CATHOLIC SCHOOL OPENS AT QUYON

Constable Richardson Covers Three Local Week-end Accidents

Three accidents occured on No. 8 highway over the weekend, all investigated by Q.P.P. Officer John Richardson.

Saturday, September 24, at about 8 p.m. two cars had a head-on collision at Murrell's, and were totally destroyed. One car, owned by Ed. Moore of Rupert, Que., was driven by Melvin Dempsey of Wakefield. Mr. Moore, a passenger in his own car, sustained severe lacerations about the face and was admitted to Pontiac Community Hospital. The other car, owned by Valla Belland of Campbell's Bay, was driven by Wesley Belland, Valla's son. René Lepine, of Campbell's Bay, was treated for minor injuries at Pontiac Community Hospital and allowed to go home. The drivers of the cars were uninjured.

About two hours later an accident occured on No. 8 in front of Sheppard's Garage. A car owned and driven by Darrell Davies, of R.C.A.F. Rockcliffe, headed east on No. 8, slowed down, and in so doing was hit from behind by a car driven by Telesphore Chabot of Bristol Mines. Neither man was injured, but both cars were severely damaged.

On Sunday, about 1.30 p.m. three cars were headed west on No. 8 highway. As they approached McKee crossroads, the lead car slowed down, as did car number 2. The third car thereupon hit the car number 2, and pushed it into the lead car. No one was injured in the accident and total damage to all vehicles has been estimated at $400. Harry Creighton and wife, of Wyman, were in the lead car; Mr. and Mrs. Andrew Fausse of Hull were in car 2; and Mr. and Mrs. Henrick Van Eyk of Ottawa were in the third car.

Billy Graham Special Train

It's all aboard on the Billy Graham Special! At 9.20 a.m., Standard Time, on Saturday morning, October 8, a Special Train will leave Pembroke for Toronto's Exhibition Grounds. Travellers on this Special Train will be taken direct to the Exhibition Grounds and will have reserved seats close to the speaker in the auditorum.

It is generally anticipated that many people will not be able to get into the auditorium in Toronto as wherever Billy Graham has spoken in the past there has been a huge crowd out to hear him.

In U.K. special trains came to the Billy Graham rallies from all over England and Scotland and the Continent. Now that he will be in Canada, special trains are being arranged to attend his special Saturday Thanksgiving Rally, coming in from various parts of the country.

For those people in the Ottawa Valley who would find it more convenient to board the train at Haley's Station, this Billy Graham Special will make a stop there at two minutes before ten o'clock, October 8.

It has been suggested by the committee in charge of the train that people going from lower Pontiac drive their cars to Haley's, leave them there and pick them up again the following morning, when the Special Train arrives back.

Two Italian musical entertainers have been engaged to lighten the long hours of the train ride. A large turnout from this district is expected.

School Cafeteria Back In Business

The High School Cafeteria is operating again this fall with Mrs. Roy Dagg as cook and Mrs. Beatrice Sparling as assistant cook.

The Cafeteria is proving even more popular with the Students as time goes on and those in charge are very grateful to all who have come in to lend a hand with the work in the kitchen.

There have been a number of donations to the Cafeteria this fall and it might be well to point out that donations of food, vegetables, fruit or other things are always most acceptable.

For the month of September the following donations are gratefully acknowledged:

Mrs. Gordon Richardson, 2-6 qt. baskets of apples; 2 boxes of apples.

Mrs. John Richardson, 1 box of tomatoes.

Mr. Joseph Kilgour, 1 box of apples.

Mr. Walter Kilgour, 1 bag potatoes.

Mr. Seldon Langford, 1 box (250) apples.

Miss Myrtle Hodgins, 1 box of apples.

Bristol Couple Celebrate 25th Anniversary

Mr. and Mrs. Robert Laird of Bristol, Que., were married twenty-five years ago by the late Rev. R. D. Smith in St. Andrew's United Church Manse, Maryland. Mrs. Laird is the daughter of the late James Findlay and his wife, Mary Jane Lowell of Wyman, Que. Mr. Laird is the son of the late John Hamilton Laird and wife Martha McJanet of Bristol, Que.

After their marriage they took up residence in Montreal, where Mr. Laird was employed by the T. Eaton Co. Thirteen years ago they returned to Bristol where they farmed until last year, when they retired and built a home in Bristol. They have two children, Margaret and John both in Ottawa.

Mr. and Mrs. Laird leave this week for Volis, Lachine and Montreal where they will visit friends.

Anniversary Services At Wesleyan Methodist Church Shawville

Sunday, September 18 was Anniversary Day in the Wesleyan Methodist Church in Shawville. The guest speaker, Rev. Dr. David A. Rees of Elmira, New York, brought challenging messages from the word of God. Dr. Rees is President of the Rochester Conference of the Wesleyan Methodist Church.

Mr. Jack Smith of Ottawa was song leader and soloist for the three services. The response to the pastor's appeal for $800.00 to clear the mortgage on the church was more than realized in cash and pledges during the day.

To Attend Co-op Convention

Mr. Grant Elliott, Campbell's Bay, Mrs. Henry McCord, Charteris, Mrs. Gilbert Telford, Mr. Clarence Dean, Mr. and Mrs. Secil Sly, of Shawville of the Pontiac Co-op Medical Services will be attending the Co-op Convention being held

Bishop Smith Blesses St. Marys

Sunday was dedication day at St. Mary's School in Quyon. Bishop William Smith of Pembroke was present at the ceremony to officially open the new eight classroom Catholic school recently completed by Conrad Forget, St. Jovite contractor.

After personally blessing each of the classrooms and placing a crucifix above the South window, Bishop Smith, followed by a procession of altar boys, the St. Mary's girls choir, priests from the surrounding district, many sisters and a large congregation of parents and children of the school, proceded into the auditorium for the afternon's assembly program.

Father Wingle was the master of ceremonies at this program and welcomed all the visitors to this blessing of the new school. The people of Quyon, said Father Wingle, have learned well the lesson portrayed in the picture of Christ and the children. He further said that a true education means education of the whole man—physical, mental and moral. "Develop all three and you have a fully developed man", said Father Wingle.

Facilities have been provided at St. Mary's to develop the children of this locality to the full. Thanks were given to Almighty God, the Bishop, the Board of Commissioners, the contractors, architects and especially to Ray Johnston, MLA, without whose help the school couldn't have been built, and to Paul Martineau, Campbell's Bay barrister, whose help was great.

Raymond Johnston spoke briefly telling how the school actually was started in 1948. At that time the School Board knew it needed either a new school or an addition to the old one. There were differences of opinion at first but now that it is all over and the school is an actuality, Ray expressed the hope that these differences will be ironed out and all will work together.

Bishop Smith, central figure of the afternoon, said he felt the work that had gone into the building of this school exemplified a motto his class used at college. "Ad Astra Per Aspera" was the motto which in English means "To the stars through difficulties".

"All our difficulties have been temptations from Almighty God to try our faith", said the Bishop, "but the faith of the people of Quyon has withstood the difficulties for the benefit of Catholic education."

"A school always means sacrifices to be made" continued Bishop Smith. "I hope whatever sacrifices are asked of us all we will be prepared to meet them."

He then explained that the Catholic schools included establishing a moral foundation, the intermingling of the moral code with the regular studies of the children. This, he felt, was unique and wortn preserving.

"I know you will love your school. You have a school here which is second to none. I know you will be loyal to all who work for and in this school".

Stating that the first obligation to educate the child rests upon the parents, Bishop Smith said that certain of this education must be handed over to good Catholic teachers and that cooperation between those parents and teachers was essential. He urged the formation of a Parent-Teachers Association for 'in union there is Catholic strength'.

" From behind these desks", said Bishop William Smith, "will come all the important people who will give direction to the welfare of our country."

In his closing remarks the Bishop hoped for more vocations in future and stated that if the faith that is handed down to Catholics is to be the force that Almighty God wants it to be—if Catholic parents will realize their responsibilities as an example in the world—"we need fear nothing for the future of our land".

Gerald Desabrais, tenth grader at St. Mary's, presented a Citation of Thanks to the School Board on behalf of the whole student body. Chairman Basil Stanton replied on behalf of the Board, in turn thanking the Bishop and the Sisters of St. Joseph and all the people of St. Mary's Parish.

Not to be forgotten in the day's festivities were the children who were graciously granted a holiday Monday by the Bishop in honor of his visit. The crowd of witnesses to this celebration which overflowed the large auditorium sang "God Save The Queen" to close the meeting.

Justly proud of their new school, the School Board and their wives, the lay teachers and their husbands, the teaching Sisters, Ray Johnston and Mrs. Johnston and Mr. and Mrs. Paul Martineau attended a special banquet afterwards at the Gavin Hotel. At this dinner a pen and pencil set was presented to Ray by the School Board in consideration of his great assistance in all their endeavors.

Members of the School Board which saw the completion of the new school are chairman Basil Stanton, Lennox Gavin, John Robinson, Donald Proulx, Hilliard Murdock and Secretary - Treasurer Basil Murphy. The architect and contractor who received special mention by the Bishop for the excellence of their work are Rene Richard of Hull and Conrad Forget of St. Jovite.

(Continued on Page Five)

"Develop the physical, the mental and the moral and you have an educated man", said Father Wingle, standing above. Seated is Bishop William Smith surrounded by the Board of School Commissioners of St. Mary's School.

Dance Classes To Start At Theatre

Miss Sylvia Casey, dancing instructress of Ottawa, has announced that registration for tap dancing classes will take place in Shawville on Saturday, October 1. Girls and boys of all ages will be included in the classes this year which will take place at the Shawville Theatre on Saturday mornings.

Previously postponed because of the unavailability of the school auditorium, the classes will now proceed without hindrance. Mr. Ebert Richardson, owner of the Shawville Theatre, has offered the use of the Theatre and the piano at no cost to Miss Casey and her students. The Theatre will be heated during the winter months and classes will continue to be held there until such a time as the Clarendon School Board decides to allow this group into the school without charge. If necessary, the dancing classes will be held in the Theatre all through the year and from the number of prospective students there is promise of a better than ever dancing recital in the Spring.

Jamboree Scouts Guests Of Rotary

Shawville Rotary Club had the pleasure on Monday night of attendance of six of the Scouts from Pontiac who attended the International Jamboree at Niagara-on-the-Lake. The six Scouts were Murray Moore, Pontiac Patrol Leader; Durrell Smith, Patrol Second Irwin Wilson; Jackie Campbell (Bristol); Bob and Stewart Stark (Stark's Corner). Bill Hodgins, Patrol Quartermaster at the Jamboree, was not able to attend the Rotary meeting.

Murray Moore and Bob Stark gave the members brief descriptions of some of their interesting and amusing experiences at the Jamboree. Rotarians Cliff Garrison and John Tolhurst, who had both visited the Jamboree, also gave accounts of their visits. From these various sources the Rotarians learned that the Jamboree was something everybody should have seen; that the Pontiac Patrol acquitted itself well, and that the Canadian group of scouts at the Jamboree was held in high regard by all groups at the Jamboree.

Shawville Rotarians travelled to Quyon last Sunday to hear Rev. Frank Lawler, a Rotarian in the Shawville Club, deliver his farewell sermon in Quyon. Rev. Frank leaves this week for Ottawa where he will be assistant at St. John's. President Clare Jacques voiced the feelings of the Club, when, on Monday night he extended to Rev. Lawler the best wishes for his continued success.

It was decided to continue the peanut drive on Thursday night by a canvass of the main roads of Clarendon Township.

Bryson Lions Club Turkey Shoot

Marksmen from all the centers around Bryson attended the opening Shooting contest for Turkeys, a the local Rifle Range, Sunday, sponsored by Bryson Lions Club. Keen interest was shown by marksmen from Calumet Island, Litchfield, Fort Coulonge, Portage du Fort, Campbell's Bay and Shawville. The winners announced were James Benoit, Angus Benoit, Maurice Hamelin, Calumet Island; E. Delorme, Portage du Fort; Frank MacDonnell, Donald Olmstead, Bryson; Ovide Tanguay, Portage du Fort, won the Forest Inn Trophy. Lion members in charge were J.L. St. Pierre, Elmer Wall and Ken Dugan.

NEARSIGHTED RETIREMENT

We were intrigued with the true story of the man who went to live in the country, which appears on this page.

The apparent moral is that rural areas should resist the temptation to expand their economies. Looking more closely, the real moral seems rather to be that the businessman, seeking a rural atmosphere, should have taken care to settle in a less progressive centre than the one he chose. To establish a home not far removed from a city, and in a town supporting an aggressive Chamber of Commerce, appears to us to have been a rather short sighted choice.

It seems obvious that the industrial expansion would in any case have taken place, and that the businessman's participation could have done no more than hasten it.

Surely it is futile to contend that industrial expansion is not to be desired. The Bureau of Statistics has prepared data showing the impact, at the retail sales level, of the addition to a community of 100 families. The economic consequences are known to be quite startling. So here's to more, and bigger expansion.

HERITAGE OF PRINTING

National Newspaper Week is a good time to look back on this medium which has played so great a part in developing our own country, at the same time keeping it in touch with the events of the world outside. A newspaper is defined as "a daily or other printed paper containing news or intelligence of past, current or coming events, with comment, citicism or discussion on such events by editors or contributors." The Peking Gazette is said to have been the first printed newspaper, and the oldest daily journal in the world, first issued about 1340 A.D. The first specimen of the regular newspaper in England was issued in 1622 under the title "The Weekly News from Italy, Germany, etc.", while the dawn of the newspaper in Europe is credited to the Frankfurter Journal, started in 1615.

Canadian weekly newspapers came into being in answer to the demand of the early settlers in a new country for news not only of their own village but of the world. These oldest of our weeklies carry a much larger percentage of news of Europe than of their immediate locality. They also acted as Hansard and reported the proceedings in parliament in full. As the country grew this trend was reversed and today, in the weekly newspaper of Canada you will find emphasis on the local scene, the municipal government, the schools and churches and inlustrial activity. News of the world comes to them in daily papers which rapid transportation has made available in a matter of hours in the eastern and middle sections of the country where towns and villages lie close to the big cities. It is not unusual to have five or six daily papers coming into such a town and to attempt world coverage against there odds would be ridiculous.

Nevertheless, the weekly newspaper in Canada is still the heir to all the experience, the struggle and the success which was secured for it when freedom of the press was born and as such stands.

A Visitor Told Us This Story

It seem that this fellow was endowed with the knack of convincing others of the desirability of his merchandise and the attractiveness of his price. With this combination of business acumen he soon acquired sufficient material wealth to consider retiring and enjoying the fruits of his labours. It had been his ambition to leave the maddening hustle and bustle of the metropolis and seek the relative peace and quiet of the country. Iiving costs, he felt would be lower and thus some economies would also be effected.

In company with his family a beautiful home was purchased in a small Ontario village, within commuting distance of the city. The family were thrilled with the rolling landscape, the generous garden, the friendly general store, the quaint but practical oiled road and in particular the beautiful little white church, shaded by maples that stood as a landmark at the curve of the country road. Life settled to a scene of pastoral bliss.

A neighbour asked our friend if he would help on the Chamber of Commerce—the village needed industry and more business. With some reluctance, our man stirred from his inactivity and applied his latent talents to "putting the town on the map". As in business he was extremely successful, and soon industries were convinced that this was the place to locate—low taxes, available labour—cheap real estate.

It soon came to pass that the school was inadequate to handle the influx of families. Sewers, water mains, sidewalks and paved roads were a "must". The friendly chief had to hire a staff to handle the policing problems. A supermarket and a shopping centre saw the possibilities and soon located. Parking meters did not solve the parking and traffic problems. The weight of heavy tractor trailors now servicing the main industries played havoc with the roads. A layoff at one of the local plants had compounded the welfare problems. Taxes, of course, went up.

While his wife was attending an emergency meeting of the New Hospital Board, our friend was driving home with a neighbor from jury duty (a stabbing in one of the new housing developments) when he was asked for funds for a new church. (It seems that the little white one is right in the middle of a projected cloverleaf).

We understand that our man has sold his house, and will return to the peace and quiet of the city.

OTTAWA Report:
by Anthony J. Wright

Ottawa—Canada's giving an NRX atomic reactor, to be built here, to India was a smart, diplomatic, Colombo plan move. Why? Because for once Canada has done something, in addition to the smallish $25 millions she gives S. East Asian countries annually, to practice what she preaches. Mike Pearson's international philosophy is that the awakening of the Asiatic nations is this generation's most important change, not the upsurge of creeping Communism and Kremlin imperialism. Hence "have" nations like Canada must help "have-not" peoples to better their economies, before assailants from outside take over Asia physically pretending they want to succour the poor and teach the unlettered.

This is no "used, slightly shop-soiled" reactor we are giving India. It is the same type as the one that cost us $11,000,000 in 1946 and, at Chalk River near here, has been turning out isotopes for farm, factory and hospital use by the thousands since. It has also helped our scientists figure out how to get saleable electricity from nuclear fission. These things India, under dapper 46-year-old Dr. Homi J. Bhabha, formerly an associate of Ernest Rutherford at Cambridge University, will be able to do. The Canadian gift makes India, already well advanced in atomic studies, the nuclear science leader in Asia. It tends to wipe out the superiority of Red China, atomically speaking, over her neighbors. The USSR has helped China set up its nuclear shop. Now India provides a counter-weight. She will invite scientists from other lands, including China, to use the facilities of the Canadian gift. The pile will produce 40,000 kilowatts of power. (Canada is building a new one for Chalk River to develop 200,000 kilowatts and to cost $40 millions.)

India, a land of terrible poverty, great deserts, fertile fields, needs atomic electricity badly—her rivers flood and dry up too easily for many of them to produce hydro power. She has a mammoth job in feeding, teaching, clothing and healing her 300 million folk, most of them unable to read or write. External Affairs is like a cat with two tales over India accepting NRX.

• • •

Let's get back to Ontario. Mr Solon Low, Social Credit leader tells me he's all set for a busy tour of Ontario between the 10th and 21st of October to visit Cornwall, Napanee, Belleville, Lyndhurst, Toronto's Hart House Club, Havelock, Oshawa, Simcoe, Kitchener, St. Thomas and London. He meets British Columbia's successful (28 seats out of 48 in the Legislative Assembly) S.C. group in Vancouver October 28 and attends Toronto's Social Credit convention of the Ontario branch on November 4.

The feeling of Mr. Low is that the next general election will see a spread of support down east for his party. Ontario is their next target. They will have a full list of candidates for all seats at the 1957 General Election, he says. He, as well as George Drew, now on a two-month, 12,000-mile tour of Canada, and Mr. M. J. Coldwell, soon to begin a six-week trip through every province, believes that Canadians are wearying of the present government. They seem to think that a new Liberal team, not expected to be as strong as that of Mr. St. Laurent and Mr. Howe, will not get as much support as the Liberals have had since 1935. The Opposition, as it has for 20 years, wants a change. Does the country?

It's hard to say. it's always seemed a matter of mathematics to me Can four parties survive, strongly nationally? Some think that Conservatives and Social Credit should merge, for practical reasons, not because they care very much for each other. The first aim of all politicians, however high-minded they may think they are, is to get into power, as well as to Parliament. You need more votes than others for that. Can four parties divide up the 265 Canadian seats so as to get power in turn when only one of the four differs radically from the other three, viz: the C.C.F. (If you have four mice in a cage, three white, the fourth (the C.C.F.) brown and most folk prefer white mice, they are not going to make much of an act of choice between the three white ones. Their choice will be "brown or white". Having rejected brown, let's say, the white one they are used to, i.e. the Liberal party, will do.) In politics, as well as a party, you have to have an issue—you cannot just be against sin, like the man on the next platform. You have to get folk mad about something—right now most Canadians are just mad about Uncle Louis, that's why Liberals are glad he's still active.

Cap's Corner

There was almost a 100% turnout of the Wolf Cub Pack last Wednesday and everyone is registered except four. Owing to the regulations any Cub not registered will have to go home next week for the fee since he is not insured unless his fee has been paid. Sorry, fellows, but that is the score. There has been quite a number of promotions appointing Junior Leaders to take the place of those who have "Gone Up" to the Troop. These will be listed later when the dust settles and we finally get the rool in order. Bagheera, Baloo and Raksha were all working very hard in giving instruction and keeping the records correct. The new Pack Progress Chart has arrived and that will be posted on the notice board showing the standing of each member of the Pack. In giving the Grand Howl the Pack has been trying to turn on one of the lights that has burned out and while they made it flicker last night, they expect to do the trick next week. On checking I see that there are two Cubs who are 11 but who only have their 1st Star. From the way they tied into what they need, two more will be going to the Troop, eligible for their Leaping Wolf Badge when they qualify as a Tenderfoot.

A number of white specks were noticed in the sky near the sun, by Mr. Melvin Beattie and he reported it to a Ground Observer. They look like weather baloons through powerful glasses but the Air Defence Filter Centre to which they were reported, took no chances and passed it on to those above for action. Thank you Sir, very much. We are always glad to hear about anything like that as you never know what form an aircraft may take in coming over this country of ours.

Wolf Cub Parents: Please note—Wolf Cubs are required to keep their own room neat and tidy, shine their shoes and hang up their clothing. Please see that they do these things and help them with what they are doing at Cub meetings. Get them to show you how to tie a Reef Knot or a Sheet Bend, Bowline or Clove Hitch. Thanks.

Twins Baptised At Presbyterian Church

Fort Coulonge — St. Andrew's Presbyterian Church was the setting for a very interesting event on Sunday morning, when the twin daughter and son of Mr. and Ernest Gricken were baptised. The little daughter received the name of Bonny May, and the little boy Ronny Michael. Mr. Norman Kenny sang a solo in keeping with the occasion. This is the first occasion, as far as the records of the church show that twins have been christened in the church. Rev. C. Younger-Lewis took as his text St. Luke I: 63 and preached a very interesting sermon. Mr. W. H. Kenny Jr. presided at the organ.

Murray - Stephens Wed At Shawville United Church

Miss Jean Stephens, R.N., daughter of Mr. and Mrs. Thos. Stephens of Shawville, became the bride of Mrs. James Grant Murray, son of Mr. and Mrs. Andrew Murray of Campbell's Bay, at 3.00 o'clock in Shawville United Church. The marriage was performed by Rev. H. G. Lester of Shawville.

The church was decorated with baskets of fall flowers.

The bride was given in marriage by her father and was attended by Miss Carol Stephens as Maid of Honor for her sister and Miss Sonia Prendergast, R. N., of Ottawa as bridesmaid. Mr. Lyola Roach of Ottawa was grooms man. The ushers were Mr. Alvin Murray and Mr. Delbert Stephens. Mrs. Edgar Hodgins played the wedding music and Miss Kay Woodley sang "The Lord's Prayer" and "Because".

The bride chose a floor length wedding gown of chantilly lace and net over satin. Her matching headdress was finger tip length and she carried red roses and carnations, with streamers of ivy.

The reception was held in the United Church reception hall. For going away the bride wore a brown wool flecked tweed dress with brown and yellow accessories. For their wedding trip they visited Quebec City and Eastern United States.

On their return they will make their home in Shawville.

Out of town guests were: Mr. and Mrs. Andrew Murray, Mr. and Mrs. Lloyd Elliott, Mr. and Mrs. James Carswell, Mr. and Mrs. Lloyd Kensley, Mr. and Mrs Fred Martin, Mr and Mrs. Oswald Cuthbertson, Mr. and Mrs. James Ostrom, Mr. and Mrs. Emerson Smiley, and Mr. Bill Elliott, all of Campbell's Bay; Mr. and Mrs. Ivan Prendergast, Mr. and Mrs. Peter Bakker, Mr. and Mrs. Bert Stark, Mr. and Mrs. Ron Fraser, Mr. and Mrs. Lyola Roach, Miss Sonia Prendergast, Miss Vera Maskelly and Miss Joan MacFarlane, all of Ottawa.

Baker-Hodgins Wed At Quiet Ceremony

A quiet but pretty wedding took place Saturday, September 3, when Winnifred Viola, eldest daughter of Mr. and Mrs. Henry Hodgins of Ladysmith, became the bride of Mr. Clarence H. Baker, son of Mr. J. Baker and the late Mrs. J. Baker of Renfrew, Ont.

Rev. R. G. Elliott officiated at the ceremony and the wedding music was played by Mrs. G. Bretzlaff.

Given in marriage by her father, the bride wore a turquoise rayon taffeta with white accessories to match. Her corsage was of yellow roses. Bridesmaid was Miss Ethel Smith, wearing pink lace over taffeta dress with a pink corsage.

Mervin Yach cousin of the bride was best man.

Following the ceremony a reception was held at the home of Mr. and Mrs. James Evans. Hostesses were Mrs. H. Hodgins, mother of the bride, Mrs. Martin Yach, Mrs. James Evans, aunt and cousin of the bride.

Mr. and Mrs. Baker will reside in Renfrew.

Village Cemetery Donations To Date

Donations received to date by the Treasurer, Dr. D. J. Campbell for the Shawville Cemetery are as follows:

Frank Murray, $5.00; Joe Welch, $10.00; Syd Williams, $2.00; Harold Hodgins, $2.00; Mr. and Mrs. Earl Hodgins, $2.00; Clarence T. Brownlee, $5.00; Basil Quaile, $5.00; Mrs. Iva Clarke, $5.00; Mr. and Mrs. Harry Corrigan, $5.00 W. S. Hanna, $2.00; Mr. and Mrs. Archie Johnson, $1.00; Mr. and Mrs. Herb Brown, $2.00; Pearl Brown, $10.00. Ed. L. Dagg, $3.00; Mrs. John G. Sly, $3.00; Mr. and Mrs. Thos. Riley, $5.00; Mrs. David Russell, $1.00. Mr. and Mrs. George Coles, $2.00; John L. Hodgins, $10.00; Keith Hodgins, $5.00; Mrs. L. Kelley, $5.00; Mrs. Wm. Rosenbargo, $10.00; W. E. Shaw, $5.00; Mrs. Langford Strutt, $5.00; Mrs. R. Findlay, $1.00; A E. Strutt, $2.00; Miss Lois Smiley, $5.00; Mrs. Fred Rose and family, $3.00; Leslie Dale, $2.00; Mrs. E. S. Smiley, $5.00; Mrs. Theodore Hodgins, $5.00; Ernie McRae, $1.00; Mrs. R. E. Lawton, $2.00; Mrs. Fred W. Thomas, $5.00; Mr. and Mrs. Harry Coles, $200; Mr. and Mrs. J. E. Horner, $200; Mrs. L. A. Smart, $5.00; Mrs. Nina Wilson, $3.00; Plate Collection at Service, $46.36; John Caldwell, $10.00; Leonard Horner, $5.00.

Further donations may be sent in care of Dr. Campbell, Shawville.

Mrs. Maude Jones

At Port Arthur, Ont., on August 20th, Mrs. Maude Jones widow of the late James Jones, McCord, Sask. Mrs. Jones was the former Maude Ralph daughter of R. W. Ralph and Amanda Armstrong of 8th line, Clarendon. After her marriage she lived at McCord, Sask. until the death of her husband and has since been living with her daughter, Mrs. Alf Reid (Lillas) at Port Arthur, Ont., where she died Saturday evening, August 20th.

Mrs. Jones was in her 75th year.

A service was held in the Chapel, Port Arthur on Monday night, with Rev. Donnelly, pastor. On Tuesday night her remains were conveyed to Assiniboia, Sask., from whence the funeral was held on Wednesday to McCord, Sask.

Left to mourn her loss are, one daughter, Mrs. Alf Reid (Lillas) of Port AArthur, Ont. and three sons, Victor Jones and Melvin Jones of Casalgar, B.C. and Ellis Jones, Kincard, Sask, also 21 grandchildren and four great grandchildren. Also three sister, Mrs. Mervyn Dale, Shawville, Mrs. Warnie Richardson, Yarm, Mrs. A. E. Woolsey, Weston, Ont.; one borther G. W. Ralph, Northern Ont.

Pallbearers were: Mansel Jones, Harry Jones, Tom Laughren, Winters McCord, Russell Belsher, Bob Zochorecky.

Film Circuit Resumes September 27

The Pontiac Film Council, under the chairmanship of Mr. Harold Richardson of Radford, will start this season's operations on Tuesday, September 27, with the first showing taking place at the Parish Hall in Chapeau on that date. Film Council Secretary Mrs. C. Shennett of Quyon and Film Board Representative have worked together with Mr. Richardson to establish the following schedule. If for any reason anyone on the list cannot use the film on their designated date will they please contact Mr. Richardson at once and he will see if any adjustments can be made. Otherwise, the schedule will go forward as published below:

Thursday, Sept. 29—Waltham
Sunday, Ict. 2—Vinton
Mon. & Tues., Oct 3-4—Campbell's Bay
Wednesday, Oct. 5—Otter Lake
Friday, Oct. 7—Radford
Monday, Oct. 10—7th Line.
Tuesday, Oct. 11—Ladysmith
Wed., Oct. 12—Starks Corners
Thurs., Oct. 13—Portage du Fort.
Friday, Oct. 14—Austin
Monday, Oct. 17—Bristol.
Tuesday, Oct. 18—Wyman
Wednesday, Oct 18—Quyon
Thursday, Oct. 20—Eardley
Friday, Oct. 21—Luskville

Then on Monday, October 25 the second program will start at Chapeau and follow through the County in the same order as above.

Any group, club or community wishing to use the films on any date not already spoken for above may write to Mrs. Shennett, Quyon or Mr. Richardson, Radford, guarantee payment of $10 by January 1st, and thus be included as a member of the Film Council. All payments to be made to Mrs. Hosmer Turner, Shawville, Treasurer.

Quebec Farm Forum Meets At Macdonald

At a Provincial Council meeting of Quebec Farm Forums at Macdonald College, members reported serious crop losses, the result of the unprecedented dry, hot summer. Members from Pontiac County said they had not had any rain since early spring. The meeting authorized an appeal to Provincial and Federal Authorities for help to the stricken people of the province.

Other important business included the budget, fall rallies and workshops or leadership forum activities. In budgeting for income the regular grants are expected. It was agreed to raise the balance by means of a straight membership fee of $5.00 per family to be paid on or before December 15, 1955. This will allow individual forums or County Councils to use the usual methods to raise membership fees. It was deeply regretted that reductions had to be made in travelling expense and workshop items in order to meet current expenditures and pay last year's deficit. It will require the loyal support of all members to continue the important work of Quebec Farm Forums. The budget cut in field work expenses will require a greater effort on the part of each and every member to do some of this work.

Plans were made to have a carload of members attend the Inter-Provincial workshop, September 11 to 16.

The C.S.S. Leadership Forum was also announced which will take place in East Clifton, September 25 to 30 under the leadership of Floyd Griesbach and Leslie Young, National and Provincial Secretaries.

In addition to the officers and representatives, those present at the meeting included Mr. Bosson, Director of Folk Schools in Sweden, Dr. Dion and Dr. Britan of Macdonald College, Prof. Avison and Jim Davidson of the Adult Education services, and Mr. Robert Macdonnell, past Provincial Secretary, all of whom gave their moral support and valuable advice to the meeting. Dr. Dion and Prof. Avison offered very substantial help in the development of Farm Forums which received the grateful thanks of the Council. Dr. Dion later invited them to lunch and social hour with other members of the College Staff.

A great deal of time, effort, and money has been given in the development of Farm Forum by both its past and present officers and members. As an example the President, Mr. Walter Hodgman, offered to write off $600.00 of his last year's expense in order to balance the budget. This gift, together with the time spent, should inspire all to accept a full share of responsibility.

Bryson

Leslie Poole, taken suddenly ill last week is now confined to Shawville Hospital.

George Dufour, Calumet Island, entered General Hospital, Ottawa, after a sudden collapse at his home.

Mayor Constant Poisson accompanied by Ernest Godin and Ernest Dufour were among the Bryson delegation who attended at the turning of the first sod at Allumette Island Bridge by Premier Duplessis and our local member Ray Johnston recently, also among those attending were Mr. and Mrs. Chas Lemaire, Mrs. Nault, Mrs. Wm. Maloney, Mr. and Mrs. Len Coyne, Mr. and Mrs. Clarence Wall, Mr. and Mrs. J. L. St. Pierre, Mr and Mrs. Howard Routliffe, Mr. and Mrs. Renaud Rainville, also a Squadron of local Boy Scouts under the command of Scout Master Elmer Wall.

Mr. and Mrs. Elwood Cameron of Shawville were Sunday visitors at the home of Mr. and Mrs. Clarence Wall.

LAC Albert Poisson, son of Victor Poisson, Bryson, was one of the 8 paratropers of the Canadian Air Force, who embarked last week at Montreal for training with his Squadron and will be stationed in Germany.

Work has commenced this week by Dibblee Construction Company on the surfacing of No. 8 Highway from Murrells through Bryson.

Mrs. Ambie Dolligham and daughters Rene and Jean of Pembroke were visitors of the Misses Merleau, Sunday.

Carol Lemaire and Karl Goransson, students attending Ottawa University spent Saturday and Sunday at their homes here.

Can't Afford To Buy Own Homes

More than 70 per cent of Ontario's civil servants cannot qualify to buy a home under the National Housing Act because they earn less than $3,000 a year. J. P. Culliton, northwestern district director, said.

Harold Bowen, president of the Civil Service Association of Ontario said many association members are forced to accept part-time work to maintain a reasonable standard of living despite government regulations prohibiting outside work.

He cited several cases in which persons were dismissed for doing such work to supplement incomes and told the meeting of executive they should pass a motion asking the government to remove these prohibitions.

"What's your father's name?" the teacher asked a little girl on her first day in school.

"Daddy", replied the child.

"No. no," said the teacher, "I mean his real name. What does your mother call him?"

"She don't call him nuffin," replied the child, "she likes him."

TREES AND LEAVES

Soon the leaves will begin to fall in earnest from many of our trees.Then it will be the best time of year for locating and removing the trees or branches which are likely to cause trouble during the coming winter.

Dead, broken or snow laden branches cause short circuits and blown fuses, when they come in contact with power lines.Branches rubbing against distribution lines bring voltage troubles.

Trees cause more power disruptions than anything else. The Company is always glad to receive reports from customers about trees which look as though they may soon become the cause of power failures.

The struggle of the Company against the hazard caused by trees is a never ending one, in which the help of the customers frequently means improved service to those customers.

Pontiac Co-operative Medical Services

The monthly meeting of the Board of Directors convened at 8.30, Thursday, September 22, with the President, Charles Russell presiding. Directors present: Norma Telford, Reuben Smith, Gladys Sly, Iva Brownlee, William Hodgins and Grant Elliott. Also present, Gordon MacMillan, chairman of the Supervisory Committee.

Minutes: Minutes of the special meeting August 29, were read and adopted on motion of William Hodgins and Reuben Smith. Carried.

Business dealt with from the minutes was the arranging of a car to take the delegates to the Co-op Convention and the acceptance of Mr. and Mrs. Kilgour's application for surgical-hospital services.

Correspondence:-

(1) A note of appreciation to the Board of Directors from Mrs. Argue.

(2) Invitation to the Directors to appear before the commission set up to study Co-op laws, September 28 and 29, to present their proposed amendments to certain sections of the Act.

(3) Information re regulations concerning voting delegates from Paul Meehan,

(4) Secretary reported on letters dealt with durnig the month from several of the members, secretaries doctors and hospital.

Following bills were presented for payment:

Pontiac Community Hospital, 3 claims, $278.80 (new plan) 6 claims $282.75 (old plan); Dr. Cowley, $85.00; Dr. Kelley, $35.00; Dr. Keon $15.00 Dr Roche, $15.00; McKellar General Hospital, 1 claim, $87.00; Hayes, $8.16; Carbon, $4.25.

As the account from the McKellar Hospital, February 1955 did not have a completed physician's statement, it was held for further information. One claim of $11.00 under the $15.00 deductible was filed for further reference and Dr. Keon's bill which was equal to the $15.00 deduction was also filed.

Motion Reuben Smith and Grant Elliott that the balance of the bills be approved for payment. Carried.

Dave Davies took a seat in the meeting.

Following applications were presented for payment:

NEW PLAN—

Austin 2 Forum, Mr. Carmen Wickens; Bristol Forum, Mr. Merton Glenn, Mr. Edgar Russell; Clarendon No. 5 Forum, Mr. Hawley Elliott, Mr. Robinson Hodgins, Mr. Harland Hodgins and Mr. Milburn Hodgins; Dunraven United Church, Mr. Paul Compeau; Litchfield W. A. Mr. and Mrs. W. Dave Hodgins; Pontiac Telephone Co., Mr Elburn Dagg; Pine Lodge group, Mr. Frank Lacourse; Pontiac Community Hospital, Miss Leona Stewart, Miss Ann Kingdon, Mr. Neil Sly and Miss Elaine Hanlan; Onslow Group, Taber and Mr. Charles Mayhew; Ridge Forum, Mrs. Andrew Kennedy; Seventh Line Forum, Mr. James Tracy; Shawville West, Mr. Earl Tubman; Starks Corner's Forum: Mr. Neil Sparling; Shawville Group, Mrs. Jessie Dale.

Mrs. Henry McCord took a seat at the Board.

OLD PLAN—

Mrs. Hazel Horner, Miss Roberta Dagg, Mr. Alvin Kelley, Miss Vern Moorehead, Mr. Mervyn Sly and Miss Marilyn Hodgins.

Motion Mrs. Sly and Mrs. McCord that the applications be accepted. Benefits under both plans will commence from mid-night, Sept. 30. Carried.

REPORTS—

Educational Committee by Mrs. Sly, who reviewed the work done by this committee during the year.

Gordon MacMillan, chairman of the Supervisory Committee recommended that all effort be put towadrs having a good attendance at this year's annual meeting. Two proposals in this respect were suggested and adopted by the Board.

Mrs. Telford, presented the list of names of persons who renewed their contract, and reported that she had a statistical report partially prepared, which would be presented to the Supervisory Committee meeting, October 5th.

CO-OP CONEVNTION 1956:

Agreed to extend an invitation to the Co-op Medical Services Federation to hold their next annual meeting at Pine Lodge, Bristol, Quebec.

ANNUAL MEETING—

Agreed that Friday, November 4, 8.00 p.m. for the annual meeting.

MONTHLY MEETING—

Agreed that the next board of directors meeting be held Thursday, October 20, at 8.00 p.m.

Reuben Smith moved that the meeting adjourn.

(Mrs.) Norma Telford, Secretary

Shower For Miss Lillian Wilson

Miss Lillian Wilson, whose marriage takes place next Saturday, was the guest of honor at a shower given in the Church Hall, Starks Corners, on Wednesday afternoon.

The Hall was decorated with wedding bells and Lillian entered to the strains of "Here comes the Bride" with Jean Stark at the piano. A shower of clothes pins, on which each lady present had inscribed words of advice for a successful married life, was presented and read aloud by the bride-to-be. These were read amid lots of laughter!

The gifts included a tri-light floor lamp, a table lamp, a wrought iron table, with removable tray, for serving and several smaller articles.

Lillian expressed her appreciation and extended an invitation to her many friends to visit her in her new home in Ottawa. She has just returned from St. Catherines, Ont., where she has completed a three year course in nursing, and received the hard won and much coveted diploma, early in September.

Mrs. Lennis Dean had charge of the games and contests which were much enjoyed.

Dainty lunch was served by the hostesses, Mrs. Art Titley, Mrs. A.O. Stark, Mrs. Wesley Palmer, Mrs. Clive Smart, Mrs. Ernest Yach and Mrs Secil Sly.

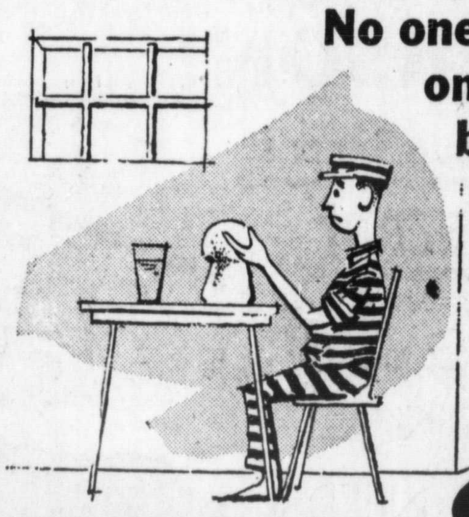
No one goes far on a diet of bread and water



BALANCED FEEDING ALWAYS PAYS

SHUR-GAIN FEEDS

There's no doubt about it — no one wants a steady diet of just bread and water.

But— if you're feeding straight grain alone, you're asking your livestock to live and thrive on "bread and water". And it's been proved many times that you get? by feeding a balanced ration.

If you have your own grain, make it go farther and return you a greater profit by balancing it with SHUR—GAIN Concentrates to add the protein vitamins and minerals it lacks. Or, if you need complete feed, SHUR—GAIN Complete Feeds are profit—makers, too.

Money across the miles

A chartered bank makes it a simple matter for you to send money almost anywhere, inside or outside Canada.

You may want to get money to a certain city as a gift on somebody's birthday; or to settle a business account; or to set up a fund which can be drawn upon by a company salesman, branch office or supplier.

It works the other way, too. If you are far from home and short of cash, you can advise your "home" branch to telegraph your money to a point where you can pick it up. Many situations and needs can arise — and a chartered bank has many ways of taking care of them, including the sale of travellers cheques.

This service is one of the many advantages you enjoy as a customer of a chartered bank. Your local branch is an all-round banking service-centre that can be helpful to you in many ways.

Only a chartered bank offers a full range of banking services, including:

SAVINGS ACCOUNTS
Keep your money safe; pay you steady interest; encourage the habit of thrift.

COMMERCIAL LOANS
For business or industrial firms, large and small; producers, processors, retailers—every type of enterprise.

SAFETY DEPOSIT BOXES
Keep your important papers and other valuables safe, yet readily accessible.

TRAVELLERS CHEQUES
Protect you against theft or loss of cash. They are readily negotiable anywhere.

THE CHARTERED BANKS SERVING YOUR COMMUNITY

WE'RE TRADING HIGH, WIDE

-and then some!

So-you get a triple bonus when you buy a Buick

A GENERAL MOTORS VALUE

YOU can come in right now on a Buick dividend distribution that's like money in the bank for you. And a look at the nation's new-car sales figures will tell you why.

This year, Buick sales are soaring past every high-water mark in the book—and they are going higher day by day!

So we're declaring an extra dividend—for you. On top of the long trade-in allowances we have been making all year, we're adding a bonus allowance.

BUT you'll be getting a lot more than a great deal. You'll be getting a great car—the hottest selling Buick in history.

You'll be getting Buick's far-in-advance styling, Buick's mightiest V8 power, Buick's highly envied all-coil-spring ride, Buick's extra size and room and comfort and solidity of structure. And you'll be getting the performance thrill of the year—Variable Pitch Dynaflow*—the switch-pitch transmission that's taken the country by storm.

Come in today and see for yourself that there's never been a car like this before—and never a deal so easy to make.

**Variable Pitch Dynaflow is the only Dynaflow Buick builds today. It is standard on ROADMASTER, optional at modest extra cost on other Series.*

Thrill of the year is Buick—
Biggest-selling Buick in History!

WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

AMYOTTE GARAGE
FORT COULONGE

Bishop Smith

(Continued from Page One)

Teachers of the school, under the direction of Sister Adrian, Principal and High School teacher, are Sister Mildred, Sister St. Catherine, Sister Marguerite, Mrs. Plaisance, Mrs. Muldoon, Mrs. Stanton and Mrs. Henderson.

The school serves approximately 240 children from Quyon, South Onslow, North Onslow and Bristol. Two busses carry the children to school from a distance and lunches are served from the school kitchen by the four lay teachers every school day.

Eight classrooms on two floors and a large auditrium with kitchen attached are in full use at present. Two of the classrooms are conducted entirely in the French language and the other six in English. The English speaking children learn French as a subject in the school but, according to Secretary Basil Murphy, English is not included in the course of study for the French speaking quarter of the pupils.

Further information from the Secretary-Treasurer revealed that the school was built at a cost of $170,000, 75% of which came from the Government in Grants. The remainder was raised by the sale of bonds with the Bank of Montreal being a substantial purchaser.

The very beautiful auditorium in the school issued for student sports such as volley ball, badminton, and net ball and also for dances, socials banquets, parish parties, the use of the Health Unit, Church Bingos and meetings of the Women's League.

The students produced ine play on the modern stage last year. Music is included in the school curriculum under the direction of Sister Agatha. The boys have a school baseball team. Chemistry, Physics and all other High School subjects are taught by Sister Adrian.

This spotless school with its all new furniture and equipment was in beautiful condition for the Bishop's visit and regular visitors to the school can attest to the fact that this condition is mainained throughout the school year. Truly St. Mary's School is a credit to Quyon and an institution of which they can all be justly proud.

To Attend Co-op

(Continued from Page One)

at Geneva Park, Lake Couchiching, on September 29 and 30th.

The Convention itself is a co-operative undertaking, being the Annual Meeting of three provincial organizations: the Co-operative Union of Ontario, the Co-operative Medical Services Federation, and the Ontario Co-operative Credit Society.

The C.U.C. assists group organizing co-operatives and provides legislative and educational services for member organizations. The Co-op Medical Services Federation is a federation of co-operative prepayment hospitalization and surgical benefits plans, which organization the Pontiac Co-op Medical Services hold membership. The Ont. Co-op Credit Society acts as a co-operative bank, receiving deposits from and making loans to credit unions and co-operatives across the province.

Besides the represenatives from the Pontiac area, there will be delegates from other parts of the Quebec province, and most of Ontario's 300 co-operatives and 1,200 credit unions are expected at these meetings. Special speakers include Alex A. MacIssac of Nova Scotia, Albert W. Marble, Detroit, Michigan and Lakshmi C. Jain, New Delhi, India.

Merle: "Has the doctor you're engaged to got any money?"

Pearl: "Why sure. Did you think I was getting marride for may health?"

Mr. Reid Glenn of Sask., was the guest of his mother, Mrs. James Glenn.

Stuart Russel of the RCAF, Clinton, Ont., is spending a few days with his parents, Mr. and Mrs. Roland Russell.

Eric Russell of RCAF, Nova Scotia is on leave at the home of his parents, Mr. and Mrs. James Russell.

Mr. Robert MacFarlane of Kitchener, Ont., is a guest at Pine Lodge.

Mr. and Mrs. Robert Carran of Toronto is holidaying in Bristol.

Visitors at the home of Mr. and Mrs. R. W. Wilson was Mr. and Mrs. Fred Browne, Mr. and Mrs. William Wilson and Neil Wilson of Ottawa.

Donnie Russell, Alex Thomas, Versil Smith, Bob Findlay, spent the weekend at the North Pole, U.S.A.

Mr. and Mrs. Wilmer Hodgins, Helen and Leslie were the guests of Mr. and Mrs. Patterson, Smiths Falls, recently.

Mr. and Mrs. Martin Riley have returned from a trip to Sudbury, Ont. They were accompanied home by Mr. and Mrs. Herby Russell.

The Bristol Hospital Auxiliary met on Tuesday in the Pent House with eleven members present. 26 articles were mended and several new articles made.

Mr. and Mrs. George Horsfield and Mrs. Helen Henderson, Ottawa were Sunday guests of Mr. and Mrs. Robert Carran.

Mr. Marshall Day of Belleville, was the guest of Mr. and Mrs. Russell Dean.

Mr. Chas. Russell is building a new home in Bristol.

Fort Coulonge

Duck hunters in this vicinity of which they are many report good hunting though two of them had no results, so there is a need for a school to teach how to shoot ducks. No names mentioned but they read The Equity and they will understand.

Dr. H. R. Rabb attended a meeting of the Anti-Tubercular Association which was held on Saturday last at the Sanitarium in Hull and delivered an address on the X-Rays that were taken in Pontiac County and at the meeting plans were made for the Christmas Seal Campaign.

On Sunday, September 18th, at the Farm of Mr. Hector Belec, "La Ancestrale" a sow gave birth to two pigs, one of which she killed the other was taken from her and given to another sow. On Sunday, Sepember 25h that sow became a mother again and gave birth to 8 piglets. The farmers around here say that they have never known such a thing to happen before.

Mrs. Lloyd Neville, we are glad to report is recovering from her operation which was performed in Civic HoHspital, Ottawa, last week.

Rev. and Mrs. Iver MacIver of Scotstown, Que., were visitors of Rev. Dr. C. Younger-Lewis on Monday last.

Mr. and Mrs. Howard Smith were visitors of Mr. and Mrs. Russell Smith in Ottawa over the weekend.

Mrs. Ira Whelen is at the present time visiting her mother Mrs. Lisk at Eganville.

Mrs. Douglas Campbell of Davidson gave birth to a baby girl in Shawville Hospital last Sunday, September 25th. Congratulations extended.

St. Andrew's W.M.S.

Mrs. Garnet Wiggans was Hostess to the members of St. Andrew's W.M.S. in the absence of the President. The 1st vice president, Mrs. S. S. McNeill conducted the meeting, assisted by the secretary, Mrs. M. Stewart.

The meetnig was opened with a hymn and Scripture was read by Mrs. L. A. Bailey. Mrs. McNeill took the entire lesson from the Missionary Monthly with the questions that were answered, made a very interesting program. Mrs. R. Cartman read a paper entitled, The Indians from the oldest to the newest.

Roll call was answered by all present. Next roll call to be the first verse of our favorite hymn. Last minutes read and approved. Discussion from same. An order is to be sent for print to be made up. A box of treats is to be sent to a member who is ill. A letter was read from Miss Bertha Drummond, the Literature Secretary of Ottawa on our reading course as the year ends October 31st. The treasurer's report was given and adopted.

Motion of the Treasurer to send their quarters out to Provincial Treasurer and on motion each person to pay 25c for their meal at the meeting. Amount to be turned into the funds with all repeating the Mizpah Benediction the meeting closed.

A dainty tea was served by the hostess, assisted by Miss Verna Wiggins.

Pontiac Rural Telephone Company Meet

The regular monthly meeting of the Pontiac Rural Telephone Co., Ltd., was held in the secretary's office, September 20, at 8.30 p.m.

Present were: President Charles Russell, vice president, Ira Hanna, directors: T. Cecil Elliott, Vertal Smiley, Wm. H. Howard, Garret Walsh, Ken Hodgins, Lennis Barr, and assistant manager, Heman Elliott.

Minutes of the last regular meeting were read and on motions of Wm. Howard and Cecil Elliott were adopted as read.

Bills for the month of August were read and on motions of Ira Hanna and Garret Walsh were approved for payment.

On motions of Vertal Smiley and Cecil Elliott the following shares of stock were transfered, 6 shares from Mrs. Katherine McCauley to Lawrence Rooney; 6 shares from Jos. Stanley to Pine Lodge; 6 shares from Thos. Dagg to Pine Lodge.

Jos. Rooney, Mrs. Austin Dagg, and Basil Orr, each bought six shares of new stock.

Moved by Vertal Smiley and Wm. Howard that any new subscribers coming in on new line to Joseph Rooneys would pay an equal share of building the line as the four already on, with a refund to the original four.

Heman Elliott gave his report on work being done on Portage du Fort road.

The Secretary rea dhis letter of resignation, effective November 30, 1955. Moved by T. Cecil Elliott and seconded by Ken Hodgins that we accept the secretary's resignation.

Moved by Wm. Howard seconded by Lennis Barr that we call for tenders for secretary for December 1st, 1955, tenders to be mailed to the President, Chas. Russell, Bristol, Que., before October 8th, 1955, lowest or any tender not necessarily accepted.

Moved by Vertal Smiley we adjourn.

H. M. Cuthbertson, Sec.

Mr. and Mrs. John Smith are happy to announce the arrival of a beautiful Chevrolet Bel Air, Two-Tone Hardtop.

A wonderful surprise for Jimmy and Caroline, and Mother and Dad are just too excited for words.

Bumper to bumper it's a real beauty — easy to handle, yet full of pep and raring to go.

You should see the admiring glances it receives.

An addition to the family we are very proud of, and we know we are in for a great deal of fun and joy together.

Why not add a Chevrolet to *your* family?

Illustrated — Chevrolet Bel Air Hardtop

Notes on the New Arrival

A DREAM FROM THE FIRST
From the first moment you step aboard, you'll find Chevrolet is a real dream in every way — in economy, in power, in ride, in stability and in luxury, too. This is the car you've always wanted.

EASY ON THE GAS
Ultra-high compressions, valve-in-head design, short stroke pistons — these and many more produce a wonderful fuel efficiency that saves you money with every thrilling mile you travel.

SURPRISING HOW IT GETS AROUND
Chevrolet's nimbleness and manoeuvrability allows you to make time, without speeding, in all traffic conditions. Ball Race Steering brings new ease of control and the new shorter turning radius gets you in, and out, of tight places safely.

AMAZINGLY FIRM AND STEADY
Unmatched roadability is the brightest of Chevrolet highlights. The new suspension keeps you on the level under any kind of road conditions. And just wait 'til you try its cornering ability.

A WONDER IN ITS WEIGHT CLASS
The all-new, tremendously compact Chevrolet V8 is the lightest engine in its class, yet it powers a performance that outdoes them all. Try the high power-to-weight ratio of Chevrolet today. You'll be amazed!

A REAL DARLING FOR LOOKS
Looks are a matter of personal taste, but this year Chevrolet is the fastest selling car in automotive history. And we're sure that most people gave full consideration to beauty and style when they chose a Chevrolet.

In Memoriam

Sylvester—In loving memory of my dear father and grandfather, William Sylvester, who passed away, September 22, 1952.

Memories are treasures no one can steal,
Death is a heartache, no one can heal,
Some may forget you, now you are gone,
But we will remember, no matter how long.

—Ever remembered by daughter & son in law, Mr. and Mrs. W. John Black and Goldie.

Engagement

McCoy — Orr

Mr. and Mrs. H. A. McCoy of Shawville, Quebec, announce the engagement of their daughter, Joan Ellen to Cecil Orr, son of Mr. and Mrs. Gordon Orr, Caldwell, Quebec. Marriage to take place late in October at the Bethel Pentecostal Tabernacle. x

Fete Miss Jean Stephens At Many Showers

A nicely arranged Miscellaneous shower was held at the home of Mrs. Sydney Draper, assisted by Mrs. Carolyn Knox, Mrs. Leonard Horner and Mrs. Gerald Draper. The Bride-to-be was assisted to a chair decorated for the occasion, by Mrs. Carolyn Knox, who pinned on the corsage. Miss Marie Draper played "Here comes the Bride". A well filled basket of beautiful gifts was brought in by Misses Eddie Draper and Marie Draper. Jean thanked her many friends and neighbors in a few well chosen words.

Mrs. John Knox, Mrs. Melvin Young and Mrs. Sam Hamilton entertained for Jean Stephens at the home of Mrs. John Knox. Completely taken by surprise, Jean was presented with a lovely tri-light lamp and many other useful gifts carried in by Little Miss Anna Hamilton, Diane Ireland, Claudia Wickens, Laird Hamilton, Donnie and Jackie Knox. After opening her gifts Jean thanked her friends and neighbors and hoped they would all visit them.

The nurses at the residence of the Pontiac Community Hospital entertained recently for Jean Stephens, presenting her with many lovely and useful gifts. After an enjoyable time was spent, dainty refreshments were served. The nurses and staff of the hospital also presented her with lovely gifts.

The nurses of Ottawa Civic Hospital where Jean trained and was employed, also entertained for her before leaving to come to Shawville. After wishing Jean all good wishes, she was presented with a beautiful blanket, after which dainty refreshments were served.

Future Of Farm Forum

What is the future position of Farm Forums in relation to other community organizations?" This is the question now being discussed by Forum representatives from Ontario and Quebec as well as representatives of other organizations at a conference at the Mount Airy Hotel, Lansdowne, Ont. Some of the 18 people at the five day conference are: Floyd Griesbach, National Farm Radio Forum Secretary two provincial secretaries of Farm Forum: Jack McPherson, Toronto and Leslie Young, Que., Ray Hergott, Bresu, Ont., Director of Field Extension work for the Ont. Fed. of Agriculture, Ernest Bradley, V.L.A. representative, Toronto, Sam Black, C.I.A. representative from Oshawa and many others.

MINING SUPPLEMENT

No. 16. 73rd. Year. Shawville, Quebec, Thursday, September 29, 1955 By Subscription

PONTIAC Mines - Now In Production

Coming Soon -

Iron

In partnership with Pickands, Mather & Co. of Cleveland, Ohio, the Steel Company of Canada has acquired a large iron ore property in Bristol Township on and surrounding the old Bristol iron mine.

Existence of the Bristol iron ore has been known of for many years, but only recently has it been made possible to mine its low and medium grade ore commercially. A beneficiation process is planned, whereby the low grade ores found in the Bristol areas may be upgraded to high grade ore pellets.

Most recent reports available indicate that Company plans to spend about $10 million in developing the Bristol property and in constructing crushers, concentrating and pelletizing plants.

Construction is scheduled for next spring, when it is anticipated that a total of about 500 men will be required on construction.

Production is expected late in 1956, and when in full production, annual shipments of 500,000 tons of high grade ore pellets is anticipated. The processed pellets—of 65% iron content—will be transported by rail to Hamilton where they can be charged directly into the Steel Company's open hearths.

The Steel Company will receive only half of the total production. Pickands, Mather & Co., will receive the other half.

Dr. J. A. Retty, originally of Fort Coulonge, and now a Montreal geologist, is the geological representative of Pickands, Mather & Co. He is closely associated with Mr. Richard Hawkinson of Hibbing, Min., who has been appointed manager of the Bristol project.

Graphite

With graphite properties in Thorne and Clarendon Townships, Dun Raven has completed an extensive drilling program in addition to geophysical examinations of its properties. The most recent progress report shows an orebody of over 4 million tons of ore grading 4.1%, and the zone is open in all directions.

Metallurgical tests have been run, producing a concentrate grading 62% graphite. Additional cleaning and refining are expected to bring this up to market specifications, the progress report states. Further metallurgical tests are now in progress, the results of which are not yet available.

Following completion of the metalurgical tests, it is understood that plans will be drawn for the erection of a concentrate on the property. Construction will probably start in the Spring. The size of mill to be built has not yet been made public.

Aldfield Mining Starts Drilling

Aldfield Mining Corp. Ltd. has announced that their drilling program has started, with the installation of a drill rig on its property in Aldfield. A contract for a minimum of 3,000 feet of drilling has been let to Romeo Turcotte Drilling Company of Montreal.

Drilling has also been reported to be started in Huddersfield Township at the Soma Duvernay Gold Mines.

Molybdenum

Canadian metallurgical, a subsidiary of Ventures, has for the past several years engaged in the development of a molybdenum Mine on the Kirkham property near Charteris, Que. The main orebody occurs in a hill on the property. Under the direction of Pete Hart of Quyon, an orebody is being blocked out, to which end a long drift has been let into the side of the hill.

Work on this project has been suspended during the summer months, and attention is being centered on another holding in Thorne some 3 miles distance from the molybdenum propeerty. It is understood that both molybdenum and uranium have been found on this property, and a program of diamond drilling is now underway.

New Discovery By Fort Coulonge Men

Hormidas Chevrier, Calumet Island, has announced the discovery of an important uranium body on Coffee Point, Muskrat Lake, near Cobden. The discovery was made July 2, and registration of the property mining rights was confirmed last Friday. The property containing 720 acres, is registered in the names of Messrs. Chevrier and Jutteau of Fort Coulonge. No decision has yet been reached as to what disposition will be made of the property.

Mine head of shaft No. 1 at the New Calumet Base Metal Mine on Calumet Island.

Lead - Zinc

New Calumet Mines Limited, one of Pontiac County's three producing mines is situated on Calumet Island, about four miles from Bryson. This mine, acquired and put into production by the company in 1944, produces lead and zinc concentrates, and quantities of gold, silver and copper.

The concentrates are sold to British Metal Corporation (Canada) Ltd., and are shipped by the Company for the account of British Metal, to the States for further processing.

Mr. A. E. Cave, the general superintendent of the Mine, has been associated with the Company since January 1935 when he took over from Mr. G. H. Mustard, who was transferred at that time to Toronto. Mr. Cave was previously associated with Consolidated Mosher Gold Mine at Geraldton, Ont.

With a milling capacity of 800 tons, New Calumet is at present milling a daily average of about 520 tons. Of this total, 220 tons are being taken from the new No. 4 shaft, sunk last spring to the 2200 foot level. The balance of 300 tons comes from shafts 1 and 3. Number 1 shaft ends about the 700 foot level. Number 3 shaft starts at the 600 foot level and drops to the 1500 foot level.

Separation of the lead and zinc is by means of flotation, the gold, silver and copper being contained in the lead concentrate. Ratios of production volumes of concentrates ran approximately 1 of lead to 5 of zinc.

The mine employs a total of 191 people, of which 94 are underground, 79 above ground and 18 on the office and administration staff.

Between the years 1946 and 1952 the Company operated at a profit. The years 1953 and 1954 each showed a loss on operations. With a strengthening of base metal prices it is anticipated that this situation will change and that the Company will next year show a profit on operations.

Gravel

Mount Royal Paving & Supplies Ltd., last year acquired a property in Clarendon Township not far from Radford, west of Shawville. This property has been developed as a gravel pit to supply Ottawa Premix, a ready-mix Concrete Manufacturer in Ottawa, with sand and gravel.

A spur line into the property, from the C P R Pontiac line was completed last spring, and production from the quarry was started June 27.

17 men are employed at the quarry under the direction of Fred Anderson of Montreal, who has been loaned to the project by the Francesini interests of Montreal.

Production from the gravel pit averages 2,000 tons per day, of which 60% is sand and 40% gravel. Crushers, screens and washers at the pit wash and separate the sand, and crush the gravel into ¾ and ⅜ sizes. All production is loaded into CPR cars in the siding, usually 30 cars per day, and shipped to Ottawa.

Mr. Anderson reports that the pit will close down around the end of October, or as soon as the freeze up occurs. It will reopen in the Spring.

Dolomite

Canadian Dolomite Company, Portage du Fort, operates a crushing mill for the crushing of dolomite mined in the Portage area. Made of limestone and magnesium carbonate, dolomite is a clean white color, and when milled to marketable size is used in stucco and precast stone.

The mill, owned by Harry Church, of Portage, has a capacity of 5 tons per hour. Mr. Church employs 12 men, of whom 5 operate the mill and 7 work in the quarry and drive the trucks from the quarry to the mill.

The Dolomite Company has a long history in Portage. Started originally in 1913 as Pontiac Marble and Lime Co., the then owners started off with the intension of making dimensional stone and also lime. They set up expensive and extensive machniery for these purposes. The war came only shortly afterwards, and may have been a contributory factor in the failure of Pontiac Marble and Lime which occurred shortly thereafter.

The White Grid Company was formed in 1919 under the ownership of Harry Hayley, now of Ottawa, and two uncles of Harry Church. They operated the plant until it was acquired in 1944 by Harry Church.

Geological Survey Of Bristol Area Confirms Discoveries

Confirmation of important mineral discoveries in the 220-square miles Bristol area in Pontiac County has been provided by R. J. E. Sabourin who carried out an investigation for the geological surveys branch of the Quebec Department of Mines.

Already an announcement has been made by the Steel Company of Canada and Pickands-Mather of Cleveland that they will spend $15,000,000, starting next Spring, on developing the old Bristol Iron Mine and adjoining farms which they have acquired.

A sulphide showing containing some zinc and copper has also been investigated, Mr. Sabourin said in his report.

Other highlights of his report are:

Traces of radioactivity have been found in various pegmatites and pegmatite-injected rocks in the area. Thorium seems to be the main source of radioactivity.

Molybdenite mineralization is of importance in the area. Development work consisting of 800-foot adit and diamond-drilling has been carried out on the Kirkham property, (1) lot 5, range XII, Clarendon township. Considerable ore has been blocked out. In 1954, another small, although rich, zone nearby was being investigated. Car samples from the adit yielded an average of 0.37 percent, molybdenum.

Two other properties in the area, have yielded some molybdenite by hand-picking. There are the Tippin prospect, (2), on the south half of lots 4, 5, range XII, and the Welsh prospect, on lot 1, range XIII, both in Clarendon township.

Other occurances of molybdenite mineralization have been reported on lot 2, range XII, Bristol township and lots 1, 2, and 3, range I, and lot 2, range IV, Thorne township.

Some blasting and stripping has been carried out on a sulfide occurence of lot 51, range II, Aldfield township. It consists of a foot-thick mineralized zone in altered limestone. Dark-brown sphalerite with minor chalcopyrite are associated with some vuggy quartz.

An extensive diamond-drilling operation during the winter of 1953-54 on lots 21, 22, range II, of Bristol township, the site of the old Bristol iron mine, has confirmed the presence of important magnetite-hematite concentrations. Plans have been made for further development and exploitation in the near future.

Good quality marl was found at the western end of Rutledge lake on lots 47, 48, range I, Aldfield township. A bush road passes quite close to it and renders it easily accessible. A similar occurence exists at the northwest end of Barnes lake, in Thorne township, at the northern limit of the area.

Sand and gravel pits are found thoroughout the area and satisfy all its construction needs.

Road Built To Pool Mine

In Huddersfield, the Pool Mining Corporation has had a road built to their property a few miles from Sandy Creek. Road builder M. L. Hobbs of Shawville, had the contract and work is now complete.

Under the supervision of Henry Belanger and Mining engineer George Dumas a large scale scintillometer survey is now taking place on the company's property. A camp has recently been completed on the property.

James Yates Prospector

You may have seen Jimmy Yates hurrying through Shawville in his station wagon, paddling his canoe in the lakes around Sandy Creek or working about the tent where he and his beautiful wife have been camping. You may have seen him prospecting in the Hudderrfield hills or you may not, but you've certainly heard about him and heard his name mentioned in connection with a mine named after him. The Yates Uranium Mine was discovered by Jim Yates although he is no longer connected with its management in any way.

Jimmy Yates has, in the past few years, become almost an institution in Pontiac. It's time we found out a little more about him.

Born and educated in Montreal, Jim Yates attended prospecting and mining courses in Quebec, Ontario, California and Colorado. On his mother's side was a family of prospectors. Jim's grandfather and two uncles went to the Klondike overland in 1897. His Grandfather, Alcide Lafortune of Gatineau Point, was the first white man to shoot the White Horse Rapids in Yukon in a canoe.

In 1926 and 1927 Jim Yates was in California working in the Mojave desert on a gold prospect. He drifted back to Canada in 1928 where he worked at the early start of the Sherritt Gordon Mine at Cold Lake, Manitoba. After that he worked on the Hudson Bay railway as a surveyor from the Pas to Churchill with a stretch in the Barren lands.

In the years 1930 to 32, Jim Yates prospected in Ontario and Quebec with Fred Lapalme, the man who found the Pamour Porcupine Mine. Since 1932 Jim Yates has devoted his time to prospecting for uranium and was the first prospector to acquire a Geiger Mueller counter in Eastern Canada. The outcome of this was the finding of the mine at Mica Lake at St. Michael des Saintes, 160 miles north of Montreal, which he subsequently sold to the Boise Yellowknife Mines Limited. This property has now become the Southern State Uranium Mining Company. A Texas group have become interested as this property is unusually rich in rare earths and Columbium with uranium being found in Fergusonite,, Uraninite and Samarskite minerals all in Pegmatite.

During the year 1949 Jim Yates prospected in the St. Maurice Valley north of Three Rivers, Quebec, where he made the first uranium discovery in that area. These properties were sold to the Quebec Diversified Mining Corporation Limited. The area is now being opened by Canadian and American mining companies who have found good showings of Copper, Nickel, Uranium, Thorium and rare earths.

Another of Jim Yates' finds is the famous Lac a Baude rare earth mine which he still owns. Yates believes this to be the richest cerium deposite in Canada with assays in cerium as high as 27%.

In November 1952 Jim Yates strayed into Pontiac County on a prospecting trip to have a look at old mica-fluorspar deposits. The outcome of this trip was the finding

(Continued on Page Twelve)

The Big Question

Uranium

Uranium remains as one of the big question marks in the mining picture of Pontiac County. Virtually all of the land in Huddersfield, and other townships bordering on it has been staked, but to date there is no property which can be singled out as a winner and sure to go into production.

Yates Uranium, in the Sandy Creek area, has in the past received much publicity in this paper, and elsewhere, and has certainly been the most active uranium property in the area for the longest time. Some apparently valuable discoveries of uranium have been located on the Yates property, and at one time a mill was planned. Lumber was purchased for construction, but these plans have been changed at least temporarily.

Pool Mining, a Montreal group financing privately, have acquired a property south of Yates, have built a good road to the property and have constructed camp buildings. Reports of a scintillometer survey have not yet been made available.

Aldfield Mining Corp. Ltd., privately financed, has conducted extensive exploration work this summer on its properties in Aldfield, 24 miles from Shawville. Progress reports indicate the presence of high uranium and thorium values. A diamond drilling program is now in progress.

LUMBERING, FARMING — AND NOW MINING

This issue of The Equity attempts to bring to our raders, a consolidation of the mining accomplishments in Pontiac to date. It is unfortunate that the uranium story we present is by no means the full account of uranium exploration activities in the County. Our story is incomplete largely because it is virtually impossible to track down all of the syndicates and groups which hold claims in our Townships. We have however been able to obtain information from a few of the larger groups, and our story is built around them.

As most residents of the Pontiac have already realized, the establishment of a mining community does not take place overnight, nor even in a year. Investments in property, equipment and development of the present day mines are far too great and the expenditure of time far too long, for a sudden change in the community to take place. To establish a producing mine on a paying basis requires a great deal of money, a great deal of time, and much careful planning by mining experts.

The mining developments we have all witnessed in Pontiac during the last two years have embodied all of the factors necessary to the ultimate realization of at least one, and most probably, several good producer mines in his County. For an area which, until quite recently, was almost entirely dependent on agriculture and lumbering for its income, this prospect is, to say the least, interesting.

The recent creation of Chambers of Commerce in Campbell's Bay and Shawville is a measure of the growing awareness in these communities of the potential economic expansion inherent in the new mining economy now in the course of development. Whether these newly formed Chambers will be able to take full advantage of the availaible oppartunities depends to a large extent on the vision, enthusiasm and vigour which they can bring to the job. For our part we wish them every success, and assure them of our full support in all their ventures

Pontiac County is now on the brink of obtaining a producing mine at Bristol. This is almost certain to become an actuality in 1956. Close on the heels of the Bristol project follows the Dun Raven graphite mine, which may well go into production in 1956. Where the picture goes from there is anybody's guess. A fairly good guess would be another large gravel pit for 1956, and as a long shot, one or more of the uranium properties. Another year should bring these aspects of the situation into much sharper focus.

In the meantime, the rate of prospecting is continually being stepped up. There are rumors right now of an important nickel find on the Black River. There is a strong possibility of new iron ore discoveries. Evidences of copper are reported to have been found in Pontiac, but the location has not ben disclosed.

These rumors and nebulous reports are indications of the course that mining development may take in the next few years. As a consequence we firmly believe that Pontiac is slated for a change, and that a large segment of the population will come, in the near future, to depend on the mines for their livelihood.

GRAPHITE IN PONTIAC TOO!

A recent issue of the "Precambrian", a mining publication, has found its way onto our cluttered desk. Scanning quickly through its pages we happened on an article on Canadian graphite deposits.

Expecting to read a report on the Pontiac graphite discovery, we were surprised to find, rather, that there has been a Canadian discovery of graphite in the Bancroft area. We were even more surprised to read that the Bancroft discovery was reported as the "only known deposit . . . .of large flake crucible grade graphite. . . . in North America" The statement is rather startling in view of the recently completed exploration work on the graphite property of Dun Raven Mines Ltd. where, as reported in The Equity, an orebody of 1½ million tons, has been established, and where estimates of actual reserves run as high as 15 million tons — much of which is high grade flake graphite.

It had never occurred to us before that we were hiding the light of the graphite find in Pontiac under a bushel (quite a job, at that!).

Mr. Horace G. Young, president of McKenzie Red Lake Gold Mines, who apparently has a financial interest in the Bancroft property, has reported to the "Precambrian" that the United world graphite sources and world markets and States Government will undertake a survey of uses for graphite.

It is sincerely to be hoped that Mr. Young's enthusiasm over his Bancroft property will not obscure from public view the very valuable and important graphite body in Pontiac County.

Hidden Treasures

Symbolic of Pontiac's hidden treasures is the picture above. Under an overburden of fertile farmland and a cover of snow lie large and valuable mineral deposits. Above is seen a sledge carrying lumber to the site of Thomas Adams' (of Dunraven Mines Limited) graphite discoveries on McNeil's farm in Charteris. Lumber is built into a campsite such as the one below near Sandy Creek in Huddersfield. Building the campsite comes only after many months of prospecting to ascertain the find. Then come the endless surveying, the drilling and classifying of core samples as seen below where Phil Matte, (President of Yates Uranium) watches his men remove a core from the bit end of a diamond drill. Next step towards the realization of our mineral wealth is the building of a mill. Investors from the local area and from far away as New York, Ohio and the Carolinas anxiously await the building these mills. Will the first be for uranium, graphite, or, as all indications would suggest, iron? In how many months will the thirty five railway cars of gravel which leave Shawville every midnight be augmented by even more valuable carloads of highgrade ores? As Pontiac people become more and more mine-conscious, these are the questions they are asking and these are the questions which it is hoped will be answered during the next few months.

Letters to the Editor

Buckingham, Quebec.

The Equity, Shawville, Que.
Dear Sir:

Since the 9th of July when numerous shareholders from the United States visited the Yates property, the president of Yates Uranium Mines reports that the Matte zone has been drilled to a depth of 600 feet for a length of 600 feet open at both ends and depth. Results of this drilling have been very satisfactory showing the presence of uranium, thorium, fluorite and apatite at depth. Recently at 2600 feet along the north-west strike of the Matte Zone we have uncovered radioacive material of the same type which we believe is the continuation of the Matte Zone. The width as seen along the uncovered length is 26 feet and this new location is being drilled and shows to be going steeply at depth.

This new discovery has added tremendously (hundreds of thousands of tons) to the already million tons of uranium bearing crystalline limestone reported last year.

Living quarters for a larger crew, underground works and the erection of a 300-ton mill have already started, and machineries have already been ordered from Gardner-Denver Company.

Philip Matte.

Editor, The Equity:

The functions of a Chamber of Commerce are essentially promotional, those of a Municipal Council essentially administrative.

There are, at least, three ways in which a Chamber of Commerce could be of estimable value to Bristol Township just now:-

1. Securing for the community the utmost benefit that can be obtained from the multi-million dollar development that is about to take plate at Bristol Mines. It is understood that some 450-500 men are to be employed in construction next year and following that a permanent operational staff of about 250. Further it is understood that outside the technical and engineering staffs it is hoped to recruit this staff locally, from the farms and nearby villages rather than to bring in outside help, having the men commute to work rather than build a company town. This should prove of great benefit to the depleted farming and lumbering areas of Thorne, Aldfield and North Onslow as well as

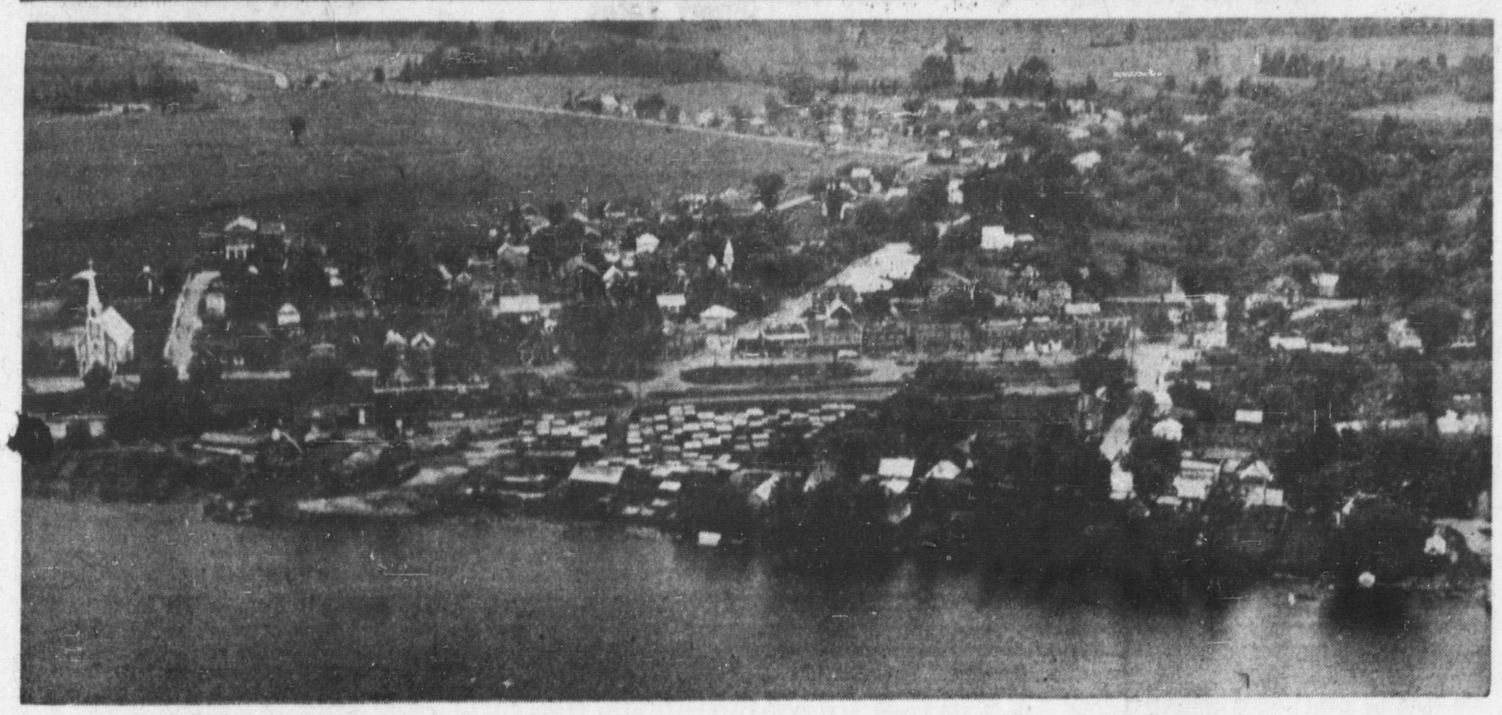
The Core Sample



County Seat

Campbell's Bay, County Seat of Pontiac, lies on the Ottawa River 14 miles north-west of Shawville. In the aerial photo above can be seen the Canadian Pacific Railway and Highway No. 8 running through the town with the Smith Bros. Lumber yards in the foreground on the river's edge. On the hill at the left is the County Court House where mining rights are registered. A friendly village surrounded by beautiful rolling country, Campbell's Bay sets an example in co-operation with French and English speaking people, Roman Catholics and Protestants living and working in true harmony.

Odlum Stresses Faith In Future of Uranium

Uranium is the only nuclear fuel that will be commercially available in volume for many years to come, ni the opinion of Floyd B. Odlum, president of Atlas Corp. He expresses this belief in a letter to shareholders of Atlas Corp., the company that he heads and which has more than $15,000,000 invested in uranium properties in the United States and Canada.

Attacking the publicity campaign that has played up thorium and controlled fusion while playing down uranium, he said: "Thorium offers no short range threat touranium and probably never will. "He described commercially available fusion energy as "just a gleam in a scientist's eye."

Some scientists at the Geneva atomic conference went overboard in discussing fusion, Mr. Odlum believes. He vigorously attacks what he calls the confusion created in the mind of the public by the reports that came from the Geneva conference.

Referring to peacetime uses, Mr. Odlum said he believed that the U.S. will require 4,000,000 tons of uranium ore a year by 1965. The present rates of mining is far below this figure.

Atlas Corp. is now negotiating to build a uranium ore refining mill in the Moab, Utah, area, Mr. Odlum reveals. Mining and milling uranium ore is the only atomic energy field Atlas Corp. will go into for the time being, he said. His company knew about thorium when it moved into the uranium field, he added.

The recent action of the Canadian Government in refusing to extend some uranium purchase contracts, he believes, was taken to try to force the United States Atomic Energy Commission to extend the guaranteed price beyond 1962. He feels the price of uranium is more likely to go up than down at the end of the guaranteed period.

Mr. Odlum predics ha technical advances in the next five years will reduce capital costs of atomic power sations by 30 to 40 percent. This will make atomic energy widely competitive with conventional fuels but will not cut the price the miner receives for uranium ore because the cost of the ore is a small part of the total cost of atomic energy.

Quebec Mineral Output $5 Million By 1960

Montreal—Quebec Mines Minister Cottingham predicts the province's mineral production will reach an estimated $500,000,000 annually by 1960.

He told a Montreal service club production is expected to reach $300,000,000 next year; an increase of $23,000,000 over the previous 12 months.

Mr. Cottingham said "more than 30,000 persons now earn a living in Quebec's mines and bring home more than $75,000,000 annually in wages."

"Just 25 years ago the number of men employed in our mines was only 15,000 and their wages at that time amounted to only $13,000,000", he said. "Every miner working this year will produce approximately $10,000 worth of minerals."

PROSPECTING FOR URANIUM IN CANADA

With the advent of use of atomic energy in the modern world, the location of uranium ores has become highly important.

Prospecting for Uranium in Canada is the title of an excellent handbook prepared by the Radioactive Resources Division of the Department of Mines and Technical Surveys and especially designed to supply information necessary or useful in prospecting for radioactive minerals in Canada. It contains information on regions favourable for prospecting; the nature and distribution of Canadian radioactive mineral deposits; devices and methods of detection; tests for uranium; the use of the Geiger counter; sampling and evaluation of uranium discoveries and many other matters. 167 pp.

Shopping Centre

Shawville, "the shopping centre of Pontiac" is 49 miles from Ottawa. The photo above shows only the centre of Shawville with five of her seven churches not included. Also beyond the range of this picture is the Pontiac Community Hospital, the Agricultural Grounds where the famous Shawville Fair is an annual event, the outlying residential areas, the milling companies, the cooperage, the town's several lumber yards, the C.P.R. station and freight yards where Diesel engines pass nightly with 2,000 tons of gravel and sand from the Radford area destined for the Ottawa Premix readymix concrete manufacturers. At the top of the picture runs Highway No. 8. The large modern building near this highway is the County's Protestant High School. A part of Shawville's Main Street starts in the lower left corner and runs diagonally upwards towards the right. Along this street are the well stocked, modern stores to which shoppers from the neighboring farms and villages flock, mainly on Tuesday and Saturday nights. As is the custom throughout this area, all stores in Shawville close down Wednesday afternoons.

of Bristol, matters of recent grave concern to the County Council. To get to work regularly and promptly these men will need usable and all year round roads and other conveniences.

The company, too, and its managerial and technical personell will require certain municipal services. Some medium like a local Chamber of Commerce is indicated, a public spirited group that could act as a coordinator between the two, a medium that would promote the utmost harmony, good-will and fair play between the two, a med ium that would interpret the needs, the facilities and the pecularities of the community to the company and at the same time help insure the greatest possible benefits from the company's operations to the community.

2. Promote the Inclusion of the Quyon River Canyon in the Gat ineau National Park.

Were the Ragged Chutes, High Falls and the Cascades of the Quyon River in Banff or Jasper National Parks they would be world famous. The legal westerly limit of the Gatineau National Park is the town line between Onslow and Bristol. The park itself, while rugged and scenic, lacks natural wonders and waterways. These are outstanding in the Quyon Canyon. They should be a part of the national -sanctuary. Promotional effort directed to this end could well become an achievement of a local Chamber of Commerce.

3. Additional Summer Resorts in Bristol Township.

Next to agriculture, summer resorts bring the greatest financial returns to Bristol Township. There are, at least two areas that could be developed or further developed in this way. One is the maze of islands along the Bristol shore across from Braeside and the other is the further development of the two miles of sand beach on either side of Pontiac Station. The group of islands across from Braeside could well become in miniature the 'Thousand Islands of the St. Lawrence' or the 'Thirty Thousands Islands of the Georgian Bay'. There is good fishing too and it could be better with systematic restocking, something which is badly overlooked in Pontiac County and something which any Board of Trade could well take in hand.

The Pontiac Station area needs better roads and a better approach. Like Norway Bay it also needs down to the water that would encourage people to build further back from the River. Next to the National Parks the summer resort of Rawdon, Que. is the best laid out summer resort in Canada if not in North America. Any group planning to develop these areas would do well to make a preliminary visit to Rawdon.

Would it be expecting too much to suggest that a group of the more public spirited residents of Bristol Township arrange to gather some evening at the Town Hall and talk over among themselves just what could best be done to further the interests of Bristol Township. Possibly at some subsequent meeting a representative of the Bristol Mines might be induced to attend and acquaint more fully as to the prospects and requirements of the Bristol Mines development, the biggest thing that has happened in Bristol since the square timber days.

—W. A. Brown.

Calumet Uranium Claims 600,000 Ton Ore Body

Calumet Uranium Mines Ltd., holds 3200 acres of property on Calumet Island, being lots 24-34 of Ranges 5,6 and 7 of Calumet Island.

Close to 30,000 feet of diamond drilling have been completed and an orebody of 600,000 tons of uranium and thorium ore has been established. Assays on bulk samples conducted earlier this year in Ottawa yielded the following results:

0.11% U 308: 0.20% Th O2.

The minerals are found in association with limestone silicate. Laurier Juteau, resident engineer, reports that a flotation process will be required for separation.

Negotiations are understood to be in progress with Eldorado for a contract: for the purchase of uranium and thorium concentrates.

It is reported that a new structure has been discovered 1,000 feet north of the main orebody. Drilling is now being carried on in this new area, but no report has yet been made available.

Jimmy Yates

(Continued from Page Nine)

of uranium in an old prospect pit located at the north half of lot 20, range 4, Huddersfield township. Tests on the samples brought out proved conclusively that the uranium values contained were of ore grade. This was of enough interest to warrant his returning in the early spring of 1953 and staking a large group of claims which now form the main holdings of the Yates Uranium Mines Incorporated, the Huddersfield Uranium and Bonaventure Mines, all having found uranium.

Mining Property
Townships of Thorne, Clarendon, Grand Calumet Island
County of Pontiac, P. Q.

NOTE: The Company has presently undertaken a vast programme of exploring and developing the extension of its large Graphite deposits situated in the townships of Thorne and Clarendon, County of Pontiac, Province of Quebec. It is believed that these deposits may well be amongst the world's largest bodies of disseminated flake graphite yet discovered.
Several assays of samples taken from radioactive showings on the properties owned and/or controlled by the Company have returned such interesting value of URANIUM that a scintillation counter survey is now in progress, as well as stripping, trenching, etc., to determine the commercial possibilities of these radioactive showings.

Good Wishes From
