

## HUNDREDS OF PEOPLE VISITED FARMING SPECIAL HERE TO-DAY.

Coming Trains Brought Many From Surrounding Towns—Special Lectures Should Prove of Great Value To Farmers—Lecture on Orchards at The Y. M. C. A. This Evening—Will Visit Cookshire, Scotstown and Lake Megantic To Morrow.

Nearly every train coming to Sherbrooke to-day brought its quota of farmers, and others interested in agriculture, to visit the Farming Special. In spite of the unfavorable weather the cars were crowded shortly after nine o'clock, when the doors opened.

The Special arrived here about 7 o'clock last night from Waterloo, Eastman and Magog. Mr. Timberman, C.P.R. Industrial Commissioner, who is travelling with the train stated to the Record this morning that over fifteen hundred people visited the train at Waterloo yesterday. The attendance at other places where the train stopped was also satisfactory, over 2,500 people passing through during the day.

**STUDENTS VISITED TRAIN.**  
The students of St. Charles Seminary visited the train in a body this morning, accompanied by their teachers. Many of them were farmers' sons and were keenly interested in the various exhibits and the lectures.

**FARMERS WERE INTERESTED.**  
That the farmers appreciate the efforts of the Government and C. P. R. to bring before them the most advanced methods of farming was evident by the close attention they gave the demonstrators. They took full advantage of the opportunity given them to ask questions, and although the train only remains in Sherbrooke to-day will go back to their homes with a better idea of how to get the very best out of their farms; how to feed their live stock to get the best results; and will have gained a great deal of useful information which should prove of inestimable value to them.

The professors in charge are all top notchers in their lines and those who hear them need not hesitate to accept their advice with the full knowledge that it is the best available.

**SPECIAL LECTURES.**  
Special lectures on different subjects were delivered during the day in the lecture car, specially arranged for that purpose. The list of these interesting talks will appear in the Record during the next few days, and would do well to read them carefully, and preserve them for future reference.

**ILLUSTRATED LECTURE TONIGHT**  
In connection with the visit of this Farming Special an illustrated lecture will be given at the Y. M. C. A. auditorium this evening. The lecturer

will be Mr. Geo. Turney, Agricultural expert of New Brunswick. His special subject will be orchards, and it is hoped that a large number will turn out to hear him.

A short time ago Mr. Turney addressed the members of the St. John Board of Trade and they found his address so interesting that the sum of \$1,000 was subscribed for the purpose of starting a Board of Trade Orchard. Each member of the Board planted one tree, and in the near future expects to reap fruit therefrom.

**MANY LADIES IN ATTENDANCE.**  
A feature of the visit to Sherbrooke was the large number of ladies who visited the train. The Poultry, Fruit and Dairy Departments were of special attraction to them.

**AT COOKSHIRE TO-MORROW MORNING.**  
The Special will visit Cookshire next, being there to-morrow morning at nine o'clock. The next stop will be Scotstown where the train will remain from one till three. Megantic will next be visited, the train remaining there from four till six thirty P. M.

After leaving Megantic it will proceed to the Maritime Provinces and continue its missionary work among the farmers.

**BETTER FARMING SPECIAL AT SUTTON.**  
Sutton, June 6.—(Special)—The Better Farming Special was here as advertised on Tuesday from 1 to 3:30 p.m. and was visited by a large number of people. Many of the farmers and their wives came in to inspect the exhibit and to listen to the lectures. As a rule the farmers were much pleased with the affair. The Academy let out for the afternoon as well as the convent and teachers and children from both institutions attended in a body. Considerable farm literature was distributed.

**MANY INTERESTED AT MAGOG.**  
Magog, June 6.—(Special)—The C. P. R. Farmers' Special arrived here about 3:30 Wednesday afternoon and remained about three hours. In spite of the fact that many farmers were unable to attend, owing to the necessity of being at home at this time, a large number of visitors attended and viewed the exhibits and listened to the lectures. The various exhibits attracted considerable attention by those interested in these particular subjects and numerous questions asked and considerable useful information given by the demonstrators in charge. To pick out any particular exhibit as attracting the most attention would be impossible.

## VALLEYFIELD PRIEST DROWNED.

Was Driving Home when His Horse Bolted and Threw Him Into Canal.

SUPPOSITION IS THAT HORSE WAS SCARED AT A DREDGE.

Valleyfield, Que., June 6.—(Special)—Last night Brother Vaillancourt, of St. Timothee College, was drowned in the Beauharnois Canal.

The supposition is that his horse got scared at a dredge in the canal and bolted. He and a priest drove to Beauharnois, and Brother Vaillancourt was returning home when the accident happened.

## MAGOG WILL HAVE ANOTHER BANK.

Branch of Montreal Bank Will Be Opened There

MOVE IS AN INDICATION OF THE GENERAL PROSPERITY OF THE TOWNSHIPS.

Magog, June 6.—(Special)—The Bank of Montreal has secured premises in this place and will open up a branch in the near future. The fact that this large institution has seen fit to open a branch here is simply another proof of the general prosperity of this section and the Eastern Townships in general. It is not yet known who will be in charge of the proposed branch.

## TELEGRAPHIC DISPATCHES SUMMARIZING CANADIAN AND WORLD NEWS

**ANGLICANS AND CHURCH UNION.**  
Hamilton, Ont., June 6.—At yesterday afternoon's session of the Niagara Synod, Rev. Dr. Lyle, ex-moderator of the Presbyterian General Assembly, when invited to the platform by Bishop Clark, introduced the subject of organic church union, and expressed his hearty approval of it. He said he hoped the day was not far distant when all the evangelical churches would be united in Christ. Bishop Clark assured Dr. Lyle that the Anglican Church had no desire to interfere with church union, and would carefully consider it when the other churches were through dealing with it.

**LORD STRATHCONA CONTRIBUTES.**  
Halifax, N. S., June 6.—The following cable was received from Lord Strathcona yesterday morning: "Will gladly give fifteen thousand dollars as a sum needed to make up \$400,000 required for Dalhousie University." A campaign to secure \$400,000 for Dalhousie University is now on in this city. Of this sum \$236,000 has already been secured.

**WILL LOAN AUSTRALIA A CRUISER.**  
London, June 6.—Arrangements have been arrived at whereby the Admiralty will lend the cruiser Encounter to the Australian squadrons for the purpose of training crews. The encounter will be re-commissioned with specially qualified officers and a nucleus crew. The Admiralty note said: "And will continue to aid the developments of the Australian fleet by every means in her power."

**ALGERINE ABANDONS QUEST.**  
St. John's, Nfld., June 6.—The steamer Algirine, which was sent out by the White Star line to search for bodies of Titanic victims, reported to Cape Race yesterday that she had found no bodies and seen no signs of wreckage. She was ordered to abandon the search and return to this port.

**LOOKING TO INVEST GERMAN CAPITAL.**  
Toronto, June 6.—W. E. Mingramm, a prominent capitalist of Hamburg, Germany, is touring Canada investigating the openings for

## JUDGMENT CONFIRMED.

Court of Review Maintains Judgment in Case, Demers Vs Hebert.

PETITIONED COURT TO HAVE MAYOR'S ELECTION DECLARED NULL.

In the Court of Review yesterday in Montreal the judgment of Mr. Justice Gobeinsky in the Superior Court here in the case of Demers vs. Hebert was confirmed.

This was a petition presented to the Court to have the election of Mayor Hebert declared null on the ground that his property qualification was not sufficient. The petition also asked that the Mayor's opponent, Mr. D. G. E. Demart, be declared elected Mayor.

The judgment of Mr. Justice Gobeinsky dismissed the petition on all points and this has been now confirmed.

It is not expected that the case will be taken to a higher court.

## COBALT HAS DISASTROUS FIRE.

Believed That Damage Will Amount To \$150,000

FIRE STARTED IN THEATRE WHILE PERFORMANCE WAS GOING ON.

Gillies Depot, Ont., June 6.—Over one hundred and fifty thousand dollars damage has already been done by fire which is still raging in Cobalt, although the combined fire departments from Cobalt, Halesbury and New Liskeard are fighting it. The fire started in the Lyric Theatre, on the Main corner, during the performance, by an explosion of an oil stove used by an actor in his dressing room. The theatre was emptied without disorder. Twelve lines of hose were laid, but despite the excellent pressure, the fire gained headway and soon Milton Carr's dry goods store, nearby, was a mass of flames. It seemed impossible to check the flames, but through strenuous efforts the Bank of Commerce building escaped with a scorching.

With the collapse of the theatre the flames leaped to the Cobalt Hotel and thence to Harrington's restaurant, the Galoska block and the Moore block at the rear of the hotel. By 11:30 the Halesbury brigade arrived, followed soon after by the New Liskeard engine and hose company. At mid-night the Town Hall, the Bank of Commerce and the Nipissing stores block seemed in great danger.

It took almost superhuman efforts to save the Hunter block opposite the theatre, as the safety of the remainder of the business section depended on this. Several firemen were overcome by smoke. Two women were taken to the hospital suffering from shock. Many volunteer firemen were scorched on the face and hands. An actress, a midget, lost \$1,000 cash and effects.

The blaze was spectacular and thousands of citizens of Cobalt and neighboring towns lined the streets watching the conflagration.

At the hour of sending it is impossible to secure figures of insurance carried.

**PRINCE AGAIN OPERATED ON.**  
Madrid, June 6.—Prince Jaime of Spain, the second son of King Alfonso and Queen Victoria, was operated on yesterday for abscess of the ear. The operation was performed by Professor Moore, of Bordeaux.

Prince Jaime, who is now about four years of age, has been operated on several times for affections of the nose and throat. He has never been in robust health, and reports have been current that he was without the power of speech. It was hoped that by an operation performed last August at Fribourg, a permanent cure would be effected.

**INVESTMENTS BY GERMAN FINANCIERS.**  
Mr. Mingramm states that the advantages of Canada are practically unknown in Germany, as the authorities there discourage all attempts to secure publicity for the Dominion as a goal for investment and immigration. The German Empire needs all the men and money now within its borders. Mr. Mingramm will go to the Pacific Coast before returning to Germany.

**STEAMER CANADA CAPE BEACH.**  
Cape Town, June 6.—The British steamer Canada Cape, from St. John, N.B., and Sydney, C.B., before reported at this port on fire, has been beached. The fire is not extinguished. The cargo in holds one and two has been destroyed.

**SNOW IN THE SOUTH.**  
Valparaiso, June 6.—Ten of the passengers of the trains stalled by the great snows left Inca Friday to make their way to Valparaiso. Eight of them arrived to-day in a pitiable condition.

## AMERICAN MARINES LANDED IN CUBA.

First Steps Towards Occupation of Island By United States.

FOURTH DIVISION OF ATLANTIC FLEET HAS SAILED FROM KEY WEST.

Havana, June 6.—American marines have landed on Cuban soil.

While it is officially declared that this action was taken solely to protect American and other foreign properties, the impression became general that it was a preliminary step to American intervention. This caused considerable excitement at the capital. Later it became known that the landing was in response to an urgent appeal to the commandant of the United States naval station by the Chamber of Commerce of Guantanamo to afford protection to the numerous foreign estates in the vicinity which the Government forces have been unable effectively to guard.

There was great excitement at Havana yesterday afternoon on the circulation of a report that four American battleships were on their way from Key West. Towards evening the rumor was current that the ships had been signalled off Morro Castle and were expected to enter the harbor within an hour. The excitement subsided on receipt of the news that the warships had been ordered to Guantanamo.

**LANDING OF MARINES.**  
Washington, June 6.—Frank confession of President Gomez that he was unable to meet the demands of the large plantation owners in eastern Cuba for adequate guards against the marauders and insurgents was the factor that yesterday led Captain Kline, commanding the U.S. naval station at Guantanamo, to set in motion the body of U. S. marines gathered there for just such a purpose.

**BATTLESHIPS SAIL.**  
Key West, Fla., June 6.—The fourth division of the Atlantic fleet, consisting of the battleships Ohio, Missouri, Minnesota and Mississippi, yesterday received sealed orders to sea at once, and immediately left the harbor here.

**ANOTHER COMPANY LANDED.**  
Caimanera, Cuba, June 6.—Another company of 120 U. S. marines left here last night for Guantanamo City.

## CREATION OF GREAT IMPERIAL FLEET.

NORTON GRIFFITH ENDORSES FIRST LORD OF ADMIRALTY'S SUGGESTIONS.

London, June 6.—Speaking at Staffordshire last night, Norton Griffiths said that he endorsed the full the First Lord's suggestion, which emanated from some of Canada's leading journals, for the creation of a great Imperial fleet controlled by a special board of the Admiralty, composed of representatives from the dominions and the Mother Country.

Such a board would gradually absorb the present Board of Admiralty and lead to the creation of the greatest and most powerful fleet within the power of the British Empire to create. Were a spot like Malta chosen as headquarters it would be an excellent base from which at chosen times they could visit the different dominions and pay those visits of courtesy to foreign countries which the great trade of the Empire demanded.

## DR. MacGREGOR FOUND GUILTY.

Charged With Administering Poison to Michigan Farmer.

HISTORY OF CASE DATES BACK TO DEATH OF J. W. SPARLING IN JUNE, 1909.

Bad Axe, Mich., June 6.—(Special)—Dr. Robert A. MacGregor of Ulby, Mich., formerly of London, Ontario, was found guilty of murder in the first degree by a jury which returned its verdict at midnight last night.

The history of the case which resulted in the conviction of Dr. MacGregor dates from June, 1909, when John Wesley Sparling, a prosperous farmer, died under circumstances which suggested poisoning.

Since that date Sparling's sons, Peter, Albert and Seyril have died from similar causes.

Relatives demanded an investigation and an analysis of the organs of Seyril Sparling revealed arsenical poison as the real cause of death.

Dr. MacGregor was arrested last October and placed on trial April 2 this year.

Three weeks were consumed in securing a jury, and after other delays the taking of testimony began May 1.

Mrs. Carrie Bodie Sparling, wife of John Wesley and mother of Sparling boys, is now awaiting trial on murder charge.

## DOCK STRIKE IS NEARING END.

Question Was Discussed in British House of Commons.

LLOYD GEORGE FAVORS ORGANIZATION OF BOTH EMPLOYERS AND EMPLOYEES.

London, June 6.—The negotiations yesterday brought the settlement of the dock strike appreciably nearer and introduced a novel element in the relations between capital and labor, which may have far-reaching importance. This was an offer by the Transport Workers' Federation of monetary guarantees for the observance of the awards made by the joint board which the Government proposes to establish.

This announcement by the Chancellor of the Exchequer, David Lloyd George yesterday came as a surprise to Parliament and created a considerable sensation. The ship owners and other port authorities will hold a meeting tomorrow to discuss the new situation which has thus arisen.

Another decision which helped to relax the tension was that of the strikers to abandon their demand for recognition of the federation ticket altogether. The disputants are now considered nearer agreement than at any time during the strike.

## RIOTS IN BELGIUM ARE SUBSIDING.

Labour Delegates Decide Against an Immediate General Strike.

CLASHES TOOK PLACE BETWEEN STRIKERS AND POLICE IN DIFFERENT PLACES.

Brussels, June 6.—The council of the Labor party yesterday decided against an immediate general strike, in spite of protests by the Walloon delegates, reserving such action for next month in the event of the Government refusing to consider a measure for the revision of the constitution which Socialist deputies have introduced in the Chamber.

Both the Socialist and Liberal parties have issued an urgent appeal to vote by Parliamentary methods. These appeals, however, have had no effect in the Walloon provinces, where the strikes are spreading.

Acts of violence are of hourly occurrence notwithstanding the energetic action of the authorities. At Brussels rioting was resumed last night. The scenes of Tuesday were repeated. As fast as the police scattered the mob at one place it reformed at another. Many persons were hurt. There were frequent clashes, both sides employing great violence. Several of the police were wounded by bullets.

At Wavre, fifteen miles east of this city, a mob bombarded the barracks of the gendarmes with stones and injured the commander. Monasteries are being prepared for attack. The Minister of War, General Michel, yesterday issued a statement asserting that if any revolutionary movement developed it would be checked in less than a week.

DISCUSSED THE GOOD ROADS ACT.

STANSTEAD TOWNSHIP MUNICIPAL COUNCIL HAS A SMALL DEFICIENCY.

Smith's Mills, June 6.—(Special)—A regular session of the Municipal Council of the Township of Stanstead was held here when all the Councilors were present with the exception of Councilor G. C. McGowan of Georgeville. The Good Roads Act of 1912 was discussed but no decision made as to the advantages offered. This will be settled next session.

The statement of the Town Farm Manager Newton Quimby was received, showing a deficit of \$105. This deficit was caused for caring for three small children for which good homes are wanted. A committee consisting of the Mayor, Secretary-Treasurer, Councilor Henry was appointed to examine a report on the advisability of changing of a road in the vicinity of Cedar Hill. Councilor Smith and the Mayor were appointed a committee to repair two bridges near Demick's Mills.

A temporary loan was authorized for the making of summer roads.

WATERVILLE MUNICIPAL COUNCIL.

STEPS WILL BE TAKEN TO PUT A STOP TO SETTING OFF FIRECRACKERS, ETC.

Waterville, June 6.—(Special)—A regular session of the Municipal Council was held last Tuesday evening. Present: the Mayor, Mr. F. G. Gale, and Councilors Watts, Swanston and McGovern, forming a quorum.

After routine business several accounts for hauling stone and road work were passed.

The residents of Westmont avenue petitioned the Council to have the sidewalk repaired, also that the street put in better order. The road inspector was ordered to do the work at once.

The village for many years has been subjected to great annoyance by certain young people of this place who on the night before and during public holidays have kept up a continual disturbance by firing cannon, torpedoes, firecrackers, etc., making it very unpleasant for the residents and positively harmful for people in poor health.

The Council passed a resolution requiring the local constable to take steps in the future to put a stop to this practice.

ANIMALS AS CRIMINALS.

Old Documents of the Middle Ages tell of numerous cases where animals were put on trial for offences charged against them. For example, in 1370 three cows were tried for having killed a boy; the whole herd were arrested as accomplices. All were discharged but the guilty three, these being condemned to be executed. The sentence was pronounced by the Duke of Burgundy.

DANVILLE TOWN COUNCIL.

RECEIVED \$1,424.47 FROM GOVERNMENT FOR ROAD WORK.

Danville, June 6.—(Special)—The Danville Council met Tuesday, June 4th. Present: Mayor J. E. Guilmette, Pro-Mayor J. A. McCallum and Councilors Dr. H. R. Cleveland, Geo. McCracken, Pierre Roy, E. F. Stockwell and L. Hannan.

The secretary was authorized to acknowledge receipt of \$1,424.47 received from the Department of Agriculture through the Hon. P. S. G. Mackenzie, for macadamizing roads.

The bill of \$32.80 for fire ladders was paid to I. X. L. Ladder Co. A resolution was passed ordering that engine, hose and ladders are not to be used for any other than fire purposes.

A resolution was passed authorizing J. J. Barlow to collect the dog tax.

It was decided to vote \$10 to the I. O. O. F. for a fire hose competition on July 1st next.

The Sec.-Treas. was instructed to notify all in arrears that their taxes must be paid on or before July 1st next, or legal proceedings will be taken.

BROMPTONVILLE WILL BORROW \$20,000.

MONEY WILL BE SPENT IN MAKING BETTER STREETS IN TOWN.

Bromptonville, June 6.—(Special)—The Council convened this week with Mayor O. Lambert, Councilors D. J. Bruneau, L. Lavoie, T. Meunier and Alf. Paradis present.

It was moved by Councilor T. Meunier, seconded by Councilor Alf. Paradis to borrow \$20,000 from the Government at 2 per cent. for street work.

A resolution passed appointing four citizens as a committee to enforce the vaccination law. Work will be commenced at once in laying a pipe under the G. T. R. track from the Tobin Mfg. Co.'s plant which will connect their force pump giving first class fire protection in the congested part of our town.

Councilor D. J. Bruneau will oversee this work.

McGowan of Georgeville. The Good Roads Act of 1912 was discussed but no decision made as to the advantages offered. This will be settled next session.

The statement of the Town Farm Manager Newton Quimby was received, showing a deficit of \$105. This deficit was caused for caring for three small children for which good homes are wanted. A committee consisting of the Mayor, Secretary-Treasurer, Councilor Henry was appointed to examine a report on the advisability of changing of a road in the vicinity of Cedar Hill. Councilor Smith and the Mayor were appointed a committee to repair two bridges near Demick's Mills.

A temporary loan was authorized for the making of summer roads.

WATERVILLE MUNICIPAL COUNCIL.

STEPS WILL BE TAKEN TO PUT A STOP TO SETTING OFF FIRECRACKERS, ETC.

Waterville, June 6.—(Special)—A regular session of the Municipal Council was held last Tuesday evening. Present: the Mayor, Mr. F. G. Gale, and Councilors Watts, Swanston and McGovern, forming a quorum.

After routine business several accounts for hauling stone and road work were passed.

The residents of Westmont avenue petitioned the Council to have the sidewalk repaired, also that the street put in better order. The road inspector was ordered to do the work at once.

The village for many years has been subjected to great annoyance by certain young people of this place who on the night before and during public holidays have kept up a continual disturbance by firing cannon, torpedoes, firecrackers, etc., making it very unpleasant for the residents and positively harmful for people in poor health.

The Council passed a resolution requiring the local constable to take steps in the future to put a stop to this practice.

ANIMALS AS CRIMINALS.

Old Documents of the Middle Ages tell of numerous cases where animals were put on trial for offences charged against them. For example, in 1370 three cows were tried for having killed a boy; the whole herd were arrested as accomplices. All were discharged but the guilty three, these being condemned to be executed. The sentence was pronounced by the Duke of Burgundy.

DANVILLE TOWN COUNCIL.

RECEIVED \$1,424.47 FROM GOVERNMENT FOR ROAD WORK.

Danville, June 6.—(Special)—The Danville Council met Tuesday, June 4th. Present: Mayor J. E. Guilmette, Pro-Mayor J. A. McCallum and Councilors Dr. H. R. Cleveland, Geo. McCracken, Pierre Roy, E. F. Stockwell and L. Hannan.

The secretary was authorized to acknowledge receipt of \$1,424.47 received from the Department of Agriculture through the Hon. P. S. G. Mackenzie, for macadamizing roads.

The bill of \$32.80 for fire ladders was paid to I. X. L. Ladder Co. A resolution was passed ordering that engine, hose and ladders are not to be used for any other than fire purposes.

A resolution was passed authorizing J. J. Barlow to collect the dog tax.

It was decided to vote \$10 to the I. O. O. F. for a fire hose competition on July 1st next.

The Sec.-Treas. was instructed to notify all in arrears that their taxes must be paid on or before July 1st next, or legal proceedings will be taken.

BROMPTONVILLE WILL BORROW \$20,000.

MONEY WILL BE SPENT IN MAKING BETTER STREETS IN TOWN.

Bromptonville, June 6.—(Special)—The Council convened this week with Mayor O. Lambert, Councilors D. J. Bruneau, L. Lavoie, T. Meunier and Alf. Paradis present.

It was moved by Councilor T. Meunier, seconded by Councilor Alf. Paradis to borrow \$20,000 from the Government at 2 per cent. for street work.

A resolution passed appointing four citizens as a committee to enforce the vaccination law. Work will be commenced at once in laying a pipe under the G. T. R. track from the Tobin Mfg. Co.'s plant which will connect their force pump giving first class fire protection in the congested part of our town.

Councilor D. J. Bruneau will oversee this work.

L. A. BAYLEY

CITIZEN POLICE FORCE

IS SOUGHT IN ENGLAND

London—A circular signed by the permanent under-secretary at the home office has just been issued to the chief constables all over the country. It deals with the question of forming a reserve police force, composed of volunteers who would be ready to serve as police at any moment of national emergency. The advisability of forming such a permanent volunteer reserve has become evident to the home secretary since the recent railway strike called for an addition to the regular force, and he has had the question under most careful consideration.

Mr. Churchill considers that it should be the duty of the police authorities to have a well organized body of citizens ready for immediate enrolment as special constables should the necessity arise. This would give both the police and people a better sense of security and a certainty of protection for themselves and their property from the hooliganism which always follows in the wake of a strike, and which brings discredit on the strikers.

RANKS COULD BE FILLED.

Again, should the army reserves require to be mobilized the places of these army reservists, who are also policemen, had vacated in the force could be speedily replaced by special constables. Thus the means of communication, such as railways, tramways, etc., as well as public works and food supplies, would find ample and immediate protection.

"For the purpose of utilizing to the full," the circular points out, "the services of public spirited citizens, it will in most districts be necessary to allow several categories of special constables to be enrolled, having regard to their different qualifications and varying opportunities of rendering service."

The "first police reserve" would consist of men accustomed to discipline who have served either with the police or in the army. The "second police reserve" would be of men willing to be sworn as special constables under the special constables act, and should be classified as paid or unpaid according to their ability to serve regular turns of police duty or only to be called upon for assistance in special emergencies.

CARE TO BE TAKEN.

The greatest care is to be taken to register only men who are fitted in every way to serve in the police. Special regard being paid to their record for "steady habits and trustworthy character." One particularly interesting feature is the possibility of enrolling strikers as special constables, it being recognized that they will be more and more anxious to suppress the hooligan element whose disturbances only bring discredit on their cause.

In concluding, the secretary of state says that he would "strongly urge that all police authorities should now take immediate steps to build up adequate police reserves which will enable them to cope with future troubles without having recourse to military aid."

BY ACTING TO-DAY YOU CAN QUICKLY CURE CATARRH AND AVOID BRONCHITIS, PERHAAPS CONSUMPTION.

Most Agreeable and Surest Cure is Catarrhazone, Which Cures Every Curable Case.

Catarrhazone proves especially good in those chronic cases where mucous drops down the throat, sickens the stomach, and pollutes the breath. When the nostrils are stuffed, only a few breaths through the inhaler are needed to clear the passages, and where there is coughing and sore bronchial tubes the soothing, healing properties of Catarrhazone act almost as magic.

Once you stop taking medicine into the stomach and get the healing oils and pure balsams of Catarrhazone at work you

BEDFORD DISTRICT LOCAL HAPPENINGS

Gathered by Daily Record Correspondents in Various Communities

SUTTON.

Mr. John P. Dyer of Sutton, has just taken a Bachelor of Laws degree from New York University, where he has been studying for some time. This will be good news to 'Jack's' many friends here and elsewhere. Mr. E. Roy has recently purchased 440 acres of land in Blandford, Nicolet Co., 106 miles north of Montreal, for which he paid \$1,850. This was a bargain price and Mr. Roy, who purchased it as a speculation stands to gain, as a railway is soon to pass through that very section. Recent arrivals and departures include: Mrs. M. Longway and Mrs. Lloyd Longway of Montreal, visiting friends here; Mr. and Mrs. H. L. Reid from a visit to their son Henry and other friends at Newport, Vt.; Mr. Norman Macdonald from the St. Johns Military School, where he has been taking a course and will now go to Farnham Camp; Mr. W. C. Clark from a day in Montreal recently; Mr. Moses Larivee of Richmond, Vt., guest

of his brother, Mr. H. Larivee on Sunday; Mr. Nelson Oliver to Cookshire on Tuesday from a brief visit home; Mr. Geo. Trux of Glen Sutton here on Saturday; Mr. F. A. Manuel of Richmond, Vt., here in interest of veneer mill on Saturday. Mr. John Brown, Jr., engineer at Newport, Vt., has purchased a 22 horse power auto, and ran his car to his home near East Richmond, Vt., at the week end. The Whatsoever Circle met with Mrs. Jane Hoskins on Saturday afternoon. Rev. John Champion of Dunkin has been engaged to preach at Olivet Advent Church every alternate Sunday. At Sutton, Que., May 29th, 1912, there was born a son to Mr. and Mrs. Hector Fremont, making the eleventh son, eight of which are living and the father still under 40 years. Mrs. D. Bickford was a guest of Richmond, Vt., friends on Tuesday. The wife of Mr. Albert B. Reed, of Newport, Vt., who is well known in Sutton, is reported dangerously ill with appendicitis. Messrs. Wm. Courser, W. W. Learied, E. E. Eastman and Eugene Larocque of Glen Sutton, were in town on Tuesday, also Mr. E. L. Harvey, of Abercorn. Mr. E. C. Curley, true to his old time fishing luck, has scooped a couple good catches of trout recently. A son of Mr. Jake Shufelt of Dunham, left here for a Montreal hospital on Tuesday to be operated on for appendicitis. Mr. Merrit B. Longway of Montreal, is calling on old time friends here. Mrs. F. P. Draper of Montreal, has been a guest for some time of her twin sister, Mrs. Eugene Bates. Mrs. Draper has many warm friends in Sutton. Messrs. Wm. Genron and H. W. Call left on Tuesday for a trout fishing trip to Montserrat. Mr. Earl Draper was in town on Wednesday with his mother, Mrs. F. P. Draper, of Montreal. The Draper family were residents here for many years and it will be pleasing news to many to know that Earl has passed the McGill course and is now a full-fledged doctor. His friends are pleased that he will locate no further away than Bedford, where he will practice medicine. Henry Steinhour has received notice of an increase of \$3 per month in his pension, which is given him

Hall and family moved here from Cowansville and are living with her mother, Mrs. Boright; Mr. and Mrs. Park Goddard visiting Mr. and Mrs. Earl Goddard; Mr. Chas. Wilkins and son Carl, Montreal, in town Monday night. The annual meeting of the Auxiliary Bible Society will be held in the Union Church next Monday evening, June 10. Rev. Mr. Bennett will deliver an address illustrated by lime light views.

MANSONVILLE.

The St. Paul's Guild met with Mrs. N. F. McKay on Wednesday. Mr. Robinson of Stanstead College took the service in the Methodist Church Sunday, in the absence of Rev. Mr. Rannels to Kingston. Mrs. Cantwell of Montreal is the guest of her daughter, Mrs. E.H. Henderson. Mr. Patterson, inspector for the Bank of Commerce, spent last week in town. Mr. Archie Saepo was home from Stanstead College for the week end. The school for the primary department closed on Thursday for the summer. Mrs. Harriet Upton of North Troy, was the guest of Mrs. H. A. Gilman Sunday. During the electric storm on Sunday evening, lightning struck and damaged Mr. J. M. Manson's horse barn, and killed a calf that was in the barn.

CHERRY RIVER.

School closed here Friday, May 31, after a very successful term taught by Miss Beane. The following is the school report. Grade V.—Pearl Baird. Grade IV.—Marion Sullivan, Harvey Catchpaugh. Grade III.—Edith Smith, Edith

by the American Government for service in the Civil War. Mrs. J. W. Murphy was a guest on Wednesday of Mrs. Richard Robinson of Cowansville. Mr. Wm. Wing of Foster was in town on Tuesday and Miss Belle Smith, of Richmond, Vt., was here on Tuesday and Wednesday.

BEDFORD.

Mrs. A. B. Foster left on Saturday for a few weeks visit with relatives in Toronto and other Ontario points. Miss Ruby Beattie spent last Sunday visiting in Stanbridge East. Messrs. W. V. Rice of Cowansville, and Chas. Sorberger, of Dunham, were in town on Sunday. Mrs. Vernon Barry left on Monday for Smith's Falls, Ont., for a short visit. Mrs. Jarvis is away for a few weeks visiting in Toronto. Mr. and Mrs. Mark Whitcomb and son Raymond returned on Monday from Waterloo, where they had spent the week-end visiting relatives. Ground has been broken for still another new house in town. Mr. East, on Phillipsburg Road, intends moving to Bedford and is therefore going to erect a dwelling on his property on Upper Main street, opposite the Central Hotel. Miss Mabel Casey, of Montreal, was in town for a few days this week, the guest of Bedford friends. Mr. F. D. Walsh returned on Tuesday from a short trip to Waterloo and vicinity. Word has been received here of the death of an old Bedford boy in the person of Mr. James Coslett, who died in Florence, Montana, at the age of 64 years, through the bursting of a blood vessel. The body was sent to Bedford and on reaching here on Saturday evening was taken to the residence of his brother, Mr. Ed. Coslett, Phillipsburg avenue. The funeral services were held on Sunday afternoon at the home, Rev. Mr. Windsor officiating, and from thence the remains were taken to the Bedford Cemetery. The following were the pall bearers: Messrs. W. H. Williamson, F. J. Borden, M. McNamee, Henry Schoolcraft, V. B. McKinney and Wm. Pharaoh. There remain to mourn his loss two sisters, Mrs. Wm. Gall, of Stevensville, Montreal, and Mrs. A. Hangerford, of Swanton; four brothers, Mr. George A. Coslett, of Fort William, Ont.; Mr. Chas. Coslett, of Los Angeles, Cal.; and Edward and Samuel, both of Bedford. Many friends will regret to know of the illness in Montreal of Mr. S. Shapiro, one of the local merchants.

Mr. L. L. Jenne, of Sutton, is a patient at the Sanitarium. Telephone and electric light poles are being moved on Main street to make way for the sidewalk which is to be made on that side of the street. The sidewalk used now on the opposite side will be a part of the macadamized road. Mrs. N. Davis, of West Bolton, is visiting her mother, Mrs. G.H. Robb.

33RD REGIMENT WILL VISIT PORTLAND, ME.  
(Portland Express & Advertiser)  
That the Fifty-third Regiment of Sherbrooke, the crack regiment of Canada, which will come to Portland for a three days' visit June 29, 30 and July 1, will receive a hearty welcome is assured. Plans are being made at the present time to entertain the visitors; a special meeting of the Portland Board of Trade entertainment committee is being held this afternoon and details for the entertainment of the Canadian military organization will be discussed. British Vice Consul John B. Keating has taken the matter in hand, and he said to-day that about 500 members of the Regiment would come to Portland. They will arrive in Portland June 29th and will remain here over Dominion Day, July 1. Special excursions will be run over the Grand Trunk Railway from Sherbrooke, Saturday, June 29 and Monday, July 1, so that hundreds of Canadians will undoubtedly come to this city.

It is planned to have the regiment make a trip down the bay by special steamer on one day during the visit, they will go to Old Orchard another day and the entire organization will attend services in St. Stephen's Church in a body Sunday morning, June 30.

The visit will be the one big military event of the year in Portland and it is probable that the visitors will be entertained by local organizations such as the Elks Club, the new Canadian Club, and the local militia organizations, and naval militia divisions will probably take part in the events.

Many members of the Fifty-third Sherbrooke Regiment have visited Portland in the past as the organization came to Portland six years ago. Lieut.-Col. T. S. Somers is the commanding officer of the regiment, while the other officers are: Major F. C. Bowen, Major L. A. Bayley, Captain J. H. Blue, adjutant; Captain H. B. Fletcher, Captain V. R. C. Sperring, Captain G. A. MacIver, Lieut. H. A. Sampson, Lieut. M. K. Adams, Lieut. R. MacKenzie, Lieut. F. J. S. Shilly, Lieut. N. C. Picher, Lieut. J. B. Woodyard, Major W. A. Farwell, Medical Officer; Capt. J. R. Duncan, Paymaster; Captain H. B. Brey, quartermaster; Lieut. Macgowan, signal officer.

## STUDENTS ENJOYING ANNUAL OUTING.

The Senior and Junior Philosophy Classes of St. Charles Seminary are enjoying their annual outing at "Monticello," Lake Genesee, for which place they took their departure yesterday in two large vehicles, which were comfortably crowded. The boys were accompanied by Mr. Tanguay, Abbes Maltais, Chartier, Dubé, Lemay and Bois, with several members of the band and orchestra. This day was spent in rowing, fishing, and other out-of-door sports, and substantial meals were served at the house.

In the evening music and singing made the hours before bed time pass quickly.

This morning mass was celebrated in the tiny chapel.

## INSPECTION OF HIGH SCHOOL CADETS.

The annual inspection of the High School Cadets was held yesterday afternoon by Major Hill, Brigadier-General 17th Brigade, Quebec, inspecting officer, Lieut.-Colonel Somers, O. C. 33rd Regiment, and Principal Lockhart being present. The corps, which has been instructed by Sgt. Collins, R. C. R., was commanded by Cadet Capt. Macfarlane. The colours during the march past were carried by Cadet Lieut. Jencks. After the march past the company was put through company drill and skirmishing. Major Hill then briefly addressed the corps, commenting favorably on the work done, and expressing a hope that all the company would attend the camp for Cadets to be held the second week of July.

## WOMAN HAD NARROW ESCAPE.

Early yesterday morning there was a great commotion in the vicinity of the Continental Hotel, corner of Wellington and King Streets, when it was discovered that a woman living in the neighborhood had been poisoned. The unfortunate woman was Mrs. Fentaine, who had sent for a bottle of patent medicine, and failing to understand the directions, had used it internally instead of externally.

Doctors were summoned at once, but for some reason not one could be found. Rev. Father Desaulniers, Vicar of the Cathedral, who had been called, began to administer antidotes but for a couple of hours there was a fight between life and death. Finally however, some relief was obtained, and it is believed that the unfortunate sufferer is now out of danger, but if the attendant priest had not shown great presence of mind in an emergency, and a certain knowledge of medicine, the result would have been very different.

## ENTERTAINMENT AT ST. ANDREW'S CHURCH.

A very pleasant entertainment was held at St. Andrew's Church Hall, Tuesday evening, under the auspices of the Ladies' Aid Society. The Hall was specially decorated for the occasion with lilacs and honeysuckles, and was well filled with an appreciative audience.

The feature of the evening was an interesting address by Mr. John Macdonald, a member of the Church, who has recently returned from a trip through the west. During the short time at his disposal he took his hearers on a trip of imagination through that vast and rich part of Canada. His descriptions of the various places he visited, the people he met, etc., were clear and concise, and were listened to with a great deal of pleasure. The address was such as to inspire in the hearts of those who heard him a greater love for the country to which they belong.

A short musical programme was given, as follows: Piano, solo, Miss Doherty; vocal duet, Dr. and Mrs. Mackay; solo, Miss Katherine Fobins;

## THE GLASS COACH

New Vehicle for Royalty to Replace the Burnt Carriage

The new Royal Coach which takes the place of the famous one burnt while at the makers to be repaired is called the "glass coach," on account of its large windows which enable the King's faithful subjects to have a good look at their sovereign as he passes by.

It is not the gilt medæval-looking affair which their Majesties use on full state occasions such as the coronation and the opening of Parliament, but is kept for semi-state functions—levees and so forth. However, their Majesties prefer it infinitely to the old "Cinderella" coach which takes precedence over it and which has such a disagreeable motion that poor Queen Mary feels quite ill after a short journey in it.

It took twelve months to make the new carriage and nothing but British material was used in its construction except some Honduras mahogany for the panels. A description of it reads a trifle garish, and no doubt the decoration will not be copied by ordinary mortals for every day use. The body is painted dark, plexed out with gold and the centre of the panels are adorned with the royal arms. The roof is surmounted by a raised design incorporating the rose, shamrock, thistle and palm, symbols of empire, while the centre of the roof is occupied by a gilt crown. The wheels and underbody are of vermilion and gold, while the hammercloth spread over the coachman's seat is scarlet, purple and gold with gilt tassels. Add to this four gilt lamps at each corner and two gorgeous footmen in scarlet and powdered wigs hanging on to the back, and you will realize that it is not exactly the cart to slip out unperceived.

The interior is upholstered in purple silk and the plate glass windows are framed in hand carved ivory. The whole thing weighs 3,000 pounds.

AN UNFORTUNATE MEMORY  
An entertaining little incident transpired between one of the best known Judges of the King's Bench Division and an ex-cavaly officer, by no means unknown in London's social world. The two met at a reception and found themselves side by side. The Judge shook hands warmly with the officer, and said, "I know we have met before; I recall your face perfectly. Do you remember where it was?"  
The soldier smiled grimly. "Yes, sir," came the blunt reply. "It was at the Old Bailey, when you were good enough to tell me that I ought to thank my lucky stars that I was only in the witness box and not in the dock!"  
What the Judge replied is not recorded.

FINANCIAL AND MARKET NEWS.

COUNTRY PRODUCE

STEADY EGG MARKET. Montreal, June 6.—A steady feeling prevails in the egg market under a continued good demand, and the movement is unusually large for the season of the year. We quote prices as follows: Selected stock in round lots, 20c.; selected stock in single cases, 20c.; straight receipts in round lots, 22c. to 23c.; straight receipts in single cases, 23c. to 23 1/2c.; second grades in round lots, 17c.; second grades in single cases, 17c.

HONEY MARKET STEADY. Montreal, June 6.—The market for honey remains steady but the volume of business doing is small as the consumption is light at this season of the year. We quote prices as follows: Clover, white honey, 10c. to 11c.; dark grades, 7c. to 8c.; white, extracted, 8c. to 10c.; buckwheat, 7c. to 8c.

MAPLE PRODUCTS IN DEMAND. Montreal, June 6.—There is no change in maple product for which the demand continues fair. We quote: Maple syrup in bulk, at 7c. to 7 1/2c. per lb., and in tins, 7c. to 7 1/2c., as to size, and maple sugar at 9c. to 10c. per lb., as to quality.

BEAN MARKET FIRM. Montreal, June 6.—The tone of the market for beans is firm owing to the light shipments from the West, and small stocks on spot and car lots of 3-pound pickers are quoted at \$2.62 1/2 per bushel.

GOOD POTATO TRADE. Montreal, June 6.—A good trade continues to be done in potatoes, and the market is fairly active with a steady undertone. Car lots of Green Mountains are quoted at \$1.70 to \$1.75 per bag, and in a jobbing way sales are being made freely at \$2 per bag.

DAIRY PRODUCE

BUTTER MARKET UNSETTLED. Montreal, June 6.—The butter market is in a somewhat unsettled state at present and in consequence it is rather difficult to describe the condition of it, as some dealers state that they bought the choicest creamery butter yesterday at 25c. to 25 1/2c., and others remarked that they had made offers to western buyers at 26c. and were advised by wire that other houses were offering to sell at 4c. per lb. less. The trade on spot was quiet with choicest creamery quoted at 26 1/2c. to 26 1/4c., and seconds at 25c. to 25 1/2c.

CHEESE MARKET QUIET. Montreal, June 6.—The cheese market was quiet and the tone of anything was a little easier, with finest westerns quoted at 14c. to 14 1/2c., and easterns at 13 1/2c. to 13 3/4c. At Campbellford, yesterday, sales were made at 13 1/2c. to 13 3/4c., and 13c. Cables received from London yesterday, in some cases they had made offers to western buyers at 26c. to 26 1/2c., and seconds at 25c. to 25 1/2c.

STURLING, Ont., June 6.—At yesterday's cheese board 786 boxes were offered, 245 sold at 13 1/2c., and balance at 13 1/4c.

fered, 245 sold at 13 1/2c., and balance at 13 1/4c. Montreal, June 6.—There were 1,021 boxes of cheese boarded, 300 sold at 12 1/2c. to 13 1/4c., balance sold at 13 1/2c.

MONTRÉAL LIVE STOCK MARKET

HIGH PRICE, BUT THERE WAS A POOR GRADE OF CATTLE.

Montreal, June 6.—High prices, poor grade of cattle, and a small run made a rather dull and uninteresting market at the East End Stock Yards yesterday. Considering the grade of cattle offered, the tone of the market for butcher cattle was stronger. No choice cattle were on the market yesterday, but prices held at the same level for steers as those of a better class which were offered Monday. Butcher cows were higher. At the high level of prices packers were light buyers and some of the buyers purchased not a single head.

The tone of the market for hogs was easier and prices took a drop of 25c. to 30c. per cwt. Such was also the case in sheep. The price of old sheep was 25c. to 35c. lower, but the price of lambs held firm, although they are considered cheaper on account of the increasing sizes coming forward at present. Calves are practically unchanged, both grade and demand being good.

Receipts of butcher cattle estimated 500 head. Market firm and slow. No choice steers on offer. Fairly good steers \$8 to \$8.25; fair, \$7.75 to \$7.95; and medium, \$7.35 to \$7.60; butcher, falls, firm, heavy, \$6.40 to \$7.50, and light, \$6 to \$6.50; Butcher cows, good, \$6.50 to \$6.75; fair, \$6.20 to \$6.45; and poor to medium, \$5 to \$6; canners at \$8.75 to \$4.50.

Receipts of sheep estimated 550. Market easier on increasing receipts. Old sheep, \$5.50 to \$5.75; spring lambs, firm, \$4 to \$5 each.

Receipts of hogs estimated 900 head. Market easier. Selected hogs, about \$8.75, and long run, \$9; sows, \$6.75, and stags, \$4 per cwt.

Receipts of calves, estimated 1,500. Market steady. Calves, \$3 to \$10 each, as to quality.

PROVISION MARKET.

GOOD BUSINESS IN ALL LINES.

Montreal, June 6.—A fair volume of business continues to be done in most lines of provision. The market is held in a steady demand from both local and country buyers, and the market in consequence is moderately active with a steady undertone. Heavy-weight hams are selling at 14c. to 15c., and medium and light weights at 17c. to 17 1/2c. per lb. Selected boneless breakfast bacon is quoted at 17c. Windsor bacon (backs) at 18c. and Whitshire bacon at 18c. per lb.

DAILY STOCK LETTER.

New York Market. Bank of England rate unchanged. Roosevelt is preparing a speech to be delivered at Memphis, which will be reassuring to business men. President Day of the Equitable Life Company, says crops in American West look excellent. The market opened higher throughout this morning and holds well. Grain steady and about at last night's level.

Montreal Market. Richelieu had a better tone around 117 1/2 with the Rights at 41 to 41 1/2. Rio received a small fraction as did Shawinigan, but dealings were limited. Trading as a whole was much less active than recently, but the undertone continues strong.

HOW CINEMA FILMS ARE FAKED

THE WAY SOME POPULAR ILLUSIONS ARE PRODUCED.

Many people who go to witness a cinematograph entertainment are often puzzled and mystified by the projection of trier films, or, as they have been termed, "faked" pictures, says Tit-Bits. Among the numerous manufacturers of the cinematograph films can be found many who adopt characteristic methods of "faked" or "trick" pictures. The following are some of the most popular methods employed by manufacturers.

LIGHTNING EFFECTS.

A scene is set with a black cloth representing a very heavy and cloudy sky, and across this sky at intervals flashes of forked lightning are seen. They are produced in this way. At each side of the scene, just out of the picture, stand two men. Each has in his hand a whip, the lash being composed of a long, white ribbon. Behind the cloud-scene is another "super," who explodes magnesium ribbon, which gives out the negative a vivid flash. Simultaneously with the explosions the two "supers" flick their whips into the focus of the picture, and the result is that the white flash zigzags and curls as it is withdrawn. This gives a really good effect when the picture is produced. White ribbon is used to produce the plainest "flash."

DWARF FIGURES.

In a good number of films one can always see little figures, either in the act of entering a cigar box or some other small box. A camera is placed at one end of the studio, and the outer edges are draped in black to stop any stray reflections. Directly opposite to this mirror, but some distance away, a table is placed, and on this table is deposited the "property" cigar box, which contains easily the largest of adults. Next the actor or actors get on the table, and climb in or out of the box, according to the effect to be produced. The mirror, being such a distance away from the real objects, reflects them on a much smaller scale. It is the reflection that is photographed. The camera usually stands at an angle, but focused direct on the image, so that it cannot be reflected in the mirror.

MAN IN TRAVELLING BAGS.

Often can be seen this illusion. A man disappears into a bag, and reappears at different stages of the picture. The effect is produced by means of faking the negative. When the man is seen to spring into the air and jump into the bag, the bag closing afterwards without being touched, the illusion appears to be marvellous. In reality the man jumped on to the bag, walked away from it as he touched the ground, and someone closed the bag up. But when the negative is developed the parts where the man walked away and where another closed the bag are out and the film rejoined to make it appear that the man actually jumped into the bag and that it closed of its own accord.

ARTICLES MOVING WITHOUT BEING TOUCHED.

Often, again, can be seen on the screen plates, dishes, knives, forks, etc., moving about without a hand touching them. Although the illusion is one of the most popular illusions, and is used in a good number of so-called "haunted" films, the method of production is simple. The table is laid with the necessary articles placed upon it. At the back of the table is hung a black velvet cloth, this is to throw the change, etc., into relief. The camera operator photographs the articles as they stand, then stops. An actor pushes the articles among a fraction of an inch, withdraws his hands, and the operator photographs them again. This procedure is kept up to the end of the film, the result being that each picture shows the articles gradually moving along, while the hands that moved them have been withdrawn when the camera was in operation, naturally do not appear in the negative.

OVERTURNED MOTOR CAR.

In some of the thrilling motor-car race pictures a clever fake is resorted to to make it exciting. A car is seen to dash along the road, swing round, and topple over, shooting the occupants out on to the road. In some films—the cars catch fire, and blaze away till only a heap of scrap iron is left. Just at the moment when the car approaches near the camera it stops, and the camera is shut off. The car is then jacked up from the back, photographed as it is tilted over, and it is jacked up higher and higher at each photographing. During the operation of raising the car the camera is always shut off. Finally the car overbalances and falls over, the driver and mechanic spring into the road, and, as they are really waiting till the car overturns, they do not get hurt when they fall out. The effect in the actual filming is that the car rushes along, overturns and throws out the driver, etc. For the effect of the car catching fire a heap of straw is placed at the rear of the car and saturated in paraffin. This is lighted and dense volumes of smoke arise, completely enveloping the car. The effect appears as though the car were on fire, but in reality it is only a completely safe. The straw is well alight the car is removed, some old framework and iron heaped up, the straw kicked over it, and then it is left to blaze, and the illusion is as though the car had burned to scrap-iron. Again, during the "substitution" of the iron rubbish the camera is stopped, and the operator recommences to photograph when the change has taken place.

VISIT TO A DYNAMITE FACTORY.

MAN HAVE TO USE EVERY PRECAUTION TO AVOID ACCIDENTS.

I will not tell you how I managed once to get into a dynamite factory, says a writer in Pearson's Weekly, "nor shall I say where it is. The authorities would be vexed. "Don't ask any of your friends to call," an official remarked. "Some folks are careless, you know, and carelessness here means death." Then he asked me for my watch and money and keys. The regulations say that nothing of a metallic nature must be taken in by visitors. Next, I took off my boots because they were rather heavy ones with nails in, and I put on a pair of felt slippers. "It is just as well," said the official, "to keep metal and dynamite apart. The two can't get on at all. Always quarrelling. See?" He winked the other eye as he spoke and pointed to a large tank. "That's nitro-glycerine," he said. "An ounce of it would blow you to atoms." "Thanks for the information," I said, with a shiver. "Anything else nice?" "Yes. Come along." Dripping into the tank was nitric acid and oil of vitrol, and close by in little sheds workmen were mixing the blended liquid with silicious earth, and so making dynamite. "This mixture in the tank," the official went on, "must never rise above a certain heat. If it were to become hotter than it ought to, you and I would soon be dead. At present it is six degrees below the danger point, so you see there are just half a dozen degrees between us and the grave." I pulled him away.

The workman who ignores these laws would quickly find himself out of a job, but the men are careful to a degree, and they realize that the precautions are absolutely necessary. "Would you like to taste a little nitro-glycerine?" my companion inquired. "It's all right. Nice and sweet. Too much gives you a headache, that's all. Although there is no smell about it the workers who first come here suffer terribly from headaches. It is a species of fear. They know the terrible possibilities of the stuff, and they allow the knowledge to get on their nerves." Once safely away from the building I looked back. The dynamite works were a stretch of drab, squat huts in the midst of a beautiful country. And in the middle, nitro-glycerine, destruction, the greatest death-dealer the world has ever known.

FRONEN MEET TRADE IN AUSTRALIA

LAMBS HAVE BECOME IMPORTANT ITEM OF EXPORT.

Adelaide, S. Aust.—A review of the frozen meat trade is given by the general manager of the government produce department in a report dealing with the year's operations, which closed on June 30, 1911.

Lambs, instead of being merely a by-product of the wool industry, have become an important item of export since the trade was established by the government. Exports commenced on the inception of the produce works in 1896, during which year 2818 lambs and mutton carcasses were shipped overseas.

Generally, a steady advance has been made each year—with fluctuations due to variable seasons—and the total number of animals exported last season amounted to 241,533. Of this number 195,438 were lambs, an excess of 41,000 carcasses on the previous year. In 1896, during which year 2818 lambs and mutton carcasses were dealt with, but this branch of the industry is always liable to considerable fluctuation. From 1895 to date the total exports amount to 2,468,076 carcasses, which fancy twirling for the St. Thomas outlet to the growers for their surplus lambs, the business has become a substantial addition to the trade of the

SIMPLE LIFE DEVOTEES.

About a dozen well-to-do Germans, followers of the "simple life," and consisting of naturalists and their wives, a well-known writer, who acts as leader and a photographer, have arrived at the Buddhist monastery at Lausanne. They have come from Leipzig, had an affair of the world on foot (several on bare feet), which they hope to accomplish "within five or six years." Their motto is taken from Heine: "God gave us two legs to walk with, and if He had wished us to be the slaves of the soil, one leg would have sufficed."

HOW ALFAFA CAN BE GROWN IN THE EASTERN TOWNSHIPS.

The raising of alfalfa in the Province of Quebec is a question that has created a good deal of interest in the Eastern Townships. For the past five or six years experiments have been made at Macdonald College and the result has been such that before very long the farmers will be raising alfalfa throughout the Province.

Results based on four years' work with this crop at Macdonald College, in which an average of three cuttings of nutritious hay has been taken each year and a fourth crop has been allowed to freeze down, would indicate that:

Any land, free from acid, moderately rich and well drained, whether naturally or artificially, is suitable for growing alfalfa.

Grass and weeds are alfalfa's worst enemies, therefore seed down after a hoed crop.

Excellent results have been obtained from the use of barnyard manure. If applied during the winter or early spring, turn under with a light furrow, or incorporate with the soil by means of the disc.

Alfalfa is a delicate plant in the early stages of its growth, therefore the seed bed must be especially well prepared—fine on top and firm below is the condition sought.

Seed broadcast about the middle of May at the rate of 25 lbs. per acre. Seed may be obtained from any of the large seed merchants in Montreal. Inoculate all seed. A twenty-five cent bottle of nitro-culture is sufficient for a bushel and may be obtained with directions, from the Department of Bacteriology, O. A. C., Guelph, Ont., or from the Department of Bacteriology, Macdonald College.

A nurse crop of beardless barley sown at the rate of three pecks per acre will hold weeds in check, protect the young alfalfa plants from the direct rays of the sun, and will yield a fair return in grain without injuring the alfalfa, provided it is cut as soon as ripe and the shocks not allowed to stand any considerable time on the land.

Allow subsequent growth of alfalfa no matter how heavy, to freeze down. While valuable as pasturage, it is much more valuable as a protection to the roots.

In the spring cut as soon as 1-20 of the plants are in bloom, or if the season is wet and blossoming is delayed, cut as soon as new shoots appear at the crown.

If leafspot injures second crop, cut at once, even if plants are not over four inches high. This will insure at least one more cutting, whereas, if left uncut, a very poor second crop will be secured.

When blue grass or couch gets a foothold the disc cultivator will be found to be very valuable in holding the grass in check and in thickening the stand of alfalfa. It cannot, however, be used safely on a stand under two years old.

Late summer seeding, without a nurse crop, on well prepared land, has given excellent returns, but where land is in poor heart has given the poorest results of the many systems tried.

Not lack of fertility but lack of proper preparation of soil is the prime cause for numerous failures to maintain a stand of alfalfa in the Province of Quebec. This is evidenced by the fact that the majority of fields are choked out by couch or blue grass by the end of the second year. The stand is lost because the young plants have not been given a fighting chance early in life.

TO BEAT COLONEL AT ONE BLOW.

Such is Plan of Taft Men at Chicago Convention.

IF THIS SCHEME IS SUCCESSFUL PRESIDENT'S NOMINATION IS ASSURED.

Chicago, June 6.—A plan to meet at once the full force of Col. Roosevelt's fight to control the organization of the Republican National Convention, by making permanent the temporary organization with Senator Elihu Root as chairman, was partially agreed upon to-day by Taft leaders, who are here for the opening session of the Republican National Committee to-morrow.

Control of the National Committee by Taft forces is said by them to be certain. When the committee meets at 2 o'clock today to organize for the hearing of contested delegate cases, the Roosevelt forces will not attempt either to seat R. B. Howell, of Nebraska, to succeed acting chairman Rosewater, or to select a Roosevelt committeeman as presiding officer for the contest hearings.

Fresh from conferences with Col. Roosevelt at Oyster Bay, Senator Dixon and National Committeeman William T. Ward, of New York, made it clear that Roosevelt managers were not behind the claim of Mr. Howell to a seat on the committee. He will endeavor to present his own case, contending that his recent endorsement in the Nebraska primary entitled him to the place, but members of the committee expect a speedy decision against him.

DUCHESS SHOWS IMPROVEMENT.

Serious Symptoms of Tuesday Have Now Abated.

GOVERNOR GENERAL AND SUITE WILL REMAIN IN MONTREAL.

Montreal, June 6.—Improvement in the condition of Her Royal Highness the Duchess of Connaught was shown throughout yesterday, and towards evening the alarming symptoms of the previous day had so much abated that it is now hoped her complete recovery will follow within a very short time.

This was evinced by the following, the last bulletin issued by the physicians, early yesterday evening: "Her Royal Highness the Duchess of Connaught, has passed a comfortable day, suffers less, and the symptoms which gave so much anxiety have improved materially during the last twelve hours.

E. S. Worthington, M. D. A. E. Garrow, M. D. W. W. Chipman, M. D.

It is expected that the Governor-General and his suite will continue to occupy the Strathcona residence on Dorchester Street until Her Royal Highness is able to leave the hospital. But until her condition has so improved that she is out of the possibility of danger no future plans are likely to be made.

SEEK CHILDREN OF TITANIC VICTIM.

London, June 6.—Efforts are being made here to trace the whereabouts of the two children of John M. Smart, of New York, who lost his life in the wreck of the Titanic. Since his death Mr. Smart's friends have been trying to find his family and straighten out his affairs, but this has been made extremely difficult by the fact that all his personal effects were lost with him. He was president of the American Cold Storage and Shipping Company.

LACK OF PROTESTANT SCHOOLS IN QUEBEC.

Question was up Before Session of Montreal Methodist Conference

LENNOXVILLE AND MARBLETON METHODISTS PROPOSE TO HAVE NEW CHURCH.

Kingston, Ont., June 6.—Many new churches are to be built in Montreal and vicinity, according to what transpired at the Montreal Methodist Conference session yesterday morning. Permission was granted to sell churches or church parsonages in six cases, all in the Montreal South district. They are at these places of worship, Montreal, Westmount; Montreal, West End Church, Montreal (Ebenezer), Montreal (St. Paul), (St. Lambert), Clarenceville.

In two of the cases the permission granted meant former renewals. Permission was granted to sell the Church and parsonage property at Lennoxville, Que., and to build a new church. A similar permission was granted respecting Marbleton, Que.

AGAINST CHURCH UNION.

There was applause when the Rev. John Armstrong, of Montreal, an ex-president of the Conference, and the oldest member in it was called to the platform. "I have been in the Methodist ministry since 1848, and can preach and do some other things yet," said he. "You won't get my vote for church union; in fact, you'll get it square the other way. I have seen nothing to improve on the Methodism of John Wesley."

PASS RESOLUTION.

"That this conference, having learned that, within its bounds, many Protestant children in some parts of the Province of Quebec have no Protestant school within their reach. Resolved that this conference shall appoint a committee to study the question and co-operate with others in any suggestions to meet the needs."

Rev. Professor Richardson, of Wesleyan Theological College, Montreal, formerly of Sherbrooke, made an important statement, after which they passed the above resolution.

Prof. Richardson said a Presbyterian gentleman had asked him to bring this matter up. It had been discussed by Presbyterians at the Synod of Montreal and Ottawa, it being contended that in some parts of Quebec Province there is not sufficient accommodation for Protestant school children, and that it has been alleged 1,500 Protestant children had to attend Roman Catholic schools. Mr. Lambly, of Inverness, doubted this. He knew of cases where Protestant parents sent their children to convents, but it was in order to give them "a high-toned education," and they did not need to do so.

SEVERAL CHANGES.

Important changes were authorized on various districts at the request of the stationing committee. Casselman will take the place of Riceville, and Cowansville was made a mission.

ATTENDANCE DECREASING.

The superannuation fund receipts were \$18,823 in the year. The state of the work report declared that there was only an increase of seventy-three in church membership, compared with 335 last year. There were many criticisms regarding the rather unsatisfactory showing.

The Rev. A. E. Sanderson, Spencer-ville, claimed that in some Eastern Township points, while the attendance of Protestants (including Methodist) institutions was decreasing that of Roman Catholic ones was on the increase. He also seemed to think that the Government at Ottawa should be approached to encourage immigration to Ontario to a greater extent than at present. An Ontario exodus to the west had affected the church membership throughout the conference to a considerable extent.

The Rev. G. H. Cobblestick, of Quebec, said: "Ministers are actually running in debt in some circuits." The amount fixed by conference for the fund to augment in the case of ministers' salaries is \$800. It was decided to raise this to \$900.

The question of deficiencies of salaries in districts where the Protestant population is moving away has become more acute than for many years, said the Sustentation Fund report. The receipts for the year were \$825.

COMMENDS STAND OF GOVERNMENT.

The Committee commended the Government of Quebec on their stand on the question of temperance, and asked that a committee from the conference be appointed to wait upon the Quebec Government, and ask that the laws be amended so that only those residing in a municipality, or having business there, can vote on prohibitory measures.

CHANGES IN FIRST DRAFT.

Changes from those in the first draft in the eastern section of the conference include:

Quebec District—Danville, W. A. Hamilton; Cookshire, James Pletta; Inverness, S. J. Bridgette; Ulverton, George S. Schagel.

Stanstead District—Hatley and Cassville, F. W. Williams.

Waterloo District—Knowlton, A. E. Pates; Cowansville, Manley Burnhage; Phillipsburg, J. Denny; Farnham, Charles Huxtable; Granby, W. S. Lennon. Conference adjourned just before midnight, almost 24 hours behind schedule time, owing to the difficulties in the stationing committee. The committee sat till midnight on Tuesday, and held morning, afternoon and evening sessions yesterday.

BROME TOWNSHIP MUNICIPAL COUNCIL.

Bye Law Fixing Rate of Taxes at Three Mills was Passed.

APPLICATION WILL BE MADE TO GOVERNMENT FOR A GRANT FOR BRIDGE.

Brome, June 6.—(Special)—The Municipal Council held a regular session at which were present Mayor B. Draper and Councillors Miltmore, Ballard, Dextruthers, Cooney and Benham. Ratepayers from all parts of the town were in evidence and manifested much interest.

By-law No. 178 was established, levying the amount of \$2,996.34, which includes the County assessment of \$240, being a rate of 3 mills payable on or before Sept. 1st next.

Bills to the amount of \$517.19 were presented and ordered paid. Included in this amount were the expenses in connection with the recent no-license vote, and the prolonged illness in the Bonneau and Manchard families where the town had to do for eleven cases of typhoid and one burial.

The valuers were instructed to proceed with the necessary changes in the valuation roll according to law. Mr. G. F. Hall was appointed special superintendent on the petition of Mr. A. W. Thomas, of Foster. Mr. Hall, together with land surveyor, Mr. A. E. Mitchell, will meet the parties interested at Foster on Friday, June 14th, at 9.30 a.m.

The Secretary was instructed to communicate with the local member re a grant for an iron bridge to be placed over the stream near the Rockwell Mill, East Hill.

Mr. Warren Darrah, merchant of West Brome, was present and asked that a change be made in the water course near his store. Councillor Cooney was asked to investigate.

Some changes were made of the road inspectors in Division No. 2. Mr. M. Thompson and Mr. H. Little taking the places of Mr. C. S. Marsh and Mr. J. N. Marsh. In No. 11 Mr. Herbert Darrah will replace Mr. C. Darrah.

The Council then adjourned to meet at the usual place on the 29th day of June at 10 o'clock a.m. to amend the Valuation Roll.

MILK INSPECTION AT WATERLOO.

Council Passes a Bye-Law To Protect the Consumers.

QUESTION OF LAYING GRANOLITHIC SIDEWALKS WILL BE DECIDED LATER.

Waterloo, June 6.—(Special)—A regular meeting of the Municipal Council was held in the Council Chambers last evening. Mayor Clement presided.

After the reading of the minutes, which were adopted, several small bills were ordered paid.

Some discussion took place on the by-law which calls for the inspection of milk supplied to the citizens by milk dealers.

The by-law passed the Council, and this move will be appreciated by the citizens.

The question of laying granolithic sidewalks throughout the town also evoked a good deal of discussion. It was pointed out that the citizens were very much in favor of having this work carried out.

The matter was held over until a meeting on the 15th of June, when a final decision will be arrived at. An application was made from the Royal Baseball Club for a grant towards the rent of the baseball grounds. It was decided to make a grant of \$15.

SHOULD METHODISTS GROW TOBACCO

AN INTERESTING QUESTION TO BE DECIDED BY LONDON CONFERENCE.

Woodstock, Ont., June 6.—Should Methodist farmers grow tobacco? That is one question the London Methodist conference will be asked to settle. The question will be introduced by delegates from Chatham district in a resolution which is the sequel of a sermon on Easter tobacco by Rev. H. Williams at Butherford. The sermon was resented by the congregation, and as a result Mr. Williams was moved to Cedar Springs. The resolution will point out that the Church, through its temperance and moral reform department, has declared its disapproval of the tobacco habit; that tobacco growing is entirely at variance with the attitude of the Church, and that it is being carried on at an alarmingly increased extent in the Chatham district. The resolution will record uncompromising opposition in the Chatham district to tobacco-growing in Ontario, and ask the conference to indicate the policy deemed best for the promotion of religious work.

THE DICTIONARY'S ANSWER.

(Harper's Weekly.) Ask that bright lexicon of Youth, the Dictionary.

Will Roosevelt bolt? Ask that bright lexicon of Youth, the Dictionary. Bolt v. To swallow hurriedly without proper mastication. To utter hastily; to blurt out. To dash off unexpectedly. To move with a spring or sudden bound.

To go to seed prematurely. Bolt n. A pin having a permanent head on one end.

Does he suggest a bolt in any of these recorded particulars?

BIG GUNS SHOOT IN CHICAGO.

"Taft With Six Hundred on First Ballot", Says McKinley.

"PHYSICALLY AND HUMANLY IMPOSSIBLE," RETORTS DIXON.

Chicago, June 6.—Congressman William B. McKinley and Senator Joseph M. Dixon, respectively directors of the Taft and Roosevelt forces signaled their advent in the convention city by issuing statements containing diametrically opposing "certainties." The Taft leader in a formal statement said:

"President Taft will be the nominee of the convention, with approximately 600 votes, on the first ballot."

Senator Dixon in an equally positive statement declared: "The nomination of President Taft is physically and humanly impossible with the delegates elected."

Congressman McKinley added that the personal presence of Colonel Roosevelt in the convention "would only make the outcome more certain against him."

Senator Dixon insisted that the Roosevelt men "absolutely control the convention without taking the contested delegates into consideration."

BROME CLERICUS AT KNOWLTON.

INTERESTING PAPERS WERE READ FOLLOWED BY A DISCUSSION.

Knowlton, June 6.—(Special)—A meeting of the Brome Clericus was held here on Tuesday and was largely attended. There were ten clergymen present as follows: Rev. Mr. Martin, Iron Hill; Rev. Herbert Charters, of Sutton; Rural Dean Judge of Brome; Rev. F. H. Stevenson, Foster; Rev. F. A. Stacey, Glen Sutton; Rev. Mr. Baugh, South Stukely; Rev. Mr. Newgertz, Church of England Jewish Missionary in Montreal; Rev. Dr. Rexford, Montreal; Rev. G. A. Mason, West Shefford; Rev. Canon Carmichael, Knowlton.

Holy Communion was celebrated in St. Paul's Church at 10.30 o'clock and the meetings of the Clericus were held in the Paul Holland Knowlton Memorial.

Papers were read by Rev. Mr. Newgertz on the Jewish question; by Rev. Mr. Martin on the Holy Bible, and by Rev. F. W. Stacey on future life, all of which evoked considerable discussion.

Luncheon and tea were served at the Rectory. A photograph of the clergymen was taken by Mr. Russell on the church steps.

FESTIVAL OF CORPUS CHRISTI.

CELEBRATED WITH GREAT POMP AND SPLENDOR IN VIENNA.

Vienna, June 6.—(Special)—Vienna today witnessed the customary elaborate celebration of the festival of Corpus Christi. The festival was instituted in 1264 in honor of the Consecrated Host and though it is generally observed by Roman Catholics everywhere, in no other city is the celebration of such a splendid character as in Vienna. The custom for the Emperor of Austria to take part in the procession was begun in the seventeenth century by Ferdinand II, who by his presence succeeded in putting a stop to the conflicts between Catholic and Protestant mobs, with which the ceremonies in those days were almost invariably attended. This ceremony has been observed ever since by the Emperor of Austria.

SIR MELBOURNE TAFT RETIRES FROM BENCH.

Presented With an Address From Members of Montreal Bar.

GREAT CHANGE TO ARREST WORK AFTER HALF A CENTURY, SAYS CHIEF JUSTICE.

Montreal, June 6.—In the principal room of the Superior Court of Justice yesterday morning the Chief Justice for the Province of Quebec, the Honorable Sir Melbourne Taft, took his farewell to the Bar.

Supporting him on the Bench sat a long array of his learned confreres including amongst others Messieurs Justices Davidson, Teller, Delormier, Archibald, Hutchinson, Archer, Greenshields, Gervais, Laurendeau, St. Pierre, Demers, Mercier and Baulin.

In the body of the court sat the members of the senior and junior bar. The right side of the court was reserved for the wives of the judges and the members, who made a bright array.

The remaining space of the court was packed to standing room, with an eager and sympathetic crowd of lawyers, ushers and the public, whose business brings them to the associations of law.

On the Bench immediately before the Chief Justice rested a magnificent bouquet of roses. Sunshine flooded the large court room, and the scene lacked neither sentiment nor picturesque when the Batonnier of the order of advocates, Mr. J. L. Archambault, just after ten had struck, rose with a deep bow to the Bench, and commenced his speech, accompanying the congratulatory address to the Chief Justice from the members of the Bar.

In the course of his reply Sir Melbourne Taft said:

"When one has travelled the same trail for a quarter of a century, when the daily round has made his work and the persons and scenes associated with it a part of his life, the pleasant morning greetings of colleagues, lawyers and officers of the court, the hearing and discussing of new and interesting points, it means a great change to arrest it all and let it pass out of his life."

NEW YORK'S WELCOME FOR GERMAN SQUADRON.

ARRANGEMENTS BEING COMPLETED TO GREAT ROUND OF FESTIVITIES.

New York, June 6.—(Special)—A local committee comprising some of the foremost citizens of the metropolis has practically completed the details of the elaborate programme for the reception and entertainment of the officers of the German naval squadron that will arrive in New York next Sunday. Banquets and receptions for the officers and a clam-bake and a visit to Coney Island for the sailors will be features of the entertainment. The German warships will be escorted from Hampton Roads to New York by the section division of the Atlantic fleet. The officers and crews of the American ships will assist in the entertainment of the visitors during their stay in New York City.
