

ACTIVITY REPORT 2021-2022

PRESENTED TO THE GENERAL ASSEMBLY OF

**founded in 1990,
re-founded as a national organization in 2004**

September 10, 2022

A word from the president

At the 2020 General Assembly, I announced that I would retire from the Board of Directors in two years. I therefore confirm that I will not be a candidate as a director and as chairman at the election to be held at this General Meeting on Saturday, September 10, 2022.

I am proud of the progress made by the Association since its re-foundation in 2004. From a small local organization, it has become a large national association present in all regions of Quebec. Its funding now allows it to ensure its sustainability.

The Association had been active in 1996 in the fight for the abolition of grandparents' support payments to grandchildren.

Since 2004, she has presented different briefs or made different representations on different issues such as the reform of the Youth Protection Act, the reform of family law, for a reasonable payment of grandparents who act as a family of proximity.

Hotline volunteers have helped, comforted and referred thousands of grandparents to professionals. Grandparents have benefited from hundreds of conferences, coffee meetings and one-on-one meetings since 2004.

Since 2004, I have had the opportunity to meet many politicians and journalists. I have defended grandparents and their grandchildren by presenting briefs or giving interviews. But above all, I have had the privilege of meeting grandparents from most regions of Quebec during meetings or conferences.

I make no secret of my emotion in stepping down from the presidency of this organization in which I have volunteered thousands of hours since the May 2003 General Assembly. I will be pleased to collaborate in order to ensure a smooth transition.

I wish the best of luck to the new team you will elect to the Board of Directors. I salute and thank the members of the Board of Directors with whom I have had the pleasure of working.

Presentation of the Association

The Grandparents' Association was founded in 1990 as a local organization in Beauport and

surrounding areas. In 2004, it extended its scope to the whole of Quebec. Since then, it has organized events and activities in most regions of Quebec.

Since 2004, she has maintained a toll-free hotline for all grandparents in Quebec.

Since 2004, its website grandparents.qc.ca informs grandparents of its mission, its services, its various activities and its demands.

Since 2010, its [Facebook](https://www.facebook.com/grandparents.quebec) page [.com/grandparents.quebec](https://www.facebook.com/grandparents.quebec) informs, mobilizes and entertains grandparents.

The main mission of the Association is the collective and individual defense of the rights of grandparents, grandchildren and families. In order to do so, it offers services allowing :

Political issues and continued mobilization in 2021-2022

The year 2021-2022 was the year of mobilization for the ADGPQ, which fought against the infringement of grandparents' rights following the tabling of Bill 2 in the fall of 2021 by the Minister of Justice, Mr. Jolin-Barette. Thus, if Bill 2 is passed in its current version, it would diminish contact rights between grandparents and their grandchildren in multiple ways. For example, currently grandparents benefit from the presumption that it is in the child's best interests to maintain contact with them. The bill changes this by putting the burden of proof back on the grandparents to prove to the court their importance in the child's life.

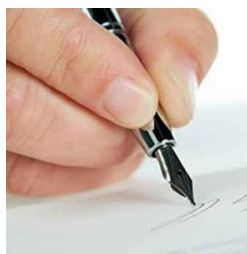

Our actions

Prior to the introduction of Bill 2, the ADGPQ has :

- informed its field partners of possible upcoming changes (July-August 2021);
- drafted and distributed a letter to Minister Jolin-Barette denouncing the fears of the ADGPQ regarding the mistreatment suffered by an increasing number of seniors who see their ties cut with their grandchildren, following the tabling of a bill that does not meet the demands of the ADGPQ;
- contacted Minister Barrette's Chief of Staff to express our concerns.

As a result of the introduction of Bill 2, the ADGPQ has:

- contacted the MNAs, the justice spokespersons of their parliamentary groups at the National Assembly, to make them aware of the ADGPQ's position;
- drafted and distributed a [press release](#) on Parliament Hill and to elected officials, local and national media and partners denouncing the discrimination experienced by seniors following the introduction of the bill;
- filed [a brief](#) in December 2021;
- had the provincial MNA for Hochelaga-Maisonneuve, Mr. Alexandre Leduc, sponsor a petition that was tabled at the National Assembly and put online in December 2021;

- deployed a social media campaign and targeted communication to partners to drive signatures on the petition, reaching 1081 by February 1^{er} 2022;
- prompted the National AQDR to issue a [press release](#) supporting the ADGPQ in its demands.

The ADGPQ made a request to the Commission des institutions de l'Assemblée nationale to be heard during the Parliamentary Commission that took place in the winter of 2022. Minister Jolin-Barette did not invite any representatives of Quebec seniors' groups.

Meetings of Members of Parliament

To highlight the issues and demands of grandparents, Mr. Lafrance and Ms. Avoine participated in virtual meetings with the following MPs:

On April 29, 2021, a virtual meeting with Ms. Sonia Lebel, MNA for Champlain and Mr. Éric Girard, MNA for Lac-Saint-Jean.

May 20, 2021, virtual meeting with Mrs. Geneviève Guilbault, MP for Louis-Hébert

May 25, 2021, virtual meeting with Catherine Dorion, MP for Taschereau

Mobilization of corporate partners

In 2021-2022, President Henri Lafrance met with members, grandparents' and seniors' groups, and corporate partners to introduce the organization and to mobilize them, mainly on the subject of Bill 2.

We would like to thank the support and contribution of four organizations that have joined the ADGPQ as corporate members. They are the AQDR-Richelieu-Yamaska, the Haut-Richelieu, the Memphrémagog and the Centre professionnel de la diversité. We are proud to reach, through this last organization, the minorities resulting from immigration.

We need the support of corporate members to defend the rights of grandparents before government authorities. These rights are also often violated by the Youth Protection Branch. They are also threatened by the possible reform of family law. Indeed, this reform could very well abolish the rights of grandparents provided in article 611 of the Civil Code of Quebec.

Presence of the ADGPQ on the public scene and actions with our members

The President, Mr. Henri Lafrance, met with different groups of grandparents and seniors to present the Association and its services. Mr. Lafrance took the opportunity to explain to the members of these organizations the issues at stake for grandparents in the reforms of family law (Bill 2) and youth protection (Bill 15).

In 2021-2022, the ADGPQ reached several thousand grandparents through all of its information and mobilization activities.

He and the vice-presidents Ms. Avoine, Ms. Arsenault and Mr. Bizier also meet with an average of 15 to 40 members each Thursday. This also allows them to share their experiences and to mobilize them with regard to the upcoming legislative changes that concern grandparents.

During the legal information meetings with Mr. Luc Trudeau, Mr. Henri Lafrance, president (or other members of the board of directors) presents a summary of the objectives pursued by the ADGPQ, the purpose of its existence and the services provided to Quebec grandparents when they need help, especially when they are cut off from their ties with their grandchildren. It also presents the Association and its main political and social demands. We encourage our sympathizing members to raise awareness and to denounce to elected officials the unjust or problematic situations that grandparents experience.

Our communication, press and public relations activities

The year 2021-2022 was marked by several activities as well as the production of communication tools, including:

- **Continuation of the 2021 radio campaign**

Following the success of the [radio campaign](#) that ended on March 31, 2021, the Quebec Grandparents Association has seen an increase in traffic to its website and Facebook page and has received more calls during the months of April and May 2021.

- **Creation and launch of the new website (September 2021)**

The website of the ADGPQ has been completely revised and redone. The tree structure, the new content, the writing of all the texts, the research of new images and visuals required more than 150 hours of work. As for the graphic production and the setting on line, it was realized by the firm VIGLOB.

The objective was to create a more current, more easily accessible and user-friendly site, according to the comments obtained, it is successful!

- **New visual signature of the ADGPQ**

Since the Association (which was then called AGPQ) was more difficult to find in search engines (the Association des garderies du Québec had the same acronym) and since the creation of the new website required a change of visual signature, our organization decided to change its name to "*L'Association des grands-parents du Québec (ADGPQ)*".

- **Creation of three new information videos**

Three new videos were created, one of which is associated with the mobilization campaign to fight Bill 2. These were previewed at the Salon des aînés.

Interns and volunteers

The Association continues to emphasize an intensified collaboration with the Volunteer Centres, particularly with the Volunteer Centre of Quebec, Accès Bénévolat (East of Montreal), Volunteer Centre of the West Island and with the Volunteer Centre of Montreal. This collaboration helps us in our recruitment of volunteers.

The Association has recruited many new volunteers for its hotline and its other various services. The pandemic has greatly facilitated the recruitment of its volunteers through the Volunteer Centres, but especially through the new [JeBenevole.ca](https://www.jebenevole.ca) website of the Fédération des Centres d'action bénévole du Québec.

Annual General Meeting

In this period of pandemic COVID-19, the General Assembly of the Association was held on September 11, 2021 via ZOOM. More than 30 people were present.

Hotline

Monic Oats responds to a grandmother in need

The crisis line is still very much used by grandparents and it is still the "gateway" to the Association for many grandparents who are experiencing difficulties. The helpline is still available 8 hours a day from 9 a.m. to 5 p.m. from Monday to Friday for a total of more than 2000 hours a year.

Once again this year, we would like to highlight the exceptional contribution of our warmest advocates, Mrs. Monic Avoine and her team of volunteers. It is important to note that calls from grandparents come from all regions of Quebec. The number of calls was approximately 1000 this year.

Here are some situations encountered by the listeners:

1. Parents demand money or property to leave grandchildren with grandparents.
2. The parents threaten the grandparents: "If you refuse to keep the children at the end of the week, you won't see them anymore".
3. Children are neglected by parents. Grandparents compensate for this by caring for and nurturing the young ones. Grandparents provide full-time care for their grandchildren with the consent of the parents. They pay for all the children's needs. But if they ask to receive social or tax programs related to the children (Child Support Payment (Quebec) and Canada Child Allowance), the parents threaten them with not seeing the children again.
4. Children are neglected by parents. The grandparents compensate for this by taking care of and caring for the youngsters. They become exhausted and ask the CLSC for help. The CLSC workers ask the director of youth protection to intervene. The Director of Youth Protection places the child in a foster home. If the child is young or very young, he or she will probably be placed with a family that wants to adopt him or her. If this happens, the grandparents would become foreigners under the law.
5. Grandparents help their son or daughter who is going through a difficult divorce or separation. When one parent is demonized by the other and experiences parental alienation, it is not only the parent who is targeted but also the parents and siblings. The big losers are, of course, the children.

11. The son or daughter of the grandparents, father or mother of the grandchildren has died. The surviving parent wishes to erase the deceased parent's lineage from his or her life and that of his or her child. He or she wants to have the child adopted by a new spouse. If this is done, the grandparents would become strangers under the law.
12. As a result of some kind of dispute between parents and grandparents, the grandparents are denied access to the grandchildren. Yet, the parents were previously very happy with their dedication to the care and custody of the children.

This year we had about 20 volunteers join the team of volunteers for the telephone listening.

Coffee meetings

The coffee meetings were organized by the vice-president Mrs. Monic Avoine and the president Mr. Henri Lafrance. They served both to allow members to come out of their isolation, their frustration of being deprived of access to their grandchildren in this period of confinement but also to mobilize them in relation to the bills 2 and 15 which endanger the rights of grandparents.

Virtual meetings of the Board of Directors

Nine meetings of the Board of Directors were held virtually during this period.
