CANADIAN LITERATURE IS DISCUSSED

Leonard Knott, well known author who resides at 519 Victoria avenue, recently told members of the Ormstown Study Club that Canadians are still suffering from a national inferiority complex. "We have failed in our literature to sell outsiders the things that are of interest and value," he said.

In a broad survey of literature in general and Canadian literature in particular, Mr. Knott brought his audience up to date on current literary works.

Dealing with his subject from the angle of the author, the reader and the critic, he gave a clear picture of which works would be of most interest to young people and contribute to their education, severely censuring a certain type of comic as not only producing unseemly behaviour in young people but as being a waste of time.

Building, Use Of Electricity Up Over 1948 In September

A sharp increase in the use of electricity and in the amount of construction in this City as compared with the month of September last year was reported at this week's meeting of the Westmount City Council.

The sale of electricity during September of this year was recorded at 2,424,000 kilowatt hours, an increase of 328,000 kilowatt hours over the same period in 1948.

The value of 12 building permits and three plumbing permits issued last month was $309,550, compared to 11 permits in '48 valued at $28,025. Buildings under construction last month were: 10 dwellings, four additions, six conversions to two-family dwellings, 44 alterations, 17 garages and one assembly building.

Despite the fact that building is up as regards September, the totals for the whole year to September 30 show less construction this year than last, $796,295 to $806,450.

Slightly over 1,000 tons of garbage were collected during the month, at a cost of $5,776.90 or $5.44 per ton. Cost per dwelling per collection was reported at .0915.

Forty-nine accidents were reported to Westmount police and 25 people were listed as injured. No one was killed.

The injured were treated as follows: 4 persons were taken to hospital in ambulances, 3 by automobile, 8 by patrol car, 2 walked and 8 did not require hospital care. In September, 1948, 12 persons required hospital care.

Three hundred and seventy-nine cases were made during the month and taken before the Recorder's Court for trial. Of the 379 cases made, 242 were given court tickets, 90 were apprehended on sight, 2 on warrants, and

Municipal Review Pays City Editorial Tribute

"We recently received a copy of the City of Westmount's annual report, the make-up of which is an excellent example of how a municipal report should be presented to the citizens. Aside from the financial statement, which in the case of Westmount shows sound and careful management in every department and shrewd financing — "the City financed early all its operations during the war and post-war years from reserves or on a 'pay-as-you-go' basis," says the report, "which was extremely advantageous as, with no new financing being required, interest and sinking fund provisions have been steadily reduced"—the report gives an analysis of the activities of the corporation in such manner that the taxpayers know exactly how the taxes are spent, and why; how the services are distributed, including roadways and sidewalks, snow removal, fire and police protection, traffic control, parks and playgrounds, public health, the library, Victoria Hall, etc.

SAID CLEANEST OF CITIES

"While Westmount is one of the most beautiful and the cleanest of cities, with every amenity that a citizen could desire, the taxes are no higher than those of neighboring communities that have much less in the way of facilities. This is because of administrative efficiency in every branch. For instance, Victoria Hall — really a community centre — with its five main assembly halls and a number of clubrooms, carries itself from rentals. Then there is a fine library, one of the best equipped in the country, under good management, and adjoining the library is the conservatory, with its lovely plants and flowers. Westmount also is a city of fine trees, of which great care is taken . . . All this information and more, is contained in the annual report, which must have the effect of making the taxpayer feel not only proud of his city but that he is getting good value for his money."

Specific Training Plan for Students Of Roslyn School

Stanley Presbyterian Marks Seventy-Fifth Anniversary

Stanley Church began 75 years ago as a group of people who were protesting against "Fads and Frills" — in the shape of a pipe organ — being introduced into the Services of Worship.

The first building was erected on Stanley Street, from which they took the name of the new Church, calling it Stanley Presbyterian Church. In 1912 the congregation decided that the time had come for them to leave the centre of the City, and they purchased a site in Westmount at the corner of Westmount and Victoria Avenues. Although there were less than 100 people at the first Communion services in Westmount, they proceeded to erect a building which would accommodate 1,000 people.

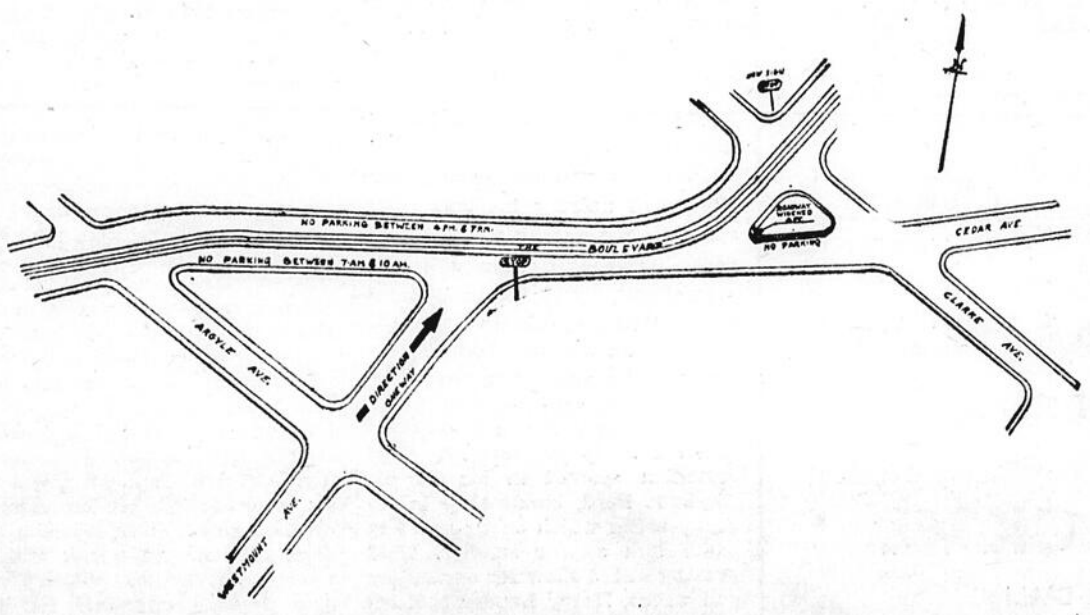
The present Stanley Church was built during the pastorate of the Rev. W. D. Reid, M.A., B.D., D.D., who continued as its Minister for 25 years, and is at present the Minister Emeritus of the Congregation. Following Dr. Reid's resignation the Rev. F. Morley, B.A. Ph. D., assumed the pastorate of the Church and remained until 1944 when he resigned to accept the responsibility of Grace Presbyterian Church, Calgary.

The present Minister is the Rev J. D. Wilkie, B.A.

On Friday night the congregation are gathering together for a banquet at 6 o'clock, this will be followed by a programme.

On Sunday the special speaker will be the Rev. Finlay G. Stewart of St. Andrew's Church, Kitchener Ont. His subject for the morning will be "The Mark of Confident People." At 6 o'clock there will be a youth supper served in the Church hall, following which Mr Stewart will conduct a Youth Service in the Church at 7.30 p.m. taking as his subject "I Give You A Master."

City Acts To Stop Boulevard Accidents



The Westmount City Council, at a recent meeting, ordered the prohibition of parking on the north side of The Boulevard throughout its length between the hours of 4 p.m. and 7 p.m.; and on the south side from the western City limits to Cedar avenue between the hours of 7 a.m. and 10 a.m. They also ordered that Westmount avenue between Argyle avenue and The Boulevard be a one-way street in an easterly direction. This latter has the most important effect of preventing westbound traffic on The Boulevard from making a left hand turn into Westmount avenue. To slow up westbound traffic before reaching the dangerous curve in The Boulevard, a "stop" sign is to be placed on the north side at Clarke avenue, as in the sketch above.

The 'Im-an-'er Club — a mixed group of 18-12 year-olds arranged a table tennis tournament for their members and friends last Wednesday night. Whether they could play table tennis (the expert's name) or ping-pong (the way most play it) everyone had a good time. The club plan to hold their meeting every Wednesday at 8 p.m. If you are interested in meeting with other young people, come on out next Wednesday night.

The Young Men's Fellowship Club will hold its next meeting on Thursday night at 6 p.m. The supper is being planned by the members. After supper the business of the evening will be the election of officers for the coming season.

Sunday Evening Firesides which were so popular last winter will start again on Nov. 6. The Firesides, held in front of the fireplace in the lobby of the Y after the evening church services, start at 9 p.m. The programs are varied and informal and an opportunity is given for every member to take an active part in them. Be sure that you are present on Sunday, Nov. 6, at 9 p.m.

Dance Instruction in the waltz, rhumba, samba, and tango, will be given by Joan Stirling of "Ballet Ruth Sorel" on Friday evenings at 8.30 p.m. The first lesson of the ten-lesson course will be held next Friday, November 4th. Registrations for the ten-lesson course are now being taken at the Program Office. Be sure that you can lead or follow the latest dance steps — register now!

Badminton Club is growing although there is still room for play on both Tuesday and Friday evenings. Come early (7.30 p.m.) and stay late (10.30 p.m.) and you will play all the badminton you can take. The mixed swim from 9.30 to 10.30 p.m. gives you that opportunity to be really refreshed. The dance on Friday can be a pleasant wind-up of a grand evening.

The Bridge Club is progressing very well. The new instruction sheets for beginners are helping even some of the "average players" to make better scores. If you want a short course in bridge instruction, you can join the So-Ed program on Tuesday evenings. The bridge club meets every Monday at 8 p.m.

Chasing Rainbows

By HERB LINDER

He is only a wee bit 'o a mon, with short bandy legs, a crooked old cane, and the sharpest, most de'lish twinkle in his e'en .... Sir Harry Lauder.

The man whom the whole world of yesteryear had come to admire has again been in the limelight, but this time in a more sober way. 'Harry' is nearing his last great show. A personality who, even down in the coal mines where he started out, could not be dimmed and had to sing his way into the hearts of all who heard him.

My first meeting with Sir Harry was in Greenock, Scotland, where I had arranged for him to entertain our Navy personnel. The old comedian arrived in his American-built Ford, bundled up in his heavy ulster which only seemed to make him appear smaller. That evening at the show for our sailors and wrens, Harry Lauder held his audience spellbound for over half an hour with his charming manner and songs. Singing all the old favourites, cracking his old but good jokes and ending with his famous "Keep Right on to the the End of the Road" left all our blasé world-weary young audience with many a tear from both laughing and crying.

This show was only a prelude to many a pleasant time spent at his home Lauder Ha' at Strathaven. Sir Harry has turned one large complete room into a museum for his huge collection of trophies from his innumerable world tours. Ceiling, walls and floor are covered with priceless objects, mementoes from his public's appreciation of his fabulous personality. Keys to practically all the major cities of the world; one of the first telephones made; a shrunken head from the head hunters of Australia; a priceless ivory collection from China; a complete little scale model of his school house where, as a boy, he learned his ABC's, made out of the wood from his own desk at which he sat; a collection of his famous crooked canes given to him by people all over the world; truly a priceless collection which will some day be on view for the whole world to see.

The beautiful house at Strethaven was designed by Sir Harry himself and every wonderful room from the large drawing room downstairs, the spacious kitchens, billiard room and his own study upstairs with the grand piano, is made with comfort emphasized.

The first day I drove there in our Jeep was a typical cold Scotch day in winter and I was practically stiff with a chill. The warm and friendly atmosphere on entering Lauder Ha' soon took away all thoughts of my uncomfortable trip. Greta, his niece who manages all his affairs, is a charming true Scotswoman and it is she who has accompanied her famous uncle on all his numerous round-the-world tours.

Harry Lauder is not without his much publicized tight-fisted side of his nature, however, but purely with a tongue in cheek attitide; he is a very kind and generous man who has done much to alleviate the discomfort of others with his lavish help.

'First footing' on a New Year's morn, arriving at Lauder Ha' with a few gifts and being cold as usual, his niece asked if he had not given us something to warm us up. In typical Lauder fashion he quoted, "Och! and why should I, they brought it wi' them".

Sir Harry chased many rainbows but at every rainbow's end he found a pot of gold in doing something really worthwhile. We hope that at the end of his last, he finds peace.

Rotarian Gain Is Personal Fellowship Says Governor

"There is an indirect profit to be gained as a Rotarian:—a personal fellowship," Ray Brunet, Governor of District number 250, said in his official visit to the Westmount Rotary Club on Wednesday.

Speaking with a catchy but pleasant French-Canadian accent, the District Governor said he was well pleased with the local club, and brought only one criticism to light.

Introduced by W. F. Close, Mr. Brunet pointed out that in his official visits to the 42 clubs in the district, there must be a different approach to each. He recalled one club in a small town in New York State where the main topic of the whole group was dairy farming and agriculture, and where the members gave scholarships to students, always for furthering the student along agricultural lines.

"It is the most perfect club of its type", the speaker said of Rotary in general. "There is a common bond between the members of Rotary, whether here or in another land; whether from the big cities or the small communities". he said.

"I see in the world today, two classes of people: the builders and the wreckers", the speaker said, maintaining that he felt the Rotarians belonged to the building class because they have an aim to build a better world.

"But it is the member as an individual that counts most," the District Governor stated.

He maintained that as an individual, the member should remember the honour bestowed on him as a Rotarian for only leaders and top flight personnel are asked to join the organization.

"Because of this, there are certain responsibilities", he said, stating that it is the duty of every member to be of service, to attend the meetings regularly and to see that all dues are paid up on time.

YMCA Fall So-Ed Program Gets Underway On Tuesday

The first meeting of the Westmount Y.M.C.A. Fall So-Ed Program will be held on Tuesday, Nov. 1. The speaker during the lecture-discussion period will be Jim Carnie, Executive Secretary of the local YMCA, and the subject up for consideration is "Where to go to meet people." When asked about speaking on such a topic, Mr. Carnie said it might be more interesting if we tried to find out "Where not to go to meet people." Whichever way you look at it, here is your opportunity to find out more about your community. The young man or woman who is new to the city will find this So-Ed program to be one of the many places to go to meet people.

The lecture-discussion period of So-Ed is preceded by a skill training program, which starts at 7.30 p.m. Outstanding feature of this period is a course in dancing to be given by George Shefler of Shefler's Dance Studio. Registrations for this course have been satisfactory, although there is room for one or two more entries. Leathercraft and bridge courses are both open for more registrations, and those who desire to get the full benefit of the classes should be ready to start next Tuesday at 7.30 p.m.

Registration is now open and a call at the Program Office will give you full information concerning this activity.

Hospital Drive Workers Hear Campaign Success

Several hundred workers of the Territorial Divisions gathered at the Memorial Hall of The Homoeopathic Hospital Wednesday night, to hear the final results of the 1949 financial campaign and enjoy a social evening, including stage entertainment.

John M. McConnell, Jr., campaign chairman, spoke of the public's generous response to the Campaign appeal. The objective of $84,000 had been exceeded by $1,000 and total subscriptions now stand at $85,000. In addition to this figure are further amounts which have been pledged and will be received within the next few months.

Commenting on the time and effort put in by volunteer workers, Mr. McConnell remarked: "The work of the Territorial Divisions has contributed very substantially to the total subscribed. On your achievement of 120% of your quota I extend to you all my most sincere congratulations and thanks on behalf of the Campaign Committee."

Douglas Bremner, President of the Hospital, thanked all the workers on behalf of the Board of Governors for their hard work in the Campaign, which ultimately produced such fine results.

After a slow start, the achievement of the objective is most gratifying, said Douglas Bremner, and enables the Hospital to look forward to another year of service to the community, possessing the funds to acquire new instruments and equipment as occasions arise, in order to maintain all the departments at the highest possible standard of efficiency.

Divisions Results

The details of results by Divisions were given by John B. Lewis, Vice-chairman in charge of Territorial Divisions. Remarking on the results, Colonial Lewis said "Not only did the nearby communities of Notre Dame de Grace, Verdun and Westmount increase their subscriptions over 1948, but substantial amounts were also received from more distant communities such as Lakeshore, Rosemount, and Montreal East. This is an indication of the high regard in which the Hospital is universally held."

Colonial Lewis further thanked all workers, captains, and chairmen for their hard work and cheerful co-operation, and congratulated them on the results. He stated that organization and results were presently under study with the object of making the job easier for the canvasser who is the backbone of any campaign. In closing he expressed the hope that workers would all want to work on the 1950 campaign.

The remainder of the evening was taken up by a programme of entertainment which was arranged by Alan Murray. Light refreshments were served.

WEEK END REST IS HOUR LONGER

Residents can set their clocks back an hour on Sunday morn' as Montreal's extended Daylight Saving Time ends for another year and rise on Sunday morning to normal clock hours by the sun — if it isn't cloudy! The event means an extra week-end hour of rest people lost in the Spring when the clocks were advanced one hour to get us up with the larks.

City Council extended D.S.T. an extra month this year, probably anticipating the glorious weather we are enjoying in October and doing a better job of forecasting than the weatherman if such was the case.

But it is all over now. Nights will be darker to us all and we can dust off the ear-muffs, gloves and overshoes if we're men or get the fur coat out of mothballs or storage if we're ladies, and get set for the winter winds and snow with temperatures of zero and below.

Oddfellows to Hold Fall Church Service

The Manchester Unity Oddfellows will hold their annual Fall Church Services at Calvary United Church, Westmount, on Sunday evening and the Provincial Grand Master and officers request full attendance of members with relatives and friends for the occasion.

Rt. Rev. T. W. Jones will conduct the services and Brethren and others will meet in the lower hall of the Church at 7 p.m. to go upstairs in a body at 7.30 p.m.

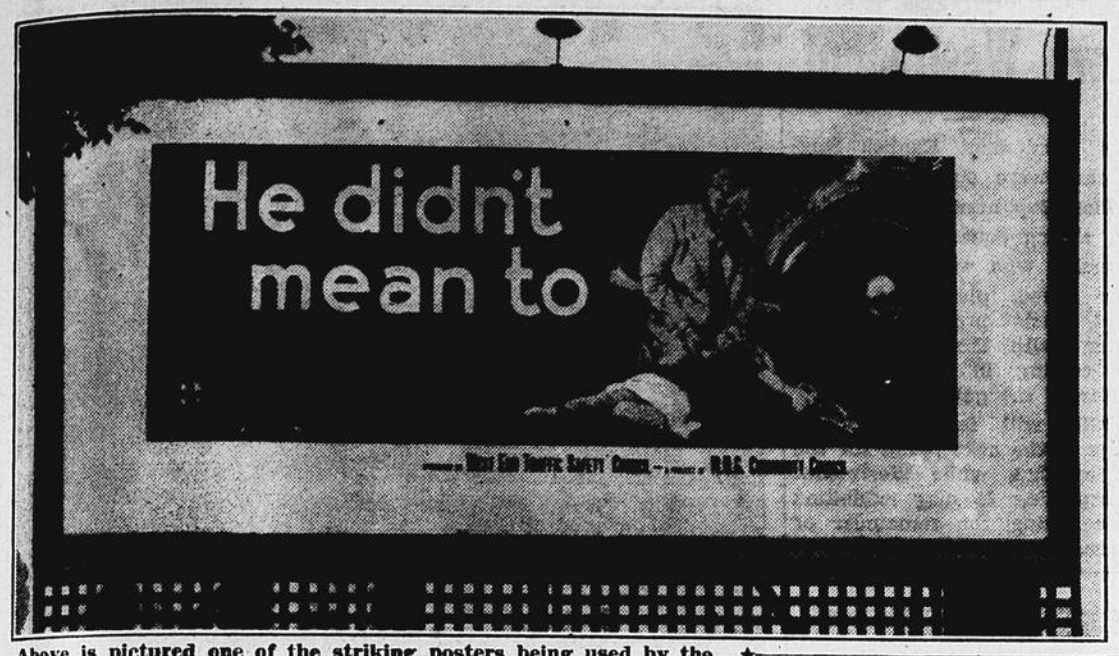
Striking Poster For Public Safety Education



Above is pictured one of the striking posters being used by the West End Traffic Safety Council in the Public Education phase of its all round traffic safety programme. The message on the poster reads: "He Did Not Mean To, But . . ." The picture shows a stopped automobile with the driver holding a little girl in his arms — presumably knocked down by his car. It is a very telling picture duplicated all too often in fact throughout our land.

Governor-General To Open New College Library Wing

His Excellency Field Marshall Viscout Alexander, Governor-General of Canada, will officially open the new wing which will house the library in Lower Canada College, on November 4, it was announced yesterday. The new $25,000 wing is the result of a campaign carried out by the L.C.C. Old Boys' Association.

Planned as a tribute to those former students who died in World War II, the library will feature a memorial plaque which is of unique design. Since the rooms are to be of modernistic appearance, an ordinary bronze plaque was not considered appropriate, so the plaque will take the form of a memorial mirror with the names of the deceased inscribed on the quicksilver behind the glass.

The library rooms will be furnished throughout with indirect lighting and will have a projection room with a screen, a gramophone and loudspeaker system.

The Governor-General, arriving at the college at 3.30 p.m., will be met by a guard of honor. Main part of the ceremony will be held in the school gymnasium, which was also donated by the Old Boys' Association as a World War I memorial. The next-of-kin will be seated in the gym gallery.

To Unveil Plaque

R. H. Stevenson, president of the Old Boys, will formally hand the new wing over to the chairman of the board of governors, Selwyn Irwin. The Governor- General will then unveil the plaque. The Rt. Rev. John H. Dixon, Anglican Bishop of Montreal, will bless the new wing and a lesson from the Bible will be read by head prefect of the school, R. D. Chambers.

Among those invited to be on the platform with Viscount Alexander and Lady Alexander are:-

Selwyn Irwin, chairman of the board of governors, and Mrs. Irwin; D. S. Penton, headmaster, and Mrs. Penton; Hon. Brooke Claxton, an L.C.C. graduate, and Mrs. Claxton; R. H. Stevenson, Old Boys' Association president; J. Alistair Fraser, chairman of the campaign committee, and Mrs. Fraser; Rev. S. Lindsay and Rev. N. Peterson.

S-John Ambulance Appeal to Open Monday, Oct. 31

St. John Ambulance, always ready with a helping hand for the sick and injured, now is stretching out a hand for help. The St. John Ambulance Appeal opens here October 31 and runs through to November 16. The provincial objective is $285,000, it was announced by Colonel J. Darley LeMoyne, president of the Provincial Council.

The black uniform set off with white belt and haversack cross straps is a familiar sight at all public gatherings, for St. John Ambulance workers attend football and hockey games, public meetings, fairs, exhibitions, picnics and parades, standing by in case their knowledge of First Aid is required to take care of an accident or sickness victim.

Skiers, too, know the emblem of St. John Ambulance, for these First Aid experts ride the province's ski trails in anticipaton of accdents on the runways. Many an injured skier owes it to the St. John Ambulance First Aid treatment and tender care that there were not serious complications to a simple injury. Ski huts, properly equipped for First Aid, are operated by St. John Ambulance. There are three St. John Ambulance posts right here on Mount Royal for the benefit of Montreal skiers as well as for those who go to the beautiful mountain park in other seasons of the year.

The funds sought in the St. John Ambulance appeal to the public are required to carry the expenses of St. John Ambulance throughout this great province. St. John Ambulance workers are unpaid, and their services to the public are given without charge. but there must be funds for their transportation on their errands of mercy, for the bandages and books they need in their work, for medical supplies and for the equipment of ski huts and ski patrols, for the uniforms they wear and for the ambulances they drive.

L.C.C. Cadets Win Strathcona Trophy

It was announced by the Headmaster at Lower Canada College that the School Cadet Corps had been awarded the Strathcona Trophy for the best physical training display put on by any Protestant School Cadet Corps in the old Military District No. 4, during the school year 1948-49.

The Cadet Corps is under the command of Captain H. F. Gibb, and is affiliated with the Royal Montreal Regiment. The annual inspection was held in May and the gymnastic display in March of this year.

Alcoholics Anon. To Celebrate Fifth Birthday

More than 350 members and friends of the Montreal Groups of Alcoholics Anonymous will convene at a dinner at the Ritz Carlton on Sunday evening to celebrate the fifth anniversary of the founding of AA in Montreal. Guest of honour and the main speaker is a prominent member of AA from the United States.

The founder of AA in Montreal stated in an interview that "our fifth anniversary dinner to a large extent will be of a reminiscent nature. In 1944, when AA was formed in Montreal, there was a mere handful of us. Today there are approximately 300 men and women members enjoying contented sobriety through their association in Alcoholics Anonymous."

He want on to explain the basic principles of AA, stressing that it was neither a temperance society nor a prohibitionist organization. He emphasized that AA was certainly not "anti-alcohol, and that we have no quarrel with anyone who chooses to drink — and can handle it."

"Alcoholics Anonymous", he concluded, "is an association of men and women who have a sincere desire to do something about their extraordinary drinking problem. AA asks no fees or dues and does not solicit nor accept money from any outside source whatsoever. Alcoholics Anonymous is supported entirely by voluntary contributions from the members themselves."

It will also be an attempt to bring their emotional problems out in the open instead of repressing them; to make compromises, and, when necessary ,to carry on after meeting a failure.

All these points will be discussed in the address of the guest speaker, which will be followed by an open house to the parents to visit the classrooms and meet the teachers of the school.

The Westmount English Rugger club were ousted from the MacTier Cup hunt on Saturday, by a strong squad from McGill University who won 5-0.

WARNING

HOLLYWOOD, Oct. 27 — All you glamor struck folk who think it might be fun to earn your living in the theater might do well to check the following figures before you quit your present job and purchase a makeup kit.

Actors Equity, the guild of performers on the legitimate stage, has just completed a survey of employment within its own ranks. The picture in Hollywood studios is even worse, and radio offers little to brighten the general overcast.

For the 12 months ending May 28 this year, one quarter of Equity's membership did not work at all, one half worked not more than a total of six weeks, and only one quarter worked as many as 16 weeks of the year. This includes actors employed on Broadway and the road, as well as those toiling in summer and winter stock.

Of those who did work, less than one half made over $760 for the year. Fewer than one eighth of those employed earned up to $5,000, and only one twentieth earned up to $10,000. Half the total membership grossed less than $450 for the 12 month period.

In Hollywood, of the 5000 registered extras and bit players, less than 300 earned as much as $2,000 for 1948.

WE WERE chatting the other day about the passing of glamour as Hollywood once knew it. This is in reality a business of deception and illusion — and so is glamour. Today most stars strive to give the impression they're just simple home-loving folk — which some of them may be.

But you can't help remembering when Ramon Novarro had a huge electric "N" placed above his home so it could be seen from all over town. Those were the days Tom Mix had his Rolls Royce outlined in neon tubing, and his car could be seen approaching for blocks. And Norma Talmadge used to drive in an open chauffeured limousine down Hollywood Boulevard every evening at nine, while the pedestrians bowed and doffed their hats to her.

Yes, the movies have grown up and so has the cinema capital. I suppose it's all for the best, but living and working here today isn't near as much fun as it once was.

Glad To Continue Work

Steel workers at the Carnegie-Illinois steel plant in Gary, Indiana, rejoice in continuing to work. The U.S. steel strike was averted, or deferred when companies accepted the president's recommendation and agreed to await the finding of a fact-finding board which will study the steel wage dispute during a 60-day truce. The crippling shutdown was avoided when the United States Steel Corp. accepted the president's peace plan.

Commercialization Found Unnecessary

Recorder Leonce Plante Understands "Pranks"

It's lucky for two McGill students that Recorder Leonce Plante has a long memory.

Haled before him, charged with interfering with the duties of the police, John McVey, 19, of 525 Lansdowne avenue, and Claude Root of 481 Victoria Avenue, received suspended sentences, after the Dean of the Recorder's Court, said that he well remembers his student days.

Air Act

The pair were arrested allegedly in the act of letting air out of the tires of a police car.

On appearing they pleaded not guilty, saying that their were only two of a group of 35 students, and the "police had to arrest someone". Later they changed their pleas to "not guilty", since they were members of the group, and were given suspended sentences.

"I know you were just having a harmless little celebration after your university won a football match", said Recorder Plante, "we used to do it ourselves. But while I considerer it just a prank, you must realize that such actions could lead to serious consequences".

The Recorder mentioned that he remembered such incidents while he was at Laval University, and extracted a promise from the two that they would be more discreet in the future.

African Violet Club Given Talk By Mrs. Copeland

Mrs. F. G. Copeland of Port Credit, Ont., was guest speaker at the first fall meeting of the African Violet Club of Montreal, held at Wesley United Church recently. Mrs. Copeland spoke to a capacity house and gave an interesting talk on the history and culture of the African Violet.

Mrs. Copeland is a well-known professional grower, having over 7,000 plants and 100 varieties under culture. At the recently held C.N.E. Flower Show she exhibited 110 named varieties. She was able to give her interesting talk well-leavened with anecdotes and homely advice.

Mrs. Copeland stated that violets should bloom just about all the year and explained necessary treatment to insure this. Her main theme was that violets are more likely to be babied too much rather than not enough. For instance, she said that if you placed a plant in a window in a position which you would find comfortable, then that would be good enough for the plant.

The African Violet Club of Montreal, which is sponsored by the West End Horticultural Society, will be holding periodic meetings all winter, the dates of which will be announced. Anyone interested in African Violet culture is invited to attend these gatherings. The club has now 70 members from all over the province and has a very ambitious program planned for the winter months.

ence that the speaker was slightly critical. He pointed out that the Westmount Club was 10 percent below the district average, but said that in every other respect the club was apparently in fine shape.

He also paid tribute to the Westmount Rotary Club project of the Unity Boys' Club, stating that they had named it well, for unity is the thing that is needed today. "We do not need to look to other lands to build up fellowship," Mr. Brunet said. "We need only to look at our own country and community to begin this very vital and necessary work."

The speaker was thanked by Past District Governor, Cecil Medlar, who said that it was the first time that a French Canadian Rotarian had held that position in the district.

"I know you are doing a good job", Mr. Medlar said, "and you are a credit to the French Canadian race and to Rotary".

Do You Know...

where the name "hockey" came from?

The word 'hockey' is derived from the 'hooked stick' with which the game is played, from the Old French word 'hoquet', meaning 'shepherd's crook'.

Do You Know . . . that the general idea of ice hockey is not original with Canada? Many 16th and 17th century Dutch paintings show a game something like hockey being played with a stick shaped like a golf club.

Do You Know . . . that there are sharp differences of opinion as to exactly when and where the first ice hockey games were played in Canada? Although Kingston, Halifax and Montreal are most often mentioned in this connection, available records seem to suggest that the first organized games were played around 1881, between the Victoria Hockey Club and McGill University teams, in Montreal, and in Kingston between the Royal Military College and Queens University.

Do You Know any interesting and unusual facts? Our "Advisory Panel" will pay $25 for any authenticated readers' submissions if they are usable. All letters become our property. Write Black Horse Brewery, Station L, Montreal, P.Q.

WANTED — SOME SMUGGLERS

* * *

A Few Million of Them Could Restore Free Trade Prosperity

"It's said that smugglers once saved the trade of Europe when government regulations had brought inter-country trade to a standstill. Certainly, history proves that when governments interfere, trade declines," writes Joseph Lister Rutledge, Chairman of The Canadian Unity Council. Mr. Rutledge was commenting on the CCF's nine-point statement of policy on international trade published this month.

"The CCF program," stated Mr. Rutledge, "seems to be the usual mass of Socialist contradictions. The program proposes to facilitate trade by cutting out the one universal stimulus to trade, the hope of profit. The CCF plan poses the question, how much did the hasty imposition of socialist doctrines enable the British to provide surplus goods, or to produce them at a price for competitive sale abroad? This new CCF program is a socialist theory that seems to mean, 'Let's give everything away. Let's deliberately make ourselves as poor as possible so that we may never again have to be afraid that we will suffer a serious decline in our standard of living'."

* * *

Mr. Rutledge may be right in condemning the CCF's policy on trade, but he shouldn't forget the fact that trade restriction seems to have become a policy common to most nations and to all our political parties — the Tories still subscribe to the traditional "protective" tariff duties on imports, while Liberal finance policies in the name of conserving U.S. dollars are no less restrictive because of the different label. International trade will never prosper again until the nations remove these restrictions, and domestic trade can't prosper in the long run in the face of paralyzing international restrictions.

We're not advocating that people should break the law, but a few million smugglers would undoubtedly help a lot, just now.

Westmount Baptist

"Freedom From Our Frightening Fears" will be the title of the Morning Sermon in Westmount Baptist Church. Many lives are spoiled by the fears that occupy our minds and rob us of blessed peace. Some fears are wholesome. A Scottish proverb says "The burnt bairn dreads the fire", but many of the fears that haunt and torture us should never be permitted to ruin our happiness and spoil our lives. In his whole Ministry, Jesus enabled people to conquer the fears that depressed them. Christ and Christ alone can free us from these frightening fears.

The Church Bible School meets in two sections. The Upper School meets at 10 a.m. The Lower School, from the Nursery to Grade III, meets at 11 a.m. Parents are cordially invited to bring their children, who will be taken care of by most competent teachers, so that they themselves may attend the Church Services.

In the Evening Dr. J. A. Johnston will speak on "Finding Truest Happiness". Addressing King Solomon the Queen of Sheba said: "Happy are these thy servants". Every one of us may be truly happy. The word "blessed" in the New Testament means "to be happy". Think of the number of times that the word "blessed" was on the lips of Jesus. Christ can truly give to us "the Oil of Joy for Mourning and the Garment of Praise for the Spirit of Heaviness".

Another Baptismal Service will take place on Sunday Evening. On Sunday, November 6th., the Monthly Communion Service will be held, when every member is expected to be present. In this "Service of Remembrance" all are invited to participate.

Christian Science

"Everlasting Punishment" is the subject of the Lesson-Sermon to be read in Churches of Christ, Scientist, on Sunday.

The Golden Text is from Proverbs 15:29. "The Lord is far from the wicked; but he heareth the prayer of the righteous".

Among the citations which comprise the Lesson-Sermon is the following from the Bible: —

"And when Jesus departed thence, two blind men followed him, crying, and saying, Thou son of David, have mercy on us. And when he was come into the house, the blind men came to him: and Jesus saith unto them, Believe ye that I am able to do this? They said unto him, Yea, Lord. Then touched he their eyes, saying, According to your faith be it unto you. And their eyes were opened." (Matthew 9: 27, 28, 29, 30.)

The Lesson-Sermon also includes the following passage from the Christian Science textbook "Science & Health with Key to the Scriptures" by Mary Baker Eddy:

"The great fact that God lovingly governs all, never punishing aught by sin, is your standpoint, from which to advance and destroy the human fear of sickness. Knowing that Soul and its attributes were forever manifested through man, the Master healed the sick, gave sight to the blind, hearing to the deaf, feet to the lame, thus bringing to light the scientific action of the divine Mind on human minds and bodies and giving a better understanding of Soul and salvation. Jesus healed sickness and sin by one and the same metaphysical process." (Pages 412 and 210.)

Speaker At American Club Sees Canada As Land Of Charm

The meeting of the American Women's Club held in the Vice-Regal Suite of the Ritz Carlton yesterday afternoon, had as its guest speaker Mr. Walter L. Payne, the director of the Motion Picture and Speaker's Bureau of the Department of Public Relations of the Canadian Pacific Railways. His subject, "From Charm to Charm", dealt with the beauties of Canada, and a brief introductory talk was followed by the showing of natural color sound films and still views.

Though a native of London, England, Mr. Payne has been a resident of Montreal for many years and in his long service with the Canadian Pacific has acquired an intimate knowledge of Canada from coast to coast. He has lectured on the subject in the British Isles and in the United States, as well as in Canada.

Tom Moore, the famous Irish poet, described the Canada of 150 years ago as: "A mingled maze of nature's beauty, where fancy strays 'from charm to Charm' ", Mr. Payne said in his introduction.

Since those days, the speaker continued, the charms of Canada have increased a hundred fold, until today they prove an irresistible attraction for the tourist, sportsman and vacationist alike. No matter where one travels — from the Atlantic to the Pacific in Canada, there is charm. Thousands of United States citizens are well aware of that fact, and many have permanently established summer homes along Canada's shores among its mountains, and near its lakes. Even in some of the most unexpected places, said Mr. Payne, Americans are to be found who have discovered a location where the fishing, hunting, riding, skiing, or other facilities are just what they needed. Having made the discovery, they return annually.

These are the people who gladly leave the famed resorts across the border for the quiet charm of Nova Scotia and New Brunswick. Many make an annual pilgrimage to the Canadian Rockies and there are New Yorkers who set up their summer homes in far off Banff each year. From the great cities along the Pacific Seaboard hundreds of people regularly visit Victoria or Vancouver Island. The latter has the reputation of possessing more old English charm than any other city on the American Continent.

To prove the contrasting charms of Canada, Mr. Payne showed several motion pictures of Canada in natural colour, supplemented by a series of still views made on a recent trip to the Coast.

Mrs. G. W. Latham Honored By Club At Tea, Presentation

Immediately following the business meeting of the Notre Dame de Grace Women's Club on Friday afternoon, at Victoria Hall, a tea was held in honour of Mrs. G. W. Latham who has been a member of the club since its inception in 1922 and is this month celebrating her 80th birthday. Mrs. Latham originally organized the Parliamentary Procedure Group of the Club and has maintained her interest in this group which has benefited by her able assistance.

A letter of felicitations from the club to Mrs. Latham was read by Mrs. F. R. Murray and Mrs. George Shanks presented her with a corsage of yellow baby mums. After which the members all joined in singing "For She's A Jolly Good Fellow." Mrs. R. G. Bain then read a birthday card and presented Mrs. Latham with a table radio in appreciation of her untiring efforts on behalf of the club for all these many years.

Mrs. Latham in thanking the ladies for the surprise tea and beautiful gift, said that she would be reminded day by day of the affection expressed by the members of the Notre Dame de Grace Womn's Club. Mrs. Latham then proceeded to cut her pink and white birthday cake and tea was served by Mrs. A. L. Swinden and her committee assisted in serving by Mrs. N. B. Muir, Mrs. George Shanks and Mrs. J. W. Henderson. Yellow and bronze mums comprised the tea table decorations together with yellow tapers. Mrs. F. H. Sproule and Mrs. E. B. Forrest poured tea.

On the "Rue de la Montagne"

Last week some friends arrived from the Southern States. They loved Montreal. They wanted most of all to taste and experience real Parisian cuisine and service. Naturally, we headed straight for the CAFE MARTIN, Mountain Street, Canada's Smartest French Restaurant where the tradition of fine food and wine lives. Leaving the car with the Doorman, we entered by the Sea-food Cocktail Bar; where we were greeted by Jacquiere, a fixture since 1927 — always the same, knows everyone's taste — "Of course", we tell him "we just came to gaze at the seascape mural", a beauty. Upstairs, in the gracious dining room, an air of pleasant gaiety reigns. We ordered a truly French dinner in the beautiful Flamingo Room. There are three floors all air-conditioned. Mr. Rosaire, the new manager, formerly of the Outremont Club, wished us "Good evening!" What a dinner — the soup — the sole au Meuniere, as only a French artist can prepare it — the sauces the very height of gustatory delight — the coq au vin avec champignons simply wonderful — every thing right through a superb repast in the most impeccable good taste. Vive la France! Our guests were impressed. Here is real promotion for brotherly affection. We liked the historic prints on the menu folders, of crinolined ladies, gallants, connoisseurs of fine living and noted, too, the table d'hote for a future luncheon, including hors d'oeuvres and dessert. We lingered over our demi-tasse enjoying the sheer grace of things well done, even to finding our car brought around at the exact moment we were ready. I'm sure we passed the Louvre on the way home — or did Benjamin Franklin nod his approval? CAFE MARTIN, Mountain Street, just below Sherbrooke. For special party reservations — MA. 7525.

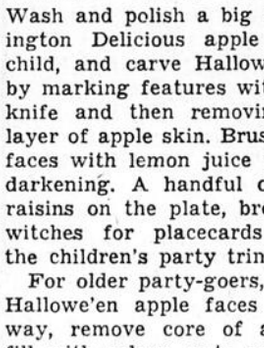
Nothing New Under the Sun



Dull individuals who look upon eating as a necessary evil rather than an agreeable pleasure might revert to the very ancient custom of eating their COFFEE as the nomads did crossing the desert. They did not fear lack of food between the distant oasis as they sustained themselves with COFFEE balls — crushed COFFEE berry with added fat molded into a spherical shape the size of a billiard ball, the first concentrated food pill. To this day there are some nomad African tribes who still use COFFEE in this form. Eating COFFEE came first, then later it was made into a wine, then a medicine before the practice of reducing the COFFEE to a powder in mortars was established and using it as a drink. But only dull people would think of sustaining themselves this way, unless they got a whiff of our modern BOKAR, the zenith in COFFEE development. Buy it at the A & P where it will be custom ground for your mode of making. BOKAR with the winey, vigorous flavour, RED CIRCLE, rich and full bodied, and 8 O'CLOCK, mild and mellow. How about a cup right now?

Where Does Maurice Chevalier

Prince Bernhardt of Holland, John London, Luis Marianno, W. Malquizinski choose to dine in Montreal? Why at the cafe LA TOUR EIFFEL on Stanley Street, up a few steps from St. Catherine; where the cosy atmosphere takes them home to the Parisian Bistros — where the best Table d'Hote in the City is served, where the wines and liqueurs are found at reasonable prices. It is the favourite spot for actors and actresses, writers, financiers, all who enjoy the pleasure of eating — gourmets from all ranks. Here you may be seated beside the Seine or look up and see the Can-Can Girls of the Bal Tabarin, as the murals are startlingly life-like. Here also, is the longest bar in Town. Ralph Rotten, the Maitre d'Hotel will take care of you — the waiters wear French livery of the Continent and probably most important, the Chef Raymond, formerly of the Chanteclerc and Ritz Carlton, prepares the succulent dishes for your choice on an elaborate menu. So very distinguished is his art that in a Journal addressed to the Hotel Industry it is his recipe given for Brome Lake Duckling, braised with orange sauce à la Bigarrade. I have a mouth-watering menu beside me and am already picking out a reasonably priced meal. A comfortable-satisfying luncheon is served. Look for the Eiffel Tower outlined in lights. There is a private dining room with a capacity for twenty-five upstairs. LA. 6575. LA TOUR EIFFEL, Stanley, a few steps from St. Catherine.

Transform Apples Into Hallowe'en Faces

Red apples always belong in the Hallowe'en picture. For the youngest set, Hallowe'en faces on bright red apples turn healthy fruit into wonderful party refreshments. Wash and polish a big red Washington Delicious apple for each child, and carve Hallowe'en faces by marking features with a sharp knife and then removing a thin layer of apple skin. Brush cut surfaces with lemon juice to prevent darkening. A handful of nuts or raisins on the plate, broom-riding witches for placecards complete the children's party trimmings.

For older party-goers, make the Hallowe'en apple faces the same way, remove core of apple, and fill with celery, nuts and mayonnaise mixture for a Bewitched Waldorf Salad.

Apple Custard Pie
(Serves 6)

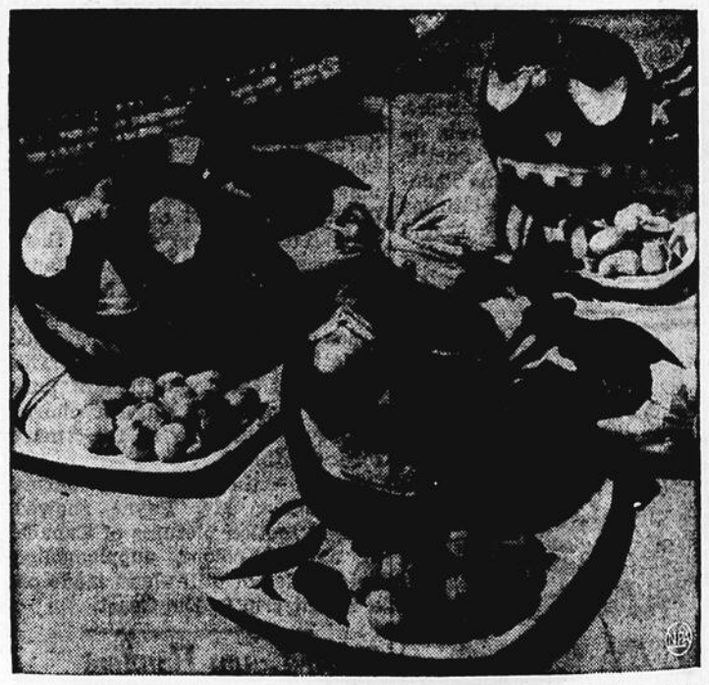
Two eggs, 2 teaspoons flour, ½ cup sugar (or more if apples are very tart), nutmeg, 1½ cups applesauce, unsweetened, ½ cup cream or evaporated milk.

Beat the egg yolk. Blend flour and sugar. Add to applesauce and then to beaten egg yolks. Add cream, flavor with nutmeg and beat thoroughly. Bake in a single crust until set as a custard. Bake first in a hot oven, then lower heat until set. Cover with meringue, made from egg whites, and brown at low oven temperature.

Jellied Ham Mold

Three and one-half cups ground cooked ham, 2 tablespoons gelatin, 3 cups consomme (use canned consomme diluted with equal parts of water; or use bouillon cubes or meat extract dissolved in water, 1 teaspoon or 1 cube to a cup of hot water), 1 tablespoon horseradish, 2 teaspoons prepared mustard, 1 tablespoon minced onion, dash pepper.

Soak gelatine in a little cold water, if necessary (see package label). Heat consomme and add gelatine, stirring until dissolved. Let cool, then add seasonings. Place in refrigerator; when mixture beings to thicken, stir in ground ham (or ground luncheon meat or canned chopped ham). Pour into mold (loaf pan, ring mold, or decorative mold) which has been oiled with salad oil or rinsed with cold water (oiling makes unmolding easier). Garnish with radish roses and watercress or parsley.



FUNNY FACES—Big red Washington Delicious apples can make some hilarious Hallowe'en decorations.

Fish or fish croquettes can be made more flavourful by rolling them in crumbs made from crushing corn flakes before frying.

Mr. Salvatore Vistarchi, prominent local builder and contractor, is pictured above with his wife and their daughter, Joan. Mr. and Mrs. Vistarchi plan to sail from New York on November 14 for Genoa, Italy, via the S.S. Saturnia, for a four months' visit with relatives in that country. They will also visit Switzerland and France before returning on the S.S. Vulcania about March 15.

Mix Ingenuity With Recipes For First Meal Of The Day

Once again we remind you — you need a good breakfast!

A good breakfast is not skimpy. It contains foods that "stay with you." One-fourth to one-third of your daily food should be included at breakfast time.

The breakfast menu can easily be as varied as that for any other meal. It's easy to use different fruits, different breads, and egg and meat combinations.

One American favorite is French toast with bacon. The double job is easy if you bake the bacon and give yourself time to turn out the toast.

Baked bacon is delicious and requires no watching or turning.

Baked Bacon

Lay bacon strips on rack in shallow pan. With a knife or fork handle, push down bacon slighty between grooves of the rack to make it ripple. Then bake at 400 F. 12 to 15 minutes.

Another all-time favorite is ham and eggs. And here's something new and different on that score.

Fluffy Eggs and Ham Slices

To Prepare Fluffy Eggs—Separate eggs. Add salt to whites, using about a scant ⅛ teaspoon salt to each white. Beat until stiff and glossy. Pile on rounds or squares of toast placed on baking sheet. Drop egg yolk into a hollow made with back of spoon. Bake 8 to 10 minutes in moderately hot oven (400F) until whites are tinged with brown. Serve promptly.

Using a new, quick corn meal mush recipe, how about steaming bowls of the delicious porridge with a golden lump of butter in the centre, or with milk and sugar? This new recipe cuts cooking time from 30 minutes to less than 10.

For two delightful breakfasts, double the mush recipe, serve hot mush for breakfast, chill the remainder, and serve fried mush the next day.

Corn Meal Mush

1. Mix 1 cup enriched white corn meal with 1 cup cold milk.

2. Bring 2 cups water and 1 cup milk to boil. Add 1 teaspoon salt and the corn meal mixture. Cook until thickened, stirring frequently.

3. Cover and continue cooking over low heat 5 minutes or longer stirring occasionally. Serve with milk and sugar.

Fried Mush

Pour cooked corn meal into loaf pan. When cold, cut into ½-inch slices; pan fry slowly on lightly greased skillet or griddle until golden brown. Serve hot with sirup or honey.

Variations:

Cheese — Stir 2 cups grated American cheese into cooked corn meal before pouring into loaf pan.

Ham — Stir 2 cups ground cooked ham and 1½ teaspoons prepared mustard into cooked corn meal before pouring into loaf pan. Good for lunch or supper.

For more and better variety, here's a handy clip list of good breakfast ideas:

1. Pork sausage links or patties with fried apple rings. With it: grapefruit halves, hot beverage

2. Bacon strips with top-of-the-stove omelet. With it: baked apples, raisin toast, hot beverage.

3. Fried ham and eggs. With it. orange juice, toast or rolls, jam, hot beverage.

4. Canadian style bacon with poached eggs on toast. With it: tomato juice, hot beverage.

5. Leftover ham or frizzled dried beef in scrambled eggs. With it: blended juices, toast, hot beverage.

6. Creamed dried beef on toast (add a beaten egg for extra richness). With it: stewed fruit, hot beverage.

7. Corned beef hash or luncheon meat with eggs. With it: fresh pears, muffins, hot beverage.

8. Bacon waffles. With it: orange juice, sirup, hot beverage.

Popular Radio Show Returns

"Opportunity Knocks" the C.B.C. popular talent show will return to the Monkland Theatre on Monday, October 31, at 8.30 p.m.

This is the show's second run in Montreal; the first 13 week run uncovering so much local talent that the director John Adaskin came back to give more professional artists a chance for new laurels.

Since the first show in July, 1947, 2,000 people have been given auditions and 400 have given network appearances. Of those appearing on the air, it is estimated that one-third have attained professional status.

During the first 13 weeks series held in the Monkland Theatre, 50 young artists were presented, which included radio announcers, opera singers, popular singers, impersonators, comedians, violinists, pianists, and one bop drummer.

INNOVATION

Alan Ladd is somewhat of a tinkler. After completion of Paramount's "Chicago Deadline," Ladd got out his hammer and nails and made wife Sue Carol a novel compartmented closet to hold her hand bags. This means she need no longer crowd them into her bureau drawer.

AT THE WESTMOUNT

Fred Astaire and Ginger Rogers as the temperamental husband-and-wife musical-comedy stars in "The Barkleys Of Broadway," new Technicolor song-and-dance hit which starts Sunday at the Westmount Theatre.

Musical And Romantic Drama Westmount Twin Bill, Sunday

The big news of M-G-M's exhilarating new Technicolor musical, "The Barkleys of Broadway," which opens Sunday at the Westmount Theatre, is that it reunites the captivating team of Fred Astaire and Ginger Rogers whose work together in such pictures as "Flying Down to Rio," "The Gay Divorcee" and "Top Hat" gave the screen some of its finest song-and-dance productions.

Their reunion picture presents them with a breezy, fast-paced scintillating comedy-romance.

The story casts them as Josh and Dinah, the Barkleys of the title, and a couple whose married life is as successful as their teaming on the Broadway musical-comedy stage, despite the fact that it vacillates between stormy quarrels and impulsive kisses.

An additional musical highlight is pianist Oscar Levant's playing of the popular Khachaturian "Sabre Dance" and Tschaikowsky's "B Flat Minor Concerto," the last with a 100-piece symphony orchestra. The double-talented Levant, incidentally, has one of his most felicitous comedy roles as the blonde-addicted friend of the Barkleys who tries desperately to patch up their differences.

Others in a topnotch cast include fluttery Billie Burke, Gale Robbins and Jacques Francois, the personable French screen star making his American film debut in the role of the romantic playwright.

Second Feature

A brooding atmosphere of mystery and suspense forms a fascinating backdrop for the pulsating romance between Robert Taylor and Ava Gardner in "The Bribe", which is the added attraction.

Laid in a picturesque island fishing village off the coast of Central America, with its pivotal characters a government agent and a girl whom he suspects of being a member of a gang of swindlers, here is ideal material for trigger-quick screen drama. It is a tense, driving story that weaves its mystery, its unusual romantic motivations and its surprise climax into a creditable whole, with a plot marked by sometimes sinister, sometimes eccentric but always contrasting and arresting personalities.

Technicolor "Little Women" With "Whiplash" At Seville

One of the year's finest motion pictures is being offered to Seville Theatre patrons on Saturday with the showing of the star-studded filmization of "Little Women". Read by millions, the beloved Louisa May Alcott story of a happy little family has been brought to life in celluloid terms enhanced by Technicolor and illuminated with heart-warming portrayals.

Every member of the discerningly-chosen cast fits his and her part like a glove. June Allyson is perfectly suited to the role of the tomboyish Jo, who sacrifices her lovely hair in order to provide Marmee with the money to visit their wounded soldier-father, who defies convention, loses her beloved Laurie but ends up with both a husband and a career. Peter Lawford offers a bracing portrayal of the impetuous Laurie, Margaret O'Brien is a touching little Beth, Elizabeth Taylor sparkles as the radiant Amy, Janet Leigh lends quiet dignity to the part of Meg, eldest of the girls.

Then we have Mary Astor as the sympathetic Marmee; the noted Italian actor, Rossano Brazzi, making his American film debut as Professor Bhaer who solves Jo's romantic problems, Lucile

Memorial Exhibition Tilt Set For West End Campus

By BUD PATTON

Possibly the biggest athletic display to be seen around these parts in the past few seasons, will be on parade this Saturday afternoon at the Loyola Stadium, when the Loyola College Warriors of the Ottawa-St. Lawrence Valley Conference play host to the St. Michael's Purple Knights from Vermont in an international exhibition football game.

This Memorial Bowl Game is being sponsored by the Loyola Alumni Association in honor of the former Loyola students who fell in the Service of their Country during the two World Wars.

Among the honored guests in attendance will be the American Consul General and a representative of the Governor of Vermont. Several dignitaries are coming up from Burlington and high officials of the three Armed Services will be in attendance. Two bands are also slated to put in an appearance.

The Purple Knights are members of the Eastern College Athletic Conference and are rated as a top-notch College eleven on the East Coast. This exhibition will mark the first time since the turn of the century, that an American and Canadian College football team have locked horns in an International encounter. This season the Purple Knights have many of last year's Lettermen back in the fold, and are held in high regard by their opposition below the border.

Doc Jacobs Coach

The man from the Hilltop who guides the destinies of the Purple Knights is Doc. Jacobs who previous to coaching St. Michael's, was on the coaching staff at Villanova. During his ball-playing career, Jacobs was an outstanding player in the Eastern Pennsylvania League and knows his football thoroughly. The odds will be in his favor when Jacobs brings his squad here, to play the Warriors, since the contest will be played under All-American rules.

Assisting Head Coach Jacobs is Bill Piscione. Piscione is well acquainted with Jacob's methods, having played under him at Villanova before graduating and shifting to the Hilltop to help Jacobs develop the football at St. Mike's, thus enabling the Irishmen to boast one of the better teams among the smaller Colleges in the Eastern U.S.

Lettermen Back

Among the Lettermen appearing in the Memorial Bowl Game for the Purple Knights will be Jack "Rabbit" Daly. Last year Daly was the top ground-gainer on the American squad. This is indeed surprising since Daly weighs in at only 140 pounds, which is exceptionally low for a team that boasts a number of linemen above the 230 pound mark. Another of the ace backs starting for the boys from Winooski Park, will be John Heggarty, a big triple-threat boy, who can do almost anything with a pig-skin. So far this year, Heggarty has been averaging close to 40 yards per kick, which ranks with some of the best in Canadian Intercollegiate football.

Bicycle Derby Gets Underway November 5th

Bicycle racing is one sport which knows no borders; is truly international in scope and has a background of many traditions. Thus the international derby sponsored by the Cavalcade of Cycling with aid to the Polio Fund Canadian Legion, which starts at Verdun Auditorium November 5th, is steadily expanding in public appeal.

For the first time on the North American Continent the Verdun classic of the pine boards will number women as well as male riders and fourteen attractive and proficient female riders are arriving by Trans-Atlantic steamers at New York next week to compete in this event which is being promoted by James Proscia, veteran six day bike rider in his own right associated with Canadian Sportsmen.

GAL STARS

Among the European girl stars are such noted experts of the spinning wheels as England's Margaret Sutcliffe, motor paced champion, Lucette Lauk, French-Jewess, the Ronucci sisters, Ida and Paule, and Isolina Bettuzzi all of Italy.

Seven of these European feminine stars are arriving aboard the Ile de France at the Manhattan Pier of the French Line, next Monday. Others will be on the De Grasse and the Washington.

Flinging Frankie Filchock, accompanied by Hamiltonian George Festergya, made quite a hit up at Iona School last Thursday afternoon when he gave a brief talk on football and answered a barrage of questions .... The Snowdon Senior Fastball League mogus, a term used to describe the gentlemen who run the teams, held a meeting recently to mull over possibilities for the positions of president, vice-president and executive committee member being left vacant by the impending resignation of Messrs. Clary Booth, Harold Bowen and Ken Smith. They're not ready to make any announcements yet.

Another big football week-end looming for Montrealers with the local spotlight on the Loyola-St. Michael's tilt set for the west end campus Saturday afternoon. This is the much-publicised exhibition fray which will be played entirely under American rules. It's one of the progressive steps the Maroon and White are taking under the energetic leadership of Bill Orban, the bespectacled man from the west, along their march to big time athletics status . . . Sunday the Alouettes play host to Tom Casey and his Wildcat cohorts at Delorimier Downs. The Als are hoping that the Wildcats leave their pugnacious fans in the Ambitious City . . . Still on the grid menu is McGill's trip to Kingston for their second contest in eight days against Queen's. Barring a dose of overconfidence, Vic Obeck's well conditioned charges should take this one. The Redmen failed to impress against the Gaels last Saturday — despite that 17-1 score . . . The tilt that McGill fans are really looking forward to is slated for November 12 — when Johnny Metras will lead his Western Mustangs into the Obeckian corral.

W.H.S. Gridders Host to McGee This Afternoon

By ALLAN SANDZELIUS

Today at the Westmount Athletic Grounds the Westmount High School pigskin chasers under the mentorship of Jim Patrick, will play host to D'Arcy McGee in the second last game of the High School's Senior "A" Football League's season. As Loyola College racked up their first win of the season at the expense of Westmount High last week, they threw away hopes the locals had of garnering a championship this year by defeating the Westmounters 16-12.

The individuals who were most responsible for the scoring for Westmount were Shugrue, Ferrabee, and Hannaford; for Loyola: Austin and McMullen. 11-1 was the tally at half time in favour of Loyola but was quickly overcome by the locals as after Crombie had rouged Austin for a point in the first quarter, Derek Hannaford and Harry Shugrue both crossed the goal line for majors (Shugrue playing under a handicap of having been in an accident during practice the day before and was still a little groggy) while captain Ferrabee notched the single convert. Austin was the hero of the day for the collegians as he romped over twice to score 10 points as McMullan tallied the other singles.

POSTCRIPTS

Say! did we hear a sound of "crrunnch, crrunnch"? could it be that there's some "paper dolls" in the line! . . . it was a treat to watch Mike Crombie catching all those passes, too bad it didn't happen before . . . newcomer Austin (Ricky to you) of Loyola was really outstanding for his team: he's very fast, very tricky . . . little Dave McDougall can certainly call those signals, what a voice!

Westmount Warriors Bow Out Of Junior Picture

BY BOB LUNNY

N.D.G. Maple Leafs marched into the Q.R.F.U. Junior finals last Saturday by running roughshod over Bruce Johnson's Westmount Warriors 20-5 in a hard fought grid tussle at the Athletic Grounds. The Maple Leafs kept their unblemished record intact with six straight wins.

The winners will now meet Rosemount Bombers in the finals. Rosemount downed South Shore last Sunday.

Jim Lawson was the star for the locals when he romped to a 62 yard touchdown for the Warriors only points of the game. Coach Johnson has been very satisfied with his boys this season. They show plenty of promise and should be a top contender next year.

The Warriors will have most of this year's squad back again. The Maple Leafs stand a fair chance of winning the Eastern Canada Championship. Both teams have been keen rivals for the last few years with the locals winning the honors last year. This grid season was the best in years in the financial department. After last Saturday's game the Westmounters heartily congratulated the winners and wished them luck in their final game tomorrow. Coach Johnson has done a wonderful job on the Warriors and he should be congratulated for his fine spirit.

Queen's Warriors Defeat St. Leo's

Queen's Warriors defeated the St. Leo Blues 11-1 in the Municipal six man rugby league, Bantam section, last week. This was the Warriors fifth straight win.

A CLOSER RACE

At the half-way mark of the intercollegiate grid race, it is still anybody's championship with three teams, the University of Western Ontario, the University of Toronto, and the University of McGill still in the fight for the title. Only Queens, the weak sister of the lot, have yet to break into the win column, although the Golden Gaels have come close twice, losing a squeaker to Varsity, 22-21 in the seasonal opener and dropping another 16-11 to Western the next Saturday.

Despite their opening 14-12 loss to the Mustangs from London, Ontario, McGill's Redmen must now be rated as a definite threat to the championship as a result of successive humiliations of Varsity and Queens. This comes in the nature of a surprise to Montreal grid fans, who hadn't seen a winning Red machine since the championship aggregation of 1938. The surprise is even more pleasant through Coach Vic Obeck's pre-season statement that his team was still a year away. If the team that led Western at the half, 12-0, only to lose, and then came back to whip Varsity, 22-13, and Queens, 17-1, is still a year away, they should be the best football team in Canada next year.

Obeck, ex-professional lineman and a former assistant coach at Columbia University, has done a masterful job with this year's McGill team, a remarkable about-face after his two disastrous seasons here in 1947 and 1948. But this year he has had the men. Harry Irving and Jim Mitchener from the West, Dave Hackett and Dave Caldwell from New England, and such Montreal high school graduates as Haskell Blauer, Cylde Whitman and George Valois, all have starred for the Redmen.

An Obeck clustered the boys together for a solid month of football fundamentals in the Molson Stadium Field House before the season started and this radical manouver had paid off with interest The boys got to know each other better and it has shown in their teamwork on the field. This year's Red edition is a football machine, with the players acting as the cogs in a performance that so far has been nearly 100% efficient.

Even so, the Redmen have had tough sledding to win 2 of 3 games, in the closest league race ever, as, last Saturday, the Presbyterians from Kingston held McGill to a 6-1 count at the half. And the Gaels twice had first downs within the McGill ten-yard line in that first half, but both times very sloppy quarterbacking and a staunch McGill line kept them from crossing the line. Queens missed their injured quarterback, Al Lenard, more than they thought they would, substituting Dave Bryane, one of their regular running backs into the signal-calling slot. As a quarterback and passer, Bryane is a fine running back. The only time the Gael attack showed any versatility was when Don Bahner, the second-string q.b., was in the ball game.

Queens, a big, strong club with wonderful potentialities, looked like the worst-coached football team ever to appear on the Molson gridiron, but even so, they threatened to upset McGill, a precisely moving machine, until George Valois broke over tackle and went all the way from the McGill 28-yard line. The Presbyterians lacked variety in their plays, and always seemed to have a key man, either Ross McKelvey or Jack Sisson, sitting on the bench when he could have been used on the field. In contrast to the smooth-stepping Redmen, the Gaels were rough and unsteady and that was what has lost them three games this year.

Given a dry field and good running conditions, in direct contrast to Molson's slidy gridiron on Saturday, it seems possible that the Redmen might double their previous score against the Gaels in the return battle at Kingston day after tomorrow. Lenard isn't expected to play in that game either, which is an example of Western doing McGill a sort of back-handed favour, for it was in the Western game that the Presbyterian's best back suffered the back injury which has kept him on the helf. Without Lenard in there, Queen's tend to become a demoralized team, little better than a second-rate aggregation.

Anyway, it should all boil down to the final game on the schedule, McGill vs. Western, in Montreal on November 12, for the league championship. If McGill can beat the Purple and White on that afternoon, a playoff for the title will be in order, whereas, if Western repeat their earlier victory, it's their championship. That one should be a real football game.

Westm't Ski Club Will Increase Fees This Ye r

The best news that came out of the first Westmount Ski Club meeting this year was the financial report by Frank Reiffenstein. At the other end of the stick, it was agreed by the club philanthropists that the fees should be raised to $2.00 for juniors and students, and $3.00 for seniors, the increase to help pay for the rental and operation of the new electric rope tow.

The number of directors has been increased from nine to twelve. Andy Hamilton announced his retirement from his post as vice-president and head of the Tours and House Committee. It is going to be a job to get someone as capable as Andy.

The Thursday night grind for the winter-time week-end athletics is starting in earnest this week. The date for the annual club show has been set for November 30 to December 3.

After the meeting some of the candidates for the ski team got together to discuss plans for the competitive season. Because of the very keen competition in the races, every effort will be made to put out the best trained team in the zone. If you are willing to make a stab at making the team in cross country, jumping, downhill or slalom, or if you have friends who are, get in touch with Ragner Hvoslef as soon as possible. Girls as well as boys are welcomed.

John Lewis is at it again. This time he is plotting to have two small additions to the club house nearby to take care of the flotsam. There is also a good chance of the club renting the electric tow and lights behind the house for unlimited use by all members — for a small seasonal charge. To top it off our good president is also working on a scheme for a ski pro for the week-ends up north.

Widening of the "Westmount Run" on Mont Gabriel starts in earnest on Sunday, when the boys start chopping trees. Bring a sharp axe with you.

Social Notes: Ted Earl entertained a few of his club-member friends at his home at Mont Gabriel. The house is still there. Sandy Edmison off for a week's hunting. Thorny Pickering, Harry Pangman and Norrey Owens look-

Red Riding Hood First Children's Show Of Season

"RED RIDING HOOD"

Little Joyce Mackenzie, of the Town of Mt. Royal, who plays the title role in the Children's Theatre Show "Little Red Riding Hood", Sat. afternoon, Nov. 5th, at Victoria Hall.

Montreal children are excitedly awaiting the first big Children's Theatre show of the season. The curtain will rise on Saturday afternoon, November 5, when Montreal's talented juveniles, directed by Dorothy Davis and Violet Walters, will give the initial presentation of the season.

"Once upon a time there was a little girl, and her name was Red Riding Hood" — Echoes of that famous old tale, told by our grandmothers and great grandmothers, still drifts down the halls of time. The story of the little girl with the pretty hair and sunny smile who typifies the gladsome grace of childhood. Now for the first time, she will be seen upon the stage in Montreal, and with her, Granny, the Green Huntsman, and the Big Bad Wolf.

Many other characters, ludicrous and ethereal, also people this entrancing play — the kind of fairy folk which delight the eye and enchant the childish heart. There is Topsy, the little black adopted waif, whose general confusion and bravado carry much of the comedy, and Miss Fussbudget, the veritable Job's comforter, who can be very deaf upon occasion.

In the second act, Red Riding Hood falls asleep in the forest, and here a colourful panorama unfolds from the misty shadowland, as spirits of trees and flowers sway down the avenue of dreams.

Jean Low, stage and radio playwright for the Children's Theatre, from whose pen has come this entirely original version, is no tyro in the art of understanding children. On every occasion, she has mingled with the juvenile audiences at Victoria Hall, questioning the youngsters, listening to their opinions and observing their re-actions. The result of these experiments is a comedy fantasy with a tender humour and fairy-tale flavour that leaves nothing to be desired in the way of an excellent entertainment. The two performances, to be given at Victoria Hall on Saturday, November 5th and 12th, have excellent casts.

Dorothy Davis and Violet Walters, the directors of the Children's Theatre, always eager to give their pupils an opportunity of displaying their talents, have used many of the old time favourites, but many of the up and coming young thespians will be seen for the first time.

For the Saturday, November 5th, performance, little Joyce MacKenzie, will be seen in the title role of Red Riding Hood, while Jessica Gelber gets her first big role as the little coloured waif. In the following Saturday's show, Stephanie Stern makes her bow in her first big role, as Red Riding Hood, while Rhoda Margolick plays the waif.

Memo..a! . . .

(Contiaued from Page 18)

George Maloney is a first year man with the St. Mike's Varsity crew. He started with the Frosh team last fall and has been displaying great ball this year with the Purple Knights. Maloney is a big, 190 pound guard, who should be very much in evidence this Saturday at Loyola.

The field-general and passer with the boys from Vermont is Eddie Krupinsky, the 170 pound quarter. Krupinsky is in his third season with the Purple Knights, and together with half Bob Knight forms one of the most feared passing combinations in the E.C.A.C. Knight and Krupinsky have covered themselves with glory during the past few seasons, and will be showing Canadian fans what an American pass looks like.

Starting for the West-end Warriors will probably be Bill Gutelius, the hefty 6'1" centre. The Guards along the Warrior front wall will be Norm Shamie and Rog Gardner, the big American boy from Massachusetts. At tackle will be Igor Bossy, in his second year with the Warriors and 6-foot 200-pound Jack McLaughlin the former High School ace. Jerry Kasper and either Gil Mayville or Don Gagnon are slated to start at end.

Herb English will be at his usual quarter-back spot, with John Antonescul, shifty Jerry McGee and Arnie Hannouch, the Warriors' 197-pound plunger on the half line. Gil Boudriau will likely start at the flying-wing position.

Head Coach Bill Orban, the mild, unassuming West-end mentor is not saying too much regarding the outcome of the exhibition contest, but sources close to the College say that Orban will have a few surprises for the Purple Knights from Vermont, when they line up against the Loyola College Warriors in this week end's Memorial Bowl Game **at the Loyola Stadium, this Saturday, October 29th.**

Watson as the overbearing Aunt March, the veteran C. Aubrey Smith as Mr. Laurence, who takes the shy Beth under his wing; Elizabeth Patterson as the blustering maid-of-all work, Leon Ames as Mr. March, Harry Davenport as Dr. Barnes and Richard Stapley as the young tutor with whom Meg finds happiness. All of the performances have the warmth and tenderness with which Miss Alcott peopled her famous story.

A happy-go-lucky young man, and his love for a beautiful woman provide the running drama of the film, "Whiplash", starring Dane Clark, Alexis Smith, Zachary Scott and Eve Arden, which will be the added attraction.

Lew Seiler directed this briskly-paced drama of raw emotions which unfolds for the most part against the Monterey coastline, then to New York where Clark becomes involved in gunplay and a sinister gang of mobsters. Miss Smith plays the night club singer who falls in love with Clark.

Jeffrey Lynn, S. Z. Sakall, Alan Hale, Douglas Kennedy and fighter Fred Steele are prominent in the supporting cast.
