REVICTUALLING PROBLEM

OF THE AUSTRIAN ARMIES

SINCE VICTORIOUS ADVANCE OF RUSSIANS NEAR LUBLIN THE ENEMY FINDS HIMSELF IN A PRECARIOUS POSITION—OFFICERS DISGRACED.

WAR WILL END IN OCTOBER, SAYS GERMAN KAISER

REPORTED TO HAVE MADE STATEMENT TO BANKERS' DEPUTATION.

London, July 14.—3:10 a.m.—The German Emperor, according to the Times in a speech to a deputation of bankers who had insisted on an interview in order to point out to the Emperor the financial difficulties of the situation and the grave risk attending the pursuance of the campaign through another winter, stated that the war would end in October.

The bankers are alleged to have declared that even if the war was brought to an end immediately and an indemnity obtained, Germany's position would be difficult, but that if the war was prolonged the German Empire would become utterly bankrupt. It was in reply to these representations, according to the Times that the Emperor is understood to have declared that the war would end in October.

Geneva, July 13, via Paris, 2 p.m.—A despatch to the Tribune from Innsbruck, says:

"Archduke Joseph Ferdinand is expected today at Cracow to preside over a war council.

"If within the next few days the Austrians cannot stop the victorious Russians advance the whole front must retreat. Since the loss of the positions south of Lublin the revictualling of the armies has become impossible. Large Austrian reinforcements have been hurried to the province of Lublin, but the Russians, though fighting against superior forces, continue advancing.

"The Austrians have been returning to Galicia since the tenth of July and are now at Wrzawy. The Russians defeated the Austrians at Zamosz and surrounded and captured two Hungarian battalions.

"It is reported from Lemberg that an important council of war was held there July 10 and that as a result of it a number of superior officers were executed.

"A despatch from Laibach says a strong Italian cavalry patrol reconnoitering recently made a daring dash towards Trieste and arrived within three miles of the town and then retired. An Austrian attempt to invade Italian territory at Kreuzberg was repulsed with heavy losses. The Austrians succeeded at Kellerwald in forcing back the Italians. The Italians were reinforced, however, and regained the position. At Gargav the Austrians tried to drive back the Italians into the Isopzo, but failed, there are daily engagements east of Monfalcone, where the Italians have taken a large number of prisoners."

WILL NOT BE SO STRICT IN FUTURE

MANY MEN DECLARED UNFIT MAY BE USED FOR HOME DEFENCE.

Birmingham, Eng., July 13.—The recruiting authorities in Birmingham have received a communication from the War Office instructing them to invite men who were previously rejected for army service because of weak eyesight, bad teeth or slight physical defects, again to submit themselves for medical examination. In the future no man organically sound will be rejected by the recruiting officers as those who are unfit for campaigning can be used for home defence and garrison duty.

ZAPATA'S FORCES ARE DRIVEN OFF

Mexico City, July 12.—(via Galveston, Texas, July 13.)—The outlying suburbs of the Federal capital were cleared today of Zapata troops by forces under General Coss. The waterworks were recaptured and a partial resumption of street car service was made possible. Heavy fighting in the neighborhood of Tlalpam and Ajusco still is in progress with the forces of Zapata retreating.

SWISS BORDER CLOSED.

Geneva, via Paris, July 13.—3:10 p.m.—Without previous notice the Germans have stretched a chain across the frontier bridge at Zurzach, a Swiss town on the Rhine, sixteen miles north-east of Aarau. Since Sunday the German frontier guards have exercised an exceptionally severe control and it is almost impossible to cross the frontier. It is supposed that these measures have been taken following recent attempts at espionage.

ACTING C. O. OF PRINCESS PATS.

London, Ont., July 13.—Lieut. H. Niven, transport officer of the Princess Patricia's, and a son of Dr. J. S. Niven, of this city, is again acting commanding officer of the famous regiment, according to word received here tonight. Major Pelly, who has been in command, has been granted further leave of absence. Acting Lieut.-Col. Niven, who was recently awarded the D.S.O., joined the regiment in Calgary as a private.

AUSTRO-GERMANS HAVE OFFERED RUMANIA MORE CONCESSIONS TO JOIN THE GERMANIC ALLIES

Allies Think That Worst Rumania Will Do Will Be To Remain Neutral—Success In Dardanelles Might Lead To Entry On Side Of Allies—Venizelos May Prove Deciding Factor—Russians Are Successful In Counter-Offensive Against Austrians Near Krasnik—Britain Lauds Botha

London, July 13.—The session of parliament today was marked by a series of most important announcements by the Ministers after the House of Commons had at the suggestion of Premier Asquith, who moved it in an eloquent speech, passed a resolution expressing gratification at the success of General Louis Botha in conquering German South West Africa.

The Chancellor of the Exchequer, Reginald McKenna, announced that the subscriptions to the new war loan had reached the unprecedented figure of nearly 600,000,000 pounds (\$3,000,000,000) not including small sums received at the post offices.

The President of the Board of Trade, Walter Runciman, aroused the House to further cheers by the statement that, in view of the failure of the South Wales coal owners and miners to reach an agreement on the wages dispute, the government had decided to apply to the mining industry the Munitions of War Act. This makes it an offence to take part in a strike or lockout unless the differences have been reported to the Board of Trade and the Board has referred the matter for settlement by one of the methods prescribed by the act.

A very serious view is taken of the refusal of the miners to accept a compromise, for, even in the face of the decision of the government, they are threatening defiance. Most of the coal for the navy comes from South Wales, and even before the trouble arose the supply was affected by the enlistment in the army of 50,000 of the younger miners, which eventually made it necessary for the government to stop recruiting in the mining district of Wales.

The crisis first threatened three months ago when the miners gave notice to terminate the existing agreement on July 1, and, in lieu of these, they proposed a national programme, giving an all-around increase in wages. The owners objected to the consideration of the new terms during the war and asked the miners to accept the existing agreements plus a war bonus. After a series of conferences the union officials agreed to recommend a compromise, which was arranged through the Board of Trade. The miners, however, voted yesterday against this, and the government was obliged to take action.

The miners assert that their demands would mean no more than six pence (12 cents) a ton, and argue that as the owners are receiving much more for their coal than previously they could well pay it. As a matter of fact, Mr. Runciman today also introduced a bill in the House to regulate the price of coal.

In the House of Lords, the Marquis of Lansdowne, a member of the Cabinet without portfolio, stated that twenty-two or twenty-three British divisions are now in France and Belgium, and expressed his opinion that, although recruits are flowing in, the country would not much longer tolerate the anomalies and injustices of the voluntary system, which is taking unusual proportions of married men, and that a national register would be useful, should it be found necessary to introduce compulsory military service. He intimated also that the munitions question was now being satisfactorily handled.

Beyond the German claim that they have made further progress in their attacks near Souchez; the French air raid on the German lines of communications serving their front in the Woeyre, and repulses by both sides of the usual daily attacks, little has happened on the western front.

In the east the operations are entering a new phase, the Russians having been successful in their counter offensive against the Austrians in the region of Krasnik. They have taken new positions in the hills to the north of that town and apparently are waiting for the Austro-Germans to make a move. It is not expected that this will be long delayed, for General Von Mackensen has had time to receive reinforcements and supplies of guns and ammunition for his next great effort to secure control of the Lublin-Cholm railway.

The Balkan situation is again in the limelight as a result of the disclosures that the Austro-Germans have offered Rumania alternative concessions, either to continue neutral or join with the Germanic allies. Confidence is expressed in British, French and Italian circles that the Balkan States will not join the Austro-Germans, but it is considered likely that, owing to the failure of Russia to hold Galicia and Bukowina, they might decide to remain neutral. Of course, success by the Allies in the Dardanelles, where they are unofficially reported to have gained further Turkish trenches, would change the situation.

It is also said that the former Greek Premier, Venizelos, in anticipation of his return to power, has arranged to re-organize the Balkan alliance, of which he was the initiator.

M. Venizelos has been a supporter of the Entente Allies, and, in event of such re-organization it is suggested, the Balkan States might possibly join this combination.

OFFICIAL

FRENCH STATEMENT.

Paris, July 13—10:30 p.m.—The following official communication was issued by the War Office tonight:

"In Belgium the Germans in bombarding the French and British lines have made use of asphyxiating shells.

"In the region to the north of Arras the cannonade has been particularly violent. Further material damage to Arras is reported. There was no infantry action during the course of the day.

"In the Argonne the army of the German Crown Prince has resumed the offensive from the road between Binerville and Vienne Le Chateau as far as the region of Haute Chavauchee, and has suffered a new check. After a very violent bombardment and a barrier fire with asphyxiating shells, the enemy attacked with heavy forces, five different regiments of the sixteenth corps having already been identified.

"At certain points where our line had momentarily been bent energetic counter attacks by us stopped the progress of the enemy and compelled his retirement.

"Between the Meuse and the Moselle the cannonade continues, particularly in the forest of Apremont and Le Pretre forest, where the Germans, after the check of a new attempt last night have not renewed their attacks.

RUSSIAN STATEMENT

Petrograd, July 13, via London, July 14—1:06 a.m.—The following official communication from general headquarters was issued tonight:

"Local actions continue on the Bobr and Narew fronts. A lively artillery fire occurred near Ossowetz and Jedwabno from the evening of the 11th to the morning of the 12th.

"In the valleys of the Skroda, Pissa and Skwa rivers there has been only rifle firing. Hostile infantry in small force on the night of July 12 made attacks in the region of the villages of Tartak, Ochine and Groudousk, which were successfully repulsed.

Furriers to His Majesty King George V

By Appointment

Haven't You Noticed

some of your friends attired in smart, cool-looking Suits? Haven't you often envied their summery, well satisfied appearance? The models in Linen, Corduroy, Palm Beach, etc., that we have collected have appealed to the ladies to a greater degree than we ever dared hope for.

Don't wait till the assortment of sizes is broken. Call upon us now and try on a few. They will appeal to you. Prices from \$9.00 and up.

We have a line with only 34 bust sizes left. They are priced \$6.75.

We Have Endeavoured

to secure an altogether different and select line of Waists to anything shown in town. You may judge for yourself whether we have succeeded.

Voile Waists in white can be made in harmony with the latest dictates of fashion. Few alike.

We have just received a fresh lot of Middy blouses in Silk and Shantung.

GORDON'S LONDON DRY GIN

(UNSWEETENED)

GORDON'S OLD TOM GIN

GORDON'S SLOE GIN

## ZEPPELIN MENACE NOT MUCH ACCOUNT

AERIAL OFFENSIVE OF GERMAN GASBAGS IS APPARENTLY BROKEN.

London, July 14.—The Daily Chronicle prints an article which, it says in an editorial note, contains "inner knowledge of the change which has come over the German disposition with regard to Zeppelins. It is stated definitely that since the triumphs of Lieut. Warneford, V.C., the destruction of the air shed near Brussels, Belgium, which has been cleared of Zeppelins, and the ascendancy of Britain's armadas are jointly noted by the suspension of Zeppelin raids on the east coast."

The article says that over a month has passed since the LZ-38 was destroyed in its shed at Evere, and the LZ-37 was brought to the ground by Lieut. Warneford. The writer adds:

**British Efficiency.**

"The aerial offensive of the Zeppelins, in short, has been broken. I do not pretend there will be no more raids while the war lasts. To suppose that argues a very poor understanding of German determination. Yet it does remain a remarkable fact that just at the time of the year when, according to experts, weather conditions are most favorable for aerial activity, the enemy has been paralyzed by the discovery that he has now to face a new British war organization, only recently established yet marvelously efficient, as already proved by the inflicting on Germany of the most absolute check she has experienced for ten months."

"Information which has reached me from divers sources in Belgium, and upon which I have complete reliance, enables me to state that since July 6th not a single Zeppelin has been left in Belgium save one, which was seriously damaged on July 7th, and which the Germans are trying to repair as best they can at Namur."

**Warneford's Exploit.**

"It would be quite impossible to exaggerate the panic accompanied by the fall of the blazing carcass of the Zeppelin destroyed by Lieut. Warneford and the blowing up of the Evere hangar and its contents. What perhaps most affected the morale of the enemy was the fact that the LZ-37, Lieut. Warneford's victim, was a brand new Zeppelin, which was undergoing its first tests and had on board several of Count Zeppelin's chief engineers."

The LZ-38, according to The Chronicle's correspondent, was the most famous of all the Zeppelins. It was the LZ-38 which bombarded Ramsgate and South End and part of the London area. He adds: "It had therefore a pretty busy lease of life before it blew up in the shed at Evere on June 7th. Then fifty men were burnt to death."

"There is no room for doubt, taking into account the Zeppelins destroyed by British bombs or by accidents of all kinds on the one hand, and on the other those that have been recently built under more or less secrecy that we are justified in concluding that the German air fleet at this moment cannot possess more than fifteen Zeppelins capable of taking the air. This calculation is supplied by expert authority."

**DROWNING ACCIDENT.**

Sarnia, Ont., July 13.—Louis Calladine, aged 17, of 227 Cameron street, fell from a raft in the St. Clair river near Sarnia Bay at 10 o'clock this morning and was drowned. He was unable to swim.

**PASSENGERS HELD UP**

**BECAUSE OF PASSPORTS.**  
Liverpool, July 13.—6.03 p. m.—Seven passengers on the American Line steamer Philadelphia which arrived here on July 11 from New York are held on board the vessel in the Mersey because of the lack of passports or because their passports were unsatisfactory.

**CHOLERA PREVALENT**

**AMONG AUSTRIANS.**  
Brescia, Italy, July 13, via Paris.—Austrian prisoners say that cholera is daily growing worse among the Austrian troops, especially those who have returned from Galicia, and that there are many fatalities as a result of the disease. The Italian authorities are submitting all prisoners to a severe medical examination. Men suspected of having the cholera are isolated.

**PORTUGUESE STATESMAN**

**IS DEAD AT LISBON**

Madrid, Spain, July 13, via Paris, 9.45 p. m.—Dr. Afonso Costa, leader of the Portuguese Democrat is dead at Lisbon.

Dr. Costa for years had been regarded as one of the strongest men politically in Portugal. He had been Premier, Minister of Finance and Minister of Justice and was the author of the law providing for the separation of the church and state in Portugal. He was said to have been an uncompromising advocate of armed revolution and several times was sent into exile.

He was imprisoned as the ringleader of the abortive revolution in January 1908.

## CONSTANTINOPLE IS AFRAID OF ATTACK

GERMANS ARE STRENGTHENING AND ADDING TO THE FORTIFICATIONS THERE.

London, July 14.—4.04 a.m.—According to a Mytilene despatch to the Times, advices from Constantinople are to the effect that the Germans are strengthening and adding to the fortifications at Constantinople on a stupendous scale. They are employing thousands of soldiers as laborers, and trenches are being dug on the sea front at half mile intervals all the way from St. Stefano, on the western outskirts of Constantinople, with the usual accompaniments of mined approaches, entanglements and concealed batteries mounting guns of all sizes.

There are ample supplies of guns, the despatch adds, but through what channel they were obtained is not known.

**ELECTROCUTE THOSE**

**ATTEMPTING TO PASS.**

The Hague, July 13, via London, 10.05 p. m.—Reports received from the Belgian-Dutch frontier are to the effect that many persons are being killed by a high voltage electric wire fence which has been constructed by the Germans along the entire border. Every morning, it is asserted, there are found from a half dozen to a dozen charred bodies of Belgian peasants, including women and children, who during the night had attempted to cross the fence and were electrocuted.

**AMERICANS READY TO**

**MANUFACTURE DYE STUFFS.**

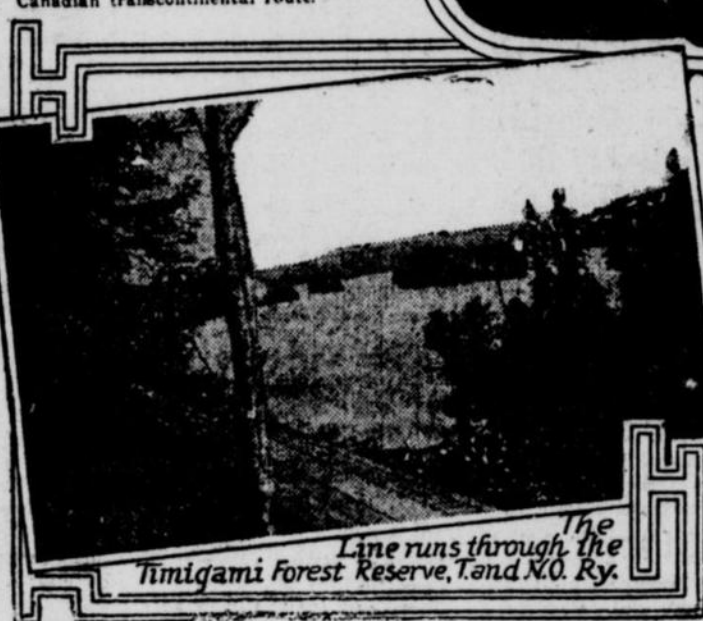

Philadelphia, July 13.—It is entirely feasible and practical to manufacture dyestuffs in this country and American financiers stand ready to furnish the capital for its production, "provided sufficient protection is afforded to guarantee their investment against foreign competition after the termination of the European war." This statement was set forth in a resolution adopted at a special meeting of officers, members of the board of directors and the advisory board of the National Association of Hosiery and underwear manufacturers here today. The meeting was called to consider the "acute conditions in the knit goods industry, due to a cessation in the importation of dyestuffs."

In the resolution, copies of which will be sent to President Wilson, all

# The NATIONAL-Canada's new Transcontinental Train

Scenic Gems on  
the New Route

With the departure from Toronto of "The National" on its first transcontinental trip a new way has been opened between Eastern and Western Canada; a new steel highway created linking the Atlantic and the Pacific. The inauguration of this great all-Canadian route marks an important epoch in the Dominion's development. A vast area of productive land, of great scenic beauty, hitherto without modern transportation facilities, is made easy of access. Its mineral, lumber and agricultural wealth can now be tapped and its sporting paradise developed, while a new trail is created for travellers. The finest equipment that can be produced is being used in the service from its very inception, while the smooth roadbed and great steel bridges embody all that has been learned in three-quarters of a century by those who build our railways. "The National" will operate between Toronto and Winnipeg over the lines of the Grand Trunk, the Temiskaming & Northern Ontario Railway, and the Canadian Government Railways, making a fast run between the two cities of forty-two hours. The first stage of the journey from Toronto takes the traveller through the heart of the "Highlands of Ontario," a region studded with beautiful lakes and winding streams, and replete with natural loveliness. From North Bay the steel stretches away northward 235 miles, through the famed Timagami region to the Town of Cochrane. The train also skirts the famous Cobalt territory, the mines of which have produced in the last few years silver valued at a hundred million dollars. From Cochrane to Winnipeg is practically virgin territory. The scenery along the line is fascinating. At Winnipeg "The National" makes connections with the Grand Trunk Pacific line, which stretch clear across to Prince Rupert, B.C., thus providing the Dominion with its first all-Canadian transcontinental route.

Line runs through the  
Timagami Forest Reserve, Tand N.O. Ry.

The National-Canada's new Transcontinental train in service between Toronto and Winnipeg

The Fort Garry Wharf joins the Union Station

Through the Canadian Rockies, en route to Prince Rupert, B.C.

The Transcontinental is the best new railway ever constructed. Here is a stretch of line west of Cochrane—level roadbed with heavy steel rails.

## Builders of the "Big Ditch"

There has just been issued by the Historical Publishing Company of Washington, D. C., a magnificent illustrated history of the construction and builders of the Panama Canal. The editor of this great history is Mr. Ira E. Bennett, with associate editors, John Hays Hammond, celebrated mining engineer; Capt. Philip Andrews, U. S. N.; Rupert Blue, Surg. Gen. U. S. Public Health Service; J. Hampton Moore, Pres. Atlantic Deeper Waterways Ass'n.; Patrick J. Lennox, B. A., and William J. Showalter.

One of the most interesting portions of the book is that dealing with the feeding of the immense army of laborers. A few paragraphs concerning one of the foods chosen and supplied by the Commissary Department, are quoted (beginning page 428) as follows:

"Visitors to the canal who were privileged to get a glimpse of the routine inner life will recall a familiar picture of workmen going to their places of labor carrying round yellow tins.

"Often, as they went, they munched a food poured from the tin into the hand. This food, which played no inconsiderable part in 'building' the canal, was the well-known article of diet, 'GRAPE-NUTS.'

"The mention of Grape-Nuts in this connection is peculiarly pertinent. Not merely because Grape-Nuts is a food—for of course proper food was an integral part of the big enterprise—but because it is a cereal food which successfully withstood the effects of a tropical climate. This characteristic of Grape-Nuts was pretty well known and constituted a cogent reason for

its selection for use in the Canal Zone.....

"This food is so thoroughly baked that it keeps almost indefinitely in any climate, as has been demonstrated again and again.

"One finds Grape-Nuts on transoceanic steamships, in the islands of the seas, in Alaska, South America, Japan, along the China coast, in Manila, Australia, South Africa, and on highways of travel and the byways of the jungle—in short, wherever minimum of bulk and maximum of nourishment are requisite in food which has to be transported long distances, and often under extreme difficulties.

"The very enviable reputation which Grape-Nuts has attained in these respects caused it to be chosen as one of the foods for the Canal Zone."

## Grape-Nuts FOOD

—scientifically made of prime wheat and malted barley, contains the entire goodness of the grain, including those priceless mineral elements so essential for active bodies and keen brains, but which are lacking in WHITE flour products and the usual dietary.

There's a reason why Grape-Nuts food was chosen by the Canal Commissariat. There's a reason why Grape-Nuts is a favorite food of hustling people everywhere!

Made in Canada—Sold by Grocers

Canadian Postum Cereal Co., Ltd., Windsor, Ont.

United States Senators and members of Congress, it was declared that while the dyestuff situation is already acute it was daily becoming more serious. Nearly all branches of the textile industry are suffering severely, according to the resolution.

**ANOTHER DROWNING**

**ACCIDENT AT LINDSAY.**  
Lindsay, Ont., July 13.—John A. Martin, machinist, while operating a gasoline launch in the Scugog river last evening lost his balance, fell overboard and was drowned. The body was recovered.

**YOUNG GIRL SUICIDES.**

Belleville, Ont., July 13.—Rebecca Youde, a 17-year-old domestic, in the employ of Mr. Frank Smith, Madoc village, took carbolic acid this morning and was later found dead. No motive is known.

**PIONEER PRINTER DEAD.**

Vancouver, B.C., July 13.—Harry Cowan, Vancouver's best known pioneer printer, and one of the best known supporters of sport in the west, died this morning after a brief illness. He was about 50 years old.

**HOW THE LIBERALS**

**DISFRANCHISE SOLDIERS**

Edmonton, Alb., July 13.—A petition was presented to the Premier to-day by Captain Bradburn and Capt. Sage, on behalf of some 4,000 soldiers now in training at Sarcee Camp, Calgary, asking to be allowed to exercise their franchise as voters in the prohibition election July 21. The Premier's only reply was:—"The government does not consider they have any power to change the election act."

**MONTREAL'S CAMPAIGN**

**TO AID RECRUITING**

Montreal, July 13.—Fully 15,000 people were on Fletcher's Field to-night at the opening of the recruiting campaign for the 60th Battalion for overseas service, and eighty men presented themselves in response to speeches from Mayor Mederic Martin, Controller Ainey and Col. F. S. Meighen, just returned from the front.

**PATRIOTIC REGINA.**

Regina, Sask., July 13.—Two quick-firing machine guns are to be offered to the Department of Militia by the druggists of Saskatchewan. This decision was reached at the annual meeting of the Saskatchewan Pharmaceutical Association, held here to-day. The two guns will cost approximately \$1,600.

**CANADA'S MUNITION**

**WORKERS FOR ENGLAND**

Vancouver, July 13.—The task of selecting mechanics to go to England to work in the munition factories and ship yards is going briskly ahead. The first detachment of workmen from Vancouver and Victoria will leave before the end of the week.

## PERSONAL

Mr. G. W. Dickson, of Grand Mere, is at the Chateau.

Mr. J. A. Gauvin, the impresario, is in town for a few days.

Mr. Jos. Goldberg, has arrived from Montreal and is visiting his parents here.

Mr. and Mrs. E. Gooderham are in town from Toronto, and are registered at the Chateau.

Mr. and Mrs. T. LeVasseur are leaving today to spend a week or two at Old Orchard.

Mr. and Mrs. J. D. Moir, of New York, are spending a few days in the city at the Chateau.

Mrs. E. Lucien Hardy and Miss Marguerite Duchene, have left for a trip around the Saguenay.

Mrs. P. Alexander and children arrived in the city last evening from Montreal, and are staying at the Chateau.

Mr. and Mrs. H. B. Moore, and Mr. and Mrs. Louis C. Arnold, of New York, are in the city, guests at the St. Louis.

Mr. and Mrs. H. Sinclair and the Misses Elizabeth and Gertrude Sinclair, are in the city from Trenton, N.J., guests at the Chateau.

Mr. and Mrs. Letourneau, V. E. Meyer, and Raoul Renaud, of Quebec, and A. W. Sinnamon, of Levis, were among recent guests at Montreal hotels.

Mr. F. T. Beresford, manager of the Universal Film Co., of New York, and several actors and actresses, arrived in the city, and will be here several days, as guests at the St. Louis Hotel.

The Lieutenant-Governor and party of Ministers left Quebec last Thursday, and attended the grand ceremony in St. Patrick's Church on Sunday, following which they took part in the opening of the new \$500,000 Hall.

Hon. P. E. LeBlanc, Lieutenant-Governor of the Province of Quebec, accompanied by Maj. Pelletier, A.D.

## HEADACHES

Thousands of men and women suffer from headaches every day, other thousands have headaches every week or even monthly, and still others have headaches occasionally, but not a regular interval. The best doctor is often unable to find the cause of many of these headaches, and in most other cases, knowing the cause, he does not know what will remove it, so as to give a permanent cure. All he can do is to prescribe the usual pain relievers, which give temporary relief, but the headache returns as usual, and treatment is again necessary. If you suffer from headaches, no matter what their nature, take Anti-kamnia Tablets, and the results will be satisfactory in the highest degree. You can obtain them at all druggists in any quantity, 100 worth the worth or more. Ask for A-K Tablets.

## SICK-HEADACHES

Sick-headache, the most miserable of all ailments, loses its terror when A-K Tablets are taken. When you feel an attack coming on, take two tablets, and in many cases, the attack will be warded off. During an attack take one A-K Tablet every two hours. Try rest and comfort which follow, can be obtained in no other way.

Genuine A-K Tablets bear the K monogram. At all druggists.

## EDUCATIONAL

### Bishop's College School

Lennoxville, P.Q.

Head Master, J. TYSON WILLIAMS, B.A.

Emmanuel College, Cambridge.

Boys are prepared for the R. M. C., Kingston, the Universities, and for business life by an efficient staff of masters, mostly graduates of English Universities. Separate preparatory department for boys from 8 to 13 years of age. Both school buildings and residential quarters are excellent, thoroughly up-to-date constructions, beautifully situated in a most healthy location near Sherbrooke, P.Q., and with well equipped and very extensive play grounds.

For Calendars, Information, etc., Apply to the Head Master.

### TRAFALGAR INSTITUTE

(Affiliated to McGill University)

83 SIMPSON STREET, MONTREAL

For the Higher Education of Young Women, with Preparatory Departments for girls under 12 years of age. President—Rev. James Barclay, D.D., LL.D.; Vice-President—Van J. G. Norton, D.D.; Archdeacon of Montreal; Principal, Miss Mary Elizabeth Windsor, M.A., assisted by a highly qualified staff of English and Canadian teachers.

A large addition to the School building has been erected this year, containing new classrooms, science laboratory, art rooms, etc.

A limited number of resident pupils is received.

The Institute re-opens TUESDAY, 14th September, at 10.00. Entrance examinations for new scholars will be held at the School on Saturday, 11th September at 10 o'clock a.m. A member of the staff will be on hand at the Institute each Thursday and Friday after the 13th August to receive applications, etc.

For prospectus, etc., apply to the Principal or to A. F. RIDDELL, Secretary, North British and Mercantile Building, 50 St. Francois Xavier Street, Montreal.

### FLOODS IN CHINA.

Hong Kong, July 13.—The floods raging in the provinces of Kwangtung, Kwanksi and Kiangsi are unprecedented. Entire villages on the west river in Kwangsi have been wiped out by the rushing waters and thousands of natives drowned.

The Shamen quarter of Canton, in which the foreign concessions are located, is four feet under water. Business there has been suspended.

The west, Fu and north rivers are greatly out of their banks. At Wue-nou, province of Kwanksi, the west river is 79 feet out of its banks, while the north river is at a stage of 26 feet at Samshui, province of Kwangtung.

In addition to the Shamen quarter other large districts of Canton are ten feet under water. Thousands of natives in these districts are on the roofs of houses and troops in boats are busily engaged in taking them off and conveying them to high ground. Food is scarce and rice is urgently required.

## THRILLING ACCOUNT OF EXPLOITS BY CANADIANS

SIR MAX AITKEN, OFFICIAL OBSERVER, TELLS OF  
SPLENDID HEROISM AND GALLANTRY MANI-  
FESTED BY THE FIRST ONTARIO BATTALION.

Ottawa, July 13.—A thrilling account of the exploits of the first Ontario battalion of the Canadian expeditionary forces is given in the eye-witness narrative compiled by Sir Max Aitken, the Canadian officer at the front. Individual instances of splendid heroism and gallantry are told of by the observer. The narrative, which is a continuation of the story of the orchard battle, begins with the fighting in the middle of June. The narrative follows:

"On the Canadian battle front, July 13, via London.—About this time, (the middle of June), a British division was directed to make a frontal attack on a fortified place in the enemy's trench line, known to our intelligence staff as 'Stony Mountain'."

The first Canadian Ontario regiment, commanded by Lieut.-Col. Hill of the First Brigade, was directed to secure the right flank of the British division, by seizing the lines of German trenches between Stony Mountain and another fortified place known as 'Dorchester,' which was 100 and 50 yds. to the south. The defensive flank to be thrown back to the right, if our men got through, would depend upon the advance made by the British division."

Working parties of the Second and Third battalions of the First Brigade were told off to secure the lines of trenches and to connect them with our trenches and finally to make the defensive flank."

After a few days of preparation the First Canadian Battalion, Ontario regiment, moved up and at 3 o'clock in the afternoon the battalion reached our line of trenches opposite the position to be attacked when the Second Canadian Battalion, under Lieut.-Col. Watson, which was holding the trench position, withdrew to the right to make room for them."

The trench line on the right of the attacking battalion was held by the Second and Fourth Canadian battalions as far as the La Basse canal, with the Third Canadian (Toronto) regiment in support. The left was held by the East Yorks."

### Our Artillery Superior.

From 3 o'clock until 6 in the evening the Ontario regiment waited the command to charge and sung their chosen songs, all popular but unprintable. The enemy bombarded our position heartily, though our artillery had the better of them. Fifteen minutes before the attack was timed to take place two eighteen-pounder guns which had been placed in the infantry trenches, under cover of darkness on the instruction of Brigadier-General Bursall, commander of the Canadian artillery, opened fire upon the parapet of the enemy trenches."

One gun, under Lieut. C. S. Craig, fired over 100 rounds, sweeping the ground clear of wire and destroying two machine guns. Lieut. Craig, who was wounded at Ypres early in May and again while observing near Guinchy, was seriously wounded after completing his task here."

Lieut. Kelly, who was in command of the other gun, succeeded in destroying a machine gun when his own gun was wrecked by an enemy shell and he was wounded. The gun shields were shattered and twisted like paper by the mere force of musketry fire."

Just before 6 o'clock a mine, which had been previously prepared by the sappers, was exploded. Owing to the discovery of water under the German trenches its tunnel could not be carried far enough forward and the Canadian troops had accordingly been withdrawn from a salient in the Canadian line known as 'Duck's Bill,' to guard against casualties in our own trenches when it went off."

### Two Accidents.

However, to make sure that the explosion would reach the German line so heavy a charge had to be used that the effects upon the Canadian trench line were somewhat serious. Several of our bombers were killed and wounded and a reserve depot of bombs buried under the debris. Another bomb depot was blown up by an enemy shell about this time."

These two accidents made us short of bombs when we needed them later on and we had to rely entirely on the supply of bombs which the bombers carried themselves."

### Irresistible Dash.

The leading company, under Major G. J. L. Smith, rushed forward with the smoke and flying dirt of the mine explosion for a screen and met with a withering fire from the German machine guns placed in 'Stony Mountain.' But their dash was irresistible and almost immediately the company was in possession of the German front trench and 'Dorchester,' but those who were opposite to 'Stony Mountain' were stopped by fire from that fort, all being killed or wounded."

The leading company was followed by bombing parties on the right and left flanks. Lieut. C. A. James, who was in charge of the right bombing party, was killed at the time of the explosion of the mine. Those who remained advanced without a leader."

(Continued on Page Seven)

## BRITISH WAR LOAN PROVING POPULAR

PATRIOTIC RESPONSE OF  
WHOLE NATION IS GREAT  
ENCOURAGEMENT.

London, July 13.—The total subscription to the war loan amounted to close on £600,000,000 (\$3,000,000,000), according to the statement made by Reginald McKenna, the Chancellor of the Exchequer, in the House of Commons today. The total number of subscribers through the Bank of England was 550,000, whose contributions aggregated £570,000,000 (\$2,850,000,000).

The subscriptions through the post office have not yet closed but up to date 547,000 persons have subscribed \$75,000, through this channel. No figures are available as to the number of small vouchers taken out."

Mr. McKenna in making the statement pointed out that the figure of £800,000,000 (\$4,000,000,000), mentioned in the newspapers neither was expected nor desired by the government. If that amount had been reached, he said, it would have been necessary to close the list."

"This gigantic total," continued Mr. McKenna, "represents only new money. It does not include any stock which will be issued for the purpose of conversion."

"This huge sum of nearly \$3,000,000,000—far and away the largest amount subscribed in the history of the world—has only been obtained by the patriotic response of the whole people. It is a declaration to our enemies and to our allies that this united government will prove faithful to its trust and to the cause of the Allies."

### "LA MARSEILLAISE."

Body of Late Composer Will Be Transferred.

Paris, July 13.—A great ceremony has been arranged for tomorrow, when the body of Claude Joseph Rouget de Lisle, the French captain who composed the "Marseillaise," will be transferred from its present resting place at Choisy-le-Roi to the Hotel des Invalides. President Poincaré, the members of the Cabinet, Senators, Deputies and other officials of the national government and of the Department of the Seine and the city of Paris, officers, soldiers, veterans and school children will march in procession from the Arch of Triumph to the Invalides, where a military parade will be held and the President will deliver an address. The diplomatic corps will also attend the function."

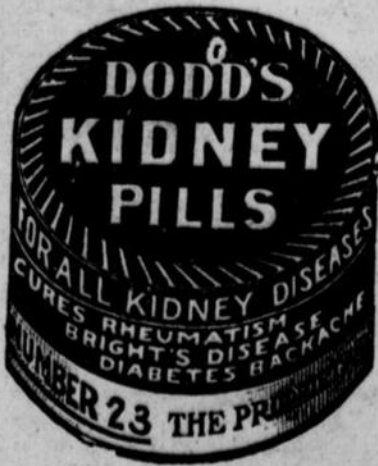

### FRENCH COURT-MARTIAL.

Clermont Ferrand, France, July 13, 4:40 p.m.—A court-martial has condemned three members of a commission which was charged with purchasing supplies for the army. They were accused of falsification of accounts."

M. Meuville, president of the commission, was sentenced to eight years in the penitentiary, M. Esteve, the registrar, to nine years, and M. Sanceime, the distorting officer, to five years."

### COLONEL CURRIE IS WELCOMED HOME.

Toronto, July 13.—Lieut.-Col. J. A. Currie, commanding the 48th Highlanders at the front, arrived home this evening. He was met at Leaside Junction by a civic deputation and escorted to the city. At the Union Station the City Council was present to receive him, together with officers of his own and other regiments, and Mayor Church read an address of welcome, to which Col. Currie replied briefly. At his home a deputation of the Gaelic Society presented a Gaelic address of welcome."

## BRITISH HAVE 440,000 MEN ON BATTLEFRONT

Lord Lansdowne Made Statement in Moving Second Reading of His Registration Bill.

### SINGLE MEN BACKWARD.

A Third of the Army Now Serving are Married Men—Single Men Must Rally.

London, July 13.—8 p.m.—"The six divisions of the British army that went to Europe at the very outset of the war have been followed by others, and yet others, and unless I am mistaken we have twenty-two or twenty-three divisions (approximately 420,000 to 440,000) at this moment in the European theatre."

Lord Lansdowne made this statement in moving the second reading of the National Registration Bill in the House of Lords this evening. He added that all the time, War Secretary Kitchener has been recruiting his armies and the stream of men has been flowing in volume, which was a matter of surprise to most people. The stream of equipment did not flow so satisfactorily, but prodigious efforts had been made to remedy the errors, and he was glad to think that those efforts had been attended with a considerable amount of success."

The bill, said Lord Lansdowne, was not intended to introduce compulsory service, but if compulsory service ever became necessary a national register would greatly assist in introducing it. As the duration of the war could not be predicted, it was impossible to say whether it can be brought to a successful conclusion without compulsion."

Lord Lansdowne expressed the opinion that the voluntary system with its present anomalies and injustices would not much longer be tolerated by the country. A third of the men now serving were married men."

"This," declared Lord Lansdowne, "is a terrifying proposition when you think of the number of unmarried men who have not yet joined the army."

## ART EXHIBITIONS REALIZED MUCH

OVER \$10,500 GIVEN TO PATRIOTIC FUND AT CLOSE OF TOUR.

Toronto, July 13.—As a result of the series of exhibitions of paintings by Canadian artists, given in behalf of the patriotic fund, the sum of \$10,514.28 has been handed over to Hon. W. T. White, Minister of Finance, and Treasurer of the Patriotic Fund this considerable sum having been realized from the sale of the pictures at the close of the exhibition tour."

### SCANDAL IN MONTREAL.

Application to Commit Mayor and Controllers for Contempt of Court.

Montreal, July 13.—An application for an order committing Mayor Martin and Controllers Cote and Hebert to appear before the Superior Court and show cause why they should not be committed to jail for contempt of court was taken under advisement today by Mr. Justice Panneton. The application was in consequence of the Mayor and Controllers Hebert and Cote voting an extension of the Montreal Tramways Company's franchise for thirty years, notwithstanding the service upon them of writs of injunction just before they voted. The hearing on the application for an injunction to restrain the Board of Control from forwarding to the City Council the board's report in favor of the Tramways extension was adjourned by consent until Thursday."

### MANY CATHOLICS IN ITALIAN ARMY.

Rome, July 13, via Paris.—According to a Vatican report there are now sixty thousand Italian ecclesiastics in the Italian army. They are engaged variously as chaplains, as Red Cross workers or as officers."

Cardinal Falconi, former Apostolic Delegate in the United States recently visited his ancient Franciscan monastery on San Antonio, where he found over a dozen fellow monks dressed in military uniforms and full of enthusiasm to go to the front."

### AVIATION SCHOOL LARGEST IN WORLD.

Toronto, July 13.—Twenty-seven pupils were today enrolled at the Curtis Aviation school, bringing the total number up to 95, and making the school the largest in the world."

## ITALY ALSO HAS FELT NEED OF MORE MUNITIONS

THOUGH WELL PREPARED  
EXPENDITURE IS GREATER  
THAN ESTIMATED.

Rome, July 13, via Paris, 4:50 p. m.—The question of supplying munitions is of first importance here and government and private factories are competing in the production of arms and ammunition needed for the army at the front."

Italy had ten months in which to prepare herself for the war and therefore started in good condition, but although two months have not yet passed since hostilities began the government already sees the necessity for multiplying the production of ammunition, owing to the immense amount of all kinds that is being expended."

All factories, both large and small, are being transformed for the manufacture of ammunition. The factories already taken over include those which previously manufactured bicycles, automobiles, elevators and lathes. What are needed most at the present time are lathes and lathe turners. The latter are needed even more than the former in view of the fact that the factories are working continuously with three alternating shifts of workmen. Factories which are unfit for the making of projectiles are being used for making lathes."

It has been suggested that all soldiers at the front who are capable and factory workers shall be sent home and also that the mechanical schools shall be used for teaching men how to make munitions. It is said that a month is sufficient to train men to be good lathe turners and that on an average it would be possible to instruct 800 men each month in this line of work, thus giving the government about 5,000 men in six months who would be making from five to six projectiles each, daily. This would increase the present production from 20,000 to 30,000 projectiles each day, without taking into account the increased production of the old and new factories."

## COAL MINERS MAY INAUGURATE STRIKE

BUT NEW MUNITIONS MEASURE MAY PROVIDE FOR PUNISHMENT.

London, July 13.—The Coal Miner's Union is the first to feel the potent power of the government created by the new munitions measure. The men's leaders protested before the passage of the bill that the miners should not be included in those subject to compulsory arbitration, and developments are awaited with the keenest interest, as upward of 156,000 miners are involved."

Mr. Runciman explained that the effect of the proclamation was to make a strike or lockout a heavily punishable offense unless the differences were referred to the Board of Trade for settlement by some method provided by the munitions act."

The executive committee of the Miners' Federation of Great Britain today decided to appeal to the South Wales miners to continue working until a satisfactory settlement was reached."

The committee also decided to recommend to all county associations that joint machinery should be set up between the owners and the workmen for settlement of all disputes that might arise in the industries."

A Cardiff despatch says that the Welsh colliery engineers and stokers have pledged themselves not to cease work in case of stoppage pending further negotiations."

### FIRE CAUSES BIG LOSS IN HAILEYBURY.

Haileybury, Ont., July 13.—Fire starting from unknown cause late this afternoon, destroyed the lumber yard of the Dunbar Lumber Company. The premises were situated near the T. and N. O. station here. The loss is estimated at \$22,500, partially covered by insurance."

This Will Remove  
Hair or Fuzzy Growths

(Toilet Tips.)

A safe, certain method for ridding the skin of ugly, hairy growths is as follows: Mix a paste with some powdered delatone and water, apply to hairy surface about 2 minutes, then rub off, wash the skin and the hairs are gone. This is entirely harmless and seldom requires repeating, but to avoid disappointment it is advisable to see that you get genuine delatone."

## CRUCIAL POINT BETWEEN GERMANY AND U.S. REACHED

Official Announcement Made That Wilson Will Confer With Cabinet.

### MUST NOT BACK DOWN.

Opinion Is That Americans Must Not Recede From Previously Announced Position.

Washington, July 13.—The first official announcement of the immediate plans of President Wilson for dealing with the situation which has arisen between Germany and the United States came tonight in a telegram from Cornish, N.H., to Secretary Tumulty, stating that the President would return to Washington soon to lay the entire subject before his cabinet. It indicated that the President had not yet arrived at a decision as to the policy of the government."

The statement set at rest reports that the President already had made up his mind on the German reply and that he did not view the situation as seriously as did high officials in Washington."

Official opinion here continued to regard the situation as grave. Secretary of State Lansing and other members of the cabinet who are here hold this view, but are giving no intimations of how they think the problem should be dealt with. Mr. Lansing and his assistants have been canvassing the entire field of law and policy presented by the German note, and the President already has received some of the memoranda bearing on important points."

So far as can be gathered here, the President will find his advisers practically unanimous in the belief that the crucial point in the correspondence with Germany over submarine warfare has arrived, and that if the American government is not to recede from its previously announced position on the principles involved, the next note must convey more or less pointedly the purposes of the United States in the event of further violations of American rights in the war zone."

## BALL-PLAYER TORE UP UNION JACK

OUTFIELDER OF THE GUELPH TEAM MUST FACE HEAD OF MILITARY DISTRICT.

St. Thomas, Ont., July 13.—W. A. Brown, an outfielder with the Guelph Canadian League team, who are playing here at present, has been summoned to appear before Col. Shannon, head of the London military district, to answer to a charge of tearing up a Union Jack and trampling the shreds under his feet. The offense, it is alleged, took place last night at the Grand Central Hotel. Brown, it is said, seizing a British flag from the hands of Gobby Auld, also of the Guelph club and destroying it. The police were summoned by proprietor McCoig of the hotel and Brown was routed out of bed and taken to police headquarters."

### MOUNT VESUVIUS IS ACTIVE ONCE MORE.

Naples, July 13.—Via Paris, July 14, 1:50 a.m.—The activity of Mount Vesuvius is becoming more marked. Prof. Malladra, director of the Royal Observatory on the volcano, today descended into the crater with three assistants to take photographs and make observations."

Prof. Malladra found the temperature of the lava at the edge of the crater to be 100 degrees centigrade. Thirty yards down the crater wall falling on the lava turned into steam and quickly evaporated. An electric pyrometer nearby registered 555 degrees centigrade. The heat scorched the feet of Prof. Malladra and his assistants, making it necessary for them to stand on asbestos mats."

The explosions were deafening and falling cinders burned the explorers slightly. At certain points the lava sprang up in jets a yard high, three inconspicuous fountains turning into large bubbles of white or gray gas. Below the observers was a subterranean lake of boiling lava, similar to those found in the Hawaiian Islands."

## BIG CONSERVATIVE RALLY IS HELD AT LOUISEVILLE

MASKINONGE EXTENDS HEARTY WELCOME TO  
HON. P. E. BLONDIN AND MR. P. COUSINEAU—  
ROAD POLICY AND SCANDALS CRITICIZED.

The people of the county of Maskinonge turned out en masse on Monday in honor of the district minister, Hon. Mr. Blondin, who was accompanied by Mr. Cousineau, M.L.A., Conservative leader at Quebec, and a number of other federal and provincial public men. The attendance numbered about one thousand, the demonstration having been organized by the Young Men's Conservative Association of Montreal and the party men of the county and district."

The features of the day were the address of the Minister of Inland Revenue, who has become a most effective platform speaker, and the provincial leader's declaration that the time had come in this province, if Quebec is not to lose her good name, to call a spade a spade."

Mr. Edward Dampousse, ex-mayor of St. Leon, first welcomed the minister and his friends. He was followed by Messrs. Antonio Leblanc, the head of the club, and Mr. J. E. Lafontaine, after which Mr. Philemon Cousineau was introduced, receiving an ovation. The leader at once plunged into a discussion of the questions of provincial policy, claiming that the road policy of the local government was wrong, and that the government should take charge of the chief roads, both as to construction and maintenance. He claimed that the government had blundered in the construction of the road from Montreal to Quebec, and the others were likely constructed in the same defective manner. No experienced engineer had ever gone over these routes, and consequently the construction had been bungled from beginning to end, resulting in a loss to the province and a badly-built highway in the end. Mr. Cousineau then severely censured the Canadian Senate for refusing to allow the Borden road policy to go through."

While Quebec would appreciate Sir Robert Borden's efforts to improve the roads of the province, he said, all would pray that the reformed Senate would make aid possible in a short time. He thanked Mr. Blondin for his presence, and said that the Conservative party at Quebec would work hand in hand with the same party at Ottawa. Mr. Cousineau then made an important announcement regarding the water powers of the province. It was, he said, high time that the question of government ownership, as is the case in Ontario, was at least studied, for he believed that there was a great deal in such a policy of placing the water powers in the hands of a commission, without, of course, interfering with vested rights. With the lowering of electric power for lighting or industrial purposes, power would be brought to the door of the agricultural population. This, he said, was a step towards securing full justice to that important part of the population, and one that must be considered as an early day."

The leader of the Opposition then referred to the scandal in Montreal and elsewhere, which were a discredit to the race to which they all belonged, and it did not make matters better by saying that there were scandals in Winnipeg and other provinces."

"All such scandals are to be deplored," he said, "but we are chiefly concerned with the fair name of Quebec and of the French-Canadian people, and until we show a clean sheet, none of us can point the finger of scorn at other provinces of the Confederation. Instead of Sir Lomer Gouin shedding crocodile tears over the French-Canadians of Ontario, he should first look after his own province."

The leader of the present Government had been recreant to his duty towards his compatriots. Mr. Cousineau said that if a commission were granted, he would show that in the building of the Bordeaux jail alone no less than \$1,500,000 had been stolen. "While this scandal exists at our very doors," said the leader, "it is useless for our opponents to cry 'Scandal in Manitoba.'"

### Hon. P. E. Blondin.

Hon. P. E. Blondin followed, dwelling on federal as well as local issues. He paid a tribute to both parties regarding their attitude on the present war, but it was the Conservative party, he said, that had conceived the idea of a federal union, and most of the great national undertakings since Confederation. Predicting that Mr. Philemon Cousineau would in the near future be head of the Quebec Government, a change which must take place before a proper regeneration of public life is accomplished. Mr. Blondin said it was necessary that the Government of Quebec should show high-minded patriotism, for it should be the guiding star for the French-Canadians of Ontario and other similar groups all over the Dominion. "If the Government of this province is dishonored, so is the race dishonored, and no one can deny this fact. As a matter of fact, our brethren all over the Dominion are right in asking us to be severe in all that we expect from the rulers of Quebec."

## MONTREAL CONGRESS OF EUCHARISTIC LEAGUE POPULAR

HIS EMINENCE CARDINAL BEGIN IS TENDERED A FORMAL WELCOME.

Montreal, July 13.—Notre Dame church was crowded tonight at the opening of the three days Canadian Congress of the Eucharistic League, although admission, was by ticket, and the gathering of Roman Catholic prelates, and priests, was the largest seen in Montreal since the noted International Eucharistic Congress a few years ago. His Eminence Cardinal Begin, of Quebec, was present, and was tendered a formal welcome. Archbishop Bruchesi is the active president of the Congress, which started out tonight with a special blessing from Pope Benedict XV. A sermon in French was delivered by Rev. Rene Labelle, S.S., pastor of Notre Dame church, and a sermon in English by Rev. Dr. Thomas F. Burke, of Newman Hall, Toronto."

Men are right in asking us to be severe in all that we expect from the rulers of Quebec."

Referring to federal politics, Hon. Mr. Blondin asked what Sir Wilfrid Laurier and his Ottawa friends had done for French Canada during the fifteen years they were in power. They were not only in power, supported by 58 out of the 65 members from this province, but they also had a sympathetic ally in power at Quebec, yet what had they done for the province?

What Quebec Received. "Let us approach this question in a calm spirit," said the minister, "but is it fair that while we do so much, the support should be lacking? For four years money and public works have been given with an unstinted hand to this province, and the electors should show themselves appreciative at the proper time."

Speaking of the hostility of the local Government, Mr. Blondin said he was sure that Sir Lomer Gouin would not turn a hand to help this province by co-operating with the efforts made at Ottawa, and he mentioned the refusal of the Senate to pass the Good Roads Bill of the Borden Government, adding that he was sure Sir Lomer Gouin would be the last man to help, even when he realized that his province would be benefited."

The minister then took up the war, and the patriotic stand which both parties had taken to further the efforts of the Allies on the battle fields of Flanders and France. A military power that for sixty years had been preparing to crush the world must be crushed in turn. "It is true," Mr. Blondin said, "that we have not a national government in name, but we have one in fact." Here the speaker quoted Hon. R. Lemieux in favor of the hearty co-operation of the Dominion, even if the same gentleman did talk in a different way on other occasions. The minister scored Hon. Mr. Caron for a remark that Canada would be overtaxed for her war efforts, and said the Quebec minister did not seem to realize that Sir Wilfrid Laurier was equally responsible for the war votes in the Canadian Parliament. Some persons, he said, were criticizing the Government for the changes in the tariff, but he quoted an approving article from Hon. Mr. Fielding as far more valuable than the opinions of Messrs. Gauthier and Demers. He showed the advantageous position of the Government in the shoe inquiry, and told how quickly the men had been equipped and clothed for the front. The shoes were so good that every country fighting with the Allies in Europe were giving large orders for boots in this country."

In conclusion, Mr. Blondin made a splendid appeal to stand by the Empire. "We are happy as a part of that Empire," he said, "and her prestige must not be allowed to suffer." He also referred to the stupid cries that were being made against conscription which some dishonest persons pretended is in existence."

Addresses were also delivered by Mr. Adelard Bellemare, M.P. for the county, J. A. Labissonniere, M.L.A., Arthur Sauve, M.L.A., J. A. Desy, of Three Rivers, Ed. Chasse and others."

Toronto, July 13.—Harry Belbin, 14 years old, while boating on Bond Lake this afternoon was drowned. He was attending a picnic of the People's Mission.

# GERMANY'S DEFIANCE

## OF AMERICA.

To those people who believed that Germany would see the deep error of her ways and would agree to amend them the latest note to Washington must be a profound disappointment. She disavows no act, she offers no reparation for the loss of American lives on the Lusitania, she gives no guarantee respecting the future such as President Wilson asked for. In short, Germany officially upholds the atrocious act of May 7th by which over one hundred American citizens lost their lives. So far from expressing regret for that infamous deed, she says in as many words that if the occasion arises she will do the same thing again.

The Lusitania was torpedoed on May 7th. One week later the Government of the United States sent its formal note calling Berlin's attention to the grave situation resulting from this violation of American rights on the high seas. It may be well to refresh the memory respecting the essence of this communication. The following clause summed up the expectations of the Government at Washington:

"It is confidently expected, therefore, that the imperial German government will disavow the acts of which the government of the United States complains, that they will make reparations so far as reparation is possible for injuries which are without measure, and that they will take immediate steps to prevent the recurrence of anything so obviously subversive of the principles of warfare for which the imperial German government have in the past so wisely and so firmly contended."

Following that statement of claim, the United States government declared that it would omit no word or act necessary to the performance of its sacred duty of maintaining the rights of the United States and its citizens and of safeguarding their free exercise and enjoyment.

The first German reply was a remarkable one. It was a statement of non-acceptance of the Lusitania being a belligerent vessel carrying soldiers and munitions, and therefore liable to destruction. President Wilson put the final quietus upon this line of argument by tersely telling Germany that the United States knew better, that the Lusitania was not an armed vessel, and did not carry troops. But, he plainly stated, even if that Germany said were true that would not justify the sinking of the ship. It would give Germany no excuse for destroying American lives. President Wilson thereupon reiterated the protest of the American nation and solemnly renewed the warning and the demands of the first note as quoted above.

Germany's mask is now off. She abandons the pleas for justification advanced in her second note and stands forth boldly and aggressively avowing and defending the foul act of her submarine. Reparation is apparently farthest from her thoughts. Instead of agreeing to prevent the recurrence of such an act, the Kaiser's government specifically states that it is unable to admit that American citizens can protect an enemy ship through the mere fact of their presence on board. In other words, non-combatant Americans on a non-combatant merchant ship shall die if Germany can catch such a ship and destroy it. That is Germany's answer to and defiance of the American nation.

True, Germany suggests artifices which would give to America the shadow while she retained the substance. But it is not possible that President Wilson or the people of the United States will accept such abbreviation as Germany desires to impose upon the unquestionable rights of American citizens under both international law and the broader law of humanity.

Where will the present situation lead? There has been a plain demand, accompanied by a warning of what would occur in the event of a refusal of that demand. The refusal has been presented; and with it an implied shouting of the warning America gave.

Is Germany deliberately seeking war with America? Many believe that she is. They argue along two lines. To have all the other powers of the world arrayed against her would provide the excuse for failure and thus save Germany's face, and perhaps, the Hohenzollern dynasty. The supply of American munitions might thus be turned off, the Republic requiring them for her own use, and Germany thinks that with fewer shells and guns in the Allies' hands she still would be able to win. On these points rests the contention that Germany deliberately seeks the intervention of America. Do these arguments stand close scrutiny? We think not.

In the event of war between United States and Germany the former could

render infinite assistance towards the latter's destruction. It does not follow that the munitions produced in the United States would be stored up for her own use. The United States can fear no invasion during the war. The States could at once organize its magnificent productive power and could take on if desired as her part in the war the continuous supplying of munitions. Let the word pass out from President Wilson that the Republic of the United States is at war with Germany over the murder of American citizens and we would see the vast manufacturing capacity of the States transformed instantaneously. Munitions and equipment would be forthcoming in unprecedented quantities. The doom of the outlaw nation would be finally sealed.

Is that what we are to expect? President Wilson will leave nothing undone to avert war. But we fully believe that he will not sit supinely under any single further unwarranted act of Germany's. If Germany does what she intimates she intends to do, that is, destroy American life when such destruction is necessary to secure the annihilation of a belligerent ship, war will follow.

Germany told why, in that event, war must follow, when, in this latest note to Washington, the Kaiser's government said:

"It is the sacred duty of the imperial government to do all within its power to protect and save the lives of German subjects. If the imperial government were derelict in these, its duty, it would be guilty before God and history for the violation of the principles of highest humanity which are the foundation of every national existence."

That exactly defines the grounds on which, if it must come, war will be declared by President Wilson upon Germany.

## THE LOYAL PUNJABI.

From the Punjab province of India come most of the Hindus who have settled in Canada, and it would naturally be in the Punjab that most of the disaffection results from this country's treatment of Hindu immigrants would be felt. No province of the Empire, however, has done more for the British Empire in the war than the same Punjab country, as the following extract from a speech of the Lieutenant-Governor in the Punjab Legislative Council on April 22 shows clearly:

"The average annual number of recruits for the Indian army is 15,000, of whom nearly one-half are raised in the Punjab. In the seven months from September 1 to April 1, 52,247—three and a half times the annual quota of new recruits—joined the colors, and of these the Punjab supplied 26,205, or more than half. Every class of our martial people responded to the call. . . . These figures speak for themselves. They are more eloquent than words. They furnish the supreme test and the final proof of the loyalty and devotion of the people of this province. . . . The heart of the Punjab is as sound now as in the great crisis of the mutiny. There is no other province in this great Indian Empire which is doing so much in the present struggle."

## GERMANIA.

Mr. Owen Wister, the well-known writer, in a very intelligent article, says that "Germany's mania is analogous to those mental epidemics of the Middle Ages, when fanaticism, usually religious, sent whole communities into various forms of madness."

Now this is the same situation as if on a small island one of the islanders, having gone insane, gathered together all the weapons he could and trained himself in the use of them, and suddenly attacked the other inhabitants of the island with the greatest fury. The other islanders, not being as well prepared for violence, would be at a disadvantage for some time, but there would hardly be any doubt of the ultimate end of the madman.

The sane nations in the world must subdue the mad nation. The thing must and will be done. But, as would be the case if an insane homicide were loose in a community, it will be some time before all the sane people in the world realize the seriousness of the case, and the absolute necessity of destroying or disarming the lunatic nation.

Imagine what the result would be if the madman on the island proved invincible and after slaughtering half the inhabitants, began to rule over those who were left. Imagine what this mad despotism would mean. If you can, and you will have an idea of what the victory of Germany over the rest of the world would mean.

There are many people who have not the habit of viewing things as they are and who deceive themselves. They have a kind of mental stigmatism and behold everything through a sort of haze which hides the real character of things from them. There are millions of these people in the world who have not yet been disturbed by the course of events because they have not seen things in

a clear light. The bloody instance of the Lusitania disturbed these good simpletons as a sudden flame of lightning might, and in the wink of illumination they saw things as they are, but when the quick blaze went out, their vision grew hazy again. There will come a time when these people will see things in their proper proportions. The day is fast coming when those who do not yet realize their danger will do so. For everybody is in danger from Germany, just as all the people in a community would be in peril if a lunatic with a loaded rifle ran at large.

## PRESS COMMENT.

### CAPTAIN PARSLAW.

His is the tale of a man who died In a British sailor's stubborn pride, Hate in his heart and a grip of steel In hands that clutched on a shattered wheel.

Built on the Royal Navy plan Was Captain Parslow—Merchant-man. He! bend his stiff old neck to bow? It seems that the man did not know how!

He took the wheel and he ordered flight, Cursing his stars that he could not fight. He'd save his ship, but he needs must run— God! how he longed for a five-inch gun!

Safe in harbor his ship now lies. Her flag half-mast for her Captain flies— It tells the tale of a man who died In a British sailor's stubborn pride!

O. C. A. CHILD.  
—From New York Times.

Public opinion in the United States has not been slow in recognizing that the German reply to the secretary of state's protest against the sinking of the Lusitania is a mere evasion of the grave questions it raised. With true German clumsiness the attempt to sugar the pill of refusal to comply with the demand that the rules of international law must be observed will only strengthen the President's determination to have the issue squarely met. As for the labored effort to show that Germany was forced into a war of defence and has been compelled to adopt a policy of frightfulness it is beneath contempt. The Kaiser and his ministers must be worse than stupid if they think nothing is known in the United States about the cause of the war and the nations responsible. This latest specimen of German arrogance simply adds insult to injury. By continuing to insist that the Lusitania was armed the German Government directly impugns the good faith of the United States officials and in effect charges them with wilful deceit. Even this will not change President Wilson's temper, which, we believe, under a velvet glove of courtesy, conceals a very settled purpose to vindicate the rights of neutrals on the sea. —Toronto World.

Some fight for glory, some because they enlisted without knowing what they would have to face, carried away by the enthusiasm of the moment, some because they are so young and hot blooded that they simply cannot stay out of a scrap, and some to whom we take off our hats,—because conscience urges them to supreme sacrifice. These last, we are pleased to believe, are in the vast majority, and it is through them that final victory will come. Such men know no surrender. They have dedicated their lives to a cause, and they will pay to the uttermost farthing. The writer had recently the privilege of meeting one of these quiet heroes. He was past middle age, his hair streaked with grey, but still, apparently, full of manly vigor, his face calm with the contentment of one who has chosen the better part, and rejoiced in the choice. Though of fine education and ample means, he had not sought a commission,—he was evidently content with the sergeant's stripes he wore. This man has but one son, a lad of sixteen, and unaffectedly he told how he had enrolled the lad in his corps, as a bugler—"We thought it best to take our chance together," he said, very simply. "No man enlisting should expect to come back," he remarked, "if he does, so much to the good, that is all." It is a spirit like this that ennobles even war. It is the spirit of the earlier crusader, the spirit of men who fight for a cause to them sacred, the spirit that wins.—A. T. T. in Military Gazette.

O Canada

God Save the King.

Conductor

CHAS. O'NEILL, Mus. Bac., Lieut. R.C.H.

Bandmaster R.C.G.A.

On Friday Evening, Weather Permitting, there will be a programme of Irish music.

## GOOD FISHING AT THE GRAND DISCHARGE.

Mr. Lee, of Philadelphia, has just returned from fishing the waters of the Grand Discharge. The Grand Discharge has been closed to fishing for the past few years owing to the lease held by the late H. J. Beemer. Now, however, the lease has lapsed and the waters are again open to fishing which is at its best at the present time. Seventeen fish in three hours, and the largest 6 1/4 pounds is Mr. Lee's record. Some years ago Mr. Beemer stocked the waters of Lake St. John with salmon and this season several very large Ouananiche have already been taken at the head waters of the discharge of Lake St. John.

Mr. J. Morel caught a salmon weighing 11 pounds.

Mr. Rowley, of Lake Edward, has arranged for several parties to fish these waters before the opening of the hunting season.

Dr. Watson and family are at present summering at his cottages on Watson Island, Lake St. John.

Mrs. Cabot and Miss Weeks have returned from a canoe trip from Lake St. John to Chicoutimi.

Miss Abbot and Miss Oswald have left today to fish the Metabetchouan and from there they will canoe to Chicoutimi.

## FUNERAL OF LATE MRS. P. B. DUMOULIN

The funeral of the late Dame Marie Louise Taschereau, wife of Mr. P. B. Dumoulin, Manager of the Molson's Bank, was held yesterday morning from the home of the deceased's husband to the Basilica and Belmont Cemetery.

A long and representative cortege followed the remains and in the funeral train the different banks were represented by their respective managers. The chief mourners were Mr. P. B. Dumoulin, husband of the deceased; Mr. Jacques Dumoulin, her son; Hon. Judge Cannon, Hon. L. A. Taschereau, Ald. L. A. Cannon, Mr. Lucien Cannon, M.L.A., Mr. Lionel Cannon, N.P., Hon. Judge Lavergne, Mr. Armand Lavergne, M.L.A., Deputy Recorder Desrivieres, Mr. Henri Desrivieres, Mr. Leon Desrivieres, Dr. Tancred Fortier, of Beauce, Mr. Allyn Taschereau, Mr. Ed. Taschereau and others.

The hearse was preceded by a special carriage bearing the many beautiful floral offerings which were received by the family as tokens of sympathy. Revd. Canon Lindsay officiated at the "Levee du corps" while the service was chanted by Revd. Walter Cannon, a relative of the deceased, assisted by Abbes Allaire and Labrecque, as deacon and subdeacon. A large number of members of the clergy assisted at the service in the sanctuary.

During the service solos were rendered by Messrs. Moise Raymond and Arthur Gagne.

A large number of vehicles followed the remains to the Cemetery where the interment took place.

## CARDINAL BEGIN AT LEVIS MONASTERY

HIS EMINENCE PRESIDES OVER BLESSING OF RELIGIOUS INSTITUTION THERE.

His Eminence Cardinal Begin went to Levis yesterday to preside over the blessing of the Monastery of the Precious Blood.

A Grand Mass was solemnized at 8.00 o'clock and His Eminence occupied the throne, attended by Reverend Canon Gagne and Abbes St. Germain and Hunt.

The Mass was chanted by Mgr. Gosselin, pastor of Notre Dame, assisted by Rev. Abbes Lamothe and O. Guay. Rev. Abbe Lavergne delivered the sermon for the occasion.

His Eminence accompanied by His Grace, Mgr. P. E. Roy, left yesterday afternoon for Montreal, to attend the opening of the Canadian Eucharistic Congress.

## BEAULIEU'S BODY IS PICKED UP

REMAINS OF MAIL CONDUCTOR DROWNED OFF STEAMER PILOT RECOVERED.

The body of Joseph Beaulieu, the mail conductor, who was drowned last week by falling from the Steamer Pilot was recovered yesterday morning having been found floating on the north side of the Island of Orleans by Captain William Allison of the tug Frasierville.

Immediately after the discovery the body was brought to this city and transferred to Moisan's Morgue where an inquest will be held this morning.

## THANKS EXPRESSED FOR TOBACCO GIFTS.

Hon. T. Chase Casgrain Receives Cablegram from Overseas Club.

The Hon. T. Chase Casgrain, Postmaster-General has received the following cablegram from England:—

London, July 7th, 1915

T. Chase Casgrain, Postmaster-General, Ottawa.

I have been instructed by the General Committee of the Overseas Club to express their warmest gratitude for the generous co-operation of your country in sending tobacco to the Canadian troops.

(Signed) FRENCH, Hon. Secretary.

## PICNIC OF PICNICS.

The Annual Outing of the Quebec Shipbuilders on Friday July 23rd.

Friday, July 23rd, has been decided upon for the Annual picnic of the Quebec Shipbuilders Benevolent Society an event which is always looked forward to with delight by all who would take an opportunity to forsake city life for one day to enjoy a day in the country where boating, fishing, sports and recreation of every kind may either be participated in or witnessed.

St. Catharines grove on the line of the Q. &amp; L. St. John will be chosen as usual, this beautiful spot with its easy access to the waters of Lake St. Joseph needs no recommendation. A brass band will accompany the picnic train and will provide a select programme for the afternoon.

The dining booth and refreshment booths, as in the past, will be attended to by the committee named for that purpose by the Society. This fact, in itself, is an assurance of the thoroughness and efficiency of the service prepared for those attending. It is generally known that the Shipbuilders' picnic has gained for itself the reputation of always being the largest of the season.

The proceeds of the event this year will be donated to the Canadian Patriotic Fund, so that those attending will not only derive personal enjoyment out of the picnic but will also be contributing to a cause, the worthiness of which is unquestionable.

The committee in charge of the arrangements have been more than pleased with the generous response thus far to their efforts to secure suitable prizes for the various events on the programme of sports which will be an extensive one.

## STEAMER ARRIVALS.

New York: Rochambeau, Bordeaux.

Boston: Celtic, Genoa.

Liverpool: Saxonia, New York.

Copenhagen: Frederick VIII, New York.

Genoa: Perugia, New York.

## MONTREAL GETS McHALE.

New York, July 13.—Three players of the New York American League team have been released to clubs in the International League, it was announced by the club here tonight. Pitcher Martin McHale was sent to Montreal, Pitcher Ensign Cottrell, to Richmond, Va., and Peter Daley, an outfielder, to Toronto.

## QUEBEC NOTARIES ELECT OFFICERS

MEETING HELD AT THE QUEBEC COURT HOUSE YESTERDAY MORNING.

The Board of Notaries of the Province of Quebec met at the Quebec Court House yesterday morning when the election of officers for the next term of three years was held, resulting as follows:—

President—Mr. F. A. Labelle, of Hull.

Vice-President—Mr. Camille Paquet, of Montreal.

Directors—Mr. H. Octave Roy, Quebec; Mr. J. B. Delage, Quebec; Mr. Edouard Biron, Montreal; Mr. Victor Morin, Montreal.

The examinations for admission to practice and study the notarial profession began yesterday afternoon. There is a large number of candidates.

## MARTIN DELANEY MAY RETURN HOME

YOUNG QUEBECER WAS WOUNDED THREE TIMES—IS NOW IN ENGLAND.

Martin Delaney, who went to the front with the First Canadian Contingent as a member of the Highland Brigade, has written in his sister, stating that he has just undergone a serious operation in a hospital in Chatham, Eng., but is recovering rapidly. He also states that there is little likelihood of being ordered back to duty and expects to be invalided home after his discharge from hospital.

As already reported in these columns, young Delaney, who is a well-known Quebec boy, and a prominent figure in athletic circles, being actively connected with the Emmet A. A., was wounded three times, besides suffering from the effects of poisonous gases used by the Germans. Though wounded in the knee, he simply bandaged up the injured member and went back into the trenches, the result being that blood poison set in, necessitating the operation above referred to, which it appears has proved successful, though the brave young soldier will likely be unable to resume active service.

## FIRE AT LA TUQUE.

English Church and Rectory Had a Narrow Escape.

La Tuque, Que., July 12.—About three o'clock this morning a fire started in the garage owned by Mr. Omer Giguere, completely destroying it and a valuable Russell Touring Car in it. The flames quickly spread to the adjoining buildings, on one side a three-tenement house, owned by Mr. Oscar Fontaine, from which some of the occupants escaped in their night clothes and which was almost totally destroyed, on the other side was Mr. Joseph Lafleur's stable, which held several race horses. The horses were all saved but the stable was reduced to ashes. Only a good pressure of water and the good work of the volunteer firemen saved the English Church and Rectory, which stand right behind the burned buildings. No information could be got as to insurance.

## How Thin People Can Get Fat

Increase in Weight Ten Pounds or More.

A Physician's Advice.

"I'd certainly give most anything to be able to eat a few pounds and stay that way," declares every excessively thin man or woman. Such a result is not impossible, despite past failures. Thin people are victims of malnutrition, a condition which prevents the fatty elements of food from being taken up by the blood as they are when the powers of nutrition are normal. Instead of getting into the blood, all the fat and flesh producing elements stay in the intestines until they pass from the body as waste.

To correct this condition, and to produce a healthy normal amount of fat the nutritive processes must be artificially supplied with the power which nature has denied them. This can best be accomplished by eating a Sargol tablet with every meal. Sargol is a scientific combination of six of the best strength-giving, fat-producing elements known to the medical profession. Taken with meals, it mixes with the food and turns the sugars and starches into rich, ripe nourishment for the tissues and blood and its rapid effect is remarkable. Reported gains of from ten to twenty five pounds in a single month are by no means infrequent. Yet its action is perfectly natural and absolutely harmless. Sargol is sold by good druggists everywhere and every package contains a guarantee of weight or money back.

Caution.—While Sargol has produced remarkable results in the treatment of nervous indigestion and general stomach disorders, it should not, owing to its remarkable flesh-producing effect, be used by those who are not willing to increase their weight ten pounds or more.

## FOR THE SUMMER DAYS

## FOUR TRAWLERS ARE SUNK BY SUBMARINE

Lowestoft, Eng., July 13.—The crews of four Lowestoft trawlers, the Woodbine, the Purple Heather, the Speedwell and the Merlin, which were sunk by a German submarine, have been landed here. The crew of the Speedwell came in on the crawler Emerald, which was attacked by a submarine and was abandoned but did not sink. After leaving their own vessel the crew of the Speedwell sighted the Emerald and, boarding her, brought her to port.

BY-LAW No. 10.

Concerning the Assessment of Assessable Property, in the City of Quebec, and to amend By-law No. 2-B, Concerning the School Tax.

(Drawn up in the French Language.)

At a meeting of the Municipal Council of the City of Quebec, held at the City Hall, in the said City of Quebec, on the twenty-third day of April, one thousand nine hundred and fifteen (1915), in conformity to law and in virtue of a By-law passed by this Council pursuant thereto, and after the due observance of all the formalities prescribed by the statute in such case made and provided, at which meeting were present two-thirds of the members composing the Council of the City of Quebec, that is to say: His Worship the Mayor Aldermen Bouchard, Cannon, Cote, Dinan, Dussault, Emond, Galibou, Garant, Gauvin, Lantier, Lavigne, Lockwell, Madden, Martini, Paquet (B), Verret, Walling.

It is hereby ordained and enacted by the Municipal Council of the City of Quebec as follows, to wit:

1. Article 5 of the By-law No. 2-B, is replaced by the following:

"A tax of three tenths (3-10) of one per cent of the real value annually assessed upon immovable property belonging to proprietors of the Roman Catholic faith in this City is hereby imposed and shall be levied upon the said immovable property, in order to collect the sums payable each year by the City of Quebec, to the Board of Catholic School Commissioners for the maintenance of the Catholic school in this city, in conformity with the law."

A tax of four tenths (4-10) of one per cent of the real value annually assessed upon immovable property belonging to proprietors of the Protestant faith in this City, is hereby imposed and shall be levied upon the said immovable property, in order to collect the sums payable, each year by the City of Quebec, to the Board of Protestant School Commissioners for the maintenance of Protestant schools in this City, in conformity with the law."

Attested, L. S.  
NAP. DROUIN,  
Mayor.

BY-LAW NO. 24 B.

By Law to Amend a By-law concerning the Construction of Certain Buildings and Precautions to be Taken Against Fire.

(Drawn up in the French Language.)  
At a meeting of the Municipal Council of the City of Quebec, held on the 30th day of April, 1915, the following by-law was read for the first time.

It is ordained and enacted by the Municipal Council of the City of Quebec and the said Council do hereby ordain and enact as follows:

1. Article 6 of By-law No. 24 passed by the Council of the City of Quebec on the 9th of August 1912 is hereby repealed and replaced by the following:

"9". It is forbidden to keep in the City of Quebec the fluid designated under the name of gasoline, or other fluid of a similar composition, in any other way than in underground iron or metal tank, subject to the approbation of the City Engineer, who shall deliver the required permit after having obtained a receipt from the City Treasurer, attesting that an amount of ten dollars has been paid to him.

2. The present by-law is enacted as forming part of by-law No. 24 and amending it.

PUBLIC NOTICE.

Is hereby given that, in conformity to the provisions of law, the above by-law will be read a second time and submitted for adoption on Friday, the 7th of May instant, 1915.

By Order,

H. J. J. CHOUINARD,  
City Clerk.

MANY GOLFERS ENTER

BIG TOURNAMENT.

Chicago, July 13.—Entries for the western amateur golf championship tournament to be held at the Mayfield Country Club, Cleveland, July 19-24, closed tonight with 153 players listed for the qualifying rounds. Nearly all the prominent players of the Western Golf Association, including Chick Evans, present champion, and three winners of the title since 1909, entered. Three Toronto players have entered, namely: George Lamb, several times champion of Canada; W. S. Greening, and F. W. Banner.

## Latest Sporting News

### HANK O'DAY TELLS OF UMPIRE'S TRIALS

VETERAN RULER OF THE DIAMOND SPEAKS OF HIS WORK.

Boston, July 12.—"My face may appear grumpy and crabbed, but the dear public does not know how to analyze an umpire's face."

Hank O'Day, dean of baseball umpires, is the author of this statement.

"A man may have the mobile and general features of a schoolboy," continued Hank, "but after he has squinted through a mask for a quarter of a century his features are bound to take on the look of a troubled man. In an average game an umpire makes about 300 decisions. In seventy-seven games of a season he must make about 23,100 decisions."

"When you have stood there in the sun judging balls that come with blinding speed or with tantalizing curve or slowness, it isn't any wonder that in twenty-five years a man's face will become contorted with an anxious and sullen look. The strain of it will alter an umpire's facial characteristics, but not his disposition, if he is the right kind of a man."

### Sporting Notes

The Young Victorias have accepted the challenge of the Young Tigers for a ball game Sunday next. Yesterday their note was made to read that they accepted the challenge of the Young C. B.'s which is not the case, though they are prepared to meet the latter team in the near future.

A new club has entered into the baseball arena. The Joffre baseball club is its title and this organization would be pleased to play against Neuville, St. Basile, Portneuf, or Pont Rouge next Sunday. They will make the trip to the town whose team is first to reply to their challenge. Communications should be addressed to E. Talbot, 251 Prince Edward street.

Sunday last the Laval club were short; the services of several players in Levis, the Naps defeating them easily. Cusson, Racine, Savard, Bastien and Martineau were the absentees. The jinx still follows the club for Duchesneau is now out of the game due to a strain received in the second inning of the last game.

Eddie Plank held Chicago Federal to three hits for twelve innings yesterday and yet lost his game 2-0, though St. Louis garnered nine hits during the elongated pastime.

Patricias vs. St. Patrick's and C. B. vs. Laval are the games on next Sunday's card at the Exhibition grounds.

It is probably that a match between Tommy Buck and Knockout Eggers may be arranged shortly.

The addition of Miller to the Patricias will greatly boost their stock. No longer may the teams go up against the speedy Laurin feeling that if they miss the catcher will miss too. When a Patricia man falls asleep Miller whizzes the ball at him and in this manner the team is kept on its toes as much as possible.

Campagna and Chappel form the battery for the Plessisville team under the distinguished "mons de baseball" of Pierre and Bruneau. The St. Patrick's pitcher is a regular idol with the Plessisville fans and has not yet lost a game.

Victor Gendron has secured his release from Patricias and is now a free agent.

The city league is becoming noted for left-handed throwers. Emmets have West-Calkins. St. Patrick's have Campagna, Carson, Kirkwood; Laval has Tower, C. B.'s have E. Latulippe, Gauthier, Tremblay, Patricias Laurin.

Popular Pastime, No. 148.—Losing a baseball pool by one run.

PROBABLE STARTERS FOR SUBURBAN HANDICAP.

New York, July 13.—Out of thirty-two entries eleven horses are carded to start in the classic Suburban Handicap at one mile and a quarter, tomorrow. The race this year will be run over the Belmont Park track under the auspices of the Empire City Racing Association as it was two years ago when H. P. Whitney's Whisk Broom II, carrying 139 pounds with Jockey Joe Notter riding won, establishing a record of two minutes flat.

Last year this event, always a prominent feature of the eastern racing season, was not run but the late closing of this year's stake enabled western and eastern horse owners to nominate the very pick of the best handicappers in training.

Following are the probable starters for the stake which has guaranteed value of \$5,000: Borrow, 126; Stromboli, 122; Buckhorn, 117; Dodge, 115; each; Sharpshooter, 105; Addie M., Tartar, Gainer and Norse Kinz, 103; Sam Jackson, 100 and Top Hat, 95.

### CHARLEY WHITE WAS SURPRISED

YOUNG SAYLOR BESTED HIM IN SOME ROUNDS THOUGH DECISION A DRAW.

Boston, July 13.—Charley White, the Chicago contender for the lightweight title, and Milburn "Young" Saylor, of Indianapolis, boxed 12 rounds to a draw tonight. Many of those who saw the battle gave it as their opinion that Saylor had the better of White in a majority of rounds.

## How to Prevent Acid Stomachs and Food Fermentation

Stomach Specialist.

As a specialist who has spent many years in the study and treatment of stomach troubles, I have been forced to the conclusion that most people who complain of stomach trouble possess stomachs that are absolutely healthy and normal. The real trouble, that which causes all the pain and difficulty, is excessive acid in the stomach, aggravated by food fermentation. Hyperacidity irritates the delicate lining of the stomach and food fermentation causes wind which distends the stomach abnormally causing that full bloated feeling. Thus both acid and fermentation interfere with and retard the process of digestion. The stomach is usually healthy and normal, but irritated almost past endurance by these foreign elements—acid and wind. In all such cases—and they comprise over 90 per cent. of all stomach difficulties—the first and only step necessary is to neutralize the acid and stop the fermentation by taking in a little warm or cold water immediately after eating, from one to two teaspoonfuls of bisaturated magnesia, which is doubtless the best and only really effective antacid and food corrective known. The acid will be neutralized and the fermentation stopped almost instantly, and your stomach will at once proceed to digest the food in a healthy, normal manner. Be sure to ask your druggist for the bisaturated magnesia, as I have found other forms utterly lacking in its peculiarly valuable properties.—F. J. G.

## LA BANQUE NATIONALE

On and after Monday, the 2nd of August next, this Bank will pay to its shareholders a dividend of two per cent., being at the rate of eight per cent. per annum, upon its capital, for the quarter ending on the 31st of July next.

This dividend will be paid according to the list of shareholders of record on the 16th of July next.

By order of the Board of Directors,  
N. LAVOIE,  
General Manager.  
Quebec, June 15th, 1915.

## FAMOUS "SPOILERS" WED. AND THUR.

WORLD'S GREATEST MOTION PICTURE TO INTEREST QUEBECERS.

Frank Clark as Dexter.

After weeks of waiting we got it—no left no stone turned, spared no effort in our quest for a world renowned photograph—something extraordinary in moving pictures. This famous picture "The Spoilers," will be shown at the Grand Allee Gardens two days only, Wednesday and Thursday and at standard prices. To appreciate this great play you should be in time for the starting which will be at 8.15. The play will continue from 8.15 until 10.30. Human nature is the same the world over. Everyone is anxious to see a great picture. The visualization of Rex Beach's wonderful romance of Alaska by Selig is by far the greatest production ever offered to the public. "The Spoilers" is accorded even a greater welcome in Canada than in the States. When one considers that this picture cost 700,000 dollars to produce, contains nine reels and three acts and holds the audience throughout it is worth seeing at the prices offered. It is powerful in progression from start to finish. This famous film has created a furore in all American cities where shown.

You can always see good pictures at the Gardens, and good vaudeville at our other theatres six days in a week, but you may not possibly ever get the chance to see such a picture as "The Spoilers," which will be shown here Wednesday and Thursday.

Box Seats and Gallery Seats can be reserved in advance.

**AMATEURS TONIGHT AT THE AUDITORIUM.**

A Great Variety of Acts Already for Both Contests.

Amateurs? There are more than a dozen booked for tonight, at the Auditorium and the show they will present will be something worth seeing. There is a great variety in the acts already billed and a good many will come today so that this performance alone will be worth the price of admission.

Comedians are prominent on the bill; there are also very good musicians, for instance the Sweet Players Company composed of three pieces, mandolin, guitar and mandol. Leo Tougas, mouth organ and violin; a drummer who is at the same time a fair singer, some whistling wonders and dancers. Acrobats will also appear and make a strong fight for the prizes.

The performance will start at 7.30 by the pictures to be followed by the regular 5 acts of vaudeville, and then the amateurs. And the management has in store a very agreeable surprise for their patrons at this first performance.

**Chaplin Night Tomorrow.**

Tomorrow night will be the impersonators of Charlie Chaplin's turn. A good many have already entered the contest and pretend to have a fair claim to the \$25.00 prize offered to the best imitator of the famous comedian, the king of the moving picture comedians.

Like tonight's performance will commence by the moving pictures. The regular vaudeville acts will follow and then the amateurs. The prices will be the same as usual: 10, 15 and 25 cents.

**CHAPLIN TODAY AND TOMORROW.**

And the Olympia has With Him Two Other Features.

To announce Chaplin should be enough to crowd any picture house and the Olympia Theatre has with this wonderful comedian tonight two other subjects that will also be presented tomorrow.

Hounds of Paskerville is one of them and it is a film that the lovers of fine pictures shouldn't miss as the critics have pronounced it at least as good as "More Than Queen" which the patrons of the Olympia praised so much yesterday and Monday.

Pathe News is another subject that the theatre seldom advertises in the newspapers but is worth a good many of the features shown in the best houses as it illustrates and thereby gives full details of events people read about.

## THRILLING ACCOUNT OF EXPLOITS BY CANADIANS

(Continued from Page Three)

Lieut. G. N. Gordon, in charge of the bomb party on the left, advanced in the direction of "Stony Mountain," but his bombers were almost all shot down. A few reached the first line trench, including Lieut. Gordon. He was soon wounded and was afterwards killed by a German bomb party while lying in the German first line trench, with two other comrades who had exhausted their supply of bombs. They were almost the only survivors of the bombing party.

The second company under Captain G. L. Wilkinson at once followed the leading company and the bombers, and both parties charged forward to the second line trench, where the enemy presented a firm front, although stragglers were retreating through the tall grass in the rear. The bombers went to work from right to left to clear the trench. Many resisting Germans were bayoneted, and some prisoners were taken and sent back and later, together with some of their escort, were killed by machine gun and rifle fire from "Stony Mountain" itself.

Captain Wilkinson's company was followed almost immediately by the third company under Lieut. T. C. Sims, as the other company officers, Captain F. W. Robinson and Lieut. P. W. Pick had been killed by a shell at the moment our mine blew up.

**Sergeant-Major Leads.**

This company began to consolidate the first line German trench which had been captured, that is to say, reverse the sandbag parapet and turn the trench facing enemy-wards. It had suffered heavily in its advance across the open space between the opposing lines and Captain Delamere's company was the fourth sent forward. Captain Delamere had been wounded and the command devolved on Lieut. J. C. L. Young, who was wounded at our parapet. Lieut. Tranter, who took command, was killed in a moment. Company Sergeant-Major Owen then assumed command, and led the company with bravery and good sense.

Lieut. F. W. Campbell, with two machine guns, had advanced in the rear of Captain Wilkinson's company. The entire crew of one gun was killed or wounded in the advance, but a portion of the other crew gained the enemy's front trench and then advanced along the trench in the direction of "Stony Mountain." The advance was most difficult, and although subjected to constant heavy rifle and machine gun fire, the bombers led the way until further advance was impossible, owing to a barricade across the trench which had been hurriedly erected by the enemy.

**Rifle Superseded.**  
The bomb and the machine gun carry the brunt of the day's work more and more as time goes on till one almost begins to think that the rifle may be superseded by the shot-gun.

**Lumber-Jack's Prowess.**

The machine gun crew which reached the trench was reduced to Lieut. Campbell and Private Vincent, a lumber-jack from Bracebridge, Ont., the machine gun, and the tripod. In default of a base Lieut. Campbell set up the machine gun on the broad back of Private Vincent and fired continuously. Afterwards, during the retreat German bombers entered the trench and Lieut. Campbell fell wounded. Private Vincent then cut away the cartridge belt and, abandoning the tripod, dragged the gun away to safety because it was too hot to handle.

Lieut. Campbell crawled out of the enemy's trench and was carried into our trench in a dying condition by Company Sergeant-Major Owen from Woodstock, Ont. In the words of Kingslake "and no man died that night with more glory, yet many died and there was much glory."

The working parties detailed for the construction of the line adjoining our trenches with the hostile line which had been captured, moved out according to arrangement, but the heavy machine gun fire from "Stony Mountain," forced them back to the cover of our trench and all further attempts to continue work while daylight lasted came to nothing.

The efforts of the battalion were now confined to erecting barricades just south of "Stony Mountain" and north of "Dorchester," and to holding the second line of trench. The supply of bombs ran short and Private Smith, of Southampton, Ont., son of a Methodist minister, and not much more than nineteen, was almost the only source of replenishment. He was, till Armageddon, a student at the Listowel Business College.

**Private Smith's Bravery.**

History relates he was singing the trench version of I Wonder How the Old Folks are at Home, when the mine exploded and he was buried. By the time he had dug himself out, he discovered that all his world, including his rifle, had disappeared. But his business training told him that there was an active demand for bombs for the German trenches a few score yards away. So Private Smith fashioned himself with bombs from the dead and wounded bomb throwers around him, and set out, mainly on all fours, to supply that demand. He did it five times. He was not himself a bomb thrower, but a mere middleman.

Twice he went up to the trenches and handed over his load to the busy men. Thrice, so hot was the fire that he had to lie down and toss the bombs (they do not explode until the safety pin is withdrawn) into the trench to the men who needed them most. His clothes were literally shot into rags and ravelled but he himself was untouched and he explains his escape by saying, "Oh, I kept moving."

**Wept With Rage.**

So through all these hells the spirit of man endured and rejoiced indomitably. After all, the supply of bombs ran out and the casualties resulting from heavy machine gun and rifle fire from "Stony Mountain" continued.

considerably increased the difficulties of holding the line. The bombers could fight no more. One unknown man was wounded standing on the parapet of the German front line trench; he had thrown every bomb he carried, and, withering with rage, continued to hurl bricks and stones at the enemy until his end came. Every effort was made to clear out the wounded and reinforcements for the Third Battalion were sent forward but still no work could be done and a further supply of bombs was not yet available.

Bombs were absolutely necessary. At one point four volunteers who went to get more were killed, one after the other, upon which Sergeant Kranz, of London, Eng., by way of Vermilion, Alta., and at one time a private in the Argyll and Sutherland regiments, went back and fortunately returned with a load. He was followed by Sgt. Newell, a cheese maker from Watford, near Sarnia, and Sgt.-Major Cuddy, a druggist from Strathroy.

**Officers All Lost.**

Gradually our men in the second German line were forced back along the German communication trench, and the loss of practically all our officers hampered the fight. The volunteers who were bringing forward the supply of bombs were nearly all killed and the supply died out with them. The British division had been unable to advance on the left, owing to the strength of the fortified position at "Stony Mountain" and the German line north of that fort. The Canadians held their ground, however, hoping for the ultimate success of the attack on the left in the face of heavy pressure on their exposed left flank.

**Forced to Retire.**

The enemy meanwhile had been accumulating strong forces and finally at about half-past nine the remnants of the battalion were forced to evacuate all the ground that had been gained. The withdrawal was conducted with deliberation through a hail of bullets, but it cost us heavily. One splendid incident amongst many

may perhaps explain the reason.

Private Gledhill is eighteen years of age. His grandfather owns a woollen mill in Ben Miller, near Goderich, Ont. Ben Miller was till lately celebrated as the home of the fastest man in the world, for there lived Mr. Jonathan Miller, who weighed 400 pounds, and moved about in a special carriage of his own. Private Gledhill destined perhaps, to confer fresh fame on Ben Miller, saw German advancing down the trench, saw also that only three Canadians were left in the trench, two with a machine gun and himself, as he said "running a rifle."

**Gledhill's Gallantry.**

Before he had time to observe more an invader's bomb most literally gave him a lift and landed him unharmed outside the trench with his rifle broken. He found another rifle and fired a while from the knee until it became necessary to join the retreat. During that manoeuvre, which required caution, he fell over Lieut. Brown, and offered to convey him home.

"Thanks, no," said the Lieutenant, "I can crawl."

Private Frank Ullock, late a livery stable keeper at Chatham, N.B., and now with one leg missing, said, "Will you take me?"

"Sure," replied Gledhill, but Frank Ullock is a heavy man and could not well be lifted, so Gledhill got down on his hands and knees, and Ullock took good hold of his Web equipment and was hauled gingerly along the ground towards the home trench. Presently Gledhill left Ullock under some cover while he crawled forward, cut a strand of wire from our entanglements and threw the loop back lasso-fashion to Ullock, who wrapped it around his body. Gledhill then hauled him to the parapet where the stretcher bearers came out and took charge.

All this, of course, from first to last and at every place, occurred under heavy fire. It is pleasant to think that Frank Ullock is now under charge of Dr. Murray McLaren also of New Brunswick, who watches over him with

tender care in a hospital under canvas, of 1,080 beds; a hospital that is larger than the General, the Royal Victoria, and the Western of Montreal combined. Gledhill was not touched and in spite of his experience prefers life at the front to work in his grandfather's woollen mills at Ben Miller, near Goderich.

Out of twenty-three combatant officers who went into action only three missed death or wounds, they are Col. Hill, who fought his men to the bitter end with high judgment and courage, Lieut. S. A. Creighton and Lieut. T. C. Simms.

**Celebrated Dominion Day.**

Dominion Day, after several days of heavy artillery fire, our troops were relieved and the headquarters moved to the north. Here a trench line was taken over from a British division, and here for the present we must leave them. When Dominion Day came they remembered with pride that they were the army of a nation and those who were in the trenches displayed the Dominion flag decorated with the flowers of France, to the annoyance of barbarians who riddled it with bullets. Behind the lines the day was celebrated with sports and games while the pipers of the Scottish-Canadian battalions played a selection of national airs. But the shouting baseball teams and minstrel shows with their outrageous personal allusions, the skirl of the pipes, and the choruses of the well-known ragtimes, moved the men to the depth of their souls, for this is the first Dominion Day that Canada has spent with the red sword in her hand.

## VESSEL IN PORT ON MAIDEN VOYAGE

S. B. INTERNATIONAL BRINGS  
2,000 TONS COAL FOR NOVA  
SCOTIA COMPANY.

The International of the Atlantic Steamship Company, of New York, arrived in port yesterday afternoon, on her maiden voyage from Erie, Pa., with 2,000 tons of coal for the Nova Scotia Coal Company. The vessel which left the dock at Detroit on July 6th, after being completed by the shipbuilders, has a net tonnage of 1,146, a 43-ft. beam, and is 270 feet long, and is splendidly finished in every detail.

Captain Joseph R. Acton, of the International, has with him most of the crew of the Georgetown. William G. Dessert is 1st officer; Joseph McDonald, 2nd officer, and John Hanson, chief engineer.

The International after discharging her cargo at the inner basin will go to Gaspe, where she will take on pulp wood and return to Erie via the Lakes. The vessel had a good passage down to Quebec.

### ALLAN LINE.

Steamer Gramplan arrived at Liverpool this morning.

### MANCHESTER LINE.

Steamer Manchester Shipper, for Montreal and Quebec, sailed from Manchester on Monday afternoon, the 12th instant.

### SHIPPING NOTES.

The steam barge Waccamaw, Capt. C. H. Brooks, arrived down from Ashtabula, O., yesterday afternoon, with 1,750 tons of coal for the Nova Scotia Coal Company. She will leave in a day or two for Dalhousie, N.B., for a cargo of pulp wood, which is destined for Niagara Falls. The 1st officer is Chas. H. Moore.

Steamer Rosecastle passed down light yesterday on route to Sydney.

Steam barge Gordon arrived up yesterday and is taking on coal at the Quebec Central wharf, Levis.

Steam barge Calgarian, with a cargo of coal for the Nova Scotia Coal Co., went into the Basin yesterday.

The Egori passed up yesterday.

Two sailors of the Wilster, West Hartlepool, were arrested on board the ship late Monday night for fighting with Sergeant J. Barry, Constables T. French, and H. Murray, of the Harbor Police. They were each fined \$1.00 and costs in the Court of Sessions yesterday. The fines were paid.

The American steam yacht Alvina, which has been lying in the stream since Monday evening, is due to leave port today.

The Allan liner Gramplan has arrived in England, with a battalion from Victoria, taken from the 48th Regiment, under Lieut.-Col. W. J. H. Holmes, and No. 3 Casualty Clearing Station from Winnipeg.

### NEW YORK CLOSING LETTER.

McDougall & Cowans, Stock Brokers, 116 Mountain Hill, Quebec, 'Phones 1402-1403.

New York, July 13—Bidding up of prices in industrial specialties on reports of war orders and against the short interest in other parts of the list gave the market a strong upward tendency until the last hour when there was a reaction due to reports of the appearance of black rust on the spring wheat crop in North Dakota. Whether the developments of rust so far is serious could not be learned from the incomplete reports received in the course of the day but the weather conditions were favorable to it, hot weather having set in after the recent heavy rains. American Can became very active just before the general list started on its reactionary tendency, the rise in that issue being accompanied by reports that a big order for ammunition had been secured from the Allies. This report was not new, having done market service on several occasions in the past. It is known the company has been negotiating for an order of the kind but nothing official has been given out as to the size of the order. Steel did not show the same degree of strength as was shown yesterday and in the afternoon's reaction it dropped back to a level under last night's close. Business was for the most part professional and the more conservative part of the public is not likely to have much to do with the stocks which have recently been most prominent by the extent of their advances.

Total Sales: Stocks, 623,000; bonds, \$2,950,000.

### THE TORONTO PRODUCE MARKET.

Toronto — Quotations are as follows:—  
Wheat, Ontario No. 2 winter, \$1.14 to \$1.16 outside, according to location. Manitoba, No. 1, north, \$1.42½ to \$1.43; No. 2, north, \$1.38½; No. 3, north, \$1.35.  
Oats — Canada western, No. 2, 63½¢ at lake ports for immediate shipment. Ontario No. 2 white, 50c to 57c; No. 3 white, 55c to 56c outside.  
Corn—American, No. 2, yell., 82½¢ on track, Toronto.  
Peas—No. 2, nominal.  
Barley—70c nominal outside for malting and 65c for feed.  
Buckwheat — Nominal, shipping points.  
Flour—Manitoba, listed quotations at Toronto are: First patents, \$7.10; second patents, \$6.50; strong bakers, \$6.30. Ontario winter, 90 per cent patents, \$4.75 seaboard.

## NOTICE

IS HEREBY GIVEN that the Pier at the mouth of the Cap Rouge river is submerged, as well as the other deep water Pier that was there up to last winter, at the end of the long wharf.

The position of the Pier at the mouth of the Cap Rouge river is, as heretofore, shown by a flat Buoy by day, and a White Light by night, and the position of the Pier recently taken at the end of the long wharf is in a straight line with the said flat Buoy, and about 600 feet to the west.

All kinds of Fruits served in season. Also finest assortment of soft drinks and Ice Cream.

## AUCTION SALE OF REAL ESTATE

PUBLIC NOTICE is given in virtue of an order of Hon. C. E. Dorian, one of the judges of the Superior Court, sitting in the District of Quebec, on the twenty-eighth of June last, the sale and adjudication will be proceeded with at the former residence of the late Zephern Desroches, at number sixty-eight St. Joachim street, Quebec, Tuesday, the 20th of July, instant, at ten o'clock in the forenoon, of the following immovable property belonging to the estate of the said Zephern Desroches, and belonging to Arthur Desroches, interdicted for an undivided part, to wit:

1. Lot number four thousand and eighty-eight (4088), of the official cadastre of Montcalm Ward, of the City of Quebec, being a site situated on the north side of St. Joachim street measuring forty feet front by sixty feet in depth, with the houses and other buildings and outbuildings erected thereon; to be taken off, however, the said lot a small strip or point of land on the southwest side measuring about two feet four inches in width at the north extremity, sold to the "Presbyterian Church in Canada."

2. The lot three thousand eight hundred and two-C (3802-C), of the said cadastre of Montcalm Ward of the City of Quebec, being a site situated on the west side of Scott street, of irregular shape, measuring thirty-two feet front on Scott street by twenty-two feet in depth on the south line and forty-six feet on the north line and thence by right angles towards the south, five feet, and thence also by right angles towards the west nine feet, towards the dividing wall between this said site and that of the representative of the late J. O. Verina, with the house and other buildings thereon erected, and dependencies.

3. The lot number three thousand eight hundred and three (3803) of the said cadastre for Montcalm Ward, of the City of Quebec, being a site situated on the same spot contiguous to the preceding lot, measuring about thirty-four feet and ten inches frontage on sixty-one feet and three inches depth, with a house and other buildings thereon erected and dependencies.

4. The part of lot number two thousand seven hundred and fifty-five (2755), now known and designated under the number two thousand seven hundred and fifty-five-I (2755-I), of the official cadastre for St. Louis Ward, of the City of Quebec, being a plot situated on the west side of Ste. Angele street, measuring about twenty-two feet of frontage on about fifty-four and a half feet in depth, with the house thereon erected and dependencies, and with right of way for vehicle in the porch or passage of the neighboring property on the south, to communicate from the street to the yard, to enter fuel and provisions and bring out ashes, garbage, snow and ice only.

5. The part not subdivided of lot number two thousand seven hundred and fifty-five (2755) of the said cadastre for St. Louis Ward, of the City of Quebec, being a site situated on the north-west corner of Dauphine street, and sixty-eight feet on Ste. Angele street, with the house and other buildings thereon erected and dependencies; subject to the right of way in favor of the neighboring lot to the north.

For terms apply to the undersigned Notary, at No. 402 St. John street, Quebec.

At Quebec, this second day of July, one thousand nine hundred and fifteen.

G. A. PARADIS, N.P.

**COMMERCIAL NEWS**  
NEW YORK MARKET.  
(Canadian Press).  
New York, July 13.—The so-called war shares, together with allied industrial and equipment, comprised the bulk of the trading today. Highest prices ever recorded were scored by Bethlehem Steel at 178½, American Can at 51½, New York Air Brake at 106½, General Motors at 178, Studebaker at 81½ and Republic Steel pfd. at 90. Other co-relat issues made gains of 2 to 4 points, and American Coal Products added another 12½ points to its recent meteoric ascent, all of which it later relinquished.

United States Steel was again the most active stock, being in demand at steady though slight advances on growing realization of betterment in the steel industry. Can and West- inghouse came next in volume of out- put. It was regarded as significant of the market's trend that such usual favorites as Reading, Union Pacific and Amalgamated Copper were relatively inactive. Prices reacted from their best in the final hour, with some heaviness in Union Pacific, Canadian Pacific, American Smelting and Amalgamated Copper, which closed with moderate net losses. Total sales amounted to 617,000 shares, the most active session in almost a fortnight.

Foreign exchange markets reflected in a measure the success of the new British war loan, sterling being distinctly firmer, though losing a trifle later on offerings of commercial bills. An interesting development of the exchange situation was the receipt of gold to the amount of \$1,300,000 from South America, the importation being made possible only because exchange naturally favors this market.

That railroad tonnage is beginning to move forward was seen in the latest statement of idle cars as of July 1, showing a decrease in the surplus of such equipment of almost 25,000 cars compared with the preceding month. This favorable condition was partly offset by a ruling of the Inter-State Commerce Commission, which suspended rate increases in structural steel between Chicago and Pacific coast points.

Foreign selling of bonds was on a diminished scale today, but a large part of the trading was in United States Steel 5's. Total sales, par value, aggregated \$2,820,000.

**CLOSING MARKET LETTERS.**  
By private wire to Breen & Gourdeau, Stock Brokers, 63 St. Peter Street, and 6 Sault-au-Matelot. 'Phone 185.  
Chicago, July 13.—Wheat—An easier tendency in July wheat checked an early advance in the later deliveries, but southwestern markets were strong and local bears made little headway on the selling side. Later in the day our market turned strong in sympathy with the northwest where numerous reports of black rust resulted in a sharp upturn in values. An over-night opinion under present conditions is worthless, but if the northwestern rust reports are verified from a wider area, further advance may be expected.

Corn—One of the larger elevator interests sold September corn heavily during the early trading, but their offerings were absorbed by scattered buyers and when wheat turned strong corn followed. Weather conditions are most satisfactory and the crop is making satisfactory progress although it is two to three weeks late in the northern part of the best corn raising territory.

Oats declined ½ cent for all deliveries after an easier opening, early offerings by local bears were absorbed by commission houses on resting orders. Cutting has started in Illinois and the majority of reports are favorable, although from some sections reports received of rust damage, and considerable lodging.

Grain quotations today were as follows:—  
Wheat: Open High Low Close.  
July ..... 109 110½ 107 110½  
Sept ..... 102½ 105 101½ 104½  
Dec ..... 104½ 107½ 104½ 107½  
Corn:  
July ..... 75½ 76½ 75½ 76½  
Sept ..... 72½ 73½ 72½ 73½  
Dec ..... 63½ 63½ 62½ 63½  
Oats:  
July ..... 46½ 48½ 46½ 48½  
Sept ..... 37½ 38 37 38  
Dec ..... 38½ 39½ 38½ 39½

Winnipeg, July 13.—Grain Close:—  
Wheat: July, 136½; October, 105; December, 105. Oats: July, 60½; October, 42½.

New York, July 13.—The stock market gave further evidence today of the improvement which sentiment has undergone the past few days. The spirited forward movement inaugurated during the late trading yesterday was resumed at the opening of the Exchange today and was well maintained up to within the last hour of business when profit-taking caused moderate recessions from the high sales of the day. American Can issues were again conspicuously active and strong, the common stock at one time showing a gain of about three points from last night's close, but lost half of this advance by the close, while the preferred stock scored an increase of about three points from the final sale of yesterday which it retained. Despite the improvement in sentiment, however, there was no inclination to follow prices upward in aggressive fashion, or, at least, until the outlook in the international situation may be viewed with a greater degree of assurance.

Sales: Stocks, 612,980; bonds, \$2,950,500.

# CLOSING LETTER.

Today's session has shown plain evidence of the improvement which developed yesterday in the market, apparently due to the belief that the German note affords the basis of a practical working arrangement providing this country is not looking up on academic regulation of what is fair or unfair according to international law in the sea fighting between Germany and England.

If the rights and property of American citizens are adequately safeguarded, it would seem as if the administration had satisfactorily performed the function of the government. In the afternoon trading some of the earlier improvement was lost as apparently a good deal of stock was met. Despite the wonderful change which these war orders have brought to many a starving industry it is quite possible to overdo the enthusiasm as regards the price of these stocks.

American Coal Products has had a phenomenal rise and today had a big reaction, following a report from the management that possible profits were being unduly exaggerated. American Can on the other hand moved up on the report that a large war contract was near to the signing, the railroads are still the laggards and something more promising than recent reorganization plans must occur in this field before the railroad shares are restored to popular favor.

## GLIMPSES OF OLD QUEBEC

From the Files of THE CHRONICLE, July, 1885 and 1915.

THIRTY YEARS AGO TODAY

Riel and the Priests.

Some of our western contemporaries have been accusing the Priests of the Catholic Missions as being in sympathy with Riel. The following speaks for itself:—Rev. Father Andre, O. M. I. Superior of the Catholic Missions in the district of Carlton, writes from Prince Albert a long letter in which he declares that the priests strenuously opposed Riel from the first, and all through his agitation. When the rebellion broke out, Father Andre says, "We were soon made feel the heavy hand of Riel, and we laid down for our opposition. He was no sooner in power than he commenced to molest us in every way, and as he feared the influence of the priests among the people he sent his men to bring them by force to their several Missions to Batoche, where he incarcerated them in the Mission house. Monsieur Louis David Riel was a complete Anticleric, who assumed the supreme power of ruling Church and State. As the priests did not submit to Riel and openly refused to acknowledge his supremacy they incurred his wrath, and in consequence had to suffer the annoyance, the free exercise of their priestly functions was prohibited.

Impieties, Blasphemies and Ribaldries

Three times at least, the priests were obliged to appear before Mr. Riel in the Council Chamber, and in presence of the members of the Council, they were obliged during three hours to listen to all the impurities, blasphemies and ribaldries, which pleased Riel to vomit against their holy religion and its sacred mysteries. They expected to meet with the same fate as their brother priests at Frog Lake, and probably a fearful doom was reserved for them if General Middleton and his brave men had not come in time to their rescue, and saved their lives by the storming of Batoche. We are grateful to all those brave men who advanced to put down the rebellion, and as long as we live we shall pray our heavenly father to

**PRICE BROTHERS AND CO., LIMITED.**

Dominion and Independence Day Sports and Picnic.

(Special Correspondence.)

On Saturday, July 3rd, Messrs. Price Brothers & Company, Limited, closed their paper mills at Kenogami and Jonquiere, Que., and entertained the entire staff and employees, together with their wives and families, at a picnic, the object being to celebrate Dominion Day and July 4th, and to cement the already good feeling existing between themselves and their workers.

Under the able leadership of the general manager, Mr. John Ball, and Mrs. Ball, a committee of ladies and gentlemen was formed, and the task of entertaining and providing refreshments for 1,500 people was commenced.

The field committee had selected a spot on some rising ground about two miles east of Kenogami and great credit is due to them for the location.

The day opened with a general assembly on Wellington Square, Kenogami, and on the arrival of Sir William Price (president of the company) and his brother, Mr. Harry Price, (secretary-treasurer of the company), a procession was formed, and headed by the Jonquiere brass band, marched to the sports field. On the way one could notice the enthusiasm of the householders, who displayed various banners, the wording of which showed their appreciation of the firm. A triumphal arch was distinctly artistic.

On arriving at the picnic grounds, the program of sports started with a five-sided football tournament, but on the first teams lining up, they were two men short, and great was the delight of the crowd when Sir William volunteered to fill one of the vacancies. Unfortunately his team lost, but the success of the day was assured, everybody was at once in good humor which continued throughout the day. The football contest was eventually won by Mr. R. Grieg's team, the runners-up being those captained by Mr. J. Keidie. Other events were:

50 yards sack race: 1, H. Bilodeau; 2, O. Ray.  
Broad jump: 1, K. Archibald; 2, H. Bilodeau.  
Ladies race: 1, Miss G. Ball; 2, Miss E. Arseneault.  
Boys' race: 1, George Ball; 2, C. E. Price.  
Girls' race: 1, Cecelia Levasseur; 2, Harriet Tremblay.

100 yards flat race: 1, T. McDonald; 2, G. D. Falkenberg.  
Potato race (men): 1, H. Archibald; 2, Lemieux.  
Potato race (ladies): 1, Miss E. Arseneault; 2, Miss G. Talbot.  
150 yards hurdle race: 1, C. E. Bergeron; 2, H. Archibald.  
Putting the 16-lb shot: 1, H. Dufour; 2, T. McDonald.

Egg and spoon race (ladies): 1, Miss G. Talbot; 2, Mrs. F. Courcelle.  
High jump: 1, C. E. Bergeron; 2, T. Turnbull. (57½ ins., and 55 ins.).  
Ladies' walking race: 1, Miss G. Ball; 2, Miss G. Talbot.

Three-legged race: 1, O. Ray and L. Jean.  
220 yards flat race: 1, C. E. Bergeron; 2, L. Grant.

A HUNDRED YEARS AGO TODAY

Crime of Hating the English.

Though the Government of Great Britain and the United States are at peace, there is undoubtedly an undercurrent outside of government circles in the United States, of slumbering animosity and hatred towards England and the English, we presume that to mean the whole British Empire. An American writes the following:—"Yet have the English and Federal Newspapers the intolerable insolence to charge us with the crime of hating the English!—We ought to love them forsooth, because, two centuries ago their fathers persecuted our fathers out of their country;—We ought to love them because they abuse and calumniate us in the pulpits, their sermons, newspapers and reviews—because they overwhelm us with eternal falsehoods; rob our churches; burn our towns; violate our women; break open graves; and, in a period of profound peace, murder our defenceless prisoners in cold blood to appease their mortifications for defeats which they have not the prowess to resent in any other way.

Love This Magnanimous Nation.

For all these good offices we ought to love this magnanimous, canting, humane nation. For these right neighborly offices we ought to treat all Englishmen as brothers, or rather as our masters and superiors—if they smite us, we ought to give them both cheeks, if they spit in our faces, we ought to make them a low bow; if they pick our pockets, we should open our strong boxes to them, if they tickle us we should not laugh if they prick us we should not bleed.

AN AMERICAN.

Mess them through life and more particularly at the hour of death.

Mr. Editor, who can help feeling indignant on hearing the false and slanderous accusations brought against us, such as, that we are not loyal, and that at the bottom we are the real authors of the rebellion.

The most exciting contest during the day was the tug-of-war. Each department turning out a team, but the Jonquiere saw mill team, under the captaincy of Mr. N. Joncas, were easy winners. After the final, Sir William Price challenged the winners to a friendly pull against a team he had selected, and they lined up as follows:

**The Pull-Alls.** Jonq. Saw Mills.  
Sir William Price.....J. Gagne  
Mr. John Ball.....E. Simard  
Mr. J. McD. Grosart.....Ac. Tremblay  
Mr. R. Greig.....H. Simard  
Mr. E. Bergeron.....Chs. Sansier  
Mr. J.-R. Brads.....D. Thibault  
Mr. H. Girard.....D. Lavoie  
Mr. R. Drummond.....H. Dufour

After the hardest struggle of the day, the Saw Mill won out. They were certainly "some pullers."

And now for a word of praise to those who engineered such a successful meeting. In the first place, Mr. John Ball deserves all the honor that is coming to him, for his was the master hand behind the scenes. Then the ladies who were responsible for feeding the large crowd are to be heartily congratulated. Mrs. Ball and her committee were indefatigable in attending the wants of the hungry and thirsty.

The sports judges were Mr. R. S. Hall, and Mr. W. Buchanan; starters: Mr. R. Greig, Mr. C. Bruce, and Mr. A. Turner; clerks of the course: Mr. H. Monro, Mr. G. Cullett, Mr. G. D. Falkenberg, Mr. A. Whipple and Mr. T. Turnbull; announcer: Mr. Eug. Bergeron. The prizes were distributed by Mr. Edward Flynn.

A word of praise must also be given to Mr. T. Turnbull, who worked very hard to make the sports a success.

During the day a baseball match was played between Kenogami Paper Mill team, captained by Mr. L. B. Decker, and Jonquiere Pulp Company team, under Mr. Newman. The Kenogami team won in 5 innings—score, 6 to 4.

**A SPLENDID WAY TO REDUCE ONE'S WEIGHT.**

There is, perhaps, no one thing that shows the passing of our youth so much as the horrible tendency of some of us to put on too much weight after we have reached the age of 25 or 30. However young our face may appear, our figures "give us away."

The cause of this over-stoutness is that our stomachs convert the food we eat into fat because there is not enough oxygen in the blood to produce a proper combustion to destroy the fatty tissue. To reduce your weight go to a good druggist and get oil of orlène in capsule form, and take one after each meal. It is sold only in original sealed packages. Oil of orlène taken at meal-times gives you all the benefit of the food you eat, and at the same time dissolves the fatty tissue from any part of the body where there is excessive fat. In this way many have reduced their weight at the rate of about a lb. a day, and no flabbiness is left.

Any druggist can supply you or a large size-box will be sent on receipt of \$1.00. Address D. J. Little Drug Co., Box 1240, Montreal, Can.

Davy Jones' Locker is a combination of Duffly, a ghost or spirit among West Indian negroes, and Jones, a contraction of Jonah.

## QUEBEC OFFICER TELLS EXPERIENCE

COPY OF LETTER RECEIVED FROM CAPT. R. C. GEGGIE NOW IN FRANCE.

France, June 27, 1915.

Yesterday I wrote you a card to tell you that we had been moved again and today we are at our journey end. It meant three night marches and resting during the day in and about barns and sheds. Of our wanderings I can tell you something, not very much of course. They began the night of the 23rd when we came out of trenches and moved back for 3 days rest. After marching about 8 miles we reached at 5.30 a. m. most comfortable billets and all went to bed.

During the afternoon, about 3.15 I think, we had breakfast and during our meal marching orders came in. We had to get out at ten that night so our three day's rest was forgotten. Of course we only knew where our first stop was to be and not our ultimate destination, though we had a fair idea and were rather pleased at the location. It might have led to another place of most repellant memory to us all but we hoped to take a side road. Our march lasted till about 6 a. m. and just as soon as men were placed we put ourselves to bed and slept until afternoon when we again had breakfast at the fashionable hour of 3.30. Then I had work waiting for me to repair feet so that they could "carry on" again, all kinds of chaps who had come up to get off the march because they heard that ambulances would pick them up, those that were genuine we fixed.

About 9 o'clock we got away again and kept on until we had covered our distance at 3 a. m. Of course we observed the regulation halts, the last ten minutes of every hour, apart from that we came right through. You would have laughed to see the halts along the road, just as soon as we stopped every man and officer on foot simply lay down on his back on the road. Those who were riding jumped off their horses and lay down beside them. In those ten minutes good management would allow 7½ for sleep. I applied good management and did fairly well. That day was like the previous one except that we started our march at about 4.30 p. m. and finished up at about 10.30 in a most beautiful fair like bush on one side of a hill. The whole hill-side was alight with bivouac fires and just over the other slope were the German trenches. Of course they could not see our fires and we were too close to the hill for them to be able to throw shells into us although they knew that we were there. This hill-side sight was the first that I have ever seen of what I pictured a military camp under active service would be. There were fires everywhere among the trees and all about them the men were lying asleep, a short distance away the horses, pack ponies and donkeys were sheltered and only about 600 yards away over the crest of the hill were the German trenches. They knew that we were there but being so close to the hill-side they could only fire over our heads. The men had huts of all kinds and we had the "Lodge" at the gate of the "long driveway" leading up the hill to where one of the finest chateaux (modern) once stood. It has been entirely demolished now by German shell fire and belonged to Hennessy the three star brandyman. The lodge being just below the crest of the hill, was out of shell zone and had not been touched, where as the great chateau had been torn to ribbons and is a mass of ruins.

Since starting this letter we have moved up to the trenches and the only fairly place I could find for the wounded was the cellar under Hennessy's racing stable. This we have cleaned out and are fairly comfortable. The stable above us has been finished in hard wood and marble but has been shelled to pieces and we are living under it.

During the day we cannot put our heads outside or would pull it back with a hole through it, so we have to "carry on" at night.

There are lots of hares about here, big fat ones, and some of our stretch-bearers are old time poachers. Last night they set out a line of snares, tonight they have brought in two hares and a big fat chicken. Where the latter came from, within 300 yards of the trenches, when there have been troops about all winter, absolutely beats me. Just about time to close now because I want to sleep while there is nothing doing. It is a wise man here who sleeps until he has to awake because once he is awake nobody knows when he will sleep again.

**RED CROSS SOCIETY.**

The Quebec Red Cross have again to acknowledge with grateful thanks, another large box of completed work, sent in by the wives and families of the Arsenal employees. Over 700 articles have been made by them, including sheets, towels, handkerchiefs, bags, shirts, pyjamas, socks, etc., etc. The material for this work is provided and the articles cut out by the cutting-out committee of the Quebec Red Cross, who also deserve a hearty vote of thanks.
