PREMIER TAKES A HAND IN DEBATE ON BUDGET

Lloyd George Announces British Attitude Re Silesia

PREMIER MEIGHEN LED ATTACK AGAINST THE PROGRESSIVES AND LIBERALS IN HOUSE YESTERDAY

It was the Prime Minister's Contribution to the Budget Debate and an Opportunity for Him to Answer Criticisms Which Have Been Levelled at the Government Before and Since the Discussion of Canada's Financial Affairs Was Launched—Lucien Pacaud, of Megantic, Stated that Present Government Appeared as an Unscrupulous Usurper of Power.

(Special to The Sherbrooke Record)

OTTAWA, Ont., May 14.—In a fighting speech which occupied the better part of two hours, Right Hon. Arthur Meighen, Prime Minister of Canada, yesterday, led the attack against both Liberal and Progressive parties in the House of Commons. It was the Prime Minister's contribution to the budget debate, and an opportunity for him to answer criticisms which have been levelled at the Government before and since the discussion of Canada's financial affairs was launched. This he did, but in addition, he threw down the gauntlet to leaders of both parties on the other side of the chamber. The Progressives, he declared, were playing pre-election politics. A desire to get into the same boat with the Liberal opposition dictated their support of the Fielding amendment.

"They have made of themselves something of a political annex to that party, servile tools and minions of the official Opposition, ready to do whatever they are bid," insisted the Prime Minister. "Why not throw the mask away? Why not join right up? Let them throw away both platforms and frame one on which they can both stand, and then remain on it, but do not let them say that one is still back on the 1918 platform, and the other on the 1919 platform, when as a matter of fact each of them has discarded these platforms."

OPPOSITION AMENDMENTS TO SUPPLY MOTIONS CAME IN FOR CENSURE.

The speech of the Prime Minister was listened to by a well filled house and galleries. Loud applause from the Government benches greeted his sallies, and there were practically no interruptions from either the Liberals or Progressives. Opposition amendments to supply motions came in for his censure. "We know that my honorable friends opposite have been struggling hard to move amendments to supply," he said.

"They have raked all the ash heaps and garbage barrels of politics. Everything from the political dustpan that could be thought of has been moved in this House in amendment to supply, everything except their platforms." Last year the Liberals had introduced an amendment calling for a reduction in tariff, but this year, said Mr. Meighen, their amendment called for no reductions. Hon. W. S. Fielding, the mover of the amendment, was in reality an adherent of the policy of protection. He had demonstrated this conclusively during his tenure of office as Minister of Finance in the Laurier administration. He had found a protective tariff in effect when he took office, and he had left it in effect, stated Premier Meighen.

HE DISCUSSES THE GOVERNMENT'S PROTECTIVE POLICY

In contrast with the attitude of the Liberal opposition, the Government came out fearlessly and made its declaration on the tariff, said the Prime Minister. The Government stood by the tariff which existed today. "We want protection in this country the same as every country in the world has it, with the exception of Great Britain," he said. "Great Britain is coming round to it pretty fast." It would be disastrous on the eve of a tariff revision in the United States for Canada to make any changes. The budget as presented by the Finance Minister, had met with the general approval of the country.

GOVERNMENT NEVER SURPASSED FOR WASTEFUL METHODS

The complaint that the Government was without a mandate from the people was brought forward once more at the evening sitting by Lucien Pacaud (Megantic). The present Government appeared as an unscrupulous usurper of power. It had never been surpassed for its wasteful methods. The people demanded a reduction in the public debt and the development of the natural resources of the country.

Mr. L. T. Pacaud (Megantic), was followed by R. K. Anderson (Horton), and J. A. Maharg (Maple Creek).

UNEMPLOYED WANTED WORK, NOT SYMPATHY

Parliament Chamber Was Invaded by Men Who Insisted on Having Work Provided.

(Associated Press Despatch.)

ST. JOHN'S, Nfld., May 14.—Stormy scenes attended an invasion of the parliament chamber yesterday by a crowd of unemployed men. They refused to be satisfied with assurances of sympathy, and kept the chamber in an uproar until finally action was taken to provide funds which will enable several hundred to obtain employment today.

In addition to the permanent residents of the city who are out of work, many unemployed men have come in from the paper mills at Grand Falls. Fishermen from villages around the coast, who have been unable to obtain outfits for the season's fishing, also are arriving here in hope of finding some relief.

Premier Lloyd George To Make Another Effort To Settle The Dispute Between The Mine Owners And The Miners Next Week

It Is Stated that Premier Lloyd George Will Bring Mine Owners and the Miners' Representatives Together Again Next Week for a Conference—Appeal Issued to Women to Economize in Use of Household Fuel, as Well as Gas and Electricity.

(Associated Press Despatch.)

LONDON, May 14.—Following the conciliatory speech in the House of Commons on the miners' strike situation yesterday by Mr. Lloyd George, it was learned unofficially that the Premier will bring the miners' leaders and the mine owners' representatives together again for a conference early next week.

It is understood that he will take this step as a result of unofficial overtures which have been made to him during the past twenty-four hours, and which are regarded as paving the way to a settlement of the strike without humiliation to either side.

In the House of Commons Mr. Lloyd George was appealed to by J. R. Clynes, chairman of the Parliamentary Labor party, to bring the miners and mine owners together, and the Premier promised to summon the disputants as soon as there was a chance of a conference proving successful. The resolution of the railwaymen instructing members to refuse to handle any "tainted" coal, it has been learned, carried by an extremely narrow majority.

It sounds much more formidable than it is likely to prove in practice. The Government, it is believed, has made complete arrangements to meet any such contingency. Glasgow railwaymen, who called off the dogs to handle any "tainted" coal, were instructed to do so by headquarters of the Union in London.

The Glasgow Union men have in the last day or two received an impressive evidence of the capacity of the Government to get all the help wanted in the thousands of volunteers who are helping to unload cars from the Glasgow docks. The Government continues its campaign in favor of the conservation of coal.

It has issued a special appeal to women to economize in the use of household fuel as well as gas and electricity. As a result of the coal shortage, the Vickers' Engineering Works at Barrow, which employ 15,000 men, will, according to an announcement made today, definitely close down next week.

In the course of his speech in the House, Mr. Clynes said that the miners were in the mood to accept the guidance of their leaders if offered fair and equitable terms.

MEETING OF MONTREAL WHOLESALE GROCERS HAS BEEN CALLED FOR MONDAY

(Associated Press Despatch.)

MONTREAL, May 14.—Claiming that the new sales tax legislation will lead to intensified competition under the provision and interpreted by R. H. Breadner, Commissioner of Taxation, Ottawa, in a letter sent to the Montreal Board of Trade to the effect that "sales tax may be absorbed by manufacturers and wholesalers," a special meeting of the wholesale grocers guild has been called for Monday next here, when the process of the new regulations will be discussed in detail. Other trade organizations here are also calling meetings to talk over the situation, and it is expected a result that a general commission will be appointed to decide whether a formal protest shall be lodged with the Minister of Finance.

Officers of the various organizations object that with the present arrangement it will be possible for firms looking for business to take over payment of the sales tax as a sort of discount to customers, a proceeding which was impossible under the old sales tax regulations.

TO FIGHT OUT ISSUE BEFORE MOSCOW CONGRESS

(Associated Press Despatch.)

BERLIN, May 14.—Dr. Paul Levy, who recently was expelled from the Communist Party and directed to surrender his mandate as a member of the Reichstag, has notified the central committee of the Communist Party of his intention to fight out the issue before the Moscow Communist Congress.

Levy was read out of the party because of public disapproval of the recent Communist riots in mid-Germany.

Eight other Communist members of the Reichstag, who were disciplined by the local board for standing by Levy, have also announced their intention to demand vindication of the Moscow Tribunal.

ALL CANDIDATES FOR THE SOUTHERN IRISH PARLIAMENT RETURNED WITHOUT OPPOSITION--THE NEW PARLIAMENT WILL NEVER FUNCTION

(Associated Press Despatch.)

DUBLIN, May 14.—Except for four imperialist candidates who were returned unopposed for Dublin, not a single opponent has returned against the Sinn Fein Candidates, who, therefore, will be returned unopposed in the Southern constituencies. These Sinn Feiners will refuse the oath of allegiance to the Crown, and therefore the new parliament will never function. Thus it will develop upon the victory to nominate an executive on the lines of Crown Colony administration, unless the Government should decide to recognize all the members elected in the North and South as a constituent assembly.

More than half the members selected in the South are in jail and others have been for some time in prison.

The elections were the quietest ever known in Ireland. No polling was necessary, as according to the British custom, when only one candidate is nominated the polling is dispensed with. This way the 128

GREAT BRITAIN IS OPPOSED TO EFFORTS OF POLES TO CREATE A REVOLT; ATTITUDE MADE CLEAR

(Associated Press Despatch.)

LONDON, May 14.—Efforts on the part of Polish insurgents to create in the plebiscite area of Upper Silesia a situation similar to that which existed in Fiume during the D'Annunzio revolt in that Dalmatian city are sternly opposed by Great Britain.

The attitude of the British Government was made very clear by Premier Lloyd George, speaking in the House of Commons yesterday, and it would appear his words, which lacked nothing of frankness, would call for declarations from chiefs of Allied powers, setting forth their positions.

The Polish Government, whose disavowal of responsibility for the Silesian revolt was sharply challenged by Mr. Lloyd George, would seem to have been placed in a situation where it must take action to end a situation which the Premier asserted "frightened" him.

Official expressions which would indicate the sentiment in government circles in Warsaw were being awaited with keen interest here today.

Berlin despatches assert there is going forward an exchange of views relative to cancellation of penalties placed on Germany after the meeting of the Supreme Allied Council in March. These included the establishment of a customs zone along the Rhine, and the occupation of Ruhr ports along the Rhine. It is declared Great Britain favors a relaxation of Allied pressure, now that Germany has decided to accept the Allied reparations terms and is preparing to carry them to fulfillment.

The Premier's denunciation of the Polish revolt in Silesia did not receive anything like unanimous support from London newspapers today. Some of the most important journals did not comment upon his address, and while there were some strong expressions of approval, there were also some sharp attacks upon Mr. Lloyd George, who was told, among other things, that he himself and his Allied colleagues were largely to blame for the situation, and that the Polish Government was really powerless, for material reasons, against the insurgents.

The Daily Express commended the Premier's honesty, courage and statesmanship, and insisted Poland must be taught she cannot be allowed to become a disturbing element in Europe.

The Daily News held that Poland was "fatally and irretrievably in the wrong," and that the Premier's language was "fully justified."

Mr. Lloyd George was charged with "bitter partisanship, intense dislike of Poland, pusillanimous fear of Germany and ignorance of European politics" by the Morning Post. The newspaper described his speech as a "torrent of abuse, invective and hysterical excitement," and argued that if the result of the Silesian plebiscite was to be determined by the vote of individual communities, according to the Treaty of Versailles, "facts would show that Korfanty was following the treaty and Lloyd George was breaking it."

The Post concluded by expressing the hope that the British public would not allow itself to be rushed into acquiescence in the Premier's "contemptible and senseless pro-Germanism."

RESULTS PROVED A BIG SURPRISE TO SHERBROOKE MAN

Robichaud Tells of Wife's Wonderful Improvement Since Taking Tanlac.

"Tanlac has done my wife so much good that I feel it my duty to give a statement of the facts, so that others sufferings like she did did know what to do for their troubles," said Nap. Robichaud, 277b Gillespie Street, Sherbrooke, Que., recently. "At the time she began taking it she was in a terribly run down condition, had no appetite, and at times even the smell of food cooking would nauseate her. Everything she ate hurt her, and after meals she bloated until she could hardly breathe. She complained of sharp pains across the small of her back, which were so bad at times she could hardly stand it. I think she had indigestion as bad as a person can and live, for at times she had attacks when she just had to go and lie right down. She got so dizzy she could hardly walk across the room, and her nerves bothered her so much she couldn't sleep, and always felt so weak and miserable it was impossible for her to do any housework.

"But the way Tanlac has helped her certainly is a pleasant surprise to us. Her appetite is just fine now, and she is eating anything she wants without suffering afterwards. She never complains of backache or dizziness, and her nerves are so steady she sleeps well every night and always feels strong and well. Tanlac is a wonderful medicine, and I believe it will help anyone suffering as she did."

here on Wednesday and Thursday, May 18th and 19th. There will be public service in the church on Wednesday evening, when Rev. Mr. Couch, of Quebec, will preach.

Entirely Well After Six Weeks' Treatment With 'FRUIT-A-TIVES'

MR. AMEDEE GARCEAU

82 Hickory St., Ottawa, Ont.

"I was for many years a victim of that terrible disease, Rheumatism. In 1913, I was laid up for four months with Rheumatism in the joints of the knees, hips and shoulders and was prevented from following my work, that of Electrician. I tried many remedies and was under the care of a physician; but nothing did me any good. Then I began to take 'Fruit-a-tives' and in a week I was easier, and in six weeks I was so well I went to work again.

I look upon this fruit medicine, 'Fruit-a-tives,' as simply marvellous in the cure of Rheumatism, and strongly advise everyone suffering with Rheumatism to give 'Fruit-a-tives' a trial."

RUM-RUNNERS ARRESTED AT BOUNDARY LINE

Customs Officials at Island Pond Seized a Large Quantity of Liquor.

STANSTEAD, May 14.—Customs officials have been kept quite busy of late running down bootleggers, and as a consequence several men have been placed under arrest and a considerable quantity of liquor seized. Two men giving their names as Thomas Smith and William Judd, of Holland, were taken in charge by Collector H. A. Rice and Deputy C. R. Phelps, of the Derby Line customs office, on a charge of smuggling three gallons of whiskey. It is said that these men have been in the business for over a year, using a horse and buggy, but having gained a little booty from the profits of the venture, they purchased an automobile, evidently anxious to increase their earnings.

One of the most spectacular arrests yet reported from a boundary port was made at Island Pond, when Customs Collector L. B. Jones and Deputy H. G. Egilton arrested the entire crew of a Grand Trunk freight train, the men being taken before U. S. Commissioner W. H. Cleary at Newport. The crew ran the train to a more or less secluded section, where they were met by two automobiles, and proceeded to take on a load of liquor. Deputies were lying in wait for the whole crowd of trainmen and smugglers, but, aside from the trainmen, were successful in arresting only one participant, Carl Peavy. The outcome of the hearing was the release of two of the train crew, Fireman Verrill and Brakeman Riggie. Peavy, Engineer Toland, Conductor Danforth and Brakeman Cole were placed under \$500 bail for appearance at the U. S. Court at Windsor this month. The following liquors were seized: eight sacks containing twelve one-gallon tins of alcohol, 93 quarts Canadian Club whiskey, 9 quarts McDonald Scotch, and 20 quarts cognac.

A larger income is needed to properly care for the cemetery. A considerable number of endowments have been made for the care of individual lots, but the trustees are very anxious to have the general endowment increased for the general improvement of the cemetery.

IDENTITY OF SKELETON STILL UNKNOWN.

No further developments are reported in connection with the skeleton found in the Colebrook woods. The last occasion on which the name of Johnny Baker was brought before the public was on the occasion of the trial of his wife, Edna Barrick, when she appeared before the Court of King's Bench on October 3rd, 1916, presided over by His Lordship Mr. Justice Hutchinson.

Counsel for the defence, Mr. Broderick, emphasized the fact that she was the lawful wife of "William Arthur Baker," and maintained that she was forced to assist her husband

FRUIT TREES ORDERED TO BE PAID FOR

Eighty Apple and Fruit Trees Valued at \$130.

The case of Louis Gervais against A. Lavigne, both of Sherbrooke, was heard yesterday before His Lordship Justice White.

The plaintiff took an action against the defendant for the sum of \$145.00 being the value of eighty apple and fruit trees sold at Sherbrooke, on the 14th, July 1920. The defendant signed an order for the said trees, which were to be delivered at Spring Hill and payable during the autumn of 1920.

The defendant pleaded that he had never signed an order for the said trees, but that he had bought the trees in question, which were to be delivered in the spring of 1921 and payable on delivery, as the defendant would not occupy his farm before the spring 1921; that the trees were shipped to the defendant in October 1920; that he refused to take delivery of same, for the above reasons, and that the action was premature.

Several witnesses were heard and the learned judge, in giving judgment on the bench, stated that the defendant had signed an order for the trees in question; that plaintiff had agreed to deliver the trees in the spring of 1921, but that the payment of the trees was to be made in October 1920, and therefore, that plaintiff was entitled to claim the sum of \$130.00, price of the trees, and the defendant was condemned to pay the said sum with costs. Col. Rioux, K.C., was acting for the plaintiff. Messrs. Nichol, Lazure & Couture acting for Mr. Gander, of Lake Megantic for the defendant.

under compulsion.

The jury subsequently returned a verdict of not guilty and the accused was released, since when no further information relative to the missing husband has been heard.

It remains, therefore, feasible to maintain the assertion that in all probability the skeleton is that of William Arthur Baker.

The funeral service was held in the Methodist Church at Coaticook, Rev. A. T. Jones officiating, and Rev. B. B. Brown preaching the sermon. The full choir was present, and a quartette was rendered by Mrs. Miller, Mr. and Mrs. S. C. Smith and Mr. L. Moulton. The casket was borne by Messrs. R. Becker, L. Moulton, Charles Akhurst, S. C.  extending over many months.
 Mrs. Bowen was born in London,
 England, sixty-six years ago, and

 Coatcook after her marriage to Mr.
 Thomas Bowen, who predeceased
 her some eight years ago.

 expressed.
 "The storm burst upon us so sud-
 denly we had no warning of its ap-
 proach," related the tornado victim.
 "In an instant the house was demol-
 ished and scattered to the four
 winds. How I escaped being torn to
 pieces I do not know."
 "Good Lord!" ejaculated little
 Mr. Meek. "That reminds me."

**PRICES AND DETAILS OF
 SHERBROOKE MARKET**

Five years ago today creamery
 butter was selling at thirty-two cents
 a pound and yesterday the local
 market offered large quantities of
 butter at 30 and 35c a pound.
 This decline was not general but we
 must be thankful for little mercies
 and when we consider that only a
 couple of months ago butter was sell-
 ing at sixty-five cents a pound and
 eggs were selling at \$1.10 a dozen,
 we have every reason to anticipate
 lower prices among the other lines
 of staple products.

Plants and flowers were to be
 had in great variety and prices were
 lower than the previous week.

The assured passing of the emer-
 gence tariff legislation at Washing-
 ton, is likely to seriously affect East-
 ern Townships products, as butter
 will be subject to a duty of eight
 cents, milk two cents a gallon and
 cream five cents a gallon, while pota-
 toes will be dutiable to the extent of
 twenty-five cents a bushel.

DAIRY PRODUCE MARKET.

Butter, best creamery, per lb.	30c to 35c
Butter, best dairy, per lb.	30c
Cheese, per lb.	30c to 55c
Cream, per quart	60c
Cream Cheese, per lb.	50c
Eggs, per dozen	40c
Maple Syrup, per gal.	\$1.50
Maple Sugar, per lb.	17c
Oleomargarine, per lb.	35c
Shortening, per lb.	36c

THE VEGETABLE MARKET

Beans, per quart	20c
Beets, per peck	35c to 40c
Celery, per head	15c to 30c
Cabbage, each	10c to 20c
Carrots, per peck	35c to 40c
Potatoes, per bushel	\$1.00 to \$1.10
Onions, per peck	60c to \$1.00
Parasol, per peck	35c to 40c
Turnips, per peck	25c
Peas, per quart	18c to 20c

THE FRUIT MARKET.

Apples, per peck	25c to \$1.30
Grapefruit, per dozen	75c to \$1.30
Lemons, per dozen	30c to 35c
Oranges, per dozen	30c to 60c

With a curtailment of the demand
 from the States, Canadian farmers
 will have pretty heavy supplies on
 hand and the consuming public will
 no doubt reap the benefit.
 Eggs were unchanged at forty
 cents a dozen, while a few were sold
 at thirty-eight cents. Little change
 is anticipated in the near future but
 the trend is downward.

PROVISION MARKET.

Boiling meat, per lb.	10c to 15c
Beef roast, per lb.	25c
Bacon, per lb.	40c
Bologna, per lb.	18c to 20c
Chickens	45c
Fowls, per lb.	42c
Ham, per lb.	42c
Ham, pressed, per lb.	35c
Liver, per lb.	10c
Pigs' feet, per lb.	10c
Pork, per lb.	22c to 25c
Pork, carcass, per lb.	15c
Pork, salt, per lb.	23c
Pork sausage, per lb.	30c
Steak, sirloin, per lb.	25c to 30c
Sausage, blood, per lb.	25c
Veal, per lb.	15c to 25c

A few chickens were offered at
 forty-five cents a pound, slightly
 lower than last week; within a couple
 of months, poultry which has been
 fattened with cheap seed will be put
 on the market and there should be a
 substantial reduction in price.

COUNTRY PRODUCE

The market for cheese is very un-
 steady and while New On. is sold at
 thirty-five cents a pound, there is
 a likelihood of a drop of several
 cents by next Friday. Cream sold at
 fifty cents a quart.
 In the vegetable lines, potatoes
 were easier at seventy-five cents a
 bushel and large supplies of lettuce,
 radishes and spring onions were of-
 fered at the same prices as the pre-
 vious week. Tomatoes sold at thirty-
 five cents a basket and there were
 large quantities of rhubarb to be had
 at five and ten cents a bunch. Cu-
 cumbers were plentiful at ten cents
 each.

MONTREAL, May 14.
EGGS.—The past week has shown
 no signs of the falling off in the re-
 ceipts of eggs, which continues
 heavy and have a depressing effect
 upon prices, sales having been made
 during the past few days freely at
 32c to 33c for straight caudled and
 30c to 37c for selects or extras. A
 dealer stated that "he could not un-
 derstand why the English demand
 delayed coming so late in the sea-
 son." The answer to that is simply
 on account of prices here being
 above the export basis; but although
 late it must come on in due course
 as we have no other market that we
 can depend upon for the disposition
 of our surplus. So far we have had
 a splendid consumptive demand,
 which has kept values above the
 export price; but the gap will close
 in time and relieve us of surplus
 stocks.

There were no changes of conse-
 quence in the provision market, but

POULTRY.—The demand con-
 tinues fair for the season, and prices
 keep steady. A few fancy dressed
 turkeys and milk fed chickens have
 sold to the hotels at 1c to 2c above
 our quotations. Very few live birds
 are coming in and the freezers are
 still reported light in supply.
 Prices are quoted as follows:
 Choice turkeys, per lb. 58 to 60c
 Good turkeys, per lb. 55 to 56c
 Milk-fed chickens, per lb. 39 to 40c
 Ordinary fed do., per lb. 35 to 37c
 Fowls, per lb. 32 to 35c

A New Character

When, four years ago, KING COLE ORANGE PEKOE TEA first appeared, something more than a new tea had been produced—a new character in tea had been created. Only after most searching experiments in flavor-blending were we at last able to develop that peculiarly mellow richness of flavor so delightful to the taste, which has won for KING COLE ORANGE PEKOE the high place it holds. The total annual sale of KING COLE ORANGE PEKOE has doubled twice in the last two years.

We are confident that you will say that it is different to any tea you ever tasted.

HON. TASCHEREAU ON THE TARIFF.

Speaking before the members of the Quebec Division of the Canadian Manufacturers' Association, at their annual dinner in Montreal, the Hon. L. A. Taschereau, Prime Minister of the Province, briefly referred to the emergency tariff legislation which has been approved by the United States Senate.

The Premier maintained that the adoption of this legislation greatly emphasized the necessity of Canadian farmers and manufacturers co-operating on a larger scale, disregarding petty politics and working together for the benefit of the country in general.

The United States naturally have a right to put into effect any laws which concern themselves, but the Premier assured his hearers that as long as he remained at the head of the Quebec Government, the Orders-in-Council prohibiting the export, to the United States, of the raw wealth of this Province will remain in force.

This new tariff will undoubtedly see a considerable increase in the cost of living in the States, while on the other hand Canadian farmers will find themselves with heavy supplies on their hands which they will be very glad to dispose of at a very low margin of profit.

ITALY'S CONTRIBUTION.

The important part played, in the Great War, by the Kingdom of Italy is little appreciated on this part of the continent, yet when we take into consideration the financial burdens which have been assumed by that country, we find that they are of a stupendous nature.

Recently, Premier Giolitti stated that the Italian people were maintaining the highest per capita figure in the world and that the Italian nation was the most heavily taxed nation on the globe.

In spite of these financial burdens Italy looks forward to the future with confidence, and in spite of the losses she sustained during the war, and in spite of the heavy financial burdens she has assumed, Italy is now on her way to complete recovery.

Prior to the war, Italy's national income was four billion dollars from which the Government received in taxes one-half billion dollars; owing to her decreased producing power, due to the war, Italy's national income is now calculated at three billion dollars out of which sum the Government exacts taxes amounting to one billion two hundred million.

This shows that before the war twelve and one-half per cent. of the national income tax was paid in taxes, whereas today forty per cent. of the national income is paid out in these taxes.

With Italy's population of forty million people it means that every man, woman and child would pay thirty dollars a year if the tax was made on a per capita basis.

FAMOUS RANCH MOVING TO THE UNITED STATES

Government Has Decided Not to Renew Its Lease for Land.

(Associated Press Despatch) WINNIPEG, May 14.—The famous Matador Ranch, which has been operated thirty-six miles north of Swift Current, Sask., for the past twenty-one years, is moving to the United States soon, according to a despatch to the Manitoba Free Press last night. The ranch comprises 125,000 acres. In view of the urgent need for community grazing lands, the Dominion Government has practically decided not to renew its twenty-one year lease, the newspaper's correspondent understands.

The Matador lease will be utilized for the benefit of farmers, to whom community pastures would be a great boon.

While arrangements have not yet been definitely completed, the despatch says, plans are being made for transferring the bulk of the company's cattle south of the line to lease holdings in Montana, and South Dakota. Twenty four hundred will be transferred on foot unless they are sold on the hoof in Swift Current.

SPLENDID WEATHER AT WINNIPEG

(Associated Press Despatch) WINNIPEG, May 14.—Splendid weather has been general in this district. Rain has been more or less general, particularly over the southern portion of the province, putting an end for the time being to the soil drifting, which had been prevalent for several days.

IS ORGANIZING NEW FORCES TO FIGHT SOVIETS

Stated that the British Military Mission Has Arrived at Chita.

(Associated Press Despatch) RIGA, May 14.—The arrival of a British military mission at Chita, capital of the Far Eastern Republic of Siberia, is reported in a Moscow despatch to the Letvian Telegraph Agency, which adds that recognition of the Chita Government by the Powers is imminent.

In connection with the Far Eastern situation, a Reval despatch reports that the Prince of Oldenburg is organizing new forces in Siberia, "to join General Semenov and Japan against the Bolsheviks."

Prince Alexander of Oldenburg was one of the Russian princely and dual group which early in the revolution of 1917 supported the new provisional government, but later were driven into exile or imprisonment by the Bolsheviks. His name has not previously been associated with that of General Semenov, one of the chiefs of the anti-Bolshevik movements which have appeared from time to time in Eastern Siberia. Semenov is chief of the Ussuri Cossacks, and is known to have been backed by Japan in his campaigns.

None of the Passengers Were Seriously Injured, and Little Damage Was Caused.

(Associated Press Despatch) MONTREAL, May 14.—Eight cars of the Quebec-Montreal Canadian Pacific Railway train were derailed Thursday shortly after seven o'clock half a mile from the St. Bathemey Station, near Louisville, and the large number of passengers on board escaped with slight shock only.

The derailment was thought to be due to a split rail. Damage to the road and to rolling stock is stated to be not serious.

POLICE ENGAGED THE STRIKERS IN A DUEL

(Associated Press Despatch) NEW ORLEANS, La., May 14.—In a pistol battle between policemen and men said by officers to have been marine strikers at the Louisville and Nashville Railroad Passenger Station, one person was shot and several others were reported hurt.

The trouble started when several hundred alleged strikers attacked two coaches loaded with strike breakers, which had just arrived.

Twenty thousand dollars has been set aside by the Government for this purpose. The planes will be used for locating the exact position of a fire and then rushing fire fighters and equipment to the scene.

THE PROTECTING ANGEL

TO make the lonely road less difficult for the widow—to provide food, clothing and an education for the fatherless children—that is the function of life insurance and was the aim of the founders of the Mutual Life when they organized the Company fifty-one years ago.

In order to achieve that purpose at the lowest possible cost to the policyholder the Company was organized on a purely mutual or co-operative basis—so that all profits are returned to the policyholders to reduce the cost of insurance.

This Mutual principle has been followed for more than half a century. The Mutual Life of Canada has held steadfastly to the ideas and ideals of its founders. It has been an "Angel of Mercy" to thousands of desolated Canadian homes.

The wonderful record of the Mutual Life of Canada, which has paid in death claims and other benefits no less than \$33,320,716, and has assurances in force to-day of \$206,000,000 is proof that it is practicable to carry on a business on the principle of "each for all and all for each."

THE SENATORS DOUBLE SCORE ON CLEVELAND

New York Registered Another Victory Over Detroit Tigers Yesterday.

(Associated Press Despatch) CHICAGO, May 14.—Make way for George Sisler. That is the warning given the leading batters of the American League by the averages for the past week, including games of Wednesday, for the young first baseman of the St. Louis Browns stepped into a slugging streak which will soon carry him to the top of the list if it is continued.

Harry Halman, of Detroit, leads the League with figures released today with the sensational figure of .521, but Sisler sent out thirteen safe

hits in six games during the past week, and climbed from thirty-fifth place to seventeenth position. The champion batter of 1920 increased his average from .286 to .352, including three doubles, two triplis and a home run. In addition he got ten runs and stole two bases.

Heilman hit in an unprecedented fashion to hold his league leadership, also smashing out thirteen hits in six games, three being doubles and two going for four bases.

Burns, of Cleveland, is the runner up to the Detroit slugger with an average of .452, displacing Evans, of Cleveland, who was second last week. Evans is batting .417.

"Tris" Speaker and Cobb give promise of being near the top before long. Speaker with .409, is in fifth place, Ruth follows with .403 and Cobb is next with .388. Wood, of Cleveland, is fourth with .412. Ruth by crashing out three home runs, brought his string of homers up to ten.

Harris, of Washington, continues to set the pace among the base stealers with six. Other leading batters include: Stephenson, Cleveland, .380; Menosky, Boston, .375; Witte, Phila-

delphia, .373; O'Neill, Cleveland, .365; Ghartry, Washington, .365.

Roger Hornsby, the St. Louis star, who last year topped the batters of the National League, has batted his way to the top of the batters in the Major circuit. Hornsby boosted his mark from .388 to .471 last week.

George Kelly, of the New York Giants, who promises to give "Babe" Ruth, of the Yankees, a race for home-run honors, added one home run to his total of a week ago, making it now eight.

Bohen, of Cincinnati, broke the triple tie for stolen base honors, which he shared with Heathcote, of St. Louis, and Marraville, of Pittsburgh, by stealing three bags. He is showing the way on the paths with seven thefts, while Heathcote is trailing with six.

Bubbles Hargrave, of the Reds, is trailing Hornsby for batting honors with a mark of .405.

Other leading batters are: Johnston, Brooklyn, .393; Snyder, New York, .385; Kelly, New York, .371; Tierney, Pittsburgh, .369; Nicholson, Boston, .365; E. Smith, New York, .360; Cushman, Pittsburgh, .357; Maranville, Pittsburgh, .356.

In the American League played yesterday, at Detroit, the Tigers lost to New York, the latter taking advantage of Ehmke's wildness and

bunching his. Score: R. H. E. New York 6 10 1 Detroit 4 10 2 Batteries—Harper, Ferguson, Mays and Schang; hmkc, Cole and Ainsmith.

At Cleveland:—Cleveland lots its first series of the season when Washington won. Mogridge was hard hit, but sensational fielding saved him. Score: R. H. E. Washington 4 10 3 Cleveland 2 7 4 Batteries—Mogridge and Ghartry; Uhle and O'Neill.

MARKET NEWS
(Continued from Page 5.)
very little export demand for sugar which is quoted for the local trade at 22c to 23c per lb. for light colored and 20c to 21c for dark.
HONEY.—The market for honey is very quiet and a very little demand is expected until the new crop is on the market. Prices are more or less nominal at 18c to 20c per lb. in tins for brown and 25c to 26c for white clover strained in 30 lb. tins.

DAIRY PRODUCE
MONTREAL, May 14.
BUTTER.—Since last Monday fortnight there has been a slump of 25 1-2c per lb. in the price of butter, from 53 1-2c to 28c a decline which our oldest merchants cannot remember within such a brief period. Sales were reported yesterday of finest creamery butter in the open market at 28c in round quantities and sales in the country were made in large lots at 26c to 26 1-2c. As high as 28 1-2c was quoted today but it was an asking price. A lot of fine creamery sold on the open market at 26 1-2c. There is said to be a steady feeling and that prices have been driven to a stand on the down turn at least for the time being. The break in the market has been so tremendous, that it will probably take some days before it completely recovers, although some dealers are of opinion that it will not go lower at present; but it will have to stand the test.
CHEESE.—Although the slash in the price of cheese has not been as great as that in butter, both articles are in precisely the same position, being governed by the export demand, and are dependent upon the prices it will take them off our hands. The shrinkage in the price of cheese has been severe, selling down from 24c and 25c to 18c and 18 1-2c for finest Western colored, and to 16 1-2c and 17c for white.

HAY MARKET
MONTREAL, May 14.
HAY.—Outside of the local market the only business reported is a few small shipments to Newfoundland and the West Indies. Local prices are quoted at \$23.00 to \$24.00 per ton for No. 2, and \$21.00 to \$22.00 per ton for No. 3.
Some dealers quote \$1.00 per ton less.

GRAIN MARKET
MONTREAL, May 14.
WHEAT.—No. 1 Northern cash wheat has fluctuated in Winnipeg since our last report, selling up to \$1.83 7-8 and receding to \$1.78 and \$1.79, and up again to \$1.84 1-2c.
CORN.—No. 2 Yellow is quoted at 90c to 91c, but is more or less nominal as little or no business is done here in this grain.
OATS.—The local market for oats is quiet. No. 2 Canadian Western being quoted at 61c. No. 3 C. W. and extra feed 64 to 67c. No. 1 feed 54 to 55c, No. 2 feed 52c to 53c.
Mail advices from Liverpool report a better demand for Canadian oats. Sales of No. 2 Canadian feed to Glasgow at 26c 9d, afloat and to Hull

WALTHAM THE SCIENTIFICALLY BUILT WATCH

Made in Canada
Literature on request
House of Waltham 189 St. James St. Montreal

The Hair Spring

THE hairspring is the brain of the watch. It is the most delicate tension spring made. For use in the small sized watch, 84,000 springs are made from one pound of steel.

Waltham hairspring steel is drawn through diamond surfaces, and for the smaller watches, to a third of the thickness of a human hair.

The Breguet, or over-coil (named after its inventor, a famous old French watchmaker), is used on every Waltham watch. The most important part of the complete operation in making a hairspring is the forming and tempering of the Breguet over-coil.

At Waltham, instead of being formed or bent by hand as a separate operation, the entire completed hairspring is formed at one and the same time, after which it is hardened and tempered in firm—the invention of John Logan, a genius who was a part of Waltham leadership in watchmaking. Waltham is the only watchmaker using this perfect method of making the Breguet hairspring.

Hand-made watch movements have hairsprings that are first formed in the flat, then hardened and tempered in the flat. Then the outer coil is bent to form the Breguet over-coil, which, if the flat spring were as hard as the Waltham, and properly tempered like the Waltham hairspring, it could not be bent to correct form, and would be liable to break in the attempt.

Waltham superiority is in original method, secret process, unvarying quality of every important part of the watch—a quality that cannot be equalled by any "hand" method of manufacture. That is why Waltham leads the world in standardized watchmaking, and why your watch selection should be a Waltham.

Most Miles per Dollar

Firestone Cord Tires are well balanced. All units work together on the road. The result is mileage.

The tough Cross and Square Tread grips any road surely. The muscular body of gum-dipped cords has unlimited endurance because the cords do not touch and cannot chafe. This and the resilience from the extra air space insure many miles of comfort.

In the long run you pay less for Firestones because they deliver most miles per dollar.

Plaintiff Claims She Broke Her Right Arm by Falling on Sidewalk.

Presiding in the Superior Court Practise Division, His Lordship Mr. Justice Globensky rendered judgment in the following cases:—

Dame Lapointe vs. The City of Sherbrooke.—Plaintiff's motion to have fixed by this court the facts to be submitted to the jury to be chosen in this case, in an action for the sum of \$15,000.00 instituted by plaintiff for the purpose of recovering damages which she alleges to have suffered on the 14th, February 1920 when she fell on the sidewalk belonging to the corporation defendant situated between Gordon and Wellington Streets, in the City of Sherbrooke, breaking her right arm. Judgment.—Motion granted. Costs to follow.

Gaudet vs. E. and T. Fairbanks Company Ltd.—Petitioner's petition for authorization to sue respondent in an action under the Workmen's Compensation Act to recover the sum of \$2,445.00, representing the capital of the rent or an equal rent of 12 1/2 per cent, of his yearly salary, as the result of an accident which petitioner suffered on the 14th, October 1920 whilst in the employ of respondent when a compressed air suction-pipe, used to remove the particles of emery from a grindstone operated by electricity for the purpose of polishing steel, let escape a few of these particles which struck petitioner's right eye. Judgment.—Authorization to sue granted. Costs to follow.

Plaintiff's motion in the above cause to have a date fixed for the choosing of the jury and another date for the trial. Judgment.—Motion granted as regards the making up of the jury list and the 20th, May 1921 at ten of the clock in the forenoon is fixed for such proceedings. As regards that part of the conclusions concerning the date of the trial, the parties declare that it should be left in suspense.

Rousseau vs. Despres.—Plaintiff's inscription for proof and hearing on the merits ex parte in an action instituted by the plaintiff asking for the resiliation of the sale of certain tract of land situated in the Village of Weedon Centre, through default of fulfilling and observing the conditions mentioned in the deed of sale. After hearing the proof and enquete made and having heard the parties by their counsels, His Lordship rendered the following judgment:—

Doth maintain plaintiff's action; doth resiliate and annul a toutes fins que de droit the sale of that tract of land forming part of lots Nos. 87 and 112 on the official plan and book of reference of the Cadastre for the Village of Weedon Centre, containing three acres, as more fully described and bounded in the said acte passed before Mtre. Joseph H. Bourque, N.P., under No. 7228 of his minutes, of date the 24th, December 1919; doth authorize the plaintiffs to take back possession of the said lot of land above described with the dependencies and buildings thereon; doth order that plaintiff be not held to give back the monies paid by defendant nor indemnify defendant in any manner whatsoever; doth order that the registrar of the County of Wolfe be held to re-register the present judgment, and to strike out and cause to disappear from the registers of the Registry Office the said sale if it was registered; and doth authorize the said plaintiff to take back the said piece of land free from all charges and hypothecs. MASSAWIPPI GENERAL NEWS OF INTEREST

Newsy Notes of Interest to Residents of Massawippi and District.

A Hudson Advantage That is Distinctive

Its Smoothness and Ease of Operation

Hudson owners tell us they most appreciate the utter forgetfulness of mechanism they are permitted in their cars.

Men say the Hudson Super-Six repays a minimum of care with years of smooth, dependable, punctual conveyance, without default or absence from service.

Neither sound, nor the lapse of any function calls it to attention. Even minor adjustments, which are annoying, though not costly, are almost never necessary. And command of the controls seems intuitive—hardly needing conscious direction.

And we have a gratifying pride in knowing that more than 100,000 owners drive Hudsons, without envy, we believe, of any other car, no matter what its price.
