American People To-day Decide Presidential Victory

Expected to Exceed Normal--Republicans Making Strenuous Effort to Prevent Destruction of Majority in States Hitherto 'Safe'--Right of Women to Vote an Important Issue at the Polls

Reports to headquarters of the central committee of the Republican party, bore out the fact of heavy voting in the central and southern states. It is expected that the vote would be cast in favor of Wilson, and that the reason for this is the fact that the Governor of the state of New York, the Vice President of the United States, and the Chairman of the National Committee, are all Republicans. It is also expected that the vote will be cast in favor of Wilson, and that the reason for this is the fact that the Governor of the state of New York, the Vice President of the United States, and the Chairman of the National Committee, are all Republicans.

WILLIAM H. TAFT

KEY TO ELECTRIC LIGHT FLASHES

Announcing which candidate is in the lead at the precise hours of eight, nine, ten and eleven o'clock this evening.

- ROOSEVELT — ONE FLASH
- TAFT — TWO FLASHES
- WILSON — THREE FLASHES

If the alphabetical order is noted there will be no confusion.

If on the tick of the hour the electric lights flicker but once Roosevelt will be in the lead according to calculations up to that hour. If the lights flicker twice Taft will be leading, and if three times Wilson will be ahead.

In every home, hotel, theatre and public building, lighted by the M. L. H. & P., or the Westmount L. Co., the lights will flash precisely on the tick of eight, nine, ten and eleven o'clock. Those who are on the streets will be able to read the Flashes through the windows of buildings lighted by electricity.

This service was arranged and entered into conjointly by the M. L. H. & P., the Westmount L. Co. and the Publishers of the 'Daily Witness' exclusively, in the interest of the citizens.

The results will also be bulletined at the 'Witness' Corner, and inquiries by telephone will be dealt with as promptly as possible.

BALT MINERS BACK TO WORK

The miners who were on strike in the Baltimore district have decided to return to work today at the mine, and this has settled all differences between the men and the owners.

PLAGUE MAY BREAK OUT THROUGH WATER SHORTAGE IN CITY

Hospitals Carrying on Their Work Under Difficulties Which Threaten Epidemic.

Sanitization is not the only or the most serious danger with which the city is threatened by the serious shortage of the water supply. Under the refractory administration of the city government, the system of civic government approved by the citizens, and the earnestly faced water problem of the city may be in the grip of a deadly outbreak of some epidemic. It is not unlikely, under existing conditions, that an alarming epidemic of the kind or another, may be the result of our present lack of a proper water supply. In the large hospitals the water is keenly felt. One has only to see the problem a nurse has to solve when she finds herself in charge of a patient with a fever, to see how serious are the conditions arising from the lack of a proper water supply. Surgical cleanliness is a well-known phrase in the hospital world, and it is the only way to obtain this state of cleanliness under the present lax management of our water system, becomes a difficult problem. Surely something must be done, and the question must be a matter for haste, as well as a careful study of the best method of obtaining a permanent supply which will not fail.

M'GILL AFFECTED

Impossible for Engineering Classes to Conduct Experiments

The existing conditions of the water supply have been causing at McGill, as elsewhere on the higher levels, a great amount of inconvenience and trouble. Several times during the past week or two it has been found imperative to extinguish the fires under the boilers in the Macdonald Engineering Building, as the water supply had been cut off, and it was feared that damage would be done through burning or melting of the boilers. Yesterday afternoon the students could only get through part of the work detailed to them. Several important experiments in the Mechanical Engineering Laboratory had to be postponed as it was found impossible to maintain a sufficient head of steam or to measure the intake of water, which was somewhat spasmodic. Should this state of affairs not be remedied soon, it is feared that the experimental work of the term will be seriously affected.

BREAKS IN WATER MAINS REPAIRED

Officials of the water department bore a look of relief this morning as a result of the completion of repairs to the breaks in the water pipes on Papineau Avenue, and at the main pumping station. No water is now being wasted through these breaks, and pumps are forcing water up through the pipes that the rate of more than three million gallons an hour. Owing to the empty reservoir, it will take some time yet for the department completely to master the situation, and regain lost time. The lower reservoir, it was said by Mr. T. Lesage, superintendent of Waterworks, was partly filled this morning, and by this evening, when the factories close down, there will be sufficient water for all the citizens. Mr. Lesage said that he wished to contradict an assertion made by fire insurance people to the effect that the place where Sunday night's fire broke out was equipped with the sprinkler system. 'Chief Tremblay tells me,' said he, 'that the fire broke out in an empty shed, and before the brigade could get down the hill the flames had traversed three hundred feet. In that case, nothing could have saved the building.' Mr. Lesage and Mr. George Janin, chief city engineer, held a long conference and discussed the water situation this morning. Mayor Lavallee has expressed his determination to take emergency action to prevent a conflagration should any further breaks occur and a fire start.

THREATEN TO RAISE INSURANCE RATES

That the present water situation was regarded with grave concern by the underwriters, and that if something were not done to relieve the situation immediately, and to prevent more serious breaks, impairing the water service, the underwriters, in justice to themselves and their companies, would be forced to increase the insurance rates. This was the unanimous opinion expressed at the meeting of the Canadian Board of Fire Underwriters at a meeting held this morning. The meeting was to consider the report of the committee appointed at yesterday's meeting to inquire into the water works situation. After hearing the report the following resolution was unanimously adopted: 'That in view of the enormous liability assumed by the Fire Insurance Companies transacting business in this city, the securing of which protection is absolutely essential to its trade and commerce, the Underwriters regard the present situation and future prospect with the gravest concern, and, before considering what steps they should take to conserve the individual interests of their companies, do most earnestly request the Mayor to investigate into and report at any early date upon the whole conduct and management of the waterworks department of this city. Following was the report in full: 'Whereas the breakages in pumps and mains of the city waterworks have occurred with alarming frequency, causing serious interruption to and shortage of the city's water supply. The recent complete disruption of No. 4 Pump on the 12th ult. (still under

CONTROLLERS AROUSED

Extraordinary steps were taken by Controller Godfrey to cope with the situation yesterday, and this morning he told a 'Witness' reporter that he had urged on the Board of Control the provision of a sufficient reserve of pumps to cope with any situation that might arise. He said also: 'We shall have the broken pump repaired this week; we shall have another new twelve-million gallon pump in operation in ten days, in reserve if not needed. In addition to this, tenders are being called for to replace a seven-million gallon pump with a twelve-million gallon one, giving us seventeen million gallons to the good, and I am also going to urge my colleagues and the City Council to purchase a third twelve-million gallon pump. This will provide ample water for some time in the future. It will enable us to have always two twelve-million gallon pumps in reserve.'

POWERS ADMIT BALKAN RIGHTS

London, Nov. 5.—The British attitude in the Balkan situation was explained today in the House of Commons by Sir Edward Grey, the Foreign Secretary, who was loudly cheered when, in reply to a question, he said: 'No one, in view of the result of the war up to date, will be disposed to dispute the rights of the Balkan states to formulate the terms on which they are prepared to conclude peace. Do not think that the great powers are more slow than other people to adjust their known views to the march of events. The powers are exchanging views in regard to the position in the near East, but it must be a very delicate matter for them to interfere between two powers unless they do so at the request of both.' Asked whether Great Britain could not follow the precedent of the United States in the Russo-Japanese war, Sir Edward Grey did not reply.

ANOTHER BODY FOUND.

It was stated to-day by Deputy Coroner Bixon that another body of the victims wrecked on the steamship 'Cecilia L.' was found early this morning somewhere near Caughnawaga. She is Mrs. Michaud, of St. Henri her exact address not being known. She was taken to Lachine from where she will be brought to the morgue in the city sometime this afternoon.

So far, said nothing outward had yet happened at Constantinople. The situation there remained as it was yesterday, the city being in a state of apprehension as to what might happen. Sir Edward denied that Great Britain had given a warning of any kind to Bulgaria. The movements of British ships and their intentions were precisely similar to those of the other powers, namely, to protect lives. The steps had been taken as a result of communications which had passed between the powers.

THE 'WITNESS' CORNER

The 'newsie' chased the street car a long block up the street to give his customer two cents that he still owed him. He had received a five cent piece for a 'Daily Witness' and when he had handed over the two cents which a dive into his first pocket yielded, the car was off. 'Eh! Johnny, that was easy money,' his mate laughed. But Johnny was dashing after the car. It was a stiff race, but just as it was leaving the next corner, he caught it and, hurrying inside he dropped the two coppers into the lap of his customer and then jumped off again. It wasn't much — just two cents that the newsie had — but it revealed the noble mould in which he was cast. He who was honest in the little thing, would be, too, in the greater. THE OPTIMIST.

Aida

Forty years ago in Cairo there was produced an opera that was destined to take its place in the rank of the most monumental works in the realm of music.

It has been produced in the meantime thousands of times in various parts of the world, and it was not absolutely new to Montreal, several productions of it having been given here by companies who were here today and gone to-morrow.

Now we have in Montreal our own opera company, capable of producing 'Aida' with great distinction.

It was well that the audience was early for the new tenor, M. Lafitte, who on the stage at the very beginning, and his most trying aria, 'Celeste Aida,' comes at the very outset of the opera.

The title role introduced a new soprano, of whom much had been expected. Mme. Amsden is a dramatic singer with the greatest charm, and her voice is flexibility itself.

In the Egyptian princess scene, she met another new artist, Madame Claessens, who will be a tower of strength to the handsomely organized company.

Mr. Goddard was a glorious high priest, towering head and shoulders over the lesser priests, with a physique that made him a study in itself.

Another good actor, as well as singer, is M. Poiese, who sang the difficult part of the captive king.

LEGISLATURE OPENS TO-DAY

(Special Staff Correspondence.) Quebec, Nov. 5.—Dull, threatening skies slightly marred the splendor of the formal opening of the Provincial Legislature this afternoon.

The members of the Assembly repaired once more to the council chamber, where the Lieutenant-Governor delivered a speech from the throne.

There was the usual brilliant assemblage of prominent people from this city, from Montreal and other parts of the province.

The wives and daughters of the members of both chambers and many other ladies, present in finest attire, constituted a gorgeous spectacle.

The young who had the money in his possession was James St. Marcel, of Cascades, who was accompanied by his mother, on what proved to be the last journey for both of them.

The circumstances connected with the obtaining of this money and the manner of its loss read like a romance by a sensational novelist of the type of Poe or Conan Doyle.

It was well that the audience was early for the new tenor, M. Lafitte, who on the stage at the very beginning, and his most trying aria, 'Celeste Aida,' comes at the very outset of the opera.

The title role introduced a new soprano, of whom much had been expected. Mme. Amsden is a dramatic singer with the greatest charm, and her voice is flexibility itself.

STOCKS DULL C.P.R. UP LITTLE DETROIT DOWN

Trading on the local market to-day was practically of a holiday character. After a few transactions at the opening, absolute dullness prevailed.

This stock made an upward move from 261 3/4 to 262 1/8, while Detroit declined a half point to 71 3/4.

The New York Stock Exchange closed today, its being Election Day for the Presidential voting.

LONDON CLOSING PRICES. London, Nov. 5, 4 p.m.—Consols for money 73 1/8; do. for account, 74 1/8.

AFTERNOON BOARD. Steel Com.—25 at 61. Canada Locomotive—100 at 59.

Sales after 2:30 p.m. Montreal Cotton, Pfd.—5 at 105 1/2. Cement Com.—50 at 29.

STANDARD OIL CO. OF NEW YORK MORE CAPITAL. New York, Nov. 5.—Capital stock of Standard Oil Company of New York will be increased from \$15,000,000 to \$20,000,000.

MARKET THIS P.M. The Stock Market was not active in the afternoon, but towards the close of the session there was a little buoyancy shown in such stocks as Richelieu and Detroit United.

Money More Plentiful in London—Market Still Vacillating—Yankees Firm. London, Nov. 5.—Money was more plentiful and discount rates were a shade easier to-day.

C. P. R. TRAFFIC EARNINGS. An official statement issued by the Canadian Pacific Railway shows the traffic earnings of the company from Oct. 21, 1912, to Oct. 31, 1912, to be \$1,295,000, as compared with \$3,675,000 for the same period in 1911.

BOSTON BROKER FAILS. Boston, Nov. 5.—Theodore D. Dupe, a member of the Boston Stock Exchange, announces his inability to meet his liabilities.

40,000 NEW SHARES. Boston, Nov. 5.—At the annual meeting of the Boston Elevated Railway Company, it was voted to issue 40,000 shares of stock at 105, thereby increasing the capital stock of the company from \$19,950,000 to \$23,950,000.

EAST BUFFALO CATTLE. East Buffalo, Nov. 5.—Cattle receipts 500 head, active and steady. Hogs, receipts 1200 head, active and steady.

ROYAL GEORGE LIST. Following is the advance list of the Royal George, which sailed from Montreal for Halifax on Saturday.

McGILL LECTURES SUPERVENED. Lectures were supervised yesterday in the fourth and fifth years matriculate at McGill to allow the students an opportunity of hearing Mr. Fane of the University of Toronto.

St. Bruno district is being scoured by a posse searching for the assailant of Miss Lindsay, St. Lambert.

DOMINION STEEL CO. CREATES NEW RECORD OUTPUT.

Sydney, N.S., Nov. 5.—(Special.)—The October output figures for the Dominion Steel Company just issued, show the month to have been the most successful yet experienced by the Steel Corporation.

The figures follow:— Pig iron... 31,000 Tons. Ingot... 29,975. Blooms... 27,880. Rods... 15,888. Coke... 50,540.

NEW RAILWAY IN WEST IS NOW ABOUT TO START. It was stated that Mr. E. G. Rykert and Mr. H. Musket King, acting on behalf of a very important group of powerful London financiers had completed the organization in Canada of the Alberta, Peace River and Eastern Railway Company.

TEXTILE CO. IN FINE POSITION. Recent reports show that the orders on hand of L. J. Dominion Textile Company represent a value in excess of \$4,000,000.

TORONTO SALES. Toronto, Nov. 5.—Sawyer Massey, 35 @ 48 1/2; Mackay, 70 @ 52 1/2; C.P.R. 100 @ 261 3/4; Bell Tel. 70 @ 161 1/2; Electric Def. 70 @ 65 1/2; Dominion, 10 @ 112 3/4; Canadian Locomotive, 100 @ 59; Shredded Wheat, 2 @ 85; Maple Leaf, 50 @ 9 1/2; Steel of Canada, 10 @ 23 1/2; Dominion, 10 @ 23 1/2; Standard, 10 @ 23 1/2; Canadian Locomotive, 100 @ 59; Shredded Wheat, 2 @ 85; Maple Leaf, 50 @ 9 1/2; Steel of Canada, 10 @ 23 1/2; Dominion, 10 @ 23 1/2; Standard, 10 @ 23 1/2.

TORONTO CATTLE MARKET. Toronto, Nov. 5.—The City Cattle market this morning was exceptionally slow, with but few transactions.

REPUBLICAN STEEL CO. MAKING BIG MONEY—PLANT RUNNING FULL TO MEET ALL ORDERS. Cables from London on Canadian Pacific Railway are as follows:— First Cable... 261-1-8. Second Cable... 261-1-8. Third Cable... 261-1-8.

C.P.R. WEAKER. Cables from London on Canadian Pacific Railway are as follows:— First Cable... 261-1-8. Second Cable... 261-1-8. Third Cable... 261-1-8.

WHEREABOUTS OF FINANCIERS. Mr. T. J. Drummond has returned from Sault Ste. Marie, Ont.

RECEIPTS IN MONTREAL. Following were receipts reported to the Board of Trade this morning:— Wheat... 4,488. Oats... 2,701. Flour... 350. Hay... 350. Eggs... 2,319. Cheese... 2,370.

GRAIN ELEVATOR RECEIPTS. Following were receipts reported to the Board of Trade this morning:— Wheat... 4,488. Oats... 2,701. Flour... 350. Hay... 350. Eggs... 2,319. Cheese... 2,370.

LIVERPOOL MARKETS. Liverpool, Nov. 5, Closing.—Wheat, spot 1 No. 1 Man. 8s; No. 3 do. 8s 1/2; futures easy; Dec. 7s 1/2; March 7s 3/4.

OCTOBER INCORPORATIONS. New York, Nov. 5.—October incorporations had a total par stock value of \$33,765,000, as compared with \$187,850 in October, 1911.

WINNIPEG GRAIN. Following was the course of the Winnipeg Grain Pit this morning:— Wheat... 55 1/2. Oats... 32 1/2. Flour... 3 1/2. Hay... 3 1/2. Eggs... 23 1/2. Cheese... 23 1/2.

Winnipeg Grain. Following was the course of the Winnipeg Grain Pit this morning:— Wheat... 55 1/2. Oats... 32 1/2. Flour... 3 1/2. Hay... 3 1/2. Eggs... 23 1/2. Cheese... 23 1/2.

Every Gold Debenture Issued By The Great West Fisheries, Ltd., Pays Annually 6% And Participates In All Profits, Besides Being Insured Against Loss of Principal.

The great West fisheries of B. C., whose head office is 515 Sayward Building, Victoria, B.C., is a concern which will bear the closest investigation. It controls, through license, vast areas of valuable fishing waters in Northern British Columbia.

Every Bond is insured against loss of principal to the investor, through the Granite Securities Coy., whose assets and surplus behind this issue is \$700,000. One hundred shares of common stock are set aside against every bond as a Bonus, and from which the holder draws dividends, while the Profits in this industry are large, being about 100%.

YOU CANNOT MAKE A MORE SAFE INVESTMENT THAN THIS. ALL DEBENTURES ARE ISSUED IN DENOMINATIONS OF \$100.00 EACH, AND ARE BEING OFFERED TO THE PUBLIC AT \$95.00, ON TERMS OF 1/2 CASH, BALANCE 60 AND 90 DAYS. 100,000 Shares of Common Treasury Stock are also Placed on the Market at One Dollar per Share

For the convenience of the small investor we have placed an issue of common stock on sale; these shares are non-assessable, and when paid for are fully paid up, having a par value of \$1.00, these can be had on terms of 50c down per share, balance 60 and 90 days.

FILL OUT THE ATTACHED BLANK TO-DAY, AND MAIL TO R. SWORDS, SOLE FISCAL REPRESENTATIVE, 410 POWER BUILDING, MONTREAL.

APPLICATION FOR SHARES or BONDS IN THE GREAT WEST FISHERIES Limited. TO R. SWORDS, 410 Power Building, Montreal. I, _____ beg to apply for _____ Shares in the Great West Fisheries, Limited, and herewith enclose cheque for \$_____ being 50 percent per Share, or Bond, payable on application, and I agree to accept and to pay the balance of 50 percent per Share or Bond in 60 and 90 days from date.

American Hockey Scout Says Lichtenhein is the Czar of Hockey

WANDERERS WILL BE HARD TO BEAT

Mr. Sam Lichtenhein was again chosen president of the Wanderers Hockey Club last night at a meeting of the shareholders. Mention was made of the fact that the president had seen Lehman, who has been in town for a few days, and although Mr. Lichtenhein did not say whether or not, he had signed him up, it is pretty generally understood that he

will be seen in the Wanderers line-up this year. All the directors are most enthusiastic over the outlook for the coming season, and they feel that they have a team that will be difficult to beat.

The following are the officers chosen: President—Sam Lichtenhein. Vice-president—J. O. Cleghorne. Secretary—Arthur J. Spears. Directors—Art Ross, Ernie Russell, P. H. Kasel.

REFEREES' ASSOCIATION HELD SPECIAL MEETING

Last night in Nault's Hall, Mr. Bob Walker presided over the largest gathering of 'whistleblowers' that ever assembled in the city. The business before the meeting was of the utmost importance to the association as a body, it being alleged that five members had violated the rules and constitution, but the main point at issue was a letter received from the P.O.A. in the following terms, and addressed to the secretary:

subject: Draconic measures were proposed, and finally it was agreed to reply as follows: That this meeting of referees of the province of Quebec desires to place on record the valuable services of their representative, Mr. W. G. Hay, and to inform the P.O.A. that it does not see its way clear to send another in his place.

"Dear sir,—At a meeting of the association, held on Monday, Oct. 21, the following motion was passed, viz.: "That a letter be sent to the Referees' Association asking them to send another representative to the P.O.A. meetings. Trusting your association will comply with the request of the association at their earliest convenience."

REFEREE BRAND'S TOMBOLA. Favorable reports were given, and the drawing will take place on Wednesday, 30th inst.

SOCERITE. The following members were chosen to make full arrangements for a "Special Evening," viz.: Messrs. R. Walker, A. Freedman, W. D. Moore, P. H. Kasel and W. G. Hay. Particulars will be submitted at the next meeting.

M'GILL WILL PLAY PARKDALE ON THE LOCAL CAMPUS SATURDAY

A game has been arranged for next Saturday between McGill and the Parkdale teams on the local campus. McGill received an invitation from the Parkdale team, but preferred to play on their own oval.

Saturday, and 'Pop' Falsely broke his hand in the tussle with the Presbyterians.

SPORTING BRIEFS

The conduct of which Jack Johnson stands accused in the United States has proved sufficient to bar him with all the fight promoters in the world. This is significant, as it shows that even in this professional sport, which is far from having associations which are most commendable, they cannot discriminate without paying the penalty.

HAVE BEEN CONSIDERING INTERNATIONAL MEETING. Cambridge, Mass., Nov. 4. The officials of the Harvard Athletic Association said today that they had been considering the possibility of a proposed athletic meeting between Yale and Harvard, and Oxford and Cambridge. They said the action had been taken by Harvard. The officials are of the opinion that a formal proposition of the Englishmen would be accepted.

A despatch from Vancouver states that Frank Patrick has signed Charles Tobin, a well-known Winnipeg player, for the Vancouver team. Frank Patrick is also credited with the statement that he will trade "Newsy" Lalonde for Pitre with the Canadiens.

PRINTERS' BOWLING LEAGUE. The season of the Printers League opened last evening on the Canadian Allys and some interesting games were participated in by the different offices.

Jimmie Gardner has definitely stated that he will return to the Coast.

Appended are the full scores: La Patrie.

There is a possibility that two young hockey stars from the Eastern Townships will be seen in the big league this year.

Paquette 117 164 93
Gauthier 137 160 135
Dupuis 130 124 100
Davignon 102 120 85
Gilbert 120 138 113

Bartlett Macleannan's steeplechaser "Cherish," ridden by Harvey Boyle, a Canadian jockey, won a sensational race from George Eno at Baltimore yesterday.

SEMI-ANNUAL MEETING OF SNOWSHOE UNION

Notices have been sent out calling the semi-annual meeting of the Canadian Snowshoe Union for Saturday night, Nov. 9, at Blonid and Corbell's hall at 8 o'clock.

Bedding 147 123 131
Kenney 116 131 128
Whelan 124 140 155
Menzies 124 135 128
Reynold 143 125 122

That the annual fee in the union shall be a year instead of \$2, as provided for by par. 1, article II.

Totals 874 674 664

That any club wishing to become a member in this union shall not take the name of any club of this union, even with the addition of the word "Independent."

Star Blue.

That any club belonging to any city, whether or not a member of the Canadian Snowshoe Union shall form a local union for the organization of any local events.

Bryant 100 114 139
Coody 148 152 122
Jackson 143 144 108
Hollard 152 167 141
Bicketts 177 173 150

The secretary shall have a vacant position, provided by the constitution of each club, member of this union, and it is necessary to appoint a member of that club with the same position as that of the secretary, which should be used to transfer any club and the person thus mentioned shall be secretary.

Totals 725 752 621

SIX-DAY BICYCLE GRIND

Boston, Nov. 4.—Twenty-six professional bicycle riders from several foreign countries and various sections of the United States to-night completed the first ten-hour-day of a six-day bicycle race at the Boston Arena, the leaders passing 239 miles, a new mark for the time.

Herald.

All but one of the thirteen teams made 239 miles and a new mark of the course, the Waltham-Collins team being two laps behind. The twelve other teams competing are: Clarke-Hill, Diefenbacher-Carmen, Pro-Torch, Moran-Magin, Root-Hehr, Lawrence-Drohbach, Wells-Mitten, Gardinelli-Lofes, Krebs-Jokus, and Thomas-Ryan.

Bentley.

SHAMROCK HOCKEY CLUB HELD ANNUAL MEETING

The Shamrock Hockey Club will again figure in the Interprovincial Hockey Association, it was announced at the annual general meeting held last night in the Young Irishmen's Hall. The election of officers resulted as follows:

TIGERS-MONTREAL MATCH—HELD ON THE FIFTEEN YARD LINE, TIGERS' BALL.

THE TWELVE FOOT RING WILL BE USED THIS WINTER

At a Meeting of the Canadian Branch of the Royal Caledonian Curling Club of Scotland Held Last Night it was Decided to Abandon the Big Ring in Favor of the Smaller One

MR. WILLIAM AIRD, WHO FOR MANY YEARS HAS BEEN SECRETARY OF THE BRANCH, RESIGNED HIS POST LAST NIGHT, AND WAS SUCCEEDED BY MR. W. E. FINDLAY.

Throughout the coming season the 12-foot ring will be used instead of the fourteen foot circle, by all clubs affiliated to the Canadian Branch of the Royal Caledonian Curling Club of Scotland. This was finally decided at the meeting of the Canadian Branch of the St. Lawrence Curling Club last night.

Secretary-treasurer, W. E. Findlay. Committee—Messrs H. M. Watson, St. Andrews; W. M. Taylor, Montreal; R. Lucas, Lachine; W. J. Little, Outremont; H. G. Willis, Thistle, and G. A. Robertson, Heather.

CANADIAN PROFESSIONAL HOCKEY IS A SLAVE TRADE SAYS AMERICAN SCOUT

'Sam Lichtenhein is the Czar of professional hockey. Ben Johnson's rule in the American baseball league is mild compared to the iron grip Lichtenhein has over all organized hockey,' said Roy Burgess in the United States.

The N. H. A. have competition to fear from other quarters than the Lester Patrick league on the Pacific coast. Several of last year's stars will migrate to the Yankee association for the coming season.

Mr. Burgess promises to make some startling announcements regarding his professional hockey captures for the year.

The system of Canadian hockey management is bitterly resented by this Detroit scout. "There should be a free market and let the men so where they can get the most money," he suggested. "We could easily outbid them in the matter of salaries. No wonder fat jockey dividends are piled up over fat jockey companies. The Wanderer club alone, I understand, made ten per cent on its investment. Why, nobody can help making money when they're practically got the system down to slave trade."

Mr. E. Lichtenhein, President of the Wanderer Hockey Club, whom Roy Burgess has characterized as the 'Czar of the hockey world.'

BASKETBALL SEASON HAS OPENED

The Y.M.C.A. basketball season was opened on Saturday at the North Branch gymnasium, when the Hurons and Crees and the Tigers and Beavers met. The matches proved that the season would be productive of some high class basketball.

WHAT THE 'DOC' SAYS. Ottawa, Nov. 4.—Doc. Galvin, coach of the Ottawa Rugby, commenting on the result of Saturday's game, had this to say:

Hurons (16). Crees (5). Wilson.....Defence. St. Pierre James.....Defence. Lester Pitteau.....Centre. McKenzie Aleshaian.....Forward. Major Balfry.....Forward. O'Connor Tigers (18). Beavers (25). Drysdale.....Defence. Denman Kell.....Defence. MacKenzie McLean.....Centre. MacKenzie James.....Forward. J. Perrault Cunningham.....Forward. J. Bright

By losing three or four of our most valuable men through injuries. However, I expect that Ottawa will even the score by administering a defeat to the Argonauts at Toronto next Saturday.

BRITISH FOOTBALL. London, Eng., Nov. 4.—Football games played to-day resulted as follows: Fulham, 3; Clapton Orient, 2. Leicester, 2; Stockport, 1. Nottingham, 3; Tottenham, 0. Cambridge University, 58; West of Scotland, 0.

MR. H. MASSAC BINST REVIEWS AEROPLANING DEVELOPMENT

This Celebrated International Sportsman and Writer Tells of the Various Improvements Made in Machines During the Past Year.

The season of exhibitions designed to reveal the progress of various forms of motoring in Europe will start this year with the Aero Show in Paris, to open on Saturday next. This is the fourth of the series in France, when the industry is sufficiently flourishing to be able to stand the expense of such enterprises, thanks to the fact that the French public is much more more keenly interested in the than the British. The francs that have been paid at the turnstiles of the Grand Palais have sufficed to make a success of their aeronautical exhibition, whereas when some seasons ago our Society of Motor Manufacturers and Traders put up some thousands of pounds to encourage this new branch of the motoring industry, the attendance of the public at Olympia was only a few hundred, the building being practically empty of visitors for a week on end.

One direction in which we are still awaiting progress is in the production of the possibilities of producing wings of variable camber and increasing lift by side-slipping in German practice, and in this country the Handley Page monoplane has given a lead. The Handley Page monoplane has not been modified for a long time, but it is a machine that is well adapted to the requirements of a suitable engine, besides which it has the advantage of being able to get the right proportion of body area (altogether apart from wing surface) to wing surface. This line of development, however, cannot be pursued with any profit, as the increasing energy in fact of the resulting tragedies arising from the use of a self-righting flying machine will regain its balance in mid-air, and the use of a self-righting machine will be a great advantage.

THINKS N. H. A. WILL HAVE WORK CUT OUT

Ottawa, Nov. 5.—George Kennedy's announcement that he had secured the signature of Jack Fournier to play with Canadians this winter appears to have been premature. Fournier announced himself yesterday that he was carrying round a contract from Kennedy, but has not signed it, and does not intend to. In fact, Jack has not yet settled to accept an offer from the Toronto Club, which would probably play there next winter.

When it is considered that the views of constructors differ when a stated that the supporting surface varied from a hundred to seven hundred square feet, the overall length from 17 1/2 feet to 45 feet, the power provided from 35 to 120 brake-horsepower, the loading of the wings from 25 to 50 lbs. per square foot, and the weight carried per brake-horsepower from 14lb. to 20lb. Moreover, it was demonstrated that machines of about 250 square feet and those of 2500 square feet were able to lift 11 lb. of the tests. Thus the different methods of construction employed in every detail of the machines. Far from this being a matter for regret, it is surely the greatest cause we have for encouragement, that it proves that while we are on the threshold of this new science, flight is not a fad, to be abandoned as soon as the first few experiments are over, and that it is a science that is being developed in a dozen different factories. Take the mere question of the shape given to the wing section, wholly apart from its area, or plan view, the trade demands two constructors are agreed. Some have sharp, others have blunt edges, some are pronouncedly dipped, others not at all. Even in the dip the section of the upper plane

ZBYSZKO NOW CLAIMS THE CHAMPIONSHIP

New York, Nov. 4.—J. H. Herman, manager of Zbyszko, says that as Frank Gotch has announced his permanent retirement from the mat, he naturally forfeits his title of world's champion wrestler, and that Zbyszko should be regarded as the champion as a matter of course.

TOWARDS THE SELF-RIGHTING MACHINE. One direction in which we are still awaiting progress is in the production of the possibilities of producing wings of variable camber and increasing lift by side-slipping in German practice, and in this country the Handley Page monoplane has given a lead. The Handley Page monoplane has not been modified for a long time, but it is a machine that is well adapted to the requirements of a suitable engine, besides which it has the advantage of being able to get the right proportion of body area (altogether apart from wing surface) to wing surface. This line of development, however, cannot be pursued with any profit, as the increasing energy in fact of the resulting tragedies arising from the use of a self-righting flying machine will regain its balance in mid-air, and the use of a self-righting machine will be a great advantage.

M. A. A. WEEKLY SWIMMING HANDICAPS.

The weekly handicaps of the M.A.A. Swimming Club were held last night. There were two heats and a final in the 40 yards, the final being won by L. Wilson with 8 seconds handicap. In the diving competition, Peter Cameron was again successful.

him to give the foreigner a hard run for first honors. Holmer is said to be in the best form, and is a trial again around his best time. The trial was held on Monday night. The trial was held on Monday night. The trial was held on Monday night.

MCGILL RIFLE CLUB

In spite of the cold wind that was blowing there was a good crowd down to Pointe aux Trembles on Saturday afternoon. The light was very good, but the wind was exceedingly tricky, and the shot was very difficult to make.

WILL TRY FOR A NEW RECORD TO-DAY. Havana, Nov. 4.—The Philadelphia team of the American League won its first game of the series from the Havana team by a score of 5 to 0.

SUFFRAGETTES ATTACK MR. MCKENNA

London, Nov. 5.—The Home Secretary, Reginald McKenna, was prevented from making a speech last night in Holborn Town Hall because of the uproar created by suffragettes. The Secretary escaped a mauling by fleeing with his wife through a side door.

SULPHUR FOR XMAS CANDLES

Sulphur is being imported into Canada in enormous quantities, and is being used for the manufacture of Christmas candles. The sulphur is being imported from the United States.

DISCUSS PORTLAND CEMENT.

The Protection of the Foreshore at Dallas Road, Victoria, B.C., will be the subject of Mr. G. N. Duncan's paper to the Canadian Society of Civil Engineers, next Thursday evening. A discussion on the effort to sea water on Portland cement concrete will follow.

TWO BOATS IN PORT WITH GOES FROM ICELAND—HOW IT IS OBTAINED

Sulphur is being imported into Canada in enormous quantities, and is being used for the manufacture of Christmas candles. The sulphur is being imported from the United States.

FRANCE WILL HAVE PROFESSIONAL BASEBALL

Chicago, Nov. 4.—France will see its first league baseball game soon, says a cable despatch to the Chicago Daily News to-day. The French Baseball Union has just been formed, with Franck Messier, of Paris, as president, to promote the American game, with the ultimate idea of promoting a French competitor in the world's championship series.

CHICAGO WILL TRAIN AT PASO ROBLES

Chicago, Nov. 4.—President Charles A. Comiskey of the Chicago American League team, announced recently that the club will train for seven weeks at Paso Robles, Cal. The team will leave Chicago about Feb. 20, and return about April 10, he said.

EXHIBITION DEFICIT.

St. John, N.B., Nov. 5.—The financial statement of the St. John exhibition, as submitted to the city commissioners last night, showed a deficit after the grants have been paid of \$4,160.35.

DESPATCHING BY TELEPHONE.

The Grand Trunk Railway System is extending its system of telephone train despatching, and a line from Montreal to Chicago is contemplated in the near future. This system will be in operation between Toronto and St. John's, N.B., about the first of next year.

DISCUSS PORTLAND CEMENT.

The Protection of the Foreshore at Dallas Road, Victoria, B.C., will be the subject of Mr. G. N. Duncan's paper to the Canadian Society of Civil Engineers, next Thursday evening. A discussion on the effort to sea water on Portland cement concrete will follow.

EXHIBITION DEFICIT.

St. John, N.B., Nov. 5.—The financial statement of the St. John exhibition, as submitted to the city commissioners last night, showed a deficit after the grants have been paid of \$4,160.35.

BULGARIA DOES NOT WANT PEACE

Still Thrashing Turks, While Powers Remain Inactive, Though Interference Likely to Come Soon

The prospect that the Bulgarians will be able to defeat the Turkish army in the Tethania, the last battle of the war (Constantinople, is excluded, but whether the Bulgarians will be able to maintain in the Balkans a question which will be decided in the near future.

The Bulgarians are still able to hold their own against the Turkish army, but more than half their army is composed of the Servians alone. They have captured no less than 100,000 prisoners. The Bulgarians will certainly militate against the Turkish army.

The Bulgarians are still able to hold their own against the Turkish army, but more than half their army is composed of the Servians alone. They have captured no less than 100,000 prisoners. The Bulgarians will certainly militate against the Turkish army.

TURKS ENTRAINING FOR FRONT

TURKISH SOLDIERS RESTING AT STATION IN CONSTANTINOPLE, AWAITING TROOP TRAINS TO TAKE THEM TO FRONT. —Photo, Central News.

GREENFIELD PARK

A large amount of correspondence was read at Saturday night's monthly meeting of the Town Council. Near the close of the session was devoted to discussing and answering the different letters. In fact, another meeting will be held on Thursday to finish and consider the other business.

Three claims for broken vehicles were received, but only one was allowed, all claiming that the bad roads were the cause of the breakages. Mr. Beck, who had formerly sent a claim for \$200 for damage done to his property by the town employees in cleaning the ditch, wrote that he was willing to come to an amicable settlement, and suggested certain things but Council, after discussion, agreed to abide by its former offer of \$25.

The Citizens' Association requested Council to try and obtain an electric light service for the streets and houses. A protest was received from a meeting of citizens held against the manner of levying the tax for footpaths.

After deciding to meet on Thursday, Council adjourned. Mayor W. Murray, president, and Councillors LeBrock, McPherson, Harding, Walker and Parker were present.

McGILL NEWS

HOW TO BOIL POTATOES.

The first of the series of free popular lectures of the present session of McGill University was given last night in the Chemistry Building before a fair attendance by Dr. Alcock, of the Medical Faculty. The lecture was an illustrated one, and the speaker dealt in an interesting manner with the action of heat on the starch of the potato, and how cooking improved the flavor through its action on the starch. After enumerating and considering the various methods of cooking the potato Dr. Alcock said that from a scientific point of view, boiling the vegetable in its skin in a 'three decker' was the best method.

McGILL Y. M. C. A.

To raise \$1,200 in four days among the students of McGill University to help their own Y. M. C. A., is the object of a campaign that will start on Tuesday, Nov. 5, and finish on Friday, Nov. 16th. Last year the students set out to get \$1,200, and managed to secure \$1,000, the large 'million' thermometer was placed at the entrance to the grounds showing daily how the campaign was progressing, and causing quite a friendly rivalry among the leaders of the different classes. This year the classes will compete against each other, and though science has the majority of students, the arts boys are determined to give them a good fight for premier position.

Mr. B. McDiarmid is treasurer, and Mr. H. Chambers, assistant-treasurer of the movement, and the money realized will be devoted to the general expenses of the McGill Y. M. C. A.

ZIONIST WORK IN PALESTINE.

At the first meeting of the session of McGill University Oriental Society to be held to-night in the Lecture Theatre of Macdonald Engineering Building, the Rev. Nathan Gordon, Vice-president of the Society, will give an illustrated lecture on 'Zionist Work in Palestine.' The lecture is open to the public.

BOTH EYES DESTROYED.

Workman Blasting in Outremont Terribly Injured.

With a badly burned face, the sight of both his eyes destroyed, and a hole through his right lung, Adelard Martel, 35 years of age, and living at 113 Suzana street, was brought to the Royal Victoria Hospital late yesterday afternoon from the corner of Outremont and Van Horne avenues, Outremont.

WOMAN WHO WAS PURSUED.

Maria Marlon, charged with ringing a false alarm at 3.30 a.m. yesterday morning, appeared in the Recorder's Court and a defence stated that she was pursued by two men. The evidence showed that, at the time she was partially under the influence of liquor, and Mr. Recorder Weir found her guilty and imposed a fine of \$25.00.

ORNAMENTAL OFFICERS' LIST

Army Honors for Citizens Valorous in Other Walks of Life

Ottawa, Nov. 4.—That Canada is entering strongly into competition with the famous State of Kentucky in the production of ornamental colonels and other military officers without duty, is evident from the list of honorary colonels and Lieutenant-colonels issued by the Hon. Sam Hughes in the official militia gazette this morning.

The rank of honorary colonel has been conferred upon the following list of prominent Canadians, who have mostly found fame in other than battle-fields: Sir Thomas P. Shaugnessy, K.C.V.O.; Sir William Mackenzie, K.C.; Sir Donald D. Mann, K.C.; the Hon. Frank Cochrane, D. McNicol, E. J. Chamberlain, W. Wainwright, the Hon. Clifford Sifton, K.C.; the Hon. Adam Beck, James L. Hughes, A. H. MacKay, M.D.

To the following have been granted the rank of honorary lieutenant-colonel: Surgeon-Major J. Pennefather, retired list; the Rev. Canon G. Dauth, J. A. M. Atkins, the Rev. J. W. Macmillan, D.D.; the Rev. Robert Johnson, the Rev. Nathaniel Burwash, M.A., D.D.; the Hon. H. J. Cody, D.D., L.L.D.; J. A. Macdonell. The appointments have effect from August 17 of this year.

CHARGED WITH THEFT OF BIG SUM

Laurent E. Marthieu, secretary-treasurer for Revillon Freres, was arrested on Saturday for theft of \$10,000 from his employers, and pleaded not guilty when brought before Judge Lafontaine in answer to the charge. It was alleged the money was taken at various times during the past year. Bail of \$10,000 was fixed for his appearance on the 6th.

FUNERAL OF M. STATUS QUO.

Paris, Nov. 4.—You are requested to attend the funeral of Monsieur Status Quo, diplomat, who departed this life Oct. 30, 1912, in Macedonia, aged 495 years, says a notice in the 'Matin.' Sent on behalf of Turkey, his widow; Austria, his mother; England, his mother-in-law; Bulgaria, Serbia, and Greece, his daughters; Montenegro, his grandsons; Russia, his daughter-in-law, and Germany, France, Italy, etc., his cousins and second cousins.

A BROUILLARD, MAYOR OF DRUMMONDVILLE.

Drummondville, Nov. 5.—Yesterday's municipal elections resulted in the return of A. Brouillard, M.P., as mayor, with a majority of 41. The slate of aldermen elected comprises Messrs. McCallum, E. Archambault, D. Hober, O. Montplaisir, J. A. Manseau, O. T. Piche, J. C. Gendron, and A. Mercure.

FIRE OUTBREAK A MYSTERY.

An investigation held into the cause of the fire that occurred on the premises of the Elite Hat Company, 12 Bleury street, on Wednesday night failed to throw any new light on the situation. A number of employees of the factory who had been in the building up to an hour before the fire started were closely questioned by Fire Commissioner Ritchie, and all of them declared their inability to account for the cause of the outbreak. The \$10,000 damage done to the building is said to be covered by insurance.

THE SCHOOL PROBLEM

The Autumn brings a new school problem into thousands of Canadian homes—a problem that must be settled in the interest of mental, moral and physical culture. Education at the sacrifice of health is a costly luxury.

The best food to study on, to play on, to work on, is

It is the favorite cereal food in Canadian schools as well as Canadian homes because it contains all the muscle-making, brain-building material in the whole wheat grain prepared in its most digestible form. Nothing so deliciously warming and nourishing these chilly mornings as a Shredded Wheat Biscuit with hot milk or cream and a little fruit. Good for grown-ups as well as children. Supplies all the nourishment needed for a half day's work or play. The cleanest, purest, best of all the cereal foods.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS Bears the Signature of *Chas. H. Fletcher*

The best boy during the next few weeks receives a Shetland Pony.

Boy Wanted

We want a bright, intelligent boy (over seven and under fourteen years of age), to do a little work for us after school every week. You can do it easily in your own home neighborhood.

PARENTS. Your boy is making his life now. The "Witness" training for him in selling and keeping his small accounts will stand him in good stead in later years. Stand behind him if he wants to earn regular pocket money and many prizes.

THE WORK. BOYS: The "Witness" work is mainly work. It is also easy. We will tell you how and where to sell copies and secure regular customers for the "Witness." Our Free Pony booklet will please you.

No money necessary to start, as we send the first fifty cents worth Free. In this way we give you the money necessary for buying your next week's supply.

When applying give your full name and address and age.

Sales Department, The Witness, Witness Block, Montreal, Que.

THE 'WITNESS,' Witness Block, Montreal, Que. Date

Please send me a start in business and tell me all about how I may win the beautiful Shetland Pony, if I do good work.

WEEKLY CALENDAR MONTREAL SAILORS' INSTITUTE GRAND ANNUAL CONCERT THE CREWS OF THE SHIPS IN PORT

His Majesty's Theatre. MONTREAL OPERA COMPANY. Beginning Monday, Nov. 4th. Repertoire for First Week: Monday and Tuesday, MM. Lafitte, Cervi, Sirocco, Huberty, Huberty, Huberty, Huberty.

His Majesty's Theatre. MONTREAL OPERA COMPANY. Repertoire for This Week: Monday, Tuesday, Wednesday, Thursday, Friday, Saturday.

ART ASSOCIATION. NEW GALLERY. A Temporary Reading Room will be opened on WEDNESDAY, 14th SEPTEMBER.

BRITISH AND FOREIGN MAILS. To Be Closed at this Office During the Week Ending Nov. 9, 1912.

LECTURE BY LONDON CLERGYMAN AT MCGILL. Dr. A. Lane, surgeon of Guy's Hospital London, addressed the fourth and fifth year medical students of McGill yesterday morning.

ORGANIST IS ILL. Mr. C. V. Chamberlain, organist and choirmaster of St. James' Methodist Church is confined to his bed with a serious attack of grippe, and has been in the doctor's hands since Saturday last.

THE WEATHER. Toronto, Nov. 5.—Pressure remains comparatively low over the northern portion of the continent, and highest over the Atlantic States.

TEMPERATURES. Highest Lowest Yesterday Today. MONTREAL 44 48 40 40. Victoria 44 44 22 22. Winnipeg 30 36 26 26.

WASHINGTON, Nov. 5.—Forecast: Partly and warmer south portion to-night; moderate to heavy rain, moderate to brisk winds.

The Daily Witness. OFFICES: CORNER CRAIG AND ST. PETER STREETS. ADVERTISING AND SUBSCRIPTION DEPARTMENT, MAIN 4090.

SUBSCRIPTION RATES. Daily Witness, 12 mos. \$3.00. Weekly Witness, 12 mos. \$1.00. World Wide, 12 mos. \$1.50. Northern Messenger, 12 mos. \$1.00.

While the publishers of the 'Witness' accept from its columns all financial and other advertisements which they consider calculated or intended to take advantage of the readers, they must be understood to exercise their own discretion in the way of putting faith in them.

Table with 7 columns (S, M, T, W, T, F, S) and 4 rows of numbers representing a calendar for November 5, 1912.

TUESDAY, NOVEMBER 5, 1912.

This water famine which is carrying discomfort into extensive regions of the city and rendering some of them pestilential, is the direct result of a system under which crying needs are postponed for months and years, for purely factional purposes.

Laying aside the aloofness of the bench, the Recorder has made a reply to a lady who, like many others, has wondered at the apparently different treatment shown to men and women brought before the courts for immorality.

COLLAPSE OF TURKEY. Rotten, rotten, it seems to be the record in history of the Turkish collapse. We have had lists of armies still in the field—thirty thousand here, twenty thousand there—still unreck-

oned with. But why have we not heard from those armies at a time when the whole imperial system was cracking and tumbling beneath them?

If Mr. Wilson's election to-day is assumed, as most have been assuming it, the interest in the election centres in two things. The first is, will Mr. Wilson's popular majority exceed that of the other two candidates put together, so showing a strong drift-away from high tariff.

LABOR NOTES. At a joint meeting of the North End and Mount Royal Labor Clubs held last night in the North End Club Hall in Drolet street, four candidates were selected as labor candidates for the aldermanship of St. Denis Ward.

Of the Servian army we are told that its victories have been a surprise to itself. After Kumanova there was a very perilous defile to pass before it reached the central fortress of Uskub, and the Servians expected to have at both places desperate fighting.

At Lule-Burgas there were engaged and weary Bulgarian army before Adrianople. If this statement is worth anything where are those derelict Turkish armies of which the Constantinople telegrams boast? Surely the Servians would not scatter themselves in this wild way if these forces were anywhere about.

ELECTION POSSIBILITIES. The agreement of forecast for first place in to-day's election is stronger than it has been at any election for many years past. Mr. LaFollette, who was the logical leader of the Insurgents, or Progressives, as they are now called, having won their entire respect by his long contest in the Senate for the reduction of duties, is now fighting bitterly against Mr. Roosevelt in the home of Progressivism, the north central states, so that the cause of the self-appointed leader is weakened at his geographical and moral center.

THE MAN AND THE WOMAN. The Recorder Touches Upon a Question of General Interest. The following interesting correspondence has passed between His Honor Mr. Recorder Weil and a lady whose name is withheld, but who had been moved to write to the Recorder on the subject of the apparently severe sentences imposed upon women.

THE RECORDER'S REPLY. Dear Madam:—It is not always easy for the public to pass a fair criticism upon the sentences pronounced by our courts for the reason that all the facts are not reported.

Believing him to be as obese in intellect as in body, or it may be owing to their want of better telegraphic means of communication with their armies at the front, the War Office authorities in Constantinople kept Mohammed V. in ignorance of the disasters at Kirk-Kiliseh and Lule-Burgas.

So when a British cruiser chanced to arrive at Constantinople with the news—it is delightful to think it came by sea—and the captain told the British ambassador, the latter told the Sultan, and the story breaks off just when we want to know how Mohammed V. behaved.

But I need not particularize Mohammed V. who must be now even more terribly anxious with the caged hyena, Abdul Hamid, beside him, because his royal brother, King Peter of Servia, has also been carefully nursed by his general headquarters staff.

King George of Greece has been at Larissa waiting on his Cretan irregulars to victory on the other side of the Malouza Pass, but he is a past master of European diplomacy.

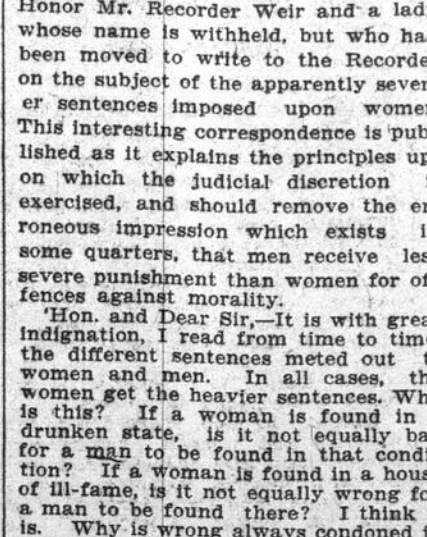

I have studied further the brilliantly-penned narratives of the London High Treason in Berlin. Birth Rate Declining in the Kaiser's Capital.

The question of population is being discussed in Germany almost as keenly as in France, for the latest statistics from Berlin show that the birth-rate of the capital is steadily falling.

TO BUILD A FACTORY. The Imperial Tobacco Company has taken out a permit to build a two-story fire-proof factory in St. Antoine street, St. Henry, at a cost of \$55,000.

NOTES ON THE WAR

BY CAPTAIN J. REID, R.E. (T)

THE GREEK CONCENTRATION ON SALONIKA

Salonika is marked by the peaked flag with the letter S, at the head of the Gulf of Salonika. Though a free-port, and exceedingly cosmopolitan, Salonika possesses a girdle of forts. The Narrows of the gulf before Salonika, where the width is about 3 1-2 miles across, are controlled by the big guns of Fort Karabun.

The crossed lines—the main railways to Monastir in Western Macedonia; to Uskub, Pristina and Mitrovitz, in Northern Macedonia; and to Constantinople eastwards.

Then comes the news that a Third Greek Army, conveyed with marvelous secrecy and expedition by transports to Stavros on the Gulf of Cotezza, has landed there under General Smolenski (who gallantly commanded the Greeks at Velestinos during the war of 1897), with the object of marching westwards on Salonika.

The Turkish Army driven back from Ellassona, numbering now fully 22,000 men, has reached the swamp lands formed by the delta of rivers which pour their mouths into the gulf southeast of Salonika.

Believing him to be as obese in intellect as in body, or it may be owing to their want of better telegraphic means of communication with their armies at the front, the War Office authorities in Constantinople kept Mohammed V. in ignorance of the disasters at Kirk-Kiliseh and Lule-Burgas.

Did he feel it as Kaiser Franz Josef did when the terrible words were uttered before him in the Hofburg on the evening after Koenigsgratz—"Ganz geschlagen!" (completely beaten) and fell down on his royal back in a passing faint?

But I need not particularize Mohammed V. who must be now even more terribly anxious with the caged hyena, Abdul Hamid, beside him, because his royal brother, King Peter of Servia, has also been carefully nursed by his general headquarters staff.

I have studied further the brilliantly-penned narratives of the London High Treason in Berlin. Birth Rate Declining in the Kaiser's Capital.

TO BUILD A FACTORY. The Imperial Tobacco Company has taken out a permit to build a two-story fire-proof factory in St. Antoine street, St. Henry, at a cost of \$55,000.

THE MAN AND THE WOMAN

The Recorder Touches Upon a Question of General Interest.

The following interesting correspondence has passed between His Honor Mr. Recorder Weil and a lady whose name is withheld, but who had been moved to write to the Recorder on the subject of the apparently severe sentences imposed upon women.

THE RECORDER'S REPLY. Dear Madam:—It is not always easy for the public to pass a fair criticism upon the sentences pronounced by our courts for the reason that all the facts are not reported.

Believing him to be as obese in intellect as in body, or it may be owing to their want of better telegraphic means of communication with their armies at the front, the War Office authorities in Constantinople kept Mohammed V. in ignorance of the disasters at Kirk-Kiliseh and Lule-Burgas.

So when a British cruiser chanced to arrive at Constantinople with the news—it is delightful to think it came by sea—and the captain told the British ambassador, the latter told the Sultan, and the story breaks off just when we want to know how Mohammed V. behaved.

But I need not particularize Mohammed V. who must be now even more terribly anxious with the caged hyena, Abdul Hamid, beside him, because his royal brother, King Peter of Servia, has also been carefully nursed by his general headquarters staff.

King George of Greece has been at Larissa waiting on his Cretan irregulars to victory on the other side of the Malouza Pass, but he is a past master of European diplomacy.

I have studied further the brilliantly-penned narratives of the London High Treason in Berlin. Birth Rate Declining in the Kaiser's Capital.

The question of population is being discussed in Germany almost as keenly as in France, for the latest statistics from Berlin show that the birth-rate of the capital is steadily falling.

TO BUILD A FACTORY. The Imperial Tobacco Company has taken out a permit to build a two-story fire-proof factory in St. Antoine street, St. Henry, at a cost of \$55,000.

SHERBROOKE ST. WEST

LITTLE FAIR-HAIRED GIRL DROWNED IN WRECK WASHED ASHORE NEAR CAUGHNAWAGA

The morning Lake St. Louis was the scene of the last-dwelling of the late Mr. J. H. Sherbrooke, on Sherbrooke Street. The house contains nine rooms, storeroom, pantries, etc.

PROHIBITION FATHER DEAD

Founder of Prohibition Party in States Passes Away at Detroit.

Detroit, Mich., Nov. 3. — "Father" John Russell, founder of the Prohibition party and the oldest Methodist preacher in the Detroit conference, died at the home of his daughter in this city. He was born in Livingston County, N. Y.

RECORD VOTE EXPECTED

Albany, N.Y., Nov. 5. — William Barnes, Jr., chairman of the Republican state committee, voted early and left for New York city. He predicted a Republican victory in state and nation.

Buffalo, Nov. 5. — Ideal weather conditions prevailing in Buffalo and Western New York to-day, brought an unusually large early vote in both city and county. In some districts in this city over a third of the registration had been polled at nine o'clock.

LEAD PRICES REDUCED.

New York, Nov. 5. — The American Smelting and Refining Company reduced the price of lead from 5.10c to 4.75c per pound.

BUNIONS NO JOKE

Hard to get rid of them, too. Two or three applications of Putnam's Painless Corn Extractor softens the thickest tissue, and removes it painlessly. Putnam's Corn Extractor removes corns, warts, and callouses quickly and painlessly. Sold by druggists, price 25c.

TRUE BILLS AND NO BILLS

List of Accused Who Will Appear for Trial Before Mr. Justice Cross

In the Court of King's Bench yesterday afternoon, presided over by Mr. Justice Cross, Francesco Piutino was found not guilty of the theft of \$550 from J. A. D. Jolicoeur, who made the complaint because of failure on the part of the accused to reimburse him in a real estate deal at the time designated in contract. The only other case to come before the jury was that of Frank Meakin, who was convicted of aggravated assault on his wife.

The Grand Jury returned a number of indictments as follows: Edouard Renaud, charged with, during July and August, having stolen horses, rigs, and harness from Louis Bernard, Maxime Laporte, Leonidas Villeneuve, and the Montreal Light, Heat & Power Company — four counts. A true bill on each count.

Frank Bailey, charged with breaking into the stores of J. B. Drouin, druggist, and Charles Grasse, general storekeeper, at Victoriaville, in the district of Arthabaska — two counts. A true bill on each count. Bailey is at present in a lunatic asylum and will not come to trial.

Theodule Bergeron, charged with manslaughter in connection with the death of Henri Paul Cardinal, run down by an automobile driven by the accused on June 22nd last. A true bill.

Hornaldas Dagenais, charged with the theft of a tarpaulin cover, the property of the Elder Dempster steamship company. A true bill.

Andrew Horan, charged with shopbreaking. A true bill. Horan, when arraigned, pleaded guilty.

James Harris, the colored man, who on Saturday was committed on a charge of attempted murder, charged with breaking into the premises of

Joseph Seguin, at St. Lambert. A true bill.

Alfred Beauchamp, charged with rape. A true bill. Romuald Plouffe, charged with theft and burglary. A true bill on each count.

Calixte Phaneuf, Alfred Rochon, and Albina Chalut, charged with abducting a girl under sixteen years of age. A true bill against the three accused.

Henri Legasse, employed as ledger keeper in the Bank of Hochelaga, charged with the theft of \$35,000. A true bill. Also true bills in four cases against the same accused for forging and uttering cheques.

Delphis Sabourin, charged with stealing two grips with their contents. No bill.

NIAGARA-TORN BODY WAS FOUND

Niagara Falls, N.Y., Nov. 5. — The body of Christian Kiedohr, the fireman who committed suicide on Sunday, by going over the American falls, was found this morning near the Canadian "Maid of the Mist" landing. The terrific fall raised havoc with the man's body. One arm and a leg were gone, his skull was crushed and the body nude save shoes and stockings.

MRS. STEINHILL AGAIN.

London, Nov. 5. — A lawsuit has been entered in London which, unless it is settled out of court, will revive echoes of the famous French murder trial of Mme. Steinhill, the confidante and mistress of the late President Faure. After her acquittal, Mme. Steinhill came to live in London, where she still is. A little while ago a London publisher brought out a book dealing with the subject of women and crime. One chapter was devoted to cases in which beautiful women were acquitted when they were guilty because of sentimental appeal to the jury, and Mme. Steinhill was quoted as a case in point. Mme. Steinhill immediately issued a writ of libel, claiming \$50,000 damages, and briefed the most expensive counsel. The publishers are now trying to get her to settle for \$5,000, but so far she has refused the offer.

HENRY MORGAN & COMPANY LIMITED

HAND EMBROIDERED WORK CHRISTMAS' IDEAL GIFT

No gift quite equals the giving of a dozen Handkerchiefs, Towels, Luncheon Sets or Napkins beautifully hand embroidered with initials, monograms, etc.—but for such work we urge that selections be made at once of articles that you desire hand embroidered—to eliminate disappointment.
 "The Store With the Christmas Spirit."

A Special Sale of 75 Women's and Misses' Usual \$16.50 to \$30.00

Shadow insertion in dainty colors, **\$1.00 and \$1.25** per yard.

U.S. ELECTIONS

(Continued from Page 1.)

NEW HAMPSHIRE

Concord, N.H., Nov. 5.—A five-cornered gubernatorial contest, with pronounced interest in the presidential election, was expected to-day to cast its vote in a combination which produced a vote above normal in New Hampshire to-day.

MAINE

Portland, Maine, Nov. 5.—With favorable weather conditions prevailing, Maine was expected to-day to cast its vote in a presidential election. The presidential electors were the only voters to be voted upon.

MASSACHUSETTS

Boston, Nov. 5.—Massachusetts army of voters began its march to the polls some time before the rising of the sun. The registration figures showed an enrollment of 604,000, or about a thousand more voters than ever before recorded. A vote exceeding half a million was predicted by the size of the early balloting and the mildness of the day, which opened with a blue sky.

MINNESOTA

St. Paul, Minn., Nov. 5.—Election day opened cloudy, but with prospects of fair weather later in the day. The principal interest here centers in the gubernatorial election. There are only a few local contests in Minnesota, outside of the Congressional, legislative and county tickets. Returns will be made known to the fact that the polls do not close until 5 p.m.

ILLINOIS

Chicago, Nov. 5.—Illinois started out this morning with a record vote. The official forecasts to continue throughout the day. That the state vote will total more than a million is estimated by political headquarters, and that it may reach 1,250,000 many observers do not hesitate to predict. Besides the 23 presidential electors, which the state is entitled, Illinois to-day is voting for state officers, including governor, twenty-seven members of the Senate and 133 members of the State House of Representatives. The election of a number of Progressive members of the Legislature will be a balance between Democrats and Republicans might mean a deadlock in the House over its organization, and a deadlock over the election of two United States senators.

More than five thousand men, police, private detectives and volunteer watchers are on guard at the polls in the city of Chicago, voting machines are in use in 459 precincts. Chief clerk of the Board of Election Commissioners has announced that the largest ever cast in Chicago. The polls in this city opened at six a.m. and will close at 5 p.m. In the country districts and generally throughout the state the polls will be open from 7 a.m. to 5 p.m.

WEST VIRGINIA

Wheeling, W. Va., Nov. 5.—Voting throughout West Virginia began brightly as soon as the polls were opened, and indications were that a record vote would be cast. Weather conditions were ideal.

GEORGIA

Atlanta, Ga., Nov. 5.—Good weather throughout the state to-day is expected to bring a full vote. The state is conceded to Wilson.

VERMONT

Montpelier, Vt., Nov. 5.—A small vote for a presidential election was the prospect in Vermont when the polls opened to-day, despite a complete lack of weather handicaps. None of the parties had made a vigorous campaign.

MISSISSIPPI

Jackson, Miss., Nov. 5.—Democratic leaders estimate that not more than 100,000 votes will be cast in Mississippi to-day, and that the Democratic vote will be in excess of 100,000.

PENNSYLVANIA

Philadelphia, Nov. 5.—Voting in Philadelphia in the early hours was heavy in many of the election districts. The polls opened at seven o'clock, and will close at seven p.m. The weather is perfect, and owing to the interest it is expected that a record vote will be cast. Aside from the interest in the presidency there are many warm contests in the Legislative districts.

Pittsburg, Nov. 5.—Election returns from districts within a radius of 500 miles of Pittsburg will be gathered to-night by the wireless club of the Carnegie School of Technology. Members of the club have communicated with wireless stations, and worked out a system by which returns will be exchanged by wireless as far west as Denver and south to New Orleans.

WISCONSIN

Milwaukee, Wis., Nov. 5.—Voting in Milwaukee began with a rush at six a.m., the labor voting being heavy. The contest in this county is keen between the Fusion and Socialist counties and Congressional tickets; also for gubernatorial honors between McGovern, Republican and Karel, Democratic. The weather early was clear and cool.

NEBRASKA

Omaha, Neb., Nov. 5.—When the polls opened here at eight o'clock a line of voters was waiting to cast ballots each of the precincts. While the sky was overcast indications were that there would be no rain. Reports from other points in the State indicate a record breaking vote.

OKLAHOMA

Oklahoma City, Okla., Nov. 5.—Fair weather helped party workers in Oklahoma to-day, and a large vote is being polled. Democratic leaders believe the election of Wilson by a fair majority is assured, while Republican and Progressive party leaders are making a determined fight.

LOUISIANA

New Orleans, Nov. 5.—Louisiana's gubernatorial majority is being expected to-day in the national election Governor Wilson. Both Progressives and Republicans are claiming the next largest vote, but non-partisan opinion is that Roosevelt will run ahead of Taft.

election of the Democratic ticket is conceded.

TEXAS

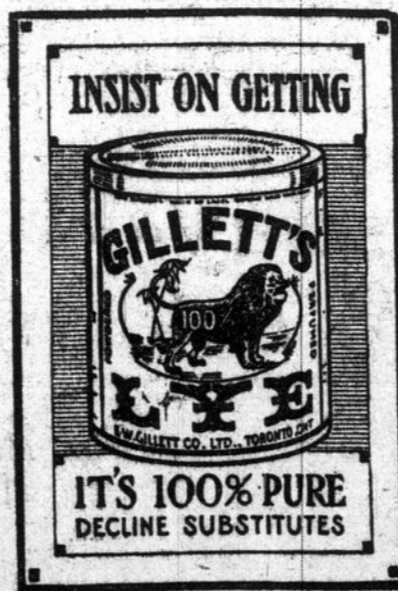

Austin, Texas, Nov. 5.—With the usual Democratic majorities regarded as certain, only a light vote is being polled in Texas.

MICHIGAN

Detroit, Mich., Nov. 5.—When the polls opened at seven o'clock this morning voters stood in line at nearly every booth in the city. A record vote was anticipated. The weather was clear.

IOWA

Des Moines, Ia., Nov. 5.—Every man in Des Moines who gets within the polling place before the hour of closing has a right to vote. This was the

GOVERNOR HERBERT S. HADLEY, Of Missouri, named as probable successor to late Vice-President Sherman.

NEXT EL DORADO MAY BE FOUND ROUND HUDSON'S BAY

Diamonds, Rubies and Garnets Have all Been Discovered There

Will the Hudson Bay country prove to be another region of El Dorado? That is the question which many are now asking themselves, as the news filters down into the cities of Canada of great finds of gold, silver, copper and even diamonds from the newest great area of Canada's unexploited territory. There seems to be a sort of submerged but feverish haste on the part of the great railway companies, and the provincial governments, to obtain control of the wealth of this great country. Some years ago the whole world was startled by the news that diamonds had been found on the shores of the James Bay, and within a day certain machinery was set in motion which despatched to this district, a small expedition on behalf of the great De Beers diamond firm, to spy out the land, and although the right geological nature became public property, as a result of this trip, it was discovered that these men found small diamonds, and also found the right geological nature in which diamonds are found. A large area of land was staked, and is to-day held by interests in London. Although the excitement which was caused by these finds has more or less died out, from time to time small diamonds have been brought out of this country, and the latest story comes from Fort William, and is to the effect that not only a find of diamonds has been made in this country, but rubies and garnets have also been found.

STAKE CLAIMS

At the present moment an expedition is on its way to the north country to stake the claims upon which the finds have been made. The Dominion Mines Department has long known that such precious stones were in all probability to be found there, and this latest discovery bears out the state made five years ago by George F. Kunz to the United States Government. The rock formation in this district is identical with that in the state of Indiana, and it is supposed that in the glacial period half the formation was carried from the north into the United States, leaving the other half behind.

Dr. S. Groves, of the Department of Mines, also wrote a letter at that time stating that diamonds would eventually be found on the western shore of James Bay. All samples that have been discovered are claimed to have been found on the surface. Diamonds being found deep, it is expected that much richer finds will be reported in the future, when once down to bed rock.

In two years the Mississable River is expected to be lined with prospectors and miners. Other discoveries have been reported from the Main and Whale rivers.

PLENTY OF PULP WOOD

Not only is the country believed to

My Digestion Is Now Good

And I Feel Like a Young Man Since Using Dr. Chase's Kidney-Liver Pills.

Prof. A. T. Smith. What a horrible condition the digestive system gets into when the liver becomes sluggish and the bowels constipated. The poisonous waste matter is thrown back into the blood stream and finds its way into all parts of the body, causing pains and aches and feelings of fatigue and misery. It is wonderful how quickly Dr. Chase's Kidney-Liver Pills sweep the poisons from the digestive system and enable the organs of digestion to resume their natural functions.

Grand Forks, N.D., Nov. 5.—Despite light snow early to-day an early vote locally in the Presidential election was indicated when the polls opened here at eight o'clock. The polls close at five o'clock.

TELEPHONE MEN WILL RETURN TO WORK

Regina, Nov. 5.—With the actual settlement of the strike of telephone men, has been effected, a man will return to work being what it is believed will prove to be an early settlement of the difficulties. Representatives of the government and of the men are in conference, and while no statement has been handed out it is believed satisfactory arrangements have been arrived at.

DOUBLE-TRACKING PLANS FOR WEST

Saskatoon, Nov. 5.—Our engineers are working on plans for double tracking of the Canadian Pacific from Saskatoon to Sutherland. The news that General Superintendent Taylor, of the Saskatchewan division gave out.

WOODROW WILSON, DEMOCRATIC CANDIDATE FOR PRESIDENCY.

to-day. The registration has been heavy even for a Presidential year, and the weather is clear and cool throughout the State. The total registration in the city is over 700,000, and a vote of well over 600,000 is predicted. This figure is due to the increase in population and the importance of the contest. A vote of about 1,200,000 is expected in the State outside of New York city. The vote four years ago in the city and State was 1,688,000.

Early returns are looked for, particularly from Buffalo, Rochester, Utica, Syracuse, Troy and Elmira, where voting machines are in use. In these cities the election officials have only to read the totals recorded by the machines when the polls are closed. In New York city the polls opened at 6 a.m. and will close at 5 p.m. It is predicted that the vote of the city and State, for President as well as governor, will be known comparatively early, probably by nine o'clock this evening. This, in spite of the fact that the three Presidential candidates in the field will result in the voting of a larger number of split tickets and the consequent difficulty in tabulation. The returns to-night will be displayed

COL. THEODORE ROOSEVELT, PROGRESSIVE CANDIDATE FOR PRESIDENCY.

to New Yorkers at numberless places throughout the city. Many of the metropolitan dailies have arranged for election service by bulletin board, flash light and huge lighted screens on which the latest news will be displayed.

The various National and State headquarters are practically deserted to-day, and will be until this evening when they will again be opened for the receiving of returns.

Of Interest to Women.

CANADA AND THE EMPIRE

Hon. W. L. Mackenzie King Gives Stirring Address Before the Women's Club.

OUR PRIVILEGES AND OUR OBLIGATIONS. Women Sorry They Have Yet No Voice in the Nation, Says Mrs. Smilie.

Canada's place in the Empire was the subject of an eloquent address by the Hon. W. L. Mackenzie King, at the meeting of the Montreal Women's Club yesterday afternoon. Introducing the speaker to the large audience, Mrs. A. W. McDougald, chairman of the Home and Education Department of the club, quoted Dr. Oliver Wendell Holmes' dictum, that a man's education should begin with his graduation and end with his death. She observed that in that sense, the Hon. W. L. Mackenzie King's patriotic education might be said to have begun with his grandfather, the Hon. William Lyon Mackenzie.

Mr. Mackenzie King, in beginning his lecture, premised that he wished to deal with the subject apart from partisanship, and in the broader spirit of a common patriotism. The Women's Club, he knew, was not a political organization, and did not want a presentation of party politics. He had chosen the subject of Canada's relation with the Empire because that was in the minds of all thinking men and women in Canada to-day. He would take up three considerations: What has Canada meant to the British Empire? What has the British Empire meant to Canada? 3. What are they to mean to each other in the future?

A certain school of philosophers, said the lecturer, hold that when the component parts of a community each work out its own destiny, the result was for the best good of the whole. However that might be, he thought that when one studies the forces that have brought the British Empire into being, one finds some such development as that each working for its own best good has helped to bring greatness to the whole. The part that each has played in its relation to the other, he emphasized, has been largely unconscious.

The taking of Quebec in 1759, Mr. Mackenzie King said, might be regarded as the laying of the cornerstone of the British Empire. Then began that outer growth which has spread

Fashion Hint

A PRETTY NEGLIGEE
A very attractive as well as comfortable negligee is shown in the above picture. Black silk tulle and combination-lace makes this small combination.

love of liberty, with all that they had brought about in British institutions and British justice. Passing on to material progress—the great strides made by Canada, the rapid upbuilding of wealth, extending railways, increase of trade and commerce—how had the Dominion been able to develop so rapidly? Was it not owing to the fact that the country could rest in a sense of security that while it was developing within it could not be disturbed from without. If Canada had had to put its money first into means to defend its shores against invasion, could we have gone ahead and developed in face of ambitions of neighbors and needs of older lands? We realized that wherever the British flag flies, there is security, and that is the reason we have gone ahead and developed to conclude that a large part of the development of our nationhood was due to the protecting arm of Britain. Then, again, Canada's commerce was developing with other lands; Canadian vessels carried Canadian merchandise over the world, and the Canadian people had no concern or question as to their reaching their destination safely. They rested in absolute security of protection; where the flag flies there lies the strength of the Empire. Mr. Mackenzie King said he had been greatly impressed with that fact in his trip round the world—passing Gibraltar, Malta, in mid-Mediterranean, through the Suez Canal, past the rock-fortress of Aden, in the Straits Settlements, there how the British flag, and there was security. In the harbor of Hongkong, away on the other side of the globe, he saw great ships of Britain, and there, coming in among them, a Canadian vessel flying the same flag, and secure as they. To be a British subject is to have part in the protection of British majesty in any part of the world. Into this inheritance had Canada come, with the other parts of the Empire.

As to the important question, what is to be the relation of each to the other in the future, Mr. Mackenzie King said that one answer is obvious. We are part of the British Empire, and

MISS BARBARA WYLIE.

part of the Empire we will remain in all time to come. This being so, we have no right to share the advantages and privileges without being prepared to take some part in the responsibilities. The speaker said he believed all would acknowledge we have obligations to the Empire and are prepared to meet them. The difference of opinion is as to methods. Every true citizen would not in this be swayed by party feeling, but would seek to solve the great question coming to the fore, in the light of history, past developments, and humanity. He emphasized the principle of self-government as one that must continue in any future settlement to be permanent. The Coronation of King George had seen a wonderful gathering of representatives of free self-governing communities within the Empire. Let us, concluded Mr. Mackenzie King, amid applause, men and women, help to maintain the burden of Empire. Free people in free communities, freely settling, are the basis of the British Empire greater than has been.

Prof. J. A. Dale moved a vote of thanks, and while cordially seconding it, Mrs. Smilie said that it was a real grief to women that they had not yet been admitted to full citizenship and given means of expressing their opinions in the affairs of the nation. Music was contributed by Miss Kate Hemming, who sang two solos.

AN ADVOCATE OF SUFFRAGE

Miss Barbara Wylie Speaks from the Militant Point of View.

In sentences biting with sarcasm and scornful with ridicule of existing conditions, Miss Barbara Wylie, an English militant suffragette, spoke before a large audience in the Y. M. C. A. hall last evening.

"Some men think that they have their vote by divine right," said Miss Wylie, "surely there is nothing divine about a man's vote when he is allowed to vote."

"Men get their votes whether they are stupid or not, and there are some stupid men," she said, calling forth a ripple of laughter from some parts of the hall.

The most striking argument which Miss Wylie put before her audience in favor of women's suffrage was that Australia's beneficent health-legislation and female-labor legislation was directly due to the women of Australia possessing the franchise.

Another grievance was that women in Britain were asked to assist in general elections, because election expenses had to be kept small, and with man's craving for cheap labor the women asked the women to work hard for them because they cost less than men.

Throughout her long speech Miss Wylie made some scathing references to eminent British politicians. She said that Mr. Herbert Samuel, when approached on the subject of the White Slave traffic, said that it was an evil, but that there was so much more important legislation to be got through that it must stand aside. In referring to what she characterized as the British women's sordid fight with politicians, she reiterated the plea that militant methods had been adopted in order to bring about the reforms which she said had failed.

She spoke of the low wages paid to women. In Britain, she said, women were asked to work for 10s. a week, and then the question was one for men as well as women. She placed the white slave traffic, for which she said London was the world's clearing house, at the door of those politicians, Mr. Lloyd George amongst them, who had refused to give women votes. Until they did, she added, they would never be able to stop the "dastardly and villainous traffic."

Miss Wylie was not entirely grateful to Mr. Chas. M. Holt, K.C., who seconded a vote of thanks, proposed by Lieut.-Col. F. Minden Cole. He signified his disapproval of militant methods, and when Miss Wylie was giving the opportunity of replying, she waived Mr. Holt's opinions that women should have the vote, and accused him of being of the same calibre as English cabinet ministers who expressed sympathy with the object, and said it would have come had it not been for the adoption of militant methods.

Mr. John H. Roberts, secretary of the Dominion Alliance, also publicly expressed his views, and said that he himself had fallen a victim to militant methods. The meeting was held under the auspices of the Local Council of Women.

FOR A JEWISH GIRLS' HOME.

Representative Jewish ladies, forming the acting committee for the purpose, are making the following appeal to Jewish women:

"It has frequently been stated in the

press, from the pulpit and by observers, that we Jewish women possess the ideal home life and are most solicitous of our offspring and their constant welfare, which makes for a pure and happy home.

This being true, we can confidently appeal to your hearts and sympathy for those Jewish girls who lack the home comforts, which those more fortunately placed, enjoy, such as pure air, plenty of sunshine, light and heat, wholesome diversion and healthy sports. Some of our Jewish working girls have pointed out to us that, after working eight to ten hours in the factory or shop, they must seek some recreation, some form of amusement, and for lack of means and environment, to them this means the glare of the music and dance halls, cheap entertainments, or to walk the streets. To the weaker of our sex this means to expose them to temptations which should not be. Is it not our bounden duty to offer them some alternative attraction less subject to these dangers?

The Christian women of this city have provided comfortable quarters under good and proper supervision, where the working girls may meet, make friends and acquaintances, read, talk and sew, as well as enjoy music and other pastimes. In other words, a substitute for a real home. We invite the Jewish women of the city to attend a meeting, date of which will be announced in the near future, for the purpose of discussing this important subject, and thus show their interest as true Jewish women in our Jewish girls.

THE 'WITNESS' DAILY PATTERNS

The home dressmaker should keep a little catalogue-book of the daily pattern cuts. These will be found very useful to refer to from time to time.

9400—NEW POPULAR DRAPED STYLE.

Ladies' three-piece skirt, with or without tunic (in regulation or sweep length).

Blue satin charmeuse was used for this design, which lends itself readily to the softer materials. The tunic is adapted in a similar effect, and caught at the centre back quite low under a rosette of velvet topped by a jewelled button. The pattern is cut in 5 sizes: 22, 24, 26, 28 and 30 inches waist measure. It requires 3 1/4 yards of 44-inch material for the skirt and 2 5/8 yards for the tunic, for a 24-inch size.

PATTERN COUPON.

Please send the above-mentioned pattern as per directions given below.

No.....

Size.....

Name.....

Address in full.....

N.B.—Be sure to cut out the illustration and send with the coupon, carefully filled out. The patterns cannot reach you in less than a week. Price 10 cents each, in cash, postal note or stamps. Address: 'Witness' Pattern Department, 'Witness' Block, Montreal.

LECTURED ON 'THE 'OULD SOD'

The Rev. Dr. W. R. Young Addresses the Irish Protestant Benevolent Society.

Over 120 people attended last night's monthly 'At Home' of the Irish Protestant Benevolent Society, held at the Warren Home, Belmont Park. The feature was an address by the Rev. Dr. W. R. Young on a ten-day trip to the 'ould sod,' undertaken some time ago.

Dr. Young gave a most interesting account of his tour, and related in a delightfully quaint and witty style, not unmingled with a vein of sympathy, some of the ancient legends attached to Ireland's famous, beautiful and historic places. Cork, the famed Blarney Castle, Dublin, Belfast, Larne, Killarney, and the County Wicklow, were visited, and on the exalted heights of the two last named districts, the Rev. Dr. Young waxed enthusiastic. The lecture was made more enjoyable by a number of humorous stories relating to incidents which befell himself, or were told him by car-drivers and others, which were freely sprinkled throughout and recounted in a breezy, refreshing manner.

At the conclusion of his remarks a vote of thanks was passed to Dr. Young on the motion of Dr. Fred Gilday, seconded by Mr. Septimus Fraser. The musical programme was contributed by Mrs. W. R. Young, Mrs. Gilday, Professor Fraser and Mr. McKenna. Tea was served before the departure of the guests.

A touching reference to the loss sustained by the society in the death of its late honorary president, Mr. R. Wilson-Smith, was made by the president, Mr. J. A. Mathewson, who also announced that Mr. George E. Drummond had been elected honorary president to replace Mr. Wilson-Smith. Mr. Thomas Gilday and Mr. Robert Irwin, also spoke.

The guests were received by President Mathewson with Mrs. Mathewson, and Miss Mathewson, Dr. Fred Gilday, vice-president, and Mrs. Gilday.

AUTO BANDIT WAS ARRESTED.

Chicago, Nov. 5.—The survivor of two automobile bandits who attempted to hold up and rob Rutherford B. Cooke, assistant secretary of the Chicago National League Baseball Club, was arrested yesterday after having confessed to detectives. Edward Meyers was killed early Sunday morning by Cooke, who shot him dead when Meyers leaped from an automobile and ordered Cooke to give up his valuables. The young man arrested, Clifford Fall, remained in the car and escaped, although Cooke fired several shots at him.

PARRY SOUND SUICIDE.

Parry Sound, Ont., Nov. 5.—Mortimer Meeks, about sixty years of age, committed suicide by cutting his throat with a razor. He had been in an asylum for treatment and was released about a year ago as cured. He leaves a grown son and daughter.

To-day Last Lap in Race for Presidency on Four-Footed Mascots of Party

LEFT.—MR. TAFT, ON THE 'G. O. P. ELEPHANT';
CENTRE.—MR. ROOSEVELT, ON THE 'BULL MOOSE';
RIGHT.—MR. WILSON, ON THE 'DEMOCRATIC DONKEY'.

New York, Nov. 5.—The most vigorous presidential fight of recent years came to an end last night with the leading candidates for the nation's chief office continuing their personal appeal to voters almost to the last moment. President Taft, speaking from his train in Ohio on his trip to Cincinnati; Colonel Roosevelt, addressing voters at Long Island points close to Oyster Bay, and Governor Wilson addressing meetings at Paterson and Passaic, gave to the conclusion of the long campaign a touch of personal activity that emphasized the interest in to-day's balloting.

More than the presidency is at stake in the elections today. The Republican forces have concentrated their efforts in doubtful states to prevent an overturning of local organizations, or a capture of the legislatures in states heretofore safely Republican. The Democrats have made an organized assault upon a number of states to control the legislatures so that the majority in the United States Senate may be swung to the Democratic column. Against Republican predictions that the Senate will remain Republican, the Democratic national leaders claim enough states to give them the

Senate, and to greatly swell their majority in the House of Representatives, which they captured in 1910.

Few American campaigns have run through a longer period of heated controversy. The fight for the presidency, to terminate at the ballot boxes to-day, was under way early in February, and has scarcely lagged since that time. Out of the eight men who were active candidates for presidential nominations early in the summer, three candidates, representing three parties whose relative strength is still a matter of conjecture, remain to solicit the voters' support to-day.

The influence of women in the campaign will probably be greater than in any previous election. Each national headquarters has had an organized bureau to appeal to women well known in public and social life. In the six Western States, where women will vote, Wyoming, Utah, Colorado, California, Idaho and Washington, their ballots will be an active factor in the results. In five other states, Arizona, Michigan, Kansas, Oregon, and Wisconsin, the rights of women to vote will not be an issue at the polls.

MR. ROOSEVELT ENDS CAMPAIGN.

Oyster Bay, N.Y., Nov. 5.—As he began his campaign in Chicago last June,

when it had become apparent that he probably would take the lead in forming a new party, Colonel Roosevelt, with the same words, brought the campaign to a close last night.

"We stand at Armageddon, and we battle for the Lord," he said to his old friends and neighbors of Oyster Bay who had gathered in the village play house for the final rally before election.

Earlier in the day Colonel Roosevelt escaped injuries in another of the series of mishaps which have befallen him during the campaign, when a platform on which he was seated, at Mineola, gave way. With the crackling of timber and the cries of frightened women and children, the hundred persons on the platform were dropped two feet until the centre of the platform touched the ground. The only damage to Colonel Roosevelt consisted of being splashed with the contents of a pitcher of water. No one was injured.

LIVELY END TO THREE-CORNERED FIGHT.

New York, Nov. 5.—Activity among detective forces and political headquarters yesterday to prevent fraud and to disarm illegal voters from the polls to-day, lent excitement to the concluding day of the campaign in New York city. The city and state were the theatre for a lively end to the three-cornered gubernatorial fight yesterday, the three candidates and their respective speaking staffs touring the city and outlying counties for dozens of meetings. The Democratic state headquarters

and Tammany Hall confidently claim victory last night for Representative William Sulzer, Democratic candidate for governor, William Barnes, Jr., chairman of the Republican state committee, declared the Republican ticket, with Job E. Hedges as gubernatorial candidate, would win by 40,000 majority; and the Progressive leaders declared there would be a landslide in the state for Roosevelt and the Progressive state ticket, headed by Oscar S. Straus.

The polls will open at six o'clock and close at five o'clock. Earliest returns are expected from Buffalo and Erie County and other up-state sections, where voting machines are used, and the trend of these reports is expected to give an indication of the results in the state.

The Progressive national headquarters issued a statement yesterday notifying voters that police officers could be called upon by any citizen to enforce the laws at the polling places. In support of this contention, George W. Perkins made public a letter from Police Commissioner Waldo stating that the authority of the police was ample to cover any irregularities at the voting booths.

ELECTION PREDICTIONS.

Chicago, Nov. 5.—Final telegraphic instructions to State and County chairmen in all the western States were sent out last night from the various national political headquarters in Chicago. All the party managers renewed

their confident predictions of success, but all emphasized the necessity of keeping up the fight until the polls have closed finally to-night.

Joseph E. Davies sent out a warning to Democrats urging them not to be led astray by over-confidence.

"I am convinced," said Mr. Davies, "that Woodrow Wilson will win the greatest political victory the United States have known in fifty years."

David W. Mulvane, in estimating the Taft vote in advance declared that the President would get 315 electoral votes and Wilson 132 electoral votes. In addition, Mulvane lists a total of 84 electoral votes as doubtful.

Medill McCormick said that a Progressive landslide had started, and that Colonel Roosevelt would be elected by an overwhelming majority.

Chairman Jones, of the Prohibition party, said that the Prohibition cause had received thousands of recruits from the 'silent vote' of the country. The Socialists expected to double the Socialist poll of four years ago, and several of the party leaders insisted the Socialist vote would be tripled.

MR. TAFT SPOKE IN HOME STATE.

Cincinnati, Ohio, Nov. 5.—President Taft spent the last day before election in a leisurely trip across his home State, addressing crowds in more than a dozen cities and last night reached his home city, where to-day he will cast his ballot. The Democrats' last night ended their long campaign in the State with a final rally in Toledo, the Republican and Progressives having finished their efforts on Saturday

night. Leaders of each of the three parties are making claims of victory. Governor Harmon, returning here from Columbus to vote, expressed his conviction that Governor Wilson would carry the State and said he believed President Taft would run second.

Both the Democrats and Republicans claim they will elect a majority of the twenty-two members of Congress to be chosen. Progressive candidates for Congress entered the field in only a few more than half of the Congressional districts.

Almost equal to the interest in the presidential election here is the contest for Congress in the first district, comprising the city of Cincinnati between Nicholas Longworth, Republican candidate, son-in-law of Colonel Roosevelt, and the Democratic candidate, Stanley E. Bowle, an attorney, a member of the recent constitutional convention. M. F. Andrews is the candidate on the Progressive ticket.

GOVERNOR WILSON ADDRESSES RALLIES.

Paterson, N.J., Nov. 5.—Governor Wilson spent the night before election addressing Democratic rallies in Paterson and Passaic, industrial cities of his own State. He was greeted with great enthusiasm as he appeared at the High School auditorium here. An

illuminated street parade had stirred the city to a high pitch of excitement, and thousands more persons than could be crowded in to the auditorium fought to gain admission.

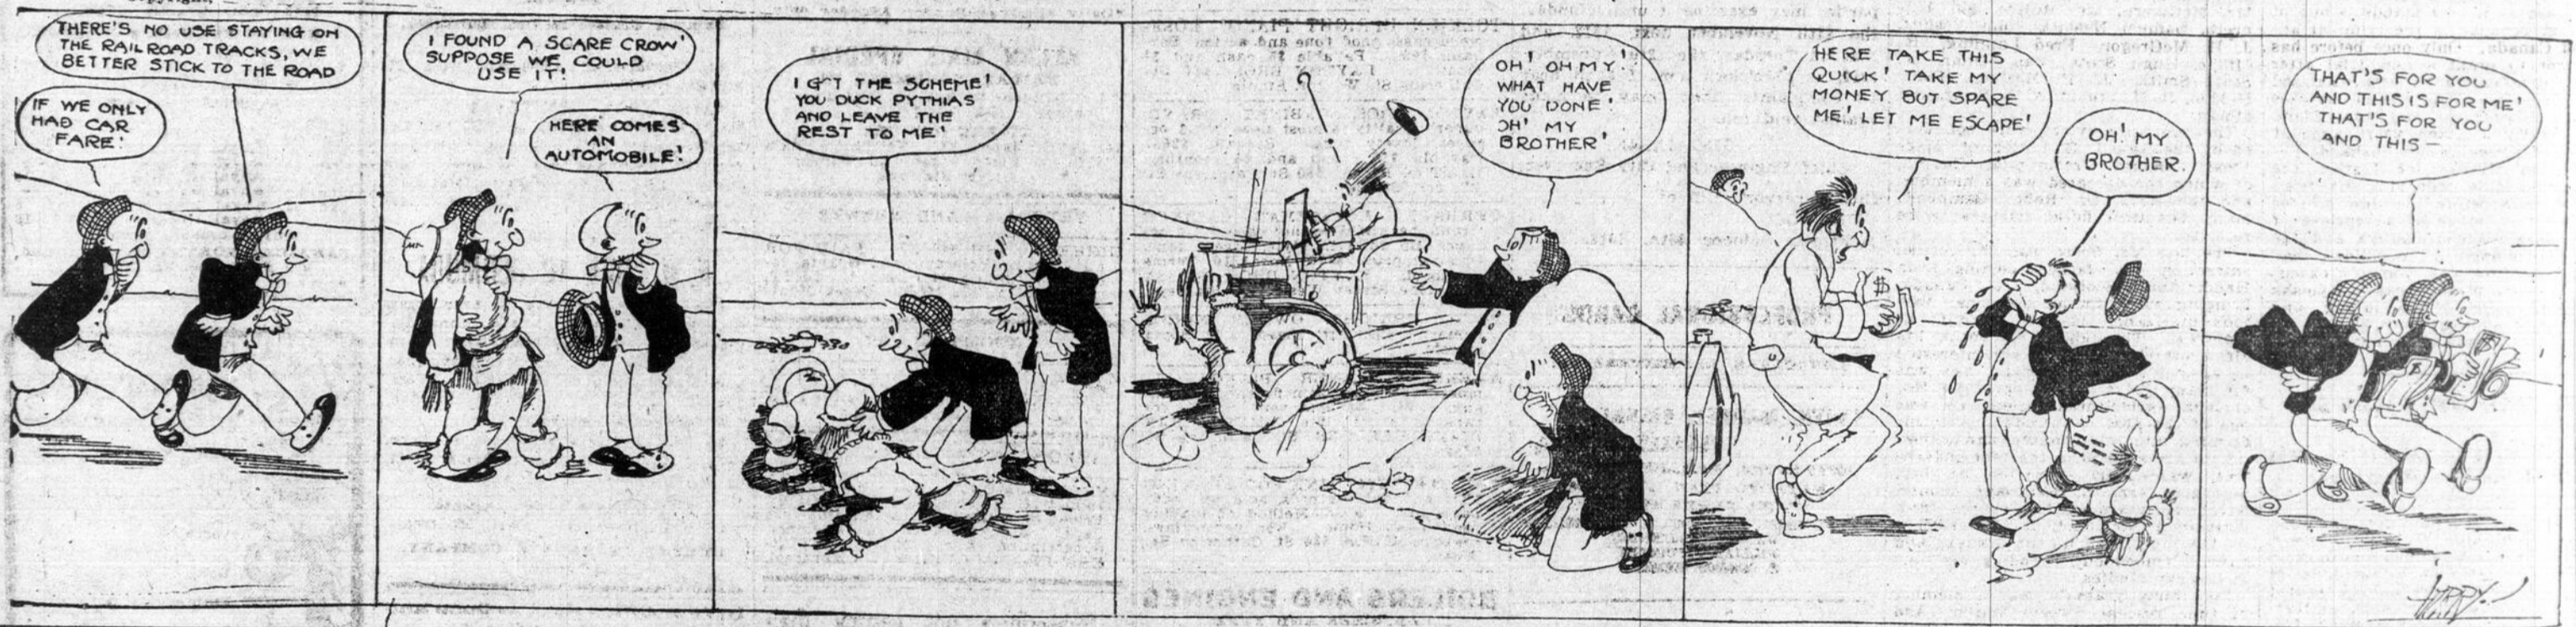

The applause continued for more than ten minutes after the Democratic presidential nominee appeared on the platform, with his head-bearing a large strip of pink plaster over the scalp wound which he received in an automobile mishap on Sunday morning. Robert G. Bremner, the Congressional nominee for this district, who is obliged to carry his arm in a sling, appeared beside the Governor and also received an ovation. The cheering was cut short at the Governor's protest that his time in Paterson was limited.

"I am not thinking to-night of the presidency," said Governor Wilson, and he dealt mainly with New Jersey affairs, urging support of the Democratic congressional and legislative ticket.

Governor Wilson closed his campaign at 9:45 o'clock last night at Passaic with a speech before an immense crowd that cheered him uproariously. "I leave the case to the jury," were the Governor's parting words. "I hope they will retire with a profound sense of their responsibility, and it is expected that under the law they will reach their verdict within twenty hours."

DAMON AND PYTHIAS

THEY HIT UPON A SCHEME TO ADD GOLD TO THEIR DEPLETED COFFERS.

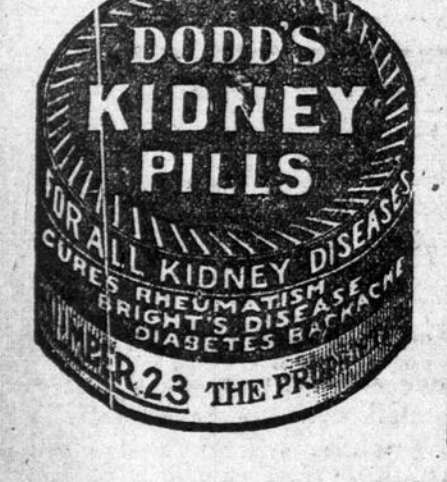

VILLE MARIE RETROGRESSES

Appeal of Liquor Men for Licenses is Successful.

Cobalt, Ont., Nov. 5.—After two years of local option, Ville Marie, across Lake Temiskaming from Cobalt, and the most important town in Northern Quebec has gone wet again. Judge Weir, in Bryson, has allowed the appeal of the liquor men and overruled the plebiscite of January 11, thus sustaining license in eight townships.

In the fall of 1910 the Oblate Fathers brought two temperance lecturers to Ville Marie, and numerous meetings were held in the interest of the temperance cause. A largely signed petition was presented to the Ville Marie council. The liquor interests won out, however, and the matter was then taken to the county council and was put to a vote of the people, and the local option victory was won by 180 votes.

A protest was immediately filed and illegal practices at the polls alleged. This protest was sustained by the court this week. The town council of Ville Marie immediately granted hotel licenses and one shop license.

ON REMBRANDT

Mr. J. Power Powys, M.A., on the Great Dutch Artist's Work.

Rembrandt, of all artists, is the one who best serves our turn in our present materialistic days, said Mr. J. Power Powys, M.A., in his lecture on the great Dutch artist and his work to the Montreal Art Association last evening. He is a painter of homelike, natural people in every-day surroundings, and may perhaps best be described as a simple minded, human individualist.

Behind his painting there lies a peculiar spirit of domestic, patriotic and protestant sympathy. His style is essentially of the Dutch school, differing vastly from the Florentine, Venetian and Spanish schools by the very virtue of its realism. His style is more pronounced in his etchings than in his paintings, but the most typical of all his works are his drawings in red chalk.

He was a native of Leyden, Holland, and spent his life in that city and the city of Amsterdam. Until a few years before his death he was a prosperous citizen of the middle class, but ended his days in bankruptcy, owing to his habit of collecting costly bric-a-brac. But art has profited by the cause of his loss, for the costly ornaments which characterize his paintings were his own personal property. He is a painter of a material and commercial age, in a commercial country.

The lecturer than gave a very able criticism of the artist's four greatest works, 'The Night Watch,' 'The Anatomy Lesson,' 'The Syndics of the Cloth Guild,' and 'The Supper at Emmaus,' of which he considered the last to be the artist's masterpiece.

WRECK INQUEST WAS POSTPONED

Toronto, Nov. 5.—The serious illness of James H. Butler, former chief of the coroner's jury engaged in investigating the death of the late Private Bannasque, of the Forty-Eighth Highlanders in the Streetsville wreck on Thanksgiving Day, necessitated a postponement of the inquest last night.

Provincial Inspector Boyd filed a series of photographs of the wreck, and Engineer Hart, of the special, was on hand to testify.

LAWRENCE STRIKE RIOTS UNCHECKED.

Salem, Mass., Nov. 5.—That militia men and policemen made no effort to prevent the attacks upon street cars in Lawrence on the morning of January 29, and that the cars were besieged by an organized gang of about twenty men, was the testimony of Leo Ready, one of the Textile strikers, at the trial of Ettore Giovanni and Caruso, for the murder of Anna Lopizzo.

Ready declared that he was near the scene of the riot that morning and that the strikers were peaceful, and that the policemen on the street made no attempt to stop them. Neither did the soldiers.

"I saw this gang of twenty men go up and down the streets," said Ready. "They were armed with clubs with which they smashed the windows of the cars. Some of them threw chunks of ice. The policemen on the street made no attempt to stop them. Neither did the soldiers."

SOCIALISTS HELD UP THE ASSIZES

Vancouver, B.C., Nov. 5.—With so many socialists on the jury that convictions were next to impossible, the business of the Vancouver fall assizes came to a sudden stop yesterday.

In several important cases recently the juries have failed to reach a verdict, and the Crown counsel decided that it was impossible to go on. Accordingly with the consent of the presiding judge, six important cases were transferred to the next assizes, which will be held in May.

ST. LAURENT'S SERVICES.

Company Does Not Want to Install Filters Unless Granted Light and Tramway Franchise.

In order to compel the St. Laurent parish council to make less onerous their contract whereby they were to install an aqueduct system throughout the whole parish, the Franco-Belgian Investment Company will apply to the Legislature of Quebec for legislation to that effect. According to the contract the Belguise Co. was to install an aqueduct system throughout the whole parish in return for a twenty-five years' franchise, and also to establish a filtration plant whenever the council thought it necessary.

While complaining as to their being forced to install the filtration plant the Belguise Co. were nevertheless willing to undertake the work, provided the council gave them a similar franchise to install a lighting system and a tramway line in the parish. Over

Was Troubled With His Heart.

HAD TO GIVE UP WORK.

When the heart begins to beat irregularly, palpitations and throbs, skips beats, and sometimes seems to almost stop, it causes great anxiety and alarm. Many people are kept in a state of morbid fear of death, become weak, worn and miserable, and are unable to attend to either social or business duties, through this unnatural action of the heart.

Mr. Alfred Male, Eloids, Ont., writes:—

"I was troubled with my heart for two or three years. I thought sometimes that I would die. I went to the doctor, and he said he could not do anything for me. I had to give up work. My wife persuaded me to try Milburn's Heart and Nerve Pills. The first box relieved me, so I kept on until I had taken seven boxes, and they cured me. I would not be without them on any account, as they are worth their weight in gold. I advise my friends and neighbours who are troubled with heart or nerve trouble to try them."

Milburn's Heart and Nerve Pills are 50 cents a box, 3 boxes for \$1.25, at all dealers, or made direct on receipt of price by The T. Milburn Co., Limited Toronto Ont.

It will pay you to watch the 'Witness' advertising columns for bargains.

PALESTINE SOCIALIST SPEAKS A GOOD WORD FOR THE TURKS

To study the labor conditions on this continent, and to enlighten the Jewish people here as to the labor conditions of the Hebrew population in Palestine is the mission of 'Zereboval' to Canada. 'Zereboval,' who is the editor of the only original Hebrew Socialist paper throughout the whole world, arrived here a few days ago from Jerusalem. During his short stay he has already been very active, having delivered three lectures before capacity audiences in the large assembly hall of the Baron de Hirsch Institute in the Jewish conditions in Palestine.

'ZEREBOVAL,' A cultured Hebrew Editor from Palestine.

'Zereboval,' as his photograph shows, is yet in the prime of life, and represents the cultured Hebrew. Born and brought up in Palestine, his knowledge of the Hebrew conditions in that country is vast and extensive. He is a much-travelled man, and has made it his business to acquire a knowledge of Jewish affairs throughout the whole world, and in Palestine, his knowledge of the Hebrew conditions in that country is vast and extensive. He is a much-travelled man, and has made it his business to acquire a knowledge of Jewish affairs throughout the whole world, and in Palestine, his knowledge of the Hebrew conditions in that country is vast and extensive.

During the course of an interview, 'Zereboval' told a 'Witness' reporter that the Socialist movement in Palestine is yet in its incipient stages, the idea having only originated about six years ago. There are at present organized labor institutions in most of the provinces in Palestine, and the outlook of the laboring class towards being some factor in the country looks very promising. This has been brought about by the fact that as the agricultural industry, which is mostly the means of livelihood of the people in Palestine, has been growing by leaps and bounds, European and American financiers have been attracted to establish large factories in Palestine, thereby greatly developing industry. So largely have industries developed in this way that many thousands of agriculturists have been induced to abandon their plantations and take up work in the factories of these big concerns. Hence the class of employees is quite numerous, and in order to compel their employers to submit to some of their proposals of reform they have organized themselves into a labor union similar to those in other parts of the world. Instances of the great development of industry in Palestine are that within the past few months, Mr. Nathan Strauss, brother of the Progressive Governor of New York State, has established an extensive factory for the manufacture of mother-of-pearl, and a large Belgian company a big factory for the manufacture of the best quality of soap, employing several hundreds of people.

The treatment accorded the Jewish people in Palestine by the Turkish Government, continued 'Zereboval,' is very good. While the old people living there subsist mostly on charity, yet the young folks are very active, and many of them manage to amass great wealth. There are many general educational institutions controlled solely by Jews, and in Yapha alone there are two institutions controlled by Jewish people, whose degrees are recognized by the Turkish and Swiss Governments. The Jewish people are gradually gaining much power in Palestine on account of the Zionist movement, from whose funds a good part of Palestine has already been bought from the Turkish Government, and large tracts of land are continually being bought as the funds of the movement increase. So phenomenal has been the rise of the Jewish people in Palestine of late, that the Arabians, who hitherto looked upon the Jews with great disdain, now look upon them with esteem and respect.

'Zereboval' to-night delivered a lecture at the Baron de Hirsch Institute on 'The part of the Jewish woman in the revival of Palestine.'

ST. ANDREW'S CHOIR GAVE FINE CONCERT

A remarkably fine programme of music was rendered last evening at St. Andrew's Presbyterian Church, Westmount, when the choir, under the leadership of Mr. G. Harold Brown, and assisted by Miss Evelyn Mitchell, soprano; Mr. J. B. Cadieux, tenor; Mr. James Bodet, contralto; Mr. T. L. H. Sanderson, baritone, and Prof. J. E. Dubois, cello soloist, presented their annual thanksgiving concert.

The opening organ solo, Johnson's Sonata in E, performed by Mr. Brown, were exquisitely rendered, and showed mastery over the great organ, which fills up nearly the entire end of the church. It was almost impossible to conceive that the low, sweet, introductory strains of the molto maestoso could be produced by the big pipes of the organ, and these fine threads of golden melody at times fading almost indistinguishably into silence, were a strong contrast to the triumphant climaxes in that third movement, Allegro Vivace, which poured grandly forth a turbulent stream of strong rhythmic melody.

The cello solos of Prof. J. E. Dubois were features of the programme, the mellow sympathetic notes which distinguish his playing being very beautiful. The quick, sharp bars in Minuette brought forth a storm of applause from the crowded church.

In Sullivan's well known 'The Long Day Closes,' the voices of the Male Quartette blended very finely, and was one of the best of the numbers of the evening.

The voice of the soprano, Miss Evelyn Mitchell, was heard to good advantage in 'The Streamlet Raised its Gentle Voice,' in soft flute-like notes of the organ rippling through the clear strains of the singer, and deepening at times into a strong accompaniment, proved a delicious setting to Miss Mitchell's splendid voice.

Although the baritone had little individual work of the rich quality of his voice was apparent in the opening strains of 'The Days of Man.'

The work of the choir was good, and deserving particular commendation for their fine rendering of the chorus 'Great is the Lord.' The cello soloist, Prof. J. E. Dubois, in their singing of this piece of music reflected of small amount of credit upon the voices, which make up the chorus.

The Irish 'While the Earth Remains,' by Miss Mitchell, Mrs. Bodet, and Mr. Sanderson, was one of the numbers which deserves special mention, and which was warmly applauded.

A unique and very clever feature of the concluding number was the interweaving of the theme of the last chorus with the strains of the internationally known 'The Hundred,' which blended into the concluding number and swelling loudly forth as the final chorus.

A sketch is excellently constructed for the production of music, and it is anticipated that other concerts will be given during the winter.

WHAT HEBREW YOUNG LADIES DID
Made and Distributed 4,395 Articles to the Poor of Montreal

At the eighteenth annual meeting of the Hebrew Young Ladies Sewing Society held recently, the president, Miss Essie Hirsch, read a very satisfactory report of the year's work, and showed the good that his society was doing amongst the poor and needy of this city. During the season 4,395 articles of clothing were made and distributed, and a total of 4,790 yards

GRAND TRUNK IS WELCOMED

Boston Expects Benefit of Competition—City Club Dines Mr. Cy. Warman.

Boston, Mass., Nov. 4.—Mr. Cy. Warman, of the Publicity Department of the Grand Trunk Railway, was the guest of the City Club yesterday, and spoke to the gathering of 400 business men on the Grand Trunk and Grand Trunk Pacific system, and the plans for its future development into one of the finest railways in the world. He said that the competition that it would bring to transportation through the port of Boston would be very real and substantial. He laughed at the suggestion that the company's agreement with the government of Canada would prevent it from exporting to any great extent from Boston. He said that the volume of business from Canada West would be so great that other outlets beside the Canadian ports would have to be used.

The Boston 'American' was given credit by the chairman, Mr. B. J. Rothwell, for assisting in bringing the Grand Trunk to Boston. Mr. P. J. McIsaac, of the Boston 'American,' told how the city and the Legislature had been urged to aid the entrance of the Grand Trunk to Boston, and how the paper had secured a petition with 100,000 names, which was sent to the directors of the Grand Trunk. He urged the immediate ratification of the pact with the Hamburg Line, whether it brought a direct revenue to the state or not, and told how the port of Hamburg is losing 1 percent per year upon its investment of \$100,000,000, and considers itself fortunate, and declared that Boston ought eventually to own its own ocean and land transportation lines, since there lies true commercial prosperity. At present it could only profit by the leakage of foreign owned lines doing business here.

Port Arthur, Nov. 5.—The keel of a new passenger steamer for the Northern Navigation Company, which when completed, will be the largest passenger steamer in Canadian waters, is being laid down at the Western Drydock plant. This winter will see a large force of men at work, as two ships now under construction will keep the plant busy until spring.

WILL BE BIGGEST BUILT IN CANADA

Port Arthur, Nov. 5.—The keel of a new passenger steamer for the Northern Navigation Company, which when completed, will be the largest passenger steamer in Canadian waters, is being laid down at the Western Drydock plant. This winter will see a large force of men at work, as two ships now under construction will keep the plant busy until spring.

MR. CODERRE'S OPPONENT

Mr. Alfred Leduc, of St. Henry, May be Liberal Choice.

MR. ROWELL TO SPEAK HERE.
Will Address Reform Club at the Monthly Meeting Next Monday.

Mr. S. Letourneau, who, on behalf of local Liberals, has been to Quebec to consult with Sir Lomer Gouin and others regarding the choice of a candidate in opposition to Mr. Leduc, is expected back in the city this evening, and a meeting of the executive committee will be held to-night, when a candidate may be decided on. Quite a number of names have been mentioned, prominent among them being Mr. Alfred Leduc, of St. Henry, who is an excellent speaker in both languages, and is regarded as an exceptionally good man.

Mr. Coderre met the members of the Liberal-Conservative Club last evening, and said he was well satisfied with the way in which his friends were rallying round him. He was not at all apprehensive, he said, of the result.

MR. N. W. ROWELL
COMING TO CITY.

Mr. N. W. Rowell, K.C., the leader of the Opposition in the Ontario Legislature, will be the guest of honor at the monthly meeting of the Montreal Reform Club, to be held at the club house on University street on Monday evening next.

THE HON. MR. FOSTER
SALES THIS MONTH.

The Hon. George E. Foster expects to sail for Canada on November 23, as the sittings of the Imperial Trade Commission are expected to be over by that time. It is probable, therefore, that he will be able to take part in the naval discussion in the House. The Commission sails for Australia on January 15. Mr. Foster hopes that the naval debate will be ended, and the West Indian trade agreement through the House by that time, so as to permit him to get away.

CAPTURE OF MURDER SUSPECT.

Calgary, Nov. 5.—The Mounted Police captured a man at Brooks who is believed to be Alphonse Catalina, alias James Sullivan, who killed Joseph Maso, at the C. P. R. shops on Monday. The man arrested is said to answer the police description.

PIONEER BUSINESS MAN.

THE LATE MR. C. H. WALTERS.

For half a century he was active in the commercial life of this city.

GLASS IN CHINA.
(From U.S. Consular Reports.)
The use of glass in China in various other forms than window glass is becoming even more general than the use of window glass, and in this line of goods the increase can not be properly measured by the imports of glass and glassware, though they are significant for the reason that all over China glass factories have appeared.

The principal articles now being manufactured are bottles and lamp chimneys. The demand for bottles in aerated water establishments has proved a material factor in the industry in several of the ports, while the demand for lamp chimneys of various sorts exists all over China—in parts where a foreigner is never seen and where the chief, if not the sole, connection with foreigners is in the sale of American or other kerosene and the use of foreign kerosene lamps. At one time the whole supply of such goods was imported, chiefly from Japan. The volume of the imports of these goods has remained about the same for several years, the immense quantities of use of such articles being supplied by local factories.

CRYSTAL GAZER
GETS 25 YEARS.

Chicago, Nov. 5.—Mrs. Louise Lindloff, spiritualist and crystal gazer, was found guilty of manslaughter by a jury in Judge Winde's court last week and her punishment fixed at twenty-five years in the penitentiary. She was charged with the poisoning of her fifteen-year-old son Arthur. She is also accused of having poisoned three other members of her family.

222% PER ANNUM

THE NORTH-WEST CORNER OF DORCHESTER AND BLEURY STS. IS NOW HELD FOR ABOUT

\$20 PER FOOT A YEAR AGO IT COULD HAVE BEEN BOUGHT FOR \$9 PER FOOT

Had you invested your money in this property instead of sinking it in far-away subdivisions you would have made 222% on your investment and would have been drawing revenue from the property all the time instead of paying out your money for taxes, etc., as in the case of lots.

Now is the time to commence afresh and make money instead of losing it. We can show you how to invest your money in property within the business section of this city, no matter how much or how little you have to invest, we can help you.

We offer equal facilities to the man with \$25 as the man with \$25,000. Fill in the coupon and mail it to us and place yourself in line with the successful ones.

DEPOPULATED FARMS TELL STORY OF HIGH PRICES

Ald. Ward Speaks of Some Factors in Enhancing Values.

The high cost of living, said Ald. Ward, is in a great measure due to the depopulated farms of the country. I went on the Longueuil road the other day and I was surprised to see the depopulation in cultivation and care of the farms. The roads which once were good are bad, and indifferent care has never been improved. The life is not so attractive as it once was. The remedy is to improve conditions and make some provision for the higher cultivation of the farms. So there is a shortage of the supply of farm produce. This has been enhanced by the fact that there was a poor crop of feed last year and the year before. Farmers got fifteen and twenty dollars a ton for their hay, when they only got five, six and seven dollars before. They sold their cattle and started to sell their milk and cream, and the supply of milk and cream, and an increase in the milk comes to the city.

factor in increasing the cost. Women would order two pounds of lamb chops by telephone and want it delivered several blocks away. Dealers could not afford to do this for nothing. Formerly women would carry home their small orders. In the case of bread, once two deliveries a week would suffice. Now it is delivered

ALD. WARD.

every day, and in smaller loaves, increasing the cost by so much. Ald. Blumenthal said that haddock and cod cost 60 cents a hundredweight in the market, yet they were raised to a comparatively enormous price once they were brought to the city and were in the hands of dealers. He thought there must be a combine here sure.

THE HARBOR BOARD APPOINTMENTS MUST BE MADE VERY SOON

Within less than a month, the Dominion Government will have chosen three gentlemen to form the new Board of Harbor Commissioners for Montreal. The resignations of Major G. W. Stephens, president; Mr. C. C. Ballantyne, and Mr. L. E. Geoffrion, the three commissioners who have served the port well since January 2, 1911, have been accepted by the Hon. Mr. Hazen, Minister of Marine and Fisheries, and will become effective at the close of the present season of navigation. That is, of course, at twelve o'clock noon, on Nov. 25. Soon after that date the choice must be made.

Who will get the coveted positions, the chairmanship with its \$10,000 per year salary, and the two others at \$5,000 each? A dozen names have been mentioned so far: some of them are anxious for it; others would not have the office under any considerations. The position calls for one French and one English-speaking representative with a chairman.

For the French representative, the general belief is that Lieut.-Col. A. E. Labelle has the greatest probability of receiving the appointment. Ever since the change of Government in 1911, he has been spoken of constantly as the coming commissioner.

FOR BETTER RULE Important Civic Bodies Agree on Three Necessary Charter Changes.

An important meeting of the Board of Trade, Chambre de Commerce, Assn. of Manufacturers, the Canadian Manufacturers' Association, and various other bodies which have taken up proposed measures necessary to improve Montreal's city government, deliberated on various remedial suggestions, will be held in a few days to determine necessary amendments to the city charter. It is said that the delegates to joint meetings of these organizations in two weeks ago have provisionally approved of three questions which a committee of themselves has submitted to them. These are a reduction in the number of aldermen, their election at large, and a better arrangement of the powers of the Board of Aldermen and the City Council. The present bodies interested are now individually considering these proposals. As a counter scheme a number of aldermen are busy on a plan which they will have ready to announce perhaps this week.

DOCTOR REFUSED TO ATTEND

London, Ont., Nov. 5.—The death of Mrs. A. Davis, Eleanor street, on Saturday night, was reported to Coroner Ferguson yesterday as one in which the circumstances required investigation. The woman, who was twenty-three years old, had been under the care of a city physician, who could not be reached when summoned Saturday evening.

One doctor was asked to come out and refused. Other city doctors were telephoned to but were out, and a neighbor went for the first physician who again refused to attend because he had been warned that Mr. Davis would not pay his bills. The woman gave birth to a child which is still living. A nurse was there but she was not a trained nurse, and she, too, went to the doctor's, whereupon he responded.

In the meantime, however, Dr. Graham, of the city, had been called, and had arrived, so the doctor who had refused did not enter the house. When Dr. Graham reached the house the woman was dead.

OLD MAN FOUND DYING ON TRAIL

A new name spoken of to-day on the street is that of Sir Thomas Tait, who is being mentioned as the new chairman of the Board. An Ottawa despatch, which may be inspired, makes the new commission as follows: Sir Thomas Tait, chairman; Mr. Huntley Drummond and Lieut.-Col. Labelle.

TO HEAR SCHOOL BOARD PROTESTS

Toronto, Nov. 5.—The Hon. Dr. Pym, Minister of Education, will tomorrow hear the protests of the Ontario Separate School Board in regard to bi-lingual regulations. This date has been fixed by the government and the board had been notified to send its delegation.

IS HUM QUOM, THE OTTAWA CHINESE MERCHANT, A FORGER?

His Fellow Countrymen Watched his Movements Closely When in Montreal.

Hum Quom, the Chinese merchant of Ottawa, on trial for forgery and conspiracy in connection with the 'life and death' contract found in the pocket of Lee Yik Que, heard a witness in the case say yesterday that the whole 'job' was a rank forgery. If Hum Quom did anything while in Montreal without spying eyes shadowing him, it was not revealed in court.

INSANE 'DOPE KING,' AGED 24, ATTEMPTED TO KILL HIMSELF

Once Rosy-Cheeked, He is Now a Pale and Morose Prisoner

Frank Bailey, known as the 'dope king,' was transferred from the Montreal jail hospital yesterday to the Protestant Hospital at Verdun for the insane, after medical examinations extending over a period of ten weeks had been conducted by three experts for the Crown.

DISCOVERY OF NEW COMET

Cambridge, Mass., Nov. 5.—The discovery of a new comet by astronomer Borrelly, of Marseilles, France, is announced in a telegram received to-day by the Harvard College observatory from Professor Kobold, of Kiel, Germany. The position of the comet is given as Nov. 2, 2044, g. m. l., as right ascension, 17 hours 47 minutes; declination, plus 38 deg. 57 minutes. The comet is reported to have been visible in a small telescope, and to be moving southeast.

WESTMOUNT COUNCIL

The Westmount City Council meeting took place last evening, in two parts, the first of thirty minutes' duration, dealing with several measures; the final session lasting just two minutes, or long enough to read the report of the Roads Committee in connection with sewerage on certain streets.

ABOUT STREET NUMBERING.

Complaint was entered to the council by Mr. George W. Surby, a citizen, over the numbering of houses promiscuously. His objection was supported by Ald. McBride, who asked if it could not be settled in a manner to give

satisfaction to the sender of the letter, and at the same time not discommode other citizens. It was stated by Ald. Hyde that the city treasurer was empowered to see that this matter be attended to before next May. If any confusion existed, there were six months in which to allay the trouble. Belmont avenue received the same attention as other streets in the numbering.

ADDITIONAL POLLING BOOTHS.

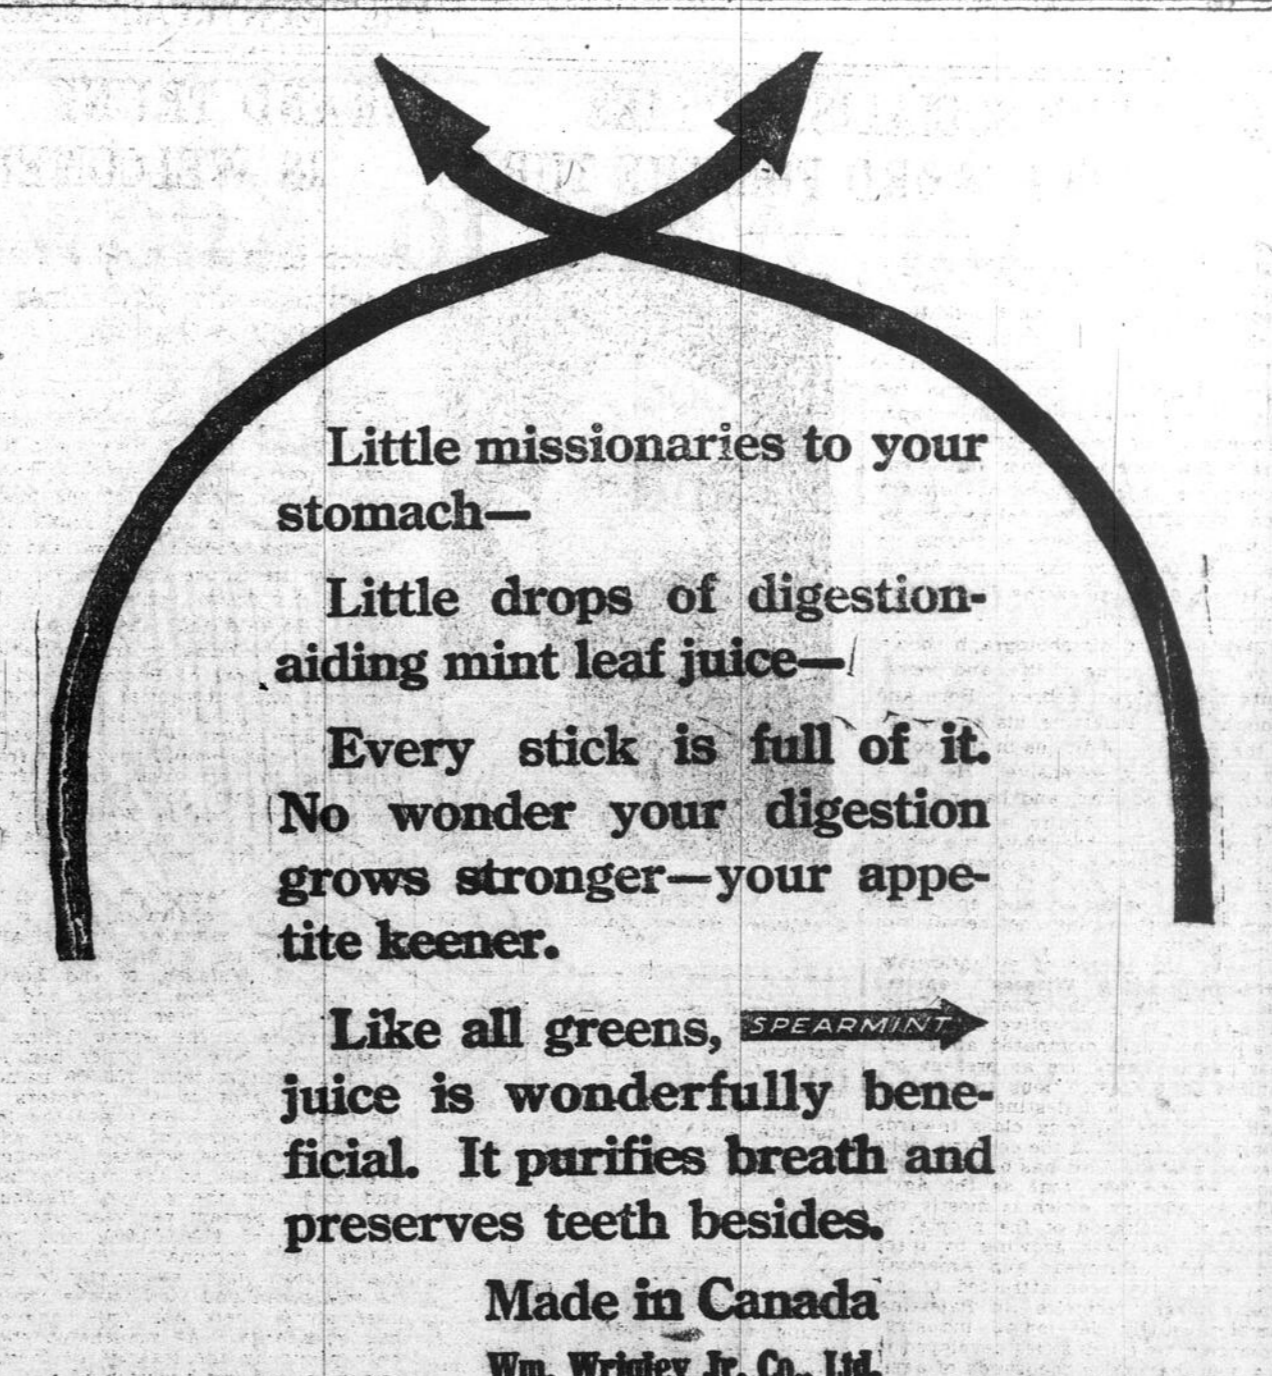

A resolution for additional polling booths in each ward before the municipal election in 1913 was passed by the council.

PERMITS ASKED FOR.

Two applications were referred for proper action: One to erect a Baby Hospital, by Mrs. Freedman, was referred to the Finance Committee, with the suggestion by the Mayor that the ladies signing the request explain to the council a more detailed report of the undertaking. The other application to erect a factory on Hillside avenue, by the Centre Freeze Ice Company, was held over for thirty days to conform with the by-law regarding a specified time for notice to be given.

CITIZENS MEET TO-NIGHT.

At the City Hall to-night there will be a meeting of the Westmount Municipal Association, when matters of moment to the citizens will be discussed; the coming election, the tramway service on the upper level, and the questions of parks and playgrounds. His objection was supported by Ald. McBride, who asked if it could not be settled in a manner to give

ARGUMENT FOR GALWAY
As Atlantic Port, Would Shorten Ocean Trip.

Ottawa, Nov. 5.—By making Galway, in Ireland, a transatlantic seaport, the ocean voyage between Canada and the Old Country can be cut down to about three and one-half days.

With a view to interesting the Dominion Government in the scheme, Mr. Robert Worthington, of Dublin, the eminent Irish railway contractor, had an interview yesterday with the Prime Minister, the Right Hon. R. L. Borden, who evinced a deep interest in the project, and who will cause it to be laid before his colleagues at an early meeting of the Cabinet.

The project was formally launched at a meeting in Dublin a few weeks ago, presided over by the Lord Mayor and attended by many notables, including representatives of sev-

eral British railway corporations, Irish municipal bodies, boards of trade and chambers of commerce. Briefly, the scheme is to establish a car ferry service across the Irish Channel, and utilize the existing main line of railway from Dublin to Galway. The distance between Halifax and Galway is 2,156 miles; from Liverpool to Halifax the distance is 2,440 miles.

The primary object of Mr. Worthington's visit to the Prime Minister yesterday was to arrange for the reception of the Canadian committee appointed at the Dublin meeting to present the advantages of the Galway route to the government of the Dominion.

The committee is composed of the Lord Mayor of Dublin, Wm. Murphy, president of the Dublin Chamber of Commerce; Ald. Cotton, M.P.; Wm. Hewatt, chairman of the Dublin Ports and Docks Board; Major Cusack, chairman of the Midland and Great Western Railway; P. J. Brady, M.P.; John Mooney, J.P., C.V.O.; Richard Jones, J.P.; R. J. Kelly, B.L.; Wm. Field, M.P.; the Right Hon. Lord MacDonnell, P.C.

From Ottawa Mr. Worthington will proceed to Toronto and thence to Detroit and Port Huron to investigate the working of the larger car ferry services.

Another Carload of Potatoes For Sale

500 more bags of FINE POTATOES from New Brunswick to offer. "GREEN MOUNTAIN VARIETY," \$1.10 per bag, or \$1.00 per bag, taking five bags or more.

RESERVOIR BURST OPEN
Torrent Six Feet Deep Swept Houses Away; People Missing

Nashville, Tenn., Nov. 5.—A portion of the east basin of the reservoir, from which Nashville gets its water supply, gave way early this morning, letting a torrent of water loose down the hill on which the basin is located. Several houses have been washed away, and a few residents of the section are reported missing.

The break came without warning and caught nearby residents as they slept. Several persons, hearing the rush of water, hurried to see what had happened and were caught in the torrent, but most of these have been accounted for. Residents near the reservoir felt the effects of the flood for only a short time, as the water soon had got to lower levels, where it flooded cellars. It is reported the water that swept down South Eighth avenue was six feet deep.

T. M. Heffey, wife and child were washed from their home, but were saved by climbing into the limbs of a tree. W. O. Arzinger and wife were awaked by the rushing of the waters and felt their house moving down the street. They escaped when the water began to subside. The opening in the reservoir where it gave away is 150 feet wide.

FLOWERS ON EXHIBITION HERE
Large Mauve Orchid Gained First Prize at Horticultural Show.

A beautiful array of flowers, in which the large double chrysanthemum, in many varieties, was the finest collection, was on view last night at the annual flower show of the Montreal Gardeners' and Florists' Club in the Royal Guard's Building. The special exhibit of roses was also remarkable for the beauty and delicacy of the flowers, while in the class for orchids a large mauve one gained the first prize.

The awards were as follows:
Chrysanthemum plant—First prize, T. Arnold, gardener to Mrs. C. M. Hayes; second prize, L. Arnold, gardener to Mr. E. B. Greenfield.
Single chrysanthemum—First prize, T. Arnold.
Chrysanthemum plant, 6-inch pot—First prize, T. Arnold; second prize, J. A. Travis, gardener to Mr. A. H. Sims.
Nephrolepis—First prize, J. A. Travis; second prize, T. Arnold.
Pan of ferns—J. A. Travis.
Orchid—First prize, T. Arnold; second prize, J. A. Travis.
Begonia, Gloire de Lorraine—First prize, T. Arnold; second prize, L. Arnold; third prize, J. W. Turner, gardener to Mr. E. B. Greenfield.
Begonia, other varieties—J. W. Turner.
Cut chrysanthemum, twelve—First prize, Hall and Robinson; second prize, J. W. Turner; three white, Hall & Robinson; pink, first, Hall & Robinson; second, T. Arnold; third, L. Arnold; yellow, Hall & Robinson; red, T. Arnold; bronze, first, Hall & Robinson; second, T. Arnold.
Chrysanthemum and begonia—First, Hall & Robinson; second, T. Arnold.
Vase of singles—First, Hall & Robinson; second, McKenna & Son; third, J. Eddy & Sons; fourth, J. W. Turner.
Vase of pompons—First, McKenna & Son; second, Hall & Robinson.
Special exhibit of seedling chrysanthemums, McKenna & Son; special exhibit of roses, Hall & Robinson.

ENGLISH CAPITALIST DIES IN COLORADO

Denver, Colo., Nov. 5.—With the death of John Laverson Gower, an English capitalist, at Colorado Springs last night, the mystery surrounding the supposed poisoning of several persons at the Mary Murphy Mine near Buena Vista two weeks ago has deepened. Five deaths already have occurred among persons who ate in the boarding house Oct. 21.

George E. Collins, general manager of the mine, declared that the investigation made by physicians of the food eaten at the boarding house disclosed no traces of ptomaine poisoning.

THE PROPOSED FREE LIBRARY SYSTEM FOR MONTREAL

An Outline of the Tentative Scheme Which has been Drawn Up for Covering all Parts of the City

The scheme broadly outlined in yesterday's 'Witness,' by which some citizens hope to bring about the establishment of a free library system for Montreal, has created great interest, judging by numerous inquiries on the subject.

The question naturally arises as to where the funds would come from to supply and maintain these libraries, and what authority would be responsible for their administration?

In the first place, suggesting the existing institutions came together—namely, the Fraser Institute, the Mechanics Institute, the Natural History Society, and the Redpath Library at McGill—their accumulated wealth in cash, books and endowments would give a very respectable nucleus for the system.

Mr. Andrew Carnegie once made an offer of money to build libraries here provided the city would undertake their maintenance. Perhaps his offer might be found still to hold good; in any case, if representations were made in the right quarter there are those who hold that there should be no difficulty in getting all the money required for building branches in various parts of the city.

LITTLE HELP WANTED FROM CIVIC TREASURY.

In that case, it is estimated that a grant from the city of \$15,000 a year would be all that it would be necessary to add to the funds for the free library purposes. Compared with the tremendous need to which this free library system would cater, this amount is small indeed.

The plan adopted with success in other cities would be followed here, according to the tentative scheme already drawn up. This would be gradually to build all the branches necessary before erecting the central free library. Both New York and Brooklyn have followed this plan. Brooklyn has now 28 branches, and the central building has not yet been provided. In New York, where a fine branch system has been in operation for years, the central building has only just been completed.

As far as Montreal goes, suggesting the institutions already mentioned were to amalgamate, no better site could be obtained for the central building than that now occupied by the Fraser Institute. Indeed, this building could for years be used as the central building, and as the headquarters of the administration.

THE PROBLEM OF THE MECHANICS INSTITUTE.

Now that the Mechanics Institute building has been sold, that organization is faced with the need of getting new quarters and some of its members have suggested that it should move into a district where it would be in closer touch with workmen, and therefore in a better position to carry out the work among artisans and mechanics for which it was originally founded.

Under a general scheme a particular district could be assigned to the Mechanics Institute, which, as a branch of the Free Library system, would enter on a greatly enlarged sphere of usefulness. It could, moreover, ensure that the benefits which its founders had in sight, be extended to every part of the city through the medium of the other branches.

The question of administration is one that presents a serious problem. It would never do to administer the system by a committee at the City Hall, and thus make it the football of ward politics.

WHO MIGHT TAKE THE INITIATIVE.

What is necessary first to do is for some of the citizens now working so earnestly for the public welfare to get together and appoint a committee of influential and representative men to take up this matter. The men on the executive committee of the King Edward Memorial Fund, of which Sir Thomas Shaughnessy is president, are the stamp of men required. The City Improvement League, acting in conjunction, perhaps, with the Local Council of Women, might well take the initial steps in interesting such men in the project.

Then the governing bodies of the Fraser Institute, the Mechanics' Institute, and the Natural History Society, with representatives of the Redpath Library at McGill, might be invited to a conference with the general committee, and, if a scheme of amalgamation could be agreed upon, a council formed to administer the free library system. On this council there might be representatives of the institutions named and a representative of the City Council. Vacancies, as they occurred, would be filled by the council itself, except as regards representatives.

Then a general librarian, well trained and experienced in the modern methods of library work, would have to be appointed, to oversee the whole system, and a general headquarters staff selected. The free library system would then be on its feet, and, within a short time Montreal would be enjoying the inestimable benefits of public libraries, comparable to those of all the great cities of the English-speaking world.

GAMING DEBTS NOT KNOWN IN LAW

That gaming debts cannot legally be collected has once more been affirmed by the Montreal Superior Courts. Judgment has been given by Mr. Justice Lafontaine dismissing with costs the suit brought by Zoticque Ripelle against Louis Ripelle to recover \$90.70 on promissory notes given by the defendant to Norbert Birtz, from whose widow plaintiff secured them. Defendant pleaded that Birtz, in his lifetime kept a house where cards were played for money, and that the notes had been given in connection with the games.

ELLIS MAY BE GIVEN NEW TRIAL

Lindsay, Nov. 5.—New evidence may be disclosed in the case of Arthur A. Ellis, now under the death sentence in the county jail here, through Col. Sam Hughes, Minister of Militia, in whose constituency the convicted man lived, and the shooting of Lewis Porter took place.

It is understood that a report has come to the minister that Ellis had sought to marry Edith Porter, the daughter of his dead wife, before their marriage, and who, the defence tried to show at the trial, had written to Ellis to tell him of the threats of the Porters against him. This intention

HENRY MORGAN & CO. LIMITED

Have Brought All Lines To Complete Readiness In

EVENING APPAREL

Including Such Lines As:
