German Advance Is Held Up Everywhere Weakened By Heavy Losses; Haig Says Crisis at Hand

HEAVY ATTACK AGAINST NEW BRITISH LINE SOUTH OF THE SOMME REPULSED AFTER VERY SEVERE FIGHTING LAST NIGHT

British Troops Forced Back a Short Distance in the Neighborhood of Bray. Further Fighting North and Northeast of Albert, But Situation Remains Unchanged. Valiant French Troops Defend Ground Foot by Foot. Strong Enemy Parties Frustrated From Approaching French Positions North West of Noyon.

(Associated Press Despatch)

PARIS, March 27.—Last night the German advance was held up everywhere, according to the official statement of the War Office today. The enemy, weakened by heavy losses, it adds, has been obliged to slow up his efforts.

SEVERE FIGHTING AT THE SOMME

(Associated Press Despatch)

LONDON, March 27.—A heavy attack was made early in the night against the new British line south of the Somme. It was repulsed after severe fighting, the War Office announces.

In consequence of attacks yesterday afternoon and evening astride the Somme the British troops on both banks were forced back a short distance in the neighborhood of Bray.

GERMANS RECLAIM TERRITORY OF 1916

(Associated Press Despatch)

British Army Headquarters in France, March 27.—The Germans last night continued their furious onslaught southward from Ham against the allied defences in the region of Roys and Noyon, having slowed down in their attempt to cut through the British line further north where such desperate resistance was offered.

The Germans have now reclaimed virtually all the territory they held at the beginning of the battle of the Somme in 1916. At some places they have not retaken all the old ground, but at other points they have overstepped it somewhat.

CHEER THE WOUNDED

(Associated Press Despatch)

LONDON, March 27.—Four train loads of wounded officers and men from the battle front in France reached London last night. As they were being transferred to ambulances, crowds cheered and threw flowers. The wounded responded smilingly to their greetings.

"What was it like?" was asked of one of the men. "Oh, Fritz just rained shells on us like a hailstorm," was the reply.

GERMAN LOSSES ESTIMATED 400,000

(Associated Press Despatch)
BRITISH ARMY HEADQUARTERS IN FRANCE, March 27.—Hard fighting occurred last night about the town of Albert. Large enemy forces pushed forward toward the place, but at last accounts the British were holding them doggedly at this possible gateway of Amiens.

The conflict in the sector around Roys and Noyon appears to be of great importance from the many indications that the German higher command is attempting to split the Allied front there and start a rolling up process either way.

From the average of casualties in the various German units, as given by prisoners, one arrives at the conclusion that the German Emperor has lost 50 per cent of these men since he gave the signal for the offensive.

The British statement of yesterday said it had been established that more than seventy German divisions had been engaged in the battle. The usual estimate of the present strength of a German division is 120,000, so that a loss of fifty per cent would mean casualties in excess of 400,000 for the Germans in less than a week of fighting.

PRAISE WORK OF GERMAN NON-COM. OFFICERS

(Associated Press Despatch)
LONDON, March 27.—In the German tactics of pushing in by sheer weight of numbers, the non-commissioned officers have proven themselves very valuable, according to a correspondent of the Daily Mail.

"They have led and rallied their men with energy and tact, he writes. "We have been told by some people who pretend to understand the German army, that in these very qualities non-commissioned officers would be found lacking."

E. T. MEN ON CASUALTY LIST

DANVILLE BOY WOUNDED
Mrs. C. H. Williams, of 104 Drummond Road, has received a telegram from the military authorities stating that her son Corporal C. R. Golden, who is a resident of Danville, has been wounded. Corp. Golden enlisted for active service with the 117th Battalion and was later transferred to the 5th Canadian Mounted Rifles. The extent of his injuries has not as yet been ascertained, the telegram merely stating that he had been injured.

AMERICAN TROOPS TAKE PART IN COUNTER ATTACKS

(Associated Press Despatch)
AMSTERDAM, March 27.—American troops have taken part in counter attacks against the German front near La Fere, writes the military correspondent of the Vorwaerts, who says the attacks were repulsed.

The correspondent adds: "After the first surprise, the enemy pressure along the entire front is naturally growing stronger. Threatening catastrophe compels the enemy to reckless action. South of the 'Break through' front he, therefore, is collecting a strong reserve intended for a flank assault on our attacking army."

ENEMY TROOPS DETAINED FAR BEHIND THE LINES

(Associated Press Despatch)
AMSTERDAM, March 27.—German troops going forward to the attack on the British front in France, detained far behind the lines, even behind the Belgian frontier, according to the correspondent at the front of the Rheinische Westfaelische Zeitung. These forces marched for six consecutive nights, no columns showing themselves on the roads in the daytime.

BRITISH OFFICIAL STATEMENT

(Associated Press Despatch)
LONDON, March 27.—The official British announcement follows. "As a result of the enemy's attacks yesterday afternoon and evening, astride the Somme, our troops on both banks were forced back a short distance in the neighborhood of Bray. A heavy attack made early in the night against our new lines south of the Somme was repulsed after severe fighting. At one point in the neighborhood of the river the enemy forced his way into our positions, but was thrown back by our counter-attacks."

"Further local fighting has taken place also north and northeast of Albert, but the situation on this part of the battlefield remains unchanged."

FRENCH OFFICIAL STATEMENT

(Associated Press Despatch)
PARIS, March 27.—The official French statement follows: "Last evening and during the night the Germans, weakened by their heavy losses, were compelled to retard their efforts. The valiance of the French troops defending the ground foot by foot is beyond all praise."

"The French are holding a line running through L'Eschele, St. Aurin and Bouvignies, north of Lassigny, in front of the southern part of Noyon, and along the left bank of the Oise. During the night the French repulsed strong re-considering parties which attempted to approach their positions northwest of Noyon."

"On the remainder of the front there was an intermittent bombardment."

BOLSHEVIKI TROOPS DEFEAT AUSTRIAN FORCE

Recapture Three Important Commercial Cities North-east of Odessa.

(Associated Press Despatch)
MOSCOW, Sunday, March 24.—Bolshevik troops, an official announcement says, have been successful in fighting the Austrians in the southern Ukraine. The cities of Nikolayev, Kherson and Znananka have been recaptured by the Russians.

A despatch received in London from Petrograd on Tuesday said it was reported the Bolsheviks had recaptured:

* ODESSA IS RECAPTURED *
* AFTER BLOODY BATTLE. *

(Associated Press Despatch)
LONDON, March 27.—Odessa has been recaptured by the Soviet and Ukrainian forces after a bloody battle, in which naval forces took part, according to a Moscow despatch from the semi-official Russian news agency.

* KORNILOFF FORCES SURRENDERED. *

LONDON, March 27.—The forces of General Korniloff have been surrounded by Bolshevik troops, according to a Reuter despatch from Petrograd.

General Korniloff, the former Russian commander-in-chief, allied himself with the Don Cossacks against the Bolsheviks and has been operating between Moscow and Rostock. Several times he has been reported defeated and near capture, but always managed to elude the Government troops.

FIELD MARSHAL HAIG SAYS CRISIS OF WAR HAS AGAIN BEEN REACHED

(Associated Press Despatch)
LONDON, March 27.—Field Marshal Haig has issued the following special order dated March 23:—

"All ranks of the British army in France and Flanders: "We are again at a crisis in the war. The enemy has collected on this front every available division and is aiming at the destruction of the British army. We have already inflicted on the enemy, in the course of the last few days, a very heavy loss, and the French are sending troops as quickly as possible to our support."

"I feel that every one in the army, fully realizing how much depends on the exertions and steadfastness of each one of us, will do his utmost to prevent the enemy from attaining his object."

BERLIN CLAIMS BIG BOOTY IN GUNS AND TANKS

Official Report Says 963 Guns of All Calibre Taken and 100 Tanks.

(Associated Press Despatch)
BERLIN, via London, March 27.—(Delayed) — "French divisions brought up from the Noyon, were defeated at Fromiches and Bagnancourt. Bussy was captured and we are standing on the heights to the north of Noyon."

"Our despatch service has taken a prominent share in the success we have achieved. In bringing unobtrusively, they have rendered possible co-operation between units fighting next to one another and gave the leaders assurance of being able to guide the battle line into the desired channels. Railway troops which carried out a tremendous advance from the beginning of the fighting without any friction and which are now coping with the traffic on the front, are working ceaselessly on the reconstruction of destroyed railways."

Since the beginning of the battle ninety three enemy airplanes and six zeppelins have been brought down. "The booty in guns has increased to 963 and over 100 tanks are lying on the capture positions."

"On the rest of the western front our duels continue increasingly, on the Lorraine front to great strength."

"From other theatres there is nothing new."

MILITARY POLICE ROUNDED UP FIVE MORE

Three Italians and Two Canadians Unable to Produce the Necessary Papers.

Five more men have been rounded up for failing to observe the regulations set down in the Military Service Act by the Dominion police, who have charge of the drag-net in this district for deserters. Three of the men who were rounded up yesterday are Italians, who were of military age, but who were unable to produce their necessary papers, while the two other men caught in the drag-net were Canadians.

It is understood that the Dominion Police squad here have quite a little work before them, for they are being furnished with names from headquarters of men who have not obeyed the instructions of the military authorities. The officers in charge of the work have been engaged most of the time at the railway stations, but they intend to invade the billiard halls, bowling alleys, and other resorts where young men spend their evenings, in the near future.

GERMANY ORDERS FRONTIERS CLOSED

(Associated Press Despatch)
LONDON, March 27.—The German-Dutch, German-Swiss and German-Danish frontiers will be closed to international traffic on Wednesday or Thursday, according to a Central News despatch from Amsterdam.

YOHOW CAPTURED FROM REBELS.

(Associated Press Despatch)
PEKING, March 20.—Yohow, province of Hunan, an important key of communication to the Yangtze Valley, was recaptured from the revolutionists by the northern troops last Monday.

KAISER AND LUDENDORFF HAD QUARREL

Correspondent Tells of Violent Scenes Between Leaders at General Headquarters.

(Associated Press Despatch)
PARIS, March 27.—Emperor William and General Von Ludendorff had a violent quarrel before the beginning of the great attack on the western front, according to a prominent Swiss who has just returned to Zurich after some weeks in Germany, and has been interviewed by the correspondent of the Temps. This man is quoted as saying:

"There was much indiscreet talk in Berlin before the present offensive concerning extremely violent scenes between Germany's leaders at general headquarters. General Von Ludendorff spoke so violently, and authoritatively, that the Emperor, becoming very pale, arose from his chair and, pounding the table, demanded: 'General, are you or I Emperor of Germany?'"

"General von Ludendorff replied that he was only a soldier, and more than any one else desired peace. He said he was convinced that his plans for an offensive were capable of bringing it about."

LUDENDORFF PRAISES BRITISH TROOPS.

(Associated Press Despatch)
AMSTERDAM, March 27.—"A great battle has been fought and victory has been won, but nobody can foresee what will result from it," said General von Ludendorff in an interview with the correspondent at the front of the Tages Zeitung of Berlin.

The General praised the British for their tenacious resistance, and continued: "The British believed they could rely on the strength of machinery. The employment of tanks and great numbers of machine guns is typical of their method of warfare."

The German infantry, the general added, had only one night's normal rest during five or six days of battle.

PROMOTION FOR CROWN PRINCE.

(Associated Press Despatch)
AMSTERDAM, March 27.—Emperor William has appointed the German Crown Prince chief of the guard grenadier regiment in recognition of the good work of his troops on the western front.

SPECIAL RESERVES HELD FOR SPECIAL PURPOSE

London Evening Papers Take Consolation at Fact That British Lines Are Still Intact.

(Associated Press Despatch)
LONDON, March 27.—The London evening papers take consolation in the fact that the Germans thus far have failed to break the British lines or force a wedge between the British and French armies, and in the news from France that gaps have been filled with local reserves, while the strategical reserves are intact for their own special purpose.

THE WEATHER

FINE AND COOL TODAY AND ON THURSDAY.
Pressure is lower in eastern Canada and over the northwestern and eastern states, while a cool wave remains stationary to the northward of Lake Superior. Snow has fallen in the Maritime Provinces and some light rains in Saskatchewan and Manitoba.

HOG PRODUCTION

It is a matter of the greatest importance that Canada should increase her production of BACON HOGS and other live stock as there is at present a world-wide shortage of meat. Good markets for some time to come are assured.

THE CANADIAN BANK OF COMMERCE will gladly make loans to assist farmers in good standing to acquire live stock.

ST. FRANCIS DISTRICT--LOCAL HAPPENINGS

Daily Reports From Correspondents of What is Going on in Various Communities

MILAN

A sugar off social under the auspices of Our Lads in Khaki Society will be held in the I.O.O.F. hall on Friday evening. This social is to welcome home Sergt. Murdo J. MacLeod, who has recently returned from overseas.

The last meeting of the O.L.K.K., which met at the home of Olsen Bros., was largely attended. Much business was transacted and a considerable amount of Red Cross work distributed among the members.

The following is the amount of work completed and shipped to the Sherbrooke Beach during the month of March: 2 sheets, 34 pillow slips, 66 terry towels, 106 huck towels, 78 wash cloths, 36 handkerchiefs, 18 prs. socks, 8 suits pyjamas.

Boxes have been sent to Gnr. Archie McLeod, Pte. W. R. A. MacDonal, Pte. John Burnett Graham, Pte. Kenneth Maciver, Maj. Drum, James Graham, Pte. W. W. Foote, Pte. Harry N. MacKenzie, Pte. Murdo J. McAulay.

The next regular meeting of the society will be held in the I.O.O.F. hall on Wednesday evening, April 3.

Quite a number of the members of Court No. 53, I.O.O.F., attended the district meeting at Scotstown on Monday night.

Arrivals and departures: Messrs. R. Alex and Allan A. Murray in Scotstown; Mrs. J. Graham in Sherbrooke Thursday; Messrs. Canute and Arthur Olson have closed up their

camp here and have gone to their farm at Bury.

Mrs. Mary Etta Smith home from Springfield, Mass., Thursday to care for her mother, who is seriously ill. Mr. Norman D. MacLeod in Bury on business; Miss Christine E. Murray to Springfield, Mass., on Monday after the past 22 months with her parents and brother, Allan, who was ill but is much improved in health; Mrs. Alfred Morin and Miss Christina A. MacDonald in Sherbrooke on business. Miss Maude Beaton, of Val Racine, attending high school here; Miss Maude K. Macdonald, of Marsboro, visiting her aunt, Mrs. A. D. Nicholson.

A telegram was received here by Mrs. J. B. Macleod on Thursday afternoon stating that her son, Sgt. Murdo J. Macleod, who went overseas with the Grenadier Guards in April, 1916, would be home that night. A crowd of relatives and friends stayed at the station to meet the train to welcome back one who so cheerfully and gladly had given up all to go "Over There" to do his bit. Sgt. Macleod will never have the use of his left arm completely, but otherwise he is well and the same cheerful chap he always was. This is the second of our boys invalided home. Pte. Arthur Telfer arriving last October.

AWFUL ATTACKS OF HEART TROUBLE EASED BY SECOND DOSE OF Milburn's Heart and Nerve Pills

One of the first danger signals announcing something wrong with the heart is the irregular beat or violent throbbing. Often there is only a fluttering sensation, or an "all-gone" sinking feeling, or again you may experience a smothering sensation, gasp for breath and feel as though about to die.

In such cases the action of Milburn's Heart and Nerve Pills in quieting the heart, restoring its normal beat and imparting tone to the nerve centres, is, beyond question, marvellous.

Mrs. Frank Arseneau, Newcastle, N.B., writes: "I had awful attacks of heart trouble for the past five or six years, and as I had tried many kinds of medicine without getting any better, I decided to give Milburn's Heart and Nerve Pills a trial, and to my surprise I found ease from the second dose. I continued taking them until I had used six boxes, and now I feel as well as can be."

"At present my sister is taking them for nervousness, and finds great comfort by their use."

Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Sometimes, especially in wet weather, the mower gets splattered with muddy water. If put away with that on it, when it is next used it will be badly stained. Be proud enough of the appearance of your farm tools to wipe off every bit of that water, and soon, too.

Advertisement for 'The Burden of Anxiety falls on the Women'. The ad features a black and white illustration of a woman in a long dress sitting and reading a book. The text is arranged around the illustration, with 'The Burden of Anxiety' in large letters and 'falls on the Women' in a smaller font below it.

Advertisement for 'Dr. Chase's Nerve Food'. The ad is divided into two columns of text. The left column starts with 'ALMOST everybody is living under a tense nervous strain during these trying times, but the burden rests particularly heavy on the women in the home. Whatever their employment about the house, the mind has much time to dwell on the dreadful things that might happen.' The right column starts with 'Headaches, neuralgic pains, indigestion and failure of the vital organs to properly perform their functions are among the symptoms which tell of exhausted nerves and low vitality.' At the bottom of the ad is a large box containing the text 'Dr. Chase's Nerve Food' and '80 cents a box--do not pay more--at all dealers, or Edmanson, Bates & Co., Ltd., Toronto. On every box of the genuine you will find the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author.'

THOUGHT MAN WAS DEAD

There was great excitement in the vicinity of No. 3 police station for a time at a late hour during the night. A phone message was received that a man was lying dead near the station and Lieut. Smith went out to investigate. He found a man lying in the snow, who on examination was found to be sick. It was discovered that the man was Armand Gagnon, of 27 St. Henri Street. Dr. Daignault was called and the patient removed to his home.

WOMEN'S GUILD HELD THEIR ANNUAL

Elected Officers and Discussed Plans for the Ensuing Year.

The annual business meeting of the Women's Guild of the Church of the Advent was held yesterday at the home of Mrs. Jas. King, Second Ave., with a very good attendance.

The Secretary's and Treasurer's reports showed a successful year.

The election of officers for the coming year was as follows: Hon. President, Mrs. J. H. Bryant; President, Mrs. H. C. King; Vice-President, Mrs. Gordon Knapp; 2nd Vice-President, Mrs. Drummond; Treasurer, Mrs. J. King; Secretary, Mrs. R. G. Price.

A plan for the year's work was discussed and it was decided to have an apron sale in May. The names of three new members were added to the roll, and everything looked promising for the new season of work.

ings be greeted with the unpleasant surprise of discovering some of their belongings missing. It is becoming a regular thing these nights for the constables to discover doors left unlocked. Last night Constable Larrievie found the door at the rear of the Quebec Central office on Wellington street open, while Constable Noel discovered the door of L. P. Pelletier's store at 95, Marquette street unlatched.

YOUNG PEOPLE ENTERTAINED.

The Young Ladies' Circle of the Methodist Church was entertained last evening by Mrs. J. A. Tate, High street, an unusually large number of members being present. After the brief business meeting, Red Cross work was taken up, and much socialability prevailed. Music, furnished by a Victrola, was much appreciated and towards the close of the evening, in place of the usual refreshments, sugar on snow was served by the hostess in true Canadian fashion.

Mr. J. H. Blue has returned from a short visit to Montreal.

CHAUTAQUA DATES FIXED

Announcement is made that the Sherbrooke Chautauqua dates this year will be July 18th to 22nd, inclusive. The programme is so arranged that each day will be devoted to emphasis under a particular phase of National or community endeavor. There will be a "Liberty Day," and a "National Day," and a "Community Day," and so on. On each of these "Days," a different group of artists and lecturers will appear, and each group will be assigned the task of making their particular "Day" a day of distinctive patriotic service.

HOLY WEEK AT THE ROMAN CATHOLIC CHURCHES.

The devotions of Holy Week at the Roman Catholic Churches began today at 4.30 when the office of the Tenebrae was sung.

This office signifies "shadows" and was formerly chanted in the early morning hours before dawn. At the Pauline chapel of St. Michael's Cathedral the service was impressive. Mgr. Chalifoux, the Rev. H. A. Simard and the clergy of the Palace and the Seminary were present, together with the choir and a large congregation.

The Psalms and portions of the Lamentations of Jeremiah were sung responsively, and after each psalm one of the fourteen candles on the high altar is extinguished, until at the Benedictus, but one remains lighted, the gloom increasing the solemnity of the occasion.

AMAZED AT MOUNTAINS OF COAL.

Mr. Henry Veilleux, and his wife, of the "Sincal" House, city, are just back from a three week's tour in the United States. They went as far south as Atlantic City. They visited New York, Washington Philadelphia and Hazelton, Penn., where Mr. Veilleux has a brother-in-law, Mr. W. T. Delaney, a Sherbrooke boy, who is very prosperous and occupies an important position in a leading manufacturing establishment. They were amazed at the "mountains" of coal awaiting transportation. The prices have been cut and now egg coal is selling at \$4.30 and all the other grades in proportion. Mr. Veilleux says that if one did not know that our neighbors are at war, he would not perceive it while travelling amongst them except from the newspapers. On their way home they also visited Boston and towns along the line in Maine and New Hampshire, where winter has been as severe as in Canada, and plenty of snow still remains on the ground. Mr. Veilleux seems to have benefitted greatly by the pleasant trip undertaken for the improvement of his health.

In connection with the above following extract from one of the Hazelton papers will be read with interest: "Announcement several days ago that the Federal coal administration would direct a reduction in the price of coal effective April 1st, assures a freer purchase of coal supply during the summer to ward a famine such as marked the present winter. The order will conform with the trade custom of the operators in previous years and will carry a monthly addition of ten cents until September when the present rates will again be in effect. The scale of prices under both schedules is as follows: Broken, \$4.90 old price; \$4.40 new price; Egg, \$4.80 old price; \$4.30 new price; Stove \$5.05 old price; \$4.55 new price; Chestnut \$5.15 old price; \$4.65 new price; Pea \$2.75 old price; \$3.25 new price; Buckwheat \$3.10 old price; \$2.60 new price; Rice \$2.60 old price; \$2.10 new price; Barley \$2.10 old price; \$1.60 new price.

GREAT WORK DONE BY V. O. N. DURING YEAR

More Nurses Needed. Ask for Straight Salaries to All V. O. N. Nurses.

Child welfare and a means of securing a greater number of nurses to carry on the ever-increasing work were two of the most important problems discussed at the 20th annual meeting of the Victorian Order of Nurses held at Ottawa, at which Her Excellency the Duchess of Devonshire was present. Mrs. Hannington, chief superintendent, urged the Order to redouble its efforts to conserve human life at its source, and stated she was proud of the honor roll, fifty-two V. C. nurses having gone overseas while two went away out to Athabasca. She also spoke of the excellent work done by the Order following the disaster at Halifax.

A resolution recommending the Governors to ask the Government to send out a call for more nurses was passed. The cause for the lack of applicants for admission to the training centres was attributed to lack of advertising, the compulsory one year service with the Order, the necessity of advancing a three months' notice before a nurse may be permitted to resign, too much night work and insufficient salaries. It was finally decided to ask the Board of Governors for straight salaries to all V.O.N. nurses according to their qualifications, length of service, etc.

A resolution adopted relative to child welfare was read and in part follows: "That the V.O.N. for Canada in annual meeting assembled do pray the Prime Minister and the Government of Canada to take the necessary steps to immediately insure the fullest protection and development of child life in Canada, it having been realized that children born and educated in Canada are of more value as citizens than are foreign emigrants."

The report for the past year showed there were 325 nurses and 281,658 visits, as against 295 nurses with 312,018 visits of last year. Seventy-one of these nurses are working in the hospitals, and the record of their work could not be presented in figures. In addition there were 1,046 days continuous nursing against 1,510 the year previous. The nurses in the hospitals and districts cared for 49,688 patients, and the district nurses made 201,658 visits, of which 16,295 were response to night calls; 19,839 child welfare visits; 6,295 pre-natal visits; 55,792 hospital days, an increase of 1,954 over the year previous and 7,135 school visits were made.

SHERBROOKE PATRIOTIC ASSOCIATION.

A very successful and well-attended meeting of the entertainment committee of the S. P. A. was held in the room of the Patriotic Association on Monday afternoon. Mrs. Parmelee, convener, presided. After the minutes of the previous meeting had been read and confirmed, Mrs. Bowen reported for Mrs. Paton that the cast for the play entitled "What Happened to Jones" had been completed, and that they expected to put the play on in May.

After some discussion re means of swelling the funds of the association, it was decided to hold a moving picture benefit in the near future, and committees were appointed for same.

Final arrangements and the appointment of committees were then made for the bridge and food sale to be held in the High School hall on Saturday afternoon, April 6.

The meeting then adjourned.

To Miss Hunt, Secretary Work Committee:

Dear Madam—On behalf of the officers, non-coms and men of this company, I beg to acknowledge the receipt, some weeks ago, of your parcel, No. 121, and to express our appreciation for your kind and most appropriate gift.

If I remember correctly, it was about a week before Christmas that your consignment of Christmas cheer arrived, and a few days before the date selected by us to give the men their Christmas turkey, or rather pork, for the former was unobtainable, and so we thought that there could be no better time to distribute the interesting little parcels at the end of the dinner. We did so, and if you had only seen the excitement and the pleasure that showed itself on each man's face you and your co-workers would have been amply repaid for all the tedious hours that had been spent in arranging the gifts and tying of the parcels. To you it must seem as times as though your efforts were unwarded—box after box is despatched, sent

Crews of Hun Submarines Cannot Carry Weapons, As Officers Fear Revolt

LOYD GEORGE'S declaration that on a single day recently five of the Kaiser's submarines had been destroyed is a thrilling piece of news.

Not more than six months ago the problem of successfully combatting the submarine seemed well nigh hopeless.

Then the character of the problem and the pathway to success were indicated by an expert along lines which events have strikingly confirmed.

The submarine is an egg-shell and it can be crushed like an egg-shell, and that is what is being done with them.

Now a submarine location on being discovered is netted most effectively. It is circled by bombs lowered under water over a wide area.

S.O.S. Soldiers Of the Soil For the Farms

THE proof of the value of boy workers on farms is that nearly every farmer who got boys in 1916 wanted them again in 1917. In 1916 a little over 2,000 boys went on the farms in Ontario. In 1917 nearly 8,000 were demanded and this year more than 25,000 will be required.

Hundreds of letters from farmers have been received, speaking in the highest terms of the work done by the boys. In many cases no other farm labour was used because none could be had. Nor was any other needed because the boys did all the work well and willingly.

This year Canada asks that no less than 25,000 boys shall enroll in the Soldiers of the Soil to help Canada raise the food our Allies and armies must have to win the war.

25,000 volunteer boy workers will help materially to solve Canada's farm labour problem.

Enrollment Begins April 1st

and it is necessary that it be complete by April 6 so that the farmers of Canada will know for a certainty that this help will be forthcoming when it is needed. They can then go ahead with seeding, being assured of help for cultivating and harvesting.

Boys from 15 to 19 inclusive, can enroll with High School Teachers, Y. M. C. A. Secretaries, Scout Masters, Etc.

Farmers can apply for boys to the Provincial Minister of Agriculture.

OLEOMARGERINE SHIPMENTS TO CANADA

WASHINGTON, Mar. 27.—Application for license to export oleomargarine to Canada will be considered by the War Trade Board on and after April 1, it was announced tonight. The Board suggests that in order to facilitate the granting of such applications, it would be advisable that a Canadian import license should be secured and attached to the application for United States export license prior to the filling of the same with the Board.

Inasmuch as only limited quantities of oleomargarine will be permitted to Canada, the Canadian Bureau of Imports and Exports will co-operate with the United States War Trade Board in the manner above described for the purpose of insuring equitable distribution of this oleomargarine in Canada.

RUDOLPH IS STUBBORN.

Dick Rudolph still is sojourning in the Bronx instead of being down at Miami with the Braves. Dick makes no bones about it—he's an out-and-out holdout. Rudolph wanted to be traded to the Giants, and George Stallings offered him to McGraw, but the leader of the local club chose Jess Barnes in preference to the pitcher who had once worn a Giant uniform. Stallings wired Rudolph his final terms and these were declined, whereupon Stallings called all negotiations off. He offered Rudolph \$5,000, with a bonus of \$500 for winning 15 games, \$1,000 for winning 20 games, and \$1,500 for scoring 25 victories.

NEW YORK, March 26.—Club owners and others interested in the affairs of the International Baseball League arrived here today for an informal conference preliminary to a meeting of the league to-morrow, at which it is expected definite action will be taken on the long-delayed question of whether to start the season or suspend operations during the war.

TWO BIGGEST MEN TO MEET.

It is stated that final articles have been signed for a bout between Jess Willard and Fred Fulton, and if such is the case the pugilistic fans are soon to see two of the largest scrappers in action that ever stepped into a ring. Big men have been by no means uncommon in the ring during the past decades, but never in the history of fisticuffs have two boxers of the height of Willard and Fulton faced in the squared circle. The present title holder is the big-

TORONTO WON THIRD GAME.

(Special to The Record) TORONTO, March 27.—The Toronto Blue Shirts capped the honors in the third game and took the lead in the series for the Stanley Cup, emblematic of the world's hockey championship, defeating Vancouver last night to the tune of 6 goals to 3. The game was quite fast and interesting, being played under eastern rules. The standing of the two teams to date is as follows:

EVERS' SHOULDER WASTING.

According to the doctor with the Red Sox at their Hot Springs training camp, Johnny Evers' shoulder has been left in bad shape from neuritis, and it is a question whether the famous second basemen, who has been in the limelight for years, will be able to play ball this summer. Evers' shoulder, according to the doctor, has become atrophied and is gradually wasting away. Neuritis has left the nerves in a shattered condition, while atrophy of the muscles which has set in may prevent Johnny from starting his sixteenth year on the diamond.

TWO OLD-TIMERS THROUGH.

Two old-timers of the sporting world are through as far as competition goes. They are Bobby Waithour, the cyclist, and Barney Oldfield, the original dare-devil of the automobile racing game. Waithour, the veteran of a thousand bicycle races, and a hundred smashups, has ridden his last race. He has returned to Atlanta, where he has gone into the bicycle business with his brother. Bobby vows that never again will he be tempted to mount a wheel in a contest, for he has tangled once too often in the last six-day race held at New York. Wait-hour started in that contest, but was forced to quit after riding the first two days. Later, walking on the slippery streets of Newark, N.J., Bobby

DENVER MONKEY A HUGGER

Simian Causes Sensation When He Boldly Embraces Young Woman Passing Along Street.

The lovable monkey in loose, when he swung from the low branches of a tree at Twelfth avenue and Detroit street and threw his arms about the neck of a young woman pedestrian there was a lot of commotion, says the Denver Post. Aside from breaking the spooning laws, the monkey shouldn't have chosen broad daylight. A scream from the young woman brought residents to their doors. They saw her running in one direction and the monkey in another. It was difficult for them to ascertain which was the more frightened—the young woman or the lovable monkey.

Patrolmen from the Capitol Hill station have been pursuing the lovable monkey all over the Montclair district. Where the monkey came from is a question. The zoo keeper at City park says all his monkeys are "just where they should be"; that none of them would be ungentlemanly enough to leave home and try to hug pedestrians.

Residents of the Montclair district have joined in the hunt. A tree-top search is being made by the posse, including an examination of the nursery at Eighth avenue and Clayton street, where the affectionate simian was last sighted. The monkey sought temporary haven on the front porch of G. A. Clason's home, at 945 Detroit street, but when an attempt was made to capture him he curled up his tail and departed suddenly.

In addition to the frightened woman pedestrian, the monkey was seen hugging several trees. Just now he is hugging some secluded spot. Residents hope he is apprehended, as they do not want to be monkeyed with any more.

MARKEN ISLAND OLD STYLE

Ancient Manners Are Still Observed and Historic Costumes Are Worn by the Inhabitants.

Marken island is a bit of the old Holland, an inlet lying in the Bay of Fundy not far from Minas, of whose fame Holland is rapidly becoming modernized nowadays; the blue bloomer of the canal boatman has gone the way of the wooden shoe, well toward oblivion, although the latter, it is said, is becoming increasingly popular with the price of leather soaring, writes Nilesah. The Dutch are rapidly abandoning the old ways that endeared them to the artists of bygone generations, so that any spot where the traditional customs are still preserved is worthy of note as a living museum of history.

Such a spot is Marken island, where old manners are still followed and the old costumes still worn. Separated by only a narrow channel from the progressive mainland, it is none the less fifty years behind the times. It seems to be characteristic of small islands that they progress much more slowly than mainland whence their people come. Thus is the Arran islands off the coast of Ireland the old Irish tongue is still spoken; in the Hebrides men still live as they lived in the days of Scott, and on Marken island the men still go down to the fishing boats in bloomers and wooden shoes.

The dark blue bloomer is the mark of the married man, while the single men wear white—a somewhat illogical arrangement in view of the facilities for laundry work that married men ought to have. The women wear the old-time costumes and carry their knitting about with them on the streets. Every one of the houses is exceedingly small and almost unbelievably clean. There are not more than 500 people all told in this little colony of fishermen.

Marken is quaint and old-fashioned, but it lacks the touch of self-consciousness to make it perfect. In all the little shops you can purchase picture postcards depicting scenes that are "quaint" and "typical." And when a region begins to realize that it is picturesque it has taken the first step on the road to the commonplace.

THINKING ALOUD IN RUSSIA

Grows Assemblies on Streets to Paraphrase in Debates Which Really Amount to Very Little.

Along the Nevsky that evening in the parks and open spaces, little herds of people were packed together as sheep crowd together under a tree on an August afternoon. In the center two persons debated, shaking their hands in each others' faces. They had been talking like that for weeks all over Russia, writes Arthur Huhle in Collier's Weekly.

All Petrograd was one big village meeting—the village habit of talking over together the village's business being transferred to the capital. And coming in late at night from the edge of town, you could see every now and then these black little clumps of people, still talking, still huddled there, vaguely pathetic, like sheep under the trees.

Any one of hundreds of excited phrases flung off in these little debating clubs might, I suppose, have sent a man to jail or Siberia a generation ago. Now they could say anything, gather anywhere, listen as long as they wanted. Russians have a gift for talking and a happy lack of self-consciousness in doing it. They really like to make speeches. Mr. Root, in one of the lighter moments of his stay in Petrograd, remarked that one of the tragedies of the Russian revolution was the turning loose on the world 180,000,000 orators.

Now one saw some old peasant, a giant of a man, come down with a barge of firewood from the north, perhaps, holding forth with great quaintness of phrase and gesture to an amused group of city folks. Or while one talked some expansive old fellow, in the long coat, cap and boots of the old-style merchant, would be doing a sort of comic accompaniment on the edge of the crowd, throwing out his arms and putting a "galubchik mol" ("my little dove") between every other sentence.

Much of this talk which looks interesting—so expressive its voice and gesture—turns out to be a mere sort of thinking aloud.

Indians in the Great War.

Indians have been volunteering for service in the United States army since 1861. In 1892 Lieutenant Scott, later chief of the staff, organized and trained a troop of the Seventh cavalry, which was highly commended by the inspector general of the war department.

The Indian is trained as the Swiss train their boys, so that they may be able to fire a gun accurately and earn a living. He has all the qualities of a good soldier—endurance, patience, courage and an instinct for scouting, London T.H. Bits says.

The Canadian government recognized the great fighting ability of the many Indian nations and tribes who volunteered their services for king and country at the outbreak of the war, and there are hundreds of Indians enrolled in many of the different Canadian regiments at the front. Many have made the supreme sacrifice, among the first to fall being Lieut. Cameron Brant of the Six Nations Indians, who was a lineal descendant of the distinguished colonial warrior, Capt. Joseph Brant of Revolutionary fame.

The Strength of Woman.

"The work women are doing in this war!" exclaimed a member of the railroads war board, at a banquet. "Driving ammunition trucks, digging trenches; even, as in Russia, fighting in the front line!"

"Women comes more and more to resemble Cornelius Husk's daughter, Mame. When Hunky Mame, as she was known in the township, presented her future husband to the old man, Corn Husk sighed and said:

"Take her, son, but take good keer on her, for the little ladybird has been rick tender-like. Four acres a day is all I ever sat her to plow, and two acres of corn is all she's been used to do light work, such as rail-splitting and well-digging, but she ain't used to rough stuff, and you must be gentle with her. I tell you, son, it's hard for the old man to give his little sunshine up. He'll have to split his own wood and tend his own stack now."

Dream Came True.

The encyclopedic Andrew Lang is responsible for the following dream record, according to Katherine Cox, writing in the Occult Review:

"A certain barrister sat up late one night to write letters, and at about 12:30 went out to put them in the post. He returned to his rooms, and while undressing for bed missed a check for a large sum, which he had received during the day. He hunted everywhere in vain, went to bed, slept, and dreamed that he saw the check curled round an area railing not far from his own door. He woke, got up, dressed, walked down the street and found his check in exactly the spot where he had seen it in his dream."

NEW METHODS OF FIGHTING

Modern Warfare is Carried On Under Water, Under Ground and in the Clouds.

"Digging in" has a new and important significance and the fantastic legend of Darius Green is long forgotten in the light of practical achievement by the bird-man of today. The cavalry of the earth has been supplanted by the cavalry of the air. The actual fighting of modern warfare is conducted under water, under ground and far up among the clouds.

Yes, there have been drastic changes in military tactics and military equipment since the old days when we used to drill in the armory over the grocery store in the little old home town. What we tried so hard to learn of military lore in those days would be classed as low comedy by a recruiting officer of this changeful period. But, all the same, one can't help wishing that one were somewhere in France at this minute with good old Company C—the regiment of the National Guard, and we'd make a reasonable wager that of the survivors of that organization, if given an opportunity to go, there wouldn't be a slacker in the bunch.

Powerful Aero Engines.

In testing an airplane engine of 200 horse power a Detroit company mounted it upon a heavy motor truck, and the aerial propeller sent the truck flying along a boulevard at the rate of more than 40 miles an hour. This was a speed that the truck could not be made to develop under its own motive power, and the method furnished a better practical test of the 12-cylinder airplane engine than was possible in the testing laboratory or in any stationary trial on blocks. As an additional test the rear wheels of the two-ton truck were locked, so that they could not revolve, and in that condition it was driven across a ball park by the airplane engine and propeller through heavy drifts of snow and over ice. The motor weighs 800 pounds and develops power sufficient to drive a 12-passenger airplane at 40 miles an hour, Popular Mechanics Magazine.

Kipling Made "Tommy Atkins."

Rudyard Kipling has written an American story, "Captains Courageous." Kipling made "Tommy Atkins." Sir George Youngblood, who has been in the British service for forty years, declares that nobody ever heard of "Tommy" until Kipling made Private Mulvaney and the other two of the "Soldiers Three" talk about him. He says that he had asked innumerable old British officers if they ever heard of "Tommy Atkins" before Kipling wrote about him, and they all agree that they never did.

Ivory Billiard Balls.

The tusks of the cow elephant have been found best adapted to the making of billiard balls. The tusk of the female is not so curved as that of the male, and the fine nerve passage is not so clearly seen.

Song Flights of Birds.

A thrush was caught at Southport recently with a ring on its leg marked, "Inform Witherby, High Holborn, London." Mr. H. E. Witherby, who is the editor of British Birds, has, since 1910, had 75,000 birds so marked in the hope of learning something about their travels. A swallow ringed in Lancashire was found seven months later at Grahamstown, South Africa, 6,000 miles away. A "tesser black-backed gull," ringed at the Farne islands, off Northumberland, was found eight months later at St. Louis, Senegal, and a blackbird, ringed at London, was found in Moscow a few weeks afterwards. It would seem that birds are greater travelers than most of us imagine.

England's Need.

Howard E. Coffin, who is standardizing the American airplane, said to a correspondent:

"Standardization is the modern efficiency method. The Germans have standardized their submarine. England is a great country, a brave country, an unconquerable country, but England needs standardization.

"When an Englishman wants to say that a check is 'for deposit only' he doesn't write that on it. No, that isn't the English way. He writes 'Co.'"

"A Cambridge professor once explained to me some of the terms used at the great English university.

"He said 'full term' means three-quarters of a term. 'May week' is the first two weeks in June. 'General admission day' is the day everybody leaves. An 'ordinary degree' is one obtained by a special examination, and an 'honors inspector' is an arts student."

ALL AIRCRAFT OUTFIAGED

Ancient Bird, the Pterodactyl, Had Twenty-Five Feet Wings, Welshed About Twenty-Five Pounds.

Whence do the angels derive their wings—the angels, that is to say, of painting and sculptural art? From what source is the accepted model for these appendages derived?

It is rather difficult to say, according to the Philadelphia Public Ledger. But apparently the wings conventionally worn by angels are those of the albatross. At all events, albatross wings correspond most nearly to the patterns.

The albatross weighs about 18 pounds and has a wing spread of 11 1/2 feet. Each of its wings has an area of seven square feet. With a wing spread proportionate to size, an angel as well equipped for flight as the albatross ought to be able to fly very well.

The trumpeter swan, which is the greatest weight-carrier of all long-distance flyers, would be at a disadvantage as compared with an angel. It weighs 28 pounds and has a wing spread of only eight feet.

But no angel or modern bird could compare as a flyer with the pterodactyl of 6,000,000 years or so ago, which, weighing perhaps 25 pounds, had a wing spread of 25 feet. Its bones were almost paperlike and its body hardly more than an appendage to its wings. With a head that was principally a daggerlike beak, and a pouch like that of a pelican, it fluttered methinks (looking for fish) along the shores of the Cretaceous sea that extended northward from the present Gulf of Mexico to and over Kansas.

He was "some" flyer, the "pterodactyl" (as naturalists call this species of pterodactyl); our modern flying machines have yet to rival his performances.

HAPPINESS INDUCES OLD AGE

Human Body Demands Enjoyment, and Like a Rose, Will Not Thrive in Shadow.

A woman has declared that at one hundred and six she is in better health and happier than at any previous time in her life, according to the Christian Herald.

Surely a woman who is healthy at one hundred and six ought to be happy. She would have to be happy to be healthy.

None but a happy disposition could carry one through so many years. A gloomy temperament would strangle life out of the body long before the age of one hundred and six.

The human body can no more thrive in shadow than can a rose. Enjoyment of and zest in life are a constant source of life supply.

Old age ought to be the happiest period of life, particularly for a woman. If she has kept her mind active and has wisely refused to settle into the dull rut that people always have ready for her, she can begin in old age to enjoy life in earnest.

In old age there is no more worry about the babies, no more suffering for others. The children are grown up, and, if her part has been well done, they are a prop and a solace to her. Grandchildren are a delight without the bitter, constant worry.

The woman grown old in years should be at her best mentally. She is free to indulge her tastes, enjoy a good book and the conversation of genial minds.

Women retain their vitality and spirits longer than men do. The burdens of life fall from them gradually, and the peace of retirement from active duties comes upon them little by little and almost imperceptibly.

Samples Wanted.

"Is this your advertisement in the paper for the recovery of a black-and-tan terrier?" a gentleman asked his friend. "Yes," was the reply. "But you never had a dog to lose?" "I know," said the advertiser, "but I want one now, and I think I can make a good choice from the animals that will be brought to me!"

"INSIST ON DENT'S"

SAVE YOUR HAIR AND BEAUTIFY IT WITH "DANDERINE"

Spend a few cents! Dandruff disappears and hair stops coming out.

Fry this! Hair gets beautiful, wavy and thick in few moments.

If you care for heavy hair, that lustens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice heavy healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots furnish, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a small bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. It eventually—why not now?

Save Food

IT has long been an accepted fact, proved by independent scientific investigation, that Bovril has a body-building power equal to from 10 to 20 times the amount taken. This is now confirmed in a very striking way in the following report from the "Medical Times":—

"The addition of a small teaspoonful of Bovril to the diet as a peptogenic before meals leads to more thorough digestion and assimilation and thus saves food.

"The diet may be then cut down from 1/3 to 1/4 and the body still be adequately nourished."

Extract from the review by the "Medical Times" of the investigations on Food Economy conducted by Dr. J. Campbell, while Food Expert to the Metropolitan Campaign for Food Economy.

Help to save the Nation's food and still keep yourself well fed by taking a cup of Bovril as soup at meals, or by using a little Bovril in your cooking.

Discoveries in Palestine.

The discoveries which the British and Indian troops are making in Palestine of old churches and their sacred dust have reminded one of the soldiers of Sir Henry Layard's description of the excavators at Nimrud. When the first of the enormous figures began to appear above the earth Arabs raced to him—"Hasten, O Bey, for they have found Nimrud himself. Wallah, it is wonderful; we have seen it with our eyes. There is no God but God!" And they hid them in terror to their tents. The Anzacs were filled with different emotions, for like all the forces their ranks are furnished with highly educated as well as men of the old type of private.

Wen His Lost Watch.

An extraordinary watch story is told by a Welsh campaigner home on leave from African battlefields. When he was in German West Africa he lost a wristlet watch. It was not very valuable, so he did not worry a lot about it. But many months later, when on active service in German East Africa, he took a share in a raffle for a watch. He won, and to his amazement found that the prize was his own watch.

British Sailors' Homes.

The records of the British and Foreign Sailors' Society show that between January 1 and November 1, 1917, more than 16,841 survivors from ships sunk by enemy action had been brought to the society's homes and institutes.

RATS MARCH LIKE SOLDIERS

Rodents Have Little Difficulty in Finding Supply of Food, and Adapt Themselves to Conditions.

The ready adaptability of rats to their surroundings is one of the qualities which has enabled them to conquer the world. E. W. Nelson writes in the National Geographic Magazine. On the approach of warm weather in summer large numbers of them leave buildings and resort to fields on farms or to the outskirts of the towns, where the growing vegetation, particularly cultivated plants, affords them an abundant supply until the approach of winter. At the beginning of cold weather they return again to the shelter of buildings, where they find the harvested crops ready for their consumption.

When the food supply suddenly decreases, following a period of plenty during which the rats have greatly increased in numbers, a migratory impulse appears to affect the entire rat population over large areas and a general migration takes place. At such times the rats are extraordinarily bold, swimming rivers without hesitation, and surmounting all other natural obstacles. The first invasion of Europe, when rats swam the Volga, was an instance of this kind. Experiments by the United States public health service have shown that when released in the water of a harbor rats may swim ashore for a distance of 1,500 yards.

FUNERAL OF AN AGED RESIDENT OF BURY

BURY, March 27.—Charles Dougherty, 89 years of age, passed away to rest on the 23rd, inst., at the residence of his son, Alexander. His end was peaceful. The funeral took place on Wednesday afternoon, 26th. Prayers were said at the house by the Rev. C. T. Lewis, Rector of Bury. The service was held in St. Paul's Church, where an appropriate sermon was preached. The musical portion was very nicely rendered by the choir. Interment took place in St. Paul's cemetery. The bearers were Messrs. J. W. Dawson, Thos. Pickford, Wm. Gaffney and R. Crawford.

The late Charles Dougherty was born in Ireland on November 5th, 1829, came to Canada with his parents in 1831 and settled in Inverness. At the age of 28 he married Sarah A. McCutcheon, who predeceased him three years and five months.

They moved to Island Brook in 1878, and remained there until 1910. Since then they lived in Bury with their son, Alexander Dougherty, with whom they came to spend the remaining days. The late Chas. Dougherty was a blacksmith by trade, but followed farming after moving to Island Brook. There are ten surviving children to mourn his loss, five sons, namely, Alexander and Arthur, of Bury; Charles, Alameda, California; Walter, of Gould, and George, who is "somewhere in France"; and five daughters, namely, Mrs. Viola Maxwell, Canada, N. H.; Mrs. M. J. Fox, Barnston; Mrs. Chas. Gilbert, Newport, Vt.; Mrs. H. A. Moe, Oakland, Cal., and Mrs. Ed. Dawson, Calgary. There are a great many grandchildren, great grandchildren, nephews, and nieces. The casket was covered with many beautiful flowers from his children and sympathizing friends.

Mr. Balfour's participation in the great choral tribute to the "Old Army" at the Albert Hall recently proved that the burdens of state-manship have never diminished his enthusiasm for music. Whilst fully appreciative of the modern schools, his real love is for the older masters, particularly Handel, of whose works he possesses one of the finest collections in the world.

**THREE ORDERED
TO JOIN ARMY BY
APPEAL JUDGE**

Three Men From Compton Refused Exemption. Sherbrooke Men Appeared Yesterday.

Having failed to appear at the Court House, after being notified that their cases would come up for hearing yesterday, two Compton men, Joseph Lessard and Denis Pratte, were conscripted by default by Mr. Justice Hutchinson in the Appeal Court. Another Compton man, Arthur Baillargeon, a plumber, who asked for exemption solely on the ground that he is a plumber, was refused exemption. Three men were exempted as being active farmers, John Doyon, Ed Gormley and Louis Londreville, and one man given a certificate Class C by the Medical Board was exempted until that category is needed. Rosaire Baillargeon's case was put off until April 3.

Three Local Men Exempted.
Out of the five cases from Sherbrooke that came before Mr. Justice Hutchinson yesterday, three were given exemption, one was given leave to appeal from the decision of a local tribunal and the other was adjourned. Herve Lemire, who is the sole support of his father and mother, was given exemption for six months, at which time he is to report to the registrar at Montreal as to the physical condition of his parents.

Ernest Rouleau, a steel forger, was exempted as being essential to the firm for whom he works, while A. E. Davis, who has a brother at the front, was given exemption, and Stanislas Sene's petition to be allowed to appeal from the decision of the Local Tribunal was granted. Joseph Lachance's case was put off until April 3. In the meantime he will be examined by the Medical Board of Revision.

**WILL REPRESENT
Y.M.C.A. IN CAMPAIGN**

Mr. P. S. Dobson Will Direct Campaign in Country Districts in This Province.

Mr. P. S. Dobson, who has been in charge of the religious work department at the Military Y.M.C.A. Exhibition Camp, Toronto, is in the city. He is here in connection with the Dominion-wide campaign to raise two and a quarter million dollars for military work in Canada and overseas.

Mr. Dobson has been appointed to take charge of the organization in this province, outside of Montreal. His work will be chiefly in directing the work in the smaller towns and country districts where no campaigns have previously been held. It is likely that the headquarters for this provincial campaign will be in Sherbrooke. Mr. Dobson is well known throughout the Eastern Townships, and his co-operation will no doubt be welcomed.

**ROAD COMMITTEE
DOING BEST TO
MEET CONDITIONS**

"Conditions Hard to Cope With This Spring" Says Alderman Forest.

Complaints have been received from time to time during the past week in regard to the slippery condition of a certain piece of sidewalk, the last being relative to the icy condition of the walk through Strathcona Square, but every effort is being made by the road department to cope with the results of the spring thaw. Two men were put to work this morning on the walk through Strathcona Square, while others were sent to various parts of the city in answer to complaints about the condition of certain portions of the sidewalks.

In discussing the conditions, Alderman Forest, chairman of the road committee, this morning said: "The conditions which we have had to cope with this year are exceptional, and it has been impossible to obtain just the results that both the people and ourselves would like. We have had an unusual snowfall this winter and considerable alternate thawing and freezing during the past month, causing the formation of an unusual amount of ice."

"The drains have been opened up time and again, only to freeze up during the nights, and the steam boiler has been kept busy every day thawing out the grates. If it had not been for the freezing of the gully grates, conditions would be very satisfactory. Even in ordinary spring thaws the public must necessarily be subjected to a certain amount of inconvenience. As the last week of March and the first week of April are the transition periods, it is not possible at any time during that period, no matter what might be done, to keep the public without some inconvenience."

"The street cleaner was put to work on Monday, as suggested in the Daily Record, and as soon as it gets really warm again they will be out again scraping the rough dirt off the main streets so that the sun may get at the ice and hasten the thawing process."

**NEW GOVERNOR OF
BANK OF ENGLAND**

Sir Brien Cokayne Succeeds Baron Cunliffe Who Retired After Five Years' Service.

(Associated Press Despatch) LONDON, March 27.—Sir Brien Cokayne has been elected governor of the Bank of England to succeed Baron Cunliffe, who retires after five years' service as governor. Mr. Montagu C. Norman, a director of the bank, has been elected deputy governor.

Sir Brien, prior to today's election, was deputy governor of the bank.

**NOT CARRIED AWAY
BY GERMAN REPORTS**

Newspapers in Neutral Countries Are Not Misled By Accounts of Battle.

(Associated Press Despatch) WASHINGTON, March 27.—Newspapers in the European countries are not allowing themselves to be misled by German accounts of the battle on the Western front, according to official despatches today from France. The German communications at the time of the Verdun assault are recalled, the despatch says, and Swiss papers are quoted as pointing out that the British line has not been broken, and the number of prisoners taken is not surprising in any action of such magnitude.

**PROBLEM TO
REPLACE MAN
POWER LOSSES**

London Telegraph Urges That Conscription Be Enforced in Ireland.

(Associated Press Despatch) LONDON, March 27.—Discussing the means of replacing the losses of manpower in France, the Daily Mail suggests it probably will be found necessary to shorten the period of training for recruits, and to send to the front the younger classes at an earlier age than heretofore. All physically able Russians in England, this newspaper says, are being called to the colors, the authorities having cancelled the recent order which temporarily suspended the summoning of these men.

The Daily Telegraph for the first time urges application of conscription to Ireland in order to replace the recent losses.

The question of extending the operation of compulsory service act to Ireland must call for reconsideration by those who realize how magnificent has been the contribution of Irish regiments to our past military achievements, and how priceless from every part of it for a fuller participation can be expected.

**WELCOME TO EATON
CORNER SOLDIER**

Lieut. Bevan, Who Has Been Through All Big Battles, Home on Leave.

EATON CORNER, March 27.—(Special)—About 150 people congregated at the town hall here Monday night in honor of Lieut. Bevan, who has been with Canada's first division since the outbreak of the war, and is home on two months' leave with his wife and family here. Rev. Mr. Macdonald, of Cookshire, addressed the gathering, emphasizing the need of

optimism, and introducing Lieut. Bevan as one of our supermen who has been through all the big scraps since 1914. Rev. Mr. Dick, of Sawyerville, also spoke in very appreciative terms of the Canadian soldiers. Lieut. Bevan expressed his appreciation of his welcome, and in very modest and concise terms gave a history of the great battles he has been through, recounting several incidents relative to them. He also showed the gas mask now in use by the Canadians. The orchestra from Cookshire rendered several selections, which were very much appreciated. Mr. Geo. Picard gave a solo and the choir two choruses. A purse of \$21 was presented to Lieut. Bevan on behalf of those present. After lunch was passed the reception closed with the national anthem.
