London, October 10.—A Belgrade despatch declares that the reply of Serbia and Bulgaria to the powers is negative. The exact formula is now being discussed by the allied cabinets.

TURKISH MINISTER NOT PRESENT.

PRAY FOR SUCCESS.

Constantinople, October 10.—The Sultan went to Top Kapu Palace yesterday to pray over the relics of the prophet treasured there for the success of the Ottoman arms.

WAR MAY YET BE Averted.

Sofia, Bulgaria, October 10.—(Special)—The Bulgarian premier and minister of foreign affairs, I. E. Guechoff declared this morning that he did not yet despair of war being averted at the last moment.

The council of ministers held yesterday he said had not reached any decision, and the exchange of views between the Bulgarian Government and cabinets at Belgrade and Athens was continuing.

As Montenegro had begun hostilities against Turkey she naturally had no more to say in the matter, he continued.

"In any case Bulgaria's decision," he said, "would not be long delayed." **ALBANIAN VILLAGES IN FLAMES.** Vienna, October 10.—(Special)—Many Albanian villages to the north of Boyana River are in flames, according to a despatch to the Neue Freie Press from Cattaroud.

Many fugitives, including some wounded men, have arrived at Scutari. Some peasants who fled to frontier posts at Samesi were slain by Montenegrins.

Constantinople, Oct. 10.—(Special)—More energetic intention by the powers in order to prevent an outbreak of hostilities on the part of Bulgaria, Serbia and Greece, and to bring about cessation of war with Montenegro, are said to be contemplated today.

Shots are reported to have been exchanged to-day between the Turks and Bulgarian troops occupying advance posts on the Turco-Bulgarian frontier at Tarrush and Kiliura.

ROUMANIA WITH BULGARIA.

London, October 10.—A Times despatch from Sofia says that the Roumanian Government has given Bulgaria explicit assurances of her neutrality, couched in the most friendly language.

The Turkish Government made great but unsuccessful efforts in September to secure the co-operation of Roumania. The next move will be a formal declaration of war, whereupon the Bulgarian army with the Serbian force on the right wing will immediately take the offensive.

ULTIMATUM FROM BULGARIA.

London, October 10.—The Bulgarian Cabinet sat until 8 o'clock last night to consider the note of the powers, says a Sofia despatch to the Daily Mail. The Greek and Serbian ministers conferred with the president of the council, but nothing was decided on. There is good authority, the despatch adds, for saying that probably no reply will be given and that more likely an ultimatum will be presented to Turkey within a few days.

NOTED BLIND EDUCATOR 80 YEARS OLD.

London, October 10.—(Special)—Sir Francis J. Campbell, the noted blind educator and scholar who for more than forty years has been at the head of the Royal Normal College and Academy of Music for the Blind, celebrated his eightieth birthday anniversary today. In view of the many years that Sir Francis has given to the Royal Normal College it is not surprising that even among those intimately associated with him the fact has been almost forgotten that he is a native of the United States and had established his reputation as an educator of the blind at the famous Perkins Institution in Boston before he came to England in 1870.

THREE SISTERS BADLY BURNED

Explosion Of Gun Cotton In Montreal Industry.

ONE OF THE VICTIMS LIES IN A SERIOUS CONDITION IN THE HOSPITAL.

Montreal, Oct. 10.—Three sisters, Agnes, Theresa and Aggie Murren, were badly burned yesterday afternoon while at work in the establishment of the Peerless Gas Light Company, 319 St. Lawrence street, by an explosion of gun cotton that started a fire on the third floor of the building.

Aggie Murren, 21 years of age, the eldest of the three sisters, was the most seriously burned, and it was said at the General Hospital last night where she is a patient, along with her nineteen-year-old sister Theresa, that her condition was considered serious. She is burned about the head and face and on both arms. Theresa was burned about the face and hands, but the younger sister, Agnes, 17 years of age, was only slightly burned and did not remain at the hospital. She was sent to her home, 605 Sanguinet street.

It appears that the gun cotton is used in the manufacture of gas light mantles made by the Peerless Gas Light Company, but what caused the explosion the firemen were unable to ascertain.

PERJURY CASE BEFORE THE COURT

Trial Of Moise Messier Begun Yesterday Afternoon.

ITALIAN MURDER CASE WILL PROBABLY COME UP TO-MORROW.

The case of the King vs. Moise Messier, who is charged with perjury, was continued in the Court of King's Bench this morning. The case was called yesterday afternoon, when the following jury was sworn in: H. Gauthier, A. Lemire, A. B. Ray, G. Ainsie, J. Emond, N. Morrison, C. Cullen, T. Gilbert, C. Menard, W. H. Jones, L. G. Moulton and N. Marquis.

The case is in connection with evidence given by Moise Messier in a civil case last spring. Messier was suing J. B. Sabourin for sixty dollars, the amount of a note. While being examined about the horse for which the note was given, Messier is alleged to have sworn that he sold the horse to J. B. Gattien for the sum of fifteen dollars, payable in work. The prosecution is trying to prove that Messier sold the horse to Gattien's two sons for the price of thirty-five dollars.

Several witnesses were examined by the Crown, and two or three by the defence. The Crown's witnesses were examined as to what the accused swore to on the occasion of the hearing in the civil case. As no record is kept of the evidence in such cases, they were forced to rely on the evidence of witnesses who were present.

Mr. St. Pierre, who was called by the defence, stated that the attorney, in examining Messier before the Civil Court, had questioned him very rapidly. He swore that he heard Messier tell Mr. Justice Globensky, in answer to a question as to how much he got for the horse, that the Court would understand him better if he were allowed to explain the whole transaction. Messier, however, was asked to state simply how much he got for the horse.

Mr. L. C. Belanger is conducting the case for the accused.

THE MURDER CASE.

It is expected that the trial of Frank Raffelli, charged with murdering Camillo Ciarubino, will be called some time to-morrow. The case of perjury against D. McLeod will probably be called this afternoon.

THE SUPERIOR COURT CASE.

In yesterday's Record it was erroneously stated that Mr. Justice Hutchinson rendered judgment in the Superior Court in the case of Robitaille vs. Greenspan. The judgment was rendered by Mr. Justice Globensky.

COMING SESSION OF PARLIAMENT

Preparations Going Ahead For Opening Next Month

EXPECTED THAT NOVEMBER 21 WILL BE DAY WHEN DOORS ARE OPENED.

Ottawa, October 10.—A notice has been sent out from the Prime Minister's office to all the various departments asking that all legislation with which they have to deal be prepared as soon as possible in view of the approaching opening of Parliament.

Estimates are being prepared and blue books and reports are in an advanced stage of preparation in the Government printing bureau. The Cabinet is meeting daily and messengers are busy between departments, carrying books and prepared tabular statements for the coming session.

Already the Capital is assuming an air of activity. Members are seen daily on Parliament Hill, most of them having arrived to search for houses and apartments, and it is significant that leases are being taken in most cases right into next summer. Trades people are jubilant over the early session, as it means shopping on a large scale by the county relatives of the members and catering for eatables.

The House will open its doors to its members probably on Thursday, November 21, and the Drawing Room will be held on the following Saturday, when a social function of an imposing nature will take place. While the date of opening is not definitely decided upon, November 21 seems to be the more likely date. With the return of the western members of the Cabinet on Monday to the Capital, important policies will receive their finishing touches.

Socially the coming season in the Capital promises to be brilliant.

\$200,000 FIRE IN PHILADELPHIA.

Philadelphia, Oct. 10.—Fire last night swept the six-story brick structure at the northeast corner of Fourth and George streets, erected by the Order of American Mechanics, as a hall in 1853 but of recent years occupied by manufacturing concerns. Medler, Heames & Co., occupied the upper floor as a shoe factory, and Epstein & Bros., shirt waist makers, were on the two lower floors. The loss is estimated at \$200,000.

CITY'S NEW RESERVOIR

Water Was Turned on at Five o'clock Yesterday.

HAS A CAPACITY OF OVER TEN MILLION GALLONS OF WATER.

At seven minutes past five last evening the water was turned on for the purpose of filling the city's immense new reservoir. The huge excavation had previously been examined by His Worship Mayor Hebert, Aldermen L. H. Olivier, Ewing and Lecloux, as well as by a number of citizens, including several members of the clergy. Everything was found to be in first class shape.

For over a year the Water Department has had a large number of men at work on this new reservoir. It is dug out of solid rock, and has a capacity of over ten million gallons. The pressure is sufficient to throw a stream over the highest building in the city.

50,000 YARDS OF ROCK AND EARTH EXCAVATED.

The city commenced to break the earth and excavate for the new reservoir two years ago last August. About 25,000 cubic yards of rock and the same of earth was excavated, and all the rock taken from the reservoir was placed in three piles, selecting the best stones for building purposes, others for concrete mixture, and the balance for the streets. The reservoir is not perfectly round. Its greatest length measures 500 feet, and 400 feet in width, and covers about two superficial acres of land. It contains water enough to supply a population of 40,000 people. The water will be pumped direct from the Drummond Power, pumping about 2,000,000 gallons a day, thereby giving the citizens of Sherbrooke perfectly pure water, free from contamination of any kind.

The reservoir is built almost all in solid rock, only a small portion on the north end of the reservoir has a concrete wall. It measures at the base 22 feet wide, and is 35 feet high. The width at the top of the wall is 5 feet. The back of this wall is filled in with a large quantity of loose stones and covered with earth, so as to make it perfectly solid and secure from any breakage.

VAIN SEARCH FOR THE BERNADETTE

Government Steamer Could Find No Trace Of Missing Yacht.

ONLY ONE MAN ON BOARD WHO KNEW ANYTHING ABOUT SAILING.

Rimouski, October 10.—At 10 o'clock last evening the steamer Lady Evelyn, of the Postal Department, returned from the Decouchemers, on the north shore from the vain search for the "Bernadette," the yacht in which seven young men of well-known families in Rimouski probably perished Sunday or Monday night last. The Lady Evelyn left Rimouski Tuesday at noon, having on board several of the parents of the supposed victims of the "Bernadette" and among others the Hon. Judge Tessier, father of one of the boys, and Mr. Blair, brother of Harold Blair, the owner of the yacht. The steamer at first crossed La Bale Blanche, the place where the two yachts left on Sunday night, and coasted along the shore, stopping at every point and signal station as far as Godbout, 100 miles east of Bale Blanche on the north shore, but unfortunately no trace of the "Bernadette" and her passengers was found and now it seems to be almost a certainty that the seven young men composing the crew of the pleasure yacht have perished.

This catastrophe has plunged several of the well-known families of Rimouski into deep mourning. Experienced fishermen who arrived here yesterday from the north shore near the place whence the "Bernadette" sailed on Sunday night, declared that they postponed their journey from Sunday night till Tuesday because of a storm which was raging there at that time. The storm assumed the proportions of a tempest about 10 o'clock at night.

The only man on board the "Bernadette" who had any knowledge of sailing was Harold Blair, and consequently he would have had but little assistance from the rest of the crew.

All the signal stations on both sides of the river have been warned and will forward any information they may secure as to the fate of the yacht.

The civil service commissioners decided that both officers were guilty of incompetency and neglect of duty. Burns attempted to arrest the two bank robbers single-handed in a South Side saloon and was beaten severely.

The annual Harvest Home services were held in the Methodist Church on Sunday last. The Rev. T. A. Special collections were taken up to pay the fixed running expenses of the Church and to pay off the debt incurred through alterations to the par-

sonage, moving of church shed, etc. This amounted to \$170.00. On the Monday following the annual chicken pie supper and entertainment was given. About 400 were present and partook of supper. The ladies of the Church had failed in no particular from their former reputation. After supper had been served the programme was rendered in the auditorium of the Church and which consisted of several selections by the choir, an address by Rev. T. A. A pleasing event was the appearance of Miss Annie Merry for the first time on a public platform. She is a pupil of Mr. J. Beader, and showed the audience that she possessed more than ordinary ability as a pianist. The programme was cut short owing to the late hour. The proceeds from the supper and collections will amount to about \$250. months past, will be presented at the
town hall on Thursday evening next,
Oct. 17th. The play is in two acts
and report says is very amusing,
abounding in strong comedy parts.
Between the acts solos will be rendered,
and one number on the "cello" by
Mr. Paul Feuter will be of particular
interest. The entertainment is under
the auspices of the Cowansville Or-
chestra, who will also render a new
programme of music.

The late Levi Scott, whose death
was previously reported, was born
at Iron Hill, May 11th, 1828, and
was in his 85th year at time of his
decease. Mr. Scott, with his parents,
moved to Scottsmore at an early age
growing up there. At the time of the
"49" gold fever young Scott got it
with the rest and went to California,
where he was fairly successful, but
decided to return east. He and his

companion walked across the Isthmus
of Panama in 1851 he married
Miss Florantha Darling. After a
short but happy wedded life of one
year Mr. Scott suffered bereavement
in the loss of his wife. After several
years he married for his second wife
Miss Jane Annington. Five children
were born to Mr. and Mrs. Scott,
three of whom died and were buried
in the Scottsmore Cemetery, the two
surviving being Mr. H. H. Scott, for-
merly of Sweetsburg but now of
Montreal, and Mrs. Arthur Miltmore,
formerly of Cowansville but now at
South Bend, Indiana. Mr. Scott at
that time owned the farm near Gil-
man's Corner on the road to Brom-
field, where parties driving can see
from the corner two beautiful rows
of maple trees reaching as far as the
eye can see over the hillside. Mr.
Scott planted those trees and they
will be a lasting monument to his
public spirit. About this time the
wanderlust again taking possession
of Mr. Scott, he and family went
west, this time homesteading in the
Black Walnut district near Montezu-
ma, Ohio. Walnut was as plentiful
that it was used for floors, furniture
and fuel.

Again getting homesick for the
East, he came back and again suffered
bereavement in loss of his second
wife, who was also buried at Scotts-
more. In 1867 Mr. Scott married the
third time Miss Hattie L. Eager.
There were three children by this
marriage, two of whom died and
were interred in the Scottsmore Ce-
metery. He is survived by his wife
and one son, Mr. Irving L.
Scott, who is the sole comfort of his
invalid mother.

Mr. Scott during his residence in
the west was 15 years in business in
Topeka, Kansas. While there he, still
thinking of the east, bought the place
known as Scott's Cottage, to which he
returned about twelve years ago to end
his days in peace and quietness. Here
he passed away peacefully on Friday,
4th inst., mourned by his many rela-
tives and acquaintances.

SUTTON.

Miss Ethel Ingalls writes of her ar-
rival at Seattle, Wash., from her re-
cent visit home, and of her resuming
work as nurse in the Wayside Hospi-
tal there. It was her first trip over
the C.P.R. through the Rocky Moun-
tains, which she describes as a grand
scenic route.

Mrs. A. J. Dyer, County President
of the W.C.T.U., has returned from
Huntingdon, also Mrs. F. A. Cutter,
who went as a delegate to the big
gathering there. The making of Mrs.
A. J. Dyer a life member seems but a
proper tribute to her as she has been
a most devoted worker in the good
cause for many years.

Mr. L. L. Jenne has put a new cov-
ering on Mrs. F. L. Holmes' house,
while the Smith, Flannery and Jenne
building has just been newly covered.

among those who spent Monday and
Tuesday in Montreal.

Messrs. Ernest Perkins and Earl
Derick returned on Tuesday from
two months at Sutherland, Sask.,
where they worked for Mr. Arthur T.
Newton. They report Mr. Newton's
crop as a good one and his 3,000
bushels of wheat and 2500 bushels of
oats went into storage in good shape.
Mr. Newton expects to come home the
latter part of October while young
Arthur Newton will not come much
before Christmas.

Mr. C. W. Thibault was called to
Sweetsburg on Court cases on Mon-
day. Mr. J. W. Murphy is called on
the jury the present week to Sweets-
burg.

who is now running out of Farnham,
will shortly go west into the State of
Washington.

time C.P.R. Agent at Milan, has been
transferred to Farnham as train de-
spatcher.

ctor Lewis, two Sutton boys who have
been operating a store on Richmond
Square, Montreal, for some time
have moved into more commodious
quarters, one street further west,
on St. Antoine street. Mr. Lyle
Longeway has taken a position as
checker in the ticket office at Windsor

How to Have the Best Cough
Syrup and Save \$2, by
Making it at Home.

Cough medicines, as a rule, contain a
large quantity of plain syrup. If you take
two cups of granulated sugar, add one
cup of warm water and stir about 2 mi-
nutes, you have as good syrup as money
could buy.

If you will then put 2 1/2 ounces of Pinex
(50 cents' worth) in a 16-ounce bottle, and
fill it up with the Sugar Syrup, you will
have as much good syrup as you could
buy ready made for \$2.50. It keeps per-
fectly. Any housewife can easily pre-
pare it in five minutes.

And you will find it the best cough
syrup you ever used—even in whooping
cough. You can feel it take hold—usu-
ally stops the most severe cough in 24
hours. It is just laxative enough, has a
good tonic effect, and taste is pleasant.
Take a teaspoonful every one, two or
three hours.

It is a splendid remedy, too, for whoop-
ing cough, croup, hoarseness, asthma,
chest pain, etc.

Pinex is the most valuable concen-
trated compound of Norway white pine ex-
tract, rich in gualacol and all the healing
pine elements. No other preparation will
work in this formula.

This recipe for making cough remedy
with Pinex and Sugar Syrup is now used
and prized in thousands of homes in the
United States and Canada. The plan has
often been imitated, but never success-
fully.

A guaranty of absolute satisfaction or
money promptly refunded goes with this
recipe. If the genuine Pinex is used,
Your druggist has Pinex, or will get it
for you, if you ask him. If not, send
to The Pinex Co., Toronto, Ont.

DEATH FROM POISON

Medical records show that Uric Acid
in the blood is a swift agent of
death. This malignant poison, which
should be expelled by the kidneys, is
diffused through the blood, and when
allowed to remain in the system, or-
gans on rheumatism. Thousands of
people are now suffering from their
kidneys being unable to throw off this
poison. Smith's North American In-
dian Rheumatic and Kidney Cure has
proved to be the only thing that
kills this Uric Acid and takes it out
of the blood. Experience has proved
that Liniment and Oils are of no
more value than cold water rubbed
on the cheek to cure toothache. It
has been abundantly proved by the
remarkable success of Smith's Rheu-
matic Cure, that it is the only thing
on this continent that will cure rheu-
matism. It is certainly the only
thing that is positively guaranteed
to do the work and does what it is
recommended to do. It is put up in
Tablets as well as Liquid. It can be
had at all Druggists and stores
where they keep patent medicines, or

cook, Que.

Mr. Charles Glenday of Troy N. H., is spending a week or ten days with his sister, Mrs. Hunting, Wolfe Street, and enjoyed a meeting with another sister, Mrs. George Gillespie, of Eureka, N. S.

Mrs. A. Devine and daughter Myrtle of Lake Megantic, Que., accompanied by Miss Etta Taylor were in this city on their way home from visiting friends in Montreal, Ottawa, Toronto, Niagara Falls and other points.

The annual ploughing match under the auspices of the Sherbrooke Ploughmen's Association will be held next Wednesday on the farm belonging to Mr. Jas. O'Connor, Capetown. It is expected that the turnout of ploughs will be the largest in the history of the Society.

Mr. Levesque, of the firm of Morissette & Levesque, returned recently from a fishing trip to St. Simon, with a number of friends. The party had exceptionally good fortune. In less than half a day they took an immense number of fine trout of six to seven inches in length.

Mr. W. J. Glenday of the Trans-Continental Railway, has been spending a week in the city, the guest of his sister, Mrs. M. L. Hunting, Wolfe street. Mr. Glenday was in charge of the train upon which the state commissioners travelled over this division of the road, 125 miles from Lewis to St. Perpetue.

Mr. E. S. Foss, Inspector of the S.P.C.A., was called to Barnston Monday to investigate a charge of ill-treating a horse, which was apparently well founded. Bryan, so forcibly that he consented to have the horse shot, which was done.

Messrs. T. W. Fuller, Jack Sangster and P. Mitchell, while on a hunting expedition on Saturday last, had the unusual experience of shooting a white deer. The learned in fairy lore will recall to mind how frequently a "white fawn" is alluded to, and the special powers ascribed to those who are lucky enough to see it. The occurrence certainly is rare enough to call for special mention.

"A girl of the Sunny South" pleased a crowded house at His Majesty's last night, and the Young-Adams Company cut another notch in the favor of theatre goers of this city. A beautiful play, superbly mounted, with Marie Adams in the title role found favor from the rise of the curtain. The specialties were extra good, and the skirt dance by Baby Marguerite was exceptionally clever. The bill for tonight is "Anna Karolina," and the specialties between the acts all change.

The marriage of Mr. Kenneth B. Schofield, of the firm of F. B. McCurdy and Company, Montreal, formerly of Sherbrooke, to Miss Helen Irvine, of Hampton, N.B., takes place on Wednesday, Oct. 16th, at the home of Mr. and Mrs. Irvine. The table was beautifully arranged with a quantity of pink carnations, and both cuisine and service were unexceptionable. With the dessert, congratulatory speeches, songs and choruses contributed greatly to the success of the evening.

FUNERAL OF LATE ANTOINE

The funeral took place at St. Michael's Cathedral on Monday morning, of Mr. Antoine Bayle, a highly respected French resident of the city, whose death occurred at the age of 72 years.

Mr. Bayle was born in France, at St. Jeure d'AY, village of Vivarais, Department of L'Ardeche.

He lived in his native place till some time after his marriage with Miss Marie Poure, and in 1885 emigrated with his wife and family to Canada, establishing himself first on the 11th range of Ascut, where he carried on farming, and gardening successfully for twenty years.

Mr. and Mrs. Bayle had two children, Mr. Jean Bayle, an employee of the corporation, and Mrs. Arsene Belleville (Miss Claudine Bayle) whose husband was also a native of Vivarais, and who has been chef at the Continental Hotel for some twelve years. The solemn requiem mass was celebrated by Mr. H. O. Chailifoux, Vicar-General, assisted by the Revs. Turmel and Parent, of the Cathedral, as deacon and sub-deacon. The bearers were Messrs. Dolor Rousseau, Theod. Camirand, Fred Allard, Alfred Lanctot, Pierre Simon and F. Charret, all French-Canadians, and the pall-bearers were Messrs: J. Fresne, Etienne Brazier, Jules Michaud, Jos. David, Prof. Badin and N. Barreau, natives of France.

The mourners were the son and son-in-law mentioned above, with the following personal friends of deceased: From old France: Messrs. Constant Garche, J. Brossard, P. Boies, etc., while in addition to the citizens of Sherbrooke assembled to do honor to deceased, the entire French colony followed in the cortege to St. Michael's cemetery, where far from the land of his fathers, the old emigre was laid to rest. A beautiful token in the form of a palm with flowers and tri-colored ribbons was sent by the French Veterans' Society of Montreal, and was placed on the casket.

NORDICA AND MELBA.

"Madame Nordica and Madame Melba have both been singing in opera for more than two decades and are still unapproached," says Philip Hale in the Boston Herald. "How is it that in 1912 they are able to give such great pleasure to hearers that have witnessed the waxing and waning of many prima donnas? Because Mme. Nordica and Mme. Melba, first of all, learned how to sing. They learned the proper use of the voice. After all the labor, after all the strain, they are still mistresses of song." Mme. Nordica comes to Sherbrooke for one night only, Oct. 17th.

Mrs. John Farquhar has gone to Boston to meet Miss Marjorie Farquhar, who has been spending some time in the vicinity of that city, and before returning they will take a trip to New York.

Miss Bertha Gilbert has returned home from a visit to Montreal.

The marriage took place this week at the Methodist Parsonage at Swanton, Vt., of Miss Edith Thomas, daughter of Mrs. Frank Thomas, of this city, to Mr. C. K. Prouty. The ceremony was performed by the Rev. R. W. Aiken, and was very quiet. Mr. and Mrs. Prouty will live in Swanton.

Mr. P. T. Strong, widely and favorably known in commercial circles throughout Eastern Canada, who joined the selling force of F. B. McCurdy & Co. Halifax, last spring, has been transferred to the Montreal office to complete the organization of the Securities Department at that point and his supervision from there will cover the Eastern Townships, the Kingston and Ottawa districts.

Owing to the numerous accidents by firearms, the law in respect thereof will be rigidly enforced. By order, Chief of Police.

LINEN FROM ANCIENT EGYPT.

In one of the apartments at University College Professor Flinders Petrie has placed on exhibition some remarkably interesting antiquities unearthed at Tarkhan, Heliopolis and Memphis under the auspices of the British School of Archaeology in Egypt.

The great cemetery of Tarkhan, which occupied a mile of desert forty miles south of Cairo and which dates from the earliest historic age until the race of the pyramid builders, has proved to be exceedingly prolific in antiquities. What has struck Professor Petrie is the extraordinary preservation of the woodwork and clothing unearthed from these places of interment of long ago.

A great sheet of linen which is placed on exhibition is as fresh and as firm as when cut from the original length—and it is some 6,000 years old. So, likewise, with the woodwork, which in but few instances shows signs of decay. Here are boxes that served their purpose as funeral caskets, built of planks of acacia and siltum wood, and as firm and secure as when lowered into the bosom of the earth in dim antiquity. —Washington Herald.

APPLE PIES AND APPLE "SASS"

FROM the days of Adam and Eve, the children of men have been undone and done up by the fruit of the apple tree. And yet the apple properly prepared, is food fit for the gods. The apple pie season is on, and if you want a really good paring knife—one that will hold an edge—hand a quarter to the man at the cutlery counter and ask him for an Aluminum Paring Knife.

These knives have forged jack knife blades set in Aluminum handles—they'll outlast a dozen common paring knives.

COUNTRY PRODUCE

GOOD DEMAND FOR EGGS.
Montreal, Oct. 10.—The demand continues good for strictly fresh and

selected eggs and a good many contracts have also been made by the large consumers for cold storage stock for present and future delivery, but the trade in second grades is quiet. The tone of the market remains very firm and prices show no change. We quote prices as follows: Selected stock in round lots, 29c.; selected stock in single cases, 30c.; straight receipts in round lots, 25½c.; straight receipts in single cases, 26c.; second grades in round lots, 21c.; second grades in single cases, 22c.

LIMITED DEMAND FOR HONEY.
Montreal, Oct. 10.—There is no change in honey, the demand being still limited and principally for small lots to fill actual wants. We quote: Clover, white honey, 10½c. to 11c.; dark grades, 7c. to 8c.; white extracted, 8c. to 8½c.; buckwheat, 7½c. to 8c.

MAPLE PRODUCTS QUIET.
Montreal, Oct. 10.—Business in maple product continues very quiet, and the market in consequence is without any new feature to note, prices being about steady. Maple syrup selling at 8c. to 8½c. per lb. in tins, and 6½c. to 7c. per lb. in wood, and maple sugar at 8½c. to 9c. per lb.

FAIR POTATOE TRADE.
Montreal, Oct. 10.—A good trade continues to be done in potatoes and the market is fairly active, with a steady undertone. We quote: Cobblers, in car lots, at 65c. to 70c. per bag, and in a jobbing way at 90c. to 95c. per bag.

PROVISION MARKET.

DRESSED HOGS IN DEMAND.
Montreal, Oct. 10.—There were no further developments in the local provision trade, the feeling in the market for dressed hogs being steady, owing to the recent advance in prices for live hogs and the continued good demand for local consumption, con-

sequently sales of abattoir fresh-killed stock were made at \$12.50 to \$12.75 per 100 lbs. The condition of the market for smoked and cured meats is unchanged, with a fair volume of business passing for the season of the year. The demand for lard and barreled pork is increasing owing to the cooler weather and the movement is larger than it has been of late.

MONTREAL LIVE STOCK MARKET

MARKET WEAK OWING TO LARGE RUN OF CATTLE.
Montreal, Oct. 10.—Feed in pastures deteriorating has caused farmers to sell a good many of their cattle to drovers for butcher and as a consequence there is a large influx of all grades of butcher stock; especially is this so of the poorer grades, which, being of no material benefit to the farmer after the feed in pastures gets low, are sold for what they will bring.

The large runs coming forward have served to weaken the market and cause it to be draggy. As there is very little demand for the poor grades, except from packers for canning purposes, much of the stock is being continually carried over from one market to another.

Prices were easy. There was little demand for anything apart from sheep and hogs. Sheep, spring lambs and hogs were steady, while the market for calves showed a weakness owing to the lack of demand. Receipts of cattle at the East End Stock Yards estimated 1,200 head; market easy; top steers, \$6.40 to \$6.55; good, \$6.20 to \$6.35; fair, \$5.80 to \$6.00 and medium \$5.20 to \$5.45, and poor \$4.75 to \$4.95. Butcher bulls, \$2.50 to \$3.00; butcher cows best \$4.25 to \$4.50; good, \$3.90 to \$4.20; fair \$3.50 to \$3.75, and poor to medium \$2.75 to \$3.25; canners \$1.75 to \$2.50.

Receipts of sheep and lambs estimated at 1,000 head; market steady and demand good; old sheep 3½c. to 4c.; spring lambs, 5½c. to 6c. per lb. Receipts of hogs estimated at 1,200 head; market steady; demand good; selects, \$8.50 to \$9; sows, \$7.50 and stags \$4 all cwt. off cars.

Receipts of calves estimated at 500 head; market easier; milk fed, \$2 to \$5, and grass fed \$6 to \$10 each as to size and quality.

GOOD PRICE FOR POULTRY.
Bolton Glen, Oct. 10.—(Special)—Mr. Joseph Needham took seventeen pure bred White Wyandotte pullets to the Eastern Townships Poultry Co., at Foster for which he received \$17. Mr. Clifton Brown took 150 pure bred Barred Rock pullets and received \$150.

Eleven Inning Game Resulted In A Tie

TRIS SPEAKER EVENED SCORE WITH HOME RUN.

Fenway Park, Boston, Oct. 9.—The Giants and Red Sox were forced to split even in the second game of their series for the world's baseball title this afternoon, when after eleven innings of the hardest and closest kind of playing the game was called with the score standing 6 to 6.

The battle was the most thrilling ever played in the history of the big leagues, and the great throng was kept on its feet throughout by the spectacular plays on both sides.

Christy Mathewson, "Big Six," was in the points for McGraw's band, and had one of his best days, while Collins, who started for the Sox, was yanked out, and Wrecker Hall went in, but he, too, was driven to the woods, and Hugh Bedient finished the game.

SPEAKER PROVES HERO OF THE DAY.

Tris Speaker saved the game for Boston. With the score 6 to 5 against us in the tenth inning, Speaker drove a home run to the far centre field fence.

The Boston champions started after their rivals from the cry of "Play ball!" Their attack was so sudden that they took McGraw and Mathewson by surprise and scored three runs in the first innng.

From then on, though, the Giants hung on with desperation. They squeezed out one run in the second inning and another in the fourth. The Sox scored one in the fifth, and the tally then was 4 to 2 in Boston's favor. Two more innings passed without a run; then the Giants' batters, who had been on Collins' heels all the afternoon, got him.

WRESTLING.

TREMBLAY RETAINS HIS TITLE.

Montreal, October 10.—(Special)—Eugene Tremblay, the French-Canadian wrestler and holder of the world's lightweight championship belt, demonstrated beyond a doubt that he is still the best man at his weight in America last night in defeating John Paradise, the New Hampshire champion, in two straight falls. The first came in fifty-eight minutes and the second in seventeen, but the first was the immediate cause of the second, Paradise being completely dazed from the effect of a knock on the head, Tremblay dropping him hard after obtaining a crotch hold. The New Hampshire man on stepping through the ropes for the second bout looked and was a beaten man.

It was apparent as the man stepped on to the mat that the little French-Canadian, who has for several years beaten all comers, was a decided favorite. At no stage during the sixty-eight actual minutes of wrestling was he in real danger of losing a fall, though a couple of toe holds caused him to wince and give the impression that he could not endure the pain. From the first it looked as if the match was going to be won through toe holds. Both men endeavored repeatedly to secure these, but both falls came through body holds.

COTTON GROWING IN AFRICA IMPROVING.

The next English budget contains a provision of \$2,500,000 to promote the growing of cotton in East Africa and Uganda. A deep water pier, says the Birmingham Age-Herald, is to be built in East Africa and a railroad has been instructed to and into the new cotton district.

Six years ago the Uganda crop was only 500 bales; this year's crop is expected to go to 30,000 bales. The hope is that next year a crop of 50,000 bales will be produced. It is not high grade cotton. It sells from 30 to 100 points below American cotton. Lancashire needs just such cotton, however, in its business.

The railroads find it difficult to get cars enough to move the cotton grown in Uganda. The possibilities of Uganda are, therefore, limited, and the province will never grow the cotton that may yet be produced in Nigeria and the Sudan. In no event and in no course of time is there any danger that Africa will become a serious rival of America in the growing of cotton. It has plenty of sunshine, but its rainfall is not quite sufficient.

GETTING AT THE TRUTH.
Was he rich or poor? She wanted to find out before she gave him her answer. Thinking deeply for a moment she said: "I fear we should not get along well. You are too extravagant."

"Extravagant!" he repeated. "On the contrary, I am very economical. Why, I have to be."
"Then I can never be your wife."
"Because I am economical?" he queried.
"No," she answered, "because you have to be."

SCOTTISH SHAFTS TO TAP COAL SEAM UNDER OCEAN BED.

Edinburgh, Scotland.—The efforts to reclaim coal from under the bed of the ocean, now being made by the Carrow Coal Company by means of the sinking of a shaft on the shore of Firth of Forth, are being watched with deep interest by the other coal masters of Scotland.

Having thrown a pier out into the fifth for a distance of 100 yards they are now conducting their sinking operations in a totally novel way. Cast iron cylinders in sections of five feet are being sunk deep into the silt and already a depth of 60 feet has been attained. This method will be pursued until the bed rock is reached at a depth possibly of 120 feet. The cylinders sink of their own weight into the soft mud. The men being lowered in a bucket inside the cylinders bale the sea water out. As the cylinders go down further sections are added on top and so on until the total depth is reached.

The company is about to sink another shaft, as two are necessary for the workings. Great satisfaction is being expressed on the progress made and hopes are entertained of the early opening of an important colliery, which will afford work for hundreds of men and obtain a new and almost inexhaustible supply of coal for the world.

BAN ON CANADIAN CATTLE WILL REMAIN
Little Likelihood Of Government Opening British Ports.

SAID THIS ATTITUDE IS DUE TO THE IRISH INFLUENCE IN THE COMMONS.

London, Oct. 10.—The Canadian Associated Press is informed that there is little likelihood of British ports being re-opened for the admission of Canadian cattle in the near future, and the refusal of Mr. Runciman, President of the Board of Agriculture to receive a deputation upon the subject has caused considerable indignation among those who for months past have been agitating for a removal of the ban. His attitude is said to be in no small measure due to Irish influence in the commons.

DON'T GROW BALD YOUNG MAN!

Take Care of Your Hair While You Have Hair To Take Care Of.

It's a safe bet to one bet that the young man who uses PARISIAN Sage as an occasional hair dressing will never grow bald.

There's a reason, of course, and it's a very good and sufficient one.

Dandruff germs cause falling hair, and falling hair means thinner hair and in due time baldness.

PARISIAN Sage prevents baldness, by destroying the cause of baldness—the little persistent voracious dandruff germ.

If you have dandruff or itching scalp it means that dandruff germs are sapping the vitality from the roots of your hair. Get rid of all hair troubles by using PARISIAN Sage.

It is not a dye, mind you, neither does it contain poisonous sugar of lead or even sulphur. It is a scientific preparation that abolishes dandruff, stops falling hair and scalp itch, and makes hair grow lustrous and luxuriant.

Many young women as well as men are growing bald and for the same reason. Use delightful, refreshing PARISIAN Sage: it nourishes the hair roots, if the roots are not dead, and brings to every user a head of glorious hair—radiant and fascinating. Large bottle for 50 cents at drug stores and toilet counters. See that you get PARISIAN Sage.

F. T. Ansell guarantees it.

Some 57 names were added to the voters' list in the corporation, while two were struck off.

OUR SMALLEST BIRD.

There is an interesting article by Ernest Harold Baynes on the humming bird in the Suburban Life Magazine. In describing it he says: "A trifle over three inches in length, the ruby-throated humming bird is the smallest feathered creature in eastern North America. There is no other bird east of the Mississippi River with which it can be confused, for it is the only species of humming bird in the whole of this region. This may be doubted by those who do not know that the plumage of the adult male bird is quite different from that of the female and immature hummers, and by those who are unfamiliar with sphinx and humming bird moths. A young farmer friend of mine, who is always on the lookout for anything which he thinks will interest me, ran up to my house one evening to tell me that he had caught a humming bird for me. He had seen it probing the flowers in his garden, he said, and had caught it under his hat, where he had left it on the lawn, fearing that he might hurt it if he attempted to take it in his hand. I went with him, slipped by hand gently under the hat and took out—a humming bird moth, an insect which he had always believed to be a humming bird."

FUNERAL OF LATE FRANCIS G. GALE.

WAS ONE OF LARGEST EVER
SEEN IN VILLAGE OF
WATERVILLE.

Waterville, Oct. 10.—The funeral of the late Francis Gilbert Gale, Jr., took place from his home here on the afternoon of Thursday, August 29th, and was one of the largest and most beautiful recorded in the history of Waterville.

The special circumstances of the sad and unexpected death, together with the fact that the deceased was a general favorite, and beloved throughout the village, brought practically the entire community to pay its tribute to his life.

The deceased was the younger of the two sons of Mr. and Mrs. F. G. Gale, and was born December 1st, 1894. He matriculated from Waterville Academy in June, 1911, and had spent a year in special study, and in acquiring a knowledge of the French language. He had intended entering McGill University at the coming session. He was a young man of unusual ability, in the development of which he had taken advantage of every opportunity. His prospects for

THE LATE FRANCIS G. GALE, Waterville.

a useful career were certainly bright. Besides his father and mother, he leaves an older brother, Royce L. Gale, to mourn his loss.

The funeral services were conducted by the Rev. I. W. Pierce, pastor of the Congregational Church, associated with whom were the Rev. G. H. Craik, of Melbourne, a former pastor and Rev. G. Ellery Read of Sherbrooke, for many years a friend of the family. Miss Ruth Libby, recently principal of the Waterville Academy, rendered the solo "Face to Face." The entire services were intensely impressive.

The casket was mounted on a flat carriage and banked with a multitude of floral designs. The horses were led by two young men, and the bearers, Messrs. A. Drew, H. Spriggs, Oliver Craik, Clifford Cote, A. Brown and T. Molyneux walked by the bier. Over two hundred men of the firm of Geo. Gale & Sons and of the village awaited the procession in double column with bare heads and falling in line at the rear, marched to Greenwood Cemetery. It was exceedingly touching when each of these men, at the close of the services at the open grave, passed by and dropped a flower on the casket.

Among those present from a distance were: Messrs. F. N. McCrea, M.P., Jas. MacInnion, J. S. Mitchell, Sherbrooke; A. B. Hunt, ex-M.P., Miss Hepburn,bury; Messrs. J. J. Crowley, Daniel Crowley, F. J. Perrigo, Montreal; T. P. Kent, Toronto; F. R. Coburn, Melbourne; W. Cornell, Victoria; Miss Ruth Libby, Ayer's Cliff; Miss Alice McFadden, Lennoxville; Miss A. Swail, Cookshire.

APPEAL OF TROOPER SUSTAINED

COURT HELD THAT HE WAS JUSTIFIED IN STAYING AWAY FROM CAMP.

Montreal, Oct. 10.—The right of a volunteer, who has been certified as medically unfit to absent himself from camp without permission from the officer commanding his regiment, was the point at issue in an appeal before Mr. Justice Tremblay, in the Court of King's Bench. The appellant was Trooper C. Wall, and he appeared against the decision of Judge Lafontaine, fining him for every day which he was absent from the annual training camp at Farnham, without leave, despite the fact that he had a doctor's certificate stating that he was unfit to attend.

Mr. Justice Tremblay sustained the appeal and quashed the conviction. He was convinced that Wall had really been ill, and he was not going to fine a man because he was sick. Wall might not have gone about the matter in the proper way. His Lordship was convinced that he had acted in a good faith. The costs of the appeal were granted against the Crown.

THE FIRST DESCRIPTION OF NIAGARA.

In the autumn of 1678 a Franciscan friar, Hennepin, set out alone—the first solitary figure of the expedition, a gray priest—from the gray rock of Quebec, in a birch canoe, carrying with him the "furniture of a portable altar." Along the way up the St. Lawrence he stopped to minister to the inhabitants, too few and too poor to support a priest, saying mass, exhorting and baptizing. Early in November he arrived at the mission at Fort Frontenac, which he had two or three years before helped La Salle to establish in the wilds. Soon La Salle's lieutenants appeared, with most of the men, and while some were despatched in canoes to Lake Michigan to gather the buffalo fleeces against the coming of the ship whose keel had not yet been laid, the rest (La Motte, Hennepin and sixteen men) embarked for the river by which the upper lakes empty into Lake Ontario and the St. Lawrence, that is, the Niagara. To this priest, Hennepin, we owe the first description and picture of Niagara, probably now more familiar to the world than any other natural feature of this continent. He has somewhat magnified the height of these falls but they are impressive enough to acquit him of falsification and powerful enough to run virtually all the manufacturing plants in the United States if they could be gathered within reach. As it is, less than 4 per cent. of the water that overflows from the four upper Great Lakes into the lower lake, once known as Lake Frontenac and now as Ontario, is diverted for utilitarian purposes, and yet it supplies the American and the Canadian almost equally between the two shores over 300,000 horse-power. What the conversion of the strength of this Titan, for ages entirely wasted and for a century after Hennepin only a scenic wonder, means or may mean to industry in the future, is intimated in some statistics furnished by a recent writer on the Great Lakes showing the relative cost per month of a certain unit of power in a number of representative American cities.—From "The French in the Heart of America," by John Finley, in Scribner's.

LAXATIVE FOR OLD PEOPLE—"CASCARETS"

What glasses are to weak eyes, Cascarets are to weak bowels.

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles.

So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty. Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets and they cost only 10 cents per box at any drug store. They work while you sleep.

Had Bad Sore Four Years

ZAM-BUK HAS HEALED IT

Mrs. Wilson, 110 Wickson Ave., Toronto, says: "About four years ago a sore spot appeared on the right side of my face. This spot increased in size until it became about half an inch in diameter and very painful. I went to a doctor, but the ointment he gave me did not have any good effect. The sore continued to discharge freely, and was most painful. I had it cauterized, tried poultices and all kinds of salves, but it was no good, and I continued to suffer from it for four years."

"A sample of Zam-Buk was one day given to me and I used it. Although the quantity was so small it seemed to do me some good, so I purchased a further supply."

"Each box did me more and more good, and to my delight, before I had been using Zam-Buk three weeks I saw that it was going to heal the sore. In less than a month it was healed."

"I know a lady in the east of the city whose husband suffered for years with an open sore on his leg. On my recommendation Zam-Buk was tried in that case. The other day when I saw her she told me that it had healed the sore completely."

"My daughter, who lives in Lethbridge, Alta., has also used Zam-Buk with the same satisfactory result. I think it is, beyond all doubt, the finest healing balm known."

"Such is the opinion of all persons who have really tried Zam-Buk. It is a sure cure for eczema, piles, abscesses, ulcers, scalp sores, ring-worm, cuts, burns, scalds, bruises and all skin injuries and diseases. 50c. box, all drug stores and stores, or post free from Zam-Buk Co., Toronto, on price. In case of skin disease use also Zam-Buk Soap, 25c. tablet."

TERRORIZING THE MONGOLS.

RUSSIANS MAKE REPORT ON
THE OUTRAGES COMMITTED
BY THE CHINESE.

London, October 10.—More than 10,000 Mongols have been slain by Yuan Shi Kai's troops in Eastern Mongolia, according to a St. Petersburg despatch to the Times. The victorious troops are now advancing in a circle on Urga. The object of the outrages alleged to have been perpetrated is to stamp out the inclination recently displayed by the people of Eastern Mongolia to join Outer Mongolia. "Bereft of Russian support," adds the despatch, "the Government at Urga is now disposed to receive an emissary from Peking."

TOWNSHIP OF ASCOT COUNCIL

BY-LAW LEVYING RATE OF 9
MILLS FOR MUNICIPAL PURPOSES PASSED.

At a regular meeting of the Ascot Township Council Mayor G. G. McCurdy and Councillors Marlin, Hetu, O'Connor, Armitage, Mitchell and Bourque were present.

Mr. Jardine was present with reference to a new road between Lots 5 and 6, Range 12, which he now wishes extended to the 14th Range. He was advised to bring in another petition covering the extension required.

Councillor Armitage reported, with reference to the culvert being built on the lower Belvidere road. The committee had given up the idea of an arched culvert and were building concrete walls, on which would be placed a steel bridge with concrete floor. The work was progressing satisfactorily, and he expected that the cost would be within the estimates.

RECORD NUMBER OF DIVORCE CASE

Toronto Is Responsible For Half
Of Those Applying.

TIME FOR NOTICE OF APPLICATION NOT UP, BUT THERE
ARE 32 ON LIST.

Ottawa, Oct. 10.—The session 1912-13 which it is believed will open about the middle of next month, will start out with a record in the matter of divorce cases. The time for giving notice of application for bills of divorce has not yet expired, yet already there are 32 on the list. Of these two or three were left over from last session, when 16 bills were passed, which was thought to be an unusually large list. Sixteen, exactly half the applications so far put through, are made by residents of

Toronto. From Montreal there are two, from Winnipeg four. This year, for the first time since Confederation there is an application from Prince Edward Island. The Island province has a divorce court, as have also the provinces of New Brunswick and Nova Scotia and British Columbia, yet the P. E. I. court has not had a divorce case before it since 1867. During the year 1911, in addition to the cases dealt with by the Federal Parliament, the Nova Scotia court decreed ten divorces, the New Brunswick court six, and the divorce court of British Columbia, 19.

By arrangement, all divorce cases are first dealt with in the Senate. SMART BOY.
"You are an honest boy," said the lady, as she opened the roll of five one-dollar bills, "but the money I lost was a five-dollar bill. Didn't you see that in the advertisement?"
"Yes," replied the boy. "It was a five-dollar bill that I found, but I had it changed so that you could pay me a reward."—Cincinnati Enquirer.

LETTERS TO THE EDITOR

COMMISSION MANAGEMENT OF THE CITY.

Editor of Record.
Sir—Ex-Mayor Cate, in his admirable address to the City Council in support of the Board of Trade petition, on Monday night, pointed out that in his opinion a single commissioner elected by all the voters as a general manager, and empowered to engage the different employees of the city and be responsible to the citizens for the proper discharge of his duties, would be his idea of proper city management under ordinary circumstances, but that seeing we have here two nationalities it would be better to provide for more than one commissioner. This is very true.

It might be added that the real Simon-pure form of commission government, whereby three or five commissioners without any council for any legislative functions, is also a very effective and the general form of commission government, and is, with the absolutely necessary adjuncts of the commissioners, viz: the "Recall," the "Initiative," and the "Referendum," a form entirely in line with the present day democratic ideas of city government and quite suitable for our city, but is, perhaps, too radical a change and would prove too much of a change for our people to accept under present conditions.

There remains, therefore, the plan of commissioners who would be absolutely in charge of the administration of the city's affairs, while the City Council elected as at present by the wards, who would fix the taxes, allot to the different departments the various amounts they would be able to spend during the current year, and who would, by a two-thirds vote, have a veto power over the plans of the commissioners, only, however, to be exercised in extreme cases. These commissioners would, as in the last cited plan, be elected by the people at large. This is vital to the principle of commission management—a matter not to be lightly ignored. The people rule, the voice of the people must be heard and their wishes carried out. Coupled with the right to elect directly the servants of the people at large, must be the right of the people to be able to express directly and at once, should occasion arise, their opinion of their servants' doings or shortcomings, which can only be done by giving them, the people, the right to recall the commissioners to give an account of their work, to demand that they shall have the right to express by vote their opinion on any matter which the commissioners wish carried out, and the right to demand that the commissioners shall do certain works which they, the people, want done, in a word, the right by petition of a certain percentage of the voters to put in force the clauses of the charter, the "Recall," the "Initiative," and the "Referendum."

Sherbrooke, Oct. 7.

THE RUNAWAY.

The rector was sitting in his study hard at work on the following Sunday's sermon, when a visitor was announced. She was a hard, muscular-looking woman, and when the minister set a chair for her opened fire somewhat brusquely. "You are Mr. Jenkins, ain't you?" "I am," replied the good man. "Well, maybe you'll remember o' marrying a couple o' strangers at your church a month ago?" "What were the names?" asked the clergyman. "Peter Simpson and Eliza Brown," replied the woman, "and I'm Eliza." "Are you, indeed?" said the minister. "I thought I remembered seeing your face before, but—" "Yes," interrupted the visitor, "I'm her, all right, an' I thought as how I ought to drop in an' tell you that Peter's escaped."

CITIZEN.

INTERNATIONAL THIEVES.
A remarkable story of international thievery was related in a Paris police court the other day, when a man named Bucking, who had been extradited from London, was placed on trial. Bucking it appears began by writing to a famous Paris jeweller under the name of "Mrs. Marchmont," mentioning another wealthy customer, and asking for a quantity of expensive jewellery to be sent to London on approval. The request was immediately complied with, and £270 worth was chosen and paid for with a cheque. Three months later "Mrs. Marchmont" ordered £1200 worth, and also paid by means of a bill on a London bank.

Shortly after there came an order for pearl necklaces to the value of over £5000, to be sent in order that the customer might choose one of £1000, and following this the jeweller received another request in the name of an alleged friend of "Mrs. Marchmont" for necklaces, rings and bracelets, also to the value of over £5000, all of which were confidently sent to London. This time, however, no payment followed, and the jeweller "went" was arrested in the person of placing the matter in the hands of the police, the pseudo "Mrs. Marchmont" a German named Bucking.

HOSPITALS IN MISSION WORK.

The worth of the mission hospital in preparing the way for other missionary work has been often remarked but is ever fresh, illustrated, Mr. Lewis H. Mounts, a new arrival in Aintab, where he has become a teacher in the Central Turkey College, spent his Easter vacation taking a trip among the villages with an experienced missionary, and he came back from it with many deep impressions, a new interest in mission work, and a clearer sense both of its need and opportunity. The work of the college was borne in upon him as he realized the necessity for the training of consecrated young men to teach and preach in the villages, and in them to set the example of a genuine religious life. He was also led to appreciate more than ever before the part the hospital plays in opening up new fields. "It was the presence in practically every village of one or more former patients in the hospital that made our welcome so cordial everywhere; for kind and hospitable the people certainly were."

A resolution was passed into the hands of the Road Committee to proceed with the construction and repair of the gravel and wooden sidewalks, and the repair of roads.

The Market Committee was ordered to inquire about the condition of the lease made with Dr. G. S. Gregoire, and his intention of keeping possession of the tenement, and also to examine what repairs are needed for that part of the building that he had been living in, and to report at the next meeting. It is intended to make the tenement into a dwelling for Policeman Savard and his family.

A resolution was also passed appointing the Mayor to accompany the member, Dr. G. S. Gregoire to Quebec to settle the question of the water power on the Chaudiere River and with authority to make the deed of purchase in the name and for the corporation.

The passing of the by-law for the macadamizing and grading of the roads of the municipality was postponed until the next meeting.

The Council is now having erected a large covered shed in the municipal yard with tables on both sides for the accommodation of farmers making use of the market.

COUNCIL WAS EVENLY DIVIDED

Resolution Re. New Road Carried by Casting Vote of Stanstead Township's Mayor.

AMENDMENT WAS TO SUBMIT PROPOSED PAYMENT OF \$1,000 A MILE TO P.E.P.E.

Smith's Mills, Oct. 10.—(Special)—Considerable interest was manifested at the regular meeting of the Township Council in connection with the proposed new highway from Sherbrooke to Derby Line. The Government has decided to build the road at a cost of \$1,000 per mile to be paid by the municipalities through which this highway will run.

There was a large attendance of ratepayers, many of whom were opposed to the proposition.

Mr. M. F. Hackett, K.C., the attorney for the Township spoke in favor of the scheme, while Mr. T. B. Rider, Fitch Bay, spoke in opposition to it.

A resolution was moved by Councillor J. F. McVeay and seconded by Councillor H. H. Smith, "That the Council hereby binds itself to pay the Quebec Government \$1,000 per mile for every mile of said road built in the municipality of the Township of Stanstead between the points of Derby Line, Vt., and Sherbrooke, Que."

An amendment was then proposed by Councillor Harvey, seconded by Councillor Taylor, "That this resolution be submitted to the ratepayers of the Township of Stanstead for approval or disapproval." The amendment being put to the vote stood: Ayes—Councillors Harvey, Taylor and Temple. The Nays—Councillors McVeay, Smith and Walsh.

The vote being a tie, Mayor Walsh voted against it and declared the amendment lost.

The main motion was then put and carried on the same division. It is stated that if Councillor McGowan had been present there would have been no tie.

OTHER BUSINESS.

The voters lists as presented by the Secretary Treasurer were taken up, but on account of lack of time were not completed and will be again taken up at an adjourned meeting of the Council to be held on Monday, the 14th inst., commencing at the hour of nine o'clock in the forenoon.

TOWNSHIP OF DURHAM COUNCIL

Mr. H. Jones, Fordyce, Appointed a Councillor.

PASS RESOLUTION OF CONDOLENCE WITH FAMILY OF LATE COUN. BUCK.

Dunham, Oct. 10.—(Special)—The regular monthly meeting of the Municipal Council of the Township of Dunham was held in the Town Hall in the Village of Dunham. There were present Mayor George A. Doherty and Councillors Geo. M. Beach, James Miller, Edward Hall, Theophile Noisieux and W. F. Lee forming a quorum under the presidency of Mayor Doherty.

The secretary announced the vacancy in the Council caused by the tragic death of Henry B. Buck. It was moved by Councillor Lee and seconded by Councillor Beach that this Council wish to place on record its high appreciation of the valuable services rendered this Council by the late Henry B. Buck and their desire to express to Mrs. Buck their deep sympathy and condolence in her bereavement.

After due consideration the Council felt that Fordyce had not been represented for a great many years in the Council, and elected Henry Jones of that place councillor in place of Mr. Buck, deceased.

A large number of bills were approved and the secretary instructed to pay the same.

By-law No. 215 was passed by the Council to levy a rate of 2 1/2 mills upon every dollar of taxable property within the limits of the municipality of the Township of Dunham, according to the valuation roll in force therein for the purpose of defraying all expenses of this municipality for the current year and until a new by-law be passed to raise more money.

Mr. Volin J. Gleason was present and asked the Council to take steps to give him a right of way to his land lying behind the farm of Mr. Geo. E. Short. The Mayor was instructed to see the interested parties.

The Council appointed Edward E. Hall to look over the ditch along the roadside in front of Mr. Geo. Doherty's place and arrange for carrying off the water.

The Council adjourned until Saturday the 12th inst. at 10 a.m.

FIRE DOES DAMAGE AT FARNHAM

Broke Out in Boiler Room of the Fairbanks Co.

GOOD WORK OF FIREMEN SAVED THE WHOLE OF THE OLD C.P.R. SHOPS.

Farnham, Oct. 10.—(Special)—A fire broke out in the boiler room of the Fairbanks Safe and Pulley Co.'s works on Wednesday. Considerable damage was done, and had it not been for the activity of the C. P. R. car repairers' fire company and Fairbanks employees, the whole buildings, the famous old C.P.R. shops which have turned out in the past more leading railroad men than any shops on the continent, would have been a total ruin.

The town fire brigade arrived shortly after the alarm was given. It will necessitate the closing of the works for a few days until repairs are made.

AFTERMATH OF AN ELECTION

Case of Assault Heard Before Court at Sweetsburg

TWO PARTIES GOT INTO AN ALTERCATION AT POLLING DIVISION ON POLLING DAY.

Sweetsburg, Oct. 10.—(Special)—Before the Court of King's Bench yesterday most of the time was taken to dispose of the case of Daniel Aiken, accused of a serious assault, which the jury reduced to that of common assault.

It appears that during polling day at a political election last year Aiken and one Milmore had an altercation and came to blows, with the latter as second best. Hence the proceedings, as well as a civil suit for damages, which is still pending.

The grand jury was dismissed last night, having done its work in two days.

FOR A FIRMER WAR FOOTING

President Taft Before The Vermont Legislature.

HE UNVEILED MONUMENT TO THE STATES' SOLDIERS AT MONTPELIER, VT.

Montpelier, Vt., October 10.—President Taft was present yesterday at the unveiling of a memorial to Vermont's privates in the Civil War, addressed the joint assembly and made short talks to Montpelier school children. Then he hurried away to St. Johnsbury and Bretton Woods to spend the remainder of the day.

The President's topic before the joint assembly was "The Common Soldier of the Civil War." He adhered closely to the subject and said not a word on politics. The President's only digression was in relation to a larger reserve army. He declared that while the militia was efficient it was not great enough in numbers to make an ample reserve. There will not be time in future wars, he said, as there was in the Civil War to prepare great force of men in years of actual conflict. Modern wars, the President pointed out, would be decided in a comparatively short period and a trained reserve force was essential at the outset. The House chamber was packed with members of the Legislature and their friends. The President's speech was applauded frequently and loudly.

DE PALMA ROBBED OF POCKETBOOK

WAS TAKEN FROM HIM WHILE ON WAY TO THE HOSPITAL.

Milwaukee, Oct. 10.—Besides losing the \$2,500 second prize of the Grand Prix by his going into the ditch as the race was ending, De Palma was robbed of a pocketbook containing about \$1,000 when he was thrown out of his car.

De Palma's clothes were torn to threads. The pocketbook was carried in an inside pocket of his coat. As he was carried off the course, a crowd gathered around him, and it is believed that someone picked up the pocketbook.

Several times in the ambulance on the way to the hospital De Palma asked about his pocketbook, but medical attendants took little notice, thinking him delirious. To satisfy him his brother John told him that his money was safe.

Little attention was paid to the matter until yesterday, when De Palma again mentioned it. The course has been searched, without avail. De Palma has not been told of the loss.

POET'S DREAM OF THE PANAMA CANAL.

Goethe, the German poet, dreamed of the Panama Canal 85 years ago. The discovery has just been made by Mr. Price Collier, the American author.

Mr. Collier has discovered a recorded conversation of Goethe in 1827, wherein the creator of "Faust" regrets that he will not live to see what he prophesies as probable. First the building of a canal by the Americans across the Isthmus of Panama; second, a canal at Suez, "which will probably be controlled by the British."

Goethe also told of the probable growth to the westward of the United States, and declared that the cutting of such a waterway as the Isthmian Canal would be a necessity.
