MAYOR GAYNOR'S PROMISED PLAN

For Making New York a "Dry" City
on Sunday—Condemns the
Present System.

New York, March 29.—Mayor Wm. Gaynor gave out to-night his promised plan of action for making New York a "dry" city on Sunday, and at the same time eradicate the "existing cancer of corruption" by the police which he characterizes as far worse than Sunday selling. Since he assumed office the mayor has vigorously combatted the police custom of allowing plain clothes men to seek Sunday law violations, condemning it as a system offering fruitful opportunity for graft. Opposing it, he promised a practical substitute and to-night he came forth with his suggestion. They are embodied in a letter to Wm. H. Baker, Commissioner of Police, in which the Mayor not only outlines his plan of action, but describes the extortion to which liquor dealers have voluntarily submitted. In short, he places the entire responsibility in the hands of the State Excise Department and the District Attorney's office. The police are practically forbidden to make arrests. His letter says in part:—"The only way to effectively enforce the laws is the way prescribed by law. If public officials are suffered to go outside of the law and do as they like in the ostensible enforcement thereof, the inevitable result is oppression, and hence extortion and blackmail. As you know, I began in January by notifying the District Association of Liquor Dealers throughout the city, which contain about 8,000 members, that they had to cease collecting money from their members by means of so-called monthly dues, averaging about \$20 a month, and paying the same over to persons of superior influence and to police officials, for protection, as it was called. I am informed that all of these associations have voted to discontinue such collections of money, and I believe they have done so. "The hotel and saloon keepers, especially the 2,000 which do not belong to such organizations, have also been paying money weekly and monthly to policemen in plain clothes. And also to the agents of private societies, who called regularly for it. This was not only made possible, but fostered by the irregular methods adopted for enforcing the liquor tax law here and by the action of some good people, who know nothing of the difficulties of government, using such methods on. The result was extortion of money from the proprietors of saloons and hotels all over the city. The provisions of the liquor tax law were carefully drawn to prevent all of this, as I shall point out presently, and they have been followed all over the state outside of this city, resulting in the reduction of extortion to a minimum, and a safe, orderly and effective administration of the liquor law. It is now time we enforced the law as we now or even better than it is enforced throughout the rest of the state."

"Satisfaction or Money Back" What It Means at PAQUET'S

When we guarantee you "Absolute Satisfaction or Money Back," you may rest assured that we mean exactly this. If you are not perfectly satisfied with any purchase made at this store, you may return it within a reasonable time and have your money refunded without question. This is what we call a "square deal." Wednesday's shopping news will interest you. Read!

NOTES FROM THE CAPITAL

Federal and Provincial Conference
Closed Without an Agreement—
The Spanish River Accident.

Ottawa, Ont., March 29.—The federal and provincial conference, regarding jurisdiction in incorporation of companies, closed to-day without any agreement being reached. In discussing the proposal of the Dominion the provincial representatives laid stress on the fact that a judicial decision might lead to greater confusion than that which exists at present and that if the courts decided against the contention of the provinces there would be a loss of revenue from the fees charged for incorporating companies. Both the Minister of Justice and the Secretary of State combatted those arguments and it was pointed out that when a decision of the Supreme Court upon what had been the practice of the Patent Office for over a quarter of a century the Dominion Government promptly had legislation passed validating all patents that were affected by the decision in question and it was further pointed out that if in case of companies the court should decide against the jurisdiction claimed by the provinces. The Dominion Parliament could again pass legislation validating the incorporation of all provincial companies incorporated before such decision and rendered and which but for such Dominion legislation might be held to be invalid. The conference adjourned to permit the Provincial delegates to confer upon the subjects under discussion.

Crows have become so numerous around Ottawa this spring that the farmers regard them as a regular nuisance to their crops and much damage is feared.

There is a feeling among railway employees that the report of the Railway Commission with regard to the recent Spanish River wreck should be made public. The local representative of the B. of L. E. in fact, has made an effort to obtain some information from the Railway Commission in regard to the wreck and they made a report, but no inkling of its contents has yet reached the public. The railway men's representative, therefore, who is chairman of the legislative board of B. of L. E., deeming that the result of the official investigation of the wreck would be a matter of considerable importance to members of the order, endeavored to obtain it but was unsuccessful. It is likely that the wreck will be among the subjects of discussion at the meeting of the Legislative Board of the order which is now in progress in this city.

For carrying a revolver, Charles Spence, a Cobalt miner, was today asked for \$12 in the police court. The weapon was likewise confiscated.

News has been received in the city of the death at Boston on Monday of Rev. Albert Walley, formerly of Ottawa, and founder and first minister of the Church of Our Father, Unitarian, Flin street. Death followed an operation for relief of pressure on the heart, caused by stomach trouble.

Navigators will open on Monday. This is the earliest date in the history of the Ottawa River. The Ottawa River Navigation Co. will commence business on Monday and will carry passengers and freight between here and Thurso.

"You may say that the rabies outbreak throughout Western Ontario is pretty well a thing of the past now," said Hon. W. J. Hanna, Provincial Secretary of Ontario, this morning. "The outbreak was serious while it lasted," resumed the Provincial Secretary, "but it seems to be well under control now."

REFORMATION OF HOUSE OF LORDS

Debate Opened on Premier Asquith's
Resolutions Dealing with the
Veto Power.

London, March 29.—The first day's debate in the House of Commons on Premier Asquith's resolutions dealing with the veto power of the House of Lords proved conclusively that the Lords will not yield their privileges without a great struggle. A. J. Balfour, the Opposition leader in the Commons, declared plainly that it was the intention of his party to take the first opportunity to repeal any measure restricting the House of Lords' power to veto. On the other hand, Premier Asquith's speech seems to have put fresh heart into his conglomerate party and the speeches of John E. Redmond, for the Irish party, and George Nicoll Barnes, for the Laborites, as well as those of the representatives of the Welsh constituencies, all breathed defiance to the Lords. The only dissatisfaction expressed was that the Premier's proposals were not drastic enough, but they promised full support to the resolution, nevertheless.

The debate will be continued throughout the week and division will be taken Monday. Mr. Redmond has summoned a meeting of his party for to-morrow for further consideration of the situation.

Briefly stated, Mr. Asquith's three resolutions provide that the Lords shall have no part in financial legislation; that their power over other legislation shall consist only in compelling deliberation, but not beyond the life of a single parliament; and that the life of a parliament shall be limited to five instead of seven years, as at present.

DOG CATCHER CAUGHT

Hamilton, Ont., March 28.—Joseph Brown is the second dog catcher employed by the city to be badly chewed up while discharging his duty. His thumb was almost bitten off by a vicious dog to-day. His predecessor, Jimmy Lindsay, is taking Pasteur treatment at Toronto. Brown will be sent there.

FINED FOR REBATING

New York, March 29.—David O. Ives, President of the Board of Trade of the Boston Merchants' Association and former Traffic Manager of the Wabash Railroad, pleaded guilty in the United States Circuit Court to-day to one count of an indictment charging him with rebating, while an official of the Wabash, to the Holland-American Steamship Company. He was fined \$1,000 which he paid. Ives is one of the five officers or former officers of the Wabash and Central Vermont Railways indicted with Adrian Gips, manager in the United States for the Holland-American Company. Gips last week was fined \$1,000. Ives is the first of the railroad men to plead.

WRESTLING CHAMPIONSHIP

Chicago, March 29.—Stanislaus Zagosko to-night won the privilege of meeting Frank Gotch for the wrestling championship of the world by defeating Yusif Mahmud in two straight falls at the coliseum. The first fall was a croch hold and half Nelson in 1.04.51, and the second was a back arm and half Nelson in 25.43. The Turk was the aggressor throughout, his opponent playing a waiting game, merely jumping in when he saw a good chance. The date and place of the meeting between Gotch and Zagosko are to be decided later, nothing but the verbal agreement following the match having been entered into. All the prominent wrestlers who could reach the scene were on hand to-night, including Gotch. Joe Rogers of New York challenged the winner but he has little chance of getting a date.

A WARNING TO QUEBEC SCOUTS

Toronto, Ont., March 29.—Complaints from farmers on the Don Valley have come to the county constables that the boy scouts have an utter disregard for fences or property and have done much damage to both in their recent rampages, particularly on Good Friday, when they tore down a number of fences. Some of the people who have complained say that not only do the boy scouts do damage themselves, but they are followed by a number of outsiders who arm themselves with rifles and shot birds and are a menace to the public safety. Hereafter when the scouts scout, they will, in turn, be scouted by as trustworthy county constable or so.

ENGLAND AND GERMANY

Toronto, Ont., March 29.—Prof. L. E. Horning, of Victoria University, addressed the Canadian Club at luncheon to-day on "England and Germany." The trouble between these two countries, he said, has its origin in commercial rivalry. Education is the foundation of Germany's commercial greatness, therefore, the base of all the trouble between these two great nations. Sixty per cent. of Germany's population depend upon industry for their livelihood and she is forced to seek markets away from home. Germany had made great progress which would have been impossible but for the encouragement given to all departments of study. Education free, full, encouraged and honored is at the bottom of the development of modern Germany.

THE THAW CASE AGAIN

New York, March 29.—Clifford W. Hartidge, formerly counsel for Harry K. Thaw, told the city witness stand to-day some of the work he had done in preparing the defense in the first of Thaw's trials for the killing of Stanford White. Harry Thaw after a night in Bellevue, was in court as was his mother, Mrs. Mary C. Thaw, who Hartidge said he had told Mrs. Thaw that the only defense for Harry was one of temporary insanity, brought on by stories he had heard and he said he told her that it was very necessary to prevent people, if possible, by legitimate means, from telling these stories so as to keep them out of the public print. He collected Thaw's letters and papers from various sources and did much work along this line.

Akron, O., March 29.—Kid White, of Chicago, knocked out Biz Mackey, of Findlay, Ohio, in the first round of what was scheduled to be a ten round bout here to-night.

DID NOT BUY SENATORSHIP

Washington, D.C., March 29.—United States Senator Leroy Percy, in a formal statement to-day, declared him self to be "without any knowledge or information" regarding the alleged bribery in connection with his election to the United States Senate. He declared that not a cent was used by him or by his procurement to influence any member of the Mississippi Legislature.

ELEVATOR COMPANY FAILS

Toronto, Ont., March 29.—The Parkin Elevator Co., Ltd., of Hespler, is to be liquidated under a winding up order granted this morning by Chief Justice Falconbridge on petition of Mr. W. A. Kries, a creditor for \$858.88. The company is indebted to the Merchants' Bank for over \$30,000 and the town of Hespler holds a mortgage on the company's plant for about \$14,000. The nominal stock of the company is \$18,000 of which it is stated a large proportion was issued at a discount.

OWES HIS FREEDOM TO AN ERROR

Toronto, Ont., March 29.—Chief Justice Falconbridge this morning ordered the release of Napoleon Savard, who was tried at Latchford for obtaining goods by false pretence. The magistrate convicted Savard and sentenced him to three months imprisonment but the warrant of committal says nothing of a conviction, merely stating that the prisoner had been charged. To this defect Savard owes his freedom. It was also claimed that there was not evidence to convict Savard but this was not gone into.

ELECTRIC CARS COLLIDE

Vancouver, B.C., March 29.—In a rear-end collision on the B. C. Electric Lulu Island road last night W. A. Robertson, of Port Haney, had his leg broken. Two cars on the Steveston line left the city within a short time of each other. The first slowed at the crossing at Twenty-Fourth avenue and the second bumped into it. The vestibule of the latter was smashed and Robertson was thrown from his seat. There was increased traffic owing to the Aviation exhibition at Minoru park.

MERGER MAY FALL THROUGH

Hamilton, Ont., March 29.—There is still said to be a possibility that the \$30,000,000 merger planned by the Hamilton Steel and Iron Company, and which will take in the Canada Bolt and Nut Works, with factories in Toronto, Brantford and Gananoque, and the Canada Screw Works, will fall through. It is reported that the charter of one of these companies makes it possible for any stockholder with a hundred shares to block a merger, and this is given as the reason why the Hamilton Company is taking such pains to please the minority shareholders.

POTTERY GIRLS ON STRIKE

East Liverpool, Ohio, March 29.—At a mass meeting to-day the five hundred pottery girls who struck yesterday for increased wages and a fifteen minute rest period at ten o'clock each morning, voted to continue the strike. Twelve potteries have been compelled to shut down, throwing about 2,500 employees out of work. It is reported that sixteen other plants will suspend work within a few days. More than 5,000 persons will be idle if they close.

THE CHEAPEST AND MOST COSTLY BOOK EVER PUBLISHED

The National Edition of the LETTERS OF QUEEN VICTORIA

Once in a generation some book is published which inevitably finds its way into every English-speaking home—which is read and re-read wherever our language is spoken, and which from its associations and contents appeals to all classes of the community. That book of this generation is—

THE LETTERS OF QUEEN VICTORIA

Limited Time Price---\$1.00 for the 3 Vols.

The Quebec Chronicle

QUEBEC, MARCH 30, 1910.

AN IMPERIAL COUNCIL.

Writing on Imperial governance in the Standard of Empire, Mr. Harris, of Halifax, N.S., says that initiatory steps for the formation of an Imperial Council should be taken at the next conference of 1911. In his opinion that conference should do three things:—

First: Suggest or recommend to the British Government that the Secretary of State for the Colonies be known in future as the "Secretary of State for Imperial Affairs," or "for the Oversea Dominions," or "for Greater Britain."

Second: Recommend to each of the self-governing nation-states the establishment of a distinct department in their Government, under a responsible head, for the management of their general external interests, and, in particular, the conduct of matters of Imperial concern. The establishment of such a department in each State would co-ordinate Imperial action.

Third: Constitute or arrange for the establishment of a permanent consultative committee or council, consisting of the High Commissioners, Agents-General of the various self-governing Oversea States, the Crown Agents, the Secretaries of State for Greater Britain, for India, and for Foreign Affairs, and the Premier of Great Britain, to which all questions of Imperial interest might be referred. Many of these men are gentlemen of great distinction and ability; their successors in office could be selected with this added duty in mind.

This Council would of course have no legislative powers, its functions being rather of an advisory and consultative nature. "It would be a means of arriving at a mutual Imperial understanding on any matter requiring uniform or reciprocal legislation or uniform administrative action."

WHAT AN IMPERIAL COUNCIL WOULD DISCUSS.

The discussions of such an Imperial Council, as laid down in the article referred to above, would deal with:

(a) Imperial defence—naval and military matters, including the enlargement of the Committee of Imperial Defence by the addition of Oversea representatives.

The formation of an Imperial General Staff;

The interchange of Colonial naval and military officials, tending materially to strengthen the ties of Empire;

The administration of such regiments as the King's Colonials—composed of citizens of the Oversea State resident in Great Britain.

(b) Imperial trade—including the establishment of a system of preferential tariffs bringing strength and support to the development and permanent unity of the Empire—a business basis of unity—and in this connection it may be considered desirable to establish a representative Imperial committee dealing with Customs' duties throughout the Empire;

The establishment of inter-Imperial mail services;

The establishment of a complete inter-Imperial system of wireless telegraphy or cable service, and the reduction of cable rates;

The reduction of the postage rates on newspapers circulated within the Empire.

(c) Imperial laws—the unification of the laws of the Empire relating to shipping and navigation, patents and copyright, bankruptcy, corporations, marriage, naturalization, and citizenship, negotiable instruments, weights and measures, and coinage;

The establishment of one common Imperial Court of Appeal for both the Motherland and Oversea States.

(d) Imperial emigration—the organization of an Imperial system to direct the emigration of landless men from overcrowded provinces towards other Imperial States with menial land, a question bound up with the questions of defence and economic and commercial development, the maintenance of British sentiment, language, nationality, and ideals;

The establishment of an Imperial Labor Exchange, making labor an interchangeable commodity throughout the Empire.

(e) Imperial finance—including the establishment of a bureau of adequate information and advice regarding the issue of Overseas loans, thereby preventing that competition between States in the money market which now costs them so dearly;

The management of any Imperial debt;

The consideration of such matters as

the consolidation of the debts of the whole Empire and the guarantee of loans by the whole Empire.

(f) Foreign policy—the direction of the Empire's foreign policy, beginning with the control of the Empire's diplomatic and consular service.

(g) Internal matters—the establishment of a system of interchange of officials between the Colonial Office and the Governments of the Imperial provinces;

One Empire-wide standard of admission to civil service;

The gradual advancement of various Colonial Governments to an autonomous state;

The establishment of a scheme of Imperial travelling scholarships.

"In short," says Mr. Harris, "such a representative committee would by proceeding step by step, secure Imperial co-operation in defence, trade, and finance."

"WHATEVER IS RIGHT."

There is no getting over a principle of the above kind, be it ethical, political or religious. It is nonsense, of course, looking at it from the conventional side of things. And when the Toronto Star takes the Chronicle in hand to expostulate with it for troubling itself about the evolution of present conditions into something better or worse for Canada, it seems to accept the above maxim as the basis of its logic, nonsense as it may seem from some points of view. The discovery of Canada's resources or the utilizing of them to promote a standard of living in our public eye, cannot be accepted as the beginning and end of any wholesome kind of Canadianism. Canada must advance politically out of what she is into what she is not. There is no standard for her in her form of government, any more than in her blending of national traits. The tiniest events are of moment to those who are watching the trend of the evolution, and, when an event of such moment as the building of a navy of her own, brings out in full view the segregation of wholesome influences from demoralizing influences in our consolidating commonwealth or confederacy, in its present stage of an "imperium in imperio," the anxiety is no groundless one, as we analyze the frictional rhetoric indulged in by our members of parliament and other public men on the question of giving the mother country a helping hand in her efforts to continue to be mistress of the seas. The way our Canadian Premier and his Ministers have lately been playing with a most serious question—namely the future of Canada—as if it were only a matter of flippant talk and party politics, is surely cause enough in itself for anxiety. Are we an incipient nation of hypocrites, given up to fondling the main chance of getting all we can from Britain without sharing in her responsibilities? Is it either truth or loyalty to say that Canada owes nothing to England; and, if it be neither, what matters it to some Canadians whether the destiny of Canada is to be a continuing unit of the British Empire, or the securing of independence or annexation. What can this indifference develop into, if not into the formation of a "third party," if such a third party be not already in evidence, in the discussion of whether Canada is to have a navy after the pattern laid down by Sir Wilfrid Laurier or is to take part in the amplification of the British navy in terms of the suggestion made by Mr. R. L. Borden, the leader of the Opposition. Does the Toronto Star fail to see there are many Canadians, even at the present stage of our party antagonisms on the navy question who favor neither the one idea nor the other? How are these to be segregated save in a party of their own, organized or disorganized? The Chronicle is no alarmist. It would only deal with facts in the evolution of our Canadianism. Under certain circumstances, as the Montreal Star puts it, "all the members of parliament, with a few unimportant exceptions," could agree upon a policy, which would enable the Dominion Government to contribute something to the defence of the Empire." And the very fact that our Montreal contemporary sees with us that there are exceptions, and always will be, as there have already been, when the question of the British connection is on the tapis, stands as a corroboration of our views, and all the more so since everybody knows that these exceptions do not consider themselves unimportant. The amount of hedging that has been visible during the debate on the navy bill is not reassuring to our Canadianism, which, if it is to be, of any value to Canada, must in the meantime stand loyally towards the status quo, while the evolu-

tion from colonialism is on its way to something more permanent, be it Empire consolidation or independence. Those who do not stand loyally to the status quo—how are they to be classified politically save in a third party?

THE MEMBER FOR MEGANTIC.

Mr. D. H. Pennington, the popular member for the County of Megantic, threw out a hint to his associates in the Legislature when he spoke in his turn in the debate over the Speech from the Throne. "Somebody seems to have a pique at somebody else in this House," he said, "and he seems to be ever on the lookout for a chance to seek relief for his rhetoric. As a lumberman, I have been waiting patiently for more than a week past to hear the Government give explanations concerning their pulpwood policy, but no explanations have been made." And Mr. Pennington is right in his diagnosis of the House. There is too much of a playing at parliament keeping, and too little of real earnest legislation. One side would get the better of the other and generally fails to get it, there being quick-witted eloquent lawyers on the one side of the House as well as on the other. The members have again returned to their duties, and there is no lack of topics, and orders of motion, and practical questions already in evidence, to keep parliament in session longer perhaps than the members of Mr. Pennington's type of business activity care to have it. The Hon. Mr. Mackenzie's budget will no doubt take up as much time in its discussion as did the Speech from the Throne. The Hon. Mr. Caron has measures to bring up of importance to our farming industries. The Government's policy on the export of pulpwood will demand attention, and the organization of Ungava will also have to be looked into. There is one big scandal that will have to be probed to the very bottom, whatever others may crop up in connection with Mr. Prevost's knowledge of how colonization is being neglected, under dubious methods of departmental administration.

INDIA A MOSAIC OF CASTES.

No other country on earth furnishes even a distant parallel to the structure of Indian society—a society in which the lines of division are still the primitive lines of race, religion and caste, deepened by centuries of incessant warfare, in which more than 40 different tribes or nationalities, speaking more than 180 different tongues and dialects and confessing nine different religions, are jumbled together in a formless and inextricable mosaic and subdivided again into something like 2,400 castes, each caste a distinctive, exclusive, separate entity, in which three-fourths of the people live by the land and nineteenth-twentieths of them are wholly illiterate, in which faiths, usages, habits and customs are preserved with a jealousy and intensity far beyond the range of Occidental experience and in which power is held, government administered, justice dispensed and progress furthered under the authority and direction of a handful of rulers summoned from a distant northern island to guide the destinies of one-fifth of the human race.

Cold On The Chest
Had Suffered for Weeks—Used
Fourteen Different Remedies
Without Effect.

CURED QUICKLY BY "NERVILINE"

No stronger proof of the wonderful merit of Nerviline could be produced than the letter of Miss Lucy Mosher, who for years has been a well-known resident of Windsor, N.S.

"I want to add my unsolicited testimonial to the efficacy of your wonderful liniment. 'Nerviline.' I consider it the best remedy for a cold, sore throat, wheezing tightness in the chest, etc., and can state that for years our home has never been without Nerviline. I had a dreadful attack of cold, that settled on my chest, that fourteen different remedies couldn't break up. I rubbed on Nerviline three times a day, used Nerviline as a gargle, and was completely restored. I have induced dozens of my friends to use Nerviline, and they are all delighted with its wonderful power over pain and sickness."

"You are at liberty to publish this signed letter, which I hope will show the way to health to many that need to use Nerviline."

(Signed) "LUCY MOSHER."

All sorts of aches, pains and sufferings—internal and external—yield to Nerviline. Accept no substitute; 25c. per bottle, or five for \$1.00. All dealers, or The Catarrhose Company, Kingston, Ont.

BIG TREE OF OAXACA, MEXICO.

It Takes 27 Persons To Span It And Weighs 1,000 Tons.

(From the Wide World.)

A cypress tree near Oaxaca, Mexico, is believed to be the largest in circumference of any in the world. It measures 104 feet around the trunk at a height of 130 feet, and 27 persons holding hands can just reach around it.

The tree has stood for many centuries, and part of its trunk has commenced to decay from old age. One person of a statistical turn of mind has estimated that the tree and its branches must weigh something like 1,300 tons.

CURE
SICK
HEAD
ACHE

Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Dropsicalness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing the annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cure

Acne they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

aches are so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not grip or purge, but by their gentle action please all who use them.

CARTER MEDICINE CO., NEW YORK.
Small Pill. Small Dose. Small Price.

BLACK
KNIGHT
STOVE POLISH

"Black Knight" Stove Polish was made for women—made to save them work, worry and weariness. "Black Knight" is the easy-to-shine Stove Polish. Just a few light rubs, with cloth or brush, brings a brilliantly black polish that lasts.

It's ready to use—no mixing—no soiling hands—no dirty work—and cheaper than any other because it goes farther and you get a bigger can for 10c.

Get "Black Knight" at your dealer's—or send 10c. for a large can free postpaid.

A Special Display
For Easter

We are preparing a special display of attractive lines for Easter Presents.

We have made a number of Rings and Pins set with Diamonds and other Precious Gems.

In Necklets we are showing a very nice selection in Pearls and Amethysts.

There are two new Necklets of our own original designing, the style is Etruscan, the stones aquamarines in combination with round Oriental Pearls.

One of these Necklets is particularly interesting. It is made up with two large pear-shaped aquamarines that are pendant from a large square stone of the same kind.

The design is quite distinct from anything that has hitherto been seen.

In less costly articles we are showing new styles in Silver and Metal Purses, Shopping Bags, Hat Pins, Photo Frames and other useful articles suitable for Easter giving.

SHIPPING NEWS

MARINE ACCIDENTS AT OR NEAR MATANE

Interesting Reply of Justitia to the
Letter of Navigator on the
Subject.

To the Editor of the Chronicle:

Dear Sir,—In reply to the letter contained in your issue of the 24th inst., signed "Navigation," I would like to say a few words.

The accidents to vessels off or near Matane have not arisen from the character of the coast being more dangerous than other parts of the Gulf, but from errors made on the part of navigators in persisting to hug the shore too close for the purpose of benefiting by the flood tide and also to avoid the downward current to be met if farther out from the shore, the object being "to save time" as stated by the Chief Engineer of the Empress of Ireland during the inquiry as to the cause of accident to that steamer.

Another reason for many of the accidents in the locality of Matane, is the want of knowledge, on the part of many ship masters, as to the current which sets across the Gulf from Manicougan and Point des Monts to the shore between Matane and Cape Chatte, which I believe has frequently been the cause of many a master receiving a surprise on finding his vessel ashore. This often occurs during foggy weather, as after rounding Cape Chatte the current is altered to follow the line of shore without allowing for the cross current, previously referred to, as coming from the north. Take the case of the ss Kensington, which was set in towards the shore one mile out of her course, in a distance run of only twelve miles between Cape Chatte and Matane, as admitted by her master during the investigation, and in consequence ran ashore.

The ss Bratsberg ran ashore at St. Felicitie, and was placed ashore at Matane after being floated, on account of heavy weather, to prevent her from foundering. The cause of loss of life in connection with this vessel was owing to those in charge of boats attempting to enter the Matane river during boisterous weather and striking at the sand bar at the mouth of it when the boats capsized in the breakers, drowning 15 out of 17 of the crew in them.

Your correspondent is somewhat astray when associating Felicitie, off which the Roy rocks are situated and the submerged wreck is supposed to exist, with Matane, when it is a considerable distance below that place. Many of the casualties recorded have happened off Felicitie and reported as taking place at Matane.

In possession of Messrs. Henry Fry & Co., Lloyd's Agents, an official record of all casualties in the Gulf and River St. Lawrence since 1855 is to be found and on application I am sure any information respecting same will be willingly supplied, especially if it is to be used for the purpose of warning those who have to navigate the Gulf of St. Lawrence.

Although not opposed to the placing of a buoy over Roy rocks or a lightship with a powerful fog whistle in the vicinity of Matane, I fail to understand how such will prevent careless or reckless navigation.

Yours truly,

JUSTITIA.

Quebec, 29th March, 1910.

ALLAN LINE.

Steamer Pretorian, for Halifax and Portland, sailed from Glasgow via Noville at 10 a.m., March 27, with 166 second cabin and 497 steerage passengers for Halifax, and 51 second cabin and 63 steerage passengers for Portland.

QUEBEC STEAMSHIP CO.

Steamer Oceana sailed from Bermuda for New York at 11 a.m. yesterday.

STEAMER DRUID.

C.G.S. Druid came out of the Louise Basin yesterday, and went to the King's Wharf to coal, preparatory to laying down the buoys below Quebec. She returned to the Basin in the afternoon.

STEAMER VIKING FLOATED.

St. Pierre, Mich., March 29—Sealing steamer Viking, which grounded on a

sand bar off here, came into port yesterday. The steamer was floated at high water during the night. She sustained no damage.

U. S. TONNAGE TAX.

Detroit, Mich., March 29—The news long awaited by vessel-owners on the lower lakes who have been paying the tonnage tax on boats coming from Ontario, arrived at the office of the Detroit Collector of Customs to-day from Washington. The order is an abolition of the tonnage tax and reads as follows:

"On and after April 1, 1910, vessels entering your port from ports in the province of Ontario will be exempt from the tonnage duty of 2 cents per net ton, not to exceed in the aggregate 10 cents per ton in any one year, prescribed by section 36 of the act approved August 5, 1909, entitled 'an act to provide revenue, equalize duties and encourage the industries of the United States and for other purposes.'"

The communication is signed by E. T. Chamberlain, commissioner of navigation.

The repeal of that part of the 1909 tonnage tax law which referred to the trade between Ontario and American cities bordering on the Great Lakes is conceded to be an excellent thing for vesselmen in general, who foresaw the great harm that would be done the trade by restriction. The law bore heavily on the small owners and traders, many of whom companies having already paid high bills, simply for the privilege of coming from Sandwich to Detroit with loads of coal. Although restrictions are now removed from the Ontario-American trade, relations between the province of Quebec and the United States remain the same as before. Quebec has collected the tonnage tariff from United States vessels for years back and the same two cents per ton must be paid by boats coming from that province into this country. Quite a revenue was collected from Detroit boats stopping at Canadian ports last summer by the workings of the tonnage law, but as yet nothing has been enacted by Congress in the way of returning this money. Many vessel owners paid willingly in the hope that the Government would return their money.

NEW YORK BARGE CANALS.

North Tonawanda, N.Y., March 29—That the entire barge canal system of the state as now planned, including the Cayuga and Seneca section, can be completed in time for the season of navigation of 1915, and that certain portions of the new canal will be in use considerably before that time, was the prediction of State Engineer and Surveyor Frank M. Williams, in an address at the Chamber of Commerce dinner here to-night.

"I am an optimist on the subject of the barge canal," said Mr. Williams. "I believe that it will assure the continued supremacy of the port of New York; that it will give new impetus to the growth and prosperity of the magnificent chain of cities reaching across the state; that it will bring producer and consumer closer together by reducing the obstacle between them—cost of transportation; that it will enable them to transfer the centre of the steel industry of the U. S. from Pittsburgh to Buffalo and Tonawanda, and to new canal a market for the material there produced in the cities of this state. I am confident that the barge canal will be completed and have gone on record as naming a date when I believe boats will be able to use the entire new chan-

nel, and have fixed that date for the navigation season of 1915.

"I believe also that the construction can be completed within the amount originally appropriated, \$101,000,000."

ESKIMO COURTSHIP.

(From Harper's Bazar.)

If European death scenes astonish, the consenting "yes" of a bride at marriage shocks an Eskimo woman. Not only must a bride show herself unconsenting; she must, if she respects herself and tribal traditions scream and struggle with all her might when her wooer or his envoy enters her family residence and, laying hold upon her, drags her—usually by the topknot—to her new home. She may be presented with a new lamp and water-pail by her bridegroom, and she is, as a general thing, mightily pleased at her change of estate. But she is far to circumspect to show her pleasure or affection, and keeps up a noisy demonstration until she feels that she has done all that a well-bred maiden should. If she does not exercise proper discrimination in this matter her lord sometimes scratches the soles of her feet so that she cannot run away to her parents.

DYSPEPSIA CURED

Was Weak, Now Strong

"For nearly three years," writes Mrs. Ferris Joye, of Sarnia, "I suffered the untold misery of dyspepsia. I was brought up in the United States and attribute the weakened condition of my stomach to hasty eating and excessive ice water at meals. The morbid condition of my stomach affected my liver, and also affected my system in other ways. I suffered distress after eating, burning sensations after the food had passed from the stomach. My appetite would vary from days, having little, then it would seem as if I could not eat enough. Tonics and bitters failed and very severe constipation led me to use Dr. Hamilton's Pills. Can you imagine the joy after repeated failures to find a remedy that actually will cure. They are a wonderful pill in their action upon the stomach, liver and kidneys, and their mild action makes them all the more suited to people that are sick. I am well because of Dr. Hamilton's Pills and I owe you a debt of gratitude for them."

Don't fail to use Dr. Hamilton's Pills—for general family use no medicine compares with them. Sold in yellow boxes, 25c., all dealers, or The Catarthozone Co., Kingston, Ont.

CAP ROUGE.

Building lots 35 x 115 are now offered to the public at attractive prices and on liberal terms, on the heights at Cap Rouge, overlooking the St. Lawrence, three minutes' walk from nice sandy beach, boating, bathing, etc.; only ten minutes walk from the Canadian Northern Quebec Railway Station.

RABBI GLAZER MAKES PROTEST

Anti-Semitic Meeting, He States, is
To Be Held in
Quebec.

Rabbi Glazer, of Montreal, telephoned to the Chronicle last night to the effect that he had heard there was to be a mass meeting of an anti-semitic nature to-night in Quebec. Being the Rabbi of the Orthodox Jews, both in Montreal and Quebec, he wished to express his thorough condemnation of such a non-British outrage against the handful of Jewish families, who, he considered, contributed materially to the citizenship of the old historic city. Such mass meetings, in his opinion, were certainly like to incite rioting and an incentive to break the municipal laws, and he thought it the duty of the officials to prevent them. He added that he had made several visits to the Jewish section in Quebec, and had always found them perfectly willing to seek the goodwill of their fellow-citizens and ready to contribute to the general welfare. Nor could he see any apparent reason for such outbreaks, unless they were inspired by the evil genius of a certain paper, which had been bitterly attacking the Jews of late, because a certain Jewish merchant had refused to advertise in its columns. He informed the Chronicle that he had already sent messages to Hon. A. B. Aylesworth, the Minister of Justice, and to His Honor, Sir C. A. P. Pelletier, the Lieutenant-Governor of the Province. In these messages he had described the facts as given to him over the long distance "phone" from Quebec. He hoped that the fair-minded citizens of this city would not allow their good name to be besmirched by allowing such outbreaks, which it was possible might breed anarchy, and cause disturbances which would eventually react to the detriment of the whole community.

SACRED CONCERT.
The very attractive programme which has been prepared for the concert to-night should ensure a large audience in the Baptist Church. See advt.

NO EXTRA CHARGE.
Come immediately and choose your carpets, oilcloths, curtains and house furnishings. We will keep them for you until you require them without extra charge.

FAGUY, LEPINAY & FRERE,
254-264 St. John Street.

IRISH PROTESTANT BENEVOLENT SOCIETY.

Every member is expected to be present to-night at the annual meeting in the Y.M.C.A. at 8 o'clock. See advt.

RECORDER'S COURT.

Eight prisoners charged with drunkenness appeared before the Recorder yesterday. Six were fined in sum ranging from \$2 and costs or 8 days jail to \$20 and costs or one month. The other two were discharged.

A WELL DRESSED MAN.

Any man purchasing one of our suits is a well dressed man and is sure to be remarked. Our suits vary from \$7 to \$35. Look out for our special advt. this week.

FAGUY, LEPINAY & FRERE,
254-264 St. John Street.

COURT OF SESSIONS.

In the above court yesterday Francois Ratte pleaded guilty to a charge of robbery committed in 1908, and was sentenced to six months imprisonment. A defendant convicted of assault was fined \$1 and costs. Another defendant for selling liquor without a license was fined \$50 and costs.

RENDER UNTO CAESAR THAT WHICH IS CAESAR'S.

The public is unanimous in saying that Myrand & Pouliot's fashion exhibition is the best of the whole city. There are over two hundred hats, all of the kind everyone is forced to admire.

MRS. PAULINE DONALDA.

This afternoon, will reach Quebec by the C. P. R. train, the remarkable Canadian prima-donna, Mrs. Pauline Donalda, accompanied by the beautiful young Canadian piano-virtuoso, Miss Jessie Caverhill-Cameron, just back from Europe, and the brilliant musician violin-virtuoso, Mr. Michael Matoff. The whole party will register at the Chateau Frontenac where they will remain during their present visit in Quebec. The programme of the performance to be given to-morrow evening, (Thursday) at the Auditorium can be procured at Lavigne's music and piano warehouse, 93-95 St. John street, and at the ticket office of the Auditorium.

"THE BRITISH EMPIRE OF TO-DAY."

Taking the above as his subject, Prof. F. C. de Sumichrast, of Harvard University, will deliver an illustrated lecture in the Kirk Hall, St. Ann street, Friday evening next, and the event is attracting much attention. The professor is to lecture under the auspices of Baden-Powell Chapter, Imperial Order Daughters of the Empire. Prof. de Sumichrast is to address the Quebec Canadian Club Thursday afternoon at the Chateau on the "Collaboration of the Races." Tickets for the address in the Kirk Hall can be procured at Cambridge Corporation, Ltd., Bunde street, or at P. J. Evey's, St. John street. Linedlight views collected from all parts of the Empire will be used by Prof. de Sumichrast. The proceeds of the lecture will enable the Daughters of the Empire to continue their labors amongst newly arrived immigrants, many of whom are assisted on reaching this port. Prof. de Sumichrast is a most eloquent speaker and a rare treat is in store for those who hear him on Friday evening.

GOOD REPORTS WERE PRESENTED

At Annual Meeting of the Irish Protestant Benevolent Society
Last Evening.

The annual meeting of the society took place last evening in the Y. M. C. A. and was well attended. Encouraging reports were presented and officers for ensuing year elected as follows:—
President—John Brown.
Vice-President—Wm. Lee.
Treasurer—W. D. McCaughey.
Secretary—J. J. Dunlop.
Asst. Secy.—J. B. O'Regan.
Auditors—R. F. Cream and Thos. O'Neill.

Charitable Committee—R. F. Cream, W. H. Brown, Isaac Broom, Thos. Smyth, W. H. Davidson, W. F. Fanning, Chas. Knowles, D. Sandford.
Finance Committee—R. Stanley, T. H. Mahony, Jas. Perry, W. J. Buchanan, Major T. S. Hetherington, A. J. Elliott, A. W. Colley.
Most feeling references were made and a suitable resolution passed and ordered to be placed on record relating to the great loss the society has sustained in the removal by death of its late treasurer, Mr. James Woods, for whose painstaking, faithful and efficient services for 16 years the society was so much indebted.

SOCIAL EVENT.
The eucure and social of the Retail Merchants' Association of Canada, which took place at Auditorium Cafe last evening, was a grand affair. The attendance was very large, and everyone had an exceptionally enjoyable evening. One hundred and ten dollars in gold were offered in prizes, and each gold piece was encased in a neat velvet case. The Guard Champlain assisted.

Holt, Renfrew & Co., have just received a large assortment of Gentlemen's Spring Overcoats. The fit and quality of these garments cannot be excelled. Prices \$15, \$18, \$20, etc.

SUCCESSFUL EUCURE.

A very successful eucure was held last evening under the auspices of St. Agnes Association, in St. Patrick's Hall. There was a large crowd in attendance and an enjoyable time was spent by all. Refreshments were served during the evening. The prize winners were as follows:—
Ladies—1st, Miss F. Davis; 2nd, Mrs. J. Rooney; 3rd, Mrs. Vaughan; 4th, Miss Reynolds.
Gentlemen—1st, J. E. McCann; 2nd, W. Johnson; 3rd, Geo. Turner; 4th, J. A. Hanrahan.

TONOMEAD

CHANGE AT THE NICKEL TO-DAY

The change of pictures at the Nickel to-day will be of the usual excellence characteristic of this up-to-date and leading picture house. The subjects exhibited have at all times been such that not the slightest reason has been given for censorship. It has been the aim of the management to give its patrons none but the latest and best in the realm of cinematography and all these with a lesson and moral. The Nickel's endeavor is to cater to the best elements, and that they are doing so is readily evidenced by the large audiences which gather at every performance. Bert Harvey, the inimitable comedian, is more than making a hit with his audiences. He is one of those performers whose immediate appearance foretells his ability. He is a character singer whose like is all too seldom seen or heard in Quebec. There is nothing of the low comedian about him, which has been amply shown during his present short engagement here. He does not burlesque his songs, but renders them in a manner that pleases all. Mr. Harvey is certainly an entertainer of first rank, and is exceedingly clever in his impersonations. To hear Mr. Harvey is to enjoy him. He closes his engagement at the Nickel on Saturday evening next, so those wishing to hear him have but few opportunities remaining. Hear him to-day in "The Stuttering Sweetheart."

A STRIKE ENDED

Toronto, Ont., March 29.—A strike of two months duration was ended at the Continental Clock Co. to-day, when 60 strikers returned to work. All will be taken back. The firm has agreed to place price tags on all garments turned over to employees for making on piece work.

SS. Montserrat, at Genoa, from New York.
SS. Ile d'Italia, at Genoa, from New York.
SS. Celtic, at Liverpool, from New York.

LO! THE POOR EMPLOYER.

"How many people work in your office?" asked one city man of another.
"Oh, I should say, at a rough guess, about two-thirds of them," was the reply.

The Spur

of dire necessity doth breed a habit of inventiveness"

Hence,

Postum
and
Grape-Nuts

One a drink—the other a food—both can be used at the same meal to build up fagged brains and wearied stomachs.

"There's a Reason"

POSTUM CEREAL COMPANY, LTD.,
Belle Creek, Mich.

Many mixtures are offered as substitutes for Royal. None of them is the same in composition or effectiveness, so wholesome and economical, nor will make such fine food.

ROYAL Baking Powder

Absolutely Pure

Royal is the only Baking Powder made from Royal Grape Cream of Tartar

BAPTIST CHURCH SACRED CONCERT

Splendid Programme Rendered Last Evening and Large Attendance.

A splendid programme of music was rendered at the sacred concert given last evening at the Baptist Church. The choir, augmented for the occasion, under the direction of Mr. G. Pequegnat, rendered, beside a varied number of selections, the cantata "The Conquering King." All the items were rendered with great ability, and the large congregation, which completely filled the church, was much charmed with the whole entertainment, which reflected credit not alone upon the singers themselves but also upon Mr. Pequegnat, who directed their efforts. Two fine bass solos were rendered by Mr. Albert Pequegnat, whose rich and cultivated voice was heard to great effect. Duets by Messrs. Gilchrist and Pequegnat, a trio by Miss Sandberg and Messrs. Gilchrist and Pequegnat, and male quartette by Messrs. Howe, Gilchrist, Albert and G. Pequegnat were greatly appreciated.

In the cantata, the ladies' quartette by Misses Sandberg, Waters, Shaw and Mrs. Pequegnat was beautifully sung. Mrs. Fisher, Mr. Hugle, Miss Sandberg, Miss Shaw, Mrs. S. Wood, Miss Waters, Mrs. Holliday, Miss Shaw, Miss Marsh, Messrs. F. Marsh, Howe, Fisher, Ellis and G. Pequegnat all took prominent and pleasing parts. The whole entertainment was one that greatly appealed to lovers of good music, and the work of soloists and choir was of exceptional merit. Those who took part were:—
Soprano—Misses L. Sandberg, Waters, Marsh, Perry, Styles, Salter, D. Marsh, E. Darlington, Vary, Vincent, Nickerson, Fry, G. Lebeau, Mrs. Holliday, Pequegnat and Lebeau.
Contraltos—Misses Shaw, Marsh, Amy, Mrs. S. Woodley, H. Ellis and Fisher.
Tenors—Rev. H. Ellis, Messrs. Howe, Marsh, Gilchrist, Kinnear, Pequegnat, Bass—Messrs. Fisher, Hugle, Lebeau, A. Pequegnat, F. Marsh.
Piano—Mrs. Scott.
Organ—Miss M. Woodley.
Director—Mr. G. Pequegnat.

CRITICISM.

We do not fear any criticism of our costumes, cloaks, skirts or hats, as we have on hand the latest, most elegant and up-to-date styles of the season. Look out for our great advt.

FAGUY, LEPINAY & FRERE,
254-264 St. John Street.

ITALIAN GRAND OPERA.

Vinaccias Italian Grand Opera Company, who are now playing a week's engagement at His Majesty's Theatre, Montreal, will visit Quebec immediately after The Merry Widow. The engagement is for two days only, Wednesday and Thursday, April 6th and 7th. The repertoire will consist of Il Trovatore, Ballo Maschera and Traviata, the latter two being practically new to Quebec. Signor Bari, Signor Jara, and Signor Autori, who were here last season, are with this talented organization, and will no doubt repeat their former laurels. Seats will be on sale Thursday.

TONOMEAD

Tenders for Annual Supplies

Public notice is hereby given that
sealed tenders, endorsed and addressed
to the undersigned, will be received up
to 4 p.m. Tuesday, the 4th of April
next, for

**IRON CASTINGS,
BRASS CASTINGS,
LEAD PIPE AND PIG LEAD,
CEMENT, BRICK AND
DRAIN PIPES,**

required by this Department for the
years 1910-1911.

Each tender is to be on a blank
form procurable at this office, and to
be signed by two responsible parties,
securities for the fulfillment of the
contract.

Each tender shall contain the City
Treasurer's receipt for the amount
mentioned in the blank form of tender
and this deposit shall be forfeited in
case of refusal to sign the contract.

The city does not bind itself to ac-
cept the lowest or any of the tenders,
and reserves the right of giving to
each tenderer the items on which he
shall be the lowest of those which it
will be the most advantageous to the
city to accept.

The contractor shall pay the cost of
contract and of a certified copy there-
of for official use.

JER. GALLAGHER,
W. W. Engineer.

City of Quebec, City Hall, March 5th,
1910.

Public Notice is hereby given that
the city of Quebec will apply to the
Legislature of this Province, at its
next session, for certain amendments
to its charter of incorporation, for au-
thorization to borrow \$200,000 for
permanent works to be executed in Li-
moulin ward; \$20,000 to purchase land
and rights of servitude in connection
with the city waterworks; \$15,000 to
reimburse to the city the cost of per-
manent works made on Cote d'Abra-
ham and indemnities and costs paid
in connection with the said works;
\$72,000 for pavement of St. Andrew
street, and \$43,000 for other perma-
nent improvements; to change the mode
of dealing on complaints made against
the assessment books; to further pro-
tect the water of the waterworks from
pollution; for authorization to build,
subject to certain conditions, uniform
permanent sidewalks in the streets; to
compel telegraph, telephone, and elec-
tric light companies to build subter-
ranean conduits for their wires; to
borrow an amount sufficient to muni-
cipalize the lighting system of the city,
and to undertake the supply of
light, heat and power, and for other
purposes. By order, H. J. B. Chouinard, City Clerk.

Latest Sporting News

DID JEFFRIES BREAK ARM? OF OLD COUNTRY

Rumor Current in Los Angeles that He Fell Off Waggon in Mountains.

Los Angeles, Cal., March 29.—Per-
sistent rumors that J. J. Jeffries, who
is bear hunting in the San Bernar-
dino mountains, had met with a mis-
hap, were circulated in Los Angeles
to-day. According to the reports, the
former champion had fallen off a wag-
gon while travelling along a rough
mountain road and broken his arm.

Inquiry in sporting circles and at
the home of Jeffries failed to bring
any verification of the report, and it
was set down by the big fellow's
friends as a senseless canard. Mrs.
Jeffries said that she had received no
word from her husband.

ORGANIZING FOR BASEBALL SEASON.

The various baseball clubs of the
city are rapidly reorganizing for the
season. The Quebec and Lewis Base-
ball League will hold its annual meet-
ing at the St. Louis Hotel on Friday
night at 8 o'clock, and the St. Pat-
rick's Baseball Club will meet to elect
officers to-night at St. Patrick's Hall.

OFFER FOR THE CAPITALS.

Mr. Walter Cunningham has been
elected President of the Capital La-
crosse Club. Mr. Emmanuel Tasse,
Honorary President, has made an offer
of \$500 to be divided among the play-
ers should they win the championship.

JUNIOR LACROSSE LEAGUE

The annual meeting of the Quebec
Junior Lacrosse League is to be held
at the Victoria Hotel this evening. A
number of important questions are to
be discussed, among them the fixing of
a limit of age for players in the league.

more (Easter), 0.

ORAL BETTING PERMITTED.

San Francisco, March 29.—That
oral betting is not prohibited in this
State by the anti-betting laws passed
by the last legislature was the decision
of the Supreme Court to-day in grant-
ing the habeas corpus writ for W.
W. Roberts, a stakeholder, accused of
violating the Otis-Davis law.

WON THIS POKER POT SOLELY ON EDUCATION.

When Jimmy Collins, the new Pro-
vidence manager, was playing at
Louisville he and Dexter, the general
utility man, were bosom friends, and
could always be found together. Both
indulged in a little innocent card
playing, but never for money. One
night going west Dexter and Collins
entered into a poker game. After
drawing cards they found they had
excellent hands, and determined to
have some sport out of them.

As both were never known to gam-
ble, their teammates grouped about
were astonished to hear Dexter cry out:

"I have a pretty good hand, Jimmy,
and I'll bet you a hundred."

"I got a good hand myself," re-
plied Jimmy, "and I'll see your bet,
and raise you a thousand."

"Good," shouted Dexter; "I'll just
raise you a million."

"To show you I'm game," cried
Collins, "I'll see your million, and
make it a billion."

"That's what I call a man," an-
swered Dexter, "but all the same I'll
make it a million pounds."

"Gee, but you sure must have a
good hand," shot back Jimmy, "but
I'm right there with the pasteboards
raise you, and I'll see that trillion and
myself to a quadrillion of dollars."

"I ain't going to be pulled out of
mine," cried Dexter, "and I'll chase
that quadrillion, by raising you a quin-
tillion."

Jimmy hesitated, looked at his cards
intently, and then sadly said, "The
pot's yours. You win on education."

ROSS RIFLE FOOTBALL CLUB

At a meeting of the Ross Rifle Foot-
ball Club officers were elected for the
ensuing year. The meeting, which
was a large and enthusiastic one, was
presided over by Mr. W. Thorburn,
and with the efficient list of officers
elected, the club promises to have a
most successful season. The officers
elected were as follows:

Patron—Sir Charles Ross, Bart.

Hon. President—Mr. J. Craig.

Hon. Vice-Presidents—Messrs.
Blackman, E. Evans, R. B. White, C.
N. Dawson.

President—Mr. W. Thorburn.

Secretary-Treasurer—Mr. G. H. St.
Claire.

Committee—Messrs. G. Ritch, A.
Wright, Jas. Tobin, F. Martin, G.
Shields, J. Smith, B. Dransfield.

Captain—Mr. Dick Spry.

Vice-Captain—Mr. Gordon Lee.

BIG NEW YORK MARATHON

New York, March 29.—Up to date
seven nations are represented among
the entries for the Marathon Derby,
which will be run at the Polo
Grounds next Saturday afternoon.

There are one son of Uncle Sam,
Johnny Hayes; two from Ireland,
Frank Clarke, winner of this year's
Edinburgh classic, and Jim Crowley;

the fleet-footed little Englishman,
Percy Sellen; the pick of the Indian
runners, Paul Acoose; two Swedes,
Thure Johanson and Gustaf Ljung-
strom; Canada's latest speed marvel,
Fred Meadows; also Hans Holmer,
of Canada, and the Italian Marathon
champion, Umberto Blasie, who is
hurrying to these shores on board the
steamship Chicago, of the French line.

The tricolor of France may yet be
seen at the starting post, as last
year's winner, Henri St. Yves, is nib-
bling at the rich bait and may be here
to compete.

Millions of Dollars Spent on Racing
in England—Record in
Cricket Test.

An English racing enthusiast, who
is also a statistician, has tabulated
statements of expenses and outlay
showing that about \$40,000,000 are
put in circulation in England every
year through the medium of the thor-
oughbred. This does not include
speculation but actual running expen-
ses and outlays in connection with
horse racing. The sport of the Eng-
lish turf is enormously expensive,
carried on as it is by the richest and
most influential portion of the popu-
lation. This is the society sport, in-
deed the sport of royalty and nobility
par excellence. The sport of kings is
practiced in no other land in more
kingly fashion. Here are the figures:

Stake money.....£ 630,000

Jockeys' fees, etc.....1,225,000

Officials (300 days) of racing.....

Under rules of Jockey Club and National Hunt) 150,000

Jockeys' silks and satins.....50,000

Training and feeding 5,000 horses in training.....338,000

Upkeep of training establish-ments, boys' wages, etc.....300,000

Permanent officials in the employ of Jockey Club and National Hunt, also racing companies.....50,000

Sales of bloodstock public and private.....300,000

Gate money.....350,000

Railway travelling, men and horses.....300,000

Annual expenditure.....£3,698,000

To this should be added the amounts permanently invested in the sport, which would include the value of 5,000 horses in training, say £2,500,000, and that of the training downs and courses, £1,500,000. We might make, perhaps, a grand total of £4,000,000, and say, if only enough that to play the racing game one year in England requires about £8,000,000.

The King of the Belgians has signed a decree for the establishment of an inter-university sports competi-
tion on lines similar to those govern-
ing the athletic contests between Ox-
ford and Cambridge. A boat race
next July will be the first event and
a cup will be offered for competition
each year.

The English press is still deploring
the defeat of her representative crick-
eters in South Africa. With the best
of hope the eleven set out for the
colony, and they will shortly return
without the fruits of victory. Poor
fielding all round added to disastrous
weakness on a strong position has
been obtained accounted for the fail-
ure. It was particularly hard on
Hobbs and Rhodes should have failed
at a critical moment in the fourth
test match, the former only contrib-
uting one run in his two efforts and
Rhodes five. Had the two batsmen
shown the form they did in the fifth
test match England might have won
the rubber. Thanks to a magnificent
first wicket partnership of 221 by
Hobbs and Rhodes, which easily con-
stitutes a new test record, England es-
tablished such a strong position that
the result of the fifth test match was
never in doubt. For England, against
Australia at the Oval in 1899, F.
S. Jackson and Hayward put on
185 for the first wicket. This was
the previous record for test matches.

King Edward has granted his pat-
ronage to the proposed European in-
ternational regatta which is to take
place this summer in England, and
which will be held during the week
of August 8 and 9. The starting point
will be off Portsmouth Spit, the
course being laid in deep water to the
eastward and finishing off Ryde pier.

Jenkinson, the winner of the
Grand National steeplechase, is an
Irish bred son of Hackler, who did
not win the big race last year, and
was pulled up on account of a mishap
just before completing the first round
in 1908. The hero of the race was
Jerry M. who Asheton-Smith struck
out together with Cackler with a
somewhat sensational declaration
that they had been unfairly treated by
the handicapper. The owner of Jerry
M. was formerly known as C. G. Duff,
the change of name accompanying a
large inheritance from another
branch of the family. As Mr. Duff
he raced one of the best horses that
ever went through the Aintree field,
Cloister, the winner in 1893 with 175
pounds up.

The re-running of the northern
counties cross country championship
took place at Epsom. Great precau-
tions were taken to prevent the run-
ners again taking the wrong trail. As
last year A. E. Wood (Essex Eagles)
was first man home and the Highgate
Harriers won the team championship.
Highgate club have now won the cham-
pionship eight years in succession.
Wood beat Neaves by fifty yards cov-
ering the ten miles in 58 min. 17 4-5
sec.

For a long time past the position
of the Woolwich Arsenal Football and
Athletic club has been precarious and
matters have now come to a crisis. A
circular has been issued to the share-
holders calling a meeting to consider
the financial position of the company
and to adopt or otherwise deal with
a proposal for a continuance of foot-
ball at Woolwich. It is possible that
the club may be wound up.

As a result of the boat race won by
Oxford on Wednesday the dark blues
now claim the title of the inter-varsity
winners and Cambridge three. If minor
contests are counted, such as boxing,
fencing and rink hockey, the Cantabs
are about even, while the result of the
billiard contest has also to be received.
Billiards is one of the oldest in date
of any Oxford-Cambridge contests. It

was accepted as far back as 1860, hence
it celebrates its jubilee year. From
that date to 1903 the programme con-
sisted of single and double games and
under these conditions Oxford boasted
a big lead. In the aggregate they
claimed 45 wins to 27. In 1903 three
single matches were substituted which,
of course, allows for a rubber victory.
Under these conditions the dark blues
claim 4 wins to Cambridge's 3, al-
though since 1907 the light blues have
been the victors.

**AUTOMOBILE TO THE CHAM-
PION BATTER.**

The National Baseball Commission
has issued a notice to all major league
players, giving the conditions under
which a Detroit firm is to present an
automobile to the champion bat-
sman of the 1910 season. Regular
players, to be eligible for the prize,
must have been credited with 350
times at bat, catchers with 250 times,
and pitchers with 100. The official
league batting average will be the only
factor considered in awarding the
prize.

JEFFRIES WORLD'S TOUR.

Chicago, March 29.—If James J. Jef-
fries wins from Jack Johnson on
July 4th he will start his world tour
on July 10. The company will show
sixty days in this country, and sail
for England on Sept. 10. This was
the result of a conference held yester-
day between Sam Berger, Jeffries' manager,
and Harry Frazee, who are promoting
the world tour. It was also decided
definitely that Frank Gotch and James J.
Corbett will be members of the company.
The other principals will be selected later
on, for both Berger and Frazee favor
taking the middleweight and light-
weight champions along.

EDWARD PAYSON WESTON'S WALK.

Fort Madison, Ia., March 29.—Ed-
ward Payson Weston arrived here at
12:42 to-day. He rested an hour and
then resumed his journey eastward
and this afternoon was in Illinois.

BOOMED FOR THE PRESIDENCY

Boston, March 29.—Mayor Fitzgerald
was boomed for President of the
United States to-day during a recep-
tion which he gave for a visiting
delegation of about 325 school teach-
ers from Toronto. The teachers took
the City Hall by storm and for a
time business there was at a stand-
still. Superintendent James L.
Hughes, of the Toronto Schools,
launched the Mayor's boom for Presi-
dent. "Of course, you are not going
to stop politically in the Mayor's
chair," the Superintendent said to
Mr. Fitzgerald. "You are going high-
er, and when you have reached the
height of your ambition, the presi-
dency, I hope you will appoint the
members of the National Commission
to write the history of this continent.

OVERTAXED NERVES

A DISTRESS SIGNAL

The Trouble Can Only be Cured by
Enriching the Blood Supply.

When your nervous system is ex-
hausted the trouble makes itself evi-
dent in many ways. You are always
fatigued and unfit for work. Severe
headaches distract you, your back is
weak, you sleep badly, your appetite
is uncertain; you are nervous and ir-
ritable and after any exercise you
tremble and perspire excessively. If
the trouble is not checked your case
goes from bad to worse until you feel
that your condition is hopeless and
that insanity is threatened.

Your nerves are calling for help.
They are starved because they de-
mand from the blood more nourish-
ment than it can supply. New rich
blood is the secret of nerve strength
and Dr. Williams' Pink Pills for Pale
People cure nervous disorders because
they feed the weak, exhausted nerves
with rich, red blood. The case of
Mrs. Emma Hall, of Hamilton, Ont.,
furnishes proof that Dr. Williams' Pink
Pills will cure even the most stub-
born cases of nerve exhaustion.

Mrs. Hall was left a widow and was
forced to work in a mill to maintain
herself and her two little children.
She bravely faced the battle of life,
though she had never had to conform
to such conditions before. Notwith-
standing the splendid spirit she dis-
played the work played havoc with a
delicate constitution, and some years
ago Mrs. Hall noticed signs in her-
self of a nervous collapse. She con-
sulted a doctor who gave her some
medicine and told her she "would be
all right

N. Y. SENATOR RESIGNS HIS SEAT

To Save Being Expelled from the
State Senate for Being a
Bribe Taker.

Albany, N.Y., March 29.—Jotham P. Allde went to his home in Nor-
wich to-night, a private citizen,
branded as a bribe-taker by his former
colleagues in the Senate, and by his
own act no longer a member of that
body. Senator Conger, who on Jan.
28 filed charges against Allde which
resulted in the investigation that
ended to-day, stayed here to fight.

The battle that confronts Conger is
no longer to prove his charges. To
this extent the Senate vindicated him
to-day when forty of its forty-nine
members voted that the charges had
been sustained by the evidence
brought before them during the past
seven weeks. It is believed that
Conger came to the Senate to-day
prepared to resign as soon as he re-
ceived this vindication. However,
that may be, he did not resign, and
developments make it likely that he
will not do so. The cause of this is
a resolution introduced by Senator
Cobb, the majority leader, providing
for the appointment of a committee
to present to the Senate charges
against Conger "growing out of his
connection with legislation" and the
use of funds to influence the members
of the legislature or other persons
with reference thereto. Even Con-
ger's enemies admit that he is a
fighter, and the belief is that he will
oppose this attempt to deprive him of
office as vigorously and with as free
an expenditure of money as he at-
tacked Allde.

The Cobb resolution was referred to
the judiciary committee. It is ex-
pected that the committee will report
it to the Senate unless the leaders
conclude that its adoption would
plunge the Senate into another in-
vestigation and cause further delay to
legislation. There seems to be no
longer any doubt that the present
legislature will conduct a general
"graft" investigation. With the Allde
case out of the way, the question of
a thorough search into the dark alleys
of past legislative history lies un-
avoidably before the Republican lead-
ers and it must be disposed of before
the legislature can really get down to
the routine work of making new laws.

There are several propositions before
the two branches of the legislature
prescribing methods for such an in-
vestigation. Which one of these will
be accepted as the basis of the en-
abling measure to be adopted is still
in doubt.

The resignation of Allde to-day was
unexpected and it upset the plans of
many senators. While Allde's attorney,
Lewis E. Carr, explained that his
client had taken this action because
he said "political expediency" had
made his cause hopeless, there is no
doubt that the vote would not have
been so overwhelmingly hostile had
Allde stayed in the fight. Allde's re-
signation absolutely closes his case.
All that the senate could have done
after sustaining the charges against
him would have been to put him out;
and such a punishment his own act
forested. While bribery is a crime
under the statutes, the allegations
against Allde concerned something
that occurred ten years ago and the
statute of limitations would prevent
any criminal prosecution, had any one
felt inclined to bring such proceed-
ings. The senate finance committee
discussed informally, at an executive
session this afternoon, the question of
a general investigation but no action
was taken.

NEW YORK PRODUCE MARKET.
New York, March 29.—Flour was
steady; receipts, 39,750 barrels; ship-
ments, 10,930 barrels; rye flour,
steady; cornmeal, steady; rye, dull;
barley, nominal. Wheat, spot easy;
option wheat declined sharply on re-
ports of showers in Kansas and pre-
dictions of general rains in the west,
but prices regained part of the loss on
covering and on steady cash markets,
closing 1c. to 1 1/2c. net lower; receipts,
106,800 bushels; shipments, 2,703 bu-
shels. Corn, spot easy; option market
was without transactions, closing 1c.
to 1 1/2c. net higher; receipts, 47,250
bushels; shipments, 155,354 bushels.
Oats, spot steady; option market
was without transactions, closing un-
changed; receipts, 120,475 bushels;
roast, quiet; turpentine, easy; mo-
lasses, steady; freights, steady; raw
sugar, steady; refined sugar, quiet.

ASSEMBLY SAT FOR ONLY ONE HOUR

After the Easter Recess, but Managed
to Get Through Considerable
Routine Business.

The Legislative Assembly resumed
work yesterday afternoon after the
Easter holidays and sat for little over
an hour. However, in this short
space of time, considerable routine
business was put through, most of
it consisting of the advancement of
several bills to another stage and the
answering of questions. There were no
less than 48 questions on the order
paper, most of which received answers
from members of the Government.

Mr. Hay, the newly elected member
for Argenteuil, was introduced during
the afternoon by Hon. Messrs. Gouin
and Decarie.

Hon. Mr. Caron introduced his bills
respecting co-operative agricultural
associations, respecting the manufac-
ture of dairy products and respecting
agricultural societies. The Minister of
Agriculture, stated, in reply to Mr.
Teller, that the object of his amend-
ments was to raise the general stand-
ard of butter and cheese so that the
Quebec manufacturer should receive as
high a price for his goods as that
paid in Ontario.

Mr. Teller was informed that up
to date the sum of \$350,151 had been
spent for the establishment of the
Montreal Technical School. The land
and construction will cost about \$665,-
000. The Leader of the Opposition
was also informed that the Quebec
Technical School had cost to date,
\$77,722. The school site had been pur-
chased from the General Hospital for
\$60,507. Messrs. Simoneau and Dion
were the contractors and the contract
price was \$233,300 and \$22,000 to J.
G. Gaudry & Co. for structural steel,
etc. The approximate cost of the
building would be \$327,000.

Mr. Teller also inquired if the Gov-
ernment had sold any timber limits
since June, 1906, and was informed
that such was not the case, but that
on the 20th October, 1909, the Gov-
ernment had leased out, by tenders,
505 square miles, on the Transconti-
ental road, for \$5 annual ground rent,
and the following rights on the timber
to be cut thereon:—

T. J. McManus:—Spruce, \$5 per
thousand feet; pine, \$8 per thousand
feet; square timber, 7 cents per cubic
foot; ties, 9 cents.

T. D. Malone:—Spruce, \$6 per thou-
sand feet; pine, \$6 per thousand feet;
square timber, 10 and 15 cents per
cubic foot; ties, 10 cents.

Macdonald and O'Brien:—Spruce,
\$3.60 per thousand feet; pine, \$6 and
\$7 per thousand feet; square timber,
10 and 15 cents per cubic foot, and
ties, 9 and 11 cents.

The Government has no intention of
selling timber limits between now and
first July next.

Hon. Mr. Mackenzie, in reply to Mr.
Sauve, stated that the Government
had not finished considering the pro-
ject of entrusting to a parliamentary
commission the study of the question of
state insurance.

Hon. Mr. Decarie informed Mr.
Sauve that he had not as yet caused
to be placed in the Elementary
Schools pictures of the most ordinary
things in life, of tools, measures, etc.,
but had the matter under considera-
tion.

Mr. Laverne was informed that
Albert Adams was not in the employ
of the Government but was employed
in the Provincial Police from 15th
December, 1909, to 15th February,
1910, that he spoke the official lan-
guages of the county and was a
British subject by birth.

The Provincial Treasurer, in reply to
Mr. Sauve, stated that the Legisla-
ture Assembly, for the fiscal year,
ended 30th June, 1909, cost the Pro-
vince \$53,370.

Hon. Mr. Devlin, in reply to Mr.
Langlois, said that the total cost
of enlarging and repairing the Mon-
treal gaol, from 1890 to 1910, was
\$1,233,225. Court House annex, \$232,-
634, and that the Government had
purchased from Mr. Perdeau a prop-
erty opposite the annex for \$48,000.

Mr. Sauve was told that the number
of births in this Province in 1899 was
57,760. The returns for 1909 were not
yet printed.

Mr. Laverne's bill, calling for the
printing of railway tickets and docu-
ments, in both languages, was re-
ferred to the Legislative Committee.

Mr. Plante asked for an order of
the House for correspondence respect-
ing the official representative of the
Province of Quebec, in Belgium, dur-
ing the coming exhibition in 1910. In
support of his motion the member for
Beauport remarked that business
men would view with satisfaction the
appointment of a representative from
this Province to the Belgium exhibi-
tion next summer as the exhibition
was to be a most important one.

Considerable Belgium capital was in-
vested in this Province and the least
the Government could do was to have
a representative from this Province
sent to the exhibition, who would no
doubt induce a large number of
Belgians to settle in this Province.

Mr. Laverne remarked that the
Federal Government was no doubt
centralizing all foreign exhibitions
and booming up the new western pro-
vinces to the detriment of the old pro-
vinces of Canada. Mr. Hutchison, the
Federal Exhibition Commissioner, is a
man who does not speak the French
language and who spends all his time
booming up the Canadian west, and
who did not try to induce Frenchmen
and Belgians to immigrate to this
country. In fact any pamphlets pub-
lished in favor of Quebec was thrown
in a cellar and strict instructions given
to the employees not to disturb any
Quebec pamphlets. He hoped that the
Government of this Province would
take necessary measures to see that
Quebec would be treated better in
future.

Hon. Mr. Caron replied that the
necessary means would be taken in
future so that this Province would be
satisfactorily represented at foreign
exhibitions. The agricultural depart-
ment was preparing a new pamphlet
of this Province which would be
ready next month and which would
not be cast aside to be replaced by
pamphlets of other provinces.

After the second reading of a num-
ber of bills the House adjourned at
5.15.

GOOD NEWS

MR. A. CLAVERIE, the distinguished Specialist from Paris, so well known in Canada, is again coming.

TO LEIS AND TO QUEBEC

He will be in LEVIS, at the Victoria Hotel, on Friday, the 8th, and Saturday, the 9th of April, from 9 A.M. to 3 P.M., and from 6 to 9 P.M., and Sunday, the 10th, from 10 A.M. to 3 P.M.

He will be in QUEBEC, at the New Victoria Hotel, from Monday, the 11th, to Sunday, the 17th of April—every day from 9 A.M. to 3 P.M., and from 6 to 9 P.M. (Sunday from 10 A.M. to 3 P.M. only).

It is always good news for those who are ruptured when Mr. A. Clavierie, the distinguished Paris specialist, returns to our city.

It is two years now since he has been in Canada and he has already relieved and cured a great many sick.

Whenever he returns to Quebec and to Levis, his rooms are always crowded with patients who call to submit their cases to him.

The name of Mr. A. Clavierie, and the worth of his Method and Appliances are too well known in our region to make it necessary to say much about them. Almost all in Quebec and Levis and in the neighborhood are sure to know one or more patients who have to thank Mr. Clavierie for their health, comfort, and security.

The visit which Mr. Clavierie will soon make to this district will therefore be a precious occasion of which ruptured people should avail themselves at once. It may mean for them the beginning of a new life.

DR. NAMY.

FRANK MANTLE KNOCKED OUT

Boston, March 29.—Frank, Klaus, of Pittsburg, knocked out Frank Mantle, of Pawtucket, in the ninth round of their bout at the Army A.A. tonight. Mantle had the affair won on points up to the middle of the sixth round, when an uppercut to the jaw put him down for the count. In the ninth, a succession of hard punches, followed by another uppercut to the jaw, put Mantle out for keeps.

JEFFRIES ALL RIGHT

Mojave, Cal., March 29.—Rumors that Jas. J. Jeffries had been injured in an accident while hunting were dispelled to-day when John Hayes, an automobile stage driver, came in from the desert and reported that the pugilist was enjoying himself at Little Lake. "Nothing the matter with him," said Hayes. Jeffries was at Indian Wells last night and he said he was feeling fine. He tramped all the way to Little Lake this morning.

THE FIRE AT OKEOKITO

Vienna, March 29.—The Emperor has telegraphed to the Hungarian Government his condolences in the catastrophe at Okeokito. It is learned that the ball at the hotel was held to raise funds to complete the building of the new Protestant church. From the first alarm of fire to the collapse of the roof, which completed the disaster, only about ten minutes elapsed. The victims included Burgmaster Kavacs, his wife, daughter and four sons. Hundreds of small children have been left orphans.

HARD ON THEODORE

London, March 30.—The Standard this morning devotes a long editorial to ironical references to Theodore Roosevelt's progress. Referring to a recent rumor that the ex-President had received an offer of the post of Adviser-General to the Chinese, the Standard says he is obviously the very man for the position. It remarks that the ordinary traveller requires months of study and observation before venturing an opinion on foreign nations. With a "man of genius" it is otherwise. A few weeks, spent mainly on the cars and steamers and at the hotels, qualified him to pronounce judgments for the instruction of the listening nations. "We look forward with keen anticipation," the editorial concludes, "to Mr. Roosevelt's discovery of the British Isles, and his candid remarks on our shortcomings. We might return the compliment by sending, such as Mr. Asquith, to lecture the citizens of the United States on their national defects and imperfections."

NEAR DEATH'S DOOR

Mi-on-a cures dyspepsia. If any of the readers of the Chronicle are suffering from stomach troubles of any kind Henry Willis will sell you a box of Mi-on-a for 50 cents with an absolute guarantee of relief or money back.

Neil Murray, of Huron Road, Godrich, Ont., says: "I suffered with indigestion for over four years and had been given over as incurable by many doctors. I had become a nervous wreck through loss of sleep, and whatever I eat did not remain on my stomach for over two hours. I would suffer with vomiting spells that would almost kill me, perspiration as large as beads would break out all over my body and leave me in so weakened a condition that I would be unable to stand, not a night's rest in over six months and was so weakened and run down that my family thought I would die. My heart was greatly weakened and would flutter and a sharp pain would come through me and cut off my breath. I was reduced in weight from 150 to less than 110 pounds. Doctors would give different causes for my trouble, yet none of them gave me the slightest relief. I commenced treatment with Mi-on-a and when one-half of the first box was used I could eat my meals without suffering the dreadful vomiting spells. I used about ten boxes in all, and I am entirely cured. My stomach is as strong as ever and there is not the slightest trouble of indigestion. I have gained about 40 pounds in weight, am strong and healthy and like a new man. I will always speak highly of Mi-on-a, as it cured and I believe kept me from sure death when all else had failed."

There are almost innumerable points of interest to the visitor, some of greater attraction to him than others, but all full of history.

It would be useless to enumerate all, but it might be as well to say that the stranger who looks for rest instead of a rush to "do" everything in a limited time, the one who is in the immediate vicinity of Quebec, many other localities accessible with the greatest ease, by either good roads, or by boat, or by electric car service, which are well worth his inspection and which it would not be possible fully to appreciate during a single ordinary visit.

Among these might be named the Falls of Montmorency, which nearly exceeds those of Niagara by nearly 100 feet perpendicularly upon the brink of which lived the Duke of Kent, father of Victoria the Good, a

QUEBEC AS A RESORT ALL THE YEAR ROUND.

Quebec is much better known to the summer tourist than to those seeking recreation at other seasons. But her modesty in proclaiming aloud her innumerable charms has doubtless had the effect of permitting hosts of others to be diverted to less attractive scenes often at far greater outlay, both of time and money. Yet who is there who has really spent a week during the fine weather season who has not departed with the feeling that but the fringe of her attractions had been touched?

And the thousands who are tempted to spend their outing amid distant scenes, either across the continent or in the Southern States, or further still, on the other side of the Atlantic, without first having seen what Quebec has to offer, have certainly worked far harder and spent far more for possibly lesser recreation than would have been the case had they sought what lies so close to multitudes of them.

Quebec is readily attainable to any resident of the Eastern States, millions of them having the facilities for reaching it in twenty-four hours from their homes, either by rail or by a diversified route, embracing both boat and rail.

To the seaman after rest and change what could offer a more delightful sight than is presented by the old city "set upon a hill" and viewed from the spacious promenade deck of the daily steamer from Montreal, arriving about seven on a bright summer morning and making the round of the great river before mooring at her pontoon? The whole scene is to the stranger so full of interest and novelty that even the time taken by the steamer in her majestic sweep round the lower end of the spacious harbor can hardly afford him time to take in all the different and changing points of view.

And then, on landing, how quaint the streets, the houses, the very vehicles from any seen at home or any other part of the continent? It takes time to realize that the whole shore under the frowning citadel high over head, has laboriously been wrenched from the river which once laved the foot of the cliff and that in this process land so acquired was too precious to afford wide streets.

Then the climb up a hill, apparently too steep for ordinary use, upward and upward still, until the Upper Town is reached, where the outlook at every turn almost reveals a peep at the surrounding scenery stretching either across to the Levis heights, or downward to the beautiful Isle of Orleans, where Wolfe, just a century and a half since, made his first landing, or to the north across the lovely valley of the St. Charles river, in which, further back still, Jacques Cartier found safe winter quarters for his adventurous little fleet, to the blue Laurentian hills protecting the valley from the winds of the Arctic, which, so far as settlement is concerned, have a clear sweep from the North Pole down.

Every corner, almost either within or without the city, has its own particular story, and in the city itself, of late years, there has been an effort to have tablets commemorative of the event of special interest connected with each locality, affixed to the nearest building, for the enlightenment of the stranger.

And then at the summit of Mount Hill there is the fine modern hotel, the Chateau Frontenac, the property of the Canadian Pacific Railway Company, situated upon one of the most commanding sites it is said of any similar building in the world. Adjoining it is the famous Dufferin Terrace, a railed platform of varying width, running across its face, for nearly a quarter of a mile, at a height of some hundred and fifty feet above the river and affording an unobstructed view from west to north-west over the river, valley and mountain in the background.

The hostelry itself leaves very little to be desired, particularly in the way of appointments. It is fitted up with the utmost taste and regardless of cost, and its rates compare most favorably with those of other cities with far less attractions to offer, either in position or appointments.

Every attention and information can be had from the courteous officials of either this or any of the numerous other smaller hotels of the city, and there is no city in which the stranger will find a greater good will shown him regarding any point of interest about which he requires posting, than in this old city of Quebec, whose denizens are never in too great a hurry to politely reply to his queries or even to anticipate them.

The points of special interest in the city itself are easy to find. Every hackman has a list on his card, but alas! he is more willing than capable, too often off in his version of the details of history connected with each locality to which he so willingly conducts his fare.

Some very extraordinary renderings of actual facts have been thus cheerfully imparted to our American friends.

The Citadel is among the first points visited, naturally, and it is thrown open freely to the visitor. The grand view from this point upon a fine day will challenge comparison, and of itself well repay a visit. Just beneath its walls there has been constructed a walk or wooden platform overlooking the river, and almost overhanging in places, running back to the Cove fields, which lie immediately outside the fortification walls and extend as far as the Plains of Abraham, famous as the spot whereon Wolfe assembled his forces preparatory to his advance upon the city in the early light of that fateful September morning, September 13th, 1759.

There are almost innumerable points of interest to the visitor, some of greater attraction to him than others, but all full of history.

It would be useless to enumerate all, but it might be as well to say that the stranger who looks for rest instead of a rush to "do" everything in a limited time, the one who is in the immediate vicinity of Quebec, many other localities accessible with the greatest ease, by either good roads, or by boat, or by electric car service, which are well worth his inspection and which it would not be possible fully to appreciate during a single ordinary visit.

Among these might be named the Falls of Montmorency, which nearly exceeds those of Niagara by nearly 100 feet perpendicularly upon the brink of which lived the Duke of Kent, father of Victoria the Good, a

few miles further down the beautiful shores of the St. Lawrence the far famed Shrine of St. Anne, with its yearly visiting list comprising hundreds of thousands, all seeking benefit, either spiritual or temporal, or both, from a pilgrimage often from great distances. Then there are the charming Isle of Orleans, the two Lorettes, each with its own beauty. Cap Rouge, the scene of the great bridge fatality, which shocked the world, and where active exertion is being made to succeed this time in spanning the river, here some 150 feet in depth and very narrow, comparatively. A little further away are the famous old ruins of the Chateau Bigot, about which so much romance has been entwined, and Lakes Beauport and St. Charles. In fact it would require more space than can be afforded by this article to fully enumerate all the various historic and interesting localities which, as has already been said, can so readily be reached from the city at all times.

Of late years, too, many tourists have come to realize that they could derive more satisfaction and benefit in the winter season by visiting Quebec than by extending their trips to far distant points, where they sometimes secured a milder atmosphere, but lost the benefit afforded by our own bracing air. Those who have tried the change will readily bear out the statement that Quebecers need no sympathy because of their shut-in condition, as is often thought, in the winter season. There are at this time all the different means of most enjoyable and most beneficially passing the time by means of the various winter amusements, such as curling, skating, skiing, sliding, hockey-playing, snow-shoeing, etc., from which each can select his own particular favorite diversion and indulge in it to the full, free to breathe in the best of ozone the while, and with nothing at all enervating to depress him.

The sliding, peculiar to Quebec, resembles somewhat that indulged in on some parts of the continent, but is thought to be an improvement. Instead of a long vehicle, for a number, there is used a short narrow sleigh carrying only two, and under perfect control by the steersman who reclines at length, grasping each end, and thus directing his course with certainty and the greatest safety. Besides the artificial slides at the Kent House, Montmorency, and on the Dufferin Terrace, the latter established by the neighboring Chateau Frontenac, there are the natural slopes of the Cove Fields, immediately adjoining the Citadel, to the westward, free to all and greatly patronized for both sleighs and toboggans.

The winter, while dry, is by no means so rough and stormy as is often imagined by strangers. For weeks together there is frequently bright sunshine with an occasional dip of the temperature during calm which clothes the naked branches of the trees with a beauty seen only at this season and rendering them things certainly of beauty though not a joy for the stranger. An occasional snow storm merely lends a zest to the enjoyment, and is the delight of the youngsters.

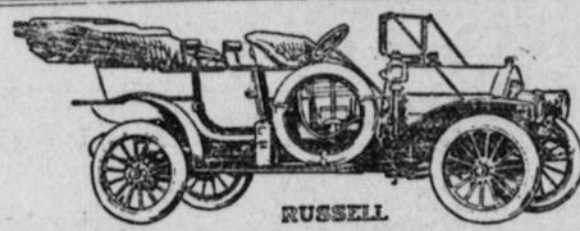

The city streets are by law kept free of snow down to a depth of four inches and in fact that the electric service runs continuously all the year round, shows that there is nothing in the climate to prohibit out door enjoyment or the forest locomotion.

Many as are already the means afforded of making the most of the winter season, there are still other suggestions for enhancing the attraction Quebec can offer to the visitor, such as the recent proposal to out rival the famous Davos slide in Switzerland by means of a slide from the Cove Fields, or from the rear of the goaf, down the old slope of Bonner's Hill, out on to the shore or "batterie" ice, which would afford all the excitement needed by the most exacting in this sport.

Quebec has nothing to hide, nothing to fear from a visit at any season, for a short time between seasons he expected, but on the contrary everything to gain from close investigation, and she feels that the visitor at any time will feel well repaid in every way.

PILOTS CELEBRATE SEMI-CENTENARY

Imposing Service at St. Roch Church
and Elaborate Banquet at
the Chateau.

Fifty years ago yesterday, the Corporation of Pilots for and below the harbor of Quebec was organized. Some 234 pilots signed the act of incorporation, and of those but five are alive to-day. In honor of the celebration the pilot office in the Lower Town is magnificently decorated with flags, drapery and inscriptions, prominent among which are the figures "50" over the facade of the building.

There was a Pontifical celebration of High Mass in St. Roch Church yesterday morning, the Church being handsomely decorated for the occasion. His Grace Bishop Roy officiated, assisted by Father Bouffard, the deacon of honor was Father Filion and the sub-deacon of honor Father Mercier. The Rev. Fathers L. Boudanger and L. Larochelle also took part in the service. The solemn mass of Wiegand was rendered with fine effect by a large choir composed of the pupils of the Brothers' School and the men of the parish, Brother Levesque directing the boys. Mr. Levesque officiated at the organ. The solos rendered were as follows:

Gratias: Gaudiosus Morency.
M. item: Arthur Allard.
Offertoire: "Pater Noster," Neidermeyer, Dr. J. A. Juchereau.
Sortie: Canticum a Notre Dame, Adjuvante Lachance, pilot.

An eloquent sermon was preached by Father Raymond Lamontagne, son of Pilot Lamontagne. In the evening there was a banquet at the Chateau Frontenac.

The banquet was presided over by Mr. R. Baquet, the President of the Corporation, who performed his duties in most approved style. Needless to say the Chateau Frontenac lost nothing of its high reputation for catering to the inner man and provided a well-chosen menu that would have pleased a very gourmet. The arrangements were carried out in perfect manner and the banquet was a most successful and enjoyable one in every respect. After full justice had been done to the menu, the toast list was taken up, a number of healths being drunk and eloquent speeches delivered.

Mr. L. Talbot, M.P., who represented Hon. L. P. Brodeur, the Minister of Marine and Fisheries, read a letter expressing the Minister's regret that he was unable to be present. He spoke in most appreciative terms of the worth and esprit du corps of the pilots, and the splendid way in which they performed their difficult and dangerous duties. He also mentioned the fact that their tariff was the same now as 100 years ago, which was ridiculous in view of the enormous progress made. It required modification, and he hoped for this at no distant date.

Mr. Geo. Parent, M.P., who followed, spoke of the sympathy of the present Government for the Corporation of Pilots.

The Hon. Jacques Bureau said that Sir Wilfrid Laurier extremely regretted his inability to be present. There were great developments in commerce and it was a great thing for the commercial world to know that they could repose their confidence in the pilots. He contrasted the present with the past and spoke of the canals and other improvements. There had been a marvelous increase in the number and size of vessels engaged in the Trans-Atlantic trade, and it had even been said that Montreal was a dangerous rival to New York.

Canada was making record progress, and the St. Lawrence should be affected by such development. The pilots should remember that they were the guardians of the good name of the St. Lawrence. The Government were working to increase the trade of the country and to protect it. The speaker went on to refer to the Canadian navy, and the employment which its construction might give, and the added need there might be for specially skilled and tried pilots. After touching upon the Georgian Bay project, he said that Sir Wilfrid could sympathize with them since he was the Great Pilot on the Ship of State, which was a task requiring more than ordinary gifts. Concluding, he spoke of the threatened tariff war, which, he said, appeared to have been averted by Canadian diplomacy.

Sir Lomer Gouin said that he also had a bark to steer, and alluded to the sirens of the Press. He said that the actual pilots each had their turn, their tours de role, so that they relieved each other, but it was not so with the political pilots, who must always have their hand at the helm. He also said a good word for the maritime trading companies.

Mayor Drouin then spoke in brief but happy vein, being followed by Mayor Bernier of Levis.

Other who spoke were Mr. Gauthier, who was spokesman for the Montreal Pilots, Mr. Armand Lavergne, M.P., The toast of the Press was responded to by Senator Landry and Mr. Geo. Morisset.

Mr. J. P. Turcotte, the member for Quebec County, proposed the health of the organization, which was answered by Mr. F. X. Dion, the energetic and tactful Secretary of the

Corporation of Pilots, who has devoted so much of his time and attention to ensure the success of the banquet, which was magnificent in every way. All were evidently delighted with their evening's entertainment, and it was with mingled feelings of pleasure and regret that the numerous party broke up, pleasure because they had enjoyed such a good time, and regret that it was not for longer.

Invitations had been sent to His Honor Sir C. A. P. Pelletier, Lieutenant-Governor of the Province, Sir Wilfrid Laurier, who was represented by the Hon. Jacques Bureau, Solicitor-General, Sir Lomer Gouin, Hon. L. P. Brodeur, who was represented by Col. O. E. Talbot, Hon. Radolphe Lemieux, Hon. G. P. Graham, R. L. Borden, Esq., Hon. Alex. Taschereau, Hon. A. B. Angers, Senator Landry, Hon. T. Chas. Casgrain, Hon. Chas. Langelier, Hon. S. N. Parent, Lt.-Col. Oscar Pelletier, Messrs. A. Lachance, M.P., W. Price, M.P., J. P. MOST REMARK- ABLE CURES

EVER MADE BY ANY
REMEDY.

Are Daily Credited to the Wonderful
Powers of "Fruit-a-tives."

Bancroft Man Thinks This Fruit Medicine
Will Work Miracles.

It is the old chronic case, the stubborn case, the case that will not yield to the ordinary remedies of the physician, that "Fruit-a-tives" never fails to cure. Many of the cures made by "Fruit-a-tives" are the wonder and admiration of the doctors who cannot understand how "Fruit-a-tives" can do what they cannot.

Bancroft, Ont., October 17th.
"I have been troubled for years with Indigestion—have tried every kind of medicine, and found only temporary relief. Then I used 'Fruit-a-tives' and now I am no longer troubled with Indigestion. I think it is a splendid remedy."

ICE FOR THE SUMMER

You want the purest, clearest and best. You also want prompt and regular service. You still further, want a reasonable rate. Then you should at once send in your orders to

P. J. HOLDEN, 583 Champlain Street,

who is now prepared to book orders for the coming summer. Years of experience have made his service unequalled, and his name well-known as only the purveyor of the best.

TELEPHONE 454.

Fashion Emporium.

We are very proud of the
DIPLOMA OF HONOR

the public is giving us in saying that the firm of
Myrand & Pouliot

has got the BEST COLLECTION EVER SEEN
regarding Trimmed Hats for the coming season.

200 assorted models in Ladies' Trimmed Hats in
which art and richness are working together to produce masterpieces.

Our exhibition will remain open for the whole week,
and not one lady should miss this opportunity of seeing the
fashions that will be worn by every stylish lady in all
classes of society.

IMPORTED AND COPIED HATS are something
like a puzzle, because you do not know which one to admire
the most.

COME AND SEE OUR MODELS IN HATS, and
in the meantime you will be allowed to take advantage of
good offerings in some other department.

For instance, a splendid lady's suit made of nice cloth,
all trimmed in silk bands and buttons. It is certainly a
first-class leader. This costume, cheap at \$13.00, \$7.89
is offered this week at

For \$5.00 and \$6.00

We flatter ourselves with being able to offer you a set
of white underclothing which you cannot procure elsewhere
for less than \$9.00 and \$11.00.

Next Saturday we will entertain
you about Cents' Clothing sold at

Myrand & Pouliot,
215 St. Joseph St., St. Roch.
