This will be in connection with the forthcoming financial drive which is to be put on in October for the League, an invitation having been extended to Sir David to come here.

It will differ from other medical association meetings in that the programme is largely clinical, and held at the hospitals throughout the city. Because of this the attendance of the members of the college is strictly controlled and limited by registration, and admission to all sessions will be by ticket.

Advance reservations show that many of those who will attend will bring with them their wives and other members of their families.

France will send a high commissioner to Sevastopol.

The reasons were given by the Foreign Office for recognizing General Wrangle. The first was his promise to assume all the obligations of the former Russian Government.

The second was his promise to give Russia a democratic government. France notified Mr. Lloyd George yesterday of her action to this effect, it was stated.

The French Government likewise is notifying its commercial attaches in London to have no dealing with Leonid Krassin and Leo Kameneff, the Soviet emissaries in the British Capital.

Report Says Government Will Take Over Trade of "Hard Drinks."

(Associated Press Despatch)

#### MAY PROVE TO BE NUCLEUS OF CANADIAN NAVY

War Vessels Presented Canada to Arrive at Halifax Next Month.

(Associated Press Despatch)  
OTTAWA, Aug. 11.—The five war vessels presented by the British Government to Canada are expected to arrive in Halifax towards the end of September. The squadron will be headed by the oil burning cruiser Aurora, and will include two destroyers and two submarines.

From Halifax the ships will proceed to Quebec and Montreal, and the submarines may be taken through the St. Lawrence canals to the Great Lakes. It is possible, however, that the submarines may draw too much water to go further inland than Montreal. The ships will be kept a good deal of the time at sea, in order that their officers and crews may be thoroughly trained in their duties.

The squadron may prove to be the "nucleus of a Canadian navy," although the permanent naval policy will not be formulated until after the subject has been discussed at the Imperial conference in 1921.

The cruiser Aurora is an oil burner of modern design. The destroyers were constructed in 1917 and the submarines in 1918.

#### ONE KILLED WHEN THE MILITARY DISPERSED CROWDS AT DUBLIN IN A MANNIX DEMONSTRATION

Expecting Visit of Prelate, Bonfires and Singing Caused the Troops to Order Dispersal—Republicans Receive Threatening Missives—Letters Warn that Unless Police Boycott Ends, Sinn Feiners Will Be Dealt With by "Blackbird Gang"—Two Policemen Killed in Cork.

(Associated Press Despatch)  
DUBLIN, Aug. 11.—Demonstrations Monday night in honor of an expected visit of Archbishop Mannix, resulted in one civilian being shot and another wounded by the military.

After midnight, military patrols notified demonstrators in various sections, who were singing around the bon-fires that they must disperse in accordance with the curfew.

In most cases the parties left, but one crowd in the Capels street district remained. A military lorry arrived and ordered them to disperse. Just what followed is not clear, but the military fired a volley, killing the one civilian and wounding the other.

All the bon-fires were deserted by three o'clock, and the streets were quiet. Military patrols in armored cars with searchlights patrolled the city.

At the Dublin corporation meeting last night, it was announced that the Government has refused to pay grants amounting to £170,000 unless the corporation refused to recognize the "Dail Eireann" (Irish Republican Parliament.) It was stated that the immediate result of this refusal would be the shutting down of municipal institutions, including three hospitals.

(Associated Press Despatch)  
BOYET, Ireland, Aug. 11.—This town, which has been in the throes of a police boycott for the past fortnight, is greatly alarmed over a receipt from a mysterious source, by leading Sinn Feiners and Republicans who refused to serve in the constabulary, of threatening messages.

A typical specimen of these messages follows: "You were warned before to prepare for death but, considering your wife and helpless children, we have decided to give you a chance.

"Remember, if the boycott is not off by the 12th, your end will be sure and swift. Any injury to the police and their friends will be avenged ten fold.

(Signed) On behalf of the "Blackbird Gang."

One prominent Republican has been notified that he is condemned to death.

(Associated Press Despatch)  
TWO POLICEMEN KILLED AT CORK.  
CORK, Aug. 11.—In street fighting which occurred here on Monday night, two policemen were shot and killed.

(Associated Press Despatch)  
SYDNEY, N.S., Aug. 11.—Accidental death was the verdict returned by a coroner's jury which held an inquiry into the death of William Dumbell, a Russian, who was found literally cut to pieces in the Sydney and Louisburg yards here shortly after midnight yesterday. Dumbell was one of the men arrested some months ago in connection with the notorious Koval-Marinelli murder case. He was subsequently released, but appeared as a witness at the trial. Rumors were afloat to the effect that Dumbell had been merely the first of the victims of a feud growing out of the unpunished Marinelli murder, but those who were present at the inquest say there was the least testimony to support the theory that the deceased had been killed and then thrown on the tracks in front of a coal train.

### Teach the Children to Save

Habits are acquired early in life. Children, who are taught the value of money and the habit of saving, grow up into good business men and capable women.

The easiest way to teach children to save, is to start a Savings Account for each child (\$1.00 each is sufficient). After a child has saved another dollar to make an additional deposit, he or she will have a better appreciation of just what a dollar stands for, and how much work and self-denial it represents.

SILENCE WOULD BE INGRATITUDE SAYS LITTLE QUE, WOMAN

Received Such Wonderful Benefit from Tanlac She Wants Others to Know of It.

"I don't see how anyone could get the wonderful relief I have and keep silent about it," said Mrs. Leontine Que, of 852 Ethel St., Verdun, Que., while discussing her experience with Tanlac recently.

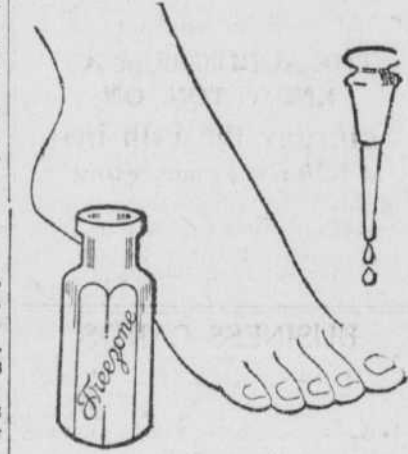

"About a year ago I had to undergo a serious operation, and while still weak from the results of the operation, was taken down with influenza. When I finally got up from this attack I was in a miserably run-down condition. I had lost all relish for food, so that even the dishes I had always liked best failed to tempt my appetite. When I did force myself to eat I always suffered, for I had sharp pains in the pit of my stomach, and gas formed which bloated me up so it almost cut off my breath. I suffered from constipation, and much of the time had a sharp pain in my side, and at night was often so racked with pain I lay awake for hours. I could never get any relief from these troubles, though I tried a number of different medicines.

"But that's all over now, and just two bottles of Tanlac have made all the difference. My appetite is just fine now, and I can eat three hearty meals a day and enjoy every mouthful and everything seems to agree with me perfectly. I can even eat meat, something I never dared touch before. I am no longer troubled with constipation, and the pains have left my back and sides. My sleep at night is sound and refreshing, and I always feel rested in the morning. I have gained several pounds in weight and there is all the difference in the world in my feelings. I give Tanlac all the credit for my restoration to health, and must say I think it's the grandest medicine I ever heard of."

Tanlac is sold in Sherbrooke by Griffith's Drug Store and A. E. DUBERGER under the personal direction of a special Tanlac representative. (Adv.)

Everything that medical skill and care could do was done by the loving parents to save their little one. The funeral took place on Monday last. "We salesmen who make our calls regardless of roads or weather, realize fully the importance of good fuel and good lubricants—and we know that we can get Imperial Polarine and Imperial Premier Gasoline everywhere and that if we use these products exclusively we may forget more than half the usual motor troubles."

## 365 Days a Year Service

ALL motorists, especially those who use their cars for business purposes, must have steady service. They soon learn that correct lubrication is vitally important to uninterrupted service and that Imperial Polarine gives adequate thorough lubrication.

Imperial Polarine keeps the engine running smoothly and quietly by establishing and maintaining a perfect piston-to-cylinder seal, which holds all the power of the fuel charge behind the piston.

Imperial Polarine thoroughly lubricates and cushions every rubbing surface with a wear-resisting oil film. When used exclusively breakdowns are infrequent, depreciation is low, fuel costs reduced.

One of the three grades described below is specially suited to your motor. Look for the Imperial Polarine Chart of Recommendations where you buy your oil and learn which grade to use.

Imperial Polarine is sold in one and four-gallon sealed cans, steel 12 1/2 gallon kegs, steel half-barrels and barrels, by dealers everywhere.

## AYER'S CLIFF HELD SUNDAY SCHOOL RALLY

Interesting Service Was Held—General News.

AYER'S CLIFF, Aug. 11.—On Sunday morning a Sunday School rally was held in the Congregational Church, and the service was given over to the young people and children. The classes and teachers marched into their seats singing "Onward Christian Soldiers." The church was filled to capacity, and decorated with beautiful flowers, house plants and ferns. An interesting programme was rendered.

On account of the absence of the Sunday School organist, Miss Frances Reynolds accompanied the school singing on the piano. The responsive reading was led by the superintendent, Mr. J. M. Elam. The pastor, Rev. Churchill Moore, acted as chairman and made brief remarks.

The following numbers were well rendered: Anthem by the choir, accompanied by Miss Rowell; "What News Have the Angels to Tell?", solo part by Mrs. F. A. Johnston; motion songs by four small girls; recitations by Arnold Waits, Muriel Elam, Flora McFadden, Marjorie Dustin, Eric Elam; motion song; "Flag Song" by Dorothy Fish, Mary Baldwin, Ruby Sutton, Kathleen Lorimer; solos by Miss Marjorie Woodard and by Miss Marion Anderson, "Lead Me to Jesus"; class recitation by ten girls, "The Master's Golden Flowers."

The collection at the service was for the benefit of the Sunday School and was a generous one, amounting to nearly eighty dollars.  
The programme closed with the singing of "Sunshine in My Soul."

In the evening the congregation was addressed by the Rev. S. Beers, of Boston, who delivered a stirring sermon. The music was excellent, and solos were sung by Miss Anderson, Mr. Robinson and Mrs. Fraye, of Coaticook.

### WHEN NATURE FAILS

—AN ELECTRIC FAN WILL SUPPLY THE BREEZE

Nature too often fails to supply cool comforting breezes on hot summer days and nights—but an Electric Fan will take the place of nature and bring you bodily ease and comfort.

In city office or dwelling, natural, soft, cooling breezes can be had by using an Electric Fan, and intolerable, muggy days will pass unnoticed.

In the country, when not a leaf is stirring, an Electric Fan will bring relief after a tiring day in town. It can be used anywhere—inside the house, on the verandah or on the lawn.

Electric Fans are the universal summer comforters for town or country—have your home equipped to supply your own breezes.

FIRE CAUSED BY OILSTOVE. Central Station responded to the phone call and in a short time the blaze was under control. The property is owned by Mr. P. H. Dubuc.

GETTING BACK TO NORMAL. The city heaved a sigh of relief at the appearance of rain on Monday night, but which ultimately proved to be "only an aggravation," for a time at least, for the cooling-off process was impeded by the humidity, which has been intense during the past four or five days.

A slight breeze on Monday gave the impression that Sunday was the hottest day of the season, but Sunday's temperature was outside by two degrees on Monday, the readings at the Experimental Station being 88 highest, and 56 lowest, while this morning showed the mercury down to 70.

Gurney Lewis, of the Church of the Advent, in the absence of the rector, and the choir sang the hymns "On the Resurrection Morning," and "Our Blest Redeemer," and chanted the psalm in the burial office, Mr. A. E. Whitehead being at the organ.

After the benediction, the casket was borne from the church to the funeral home, where the small balloons being taken up by the band, as the procession, in which were several returned soldiers in uniform moved towards Elmwood cemetery. After the committal, the Last Post was sounded by the bugler and the last scene of life ended.

The late Charles Augustus Mayhew was born in Rochester, England, but came to Canada at an early age to join his brother at Copper Cliff. Some years ago he returned to the East, and found employment in the Townships. When war broke out, with an Englishman's instinct and love of country, he offered himself for service, was twice rejected as physically unfit, owing to poor eyesight, but in 1918 was accepted, and went overseas with a Montreal regiment.

After a year in camp, exposure and hardship did their work, and a severe cold, developed into symptoms of tuberculosis. He was invalided home and was treated at Lake Edward, and later at Belmont Hospital, Montreal, every curative means being employed that medical science could suggest, but to no avail, and he gave up his life for the Empire as truly as if he had fallen in France. Private Mayhew, who had been demobilized owing to his illness, is survived by the brother and sister mentioned above, and by four sisters in England.

LATE MRS. ANDREWS BURIED AT QUEBEC. The remains of the late Mrs. F. W. Andrews, who passed away at her home in this city, on Saturday, were taken to Quebec on Monday morning, accompanied by Mr. Paul Mainy, of Ottawa, brother-in-law, and were met by Messrs. W. M. and John Andrews, cousins of deceased. The burial service was conducted by Rev. Canon Fothergill, and among those present at the grave were several old friends of the deceased, also the old gardener, who had been in the employ of the late Judge Andrews for many years.

The interment was made in the family lot in Mount Hermon cemetery. The late Mrs. Andrews was the youngest daughter of the late Daniel Campbell and Mary Ross, of Pigeon Hill, and had a large circle of friends in Sherbrooke, where her later years were passed, and in Quebec City, who will long remember her as a woman of fine character and beautiful personality.

## THE LOCAL TRAP SHOOTERS MADE REAL CLEAN-UP

Sherbrooke Representatives Arrive Home from St. John, Loaded with Prizes.

Loaded down with prizes and wearing broad smiles, which loudly proclaim their success, the Sherbrooke trap-shooters arrived home this morning from the annual tournament of the St. John Trap Shooting Association at St. John, N. B. Seldom has a delegation from one city made such a clean sweep of the prizes as the Sherbrooke boys did, and they deserve great credit for the brilliant showing they made. Not taking into account a number of minor events that they captured, the experts from the local gun club brought back seven spoons, one cup and over \$250 in sweepstakes and prizes.

It was the Sherbrooke boys that furnished the big surprises on the opening day of the tournament, and they continued their excellent work at the traps yesterday when Steve Newton carried off the honors in the grand aggregate for amateurs by breaking 227 birds out of 250 shot at, with his brother Bob only three points behind to win a second prize. To win the grand aggregate Steve Newton was high gun again yesterday, with brother Bob second, while Billy Southwood was fourth in the grand aggregate for the two days. Yesterday Jim McCrea captured the premier honors in high gun in class "B" and Steve Newton knocked down another prize for the long run.

The Sherbrooke team, shooting in the Provincial five-man team event added to their laurels by romping home winners with only eleven misses, while the Nova Scotia team was second with thirteen misses, and New Brunswick third with seventeen misses, while in the three-man team event Bob Newton, Steve Newton and Billy Southwood tied for the first honors. In this event the Sherbrooke trio had to do some tall hustling in order to get away in time to catch their train. They were allowed to shoot first and did not learn of their success until they were aboard the train homeward bound.

In the Merchandise event yesterday S. G. Newton took the first prize and Jim McCrea the third prize, while in the handicap event Bob Newton added another prize to his already large collection by finishing second on the list. On the first day of the tournament S. R. Newton was second high gun, S. G. Newton, third high gun in Class "A" and W. H. Southwood was first high gun and N. E. Walley third high gun in Class "B."

S. R. Newton won the doubles and W. H. Southwood and N. E. Walley tied for second place in the doubles. S. G. Newton took first prize and James McCrea third prize in the Merchandise. S. R. Newton and S. R. Newton took first prize in the two-man team and James McCrea and W. H. Southwood second.

Mrs. S. A. Jones presiding. After a short passage of scripture and prayer the usual business was carried on, the minutes of the last meeting read and confirmed, and the reports, covering the past two months of the general secretary and the superintendent submitted. The latter were most gratifying, all liabilities, with the exception of the one item of the winter's supply of coal, being covered, and a small balance remaining on hand. The president read an application for the use of the assembly room for school purposes, which was favorably considered as a source of revenue, and a committee composed of Mrs. Jones and Mrs. Wilson appointed to make arrangements in regard to terms, the use of the piano, etc. The question of the sum of \$50 in aid of the Y.W.C.A. in Japan, promised to Miss Beattie, who advocated the claims of the mission some months ago, was laid before the members present, and it was decided that the money must be raised by individual subscriptions. Mrs. A. H. Foss and Mrs. Bissell were placed in charge of the canvassing. The president stated that both swimming classes held in the Y.M.C.A., according to a special arrangement, were doing good work, a number of children and young women taking advantage of the opportunity of instruction in the necessary art of natation afforded them by the association.

The superintendent reported a number of cases of young women arriving in Sherbrooke from England, submitted by the emigration agent, the majority of whom had been looked after and provided with temporary shelter and positions. Other matters in connection with the future work of the Y.W.C.A. and its welfare were discussed. The president, who has recently returned from a prolonged trip to the Canadian West, gave an interesting account of visits to the Calgary and Winnipeg Associations, dwelling especially on the excellent work of the travellers' aid department maintained by the Y.W.C.A.

DEATHS REPORTED

MR. NADEAU, WATERLOO.

WATERLOO, Que., Aug. 11.—Mr. P. L. Nadeau, proprietor of the Canada Hotel, passed away on Monday afternoon after a lingering illness. Over a year ago he entered the St. Francis Xavier Hospital, Sherbrooke for treatment, and received temporary benefit. For some weeks past, he has been in a critical condition, but was able to sit up and some of the time do a little business connected with the hotel. He was a general favorite with the travelling public, and for that reason his house was always well patronized. He is survived by his widow and daughter.

MR. RICHARD BRADFORD, GRANBY.

GRANBY, Aug. 11.—On Tuesday evening, August 3rd, the death occurred of Mr. Richard W. Bradford, at his home on Drummond street. The passing of Mr. Bradford removes one of the older generation of Granby's business men, and one who for many years was a familiar figure in the commercial life of this town. Born in Granby township seventy-one years ago, he started in business here early in life, keeping a general store as well as handling flour, feed, coal, wood and hay. He was successful in business and established a wide connection, being known as an absolutely honorable and reliable man in every respect. About twenty years ago he built the fine three-story brick block at the corner of Drummond and Main streets, occupying the lower portion for his own business. About five years ago failing health compelled him to curtail his business activities, and he sold the business block to the Montreal & Southern Counties Railway. Although it was his intention at this time to retire from business, nevertheless, there were so many of his patrons who were reluctant to sever a connection extending over so many years, that he established a warehouse and store room at the rear of his residence from which his customers were served until the time of his death. He was a lifelong and faithful member of the Methodist Church, and for many years a member of the official board. A man of quiet and retiring disposition he never sought public honors, but was recognized by all as a sterling and upright citizen, whose death is a distinct loss to the community.

The funeral was held in the Methodist Church on Thursday afternoon and was largely attended by friends and citizens of all classes and creeds. On account of the absence of the regular pastor, the service was conducted by Rev. P. Pergau, of Waterloo. Mrs. J. G. Fuller presided at the organ. The funeral manager was Mr. F. B. Farnsworth, and the bearers were Messrs. O. H. Jackman, A. E. Solomon, I. E. Hutchins, Wm. Reynolds, C. Aitchison and W. R. Horner.

He is survived by his widow and four daughters, Mrs. H. Giddings of Granby; Mrs. Raymond Farnsworth, of Montreal; Miss Mabel Bradford, and Mrs. J. S. Greenshields, of Toronto.

PROPOSED FREIGHT RATE INCREASE.

The application of Canadian railways for an advance of forty per cent. in freight rates is being heard at Ottawa. This application and the prospect that it will be granted in whole or in large part, has caused the assertion to be made in many quarters that this means higher prices for commodities in general.

The statement of Mr. D. B. Hanna, President of the Canadian National Railways, that no such effect should follow is of special interest. Mr. Hanna points out that if the whole additional freight cost is passed on to the consumer it will be of little importance in its bearing upon general costs. To illustrate, he says that 40 per cent. advance in freight charges means six cents on a suit of clothes shipped from Toronto to Regina; eighty cents on 1,000 ft. of lumber from Rockland to Montreal, 129 miles; 92 cents on one hundred of live beef from Winnipeg to Toronto; 24 cents on a pair of shoes from Fredericton, N.B., to Winnipeg; 10 cents on a winter overcoat from Montreal to Winnipeg, etc.

According to this statement freight rates are of slight importance so far as costs to the consumer are concerned. They might unjustly serve as an excuse for boosting prices and, for this reason, the above figures might well be borne in mind by the general public.

Quite aside from this, the advance asked for by the railways means in the aggregate a very heavy tax upon the commerce of the country. It should not be granted except in face of a very strong case on the part of the railways.

UNHAPPY POLAND.

The developments in Poland are such as to bring great distress and perhaps destruction to this unfortunate section of the world's surface. The battle ground of nations for centuries, the Polish people have retained a love of liberty and pride of race. Like the wars of Napoleon, the great war of 1914-18 seemed to promise Polish independence and prosperity. It now seems that history is likely to repeat itself, and the new struggle terminate in a slavery worse than that which has gone before.

While the threatening clouds of world war darken the horizon, the tragedy of the unfortunate Polish people stirs the hearts of mankind.

A GOOD PIECE OF WORK.

The city road department is to be commended for the excellent paving work just concluded on South Wellington street as far as the Lennoxville line. This provides a splendid highway entrance to the city from the south. The excavation work which is being done on Dufferin Avenue, suggests that this and Melbourne street will be paved next year, and it is hoped the Brompton Road highway will be put into good condition to the city line.

Work such as has been done at the "south gate" of the city is worth while and is a satisfaction to citizens and visitors alike.

LACROSSE

SHERBROOKE WILL PLAY FOR PROVINCIAL TITLE. QUEBEC, August 11.—Home and home games between the intermediate lacrosse champions of Quebec, Sherbrooke and Montreal, for the intermediate amateur lacrosse championship of the province will be played towards the end of this month and the beginning of September.

According to arrangements completed this week, the Sherbrooke champions will play the Quebec champions in a series of home and home games for the championship of the district of Quebec, with the winners playing the Montreal champions for the provincial title.

Ten men lacrosse will be played, under Canadian Amateur Lacrosse rules. The Montreal lacrosse heads, Eddie St. Para, editor of Le Star and former sporting editor of La Presse, as well as past president of the national lacrosse union, and John J. Louson, president of the eastern amateur lacrosse association, are in favor of the games, and it is expected that a handsome trophy will be presented by a prominent Quebecer.

BASEBALL FLASHES

In the American League, Acost, Washington's recruit pitcher, made a mistake in pitching to Joe Jackson in the tenth inning yesterday and Jackson singled, sending Weaver, who had doubled before him, home with the run which gave Chicago victory and the third straight over the Senators.

Timely extra base hitting by Williams, Smith, Tobin and Sisler enabled St. Louis to win yesterday's game from Boston. Sisler got his third home run in three days and his sixteenth of the season.

In the National League, Doak's failure to cover first base on Williams' smash between Hornsby and Fournier in the seventh inning robbed himself of a no hit game in yesterday's St. Louis victory over Philadelphia.

Boston and Cincinnati divided a double header yesterday. Ruether was ejected from the first game for disputing decisions on balls and strikes.

Ray Edgar, finished second, and Sunbeam Desenoj, belonging to Coat Allen, was third. The Miss America's average speed over the course was 51.45 knots an hour, and her fastest lap was covered at the rate of 56.63 knots.

CHALLENGE FROM CANADA POPULAR.

(Associated Press Despatch) MONTREAL, Aug. 11.—"Unquestionably a challenge from a recognized Canadian Club would be quite popular and would be gladly received by the New York Yacht Club," states Mr. Montagu Worthly, New York Yachting expert, who is in this city. He called on Mr. A. C. Ross during the day and discussed with him the probabilities of placing a challenge for the America's Cup.

7 MILLBANK LONDON ENGLAND

Why Have "Millbanks" Become So Popular?

Because every introduction leads to lasting friendship. It is a case of "love at first smoking."

One smoker offers "MILLBANKS" to a friend. The friend is delighted with these mild, fragrant Virginia Cigarettes and buys a package for himself. This is happening many times a day in every section of Canada. The reason is easy to find.

MILLBANK VIRGINIA CIGARETTES

have the delightful, distinctive flavour of ripe, mellow, sun-cured Virginia tobacco—coupled with the richness and satisfying qualities found only in the highest grade leaf at its best.

The fact that the price is 15c for 10 is simply an additional reason for preferring "MILLBANKS."

# GRAY-DORT

## New Standards of VALUE

Gray-Dort has brought peace-time standards of value to the motor car business. Greater value than the light car has heretofore offered. A car comparable with those costing several hundred dollars more.

Look for These Things in the Car You Buy

The Gray-Dort motor is big enough for its job—not stunted—3 1/2" bore and 5" stroke—with big water jackets and a big, honeycomb radiator. The crankshaft is husky—many pounds heavier than other builders of light cars think necessary.

The carburetor is a Carter—improved this year. Westinghouse starting and lighting. Connecticut ignition (newly improved).

The whole chassis parallels the motor in quality. Heavy frame of channel steel. Husky rear axle, Chatham-built. Long springs, cantilever in the rear, and built here under our inspection. The big brakes now have Thermoid lining. A new steering gear, 50% larger and stronger than the light car standard.

The big gasoline tank is now in the rear—for good looks and convenience. As in big cars, the emergency brake is on a lever, the side-curtains open with the doors. A shorter, smarter cowl gives more room in the driving compartment. The new hood, with its many long, narrow louvers, has a touch of European smartness.

The smooth lines of the body are restful after so much of the extreme in present-day cars. The Gray-Dort finish, development of 60 years' coach-building, will win your instant and lasting approval. Add the smartness of French-pleated upholstery, and a new top, tailored in our own shops.

We have doubled our production this year. But there is likely to be a shortage. See the Gray-Dort dealer now.

CONSUMER OF COAL IS HEARD BY RY. BOARD

J. M. Daly Tells Commission Hearing Application for Increased Rates that Buyer Cannot Stand Increase.

(Associated Press Despatch) OTTAWA, August 11.-The case for the consumer of coal was brought before the Board of Railway Commissioners this morning when the hearing of application by all Canadian Railways for increased rates was continued.

J. M. Daly, of Canadian retail coal association, declared that the consumer of coal in Canada could not stand further advances in the price of the necessary fuel and expressed his opinion that the railway got more out of their freight charges on coal than any other commodity. The railways were better able to stand increased costs than the poor consumer.

The railways brought forward witnesses to show their recent operations had been returning deficits instead of profits.

J. B. McLaren, General Auditor of the Grand Trunk Railway, told the Commission that even if the new increases went into effect next month, his company would finish with a deficit of two millions.

The United States labor award would cost the Grand Trunk Railway approximately nine million dollars in increased wages, he stated, and compensation to employees on his road had been advanced 108 per cent. in the years from 1913 to 1919. The net corporate loss to the Grand Trunk during the first six months of the present year had been \$4,404,711.

The Canadian National System, or rather that portion of it which was formerly the Canadian Northern Railway, also showed that it was losing money under present conditions.

Mr. Hills, assistant to D. B. Hanna, president of the system, stated that the earnings of the Canadian Northern last year were \$53,552,000 while the operating expenses were \$60,634,000. The net deficit for the year 1919 was six and a half millions approximately.

The increase provided for in the United States labor award would mean an added cost of approximately ten million dollars a year.

Other roads heard were the Temiscouata Railroad, and the Essex Terminal Railway.

At one o'clock the hearing was adjourned until half past two for lunch.

Initial quotations, which varied from 3 1/2 cents declining to 3 1/2 cents, with December \$2.40 to \$2.40 1/2, were followed by moderate upturn all around, a setback later to slightly below yesterday's finish and then fresh gains.

Corn sympathized with wheat strength. After opening 1 1/4 to 1 1/2 cents higher, including September at \$1.48 1/2 to \$1.48 3/4 and December \$1.26 to \$1.27, the market underwent a material decline, but showed power to rally.

Oats were firmer as a result of the action of corn and wheat. The market opened 7/8 to 1 cent up with September at 72 1/2 to 73 1/2 cents, fell 1 cent temporarily and subsequently tended to harden.

Weakness in hog values acted as a drag on provisions. Trade was slow and the market a little lower.

MORE CHEERFUL TONE ON MONTREAL 'CHANGE

(Associated Press Despatch) MONTREAL, Aug. 11.-Reflecting the more cheerful tone of the European news despatches, the local stock exchange this morning emerged in no uncertain fashion from the rut into which it had fallen during the last few days, and recoveries of from one to five points were scored all along the line in the early trading.

Short covering in National Breweries and Atlantic Sugar, in both of which extensive short interests are said to exist, sent these stocks up rapidly. Sugar, in the early trading, scored a four point advance, moving up past 138. National Breweries, a feature of activity, moved quickly through the sixty mark and was sold up to 62, a gain of nearly three points.

A recovery was noticeable in the whole of the paper list. Spanish River issues, both common and preferred, showed gains of two points, the common moving up to 108. Laurentide also made a strong recovery, moving up three points, as did Abitibi, which went to 72. Brompton and Wayagmack were also stronger.

PONZI ADMITS THAT HE LIVED IN MONTREAL

Stated that Man by Name of Ponzi Operated in Montreal Thirteen Years Ago.

(Associated Press Despatch) BOSTON, Aug. 11.-An associate of Charles Ponzi, from the home of the latter at Lexington, today telephoned the Associated Press that Ponzi admitted that he was the Charles Ponzi, formerly of Montreal. He added that the spectacular financier was in conference with his lawyers and would issue a statement later.

Reports from Montreal circulated were to the effect that Ponzi under the name of Ponzi had operated a financial plan promising large returns in Montreal thirteen years ago.

Attention was called also to the records of the St. Vincent de Paul penitentiary in that city, which were said to show that a man known as Charles Ponzi had served a brief term there. Early today Ponzi denied any knowledge concerning the Montreal reports. Later he refused himself to newspapermen. His house telephone thereafter was answered by a man who claimed to represent Ponzi, and who said that something might be given out later in the day. Subsequently, he stated, that Ponzi had admitted that he was the man who had been known in Montreal.

He added that Ponzi had left his home to confer with one of his attorneys, Daniel F. McIsaac, at the latter's office in Boston. A half hour later neither McIsaac nor Ponzi could be found at the lawyer's office.

NEW YORK PRESS MARKET COMMENT

Furnished by McManamy & Walsh

The New York Times—a casual survey of the list seemed to show that stocks had been driven down to a level where the ordinary plan of short selling and covering orders worked to bring about a partial recovery.

The Wall Street Journal—There was little in the foreign news to affect prices one way or another.

The Journal of Commerce—Little could be inferred regarding the foreign situation and its future, and the effect of European conditions was accordingly less direct and positive than at the preceding session.

The Sun—it is true that there is only a small short interest to act as a cushion in case some unexpected development favorable to the bears occurs.

Wall Street Journal will say today: Tidewater Oil earns \$20.61 a share in six months.

Kansas City Southern reports \$2.03 for Common in 1919.

General Cigar earnings in six months equal to \$8.19 for common.

Steel orders increased 139,651 tons in July.

HIGHER PRICES ON THE WHEAT MARKET RECORDED

(Associated Press Despatch) CHICAGO, Aug. 11.—General demand with limited offerings led to higher prices today in the wheat market. Houses and eastern connections were conspicuous in the buying on the upturn in price, however, selling became of larger volume, and the market had a reaction.

Initial quotations, which varied from 3 1/2 cents declining to 3 1/2 cents, with December \$2.40 to \$2.40 1/2, were followed by moderate upturn all around, a setback later to slightly below yesterday's finish and then fresh gains.

### ENGLISH LADS ARE PROVING THEIR WORTH

Several Boys Now Assisting E. T. Farmers Received Training in England—Many Are War Heroes' Sons.

The last party of boys to be received at Gibbs' Home this season arrived the latter part of July. There were fifty in the party which is the highest number received at the Home at one time. The total emigrated by the organization this year to date is 110. The original intention was to bring out seventy-five boys, but it was found desirable to increase the number to meet the demand for help. A proportion of this year's emigrants are sons of men who died in the late war. A pleasing feature, which is receiving greater attention than ever from the authorities in England, was the number of lads in the last party who had farm experience of from three months to two years. Also, the boys were older, ranging from fourteen to eighteen years. It is hoped to gradually increase the percentage of farm trained boys.

As in the case of the two previous contingents, the stay of the third party in town was made as pleasant as possible. After enjoying the hospitality of the Y.M.C.A. in the form of baths and a swim in the pool, the Rev. Russell, who happened to be in the building, gave the party a cheery welcome to Canada. The proprietors of His Majesty's, the Premier and Casino theatres kindly invited the lads to performances. Owing to the hot weather prevailing, a convenient swimming hole on the St. Francis river was much patronized, a dip before breakfast and another in the evening being a usual feature. It is worthy of note that one of the best swimmers and divers in the third party was a lad born in Canada, and now returned by special request to the land of his birth. Highly satisfactory letters and verbal reports have been received from employers and boys, and a healthy spirit of rivalry prevails as to which party shall prove the best farmers. The best milking performance by a recent arrival is that of a boy placed locally. He had learned to milk in England and soon showed that his previous teaching and practice had not been faulty. Last week, on one occasion, employer and hired man were detained in the field later than usual, and after doing his own share of the milking, to prevent time hanging heavily, the boy sailed in and milked the balance, a total of thirteen cows. Ample evidence is available that the number of farmers who have learned the lesson, "All work and no play makes Jack a dull boy" is on the increase. These men who remember the needs of boy nature, present farming in its best aspect, and secure a loyalty from their boys, both pleasing and profitable.

### FORMER FIRE-HORSE WAS KILLED BY A STREET CAR

Late Chief Davidson's Driving Horse Was a Favorite at the Station in Spite of His Tricks.

The staff at Central Station is grieving over the untimely death of an old companion and servant, "Darky," that for eleven years did duty as a fire horse, and killed Monday night on the Diamond Crossing, Lennoxville Road, when, in its usual capricious mood, it strayed and wandered onto the car tracks.

"Darky" was former Chief Davidson's driving horse, and, in spite of its frisky nature, was a favorite at the station. It is said that there was only one man who could successfully bribe the animal, and many are the anecdotes that are told of its capers. Withal, "Darky" was a good horse and did faithful service for a long period. As its working days were considered at an end, the horse was sold three years ago to a private party. The firemen, however, always had a warm spot in their hearts for their old ally and ever welcomed the sight of the old fire horse.
