BLOCKED BY AUDITOR-GENERAL

Recommendation of Treasury Board in Regard to Lt.-Col. Steel's Superannuation Objected to.

(Special to the Star.)

OTTAWA, April 30.—The Auditor-General has blocked the granting of superannuation to Lieut.-Col. Steele. Superannuation, the statute says, may be granted on account of old age and broken health, or retirement, or for motives of economy. Neither of these applies to the case of Lieut.-Col. Steele, but the treasury board recommended superannuation for special reasons. The Auditor-General declines to recognize this as coming within the meaning of the act, and there the matter stands for the present. Lieut.-Col. Steele is 52 years of age, and has served 22 years as an officer in the Mounted Police. For this term of service his superannuation allowance would be $582 per annum.

HALIFAX GARRISON.

A Military Station Since 1749, It Is Likely Soon to Pass Under the Control of the Admiralty.

A GREAT NAVAL STATION.

Factory May Be Built in Suburbs of City for Manufacture of Ammunition and Arms—Admiral Will Replace the General.

(Special to the Star.)

HALIFAX, N. S., April 30.—Following the announcement recently made that extensive works were to be constructed in Halifax this summer comes the report, on what is considered excellent authority, that Halifax will soon cease to be a military station, and that it will pass into the control of the Admiralty. Halifax has been a military station since 1749, but every indication seems now to point to its being under the command of the Admiralty. In fact, it is given out that the matter has already been settled as between War Office and the Admiralty.

It is proposed to make Halifax one of the greatest naval stations in the world, and in addition to the men of the fleet, there will be a reserve consisting of from 1,500 to 2,000 sailors and marines, of which 600 will be marine artillery. This naval reserve force will be always retained here. According to information received the Royal Engineers will be detained here also, and will continue in charge of the sub-marine department.

The Royal Marine Artillery, belonging to the reserve force, will be required to man the forts, and will, when considered necessary, be assisted by sailors, as it is known that none can handle the big guns better than the "Jacks," as recently proved at the siege of Ladysmith.

It is proposed to station in Halifax what is know as a Royal Garrison regiment. This will be recruited from time-expired men, who will be required to serve four years before going on the regular reserve. The garrison will be subject to orders from the Admiralty, and the Admiral will take the place of the general here. The same will apply to Bermuda.

It is also stated that the works at Esquimault, which are partly protected by Blue Jackets, will also be under the command of the Admiralty. This will do away with the friction between the military and the navy in British Columbia, which more than once resulted in tragedy.

A military officer stated that he would not be surprised to hear that the Imperial Government had decided to erect a factory in the suburbs of Halifax for the manufacture of ammunition and small arms.

BOERS' BAD PLIGHT.

Those Who Are Surrendering at Standerton State That Fifty Per Cent. of Burghers Want to Surrender,

LONDON, April 30.—The Boers, who are surrendering at Standerton, are in a wretched condition. Many of them are wearing trousers made of blankets. They state that fifty per cent. of the burghers in the field desire to surrender, but cannot escape from their commandos.

The British raiding parties have been successful in capturing cattle within the Boer lines and from their laagers.

The Daily News says there is reason to believe that General Kitchener has kept alive the peace negotiations with Commandant-Gen. Botha, and they will possibly take a more active form, but that two obstacles to an understanding—Sir Alfred Milner and the treatment of the Cape Rebels—have not been removed.

It is persistently reported at the Military Clubs, that General Sir Redvers Buller, on the publication of the official Gazette, in which Earl Roberts damned him with even less than faint praise, applied to the Secretary of State for War, for the appointment of a Court of Enquiry. The Secretary promptly refused, General Buller then took a remarkable course, complaining direct to the King who declined to interfere. It is confidently asserted that General Buller will shortly be placed on the retired list.

A despatch from Durban says: The Prime Minister of Queensland has been entertained there. At the reception given in his honour, representatives of the Canadian Government spoke. They said they were investigating matters connected with the trade between Canada and Natal and were seeking means to improve the commercial relations between the two countries. They claimed that Canadians could supply as good products as the Americans and that they were more honest in their dealings.

LAST BROCKVILLE MAN HOME.

Richard Turner Returns Home and is Deaf as a Result of an Attack of Enteric.

(Special to the Star.)

BROCKVILLE, April 29. — Richard Turner, a Brockville boy, who fought with the first Canadian Contingent in South Africa, has returned home. He is the only Brockvillian who has in any way suffered as a result of his experiences in South Africa, and his case is a pathetic one, as the young man is totally deaf, caused by an attack of enteric fever contracted at Kroonstadt. He lost his speech for some time and has regained it, but the doctors hold out no hope of his recovering his hearing. Crossing to England, he was treated in the hospital at Rochester, and sailed from Liverpool on the steamship Lake Champlain. Turner is otherwise in excellent health.

WAR NOTES.

The transport Manila has sailed for Bombay with 1,000 Boer prisoners.

Six natives were killed and 16 injured in a railway accident near Caledon, Monday.

General Sir Archibald Hunter has been appointed to the command of the forces in Scotland, and General Ian Hamilton has been appointed military secretary to the War Office.

The Boer invaders under Commandant Scheepers, burned down a fine homestead in the Somerset east district, because the owner refused to swear that he would observe neutrality. Commandant Scheepers formerly lived on the adjoining farm.

Got Lame Back?

No need of that now. That sort of pain can be knocked out in short order, for Polson's Nerviline, which is five times stronger than any other, penetrates at once through the tissues, reaches the source of suffering, drives it out and thus gives relief almost instantly. ST. REGIS TROUBLE.

Indians Have Got the Idea That Leases of St. Lawrence Islands Have Expired and Take Possession of One.

THEY SAY THEY WILL HOLD IT.

The Department is Equally Determined That They Will Not, and There Promises to be Some Unpleasant Proceedings.

(Special to the Star.)

CORNWALL, Ont., April 30.—The old Indian trouble is giving promise for further annoyance to the Indian Department, and the present complexion of the difficulty is more serious than most people imagine. Last winter, in the month of February, the Indian Chiefs of the reserve got information that the leases of the Islands in the St. Lawrence had expired in August last and they immediately set about to get possession of the land. As an experiment they made a bee and moved the wigwam of one of their number, Jake Skin, to Colquhoun's Island, about two miles across the ice. When the executors of the Colquhoun estate became aware of this move they placed the matter in the hands of the law firm of Leitch, Pringle and Cameron, who communicated the facts to the Indian Department at Ottawa, and they deputed one of the officials to come to St. Regis and try to convince the chiefs that they were wrong in assuming that the leases had expired and that the property had reverted to them.

PRODUCED THE LEASES.

The official produced the leases signed by the Chiefs to establish the right of the Colquhoun estate to the land, but it was of no avail, and the chiefs refused to remove their man. Colquhoun's Island is a summer resort, situated in the centre of the St. Lawrence and about three miles distance below Cornwall, and is a very valuable piece of property on which are built a large number of summer residences, and Skin says he will refuse any of the islanders the right to take up their abode there this summer. He now occupies the western portion of the island, and intends erecting another house on the eastern portion, where the summer houses are now situated. He has also begun clearing the island in preparation for putting in his spring crop.

CHIEFS ARE DETERMINED.

The Indian chiefs have decided to stand by Skin and test the validity of the leases and a mass meeting of the Indians of Cornwall and St. Regis reservation was held at St. Regis yesterday, and they decided to fight the matter inch by inch in the courts if necessary, and failing to establish their rights there, say they will stand by Skin in retaining the Island. The department were burked last year in their efforts to erect a gaol at St. Regis, and this has given the Indians confidence and courage that they can resist the Government in the removal of Skin. The department are equally determined to remove Skin if he has no right there. Mr. J. A. MacRae, the Inspector of Indian Reserves, came to Cornwall yesterday, and Mr. R. W. Collins of the law firm named above went down to Colquhoun's Island to serve a writ on Skin.

Mr. MacRae held an informal court last evening in the office of the above named solicitors, for the purpose of taking evidence pertaining to the matter, and examined about ten witnesses. The right of the Colquhoun estate to the Island was thoroughly proven, and the Department recognized it, and must now remove Skin from the Island.

HAVE THEIR PLANS LAID.

Yesterday's pow-wow at St. Regis was not for effect, but judging by the tenor of the different speaker's remarks and the secrecy of their movements, the Indians have well defined plans which they do not wish divulged. On another occasion of this nature, the newspaper men were met with cordiality and the Indians were anxious to have their side of the story reach the ears of the public through the medium of the newspapers, but yesterday's proceedings were shrouded in a most inky mystery, and the Indians stated that they had nothing to give out for publication, and did not wish to be quoted further than that they were the lawful owners of the islands, and that they were being robbed of what is legally and morally their possessions. There is no doubting the fact that these people are thoroughly conscientious in their belief that the leases of the lands have expired, and it is doubtful if the Government can convince them by moral suasion that they are wrong.

NEW STOCK RECORD.

N. Y. Brokers Went Into Their Temporary Quarters Yesterday and Celebrated the Event by Smashing All Records.

LONDON MARKET A MERE ECHO

A Capel Court Broker Says That the London Market Does Not Pretend to Keep Up Wall Streets' Gait.

NEW YORK, April 30.—The New York Stock Exchange made itself "quite at home" yesterday in the Produce Exchange building. Everything was in readiness for the members when they got down this morning, and, after a curious, unfamiliar look around, they went to work again and set about making it a good day of business.

And it turned out to be a good day's business—the best in the history of the exchange as regards the total number of sales. The previous high record as regards totals was 2,382,545, established a week ago, but a considerable time before the exchange closed that record had been eclipsed and a new one established. The total number of sales exceeded 2,500,000 shares.

London had something to do with the auspicious start of business. As a sort of international greeting, the British stockbrokers sent over by way of their first prices notice of the purchase of American stocks at such advance over Friday's closing here as 2¼ in United States Steel; 1¼ in Steel preferred; 2¼ in Reading common; ¾ in Canadian Pacific; 1¼ in St. Paul; ⅞ in Louisville and Nashville, and 1⅛ in Anaconda.

In the first hour a new record for volume of trading was made, 718,000 shares; the greatest number dealt in in one hour before was on a Saturday two or three weeks ago, when 706,000 changed hands. The market was buoyant, too. After opening up, prices went up higher, then off until about 11.30, when they were holding steady under pretty heavy realizing. Northern Pacific touched 112¼ in the first hour.

IN THE NEW QUARTERS.

Many brokers were on the scene at an early hour, looking around and studying small charts of the floor, so that they would get accustomed to the new quarters before business began. Some of them shook their heads when they looked at the floor. It was a mass of gray uniforms. The messengers appeared to occupy every available foot of standing room. Afterward the boys went out and sat down on the stairs, where they formed a double row reaching up to the next floor. Nevertheless when the hour of 10 approached the brokers found themselves crowded and cramped, and there was grumbling on all sides. They rushed about as though mad, trying their telephones, and shouting to the men that work the annunciator to be sure that their numbers were all right. When the chairman's gavel fell such a pandemonium arose as would have made the uproar in the old boardroom seem but a murmur. The brokers, packed in together like sheep in a cattle car, shouted [illegible]. The yells from the wheat pit, on the other side of the partition on the Produce Exchange, blended with the tumult, and made a mighty roar that echoed way down to the Battery.

Spectators were few for the simple reason that there are no accommodations for them in the temporary quarters. The only gallery, at the north end of the great room, was crowded, but it is not a very large gallery, and, besides, looks down on the wheat pit and affords little or no view of the Stock Exchange floor. The temporary quarters of the Exchange are in the southern part of the trading floor of the Produce Exchange. The entrance to the floor is from the east, as it was in the old building.

The curb market did not desert Broad street, but it moved slightly south, so as to be somewhat nearer to the Exchange.

CAPEL COURT AGHAST.

A London cable dated Sunday says: Capel Court is simply aghast at the activity shown by Wall Street during the last week. This feeling was emphasized by a broker who is among those most anxious to see closer dealings between the two great English speaking stock exchanges, and whose views were mentioned a few weeks ago.

"I am afraid it is hopeless," he said to me the other day, "for us to think of keeping pace with Wall Street, or even hitching on behind. There is no telling whether it is merely a lightning express on smooth rails, with a clear track ahead, or a volcano, cyclone or earthquake. Whatever it is, it is too rapid for us, too tremendous altogether. However, they manage to do the mere clerical work incidental to such enormous transactions is more than we understand, but suppose there should come another Cleveland message, for instance, as Mr. W. T. Stead declared in an interview two days ago is not at all unlikely, what sort of 'Black Friday' would follow?

"Of course," he added, "while there does not appear any reasonable probability of such another thunderbolt from a blue sky, still there is no telling what may happen.

SIMPLY AN ECHO OF WALL STREET

"It is easily understood, therefore, why London is not particularly anxious to do too much in American rails just now, and why the average Britisher would not look at an American industrial through a telescope.

"Our quotations of Americans have no more to do with the course of the markets than the newspaper score in a billiard match. We simply echo what Wall street does."

These outspoken admission on the part of a member of the Stock Exchange come nearer to depicting the exact relations between London and New York than any financial articles which have appeared in the London press.

In the face of the huge transactions in Wall Street all talk of London buying and selling is sheer nonsense. The aggregate transactions of Capel Court do not amount in a week to a fifth of the dealings recorded in a single day in New York, nor does there appear any likelihood of change in this respect.

London is no longer a factor to be considered in calculating the future of American stocks.

AMERICAN SHARE OF BRITISH LOAN.

The absorption of £30,000,000 of the latest khaki loan by America is by no means the most popular feature of this issue, while it confirms to the letter the statement I mentioned two weeks ago, which I may incidentally say was laboriously controverted in some of the London papers—namely, that Mr. J. Pierpont Morgan's presence in London was synchronizing with the budget speech and was not altogether accidental.

It is, nevertheless, an unpleasant pill for the financial patriots who applied for seven times the amount of the loan in hopes of securing some of the premium at which the stock was quoted before the issue.

Of this oversubscription, it is safe to say four-fifths at least represents simply the effort to make a turn by disposing of the allotment later while the stock was still at a premium, while one-fifth only represents the actual demand for legitimate investment.

But the applications from America are by no means subject to such criticism.

For every dollar applied for there was a dollar ready for investment.

WHERE THE BOY WORKED.

Mr. E. Desjardins, of the firm of E. & O. Desjardins, grocers and fruiterers, at the corner of Windsor and St. Antoine street, wishes the public to know that the young man arrested on a charge of passing counterfeit money on an immigrant on Saturday last was not employed with his firm. The establishment where the accused worked was that of Mr. O. Desjardins, 108 Windsor street.

BASEBALL

BAD BASEBALL START

Montreal Lost Its Fourth Game in Rochester Yesterday Afternoon and Quinlan is Blamed For it.

TORONTO IS WELL AHEAD OF US.

Hartford and Syracuse Were Also Playing Losing Games, and Rochester Is Ahead Now in the List.

(Special to the Star.)

ROCHESTER, N.Y., April 30.—Dooley's men were defeated yesterday afternoon in a close but uninteresting game. Bunching of hits, together with opportune slip-ups by the visitors, materially aided the locals in gaining the victory. It was a case of nothing doing on either side until the fifth innings. In the opening half of this, Montreal scored twice after one man was out, and only a sensational unassisted double play by Bean, who jumped three feet into the air to pull down with one hand a hit that seemed safe, prevented more scores. Felix was the first man up in the fifth, and after he had been retired Sheehan was furnished transportation to the initial sack. Shearon followed with a corking double to right, and when Odwell followed this with a second safe one for two bases, Shearon crossed the rubber. Two more were gathered by the visitors in the sixth. Wilson started off with a single, and Delehanty dropped one over second for one base, Wilson going to third and coming home on Johnson's smash to right centre. Delehanty also scored on this hit. Delehanty opened the eighth with a slashing double down the left foul line, and went to third on a safe one which Johnson dropped into short left field. Quinlan managed to get as far as second, but died there, and Montreal was unable to make good in the ninth, the batters being retired one, two, three. Rochester scored four times in the fifth in- [illegible] on a base on balls, three singles and [illegible] wild throw by Quinlan, on which [illegible] made the circuit. THE TORONTO TEAM WON.

BUFFALO, N. Y., April 30.—Inability to hit McFall lost the game to Buffalo. The Toronto team drove Hooker to the bench in the fifth. Four double plays were made. The feature was the throw of Gettman from deep right centre to first base, catching Bonner. By innings:

WORCESTER JUST GOT THERE.

WORCESTER, Mass., April 30.—Three home runs were made in yesterday's game with Hartford. Connor twice put the ball over right field fence for Hartford, each time, sending a man in ahead of him. The drive that won the game for Worcester was in the eighth inning, when Wrigley hit into deep centre field for four bases, sending in two runs ahead of him and getting the winning run himself. Kuhns played brilliantly at short. Carney, Worcester's first baseman, has cracked a bone in his leg, and will be out of the game for at least three weeks. Score:

AQUATICS

WILL NOT TEMPT PROVIDENCE.

GLASGOW, April 30.—Every effort is being made to have Shamrock II. in condition for the first trial race by Thursday. Should the challenger not be ready to crack on racing canvas until Thursday night she will not be out on Friday.

Manager "Willie" Jameson and Captain Sycamore declare that they are not superstitious, but there is no reason strong enough to warrant tempting providence by starting her on her racing career on this unlucky day. So in case she is not ready to race Thursday she will have to wait for Saturday to display her paces.

In the opinion of those responsible for sailing her in the races for the America's Cup, the five weeks available for preparations and trials are thought to be quite little enough for the work. She started for the Solent in tow of the impatient Erin within an hour after she was formally handed over by the Dennys.

She was the subject of general comment as she tripped down the Clyde in leading strings. As she has a voyage across the Atlantic before her, her extraordinarily low freeboard came in for much adverse criticism, and her telescopic topmast was condemned by practical yachtsmen.

They contend that if at any time it should become desirable to extend or lower the topmast the mainmast would certainly bend enough to jam it. With all her faults, however, Shamrock II. was pronounced to be the most winsome challenger ever sent across the water.

Sailmaker Ratsey has all the canvas ready to bend on when she arrives, and he has been instructed to have all hands lined up to meet her on Monday morning.

HERE IS AN ENGLISH OPINION.

The Yachtsmen says: "On the whole, from what we can see of the new boat in its numerous photographs we feel as confident of the result as numerous disappointments will permit.

"With regard to the yacht, there is not any startling novelty of design, beyond a natural expansion of Mr. Watson's ideas. His last effort might well have been successful. It is certain that since then he has turned out enormously superior yachts. Just what is the amount of his improvement is in doubt. That can only be settled at Sandy Hook. Until then it will be impossible to say whether his art has outrun that of Mr. Nat Herreshoff. If it has it can only be by a very little."

"It was impossible even to guess at the chances of the Shamrock I., but, knowing the advances made by Mr. Watson, it is impossible to think otherwise than that the new vessel, if she does not actually win the cup, will fail only by the very smallest margin."

MISCELLANEOUS

WILL NOT BOX TO-NIGHT.

To the Sporting Editor of the Daily Star:

I have seen in two or three of our daily papers, and also on a card placed all around the city, that I am to box Mr. Strike at the Cedar A.A.A. to-night. I would like you to kindly contradict this, as I have never heard a word about this until I saw it advertised and I will positively not appear to-night. I would also like to say that after our go in Ottawa (at which Mr. Strike had his thumbs hurt), he said that he would meet me again. I am now waiting for Mr. Strike, and am willing to meet him at any time or place he may say, as long as I am allowed at least three weeks to get into condition. Thanking you for your valuable space. I remain,

LAWN TENNIS

The Cote St. Antoine Lawn Tennis Club held their annual meeting last night at Victoria Hall, Westmount. The gathering was a very large one, and many ladies were present. The reports were very satisfactory, and the club starts the new season with a very handsome balance on hand. A new position was made in the list of officers, that of honourary vice-president, to which Mr. William Hanson was elected. It was decided to devote Thursday afternoon in each week to the gentlemen solely for playing purposes, and another afternoon not yet decided on when the gentlemen will be in possession from half past five. Everything looks very prosperous for the coming season. The election of officers resulted as follows:

Hon. president—H. E. Suckling.
Hon. vice-president—Wm. Hanson.
President—G. C. Dunlop.
Vice-president—Dr. Howard Church.
Hon. secretary—G. H. Carter.
Hon. treasurer—C. W. Yerker.
Committee — K. Ashworth, E. Linton, Mackay Edgar, J. King, Dr. G. H. Matheson.

NO INTERNAL FRICTION

When a rider decides to use my New Departure, six-piece, all steel Coaster Brake as a coaster there is no internal friction in it, as it contains an extra ball-bearing, and the rear wheel runs entirely free.

It will coast as far as a bicycle without any brake.

You can get this magnificent brake on any new bicycle, except on the wheels of the Canada Cycle & Motor Co, who will refuse to fit them.

Come in and be shown how simple it is. Built to fit old wheels, any kind. Small extra charge for fitting.

STORY OF ROAD RACE CHARGES.

HAMILTON, April 30. — Lieut. Fred Spenceley, of the First Massachusetts Regiment, who commanded the detail furnished the Boston A. A., as attendants to the runners in the recent 25-mile Marathon road race from Ashland to Boston, sends the following communication to the press: In reply to the exceedingly grave charges brought by Roland McDonald, relative to the B. A. A. Marathon road race, April 19, I think it only right that the public should be given the following statements of the attendant assigned Mr. McDonald, who was No 22, and also the statement of my aid. Their names are not given, as I do not wish to subject these men to unnecessary notoriety. The statements follow:

The attendant says:

"I was assigned to No. 22 (McDonald) at Ashland, and as the runners came along from the starting point I took my position in the rear of the runner. I filled my canteen with water from the pump in the Columbia House. I was not called upon for any attendance until turning into the boulevard, when McDonald asked for water. A sponge was given me from the carriage, which contained some of McDonald's friends. I wet the sponge from the canteen, and McDonald used the sponge himself upon his head and neck. His trainer at the same time told McDonald not to drink any, and McDonald did not.

"Just before arriving at the reservoir, McDonald again asked for water, and I stopped to fill my canteen. McDonald was running when I came up, and the trainer told me to get McDonald some beef tea, which I procured at an apothecary store, and McDonald drank it while running. I stopped to carry back the cup, and when I came up again the lieutenant's aid was holding the sponge upon which he had poured the water, but as it was not entirely saturated, I poured more water from my canteen upon it and gave it to the trainer, who applied it to McDonald. I did not see McDonald drink any water from the sponge at all during the entire course, and he was not out of my sight more than eight minutes altogether.

"Going down the hill at the reservoir, McDonald was given two pills and at this time McDonald had been running fully a mile after the water from the sponge was applied to him. Soon after taking the pills, McDonald stopped running and walked. McDonald walked about a half mile, when a bottle which contained something looking like whiskey was given him from the carriage, the man that give it saying, 'Don't give him too much.' But McDonald seemed to take considerable. Soon after this, McDonald refused to walk further, and was put into the carriage, apparently asleep. I rode ahead toward the B. A. A. club house, when I caught up with Lieut. Spenceley, and rode along with him, I drank from my own canteen on the run, and the water was all right."

The aid says:

"My duty was to cover the entire line of runners during the course, and see that the attendants were with each runner. Going up the hill at the reservoir, some one going along with No. 22 called to me and asked me if I had any water. I went back and the trainer gave me a sponge, which I think came from the carriage, and I poured water from my canteen upon it, but did not have enough to entirely saturate the sponge. While I was turning the water upon the sponge, the attendant of No. 22 came up with a canteen of fresh water, and I held the sponge whilst he poured some more water upon it. I then rode along with No. 22 until he was put into the carriage.

"I did not see him take any water from the sponge into his mouth, the wet sponge being used to rub his head with. I had filled my canteen from the pump in the Columbia House, before the start, and had drank considerable of it during the run, and know that it was all right. I noticed and called the attention of the attendant to the fact that white blotches were upon No. 22's face, and also the fact that his eyes were partially closed while he was running."

Lieut. Spenceley adds to the above that the reference to the "white blotches" and the "eyes partially closed while running," were in consequence of instructions all the militia men received from Dr. Blake to report anything unusual in a runner's appearance.

There was an incident regarding the canteen that was interesting. The lieutenant noticed a canteen stopper under the lunch table after the race, in the B. A. A. club house, picked it up and handed it to the sergeant. Later, attendant No. 22 appeared with the canteen, which had now become an important exhibit in view of the charges. The attendant was asked where he lost the stopper, and said he did not know, though he had had it throughout the race. The incident served to fix more particularly the canteen, about which there was a question. The canteen is now in the custody of the lieutenant.

CYCLING

STUDENTS HAVE RELAY RACES.

PHILADELPHIA, Pa., April 29.—The seventh annual relay races and track and field events of the University of Pennsylvania, were held on Franklin Field Saturday afternoon. The weather was delightful and more than 3,000 persons were on hand to witness the sport. Although no records were broken, fast time was made in many of the events. The principal races of the day were the one, two and four mile relay events for the championship of the United States. Harvard showed in front in both the two and four mile races, while Yale captured the one mile contest. By far the most interesting race was the four mile relay, in which Harvard, Cornell and Pennsylvania were entered. Boston, for Pennsylvania, took the lead at the start and kept it until 50 yards from the finish of the first mile, where Pollard, of Cornell, passed him and gave the second Cornell runner an advantage of three yards. The second runners were well bunched, but 300 yards from the end of the second mile, Grant, of Pennsylvania, cut out and shot ahead and gave the third Pennsylvania runner, Stewart, an advantage of 25 yards. He, however, could not hold it, Gallagher, of Cornell, beating him to the tape for the third mile by a yard. The fourth relay of runners put up a pretty race. Bushnell, for Pennsylvania, started off like a streak, followed by Berry, of Cornell, with Clark, of Harvard, seemingly out of the running. The latter, to the surprise of the crowd, caught the Cornell man at the three-quarter mark and then started after the Pennsylvanian. It was a great race between them on the last 100 yards, but the Harvard man stumbled against the tape a yard in front of the fainting Bushnell, thus winning the race for his team.

Harvard, Columbia, Pennsylvania, Yale and Cornell, started in the two mile relay race, the finish being in the order named.

In the one mile relay championship there were entered Syracuse University, Chicago University, Yale and Pennsylvania.

A GOOD STORY

A certain young lady in delicate health was advised by her doctor to take a half-teaspoonful of Scott's emulsion of cod-liver oil after dinner—once a day—and found herself almost suddenly growing robust.

So small a dose is by no means the rule; the rule is whatever the stomach will bear—not more. Another rule is: take it on every least occasion, but not too much; don't over-do it.

We'll send you a little to try, if you like.

THE HOLLY CYCLE CLUB MEET.

The annual meeting of the Holly Cycle Club was held in the Windsor Hotel on Saturday evening. There was a very good turnout of members. The reports of the secretary and treasurer were read, and were very satisfactory in every way, the club having a good balance on hand to commence the season with. There were a few applications for membership read, and the prospects of the club are very good. The following officers were elected for the ensuing year:

President—H. E. Hardisty.
Vice-President—A. M. Ritchie.
Secretary (re-elected)—Thos. H. Skelcher, 5 Gladstone avenue, Westmount.
Treasurer—J. A. Rice.
Captain—Geo. W. Paterson.
First Lieutenant—G. J. Kenwood.
Second Lieutenant—W. J. Rennie.
Committee—W. H. Scharf, Frank Skelcher, Geo. W. Scott.

THE TEMPLE BICYCLE CLUB.

The opening run of the century, and incidentally of the season, took place Thursday evening, and was participated in by about twenty-five members. The destination was "Thornhill," where the riders were welcomed by mine host Curley in his well known hospitable way. Several carriage loads of friends of the Club drove out. Messrs. Harry Bartholomew, T. Erskine and James Patterson rendered some vocal selections, which contributed much to the evening's amusement. After some other acrobatics, instrumental, pedal and vocal, Mrs. Curley entertained the Club to a light collation. The Club reached home shortly before midnight, without mishap, and report the roads good except for a couple of hundred yards just before one reached "Thornhill."

THE TURF

NEW YORK, April 30.—About 5000 persons attended the races at Aqueduct yesterday, and some interesting sport was witnessed. Two favourites got past the judge first, and first choice players had another bad day. Bullman carried off the jockey honours with two wins. The handicap, third on the card, went to All Green, a Metropolitan Handicap candidate. All Gold was heavily played to beat him, closing favourite at 7 to 5. Burns had the mount on All Gold, and took him out to make the running. He showed the way up the back stretch and into the stretch, where All Green, who had been running second, moved up. There was a brief struggle between them for a furlong, and then All Green gradually drew away and won all out by a length. All Gold was the same distance before Flax Spinner, third. The favourites to score were Edwin Kenton in the second, and Isla in the last race. Summaries:

First race, selling, 6 furlongs—Peters II, 96, Daly, 4 to 1 and even, won; Manitoban, 113, Bullman, 3 to 5 and out, second; Wallabout, 106, Wonderly, 12 to 1 and 5 to 2, third. Time, 1.13 3-5. Goebel and Hollowood also ran.

Second race, selling, 5 furlongs—Edwin Kenton, 111, Vandusen, 7 to 2 and 7 to 5, won; Flintlock, 99, Brennan, 8 to 1 and 3 to 1, second; Jean Wood, 101, Daly, 15 to 1 and 6 to 1, third. Time, 1.02 3-5. Eva Mine, Prophetic, Ashbrook, Carrier Pigeon, Lucrusta, Tommy Foster, Major Bird, Lararcer, Fonsoluca, The Hartford and Prancer also ran.

Third race, about 7 furlongs—All Green, 126, Vandusen, 7 to 2 and 6 to 5, won; All Gold, 120, Burns, 7 to 5 and 3 to 5, second; Flax Spinner, 105, Henry, 4 to 1 and 6 to 5, third. Time, 1.25 4-5. Shoreham, Sailor King and Robert Metcalfe also ran.

Fourth race, selling, 5 furlongs—April Shower, 108, Bullman, 5 to 1 and 8 to 5, won; Baylike, 94, Thompson, 60 to 1 and 15 to 1, second; Equalize, 102, Burns, 2 to 1 and 3 to 5, third. Time, 1.02 4-5. Chaminade, Pluto and Benton Gray also ran.

Fifth race, selling, about 7 furlongs — Denman Thompson, 107, Walsh, 12 to 1 and 4 to 1, won; Gertrude Elliott, 111, Van Dusen, 3 to 1 and 2 to 1, second; Curtsey, 101, Wonderly, 40 to 1 and 10 to 1, third. Time, 1.26 2-5. Spry, Punctual, Balloon and Inshot also ran.

Sixth race, 5½ furlongs—Isla, 108, Bullman 8 to 5 and 1 to 2, won; Criterion, 108, Booker, 4 to 1 and 7 to 5, second; The Rhymer, 108, Burns, 5 to 2 and 4 to 5, third. Time, 1.07 1-5. Godfrey Stark and Gold Fir also ran.

KENTUCKY DERBY.

LOUISVILLE, Ky., April 30.—His Eminence won the Kentucky Derby; Sannazarro second; Driscoll third. Time, 2.07.

The athletic entertainment under the auspices of the Cedar A. A. A. to be held this evening at the Victoria Armoury Hall, Cathcart street, should prove to be an interesting affair. The executive of the Cedar A. A. A. have spared no effort in their endeavour to place before the public the best entertainment that has ever taken place in this city, and a glance at the programme as prepared will assure one that they have succeeded in no small measure in doing so. One of the features of the evening will be the wrestling match between Simon and Harrisson. The conditions of this match are that Harrisson is to throw Simon five times in the hour. Simon's friends claim that Harrisson has undertaken a bigger contract than he anticipates, but Harrisson assures them that he is not in doubt as to the result. For the followers of the manly art the Cedars have got together such well known men as Nolan and Roberts, Strike and Weller, and Hanley and Payne, as also Stanton and Crotty.

Members can obtain their tickets from the treasurer, at the club rooms, 729 Sherbrooke street.

The closing ladies' euchre social and dance of the Holly Snow-Shoe Club was a huge success in every way. About forty couples were present. The first portion of the evening was taken up with the euchre competition, and after a very exciting contest, Mrs. W. H. Scharf was declared the winner of the ladies' prize, and Mr. Geo. K. Knott, the winner of the gentleman's prize. A dainty supper was served at the close of the competition, and after everyone had partaken of the nice things provided, all adjourned to the dancing hall, where the prizes were presented to the successful contestants, after the first dance. Mr. Geo. K. Knott was also presented with the aggregate prize, having won the most points during the season. During the evening speeches were made by President A. B. Rattray and one or two others. Amongst those present were noticed:— Mr. and Mrs. A. B. Rattray, Mr. and Mrs. A. H. Dalrymple, Mr. and Mrs. Thos. H. Skelcher, Mr. and Mrs. W. H. Scharf, Mr. and Mrs. T. H. Ryan, Mr. and Mrs. A. M. Ritchie, Mr. and Mrs. D. Pollock, Mr. and Mrs. J. D. Rowell, Mr. and Mrs. R. Cairns, Mr. and Mrs. A. G. Snowdon, Mr. Geo. W. Scott, Miss White, Mr. Geo. J. Kenwood, Miss Kenwood, Mr. R. H. Gibson, Miss M. Gibson, Mr. Geo. K. Knott, Miss Falle, Mr. J. Trennaman, Miss McLellan, Mr. E. Millington, Miss Le Vasseur, Mr. A. Harper, Miss Lynn, Miss Connolly, Miss McQuillan, Mr. W. E. Barrat.

THE 'LONGSHOREMEN

Over Seven Hundred Men Present at a Meeting in Their Hall on St Lambert Hill Last Evening.

A CONVENTION TO BE CALLED.

An Effort to Fix a Uniform Rate of Wages for All the Canadian Seaports From Halifax to Montreal.

There was a very large and enthusiastic meeting of 'Longshoremen held last evening in their hall, No. 7 St. Lambert Hill. The meeting was addressed by Messrs J. B. Legault, A. R. Archambault, A. Delorme and J. S. Fitzpatrick. The organization in Montreal has been a local one up to the present time. It was decided to take a charter from the Knights of Labour, also one from the American Federation of Labour so as to have the united support of both bodies. The secretary was instructed to write to the Quebec Ship Labourers' Union, the St. John, N. B., and Halifax Unions requesting them to appoint delegates to attend a convention of 'longshoremen to be held in Quebec city on the 20th of May, for the purpose of deciding on a uniform rate of wages between Montreal and Halifax. It was decided to enforce a minimum rate of wages in Montreal of 25 cents per hour, day work, and 30 cents an hour, night work, on all cargo vessels entering the port of Montreal and the same rate to apply to all out-going vessels loading lumber or grain. A resolution was passed commending the action of the ship labourers of Quebec city in refusing to accept a reduction of wages and promising them financial support if necessary and assuring them that no Montreal men will go to Quebec to take their places. The meeting was one of the largest ever held in this city, more than seven hundred men being present. The men claim that $12 a week is no pay for the Quebec ship labourers, when the hardships they have to put up with is taken into consideration. They say it is entirely different from the ordinary every-day work of labourers and they should be paid by the hour as they are obliged to work night and day until the ships are unloaded or loaded as the case may be.

MEETINGS.

PAST AND FUTURE.

THE GARMENT WORKERS' ASSEMBLY.

The regular meeting of the Garment Workers' Assembly was held last evening in the K. of L. Hall, Craig street. The Master Workman, Mr. P. Levi, was in the chair.

A communication was read from the Minister of Militia stating that it was the intention of the Department to grant a contract to a Montreal firm for the making of militia clothing, and he would be pleased to receive suggestions from the assembly regarding conditions to be contained in said contract for the protection of employes in the clothing industry in Montreal. A committee was appointed to look after the matter.

A letter was read from the chief factory inspector, stating that he would be pleased to have the names and addresses of places that are not complying with the rules and regulations of the Factory Act. It was decided to furnish him with as complete a list as possible at this season of the year.

DISTRICT ASSEMBLY NO. 18.

The regular meeting of District Assembly, No. 18, was held on Sunday. A lengthy discussion took place on a resolution protesting against the actions of certain city contractors, who have a contract from the Road Committee for the construction of a sewer on St. Andre street. It was alleged that they employ foreigners in preference to taxpayers of the city, and that they violated a minimum wage clause in their contract—$1.25 a day—paying from 90 cents to $1 a day instead. A committee was appointed to attend the next meeting of the Road Committee, and demand the payment of the current rate of wages, and the preference of employment to be given to citizens of Montreal. A committee composed of Messrs. Henry McCamley, D. Veron, J. Lapointe and J. S. Fitzpatrick was appointed to secure a larger hall for meeting purposes.

THE GRANITE CUTTERS.

There will be a special meeting of the Granite Cutters' Assembly this evening in the K. of L. Hall, Craig street. The meeting is called to receive a report of a special committee appointed at the last meeting to interview the employers regarding an increase in the rates of wages and the establishing of a nine-hour day. The officers request every member to attend this meeting, as the president of the Toronto Granite Cutters' Union will address the meeting.

ST. JEAN BAPTISTE SOCIETY.

The members of St. Jean Baptiste Society will make final arrangements next Friday evening for the celebration in honour of their patron saint, on June 24. A few of the members put in an appearance last night with the expectation of having a preliminary meeting. These, however, enjoyed themselves, for they were privileged to see a rehearsal of the drama, "Roman-Parisian," which is to be produced on May 14 under the auspices of St. Jean Baptiste Society.

THE STONEMASONS' UNION.

A very large meeting of the Stonemasons' Union was held last evening. Twelve new members were initiated. It was decided to put the new scale of wages of $2.50 for a ten-hour day in force on the first day of May. It was also decided to enforce a nine-hour day on and after the first day of June. Some of the city contractors have already agreed to the change.

HIBERNIAN KNIGHTS, CO. NO. 2.

Last evening a second company of Hibernian Knights was organized in the hall of Division No. 9, A.O.H. A captain, first and second lieutenants and colour-sergeant were chosen, whose names will be submitted to the provincial officers for approval. The company will be composed of about forty members, and it has been decided to form a third company at an early date.

ROYAL ARCANUM IN WESTMOUNT.

Arrangements are being made for the institution of a charter council of the Royal Arcanum in Westmount next Monday evening in Victoria Hall, Westmount Park. The officers invite all members living on the island of Montreal to be present. A degree team from the city councils will confer the degrees on the candidates.

INGOMAR LODGE, No. 2.

Ingomar Lodge, No. 2, Knights of Pythias, have decided to move from the Masonic Temple, and the next regular meeting of the lodge will be held in Castle Hall, No. 6 Phillips square, on Friday evening next, May 3rd, when the lodge proposes granting an accident policy to all the members gratis. The officers request all the members to attend this meeting.

CARPENTERS AND JOINERS.

The regular weekly meeting of the United Brotherhood of Carpenters and Joiners will be held this evening in the Federated Trades and Labour Council Hall. The officers request a large attendance.

SHEET METAL WORKERS.

There will be a special meeting of the Amalgamated Association of Sheet Metal Workers this evening, in St. Joseph's Hall.

RAILROAD CLERKS.

An effort is to be made to organize the railroad clerks of Montreal and have them affiliate with the American Federation of Labour. The railroad clerks of Buffalo have formed an association, and the railroad clerks are organising in many parts of the country, the present membership now being over 1,000.

The Ontario Gazette announces that authorization has been given to the Gagne Island Gold Mine Company, of Ottawa, and the Hobold Gold Mining Co., of Ottawa, Limited, to amalgamate under the name of the Canada Consolidated Mineral Co., Ltd.

Untiring Tires

Half the ease of riding a bicycle is in the tires. A dead bicycle tire will tire the rider. The tire that doesn't tire is single tube—it is "lifey."

The Hartford, Goodrich and Goodflex single tube tires have thin airtight walls—very thin and very strong—of perfectly pure rubber, properly vulcanized.

You can get them all free on your new bicycle. Take your choice of either kind. They cost you nothing extra.

MR. CHARLESON'S ACCOUNTS

The Subject of Further Discussion in the Public Accounts' Committee To-day.

(Special to the Star.)

OTTAWA, April 30. — The Public Accounts Committee sat on Monday. Mr. Gobeil, Deputy Minister of Public Works, deposed that W. B. Charleson had supplied the department altogether with $66,000 worth of goods.

Mr. Reid, of the Auditor-General's office, who went out to the Yukon to audit the accounts, said he found Charleson's books being kept by Mr. Rochester, who he afterwards found out was a contractor in addition to being Charleson's bookkeeper. He appeared not to be paid for the latter work. Rochester's contract was let to a sub-contractor. He thought the positions rather curious, but made no particular inquiry into it. He considered that the books were in good shape. Charleson showed him a Hansard containing references to his going out to audit, and at Charleson's suggestion he certified the books as correct. His audit was not very specific, but was sufficient, and the best that could be done. He made no written report.

Mr. Tarte explained that Mr. Rochester was the original bookkeeper. When he became a contractor his pay ceased and he agreed to keep the books all right.

Mr. A. Hardy, of the Public Works Department, who was sent to the Yukon to classify Mr. Charleson's accounts, was sworn, but nothing of interest was elicited.

Mr. James Ross, of Montreal, who some time ago offered to build a hospital at Lindsay, Ont., arrived there on Monday by special train with Mr. Andrew Taylor, of Montreal, and formally inspected the site.

OUTPUT OF THE KLONDIKE.

Some of the Estimates Put it as High as Thirty Million Dollars.

(Special to the Star.)

VICTORIA, April 30. — According to news received by the steamer Amur, the work of financial cleaning up, the Klondike, commenced on April 18, and the hills and creeks were alive with men about to commence sluicing, a thaw having given the miners a full head of water. Those who have made investigations of the various creeks and gulches report that this season will excel the past ones and the output will not be less than $25,000,000. Some place the estimate as high as $30,000,000, these estimates, of course, including the gold that will be acquired by summer workings.

TWO CIVIC LOANS.

It Was the Intention to Discuss Them at the City Council Meeting Yesterday Afternoon.

BUT NEXT MEETING WAS CALLED

Ald. Jacques Blocked Proceedings and a Special Meeting Will Be Called for Next Friday to Consider the Matter.

It was expected that the decision of the Finance Committee, in regard to the two civic loans would be discussed at the meeting of the City Council yesterday afternoon, but thanks to Ald. Jacques, the chronic kicker of the council, the matter was shelved.

The decision of the Finance Committee was that the million and a half loan should not be floated, for the offers received; but that the $300,000 loan should be placed.

When the report of the Finance Committee was read yesterday afternoon, Ald. Jacques sprang to his feet and called out "next meeting." This meant nothing more or less than the blocking of the loans once more, and this in view of the fact that the Finance Committee had held a special meeting yesterday in the hopes of hastening matters.

WHAT ALD. LAPORTE SAID.

The chairman of the Finance Committee, Ald. Laporte, said it was too bad "next meeting" should be called. If action was taken on the $300,000 loan the city could get the money it was sorely in need of. There was no good in trying to block business in this way. The loans had already been blocked too often.

Ald. Jacques—"According to the orders of the day, we cannot take up new business, and it would be new business to discuss the loans, as they are not on the orders of the day."

It was pointed out by Ald. Ames that if no objection was raised, that the matter could be discussed. It was very important the city should place one of its loans, and there was no justice in trying to postpone the matter. Council should give half an hour to the discussion of the loans.

The mayor said that so long as Ald. Jacques would not withdraw his objection there could be no discussion of the subject.

Ald. Jacques still insisted upon "next meeting," and so the mayor said he would call a special meeting of Council for Friday for the loan affair.

CRATHERN'S ELEVATORS.

Motion to Adopt His Plan to Build Two Elevators and Carrier System in Centre of Harbour Rejected.

The matter of utilizing, without any waste of time, the million dollars which the Government has practically promised the port of Montreal for elevator purposes was brought up at the Harbour Commissioners' meeting yesterday, by Mr. Jas. Crathern, who moved the following resolution, which was seconded by Mr. Contant and Mr. Torrance: "That plans and specifications be obtained for two elevators of one million bushels' capacity each, to be erected at the shore wharf in the centre of the harbour, one between the upper and centre pier, and the other lower down, between the centre and third piers, the plans to be complete, with carriers running to the piers, and the plans to be submitted to Hon. Mr. Tarte, the Minister of Public Works.

A sketch showing the location of the elevators and system of carriers under this plan was published in the Star on Thursday last.

The mayor moved in amendment to Mr. Crathern's motion that discussion on the question be deferred until the bill granting the money was brought before the Ottawa House, and that a meeting be called for the purpose of discussing the matter when that time came, and further that Mr. John Kennedy, the chief engineer, obtain figures on the cost of modern floating elevators so that in case they feel satisfied that vessels will not go to the elevators they could have a plant in connection with a regular wharf elevator by which the grain can be placed on board without the ship stirring from her berth.

The amendment was thereupon put by the chairman and carried, all but Messrs. Crathern, Torrance and Contant voting for it.

Mr. Crathern's motion was of course lost, the vote standing three for and the balance of those present against.

BAD LANGUAGE IN THE PARK.

John Deroche will be more careful of his language in Mount Royal Park in the future, and he will be especially wary of using impudent language to gentlemen who try to recall him to a sense of decency. On Saturday last as Mr. Recorder Weir was strolling through the park he heard the boy use some very strong language, and reproved him for it. Instead of heeding the good advice, the boy broke out into abuse, and his language became more lurid than ever. The Recorder thereupon called upon Special Constable McNulty of the park, who arrested young Deroche.

This morning the young fellow was surprised to find the gentleman who had called on him to desist from using improper language sitting in judgment. He did not dare to attempt a defence, and was fined $5 and costs or fifteen days in gaol. Mr. Recorder Weir accompanied the sentence by a lecture on the impropriety of young men and boys using unbecoming language in public places.

For a living. He has to. He must "make hay while the sun shines," no matter how he feels. The result is overwork. The stomach usually gives the first sign of strain. The organs of digestion and nutrition are deranged. Food does not nourish. Indigestion appears. In such a case Dr. Pierce's Golden Medical Discovery re-establishes the health by a complete cure of the diseased organs of digestion and nutrition. It cleanses the stomach, purifies the blood and removes the causes of disease. It is a temperance medicine, and contains no whisky nor alcohol.

"I was troubled with indigestion for about two years," writes Wm. Bowker, Esq., of Juliaette, Latah Co., Idaho. "I tried different doctors and remedies but to no avail, *until I wrote to Dr. Pierce* and he told me what to do. I suffered with a pain in my stomach and left side and thought it would kill me. I am glad to write and let you know that I am all right. I can do my work now without pain and I don't have that tired feeling that I used to have. Five bottles of Dr. Pierce's Golden Medical Discovery and two vials of his 'Pleasant Pellets' cured me."

Sick people can consult Dr. Pierce by letter free. All correspondence private. Address Dr. R. V. Pierce, Buffalo, N. Y.

LADY JOAN'S COMPANION.

BY FLORENCE WARDEN,

Author of "The House on the Marsh," "A Lowly Lover," "A Lady in Black," "Our Widow," "A Perfect Fool," "The Girls at the Grange," &c.

CHAPTER XXI.—Continued.

So Lady Harlingham had no one to turn to in her distress; and when she started on her lonely walk to the village she felt like one at sea without sail or rudder. What was she in the hands of this astute stranger, this man who had taken her daughter from her, who was in league with Miss Meadows against the powers at the Hall?

She had no idea how she was to set about her task of interrogating the American, and when she reached the works and found herself face to face with the young manager, she could only bow without a word in answer to his salutation, trembling so much that he guessed at once the nature of her visit.

"You have done me the honour to come and see me, your ladyship?" he asked, gravely.

She bowed her head in assent.

"Will you come into my office? And excuse the plight I am in."

He was in his working clothes, and his hands were grimy with oil and dust. Lady Harlingham looked as she felt, rather shocked at the thought that this black-handed person could be her daughter's choice.

Perhaps George Barton made a shrewd guess as to the thought in her mind.

"I'm afraid you are rather disgusted, Lady Harlingham, to be received by such a sweep as I look now. I wish, for your sake, you had sent for me, instead of coming down here, and I would have smartened myself up, and done more credit to my country than I'm likely to do with you this morning."

Lady Harlingham, who had taken a seat in the bare little office, recovered enough composure to speak.

"I had to come," she said, simply, "because the Earl, who is well enough to talk this morning for the first time since his illness, told me I must."

George Barton, who stood leaning against his office desk, with his hands held behind him so that they might offend her ladyship's eyes as little as possible, bowed his head and waited.

"My husband wishes me to ask you where the mechanic is who was lodging some time ago at Mrs. Rooney's."

George Barton looked at her with careful scrutiny of her poor distressed face.

"That, Lady Harlingham," he said at last, in a low voice, "I cannot tell you."

"But you know?"

"I can't deny that."

"And why won't you tell me?"

"Because some one, whose judgment I respect, thinks it would not be wise at this moment to do so."

"I know whom you mean—Miss Meadows."

"That's so."

"I wish to know why you have thought it necessary to join with a member of our household in a conspiracy against us."

"A conspiracy?"

"Yes. One of your objects is, of course, attained, now that you have estranged the affections of our daughter, and brought her to public disgrace——"

"Disgrace!" cried George Barton, starting up, and reddening under all the disguise of dust and dirt with which his handsome features were begrimed. "No. That's the wrong word. The disgrace for her would have been in her being sold like a horse or a dog to a fellow who's made himself the talk of the country by his unworthiness to fill the station he was born in."

He spoke with so much passion, with such deep sincerity, and, moreover, there was so much truth in what he said, that Lady Harlingham was left for a moment without an answer.

"He was a man in her own rank of life, at least,' she faltered presently.

"Oh, yes, he would have been a much better match for you and the Earl, I've no doubt, than I," retorted George Barton, sturdily. "It would not have troubled parents, who could lop off their children from home and family as if they had been spare branches of an old tree, if Lady Joan had eaten out her heart in a miserable life, tied to this brute."

"Oh, hush, hush! You have no right to say that——"

"Excuse me, Lady Harlingham, but I have a perfect right to justify myself, when you accuse me of having brought disgrace upon your daughter. It's not my fault, if, in doing so, I have to accuse you and the Earl of unnatural conduct."

Lady Harlingham stood up, and put out one hand imploringly. "Don't," said she, hoarsely. "What if I know it? What if I am smarting under that knowledge, and have been for years? Spare me!"

He grew gentle directly. "I hope you'll forgive me," said he. "And remember, that if I've been too bold, according to your English notions in loving your beautiful daughter, I've saved her from something worse than marriage with a man whose work in the world is not of the pretty drawing-room sort."

Lady Harlingham heard the note of manly sincerity in his speech; and, looking up into his face, could not but be struck, even in the disadvantageous circumstances in which she saw him, by the handsome figure and deep-set, kindly eyes of the man of her daughter's choice. After a short silence, she took courage to say, with a little sigh:—

"Mr. Barton, there's something in what you say. I—well, I know there's no comparison between you and Sir Charles Ebbsfleet, and that everyone sees that. But—if you must marry Joan—and even the Earl sees there's no help for it now, couldn't you—couldn't you do something cleaner for a living, something in which you could wear clothes like other people? I hope you'll forgive me for saying so, but it's rather shocking to us, with our English notions, to have to see you in—in that dress, and not to be able to shake hands with you."

George Barton laughed at the lady's simple distress. "Lady Harlingham," said he, "I need never wear this dress that worries you so much unless I like. I never will wear it if it worries—the woman I marry. There's not the slightest occasion for it; but the fact is, I love my engines as you over here love your horses, and I'm never so happy as when I'm grubbing about among them. If it should distress the woman I marry to see me with a black face and oily hands, she never will see me so, I assure you."

Lady Harlingham sighed. "Oh," said she, plaintively, "if you mean Joan, why, she won't object to anything. She'll adore you, and submit to you in every way, I've no doubt, just as her mother has done to her husband."

George Barton made an impatient movement. "No, not that," said he. "My wife will never do anything against her own better judgment; if it clashes with mine, it's I who will teach her to stand up for herself even against me. It takes two to make a happy marriage, Lady Harlingham, and I mean, if I do marry, that my marriage shall be a happy one."

The lady looked up at him with some admiration. "I—I believe it will be," she said simply, in a low voice.

"And now," said he, bringing her back to a subject she had forgotten, "I hope you won't talk any more about there being a conspiracy against you between me and Miss Meadows."

Thus suddenly brought back to her point, Lady Harlingham found herself without a word to say.

"I only came because Lord Harlingham sent me," she stammered out at last, like a naughty child who has been found out.

The American took pity on her confusion. "Go to Miss Meadows then," said he, gently, "and put to her the same question that you've put to me, and perhaps she will give you more definite answers than I can."

Lady Harlingham rose and held out her hand. He smiled, and bowed, but did not hold out his own hand.

"You forget," said he, with a humourous look.

But she only sighed, smiling also, and flushing a little. "No, I don't forget," said she. "But I feel that, for my daughter's sake, I should like to be friends."

At once he took her slender hand in his own, and grasped it warmly.

"We shall be friends," said he, gravely. "And I shall hope to have your permission to marry Joan in a month from now."

She started. "Yes, yes, it will be better, I suppose, to have it over soon," sighed she. "Mind, I don't give permission; I have no power, even if I had the will, to do that. And I'm pretty sure you won't get permission from the Earl either, though, of course, you must ask it. But—nobody will try to stop you—and nobody could if they tried."

With which rather cool and curious leave-taking, Lady Harlingham left her future son-in-law, and walked slowly up the hill back to the hall.

MR. WARDE AT THE ACADEMY.

The small audiences which gathered at the Academy on Friday and Saturday evenings to see Mr. Frederick Warde and his company put on Richelieu and Othello were agreeably surprised. In both these characters Mr. Warde gave a performance which delighted those who had the good fortune to be present. It is difficult to understand why an actor of Mr. Warde's ability in the interpretation of Shakespearean roles should have put on all week an unknown and comparatively stupid play like the Duke's Jester, which gave neither he himself nor the members of his company an opportunity to display much ability.

In portraying the character of the great French Cardinal, Mr. Warde lived the part from the lift to the drop of the curtain. His Richelieu was a clever and scholarly interpretation of the part in which the lights and shades were skillfully brought out.

In the character of Othello Mr. Warde gave a performance worthy of being compared to the work of such actors as Irving, Booth and Barrett. Seldom, indeed, has a Montreal audience looked at a more convincing interpretation of the character of the jealous Moor of Venice. In response to enthusiastic and long-continued applause when the curtain dropped on the third act, Mr. Warde in a few well chosen words expressed his appreciation of the reception accorded him, and said that if possible he would visit Montreal again. In the character of Iago, Mr. E. R. Spencer did some splendid work, which was marred a little by the indistinctness of his enunciation. Mrs. Spencer made a very acceptable Desdemona.

Mr. Warde should come to Montreal again. He has not been properly "discovered" yet by those who appreciate good acting.

A BABY'S NARROW ESCAPE.

The infant child of Mrs. Ross, of 2022 St. Catherine street, had a narrow escape late on Sunday night, as she was passing along St. Catherine street, in front of No. 5 fire station. The mother was wheeling the baby carriage containing the infant, when suddenly the iron casing over the door, weighing about three hundred pounds, fell with a crash, striking the baby carriage and breaking the two front wheels, and making splinters of the front of the carriage. It seems almost a miracle that the child was not killed.

Chief Benoit has for a long time insisted on the necessity of a new station as No. 5 is one of the oldest in the city. The occurrence of Sunday night will lend strength to the appeal for a new building.

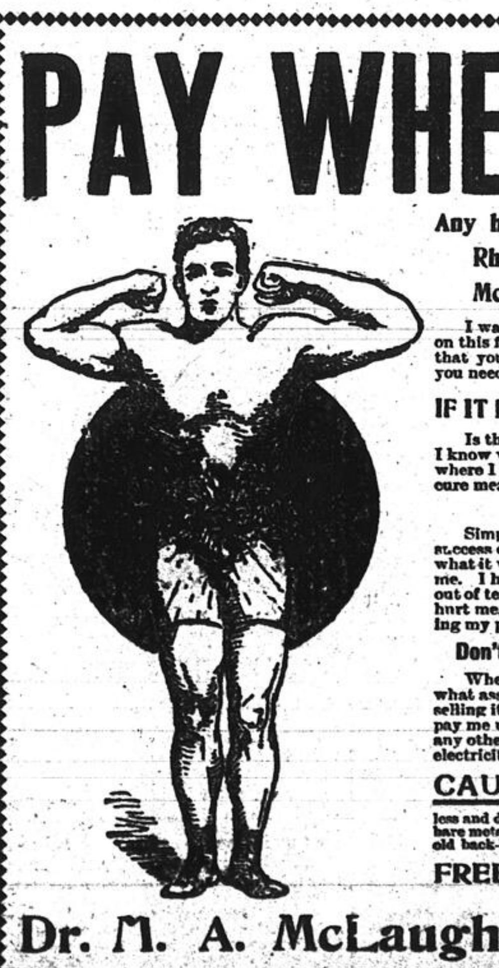
PAY WHEN CURED.



Any honest Man who suffers from Nervous Debility, Rheumatism, Lame Back, etc., can be cured by Dr. McLaughlin's Electric Belt and pay when he is cured.

I want every man who needs my belt to give it a fair trial, so I offer it on this fair and square proposition. Satisfy me that you are in earnest, that you need my treatment and are able and willing to pay for it, and you need not pay until you are cured.

IF IT FAILS TO CURE, IT DOES NOT COST YOU A CENT.

Is this fair? Of course. You take no chances; you pay when cured. I know what I can do for you, and if you have failed to get benefits elsewhere I know you are skeptical, so I will take the chances, if you will secure me.

WHY DO I DO THIS?

Simply because I have been in this business twenty years, have made a success of it, have cured fifty thousand people with Electricity, and know what it will do and how to apply it. It's a plain business proposition to me. I have the goods and know that they will do what I say in nine cases out of ten. I take the chances on all cases, and the one I lose on doesn't hurt me, as my business is increased a hundred per cent. by thus protecting my patients against possible failure.

Don't Buy Any Man's Goods Unless He Guarantees Them.

When you put your money into an Electric Belt you want to know what assurance you have that it will cure you. If the belt and the man selling it to you are right they can protect you as I do. I ask no man to pay me unless I cure him, and you should insist on the same terms from any other man who agrees to cure you, whether he sells you drugs or electricity.

CAUTION. Beware of old style burning electrode Belts, which are using an imitation of my cushion electrodes. My office contains hundreds of these old belts, discarded as useless and dangerous by persons whose bodies have been seared and scarred by the bare metal electrodes. I will make special terms to any one having one of these old back-burners.

FREE BOOK! I have a beautiful book telling all about my treatment, and I will send it sealed free, upon request. Consultation free.

WHEN THE WAR IS OVER.

Dr. Conan Doyle writes to the London Spectator, making a vigorous protest against the proposed visit of a South African cricket team to Great Britain. "When our young men are going from North to South to fight for the cause of South Africa, these South Africans are coming from South to North to play cricket. It is a stain on their manhood that they are not out with rifles in their hands, driving the invader from their country. They leave this to others, while they play games."

One must agree with the Spectator in its note to Dr. Doyle's letter that British South Africans have come forward so well and done such excellent service that any cricket team would be welcomed in any part of the Empire, when the war is over. "The men who held Wepener for the Empire showed us that the South African British could stand up to any team in the world in something nobler and better than cricket."

No one begrudges the men and treasure poured into South Africa to preserve the integrity of the Empire. Incidentally the attack happened to be upon the territory held by our South African brethren. It was as much our fight as theirs. Still those who are promoting the enterprise of sending athletic young men out of Africa to play games, while distant parts of the Empire recall lonely graves of their sons on the veldt, might be accused of bad taste. Wait till after the war, boys.

AN ORIENTAL BATTLE.

There is still field for the narrator of spirited adventure and the relator of romantic story among the tents of the Arab and under the shadow of the minarets of the Moslem mosque. The gay old days of fierce hand-to-hand warfare, in which personal strength, prowess and skill prevail, still occasionally recur.

A battle occurred in the heart of Arabia, a few weeks ago, between two monarchs whose very existence was unknown outside of Arabia except to a few specialists on the country. Yet that one battle decided the fate of a kingdom, and more men were slain than the British lost in battle in the whole South African war.

The King of Nejd had suffered a defeat a short time ago at the hands of Mabaroukh, the Sheik of Kowet. The King gathered his forces anew and placed them in the mountains. Then he lured the Sheik and his men into a gorge and led them into discharging their firearms, without any more deadly effect than is usual with the oriental in handling the weapons of modern warriors. When the Sheik and his men had used up all their ammunition, the King's men descended from the mountains and put them to the sword. It was a fearful carnage, and over five thousand lives were taken, so those who escaped to the Persian Gulf relate. Thus the King of Nejd is once more secure upon his throne and Arabia has a shattered Sheik. The modern weapons are deadly, but the old-fashioned style of fighting has a lot of killing in it, too.

A DANGEROUS PEST.

We are glad to see that the leading papers in London are urging attention to Japan's proposed world crusade against the rat. It is a foul and loathsome creature, without a friend among any of the domestic animals; is one of the worst parasites on mankind, and only lives by the carelessness of man. Where it thrives there must be filth or neglect and probably both. It is destructive of buildings beyond almost any other agency, destroys food and is the pest alike of the farmer and the city resident. Yet man has grown so accustomed to having the brutes about that there is seldom any determined or continued effort made to exterminate them. If it were not for the much-despised stray cat, the lean, gaunt, homeless waif, that receives nothing but missiles and abuse—the misunderstood missionary—the rat pest would get beyond all bounds.

It was bad enough to tolerate the noisome brutes when they were simply known to be destructive of property, but now that they are proved to be among the most prolific sources of contagion, the serious nature of the evil should be fully recognized.

The mysterious outbreaks of contagious diseases on vessels after they had been some time at sea; the appearance of disease on remote islands where no vessels known to have infection, had called, are now attributed to the rat. When we think that the ugly brute that haunts the cellar or out house, may be bringing us the plague, smallpox, all kinds of contagious fevers, by getting into our raw food, or travelling among our utensils at night, we begin to realize something of the sound common sense of Japan's crusade and the reasons why the rest of the world should join in the war against the pest of humanity.

As one of the leading London reviews, received by last mail says: "It is an economic loss in every sense, and now that it is proved to be a positive menace to human health as well, it should, if possible, be removed off the face of Great Britain."

Yes, off the face of the earth.

The London Spectator, commenting on Lord Roberts's report on the war in South Africa, says: "Mr. Kipling will not be doing his duty to the Empire if he forgets to immortalize the trek ox. What a fine monument might be made to the officers and men of the transport in the shape of a span of trek oxen standing on a granite pedestal just released from their yoke." The granite pedestal newly emancipated from the yoke of a span of trek oxen, with the iron heel of the tyrant oxen still upon the neck of the released pedestal, will be unique and paradoxical. It is indeed worthy of being embalmed in sympathetic verse and immortalized in enduring stone.

The news from China is not reassuring, and is in line with what some, who had been watching the course of events, anticipated. It looks as though the resources of diplomacy had been made use of by the Chinese to keep questions open while preparations were made to put a big force in the field and the season was suitable for moving men. The awful outrages committed by the Christian troops, or some of them, which drew forth the ringing rebuke from their heathen Japanese allies, have not tended to make the Chinese any more anxious than before to allow the "foreign devils" to get out of the country alive. The fierce fighting the German troops have had to do, just as the powers were all considering the withdrawal of their forces, looks as though the Celestials were beginning all over again.

A horrible suspicion has been cast upon the picture recently before the public eye and sold to Mr. J. Pierpont Morgan. The fact that it was a portrait of the Duchess of Devonshire by Gainsborough has been accepted. But is it a Gainsborough painting? The evidence appears to be far from conclusive. It has always been considered to be a portrait of the second Duchess of Devonshire. A writer to the Times says one who knew the first and second wife of the Duke of Devonshire very well told him there was not the slightest doubt that the portrait was that of the second. Here is where the rub comes. This lady was the widow of one Thomas John Foster until some years after the death of Gainsborough, when she married the Duke of Devonshire. Until she became the Duchess of Devonshire she was not likely to have had her portrait painted by Gainsborough, and certainly it would not have been painted as the portrait of the Duchess. It looks very much as though the painting were not a Gainsborough at all.

Again we have an illustration of the dangers which now beset the pathway of burglary in the present day. "No man in the house," has ceased to be a safety. Indeed it is becoming an added danger. The man when he hears a noise, and is in the darkness, tries to believe that it is only the cat, or if there be no such useful attachment to his household, tries to make himself imagine that a strange feline has acquired an attachment for the household and managed to sneak in through the sink pipe or crawl through the letter box. Now, woman's curiosity makes her take nothing for granted. If she can, she will kick a man in the back and make him get up to see what it is. But woe to the burglar who goes into a room where a female is alone and unprotected. Numbers of them have lately been captured single-handed by fair ladies, and delivered to the patrol waggon, in a half dead condition. The latest illustration of burglarious hardship comes from Atchison, Kansas. A burglar felt the face of a fourteen year old girl, in moving around a room in the dark. She immediately felt his face, and thus discovering he was not her father, she did not scream herself but made the burglar do the screaming by closing her teeth upon his finger and holding on with a silent intensity which led the house-breaker to make exclamations which aroused the household. When he heard the rush of steps coming to the room he tore himself away and jumped out the window. He loosened the poor young thing's front teeth, but she may be said to have had a taste of real burglary and is as proud as a boy with a scar on his brow.

MONTREAL AND THE QUEBEC LEGISLATURE.

To the Editor of the Star:

Sir, — It is notorious that the influence of the city of Montreal in the Quebec Legislature has never been in proportion to its interests, and that it is gradually becoming less. In the Taillon Government, five of the Ministers were Montrealers, the Hon. Messrs. Taillon, Beaubien, Nantel, Hall and Morris. In the Marchand Government, four Ministers were residents of this city, the Hon. Messrs. Robidoux, Archambault, Stephens and Guerin; while in the Parent Government, the city has only three Ministers, the Hon. Messrs. Archambault, Gouin and Guerin; the first of whom is not responsible to the people, as he is a life member of the Legislative Council, and the last is without portfolio. The city of Quebec is much more fortunate, as its Mayor is also Premier of the province, and is at the head of the most important portfolio of the Government, namely, that of the Lands, Forests and Fisheries. The Hon. Mr. Turgeon, who presides over the Department of Colonization and Mines, and is also the Acting Provincial Secretary and Registrar, is a Quebecker, and so is the Minister of Agriculture, the Hon. Mr. Dechene. What lends point to the comparison is the fact that with the decrease of Montreal's Cabinet representation, the raids upon our civic rights and public franchises are becoming bolder and more rapacious. It is true that by an act just passed the number of the Ministers is reduced to six with portfolios and one without, but what good reason can be given why the reduction should be entirely at the expense of Montreal's influence in the Government? The positions held by the Hon. Mr. Robidoux and Stephens, two Montrealers, have not been filled by the Hon. Messrs. Parent. If a reduction in the number of Ministers is advisable, and there are good reasons for it, at least let it be operated fairly, so that the district of Montreal, which contributes so largely to the provincial treasury, should have its fair number of Ministers, whom its electors could hold responsible for the raids upon our rights.

CHANGE IN TRAIN SERVICE.

An important change was made yesterday by the Canada Atlantic Railway in their train service between Montreal and Ottawa. Hereafter the morning local will leave at 7.40 a.m., arriving in Ottawa at 11.05 a.m., making all stops. The express will leave at 9.15 a.m., connecting with stations on both the Hawkesbury and Rockland branches, reaching Ottawa at 11.35 a.m. The afternoon express leaves as formerly, at 4.10 p.m., arriving in Ottawa at 6.30 p.m. The evening local leaves at 5.45 p.m., stopping at all stations and arriving at 9.05 p.m.

PASSING HOUR.

TO THE HONEST LIAR.

Here's to the man who lies to us, who's careless of the truth,
Who slaps us on the back and says, "Gee! how you hold your youth!"
Who shrinks not at the future when he has a lie to tell,
But, when you're sick and tired and blue, declares, "You're looking well!"

Here's to the man who tells us lies when solemn truth would hurt,
Who says: "I'll back you through and through, if it should take my shirt."
Who, when you're "off" and cannot write just as you think you should,
Will tune you up for better things, with, "That's what I call good!"

Or, when you paint a picture that is wrong in every part,
Will make you think the daub is great by saying, "Now, that's art!"
He lies—but it's in charity, if lying ever was,
So, here's his health, for, though he lies, he's honest when he does.

—Josh Wink, in the Baltimore American.

One Edward Settle, of Hicksville, L.I., sold a second-hand cow to a butcher for $46. She was aged and gave no more milk and just about the kind of a cow a hungry public would long to taste. But Mr. Settle had a spasm of regret when the butcher killed the cow, and found she had a leather wallet containing $72 stored up in her interior. A cow that saves up for her old age should not be converted into tripe and beef steak. Mr. Settle now wants to claim her savings, but the butcher says he settled with him before the cow's death.

Brown had just finished warbling "Let me like a soldier fall" to his own great satisfaction and to that of the company. That is to say he warbled to his own satisfaction and finished to the satisfaction of the others. Then he turned to Jones and pressed him for a song. "There are lots of fellows," he remarked encouragingly, "who can sing, only they don't know it." "Yes," replied Jones, "and there are lots of fellows who can't sing only they don't know it."

"You don't suppose they put them in their mouths, do you?"

THE VERY MAN.

A Glasgow gentleman recently recommended to the notice of a city merchant a young fellow who was looking for a clerkship. Some few days later they met again, and the gentleman asked if the selection had proved a wise one.

"Not at all!" replied the merchant.

"Dear me!" said the other. "I thought he would have suited you down to the ground—so full of go."

"Yes," responded the merchant, "he was too full of go. Why, he's clean gone, and a thousand pounds of my money, too."

"You don't say so! Why, I thought he was exactly the fellow you were looking for."

"So he is," was the emphatic reply—"so he is."

THE ATLANTIC UNION.

The Atlantic Union is the comprehensive title of an institution being formed in England to promote social relations between Englishmen and Americans. It has eight noble lords on the committee, and the programme is to entertain visiting Americans. So far the arrangements made do not seem calculated to do much to blend the society of the two countries. They include conducting a party through Cambridge University; another through the House of Commons, and a third through the newspaper offices. The British aristocracy does not seem to be very seriously committed so far. Possibly the idea is to avoid radical departures and to approach gradually the social intimacy involved in a five o'clock tea. From present indications the transatlantic visitors cannot expect much more this season than to be taken under high-toned chaperonage to the British Museum or the Zoo.

GIANT CIGAR TRUST TO FORM.

CHICAGO, April 30. — The Chronicle says the gigantic consolidation of cigar manufacturers in this city will be announced Wednesday. The American Cigar Company, itself a consolidation of many factories, and closely allied with the so-called tobacco trust, is at the head of the scheme. At least seven other firms are now united under the name of the Havana-American Company, are to be absorbed, and in addition, it is reported, five or six other large factories have already been bought. The total capital in the combine will represent upwards of $60,000,000.

No Royal Road to Riches

But there is a Straight and Direct Path Open to Good Health, and it is Open to You.

There may be no royal road to riches, but there is a path to good health that is direct and certain, and, with good health once secured, riches become much more easily attainable. This path to good health might very appropriately be termed "The Good Food Route." It is pleasant to follow, and every milestone brings increased brightness and sunshine. Sickness and disease are left by the wayside, and in their place comes joyous, robust good health. W. J. Hiller, of Xenia, Ohio, has travelled the "Good Food Route," and gives his experience as follows:

Xenia, Ohio, Oct. 17, 1898.
The Battle Creek Sanitarium Health Food Co.:

Gentlemen, — I am delighted with your Health Food. I have used Caramel Cereal and Granose Biscuits continuously for the past two years. I have obtained the benefits which are claimed for them, and continue to use them because I have learned to like each and all of them.

One never tires of eating your Health Foods, and the cost is no greater than that of other foods supplying the same amount of nutriment. For impaired digestion they surpass anything in the shape of medicines.

Very respectfully,
(Signed) A. J. HILLER.

CHINESE FOUGHT STUBBORNLY

Germans Suffered Heavy Casualties—Withdrawal of the Troops From Pekin.

BERLIN, April 30.—Later despatches from Field Marshal Count Von Waldersee show that the fighting at the Great Wall was on a considerable scale. There were three engagements on April 23 and one on April 24. The Chinese were everywhere and offered a stubborn resistance.

Of the four columns forming General von Ketteler's brigade, that under Major Meuhlenfelds seems to have had the toughest fighting. It encountered the Chinese occupying a bastion on the heights commanding the pass. The position was only taken after a fight which lasted eleven hours. Major Meuhlenfelds and a lieutenant were slightly wounded, a lieutenant was severely wounded, two officers were killed and ten men wounded.

Col. Wallmenich also had a long fight with superior numbers. He lost one man killed and a lieutenant and twelve men wounded. He captured eleven old and two new rapid-fire guns. Count von Waldersee gives the total German wounded as four officers and thirty-two men.

PEKIN, April 29.—The foreign ministers here have been notified by the generals commanding the allied forces that so soon as the indemnity to be demanded of China shall have been decided upon and China agrees to pay it the foreign troops will be withdrawn from Pekin, leaving only a sufficient force to form a legation guard. It has not yet been decided whether this guard will be placed under the command of one officer or whether it will be made up of independent detachments.

The Chinese will be allowed gradually to assume the reins of power at Pekin until finally the civil administration will be entirely in their hands. The military will, of course, exercise a passive supervision.

Subsequent advices tend to show that the Germans were entrapped by the Chinese at Ku Kwan pass. While the Chinese losses are said to have been nominal, the Germans suffered forty-five casualties in a detachment of eighty men.

Fire at Winnipeg, Man., on Monday, destroyed the Nova Scotia Wool Company's store. The wool stock was well insured.

NOT JUST AS GOOD

Did you ever inquire at a store for certain articles and get for a reply "We have something just as good"? Did it ever occur to you that "Something just as good" is something the dealer has been able to buy much cheaper than the articles you inquire for? This is true in drugs, fabrics, groceries, hardware, and in fact every line, including silver-plated ware. If you inquire for 1847 Rogers Bros.' Knives, Forks or Spoons, don't accept any bogus Rogers' stamp because your dealer tells you it's just as good.

AFFECTING SCENE IN HOUSE.

Hon. Mr. Turner Announces His Retirement From Politics on the Coast.

(Special to the Star.)

VICTORIA, B.C., April 30. — There was an affecting scene in the Legislature yesterday afternoon when Hon. Mr. Turner, in delivering the thirteenth budget speech, announced his retirement from public life of the province, presumably to take up the post of agent general at London. Mr. Turner was deeply affected and was repeatedly compelled to stop, being overcome. A number of members were also visibly affected. In his speech Mr. Turner said he estimated the receipts to June 30th next as $1,757,239, and the expenditures as $2,351,371.

Mr. Brown mildly criticized the speech and was followed by Mr. Smith Curtis, who made the best speech delivered by him this session, in which he sharply assailed the Government, pointing out how it had failed to draw the attention of capital to Vancouver Island. Previous to the budget, Mr. Smith Curtis made another and unsuccessful attempt to explain his position, being ruled out of order by the Speaker.

NATIVES ATTACK HENEKER.

British Punitive Expedition Sorely Pressed and Lieut. Carstairs, a Canadian, Slightly Wounded.

LONDON, April 30.—Information received here from Uromi, West Africa, and dated March 25, is to the effect that the punitive expedition under Major Heneker, composed of 250 men, which had pentrated to the northeast of Benin City, and there seized an important town, was being attacked in force. The natives are collecting from all parts of the country. Up to the date of the report Major Heneker's command had had 32 casualties.

Lieut. Carstairs, of the Canadian militia, has been slightly wounded. He is the only white officer injured.

BIG SHIPMENT OF LEAD.

ST. JOHN, N.B., April 30.—The steamer Marian sailed from West St. John yesterday with a cargo of 2,700 tons of lead, concentrates from the Kootenay country. This is only a portion of the consignment, some having preceded it. The lead was billed to Antwerp, and it is the largest shipment of Canadian lead ever made. The shipment is also interesting in that it shows the increase of a Canadian industry of which little is known in the east. Within the past three years silver lead mining in British Columbia has assumed marked proportions. The production in 1900 amounted to 60,000 tons, valued at five millions.

THE GRAND TRUNK.

President Sir Rivers-Wilson at To-day's Meeting Expressed Regret at the Departure of Mr. Hays.

A REFERENCE TO MONTREAL.

Trade Goes to Portland Because Our Harbour Facilities Are Inadequate to Take Care of It—He Is Coming Over Soon.

(Special by Cable from the Special Correspondent of the Star in London.)

LONDON, April 30.—At the meeting of the Grand Trunk Railway directors today Sir Rivers-Wilson, who presided, regretted the loss the company had sustained in the retirement of Mr. Hays from the management of the road.

The president said he expected a large increase in traffic this season, owing to the Buffalo Exposition.

Regarding the developments at Portland, he hoped Montrealers would understand that there was no idea on the part of the Grand Trunk of discriminating against the port of Montreal. The harbour facilities of Montreal were extremely inadequate, and altogether insufficient for Grand Trunk requirements. He himself would be in Canada next week, and would return in October.

The prospects for the present half year are encouraging, as the cost of materials would probably decline. The report and accounts were unanimously adopted.

WINDERMERE.

A DETAILED REPORT.

LONDON, April 30.—The semi-annual meeting of the shareholders of the Grand Trunk Railway here to-day was largely attended. The directors' reports, showing decreases in the receipts and an increase in the expenses, were accepted without criticism.

The president, Sir Charles Rivers-Wilson, said the Buffalo Exhibition ought to bring largely increased traffic, and recommended that the shareholders visit it. He dilated on the advantages which accrued to the Grand Trunk Railroad by the new arrangement allowing it to enter the Union Station at Buffalo.

Referring to the company's intention to spend $400,000 at Portland, Maine, for the construction of a new grain elevator, Sir Charles said the feeling in Canada over the patronage of an American port was quite unjustifiable, as Montreal's facilities for shipping and storing grain were extremely inadequate. Sentiment must not be allowed to interfere with business. But he was glad to say Montreal contemplated making considerable improvements. Portland, however, was the natural outlet of the line.

THE GROSS RECEIPTS.

The gross receipts were £2,419,218, 12s, 8d, while the working expenses amounted to £1,632,517, 6s, 5d, making the net traffic receipts £786,701, 6s, 3d. Other receipts brought the net revenue up to £887,929, 8s, 7d. Adding the balance of £336, 6s, 11d, at the credit of net revenue account on June 30, 1900, to the above surplus for the past half-year of £302,046, 5s, 3d, the total amount available for dividend is £302,382, 12s, 2d, from which the directors recommend the declaration of the following dividends, viz.:

	£	s.	d.
£2 per cent. on the four per cent Guaranteed Stock	£104,395	17	6
£3 10s. per cent. on the First Preference Stock (making, with the £1 10s. per cent. paid for the half-year to 30th June, the full dividend for the year.)	119,589	1	0
£3 per cent. on the Second Preference Stock	75,852	0	5
	£299,836	18	11

leaving a balance of £2,545 13s. 3d. to be carried forward to next half-year's accounts.

During the half year 3,888,868 passengers were carried and tonnage of freight and live stock moved amounted to 5,176,855. The working expenses for the half year amounted to £1,598,781, which was an increase over the corresponding half year of 1899, mainly attributable to the enchanced cost of fuel and other materials.

CAPITAL ACCOUNT.

The four per cent. Debenture Stock of the company has been increased during the half-year by an amount of £418,515, of which £416,779 was issued in exchange for the Company's Bonds and other securities scheduled in the Company's Acts bearing a higher rate of interest, whereby an annual saving in the net revenue charges of £4,600 per annum has been effected.

The actual expenditure during the half-year on Capital Account for rolling stock, double track, and other additions and improvements was as follows:

	£	s.	d.	£	s.	d.
Instalment on Portland City Elevator Loan				£445	9	7
New works, sidings, etc.				49,979	8	2
Double track				74,652	0	10
Rolling stock:—						
300 new Double Hopper Coal Cars	£42,111	19	9			
Equipment of engines and freight cars with air brakes, automatic couplers, etc.	67,455	4	1			
				109,567	3	10
Land purchased				11,127	9	10
				£245,771	12	3

An amount of £46,925 14s, being the balance of the subsidy of $500,000 voted by the Dominion Government towards the cost of reconstructing the Victoria Jubilee Bridge received during the half year, has been placed to the credit of Capital Account.

Following the precedent adopted in the December half year of 1899, an additional amount of £20,000 has been charged in the past half year to maintenance of way and structures, in reduction of renewal of bridges suspense account, which now stands at £15, 385 12s.

GRAND TRUNK WESTERN RAILWAY.

The Chicago and Grand Trunk Railway, as the proprietors have been already informed, was sold under decree of foreclosure, the railway and property being acquired on the 31st October by the purchasing Committee, by whom it was subsequently handed over to the new company incorporated under the title of the Grand Trunk Western Railway Company.

The operations of the year 1900, during the working of the line by the Receivers for 11 months to the 1st December, and since that date by the reorganized Company, resulted as follows:

The gross receipts amounted to £883,305, against £801,372 in 1899, an increase of £81,933. The working expenses were £730,277, against £674,609, an increase of £54,668; the net profit being £153,028, against £125,763, an increase of £27,265.

The net revenue charges for the year were £160,432, against £181,447 in 1899, so that there was a deficiency in meeting the net revenue charges, in 1900, of £7,404, as compared with a deficiency for 1899 of £55,684. In the accounts for the half-year ending 30th June, 1900, there was debited an amount of £30,821 in respect of the interest on the Chicago and Grand Trunk Second Mortgage Bonds for that half-year, but inasmuch as the deficiency for the whole year was, as shown above, only £7,404, an amount of £23,417 has been refunded to the Grand Trunk Company.

DETROIT, GRAND HAVEN AND MILWAUKEE.

The gross receipts of the Detroit, Grand Haven and Milwaukee Railway for the half year to December 31, 1900, were 116,363 against 115,907 in 1899. The working expenses were 84,523 against 73,769. The decreased net revenue was 10,298.

PORTLAND IMPROVEMENTS.

For some time past the existing elevator accommodation at Portland has been found inadequate for the expeditious handling of the grain business seeking outlet at that port, involving serious detention of loaded cars and consequent loss of revenue. With a view of obviating these adverse conditions the directors have sanctioned an arrangement for the construction of a new grain elevator at Portland of about 1,500,000 bushels capacity. An amount of $400,000 estimated to be required for this purpose, is to be provided by the banking establishments of the city under the guarantee of this company, at a rate of interest of 3 3-4 per cent. per annum, the principle being repayable in annual instalments of $10,000, which together with the interest, it is estimated will be covered by the profits to be derived from the undertaking. In order still further to facilitate the company's business at Portland, the directors have authorized the construction of an additional wharf in connection with the new elevator, and other alterations and improvements in the company's property to meet the requirements of the traffic.

Reference is made to the new agreement for the taking over of the Cincinnati, Saginaw and Mackinaw line for 99 years, at an annual rental of $43,225, and to the bill passed by the Dominion Parliament this session, ratifying the agreement between the Grand Trunk and the Grand Trunk Western railway.

The proprietors were also informed that at the special meeting held on the 11th of December, last, Mr. Charles M. Hays, who for five years so successfully filled the position of general manager, had retired from the company's service, and that Mr. George B. Reeve, who had previously been in the service of the company as general traffic manager, had been appointed his successor. Mr. Reeve assumed office on the 15th of December, last, with the title of second vice-president and general manager.

PURCHASE OF LEYLAND LINE.

Particulars Given Out To-day in London—Mr. Morgan Will Secure Control.

LONDON, April 30. — A circular was issued this morning by Chairman Ellerman, of the Leyland line, in which he informs the shareholders that he has entered into a provisional contract with Mr. J. Pierpont Morgan for the sale of his entire holdings of ordinary shares in the steamship line, namely 71,000 shares at £14 10s per share for each £10 share, and that Mr. Morgan agrees to purchase on similar terms all ordinary shares offered before May 26th.

All the principal ordinary shareholders, representing a great majority of the ordinary shares, according to the circular, have intimated to Mr. Ellerman that they will avail themselves of the offer of Mr. Morgan, and the effect will be that purchasers will become owners, practically, of all the ordinary shares at a cost of upwards of £1,750,000.

Mr. Ellerman binds himself not to engage either directly or indirectly in the North Atlantic trade, either with the United Kingdom or the continent, except between Antwerp and Montreal, for a term of fourteen years, on condition that the purchasers sell him the Mediterranean, the Portugal and the Montreal fleets and the business connected therewith at an agreed on price. Mr. Ellerman adds that he proposes to retain his entire holding in preference shares, amounting to over £180,000, and his co-directors will retain all their preference holdings, amounting to £120,000. Mr. Ellerman also offers to buy any preference shares at par and their accrued interest.

A circular issued by the secretary of the Leyland line accompanies Mr. Ellerman's circular. It explains that the directors, including Mr. Ellerman, hold £886,680 out of £1,200,000 ordinary share capital, and £314,900 out of £1,415,000 preference capital. Several of the directors also control a large amount of other shares and all the directors intend to vote in support of Mr. Ellerman at all the meetings called in connection therewith.

The Leyland property was recently appraised at £15,000,000. Of its sixty-five ships, five are employed in the New York-Liverpool trade, six run to Boston from the Mersey, twenty go to New Orleans and the West Indies, and the remainder are in the Mediterranean trade or run between Quebec, Montreal and London.

The Atlantic Transport Company's fleet is estimated to be worth £4,000,000, making the total amount involved £19,000,000, or nearly $100,000,000.

WANT STEEN TO STAY.

Vestry of Christ Church Cathedral Adopt Resolutions Requesting Rector to Continue the Services of Prof. Steen.

THE RECTOR DEFINES POSITION.

Hope Expressed That Archbishop Will, With Professor Steen's Assent, Publish His Reasons For Opposing Retention of His Services.

At a meeting of the vestry of Christ Church Cathedral, held last evening, a resolution was adopted requesting the rector to continue the services of Rev. Prof. Steen in connection with the Cathedral. In putting the question, Archdeacon Norton, who was chairman, explained that, while he was willing to do anything a clergyman might to meet the wishes of the congregation, he felt bound by his ordination vow not to commit any act of rebellion against the Archbishop's lawful authority.

There was considerable discussion over the question of the publication by the Archbishop of his reasons for refusing to sanction Prof. Steen's remaining at the Cathedral. There was, it seems, some misunderstanding on the subject of the publication of these reasons, and after much discussion a resolution was adopted expressing the hope that the Archbishop would, with Prof. Steen's assent, publish his reasons for opposing the retention of Prof. Steen's services in the Cathedral.

HIS BODY FOUND IN THE CANAL

Patrick McManus, a Well Known Westmount Carter, Drowned — His Watch Missing.

The body of Patrick McManus, a well known carter of the town of Westmount, was found at an early hour this morning in the Lachine canal, opposite Bourget street, St. Henri. His horse and vehicle were found some distance further down the canal, near the Napoleon bridge, in Ste. Cunegonde. Everything seems to point to an accident. The only reason to suppose that any foul play may have been used lies in the fact the that the old man usually carried from $60 to $70, while there was only $2.26 found in the pockets of deceased. His watch is also missing although the chain is attached to his vest. Above the right eye is a wound which may have been cause by the fall as well as by a blow.

The deceased was a well known character in Westmount. He was sixty-nine years of age and lived with his son, Mr. John McManus, at No. 331 Oliver avenue, Westmount. There was no reason for him to work as his son was perfectly willing to support him. The old man was a free lance, however, and preferred to make his living in his own way. Quite lately he recovered a sum of money for damages for injuries received in a collision by the Montreal Street Railway over a year ago.

About noon yesterday, the old man went to Dr. Cowan's on Greene avenue, where he kept his horse and took out the horse, attaching it to a road cart belonging to Dr. Cowan. He afterwards went to his son's house and announced that he was going for a long drive and would probably be absent a week or more. He intended to visit a brother of his who lives somewhere in the Eastern Townships.

His son cannot tell what amount of money the old man had with him when he left, but he supposes that he had the usual amount, about $60. He was in the habit of changing horses at every available opportunity and it is just possible that some of the money may have been paid out in a trade.

When the body was found this morning the police of St. Henri were notified, and after communicating with the coroner they caused the body to be sent to the morgue. A medical examination will be held this afternoon by Drs. Wyatt Johnston and Dugas. This will determine the cause of death. In the meantime, the police are carrying on an investigation to find out where deceased went to when he left home and what happened from the time of his departure until the time of his death. The inquest on the remains will take place at ten o'clock to-morrow morning at the morgue.

NEW CHIEF OF POLICE.

A meeting of the Police Committee has been called for to-morrow afternoon to discuss the question as to who shall be the new Chief of Police.

One of the members of the Police Committee stated this morning that there was every likelihood that Chief Legault, of the Provincial Police, would send an application for the position. The present chief will retire on July 1 next.

REVERSED BY COURT OF REVIEW

Mrs. Cloutier, a widow, obtained judgment for $2,600 some time ago against the G. T. R. Company by the Superior Court for damages caused by the death of her husband, who was killed in Sherbrooke by a train belonging to that company. The Review Court reversed that judgment this morning.

NEW HEAD LINE STEAMER.

The Head Line new steamship Carrigan Head, Captain John Auld, arrived in port yesterday from Belfast on her maiden trip, consigned to Messrs. McLean, Kennedy and Co. She is classed A1 at Lloyd's. The deck erections consist of poop, topgallant, forecastle and long bridge amidships. On the latter are placed steel deckhouses for the accommodation of a few passengers, captain, officers and engineers, with teak chart and wheel house on the flying bridge. The vessel is sub-divided into seven water-tight compartments, four of which are cargo holds, all of about equal capacity. The outfit for working cargo is very complete. The vessel is rigged as a two-masted fore-and-aft schooner. The lower masts are of steel, with pole masts arranged on the telescopic principle. The deck machinery is all up to date. The steamer is fitted throughout with a complete installation of electric light.

NOTES.

The Allan Line steamer Numidian, from Portland for Liverpool, passed Kinsale at 3.50 a.m. Tuesday.

The Allan Line steamer Assyrian, from New York for Glasgow, arrived out on Monday afternoon.

The engineer of the Lachine canal states that the repairs have progressed so favourably that water will be let into the canal to-night, and that the canal will be open for navigation at 10 o'clock to-morrow morning.

Colonel Partridge, New York State superintendent of Public Works, yesterday changed the date of opening of navigation on the canals of that State from May 4 to May 7.

The Allan Line steamship Parisian was unfortunate enough to run into a fog bank on her trip out, causing a delay of fifteen hours.

GEORGIAN BAY CANAL.

Construction of Deep Water Way From Lakes to Ocean Explained by Mr. E. E. Sawyer, Eminent English Engineer,

TO THE BOARD OF TRADE.

Rates Could be Quoted That Would Put the Railways Out of Western Heavy Freight Business and Canal Would be Worked to Capacity

The Georgian Bay canal project was the subject of a discourse by Mr. Ernest E. Sawyer, C.E., of London, England, before the members of the Board of Trade, shortly after noon today. Mr. Sawyer is one of the most eminent of English engineers, his work on the other side having included the building of the Manchester ship canal. He comes to Montreal thoroughly convinced that the water route via the Georgian Bay, the French river, Lake Nipissing, the Ottawa river and the St. Lawrence, is the coming route from the west to the ocean.

It might be said at the outset that Mr. Sawyer was sent out to Canada to investigate the matter, his backers being a syndicate of capitalists, which, it is said, is willing to put many million dollars into the project, provided they get sufficient encouragement from Canada and the Canadians.

A QUART CAN'T GO INTO A PINT.

After an introduction by Mr. Henry Miles, president of the Montreal Board of Trade, the speaker said that he had come out to investigate the project for men who knew nothing of the matter by personal observation and little of the actual facts even by hearsay. Mr. Sawyer found upon investigating that the country already had a fourteen foot waterway from the lakes to the sea, and that it did not answer the purpose. The reason for this, as he expressed it, was because a quart could not be put into a pint measure.

The large lake carriers, he said, could not go through the locks, nor was fourteen feet sufficient for the great lake grain carriers of to-day. The old style grain vessels on the lakes had a capacity of some two thousand tons, the latest had a capacity of ten thousand tons. The increase in ocean tonnage had been in like proportions and to-day steamships had a capacity of five times those of a few years ago.

BRING TRADE THROUGH CANADA.

These were the reasons why the Canadian canal system had not fulfilled its mission and brought to Canada the trade which was now going to the United States. The Armours, of Chicago, had told him that a difference of 1-8 cent. per bushel was sufficient to divert trade from the Gulf to the Atlantic ports, or vice versa. At the present time Montreal was not receiving over 7 p. c. of the grain trade of the great middle west. Railway competition was diverting this trade to the United States ports, but the railways had now reached about their limit for cheap transportation. If a cheaper rate from Chicago could be found it would influence upward of seven million of tons of freight via Montreal. The iron ores of Lake Superior are fast taking the place of the Spanish ores, the mines of the latter being about worked out. Owing to steamships of large capacity this ore is being carried over the lakes at a rate altogether impossible by rail, and further without water transportation this iron could not be utilized, owing to the freight charge which it would be necessary to pay.

Mr. Sawyer gave some details of the Georgian Bay route which are already fairly familiar to the general public. He then went on to state that should the work of building this canal begin to-day it would take about five years to complete. Judging from present and past indications the yearly increase of traffic would amount to millions of tons, so it was hard to say what a five year increase in traffic from the great middle west to the seaboard would amount to. In any event it would be immense.

THE ARMOURS FAVOURABLE.

Mr. Sawyer said that the Georgian Bay scheme was a series of deep water stretches and could be made to navigate a vessel drawing twenty feet of water, at little additional cost over a fourteen foot channel. His proposition embraced locks of five hundred feet in length, sixty feet wide and twenty feet on the lock sills.

The Armours in Chicago had told him that the Georgian Bay route would be the shortest and cheapest from Chicago to the sea board, and more important still that it would only be necessary to drop ⅛ to ¼ cent per bushel on grain to attract all the business that the canal would be capable of handling. There was no chance of the rail routes cutting to meet it, for the reason that they were down now to the limit where a cut of a quarter meant carrying grain at no profit. Figuring every possible contingency the Georgian Bay route would be one and one-half cents per bushel cheaper than anything in existence or anything that could be constructed.

THE BENEFIT TO MONTREAL.

A high authority in Canada had informed the speaker that the annual traffic by way of the Georgian Bay canal could not fall below eight million tons per annum, and the speaker had every reason to believe the statement.

In conclusion Mr. Sawyer pointed out the immense benefit to Montreal. The city would with the Georgian Bay canal proposition in full working order become the great outlet for the freight traffic of the North American continent.

The speaker was followed by Mr. Edgar Judge and Mr. Alexander McFee, who both spoke in favour of the project.

CHILD AGED TWO DIED DRUNK

In the dining room of the little home, 367 Duluth avenue, lies the dead body of two year old George Lauzon, killed by whiskey, left at the father's bedside, when he went to sleep on Sunday night. Octave Lauzon and his wife occupied the front room of the house as a bed-chamber and on the mother' side of the bed stands the crib that for two years was occupied by the child. On the father's side of the bed is a small table on which he left the liquor which killed his child.

Mrs. Lauzon says on Saturday night Mr. Lauzon with his wife and child spent some time with a neighbour and on reaching home took a bottle of beer and a bottle of whiskey to the bedroom. Part of these he swallowed and the balance was left on the table. Shortly after seven on Sunday morning the child awoke its parents with a strange cry and they found it laughing hysterically and singing songs. Occasionally it broke into a cry of "Whoa" and then went back to unnatural singing. On the floor near to where it was first seen when the man and woman awoke was the bottle of whiskey with some of the contents spilled. It was quite evident that the child had drunk some of the liquor and even a teaspoonful of pure whiskey would have been sufficient to intoxicate it. For hours the pitiful scene continued until the poor little thing fell into a sleep. It was thought then that it would finally come to itself again but the poison had only too faithfully done its work and late in the evening the child died of alcoholism.

Strange stories were soon circulated about the neighbourhood and this morning the Coroner's officer called at the house and made searching enquiries as to the manner of the child's death. On hearing Madame Lauzon's statement he decided that death was accidental and a certificate to this effect was given.

WALL STREET CRAZE.

Another Sensational Day's Business Added to List of Many Such Days During Past Few Weeks in New York.

HEAVY PROFIT TAKING SALES.

Large Blocks of Stocks Changed Hands and the Market Was Wide As Far as the Prices Were Concerned.

(From the Special Correspondent of the Star in Wall Street.)

NEW YORK, April 30.—Another sensational day in Wall Street will be added to the list when the market has had time to ponder over the work of the day. The buying at the opening was tremendous, and all records look as though they would be broken so far as volume is concerned.

It was evident at the opening that profit-taking sales were being conducted in tremendous volume, and on this account many stocks sold off sharply after the initial transactions. The most extensive advances at the opening were in Atchison, St. Paul, Rock Island, Ontario and Western and Union Pacific. Northern Pacific was decidedly reactionary, reflecting the tendency of that stock in the London market. Apart from Northern Pacific, American stocks were shown at substantial gains in London, and foreign houses again bought heavily here.

Outside of the railway list the chief features were United States Steel stocks, which sold, at the highest prices they have yet attained, and in which transactions were of almost unprecedented volume. Anthracite coalers were strong, with heavy transactions in Erie and Reading. Little was done in Industrials except Steel. Amalgamated Copper was strong, and Western Union showed a disposition towards recovery.

Other firm features of the railway list were Texas and Pacific, Southern Railway and Louisville and Nashville.

The morning's news comprised no confirmation of the reports current yesterday bearing upon particular stocks. Active conjecture again centred around Union Pacific, but definite news was lacking.

SOME HEAVY SALES.

Extraordinary transactions were recorded in the opening dealings, and sensational gains were shown all through the list. The first sales numbered 30,000 for Union Pacific, 25,000 each for United States Steel, common and preferred, 10,000 for Southern Pacific and from 1000 to 5000 shares for many other stocks, amongst the trunk lines Grangers, Pacifics, South-Westerns and Southern railway groups. There were gains of from one to two points scattered all through the list of leading railway stocks and prominent specialties. The fluctuations became rather wild after the opening under the enormous volume of transactions, heavy selling to realize making the advances.

Practically every important railway stock opened wide, as the Stock Exchange saying is. That is to say, the demand was so large and the buying orders were in the hands of so many brokers that they were making widely different prices simultaneously for the same stock. Buyers in one portion of a crowd were paying a dollar or more per share higher than the same stock was being sold for not three feet away. The confusion and excitement were so great that the brokers were practically oblivious of everything but what was occurring between the two immediate parties to the transactions.

Thousand-share blocks seemed to be the normal unit of business, and they ran up from that to 5000 and 6000 share blocks. The opening advances in the majority of stocks were 1 to 2 points.

THE CIGARMAKERS' STRIKE.

It is understood that the Cigar Manufacturers' Association have sent a representative to New York with instructions to examine and report on the cost and nature of the latest improvements in labour saving machinery used in the manufacture of cigars. This would indicate that the cigar manufacturers intend resisting to the last the demand of their striking employes for higher prices for piece work. A number of the manufacturers were called upon by a Star representative this morning, but all refused to discuss either the strike or what they proposed to do.

ANNUAL BAR ELECTIONS.

The Bar annual elections take place to-morrow at the court house. A new Batonnier will have to be chosen in the place of Mr. Madore, whose term has expired. Three names are being mentioned in this regard, viz.: Messrs. Matthew Hutchinson, K.C., M.L.A., W. J. White, K.C., treasurer of the Bar, and Donald Macmaster, K.C. Should Mr. Hutchinson or Mr. White be elected there will be a vacancy either in the Board of Examiners or in the treasurership. It was stated this morning that Mr. W. H. Weir, M.P.P., would probably fill the former, and Mr. M. G. Larochelle the latter, in case of a vacancy. The council, when elected, will appoint delegates to attend the election of the general board in a few weeks, when the secretary-general and examiners for the provincial examinations will be selected.

WILL SUE THE G. T. R.

Mrs. George Cross, whose husband was killed by a Grand Trunk train while picking a frog on the track, some time ago, was granted a petition this morning by the Superior Court to sue the Company in forma pauperis for damages.

The Top Price at 101 Was Paid in Wall Street This Morning, 100 3-4 Being Highest Price Paid in the Home Market.

DOMINION COTTON DIVIDEND.

Regular Quarterly 1 1-2 per cent. Declared—Richelieu and Toronto Rails Were on the Easy Side With Fractional Declines.

The special correspondents of the Star in Wall street and on the Chicago Board of Trade report in this column that stocks were again strong, while wheat was weak. The local market dull, apart from Canadian Pacific, which was buoyant. The total sales on the New York Stock Exchange yesterday were 2,760,000 shares.

The local market for Canadian Pacific was again exceptionally strong to-day. Yesterday for the first time in the history of the stock the price crossed par, and all the trading in the home market this morning was transacted at par and fraction. The New York market went higher by ¼ than the highest here, transactions being reported there at 101. The London market was reported at 103½, the fraction higher than yesterday's close. The London closing was higher at 103¼. These figures are all new high levels.

Yesterday afternoon the market closed at 100¼, the highest for the day, and this morning trading commenced at 100½. The demand was brisk and the price advanced to 100¾, but subsequently followed the lead of New York and sold down fractionally, in the home market, to 100⅜. The morning business amounted to about 1200 shares and yesterday to over 3000 shares. The returns of earnings would certainly tend to assist the bulls in their campaign, as the following statement will show:

	Mar. 1901.	Jan. 1 to Mar. 31, 1901.
Gross earnings	$2,500,618	$6,531,823
Working expenses	1,552,283	4,314,611
Net profits	$948,335	$2,217,212

In March, 1900, the net profits were $799,101, and from January 1st to March 31st, 1900, there was a net profit of $2,113,403. The gain in net profits over the same period last year is, therefore, for March, $149,234; and from January 1st to March 31st, $103,808.

The Dominion Cotton Company this morning declared the regular quarterly dividend of 1½ per cent. and the announcement had the effect of stiffening the price of the common stock. The bears recently made a raid on the stock and the card they used was that the dividend was likely to be passed for the ensuing quarter. The story proved to be untrue. Yesterday the stock closed at 72½ and this morning trading opened at 73, followed by a steady rise to 75¾. This is a net recovery of 2¾ points.

Twin City was another strong feature of the market, with a recovery to 75¼. The recent decline originated in New York and the strengthening of the price there was followed by a similar movement here. The lowest two days ago was 73¾, so that the recovery amounts to 1½. In other respects the market was on the dull side, with a few recessions in prices. Richelieu and Toronto Rails, recent bull favourites, were slightly easier, the former being down a half to 116 and Rails selling off to 111, one point below the highest within a few days.

Very little interest was evidenced this morning in bank shares, with consequent lack of bids. Some Merchants sold at 160 and Molsons was strong at 199. A few shares of Hochelaga changed hands at 142. The mining shares were dull and steady, War Eagle selling at 16, Republic at 20 and Virtue at 11. The meeting of the Centre Star Company is being held in Toronto to-day and it is reported that the dividend will be passed by the directors. The recent remarkable drop in the price of the stock is partially accounted for in that connection.

WHEAT WAS UNSETTLED.

(From the Special Correspondent of the Star on the Chicago Board of Trade.)

CHICAGO, April 30.—Wheat was unsettled and irregular. July rolled early at 73¼c. and later advanced to 73⅝c. The market became oversold, and the attempt to cover sent the prices higher. The market had an extraordinary attack of spring-tired-feeling. The general rains in California and the sudden falling off in export engagements were the principal causes of the decline, but the break was intensified by the fact that the local trade were almost unanimously long at the advance. Not much has been heard this morning about the hessian fly. One of the characteristics of that insect is that it becomes exceedingly voracious while the price is advancing, eating up nearly everything in sight, but its appetite suddenly disappears when prices are declining.

DOMINION COTTON CO.

The Usual Quarterly Dividend of 1 1-2 Per Cent Declared by the Directors at This Morning's Meeting.

A meeting of the directors of the Dominion Cotton Company was held this morning at 10 o'clock, when the matter of the quarterly dividend was taken into consideration and the usual amount of 1½ per cent., or at the rate of 6 per cent. per annum, was declared. Some time ago rumours were current in the street, evidently disseminated for stock-jobbing purposes, to the effect that the company was in a bad way financially, and that it was likely the dividend on the common stock would be passed. Notwithstanding the statement of the president of the company informing the public that the company was in a good position financially and was able to pay its dividends, the bears in the stock market made a raid on the stock and depressed the price to 67¾. Since then, through covering of shorts, the price has recovered considerably, and this morning still further recovered 2½ points to 75¼.

Air-circulation.

Every pore of the skin is a nerve feeder—an ejecter of waste, an inhaler of oxygen.

Patent leather, Chrome, and most other leathers stifle feet because they are air-proof.

Stagnant air is not ventilation.

Circulation of air is necessary to renew oxygen, to evaporate moisture, and keep the feet hardy and healthy.

The Resilia Centresole acts as an effective air pump, bringing in a current of fresh atmosphere at every step.

Savings Banks 3% vs. Industry 12%

IF YOU Have some money in a savings bank or have investments that are paying you but three or four per cent, WRITE TO US and we will show you our plan for the investment of your money where it will probably net you 12 per cent. per annum.

The United States Steel Company

Has been established for two years, and we have one plant which alone cost us $250,000, but it is too small to fill the orders for JUPITER STEEL CASTINGS.

The capital stock of The United States Steel Company is three million dollars, divided into six hundred thousand shares, with a par value of $5.00 each. Every share is full paid and non-assessable. Three hundred and forty thousand shares of this stock have been issued, and for sixteen months a dividend at the rate of 12 per cent. per annum has been paid on the outstanding stock.

The United States Steel Company has the sole right to manufacture JUPITER STEEL CASTINGS, which are castings of the quality of forgings, and the NEAL DUPLEX BRAKE, which is now in use on the system of the Boston Elevated Railroad and other roads.

To provide further capital for the enlargement of their plant, so that they can supply the demand for Jupiter Steel Castings and to build the Neal Duplex Brakes, the Board of Directors have authorized the sale of ten thousand shares of the treasury stock at par ($5.00) per share.

We will be pleased to send to those who are interested in an investment a full prospectus of this company, together with a record of what has been accomplished in the past two years.

MONTREAL ARTISTS IN PARIS.

The Montreal artists who are in and about Paris at the present time, have been achieving marked success in their efforts. Mr. Gordon Mackenzie, son of Mr. Hector Mackenzie, of 961 Sherbrooke street, who is still a very young artist, has had one of his pictures hung in the Paris salon this year, and is the envy of his confreres.

Mr. Suzor Cote is to sail for Montreal in June. He has exposed some magnificent pictures at this year's salon.

Henri Fabien, another Montreal man, is studying at the Beaux Arts, under the celebrated Jerome, and will go to Brittany this summer. He, too, is making a name for himself in the great art centre.

R. Montgomery is at present studying in Italy, while Mr. Hutchinson will leave Paris for home at an early date. Both of them have been meeting with success.

Maurice Cullen arrived quite recently in Paris from Morocco, where he has been doing some especially brilliant work. He will come home soon, and it is quite likely that he will bring some of his best work over with him. Taken altogether the Montreal colony of artists is proving a credit to the city from which they came, and its members are carving out success by persistent work.

Special Notice.

The Carsley Restaurant.

Try a meal at the S. Carsley Co. Ltd. Restaurant, Gentlemen and ladies dine here with as much pleasure as in their own homes. The food is the best obtainable. The service is prompt and everything about the place is scrupulously clean.

Umbrellas.

Money never bought such wonderful values as you'll find at The S. Carsley Co. Ltd. to-morrow. Be early as the choicest goods go first.

WHEAT IS BEARISH.

Another Decline Takes Place at Home and Abroad.

Dull Demand For Feed—Sales Are in Small Lots.

The Liverpool wheat market was weaker to-day, May declining 1 1-8d, at 5s 8 7-8d; July declining 3-4d, at 5s 10 3-4d.

Antwerp was steady to-day at 17 1-2 for No. 2 red winter.

Paris was weaker to-day, April closing 25 down at 19.00, and May and Aug. closing 25 down at 19.35.

London reported No. 1 standard California wheat, iron, March, 30s strs.; Walla Walla, iron, March 29s 9d strs.; May, 29s 9d; La Plata, passage, 30s, strs. fine and heavy.

American markets were weak during the forenoon, May being 5-8d down at 79 5-8d, in New York at noon.

Weather in England and France was fine.

The Buenos Ayres "Handel Zeitung" says that it is stated officially that the entire Entre Rios wheat crop was not only short in quantity but very poor in quality.

The latest report on the continental wheat stocks of Europe shows a total of 20,152,000 bushels, against 24,606,000 bushels last month, and 22,420,000 bushels last year. The largest stock at any point was at Paris, 4,608,000 bushels.

Chicago says "the steamer North-western has sailed from here for Europe. Hitherto no vessel has made a successful trip from this port across the Atlantic." This is understood to be the pioneer steamer in a regular line to be run from here this season.

TOMATOES.—Ripe imported tomatoes are selling slowly at $2.75 to $3.25 a carrier.

RADISHES.—New stock is bringing 35c to 40c per dozen bunches under a fair demand.

ONIONS.—The market on Canadian onions has declined 25 to 50c per barrel, at $2.50 to $3.25 each, due partly to heavy receipts of Egyptian onions, which are selling at 2 to 2¼c in bags of about 112 lbs. The demand for Egyptians is good. Bermudas sell in crates at $4 each.

CUCUMBERS—Boston hot house cucumbers are selling fairly well at $1.75 to $3 a dozen.

MUSHROOMS.—The demand is fair at 50 to 60c a pound.

SPINACH.—Good imported stock is selling at $2.75 to $3 a barrel.

CAULIFLOWERS.—Some fine imported stock is offering at $2.25 to $2.50 a crate of two dozen.

CELERY.—California celery is selling at $8 per crate of 3 to 10 dozen.

NEW CABBAGE.—There is a fair demand for new stock at $4.50 to $4.75 per crate.

FIREPROOF WOOD.

PROCESS OF
THE ELECTRIC FIREPROOFING COMPANY OF CANADA, LIMITED.

Wood treated by this process rendered absolutely fireproof. After every possible investigation and test it is the only process recommended by the United States Navy and demanded in their specifications. The City of New York has adopted this process for all commercial buildings. Used in the Dun, Commercial Cable and Queen Insurance Buildings, and the Atlantic Mutual building, now in course of erection; British Museum, Bedford Grammar School, Wyndham's Theatre, Midland Railway, new Star building, Montreal. It can be finished and painted in any colour. It preserves the wood. For samples and further particulars apply at the office of the Company, 151 St. James street, Montreal.

LAVAL UNIVERSITY.

Students Awarded Prizes for Success in the High Course of Literature.

The following students were awarded prizes at Laval University last evening for success in the high course of literature: Mr. E. J. Fauteux, law student, first prize of $50; Brother Symphorien, second prize of $40; Brother Gareau, third prize of $30; Mr. Libert, fourth prize of $30; Mr. G. B. Bouquet, fifth prize of $25.

An honourable mention was awarded Mr. Millette. Professor de Labriolle presented an able report on the year's work, and Archbishop Bruchesi closed the function with a few complimentary remarks.

BONSECOURS CHURCH.

The special services of the month of Mary will be inaugurated at the Bonsecours Church this evening. This being the first year of the century, arrangements have been made to have a very imposing ceremony. The faithful, headed by the clergy, will form in procession at Notre Dame Church and march to Bonsecours, where they will attend benediction of the Holy Sacrament and a sermon on devotion to the Virgin. His Grace Mgr. Bruchesi will preside at the service.

LECTURES ON FRENCH NOVELS.

A series of lectures on the French novel will be inaugurated to-morrow night at the School of Elocution, No. 2426 St. Catherine street. They will be given every Wednesday evening at 8 o'clock by M. Gilbert de Rorthays, a graduate of the Universite Rorthays, who delivered conferences during last March at the Chateau de Ramezay.

THE CORN EXCHANGE.

Meeting of the Committee of Management—New Canal Basin Endorsed.

At a meeting of the Corn Exchange Committe of Management yesterday afternoon the question of a new canal basin was discussed. The members favoured the creation of a new canal basin by the construction of an embankment from the guard pier at Windmill Point. It was ordered that the Minister of Railways and Canals be addressed in favour of such a scheme.

A vacancy on the board of examiners having been created by the resignation of Mr. A. G. McBean, the committee nominated Mr. Adam G. Thomson to fill the vacancy.

LECTURES ON CANADA.

Two Canadian clergymen who have been lecturing in England, and who have just returned, called at the Canadian Pacific Railway offices yesterday. They were Rev. John McDougall and Rev. G. Ernest Thorn. Both report the audiences which they addressed, taking a lively interest in Canada. Rev. Mr. McDougall's home is at Morley, Alberta. He was one of the pioneer missionaries of the North-West. Rev. Mr. Thorn came to secure views of the western wheat fields which he will use on his next lecture tour.

A RAILWAY RUMOUR DENIED.

The report that the G. T. R. divisional run from Montreal to Island Pond, Vt., has been divided and that Richmond has been made a terminal is denied by the officials of the company.

Natrue's True Beauty
The Charm of a
Beautiful Complexion
Lies in the use of..... VIN ST-MICHEL

A trifle vain, but commendable for all ladies, is pride in looking well. Unfortunately a great many ladies think that to obtain a good complexion they must use paints or powders. These preparations, whatever kind you buy, whatever price you pay for them, are all bad and injurious to the skin. Do not defy nature by putting on a complexion, when you can obtain one by using

VIN ST MICHEL

which gives a rosy clear complexion, bright eyes, red lips which are sure signs of good health and pure rich blood. This celebrated French tonic wine, contains all the necessary elements to ensure a pure, rich, red blood which flows colored and warm, through the veins and thus gives a refined, fascinating, healthy complexion and enhances loveliness beyond the most extravagant expectations.

M'GILL UNIVERSITY

The Annual Class Day Exercises of the Various Faculties Held Yesterday Afternoon a Great Success.

IN ROYAL VICTORIA COLLEGE.

Valedictorians Discuss the Possibilities of the New Century—Speeches Interspersed With Music—Some Needs of Students.

The annual Class Day exercises at McGill University were held in the Royal Victoria College yesterday afternoon and were thoroughly enjoyable and successful. The beautiful Assembly Hall was prettiy decorated for the occasion, the McGill colours year banners, and British jacks, forming the most conspicuous objects that met the eye. The pleasing effect of the decorations was considerably heightened by the pretty summer gowns worn by the students of the Donalda Department and their lady friends. The attendance of students was large. Mr. E. G. Place, B. A., (Law) presided, and among those who took part in the exercises were the valedictorians for the Donalda, Arts, Applied Science and Law Faculties, namely: Miss H. A. Page, Messrs. H. S. Williams, B. S. McKenzie, B. A., and D. S. Moffatt, respectively. To Mr. J. H. Copeman, (Arts), was entrusted the task of reviewing the record of the graduating classes, while Mr. A. R. McMaster, B. A., (Law), undertook to outline their future. Both addresses were exceedingly good. The speeches and valedictories were interspersed with music, effectively rendered. Miss Lois Shepherd sang German's "Love, the Pedlar," and in response to an enthusiastic encore, gave a charming rendering of an old Norse song. Mr. W. A. De Blois, gave a couple of violin selections in fine style, his first number being Gabriel-Marie's "La Cinquintaine," and his second Chanet's "Serenade." Miss Lichtenstein, and her choir of Royal Victoria and McGill students, opened the programme with Lohr's "Slumber Song," which was sung with marked expression. The part songs "Tom, Tom, the piper's son," and Lohr's "Madeleine," were also effectively rendered.

The new century and what it held in store for the graduates of McGill were the main points touched on by the valedictorians in the course of their several addresses. The Donaldas saw in it the hope of woman's education. The science men believed that it would prove the brightest period for science that the world would ever know; the law graduates thought that it might witness the adoption of arbitration instead of the arbitrament of the sword by the nations of the world, when disputes among them had to be settled; while the arts boys were inclined to believe that the century would witness a tremendous extension and improvement of the Faculty.

The class history and prophecy were full of topical and personal allusions, and were warmly received. Some interesting points were recommended to the notice of the class successors, a gymnasium, for the want of which the undergraduates are pining, the revival of the banjo and glee club, the appointment of a graduate as editor of the Outlook, or an allowance in his studies to the undergraduate at its head, and the general support of the university and its interests.

THE DIOCESAN COLLEGE.

The Annual Convocation This Evening—Results of the Sessional Examinations.

The closing exercises of the Diocesan Theological College are being held to-day. Chancellor Burwash, D.D., of Victoria University, Toronto, will also speak.

CANCER ATTACKS THE MIDDLE-AGED.

Persons Approaching the Meridian of Life Should Beware of Little Lumps and Growths.

It is a well-known fact, that any physician will substantiate, that there is a greater percentage of Cancer among those of mid-life than at any other age.

Persons at this time of life would do well to regard with suspicion any lumps or growths on their body. Should these prove malignant or of a cancerous nature, they can be removed completely without operation, by the use of our painless home treatment.

It is the most successful remedy for the cure of cancers and tumours, and has cured numbers of people here in Canada and saved them from the torture of the surgeon's knife or the painful plaster.

Dyspepsia

Dyspepsia, indigestion, water brash, belching of wind, nausea and pain after eating, sour stomach, catarrh of the stomach—these conditions all mean that the usefulness of the stomach is impaired, that the food is not being digested properly. When you find your stomach out of order, use BURDOCK BLOOD BITTERS without delay. There is no better medicine for the stomach compounded, and none which has such a record of permanent cures of stomach troubles.

January 26, 1900.
LEONARD SMITH, Selma, N.S., writes: "Eight years ago I had a bad attack of dyspepsia. I took two bottles of BURDOCK BLOOD BITTERS and am thankful to say that since then I have been able to digest my food as well as any body."

GAINED 23 POUNDS.
March 26, 1900.
MISS AGNES LANG, West Liscomb, N.S., writes: "I have been using your BURDOCK BLOOD BITTERS for dyspepsia and kidney troubles for five months. I have gained 23 pounds since I commenced it, and attribute my recovery to its efficacy. I tell my friends that I owe my life to B.B.B."

SIR PERCY GIROUARD PRAISED

Kind Reference of London Times to Young Canadian Officer Who Has Won Distinction in British Army.

One of the most prominent figures in the South African campaign is that of Sir Percy Girouard, the energetic director of Imperial Military Railways. Sir Percy Girouard is a son of Mr. Justice Girouard of the Supreme Court, and a graduate of the Royal Military College, Kingston. Speaking of his being given a title by the King, the London "Times" says: "But the most striking name in this list is undoubtedly that of Colonel Girouard, the young Canadian officer whose splendid work as director of railways will, for military students, always form one of the features of the war. When we remember that only three or four years ago Lieutenant Girouard was an almost unknown officer in the Egyptian service, we cannot deny that even in our army merit may speedily rise to the front."

YOUNG LADY UNDER ARREST.

BROCKVILLE, April 30.—At the instance of her father, Geo. Hawn, of Newington, Ont., the Brockville police arrested his daughter, Georgina Hawn, aged 20 years as she stepped from the G. T. R. express yesterday. The girl left home against her parents' wishes to marry a man in New York State, who is said to have a wife living. She does not believe the story and refuses to return to the parental roof. The police are holding her pending the arrival of her father.

BODY FOUND IN THE CANAL.

VALLEYFIELD, Que., April 30.—When the water was being let out of the Beauharnois Canal this morning the body of a young man named Leger was found. It is believed he was accidentally drowned Saturday night, and the coroner's jury has so declared.

The war revenue act of the United States up to March 31, 1901, produced $289,504,447.

What Is Manly Strength?

WHAT IS SNAP AND VIM?
WHAT IS NERVE FORCE?
WHAT IS BUSINESS PUSH?
WHAT IS STRENGTH AND ENERGY?
WHAT IS HEALTH AND VIGOR?
IN FACT, WHAT IS LIFE ITSELF BUT ELECTRICITY?

Does not all living authority tell us that they are so closely allied that none can say where one leaves off and the other begins? Who can dispute that they are not the same, for the Strong, Healthy man is ALWAYS FULL OF ELECTRICITY, and the weakling is ALWAYS LACKING IT? What is more natural then that Electricity should cure whenever nerve strength and life is needed, as in Drains, Losses, Impotency, Nervous Debility, Lame Back, Rheumatism, etc.? There is no question about it, for it is a fact that it does, as I have demonstrated by curing nearly 100,000 weak men in my 30 years of ceaseless labor in this field. The whole secret is simply to give the treatment right, and my success answers that, as can be judged by going over any of the prominent papers in Canada for the past 12 years, or call and see the evidence in my hands. Has there ever been such another record? I have perfected a great improvement in the DR. SANDEN ELECTRIC BELT, which is now and always has been the best. My new appliance is the

HERCULEX BODY BATTERY

with suspensory attachment. More convenient to use than an ordinary belt. Simply wear it at night, remove on rising, and while you sleep an easy, soothing current of NEW LIFE is applied directly to the centres of nervous strength. Keep this up for 60 or 90 days and you will again have your NEW MANHOOD; your NATIVE VITALITY—because you will have supplied the nervous energy which has been wasted. If you are passing this office call in and consult me. I am cheerfully willing to talk over your case—it will cost you nothing; or, if not convenient to call, I will personally answer your letters. Ask me to send my new illustrated book for men called "Health in Nature," sent free by mail in plain sealed envelope.

LAXA LIVER PILLS

Those who have used Laxa-Liver Pills say they have no equal for relieving and curing **Constipation, Sick Headache, Biliousness, Dyspepsia, Coated Tongue, Foul Breath, Heart Burn, Water Brash** or any disease or disorder of the stomach liver or bowels.

Mrs. George Williams, Fairfield Plains, Ont., writes as follows: "As there are so many other medicines offered for sale in substitution for Laxa-Liver Pills I am particular to get the genuine, as they far surpass anything else for regulating the bowels and correcting stomach disorders."

Laxa-Liver Pills are purely vegetable; neither gripe, weaken nor sicken, are easy to take and prompt to act. 102

AN ELECTION PROTESTED.

(Special to the Star.)

CHARLOTTETOWN, April 30.—A petition under the Controverted Elections Act has been filed against the return of D. A. McKinnon, elected on 20th March as the representative of East Queen's. Corrupt practices, personally, and by agents, are charged, and the court is asked to void the election and unseat Mr. McKinnon.

OUR SPRING HOLIDAY

Sir Wilfred Laurier Bows to the Popular Will and Consents to Ask Parliament to Make 24th of May a Holiday.

GOOD WORK BY LEGISLATORS.

Checks Upon Reckless Returning Officers at Elections Discussed in the Commons—Judges' Salaries and the Proposed Increase Debated.

(Special Staff Correspondence.)

PRESS GALLERY, HOUSE OF COMMONS, OTTAWA, April 30.—The 24th of May is to be a public holiday this year as in the past.

At the opening of the House yesterday, Sir Wilfrid Laurier, according to promise, made a declaration on this point. He believed the general, if not the unanimous, wish of the people of Canada was that the 24th of May should continue to be a public holiday as it was during the lifetime of her late Majesty. Therefore, he moved that Dr. Horsey's bill for the purpose of making the day a public holiday should be placed on the list of Government orders. This means that the bill well be taken up and passed by the Government.

A RAILWAY DEBATE.

The House spent most of the afternoon discussing the bill to give the Canadian Pacific Railway a charter to build from Teulon, in Manitoba, northward for a distance of 120 miles. The cause of the debate was that the western members attempted to have a clause appended to force the company to build this year 60 miles of the Great North-West Central Railway, the charter for which it now controls. The bill was finally reported.

PRIVATE BILLS.

The bill respecting the Ancient Order of Foresters was put through committee. Mr. Ingram said he had been requested by 295 members of the order to move the six months' hoist, but he deferred doing so until the bill came up for a third reading at the suggestion of Mr. Fielding.

The bill to incorporate the Canadian National Bank was reported by the committee, but the name of the bank was changed to the Sovereign Bank of Canada.

THE YUKON TELEGRAPH.

In reply to a question, Mr. Tarte said that the telegraph line from Bennett to Dawson was begun in the spring, and was completed in September, 1899. It was expected that it would be completed to Ashcroft early this summer. The total number of messages sent from June, 1899, months of the year 1900 was 32,180 and the revenue was $107,712. The number sent on all Government lines during the twelve months of the 1900 was 32,180, and the revenue $87,630. The cost of the line so far as finished was $430,000, and when completed it would be about $460,000.

THE ELECTION LAW.

The House went into committee on the the bill to amend the Dominion Election Act. The bill provides that an accepted cheque shall be legitimate tender for an election deposit, and Mr. Maclean brought up the West Durham case on this clause. He wanted to make the bill retroactive, and give the seat to Mr. Thornton, the Conservative candidate, who had the majority of the votes.

The matter was discussed at some length but the ground was taken that it would not do to take the case out of the courts. Lieut.-Col. Hughes made the point that the returning officer had the cheque the day before the nomination, and deposited to his credit in the bank, so that he could not say that he had received no cash. The clause was adopted without amendment.

After recess the committee resumed. Mr. Monk suggested that deputy returning officers should be bound to make a note of any objections made during polling hours, and give a certified copy of the objection to the person making it.

Mr. Hackett offered an amendment, providing in cases where a recount was demanded, the returning officer who failed to produce all the ballots cast, should be liable to a fine of $1000 or imprisonment for two years. This was promised future consideration. The committee rose, reported progress, and obtained leave to sit again.

JUDGES' SALARIES.

The following resolution moved by Hon. Charles Fitzpatrick was then passed in Committee and reported:

"That it is expedient to provide that the salary of the Senior Judge of the Circuit Court of the District of Montreal, shall be $3800 per annum.

The House then went into Committee on the following resolution, moved by Hon. Charles Fitzpatrick:

"That it is expedient to amend the Act respecting the Judges of Provincial Courts and to provide as follows:

1. That the salary of the Chief Justice of the Supreme Court of the NorthWest Territories shall be $5000 and of the four Puisne Judges of the said court each $4000 per annum.

2. That the salary of an additional Judge of the Territorial Court of the Yukon Territory shall be $5000 per annum.

3. That the salaries of the seventeen Puisne Judges of the Superior Court of Quebec, whose residences are fixed at Montreal or Quebec (including the Judge to whom the District of Terrebonne is assigned), shall be each $5000 per annum.

Mr. Prior read a resolution passed in British Columbia, in favour of an increase in the salaries of the Judges in that Province.

The Premier referred to the salaries paid British Judges, but thought that this country was hardly prepared to adopt such a scale of payment as that of England. He alluded to the attention given to the matter by Sir John Thompson, and the difficulties surrounding the whole question. The matter was receiving the attention of the Ministers, but he was not prepared to make any definite statement at the present time.

Mr. R. L. Borden urged an increase in the salaries of the judges in the Superior Courts of Nova Scotia and New Brunswick.

Mr. Bennett pointed out that a junior judge had just been appointed in Oxford where only eight cases where tried last year, whilst in Dundas there were two who only had 11 cases last year. He suggested that there should be fewer judges, then the Superior Court judges could be better paid.

The Premier reminded the Committee that the number of judges rested with the Provincial, the appointment and payment with the Dominion Government. They had had great difficulty in this matter in Quebec.

The resolution was adopted and the House adjourned at 11.40.

IN THE UPPER HOUSE.

(Special to the Star.)

OTTAWA, April 30.—The Senate yesterday held merely a brief sitting at which the bill to incorporate the Canadian Mutual Aid Association, and the bill to confer on the Commissioner of Patents certain powers for the relief of John Abell were read a second time and referred to Committees.

OTTAWA WILL PROBATED.

(Special to the Star.)

OTTAWA, April 30. — The will of the late John Balfour, formerly of the Finance Department, was entered for probate at the Court House yesterday. The estate is valued at $26,000. The executors are J. H. Madden and Percy Balfour, of Addison, Ont. Mr. Balfour's relatives all live in western Ontario, where he was visiting at the time of his death, about Easter.

LABOURERS PROTECTED.

Work of Loading the Belgian Goes on With Police on Guard.

(Special to the Star.)

QUEBEC, April 30.—At a conference last night on the ship labour question between the President and Manager of the Great Northern Railway, Mr. Harling, manager of the Leyland Line; Mayor Parent and Chief of Police Pennee, it was decided that ample protection should be furnished those working on board the SS. Belgian to-day. During the night the Harbour Commissioners set men to work to fence in completely on the front and each side of the elevator that part of the wharf from which communication is had with the ship. Only a small wicket entrance is left in this fence, and nobody is permitted to pass to-day but those having business on the wharf. Soon after 6 o'clock this morning 52 men of the city police and 15 of the provincial force under Captain Pennee took up their position on the wharf to protect the non-union labourers who might be willing to work. By seven o'clock, when work commenced, the company had more men than it required seeking employment and at 9 o'clock this morning work was proceeding satisfactorily.

At 10 o'clock small groups of union labourers are gathering in the neighbourhood of the wharf and though no immediate trouble is feared, the R. C. A. and R. C. R. I. are understood to be confined to barracks in the event of their services being required. It is feared that trouble may come in the shape of personal attacks upon the labourers when they leave work at night.

A LITTLE FRICTION.

(Special to the Star.)

QUEBEC, April 30.—Hon. R. R. Dobell, who is here, is seriously at loggerheads with the Quebec Board of Trade. A fortnight ago he brought Mr. Harvey, C.E., of Ottawa, here to lecture on North-West waterways, and called the meeting to hear the lecture in the Board of Trade rooms for yesterday, without consulting the president or council. He invited an English gentleman to lecture on the Georgian Bay Canal, and without consulting the president and council instructed the secretary to advertise the meeting. President Tanguay countermanded the instructions to the secretary and forbid the use of the board rooms to Mr. Dobell and his lectures. The lecture was delivered in the rooms of the Harbour Commissioners.

A QUACK DOCTOR FINED.

(Special to the Star.)

BROCKVILLE, April 30.—John Arnold Douglass, the quack doctor who was arrested at Lansdowne and brought to Brockville, was given a hearing yesterday afternoon, before Police Magistrate Deacon. Chas. Rose, prosecuting officer for the Ontario College of Physicians and Surgeons, was present and laid two charges, one for practicing medicine without a license, and the other for using the title of doctor contrary to law. Douglass pleaded guilty to both and was fined $75 and $50 and costs, making in all $144.56 which was paid forthwith. Douglass was fined a few months ago at Ottawa on similar charges.

THE BUDGET ADOPTED.

LONDON, April 30.—The House of Commons last evening adopted by large majorities all the budget resolutions in the report stage, with the exception of coal tax resolution, which will be taken to-day.

Hamilton, Ont., Furnishes Another Case of much Interest. A Jeweller Set Free.

Hamilton has much to be proud of. No city on the continent contains a more happy, prosperous, and contented population.

The death rate in Hamilton is very low. This is, perhaps, because the citizens have learned to appreciate standard remedies, and Dodd's Dyspepsia Tablets are to be found on the shelves of every druggist in that splendid city.

Many testimonials as to the medicinal value of this great remedy have come from the ambitious city.

Among the most remarkable cures of Dyspepsia which have been accomplished in Hamilton, by the use of Dodd's Dyspepsia Tablets, is that of Mr. C. W. Attwood, jeweller, of 41 Bay street.

Mr. Attwood had a very acute case of Indigestion. Nothing seemed to help him. A druggist recommended Dodd's Dyspepsia Tablets, and he decided to use them.

The result was all that could be desired. Mr. Attwood is now well, and his gratitude for his remarkable cure has prompted him to give for publication this statement:

"I had been troubled with indigestion for months. I tried many medicines, but could get nothing to cure me.

"On the suggestion of a friend, I tried Dodd's Dyspepsia Tablets, and can truthfully say that I am now entirely free from the slightest trace of stomach trouble."

Mr. Attwood is prepared to substantiate this statement to anyone who may call on him or write to him. The statement itself is a very plain one and positive, and to the point.

It should convince the most sceptical, that there is one remedy that never fails to cure dyspepsia, and that that remedy is Dodd's Dyspepsia Tablets.

What will cure these chronic and very acute cases will cure the less serious ones.

Heartburn, sour stomach, bloating after meals, headache, are sure indications of the approach of chronic dyspepsia.

The very first appearance of any of these symptoms should be met by Dodd's Dyspepsia Tablets. 101 1

BLEACHING AND PRINTING CO.

The annual meeting of the Colonial Bleaching and Printing Company was held yesterday, about twenty-five shareholders being present, including Messrs. G. B. Burland, R. C. Jamieson, Henry Dobell, Huntly Drummond, R. P. McLea, George Hogg, James Cochrane, M. L. A.; C. O. Beauchemin, B. M. Humble, William Herrick, and A. W. Cochrane. Mr. S. H. Holt, the president, was in the chair. The financial statement showed the results of the past year to have been satisfactory, and the prospects for the coming year to be good. Directors were elected as follows: H. S. Holt, Alph. Racine, C. R. Hosmer, Frank Paul, E. N. Heney, George F. Hartt, and W. T. Whitehead. At a meeting of the directors, Mr. Holt was elected president; Mr. Racine, vice-president; and Mr. P. C. Shannon, secretary and treasurer.

MONTREAL WOMEN'S CLUB.

The Montreal Women's Club held its closing meeting for this season yesterday afternoon in the Y.M.C.A. Hall, when the members of the Art and Literature Department were in session.

A resolution was passed requesting that a special meeting of the executive be called to take action to secure the withdrawal of the resignation of Mrs. W. G. Macnaughton from the club. Mrs. James Reid read an interesting paper on Queen Mary.

DEATH OF MR. M. P. GUY.

Mr. M. P. Guy, who died on Monday morning at No. 901 Sherbrooke street, was the oldest French-Canadian notary in this province. He was 93 years of age, and was a son of Judge Guy. He had married Miss Julie Schiller and leaves two sons, Messrs. M. H. and E. C. P. Guy, both notaries. The funeral takes place at 8.30 o'clock at the Cathedral to-morrow morning.

NOT BUBONIC PLAGUE.

A foolish rumour was started yesterday to the effect that a man had arrived on the SS. Parisian suffering from the bubonic plague. Upon investigation it was found a man on board had simply contracted the measles.

THE ACADEMY.

Strangely like the Herrmann, who with his legerdemain and clever tricks was always a welcome visitor to Montreal, another Herrmann shorter of stature, but not one whit less clever, occupied the boards at the Academy last evening. The audience which greeted the new wizard was not as large as those which were wont to admire the wonderful work of the illustrious uncle of the present Herrmann during his life time, but all who were present evinced their thorough appreciation of the clever work done on the stage.

Very little of the work done last night has ever been seen in Montreal before. Some were old tricks in a new dress, and cleverly done, but many were distinctly new and clever.

There are two very clever disappearing tricks, one when a young lady is chained by the neck and wrists to a stake, and is whisked away in a most mysterious manner, and another where the lady is placed in a paper covered cage placed on a table, the paper set fire to and consumed almost immediately, during which short space of time the lady disappears. The catching of live fish on the Academy stage is another new trick shown last evening. There was a big play to the gallery in a flag trick in which the wizard produces the flags of every nation under the sun from a borrowed hat, and in a trice converts the pile of bunting into an enormous Union Jack which reaches across the stage. Some of Herrmann's juggling and palming and slight of hand work was little short of wonderful.

A pleasing feature of the entertainment was a musical turn done by the Nosses family. There were five of them, all exceedingly clever musicians, and played well on a number of instruments.

PROCTOR'S.

Another strong vaudeville bill is presented at Proctor's Theatre this week. J. K. Emmett and Lottie Gilson are at the head of the list, presenting an entertaining little farce called "A.D. 1920," in which they are assisted by Miss Ida Lewis and Blanche Alexander. Mr. Emmet is afforded an opportunity during the action of the sketch of singing some of the songs which made his father prominent in the stage world. Miss Gilson also does a specialty singing a number of the latest popular songs. Press Eldridge is another top knocher, who kept up a running fire of entertaining talk during the time allotted him. His turn is one of the best that has been seen at the theatre since it has been given up to this class of entertainment. Conway and Leland, the one-legged acrobats, were very good, as was also George Hammersmith in songs and monologue. W. H. Clemart is a clever ventriloquist. Other features are the Bailey's dancers and Rhodes' marionette theatre. Some new pictures are shown by the kaletechnoscope.

THEATRE FRANCAIS.

Two large audiences welcomed the "Royal Liliputians" to the Theatre Francais yesterday afternoon and evening, and all were pleased by the excellent offering. The little people, several of whom have been seen here before, give a bright and lively entertainment and should attract large audiences all week. They are accompanied by a couple of giants, who emphasize their diminutive forms, and a chorus of pretty girls, making the company about thirty strong. The play is a spectacular farce and has been designed especially to suit the performers. The scenic embellishments are gorgeous and the musical accompaniments to the songs and choruses bright and catchy.

THEATRE ROYAL.

It was a large and well pleased house which witnessed the production of the Jolly Grass Widows, at the Theatre Royal last evening. The company is a fairly good one, including the usual quota of pretty girls and clever comedians. The scenery and costumes were a good deal better than is usual. The burlesques were very good and some of the vaudeville turns worthy of special mention.

FIRST SAILORS' CONCERT.

The first Sailors' concert of the season takes place to-night at the Montreal Sailors' Institute. A good programme will be presented. Mr. C. S. J. Phillips will preside.

GYMNASTIC COMPETITION.

The competition for medals by Miss Lilian Warner's pupils in physical culture at the Riverside School, in conjunction with her Westmount classes, took place on Friday afternoon, Mr. Bell, instructor of the Y.M.C.A. gymnasium, and Dr. Tait McKenzie, acting as judges. The closing exercises of the Riverside School cadets will take place at the school next Friday evening.

THE CITY COUNCIL.

The Street Railway Company's Tracks on Common and Commissioners Streets the Chief Question Discussed.

WILL PROBABLY REMAIN THERE

Two Petitions Presented One for and the Other Against the Company—The Scavenging Superintendent—Proposed Reduction of Water Rates.

There is every likelihood that the Street Railway Company will be allowed to keep its tracks on Common and Commissioners streets. The entire question of the company laying these tracks was threshed out at the meeting of the City Council yesterday afternoon.

As stated in the Star last night an opinion was read from the city attorneys, at the meeting, to the effect that the Street Railway Company had not the right to lay its tracks on Common street. If the company wanted to reach McGill street, it would have to be by Commissioners street.

TEXT OF OPINION.

The opinion was considered an important one, and the following is its text:

We beg to transmit to you herewith our opinion on the questions which were submitted to us in reference to the interpretation to be given to by-law No. 210, as to route No. 10 and clause 43, viz.:

"1st question—Route No. 10 is designated in bylaw 210 as passing on Commissioners street from Berri street to McGill street. The plan annexed to the deed shows that this line must pass on Commissioners street from Berri street to the Custom House, and on Common street from the Custom House to McGill street. Supposing the city does not discontinue route No. 10, has the M. S. R. Co., the right to lay its tracks on Common street, or must it not follow Commissioners street to McGill street?

ROUTE NO. 10.

Answer—Route No. 10 passes at Dalhousie station through Commissioners street to McGill street, and was never abolished since the adoption of by-law No. 210, to wit, from the 21st December, 1892. This trace differs, it is true, from the plan annexed to the contract, but it is in conformity with the conditions and specifications adopted by the Council on the 19th July, 1892, and which also form part of the contract signed after the adoption of the said by-law; and we find that by a report of the Road Committee, adopted by the Council in 1898, the city allowed the M. S. R. Co. to establish a single track on Youville street, temporarily, pending the completion of route No. 10. We are therefore of the opinion that as long as route No. 10 is not discontinued by the Council, the company will have to follow Commissioners street to McGill street as provided by the by-law and the contract and specifications.

INTERPRETATION OF BY-LAW.

2nd question—Must not by-law No. 210 be interpreted with the contract and the plans accompanying it, so as to give it effect according to the intention of the parties?

Answer—There is no doubt that by-law No. 210 must be interpreted with the contract and the plan accompanying it, so as to effectively follow the intention of the parties; but, in law, when a plan annexed to a contract differs from the terms expressed in the deed, the latter prevails and must guide the parties, exclusive of the plan, which then becomes without effect. But, in the present case, we find that the by-law, the contract and the specifications quite agree as to the trace of route No. 10 through Commissioners street to McGill street.

3rd, 4th, 5th and 7th questions—(3) Is there any difference, according to you, between the interpretation to be given to the word "route" and to the word "circuit?" Is this shown by the by-law, and if so, what is the difference? (4) Does not the word "circuit" mean the manner of running the cars from one point to another, showing the direction and the period of time which must elapse between each car, as well as the hours of running? (5) Does not the word "route" mean the railway tracks established on the streets or public places of the city? (7) Is reference made to the change of routes in section 43 of the by-law, and clause 2 of the contract? Is not mention only made of the change of circuits and the establishment of new routes?

SUMMING UP.

Answer—We are of the opinion that the word "route" and the word "circuit" are synonymous for the interpretation of by-law No. 210.

6th question—Has it not been the custom in the past to make the changes of circuits and the establishments of new routes by a by-law?

Answer—There have been cases in the past when the changes of circuits and the establishments of new routes were made by a by-law; but such custom has not annihilated the effect of the precise terms of clause No. 3 of the by-law No. 210, which enacts that the city may, by simple resolution, change and alter such circuits and order new routes.

IMPORTANT PETITIONS.

When the above had been read, two important petitions for and against the tracks being allowed to remain were read.

In support of their action, the Street Railway people presented a petition to Council bearing the signatures of 83 proprietors and taxpayers along the route asking for the car service. On the other hand, a petition signed by 40 people, principally Bonsecours Market merchants, was read against the route.

FAVOUR THE ROUTE.

The signers of the first named petition were as follows:

D. Kerr & Co., The Waterous Co., C. Egan & Son, Jos. Brown, J. Ed. Brown, R. B. Brown, Hislop and Huntor, H. Lawlor, H. and A. Allan, Louis Lebrun, Jos. E. Hemond, R. and O. Nav. Co., Robt. THOSE OPPOSED TO ROUTE.

Those opposed to the Street Railway's contention are as follows:

Dubois and Cadotte, Lalande and Durocher, John McDonough, E. McGrady, Pierre Doucet, P. Lapierre, W. Boucher, O. E. Huot, G. Lanthier, Thos. Johnston, J. B. Laverdure, J. A. Grenier, J. D. Levesque, J. St. Jean, M. Connolly, J. A. Lasalle, Mireault Boisin, H. E. Labberten, Chas. Rickner, Zotique Dubois, A. Laporte, A. Dumaine, M. Chapagne, M. Cote, J. B. Peltier, A. Cote, Gaspard Cote, Louis Masse, Jos. Pelletier, E. Lalumiere, Z. Thouin, O. Payette, G. Lapage, Arthur Hebert, I. Lecompte, L. E. Grenier, Jos. McCormack, L. Lemay, G. G. Gaucher, Hudon and Ossah.

DISCUSSION ON THE MATTER.

When the above legal opinions and petitions had been read Ald. Martineau, chairman of the Road Committee, rose and moved that the report of the Road Committee, asking that route No. 10 be abolished, be approved by Council. This motion met with cries of "No, no!"

Speaking to his motion Ald. Martineau said, that according to former opinions of the City Attorneys, the Street Railway Co., was entitled to build route No. 10 of by-law 210. But what was now to be discussed was the question whether or not it was in the interests of the city to allow the lines to remain on Common and Commissioners streets. If it was decided the line was in the interests of the citizens then they must remian; if it was decided the lines were not in the interest of citizens they would have to be taken up. As to the Road Committee it had decided the lines were not in the interests of citizens and should be removed. The contention was that such lines would block traffic and hence would not lie in the interests of citizens. Great changes were being made on the wharves, and no lines should be put on the streets mentioned for the present. For these, and other reasons, the speaker hoped the tracks would be ordered up.

FAVOURED THE LINES.

Ald. Laporte—We have had two petitions, from interested proprietors, in regard to this matter. On one petition we have 83 proprietors who say it is in the interests of citiezns that these lines should remain. The other petition, which is against the lines, only has 40 names signed. Now as we have to decide whether or not the lines are in the public interest, we have nothing to do but say they must remain where they have been laid. The citizens know what they want better than we do."

Ald. Lamarche held the Street Railway Co. should not have taken upon itself to lay the tracks. The streets should have been widened before tracks were put down on them.

Ald. Ouimet thought the company should be called to time for the high-handed manner it had acted in this matter.

A number of other members, however, held that as the whole matter had to be decided, according to the public interest, the lines should remain where they were.

Seeing there was a very healthy majority in favour of the tracks remaining, Ald Martineau accepted a compromise to the effect that the Road Committee's report should be sent back again, the understanding being, however, that the Street Railway Company should not operate the lines till the streets were of satisfactory width.

This practically meant that the lines will not be ordered up.

SCAVENGING SUPERINTENDENT.

There are certain members of the City Council who take infinitely more interest in the apopintment of a scavenging superintendent than they do in the question of getting the city cleaned of its filth, etc. This truth was shown in the most forcible manner at the meeting of the City Council yesterday afternoon. For weeks past members of the Incineration committee have been squabbling over who should be the lucky man. Of course every member had a man to propose, and each was bitterly determined his man should draw the prize. Bitter scenes were the result of this feeling, and the Council yesterday was asked to select a man out of the many recommended by the Incineration Committee. Those nominated by the anxious aldermen were H. Plante, by Ald. Turner; Mr. Poitras, by Ald. Brunet; Mr. Laguerriere, by Ald. Vallieres.

Ald. Lamarche wanted to know how it was that the majority of the incineration committee had voted in favour of H. Plante.

Replying, Ald. Vallieres said the committee could not agree upon one man, so they decided to recommend five, with Plante first.

Ald. Laporte declared he had heard something about a solemn agreement being made in the caucus Sunday to the effect that if Laguerriere were elected Mr. Chartrand would be chosen chief of police.

Ald. Lariviere quickly replied there had been no such ridiculous agreement.

There now followed some very warm scenes, those who had nominated men, insisting that their particular man should get the place.

At times there was so much shouting and noise that it would have been a charity to have called in the police and cleared the council chamber. So much enthusiasm had not been shown by certain aldermen for months past; but then, of course, there was a job to be disposed of.

Finally a vote was taken and Mr. Laguerriere was elected on the following division:

Ayes — Laporte, Lebeuf, Clearihue, Chausse, Ames, Lariviere, Gagnon, McBride, Sadler, Ouimet, Ricard, Smith, Tansey, Faucher, Raby, Robertson, Savignac, Lesperance, Lavallee and Vallieres—20.

Nayes — Martineau, Hart, Brunet, Jacques, Turner, Ekers, Gallery, Roy, Wilson, Lapointe, Lamarche Robillard, Chevalier and Bumbray—14.

WANTED TAX REDUCED.

The next items discussed brought out a motion by Ald. Martineau to reduce the water taxes. He proposed to reduce the rate on rentals from 7 1-2 to 7 per cent.

Ald. Ames recalled to the council that a reduction of 1-2 per cent. would mean $50,000 less yearly revenue.

Ald. Sadler remarked the move would no doubt be popular, but he thought the city was not in a position to lose so much in taxes; as it was there was not sufficient to keep the streets clean.

It was finally decided to ask the city attorney if the motion in question could be legally accepted.

Council now adjourned.

Special Notice.

A beautiful Evans Bros. Piano is now on view in the window of Layton Bros.'s warerooms, 144 Peel street. This instrument has just been sold to the Rev. Mr. Walter King, the newly appointed rector of Valleyfield. 100 x2

The World's Ideal.

The Steinway Piano is the noblest musical instrument ever designed and constructed by man. It is acknowledged to be such in every part of the world. It has excited and maintained the admiration of all the great musical masters who have lived during the last half century.

The Steinway is above competition as it is above comparison with any other piano. The very cost of the raw material of which it is built is double that of any other piano.

The cost of the artistic labour put upon its construction still further enhances the difference in its actual cost over other good pianos. It follows that with its incomparable artistic greatness, and its surpassing durability, it is for people of even moderate means the most desirable piano to purchase. Splendid stock of latest Steinway pianos now in warerooms, Lindsay-Nordheimer Co., No. 2366 St. Catherine street.

INGRAM-CROSBY LECTURES.

Mr. Ingram Explains How Detroit Saves Money by Municipal Ownership—Hon. Mr. Crosby on Single Tax.

The Ingram-Crosby lectures were held at the Karn Hall last night under the auspices of the Single Tax Association of Montreal, Hon. George W. Stephens occupying the chair. Mr. Ingram, president of the Detroit Public Lighting Commission, spoke on "How Detroit Secured Cheap Electric Lighting," and was introduced by the chairman, who remarked upon the debt of the City of Montreal and the impossibility of finding money to carry on the public requirements of the city, saying that if the city could have in its treasury the value of the franchises which were the property of the people and had been given away, its public debt, instead of being $27,000,000, would not be $13,000,000.

Mr. Ingram introduced his subject by a historical sketch of Detroit, showing in how may ways it had been connected with Montreal from the early pioneer days up to the present. Coming to the question of lighting, he said that Detroit had tried both company and municipal methods, and had found the municipal ownership of the plant both cheaper and better. In 1894 they paid a lighting company $240 each for 300 arc street lamps, and in 1900 they were paying $180 each for 719 lamps. Then began the agitation for public control of public property, and the companies tendered at $155.73 per lamp for a one-year contract, $124.10 for a three-year one, and $102.20 for a ten-year one. All bids were rejected, and an enabling act having been passed by the Legislature in 1893, the citizens voted by an overwhelming majority for civic ownership. In 1895 the people were doing their own street lighting, 1470 lamps being used on the street and 2456 incandescent ones in public buildings. To-day these figures had increased to 2000 and 8000, respectively, and more were constantly being added, while the operating cost of the street lighting for full 2000-candle power lamps, was only $40.66, giving a gross cost of $66.45, when interest on investment, depreciation of plant and loss of taxes were taken into consideration. Supposing the next five years' lighting to cost the same as the past five per lamp, the City of Detroit will have saved $96,655.58 per year for ten years. But the history of Detroit was only the history of a large number of cities which had concluded to do their own lighting. Detroit used steam power, and if Montreal had to do the same he understood the difference in the price of coal would increase the cost of production. If coal were twice as dear in Montreal as in Detroit, it would not commence to represent the difference in the price paid for street lighting. In removing the letting-out of these valuable franchises and contracts from the domain of politics, the city would be taking the greatest possible stride towards securing a cleaner government.

Hon. John S. Crosby, of New York, then spoke of "Trusts and Monopolies," holding the attention of the audience for a full hour. He reviewed the progress of the trusts. First came the submission of the individual merchant, with the slim purse, to him of the bulky one. He in turn gave way before the larger combination of capital, and then came the governmentally made man, the never-dying, soulless corporation, and it in turn was going down before the trust. And so people had to move with the crowd and make their living under the laws and restrictions of society. Therefore he was the last to blame individuals who looked for what the people were giving away. The real cause of the whole iniquity was the man who allowed, nay, almost insisted that the robbing should be done—the voter. At the root of all trusts lay the question of the ownership of land, just as it was the basis of all life. Here were people who shrieked about the evils of trusts and monopolies who would not stir hand or foot to sweep away the basis harm which was not established upon the Who ever saw a trust that could do any harm that was not established upon the special privilege of the absolute ownership of a mine or some equally valuable portion of the earth. Combinations of stores and similar industries only served to cheapen the purchase price of articles, for the reason that they enjoyed no special privilege, and consequently every one was as free to compete with them as well as they could under the present condition of affairs, that is, none of them received any special advantages from the people. The proper and only cure for the trust was to take away the special rights given to them by the people or government, the right to own the earth. The simplest way of doing this would be to adopt the single tax method of making the owner of special privileges pay to the government, year by year, the competitive price of their privilege to the use of the earth to the exclusion of all others. Then it would not be a special privilege any longer, and this yearly revenue would equal the governmental expenditure. Not alone the trust would be prevented by this, but also the smaller special privileges to the ownership of public utilities, such as land owners of all degrees, which were the beginning of all trusts. All had to fall together. He ended by an appeal to people to make a study of these matters, which outweighed the importance of all others.

Addresses were also delivered by Mayor Lighthall, of Westmount, and Mr. W. E. Doran, who, while not fully persuaded, were subscribers to a large portion of the single tax platform. A vote of thanks was passed to the Single Tax Association and to the speakers.
