Jap Amendment

Three Statesmen Entrusted With Task of Finding Solution of Difficulty Brought About by Presentation by Japanese of Amendment to Protocol on Arbitration and Security Reached Complete Accord, and Agreement Reached Is Satisfactory to Japanese—Broad Basis of Solution Arrived at Is that Council of League Always Will Have Right to Examine All Conflicts Arising Between Nations, With View to Pacific Settlement of Such Conflicts.

(Associated Press Despatch.)

GENEVA, September 30.—A complete accord was reached this morning by the three statesmen entrusted with the task of finding a solution of the difficulty brought about by the presentation by the Japanese of an amendment to the protocol on arbitration and security, and the agreement reached is satisfactory to the Japanese.

This was divulged by M. Loucheur, the French member of the committee, just before noon.

The committee was composed, in addition to M. Loucheur, of Sir Cecil Hurst, of Great Britain, and Signor Scialoja, of Italy, with M. Adachi present.

FINAL DISCUSSION OF ACCORD THIS AFTERNOON

Signor Scialoja told the correspondents after this morning's meeting that the accord that had been reached would be presented to the sub-committee of the juridical commission at three p.m. A full meeting of the arbitration commission has been convoked for 3.45 for final discussion of the accord.

The broad basis of the solution arrived at, Dr. Benes, of Czechoslovakia, informed the Associated Press, is that the Council of the League of Nations always will have the right to examine all conflicts arising between nations, with a view to the pacific settlement of such conflicts. He said that the Japanese had formally accepted the compromise formula, and that they had agreed to withdraw their amendment to the aggressor clause, which makes an aggressor of any state refusing to abide by a decision of the World Court, that the matter involved is one of internal jurisdiction.

ATTITUDE OF BRITISH DOMINIONS NOT MADE CLEAR

League officials explain that the controlling idea behind today's committee agreement concerns the right to appeal to the Council. When the Council or World Court declares that a dispute involves a matter within the domestic jurisdiction of one party to the dispute, the other interested state will have the right to appeal to the Council, not for a decision, but for amicable intervention looking toward a solution. If this channel of mediation is not sought, then the party against whom the World Court ruled in declaring the issue a domestic one, will continue to be an aggressor. Any member of the Council, however, may bring up the question.

The attitude of the British Dominions to the compromise agreement worked out today was not made clear.

WOULD HAVE BEEN FORCED
TO VOTE AGAINST THE
JAPANESE AMENDMENT

(Associated Press Despatch.)

GENEVA, September 30.—Despite the pronounced swing in the direction of sympathy for the Japanese position, the League of Nations leaders concentrated all their energy to avoid a vote on the Japanese amendment to the protocol on arbitration and security—an amendment which brought considerable anxiety to the statesmen taking part in the peace discussion when it was presented by M. Adachi on Sunday.

Many of the delegates, while seeing the justice of the Japanese claim, pointed out they would have been obliged to vote against Japan if it came to a direct issue, because they believed that the Japanese amendment in effect constituted a serious blow to the idea of state sovereignty which, they say, has ruled the world for ages and is the very foundation of international order.

Hence compromise measures were sought in an effort to satisfy the Japanese far enough to induce them to withdraw their amendment.

The Japanese emphasized anew yesterday their objection to the covenant as permitting an escape from an international investigation under pretext that the matter involved is exclusively within the national competency of a state. This is true, the Japanese declared, even if the question involved strikes a blow at the national honor and vital interests of the other country. They pointed out that the protocol was objectionable because, after refusing the possibility of pacific procedure to a state whose case has been thrown out of court, it goes to the extent of proclaiming this state an aggressor should it resort to measures to defend its legitimate interests. This, they claimed, would protect a country which rejects the supremacy of international justice while simultaneously condemning a nation which merely asks for impartial application of justice.

Negotiations Have Gone Far
Enough to Create an Optimistic
Spirit Among Representatives.

(Associated Press Despatch.)

LONDON, Sept. 30.—The preliminary negotiations between Dr. Hjalmar Schacht, president of the Reichsbank, and the British, United States and continental bankers over the issue of the £40,000,000 loan to Germany under the Dawes plan have gone far enough to create an optimistic spirit in Lombard St., where the press were told yesterday that good progress was being made.

WOMAN SHOT DOWN
HUSBAND

(Associated Press Despatch.)

MIAMI, Fla., Sept. 30.—While post office corner crowds looked on, Mrs. Hattie Freckleton, thirty-five years old, shot and killed her husband, J. C. Freckleton, yesterday. The pair were to have met in an attorney's office nearby at the time to arrange for a divorce.

"When he approached I smiled at him," the woman told the police. "He said 'go to hell' and I shot him."

THE WEATHER

HEADWAY MADE
REGARDING THE
MOSUL PROBLEM

Britain and Turkey Agree to
Appointment of Special Com-
mittee to Study Question.

(Associated Press Despatch.)
GENEVA, Sept. 30.—Notable progress towards the settlement of the Mosul controversy was made in the council of the League of Nations today, when the representatives of both Turkey and Great Britain agreed to accept the appointment of a special committee of three persons who will collect all the available information on the Mosul question and will submit to the council at a later date their suggestions as to the best means of solving the problem.

Conciliatory speeches were made by Lord Parmoor, of Great Britain, and Ali Fethi Bey, of Turkey, both of whom agreed to accept any decision concerning the frontier between Iraq and Turkey which the council might pronounce.

Today's developments before the council were regarded as increasing the possibility that Turkey would apply for membership in the League of Nations in the not far distant future.

Concerning the recent reported skirmishes on the Iraq frontier between Turkish and Iraqi troops, the council urged that both the Turkish and British Governments restore and maintain peace on both sides of the status quo frontier pending a definite settlement of this controversy.

HEAVY COUNTER

Suffered Heavy Losses in the
Fighting.

(Associated Press Despatch.)

SHANGHAI, Sept. 30.—Heavy counter-attacks made by the invading Kiangsu forces throughout last night in the Malo and Kiating sectors west of Shanghai have all been repulsed, according to the military headquarters of the defending Chekiang armies at Lungwha.

The Chekiang forces, said the Lungwha announcement today, were holding the new ground they gained, but were making no attempt this morning to effect further advances into the territory held by the invaders.

Upward of five hundred wounded Chekiang soldiers were brought into Shanghai today and the reported losses on the Kiangsu side were even greater.

British Labor Minister to Establish
Courts of Enquiry into All
Cases Where Disputes Are
Likely to Inconvenience Public.

(Associated Press Despatch.)

LONDON, Sept. 30.—Signs are accumulating that all parties in the industrial world are realizing the absolute necessity of discovering some permanent method of settling wage disputes without resort to strikes if British trade is not to suffer almost complete submersion. Tom Shaw, Minister of Labor, in the foreword to a Labor pamphlet published yesterday, announces his determination to establish courts of enquiry into all cases where disputes are likely to inconvenience the public. Mr. Shaw ascribes the many strikes to the unduly prolonged nature of negotiations intended to avert stoppage of work, but which has rendered workmen distrustful and resentful.

Bye Law Calling For Another Big Bond
Issue Adopted By City Council— Voting
Will Take Place On October Twentieth

City Council to Ask Permission of Ratepayers to Borrow
\$600,000—Money to Be Expended for Improvements
in Police and Fire Departments, Gas and Electric Department, and for Sewers and Underground Work—Would
Keep Large Number of Men from Losing Employment
—Five By-Laws Authorizing Loan to Be Submitted to
Ratepayers on October 20—Valuation Protests Came
Up—Committee Appointed to Meet Sherbrooke Rail-
way and Power Company—Workmen's Dwellings Also
Discussed.

FIVE bye-laws, in all calling for a bond issue of six hundred thousand dollars, were given second and final reading during the course of the Council session held last evening, and will be presented to the ratepayers on October 20th. Complete details in regard to the bond issue have not as yet been arranged, the Council waiting for the approval it must receive from the Provincial Government, but it is understood that they will likely carry five per cent. interest and be for twenty and thirty years.

When the matter of a new bond issue came before the Council for discussion, Alderman Langis declared that many of the citizens were complaining that the amount proposed for improvements was far too much. Alderman Tetreault immediately came out strongly in favor of the bye-laws, stating that they should be adopted by the Council without delay. In support of his remarks he stated that in about ten days one hundred and fifty men at the present time employed by the city would have to be dismissed owing to the present work schedule being up-to-date. However, much of the work called for in the bye-laws could be done this fall, and if the bye-laws were passed they would give these men continued employment.

Following a further short discussion the five bye-laws in question were given second and third reading. The remaining protests which had been received from citizens in regard to the value placed on their property were also considered last night and a few changes made. The protest of the Sherbrooke Street Railway Company, however, was left over until a future date, a committee being appointed to interview the officials of the company in order to try and reach an agreement.

A committee was also named by the Council to discuss and consider the present existing conditions regarding the workmen's dwellings.

Expenditures Planned.

The six hundred thousand dollars that is proposed to raise by a new bond issue is to be used for improvements of various kinds throughout the city. One of the bye-laws calls for sixty-five thousand dollars for the Police and Fire Department, and includes the cost of a garage at the new station and an automobile aerial ladder. Another bye-law calls for the sum of seventy-seven thousand dollars for sewers and ground work, a third bye-law calls for the sum of \$375,000 for paving and sidewalks, and another bye-law for \$80,000 for the Electric Light and Gas Department. This latter amount, it is explained, is to retire the remainder of the amount taken over when the city took over the Sherbrooke, Light,

'SOMETHING UNEXPECTED' LOOKED
FOR WHEN IRISH BOUNDARY BILL
IS PRESENTED IN BRITISH HOUSE

Those Who Look For Surprise, Some of Political Writers
in Particular, Base Their Opinion Mainly on Fact that
Premier MacDonald Has Taken Charge of Irish Bound-
ary Bill, Which Technically Should Be Steered Through
Parliament by Colonial Minister J. H. Thomas—There
Is Doubt Whether Session Will Be as Short as Expected,
and It Is Suggested by Some Writers that Government's
Desire For Adjournment as Soon as Irish Bill Is Passed
May Be Defeated.

(Associated Press Despatch.)

LONDON, Sept. 30.—Predictions that "something unexpected" might be looked for as regards the Irish boundary problem were current this morning as the members of the House of Commons gathered for their summer retreats for the special session convoked to consider the troublesome question. Those who look for a surprise, some of the political writers in particular, base their opinion mainly on the fact that Premier MacDonald has taken charge of the boundary bill, which technically should be steered through Parliament by the Colonial Minister J. H. Thomas.

While it is believed by many that the Premier intends to make a supreme effort to effect a settlement free from party politics, and that his speech introducing the bill is likely to be somewhat sensational, there are others who are confident that the Government realizes it is too late to alter the situation, and that the bill will go through the House as presented by Friday.

HOPED FOR AGREEMENT WITH-
OUT OUTSIDE INTER-
FERENCE

Up to the last it was hoped that the Irish Free State and Northern Ireland would come to an agreement without outside interference, but the boundary commission provided for in the Anglo-Irish Treaty, whose duties would be to settle the frontier "in accordance with the wishes of the inhabitants," remained unorganized. This made necessary the calling of the emergency session of Parliament to consider the boundary delimitation measure.

There is doubt whether the session called for the Irish bill will be as short as expected, and it is suggested by some writers that the Government's desire for adjournment as soon as the bill is passed may be defeated. There certainly is a remarkable number of subjects over which the political leaders of the various parties and the public are agitated.

SESSION MAY NOT BE AS
SHORT AS EXPECTED

Noteworthy among them is the Russian Treaty, strongly opposed by the Conservatives and a large section of the Liberals; alleged Turkish raids in Iraq, dangerous unrest in India, and the negotiations with Said Zagloul Pasha, the Egyptian Premier. There are also several domestic questions, foremost among them the mysterious abandonment of prosecution on the charge of sedition of the editor of the Communist paper, "Workers' Weekly," which has been more or less of a burning topic since early August, and which, it is said, is likely to involve the compulsory retirement of at least one member of the Cabinet.

"In view of these and other matters," says the political correspondent of the Westminster Gazette, "a strong body of opinion in the Commons will oppose any further adjournment of Parliament before Christmas."

Shock Was

Distinct Earthquake Shock Felt
Here This Morning—Buildings
Were Shaken and People Awakened
from Sleep

An earthquake, whose distinct tremor was felt in several places in this section, shook Sherbrooke at 3.55 o'clock this morning, and caused a momentary excitement among those who were awake at that early hour or who were awakened by the shock. The shock was plainly felt by several in Sherbrooke, who were at a loss to explain the phenomenon this morning. Father Gosselin, who is in charge of the observatory at St. Charles Seminary, stated that there is no seismograph or other instrument in the observatory, for recording the earth's tremors, but said that there was no doubt that the earth's surface had been shaken by some immense force.

Father Codere, who was at the St. Vincent de Paul Hospital at the time of the tremor, stated that he heard a rumbling noise which resembled a rushing wind, and at the same time he noticed the pipes in the building shaking violently. Several of the sisters who were on nursing duty at the time also noticed the same thing. The tremor lasted for more than a minute and a half.

In several other places the shock was felt very distinctly and a number of people were awakened from their sleep by the trembling of their homes.

No damage from the earthquake has been reported in this vicinity, where the shock was apparently too light to have any serious effect. Reports have come in from other centres, which indicate that the shock was generally felt throughout the townships. Farther north in the vicinity of the Chaudiere River valley, the tremor seems to have been a little bit more severe than at Sherbrooke. At Valley Junction the quake was strong enough to shake flowerpots down from their stands, and to rattle windows and shutters.

The centre of the shock seems to have been some distance north of Sherbrooke, probably nearer the St. Lawrence River and Quebec. The shock was apparently felt over a very large area.

The earthquake is the first in a great many years that has been felt in this vicinity.

TWO TREMORS AT PORTLAND
(Associated Press Despatch.)

PORTLAND, Maine, Sept. 30.—A slight earthquake was felt early today in this city and reports from Rockland and other Maine points indicate that the movement was apparently over a large area. In Rockland two distinct shocks were reported. The first, at 3:50 o'clock, rocked buildings, while the second, five minutes later was slighter.

SHOCK WAS MODERATE AT
BOSTON

CAMBRIDGE, Mass., Sept. 30.

Professor J. B. Woodworth, in charge of the Harvard Seismographic station, announced today that the instruments at the Harvard Observatory recorded a "moderate local shock" early this morning. The earthquake, Professor Woodworth said, was north of Boston, probably in the St. Lawrence region.

QUAKE FELT IN FREDERICTON

FREDERICTON, N.B., Sept. 30.

An earthquake shock which lasted for thirty seconds was felt in Fredericton this morning at 4:55 o'clock. The shock was sufficient to rattle dishes in houses and to awaken people from their sleep. Some people said that the tremor lasted for thirty seconds. It is said to have been the most severe earth tremor felt here for years.

RHEUMATISM GONE, SAYS MONTREAL HOTEL MAN

F. A. Mongeau Tells How He Recovered Strength After Eight Years of Rheumatism.

Over 40 million bottles sold.

F. A. Mongeau, popular night clerk at the Prince of Wales Hotel, 17 and 19 McGill College Ave., Montreal, Canada, lends his name to further the cause of Tanlac, the treatment that has proved of such great benefit to him.

"After all Tanlac has done for me," said Mr. Mongeau, "I just feel like praising it to everybody. Eight years of muscular rheumatism had just about made a cripple of me. I got to where I simply had to limp around on a cane. My nerves had become affected, my sleep unsound and I felt completely knocked out."

"Six bottles of Tanlac, taken eight months ago, made a new man of me, and I have had no further trouble with rheumatism, or my health since. My nerves are as steady as a die, I sleep fine and feel the same way. Anyone wanting to know from me what Tanlac will do, just phone me here at the hotel."

Tanlac is for sale by all good druggists. Accept no substitute.

Tanlac Vegetable Pills for constipation; made and recommended by the manufacturers of Tanlac.

SOUTH BOLTON

Fine Displays Seen at Annual Fair—List of Prize Winners Announced.

SOUTH BOLTON, Sept. 30.—

On September 19 the South Bolton Women's Institute held their third annual school fair. This summer has been generally unfavorable for the production of good vegetables. In spite of this, a very fair showing was in evidence. The committees in charge of the promotion of the household science departments are to be congratulated on the remarkably fine showing, especially in the sewing and other handicraft they have been taking every possible advantage of the splendid training provided by the Macdonald College household science departments through the medium of the superintendent of women's institutes and her assistants.

After the judging had been completed everybody present was invited to share in a picnic lunch. The programme called for speeches on the part of the judges, the county agriculturist and some distinguished visitors, but owing to the fact that the pressure of other work demanded that Miss Poole and Mr. Tawse, who judged the household science and vegetable classes, take their immediate departure on

Mr. Eugene O. Baldwin, Mayor of Sherbrooke, will be the speaker at the Rotary Club's meeting at the New Sherbrooke House this evening. Mayor Baldwin's subject will be "Does the World Move?" It is expected that there will be a large attendance.

PUTTING RAILINGS ON FRONTENAC STREET

As an adjunct to the paving operations on Frontenac Street, the road department has commenced the installation of an iron railing along the edge of the concrete retaining wall, which has recently been completed from the Wilson block west to the boundary of the Julius Kayser property. The railing will border the sidewalk, and will serve as a protection for pedestrians.

A COLD DIP ON A SEPTEMBER MORN.

Two young Americans, Messrs. Ray Roberts from Greenwood, Miss., and Ellsworth Weston from La Junta, Colo., who spent the week-end at Woodland Bay, Lake Massawippi, had a rather cold dip at seven o'clock Sunday morning last.

Deciding that a "spin" on the lake in a canoe would be a pleasant before-breakfast pastime, they started out with smiling faces and eyes alight with admiration for the beautiful scenery around them, but when about one hundred feet from shore an unfortunate move on the part of one of the canoeists, resulted in an overturned canoe, and the two young men were gently deposited in about twenty feet of water, which has been of somewhat low temperature since the heavy rains of two weeks ago.

They both wore heavy pull-over sweaters, which any swimmer will acknowledge are not the easiest garments to discard when water-soaked, and their morning togs consisted of almost everything except overcoats and sking boots. However, the boys proved themselves equal to the task of getting themselves and the overturned canoe to shore. They returned to the cottage with cheery, though somewhat shivery smiles, and a keen appetite for breakfast. Their only regret in connection with the occurrence was that there was no movie picture-taking machine on hand.

The boys each weigh about one hundred and seventy-five pounds, and they are still wondering what their weight would aggregate when they first emerged from the water. Mr. Weston, who is an Eastern Townships boy, has not had a dip in Canadian water for about twenty years, and he declares he would not have missed the opportunity for worlds, while Mr. Roberts says he carries nothing but pleasant memories to the south from Lake Massawippi, Que.

HEAVYWEIGHT PUMPKINS

It has become quite an ordinary occurrence to have mammoth vegetables, fruits, etc., reported from farms and gardens in the townships, and they are always of interest to growers and give a good impression of the fertility of soil in this section of country.

A good pumpkin record goes to Mr. Stewart Woodward, of Maplewood Farm, Massawippi, who found in gathering produce from the garden that one pumpkin vine had borne four fine species, the total aggregate of weight amounting to one hundred and sixty pounds. The two larger weighed sixty and fifty pounds, and the two smaller twenty-five pounds each. They were brought in from the garden one evening recently and are ripening nicely. They are firm, and it remains for some statistician to figure out just how many pies the four yellow beauties would make.

Boys who revel in the joy of transforming pumpkins into the popular Jack O' Lanterns would like the fun of making over the large ones into the Halloween symbol.

ARRESTED FOR BEING INTOXICATED AND BEGGING

Raymond Larocque and William Plant appeared before Recorder Forest this morning on a charge on being intoxicated and begging on the streets, and were each fined five dollars and costs or eight days in jail. Both these men were dismissed from the local jail only a few days ago, where they had served terms on a similar charge.

CHILDREN GAVE BENEFIT ENTERTAINMENT.

A delightful event took place recently at the home of Mrs. Frank Norcross, Fulton Avenue, when her little daughter, Beverly, assisted by a group of children, gave an entertainment in aid of the Victorian Order of Nurses.

The programme consisted of a children's play, originated by the little girls, which included songs, dances and recitations. Those taking part were Beverly Norcross, Margaret Kinkaid, Margaret Bradley, Helen Turner, Lyndall Jackson, Dorothy Ainslie and Andrea Hawkins. All took their parts in a dainty way, and the audiences, both afternoon and evening, were most appreciative. Candy was sold during the programme, and the proceeds amounted to seven dollars. This precedent on the part of these little girls is highly commendable, and it is quite likely that older ones will give similar assistance to the work.

W. C. T. U. CONVENTION OPENS TODAY

The W. C. T. U. convention opened today most auspiciously in spite of the inclement weather. The officers and delegates from various places arrived during the early part of the day, and were met at the reception committee. The morning was spent in billeting the visitors, meeting friends and making acquaintances, and at the lunch hour the out-of-town delegates were entertained at luncheon in the Baptist Church hall, at which several local people were present.

The afternoon session opened at two o'clock in the Baptist Church, and this evening's meeting, which is the usual "Y" programme, will be an interesting feature of the three days conference. The meetings are open to the public, and it is hoped that many will avail themselves of the opportunity to attend.

METHODIST Y. P. S. HELD DEBATE

The Young People's Society of the Methodist Church met last evening. The meeting was in charge of the Rev. Dr. Lennon, in the absence of the president, Mr. H. J. Cook. After the devotional exercises, a debate was held the resolution being that "Homemade amusements are superior to commercialized amusements."

The affirmative was taken by Messrs. E. S. Beerworth and Percy Boulton, and the negative was upheld by Messrs. Fred McLean and Cyril Green. Both sides set forth strong points in their arguments, but the judges finally awarded the decision in favor of the negative.

The meeting was closed with the benediction. The gathering next week will be under the direction of the first vice-president of the Society, Mr. Palmer Pitts.

LENNOXVILLE

White Entertainers Will Appear Again.

Those who attended the series of concerts given by the White Entertainers' Band of Boston in St. George's Hall last year will be pleased to know that another set of concerts has been arranged for the coming season. The first of these takes place next Saturday evening and bids fair to continue the interest displayed by the full houses which greeted the performers of last year. The Westminster Quartette is composed of male voices; four clean-cut, virile young singers whose voices blend excellently. Unlike many quartettes of modern times, this one does not specialize on costumes and side-lines to the exclusion of music, but presents a programme consisting largely of vocal solos, duets, trios and quartette numbers, with a spice of instrumental music and humorous readings for variety. The selections include rollicking songs of the sea, of the wild days on the western frontier, as well as lighter, provoking bits to please the laughter-loving part of their audience. The saxophone is used for solo work.

The quartette adopted its name after the once famous Boston quartette, called by the title "The Westminster Quartette," and without claiming equality with their predecessors are on a fair way to attain their position as leading quartette in New England.

TABLE MANNERS.

On the screen, a husky at a lumber-camp mess table had just pinched the new waitress on the cheek, and she had retorted by breaking a plate over his head.

"Why, mamma!" A child's voice penetrated the darkness of the theatre. "That's no way to act at the dinner table, is it?"

Boy Scout News

FINE TALK ON QUEBEC SCOUTS' TRIP.

On Friday evening the boys of the 2nd Sherbrooke Troop listened to a fine talk delivered by Assistant Scoutmaster Quirouet on the trip overseas made by members of the 4th Quebec Troop C.B.S. Mr. Quirouet in describing the trip, spoke in part as follows:

"The scoutmaster of the troop went ahead of the boys on another boat to make preparations. The boys, numbering ten, travelled third class, and were fortunate in having a dining saloon to themselves.

"When they arrived at England, (Liverpool), they were greeted by a large crowd of scouts and officers. They were allowed to leave the boat without the formality of too many customs and immigration examinations.

"From Liverpool the party journeyed to London, where the British scouts showed them around. Before going to the Wembley exhibition they went to Paris, France. They were met there by the 1st B.P. Troop of Paris, (composed of English and American boys residing in Paris), and entertained by them.

"From Paris they went to Amiens, where they began a several day tour of the battlefields, being conveyed in a large touring bus. Vimy Ridge, the Canadian National Park in France, was visited and seen as left after the war. They found and decorated the grave of a former scoutmaster of their troop.

"Belgium was visited and many wonderful sights seen. They returned to London and the next day left for Wembley in a large bus, where they attended the Scout thanksgiving service, at which there were over 20,000 scouts. They visited the exhibits and displays.

"After seeing the exhibition they made a tour of England and Scotland, visiting all the large cities, returning to Liverpool by boat, from whence they returned home.

Last Friday Mr. Quirouet addressed the 1st Lennoxville Troop in response to their urgent invitation, giving the same interesting description of this exceedingly educative journey.

Scouts to Present Concert.

The 2nd Sherbrooke Troop members are holding regular rehearsals in preparation for a concert to be given towards the end of October.

Two plays will be presented; one by the scout officers of the 1st Lennoxville Troop who have scoutfully offered to do this "good turn" to the 2nd Troop, and the second will be put on by the scouts of the 2nd Troop. The programme will also be featured by monologues, travelogues, quartettes and camp fire scenes, while two important presentations are planned. In connection with the concert, a hobby show is being prepared by the boys, and it is expected many interesting hobbies will be displayed.

A rehearsal will be held this evening at headquarters, 830 sharp. All Scouts taking part in the play must be present, also scouts belonging to the Lynx, Crow and Beaver Patrols are asked to be on hand for a special purpose.

1st Lennoxville Troop Activities.

The 1st Lennoxville Troop members have commenced their fall programme with a good deal of enthusiasm, and have almost a full attendance every meeting. Competitions have been inaugurated, and the future of the troop looks very bright.

4th Sherbrooke Troop.

The 4th Troop will shortly lose one of their most competent scout leaders in the person of Cubmaster Herman Conley, who will leave for Montreal to attend McGill University in a few days. Mr. Conley has been a very active worker in scouting circles for a number of years, especially in connection with the Wolf Cubs, and it is largely due to his energetic, capable and faithful work that the 4th Sherbrooke Wolf Cub Pack has reached its present high standard. Mr. Conley leaves with the best wishes of all his scout associates. In the future, Troop Leader Ernest Conley will have charge of the 4th Troop.

The 4th Troop held their regular meeting last Friday evening at their headquarters. They were reorganized, and will in future operate on the patrol system, as outlined in the Gillwell Training Course. This troop is looking for the services of an athletic director in order to organize team games, sports, etc.

2nd Sherbrooke Troop.

The 2nd Troop Parliament or Court of Honor has already held two meetings in the fall session, and a good deal of business in connection with winter work of the troop has been accomplished. Several vacant portfolios have been filled. The position of Secretary of State was made vacant by the resignation of P. L. Harry Grundy, who, after several years of loyal and valuable service to the troop, has been obliged to sever his connections with the scouts, owing to attending Bishop's University. This position has been filled by the appointment of Corporal Ralph Gustafson, P. L. Merrill Smith has been appointed to the position of Minister of Education, and in this capacity will be expected to secure interesting news for the scout column. Corporal Arnold Price was elected Minister of Historical Research, and his duty will be the completion of the troop "log book," which comprises the history of the troop from its first organization and the record of all important factors in the operating and advancement of the troop. This is a huge task, as a great many important occurrences will have to be recorded such as the visits of the Duke of Connaught, the Duke of Devonshire, the Prince of Wales, His Excellency Lord Byng of Vimy, as well as many other matters of historical interest to the troop. The "log book," when completed, will be a valued possession of the 2nd Troop.

The 2nd Troop has been accomplishing a great deal of scout work. Saturday afternoon hikes have been well attended, and it is hoped that a district hike and marshmallow roast will be held a week from Saturday. Both Sherbrooke and Lennoxville troops are expected to participate in this event.

Two basketball teams are in the process of organization, and increased activities in connection with sports is anticipated. A great deal of interest is being shown in the patrol competition, and as this competition will end at the night of the troop concert, a big effort to get points is being made by the five different patrols. The winning patrol of the previous competition with the Lynx Patrol, under P. L. Clarence Blake, and the trophies for both competitions will be presented on the evening of the scout concert.

Esperanto Course to Commence Soon
Preparations are now being completed for the holding of the Esperanto course, under the direction of Mr. Bert Williams. It is hoped that many adults as well as the scouts, will take advantage of this opportunity to acquire a language which is spreading over the whole civilized world with such rapidity.

A very interesting programme was enjoyed by the Scouts of the 1st, Lennoxville Troop at their weekly parade on Friday evening, Sept. 26th. Assistant Scoutmaster Quirouet, of 4th, Quebec Troop, who went with the Quebec Scouts to the Wembley Exhibition for the Great Scout Jamboree, visited the Lennoxville Troop at their Headquarters and gave a very interesting account of the trip from the time they left Quebec until their return while overseas. They visited many interesting places in England and Scotland also the Battlefields in France and Belgium. Some of the places visited were Amiens, Vimy Ridge, Ypres, Hill 62 and Sanctuary Wood, where they were royally entertained by the Canadian Battlefields Commission returning to England. They arrived at the Scout Camp at Wembley at midnight. During their stay at Wembley, they were able to see most of buildings and also attend the Scout Service in the Stadium when there were 2200 Scouts present. The speakers on the platform were H.R.H. Prince of Wales, Chief Scout for Wales, Sir Robert Baden-Powell, Chief Scout and many other notable Scout Leaders.

Mr. Quirouet's talk was very much enjoyed by the Scouts and he was warmly thanked by the S.M. for his kindness. Mr. Quirouet also gave an invitation to any of the boys to attend the Quebec Scout Camp. The Lennoxville Troop are again making preparations for giving another concert, which will, like the last one, consist of two plays. A church parade is planned for the morning service at St. George's Church on November 9. Armistice Sunday The Bugle Band will attend. Scouts will parade in full uniform and carry staves on all parades in future. The troop is open for 2 candidates to complete the roll. Applications should be made to S.M. Loke, Main Street.

Bugle Band will parade at 7 p.m., on every Wednesday night, for band practice. Every member should attend.

Children's Cozy Corner

UNCLE JIM'S LETTER

Dear Corner Children:—

I felt quite sad this morning when the mailman went away without leaving any letters for the C.C.C., but I will forgive the nieces and nephews, for I remember how busy we were when beginning the new term of school. And it has been such lovely weather, has it not? I was out in the country for the weekend, and I found the woods very pretty with their gay leaves, which will soon be spread on the ground for a carpet. I saw several ducks on the lake, also gulls, and I felt sorry when there was the report of a rifle. Sometimes the ducks cry out, and we know they are either wounded or frightened.

I saw the picture of two little boys who raised calves for the school fair in a farm journal, and I thought they looked very nice. Their names are Walter and Frank, and they each had a nice calf. They also had a garden with various kinds of vegetables in it. The boys and girls who begin when quite young to raise things like that will surely make good farmers.

I have put the story of the little girl who was helped by the J.R.C. in today's corner. I think this is one of the finest things the J.R.C. boys and girls do. Just think how fine it is to make some child happy and healthy!

There are several interesting things to tell you about the J.R.C. work, and I want to know if the Corner Children would like the Lone Member group again, before I send out any badges. Mrs. Shaw has sent me the ones for this year. They are

gold color with a red cross on a light green maple leaf, and the word "Junior" in white letters. It is very nice to be able to wear a badge like that.

Until tomorrow best wishes from, UNCLE JIM.

SUPERVISOR TELLS ABOUT ROSIE.

The J.R.C. helped ten boys and girls through the Crippled Children's Fund this year, and I will tell you about one of them. Her name is Rosie, and she is nine year old, such a dear little girl with dark eyes and curly hair. But instead of having rosy cheeks she has very pale ones. And no wonder. To begin with, Rosie lives underground in a basement where very little sun can get in to kill the microbes in the air. When ever Rosie isn't at school she is busy either selling newspapers or taking care of the baby. She really isn't big enough to carry the baby, but she staggers around with him and he is very fond of her and loves to pull her curls. Rosie knew that some of her friends were going to summer camps but she never imagined she would be lucky enough to go too. You can imagine how happy Rosie was and Rosie's mother too, (her father is dead), when she was told that the Red Cross Juniors of the Province of Quebec had earned and saved enough money to send her away for three weeks. I was sorry we did not have a Jersey big enough for Rosie to take with her in case it was cold. However, we were able to give Jerseys to some other boys and girls who Juniors sent away.

When Rosie came home again, her mother hardly knew her. She not only was fatter and rosier but she

was so jolly and bright and so excited about all the country sights. I must tell you, Rosie had never been to the country. Before she went away she was too tired to play games—think of that—and she was often very hungry. She thinks the Red Cross Juniors are just like the good fairies in the fairy tales, and she has asked me to thank you all for giving her the greatest treat she has ever had in all her life.

TREES ON THE PRAIRIES.

Why the prairies have been treeless is not fully understood, but the labors and experiments of many years have shown that trees can be made to grow in the prairie region if a few simple precautions are taken. The value of trees upon prairie farms are three-fold: They give protection from drying winds, thus adding to the productivity of the soil; they provide wood material for many uses, and, above all, they relieve the monotony and add to the comfort and content of life. It is now estimated that trees planted in prairie sections of western Canada may be valued at twelve million dollars.

A HAIR-RAISING JOKE.

"When you take off your cap," said the Beg.

What a rough head of hair do I see! You should smooth and arrange it, my friend.

For at present it stands up on end."

"Well, if that is the case," laughed the Elf.

"I must beg for some help from yourself.

As I like to look neat when from home,

Kindly lend me a small honey-comb!"

The Misses Doris and Thelma Price, of this city; Messrs. Ellsworth Weston, from La Junta, Colo.; Ray Roberts, from Greenwood, Miss.; and Walter Reid, from Syracuse, N.Y., spent the week-end at Woodland Bay the guests of Mrs. B. W. Price.

Mr. and Mrs. James Daves, of Littleton, N. H., motored to the home of Mr. and Mrs. Wells Beane Lennoxville, on Sunday, accompanied by the Misses Estelle and Gertrude Bean, and Miss Hatch, all of Littleton Hospital, and Miss Broese, a graduate nurse from Littleton, N. H.

The visiting officials to the W.C. T.U. convention, who arrived this morning are the guests of the following ladies in this city: The president, Mrs. Geggie, from Quebec, is the guest of Mrs. Ernest Jones and Mrs. S. A. Jones, High Street; Mrs. Foster, from Knowlton, who is eighty-seven years of age and is now vice-president, is the guest of Mrs. Gordon Lynch, Quebec Street; Mrs. Cushing, from Montreal, acting-secretary, with Mrs. Ranshouan; Mrs. Ford, from Sutton, treasurer, with Mrs. Dowlin, Montreal Street; Mrs. Sadler, recording-secretary, with Mrs. Rothney, Howard Avenue; and Mrs. Oliver, "Y" secretary, with Mrs. Spencer, Dufferin Avenue.

by the bride.

The bride and groom left by motor for a honeymoon trip to New York and other points in the U.S.A. Before returning they will visit East Angus, the home of the groom's parents, where a reception will be given them.

Mrs. McPhee, mother of the bride, wore a cocoa brown crepe dress, with corsage of American beauty roses.

Mrs. Burns, mother of the groom, wore navy blue "old thyme" crepe, with corsage of American beauty roses.

The bride and groom received many useful presents. After October 15 they will be "at home" at 858 Laurier avenue east, Montreal.

SCOTT-TRACEY
SWEETSBURG, Que., Sept. 30.—The marriage took place on Wednesday afternoon, September 25th, in Christ Church, Sweetburg, of Miss Carrie Tracey to Mr. Mackenzie Scott, of Scotstown, Rev. A. T. Love, M.A., officiating.

WILSON-STEWART.
ADAMSVILLE, Que., Sept. 30.—A very pretty wedding took place at the residence of the bride's parents, Mr. and Mrs. T. H. Stewart, Adamsville, Que., on Tuesday afternoon, September 16, when their daughter, Elizabeth Gordon, was united in marriage to Mr. John Arthur Wilson, son of Mr. John Wilson, of Farnham, Que. The Rev. Mr. Rattray officiating.

The bride wore a powder blue canton crepe gown and black picture hat, and carried a shower bouquet of opheila roses, baby's breath and maiden hair fern. She entered the parlor leaning on the arm of her father to the strains of the wedding march played by Mrs. C. F. Buck, of East Farnham, aunt of the bride.

After the ceremony lunch was served and immediately the happy couple left on their honeymoon trip, the bride wearing a navy blue polaire twill suit, hat to match, and the gift of the groom, a sable fur. On their return they will reside on Main street, Farnham, Que. The presents were numerous and beautiful.

BELLAND-BONNER.
A very pretty wedding was solemnized at St. Patrick's Church yesterday morning at seven-thirty o'clock, when Miss Hilda Beatrice Bonner, daughter of the late Mr. T. J. Bonner and of Mrs. Bonner, First Avenue, East Sherbrooke, was united in marriage to Mr. Harry Douglas Belland, of Montreal. The ceremony was performed by Rev. Father Fiset.

The bride, who was given away by her brother, Mr. Thomas Bonner, was very charmingly gowned in a powder blue georgette dress, with hat to match, and large fox fur. She carried a shower bouquet of opheila roses. The groom was supported by Mr. Harry D. Jones, of Montreal.

During the service the choir rendered special music, the soloists being Miss Alice Maguire and Miss Sylvia Mullins. Mrs. Shea was the organist.

Following the service a very dainty buffet breakfast was served at the residence of the bride's mother, at which some forty-five guests were present. The bride's table was very tastefully decorated with the wedding cake and small vases of pink and white asters, while the house decorations were also pink and white asters.

Following the breakfast, Mr. and Mrs. Belland left by motor for Montreal, Ottawa, Toronto and Niagara. On their return they will reside in Montreal.

Miss Halligan spent the past week with relatives at Weedon.

Mr. and Mrs. G. L. Somers are spending a week with relatives at Johnville.

Mr. Ellsworth Weston, from La Junta, Colo., a former Eastern Townships boy, has been in town the guest of Mr. and Mrs. A. C. Ross, Quebec Street, and is visiting several places during his visit to this section of the townships. Mr. Weston spent the week-end with his aunt, Mrs. B. W. Price, at Woodland Bay, and has now gone to Cookshire, Scotstown and Lake Megantic. This is his first visit east for twenty years, he having gone to Colorado with his parents, Mr. and Mrs. Elgin Weston, in 1904.

CITY BRIEFLETS

AUTO ACCIDENT VICTIMS MAKING SATISFACTORY RECOVERY.

Very satisfactory reports are received regarding the condition of Mr. Philias Lancot, Mrs. Beaudoin and son, Mrs. and Miss McCourt and Mrs. Nova Chevalier and her three year old son, who were all somewhat bruised and shaken up on Sunday afternoon last when Mr. Lancot's car, in which they were driving, turned turtle on the Lennoxville road.

The victims are still in the St. Vincent de Paul Hospital, but it is expected that they will shortly be able to return to their respective homes.

THIEVES STEAL PUBLIC TELEPHONE CASH BOX.

Last night thieves entered the Bell telephone pay booth in the Rasinge building on King street west, cut the telephone wires and made a safe get-away, taking the telephone box and contents with them.

Just what time the robbery took place is not known, but it is thought to have been quite late at night. The last reported call which was received from this phone was at ten-thirty o'clock last night.

As soon as the affair was noticed this morning Mr. J. E. Choquette, district manager of the Telephone Company, notified the police, and Lieutenant Prunier immediately began an investigation.

KINSMEN HEAR IMPRESSIONS ON WEMBLEY VISIT

Mr. J. K. Edwards Was Speaker Last Night—Canada's Building Was Best.

Speaking before the Kinsmen Club last evening, Mr. J. K. Edwards, Industrial Commissioner of Sherbrooke, gave an interesting account of his visit to England and the British Empire Exhibition at Wembley. The meeting was fairly well attended, and was presided over by President Eddie Graves. In his talk, Mr. Edwards gave a description of the Canadian building, which he thought was the best of the exhibition. The Australian building, he

said, was a close second. Both cost in the neighborhood of one million dollars. In the Indian building, the speaker said, one could imagine oneself to be in the streets of Bombay, so remarkably had the atmosphere been created.

The opinion commonly held by the natives of this continent, concerning the backwardness of the English, commercially speaking, is dispelled by a visit to the heart of the Empire, he said. In London, the tube system is unequalled by anything on this

continent. Deep down in the depths of the earth one may find excellent trains with first, second and third class coaches, and equipped with every convenience.

The Metropolitan police, or Bobbies, impressed Mr. Edwards with the remarkable fund of information which each one of them seemed to possess. A "Bobby" could answer almost any question which a passer-by could impose upon him.

The next meeting of the Kinsmen Club will be held on Monday evening,

October sixth, and on the following Monday, ladies' night will be held.

A DESERT REACTION
An old hermit of the Arizona sand hills stopped a rural mail carrier with:
"Got 'ary letter for me?"
"Better have one next time you go by."
"What is your name?"
"Never mind the name, Bub, but have that letter or you won't do any more mail carryin'."

Carnation Milk

"From Contented Cows"

What the Red and White Label Means to the Modern Housewife

IT means real economy. Carnation keeps—none is wasted. It serves every need for milk. In place of cream for coffee, cereals or fruits, use it just as it comes from the can. For cooking, simply add water, as desired. For tea use one part Carnation, three parts water.

It means wonderful convenience! Get it with your groceries. Store it in your pantry. It is always ready, always sweet and pure—always the same dependable quality.

Carnation is just pure fresh milk, evaporated to double richness, kept safe by sterilization. It bears a label the housewife can trust.

Order several tall (16 oz.) cans or a case of 48 cans from your grocer. Test it, critically, yourself.

The Carnation Recipe Book is a splendid collection of 100 tested recipes. A copy of this Recipe Book is ready for you. Write for it today. It's FREE.

RICE PUDDING.—2½ cups water, 1½ cups Carnation Milk, ¼ cup rice, ¼ tsp. salt, 2 tbsp. sugar. Wash rice, mix ingredients, and pour into buttered baking dish. Bake two and one-half hours in a very slow oven, stirring every twenty minutes the first hour of baking to prevent rice from settling.

MARRIAGES

SCHURMAN-PARKER.
BEEBE, Que., Sept. 30.—The marriage of Miss Beatrice Redfield Parker, only daughter of Mr. John I. Parker, to Dr. Charles Schurman, of Wolville, N.S., was solemnized at 8 o'clock Wednesday evening, September 24, at All Saints' Church, Beebe, Que. The ceremony was performed by the rector, Rev. Edward Bull.

The church was beautifully decorated for the occasion with hydrangeas and flowers in season. In the absence of her father the bride was given in marriage by her uncle, Mr. J. W. Elder. The bride wore a gown of gray beaded georgette, with hat to match, and carried a shower bouquet of sunset roses and maiden hair fern.

The bridesmaid, Miss Thelma Haifner, of Kingston, Ont., wore a pink embroidered georgette with pearl trimmings, and black pan velvet hat. Dr. Frank Shover, of Montreal, acted as best man.

Among the out-of-town guests were the groom's mother, from Wolville, N.S., and his aunt, Miss H. Good, from Burma, India.

The ushers were Messrs. Arnold B. Elder, cousin of the bride, and John R. Stewart. Mrs. F. Earle presided at the organ. During the period of signing the register the solo "At Dawning," by Codman, was very pleasantly rendered by Mrs. Chas. Berry.

A reception followed the ceremony at the home of Mr. and Mrs. J. W. Elder.

Dr. and Mrs. Schurman left by motor to spend their honeymoon in Quebec and Montreal. On their return they will reside at Newport, Vt.

CIVIL WAR IN CHINA.

The main purpose of all the fighting in China is apparently nothing but graft. Fighting has been in progress for some time, and gives promise of becoming even more serious than it was two years ago. Shanghai, with its native population of two million people, is said to be the most prolific ground for graft in China, and so the armies are battling for this district.

The foreign quarter of Shanghai, which has a population of about 25,000, is in a separate zone, secured by treaty, but nevertheless much graft results from it. With this in mind, says the Boston Transcript, the history of the present conflict is not so difficult to understand. Lu Yung Lsing, governor of the province of Chekiang, tried to appropriate this graft. In this he has been aided by Chang and Dr. Sun Yat Sen. A glance at the map will show that the territory of these three gentlemen forms a half moon around the Chinese capital. Wu Pei Fu, military guardian of the president and upholder of the present Peking Government, then allied himself with two other military politicians. The resulting lineup, then, is Lu and Chang, the invaders, against Wu and his allies, the defenders.

Chang must be a very picturesque figure. He is said to be the wealthiest, ablest, most independent and most unscrupulous man in China. He lives in barbaric splendor in his Mukden palace. His coffers are crammed with silver, and as far as resources go he is well equipped to achieve his great end—enter Peking and wrest the Government from the president and from Wu, the president's defender. Such in brief is the situation. Chang at the eastern end of the Great Wall and the Government troops, under Wu, trying to hold their own.

If a civil war were possible in China, we suppose that this would be called one. But civil war naturally presumes a state of mind, and none of the despatches indicate that such a thing exists. More than that, none of the men in this country, familiar with the Chinese temperament, say that there is any strong popular feeling on either side. Mr. Thomas Steep, in an article in the New York Herald-Tribune, says one must realize "that the 350,000,000 Chinese people have absolutely no personal interest, that there is no principle involved on either side to arouse popular sentiment and that the civilians, if they pay any heed at all to the fighting, regard it as a kind of national nuisance which affects them in varying degrees." In short Chinese apathy to large scale graft seems even greater than ours.

THE MAKERS OF DICTIONARIES

Let us give thanks to the makers of dictionaries. They toil from month to month and from year to year, searching in the farthest recesses of scholarship, and yet their names are but seldom blazoned in the skies of fame. They work with precision, the utmost care, and the highest degree of scholarly accuracy; and diving to the very depths of the muddy waters of philology, they retrieve the birth records of the language. After careful study, in which the pros and cons are carefully weighed, they accept words into the fold and cast others out, as being unjustified, barbarous, and not possessing the right to existence. They bring to us the meanings of the words of our language, guiding us through the difficult sections and leading us through the woods of vagueness into the fields of clarity. And more than that. They interpret for us the tongues of the nations of the world and out of Babel they present us the opportunity of understanding the languages of other peoples.

Yet the makers of dictionaries do not, as a rule, belong to the artists of literature. It is not for them to have their imagination and their powers of creation carry them to artistic heights, either in verse or prose. They are great compilers, not great creators, and though they do not possess the souls of a Shelley, a Keats, a Shakespeare, or a Chaucer, they must be possessed with a steadfastness of purpose, they must see a beacon light of accomplishment towards which they forge on with slow but certain gait. They belong to that class known as the journeymen of literature; but let us not despise them as such, for their lineage includes many great men to whom the world owes an incalculable debt. The renowned Samuel Johnson, who in his latter days ruled as the king supreme of English letters, spent eight of the most precious years of his life in the compilation of the first great dictionary of the English language. In the face of poverty and even adversity he worked on, throwing the whole weight of his mighty mind into the project, so that eventually his book was finished. He made blunders, some of them deliciously ridiculous and today his definitions and philological findings have been superseded. But Dr. Johnson's mid-eighteenth century labors are fondly remembered wherever the English tongue is spoken.

And now, by the publication of a letter of Noah Webster's, we are able to read how that great dictionary maker spent his years and his thousands before he completed the task which is said to have saved the United States from becoming a nation speaking many dialects. "You must have heard that I have been many years in compiling a complete dictionary of our language," he writes to his correspondent. "My researches have been laborious and extensive, and I think fruitful in discoveries. . . . My dictionary has cost me twenty-six years of labor and about \$30,000. If I succeed I shall reimburse myself and be able to compensate all my friends for their advances. If I should not, I shall be left in my old age with small means for subsistence."

Johnson and Webster are two great examples. But dozens of others, small and great, have labored and are laboring in similar spheres of activities, unaccompanied by praise and without the crown of glory which is placed upon the brow of a successful author. Well may we, then,

give thanks to the makers of dictionaries, even though they are journeymen of literature, laborers of letters.

TOURIST TRAFFIC.

(Peterboro' Examiner)

Tourist traffic is an increasing business; next year it will be greater than ever, with receipts in proportion. It is a development the importance of which Canadians have not yet fully realized.

A KNOCK FOR H. B. RAILWAY.

(Calgary Albertan)

Despite the enthusiasm of one Cabinet Minister, it is doubtful if the Canadian Government or any combination of Provincial Governments are likely to proceed with the building of the Hudson Bay Railway for some time to come. The fact that Governments have been unfair in the past and unbusinesslike as well, is not any convincing reason that this Government should make still another mistake.

LEAGUE OF NATIONS.

(Christian Science Monitor)

Your years' experience has now brought the League of Nations and its true purpose into much better perspective. The League quite obviously has no superstate functions. The obligations under Articles X. and XVI. were whittled down by the second and third assemblies until it has been made clear that every nation is the judge of what action, if any, it should take, in every question which comes before the League. On the other hand, the League has established itself as a great clearing house of international action. A large amount of international work is still done by special ad hoc conferences, as at Washington or more recently at London. But these have no continuous existence. More and more of the world's important business is being brought within the purview of the League.

It is obvious, indeed, that the League of Nations holds the field as the only permanent instrument for regularly and persistently promoting world understanding and world peace. It has no rival. Moreover, under the guidance of experience, it is abandoning some of its excessive pretensions, and is learning how to act as that constitutional link between nations which must exist if another world war is to be avoided. There can be little doubt that eventually the League will come to embrace all nations. Very likely, before it does so, modifications will be necessary in the original Covenant, in order that it may conform to the lessons of the post-war years. But that the League is making good does not now seem to be open to doubt.

PAYING EUROPE'S DEBTS.

(Toronto Globe)

Mr. Edwin N. Hurley, member of the United States Debt Funding Commission, has proposed to the Treasury Department at Washington that payment of the French debt to the United States be extended over sixty-seven years, at the rate of \$109,000,000 a year, one-half the sum to be invested in French industrial bonds. The French debt to the United States is \$3,634,762,038 and the British debt \$4,604,128,085, less the amount repaid in the past two years. Under the agreement negotiated last year at Washington by Mr. Stanley Baldwin the British Government agreed to pay its debt in sixty-two years, in average annual instalments of about \$170,000,000, which would cover principal and interest. There was no obligation on the part of the United States to reinvest any portion in Great Britain. The latter contracted to pay in gold, in United States currency, or in Liberty bonds. For a time the British Treasury was able to purchase Liberty bonds under par, and as they were accepted at par for debt repayment the profit virtually offset the adverse exchange. But these securities are now at a premium and Great Britain is under the necessity of buying United States dollars at the rate of half a million daily. The result is the continual shipment of gold to the United States to add to the idle stocks of the yellow metal which are a deadweight on trade and industry. More than half the gold of the world lies in American bank and Treasury vaults, and the pile grows daily.

REJECT ROAD PROJECT; LAKE MEGANTIC NEWS

Franklin County Committee Turn Down Inter-Road Bill—Will Not Give Up Fight for Road.

ECHO VALE, Que., Sept. 30.—Many people will be sorry to hear that members of the committee appointed by the commissioner of Franklin county of Maine have rejected the Inter-Road bill. This road was to connect with the road from Woburn leading to Megantic. A large delegation of State of Maine representatives were in Megantic a short time ago and were very much encouraged by the fact that the Province of Quebec was ready at any time to make the necessary road on the Canadian side of the line. All are glad to note, however, that there were more ballots cast in favor of this road by the legal voters of Franklin county than there were cast for both candidates for governors at the last election. The following extracts from the commissioners' report will prove the interest taken by the people of Franklin county in the road:

"The decision is a surprise and disappointment to the people of Franklin county, including the 3,400 petitioners; a blow to the industries and development of the county, and the many enthusiastic supporters in the different sections of Maine. It is also a keen disappointment to the people of Quebec who are unanimously in favor of this highway."

"The decision, however, will not be accepted by the proponents of the road as final. Proceedings will again be started, and will be continued until a favorable decision is rendered and the Arnold Trail highway to Quebec opened."

A Romance of the Spanish Main

CAPTAIN BLOOD

by RAFAEL SABATINI

Copyrighted, 1922, by Rafael Sabatini.
"CAPTAIN BLOOD," a Vitaphone picture with J. Warren Kerrigan in the title role, is an adaptation of this thrilling novel.

CHAPTER XV.

Levasseur gathered himself up with an oath of amazement. He had conceived Captain Blood by now well below the horizon, on his way to Tortuga, assuming him to have been so fortunate as to have weathered last night's storm.

Launching himself upon the yielding sand, into which he sank to the level of the calves of his fine boots of Spanish leather, Captain Blood came sliding erect to the beach. He was followed by Wolverstone, and a dozen others. As he came to a standstill, he doffed his hat, with a flourish, to the lady. Then he turned to Levasseur.

"Good-morning, my Captain," said he, and proceeded to explain his presence. "It was last night's hurricane compelled our return. We had no choice but to ride before it with stripped poles, and it drove us back the way we had gone. Moreover—as the devil would have it!—the Santiago sprang her mainmast; and so I was glad to put into a cove on the west of the island a couple of miles away, and we've walked across to stretch our legs, and to give you good-day. But who are these?" And he designated the man and the woman.

Cahusac shrugged his shoulders, and tossed his long arms to heaven. "Voilà!" said he pregnant to the firmament.

Levasseur gnawed his lip, and changed color. But he controlled himself to answer civilly:

"As you see, two prisoners."

"Ah! Washed ashore in last night's gale, eh?"

"Not so." Levasseur contained himself with difficulty before that irony. "They were in the Dutch brig."

"I don't remember that you mentioned them before."

"I did not. They are prisoners of my own—a personal matter. They are French."

"French!" Captain Blood's light eyes stabbed at Levasseur, then at the prisoners.

M. d'Ogeron stood tense and braced as before, but the grey horror had left his face. Hope had leapt within him at this interruption, obviously as little expected by his tormentor as by himself. His sister, moved by a similar intuition, was leaning forward with parted lips and gaping eyes.

Captain Blood fingered his lip, and frowned thoughtfully upon Levasseur.

"Yesterday you surprised me by

making war upon the friendly Dutch. But now it seems that not even your own countrymen are safe from you."

"Have I not said that these.... this this is a matter personal to me?"

"Ah! And their names?"

Captain Blood's crisp, authoritative, faintly disdainful manner stirred Levasseur's quick anger. The blood crept slowly back into his blanched face, and his glance grew insolent, almost in menace. Meanwhile the prisoner answered for him.

"I am Henri d'Ogeron and this is my sister."

"D'Ogeron?" Captain Blood stared. "Are you related by chance to my good friend the Governor of Tortuga?"

"He is my father."

Levasseur swung aside with an imprecation. In Captain Blood, amazement for the moment quenched every other emotion.

"The saints preserve us now! Are you quite mad, Levasseur? First you molest the Dutch, who are our friends; next you take prisoners two persons that are French, your own countrymen; and now, faith, they're no less than the children of the Governor of Tortuga, which is the one safe place of shelter that we enjoy in these islands...."

Levasseur broke in angrily:

"Must I tell you again that it is a matter personal to me? I make myself alone responsible to the Gov-

ernor of Tortuga."

"And the twenty thousand pieces of eight? Is that also a matter personal to you?"

"It is."

"Now I don't agree with you at all." Captain Blood sat down on the cask that Levasseur had lately occupied, and looked up blandly. "I may inform you, to save time, that I heard the entire proposal that you made to this lady and this gentleman, and I'll also remind you that we sail under articles that admit no ambiguities. You have fixed their ransom at twenty thousand pieces of eight. That sum then belongs to your crews and mine in the proportions by the articles established. You'll hardly wish to dispute it. But what is far more grave is that you have concealed from me this part of the prizes taken on your last cruise, and for such an offence as that the articles provide certain penalties that are something severe in character."

"Ho, ho!" laughed Levasseur unpleasantly. Then added: "If you dislike my conduct we can dissolve the association."

"That is my intention. But we'll dissolve it when and in the manner that I choose, and that will be as soon as you have satisfied the articles under which we sailed upon this cruise."

"What do you mean?"

"I'll be as short as I can," said Captain Blood. "I'll waive for the moment the unseemliness of making war upon the Dutch, of taking French prisoners, and of provoking the anger of the Governor of Tortuga. I'll accept the situation as I find it. Yourself you've fixed the ransom of this couple at twenty thousand pieces, and, as I gather, the lady is to be your perquisite. But why should she be your perquisite more than another's, seeing that she belongs by the articles to all of us, as a prize of war?"

Black as thunder grew the brow

of Levasseur.

"However," added Captain Blood, "I'll not dispute her to you if you are prepared to buy her."

"Buy her?"

"At the price you have set upon her."

Levasseur contained his rage, that he might reason with the Irishman. "That is the ransom of the man. It is to be paid for him by the Governor of Tortuga."

"No, no. You've parcelled the twain together—very oddly, I confess. You've set their value at twenty thousand pieces, and for that sum you may have them, since you desire it; but you'll pay for them the twenty thousand pieces that are ultimately to come to you as the ransom of one and the dowry of the other; and that sum shall be divided among our crews. So that you do that, it is conceivable that our followers may take a lenient view of your breach of the articles we jointly signed."

Levasseur laughed savagely. "Ah, ca! Credieu! The good jest!"

"I quite agree with you," said Captain Blood.

To Levasseur the jest lay in that Captain Blood, with no more than a dozen followers, should come there attempting to hector him who had a hundred men within easy call. But it seemed that he had left out of his reckoning something which his opponent had counted in. For as, laughing still, Levasseur swung to his officers, he saw that which choked the laughter in his throat. Captain Blood had shrewdly played upon the cupidity that was the paramount inspiration of those adventurers. And Levasseur now read clearly on their faces how completely they adopted Captain Blood's suggestion that all must participate in the ransom which their leader had thought to appropriate to himself.

It gave the gaudy ruffian pause, and whilst in his heart he cursed these followers of his, who could be faithful only to their greed, he perceived—and only just in time—that he had best tread warily.

"You misunderstand," he said, swallowing his rage. "The ransom is for division, when it comes. The girl, meanwhile, is mine on that un-

Captain Blood had shrewdly played upon the cupidity that was the paramount inspiration of those adventurers. And Levasseur now read clearly on their faces how completely they adopted Captain Blood's suggestion that all must participate in the ransom which their leader had thought to appropriate to himself.

It gave the gaudy ruffian pause, and whilst in his heart he cursed these followers of his, who could be faithful only to their greed, he perceived—and only just in time—that he had best tread warily.

"You misunderstand," he said, swallowing his rage. "The ransom is for division, when it comes. The girl, meanwhile, is mine on that un-

derstanding."

"Good!" grunted Cahusac. "On that understanding all arranges itself."

"You think so?" said Captain Blood. "But if M. d'Ogeron should refuse to pay the ransom? What then?" He laughed, and got lazily to his feet. "No, no. If Captain Levasseur is meanwhile to keep the girl, as he proposes, then let him pay this ransom and be his the risk if it should afterwards not be forthcoming."

"That's it!" cried one of Levasseur's officers. And Cahusac added: "It's reasonable, that! Captain Blood

is right. It is in the articles."

"What is in the articles, you fools?" Levasseur was in danger of losing his head. "Sacre Dieu! Where do you suppose that I have twenty thousand pieces? My whole share of the prizes of this cruise does not come to half that sum. I'll be your debtor until I've earned it. Will that content you?"

All things considered, there is not a doubt that it would have done so had not Captain Blood intended otherwise.

of Levasseur.

"However," added Captain Blood, "I'll not dispute her to you if you are prepared to buy her."

"Buy her?"

"At the price you have set upon her."

Levasseur contained his rage, that he might reason with the Irishman. "That is the ransom of the man. It is to be paid for him by the Governor of Tortuga."

"No, no. You've parcelled the twain together—very oddly, I confess. You've set their value at twenty thousand pieces, and for that sum you may have them, since you desire it; but you'll pay for them the twenty thousand pieces that are ultimately to come to you as the ransom of one and the dowry of the other; and that sum shall be divided among our crews. So that you do that, it is conceivable that our followers may take a lenient view of your breach of the articles we jointly signed."

Levasseur laughed savagely. "Ah, ca! Credieu! The good jest!"

"I quite agree with you," said Captain Blood.

To Levasseur the jest lay in that Captain Blood, with no more than a dozen followers, should come there attempting to hector him who had a hundred men within easy call. But it seemed that he had left out of his reckoning something which his opponent had counted in. For as, laughing still, Levasseur swung to his officers, he saw that which choked the laughter in his throat. Captain Blood had shrewdly played upon the cupidity that was the paramount inspiration of those adventurers. DEATHS REPORTED

LATE WM. C. WILKIN
LEMESURIER, Sept. 30.—The funeral of the late Wm. C. Wilkin, who passed away on August 17, was held from his late residence on August 19. The service was conducted by the Rev. Jos. Rothera in St. Matthew's Church. The bearers were Messrs. Robert Cruickshanks, Gilbert Bailey, Johnson Beattie and Thomas Wilkin. The hearse was driven by deceased's nephew, Mr. James Cruickshanks, to St. James' Cemetery, Leeds Village, where the interment took place.

Mr. Wilkin was born on August 16, 1853, and spent all his life on the same farm. He leaves to mourn his loss his wife, two sons and four daughters, also one sister, and many other relatives. The funeral was largely attended. Among those from a distance were Mrs. E. Wilkin, of Granby, Mr. Wm. T. Wilkin, of Lowell, and Mr. W. L. Metcalfe, of Maple Grove.

WATERLOO NEWS AND PERSONALS OF INTEREST

General News Notes, Personals and Happenings of Interest to Waterloo Residents.

WATERLOO, Que., Sept. 30.—On Sunday morning, September 21st, a most impressive service was held in St. Luke's Church, when the members of Sherford Lodge, No. 18, A. F. and A. M., attended the harvest festival.

The spacious edifice was filled with visitors and members of the congregation. The church had been tastefully decorated with fruits, vegetables and flowers, by Mrs. James Davidson. Special music had been prepared by the choir. The Rev. Herbert Charters, rural dean of Sutton, occupied the pulpit, and preached a most appropriate sermon for the combined services. In the evening the service was again largely attended, the rector, Rev. F. W. Schaffter, officiating. The junior choir made its first appearance in surpluses. The singing in the procession by twenty-six sweet young voices was much enjoyed by all present. The dignified bearing of all added greatly to the impressiveness of the whole service.

Miss Marjorie Howitt left on Thursday to attend Toronto University.

Mr. George H. MacGuirk returned on Tuesday to his home in Fitchburg, Mass., after spending a few days with friends in this vicinity.

QUEEN'S GIFT IS WASTED ON ITALIAN GIRL

Queen of Italy Has Mother's Heart, But Her Munificence Miscarried.

(Associated Press Despatch)
ROME, Sept. 30.—Queen Elena of Italy has a mother's heart, and an exceedingly sharp eye for anyone, especially any child, who seems to be needy or in trouble. Recently when the Queen was motoring near San Rossore, the hunting lodge in Tuscany where the royal family spend the summer months, she saw a little girl eight or ten years of age, barefoot and clothed only in a few rags.

Calling the child, Queen Elena spoke kindly to her, asking her name and where she lived. The next day a grand footman brought little Bepina a parcel containing a pair of stockings, one of which was filled with sweets and cakes, while the other contained a purse with money to buy her a frock. A few days later the Queen received a letter, badly written and worse spelled, which said:

"Your Majesty:—Your munificence has caused me the greatest joy. My father has taken the money, my brother the cakes, and my mother the stockings.

"Your most devoted,
"Bepina."

Strict meeting held with Unity Lodge, Dunham, on Friday evening, report a very profitable and entertaining meeting, which reflects much credit on Miss Maud Selby, D.D.P., who had it in charge, as well as those taking part.

The annual harvest thanksgiving service was held in St. Paul's Church on Sunday, when the church was decorated with fruit, flowers and vegetables. Music suitable to the occasion was rendered by the choir. Rev. Canon Carmichael, rector, took charge of the service.

In the Methodist Church "rally day" was observed in the morning, when suitable music was rendered, the pastor, Rev. A. E. Hagar, taking the service.

Mr. Leon Desrochers, of Waterloo, who has been recently surveying into lots Mrs. Lynch's property on Lansdowne Road.

Mr. and Mrs. Wm. Cousins have returned to their home on Main Street after having charge at Knowlton Conference during the summer months.

Mr. and Mrs. J. A. Proctor motored to Barton, Vt., for the weekend with Mr. and Mrs. Will Proctor and family. They were accompanied as far as Newport by Mr. Leroy Bullard, who spent Sunday with his uncle and aunt, Mr. and Mrs. Earl Goddard.

Miss Barrall, of Montreal, is visiting Mrs. L. A. Boyd.

Miss Edith Owens left this (Tuesday) morning to resume her studies in Montreal.

Mr. Walter Mandigo, of Cowansville, was among the week-end guests here.

Miss Elizabeth Smith left Monday morning for Montreal, where she will spend some time at the home of her nephew, Mr. George T. Harris, while Mrs. Harris, accompanied by her mother, Mrs. Garland, of Portage la Prairie, is away visiting relatives and friends in Ottawa.

TRADING AGAIN DULL
ON MONTREAL EXCHANGE

(Associated Press Despatch)
MONTREAL, Sept. 30.—Early trading was again very dull this morning, and during the first half hour not one of the leaders displayed the slightest activity, the only change worth mentioning being a quarter point drop to 40 1/8 in Industrial Alcohol, which issue yesterday established a peak price for all time by selling at 40 1/8. Smelters, Steamships and Montreal Tramways were all unchanged at 44 1/4, 14 1/4 and 175, respectively.

INITIAL CHANGES WERE
SMALL ON WALL STREET

(Associated Press Despatch)
NEW YORK, Sept. 30.—Reactionary price movements prevailed at the opening of today's stock market, further selling apparently being induced by the stiffening of money rates. Initial changes, as a rule, were small. Oils continued to react on unfavorable trade news, and the low and medium priced rails fell back on profit-taking.

SENATORS AND GIANTS MEET IN WORLD'S SERIES

Washington Cinched American League Title Yesterday When They Trimmed Red Sox.

(Associated Press Despatch)
NEW YORK, Sept. 30.—The King is dead, and the kingmakers are at work behind the scenes preparing for the world's series convention which will name his successor. John McGraw, veteran Warwick of baseball, will nominate the Giants, candidate of the National League. Stanley Harris, a newcomer in diamond politics, will direct the campaign for the American aspirant, Washington.

Deliberations of the diamond congress will begin in the Capital City on Saturday and continue through Sunday, after which the struggle will be continued in New York. If more than four ballots are necessary, the fifth will also be taken here, and the sixth will be cast in Washington. The site for the seventh and final vote, unless a tie results, will be decided by the much-sought-after deity, the little god of chance.

The race in the American League, decided yesterday when Washington won from Boston by 4 to 2, was another victory for the tortoise over the hare. Washington, chronic tailender, a baseball wheeze as old as the mother-in-law, plodded along steadily; while the Yankee hare prowled on the sweet shoots of its reputation. It looked up, too late, and was pounced upon by its enemy, the Tiger, while racing through the jungle.

Harris, 28-year-old manager of the successful team which gave Washington its first pennant, climaxed his sensational season's work yesterday by giving evidence of mechanical as well as inspirational qualities.

In the final half of the ninth, with his team leading by 4 to 2, a Boston runner on first and one out, Harris picked a sharp grounder from the field just back of second base, touched the bag, pivoted and threw, almost without looking, to first, to complete a double play which ended the game and beheaded the king.

The White Sox defeated Detroit by 16 to 5 in a farcical contest which ended the season in Chicago. Pittsburgh winning 5 to 4, the National League season is over now. The American will end today with the Yankees playing a double-header at Philadelphia and Washington meeting Boston in a single contest.

FOOTBALL AND DANCE
EAST ANGUS, Sept. 30.—Circo Juniors were entertained on Saturday by East Angus Rovers, winners of the Junior trophy for this season in a benefit game for C. Phillips, who had the misfortune to fracture his leg in a league game earlier in the season.

Much interest was shown in this game by the supporters of football in East Angus and a large contingent turned out to see their favorites. The Rovers beat the Circo by 7 to 4.

The game was fast and interesting from beginning to end, each goal being visited in turn.

Mr. Rowlands refereed in a capable manner.

After the game the players were entertained at a dance in the Town Hall, at which many were present, and a right royal time was spent.

The proceeds, which were donated for Phillips, amounted to \$32.96, which was handed to Bobby Cutts, skipper of the Circo Juniors, who very fittingly replied, extending sincere thanks and appreciation to all who had so kindly helped to make this worthy object such a success.

LENNOXVILLE CLUB MEETS
A meeting of the Lennoxville Football Club will be held this evening at the clubroom. The meeting will open at eight o'clock sharp. All members are urged to be present.

RUGBY

BISHOP'S COLLEGE ARRANGES GAMES.

Bishop's University rugby team was badly riddled this year by Jun's graduation, but the usual games will be played notwithstanding. These include the two contests with the Quebec Swimming Club and two with the winners of the Montreal section of the Junior Intercollegiate League for the Provincial intercollegiate championship.

The first game with Quebec will be played in Lennoxville on Saturday afternoon, October 11th. The next week the local squad will travel to the Ancient Capital. Both of these are exhibition games.

On October 25th the Bishop's team travels to Montreal for its first league fixture, and on the following Saturday, November 1st, the same two teams will stage their second contest in Lennoxville. Thus local enthusiasts have an interesting programme of games to see.

Mr. MacDonald, last year's coach, is again on deck, and is busy every afternoon drilling his squad. Seven of last year's team are back. These include Captain J. Walsh, Cohen, Benton, Pickford, MacDonald, E. Almond and Irwin. Others who show promise are Thompson, who played with the college two years ago; Johnston, a brother of "Doc" Johnston, former Bishop's star quarter; Bowen, of

Learn To Know Poison Sumac And Ivy
—Then Beware

(Written for the Daily Record by Sylvie West.)

Autumn with her gay colors, hazy days and frosty nights, is nearly here, so near in fact that we may already see the crimson-tipped forests and the frost bitten foliage, while in the woods the waxy leaves are tipped with white.

At no time of year are Canadian landscapes more beautiful than in autumn, and it is not only the maples that give the gay touches of color. The beeches and birches add their yellows, while in hedges and along roadsides, in swamps and on hillsides, there are numerous shrubs which imitate their dignified relations, the leafy trees.

Before the Virginia creeper has painted the hedges and fences with her gay autumn colors, the sumacs have formed a "firing line," and are truly among our beautiful foliage, not only in this season of the year, but in winter and spring.

The staghorn sumac, with its red velvet topknot, sometimes called a "bob," is a handsome road and hillside shrub, and is much sought after for decorations; it is almost as popular as the pussy willows in spring. And herein lies a danger, because our beautiful staghorn sumac has a disagreeable relative, the swamp or poison sumac.

There is enough difference, however, between the two to save the suffering relative to sumac-poisoning if people who desire the pretty foliage, or who are addicted to browsing about in the fields and woodlands, would take a little trouble in getting acquainted with these shrubs, then be on guard.

Eastern Canada is fortunately very free from poisonous shrubs and plants and vines, but we have some. The two most notorious are poison

sumac and poison ivy. Both are to be found in woods and fields, along river banks and in swamps, but many outdoor people who know lots about everything do not know either of these pests when they see them.

Because of this lament, "I know what it means to suffer from ivy poisoning," is often heard. (Many times it is sumac-poisoning but they didn't know it.)

Comparisons Between the Sumacs.
An authority in a comprehensive article on "Our Poisonous Plants" says:

"Many a traveller among the forests and hedges has learned all he wants to know about poison oak, poison ivy, or poison sumac." In referring to misapprehension concerning these plants the writer adds:

"The legion of names applied to plants which poison by contact is apt to mislead one as to the actual number of such plants. They are all loaded with aliases and the names belonging to one are often applied to others. The favorite names are poison oak and poison ivy, both of which are badly chosen because not one of the poisonous plants is more closely related to the oak or ivy than to mahogany or walnut."

Poison elder, ash, or sumac come a little closer to the mark, and these, though usually placed in the poison oak class, are all sumacs, and with the poison ivy provides a menace throughout the eastern part of the Dominion, while the poison oak is confined to the regions west of the Rockies.

Poison sumac is the only one of the three that ever attains tree size, and that seldom. It is commonly a shrub a few feet high, with numerous stems branching from the ground, and thrives on marsh ground, hence its name—swamp sumac.

It is unfortunate that the harmless sumac, the staghorn, should become associated with and therefore shunned because of its notorious cousin, the swamp sumac. Often the harmless is avoided because of this fear, while at other times much suffering is caused through lack of fear—or rather lack of knowledge of the two kinds. The foliage of both is very attractive.

There are distinctive traits through which they may be designated, even by a casual observer. One easy to be remembered is this: Any sumac with red topknots or fruits is harmless. The poisonous sumac's fruit is whitish and droops like a bunch of grapes.

But as staghorns are not in bloom always, the careful person may look closer and observe these traits: If the branches are covered with fuzz extending over the growth of two or three years, there is no danger; it is a staghorn. Poison sumac's branches are smooth.

This test holds good in summer and winter, and may be relied upon to identify the good from the bad in all ordinary circumstances.

The dwarf sumac, however, often comes under suspicion for its branches are smooth, but here there is to be found a protection in the fact that the staghorn, which from eleven to thirty-one leaflets, and the dwarf sumac have pointed leaflets with teeth-like edges, while the leaflets of the poison species are blunter, fewer in number, and have smooth edges.

A botanist has other traits by which to designate these shrubs, but with the addition of the fact that the harmless sumacs are found on high dry places, hillsides and worn-out fields, and the swamp in marshy places, the comparative points given should prove helpful in locating the sumacs, good and bad, and prevent many from coming in contact with the poisonous kinds.

Poison Ivy
"That's not poison ivy; poison ivy has five leaves," has been declared by a would-be authority. But he is wrong. The writer of the article already referred to says:

"Poison ivy has compound leaves, three on a stem. They vary in form, but are generally shaped much like the leaves of a boxelder with rather deep sinuses. There is, however, a species of ivy with smooth edged leaves, otherwise shaped like those of the cottonwood, or Carolina poplar."

The ivy assumes two forms, one that climbs the tallest trees, usually dead ones. It is anchored to the wood by its thousands of rootlets, while this same virtue, or vice, is evident in the way it climbs fences, cliffs, walls, and anything with which it comes in contact. The only limit to its climbing protensities is height or length of the object to which it fastens itself.

The other form stands erect, is about three feet high, and spreads by means of underground roots, thus forming regular thickets particularly in dry and rather poor soil. Both kinds are dangerous and should be studied until the rambler feels well acquainted with them. It would also be of benefit to have sign boards placed where it is known these poisonous plants exist. Along river banks the poison ivy reveals in its profile power, and many a lad who has indulged in a dip in the river and dressed on the river bank has come in contact with the plant that causes severe suffering for a week or more, then it is claimed that about the same time next year the irritation will return. This is not disputed by medical men, though it has not been fully established by undoubted cases.

Poison ivy, it is stated, ranges from Nova Scotia to Wisconsin, crosses the Rocky Mountains and extends as far southward as the Gulf of Mexico. The leaves of this plant also take on the bright colors of autumn, while the fruit hangs like bunches of greenish white grapes about the size of elderberries. Birds feed on them in winter. The fruit of the poison ivy betrays its relationship to the sumac.

Traits and Tricks of Poison Ivy
Both poison ivy and oak have three leaves each; that is given as a fact that should always be remembered, as it would often save worry. The Virginia creeper, which is often called poison ivy through lack of know-

COULD NOT SAY THAT HE WOULD ACT FOR ULSTER

Hon. P. C. Larkin Says It Has Not Been Settled Yet Whether a Boundary Commission Will Be Formed.

(Associated Press Despatch)

CALGARY, Sept. 30.—Hon. P. C. Larkin, High Commissioner of Canada, who arrived here from the Pacific coast on Monday, in the course of an interview with the Canadian Press stated that he could not yet say whether he would represent Ulster on the boundary commission. "As a matter of fact," he said, "it has not been settled yet whether a boundary commission will be brought into being."

ledge of the two vines, has five leaves.

The danger of mistakes is greatest in autumn as the leaves of the poison species are fully as beautiful as the harmless ones, and are so often in places easy to reach. All parts of the shrubs, bark, wood, leaves and fruits, have the poison element, and it is present in the dead leaves and stems. It is considered by some that the most dangerous time is when the shrubs and vines are in flower, but this is only because the pollen may be carried by the wind and that the oil goes with it and attaches to whatever it touches. This is given as a reason that people with very sensitive skins often complain that just riding along a road where poison ivy grows will affect them. This coincides with the theory that if one gathers golden rod while in blossom there is more or less danger of becoming affected with hay fever.

It is remarkable that human beings are the only animals affected by these poisonous plants. Cattle, sheep, cows, goats and pigs browse about in thickets full of one or both and without doubt eat the leaves with no dire results. Birds eat the fruits during the winter months, thus keeping the prolific plants from multiplying too much, though there is a plenty of both species in our woods and fields.

One of the best protections is a knowledge of the plants, their homes and habits; also a personal effort to have others learn to know them, while the remedies for mild cases are to wash with soap and warm water as soon as it is known the hands or face are affected. If the victim does not recognize the poison until blisters appear this treatment would be useless and the best known is applications of sugar of lead, which is in itself a remedy which must be used with caution.

JAP SURVEYORS FIND OCEAN'S DEEPEST POINT

New Deep Has Been Discovered in the Pacific Within Hundred Miles of Japan Coast.

TOKIO, Japan, Sept. 30.—The lowest known point on the earth's crust, the deepest known trench in the ocean, lies about 145 miles southeast of Tokio. This discovery, made recently by the Japanese naval survey ship Manshu, has been announced by the navy authorities. The new "deep" measures 32,636 feet, or more than six miles. It exceeds by 548 feet the hitherto greatest known ocean depth, the famous Marianas trench in which the United States naval ship Nero in 1899 found 32,088 feet off the east coast of the island of Mindanao in the Philippines.

The Manshu's "deep" apparently lies at the bottom of a precipitous declivity descending sharply about 100 miles from the southeastern coast of the main island of Japan.

BY-LAW CALLING FOR BOND ISSUE

(Continued from Page 1.)

The committees appointed for the Street Railway protest and the valuation of the Workmen's dwellings will report shortly to the City Council what success they have met with.

Last night's meeting was presided over by Mayor William Brault and was attended by all aldermen, except Alderman Newton. There was a very small number of citizens present.

To the Japanese the first interest in the discovery lies in the seismic possibilities of this trench so near their coasts. The sharpness with which the ocean bed plunges a few miles from Japan is held by scientists to be a contributing factor to the severe earthquakes which visit this part of the country.
