[As it has not been ascertained whether the vessel will hold in her present position, no bearings have been published.]

LIGHT HOUSE ON Pointe DES MONTS.

Keeper, - - - Jas. Wallace,
 Will shew a light every evening from sunset to sunrise, between the first of April and the thirty-first of Decr. inclusive.

The following Notice was published by the Trinity House on the 4th October last, relating to this Light House:—

NOTICE TO MARINERS.

That a Light House has been erected on **Pointe DES MONTS**, (or Cape Monts Pelés) on the north side of the River St. Lawrence, nearly opposite to Cap Chat, the Lantern standing one hundred feet above the water.

The Light House lays with the outermost part of **CARIBOU POINT**, N. 52° . East and S. 52° . West,

L IGH T-HOUSES.

by compass, and it can be seen over that point and to the Eastward of it.

Ships approaching the light from the Eastward, as they draw towards Caribou Point must bring it to bear W. by S.; they will then be in a good fair way, and if necessary they can near the land by their Lead.

After passing Caribou Point, and as they draw towards the Light House, they must come no nearer than 12 fathoms water to avoid two ledges of rocks, one of which lays E.S.E. from the Light, with only 12 feet water on it; the other lays S. W. from the Light, and E. S. E. from the Western extremity of Pointe des Monts, with 16 feet water on it; but these rocks do not lay farther from the shore than half a mile at low water.

The Light House lays with the western extremity of Pointe des Monts N. 64° . East and S. 64° . West, and distant about one mile; and when ships are to the Westward of the Point; the Light House is in one with the outermost Rocks off the Point; and in the day time it forms a bold distinct Land Mark; and on this line of bearing ships are in the best possible fair way for the general purposes of Navigation, whether bound up or down.

For any particular purposes of Navigation, Ships may safely stand to the Northward, until the Light bears E. by N.; they will then be drawing near the North Land; and when it bears E. $\frac{1}{2}$ N. it is time to tack; for when it bears East it will shut in with the High Land and cannot be seen to the Southward of East, and then they will be only one mile from the Land, and if they are off Godbut river, Pointe des Monts will bear from them E. by S. two leagues distant.

When ships are off Saint Nicolas Harbor, and the light bearing E. by N. they are in a good fair way

from the North Land. The S. E. spitt of *Manicouagan* great Shoal, the Ship and the Light House are then all in one line of bearing.

LIGHT HOUSE ON S. W. Point of ANTICOSTI.

[The building for the Light was completed this fall. The Lantern will be placed on it early next spring, [1831.] The light will be a revolving one, and the mason work being large it will form a good land mark.]
