Leavens Ranselear, farmer
McMulkin Thomas, postmaster, store and hotelkeeper
Saunders George W., farmer
Saunders John, farmer
Waite Whitney, waggonmaker

LE BRETON FLATS—The present eastern terminus of the Canada Central railway, is situated on the Chaudière and Victoria islands, county of Carleton. It forms part of the city of Ottawa, and is a most important place. It contains an extensive foundry and iron work shop, a carding and fulling mill, several flour mills, and eight large saw and planing mills. Hundreds of men are employed in these mills, and millions of feet of lumber are annually sawn. Its water privileges are unsurpassed. The trains of the Canada Central railway now run daily between here and Carleton Place, connecting at the latter station with the Brockville and Ottawa railway. It is intended, however, to extend the road into the city and to erect a depot near the Rideau canal. Distant from the Lower Town of Ottawa 1½ mile, from Prescott, the junction of the Grand Trunk and St Lawrence and Ottawa railways, 56 miles, from Brockville 65 miles, from Montreal 168 miles, from Toronto 264 miles. Population about 2000.

Jarmine James, postmaster
Manion Michael, farmer
Maxwell John, M.D.
Maxwell William, farmer
McConnell Alexander, builder
McConnell Charles, builder
McConnell William, farmer
McFarlane William, shingle factory

LINDSAY—The county town of Victoria and one of the most thriving places in the midland section of the Province, is situated on the River Scugog, in the township of Ops. Having excellent water communication with a long chain of inland lakes, extending on both sides of it, by means of quite a numerous fleet of steamers, and being on the line of the Midland railway, it possesses every advantage for the shipment of the immense quantities of lumber, sawn and square, annually taken from the almost illimitable forests which stretch away to the rear of the county, and also for an extensive trade in grain and flour, the produce of the fine agricultural country by which the town is more immediately surrounded. Its manufacturing interests are represented by several saw and grist mills, tanneries, breweries, a sash, door and blind factory, foundry, and the works of the Hemlock Extract Co. The town is built principally of brick, and besides the county buildings, churches, Union and R. catholic schools there are several fine blocks of stores. Stages leave daily for interior parts of the county. Montreal Telegraph Co. has an office here. Distant from Millbrook 28 miles, from Peterborough by rail 38 miles, from Port Hope 43 miles, fare $1.25. Mail daily. Population about 4000.

Woodman Samuel, framer
Woodman William, laborer

LONDON—The westernmost city in the Dominion of Canada, is beautifully situated on the river Thames, county of Middlesex. It is the chief seat of the county, and honestly boasts a more rapid and prosperous growth than any city in British North America. Forty years ago its present site was a wilderness; now it is a fine city, regularly laid out, having wide streets, well built upon with handsome buildings, and has the best of railway communication with all parts of Canada and the United States. By bestowing on its streets, bridges and surroundings, familiar names to former residents of the metropolis of the world—such as, among others, Pall Mall, Bond, Piccadilly, Oxford, Waterloo, and Clarence streets, Westminster and Blackfriars' bridges, &c,—it endeavors to cluster round it fond recollections of its great namesake. Its situation has justly earned for it the title of the "Forest city." It is surrounded by a rich agricultural district, which furnishes it with a large trade in wheat and other produce. In the city are a number of manufactories, mills, machine shops, foundries and breweries, while immediately outside its limits are very extensive petroleum refineries. These all give employment to a large body of men, and

add greatly to the wealth and importance of the city. Richmond and Dundas are the principal business streets. Some of the buildings on these, as on other streets throughout the city, give evidence of good architectural design and beauty in construction and finish. On Richmond street is the City hall, Post office, Montreal Telegraph Company's office, Custom house, Bank of Montreal, Bank of British North America, Merchants Bank of Canada, Canadian Bank of Commerce, Cronyn hall, St. Peter's church, R. catholic, St. James church (the Kirk), and St. Paul's cathedral. The latter is a handsome brick structure, and possesses a lovely chime of bells, the sound of which must tend to revive the reminiscences of many who lived in the old land. Covent Garden market is situated on King street, the Court house, Gaol and Law offices on Ridout street, and throughout the city are churches of all denominations, schools, colleges, masonic, odd fellows, and temperance lodge rooms, &c. On Great Market street is the Crystal palace, a fine building erected for exhibition purposes, and attached to which are large and well adapted show grounds. On an eminence in the northern part of the city, surrounded by extensive grounds, is Huron college, established in 1863, Hellmuth college, established 1865, and Hellmuth Ladies college, established 1869. These are all fine brick structures, and have at their head the Lord Bishop of Huron. The best of professors are attached to each, and the highest branches of education are taught. To the energy and zeal of the Dean of Huron, Dr. Hellmuth, is this section of the Dominion due for the successful establishment of the two excellent institutions bearing his name. Four railway companies run their trains through the city, the Grand Trunk, Great Western, London and Port Stanley, and New York Central, a third rail having been placed on the Great Western road for the accommodation of the latter. The stations and offices of these companies are situated between York and Bathurst streets. The depot of the Great Western is a large, fine brick building. This company have also extensive workshops here. Opposite their depot, on Richmond street, is the Tecumseh house, one of the largest hotels in the Province. On the corner of Richmond and King streets is the Revere house, and on Dundas street, near Richmond, is Strong's well known hotel. A short distance from these hotels, at the foot of Dundas street, are the White Sulphur Springs, the famed medicinal and health invigorating qualities of which attract large numbers of invalids and tourists during the summer months. London is lighted by gas, is a port of entry, has a Board of Trade, and has three daily, besides several weekly, newspapers. A number of its business men, and others employed in the city, reside in Westminster and Petersville, beautiful districts surrounding the city and situated on the opposite banks of the river Thames. Distant from Port Stanley 24 miles, from Stratford 32 miles, from Chatham 45 miles, from Sarnia 61 miles, from Hamilton 76 miles, from Detroit 110 miles, fare $3.50; from Toronto 115 miles, fare $3.00; from Montreal 453 miles, fare $10. Mails daily. Money Order office and savings bank. Population, of city proper, about 17,000; including suburban districts, about 20,000.

MATTAWA—A small village at the confluence of the Ottawa and Mattawa rivers, district of Nipissing It is a depot for the transmission of supplies still further up the Ottawa and Mattawa rivers in connection with the lumber business, and a station or fort has for many years been maintained here by the Hudson Bay Co., but owing to competition from other traders in furs, its business is now comparatively limited. There is a small Roman Catholic chapel in this distant settlement, whose service is included in the mission of the Pères Oblats, and performed in the French, English and Iroquois tongues, there being in the neighborhood several descendants of the great Iroquois tribe. Distant from Rochcaptain, a landing of the Union Forwarding Co.'s steamer, 49 miles, from Sand Point, the terminus of the Brockville and Ottawa railway, 154 miles. Mail weekly. Population about 50.

MEAFORD—A rising and picturesque village at the mouth of Big Head River, on Nottawasaga Bay, Lake Huron, township of St Vincent, county of Grey. Woollen, flour, and saw mills are in operation here, some having steam and others water power. A large quantity of grain is annually shipped from this port, especially spring wheat, a superior quality of which is raised. Montreal Telegraph Co. has an office here. In summer the steamer *Frances Smith* runs daily between Meaford, Owen Sound and Collingwood, connecting with the Northern railway at the latter place. In winter there is a daily line of stages with the same places. An effort is being made to have the Northern railway extended to Owen Sound, passing through this village. Distant from Owen Sound, the county town, 19 miles, fare $1; from Collingwood, the terminus of the Northern railway, 22 miles, from Toronto 116 miles. Mail daily. Population about 1200.

Hislop James, farmer
Orr James, postmaster, farmer
Pollock Andrew, insurance agent
Snell John, farmer
Wright James, shoemaker
Wright William, shoemaker, farmer

MORRISBURGH—An incorporated village on the river St. Lawrence, at the foot of the Rapide du Plat canal, township of Williamsburgh, county of Dundas. It is a port of entry. This place shows the most marked improvement of any village in the eastern section of the Province, a success which is owing to the magnificent country which surrounds it, the large shipping business done, and in no small measure to the spirit of enterprise which actuates its public and business men. There is excellent water power, a large portion of which is utilized. Owing to the proximity of the rapids, the current of the river is very swift at this place, and the steamers of the Canadian Navigation Company seldom call in their downward passage. The boats of all other lines stop regularly, and a considerable amount of flour and other agricultural produce is annually freighted. A steamer plies at all seasons of the year between Waddington village, in the state of New York, and this place. It is a station of the Grand Trunk railway. Montreal Telegraph Co. and Dominion Telegraph Co. have offices here. Distant from Winchester 18 miles, fare $1; from Kingston 80 miles, from Montreal 92 miles. Mail daily. Population about 1600.

Armstrong Robert, lockman

NAPANEE—An incorporated town on the river of the same name, townships of Richmond and Fredericksburg, united counties of Lennox and Addington. It is the county seat. The court house, gaol and public offices are here situated, and there is also a fine building for exibition purposes. This place has of late years exhibited marked progress. A considerable quantity of lumber is annually exported hence down the Napanee river, which flows through the village into the Bay of Quinté, and a large amount of flour and other agricultural produce is freighted by rail and water communication. The village possesses excellent facilities for manufacturing purposes, and on the banks of the river are erected a number of mills and factories. Montreal Telegraph Co., and Dominion Telegraph Co. have offices here. A station of the Grand Trunk railway is within the limits of the corporation. Distant from Kingston 26 miles, from Toronto 135 miles, from Montreal 198 miles. Mail daily. Population about 3500.

Schooley Azeliah, storekeeper
Schooley Edwin F., postmaster, storekeeper
Secord David, carpenter

NEW EDINBURGH—An important and very promising village in the township of Gloucester, county of Carleton, at the confluence of the Rideau and Ottawa rivers, adjoining the city of Ottawa. The Rideau river here is the boundary between Ottawa and New Edinburgh, and falls into the Ottawa over a limestone ledge, a perpendicular distance of nearly fifty feet, forming a magnificent "curtain" from whence the name Rideau is derived. The surrounding scenery is of the most varied and interesting character. Rideau hall, the residence of the Governor General, is within the corporated limits, having been the former residence of the late Honorable Thomas Mackay, the founder of the village. The Mackay estate of over 1000 acres, over the greater portion of which the wood has been well preserved, has been laid out as a private park, and, from the variety of new soil and foliage, will form attractive seats for suburban residences. The Rideau falls afford a splendid water power, on which the finest saw, cloth and flour mills to be found anywhere are erected. The street railway, which runs from Rideau hall gateway in New Edinburgh through Ottawa to the Suspension bridge, has its stables, depot and offices in this village. For electoral purposes it is in the county of Russell, for all others in Carleton. Montreal Telegraph Co. has an office here. Distant from Ottawa 1 mile. Mail daily. Population about 600.

Towns William C., woollen mill
Walker Joseph, bookkeeper
Walton Charles, clerk
Walton Henry, carpenter
Willoughby Adam, farmer

*NIAGARA—An incorporated town at the mouth of the Niagara river, on Lake Ontario, township of Niagara, county of Lincoln. It is the chief town of the county. This town is one of the oldest places in Ontario, and was the scene of many stirring events in the early history of the province. It was burned down in December 1813, by General McClure, of the American army, in his retreat from the north. It is beautifully situated on a plain and has been laid out in wide streets.

* Formerly called Newark.

From its singularly healthy position, it is well adapted for the recreation, during the warm months, of the toil worn city merchant or student. Montreal Telegraph Co. has an office and the Great Western railway a station here. Steamers run regularly to and from Toronto and Kingston and this place. Distant from St. Catharines 12 miles, from Suspension bridge 12 miles, from The Falls 14 miles, from Chippewa 17 miles, from Fort Erie 31 miles, from Toronto by water 34 miles. Mail daily. Population about 3000.

Young James, pedlar

***NIAGARA FALLS**—This, the most stupendous cataract on the face of the globe, is situated on the Niagara river between Lakes Erie and Ontario, in the township of Stamford, county of Welland. It is a great resort of the tourist and invalid, and is annually visited by thousands from all parts of the earth. It presents a scene of marvellous grandeur. For a mile above the Falls, the river gradually descends some fifty feet, then plunges 165 feet perpendicularly and rushes onward through a narrow gorge until it reaches Queenston, a distance of seven miles: from here it glides peacefully into Lake Ontario. About a mile below the falls, spanning the mighty chasm of Niagara, uniting the territories of two different governments, sustaining the great railroad traffic of Canada and the United States, 250 feet above a flood of water which man has never yet been able to fathom, stands the Niagara Railway Suspension bridge, one of the grandest achievements of art in the world. Delicate as lace work, and seemingly light and airy, it hangs there, high between heaven and the boiling flood below, more solid than the earth beds of adjacent railways. The concussions of fast moving trains are sensibly felt miles off through solid rocky soil, but a freight train traversing the Nigara Suspension bridge, at the speed of five miles an hour, communicates no jar to passengers walking upon the carriage way below. The land cables of the bridge do not tremble under it—the slight concussions of the superstruction do not go over the summits of the towers. Fast anchored with stone, and rooted in solid rock cut down to the depth of twenty-five feet, the great cables are immovable by any mechanical force incidental to the use of the bridge, or the natural influences it is subject to. The ultimate strength of these cables is 12,400 tons. The total weight of the material of the bridge, and of the traffic to which it will ordinarily be subjected is 2,262 tons, to sustain which the engineer has provided in his beautiful and scientific structure, a strength of 12,400 tons. So solid is this bridge in its weight, its stiffness, and its staying, that not the slightest motion is communicated to it by the severest gales of wind that blow up through the narrow gorge which its spans. The following are some interesting particulars in regard to the structure:—Length of span from centre to centre of towers 822 feet; height of tower above rock on American side 88 feet; height of tower above rock, Canada side, 78 feet; height of tower above floor of railway, 60 feet; number of wire cables 4; diameter of each cable 10 inches; number of No. 9 wires in each cable 3,569; ultimate aggregate strength of cables 12400 tons; weight of superstructure 750 tons; weight of superstructure and maximum loads 1,250 tons; ultimate supporting strength 730 tons; height of track above water 250 feet; base of towers 16 feet square; top of towers 8 feet square; length of each upper cable 1,256½ feet; length of each lower cable 1,190 feet; depth of anchor pitts below surface of rock 30 feet; number of suspenders 624 feet; ultimate strength of suspenders 18,720 tons; number of overfloor stays 64 tons; aggregate strength of stays 1,920 tons; number of river stays 56i aggregate strength of stays 1,680; elevation of railway track above middle stage of river 245 feet; total length of wires 4,000 mls. The weights of the materials in the bridge are as follows: Timber 919,130 lbs; wrought iron and suspenders 113,120 lbs; castings 44,332; rails 66,740; cables (between towers) 535,400 lbs; total 1,687,722 lbs. While crossing the Niagara river a view of the stupendous falls can be obtained, as also of the rushing waters immediately beneath the bridge, which at this point are broken up by rocks, and rise in foaming waves to turbulence extreme.

* See Clifton for names of residents.

NICOLSTON—A village in the township of Essa, county of Simcoe. Distant from Gilford, a station of the Northern railway. 14 miles, fare 65c.; from Toronto 56 miles, Mail daily. Population about 100.

Apperley William, painter
Blackley Thomas, farmer

Norman William, waggonmaker
Philips Isaac, patternmaker
Routledge Peter, blacksmith

OAKVILLE—A large and beautiful place in the township of Trafalgar, county of Halton. It is on the shore of Lake Ontario, at the mouth of Sixteen Mile Creek. It is incorporated, and is noticeable as a grazing and wheat growing region. The soil is formed of alluvial deposits. Oakville is advantageously situated for ship building. A number of first class vessels are built every year. The mouth of the creek forms an excellent harbor. No country has probably greater commercial facilities. The town is the outlet of considerable produce to the American side. The harbor is land locked, and easy of access. A station of the Great Western railway is on the outskirts of the town. Steamers plying between Montreal, Hamilton and other ports call regularly. Montreal Telegraph Co. has an office here. Distant from Milton 16 miles, from Hamilton 17 miles, from Toronto 22 miles, from Niagara Falls 60 miles, from London 93 miles. Mail daily. Population about 2000.
