REINFORCEMENTS ARE TO BE SENT TO IRELAND Estimates Of Public Works Department Were Taken Up

THE PUBLIC WORKS DEPARTMENT ESTIMATES TAKEN UP YESTERDAY; MR. LAPOINTE ISSUES A PROTEST

Opposition Members Claimed that Government Supporters Had Rushed Into Chamber to Vote, But Did Not Know What They Were Voting About—House in Supply on the Estimates of the Department of Public Works—A Motion by F. F. Pardee (Lambton West) to Reduce the Vote of \$95,000 for Harbors and Rivers Generally to \$50,000 Was Defeated, Yeas 35, Nays 44.

(Special to The Sherbrooke Record)

OTTAWA, Ont., May 28.—The House of Commons, yesterday afternoon, voted money rapidly. With Public Works Department estimates under consideration, for a time there was considerable criticism, and Fred Pardee, of West Lambton, moved to reduce by \$45,000 a vote of \$95,000, for harbor and river improvements. There was some hubbub when a vote on the motion was taken. Opposition members claimed that Government supporters had rushed into the chamber to vote, but did not know what they were voting about. The motion was defeated by 44 to 35 and the item passed.

Subsequently votes for public works passed with little debate. When a million dollars vote for restoration of the Ottawa Parliament Buildings was under discussion, Hon. F. B. McCurdy, Minister of Public Works, announced that the tower would be completed in two years. A section would be constructed each year. On the face of the tower would be the inscription "Give the King thy Judgments, O God, and thy Righteousness unto the King's Son." On one side, "Where there is no vision, the people perish"; on the other, "He shall have Dominion from Sea to Sea."

The vote for restoration on the Parliament Buildings was still under discussion at six o'clock when the House adjourned for the evening recess. Public Works estimates gave way to those of the Naval Department at the night sitting, so this item stands for the present.

MONEY FOR HARBORS AND RIVERS IN PROVINCES WAS VOTED

The first item under discussion related to harbors and rivers in the Province of Ontario, the total vote for this purpose being \$370,850. This item carried and the House then considered votes of \$37,000 for harbors and rivers of Manitoba and \$20,000 for Saskatchewan and Alberta, both of which passed, with practically no discussion. A vote of \$259,050, for British Columbia harbors and rivers was then taken up.

An item of \$8,500 for a floating wharf at Boswell, B.C., prompted Ernest Lapointe (Quebec East), to ask if this was new construction.

Mr. Lapointe protested against money being expended on new construction at a time when the country was in great need of money. Public works in Quebec had been allowed to stand over since the war.

Mr. McCurdy explained that this wharf was to replace one which had been destroyed. It could hardly be classed as new construction.

NO FURTHER LEGISLATION DURING THE PRESENT SESSION

Premier Meighen gave notice of an amendment to the Senate Lake of the Woods Bill. This amendment provides for paying administration costs out of unappropriated money.

The Premier also stated that there would be no further legislation brought down by the Government at the present session.

Notification of a conference between the Senate and the Commons on the Judges' Act was given by Hon. C. J. Doherty, Minister of Justice. The bill to amend the Penitentiaries' Act was dropped.

Consideration of a vote of \$2,500,000 for the maintenance of the Royal Canadian Navy was postponed on motion of Hon. C. J. Ballantyne, Minister of Naval Affairs.

THE SENATE KILLED THE RESEARCH INSTITUTE BILL

In the Senate the Senate killed the bill creating a National Research Institute by a non-party vote of 34 to 16. The measure was rejected on an amendment moved by Senator Dandurand.

Debate was adjourned on the second reading of the Copyright Bill.

Senator Casgrain's motion that "the presence in the Council chamber of a minister affiliated to an international union is a menace to Canada," was allowed to stand. The Senate adjourned until Monday at eleven o'clock.

PREMIER MEIGHEN REPLIES TO ONTARIO PROTEST

(Associated Press Despatch) OTTAWA, May 28.—That the Federal Bill representing the Lake of the Woods Control, to which the Provincial Government of Ontario is objecting, provides no more than to take power to exercise the jurisdiction of the Dominion in respect both of the navigation and of the International obligations, was the reply of Premier Meighen to protests from Hon. E. C. Drury, Premier of Ontario. This is indicated in recent correspondence on the subject, tabled in the house yesterday by the Premier.

The correspondence includes a series of telegrams and letters from Mr. Drury and Hon. T. C. Norris, to Right Hon. Arthur Meighen, and his replies to the same.

1.—The number of civil servants in the inside service in each department of the government on December 1st, 1920.

2.—How many days absence, exclusive of regular holidays were recorded in each department for the year 1920.

The total number of employees shown by the records of the different departments was 8,970 and the total number of days absence reached 126,442 1-2. In some cases this included sick leave, and retiring leave, and in all others leave on full pay or on half pay and leaves without pay.

The figures placed before Dr. Steele in the return showed post office department leading in the matter of absences. In that department with 1,028 employees, there were 23,378 lost days. Interior departments with 1,279 employees came second with 20,366 days absence.

Others in order were: Pensions Board, 525 employees and 10,611 days absent. Militia and Defence, 1,236 employees and 8,499 days absence. Public Works Department, 307 employees and 7,568 days absence. Trade and Commerce, Customs and Inland Revenue, Department of Soldiers' Civil Re-establishment and Finance Departments each had over six thousand days absence.

At the very bottom of the list the only department with less than fifty lost days, stood the Royal Canadian Mounted Police, with fourteen employees on the inside service and one and half lost days outside of the regular holidays. In the records of several departments there was specified the number of days for which pay had been deducted.

It decided at its meeting this forenoon, however, to obtain further information desired before taking definite action.

POLLING TAKES PLACE TODAY AT YAMASKA

Three Candidates in the Field—A Large Vote Is Expected.

(Associated Press Despatch.) MONTREAL, May 28.—Polling is taking place at Yamaska, Quebec, today to fill the vacancy in the House of Commons caused by the death of Oscar Gladu, Liberal member for that seat.

Three candidates were nominated: A. A. Mondou, Conservative member of the House from 1911 to 1917. M. A. Boucher, notary, Liberal. Joseph Lambert, Farmer.

In the campaign fight, Mr. Mondou has taken his stand on the protectionist policy of the Meighen government.

The Liberal platform campaign has consisted very largely of denunciations of the Meighen Government. Mr. Boucher, when touching on the tariff, has announced himself in favor of moderate protection.

Mr. Lambert has attacked both Liberals and Conservatives. A large vote is expected to be brought out, as the weather is very fine.

LENINE'S NEW POLICIES MEET WITH APPROVAL

Resolution Passed Calls for the Application of New Capitalistic Reforms in Soviet Laws.

(Associated Press Despatch.) RIGA, May 28.—Premier Lenine, of Soviet Russia, won complete approval for his new policies at the final session yesterday of the All-Russian Trade Union Congress, before which he spoke outlining plans to pull Russia through the present chaos by reforms, all of which are to be so controlled as to avoid a complete return to capitalism.

His draft of a scheme whereby the Central Council of Labor and Defence is to be set up as a centre from which instructions on how to carry out the reforms would be sent to all local Soviets throughout Russia, was supported in a resolution, and to the Laborites was given the opportunity of naming a commission which will work out the details together with the Council of Labor and Defence.

According to limited extracts of Premier Lenine's speech received from Moscow, the resolution calls for the application of new capitalistic reforms in the Soviet laws, among other things, with the management of problems relating to exchange of goods and the independence of the peasants. M. Losowsky, closing the congress, urged the delegates to hold closer together in order to "step forward in the struggle for a new Socialistic Republic."

The British Government Has Decided To Strengthen The Crown Forces In Ireland

It Is Stated that Reinforcements to Be Sent Will Be Considerably Less Than Fifty Thousand in Number, As Not That Many Troops Are Available—May Extend Martial Law to Whole of Ireland, With Exception of Ulster.

LONDON, May 28.—The Government's policy for "the stronger repression of the criminal element in Ireland" as it is phrased in authoritative quarters, involves the strengthening of the Crown forces in Ireland with military reinforcements, which will be drawn from units now in foreign service.

No increase of the auxiliary police or "black and tans" or of the constabulary is contemplated, it is declared.

There is some likelihood of the extension of martial law to the whole of Ireland, with the exception of Ulster, it is indicated, but the initiative rests with General Sir Nevill Mac-

SULPHITE MILL AT WINDSOR WILL CLOSE

Result of Recent Judgment of Brown vs. Canada Paper Co.—Fifty Men Will Lose Jobs.

WINDSOR MILLS, May 28.—(Special)—It is learned that the Canada Paper Company has received notice that the execution of the judgment in the case of Brown vs. The Canada Paper Company is to be effected at once.

The company is, consequently, notifying its employees of the sulphite mill that under the circumstances it is obliged to close the mill and discontinue its services. About fifty men will be thrown out of employment.

The paper mill will continue as before, but the sulphite mill will close.

It will be recalled that Mr. A. J. Brown, K.C., took action against the Canada Paper Company to compel them to discontinue the sulphite process on the ground that the odor was offensive. The case went through several courts with recent judgment in favor of Mr. Brown.

The situation resulting is extremely unfortunate from an industrial point of view, as many workmen will be thrown out of employment through the closing of the sulphite mill.

Premier Lloyd George Urges Miners And Mine Owners To Establish A Commission Empowered To Definitely Settle Strike

Suggestions from Owners and Workers, by Which a Real Settlement of the Miners' Strike May Be Achieved, Were in the Hands of British Premier Today—The Attitude of the Parties Involved in the Strike, Regarding the Premier's Programme, Was Not Certain Today.

(Associated Press Despatch.) LONDON, May 28.—Suggestions from British Mine Owners and the Miners' Federation of Great Britain by which a real settlement of the miners' strike may be achieved, were in the hands of Premier Lloyd George today. He held separate conferences with the principals in the strike yesterday afternoon, and it was understood he received from them details of the positions they had taken.

Mr. Lloyd George made it clear yesterday that an agreement merely to end the present strike, which began April 1, was not the primary object he had in view, declaring the mining industry must be free from periodical crises. He urged the miners and mine owners to establish a Commission that would be empowered definitely to settle the strike, or at least determine whether it was possible for an adjustment of the controversy to be reached. He suggested that such a commission be given a stipulated time in which to submit a report. In the event that an agreement was possible, there would be no occasion for further general parleys, but if a settlement should not be reached, he said, he would have a new suggestion to make.

The attitude of the parties directly involved in the strike regarding the Premier's programme was not certain today, but it was expected there would be some intimation of the sentiment on either side before night.

Action Taken by U. S. Government Officials by Order of President Harding.

(Associated Press Despatch.) PHILADELPHIA, May 28.—All the property of Grover Cleveland Bergdoll, draft evader, who is now in Germany as an escaped convict, was seized here yesterday by Col. Thomas W. Miller, alien property custodian for the United States Government, by order of President Harding.

The value of the seized estate owned by Grover Bergdoll is estimated at \$836,226.30.

WOULD DIVIDE SILESIA INTO THREE ZONES

French Government, However, Is Opposed to Latest Plan to Settle Controversy.

(Associated Press Despatch.) PARIS, May 28.—Division of Silesia into three zones, one under Polish authority, another under the jurisdiction of Germany, and the third to be governed temporarily by the Allies was discussed by the Council of Ambassadors here today. This proposition has been urged by Italian and British representatives on the Silesian plebiscite commission, who assert that it would afford a means of bringing about peaceful conditions in that district.

It was understood that France would make representations in opposition to the plan, Mr. Briand's Government considering it as prejudicial to final allocation of Silesia, and the determination of the border between Poland and Germany in that troubled region.

British troops have arrived at Oppeln from the Cologne bridgehead, and Oppeln despatches indicate the soldiers will be sent to Kreuzberg for the purpose of suppressing the Polish insurgents there.

SUMMER SCHOOL FOR TEACHERS AT MONTREAL

(Associated Press Despatch.) QUEBEC CITY, May 28.—At the quarterly meeting of the Protestant Committee of Public Instruction, a resolution was passed expressing regret at the death of Hon. Sydney Fisher, and calling attention to the deep interest which he had always manifested as a member of the committee in the cause of education, and particularly in the rural schools of the Eastern Townships.

A resolution of condolence was also passed, to be forwarded to the relatives of the late principal master of the Concook Academy.

Arrangements were made for the holding of a summer school in Montreal for teachers, who wish to obtain a better speaking knowledge of French. A report was tabled by the secretary, Dr. C. W. Parmelee, embodying the expressions of appreciation of the various provinces who visited Quebec some months ago, and were very much impressed by the education system here.

A SERIOUS MOTOR ACCIDENT TOOK PLACE LAST NIGHT ON WELLINGTON STREET; MAN KILLED AS A RESULT

Austin Woodrow, of East Angus, Killed When He Smashed Into a Lennoxville Street Car—Tried to Pass Another Cart Loaded With Furniture—Skull Was Fractured by Throw Against Curbstone—Died at Noel's Hospital Shortly After Arrival—Inquest to Be Held This Afternoon.

A SERIOUS motor accident occurred yesterday evening at eleven twenty, resulting in the death of Austin Woodrow, a young man of thirty-two years old, while his brother Arthur escaped with minor injuries.

The two brothers were returning to East Angus and as they drew near the Regal Tire and Rubber Company's plant, Austin Woodrow, who was driving, tried to pass Mr. McHarg, who was moving a load of furniture to No. 252 Wellington Street.

Arthur told his brother to watch out for a street car which was coming in the opposite direction, and Austin replied "we will try to make it here," these were his last words. The car smashed into street car No. 20 which was travelling at a fair rate and Austin Woodrow was thrown over the back of the car, hitting his head against the curbstone, fracturing his skull.

His left foot was evidently caught in the pedals as the impact pulled his boot right off.

An ambulance was immediately called for and both Lord's and J. Albert's appeared on the scene. The injured man was attended by Dr. Ethier and taken to Dr. Noel's hospital but died within a few minutes without gaining consciousness. His body was subsequently removed to the morgue.

His brother, Arthur, escaped with a few minor injuries and after accompanying his brother to the hospital returned to East Angus, where the boys lived with their father, Mr. Oscar Woodrow.

The car, a "490" Chevrolet was a total wreck, while the street car had an apron broken but no other damages of consequence.

The deceased who was a young man of thirty-two years old was unmarried and was very well known in East Angus where he lived with his father and brother.

The inquest will be held this afternoon at 3:30 p.m. after which the body will be taken to East Angus and the funeral will be held on Monday afternoon, at 1 o'clock (standard time). The interment will take place in the Westbury cemetery.

GOVERNMENT REPROACHED BY LADY ASTOR

Stated Speech Was in Some Ways the Best Ever Made by Lady Astor.

(Associated Press Despatch.) LONDON, May 28.—Lady Astor, in a speech in the House of Commons yesterday, reproached the Government for what she termed its failure to realize the awakened conscience of the country on the subject of maternity benefits. She suggested that before the bill providing for the care of working women during maternity was rejected, a committee representing women's societies should be appointed to see what could be obtained from the maternity convention at Washington.

Lady Astor said she regretted the British Government's apparent apathy concerning the League of Nations, and declared she believed the women of the United States sooner or later would get their country into some sort of a league.

If there was failure to have an international labor conference through the League of Nations, such a conference would come through the Third Internationale, the speaker asserted.

The lobby correspondent of the London Times says the address of Lady Astor was in some respects the best she ever made, especially where she extolled the heroism of motherhood.

The correspondent also mentions that when Lady Astor was unable to find a passage she desired in the parliamentary reports, she threw the book to Lord Robert Cecil, exclaiming, "Find it for me, Bob."

"This," the correspondent adds, "is the sort of thing that makes history."

The Japanese Tariff Schedule Has Been Revised With View To Restrict Imports As A Means Of Stabilizing The Exchange

The Tariff, It Is Said, Was Designed to Protect Certain Local Industries—New York Advises State that Certain Canadian Manufacturers Would Probably Be More Seriously Affected Than Those of United States by the New Law.

(Associated Press Despatch.) NEW YORK, May 28.—A revised custom tariff law and a new revised import tariff schedule will be put into effect June 1 by the Japanese Government, says advice received here by Consul General Kumasaki, from the Tokio foreign office. This law was revised at the session of the Japanese Diet this spring.

It is understood here that the Japanese tariff has been changed with a view to restricting imports as a means of stabilizing exchange. By reducing imports Japan hopes to build up her trade balance, and with it exchange quotations with other countries. The tariff, it was said, was designed to protect certain local industries, particularly those engaged in the production of zinc, steel, industrial chemicals, iron and steel.

Manufacturers of Canada, it was added, would probably be more seriously affected than those of the United States by the new law.

EXPEDITION OF THE 'ARCTIC' IS CANCELLED

Considerable Surprise Expressed in Shipping Circles Yesterday Over Order from Ottawa.

(Associated Press Despatch.) QUEBEC, May 28.—Considerable surprise was expressed in shipping circles here yesterday, when it was learned that orders have come from Ottawa, cancelling the proposed expedition of the steamer Arctic, which has been reconducted here at the cost of one hundred thousand dollars and thirty thousand dollars worth of provisions had been purchased for her, to sail in two weeks time for the Arctic regions.

The Quebec Chronicle, which will publish an article giving the above news adds that the Arctic is not being prepared for patrol service on the Mackenzie River as was thought all along, but for a more important mission. The plan was, it is said, to have her sail for the Arctic Islands in the region of Ellesmere land, where a wealth of oil and coal has been discovered, and to plant the British flag there.

The Chronicle also learns that the American and Danish Governments are organizing expeditions to race for the possession of the Islands in question, and says that under such circumstances it is all the more incomprehensible why the Canadian Government is abandoning the expedition.

HAD MADE HIM FEEL JUST LIKE NEW MAN DECLARES GIBBONS

Winnipeg Citizen Says He's Brimful of Life and Energy Since Taking Tanlac

"When it comes to building a man up and making him feel like a new man, I have found Tanlac is in a class by itself," said Stanley Gibbons, 388 Tupper St., Winnipeg, a pipe-fitter for the Grand Trunk Pacific Railroad.

"For the first time since I had the flu I am feeling like my old self. For nearly three years I was in bad shape. Everything I ate soured on my stomach which bloated up so bad at times I would have to let out my belt. Sometimes I would be in misery for hours after a meal, and, in fact, suffered so much I dreaded to eat anything. I was worried and nervous and actually dreaded to see night come as I knew it meant lying awake most of the night with my eyes wide open.

"A good friend told me about Tanlac and I had made me feel like a new man. I have a dandy appetite now, eat anything, and am never bothered with indigestion. I am sleeping like a log, too, and gaining in weight and strength every day. I'm brimful of energy these days and feel good all over, even to my finger tips. Tanlac certainly delivered the goods for me."

CATARRHAL DEAFNESS MAY BE OVERCOME

If you have Catarrhal Deafness or are even just a little hard of hearing or have head noises go to your druggist and get 1 ounce of Nujol (double strength), and add to it 1-4 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone losing hearing or who has Catarrhal Deafness or head noises should give this prescription a trial.

The Town is putting in a new sidewalk on the west side of Main Street to replace the old wooden sidewalk. The earth is being dug out a foot or so deep. Stones are then put in and covered with a good coating of gravel. Cement or concrete will cover the gravel from the railway crossing as far as Durand's store at the corner of Charles Street, and from there as far as Victoria Street a good coating of gravel will be laid on the stone foundation and rolled down hard, as has been done on other sidewalks on several other streets in town.

The time of departure from the wharf was set for 9 a.m. The day was all the heart could wish for, cool enough to be comfortable after a sharp frost in the early morning, and the lake quiet and smooth. The day was spent with the usual picnic games and recreations, and everybody thoroughly enjoyed themselves. Dinner was served at one o'clock and supper at five. The mayor and aldermen, with the Rev. Father Bernier, the cure, and others, were entertained by the college boys

and their teachers as their guests for the day. After supper many commenced to gather near the scow and motor boats to prepare for a game. A notable feature in connection with the games was a baseball game between Agnes and Megantic, which ended in favor of Megantic. A start for home was made about 7:30 p.m., with the scow illuminated with Chinese lanterns, etc., and as they passed the cottages near Smith Point, a splendid illumination greeted the picnickers from the shore, with lanterns, bonfires, etc.

The Masonic service in Trinity
Church on Sunday afternoon was
one long to be remembered. The
brethren, to the number of about
fifty, marched in procession from
the lodge room to the church, where
a goodly number had already gath-
ered. The service was bright,
and the voluminous singing of the
familiar hymns made it very im-
pressive. The sermon was based on
the text, "Let your light so shine be-
fore men that they may see your
good works and glorify your Father
which is in heaven." There were
two features to it. In the first place
the picturing of the light of Ma-
sonry made one feel that member-
ship is a great honor. The second
feature was that the responsibility
attached to membership in an asso-
ciation of such high ideals is re-
markable, and that only through
close fellowship with God could one
have grace to fulfill his obligation.
During the offertory a quartette
sang very beautifully "His Grace is
Enough for Me." The lodge made
a striking appearance in procession,
and the whole ceremony was very

AN URGENT MATTER.

It is presumed that the city authorities will not delay in correcting the sanitary abuses pointed out by Dr. Chabot, of the Provincial Board of Health, on his visit last week. Thirty days should be ample time for this work which has such an important bearing upon public health. Some matters, such as the open sewers on Bowen Avenue and Richmond street and the emptying of sewerage upon the river banks instead of in the stream itself should be attended to without a day's delay. A little more time might be taken with regard to some of the refuse dumps as the menace is, perhaps, slightly less in this connection.

Should there be more than reasonable delay in this matter there is scarcely any doubt that individual citizens will act along legal lines to bring about a correction of the evil.

It can hardly be anticipated, however, that such a course will be necessary.

THE BY-LAWS.

The vote on the five by-laws is interesting when submitted to analysis. In the first place, the West Ward Fire Station was the weakest in its appeal to the ratepayers.

The \$10,000 item voted two years ago, and with regard to which vague explanations have been given, resulted in a coldness on the part of the electorate. Besides, many felt that the expenditure and the annual fixed charge which must follow could be avoided at the present. This opinion was voiced by 207 ratepayers who voted against.

It was, however, rather surprising to find that in point of unpopularity, the Weedon Dam by-law stood next, with 160 ratepayers voting against. The Electric Department might be justified in accepting this as a warning that the citizens are becoming restless under this expenditure at Weedon. Particularly are they doubtful of the cost plus plan which is being followed in the construction work and dissatisfied with the careless estimates of costs which have been made with regard to this work and which has resulted in recurring by-laws seeking more money.

The City Hall by-law was marked by many for defeat but passed, the adverse vote being 156. A good many citizens doubt that the building can be erected for \$75,000, and ratepayers will be interested in following this matter. Time will tell whether the "Ayes" or "Nays" are right. "I told you so," will be in order should another by-law come along later for more funds as is the case with the Weedon Dam and West Ward Fire Station.

The Paving and Sewer by-laws received the largest votes, indicating that the ratepayers are most nearly unanimous regarding the questions of better streets and improved sanitary conditions.

There are evidences of an awakening of public interest in civic affairs and it would not be surprising if ratepayers watch the expenditure of monies they have just voted more closely than they have done in the past. It is to be hoped such will be the case for here lies the best hope of wise administration at the City Hall.

On Saturday afternoon, May 21st, there passed away a well-known and highly-respected resident of this place in the person of Mrs. W. J. Morrison (nee Petrey). Her illness was of short duration, as she had been out calling on a friend two days previous to her death, although for some years she had been in very poor health, and her death was due to an enfeebled physical condition. She leaves to mourn her loss her husband, two daughters, Miss May, at home, and Mrs. H. A. The Safety of Mutual Insurance

THERE is no safer investment than life insurance.

If the Mutual Life of Canada were to stop selling life insurance and just continued in force the policies now on the books, the resources of the Company would not only pay all claims as they occurred, but there would remain a splendid surplus to be distributed in the form of dividends.

As a proof of the safety of Mutual Life Insurance, let us see how the immense assets of the Company are invested.

Government Bonds.....	\$7,21,631.55
City Debentures.....	2,504,151.94

Among all these millions, there are no speculative securities. Safety First, Last and All The Time is the motto of the Mutual Life of Canada.

As an additional precaution, the investments are widely distributed in every province in Canada and in a variety of sound, safe securities.

Working on this careful system has resulted in the unusual and highly desirable combination of well-secured principal with a high interest-earning rate.

The prudent, conservative business man will find in the Mutual's system of investing its funds a very strong reason for the purchase of Mutual Life Insurance.

The old saying that "violin leaders come and go, but orchestras go on for ever," is still adaptable, but a special note of interest is struck when a new leader takes his place among a body of musicians. Music "fans" who generally pose as critics, listen closely, and comments are rife, while the players are living up to the old game of "follow your leader." This has been the case since the new leader, Mr. J. P. Landry, has taken that position in O'Day's Orchestra, and comment has been most favorable. Mr. Landry has had experience in various orchestras in the United States.

Balance of stock in Oxfords. Values \$5.00 to \$10.00, for \$3.95. All sizes. See window.—J. A. Vaillancourt, 48 Wellington North, between Skinner and Griffith.

FUNERAL OF LATE MISS SHORT

The funeral of the late Miss Jane Elizabeth Short, whose death occurred after only a few days' illness at "Wythecombe," Belvidere street, her home of many years, took place yesterday afternoon. Prayers were said at the house by the Rev. H. Reginald Biggs, rector of St. Peter's Church, a number of friends being present, and the cortege was composed of the older citizens of the community. The service was conducted by the rector, and was impressive in its simplicity. The hymns sung by the choir were "Nearer My God to Thee" and "Rock of Ages," Mr. Whitehead presiding at the organ.

The remains were borne to the English Church Cemetery, Prospect street, and laid away in the family lot amidst the solemn words of the commitment. The bearers were Messrs. James Mackinnon, W. A. Hunt, W. J. Hunt, J. P. Wells, K. C. T. G. Haultain and John McKee.

The family was represented by Mr. George E. Borlase, N.P., and Mr. Cyril Irwin. The casket was covered with beautiful floral offerings in affectionate remembrance of one who had passed to her rest. She was the third daughter of the late Hon. Mr. Justice Short, and was born and had spent her entire life in Sherbrooke, with which the name of the family is identified. She retained, up to the time of her illness, her distinct individuality, her intellectual faculties and her personal charm, and her death will be mourned by many friends. She is survived by one brother and one sister, Mrs. Lloyd, and two nieces.

Major D. B. Bowie, D.S.O., O. G. "A" Squadron; Lieut. Drury, Sergt. Major Mountford, W. O.; Q. M. Sgt. Snape, W. O.; Corporal Campbell, Corporal Hargreaves and Pte. Sutherland went to Toronto last week to represent the local squadron at the unveiling of the Regimental Memorial Tablet erected at Regimental Headquarters, Stanley Barracks, in honor of the Officers, Non-Commissioned Officers and Men of the Royal Canadian Dragoons who made the supreme sacrifice during the Great War.

It is stated that Major Brown, of Montreal, will hold a series of recruiting meetings here for the purpose of forming a company of Active Militia to be part of the Beauharnois Battalion of Infantry. Report has it that Antoine Plassonault will take the captaincy and that Max Douaghy and Geo. Clarkson will take out commissions. All these have seen overseas service in France during the war and the new company should be the prize unit of the new

battalion.

King's weather greeted the annual field day of sports held by "A" Squadron, R. C. D., on the barracks grounds on Tuesday, May 24th, and a lengthy list of events was carried through without a hitch before an ever swelling crowd of spectators.

It is understood that a large clock will be placed on the square at the barracks with the names of those who lost their lives in the late war engraved on the pedestal.

Corsets and Special French Boning give absolute comfort.

Sitting or Standing
"Goddess" corsets with their scientific cut and special French boning give absolute comfort. They yield to any change of position and gently hold up the figure, assuring its greatest beauty, yet causing neither fatigue nor pain.

Many of the best dressed women in Canada are wearing "Goddess" laced in front corsets and share Anita Stewart's opinion: "Without undue compression they add to the grace of the figure".

There is a style for every figure.

WIN This Car! 1921 Model

HERE are four riddles for boys and girls with wise heads. We told the artist to draw the pictures to represent the riddles, but he guessed the right answers—and put them in too! So we barred him from the contest and told him to keep it a secret. Luckily, he got the answers all jumbled up, so you won't be any the wiser.

If you can unscramble the jumbled letters beneath each riddle picture and put them in their right order to spell the right words, you will have the right answers. It isn't an easy task. Good thinking, patience and perseverance may find you the answers. Try it.

If you think you have found the answers, write them carefully on a sheet of white paper. Put on nothing but your answers and your name and address in the upper right-hand corner of the page. Handwriting, spelling, punctuation and general neatness will count if more than one answer is correct.

We will write and tell you immediately if you are correct and send you a handsome illustrated list of all the prizes that you can win.

YANKEES HIT THE SENATORS' PITCHERS HARD

New York Won in Easy Fashion from Washington—Cleveland Rallied to Beat Out St. Louis.

(Associated Press Despatch)
CHICAGO, May 28.—Managing a ball club seems to be conducive to heavy hitting, for "Ty" Cobb, pilot of the Detroit Tigers, and "Tris" Speaker, manager of the Cleveland Indians, are giving Harry Heilmann, of Detroit, a terrific fight for the batting leadership of the American League.

Cobb boosted his mark from .395 last week to .411 for this week, according to averages released today, while Speaker raised his last week's average of .378 to .408.

Heilmann, although he suffered a batting slump, is fourteen points ahead of Cobb with .427, as compared with .454, a week ago.

Severid, of St. Louis, also has come to the front in grand style. The slugging catcher of the Browns, has attained a mark of .381, and is in fourth place.

"Babe" Ruth, the king of home run hitters, ran into a slump when the Yankees hit the western trail on the circuit. His batting average dropped from .378 to .345. The big slugger failed to get any four baggers while in Chicago, but in the final game at St. Louis, on Wednesday, he brought his total string of homes to thirteen. Shocker was pitching to him.

Harris, of Washington, stole two bases while the Senators were touring the West, and is showing the way to the base stealers with ten markers.

Other leading batters for twenty or more games are: Brower, Washington, .370; Sisler, St. Louis, .375; Tobin, St. Louis, .375; Stephenson, Cleveland, .363; Williams, St. Louis, .353; Ruth, New York, .345.

Grimes, first baseman of the Chicago Nationals, struck his batting stride during his first invasion of the East and climbed from fifteenth place to fifth, in the National League race.

Most of last week's leaders went into a slump, Hornsby, the St. Louis star, dropping from .457 to .435. However, he is safely entrenched at the top of the batters of the League, who have participated in twenty or more games. Snyder, New York catcher, is runner up to Hornsby with an average of .365, while M. Henry, of St. Louis, who was in seventh place, a week ago, is batting .360 and is in third place.

Maranville, of Pittsburgh, dropped to fourth place, with .358. Grimes, but who last week hit .328 is passing "Rabbit" with .353. George Kelly, the New York National's slugger, who is leading the National League home runners, failed to add to his total of eight, and is now five scorers behind his American League rival, Babe Ruth. Bohne, of Cincinnati, failed to increase his stolen base record. He leads, Peters with eight.

Other leading batters: Johnson, Brooklyn, .356; Tierny, Pittsburgh, .352; Kelly, New York, .347; Barber, Chicago, .342; Hargrave, Cincinnati, .340; Cuthaw, Pittsburgh, .340.

SHERBROOKE AND QUEBEC OUT OF LEAGUE

Reasons Given Are Lack of Grounds and Not Sufficient Experienced Players—Ottawa Pleased at Move.

The Sherbrooke and Quebec Lacrosse clubs have both retired from the Eastern Canada Lacrosse Association, at least insofar as the present season is concerned. This decision was definitely announced by Second-Vice-President J. B. Riddell of the governing body.

Sherbrooke's reason for retiring from the league is said to be due to the inability to secure suitable grounds, while Quebec find that they have not sufficient experienced players to form the nucleus of a strong team, capable of competing with Cornwall, Ottawa and Montreal teams.

With the withdrawal of Sherbrooke and Quebec, only five teams fill figure in the schedule, namely Ottawa, Cornwall, Shamrocks, Nationals, and M. A. A.

It is understood that the exit of Sherbrooke and Quebec teams is a matter of considerable satisfaction to the Ottawa club as it will eliminate considerable travelling and reduce expenses to a minimum.

At Washington:—The Yankees hammered Washington pitchers for eighteen safe hits yesterday and easily walked off with the game. Two singles went to Ruth, and he struck out once. Score: R. H. E. New York 11 18 2 Washington 4 10 3 Batteries—Hoyt and Schang; Zachary, Shaw and Gharriy.

STRENUOUS WEEK-END FOR LOCAL TEAM.

The series scheduled for today and tomorrow between Sherbrooke and Boston Railroad Y. M. C. A. promise to be full of interest. The locals have put in some strenuous training during the course of the past few days and are improving daily.

The management are sparing no efforts in building up a strong team and have secured the service of another pitcher, Spitz, of the South Boston All Stars. Spitz is reported as being a twiler of considerable merit and will be used in Monday's game when the locals travel down to Newport to play on Decoration Day.

The line up for today's game will probably be as follows: Folsom, Pitcher; Landry, catcher; Molynex, 1st base; Workman or Thormahlen, 2nd base; Bridges, 3rd base; White, right field; Gibbon, centre field; Baker, left field; and Savage short-stop.

The batteries for Sunday's game will be Thormahlen and Bridges.

MASCAGNI SCORES OPERATIC TRIUMPH IN "LITTLE MARAT"

Entrancing Music Adorns Plot With an 18th Century Background.

PLANS AMERICAN TOUR

Composer Called Before Curtain Thirty Times on the Opening Night.

(Special Despatch.)
ROME, Saturday.—In his new opera, "The Little Marat," Mascagni has scored his greatest success since the early days of "Cavalleria Rusticana." On the opening night this week, despite the fact that prices ranged from \$5 to \$50 a seat, even standing room was taken days before, while it is probable that Rome has not seen such a gathering of aristocracy since the beginning of the century.

Mascagni himself was called before the curtain no less than thirty times, and seemed to enjoy the new triumph just as much as when a year ago he offered to write a battle hymn for the Italian Communists.

U. S. Tour Planned.
According to the managers, 750,000 lire was spent on the production, which will be taken to the United States next year. It was feared that the Fascist might interfere with the opening night as a protest against the composer's Communist inclinations, but with true Italian reverence for art they issued a proclamation at the last minute declaring that art and politics should not be mingled, and therefore Mascagni the artist was not to be disturbed but should be allowed to develop Italy's prestige at home as well as abroad.

Mascagni has taken the end of the eighteenth century at Nantes as the background for his new theme, which is distinctly revolutionary. In order to save his mother, the Princess de Pleurs, who has been condemned to death by a tyrant known as "Orso the Bear," a young prince fakes to be a revolutionary. In the meantime Mariella, the tyrant's niece, who is being chased by a mob of hungry young revolutionaries because she is carrying to her uncle the rich food usually reserved for aristocrats, is saved by the Prince, who throws the dishes into the river. By forcing the uncle to eat common food the Prince immediately becomes popular and is known as "Le Petit Murat."

Mariella is Accused.
Orso returns from a murderous expedition appointing the Prince to guard his mother's prison. In the second act the Prince by strategy obtains possession of the order for the execution of the Princess. Orso on learning of the loss promptly accuses Mariella of having stolen it. The latter is surprised when the young Prince does not come to her protection, but soft music gets the chance when the Prince tells Mariella of his love and waits for an opportunity to crown Orso.

This opportunity arrives in the third act while the tyrant is sleeping. Finding himself bested Orso signs the order for the release of the Princess and treacherously betrays the Prince while Mariella is feeling to release her lover's mother. But naughty Orso meets poetic justice in the form of a carpenter who has been repairing roofs and who has had a very costly bronze candlestick to beat out Orso's brains.

A few minutes later the Princess is released and sails down the Loire River in a boat with Mariella, the Prince and the regent's carpenter.

While the plot is flimsy and undelivered the music really is entrancing. It opens with a slow choral movement embodying an expression of utmost melancholy from which develops a sad chant by the prisoners and leading up to a great chorus of revolutionaries in the first act. The chorus is made up of two well balanced parts, one developing to a great furor at the end.

Rhythmic and Martial.
But Mascagni has not allowed the dramatic theme to govern his plans. He starts the chorus in a minor key, gradually warming and developing it through a series of characteristic modulations in the purest Mascagnian style. The music accompanying the march led by the young Prince on the crowd is both rhythmic and martial.

The second act, however, is more interesting musically than the first. Here both the librettist—Forzano—and the composer have combined to develop a secondary character, namely, that of a soldier, at the expense of the leading parts. His song sung to the accompaniment of an orchestral theme of beautifully rhythmic form is both noble and pleasing. The final duet between the Prince and Mariella is a superb specimen of lyric art, quite in keeping with Mascagni's promises. Coming after a duet by Mariella and the carpenter, which is also pleasing, this episode insured the success of the whole production, while a rondo by the Red soldiers in the third act is distinctly Mascagnian.

Critics have decided that Mascagni has given up his methods used in "Cavalleria Rusticana," "L'Amico Fritz" and "Iris" and is showing a predilection to set to music a single number of words, using orchestration to accentuate the presumed integral sense.

WANT COMPOSER PENSIONED.
Spanish Newspapers Plead in Favor of Tomas Breton's Behalf.

MADRID, Saturday.—The newspapers are conducting a campaign in favor of a pension for Tomas Breton, the Spanish composer. When Senor Breton retired from the directorship of the Conservatory of Music owing to the age limit a pension was refused him.

The newspapers argue that Senor Breton has placed Spain under a debt of gratitude to him for the services he rendered national music, and that nobody in Spain would censure the Government for granting him a pension. Breton received the Grand Cross of Alfonso XII last January.

CLOTHES MUST FIT MAN, NOT MAN CLOTHES, SAYS TAILOR

London West End Dress Designer Predicts Pure Rich Colored Garments, Knee Breeches, Silk Stockings and No Collar, but an Ornate Cravat.

(Special Despatch.)
LONDON, Saturday.
In liberation from the trammels of fashion lies the ideal for the human race, according to Henry Parkes, a West End dress designer. He sees a new, happier and healthier people coming, but says that this glorious goal cannot be reached in the present day clothing and environments.

"If we are to create a superman we must dress for the part," he says in scorn of the sartorial effects of today. "The age that is just ending will be looked back upon by future generations as stiff colored and steel legged. The new race which is arising must be a heroic one, for the present man must free himself for the assertion of his better self."

"We must array ourselves not in the blackness of the earth's caverns or the drabs and grays of mire, bogs and valley mists, but in the pure rich colors of the world of sunshine, in garments that match the beauties of nature and do not falsify the temple of life within. Latest ties, socks and braces, even underclothing, have turned toward brilliant hues. In the coming era clothes must fit the man and not man the clothes."

"If a man is stout the cut of his garments will suggest manly strength; if slender he will be given an air of grace and agility. Instead of trousers he will wear knee breeches with stockings of silk; no collar, but an ornate cravat. Women will wear hats designed for use rather than fashion. Her waist will be where Nature put it."

Mr. Parkes has extensive designs proving his theory, but he admits so far his business has been slack. Sadly he says that it is difficult to persuade a conservative race to be sensible.

REDS INCITE BOYS TO ATTACK POLICE
Pay Way of Youths to Meetings Near Paris and Then Urge Them to Violence.

(Special Despatch.)
PARIS, Saturday.
Paris Communists have adopted a new method of "baiting the police" in an effort to stir up trouble whenever they hold revolutionary meetings in the suburbs. Hitherto May 1 was the only day in the year when the police were forced to batter skulls with leaded truncheons or occasionally to fire a few bullets into the mobs carrying red flags, but a more subtle danger is beginning to be seen in a series of so-called protest meetings held at St. Gervais or other outskirt villages, such as those held last Sunday.

The Communists at these meetings invariably are in the minority, but publicly results in attracting huge crowds, in which are thousands of boys between 14 and 18 whose fares to the meeting place have been paid from Communist funds. The Paris police or Republican Guards never cross the barriers, but wait until the crowds return, in order to prevent the demonstrators from entering Paris with unfurled flags.

As soon as the meetings have dispersed the Communist leaders disappear, but a few hotheads always are found who will lead the excitement seeking crowds to the gates of the city. Invariably the front line of attack is composed of mere youths armed with stones which they have picked up along the roadside. At a given signal these youths treat the police to a veritable hailstorm, with the result that scores are injured.

All efforts to incriminate the instigators have failed thus far, although there is plenty of evidence that the youths have not acted on their own initiative. The situation is considered especially serious here, because every election shows that the Communists haven't the slightest chance of gaining control, the use of force by the police against minors, it is feared, will have a serious reaction on spectators, causing them to become more easily influenced by Soviet propaganda.

SAMPLES 130 KINDS OF ALSATIAN WINE
French Minister of Agriculture Has Joyful Time.

(Special Despatch.)
PARIS, Saturday.
Being French Minister of agriculture means many little worries, but carries with it compensations, as was shown this week, when Edmond Lefebvre du Prey, who holds the portfolio of Agriculture, visited the Alsatian vineyards and, according to an ancient custom, "more or less fully" sampled 130 brands of wine.

M. du Prey was reported to have gained the approbation of his Alsatian brothers by the ease with which he lifted his elbow the requisite height, while bands played the "Marseillaise."

Ordinarily such wines are not taken except at luncheon and dinner, but the promoters of the wine tasting festival arranged the event for an afternoon, thus giving the Minister's feat far greater importance and completely offsetting the German complaint that "the little wines of Alsace" are not worth drinking when the long necked bottles of Rhine and Moselle wines are available.

TAX OFF BRITISH WINES AND POPULARITY GAINS
London Hotels and Restaurants Reduce Prices.

(Special Despatch.)
LONDON, Saturday.
Champagne and other wines give promise of returning to their old time popularity as a result of the removal of the ad valorem tax here. Fashionable hotels and restaurants have cut from five to seven shillings from their prices. Several good makers of champagne are now down to 25 shillings a bottle, compared with 35 shillings before the war.

Since the armistice the drinking of the more expensive wines has greatly lessened here. The causes have been the high prices and the general spirit of economy.

LADY MARKHAM INVITES A MINER TO A TEA PARTY

Calls on Him to Explain All About Great British Coal Strike.

NATIONAL POOL HIS PLAN Heckled for Two Hours, Ladies Decide 'Much to Be Said on Both Sides.'

(Special Despatch.)
LONDON, Saturday.
There was a clash of classes and exposures of upper and lower viewpoints, followed by a cup of tea enjoyed by all, as the result of Lady Markham's adventure of inviting a Nottinghamshire miner to her drawing room to explain what was the matter with "this coal strike business."

Society went to her fashionable residence in Portland place to hear Andrew Clark, who has worked in the pit and now is a local official of the Miners' Federation, with the hope of finding a solution of what they called an unhappy condition of affairs.

The miner scored when he looked around him in the richly furnished room and said: "It makes me a little jealous when I sit in this beautiful drawing room and see how Sir Arthur Markham spent the profits he received at one shilling a ton on the coal taken from his mines."

But Lady Markham, dressed in a flowing silk gown, told him that as part owner of a mine "I have found my miner tenants far better off than I in many ways, for they had not a single wish which in their simple way has gone ungratified. This I fear is more than I can say of my scheme of life."

Clark told the ladies that he belonged to the strongest working class organization on the face of the earth and that they were, fighting the battles of the workers generally. The only solution he had to offer was a national pool.

After his speech he was heckled for two hours. An army officer's wife said that the miners had earned ten pounds a week and should have put something aside for the inevitable change in condition. Another guest said her tenants had beautiful cottages with large gardens and that many of them had small farms and when she visited them and saw how happy they were she envied them.

The old arguments so familiar to the Board of Trade grew so spirited that the genial hostess quoted Sir Roger de Coverly in agreeing that "there is much to be said on both sides," and began pouring tea. Meanwhile the deadlock continues.

HOUSE OF COMMONS SITS IN SHADOWS
Gloom Pervades Chamber Owing to Miners' Strike.

(Special Despatch.)
LONDON, Saturday.
Shadows of the miners' strike have reached the Houses of Parliament. Fires in all parts of the building have been damped, the electric bulbs removed from many electrolights and hot water taps screwed down.

Sixteen of the twenty-four glass panels in the House of Commons ceiling, from which the chamber is lighted, were out of action the other night, and after the sitting had gathered in gloom, the lights up signal was given, but so few of the lights were working it was difficult to see across the chamber.

FRENCH CROWDS HONOR UNKNOWN POILU'S TOMB
Shrine Is Country's Most Sentimental Spot.

(Special Despatch.)
PARIS, Saturday.
If indications of the last six months count the tomb of an unknown French soldier under the Arc de Triomphe probably will remain for centuries the most sentimental spot in France. As it is out in the open it still attracts more people daily than the tomb of the British hero in Westminster Abbey. The lines form all day long and people still are there at midnight.

Richly robed women daily bring beautiful flowers, which are laid beside a few pansies which some old peasant woman has asked the police to place inside the enclosure. On Sundays these scenes are multiplied a hundred times.

TO CARRY DIAMONDS BY AIR
Mining Company in Belgian Congo May Use Planes.

(Special Despatch.)
LONDON, Saturday.—Aerial transport of diamonds is contemplated in the Belgian Congo by a mining company in which American interests are largely represented, according to African advices received here.

The mines concerned are at Djoko-Punda, in the Kasai Province. At present the journey by boat along the Kasai and Congo Rivers between the mines and Kinshasa, a distance of 500 miles, occupies thirty-five to forty days. By the use of airplanes it is expected to accomplish the trip in about two days. The present output of diamonds from the Kasai fields is reported to be 250,000 carats a year. Exploitation of the fields began in 1902.

SPAIN'S KING MUST GO TO COURT FOR MADMAN'S GOLD

Relatives of Eccentric Frenchman Contest Bequest of 3,000,000 Francs to Madrid Ruler—His Noble Titles a Myth.

(Special Despatch.)
PARIS, Saturday.
The King of Spain may have to appear in the Toulouse court or stand the chances of losing a legacy comprising an estate worth 3,000,000 francs, of which he has been sole owner since the death of a semi-crazed French royalist whose family is now contesting the validity of his will.

The case dates back to 1903, when Sapene de Cazarilh, disinheriting his sister Gabrielle in a moment of spiteful madness, according to her attorneys, drew up his last testament, leaving everything to the King of Spain. The will also transferred "all noble titles to which I am entitled," although there never has been any record of

De Cazarilh possessing any. More-over the "Chateau de Montauban de Luchon," where the will is purported to have been signed, is merely a humble cottage where the testator lived miserably. The sister contends that her brother had been twice interned as unbalanced mentally.

On one occasion he rode on horseback into a leading dry goods store shouting, "At last a true knight!" and terrified the salesgirls by brandishing a rusty sword.

The King of Spain, loath to give up such easy money, has engaged Paris lawyers to represent him, but members of De Cazarilh's family declare that they will not admit testimony by deposition, insisting that the King must testify personally whether the deceased had any claims on Spanish recognition.

FRENCH AMAZONS IN FIELD SPORTS
More Than 100 Women's Organizations Participate in Athletic Meet.

(Special Despatch.)
PARIS, Saturday.
That France is developing a veritable nation of amazons as the result of the athletic training of French women became evident when the spring field meet held recently in the Pershing Stadium. There were more than 10,000 spectators, while more than 100 women's organizations entered contestants in the various events.

While athletics have been gaining in popularity among the women of the United States and England since the beginning of the century, it is only since the war ended that progress has been attained along this line in France. Today, however, even aristocratic families are entering the classes at Joinville, where as many as 3,000 are trained in a week, while scores of new feminine clubs to promote athletics are appearing monthly.

At the spring festival the athletic activities were not confined to the usual running and basketball features, but also embraced high jumping, pole vaulting, broad jumping, shot putting and, in fact, every muscle developing event found in American field day meets.

With all this France, however, is not forgetting grace as an essential attribute of women, and more than 1,000 girls are participating in aesthetic dances, and the same number later formed scholastic for the exhibition of javelin throwing. The promoters of feminine sports, however, are disturbed by the fact that members of thirty French societies are not taking part, as the parents of members refuse to give up their traditions and will not allow their daughters to travel alone to gay and wicked Paris even though they are muscular enough to protect themselves.

DAUGHTER OF ENGLISH LORD TO BE FILM STAR
Miss Lois Sturt Favored for 'Peter Pan' Role.

(Special Despatch.)
LONDON, Saturday.
The honor of playing the title role in the film production of "Peter Pan" probably will fall to Miss Lois Sturt after widespread speculation on two continents as to what star would be picked to do the cinema version of Sir James Barrie's immortal story.

Sir James entered into arrangements with an American company last autumn for the production of "Peter Pan." It was first thought that Maude Adams could be chosen, but the negotiations fell through, then Mary Pickford was favored. But Barrie withheld decision. Now a young actress named Lois Sturt is favored, for Miss Sturt is the daughter of the late Lord Arlington.

She has already taken the preliminary tests and has made a most impressive, and although practically unknown professionally she is making a strong bid for fame with Barrie's classic.

PARIS CROWDS SMASH KAISER'S PICKLEHAUBE
One Feature of Great Commercial Fair Now On.

(Special Despatch.)
PARIS, Saturday.
The Paris commercial fair, which has opened in the huge square opposite the Invalides, promises to outbid either the Lyons or Frankfurt fair in popularity, more than four thousand firms being represented. In the year after the war only 2,500 firms participated, but this year the interest is so great that several adjoining streets have been taken up by long rows of huts and booths, in which can be found samples of any article manufactured in France, from a safety pin to an automobile.

Unlike the Frankfurt fair, the success of this one is not based on immediate sales, the merchants represented merely using the displays as a method of getting acquainted with customers. The merchants then accompany the customers to their Paris headquarters, where a wider selection is possible.

The fair this year is more gay than usual, several buildings being allotted to the usual county fair attractions, a novelty being a generation of "biting the nigger's head," offering a chance to back the picklehaube off a grinning Kaiser's head. It attracts tremendous crowds.

WILY TAX DODGERS CRIPPLING FRANCE AS OFFICIALS WAIL

Army of Inefficient Clerks Fail to Uncover Sources of Revenue.

OLD LEVIES INCREASED Memory of 'Assignat' Crash Alarms Many as Inflationists Gain Strength.

(Special Despatch.)
PARIS, Saturday.
France's financial experts have admitted their worry because the French public will not pay the taxes which have been levied, their difficulty being almost as great as that caused by their vast but inefficient organization of clerks. It has been found, in fact, that previous treasury chiefs in the earlier republics, as well as during the empire and the kingdom, left almost nothing on which new taxes could be imposed.

The taxes now being collected are in fact merely an increase of those fixed during the last 150 years, the era of systematic levies commencing in the days of Descheneux, who went to such limits that angry citizens caused his arrest and almost hanged him.

Nevertheless, Frenchmen to-day are still paying the Government a special tax on playing cards and on the stamped official letter heads inaugurated by Descheneux. At the same time a tax has been fixed on hats, dress goods, eggs, leather, hampers and carriages of the kind which Napoleon levied on his army.

So reviled was Descheneux that Diderot, the historian, predicted his prompt acceptance as Satan's prime minister. Abbe Terray, a century later, tried the rapid but painful method of increasing the Government's funds by inducing bankruptcy, demanding that all banks send to Paris their gold reserve and then lowering the value of the outstanding coins. By this means—compared with modern inflation—he succeeded in paying debts at about 10 per cent of their real value. Then when the treasury was ready by a simple decree it restored the normal exchange rates. This system was so tragic that in one year there were 8,000 bankruptcies and 200 suicides.

With the inflationists gaining strength here now, the memory of the "Assignat" crash is causing some concern and probably will be the factor that will decide the issue in favor of lateral loans, rather than the overburdening of the Bank of France with doubtful paper currency.

Under Louis Philippe the Government finances were managed by taxing the franc 45 centimes, but this proved disastrous, almost leading to a direct tax on even small private holdings.

Not until after the war of 1870, the Franco-Prussian conflict, that France had a tax on coffee, tea, cocoa, sugar, matches, paper, chicory, oil, tobacco and gunpowder and the postal rates were then increased for the first time and Frenchmen are still paying what was intended as a temporary war measure.

The fact is that tax collecting here now is an impossible task, and unless an army of gendarmes and bookkeepers is enlisted France may have to resort to such measures as taxing beads, or in the days of Peter the Great, or the old Byzantine method in the days before smoke came from chimneys, when it was made to pay for every tumbler of smoke from the chimneys which befogged the eastern skies.

PLAN TO SAFEGUARD ART BUYERS IN FRANCE
Dealers Favor Certificates Issued by Experts.

(Special Despatch.)
PARIS, Saturday.
As the result of the discovery of numerous fake paintings reputable art dealers are reported to be considering the advisability of forming a special commission of experts who would provide certificates of authenticity to prospective purchasers. The paintings probably will be tested by an apparatus which, by means of light rays, will determine the period in which they were produced by showing whether the paints contained metallic substances then in use. This method, when applied to two Louvre paintings recently, showed remarkable examples of counterfeiting.

The experts also would be expected to trace the history of such purchases, thus preventing repetitions of an incident last month, when a cheap chrome by an unknown painter was sold at a remarkable profit merely because Whistler's name appeared in a corner of it.

The latest art controversy is over a painting called "Portrait of a Lady of Quality," recently sold by an antiquary as being an eighteenth century work. The purchaser contends that the painting has been painted upon twenty years old and has been upon experts in the Carnavalet Museum to sustain his contention.

"TUBBS OF SOHO" IS DEAD.
Famous Maker of Violin Bows Works to Last Days.

LONDON, Saturday.—Recent announcement of the death of James Tubbs of Soho conveyed little to the average citizen, but it meant much to players of violins. Tubbs was a past master in the art of violin bow making and numbered among his clients such celebrities as Kreisler, Paganini, Bottesini, Sivoni, Gomperz and Strasse. In fact, every one in the violin world knew "Tubby of Soho," who toiled in his small house in the heart of that district of London.

Some years ago Tubbs retired and was succeeded by his son, but the latter died and Tubbs emerged again to his bow making, at which he worked at the time of his death.

DEAD HERO MADE A MARSHAL.
(Special Despatch.)
PARIS, Saturday.—Gen. Gallieni, former Minister of War and former Military Governor of Paris, who sent the army of Paris to the Marne in 1914 in tactful and who died in 1916, has been posthumously named a Marshal of France in a decree signed by President Millerand.

This was in accordance with authorization given by Parliament last month.

There was a slight demand for Eastern Car 6's 1952 around 85. The feature of the Industrial group was Whalen Debentures, which were at one time 63 bid, and are now offered at 55. On the whole the list maintains a steady tone.

GRANBY SCHOOL BOYS CARRIED OFF HONORS

Fine Sports Programme Was Carried Out—Other Newsy Notes from Granby.

GRANBY, Que., May 28.—On Saturday afternoon the Granby High School held their field day sports upon the G.A.A.A. grounds. The weather was all that could be desired, and over two hundred people from Cowansville arrived to join in the proceedings. Sports of all kinds, which included jumping, racing, tug-of-war, etc., etc., were on the programme, and at the close the home boys were found to have won the majority of points. At six o'clock the visitors were all served with refreshments at the Boy Scout hall on Young street, after which all departed for their homes.

Lodge Members Pay Visit.

Fifteen members of Westmont Lodge, No. 76, A.F. & A.M., came to Granby on Thursday evening, May 19th, to pay a fraternal visit to Phoenix Lodge, No. 87. The work of the first degree was exemplified by W. Bro. A. Huntley Duff, the various chairs being filled by the officers of that lodge. At the close of the meeting the visitors were entertained at an informal supper served in the lodge room by the members of the local lodge.

Special Patriotic Service.

A special patriotic service was conducted in the First Congregational Church on Sunday last by the pastor, Rev. I. W. Pierce. The church was beautifully decorated for the occasion with flags, flowers and potted plants. The pulpit was draped with a large Canadian flag, and the tablet in memory of George Denison Miner was also draped, while the roll of honor stood upon an easel on the platform, completely surrounded with little Union Jacks. The service opened with the chorus "O Canada," sung by choir and congregation, and the hymns, "O God Our Help in Ages Past" and Kipling's "Recessional," were also sung. The choir rendered the anthem "Be Thou Exalted," and the pastor preached an able sermon, in which he warned the people not to forget the vows made to God in the troublous times that are past.

Mr. Pierce is preaching a series of sermons dealing with the recent war, the first of which was delivered on Sunday evening last, when his subject was, "Why did not a kind and all-powerful Father grovel this supreme agony of the ages?"

On May 29th his subject will be, "What did our men in the trenches think concerning religion?"

June 5th, "How do our men regard the personality of Christ?"

June 12th, "How do our men feel towards the church itself?"

Robb and Miss G. Chapman. The judges were Mrs. Buchanan, Miss Davignon, Mr. A. A. Smit and Col. Leggat.

The first prize, dress silk valued at \$11.25, was awarded Miss Chapman, of Bromes, the second prize, floor rug, (\$8.25) to Mr. Ernest Page, and third prize, electric flatiron, to Mr. F. A. Morgan.

At one o'clock the races began on the High School grounds. The results were:

Hundred Yards Dash.

Boys under 12—1 Harold Conley, Waterloo, (Eversharp pencil), 2 Grant Streeter, Bondville (pocket knife).

The tug-of-war afforded much amusement, and was participated in by teams from Bolton, Bromes, Waterloo and Knowlton, Waterloo winning out with her eight men, each one receiving a pipe as a prize.

The ball game between Waterloo and Knowlton resulted in a score of 8 to 6 in favor of the home team, Mr. I. T. Lynch, of Montreal, acting as umpire.

Mr. A. W. Pettes' picture show was patronized by its fullest capacity in the evening, and at the dance in Lake View hall, with Burrough's orchestra from St. Johnsbury, there were one hundred and fifty couples in attendance.

Much credit is reflected upon the various committees who had the day's amusements in charge, also the band, which rendered fine selections at intervals during the p.m.

GENERAL NOTES.

The sale of useful and fancy articles held by the Guild of St. John's Church was very well attended and the bountiful supper served to a large crowd was of the best. The play entitled "The Only Girl," given by local talent in the evening, was one of the best ever put on in Waterville, and every one taking part deserves praise. Miss Dorothy Parsons, who made her first appearance, was splendid, taking L.K.C. in a very amusing way. Mr. C. O. B. B. is always good and adds to the success to his list of Mrs. Parsons and Miss Pearl Burton were as usual, very good, and Mrs. Steacy as "Aunt Linda" caused much laughter. Mr. Jas. McNaughton and Mr. Henry Burton are well known as actors, while Mr. Steacy and Mr. Hubert Bean, who are new on the stage, were very successful. Very enjoyable music was rendered by Mrs. H. Swanson, Miss Antoinette Metivier and Miss Aline Tope and Mrs. Steacy sang "Pretty Kitty Kelly."

MOTORIST WINS CASE IN THE LOCAL COURT

Mr. Echenberg Handled His Own
Case and Secured the Dismissal
of the Charge of Speeding
Laid Against Him.

The eloquence of the pleading of Mr. Jacob Echenberg in the District Magistrate's Court yesterday was of such a convincing nature that the offending motorist will frequently be tempted to offer fabulous sums for similar legal advice when contesting their cases.

A charge of travelling at an excessive speed in contravention of the Motor and Vehicle Act was laid against Mr. Echenberg, who elected to handle his own case.

He was charged with having driven through the town of Richmond at an excessive speed on Sunday May 23rd, but maintained a plea of not guilty.

The number of the car was proven by the collectors and two detectives from Quebec swore both as to number and the speed, but Mr. Echenberg was firm in his conviction that he had not been to Richmond that day. He stated that he had driven to Cookshire, with his wife, mother-in-law, two cousins and children.

Taking into consideration the emphatic denial of his presence in Richmond on the day mentioned, the court gave the accused the benefit of the doubt and dismissed the charge.

There is a rumor current to the effect that Mr. Echenberg has been offered an excellent appointment with a flourishing legal concern.

**ACTION TAKEN
FOR SLANDER
WAS DISMISSED**

Defendant Pleaded that if Defamatory Statements Were Made, It Was Due to Plaintiff's Own Fault.

His Lordship Globensky, presiding in the Superior Court, gave judgment yesterday in the case of Emile Plead against Anselme Paquin, both of Sherbrooke.

Plead, the plaintiff, in his action, alleged that the defendant had made defamatory statements against him, on different occasions at Sherbrooke, to different persons, namely his sister, grandfather and grandmother, and to other people.

Plaintiff was claiming by his action, for damages to his reputation and to his person, the sum of \$500.00, and by his conclusions he was asking that the defendant be condemned to pay the above sum, and in default, be condemned to jail.

Defendant by his contestation of the action, denied the allegations of the declaration and specially pleaded that plaintiff had made, in the presence of different persons statements affecting his own reputation; that if different defamatory statements were made about plaintiff by his relatives, it was due to his own fault; that defendant never said anything affecting the character, honor and reputation of plaintiff.

Several witnesses were heard and the learned judge dismissed plaintiff's action, with costs.

Col. Emile Rioux, K.C., was acting for defendant, and Nicol Lazure & Couture were representing plaintiff.
