BIG U.S. TREASURY REQUIREMENTS REDUCE DANGER OF CURRENCY WAR

Wall Street Believes that Any Immediate Reduction of Gold Content of Dollar Would Interfere with Refunding Loan Operations—World Bank May Force Showdown on Stabilization of Currencies—Action of United States in Rejecting World Court Darkens Chance of War Debts Settlement.

New York, March 7.—Wall Street financial quarters displayed strong signs of doubt today that a depreciation race between the pound sterling and the United States dollar is in the offing. Although a White House statement yesterday led to the belief that no further devaluation of the dollar was imminent, financial commentators marshalled other evidence to support their case.

From the United States standpoint, it was felt the huge Treasury refinancing in the immediate future would preclude a change in the gold content of the dollar for fear the action might upset the Treasury programme. Then, too, it was pointed out that President Roosevelt can cut the dollar only from its present 59.06 per cent. of its former gold content to fifty per cent., a margin of devaluation which some quarters feel is more effective as a threat than as an actuality.

REDISTRIBUTION OF MONEY BECOMING A PRIME ISSUE

Washington, March 7.—Redistribution of money—whether capital or income—burst forth today as a fast-moving ball of political dynamite headed toward the 1936 United States election contests.

From the very throne of banking control—the governorship of the Federal Reserve Board—was heard advocacy of a new distribution of United States income. To this, Governor Marriner S. Eccles, added:

"The most effective way of achieving a better balance is through income taxes."

Inferences by some that Eccles' statement to the House banking committee yesterday might represent the Roosevelt administration's reply to Senator Huey P. Long's "share the wealth" campaign brought denials in official quarters. Eccles, it was made plain, spoke for himself.

Some observers could not, however, forget a disposition already evidenced in official quarters to check up on the earnings of public utilities, especially holding companies, and to frown on Reconstruction Corporation Loans to railroads whose executives received salaries considered excessive.

MAY FORCE SHOWDOWN ON CURRENCY STABILIZATION

Basle, March 7.—The pound's continued weakness is arousing some speculation in Europe as to whether it is deliberate, and if so whether the aim may not partly be to bring a bad situation more rapidly to a head. It is recalled that at the World Bank Board's February meeting there were hints from the British that "readjustment" of the pound might soon be necessary because of England's deteriorating economic situation.

Much pessimism by the British over the possibility of an international action after the World Court vote was also expressed at that time. It was argued that the currency outlook was particularly black, since the motion the court question aroused showed it was hopeless to expect a war debt settlement, upon which the British make stabilization depend. There was some vague hint then that since there was no longer hope of avoiding trouble it might be safer to hasten the boil to a head while the organism remained sound, than let it continue slowly undermining the organism and the accumulation of poison.

Even those bankers who are impressed by London's present unanimity while Europe worries, suspect she is "managing" the pound downward for economic reasons. There is, however, a good deal of doubt that she has adopted so bold and risky a course as to seek to bring underlying political troubles deliberately to a head. It is significant that it is especially in the gold bloc that hopes are expressed that the pound's fall will bring the British and Americans to negotiate. It is noteworthy that the Belgians, who are the hardest hit by the pound's fall, profess to prefer swift action to slow on the ground the more dramatic the fall the more hope there is of something being done in time. All this, of course, may be whistling for courage's sake.

BRITISH CURRENCIES GAIN ON UNITED STATES DOLLAR

New York, March 7.—French gold francs declined over one point today on the foreign exchange market while British currencies gained fractionally.

Pounds sterling firmed 1-2 cent to \$4.75, Canadian dollars added 5-16 per cent. to 98 3/4 cents. France lost 1-2 points to 6.67 cents.

TO RESTRICT APPLICATION OF RECOVERY ACT CLAUSES

Washington, March 7.—Donald Rieberg, outlining the administration's views, asked the United States senate finance committee today to extend N.R.A. "substantially in its present form for two years," but with codes limited to "those trades and industries actually engaged in interstate commerce."

The Director of the Emergency Council was the first witness in the committee's investigation of the recovery machine and its vast code structure. Rieberg served under Hugh S. Johnson as general counsel of N.R.A. during the early months of the Blue Eagles' spectacular flight.

Rieberg began with a prepared statement that the recovery machine was a vast code structure. Rieberg served under Hugh S. Johnson as general counsel of N.R.A. during the early months of the Blue Eagles' spectacular flight.

NEW YORK LAWYERS BEFORE GRAND JURY.

New York, March 7.—Eight lawyers, among them the attorney for Dutch Schultz, head of the list of persons subpoenaed for questioning today as the Grand Jury seeks to ferret out leaders of the vice and policy rackets in New York.

J. Richard Davis is the lawyer for Schultz, reputed head of the "numbers game." He testified in another hearing that the policy racket had a "take" of possibly \$10,000,000 a week, but denied knowing of any connection between it and Schultz.

He was to be called before the Grand Jury, as were five of the other lawyers.

VALUE OF NATURAL TEETH

Buffalo, N.Y., March 7.—Natural teeth have a biting pressure of two hundred pounds, but false teeth exert a force of only twenty-five pounds, Dr. Edson J. Farmer, of the University of Buffalo, told the thirty-fifth annual meeting of the school's Alumni Association.

The figures, Dr. Farmer said, were based on a study of comparative biting pressure, which showed a person with real teeth commanded eight times the steak-attacking power possessed by one equipped with dental plates.

SCENIC ATTRACTIONS OF CANADA ENDORSED BY PARLIAMENTARIANS

Proposals of Government to Double Appropriation for Promotion of Tourist Travel Brings Unanimous Support from All Sections of House—Beauties of Each District Stressed by Various Members—Commons to Discuss Unemployment Insurance Today.

Ottawa, March 7.—The rare spectacle of complete harmony in the House of Commons was witnessed yesterday when members from all parties lifted their voices to commend the Government for its efforts in promoting tourist trade. Last year the Government spent \$100,000 through a new organization set up in June under the leadership of D. Leo Dolan, estimates this year call for \$200,000.

Hon. R. J. Manion, Minister of Railways and Canals, threw the tourist question open for debate with a review of the work so far, and drew unanimous commendation. The only complaint made was a proposed expenditure of \$200,000 was too small.

Could prospective tourists have listened in on yesterday's debate the advertising allowance could have been reduced, for the holiday attractions of all parts of Canada were painted in such rosy hues that they would very likely embark at once on a tour of this country. The mountains and lakes, the fish, the seacoasts, and even the onion fields were hailed as surpassing the most famed beauty spots of Europe.

Member after member rose to sing praises of his own district and offer no suggestion of decrease of attracting the money-spending wanderer from abroad to tarry a while in Canada. It was Eccles J. Gott, Conservative member for South Essex, who maintained the onion fields of his county, four feet beneath the snow, were one of the wonders of the world. In addition he had the largest bird sanctuary in the world, Jack Miner's place.

No person's education was complete without seeing and swimming in salt water, said J. H. Myers, Conservative member for Quebec, who sung the praises of Prince Edward Island.

The Prairie Provinces came in for commendation from Col. Harry Mullins, Conservative member for Manitoba by the pound's fall, profess to prefer swift action to slow on the ground the more dramatic the fall the more hope there is of something being done in time. All this, of course, may be whistling for courage's sake.

Alberta's buffalo parks, British Columbia's mountains, the myriad lakes of the highlands of Ontario and the quaint charm of rural Quebec were among the other attractions mentioned, and the story is not finished yet for the tourist item was held over for another day to enable other members to speak.

Dr. Manion said there was reason to believe Canada's tourist business could be stepped up to \$500,000,000 a year with the return of prosperity should a judicious and vigorous advertising policy be pursued.

Earlier in the sitting it became apparent that the House, too, was electorally-minded for a number of questions were fired at the Secretary of State, Hon. C. H. Cahan, about the state of the voters, and as to whether or not any further changes in last year's electoral legislation would be made this session and before the general election.

Asked by the Leader of the Opposition, R. L. B. Mackenzie King, in what condition were the voters' lists Hon. C. H. Cahan, Secretary of State, said: "Up until March 4 there were 4,201,639 names in type, and lists comprising 3,039,690 of that number have been printed, bound and delivered to the franchise commissioner, Col. John

LOYALISTS LOSE TWO STRATEGIC SECTORS TO MACEDONIAN REBELS

Islands of Samos and Chios Capitulated to Rebels After Visit by Ships of Rebel Fleet—Government Troops, Equipped with Heavy Artillery, Poured Through Struma Valley Today—Troops Outnumbering Insurgents Eight to One Deployed Along Wide Front.

Athens, March 7.—The islands of Samos and Chios capitulated to the rebels today after a visit by the ships of the rebel fleet, it was officially announced.

POSSIBILITY INSURGENTS MAY BE ASSISTED FROM SEA

Athens, Greece, March 7.—Government troops, equipped with heavy artillery, poured through the Struma Valley today intent on crushing the embattled east Macedonian rebels.

The troops, estimated to total eighty thousand men, outnumbering the insurgents eight to one, were deployed along a wide front.

The rebels awaited the "zero hour" knee deep in mud in weather beaten old trenches which have striped the Salonika plain since Great War days. Their contingents were stretched along the front line from Doiran Lake to the mouth of the Struma, which British troops held in 1917 and 1918.

The possibility that the insurgents on land might receive aid from the sea arose as the cruiser Averoff, flagship of their fleet, anchored off Mytilene on the island of Mytilene and landed a detachment of marines.

The island is off the Turkish coast and within easy reach of Kavalla, still held by the rebels despite a bombing yesterday.

TWO AMBITIOUS WOMEN ARE PLAYING IMPORTANT ROLES

Athens, March 7.—Two ambitious women are behind the Greek revolution. Mme. Eleutherios Venizelos, wife of the famous statesman who is said to be worth in the neighborhood of \$15,000,000, is declared by government supporters to be financing the revolution from Crete.

Her rival, Mme. Panagoti Tsaldaris, brilliant wife of the present Premier, who is fighting the rebels, is said to be the brains behind the government in Athens.

Mme. Venizelos, who is fifty-five, and not particularly attractive, is matching her wits against the younger and more beautiful wife of the Premier.

Both women are said to be inordinately ambitious.

TURKS DENY MOVE INTENDED AS A THREAT TO BULGARIA

Istanbul, March 7.—Official Turkish circles denied today that the concentration of Turkish troops near the Bulgarian frontier was intended as a threat to Bulgaria.

The military activities, it was authoritatively said, were only precautionary. Anxious of the anxiety expressed by Kosta Bataloff, the Bulgarian Foreign Minister, government quarters emphasized that Turco-Bulgarian relations were "excellent."

DOUBT EX-DICTATOR IS IN ITALY MERELY ON HOLIDAY

Milan, Italy, March 7.—A squadron of plainclothes detectives greeted General Nicholas Plastiras, Greece's one-time dictator-for-a-day, and escorted him to his hotel upon his arrival here today from Brindisi.

"General Plastiras is in Italy only as a tourist," his secretary insisted. Greek circles in Rome said they doubted that Plastiras had come to Italy on a pleasure jaunt. They insist he went to Brindisi to watch developments with the intention of entering Greece if the situation had favored the revolutionists.

TAXPAYERS IN BRITAIN AWAIT GLOOMY BUDGET

Successive Estimates for Coming Fiscal Year Have Completely Shattered Any Hope for Reductions in Income Tax.

London, March 7.—Further estimates in coming days with the budget department's estimates caused the British taxpayer to view the coming budget gloomily.

Successive estimates for the coming fiscal year have completely shattered any hopes there might be for reductions in the income tax. Prospective expenditures, apart from debt charges, are now higher than last year by practically \$21,000,000, \$102,000,000 at par.

For the navy, army, air, civil service, customs and excise, together with the estimates taken together the estimates total \$490,390,000, \$2,383,295,000, an increase over last year of \$20,866,000 or \$101,408,000.

It is the largest proposed expenditure of any budget since 1922. For customs and excise and inland revenue, the votes required are the highest since 1920.

In addition supplementary votes will be needed for the beef and sugar subsidies and for the recovery of the economically distressed areas. Following the lead of continental countries in providing protection for civil populations in the event of attack from the air, the government today announced plans to spend \$32,000, \$447,000 at par, on "expenses connected with air raid precautions."

They were included in the Home Office estimates providing for salaries and expenses and for equipment, to be used by the air force personnel in research and experimental services.

PREMIER BENNETT PLANS ESTABLISHMENT OF AN ECONOMIC COUNCIL

Ottawa, March 7.—Prime Minister R. B. Bennett gave notice of motion today he would move in the House of Commons for establishment of a National Economic Council.

The Council would be called the Economic Council of Canada. Although the notice of motion gave no details concerning its organization, reports current in parliamentary circles said it would resemble the National Research Council and would act in an advisory and co-ordination capacity for economic activities in much the same way as the Research Council has done for scientific affairs.

TASCHEREAU DENIES COLONIZATION PLAN IS MERELY ELECTION IDEA

Quebec Premier Flays Opposition Leader for Latter's Attack on Hon. Irene Vautrin, Minister of Colonization—Demands Opposition Keep Politics Out of Question—Conservative Members Protest Feature Giving Government Blank Cheque Authorization for \$10,000,000.

Quebec, March 7.—Maurice Duplessis, K.C., leader of the Conservative Opposition in the Quebec Legislature, was brought to task yesterday by Premier Taschereau for certain rather uncomplimentary remarks the former had passed about Hon. Irene Vautrin, Minister of Colonization. That the Opposition chieftain should regard the Government as insincere in its \$10,000,000 colonization plan was bad in the opinion of the Prime Minister, but to brand the Minister in charge as "the worst agent of electoral corruption ever practised by the Government" was worse.

Said Premier Taschereau: "The House has given several hours of consideration to this bill and the Opposition leader has added nothing but delay. At the colonization congress held here last October high authorities agreed the plan was the best one the province had ever seen."

"It was the Opposition leader's duty to be there, but he failed to show up. If he knows so much more than we do he should have been there to give us the benefit of his learning."

"The Opposition leader is like young Paul Gouin, K.C., leader of the insurgent Liberal group L'Action Libérale Nationale, who goes about trying to shed light—if he has any."

The Premier failed to understand Mr. Duplessis' "constant attacks against us for the politics we follow." After all, he said, there was a man who himself was aiming to the highest political post in the gift of the province and yet he never missed an opportunity to try to sully politics generally. The Quebec Government, he stated, was definitely not playing politics with the colonization plan but was thinking of the welfare of the people.

"On the other hand," he said, "the Opposition leader, who chides us for playing politics, is doing to himself—and the prettiest type of politics imaginable."

To an accompaniment of desk pounding of his adherents, the Premier concluded with: "We do not have to play that kind of game to beat him."

Mr. Duplessis rose to say that although the Premier had descended to personalities he refused to do so and would continue to be courteous.

The bill, through which the House was asked to vote \$10,000,000 to allegedly promote colonization, he stated, amounted to a blank warrant the Government wanted to have signed the better to distribute political favors.

"The Premier says we have nothing to offer to Mr. Duplessis continued. 'If that be so why then does he make so much fuss because I did not attend the famous colonization congress. If I had nothing to offer why should I have gone. My main reason, however, for not attending, was that I had no faith in the sincerity of the Government anymore than I have now.'"

The Government had become suddenly worried over the future of the race, he said, and was talking colonization along big lines. Why then, he asked, had it reduced the creation of the Department of Agriculture and Colonization by about \$2,000,000.

In his charge there was "political manoeuvring" in the Colonization Department, Mr. Duplessis linked the Department of Lands and Forests. Until such time as there is a system of rural credits clamored for by the farmers, was instituted, colonization would always be under the thumb of the Department of Lands and Forests. If the system were instituted, colonization would be a complete success.

Mr. Duplessis recalled that Premier Taschereau had said the fact the public had elected Liberals for thirty-eight years satisfied him the Government was doing all right.

"The Premier talks of thirty-eight years," the Opposition leader stated. "It is only fifteen years since the present regime came into power, the time limit set by Sir Wilfrid Laurier before a Government became rotten."

It amused him to hear the Government talk of its interest in the unemployed and prospective settlers. Mr. Duplessis remarked, if such were the case how could it be explained the Government spent millions to build "the useless Island of Orleans Bridge" but reduced its credits to the Departments of Agriculture and Colonization.

Earlier in the debate, Premier Taschereau had asked Mr. Duplessis to mention one province which Continued on page 2.

BRITAIN STILL AWAITING GERMAN ACTION ON TALKS

London, March 7.—The British Government today still waited for word from Adolf Hitler on the possibilities following Berlin's postponement of the Anglo-German conference on peace and security proposals.

No authoritative information has been received as to when Sir John Simon, Foreign Secretary, may now be expected to visit Berlin, although the British still hope the original programme will be carried out without much delay.

In any event, should the Berlin visit finally fall through, the plan is to send a British representative to Moscow and Warsaw. Originally it was contemplated Sir John should first visit Berlin, then return to London before going on to Moscow and Warsaw, from both of which capitals have come invitations to send a Minister to discuss phases of the Anglo-French accord, with its suggested pacts.

Paris, March 7.—Because of Chancellor Adolf Hitler's continued postponement of the Anglo-German conference on peace and security proposals, the British still hope the original programme will be carried out without much delay.

DEFENDS PUBLICATION OF FAMOUS WHITE PAPER ON REICH ARMAMENT

Lord Privy Seal Declares Country "Must Have Some Regard for the Cold Realities of the Present Situation"—Believes League of Nations Most Effective Mechanism Devised to Operate Collective Peace System—Britain Still Awaiting Word of Re-opening of Talks with Germany.

London, England, March 7.—"We must have some regard for the cold realities of the present situation," declared Anthony Eden, Lord Privy Seal and the Ministry's disarmament expert, in a speech here this afternoon in which he warmly defended the now-famous government "White Paper" on armaments.

This document, initiated by Prime Minister Ramsay MacDonald, accompanied the increased defence estimates and among other things explained them by saying that if German re-armament continued "unabated and uncontrolled" a situation would develop in which peace would be imperilled. It was promptly followed by Berlin's postponement of the Anglo-German security talks scheduled for this week-end.

Mr. Eden opened with a sentence of regret over Adolf Hitler's indisposition, given by Berlin as the reason for postponing the visit of Sir John Simon, Foreign Secretary, and Mr. Eden. This was the only direct reference he made to Germany.

He then plunged immediately into the international situation.

"In my view," he said, "there is no security in armaments comparable with that which can be derived from the effective working of a collective peace system."

"The foreign policy of His Majesty's Government is unalterably based upon the League of Nations as being the most effective mechanism yet devised to operate such a system."

"It will, I am confident, be clear to any impartial critic upon examination that the moderate measures of national defence provided for do not constitute a departure from that policy."

"Our devotion to the League and to the collective peace system has many times been demonstrated in recent history."

He cited British initiative and British participation in the despatch of an international military "police" force to the Saar during the plebiscite period, and efforts to effect a settlement of the dispute between Hungary and Yugoslavia growing out of the assassination of King Alexander of Yugoslavia at Marseille.

JOHNSON'S ATTACK ON LONG EARNED HIM PRESS PRAISE

New York, March 7.—The serious view the United States is starting to take of Huey P. Long and his potentialities was mirrored by the press today.

Washington, it seemed, suddenly had decided the Louisiana Senator who would share the wealth and make every man a king, was not fooling when he said recently that he would run for President in 1936.

The adjectival derogation General Hugh Johnson turned upon Long on Monday when, in an address, he couched him with a "Died Piper" to the "lunatic fringe," focussed the attention of press, politicians and political students.

The New York Times hoped Johnson's outburst would "release others from the sort of moral terrorism" set up by Long and Father Coughlin.

The Herald-Tribune, which harried the General roundly for "blackening the air with dead cats" and cracking down on adversaries during his N.R.A. administration, suggested he should receive a medal. It said: "This is indubitably the stuff" in comment on his explosion at "financial fair tone put up by a partnership of a priest and a Panchino, guaranteed to grow economic whiskers on a billiard ball."

ONTARIO ENTRY WON CANADIAN CURLING CROWN

Hamilton Thistle Club Rink Skipped by Gordon Campbell Defeated Alberta Quartette This Afternoon to Capture Dominion Championship.

Granite Club, Toronto, March 7.—Gordon Campbell's rink from the Hamilton Thistle Club this afternoon won the MacDonald's Brier Tankard, emblematic of the Canadian curling championship. The Ontario quartette defeated its lone rival, Bobby Alexander's rink from the Calgary Curling Club, by fifteen to eight in a six-round match.

With one more round to play Campbell's rink remained undefeated with six wins. Alberta had only one defeat against its rink. That was in the first round when they lost to Northern Ontario by twelve to seven. Alberta had a chance to tie Ontario but their loss gave them four victories out of six and put them out of the running.

In other matches today Saskatchewan defeated Quebec by fifteen to eight and Manitoba downed New Brunswick by twenty to eleven. The results gave Saskatchewan and Manitoba three wins and three losses each, while Quebec and New Brunswick have scored but one victory apiece in six matches.

COLORFUL CORSICAN BANDIT SENTENCED TO GUILLOTINE

Andre Spada Maintained Air of Indifference Today as He Awaited Result of Appeal from Death Sentence.

Bastia, Corsica, March 7.—Andre Spada, the "Tiger of La Cima" and last of Corsica's colorful bandit chiefs, maintained an air of indifference today as he sat in his jail cell awaiting the result of an appeal from his death sentence.

A jury required only a few minutes yesterday to decide to condemn Spada to die on the guillotine. He was accused of slaying a young woman by error after mistaking her for another who had repulsed his attentions.

"Let's go to dinner," Spada shouted to the judge and jurors. "I wish you all good appetite. Your part will be the worst."

Spada led him away in chains.

TASCHEREAU DENIES COLONIZATION PLAN IS MERELY ELECTION IDEA

Continued from page 1.
In these times ready to put in \$10,000,000 to promote a return to the land.

Paul Sauve, Conservative T. M. Martin, said there was no guarantee at all the Government would spend the \$10,000,000 as outlined in the bill. There was a growing tendency, he said, to take away powers from the House and transfer them to the Lieutenant-Governor-in-Council—in other words the Cabinet.

Mr. Vautrin replied the procedure was by no means unusual. He recalled that when Minister of Roads and Mines J. E. Perrault was the House had voted \$5,000,000 under practically identical circumstances as now presented themselves. Again in 1923, he stated, another amount of \$2,000,000 was voted. "Voting of the money was made under the general heading to promote colonization," he claimed.

SALES TAX PRINCIPLE IS APPROVED FOR MONTREAL

Quebec, March 7.—With a two per cent. sales tax agreed upon at the last night's session, the private bills committee of the Quebec Legislative Assembly today continued study clause by clause of the sales tax portion of the Montreal bill.

The vote on the principle of the sales tax carried thirty-one to six and immediately a clause stating that pianos, motorcycles, radios and refrigerators, when bought by Montrealers within fifty miles of Montreal would come under the tax was approved.

Under the terms of the bill Montreal means the territory included in the Montreal Metropolitan Commission, including such cities as Westmount, Outremont, Verdun, LaSalle and others on or close to Montreal Island.

It was indicated a tax of two per cent. would be asked on bills sent to customers within the Commission area by the Montreal Light, Heat and Power Consolidated and the Bell Telephone Company of Canada.

DEPRECIATION ALLOWANCE CUT FROM COMPANY TAXES

Quebec, March 7.—No allowance for depreciation will be permitted in the province of Quebec in the matter of payment of profits tax to the Quebec Government. As yet there is no measure before the Legislature to that effect, but it is understood that Hon. R. F. Stockwell, Provincial Treasurer, will shortly bring in such a bill.

The profits tax is imposed in virtue of an amendment made in 1932 to the Corporation Tax Act, and provides for a tax of one and a half per cent. on profits of each corporation, company, partnership, firm, association and person coming under the Corporation Tax Act, banks and railway companies excepted. The legislation of 1932 was for two years only, but was renewed for an additional two years, and may now be regarded as being of a permanent nature. It was laid down that the tax should apply on profits earned in the province by the companies, without deducting therefrom any charge or reserve for dividends on paid-up capital, or any other charge of a similar nature, and also without deducting therefrom any reserve for capital account. However, one concession of importance was made. To quote the text: "Depreciation, however, is deducted from such profits provided it be proper and for a reasonable amount."

This allowance for depreciation is to be eliminated, and the one and a half per cent. will be on the profits without any deductions. The experience has been that in these years there is little or no revenue from many companies once allowance is made for depreciation, and the Government needs money.

The revenue to the Government from this tax for the fiscal year which ended June 30, 1934, was \$885,645.

PROVIDES FOR TRANSFER OF JUDICIAL DEPOSITS

Quebec, March 7.—A bill in the name of Provincial Treasurer R. F. Stockwell providing for an amendment to the Treasury Department Act respecting judicial and other deposits, was referred back to the public bills committee in the Quebec Legislature yesterday.

Aim of the bill, as outlined by Mr. Stockwell, is to credit to the consolidated revenue fund of the province monies deposited with sheriffs and prothonotaries for judicial and other deposits unclaimed after thirty years.

On hand, Mr. Stockwell informed Maurice Duplessis, K.C., Conservative Opposition leader, was \$32,010 of such money. Mr. Duplessis wanted the assurance the money would not be included in the Government's budget under the heading of revenue, nor should it appear as an amount appearing to reduce the Government's deficit.

ROYAL ASSENT GIVEN TO LARGE NUMBER OF BILLS

Quebec, March 7.—Hon. E. L. Patenaude, Lieutenant-Governor, drove to the Parliament Buildings yesterday and gave Royal Assent to twenty-six bills that had been approved by the Legislature. Included in the number was a bill to incorporate the Municipality of the Parish of St. Denis de Brompton on the border of Sherbrooke and Richmond counties and another respecting the sinking funds of the Town of Coaticook.

DEFENDS PUBLICATION OF FAMOUS WHITE PAPER ON REICH ARMAMENT

indisposition, Foreign Minister Konstantin von Neurath or Joachim von Ribbentrop, Hitler's arm negotiator, will proceed early next week to London, Berlin dispatches to The Matin stated today.

The Matin correspondent added that reports of the Chancellor's decision to send a delegation to London, because of his continued cold, were circulated last night in official circles.

VARIETY OF OPINIONS IN TODAY'S PRESS COMMENTS

London, March 7.—The Government's plans for increased naval expenditure this year evoked a variety of opinions in press comment today.

The Daily Telegraph said the navy estimates "will disappoint those who know best how dangerously short the British navy is in modern cruisers and destroyers. We foolishly tied our hands in this respect by the London Naval Treaty until December, 1936, while leaving other powers with their hands free, and very active use they have made of their advantage."

The Morning Post said the estimates revealed the "mischief" of the Washington Naval Treaty, whereby the Admiralty was "forced to modernize the old because they are not allowed to build new capital ships. It added: 'The last of our wartime line of battle will be replaced in 1933 at the ripe old age of thirty-six, or nearly twice the accepted age limit. This is a consideration to give force to the case for rebuilding the fleet by means of a loan rather than from our annual revenues.'

The Daily Herald renewed its protest against the armament increases as a whole. "The 'White Paper' is not merely a momentary attempt to Germany," it said. "It is a permanent challenge to the whole system of collective security."

SOVIET SHOP EMPLOYEES DEMAND "STORE CULTURE"

Signs Reading, "Clerk, Be Polite to the Customers; Customer, Be Polite to the Clerk," Appear in Many Soviet Stores.

Moscow, March 7.—The official newspaper Izvestia announced today Soviet shop employees must concentrate further in developing "store culture"—the courtesy treatment of customers.

In many stores there are signs reading: "Clerk, be polite to the customers; customer, be polite to the clerk."

ANOTHER JUDGE DECREES N.R.A. UNCONSTITUTIONAL

New Orleans, La., March 7.—In an oral opinion handed down here Judge Wayne G. Borah, of United States District Court, ruled the National Recovery Administration unconstitutional.

In so ruling, Judge Borah denied a petition of the Government which applied for an injunction to restrain the Hammond Box Company Inc. from violating the minimum wage and maximum price provisions of the lumber code.

Judge Borah expressed the opinion that the National Industrial Recovery Act was unconstitutional, particularly in reference to the interstate commerce clause. He said there was no evidence to show that the Hammond Company was dealing in interstate commerce.

New York, March 7.—"Do you like to play bridge?"
If you answer "yes," says Dr. Irving Lorge, research associate in Teachers College, Columbia University, it still doesn't mean you really like the game. The affirmative answer to the question about bridge may mean the person likes the game; that he just likes to gossip; or that he knows John Jones is a bridge fiend and he wants to put through a business deal with him."

FINE SHOWING IN DOMINION'S TRADE BALANCE

Increase in World Trade, Expansion of Empire Business and Growth in Commerce with United States Result in Favorable Balance of \$235,000,000.

Ottawa, March 7.—A favorable visible trade balance of over \$235,000,000, an increase of over \$200,000,000 in total business done with the world, an expansion of over \$95,000,000 in trade with the British Empire, and growth of over \$118,000,000 in business with the United States, are features of Canada's trade for the year ended January 31 last, as compared with the previous twelve months.

Canada's sales for the year ended January amounted to \$657,158,539, an increase of \$104,267,453, and Canada's purchases totaled \$518,307,478, an increase of \$109,142,876.

To the United States exports were \$210,567,857, an expansion of \$42,904,878, and purchases from that country were \$297,507,004, an increase of \$75,663,432.

Business with the British Empire continues to expand, although not so rapidly as with the United States, and is expected that if a trade pact with the latter country is concluded trade with it will grow more rapidly. Exports to the Empire were \$333,964,501, an increase of \$72,317,493, while imports from the Empire were \$158,050,938, an increase of \$23,007,109.

In the twelve months ended January last a total of \$269,311,003, an increase of \$53,605,237, and imports from that country amounted to \$113,278,874, an increase of \$13,327,770.

LIBERALS SEEKING LIGHT ON WHEAT MARKET DEALS

Ottawa, March 7.—While the Liberal Party will not oppose establishment of a wheat board, it is understood it will insist on complete disclosure of the Government's present wheat operations. The party caucus yesterday is said to have canvassed the situation widely.

Western Canada Liberals were advocates of a wheat board years ago and it was said, continued to be so still before any organization was set up, however, it would require to know just what J. I. McFarland had been doing, and what, if any, liabilities had been incurred.

At the same time the Western Liberals voices themselves strongly against any suggestion that Government's bill might contain seeking to reduce wheat acreage in the West.

ENCOURAGING PROGRESS IN TEST OF PNEUMONIA SERUM

Over Two Thousand Boys at Relief Camp Inoculated with Serum and None Suffered from Disease.

Philadelphia, March 7.—J. Rosenau, of Harvard University, last night told the College of Physicians that four years of experimentation in pneumonia immunization serum has shown "promising results."

"I hope no one will leave here with the misapprehension that a cure or prevention of pneumonia has been found," said Dr. Rosenau, after stating that 2,100 boys at relief camps near Boston were inoculated with the serum and none suffered from the disease. Boys in the same camps who were not inoculated suffered from the disease in the normal proportions," he said.

NINE STOWAWAY YOUTHS ABOARD SEALING FLEET

Youngsters, Itching to Get into Sealing Game, Came Out of Hatches Today with Vessels Too Far at Sea to Turn Back and Land Them at St. John's.

St. John's, Nfld., March 7.—Nine young Newfoundlanders, eager to flirt with death on the ice, are bound with the sealing fleet as stowaways. Somehow, they dodged the searchers before they sailed yesterday, and they came out of hatches today with the vessels too far at sea to turn back and land them at St. John's.

Four were aboard Captain Abram Kean's flagship Beothic, the seventy-nine-year-old commodore of the fleet reported by wireless. The Imogene carried three more, and the Caribou had two—all young boys.

Thirty of their fellows, less fortunate, were shipped ashore yesterday before the ships sailed, and put ashore. Perhaps more will turn up as the steamers head north for the seal-killing that begins on March 14 on the heaving Arctic ice.

Every year brings its complement of youngsters itching to get into the sealing game. For them there is no deterrent in the ships that have foundered, in the hundreds frozen to death or killed by fire or explosion. The ice and the seals keep coming down, and it is the life for a Newfoundland.

SCENIC ATTRACTIONS OF CANADA ENDORSED BY PARLIAMENTARIANS

Thompson. While I have not the exact figures I understand that the total number of names on the list will be about 5,800,000. As a matter of fact, I believe that four or five lists have not yet been delivered to the printer, owing to some irregularities and, of course, we can only print them when we receive them from the Franchise Commission.

The total number is 5,800,000 that will leave 1,600,000 names to be put in type, and we can put those names in type at the rate of 90,000 or 100,000 a day, so if we are pushed to it we can put them through in from 16 to 20 days. But if it is not necessary to work so many hours a day, including night work, we probably will not have the lists completed before April 1.

Replying to E. J. Garland, C.C.F. Bow River, who asked if any further amendments to the Election Act were contemplated this year, Mr. Cahoon said he might be under consideration but he had not known of any material alterations to be proposed.

"Or to the Franchise Act?" queried Mr. Garland.

Mr. Cahoon: "I do not think that any amendments to the Franchise Act have been drawn up in the form of a bill. I heard discussion with members on both sides of the House as to whether, in relation to the preparation of the lists, the lists as now being prepared and printed should not be deemed to be official lists for the present year. As to whether the Franchise Act might not be amended so that the preparation of the new lists would begin at a later date than April 1 of this year, that is simply a matter which I have heard discussed but I do not think that any decision has been reached with regard to it, and I do not know that it has become a question of discussion by the Government as a ministry."

Today the House plans to take up the unemployment insurance bill in the committee stage. Most of the sections of the measures have already been passed and it is not expected it will take long to apply the finishing touches to it.

BUSY SESSION

OF W.A. HELD

AT WATERLOO

Routine Business Transacted at Regular Meeting of Waterloo Women's Association — Successful Card Party Held.

Waterloo, March 7. — The regular meeting of the Women's Association was held in the United Church parlors with a good attendance. Following a social hour, a short business period was conducted by the president, Mrs. E. A. Blake. The meeting was opened by singing the doxology with Miss Lucia Graves at the piano and Rev. E. M. Wilson offering prayer. The chief matter discussed was a St. Patrick's tea, which was arranged for following the closing with the mizpah benediction, refreshments were furnished by several members and enjoyed by all.

In the amalgamation of various banks of the province one has been unsung in Waterloo, whereby the business of the local bank, the Banque Nationale has been transferred to the Bank of Montreal in which Mr. R. B. Moyses is the manager.

Under the auspices of the Ladies' of St. Anne of the parish of St. Bernard de Waterloo, a most successful and enjoyable five hundred was held in the Catholic College, where cards were played at sixty-nine tables, proceeds of which will be for the benefit of the needy of the parish. Notary Boulay in his customary efficient manner was performed by Notary L. C. Godbout, of Waterloo. In 1907 The Roxton Mill and Chair Company manufactured 50,127 chairs. The following year a total of 142,180 were put on the market. During the three subsequent years production increased to 170,000 chairs per year. Before industries of the Dominion had been affected by depression, an average of eighty-four men were on the payroll, this company providing sustenance for many homes. Mr. Poirier was recognized as a man of honest endeavor and a benefactor to many.

The Henry Atkinson Co. Ltd. have already taken charge of the plant. Three employees of the Roxton Mill and Chair Co., who held responsible positions, Mr. Hector Goudreau, H. P. Laprade and Louis Plouffe, have been retained in the plant.

It was with profound regret that friends in Waterloo learned on Saturday morning that Mr. Leslie Mizener, of Knowlton, had succumbed to pneumonia after a short illness. Sincere sympathy is extended to the bereaved relatives by hosts of friends.

Miss Kathryn Snodgrass, G.N., of the Shriners' Hospital, Montreal, was a guest of her parents and sister, Mr. and Mrs. F. E. Snodgrass, and Miss Margaret Snodgrass.

Mrs. William Moynan, of Lennoxville, spent the week-end in Waterloo. Among those on whom she called were Mrs. Bridge, Mr. and Mrs. Pearson, Mrs. Irwin, Mr. and Mrs. James Purdy and Mr. and Mrs. James Gaw.

Friends will be pleased to learn that Donald Wilson, son of Rev. and Mrs. W. C. Wilson, who has been seriously ill at the parsonage, is slightly better.

Mr. Ralph Greenleaf, of Montreal, spent the week-end with his mother, Mrs. George Greenleaf, who is ill at the home or her daughter, Mrs. H. C. Wallace, and family.

While here Mr. Greenleaf also visited his sister, Mrs. Corcoran, and Mr. Corcoran.

Miss Elsie Maynes, R.N., of Warden Heights, was a guest on Sunday of Miss Margaret Heron, Western avenue.

Mrs. Edward Goodwill left on Monday for Montreal, where she will visit friends and relatives for a couple of weeks.

REAL COUNTRY BOY STILL

BRED IN KENTUCKY HILLS

Investigator Finds Wide Variety of Articles in Pocket of Thirteen-Year-Old Louisville Schoolboy.

Louisville, Ky., March 7. — The Tom Sawyer era appeared to be on its way out here, with one exception. The exception, Marion Haynie, aged thirteen.

A man who organized an expedition to pocket the contents of small boys' pockets had little luck until he came to Marion.

Marion turned out two baseballs, a sunshade, a handful of beans, two steel balls, a package of chewing gum, a chunk of resin, six bits of kite stick, some string and assorted paper scraps.

The Girl Guides held a well-attended afternoon tea, food, candy and handiwork sale in the Masonic Hall. The hall was very attractively decorated with streamers of Guide colors, flags and troop designs. The tables of food groined beneath their burden of tidbits, which disappeared very rapidly. The fancy work, knitting, embroidery, etc., also went fast but a quantity of it remained unsold. The Brownies looked very cute selling their boxes of candy by the door, which they did with overwhelming success. The attractively decorated tea tables were waited on by a number of efficient Guides and Rangers. The uniforms of the girls looked very attractive as they busied themselves waiting on the guests, who came in large numbers. Shortly after the last guest had left the amount realized was announced. The \$170 received was well earned by the girls, who exerted every effort to make the affair a success. The proceeds will help defray the expense of next summer's camp, as well as going towards the running expenses of this organization which has shown such rapid development in Theford in the last six months.

Miss Una Little spent an evening with her parents, Mr. and Mrs. Irwin Little.

Miss Jean Henderson returned home after spending some time with her cousin, Miss Erma Marshall.

A number from here attended the funeral of Mrs. Richard Davidson. Much sympathy is extended to the bereaved family.

Miss William McDonald and daughter, Bernice, and Miss Lyla Cook were recent guests of Mr. and Mrs. Fred Little.

Mr. George Dinning has purchased a number of cattle in this vicinity.

Mr. and Mrs. D. Lummie and daughter, Laura, and son, Willie, and Miss A. Work were recent guests of Mr. and Mrs. Allan Little.

A number of the young people from here attended the box social at Alderley.

Mr. and Mrs. Wilfred Wright are spending a few days with Mrs. Wright's parents, Mr. and Mrs. William Lowery.

Mrs. James Robertson and son, Wesley, spent an evening at the home of Mr. and Mrs. Fred Little.

Mr. G. P. Smith is not improving as rapidly as his many friends wish.

Messrs. Lorne and Allan Kelso spent a few days with their brother, Mr. Kenneth Kelso and Mrs. Kelso.

Mr. and Mrs. Harold Wright were recent visitors of Mr. and Mrs. William G. Wright, of Millfield.

Mr. Hubert Marshall has recovered from his recent illness.

SHERBROOKE, THURSDAY, MARCH 7, 1935.

One Move Which Is Worth Half a Million New Inhabitants.

The greatest impetus that mind could conceive for the migration to Canada of the better-off Britisher was presented to Canadians a few years ago.

It was that we seat on the vice-regal throne at Ottawa a son of His Majesty King George.

There are four sons of the King, each one of whom is now a grown man we can well be proud of.

We placed a call for Prince George, since elevated to the title of Duke of Kent. Was it received and forwarded through diplomatic circles from Ottawa? It was not.

The petty politicians have been trying to "get Ferguson" rather than devote their time to such work as would be to the general advantage of Canada.

Should the King be persuaded to allow one of his sons to become Governor-General of Canada there would arrive in Canada during his five-year term countless numbers of the finest young men of England, both as tourists and home-seekers.

The Duke and Duchess of Kent, the former Prince George, would be worth to Canada half a million of the choicest men of the Empire. That is an actual fact, apparent to anyone of foresight, who can analyze the cause of an anticipated effect.

Yet with a big project in sight our Ottawa seers would devote their time to erecting a senseless new bank to trade and truck in paper dollars and to incidentally inflate our currency by five hundred millions of dollars, which is the only conceivable purpose of the Bank of Canada.

The avowed purpose of this Bank is to rob the chartered banks of all their gold, reimbursing them only two-thirds of its world marketable value.

We have in Ottawa too many big talkers and small thinkers, too few with constructive ideas.

Their idea of organization is to regiment the people rather than arouse enthusiasm and inspire individualism.

Where Everything Is Glossy on the Surface.

You may travel through Canada from Yarmouth to Victoria, and pass along the routes by road or railroad to the eight provinces, taking a side trip to touch the wee Island and you will see little outward signs of difference in prosperity. Yet each of those nine provinces have a vastly different conception of the cost of government.

Overlapping all stands the great Federal machine at Ottawa where there are spending departments pouring out \$300,000,000 a year. The total yearly spending of the nine provinces, which comprise the broad Dominion, laid on top of the Federal cost of government, falls not short of \$650,000,000 a year. Nor does this include the losses made by the subsidiary commissions set up in the long years since we adopted this feint to hide things from ourselves.

Those who are on the inside are those who appreciate the perilous position of Canada's finances, and they are so fearful of plain language that they make matters appear worse to those who do not understand that a country cannot be sold by either King or sheriff, that it can preserve its integrity and honour though it default on its debts for the time being.

What sort of a monument should we erect to men who would allow our debts to double from 1923 to 1933. In ten years that occurred, but because of a natural increase in population there were more to share that debt.

Take the year 1933: Quebec's increase in expenditure rose from \$7.22 per person in 1923 to \$13.02 per capita in 1933, or an 80 per cent. increase, which was the highest percentage of increase of all the provinces.

Nova Scotia's cost of government in 1933 was \$18.66 per capita, an increase of 75.6 per cent. in a ten-year period.

Price Edward Island, with the lowest per capita cost of \$5.52, got giddy in the period, and rose to \$9.06 in 1933, an increase of 64 per cent.

Manitoba was not to be outdone by the "Joneses" and from 1923 to 1933 its costs jumped from \$9.65 per person to \$13.70, a percentage increase per capita of 42 per cent.

British Columbia shed some of its extravagance and decreased from 33.36 per capita cost of government to \$27.78.

Alberta's per capita cost of government rose from \$14.26 to \$17.18, because their rulers did not have their mind on the race.

Saskatchewan, with a farm-minded government, only jumped from \$9.06 to \$10.49.

Ontario, the much maligned, held her per capita

cost down to \$14.14 per person as against \$12.83 in 1923, the lowest percentage of increase in the ten-year period.

New Brunswick's cost of government per person is \$10.33, a rise from \$8.34 ten years before.

Public welfare grants account for a goodly percentage of the increase. These are like "Contingencies," under the guise of which much money can be wasted.

But the strange part of the analysis of government cost is that the three Maritime Provinces, which have but recently been granted an extra dip in the Public Treasury at Ottawa, already receive the highest per capita grants: Prince Edward Island, \$5.85; New Brunswick, \$3.45; Nova Scotia, \$2.96.

Yet these latter figures show that the three provinces have more nearly adhered to the original idea that the Dominion subventions would be sufficient to pay the actual necessities costs of government. Prince Edward Island, for instance, receives revenue from the Federal Treasury of \$5.85 per person, and her total net expenditure from local revenue is but \$9.06.

Too many figures make us "wooly" perhaps. Ontario was the only province to report a surplus, but after events revealed losses of many millions in the operation of its hydro-power and its public railway, which cast its reported surplus into the gloom, and made it worse off than all the provinces. But Ontario stands four-square for public ownership, be the cost what it may, so long as the politicians have the "paw" for their friends.

As the Toronto Star famously observed on occasion, Ontario chooses to "hug its chains," thinking there is a plug hat look about a huge debt.

Renewal of Building Activity.

We propose publishing a series of plans for modern homes. The range of industries and trades covered by home-building is such as will embrace seventy-five per cent. of all our principal industries.

The construction of large buildings in cities does not distribute employment and wages to the same number of persons in proportion to the same amount of money expended; and it makes no call on many industries on which small house building makes demand.

It is conceded that of any total sum spent on building homes eighty-four per cent. goes ultimately to labour. Workers do not hoard their earnings; they spend them up to the hilt, thus creating more work for other labour.

It's the liveliest merry-go-round of employment which can be conceived.

The building trade has been inactive for several years. We can put new life into it by co-operation, and in doing so create new markets for that basic industry of them all: agriculture.

Would anybody be jealous of us if we helped create a building boom in the Eastern Townships?

New People Make Jobs; They Do Not Take Them.

A demagogue is a person who appeals to the passion and prejudice of his hearers rather than to his reason. His convert is usually called a chameleon.

Immigration into Canada was slowed up in the past years by the workless who felt that a new arrival displaced him or usurped his place.

Every immigrant who enters Canada, backed by sufficient financial support to become established in a self-supporting home on the land, is actually an employer of labour in a considerable scale for several years after his arrival. A house must be built or rehabilitated for him, together with the necessary outbuildings. Lumber, bricks, cement, hardware and other material must be produced by Canadian workmen; the farm machinery and equipment must be produced in Canadian factories; the foundation animals of his herds of live stock have to be bought; the furniture in his new home, cook-stove, heater, beds, mattresses, tables, chairs, carpets, linoleums, chinaware, glassware, cutlery, kettles, pans, lamps—all these are made in factories in Canada; and most of it from produced in Canada materials. There is the warm clothing for winter, made in Canada by Canadian factories and by Canadian workmen. All the groceries he eats are grown in Canada. His boots and shoes are made in our own towns.

Count the wheels that turn and the number of industries which reap a portion of the busy-ness which a family of British immigrants will bring to activity.

Put this against the shift, the shallow and the thoughtless demagogues who too often rule the debates at Ottawa whilst the thinkers rest from thought.

Thirty-one different factories and callings share in the renewed activity; six different trades each gather a bit.

Those who had aught to do with stemming the tide of immigration are blame-worthy for more than they can ever hope to repay, but will that knowledge tend to keep the agitators sane?

NEGRO IS SORRY FOR PARENTS OF BOYS HE KILLED

"I Wish to Apologize and Extend Sympathy to Parents of Children," Said Daniel Sampson Before Climbing Scaffold.

Halifax, March 7.—Sympathy for the parents of two schoolboys he stabbed to death was expressed by Daniel P. Sampson shortly before he went to the gallows today. The thirty-five-year-old negro was hanged for the murder of Bramwell Hefferman, twelve, who with his ten-year-old brother, Edward, was found dead near Chain Lake in July, 1933.

"I, Daniel P. Sampson, on the eve of my execution admit that I killed the two Hefferman boys, but because I was tormented by them," he dictated as he sat in his cell awaiting death.

After thanking the jailer and the assistant jailer for their treatment to him during his year of imprisonment he added:

"I am sorry for what I did and I wish to apologize and extend sympathy to the parents of the children. Unable to write, he put his mark at the bottom of the confession before he was led out into the courtyard.

Twice convicted of murdering Bramwell Hefferman, he was not tried on the second charge. After an appeal to the Supreme Court of Canada had failed and a plea for clemency to the Governor-General-in-Council had been dismissed, Sampson told his counsel, O. R. Regan: "If I have to go up these steps, I can take it."

And he did. Facing sixteen steps to death at 1:04 o'clock, the negro never faltered until he reached the fourteenth. Then he rallied as he heard the hangman say, "You're all right."

The many friends of Mrs. Paul Lapointe, of Coaticook, nee Ger-

brooke, was given by Mrs. Arthur Lamoine, which was very interesting. Arrangements were made for the World's Day of Prayer. The chapter of the study book, "Builders of the Indian Church," was conducted by Mrs. J. W. Robinson, assisted by other members. In the absence of the president, Mrs. H. W. Carr, through illness, the meeting was conducted by Mrs. A. H. Goff. At the close of the meeting, tea was served by the hostess, assisted by Mrs. J. A. Butler.

The gentlemen of St. Peter's Church gave an oyster supper in Victoria hall last week. There was a very large crowd in attendance. Miss Evelyn Stevenson, of Lennoxville, spent the week-end as a guest of her parents, Mr. and Mrs. H. A. Stevenson.

She: "I'm afraid father was very angry, John, when you asked him for my hand."

He: "Not at all, dear. He asked me if I couldn't introduce any young men to your two sisters."

CLAIM BLONDES ARE FAST DISAPPEARING FROM U.S.

Another Discovery Made by American Professor in His Classroom Is That Modern Co-ed's Arm Is Longer than Her Predecessor's.

Minneapolis, March 7.—If gentlemen in the future stick to their preference for blondes, they will have to leave the United States to find them, says Prof. Albert E. Jenks, noted anthropologist of the University of Minnesota.

Professor Jenks has found the first group of tall, blonde people who immigrated to this country—the Germans, English, and Scandinavians—have interbred with later arrivals, the short and more heavily pigmented groups from southern Europe.

The result, he asserted, will be a typically American race—a fairly tall, dark-haired, dark-eyed, and darker skinned than the present average. The head shape, he explained, will be medium rather than broad or long.

Another discovery Professor Jenks has made in his classroom is that the modern co-ed's arm is longer than her predecessors.

In measuring the arm spread of several co-eds to illustrate a textbook maxim that a woman's arm spread is less than her height, he found the opposite is now true. He attributed the change to athletics.

A TWISTER.

A tornado whipping out of the southwest, a towering black cloud with its tail lashing across the city, spread destruction in suburbs of Wichita, Kan., opening the Sunflower state's tornado season by hurling four homes and three business buildings in ruins to the ground. This picture vividly shows the advance of the storm, snapped three-quarters of a mile away by the photographer before he sought shelter.

BOULDER DAM LAKE RISES SLOWLY

Slowly lapping against the tremendous bulk of Boulder Dam, water is rising to form the mammoth lake for the great federal power and reclamation programme in the southwest. On either side of the canyon are shown intake towers as high as a 35-storey building, through which the water eventually will move to the turbines. The stupendous size of the project is indicated by the relative tininess of the building, lower left, at the lake edge.

TRYING OUT A NEW SCHEME FOR SKIERS

On the theory, apparently, that skiing isn't sufficiently hazardous, Fred J. Fortune, of Lake Placid, N.Y., has originated a new winter sport which he calls skijor hurdling. As demonstrated here, it seems to have the advantage that, if the horse falls while taking the jump, it won't fall on the skier, who is supposed to hurdle a setback fence at one side.

FLAX GROWING AREA WILL BE MOVED NORTH

Redwing Flax Expected to Increase Production by Stabilizing Output, According to University of Alberta Professor—Only Variety to Grade 1 C.W. of Seven Under Test.

Edmonton, March 7.—Redwing flax, a new variety that is ten days earlier than kinds usually sown on the central prairie where most flax has been raised heretofore, promises "to move the flax growing area north and to increase production by stabilizing output," according to Dr. O. S. Aamodt, professor of plant breeding at the University of Alberta. Small quantities have been distributed by the university for actual growing tests this year.

Five year test results, both plot and field, showed an average yield of 20 1-2 bushels, almost double the provincial average. Last year by maturing before the early frost, it was the only variety to grade 1 C.W. of seven under test.

Redwing flax is distinguished by five leading features: Early maturing, highest yielding at Edmonton, stiffest straw, most disease resistant and highest quality for oil production, said Dr. Aamodt.

The variety was developed in Alberta by Dr. Aamodt from a selection made in Minnesota in 1923 by Dr. E. O. Stakman and himself.

The old idea that flax was harder on the soil than wheat had been proven wrong, said Dr. Aamodt. But as flax required one hundred and twenty days to mature, it consequently was little raised in central and northern parts of the prairies. Redwing offered a chance to farmers of the north to get more returns. Normally, flax yields two thirds that of wheat so should bring fifty per cent. more. The price has been doubled.

HEIRESS WAS DESPONDENT NIGHT BEFORE HER DEATH

Had Wept and Threatened to "Get Tight" at Late Supper Party a Few Hours Before Being Found Dead in Her Garage.

Pinehurst, N.C., March 7.—Having heard evidence that Mrs. Elva Statler Davidson had wept and threatened to "get tight" at a late supper party a few hours before she was found dead in her garage, a coroner's jury today resumed the inquest into the mysterious death of the twenty-two year old heiress to the E. M. Statler hotel fortune. Last evening the jurors visited the garage where the body was found last week.

Rowland Shaw Pruett, county prosecutor, who announced in advance of the inquest that he suspected foul play, produced a string of witnesses yesterday but failed to uncover the "hole card" he had promised to support his theory.

A newspaperman, Bernard Freeman, testified that Mrs. Davidson said, while attending a supper party at a rural spaghetti house, a short time before she was found dead: "I'm going to get tight."

Freeman added, however, he saw her drink nothing but wine, although there was a highball before her at the table.

Additional evidence that the bride was despondent came from Miss Jane McMullen, of Boston, and John Notragiacomo, waiter at the spaghetti house. Both told of seeing her weeping at the party.

Mrs. Davidson's death was definitely ascribed to carbon monoxide poisoning by Dr. M. W. Marr, who was called immediately after the body was found. Dr. Marr said his original diagnosis was carbon monoxide poisoning, owing to the flushed condition of her skin, and added that he had not changed his opinion.

It is estimated that hundreds of tons of sugar are wasted annually in the bottom of tea cups. This terrible disclosure will cause a big stir in Aberdeen.

FLAMES CAUSE HEAVY DAMAGE AT COATICOOK

Fire of Undetermined Origin Completely Destroyed Two-Storey Building on St. James Street Early This Morning—Loss Estimated at Approximately \$4,000.

Coaticook, March 7.—Gaunt brick walls, their surfaces blackened, were all that remained today as a reminder of the disastrous fire which completely destroyed the property on St. James street belonging to Mrs. Joseph Dupont. The blaze was first noticed shortly after three o'clock this morning and the local brigade remained on the scene for two hours before extinguishing the stubborn flames. The total damage was estimated at about \$4,000.

The origin of the conflagration has not yet been determined. It was discovered by Peter Leclerc, who summoned the local fire-fighters. The fire started in the cell part of the two-storey building and made such rapid progress that the Dupont family had but little time to escape.

The first floor was occupied by Lucien Routhier, who operated a general grocery store, while the lower flat in the second section of the structure contained the Routhier apartment. Mrs. Dupont and her six children resided above the store, while furniture was stored above the apartment. Mr. and Mrs. Routhier were absent in Stanhope and the store was in charge of Mr. Leclerc, who lives a short distance from the premises.

Only the efforts of the local firemen prevented the flames from spreading. The Dupont block is situated in a densely populated section and for a time other buildings were threatened. The firemen, however, got the flames under control after two hours and a half, all fears of a more serious outbreak.

I.O.D.E. HEARD FINE ADDRESS AT STANSTEAD

Interesting Talk on Labrador School System Featured Regular Meeting of Stanstead I.O.D.E. Chapter—Other Notes of Interest.

Stanstead, March 7.—A very largely attended meeting of the Stanstead Chapter I.O.D.E. was held at the home of the vice-regent, Mrs. Bernice McIntosh, on Monday, with Mrs. Albert Young as assistant hostess. Mrs. McIntosh presided in the absence of the Regent, Miss Carruthers, through illness.

The meeting opened with the prayer of the Order, followed by the secretary's report, which was adopted. Mrs. D. R. Parsons gave the treasurer's report, which was approved. Various items of business were discussed and disposed of.

The Chapter voted to contribute to the Silver Jubilee Cancer Fund, and the contributions will be received at the April meeting.

At the conclusion of the business meeting, Rev. George Harrington, rector of Christ Church, Stanstead, was the guest-speaker. Mr. Harrington, who spent several years in Labrador, gave an excellent address on "Labrador Schools."

Mr. Harrington acted as school inspector, with a territory of 250 miles, with scattered settlements, few schools and very crude equipment. Through Mr. Harrington's efforts larger grants were secured from the government and summer schools were established at several centres and excellent results are reported from this work.

Mr. Harrington had a very good collection of pictures of the schools, homes and churches at Mutton Bay, Harrington Harbor, and other centres of this work. This very instructive and interesting address was illustrated by a large map of the coast and surrounding country.

The members felt much indebted to Mr. Harrington for his kindness in presenting this phase of the educational work in Labrador. The

Stanstead Chapter contributes annually to the expenses of the summer schools. An expression of appreciation was given by Mrs. McIntosh to Mr. Harrington for his address and the members all joined heartily in this vote of thanks.

Refreshments were served at the tea hour by Mrs. McIntosh, assisted by Mrs. Young and Misses Burbank and McIntosh.

General Notes.

Friends are sorry to hear that Miss Mary Carruthers is confined to her room through illness.

Mr. Henry Gilbert, of Ayer's Cliff, is spending a few days in Stanstead as a guest of his sister, Mrs. Herbert McCutcheon.

In the evening's game with the Lennoxville High School, the score was four to one.

DEATHS REPORTED

MRS. HENRY DESAULNIERS,
WINDSOR MILLS.

Windsor Mills, March 7.—Citizens of Windsor Mills paid an impressive tribute of respect to an esteemed resident on Saturday morning, March 2nd, when the mortal remains of the late Mrs. Henry Desaulniers were taken from the residence of her son, Ernest Desaulniers, Dearden street, to St. Philip's Church to receive the last blessing of her church and then reverently laid to rest in the Roman Catholic Cemetery.

The death of Mrs. Desaulniers, who passed away suddenly on Thursday morning, February 28th, creates a vacancy in the life of the community which is keenly felt by citizens of all walks in life. This was evident by the large and representative gathering of citizens who attended the funeral.

Leaving the late residence on Dearden street the funeral cortege proceeded to St. Philip's Church, where a solemn mass of requiem was sung. A large number of sorrowing friends, including the Rev. Sisters and pupils of the convent, were present in the church when the body arrived.

Impressive music was rendered by the church choir and at the conclusion of the service, "Nearer My God to Thee" was sung as the body was being taken from the church.

Following the remains were the two sons of the deceased, Dr. George E. Desaulniers, of Lewiston, and Ernest Desaulniers, of Windsor; her daughter-in-law, Mrs. Ernest Desaulniers; her grandchildren, her sister, Mrs. Thomas Flaherty, of Sherbrooke, and nieces and nephews.

As the cortege proceeded from the church to the cemetery the business-men of Windsor showed their respect to the late Mrs. Desaulniers, who had resided in Windsor for almost forty years, by lowering the curtains on all places of business.

The numerous and beautiful floral tributes which were received by the family and the masses, telegrams and messages of sympathy were silent tokens of esteem to one whose familiar figure and friendly nature will be sorely missed.

The body was committed to its last resting place in the family lot where her husband and son are buried and adjoining several lots where her father and mother and other members of the Dearden family rest in eternal sleep.

The bearers, all old friends and neighbors, were: Barnaby, Wm. Ben Brady, David McCarthy, August Provencier and Alphonse and Philias Millette.

Among those from out-of-town who attended the funeral were Dr. George E. Desaulniers, of Lewiston, Maine; Mrs. Thomas Flaherty, Miss M. H. Flaherty, Mrs. A. M. Flaherty, Miss Louise Dearden, Miss M. A. McKenty, Mrs. Raymond Provencier, Mrs. H. Chertier, A. S. Cleary, J. Bourque and J. K. Flaherty, all of Sherbrooke; Miss Vera Bowles, of Boston, Mass.; W. F. Bowles, of Cowansville; Mrs. E. A. Chadey, of Bedford; Mr. and Mrs. Meloche, of St. Francois; Misses B. and E. Desaulniers, James Linahan, Denzil McLaughlin, P. I. Bedard and E. J. Pearson, of Richmond, and J. P. Mullins, of Bromptonville.

VERDUN JUNIOR SEXTETTE WON LEAGUE TITLE

Maple Leafs Scored Six to One Victory Over Victorias Last Night in Deciding Contest of Quebec J. A. H. A. Series—Royals Decline Chance to Meet Verdun.

Montreal, March 7.—Verdun won its first championship in six years when it defeated the Maple Leafs in the final game of the Quebec Junior Amateur Hockey Association title last night. The youthful Maple Leafs trounced the Victorias by six to one in the deciding contest of a three-game series and earned the right to meet the out-of-town St. Francois Xavier squad, Lake St. John contenders and conquerors of the Quebec Technical School, in the semi-final round of the provincial crown. The Chicoutimi aggregation downed the Quebec district winners in a "sudden death" fixture last night.

Definite assurance was given yesterday that the winner of last night's encounter would be the Association's pennant winner. Gus Ogilvie, president of the Royals, announced that his team would not play out of the picture. Ogilvie's declaration cleared up the situation caused by the ineligibility of William Booth, a member of the Verdun squad. Booth was declared ineligible by the Quebec Amateur Hockey Association which had ordered a replay of the semi-final series between the Leafs and the Royals. Verdun ousted the favored Royals in the semi-final round to produce the biggest upset of the local amateur season.

The Victorias, conquerors of McGill in the other semi-final bracket, won the first game against Verdun by five to three. The Leafs captured the second encounter by a count of four to three and last night won the deciding contest handsily. Conrad Bourcier, brother of one of the leading scorers in the Senior Group this year, paced Verdun to victory by scoring three goals and furnishing an assist to the points scored by Majean. Tracey led the play-makers with three assists, while Penney and Croghan were the other Verdun marksmen. Munday notched the Vics' lone point, one minute before the end of the third period.

THREE RIVERS LEADS ILE MALIGNE BY TWO GOALS

Three Rivers, Que., March 7.—Despite a last-period rally by the Lake St. John outfit, three Rivers last night defeated Ile Maligne by five to three in the first of a two-game, total-goal series for the right to enter the finals of the intermediate playdowns of the Quebec Amateur Hockey Association. The second game will be played at Kenogami on Sunday.

Three Rivers rapped home three goals in the first period and added two more in the second stanza. Ile Maligne took advantage of Three Rivers' net falling back on the defensive with the result they scored their three tallies in the final frame.

BISHOP'S CO-EDS DOWNED LENNOXVILLE STUDENTS
Playing in the campus arena last night, Bishop's University defeated the Lennoxville High School by three to one in a girls' exhibition hockey fixture. The co-eds showed better form than in their last game with McGill and could have increased their margin considerably, keeping play almost entirely in the visiting team's territory.

Kay Speid, blonde centre on the Bishop's roster, was the game's individual star. Back in the line-up after an illness which kept her out of the Bishop's-McGill contest, Miss Speid scored the three Bishop's tallies unassisted.

Mary Stewart opened the scoring for Lennoxville early in the first period and Miss Speid equalized to leave the count one-all at the rest interval. In the second frame Miss Speid scored twice to give her team a three to one edge. The final stanza was scoreless.

The fixture was handled by Harry Pibus and Syd Raycraft—two of the principal reasons why no penalties were inflicted.

The teams were:
Bishop's: Goal, B. Eardley-Wilmot; defence, B. Brewer and C. Parsons; centre, C. Speid; wings, E. Titcomb and K. Millman; subs, L. Wiggitt, O. Reid and M. Marlin.
Lennoxville: Goal, M. Turner; defence, R. Hodges and C. Parsons; centre, M. Stewart; wings, B. Everett and M. Searon; subs, M. Morrison, J. Speid, F. Baker and F. Butler.

BISHOP'S WON HANDILY FROM LOCAL SCHOOL

Collegians Trounced Sherbrooke High School by Fifty-Six to Twenty in City and District Basketball League Fixture Last Night.

Bishop's University finished their City and District Basketball League schedule in whirlwind fashion last night when they routed the Sherbrooke High School by a score of fifty-six to twenty. Dominating play at all stages of the encounter played on the University gymnasium floor the students assumed an early lead and coasted through to their one-sided victory. Last night's triumph fully atoned for the thirty to twenty-nine decision the High earned over Bishop's a month ago.

"Rusty" Baird was Bishop's ace marksman with thirty-five points to his credit. Standing under the visitors' basket, Baird converted nearly every rebound to chalk up his imposing total. Ian Hume was runner-up in the individual scoring column with fourteen points. Ken Jackson led the badly beaten Sherbrooke boys with eight points.

Bishop's victory sent the collegians into undisputed possession of second place behind the undefeated Y.M.C.A. Blues who will represent the local circuit in the provincial intermediate playdowns. The Y. Reds have a chance of dislodging Bishop's from the runner-up berth, while the High School can tie the collegians by winning their last scheduled game. The Reds have six points with three games remaining on their schedule.

The teams and individual scorers follow:

Bishop's: Stevens 4, Rosenthal, Hume 14, Baird 35, Royal 1, Johnson 2, Mutton, Mayhew and Rollit. Total 56.
Sherbrooke High: Wootton 6, Vlahakis 2, Mullin 2, Jackson 8, Gillam 2, Jowett, Bishop, LeHury and Nutbrown. Total 20.

Ben Grime handled the game and awarded fifteen penalty shots. The winners converted two of their ten free tosses, while the High School realized two out of five.

DIRECTORS REGISTERED A SURPRISE WIN OVER PANCO

The Board of Directors sprang a surprise in the Y.M.C.A. five-pin Bowling League last night when they captured two strings from the strong Panco quintette. After dropping the first string by eleven pins, the Directors rallied to even matters and then finished one point ahead of their opponents in the deciding match.

In the other game of the evening the Record proved no match for the Page-Sangster Reds after making matters interesting in the initial string. The Reds captured three strings to consolidate their hold on the leadership.

"Manny" Bourguignon, of the Reds, and Bill Sullivan, of Panco, shared individual honors. The pair scored identical totals of 240 for a single string, while Bourguignon was the only player to better the 600-mark for three strings, posting a triple aggregate of 609.

Time champion to enter the Dominion tournament. Douglas Grant, of Halifax, men's singles title-holder, will not defend his crown owing to ill-health.

In the first match of the tournament today Margaret Robinson, of Ottawa, decisively defeated Kay Palm, of Toronto, by 11-7, 11-3.

Mrs. Anne Kier Patrick, of Vancouver, present title-holder in the ladies' singles event, advanced to the second round when Miss E. Connolly, of Cornwall, a post entry, defaulted. Women's singles matches occupied the stage this morning and were scheduled to reach the semi-final round by noon.

OVERSEAS HAVE SUPPLIED MUCH HOCKEY TALENT

Suggestion Made that Opposition to Montreal Canadiens in European Tour This Year Might Come from an All-Star Team of British-Born Players.

New York, March 7.—Since the Montreal Canadiens are definitely committed to a European tour after the Stanley Cup play-offs this spring and no rival team has yet decided to accompany them, an unofficial suggestion as to the opposition might not be amiss.

Les Canadiens, theoretically an all-French team, figure as a "natural" with the cash customers. To provide an international angle for the tour, it has been suggested that the opposition might come from an all-star team of British-born players. Searching through records during the open season for all-star teams brought to light a complete squad, from manager down to trainer and spare goalie, of men born in the British Isles. They all learned their hockey in Canada, however. All but one or two of them are members of National Hockey League experience.

The Canadiens might contribute two of their regulars, goalie Wilf Cude, born in Barry, Wales, and Jack Riley, centre, from Berkenhead, Ireland, borrowing a couple of bona fide French-Canadians from other teams to fill their places.

Dunc Munro, of Glasgow, former player and coach with the Montreal Maroons, could manage the squad, and Tom Dyer, who came from England and once conditioned the Chicago Black Hawks, would be the trainer.

The rest of the squad might well line up in this fashion:

Goal, Wilf Cude, Canadiens, born in Barry, Wales; defence, Alex Smith, Americans, born in Liverpool, England, and Irving Frew, St. Louis, born in Kilsyth, Scotland; centre, Jack Riley, Canadiens, born in Berkenhead, Ireland; wings, Sammy McManus, Maroons, born in Belfast, Ireland, and Jack Beattie, Boston, born in Cumberland, England; subs, Andy Aitkenhead, Vancouver, born in Glasgow, Freddy Robertson, Cleveland, born in England, Red Jackson, Boston Cubs, born in Ilstock, England, Lou Holmes, Chicago, born in London, Rommy Anderson, Detroit Olympics, born in Glasgow, and Bob Kirk, Vancouver, born in Aberdeen, Scotland.

CHANGE OF SCENERY IS EXPECTED TO HELP RUTH

West Palm Beach, Fla., March 7.—Perhaps it isn't the smartest thing in the world to go around boasting the other fellow's business, but Will Harridge, president of the league that lost Ruth, conceded frankly today that the "Babe" probably is in for a robust season as a Boston Brave.

"If he had stayed with the Yankees as a player," said the American League head as he dropped casually in for a word or two with the Browns, "he would probably have been just another outfielder."

"But this change of scenery, the inspiration he will get from the fans all over the National League circuit, this startline all over again in a new league, will do wonders for him."

It is with the deepest regret that Harridge speaks of the passing of Ruth, one of his personal heroes, from the league where he achieved fame.

He said before that there was

nothing else to do. The "Babe" rated his chance to become a manager. There was no such chance available in the American League. Therefore in all justice and much as it hurt, the "Babe" had to have his release.

Harridge also admitted that the grief over departure of the Bambino may become even more acute when the "Babe" swings around the National League circuit for the first time with the Braves.

"He will fill every park in the league," he said.

FORMER SHORTSTOP ACE IN COMEBACK ATTEMPT

Bradenton, Fla., March 7.—The Florida baseball camps are buzzing with comeback hopes this spring, along with the perennial ambition of the rookies, but none carries more drama than the return of Charley Gelbert.

Gelbert's left foot was nearly shot off in a hunting accident more than two years ago, abruptly cutting short the career of one of the greatest shortstops in the major leagues.

Gelbert today is roaming his old spot in the infield of the St. Louis Cardinals with agility, speed and confidence that is nothing short of amazing as well as a tribute to surgical skill.

Always a strong batsman, Gelbert is heavier and showing as much if not more power in batting drill than he ever did, all of which contributes to one of the toughest decisions Manager Frankie Frisch ever has had to make.

Leo Durocher, captain and shortstop of this championship club, had one of his best years in 1934. His spirit and pep meant much during the team's dash to the pennant. He was a World Series hero. He has been around longer but he is only a few months older than Gelbert. Both are twenty-nine years of age.

So it looks as though Gelbert will have to fight it out with Durocher, who will have the edge, at least until the former Lebanon Valley College star proves he can come all the way back.

AT THE TRAINING CAMPS

St. Petersburg, Fla.—Another overflow crowd was looked for today

as the Braves put on their first practice game of the season.

The crowds that have been haunting Waterfront Park since "Babe" Ruth's arrival will be disappointed, however, if they anticipate seeing the big fellow in action. Ruth, Maranville and Hogan are slated for a day of rest.

Biloxi, Miss.—The Senators added two more names to the training camp roster today with the arrival of third baseman Cecil Travis and outfielder Freddie Sington. They were still waiting, however, for Lyn Lary, holdout shortstop, to put in his appearance.

Sarasota, Fla.—Manager Joe Cronin, of the Red Sox, who has been searching high and low for a relief pitcher, believes he has found his man in the right-handed Jack Wilson.

Tampa, Fla.—Two of the Cincinnati Reds were on the hospital list today. Don Brennan, leading pitcher with the team last year, entered a hospital last night for treatment of a slight attack of influenza, and was joined shortly thereafter by Gil Campbell, catcher, who left training with a temperature of 101.
