ONE CENT.

NINE MEN WERE NEARLY DROWNED

Had Thrilling Escape When Dredge Sank During Heavy Gale.

Bridgeport, Conn., Nov. 4.—Nine men had a thrilling escape from death by drowning early to-day at Black Rock Harbor, when the dredge Capital City, on which they were sleeping, sank suddenly, carrying them down with it in ten feet of water.

POTATO CROP IN EASTERN TOWNSHIPS HAS FAILED.

Sherbrooke, Que., Nov. 4.—The potato crop in the Windsor Mills section of the townships is a complete failure. Several carloads of potatoes have been brought into Windsor Mills from New Brunswick and Little Metis. Quebec farmers in many instances have had to buy their winter supply.

WILL MAKE OFFER TO BUY TORONTO ELECTRIC.

Toronto, Ont., Nov. 4.—The Board of Control will make an offer to buy out the Toronto Electric Light Company. This was the rumor current at the City Hall this morning, but as to the nature of the proposition to be made no information could be gained.

SIX-DAY BIKE RACE AT BOSTON.

Boston, Nov. 4.—The standing of the teams in the six-day bike race was unchanged at the end of the night's racing, except that Jokis and Schiller dropped a lap and went again into last place. At the end of the fifth day's racing the leading five teams had covered 1,124 miles, 5 laps, while 5 were tied for sixth place were one lap behind. Jokis and Schiller had 1,124 miles and 4 laps. The race ends tomorrow night.

JOHN REDMOND GIVEN A FAREWELL DINNER.

New York, Nov. 4.—A farewell dinner to John E. Redmond, leader of the Irish-Nationalist party in the British Parliament, was given to-night by the United Irish League. All the Irish societies of New York were represented. Mr. Redmond said he had visited seventeen of the larger cities of the country to agitate for his cause and he thanked the people and press for their generosity and kindness.

MERCHANT MAY DIE FROM BURGLAR'S BLOW

New York, Nov. 4.—In a battle with a burglar in his home in Bronx Borough this morning, Nicholas Hinners, a prosperous grocer, was probably fatally injured from a blow from a black jack. Hinners grappled with the burglar when he awoke and saw the man bending over him. The grocer was getting the better of the struggle, when the burglar struck Hinners repeatedly on the head with the weapon, crushing the skull. The burglar fled down the fire escape. It is not believed he got any plunder. On the floor was a large roll of bills which evidently had been dropped by the man when Hinners attacked him.

KEEP BEFORE YOU.

Canadian Pacific Railway trains, between Quebec and Montreal, run as follows: From Quebec. Arr. Montreal. 8.30 a.m.—Week days only. 3.00 p.m. 1.30 p.m.—Daily. 6.30 p.m. 11.30 p.m.—Daily. 6.30 a.m. From Montreal. Arr. Quebec. 9.00 a.m.—Week days only. 3.25 p.m. 1.30 p.m.—Daily. 6.30 p.m. 11.30 p.m.—Daily. 6.45 a.m. A—Parlor Cars. B—Sleeping Cars. For full particulars, tickets, etc., please apply to 30 St. John St., corner Palace Hill, 46 Dalhousie St., Chateau Frontenac or at Station Ticket Office. nov.5x3

FORE-RUNNER OF WHAT IS TO COME

Laurier Cannot Fool All the People All the Time—Will Not "Finish His Work."

Kingston, Ont., Nov. 4.—The Standard of this city, a Conservative paper, says: "Let there be no mistake. The Arthabaska election is not so much a victory for Bourassaism as it is a protest against the Canadian Navy—a protest, we feel sure, that will be joined in by every section of Canada, when the opportunity is given the people at the polls to express their feelings in this matter. You can fool all the people some of the time, and some of the people all the time, but you can't fool all the people all the time." Laurier will not have another chance to "finish his work." He has done too much already, and not of a kind that will be appreciated by the people. The Laurier government of to-day is not the Laurier government of other years, which the people believed in and trusted. The Arthabaska election is merely a forerunner of what is to come.

THEATRICAL MANAGER VISITS QUEBEC.

Mr. Clark Brown, manager of the Canadian Theatres, Ltd., was in town yesterday and left last evening for the West. Mr. Brown visited the Auditorium, which is one of the theatres in the chain of the circuit, and was much interested with the large business which is being done by the local house under the management of Mr. J. H. Alos, the popular up-to-date manager.

CONVICTION FOR SELLING PAPERS WITH RACE NEWS.

Toronto, Nov. 4.—A conviction was registered against Mel Luttrell, news agent at the Iroquois Hotel, for selling papers which supplied racing information, and a stated case granted by Magistrate Denison in the Police Court to-day. Similar charges against Charles Dean, Thomas White and F. Waldreck were remanded until the case against Luttrell is finally disposed of. The papers complained of were the New York Telegraph and Chicago Racing Form.

U. S. MILITIAMAN GETS A LIFE SENTENCE.

Dallas, Tex., Nov. 4.—Sergeant J. D. Manley, of the Texas National Guard, who stabbed with his bayonet and killed Louis Richemstein, a spectator, during the visit of President Taft to Dallas a year ago, was given a life sentence in the penitentiary to-day by a jury in the Criminal Court. Manley has always claimed that the killing was accidental. The defendant showed signs of temporary insanity at the close of the trial. As the jury filed out he shook their hands and thanked them for the life sentence.

SERVICES OF QUEBEC FIREMEN APPRECIATED.

The services of the Quebec firemen have been much appreciated by municipalities outside the city limits as the following letters received by Mayor Drouin will testify: "I beg to tender my sincere thanks for your kindness in sending the Quebec Fire Brigade to my residence when it was burned last week. Believe me, I fully appreciate the good services of the brigade, although they were handicapped by not having water close enough, and I have much pleasure in enclosing my cheque for \$25 for the firemen's fund. A. J. Price. "Sillery, Nov. 2.—I have been requested by the Municipal Council to thank you for your kindness in allowing the Quebec Fire Brigade to come to our assistance in regard to a fire which took place in Union Cove last week. I beg to enclose our cheque, amounting to \$25 in favor of Firemen's Pension Fund, for their promptness and good work at the above fire. Yours respectfully, T. H. McNEILL, Secretary-Treasurer.

OCEAN ARRIVALS.

Nov. 4th, 1910. SS. Royal George, at Avonmouth, from Montreal. SS. President Grant, at Plymouth, from New York. SS. Ryndham, at Rotterdam, from New York. SS. Koenig Albert, at Naples, from New York. SS. Sannio, at Genoa, from New York.

NERVES NEED Scott's Emulsion

the same as babies. Babies can't take care of themselves, nor can nerves. Babies cry for attention—so do nerves. Probably both are half-starved for proper nourishment. Give them SCOTT'S EMULSION.

BRITISH DID NOT INVADE PERSIA

Skirmish With Afghan Gun Runners Magnified into Sensational Story.

London, Nov. 4.—A despatch received here to-day by a news agency from Teheran reported that a British invasion of Persia had begun recently at Lingah, on the gulf of Persia, and that it was stated that the commander and officers of the British cruiser Prosperine had been wounded in a pitched battle. It turns out that the affair had nothing to do with Persia. Sixty men who had landed from the Prosperine near Chahbar, in Beluchistan, had a brush with Afghan gun runners, in which the captain of the Prosperine and another officer from the east were slightly wounded. Chahbar is 350 miles distant from Lingah and in another country.

COLLEGE STUDENT DEAD FROM FOOTBALL INJURY

Roanoke, Va., Nov. 4.—J. M. Mock, a member of the senior team, at Roanoke College, died here today from injuries received a week ago in a football game. He was a native of Damascus, Ga.

LEACH CROSS MADE A "COME BACK."

New York, Nov. 4.—Leach Cross, the dentist pugilist of the east side, took one step out of the has been class when he gave a bad beating to Jack Dorman before the Fairmount A. C. Dorman stayed the limit, but that was all.

FRENCH CABINET AND TRADE STRIKES.

Paris, Nov. 4.—It is understood that the new Cabinet, although it does not oppose the principle of trades unionism, will propose a law for enactment declaring strikes by employees in the public service and by state employees to be illegal and providing a penalty for persons engaging in such movements.

YOUNG MILLIONAIRE ACQUITTED OF MURDER.

New York, Nov. 4.—Edward T. Rosenheimer, a wealthy manufacturer, was acquitted this evening of a charge of killing Miss Grace Hough by running down in his auto the buggy in which she was riding August 18. The jury was out but half an hour. Rosenheimer has been first charged with murder in the first degree, but when the evidence for the defense was all in Judge O'Gorman, presiding at the trial, reduced the charge to manslaughter in the second degree.

NO NEW RELIGIOUS INSTITUTIONS IN SPAIN.

Madrid, Nov. 4.—The Senate to-night by a vote of 149 to 58 passed the "Padlock Bill," which prohibits the creation of further religious establishments in Spain until the revision of the concordat with the Vatican has been completed. The conciliatory attitude of Premier Canalejas toward the ecclesiastical senators during the debate to-day on the bill led to the impression in official circles that a way would be found to resume the negotiations between the government and the Vatican for a revision of the concordat when the bill is passed.

A DANGEROUS PRACTICE.

The proprietors of Zam-Buk have reason to believe that certain unscrupulous dealers are attempting to hand out to some customers who ask for Zam-Buk some preparation other than Zam-Buk, but on which their profit is greater. At least one case has been brought to light where one of these harmful substitutes—with nothing in the least resembling Zam-Buk in its composition—when used by the purchaser, set up acute irritation; and blood-poison was only averted by applying the genuine Zam-Buk. This dangerous practice of substitution will be rendered impossible if purchasers will be sure to see the name Zam-Buk (protected by law) on each box before buying, and will refuse to be led astray by plausible talk about something else being "just as good and cheaper" or "practically the same thing," etc., etc.

AN INCREASE IN CRIMINAL CHARGES

Shown by Statistics for Past Year—New Papal Delegate—Reciprocity Delegates.

Ottawa, Nov. 4.—Criminal statistics just issued show that in 1909 there were 15,350 charges and 11,449 convictions for indictable offences, an increase of 110 charges and 115 convictions during the year. New Papal Delegate. Up to this evening no official news of the appointment of Mgr. Stagni as Papal Delegate to Canada had been received in Ottawa. Reciprocity Delegates. Messrs. Hoyt and Pepper, the U. S. reciprocity envoys in Ottawa, were entertained to-day by the Hon. J. G. Foster, American Consul. They visited Government House and were the guests of Hon. W. S. Fielding at dinner at the Rideau Club. The conference will open for business to-morrow.

MEXICAN MURDERER BURNED AT STAKE.

Rock Springs, Texas, Nov. 4.—Antonio Rodriguez, a Mexican, who confessed to-day that he murdered Mrs. Lee Henderson yesterday afternoon, was burned at the stake by a mob late to-night.

BOSTON SIX DAY BICYCLE RACE.

Boston, Nov. 4.—At midnight, the end of the 38th hour, the leaders had covered 858 miles, 8 laps. The second division remained one lap behind. The Jokus-Schiller team was four laps behind, having lost one of their regained laps.

MARITAL HISTORY OF ONE OF THE GOULDS.

Frank J. Gould's first wife was Miss Helen Kelly, a daughter of the late Edward Kelly, of New York, who divorced him in May, 1909, and married Ralph H. Thomas last July. Frank Gould and Edith Kelly, an actress, sailed in September for Europe and according to recent despatches from London, were making arrangements to proceed to Scotland to have a marriage ceremony performed there.

FRANK GOULD MARRIES AN ACTRESS.

Edinburgh, Nov. 4.—According to the Scotsman, Frank J. Gould, of New York, was married at Edinburgh, Oct. 29th. In making the announcement, the Scotsman says: "The lady, singularly enough bears the same name and surname as Mr. Gould's first wife." In the entry in the sheriff's record, however, the names given are simply Gould and Kelly. The ceremony, which followed the Scottish procedure—a simple declaration of witnesses and the sheriff—was conducted with the greatest secrecy. After the marriage the couple went to Abbotsford, the former home of Sir Walter Scott, which Mr. Gould recently acquired as a residence.

CYCLONE PLAYED HAVOC WITH AVIATION MACHINES.

Baltimore, Nov. 4.—A storm of gradually increasing intensity played havoc at the Baltimore aviation field to-night. Rain, with a high wind, compelled a postponement of the day's programme and developed into a near blizzard by midnight. The garage in which were stored two Curtiss machines, two belonging to Drexel and two of the Wrights, was blown down and half of the European hangar went down. In it were Radley's machine, two belonging to De Lesseps and Latham's Antoinette. Other structures also suffered. Communication with the grounds is difficult and it is not known what damage has been suffered by the aeroplanes. It is understood that Latham's Antoinette is in the portion of the foreign hangar still standing.

DUMMY SAFE DECEIVES THE POLICE.

An imitation safe of painted canvas and wood was left by thieves in the place of the office safe at a Fulham post office in London, Eng. In order to lull the suspicion of the police who could see into the room. The real safe the burglars removed to a basement, forced, and emptied of £70 in cash and £50 or £60 in stamps. The premises, in Fulham Palace road, are those of Messrs Wills and Sons, provision merchants, and attached to the business is a branch post office. The shop is a "lock-up" one, no one sleeping in, but special police protection had been invoked in view of recent burglaries. On entering the shop on Monday morning the manager noticed that the safe was only a counterfeit, but a remarkably skillful one, which must have been brought in after careful comparison with the original. It must have taken three or four men to carry the real safe downstairs. Once in the basement the thieves were able to work at their leisure, the police being deceived by the dummy safe in the exact position of the real one.

BRITISH WAR SECRETARY TAKES AEROPLANE FLIGHT

London, Nov. 4.—Richard Burdon Ealdane, British Secretary of War, to-day made a twenty minute trip in the army airship at Aldershot. It was his first experience in flying.

FIFTEEN INCHES OF SNOW FELL

Fierce Storm Raged in New York State and Railway Collision Resulted.

Scranton, Pa., Nov. 4.—The storm which struck this section of the state last night developed into almost a blizzard. Fifteen inches of snow had fallen up to this evening and the storm continues. Railroad traffic was greatly impeded and wire service was crippled. The storm was responsible for a collision of trains near Forest City, near here, in which one man was killed and two others injured. The snow was so thick that the engines were unable to see signals and a Delaware and Hudson coal train ran into an Erie freight. Henry Graton, of Carondele, conductor of the coal train, was killed.

GERMAN OFFICER TALKS OF BRITISH ARMY.

London, Nov. 4.—Col. Gaedke, the German officer, who attended the Army manoeuvres, indulges in some scathing criticism of British generalship in an article in the "Berliner Tageblatt." According to Reuter he expresses the conviction that if the British Army be compared with the French, German, Austrian, or Japanese armies the verdict can only be that it is not qualified to play a part worth mentioning in war. The troops, he says, may be excellent for Colonial and Asiatic warfare owing to their great moral qualities of coolness and daring, but their commanders have no idea of handling troops in masses. "It is my impression," he concludes, "that the British Army, so far as its value and ability are concerned, has not changed much since the South African war. This strikes me as true, notwithstanding that British possesses, as well as her raw material for officers, is eminently good—the peer of any in the world."

Look for the Girl With the Auburn Hair

If your hair is thinning out—if you are troubled with dandruff—if your scalp itches and you feel you must scratch your head to pieces—if you would prevent baldness—then you must begin to use Parisian Sage without delay. Parisian Sage is sold under a positive guarantee by Henry Willis to banish dandruff, stop falling hair and itching scalp in two weeks or your money back. It gives to the hair a lustre and radiance that is most fascinating, and causes an abundant growth. It is sold at 50c bottle and manufactured by the Giroux Manufacturing Co., Fort Erie, Ont. You must see that the label contains the girl

SAD STORY OF A FAMILY'S SORROWS.

Scranton, Pa., Nov. 4.—Mrs. Harriet Turner shot and killed her 17-year-old daughter, Margarie, last night and then shot herself, probably fatally. Mrs. Turner's husband and her son are in a Philadelphia hospital. The husband is in a critical condition from asthma, and the son is being treated for blindness.

Good Time?

Last night—eating big dinner is often the maker of a BAD TODAY. Why not? Over-eating means extra work for the stomach and bowels. You've got to suffer if you don't help nature unload with CASCARETS. "They work while you sleep"—you're O. K. in the A. M. Tonight's the night to take care of to-morrow. CASCARETS—the big week's treatment. All druggists. Biggest seller in the world. Million boxes a month.

... THE ... Chronicle The Greatest SINGLE FORCE in the Development of Quebec Advertising Local advertisers know that "The Chronicle" is Quebec's daily shopping guide; many general advertisers recognize that through the employment of its columns they can reach more Quebec families and at a lower cost per thousand than through any other English medium in the province of Quebec outside of Montreal. The force of "The Chronicle," however, does not lie alone in the numerical strength of its circulation, superior as that is, but in the liking Quebecers have for it—a preferential attitude which makes it the great family newspaper of Quebec. Manufacturers and Merchants desirous of having their goods used in most Quebec and nearby homes and by the people who reside therein, can readily accomplish this through "The Chronicle". If you wish our ad man will call on you. His phone is 45.

FREMY'S THE ORIGINAL CHERRY WHISKY LIQUEUR Low, Young & Co. Montreal

The Quebec Chronicle

QUEBEC, NOVEMBER 5, 1910.

THE DEEP CHANNEL.

The Patrie of Montreal publishes a despatch from Sorel stating that the government has decided to go on with the dredging of the channel between Montreal and Quebec, so as to deepen it to thirty-five feet, instead of thirty feet; that three costly dredges are now being built at Sorel to carry this out, and that no less than 700 men are now employed in the government shipyard in that town.

Sorel is to be congratulated upon having secured so important an industry, and the energy of the influences at work to secure for Montreal the improvements in the channel that have already been carried out, as well as those contemplated, is much to be admired. On the other hand, it should not be forgotten that these works are being carried on at the expense of the whole country, and not by Montreal. So that it is only just that Parliament should be consulted as to their cost, which will no doubt amount to many millions, before any radical change of policy is decided upon. The deepening of the channel to thirty-five feet and the doubling of its width is a radical change of policy, and one of very formidable proportions. Does the Minister of Marine know what it will cost? And is he sure that it can be carried out? For ten years the government has been endeavoring to deepen the channel from 25 to 30 feet, and yet at Cap a la Roche, in what is very properly called the Richelieu Rapids, the depth is only 26 feet for a distance of three miles, and the width of even this channel much less than the 300 feet minimum required. Is it possible to deepen the channel, in solid rock, at this point to thirty-five, or even to thirty feet? If so, why not devote all the expenditures to getting this done, before expending millions in other parts of the channel, which will only be wasted if the channel at Cap a la Roche cannot be deepened.

These suggestions are not influenced by a spirit of jealousy. All that we ask is that this important and radical change of policy should be treated in a common-sense business-like way. If reliable and independent engineers state that this thing can be done, let the estimates of the cost be submitted to Parliament, and if the representatives of other parts of Canada think that it can be done, and that the cost is not excessive, Quebec people will not kick.

THE RACE CRY.

There are two ways of using the race cry. One is to come out boldly as a self-confessed and unabashed Chauvinist, the other—the more subtle way and the one most usually employed by the Laurier troupe—is to accuse your opponents of appealing to racial and religious prejudice. And so, though Laurier would appear like Saul of Tarsus to have undergone a conversion, his political satellites even now do not disdain to follow the second method of procedure, because they thus think to get all the benefit that may be derived from it, and escape any odium for its origination from those who deprecate its abuse.

It was therefore hardly surprising to find that many Liberal organs did not abandon the vest-pocket vademecum which is generally produced as the last resource in this province. Hardly had the campaign started before their columns were crowded with garbled and falsified accounts of the tactics employed by the followers of the Nationalist candidate—or Liberal, as they now begin to call him. In one or two isolated cases there may have been some justification for the charge. There was, for instance, a gentleman named Blondin, who should be tied up more securely in future. But these were the exceptions. They carried very little weight, and, as Mr. Bourassa said at Montreal, it was not an anti-British campaign.

The surest and most incontrovertible answer to the charge is the fact that the English vote went in favor of Bourassa's candidate.

As for the question of disloyalty, the Nationalists contend that they have no desire to sever Canada's connection with the Empire. The Liberals fought the election on the cry that the navy would mean a big stride towards separation!

A POLITICAL ASSET.

If the people of Canada were not convinced that the projected Canadian navy would be improperly administered and would be the worst kind of a white elephant, they would not be so hostile to it. But they know from the light of past experience that the Premier regards it solely as a political asset. Its inception enables him to open up a new department, to create a number of berths for clamorous party heeled. When one of these parasites with a certain amount of political service to his credit (or discredit) becomes annoyingly importunate, and there is no vacant seat on the bench, no haven of refuge in the Senate, and no position in any other department, open for the moment, then the extent of the navy's usefulness will be apparent.

There is not likely to be any efficiency or discipline under such a regime, which will probably set a premium on naval incompetence, and in which the chief qualification will undoubtedly be the political pull of the candidate for entry. It is hardly likely that men in inferior positions will obey their superior officer if they think that they stand in higher favor with the government than he does. Such has not been the case hitherto.

THE DIRECT CONTRIBUTION.

The government campaign in Drummond has had one salutary effect. It has tended to convince all honest English-speaking Liberals that their party intends to do nothing for the Empire, and that its ringleaders are making this their proudest boast in the Province of Quebec.

That the navy will be useless to England we all know. That it will be useless as a means of defence to Canada is equally assured. What we do not know is the depth of extravagance in which it may involve us. The probable cost of the Transcontinental was estimated at \$13,000,000, but twenty or thirty times that amount would have been a more accurate forecast. But the Transcontinental will serve a public need by assisting in the development of the country, and this fact has naturally helped to reconcile Canadians to the innumerable instances of rake-offs, illegitimate speculation and wasteful expenditure which have been such a feature of its history.

The very argument that Canada should be allowed to develop its resources is a point in favor of the direct contribution. To ensure our doing these necessary works without let or hindrance we must be under the protection of some power as we could not stand alone. For years we have worked out our destiny under the protection of England, and even when she withdrew her ships we knew that, if the occasion arose, she would come to our assistance. We knew it, and every other country knew it.

When Mr. Brodeur intimated to Lord Tweedmouth at the Imperial Conference that no one in Canada favored a contribution to England, the latter did not retaliate by saying that if Canada wished to do nothing for England, then England would leave Canada to her own devices. On the contrary, as the spokesman of the English people, he defined their attitude to this country thus:—"We hope to have their help, but still they are quite right to look after their own interests, in the full security that, so far as the British government can be of use to them in their defence in time of need, they may depend in any circumstances on our giving that aid with the greatest joy and without any sort of drawback whatever."

And so, whether we have a Canadian navy or not, we shall still be relying just as much on Britain as our naval bulwark. Even if war broke out against her and the Liberals refused to let their navy participate, the Admiralty would not be very greatly exercised in spirit, as it could be of no service to them. And if the Canadians wished to go to the assistance of England, no Liberal from Gaspe to Vancouver could stop them from doing so.

Which of the two is the better proposition: To build a navy begun by purchasing salvages from the junk-heap—a navy which will surely cost us an amount out of all proportion to its value—and be quite as dependent upon England as if we had none; or to make a direct contribution, which, though it will hardly cover the expenses of a local navy for two or three years, will provide England with modern, powerful and serviceable ships that will be used both for her defence and for ours? If we take the

latter course we shall acquit ourselves in a measure of the debt to England, which at heart we know ourselves to owe; we shall be sure not only of obtaining adequate naval protection, but also of deserving it. And, last but not least, we shall also realize that such a method of procedure will leave no chance for political boddlers. Mr. Borden's policy can hardly fail to appeal to thoughtful English-speaking people of whatever persuasion they may be.

CANADA A LAUGHING STOCK.

A most extraordinary story comes through the Berlin Journal, of Berlin, Ontario, as to the ridiculous and injurious manner in which the Laurier government has been advertising Canada in the German-speaking portion of Europe. It appears that the Laurier government has issued and circulated a booklet in German which has made Canada the laughing stock of that continent. A prominent German citizen of Toronto writes of this booklet as follows:—"Canada has been publicly disgraced through its German advertising literature, written in a horrible style, and abounding in absurd statements with regard to Canadian conditions. This miserable literary product has aroused derisive laughter from the German Baltic coast to Lake Geneva, and from the Rhine to the eastern limits of Hungary."

"A source of ridicule for the Canadian government, and a misfortune for the beautiful land of Canada, with its promising future."

An Austrian gentleman living in Vienna, but well acquainted with Canada, received a copy of this extraordinary booklet, and was so surprised at some of its statements regarding the country it was supposed to "boom" that he wrote to a Canadian correspondent as follows:—"Dear Sir,—I am sending you under separate cover a copy of a sorry-looking pamphlet for advertising purposes which the central government at Ottawa is distributing in thousands of copies throughout Austria and Germany. If you will take the time to read the portions which I have marked (about one hundred), then you will readily agree with me that hardly ever has a more wretched piece of work been sent out into the civilized world under the auspices of any government for advertising purposes."

"The beautiful country of Canada has been injured here by the absurd contents of the pamphlet in question, which have made it the general laughing stock. But one opinion is expressed in all educated circles with reference to this publication; that it is a shame for the Central Government and a misfortune for Canada," etc.

Later another letter was received from Vienna, which concluded thus:—"The Minister of the Interior at Ottawa has entrusted to a man who understands neither the geographical, agricultural, social nor political conditions of Canada, such a most important work, and thereby this beautiful country, with its grand future, has become an object of ridicule in the eyes of educated Europeans! The vital interests of the country demand that press and the parliament together take a firm stand against injuring the good name of Canada in such a manner, by insisting on guarantees in order that anything of this nature may not occur again."

Commenting on this matter the Berlin Journal says:—"We shall not attempt to say anything about the extremely silly and absolutely foolish contents of the pamphlet, not to mention the numerous typographical errors."

"But we consider it a sacred duty to point out to the government at Ottawa what great harm has been done by this piece of literary trash, and how it has injured in the eyes of all educated people, and even of those with only a partial education, in all parts of German Europe. We trust the entire press of the country, as well as the Dominion Parliament, at its approaching session, will insist on the carrying out of the suggestion made by our correspondent at Vienna, that whatever is left of the first edition of this worthless advertising literature be destroyed, and that as soon as possible the German commissioners be supplied with printed matter, the contents of which will tend to re-establish confidence in our country and its government, in Germany, Austria and Switzerland."

"For every one who has received a copy of the first pamphlet, must without fail regard Canadians and Canadian officials as veritable Kaiters."

Wood's Phosphodine, The Great English Remedy. Tones and invigorates the whole nervous system. Makes new blood in old veins. Corporation of Quebec CITY ENGINEER'S OFFICE. Tenders For Carters Numbers. CITY HALL. Quebec, 3rd Nov., 1910.

PUBLIC NOTICE is hereby given that sealed tenders, endorsed Tender for Carters' Numbers, etc. and addressed to the undersigned, will be received up to Wednesday, 16th Nov., 1910, at 4 p.m., for Carters' Numbers, etc., required for the fiscal 1911-1912. Tenders must be made on the printed blank forms, and endorsed in printed envelopes, which will be furnished to intending contractors, on application for same at the City Engineer's office, and the Road Committee will not entertain any tender that is not made on the said blank forms and enclosed in the said envelopes. Tenders must be endorsed on the outside of the envelopes, with a certificate from the City Treasurer of the necessary deposit as security for the contract. Each tender shall be subscribed to by two responsible parties willing to secure the execution of the contract. Each tenderer shall deposit in the hands of the City Treasurer the sum of \$50.00, to be confiscated by any one refusing to sign the contract. The Corporation does not bind itself to accept the lowest or even any of the tenders. The contractor to pay for drawing up the contract, and supply the City Engineer with a certified copy thereof. W. D. BAILLAIRGE, City Engineer.

THE BECKET RECITAL

The recital of an abridgement of Tennyson's play of Thomas A. Becket, given on Thursday night before a large and appreciative audience in Loyola Hall, was an experiment which on the whole may be looked upon as a success. Mr. Charles C. Watts' delineation formed the prominent feature of the entertainment, and his versatility could not but strike every one present as something out of the ordinary in the way of rendition of character on the stage. To attempt what Sir Henry Irving made his final effort on the English stage is by no means an easy task, and yet Mr. Watts succeeded in observing the dra-

MR. GILBERT LAMONT.

matic action from the opening scene, where the King and Becket are discovered at a game of chess, to the closing scene of Becket's death, with a skill that could not but be admired. The stage, though small, was a suitable scene for an exhibition of the reciter's gifts, as he proceeded from scene to scene in the condensed version of the play in hand; and it is to be hoped that the public may have a second opportunity of following the genius of character developments of the late Poet Laureate in such a recital, as an incentive to those present to make a study of the whole play in its published form.

Mr. Watts has given a lesson to Quebec. While the musical art in our town is ever progressing, the elocutionist seems to have become a back number; and Mr. Watts has shown that there is as much, if not more, of an entertaining force in the cultivation of the one art as of the other. Those who saw his personation of the principal characters in the play will not readily forget them. The wrath of the King, the patience and impatience of the historic archbishop, the dilemma of fair Rosamond and the

MR. GILBERT LAMONT.

Mr. Gilbert Lamont, who sang between the acts, rendered three numbers in unsurpassable form, and Miss Sunberg, who sang Rosamond's song, was also in excellent form, and her sweet soprano voice was heard to great advantage.

THE SERVANT PROBLEM

IN GERMANY

Among the many domestic problems that Germany has solved to its own satisfaction is that of the giving or refusing of a "character" to a servant. The following statement of the system in vogue in Germany shows how completely it answers its purpose:

Every man or woman seeking to enter the service of another, whether as laborer, clerk, or domestic servant, is under obligation to procure a service book, which after purchase must be officially stamped by the police authorities. The authorities enter in the book a description of the holder, having reference to age, personal appear-

ance, and religion, says Harper's Weekly.

When a situation is applied for the prospective employer can see at a glance whether the applicant has been in service before, and if so, what kind of work he has done. If the applicant secures the situation the employer writes in the book, "Entered the service of So-and-so, of such a street and town," adding the date, a description of the work required, and the wages given.

The employer retains the book as long as the engagement lasts, and, on handing it back, makes another entry; "Left my service on such a date," with a few lines as to character and the servant's reasons for leaving.

Cured Chronic Kidney Trouble

A Severe Case That Had Baffled Other Kidney Remedies—Made Well and Strong by Using Warner's Safe Cure

the world's best remedy for the kidneys, liver and bladder.

"We have great faith in Warner's Safe Cure, and would not be without it in the house. My husband had a severe case of chronic kidney trouble and had taken all kinds of kidney remedies, but without getting any benefit until he began using Warner's Safe Cure. Before he began taking it he could not work all day, but was obliged to come in the house and lie down for a time. Now he is strong and well. Another member of our family was also entirely cured by its use." Mrs. F. A. Moore, R. F. D. 3, North Adams, Mass.

So swift, silent and insidious is the all-prevalent scourge of kidney disease that it snuffs out more precious lives annually than all other diseases. Normal kidneys are rarely found in persons over forty years of age. The banker, the manufacturer, the doctor, the lawyer, the preacher, the rich and the poor alike suffer from this dread disease, and will find relief from the use of Warner's Safe Kidney Cure. It has done more for the prevention and cure of Bright's Disease and other kidney troubles than any known remedy. This is proven by its record for the past thirty-five years and the innumerable testimonials to that effect. Put up in 50c. and \$1.00 sizes and sold by all druggists.

Warner's Safe Pills for constipation and biliousness are purely vegetable, sugar-coated, absolutely free from injurious substances, a perfect laxative. They do not gripe or leave any bad after effects. 25 cents a package.

The Company is authorized to act as Trustee, Executor under Wills, Assignee, &c., and to give Bonds in connection with any Judicial Proceedings, and accept any Financial Agency.

The law of the Province of Quebec does not require Executors to give security for their administration, nor are they obliged to render accounts to the Courts. The nomination of

THE ROYAL TRUST COMPANY

as Executor, affords the greatest possible security to Testators. The Corporation is perpetual. All its administration is public and open. It does not die. Its charges are reasonable, and it gives the best guarantee a Testator can have that his Estate will be honestly and economically managed.

The Company will act as Agent and Attorney for Executors already acting, or for the management of Estates, and will receive free of charge, for safe keeping, Sealed Wills, in which it is named Executor.

Solicitors and Notaries placing business with the Company, may be retained to do the legal work in connection with such business.

IN AND ABOUT TOWN

FIREMEN WERE KEPT BUSY

Alarms Came Fast Last Evening, But Little Damage Was Done.

The firemen had a very busy time last evening, and within an hour some five alarms were rung in. All of the alarms were for chimney or minor fires, the most serious being a blaze in a plumber store in St. Valier street, where the damage did not exceed \$50.

RECORDER'S COURT. There were no prisoners before the Recorder yesterday.

WARM UNDERWEAR. Try one suit of the "Morley" Underwear as sold by J. H. Mullin. Morley's Natural Wool heavy or light weight for \$2.50 per suit. See advertisement.

EXCEPTIONAL OPPORTUNITY. The popular store of Marceau & Co., whose sales in the past have always proved a grand success, are today advertising in another column some seasonable goods at extremely low prices. See adv.

ANOTHER LOCAL NEWSPAPER. Mr. J. E. A. Pin has filed a declaration in the Prothonotary's office to the effect that he intends carrying on business in this city under the name of La Societe de Publication "Le Ralliment."

Only One "BROMO QUININE" That is LAXATIVE BROMO QUININE. Look for the signature of E. W. GROVE. Used the World over to Cure a Cold in One Day. 25.

ENGLISH MAILS. The mails for England per R.M.S. Canada will close at the Quebec post office at 5 p.m. to-day.

NEW FIRM. Messrs. Camilien Joseph Lockwell, manufacturer, and Eugene Leclerc, insurance agent, both of Quebec, have formed a partnership to carry on business together as real estate dealers and contractors under the name of Lockwell & Leclerc.

ST. MARY'S CHURCH, MONTMORENCY FALLS. Bishop Farrer will officiate at the morning service at St. Mary's Church, Montmorency Falls, to-morrow morning at 11 o'clock. His Lordship will preach and also celebrate at Holy Communion.

NEW MANAGER. Mr. A. L. Dupont, heretofore in the employ of the firm of C. W. Lindsey, has accepted the management of the St. Roch's branch of the Laviguer & Hutchison firm, 54 St. Joseph street. Our friend, Mr. Dupont, has considerable experience in the piano trade; during several years he was attached to the principal piano firms in Canada and enjoys the confidence and esteem of the public. We wish Mr. Dupont all the success he is entitled to in his new position.

Have you seen the many new lines of goods that we are showing in French and English china, cut-glass, etc.? Our fall importations are just arriving, and we have many lines of new goods that are bound to be quick sellers. Now is the time to have first choice.

THE THOMAS CO., 10 St. John Street.

NEXT WEEK AT THE THEATRE NATIONAL. A thoroughly amusing comedy in three acts, "Vingt Jours a l'omorz," will hold the boards next week at our French playhouse.

MARIE NARELLE The Irish-Australian Soprano and her CONCERT PARTY at the LOYOLA HALL Wednesday Evening, November 9th, at 8.30 Admission 50c; Reserved Seats, 75c. and \$1.00. Tickets on sale at A. Lavigne's music and piano warehouses, 93-95 St. John street. oct. 29, nov. 2, 5, 8.

OLYMPIA THEATRE VAUDEVILLE. Change of programme took place yesterday and a splendid series of pictures were shown the patrons of this handsome picture house. Large and appreciative audiences have attended the show this week since the vaudeville has begun and the success of the enterprise is assured. The programme to-day includes the vaudeville act, the three Musical Millers, the celebrated musicians. The pictures—Two Waifs A stray, a wonderfully appealing child story, introducing again the remarkable Vitagraph children; A Summer Flirtation, a pathetic comedy full of situations, with a realistic and interesting plot, one of the best comedies yet turned out; The Tyranny of the Dark, Miss L. Angers will sing to-day "Band, Band, Band," and in French "Mop Ami."

FIVE YEARS IN REFORMATORY

Sentence Meted Out to Wilbrod Laprise in Shooting Case.

Guilty of manslaughter was the verdict rendered against Wilbrod Laprise, in the Criminal Court yesterday afternoon, in connection with the death of the lad Langlois, son of Mr. Langlois, M.P.P., and whose sad and sudden fate aroused such a thrill of horror throughout the community. The other two boys were acquitted. The jury held that the fatal shot was fired by Wilbrod Laprise, and he alone was held responsible for the sad tragedy.

Five years in the Reformatory was the sentence meted out by Judge Carroll to the boy, and he was separated from his companions and taken back to gaol, while the other two went free. All the boys were much impressed with the solemn proceedings in the court, and they wept bitterly prior to the verdict and sentence.

Mr. M. A. Lemieux made a strong appeal for mercy for his client before sentence was pronounced, but Judge Carroll gave judgment that Wilbrod Laprise, the boy who fired the fatal shot, should spend five years in the reformatory.

PASSED AWAY. Much regret will be felt by her friends at the death of Mrs. James J. Kelly, which occurred on Thursday evening. Although not entirely unexpected, as deceased had been in ill-health for some time past, yet it will nevertheless be a source of sorrow among those who had learned to esteem her for her many fine qualities, and the pang of regret is rendered more acute by reason of the fact that she leaves to mourn her death, besides her husband, two small children. The funeral will leave her late residence, No. 23 Claire Fontaine street, this afternoon for St. Matthew's Church and Mount Hermon Cemetery.

BISHOP'S COLLEGE SCHOOL NOTES. The shooting team won a shield in this year's competition of the Canadian Rifle League. The school stood high in the list of competitors. Each member of the team was presented with a medal by the League. These medals were handed to the winners by the headmaster in the presence of the whole school on October 28th.

The football team played the Quebec High School on October 29th. This match marked the commencement of the Thanksgiving holidays, and was won by the school by 18 points to nothing. The team played a fine game, and completely outclassed their opponents. Fortune played a great game for the winners.

A large number of Old Boys visited the school during the holiday, and were given a hearty welcome. They were the guests of the school during their stay, and their presence added greatly to the enjoyment of the holidays. On Thanksgiving Day a team of the Old Boys played the school team before a large number of spectators. The game was very keenly contested throughout and was won by the Old Boys by one point; the scores being 18 points to 17. After the game the headmaster and Mrs. Williams held a reception in honor of the Old Boys, at which a large number of people who watched the game were present.

The boys are busy training for their annual cross-country run, which takes place on Wednesday, November 9th. A keen contest is expected. The annual boxing competition is fixed to begin on the first Wednesday in December. There is already a large entry and the event is sure to be one of much interest.

The Preparatory School held their usual entertainment on October 31st, and the boys thoroughly enjoyed themselves. Ducking for apples seemed to be the popular event.

The musical director of the school, Mr. Irwin Sawdon, is busily engaged in preparing for the Christmas concert, and in his hands it is sure to be a success.

FIT THE GROCER. Wife Made the Suggestion. A grocer has excellent opportunity to know the effects of special foods on his customers. A Cleveland grocer has a long list of customers that have been helped in health by leaving off coffee and using Postum.

He says, regarding his own experience: "Two years ago I had been drinking coffee and must say that I was almost wrecked in my nerves. "Particularly in the morning I was so irritable and upset that I could hardly wait until the coffee was served, and then I had no appetite for breakfast and did not feel like attending to my store duties.

"One day my wife suggested that inasmuch as I was selling so much Postum there must be some merit in it and suggested that we try it. I took home a package and she prepared it according to directions. The result was a very happy one.

"My nervousness gradually disappeared and to-day I am all right. I would advise every one affected in any way with nervousness or stomach troubles to leave off coffee and use Postum.

"There's a Reason." Read "The Road to Wellville," in pligs. Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

The Weather

Toronto, Nov. 4.—The disturbance which was off the middle Atlantic coast last night has remained almost stationary and has apparently lost some of its energy. Showers have occurred to-day in Quebec and the Maritime Provinces and there have been some snowfalls from eastern Saskatchewan to Lake Superior. Minimum and maximum temperatures:—

Table with 3 columns: Stations, Min, Max. Rows include Dawson, Atlin, Victoria, Edmonton, Battleford, Calgary, Moose Jaw, Qu'Appelle, Winnipeg, Port Arthur, Parry Sound, London, Toronto, Ottawa, Montreal, Quebec, St. John, Halifax, Lower Lakes and Georgian Bay, Fair, much the same temperature. Ottawa Valley and Upper St. Lawrence—Fair and cool; light local showers in southern districts. Lower St. Lawrence and Gulf—Strong northeasterly winds; cool with occasional showers. Maritime Provinces—Strong easterly and northeasterly winds; cool with occasional showers. Minimum and Maximum Temperatures—Quebec, 38-42. Lower St. Lawrence and Gulf—Strong northeasterly winds; cool with occasional showers.

ST. ANDREW'S CHURCH. An organ recital will be given in the church on Saturday, 12th instant, at 3 o'clock p.m., by Mr. W. J. Smith, assisted by Mr. Herbert Spencer, leader of the Chateau Frontenac orchestra.

COURT OF SESSIONS. Yesterday afternoon in the Court of Sessions a man named Napoleon Bezeau was sentenced to two months' jail at hard labor for stealing a set of harness. Napoleon had been only a few days out of jail after serving a term for another offence.

FIREMEN'S PENSION FUND. The Municipal Council of Sillery has donated \$25 to the Quebec Firemen's pension fund in recognition of the service rendered by men of the Brigade at the recent fire in Cove.

PICTURES AT THE PALAIS ROYAL. As usual the pictures at the Palais Royal are among the best shown in Quebec. The popularity of the house is well-established by the large crowds which daily and nightly throng this favorite resort. The present week's bill is one which should appeal to all.

AT BEAUPORT. To celebrate the anniversary of the opening of Parc Bellevue, that charming residential spot in Beauport, the proprietors have decided to have a grand popular demonstration and intend to unite thereto all those who directly or indirectly take an interest in the progress and development of the fine and progressive parish of Beauport.

Both members of the county will be present and will address the electors as well as several other distinguished orators. The "Harmonie" de Beauport has been engaged for this occasion and will perform a choice selection of music. Everything will be successful, if the weather is only satisfactory. The organizers have taken the necessary means to make the event a success. It is to be hoped that a large number of spectators will attend the feast which should mark an era of progress in this portion of the Province.

Everybody is invited to pay the place a visit. HON. GEO. E. FOSTER WILL NOT APPEAL. Toronto, Nov. 4.—Hon. George E. Foster has abandoned his appeal against the verdict of the jury, who found for Dr. J. A. MacDonald in the libel action instituted by the member for North Toronto against the editor of the Globe. Mr. I. F. Hellmuth, K.C., counsel for Mr. Foster at the trial, when interviewed to-day, confirmed the report that appeal had been dropped. "Mr. Foster has instructed his solicitors to discontinue the appeal in the action," said he, "and steps are being taken to comply with his instructions."

NOTICE TO MERCHANTS. The time for the importation of calendars, chromos, fancy articles for advertising, etc., for the holidays is now passed, but we have a very large stock on hand which we take pleasure in offering for sale to those who have not yet purchased their stock. We have a large assortment of those (job) articles for sale at our sample room, Bridge street, to anybody who has not yet secured his supply. Call on Nos. 2162-2163 and we will immediately send our representative to call upon you. Send us a postcard and we will send you by return mail a few of our samples. Marier & Tremblay, Ltd., Cor. Bridge and Desfosses Sts.

SUFFERED EIGHT YEARS RESTORED BY PERUNA.

MRS. MARY S. FENNESSEY. AS MANY THOUSAND PEOPLE SUFFER FROM CATARRH OF HEAD IN WINTER, MRS. FENNESSEY'S PERMANENT RECOVERY SHOULD CREATE GREAT PUBLIC INTEREST.

Mrs. Mary S. Fennessey, Lake Benton, Minnesota, writes: "I was afflicted with a bad case of catarrh in the head, and was unable to breathe through my nose for eight years. Six bottles of Peruna cured me entirely and I have not been bothered with catarrh since."

A Helpless Invalid. Mrs. Annie Spaine, Gainesville, Arkansas, writes: "I was helpless in bed for eight months, and part of the time would not have weighed over sixty pounds. Food would do me no good. "I had catarrh of the head and stomach and internal catarrh, and also had heart trouble so bad I could not bear any one to talk in the room where I was. The doctors and everybody that saw me said I would not get well. But God saw fit to spare me and sent relief through your wonderful medicine, Peruna." Best Remedy for Women. Miss Harriet F. Kimbro, care Fisk University, Nashville, Tenn., writes: "I am pleased to state that Peruna has proven of great value to me. "I often found that my duties proved too much for my strength, and if it were not for Peruna I couldn't continue to do my work. It is a splendid tonic, invigorator and the best remedy I know of for women to take. It acts quickly in ridding the system of a cold and catarrhal afflictions."

QUEBEC WILL BE IN BIG LEAGUE

Make Up of the National Hockey Association Has Already Been Decided Upon.

An officer of the Ottawa Hockey Club who has assisted with the formation and destruction of many big leagues of late, has informed the Toronto Telegram that the shake-up of the National Hockey Association for the coming season was already settled. A good deal of correspondence it appears has passed between the various clubs constituting the "Pro" league, and when the annual meeting is called to order next week, everything will in the meantime have been "cut and dried." Ottawa will, of course, be a member; also the Wanderer, Shamrock and National clubs of Montreal, and the Quebec and Renfrew clubs. The Quebec magnates recently wrote to officers of the Ottawa and Renfrew clubs seeking support, which has been assured them. Quebec will be taken in with the understanding that they do not meddle with players of the opposing clubs, which, according to the National Hockey Association rules, are bound for two years to play for the club to which they belonged last year unless released. Halseybury and Cobalt magnates talk of rejoining, but they are likely to be left out in the cold. Montreal clubs oppose the admission of another Ottawa team and on this account St. Patrick's may be passed up. At next week's meeting the N.H.A. may appoint a paid president. Emmett Quinn is mentioned for the position. Salary limits will also be fixed and restrictions made as to the buying and trading of players. The Nationals are likely to have all of last year's Canadian men and Quebec will trot out with their old guard, including Joe, Chubby and Rocket Power, Paddy Moran, Hogan, Malone and McDonald. Shamrocks and Wanderers are sure to have a merry fight for players, Ross, Small and others who played for Halseybury being on the market. Herb Clarke may go to one of the Montreal clubs. Those who played for Pat Doran's Wanderers in 1909 will be regarded as the property of the new Wanderer club.

TORONTO TEAM MADE GOOD RECORD

Buffalo, Nov. 4.—Jack L. Tait, of Toronto, the Canadian champion miler, to-night took the measure of W. C. Paul, the intercollegiate champion, at the opening of the indoor season at the 65th Regiment Armory. Their contest came at the end of a medley relay between teams of four men each team ran 220 yards, 440 yards, 880 yards and one mile. Tait and Paul joined issue on about equal terms. Paul jumped into the lead soon after the start, but Tait ran a splendid race, gradually wearing his opponent down and leading by a good margin at the finish. The Toronto team was composed of C. L. Watson, 220 yards, time, 24 3/4; M. J. Folinsbee, 440 yards, time, 51 3/4; W. Norris, C. L. Watson and M. J. Folinsbee, of the West End Y.M.C.A., Toronto, qualified in the preliminary heats of the 100 yards dash handicap, but all three failed to get a place in the final.

HENLEY AND THE OTTAWA CREW

Not Allowed to Go to England by Public Subscription—No Professional Coach Allowed.

The London Field comments on the visit of Ottawa to Henley as follows:

"According to a report from Canada, the Ottawa Rowing Club intends to send an eight and four to Henley next year. Of the \$5,000 necessary, almost \$1,000 was raised on the spot, and collectors have been appointed to start an active campaign. This raising of public subscriptions toward the expenses of the crew is, as a matter of fact, against the laws of the A.R.A. and the rules of the Henley Royal Regatta, the regatta rule being as follows: "An amateur may not receive any contribution toward his expenses in competing at the regatta, except from the club which he represents, but it shall be open to any bona fide member of such club to contribute to the club funds for the above purpose."

"It is a generally known fact that most of the transatlantic crews have received money raised by public subscriptions to defray their expenses, and in this case it will probably be again winked at by the authorities. However, it is none the less hard on the home oarsmen that latitude in this direction is allowed to colonials and foreigners, while in our own case the strict letter of the law has to be adhered to. The genuine amateur Canadian oarsman will be heartily welcomed at Henley, but he must conform to the rules, at any rate within limits, and it is as well, perhaps, in view of the mention of Ten Eyck, to point out a Henley rule, which is not well kept on the other side: 'No eight-oared, four-oared or pair-oared crew shall be allowed to compete if within four weeks prior to the commencement of the regatta the crew shall have been coached during any practice in rowing or controlled or directed in their training by any person not considered an amateur oarsman, sculler or coxswain under rule No. 1.'"

STAR BOTTLE CAPTURED LATONIA HANDICAP.

Latonia, Nov. 4.—R.F. Carman signalized his advent into western racing by capturing the handicap, the feature at Latonia to-day, with Star Bottle. Fair weather brought out a big crowd.

YOUNG MILLIONAIRE

ON TRIAL FOR MURDER. New York, Nov. 3.—Edward T. Rosenheimer, the young millionaire indicted for the murder of Grace Hough, told on the stand to-day how his automobile had struck the young woman's buggy. He said the night was dark and that the buggy, which carried no rear light, was zig-zagging across the road when he first saw it, fifteen feet ahead of his auto. That he had "scraped it" he knew, but he said there was so little shock in the collision that he only shouted to his companions, "Is everything all right?" and when they told him "yes" he drove on. Other witnesses corroborated Rosenheimer's testimony. The case probably will go to the jury to-morrow.

C.P.R. FLOWER SCHEME. The inauguration of the flower scheme by the Canadian Pacific Railway Co. sixteen years ago has resulted in there whole system. Railway stations, round-houses, divisional offices, section houses, watchmen's gates, interlocking plants are adorned with flowers, which the men take care of in their spare time.

These employees are naturally amateurs, but their taste and example have spread to the communities across the continent, with astonishingly beneficial results. Enthusiasm and success this year have been greater than ever, showing the good use that has been made of the thousands of packages of seeds, plants and shrubs, which were distributed early in the spring.

A number of prizes were awarded all over the system for the best gardens, and the winners names will be announced shortly. Now the company is sending out over half a million bulbs for fall planting and early bloom in the spring of 1911.

The company purchases all new varieties of flowers procurable and the markets of the world are sought for seeds and bulbs. Travellers over the C.P.R. are delighted with the green lawn s, brightened by flowers, which greet their eyes, and it is a common occurrence for some flower lover from Europe, or the United States to drift into the Company's offices with a carefully pressed flower plucked in some station garden, to ask the name and how to cultivate it.

Y.M.C.A. MEN'S MEETING. The men's meeting at the Young Men's Christian Association to-morrow afternoon will be addressed by the Rev. Willie Clark. He will speak on the question of "Honesty" and every man in Quebec should not fail to hear this subject discussed.

Mr. M. A. Niland will sing a solo. At the last meeting the general singing was a splendid feature, and all men who delight in a good song service should be present and assist in this part of the meeting. Meetings commence at 4.15, and are bright and cheery. All men invited.

LAKE TONNAGE. Fort William, Ont., Nov. 4 - Next week will witness retiring for the season from the lake traffic of a large number of "wild" carriers. Few storage charters are reported, but it is understood that some vessels will take cargoes at less than two cents. Boats that have been at the market in Cleveland, Buffalo, Duluth and other ports are still waiting, and there are no cargoes in sight. Some of the boats at the lower end of the lake will be sent to Fort William and will coal again if they can get cargoes for another trip. Most of the grain to be moved is already contracted for, so the possibility of downbound cargoes for independent and non-contract boats are not bright. The coal movement continues to increase. It is expected that there will be an exceptional demand for tonnage in that trade throughout the present month.

FREIGHTS AND CHARTERS. New York, Nov 4—A moderate demand was entered for full cargo steam tonnage, but sail orders of all kinds were limited. Rates were steady and chartering light. Quotations to Liverpool, London, and Antwerp, 2d; Glasgow, Hull and Bristol, 2 1/4d; Rotterdam, 4 1/4c; Hamburg, 27 1/2 pfennigs; Bremen, 20 pfennigs; Cork for orders, 2s 6d; picked ports, large tonnage, 2s 6d; cotton to Liverpool, per 100 lbs, 20c. Charters—British steamer, 2,590 tons, cotton, Savannah, &c. to the United Kingdom or Continent, 31s 3d, December; British steamer, 2,765 tons, general cargo, hence to River Plate ports, 12s 6d.

PERSONAL. LADIES WHEN DELAYED OR IRREGULAR, use Triumph Pills; always dependable; "relief" and particulars free Write National Medical Institute, Milwaukee, Wis.

WHITE STAR-DOMINION LINE. Steamer Megantic (15,000 tons), Lieut. Smith, R.N.R., from Liverpool, with passengers and general cargo, passed Belle Isle at 5 a.m. yesterday, and is due here early to-morrow morning. Reports one berg seven miles east of Belle Isle.

R.M.S. Canada, Captain Jones, will arrive from Montreal this afternoon, mooring at the Breakwater. She will leave for Liverpool at 7 p.m., after the arrival of the western mails.

R.M.S. Laurentine, Commander Hayes, R.N.R., was reported 87 miles west of Inisrahull at 7 p.m. yesterday. Due in Liverpool this afternoon.

THE CRUISER AUSTRALIA. London, Nov. 4—The armored cruiser Australia, which is being built at the cost of the Commonwealth, will have a displacement of 18,800 tons, fifty tons heavier than the displacement of the indefatigable. The cruiser is being completed at Devonport.

STEAMER RELEASED. Windsor, Nov. 4—Navigation has been resumed in the Lower Detroit river after being tied up since early yesterday by the freighter Chas. Kotcher, which was crosswise of the channel at the Limekiln Crossing. With the assistance of tugs the big steamer was finally released this morning after being lightered of over a thousand tons by the lighter Rescue.

LAKE TONNAGE. Fort William, Ont., Nov. 4 - Next week will witness retiring for the season from the lake traffic of a large number of "wild" carriers. Few storage charters are reported, but it is understood that some vessels will take cargoes at less than two cents. Boats that have been at the market in Cleveland, Buffalo, Duluth and other ports are still waiting, and there are no cargoes in sight. Some of the boats at the lower end of the lake will be sent to Fort William and will coal again if they can get cargoes for another trip. Most of the grain to be moved is already contracted for, so the possibility of downbound cargoes for independent and non-contract boats are not bright. The coal movement continues to increase. It is expected that there will be an exceptional demand for tonnage in that trade throughout the present month.

FREIGHTS AND CHARTERS. New York, Nov 4—A moderate demand was entered for full cargo steam tonnage, but sail orders of all kinds were limited. Rates were steady and chartering light. Two Minute Talks About PANDORA RANGE for Coal or Wood

BECAUSE the Pandora Reservoir is made of one piece of sheet steel and is OVAL in shape it has no square corners, seams or grooves in which dirt can collect. The triple-coated, smooth-as-marble surface of White Enamel is easy to clean thoroughly. You can make the Pandora Reservoir absolutely sweet and spotlessly clean, so that fruit can be cooked in it without risk of taint. As it holds much more than a kettle, it is a great help at preserving time.

The Enamelled Steel Reservoir is only one of the many Pandora conveniences which save time, labor, fuel and money. Get our Pandora booklet and learn about the others.

HOUSEKEEPING MADE MODERN

Electricity and Wind-power
Becoming Powerful Aids—
Is Solving Servant Problem.

To solve the secret problem! To cut down the cost of living!

To make housekeeping modern and scientific!

Electricity!
The simple and scientific household of the future will depend entirely upon electricity for heat, power and light. For the past year or two many electrical appliances for household use have been on the market.

Among them are electric coffee percolators, toasters, egg boilers, and a dozen other pieces of apparatus for use in the kitchen; electric grates, curling iron heaters, bed warmers, and even bath-tubs, washing and sewing machines driven by electricity; electric door mats, by stepping on which one opens the door; electric signals, elevators, and almost innumerable other conveniences.

These electric appliances have not as yet found any large use in the average household, because, added to their comparatively-large first-cost is an even larger regular monthly charge for electric current.

From England comes the report of a discovery which will permit electric companies to furnish current at greatly reduced rates, thus putting the use of electric household appliances within the reach of many families. One of the reasons why electric current has heretofore been so costly lies in the fact that the amount of current consumed at various hours of the day varies greatly. In the evening, for instance, when a great city is turning on its electric lights the current consumption for a few hours may be more than during the middle of the day. A similar difference on a small scale may be found in the individual house when instead of a single light burning in a dark closet, a score or more of the incandescents may be turned on at once and the whole building illuminated. As a consequence of this widely varying demand for current the electric power companies are obliged to instal plants large enough to take care of the maximum amount which may be required. At the same time they are able to use this maximum amount of current for only a few hours out of each twenty-four. During the rest of the time a great share of the machinery must lie idle, unless, indeed, the surplus current is taken care of by storage batteries—a practice which has not therefore proved entirely satisfactory. The rates to the average household for electric current are therefore based on his maximum requirements. He really pays very much more for the power he uses than if he demanded a regular and constant supply of power during the whole twenty-four hours.

HEAT IS STORED.

The English invention is a device for storing heat produced by electric current. The device itself is a metal cylinder of no great size which is used at the same time as a water heater. By turning a single tap at the top of this cylinder, water can be obtained at any desired temperature, from tepid to boiling. When the electric current is desired for any other purpose, such as cooking, or lighting, or running a small electric motor, the current is automatically shut off from the cylinder. When the cooking is over or the lamp and motor are turned off, the current automatically runs back into the water heater. By the use of this device the consumer is able to contract for the regular and constant use of the same amount of electric current during the whole twenty-four hours. So effective is the heat storage apparatus that less than ten per cent. of the stored-heat is dissipated during the eight hours.

Although only introduced in London during the past few months the new device has already proved popular with the individual household and with the electric power companies. The household putting in one of these heat storage devices is able to contract with an electric power company for a certain regular supply of electric current at a fixed price per month. The power companies are able, because of the fact that the demand for power is regular and constant, to make a price so low for current, that in many instances the consumer has been able to light his house, get an abundant supply of hot water and do a larger part of his cooking, washing and other household work for a sum not much larger than he previously paid for electric lights alone.

But in the dreams of English engineers there has already dawned an even brighter day for housewife and the home maker. Having arranged, by means of the heat storage cylinder, to greatly cut down the cost of electric current, they now plan to give every household—at least those whose establishments are of considerable size—an exceedingly economical electric power plant of his own.

Heretofore electric current has been generated chiefly by the burning of coal under steam boilers. More recently, the power developed by rivers and water falls has been utilized. But big corporations are more and more monopolizing the water powers and in any event no private person could afford to instal a plant for developing hydro-electric power for his own use.

TAKE ADVANTAGE OF WIND.
Take advantage of the wind which tugs of the wind which bloweth where bloweth where it listeth over all the surface of the earth.

Not even the most far-sighted and ingenious trust manager has ever been able to devise any scheme for monopolizing the wind. Already on many English country places wind mills have been set up, the power from which is used in operating a dynamo. To provide a surplus of power for use in calm weather a storage battery is also provided. Mr. Edison's new storage battery, which promises great things in the way of economy, will doubtless be utilized in this direction. With the plants already established—some of them also being furnished with auxiliary gasoline engines for use when the wind is blowing and the storage battery is exhausted—sufficient electric current to heat and light a large country

house with its outhouses and to furnish power for all desired purposes is developed at a cost of about one-third of the rate charged by the commercial companies.

A number of manufacturing corporations in England have also established wind turbine electric generator plants at their works and are getting power enough not only for lighting and heating their factories, but also for the running of a considerable portion of the machinery.

The wind-mills for this purpose are so arranged that when the wind rises beyond a certain speed the wheel is automatically turned away from its working position. In this way the wind-turbine plants may be left without attendance. It will work if it is in the strongest gale.

In the not remote future the engineer sees every household with a wind-mill in his back yard, from which, at a very small cost, he will get electric power sufficient to light and heat his house and to perform all the work in which electricity can be utilized. It is certainly in this direction that the greatest progress will be made in putting housekeeping on a scientific basis. Coal, soot, ashes and all the labor connected with them, will be abolished. By the simple turning of switches, most of the ordinary household tasks will be performed.

AS BURGLAR, ALWAYS

WORE EVENING CLOTHES
Baltimore, Nov. 4.—The police of this city believe they have in custody a genuine "Raffles" in the person of Thomas H. Barnette, alias Kemp, of Toronto, Ont., who is held here on the charge of having broken into the residence of Howard Kellogg at Buffalo, Sept. 9.

On Barnette and in the room where he has been living the police found a large quantity of jewelry and other plunder, electric flashlights, skeleton keys and a very complete burglar's kit.

Also in custody is Miss Florence Tomlinson, aged eighteen years, who is said to be the daughter of a railroad official living in Toronto. Miss Tomlinson and Barnette eloped from Toronto, and until to-day she believed that they had been legally married in Niagara Falls, N.Y. That theirs was a mock marriage developed after Barnette's arrest, when he begged that a minister be sent for to marry him and the girl. She was willing that this be done until Barnette confessed, so police say, to a number of burglars. Miss Tomlinson's father has been notified of her plight. The couple figured in the newspapers some time ago when, while they were living in Newark, N.J., Miss Tomlinson accidentally shot herself with a revolver.

Barnette, who is twenty-three years old, told the detectives that he made it a rule to wear evening clothes whenever he made his expeditions as a burglar, so that if discovered he might reasonably claim to have accidentally entered the wrong house.

THE RACKING PAINS OF RHEUMATISM

Can Only Be Cured Through
the Blood—Try Dr. Williams'
Pink Pills Which Act Directly on the Blood.

Rheumatism will rack you just as long as there is acid in the blood to cause rheumatism. That's the whole trouble—acid in the blood. Cold, damp weather may start the pains going but it is not the cause. That is rooted in the blood and can only be cured through the blood. Years ago when medical science did not know as much about the complaint as to-day, rheumatism sufferers were given something to rub on the swollen tender joints. Some people who do not know any better still adhere to the old fashioned way, but it does not cure their rheumatism—and never will.

When the acid is driven from the blood the rheumatism is gone—it's cured. The thing is to get the right medicine to drive the acid out. Dr. Williams' Pink Pills have cured more cases of rheumatism than any other disease except anaemia. They do this because they enrich the blood supply, thus toning up the system to a point where the rheumatism acid is expelled through the natural channels and the trouble disappears. They were intended to do this and they do it thoroughly. Mr. Henry O'Donoghue, Viscount, Sask., says: "About four years ago I came here from Scotland for the purpose of taking up land. Even at so recent a date as this the country was quite different from what it is to-day. Then the nearest shack to me was ten miles distant, and the nearest town much further away. In those days homesteading was not all sunshine, and in the spring of 1907 I contracted a severe cold. I had never been sick in my life before, and paid no attention to the cold, and almost before I realized it I was down with an attack of pleurisy and as the pains of this trouble began to leave me those of rheumatism set in, and my sufferings were something terrible. Help was sent for, but it did me no good, nor did the medicine given me have any effect, and for five months I was confined to the house. Then one day I had an unexpected visit from my brother who came from Australia, and whom I had not seen for nine years. When he saw my condition he at once urged me to get Dr. Williams' Pink Pills, as he knew of a number of cases in which they had made marvelous cures in Australia. The result was he went to town and purchased six boxes, and before I had used the last box I was out working with my oxen and am now as healthy as any man in the province. For this I must thank the Pills and my brother's advice, and I strongly recommend the Pills to other rheumatism sufferers."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

The Most Famous Brandy In The World

Martell's Three Star Brandy

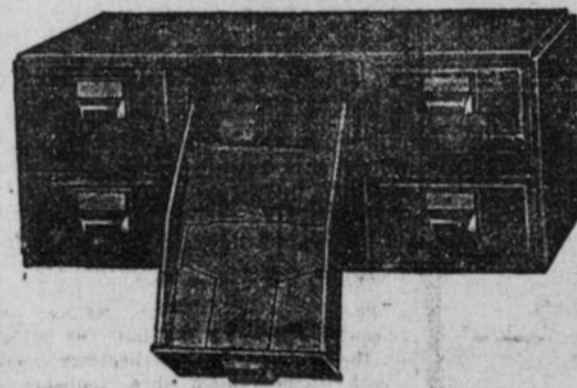

When Brandy is mentioned, one instinctively thinks of MARTELL'S.

For almost two hundred years, this famous Brandy has held the affections of the connoisseur and the esteem of the physician.

After a test of nearly two centuries, MARTELL'S is everywhere acknowledged the world's finest Cognac.

Sectional Filing Cabinets

Filing cabinets made in sections have come into such general use that, as with our sectional bookcases, the principle needs no extended description. The modern business office demands expensive equipment that will always harmonize with the original purchase.

Our filing devices offer a complete variety to select from—Vertical Letter Files, Card Index Files, Document Files, Check Files, Legal Blank Files, cap size, Vertical Files, Report Files, Catalogue Files, Insurance Files, etc.

We sell equipment suitable for any system in any business, and we furnish a higher class of equipment at lower prices than the so-called system experts who, to introduce their methods, often neglect the important question of construction, quality and utility.

News Notes of the Old Land

Half an hour's extra sleep has been granted to Eton boys by the headmaster...

That all new coins should be marked with their value across the centre, as in the case of sixpenny pieces, is suggested by the Birmingham Chamber of Commerce to Mr. Lloyd George.

At the end of his term of duty as Minister in Attendance at Balmoral, the King presented Mr. Lloyd George with one of King Edward's favorite walking-sticks.

The Army Council has refused permission for troops to line the streets on the occasion of the Colchester Oyster Feast.

Through the City of London territorial on mobilisation would require about 2,800 horses, the general officer commanding has been notified that only four horses suitable for the purpose can be provided, those belonging to the police ambulance.

Because an eight-months-old baby cried so much for its mother's supper it was fed with fried fish and potatoes, says a lady health visitor in her report to the Stepney Council.

Living at Brixham, Devon, is a naval pensioner who was on board Admiral Codrington's cutter, the Hinde, at the battle of Navarino in 1827.

To prevent possible disturbance a number of police in plain clothes were present at St. Paul's Cathedral, where, in the crypt, Lord Roberts unveiled a memorial tablet to the late Sir W. H. Curzon Wyllie, shot dead at the Imperial Institute by an Indian student in July, 1909.

"Twelve young men I know would marry at once if cottages could be obtained in my parish," said the Rev. W. M. Benson, vicar of Deeping St. Nicholas, at a meeting of the Spalding Rural District Council.

Vicount Torrington appealed to the Berks Quarter Sessions against the fine of £20 and six months' suspension of his licence imposed on him at Maidenhead for furiously driving his motor-car and failing to stop when signalled.

It is expected that the King George stamps will be issued in May. Mr. Cecil Harrison, of Messrs. Harrison and Sons, the Government printers, who are to print the new stamps, stated on Monday that they would be of practically the same color as those of King Edward, but of a somewhat different design.

An 1858 twenty-seven paras black on rose postage stamp of Roumania, Moldavia, fetched £32 at Glendinning's on Tuesday.

Mr. Joseph Plant, aged eighty-five, who is said to be the oldest cathedral alto

singing in England, has just retired from the Canterbury Cathedral choir after fifty-five years' service.

To the items in the weekly return of the nation's revenue has now been added the land value duty. In the first week £10,000 was paid into the Treasury, and the yield for the second week was also £10,000.

Police Constable Toome, of the Leicester borough force, retired after twenty-six years' service as cell officer. He has safely conveyed more than 10,000 prisoners from the courts to Leicester Goal.

The natives of Seaton, Devon, have found a new industry for the winter, that of collecting sea-worn pebbles for use on roads or paths. A great quantity of pebbles are at present imported from the French coast.

The Marchioness of Bute has issued an invitation to all women and girls who are natives of or residents in the islands of Bute and Cumbrae, and bear the name of Mary, to forward their names and addresses to her. Her object is a secret.

The City Corporation have received from an anonymous donor an offer to place in their trust £2,000 in bonds, the income to be divided among the poor-boxes attached to the police courts within the metropolis.

Mr. Robert Butler, chairman of the Marlborough Board of Guardians, heard his own death announced at a Poor Law conference at Exeter. When a delegate proposed that a successor be appointed he rose to prove that the facts had been greatly exaggerated.

The Rev. Vibert Jackson, curate of St. Philip's Newcastle, speaking at Newcastle Diocesan Conference, said there was nothing wrong with healthy recreation on the Lord's Day. They ought to encourage men to go on to the town moor and play football, which was quite decent and respectable. (Cries of "No, no.")

The grapes of the King Vine were sold at the Palace of Fontainebleau. There were 6,200 bunches, weighing nearly a ton, and they fetched £150 10s.

Trained in Major Richardson's kennels, the bloodhound Bonaparte, purchased by Police-Superintendent Gordon, of Bulandshahr United Provinces of India, has arrived at Bombay.

Hundreds of human beings and thousands of animals have been killed in recent years by the poisonous snakes of Bosnia. A reward of five-pence for each snake's head, however has effected their almost complete extinction, and the premium has now fallen to twopence.

Tomato plants thirteen feet high have been grown by a resident of Sudbury from seed sown last November. The stalks are as hard as wood, and fruit is being borne ten feet above the ground.

Old tins found in the refuse collected by the dustmen of the Fulham Borough Council are to be sold to a purchaser for 25s. a ton. This is an exceptionally good price, being 19s. a ton more than was previously obtained.

The small motor-boat Shikri, after an eventful voyage of 800 miles from Yarmouth, has reached Lerwick, in the Shetlands. The voyage, sometimes through tempestuous seas, occupied, with the necessary halts, ten days.

The Postmaster-General has ruled, as a concession to retail tradesmen, that the prohibition of irregularly shaped articles from transmission through the post as letters will come into force on Oct. 1, 1911, instead of Jan. 1, 1911.

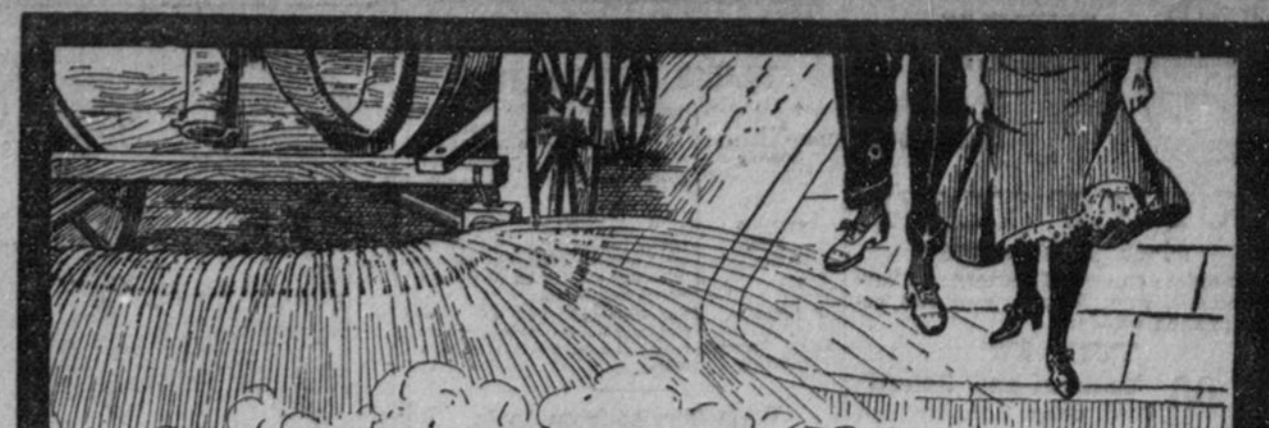

An apple of the Gloria Mundi variety, grown at Hereford, weighing 27oz., and measuring 16 1/2 in. in circumference, realized fourteen guineas at Covent Garden Messrs. Adams, of Bond street, being the purchasers. The money will go to the Charing Cross Hospital.

Through the kind offices of the Empress Marie of Russia a fisherman whose boat was fast on a sand bank in a dangerous position near the Villa Hvidore, was rescued by the Nydal launch. The Royal lady signalled the man with her handkerchief that help was coming, and, with her sister, Queen Alexandra, watched the rescue.

THE BEST MEDICINE FOR LITTLE ONES

The best medicine in the world for little ones is the medicine that will promptly cure all their little ills and at the same time can be given the very youngest baby with absolute safety. Such a medicine is Baby's Own Tablets. They never fail to cure the ills of childhood and the mother has the guarantee of a government analyst that they do not contain one particle of injurious drug.

Smoke and Chew Carillon Tobacco Save the Coupons

You have never before had any certainty of fit and wear when you bought hosiery. You had to take your chances.

You no longer need do that. For now, at some reliable store near you, you can choose the hosiery that is GUARANTEED—Pen-Angle Hosiery.

We can safely guarantee Pen-Angle Hosiery for several reasons. In our gigantic

PEN-ANGLE HOSEIERY

mills we knit this hosiery on machines for which we have the sole Canadian rights. With these machines we fit the hosiery to the exact form of the leg, ankle and foot—without a seam!

You need no argument to see that seamless hosiery must be more comfortable than the seamful, foot-wearing kind. Don't forget the name, or how the trademark looks.

FOR LADIES

No. 1760—"Lady Fair" Black Cashmere hose. Medium weight. Made of fine, soft cashmere yarns, 2-ply leg, 3-ply foot, heel, toe and high splice, giving strength where needed. Box of 3 pairs, \$1.50; 6 pairs, \$3.00.

Remember we will fill no order for less than one box and only one size in a box. BE SURE TO MENTION SIZE. ADDRESS AS BELOW:

Penmans, Limited, Dept 55 Paris, Canada

MILLIONAIRE HONORS SERVANTS' WEDDING

Ceremony Performed in Drawing Room and Witnessed by Society Guests.

St. Louis, Nov. 4.—A wedding ceremony unique in the annals of St. Louis society was performed last night at "Maplecrest," the home of Clarence H. Howard, millionaire President of the Commonwealth Steel Company.

The bride and bridegroom were Martha Smitzmeier, a maid in the Howard home, and Daniel Figart, the gardener. They were married in the presence of a score of their friends and the Howard family and some society guests, friends of the Howards. The ceremony took place amid a profusion of yellow chrysanthemums, in the magnificently appointed drawing room of "Maplecrest."

At its conclusion the bridal party was driven in automobiles to witness an amateur minstrel performance by the students of Principia School, an institution Howard has done much for.

To the strains of the Mendelssohn Wedding March, played by an ingeniously concealed mechanism in a huge grandfather's clock in the reception hall of the Howard residence, the wedding party descended from the second floor by way of the grand staircase at 7 o'clock.

After leaving the entertainment hall the ever ready automobile conveyed the newly-weds to their home on the Howard place, where they will set up house-keeping with an outfit provided by Mrs. Howard and her friends. This afternoon they departed on a honeymoon trip in a limousine, with the bridegroom's son at the steering wheel. Mrs. Howard said she did not consider her kindness to the couple anything unusual.

VIGORA Will prevent serious infirmities among animals. Mr. J. B. Morin, I had a horse which for a year past, had a serious attack of heaves which troubled him considerably. I take pleasure in informing you that I completely cured him with your VIGORA and I consider it my duty to express my gratitude to you. I need not tell you that I will make it my duty to recommend it. FRS. GENDRON. J. B. Morin, 318 1/2 St. Joseph St., St. Roch, Quebec

You Can Work Near a Window in winter when you have a Perfection Oil Heater. It is a portable radiator which can be moved to any part of a room, or to any room in a house. When you have a PERFECTION SMOKELESS OIL HEATER Absolutely smokeless and odorless you do not have to work close to the stove, which is usually far from the window. You can work where you wish, and be warm. You can work on dull winter days in the full light near the window, without being chilled to the bone. The Perfection Oil Heater quickly gives heat, and with one filling of the font burns steadily for nine hours, without smoke or smell. An indicator always shows the amount of oil in the font. The filler-cap, put in like a cork in a bottle, is attached by a chain. This heater has a cool handle and a damper top. The Perfection Oil Heater has an automatic-locking flame spreader, which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back, so the wick can be quickly cleaned. The burner body or gallery cannot become wedged and can be unscrewed in an instant for reworking. The Perfection Oil Heater is finished in Japan or nickel, is strong, durable, well-made, built for service, and yet light and ornamental. Dealers Everywhere. If not at yours, write for descriptive circular to the nearest agency of the The Imperial Oil Company, Limited.

GOULD PAID \$10,000 AS HEART SOLACE

This Appears in Suit Bessie De Voie's Lawyer Brought for Fee.

New York, Nov. 4.—"Ten," Frank J. Gould cabled laconically from Europe.

It appeared yesterday that "ten" was \$10,000, the heart balm which Mr. Gould paid Miss Bessie De Voie, the dancer, to end her suits against him for alleged breach of promise of marriage. Miss De Voie had demanded \$200,000 to solace her wounded affections. Incidentally she made public letters expressing fervid affection which she said Mr. Gould had written to her.

WHY THE SUITS WERE STOPPED.

Her suits never came to trial, and some secret reasons why it did not were revealed before Justice Finelite in the City Court yesterday. Henry S. Wallenstein, a lawyer, No. 150 Nassau street, sued Miss De Voie for \$1,000 as due aim for legal services in her action against Mr. Gould and in a suit she brought against a woman who, Miss De Voie alleged, slandered her regarding her action against Gould.

Mr. Wallenstein, who had W. S. Armstrong for his lawyer, testified that Miss De Voie retained Julius Silverman to push her suits. Wallenstein was a clerk in Mr. Silverman's office. Silverman died and Miss De Voie called up his office and asked who would press her suits now. Wallenstein said he would if she retained him. She did. Wallenstein swore under that he went to the Western Union Building and saw a Mr. Taylor, who seemed to be Frank Gould's manager, guide, philosopher and friend.

FIRST OFFER WAS \$15,000.

Mr. Taylor, Wallenstein testified, said he would try to induce Mr. Gould to make a compromise with Miss De Voie. After long negotiations it was agreed that \$15,000 would be paid to Miss De Voie provided certain letters she had written to Mr. Taylor were handed to Mr. Wallenstein. Wallenstein asked Miss De Voie for the missives; she told him she had hypothecated them with a woman, whose name he did not mention, as security for a loan of \$150.

Wallenstein testified further that he visited the lawyer who represented this woman and discovered that the letters were in the Equitable safe deposit vaults. Two thousand dollars was demanded to return them, but a compromise fixed the price of delivery at \$1,400. Then Wallenstein called on Miss De Voie who told him to hold all further negotiations in the Gould suit with W. B. Scott, whom, she said, she had engaged as her attorney. Mr. Scott, told him twice that Miss De Voie would not accept a cent less than \$25,000 to compromise the suit.

GOULD'S ULTIMATUM WAS TEN

Back to Mr. Taylor went Wallenstein and was informed that Mr. Gould was in Europe. Mr. Taylor said he would cable the sum set by Mr. Scott to Mr. Gould. Next day Mr. Taylor informed Wallenstein that Mr. Gould's reply was "Ten—T-e-n," which was taken to mean that Mr. Gould would give Miss De Voie not a cent more than \$10,000.

Wallenstein said he told Mr. Scott of Mr. Gould's estimate of the damage to Miss De Voie's affections. Mr. Scott, suggested that Wallenstein introduced him to Mr. Taylor so he might try to get a better settlement. Mr. Wallenstein retorted in effect, "Where do I come in?" and refused to make the introduction. Mr. Scott, Wallenstein declared, said he would see that he was paid for his legal services.

COULDN'T SHOW THE RETAINER.

The possible success of Mr. Wallenstein's suit depends on his having a written retainer from Miss De Voie. He could not produce it yesterday and there was no evidence that he had lost it, so at his lawyer's request Justice Finelite set the case at the foot of the court calendar. Wallenstein said he would surely produce the written retainer when his suit came to trial again.

Julius Silverman's heirs alleged that after retaining him as her lawyer Miss De Voie borrowed \$1,000 from him, giving as security a fine sapphire pendant. The heirs sold the pendant at auction for \$350 about a fortnight ago.

UNCLE SAM HOLDS \$100,000 PRIZE RUG

Experts Look in Awe and Admiration on Beautiful Silken Floor Covering.

New York, Nov. 4.—Amusement and admiration expressed by connoisseurs on beholding a wonderful beautiful rug spread before them were just so yesterday, in the chain of evidence being woven about the Duveen Bros. art dealers at No. 302 Fifth avenue, who are charged with defrauding the Federal Government of \$1,000,000 in duties.

Tuesday morning a bundle of four Oriental rugs consigned to Duveen Bros. was opened by the Government expert at the Appraiser's stores. These four rugs were invoiced at \$1,000. When the burlap wrappings had been removed and the rugs were rolled out on the floor a cry of delight came from the expert. No rugs of such beauty and delicacy of texture as these had come into the stores so far as he knew, and he had been years in the Government service and had appraised thousands upon thousands of rugs.

The nearest example he could call to mind was what is known as the "Yerkes rug," which that millionaire railway man brought for \$35,000, and the expert felt that even the Yerkes treasure could not compare with the silken mass before him.

TRUNK WENT INTO RAPTURES.

Afraid that his judgment might have erred, the expert decided that he needed outside counsel and advice. He called in one of the largest rug dealers in the city, a Turk who began as a boy to work at a crude hand loom and who knows every celebrated rug in the world, times it has been sold, the prices paid and its present location.

This Turk was taken to the Appraiser's stores and saw the rug laid out on his knees, almost as if in worship, while he rattled out torrents of verbal admiration. When asked how much it was worth he threw up his hands as if to say he dared not estimate. Finally he said reluctantly that it was worth much more than \$100,000.

Still the Appraiser was not satisfied. He was afraid that the Turk's easily excited artistic imagination had clouded his cold business judgment, so an American expert was called in. This man has been in the Oriental rug business in New York for twenty-five years and draws a big salary from an important store in Broadway.

COULD HAVE SOLD THEM OFFHAND

One glance, one stroke of the soft folds, told this man in a moment of the value of the rug lying at his feet. Afterward he told several art dealers that although it was 3 o'clock in the afternoon when he examined this rug he could have taken it and its three companions under his arm and sold them before twilight for more than \$100,000.

Among art dealers yesterday it was generally believed that the rug was the famous Ruby rug of the fifteenth century. For years this was the pride of the Duke of Rutland's collection which also contained the famous Polonoise rug, bought several years ago by Benjamin Altman for \$40,000.

It has been known in London and New York that the Duveens have been trying to get the Ruby rug. Reticence yesterday characterized all who had had any direct connection with the importation of the treasure now in charge of Uncle Sam. The rug measures about 12x15 feet. Its general tone is a deep ruby red. Other colors are woven in a subdued way into a design that is intricate yet harmonious.

ACID FUMES FILL THE SUBMARINE OCTOPUS

Newport, Nov. 4.—Lieut. Baldwin, crew of the submarine boat Octopus, commanding, and the twelve men of the narrowly escaped suffocation by the fumes of sulphuric acid when she was submerged in the bay to-day.

Coming to the surface, the Octopus signaled for assistance and was towed in. Five men were lifted out of the craft and hurried to the naval hospital. Two were quickly revived; one seemed in very serious condition. All will recover.

The Octopus which has no tender, has been practising and experimenting in these waters. While she was diving to-day something went wrong with her batteries and the choking fumes of the acid in them quickly penetrated the craft. In response to her signals of distress a launch speeded out from the torpedo station and towed in the Octopus. Commander Bristol hurried out in his launch and medical assistance was sent from the hospital.

A searching investigation will be made into the cause of the accident. The officers of the torpedo station are very close mounted over the affair. It could not be learned whether the Octopus was in collision with some submerged object or whether the batteries had been disarranged by carelessness.

AFTER EFFECTS OF LONG ILLNESS

Speedily Vanish When You Use Dodd's Kidney Pills.

Loren G. Ladd only found complete relief after using the Great Canadian Kidney Remedy.

Ladd's Mills, Stanstead Co., Que., Nov. 4. (Special)—That the seeds of disease, left in the body after an illness are sure to cause trouble is the experience of Loren G. Ladd, a well-known young man in this community. Mr. Ladd has also learned that those seeds can be cleared out of the body and perfect health restored by Dodd's Kidney Pills.

"At the age of six I had Scarlet Fever," Mr. Ladd states. "At twelve I had Typhoid Fever, and at fourteen I had Measles. About a year later I began to be troubled by swellings of the face, feet and hands. The doctor told me I had Kidney trouble. He gave me medicine but the swellings continued to come at intervals of a week to a month.

"Two years ago one box of Dodd's Kidney Pills stopped the swellings. Last winter the swellings returned and again I was cured by using Dodd's Kidney Pills."

Healthy Kidneys strain the seeds of disease out of the blood. Dodd's Kidney Pills make healthy Kidneys.

UNCLE SAM HOLDS \$100,000 PRIZE RUG

Experts Look in Awe and Admiration on Beautiful Silken Floor Covering.

New York, Nov. 4.—Amusement and admiration expressed by connoisseurs on beholding a wonderful beautiful rug spread before them were just so yesterday, in the chain of evidence being woven about the Duveen Bros. art dealers at No. 302 Fifth avenue, who are charged with defrauding the Federal Government of \$1,000,000 in duties.

Philippe Michaud, City of Lewis

Correspondence.

To the Editor of the Chronicle :

Dear Sir,—I had intended to have devoted this letter upon reciprocity to the manufacturing industries of Canada, to be followed by another letter on importing.

The term "natural resources" is generally misunderstood and is made to cover a much larger range of subjects than properly belongs to it. As I understand it, the natural resources of a country, are those products which are the gifts of nature, but which are not dependent upon human energy for their existence.

Mines—Antimony, arsenic, asbestos, coal, clay, cobalt, copper, corundum, felspar, gold, gypsum, iron, lead, natural gas, nickel, mica, oil, platinum, plumbago, pyrites, salt, sand, silver, stone, sulphur, tin, zinc.

Forest.—Lumber and wood of all kinds, fur-bearing animals, bark for tanning, pearl ashes, herbs for medicinal purposes.

Water.—Fish and game, fur-bearing marine animals, water powers, water routes for the carriage of freight.

While the above list covers fairly well the resources which nature has given to the Dominion of Canada, there are many other items of less importance. There can be no doubt also, that in our vast territories of still unexplored country, we may look for important and even startling developments in the comparatively near future.

The statement can be made without fear of exaggeration, that no other country in the world is blessed with

such a store of natural wealth as is the Dominion of Canada. The United States, no doubt, have great resources, but in many directions they have shown a wastefulness, even to prodigality, from which they are already suffering.

It is only within the last decade that our friends across the border have awakened to this fact, hence their reason (and a most natural one from their standpoint) for desiring to become possessed of what they know exists near at hand, but in a country over which they have no jurisdiction.

In Canada, owing no doubt to our population being small in proportion to our almost boundless territory, we have not as yet begun to appreciate the value of our national heritage. Perhaps no one has so impressed us with this fact as did ex-President Roosevelt when he invited our Government to send delegates to Washington to attend an international conference on the conservation of the natural resources of North America.

(Continued on Page 14.)

WAS REDUCED TO A SKELETON GIVEN UP BY THE DOCTORS AND PREPARED TO DIE "FRUIT-A-TIVES" SAVED HER LIFE

The days of the miracle have not passed away. Every day—almost every hour—"Fruit-a-tives" is performing miracles of healing in some part of our country!

MADAME ARTHUR TOURANGEAU.

During digestion, the muscular coat squeezes and presses the food from one end of the stomach to the other, and this churning mixes the food with the Gastric Juice.

"Fruit-a-tives" will always cure Indigestion, Sour Stomach and Chronic Dyspepsia because the fruit juices act on liver, bowels, kidneys and skin, purifying the blood.

"Fruit-a-tives" relieves any irritation in the stomach—strengthens the muscular coat—and ensures the Gastric Juice being full strength and abundant.

When FORD Speaks the World Listens— For In All The World No Car Like This

- The Car of Established Quality--Established Value and Low Prices--Backed by a Company worth Millions
The cheapest Car in the world to buy and maintain and simplest to operate
The lightest weight Car in the world--size, power and capacity considered
The strongest made Car in the world--a Car of Vanadium Steel
The only 4 Cylinder Car in the world selling at these low prices

FORD Model T Touring Car \$975 and FORD Model T Runabout \$875. Includes specifications like 4-Cylinder, 20 H. P., 5 Passengers.

\$875 For This Same FORD Car without the above equipment \$775 For This Same FORD Car Without the Above Equipment

The reason why is told in a few words: We are in a position to do business on a small profit We Have Sold 30,358 of this same MODEL T Car---Therefore, Don't Experiment, Buy a FORD

We have built and fully equipped the most complete automobile manufacturing plant in the world. All of which has been paid for from the profits earned on the business of previous years.

The FORD Model T is made through and through of Vanadium Steel—the most expensive steel in the world and the toughest known.

FORD SERVICE FOR FORD OWNERS The car on the road means as much to us as the car in the salesroom. This is the "why" of FORD SERVICE FOR FORD OWNERS—the first and most complete service in the automobile industry.

We have established two big distributing plants, one at Kansas City and another at Long Island City, for the purpose of more completely extending FORD service for FORD owners.

The FORD MOTOR CO. of CANADA, LTD. WALKERVILLE, ONTARIO.

Quebec Agency---JOS. DE VARENNES, 279 St. Joseph St.

The FORD was the first car made by a Canadian factory. Six successful seasons have proved the wisdom of this policy.

Form for requesting a book: FORD MOTOR CO. of CANADA, Ltd., WALKERVILLE, Ont. Please send me your illustrated book fully describing FORD Model T cars.

RENTING A BRIDAL VEIL.
An Incident of a Fashionable Wedding
in New York.

Not long ago one of the wealthiest
"charge customers" of a well known
department store in New York pur-
chased a \$500 wedding veil for her
daughter, which was charged to her
account and duly delivered. The wed-
ding was a large one and celebrated at
high noon in one of the downtown
churches.

It happened that one of the girls
from a department store went out for
luncheon at this hour and, seeing a
fashionable wedding in full swing,
slipped into the church with the crowd
and into one of the back pews. After
the ceremony was over she hurried
back to her place behind the counter,
too busy with her special sales to even
think about it.

The next morning, however, when
she read an account of the "magnif-
icent wedding in — church and a de-
tailed description of the wonderful
veil worn by the bride, valued at
\$500," she laughingly told her num-
erous friends in that department that
she "had been one of the honored
guests and had seen that \$500 veil
with her own eyes." Just at this thrill-
ing point of her story one of the door
men stepped up to her and said:
"You are wanted at the manager's
office, Miss B."

As she entered the office, to her per-
fect amazement, she beheld the identi-
cal bridal veil just under discussion.

"Miss B., can you tell me if you ever
saw this veil before?" asked the man-
ager.

"Yes, sir; I saw it yesterday."
"Where did you see it?"
She took from her pocket the clip-
ping from the morning newspaper
with the account of the great wed-
ding, the costly veil and a picture of
the bride. Laying it upon the desk,
she said:
"This is a picture of the veil."
"How did you happen to be at this
wedding instead of in your place here
in the store?"
"It was my luncheon hour, and I
went to the wedding instead of to
lunch."
The manager smiled.
"Can you positively identify this veil
as the one you saw yesterday?"
Miss B. took it up in her hands and,
unfolding it, ran her fingers through
the mesh and into the tiny folds where
the orange blossoms were caught, then
with some difficulty picked out three
little pieces of rice and handed them
to the manager.

She went back to her counter, and
the "charge customer," whose ac-
counts ranged in the thousands each
year, was rendered a bill for "\$300
for the use of a bridal veil worn by
her daughter."

A check for the \$300 was immedi-
ately sent, and the wealthy "charge cus-
tomer" still continues to charge.—Chi-
cago Record-Herald.

A Powerful Weapon.
They were examining an old fash-
ioned shotgun of murderous build. It
looked as if it would be an effective
weapon against anything short of an
elephant, and its owner was boasting
with that scorn of fact which is allow-
ed the successful hunter of its power.
"Doesn't it kick like anything?" ask-
ed one.

"Oh, yes, it kicks some," said the
proprietor, "but that's the beauty of it.
Why, once I shot at a grizzly that was
charging me. I missed him, and on he
came. If it had not been that the gun
kicked me so far back that I had time
to reload I shouldn't have been here
to tell the story."—Youth's Companion.

Sakhalin Is Queer.
Curious facts have come to light
concerning the island of Sakhalin, off
the eastern coast of Siberia. Cold
winds and sea currents circulate
around it, and their effect appears to
produce on the island a reversal of the
ordinary course of nature respecting
the arrangement of temperature. Us-
ually the air is warmest near sea level
and coldest on highlands and moun-
tains, but in Sakhalin the coldest air
is found near the sea, and there the
plants are of an arctic character, while
in the lofty interior of the island the
climate is mild, and even subtropical
plants flourish on the heights.

Kindness to Teacher.
"Jimmy," said the fond mother to
her smart nine-year-old, "what became
of that fruit cake I made for you as a
treat yesterday? Did you eat it?"
"No, mamma," answered Jimmy,
with a grin; "I gave it to the teacher
instead."
"That was very nice and generous
of you, Jimmy," complimented his
mother. "And did your teacher eat
it?"
"Yes; I think so," answered Jimmy.
"She wasn't at school today."

Right.
"Now, then, children," said the
teacher, "what is it we want most in
this world to make us perfectly hap-
py?"
"The things we ain't got!" shouted
the bright boy in the back seat.

Infatuated.
"Likes to hear himself talk, doesn't
he?"
"Does he? Say, if he talked in his
sleep he'd stay awake all night to
listen!"—Cleveland Leader.

The Jail.
"I am going to visit the jail. There
is a man I want to see there."
"Is one all? I know about forty
whom I should like to see there."—In-
dianapolis News.

Each one sees what he carries in his
heart.—Goethe.

NEW SKIRTS.
We would direct the attention of
our numerous lady readers to Mrs.
Murphy's announcement on another
page of her new skirts and street and
house wear. Also the great reduc-
tions she is making on her imported
hats and untrimmed felt hats, and we
would advise an early visit to this
well-known establishment, where so
many great bargains in millinery are
to be obtained.

THE TENANT'S TOAST.

It Carried Off the Prize at Lord Panmure's Dinner.

The following story gives a good idea of the drinking style in England early in the last century.

Two young English noblemen were paying a visit to Lord Panmure at Brechin castle.

Panlathie was aware when he received the order that something was to be done and went prepared.

After dinner Lord Panmure gave the first toast, which was, "All hats in the fire or £20 on the table."

One of the English noblemen gave the next toast, "All coats in the fire or £50 on the table."

The other English noblemen gave the next toast, "All boots in the fire or £100 pounds on the table."

Panlathie's toast came next, which was, "Two fore teeth in the fire or £200 on the table."

The English noblemen looked amazed. They didn't know he had false teeth, and Panlathie went home with his coat, hat and boots, but with £1000 in his pocket.

THE DEAD SEA.

Old Beliefs About It That Are Not Founded on Fact.

The Dead sea is a remarkable lake, forty-six miles long and from five to ten miles wide, situated in the south-east of Palestine and known from the time of Jerome (340-420 A. D.) as the "Dead" sea, because no fish of any kind have ever been found in its waters.

The Dead sea is fed by the Jordan from the north, but has no outlet, the water being apparently carried off by evaporation.

The popular notions that the Dead sea exhales noxious vapors and that birds cannot fly over its surface and remain unharmed are not founded on fact.

According to tradition, Sodom and Gomorrah, "the cities of the plain," stood on the site now occupied by the Dead sea.

The Oldest Death Sentence.

The oldest death sentence extant is found in the Amherst papyrus containing the trials of state criminals in Egypt, about 1300 B. C.

Among less civilized peoples drowning would seem to have been the earliest method of legal punishment, for about 450 B. C. the Britons killed their criminals by throwing them into a quagmire.

Victim of Their Fear.

"One thing that makes me positively sick," remarked a young matron vehemently to her husband, "is to have guests sit all through a meal and merely toy with the food as Mrs. So-and-so did last night."

Much Interested.

"I hope you will be interested in yonder gentleman," said the hostess.

"I shall be," responded the lady addressed. "That gentleman was formerly my husband, and he's behind with his alimony."

Keeping Company.

"They kept company for a long time before they were married."

The worst use that can be made of success is to boast of it.

Cure Your Rheumatism

50,000 BOXES FREE

Rheumatism, Lumbago, Sciatica, Pain in the back have been cured, in the real meaning of the word, by a little Stillingia, Iodide of Potassium, Poke Root, Guaiac Resin and Sarsaparilla. Any person can take these remedies in any reasonable amount with perfect safety, and the results have been found to be astonishing. It has been proven that this combination makes up the best rheumatism remedy in existence, having actually cured many stubborn cases of over 30 and 40 years' standing—even in persons of old age.

The five ingredients mentioned above prepared with great accuracy and skill not only in regard to proportion, but also in selecting the best material, have been put up in compressed tablet form, and are called

"GLORIA TONIC," and fifty thousand boxes are offered free to introduce it. If you suffer from any form of uric acid in the blood, and have Rheumatism, Gout, Lumbago, Sciatica, this is the way to drive it out of your system in quick time. Simply send your name and address, enclosing this advertisement, to JOHN A. SMITH, 707 Laing Building, Windsor, Ontario, and by return mail you will receive the box absolutely free. It is only in "Gloria Tonic" that you can get the above combination ready for use.

Advertisement for Minard's Liniment, featuring an image of the product bottle and text describing its benefits for various ailments.

BRITISH CAPITAL FOR PAPER MILLS.

It needs but the application of wise public policy to the forest resources of Canada to ensure a perpetual supply of raw material for a great annual output of the product of pulp and paper mills. Such a policy must have regard not only to the conservation of the natural timber resources, but also to the industrial advantage of Canada. Provinces controlling public lands covered with spruce and other varieties of trees suitable for pulpwood are showing better stewardship in respect to this public asset than they did in former years. They are limiting the cutting operations of license holders to trees of a minimum measurement at the stump larger than they formerly prescribed, and they are requiring the observance of more strict precautions against the danger of fire. On Ontario and Quebec Crown lands the license holder is expected to draw upon his timber land in so conservative a way as to keep it a constantly renewing source of supply.

There is still much to be done before public policy even in these two provinces has been carried to the degree of perfection that is attainable in the matter of husbanding the timber resources of the Crown lands. Both provinces have been attentive to the second aspect of the question—that, namely, of promoting the industrial advantage of Canada. Ontario prohibits the exportation of its Crown land raw pulpwood from the country and so does Quebec. This prohibition is effective within its range but it leaves the exportation of pulpwood from the large areas under private control altogether unchecked. As settlement spreads over the agricultural lands of the Crown in Ontario and as lands pass from public ownership to private farmers, the embargo on pulpwood exportation from such lands is lifted. A considerable area of Northern Ontario that was subject to the prohibition up to a few years ago has passed into the hands of private settlers, who are free to sell their pulpwood in any market they choose. The opening of that region by the Temiskaming and Northern Ontario Railway brought in population and led to the transfer of the land to private owners. It was freely predicted that the action of Ontario and Quebec in stopping the Crown lands would be followed by the movement of pulp and paper mills from the denuded sections of the United States to power sites in spruce forests on this side of the border. There has been some increase of United States capital applied to plants in Quebec, but it seems likely that British capital will take the foremost part in this, as it is doing in other fields of Canadian enterprise.

It is British capital that is giving the present great impulse to the industries owned by the Lake Superior Corporation, among which industries are a mechanical pulp mill and a sulphite fibre mill, both of large capacity. It is stated that a paper mill is likely to be added in the near future. In Quebec Province British capital is turning toward the same department of industry and several prominent Canadian capitalists are being attracted to the pulp and paper making business there. In the last issue of the Canada Gazette notice is given of the incorporation of a company with a capital of \$5,000,000 to engage in the business of pulp and paper making and allied operations, the head office to be in Montreal.—Mail and Empire.

"YOUR FACE LOOKS SO MUCH BETTER"

Pimples and Blemishes Cleared Away by Poslam, the New Skin Remedy. Results are seen after one over-night application of poslam when used for pimples, blemishes, rashes, undue redness, clearing the complexion, etc. It works wonders in quickly restoring any affected skin to normal condition and healthy tone. "My face was always full of big pimples, and I used to be ashamed to go on the street," writes Mrs. Helen Christian, Jersey City, N. J., "but since I used poslam my face is clear as a new-born baby's."

In promptly disposing of these minor skin troubles, poslam gives evidence of its remarkable powers to heal the more serious and stubborn skin diseases, such as acne, tetter, scabies, etc. in which it has made its great reputation. Itching is stopped as soon as poslam is applied. A sample sufficient to show results is mailed free, upon request, by the Emergency Laboratories, 32 West Twenty-fifth street, New York City. Poslam is sold in two sizes (trial, 50 cts.; regular jars, \$2) by all druggists, particularly Henry Willis, 4 St. John street.

KING GEORGE FOND OF SPORT. King George, who recently became patron of the amateur and professional football associations, has been interested in football for some time. He rarely misses a service football match, whether army or navy, and takes his elder boys with him when possible, for they are enthusiastic lovers of the game, and there is an idea that he may be able to attend the cup final this season.

As a schoolboy he was almost as good at football as at cricket, says the Gentlewoman, and of late years he has kept programmes of all the games he has witnessed.

These programmes are among his interesting collections, which include his world-famous one of stamps, that equally famous of walking sticks, the property of the late King, which he naturally bequeathed to his son, and of sporting trophies. When King George, by the way, was travelling in the colonies he received from an anonymous donor a very handsome book of stamps inscribed "A tribute from one of King Edward's sons to his future successor."

Correspondence.

(Continued from Page 11.)

The Geological Department years ago sent an employe to look for natural gas, which he found with but little trouble. Instead of advertising the fact to the Canadian people, or developing it for their benefit, the then government accepted the resignation of the very man who made the discovery, and he in turn took the "30 pieces of silver" from American capitalists (said to be the Standard Oil Company) and under their direction, and before the knowledge of the existence of the gas was known to the people of the district, he obtained for insignificant figures the right to bore wells in their property. For a quarter of a century or more this gas has been controlled by these foreign capitalists, and without "let or hindrance" of any kind from the Government they have pumped it across the river to Buffalo, where it has proved to be a source of great wealth for domestic lighting and heating, as well as for manufacturing purposes. Whenever this matter has been discussed in Parliament, the answer has invariably been that the Government must not interfere with "vested rights." The "vested" part certainly cannot be doubted, but the "rights" may well be questioned—"wrongs" would be a better word. But, if the case of the Port Colborne gas is bad, that of the nickel deposits at Copper Cliff are indefinitely worse. Here we find one of the most valuable metals deposited in vast quantities. We are also informed that with the exception of a small mine in the Island of New Caledonia, there is practically no other nickel to be found anywhere in the world. Let the visitor drive over from Sudbury to learn something of the mines, and this is what he will encounter: For miles around not a blade of grass or green leaf is to be seen, the sulphur having killed vegetation and animal life of every kind. He next comes upon a high fence, although beyond the possibility of being scaled, and upon applying at the gate, he is told to go to the office for a permit (itself a walk of considerable distance). At the office he is asked to fill in a card of application giving information with regard to himself that for historical research would do justice to a detective bureau. This card is sent in to a high official, and it may be hours before it is returned with the signature of that mighty individual, while in many cases permission to enter is refused altogether.

With this precious card in his hand the visitor once more goes to the great gate, and may even then meet with trouble in gaining admittance. Once inside he is handed over to an employe, who understands thoroughly what to show or tell, and what to keep back. If a piece of ore lying on the road should interest the inquisitive "alien," he is told brusquely to "leave that alone." On looking at the name plates on the machinery, only American manufacturers are represented, while the employes are quite free from the odium of being of Canadian birth. The mining and smelting works are extensive and show signs of millions having been spent upon them. The metal in ingot form is loaded into American cars, which are placed on a siding, where a Canadian engine is granted the privilege of conveying them out of the country by the shortest possible route. The ore once across the border is sent to New York, where it is refined and the major portion of it shipped to Germany, whose great Krupp, after mixing it with steel for the manufacture of armour plates, is gracious enough to sell some of it to the builders of British Dreadnoughts, but not until Great Britain's particular friend, the German Emperor, has had all its demands fully supplied. Without a dollar of tax to the Dominion or Provincial Governments, or employment of any kind to Canadian citizens, whom they treat as trespassers, this most valuable and almost exclusive deposit of metal is taken by foreigners to their own country, and handed over to be avowed enemy of Great Britain with which to build battleships, for her destruction and ours.

Is our Government in permitting such an extraordinary state of affairs to exist, doing its duty either to the Canadian people or to the Empire at large? Should it not demand first that a substantial royalty be paid on every pound of nickel that is mined? Second: That no nickel shall be exported except in a highly manufactured form. Third: That the price of sale and the place to which the goods are shipped shall be subject to the control of our Conservation Commission under the directions of the Government itself. At least, some restrictions of this nature would be in order.

These two cases are not by any means alone. I could fill editions of your paper for weeks telling of others. Our lumber, pulp, fish, water power and many other resources are openly being taken, from all parts of Canada, by American capitalists without consent or tax of any kind. And now—not content with these their misdeeds—they are coming to ask that we shall extend a further quota of this so-called "Reciprocity in Natural Products" in exchange for a lowering of our duties upon manufactured goods. Have the Canadian people no pride that will boil when subjected to such treatment as this?

It may not be generally admitted, but the time is nevertheless already upon us, when export tariffs of all countries will receive much more consideration than import tariffs. It will not in future be so much a question of whether we can compete in our own country with foreign manufacturers, as to whether we have the raw material to make up into finished goods of a quality and at a cost not equalled by competing nations.

Realizing in the near future that they will be compelled to prohibit the export of their raw products, such as

Large advertisement for Lea & Perrins' Sauce, featuring a bottle illustration and text: 'The Original and Genuine Worcestershire "The World's Favorite" To a savory soup—a tasty fish—a toothsome fowl—a delectable roast or chop—Lea & Perrins' Sauce adds the taste of perfection. J. M. DOUGLAS & CO., Montreal. Canadian Agents. Established 1857.'

coal, iron, ore, etc., the American people naturally wish to come to some pact or treaty that will bind the good faith of Canada for years to come. There are few men, if any, in Canada, who have the opportunity and ability to see into the future, or who have their country's good so much at heart, as Sir Wilfrid Laurier and Hon. W. S. Fielding, and it is not conceivable that they will be so weak as to cast a blight upon their names in the history of this country by giving away for a mess of pottage the birthright of our future generations. H. K. S. Hemming... Montreal, Nov. 4, 1910.

Public Notice
CITY OF QUEBEC
City Clerk's Office
Quebec, June 11th, 1910.
BY-LAW NO. 442
To amend By-Law No. 192, concerning Order and Peace.

(Drawn up in the French Language)
At a meeting of the City Council of the City of Quebec, held at the City Hall, in the said City of Quebec, on the Seventeenth of June, One Thousand and Nine Hundred and Ten (1910), in conformity to law, and in virtue of a By-law passed by this Council pursuant thereto, and after the due observance of all the formalities prescribed by the statute in such case made and provided, at which meeting were present two-thirds of the members composing the Council of the City of Quebec, that is to say:—
Present: His Worship the Mayor, Aldermen Barbeau, Beaumont, Bergevin, Campbell, Collier, Cote, Cummings, Delisle, Dinan, Emond, Gauvreau, Guillot, Jobin, Lamontagne, Lavallee, Lockwell, Madden, Messervey, Monaghan, Morin, Mulrooney, Paquet, Plamondon, Pouliot, Shink, Trudel and Verret (27).

It is hereby ordered and enacted by the Municipal Council of the City of Quebec as follows:—
1. The following article is hereby added after article 32 of By-law No. 192, passed by this Council on the 22nd of December, 1865, to wit:—
No. 32 A.—It is forbidden under the same penalty as above to any boy of less than ten years of age, and to any woman, or girl, to sell or offer for sale newspapers or any other articles in the streets of the said city."
NAP. DROUIN, Mayor.

Attest. (L.S.) H. J. B. CHOUINARD, City Clerk.

Advertisement for Heintzman & Co. Piano, featuring an image of a woman and text: 'A GREAT ARTIST A GREAT PIANO. There's written in the musical history of 1910, in letters large and illuminating, the story of the Canadian tour of Melba, whom the world has no more talented or picturesque artist. From cradle to coast she has sung to delighted audiences—and won her way to the hearts of music-loving Canadians. Linked with Melba's success, and contributing largely to it, is the Heintzman & Co. Piano. the Piano made by "Ye Olde Firme" of Heintzman & Co. That there might be no possibility of a mistake it was arranged before Melba left for Canada that a Heintzman & Co. Grand Piano, and no other, should be used in her entire Canadian tour. This has been the case, and the world's Prima Donna freely acknowledges in what large degree this magnificent instrument, with its exceptional tone and singing quality, has added to her own pleasure, and the complete success that has distinguished her tour. A story is thus told of the Heintzman & Co. Piano more eloquent than could in any other way be written. LAVIGUEUR & HUTCHISON, Sole Representatives, 81-83-85 St. JOHN STREET.

MINSTREL SHOW NEXT WEEK AT AUDITORIUM.

The Minstrels are coming to the Auditorium. It is a long time since we have seen an old-fashioned minstrel show with the funny old men, bones, tambourin, good jokes, songs and dances.

We have witnessed tabloid musical comedies and operas in vaudeville, and they proved a very appetizing number. Now we have minstrelsy in the same form Fuller's Minstrels, the latest acquisition to the varieties will appear at the Auditorium next week, and from reports over the circuit, the act is said to be very good. There are six people in the company.

In addition to the above, Jimmy Henney, the famous Irish comedian, will offer his side-splitting monologue and funny songs. Jimmy is a native of the old sod, and is said to rank with the top notchers in his respective line of work. Another fine novelty will be presented by the Gregorios Brothers, expert Roman ring artists.

With four new reels of pictures in conjunction with the above, local patrons will have an entertainment that will be worth while seeing, and when you take into consideration the amount of admission charged, you will say like hundreds of others are saying, how do they give such a big show for Ten Cents?

MARIE NARELLE.

The violin virtuoso, of Spanish descent, M. Scapiro, who accompanies in her present artistic journey through the United States and Canada, the remarkable Australian-Irish soprano, Madame Marie Narelle, is a virtuoso of a high water mark. He has already appeared in some of the largest cities of Europe, and while in Vienna he performed in the Austrian capital, and the Neues Wiener Journal appreciated the artist in the following terms: "Besides the 'Symphonie Espagnole,' by Lolo, and Bach's 'Chaconne,' Mr. Scapiro played with intense feeling and mastery the violin concerto by Brahms. What we liked best in his playing was his absolute certainty in technical difficulties and his great abandon and decisive style. He showed himself not only as a great virtuoso, but also where the music demanded simplicity as a genuine artist. This playing of the Brahms concerto was a noteworthy performance." We will hear this distinguished violinist at the Loyola Hall next Wednesday evening, together with Madame Marie Narelle and the charming young pianist, Miss Genevieve Moroney. The plan of reserved seats is now opened at A. Lavigne's, 95 St. John street.

Correspondence.

To the Editor of the Chronicle. Dear Sir,—I am writing to ask if you or any of the readers of the Chronicle can give me any information concerning Richard and Edward MacGinnis. They came from the County Limerick, Ireland, between 50 and 60 years ago, and settled in or near the city of Quebec. A niece of theirs, the Baroness de Soriano, wishes to hear about them or their descendants. Yours very sincerely, LENNOX WILLIAMS.

A repetition of the "Becket" recital at Loyola Hall will be held on Saturday, November 12.

THE JONQUIERE PULP COMPANY

Has Been Acquired by Messrs. Price Brothers & Company, Limited.

Messrs. Price Brothers & Company, Ltd., lumber merchants, having large saw mills in various parts of the province, and with head office in Quebec City, have acquired all the stock of the Jonquiere Pulp Company, who have been operating on the River au Sable at Jonquiere for a number of years. This company manufactures 35 tons of paper and cardboard daily and have 340 square miles of timber limits. They grind their own wood pulp and make their own sulphite and also have a saw mill in connection with their plant, and they own an undeveloped water power on the Au Sable River. The Amalgamated firm intend to develop the water power on this river and operate the extensive Saguenay limits of Price Brothers & Co., Ltd., which are adjacent to the mill site. Mills will be built to manufacture 150 tons of newsprint daily and will consist of the usual ground wood pulp, sulphite pulp and paper mills. The available head of water at the mill site is 282 feet, which will give some 14,000 horse-power, as the Jonquiere Pulp Company have been operating on the river for a number of years, the flowage and general water conditions are accurately known. Already a railway siding 1-1/2 miles long is ready for operation and construction work will be started immediately in the spring. The mills will be of fire-proof construction throughout and will be equipped with the latest approved machinery, and it is expected that by the spring of 1912 paper will be on the machines.

Mr. George F. Hardy, of New York, is now at work designing the plant, which is a sufficient guarantee that the installation will be on the latest approved lines. Mr. Oswald A. Porritt, for a number of years managing director of the Jonquiere Pulp Company, and the Price Porritt Pulp and Paper Company, will be general manager of the mills. The company have acquired a large tract of land in the immediate vicinity of the new mill site and intend following out the best traditions of British commercial enterprise, leaving nothing undone to conduce to the comfort and health of the employees. On this tract of land, which is very suitable for a townsite, houses, cottages, etc., for employees will be erected, and it is expected that a town of considerable dimensions will soon take the place of what is now farm land. The mills' name will be "Kenogami Paper Mills," as it is from Lake Kenogami that the river flows, and the present postal address is Price Brothers & Co., Ltd., Kenogami Paper Mills, Jonquiere, P. Q.

The mills are situated about ten miles from Chicoutimi and twenty miles from St. Alphonse, with railway connections to each town. Both of these ports are on tide water, and at St. Alphonse the largest ocean steamers can tie up alongside the wharf, thus for receiving heavy freight, such as coal, sulphur, etc., and shipping "Roll news" the world over, the mill is particularly well situated.

It is expected that the new mills will provide work for about 800 men, beside the men employed in the woods and logging operations. This will certainly be of immense benefit to the district.

Messrs. Price Brothers & Co. were the pioneers of the Saguenay, and have lumbered in this district for 100 years, and the monument erected by the local inhabitants at Chicoutimi to the late Mr. William Price describes him as the "Father of the Saguenay." The present William Price is a member of the Federal House and sits for Quebec West. He is president of the company and has other large interests all over the province; is recognized as being one of Quebec's most enterprising citizens, and it is owing to his enterprise and careful thought that this large industry is becoming an established fact. So that not only are Price Brothers & Co. pioneers of lumbering, but also are they pioneers of paper making in the Saguenay and Lake St. John districts.

AMATEUR CONTEST. There is going to be a free-for-all amateur contest this evening at the Nickel Theatre, and, judging by the entries a very pleasant time is in store. In addition there are the following feature subjects as follows:—"Self Made Hero," another of those great Imp comedy screams, which make you wonder why your sides don't burst. "The Attack on the Mill" is an episode of the Franco-Prussian war, adapted from the story by Emile Zola, and abounds in beautiful scenery and thrilling situations. "Blasted Hopes" is a beautiful love story that will carry you all back to the time when you indulged in those delicious love dreams. "The Converted Deacon" is about the best comedy drama you ever saw and will be found most absorbing and contains quite a surprise for you.

CHALMER'S CHURCH. Morning subject, "Nearness to God—Waiting Thoughts." Evening subject, "Protestant Principles—the Hereafter." The pastor will preach at both services. In addition to the regular work of the choir, Mr. R. A. Stapells, baritone, of Toronto, will assist.

NO MORE DISTRESS FROM THE STOMACH

Dyspepsia, Gas, Indigestion and Heartburn Vanish and You Feel Fine in Five Minutes.

Every family here ought to keep some Diapepsin in the house, as any one of you may have an attack of indigestion or Stomach trouble at any time, day or night.

This harmless preparation will digest anything you eat and overcome a distressed, out-of-order stomach five minutes afterwards.

If your meals don't tempt you, or what little you do eat seems to fill you or lays like a lump of lead in your stomach, or if you have heartburn, that is a sign of Indigestion. Ask your Pharmacist for a 50-cent case of Pape's Diapepsin, and take a little just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, Nausea, Debilitating Headaches, Dizziness or intestinal griping. This will all go, and besides there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it prevents fermentation and takes hold of your food and digests it just the same as if your stomach wasn't there. Relief in five minutes from all stomach misery at any drug store, waiting for you.

These large 50-cent cases contain more than sufficient to cure almost any chronic case of Dyspepsia, Indigestion or any other Stomach trouble.

One of the Great Events of The Season

A Great Exhibition of Real Oriental Rugs at

P. J. COTE'S STORE

No. 31 St. John St. Opposite Palace Hill

Owing to the recent revolution in Turkey, we have received from the celebrated oriental firm HABIT POLAKO, a considerable consignment of the following real Turkish rugs, viz:

Melessos, Ouchack, Ladik, Cherkees, Sparte, Sivras

Having no travellers' expenses, commissions or extra rent to pay, we can sell the above at a great deal lower price than the strangers coming here with the same goods, our exhibition will be permanent and our display is large enough to satisfy the hardest to please.

Don't be in a hurry to buy. See us before buying.

Your guarantee is that we are here for more than three or our days.

The foreigners are here a few days and then they go.

Without any security for the buyers.

P. J. COTE,

31 St. John St. Opposite Palace Hill
