AND COMMERCIAL AND SHIPPING GAZETTE.

VOL. VIII.] QUEBEC, THURSDAY, 28TH SEPTEMBER, 1854. [NO. 2003.

CORPORATION OF QUEBEC.

ASSESSMENTS.

CITY TREASURER'S OFFICE, QUEBEC,
City Hall, 17th August, 1854.

PUBLIC NOTICE is hereby given, that all persons indebted for ASSESSMENT dues, together with all other rates, taxes or duties imposed by the Corporation of the City of Quebec, in virtue of the Laws, By-Laws, and Regulations of the Corporation, are requested to pay the said Assessment dues, &c., to the undersigned, at his office, in the City Hall, on or before the FIRST of SEPTEMBER next, in default of which they will be sued without further notice.

The Council has decided not to employ any more Collectors, on account of the heavy expense incurred by that system, as all persons are bound to come and pay at the City Hall.

By order,
AUG. GAUTHIER, JR.,
City Treasurer.

WESTERN

FIRE AND INLAND MARINE

ASSURANCE COMPANY.

INCORPORATED BY ACT OF PARLIAMENT.

Capital, - - - - - - £100,000.

HOME OFFICE,—TORONTO.

FIRE AND MARINE INSURANCE can be effected with this Company, at the Office of
JOHN LAIRD,
AGENT FOR QUEBEC,
St. Lawrence Chambers, St. Peter Street.
Quebec, 3rd May, 1854.

Quebec Timber Towers' Association.

THE TIMBER TOWERS of Quebec having formed themselves into an Association for the purpose of securing a fair remuneration for their work, and also for the purpose of binding the members to assist one another, when, in consequence of accident or otherwise, the property entrusted to the charge of any of the members of the Association is in danger of being lost, the following TARIFF OF PRICES has been adopted, which will in no case be deviated from:—

For Towing the cargoes of Vessels,—

Under 300 Tons,.....	£3	0	0 per hund. Tons.
301 Tons to 400 Tons,	2	15	0 do.
401 " to 500 "	2	12	6 do.
501 " to 600 "	2	10	0 do.
601 " to 700 "	2	7	6 do.
701 " to 800 "	2	5	0 do.
801 " to 900 "	2	2	6 do.
801 " to 1000 "	2	0	0 do.

Every additional 100, £2 per hundred Tons.

And if by the stick,—for portions of Cargoes, 6d. per stick, when towed from pond to ships on the same side of the river;

—ALSO,—

7½d. per stick, if towed across the St. Lawrence or from the St. Charles.

By the lump.—No charge to be made for 30 pieces remaining, but over that, 6d. to 7½d. a piece, as above.

Deals, floated, 3s. per standard hundred up to 1000 standard; over that quantity, 2s. 6d. per standard hundred.

The above rates are exclusive of any charge for the hire of ropes, chains, &.; the Timber Towers being obliged only to furnish boat and men.

A deduction of 10s. per hundred tons to be allowed when the vessels take the whole of their cargo from a boom directly opposite their mooring berth,

Quebec, 19th May, 1854.

☞ Mr. MILES KELLY is the duly appointed Agent in conformity with the Rules and Regulations of the Association, to receive and collect all Monies due to any of its Members, during the season of 1854.

J. R. BENJAMIN'S

FIRST PREMIUM

BRASS SPRING TRUSSES,

WHICH will never rust nor grow weak from sweat or heat. *Once right always right.* It will retain the worst rupture without pressure upon the spine, which often causes spine disease, and cures in almost every recent case.

Those using Trusse are requested to call and exne ami it. Perfect satisfaction warranted, or money returned.

The American Institute, at their late fair, awarded to it a splendid gold medal.

For Sale by
JOHN MUSSON,

Also, heavy Cotton Sacking, 40 inch Canvass, 3 thread Warp and Filling, heavy twilled, do. do., 20, 22, 40 and 44 inch.

WOOL SACKS—Woven whole all sizes, to new desirable article.

22nd Febv., 1854. 12m

AYER'S PILLS,

A NEW and singularly successful remedy for the cure of all Bilious diseases—Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c. &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the many eminent gentlemen who have testified in favor of these Pills, we may mention:

DR. A. A. HAYES, Analytical Chemist, of Boston, and State Assayer of Massachusetts, whose high professional character is endorsed by the

HON. EDWARD EVERETT, Senator of the U. S.
ROBERT C. WINTHROP, Ex-Speaker of the House of Representatives.
ABBOTT LAWRENCE, Minister Plen. to England.
† JOHN B. FITZPATRICK, Cath. Bishop of Boston.
ALSO, DR. J. R. CHILTON, Practical Chemist, of New York City, endorsed by
HON. W. L. MARCY, Secretary of State.
WM. B. ASTOR, the richest man in America.
S. LELAND & Co., Propr's of the Metropolitan Hotel, and others.

Did space permit, we could give many hundred certificates, from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulæ by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If, however, there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realised by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see wrapper on the Box.

PREPARED BY
JAMES C. AYER,
Practical and Analytical Chemist,
LOWELL, MASS.
Price 25 Cents per Box. Five Boxes for $1.
SOLD BY
JOSEPH BOWLES, and J. MUSSON & Co., Quebec. Also, by Druggists generally throughout Canada,
14th August, 1854.

COMMERCIAL HOUSE,

UPPER TOWN MARKET PLACE,

Opposite the French Cathedral,

QUEBEC.

THE SUBSCRIBER begs to apprise his Friends and the Public of Quebec and surrounding Districts, that he is now receiving by the first Ships, his

Extensive Spring Importations of BRITISH and FOREIGN DRY GOODS,

selected by himself in the ENGLISH, SCOTCH, FRENCH and GERMAN MARKETS, adapted to the SPRING and SUMMER SEASONS, which, for extent and variety, cannot be surpassed by any House in Canada.

In order to continue the important advantage to purchasers which has distinguished this Establishment from its commencement of being from

25 to 40 per cent. Lower in its prices

than other houses, his principle is to SELL EXCLUSIVELY FOR CASH, at the lowest possible profit, thereby commanding a quick return of his capital, and saving the buyer the very large percentage invariably put on to cover the risks of a credit business. His constant attendance in the EUROPEAN MARKETS, gives him the advantage of purchasing from the Manufacturers on the very best terms and at periods of the year, when the Markets are depressed, which enables him to sell at prices which no other Establishment in Canada could afford, and thus effectually realise the above large saving to the public.

He finds also, that the system he has adopted of strictly adhering to ONE PRICE, and marking that price on all goods in plain figures, has met with universal approbation.

The Stock being so varied and extensive, precludes the possibility of giving a full description of it, the Subscriber will therefore, merely call attention to a few of the Departments of the Establishment:

In the Department for LADIES DRESS will be found a large assortment of Rich Brocaded and Glacée Silks, Plain and Figured Satins, Poplin Lustres, Delaines, Tissue Stripes, Barèges, Printed and Plain Muslins, Figured and Plain Orleans.

SHAWLS IN ENDLESS VARIETY and of the newest designs.

French and British Ribbons, Flowers, Hosiery, Gloves, Parasols, Corsets, Worked Muslins Real Lace Falls, &c., &c.

The MILLINERY DEPARTMENT—a new branch added to the Establishment, under the management of a First rate Milliner from London—is supplied with the Largest STOCK of BONNETS in Canada, of the LATEST PARIS and LONDON FASHIONS.

—ALSO, —

A Variety of VISITTES and MANTLES.

The House Furnishing Department will be found to contain a large Stock of Damasks, Morseen Lace and Net Curtains, Table Linen, Towelling, Sheeting, Druggets, Carpeting, Hearth and Door Rugs, &c., &c.

Merchant Tailors and others will find the WOOLLEN DEPARTMENT supplied with a very large Stock of the best Superfine WEST of ENGLAND and GERMAN CLOTHS in all shades and colours

TROWSERING of the Newest Styles in Cassimeres, Tweeds, Doeskins, Cashmarette, Drills, &c., a variety of Vestings, Handkerchiefs, Braces, Neck Ties, Umbrellas, &c.

An immense variety of Plain and Fancy Shirts, cut on the most approved plan, and made in the best manner, from 2s. 11d. to 12s. 6d. each.

PATRICK O'NEILL.

Quebec, May, 1854.

NOTICE.

ROOM PAPER, &c., &c., &c.

A LARGE and well assorted lot of ROOM AND PASSAGE PAPERS—and a few SETS of SCENERY PAPER'S for Sale.

—ALSO,—

Glass, Putty, Paints, Oils, Colours & Brushes.

CHAS. McDONALD
Opposite the French Cathedral,

Quebec, 10th March, 1854.

NOTICE.

MRS. H. JACOBS,

BEGS to inform the Ladies of Quebec and its vicinity, that having made EXTENSIVE ALTERATIONS in her present Establishment, she will from the 1st MAY next, commence a PRIVATE MILLINERY BUSINESS, where she will be enabled to receive her Customers by a Private entrance to her SHOW ROOM, which will be found to contain a choice selection of the most FASHIONABLE BONNETS, CAPS, HEAD DRESSES, MANTILLAS & VISITES, FLOWERS, RIBBONS, and FEATHERS, together with every other article of FANCY TRIMMING, which will be found complete, combining Elegance and the Newest Fashions.

All orders attended to with care and dispatch.

Quebec, 23th April, 1854. apl 22

WOULD beg respectfully to call the attention of his numerous customers and the gentry of Quebec and vicinity to his present large and varied stock of SUMMER GOODS, selected in the best markets in England, Germany and France, together with a splendid assortment of SCOTCH TWEEDS and CASSIMERES which he is prepared to make up with neatness and punctuality, according to the latest and most approved fashions.

Quebec, 14th June, 1854.

Notice to Lumberers.

LUMBERERS who have operated during the past winter within the agency of the undersigned are hereby notified that no Timber or Saw Logs will be exempted from duty except such as may be proved by affidavits to have been cut upon private lands, such affidavits to be made from *personal* knowledge and to describe distinctly in each case the lot on which the timber, for which exemption is claimed, was cut and the precise quantity cut thereon. For Rafts bound to Quebec market, the undersigned, will grant clearances shewing the quantities proved to be from private lands, and duty will be levied on whatever surplus the said Rafts may be found to contain over the quantities stated on such clearances as the product of private lands—statements will also be required of the quantities cut on public lands, and any false statement subjects the Timber to seizure and confiscation. Any Rafts from this agency arriving in Quebec—or other place, for sale or exportation without a clearance from this Office will be subject to proceedings, inevitably resulting in detention and consequent loss to the owner.

OLIVER WELLS,
Surveyr. Cr. Timber.

QUEBEC, SEPT. 28, 1854.

PAYMENT OF JURORS.

We were happy to learn that Mr. Drummond had announced on behalf of Ministers, that the Municipalities' Bill, which they intend to submit to Parliament, will contain a provision giving to Municipalities in Lower Canada, the power to raise funds to pay Juries, as it is done in Upper Canada. Tha is to say, we are happy to hear, that there is some prospect of Jurors at length getting paid in some way or other for leaving their homes and occupations, and dancing attendance at the Courts of Law for several days together, at the greatest personal inconvenience and in a most profitless and vexatious manner.—This is a subject which we have intended to take up for some time past, and therefore are we happy to have lighted on a text, which is naturally suited to inspire hopes of success in the advocacy of the question, and renders a lengthened argument less necessary.

Members of the Provincial Parliament, a class of men every way more able to encounter the trouble and expense of their duties, are paid handsomely not only for their daily maintenance, but for their travelling expenses to and fro, and have many conveniences furnished to them at the cost of a generous public. The Jurors are summoned from their homes and their labors in a sudden and peremptory manner. No liberty is allowed them of deferring their departure for a day or two, or of studying their own convenience, or the absolute requirements of their position and families. Some of the Petit Jurors are frequently so situated, and indeed possessed of such slender means, that a single day's absence from domestic duty is a serious loss and an injurious inconvenience; in addition to which it sometimes becomes an almost impracticable difficulty for them to procure the necessary board and lodging.

We have already hinted that our M. P. P's are paid in cash for the expenses which they incur. And in our Criminal Courts the Judges are paid, and the Clerks and other officers are paid; the witnesses also are paid, and we have heard that some professionals and other people occasionally drive a little trade in this way. Nay the very prisoners, the accused, are lodged and boarded at the public expense. But the honest Jurors, the only portion of the whole assemblage, who without any fault on their part are dragged from the common course of their daily business and life to dance attendance (as we said) at great loss and inconvenience, have hitherto been left unpaid, unrecompensed, unregarded. This has been in such a country as Canada a great injustice too long neglected. We therefore hail the prospect of its speedy removal, a consummation which we trust will not be delayed by political disputes and party wrangling.

We have seen it stated in print, (and at no distant period) that at the Quarter Sessions for a neighboring city and district, among eighteen Grand Jurors there happened to be ten who could not sign their names, and could only affix their mark; it is but just to add (without intending any invidious distinction) that of those ten Grand Jurymen nine were of Franco-Canadian origin. A majority of our Juries in Quebec must for many years usually consist of persons of the same race; and, so far as they can, they will doubtlessly endeavor to perform faithfully the solemn duty to which the laws summons them. But if education is any standard of a man's position in society, and if our Grand Jurymen are sometimes qualified as above, can we suppose for a moment that our Petit Jurors are a class, almost the only class of citizens, who are not to be reimbursed for thier trouble and expenses, or are in any respect likely to afford either the one or other without entailing on themselvs and their families a great loss and inconvenience, which must in some cases appear an intolerable grievance?

There are a few other anomalies connected with the expenditure accompanying the administration of the laws to which we might desire to draw the public attention; but for the present we do not wish to divide or withdraw it from the question which we have thus hastily brought forward. We may, however, hope that the Attorney General or any one else who may have the management of the proposed Bill, will not lose the opportunity of extending reform and amendment wherever it is wanted in the pecuniary arrangements connected with the Criminal Courts and our Law Courts in General.

LEGISLATIVE ASSEMBLY.

WEDNESDAY, Sept. 27.

Mr. Atty.-Genl. Drummond gave notice that on Tuesday next he would move for leave to introduce a bill for the Secularization of the Clergy Reserves.

Mr. Brown introduced a bill to amend the charter and increase the capital stock of the Bank of Montreal.

Mr. Morin desired to have the second reading put off until a remote date, in order to give the government time to consult on the important subject of Banking,

The second reading was fixed for the 26th October.

Mr. Morin introduced a bill for making the Legislative Council elective.

Mr. Pouliot introduced a bill in relation to Agriculture, and another for incorporating the Lower Canada Agricultural Society.

Mr. Prévost introduced a bill to incorporate Masson College at Terrebonne.

Returns relative to the Montreal and Bytown Railway were ordered, on motion of the same member.

Mr. Scatcherd introduced a bill to authorize the county of Middlesex to negociate a loan of £100,000 to consolidate its debt.

Mr. J. H. Cameron introduced bills to increase the capital of the Commercial Bank, and the Bank of Upper Canada. Second readings on the 26th October.

Mr. Brown introduced a bill to abolish the Rectories.

Mr. Mackenzie introduced a Homestead Exemption bill.

Mr. Merritt introduced a bill to incorporate a Road Company from Amhersburg to the intersection of the lines leading to Niagara River.

A Committee was appointed on Clerks' Salaries and Contingencies.

Mr. Felton introduced a bill to incorporate St. Francis College.

Mr. Bureau introduced a Bill to remove doubts in respect to the Montreal and New York Railway Company's Charter.

It was announced by Mr. Chabot that the Saguenay excursion will take place on Wednesday next. And the House adjourned.

ADJOURNMENT OF PARLIAMENT.—To enable the Members to visit the Saguenay, the House will adjourn from Tuesday next till the following Monday.

Mr. Attorney General Drummond left town yesterday for Washington, whither, we understand, he has gone on business connected with the Reciprocity Treaty.

The steamer QUEBEC, which ran aground near Three Rivers, was got off at an early hour yesterday morning, and arrived here about eleven o'clock. She suffered no damage, and left last evening with the mails.

The List of Prizes adjudged at the Provincial Industrial and Agricultural Exhibition, lately held in this city, will be found on the first page.

FATAL ACCIDENT AT GROSSE ISLE.—As the passengers of the barque "Hyndeford," were embarking on board the steamer "Admiral," at Grosse Isle, Wednesday last, the crane on the wharf, which had been broken down some weeks since and was lying partially over the slip, became overbalanced by a crowd of people resting on it; and falling over upon those below, crushed two men so severely that one died the following day, leaving a wife and five children. The deceased was one William Drover, a native of Jedburgh; the other man received a bad fracture of the leg and arm, but is likely to recover. The particulars of the accident were communicated by express to the Coroner who did not consider it a case justifying his proceeding to Grosse Isle to hold an Inquest.

We are indebted to the Secretary of the Provincial Exhibition, Mr. Eckart, for a prompt settlement of our account, and believe it would be well for the Government if such a person could be induced to devote his energies to improve the management of the Bureau of Agriculture with a view of rendering that Department of the public service as useful as it should be.

MILITARY.—Four companies of the 66th Regiment arrived here yesterday forenoon from Montreal in the "Quebec," and immediately embarked in the transports "William" and "Flora" for conveyance to England. The "John Munn" yesterday brought down another detachment of the 54th Regiment from Kingston.

At their last meeting, the City Council passed a Resolution, which is published in another column with the rest of the proceedings, expressive of the opinion entertained of the Troops now leaving for Europe, and of the citizens' gratitude for the valuable services rendered by them on all occasions.

RECIPROCITY OF OPINION.—One of our city contemporaries recently described the Montreal Press as "Immensely Flashy, Sentimental Boshy, and Weathercockian"; the *Herald* of Tuesday thus returns the compliment:—

"Poor, would be, "observ'd of all *Observers!*"

He raves, his words are loose
As heaps of sand, and scatt'ring wild from sense;
So high he's mounted on his airy throne,
That now the wind (query, wine?) has got into his head,
And turns his brains to phrensy.

During the renewal of the Riot in New Orleans, on Friday night of last week, an armed gang paraded the streets, and attacked a coffee-house kept by one Mike Foley, completely demolishing it. Three men were seriously wounded. A Mrs. Adams was also severely wounded by a pistol shot, supposed to have been directed at her husband. An intense excitement existed throughout the city.

The New Orleans papers seriously apprehend a renewal of the riots in that city, and call a almost unanimously for the organization of a volunteer police from among the better class of citizens.

Among numerous other indictments for acts connected with the sale of liquor in New York, the Grand Jury in that City have indicted the Mayor for illegally licensing liquor sellers.

THE ELECTIONS.

No candidate was named in opposition to Sir Allan M'Nab in Hamilton up to Saturday, and the concurrent testimony of the press of that city goes to show, that no opposition will be made to the re-election of the President of the Council. The nomination takes place on Tuesday, Oct. 2; and the polling on the 9th, if a poll is demanded.

At a very numerously attended meeting of the friends of Sir Allan on Thursday last the following resolution was passed:—

Resolved, That this Meeting—entertaining the fullest confidence in their representative, Sir Allan McNab, and in the Ministry of which he is the Premier, pledge themselves, in case of opposition, to use their best exertions to secure the re-election of their Representative.

For North Wentworth, the nomination takes place at Dundas on the 3rd Oct., and the polling on the 10th. It is finally decided to put forth Mr. Macdougal of the "North American," who opposed Mr Christie so bitterly in Brant, as a candidate for the seat. It will be seen by the following resolution that the explanations of the Postmaster General have been accepted by his constituents, and the various attempts at censure negatived.

Resolved,—That this meeting having heard the explanation given by the Hon. R. Spence, in reference to the present position of public affairs—and of his own position in the Cabinet—hereby declare our perfect satisfaction with his conduct, and with the policy of the Ministry of which he is a member."

Hon. Francis Hincks has issued the following address to the Electors of South Oxford.

To the Liberal Electors of the County of Oxford

GENTLEMEN,—You are aware at the last General Election I had the honor of being returned for the County of Renfrew as well as for South Oxford. After mature deliberation, and after consulting with the leading members of the Liberal party with which I have had the honor to act for many years, I conceived it to be my duty to make my election to sit for Renfrew, with the view of securing the return of my colleague, the Hon. Malcolm Cameron, for South Oxford. I had reason to believe from personal communications from my leading supporters, that the Reformers of South Oxford would render this important service to to the Liberal party at a crisis of so great importance when in my humble judgment the great measures we have long been contending for could only be secured by the greatest unanimity in our ranks. I took, therefore, the necessary steps which cannot be possibly retracted.

At this juncture a political crisis has occurred, and I regret to state that Mr. Cameron has come to the decision that he will entirely abandon public life for the present.

Upon these circumstances you are now called upon to select a candidate, and all I can say is that you ought to be, that though not your representative in Parliament, you may rely on my devotion both to the great measures which you elected me to support, as well as to those of a more local character in which you are particularly interested.

The personal friendship which I have formed amongst you will terminate only with my life.

I have the honor to be, gentlemen, your most obedient servant.

F. HINCKS.

The elections for the City of Kingston and county of Frontenac take place to day. There will be no opposition to either the Hon. J. A. McDonald or Mr. Smith.

THE RECIPROCITY TREATY.—The Boston Traveller publishes an extract from a letter from Hon. George Coles, Colonial Secretary of Prince Edward's Island, as follows:—

"The Treaty will, I hope, be in operation this fall, as our Legislature is called to meet on the 26th instant, so as to give effect to it so far as our Island is concerned; and, in the meantime, the Government herehas given orders to all concerned, not to molest the American fishermen, even if they should be found fishing within the three miles prescribed by the former treaty; and I hope the American Government will admit our produce duty free this fall. We have a law now on our Statute book, allowing all articles therein named—the same articles as are named in the Treaty—the growth and production of the United States to be imported into this Island duty free, provided the like articles are admitted into the United States free of duty. Our crops are better this fall than they have been for years; and up to this time the potatoes are free from rot, and I am in hopes will entirely escape."

Provincial Parliament.

(Reported for the Morning Chronicle.)

LEGISLATIVE ASSEMBLY.

TUESDAY, 26th September, 1854.

The Speaker read a letter he had received from the Clerk of the House, informing him that he had appointed Wm. B. Lindsay, Junr. Esquire to act as Deputy Clerk Assistant at the Table, during the indisposition of the Clerk Assistant. Mr. Speaker laid before the House a statement respecting the Jesuit's Estates furnished under the provisions of Act 16, Vic. Cap. 163, after-which the following proceeding took place.

MOTION OF ADJOURNMENT.

Mr. POWELL rose, and said, Mr. Speaker, I beg leave to move, seconded by Mr. Daly, that this House do rise to-morrow to adjourn for the ensuing three weeks. I do it because I have felt, that the members of this House generally, feel a disposition to do so (hear! hear!) or those with whom I have converse I, do at all events, and it must be distinctly understood, that in bringing this subject before the House I have had no collusion with any Member of the government upon it (hear! hear!) I do it as an independent supporter of the Ministry, and seconded by a gentleman who is likewise. I believe that the Members of this House feel, that so far as their private interests are concerned, there should be an adjournment, and any Honorable Gentleman who will take into consideration the much earlier hour at which this House was convened than had been anticipated, will allow, that sufficient time was not afforded to Members to dispose of their private business at home. One of the best evidences of this is, that at the present time at least one third of the Members are absent.

A MEMBER.—One half.

Mr. POWELL.—Yes, that is nearer the mark. Now if a good many of the Members have taken "*French Leave*," I think it desirable that an adjournment should take place until all the Members are here together. In all probability the Government will be allowed to, and I think that it is for the interest of the Country that the Government formed under the peculiar circumstances which it has been, should have a little breathing time for the modification of such measures as they may wish to lay before House.

Mr BROWN.—The adjustment.

Mr. POWELL.—Yes. There are very few members of the Government here present. I think it would be desirable if some Honorable Members of the Government proceed at once to Washington to negotiate with the United States authorities the Reciprocity Measure, for it would be out of question to accomplish anything satisfactory by aid of Telegraphs. If this step were taken it would be attended with good results, and I have delayed to the last moment making this application, in order that Members of the opposition might have an opportunity of consulting with their Constituents.

Honorable Mr. MORIN.—Individually I must of course submit to the will of the House, but I do not see like the honorable member, that an adjournment is necessary. [Hear, hear.] If the government were to ask for an adjournment it would appear as if they were not prepared with their measures, which is not the case, but apart from any considerations of position or feeling, I believe that there is enough to do in the House for a time, as much as there has been hitherto at the commencement of sessions. Opinions are formed at the opening of sessions, and information has to be obtained, which afterwards enables business to go on. There is no lack of business before the House and there has been a much larger attendance in the House up to the present time than in the beginning of any other session that I remember. We have had time to consult upon certain great principles, but not to agree upon details. We must see if we cannot get a vote upon the great measures before the country, without awaiting the return of the members of the government from Upper Canada. There is enough in my opinion to enable us to go on with the dispatch of the general business.

Mr. MERRITT.—I agree with what has just fallen from the honorable member. There never could have been a more inappropriate time to adjourn than the present. If it is necessary for us to adjourn at any time, it ought to be not before the close of the navigation, and adjourn from then until January or February. (No! no!) Well in my judgment there is no necessity for adjournment at all, because it was announced to us by the hon. member opposite that the Clergy Reserves, and these other questions would be submitted immediately, consequently they would come on as soon as we could proceed with the other business, therefore there is no necessity for an adjournment, and I suspect that as there is unanimity in the House, we shall be able to go through the business and go home this fall.

Mr. MARCHILDON said a few words in French.

Mr. MCKENZIE wished to know what the honorable members had done that they wanted to go home? He did not know what the honorable gentleman meant by "French leave," but he (Mr. McKenzie) did not understand it. Let them work. Were they to idle away the time of the country in this way, after the labors of the Imperial Parliament upon the Clergy Reserves, and with so important a bill to be submitted to them like that for making the legislative council elective, and, the seigniorial tenure bill, and other important measures? Proceed with the business.

Mr. CARTIER agreed with the last honorable member. He did not think they ought to adjourn under the present circumstances. He knew how this coalition administration had been brought about, and in his opinion if an adjournment did take place, it would cast an imputation upon the government. He agreed with the honorable Mr. Morin that they could proceed with the business. If they were to adjourn for three weeks it would lengthen the session more than if the House proceeded to discharge the business of the country.

Mr. PAPIN said that as the ministry did not want an adjournment he did not think that there ought to be any. It was desirable that the public business should be proceeded with.

Another honorable member rose and objected to hurrying through the great measures and going home at the close of the navigation.

Mr. DRUMMOND.—I think that an adjournment at the present moment would not be viewed favorably by the country. The Government do not require an adjournment except in so far as must be perfectly understood by every honorable gentleman in this House, that in the absence of our colleagues in Upper Canada we cannot proceed to discuss any of the great government measures. You will remember, Mr. Speaker, that in the year 1848 when the Reform ministry took the place of the Sherwood ministry—(and I believe the ministry withdrew about the tenth or twentieth day of the Session) that the House continued to sit for eight weeks, counting from the first day of the session to the last, and I who was not a member of the government at the time, was obliged to conduct the business in the House.—I consented to do it, but had no idea of the magnitude of it, or I should not have undertaken it, and I shall not forget the kindness of the Opposition at that time, but it was distinctly understood that no measure of the Opposition should be brought up in the absence of the ministry. Now all that we want to ask is that honorable gentlemen will not expect that any of these measures can be passed in the absence of the members in Upper Canada, but we are willing to go on with the general business of the House. I can see no objection to an adjournment for a few days, say to Monday next, but the general opinion is against that, but if we are to adjourn at all, honorable gentlemen say that we should adjourn for three weeks in order to enable members to reach their homes. I think that it would be highly impolitic to assent to an adjournment of that kind, and therefore I think that the best was is to proceed in the even tenor of our way, and I hope that honorable members will not expect us to bring in any of the government measures under the circumstances.

Mr. POWELL.—It was my intention to withdraw this motion. I am induced to do so because I observe that honorable gentlemen speak now in a very different tone to what they did in private conversation, for the argument that the leader of the ministry puts forth shews that he expects the opposition to advance a *clap trap* cry and if that is the impression of the ministry they will not be able to withstand that, so as to retain the confidence of the country. There is not much weight in what the honorable member for Lincoln says, who states that the House is likely to get through its business by the fall. The honorable member for Haldimand did not agree with me, but instead of incumbering the country with objectionable laws and asking for reports, which are never when produced, read, and tendering offerings which are generally burnt offerings [laughter]. I trust that at the end of the Session, I shall be able to present myself before my constituents and receive from them a verdict which I don't think the honorable member for Haldimand will receive from his.

Mr. CAUCHON.—Thought the government were right. An adjournment for a few days would give the honorable member for Carleton an opportunity of amusing himself on the fine promenades around town. He (Mr. C.) thought that that the legislation of the country should be proceeded with.

[Mr. Powell then withdrew his motion.]

The orders of the day were then proceeded with and the House took up the

BILL FOR THE BETTER ADMINISTRATION OF ESTATES OF DECEASED PERSONS.

Honorable Mr. CAMERON in moving the second reading of this bill stated that it was well adapted to Upper Canada, and it was rendered necessary in consequence of the great difficulties which had been felt for many years past in administering to the estates of deceased persons. He then explained the nature of the bill, and after a few suggestions thrown out by Messrs. Smith, (Victoria,) Brown, Smith, (Northumberland,) and Langton, the bill was referred to a select committee.

The orders of the day were then postponed and the House adjourned.

THE GOVERNOR GENERAL.—We stated in our issue of Friday that His Excellency the Governor General would visit Montreal, *en route* to the Agricultural Exhibition, for Upper Canada, and that arrangements had been made to carry the Governor General and Suite over the new line, of road from Quebec *viâ* Richmond to Longueuil. His Excellency left Quebec at 9 A. M. by a train on the new line, and reached the terminus at Longueuil a few minutes after 3 P. M. thus accomplishing the journey exclusive of about an hour's detention for luncheon, in five hours, or with a speed throughout of about 35 miles an hour. We apprehend this will be esteemed very good railway time and that it will effectually satisfy the public mind in reference to the security and speed to be attained on this line. At Longueuil the *Beaver* steamer was in readiness with her steamer convey the party to the Victoria Bridge and His Excellency embarked along with his party to examine the works and lay the foundation stone of of Pier No. 2, which he did in company with the Hon. Mas Murray, one of the Maids of Honor to Her Majesty, who has been for some time on a visit at Government House, and who proceeds to Upper Canada, to visit the Exhibition, and see portions of that fine Province. As the stay of His Excellency was so short, no public demonstration could be offered, and after examining the process of constructing Pier No. 1, and laying the stone of Pier No. 2, which was done amidst deafening cheers from the workmen and those assembled, the company re-embarked and were steamed to St. Lambert, where they took the cars at a little past 5 P. M., and proceeded on their journey westward.

Among the gentlemen who formed the party, we noticed Lord Bury, the Hon. John Ross, President Grand Trunk Railway; Sir C. P Roney, Managing Director; Mr. B. Holmes, V. P. Mr. Oliphant, Private Secretary; Mr. Kimber, Usher of the Black Rod; Mr. John Egan, M. P. P. Mr. A. C. Buchanan, Chief Emigrant Agent, Mr Lemesurier, Mr. Badder, General Manager; Mr. Whitney M. P. P. Mr. Keekie, Agent of Contractors Mr. Martin, Superintendent of the Grand Trunk Railway Company. The Hon. Miss Murray and Lady Roney, all of whom seemed much interested with their visit to the site of the Victoria Bridge. Mr. J. Hodges accompanied his Excellency over the works. The Quebec and Richmond Road, when it is finally arranged, will be opened about the middle of next month for general traffic and his Excellency was so pleased with his trip that he has expressed his wish to return by the same route from Richmond.

The train brought up from Quebec, a supplementary mail for England, by which the people at Quebec were enabled to reply to their correspondence, and make communications up to Monday morning, whereas, under ordinary circumstances, this could not be done until the following Saturday. The arrangement was effected by the managers of Grand Trunk Line, and Mr. Lirocque the Postmaster were equally deserve credit for this piece of thoughtful attention to the interests of the commercial community.—(Montreal Pilot.)

THE NEW GOVERNOR GENERAL.—The Portland State of Maine says that Sir Edmund Walker Head, the new appointed Governor General of British North America, as successor to Lord Elgin, leaves St. John, New Brunswick, by the steamer *Governor*, on the 28th instant, and is expected to arrive at Portland on Friday the 29th, with Lady Head and suite. He will proceed at once to Boston, where rooms have already been engaged for him at the Revere House, at which place he is to meet Hon. J. H. T. Manners Sutton, his successor in the office of Lieut. Governor of New Brunswick.

Sir Edmund will be accompanied by Col. Hayne his aid-de-camp; Ward Chipman Darry, Esq. his private Secretary, and Hon. Messrs. Hazen and Chandler.

After the conclusion of the interview with his successor, in company with Lady Head and suite he will proceed South as far as Washington, where he will remain for some days or weeks. After spending some time in New York he will proceed to Quebec—by the way of Portland—to assume the office of Governor General, towards the end of October.—Lord Elgin on resigning his trust to his successor, will proceed to New York, from which place he is expected to take his departure.

The appointment of Sir Edmund Head to the office of Governor General of British North America, gives very great satisfaction, and is justly regarded with feelings of pride by the good people of New Brunswick, over the government he has presided for the last six years, to the entire satisfaction of all parties. A more popular representative of the Home Government has never filled office this side of the water.

We have no doubt that similar good fortune awaits him in Canada more especially as he is likely to be relieved of any responsibility on the vexatious question of the Clergy Reserves.

Mr. Merritt says, that when in office, he found it impossible to work our present system of Government, and he therefore insists that it is bad. Upon the last point we will not differ with him. But really, if we are to be without a government until one is discovered that he can work, we fear that a Constitution for Canada will be like Mr. Merritt himself, "a Governmental impossibility." Mr. Gamble has, in a recent debate, said something that would be smart if it did not happen to be nonsense, about "making democracy to check democracy;"—on the homeopathic principle, we suppose. Now by the same rule of thumb we are of opinion that the only form of Government which Mr. Merritt could carry on to his own satisfaction must be after the fashion of a Chinese puzzle. We shall then, to imitate Mr. Gamble's aphorism, have a puzzle checking a puzzle.—[Montreal Transcript.]

FATAL ACCIDENT.—On the afternoon of Sunday last, the 24th instant, a young man named Emanuel Vedrigues, son of Mr. E. Vedrigues of Long Point, being on a visit at his uncle's, Mr. Octave St. Hilaire, at Rivere des Prairies, went out shooting along the bank of the river. Stopping to rest himself, he leaned upon the muzzle of his gun, which unfortunately by some accident went off. He received the whole charge in his shoulder, and died in a couple of hours.—[Montreal Gazette.]

TRIAL OF FIRE ENGINES AT THE GREAT PROVINCIAL EXHIBITION.

(To the Editor of the Morning Chronicle)

SIR,—I thought that the most strict impartiality would be observed in the award to be rendered in the conflict, which took place on Thursday, the 14th instant, among the Firemen of the third class; but such, it appears, is not the case, and I hear with much surprise, that the decision is to be quite different from what I expected it to be. Any person present at the trial, who could see and judge, will not hesitate in saying that the *Etoile du Nord* (No. 6,) emitted a more continued column of water, and projected the water to a greater height than the *Mouche-a-feu* (Voltigeurs.) Well, Sir, notwithstanding this, the consequent unfounded right of Company No. 6, to the prize and the confidence and esteem of their fellow citizens was contested on the spot, and even elsewhere. Captain Letartre, seeing that to all appearances, a decision was going to be given in favor of the *Voltigeurs*, offered to have a second trial; which act of justice was refused him. It is more than probable that such an unjust a decision and such a refusal would not have been given, had the judges at first named been present; but these gentlemen being absent at the moment, some one took upon himself to substitute others for the circumstance, without even taking the trouble to ask Captain Letartre, whether he would be satisfied with such persons as judges, or not. I should think this is proceeding rather too expeditiously in such matters, and I learn with pleasure, that, to put an end to all difference, and remove all doubt No. 6 Company is ready to submit to a new trial, whenever their antagonists will choose to enter the list.

You may rest assured, Sir, that I do not entertain either feelings of partiality or hostility for or against any individual, for I consider them all to be brave and intrepid Firemen; but I wish that justice be done, and I doubt not that it will be rendered by the gentlemen appointed as judges, whose first impressions will vanish, if they will only re-consider the matter before they finally decide upon it. A contrary opinion to theirs has already been expressed by hundreds of persons present at the trial. In the meanwhile I beg you will publish the following certificate, signed by several credible persons who were present on the occasion.

AUGUSTIN PARE.

Quebec, 23rd September, 1854.

We, the undersigned, do hereby certify that the *Etoile du Nord* (No. 6) has furnished a more continued column of water, and projected the water to a greater height than the *Mouche-a-Feu* (Voltigeurs), and this in our presence, at the trial of the Fire Engines which took place on Thursday, the 14th instant, at the Great Provincial Exhibition,

Michel Laprise, F. X. Blouin, Joseph Drouin, Antoine Moisan, Narcise Rosa, Bazile Moisan, Miebel Laprise, Narcise Ruel, F. X. Blais, Eugene Drouin, Joseph Bruneau, Louis Larencelle, François Larencelle, Antoine Morin.

(To the Editor of the Morning Chronicle.)

Mr. Editor,—All persons who have visited the Department of Manufactures and Arts at the Industrial Exhibition recently terminated in this city, must have remarked the great number of models of vessels which ornamented the building on the north side of the show yard, the greater part of which models were the work of some of the best builders and carpenters of Quebec. During the last two days of the Exposition, a great number of connoisseurs admired the shape, proportions, and finish of the models, without inquiring whether the parties who made them were French or Canadians. English, Scotch, Irish, or Americans; but only to judge conscientiously and impartially of the merits of the work, without being led away from the bounds of justice by a pitiful consideration of nationality. Among the builders themselves we find one (whom for the honor of the trade, as well as to conceal for the present his ignorance, we abstain from mentioning,) who, through his narrow hearted selfishness and jealousy, cast a contemptuous insult on the models exhibited by his compatriots, by saying that there was not one among the whole collection that he would think worth kicking with his foot, or words to the same effect. Had he made his niggardly remark in our hearing only, we should not have considered him worth taking notice of, and have treated him with silent contempt; but as he said it in presence of over 100 persons, we think it no more than right to endeavour to bring the colour to the cheeks of the Builder in question. If his ears are not yet entirely deaf to modesty, we hope this lesson will not be lost upon——

FOX, & CANADIAN CROW.

Quebec, Sept. 1854.

SPECIAL MEETING OF THE CITY COUNCIL.

Quebec, 22nd Sept., 1854.

Present:—His Worship the Mayor, Messrs. Glackemeyer, Vallée, Robitaille, Burcau, Larose, Sewell-Rheaume, McDonald, Morrin, Joseph, Rousseau, Lee, Connolly, Leaycraft, and Murray.

The minutes of the last meeting were read and passed.

Presented a letter from Mr. John Maginnis, praying that some copies of the map of Eastern and Western Canada be purchased by the Corporation.—Referred to Road Committee.

Presented a certified copy of a judgment rendered by the Superior Court under the Statute 12 Victoria, cap. 41, on the 5th instant, in the case of Angus McDonald, against William Quinn, adjudging that Joseph William Leaycraft, has been duly elected a City Councillor for St. Peter's Ward, on the 8th February 1853, and that the said William Quinn has unlawfully held the said office.

Whereupon His Worship the Mayor having informed the Council that Mr. Leaycraft had taken the oath of allegiance and the oath of office as city Councillor, Mr. Leaycraft took his seat.

Presented a petition from the Reverend Ladies of the General Hospital, praying for the alteration and opening of certain streets and offering the ground, in St. Roche's Ward.—Referred to Road Committee.

Presented a petition from Joseph Bally, praying that the depot and drain of the Water Works in St. Vallier street be repaired.—Referred to Water Works Committee.

Presented a letter with an inclosure claiming compensation for damage done to to the Gas Works, &c.—Referred to Road Committee.

Presented a letter from the Honorable W. Walker, Chairman of the Gas Works Company, on the subject of the damage done to the pipes of the Gas Works by the men engaged at the Water Works.—Referred to Water Works Committee.

Presented a letter from Matheas Dubé, praying to be allowed to erect a house on the old line of Champlain street.—Referred to Road Committe.

Presented three protests at the request of William Brown, Ebenezer Baird, and Pprncois Lapierre, against the Corporation,—Referred to Water Works Committee.

Presented a petition from the officers of the Corporation praying for an increase of salary,—Referred to Finance Committee.

Presented a petition from John Harvey, praying that the subject of difficulty between him and the Corporation be left to arbitration.

Ordered—That this petition be taken into consideration with the 42d Report of the Water Works Committee.

Presented the 42nd and 43rd Report of the Water Works Committee.

Ordered,—That the said 43rd Report of the Water Works Committee be referred to the By-Law Committee with instructions to report as soon as convenient.

Presented 285th, 286th, and 287th Reports of the Road Committee.

Mr. Rheaume, seconded by Mr. Vallée, moved, and it was

Resolved.—That the Finance Committee be requested to take into consideration whether it is expedient under the present circumstances to form a company of one hundred men to protect and take care of the moveable effects of the citizens at any fire in this city, the said company to be a volunteer company, under the name of the "Protection Company."

Mr. Glackemeyer, seconded by Mr. Sewell, moved and it was unanimously

Resolved.—That, on the occasion of the departure from this city, of the larger portion of its garrison, the Town Council consider they would be wanting in their duty, if they failed to express the high sense which, in common with their fellow-citizens, they entertain for the uniform good and orderly conduct of the corps now about leaving for active service at the Seat of War, and that this Council will themselves of this opportunity to express their gratitude to the officers, non-commissioned officers, and privates of those corps, for the many and valuable services rendered by them on all occasions without unnecessarily, to the citizens generally with the assurance that they carry with them the most ardent wishes of the inhabitants of Quebec, for their future welfare, and that, in conjunction with the brave armies now fighting the battles of civilization in the East, Divine Providence may spare them for a glorious and victorious career; and that His Worship the Mayor be requested to transmit a copy of this resolution to the Commanding Officer of the garrison at Quebec.

Mr. Joseph, seconded by Mr. Hall, moved and it was

Resolved.—That the draft of an Act amending the Act incorporating the city of Quebec, as last adopted in this Council be placed in charge of His Worship the Mayor, with instructions to present the same to the Legislature.

Dr. Rousseau, seconded by Mr. Hall, moved,

That the necessary grates be placed immediately by the Water Work Committee, in all the streets where the pipes have been laid down, and that the works in the said streets be completed.—Referred to Water Works Committee.

Mr. Rousseau, seconded by Mr. Rheaume, moved,

That henceforth the opening of any street be refused by the Water Works Committee, for the placing of the water and drain pipes, unless all the materials required for the completion of the work be on the spot.

Which motion was put to the vote & rejected on division of 2 against 11, to wit:

For: Messrs. Rousseau, and Rheaume, 2.

Against: Messrs. Lee, Sewell, Hall, Joseph, Bureau, Morrin, Robitaille, Glackemeyer, Connolly Vallée, and McDonald, 11.

Mr. Lee, seconded by Mr. Hall, moved and it was

Resolved.—That the Police Committee be instructed to enquire into the conduct of the Sergeant and Police men on duty at the Exhibition ground on Saturday evening last, the night on which one Flanagan was killed.

Adjourned.

BY TELEGRAPH.

Via British American Line.

(Office opposite Montreal Bank—up-stairs.)

MONTREAL, 27th Sept. 1854.

FIRE!—Last night about half-past eleven o'clock, a fire broke out in the premises opposite the Hotel-Dieu, St. Paul Street, occupied by Mr. R. M. Scholes, and quickly spread to the Leather Store of Messrs. Galibert & Frere. Both these houses were pretty well damaged, but the fire was prevented from spreading further by the Protector and Union Fire Companies.

COMMERCIAL.

MONTREAL MARKETS.

MONTREAL, 23d Sept., 1854.

REMARKS.

Flour—The receipts from Upper Canada still continue light, but the demand being of the most retail nature, prices have receded about 1s 6d per barrel during the week; we now quote Superfine at 41s; Fancy and Extra at 41s @ 42s, the tendency of the market being downwards.—For October delivery, sales have been made, but not to a large extent, at 39s for all the month and 36s for the first fifteen days.

Wheat—Small sales at 7s 10½d @ 8s 1½d per 60 lbs, for ordinary Upper Canada Mixed; no good parcels in market.

Indian Corn—Retail sales at 4s 6d per minot; for future delivery it is offered at 4s 3d.

Peas—Receipts as yet very limited and the transactions are trifling at 5s 6d @ 5s 9d per minot.

Provisions—Beef and Pork inactive as about the cease of last week.

Ashes—Have declined slightly during the week, but are to day active at 33s @ 33s 6d for Pots, and 32s 9d @ 33s for Pearls.

Freights—With the exception of a few engagements for Ashes, there has not been anything doing in the way of shipments to Europe.

Stocks—Bank of Montreal—Is

INFORMATION WANTED,

OF TWO HOGSHEADS HOLLOWARE, marked, E. M., (number cannot precisely state)
Quebec,
Landed from on board the Bark "ATHOLE," FRASER, master, from Liverpool, in July last, which are supposed to have been received and kept through mistake by parties importing similar goods: such parties would very much oblige the undersigned, by examining their Warehouses, as it is his firm belief that said Hogsheads have been received and opened by some party, and through the neglect of a storeman or others have escaped detection.
E. MICHON.

CHOLERA.

THE OXYGENATED BITTERS THE BEST PROTECTION

Against the attacks of Cholera and other diseases of the Bowels that has yet been discovered.

THIS Medicine is offered with entire confidence founded on the most reliable testimony of *those who have used* it in places where the Cholera has prevailed to the most fatal extent, as a really efficient PREVENTIVE against its attacks as well as of those other diseases of the Bowels so prevalent at this season of the year.

By using the Bitters the whole SYSTEM is invigorated and their remarkable, and, as is acknowledged by all, unsurpassed, Tonic PROPERTIES, restore to the digestive organs, if they have become enfeebled, a healthful energy and keep them in admirable condition, enabling them to perform their work with efficiency and ease, and imparting to them such STRENGTH and TONE that they are able to resist the unfavorable influences of the season, which unless contracted speedily lead to diseases of the most alarming character, and effectually prepare the way for those sudden attacks of Cholera, Dysentery &c., which take so many to a premature grave.

For Sale by Druggists generally throughout the Canadas.

INSURANCE.

BRITANNIA LIFE

ASSURANCE COMPANY,

1 PRINCES' STREET, BANK, LONDON.

ESTABLISHED AUG. 1, 1837.

Empowered by Special Act of Parliament, 4 Vict. Cap. 9.

COL. ROBERT ALEXANDER, Blackheath Park, *Chairman.*

ADVANTAGES OF THIS INSTITUTION.

INCREASING RATES OF PREMIUM.

A TABLE especially adapted to the securing of Loans or Debts, and to all other cases where a Policy may be required for a temporary purpose only, but which may be kept up, if necessary, throughout the whole term of Life.

HALF-CREDIT RATES OF PREMIUM.

Credit given for half the amount of the *First Seven Annual Premiums* the amount of the unpaid Half-Premiums being deducted from the sum assured when the Policy becomes a claim.

SUM ASSURED PAYABLE DURING LIFE.

The amount payable at the death of the Assured, if he die before attaining the age of SIXTY, but *to the assured himself, if he attain that age*, thus combining a provision for old age with an assurance upon life.

ORPHAN'S ENDOWMENT BRANCH.

Established for the purpose of affording to parents and others the means of having Children educated and started in Life, by securing annuities, to commence at the Parents' death, and to be paid until a child, if a son, shall attain his 21st year, or, if a daughter, her 25th year of Age

BRITANNIA MUTUAL LIFE ASSOCIATION

1, PRINCES STREET, BANK, LONDON.

Empowered by her Majesty's Royal Letters Patent.

Annual Division of Profits—applied in reduction of the current year's Premium.

Policy-holders entitled to participate in the profits after payment of Five or Seven Annual Premiums according to the table of Rates selected.

Premiums charged for *every three months'* difference of age—not, as is usually the case, for every whole year only.

Half Credit Policies granted on terms unusually favourable to the assured, the amount of half premiums for which credit is given, being liquidated out of the profits.

At the Annual General Meeting on the 27th April last, a reduction of 30 per cent was made in the present year's premium on all Policies of Five or seven years standing.

A Board of Directors in attendance daily at 2 o'clock.

Age of the Assured in every case admitted in the Policy.

Medical Attendants remunerated in all cases for their reports.

(PROPRIETARY.)

Manager.

ALEXANDER DAVIDSON PARKER.

THE COLONIAL LIFE ASSURANCE COMPANY has been established for the purpose of affording to the Colonies of Great Britain the advantages of Life Assurance, and its regulations have been so framed, as to attain that object in the most efficient manner under the most liberal covenants. The progress of the business has been attended with complete success, and the Company has obtained the entire confidence of those whose patronage it was its object to seek.

From the wide basis of its constitution, and the extent of its resources, the Company affords advantages which no mere institution can confer; and it has good ground for asking public preference and support over other British Offices doing business in the Colonies, not only with reference to the facilities which it affords, by receiving premiums and paying claims in any British Colony where its Policy Holders may reside, but on the ground that, in seeking business out of Great Britain, it does so not as an after thought, its Colonial arrangements not being mere extensions of or additions to a home business, but as part of its original scheme and intention.

The Profits of the Company for the period from 1846 to 1854 fall to be divided as at 25th May 1854, and parties who Assure during the present year will participate.

Every information as to the Company, and its terms and conditions for Assurance, can be had on application to

ALEXANDER DAVIDSON PARKER,
Manager for Canada.
Or to A. J. MAXHAM,
Agent for Quebec.

THIS OFFICE insures against Loss or Damage by Fire, all Descriptions of Buildings, including Mills and Manufactories, and the Goods, Wares and Merchandize in them ane; Ships in Harbour or in Dock; Craft on Navigable Rivers and Canals, and the Goods laden in the same; and Farming Stock of all description.

The "Equitable" Fire Office will, by a constant analysis of its own experience from time to time, adopt such rates of Premiums as the nature of the risk may justify.

With this view, an annual investigation will be made into each class of risk, and a return of one moiety—or fifty per cent.—of the nett excess will be made to all classes of Insurers, whose Policies have been in force for three years.

The engagements of the "*Equitable*" are guaranteed by a responsible proprietary, and an ample subscribed Capital. The insured are free from the liabilities of a *Mutual Insurance Society*, and entitled, according to the plan of the Company, to a return of half the profits.

Losses are made good without deduction or discount, and are adjusted and paid in Montreal, without reference to London.

BY A RESOLUTION OF THE COURT IN LONDON, THE PREMIUMS ARE RETAINED IN MONTREAL TO PAY LOSSES AND ACCUMULATE A REND OF £10,000.

THE LOCAL DIRECTORS MEET WEEKLY. Agents have been appointed throughout Canada.

WHAT DO THE SICK REQUIRE?

TO THOSE WHO THINK.—*If sick if suffering* the tortures of pain, or afflicted with long illness, the invalid's constant hope and most fervent desire is to be relieved and cured of the distressing ailment, that renders his existence so miserable, is the quickest possible time. On this principle the R. R. R. REMEDIES are founded. Instant Relief from Pain, Quick Cure of Diseases, Speedy Restoration to Health, is the great platform on which the R. R. R. Theory is predicated.

The R. R. R. REMEDIES are worthy of the age. They instantly relieve the bed-ridden from the most excruciating pains, and quickly free the afflicted from the most obstinate and serious maladies, infusing new life and vigor in the shattered and bruised body, and renew each member and organ of the human system with strength and power.

The R. R. R. Remedies consist of Radway's Ready Relief, Radway's Renovating Resolvent, and Radway's Regulators.

Radway's Ready Relief is for the instant relief of the sufferer from pain, and to check and arrest the progress of diseases; to disinfect animal, malerious, and infectious poisons, thus protecting whoever uses it against all poisonous infection from Contagion, and from sudden attacks of Cholera, Pneumonia, Ship Fever, Fever and Ague &c., Likewise for the effectual and radical removal of all pains and diseases of the Joints, Limbs, Nerves, &c.

Its first action is to remove the pain, thence its usefulness in Neuralgic cases ;) its second, to repair and heal, as in the case of a cut, or wound. If the Relief be applied after the first little smarting is over the pain is extinguished, and the work of reparation now commences. But if the Relief is not applied, there are many chances to one that the pain will continue and an inflammation be set up, and instead of a simple incised wound we have *inflammation*—disease to contend with. Besides its direct power over pain, the, Ready Relief is the most effectual and convenient "counter irritant" that is known to the medical world.

If there be a congestion or heaping up of the blood in any particular part, occasioning pain and threatening inflammation or disease, as Sore Throat, Lumbago, or pains in the loins, Pleuratic congestion, &c., the Relief will be found the most invaluable curative. By applying it over the adjacent parts, the blood is drawn away from the affected parts, the congestion dissipated and the pain removed at once. Let any who may doubt this but make the trial. Now, these two properties, its power over pain and its "counter irritant" render it the most valuable remedy for Diarrhœa; and although not an astringent in the popular meaning of the term, yet it stops the pain and arrests the discharge of the most frightful Diarrhœa or Cholera in a short time.

DISINFECTANT.

Radway's Ready Relief, the most safe and powerful disinfectant in the world—as such, it is a most effectual cure and positive preventative o

FEVER AND AGUE.

So with other fevers and all malarious diseases. Ten or twenty drops, taken internally, in a little water will protect the system against any attacks from infectious and malarious poisons.

PNEUMONIA,

whether Typhoid or Pilious, Radway's Ready Relief, given internally and applied over the surface of the body, and the bowles regulated and kept upluble with Radway's Regulator, the patient will soon be out of danger, and speedily restored to health. If the R. R. R. Remedies are given, they will save the life of the patient.

RADWAY'S RENOVATING RESOLVENT

is the second of the R. R. R. Remedies. It is for the cure of old Chronic Diseases that have been lingering in the system for years.

HIGHLY IMPORTANT TO ALL AFFLICTED WITH CHRONIC DISEASES.

For the present, then, let us pass to the consideration of the Resolvent, the second of the three R. R. R. Medicines.

Radway's Renovating Resolvent is for the cure of Chronic Disease, of inflammation that is kept alight on fire by some sustaining cause; for the Chemists tell us that inflammation is a slow concealed combustion. And these cause is a deposit resulting from the inflammation whilst it is in an active or acute condition, for all disease is at one time acute before it becomes chronic. If a person has Chronic Rheumatism, it is the result of a deposit in the fibrous tissue surrounding joints; if a person is Scrofulous, these deposits often show themselves in small lumps under the chin and along the neck; if he have a Consumption or Chronic Cough, there is tuberculous matter deposited in the lungs; if Bronchitis, it takes place in the Bronchial tubes; if Syphitis, it occurs in every tissue and organ in the whole system, for that disease spares nothing. Now to cure these diseases, these chronic inflammations, (for it is this in every case,) it is manifest that the diseased deposits must be first removed, the sustaining cause be taken away, and that the impure blood be altered in its condition and rendered pure and healthy.

It becomes necessary, then, that the absorbents be active and the blood be purified. We therefore want a medicine that will act on the absorbents and stimulate them into action, and at the same time purify the blood. Medicines that depend merely on purifying the blood alone will scarcely ever cure chronic disease; to ensure success they must at first have the power to stimulate the absorbents, and remove the diseased deposits. The action of the RESOLVENT is directed first to the absorbents, stimulating them into action; and second to the blood which it deputates by its action over the glands, the liver, bancras, kidneys, &c., which are the sewers that nature has established for purifying the blood. You will, after this description, we hope, appreciate the name we have given to the second of the R. R. R. REMEDIES OF RENOVATING RESOLVENT. It resolves away diseased deposits; it purifies the blood and it renovates the system. Tumors are removed and discussed by its operation; Chronic Swellings are dissipated; Nodes are softened and melted away. The most loathsome Skin diseases disappear under its action; Scrofulous constitutions tacked the system. Syphitis, with all its horrible train of concomitants, here finds a certain and infallible cure; and Consumption, too, oftimes finds its master—Consumption that prevalent and lamentable disease of the lungs, that is so well known to you all, from its fatal and almost helpless character, and the havoc it produces among the young, the most gifted and the most beautiful of the human race, creeping over our vitals with an insidious, yet awful certainty, and consigning to an early and premature grave its yearly hecatombs of victims. Tubercular Consumption is often regarded as a specific disease of the lung, alone. This is a mistake: it is but one of the forms of Scrofula—it is a Scrofulous deposit an inflammation of the lung structure and could be as readily cured as any other Scrofulous disease—such as Rickets, Hip Complain or White Swelling—if it was not for the peculiar structure and action of the lungs in which it takes places.

The lungs expand and contract during every respiration: and from the moment the first breath of life is drawn, until the last guttural sigh passes from the dying invalid, a never ceasing action is kept up on their part. It will readily be conceived then, how difficult it must be for an Ulcer of the lungs to heal, where it is continually kept irritated by the act of breating.

Understand, then, we do not offer you the RESOLVENT as so certain a cure for Consumption or Scrofula of lungs, as it is for other Chronic diseases. We believe that it will cure Scrofula in any other part of the body, but from the very nature of the case this complaint—except in its first stages—is oftimes incurable; but we can recommend it as the most certain remedy (when taken as directed in our pamphlets) that we possess to arrest its progress, and can point to a large number of cases of Lung Diseases that it has cured.

Such then, is the RENOVATING RESOLVENT. What the Relief is to Acute disease the RESOLVENT is to Chronic; it resolve away the foreign and diseased deposit; it purifies the blood and it renovates the system.

NO. 3.

We now request the reader's attention to the third of the R. R. R. REMEDIES.

RADWAY'S REGULATORS,

Every pill taker should examine the theory on which the REGULATORS are founded. Every one "who takes pills" will find RADWAY'S REGULATORS the most pleasant and safe Regulators of the Liver, Bowels, Kidneys, and other organs of the system in use.

We have hitherto been treating of disease or inflammation in its acute or chronic state, and its remedies; the RELIEF on one hand and the RESOLVENT on the other. We now pass to the consideration of that state of the system immediately preceding disease or inflammation, viz: IRRITATION. To allay irritation of the nervous system, and remove its effects wherever it exists, and to aid the RELIEF or RESOLVENT to treatment of inflammation, are the chief purposes of the REGULATORS.

R. R. R. REMEDIES are suited to the treatment and, unaided will cure most of "the ills that flesh is heir to." The sanguinary practice of the lancet, the cupping glass, and leeches, they entirely dispense with, and banish forever the pernicious use of that baneful drug, calomel.

If you be sick, we advise you to resort at once to the R. R. R. REMEDIES, as the most prompt in their action, the most safe and effectual of remedies

Instances of diseases prevented, of rapid cures, and almost miraculous recoveries, we can furnish you the certificates and credentials without number.

But these may be obtained without merit as well as wit it, and, without knowing the circumstances, prove nothing to your mind.

The R. R. R. REMEDIES are for sale by druggists every where. Persons desirous of learning more of our REMEDIES, are referred to our FAMILY FRIEND, a monthly paper. A copy, will be sent free of charge, to all who will send in their names and address.

RADWAY & CO.
162 Fulton street (up stairs) N. Y.

Quebec 24th June, 1853 12m

CLARENDON,

NEW YORK.

THIS ELEGANT HOTEL, which is situated on Fourth Avenue and Eighteenth Streets, in the upper and most fashionable part of the City, has been again enlarged during the past year, and is now one of the largest of the magnificent Hotels which have recently been erected in New York. The accommodations are of the latest and most approved character, without regard to expense. There are over Fifty Suites of Apartments, having Baths and other water conveniences attached to each, which makes it perfectly luxurious to the Traveller.

This Hotel has been the residence of the Earl of Ellesmere, Sir Charles Lyell, and all the British and Canadian Commissioners to the Great Exhibition of All Nations in 1853, and of many other distinguished Europeans, and is kept in a manner best calculated to please the English Traveller.

The Directors of the Exhibition of All Nations have decided to continue the same for the year 1854, and the location is nearer to the Clarendon than any other of the first class Hotels. It is situated near the Depots of the Railroads going North and East, and the Coaches connected with the House convey Passengers to and from all the principal Depots and Steamboats.

The whole Establishment, which has been furnished at an outlay of more than one hundred thousand dollars, will be kept in a manner that, the Proprietor hopes, will meet the views and ensure the patronage of the English and Canadian Traveller.

O. C. PUTNAM,
Proprietor.

FOR ALL WOUNDS ON

HORSES AND CATTLE.

SUCH as Bruises, Cuts, Galls, Corks, Sore Back, Sprains, Scratches, &c., and wounds of every description, removing all soreness and stiffness in from one to five days.

This celebrated remedy was prepared by order of King William IV. of Great Britain, under the direction of Mr. Youatt, the celebrated English Farrier, and used by him in the Royal Stud of horses only.

Full directions accompanying each bottle.

DR. MARSHALL'S

ARROMATIC, CATARRH AND HEAD-ACHE

SNUFF.

THIS SNUFF is superior to anything yet known, for removing the Catarrh; and also a cold in the head, and the headach; by opening and purging out all obstructions, strengthening the glands and giving healthy action to the parts affected. It should be kept in the phial well corked.

I remain, Dear Sir, yours truly,
(Signed) J. GAMIS.

Nov. 23rd, 1852.

AN ASTONISHING CURE OF CHRONIC RHEUMATISM, AFTER BEING DISCHARGED FROM THE HOSPITAL INCURABLE.

Copy of a Letter from Mr. W. Moon, of the Square, Winchester.

To PROFESSOR HOLLOWAY,

Sir,—I beg to inform you that for years I was a sufferer from Chronic Rheumatism, and was often laid up for weeks together by its severe and painful attacks. I tried every thing that was recommended, and was attended by one of the most eminent Surgeons in this town; but obtained no relief whatever, and fearing that my health would be entirely broken up, I was induced to go into our County Hospital, where I had the best medical treatment the Institution afforded, all of which proved of no avail, and I came out no better than I went in. I was then advised to try your Pills, and by persevering with them was perfectly cured, and enabled to resume my occupation, and although a considerable period has elansed, I have felt no return whatever of the complaint.

I am, Sir, your obliged Servant,
(Signed) W. MOON.

Oct. 8th, 1852.

AN EXTRAORDINARY CURE OF DROPSY, AFTER SUFFERING FOR EIGHTEEN MONTHS.

Copy of a Letter from Mr. G. Briggs, Chemist, Goole, dated Feby. 15th, 1853.

To PROFESSOR HOLLOWAY,

Sir,—I have much pleasure in informing you of a most surprising cure of Dropsy, recently effected by your valuable medicines. CAPTAIN JACKSON, of this place, was afflicted with Dropsy for upwards of eighteen months, to such an extent that it caused his body and limbs to be much swollen, and water oozed as it were from his, skin, so that a daily change of apparel became necessary, notwithstanding the various remedies tried, and the different medical men consulted, all was of no avail, until he commenced using your Pills, by which, and a strict attention to the printed directions, he was effectually cured, and his health perfectly re-established. If you deem this worthy of publicity, you are at liberty to use it.

I am, Sir,
your's respectfully,
(Signed) G. BRIGGS.

These celebrated Pills are wonderfully efficacious in the following complaints.

Ague,	Dropsy,
Asthma,	Dysentery,
Bilious Complaints,	Erysipelas,
Blotches on the Skin,	Female Irregularities,
Bowel complaints,	Fever of all kinds,
Colics,	Ulcers,
Constipation of the Bowels,	Fits,
Consumption,	Gout,
Debility,	Head-ache,
Inflammation,	Indigestion,
Jaundice,	Sore Throats,
Liver complaints,	Stone and Gravel,
Piles,	Secondary Symptoms,
Lumbago,	Tic Douloreux
Rheumatism.	Tumours,
Retention of Urine,	Venereal Affections,
Scrofula, or King's Evil,	Worms of all kinds,
	Weakness from whatever cause, &c.

Sold at the Establishment of Professor HOLLOWAY, 244, Strand, (near Temple Bar) London and by all respectable Druggists, and Dealers in Medicines throughout the civilized World, at the following prices—1s. 1½d., 2s. 9d., 4s. 6d., 11s., 22s. and 33s. each Box.

☞ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of Patients in every Disorder are affixed to each Box.

JOHN ANDERSON, GEO. RAILTON,
No. 6, ANNE STREET,
Quebec 29th July 1852.

Peirs' Rock Oil, or Petroleum.

A NATURAL REMEDY, procured from a Well in Alleghany County, Pa., four hundred feet below the Earth's Surface!

The PETROLEUM is a natural Remedy—it is put up as it flows from the bosom of the earth, without any thing being added to or taken from it.

It gets its ingredients from the beds of substances which it passes over in its secret channel. They are blended together in such a form as to defy all human competition. The Petroleum in this respect is like MINERAL WATERS, whose virtues in most chronic diseases, are acknowleged, not only by Physicians, but by the community at large.

Rheumatism, Neuralgia, White Swelling, Sore Eyes, Deafness, Burns, Scalds and Piles, are all cured by this Natural Remedy.

It is also a sure cure for Chilblains on the feet, and Scratches on Horses.

Full directions accompany each bottle. PRICE 2s. 6d.

For sale by the principal Druggists in this city.

PUNDERSON'S

CONDITION POWDERS,

For Horses and Horned Cattle.

The change of weather and season with the change of use and feed, have a very great effect upon the blood and sinuous fluids of horses. It is at these changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Heaves, Worms, Botts, &c. All of which will be prevented by giving one of these powders once a year, either Spring or Fall, and will at any time, cure when any symptoms of disease appears if used in time. They purify the blood, remove all inflammation and fever, loosen the skin, cleanse the water, and invigorate the whole body, enabling them to do more work with the same feed.

One or two Powders will perfectly cure a recent Founder in 6 or 8 days without leaving the least effect in the feet, if no blood is let, and nothing else done, only to give the powder as directed. Bleeding changes the inflammation from acute to chronic, and settles in the feet. In Horse-Distemper they allay the fever and promote a healthy termination of the disease.

One Powder will in all cases cure the Horn-Distemper in a cow, without boring the horns or doing anything more than to give the Powder as directed for a horse. An ox will sometimes require a double dose, or 2 Powders. Every cow should have one Powder given her after calving, it carries off all fever, and humors, cleans her well and makes her milk good and abundant through the season. Their effect is the same on all Herbiverous animals.

Beware of all preparations called CONDITION POWDERS.

PUNDERSONS' is the only genuine., possessing an acting principle not found in the imitations.
