MAY HAVE MINTO CUP

Mr. Belcourt Says Governor-General Certainly Intended to Give the Trophy so Much Talked About Already.

THE POINTS HAVE ORGANIZED

They Will Have a Senior Team as They Promised, and Will Also Be Represented in the Junior and Intermediate Leagues.

(Special to the Star.)

OTTAWA, April 24. — Mr. N. A. Belcourt, M. P., whose name has been hinted at as one of the likely trustees for the Minto Cup, was asked by a Star reporter if there was any truth in the report of his appointment to the trusteeship. He is absolutely no foundation for the statement, and I do not know where it came from. My connection with the Minto Cup, which takes a great interest in Canada's national game, would give a cup similar to that given by Lord Stanley for the hockey championship, it would serve as a great impetus to revive the latent interest in lacrosse. With respect to the Minto Cup, I am interested in its history and the very kind of lacrosse which is played in the Minto Cup, to be known as the Minto Cup, but details as to the trusteeship were discussed, and so far as I know, nothing further has been done in the matter, which now only awaits His Excellency's action.

JUNIORS READY IN CORNWALL

INTERESTING TABLE
Prepared for Special Commit-
tees on Water Rates, Showing
How Private Houses,
Etc., Are Taxed for Water.

BASED ON ASSESSED RENTALS.
On Private Houses Considered
The High and the Committee
May Recommend Their Reduc-
tion.

A very interesting table has been
prepared at the City Hall, and submitted
to the committee, which is considering
the water rates, showing just how
private houses, stores, etc., are taxed
for water. The table may result in a
reduction of the rates on private houses
as the water tax is based on the assessed
rental, namely 7 1/2 per cent. The
houses calling for different rates are care-
fully classified, their rentals shown and
also the amounts in water rates derived
from them.

In the table is shown the number of
houses in the city that have rentals from
\$30 to \$100 per year, and the total
amount of the assessed rental of 7 1/2 per
cent. derived from them. The table con-
tinues to show increased rentals of houses
and \$100 per annum is reached. The table
is as follows:

Table with 3 columns: Number of Houses, Varying Rentals, Income at 7 1/2 per cent.

STORES AND OFFICES.
There are 8,722 stores and offices that
pay a special tax of \$2 each, and a 4 per
cent. assessment, representing \$2,688,123 of
assessed rental.

Of hotels and saloons there are 394.
Each pay a special tax of \$2 and a 10 per
cent. assessment, representing \$113,350 of
assessed rental.

The following shows the totals from
residences, stores and offices:
Total number of residences in the city,
45,282. Taxes derived from them, \$415,647.
Their assessed rentals, \$2,541,982. Tax derived
from them, \$124,968. Their assessed
rentals, \$2,688,123.

WHAT THE POSITION IS.
From the above valuable report, the spe-
cial committee on water rates is in a posi-
tion to see just how the water rates for
water have to be borne in, in addition to
the regular 7 1/2 per cent. on assessed
rentals. Hotelkeepers, by maintaining
putting forth the claim that they are pay-
ing too heavy in special water rates, and
that only to be assessed rental tax.

THE PROVINCE OF MONTREAL

Montreal's position in provincial affairs has never been wholly satisfactory to her citizens. There has been much grumbling, some agitation for redress and occasional attempts to remedy matters.

Her taxation has been out of proportion to her representation, for in an assembly of seventy-four members Montreal has but six; or, adding the two other island seats, Jacques Cartier and Hochelaga, Montreal and suburbs have ten per cent. of the seats in the Legislative Assembly...

A drastic remedy is being discussed by persons deeply interested and who have given the question considerable study; and that is the erection of a new province, comprising the city and its adjacent territory, to be called the province of Montreal.

What should be the extent of territory included in the new province? Certainly more than the city and island of Montreal, otherwise the surrounding country would be cut off from its judicial and commercial centre.

A thoroughly earnest, a strictly honest little nation is Japan. What they do they do thoroughly. It was discovered that the rat was the means of spreading the bubonic plague, and Japan started in to exterminate the rat.

Heu, Rouville, Iberville and St. John, with a population of 150,000. To the south and east is the township group—Monte-qui, Brome, Stefford, St-James, Sherbrooke, Compton, Richmond, Drummond, and Bagot, with nearly 500,000 of the population, making a total of 645,000 for the province of Montreal.

Such would be the territory and population. Taking 20,000 as the basis of representation that would mean a legislative assembly containing 43 seats. In several cases counties would have to be united; for example, Napierville and Laprairie, as they now are for federal purposes; Verchères and Chambly, Iberville and St. John, and Vaudreuil and Soulanges; while Ottawa county with a population of 98,000 would be divided into two members.

Now the makers of umbrellas ribs in the United States have formed a combine. Putting any trust in the world in connection with an umbrella is certainly a new thing under the sun.

Two brothers in East Boston are now reported to have had a duel, not over the love of a fair maiden, or for any of the reasons to be found in the novel of commerce, but simply as to the ownership of a set of collar buttons.

If a second chamber—a legislative council—were desired it could be formed on the same basis as that existing; namely the old districts into which Lower Canada was divided, and the gentlemen holding these seats could retain them; or possibly the constitution of the council could be considerably amended and improved.

To divide the liabilities might be more difficult, but it could be arranged on a basis of population or as a court of arbitration might decide. The judiciary of the present province would also have to be divided; the judges of the Superior Court now holding commissions for districts to be comprised in the new province would retain their positions and continue their duties.

Of course Montreal would be the capital, with a resident lieutenant-governor and a cabinet. With such a province as has been mapped out, it would be possible to conduct public business with a small ministry; for example, Premier and Provincial Secretary; Provincial Treasurer; Attorney-general; Commissioner of public works, crown lands and fisheries;—only four in all.

Is the Province of Montreal among the possibilities of the future?

A favourite maxim on the stock market is "cut your losses short and let your profits run on" which advice may perhaps sound better than it is.

"Values have not increased. Properties now so high can be reproduced for one-half what they are selling for. The present condition of the market is unnatural and liable to lead to great losses and perhaps panic. But all men are not fools. The public will get its eyes open very soon and see the absurdity of trying to represent railroads as worth double what others could be put down beside them for. Who would want to pay twice as much for a house as it would cost to duplicate it? Now is the time to exercise prudence, reduce prices, take in sail and keep close to shore."

A thoroughly earnest, a strictly honest little nation is Japan. What they do they do thoroughly. It was discovered that the rat was the means of spreading the bubonic plague, and Japan started in to exterminate the rat.

When people are taught that the rat is not only a dirty and unpleasant animal to have about the house, but is also a serious menace to the public health and a dangerous spreader of contagious disease, determined efforts at extermination may be as successful here as in Japan.

Science continues to assert that the cause of dreams is located in the veins of the eyelids. Science probably knows, but what a strange place for a Welsh rabbit to scotch into.

Those who stay out late at night frequently see the stars in the early morning will often see the milky way in the morning.

No, my son, the Dutch left in South Africa are not all small boys, and all who were fired off to St. Helena were not big guns, either.

The operative season is not on, but a number of letters have been received, "Dear me general," to its mother as it bit into the back door of a Blouy street residence yesterday.

A stranger from Gananoque who stopped off at Windsor street car worry and today, and was sent straight to the hospital, though he was only a few hours from home he had seen a good deal of the world.

The St. James street sage wisely expresses the hope that some repairs will be made on Montreal this summer. At present, he says, from the City Council proceedings, there is a bad outlook for the city.

What is all the clamour about? The New York Herald announces that the steel rail-manufacturers are going to advance prices on May 1 from \$22 to \$24 a ton. As Mr. Blair would say, "We do not see what all the clamour is about"; Canada has protected its interests by a contract at \$22.50.

If a father gave one of his sons 10 cents and the other 8 cents, what time would it be? Quarter to two.

Just the man for Montreal. The Chief of Police of Montreal, N.E., has been dismissed for allowing a prisoner to go free after being arrested in the streets. There is going to be a vacancy for a chief of police in Montreal, and this gentleman seems to be just the kind of man to suit some of our aldermen. At any rate he would never be fired for releasing a City Father's ward heeler in Montreal. Alderman Gallier should look him up.

The Countess Leopold de Melville says that she thinks her husband's matrimonial record has been grossly exaggerated. She would not be surprised, however, if the Countess's wives number about fifty.

PASSING HOUR

THE DYING SWAN. An impressive swan one night swam across the lake. He was very old and his neck was very long. He swam very slowly and his wings were very small.

But still she did not die that night, nor yet next day—I've heard That weeks and months they passed away, but not so did the bird— And every night she waddled with a slight nervous pain.

Long years have fled—that swan is dead; Were printed in large capitals for little swans to read. "Thou thus thy run: 'If you must sing a dying song, my dear, sing it for me. Then fill it full of health and hope, of confidence and cheer. Build up your life of splendid deeds, and not of sickly rhymes. And don't—don't sing too often, for it wastes a lot of time.'"

Many a so-called chip off the old block is merely a splinter off the old blockhead.

We answer the questions briefly. If you cut an artery in your neck you die. If you cut an artery in your leg you die. If you cut an artery in your arm you die.

WANT PLAYGROUNDS.

A Deputation of Ladies Wait Upon the Parks and Feries Committee on Behalf of the Children.

THE LOCALITIES PROPOSED.

Badly Needed in Congested Parts of the City—The Street Cars on Park Avenue Objected to by Ald. Gagnon.

Mrs. Peterson, wife of Principal Peterson, Mrs. Cox, with Professor Cox, Mrs. F. Rodpath and Miss Edith Watt, a deputation from the Parks and Feries Association waited upon the Parks and Feries Committee yesterday afternoon in regard to the establishment of more parks in the city.

Several times when attempts have been made to give away portions of Fletcher's Field the association has protested so vigorously that this large breathing place has been preserved.

At the meeting of the committee Mrs. Peterson made a short petition. What was wanted was a park in the poorer sections of the city.

Continuing, the petition pointed out that there were numerous places in the city which could be turned into playgrounds for children.

MONSOON

"None know thee but to love thee, None named thee but to praise."

It is singular that some of the most beautiful poetry ever written is exactly applicable to MONSOON CEYLON TEA.

Longfellow was not thinking of MONSOON TEA when he wrote these lines, but they describe this delicious beverage very accurately.

Busy Times in Carpets

CROWDED EVERY DAY

Crowds of ladies and gentlemen invaded our Carpet Department yesterday and were busy buying what they required for their homes—and the merry hum of pleasure resonated through this attractive section of the Big Store. No wonder. The goods are bright and artistic—rich and effective, while the prices have reached a level of cheapness never before attained. Read about to-morrow's specials.

INCOME TAX ADOPTED

LONDON, April 24.—In the House of Commons yesterday various members sharply criticized the budget's increase of the income tax, and the character of the budget was, Sir Michael Hicks Beach, replied that more urgent matters must be dealt with. He hoped that the additional tax would be paid before the country's financial condition was such that it would be adopted by 25 to 25 votes.

BOERS HARASSED.

Despatches From Cape Town Telling of the General Situation Describe It as Satisfactory to the British.

MANY OF THE ENEMY PRISONERS

It is Officially Stated That There Are Over Seventeen Thousand of the Boers in the Hands of the British.

(Special to the Star.)

CAPE TOWN. April 24.—It is officially announced that the Boers in Namaqualand are still clinging to the hills north-east of Pella. The burghers in the Calvinia and Komarand districts, especially those under Prinsloo, have been more active of late and have required energetic work on the part of the British.

The Boers under the command of Prinsloo and Van der Merwe, after threatening to attack Marabburg, apparently united and retreated to the Orange river at the foot of the Zuurberg. The last heard of Commander Krüger he was near Vensterdorp, and was making towards the Orange River Colony.

Several small parties of Boers are reported about Vensterdorp. They are probably being held in connection between the burghers in the Zuurberg and the Orange River Colony commands.

The Boers held up a train between Molwen and Pella, on the Orange River, and the engine driver and stoker behaved gallantly. Both were wounded. The British had two other casualties, a military doctor reported between Allensburg and Jamesburg, apparently moving on Barkly East or Lady Grey.

General Christian De Wet, according to one report, crossed the line north of Wolwehoek on Thursday. Another report locates him at Vet at Senekal, Orange River Colony.

Generally speaking, the Boers appear to be considerably harassed by the constant movements of the British. Their retreat from an English standpoint the situation may be considered satisfactory.

It is officially stated that the number of Boer prisoners is now 17,523.

A PATRIOTIC PROPOSAL.

(Special to the Star.)

QUEBEC. April 24.—Mayor Paret read last night to the city council a report read by him to the president and secretary of the Canadian Club, Toronto, who wrote for his opinion on a memorial to the Government of a national monument to the memory of the work of Canadian heroes in South Africa. His report contained the following opinion, but asks to be allowed to express his own opinion, and to provide for a more becoming place on the ground than the one now proposed at the Plains of Abraham, which is often referred to as the birthplace of our present Canadian nationality.

MORE PEACE ENVOYERS

NEW YORK. April 24.—Once again peace envoys are in the air, says the Tribune's London correspondent. Mrs. Pethick-Lewis, who has been in London since the outbreak of the war, is expected to visit the British Government in London, and as a result it is believed that the British Government-in-Chief has agreed to receive the peace envoys, the Duke of Devonshire and Lord Curzon, who are expected to arrive in London within the next few days.

WAR NOTE.

In the House of Commons on Tuesday, Sir John Brodribb, secretary of state for war, stated in reply to a question that the annual return of the Royal Military College, Kingston, a meeting, attended by Major Peail and other prominent citizens, was held on Tuesday evening, April 23, at 7 o'clock, in the hall of the church. It is proposed to remove the St. Alban's church, which is the site of the school, to the site of the school, which has been visited here and inspected since the outbreak of the war. The premises formerly occupied by Fairknowe Orphan Home.

A METAL TRUST IN RUSSIA.

(Special to the Star.)

LONDON. April 24.—A dispatch to the Daily Mail from St. Petersburg says that all the metal works in South Russia are forming a trust. Sixty-three firms have agreed to form a trust to supply the army. An increase in prices is feared, and the Ministry of Finance will probably claim some regulation of their operations.

CHARGE AGAINST KIDNAPPER.

OMAHA, Neb. April 24.—James O'Connell, arrested in connection with the kidnapping of Edward Galt, was yesterday brought before Judge Becker for trial on the charge of robbery of \$65,000, which is the amount of ransom paid by Mr. O'Connell for the return of his boy.

A RUGE FLOW COMBINE.

CHICAGO. April 24.—After a conference last night, the Chicago River and Lake Michigan and St. Lawrence waterways of the United States practically have completed the formation of a \$50,000,000 combine. It has for one of its purposes the elimination of the long traffic which have been given country merchants.

NEW APOSTOLIC DELEGATE.

ROME. April 24.—It is understood here that the Holy See has named the Rev. Father present internuncio at the Hague, has been selected as Apostolic delegate to the United States.
