DISAPPEARANCE OF A. J. SMALL

Toronto Mystery Now Attributed to Kidnapping By the Police Authorities

Toronto, Ont., Jan. 19.—The mysterious disappearance of Ambrose J. Small, former owner of the Grand Opera House here, who sold his theatrical interests to the Trans-Canada Theatres, Limited, and received a cheque for a million dollars, when the deal was completed, December 2nd, last, and has not been seen or heard from since that date, is now attributed to kidnapping. A Toronto detective, accompanied by a local lawyer, has gone to New York to try to obtain some clue to the missing man. It is stated the Gotham visit is the result of the receipt of a communication by the police here.

Mr. Small reported to be worth several million dollars, apparently left Toronto unprovided for a lengthy journey or a long absence from home and he had been missing for about four weeks before general publicity was given to the case. Then a reward of \$500 was offered by his wife. Recently the reward was increased to \$5,000.

A peculiar coincidence in connection with Mr. Small's disappearance was the announced departure of John Doughty, Mr. Small's private secretary, for many years, on December 29. Nothing has been heard of Mr. Doughty since then.

RESENT SAVAGERY OF SEMENOFF'S FORCES

All Classes of Trans-Baikalia Ready to Welcome Socialists or Even Bolshevism

London, Jan. 20, Tuesday.—The British, French and Japanese diplomatic staffs have arrived at Harbin, Manchuria, from Chita, Siberia, according to the Daily Mail's Harbin correspondent.

They are unanimous, says the correspondent, that it will be impossible to re-constitute a government of the same character as that of Admiral Kolchak anywhere west of Manchuria.

"The savagery of General Semenoff's forces," the correspondent adds, "roused the whole of Trans-Baikalia against him, and all classes are ready to welcome a socialist, or even a Bolshevik regime. The Japanese, who long supported Semenoff, share the odium attaching to him and cannot hold the railroad without enormous reinforcements."

The correspondent says there is an unconfirmed report that the Bolsheviks have destroyed a Polish division near Krasnoyarsk.

ARCHBISHOP HAYES REFUSES INVITATION

New York, Jan. 19.—Patrick J. Hayes, Catholic Archbishop of New York, will not attend the meeting of clergymen of New York and vicinity to be held today under the auspices of the anti-Saloon League here. In a reply to the invitation sent to him by Wm. H. Anderson, State Superintendent of the League, Archbishop Hayes said it was "extraordinary that the Federal Prohibition Amendment should be singled out for particular attention above other statutes equally binding."

NEW FRENCH TAX BILL

Paris, Jan. 19.—The provisions of the new taxation bill introduced by the Chamber of Deputies recently by Louis Klotz, Minister of Finance in the outgoing Cabinet, were published today. The bill, which is in no way binding on the new government, includes a complementary tax to the war-profits tax, a tax on increased wealth acquired during the war, even by the most legitimate means, and taxes on the importation of refined oils, petroleum and essences.

BROKER DROPS DEAD.

Toronto, January 19.—Samuel Mooney, member of the Livestock Commission firm of Tucker and Mooney, this city, dropped dead this afternoon while selling stock at the Union Stock Yards.

He was sixty years of age.

SCHEME FINDS GREATER FAVOR

Proposed Exchange of Goods with Russian Co-Operative Societies

London, Jan. 19.—In diplomatic and commercial circles here the scheme for an exchange of goods with the Russian co-operative societies was much more favorably received today, after consideration than when the announcement was first made. It is candidly admitted that the first news of the decision came as a great surprise attended by misgivings, but anxiety over the plan is diminishing as the situation is further canvassed.

One pertinent question being asked, however, is whether the Bolsheviks might not seize raw materials which it was intended to ship out, in which case the exporters would be forced to deal with the "reds" who might be unwilling to allow certain goods which the Austrian people are reported as needing sadly, to enter.

One diplomat, familiar with Russia, said today that if Russia had machinery, particularly agricultural machinery, which would give the people willing to work a chance to do so it would be worth much in morale, now crushed by fear of the Bolsheviks. Those viewing the plan of exchange from a purely commercial angle see far-reaching possibilities in it. It is stated on good authority that, even in the event of difficulties arising over attempts to stabilize exchange merchants could without great inconvenience barter directly with the co-operative societies on the basis of the pound sterling although no money or credit was employed. This feature, however, has long been given consideration by the British overseas trade department, which worked out an extensive plan dealing with south Russia, when General Denikine was in control, but which has not yet been executed.

British traders, however, have been able in the past few months to get several ship loads of supplies from Russia in exchange for manufactured articles.

Prompting Influence.

London, Jan. 19.—One of the influences which prompted Lloyd George to put forward a plan to raise the Russian blockade, it is learned, was a private letter from the Food Controller, George H. Roberts, who pointed out that if arrangements could be made to get foodstuffs from Russia, the prices in England, which primarily depended so largely on Russia for food, would rapidly decrease.

Another influence was a long telegram from James O'Grady, representing the British Government in the negotiations at Copenhagen, stating that his negotiations with Litvinoff, the Russian Soviet representative which were subject to several hitches, could be made much easier if the blockade were lifted. That message was delivered to the Premier on Friday last.

If Mr. O'Grady has rightly interpreted Litvinoff's desires it shows that both the Bolshevik and the anti-Bolshevik sections want the blockade off.

Just what foodstuffs are in Russia, where they are and who controls them is somewhat vague, the Food Ministry announces, but best information in the hands of the Ministry shows that there must be an enormous amount.

Controller Roberts' statement that there are three million tons of wheat in Russia, was declared today to be based on reports which the Ministry had received from time to time.

WILL BE INVESTIGATED BY THE SENATE SUB-COMMITTEE WHEN MADE

Washington, D.C., Jan. 19.—Charges of Rear-Admiral Sims that the Navy Department failed to co-operate fully with the Allies during the great war will be investigated by the Senate sub-committee before which they were made.

This was decided today by the full naval committee, which also authorized appointment of another sub-committee to determine whether there should be an inquiry into charges made by John R. Hathorn, editor of the Providence (R.I.) Journal, that with the knowledge of Secretary Daniels many seamen in the Navy "have been used for most vile and nameless practices in order to entrap innocent men."

While the Senate Committee was in session, Secretary Daniels announced that Admiral Sims would be called upon to make good his charges either before the Senate or a naval board.

Simultaneously, Chairman Butler, of the House Naval Committee, announced that Major-General Leonard Wood will be called before that committee to explain statements attributed to him that American naval vessels were "floating death traps."

General Wood, explained at Portland, Maine, today that what he said was that naval ships manned by untrained crews would be death traps in battle.

TRADE EMBARGO Decision of Supreme Council Causes Upward Movement in Russian Securities

London, Jan. 19.—The decision of the Supreme Council at Paris regarding the partial lifting of the trade embargo against Russia caused an upward movement in virtually all the Russian securities quoted on the Stock Exchange today. Russian five percent bonds rose four points, four and one half percents improved four points, and four percents advanced five points. Mine and oil shares also appreciated considerably, but the movements were out of proportion to the business done, holders now seeing a possible return of some of their sunken capital, were just as anxious to retain their stocks as they were to sell them a few weeks ago.

Ready to Negotiate

Copenhagen, Jan. 19.—M. Litvinoff, the Soviet representative here said today he had not yet been approached concerning the Supreme Council's decision to raise the blockade, but that he was ready to negotiate if approached. Should his government agree to the suggested exchange, he added, it must be thorough new representatives of the co-operative societies, not through a few of the former representatives in London and Paris, who, he declared, were counter-revolutionaries. He had no notice of the Soviet Government's intention but believed it would be favorable to the proposition.

NO NEWSPRINT SUPPLIES YET

Suspension of Three Winnipeg Daily Newspapers Still in Force

Ottawa, Ont., Jan. 19.—(By Canadian Press)—No newspaper supplies reached Winnipeg today and the suspension of three city newspapers continues. It is reported two cars were shipped to Winnipeg tonight over United States lines from the Port Frances mills. Every effort is being brought to bear to force the Canadian Government to lift the embargo lodged against export of paper shipments from the mill of the Port Frances Pulp and Paper Company, Limited.

Individual United States daily newspapers that receive newsprint supplies from this Canadian mill, United States Press Associations, and the Government of the United States have all made strong representations to the Canadian Government. It is said, has communicated with the Canadian Government on the subject of the action taken against the Port Frances mill. The Canadian Government, however, is standing firmly by its embargo order and sternly refusing to consider the removal or permit any paper to be exported until the Port Frances Pulp and Paper Company yields obedience to the order of the Dominion Paper Controller of January 16.

MORE THAN TWO THOUSAND CASES OF INFLUENZA

Chicago Health Department Swamped With Appeals for Nurses Yesterday

FIFTY DEATHS
Death-rate Extremely Small Compared with Previous Epidemic

Chicago, Ill., Jan. 19.—Chicago's Health Department was swamped with appeals for nurses today to combat the spread of influenza and pneumonia, of which more than 2,000 cases have been reported in the last forty-eight hours, with fifty deaths. Health Department officials declared the city needed at least 10,000 nurses to handle the situation properly.

Since 9 o'clock this morning 500 new cases of influenza were reported to the Board of Health, and new pneumonia cases numbered 100, with sixteen deaths.

Health Department officials pointed out that the death rate has been extremely small as compared with last year's epidemic and with the number of cases reported.

Health Commissioner John Dill Robertson today started a campaign against "cold flat" owners when 105 complaints were received. An inquiry will be made into each complaint and where sickness is found, action to bring about a proper heat supply will be taken, Dr. Robertson said.

The Health Commissioner of Evanston reported that influenza cases today increased thirty percent, and that 300 persons were ill there. Other neighboring towns reported slight increases.

The epidemic has been checked at Camp Grant, Rockford, Ill., and at the Great Lakes Naval Training Station. Sixty cases were reported today as compared with a previous daily average of 150.

CONFERENCE OF SUPREME COUNCIL

Representatives of Azerbaijan and Georgian Governments Were Heard

Paris, Jan. 19.—The Supreme Council, with M. Clemenceau presiding, this morning heard representatives of the Azerbaijan and Georgian governments with reference to the integrity of their territory and its eventual defense against attacks by the Bolsheviks.

It is understood the Council considered measures for aid of these states for defense of their frontiers in case of need.

M. Clemenceau will preside at the meeting of the Council tomorrow, and according to latest information, will continue to represent France until all her business in hand in which he has had a personal part is finished.

Continuation of the present conference beyond tomorrow depends upon whether the French Government is too absorbed with internal affairs to go on with the important international questions still before the Council. Unless M. Millerand, the new Premier, decides he wants to go on uninterrupted with the deliberations, Premier Lloyd George of Great Britain, will go home Wednesday.

It is reiterated in Council circles that the statement on the Russian situation issued by the British War Office recently does not justify the inference that offensive military action against the Bolsheviks is under consideration.

The only eventuality that has been discussed is the defence of neighboring states in case the Bolsheviks attack them, it is declared.

DOMINION HAS ACTED QUIETLY

Deportation of "Reds" Going On Effectively For the Past Year

Montreal, Que., Jan. 19.—(By Canadian Press)—Lieutenant-Colonel W. E. Date, Commandant of the Camp for Alien Enemies, at Kapuskasing, back here on furlough, stated today that while United States newspapers had made much ado of a shipment of two hundred "reds" to Europe, the Canadian Government had been carrying on this work quietly but effectively for over a year past. During the past year well over a thousand alien enemies had been shipped from Canada and more were yet to go. They included Austrians and Germans chiefly with a certain number of Russians. These parties were sent under guard generally to Rotterdam or other ports from which easy access could be secured to Central European points.

About one hundred of the Winnipeg "reds" had been thus deported who had been gathered in during the troubles at Winnipeg last June by the Royal North West Mounted Police and sent on in batches to Kapuskasing, whence they were shipped across the Atlantic.

Lieutenant-Colonel Date said there were only at the present time about 100 alien enemies left at Kapuskasing, together with a few hundred in camps in other parts of the country who would be sent home at the earliest opportunity.

SOLDIERS OVERCOME BY INTENSE COLD

Two Members of Firing Party at Military Funeral in Montreal Had to Drop Out

Montreal, Que., Jan. 19.—At a military funeral here today, the extreme cold coupled with the long slow march to the cemetery and the parade there, proved too much for two members of the firing party. They were overcome by exposure and dropped out almost in a fainting condition. They recovered quickly after first aid had been administered. This was in connection with the military funeral accorded Private Baby of the Royal Montreal Regiment and Company-Sergeant Major R. Lindsay, of the 24th Battalion, owing to the suspected outbreak of typhoid at the Peel Street Barracks, which have been placed under quarantine, a detachment of the Royal Canadian Dragoons was sent in from St. Johns, Que., to officiate as firing parties.

AIR LINE ROUTE TO ALASKA MAPPED

Nearly Five Thousand Miles Has Been Plotted by Army Service

Washington, Jan. 19.—An air route from Minneapolis, N.Y., to Nome, Alaska, a distance of 4,871 miles, has been plotted by the Army Air Service with a view to a flight over this course at some time in future. The proposed route crosses the Canadian boundary at Minot, N.D., at Hazelton, B.C., the route turns north between the coast range and the Rockies to White Horse, Yukon Territory, and crosses the Alaskan border at Fort Egbert and thence to Nome.

ARMOUR MAY OPEN
CANADIAN PLANT
Ottawa, Jan. 19.—It is reported here that the Armour Packing concern of Chicago will shortly be established in Ottawa. Negotiations between that concern and the Canadian Pacific Railway are now proceeding to the end that the Armour people will obtain a portion of the Broad Street Station for their purpose.

TEA ALLOWED TO BE EXPORTED

London, Jan. 19.—(By Can. Press)—The Ministry of Food regulations regarding the exportation of tea from the United Kingdom, have been relaxed. They operated hitherto prejudicially against Canadian exporters of tea, and tend to a practically firm market.

BEGAN TASK OF CABINET-MAKING 'AT EARLY HOUR

Millerand Made Result Known to Deschanel and Poincare Today

UNDER-SECRETARIES
Majority of Names on Slate Unknown to the General Public

Paris, Jan. 19.—M. Millerand began his task of cabinet making at an early hour today and reached a point at 11:15 o'clock where he could make known the result to President-elect Deschanel and President Poincare.

When Raoul Pert declined the war portfolio, preferring to reserve himself for the Presidency of the Chamber of Deputies, M. Millerand offered the Ministry of War to Andre Lefevre, who yesterday said that he preferred that office to the Ministry of Public Works.

The Minister of Finance, Frederic Francois Marsal, who is not a member of Parliament, owes his appointment to the mechanical and financial skill he showed at the War Ministry. He is forty six years old and graduated from St. Cyr Military College with a number one record. He began the war as a captain of unmounted chasseurs. Shortly afterwards he was attached to the staff of General Rouques, Minister of War, and then joined General Castelnau's staff.

M. Clemenceau recalled M. Marsal to the Ministry of War in 1917, and he remained there occupied with economic and financial questions, until demobilized. Then he became a director of various banks and business concerns.

Jean Baptiste Emile Ogier, General Secretary for the Ministry of Liberated Regions, will succeed Captain Andre Tardieu, as head of this Ministry. The following are slated for under-secretaries:—

M. Ribot, at M. Millerand's office; Emmanuel Brousse, noted for his criticism of the budget and his denunciation of waste by the Government, at the Department of Finance; M. Queuille, at the Ministry of Agriculture;

M. Thoumyre, at the Food Ministry; and Paul Bignon, at the Department of Maritime Ports, Transports and Merchant Marine.

Louis Deschamps was made Under-Secretary of Posts and Telegraphs; M. Flauding, Under-Secretary of Aeronautic Transport; Victor Boret, Under-Secretary for Hydraulic Forces; and M. Coupat, former Secretary of the Mechanics' Union and former Vice-President of the Higher Council of Labor, Under-Secretary for Technical Instruction.

The majority of these names are unknown to the general public.

The Cabinet was completed by the acceptance by Andre Maginot, former Minister of the Colonies, of the post of Minister of Pensions.

ANOTHER SHIPMENT OF GOLD COIN

Canada Sent Ten Million Dollars to the United States to Help Relieve Exchange

New York, Jan. 19.—Gold coin valued at \$10,000,000 has arrived here from Canada during the past few days, it was announced today. This is probably the balance of the \$20,000,000 sent to this country to meet some obligations and partly to remedy depreciation in Canadian exchange. The first half of the shipment arrived on December 13 and 14.

THE WEATHER.

Toronto, Ont., Jan. 19.—The weather has been cold today in nearly all parts of the province and light snow has fallen in Southern Saskatchewan and Western Ontario.

WINDY STILL WITHOUT PAPERS

Winnipeg, Man., Jan. 19.—(By Can. Press)—Again today Winnipeg is without daily newspapers and still depends for its information on current events upon the bulletin service arranged by the three dailies as a result of the newsprint shortage.

MACKENZIE KING
WAS OPTIMISTIC

Sees No Danger of Farmers' Movement in the Maritime Provinces

Montreal, Que., Jan. 19.—(By Canadian Press)—Hon. William Lyon Mackenzie-King paid his first visit to Montreal as Liberal Leader today when he addressed members of the Montreal Reform Club at a special luncheon. Mr. King devoted much of his address to an account of his recent tour of the Maritime Provinces and to a consideration of the farmers' movement throughout the Dominion which he regarded as a species of Liberalism. He declared that there was no danger of a farmers' political movement in the Maritime Provinces, giving as his view that the farmers there were quite content with the political programme of the Liberal Party. As to Ontario and the West it was his opinion that the movement there would in the end harmonize with the Liberal doctrine of lower tariff and reciprocity with the United States. He stated that owing to pressure of work and the approach of another parliamentary session he had been compelled to postpone his original intention of making a tour of the West until after the conclusion of the next session.

Later in the afternoon Mr. King met the Women's Liberal Club, and in the evening the Young Men's Liberal Club, leaving by the ten o'clock train for Ottawa.

"RUM RUNNERS"
ARE FRUSTRATED

New Method Devised for Taking Liquor Across River to Detroit

Windsor, Ont., Jan. 19.—Frustrated by the close vigilance of customs and immigration officials at the Woodward Avenue ferry dock in Detroit, "rum runners" taking liquor across the river from the Canadian side in automobiles have devised a new method for "beating the game." When strict inspection of all automobiles was instituted, the bootleggers for a time were successful in smuggling considerable liquor into Detroit and Michigan across the ice of the Detroit River and Lake St. Clair, but the United States Federal Revenue officers stopped this method and now several men who devote most of their time to the lucrative pastime are taking the illicit liquor across in the radiators of huge touring cars, being able to get from two to three gallons across unsuspected at a trip.

With whiskey selling in Canada at \$14.50 for three gallons, in bottles, and worth from \$50 to \$80 in Detroit, the profit has proven too tempting to miss.

DEATH OF CHATHAM

N. B. BISHOP

Rev. Thomas F. Barry Passed Away After a Lengthy Illness

Chatham, N. B., Jan. 19.—Right Rev. Thomas Francis Barry, Roman Catholic bishop of Chatham, N.B., died this afternoon after a lengthy illness. He was born of Irish parents in Pokenouche, N.B., on March 31, 1841. He was educated at Laval University, from which he received the degree of doctor of Divinity in 1899. He was ordained priest in 1866 and consecrated bishop in 1899. He was made a co-adjutor of the late Bishop Rogers and has been bishop of Chatham since August 1902.

He was a delegate to the plenary council at Quebec in September, 1909, and to the Eucharistic Congress in Montreal in September, 1910. Right Rev. Louis O'Leary has been co-adjutor of Bishop Barry for some years.

HEAVY RAINS END DROUGHT

Melbourne, Jan. 19.—Heavy rains have fallen throughout Victoria and New South Wales, definitely breaking the long period of drought. It is expected that the season will be saved for both the stock raisers and wheat growers.

The Governor-General of New South Wales has issued a statement denying alarmist reports published in London of the great loss in sheep, cattle and wheat brought about by the lack of rain.

LAW PASSED

Most Radical Piece of Economic Legislation in Berlin Since War

Berlin, Sunday, Jan. 18.—(By The Associated Press)—The Shops Council's bill, otherwise known as the "exploitation law," one of the most radical pieces of economic legislation since the war, was passed by the National Assembly today after five days' acrimonious debate.

The measure affects all places where more than five men or women are employed, excepting newspapers, in which business the councils are not permitted to dictate. The five or more employees elect a steward, who will confer with the employer on the relations with the workers and the general conduct of the business. The number of stewards varies proportionately to the size of the staff whose representatives will now be given the privilege of attending directors' meetings where they will be active voters, although not shareholders. A foreman or department chief may be forced to quit, regardless of his services to his employer. This feature was stubbornly fought by the big business interests. One of the last modifications of the bill prohibits an employer from discharging a woman and substituting a male employee for reasons of sex alone.

The bill does not satisfy the Independents, who clamored for a measure after the Russian pattern and was especially opposed by both Rightists parties because of its radical interference with the agrarian and big industrial working systems.

Scepticism is frequently professed among all ranks with regard to the workability of the measure and clashes between capital and labor, it is feared, will be inevitable.

Owing to its wide ramifications, it will be a year or two before its feasibility is established. It is estimated that the membership of the stewards in the shops' councils will exceed 500,000.

WANT PERMANENT
TARIFF BOARD

Moncton Board of Trade Send a Petition to the Dominion Cabinet

Moncton, N.B., Jan. 19.—At a meeting of the Moncton Board of Trade tonight a resolution was passed petitioning the Minister of Finance and the Dominion Government that they abandon their expressed intention of holding Cabinet investigations and that instead a permanent advisory tariff board be appointed representative of the different classes of Canadian citizens, whereby the best qualified experts procurable in each class of domestic and foreign conditions, whereby the framing of a tariff may be reduced to a scientific basis and conducive to the best interests of the Canadian people.

FARMERS AGAIN

DELAY ANNOUNCEMENT

Toronto, Ont., Jan. 19.—It was stated at U. F. O. Headquarters here tonight, that, contrary to expectations there would not be an announcement before Wednesday, as to the ridings to be opened for the three Cabinet Ministers without seats in the Legislature. Hon. R. H. Grant, Minister of Education, earlier in the day, said a statement would be forthcoming tomorrow.

Hon. Mr. Grant said twelve seats had been offered, but there had been some difficulty in deciding on the ones where there had been little likelihood of defeat in the bye-elections.

Hon. Mr. Grant as well as Premier Durney denied that there was a crisis in the Cabinet over the question of seats.

"PORK" ELIMINATED

Washington, D.C., Jan. 19.—With much of its "pork" eliminated, the annual rivers and harbors appropriation bill carrying funds for the next fiscal year, was reported today to the House by the Ways and Means Committee. The bill would appropriate \$12,400,000, a slashing down of \$3,500,000 from the total of estimates submitted to the Committee and a radical cut from the amounts daily carried by the measure.

Of the total appropriation carried, \$7,000,000 would be used for improvement work; \$5,000,000 for maintenance and \$400,000 for survey purposes.

ASSASSIN FOUND GUILTY

Cairo, Jan. 19.—Arian Youssef said was found guilty today of attempting to assassinate Premier Yussef Wahba Pasha, December 15. He was sentenced to ten years' imprisonment at hard labor. The defense was that the prisoner intended only to frighten the Premier.

SHIPPING MOVEMENTS

Arrival at Halifax, Jan. 19: Str. Stanmore from Boston.

Arrival at St. John, N.B., Jan. 19: Str. Granplan from Havre.

Cleared: Strs. Drammensford for Bergen, Norway, via New York; Bradavon for Belfast; Mottisfont for Liverpool.

Steamer Arrivals Jan. 19: Nieuw Amsterdam at Plymouth from New York; Canopic at St. Michael's from New York.

ARE ANXIOUS
AND ASTOUNDED

Allied Demand for Kaiser's Extradition Upset the Pan-Germanists

Geneva, Jan. 19.—A state of profound anxiety and astonishment reigns in pan-German circles in Germany over the official demand of the Allies for the extradition from Holland of the former German Emperor, according to a despatch from Basle, which is confirmed by Munich advices.

The pan-Germans had hoped at the end that such a final step, which affects the whole caste, would not be taken, the despatch says. They argue that if their former chief is extradited, nobody will be safe, because the Government's hand will be forced.

It is reported from Locarno that former King Ludwig of Bavaria on learning of the demand for William Hohenzollern's extradition broke out in a furious temper, condemning the act of the Allies as impertinent and impudent. Former Emperor Charles of Austria who is at Prangins, has refused to express any opinion.

Meantime the Federal authorities and Swiss jurists are watching the negotiations carefully, and several former royal foreign ministers and politicians in Switzerland are anxiously awaiting the Dutch decision.

LABOR'S FITNESS
FOR GOVERNMENT

Thomas and Snowden Criticize Present Tendencies in Great Britain

London, Jan. 19.—(By Canadian Press)—Several interesting contributions to the question of the Labor Party's present fitness for Parliament were made during the week-end. J. H. Thomas, leader of the railwaymen, speaking amid considerable interruption at Liverpool said a strike would have been disastrous to the railwaymen and ruinous to the country. He also emphasized the importance of observing agreements remarking that they could not demand a higher standard of honor from employers than from the men.

Philip Snowden told a Glasgow audience that the main weakness of the Labor Party was in adopting Soviet methods in selecting parliamentary candidates. Purely industrial matters he said, made up only one part of the general work of Parliament and if the impression which had got abroad that a seat in Parliament was the crowning glory of a successful trades' union leader, was going to continue, then the Labor Party was doomed.

Winston Churchill, in a long article in a Sunday paper, asks if the Labor Party is to be fed by flattery alone while permitting themselves the freest indulgence in personal abuse. Why should measures for the effective countering of the Labor Party's unwarrantable pretensions be spoken of as if they imply hostility to the wage-earners interests.

"Those who believe in the British Empire's enduring greatness," says Churchill in conclusion, "must save British Labor from the fallacious, pernicious and blighting dogmas which the Labor Party in their small-law assurance seek to thrust on us all."

ALLIANCE CONCLUDED

Berlin, Jan. 19.—Dr. Karl Renner, the Austrian Chancellor, has informed the foreign Affairs Committee of the Assembly that an offensive and defensive alliance has been concluded at Prague between Austria and Czechoslovakia, according to the Frankfurter Zeitung's Vienna correspondent.

ATTEMPT TO RESEAT

FIVE SOCIALISTS BLOCKED

Albany, N.Y., Jan. 19.—Parliamentary decisions by Speaker Thaddeus C. Sweet at tonight's session of the Assembly effectually blocked all attempts to bring before the House proposals to reseat the five Socialist members suspended at the opening of the Legislature.

PETITIONS LARGELY SIGNED

Toronto, Ont., Jan. 19.—It was announced tonight that the petitions which are being circulated by the United Veterans' League and other local soldier organizations, asking the Government for the \$2,000 gratuity refused some time ago, have been signed already by 160,000 people.

ROHLAND GETS A

SURPRISE PACKET

Bridgeport, Conn., Jan. 19.—After bringing home a black leather bag, not his own, Robert F. Rohland, arriving from New York City, today found in it an eight weeks old infant, two bottles of milk and a package of talcum powder. As Mr. Rohland rode in a smoking car he believed that an exchange of black bags was made in the Grand Central Station. The infant suffered no ill effects from the trip.

DENAULT ELECTED

SHERBROOKE MAYOR

Sherbrooke, Que., Jan. 19.—D. O. E. Denault was elected by a majority of 117 votes over G. L. Deloitte as mayor of this city today. Mr. Denault carried three out of the five wards of Sherbrooke.

HANGMAN ELLIS
IS IN MONTREAL

Understood That Triple Execution Will Take Place Next Friday

Montreal, Que., Jan. 19.—(By Can. Press)—Hangman Ellis, was reported in Montreal today and is a busy man as accommodation at Bordeaux Jail does not provide for three simultaneous hangings. It is understood they will take place next Friday, one after another in the order the sentences were pronounced, which means Lemay first, Allan second and Lacoste third.

Late this afternoon Lacoste was visited by his mother, whose hair had turned white in the past four months and who was the picture of misery when made cognizant of the message from Ottawa by Counsel for the condemned man. "My son is innocent," she said through her tears. "I have written to the Prince of Wales and my daughter who is only 11 has written to the Governor-General stating our case and now we are informed that all hope is lost."

J. E. W. Dagenais, counsel for Lacoste and Allen, said that he will ask for a respite tomorrow morning from the Department of Justice on the ground of certain alleged irregularities during the trial.

Official information that a commutation of sentence had been refused and that the Cabinet had decided to let the law take its course had not been communicated to the three condemned men tonight, as no official statement had been sent to the jail authorities.

LABOR'S FITNESS
FOR GOVERNMENT

Thomas and Snowden Criticize Present Tendencies in Great Britain

London, Jan. 19.—(By Canadian Press)—Several interesting contributions to the question of the Labor Party's present fitness for Parliament were made during the week-end. J. H. Thomas, leader of the railwaymen, speaking amid considerable interruption at Liverpool said a strike would have been disastrous to the railwaymen and ruinous to the country. He also emphasized the importance of observing agreements remarking that they could not demand a higher standard of honor from employers than from the men.

Philip Snowden told a Glasgow audience that the main weakness of the Labor Party was in adopting Soviet methods in selecting parliamentary candidates. Purely industrial matters he said, made up only one part of the general work of Parliament and if the impression which had got abroad that a seat in Parliament was the crowning glory of a successful trades' union leader, was going to continue, then the Labor Party was doomed.

Winston Churchill, in a long article in a Sunday paper, asks if the Labor Party is to be fed by flattery alone while permitting themselves the freest indulgence in personal abuse. Why should measures for the effective countering of the Labor Party's unwarrantable pretensions be spoken of as if they imply hostility to the wage-earners interests.

"Those who believe in the British Empire's enduring greatness," says Churchill in conclusion, "must save British Labor from the fallacious, pernicious and blighting dogmas which the Labor Party in their small-law assurance seek to thrust on us all."

Sherbrooke, Que., Jan. 19.—D. O. E. Denault was elected by a majority of 117 votes over G. L. Deloitte as mayor of this city today. Mr. Denault carried three out of the five wards of Sherbrooke.

SEVERAL SHIPS
ARE IN TROUBLE

Heavy Gales Have Swept the Eastern Seaboard of Atlantic

New York, Jan. 19.—Wireless messages telling of more than a half dozen ships in distress off the Atlantic Coast received here last night and today told the story of gales which have swept the eastern seaboard during the past 48 hours.

The army transport Powhattan, disabled 200 miles southeast of Halifax and the freighters Yarmouth, Independence, Wilhelm Jebsen, Lake Harney and Wakulla were among the ships which were either laboring in heavy seas with flooded holds, or were stranded in shoal waters.

Indicating the stress to which the coast guard service has been put in it was said here today that there was not cutter available when the Lake Harney called for help and the aid of private crafts had to be secured.

Santucket Island is reported cut off by ice and a wireless message from the Holland-American liner Noordam states that she is putting into Halifax, her coal supply almost exhausted in her battle with the stormy Atlantic.

New York harbor for the first time this winter was filled with floating ice. Snow, accompanied by mist, made navigation hazardous and nearly every vessel that came in had her bows encrusted with ice from flying spray.

REPORTED REDS
NOW IN RUSSIA

Their Fate Will Be Determined By the Bolshevik Authorities

Terijoki, Jan. 19.—(By Associated Press)—The band of Bolsheviks and anarchists deported from the United States are safely across the Russian frontier tonight, but whether all the members of the party will remain safe in Soviet Russia is a question to be determined by the Bolshevik authorities.

Hardly had the last of them passed over the border than a belated telegram reached the Finnish military officials in charge of the transfer, announcing that the Soviet Government had decided to permit only three of the deported to enter. Their names have not been made public, but those thus favored are believed to be Emma Goldman, Alex. Berkman and Peter Blansky (Blansky?).

The telegram is incomprehensible in view of the fact that a delegation including the wife of Maxim Gorky came out to receive the exiles and elaborate preparations had been made by the frontier Bolsheviks to welcome them.

The largest single seizure made by the Government agents was 45,000, 000 gallons of high grade whiskey which were taken from a lighter that had been sunk in the Hudson River. A wrecking company had just raised the boat out of the water when the agents appeared and took charge of the cargo.

At Jan. 22 in the East River 15,000 cases of bottled whiskey were confiscated. Other large seizures were made in Brooklyn, including 1,000 drums of grain alcohol and 2,000 cases of vermouth.

GEN. TWING HAD

LARGE FUNERAL

London, Jan. 19.—(By Canadian Press)—Six major-generals were the pall-bearers at the funeral of Gen. Sir Geoffrey Twining who belonged to a well-known Halifax family and who at the time of his death was director of fortifications at the British War Office.

Child fatally burned

Port Hope, Jan. 19.—Gladys Elizabeth Marshall, four years of age, was burned to death at her home at Canton, Ontario, from this town, yesterday, while her mother was temporarily absent.

NEW COMET DISCOVERED

Cambridge, Mass., Jan. 19.—Discovery of a new comet by a Spanish observer was announced by the Harvard Observatory tonight. It is situated in the constellation Puppis, somewhat east of Sirius.

BIG SEIZURE OF WHISKY

Louisville, Ky., Jan. 19.—The Federal Government today seized a warehouse at the distillery of R. F. Wathen and Co. with its equipment and \$5,000 barrels of hard liquor.

DESTROYERS TO
AID POWHATTAN

According to Latest Information Passengers Still On Board Disabled Vessel

Halifax, N.S., Jan. 20.—According to information received here early this morning the 500 passengers are still on board the American Army Transport Powhattan, which is disabled 200 miles south of Halifax. The weather is not favorable for the transfer of any of the passengers to the steamer Cedric on Monday, the big White Star liner stood by the disabled craft all day, but was unable to make an attempt to take off the passengers.

It is reported that American destroyers are racing to the aid of the Powhattan and that they will reach the scene before daybreak this morning. These destroyers are expected to take off the passengers as soon as dawn comes.

The steamer Cedric having completed arrangements with the destroyers by wireless and notified those aboard the Powhattan of the coming war craft, has resumed her voyage to New York.

Since early on Monday night the wireless aboard the Powhattan has been silent.

The gale of wind which has been blowing steadily for forty eight hours is abating and milder conditions with snow flurries now prevail.

HEAVY FIGHTING ON
INDIAN FRONTIER

British Troops Have Engagement with Indians—Both Sides Suffer Losses

London, Jan. 19.—News reached London today of a heavy engagement last week on the northwestern frontier of India in which the British suffered severely. The engagement was fought by the Derajet column which, while advancing last Wednesday into the Mahaud country with strong opposition north of Ahnial Dangi and engaged in fighting at close quarters. The British suffered 355 casualties, including 8 British officers killed and 12 wounded or Indian officers were killed or wounded. The Mahauds lost 130 killed and more than 200 wounded.

THE PRINCE'S PLANS.

London, Jan. 19.—(By Canadian Press)—It was definitely announced that the Prince of Wales will leave for Australia on March 15. He will not go to India this year, but will return from Australia by way of Canada to visit his ranch in Alberta.

SIR HENRY PELLATT ILL.

Toronto, Ont., Jan. 19.—Brigadier General Sir Henry M. Pellatt is ill from pneumonia. He returned to his home here from New York yesterday suffering from pneumonia, and his condition this evening was reported unchanged.

DEATH OF

KLONDYKE VETERAN

Montreal, Jan. 19.—John T. Bethune, formerly of Glengarry County, Ont., died here last night at the age of fifty-five. After having made a fortune in the Klondyke, Mr. Bethune spent a year hunting big game with Mr. F. C. Selous in Africa.

BOLSHIEVIK STILL OUTSIDE KRASNOVODSK

London, Jan. 19.—Official despatches from Persia report that the Bolsheviks still are outside Krasnovodsk, where they are under the command of General Denekine, the anti-Bolshevik leader in South Russia. The despatches assert that a further red advance will be almost difficult.

It is added that Denekine's position recently has become more stable, and that he is holding both the Don and the Sal. The total captures of Denekine's troops by the reds are given as 25,000. The reds are said still to be a considerable distance from Odessa.

ACCUSED MURDERER

TO STAND TRIAL

Ottawa, Jan. 19.—(By Canadian Press)—William Lennox, now charged with the murder of his mother, Mrs. Margaret Lennox, 395, Arlington avenue, on June 10, 1917, will stand trial on Wednesday at ten o'clock.

A true bill was returned by the Grand Jury today.

FIRE DESTROYS HOPS.

Richester, N.Y., January 19.—Sixty thousand pounds of German hops, valued at a dollar a pound, were destroyed in a fire which damaged the main building of the American Breweries here this afternoon. The total loss will probably reach \$100,000.

SWEAR WORDS BY
ACTING PREMIER

Sir George Foster Startles the Canadian Club of Montreal

Montreal, Que., Jan. 19.—Acting Premier Sir George Foster startled members of the Canadian Club of Montreal at the Windsor Hotel today by reading swear words. "Damn the Government" or "damn the capitalists" were the ejaculations of many people, he said, in regard to the present unrest and the high cost of living.

But, said Sir George, to throw a Government out another or to abolish capitalistic systems and try another economic method would not cut to the root of the matter. There were no short cuts to reconstruction. The world was short of necessities. Fifty million men had been engaged for five years in destruction and another 100,000,000 people had been withdrawn from ordinary production to supply them with the instruments of destruction, from without not being reconstructed from within must come from within and neither strikes, acts of parliament, nor the overthrow of the present economic system could effect it, was Sir George's conclusion.

HON. N. W. ROWELL
ADDRESSES WOMEN

Says All Democratic Countries Must Extend Right to Vote and Sit in Parliament

Ottawa, Ont., Jan. 19.—(By Canadian Press)—Addressing the members of the National Council of Women at their meeting here this afternoon, Hon. N. W. Rowell, President of the Privy Council, dealt with the Washington conference, and its relation to women's work. He said that the women's work for the extension of the franchise also had made progress that all democratic countries must extend to women the right to vote and occupy seats in Parliament on the same basis as men. Mr. Rowell called attention to the fact that in Canada legislation of 1918 and 1919 gave women these equal rights with men.

Outlining briefly the conventions adopted at Washington, he declared that all of the conventions if adopted in Canada, would make working conditions better for both women and children.

Mr. Rowell paid a tribute to the importance of the work of the National Council of Women in questions of public health.

WOULD MAKE STORAGE OF LIQUOR ILLEGAL

Edmonton, Jan. 19.—Legislation will be sought at the coming session of the Legislature to make the storage of liquor in Alberta, except in Dominion warehouses, illegal. Hon. J. R. Boyle, Attorney-General, announced today that after careful investigation he has satisfied himself that a law of that kind can be enacted and his purpose at present is to submit a bill accordingly as part of the Government programme.

CURLEW IS PROCEEDING

UNDER OWN POWER

Boston, Mass., Jan. 19.—The steam trawler Curlew reported last night as in distress on her way from George's Bank, to this port, sent word by wireless tonight that she was proceeding here under her own power, conveyed by the trawler Sea Bird.

The message, which said that the two vessels expected to arrive here tomorrow morning did not explain the nature of the trouble which led the Curlew to ask for help yesterday.

JURY ACQUITTED WAYWARD GIRLS

Toronto, Jan. 19.—Coral Shay and Dolly Wells, were acquitted by a jury at the Sessions here today on a charge of having set fire to some straw in the cellar of the Belmont Industrial Refuge in order that the two girls might make their escape from the institution in the ensuing excitement.

One of the girls admitted setting the fire. Both girls were discharged from custody by Judge Coatsworth. Coral Shay is 23 years of age and has been an inmate of the Belmont Institution for fifteen years.

KILLED WHILE SHOOTING.

Kenora, Ont., January 19.—Ernest Butt, aged 23 years, son of William Butt, was accidentally killed on Saturday while out shooting in the town ship of Jaffray, in company with his brother and another young man. He had been hauling the shotgun on a toboggan and when lifting it off the trigger caught in something, causing the explosion. The shot entered the abdomen and he only survived about an hour. He was a returned soldier of the 52nd Battalion.

CIVIL SERVICE STAFFS

Ottawa, Ont., Jan. 19.—(By Canadian Press)—Reports from 4,562 firms for the week ending December 27, showed 645,919 persons on pay roll as compared with 663,669 for the previous week, a decrease of 17,750 persons, according to the report of the employment service of Canada, Labor Department.

All groups with the exception of railway operation reported decreases in staffs, the declines being largely attributable to curtailment of staffs with the close of the holiday season and the beginning of the usual stock-taking and inventory period.

BUT ONE DAY'S
GRAIN RESERVE

Heavy Snowfall at Budapest Expected to End in Starvation

Paris, Jan. 19.—Sir William Goode, British Director of Relief, has received despatches from the British Mission at Budapest saying that on January 11 there was only one day's grain reserve and that the heavy snowfall would doubtless result in starvation.

The immediate cause of this small reserve, it is declared was Serbia's refusal to permit the passage of foodstuffs purchased by the Hungarian Government. The British representative termed the situation "playing with death."

The British Mission representative said that the rich had small supplies, but if requisitioned they would add only a couple of days' reserve. The Hungarian Government is conducting armed requisition of food in four countries; the producers are loath to sell, asserting that the regulated prices are inadequate.

The Rumanians had awakened during the occupation and 618 carloads of grain had been received from the territory they were evacuating, in partial fulfillment of a contract for the delivery of 1,000 carloads by January 1st.

NEW FRENCH PRESIDENT

M. Deschanel Is Noted For Two Striking Peculiarities in Career

Paris, Jan. 19.—M. Deschanel intends to retain the presidency of the Chamber of Deputies until he takes up the office of President, according to reports from those close to him.

M. Deschanel is noted for two peculiarities. Firstly he has never consented to accept the portfolio of any ministry or form a ministry with himself as Premier. This abstention, remarkable in French political life, has always been explained as due to his ambition to become President, which he believed might more easily be fulfilled if he never identified himself with any political office.

Secondly he has never accepted the decoration of the Legion of Honor. Now, when he enters office as President of the Republic he becomes automatically Grand Master of that order.

HAMILTON THIRSTY.

Hamilton, Ont., Jan. 19.—Orders for liquor to the amount of \$25,000 or \$30,000 a month are being sent out of this city, according to Hesse inspector Sturdy. He says that working men are among those ordering liquor, and that the merchants state that this is injuring their trade.

MUNICIPAL ELECTION

RESULTS IN HULL

Ottawa, Ont., Jan. 19.—The municipal elections in Hull today resulted as follows:—

Mayor Louis Cousineau, (acclamation).

Aldermen—Ward 1: John F. Taylor; Ward 2: Felix Legault; Ward 3: (A) Etienne Talbot; Ward 4: Felix Charron.

(In Ward 3, V. O. Falardeau and in Ward 5 J. Chénier were elected by acclamation.

GIVEN THREE MONTHS

Port Arthur, Ont., Jan. 19.—Ray Clarke, was sentenced to three months in jail for giving false information to the police, causing Provincial Inspector Symons to make a 15-mile trip in search of a body which Clarke told him was lying near a lumber camp. It developed that Clarke told the story to "get even" with the boss who discharged him. On the trip Inspector Symons froze his face and one foot.

QUEEN'S SECOND

COURT MARTIAL

Paris, Jan. 19.—Georges Gaston Quen, convicted and condemned to death in September last on charges of having had treasonable dealings with the Germans and having betrayed to them Edith Cavell, the English nurse, appeared before a court martial for trial for the second time today.

The court of appeals set aside Quen's conviction last October and a new trial was ordered. The ground taken by Counsel for Quen in appealing against the verdict was that the vote of the court martial was four to three, whereas it should have been five to two.

FOSDICK HAS RESIGNED.

Washington, D.C., January 19.—(By The Associated Press)—Raymond B. Fosdick, Under-Secretary General of the League of Nations and United States representative in the League machinery so far, has resigned.

Mr. Fosdick's friends say that inasmuch as the League has not been accepted by the United States, he did not feel that he could continue.

Mr. Fosdick was appointed an under-secretary of the League of Nations by Sir Eric Drummond, Secretary-General last May.

NOORDAM ENTERS

HALIFAX HARBOR

Halifax, N.S., Jan. 19.—The Dutch steamer Noordam, from Rotterdam for New York, entered Halifax harbor at 11 o'clock tonight and anchored at Quarantine. The steamer, which has a large number of passengers, put in here for coal. She will take on bunkers in the stream.

The Quebec Chronicle

Printed and published by the Chronicle Printing Company, Sir David Watson, General Manager, at the building of the Company, 9 Buede Street, Quebec. Subscription: Daily, \$4.00 per annum; Weekly, \$1.00 per annum; payable in advance. Advertisements: 15 cents per square line each insertion.

QUEBEC, JANUARY 20, 1920.

A NEGLECTED CLASS.

A short time ago the Chronicle pointed to the obligation devolving upon the Quebec Street Railway to augment the salaries of its employees in view of the permission accorded to it to increase its fares. The hope was then expressed that this obligation would be discharged promptly and interpreted in the most generous spirit. We are now given to understand that the operative employees or union men have received the small increase of five cents an hour but that the administrative employees or non-union men have been ignored.

So far as the first-named class is concerned, we have no comment to offer provided its members are satisfied with the recognition they have received; if they are not satisfied, at least they are in some position to protect their own interests.

With regard to the second class, it is true that the Company bound itself merely to increase the pay of motormen and conductors; the fact remains, however, as has been stated previously that the high cost of living for which the General Manager expressed such concern does not embarrass these workers any more than others less favored. On the contrary, living conditions among clerical employees involve a relatively high expenditure out of all proportion to their relative revenues and it is highly probable that the average clerk has to contend with a heavier economic burden than the average conductor or line-man.

This is not to say that the union workers of the street railway were not in urgent need of additional remuneration but that theirs was neither the only need nor the most urgent one. Salaries have decreased in value very nearly fifty percent since pre-war days and those who did not participate in the latest increase or in the previous one cannot but regard the different treatment accorded to those who did with disappointment and unrest.

Conditions in this company are presumably no different from those that obtain generally but it is one of the anomalies of modern industrial organization that the administrative class which plans and directs should be more poorly rewarded relatively, and in many cases absolutely, than the mechanical class which simply follows directions but which by reason of trades unionism is enabled to enforce its demands.

At all events, if the facts are as we have been given to understand, we believe that the clerical staff of the Quebec street railway deserves and is entitled to some such increase as that recently received by the operative staff; a position that will certainly be strongly endorsed by public opinion.

THE NEWSPRINT MUDDLE.

The march of events is only demonstrating with increasing clearness how weak and unjustifiable is the policy so stubbornly persisted in by the Government with regard to the Canadian newsprint industry. Indeed it is singular how an Administration, which in too many cases has been plastic as putty where it ought to have held firm, can develop mullah obstinacy regarding spillover matters where it is obviously wrong and in opposition to the advice of its most disinterested supporters—instances in point being the present paper fiasco and the notorious Grand Trunk Railway deal.

Various formal excuses have been offered for the sudden resignation of Mr. R. A. Pringle but the naked truth is that this gentleman is a sufficiently able lawyer to appreciate the legal impossibility of the aggressive course of conduct imposed upon him by his superiors and is unwilling to accept responsibility for the consequences that must inevitably ensue.

There is little secret that the man chiefly to blame for the drastic measures resorted to is Sir Henry Drayton, who may perhaps be excused by reason of his administrative inexperience. In public life as in every other vocation, it is generally necessary for a man to work his way up from the bottom in order to function efficiently at the top and the Minister of Finance, who attained Cabinet rank by a side door without previous Parliamentary service, and who has yet to face an election campaign, cannot be expected to possess the same constitutional, democratic outlook as one who has enjoyed a thorough preliminary training.

So far as the ultimate effects are concerned, we predict that the actions in question, far from helping the position of the publishers, will render it far more difficult and that the tax-payers will have to foot the bill for protracted and costly litigation. Apart from the general merits of the case, however, we are convinced that it is high time for Government by Order-in-Council to cease. During the past years it has served a legitimate, necessary purpose but today it has become nothing more or less than an instrument of autocratic oppression. In the same way, it is hard to see what justification can be found any longer for powers invoked in virtue of the War Measures Act. Canada is no longer at war and there is no more reason why the consumer of newsprint should be arbitrarily protected than the consumer of wheat or leather.

Above all the most vital national interest in this issue must not be overlooked. It is a matter of common knowledge that an adverse balance of trade exists between the Dominion and the United States, as a result of which the Canadian dollar is subjected to a heavy discount on exchange. Sir Henry Drayton himself has repeatedly emphasized the undesirable features of such a situation and has insisted upon the importance of a larger volume of export business as a remedy.

Now the newsprint industry has rapidly grown to be one of the most important we possess and the demand for our product in the United States is in excess of the manufacturers' ability to supply. Here then is one opportunity to stabilize matters, partially at least, nor is there any other single commodity that can be thus employed with the same telling effect. These are truths which should be just as patent to the Government as to the man in the street and yet, deliberately closing its eyes to them, the Government has preferred to interfere with legitimate business and to infringe upon provincial rights at the prompting of some unknown but evidently powerful influence.

Human experience teaches that the more wrong a man is the less he is inclined to listen to good advice and the Administration is now too deeply committed to its bull-headed policy to withdraw in any event. Nothing therefore remains but to witness another nail driven in its coffin and to deplore the injury to Canadian interests that must result from this needless newspaper muddle.

ADMIRAL SIMS' REVELATIONS.

Rear-Admiral Sims of the United States Navy is not only the most distinguished naval officer in the service of that Republic but a thoroughly loyal American, who yet contrives to retain a sincere friendship for the British Empire. He has earned a reputation for himself as a daring controversialist whose arguments are invariably based upon conclusive facts.

Were the sensational charges reported in yesterday morning's despatch preferred by any other man we should regard them with scepticism falling further confirmation but coming from Rear-Admiral Sims we cannot disregard them, however greatly we may be disillusioned and surprised.

Mutual prejudices have always existed between the United States and Great Britain and everyone recognized that certain elements of American opinion continued antipathetic to the latter throughout the war. At the same time in view of official actions and expressions the advice to this gallant Admiral not to let the British pull the wool over his eyes, coupled with the rider that the United States would as soon fight the British as the Germans, reveals a cynical duplicity worthy of the Teutonic Kultur itself.

The opinion has been repeatedly put forward on both sides of the water and generally accepted that a close entente between the two leading Anglo-Saxon Powers is essential to the preservation of the world's peace and on that account alone it is in the last degree regrettable that feeling between them should be gradually returning to the old unsympathetic status as the result of incidents such as the one now under consideration.

No one can follow the trend of editorial opinion in the United States without noting how its acerbity towards Britain grows from day to day. So much is this the case that even Life, which showed itself a generous admirer of the Empire throughout the war, now gives free rein to criticisms that are little short of hostile.

So long as these demonstrations can be attributed to honest, if mistaken, prejudices, it is right and possible to try and overcome them but if America is capable of such double-dealing as the revelations of Admiral Sims indicate then she deserves no better treatment than to be left to the isolation of her Monroe doctrine by self-respecting nations.

We are glad to see that the three men accused of the Harbora train robbery are still under lock and key in spite of a determined effort to have one of their number admitted to bail. Without presuming to decide a matter that is before the courts we may point to the obvious gravity of the offense and the importance of the principle involved. The crime of which Topping stands accused is almost on a par with murder and there is much public apprehension lest any miscarriage of justice should encourage a form of lawlessness from which this district has fortunately long been free.

Eleven thousand dollars of the stolen money is still missing and it would be quite possible for these men, although guilty, by collusion with their bondsmen to escape scotfree with a thousand dollars in pocket should they be admitted to ten thousand dollars bail.

We understand that the Attorney General's Department in co-operation with the Federal Ministry of Justice and the Postmaster General intend to spare no efforts to ensure that the prisoners are kept in jail until they have stood trial and there will be a general feeling of relief if they are successful in so doing.

Women are said to be physically incapable of resisting bargains and the present Government at Ottawa evinces a similar feminine trait in its mania for the purchase of railroads. The latest object of attention according to the Montreal Gazette is the St. Joachim line of the Q. R. L. H. & P. It is easier to think of reasons why the Government should not take this line over than why it should but judging from recent events the administration is impervious to reasons where transportation is concerned.

At the same time, however small the hope of exerting any effective influence, we wish to place ourselves on record as protesting against this as against all other railroad purchases by the Government. It is bad business and suicidal politics.

PRESS COMMENT.

LIBERALS AND FARMERS.
(An Exchange)

While Hon. Mackenzie King is telling awe-struck audiences of the faithful that the Farmers' party stands for the same thing as the Liberals do, it is not on record that he has told them it would make no difference whether they voted the Farmers' or Liberals' ticket, though if his promise is accepted the conclusion follows as a matter of course. Strangely enough on the very day Mr. King made his speech at Newmarket, claiming that the Farmers' party was twin brother to the Liberal party, a convention of the supporters of the Liberal Leader of Ontario decided to oppose the new Farmer-Labor Government of the Province from the start. Mr. Dewar's Liberals decided that when the three ministers in Mr. Drury's Cabinet, who have yet to find seats, stood for election they would find Liberal candidates in the field against them. The official report of the proceedings of the Liberal gathering referred to the Farmers' Government in the following brotherly terms:

"The extraordinary spectacle of the appointment of the rulers of the Province of Ontario resting upon the decision of a committee largely composed of men who have not been elected by the people of the Province of Ontario is one without precedent in the constitutional history of any British dominion."

HA HA.

(St. John Standard)

Ifa Ha Bay may become the Winter Vestibule of Canada, and St. John may lapse back into its ancient position of a provincial port. At any rate that is the idea of a writer who discusses the possibilities of St. Lawrence winter navigation in the Montreal Gazette. Perhaps that is the explanation of the apparent lack of interest of the Minister of Marine in the question whether St. John wants the Government to take over the harbor. Possibly it may explain the difference between nationalization and Harbor Commission as they have it at Quebec, where during the last fiscal year \$342,559.45 of public money was spent on harbor improvement and charged to the capital account of Canada.

The Canadian Government Merchant Marine has one ship hopelessly stranded on the Vache Reef below the mouth of the Saguenay, and another drifting in the river 200 miles below Quebec, with the Lord Strathcona and the Lady Grey frantically trying to free her from the ice. But these little accidents don't worry the champion of Ha Ha Bay.

ZAM-BUK

This illustrates but one of the many uses to which Zam-Buk, the great herbal balm, is daily put. Accidents will happen, especially where there are children. Mothers should never be without Zam-Buk. Zam-Buk is the best "First Aid" to any strong antiseptic properties kill all germs, prevent infection, soothe and build up new healthy tissue. Zam-Buk is entirely different from all other ointments. It is purely herbal and contains no poisonous coloring matter. Take no substitute. See the name on every box before paying.

ZAM-BUK HEALED SEVERE CUT

Mrs. J. E. Bierwirth of Canfield, Sask., writes: "My little son cut the end of his finger. As it was such a severe cut, I was going to take him to a doctor, but in the meantime to ease the pain, I applied some Zam-Buk. This stopped the bleeding and gave him such relief that I therefore decided to use it. Zam-Buk would heal the wound. Next day I replaced the dressing, and continued to do so each day, using nothing but Zam-Buk. Complete cure resulted."

YOUR HOME NEEDS IT!

Zam-Buk sold by all druggists and stores, or Zam-Buk Co., Toronto, Ont. Can.

Free—A 10-Day Tube

Apply Pepsin

Every Day to Your Teeth

All Statements Approved by High Dental Authorities

To Fight Film

DENTAL SCIENCE has proved that the great tooth wrecker is a slimy film. You can feel it with your tongue. Most tooth troubles are caused by it. It clings to the teeth, enters the crevices, hardens and stays. And teeth with discolored and decay where that film stays, however much you brush them. That is why millions of tooth brush users fail to save their teeth.

That film is what discolours—not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Scientists have for years sought ways to combat that film, but the methods proved inadequate. Then one man, after extensive research, applied activated pepsin—a digestant—to the film. And many clinical tests seem to clearly prove that he solved this great film problem.

We ask you to see for yourself. This pepsin method is employed in Pepsodent. We offer a 10-Day Tube. See what it does when you use it. See the results in ten days. It will show you a way to clean your teeth as you never have cleaned them before.

See How They Glisten

Analysis shows that the film is albuminous. Pepsin digests albumin. The object in Pepsodent is to dissolve the film, then to constantly combat it. But pepsin alone is inert. It must be activated, and the usual agent is an acid harmful to the teeth. So pepsin long seemed forbidden.

Now a harmless, activating method has been found. And that method, used in Pepsodent, makes efficient pepsin possible.

Able authorities have proved Pepsodent by convincing clinical tests. It has been adopted, and is now endorsed, by leading dentists everywhere. It does what nothing else has done, and everyone should use it. We urge you to prove it yourself. Ask us for a 10-Day Tube. Look at your teeth and see what it does. See how they glisten. Do this for your sake and your children's sake. Learn the way—the only way—to cleaner, safer teeth.

CITY HALL

BY-LAW NO. 36.

Concerning the Removal of Snow by the City in Certain Streets.

At a meeting of the Municipal Council of the City of Quebec, held at the City Hall, in the said City of Quebec, on the twelfth day of December, one thousand nine hundred and nineteen (1919), in conformity to law and in virtue of a By-law passed by this Council, pursuant thereto, and after the due observance of all the formalities prescribed by the statute in such cases made and provided, at which meeting were present the absolute majority of the members composing the Council of the City of Quebec, that is to say: His Worship the Mayor, Aldermen Bedard, Bertrand, Bouchard (S.R.), Collier, Lantier, Lesage, Martin, and Mercier.

It is hereby ordained and enacted by the Municipal Council of the City of Quebec, and the said Council ordains and enacts:

10.—The City empowers the City Engineer to proceed with the removal of snow and ice on St. John street as far as the old city limits, before annexation of Montcalmville, on Buede and de la Fabrique streets; on that portion of Palace Hill, situated between St. John and Ramparts streets; on that portion of Des Glacis street situated between St. John and d'Alouville streets; on portion of d'Alouville street situated between Des Glacis and St. Eustache streets; Mountain Hill, from Du Port streets to Dalhousie; Abraham Hill and that portion of St. Vallier street between Abraham Hill and Crown street, and on Candiac, Dumont, St. Laurent, Cremazie, Saunders, Jeanne d'Arc, Dolbeau, des Franciscains, Simeard, Sherbrooke, Ste. Foye road—from Maple Avenue to the Western limit of the city, Park Avenue, Heilmann, Moncton, Bourgainville, Murray, Marquette, Calixa, Lavallee, Marguerite, Bourgeois, St. Louis Road, Joffre, Belvedere, Bell's Hill, Frontenac, St. Cyrille, Bourlamarque, Cartier streets and all the other streets of Montcalm ward not above mentioned, except de Salaberry Avenue.

20.—The real cost of said removal of snow and ice on the streets and sidewalks on the above mentioned streets, shall be paid by the proprietors of land and buildings bordering on said streets, at so much a lineal foot, all to be based on the length of the frontage of immovables situated on said streets—deduction to be made of what the Quebec Railway, Light, Heat & Power Company has to pay in the streets where said tramway is running, according to the disposition of article 18 of By-law No. 335—passed on the 28th June, 1919.

30.—The collection of the real cost of said removal of snow and ice, as above mentioned, shall be done in the same way as the collection of municipal taxes on said immovables, and shall be collected on the first of June of each year.

BY-LAW NO. 36.

Concerning the Removal of Snow by the City in Certain Streets.

At a meeting of the Municipal Council of the City of Quebec, held at the City Hall, in the said City of Quebec, on the twelfth day of December, one thousand nine hundred and nineteen (1919), in conformity to law and in virtue of a By-law passed by this Council, pursuant thereto, and after the due observance of all the formalities prescribed by the statute in such cases made and provided, at which meeting were present the absolute majority of the members composing the Council of the City of Quebec, that is to say: His Worship the Mayor, Aldermen Bedard, Bertrand, Bouchard (S.R.), Collier, Lantier, Lesage, Martin, and Mercier.

It is hereby ordained and enacted by the Municipal Council of the City of Quebec, and the said Council ordains and enacts:

10.—The City empowers the City Engineer to proceed with the removal of snow and ice on St. John street as far as the old city limits, before annexation of Montcalmville, on Buede and de la Fabrique streets; on that portion of Palace Hill, situated between St. John and Ramparts streets; on that portion of Des Glacis street situated between St. John and d'Alouville streets; on portion of d'Alouville street situated between Des Glacis and St. Eustache streets; Mountain Hill, from Du Port streets to Dalhousie; Abraham Hill and that portion of St. Vallier street between Abraham Hill and Crown street, and on Candiac, Dumont, St. Laurent, Cremazie, Saunders, Jeanne d'Arc, Dolbeau, des Franciscains, Simeard, Sherbrooke, Ste. Foye road—from Maple Avenue to the Western limit of the city, Park Avenue, Heilmann, Moncton, Bourgainville, Murray, Marquette, Calixa, Lavallee, Marguerite, Bourgeois, St. Louis Road, Joffre, Belvedere, Bell's Hill, Frontenac, St. Cyrille, Bourlamarque, Cartier streets and all the other streets of Montcalm ward not above mentioned, except de Salaberry Avenue.

20.—The real cost of said removal of snow and ice on the streets and sidewalks on the above mentioned streets, shall be paid by the proprietors of land and buildings bordering on said streets, at so much a lineal foot, all to be based on the length of the frontage of immovables situated on said streets—deduction to be made of what the Quebec Railway, Light, Heat & Power Company has to pay in the streets where said tramway is running, according to the disposition of article 18 of By-law No. 335—passed on the 28th June, 1919.

30.—The collection of the real cost of said removal of snow and ice, as above mentioned, shall be done in the same way as the collection of municipal taxes on said immovables, and shall be collected on the first of June of each year.

IN AND ABOUT TOWN

SIR CHAS. ROSS HAS SETTLED

The Claim Of Rifle Factory Has Been Amicably Settled Out of Court

A private despatch received from Ottawa last night, reports that the claim made by Sir Charles Ross, Bart., in connection with the Quebec Rifle contract and the factory premises on the Cove Fields has been settled out of court.

The settlement made between the Government and Sir Charles Ross, is that the Government will pay over to Sir Charles \$2,000,000 in cash over and above all the sums that he has already received.

The despatch also reports that an Order-in-Council will be passed today at Ottawa by the Government confirming the settlement as per agreement.

ALD. FISET'S HAT IS IN THE RING

Has Been Thirty-Five Years in City Council and Will Run Again

Ald. (Dr.) Michel Fiset, for thirty-five years a member of the Quebec City Council announced last night that his hat was in the ring and he will seek reelection for another term at voting day on February 16th.

A delegation waited on Ald. Fiset and urged him to run. They argued that with such a record of service in the interests of the City should be continued. They pointed out that they had elected him by acclamation for many terms and wanted him as their representative in the Council again.

Ald. Fiset thanked the delegation for their appreciation of his services, and said that although he had stated privately that he would not run again, he could not withstand the pressure that had been brought to bear on him by his old friends in the division and would consequently stand for election in seat No. 1, St. Sauveur Ward for another term.

MASS MEETING

The Inter-Church National Campaign Mass Meeting will be held this Tuesday evening in the Methodist Church at 8 o'clock. Speakers Rev. Dr. Johnston, Montreal and Rev. Mr. Milson, Toronto.

Combined choir All Welcome.

The sale of Magazines and Illustrated Papers will be held

at the Rooms of the Literary and Historical Society (Morrin College), on Wednesday, the 21st inst., at 5:00 o'clock p.m.

COUNCIL ELECTIONS

AT SILLERY. The annual election of Councilors for the Municipality of Sillery took place yesterday and resulted as follows:

Adolphe McCann 164
Desire Gignac 115
Robert Campbell 107
Joseph E. Monaghan 105
Elzear Julien 84
The first three candidates were elected.

Through the courtesy of Messrs. Faguy, Lepinay and Frere, the valuable prizes for the G. W. Veterans' Euchre will be exhibited in their windows, 254-264 St. John street.

CHATEAU EXTENSION

TO START SOON. Mr. John Quinlan, of the firm of Messrs. John Quinlan & Company, of Westmount, Montreal, who have been awarded the contract for the building of the new Chateau Frontenac wing in line with St. Louis street, arrived in the city yesterday in connection with the commencement of the work of excavation for the foundation.

The forty-ton steam shovel to be used in this work, with drills and other necessary tools, are due to arrive here today, and when placed in position and the workmen organized the work will be proceeded with.

Splendid prizes for 200 winners at the Great War Veterans' Euchre, Friday, 23rd January, followed by Dancing at 10:30 o'clock.

RECORDER'S COURT

A young man was charged in the Recorder's Court yesterday morning with disorderly conduct, alleged to have been committed in his father's house. Defendant pleaded that he had struck his father in defence of his mother. The accused was fined five dollars and costs.

A woman named Mrs. Huot pleaded guilty to having kept a disorderly house, and was fined \$50 and costs.

Three men were before the Court on charges of drunkenness and were fined in sums ranging from two dollars to ten dollars and costs, with the usual alternation, which one of the defendant's accepted.

LOCAL SALOON STOCK SEIZED

Provincial Officers Raided and Seized Entire Stock of Cote d'Abraham Man

The Provincial Revenue Officers, raided a saloon located on Cote d'Abraham yesterday afternoon at 2 o'clock, and carted off the whole stock in trade of the proprietor, consisting of two barrels of beer, a barrel of wine, beer in bottles, whiskey, etc., and carted it to the Court House, where it was stored under lock and key. The cause of the raid and confiscation of the entire stock of this saloon, is due to the fact that the proprietor named Blais, is alleged to have had no licence to sell liquor.

It is the first time that such a seizure and confiscation of the vendor's entire stock has been made and carried out by the Revenue Officers. Mr. H. Art. Legendre of the Revenue Department last evening admitted to the Chronicle that the seizure was a new departure and was made on a court requisition, and later it will be decided by the Courts whether the Revenue Department had the legal right to such drastic proceedings to put an end to illicit liquor selling.

It would also offer from information gathered, it shows that the seizure and confiscation of the beer and liquor on the premises of the Cote d'Abraham liquor dealer, is meant for test case, and should the court decide that the Revenue Officers were justified by law, it will mean that the Revenue Department will raid every saloon not in possession of a licence, and confiscate all beer and wine found on the premises that is over the percentage in alcohol permitted by the Scott Act.

ALL UP FOR THE CARNIVAL PARADE

The Organization Promise the Public a Successful Turn-out on That Occasion

The carnival parade to take place tonight in accordance with expectations will be large, and besides the city snow shoe clubs, and other organizations who will take part there will be special features to attract and amuse the spectators.

American Blue Jackets to Parade

By permission of the Division Commander of the United States Navy Eagle destroyers, wintering in the port of Quebec, about 140 officers and American blue jackets will take part in the Carnival parade to be held in this city tonight.

The Naval Division orders given and under the signature of Commander R. J. Menor, commanding Eagle Division of the St. Lawrence, yesterday, the Commander of each ship will furnish its best fifteen men and as many more as can be spared from each of the Eagles to parade this evening.

The men will be assembled at 7:15 p.m. on the Louise Docks in two companies and march to the place designated to participate in the parade in accordance with arrangements made with the Carnival Committee.

AT SILLERY.

This Battalion will be in charge of Lieut. P. M. Kelly, U.S.N. First Company in charge of Lieut. A. M. Siemer, U.S.N. and Ensign E. F. Tripp, U.S.N.

Second Company in charge of Lieut. A. E. Hearty, U.S.N. and Ensign W. L. Travis, U.S.N.

The uniforms will probably be that used by men on destroyers in the War zone.

Route of Parade

The parade will line up at the Drill Hall at eight o'clock and will be in charge of Chief of Police Capt. Emile Trudel who will lead off the march with Mr. W. F. Morgan, who will drive his Russian sleigh drawn by three horses.

Some three hundred snowshoers in costume will be on hand to march and the Chief of Police invites all members of sporting clubs and all citizens who wish to turn out in fancy costumes to join in the procession.

At the Drill Hall flares and small rockets will be distributed to the participants to carry during the parade.

The route will be Grande Allee, St. Louis street, Du Fort, Buade, Fabrique, St. John d'Youville, Abraham Hill, St. Valier, Bridge, St. Joseph, St. Valier, to St. Peter's Market.

All citizens are urged to join in the outing.

DELEGATES ARRIVING FOR CONVENTION

The Meeting Of the Boot and Shoe Manufacturers Takes Place Tomorrow

Three hundred delegates from all parts of the Dominion will attend the Boot and Shoe Manufacturers and Leather Dealers Convention that will be inaugurated at the Chateau Frontenac tomorrow forenoon.

In the meantime, the Chateau Frontenac management are making arrangements for the accommodation and comfort of the delegates during their stay in this city, and the committee of Quebec manufacturers are also making provision to facilitate the business of the Convention and at the same time see that their guests will enjoy the visit socially during their stay in the Ancient Capital, the cradle of the leather trade and boot and shoe industry.

PARISH COUNCIL APPROVED BILL

Entirely Satisfied with Town of Saguenay Projected by Price Brothers

At a Meeting of the Parish Council held this morning, the 19th inst, Bill No. 102, seeking authority for the erection of the New Town of Saguenay was submitted and the surrender of territory from the District of Chicoutimi was approved by the following resolution, proposed by Mr. Lalancette and seconded by Mr. Maltais, and passed unanimously:

That this Council desires to express satisfaction at seeing them undertake so great an enterprise, which cannot cause other than progress to this Parish in particular and of the whole region in general. Surrender of territory mentioned in Bill No. 102, for making Town Site approved and wishes to the House of Price the success which its efforts and its activity merit.

ASSEMBLY MEETS THIS AFTERNOON

Expected Monet Motion Relative To Civil Service Will Arouse Big Debate

The Quebec Legislature will sit today after an adjournment over the week-end and in accordance with the wish expressed by Sir Lomer Gouin last Friday the committees of the Assembly will sit every morning and evening from now on while the House will meet in the afternoon.

It is expected that during the present week the motion of Mr. Amodee Monet relative to the salaries of members of the civil service will be taken up and will no doubt arouse a big debate as a large number of members have indicated their intention to speak and to urge higher pay for the employees of the Government.

The debate on the establishment of soldiers on crown lands, which was begun last week, will not, it is said, be resumed until next week when the colonization estimates will also be taken up.

There is every probability that next week, Hon. J. E. Perrault, Minister of Colonization, Mines and Fisheries, will bring in his bill providing for a loan of five million dollars for the development of colonization in this Province.

A meeting of the Quebec Dentists was held here on Saturday to protest against the bill which will be presented in the House with the object of permitting Franco-American dentists to practice dentistry in the Province of Quebec after examination.

BAIL REFUSED

FOR GEO. TOPPING

The Application Of the Accused Counsel Was Not Allowed by Judge Langelier

Messrs. M. A. Lemieux, K.C., and Emile Fiset, Counsel for George Topping, one of the principals in the Montigny Mail train robbery that occurred in the month of September last, appeared before Hon. Judge L. P. Pelletier in chambers yesterday morning, and made application for bail in behalf of George Topping.

Judge Pelletier expressed the opinion that the case was bailiable and if he came to the conclusion that bail was to be granted he would fix bail at \$10,000.

The motion was then continued until 2:30 o'clock, after which, when counsel again appeared before the Judge, when the Crown prosecutors assisted by the Deputy Attorney General Mr. Lanctot, K.C., appeared in behalf of the Province and the Postmaster General and strongly objected to the result that no bail was granted yesterday.

Great War Veterans' Euchre and Dance, takes place in the Drill Hall, (new wing), on Friday, 23rd January. The Euchre starts at 8:00 o'clock. Dance will commence at 10:30 o'clock.

WOMEN'S SHOES WORTH THEIR WEIGHT IN SILVER

Cincinnati, Jan. 19.—Before the annual convention of the National Shoe, Byrnes, of Rochester, N.Y., president of the association predicted a fifty per cent advance in the prices of shoes next summer.

Mr. Byrnes said that when women appeared on the streets wearing glazed or colored kid-shoes they are wearing something approximately of worth its weight in silver. He also said that there are plenty of grades of cheap leather for shoes, but that the public did not want them.

CAMBRIDGE TO ELECT PUBLIC ORATOR

London, Jan. 19.—(By Can. Press) —Cambridge University will elect a public orator in succession to Sir John Sandys on Wednesday. The favorite candidate is Professor T. R. Glover, some time Latin Professor at Queen's University, Kingston, Canada.

POWERS OF THE COMMERCE BOARD

Supreme Court Is Asked To Decide—Quebec Attorney-General Probably Intervene

It was learned here last night from the Attorney-General's Department that the Federal Board of Commerce has addressed a series of questions to the Supreme Court of Canada regarding its powers, concerning which it apparently entertains certain doubts.

These doubts hinge mainly upon two points. The first is the validity of its organization as a court of justice, since the organization of such courts belongs to the several provinces, while the appointment of judges belongs to the Federal Government. The second point concerns the fixing of prices, since prices are part of a contract and contracts are part of the civil law.

The Board points out in its submission that it has already rendered a number of decisions under the Act by which it was created and will continue to do so, but in view of the importance of the issues involved, it desires to have its legal position clearly defined before proceeding further.

All persons affected by the decisions so far rendered by the Board have been invited to appear by Counsel at the hearing and the Attorney-General of the several provinces have also received copies of the Board's submission with invitations to intervene if they so desire.

The hearing will probably take place in Ottawa in February and the matter is now being considered by the Quebec Attorney-General's Department. Although a decision will only be reached within the next few days it is improbable that the Quebec Attorney-General will intervene.

OVERSEAS MORTUARY ASSOCIATION FORMED

Robt. E. Stone Claims That Private Enterprise Formed to Exhume Canadian Dead

Toronto, Ont., Jan. 19.—Robert E. Stone an undertaker of this city, says there is a movement on foot and arrangements have been well advanced to bring back the remains of the heroic Canadian dead from England, France and Belgium and bury them in their own country.

Mr. Stone says it is a private enterprise with no Government connection and is the result of an increasing demand on the part of relatives of the dead soldiers to have their loved ones laid to rest in Canada.

E. Teyssere, an undertaker in Paris, France, official undertaker to the English and United States Embassies, is associated with him in the work, Mr. Stone says.

According to Mr. Stone the United States Government is bringing all the United States dead soldiers to the United States.

HUG-ME-CLOSE DANCE

BAN BY N. W. CO-EDS

Chicago, Jan. 19. — No more cheek-to-cheek dancing for Northwestern co-eds, no more "Baby Doll" décolletés, no more Hawaiian wispes of stay in line of clothing—all this was decreed by a meeting of all the co-ed organizations. This meeting was called by Miss Mary R. Potter, dean of women, and the vote was taken after she had told the girls how they look during these things. Miss Potter denied expulsion would necessarily follow an offence.

PREMIER MILLERAND HELD CONFERENCE

Paris, Jan. 19.—Premier Millerand conferred this afternoon with the members of his newly appointed Cabinet and then went to the Elysees Palace alone to visit M. Poincare.

It was announced that M. Millerand would present the Minister to Poincare at eleven o'clock Tuesday morning and later to President-elect Deschanel.

Some Senator, it is understood, will be appointed to head the Ministry of Pensions, this post having not yet been filled.

SNOW SLIDES DELAY MOUNTAIN TRAFFIC

Calgary, Alta., Jan. 19.—Snow slides in the mountains and heavy snowstorms on the prairie have disrupted railway service. Several passenger trains are delayed and freight transportation slowed down considerably. Snow is still falling in all sections of the Province, with the temperature running from zero to 25 below.

OSLER DONATES HIS LIBRARY TO MCGILL

Toronto, Ont., Jan. 19.—The immensely valuable library of the late Sir William Osler, Bart., has been bequeathed to his Alma Mater, McGill, according to the terms of the late physician's will, it is said here today.

BECK SOON TO SAIL FOR CANADA

London, Jan. 19.—(By Can. Press) Sir Adam and Lady Beck have left Bournemouth where Sir Adam was in a nursing home under an attack of pneumonia, and will sail for Canada, if the doctor permits, on the 18th February.

More than 60 yrs. ago an English chemist began to manufacture BEECHAM'S PILLS.

Today they have the largest sale of any medicine in the world.

PLAY IN THE
JUBILEE TROPHY

LATEST IN THE WORLD OF SPORT

OLYMPIC GAMES
JANUARY TENTHPLAY IN THE
JUBILEE TROPHYGame Played at the Quebec
Curling Club Last Evening
In First Round

Owing to a slight misunderstanding the first round of the preliminary draw for the Jubilee Trophy was not completed last evening, and only one game was played, Handley's and Sewell's rinks taking part.

Messrs. Scott and Stocking will play this evening on Quebec ice, while the other round will be drawn as quickly as possible.

The game between Handley's and Sewell's teams, was very closely contested, and after being away ahead in the first few ends, Quebec fell down a little, but managed to keep ahead of the Victoria team. The ice was grand, and there was a large crowd present.

The scores—
Quebec, 3-12 Skip—5-9
Victoria, 3-12 Skip—5-9
Quebec won by 3 shots.

U. S. OLYMPIC HOCKEY TEAM.

Boston, Mass., Jan. 19.—The National Hockey Association, meeting in annual session at the Boston Athletic Association building today decided that the ultimate winner of a series of elimination matches between an All-Boston team and teams representing the Pittsburgh, Cleveland and St. Paul Athletic Association, should represent the United States in the Olympic ice hockey games at Antwerp in April. The elimination matches will be played next month.

BRAVES AND TIGERS
TO PLAY EXHIBITIONS

Boston, Jan. 19.—A list of 18 games to be played by the Boston Nationals and the Detroit Americans in their joint trip north from the spring training grounds was announced by Business Manager Hapgood of the Braves today. Boston will train at Columbus, Ga., and Detroit at Macon. The teams will have three weeks practice before starting out on their tour.

COCHRAN GETS CABLE
MESSAGE FROM DESCAMPS

New York, N.Y., Jan. 19.—C. B. Cochran, the English boxing promoter, announced tonight the receipt of a cable message from M. Descamps, manager of Georges Carpentier, in support of his claim that he is the only one who can stage a world's championship bout in 1920. Cochran said he had paid \$25,000 to Descamps for the French title-holder's service this year. The message read:

"Awaiting your decision. Have entertained no other offers whatever. Will not do so until released by you." Cochran, who will sail home next Saturday, intimated he would hold the bout in England if he can sign up Jack Dempsey.

Sporting Notes

The City League will get down to business tomorrow evening, when the Nationals meet Crescents, while the Sons of Ireland hook up with the speedy 5th. C.G.R. team.

The Bull-dogs will do their best to be the first outfit that has inflicted a defeat on the Senators in their own home town tomorrow evening.

Canadiens are the next N.H.L. team to play in Quebec, being staged to appear here on Jan. 24 when Newey Lalonde and Co. are going to appear.

Junior League will stage three games this evening at the Arena starting at 7.30.

There was only one game in the first round preliminary draws for the Jubilee Trophy last evening, when skip Charlie Handley and his sonnie lads took the measure of the Victoria aggregation skipped by Colin Sewell.

Cochran, the British fight promoter, announces that he has received a cable message from Descamps, Carpentier's manager, in support of Cochran's claim that he is the only man who can stage a world's championship fight.

AUSTRALIAN TEAM
SUPERIOR TO BRITISH

Sydney, Jan. 19.—The doubles match was played in muggy weather in the presence of 7,000 spectators. The courts were slow, owing to two days' rain.

Brookes gave a masterly exhibition, but Patterson's work was patchy. Kingcote played well, but Bealish was outclassed. There were some fine rallies in the last set, but the Australian pair was far too superior to give the British team a chance.

JOE BURNS BEAT
BATTILING GABE

Montreal, Que., Jan. 19.—Joe Burns, the local featherweight, earned the decision over Battling Gabe, of Cincinnati, in a ten round bout here tonight. Burns had the edge on his opponent in nine of the ten rounds, but was unable to secure a knock-out. In the final round Gabe rallied and almost put Burns away, who lost his prudence in over-anxiety to score a knock-out.

Kid Sherman, also a local fighter, outpointed Jimmy Herman, of New York in each of their scheduled ten round bouts.

DEFENDED TITLE

Boston, Mass., Jan. 19.—Waino Kotonen retained his title to the championship here tonight when he defeated her tonight when he gained two falls from Mike Yokel, a former title-holder. Yokel won the first fall in forty two minutes, but the champion took the next two in seventeen minutes, thirty seconds, and twenty seven minutes fifteen seconds, respectively.

GRANITES BEAT DONS

Toronto, Ont., Jan. 19.—Granites easily defeated the Don Rowing Club in the Senior O.H.A. game here tonight, the score being 9 to 2.

OLYMPIC GAMES
BEGIN APRIL 10

Ice Hockey Will Start the Program—Twenty-Two Lines of Sport

New York, Jan. 19.—The official dates of the twenty-two branches of sport to be contested at the Seventh Olympic Games at Antwerp this year were made known by the Belgian Consul yesterday. These dates are much the same as the tentative programme made known some time ago and for once the much discussed point has been settled that the hockey mentioned is ice hockey and which will open the programme on April 10.

In connection with the games and for the delectation of the visiting delegates a lengthy programme of festivities has been arranged by the Belgian State Railway Club to take place at the newly constructed Nightingale Park, Antwerp. Following are some of the functions arranged:

A permanent floral exhibition; an exhibition of the Congo Colony with a large panorama and moving pictures; an exhibition of modern painting and sculpture; a retrospective exhibition of the painting art in Belgium from 1830 date of the establishment of the kingdom to this day; an international exhibition of sports—automobile and cycles; an exhibition of the diamond industry; aviculture canine and surgical exhibitions; a series of musical festivals of the great Belgian, French and English masters under the leadership of the famous Belgian Maestro L. Morlemaans; concerts of chamber music two great performances of the oratorios of the Antwerp master, Peter Benoit under the leadership of the composers Camille and Alphonse; lyrical and dramatic performances; a competition of sculpture; a great artistic pageant according to Antwerp traditions; a reconstitution of the famous Flemish pageant Ommegang; shooting and archery matches; baseball and handball matches; gymnastic festivals; aviation festivals and matches; congresses of physicians, artists, ex-combatants, brewers, exporters, geographers, &c.

LEAGUE PRESIDENTS
HAVE DRAFTED SCHEDULE

Chicago, Ill., Jan. 9.—President Ban Johnson, of the American League, returned tonight from a hunting trip to Louisiana, where, with President Heydler, of the National League, he drafted the major league schedules for the 1920 season. The schedules will be presented for adoption at the joint meeting of the American and National league club-owners here next month.

FULTON BEAT GREENE

Buffalo, N.Y., Jan. 19.—A scheduled ten rounds bout here tonight between Fred Fulton, of Minnesota, and Silas Greene, negro boxer of Toronto, was stopped in the fourth round when it became apparent that Greene was hopelessly outclassed by Fulton. Greene weighed only 176 pounds while Fulton entered the ring at 214.

THE END OF A
COLD DAY'S SKATINGDEMAND STRONG
FOR PRODUCTSMarked Shortage is Said To
Exist in Many Important
Commodities

Boston, Mass., Jan. 19.—Demand is greater than supply in nearly all classes of production, according to manufacturers who have made a study of the situation. This is regardless of any falling off in exports.

There exists today a shortage of steel, iron, machinery, textiles, sugar, petroleum, shoes, labor, food products, automobiles, tires, leather, paper, coal, buildings, and various other products, with no relief in sight.

Recently there has been a better demand for railway equipment, copper and nickel, and some think that there may be a shortage in these branches before the close of the year.

The War Finance Corporation has announced three initial loans of \$17,000,000 for harvester machinery, equipment, and electrical machinery, and advances from this source from time to time will stimulate industry up to the \$1,000,000,000 authorized.

The steel industry is swamped with orders. A shortage of 2,000,000 automobiles is claimed. Certain automobile companies cannot promise delivery of cars within three to six months. Machinery and petroleum prices are soaring, and prices for certain textiles are becoming almost prohibitive. Paper is as scarce as it was during the war. Every consumer is aware of the scarcity of food products, especially sugar.

Labor Shortage.

Accompanying all this is the greatest deficiency of labor ever known. Shorter hours, a shortage of several million men who were held in Europe by the war and advancing wages are held responsible for decreased production and declining efficiency. Steel, automobile, textile, tire, petroleum and other industries will operate their mills, furnaces, factories and refineries as fully as the shortage of labor will permit, with no

promise of return to normal for a long time to come. The steel mills are deluged with orders, but production is not much more than 70 per cent. of maximum capacity. Some manufacturers hope for 85 per cent. to 90 per cent. by spring, but even this is doubtful.

The result, according to many producers, will be higher prices for practically all classes of production, continued upward tendency of wages and a still higher level in living costs. One manufacturer said:

Strong Financially.
"Our great industrial companies are better off financially than ever before. There will be little borrowing by the old-established companies. They can finance their own business. This is reflected in Dow, Jones & Co.'s tabulation, which shows that 105 large corporations in the four years ended January 1, 1919, increased their combined working capital by approximately \$2,000,000,000."

"Wall Street is stronger today financially than it ever was. Brokerage houses are carrying more stocks than have been paid for outright. Customers' margins were never so large, and total brokers' loans are estimated at \$1,250,000,000. That brokerage houses are not responsible for the recent high money rates is evident from the fact that new securities listed on the stock exchange in 1919 exceeded present loans to brokers. Then again, brokers' loans are not greatly in excess of what they were in the pre-war years when stock prices were much lower and the number of securities traded in not much over one-third of the transactions of today."

DISABLED FREIGHTER

TOWED INTO PORT

New York, Jan. 19.—The freighter Yarmouth disabled off Cape May, N.J., during a storm, was towed into the lower bay tonight with her \$2,000,000 cargo of liquor, according to a wireless message received at the Naval Commandant's Bureau from the Revenue Cutter Seneca.

The Seneca said it had the distressed vessel in tow and had anchored off Staten Island in the lower bay for the night.

MAYOR OF MONCTON.

Moncton, N.B., Jan. 19.—A. C. Chapman was today elected Mayor of Moncton by acclamation.

ROYAL GEORGE

REPORTS DELAY

Halifax, N.S., Jan. 19.—Radio from the steamer Royal George tonight states that she will not likely arrive here before Tuesday afternoon. The steamer, which was expected to make port tonight, has been delayed by heavy weather.

SINN FEINERS ATTACKED

DROMBANE VILLAGE HALL

Thurles, Tipperary, Jan. 19.—Sinn Feiners on Sunday night attacked Drombane Village Hall, which occupied as a police barracks. After an unsuccessful attempt to blow it up with dynamite, they besieged it for several hours. Finally they were driven off by the police, who returned their fire. So far as known there were no casualties.

NEW YORK'S POST OFFICE.

Fifteen million pieces of ordinary mail are received and delivered daily, also 50,000 registered letters and 650,000 pounds of newspapers and periodicals, these being handled by 12,000 persons employed in the 53 classified and 262 contract stations in New York, according to an official statement issued by its postmaster. Also more than 325,000 pieces of mis-directed mail are handled daily, not including removal notices. Postal receipts for the year ending June 30, 1919, showed an increase of 11 1/2 per cent over the previous year, which meant an average daily increase of \$15,000. Postage collections amount to \$146,000 daily, it was said, and \$140 is paid daily in "dead letters". Receipts for the sale by auction of undelivered parcels amounted to \$40,000 during the last fiscal year. The New York post office, it is stated, receives and disburses \$750,000,000 annually and issues money orders for \$35,000,000. It has on deposit from its 160,000 depositors, the sum of \$42,000,000.

GIFT.

There were thirteen little peacock feathers made into a fan, with a monogram of opals, so they say. That he sent, upon the marriage of a great deal younger man. To the girl who once had been his fiancée!—Life.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

POST TOASTIES

Insure Better Belt Traction

The adhesion of a belt on a Dodge Wood-Split Pulley is greater than the adhesion on a metal pulley at equal belt tension. The reason is that there is less belt slippage over the wooden surface than over the metal surface.

Then there also is less weight friction because the Dodge Wood-Split Pulley is so much lighter and so much better balanced. It may be run at high speeds without burning.

The interchangeable bushing system makes it adaptable to any standard shafting.

It is a mighty good all-round standard service pulley that will meet the demands of all ordinary—and most extraordinary—shop practice. In addition to which it costs less to buy.

Try a few Dodge Wood-Split Pulleys in your plant. They will justify your investment.

Jan. 17x2.

NEW PROJECT FOR ATLANTIC FLIGHT

Aeroplane and Airship Have
Crossed from North America
to Great Britain

London, England, Jan. 18 — The announcement that another attempt may soon be made to fly across the Atlantic, this time with a Breguet aeroplane, again revives interest as to what type of aerial craft will finally come into common use for crossing by air from Europe to the United States.

The great, but decidedly sporting achievements, which have already taken place, may mean nothing at all as regards the development of aircraft. We knew before the war that an airplane could maintain flight for more than 20 hours; 24 hours had been exceeded on one occasion. We knew that exceptional pilots could endure even that prolonged strain.

Now, was it necessary to fly the Atlantic in order to prove that aircraft can be accurately navigated out of sight of land. Directional wireless makes that possible; and it is in use every day. But, apart from that, there are instruments and methods now available (although quite lately said to be impossible) which enable the aerial navigator to make a close estimate of the drift even when no fixed landmarks are in sight.

Previous Tests Neglected.

The astonishing thing about the trans-Atlantic project was that none of the entrants made sure before hand that he possessed the physical capability. Some of them had made 10 and even 12-hour flights; but there is a great deal of difference between such flights, made within reach of home, and 18 or 20 hours' piloting under circumstances which will inevitably give intense anxiety. However, there is the inducement of the honor to be won; and men being what they are, the present phase was just as inevitable as was that during which Louis Bleriot, 10 years ago, flew the Straits of Dover on a frail monoplane driven by a 25-horsepower Anzani engine, in circumstances that neither he nor any other pilot would dream of repeating today.

Success with a two-seater does not mean that the Atlantic could be flown again except under favorable conditions and with great good fortune; whereas, crossing by a big airboat or an airship such as the R-34 could easily be repeated.

The small seaplane which was entered, the single-engine Fairey, a float machine, was no more a trans-Atlantic type than were the other two-seaters. In the event of a forced descent, the floats might save the machine for an hour or two; equally, they might not; they are not an ocean-going proposition. By the way, the description of this machine was a variable-wing type possibly conveying a wrong impression of variable wing-area; merely is it possible to lower the trailing edge of the main planes, thus increasing the lift at the expense of speed.

Adequate Harborage Needed.

Before airships can make the crossing with reasonable safety it will be necessary to provide adequate harborage at intervals along both coasts. A fairly regular service could then be established. Airships have the advantage that if on the out journey they fail to make land, they can return homeward with engines almost, if not quite idle; or starting out on a favorable wind, they can save their fuel for the return journey. For them a strong cross wind is perhaps the worst condition.

One result of the Atlantic competition may well be the establishment of the big air-boat in public confidence. It is a class of comparatively recent development; and the public would be surprised if they knew all about the labor that has been bestowed upon it, and the intricate difficulties that have been overcome. It may be stated, generally, that the system of providing ordinary land aeroplanes with floats in place of the wheeled carriage is rapidly going out of favor. The building of a satisfactory air-boat of great size awaited the solution of the problem of the multiple-engine machine. That having been solved, the air-boat has gone ahead.

There remains much to be done as regards the construction of the boat itself. The engine, too, offered their own special difficulties. For example, contrary to popular belief, the shaking and jolting to which an air-boat's engines are subjected are far greater than in the case of land machines; and certain types of engines will not endure taxipaving even on small waves, which, at high speed, seems as hard as

concrete. Thus, the Rolls engine, admirable as it is for so many purposes, is not suitable in this department.

Lightness of Air-Boat.

Now the advantages, again contrary to what was at one time almost universally held, begin in the aerodynamic of the air-boat. Actually the boat is lighter and offers less air resistance than the wheeled under-carriage. This advantage can be used for greater petrol capacity and for higher speed, although the latter is less important; and it is greatly increased by the fact that there is no reason why the air-boat should be given a high altitude capacity. For all purposes, until we reach the stage when we can make intelligent use of upper currents of the air that will one day be accurately charted, the air-boat can safely fly at low altitudes, which in overland flying would more often than not be dangerous from the point of view of forced landings, besides being an annoyance to the people below.

Another advantage of the air-boat is its independence of specially equipped landing-places. It can come down anywhere on the water, and for that reason alone is likely in the long run to present a smaller bill of costs for repairs. Commercially, it will have the advantage of being in competition with comparatively slow traffic, whereas in many parts the aeroplane will at first be ruled out by superior railway facilities.

What has been said must not be taken as an argument in favor of the exclusive use of sea aeroplanes, or as indicating any paralyzing defect of land machines; quite the con-

trary, each division will have its sphere. The two-seater aeroplane, which was the first to fly direct across the Atlantic, is utterly unsuited to that class of work; and it will be one's duty to make that perfectly plain when the time comes. Yet the two-seater has its definite place in the aeronautical scheme; and the place cannot be encroached upon either by the air-boat or by the big airship.

THE LITTLE FILIPINOS.

The future of the Philippines, like that of any other country, is in the hands of the children, the "little people of the barrios," as a writer in Travel calls them, thinking of bata, babae, the little woman-child, and bata, alalague, the little man-child, her brother; a "barrio" incidentally being a group of small, thatched houses, such as the poor live in. The writer has got acquainted with the little people, and tells of their life from morning till bedtime, a story of "small, busy, simple lives, initiated early into helpfulness; for where poverty lies beside you on the sleeping mat, and dips her fingers with you into the rice pot, all must work that all must eat." Yet it is anything but an unhappy picture; and there is place in it for dolls and games. The dolls are wooden, "rough-hewn and sketchedly clad perhaps, but as dearly beloved by wee brown mothers, and clasped as jealously to little warm, primitive hearts as the haughtiest waxen beauty that ever opened her eyes in the Bon Marche," and the games are often very much like the games

of children in other countries. "Jacks," for example, is played with pebbles, and the little people of the Philippines call the game "sintak"; "blindman's buff" is immediately recognizable, though the little people call it "takiz-selim"; "leapfrog"

is the same, though it has a five-syllable name in Tagalog; and "the rats and the cat" is easily comprehended. "You play it barefooted with your little wooden shoes piled up in the center and guarded by a ferocious 'pusa,' who pounces toward

any rat creeping out to recapture his shoes." Also they go to school, learning, as one little brown person solemnly explained "that we must understand slang, a kind of dialect that it is the custom of the Americano to speak."

DEPS

for Children's
COUGHS & COLDS.

Why are Deps best for children? Because they contain absolutely no harmful drugs. Because, when dissolved in the mouth, they are vapor, such as is breathed by dwellers in pine forests, and lungs—not swallowed to the child's delicate stomach, which is so easily upset; and because they are so pleasant to take that children never refuse them. Forest fumes in pastille form, bringing relief and healing to the sore and inflamed membranes, making breathing easy and stopping any cough. Keep Deps handy this winter and use them freely. Give them to the children when the first symptom of a cough or a cold appears. Just as effective for adults. All dealers 50c. box.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Headache, Neuralgia, Toothache, Earache, and for Rheumatism, Lumbago, Sciatica, Neuritis, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all. "Bayer Tablets of Aspirin" in an unbroken "Bayer" package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin prescribed by physicians for over nineteen years. Now made in Canada. Handy tin boxes containing 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages. There is only one Aspirin—"Bayer"—You must say "Bayer". Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monroville, Pennsylvania. While it is well known that Aspirin means Bayer, Bayer is also the trade mark of the Tablets of Bayer Company which will be stamped with their general trade mark, the "Bayer Cross".

U. S. NATIONAL MARINE EXHIBITION

To Be Held in Month of April —Will Be of Great Interest to Many

The United States National Marine Exposition to be held at New York during the week April 12th to 17th will be inaugurated by a luncheon aboard a ship built, owned and manned by Americans. At night a formal opening of the National Marine Exposition will be presided over by Chairman Payne of the U. S. Shipping Board, the display will include maritime relics, ship models, inventions, shipbuilding methods, etc., including Government exhibits. The Exposition will come to an end on Saturday, April 17th, and a Waterways and Harbour Day, when a demonstrative parade will take place in New York City. It is reported that the C.P.O.S. liner Empress of France will be taken off the Liverpool-St. John, N.B., route, on her return trip to England from St. John, to be overhauled. The Melita will replace her.

ARMY TRANSPORT

IN DISTRESS New York, Jan. 19.—The army transport Powhattan, in distress about 700 miles east of New York reported by wireless to the Army Transport Office here at 4 a.m. today that although she was leaking and her boiler room flooded she was in "no immediate danger". The 500 passengers were "calm and comfortable" the message said. When the sea becomes smoother the passengers will be transferred to the White Star liner Cedric, which is standing by. The transport will keep afloat for several days, Capt. Randall wireless.

FORTY NINE LOST OF CREW.

Stockholm, Jan. 19.—Forty nine members of the crew of the American steamer Macona, which struck a rock off Midigen Light and foundered, were lost, the only survivor being the second mate of the ship.

MONTCALM EXPECTS TO REACH SEALER TODAY

North Sydney, N.S., Jan. 19.—A wireless message from the ice-breaker Montcalm, timed at four o'clock yesterday afternoon and giving her position as twenty miles west of Cape North reports the absence of ice. The Montcalm expects to reach today the position of the Canadian Sealer which is ice-bound with a \$40,000 cargo for the Magdalen Islands.

WAKULLA ON WAY TO HALIFAX

New York, N.Y., Jan. 19.—The American freight steamer Wakulla, from New York, January 15, for Halifax, is reported today by wireless to be leaking and heading for Halifax. The message stated that the vessel was 498 miles east of Amherst Channel at 8 A.M. today with her after-hold full of water, but with the pumps controlling the leak.

STRANGE RACE IN IRELAND.

Small Group Live Apart and Elect Their Own King.

There is a strange corner of Ireland to-day where a strange group of people live. It is called the Claddagh. A writer in Munsey's Magazine tells about the place and its people as follows:

The Claddagh is a straggling settlement across the river Corrib from the old seaport town of Galway. Its inhabitants are a dark-haired, dark-skinned people who are popularly believed to be of Spanish blood. This theory of their origin is supported by the historical fact that Galway long carried on an active trade with Spain; but ethnologists regard it as more probable that they are a remnant of the prehistoric Irish race of Fingolagh who were driven to rocky seashores and mountains fastnesses by the invasion of the taller and lighter Milesians. Their settlement on the Corrib seems to have existed since the dawn of history, and traces of their primitive stone dwellings down at the water's edge are to be seen to this day.

The present Claddagh village is a huddle of thatched houses with a population of about fifteen hundred. The men live by fishing—mackerel mostly—in their open boats, and the women carry the catch to the market in flat baskets, which they poise on their heads. The dress of the women is extremely picturesque, and is worn with graceful dignity—a bright petticoat woven at the loom and dyed with madder or indigo, a cloak worn like the Spanish mantilla and a hood or kerchief draped around the head. They seldom intermarry with strangers, but of late the steam trawlers that sweep the wider Atlantic have called away their young men to adventure outside Galway Bay, and many never return.

For a long time they chose their own king, and even to-day the older men govern and the old customs are maintained. Gold ornaments of rare design are part of the inheritance of their dim Celtic past.

MAKING BRIQUETTES.

Plant to Manufacture About 30,000 Tons a Year.

After studying the coalfield conditions in the Middle West, chiefly in southwestern Manitoba, Commissioner R. A. Ross, chairman of the Lignite Utilization Board of Canada, returned to Montreal.

The immediate result of the investigations is the decision of the board to erect a plant to manufacture briquettes from Manitoba coal at a rate of 100 tons a day, or about 30,000 tons a year. This is a purely experimental idea, according to Mr. Ross, and the intention is to test the commercial possibilities of the manufactured briquettes. If a success, larger plants would probably be started and operated, either by the Government or by private commercial interests.

In the meantime, Mr. Ross is of the opinion that competition with the United States and the anthracite coal interests is useless in that part of the country—at least for the present, and more than probably in the future as well. The Manitoba coal is a very soft low grade mineral, and the manufacture of briquettes is the only way in which it could be utilized with satisfactory results. The briquettes would probably be sold easily enough in the Manitoba coal country, and possibly even in Winnipeg, but freight rates being high, where the American coal concerns could transport their anthracite to the lake ports, the Canadian interests would be at a certain disadvantage.

The provinces of British Columbia and Alberta have plenty of domestic coal as have the Maritime Provinces and most of Quebec, there is no hope, however, according to Mr. Ross, that there will be any great coal output in Central Canada at the present, or for the matter in the future.

A carbonizer, which has given excellent results, has been invented by Edgar Stansfield, the chemical engineer of the board, while the designs have been made by R. de L. French, engineer of the board. It is not the intention of the members of the board to make any further investigations at the present time.—Saturday Night.

"SYRUP OF FIGS" CHILD'S LAXATIVE

Look at tongue! Remove poisons from stomach, liver and bowels

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear. Mother! You must say "California."

WARTS ARE CONTAGIOUS.

Warts are contagious, as is proved by experiments on their own fingers made by Drs. Udo J. Wile and Lyle B. Kinyery of the University of Michigan Medical School. These physicians seem to have proved that the warts are caused by some sort of a virus that passes easily through a filter and therefore through the sound human skin.

THE WONDERFUL FRUIT MEDICINE

Every Home in Canada Needs "FRUIT-A-TIVES"

To those suffering with Indigestion, Torpid Liver, Constipation, Sick or Nervous Headaches, Neuralgia, Kidney Trouble, Rheumatism, Pain in the Back, Eczema and other skin affections, "Fruit-a-tives" gives prompt relief and assures a speedy recovery when the treatment is faithfully followed.

"Fruit-a-tives" is the only medicine made from Fruit—containing the medicinal principles of apples, oranges, figs and prunes, combined with valuable tonics and antiseptics. 50c a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.
