Meanwhile fresh enemy troops were battering hard at the British lines west of Bailleul in an attempt to continue their success of last night and break through to Hazebrouck.

Grim fighting went on since morning and well into the afternoon there had been no cessation in the intense struggle.

All the officers who took part in the December revolution have tendered their services, as has the minister of the interior.

"Yesterday evening we delivered a successful counter-attack in the neighborhood of Wytschaete. At Metern also our counter-attack restored the situation, and the village remains in our hands."

"In consequence of the progress made by the enemy on the Lys front, our troops holding our forward positions east of Ypres have been withdrawn to a new line. The withdrawal was carried out deliberately, without interference by the enemy. Yesterday afternoon parties of our troops advancing over our old positions were caught by the fire of our outposts and destroyed."

"On the battlefront south of Arras parties of German infantry who had entered our trenches opposite Bevelles were driven out yesterday afternoon, with the loss of several prisoners. Our line in this locality has been completely restored."

"The hostile artillery activity increased considerably this morning on the British front south of the Somme."

War Operations in Brief

(Associated Press Despatch)

With the Ypres salient in southwestern Belgium being menaced continuously on account of the Germans on the Lys battle front immediately to the south, the British have begun to withdraw from this advanced line.

The British official report from Field Marshal Haig's headquarters announces at least a partial withdrawal from the Ypres sector.

The British forward positions east of Ypres have been given up, and a new line to the west occupied. The withdrawal was carried out in perfect order without enemy interference.

Apparently the retrograde movement is pivoting on the Wytschaete sector, where London today reports a successful counter-attack carried out upon the Germans, who yesterday captured the town of Wytschaete, near the highest point of the easterly Messines ridge, and who presumably pushed out somewhat beyond the town. They are unofficially reported, indeed, as having advanced to St. Eloi, a mile and a half north of Wytschaete, two miles west of Hollebeke, and about six miles directly south of Ypres.

ALLIES MAY HAVE TO EVACUATE YPRES SECTOR

London Papers View Present Situation as Being Very Serious.

(Associated Press Despatch)

LONDON, April 17.—There is no inclination here to minimize the seriousness of the loss of Bailleul, and the possibility that it may lead to the necessity of evacuating Ypres and Passchendaele.

Under the heading "They Still Advance," the Daily Mail says that up to this time in their advance the Germans have been in marshy ground. Yesterday they captured the first of the important ridges by storming Wytschaete, aided by the fall of Bailleul, and thus "the security of the Ypres salient, so long as the bulwark of our left and touched with such immortal memories to us, is imperiled."

The Daily Graphic thinks it would be wise to withdraw the British troops from Ypres and Passchendaele "to avoid the risk of their being cut off and compelled to surrender." It continues: "That the situation is made more serious by the loss of Bailleul is obvious, and it would be dishonest to pretend otherwise." The paper adds, however, that as long as the Allied armies remain unbroken, Germany's purpose is not attained, while she is exhausting herself in order to force a decision.

DIVISIONS FROM RUSSIA. Correspondents on the front say the Germans have used up 120 of their 200 divisions in the west and have been able to bring another two divisions from Russia.

"These unpleasant reverses must be faced steadily," says the Times. "Their significance must neither be minimized nor exaggerated. Far more serious than the loss of ground is the revelation of the growing weight of the German pressure."

"We hear far too much of the enemy's losses, mistakes, difficulties, and of their failure to reach appointed objectives on particular days, and not half enough about the serious fact that they still are bringing fresh divisions from Russia."

The Times says the enemy will continue drawing on their reserves in Russia until "Allied statesmen stop dreaming vain dreams about Russia and do something practical."

FEDERAL FORM OF HOME RULE IS SUGGESTED

If Adopted Scotland and Wales Would Attain Long Cherished Aim.

(Associated Press Despatch)

LONDON, April 17.—While nationalist Ireland is making plans for resistance to the enforcement of conscription in their country, the rest of the United Kingdom is more interested in the Home Rule Bill, which Mr. George N. Barnes, Labor member of the War Cabinet, without portfolio, announced in the House of Commons yesterday the Government would introduce and pass or fail in the attempt.

The Home Rule Bill, it is understood, will take the form of a measure amending the Government of Ireland Act which was passed just before the outbreak of the war, but the operation of which was suspended for the period of the war. General opinion favors a federal measure which can be made applicable to the Scotland, Wales and England. Several motions suggesting the introduction of a federal system already have appeared in the House of Commons, while a large majority of the Unionists who have become converts to Home Rule also favor that system.

Never, on the surface at any rate, has Ireland had such a good chance of getting a form of self-government. At a meeting of the Unionist war cabinet, which was called to consider the matter, but which adjourned until today without reaching a decision, several speakers urged that every possible effort should be made to secure a Home Rule settlement even at the cost of cherished principles.

What with the Liberals, laborites, nationalists and a large portion of unionists supporting the bill it should have an easy passage in the House of Commons.

BOLO PASHA FACED FIRING SQUAD TODAY

Condemned Traitor Lost His Attitude of Indifference that He Maintained During His Trial.

(Associated Press Despatch)

PARIS, April 17.—Standing before a firing squad in the forest of Vincennes early today, Paul Bolo Pasha, condemned traitor, lost entirely the attitude of indifference he had maintained subsequent to and during his trial. When the order to fire was given the rifles spoke and Bolo crumpled up with several bullet wounds in his head.

Escorted by several guards Bolo left the state prison forty-five minutes before his execution. After leaving the automobile at Vincennes, he listened to the exhortation of a prison chaplain. Then his eyes were bandaged and he went without a struggle to his place before the firing squad.

"So much the better, I am delighted," Bolo exclaimed when awakened this morning by Commandant Julien, of the Third Court Martial, who told him that the hour of execution had arrived. These were the only words spoken by Bolo except for instructions to the chaplain to take from his body a silk lace handkerchief which he placed on his chest and gave it to his brother, Monsignor Bolo.

The condemned man went to his execution in a new suit of clothes, brought to the prison by his brother, and wearing white gloves.

REFUSED TO SIGN REGISTER.

When Bolo was taken to the office to go through the formality of his removal from prison for the execution, he refused to sign the register. The officials insisted, upon which Bolo cried in an authoritative tone: "It is I who command here; no one has anything more to impose upon me, I think!"

The chaplain, after the execution, found lying over Bolo's heart two embroidered handkerchiefs which had been pierced by the bullets. One was given to Bolo's brother and the other to his widow.

Bolo, coming forth from the prison Bolo asked to be permitted to partake of communion.

After the execution the form of an interment at Vincennes was gone through, and then the body was turned over to Bolo's family.

SELF GOVERNMENT FOR IRELAND AN ESSENTIAL WAR MEASURE DECLARES BRITISH PREMIER

Irishmen Must Take Full Share of War's Burden. If Irish Members Rejected Bill it Would Be Their Responsibility. Premier Said Fluctuations Must Continue in Flanders But He Was Full of Confidence. If All Parties Stood Together, Prepared to Give and Take in All Measures, They Would Win Through in the End.

(Associated Press Despatch)

LONDON, April 17.—In the House of Commons last night Premier Lloyd George said the best way to convince American opinion that Britain is dealing fairly by Ireland was for the British Parliament to tender such a measure of self-government to Ireland as to satisfy American opinion, and he believed that the Government could do that.

"The Government, therefore, arrived at the conclusion that self-government is an essential war measure," he said.

In regard to the statement made by Mr. George N. Barnes, Labor member of the British War Cabinet, without portfolio, who said the Government would carry the bill, Mr. Lloyd George said the Government could only use all its influence to carry it out in all conscience or to accept the responsibility for the direction of the war without it. It is impossible to face the difficulties in Ireland without a united country, he said.

"It is impossible to secure unity unless every section feels that justice has been done, not merely by compelling Irishmen to take a full share in the war's burden, but by securing to them the principle of self-determination for which we are fighting in every theatre," he continued.

"We entered the war for that principle. We have never departed from it, and hope we shall be able to enforce it at the peace conference." He added that if the Irish members were to reject the bill it would be their responsibility.

Mr. Joseph Devlin exclaimed: "Now the cat is out of the bag."

Premier Lloyd George added that the Government could not have possibly have resistance to the Home Rule Bill used as a lever to defeat conscription, and that is why each measure must be taken on its merits.

Confident of Outcome in Flanders.

The Premier then turned to the situation in Flanders and said fluctuations must continue but he was full of confidence. The Premier added: "I have just seen a general who has returned from the front, and I must ask the House to excuse my leaving the House immediately after the speech, because he has to lay questions before me."

Had Heaache For Two Years

A Barrie Man Tells of Persistent Headaches and Indigestion--Finally Found His Way to Good Health.

For two long years the writer of this letter was subject to severe headaches. The nervous system got run down, digestion failed, and there was continued loss of weight.

The use of Dr. Chase's Nerve Food changed all this, and now with scores of other Barrie people Mr. Nader is recommending the use of this food cure as the best means of building up the exhausted nervous system and curing headaches, indigestion and all the annoying symptoms of a run-down condition.

Mr. John Nader, 38 Penetang street, Barrie, Ont., writes: "During the last two years I had an attack of indigestion accompanied by severe headaches. I suffered from loss of appetite, and my system became run down. I also lost considerably in weight. I began using Dr. Chase's Nerve Food, and as they helped me I continued this treatment for some time. My condition is now greatly improved, my headaches are gone and my health in general is much better. I can cheerfully recommend the use of Dr. Chase's Nerve Food to those suffering from nervousness of any kind."

The reason Dr. Chase's Nerve Food is so effective in cases of this kind is because of its extraordinary blood-forming influence. By creating an abundance of rich, red blood it strengthens the action of the heart, revitalizes the exhausted nerves and builds up the system in every way.

The appetite is restored, digestion improves, you rest and sleep well, and the new vigor and energy is felt in every organ of the human body. Dr. Chase's Nerve Food is doing wonders for men, women and children whose systems have become weak and run down. 50 cents a box, 6 boxes for \$2.75, all dealers or Edmondson, Bates & Co., Limited, Toronto.

Palpitation of the Heart and Nerve Troubles

WERE CURED BY Milburn's Heart and Nerve Pills.

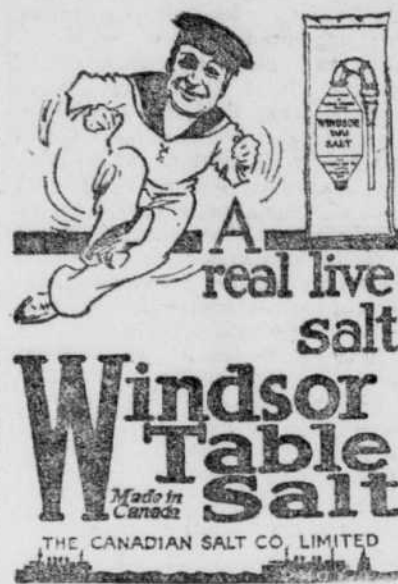

When the heart begins to beat irregularly or intermittently, palpitate and throb, skip beats, beat fast for a time, then so slow as to seem almost to stop, it causes great anxiety and alarm and the least excitement or exertion seems to affect it.

Many people are kept in a state of morbid fear of death because weak, worn and miserable through this unnatural action of the heart.

To all sufferers from heart troubles we would advise the use of Milburn's Heart and Nerve Pills, which by their action in strengthening the heart and regulating the beat remove all the distressing conditions, and impart vigor and vitality to the system.

Mrs. Thomas Davidson, Mount Brydges, Ont., writes: "I have been a great sufferer in the past with nerve troubles and palpitation of the heart. I tried several remedies, but without any good results. SCOTSTOWN BRIEFLETS

An Amusing Incident Reported Over the Change of Time on Sunday.

SCOTSTOWN, April 17.—(Special)—The change of time caused a little mix-up in the town church services here last Sunday. The Roman Catholic and the Anglican Church conducted their services throughout the day on the old time, thinking that some of the farmers not living in the village would not know of the change. The Presbyterians and Adventists, however, adapted themselves to the new time without much of any hitch, although some of the attendants of the Advent Christian who came to attend the morning worship were in time for the Sunday School.

Gaelic Service.

At the Presbyterian Church the Sunday forenoon service was in the Gaelic language, being conducted by one of the elders. The evening service was in English and was conducted by Rev. Duncan McLeod, from Gould Village, who preached from the words of our Savior to the woman who was a sinner, "Go and sin no more." Dr. MacLeod, the pastor, was at Lake Megantic supplying the pulpit of the Presbyterian Church of that town.

An Amusing Incident.

An amusing incident, which is reported to have happened in connection with the changing of the time on Saturday night, is the following: One of the members of the family, without saying anything about it, advanced the clock one hour, and shortly after this another member of the family advanced the clock another hour. Finally one of the members of the family who was cut until a very late hour thought surely it would be left to him to put that clock ahead. As it was nearly the time at which it had been advertised that the clocks should be set, he pushed the hand one more hour.

DON'T DIET YOURSELF TO CURE DYSPEPSIA IT ISN'T NECESSARY

The sufferer from dyspepsia and indigestion who has to pick and choose his food, is the most miserable of all mankind.

Even the little he does eat causes such torture, and is digested so imperfectly that it does him little good. What dyspeptics need is not dieting, or artificial digestants, but something that will put their stomach right so it will manufacture its own digestive ferments.

For forty years now Burdock Blood Bitters has been making weak stomachs strong, and curing severe cases of dyspepsia and indigestion that other remedies were powerless to reach.

It restores the stomach to a normal healthy condition so that the food no longer causes distress, but it thoroughly digested and assimilated, and goes on its way making rich, red blood.

Mrs. Henry Shaw, Campbellton, N.B., writes: "I was for five years troubled with a weak stomach, and could not eat any food that would agree with me. I tried different medicines, but could not get cured. A friend advised me to take Burdock Blood Bitters. I took four bottles, and now I am in perfect health."

COOKSHIRE AND GREATER PRODUCTION

Plots Offered to Citizens to Aid Arrangements Made to Carry on Work.

COOKSHIRE, April 17.—(Special)—A meeting of the citizens of Cookshire was held in the Council room of Victoria Hall, Monday evening, for the purpose of considering the question of better production. Rev. H. Mick was appointed chairman, and Mr. B. Lebourveau, secretary.

The first question considered was the procuring of plots of land for cultivation, and the Mayor, Mr. S. Campbell, offered 10 acres of land opposite the Cookshire cemetery and a team to plow the same.

Several other smaller plots were mentioned as likely to be available. After some discussion as to ways and means of operation in regard to organizing, a committee consisting of the Rev. H. Mick, Rev. I. A. R. McDermid, the Mayor, Mr. S. Campbell, Mr. S. Saunders and the president and secretary of the Farmers' Club or the Compton County Workers' Association, was appointed to canvass the town and vicinity to ascertain what plots can be cured, also what men and boys are available to work same and to help the farmers during the busy season, the securing of teams, etc.

There were several ladies present, and although their services were not requisitioned, they were all ready and willing to do their share, which will likely consist of working their own home gardens.

Will Send Parcels to Soldiers.

A meeting of the Methodist and Episcopal church choirs, and Cookshire orchestra, was held on Monday evening, in the parish hall at 7.30. Mr. Thos. Macrae was appointed chairman. Rev. I. A. R. McDermid read his financial report in regard to the Passion Play, and showed a balance above expenses of \$68.21. A vote was taken as to the disposal of this fund, and it was decided to use the money to send parcels to our boys from Cookshire and vicinity, who are now overseas. Committees were appointed to arrange for same. A hearty vote of thanks was tendered Rev. I. A. R. McDermid, for giving the choir and orchestra the opportunity of viewing so grand a work as the "Passion Play." A vote of thanks was also tendered Mr. W. MEGANTIC CO. HAPPENINGS

Budget of News From Various Sections of the County.

NORTH THETFORD

Sugar makers are busy, the yield being of excellent quality. Another of the pioneers of West Broughton passed away in the person of Mr. Tom McDonald. The interment took place at West Broughton Cemetery.

To Relieve Catarrhal Deafness and Head Noises

If you have Catarrhal Deafness or head noises go to your druggist and get 1 ounce of Parmit (double strength), and add to it 14 pint of hot water and a little granulated sugar. Take it tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Clogged nostrils should, open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little, and is pleasant to take. Anyone who has Catarrhal Deafness or head noises should give this prescription a trial.

MY TIRED FEET ACHED FOR "TIZ"

Let your sore, swollen, aching feet spread out in a bath of "Tiz."

Just take those shoes off and then put those weary, shoe-crinkled, aching, burning, corn-pestered, bunion-tortured feet of yours in a "TIZ" bath. Your toes will wriggle with joy; they'll look up at you and almost talk and then they'll take another dive in that "TIZ" bath.

When your feet feel like lumps of lead—all tired out—just try "TIZ." It's grand—it's glorious. Your feet will dance with joy; also you will find all pain gone from corns, callouses and bunions.

There's nothing like "TIZ." It's the only remedy that draws out all the poisonous exudations which put up your feet and cause foot torture. Get a 25 cent box of "TIZ" at any drug or department store—don't wait. Ah! how glad your feet get; how comfortable your shoes feel. You can wear shoes a size smaller if you desire.

SAGE TEA TURNS GRAY HAIR DARK

IT'S GRANDMOTHER'S RECIPE TO BRING COLOR, LUSTRE AND YOUTHFULNESS TO HAIR WHEN FADED, STREAKED OR GRAY.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application of two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

The Bishop's Palace, the great building near the new Roman Catholic Cathedral, will soon become a landmark from all points as it rears its stately height above the city. Save food

If you cut down your food by one-fifth how can you still obtain the same amount of nourishment as before? The problem looks impossible, but it is not so in fact, for if you get more nourishment from the food you do eat you will solve it.

Take a concrete instance. If there are 5 units of nourishment in bread when you buy it, you expect to get 5 units when you eat it. As a matter of fact you do not get that at all, because a good deal of the nourishment is not absorbed by the body. To take a rough and ready simile, if you put coal on a fire in the evening, and leave the fire overnight, you will find that a good deal of the coal is unburnt in the morning when the fire is out. This is much what happens to food in the body, and the "unburnt" food is wasted.

There is a simple way to reduce this loss, a way tested and approved by the highest scientific authorities. It is to take Bovril.

It has long been an accepted fact, proved by independent scientific investigation, that Bovril has a body-building power equal to from 10 to 20 times the amount taken. This is now confirmed in a very striking way in the following report from the "Medical Times":—

"The addition of a small teaspoonful of Bovril to the diet as a peptogenic before meals leads to more thorough digestion and assimilation and thus saves food."

"The diet may be then cut down from 10 to 1 and the body still be adequately nourished."

Extract from the review by the "Medical Times" of the investigations on Food Economy conducted by Dr. J. Campbell, while Food Expert to the Metropolitan Campaign for Food Economy.

Help to save the Nation's food and still keep yourself well fed by taking a cup of Bovril as soup before meals, or by adding a little Bovril in your cooking.

HEARING OF CASE AGAINST COL. READMAN

Former Members of Battalion Who are Now in Penitentiary to Be Called as Witnesses.

(Canadian Press Despatch)

QUEBEC, April 16.—The criminal court today resumed hearing in the case of Col. Readman, former commanding officer of the 167th Battalion, who is charged with forgery, circulation of forged, on over a score of cases.

The Crown will introduce two experts in handwriting to establish definitely who wrote and endorsed the cheques figured in the charges pressed against Readman, but there is a possibility of this case being postponed, owing to the fact that Judge Pelletier, who presides at the local term will have to go to Montreal Monday next to preside at the Criminal Court there.

Some members of the former battalion, who are at present under various sentences in the St. Vincent de Paul Penitentiary, will probably be called as witnesses in the present case.

Today, one of the witnesses was former Private Joseph Boissoneault, of the late 167th. He said he was discharged, receiving in all \$101.10. He says there was still a balance of some thirty dollars due him, but that he never went to get it. He swore that on a certain cheque he was shown in court, that he never endorsed it, though the cheque bears his signature. He does not know who signed for him. He says he never borrowed any money from Col. Readman.

The witness, remarked Mr. Armand Lavigne, attorney for Readman, is giving statements quite different before the Criminal Court to what he said in the Police Court at the preliminary inquest.

Boissoneault admitted in the course of his cross-examination that as regards the cheques bearing his endorsement that some of them may in fact have been endorsed by him, but that he does not remember precisely, for very often, he said, he was drunk and could not remember.

The funeral was held on Monday in Manchester, N.H. He is survived by one brother, Mr. Henry Draper, of Moe's River; one sister, Mrs. C. O. Swanson, of Calgary; one son and five grandchildren.

PATRIOTIC WORK

The Capleton and Eustis Red Cross Society wish to tender their thanks and appreciation to Mr. Bond Little, Jr., for his kind generosity and interest in the good cause. On Saturday, April 13, there was a sugaring-off in aid of the above society at Mr. Little's sugar camp. The proceeds amounted to the substantial sum of \$18.80. The weather was fine, which helped to make the evening a success, but we are sugar Mr. Little's sugar was the chief attraction—even friends from North Hatley could not resist the temptation. A double team went from Capleton through the kindness of Mr. S. L. Spafford. Others from the Albert Mines joined the party, and a number walked from Eustis to the camp.

The Capleton and Eustis Red Cross Society met again in the Capleton Hall last Thursday. There was a large attendance of the members, and the sewing completed for the benefit of the soldiers was a credit to them. Miss Grace Giroux and Mrs. H. J. Cordy entertained and provided tea. They were busily engaged serving refreshments to the gentlemen who came in for tea. The total amount collected was \$7.50.

HARDSHIPS IN FRANCE.

The following letter was received by Mrs. E. E. Ingalls, secretary-treasurer, thanking the ladies of Farnham's Corner, for the box sent, from Signaller E. Knowles:

I am very pleased to say I received your parcel safely today for which I thank you very much. You will see that I have moved to France at last. I have been here almost two months now. It is a lot different soldiering here than in England. We have more hardships here and one has to be fit before he could stand it. But still we do our best to keep happy under the circumstances.

It is quite cold here today. It snowed a little yesterday and it has not improved the ground any for marching. It will be two years next Saturday week since I enlisted in Richmond. It doesn't seem that long, but before the next two years are over I hope this thing will be settled, not only for the sake of us boys, but there are hundreds in England and France that are worse off by far than the soldiers.

My address while here in France is Sig. E. Knowles, 748766, Hdqrs. Co., 24th Batt. (Canadians), B.E.F., France.

Well, I think I must close now, thanking you once again for the box, I remain,

Yours truly,

EDWARD KNOWLES.

At a special meeting of the Executive of the Patriotic Association held in the Art Hall, the question of incorporation and registration at Ottawa was fully entered into. It was decided that the name, "Sherbrooke Patriotic Association," and the object, "For all patriotic work and such other emergencies as may arise during and as a result of the war," should remain as at present.

To facilitate the work of the Association it was thought wise to have a Board of Directors and four officers, President, Vice-President, Secretary and Treasurer.

Several names for the directorate were suggested, and at a special general meeting it was decided that the Board of Directors should consist of nine members, four of which should be the officers of the Association.

It was with sincere regret that the Association accepted the resignation of Mrs. John Leonard, who had filled the office of secretary so long and faithfully.

The election of officers and directors resulted as follows: President, Mrs. Cecil Bowen; Vice-President, Mrs. DeLottinville; Secretary, Mrs. J. Rosenbloom; Treasurer, Mrs. Drury.

Board of Directors—The four officers named above, and Mrs. Arthur Fraser, Mrs. H. Irwin, Mrs. Parmelee, Mrs. J. Morkill, Mrs. W. Paton.

The motion for incorporation was adopted.

MONEY MAKING AND MONEY SAVING CLUB

For the Eastern Townships Boys and Girls.

The Record is pleased to announce to the boys and girls of the Eastern Townships that a real money making and money saving club has been organized for the purpose of assisting the boys and girls to not only make money but to save money, also. The Government is calling on everyone to save, and the Record has made all arrangements whereby any boy or girl can earn money for their own personal use, or for Red Cross work. Y.M.C.A., or starting a bank account. The best part of earning money all yourself is that you can spend it all yourself. It is a real comfort to have five or ten dollars coming from the club to keep pace with the high cost of living. We would like to have you join the Boys' and Girls' Club. Just one question. Are you willing to do some pleasant, dignified work to earn it? Naturally, like everything else in the world that is worth having, the money is won by very pleasant profitable work. So if you, too, are in earnest, don't hesitate and don't wait to ask how you can earn club dollars here and now, to spend any way you like. Simply address a letter or a postcard of enquiry to the manager of the Boys' and Girls' Club, Sherbrooke, Daily Record, Sherbrooke, Que.

WOMEN OPERATE MACHINES AT MUNITION PLANT

Pinch of Labor Shortage is Being Felt by Munition Manufacturers.

The pinch of labor shortage is being quite keenly felt by manufacturers of munitions these days, especially owing to the fact that they require very large staffs to accomplish the necessary work at their plants. It was on account of this state of affairs that the officials of the Ingersoll-Rand Company and the Jencks Machine Company decided to employ women for munition work at their plants, and the move appears to be meeting with success. There are nearly fifty women engaged in making munitions at the Ingersoll-Rand Company's plant and over a dozen at the Jencks Machine Company's factory, and all are making progress in the work.

When the women were first employed they were put to light work, such as polishing, inspecting, etc., but already several of them have graduated into the operating class and are today at work on the machines. And, what is more, their work is meeting with approval, comparing quite favorably with the work of the men, comparative to the time the fair maidens have been at the work. It was explained that the companies had to make several changes and additions for the taking on of women.

"We would rather have good working men than women at the plant, but the call to arms and the call of the kind of working men that are desirable. Sherbrooke has been combed out pretty thoroughly for men who are capable of military duties, and practically all we get in the way of applications from males are men who are crippled, weak, or do not want to do hard labor. We can use all the men and women we can get, but there are few left that are willing to work hard," said Mr. Andrew Sangster.

It has also been discovered that the presence of women at the plants has the tendency to make the men spruce up a bit. The women are given the ten-hour shift and receive 20 cents an hour to start, and when they graduate into the operators' class they, too, can go on piece work if they so desire.

FUNERAL OF THE LATE PROF. TICKLE AT SUTTON.

SUTTON, April 17.—(Special).—The funeral of Prof. Wilfrid Theodore Tickle, whose death took place at Farnham early on Saturday morning, as before noted in the Record, took place at Grace Church, Sutton, at 2 o'clock on Monday Rev. H. Charters officiating. The bearers were Messrs. Reed Jenne, Walter Conneycare, Albert Ingold, H. H. Breese, G. A. Morrison and Ernest Jenne. There was a large turnout considering the brief notice of the funeral given here. Prof. Tickle came from London, Eng., and was 56 years of age. His only daughter, who inherited musical talents from her father, died suddenly while at her piano in London, and the little girl's mother received such a shock that she soon followed her daughter. Prof. Tickle spent some three years or more in Sutton, but in recent months he had taken classes to instruct in Farnham and at other points. He was an affable gentleman and won the confidence and friendship of many friends in Sutton. For a long time he stopped at Mr. B. G. Hicks' here and considered himself at home there. The sudden call to Prof. Tickle is much regretted by all who knew him well. The Masons of Sutton marched in a body to the funeral, as there was a member in good standing in England.

THREE OF FOUR CASES AT BLACK LAKE DISMISSED

Bench Warrant Issued for Defaulting Witness and Proceedings Adjourned in Other Case.

BLACK LAKE, QUE., April 17.—(Special).—Four cases were heard by Judge Mulvena here in the District Magistrate's Court, but three of the four cases were either dismissed or withdrawn, while the fourth was adjourned for further hearing until April 29th. Complaints were laid by the Corporation of Black Lake against Lucien Beaudoin, restaurant keeper, and Edouard Lecours, hotel keeper, of selling intoxicating liquor without a license.

In the former case several witnesses were heard, principally from Thetford Mines and Robertsonville, and all denied ever having received any intoxicating liquor from the defendant. The accused, therefore, was discharged.

In the case against Edouard Lecours the witnesses examined also denied all knowledge of ever having bought intoxicating liquor from the defendant. However, one witness was missing, and as a consequence the case was adjourned until April 29th, and a bench warrant issued at the instance of the complainant against Arsene Pelletier, of Richville, the defaulting witness.

At Thetford Mines, two cases, one of assault on a police officer, and the other of theft, were withdrawn by the complainants.

DOWNFALL OF COUNT CZERNIN IS RESENTED

Profound Impression Caused in Austria and Germany Over His Retirement.

(Associated Press Despatch)

BASLE, Switzerland, April 17.—The tone of the Austrian and German press indicates that profound impression has been caused in the country by the downfall of Count Czernin. The German people and the German element in Austria resent the retirement of the minister, and after his resignation was announced, began a vigorous campaign for the appointment of his successor. Former Premier Tisza, Count Andrássy, or another Hungarian whose views agree with theirs.

The Mittag Zeitung, of Vienna, says Count Czernin's fall was due in part to lack of agreement with the Emperor in regard to Poland and to his attacks on the Czechs.

The same element which was opposed to Count Czernin began to criticize the German foreign minister, (on Kuehlmann, on the pretext that he did not protect Germany's economic sufficiently in the treaty of Brest-Litovsk.

FINE MORALE OF CANADIANS NOW OVERSEAS

Col. Almond Says Percentage of Disease and Drunkenness Less Than in Any Troops in France.

(Canadian Press Despatch) MONTREAL, April 17.—"The Canadian people can trust the leaders of their boys in France," said Col. (Canon) J. M. Almond, director of the Dominion's Overseas forces, today in an interview.

Canon Almond is home on two months' leave, and will devote it to propaganda work in Canada and the United States.

The Canon said there was no need to worry over the outcome of the great battle. The Allies were only waiting the right moment to strike and win. He strongly urged, however, that every available man should be sent to reinforce the Canadian troops. He was glad to see the Government was taking steps to call up more men.

Canon Almond stated that statistics proved there was a lower percentage of disease and drunkenness among Canadians than in any of the troops in France. The percentage was as low as in any town in Canada.

Former Health Commissioner Says Nuxated Iron Should Be Used in Every Hospital and Prescribed by Every Physician—Attributes His Own Great Physical Activity Today at Over 60 Years of Age Largely to His Personal Use of Nuxated Iron.

WHAT FORMER HEALTH COMMISSIONER KERR SAYS

"As Health Commissioner of the City of Chicago, I was important many times to recommend different medicines, mineral waters, etc. Never yet have I gone on record as favoring any particular remedy, but I feel that in Nuxated Iron an exception should be made to the rule. I have taken Nuxated Iron myself and experienced its health-giving, strength-building effect, and in the interests of the public welfare, I feel it my duty to make known the results of its use. I am well past my three-score years and want to say I believe that my own great physical activity is due largely to my personal use of Nuxated Iron, and if my endorsement shall induce anemic, nervous, run-down men and women to take Nuxated Iron, and receive the wonderful tonic benefits which I have received, I shall feel greatly gratified that I made an exception to my life-long rule in recommending it. From my own experience with Nuxated Iron, I feel that it is such a valuable remedy that it ought to be used in every hospital and prescribed by every physician in this country."

Wm. R. Kerr
Former Health Commissioner, City of Chicago.

Former Health Commissioner Kerr has given years of his life fighting for public health in his own and other cities. It was he who introduced Anti-toxin for Diphtheria in Chicago's Health Department. He purified the milk for the Consumers and thereby helped to save the lives of thousands of babies. He introduced the anti-spitting ordinance which has been copied all over the country and also took care of the sewers and garbage in the interest of public health. He is positive that the widespread use of Nuxated Iron would greatly lessen the worries and troubles of Health Commissioners in keeping up a high standard of public health.

NOTE—Nuxated Iron, which has been used by Former Health Commissioner Kerr with such surprising results, is not a secret remedy, but one which is well known to druggists everywhere. Unlike the older inorganic iron products, it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed in this city by all good druggists.

WAR OPERATIONS IN BRIEF

A British counter-attack last night indicated the strength of the British line in this vital sector. It resulted in the driving of the Germans from the town of Meteren, a mile and a half west of Baillieu, which they had entered.

The Germans are still hammering the British line north of Baillieu, while to the northeast they are reported to be close to Mont Kemmel, the lowering height which dominates the situation in this sector. The British now seem able to deal with them along the Baillieu-Wytschaete line, however, and the repulse of repeated attacks, with terrific losses to the enemy in the Baillieu sector, are reported.

HEREDITARY TITLES DISCUSSED IN THE BRITISH HOUSE

Government Will Not Put Limitation on Peerage in Canada.

(Canadian Press Despatch) LONDON, April 17.—(Via Reuters Ottawa Agency), in the House of Commons, Mr. J. King, Liberal member for Somerset North, affirmed there was a feeling in the British colonies, France, the United States, and all democratic countries against hereditary privileges and titles. He said this feeling had recently been strongly expressed, especially in Canada and the United States. Mr. King asked whether legislation would be introduced providing for the limitation of peerages and baronetcies to three successive holders.

Mr. Bonar Law replied in the negative.

Mr. King: "Is it not a new policy to make a hereditary title in a family exclusively domiciled in the colonies?"

GRANBY GOLF CLUB ELECT OFFICERS

Seeral Improvements Will Be Made to the Course This Year.

(Special to Record) GRANBY, QUE., April 17.—The annual meeting of the Granby Golf Club was held in the Council chamber when the old board of officers was re-elected as follows: President, C. H. Thompson; Vice-Presidents, W. H. Miner and A. C. Smith; Secretary, J. G. Fuller; Treasurer, W. W. D. Brack; Captain, W. O. Lewis; Executive Committee—J. B. Travers, R. K. Smith, J. Bruce Payne, J. Blanchard, Nelson Mitchell and Arthur Kent.

The course will be in a much better condition than last year and the prospects for the coming season are good.

The club is fortunate in having the professional resident in this city, and he will have charge of the greens, and will also be available for lessons and instruction, as well as for supplying and repairing clubs and outfits.

Last season no prizes or club trophies were given, but all competitions were for the benefit of the Red Cross funds, and the amount realized in this way was over \$100. It is expected that the same practise will be followed this season.

VOLGAR BEAT LOADMAN. CLEVELAND, Ohio, April 17.—Benny Volgar, French bantamweight champion, was given the newspaper decision over Dick Loadman, of Lookport, Ky., in the first ten-round bout of an exhibition here tonight.

LATEST TELEGRAPHIC DESPATCHES

BATTLE RAGING WITH GREAT INTENSITY

Reuter's Correspondent Says that Struggle Today is Going in Favor of British.

(Associated Press Despatch)
 LONDON, April 17.—The battle in Flanders is raging today with incredible intensity, telegraphs the correspondent of Reuter's Limited at British army headquarters in France. As far as the latest reports enable the correspondent to judge the battle is going in favor of the British.

Notwithstanding the desperate attacks of the Germans they have gained no further ground since Tuesday morning, and apparently they have lost some.

During his three years' experience in the war zone, the correspondent says, he never has heard such terrific and unintermittent gunfire as has gone on since Tuesday afternoon and which continued as he filed his despatch this morning.

(Via Reuter's Ottawa Agency)
 LONDON, April 17.—The gravity of the position resulting from the latest German successes is admitted here in the newspapers, but still no note of despondency is recorded. The British army has been assigned to an arduous role—that of delaying the advance of a numerically superior enemy—and is holding with all tenacity every foot of ground, but disaster cannot be imagined, for the allied line is still unbroken. In this connection, General Haig's appeal to the troops is recalled when he spoke of the French forces hurrying to the support and confidence is felt that they will intervene at the proper time. The present battle is a repetition of Verdun on a grander scale, with Bailleul Neuve Eglise, Wytchate each representing the Beaumont farm, all offered to the enemy at the price of his exhaustion.

Threaten Control of Coast.
 It is pointed out, however, that the allied tactics of delay cannot be pressed much longer, as the Germans now threaten not only Ypres but the control of the coast.

The battle in the next few days will probably develop northward against Mount Kemmel, Noyelles, of which the average height is 500 feet. Some satisfaction is deduced from the reflection that this is not the original German plan. Their objective last week was Bethune. Held there, they tried Hazebrouck, a more important centre than Bailleul. They were stopped here also, and they are now exerting their strength northward, but the previous two failures, also Amiens, justify the hope that they may be stopped again. The dominating feature is that there is evidence that the enemy is still bringing in fresh divisions, enabling them to increase weight and pressure.

Correspondents testify from their own experience to the magnificent spirit of the English and Scotch regiments, who are fighting so stubbornly. Every man is convinced of ultimate victory, and some writers suggest that Admiral Beatty's sweep of the Cattegat Strait is connected with the anticipation that the German fleet may participate in the offensive.

HAIG'S TROOPS HOLD GROUND SOUTH OF YPRES
 LONDON, April 17.—The British at dusk today, says a Reuter's despatch from the British headquarters in France, were advancing in the neighborhood of Wytchate, south of Ypres, and were reported again to be holding the ground which they held yesterday.

Among the numerous enemy attacks Tuesday afternoon and evening on the northern front on Flanders, one in great force in the Zillebeke sector was disastrous for the Germans, whose massed waves were shot down at close range. They apparently were ordered to retire and then the British gunners got on their flank, the correspondent says, and the slaughter was appalling.

FIRE RAZED BARN OF MR. CRAWFORD TO GROUND

Buildings, Cattle and Feed Destroyed—Saved Aunt, Who is Blind.

Flames razed the residence and farm buildings of Mr. Charles Crawford, of Lennoxville, to the ground yesterday afternoon, destroyed tons of feed, burned to death twenty-four head of cattle and ten heifers, besides several horses and pigs, and came within an ace of causing loss of human life. The total damage accomplished by the flames is estimated at about \$15,000.

The fire was started amongst the dry grass, which spread to the buildings. Owing to the dry weather, the wood furnished excellent food for the destructive flames, and in no time the buildings were a mass of flames. The only assistance that Mr. Crawford could secure at the critical time was his aged father, and the two were unable to stand off the progress of the blaze. The result was that the buildings and their contents were burned to ashes.

Only quick work on the part of the father and son enabled them to save the life of the latter's aunt, who is blind, from a terrible death. The flames spread so rapidly that Mr. Crawford barely got his aunt to safety in time.

Owing to the fact that the flames spread so rapidly, by the time firemen arrived the situation was hopeless.

PRODUCTION OF COAL IN DOMINION

Mine Owners and Representatives of Men Hold Conference in Ottawa.

(Associated Press Despatch)
 OTTAWA, April 17. Coal mine owners and representatives of coal miners from coast to coast were in conference here with members of the Government today. The conference was called by Hon. T. W. Crothers, Minister of Labor, the purpose being to secure full co-operation between owners and miners with a view to securing the greatest possible production. Members of the Government present were Sir George Foster, Minister of Trade and Commerce; Hon. Mr. Crothers, Minister of Labor, and Senator Robertson. C. A. McGrath, Fuel Controller, was also present. The conference is proceeding in private.

By reason of the death, disablement or service of other members of the same family, a man may be granted by the Minister of Militia leave of absence without pay. Other grounds for exemption will be of no effect, and when men who have been discharged from the military or naval forces, if they have not seen actual service in France or some other "theatre of actual war," will be required to report. As far as those who have been examined by military medical boards and found unfit for service are concerned, the Minister of Militia may use his discretion as to whether or not they shall be ordered to report for service.

While the Government contemplates the immediate calling to the colors only of unmarried men and childless widowers from 20 to 23 years of age, it proposes to take still wider powers. It may, under the order-in-council, call up any class under the Military Service Act, and disallow exemptions granted to men included in that class. Furthermore, the order will bring within the scope of the Military Service Act all young men who have attained the age of 19 years since the passage of that law, or who hereafter reach that age. Such youths who are unmarried or childless widowers, have been added to class One under the Act, and such as are married or widowers with children are added to Class Two. Each of those classes now comprise men between the ages of 20 and 34.

Further Call if Needed.
 If their class has been called to the colors, young men will be required to report for service within ten days of the date upon which they reach the age of nineteen. That is to say, single men and childless widowers will, after the order-in-council becomes operative, have to present themselves as they pass their nineteenth birthdays. While the exemption provisions of the Military Service Act will not apply to unmarried men from 20 to 23 years of age, and may be made inapplicable if the Government thinks fit, to other classes as they are called, they will not become altogether inoperative. They will continue to apply to men in classes not summoned to the colors under the new order. The tribunals will therefore continue in existence, and their work will be speeded up in an effort to secure men other than those to be summarily placed in the military forces.

It is hoped that the call to men from 20 to 23 will secure the men immediately required for reinforcement. If it does not suffice, a further call will be made. In cancelling exemptions granted to men of those ages, the Government has taken the position that few, if any, of them can be regarded as indispensable in the national interest in industry.

The order-in-council, together with confidential data with respect to the military situation in France and Flanders, will be submitted to the members and discussed at today's secret sitting of the Commons. The order will be introduced for approval in both Houses of Parliament.

TURKS CAPTURE CITY OF BATUM

LONDON, April 17.—The capture by the Turks of the city of Batum is announced in an official statement issued at Constantinople Monday.

Batum is a Black Sea port in the Trans-Caucasian territory taken from Russia under the terms of the peace treaty. This region has been evacuated by the Russians, but its occupation by the Turks is being resisted by the Armenians.

(Associated Press Despatch)
 WASHINGTON, April 17.—From a special envoy of the Frankfurter Zeitung, sent into Krasnodar to report on the economic outlook, the Germans have received a rather dismal picture of what they thought was a great prize when they broke this province away from Russia.

BRITISH GOVERNMENT WILL RESIGN IF HOUSE OF LORDS REJECTS HOME RULE BILL

Intention of Cabinet is To Have Self Government
For Ireland on Statute Books Before Con-
scription is Operative. Mr. John Dillon's
Motion to Drop Clause Relating to Conscript-
ion in Ireland From Man Power Bill De-
feated By Majority of 176

(Associated Press Despatch)
LONDON, April 17.—Mr. John Dillon's motion to omit the conscription clause relating to Ireland from the man-power bill was rejected by a majority of 176 in the House of Commons last night.

Mr. John Joseph Clancy, member for Dublin county north, in seconding Mr. Dillon's motion, declared that a Government "with a record of infamy had not the moral right to arrest even a rat in Ireland."

Mr. Barnes appealed to Irishmen not to cry before they were hurt. He believed that Home Rule might be on the statute books before conscription is operative. Indeed, the Government intended to secure that if it could possibly be done.

Amid Irish exclamations of "the House of Lords," Mr. Barnes said that if that could not be done every man would have to reconsider his position.

Sir Edward Carson, interrupting, asked if the Government meant that before Irishmen were called to the colors Home Rule would be passed.

Mr. Barnes repeated that the Government would introduce the bill. This was greeted by exclamations of "answer."

Mr. Timothy Healy then asked whether if the Lords failed to pass the bill, the Government would resign.

Mr. Barnes replied he should confidently say that they would.

Premier Lloyd George exclaimed: "Hear, hear."

Mr. Barnes was subjected to continual interruptions and questions on the Government's intentions. The speaker pointed out that the Premier would be speaking later and would be able to elucidate it.

Sir Edward Carson said he would continue to support the man-power bill in order to help crush German militarism, but not because he was

grateful to the Government. He would prefer anything rather than that all civilization should be impeded by the victory of the enemy. He said it was perfectly clear that no recruits would be conscripted in Ireland until a Home Rule Bill was passed. The Government had so pledged themselves, but there was no pledge for the nationalists.

Sir Edward said his own belief was that then conscription would be more difficult to apply than ever because there would be an Irish parliament opposed to it. Doubtless he would be asked to go over and make things smooth. But it would not be an easy job after Ulster had been promised by the Government and Parliament that if they entered the army Home Rule would be suspended for the duration of the war.

Nevertheless Sir Edward hoped Ulster would support the conscription bill. The Government, he added, had blundered from the beginning to the end on this question in trying to please everybody, and they would succeed in pleasing nobody.

UNIONISTS SACRIFICE LONG-CHERISHED PRINCIPLE

(Associated Press Despatch)
LONDON, April 17.—A lengthy meeting of the unionist war committee, which was attended by 127 members, was held in the House of Commons last night to consider the question of Home Rule in Ireland and the war. An official announcement issued after the meeting merely said:

"The discussion was a very grave one."

According to the Daily Telegraph, Sir Edward Carson spoke in the interest of Ulster, while the other members urged that every effort should be made to secure a settlement of the Home Rule question, even at the sacrifice of long cherished principles. No resolution, the paper says, was adopted, but the balance of feeling was that the Government must proceed cautiously with the Home Rule Bill.

Amounts Payable to Owners
of Animals Slaughtered Under
Contagious Diseases
Act Will Be Increased.

(Canadian Press Despatch)
OTTAWA, April 17.—Several Government bills were advanced a stage in the House of Commons yesterday. These included Hon. T. A. Crerar's amendments to the meat and canned foods act, which will regulate packing houses and imported foods. There was some criticism of the cold storage companies, more particularly by Col. J. A. Currie, who said the time had come when they should be compelled to reform. He declared that Mr. W. F. O'Connor, the Cost of Living Commissioner, who recently resigned, had done good work.

A resolution by the Minister of Agriculture, increasing the amount payable to owners of animals slaughtered under the animal contagious disease act, was passed, and a bill based thereon given first reading. The purpose of the bill was generally approved. Second reading was given to an act to provide compensation where employees of the Government are killed or suffer injuries while performing their duty, and this bill was put through committee stages.

The inquest into the sudden death of William Smith's son at Coatcook, will be held this evening by the coroner. The young man was out hunting, when he suddenly took sick and died before assistance could be summoned. The deceased was accompanied by one of his friends, and when setting a trap near the river, suddenly fell over sick. His friend asked him what was wrong, but the only reply he received was that Mr. Smith felt very sick.

His friend started to rush the sick man to a doctor's house, but before he had gone far Mr. Smith expired. The body was taken to the morgue.

BELIEVE BODY TO BE THAT OF MRS. HAM

Body of Woman Found on
Bank of River Near
Bramptonville.

The discovery of the body of a middle-aged woman on the bank of the St. Francis river, near Bramptonville, late yesterday afternoon will, it is expected, clear up the mystery of long standing surrounding the sudden disappearance of Mrs. Eugene Ham from her residence on Frontenac street last November. The remains of the woman washed up on the bank of the river by the high tide have not as yet been identified, but the description tallies with that of Mrs. Ham, and it is the general opinion of the authorities here that the body found is that of the woman who so mysteriously disappeared. However, it will not be definitely known until late this afternoon, when a number of local men, including Mr. Ed. Bradley, go out to the inquest and see the body, whether or not the body is that of the local woman.

Mrs. Ham mysteriously disappeared from her home on the night of November 8 last, and although the police authorities made a systematic search, not a trace of her could be found. It was understood that Mrs. Ham had been in very poor health since the death of her husband, who passed away last June. She has a brother living at Cabot, Vt., and he also has been endeavoring to find the missing woman all this time.

The body was found by Jacques Chevalier, who notified the authorities. The remains were taken to the morgue, where an inquest will be held this evening.

Do you see the significance of it now?

The significance is this:

There are more than 500 munition plants in Canada.

In some of them there are as many as five hundred lathes. In very few there are less than one hundred lathes.
