other roofings and cost less. They will resist fire to the uttermost, are absolutely weather, proof, require no painting and will wear for a generation.

"APOLLO" and "RAPID" shingles, with their slate surface of soft natural colors (red or green) are highly artistic, while moderate in price and extremely durable. The two types of roll roofing "RUBY" and "RIVAL" are suitable for cottages, garages, sheds, and farm and factory buildings. Easy to lay; no skilled labor required.

Write to-day for free sample.

X-RAY FAILED Mechanic Gives Evidence

There are cases where science in its most profound phases is absolutely balked, yet other help is at hand. This is proved by the testimony of a mechanic, 35 years of age, who suffered, at times, positive torture from stone in the bladder. After trying many remedies without result, he had an X-Ray photograph taken, which also failed to show where the trouble was. Fortunately, just at this juncture, when he almost had given up hope of any relief, Gix Pills were brought to his notice. These famous Pills in a very short time enabled him to pass the stone which was the cause of his trouble. We will give the name of this man on request. Kidney and Bladder troubles should not be neglected. The first symptoms should be sufficient warning. Pain in the sides or back, constant headaches, neuralgia and sciatic pains, rheumatism, dizziness, constipation, gravel, highly-colored urine, specks before the eyes, all point to derangement. Gix Pills should be obtained without delay. Druggists and dealers carry them—50¢ per money refunded if not satisfied. Free sample on request. The National Drug & Chemical Co. of Canada, Limited, Toronto, United States Address, Na-Dru-Co, Inc., 202 Main St., Buffalo, N.Y. 254

The National Drug & Chemical Co. of Canada, Limited, Toronto, United States Address, Na-Dru-Co, Inc., 202 Main St., Buffalo, N.Y. 254

WRECK OF THE STR. BOHEMIAN

Captain Gives His Evidence Before Court of Enquiry at Halifax

Halifax, N.S., March 5.—Capt. Ernest G. Hascoe, master of the S.S. Bohemian, which was wrecked on Sambro Ledges on Monday, March 1st, told the Marine Court of Inquiry, which opened today that he believed there was a six mile set of current before the wreck to which he attributed the disaster. The captain told the court that he had been steaming master for nineteen years, seven of which was served on the Bohemian. He said that he had lost his certificate with his money and his log book in the wreck, and regretted that a blow which a sailor had given him some years ago affected his memory so that he was unable to give detailed evidence without the logbook. He said that the Bohemian passed the Brazil rock buoy at 5:20 on the evening of Sunday Feb. 29th, it was then clear and the ship's course was set from that buoy for Sambro Lightship. The weather was clear and the captain remained on deck until after 10:30 and left an order to be called when the Bohemian was six miles from the lightship. He was called at 10:30 Monday morning and found that there were intermittent snow squalls. At 2 o'clock, not seeing the lightship he slowed down four or five knots and decided to run five miles further. He then altered the course slightly and afterwards heard the Sambre Island guns and saw the light infections there, judging the flashes to be six miles away. That was about 2:45 a.m. and ten minutes later the ship was ashore. The captain said that the boat had been in a six mile set of current to the north the day the ship struck. The course was intended to bring the Bohemian to the lightship but they never saw that craft. In answer to a question of the court, the captain said that he had not taken soundings. He said that he could not understand why the sound of the Sambre Island gun was not more distinct. The court consists of J. Blanchard Henry, Acting Wreck Commissioner, chairman, and Captains Neil Hall and C. O. Hall, Nautical Assessors.

BRITISH DOMINIONS.

The tonnage launched in Canada —271,254 tons—is about 13,000 tons more than in 1918. It includes 28 steel steamers of 60,233 tons launched on the Great Lakes. On the coast and on the St. Lawrence were launched 12 steel steamers of between 5,000 and 6,000 tons; and 80 motor steamers, 51 of which are of between 1,000 and 1,200 tons, and six of between 2,000 and 2,700 tons. The tonnage launched in the other British Dominions has reached 87,464 tons, by far the largest total on record. Half of this tonnage represents the output of the Hong Kong district where eight vessels of between 5,000 and 5,800 tons each were launched. The total tonnage launched in all the British Dominions during 1919 namely, 358,728 tons, is 78,824 tons more than in 1918, and nearly equals the combined output for the ten years 1908-17.

THE LURE OF LIQUOR

WRECKERS SEEK TO Salvage "Red Eye" From Davey Jones—Very Closely Watched by Prohibitionists

New York, N.Y., March 5.—Ship salvagers left last night for Washington to learn what would be the fate of "Red Liquor" raised from Davey Jones' Locker and brought to the American coast. The wreckers declared they were ready to begin operations at once off the Atlantic Coast if the liquor which went down with the "treasure ships" could be brought into an American port and then transferred to another vessel for sale. They were willing to have the "wet goods" go into dry dock with the damaged vessels until they would put out to sea again. Supervising prohibition agents have advised the wreckers they might be permitted to salvage the "red eye" provided they paid the government tax.

DESTINATION CHANGED

The C.P.O.S. Corsican will sail on March 26th from St. John for Halifax and London instead of Liverpool as originally intended. After this particular trip the Corsican will go back into the Liverpool service.

PERMITS FOR ALIENS

Heretofore it has been necessary for Germans, Austrians and Hungarians to obtain special permits granted by the United States. Advice has now been received here that these permits, which were known as "U.S. Alien Permit to Depart," are no longer required. This ruling does not affect the matter of passports, these being still obligatory.

LINER MOVEMENTS.

The C.P.O.S. Empress of France which left Liverpool February 28th, is due to arrive at St. John, N.B. tomorrow at noon.

The C.P.O.S. Metagama left Liverpool for St. John yesterday.

The C.P.O.S. Scandinavian which left Liverpool Friday February 24th is due to arrive at St. John, N.B., this afternoon.

TO START CAMPAIGN

Winnipeg, March 5.—The Young Women's Christian Association has announced that a campaign will be started for the raising of \$100,000 to meet the enormously increasing demands upon the Association. This is the first campaign put on exclusively for the "Y" since the initial one at the time of the building of the institution.

SHIPBUILDING IN OLD JAPAN

Striking Advance of Industry Is Shown by Large Tonnage of 1919

Shipbuilding in Japan is going apace with other countries. The output for this country 611,883 tons is by far the highest on record. It is 121,959 tons more than in 1918, and 261,742 tons more than in 1917. The striking advance of the shipbuilding industry in Japan, is well shown by the fact that the tonnage launched during 1919, nearly equals the whole output of Japan during the 22 years of 1892-1913. The 1919 totals only refer to steel steamers; they comprise 48 vessels of between 4,000 and 6,000 tons each and 22 of between 6,000 and 8,230 tons each. These figures include 14 steamers of over 5,000 tons each launched for the United States Shipping Board. The largest vessel is the "Bangkok" of 8,230 tons, built at Uraga for French owners. The tonnage launched in this country represents over 40 per cent of the output abroad, outside the United States.

SHIPPING MOVEMENTS.

PALE ANÆMIC GIRLS AND BOYS

Need the Tissue Building, Blood Making, Strength-Creating Elements Contained in Vinol

Druggists Guarantee Vinol Will Make Them Strong, Robust and Rosy, or Return Your Money

It is not natural for a child to be pale, sallow, thin, ailing and puny, with no appetite, and with little energy, thin and scrawny. What such children need is more iron in their blood and the strengthening, tissue, and body building elements of good old-fashioned cod liver oil, without the oil, such as is contained in VINOL, together with other vitally-making ingredients. VINOL increases the red corpuscles and enriches the blood, quickens the circulation, increases the appetite, aids digestion; soon the cheeks regain their rosy hue and the little limbs fill out round and plump and instead of being thin, sickly, ailing, your child is transformed into a happy, healthy child, strong, robust and rosy. Mrs. L. Andrews, of Bainbridge, N. Y., says: "My little daughter, 13 years old, overworked and was run down, tired all the time, nervous, had headaches, couldn't eat and had to stay out of school. Vinol has built her up. She has a good appetite, no more headaches and has returned to school." For all run-down, nervous, anaemic conditions, weak women, overworked men, feeble old people and delicate children there is no remedy like VINOL.

COUGHS IN THE HEAD INFLUENZA LA GRIPPE. Relieved in a night by GRIP-FIX. IN CAPSULE FORM. At all Druggists 35¢ BOX.

The Greatest Chain of "Movies" in Canada

16 of these theatres now in operation; 5 more to be in operation by the end of 1920, and 10 more to be completed early in 1921—such is the scope of this new Canadian-controlled Motion Picture Theatre enterprise.

Is it any wonder, then, that as an investment opportunity, we rank it as one of the most favorable we have ever offered investors?

Indications are that the issue will be rapidly absorbed. You should write, or write immediately for advance prospectus and full particulars.

Commercial and Financial News

CLOSING LETTERS BY THE CANADIAN PRESS

(By Canadian Press)

New York, N.Y., March 5.—Interest in the international credit situation obscured all other events in the securities markets today, although reports of impending heavy gold imports from England and may be France, lacked information.

Additions to the already large exports of gold from this center to South America were announced, but these were offset in part by the receipt of gold from Canada, with prospects of further shipments from the northern border.

The exchange on francs and other leading European markets was very strong, a maximum of \$3.70 being quoted for demand bills on London before the close of the stock market. That is an advance of 12 cents from yesterday's highest accepted trading rate and 51 cents over the low record of February.

Dealers on exchange described today's operations as chiefly speculative and based not so much on prospects of gold imports as increasing signs that England will readjust her adverse trade balance in due course.

Stocks were generally strong. Popular shares of the motor and oil varieties dominated the dealings at extreme gains of two to eight and a half points. Strength of the issues was coincident with further advances in prices of crude and refined oils, an increased dividend for Chandler Motors and rumors of an early rise in prices of Motor Tires.

Steels, equipments, shippings and sundry specialties participated in the advance, which lost much of its force in the later dealings. Exchange then was strongest and call loans eased from the nine percent opening rate to six percent.

Sales amounted to 875,000 shares. Aside from the firmness of foreign issues, the bond market was featureless, most domestic rails and industrials showing moderate irregularity with the Liberty group.

Sales (par value) aggregated \$12,750,000.

Old United States bonds were unchanged on call.

Canadian dollars are now quoted at 85.25.

CLOSING LETTERS BY THE LOCAL BROKERS

(By L. G. Beaubien & Co.)

New York, March 5.—There was comparatively little change in the market this afternoon aside from a certain amount of selling in the oil stocks which caused prices in that quarter to ease off. Profit taking was probably responsible for this tendency as the oil group as had a considerably recovery this week.

The motor and tire stocks held their gains well the latter even moving higher in response to the report that an advance in prices will soon be put into effect. Money eased slightly loaning at 8 percent and the foreign exchange recovering continued. Nevertheless there was little enthusiasm over market quotations and the way the market quieted down was not encouraging for a continuation of the upward movement.

(By BrunEAU & Dupuis)

New York, N.Y., March 5.—Today's market has shown quite plainly that after the long and drastic decline the market is pretty thoroughly liquidated and anxious to reach better prices as soon as financial affairs permit.

Starting strong there was some reaction on the 9 percent renewal rate but the easing of money toward the close brought a slight improvement again.

While the recent signs of somewhat less tension in the money market are welcome, we must bear in mind that this month is one of extremely heavy payments to the government and that probably there will be high rate throughout the month.

Nevertheless there are distinct signs that efforts are being made both here and abroad to improve the exchange situation and to get the trade affairs of the world at least as to finance in better shape and all this is helpful toward a reasonable condition. It looks therefore as if the street had done its share of liquidation and that in bettering the position of the banks business community would have to do its part. Of course this is a somewhat slow process as owing to high prices all business transactions absorb far more money than in prewar days.

The general markets seems to us now to be in much sounder condition than for some time past and ready for some further improvement if the supply of money is available.

Sales 1,052,200.

DAILY GOSSIP ON THE LEADING STOCKS

Pynchon & Co., New York, say: "Again today there is little of interest to report in connection with the small turnover in stocks. The Marine issues were probably the most prominent in the trading and their strength was accompanied by rumors of coming favorable developments in the shipping world. The Oil issues made a better response to the favorable trade position than on any recent session. American Car and Foundry scored a moderate advance following the declaration of the regular quarterly dividend. Baldwin was under pressure throughout the session and it is reported that the selling came mostly from one source, supposed to be for the account of a well known bearish operator now sojourning in the south. There was no change in the money situation. Further selling by disappointed holders of the rail stocks carried these issues very substantially below the high levels at the end of last week."

After a meeting of the directors of the Montreal Tramways Company yesterday it was announced that it had been decided to pay another dividend of 2 1/2 per cent. on account of arrears. It is for the quarter ended September 30, 1918, and is the second declared lately, and first one of like amount having been paid on December 31 last for the quarter ended June 30, 1918. This leaves 12 1/2 per cent. still in arrears, and while yesterday's action came somewhat sooner than the Street expected it is accepted as confirming the belief that it is the policy of the company to continue paying off arrears gradually until the obligation to the shareholders is liquidated. The dividend is payable to shareholders of record on March 30.

Hay, baled, truck Toronto, car lots, No. 1 \$27 to \$28; No. 2 mixed \$25, per ton.

Soft corners are difficult to eradicate but Holloway's Corn Cure will drag them out painlessly.

MONTEAL EXCHANGE

(By Canadian Press)

Montreal, Que., March 5.—The outstanding strength of the general list in face of an exceedingly tight money situation was the feature in today's trading on the local stock market.

Laurentide took the leadership with sales of about 3,900 shares, the price being up five points at 92, at which it closed. Sugar came next with sales of 3,600 shares and advanced to 97 1/2, the net gain being 1 1/2 points. Brazilian was the object of bullish demonstration and on sales of 2,800 shares showed a net gain of 3 points at 48. Steamship common was dealt in to the number of 500 shares and reached 75 a net gain of 2 1/2 points. Spanish River common sold up three points to 61 and the preferred to within 1/4 point of the high of the year, making an extreme gain of 2 1/2 points at 112 1/2. In the other papers Rioridon added 5 1/2 points at 182 1/2; Brompton added 1 1/2 at 78 1/2.

National Breweries rose a large fraction to 58 1/2 on sales of 2,370. The Steel stocks were strong; Dominion sold at 71 to 72, ex-dividend, equal to a net gain of a point and Canadian added 1 1/2 points at 80 1/2.

Laurentide Power lost seven points at 61 and Canadian Cottons preferred lost 2 points at 80.

Total trading: Listed, 22,103; Bonds, \$123,150; Unlisted, 250.

BRIDGES OF BAMBOO.

Natives of Java Erect Unique Structures.

The natives of Java have a bridge-building technique which utilizes to the limit of their slight resources for work of this character. Of raw materials they are acquainted with but two, and one of these is really a product of their own ingenuity. They have no nails, no iron, no true wood; they are forced to rely entirely upon bamboo for the structural parts, and upon a rope of their own manufacture to effect the junctures.

The span is almost 150 feet, and the width of the roadway some four feet. The four bamboo columns at either side of the stream are built up of a double length of from fifty to sixty bamboos, tied up with rope and firmly pressed together by forcing a quantity of wedges between rope and bamboo. Such columns are found to be of remarkable strength and elasticity.

The original element which the Javan natives have brought to the construction of these bridges, as remarked, is the rope. This is made of a fibre taken from the native arum palm, which grows all over the island.

It makes a rope that resists effectively the heavy decaying action of the hot and damp tropical climate with its legions of fungi. In fact, it lasts for many years without any indications of rotting. So between this rope and the bamboo the natives are able to achieve a semi-permanent structure for which it would be hard to find a peer on the ground of cheapness and durability. Perhaps the most surprising feature of the whole thing is the degree to which has been approximated the best type of bridge arch. How does an ignorant savage know that a bridge ought not to be built perfectly flat?

Unless worms be expelled from the system, no child can be healthy. Mother Graves' Worm Expeller is the best medicine extant to destroy worms.

Foreign Business

Much attention is being directed at the present time to export business. This Bank has a number of foreign branches as well as close working arrangements with banks of the highest standing in many other countries which enable it to offer special facilities in the financing of trade with foreign points.

The Duke of Devonshire will give two luncheon parties next week, Tuesday, March 9th, and Wednesday, March 10th, to members of the Senate and the House of Commons, which will take place at Government House, and not as usual at the Rideau Club.

Chronicle Files 25 Years Ago.

Q. O. C. H.

This fine body of cavalry will commence the annual course of drill next week. The meeting of the non-commissioned officers was held last evening at the Drill Hall and everything pointed to the squadron being more than ever in a good, live and efficient state during the coming year. The N.C.O.'s are good men and popular, and there will be some changes in the staff of commissioned officers. Major Hethrington, as already mentioned, leaves the captaincy of the squadron. Mr. Ashmead, who is to take a commission in the troop, which will now be commanded by Lieut. Lawrence. Capt. Breakey, of a Troop will become Adjutant of the corps and Lieut. Turner will become a very popular and efficient troop commander. Mr. Lorne Drum, we are told, will take a command in the troop.

Post Office Boxes.

Yesterday a correspondent called attention to the wretched state in which the Post Office boxes are in. He did not say a word too much in condemnation of them. Fully two-thirds of the lot should be split up into kindling wood. A brand new set such as is being put up in the Montreal Post Office ought to be placed in our Post Office, the third in importance in Canada. Our boxes are a positive temptation to any thief.

Quebecer Decorated.

The medal of the Royal Humane Society has been awarded to Lieut. Kenneth Campbell, 6th Dragoon Guards (Carabiniers), Deputy-Commissioner and Vice-Consul of the Niger Coast Protectorate, for having saved a native from the Vice-Consul's hulk in a river where crocodiles abound.—London Times, 21st February; Lieut. Campbell is a son of our respected fellow-townsmen, A. Campbell, Esq., Prothonotary.

LONDON NOW LESS NOISY.

Middle-aged Londoners who went to live in the capital in the sixties and seventies merely smile when we ask if London could possibly be noisier than it is at the present day. For they say it was a far noisier place then, when nearly all the main streets were granite paved and all the wheels of the vehicles iron bound. There was a continuous roar then to which the present day sound is a mere whisper.

One such Londoner says he often heard in the old days the roar of London's traffic from as far away as the Crystal Palace parade. The sound was like that of continual very distant thunder. He has many times in recent years listened for the sound from the same spot, but has never heard it.—London Chronicle.

NOT MANY REMAIN.

Victoria, B.C., March 2.—Sixty-one years ago the pioneer band of Methodist missionaries arrived in Victoria. The only surviving members of the band, now in British Columbia, are Mrs. Thos. Cunningham of Chilliwack, and Rev. Dr. White, superintendent of the Methodist mission in British Columbia. The leaders of the party were Rev. Ephraim Evans, D.D.; Rev. Edward White, Rev. Ebenezer Robson and Rev. Arthur Browning. Travelling to British Columbia in those days was a much more difficult undertaking than it is today, and the party, leaving Toronto in November, 1858, did not arrive in Victoria until February, 1859. They travelled via New York, Panama, San Francisco and by boat to Victoria.

CONAN DOYLE'S "FAMILIAR."

Sir Arthur Conan Doyle's "familiar" proves of very practical assistance to him the other day. The creator of "Sherlock Holmes" walked into his study, and after some indecision drifted to the wastepaper basket, plunged his arm into the litter, and—extracted a valuable war office document relating to the history of the war! It had blown from the table into the basket.

"I've never done such a thing before," said Sir Arthur, in narrating the circumstances, and the unusual course of action which he followed with such good results he attributes wholly to the promptings of his "familiar."—London Chronicle.

ASSOCIATION CRITICIZED.

Winnipeg, Man., March 2.—In a resolution passed at the annual meeting of the Manitoba Rifle Association the National Rifle Association is severely criticized for its ruling providing that the annual rifle matches for 1920 be shot with the Lee Enfield rifle with open sights. The resolution reads that the association views the ruling as an absolutely retrograde movement which will put back rifle shooting where it was 15 years ago, at least, and recommends immediate re-adoption of the adjustable peep sight in all matches which are prescribed as tests of skill and accuracy in rifle shooting.

USE FOR SURPLUS MUNITIONS.

An interesting suggestion has been made by a prominent Swiss meteorologist and physicist, M. de Quervain of Zurich, to the effect that the vast stores of munitions collected in the belligerent countries during the last four years be utilized to advance the cause of science instead of being merely fired off to make a Roman holiday, or else sunk in deep waters to avoid the latent dangers which reside in them. By detonating these explosives in definite quantities at definite dates, and at definite times whose possibility would be presented for the solution of many interesting problems in physics and meteorology. The project might advantageously be carried out in this country.

CRYPTIC CABLE.

For smartness the following will be hard to beat: A well-known personage in Devonshire, England, received a cable from his soldier son in Mesopotamia containing only three words: "Two John twelve." After much puzzling the meaning dawned upon him. Taking down his Bible he turned up the Second Epistle of St. John and read the twelfth verse, which runs as follows: "Having many things to write unto you, I would not write with paper and ink, but I trust to come unto you and speak face to face, that our joy may be full." His son was on his way home to England.

TOPAZ

The topaz is found in Maine, Colorado, Texas and California. The finest stones come from Brazil and from the Ural Mountains, in Siberia. Pure topazes from Brazil cut like diamonds, closely resembling that stone in lustre and brilliance.

Remarkable Circumstance.

The following remarkable circumstance was communicated by a person of veracity and respectability, and may therefore be relied on. We give it nearly in his own words, except that the original was in the French language:

A man named Jacques Poitras, aged about eighty years died at St. Jacques on the 19th ultimo of a most rigorous penance, after having lived without taking any nourishment except cold water from the brook, for the span of 52 days, which he drank from the heel of a shoe. For upwards of seven years he had accustomed himself to a similar penance during which time he made a pavement bed on which he died without a groan and without a scar on his body. His pious and rigorous manner of living made him to be regarded as far surpassing other men.

Correspondence.

PATRIOTIC FUND ADMINISTRATION.

Quebec, March 4th, 1920.

The Editor, Quebec Chronicle, Quebec.

Sir,—Kindly allow me a little space in your esteemed paper to tell the Public of the doings of some of our Government Officials and the Patriotic Fund Executives.

How is it that the married returned soldiers are still drawing "unemployed pay" from the Government Emergency Fund for the unemployed returned soldiers while the single men's allowance has been withdrawn? The married men are drawing from \$18.00 to \$22.00 a week according to the size of their families, the single men were drawing \$12.50 per week.

Have we single men better chances of securing employment than the married men, or didn't we do as much as they in the line of fire, didn't we have also dear ones to leave behind when we left, are we not in need as much as they now?

Read more adds in the newspapers, where men are wanted, you will find "Married Preferred." Employers seem to resort to the Soldier's Civil Re-Establishment Bureau only when every other means of securing help has failed.

Trusting this will be sufficient to explain the situation for us single men and thanking you, Mr. Editor for the favor.

I remain,

Respectfully yours,

P. J. ROBERGE,

3 1/2 St. Cyrille St., Quebec.

ALL THAT AFFECTED HER

That the Empress Eugenie is not prone to brood sentimentally over the past is evidenced by an incident that occurred some years ago. She visited Windsor castle, a palace in which in the golden days of the empire she was received as an honored guest. Those who accompanied her on this second visit hovered near her, fearing that she would be overcome with the contrast between the past and the present, especially when she viewed the apartments fitted up for her use and which had not been changed. But it was merely her artistic sense that was offended. The hangings of the huge bed were of imperial purple with the green of Napoleon, and the ex-empress rested disquietedly. "Toujours ces affreux rideaux!" Always those frightful curtains.

BURIED ROME.

Archaeologists in France have been greatly encouraged by the success which has attended the excavations in Provence in search of more Roman architectural remains. It is thought, owing to the extent of the discoveries, that it will be possible to bring to light the roads which existed between the various Roman establishments of the south of Old France. Inscriptions and sculptured fragments have been found at Die in the Drome, aqueducts, an immense gymnasium, a necropolis and ramparts at Orange; while at Valson the Roman theatre having been fully revealed, the statues discovered there in fragments are being pieced in the neighboring museum. There is a Sabina, a Tiberius, a Hadrian and an Augustus.

THE JEWISH CALENDAR.

This is the year 5680 of the Jewish calendar. The Jewish era reckons from the creation, 3,760 years and three months before the commencement of the Christian era. The Jewish year consists of either twelve or thirteen months, of twenty-nine or thirty days. The civil year commences with the month Tisri, immediately after the new moon following the autumnal equinox; the ecclesiastical year begins with Nisan the year 5680 began September 25, 1919.

BRIDEGROOM GROWS IN IMPORTANCE.

The war has given the bridegroom a significance he never before possessed. Formerly wedding notices were devoted to the bride, her trousseau, her bridesmaids and her family. The bridegroom was mentioned only incidentally, if at all. By reason of his rank, he has become one of the most important persons in the alliance.—Philadelphia Public Ledger.

TWO MILLION IN BUDGET.

Edmonton, Alta., March 3.—About \$2,000,000 will be included in the budget of the public works department, it is expected, for new outfalls and bridges in different parts of the province during the coming year. The final figures are now being made up for presentation to the legislature.

TALCUM POWDER DRUGGISTS

Chicago, Ill., March 4.—"Talcum powder druggists" whose equipment is said to consist of a box or two of talcum powder, for window display purposes, and an inexhaustible supply of whiskey for medicinal purposes, were under investigation today by Federal officials following the arrest of two physicians last night.

One of the doctors is said to have admitted he had written from 100 to 200 prescriptions for whiskey daily, collecting a fee from \$1 to \$7 per prescription, depending upon the nature of the patient's cough.

Wretched from Asthma. Strength of body and vigor of mind are inevitably impaired by the visitations of asthma who can live under the cloud of recurring attacks and keep body and mind at the full efficiency? Dr. J. D. Kellogg's Asthma Remedy dispels the clouds by removing the cause. It does relieve. It does restore the sufferer to normal bodily trim and mental happiness.

DANCING Every evening o'clock, at the new refreshment parlor, Montcalm Hotel. Selected patronage; appropriate floor, jazz music. Free entrance.

GUARD AGAINST THE 'FLU

Serious Outbreaks of Influenza all over Canada

GOOD HEALTH IS THE SUREST SAFEGUARD

"FRUIT-A-TIVES" Brings Vigor and Vitality and Thus Protects Against Disease

There can be no doubt that the situation regarding the spread of influenza throughout Canada is one of grave concern. It is quite true that the number of cases does not constitute an epidemic such as caused the suffering and sorrow during the terrible days of 1918. Yet there is no disguising the fact that everyone should be on their guard against the disease.

In Montreal alone, from January 20th to February 21st, three thousand, one hundred and twenty-two cases of influenza were reported to the Health Department.

If the outbreak had come at the beginning of the winter instead of the end, we might reasonably feel that the very cold weather would check the spread of the disease. But coming as it has, at the end of the winter, there is grave fear that an epidemic may occur. For spring, with its slush and rain under foot, its dampness and chill, its constant changing from cold to warm and back again, is a prolific source of coughs and colds, pleurisy and pneumonia.

The best protection, in fact, the only safeguard against the "Flu, is GOOD HEALTH.

Those who are not as well and strong as they should be; those who are underweight; those who are "run-down" through overwork or sickness; should build up at once. What they need is a Blood-purifier, a body-builder, a strength-giver, like "Fruit-a-tives", the wonderful fruit medicine.

"Fruit-a-tives" regulates the kidneys and bowels, causing these organs to eliminate waste regularly and naturally as nature intended. "Fruit-a-tives" keeps the skin active, and insures an abundant supply of pure, rich blood. "Fruit-a-tives" tones up and strengthens the organs of digestion, sharpens the appetite, brings restful sleep and restores the vitality of the nervous system. "Fruit-a-tives" contains everything that an ideal tonic should have; to purify the blood, to build up strength and vigor, and to regulate the eliminating organs, so that the whole system would be in the best possible condition to resist disease.

Now is the time to build up your health and strength, not only as a precaution against the ravages of influenza, but also to protect you against "spring fever" and the inevitable reaction which comes with the appearance of warmer weather. Get a box of "Fruit-a-tives" today and let this fruit medicine keep you well.

"Fruit-a-tives" is sold by all dealers at 50c a box, 6 boxes for \$2.50, trial size 25c, or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

Something About Feather Pillows

What is more unsanitary than a Feather Pillow?

Did you ever stop to think how careful you are to put nice clean pillow slips on to those same old pillows?

They are handed down from one generation to another with nothing more than an occasional airing.

We wash your FEATHER PILLOWS without removing the feathers, and dry them with warm air and constant agitation in our HOT AIR DRYING MACHINE, which thoroughly sterilizes and renders them soft and fluffy.

Eiderdown Quilts also nicely cleaned and returned soft and fluffy.
