Elvis' ex wife, daughter greet fans on 35th anniversary of his death

Thousands of devotees converged on Graceland in Memphis, Tennessee to mark the 35th anniversary of Elvis Presley's death and got a surprise welcome from the King's former wife and daughter, the first time Priscilla and Lisa Marie Presley have appeared together at the annual gathering.

The two women appeared on an elevated stage in front of the crowd Wednesday night, the eve of the Aug. 16 date when the rock and roll icon died at home in 1977 from a heart attack after battling prescription drug abuse.

Fans held up lit candles, illuminating their faces in orange light as they stood in the street outside the gates of Graceland, Elvis' longtime home and his burial place.

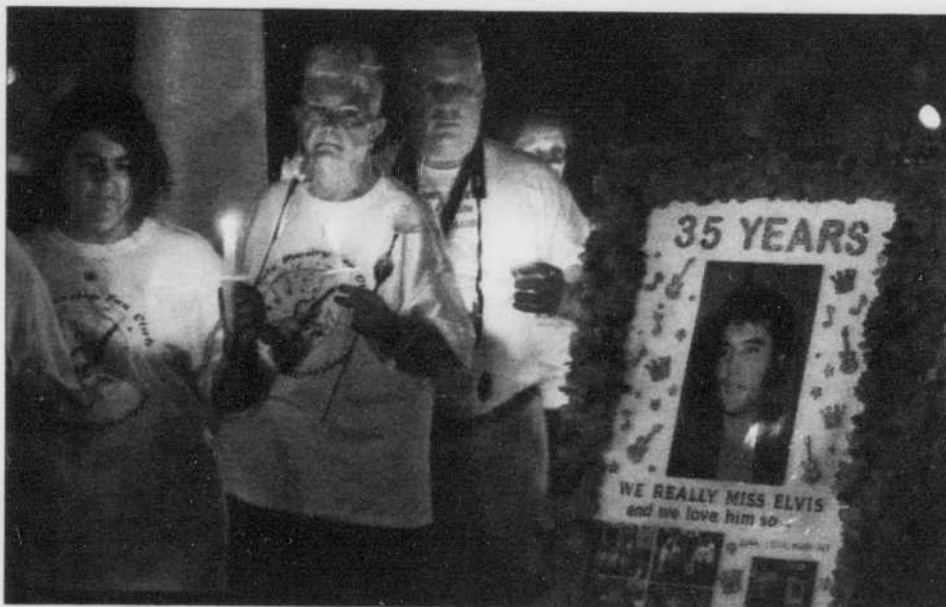

"You should see this from our point of view. It's amazing," Priscilla Presley said, standing alongside Lisa Marie. "The candles are lit. It's truly a sight to behold."

The two women stunned the crowd with their unexpected appearance. It was the first time both of them had appeared together at the annual gathering.

Later, fans who participated in the vigil moved up the tree-lined driveway to the right of the mansion, where the gravesite is located near a swimming pool. Heart-shaped wreaths made of red and white flowers lined the entrance to the site.

Mourners walked slowly through the tomb area, their candlelight casting shadowy figures against a stone wall.

Elvis Presley fans walk past his grave during a candlelight vigil at Graceland, Presley's Memphis, Tenn. home, on Wednesday. Fans from around the world were at Graceland to commemorate the 35th anniversary of Presley's death.

the gravesite, where Presley's father Vernon, mother Gladys, and grandmother Minnie Mae Hood Presley also are buried.

"This is something that Elvis would never, ever have believed could have taken place here," she said.

Elvis admirers from around the United States and the globe have flocked each anniversary to Graceland to celebrate his life and career. His abrupt death at 42 shocked legions of fans still mesmerized today by his singing, sex appeal and on-stage charisma.

The vigil, which was set to run through Thursday morning, marked the

high point of Elvis Week, an annual celebration of Presley's life and career. Organizers said about 75,000 people were expected by authorities to take part in the vigil.

Lisa Marie Presley told the fans she loved them for their devotion to her father. She also acknowledged she had shied away from making public appearances at past anniversary vigils.

"I've always avoided this because I felt that it would be too emotional, but I really felt it was important to come down here tonight," the singer's daughter told the crowd. "I love you very, very, very much."

Outside, some fans used chalk to draw pictures of Elvis's face on the street, where groups of fans set up folding chairs to wait for the line to die down.

Sergio Galleguillo, of Santa Cruz, Argentina, said he became emotional when he walked past the graves.

"I felt the spirit of Elvis there, as if he was alive," said Galleguillo, who was making his first visit to the United States. "It really was a beautiful experience."

Earlier Wednesday, a group from a Brazilian fan club waved that nation's flag, danced and sang Presley's early-70s hit "Burning Love" in the street in front of the entrance.

Steps away, an Elvis impersonator, complete with a white-sequined jumpsuit and red sash, sat alone in the street in front of the entrance, lip synching "In the Ghetto."

Many fans set up chairs along Graceland's outer wall starting early Wednesday morning, eager to get a good spot in line for the vigil.

Allen Black, 47, braved the scorching afternoon sun as he sat alongside the outer wall of Graceland. Black — who is from Aurora, Colo., scene of the July 20 movie theatre shooting massacre — said Elvis was a great performer but also someone who treated others well.

"For some people, it's the music, but for a lot of people, it's the man, the charisma, the humanitarian," Black said. "At first, they probably got drawn in by the music, and then the more they learn about the man, and the way he treated people, it draws them in even more."

GOOD READS

PATRICK LACROIX

A journalistic work by acclaimed foreign correspondent Dexter Filkins, *The Forever War* is not quite aptly titled, in retrospect, but it does reveal the general understanding of the wars in Iraq and Afghanistan as of 2008, when the book was published. Setting aside hindsight, at a time when combat operations have ceased in Iraq and negotiation prevails in Afghanistan, credit must be given to Filkins, who for many years served the *New York Times* in war zones and later became a fellow at Harvard's Carr Center for Human Rights Policy.

Though Filkins does not acknowledge it explicitly, his book is a tale of two vastly different conflicts with only superficial connecting threads. His story begins not with the terrorist attacks of 2001 or the American invasion of Iraq, but with a public execution in Kabul, in 1998. From the outset, the reader is led to depose a moral judgement against the

Into the wild

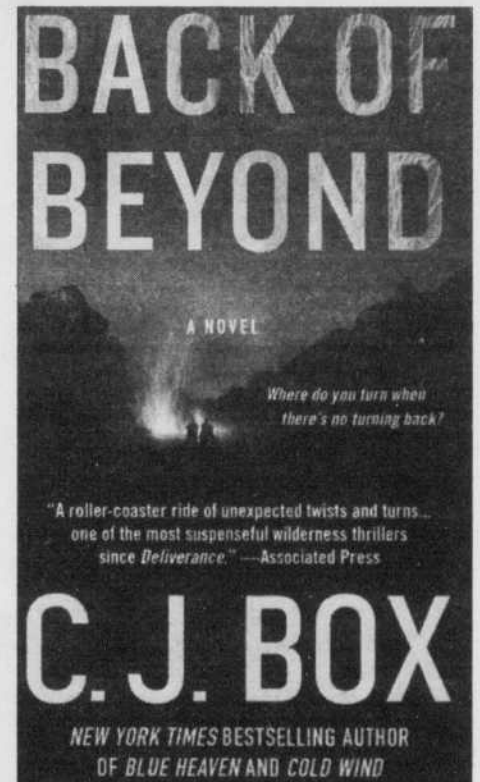

Taliban regime; its removal is justified. In fact Filkins depicts the Taliban as pre-modern, not by virtue of isolation, but by choice. Nothing, forty years ago, could have incited the presumption that the pace of social and economic change in Afghanistan would be slowed, stopped, and eventually reversed. Filkins' portrayal of life under the Taliban, then, is a shot at the sense of inevitability that accompanies such potent

forces as globalisation and secularisation. So much of what occurs in the world is still the result of local fears, concerns, and customs.

The same sense comes across the author's treatment of Iraq, which constitutes the bulk of his work, but without the hushed condemnation of that country's culture or political leaders. Here all is more nuanced, which speaks well of Filkins' ability to report objectively and with an ear for differing angles. The journalist relates conversations with American troops, the culture of Marine Corps units in which he is imbedded, and the experience of urban warfare. He also gives a voice to Iraqis and foreign nationals, so that while there is little to no distance between the journalist and his subject matter, there is a balance in perspectives.

Reader beware! The content is gory, and provides no underlying feel-good story. As with news reporting in general, one must place the supreme value on, and take comfort in, truth, and though it is at times dispiriting, no doubt there is a very heavy but edifying dose of it in this work.

Those who prefer fiction will find greater satisfaction in a different kind of thrilling experience from remote areas, as in C. J. Box's *Back of Beyond* and Rose Tremain's *Trespass*, both recent library acquisitions. Box casts Cody Hoyt, a detective who, in the wilds of Montana,

must investigate the murder of a friend, as the centre of an unravelling narrative that soon threatens Hoyt's son and other wilderness enthusiasts. This "deadly cat-and-mouse game" becomes even more threatening - and cause for frustration - as other members of Hoyt's family are

involved. The novel has been the object of high praise by critics. A thriller of a very different sort, *Trespass* alternately follows several sets of characters in an isolated region of France, all in unfulfilling relationships, all testing the boundaries of affection amidst larger, troubling events. Tremain writes directly, but never sacrifices the quality of her writing; deftly, she mobilises language in the interest of the plot and in so doing enriches both.

In keeping with the theme, children may be inspired by *Nelson Mandela's Favorite African Folktales*, a collection of over thirty traditional stories for nearly every region of the rising continent. Each has its own author and illustrator and communicates some of the foundational wisdom and values of African peoples. "The Hare's Revenge," for instance, explains how the buffalo was willing to take advantage of the hare under the pretence of friendship. Trusting neither the buffalo nor his friend the lion, the hare set out to teach both a stinging lesson by way of a sealed hut and some well-placed bees. By the time the two larger beasts had recovered - and had perhaps understood that one ought not to abuse others' trust - the little creature was long gone. The cleverness of the small, the hare seems to say, must prevail against injustice perpetrated by the mighty.
