STEAMER LOST OFF HOLLAND'S COAST.

Of 141 Passengers and Crew Only One Was Saved — A few Still Cling to Wreckage.

Rotterdam, Feb. 21.—(Special.) — A disastrous steamship wreck, attended with great loss of life, occurred to-day off the north pier of the Hook of Holland, when the Great Eastern Railway Company's steamer "Berlin," bound from Harwick to the Hook of Holland: was lost. All on board, 141 persons, in all of whom 91 were passengers, were drowned, except one.

The wreck occurred at 5 o'clock this morning during a terrific southwesterly gale.

The steamer struck the North Jetty while trying to enter the new waterway at the Hook of Holland.

She broke in two forward and sank while the passengers and crew gathered aft and vainly attempted to use the life boats.

One person was saved and 25 bodies have been washed ashore.

EVERY ONE ON BOARD PERISHED.

London, Feb. 21.—(Special.) — The Berlin left Harwick at 10 o'clock last night upon the arrival there of London train with the greater number of the passengers who subsequently lost their lives.

The steamer should have reached the Hook of Holland at 6 o'clock this morning, and would have proceeded for Rotterdam.

A great gale was blowing in the North Sea when the Berlin started, but the weather was no worse than on the previous night when similar vessels made the trip without mishap. As the Berlin was entering the waterway at the entrance of the River Maas, however, she apparently became unmanageable on account of the force of the wind, and was driven ashore. The alarm was given and lifeboats from the shore proceeded to the assistance of the stricken steamer, but the seas were so high that the boats were unable to approach the Berlin close enough to take off any passenger or crew, and lifeboat men had to stay helpless while the steamer pounded until she broke in two.

Every soul on board was carried down.

She apparently struck about amidships as her forepart broke off and sank immediately while her after part could be seen for a considerable time afterwards.

LOSS OF SHIP CONFIRMED.

London, Feb. 21.—(Special.) — The Great Eastern Railway Company confirms the loss of steamer Berlin with all on board off the coast of Holland.

The Berlin carried passengers and crew to number of 141.

Among those drowned are nineteen members of the German Opera Company, who had just concluded their season at Covent Garden.

Arthur Herbert, one of the King's messengers, who was journeying to the continent, was also lost.

The Berlin was a British steamer, 302 feet long and of 1,775 tons. The ship was commanded by Capt. A. B. Lett, and was built in 1894.

ESTIMATE OF NUMBER ON BOARD.

Rotterdam, Feb. 21.—(Special.) — The agents of the wrecked steamer Berlin say that although they are not positive regarding the numbers, they believe the vessel carried 120 passengers and a crew of 60 officers and men.

A FEW MAY BE SAVED.

Hook of Holland, Holland, Feb. 21, 12.30 p.m. (Special)—The after part of the wrecked steamer Berlin did not slip into the deep water, as the people on shore at first believed, but seems to be firmly embedded in the sand bank.

There are still a few persons on board clinging to the wreckage and it is hoped it may be possible to affect their rescue at low tide.

During the high water and the high storm, the waves shut off all view of the wreck which led to the belief that no trace of the Berlin had been left.

Receding tide, however, revealed the remains of her stern with a handful of survivors.

The only person who thus far has succeeded in reaching shore is Captain Parkesten, of Belfast, Ireland. He is now in a high fever.

GREAT FAMINE IN RUSSIA.

People Absolutely Dependent Upon Outside Relief.

LACK OF FUEL AND FODDER — SLOW STARVATION AND FEARFUL MALADIES MAKE MISERY EXTREME.

Kazan, Russia, February 21.—A correspondent of the Associated Press has returned here after a twenty-five days' trip through Kazan, Smara and Ufa, three sample provinces of the twenty affected by famine. The correspondent investigated the situation in all directions, travelling five hundred miles by sleigh in districts remote from the railroads, where the distress is most acute.

The population everywhere was found to be absolutely dependent upon outside relief. Although lacking the dramatic coloring of traditional famine—violent epidemics and wholesale deaths from hunger—the present state of affairs is characterized by slow starvation and extreme misery, which are fully as pitiable. The relief machinery organized by the Government, the Red Cross, the Zemstvos, and private societies, is working with reasonable smoothness, and few localities are utterly neglected. But the Government allowance of thirty-six pounds of rye per person per month is most inadequate, and this amount is cut by eighteen or twenty pounds by the cost of transportation and milling. Men, and even women, between the ages of eighteen and fifty-five, are excluded from receiving the Government ration.

Aside from the distribution of Government rations, the famine fighting is carried on by the free kitchens, organized by Count Tolstoi in 1891, and maintained privately, by the Red Cross and the Zemstvos. These kitchens are unequally distributed, and in many localities they are lacking or are only now being organized. In Ufa they feed a total of 240,000 persons, in Kazan 230,000, and in Samara 100,000 many of whom are children.

A FEARFUL MALADY.

A trip by sleigh into the northern part of Kazan province took the correspondent of the Associated Press into one of the worst sections of the famine region. In the hamlet of Alanshipshack, which can be taken as typical of many other, persons suffering from ergotism were found in seventy-four out of seventy-eight houses visited. The symptoms of this malady are a burning sensation in the liver, followed by chills, spasms and a permanent contraction of the limbs, and finally blindness and idiocy.

SENTENCED TO DEATH.

FERREIRA AND FOUR OF HIS FOLLOWERS TO BE EXECUTED.

Kimberley, February 21. —Ferreira, the leader of the raid from German Southwest Africa, in November last, and four of his followers, were yesterday sentenced to death. The jury refused to credit the statement of Ferreira that a German captain named Siebert instructed him to cross the border and stir up sedition in Cape Colony.

IN THE HOUSE OF COMMONS.

Peaceful Discussion in House Yesterday.

TALK ON OLD AGE PENSIONS — SUBJECT BROUGHT UP BY MR. PRINGLE.

Ottawa, Feb. 21.—After the storm, the calm. The restful quiet of the chamber was unbroken yesterday by violent personalities, typical good humor prevailed, and there was not a trace of the drenching shower of extraordinary language which fell Tuesday afternoon. It was private members' day, the last Wednesday this session, as the Government hereafter will take that day for their own needs. A slim House listened with attention to a prosaic talk on old age pensions, a resolution calling for such legislation being moved by Mr. Pringle, of Stormont. Mr. Pringle dwelt upon the manner in which this problem had been handled in other countries, particularly New Zealand, and thought a country in the van of civilization, as Canada was, should take care of her deserving poor. Sir Wilfrid Laurier favored contributions from those who expected to participate in benefits of an annuity fund, the State to supplement by contributions. A suggestion was thrown out by Mr. Robitaille that a commission should at once investigate conditions and report thereon. Mr. Verville, for his part, strongly favored old age pensions, and incidentally gave some statistics as to the cost of living in Montreal. The talk was concluded by Mr. Pringle withdrawing his motion, at the suggestion of the Premier, but intimating that during the session he will either move that a committee be appointed to deal with the matter or introduce a bill.

Mr. Laurance, Liberal member for Colchester, criticized the Minister of Railways for habits of procrastination in moving for a return regarding accidents causing death, etc., on the Intercolonial Railway since its opening. There was talk on this subject, Mr. Aylesworth holding the fort in the absence of Mr. Emmerson.

The House adjourned at six o'clock, after a restful four hours' talk.

NOYAN.

Feb. 21.—Mr. and Mrs. Geo. Robinson have returned home after spending a month with relatives in Middlebury, Vt.

Mr. Floyd Fadden was badly bitten on the arm the other day by his fox hound while performing an operation on his foot. The patient is doing well.

Mr. Frank Vosburg was kicked on the hand the other day by a horse, and had one of his fingers broken.

Mr. C. G. Fadden froze one of his feet last week, badly, but is getting along nicely.

A local telephone line is under contemplation from here to Clarenceville. Connections will be made with the Albury, Vt., local line, which will add greatly to the convenience of rapid communication. Mr. R. B. Derick, whose energy and enterprise is always in vogue, is soliciting subscribers.

FIRST TWO WEEKS IN SEPTEMBER.

Sherbrooke Fair Dates Finally Fixed.

ARRANGEMENTS BY WHICH STOCK SHOWN AT TORONTO MAY, ALSO, BE EXHIBITED HERE.

The directors of the Eastern Townships Agricultural Association again met yesterday afternoon to discuss the date question. It was finally decided to open the fair on September 3rd, continuing until Sept. 14th, the end of the following week.

It is understood that the Toronto Exhibition Co., whose fair opens on August 26th, have agreed to release during the week of Sept. 2nd, such live stock as is entered for the Dominion Exhibition at Sherbrooke.

The opening of the Sherbrooke Exhibition a week later than was first intended, coupled with this accommodation on the part of Toronto will remove all clash between the two big shows.

Exhibitors may enter into the competition at both.

Cattle exhibitors in Toronto desiring to show at Sherbrooke will be allowed to leave on Wednesday and will be admitted on arrival here. Other live stock exhibitors will be similarly accommodated. This compromise of the difficulty which arose between Sherand Toronto will, it is believed, work out to the benefit of both exhibitions.

EXPERIENCE OF ANOTHER ENGLISHMAN.

Advises His Countrymen To Come To Eastern Townships

THANKS MR. BREWSTER FOR FINDING HIM EMPLOYMENT AND COMFORTABLE HOME IN THIS PART OF CANADA.

Editor Record:

Sir,—After reading the letter from Mr. Brewster and also the letter written by "An Englishman," published in your paper of the 18th inst., I feel called upon to write and will take this opportunity of thanking Mr. Brewster for finding me good employment and a most comfortable home. I came to this country last summer, and by the help of Mr. Brewster, got employment at once on a farm at $10 per month and board, which I consider good wages for an inexperienced man, and I have been in constant employment ever since.

Like most Englishmen, I came to this country with the purpose of bettering myself, and have studied the country, people and prospects carefully, and have noticed several important facts, viz.: (1) That the Eastern Townships for an immigrant with no capital is the best place he could come to; (2) that labor, both skilled and otherwise, is in great demand and that good wages are paid accordingly; (3) that the farmers in this district are all prosperous, and that there is a good, and steady market for their produce, and last but not least, that for hospitality, I consider the Eastern Townships unequalled by any other country and I may add that I have seen and been in a good many. In regard to clothing, etc., I find it very little dearer than in the Old Country. I should like to say to the Englishmen that intend coming to Canada this year that I think they would find the Eastern Townships better in every way and more to their liking, as the conditions are nearly similar to those of England, with this exception, whereas in England manual labor in most cases is regarded as degrading, here it is thought to be ennobling. Trusting you will make use of this letter as you think best, I am,

Yours truly,
L. SEYMOUR WALKER.

WILL REMAIN FOR ANOTHER YEAR.

Dr. Flanders and Stanstead College Principalship.

YIELDS TO URGENT REQUEST TO POSTPONE DEPARTURE FOR A YEAR.

Rock Island, Feb; 21.—(Special.) — In response to an urgent and unanimous request on the part of the trustees of the Stanstead College, Dr. Flanders has consented to remain as Principal for one more year. It was feared that his withdrawal at this time may affect the endowment scheme. Dr. Flanders is quite decided to resume his chosen profession, at the same time will cheerfully postpone the change for a year if the college interests seem to demand it.

ENDED HIS OWN LIFE AT WATERLOO.

Unfortunate Death of Hubert Lavigne.

SUPPOSED TO HAVE BEEN SEIZED WITH A FIT OF DESPONDENCY.

Waterloo, Feb. 21. — (Special)— Undoubtedly due to a fit of despondency, Mr. Hubert LaVigne, of this place, committed suicide yesterday afternoon, by taking a dose of Paris green and then cutting his throat.

Medical aid was quickly summoned, after he had been found, but nothing could be done.

He died about 2.30 o'clock and was in his seventies.

MAJORITY FOR BOERS IN NEXT PARLIAMENT.

General Botha Likely to be Premier.

SIR RICHARD SOLOMON AMONG DEFEATED — PROGRESSIVES ARE DOING FAIRLY WELL.

Johannesburg, Feb. 21.—The election results, as far as known, indicate that the Boers will have a majority in the next Parliament. Eighteen Progressives, six Nationalists, sixteen Dutch party candidates, one Independent and three Laborites have been returned.

The returns from a number of country districts have not yet been announced, but these districts strongly favor the Dutch party. The Dutch party, the Nationalists and the Laborites are allied. It is expected that General Botha will be invited to form a Cabinet, and that the new ministry will include Generals Smuts and General Delarey.

Sir Richard Solomon, ex-lieutenant-governor of the Transvaal, who has joined the Dutch party, and who is regarded as representing the interests of the British Liberal Government, and the leader of the Nationalists, has been defeated at Victoria in the most exciting contest of the election, by Sir Percy Fitzpatrick, the Progressive candidate, who is a mining magnate. The Progressives are known also as the British party. It is still possible, however, that the Dutch party will ask Sir Richard to accept the premiership, in which event a seat for him will be found.

The defeat of Sir Richard Solomon was entirely unexpected by either side, and altogether the Progressives made a better fight than they dared anticipate.

FAMILY OF FIVE FROZEN TO DEATH.

Western Homesteader, His Wife and Three Children Perished.

FARMER NAMED RADCLIFFE SUPPOSED TO HAVE LOST HIS WAY IN THE STORM.

Estevan, Sask., Feb. 21.—David Trapper arrived here last night, with the information that a farmer named Radcliffe, with his wife and three children, were frozen to death. Radcliffe was a homesteader, who came here for coal about a fortnight ago. A neighbor named McAlpine called at Radcliffe's during his absence and found his wife and children frozen solid, and no fuel or food in the house. Further search also found Radcliffe and his team of oxen frozen to death on the ice in a neighboring creek, with his sleigh loaded with coal and provisions.

It is thought that he had lost his way in the storm and perished. Radcliffe arrived from England last May and homesteaded in June. Sergeant Lett, of the Mounted Police confirms the report by wire, adding that the bodies were brought into Macoun last night.

Dr. Mooney and James Bain Scott, managing director of the Great Northern Lumber Co., have been chosen to go to Quebec, and lay the matter before the proper officials, and it is expected that anything these gentlemen undertake will go through. Among other things that were discussed was the local school question, many finding fault with the present management of affairs. There was some talk of separating Scotstown from Hampden, so that Scotstown might have a School Commission of its own.

DR. TURNER WRITES FROM CUBA.

Bury, Feb. 21, (Special)—A letter has been received from Dr. Turner, from Havana, Cuba, which will be of interest to his friends. He states:

"The weather is ideal, regular July weather, sitting about in shirt sleeves, 90 in the shade. Some of the people are very nice, but the poor class are a very ill bred behaved people, going about almost naked and small children 8 and 10 years of age entirely naked. They resemble the Southern Colored people, only better featured. Most of the buildings resemble large halls and public buildings, many of them being built with large pillars of stone. They have three kinds of money, American, Spanish and French. The American being the standard it takes $1.13 to $1.40 in Spanish to be worth $1.00 American and prices vary each day. Rents and prices of everything are very high. The streets are very narrow.

"I went out and was rowed over to the old battleship "Maine" that was sunk in the harbor. Part of her is sticking up out of the water now.

"I also went through the famous "forts" (famous for their horrors). Morro Castle and St. Cabanor and saw the "dead line," where they shot their prisoners and the "shoot" to the water where they shoved them through into the waters to be eaten up at once by the sharks, over the edge. There are monster sharks for I saw them.

"I am feeling fine, perfectly well and strong now, although for a while I was troubled with tropical neuralgia. It resembles ivy poison very much in appearance and as they have no mattresses on the beds here, it was very hard for me to be comfortable, only a thin puff (like our comforters) spread on the springs for a bed.

"I really think I am getting somewhat homesick and should not be surprised if I started for home in two or three weeks.

"You said in your letter it has been 40 below. I think I'll remain south for a period yet, as that seems to give me a chill, etc."

REV. MR. WATSON LECTURES BEFORE LITERARY SOCIETY.

Cowansville, Feb. 21.—(Special.) — The regular session of the Literary Society brought out an ovation to the Rev. W. H. Watson, on account of it being the last opportunity which the Society as such would have of showing their appreciation of his work here. The feature of the evening was his lecture. It is impossible to give even a comprehensive summary of this lecture, but some reference may be made.

Some books were for the market and some for the conscience, said Mr. Watson. Such books as "The Jungle" had caught the fancy of both, and had stirred the people as did "Uncle Tom's Cabin" in the late fifties. The only reason that worthless novels have for existence is there are readers to match. We should stop encouraging such. Reference was made, in a brief way, to Jane Austen, George Eliot, Macauley, Fielding, Richardson, Carlyle, Disraeli, and the statement made that, in England, the really great novel dealt with either religion or politics.

Novels are the democratic form of literature. The drama is only for the comparatively few. All abated abuses had been first started on their course to ultimate downfall by the novel. The pen of Dickens had abolished the debtors' prison in England. The lecturer proceeded to discuss most interestingly Dickens and his works.

In Martin Chuzzlewit the wild-cat land schemes of that day were exposed, and the lecturer thought it a pity that we had no Dickens of the present day to fittingly expose and deserибe the present day mania for stock-gambling. Right here, Mr. Watson gave a word of warning to the young: "Don't buy stocks which yield 50 per cent. dividends. They are not to be bought; the directors keep all of that sort for themselves. They are not philanthropists." Mr. Watson pointed out how Dickens attacked favoritism in the family, making it apparent that parents should not show preference to the detriment of any one child. Dickens had also been the writer who had most truly brought to the front a woman's true worth in the Old Land.

Oliver Twist had dwelt with the crowding of prisons in such trenchant style that the matter had been reformed. In fact, Dickens, whether talking through Pecksniff or about gossips was always true to human nature and provided means for any reader to imagine definitely the places and conditions described.

The lecturer then closed with a very appropriate peroration of adieu, touching lightly and happily on the years spent in our midst.

Mr. Noyes, a former President of the Society, made witty reference to many points about the lecture, pointed out Mr. Watson's many qualities worthy of emulation, and proposed a resolution of thanks for the lecture and of regret at the loss sustained by the Society in his moving away and coupled with these the proposition that Mr. Watson be then and there by a vote of the Society, made an honorary life member of the organization, an honor never before bestowed on anyone. Mr. Noyes asked Mr. Duboyce to second this resolution. The latter did so, stating the hearty friendship which the society and all young people had received from Mr. Watson, wishing him and Mrs. Watson the kindest of farewells, God-speeds on their journey and a warm welcome in their new home.

At this juncture, His Lordship Justice Lynch rose and claimed the privilege of supporting the proposition just proposed and seconded. His Lordship took occasion to dwell upon the well-known practical, helpful Christianity which had always been not only preached but practiced by the lecturer of the evening. The words of encouragement and admonition given by Mr. Watson should be kept in mind and the society should become a permanent institution of Cowansville. His Lordship never missed a possible opportunity to be present. These eloquent remarks were followed by the happiest kind of a speech by President Giroux, who showed himself the true-spirited speaker for such an occasion. Mr. Watson wittingly replied, declaring his "splendid isolation and lonely grandeur," as being the only life member. He strongly advised the election of a Canadian life member, so that he and such elected one might compare notes. In a strain at once serious and humorous, Mr. Watson acknowledged his regreats at leaving Cowansville, where he had so many warm friends and promised to always remember the pleasant Tuesday evenings spent with the Society.

The next meeting of the Society will be held on the evening of Tuesday, the 5th March.

During the evening musical numbers were rendered by Miss Muir, Miss Prudentia Church and Miss Bertha Noyes. Mrs. C. D. Griggs, of Sutton, acted as accompanist.

THE VALUE OF LIQUOR LICENSES.

COST AT MASSEY, ONT., FIXED AT $750—$10,000 OFFERED AT COBALT.

Toronto, Feb. 21.—As an indication of the value of the liquor license in northern Ontario, Eudo Saunders, chief inspector, has been informed of the passing of a by-law in the village of Massey fixing the license fee at $750 per year. Massey has a population of only a few hundred, and yet a license costs as much as a license in Hamilton or Ottawa, and more than half as much as Toronto, with a population of 300,000. In this connection a rumor is current to the effect that $10,000 has been offered for a license at Cobalt.

THE MICROSCOPE

Proves That Parasites Cause Hair Loss.

Nine-tenths of the diseases of the scalp and hair are caused by parasitic germs. The importance of this discovery by Professor Unna, of the Charity Hospital, Hamburg, Germany, can not be overestimated. It explains why ordinary hair preparations even of the most expensive character fail to cure dandruff; because they do not, and they can not kill the dandruff germ. The only hair preparation in the world that positively destroys the dandruff parasites that burrow up the scalp into scales called scurf or dandruff, is Newbro's Herpicide. In addition to its destroying the dandruff germ Herpicide is also a delightful hair dressing. Sold by leading druggists. Send 10c. in stamps for sample to the Herpicide Co., Detroit, Mich.

Analogous Cases.

Sherbrooke has been waiting for five years, patiently and impatiently, by turns, for a new and much needed City Hall. Officially speaking the initiative has been up to a certain estimable member of the Council, of whose public services otherwise only praise can be spoken.

The members of the W.C.T.U. have asked permission of the Council to erect an ornamental fountain in Strathcona Square, the city to furnish the water, ice in summer and electric lights for illuminating the fountain, the whole forming a very laudable request.

Of course the petition had to be referred to a Committee, the chairman of which happens to be the chairman of the Special City Hall Committee as well.

The cases are nearly enough analogous to inspire forebodings that the ornamental fountain may keep company for a time with the new City Hall.

Cabbies, Hotels and the Dominion Exhibition.

It is especially important that cab fares and hotel rates should be kept at a normal level during the Dominion Exhibition. Treatment which visitors receive in these two respects will go far towards forming the impressions with which they will leave the city. It is asserted that the success of the annual exhibition these last few years, has been hampered more or less because, with a previous experience in mind, people didn't care to risk a second exhorbitant charge by genial hosts so remained away. The only practicable way to get around this condition of affairs, so far as it concerns the hotels, is for the hotel men to declare their rates and then for the Exhibition management to make them known far and wide. It may fairly be taken for granted that the hotel men would offer no objection to this course. At any rate enough of them would be in sympathy to influence all. The Exhibition will benefit the hotel men to a much greater extent than it will any other class of our business men and, charging their ordinary rates every hotel is assured of a harvest. Like railroads, hotels are in the nature of public service corporations, and should not be allowed to take advantage of the public which they are designed to serve. If rates were to be altered at all, the tendency should logically be downward. The case of the cabbies is far simpler to deal with. The rates which they may charge are fixed by law. They must be displayed in every cab but would wisely be advertised as well. Clients who know the rates are in no danger of being victimized and others would not be if they would take the trouble to find out. The whole subject of hotel rates has been referred to a special committee of the Council and will no doubt be whipped into proper shape. It is important that it should be.

A Steam Heated City.

That was a novel scheme propounded to the City Council Tuesday night—to heat the city by steam from one central station. On the surface it does not look practical, but the promoters claimed that it is working successfully in other cities, the names of some of which were mentioned. The feature which is of most concern at present is that a franchise has been requested to lay the necessary pipes under any streets. If the heating scheme is a sound one this franchise would be valuable and should not be given away or lightly granted. Any franchise that may be granted should be for a term of years only, an annual rental should be charged, the amount to be adjusted every five or ten years, and the municipality should retain control of the votes. The old custom of giving away valuable franchises has been the unsuspected parent of many a municipal yoke and should no longer be tolerated. But even before a franchise is seriously considered the scheme should be made the object of independent investigation as none but a substantial reason would be sufficient justification for granting a permit to tear up the streets.

Clear, Frosty Winter Weather

Is so bracing, and invigorating that it often tends to over exertion, without our being aware of it.

Most of us lead such sedentary lives that when we take much exercise we often feel fatigued and depressed instead of refreshed. At such times a cup of

"Hot Bovril"

will supply the nourishment, and stimulation required, sending a glow through the entire system.

For a change, try it some time with a dash of cold milk.

Add milk to suit your taste as if you were preparing a cup of tea.

In yesterday's report of the hockey match, Grand'Mere vs. Sherbrooke, no mention was made of the size of the crowd that witnessed the game. The Stadium proprietors claim that it was the largest local crowd at any hockey match this year. The special train from Richmond was crowded, and the attendance from Conticook, Waterville, and, in fact, all the surrounding villages, was equally as good, which shows that a superior attraction will draw the crowd. The Sherbrooke club leave Friday for Grand'Mere to play the return match, and their next shuffle after this match will be with the Victorias of Montreal.

The regular meeting of the Young People's Association of Plymouth Congregational Church which was held in the lecture hall on Tuesday evening, was marked by some exceptionally interesting features. The topic of the evening was "Prominent Canadian Statesmen of the Past," and papers on the subject were read by Miss Nourse and Miss Hubbard. The former gave short sketches of Joseph Howe, the greatest politician of early history in Nova Scotia, who in 1835 rose from obscurity into sudden fame; William Lyon Mackenzie, Canadian agitator and journalist; Louis Joseph Papineau, a notable figure in the annals of Canada, who at twenty years of age was elected to the Legislative Assembly and became the head of the Radical, or French-Canadian party; John Beverly Robinson, a typical Loyalist and Tory, who was one of central figures in Upper Canada, during the troublous period before the rebellion in 1837-38, and Edward Blake whose long life has been full of successes and honors, and whose name is a household word in England as well as Canada. Miss Hubbard's paper dealth with Thomas D'Arcy McGee, the brilliant Irishman, and in striking contrast the clear-headed, though stubborn Scotchman, Alexander McKenzie, who rose from a humble stonemason to be Prime Minister of Canada. The sketch of Sir Alexander T. Galt was particularly interesting from the fact that Sir Alexander began his distinguished career in Sherbrooke as a junior clerk in the office of the B. A. Land Co., became Commissioner, then member for Sherbrooke, Canadian High Commissioner to England, and other honors followed. A prominent place in the paper was naturally given to Sir John McDonald, the acknowledged leader and master mind of his time, and in the summing up the reader said, "the influence of his career upon the political life of the country and public opinion has been greater, better and probably more enduring than that of any other Canadian statesman up to the present time." Miss Farmer opened the programme with a piano solo, and Mr. Claude Landi rendered two songs in his usual finished manner. Mr. J. M. Jenckes, who presided, voiced the thanks of the Association and the audience to the entertainers of the evening and a pleasant occasion was closed by the serving of refreshments in the cozy tea-room.

Messrs. Beulac & Co., of Montreal, have the contract of decorating the Stadium for the carnival. The plan is especially designed for this event, and a crew of workmen will be here from Montreal to do the complete job. All the costumes will be here three days before the 27th. A dress rehearsal will likely take place the night before.

A fire alarm was sent in from Box 49 at 7.50 p.m. last night for a fire at 83 King St., the property of Mr. Ambroise Lemieux. The fire caught from a defective chimney which was built from the second floor up without any base except a small sheet of iron over the supports. The space from the floor to the stove pipe hole filled up and had been birning all day. The fire caught in the floor and ran up the door to the ceiling above. It was extinguished with a Babcock. Time out, 30 minutes.

AGAINST WOMEN SUFFRAGE.

WOMEN IN LIEBFIELD MOVE TO FIGHT THE CAMPAIGN.

London, Feb. 21.—A movement has been started by women in Liebfield to combat the woman suffrage campaign. The promoters do not intend to parade the streets, fight the police, or even hold meetings. They will fight by petitions to Parliament and by using private influence. Their first petition and protest will be ready when Mr. Dickinson's bill comes up for its second reading in the House of Commons. Miss Lonsdale, the prime mover, writes that, "while fully realizing the importance and value of woman's work in national life, especially in education and the care of the poor, we protest against parliamentary suffrage being granted to woman, believing that it would destroy rather than add to their real influences in their own sphere of work in the world."

It's as simple to publish a want ad. as it is to send a telegram—and, usually, as important.

Montreal, Feb. 21—Fire which was first seen at 10.47 o'clock last night in the warehouse in St. Paul street, occupied by Daoust, Lalonde & Co., resulted in the gutting of a portion of the cellar and two upper storeys of the building, the complete loss of the stock of manufactured boots and shoes; the damage amounting to $100,000 in the warehouse and adjoining factory.

MRS. JAMES O'HALLORAN, OF COWANSVILLE.

Cowansville, Feb. 21.—(Special.) — On Tuesday morning the tolling of the bell of Trinity church denoted to our village the sad intelligence that Mrs. James O'Halloran, wife of Cowansville's eminent octogenarian King's Counsel, had passed away, early that day. The late Mrs. O'Halloran was in her seventy-fourth year, having celebrated her seventy-third birthday last month. Her maiden name was Miss Mary Ann Finley, daughter of the late Mr. Edward Finley, of Dunham. In 1851, Mr. and Mrs. O'Halloran were married, and the deceased enjoyed good health up till six or seven years ago, since when illness has diminished pleasure in life. The life of the late lamented Mrs. O'Halloran had been filled with good works, and as the mother of eight living children, who, besides her husband and a large circle of relatives and friends, are left to remember in love her exemplary life, the departed soul leaves a deep impress upon the community. Mr. George F. O'Halloran, Deputy Minister of Agriculture for Canada, and son of the deceased, and Mrs. A. B. Foster, of Boston, daughter of the deceased, were here at the time of the death as well as were Miss O'Halloran and Mr. J. Edward O'Halloran, who have always resided at home. The other members of the family are Mrs. L. L. Chandler, Postmistress of Cowansville; Mrs. Spear, of Grand Forks, B.C.; Mr. James O'Halloran, Jr., a lawyer of North Adams, Mass., and Mr. Joseph M. O'Halloran, manager of the E. T. Bank at Knowlton.

The funeral service will be held tomorrow (Friday) afternoon at 2 p.m. at the late residence of the departed.

CONTINUATION OF THE THAW TRIAL.

Mrs. Thaw Still Under Cross-Examination To-Day.

SEVERELY QUESTIONED BY THE DISTRICT ATTORNEY REGARDING STANFORD WHITE.

New York, Feb. 21. — (Special) — The morning session of the Thaw trial was again taken up by District Attorney Jerome in cross-examining Mrs. Nesbit Thaw regarding her early life.

Jerome carried her over many subjects, many of which she gave clear answers to, but to others she "Could not remember."

Tears came to her eyes as Jerome continued to question her intimately about her relations with White.

One of the newspaper women left the room.

Thaw hid his face in his hands as Jerome bitterly attacked his wife.

Once Jerome offered to suspend for a time but Mr. Delmas would not consent.

SIR WILLIAM HINGSTON BURIED THIS MORNING.

Montreal, Feb. 21. — (Special)— Amidst a wild snowstorm, with wind blowing forty miles an hour, Sir Wm. Hingston was buried this morning.

Thousands of citizens formed a long line which wended its way slowly from his late residence on Sherbrooke street to St. Patrick's Church, of which he had been a member for upwards of 40 years.

Well nigh every public institution in the city, Catholic and Protestant, French or English, was represented in the procession. Col. Hanbury Williams came down from Ottawa to specially represent the Governor-General, while various members of the Senate represented the Dominion Government. Mayor Ekers and a large number of aldermen represented the city.

THE PROPOSED C. P. R. CHANGES.

A Rumor That the Shops May Come Here.

SAID, ALSO, TO BE SOMETHING IN NEW HOTEL TALK.

The question of making Sherbrooke a divisional point of the C.P.R. is still engaging the attention of the officials. While it has been reported for some time that the company will erect a new engine shed and change the location of the station and yards, it is now stated that the question of moving the whole of the shops from Farnham to Sherbrooke is under consideration. It is pointed out that this would be the natural outcome of the plans of the company as concentration is one of the company's strong points. As an official of the company stated, it is the whole or none. The hotel question is also engaging attention, and it would not be surprising from the facts that have come to light to see a first-class hotel built in conjunction with the new station.

LENNOXVILLE MUSICAL CLUB.

The fortnightly concert of the Lennoxville Musical Club was held last night. It began with a duo for two pianos, "Danse des Saturnales" (Tarayant) played by Hon. Mrs. Aylmer, Mrs. McMurray, Mrs. Crees and Mrs. Foss.

Miss Edwards sang "The Beautiful Land of Nod," by E. Greene, and was followed by Miss Lawrence, who rendered (a) "Fruhlugsrauschen" (Sinding) and (b) "Shadow Dance (McDowell).

Miss McGovern, of Waterville, gave two piano-forte solos, the "Kamenoi Ostrow" of Rubenstein, and later in the evening a composition by Bendel.

Two numbers were contributed by Dr. McKay, of Windsor Mills, who was in excellent voice, Schubert's "The Wanderer" and "Au Pays Bleu," a song by Chaminade.

The violin solos by Master Reidy Smith displayed his undoubted talent.

Hon. Mrs. Aylmer and Mrs. Crees played "Fantaisie Dialogrice," a lovely piano duo, and the concert closed with the stirring and tuneful part song, "There's an Orchard beyond the Sea," and "God Save the King."

What is a Finger Worth?

$500 INJURY SAVED BY A FIFTY CENT PIECE

"The only thing I can do now is to take the finger completely off. It cannot otherwise be cured." So said one of the leading doctors of Toronto to Mr. W. C. Edwards, P.D.C.R.A.O.F., P.G.M.I.O.O.F., the well-known Friendly Society leader, of St. Peter St., Toronto. Almost a year before, Mr. Edwards had cut the middle finger of his left hand very badly and blood poison ensued. For two months the doctor had been treating him, but no good had resulted, and this was the final decision. A fifty-cent box of Zam-Buk showed the medical man he was mistaken and saved Mr. Edwards from life-long mutilation which $500 would not have compensated him for. But hear Mr. Edward's own statement.

He says: "The blood poison from the finger spread up my hand and arm and caused me terrible agony. After two months' treatment the doctor said there was no cure, and amputation would have to take place if I intended to save the arm. My hand at that time was all swollen up and discolored, and I had to carry it in a sling. I left that doctor and consulted another. After a few weeks' treatment he also told me the operation would be necessary. He said the bone had become diseased and the finger would have to be opened so that the bone could be scraped. I went away to consider when I would have the operation performed, and met a friend who advised me to try Zam-Buk.

That night I bathed the wound and put on some Zam-Buk. I got a little sleep for the first time for many nights! In the morning the wound began to bleed instead of the foul discharging as in the past. This was a healthy sign so I went on with the Zam-Buk. Well, to cut a long story short, in a few days I put away the sling and in a few weeks the finger was healed completely. To-day that finger is as sound as a bell and I owe it to Zam-Buk. I spent over $20 in doctors' fees and when I think how Zam-Buk, at such a trifling cost saved me from amputation I am very grateful for the balm, I can tell you."

If you have a sore, or a diseased patch or an ulcer, or a suppurating wound which has defied all "remedies" you have tried, just apply Zam-Buk. The wonderful herbal healer, Zam-Buk, also cures eczema, face sores, rashes, tetter, itch, and all skin diseases, as well as cuts, burns, bruises, chapped hands, colds, sores, etc. Used as an embrocation it cures rheumatism and sciatica. All druggists and stores sell at fifty cents a box, or post free for price from Zam-Buk Co., Toronto. There is nothing just the same as this wonderful balm.

BOLTON GLEN.

Feb. 21.—Miss Anna Miller, of Montreal, who has been stopping a few weeks at Mrs. T. Mooney's has gone to Knowlton for a few days to be the guest of Miss W. Prince before returning to her home.

The friends of Mr. A. Mizener, of West Bolton, will be sorry to hear of his serious illness of appendicitis.

Mr. A. McLaughlin was in West Bolton last week.

Mrs. W. W. Brown, Miss L. Roberts and Mr. D. Brown were recent guests of Mrs. S. Mooney, also Mr. J. Lyons, of Montreal.

While Mr. F. Cousins and Miss B. Mooney were out driving with his fancy span on Wednesday the team became feightened and ran away. Fortunately no one was injured, though Miss Mooney was slightly shaken up.

Mrs. David Cousins was the guest of her daughter, Mrs. H. Mizener Thursday.

THE PROVINCIAL SUNDAY SCHOOL UNION.

REVIEW OF ANNUAL MEETING HELD IN MONTREAL A FEW DAYS AGO.

The 70th annual convention of the Sunday School Union of the Province of Quebec was held in Emmanuel Congregational church, Montreal, Thursday and Friday, Feb. 14th and 15th, with good attendance.

The principal speaker at the convention was Mr. Monon Lawrance, the General Secretary of the Great International Sunday School Association, one of the best authorities on Sunday school work.

Mr. Lawrance, in his first address, which was given Thursday evening, spoke on world-wide Sunday school work, reviewing the work of the various national, international and local Sunday school conventions, which had taken place since the first national gathering of Sunday school workers in New York in 1832, up to 1904, when the world's convention was held in Jerusalem.

At this unique gathering, which had lasted seventy-two days, and had been attended by 1,526 delegates, the speaker stated several moslems of prominence in Jerusalem had been invited to speak, also the Mayor of Bethlehem, the High Priest of the Samaritans, the ex-Mayor of Jerusalem who, during his remarks had repeated the 18th Psalm, and an Abyssinian general who had said, "I hold that the Christian religion is to be the light of the world." The fifth world convention, Mr. Lawrance said, was to be held in Rome, and one service would take place in the Coleseum.

In the report of the General Secretary, Rev. E. P. Capel, it was stated in regard to Sunday school work in the province that through the various conventions nearly 14,000 people were reached, of whom about 300 are pastors, 250 superintendents and 1000 are teachers and officers. Through these considerably more than half of the Sunday schools in the province are represented.

"By means of our district and county map system," continued the report, "we are able to discover any parts of the province where new schools should be established, and although as an association we do not undertake to establish schools, we can nevertheless bring a certain measure of influence to bear upon the pastor and workers of the various denominations in the neighborhood, and thus induce them to establish schools where needed, according to the denominational character of the people. In this way many schools have been established in the past.

The concluding session of the convention was of more than ordinary moment, as a debt of ten years' standing, which was still $250, was completely wiped out by the appeal of Mr. Lawrance to the audience.

The following are officers elected for the year: President, Mr. Thos. Moodie, Montreal; Chairman General Committee, Mr. S. J. Carter, Montreal; Treasurer, S. P. Leet, Montreal; Recording Secretary, J. H. Carson, Montreal; General Committee, Messrs. J. H. Cayford, R. H. Buchanan, D. S. Hislop, H. J. Heath, D. Bentley, S.W. Cuthbert, J. W. MR. M. HAMILTON IN THE WEST.

THINKS THOSE ALREADY ESTABLISHED IN THE EASTERN TOWNSHIPS SHOULD REMAIN WHERE THEY ARE.

Mr. M. Hamilton, formerly of Sherbrooke, and well known throughout this district as traveller for the Examiner and subsequently for the Record, went last year to Sidney, Man. In a letter just received he says:

"I thought I would drop you a note to congratulate you on the step you have taken in advertising the Eastern Townships. You are just giving the Townships what they deserve, without any blowing. The Eastern Townships for comfort, for health and for an all-round country to live in is, in my way of thinking, the Eden of the Dominion. A farmer that is in comfortable circumstances there, I think, would not be wise to pull up and come west. Some are making money here, but most that do got hold of land when it was cheap or homesteaded it, and land has gone up so that they sell and get a pretty good haul, but the next man will not do so well. After you take out the hardships that settlers have to go through, they earn what they get. We have had a very severe winter here. Snow came the night of November 15th. The storm lasted three days, and until a few days ago it snowed or blowed almost every other day and sometimes every day. For a week past we are having nice eastern March winds, but the old settlers are looking for more winter yet.

"You may think by my tone of writing, I am home-sick. I am not. I have a good comfortable home in town and am in my son's office most of the time. We have plenty of coal and wood, but I think of farmers must be who have come from such a place as the Townships and settled where they have to haul their wood and coal, such a winter as this, and the first snow storm coming without being prepared for it. I am writing of what I know. Implement men and horse dealers are making money, if they only collect before the purchaser leaves town."

Bullis, of Waterloo; Dr. Irwin, of Waterloo, doing some veterinary work for Messrs. H. D. Martin and H. A. Holden.

Mr. J. E. Jackson attended the Ayrshire Breeders' Association at Montreal a couple of days of last week.

Mr. William Ellis attended the Sunday School Convention recently held in Montreal, representing St. Johns.

Mrs. Sewell Salsbury entertained a number of friends on Friday evening.

The birthday party under the auspices of the Adult Bible Class, was much enjoyed. Owing to the inclemency of the weather it was held at the Parsonage. An impromptu programme and refreshments were the evening's events. Proceeds amounted to $10, which went in aid of the Church work.

JENCKES MACHINE CO. VS. RAND DRILL.

The old rival teams from Jenckes Machine Company and the Canadian Rand Drill clashed last evening at the Stadium, the latter seven meeting defeat by the score of 2 to nil.

The game was close from the very beginning, and although considerable rough play, not unexpected, prevailed, no one was hurt beyond a few bumps and bruises. Not a single goal was scored during the first half, and the play in the second half had continued some time before Jenckes scored their first goal, followed soon after by a second, and the final one.

The referee was kept very busy assisting players from both teams to a resting place on the fence for short intervals.

In the excitement of the game some of the spectators put their weight against the wire netting in an endeavor to get a better view of the play, when it broke, precipitating them in a pile on the ice.

The line-up was as follows:

Fortin, 1, and Edwards, 3. After the game the players and officials adjourned to Mr. Wm. Somerville's and partook of an oyster supper which was served in first-class style amid much talk, speeches and votes of thanks.
