

BULGAR FORCES CONCENTRATING NEAR THE GREEK BORDER

Advance Lines of Entente Allies Bombarded. Germans Thrust Again Fails on The Verdun Front. Artillery Engagement Continues West of Fort Douaumont.

London, May 30.—(Special)—Great activity on the part of the Bulgarians following their occupation of several Greek forts in the vicinity of Demir Hissar is reported in a Reuter despatch from Saloniki. It is said official information has been received there to the effect that important Bulgarian forces are being concentrated at Nevrokop, in Bulgaria, near the Greek border, as well as at Xanthia.

There have been no further developments in the Demir Hissar region. The town remains in the hands of the Greeks, although the inhabitants have departed. The advance lines of the Entente Allies on the Vardar and the hamlet of Kilindir are being bombarded.

STRONG ATTACK AT VERDUN REPULSED

Paris, May 30.—(Special)—A strong attack was made last night with a fresh division of German troops on the Verdun front west of the Meuse, between Dead Man Hill and Cumieres. The War Office statement of to-day says there was a slight French retirement on the Bethincourt-Cumieres road.

All attempts of the Germans to gain ground on the remainder of the positions under attack were repulsed. The Germans maintained a heavy artillery fire west of Fort Douaumont.

AUSTRIANS HIT HARD BY ITALIANS

London, May 30.—The Verdun region in France and the Southern Ty-

rol continue the theatres where the most sanguinary battles are taking place. While the Italians are holding back the Austrians from further advances and inflicting heavy losses on them in counter-attacks in the Tyrol their German allies have been able to make another gain in the capture of about three hundred metres of French trenches northwest of the village of Oumieres, on the left bank of the Meuse near Verdun.

Fighting of great intensity has been in progress around Hill 304 and between Le Mort Homme and Cumieres, but, except near Cumieres, vicious German onslaughts were all set at naught by the vigorous counter-offensives of the French.

The sectors east and west of Fort Douaumont, northeast of Verdun, have witnessed still another violent artillery duel, but no infantry attacks were launched. The artillery of both sides has been busy along the remainder of the front in France and Belgium.

ITALIANS REPULSE AUSTRIANS. In Tyrol the Austrians, in the Lagarina Valley and south of the Posina Porrett, were heavy assaults against the Italian positions, but the Italians stood their ground and repulsed the attackers with considerable losses. On the Asiago Plateau the men of two batteries which were surrounded on Monte Mosciag by the Austrians were relieved by an Italian regiment and their guns brought safely back.

ON RUSSIAN FRONT. Except for a report from Petrograd that the Germans have repeatedly bombarded the railway line to the east of Riga, no operation of moment has taken place on the Russian front.

Minor successes have been obtained by the Russians over the Turks in the Rivadounza region of the Caucasus front.

Nothing new has come through with regard to the manoeuvres of the Bulgarians in Greek Macedonia where important events are expected to transpire by reason of the Bulgarian advance into Greek territory.

ANOTHER CUT IN FOOD RATIONS

Only Half a Pound of Meat Is Allowed Weekly to People in Berlin

DOUBTFUL WHETHER SUPPLIES ON HAND WILL EVEN MEET THIS ALLOWANCE.

London, May 30.—(Special)—A despatch from Rotterdam to the Daily Telegraph says:

"Berlin has made a further reduction of the meat rations. Beginning to-day this is fixed at half a pound of meat or fat per adult each week. Under the arrangement the ration is subject to revision each week. It is doubtful whether the supplies on hand will meet even this allowance. The shortage of eggs continues, and in the absence of the ordinary variety the Government is encouraging the use of gulls' eggs, which, it is claimed, are suitable for certain cooking purposes. Soap is now so scarce that workmen in Berlin factories have to bring their own supplies with them if they wish to wash before leaving."

CENTRAL KITCHENS TO BE ESTABLISHED

Berlin, May 29, via London, May 30.—Feeding the masses of the population in the larger cities by means of central kitchens under municipal auspices is the solution selected by the Government to meet the problem of the food supply and distribution during the period of the war. The president of the Food Regulation Board, Adolph von Batocki, announced to the Ways and Means Committee of the Reichstag today that an appropriation bill for funds to assist the municipalities to organize and operate the kitchens would be immediately submitted to the Reichstag. The municipality of Schoenberg, the second largest Berlin suburb, has already arranged to feed 30,000 persons in such institutions. A similar organization for Berlin was called into life at a conference today, which was notable for the presence of two women, Frau Hedwig Heyde and Fraulein Landsberg, among the members of the conference.

TURKEY MUST BE VASSAL STATE

Lord Bryce Says This is The Only Way That Massacre of Christians Can Be Stopped

PROBLEM AS TO AUSTRIA OUGHT TO BE SOLVED ON PRINCIPLE OF NATIONALITY.

London, May 30.—(Special)—Lord Bryce, speaking at London University College on the war's effect on Germany, said:

"What is our hope for Germany? It is that she will repudiate the detestable doctrines recently preached there, and our best wish is that she be defeated in order that she may unlearn those pernicious doctrines and revert to the better spirit of an early date."

He added that there were two Empires in the world fundamentally opposed to the principle of nationality: Turkey and the Austro-Hungarian monarchy. The Turks must be reduced to merely a vassal state. The territories in which they have been conducting massacres of Christians must be taken away from them. The Turkish massacres must end forever, he said, and if any Turkish territory remained it must be in districts mainly Mussulman. The problems of Austria were more difficult, but if the Allies achieved a decisive victory these problems ought to be solved on the principles of nationality.

3,464 CANADIANS KILLED IN ACTION

TOTAL CASUALTIES TO DATE NUMBER 23,110.

Ottawa, May 30.—Canadian casualties to date number 23,110. This includes 1,464 killed in action, 1,432 died of wounds, 349 died of sickness and 14,768 wounded.

The increasing of the number of Canadian troops on the firing line and their being given the difficult positions near St. Eloi to hold have resulted a considerable increase in casualties. They are no higher in proportion however, than the British troops have had.

SITUATION IN GREECE

Military Circles Believe That There is Secret Understanding With Central Powers

OTHERWISE HOW CAN COUNTRY'S COMPLIANCE TO HER HEREDITARY ENEMY BE EXPLAINED.

Rome, May 30.—(Special)—News from Greece is awaited with great interest, as any advance of the Bulgarians in Greece affects the Allies' position at Saloniki. It is considered here that converging pressure on the valley of the Struna and Xanthi can only mean that the Bulgarians have Kavalla as an objective, while it is pointed out that the Greek Government only protested after the event.

Military circles are inclined to believe that Greece has a secret understanding with the Central Powers, who naturally promised that the occupation of Greek territory would be only temporary, while Germany would support Greek pretensions in Epirus. Otherwise, it is asked, how can Greek compliance be explained to her hereditary enemy Bulgaria, which hitherto has been as a red rag to a bull to every Greek?

GREECE AND BULGARIA IN ACCORD

Paris, May 30.—(Special)—The Bulgarian advance into Greek Macedonia was made as the result of a secret formal agreement between Greece and Bulgaria, according to information received in neutral diplomatic circles in Rome, says a despatch from the Italian capital to the Paris Matin.

GEN. TOWNSHEND MADE PROTEST

Told His Superior Officer That Force Was Too Small To Advance On Bagdad

OBEYED ORDERS OF SUPERIOR OFFICER, ALTHOUGH CONVINCED THAT RISK WAS TOO MUCH.

London, May 30.—(Special)—In a white paper issued to-day the fact that General Charles V. Townshend, who surrendered at Kut-el-Amara after being besieged by the Turks for 143 days, protested against the sending of a weak force up the Tigris toward Bagdad before the attempt was made, was revealed.

After warning his superior, General Sir John Nixon, of his opinion of the grave risk of the endeavor, General Townshend made the attempt, approached within a few miles of Bagdad, and was then driven back down the river by a superior force of Turks as far as Kut-el-Amara.

The white paper issued shows that on October 4 last he expressed the opinion that if the occupation of Bagdad was desirable, two divisions (30,000 men), exclusive of communication troops, was necessary. On April 7 he wired the Viceroy of India as follows: "My certain opinion is that we are taking a grave risk in moving against Bagdad with my weak division, as the Turks will undoubtedly send reinforcements to Mesopotamia. Having called General Nixon's attention to the risk, my conscience is clear, and I am prepared to carry out my orders."

HIGH PRAISE FOR FRENCH DEFENCE

General Haig Says Results Have Been Worthy of Traditions of Army of France

COMMANDER-IN-CHIEF REVIEWS CAMPAIGN ON THE BRITISH FRONT SINCE TAKING COMMAND.

London, May 30.—General Sir Douglas Haig, commander of the British forces in France and Belgium, in a despatch covering the operations of the British army in that territory from December 19 last when he took over the command, until May 19, pays high praise to the French defence of Verdun and reviews in detail the actions in which the British have taken part.

"During this period," he says, "the only offensive effort made by the enemy on a great scale was directed against our French allies near Verdun. The fighting in that area has been prolonged and severe. The results have been worthy of the traditions of the French army and of great service to the cause of the Allies."

"The efforts made by the enemy have caused him heavy losses, both in men and in prestige, and he had made these sacrifices without gaining any advantage to counter-balance them."

"During this struggle my troops have been in readiness to co-operate as they might be needed, but the only assistance asked for by our allies was of an indirect nature, namely, the relief of the French troops on a portion of their defensive front. This relief I was glad to be able to afford. Its execution on a considerable front, everywhere in close touch with the enemy, was a somewhat delicate operation, but it was carried out with complete success thanks to the cordial co-operation and goodwill of all ranks concerned and to the lack of enterprise shown by the enemy during the relief."

While no action comparable with that at Verdun has been fought on the British front, General Haig says the struggle has been continuous and that there have been many sharp local actions. The maintenance and repair of the trenches alone entailed constant and heavy work. Bad weather and the enemy forces combined to flood and destroy trenches, dugouts and communications, and all such damage had to be repaired promptly, under fire and at night. He speaks of the continual activity of the artillery, infantry, sappers and miners, and adds: "Every present threats came a more constant strain than any other form of warfare."

FUNERAL OF LATE JAMES J. HILL

Simplicity Will Mark The Services Which Will Be Held To-Morrow

St. Paul, Minn., May 30.—(Special)—Simplicity will mark the funeral of James J. Hill, the pioneer railway builder, who died at his home yesterday from blood-poisoning.

The democratic spirit of the "Empire Builder" will follow him to his last resting place. His great home will be opened to the employees of the Great Northern Railway this afternoon, and the fact that to-day is a holiday will make it possible for several thousand employees of the company here and in Minneapolis to view the body of their employer.

Funeral services will be held from the home Wednesday at 2 p.m. Right Rev. Thomas J. Gibbons, vicar-general, will have charge of the service. The funeral will be public, but only relatives, close friends and persons employed by the Hill interests are expected to attend.

FORTUNE ESTIMATED AT \$75,000,000

New York, May 30.—Men in the financial district yesterday, who were well acquainted with James J. Hill, estimated his wealth at between \$60,000,000 and \$80,000,000, with the average of these extremes, or \$75,000,000, about the consensus of high banking opinion. All agreed that he might have been worth much more had he so desired, and one of them recalled that Mr. Hill himself had said that he might have been a wealthy man, wealthy in the sense that John D. Rockefeller and Andrew Carnegie are wealthy.

PRESENTATION OF COLORS TO 117TH E. T. BATTALION

Historic Event at His Majesty's Theatre, Last Night. Crowded House Greeted Khaki Lads in Attractive Concert Programme. Colors Presented With Impressive Ceremony. Col. Gilbert's Stirring Reply

The presentation of colors to the 117th E. T. Battalion and their consecration by the Lord Bishop of the Diocese in His Majesty's Theatre last night constituted for the Eastern Townships an event as unique and unprecedented as it proved interesting and inspiring.

The city and the Eastern Townships generally had long wished to mark their appreciation of the officers and men of "Our Own Battalion," in a manner worthy of the splendid set of men who compose the regiment and in keeping with the traditions and sentiment of this historical section of the Dominion.

The movement for a public farewell to the Eastern Townships battalion that has been raised to represent and fight for the honor of the Empire and the Dominion in the greatest war and for the noblest cause the world has ever known had already been inaugurated by the Associated Boards of Trade, when several weeks ago the regiment was suddenly ordered to St. Johns for mobilization before the scheme could be carried into effect. The hearty send-off given to the men at the railway station on their departure from Sherbrooke, proved unmistakably the genuine feelings of deep affection, esteem and pride the whole district cherished for them. The crowded and representative audience which greeted Lieut.-Col. Gilbert, his officers, the regimental band, and a contingent of men from the battalion last night afforded increased evidence of the admiration and respect of the people of the Townships, and the welcome they received gave abundant indication of the popularity of the battalion, the patriotism of the citizens, their faith in the cause and determination to assist by every possible means towards a crowning victory for the Allies and the establishment of world wide peace and civilization.

THE CONCERT

The first part of the evening was devoted to a concert provided by members of the battalion. Though it was well known that the 117th could boast of much musical talent, the excellence of the programme was in many respects in the nature of a revelation. The opening numbers consisted of selections by the band under the capable direction of Sergeant Planché. The next item was a chorus "Do Your Bit," by officers and men of the battalion. Their voices blended magnificently and the vigorous rendering of the number had a telling effect on the audience. In response to an encore "Why don't you wear the Uniform," a composition, similar in sentiment, was given. Sergeant Cowperthwaite followed with: "When My ship comes sailing home," the audience was charmed with his beautiful soprano voice of much sweetness and power and he was compelled to re-appear, choosing "Because," for an encore. In "The Battle Eve," Major Ewing and Corporal Monte, scored a distinct triumph, the former's pure tenor voice coupled with perfect enunciation and the latter's rich baritone voice forming a delightful combination. This number was rendered with admirable attack, precision and expression. Recalled they obliged with "The Lark-bird Watch," most successfully.

Lieut. J.M. State, whose eloquent powers are well known gave two recitations "The Boys of the Dandy Fifth" and "Johnny Canuck."

The first was an echo of the American Civil war and the last was a composition of his own written on the South African veldt during the Boer War while serving in the Royal Canadian Dragoons. He fully came up to expectations and had a good reception. Lt. Baillie deserves more than a passing word of praise for his violin solos. The first a "Gavotte" and "A Dream," as an encore, though not intricate in setting gave evidence of much artistic conception in the highest sense and his contributions

CONSECRATION OF THE COLORS

Rev. Capt. Moorhead, chaplain of the battalion, announced the hymn, "Brightly Gleams Our Banner," which the audience joined in singing led by the battalion choir. Then followed the usual prayers recited by the Right Rev. Lennox Williams, Lord Bishop of Quebec, after which His Lordship laying his hands on the colors dedicated them and set them apart "that they may be a sign of our duty towards our King and Country in the sight of God." The concluding prayer and benediction closed the consecration ceremony. Rev. H. R. Bigg, rector of St. Peter's Church, acted as Bishop's chaplain.

ADDRESS FROM EASTERN TOWNSHIPS CITIZENS

After the colors had been dedicated, Mr. V. E. Morrill, President of the Associated Boards of Trade, received the King's Colors from the senior Major, Major Ewing, and the Regimental colors from Major Dunsmore, the junior Major, and handed them to Lieutenants Stewart and Edney the senior and junior lieutenants, respectively. Mr. Morrill then presented Col. Gilbert with a handsome volume bound in morocco containing an address signed by nearly 3000 residents of all parts of the Townships, a portrait of the officers and a number of Eastern Townships

PRIESTS HELPED IRISH REBELS

Bishop of Limerick Refused Request of Gen. Maxwell to Have Them Punished

London, May 30.—(Special)—The correspondence between General Sir John Maxwell, commanding the militia in Ireland, and Dr. O'Dwyer, the Roman Catholic Bishop of Limerick, concerning the question of the treatment of priests who actively assisted in the Sinn Fein propaganda, was published to-day. General Maxwell named two priests, and asked the Bishop to remove them, adding: "Had these priests been laymen they would already have been placed under arrest."

The Bishop replied with a bitter letter declining to punish the priests, adding that he saw no justification for disciplinary action on his part. Elevator

TO MOBILIZE SECURITIES

McKenna Moves to Compel Sale To Government of American Bonds

MEASURE IMPOSES AN ADDITIONAL INCOME TAX OF TWO SHILLINGS ON U.S. SECURITIES.

London, May 30.—In the House of Commons yesterday Reginald McKenna, chancellor of the exchequer, moved the resolution of which he gave notice last week, the purpose of which is to compel sale to the Government under the mobilization plan of American securities hitherto withheld by their owners. Mr. McKenna's measure imposes an additional income tax of two shillings in the pound on American securities, exempting those which are deposited with the treasury.

Harold J. Tennant, parliamentary under-secretary for war, explained that as the balance of trade was against England there was a limit to the exportation of gold. A loan already having been raised in America, the Government had resorted to the mobilization of securities to meet the balance of liabilities.

This scheme, Mr. Tennant said, had been carried out with great care and without any injury to the American market. The Government had been able to pay its way and preserve a substantial balance in New York to enable it to meet charges which might become due. For some months past, however, the supply of American securities offered to the Government had dwindled from a torrent to little more than a trickle. It had been suggested that this was due to natural exhaustion of the supply.

UNDER THE BARN

That is Where Our "Constitutional" Cowards Are Fighting

"Certain young men," says the Winnipeg Free Press, referring to Senator Choquette's speech, "have a constitutional objection to take part in the present war as members of a Canadian regiment on active service in Europe. They may deceive themselves with these explanations, but they will not deceive the people of Canada. The constitutional grounds upon which they refuse to serve are the grounds of constitutional cowardice. If the soil of Canada is ever invaded, these young men will be found where they are now, under the barn. The fighting will be done by Canadians who know that when a fire is raging there is a better use for one's faculties than in trying to find out if there are not technical reasons to justify a refusal to take part in the dangerous and dirty work of fighting the flames. As a matter of fact, our sons and brothers who are fighting in Europe are fighting in defence of Canada just as truly as if the scene of action were on Canadian soil. It is merely our good fortune that the actual tide of war has not flowed over the Canadian landscape carrying with it ruin, rapine and desolation."

MACDOUGALL'S WORK

Pioneer Efforts Which Helped to Develop a New Country

Rev. George MacDougall's work in the West began in 1860 when he was appointed missionary to Norway House, or Rossville, immediately beside it. The story of his journey thence is very interesting reading. La Crosse in Wisconsin was the most westerly railroad point in America then. St. Paul was a pioneer village. At Georgetown they met the Red River boats, but found the water too low to travel. Nothing daunted the missionary built a raft or craft of some kind and floated and rowed down the turbid Red to Fort Garry. Indians were then on the warpath and life was none too safe. Gov. MacTavish gave them a warm reception at the Fort. He was deeply impressed with the possibilities of the country. "A progressive spirit," he writes, "is manifested, and the day is not distant when the limitless prairies which environ the banks of the Assiniboine will rank amongst the finest wheat growing countries of British North America." A long trip up into the Saskatchewan country in 1862 via the Red River and overland, convinced him that there were also limitless possibilities in that region for settlement. Rev. Messrs. Rundle and Woolsey were the only missionaries of his church who had preceded him. Mr. Rundle, of the Selkirk Rockies, takes its name from the former. Visits were made in all directions to Indian camps, the chief tribes of which were Crees, Blackfeet and Stonies. He went as far as Fort Edmonton, and promised to return again and visit tribes who lived far to the south. He had taken some four along. The Indians had not seen anything like it before. They were astonished, and ran off to the wigwams to tell their friends about the man with "the whitest of white earth" they had ever seen. Meat or fish was the only available diet for many months at a time. Foraging rivers often caused endless trouble, sometimes serious danger, and yet often amusing adventure. One common method was to swim the horses ahead, and tie an improvised buffalo skin boat, containing the baggage, to their tails.

In 1863, without waiting for orders from the head offices of the church, Mr. MacDougall moved his quarters from Norway House to "Victoria," a point on the North Saskatchewan, east of Edmonton. Here he remained for several years, working with might and main, crossing and recrossing the country in all directions. From "Victoria" the headquarters of the missionary were transferred to Edmonton House. His last station was at Morley. That was in 1875. He pursued setting further south in the following spring. While foraging for food with his son—Rev. John MacDougall—in January of that winter, he became in some inexplicable way lost while dashing ahead of the party on horseback. His purpose was to prepare supper for the rest as they came up with the loads of buffalo meat. A storm came on, and it was not till two weeks later that his body was found on the prairie. His face, turned upward, was calm and thoughtful, looking, with no sign of pain or distress. His work was done and his dying bed was the greatest western plain under the open sky; a fitting close to this rugged life of apostolic spirit and deed.

CANADIAN'S GREAT TASK

Montrealer in Charge of Factory Building For Lloyd-George

Mr. John Hunter is a case of a Montreal boy who has reached almost the highest post under the British Crown in connection with munitions. He is Director of Factory Construction in the Munitions Ministry. Mr. Hunter came as a boy to Montreal, and was educated at the British-Canadian school and at the High School. His father represented the famous firm of J. and P. Coats, Ltd., of Paisley. The son completing his education went into business in Canada. When he was 25 he went to Scotland and his later career was brilliant.

The Minister of Munitions finally found his ideal in Mr. John Hunter, until lately managing director of the great works of Sir William Arrol & Co. (Limited), engineers and contractors, Glasgow. On the invitation of Mr. Lloyd-George, Mr. Hunter resigned his seat on the board of directors of that company, and accepted the invitation of the Minister to become "Director of Factory Construction in connection with the national projectile factories now being erected in various parts of the country." There is a great deal in which Mr. Hunter's experience in the control and organization of large industrial enterprises will prove invaluable; while, through him, the experience of his firm in the erection of large buildings will be indirectly at the service of the Government. Than Sir William Arrol & Co., no firm has done more important or more extensive steel constructional work, and as before the death of Sir William Arrol early in 1913 Mr. Hunter was secretary of the company as well as joint managing director he is thoroughly conversant with the commercial as well as the industrial side of just the work which he has to superintend and direct.

TRACES HIS ANCESTORS SEVERAL GENERATIONS

A Canadian Seaman Relates His Experiences During an Adventurous Career

Captain W. Wilbur, a native of New Brunswick, and an owner of tugboats in Vancouver, traces his Canadian ancestry back for five or six generations.

Born in Albert county, New Brunswick, Captain Wilbur was only fourteen when he took service as a boy aboard a coasting vessel at \$8 a month. In the course of the years which followed, young Wilbur held every position on board ship from cook to commander. At the early age of 22 Captain Wilbur was given his first command, and with this cargo he voyaged to the French port Havre. During the years that followed he commanded bigger vessels and he knows all the notable English ports intimately, as well as some of the inland towns. He brought the second load of rails from Cardiff to St. Stephen, New Brunswick, for the Grand Southern Railroad.

"One experience," he said, "I had about four miles from where the Atlantic sank may interest you. Just then we ran into the iceberg zone one night shortly before dark. There was a thick fog, a light wind and slight rollers. We shortened the ship down to lower topmasts and foresails. I stood on the topgallant to 'castle' all night and the roaring of the icebergs filled the air all the time. The sea sort of rolled.

We just wiggled on all night. I had all our boats slung out ready to lake to them any moment and my wife and kids fully dressed and with everything packed. We expected to lake to the boats any moment, but we weathered the night and early next day the fog cleared. As far as the eye could reach there were icebergs everywhere, some as large as good sized islands and others higher than the ship's mast. So strong was the suction from some of the icebergs that the ship would turn right round. There was a long narrow lane of water through the ice in one direction, so we got out the boats and pulled the ship into the lane, set sail and eventually got out safely."

Timely Hints

Fruit pies can be prevented from boiling over while baking if you add one tablespoonful of cornstarch to the fruit. Sweeten the fruit to taste, add the cornstarch and heat before adding the crust.

Milk or cream when used in combination with tomato can be kept from curdling by adding a bit of bicarbonate of soda before mixing. A small quantity of bicarbonate of soda, stirred into milk or cream, will keep it from curdling in hot water.

When patty cakes are placed in the oven too soon after being cut out, they are unshapely and contracted when baked. After they are placed on the baking tin they should be left in a cool place for at least an hour.

USE "TIZ" FOR SORE, TIRED, ACHING FEET

NO MORE PUFFED-UP, BURNING, SWEATY, CALLOUSED FEET OR CORNS.

Just take those shoes off and then put those weary, shoe-crinkled, aching, burning, corn-pestered, bunion-tortured feet of yours in a "TIZ" bath. Your toes will wriggle with joy; they'll look up at you and almost talk and then they'll take another dive in that "TIZ" bath.

When your feet feel like lumps of lead—all tired out—just try "TIZ." It's grand—it's glorious. Your feet will dance with joy; also you will find all pain gone from corns, callouses and bunions.

There's nothing like "TIZ." It's the only remedy that draws out all the poisonous exudations which puff up your feet and cause foot torture. Get a 25 cent box of "TIZ" at any drug or department store—don't wait. Ah! how glad your feet get; how comfortable your shoes feel. You can wear shoes a size smaller if you desire.

The dramatic entertainment given as a closing evening to the temperance campaign by Mr. Tennyson Smith and Mrs. Smith proved very successful and entertaining. The Town Hall was well filled and the audience appreciative, as was evidenced by the hearty applause of each number. Mrs. Smith assisted the talented lecturer by instrumental and vocal solos. The people of Granby were indeed fortunate in securing the services of Mr. Smith and it has aroused the temperance sentiment in the town.

THIS WEEK'S WEATHER.
A reactionary storm period covers the last three days of May. This period is intensified by the conjunction of the moon with the earth and the sun on the 31st. This is the second new moon this month. Falling barometer, warmer weather, with storms of thunder, rain and wind will pass over the country on Monday, Tuesday and Wednesday, 29th, 30th and 31st.

A regular storm period is central on June 4th, extending from about the 2nd to the 7th. Disturbing causes and things to expect:

The perturbing power of the June or summer solstice will begin its work at this period, and with the moon at first quarter and 'on the celestial equator on the 8th, disturbances will continue out of their normal limits, and possibly into the 3rd to the 6th of June we find the moon in conjunction with Saturn and Venus on the 3rd, with Neptune on the 4th, and with Mars on the 5th. Also the planet Mercury is at inferior conjunction with the earth and the sun—that is, between the earth and the sun—on the 5th, and in aphelion, or furthest from the sun, on the 6th. Just how far or in what particular way this bunching of astronomical phenomena may affect storms, weather and other meteorological disturbances is highly problematical. But it is scientifically reasonable to expect notable results, or results out of the ordinary, during the first week in June. We should also state that the moon is at extreme declination north on June 1st, and in conjunction with the sun and the earth on May 31st. A persistent low barometer at this time will bring a series of rain and thunder storms for several successive days.

Or even rain, wind and thunder squalls are apt to repeat themselves, with barometer indications at or above the normal readings. Frequent and rapid fluctuations of barometric pressure will be a most natural outcome of the peculiar astronomical combination described above. Among the unusual happenings to expect at this and other June periods is falling barometer with westerly to northerly winds. This is contrary to the natural order, and always is a sure warning of violent impending squalls of wind, rain and hail. Sudden change to unseasonably and uncomfortably cool is natural at such times. To sum it up—a chopped-weather sea seems to be promised at and about this first storm period in June.—Hicks.

SPOKE OF THE WAR IN ITS RELATION TO WOMEN.

Under the auspices of the Sir John Sherbrooke Chapter of the Daughters of the Empire a reception was given yesterday afternoon at the Y.W.C.A. Assembly Hall to Miss Hurlburt, Warden of the Royal Victoria College, Montreal, who is in the city visiting friends for a couple of days. The room, which was beautifully decorated with potted plants, huge bowls of sweet peas and apple blossoms, was crowded, and the Chapters of the I.O.G.E. being largely represented. The guests were received by Mrs. M. R. MacLeod, Regent of the Sir John Sherbrooke Chapter, who introduced the guest of honor in a few graceful words. A very brilliant piano duet was given by Mrs. Cross and Mrs. Lockhart, and Miss Alice Wilson contributed a pretty solo, accompanied by Mr. A. E. Whitehead.

The paper read by Miss Hurlburt dealt with the war in connection with women, and was at once comprehensive and thoughtful, dwelling upon the industrial changes and peculiar conditions brought about by the terrible conflict, which had changed the whole face of the world, and referring especially to the places taken by women in the belligerent countries, where they were replacing men in hundreds of positions and occupations open hitherto to one sex only. The speaker read letters from well-known advocates of work for women, and produced certain literature issued by the London Board of Trade, and also an entitled "War Service for Women," as a sample which might serve as a guide to the committee framing a "Woman's War Register" in Montreal, a movement which, Miss Hurlburt stated, is well under way. In the little brochure women are urged to enter their names at once on the

Register. That the kind of neutrality which exists among the greater part of the citizens of the United States, is not to be despised. The prayers that arise from thousands of American pulpits in our behalf, the warm sympathy and outspoken approval that permeate the American press (except that of pro-German origin) are very grateful to our war-torn souls, and some compensation for the lack of an avowed political alliance. In this connection we call attention to an address to the Allied Nations, Great Britain, France, Russia, and Italy, signed by 500 American citizens, prominent as leaders of thought. The number of signatures was limited to 500 and included 30 Bishops, speaking for the Churches, University Presidents, distinguished men of letters, journalists, political leaders, men not to be confused by any one-sided sentiment or judgment, many of them educated in Germany, and acknowledging what the world owed Germany, before war madness settled upon her. Yet they now conclude that the interests of civilization and the German people themselves, demand that she be defeated.

The closing words of this address, we present as our "Peace Resolution."

Resolved—That a plan which does not restore Belgium to the Belgian people, and to their own Government, which does not give such indemnity as will allow them to reconstruct their wasted cities, and villages, and restore their ruined property; a peace which does not recognize the rights of the smaller nationalities of Empire; a peace which does not guarantee that such a calamity as the present shall not recur; a peace which does not insure these things would be a disaster, not a blessing.

Resolved—That it is because we believe the success of Great Britain, France, Russia and Italy will mean

special register for war service being prepared by the Government Labor Exchanges, and the closing words are as follows: "Any woman who by working helps to release a man or equip a man for fighting does national war service. Every woman who can work and is free to work should come forward."

An opportunity was given to ask questions upon any points connected with the subject, which were fully and intelligently answered by Miss Hurlburt, and introductions followed. Tea was served and a very agreeable social hour spent.

W.C.T.U. PLAN OF WORK AND RESOLUTIONS.

Plan of work and resolutions adopted at the Convention of the Sherbrooke County of the W.C.T.U. Convention.

Plan of work—That we continue to observe the October or November meetings in the local Unions, as a Central rally of the forces with report of Provincial Conventions, special programme, etc. Literature—That a Committee be appointed to secure posters for the coming campaign, to be placed in conspicuous positions, when the date has been finally set for the voting. Evangelistic—That an effort be made to send a delegate from every Church, Sunday School and Temperance Society in the County, to the Temperance Conference to be held at Knowlton on June 23-26.

That the efforts of County Unions be directed towards co-operation with other Temperance organizations and the Churches, in a campaign, for Provincial prohibition.

That we congratulate Huntingville on winning the prize for the greatest increase of membership, and recommend that the same plan be followed another year.

That, while we greatly rejoice in the progress of Woman's Suffrage in other countries, we relax not our efforts towards gaining that privilege ourselves, for the benefit of our own country.

Resolutions.
Resolved—That we believe in Prohibition as the great remedy for the liquor curse.

We believe in Municipal, County, Provincial and National Prohibition; moreover, we look forward to the time when old King Alcohol shall be banished from the wide world over.

We declare ourselves all armed and equipped to carry on the war for Prohibition in its various degrees of extension, wherever and whenever opportunity offers.

Resolved—That we heartily endorse the movement to take a Referendum in the Province of Quebec, on the Temperance question, and will do all in our power to assist in the same.

Resolved—That the thanks of this Sherbrooke County W. C. T. U. be tendered to Sir Lomer Gouin, for his promise that if returned to power he would grant a Referendum on the question of Prohibition, and if results were favorable, he will give legislation in accordance with the mandate.

Resolved—That the thanks of this Convention, be tendered to Sherbrooke and Lennoxville Municipal Councils for reducing the number of liquor licenses this year.

Whereas, the Premier of the Province has signified his readiness to follow England's lead in the question of Woman's Enfranchisement, and whereas, the opinion in England is that one of the inevitable results of the war, in England, will be the granting of full political franchise to women.

Resolved—That the prospects for Woman's Suffrage in this Province are hopeful, and that in the meantime we relax not our efforts to place in the hands of the women of this Province, that weapon which shall protect their homes from the giant evil of modern times, and shall enable them to secure just and righteous legislation.

Resolved—That our thanks be given to Almighty God for proofs innumerable that His hand has led, and His power protected our Allied Armies through the past months of war.

That our Canadian Soldiers have been able to hold back the foe in that part of the Western front, assigned to them, and that as men, and soldiers, they have proved themselves fit representatives of our Dominion, commanding the commendation of all.

Resolved—That the kind of neutrality which exists among the greater part of the citizens of the United States, is not to be despised.

The prayers that arise from thousands of American pulpits in our behalf, the warm sympathy and outspoken approval that permeate the American press (except that of pro-German origin) are very grateful to our war-torn souls, and some compensation for the lack of an avowed political alliance.

DISPUTE OVER PROPERTY SALE

Mr. Justice Hutchinson Rendered Judgment in Case of Darche vs Kennedy.

MAINTAINED THAT SHERIFF'S SALE WAS LEGAL AND DECIDED IN PETITIONER'S FAVOR

Mr. Justice Hutchinson has rendered judgment in the Superior Court in the case of G. A. Darche vs. Kennedy et al. and Norrey Veilleux, adjudicataire.

On April 14th, Veilleux became adjudicataire of property in the south ward belonging to J. D. Kennedy which had been sold by sheriff's sale. It was now claimed that Veilleux had not paid over the amount \$5,375. On the other hand, Veilleux contended that the debt for which the property was sold amounted to \$4,271.40 and that when this amount had been reached by the bidders, Kennedy protested the sheriff and told him he could not go beyond the amount of the debt. Plaintiff contended that protest was of no avail.

The Court held that the sale was a legal one and that petitioner's action should be maintained, that the declaration of Veilleux that he bought the property in for the wife of J. D. Kennedy could not be accepted as the said purchaser did not furnish the sheriff with evidence of his power of attorney and that the wife of J. D. Kennedy had only secured separation from her husband four days previous to the sale and that the execution of the separation judgment did not take place until April 27.

The Court also held that the tender of a cheque for \$4,376.79 in payment of the adjudication price was not a legal tender and especially as the cheque had not been accepted by the bank on which it was drawn.

Messrs. O'Ready & Panneton were attorneys for petitioner.

MARRIAGES

HOVEY-DUNCALFE

Stanstead, May 30—(Special)—One of the prettiest of summer weddings, was solemnized on Monday, May 29th 1916, at Christ Church, Stanstead, when Marion Lesley, younger daughter of Mr. and Mrs. Henry G. Duncalfe, was married to Mr. Rexford William Hovey, son of Mr. and Mrs. Philip A. Hovey, of Sherbrooke. The ceremony took place promptly at 3 p.m., the bride escorted by her father, entering the Church to the strains of the Bridal March, played by Miss Christine McIntosh, Rev. W. G. Vail, of Bishop's College, Lennoxville officiating at the impressive Church of England service, assisted by Rev. Canon Hepburn, Rector. The bride, who looked unusually sweet, was attired in her travelling suit of gray with hat to match and carried a shower bouquet of roses and lilies of the valley. She was attended by her sister, Miss Dorothy Duncalfe, as maid of honor, who wore a nigger brown taffeta gown with pink hat, and carried pink carnations. Mr. Waldo Hovey, of Sherbrooke, brother of the groom, acted as best man.

Immediately after the ceremony a reception was held at the home of the bride, the newly married couple, assisted by Mr. and Mrs. Duncalfe, and Mr. and Mrs. Hovey, received congratulations and good wishes from their friends.

Dainty refreshments were served in the dining room, Miss Jennie Patton pouring and Miss Genevieve MacDougall, cutting the ices, the girl friends of the bride serving the table decorations being pink and white carnations. The wedding cake was cut by the bride. The young couple left immediately after for an automobile trip to New York and other American cities, after which they will reside in Montreal.

Mr. and Mrs. Hovey were the recipients of a large number of wedding gifts including, silver, cut glass, china, money, etc., from a host of friends.

W. C. T. U. WELCOMES LIQUOR DEALERS

(From Daily Telegraph)

The Women's Christian Temperance Union of Iowa crystallized into pungent phrases a widely-recognized truth, in an "address of welcome" which it delivered to the delegates at the recent conference of the Retail Liquor Dealers' Association, held at Cedar Rapids. The mayor, following the easy, good-natured custom of mayors, attended the opening of the convention and delivered the usual perfunctory address of welcome. The Christian women of the State considered the address too perfunctory for the occasion; they thought it did not express the real feeling that was in the hearts of the people. So they issued a supplement to the mayor's address. And this, in part, is what they said:

"It is quite usual in greeting a body to enumerate its accomplishments and tell of its worth and standing. Courtesy to the individual somewhat embarrasses us here. Shall we greet you as those who wreck homes, debauch manhood, prostitute womanhood, disgrace and impoverish childhood? Shall we greet you as those who place upon the taxpayer the heaviest burden in caring for the results of your traffic?

"Your position in a community is quite peculiar. We fail to find a city that enumerates among its advantages its saloons. The Commercial Club of our city advertises our manufacturing plants, our churches, our schools and colleges, but never once have the thirty-two saloons of the city been advertised as a reason for industries to locate here.

"Any business is judged by its results. Some time since Cedar Rapids had a manufacturers' week. Every business in the city except yours exhibited its wares, yet your ambition is to be classed as a line of lec-

mate business. Yours is not a legitimate business, so declared by the United States Supreme Court. Our stores open at their pleasure, closed only on the day or rest, but in self-defence a community limits your to time and seasons. If your places of business are so demoralizing that they must be closed on election days and holidays, and so dangerous that they are closed in times of fire, riot or other occasions of excitement, how can a city welcome you at any time?

What the Christian women of Iowa said is true. Never once has the presence of saloons been advertised among the advantages of a city, or as a reason for attracting industries and population. On the contrary their absence has always proved a market asset to a place. To come near home for an example, look at Westmont. Will any one deny that the very absence of saloons in that municipality is not a distinct material asset? The women of Iowa have written a confession of faith and a declaration of principles founded upon one of the recognized fundamentals of modern civilization.

ALIEN PROBLEM BIGGEST

Alarming List of Foreign School Section Indicates Need of Courage

The one problem which the war has brought strikingly to the forefront is the problem of the alien. Is he to remain an indigestible element in our civilization, or is he to be absorbed into the mass of the population and become a good Canadian and a patriotic British citizen? Canada cannot afford to have an alien question on her hands. There must be no phynephated Canadians. If we had five or six million naturalized enemy voters in our midst what sort of assistance could our Dominion give to the Empire?

Canada has the opportunity to show all foreigners that their presence is not desired in this country unless they are prepared to become loyal Canadians. That we have been neglectful of our duties in this respect in the past is clear from the experience of some of the Prairie Provinces. What is one to think of a Province whose school districts bear such names as the following: Olha, Zaporozha, Ruska Rawa, Franko, Meleb, Kamarno, Striy, Felsendorf, Dnlster, Malanton, Kreuzburg, Bismarck, Arabakka, Kupzanko, Lemberg, Swoboda, Korulwka, Lukowka, Bukowina, Czerwona Zamek, Horod, Sicz, Zoria, Taras, Borshaw, Trembola, Halicz, Kolomyja.

And most of these names harmonize with the languages spoken in the schools of the district! If ever a truly British state is to be created west of the Great Lakes, if British laws and British ideas and ideals are to prevail, if the Dominion is not to be rendered powerless at some crisis in its history by the machinations of the enemy within its gates, our treatment of the whole problem of the alien immigrant must undergo revision. The cowardice of the past in dealing with questions of race must give way to a sane policy of enlightened Canadianism—a policy that will create a homogeneous people out of the utterly diverse elements that come to our shores.—Vancouver World.

ONE CHIVALROUS FOE

Hungarians Misplaced with the Huns, Says a Writer

The Hungarians have more Hun in their name than any of our present enemies, but there is good reason to suppose that they have less of it in their nature. Those of them who dwell in our midst have behaved themselves, since the war began, in a manner becoming to gentlemen in a delicate position, and have not given the slightest trouble. In the United States they have, with the possible exception of a few laborers in the employ of German or Austrian spies, observed the duties of neutrality to the utmost.

The author of "The Note-Book of an Attache," an American, who when the war broke out, associated himself with the diplomatic service of his country in France and afterwards visited all the warring countries, is very positive in the statement that the Hungarians throughout have shown themselves to be more sportsmanlike than any of the other combatants. This is a disinterested opinion, for the author's sympathies are on the side of the allies, and it seems to be borne out by the evidence.—Bock's Weekly, Montreal.

Colored Hero's Career

Prince Roulers Onberon, son of Ben-hazrin, the ex-King of Dahomey, who lately died in a French military hospital, was, just before the war, earning his living as a commissionaire in a gorgeous uniform at the doors of one of the moving picture shows in Paris.

More Liquors During War

DEFIED GERMAN SHELLS

Two French Colonials Who Earned Cheers of Canadians

A member of the 1st Canadian Divisional Cyclists, writes: The German artillery were shelling a windmill that stood almost opposite to the dressing station, which was a farmhouse situated on the road running from L— to B—. During a short interval two French Colonials came walking up the road towards the dressing station. They had just come round a bend about 150 yards away when the shelling started up again. The first shell dropped short, and the Frenchmen continued their walk, but when they were half way another was heard coming, and we saw it explode right on the road where they were walking.

Of course, we thought they were blown to bits, but soon we saw the two men hastily getting to their feet and peering it back to shelter. After about five or ten minutes we saw the two French Tommies again making their way towards us. When they had reached the same spot as before another shell was heard coming. It burst a few yards from them, and a great cloud of dust arose. After the dust had cleared away the men again ran back as fast as they could.

Nothing daunted, they made a third attempt, and had just passed the halfway line when they suddenly dropped down flat. This time the shell seemed to burst right on top of them. But it hadn't. The Frenchies were up right after the explosion, and instead of going back they ran on to the dressing station, meeting loud cries and cheers from all the onlookers.

WORDS VS. GERMANS

Weapon of Conscientious Objector—Would Be Killed, But Not Kill

Among the applicants for exemption from the British military service on conscientious grounds at Lewisham was a young man who said he had been a student of Esperanto for three years, and the Esperantists considered it was a crime to take life. A grocer's assistant at Chessnut admitted that he had applied for work on Sundays at the small arms factory. The Clerk: "Don't you think it wrong to make munition of war, and on Sunday, too?" "Yes, but I applied for that job to get out of combat service."

At Bethnal Green an applicant declared that murder was murder, whether the result of a private or national quarrel. He would not make shells, and if he saw his mother or brother being struck down by Germans he would shield them by verbal protest! At Waltham Abbey Tribunal an ammunition transport said he had no objection to being killed himself, but objected to killing others. An applicant at Covalville said he did not care two pence whether the Germans came or not. He would do nothing to prevent them. He was told that he ought to go and live on an uninhabited island and carve a way out for himself.

Peanut Butter Kisses

Three cupfuls sugar, one-quarter teaspoonful cream of tartar, half a cupful boiling water, half a tablespoonful vinegar. Boil ingredients together without stirring until when tried in cold water, mixture becomes brittle. Turn on a well-buttered platter to cool, as edges curl toward centre. As soon as it can be handled, pull until white and glossy. While pulling flavor with vanilla, lemon or any other extract. Shape the taffy into a flat strip and spread on it a layer of peanut butter, fold over and pull into a long strip. Cut in small pieces and wrap in paraffine paper.

GLAD TO GET THE SOCKS.

Mrs. R. S. Nutbrown, Lennoxville, has received the following letter from a soldier at the front, thanking her for socks made and sent by her:

Dear Friend:—Doubtless you will be surprised to hear from a stranger at the front, but as I received a pair of socks that you sent over I wish to thank you very much for them. They fit well and are about the most useful things we need. I have heard of my comrades getting addresses in socks they have received, but this is the first pair I received with my address in, so I thought to show my appreciation by dropping a few lines. Now, if you receive this short letter, I would be pleased if you would drop me a card. My address is 4th Batt. C. M. R., 8th Infantry Brigade, B. E. F., France. Well, perhaps you would like to know what the Fourth are doing over here. I am not allowed to mention where we are, but you can rest assured that we are doing our little bit. Wishing you the best of luck and again thanking you for the socks.—Yours gratefully, Lance-Corporal W. G. Clackett.

A HALF-TIMBER AND CEMENT COTTAGE

DESIGNED BY CHAS. S. SEDGWICK, ARCHITECT.

THIS is a popular design for a low-roofed cottage, with two good stories, the first story being 8 ft. 6 in. and the second story 8 ft. high. The construction is frame with cement stucco on metal lath and the upper story finished with half timbers and all of the outside trimming, cornice, casings, etc., stained brown and the roof shingles stained red, the stucco to be a light cream color.

The size of the main part is 26 ft. 6 in. by 25 ft. in depth, with a glazed piazza on the left that is 9 ft. in width, making a total frontage of 35 ft. 6 in. There is a good full basement under the house with a coal bin under the piazza which is a great convenience. There are three good rooms on the first floor and three chambers on the second story, each provided with a good clothes closet and in addition a well located sleeping porch over the dining room, glazed and finished the same as the other portions of second story. The porch entrance on the left opens with a vestibule into the large living room and on the right is the stair-case with a small coat closet off from the first landing. The stairs are on the combination order with a section from kitchen to upper landing

and the basement stairs underneath with a grade entrance. There is one main chimney with a wide fireplace in living room and a separate flue for heating apparatus. The finish of first story is in oak with dark mission finish and natural oak floor and the second story finished in birch and the chambers enameled white, the floor of birch.

The low cottage appearance of this design is especially attractive and homelike. The grouping of the windows is also an attractive feature. This plan is best suited to an east or south

frontage, the connection between living room and the glazed piazza is with a glazed sliding French door. The estimated cost without heating and plumbing is \$2,800 to \$3,500. The first figure will build it in almost any locality. It is snug, simple in design and economical to build, all of the detail is very plain. The cornice has a wide overhang and is cemented up on the underside which looks well and adds to the warmth of the house. The flower box cemented in front is attractive and one might be added to the side of the piazza.

HOUSING PROBLEM IN SHERBROOKE

Sherbrooke Board of Trade is
Taking Interest in
Question

The recent activities of the Sherbrooke Board of Trade in connection with the housing situation in Sherbrooke have brought forth a number of inquiries from interested individuals. A number of proprietors of lots have shown a disposition to build. In most cases, however, these parties have very little money with which to start and they are having some difficulty in finding investors, who are willing to loan money on what is considered a rather close margin.

While these applications for financing might not appeal very strongly to the individual investor, there is no doubt that a company properly organized for the purpose would find a profitable field in supporting these small proprietors who are anxious to make their real estate holdings into revenue producing properties.

On the other hand, there are a number of owners who have the money in hand and are taking advantage of the splendid opportunity now offered to erect houses or tenements in various parts of the city, and within the next month it is expected that there will be at least 50 tenements under construction and this number will be increased during the summer. The suggested plan to give every man the opportunity to own his own home by paying for it on the monthly basis has met with a popular approval. A number of applicants have visited the Board of Trade office with the hope that they would be amongst the first who would be able to take advantage of the opportunity which would be offered by a company such as the one suggested in a recent article in the Record.

HELP WESTERN ALLIES

Soldier of United States Argues With His Country

Speaking to an audience in the United States Major George Haven Putnam, a veteran of the Civil War, said: "The rule of Britain in Egypt has reformed the country from the rotten injustice which accompanied Turkish control, and for the first time in the recorded history of the world, it has secured for the peasant of the Nile, the fruit of his labor; the authority of Britain in South Africa — I will not say the rule, because that rule has been turned over to the Dutch, has secured peace with justice for all, including the natives, and has brought such loyal support that the Dutch themselves fought and have fought successfully for the privilege of remaining within the Empire and of helping to maintain the Empire; Britain, standing as it does for freedom of trade throughout the world, for the freedom of the ocean, for representative government, for the right of the peoples to rule, Britain claims our support."

"France, the great Republic of today, to which our American Republic owes its own existence, France which in its magnificent recrudescence has shown what Republican France can do, fighting as it fights to-day for its own life and the life of Europe, France standing for ideals, literature, for civilization, France calls with hopeful confidence upon America for help. And little Belgium, the martyred state of Europe, Belgium whose troops stood like the Spartans at Thermopylae, with no hope of saving themselves, with no hope even of saving for the time their own land, making a desperate fight to delay the onslaught of the barbarians from the east, Belgium which through those three weeks of fearful fighting saved Paris, saved Calais, may have saved Europe. I will add even Germany, the true Germany, whose final welfare depends, as I assuredly believe, on the defeat of the armies of the Hohenzollerns."

STORMS DAMAGE GERMAN CROPS

In Some Places Whole Potato Fields Have Been Swept Away

GOVERNMENT HAD PREVIOUSLY DESCRIBED CONDITIONS THROUGHOUT COUNTRY IN GLOWING TERMS

London, May 30.—Great damage has been done to the crops in Germany by hailstorms, and floods in various sections of Germany, according to a despatch from Amsterdam. The principal damage was done in the districts of Dresden, Chemnitz, Zittau and the Elbe Valley, says the report.

The Daily Telegraph is in receipt of a despatch from Rotterdam which says: "All hopes that Germany will not be starved into submission are based on the results of the next harvest. The Government has described the prospects in glowing colors, but already, according to telegrams from

267 WOMEN AND CHILDREN SLAIN

FORTY-FOUR AIR RAIDS WERE MADE ON GREAT BRITAIN BY HOSTILE AIRMEN.

London, May 30.—In the attacks on the British Isles from sea and air during the war, 2,166 persons have been killed or wounded. The number of deaths is 50, of which 154 were women and 113 children.

The figures were given yesterday by Herbert L. Samuel, the home secretary, as follows: In the three attacks from sea 61 men, 40 women, and 40 children were killed and 611 persons were injured.

In the 44 air raids 228 men, 114 women and 73 children were killed, and 1,905 persons were injured.

The number of soldiers and sailors who were killed is only a comparatively small fraction of the total.

Dresden and Chemnitz there have been great thunderstorms in Saxony, Bohemia and elsewhere, accompanied by terrific hail showers and floods. Considerable damage was done to young crops, and in some places whole potato fields have been swept away.

RECRUITING FOR THE 171ST BATT.

Detachment, Headed by Col. Price, on Tour Through Part of Townships

MEN RECEIVE HIGHLAND HOSPITALITY IN SCOTCH SETTLEMENTS OF COMPTON COUNTY

The recruiting tour through the Eastern Townships on behalf of the 171st Quebec Rifles is proving productive of good results and the enthusiasm of the townsfolk increases daily. On every side the campaigners receive a hearty welcome and a reception accompanied by refreshments is given the boys who are willing to do their bit.

The trip from Weedon to Gould, was made in beautiful marching weather and at several points on the road, the good folks had congregated to cheer the boys along and render patriotic songs.

Every townsman and woman of this delightful village of Gould, outdied one another in their open-hearted hospitality.

After one day's well-earned rest, the 15 miles march to Milan was done under the leadership of the worthy Colonel, who marched the entire distance.

Two miles from Gould the advance of the party was checked by Mayor Kenneth Melver and the Mayoress, who had prepared a bouillon, supply of refreshments, ice cream, cakes, etc. Needless to say the refreshment was storm and quickly demolished, but the host was a much better general than he was given credit for as according to military tactics he held in reserve a far greater supply than he had on the firing line, the consequence being that the boys met their first defeat, as they could not cope with and demolish the reserve supply which Mayor Melver had at his disposal.

Before the departure the worthy host and hostess shook hands, and wished all Godspeed and a safe return.

One can imagine the hearty cheers that rent the atmosphere as the boys marched off.

The good townsfolk and school children, of Milan, were out in force, with flags and banners to welcome the boys in khaki.

After the meeting several recruits came forward and furthermore the kind ladies served coffee and cake.

Notwithstanding the rain, the Colonel marched at the head of his men through mud and water to Stornoway.

During the daily marches various military formations are practiced, such as advance guards, etc., etc.

The health and spirits of the boys are excellent, and due to the painstaking care of Dr. Iodine the marchers' feet are safe.

Sergeants Power and Annette have organized a strong male chorus and are always on their jobs so as to ease and cheer for their men.

As for Sgt. Joe and his assistant, Q.M. Corporal they cease not day or night to work for the men. The meals and stew they produce are often wondered at.

Sergeant Campbellton, Richmond, of the 15th Battalion, hits straight from the shoulder in his appeal for men.

Bagler Locke brought down the house when he stated that if the man higher up continued to find him too small he'd go away, even if he had to go in the captain's pocket.

The boys' guide is a gentleman of the old school, loved and admired by one and all. Long live Col. Bernard, of Richmond.

The object of the tour is recruits. They are awakening in the parishes to the idea of war and men are and will continue to enlist.

The tour during the next two weeks will be through the following places:

Island Brook, Tuesday 30th, 10 miles.
Sawyerhill, Wednesday, 31st, 10 miles.
Channington, Thursday, June 1st, 10 miles.

BERLIN'S CHOICE OF NAME.

Berlin, Ont., May 30.—The committee of ninety-nine appointed to select six names to submit to the electors of the city met last night in the city hall. The question of adding Waterloo to the list of names to be submitted to the voters was turned down. The meeting then began the procedure for the elimination of names from the list of 114. The following six names were finally chosen for the final vote of the ratepayers: Huronto, Berana, Dunard, Hydro City, Renoma and Agnoloo.

THOMAS KELLY MUST STAY IN JAIL.

Winnipeg, May 30.—The announcement was made yesterday morning by the attorney-general that the petition praying that he be granted Thomas Kelly was refused. Kelly, therefore, must stay in jail pending the outcome of his trial at the assizes, which opened today.

CAPT. FOOTE REPORTED WOUNDED

London, May 30.—Captain T. M. Foote, 8th Loyal North Lancashire, formerly in the 50th Canadian Battalion, is officially reported wounded. Lieut. Jason Gurney, London Regiment, who transferred from a Canadian unit last September, is posted missing.

PRESENTATION OF COLORS

(Continued from page 1.)

The address which he read is as follows: "To Lieut. Col. Gilbert, Officers, Non-Commissioned Officers and Men of the 117th Eastern Townships Battalion."

"SOLDIERS OF THE EASTERN TOWNSHIPS."

"We, the undersigned, have all viewed, with special interest, the organization of the 117th Battalion, and have noted with pride and satisfaction the rallying of the vigorous loyal sons of the townships to the banners of this Eastern Townships Corps."

"Your faces are already turned toward the battle line beyond the seas. You are anxious to join the khaki clad legions who have gone before and to strike your blow in defence of our Canadian homes, for the preservation of the Empire, and, indeed, on behalf of human liberty throughout the world."

"The conduct of Canadian soldiers in France and Flanders has already shed undying lustre upon their native land, and won for themselves imperishable fame. Men of the Eastern Townships, and they are in almost every Corps, have never been far from the front line of valor."

"In name and composition, you will go forth as a distinct Eastern Townships Battalion, and will always be directly associated with your own section of Canada. Your career will be followed with the keenest interest."

"The prayers and the thoughts of the people of the Eastern Townships will be ever with you. There is little that we can offer in a tangible form. We ask you, however, to accept these Colours as a permanent reminder of our constant interest in your welfare. May the justness of your cause and the banners under which you fight be your inspiration in the days of strenuous service. And, when you return, upon these Colours will be inscribed the record of your deeds in battle for yourselves a reminder of glorious memories, for your friends and your children's children their proudest treasure."

"The people of the Eastern Townships wish you God Speed as you go forth upon your glorious mission."

COL. GILBERT'S REPLY

Col. Gilbert received the volume amid loud cheering and replied as follows:

My Lord Bishop, Mr. Morrill, President of the Associated Boards of Trade of the Eastern Townships, Ladies and Gentlemen:

In the name of the Officers, Non-Commissioned Officers, and men of the 117th E. T. Battalion, I desire, to-night, to thank, in the heartiest manner, the people of the Eastern Townships, through your Associated Boards of Trade, for the Colours that have just been presented to our Battalion, accompanied by your address. I appreciate, in a manner which words cannot express, the thoughtfulness of the people of the Eastern Townships, in making this most suitable gift. I feel truly proud, as an Eastern Townships Man, to have the high honor of commanding a Battalion that is peculiarly Eastern Townships in its composition, and it shall be my one determination, and the determination of the men under my command, to carry these Colours, you have so thoughtfully given us, to VICTORY.

Wherever duty calls, I trust, there will be found the boys from the Eastern Townships, and when the boys of YOUR OWN BATTALION come marching HOME, carrying, we hope, the Colours you have given us to-night, we wish for no grander words to be inscribed across them, than the words "THESE BANNERS WERE CARRIED BY A BATTALION THAT ALWAYS TRIED TO DO ITS DUTY."

I have also My Lord Bishop of Quebec to thank your Lordship for coming here to-night, to consecrate and set apart these Colours. We will carry them not only as Soldiers of King, but as Soldiers of the KING of kings.

I also thank, with all my heart, the people of the Eastern Townships, for the ever-increasing interest they are taking in the Battalion. It is, and will ever be a source of great inspiration to us to know, that the THOUGHTS and GOOD WISHES of the people of this part of Our Dominion are with us.

And too, I thank you who are here, to-night, for coming once more to wish us Godspeed. Your hearts will, I know, go with us, and while things may seem dark at times yet but as you have heard the boys sing to-night:

"There's a Silver lining to the dark cloud shining
Turn the dark cloud inside out till the boys
COME HOME!"

Col. Gilbert's speech drew forth a great outburst of cheering. On the order of their commanding officer the guard presented arms, the general salute was given and the vast audience sang the National Anthem.

The representatives of the Boards of Trade who accompanied the President of the Associated Boards on the platform were: R. C. Wilkins (Farnham); P. C. Duboyce (Richmond); A. A. Woodman, (Coaticook); E. W. Farwell, J. E. Poutre, D. J. Steele, J. J. Fitzgerald, and W. M. Hillhouse (Sherbrooke).

PRESENTATION FROM SHERBROOKE BOARD

Mr. J. J. Fitzgerald briefly addressed the gathering before the consecration ceremony and explained that as the ceremony would not permit of any interruption it would be impossible for the President of the Sherbrooke Board to make a formal presentation of four Victoria's, one for each company of the battalion, together with sets of records. However, they would be sent forward to St. John's in the hope that they would be accepted as a souvenir of a very pleasant stay in Sherbrooke and as a token of love, indebtedness and esteem. The following address accompanied the Victoria's: Sherbrooke, May 29, 1916.

SHOOTING ACCIDENT NEAR SAWYERHILL

Sawyerhill, May 30. (Special).—On Saturday evening when Mr. J. H. Waldron, of East Clifton, entered his kitchen from shooting woodchucks, with a 32-40 rifle in his hand, the screen door swung, striking the rifle, and in some unaccountable way discharged it. The bullet struck his wife, who was sitting on a lounge near the door with her baby. After passing through the infant's clothes the bullet entered Mrs. Waldron's leg just under the knee and came out near the point of the hip, causing a bad wound. Dr. Thompson was immediately called and dressed the wound. He found no bones broken and none of the main blood vessels injured, the bullet having passed through without spreading, and was found embedded in the leg of the lounge. Much sympathy is expressed for the wounded woman, who has suffered severely since the accident. Dr. Lynch was called in consultation Monday morning.

ed Officers, and Men of the 117th Eastern Townships Overseas Battalion.

Sirs.—The citizens of Sherbrooke eagerly grasp the opportunity afforded by your visit here this evening to give expression to the earnest feelings they have in your regard.

From the beginning of December to the beginning of May, while we were particularly favoured with your presence in our midst, we watched your progress from day to day with the keenest interest. When, a few weeks ago, you marched to the front, we could not help but remark with complete satisfaction the splendid results which had attended your close application to able training during those few months.

From what we have seen we know that when the firing line is reached, your valor and your skill will swell the glory of our country, our townships and our city.

Please accept the humble gift of Victoria's which the citizens of Sherbrooke are offering through their Board of Trade to each Company of the 117th Eastern Townships Battalion. We hope that every one of you will regard them as a souvenir of the interest, the esteem, the pride and the love which the citizens of Sherbrooke feel for the noble sons of the Eastern Townships.

We wish you God-speed.

LADIES' AID OF SUTTON METH-
ODIST CHURCH.

Sutton, May 30. (Special).—At the annual meeting of the Ladies' Aid of the Methodist Church the secretary's report was submitted.

Since May 26, 1915, the Society has held 20 Aids. The president, Mrs. Flannery, presided at 17 of these and the 1st Vice-Pres., Mrs. L. A. Smith, at the remaining three. These gatherings have all been held in the Lecture Room, entertained by the members in their turn. The arrangement of six ladies entertaining, suggested and proved by Mrs. H. A. Parsons, has started very successful, the ladies who made the arrangements for this year were Mrs. L. Draper, Mrs. Hurlbut, Mrs. H. A. Parsons and Mrs. Wm. Clark.

At the beginning of the year there was on hand \$76.59, and during the year there was raised \$122.09, making total of \$198.68. The expenditure was \$28.61, leaving balance on hand of \$170.07. The only source of income this year has been from regular Aids, as no sales or social gatherings have been held. Assistance was given the Red Cross work by the proceeds of the Aid held Nov. 24, which amounted to \$15. On Jan. 19 there was instituted the "Bible Box." The money obtained in this way is used in buying small remembrances for sick members. During the year one of the Society's devoted members and a former president passed away in the person of Miss Diana Wilson. Very recently an honorary member, Mr. H. A. Parsons, who always took great interest in the aid, passed away. His witty speeches and jovial manner were the life of any gathering which he attended. Many of the members have been called upon to pass through the dark waters of sadness this year and give up those very near and dear to them, as follows:

the president, Mrs. Flannery, and 1st vice-president, Mrs. L. W. Smith, Mrs. H. A. Parsons, Miss Pearl Wilson, Mrs. H. A. Parsons, Mr. and Mrs. J. Parsons and Mrs. Bickford. One of the honorary members, Sgt. Eber Eastman, has answered the call of his King and Country and gone to take his part in the great conflict now raging in Europe. Mrs. MacDonald, Mrs. Eastman, Mrs. Boright and Mrs. Dow have sent their sons to help swell the mighty army which is fighting for the Empire. Since completing this report the whole community has been inexpressibly shocked by the news of Norman MacDonald's untimely death at the front. He is the first of the local boys to give up his life. The sympathy of the Society goes out to his bereaved parents. Three of the faithful members have been unavoidably absent several times lately on account of poor health. Mrs. Parsons, Mrs. Bickford and Mrs. Geo. Clark. This is Rev. Mr. and Mrs. Hayden's last meeting with the Society. They will be much missed as they have both entered so heartily into the joys and pleasures. In reviewing the past year despite the many sorrows that have come to the Society and to individual members we should be extremely grateful for the many blessings which we have received, and as we compare our lot with poor Belgium and other European countries we appreciate our blessings have not been few.

S. and Mrs. Fuller, after visiting friends in Montreal, returned home on Friday.

The death of Mrs. Fern Perrault took place in town during last week, at the age of 84 years.
