Ayer's Flat.

A large and enthusiastic gathering of Liberal and Independent electors took place here on Thursday last and chose Mr. T. B. Rider, ex-M.P., of Fitch Bay as the Liberal candidate in the coming contest, and we believe Stantwood County will be true to its own interest and elect Mr. Rider for another five years, as he has shown himself to be the man to represent the interests of the farmers.

The Luxuries of an Esquimaux.

In our school books we used to see pictures of the Esquimaux in their grotesque fur garments and our childish minds pictured them as rolling in luxury since they could "afford" a complete outfit of fur. Fur coats are indeed a luxury here, and at the same time an unsatisfactory gratification, for their weight and bulkiness is enough to wear a man out if he attempts to move about much in one, and it seems exceptionally delightful that now one can have all the luxurious warmth and comfort of a fur coat without any of the weight or bulk, and all at a trifling cost. A layer of the celebrated Fibre Chamol gives these gratifying results, affording complete protection from wind, frost or rain.

Lennoxville.

The friends of the Rev. Mr. Timberlake, a former pastor of the Methodist Church in this place, will be glad to hear that he is to address his old congregation on Sabbath next at 10:30 a. m.

And on Sabbath June 7th, the Rev. J. Scanlon, another former pastor, will preach. These old familiar friends and pastors will be heartily welcomed.

We are looking forward to another event on the 10th of June at which time our re-union services will be held in the Methodist Church and tea will be served from 6 to 8 p. m. Rev. Mr. Porter and many other former ministers of this circuit will be present and give addresses.

For the past two years the Rev. J. Pinel has been the pastor in charge and the circuit has never been more prosperous. The interior of the church has been newly decorated, grounds newly fenced, and needed repairs made on the parsonage. And now when everything is looking so prosperous—there comes the rumor that he is to be removed to Montreal. We hope conference may see fit to allow him to remain.

The village is now at its best. The street cars are to come. Why not extend the route to the college?

P., for Stantwood, who has represented the county so well for the last five years. Speeches were delivered by Mr. Rider, Dr. Bachand of Castook, Mr. S. A. Fisher, an Ex-M. P., for Bromfield, and others. Great enthusiasm prevailed throughout.

VIVAT REGINA!!!

The seventy-seventh anniversary of the birthday of Her Majesty Queen Victoria, was celebrated here last Monday in the Town Hall. In the afternoon some few games and amusements. Misses Hodgson, Wiggitt and Pennoyer tended the "bar" where they sold all kinds of fruits, ice cream, lemonade, candies, etc.

Some of the older ladies had also a sale of fancy articles. In the evening several interesting things were said and done.

The Rev. E. A. W. King acted as chairman. The varied programme of the evening was filled for the most part by volunteers. It consisted of a vocal duet by Mrs. McChung and Bray, singing by Mrs. (Dr.) King and Miss King, a loyalty address by C. H. Pennoyer, music by Mrs. (Dr.) and Miss King, a speech by the Rev. Mr. Ball, and then followed an intermission, after which C. H. Pennoyer read a few items of interest from one copy (there having been at the time of confederation only two such copies in Quebec Province), of the London Sun, of the date of June 28th, 1838, the time of the Coronation of our noble Queen; followed by a few remarks by the Rev. Mr. King.

Nowadays, when women are trying to do everything it is not strange that many things are overdone. It is not strange that there are all kinds of physical and mental disturbances. If the woman who is a doctor, or a lawyer, or a journalist, or in business would not try to be a society woman too it might be different; but the woman who knows when she has done a day's work has yet to be born. Usually a woman's way is to keep doing until she drops.

Working in this way has manifold results. As an old colored Auntie used to say: "There's always something the matter. If it isn't one thing it's two." The most common trouble resulting from over exertion, either mentally or physically, is constipation of the bowels, with all its attendant horrors.

There is no human ailment that so saps the energies, so deadens the ambitions, as that coming from the bowels forgetting their relation to the rest of the system. For every eight hours out of the twenty-four.

Dr. Pierce's Pleasant Pellets are the most effective remedy in the market. They work upon the system easily, naturally. There is no unpleasant nausea after taking them. No griping—no pain—no discomfort. They are composed of materials that go through the system gradually, collecting all impurities and like the good little servants that they are, disposing of them effectually.

Mrs. ROSANNA M. BLISS, of Colusa, Oregon County, New York, writes: "I have suffered much with dizziness, sometimes fainting, and with constipation of the bowels. I tried liver pills. They gave me relief. Two years ago I began using Dr. Pierce's Pleasant Pellets. I have, at intervals, used three bottles, and I am now enjoying uninterrupted good health."

Yours truly,
Rosanna M. Bliss.

A CLOSE SHAVE
A TALK WITH THE MAN WHO EXPERIENCED IT.

People really do not know how often the angel of death hovers over them. Mr. R. P. Watkins, 173 Bay St., is a barber by trade, and gave our representative this short history of his escape from the disorder which was rapidly carrying him to his grave. Mr. Watkins is a skillful and experienced man, and is now enabled to exercise his skill from morning till night, where before he was unable to regularly follow his chosen calling. This is Mr. Watkins' story as related by himself.

"For over three years I have been troubled with what the doctors said was Bright's Disease, was getting rapidly worse, and could scarcely attend to my business. My ankles were swollen, the pain and heat in my back were almost unbearable, the urine was of a dark wine color, and it used to dribble away continually. I had to rise up or to lie down nearly all the time. The scalding heat and pain in passing the urine were painful and distressing beyond my feeble power to describe. People who did not know my trouble used to laugh at my frequent visits to the urinal. My hands and feet were always cold and clammy, and I suffered severely from palpitation, shortness of breath, and was, in fact, almost a total wreck. I got a box of Doan's Kidney Pills from Messrs. E. Hooper & Co., and improved at once. I have used two boxes and feel like a new man; can now work right along and my feet feel like working right ahead. Had I not got those pills I feel that I would not have been working to-day. My words only faintly express the dreadful condition I was in, and the wonderful cure made by Doan's Kidney Pills."

An Every Day Event.

I've a letter in my pocket That I would not show. For its daily inspiration Was indited long ago. Was a hand I used to hold, When we spooned among the shadows Of the summer days of old.

She became my wife soon after, And, upon our wedding day, Handed me a little letter, Saying, "Put it right away," So I put it in my pocket. With a vow to mail it soon But I had much to remember On that busy day in June.

And to-day my clothing cleaner Brought an air of mystery. Brought a package to my office To be opened secretly. He is married. In the package, Soiled and marked with crease and blot, With its daily inspiration, Was the letter I forgot!

The Cold Sweat of Heart Disease.
IS DISPELLED IN 30 MINUTES BY DR. AGNEW'S CURE FOR THE HEART.

The thousands who suffer from heart disease will understand what is meant by Mrs. Roadhouse, of Willscroft, Ont., when she says: "Cold sweat would stand out in great beads upon my face." With every one who suffers from heart trouble is a death struggle, for it is hard to say when the cord of life will not snap with this disease controlling the system.

In the interests of human life, let all who suffer from heart trouble act promptly, and use a remedy that is effective. Death may easily occur if it is a case simply of experimenting with medicines that are not specially intended to remove the trouble in this direction. Dr. Agnew's Cure for the Heart is a heart specific and will give relief within 30 minutes after the first dose is taken and cure permanently, as many have already testified through these columns.

Compton W. C. T. U.
Your Temperance Correspondent for Compton have not been as active lately in reporting as usual.

However, the women of the Compton W. C. T. U. are still zealously engaged in Temperance work, as shown on their annual meeting day, by the reports read from the different departments of their work.

The Evangelistic Department showed how each fortnightly meeting was opened by devotional exercises; three special days of prayer were observed; also several times during the year special seasons of private prayer by the members of the Union. In all our Departments this Department is the root and foundation, for what can we do without the will of Our Father?

The different reports told how Sunday Schools were visited; flowers and other delicacies sent to the sick, plants kept on graves in the cemetery; ministers requested to preach sermons; day schools visited, pledges signed by scholars, and papers on scientific temperance work sent gratis to the schools; 300 papers and 4 scrap books sent to lumbermen during the winter; the Library has had several new books added during the year; our financial standing is good, report showed a goodly sum expended and a surplus of three or four dollars in the treasury.

Mrs. Ayer of Moe's River added another department of work in our union namely:—The Dep. of Mercy. She has organized a Band of Mercy with some thirty odd members and reports much interest being taken by those who have joined. We are looking forward to much good being done and a blessing derived, not only to the tender-hearted people of Moe's River and vicinity, but on into eternity praises may resound on those who are now taking upon themselves one of those great characteristics of our Father—merciful, slow to anger, and great kindness. Our annual social was held the evening of the 7th of May at Mrs. Harvey's. We had a good programme, the attendance being smaller than usual and collection a little less than last year. But we are not complaining nor discouraged for we know the Lord is on our side and if we follow on we are more than conquerors. On the contrary we have much reason to be thankful—for, we have a temperance council, and no licensed hotel in the place.

We have heard much about its being the 'Women's or petticoat votes that did the work—yes, as instruments in God's hands the women's votes gave the majority for temperance and while we have conquered let us not forget to give God the glory and may be ever vigilant, up and doing, still praying for those who have so earnestly opposed us, that the Ruler of the Universe may open their eyes to the truth before it be too late; and for those who are by drink enslaved.

Oh, hinner, stinner, to be blest, And stay not for the morrow's sun; For fear that curse should there arrest Before the morrow be begun.

OUR MAIL.
Our mail brings us every day dozens of letters about Burdock Blood Bitters. Some from merchants who want to buy it, some from people who want to know about it, and more from people who do know about it because they have tried it and been cured. One of them was from Mr. J. Gillan, B.A., 39 Gould Street, Toronto. Read how he writes:

GENTLEMEN,—During the winter of 1892 my blood became impure on account of the hearty food I ate in the cold weather. Ambition, energy and success forsook me, and all my efforts were in vain. My skin became yellow, my bowels became inactive, my liver was lumpy and hard, my eyes became inflamed, my appetite was gone, and the days and nights passed in unhappiness and restlessness.

For some months I tried doctors' and patent medicines of every description, but received no benefit. Being advised by a friend to try B.B.B., I am glad to have the opportunity of testifying to the marvelous result. After using three bottles I felt much better, and when the fifth bottle was finished I enjoyed health in the greatest degree, and have done so from that day up to date. Therefore I have much pleasure in recommending B.B.B. to all poor suffering humanity who suffer from impure blood, which is the beginning and seat of all diseases.

J. GILLAN, B.A., 39 Gould St., Toronto.

THE DEADLY OPAL.
Everybody knows how unlucky the opal is. The spell it casts over the fortunes of its possessor is like unto a thunder cloud of disaster. If the opalized party be a dairymaid, his milk sours and his butter declines to approach, no matter how wisely and well he may woo it with a churn dasher.

No, there is no doubt of the ill-fortune which follows on the trail of every opal like a sleuth hound, and attaches to the owner of every opal like a disease. What is this preliminary to? It is merely introductory to a recital of the hale and well-to-do who have met their end on a succession of owners.

A party named Benson first developed this opal to public notice. He searched it forth from his pocket in a bar-room. Benson had just taken a fifth drink, and was at a melancholy stage of his cup; and as he unpocketed the fell jewel Benson shed a few tears.

"That's an opal," remarked Benson to the bar-keeper, at the same time soaking up a tear with his handkerchief. "That opal has blighted my whole family. I've lost my job, my money, and during that month my horse ran away. I lost my place, and my wife skipped out with another man. I'm going to take one more drink and think up some way to get rid of it. I'd throw it in the sewer only I'm afraid it would ruin the drainage system of the city."

"Get on the Alexandria boat and drop it in the river," suggested the bar-keeper hopefully.

THE TRANSVAAL.

Heavy Sentences—The Reform Leaders Condemned to Fifteen Years' Imprisonment—The News Not Confirmed.

London, May 19.—A despatch to the Times from Pretoria, Transvaal, dated May 18 (Monday), says: "The Executive Council to-day decided that the punishment of Col. Francis Rhodes, Lionel Phillips, George Farrar and John Hays Hammond, the leaders of the reformers, who were sentenced to death, shall be fifteen years' imprisonment. The hope is entertained that these sentences will be modified. The decision of the sentences of the other reformers is still awaited."

The Times also has a despatch from Cape Town, which says that the motion of Mr. Merriman, in the Cape House of Assembly, to revoke the charter of the British South Africa Company, is certain to be defeated. The bulk of the speakers in the House, this despatch says, support the Chartered Company.

The Times explains in an editorial that there is a bare possibility that in its Pretoria despatch fifteen years means the period of banishment instead of imprisonment. "If it means imprisonment," says the Times, "it is almost equivalent to a death sentence, and will produce a painful impression of surprise as being severe beyond all expectations, and the ending will be to perpetuate political strife."

The Daily Telegraph has a despatch from Pretoria, also dated Monday, May 18, which says that the Executive Council, after a heated discussion of three hours, postponed the final decision on the punishment of the reform leaders until the next day (Tuesday). "A difficulty has arisen," says this despatch, "from the fact that 52 of the prisoners, including the leaders, have signed a petition asking for a commutation of their sentences to fines, while ten of the prisoners have refused to do so."

Pretoria, May 19.—The sentences of the reform prisoners have not yet been decided upon.

TWO CHILDREN CREMATED
In Their Father's House—Accidental Fire Near Blackwater Junction.

Blackwater, May 18.—Early Saturday morning the house of Michael Harvey was burned. Two children were burned to death, two others and the father were very seriously injured.

The building was a log house with a "lean-to" kitchen. There were two rooms upstairs and three downstairs. Harvey and his wife slept in a downstairs room with little Winnie, the youngest, in a cot beside them. Frank, 13 years old, slept in the next room, and Bella and Maggie, 11 and 8 years old, slept together upstairs. The three older children were out at service.

Mrs. Harvey escaped unscathed, but is completely broken up by her terrible experience. She says the family retired at 10 o'clock. They had a "smudge" burning in a tin pail to keep mosquitoes away, but before going to bed she poured water into it and put it on the ground behind the kitchen with a tin over it.

The kitten mewing in the back kitchen awakened her about three o'clock. She saw the glare of fire at the rear of the house, and, shouting to her husband, she rushed out of the kitchen door. A great sheet of flame swept in and drove her to save herself by leaping from a window. Frank got out safely and in a year-old Bella carried her 8-year-old sister, Maggie, downstairs and out through a window.

In the excitement baby Winnie had been left in her cot and 11-year-old Bella ran in after her. The position of her body when found showed that she lost her way and fell close to the window. Frank was badly scorched about the hands, face and back, and little Maggie was burned about the eyebrows. The roof fell in within five minutes after the fire started. Harvey's head is fearfully burned and he is badly cut across the shoulders by his jump through the window.

Edward Henegau, formerly Chancellor of the Duchy of Lancaster, are elevated to the peerage, and Chief Justice Meredith, of the Court of Common Pleas, of Ontario, is knighted. Sir Donald Smith, resident Governor and Chief Commissioner at Montreal of the Hudson's Bay Company, and High Canadian Commissioner, is made a Knight Grand Cross of the Order of St. Michael and St. George (G.C.M.G.); and Mr. J. A. Chapleau, Lieutenant-Governor of the Province of Quebec, is made a Knight Commander of the Order of St. Michael and St. George (K.C.M.G.).

Fire in a Paper Mill.
Cornwall, Ont., May 19.—The Cornwall fire brigade had a lively run to the Toronto Paper Company's mills, west of the town this morning. The alarm was sounded in consequence of a fire which took place in the upper story of the stone pulp mill. It started somewhere in the show-off pipe, and spread to the roof and a huge pile of dry chips in the other flat. The company have an excellent fire brigade, however, and by their prompt action and the assistance of the town firemen the flames were extinguished, but not before the flat roof of the building was pretty well destroyed. The loss amounts to about \$500, and is covered by insurance.

The State Legislature of Ohio has passed an anti-birth control bill. Allentown, Wis., is the only town in the United States without one female inhabitant.

The German Government has voted a credit to fight the cholera epidemic in Alexandria.

There were 22 deaths from cholera at Alexandria, Egypt on Tuesday. Thirty-five fresh cases were reported Wednesday.

The gifts to colleges, churches, libraries and public charities in the United States last year amounted to \$28,943,549, against \$19,967,116 in 1894.

In a serious fire at Sarnia the King Milling Company's premises and the Loughheed hub and spoke works were destroyed, entailing a loss of \$70,000.

Dr. J. G. McPherson's experiments that an Eastern cow was afflicted with tuberculosis were verified when the remains of the animal were examined.

The United States Government has issued a permit to the North American Commercial Company to take thirty thousand male seals this season. They were allowed to take only fifteen thousand last year.

The march of improvement in our city still goes on, and we notice quite a number who have removed the unsightly front fence and "fixed up" their premises generally, grading the lawns and painting their houses and stores.

Mr. A. F. Simpson's horse ran away on Monday and damaged his carriage. The animal was startled by the band. A young lady came very near being run down by the flying horse, but fortunately escaped.

Lawrence, Esq., presided and Mr. A. Dorey presided at the piano, which was from H. C. Wilson & Sons' warehouses.

Bertie Mundell a lad of 16 years of age, son of Mr. Jas. He is getting along nicely now. Two boys of Mrs. H. Sampson were with Bertie and pieces of the shell struck them but only made a scratch.

We congratulate Mr. James Craig, who for some years has travelled for Mr. Walter Blue, wholesale clothier, on his being received into partnership with Mr. Blue in his well established and prosperous business. Mr. Craig's numerous friends will be glad to learn of his advancement, and Mr. Blue secures a gentleman of ability, probity and experience.

Grand Trunk R'y Officials.

Last Friday afternoon a special train

arrived here from Portland and bring-

ing the President of the Grand Trunk

R'y Co. Sir Rivers and Lady Wilson, C.

M. Hays, General Manager, Geo. R.

Reeve, General Traffic Manager, F. H.

McGuigan, General Supt., and Jos. Hol-

son, chief engineer. Quite a number of

our leading citizens met the party at the

depot, and after giving them a hearty wel-

come took them for a drive about the city.

Among those who drove were Mayor

Bryant, Mr. J. S. Mitchell, President of

Board of Trade, Hon. Mr. Ives, Dr. A. N.

Worthington, R. Dally Morkill, L. E.

Panneton, W. B. McCutcheon and others.

The party were greatly pleased at the im-

prompt reception and at the beauty of

the city and the advantages it offered for

business. They proceeded on their tour

of inspection at 7 o'clock.

The 8th Royal Rifles.

The coming of the above corps to our

city had been anticipated with a great

deal of pleasure and our citizens were

prepared to extend a warm welcome to

the boys in dark green from old Stada-

cus' embattled city. The hour of their

arrival was too late to have any reception

at the depot, so when the special over the

Quebec Central R'y bearing the regiment

reached Sherbrooke the men fell in and

marched away to the Exhibition Grounds

where they were to be quartered during

their stay here. Arriving on the grounds

they were met very soon in getting to

their respective berths and rolling them-

selves in their blankets for the night.

Sunday morning was bright and warm.

At 9:30 they left the grounds for church

headed by their fine bands. At the

Aylmer bridge they were met by the 33rd

Batt., and together marched up to the

square where the band of the 8th and the

members of the R. C. Church went up

the hill to the Cathedral. The remainder

of the column proceeded to St. Peter's

Church, headed by the band of the 53rd

Batt. Here a special service was con-

ducted by the rector Canon Thorneley,

after which they marched to the R. C.

Cathedral to re-unite with the men there

and proceed back to camp. The parade

was a fine one and attracted great crowds.

The marching of the 8th was particularly

good in column of route, they having put

in their full annual drill; they are also

a fine body of men and made a good show-

ing. The regiment has pioneer, signal,

and ambulance corps in addition to their

brass and bugle bands.

Returning to camp they broke off for

the rest of the day.

In the afternoon the bands of the two

corps played a programme of music on

the grounds, when a large number of

people were present.

Monday's parade was held as stated in

another column and Monday night they

started at midnight to return to their

homes. From expressions of officers and

men all seemed to have thoroughly en-

joyed their trip, and were greatly pleased

with the cordial reception tendered them

by our citizens, and they will therefore

carry away pleasant memories of our

young but growing city.

VOICE After Acute Bronchitis CURED BY USING **AYER'S Cherry Pectoral** A PREACHER'S EXPERIENCE.

"Three months ago, I took a violent cold which resulted in an attack of acute bronchitis. I put myself under medical treatment, and at the end of two months was no better. I found it very difficult to preach, and concluded to try Ayer's Cherry Pectoral."

"The first bottle gave me great relief; the second, which I am now taking, has relieved me almost entirely of all unpleasant symptoms, and I feel sure that one or two bottles more will effect a permanent cure. Death Through the Kidneys.

Hardly any organs of the human system play a more vital part than the kidneys. A derangement of these, even to a slight degree, will lead to trouble that is likely, if not stayed, to prove fatal. There is only one way for the system to be rid of this disease and that is by trying a medicine that will act specially and is a specific for kidney disease. This is the strong factor in the great South American Kidney Cure. It is prepared specially for these organs, is radical in its banishment of disease located here, and rich in the healing powers necessary to complete restoration. Sold by W. H. Griffith.

The Liberals of this vicinity held a well attended meeting in the school house Friday eve for the purpose of electing delegates to attend the Liberal Convention at Ayer's Flat on the 21st. Messrs. E. J. Tuck, Chas. Boynton and D. A. Ballock were chosen. Mr. Wm. Melrose filled the chair and Mr. B. West acted as Secretary in a very efficient manner; instructive speeches were given by Messrs West and Boynton. The Liberals hereabouts are numerous and thoroughly alive; they do not care for any Moore boodling. A large portion of the Conservatives of Canada are taking milk from the government cow—and we are feeding the cow—shall we continue to do so?
The cheek of the Owl's Head bear has no comparison, he visited the Mountain House last Tuesday eve in a manner that gave the inmates the creeps, it appears as Mr. Wm. Peaseley and Mr. Mayhue who are arranging the Mountain House for the coming season owing to an overcrowded boarding place went across lots to the annex of the main building to retire for the night, they had barely got to rest when they heard on the gravel path coming towards the house what they supposed to be the heavy tread of a man; upon looking out they discovered it to be a large brown bear following up the sent of their footsteps, the boys pushed aside the curtains from the window which looks out upon the front verandah and there sat brain on his haunches not two feet from the window with eyes like balls of fire and he uttered low growls that caused the flesh of Messrs. Peaseley and Mayhue to become like the rough side of a grater; a rap upon the window brought the old fellow down upon the sill with his forepaws which caused the boys to look about for some instrument of war; the gentleman without, however, after promoucing the piazza for a time concluded as the house was not open that he was somewhat early to get accommodation for the season so took himself to the mountains in search of supper from some other quarter. A wild place must be the Owl's Head Mountain House as last year a deer was captured there and the year before Jewitt's sea serpent was sighted just off the beach. Indians are also said to be lurking about the vicinity.

W. L. C.!! "If there is any really American national game of ball it is the Indian game of La Crosse, now known as the "Canadian National Game. La Crosse was played by the North American Indians before the tread of a "pale-face" had been seen on the "native" beach of the red men of the American continent, and this fact alone establishes its nationality, and, therefore our English cousins cannot lay claim to having any hand in originating this game, as they can in the case of the American national game of base ball which had its origin in the English game of rounders."—An American Game Book. The Guild of St. John's Church met at Mrs. Ball's on Tuesday last.

TORTURES OF RHEUMATISM

The pains of rheumatism are removed and the disease driven from the system by the use of Burdock Blood Bitters, the conqueror of thousands of the severest cases.
Mrs. J. M. Monkman, of Arkwright Ont says:—"I took inflammatory rheumatism in February, 1894, and doctored for it some weeks, but I found I was getting worse. All my joints were swollen very much and I was not able to leave my bed and could get neither sleep nor rest. Hearing from a neighbor that she got your Burdock Blood Bitters for her daughter, who had the same disease and it cured her, I purchased a bottle, and after taking about half of it I found myself recovering, and after continuing it for some time I recovered, but when the cold weather set in this winter I found it returning again. So I commenced to take the B. B. B. again, when I found after taking it about a week, that all pain and swelling of the joints had disappeared and I consider that I am entirely cured."

That New York City consumes nine hundred and sixty million eggs in one year; nearly three hundred thousand pounds of butter every day, and as many gallons of milk; that it eats three hundred and five million pounds of beef in a year seems astounding. And yet these figures are, in reality, very moderate calculations which Mr. John Gilmer Speed has reached upon exhaustive investigation, and embodied in an article on "Feeding a City like New York," which he has written for The Ladies' Home Journal.

An Exceptional Sale
St. John is Much Interested in the Recent Medical Discovery.
St. John, N. B., May 25.—The many cases of rheumatism restoration to health from various forms of kidney trouble which have been constantly appearing in the daily press of the Dominion have for some time awakened the liveliest interest here, and the remedy by which the cures were effected, namely, Dodd's Kidney Pills, are obtaining great celebrity throughout the province. The appearance of the testimonials of Drs. Rose and McCormick stating the benefits which they had personally derived from their use was considered a sufficient sign of the merits of the remedy, and the other interesting and wonderful cases which have since been chronicled has caused the specific to have an exceptional sale.

No Relief, No Rest
Ten Years a Sufferer From Liver Complaint and Indigestion.
The Remedy which Acts
Directly on the Nerve Centres Cures Like Magic—It is Delicious to the Taste.
Mr. David Reid of Chesley, Ont., writes: "For ten years I was troubled with liver complaint and dyspepsia. At times my liver was so tender I could not bear it pressed or touched from the outside. Had tried a great many remedies without any benefit. Was compelled to drop my work, and, being worse than usual, I decided as a final resort to try South American Nerve, which had been recommended to me by friends who had been cured by it. I got a bottle from A. S. Goodspeed, local druggist, and commenced taking according to directions. Before I had taken half a bottle I was able to go to work again, and I have improved steadily since. I am conscientiously recommend South American Nerve to any suffering from dyspepsia, or liver complaint." This is Mr. Reid's story as he tells it in his own words.
Were it thoroughly necessary it could be corroborated by a host of witnesses. Mr. Reid has lived a long time in Chesley, and his case was known to be a very bad one. But that makes no difference to Nerve. This great discovery rises equal to the most trying occasions. Let it be indigestion, the most chronic liver trouble, as with Mr. Reid, nervous prostration, that makes life miserable with so many, or sick headaches, that sap all the effort out of man or woman. Nerve measures to the relief of the cases. It is a great medicine and thousands to-day in Canada are happier and healthier men and women because of its discovery. Sold by W. H. Griffith.

COUGH & TH SHILOH'S CURE

Canada is now in the throes of a general election, to be fought mainly on the question of denominational education in Manitoba. The following article from the pen of an English journal who has been studying Canadian political questions in the principal cities of the Dominion has accordingly a special and peculiar interest:—
"Aside from any issue raised by the Manitoba school question, it will be an excellent thing for Canada if the Conservatives are defeated at the approaching elections for the Dominion Parliament. The Conservatives have been in office too long. As an inevitable consequence, Canada is suffering from the ill attendant upon too long and too exclusive possession of power by one political party. Canada has copied English constitutional usage and Parliamentary procedure to a mechanical and slavish extent. It has quite kept pace with most of the constitutional changes in England; but

THE POLITICAL MORALITY OF OTTAWA
is immeasurably below that of Westminster. It is not more than on a par with political morality at Washington, or New York; in some respects it is below that of Washington.
"While I have been in Ottawa, I have seen the leader of the House of Commons openly act a part which would bring about his repulsion from any decent club. He had to read a telegram in the House from the Premier of Manitoba regarding the now abortive conference at Winnipeg on the school question. I was in the press gallery when the telegram was read. The Leader of the House read it out as though he were reading the whole. It was so accepted, until three days later, when it was telegraphed from Winnipeg that part of the telegram had been withheld. Only a couple of lines were withheld, but they were vital to the story, as they showed the spirit in which Mr. Greenway was going into the Winnipeg Conference. As read in the House the telegram indicated some giving way on the part of the Manitoba Premier, whereas as written it indicated nothing of the kind, and plainly showed that to results, from the point of view of the Dominion Government, could be expected from the Winnipeg Conference. When charged with this tricking Parliament and the country, the leader of the Government forces, in a feeble way, told the House that he had omitted part of the telegram as he had thought the words he had withheld were not of any consequence. I did not wonder, after this exhibition of the political ethics of Ottawa, that the Manitoba Premier resolutely refused to receive the Dominion commissioners unless two shorthand writers were present at all the interviews.
"This incident of the mutilated telegram is of a piece with much that goes on at Ottawa. The Conservatives have been in office since 1878, and during these eighteen years they have stuck nothing that would help to keep them in power. All the offices in the outside Civil Service have gone to their political supporters.

THE GOVERNMENT HAS GRIEVANDED THE CONSTITUTION.
in a fashion which has brought upon it the condemnation of the Churches, and made it impossible for a Liberal opponent to count on a fair election in many of the constituencies of the province of Quebec and Ontario. They have secured in their own hands the appointment of the officers who compile the voting lists, and also the appointment of the returning-officers. Nearly all these men are of their own party, and so flagrant is the partisanship of some of the returning officers that it is on record that one of them took the platform in behalf of the Government candidate in the constituency in which he had made up the voters' list. The voters' lists are made up when it suits the convenience of the Government. Sometimes the lists are two or three years old.
"The manufacturers who are protected under the high tariff have largely to the conservative election funds and finance Conservative newspapers. Government contractors are levied upon for election campaign funds. The constituencies are bribed by the building of railways, custom houses, and post-offices; and nowhere in the English-speaking world has the Government press been more coddled and nursed than in Canada. Numerous party journalists have been appointed to the Civil Service as rewards for their work in the interest of the Conservative party, and during the long regime of the Conservative Government, a score or more of

by means of public printing and advertising, principally for the Government railways and the Immigration Department.
"The Immigration Department spends on an average \$40,000 a year. It has agents all over Europe. A fair proportion of the \$40,000 goes in printer's ink; and in subventions in one form or another to journalists and writers. Last year two women journalists from Dundee were in this country to describe its resources for the information of Scotch farm laborers. In the Auditor General's accounts recently issued, it is shown that their travelling expenses in Canada were paid by the Dominion Government. Even the washing bills of these two young ladies were charged against the Immigration Department. Last year also a well-known lecturer of the last lamented Imperial Federation conference wrote a book in praise of the Great Dominion. It was published in England. In the Auditor General's report there is an item of £100, a grant towards the cost of placing this book before English readers. It was also charged against the Immigration Department. The real value of a book which needed so large a subsidy is easily gauged.
"The Liberals have a moderately conceived and a workable programme. Their principal demand is for an abandonment of the high protective tariff, which has existed since 1878, and which if it has not utterly failed of its objects, has certainly not increased the population of the Dominion, or added to its material wealth. The peculiar financial system of Canada, its costly form of Government, its enormous debt, and the disinclination of people in a new country to direct taxation render it impossible for Canada to adopt free trade. There must be a tariff on imports. The Liberals, however, demand that the tariff shall be for revenue only and not for protection. Up to 1879 there was a tariff for revenue which averaged seventeen-and-a-half per cent. If the Liberals are returned it is hardly likely that the existing tariff, which averages thirty-five per cent., can be brought down to the level of 1878. P."
