LAPRAIRIE.

An extensive municipal village and parish of the south shore of the River St. Lawrence, between the Lachine rapids and Victoria bridge, district of Montreal, seigniorly and county of the same name. Incorporated March 30, 1846. The parish was erected on the 17th November, 1668. A market is open every day. An aqueduct is constructed. The first railway in British North America was constructed from here to St. Johns in 1835. It was first worked with horses, afterwards by steam, but was discontinued, and the rails taken up a number of years ago. A steamboat maintains regular communication between Montreal and Laprairie. A branch of the Grand Trunk Railway, starting at Fort Covington, in the State of New York, to reach the Victoria bridge, now runs twice a day in close proximity to the village, with a good station and depot, and contributes materially to the future development of the locality, which is considered a very healthy and pleasant summer place. There is also a fire station, thoroughly supplied with new fire apparatus, such as a fire engine and hook and ladders. Fishing and hunting is also largely practised. A new billiard room has been organized. A permanent wharf has been erected. A new channel is also partly made up. The aqueduct is now giving a very good service to the village, and the work of putting up pipes is being done very rapidly in the different streets. The pressure of water in case of fire is also very powerful, as the water is drawn by steam and air pressure, which brings it at a distance of 1,350 feet from the St. Lawrence river. The premiums upon insurances have also been greatly reduced on account of the recent ameliorations to the fire system apparatus. Great North-Western Telegraph Company has an office here. Telephone connection with Montreal. Distant from Montreal, 9 miles, fare 15 cts.; from St. Johns, 18 miles. Mail daily. Population of village about 1,500; of parish 2,200.

During the winter months direct communication is had with Montreal by an ice road across the St. Lawrence, on which considerable driving is done, and by the bridge St. Lambert is being rapidly built up, and is destined to become a very important point; and a system of water and drainage has been inaugurated. The Canadian Hunt Club composed of Montreal gentlemen, have their Club and Kennels located at Slocum Lodge, an excellent situation on the river bank. The distance by rail is six miles. Mail twice daily G.N.W. Tel. Co. has an office, also telephone communication at post office.

The government are now completing a crib work wall along the river bank, which gives the Town a fine promenade of over 1000 feet in length, from which the view of Montreal, lighted at night by thousands of electric lights is magnificent
