PRICE ONE CENT

GROCERY BURGLARIZED.

Store of E. L. Denis & Co. Raided Last Night.

The Till Was Forced Open and About \$15 Stolen.

The grocery store of Messrs. E. L. Denis & Co., Wellington square, was raided by burglars last night. They apparently at first attempted to gain entrance by the window to the basement at the rear, and even broke a glass here, but it seems, abandoned the idea of entering this way, and piling up some boxes, reached the rear window of the grocery. They then succeeded in raising it.

This morning, when the store was opened it was found that the till had been forced open and about \$15 stolen from it. It is impossible to say whether anything else was taken or not.

They left no clue to their identity. This is probably but another operation of the burglar gang which is making a thorough tour of Sherbrooke stores. Scarcely a week passes but one or more stores are burglarized. This sort of things is becoming monotonous. If these burglaries are common, the adoption of this system, the public will have good reason for a vigorous protest. It is evident that such a service would be very much inferior to the one which has been given in the past, or which the Q.C.R. offered, viz., afternoon mail from Sherbrooke to Quebec, and morning mail from Quebec to Sherbrooke.

MR. J. I. AUDETTE DEPARTS.

Mr. J. I. Audette, accountant of La Banque Nationale, this city, left this morning to take charge of the new branch which the bank is about to open at Montmagny, Que. A number of his friends tendered him a supper at Victoria Restaurant last night, and extended to him their best wishes as he goes to his new and responsible position.

Among those present were F. A. Fleury, B. E. Precourt, A. Richard, W. C. Tracy, Leandre Olivier, A. Gilbert, G. A. Lableur, J. F. Leblanc, J. E. Genereux, Dr. Gadbois, Antoine Genest, A. H. Ginge, J. S. Blais, Dr. Genest.

Mr. J. E. Genereux presided. After the toast to the "Queen," had been honored, Mr. W. C. Tracy proposed that of "Our Guest." Mr. Audette replied, expressing his regret at leaving his friends in Sherbrooke, thanking them for their kind good wishes, and expressing the hope that distance might not prevent them from often meeting in the future. "The Medical Profession," was proposed by Mr. Tracy, and responded to by Dr. Genest, Dr. Gadbois and Mr. F. A. Fleury. "Commerce and Finance," was proposed by Mr. A. Richard, and responded to by Messrs. Genge and Blais. "The Ladies," proposed by the chairman, and responded to by Mr. A. Richard. Music was furnished by Messrs. Genge, Fleury, Tracy, Genest, Precourt, Blais, and others.

CONCERT BY STE. CECILE ORCHESTRA.

Successfully Given Last Evening in Aid of St. Jean Baptiste Society.

The concert given last evening by the Ste. Cecile orchestra, for the benefit of the St. Jean Baptiste Society, was very successful, both financially and artistically.

The opening number of the programme, "Vive la France" words by the Canadian Poet Laureate, Louis Fréchet, was exceeding well given by the Ste. Cecile Orchestra, and the Alibi Chorus. The orchestra, which is composed of mandolins, guitars, and violins, played a very sparkling waltz, assisted by Mde. Beaudoin on the harp, and Miss Lenthier of Boston, who played the guitar.

M. Charles de la Casiniere showed his mastery of the cornet in the solo, which he played, accompanied by the Harmonie Band, of which he is director.

The little comic operetta "Three Maids in the same Boat," was delightfully sung and acted by Mmes E. Tett and Ida Biron, and caused much amusement.

A "Fantaisie," followed by the Harmonie Band, which never played better, and the curtain rose on the drama in two acts, "Madeleine or the orphan of the Pyrennes."

The young ladies, who assumed the various parts, acted with much spirit, and displayed much dramatic talent. They were applauded to the echo. Miss Lenthier, of Boston, who is visiting in town, sang very beautifully, and kindly responded to a hearty encore.

The concert closed with "Canadian Airs" by the orchestra, and "God Save the Queen."

Q. C. MAIL SERVICE.

A Proposal Which Would Deprive Many Offices of the Prompt Delivery of Mails.

A mail car was placed on the Q. C. R. express this morning, from which mail was distributed, but only at the principal stations at which this fast express stops. The mail car will not be run on the Q. C. R. train this afternoon.

It now seems likely that the difficulty between the Q.C.R. and Post-office department will be settled by compromise, along the line of the service which is being given today. That is the Quebec Central will consent to run its mail car on the express trains, but will stop only at the important stations as provided for under the new schedule. The postal authorities will be obliged to make some special arrangements for distributing mail bags to the smaller stations at which the express trains do not stop. It would either be sent back on the next local train or delivered by special carriers.

If the difficulty is settled by the adoption of this system, the public will have good reason for a vigorous protest. It is evident that such a service would be very much inferior to the one which has been given in the past, or which the Q.C.R. offered, viz., afternoon mail from Sherbrooke to Quebec, and morning mail from Quebec to Sherbrooke.

On the part of the public, it does not seem as if there could be any possible objection to such a change in the service, but it is not difficult to understand how people living at points where the express trains do not stop, or people doing mail business with these places, would resent such a delay in their mails as would result should the proposed compromise be effected.

40,000 MEN FOR OTIS.

Decision Is Rendered as to Re-enforcements.

Washington, June 29.—Secretary Alger, Adjutant General Corbin and Colonel Bird, assistant quartermaster general in charge of transportation, had an hour's consultation with the President yesterday relative to the question of re-enforcements for Gen. Otis. A definite decision has been reached to continue recruiting men at all the recruiting stations for service in the Philippines, and Secretary Alger said when he left the White House after the conference that General Otis would have 40,000 men when the rainy season closed, for a resumption of active operations.

FIRE THREATENS A VERMONT SUMMER RESORT.

Bellows Falls, Vt., June 29.—The little village of Gratton, a summer resort twelve miles from here, was visited Tuesday by the most disastrous fire of many years. One street was partly burned out and long before the fire was quelled it looked as if the principal residential street was doomed. The fire started in a barn owned by W. G. Townsend on Chester street at the lower end of the village, and by the time the alarm was given the barn was enveloped in flames which spread rapidly to the Townsend residence. The adjoining house, owned by Mrs. Lucy A. Carpenter, was soon in flames. A strong wind was blowing which swept the burning embers to neighboring houses, and in a few minutes a half dozen roofs were blazing. Before this time the whole town had been aroused, and fearing the destruction of the village, a bucket brigade was hastily formed, which was joined in by summer guests from the hotel, who stripped off their coats and worked with telling effect. The utmost efforts failed to save the Carpenter house, which, with barn and contents, was totally consumed. The L. W. Tuttle house, next in line, was by this time burning furiously. So effective was the work of the bucket brigade, now augmented by scores of farmers who had driven in, that the fire was here controlled.

DOMINION PARLIAMENT.

Expected That It Will Prorogue Before the End of July.

Ottawa, June 29.—Intimation is given by the government that it is beginning to think of the close of the session. Sir Wilfrid Laurier gives notice that he will move on Friday that the last private members' day, Monday, will be taken as a Government day. There is a growing impression that prorogation will take place between the 15th and 25th of July.

The Redistribution bill will not, it is now said, prove the stumbling block, which was expected, and will only be debated in the Commons for a few days and sent to the Senate, where it will either be passed or killed without ceremony, and the estimates will not meet with any obstruction. Under these circumstances it looks as if there was a reasonable hope that the session, which is 105 days old today, has entered upon its last month. It is, however, but fair to say, that one or two members, if so disposed, may spoil this programme, and the Premier seems to be this into account, for he is said to be taking negotiating with the United States authorities for a further adjournment of the Anglo-American conference.

THE CITY WATER.

THE RECORD is in receipt of a letter in which the writer protests against the quality of water the city is now supplying to the public. He asserts that at present the water is being taken from below the dam, opposite the Bryant factory, and that the water at this point is impure, having received the output of three sewers which empty into the river above as well as the dye water from Paton and Lomas factories.

As the letter was of a somewhat startling nature, the health officer was seen this morning by a representative of the RECORD and the facts of the case ascertained. In effect, his explanation is this. In the improvements to the water system now being carried out, it has been found necessary to relay and lower the elevation of the intake pipe from the pumping station to a point opposite Paton Mills. While this is done, it was necessary to draw the water from a point lower down the river than formerly and as a matter of fact the water is at present being pumped from the wheel pit of the pumping station below the second bridge as stated by the correspondent.

The officer, however, states that the water at this particular point is practically as free from impurities as that in the river above owing to this fact. The Magog River, swelled by recent rains, is now high and the flow over the dam is large and the current swift, consequently whatever impurities are gathered from Paton and Lomas mills are swept down the river and over the falls without crossing the stream to the pumping station. There are no closets on the three sewers mentioned and very little refuse matter enters the river from them. This, he asserts, is also carried down the current and over the falls. The water which enters the flume of the pumping station is drawn from still water outside the influence of the current, and the health officer is confident that the public has no cause to doubt the purity of the water. The work will be completed in two days, when the water will be again taken from the upper river.

CONVERSAZIONE AT BISHOPS COLLEGE.

The conversazione at Bishops College last evening was attended by a number of Sherbrooke people, who went up in a special car, and by the residents and visitors to the pretty village, which is always thronged for convocation—the event of the year.

The conversazione was held as usual in Bishop Williams' Hall, and though there was no dancing, there was no lack of entertainment.

The College choir sang very acceptably, and there were also solos by members of the College.

Prof. Holmes and Miss Moréy played a duet for violin, which was received with much well-deserved applause.

During the evening the prizes for the games were presented by Mrs. Petry, the wife of the head-master. The medal for all around proficiency in athletics was won by Mr. Sims, who also will have his name inscribed in the gold cup, which is kept in the College.

At a late hour the very enjoyable function came to an end.

All the members of the court-martial have passed through the Polytechnic School.

LACROSSE.

The practice match between the National and Sherbrooke seniors which was fixed for last evening will take place tonight. The Nationals will line up a good strong team as they will play three or four men who have already played senior. The match will commence at 6.45, and as these matches are intended to give practice to the seniors for their match on the 8th, the executive intend to keep a sharp lookout for coming men; the team needs strengthening and practices of this kind may produce a few dark horses.

A small charge will be made to the grounds tonight, to help defray expenses for shoes and sticks.

100,000 FRANCS DAMAGES.

An Important Judgment in a La Bourgogne Collision Case.

Paris, June 29.—The action for damages brought by Madame Resal, as a result of the loss of her husband by the sinking of the French line steamer La Bourgogne, in collision with the British ship Cromartyshire July 4th, 1898, off Sable Island, Nova Scotia, has resulted in a verdict against the company of 100,000 francs. The plaintiff at the same time was debarred from claiming any money lost with M. Resal, which may hereafter be recovered. The court found the company responsible for the acts of the captain, who was declared to be at fault in not bringing his ship to a standstill after the collision, in losing time in launching the boats and in not furnishing the passengers with life boats.

FELL 10,000 FEET.

A Pretty Story From Vienna About an Aeronaut's Escape.

Vienna, June 29.—Signor Merighi, an Italian aeronaut, ascended Tuesday at Graz, Styria, to a height of 10,000 feet, when his balloon burst and fell. When about forty feet from the ground, the aeronaut leaped from the car, and was picked up unconscious with a broken leg. In the car was found a paper, containing the words: "I am dying contentedly, having reached my term." This led the belief that Merighi intended to commit suicide. He denies, however, any such intention, and says he wrote the sentence while the balloon was falling.

COLUMBIA FASTER.

New London, Conn., June 29.—In a 38 mile beat to windward yesterday the new yacht Columbia beat the old cup champion Defender, eight minutes, besides giving the old champion a two minute handicap. The race was from Brenton's Reef lightship, off Newport, to New London, a good 38 miles. Thirty-two miles was a beat to windward with such a stiff breeze blowing that neither yacht cared to carry a working topsail and it was in this kind of work that Columbia gained such a long lead; averaging a quarter of a minute faster each mile than the Defender.

CAPE'S PROTEST.

Government Must Stand by Sir Alfred Milner.

Cape Town, June 29.—A meeting of 4,000 Loyalists under the presidency of the Mayor of Cape Town, was held here last evening and adopted with the greatest enthusiasm resolutions supporting Sir Alfred Milner, Governor of the Colony, and British High Commissioner in South Africa, in his recent negotiations with President Kruger and thanking the Canadians and Australians for their offers of assistance. An immense overflow meeting was also held. The former, at which the Right Hon. Sir John Gordon Sprigg, former premier of the Colony, and numerous other political leaders were present, was addressed by several Johannesburgers, Sir Gordon Sprigg also addressed the meeting, declaring that unless Sir Alfred Milner was absolutely supported, there was danger that the Cape Colony would secede from the Empire. He declared himself convinced that Great Britain was solidly behind the Imperial Secretary of State for the Colonies, Mr. Joseph Chamberlain, whose recent speech before the Unionists of Birmingham, England, dealing with the Transvaal problem, he warmly commended.

NO MORE BAIT.

St. John's, Nfld., June 29.—In consequence of the French attitude and the attempts to make trouble for the colony along the Treaty Shore, the Colonial Government yesterday decided to absolutely prohibit the French from obtaining bait at ports along the Newfoundland coast. This policy meets with general approval. Today the Colonial Legislature voted additional sums to help enforce the bait laws. A stormy meeting is expected between the French commodore and the colonial authorities when the former arrives on Saturday.

To-day she confessed that she had set fire to the child's clothes with matches because she did not want to be bothered with him any longer. She also admitted that she had tried to set the house of her employer on fire since the child died.

The firemen responded quickly but the fire was under such headway that the stable was destroyed and the four horses burned to death before the flames were extinguished. The total loss will be about \$1200.

Newport, R.I., June 29.—Rear Admiral William T. Sampson, commanding-in-chief of the North Atlantic squadron, has obtained a month's leave of absence. The papers were received by the admiral from Secretary Long yesterday, and he will leave on Wednesday, July 5. It was learned almost directly from the admiral himself that his health is good, notwithstanding reports to the contrary, but he is very tired, having been in continuous service of the most arduous kind for more than a year. He consequently feels the need of rest. During his absence Captain Henry C. Taylor, of the "Indiana," will be in command of the squadron. On July 3, the anniversary of Santiago; the officers of the fleet will give the admiral a dinner on the quarter deck of the Texas.

MEETINGS OF CORPORATION AND CONVOCATION.

Prize List and Examination Results in Arts and Divinity.

This is convocation day at Bishops College and the distinguished gentlemen who are to receive honorary degrees from the University and many others from a distance are present to participate in the closing events of the scholastic year.

His Lordship, the Bishop of Niagara, arrived last evening, and this morning preached the annual university sermon.

The annual meetings of corporation and convocation were held yesterday, the former being of more than usual length and much important business was transacted.

A committee was appointed to arrange for at once beginning the work of remodelling the dining hall and lecture rooms, this being a part of the plan in connection with the Hamilton memorial.

Arrangements were made to have the University represented at the Paris Exposition, in 1900, by documents, photographs, views, etc., illustrating the character and work of the institution.

The proposal for a new honor course in English, in addition to the present honor courses, was brought before the meeting and adopted, in the form of a new professorship, Mr. L. R. Holme, B.A. (Camb.), late Hulsean prizeman, was appointed professor, and arrangements were, also, made for an assistant lecturer. This new departure has been made possible by the bequest of \$25,000 under the will of the late Dr. Robert Hamilton.

A meeting of convocation followed that of corporation, at which the various degrees, which will be conferred this afternoon, were finally passed and other usual business transacted.

Below are given the prize list and examination results of the Arts and Divinity courses:—

The morning session was called to order at 11 a. m., and after appointing a nominating committee, etc., the council adjourned until 1.30 p. m.

There were present at this meeting nineteen delegates, besides visitors and members of the various councils represented, viz. Cookshire, Sawyerville, Bury, Milan, Brookbury and Scotstown.

The committee on "State of the Order" reported an increase of membership and greater interest manifested in the work.

Several valuable suggestions were given by the "Opening and Resuscitating Councils Committee" as to means of furthering the cause; one of which was that open temperance meetings should be held in outlying districts with a view to increased interest in the Royal Templar movement.

Mrs. W. F. Bowman was appointed to represent the District Council at the W.C.T.U. Convention then in session at Compton.

In the evening an open meeting and entertainment was held. Bro. J. A. M. Rankin acting as chairman.

THE CHICAGO SAILS FOR DELAGOA.

American Cruiser to Protect American Interests in the Transvaal.

Washington, June 29.—The Chicago sailed Monday from Tamatave, Madagascar, for Delagoa. The ship was on her way around the Cape of Good Hope to Brazil, but owing to the unsettled state of affairs in the Transvaal, she will be retained in that vicinity as long as may be necessary to afford protection to the American interests in that quarter. These interests are considerable.

Accidents are occurring continually at the G.T.R. iron bridge. A couple of days ago one of the workmen had a finger taken off.

The funeral of the late Mrs. Osman Armatage, who died at her husband's house here on Monday last, of consumption, took place yesterday morning, to the Trenholmville Cemetery. The funeral was an exceedingly large one, testifying to the respect and esteem in which the deceased was held. We tender our heartfelt sympathy to the bereaved husband and family in their sad affliction.

COMPTON.

June 28.—The Township valuator completed their task yesterday. They report that the crops throughout the township have suffered very much from lack of rain, and that the hay crop will be light.

Mr. Wm. Johnstone cut his foot very badly with an axe last Saturday, which will prevent him from taking an active part in the haying. On the same day Mr. Fisk, from Johnville, had three fingers cut from his right hand by a planer.

Mrs. Tylee and son have returned from Boston.

Mr. S. L. Pomeroy has had several sheep and lambs killed by dogs.

Prof. O. S. Taylor was here yesterday, to see if a chorus could be gotten together to practice first-class music for about ten weeks, and then to give a concert. All interested in music from Compton, Moes River, Martinville, Johnville, Waterville, etc., are requested to meet the Prof. at the new hall, Compton Village, on Wednesday, July 5th, at 7.30 p.m. for the object of forming a chorus, as above. It is hoped that there will be a good turnout of singers on the above date.

MARTINVILLE.

June 22.—Wednesday afternoon, June 21st, the Regular Baptist Ladies' Aid and the Methodist Aid of this village met at the home of Mrs. F. Brown. There were twenty-eight present and a pleasant afternoon was spent.

Our municipal valuator returned home to-day, having completed their duties for this year.

In traveling over this township we find that the south side has received more rainfall than the middle and northern part as is evidenced by greater growth of farm crops.

DOMINION DAY.

The request of the Mayor, expressed by proclamation, to observe Saturday, July 1st as a public holiday, will doubtless be heartily acquiesced in by the citizens of Sherbrooke. It is Canada's national holiday; marking the 32nd anniversary of the confederation of the Dominion of Canada. The confederation at first consisted of the Provinces of Ontario and Quebec, or Upper and Lower Canada; but other Provinces have since been admitted, so that the term Canada is now practically co-extensive with British North-America, Newfoundland alone, of all the British possessions on the North-American continent, not being included within the Confederation. Let all loyal citizens, therefore, irrespective of religious or political differences, unite in observing and celebrating a day of such national importance in a fitting manner.

"Hurrah, hurrah for Canada!
Her woods and valleys green;
Hurrah for dear old England,
Hurrah for England's Queen."

EARTHQUAKE AT SEA.

San Francisco, June 28.—Captain C.H. McLeod, master of the American bark Rufus B. Wood, reports having experienced a violent earthquake shock at sea on April 2. The bark was on the way from Sidney, Australia to Tahiti. The jar was so severe that the captain thought he had struck a reef.

STEAMER PAWNEE BURNED.

Bound From Charleston to Boston. New York, June 28.—The Savannah line steamer City of Macon, Captain Savage, which arrived early yesterday morning from Savannah, reported having on June 26, at 8 a. m., about 40 miles east of Cape Henry, sighted the Clyde steamer Pawnee, from Brunswick, Ga., and Charleston, S. C., for Boston on fire.

There was no sign of life on board nor any evidence of what had become of the ship's crew.

At the office of William P. Clyde & Co., the agents of the line, all that could be learned was that the Pawnee, in command of Captain Ingram, left Brunswick on Friday and Charleston on Saturday for Boston, laden with lumber and a general cargo. The Pawnee was a freight steamer and had a crew of about 24 men and carried no passengers.

She was valued at about \$10,000 and was insured.

Captain Savage said that two or three hours earlier in the morning he passed the Cromwell liner Knickerbocker, bound for New Orleans, and also another south-bound Clyde liner, whose name he was unable to make out.
