

RACES AT  
LACHINE.VICTORIAS BEATEN ON THE  
BEAVER RINK.

Ives, the Billiardist, III—Next Saturday's Hockey Match—Postponed M. A. A. Races Tomorrow—Other Sports.

The Lachine Snowshoe Club held a meeting last night and decided upon the following programme for their annual races, which will take place at Lachine on Saturday, March 2:

1. 100 yards, open in heats. 2. 200 yards, club. 3. Half mile, open. 4. Two mile, club. 5. 5 mile, open. 6. 10 mile, club. 7. Half mile, boys 15 years & under. 8. One mile, club. 9. Married men's race.

A quarter mile race has been laid out on the ice opposite the G. T. R. wharf station. Saturday's Snowshoe. The Montreal Garrison Artillery Snowshoe Club will have their annual open competition Saturday afternoon over the old mountain course. Several first class entries have been received and everything points to a very successful race.

## SKATING.

## Races at Cote St. Paul.

On the Cote St. Paul Skating Rink on Saturday afternoon next a series of races will be held, open only to members of the club. The various events are as follows: Half mile race, boys under fourteen. One mile race. Ladies' race, quarter mile. Obstacle race. Five mile race. Snowshoe race, one mile. Married men's race, half mile.

In anticipation of the races some hard practice has been put in of late, and it is confidently asserted that on Saturday next Cote St. Paul's existing skating records are doomed to fall before the swift and stalwart men of the town.

## M. A. A. Rink Notes.

Through a misunderstanding on the evening of the annual races at the rink the boys race (under 16 years) was skated with only three starters, while seven others were waiting in the Club house.

The committee are anxious that all should have a fair show and have put up two hand-some prizes to be competed for on Friday evening and open only to those who entered for this race on Friday evening.

The usual Friday evening handicaps will take place to-morrow at seven o'clock and will include 200 yards in heats, half mile and two miles.

To-night's carnival is expected to be a huge success. The rink will be decorated more brilliantly than ever and as this is to be the last carnival of the season a brilliant gathering is expected. The Victoria Ladies band, lately re-organized, has been engaged for the occasion.

## CURLING.

LANCASHIRE  
VERSUS INDIA.

THAT IS HOW SOME TORIES  
REGARD JAMES' MOTION.

It May, Therefore, Not Receive the  
Support of the Conservatives,  
Though That Contingency is Prob-  
lematic—Anxiety Over the Matter

LONDON, February 21.—The Conservative evening newspapers are jubilant over the difficulties which confront the Ministry. But they are unanimous in deprecation of such action as will sacrifice the interests of Lord to those of an English country. Lord Rosebery and Mr. H. H. Fowler, Secretary of State for India, held a conference at ten o'clock this morning and the Cabinet met at eleven o'clock, an hour earlier than usual. The object of the meeting was the consideration of Sir Henry James' bill by the House of Commons.

All of the members of the Cabinet were present. BALFOUR HOLDS THE KEY. The consensus of opinion is that the fate of the Government depends upon the action of Mr. Balfour. If that gentleman speaks strongly in favor of Mr. James' motion, that the Indian import duty on cotton shall continue without concessions to the manufacturer, the Ministry will, without doubt, be overthrown. If, on the other hand, he speaks in favor of a free hand, it is likely that some Conservative, such as Sir Richard Temple and others, who are ex-Indian officials, will vote with the Government.

Mr. Balfour was suffering this morning from a slight attack of influenza, and it was considered possible that he would not be present at today's sitting of the House. The Star and the Standard say that the attitude of the Conservatives in giving preference to the local interests over those of the Empire, by supporting a motion which, if successful, will mean bankruptcy of India, deserves condemnation. The Pall Mall Gazette expresses anxiety to see the Government defeated at the earliest possible moment, but not on James' motion, which is simply a case of Lancashire versus India.

The bi-metallicists are canvassing on behalf of Sir Henry James' motion, on the ground that the finances of India will be improved by changes in the currency and not by the imposition of cotton duties. The Globe suggests that the Cabinet take into consideration the Egyptian question. The Cabinet meeting lasted an hour and a half, and while it was in progress Mr. Fowler visited the India Office three times.

There is great anxiety in the lobbies of the House of Commons this afternoon, as to the result of the coming division, on the motion of Sir Henry James, for an adjournment of the House, in order that he may call attention to the Indian import duties on cotton. It is said to-day, that the Lancashire party have promised the support of a number of Conservatives, as well as Liberals, interested in the cotton trade and that the combined strength is sufficient to bring about the defeat of the Government. The attitude of the Government, however, it is understood, depends upon the decision arrived at, at the Cabinet Council which was held.

LONDON, February 21.—The Press Association announces that at the Cabinet Council this afternoon it was resolved to persist in their conclusion, that the condition of the finances of India forbids dispensing with the import duties on cotton. Right Hon. Sir Henry Fowler, Secretary of State for India, professes confidence that the explanation he will make in the House of Commons when Sir Henry James' motion is debated, will save the position of the Government.

A movement developed this afternoon to bring about a postponement of the discussion of Sir Henry James' motion until next week, but Mr. Fowler flatly refused to agree to the proposition. He insisted upon settlement of the question by the House to-night.

ODDFELLOWSHIP EXPOSED.

Friends of members of the Order of Odd-fellows are looking forward with a great deal of interest to the exposure of Odd-fellowship to be given in the Victoria Rifles Armory Hall to-morrow evening, when the chief attraction will be an initiation in full regalia.

ALL EYES ON  
THE VOTERS' LISTS.WHEN THEY ARE FINISHED LOOK  
OUT FOR ELECTIONS.

All the Signs Go to Show That Dis-  
solution Has Been Fully Decided  
Upon—Rushing Work on the Lists  
by All Sorts of Devices.

(SPECIAL TO THE STAR.)

OTTAWA, February 21.—Each day brings additional evidence that dissolution is fast approaching and just as soon as a date can be fixed by the Government, it will be announced. The difficulty and the only one now, is as to the voters' lists. Very soon that obstacle will disappear, judging from the way in which the work of printing is being distributed and pushed forward. Almost every nook and corner of the Printing Bureau which can possibly be used for the purpose, is utilized in setting up the lists. Not only is this the case, but preparations are being made outside to get

occupy public attention. Representations have been made on behalf of the German community in the city. A private letter states that threats of vengeance are freely uttered. A change in the position that has just occurred is considered to favor the chances of public disturbance, while the large influx of Bedouins into the outskirts of the city during the last few weeks is regarded as a disturbing feature. All these symptoms vividly recall those that heralded the massacres in 1882. For some time past, one of the Khedive's *protégés*, whose patriotism has been stimulated by dismissal from the Government services for speculation, has been busy among the Bedouins distributing Khedivial largesse, and recruiting a bodyguard for the Khedive's person. That the dangerous agitation has been artificially provoked is evident from the complete tranquility and contentment prevailing throughout the rest of Egypt, since the formation of the ministry of Nubar Pasha.

JOURNALISTIC BLACKMAILERS.

Sentences Imposed in Paris on Members of the Staff of Several Papers.

PARIS, February 21.—The prosecution for blackmail against M. Portalis, editor of the *Die Nouvelle Sicile*; M. Girard, the manager of that paper; M. De Clercq, also employed on that journal; Baron Hettler, of the *Paris*; M. Raoul Canivet, editor of the *Paris*; M. Triand, ex-director of the *Paris*, and M. Dreyfus, also an editor, was ended today. Girard, Portalis, Hettler, De Clercq and Dreyfus were found guilty. Canivet and Triand were acquitted. Sentences of imprisonment were pronounced upon the guilty ones as follows: Portalis, five years; Girard and Hettler, each two years; De Clercq, fifteen months; and Dreyfus, one year.

The alleged blackmail consisted in nego-

ciations for the suppression of an alleged scandal in connection with the building of a railroad in France, which had obtained a Government subsidy. The Government took up the prosecution of the case on the complaint of the parties who were connected with the roads and of whom money was demanded, and the demand accompanied by threats, which were resisted with the above result.

M. Portalis is now in South America.

VISITED THE HERVEY INSTITUTE.

Her Excellency Lady Aberdeen, accompanied by the Rev. James Barclay, D.D., yesterday morning paid a visit to the Hervey Institute. Lady Aberdeen's visit was greatly appreciated, as she took a kindly interest in the children and their circumstances. Before leaving, Her Excellency consented to be the honorary president of the Institute.

THE CHURCH AND THE ORGAN.

At a meeting held last night in Stanley Street Presbyterian Church to consider the advisability of taking steps with a view to freeing the congregation from certain obli-

gations which prevent their using an organ in the services of the church, it was objected by Col. Stevenson that, twenty-one years ago, when the church was in process of erection, certain sums of money were donated by individuals who gave on the understanding that this church would never tolerate instrumental music. Col. Stevenson claimed to have been one of the collectors at that time, and he spoke feelingly of the embarrassments which, if an organ is introduced, must arise whenever he meets one of these old-time benefactors, and thus reap the harvest of an early and impulsive sowing. In answer to this it was stated that one of these early donors had since gone to the Old Country and is at the present time assisting with purse and good-will in the erection of a church, one of whose strongest features is to be its organ. It was finally decided to adjourn the meeting for four weeks in order to give a chance to one of these old-time benefactors, who are still living, to speak in the understanding that if they fail to do this they will forever after hold their peace. The meeting was amicable and generally in favor of the organ.

Mr. Justice Tachereau will render judgment to-morrow in Beauchemin versus Demers, Gosselin versus Jubinville, Dan-ton versus Montreal Street Ry.

MICHIGAN'S BIG STORM.

DETROIT, Mich., February 21.—Specialists to the *Free Press* from all parts of the State report a furious snowstorm, accompanied by a fierce gale. The steamer Wisconsin is fast in the ice off Lake City, and drifting north with the line. All trains on the Chicago and West Michigan have been abandoned as have trains on the Big Four, north of Elkhart, Ind.

DISQUIET IN ALEXANDRIA.

LONDON, February 21.—A despatch to the Times from Cairo says that the menacing aspect of affairs in Alexandria continues to

beat Townships dairy, in a jobbing way, is worth 17 to 18c.

There is no change. Montreal live stock, in fair lots, is worth 13 to 14c. New laid in single cases, sell at 24c per dozen and upwards.

GROCERIES.

TEA.—The sale of 2300 pkgs. of low grade Congou on p. l. c. believed to have been made at about 12c, is the feature of wholesale transactions on spot this week. Distribution by jobbers since our last report has been rather quiet, except for a small quantity of Java at 25c to 26c. The market is generally quiet, and the general tone of the market is cheerful. Mail advices from England of the 8th inst. speak of affairs having assumed a rather quieter aspect, much of the country trade being done for a time and exporters assuming little interest. In New York the faith manifested by importers in the chances of the market seems to be shared by their customers. The shipments for the season were 1,500,573 pounds Congou, 3,681,132 pounds oolong, 32,584 pounds scented orange Pekoe and 161,822 pounds sorts.

COFFEE.—On spot only an indifferent sort of business is passing, dealers buying conservatively, their purchases being confined to immediate wants. There is, however, no sharp selling pressure and Maracabo is quoted at 25c to 26c; Rio at 14c to 15c; Java at 25c to 26c and Mocha at 25c to 26c. In New York holders of Rio and Santos growths manifest a determination to stand for full values and mild grades generally are firm, but in the latter case the strength of the support varies according to the description of stock. The stock of Brazil coffee here on Sat-

urday last was 229,000 bags, in the United States 245,153 bags, with quantity afloat for this country 217,000 bags, making the American visible supply 446,153 bags, against 470,221 bags at the same time last year. The available supply of mild coffee in Europe, according to latest advices from Messrs. E. Schuler & Co. of London, is still very small, there being only about 150,000 bags in the three leading markets, viz. London, Hamburg and Havre. For this reason all the demand has to be satisfied by Santos and this state of things must exercise less influence till there is a liberal supply of mild coffees. Fortunately for the future the trade has practically ceased buying, else the drain in Santos might have been severe and a disturbing element introduced. As it looks now there is every chance that there will be a regular supply of and demand for all such coffees as usually find their way to London. The Paris clique find it difficult to keep the market up. After March there will probably be a settlement of some kind.

SCAND.—The market is quiet. For granulated, standard, 31c is the figure, but for really large lots this would probably be shaded. Yellows range from 28-30c to 30c.

MOULDER.—The activity of the demand for moulage is one of the noticeable features of the grocery market at present. Barchados, in a wholesale way, meets with a ready sale at 32c to 33c, while Porto Rico is quoted at 27c and Trinidad at 25c. The consignment of Barchados which sold last week considerably below the market value has arrived from New York. There is some curiosity in the trade as to the quality.

DRIED FRUITS.—During February the wholesale market for dried fruit of all sorts is always dull, and this year is no exception to the rule. At the moment, in fact, there is no enquiry at all for large lots of raisins and currants, and importers, jobbers finding their stocks quite sufficient for their requirements. Prices, consequently, remain nominally as last quoted. Mail advices from Patras, dated February 1, and the stocks of currants in Greece may be estimated at less than thirty thousand tons, there having been about 10,000 tons shipped during January, 300 tons being then in course of shipment and fully forty thousand tons sold to consuming markets. Since the 14th ult. the primary market has been in a most excited state owing to the demand from Russia and local speculators. Optimists maintain that the future of the trade is now assured, Russia having been found willing to pay prices which will enable the grower to cultivate his land at a profit. Returns just at hand show that the stock of currants in London on January 31 amounted to 20,000 tons, against 17,000 tons at the corresponding date last year and 18,150 tons in 1893. The stock of Yellows remains in given as 700 tons for 1893, 715 tons for 1894 and 1530 tons for 1895.

**THE EDITOR'S EXPERIENCE.**  
A SUFFERER FOR SEVERAL YEARS FROM ACUTE DYSPEPSIA.

Food Distressed Him and It Began to Have a Weakening Effect on the Heart—Many Remedies Failed Before a Cure Was Found.

From the CANADIAN PRESS.

While newspaper men are called upon in their capacity as publishers to print from week to week words of praise spoken in favor of proprietary medicines, it is not often that the editor himself feels it his duty to say a good word on behalf of any of these preparations. And yet if a newspaper man has actually found benefit from the use of a proprietary medicine, why should he not make it known to his readers, and thus perhaps point out to some of them the road to renewed health.

The editor of the Breeze believes it his duty to say a few words of praise in favor of a remedy that has proved an inestimable boon to him, and to say them without any solicitation on the part of the proprietors of the medicine, who, as a matter of fact, had no reason to know that he was ailing or was using their medicine. For several years the editor of the Breeze had been suffering from that distressing complaint, dyspepsia, and only those who have been similarly troubled can know how much misery and trouble entails. He had but very little appetite, and what he did eat caused an unpleasant feeling of fullness, and made him feel languid and heavy, and thus, perhaps, intense pain in the stomach only relieved by vomiting up the food which he had taken. He was also troubled with palpitation of the heart, brought on no doubt by the dyspepsia. Numerous remedies alleged to cure dyspepsia were tried, but without success, and the trouble was approaching a chronic state. At the suggestion of a friend Dr. Williams' Pink Pills were tried and relief soon followed their use. The editor was able to assert positively that he had been cured of his dyspepsia by this remedy that has proved so great a blessing to mankind. To any one troubled with this complaint he would strongly recommend Dr. Williams' Pink Pills. To newspaper men and others who are overworked and who have the whole system and enable them to pursue their work free from that tired, languid, and heavy prevalence among the craft. The editor of the Breeze firmly believes that what they have done for him they will do for others, and he gives them his hearty and unqualified endorsement.

Dr. Williams' Pink Pills are an unfailing cure for all troubles resulting from poverty of the blood or shattered nerves, and where given a fair trial they never fail in cases like that above related. Sold by all dealers, or sent post paid at 50 cents a box, or 6 boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont., or Schenectady, N. Y. See that the registered trade mark is on all packages.

Heaven's eternal wisdom has decreed that man should ever stand in need of man. If you are nervous or dyspeptic try Carter's Little Nerve Pills. Dyspepsia makes you nervous, and nervousness makes you dyspeptic; either one renders you miserable, and these little pills cure both.

**A NECESSARY EXPLANATION.**  
We do not exaggerate in saying that 15,000 people have visited our store since last Monday. There were by far too many people and the result was that many were disappointed, those who could not gain an entrance and those who were not satisfied with the goods we were offering. We are glad to say they are all satisfied now. The most damaged portion had to be sold without delay so that it would not be lost altogether by being overstocked. It is a long time since this year we have offered goods for sale at such low prices. We are glad to say they are all satisfied now. We have only the second portion of the stock left, which has little or no damage and which we are prepared to sell at the same prices as the first portion, because they are the same goods. After the sale of these goods we will open the cases of goods which are crowding our collars. We quote below some of the cuts in prices which we are making.
