Gould, Hyde Workers Increase Activities As Vote Date Nears

Further tangible evidence of the stepping up of the tempo in the local riding in their provincial election campaign leading to voting on June 20 is to be seen in the opening of committee rooms in Victoria Hall by Graham Gould, and appearances by both candidates in public, on the air and on television.

GRAHAM GOULD

Gould, a late starter in the campaign, took out his nomination papers early in the week, as did Richard Hyde, who was elected to the local seat in a by-election a year ago.

In addition to opening committee rooms in Victoria Hall and an information bureau in the eastern end of the riding, Graham Gould's committee has begun a telephone and door to door canvass and is readying an extensive presentation of literature, both through the press and delivery.

Both candidates are local

Underwater Photography Film Shown To Rotary

Oscar Knebel of Imperial Oil, scheduled guest speaker at Westmount Rotary this week, gave members a technical surprise at the Wednesday meeting when, instead of the customary after-luncheon address, he presented the filmed adventures of a New York couple who foresook the big city for under-water photography in the tropics.

The change was appreciated. It struck a holiday note and, seasonable as it was, served to remind members of the fast approach of summer and carnival-time.

Before the movie, Dave Campbell had been on his feet reporting on preparations for the Carnival sponsored annually by the club. Despite difficulties, things have gone satisfactorily. Westmount rotarians had all chipped

in with their services to make the prospects for the success of this year's carnival very good. Mr. Campbell said.

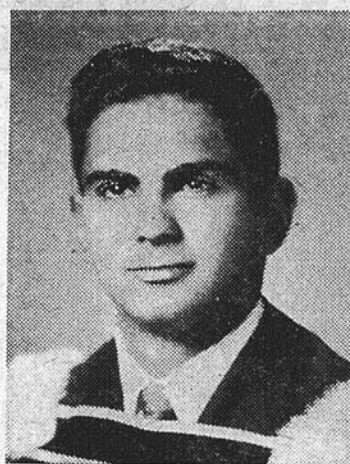

Bill Tawse was in the chair for the meeting. President Ernest E. Mills is absent attending a Rotary gathering in Philadelphia with his wife and several other local rotarians. "And when the cat's away," remarked Mr. Tawse in introducing Mr. Knebel and his movie, "the mice will play."

Over 250 Scouts And Cubs Take Part In Spring Rally

By TED HARRISON

Boy Scouts and Wolf Cubs from the Westmount district held their annual Spring Rally on Thursday of last week at the Westmount Athletic Grounds.

Sixteen troops and packs — comprising over 250 boys — displayed their proficiency in games and Cub and Scout work.

Despite the cool weather almost every Cub and Scout was lined up in full dress uniform on Hillside Avenue in good time to start the evening off with a march onto the field for the flag break. The boys formed a semi-circle about the flagpole to salute the flag break. Immediately following, the Scouts retired to the side to watch the Wolf Cub programme.

On the command the Cubs formed a large circle to perform the Grand Howl. The Grand Howl was taken by Col. J. E. Slessor, the Westmount District Commissioner. The Wolf Cub idea is taken from Rudyard Kipling's Jungle Books wherein a wolf pack is personified. The most important ceremony to these wolves was the Council Meeting when all the wolves gathered about the leader of the pack, the Akela, to perform the Grand Howl. In this the wolves reaffirm their promise to do their best.

After the Grand Howl, the

Cubs proceeded to demonstrate ranking badges, the Second Star Tests, the First Star Tests, and the Proficiency Badge Tests. These were ably demonstrated by the Cubs and greatly interested the spectators. Following this the Cubs closed with the Grand Howl and the Boy Scouts took over.

The object of the Scout demonstration was to show how fast a campsite could be established. Each of the eight troops was given a tent and the necessary equipment and was given fifteen minutes to pitch camp. This they did with great efficiency. Now the Scouts moved on to play a pushball game while judges inspected the campsites.

The pushball is about five feet in diameter and each team attempts to push it past the end-zone of the opposing team. The Scouts play the game often in rainy weather at Scout Camp Tamaracouta, and here they played for ten minutes to the obvious enjoyment of the spectators.

The evening closed with the decisions of the judges and flag lowering. The judges awarded first to Royal St. Lawrence Sea Scout Troop and St. Matthias Troop who were followed by a close second with Weredale.

Proceeds Used To Further Public Service Projects

"On with the show," is the battle cry being voiced this week by members of the Westmount Rotary Club in preparation for their annual carnival next week at Westmount park, at the Glen. The carnival will run from June 12 through June 16.

All proceeds from the carnival go towards the public service of the club. These include such items as the Unity Boys Club, built and equipped at a cost of more than \$200,000, the Weredale Boys Camp, a property originally purchased and developed by the club, and the Girl Guides Camp, where the boating equipment and pavilions were supplied and erected by the Westmount group.

In addition, donations have been made to the Herbert Reddy Memorial Hospital, Montreal Convalescent Hospital and the School for Crippled Children.

The club also provides two University scholarships for Westmount residents, of which 20 have been given to date.

Members of the Montreal Alouettes and Montreal Canadiens are expected to be on hand each night to great visitors to the carnival. Some 30 booths are expected to be available to test luck and skill.

Pupils' Carnival Is Exciting Event At St. Georges

Great excitement prevailed at St. George's School, Westmount, last Thursday, when the Children's Campaign Carnival, organized by the pupils to help the school building fund, got under way.

Booths were set up to cater to ring tossing competition, real rabbits being offered as prizes to the winners. There was a fish pond, as well as a country-style store. Banners, painted and patched by the pupils, proclaimed the purposes of the various booths.

A noisy, colorful realism was given the scene by a multitude of balloons, streamers, hand-made games equipment, and makeshift but amenable rails and tables. Grown-ups and children alike revelled in the atmosphere of carnival-time they had so effectively created.

The children — three to 15 years old — participated with the help and financial assistance of parents and friends. Jacqueline Ritchie carried off the carnival prize of a pure bred registered Samoyed puppy and might well have been the happiest of the young gathering.

Miss Agnes Matthews, principal of St. George's, felt the building fund was sure to benefit.

Christianity Of Christ Answer To Human Problems

Nothing but Christ's Christianity can supply the answer to the tremendously challenging problems facing humanity. The Christian Science board of directors said this week.

"The world needs the Science of Christianity as it has never needed it before," the Directors declared in a special statement.

Thousands of Christian Scientists from many parts of the world heard the Directors' message at the annual meeting of The Mother Church, The First

Church of Christ, Scientist, in Boston, Massachusetts.

Taking note of the significant changes taking place in the world, the directors said: "With the breaking of the barriers of time and space the mental outlook of men stands out in increasingly sharp relief, revealing an unprecedented clashing of ideologies."

"Materia medica is more and more tracing physical effects to mental causes. The churches are reaching out for spiritual healing."

Application of the healing power of the Christ, Truth, demands individual consecration, the Directors emphasized.

"We need to retain the spirit of the sturdy pioneer, to guard against apathy, superficiality, and the intoxication of ease in matter," they stated.

Their message, read by Theodore Wallach, retiring First Reader of The Mother Church, highlighted a session at which progress was reported on the far-flung activities of the denomination which now has branches in some 48 countries.

In his keynote address Clifford A. Woodard of Cambridge, Mass., Christian Science practitioner and incoming president of The Mother Church, underscored the vital role of practical Christianity today. "Humanity," he said, "sorely needs our prayers and all the help that Christian Science can give to solve the world's troubles and problems."

"What," he added, "can melt away the evils of a 'cold war' but the warmth of affections enriched by the Word of God? What can still the ambition to rule the whole world but the realization that, as the Psalmist assures us (Ps. 62:11), 'Power belongeth unto God', and (Ps. 103:19), 'His kingdom ruleth over all'?"

The audience filled three auditoriums in The Mother Church edifices as well as a nearby theatre. Adherents travelled from every state in the union and from Europe, Asia, Australia, and many other distant points to attend.

Growing interest in spiritual healing as a result of the television and radio series "How Christian Science Heals" was reported by a number of key officials, including Roy Garrett Watson, treasurer, and Gordon V. Comer, clerk.

Will B. Davis, manager of committees on publication said: "The response has been most gratifying. We are receiving reports of increased church and lecture attendance and increased use of our free Reading Rooms."

Nearly 200 television stations in the United States and Canada have carried the filmed Christian Science TV programs, Mr. Davis reported. Radio programs in the series, he added, will continue to be broadcast by more than 800 stations throughout the world.

Refugees have always shared CARE distributions overseas, Mr. Courian explained, but the current drive will permit concentrated assistance and represents CARE's greatest single effort toward helping the world's unprecedented refugee population. An estimated 5 million refugees are destitute, he stated. The figure represents the case load of governmental and voluntary agencies.

Contributions in any amount sent to "Refugee Campaign", CARE of Canada, Ottawa, Ontario, will be allocated towards more than 20 types of parcels. Depending upon local requirements, these range from \$1 units of food to \$6 and \$10 textile packages and \$90 sewing machines to turn the fabrics into clothing.

Walker, Fiset Are Named To Canada's History Unit

The addition of two members to the Historic Sites and Monuments Board of Canada was announced last week by Hon. Jean Lesage, Minister of Northern Affairs and National Resources. H. J. W. Walker, of Ottawa, an editor with the Canadian Department of Labour, and Edouard Fiset, of Quebec City, an architect and town planner, were appointed as board members. Mr. Fiset will represent the Province of Quebec on the board while Mr. Walker will be an Ontario representative. The new appointments bring the Board's membership to 14.

Mr. Lesage said the increased membership was a result of a recent Act amending the Historic Sites and Monuments Act. "As Historian of the Ottawa Valley Historical Society, Mr. Walker has a fund of knowledge of local history," Mr. Lesage said. "For his part, Mr. Fiset's qualifications as an architect will also be useful to the board, because of the recent change in the Act. This change enlarges the definition of 'historic places' to include buildings of national interest because of age or architecture. I have pleasure in welcoming to the board both Mr. Walker and Mr. Fiset."

Mr. Fiset is a member of the Royal Architectural Institute of Canada, the Societe des architectes diplomes du Gouvernement francais, and the Institute of Professional Town Planners. He was co-director of the National Capital Planning Service from 1945 to 1951. During this time he was one of the principal Canadian associates of Jacques Greber in the preparation of the Master Plan for the development of the national capital. In 1951, he became town planning consultant to the Municipality of Baie Comeau on the lower St. Lawrence and, in collaboration with Mr. Greber, to the City of Quebec. Mr. Fiset still serves as a consultant to the National Capital Planning Service. He helped design the plan for the new Laval University at Quebec City and advised on the development of its buildings and facilities. He also was consulted on the rebuilding of Rimouski after the fire which destroyed the city in May, 1950.

Mr. Walker was born in Madras, India, where his father was

Parliamentary Press Gallery. He then edited The Renfrew Journal and in 1915 enlisted in the Canadian Army. He served throughout the first Great War as a gunner with the Queen's University Field Battery of the Artillery. In 1919 he entered government service specializing in editorial and industrial research work. Mr. Walker has been editor of the monthly Department of Labour publication, the Labour Gazette, since 1936. He lives with his wife and son, David, at 87 Findlay Avenue.

Mr. Walker has conducted research into the history of the Ottawa River country for more than 20 years. He writes newspaper and magazine articles on the history of the Ottawa and St. Lawrence Rivers. He is the author of "The Story of Ottawa" published in 1952.

Professor Fred Landon, of London, Ontario, is chairman of the board.

Gay Geraniums Stage Come-Back As House Plants

"Geraniums are coming back into popularity, and high on the list of today's favorites are the fancy-leaved varieties." The authority for the state-

ment is the American Home Magazine. In the current issue the editors show forty-two different kinds (or varieties) in an article called fancy-leaved geraniums.

Probably geraniums are becoming so popular because today's larger windows and better-lighted homes make it easier to

grow them. Or perhaps it's because they are so well suited to new terraces and patios, or because their leaves are so brilliantly or subtly colored and have such interesting shapes.

Montreal Day Nursery Playground Affords Children Amusement

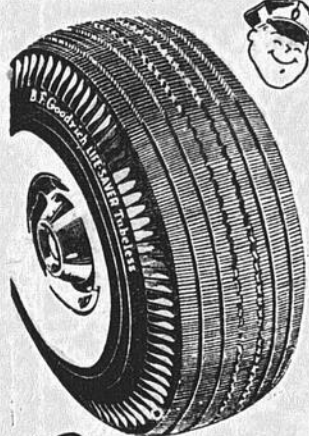

Last year's submarine has been converted into this year's space ship on the playground of the Montreal Day Nursery. Originally it was a conventional oil drum, retrieved from its utilitarian purpose and made over into a plaything.

The space ship, opened on a tripod is the latest addition to the play area, which has been a proving ground for unusual equipment designed by the Montreal Parks and Playgrounds Association, a Red Feather service, as is the Day Nursery. Modern toy design is getting away from the rigid forms of one-activity toys and devising multi-use objects which stimulate children's imaginations. Captain William Bowie of the Parks and Playgrounds Association said. The new contrivances suggest countless possibilities to the children using them, depending on the game, the age or the mood of the moment. More often than not, the new equipment is improvised from "junk" material.

Already installed is a tunnel made of sections of sewer pipe and cemented in an irregular line, and a haphazard wall built of concrete blocks. A log of wood has been carved into an alligator shape and a collapsible "Wendy House" shelters an endless list of spur-of-the-moment projects. The new equipment shares playground space with conventional swings, slides and a jungle gym, all proportioned to the two to six-year-olds who are cared for at the Day Nursery.

Parliament

By Rev. Canon R. K. Naylor
Rector, Trinity Memorial Church

There is something ominous in the events of the past week in the House of Commons — events which indicate a breakdown in parliamentary government. Looking at the matter purely from the point of view of newspaper reports it would seem that there have been faults on both sides of the dispute. On the one side there was the announced determination by the one party to force a certain measure through at any cost, even at the risk of limiting rightful debate. It is practically a resort to force rather than argument. That is the road to Cabinet government and dictatorship. On the other side there was the equal determination to block the legislation, partly because the checking of the Government would increase the prestige of the Opposition. In the debate the Opposition probably scored more points, because, as far as one could judge, it struck strictly to parliamentary procedure, while the Government applied the force of an obedient party.

In the long run there are two sufferers from such a situation. The first is the country. There is imposed upon it a legislation which has not been debated on its merits. The legislation may be good but it has been forced through rather than argued through. The second sufferer is Parliament itself.

We have a party system in which the majority group is Her Majesty's Government, and the largest minority group is Her Majesty's Loyal Opposition. The leader of the Opposition is paid a special salary in recognition of his necessary place in a democratic society.

On a measure introduced by the Government members will almost invariably vote as the heads of the parties dictate. At that point parliamentary government becomes Cabinet government. And it is just at that point that the fullest debate must be allowed, not because the opposing parties are going to be affected, but because public opinion is roused and educated. That public opinion is as necessary to the Government as to the Opposition, for a party which makes itself unpopular by gagging debate has to answer presently at the polls.

The fact of the matter is that within a democratic State there are certain limits in action and debate. All parties in Parliament live within a democratic framework. We are not a totalitarian State, with Fascism and Communism struggling for absolute

power, each claiming to have complete right on its side. The essence of democracy is to be able to admit that the other party is equally loyal to the Queen and to the State. And no party should allow itself to be forced into a position where it seems to claim all the rights because it has all the power.

Nearly New Shop Sale Proceeds Aid Hospitals

The Nearly New Shop, 1212 University St., is holding its annual clearance sale next week, starting Monday, June 11, through Friday, June 15. Most of the stock has been reduced, and this is a wonderful opportunity to pick up glassware, lamps, silver, brass, knick-knacks etc. at exceptionally low prices.

There will be some very good bargains to be had in furniture, occasional tables, beds, dining room furniture and any number of pieces which would be ideal for a country cottage. There are also some excellent buys in jewelry, and as always, some rare and antique "collector's items".

The Nearly New is staffed and operated by volunteers of the Women's Auxiliaries of the Royal Victoria and Montreal Children's Hospitals and the proceeds divided equally between the two hospitals for their social service and welfare projects. All the merchandise in the Shop is made up of donations, hence the low prices at which the stock can be marked. The Shop will close on June 15, to reopen again early in September.

S.A. Campaign Officials Are Grateful To Public For Generous Support

The final results of the 1956 RED SHIELD CAMPAIGN show a total of \$255,933 collected or pledged. This figure includes an estimate of the amount to be received from those subscribers whose cards have not yet been returned, but from whom they are confident of support.

The objective of the Campaign was \$211,000.00 which represented the minimum requirement for maintenance of the Army's current work. It was hoped to secure, in addition, a surplus to meet preliminary outlays in connection with the move of the Men's Hostel from its present cramped and inefficient quarters, to a suitable building in a proper location, giving adequate scope to this important branch of the Army's work. The Campaign provides some \$40,000.00 for this purpose.

The Eventide Home which was established with the proceeds of the 1954 Capital Campaign and opened in 1955, now is fully occupied and accommodates 120 of our elder citizens.

The success of the 1956 RED SHIELD CAMPAIGN resulted from the broad and generous support of the general public, whose confidence in the Salvation Army has never been more strikingly demonstrated. It would, however, have been impossible without the splendid teamwork on the part of all Campaign of-

Israel Bond Organization Present Mrs. S. Bronfman With Trustee Pin

Mrs. Samuel Bronfman, O.B.E., who recently returned from a visit to the State of Israel, was presented with a Trustee Pin marking her as the first Canadian woman to receive this recognition by the State of Israel Bond Organization. The ceremony took place at the Consulate-General of Israel, 1555 McGregor Street, when Dr. Sarah Gaulan, wife of the Consul-General was hostess at a Tea in honour of Mrs. Samuel Bronfman.

In accepting this insignia, Mrs. Bronfman referred to the outstanding work being done in Israel with funds derived from the sale of Israel Bonds in Canada. She discussed the villages and various settlements which she had visited and where

she saw new housing projects and industrial centres financed with Israel Bond dollars. Mrs. Bronfman also talked about the problems of resettling the Moroccan Jews in Israel and described the new villages being set up to receive these tens of thousands of immigrants. In spite of the present difficulties in the Middle East, the people

Madame Michael S. Comay, wife of Israel's Ambassador to Canada, said that the State of Israel now depends upon the Jews of the western world to provide funds for her economic stabilization. The Jews of Israel do not want war, Madame Comay said, and it is up to the rest of the world to help guarantee peace in the Middle East.

Madame Comay presented Sponsor Pins to almost 100 women who enrolled as Sponsors of Israel Bonds for 1956.

Dr. Sarah Gaulan welcomed the guests to the Consulate.

Mrs. Philip Joseph, Chairman of the Sponsor Program, was praised for her outstanding efforts in bringing the first phase of the project to this high point of achievement. Mrs. Anna Raginsky, Chairman of the Women's Division of the Montreal Israel Bond Drive, expressed thanks to Madame Comay for having participated in the ceremony of handing out Sponsor Pins, to Dr. Gaulan for her hospitality and to Mrs. Bronfman for her role in the program. Braves Capture Cage Championship At Unity Club

Ian McIntosh's Braves defeated Jack Bleakley's Ramblers 83-58 in a sudden death basketball game for the Unity Boys' Club Senior House League Basketball Title.

From the opening whistle the Braves took a commanding first quarter lead and at the half were sporting a 43-34 lead. The Braves maintained that lead until the end of the game was finished and won the championship 83 to 58.

Little League

The Orioles climaxed an uphill fight in the bottom of the sixth by scoring the tying and winning run for 9-8 victory over Indians Thursday.

With Forbes and Servant on base via a fielder's choice and a base on balls, Ray Mader brought them across the plate with a two-base blow. At one stage in the game the winners trailed by a 7-0 margin, the result of a series of untimely errors.

Howard Blanchette took credit for the victory tossing a four-hitter, striking out nine batters and issuing four walks. Allan Ross was equally effective for the Orioles giving up four safeties and whiffing 10 batters. Indians 023 022-9 4 4 0

3 Teams Win Tilts In Intermediate Play

Three games were reeled off during the week in the Westend Intermediate Fastball League, with three different winners.

Prudential and Mitchell Houghton each split a pair, while MacRae Electric won their sole engagement, as the league began to come around to regular action.

After copping the opening tilt last week over Notre Dame des Neiges 10-0, the Prudential crew made it two in a row last Thursday thrashing Mitchell 10-1, behind Yves Valois' six hitter. Ernie Lott took the loss. Valois aided his own cause with a grand slam homer.

Tuesday MacRae made their opening a successful one by edging Prudential 2-1, with Sonny Smith receiving credit for the victory. Valois was the loser this time, giving up five bingles while Smith yielded three.

In another Tuesday tilt, Mit-

chell won their first tilt by edging Notre Dame 7-6. Red Davis picked up credit for the win, relieving Bernie Smith in the fourth when Notre Dame erupted for six markers.

Mitchell got those back in the bottom of the inning, and added to a second inning tally that's the way the score stood. Mike Saucier was the big gun for the winners, with two doubles in two official trips.

The Mitchell Houghton team has taken over sponsorship of Trenholme, with Jim McWilliams remaining as manager. Ross Murray has taken over as manager of MacRae.

Tuesday, Notre Dame face MacRae at Westmount 1, while Prudential hook up at NDG. Starting times are 7 p.m.

Michael Dickow Tops YMCA Swimmers In Swim Contest

Michael Dickow leads the boy swimmers with 1,125 points as the Carnival Spin and Swim Contest continues at Westmount YMCA pool.

Peter MacGregor is runnerup with 850 points and is followed by Allan Gilmore and Pat Keyes with totals of 790 and 738 respectively.

Anne MacGregor with 1060 holds first place among the girl swimmers. Second is Carmen Camille with 600 points, in third place Sheila Macdonald 575 points, and fourth Maureen Atwood with 525 points.

The Swim Carnival will continue for two more weeks, when the twelve high scoring swimmers will be presented with attractive crests.

The swimmers draw their events each day by spinning a "wheel of fortune" in the swimming pool. Each event is valued in points based on the difficulty of the event. In the three weeks of the contest a swimmer may have 10 chances to spin the wheel and to swim to build up his point score.

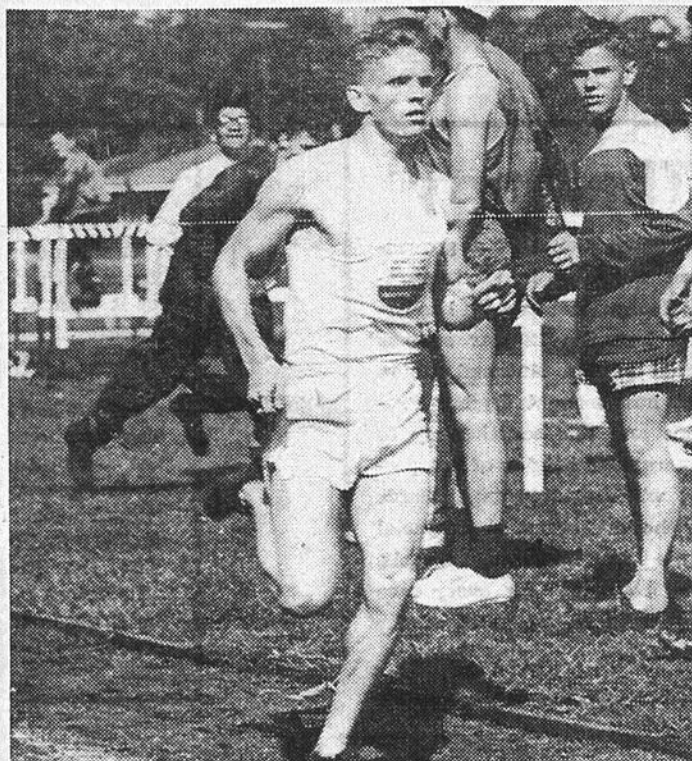

The most popular event is number 13, the mile swim which scores 700 points. Although a number of swimmers have drawn this event only two, Allan Gilmore and Michael Dickow, are the only swimmers who have been able to complete this event to date.

Men's Swim Classes Are Popular At 'Y'

The Issue

Graham Gould is one who believes, with the Montreal Star, as it said in its lead editorial recently: "The province is prosperous . . . even more prosperous than it was four years ago when the last voting took place. The question to be decided by the electorate is simply whether the government has administered the affairs soundly, thriftily and progressively . . ." And, the Star concludes . . . "the voters in the long run, prefer the man with a sense of responsibility".
