

FIERCE STRUGGLE IMPENDING IN IMPERIAL PARLIAMENT

Lords will Take Issue with the Commons on the Education and Home Rule Bills— Rumors of Constitutional Changes.

REMARKABLE SHIP FOR THE ROYAL NAVY.

New York, Nov. 11.—In a special cable from London today the New York Herald has the following:—
British politics of late years have been very humdrum in its character, but there is at the present time a quarrel brewing between the Houses of Peers and Commons which promises to be very lively and very fierce. The House of Lords is just now mauling at the education bill in such a way that the Ministers are being left with but two alternatives.
They must either drop the bill or resign. They do not want to adopt the latter expedient, because they might return from the constituencies with a reduced majority, and it is well known that they want to introduce a Home Rule bill for Ireland at the next session. Now, it goes without saying that the Peers will reject any measure proposing to give Home Rule to Ireland, and then will begin a fierce agitation against the upper chamber, not for mending it, but ending it.
There are henchmen of the Prime Minister, Sir Henry Campbell-Bannerman, who state in private that it is distinctly understood as an essential part of the radical programme that the rejection of the Home Rule bill, following the "tinkering" with the education bill by the Peers, will be followed neither by dissolution nor resignation, but by a superannuation of the House of Lords. A strong step of this kind would involve grave constitutional changes, but the House of Lords will not crumble up like matchwood, as some Radicals, presuming on their great majority in the House of Commons, are fond of boasting.
The fact is that the social roots of the hereditary orders in England are very strong, and the British people are prone to respect the social and local influence of ancestral wealth and public activity. The House of Lords believes that on the education and Home Rule questions it is not likely to arouse the anger of the nation.
Still the fact remains that the Prime Minister is deeply pledged to introduce a Home Rule bill, and every body is wondering how it can be settled while the House of Lords remains as it is. There are men on both sides of the House of Lords who favor what is known as the "enabling" act, which would empower Peers to sit in the Commons. They would rejoice to enter what is sometimes called "the real parliament."
When the crisis arises the House of Lords will be told that they are utterly out of touch with popular feeling, and that they never intervene in the work of legislation except to mar the handiwork of the House of Commons. It will be declared that their principles of action are oligarchical and aristocratic, while those of the Lower House are popular and democratic. The bulk of the members of the Upper House would say, "So goes a theory which many observers are much inclined to doubt."
There are members of the House of Peers who are prepared to meet the Radicals when they talk about "trusting the people," and one of the proposals which it is understood will come from a Peer of standing is that a bill establishing the referendum as one of the British institutions should be introduced. This, it is contended, would take away from the Radicals all excuse for denouncing the Peers for their lack of democracy.
The referendum bill would lay down that if, and when the two Houses could not agree as to the provisions of any bill, either House might, in passing the bill in the form desired by the other House insert without further debate or conference a provision that before being submitted for royal assent the bill should be referred to the electors of the United Kingdom, a poll of the people being taken in the manner prescribed by the act. In view of the coming crisis such a bill has actually been roughly drafted, and supporters of it believe that such action on the part of the House of Lords would leave no doubt in men's minds as to the acceptance of popular sovereignty by the House of Lords.
Whatever happens, one thing is absolutely certain that the beginning of a fierce struggle between the two Houses is not far off.
A remarkable vessel for the Royal navy is being fitted out alongside the shipyard of Sir James Laing & Sons, at Sunderland. She is a sequel to an experiment made some time ago, when an old cruiser was converted at Portsmouth into a floating workshop, to attend on a fleet at sea for the execution of repairs, the experiment evidently being very successful, as the vessel at Laing's is specially built for

DISESTABLISHMENT OF THE CHURCH IN FRANCE

Fears Respecting a Religious Crisis Regarded as Dissipated

SPEECH OF M. BRIAND

Very Conciliatory in Tone and Ordered to be
Printed—Hopes that it will be Received
in the Same Spirit by the Bishops.

Paris, Nov. 10.—Unless the Vatican authorities cause some radical changes in the situation, the fears of a religious crisis arising from the enforcement on Dec. 11, of the law providing for the separation of Church and State, are regarded as dissipated, in consequence of the middle course steered by the Clemenceau Cabinet. The extreme radicals under Messrs. Combes and Pelletan, who insisted that a policy of spoliation and persecution be inaugurated, have been appeased by the announcement that all church property claimed by cultural associations by Dec. 11, will pass under the control of the State for attribution to the communes in the end of the ensuing year. In the meantime the churches will remain at the disposition of the clergy, and a road for retreat is left open to the Vatican by the admission of the possibility that church property can by State decree be granted to associations formed before Dec. 11, 1907. The speech of Minister of Public Works Briand yesterday explaining the Government's intentions was extremely conciliatory in tone and especially designed to make it plain that the Cabinet is not anti-religious but only neutral. He referred deferentially to the Pope's "moral authority" and completely disarmed the clericals by his intimate knowledge of what happened during the recent meeting of the French bishops, when a majority of ten voted in favor of complying with the law. The Chamber of Deputies, by 376 to 98 votes ordered the speech to be placed at the cross roads throughout France. In view of the tremendous majority, insuring Parliament's support, the Cabinet has already received intimations that the Pope is preparing to accept the inevitable or that at any rate there will be another meeting of the episcopate shortly and that its report, which will be conciliatory, will be confirmed.
Rome, Nov. 11.—The Vatican denies the reports which predict a rupture between Spain and the Holy See. Vatican authorities declare that the differences between them and Spain have been very much exaggerated by the Spanish liberal press, backed up by French newspapers, and that the negotiations between Rome and Madrid are proceeding in a most friendly manner. It is pointed out that all the members of the present Spanish cabinet are good Catholics. The situation between the Vatican and Germany over the Polish question, is becoming daily more critical and is even threatening to endanger the existing good relations between Berlin and the Holy See. Germany insists that the Vatican must help it in repressing what it considers to be rebellion in Poland, while the Poles are counting upon the assistance of the Pope.

VESUVIUS AGAIN

The Tip of the Crater Falls in Causing Earthquakes and a Shower of Ashes.

Naples, Nov. 10.—At noon today Mount Vesuvius and the surrounding villages were shaken up by a kind of earthquake which was accompanied by detonations and followed by a considerable fall of ashes, especially over Ottajano, which was destroyed during the eruption of last April and now is in course of reconstruction. The phenomenon caused great alarm. Investigation showed that part of the crater of the volcano had fallen in. During the afternoon there were three more slight shocks in the Vesuvian region and a further discharge of ashes which was blown in the direction of Pompeii and Ottajano. Thus far Naples has not been affected by the eruption but a dark column of smoke can be seen from the city hovering over the crater. Professor Matteucci, director of the Royal Observatory, on Mount Vesuvius, in an interview with the Associated Press, said: "I do not believe this is a new eruption as all the phenomena produced such an event are lacking. I think the rain of ashes was caused by the slipping down of the superior lip of the crater and that the earth tremblings were due to water from the recent heavy rains having reached the fire zone inside the volcano, producing an internal explosion."

FATALITY STABBED WITH A HAT PIN.

Scranton, Pa., Nov. 11.—Thomas Dougherty, a prominent young man of Dunmore, adjoining this city, died in the State Hospital here today as the result of being stabbed by an unknown woman last night. In the brief statement that he made, Dougherty declared that he was visiting a woman and that she stuck a needle or a hat pin in him, after which he was taken ill. The post mortem revealed that he had been stabbed with some fine instrument such as a hat pin and that it had entered his heart. The police are unable to find any trace of Dougherty's whereabouts previous to the time that the doctor was summoned.

gains" could not be compared to the goods we are selling at a LOWER PRICE! The newspaper correspondence which has been appearing in Le Soleil, regarding out-of-town firms attempting to influence business in their direction by the distribution of advertising literature from door to door, makes it necessary for us to say a few words on the subject. The strongest argument we know of is the simple repetition of our former offer to save our customers from 10 p. c. to 25 p. c. on any article advertised in Quebec by any other firm in the country. If you fancy any article offered by any outside firm, clip out the illustration and description and bring it to this store—we will give you the same identical article, or make it for you within 24 hours, and save you from 10 p. c. to 25 p. c. in cash.
Thousands of Quebec people do not realize the magnitude of Quebec's Mightiest Business House. The progress of this business has been steady and gradual. While in actual floor space this store does not claim to excel every other store in the country—in assortment and purchasing power we recognize no superior. Our aim has ever been to give the best value in Canada—thousands of enthusiastic patrons bear daily testimony to the success of our efforts.

The Quebec Chronicle

QUEBEC, NOVEMBER 12, 1906.

THE PROVIDER OF THE CORRUPTION FUND.

The Toronto Mail and Empire, discussing the London revelations recently, incidentally raised the enquiry as to where the money used for purposes of corruption comes from. The candidate does not furnish it, or, at any rate is not supposed to do so, and the election agents who buy the votes most certainly do not put up the funds out of their own pockets; who is it that provides this mysterious campaign fund, of which we hear so much and know so little? The answer is to be found in what we have formerly said; the provider is the Government through the different departments, and the Government is the one to be denounced, and the culprit to be punished. It may be difficult to obtain proofs of this assertion, but nevertheless the proofs are not altogether wanting and one may be found in the experience of a certain Toronto firm which after furnishing some supplies to the Government sent in its bill and received a cheque from the department for the amount plus some eighty dollars which it was requested to turn over to the government election agents in a contest then pending. Here the modus operandi is plain enough, and the source of the money for corrupt purposes is clearly revealed, and we think that no one will be rash enough to assert that this is a unique and solitary exception, or foolish enough to expect that people will believe it if he does assert it. It is the government, therefore, that provides the money for the purchase of voters, and that does it by means of raffle-off on the sums with which it allows its followers to enrich themselves.

Herein lies the secret of the extravagance of the Government and the enormous sums that are paid out with, apparently, no adequate return. There is an adequate return, otherwise the Government instead of being simply unscrupulous, would be also incompetent and unbusiness-like, but the return is not made to the people, but to the Government which secures its percentage wherewith it purchases votes for "members on whom it can thoroughly rely on all occasions."

This is why the Montcalm land deal was tolerated; why the Montcalm was so luxuriously equipped; why the Arctic was so bountifully provisioned, and why the crew of the Government steamer Kestrel were boarded at the rate of thirty-four dollars per month each, and were supposed to get away with twenty dollars worth of eggs apiece during the ten months that she was in commission. The Kestrel is a fishing protection boat, a little craft of three hundred tons with a complement of twenty-two men all told, officers and crew. She was in commission ten months during the fiscal year 1905. It will cause some amazement to shipping people to know that the country paid \$7,500 to provision the party for that time. The figures work out to more than \$34 a month for each person on board the ship, or at least for each person who had business on board the ship. This is a pretty heavy bill for raw material, for it must be remembered that \$34 was not the price of board and lodging in a hotel, but the cost of uncooked provisions taken on board a boat which was provided with cooks and stewards.

The items cannot all be given here but they are quite interesting. For instance the fruit bill was \$54.00 for the season for each man on the ship. As the canned peaches and pears were bought by the case it would appear that the Kestrel's crew was served with about one can a day per man. The bill for eggs is also a little extraordinary. From one dealer there was bought \$9.90 worth for each of the crew. Another supplied \$4.50 worth, another \$3.00, another one \$1.50 and a fourth \$1.00. There were other purchases amounting to seven or eight dozen eggs per man. The bills indicate that each member of the crew got away with \$20.00 worth of eggs during the season. There was a similarly large consumption of honey, oysters, cream, poultry, asparagus, creamery butter, sauces, and other things. The provision bill exceeded the wages bill, which fact might justify the statement that the men ate more than they were worth if it were supposed that these goods were really bought and used for the purpose charged. But no reasonable person believes that the crew of the Kestrel

were fed in that way and at that cost.

In Parliament the Minister seemed to make light of the whole matter. The Liberal member for Vancouver solemnly declared that there was nothing wrong and that the cost of provisioning the ship was quite reasonable. But another session is approaching with further investigations in view and the Minister of Marine has found it necessary to take some action. Now the official report is given out that Mr. Brodeur has held an investigation and that the captain of the Kestrel has been suspended.

If this is so, it is all on account of the disclosure made by Mr. Foster. The bills came to the Department months before Mr. Foster saw them. Departmental officers saw nothing the matter or if they did, they did not venture to tell the Minister so. The Minister himself was satisfied and the bills were audited and paid just as many other bills for two or three times the value of the goods, have been regularly passed and paid by the Department of Marine and other departments.

TROUBLES OF THE SIMPLE LIFE.

At times most men weary of this complex modern existence, with its hurry and worry and the thousand cares that convention and social responsibilities have put upon men. Then it is that they want to get away from the clubs, receptions, charity societies, political meetings, business troubles—the rush after the dollar and the trouble of spending it. Tired of the strain of existence, men consider that it is not worth while, and long for "a lodge in some vast wilderness." Most of them get over the feeling pretty soon, and a week or two in the Maine woods or the Laurentian mountains is enough to make them want to get back to the city. But there are some souls who are so powerfully impressed with the attractions of the "simple life" that they form colonies and try to carry out in their own lives what to most people is a fanciful dream. But getting back to nature is not so easy, nor is the end so pleasant as they had pictured. Not a few times in the past century or so have these colonies been founded, in which plain living and hard thinking were to go hand in hand. Probably the most notable was "Brook Farm," which included some of the choicest spirits every gathered in such an undertaking. Upton, Sinclair, whose book, "The Jungle," brought about a revolution in the meat-packing industry, has just founded a socialistic colony in New Jersey; but the enterprise is just now beginning, and it will take time to judge of its success or failure.

Reports from the colony of Germans founded on the Island of Kabokon are not encouraging to those who hope for the success of such an undertaking. A number of German authors, painters and philosophers settled there in all the harmony of enthusiastic brotherhood. These "sun brothers" planned to start life afresh, to live as lived primeval man when the world was new, not long after creation's dawn. By living mostly on fruits and nuts and spending their time in tilling the land they hoped to bring back to earth again the good old days when Adam and Eve dwelt in innocence and happiness in the Garden of Eden. But the dream was too bright to last. One philosopher, Professor Englehardt, died because he was too thinly clad to bear the rigor of the weather. Another philosopher, Herr Reitmann, was murdered by the natives. The other members of the colony found such trouble and discomforts as they had never known before. They are now returning to civilization, thoroughly satisfied that primeval man had trouble enough to send him to an early grave. Which leads to the conclusion that the "simple life," after all, bears a very close resemblance to the "strenuous life."

SHIPPING NEWS

ALLAN LINE.

R.M.S. Victorian, Capt. Macnicol, left port at 7.30 a.m. on Saturday for Liverpool, with passengers and general cargo. She called at Rimouski for the mails.

Steamer Ionian, Capt. Nunan, from Liverpool, November 1, with 402 passengers and a general cargo, arrived in port at 2 p.m. yesterday, and moored at the Breakwater. After landing passengers she proceeded to the company's wharf, discharged Quebec cargo and left for Montreal this morning. The Ionian experienced very heavy weather on the passage. She was off Belle Isle on Wednesday, but had to remain outside the Straits for thirty-six hours on account of a tremendous gale accompanied by snow. Although the passage was extremely rough the ship suffered no damage and all on board arrived here in good health and spirits.

Steamer Hungarian, Capt. Wallace, from London, with a general cargo, arrived in port yesterday evening and moored at the company's wharf.

Steamer Sicilian, Captain Fairfull, from Glasgow, with 81 second and 61 third class passengers and a general cargo, arrived in port last evening and anchored in the stream.

R.M.S. Virginian, Captain Vipond, sailed from Liverpool at 6 p.m. on Friday, for Halifax, with 20 first, 89 second and 376 third class passengers, the mails and a general cargo.

C.P.R. LINE.

Steamer Montcalm, Capt. Hodder, from Bristol, with a general cargo, arrived in port at 10 p.m. on Saturday and moored at the Breakwater. Having landed Quebec cargo, she left for Montreal at 10 a.m. yesterday.

DONALDSON LINE.

Steamer Athena, Captain McNeill, having completed cargo, left port at 6.30 p.m. on Saturday for Glasgow.

Steamer Salacia, Capt. Fraser, having discharged Quebec cargo, left for Montreal at 1.30 p.m. yesterday.

MANCHESTER LINE.

Steamer Manchester, Capt. Parry, from Manchester, with a general cargo, arrived in port on Saturday morning and moored in the Louise Basin.

STEAMER FINN SAFE.

The Black Diamond line steamer Finn, Capt. Olsen, from Quebec for Sydney, about which a great deal of anxiety was felt on account of being several days overdue, arrived safely at Sydney on Saturday morning. During the terrible storm which raged in the Gulf of St. Lawrence, the Finn was anchored in a sheltered position under the lee of Amherst Island. She suffered no damage from the storm.

DOMINION LINE.

R.M.S. Canada, Capt. R. Q. Jones, arrived from Montreal at 6.30 p.m. on Saturday, and moored at the Breakwater. Having embarked Quebec passengers and the mails, she proceeded to Liverpool.

SCHOONER WRECKED.

London, Nov. 10.—The schooner Island, Cardiff, for Newfoundland, with coal, was wrecked on the Goodwin Sands. The captain twice essayed to cross the Atlantic, then went back to Norway for repairs. On the third attempt he was wrecked, as stated.

CREW SAVED.

Halifax, N.S., Nov. 10.—The steamer Farman, from New York for Miramichi, N.B., put in here this morning to land the captain and crew of the barkentine Marion C., abandoned at sea. The Marion C., from Bridge-water, N.S., for New York, laden with lumber, sprang a leak in the gale on Nov. 3 and was abandoned Nov. 5 a hundred miles west of Cape Sable. The captain and crew drifted about in an open twenty-foot boat for seventy-three hours before being picked up by the Farman. They were in an exhausted condition with feet badly swollen.

NOTES.

Steamer Fishowen Head, Captain, Pickford, arrived from Montreal at 3.30 p.m. on Saturday and moored in the Louise Basin. After completing cargo she left for Dublin yesterday afternoon.

Tern schr. Laura M. Lunt, Captain Hunter, arrived from Sorel yesterday in tow of tug Hudson and anchored in the stream.

Steamer Elsa, Capt. Worroe, having discharged her cargo of coal, left for Montreal yesterday. After taking on board a quantity of wheat at that port she will return to Quebec to complete cargo.

Steamers Hektor, Tancred and Times, from Sydney, with coal, arrived in port yesterday and proceeded to Liverpool.

Steamer Kildona, Captain Roberts, arrived from Montreal on Saturday, and proceeded for London.

Steamer Andoni arrived from Montreal on Saturday and proceeded for Sydney.

Steamer Egholm, Capt. Jorgensen, from Sydney, with coal, arrived in port last night and proceeded for Montreal.

LITERARY NOTES

Mrs. Mollie Clifford has written a new volume entitled Polly, the Autobiography of a Parrot, to be published this autumn by H. M. Caldwell Co., of Boston, in their Animal Autobiographical Series. "Polly" tells her own story from the life in the jungles of South America to the time she reaches her home where loving care for the future is promised her. She is a mischievous bird, and often gets herself and her mistress into fitch trouble, but with it all she shows much common sense, and her life makes an entertaining as well as a true story for young readers.

"Polly" can talk, at times her vocabulary seeming almost limitless, and frequently perhaps it would have been as well for her if she had talked less. The book is bound in similar style to the other volumes of the series, and contains five full-page illustrations and a colored frontispiece by L. J. Bridgman.

The Whip Hand, by Kable Howard, T. Fisher Unwin, publisher, London, paper, 75 cts. The author, who is well known to the reading public, has shown considerable skill in his treatment of his subject, and has constructed a bright and charming little tale out of such unpromising materials as a life singularly devoid of tragedy or romance, but, on the other hand, not wanting in comic situations. These Mr. Howard is quick to see, and in The Whip Hand has given us a comedy rather than a novel, with a strong suspicion of sarcasm pervading it. The hero is a journalist who rebels against the trammels and conventionalities of society, and who abstains from marriage till he can find a lady who will resign the pomp and vanities of the world, and consent to live a home life in her own way, and to let her husband have the privilege. He is successful in the attainment of his desires, and is disposed to congratulate himself thereon, but he has omitted to take into his calculations the eternal mother-in-law, who ruthlessly shatters them. There is the usual struggle

I have Proven Cancer Can be Cured at Home No Pain, No Plaster, No Knife—Dr. Wells.

I have discovered a new and seemingly unfailing remedy for the deadly cancer. I have made some most astonishing cures. I believe every person with cancer should know of this marvellous medicine and its wonderful cures, and I will be glad to give full information free to all who write me and tell me about their case.

Peter Keegan, Galesburg, Ill., had cancer of the mouth and throat. Doctors said, "no hope." Mr. Keegan wrote: "It is only a question of a short time—I must die." Today his cancer is healed up and he is well. My marvellous radiated fluid did it. It has other just such cures to its credit. It is saving people every day and restoring them to health and strength. If you have cancer or any lump or sore that you believe is cancer, write to-day and learn how others have been cured quickly and safely at very small expense. No, do not hesitate to write and tell me about it. I will answer your letter promptly, giving you, absolutely free, full information and proof of many remarkable cures. Address, Dr. Rupert Wells, 1960 Radol Bldg., St. Louis, Mo.

STEAMER KENSINGTON ASHORE AT MATANE

And is Leaking in Two Com-
partments

THE PASSENGERS ARE SAFE

Many of Them Have Been Taken Off by
Other Steamers—Assistance Has
Left Quebec.

A report was received in town about
nine o'clock yesterday morning that a
four-masted steamer was ashore at
Matane, but her name could not be
ascertained.
A couple of hours subsequently, the
Dominion Line office in this city re-
ceived a special despatch from Ma-
tane, stating that the steamer Ken-
sington, Captain Morle, from Liver-
pool, had run ashore at five o'clock
yesterday morning, during a snow
storm, and was making water fast.
Messrs. Macpherson and Mr. G. B.
Ramsey at once communicated with
Mr. J. U. Gregory, Agent of the Ma-
rine Department, and that gentleman
sent orders to the steamer Rouville to
proceed from Father Point to the aid
of the Kensington.

In the meantime the steamer Gas-
pesien, from Gaspé for this port, which
was coming up the gulf, reached
the stranded steamer and went
alongside of her. She took off a
number of the passengers and left the
Kensington during the afternoon with
them. Whether she intended to land
them at Rimouski or bring them up to
this port was not known here last
evening though it was stated that
they would be landed at Grosse Ile.
The steamer Rouville has received or-
ders to land the passengers she takes
from the Kensington at Rimouski. As
the hotel accommodation at that place
is limited, the Dominion Line officials
have made arrangements with the In-
tercolonial Railway to have a suffi-
cient number of passenger cars at
Rimouski wharf to accommodate them.

The Dominion Line officials after
arranging with the wrecking steamer
Lord Strathcona to proceed to the
aid of the Kensington, communicated
with Hon. Mr. Brodeur, Minister of
Marine and Fisheries, requesting that
the C.G.S. Druid be sent down to
Matane to take off some of the Ken-
sington's passengers. The Minister at
once directed Mr. Gregory to render
all the assistance in the power of the
Department. The Druid left at two
o'clock this morning for Matane, and
the C.G.S. Champlain will probably
leave this evening. An effort was
also made to have the steamer King
Edward proceed to the Kensington.
C.G.S. Lady Grey has been ordered
down from Sorel to take the place
of the Druid in connection with the
buoy service.

The steamer Lord Strathcona, with
schr. Tyroce, having on board a gang
of men, pumps and other wrecking
appliances, in tow, left for the Ken-
sington yesterday afternoon. The sea-
son being so late, the officials of the
Dominion Line have found considerable
difficulty to procure schooners and
lighters to go down to the stranded
steamer. There are several suitable
schooners for the winter and it will
take some time to be refitted. This
will cause considerable delay in dis-
charging the steamer's cargo.

One despatch states that when the
Kensington struck ground she com-
menced to make water rapidly, and
the statement was made that she
could not be floated off for some
time. She went inside the buoy off
Matane, and is a considerable
distance off the channel. She is mak-
ing water in compartments Nos. 1
and 2.

The Kensington left Liverpool on
Thursday, 1st instant, with 75 cabin
and 540 steerage passengers and a full
general cargo. Her crew numbers
about 150. She is a four-masted
steel steamer of 3615 tons net register.
She is commanded by Captain Morle.

STINGING ECZEMA — CURE
CAME WITH USE OF

Dr. Chase's Ointment

Baby eczema brings keen suffering to
many a little one and worry and
anxiety to many a mother, who can
find nothing to cope with it—nothing
that will stop the dreadful itching
and heal the raw, flaming skin.
Doctors fail, internal medicines are
at the best slow and uncertain, and
often do more harm than good to
young children. Dr. Chase's Oint-
ment, on the other hand, is applied
direct to the diseased parts and
brings relief and cure.
Mrs. Lois McKay, Tiverton, Digby
Co., N.S., writes:

"My children were taken with an
itching, burning skin disease and tore
their flesh until it was sore, and their
shirts would sometimes be wet with
blood. The doctor did not seem to
know what ailed them and could give
no relief, so I began using Dr. Chase's
Ointment.

"Whenever it was applied it did its
work well and has entirely cured them
of this horrible disease. They suffer
so they could not sleep nights, and I
think it had lasted much longer I
would have gone crazy from the anx-
iety and loss of sleep. I cannot find
words to praise Dr. Chase's Ointment
enough for the good it has done my
children."

Mrs. Wallace Minton, River John
Road, Colchester Co., N.S., writes:

"My little girl took eczema when she
was five weeks old. Though we doc-
tored her until she was nearly a year
old, she got no better. I was advised
to use Dr. Chase's Ointment and this
treatment entirely cured her."

Wherever there is itching of the skin
or a sore that refuses to heal you can
apply Dr. Chase's Ointment with every
confidence that the results will be en-
tirely satisfactory.
While thoroughly effective in the most
severe cases of eczema and salt rheum,
Dr. Chase's Ointment will not injure
the most delicate skin. 60 cents a

WINTER NAVIGATION

Of the Lower St. Lawrence
Strongly Advocated by
Shipping Men.

The proposition made for the Gov-
ernment steamer Montcalm to make a
series of trips during the coming win-
ter season down the St. Lawrence, as
far as Seven Islands, is strongly en-
dorsed by the shipping interests, and
the Minister of Marine is not averse
to the idea.

The shipping men not only of Que-
bec, but Montreal, contend that if the
Department of Marine and Fisheries
were to put into effect such a winter
service, it would be one of the grand-
est advertisements that could be given
Canada, as it would demonstrate to
the whole world the practicability of
winter navigation of the St. Lawrence
and some day bring forth good results.
But apart from this, the Govern-
ment would be performing a good ser-
vice in another important direction.
Residents of the North Shore along the
Lower St. Lawrence, are completely
isolated during the long winter months
for want of communication with Que-
bec, or any place where they could find
service to travel. Consequently, like
the bears, they are called upon by
force of circumstances to hibernate for
six months out of the twelve.

This part of the provincial popula-
tion deserve better treatment at the
hands of the Dominion Government,
they are tax-payers and citizens of the
Dominion, and some effort should be
made to relieve them in their hard-
ship. The Government can easily pro-
vide the remedy by having the ice-
breaker Montcalm make three or four
stated trips down the St. Lawrence
during the winter months, calling at
points on the North Shore on these
trips to supply the isolated stations
with mail matter, and afford them
passenger accommodation if they de-
sire it.

Last year the Montcalm was utilized
to butt the Cap Rouge ice bridge all
winter long, without any effective
work, except to occasionally break off
portions of the ice formation that
would float down the river, and im-
pede the Quebec and Lewis ferry
boats on their regular trips to and
from Lewis.

Last week a gentleman representing
a syndicate of capitalists, arrived in
Quebec to purchase timber limits east
of Quebec on the North Shore, and
erect large lumber mills to manufac-
ture, etc., and when he learned that
there was no transportation or
steamer accommodation during the
winter season, he immediately re-
fused to consummate the deal he had
been negotiating, saying his principals
could not afford to locate and start
business in a country that was closed
from all communication for six months
in the year. According to reports the
Government ice-breaker Montcalm will
remain idle all the coming winter, un-
less she is again called upon to
perform the useless task of butting the
Cap Rouge ice bridge, while she could
serve a much better purpose by being
utilized to make regular trips down
the Lower St. Lawrence as far as
Seven Islands and return. The in-
dustrial works at the latter place, as
soon as completed, will transform the
islands into a regular hive of in-
dustry, and one of those days will
have to be recognized by the Govern-
ment as worthy of communication,
and why not now for the accommoda-
tion of the isolated residents along
the North Shore, and at the same
time, the advertisement it will give
Canada throughout the entire world,
as well as in the future.

These industrial works in course of
erection by the North Shore Railway
& Power Company, when completed
will have cost \$5,000,000, and already
more than half that sum has been
expended. Last winter some five hun-
dred workmen from Quebec were
employed at Clarke City, and this coming
winter fully eight hundred will be
employed, and these men who all have
their families residing in Quebec are
surely worthy of mail accommodation.
The question is an important one, and
the Minister of Marine and Fisheries
should give it his serious considera-
tion in the interest of the public ser-
vice.

New Cure For Rupture

New Scientific Appliance, Always a Perfect
Fit—Adjustable to Any Size Person—
Easy, Comfortable, Never Slips, No
Obnoxious Springs or Pads—Costs
Less Than Many Common
Trusses—Made for Men,
Women or Children.

I Send It On Approval—You Wear It—if
You Are Not Satisfied, I Refund
Your Money.

I have invented a rupture appliance
that I can safely say, by 30 years'
experience in the rupture business, is
the only one that will absolutely hold
the rupture and never slip and yet is
cool, comfortable, conforms to every
movement of the body without chafing
or hurting and costs less than many
ordinary trusses. I have put the price so

Jas. Britton, Cured of Rupture by C. E. Brooks

low that any person, rich or poor,
can buy, and I absolutely guarantee it.
I make it to your order—send it to
you, you wear it, and if it doesn't
satisfy you send it back to me and
I will refund your money. That is
the fairest proposition ever made by a
rupture specialist. The banks or any
responsible citizen in Marshall will
tell you that is the way I do business
—always absolutely on the square.

Here is what Mr. Jas. Britton, a
manufacturer of Bethlehem, Pa., writes—
"C. E. Brooks, Esq. Dear Sir:—I
have been ruptured six years and
have always had trouble with it all I
got your appliance. It is very easy
to wear, fits neat and snug, and is
not in the way at any time, day or
night. In fact at times I did not
know I had it on. It just adapted
itself to the shape of the body and
clung to the spot no matter what
position I was in. It would be a
veritable God-send to the unfortunate
who suffer from rupture, if all could
procure the Brooks Rupture Appliance
and wear it. They certainly never
regret it. My rupture is all healed up
and nothing ever did it but your
appliance. Jas. Britton."

If you have tried everything else,
come to me. Where others fail I
succeed. Write me to-day and I will send you
my book on Rupture and its Cure,
showing my appliance and giving you
prices and names of people who have
tried it and been cured. It is instant
relief when all others fail. Remember
I use no salves, no harness, no lies.
Just a straight business deal at a
reasonable price.

IN AND ABOUT TOWN

AN EARLY BLAZE CAPT. NOLAN DEAD

Fireman Had a Good Hour's Work in Queen Street Yesterday.

At 5.15 yesterday morning an alarm from box 57 brought the men of No. 3 Station, closely followed by those of other stations, to Queen street, where a fire had started in the stable of Joseph Sanfacion, carter. When the first portion of the brigade reached the scene, the entire stable was ablaze and the flames had communicated to Sanfacion's house and to other buildings and a second alarm was sent in. As on the previous occasions there was lots of water on hand and through the splendid work of the brigade the fire was got under control after about an hour's work. Sanfacion, besides his stable, lost 2 horses, a Victoria, a wagon and three dogs. His residence, which is the property of A. Sanfacion, was also badly gutted. Among others who sustained slight injuries to their properties are: Alexis Gariepy, hanged; Jos. Drolet, carter, house and hanged; Jean Rochette, carter, house and hanged, and also the hanged of M. Racine.

SAILORS' SOCIAL.

On Saturday night the men from the Empress of Britain and other ships in port spent a very pleasant evening at the Sailors' Institute, being supplied with cakes and coffee.

ATTEND TO YOUR FEET.

Dr. W. Claytons, the celebrated foot doctor, who has been attending numerous citizens since his arrival in town, will remain at the St. Louis Hotel for a few days more, where he will be pleased to attend to all callers.

RECORDER'S COURT.

In the Recorder's Court on Saturday a man convicted of assault was sent to jail for two months. Two men for drunkenness received four and two months respectively in jail. A man accused of loitering was sent to jail for four months.

SAILORS' CONCERT.

On Tuesday night at the Y.M.C.A. gymnasium the Empress of Britain's crew will no doubt finish the sailors' concert for the season, and there will be a fine gymnastic exhibition, furnished by the members of the Y.M.C.A. It will without doubt be a very interesting programme. See advt.

DEATH OF MRS. BOUCHER.

Her death column this morning contains the death notice of Mrs. Achille Boucher, wife of the manager of the Duchaine shoe establishment. The deceased was well and favorably known in this city where she had a large circle of friends. She was the mother of Mrs. (Ald.) Lemay, Mrs. A. J. Richard, of Richard Bros., and Mr. Arthur Boucher.

DR. J. A. PINAULT DEAD.

Dr. J. A. Pinault passed away at Metapedia on Saturday morning. He was 34 years of age, and well known throughout the County of Bonaventure. He was born in Notre-Dame de Sacre-Coeur, Rimouski, in 1872, and educated at the college at Rimouski, afterwards getting his medical training at Laval University, Montreal. He was a brother-in-law of Mr. Chs. Marcell, Deputy Speaker of the House of Commons.

A PRACTICAL RECOMMENDATION.

In order to prevent any kind of annoying disturbance during this evening's performance at the Auditorium the citizens are respectfully requested to be at their seats punctually at a quarter after eight o'clock, or before, as the performance will begin sharp on time. Late comers will necessarily be requested to wait until the end of any number on the programme being performed before reaching their seats; otherwise they would certainly disturb the audience and the performer as well, which is very undesirable.

RAILWAY APPLICATIONS.

The C.P.R. gives notice of its intention to apply for leave to hold a half mile spur from Pont Rouge, Quebec. The Quebec Oriental Railway Company will apply for a Dominion charter and for an extension of time.

The Canadian Northern Quebec Railway is asking for an extension of time for its branch and the main line to Rawdon, and for permission to extend this branch to Lake Archambault in the County of Montcalm.

The St. Leon Railway Company will seek incorporation to build from Louisville on the C.P.R., north to St. Alexis, with branches to Three Rivers and Lake Maskinonge.

SARSFIELD A. A. A.

The annual meeting of the Sarsfield Amateur Athletic Association was held yesterday. The annual reports presented were all of most satisfactory character, that of the Treasurer showing a good balance on the right side. The election of officers resulted as follows:

President—E. Neville (re-elected.)
Vice-President—G. McMahon.
Treasurer—W. J. Mulrony (re-elected.)
Secretary—J. L. Haberlin.

This progressive and popular association proposes to inaugurate its renovated club house with a grand entertainment in about a fortnight, and it promises to be one of the most successful and enjoyable events ever held by the organization.

PERSONAL GOSSIP.

Mr. White, of the Marine Department, Ottawa, was in town on Saturday, making inquiries about certain matters in connection with navigation.

The many friends of Deputy Chief of Police W. Walsh, will be pleased to learn that he will be able to leave Jeffery Hale's Hospital in a few days.

Misses Marie Anne Cote, Marie Louise Cote, of Les Eboulements and Eva du Tremblay, of this city, leave on Thursday next by ss Cassandra on an extended trip to Europe.

Well-Known Member of Quebec Fire Brigade Passes Away.

One of the oldest and best known members of the Quebec Fire Department passed away on Saturday in the person of Patrick Nolan, captain of No. 6 Station, Champlain street. Deceased had been in his usual health up to the fire in St. Joseph street on Thursday morning. During the course of the fire, however, Captain Nolan, who was 70 years of age, sustained a bad strain, while engaged actively in fighting the flames. He was compelled to take to his bed and died as a result of his injury on Saturday morning. Captain Nolan had been a member of the fire brigade for the last thirty-five years. He was always in the front in the pursuance of his arduous duties, and was greatly respected, not only by the members of the brigade, but by all who knew him. His widow, three sons and three daughters survive him. Two sons, John and William, are now resident in New Orleans, while the third, James (in religion Brother Patrick) arrived on Saturday evening from Montreal. One of his daughters is the wife of Mr. W. Berrigan, while the two others, the Misses Stella and Veronica Nolan, are unmarried. Deceased is also survived by a brother, Michael, who resides in St. Romuald.

No. 6 Station has been draped with mourning emblems out of respect to the memory of the departed captain, whose funeral takes place on Tuesday morning at 8.30 o'clock.

Will be found an excellent remedy for sick headache. Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them.

ANTON HEKKING

This Evening, at the Auditorium.

At 8.15 o'clock this evening, at the Auditorium, will be heard one of these supreme representatives of the European art whose visit is a rare thing amongst us, although we can appreciate and enjoy it when it is offered.

"Anton Hekking" is here, and he proposes to this evening the deep enjoyment of hearing one of the greatest virtuosi of the present day, and we feel thankful to him for this favor. Not one of our readers, we feel sure, would allow the opportunity to pass without taking advantage of it, not one would unduly expose himself to useless regrets, and it being so, the Auditorium should be crowded to the doors this evening.

In doing honor to such a great artist, it is showing good taste and enlightened mind, and we owe to ourselves to show that we lack neither taste nor knowledge. That Anton Hekking is a virtuoso of the very highest rank, that cannot be questioned; that Miss Frieda Stender is a beautiful woman and a captivating singer, and Mr. Kellert a remarkable pianist, no one will doubt after hearing them this evening at the Auditorium.

POLITICAL RUMOURS REVIVED.

Judging from political gossip these days, changes in the personnel of the Quebec Provincial Cabinet is under contemplation. It is said that the Hon. Adolphe Turgeon, Minister of Lands and Forests, is likely to go to Ottawa, and his place in the Gouin Government filled by Mr. L. A. Taschereau, K.C., M.P.P.

Some months ago Hon. Mr. Turgeon was offered the vacant Solicitor-Generalship by Sir Wilfrid Laurier, which he refused, on the ground that it did not carry with it a seat in the Dominion Cabinet and consequently was not so important as the position he held as minister in the local government.

The Solicitor-Generalship is still vacant, but it appears from the tenor of the current rumors, Hon. Mr. Turgeon still refuses, though he would control the patronage for the district of Quebec.

It is now said that Senator Godbout is willing to resign his seat in the Senate in favor of Hon. Mr. Turgeon, when the latter would become a minister of the Dominion Cabinet without portfolio, and likewise political leader for the district of Quebec.

In the meantime the local government is expected to frame and legislate a bill during the next session of the Legislature that will provide for the retirement of police magistrates, thus enable Judge Chauveau of Quebec, and Judge Desnoyes, of Montreal, to accept a pension, when Hon. Charles Langelier, sheriff of Quebec, would be named successor to Judge Chauveau, and Senator Godbout become sheriff of Quebec.

IT'S THE FOOD

The True Way to Correct Nervous Troubles.

Nervous troubles are more often caused by improper food and indigestion than most people imagine. Even doctors sometimes overlook this fact. A man says:

"Until two years ago I was wretched and nervous with meat and gravy were the main features of my breakfast. Finally dyspepsia came on and I found myself in a bad condition, worse in the morning than any other time. I would have a full, sick feeling in my stomach, with pains in my heart, sides and head."

"At times I would have no appetite for days, then I would feel ravenous, never satisfied when I did eat and so nervous I felt like shrieking at the top of my voice. I lost flesh badly and hardly knew which way to turn until one day I bought a box of Grape-Nuts food to see if I could eat that. I tried it without telling the doctor, and liked it fine; made me feel as if I had something to eat that was satisfying and still I didn't have that heaviness that I had felt after eating any other food."

"I hadn't drunk any coffee then in five weeks. I kept on with the Grape-Nuts and in a month and a half I had gained 15 pounds, could eat almost anything I wanted, didn't feel badly after eating and my nervousness was all gone. It's a pleasure to be well again."

SUCCESSFUL EVENT

Farewell Dinner to Mr. Folk Cronholm by Consular Corps.

Mr. Folk Cronholm, Consul-General for Sweden, was entertained at dinner on Saturday evening by the Consular Corps of this city, on the occasion of his departure this evening for Montreal, where he will reside until his successor is appointed. In the unavoidable absence of Mr. Felix Carbray, Consul for Portugal, Dean of the Consular Corps, and Gen. Henry, U. S. Consul, the dinner was presided over by Chevalier Ovidio Frechette, Consul for Chili, and Secretary of the Consular Corps, who had the guest of the evening on his right. Others present were Lt.-Col. E. F. Wurtele, Vice-Consul for Denmark, Major N. Levasseur, Consul for Guatemala, Mr. T. Levasseur, Vice-Consul for Brazil, Mr. Frank Gunn, Vice-Consul for Norway, and Mr. George Tanguay, Vice-Consul for Paraguay.

The dinner was given at the Auditorium and was quite a success in all respects. When full justice had been rendered to the good things provided by mine host Dougal, the chairman proposed the toast of "The King," which was duly honored, as well as the toast to "The King of Sweden," which was proposed by Lt.-Col. Wurtele. The only other toast was that of "Our Guest," which was proposed in a very appropriate manner by Chevalier Frechette, who referred to the general regret expressed by the citizens of Quebec on learning of the departure of Mr. Cronholm, who during his few years residence in this city had made a large circle of friends. Mr. Cronholm made a very suitable reply, alluding to the pleasant years he had spent in this city and regretting that he had not with such kind hospitality on all sides.

During the evening, the chairman read the following letter of regret for non attendance:

November 10, 1906.
Mons. Le Chevalier O. Frechette,
Secretary Consular Corps,

Dear Sir,—Kindly convey to our colleagues my sincere regrets that circumstances render it impossible for me to be with you to-night to do honor to our esteemed confrere, Mr. Folk Cronholm, who is about to leave us.

I join you all in heartily wishing Mr. Cronholm all happiness and prosperity in his new position.

Believe me, Dear Chevalier,

Faithfully yours,

FELIX CARBRAY,
Consul for Portugal.

FATAL EXPLOSION.

News has reached town of another fatal dynamite explosion at La Tuque. The victim, who is a married man with a family, resided in Ottawa Valley and was employed as a foreman on the work.

A SAILORS' ROW.

A collision between some of the members of the crew of a steamship took place in the Lower Town on Saturday evening, and a fireman named McGregor received a nasty cut in the head from a file, with which he was struck. The man was taken to the Jeffery Hale's Hospital, where last night he was reported to be doing nicely.

If sick headache is misery, what are Carter's Little Liver Pills if they will positively cure it? People who have used them speak frankly of their worth. They are small and easy to take.

KILLED IN THE WOODS.

A fatal accident occurred on Friday in the woods near La Tuque. The victim, a French Canadian who resided back of Three Rivers, was occupied in felling a tree, when it gave a sudden lurch and struck him and fell before deceased could get out of the way. His companions ran to his assistance, and he was picked up in a semi-conscious condition. Dr. Cameron upon arriving at the shanty informed the man's friends that it was necessary for the victim to go to an hospital and submit to an operation, as the skull was crushed in and was pressing on the brain. Instead of following out the doctor's instructions, they endeavored to take the man to his home, and he succumbed to his injuries.

THE SPANISH FRAUD.

The citizens of Quebec must seem to be regarded as fair game by the swindlers who are now operating what has come to be known as the Spanish fraud. Quite a number of local residents have within a short time past received letters from Madrid, all telling pretty much the same story as that which has been so often exposed in the press of the United States and Canada. The latest communication from these gentlemen was addressed to Mr. J. Bourbeau, master baker, Fleury street, and was signed "A. M. Bourbeau." Mr. Bourbeau, however, has no recollection of any friends of his name in Madrid. All the letters that have been received lately have been written on the same kind of paper and were evidently in the same hand-writing, and there is a strong suspicion growing that the swindlers may have an accomplice in this city, who keeps them posted.

LEAGUE UNCHANGED

But Pros May Play with
Amateurs in the
E. C. H. A.

Montreal, Nov. 11.—The annual meeting of the Eastern Canadian Amateur Hockey League was held at the Windsor Hotel Saturday afternoon and evening. As in the case of the Lacrosse Union, the Hockey League has decided to take the position of frankly allowing amateurs and professionals to play with and against one another without prejudice to the standing of the amateurs. The only condition imposed is that the different clubs in the league should publish a list of their players shortly after the opening of the season, stating their standing, whether as amateurs or professionals. This list is to be forwarded to the secretary of the league within two weeks after the beginning of the hockey season and is also to be published in the newspapers in order that the public may be made aware of the standing of the players engaged in the game. The decision of the league was unanimous.

Another important question for the league was that of the admission of the National Club, thus making the league one of seven clubs instead of six, as formerly. This was decided in the negative for the Nationals, for the meeting did not see its way clear to increase the number of the clubs on account of the difficulty of arranging the matches so as not to be too hard on the players engaged in the game. Last season, two matches a week were played all through the season, and in order to admit the National club it would be necessary to play three a week this year, which the meeting did not see its way clear to do. In spite of the earnest support of a couple of those present, notably Mr. Jas. Strachan, of the Wanderers, and the feeling that the admission of the French-Canadian club was greatly to be desired, it was found impossible to let them in.

The annual convention began a little after three o'clock yesterday afternoon. Mr. Howard Wilson, President of the League, occupied the chair, while Mr. W. A. Northey, acted as secretary. There were present Messrs. H. L. Shaw and W. Bramley, of the Montreal Club; George Murphy and D'Arcy McGee, of the Ottawas; T. E. Quinn and W. Lunny, of the Shamrocks; Frank Stocking and Gordon Blair, of Quebec; Jas. Strachan and R. Stevenson, of the Wanderers; and F. L. McBride and Dr. E. Stuart, of the Victorias.

The meeting proceeded to the election of officers for the ensuing year, after first making a change in the constitution of the league so as to increase their number. It was decided that the officers should consist of a president and two vice-presidents, as well as a secretary-treasurer. After much discussion it was decided to make this last post an honorary one. The election resulted in the appointments of Mr. F. L. McBride, of the Victoria Club, as president; Mr. D'Arcy McGee, of the Ottawas, as 1st vice-president; Mr. Gordon Blair, of Quebec, as 2nd vice-president, and Mr. T. E. Quinn, of the Shamrocks, as secretary-treasurer.

MAY TAKE IN OTHERS.

The first matter to come before the meeting was the application for the admission of the Nationals. Before the National representatives were heard, however, Mr. Stiles, of Cornwall, representing the Federal League, was introduced to the meeting. He suggested that the Cornwallis, the Ottawas Victorias, the Grand Trunk, the Nationals, the Westmounts and the Smith's Falls Club should form a second section of the league, with the right to play off with the first section at the end of the season. It was decided to take the matter into consideration, and for the purpose a sub-committee, consisting of Messrs. McGee, Strachan, Bramley, Stuart and Lunny, was appointed to act with the secretary of the league to study the advisability of such action, and to make a report.

Mr. Joseph Mercier, of the Nationals, was then introduced and stated the claims of that club. He presented their application not on "sentimental or social grounds, but purely as a business proposition." When the proposition of a second section of the league was mentioned to him he stated that he would not consent that the application of the National Club should be given entry into any such section, and that if the club was not judged worthy to rank in the first section of the league, the application should be regarded as withdrawn. As stated above, it was decided that the league could not be increased to seven clubs on account of the difficulty of arranging the matches.

The application of the Grand Trunk Club for admission was ruled out as not being in order. Mr. Strachan then proposed that the referees for the coming season should be paid officials. This suggestion was received with some favor, but was finally turned down for another, according to which each club should furnish three names from amongst its members as being its choice in the matter of referees. In this way eighteen names would be secured. For each game the competing teams would each have a right of refusing three names, thus leaving twelve from which the official for the game might be selected. This board of referees is to be permanent for the season, and the position honorary.

Then came what was the most important question before the meeting, when Mr. McGee, of Ottawas, read a resolution proposed by the Ottawas Club, and seconded by Montreal, in which it was declared that the Eastern Canadian Amateur Hockey League was a body entirely independent of the Canadian Amateur Athletic Union, and quite capable of arranging all matters for itself. It was furthermore provided that in this league amateurs might play with and against professionals without losing their amateur standing.

FAREWELL C.A.A.U.

In proposing the resolution, Mr. Mc-

Gee said that it was now felt from the experience of last year that the Hockey League was quite strong enough to conduct its own business, while the C.A.A.U. had not shown a proper grasp of the problems before the hockey players of the country. The public wanted good sport and winning teams, and if they were to be furnished with the kind of playing they demanded it was found necessary to pay men to do the necessary work, and there should be no more hypocrisy in the matter. It was the only way to get good hockey, and the league was not going to allow itself to be dictated to by any body of "western men." The resolution was adopted by unanimity.

Mr. Frank Stocking, of Quebec, suggested that a list stating this fact should be published by each club two weeks after the beginning of the season. This was followed by a motion to that effect by Mr. Bramley, which was unanimously adopted.

Mr. Strachan brought forward a motion to the effect that a professional player, once he had signed should be held to remain an employee of that club for the rest of the year, and also the year that followed. The object of this was to prevent jumping from one club to another. The motion, however, was voted down.

A motion to the effect that Messrs. McBride, Quinn, Murphy, Bramley, F. Stocking and Strachan should form a sub-committee for the purpose of drafting a new constitution in accordance with the resolutions passed at the meeting, and should report before the 24th of the month, was passed, after which the meeting adjourned till eight o'clock for the arrangement of the schedule.

At the adjourned meeting in the evening Mr. Hodge, representing the Wanderers, asked when the challenge matches for the Stanley Cup were to be played off.

Mr. Shaw, for Montreal, stated that there was to be no interference in the scheduled matches and gave his opinion that they should be played either before or after the regular season.

Mr. Hodge objected, but was finally over-ruled, and the Wanderers will therefore play teams from both Portage and New Glasgow in defence of the Stanley trophy before the scheduled season opens, which begins January 5, 1907. The arrangement of the schedule for the coming season was the task of the evening, and when finally the meeting was adjourned at 12 o'clock no decision had been arrived at. Ottawa were decidedly against playing a match during the first part of the season in Ottawa, giving as their reason that the gates at that time were too small to be of any account. On the other hand if Ottawa had played two games away, Quebec would have had to play two at home, and a deadlock was the result.

Finally it was decided that the task was too large for one evening's work, and on the 24th the meeting will again take place, each club bringing its own version of the new schedule.

DANCE FOR THE VICTORS.

Montreal, Nov. 11.—The Grand Trunk Juniors, who won on Saturday, will now have to play off with Quebec, will hold a dance in the Engineers' Armory on the 14th inst. to secure the necessary funds to make the trip.

RACE WAS POSTPONED.

The proposed race of the Y.M.C.A. Harrier Club on Saturday was postponed owing to the bad state of the roads consequent upon the heavy snow fall. A meeting of the Club will, however, be held on Sunday evening to decide upon what is to be done in regard to the race.

"DUTCHY" JOHNSTON SLIGHTLY IMPROVED.

Ottawa, Nov. 10.—At ten o'clock this evening, the St. Luke's Hospital authorities reported a slight improvement in the condition of "Dutchy" Johnston, the St. Patrick's Club football player who collapsed two days after last Saturday's match in Montreal. It is now thought that he will recover.

KILLED IN A SCRIMMAGE.

Great Falls, Mont., Nov. 10.—In a game of football Fort Shaw, this afternoon, between the Great Falls team and Fort Shaw Indian team, James Curtis, full back for the Great Falls team, was killed in a scrimmage, internal injuries bringing about death. Curtis was 25 years old and a native of Syracuse, N.Y., where his parents live.

LAVAL DID NOT APPLY.

Montreal, Nov. 11.—The Intercollegiate Hockey Union met Saturday morning in the Windsor Hotel. Laval, contrary to expectations, sent in no application for affiliation in the Union. The only important matter before the meeting was the drawing up of the three schedules, senior, intermediate and junior, for the coming season.

The following is the schedule for the senior series:

January 11.—McGill at Toronto.
January 25.—Toronto at McGill.
February 1.—Toronto at McGill.
February 8.—Queen's at Toronto.
February 15.—McGill at Queen's.

VICTORIA HOCKEY MEN DINE.

Montreal, Nov. 11.—The Victoria Hockey Club held a most successful dinner in the Ladies' Ordinarv of the Windsor Hotel. There were almost forty members present, but with the exception of Messrs. McBride and W. and M. Grant and Budden and Shirley Davidson there were none of the old members present. It was in reality a private affair, and though there was the usual number of toasts and speeches they were all of a somewhat intimate character. The one containing the greatest public interest being that one in which Captain Fred. McBride, appointed only that afternoon President of the Eastern Hockey League, announced once more that although the Vics had gone in for the new order of things they would play only a purely amateur team.

SATURDAY'S GAMES

Montreal Defeated Westmount
—McGill and Ottawa Col-
lege Beaten.

Montreal, Nov. 11.—As was expected, Montreal defeated Westmount, and by twenty to six. So much was the defeat expected, that only about five hundred people turned up to see the match, while the bleachers held just one solitary policeman. It was a much better game, however, than those who went to see it expected. Westmount, with some juniors on, played well, and Montreal did not play as well as before, the principal reason for that being, no doubt, that with Craig off, Hamm, Gordon acting unexpectedly as captain, and some of the men not knowing the signals, the team was somewhat demoralized. The ground was very slippery, but soft; the sky was overcast; and there was a little or no wind, so that it was really ideal football weather. It rained slightly during part of the match.

Jimmy Craig, who still limps badly, was an impatient spectator on the side line, and in the grand stand sat half a dozen of the best of the Tigers players and officials, who had come to Montreal on purpose to see what the play of Montreal was like. With them was Chas. Elliott, the coach who has been engaged by Hamilton City to put the team in fit condition for such an important match as they will have to play on Saturday next. The gentlemen who were in attendance in addition to Mr. Elliott were: Messrs. Septimus Dumoulin, Captain Ballard, Isabert (the inside wing), President Seymour, and Dr. Thompson, the manager of the team. They were entertained by the Montreal boys in the evening.

In a strenuous battle the McGill team, generally picked as champions of the Intercollegiate League, went down before the Toronto Varsity team on the local campus Saturday, to the tune of six to two. This unexpected defeat will probably so complicate matters in the league that the final championship may not be decided at all, and certainly will not in time to make a bid for the Dominion championship title. From the first blow of the whistle the teams jumped into the game with a fierceness and determination which never abated. Every yard of ground was fiercely contested, and the game was not decided until final time was called. At the moment that the timekeepers announced the end of the game, Raphael was actually over the line for a try, which would have given McGill another five points, but Dr. McKenzie refused to allow the score.

The two teams were very evenly matched, and both played with few mistakes. But the Toronto backs were superior and here the victory was won. Southam and Kennedy out-punted Harrington and Raphael; Zimmerman made two or three very pretty runs and punted well, but he was off color in catching.

Ottawa, Nov. 10.—The Ottawas and St. Patrick's closed the Senior Rugby season here Saturday afternoon in a contest that was a real test of foot-ball. About 400 spectators saw the face and over half the crowd left before the finish. The snow of Friday and the rain of Saturday had left the ground in awful shape for football, and the conditions could not possibly have been worse. The wind was cold and bitter, while the rain came down steadily all day. The St. Patrick's team had not been together for a week and the line-up was unknown to even the players until a few minutes before the scheduled starting time when a patched-up team was read out. Freedland played only five minutes, being replaced by Slattery, while Palford, O'Brien and Burke were also absent. The Ottawas who had worked hard all the week, had a walk over, the final score being 43 to 2 while the figures at the half were 31 to 1. In the second period the quarters were shortened and about fifteen minutes sufficed instead of thirty.

The Rough Rider seconds defeated the Nationals of Montreal Saturday in the last of the home and home games for the Quebec Intermediate championship. The visitors were heavier than the locals, and apparently much stronger, but they lacked the knowledge of the game and the speed of the winners. Ottawas played Harris, who figured against Montreal a week ago on half back line, and T. Rankin, who formerly played senior. The final score was 19 to 6 for the Rider II., and the game was a much better one to watch than the senior fixture that immediately followed. The Ottawas will now play off with the Quebec winners for the Canadian intermediate championship.

Kingston, Ont., Nov. 10.—Queen's Seniors overwhelmed Ottawa College, here to-day, defeating them by the one-sided score of 31 to nothing. The locals were in fine trim, and from the start set a pace which the Capital City team could not stand. The most sensational feature of the game was the kicking of Ken. Williams, Queen's centre half. During the game he placed the ball between his opponent's goal posts five times, including four drop kicks and one convert of a try. Besides this, he repeatedly punted the ball over the visitors' line, resulting in rouses and safety touches. The half time score was eight to nothing, including one drop kick by Williams. Despite the big score, the game was a sensational one to watch and many brilliant plays were pulled off. Baker scored a nice try for Queen's in the closing minutes of the game. Only on one occasion did the ball cross Queen's line, and then Crawford saved what looked like a sure score by a beautiful run.

Toronto, Nov. 10.—Argonauts and Peterboro played the last senior O.R.F.U. game of the season this afternoon on Varsity Athletic Field. The score at half time stood 4 to 2 in favor of the Argonauts and at full time 12 to 4 in Argos. favor. The Argos team lacked the snap displayed in the Tiger game a week ago. Three Peterboro players were hurt and in the last quarter Peterboro played eight men. A few fights were thrown in, one between Flett and Gilbert, being pretty fierce while it lasted. Gilbert kicked Hewett behind the ear, just after Hewett had returned a punt. Flett took the quarterback's part, and after a few hasty words had been spoken, blows were struck. It was even upon when the players separated them.

THE SAILORS WON.

The football match on the Q.A.A. grounds on Saturday afternoon between the stewards of the R.M.S. Empress of Britain and the R.C.G.A. football team, resulted in a win for the former by the score of 4 goals to 1. The sailors had the better combination, and proved too strong for the soldiers.

In addition to their football team the British crew will next season have a strong cricket team and expect to enter largely into the sporting events of the city.

The sailors of the Empress had quite an interesting athletic meeting in the large freight shed on the wharf yesterday afternoon. There were a number of hotly contested races, which awoke a considerable amount of excitement among the spectators.

U. S. INDOOR CHAMPIONSHIPS.

New York, Nov. 10.—The National indoor track and field championships of the Amateur Athletic Union of the United States, which began last night in the Madison Square Garden, were finished to-night. One of the features was the defeat of Melvin W. Sheppard, the Western crack half mile runner, by E. B. Parsons, of Yale, who is the intercollegiate champion half mile runner. These two met in a field of half a dozen, including Paul Pilgrim, the Olympic champion. Parsons had the advantage from the start, and practically ran Sheppard off his feet. Sheppard quit in the last 50 yards and failed to finish in the first four Harry L. Hillman, of the New York A. C., who was injured on the trip of the American athletes to Athens last April, surprised the crowd by making a new world's record in the 600 yards hurdle event.

MANITOBA IS ALSO IN IT.

Winnipeg, Nov. 11.—At a meeting of the Manitoba and Northwestern Hockey Association, the following motion was introduced by Mr. Manville, of Carberry, seconded by Mr. Solville, of Portage: "That this Association do not further recognize the Canadian Amateur Athletic Union, or any of its rulings, that we will pull out entirely, and that all rulings for the present to be decided by our council. The motion was carried by a vote of 17 to 2, with much enthusiasm.

THE ALTOGETHER NEW CYNIC'S

CALENDAR OF REVISED WIS-
DOM FOR 1907.

Resembles the former Cynic's Calendar in its spontaneous gaiety; otherwise it keeps its pledge of "altogether newness." The three authors, Ethel Watts-Mumford Grant, Oliver Herford and Addison C. Mizner, having found out that proverbs are just as true and much more amusing when turned inside out or upside down, have continued the revision of the wisdom of ages after this original recipe. "Contentment," reads one of their new cynicisms, "is the smoothest of inventions." It certainly has not smothered their wit.

The illustrations gaily printed in red and black are hardly diverting than the text. "The First Cynic" and "The First Quarrel" are quite as clever as "The First Monday" of last year's volume, the success that was pirated and plagiarized to an unlimited extent; and "Never say die!" and "Many looks spoil the cloth" have a pointed shaft for the foibles of to-day.

The book as before is conveniently arranged with a page for memorandum facing each page of dates, and appears again in the familiar bright gingham of former issues. The publishers announce that they have purchased ten illustrations and aphorisms from the Cynic's and other gaily volumes, and have prepared a series of ten post cards that may be had free from the booksellers or will be sent by them upon receipt of two cents for postage. The price of the Cynic's Calendar is 75 cents net, New York. Paul Elder and Company.

"Get an advance, skin the shoes, or lose money!" This was the slogan of the American shoe manufacturer at the opening of the season.

Canadians who buy imported shoes pay one dollar duty, a quarter of a dollar more in higher wages, or \$1.25 in all for their lack of perception. They fine themselves 33 1/2 per cent and get shoes which the made-in-Canada shoe can defeat on even terms in foreign markets.

Then the imported shoe may have been "skinned" of value to partly meet that handicap of \$1.25.

Follow the shoe market, and you will find that the honest United States shoe manufacturer has either withdrawn from the Canadian shoe market or raised his price too high.

Money cannot buy, nor can artisan devise a better shoe than that upon which are stamp this "Seal of Certainty"—

Tricked by Dyspepsia

The Doctor Couldn't Tell Where
The Trouble Lay."For the past seven years I have
been a victim of dyspepsia and chronic
constipation and have consulted the
most noted specialists to be found on
diseases of this character. None, how-
ever, seemed to locate the difficulty or
give relief. In addition to this medical
treatment, I have resorted to the use
of many remedies and have given
them faithful trial, but all to no pur-
pose.Upon the recommendation of a close
friend, I purchased a 50c. package of
Stuart's Dyspepsia Tablets and in less
than five days noticed that I was
receiving more benefit than from any
remedy I had used before. I continued
to use the tablets after each meal for
one month and by that time my
stomach was in a healthy condition,
capable of digesting anything which
my increasing appetite demanded.I have not experienced any return
of my former trouble, though three
months have elapsed since taking your
remedy."We wish that you could see with
your own eyes the countless other
bona-fide signed letters from grateful
men and women all over the land
who, had suffered years of agony with
dyspepsia, tried every known remedy
and consulted eminent specialists
without result, until they gave
Stuart's Dyspepsia Tablets a trial.
Like the doctor above, they couldn't
locate the seat of the trouble.Dyspepsia is a disease which has
long baffled physicians. So difficult
of location is the disease that cure seems
next to miraculous. There is only one
way to treat dyspepsia—to supply the
elements which nature has ordained to
perform this function and to cause
them to enter the digestive organs,
supplying the fluids which they lack.
Stuart's Dyspepsia Tablets alone fill
these requirements, as is shown by the
fact that 40,000 physicians in the
United States and Canada unite in
recommending them to their patients
for stomach disorders.We do not claim or expect Stuart's
Dyspepsia Tablets to cure anything but
disordered conditions of the stomach
and other digestive organs, but this
they never fail to do. They work upon
the inner lining of the stomach and
intestines, stimulate the gastric glands
and aid in the secretion of juices nec-
essary to digestion.Stuart's Dyspepsia Tablets are for
sale by all druggists at 50 cents a box.
One box will frequently effect a per-
fect cure. If in doubt and wish more
adequate proof send us your name
and address and we will gladly mail
you a sample package free. F. A.

field, Mich.

DAY BY DAY.

And the wind she blow, blow, blow!

Our Lady of the Snows is doing a
lot of preliminary scolding.The E. C. H. A. has decided to drop
professions and allow professionalism.You can safely wear that fancy vest
now. No one will see it with an
overcoat on.The newest disease is said to be
the auto heart. But the average
pedestrian is of opinion that the
autoist has no heart.The Y. M. C. A. harriers having for
given to bring their snowshoes with
them on Saturday, their race had to
be postponed.Now, why do those steamers want
to misbehave themselves so, right at
the close of the season, too?Soldiers may wear long boots in
winter, but they can't compete at
football in the snow with the sea
boats of the sailors.It may be truly said that the name
of the man who takes an involuntary
tumble in Dalhousie street these days
will be mud.Any man may bring a horse to the
stream, but it takes a financier to
water the stock, remarks the Cham-
plain philosopher.The man behind the snow shovel is
again one of the men of the time,
though his name may not be in any
more imposing gazetteer than the city
directory.Will the record in which the names
of our pro. hockey men are kept be
looked upon as a sort of golden text
book?A little ashes turneth away much
wraith these slippery days. Take a
hint!Castles in Spain have no attraction
for Quebecers though a desperate ef-
fort is seemingly being made to in-
terest them in the subject.

A PLEASANT EVENT.

Another of those enjoyable socials
and dances given by the St. Albert
Social Club is to take place at the
Auditorium Hall on Wednesday even-
ing next. There will be a splendid
orchestra for the dancers and refresh-
ments will be served as usual. These
socials of this popular club have been
so well managed and have given so
much enjoyment that each succeeding
event is anxiously looked forward to,
and a large attendance may be ex-
pected at Wednesday evening's func-
tion.

A FATAL ACCIDENT.

Coroner Jolicœur held an inquest on
Saturday at St. Catharines upon the
body of a twelve-year-old boy named
Denis, who was the victim of a fatal
accident at that place a couple of
days ago. It appears that the boy
was driving a horse and vehicle along
the hill, when the whole outfit went
over the precipice into the Jacques
Cartier River. According to the medi-
cal testimony the boy was killed from a
fracture of the spine as a result of
the fall, and a verdict in accordance
was returned.

CORONER'S INQUEST.

Coroner Jolicœur held an inquest on
Thursday on the bodies of the
three Italians killed by a dynamite
explosion recently at La Tuque. After
hearing a number of witnesses, the
jury returned a verdict that the de-
ceased had died as a result of them-
selves and internal wounds, caused
by a dynamite explosion and that the
three victims were trying to get out
of the excavation at the time, while
engaged in work for Messrs. Overhain
& Fowler, contractors. At the con-
clusion of the inquest the Coroner
cautioned the contractors about al-
lowing inexperienced men to blast,
and of using a whole stick of dynamite
to a charge, suggesting that
they (the contractors) notify their
employees that in future anyone found
doing so would be discharged im-
mediately.

BOY HACKED TO DEATH

Bennington, Vt., Nov. 11.—The body
of Thos. Royer, a poor boy, has been
discovered here, terribly covered with
wounds from a knife. The spot where
the body was found is a mile and a
half from the Massachusetts frontier.
The police of the States of Vermont
and Massachusetts are now searching
for the murderer. The family of the
deceased belong to the Province of
Quebec.It is said here that a French-Can-
adian is suspected of having murdered
young Royer.

NORWAY'S KING VISITS ENGLAND.

Portsmouth, Eng., Nov. 11.—The
Royal yacht Victoria and Albert with
King Haakon of Norway, Queen Maud
and Crown Prince Olaf on board, an-
chored off Spithead at a late hour to-
night. King Haakon and his family
will be the guests of King Edward
and Queen Alexandra at Windsor
Castle during their stay in England.

AN EXCITING TIME.

Hillsboro, Tex., Nov. 11.—While at-
tention was directed to two fires in
the outskirts of the city this morning
the hardware store of Smith and
Thomas, in the business centre of
Hillsboro, was dynamited and partly
wrecked by robbers. After an ex-
change of shots in which no one was
injured Walter Jeffries, of Fortworth,
was arrested in the building, where
an explosion occurred. The fire de-
stroyed the lumber yards of Ole Wilk-
inson and several small buildings,
causing a loss of \$40,000. It is be-
lieved that the fire was started by a
confederate of Jeffries. Nothing was
taken from the store of Smith and
Thomas.

Dr. Pierce's Favorite Prescription.

Is not a secret or patent medicine, against
which the most intelligent people are
quite naturally averse because of the un-
certainty as to their harmless character,
but is a medicine of known composition,
a full list of all its ingredients being
printed in plain English, on every bottle
wrapper. An examination of this list of
ingredients will disclose the fact that it
is non-alcoholic in its composition, chemi-
cally pure glycerine taking the place of
the commonly used alcohol, in its make-
up. The "Favorite Prescription" of Dr.
Pierce is in fact the only medicine put up
for the cure of woman's peculiar weak-
nesses and ailments, sold through drug-
gists, that does not contain alcohol and
that too in large quantities. Furthermore,
it is the only medicine for woman's special
diseases, the ingredients of which have
the unanimous endorsement of all the
leading medical writers and teachers of
all the several schools of practice, and
that too as remedies for the ailments for
which "Favorite Prescription" is recom-
mended.A little book of some of these endorse-
ments will be sent to any address, post-
paid, and absolutely free if you request
same by postal card or letter, of Dr. R.
V. Pierce, Buffalo, N. Y.Don't forget that Dr. Pierce's Favorite
Prescription, for woman's weaknesses and
delicate ailments, is not a patent or secret
medicine, being the "Favorite Prescrip-
tion" of a regularly educated and gradu-
ated physician, engaged in the practice
of his chosen specialty—that of diseases
of women—that its ingredients are printed
in plain English on every bottle wrapper;
that it is the only medicine especially de-
signed for the cure of woman's diseases
that contains no alcohol, and the only
one that has a professional endorsement
worth more than all the so-called "testi-
monials" ever published for their medi-
cines. Send for these endorsements as
above. They are free for the asking.If you suffer from periodical headache,
backache, dizziness, or dragging
down sensation low down in the abdomen,
weak back, have disagreeable and weak-
ing, catarrhal, pelvic drain, or are in
distress from being long on your feet, then
you may be sure of benefit from taking
Dr. Pierce's Favorite Prescription.Dr. Pierce's Pleasant Pellets the best lax-
ative and regulator of the bowels. They
invigorate stomach, liver and bowels.
One a laxative; two or three a cathartic.

MCCRAW'S CASE

Another Respite has been
Granted by Court of
Appeals.The Court of Appeals, which sat here
on Saturday last, not being ready to
render judgment on the merits on the
appeal of Wallace McCrae and His
Majesty the King, respondent, a new
respite was granted and the date of
the execution fixed for Friday, 25th
January next, instead of 11th Decem-
ber, unless otherwise ordered by com-
petent authority.

Mrs. Cora B. Miller Makes a Fortune

Says She will Now Give Away \$10,000
Worth of Medicine to Women.Until a few years ago Mrs. Cora B.
Miller lived in a manner similar to
that of thousands of other very poor
women of the average small town and
village. She now resides in her own
palatial brown-stone residence, and is
considered one of the most successful
business women in the United States.
Several years ago Mrs. Miller learned
of a mild and simple preparation
that would really cure female dis-
eases and piles. After curing herself
and many of her friends she was be-
lieved by so many women needing the
treatment that she decided to furnish
it to those who might call for it.
She started with only a few dollars'
capital, and the remedy, possessing
true and wonderful merit, producing
marvelous cures when doctors and
other remedies failed, the demand
grew so rapidly she was several times
compelled to seek larger quarters. She
now occupies one of the city's largest
office buildings, which she owns, and
almost one hundred clerks and stenog-
raphers are required to assist in this
great business.Million Women Use It.
More than a million women have
used Mrs. Miller's Specific, and no
matter where you live, you can re-
fer you to ladies in your own local-
ity who can and will tell any sufferer
that this marvelous remedy really
cures women's diseases. Despite the
fact that Mrs. Miller's business is very
extensive, she is always willing to
give aid and advice to every suffering
woman who writes to her. She is a
generous, good woman and has decided
to give away to women who have
never used her medicine \$10,000.00
worth absolutely FREE.Every woman suffering with leu-
corrhoea or whitish discharges, ulcer-
ations, displacements or fallings of the
womb, profuse, scanty or painful pe-
riods, uterine or ovarian tumors or
growths, also pains in the head, back
and bowels, bearing-down feelings,
nervousness, creeping feelings up the
spine, melancholy, desire to cry, hot
flushes, weariness, or piles from any
cause, should sit right down and send
her name and address to Mrs. Cora
B. Miller, Box 2340, Kokomo, Ind.,
and receive by mail (free of charge in
plain wrapper) a 50-cent box of her
marvelous Specific; also her valuable
book "How I Cure Female Diseases
and Piles."Remember this offer will not last
long, for thousands and thousands of
women who are suffering will take
advantage of this generous means of
getting cured. So if you are ailing,
do not suffer another day, but send
your name and address to Mrs. Miller
for the book and medicine before the
\$10,000.00 worth is all gone.
