

ARRIVAL OF MGR. SBARETTI THE PAPAL DELEGATE

Civic Reception Tendered to His Excellency, Who Will Preside at First Plenary Council Ever Held in Canada.

MANY CHURCH DIGNITARIES IN TOWN.

The arrival in town yesterday of Mgr. Sbaretti to preside over the first Plenary Council was the occasion of quite a demonstration by Roman Catholics, who turned out in very large numbers to welcome the Pope's representative in Canada. His Excellency arrived in town from Ottawa by C.P.R. yesterday afternoon, accompanied by a number of Archbishops, Bishops, Canons, and theologians. On arrival at the Palais station the distinguished visitors were met by Mgr. Marois, V.G., and Rev. Messrs. "Lafontaine and Labreque, of the Archbishop's Palace. They immediately drove to the Basilica, accompanied by a guard of honor from the Pontifical Zouaves, and a mounted escort from that body. Upon arrival at the sacred edifice, Mgr. Sbaretti was met by Mgr. Begin, Lieut.-Governor Sir C. A. P. Pelletier, who was accompanied by Capt. Victor Pelletier, A.D.C., Sir G. Garneau, Mayor of this city, and several Aldermen. The interior of the church was beautifully decorated and the high altar as well as the centre of the sacred edifice was a blaze of lights.

Special seats had been provided for Mgr. Sbaretti, Lieut.-Governor Pelletier and Mgr. Begin just inside the main door, all the other prelates and clergy taking up their positions on each side of the ablegate.

Among the Archbishops and Bishops present were Mgr. Begin, Archbishop of Quebec; Mgr. Roy, Mgr. Marois, Mgr. Bruchési, of Montreal; Mgr. Langevin, St. Boniface; Mgr. Gauthier, Kingston; Mgr. Lorrain, Pembroke; Mgr. O'Connor, Peterboro; Mgr. Emond, Valleyfield; Mgr. Scollard, Sault Ste. Marie; Mgr. Legault, St. Albert; Mgr. Pascal, Prince Albert; Mgr. Latulippe, Apostolic Vicar of Temiscamingue; Mgr. Racicot, Auxiliary Bishop of Montreal; Mgr. Grouard, Apostolic Vicar of Athabasca; and Mgr. Jousand, Co-adjutor of Athabasca; Mgr. Cloutier, Three Rivers; Mgr. Labreque, Chicoutimi; Mgr. Larocque, Sherbrooke; Mgr. McCarthy, Halifax; Mgr. McDonald, Chatham; Mgr. P.E.L., Mgr. Casey, St. John, N.B.; Mgr. Barry, Chatham, N.B.; Mgr. Bruneau, Nicolet; Mgr. Bernard, St. Hyacinthe; Mgr. McEvoy, of Toronto, who came from Ste. Anne de Beaupre, where he had been spending a few days.

As soon as all the prelates had entered the church Mgr. Begin welcomed the Papal Ablegate in the following terms:—

MGR. BEGIN'S ADDRESS.

Excellency:—

At this solemn moment, when the heads of the Catholic Church in Canada under the high jurisdiction of the official representative of our Holy Father the Pope, are commencing our first national council, it is the agreeable duty of the Archbishop of Quebec, heir to the throne occupied by Mgr. de Laval, to publicly welcome Your Excellency and all the venerable prelates and ecclesiastical dignitaries who, within our walls, compose such an imposing and religious assembly.

Great is our joy, Excellency, and our pride is very legitimate at the spectacle of so many venerable colleagues who have, at the call from Rome, hastened, even from the most remote parts of this large country, to take part in these first plenary deliberations which reunite us in a common faith, in a common desire to do good, in a common charity for God and souls.

The Quebec church, mother of so many more, scattered throughout an immense territory, experiences quite a thrill of joy. She feels that it is her own young, while others grey with age, and in charge of works and rewards who, it might be said, are returning, to the familiar homestead, to do honor by their presence and the wisdom of their councils the old cradle of their faith.

The sight of so many bishops penetrates it with emotion; the thought of the important works which they are to accomplish in the shadow of these secular institutions inspires it with sentiments of the deepest gratitude. Gratitude first of all towards God, the author of every good thing, who has cast a glance of predilection on this portion of America, who has brought forth from the land we transgress upon, a Christian society worthy of the great ages of faith which surrounded our growing church with all the solitudes of Providence which upheld it through the most difficult trials, which led it through numerous vicissitudes, under different political regimes, notwithstanding the most redoubtable obstacles until we reached that glorious epoch, which we might call a full growing age, the age of cheerfulness and strength. Yes, it is the Almighty by His kindness who has done so much good. "Omne Domine perfectum desursum est." But while being so thankful to God, let us not neglect the men who so generously became the devoted and efficacious instruments of His action. Our first missionaries, our first bishops, our first apostles and the church will no doubt allow us to say, our first martyrs. The present draws its force and its glory from the works and grandeur of the past. Gratitude also towards our highly beloved pontiff Pius X, of whom you are the zealous representative and who was pleased to choose our city as the place for the first Canadian Plenary Council. This honor we highly appreciate and we would like to be worthy of it by receiving all the distinguished visitors in a manner suitable to their exalted position.

Outside the building, where the meetings of the council are to be held, thoughtful and pious souls, I am glad to say, will fervently pray for the success of these important works. The faithful, common as to sentiment with their pastors, will follow, with a faithful eye, the deliberations of the Council.

United in spirit and heart to the Apostolic See, sheltered under the flag which protects our liberty, it is therefore with confidence, Your Excellency, that we inaugurate the work over which you are called upon to preside and it is also, I think, with confidence that we can face the future.

The Catholic Church will emerge from here stronger and more active than ever. For the good of our population it will resume its march, at times difficult but noble and effective, its unavoidable struggles, its cruci-cross of faith and virtue. She will continue, in increasing it, the role which she is called upon to fill in the eminent civilizing work, which will soon make of North America and particularly the Canadian America one of the most valuable parts of the Lord's vineyard.

With this hope, Excellency, the Archbishop of Quebec, in the name of his clergy, in the name of the faithful of this his episcopal city, in the name of all the churches which he has the honor to administer, opens with pleasure to the fathers of this first Canadian council the doors of this venerable church which in years past witnessed seven provincial councils and which is to-day proud to see the crowning one in this imposing assembly which is about to commence.

Mgr. Sbaretti replied as follows:—

REPLY OF HIS EXCELLENCY MGR. SBARETTI, TO THE ADDRESS OF HIS GRACE THE ARCH-BISHOP OF QUEBEC.

Your Grace,—The warm expressions of faith, of gratitude to the Holy Father, of confidence in our church and of cordiality towards all the Prelates and Ecclesiastical dignitaries who compose the august and venerable assembly about to open, can not but be very agreeable to all who have heard them. In the name of all the Fathers of the Council, in my own name, and in the name of the Sovereign Pontiff, I congratulate Your Grace and I thank you.

The City of Quebec may be justly proud of the choice that has been made of it to assemble within its walls the first Council of Canada. It is a precious mark of esteem that the Holy Father has wished to give to the first See of this country. And it is right, for this noble sea has been a limpid source from which there has come forth so many streams of pure water which have moistened and made fruitful the immense territory extending from the Atlantic to the Pacific, from the extreme north to the shores of the Gulf of Mexico.

The wonderful results are before us, and we can look upon the many flourishing churches which are as chosen portions, the best cultivated and the most luxuriant of the immense vineyard of the Lord. Most assuredly it is the admirable work of a Providence specially watching over this part of the American Continent and of Divine grace which gives both being and perfection: qui operatur et velle et perficere. It is at the same time the work of the chosen instruments of the power of God, who has inspired the self-sacrifice of the missionaries, the zeal of the bishop and the priest, the faith and the generosity of all the Catholics of different origins and tongues. I am happy to add that all these noble forces have produced the most magnificent results, for the glory of God and the prosperity of the country, under the shadow of the British flag which protects our rights and our legitimate liberties and for which all the Catholics are filled with attachment and loyalty.

To-day with you, Monseigneur, with the Catholics of Quebec and with all the Catholics of Canada we rejoice to see all the illustrious Prelates of this land and other ecclesiastical dignitaries distinguished for their science and their virtues, gathered together here in this city, which has been the cradle of the faith in our vast country and in which the Catholic sentiments are so vigorous and so active.

We have confidence that the prayers and the hopes addressed to Heaven at this moment by all the faithful of the land, and more especially by those of your episcopal city, will draw down on us all the most abundant blessings of the Lord.

Your Grace has good reason to say that the faithful of Quebec will in a way, stand guard around the Council. I will add, Your Grace, that we feel here as if we were in a gathering of fathers of families, surrounded by affectionate and loyal children, who in their demonstrations of sympathy and respect towards us, are as it were the faithful interpreters and the representatives of all the Catholics scattered over Canada's domain.

Let me say, as the representative of the Holy Father, that in this country, notwithstanding the great variety of race, notwithstanding the diversity of worship, there is one trait that distinguishes the true Catholics from all the other citizens, and that trait which characterizes them is their filial attachment to the Holy See; and this noble sentiment was introduced in this country by the venerable founder of this church, the illustrious and holy Mgr. de Laval, who in spite of the obstacles raised up by gallicanism was able to implant it in the heart in all its purity. This union with the See of Peter has been the force which has permitted the church to triumph over all difficulties and which will assure it all its progress in the future. From out the darkness of the age Catholics have their eyes fixed on this beacon of the Vatican, shining as a resplendent light in the midst of obscurity: sicut lucerna lucens in caliginoso loco. In our age when the spirit of indifference, of irreligion, or of insubordination is so widely spread, especially in the old countries, it is indeed most consoling to see a whole people, laity, clergy, religious and bishops, give the entire world the magnificent and comforting spectacle of unchangeable attachment to the Sovereign Pontiff.

This demonstration, at which we assist, will be a source of lively consolation to the heart of the Common Father of the faithful in the midst of the bitterness which has been poured out upon him by the enemies of our faith and by degenerate sons. His joy will be the deeper that in the future, as in the past, he can be sure that the Catholics of Canada are disposed to sacrifice everything, even life itself, to defend the Vicar of Christ.

As you, Monseigneur, I have confidence that the Catholic Church will go forth from this solemn assembly stronger, more energetic and more active than ever. And as from this city of Quebec the light of the Gospel spread over a great portion of the American Continent, so from this Council will go forth a powerful wave of religious spirit to restore all things in Christ and a new impulse of filial love of Canadians towards the Apostolic See.

Sir George Garneau on behalf of the citizens then read the following address:—

MAYOR GARNEAU'S ADDRESS TO ABLEGATE.

Your Excellency, and Right Reverend Fathers of the First Plenary Council of Canada.

The citizens of Quebec solicit the honor of tendering their homage to you on this solemn day on which the first Plenary Council of Canada begins its sessions.

With deep emotion they welcome the illustrious and venerable heads of the powerful and respected Church that has truly been a mother to our people, in this oldest city of Canada, on this rock of Quebec so justly famed in history, on which our pioneer ancestors raised, with the standard of France, the venerated symbol of our redemption.

Your Excellency and Your Lordships are welcome to this metropolis of so many dioceses, the first in the New World endowed with a Catholic university and which was afterwards honored with the Roman purple in the person of His Eminence Cardinal Taschereau; in this Church, finally, whose beneficent action has spread the faith and civilization throughout the Continent of America. You are welcome in this basilica rendered illustrious by the apostolic labors of the venerable Francois de Laval, by the virtues of his successors, by the example of the model priests and religious, many of whom carried devotedness and self-sacrifice to heroic martyrdom.

Last year, we celebrated the three hundredth anniversary of the birth of the Canadian nation and every page of our history tells us that harmony, respect and confidence have never ceased to reign between the pastors and their faithful flocks.

To-day, as well as at the dawn of our existence religion and country unite in striving to promote the great work of the development of our beloved Canada.

While the various elements of our population, without renouncing anything that constitutes the individuality of each one, are drawn still more closely together by growing sympathy, by a more and more cordial understanding and by increasing esteem for one another, and strive to blend their interests: while the peoples of the Old World, erect this young nation arising in the New World, the Roman Catholic Church, ever friendly to progress and ready to follow with motherly solicitude the generous endeavors of the peoples acknowledging her laws, labors to cement that Christian union, that concentration of talents and efforts so necessary for the development of a young and immense country.

We are glad to see these grand religious meetings held on the spot which was the cradle of our nationality, because they are a living proof of the progress that has been realized.

In truth, here began the evangelization of the barbarous tribes of New France; hence departed the missionaries for every point of the horizon, bearing the glad tidings to nations plunged in the darkness of idolatry; here sprouted the fruitful seed of national education, of Catholic benevolence, of intellectual and artistic life whose flowers bloom everywhere and here also, the many pastors of flourishing dioceses, are met to ascertain and demonstrate what work has been done and to give a more powerful and luminous direction to future labors.

In the marvelous movement that impels us towards the development of our national resources, we applaud the action of the Church who, amidst the allurements of prosperity, reminds us how superior are the soul's interests which should never be lost sight of by nations wishing to be truly great.

When you report to the Sovereign Pontiff the work of the First Plenary Council of Canada, we beg you to express the profound respect in which he and the great mission he fulfills are held throughout Canada by all who bear the name of Christian.

While we Catholics profess our steadfast attachment to the religion of our ancestors and to the dogmas and teachings of our Church, the whole population glories in living in a country where evangelical morality and Christian principles are acknowledged as the foundation stone of civilization, and our confidence in the future of our beloved country is based on our faith in God.

Your Excellency, and Right Reverend Fathers of the First Plenary Council of Canada:

Such are the sentiments that animate the citizens of Quebec at this moment when we come to tender you the hospitality of this city, which holds in common and grateful veneration the name of Champlain, its founder, and that of Laval, its first bishop, who was truly the father of the Church in Canada.

Quebec, September 16th, 1909.

H. J. B. CHOUINARD,
City Clerk.

J. GEO. GARNEAU,
Mayor of Quebec.

The address which is artistically illuminated, was the work by Dr. Ths. Nesbitt, of the Parliament Library.

In reply to Mayor Garneau, Mgr. Sbaretti spoke as follows:—

Your Worship, Gentlemen:—

The address which you have just read, the presence of Your Worship, the presence of all the Aldermen of the City of Quebec, and especially the presence of His Honor the Governor, who on all solemn occasions so nobly manifests his Catholic sentiments give us great pleasure. We see here within the precincts of this venerable temple the highest religious and civil authorities of the Province of Quebec, united in the same Faith, in the same love and the same respect for the Holy See, united also for the good of those subject to them. The union of these two authorities is of necessity a source of good as the division and opposition which might exist between them could be only a source of evil as harmful to the salvation of souls as to the prosperity of the country.

These two authorities are two great forces which come from God and which should tend toward God. The well-being and the peace which we enjoy under the aegis of this friendly alliance is another proof that opposition to the principles of religious authority cannot produce anything but disorder, internal strife, the weakening and even the ruin of the country.

The sentiments of the good City of Quebec, in its desire to honor the Fathers of the First Canadian Council has expressed by the mouth of its Chief Magistrate touches us deeply. And in the name of all the Archbishops and Bishops here present, as also in the name of the Holy See that I have the honor to represent among you I am happy to offer you the homage of our lively gratitude and to tell you how much we appreciate the marks of profound respect and universal veneration of which we are the object at this moment.

This great civic demonstration—a demonstration as cordial, as spontaneous offered to the spiritual heads of all the Catholic people of Canada, confirms the idea that we have had already of the lofty urbanity and of the spirit eminently religious of the citizens of this city. And it proves in a marked way that Quebec truly merits to receive within its walls the members of the First Plenary Council of Canada and to surround with its generous hospitality the deliberations of this venerable assembly.

Here in fact, returning to the thought so justly expressed by Your Worship here or this promontory forever famous in the history of America, was planted three centuries ago, by French hands, the vigorous tree of pure Faith, of complete Christianity, of Catholicism conquering and civilizing which covers with the shadow of its verdant branches so large a portion of this continent. Here the first Bishop of Quebec whose name and remembrance look down upon us at this moment, implanted these strong religious institutions which have been in the past the salvation of the Canadian people and which are by so just a title the glory and the pride of our city. Here the drama of the destinies of a whole people was played and guarded with legitimate pride in your memory and esteem the last sight of the last white sails with the fleur de lis upon them which similar to the great wings of a wounded eagle

Run Down?

Ayer's Sarsaparilla is a tonic. It does
not stimulate. It does not make you
feel better one day, then as bad as ever
the next. There is not a drop of alcohol
in it. You have the steady, even gain
that comes from a strong tonic. Ask
your doctor all about this.

The Quebec Chronicle

QUEBEC, SEPTEMBER 17, 1909.

THE PLAGUE OF SMOKE.

Not very long ago one of those sub-
jects in which the general public takes
a spasmodic interest cropped up in
the discussion on the prevention of
smoke. The press took the matter
up; so did the Board of Trade, and
so did the City Council. It was
agreed on all sides that the smoke
nuisance ought to be put a stop
to; that it was detrimental to the
public buildings and statues, and
positively injurious to the health of
the community at large. A by-law
for the suppression of smoke was, we
believe, prepared, and the views of
the Manufacturers' Association were in-
vited. The result of the conference
between the City Fathers and the
Manufacturers was, practically speak-
ing, an agreement for an extension of
time until the proposed by-law was
enacted and put in operation, in the
hope that, in the meanwhile, the con-
cerns guilty of periodically pouring
out clouds of smoke every day on
their unfortunate fellow-citizens might
be enabled to devise some means for
the abatement of the nuisance. Then,
as is usual in Quebec, the subject was
dropped.

Tuesday, as our readers are aware,
was a fine bright day but looking to-
wards St. Roch, St. Sauveur and
across the St. Charles River, an im-
penetrable haze hung over the country
about 1 p.m. The cause of this was
not hard to discover. From the van-
tage ground of the City Hall ter-
ritory, at least five different chimneys
could be discerned pouring out
volumes of thick black smoke; a mat-
ter of daily recurrence. It is very
evident, therefore, that all the pre-
vious agitation on the subject has
had little or no practical effect, and
that civic legislation is absolutely ne-
cessary to provide a prompt remedy.

THE NORTH POLE.

The attainment, real or alleged, of
the northern point of the world's
axis, has given rise to a couple of
controversies. The first of these is,
of course, the question between Dr.
Cook and Commander Peary, as to
who was the first man to "get there,"
and the second is as to the use that
can be made of the "discovery"; that
is to say, of territorial ownership
and jurisdiction. The first is a per-
sonal question, but the second might
under certain circumstances, prove an
international one.

Considering that there are at least
fifty thousand fathoms of water,
above the northern point of the earth's
axis, the matter of territorial owner-
ship is out of the question. An ice
floe that is here to-day and gone to-
morrow, as Commander Peary's re-
port would seem to describe it is scarcely
a territorial possession worth claim-
ing, but there is one phase in the
discussion which has ensued which is
worth while the attention of the Gov-
ernment, and that is the validity of
the claims put forward by it as to
the ownership of all islands lying
between the northern shores of the
Dominion and the North Pole.

The Paris Temps, discussing the
sovereignty of the North Pole, ex-
presses the opinion that the relative
permanence of the ice there might
properly raise the question whether
this territory comes under the ordi-
nary international rules applying to
lands and the high seas, but it in-
sists that exploring expeditions such
as those of Dr. Cook and Peary, can-
not give title, and quotes Calvo to
the effect, that the acquisition of
sovereignty is involved with, and ne-
cessitates effective occupation, ac-
companied, or followed by, the com-
mencement of administrative organiza-
tion, or commercial and industrial ex-
ploitation. A majority of the au-
thorities agree, says Le Temps, that
the simple planting of the flag is not

GLORIA
CigarettesSweet & Mild
5c

sufficient, and it points out that this
doctrine was affirmed by the Interna-
tional Conference at Berlin in 1884,
and that it was applied by His Holiness,
the Pope, when he acted as
mediator between Germany and Spain
a year later in the dispute regarding
the Caroline Islands. The Pontiff
then held that Spain was obliged to
occupy the islands effectively, and,
more recently still, the entire question
between Turkey and Italy regarding
Massadah hinged upon this point.

The doctrine here laid down is clear
and intelligible. It amounts to this,
that discovery confers no rights of
possession, and that the simple act of
hoisting a flag over territory hereto-
fore unclaimed by a civilized nation
does not confer a proprietary title.
And this doctrine is of some interest
to Canadians who have been pluming
themselves on the voyages of the ss.
Arctic, and the amount of flags which
Commander Bernier has raised over
the islands of the Arctic seas. Ac-
cording to the doctrine laid down by
the French journal, which we believe
to be the true international interpre-
tation of the law on the subject, all
this business of flag-raising by dis-
coverers is worth nothing at all as
conferring the rights of sovereignty
and these can be acknowledged only
on discovery being followed up by ac-
tual occupancy and exploitation of
the discovered lands under the super-
vision of the Government.

TIT FOR TAT.

The Ottawa Citizen has an excellent
article on the pulp question and the
American attempts at retaliation, and
praises the spirited policy of the
Quebec Government as announced by
Premier Gouin, and which has already
resulted in the proposal of several
American paper manufacturers to re-
move their mills to this province. Our
conferees strikes the true note of Can-
adian independence when it says that
whatever may be the shortcomings of
the Quebec Government all true Can-
adians must admire the spirited man-
ner in which it has defeated the United
States retaliatory methods and prom-
ised to go them one better. It
bases these remarks of the announce-
ment of the Quebec Premier that not
only will his Government not yield
to the aggression of the United States
Government, but will take steps to
meet aggression with retaliation; has
definitely decided to prohibit the ex-
portation of pulp from Crown Lands,
and is, moreover, seriously consider-
ing the prohibition of the exportation
of pulpwood in 1910. This latter
measure, says our conferees, "would
undoubtedly have the effect either of
bringing the United States to time,
or else forcing the American paper
manufacturers to transfer their plants
to Canada"; and the signs are that
this latter will take place shortly.

The Citizen goes on to say: "It is
rather amusing that the United States
which initiated the trouble by its ag-
gressive measure of tariff legislation
intended to bulldoze the Quebec Gov-
ernment, should now be endeavoring
to take advantage of an alleged pledge
in order to prevent Premier Gouin
from going back at them as they de-
serve. In 1900 the Quebec Government
promised to raise the stumpage tax
for ten years. The stumpage tax
has nothing to do with the prohibi-
tion of exportation, but the Americans
are urging that the pledge meant the
same thing, or they now choose to
interpret it in that way, and appeal
to the Quebec Government on the
point of honor not to break the al-
leged pledge. Coming from people
who first tried to control Canadian
legislation, and failing, 'retaliated,' it
means that they undertook to punish
Quebec for attending to its own busi-
ness, and this latest move displays a
characteristic amount of nerve. When
the United States is 'retaliating' it
is all right, Johnny Canuck is getting
what is coming to him; but when the
Canuck sees him, and raises the
limit, there is an outcry that it is
not fair to retaliate that way.

"The only nation that previously ar-
rogated to itself the right to inter-
fere with Canadian affairs was Ger-
many, and Hon. Mr. Fielding went
back at the Kaiser with the famous
surtax, and Germany has been in-
creasingly sorry ever since. The Cit-
izen hopes that Premier Gouin and
his Government, not having courted
the fiscal quarrel, but having it forced
upon them, will go back at the
United States so hard that that, or
any other Government, will think
twice before they presume, first, to
interfere with Canadian domestic af-
fairs, and, second, because they are
told to mind their own business, pro-
ceed to 'retaliate.' Canada has a
record for minding its own business
and for not interfering with other
people, so long as it is left alone.
We minded our own business through-
out the long, cold spell of a dozen years,
when the United States adopted a
freeze out policy because this country
dared to adopt the National Policy.
We did not do any retaliating, but
hoed our own row, and have been
glad ever since we did so. But
Canada is a growing nation now, it
can afford to get along without the
United States."

JOHNSON IS WILLING.

Atlanta, Ga., Sept. 15.—Jack John-
son, heavyweight champion, has writ-
ten the local athletic club that he is
willing to fight Jim Jeffries here.
The consent of Jeffries already has
been secured. The local promoters
have taken the matter up with the
governor and if his consent is se-
cured a bid will be made for the con-
test.

WHISTLING TREES.

Among the curiosities of tree life is
the solar, or whistling tree of Nubia.
When the winds blow over this tree
it gives out flute-like sounds, playing
away to the wilderness for hours at
a time strange, weird melodies. It is
the spirit of the dead singing among
the branches, the natives say, but the
scientific white man says that the
sounds are due to a myriad of small
holes which an insect bores in the
spines of the branches.
The weeping tree of the Canary Is-
lands is another arboreal freak. This
tree in the driest weather will rain
down showers from its leaves, and
the natives gather up the water from
the pool formed at the bottom of the
trunk and find it pure and fresh. The
tree exudes the water from innumera-
ble pores situated at the base of the
leaves.—Chicago Journal.

RECORD NUMBER OF PASSENGERS

Of the Season Arrive on the Empress
of Ireland—Schooner
Ashore.

With the record number of pas-
sengers carried from Liverpool to Que-
bec (1571) this season, the C. P. R.
Co.'s R.M.S. Empress of Ireland
Lieut. J. V. Forster, R.N.R., arrived
in port at 7.25 p.m. yesterday, com-
pleting another fast passage between
the two ports.

After the steamer had been safely
moored at the Breakwater, the first-
class passengers and their luggage
were landed and boarded the special
train in waiting to receive them and
left for their respective destinations
shortly after nine o'clock. The sec-
ond special train left about an hour
later. The third-class passengers will
land this morning. Lieut. Forster re-
ports considerable northwest winds
and most unsettled weather during the
passage, reducing the vessel's run
down to 405 knots on one day, the
highest run in twenty-four hours
being 450. Had a heavy gale when
nearing Belle Isle. The Empress left
Rimouski at 11 o'clock yesterday
morning, and by reaching port at 7.25
p.m., made the run in eight hours and
25 minutes notwithstanding a stop-
page of 35 minutes at Grosse Isle.
Pilot Adelard Bernier, who brought
the Empress up, reports a double top-
mast schooner, with black sides and
white stern, dead ahead, ashore on
White Island reef, about half way
between the island and the lighthouse.
As the tide had still about two
and a half hours to run, she may have
floated off at high tide.

ALLAN LINE.
Steamer Corcoran, Captain Gambell,
from Liverpool, via Havre, passed
Father Point at 3.00 p.m. yesterday,
and is due in port this morning. She
has 750 passengers besides a general
cargo.

STEAMER CORINTHIAN. Captain Rennie,
from London, via Havre, with pas-
sengers and general cargo, passed
Cape Magdalen at 2.00 p.m. yesterday.
Due in port this afternoon.

DONALDSON LINE.
Steamer Parthenia, Captain Stitt,
arrived from Montreal yesterday after-

LOOKED LIKE A CANADIAN

In a Police Court in Old London
the other day a detective gave evidence
against a band of confidence men, and
told the magistrate that their leader
first approached a man at Waterloo
station who had the appearance of
the court as to what a Canadian
appearance was; but the incident re-
calls one which took place in London
last year, when a bevy of girls was
sent over as part of an advertising
scheme for a Montreal newspaper.
One of the girls got lost in the Prit-
chard Museum or some place of that
kind, and was compelled to ask the
good offices of a "fobber." She told
him of her plight and asked to be di-
rected to the private hotel at which
the party was staying, adding the
chance remark that she was a visitor
from Canada and did not know her
way about. The "fobber" surprised
her very much by retorting: "ave told
me, I knew you was a Canadian the
moment I clapped my eyes 'on 'er!"
And the girl from Glangary has
always wanted to know how the
constable knew. Can it be that there
is really a "Canadian appearance";
and that the London police have got
us classified? It is an interesting
point. Perhaps Doctor Colquhoun,
who is just back from a trip to the
"Big Smoke," could solve the riddle:
"What is the Canadian appearance?"

MET DEATH IN HARVEST FIELD

Farmer Dies as Result of Wound Accidentally Inflicted by His Son.

News comes from Beaumont of the death of a well-known farmer of that locality as a result of an accident. E. L. Turgeon, in company with his son, were mowing in a field, when the latter who was working close to his father accidentally struck the latter in the leg with his scythe, inflicting a wound from which the blood flowed in large quantity.

The scene of the accident was far from the house, but the son endeavored to get his father home as quickly as possible. The latter, however, could not walk, and fell unconscious on the ground. The son hastened off for help, but when he returned it was too late for his father was dead.

AGAINST COLD.

To protect you we will sell 100 pairs blankets, size 60 x 80, special \$2.19. See our big add.

RECORDER'S COURT.

Six prisoners, charged with drunkenness, appeared before the Recorder yesterday. One was fined \$5 and costs or fifteen days' jail; two \$2 and costs or two days each; one 50c, or two days, and two were discharged. A man out on bail failed to appear and a bench warrant was issued for his arrest.

Do not buy a new suit, but have your light suit dyed a navy blue, brown or black. It will look like a new one at very small cost. Glover's Dye Works, 393-395 St. Valier Street. Phone 1810.

INCIDENT FIRE.

The men of No. 3 Fire Station were called out yesterday afternoon to extinguish a fire that had broken out in the residence of Mr. Giguere, 97 Notre Dame des Anges Street. The blaze, which was caused by a spark from a stove setting fire to the kitchen, was speedily subdued by the firemen. The loss will be about \$30.

LAI D TO REST.

The funeral of the late Mrs. James E. Woodley took place yesterday afternoon from the residence of her son-in-law, Mr. A. D. Scott, 1 d'Artigny Street. After service at the house, conducted by Rev. Mr. King, pastor of the Baptist Church, the remains were conveyed to Mount Hermon Cemetery, where the interment took place. The chief mourners were Mr. Alfred Woodley, son, and Mr. A. D. Scott, son-in-law, of the deceased lady. A large number of carriages, containing mourners, followed the remains to their last resting place.

OUR EXPOSITION OF FASHIONS

which will commence on Monday, 20th instant, to continue on the following days, will surpass in beauty and richness anything ever seen.

We have done everything possible to bring this exposition to the height of the good reputation of our stores.

We are confident that our efforts will be appreciated to their just value, and that ladies will attend in larger numbers than ever.

L'HEUREUX & GAUVIN,

183-185 St. Joseph Street.

FELL OUT OF WINDOW.

A two-year-old child, son of Gaudias Poulain, carter, fell from the third story window of his father's residence in St. Francois Street yesterday morning, but strange to say escaped without any serious injury. The scream of the child as it fell brought its mother to the scene and she found the little one in a pool of water in the middle of the street. Dr. C. O. Samson was hastily summoned, but he found that no bones were broken, neither was there any evidence of any internal injury. The escape of the child from serious injury or death was really remarkable.

A NEW DEPARTURE.

Attention is directed to the advertisement in another column of Mr. Walter E. Ley in regard to a new departure for the Ancient Capital, and one which should be taken every advantage of. Ladies and gentlemen can now have a Turkish bath in their own bedroom with massage by highly trained Masseurs and masseuses, who have for many years practiced in London, England, and elsewhere, inclusive fee \$1.50. In addition the following advantages are offered:—Nursing by trained male or female nurse, per 24 hours, \$2; mental or physical \$3.50; ladies' beauty culture at your own home, shampooing, scalp treatment, chiropody, 50c; hair dressing, dyeing, bleaching, etc., 75c; facial massage, bust treatment, \$1. Special Massage Wave. Phone 3406, or write Walter E. Ley, Box 130 G. P. O., Quebec.

COURT OF SESSIONS.

The manager of a moving picture show was arraigned in the Court of Sessions yesterday morning for keeping open on Sunday. He pleaded guilty and was fined \$40 and costs. A man from St. Ambrose, Lorette, charged with having disturbed a religious service in that village on the 15th of August last, pleaded guilty and was condemned to pay the costs, which amounted to \$12.58. Another man, also from Lorette, charged with vagrancy, pleaded guilty and was condemned to a similar penalty.

PRESIDENT OF TRADES CONGRESS

Has Arrived for the Annual Convention which is to Take Place Next Week.

Mr. A. Verville, M.P., President of the Trades and Labor Congress of Canada, the annual convention of which opens at the Parliament Buildings next Monday morning, arrived in town yesterday and will remain in town until the close of the sessions. Mr. W. R. Trotter, general organizer of the Congress and a member of Winnipeg Typographical Union, was also among the arrivals yesterday for the Congress.

The meeting of the Congress promises to be one of the most important in its history, and it will be attended by delegates from the Atlantic almost to the Pacific, the bulk of whom will arrive here by Saturday evening. As already announced, Mr. Will Crooks, M.P., for Woolwich, England, will attend the convention, which will undoubtedly be one of the most representative from a labor point of view that has ever been held.

FAMOUS ENGLISH LABOR LEADER

Mr. Will Crooks, M.P. for Woolwich, Arrived by the Empress Last Evening.

Mr. Will Crooks, M.P. for Woolwich, England, the famous labor leader, accompanied by Mrs. Crooks, was a passenger by the Empress of Ireland last evening. He was met by Mr. A. Verville, M.P., President of the Dominion Trades and Labor Congress, and Mr. W. R. Trotter, general organizer of the Congress.

Mr. Crooks, who will attend the meeting of the Trades and Labor Congress in this city next week, is on his way for a tour of the colonies, and in an interview before leaving England, stated that he was going as a missionary of labor to learn something of the problems and conditions of life in our great self-governing sister States. He is not going as the representative of any society or of the labor party.

During his stay in Quebec, he will be the guest of Hon. C. R. Devlin. From Quebec, he goes to Montreal, Ottawa, Toronto and the West, sailing from Victoria for Sydney, calling at Honolulu and Fiji. Mr. Crooks will visit all the great cities of Queensland, and go through New Zealand and Tasmania. He will spend Christmas with relatives in Sydney, and will sail from Fremantle on the homeward journey by the Orient Line, going ashore for a short stay at Ceylon, and going back through the Suez Canal and the Straits of Gibraltar. He is not due in London until February.

Correspondence.

To the Editor of the Chronicle:

Sir,—Is it not about time that the citizens at large consider who should next represent them at the Mayoralty?

The rallying cry "With all thy faults I love thee still, Choquette," would ensure that gentleman's success if he could be persuaded to present himself, I think.

Further, the Senator's connection with many large corporations will materially advance the interests of the city without a doubt.

Yours faithfully,

K. C. FRASER,

Quebec, Sept. 16, 1909.

PRESSED HARD

Coffee's Weight On Old Age.

When prominent men realize the injurious effects of coffee and the change in health that Postum can bring, they are glad to lend their testimony for the benefit of others.

A superintendent of public schools in North Carolina, says:—

"My mother, since her early childhood, was an inveterate coffee drinker and had been troubled with her heart for a number of years, and complained of that 'weak all over' feeling and sick stomach."

"Some time ago, I was making an official visit to a distant part of the country and took dinner with one of the merchants of the place. I noticed a somewhat peculiar flavor of the coffee, and asked him concerning it. He replied that it was Postum."

"I was so pleased with it, that after the meal was over, I bought a package to carry home with me, and had wife prepare some for the next meal. The whole family liked it so well, that we discontinued coffee and used Postum entirely."

"I had really been at times very anxious concerning my mother's condition, but we noticed that after using Postum for a short time, she felt so much better than she did prior to its use, and had little trouble with her heart and no sick stomach; that the headaches were not so frequent, and her general condition much improved. This continued until she was as well and hearty as the rest of us."

"I know Postum has benefited myself and the other members of the family, but not in so marked a degree as in the case of my mother, as she was a victim of long standing."

Read "The Road to Wellville," in five.

"There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

NEW DIRECTORS WERE ELECTED

At Annual Meeting of the Canada and Gulf Terminal Railway Company.

The annual meeting of the Canada and Gulf Terminal Railway, formerly the Matane and Gaspé Railway, was held at Ste. Flavie, on Wednesday last. Senator Choquette, President, occupying the chair. In presenting his report Senator Choquette spoke as follows:—

Gentlemen:—It is with pleasure that I submit to you the annual report of our Company, and I will first draw your attention to the fact that according to the recent amendments to our charter the date of the annual general meeting of shareholders was fixed for the first Wednesday in September, but owing to the uncompleted condition of affairs, your board have seen fit to postpone the date of that meeting until to-day.

Since my last report, we have had the charter of the Railway Company enlarged and amended in order to better serve the ultimate purposes of the Railway and these amendments will be read by the Secretary, who will also submit to you the financial statement of the past year.

As you are aware, in August, 1908, we closed a contract with the H. J. Beemer Company for the construction of the first section of the line from Ste. Flavie to Matane and work was carried on by the H. J. Beemer Company in accordance to the contract up to the present summer season; but owing to the regrettable illness of Mr. Beemer, the actual construction work was suspended; fortunately for the Company, the Beemer Company arranged to transfer its contract to a prominent railway contractor, Mr. Hugh Doherty, of Montreal, who is taking over the Beemer contract and will push the work to a rapid conclusion. The directors of your Company felt warranted in accepting this transfer as ample security has been provided for the fulfillment of Mr. Hugh Doherty's contract, by the intervention of Mr. M. J. O'Brien, a prominent and wealthy contractor of Montreal and this transfer will be submitted to you to-day for ratification, after which work will immediately resume.

This new arrangement will have for its effect the pushing forward of the line beyond Matane towards the proposed eastern terminus, and without doubt the line will also be constructed westward from Ste. Flavie towards the Grand Trunk Pacific Railway, and in view of this determination of those who are financially supporting the work, it has occurred to me that the interests of the Company would be better served if the presidency would be occupied by a railway man of long experience, and therefore, I will decline re-election as president and director, strongly recommending to you the substitution of Mr. M. J. O'Brien in my place and stead.

Having been requested to act in the future as general solicitor for the company, I will gladly accept the position in our common interest and you may rest assured that my energy and enthusiasm in connection with the development of this railway company will remain unchanged. I may assure you that by August, 1910, the road will be opened for traffic.

I cannot take leave of you gentlemen shareholders and co-directors without thanking you for your kindness and loyal support since I took the presidency of the company and I am sure that the same loyal support and kindness will be given to my successor who I repeat being a railway man of long standing and a contractor of large means will certainly be in the position to do more for the company than I have been able to do myself.

The new directors of the company are:—Mr. J. O'Brien, Montreal, President; R. Dupont, Secretary; Dr. Ross, M.P., C. A. Gauvreau, M.P., D. Carson, M.P., H. J. Lyons, Rev. Mr. Soucy, L. O'Brien and J. A. Ross.

A motion was proposed by Dr. Ross, seconded by Dr. Cote, regretting the decision taken by Senator Choquette to resign as president of the company as the success so far attained in connection with the road was largely due to his energy, and the motion also expressed the pleasure which the directors had in learning that Senator Choquette consented to help the company as its legal adviser. The motion was unanimously adopted.

Senator Choquette returned thanks for the kind remarks made by Dr. Ross in his motion, but added that the success of the work so far was due to the good work accomplished by the directors one and all and he had also to pay special attention to the good work performed by Mr. R. Dupont, Secretary, and Mr. H. J. Lyons, representing the H. Beemer Co.

WAITERS WENT ON STRIKE.

There was a bit of a flurry at the Chateau Frontenac at the dinner hour last evening, when the waiters imported from Europe for the summer season went out on strike. There was some inconvenience occasioned by the strike, but finally the dinner was got through with the aid of the local men. The cause of the trouble does not seem to be altogether clear.

REFUSED TO ANSWER QUESTIONS.

James Wilson or Gordon, who was arrested on Wednesday night on suspicion of being connected with the recent bank robbery at Yamachiche, was examined yesterday by the Clerk of the Court of Sessions and remanded for further investigation. In answer to question put to him he stated that his name was James Wilson, that he was a bachelor, 42 years of age, and that he resided in Winnipeg, which place he had left about fifteen days ago. He refused to answer any further questions, however, and was sent back to goal to await further developments. Detective McLaughlin, arrived from Montreal last evening, in connection with the arrest, and it is expected that he will be able to identify the man as one of those wanted for the robbery.

WEALTHIEST WOMAN IN WHOLE WORLD

Widow of Late E. H. Harriman Becomes So by Will of Dead Financier and Railway Man.

New York, Sept. 16.—A hundred brief words, each weighted with approximately \$1,000,000, and containing in their entirety the last testament of E. H. Harriman, make his widow, Mary Averell Harriman, probably the wealthiest woman in the world. It is, perhaps, the briefest will on record for the disposal of an estate of such magnitude. All his property is left to Mrs. Harriman.

Wall street estimates that Mrs. Harriman will inherit in realty and personal property between \$75,000,000 and \$100,000,000. Mr. Harriman's private fortune is supposed to have been greater than this by many millions, but there is reason to believe that his unmarried daughters, Mary and Carol, his married daughter, Mrs. Robert Livingston Gerry, and his two sons, Wm. Averell and Roland, together with his surviving sister, Mrs. Simons, and other relatives, have all been substantially provided for.

Mrs. Harriman was Miss Mary Averell, daughter of W. J. Averell, a wealthy banker of Rochester, N.Y. It is estimated that the estate of the late E. H. Harriman, according to common estimate here, is the wealthiest woman in the world. Mrs. Harriman's holdings have been estimated at \$40,000,000, those of Mrs. Frederick Courland Penfield, who was Annie Weightman, of Philadelphia, at \$30,000,000, and those of Mrs. Russell Sage at a like amount.

AIRSHIP FATALITY AT OTTAWA

Ottawa, Sept. 16.—There is a chapter of accidents to be added to the history of the dirigible balloon at the Central Canada Fair this year. Edward Kestling, of Belleville, who had a candy wheel on the exhibition midway, was killed this morning by catching hold of the keel of the Nasar airship, which was in the air when the first time, had become entangled in the electric wires. A current of 2,000 volts passed through him and efforts at resuscitation were unsuccessful. Two other men, Malcolm MacCampbell, 119 Albert street, and Carl Wingeter, of Missouri, an airship employee, were also stunned by the shock but were brought around after hard work. In the afternoon Tony Nasar went up again but his motor refused to work aloft and he descended near the fair grounds. In bringing in the balloon she caught against a live wire and was set afire. She had to be released from control and what is left of the \$15,000 worth of ship will not sell at 30 cents. The balloon, in flames, fell upon a house, but fortunately did not set it on fire. The aviator and inventor had some good engagements secured in the United States and will lose over \$20,000 by his visit to Ottawa.

CIVIL ENGINEER—SPECIALITY—

WATERWORKS

80 ST. JOHN STREET, Quebec.

CANADA HONORS COM. PEARY

Invited Him to Return on Dominion Steamer Guest of the Canadian Government.

Battle Harbor, Labrador, Sept. 16.—Captain Bartlett intends to go to Cornell University to study civil engineering. He displayed the flag of Newfoundland at 87.53 north latitude, and enjoys the distinction of having been nearer the North Pole than any other white man of the party, except Commander Peary.

Bartlett would like to go to the South Pole. "I believe," he said, "that the application of Peary's methods would produce the best results in the Antarctic. In following the commander over the Polar ice we regarded him with absolute faith. Our determination and our cry was, 'he must get to the Pole,' and every man of us did his utmost to assist Peary obtain the success which he believed he was bound to achieve."

"The last observation, other than those taken by the commander himself, was made by me. Peary admonished me to 'be very careful.' I could realize that we were at last so near the Pole. I wrote the record of that observation with the closest attention."

"After parting company with Peary I did not immediately turn back, but continued onward for six miles to allow for the ice movement and to make sure that I really obtained the British record. Then I turned my face south and started on the homeward journey, sad at heart, that it was not my fortune to be able to go on with the commander. The return trip to Cape Columbia was uneventful."

Asked at what point farthest north he had seen the Bible, Capt. Bartlett said to missionaries were met among the North Greenland tribes, who have never been christianized and never have heard of a Bible.

Prof. Donald B. McMillan, whose feet were badly frost bitten, is now well and stronger. He gathered specimens of bird life in greater variety and number than any previous Arctic expedition. Not less than 25 different varieties of birds were seen north of the 82nd parallel.

George Borup, the official photographer of the expedition, has a thousand negatives.

The Canadian Government steamer Tyrant arrived here this morning from Sydney. Capt. Dickson, of the Tyrant, in behalf of his government, congratulated Commander Peary on his reaching the Pole, and extended to him an invitation to return to Sydney on the Tyrant as the guest of the Dominion Government.

Commander Peary thanked the Canadian officer for his government's good wishes and regretted his inability to accept the invitation as he had decided to return on the Roosevelt.

London, Sept. 16.—Capt. Robt. F. Scott, who is organizing an expedition to the South Pole, speaking to-day on the report that Commander Peary had decided to lead a similar expedition, said: "I very much doubt that the report is authoritative, but am confident that unless our expedition starts next year there is a strong probability that other countries will take up the enterprise along the line of advance developed by our pioneer work."

New York, Sept. 16.—When Herbert L. Bridgman, secretary and treasurer of the Peary Arctic Club, returned to his home in Brooklyn late to-day from Sydney, N.S., he found on his desk a number of cablegrams of congratulations to Commander Peary, among which was the following dated Uccle, Belgium, September 8th: "Peary—International Polar Commission addresses sincerest congratulations to your member. Cagni, Nordenskiöld, Le Coite."

WEST INDIAN TRADE COMMISSION

Ottawa, Ont., Sept. 16.—Lord Balfour of Burleigh, Sir John Dickson Poynder, and Sir Daniel Morris, with Messrs. Fielding and Paterson, constitute the commission to enquire into trade relations between Canada and the West Indies, arrived in New York to-day and will be in Ottawa Saturday. The initial sitting of the commission for organization will take place here on Tuesday.

HON. JOHN COSTIGAN ILL.

St. John, N.B., Sept. 16.—Hon. John Costigan, who has been spending the summer at Baker Brook, Madawaska county, underwent an operation for internal trouble at St. Basile last week and was able to leave the hospital on Tuesday.

CREWE CONGRATULATES

Battle Harbor, Sept. 16.—The following dispatch was received to-day by Captain Bartlett, of the Roosevelt, from Governor Williams, of Newfoundland: "I transmit with pleasure the enclosed message from the Earl of Crewe, Secretary of State for the Colonies: 'I congratulate Capt. Bartlett and his men on their safe return from the arduous enterprise in which they, as Newfoundlanders, have taken so important a part.' (Signed) Crewe."

WILL WAIT FOR PEARY.

New York, Sept. 16.—Herbert L. Bridgman, Secretary and Treasurer of the Peary Arctic Club, returned from Sydney, N.S., to his home in Brooklyn late to-day. Mr. Bridgman said he had not attempted to go on to Battle Harbor, Labrador, and meet Commander Peary, and had decided not to wait for him at Sydney. "I decided that I could be of more assistance to Commander Peary here and so came home," said Mr. Bridgman. "I had two or three business messages from him while at Sydney, but further than that did not hear from him. There are several matters in connection with the Peary Arctic Club, and Peary's reception, here, which demand my attention, and I thought it best to be where Commander Peary could communicate with me if he wished to."

Forecast of Weather.

Toronto, Sept. 16-8 p.m.—Unseasonably warm weather has prevailed to-day in Alberta, where maximum temperatures exceeding 80 have been recorded in all parts of the province. Showers have occurred in the Lake Superior district and elsewhere in Canada the weather has been fine.

Minimum and Maximum Temperatures. Victoria, 46-64; Vancouver, 46-67; Kamloops, 48-86; Edmonton, 38-80; Prince Albert, 42-68; Calgary, 38-82; Moose Jaw, 45-78; Qu'Appelle, 44-68; Winnipeg, 48-64; Port Arthur, 42-60; Parry Sound, 46-68; Toronto, 52-70; Ottawa, 54-66; Montreal, 56-62; Quebec, 56-68; St. John, 54-64; Halifax, 52-66.

Forecasts.

Lower Lakes and Georgian Bay.—Moderate to fresh winds gradually shifting to northerly; a few local showers but mostly fair.

Ottawa Valley and Upper St. Lawrence.—A few scattered showers, but mostly fair and not much change in temperature.

Lower St. Lawrence and Gulf.—A few scattered showers, but mostly fair and not much change in temperature.

Maritime Provinces.—Moderate southerly to westerly winds; mostly fair and warm, but some local showers at night.

Lake Superior.—Fair and cool.

Manitoba.—Fine and much warmer.

PERSONAL GOSSIP.

Mr. D. M. Lefebvre, representing Finlay Smith & Co., Montreal, is a guest at the Chateau.

Miss Gabrielle Dandurand, daughter of Senator Dandurand, Montreal, is in town the guest of her uncle, Mr. Gus. Grenier.

Mrs. Choquette, Woods and de Martigny, inspectors of Provincial gaols and asylums, are in town on a tour of inspection.

Surgeon-Major Olivier Menard, of the 14th Regiment des Hussars, France, is on a trip to Quebec with Mrs. Menard and are the guests of Mr. H. de Saint Victor. Major Menard, who has just been through the Morocco campaign, leaves with his wife to-day for a trip around the world.

TOO EMBARRASSING.

"Mamma," said the exasperated young lady, "I wish you wouldn't hang that old parrot out on the front porch these evenings."

"Why not, my dear?" asked her mother in surprise.

"Why I think before you bought him he must have belonged to a street car conductor. Every two or three minutes when Edwin calls he chirps out: 'Sit closer, please.' It is just too embarrassing for anything."

MINING FOR WOOD.

A curious source of wealth is reported by the French Consul at Montjeu, in upper Tonkin. It lies in wood mines. The wood originally was a pine forest, which the earth swallowed in some cataclysm. Some of the trees are a yard in diameter. They lie in a slanting direction and in sandy soil, which cover them to a depth of about eight yards. As the top branches are well preserved, it is thought the geological convulsion which buried them cannot be of very great antiquity. The wood furnished by these timber mines is imperishable, and the Chinese gladly buy it for coffins.

TRIBUTES OF AFFECTION FOR PARIS DEAD.

Foreign visitors to the cemetery of Pere Lachaise often wonder at the tributes of affection deposited on the graves. Many French people refuse to believe that their dead cannot enjoy the good things they used to like when alive. Mothers bring fruit and sweets and leave them on the tombstones of their children. The graves of older people are frequently spread with wine, beer and tobacco, and there is (or was last year) one affectionate father who leaves a potato salad on his son's tombstone every Sunday. Parisian street prowlers are of course well aware of this practice, and despite the vigilance of the cemetery guardians manage to pilfer many a meal from the graves.

CONVINCING.

The landed proprietor purchased a carriage horse to match one he already possessed. A day or two later he asked his groom what he thought of the new arrival.

"Well, sir," said Sandy, "he's certainly a gran' looking horse, but he's a wee bit touchy in the temper."

"What makes you say that, Sandy?"

"Well, he disna seem to tak' kindly to anybody, sir. In fact, he kinda like me to gang intae his box to feed him even."

"Oh," lightly responded the horse's owner, "he hasn't settled down yet, that's all. His surroundings are strange to him. I don't think there's anything wrong with his temper."

"I didna either at first sir," remarked Sandy, "but he kicked me clean out o' the box twice, an' when ye come to think about it that's sort o' convincin'!"

HOW BEES PROTECTED A LEOPARD FROM HUNTERS.

"If the lair of a leopard is known," says a writer in the September Wide World Magazine, "stones will generally dislodge the lurker. I recall one occasion when a leopard was supposed to be located in a cave near camp. The guns were placed around in position commanding the exit, and a few stones were then thrown in. There was no result at first, but as more and larger stones crashed in there came a faint humming, and then a roar like the sea under the cliffs. In a moment the air above the cave's entrance grew dark with bees! As one man, sportsman and gun-bearers fled to the camp! A few were slightly stung before they could reach their tents and pull the flaps over the entrances, while the bees for some time besieged. Incredible thought it may sound, it is the truth that, although the camp was full of native servants, horses, etc., none of those who had remained behind, and were not concerned in the attack on the bees' cave, were stung! It was a considerable time before the bees beat a retreat, but during all the time that they stayed in the camp it was the tents of their aggressors exclusively round which they angrily buzzed."

INTERFERENCE MUST CEASE

Order Issued by the Railway Commission Re U.S. Immigration Officials on Trains.

Ottawa, Sept. 16.—An order was issued by the railway commission at its sitting to-day instructing all railways doing an international business to order their conductors to see that there is no undue interference by United States immigration officers with Canadian passengers when the train is in Canadian territory.

Judge Mabey said there had been over fifty complaints about these officials making themselves obnoxious. "If I board a train at St. Catharines bound for Niagara what business," he asked, "is it of the United States immigration officer."

"You don't have to show him your ticket," suggested one of the railway officials.

"But if I did not I would be snatched off probably," answered the judge. "We have many cases where these people have been openly insulted."

"Our officers board trains in the United States," stated one of the immigration department officials.

"What they do in the States does not matter," said the chairman; "they cannot do it here."

Mr. Cowan, K.C., for the Grand Trunk, pointed out that the arrangement was a reciprocal one to prevent delays at the border. If there were complaints the immigration officer could be removed.

Judge Mabey said he suggested no order to cause delay of trains but the conductors should be given to understand that they are in charge of every one on their trains and should prevent any incivility. An order to this effect will go.

INTERCOLONIAL RECIPROCITY

Sydney, N.S.W., Sept. 16.—The Congress of Chambers of Commerce, representing all parts of the British Empire, which is now in session here, to-day adopted, by a large majority, a resolution in favor of different parts of the empire, granting each other preferential treatment on their respective markets on a reciprocal basis, and pledging the chambers represented to take steps to induce their respective governments to give effect to this policy.

NO FIGHTING IN NEW YORK

New York, Sept. 16.—It is believed in sporting circles that the decision of the police to insist upon the strict letter of the law means the stopping of all fighting in New York city for some time to come. The managers of the Longacre Athletic Club announced that a ten round bout scheduled for to-night between Young Corbett and Marty Rowan had been called off. It was announced that the club had received an intimation that the police would raid the club if any attempt was made to pull off the bout.

TIGRESS ESCAPED

Marseilles, September 16.—A big royal Bengal tigress escaped from her cage to-day on board a vessel that was to convey the animal to Oran, Algeria. A horse on board the same vessel became frightened while passing near the tigress's cage, and rearing, struck the bars of the cage with his forefeet. The blows loosened the bars and the tigress squeezed through. The animal killed a dog with a single stroke of its paw and wounded a deckhand before it jumped down to the wharf, whence it made its way into the city.

Marseilles, Sept. 16.—The Royal Bengal tigress that escaped from a steamer in the harbor yesterday is still at large. The animal is reported to be on the waterfront, probably hiding in the mouth of a sewer. The people of this locality are highly excited. Twice during the night the tigress was seen sinking along the docks and fired upon, but both shots missed. The section where the animal is hiding is guarded by cordons of soldiers and police, and no one is allowed to go out on the wharves.

Mrs. James Golloher, Norwood, Ontario, writes: "I was suffering from systemic catarrh for about two years. In damp weather I was unable to do my work, as my back and sides would ache, and I thought if I did not soon find a cure I could not live long."

"I saw where Peruna had cured hundreds who had suffered as I was. I decided to try it."

"After taking the first bottle I felt a big change. I have taken five bottles and am completely cured."

"I thank Dr. Hartman for his kind advice to me."

Sick Headaches.

Miss Nettie E. Bogardus, R. F. D. 21, Westfield, N.Y., writes: "I have been a great sufferer from sick headaches, but am now entirely free from that trouble. had to turn sadly towards the mother-country.

The French domination had ceased upon these shores but not the Faith, not the religion, which came with it—that religion which is the basis of the prosperity of people. The greatness of a nation depends especially on the union of all its citizens. Now there is no greater force to unite all the elements which compose the Canadian people than religion, because the faithful are not only united by the bonds of faith and charity they are also bound to one another by obedience and devotion to the common father of the great Catholic family. Your Worship is correct in stating that the Roman Church is always the friend of progress and always ready to follow the development of people who recognize her law, to aid in cementing the union of forces, and the concentration of effort necessary to the progress of a young and great country such as yours.

Here under the impetus of eminent men was found the great work that you recalled a moment ago, the first Catholic University to which the church gave birth in all America, and the ever increasing prestige of this institution is not the least glory of your city and of the whole Canadian nation.

From here in fine, from this vast and flourishing Diocese of Quebec of which your city is the center, there came forth as from a fruitful seed the diocese now so numerous that the Catholic Church is proud to count in Canada and that you see so worthily represented amongst you.

These are for the City of Quebec, you will permit me to say so, so many titles to the honor of being chosen as the seat of the First Plenary Council of Canada; and our Holy

had to turn sadly towards the mother-country.

The French domination had ceased upon these shores but not the Faith, not the religion, which came with it—that religion which is the basis of the prosperity of people. The greatness of a nation depends especially on the union of all its citizens. Now there is no greater force to unite all the elements which compose the Canadian people than religion, because the faithful are not only united by the bonds of faith and charity they are also bound to one another by obedience and devotion to the common father of the great Catholic family. Your Worship is correct in stating that the Roman Church is always the friend of progress and always ready to follow the development of people who recognize her law, to aid in cementing the union of forces, and the concentration of effort necessary to the progress of a young and great country such as yours.

ANNUAL PICNIC GREAT SUCCESS

Q. R. L. & P. Company Employees
Enjoyed Themselves at Outing at
Cap Tourmente Yesterday.

Fully 800 people attended the 7th annual picnic of the first division of the employees of the Quebec Railway, Light & Power Company which took place yesterday at Cap Tourmente, and the event will go on record as one of the most successful and enjoyable ever held. Two special trains conveyed the employees with their families and friends to the picnic grounds. A fine programme of sports and games were provided for those of an athletic turn of fancy, while music was supplied by Morin's orchestra for those who chose to dance, this part of the day's pleasure being as usual under the experienced direction of Mr. R. Crotty. The athletic events were taken care of by Mr. R. M. Reade, and were run off with great satisfaction. The large party returned to town last evening shortly after 8 tired but happy and well pleased at the day's outing. The picnic of the second division of the employees will take place on Thursday next.

The committee in charge of this year's picnic, and who have every reason to feel proud of the success with which their labors were crowned, was as follows:—Ralph M. Reade, President; Joseph M. SEATTLE EXPOSITION AND HOW TO GET THERE.

The choice of the route has much to do with the success and pleasure of this trip. Probably on no other railway can a person secure more real, delightful comfort on a railway journey than on the up-to-date trains of the Canadian Pacific Railway.

The splendid construction of this road, in track and equipment, its pleasantness of route and politeness of employees makes every mile one of comfort and pleasure.

As a route to the exposition the Canadian Pacific Railway is unequalled on account of its direct connections, fast time and beautiful scenery.

We shall be glad to render any assistance and furnish information to those intending to make the trip.

Apply to 30 St. John street, corner Palace Hill, and 46 Dalhousie street, Sept. 17x2

THE NEW

"PAQUETORIUM"

Is Growing More Popular Every Day
—Change of Programme Three
Times a Week.

The "PAQUETORIUM", the fine new
moving picture theatre of The Paquet
Co., is proving a great treat to the
ladies of Quebec, who find much
pleasure in dropping in for a half
hour's rest and enjoyment while shopping. The Paquet Co., have a strict
board of censors in connection with
the theatre, and every picture must
pass this board before it is allowed
to be shown to the public. The result
is a program of choice, refined,
educational and amusing pictures
which any mother should be glad to
give her children an opportunity of
seeing. During this week have been
shown the "Wonders of Nature", a
very fine picture of some of the
world's greatest waterfalls, "Modern
Methods of Agriculture", showing the
British motor plow and latest farming
machinery in operation, "De Burs
Diamond Mines of Kimberley" and
other very interesting and instructive
pictures, and many amusing and charming
military and operatic pictures.

The programme is changed on Tuesday,
Thursday and Saturday. The
"PAQUETORIUM" is open every day
from 9.30 to 11.30 a.m., from 2.30
to 5.30 p.m., and on Saturday evening
from 7.30 to 10 o'clock.

**BRITISH COLUMBIA, THE GREAT
PACIFIC PROVINCE.**

Premier McBride, of British Columbia,
is of the opinion that British Columbia
is destined to be one of the
thickly populated and wealthiest provinces
in all Canada. The ever increasing
tide of commerce from the Far East
must lead to the building up of half a
dozen great maritime cities. In his article on "British Columbia
in 1950," published in the September
16th issue of COLLIERS, he predicts that
British Columbia twenty-five years hence
will have a population of not less than two
and one-half million people. This is one
of the most interesting of the seven
articles recently published in COLLIERS
on the commercial future of Canada.

LEVIS RIFLEMEN SHOT FINELY

Annual Matches of the 6th Regiment
Canadian Artillery Held
Yesterday.

The eighth annual matches of the
6th Regiment Canadian Artillery Rifle
Association, were held at the St.
Joseph ranges yesterday and proved
by far the most successful meet of
this popular corps. The weather
conditions were all that could be desired,
while the competitors outnumbered
those of former years, and the results
of the various matches
