CELEBRATION
BY THE
CITIZENS OF MONTREAL
OF THE
GRAND TRUNK RAILWAY,
THROUGH FROM
MONTREAL TO STRATFORD.

THE BEGINNING OF THE GRAND TRUNK.

The germ of the present great system of Canadian Railways,—extending by its two western branches from Stratford and Windsor to Toronto, and thence to Island Pond on the frontier of New Hampshire; having also an arm projected beyond the line to the seaport city of Portland; another from the River St. Francis to Quebec; a third from Prescott to Ottawa; and a fourth from Toronto to Collingwood; with other less considerable feeders on different points of the main route,—may be found in the two lines of road, once known as the St. Lawrence & Atlantic and the Atlantic & St. Lawrence Railways. The first idea of this latter enterprise, at least so far as the people of Montreal are concerned, arose out of a mission of the Hon. Judge Preble, of Portland, from the citizens of that place, to the citizens of Montreal. The learned Judge arrived in Montreal in the autumn of the year 1844. He delivered a lecture upon the project which led to his visit; but either because very little interest was excited, or because Montreal then possessed none of the accommodation, now so plentiful, for public meetings, the place chosen was the dark, low-roofed basement story of the Independent Church at the end of the Champ de Mars. The record of Judge Preble's address is preserved in the columns of the Montreal *Herald*—the only paper, if we recollect rightly, whose conductors thought the matter worthy of any considerable trouble; and the same hand which penned that report, now writes of the perfection and realization of the most extensive plans which were unfolded on that occasion. The audience in the basement story answered in paucity of numbers to the narrowness of the apartment selected for their meeting. Yet the enterprize of those few men laid the foundation of the immense work which we hail to day.

THE PORTLAND ROAD.

The gentlemen who had met in the basement story resolved to build the Railroad. They accordingly went to work, and after some preliminaries, called a public meeting on the Champ de Mars. All the latent enthusiasm of the masses was excited by music, flags, speeches, and after seat had been thus infused, a subscription list was opened. It amounted to £374,650. Part of the subscription was contingent from the first upon the road being constructed in a particular direction. Another part was subscribed in London, and subsequently withdrawn, so that the whole available subscription for stock never amounted to more than £238,000, which was not sufficient to complete the road with its Stations from Longueil to St. Hyacinthe. That was the capital on which the existing Grand Trunk Railway was begun. We need not here recapitulate the troubles of the early days of the St. Lawrence and Atlantic Railway, under the Presidentships of the Hon. George Moffatt, N. A. Morin, and Mr. Alex. Tait.

We merely recall the lines:—

"Such pains it cost to build Imperial Rome,"

and pass on to the several steps of advance:—

The Road from Longueuil to St. Hyacinthe, was opened 27th Dec., 1848; from St. Hyacinthe to Richmond, 15th Oct., 1851; from Richmond to Sherbrooke, 17th Sept., 1852; from Sherbrooke to Island Pond, 11th July, 1853.

OTHER LINES IN THE CHAIN.

In the meantime, the Great Western Road had been begun, and it was opened through out in the Spring of 1854. Steps had, also, been taken towards the commencement of lines between Hamilton and Toronto; Toronto and Guelph, Prescott and Ottawa, Toronto and Lake Simcoe, Quebec and Richmond, and some smaller subsidiary roads.

Farseeing men, too, had already determined that, when railroads were extended on the one hand from the River St. Clare to Montreal, and on the other from Montreal to Portland, a bridge over the St. Lawrence would be necessary to connect the two portions of the great whole. The St. Lawrence had, therefore, been surveyed by Mr. Keefer, for a bridge between Point St. Charles and St. Lambert, and the possibility of such a structure scientifically demonstrated.

THE GRAND TRUNK PROPER.

In this state of things, the body of proprietors, now known as the Grand Trunk Company, came into the field. This is not the place to recall any differences of opinion, well or ill-founded, entirely passed by, or having still a living interest. It is sufficient here to record the fact, that after a struggle in which many different opinions, representing to some extent, different interests, strove for the mastery, an arrangement was arrived at, which had the tacit assent, if not active approval, of all parties concerned. The result was the amalgamation of the entire road from Island Pond to Guelph, with the branch from Quebec to Richmond, in one property, owned by one Company; and in the leasing of the extension of the road from Island Pond to the sea, by the same body. It was also part of the compromise which arose out of the opposition made to Mr. Hinck's plan, that the Victoria Bridge should form a portion of the road to be built. The estimated cost of the whole road was some $41,000,000; that of the bridge, $7,500,000.

Messrs. Brassey, Peto & Co., began their operations in the Autumn of 1853. Messrs. Gzowski & Co. broke ground for the section between Toronto and Guelph at about the same period.

The road from Montreal to Brockville was opened for traffic on the 19th November, 1856

The first stone of the No. 1 Pier of the Victoria Bridge was laid 22nd July, 1854.

The first Pier was completed in 1854, in time to be out of all danger from the ice.

The first Train was run through from Montreal to Toronto, completing the road on the North side of the St. Lawrence, on 27th Oct., 1856.

The other roads which we have mentioned, together with the Cobourg and Peterboro' Railway, had been completed and opened for traffic in the meantime.

Quebec and St. Thomas branch of G. T. | 49
| 486
Making a total of | 1306

The total cost of the whole may be assumed to be $70,000,000.

PRESENT STATE OF THE WORKS AT THE BRIDGE.

The following, taken from the Montreal Herald of Oct. 10th, may be taken to describe the position of the work at the close of the season:

Passing from the sheds to the bridge we found the outer walls of the abutment on the north side completed, and most of the arches which close the top, and will support the roadway, already turned. The mass of material here is immense; and, placed as it is, it promises to defy any element of destruction short of an earthquake. On the lower side of it is a wharf which runs out from the bank into fourteen feet of water. There will be ample draught of water from the harbor to this pier for the passage of vessels drawing ten or eleven feet of water, so that small sea-going vessels will probably be able to load or discharge close to the bridge.—Hereafter, perhaps, larger designs may be carried out; but this jetty is a commencement. It projects at present beyond the second pier from the north side.

The piers already undertaken are nine in number, and they will be all finished complete before the bad season sets in. Two of them are on the south side of the river. The appearance of these piers are quite familiar to our citizens; but for strangers it may be well to say that they are constructed with a straight plain face on the sides and lower end, and that the upper end is in a wedge-like form, for the purpose of breaking the ice. The laying of the tubular girders will commence at a very early day. This will be done by suspending a scaffolding from the top of the piers and the abutments, so as to have a level line for about the first 60 feet of the permanent road-way. By means of this scaffolding, the tubes will be passed to their destined positions.

PREPARATIONS FOR THE CELEBRATION.

As soon as the authorities of the Grand Trunk Company were able to announce the day upon which they would be prepared formally to open the road, a wish began to be felt generally among the citizens of Montreal, that their city, being the most considerable on the route, should endeavor to celebrate the occasion in a fitting manner. For many reasons, the initiation of this movement seemed most properly to belong to the mercantile body. Accordingly, the Board of Trade took up the subject, and directed its President to call a meeting of the Board to consult upon the necessary steps to forward this object. From accidental causes the first meeting proved a failure—a failure which seems to have been very strangely regarded as matter of triumph by some malevolent persons, who forthwith concluded, as a single individual appeared at the intended meeting, and he the President of the Board of Trade, and especially as he happened to have built some miles of railway, that the public of Montreal were led as far astray from an appreciation of their interests, as passion and vanity had led those persons wide of the path of common sense. The meeting of one, however, was speedily followed by a more numerous assembly, which fully vindicated that character for public spirit which has ever marked our citizens. On the , a meeting was held, at which members of nearly all the leading wholesale mercantile firms were present, together with many gentlemen engaged in mechanical, manufacturing, and professional pursuits, and proprietors. On this occasion, the following resolutions were passed:

Moved by Hugh Allen, Esq., seconded by Thomas Cramp, Esq.:—That the approaching completion and opening of the Grand Trunk Railroad is an event of the greatest commercial and social importance to the whole country, and that a suitable public demonstration should be made on the occasion by the citizens of Montreal.

Moved by the Hon. Mr. Justice Gale, seconded by the Hon. George Moffatt:—That the following gentlemen be appointed a committee to ascertain the practicability of carrying out, and to take such steps as may seem advisable to promote the object in view.

The names of this committee, and those subsequently added, will be found elsewhere.

£2500 were subscribed before the meeting separated.

THE MONTREAL HERALD

WEDNESDAY MORNING, NOV. 12, 1856.

MONTREAL IN THE OLDEN TIME.—We give in another place some chapters on ancient Montreal, its appearance, its people, its customs, and its laws, which we hope may be found interesting when contrasted with the present aspect and customs of the city. For many of the extracts contained in this compilation, and especially for the quaint little wood-cut which makes a chapter by itself, we are indebted to the kindness of Frederick Griffin, Esq., whose library is particularly rich in literature relating to the early times of the American colonies, particularly of Canada. The wood-cut shows the appearance of the city about the year 1761, soon after the flag which waves so conspicuously from the citadel was hoisted there. The fires, however, which, as it appears from one of our extracts from the book of an anonymous author, had even then made Montreal celebrated, soon effaced the bad-marks. We have shown the print to some of the oldest of our present inhabitants, and we find that they can make out nothing but the Citadel, the French Church —with one spire—and the little bridge on the left hand side of the cut. The bridge went over the Little River now converted into a sewer, which still enters the river at Pointe-à-Callieres, though its subterranean presence does not attract much attention at present. The little bridge was called Franchere's Bridge. The walls which so grimly frown with black artillery on the peaceful looking river below them were effaced in 1811, as is duly noted in our extract from Christie's history. The *Chemin de la Ronde* outside of them is very plain between them and the water, though there appears some discrepancy in the height of the land, unless the walls served to make the bank as the wall below Common Street does at present, in which case the *Chemin de la Ronde* would be represented by the lower platform which now forms the quay. The high mound on which the Citadel stands in the picture was on the site of the present Dalhousie Square, and was levelled at the same time as the fortifications.

This Pointe-à-Callières was, no doubt, the place mentioned in Champlain's account as the site of the establishment which he founded, and which, he says, might be surrounded with water. The little river going towards the Iroquois river, by which the savages went to war, is, doubtless, the river St. Pierre, probably at that time much deeper than at present. As to that famous fruit, as white as snow and of a sugary flavour, which the voyager found on the island, we give full permission to every one to decide according to his own taste what it might be.

HIS EXCELLENCY THE GOVERNOR GENERAL.—Yesterday evening, about half-past six o'clock, His Excellency the Governor General and Lady Head, accompanied by Lieutenant Douglass, A. D. C., and R. T. Pennefather, Esq., secretary, arrived at the depot of the Grand Trunk Railway, Point St. Charles.

His Excellency was received at the station by His Worship the Mayor, Lieut. Col. Ermatinger, Col. David, and Charles J. Coursol, Esq., Inspector and Superintendent of Police.

A guard of honor of the Grenadier Company of the 39th Regiment, under Major Leckie, with the Queen's colour, was in waiting at the station to receive His Excellency.

Shortly after their arrival His Excellency and Lady Head entered the Mayor's carriage, and drove off to the residence of Dr. Fulford, Anglican Bishop of Montreal, escorted by Capt. Coursol's troop of Volunteer Cavalry, under Ensign Desrivieres.

His Excellency, Lady Head, and suite, dined yesterday evening with Lieut. General Sir William Eyre, K. C. B.

We understand that His Excellency leaves Montreal at the end of the week for Toronto.

His Excellency's suite are staying at the St. Lawrence Hall.

ARRIVAL.—The Roman Catholic Bishop of Portland has arrived at the Donegana.

The Superior of the Seminary, Rev. Messire Granet, has kindly consented that the left tower of the Parish Church shall be open to the public, gratis, from 9 a. m., to 4 p. m., during the two days of the Celebration. This intimation was conveyed to a member of the Committee by his Secretary.

THE WINE FOR THE BANQUET. — We have already sampled of some of the Jules Mumm & Co's champagne, which the Tasting Committee have selected for the banquet to-day. We have no doubt that the feast of reason and the flow of soul will add to the zest even of this delicious brand; but if we had to pick out the real nectar, we think we should go no further for our selection. Mr. H. Chapman is the agent.

A GREAT CROWD.—The Theatre Royal was thronged last night with the American and Canadian visitors to see Andrieu's Great Works. Andrieu's Exhibition is one of the attractive features of the day—and there is no more fit place than the Theatre Royal to spend an evening.

CAB ACCIDENT.—Yesterday afternoon as a cab, containing four persons was leaving the wharf of the Grand Trunk, it came in contact with the railing, when it was immediately upset; fortunately those inside received no injury.

☞ Press of advertisements compels us to leave out a report of Mr. McGee's Lecture.

MERCANTILE LIBRARY.—We were in error yesterday in saying this Society offered house-room. It was the use of their Library.

ROUTE OF PROCESSION.

Form in Commissioners Square, McGill and Craig Streets, at 8 o'clock, A.M. File through Great St. James Street round the Place d'Armes, through Notre Dame Street to Dalhousie Square, down St. Paul Street to Jacques Cartier Square, into Commissioners Street to McGill Street, up McGill to St. Joseph, through St. Joseph to Mountain, up Mountain to Antoine Street, down St. Antoine Street to Commissioners Square; and discharge through Craig Street.

THE DINNER.

On the same day the Banquet will take place in one of the Buildings of the Grand Trunk Company at Point St. Charles. The time fixed is 2 o'clock.

THE TORCHLIGHT PROCESSION AND FIREWORKS.

This Procession will be under the command of Capt. Bertram, Chief Engineer of the Fire Department.

The Procession will form in Dalhousie Square, at Seven o'clock, and proceed along Notre Dame Street to Place d'Armes, along Great St. James Street, and through the Hay Market to Craig Street; thence up St. Antoine Street, past the Residence of His Worship the Mayor, up Guy Street, returning along Dorchester Street to Mountain Street and St. Catherine Street; halting, and forming in one line opposite the Reservoir, where it will remain till the Fireworks are discharged. Re-forming, will proceed through Beaver Hall to the Hay Market to foot of McGill Street, where it will disperse.

The Fireworks on this evening, will, we understand consist of little more than a series of heavy explosions—a kind of supplement thrown into their bargan by Messrs. Hovey & Co.

THURSDAY.

THE EXCURSION BY WATER.

Steamers will leave the Island Wharf at nine o'clock precisely. Those desirous of examining the Works, Work-Shops and Buildings at Point St. Charles—for which every facility will be offered by the Officers of the Grand Trunk Company, and the Contractors—are advised to go at this hour.

Bands of Music will accompany.

Steamers will again leave the same place at half-past nine o'clock, to convey His Worship the Mayor and Corporation. Those who prefer may wait for this Trip. Tickets to be retained, but shown when going on board.

On arrival of the Mayor and Corporation at Point St. Charles, a Train of Cars will be in readiness to convey them, and those who wish to join, to the Wheel-House of the Water Works.

The Party will remain there for three quarters of an hour, and return on the Cars, to the Steamers, so as to arrive back in the City before noon.

Persons without Tickets are requested not to enter the Cars, nor attempt going on board the Steamers.

A Procession, headed by the Mayor and Corporation, will proceed from the Landing Wharf to Commissioner Square, where the Opening of the Montreal Water Works will be celebrated at noon.

INAUGURATION OF THE WATER WORKS.

This will consist of the setting in motion o the Fountain erected in the Haymarket Square.

THE REVIEW.

It is, we understand, intended to have a Review of Her Majesty's 39th Regiment, and some of the corps of Citizen soldiers, at 2 o'clock on this day. The 39th Regiment will troop the colors.

THE BALL.

The Ball takes place in the evening at the City Concert Rooms, from the windows of which there will be a good view of

THE FIREWORKS

On this evening will commence at 9 o'clock by a grand discharge of Rockets of various garnitures, and be followed by the following demonstration:—

1. Salute of Floral Shells—Bursting at an altitude of several hundred feet, displaying clusters of Colored Stars, Showers of Gold Rain, &c.
2. Grand Flight of Rockets—Consisting of a simultaneous discharge of numerous Rockets.
3. Illumination of Bengal Lights—Changing to beautiful Crimson Fires. Discharge of Rockets with White Stars.
4. Cross of Malta—Commencing with a vertical wheel of brilliant fires, decorated with crimson and green, changing to a splendid Cross of Malta, ending with reports. Discharge of Rockets with Gold Rain.
5. Palm Trees—Changing from a base of three revolving wheels to three beautiful Palm Trees, filling the air with stars of various colors. Discharge of Tourbillions.
6. Morning Glory—Composed of large revolving wheels, mingling in their evolutions with colored reflections of crimson and green, forming a gorgeous changing piece. Discharge of Rockets with Serpents.
7. The Mechanic's Arm—(Dedicated to the Mechanics' Institute)—Composed of lance work, showing the uplifted arm, hammer, &c., decorated with a beautiful green wreath in imitation of nature. Discharge of Rockets with Streamers.
8. Telegraph Illustrations—Pigeons or Courantines, traversing lines 300 feet from various points. Discharge of Parachute Rockets, suspending in the air beautiful Colored Stars.
9. Grand Battery—Composed of Roman Candles, filling the air with Stars of various colors, and terminating with a heavy explosion of Mines, discharging Serpents in every direction. Discharge of Tourbillions.
10. Gorgeous Ring Piece—Showing four beautiful revolving rings of various colors, filled with smaller rings, producing a magic effect. Discharge of Floral Shells.
11. Aurora—Commencing with a brilliant wheel, and mutating to a halo of Chinese Gerbs, decorated with crimson lights, representing the Morning Sun. Discharge of Rockets and Tourbillions.
12. Polka Piece—Mutating from a wheel of Crimson and Green to Double Contra Revolving Polkas, decorated with various colors. Discharge of Rockets.
13. Grand Battery of Shells—Of heavy explosions, producing a simultaneous discharge of numerous Shells, filling the air with serpents, gold rain, colored stars, &c., at an altitude of several hundred feet. Discharge of Tourbillions.
14. Peruvian Cross—Opening with a vertical wheel of splendid colors, mutating to brilliant diamond cross fires, decorated with colored lights, and ending with reports. Discharge of Shells.
15. Zania Peruvia—Commencing with a wheel of crimson and green, spreading to variegated Saxons and Chinese sun fires, forming the Flower of Peru. Discharge of Tourbillions.
16. Yew Tree—Mutating from a decorated wheel to Chinese Gerbs, forming a beautiful tree, and terminating with explosions. Discharge of Rockets.
17. Emblem of Union—A novel local design, representing the City Seal, showing in their appropriate colors the Rose, Shamrock, Thistle and Beaver, and flanked upon either side, enclosed in beautiful scroll work, the initials C. E. and C. W., emblematic of the union of Canada East and Canada West. The whole arched by the familiar motto, "Concordia Salus" in letters of fire, and surmounted by the English Crown. Discharge of Rockets.
18. Floral Pyramid—Changing from a revolving base to various colored revolving Saxons, forming a gorgeous Pyramid, decorated with colored revolving centre. Discharge of Rockets.
19. Display of Bengal Lights—Changing to colored illuminations.
20. Grande Finale,—Consisting of a magnificent Temple composed of three beautiful arches. The central arch bears the motto of "God Save the Queen;" and below glitters the Crown of England, studded with jewels. Beneath the arch upon the right is seen a Steamship, in Colored Fires, and upon the arch are the words, "Montreal Ocean Steamships." The arch upon the left bears the motto, "Success to G. T. R." and beneath is seen in Colored Fires, a Locomotive.

This elaborate design, emblematic of Loyalty, Commerce, and prosperity, will terminate amid the bursting of mines, candles, and flights of rockets.

DIED.

In this city, on the 9th instant, after a long illness, which she bore with Christian resignation, and calmly fell asleep in Jesus, Elizabeth Frances Short, a native of Clogher, County Tyrone, (Ireland), wife of Mr. Robert Barlow, Surveyor and Draughtsman, aged 40 years.

In this city, on the 11th November, after a lingering illness, which she bore with Christian fortitude, ELIZABETH JAMIESON, of North Ely, Eastern Townships, aged 21 years.

ARE YOU GETTING BALD? Is your head turning grey? Do you wish to cultivate good whiskers and moustaches? Your hair to be soft, silky and glossy? Your head to be cool, comfortable, and free from dandruff? Mothers! are your children to have luxurious heads of hair? Then use BOGLE'S HYPERION FLUID, which *never fails* in its unerring effects. Price 25 cts., 50 cents, 75 cents, and $1,50 per bottle. Bogle's Balm of Cytheria stands unrivalled for eradicating tan and pimples and beautifying the complexion. Price 50 cents. Inventor and proprietor, W. Bogle, Boston, and sold by druggists everywhere.

THIS OFFICE insures against Loss or Damage by Fire, all descriptions of Buildings, including Mills and Manufactories, and the Goods, Wares and Merchandize in the same; Ships in harbor or on stock; Craft on Navigable Rivers and Canals, and the Goods laden on the same; and Farming Stock of all descriptions.
The "Equitable" Fire Office will by a constant analysis of its own experience from time to time, adopt such rates of Premiums as the nature of their risk may justify.
With this view, an annual investigation will be made into each class of risk, and a return of one moiety—or fifty per cent—of the profit exacted will be made to all classes of insurers, whose Policies have been in force for three years.
The engagements of the Equitable are guaranteed by a responsible proprietary, and an ample subscribed Capital. The insured are free from the liabilities of a Mutual Insurance Society, and entitled, according to the plan of the Company, to a return of half the profits.
Losses are made good, without deduction or discount, and are adjusted and paid in Montreal, without reference to London.
☞ By a Resolution of the Court in London, PREMIUMS ARE RETAINED IN MONTREAL to pay Losses and ACCUMULATE a FUND of £10,000.

ALBION LIFE INSURANCE COMP'Y,
LONDON.
Established A.D. 1805.

THIS COMPANY has now been in successful operation for half a century, during which period the amounts paid to the families and representatives of Policy-holders have exceeded £1,700,000.
The conditions on which Insurances are granted by the Albion, offer important advantages to the assured; for which reference is requested to the prospectus.
The Profits are divided every Third Year, and may be made payable in Cash, or applied to the reduction of the Premium, or the increase of the sum insured, as may be chosen on effecting the insurance.
The amount returned in cash to each Policyholder who elected that mode of appropriating his share of the profits has exceeded a fifth of the total amount of premium paid. The bonus added to the sums insured has, of course, been of much larger amount.
☞ The Prospectus, with the rates of Premium, may be had on application.

GREAT BRITAIN
MUTUAL LIFE ASSURANCE SOCIETY OF LONDON.

THIS Society is established on the tried and approved principle of MUTUAL ASSURANCE. The Funds are accumulated for the exclusive benefit of the POLICY HOLDERS, under their own immediate superintendence and control. The PROFITS are DIVIDED ANNUALLY, and applied in reduction of the current Premiums.
The result of the present year's investigation into the state of the Society's affairs, at a General Meeting of the Members on 30th May last, was a reduction of 21½ per cent from the premiums payable during the year on policies of five or more years standing; an ample fund, amounting to over £113,000 having been reserved to provide for all outstanding liabilities, and maintain an equal extent of reduction at least on all similar policies in future years.
Credit given, if required, for half the amount of the first five annual premiums.

AYER'S
CHERRY PECTORAL,

FOR THE RAPID CURE OF
Colds, Coughs, and Hoarseness.

BRIMFIELD, MASS., 20th Dec., 1855.
DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. In constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M.D.

A. B. MORTLEY, Esq., of Utica, N.Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chief diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.
WILLIAM CONKLIN, M. D.

AMOS LEE, Esq., Monterey, Ia., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL, by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. HAYSEY, M.D., Agent, Monroe Co., Iowa, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

REV. ALVAN HOBBS, New York City, March 5, 1856
DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is now not as strong as she used to be, but is free from her cough, and calls herself well.
Yours with gratitude and respect,
ORLANDO SHELBY, of Shelbyville.

Consumption, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best practical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have confirmed the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—
Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best and there is for them, and they should have it.

Practical and Analytical Chemist, Lowell, Mass.

United States and British North American School Agency, and Teachers' Institute,
510 Broadway, opposite St. Nicholas Hotel,
NEW YORK.

FAMILIES and SCHOOLS in Canada will find this Institution a desirable medium for the purpose of obtaining TEACHERS well qualified to undertake the duties devolving on those to whom are entrusted the training of children. The Managing Proprietor will strictly investigate the moral as well as intellectual qualifications of each teacher, and recommend only those who are worthy the entire confidence of Parents and Principals. Teachers wishing to remove from Canada to the States can hear of vacancies through this Agency. All communications must be full and explicit, and will meet with immediate attention.

Musical Instruments, Books (English or American), Maps, Apparatus, &c., purchased and forwarded at a saving of about 20 per cent on Canadian prices. All orders must enclose a remittance or order on a responsible house in New York.
