VOL. XXXIV. No. 160 MONTREAL, WEDNESDAY, JULY 9, 1902. PRICE ONE CENT.

TRINITY COLLEGE DEFEATED THE ARGONAUT EIGHT

The Canadians Made a Game Fight to the Very End.

TITUS WAS ALSO DEFEATED

The Fast American Proved to be No Match for Kelley, of Balliol College, Oxford.

HENLEY, July 9. — In spite of a dull threatening morning, exceptionally large crowds assembled here to-day to witness the second day's racing of the Henley Regatta. Interest in the meeting was vastly enhanced in the danger of the diamond sculls and the grand challenge cup crossing the Atlantic. Americans and Canadians were present in force to support their respective compatriots.

The wind was sufficiently strong in the forenoon to churn the water. It blew directly off the Bucks shore, giving the boats on that station a great advantage.

Some experts estimated that the that the station on the Bucks side was worth a full length.

Like yesterday, the racing began at 12.30 p.m. The first contest was the fourth heat for the Grand Challenge Cup. Although the London Rowing Club had the advantage of the Bucks station and rowed in excellent form, Leander led all the way, London's spurt towards the finish proving fruitless. The time was very fast, considering the wind, supporting the generally accepted view that nobody knows what reserve power is possessed by the Leanders until they are hard pressed. The half-mile time was 2 minutes 31 seconds. The mile was done in 5 minutes 30 seconds.

THE ARGONAUTS BEATEN.

This opened the way for what was generally regarded as the most important event of the regatta, the Canadians' contest with Third Trinity, the crack Cambridge crew, accepted by all as the British champions in the heats for the Grand Challenge Cup. containing as the crew did, such noted oarsmen as C. J. D. Goldie, J. Edwards-Moss and W. Dudley-Ward. The race was close and exciting to Fawley Court. The Argonauts led to that point (half the distance), when Third Trinity caught up, took command and finished in the splendid time of 7 minutes 11 seconds. The Canadians, even when they were passed, hung on in the most spirited fashion and spurted time after time. But they were handicapped by the fact that they held the Berks side. The time for the half mile was 2 minutes 27 seconds. Fawley Court was passed in 3 minutes 21 seconds.

CANADIANS WERE CHEERED.

Both struck forty for the first minute and raced nose and nose. At Fawley Court Third Trinity forged a quarter of a length to the front, rowing grandly. The collegians drew away gradually amidst the greatest excitement. The losers were loudly cheered at the finish.

The third heat for the Thames Challenge Cup was a great struggle. The Irishmen would have won but for their disadvantage of station. The Dublin crew got off first and still led at Fawley Court, after which Cambridge gradually drew level. A neck and neck race ensued and the Englishmen won by a narrow margin.

In the fourth heat for the Thames Challenge Cup, the Royal School of Mines Boat Club beat the Thames Rowing Club by three-quarters of a length. Time, 7 minutes 42 seconds.

After the lunch interval, the fourth heat for the Thames Challenge Cup was rowed in a downfall of rain, which sent the summer class picnickers in search of shelter. The School of Mines got clear away from the start and kept the Thames oarsmen in hand the whole distance.

FOR SILVER GOBLETS.

In the second heat for the Silver Goblets the Hon. C. Craven and J. W. Knight, London Rowing Club, easily beat a pair of the Reading Rowing Club. Time, 9 minutes 11 seconds.

In the third heat for the Ladies' Challenge Plate, Eton beat Christ Church, Oxford, easily. Time, 7 minutes 20 seconds.

TITUS WAS DEFEATED.

HENLEY, July 9.—In the eighth heat of the Diamonds, F. S. Kelley, Balliol College, Oxford, beat C. S. Titus, Union Boat Club, New York. Kelley won easily. Time 8 minutes, 39 seconds.

HENLEY, July 9.—In the fourth heat for the Ladies' Challenge plate, University College, Oxford, beat Hedley School, by two lengths. Time 7 minutes, 38 seconds.

(Continued on page six.)

Burghers Are Going Back to Their Farms

(Special to the Montreal Star.)

LONDON, July 9. — A steady stream of repatriated burghers, says the Times correspondent of Johannesburg, has recently been returning home. The Boers are supplied with tents, equipments and rations for a month. This week the general return begins by the Government transport of those not possessing horses and carts of their own. The Local Commission in each district will assist in the restoration of the people to their homes supplying wood, shelter, seeds and stock when necessary. Each commission will be under the presidency of the resident magistrate and will exercise broad discretion in making grants, with regard to the present needs and not with regard to the position of the families before the war.

The correspondent points out that the National Scouts, Boers who fought on the British side, deserve preferential treatment and are as anxious as others to return to their normal life. Not more than 400 of these will return to their own farms. Many of them may take advantage of Government land settlement schemes. This week a group of settlers possessing some capital will be established in Ermelo district. These include more than fifty New Zealanders. A sum of £3,000,000 will be put at the disposal of the Local Commissioners for the settlement of claims for war losses. When a successful complainant has received no supplies, his share will be paid in cash. In other cases the value of supplies granted will be deducted.

KITCHENER'S SUCCESSOR IN SOUTH AFRICA.

One of the things the Boer war did was to knock a lot of the deadwood out of the British army and bring forward the officers who understood the business of fighting. Lord Kitchener's successor in command of the troops in the Transvaal and Orange River Colonies is a man of that sort—one of the few generals who have come out of the African campaign with flying colours. Gen. Neville Lyttelton is the son of a baron, and therefore entitled to an "Hon." in front of his name. He has a good place in society, but that hasn't interfered with hard work ever since he entered the Rifle Brigade at the age of 20, away back in 1865. He won honours in the Fenian Raid in Canada, served in India, in Ireland and at Gibraltar; got glory in the battle of Tel-el-Kebir; commanded a brigade in the Nile expedition; had a hand in the battle of Khartoum, and did gallant work in Natal—a pretty broad experience for a man who is yet on the good side of 60.

LIEUT.-GEN. THE HON. NEVILLE GERALD LYTTELTON, C.B.

TRACY, THE DARING OUTLAW, TRACKED BY BLOOD-HOUNDS

He Baffles the Sleuths by Scattering Cayenne Pepper on His Trail.

SEATTLE, Wash., July 9.—Harry Tracy, the fugitive convict outlaw, has, for the fourth time since his arrival at Meadow Point, escaped form the officers. Tracy was definitely located in the home of Charles Gerrels, one mile north of the town of Renton at 2 o'clock yesterday afternoon. At 4.45 o'clock Deputy-Sheriff Cook arrived with a fraction of the posse and advanced up the track toward the Gerrels's home. The convict, however, plunged into the brush and was soon lost to view. When Tracy disappeared from the Gerrels's home, the bloodhounds were hastily brought up from the rear, and turned loose on the hot scent. Both dogs struck the trail down the stream, following it for a quarter of a mile and crossing the track only to double back and swim the river.

Half way between Cedar River and Burrough's boat house, both dogs ran into cayenne pepper sprinkled in the outlaw's retreating footsteps. Their nostrils were filled with the fiery substance, and fully ten minutes were lost in relieving the dogs so that they could again exercise their powers of smell. Pressed to desperation, Tracy here made a circuit, headed due north and plunged into the outskirts of the lake, where he finally succeeded in casting the scent. It was then dark and the guard returned to Renton with the dogs.

SIR GORDON SPRIGG LEAVES THE COLONIAL CONFERENCE

He Has to Attend the Opening of the Cape Colony Legislature.

LONDON, July 9. — The early opening of the Parliament of Cape Colony, fixed for August 20, has necessitated the hurried departure of Sir John Gordon Sprigg, the Cape Premier, who will sail for Cape Town Saturday. Consequently the Colonial Conference is deprived of his assistance.

THE KING'S WOUND IS SLOWLY HEALING.

His Majesty's Physicians Report To-day That His Progress Towards Recovery Continues.

LONDON, July 9.—Following is the bulletin posted at Buckingham Palace regarding King Edward's condition, at 10 o'clock this morning:

"The King's progress is uninterrupted. His Majesty sleeps well and is gaining strength. The wound is slowly healing.
(Signed) "TREVES,
"LAKING,
"BARLOW."

Truth says that when the Coronation is held only the Royal family, a few relatives from abroad and the permanent ambassadors in London representing foreign countries will be present. There will be a procession from Buckingham Palace to Westminster Abbey and back, and nothing else. The functions will be limited to the actual day of the Coronation. The suggested August dates are unpopular, as August is the holiday month for London residents.

THE KAISER WILL PAY A VISIT TO THE KING.

(Special to the Montreal Star.)

BIRMINGHAM, July 9.—The Post learns that Kaiser Wilhelm will pay a special visit to the King to personally congratulate him on his convalescence. He wants the King to take a yachting cruise to Heligoland and the North Sea.

Contradictory Reports.

(Special to the Montreal Star.)

NEW YORK, July 9.—The correspondent of the Tribune in London, cables:

Contradictory statements are made respecting the Coronation. A prominent court official has told intimate friends that the ceremony at the Abbey will take place on August 12. The understanding in the lobbies of Parliament is that the session will be adjourned at the end of the first week in August until the first week of October, when the Coronation will take place.

CANADA'S ARCH TRANSFORMED INTO WELCOME FOR KITCHENER

London Crowds Scramble for Souvenirs From the Granary of the Empire—Sir Wilfrid Kept Busy.

(Special by cable from the special correspondent of the Montreal Star in London.)

LONDON, July 9.—Mr. Chamberlain's illness is delaying the Colonial Conference. Sir Wilfrid Laurier and the other premiers are, however, conferring among themselves with a view to adopting a united position in discussing trade, defence and other questions with the British Ministers.

Sir Wilfrid Laurier was overwhelmed to-day with visitors at the Hotel Cecil. He dines to-night with Lady Winborne, who will hold a reception afterwards.

The Canadian Ministers are delighted with their kindly genial reception by the Prince and Princess of Wales at the royal dinner at St. James's Palace last night. The Prince and Princess recalled many incidents of their Canadian tour with manifest delight.

The Canadian arch is being divested of its grain to-day to make way for flag designs for Lord Kitchener's reception on Saturday. There were many amusing scenes as the crowd begged and obtained souvenirs of Canadian wheat and corn. Two waggon-loads were thus eagerly snatched away, policemen watching smilingly. The crowd even appropriated the shrubs intended for the Kitchener design.

Illuminated portraits of the King and Queen, Lord Roberts and Lord Kitchener, form part of the new design with a Canadian message of greeting to Lord Kitchener and his troops upon a red background.

WINDERMERE.

Slaughter of Innocents; Death Rate of Babies Is Abnormally Large

The Proposal Again Revived to Organize a Society Whose Object Shall Be to Instruct Mothers in Caring For the Infants.

The fact that last week fully one-half of the death rate was made up of babies has caused the keenest concern in the Health Department at the City Hall.

Officials of the department stated yesterday that from present appearances the death rate among babies was going to be very heavy this season.

Earnest steps are to be taken to try and prevent the slaughter of "the innocents," and the important question of "child life saving" is to be brought up at the next meeting of the Hygiene committee.

Speaking of the heavy mortality among infants, Dr. Laberge, Medical Health Officer, said the great cause of infant mortality was due to the ignorance of young mothers how to take care of their babies. What should be done in the city was to organize a society, which would have physicians attached to it, and whose duty it would be to instruct mothers in matters pertaining to the care of babies. Some years ago a proposition was made to start such an organization; but the scheme did not amount to much. Many young mothers did not know really how ill their infants were until it was too late to save them. By the employing of physicians to go daily to the poorer sections of the city, and give advice and medicines free, hundreds of lives would be saved every summer. Very frequently infants were taken dangerously ill on account of not being properly fed, and being neglected as to cleanliness. A society of women should be organized, whose work would be to teach mothers the proper care of infants. If these reforms were inaugurated, Dr. Laberge was sure, the heavy death rate of the city would very quickly lessen.

SOME STRIKING FIGURES.

The question of the death rate of the city has just led to the compiling of some important statistics, contrasting the death rate in Montreal with other cities. As will be seen the death rate here is very he[illegible] and is entirely due to the abnormal d[illegible]h rate among babies.

The death rate in 1900 (the last fi[illegible]re compiled) shows a rate of 24 per thou[illegible]. In 1898 the rate was 22.9 per thousan[illegible] Chicago the rate is shown as 13.5; in [illegible]ton, Ont., 12.9; in Cincinnati, 13.08; [illegible]don, Ont., 13.8; St. Louis, Mo., 13.3; [illegible] 18.3; Providence, [illegible] New York, [illegible] Philadelphia, 19.02; San Francisco, 19.04; Boston, 20; Baltimore, 23; Mobile, 23.09; New Orleans, 24.08; Ottawa, 26.02; Quebec, 27.02; and Three Rivers, P. Q., 36.01.

Of one hundred cities in the United States, from which statistics have been got, Three Rivers has the highest death rate, and Hamilton, Ont., the lowest. For 19 North American cities it was shown the average rate was 20.1 per thousand. For seventy-five European cities, the average death rate is shown to be 19.07. For six South American cities the rate was shown to be 32.01. In conclusion the report shows that the reason of the death rate in this city being so high is owing to the heavy mortality among infants. Among adults the death rate is small. If only a moderate percentage of children died in the summer months the city's annual death rate would compare most favourably with the annual deaths in cities in England and the United States.

The whole question of child life saving, as stated, is now to be brought before the attention of the Hygiene Committee.

SHOT IN WRIST IN MIDNIGHT ROW

Jacques Leblanc Was Seriously Wounded by One Rawlinson.

LATTER ARRESTED TO-DAY

He Pleaded Not Guilty to a Charge of Attempted Murder and Was Remanded.

Jacques Leblanc lies at the General Hospital with a bullet in his wrist, and Frank Rawlinson is held by the police on a charge of attempted murder.

According to the story told by Leblanc the attempt to kill Leblanc was of a cold blooded nature and Corporal Belanger, who arrested Rawlinson, at 8 a.m. to-day, reports that it was only after a desperate struggle that he saved his life by preventing the man from drawing his revolver on him.

The shooting took place last night at 12 o'clock at the entrance to the lane leading to the ambulance depot, kept by Mr. Joseph Wray, on St. Dominique street. Leblanc, who works for Mr. Wray, was standing by the gateway when Rawlinson came along, and, it is claimed, without provocation commenced to blackguard Leblanc and call him the most foul of names.

As Rawlinson kept getting further into the lane Leblanc endeavoured to push him out, and the former immediately jumped on him. There was little struggling as the two men fell to the ground, and Leblanc was on his feet in an instant. He says that Rawlinson half raised himself, and then drew his revolver from his hip pocket. He pointed it at Leblanc's head, and with a fearful oath said "take that," firing at the same moment.

Leblanc instinctively put his two hands to his face, and the bullet struck the palm of the left hand ploughing towards the wrist and being stopped by the ligaments and bone at the wrist joint. The wounded man was at once taken to the General Hospital where he was treated and to-night or to-morrow the bullet will be removed. It is feared that the hand will be permanently disabled.

SHOOTER WANDERED ALL NIGHT.

Rawlinson has been drinking for a week and he kept it up for hours after the attempt to kill Leblanc. It is said that some little time ago he quarrelled with a female companion and since that time he purchased the revolver which he has continually carried.

When he left the scene of his crime he wandered about from place to place, drinking where he could get it, and at eight o'clock he stood in front of Renaud's saloon on St. Catherine street reading in a morning paper about the shooting. Word had been sent to the police, and detectives had been looking for him. Corporal Belanger, of No. 4 station, knew the man pretty well and knew him to be a desperate character. The officer saw his man, and as he approached, he said, "Well Frank, what have you been doing now?"

Rawlinson threw the paper to the ground, and in a twinkling his hand found its way to the pistol pocket. Belanger saw his danger, and sprang upon his prisoner who fought with great desperation to draw the revolver from his pocket. The officer finally succeeded in choking the man into submission, and he was taken to the station.

To-day he was brought before Judge Choquet, and the charge of attempted murder was read to him. In a surly, impudent manner he said: "Ah, I'm not guilty." He was at once remanded for enquete, the date to be fixed by the recovery of Leblanc.

Rawlinson is an old cab driver.

MR. CHAMBERLAIN ABLE TO LEAVE THE HOSPITAL.

The Colonial Secretary is Now Resting at His Home—Progressing Satisfactorily.

LONDON, July 9.—Joseph Chamberlain, the Colonial Secretary, who was injured in a carriage accident Monday, left Charing Cross Hospital this morning, accompanied by Mrs. Chamberlain, and returned to his home in Princes Gardens. A bulletin issued regarding his condition says he is progressing satisfactorily, but that perfect quiet is essential.

INTERNATIONAL WIRE FENCE

To Keep Montana Cattle From Crossing Into Alberta.

(Special to the Montreal Star.)

OTTAWA, July 9.—It is likely that in order to put an end to the constant bickering and recrimination caused by cattle straying from Montana over the border into Alberta and Assiniboia, the Canadian Government will have 100 miles of wire fence constructed. This will cost a considerable sum, but it will protect the Canadian Ranchers from the encroachments of cattle belonging to their competitors on the other side of the line and lead to harmony in future. The officials of the Customs and Agriculture Departments have been discussing the matter, and agree upon the wire fence as the best solution of the difficulty Heavy penalties will be imposed upon persons who cut the wire when put up.

Sailors Killed and Injured.

Calgary carpenters inaugurated a strike on Monday because the contractors refused to arbitrate in the matter of wages.

BASEBALL

TWO MORE GAMES GONE TO THE BAD

Providence Entirely Too Much for Montreal.

DOOLEY VERSUS THE UMPIRE

Montreal Captain Was Ordered Out of the Game — Toronto Won From Worcester.

(Special to the Montreal Star.)

PROVIDENCE, R. I., July 9.—Providence played first class ball yesterday, and took both games from Montreal. In the first game Conn pitched for Providence and Mills for Montreal. The contest was very close until after the sixth inning, in which Dooley gave expression to a few opinions of Umpire Snyder, for which he was benched, Raub going to first and Stroh falling behind the bat. Up to the time of the altercation the score stood 2 to 1 in favour of Providence. In the 7th, Mills was hammered for two singles, two doubles and a home run. Raub scored both of Montreal's runs. The first on his own two bagger and Odwell's triple, and the second on his own single and Stafford's double. Shearon having advanced him a base on an infield out. Conn had gingery and perfect fielding support.

In the second game George Sullivan was on the slab for Providence and Souders did the honours for Montreal. Souders was touched up vigorously in streaks. Cassidy made a homer in the second, and scored again in the fourth on a scratch single, a steal and a hit by Corridon. In the sixth a couple of doubles by Wagner and Cassidy with bunts between by Bean and Suter. Sullivan produced two more runs. A streak of hitting in the eighth including singles by Wagner, Bean and Suter Sullivan, with a long fly by Cassidy made Providence's total six.

Montreal was shut out until the ninth when Kelly singled, went to third on a hit to right field by Dooley, and scored on a long fly to left field by Quinlan. Johnson followed with another hit, but Dooley was held at third and the game ended when Johnson was headed off at second on a grounder by Souders.

Score:

First Game.

Diamond Dust.

Newark only won two games in twenty-six played.

George Henry, released by Waterbury, is playing with Newark.

Sockalexis is still at the head of the Lowell batting list, with .325.

Keeler, of Brooklyn, leads the team in batting, with an average of .346.

Cincinnati has not won a game from Pittsburg this season, losing ten straight.

The Baltimore Herald says that Louisville is the only team making money in the American Association.

Lynch leads the Buffalo team in batting. His average is .352. Gettman is next, with .346, and Brain third, with .342.

President Lennon, of the St. Paul American Association team, has promised his team $2,000 if they win the pennant.

Joe Kelly's reinstatement was due to the player's personal promise to Ban Johnson to be good for the balance of the season.

Jimmy Williams, the second baseman of the Baltimore team, says that Waddell is the only pitcher who ever succeeded in striking him out twice in the same game.

"The National League is in a bad way," says Manager Tom Loftus. "They are losing big money in St. Louis, Cincinnati, Philadelphia and Boston, and from this out will drop a big pile in New York."

The Newark papers must be getting pretty sore on its team when they compare Burnham's bunch with the New Yorks. Newark has fallen low enough, but to compare the team with New York——.—Mail and Empire.

In Philadelphia people are disgusted with the way things have turned out in the Lajoie case. Thousands of spectators would have been drawn to the National grounds had Rogers but possessed foresight enough to give the player his demands. But the "penny wise, pound foolish" policy of some National League magnates will yet put the National out of business.

Every club in the Southern League has a left-handed pitcher, who proves very effective, because he faces so many left-handed batters. Nashville has two "south-paws," Damman and Saunders; New Orleans has one, Dannehower; Atlanta has one, Bailey; Little Rock, Skopee; Memphis two, Roust and Hamilton; Birmingham has Campbell, and Chattanooga has Hopkins.

Whitinsville and Milford, two town teams in the neighbourhood of Worcester, played on Saturday. Whitinsville was determined to win this game, and made a good preparation to do so, having as a pitching staff Magee, of the Montreal Eastern League team; Scott, of Toronto; Leary, of U. of P., and Robertson, of Yale. Magee pitched for Whitinsville and Falkenburg, of Worcester, was in the box for Milford. The former team won in the eleventh innings by 3 to 2.

Sizing up the teams that have played in St. Louis, Sid Mercer, the Republic's critic, says Baltimore is the weakest. Washington boasts of sluggers, but lacks team play and industry; the Athletics are the most evenly balanced; the Bostons a trifle weak in fielding, though good in hitting and base running; Chicago a decided improvement over last year; Cleveland is a most promising combination, and Detroit he classes with the Athletics. He closes by giving first place to either one of three.—St. Louis, Boston or Chicago.

Of the thirteen survivors of the Metropole Cycling Club's motor bicycle endurance run from Boston to New York, July 4-5, seven finished with perfect scores of 1,000 points each and thereby earned gold medals denoting the highest possible award; two others obtained blue ribbons for coming within 50 points of the winning score, one a red ribbon for earning 100 points and one other a yellow ribbon for 150 points of the leader's total.

The seven leaders were: Geo. M. Holley, Bradford, Philadelphia; G. Hendee, Springfield, Mass., Geo. W. Sherman, Brooklyn; O. L. Pickard, San Francisco; N. P. Bedard, Hartford, Conn.; L. H. Roberts, Waltham, Mass.; Wm. B. Jameson, Waltham, Mass.

WEAK WOMEN

Are made strong by the use of Dr. Pierce's Favorite Prescription. It regulates the periods, dries weakening drains, heals inflammation and ulceration and cures female weakness.

Sick women are invited to consult Doctor Pierce, by letter, *free*. All womanly confidence held in sacred secrecy and guarded by strict professional privacy. Write without fear and without fee to Dr. R. V. Pierce, Buffalo, N. Y.

"I had been a great sufferer from female weakness," writes Mrs. M. B. Wallace, of Muenster, Cooke Co., Texas. "*I tried four doctors and none did me any good.* I suffered six years, but at last I found relief. I followed your advice, and took eight bottles of 'Favorite Prescription,' and four of the 'Golden Medical Discovery,' I now feel like a *new woman*. I have gained eighteen pounds."

Doctor Pierce's Pleasant Pellets cure biliousness and sick headache. They do not create the pill habit.

FOOTBALL

THE WINNIPEG FOOTBALL WINS

The Shamrocks Defeated Strong Teams in Galt and Berlin.

PLAY IN TORONTO TO-NIGHT

Will Visit Cornwall Before They Come Here and Then Leave for the Capital to Play.

The touring Winnipeg Shamrocks, who are to play the Senior Broadviews in Toronto this evening, and who will play here on Saturday, have thus far not been defeated in the East. The first game was played in Berlin last Thursday, and resulted in a draw, each team scoring a goal. At Galt, where the Shamrocks' opponents were this year's W. F. A. champions, neither team scored. The Shamrocks won the Manitoba Senior League championship, and have practically won it again this year, having won each of the five matches they played. Besides this, they won three exhibition games. The only game lost was at Portage la Prairie, thus losing a cup which they had held for two years, and which would have became their property, had they won the third time. The other teams in Manitoba League are the Bisons, Crescents and Y. M. C. A. teams of Winnipeg, and the Portage la Prairie team. Breen, who plays centre forward for the Shamrocks, is better known as a hockey player, being the crack centre of the Winnipeg Hockey team. C. St. John, the team's player-manager, was a member of the Carberry, Man., team, which toured the East several years ago, losing only to the Rangers, of Berlin. From Toronto the Shamrocks go to Cornwall, then to Montreal, Ottawa, back to Berlin for another game, and probably to Galt, and then to Seaforth. They may also play Brussels and Wingham. The average weight of the team is 140, and the average age 21.6.

The visitors are evidently a crack aggregation, judging by the games they played at Galt and Berlin, in which places they held their own against these strong teams. Lovers of the Association game should turn out for to-morrow's match.

AQUATICS

CAN BARRIE COLLECT?

Erie Basin Firm's Bill for Care Will Come in Ahead of His Claim Upon Shamrock II.

NEW YORK, July 9.—There is one most interesting feature of the Barrie-Lipton controversy which seems to have been lost sight of. This is the possibility of Mr. Barrie collecting a cent of his claim off Shamrock II. In all libel claims those of the crew come first, then those for work done, wharfage, and so on. It is a well established principle in marine law that one vessel cannot be attached for the debt or damages of another, belonging to the same owner or owners. There is no doubt that it is more difficult to collect claims against floating property than any other.

Almost any one can libel a vessel by simply making an affidavit in the United States Court that the ship owes him money. The vessel is seized forthwith and bonded, just as in the case of Shamrock II. To collect the claims, whether well or ill founded, is quite another thing.

So it will be found in the case of Mr. Barrie's libel. It will be found that the John N. Robins Company has heavy claims against the yacht, which probably will far exceed her market value at present. It is said that the cost of taking her ashore amounted to $5,000. She has been in storage since that time. So has her spars, and her sails and rigging up to the time the latter were burned. It is safe to say that these claims will have to be paid before Mr. Barrie can collect one dollar. Of course if he happens to have been signed as a member of the crew of Shamrock II. the case would be different, and then his claim would come first. No one has asserted that he has ever been a member of the crew, and as an agent of Sir Thomas Lipton his claim will hardly lie against the Erie Basin firm.

There are other features in the case. To put the vessel afloat, which no one ever expects to see, would probably cost twice as much as it did to haul her out of the water. At the best, she is only worth her weight as junk. There are said to be sixteen tons of lead in her keel, a few tons of bronze and steel that account for her weight of sixty tons. The lead, bronze and steel have a certain fixed market value, but the hull must be cut apart, which costs a lot of money. But before this is done the claims of the yard must be satisfied, and those of other interested parties, so that it is safe to say that the boldest speculator in the port would not give $1,000 for the hull as it stands to-day, including the claims against it.

The spars are all safely stowed away, and, like the hull, have been running up a large bill for storage. They are not very available, and would not bring much.

This appears to be the state of affairs today, and it leads many well-informed men to say that Barrie's claim against Shamrock II. is not worth a nickel cigar.

THE HENLEY RACES YESTERDAY WERE A GREAT SUCCESS.

Titus Admits That Scholes Nearly Played Him Out.

(Special to the Montreal Star.)

LONDON, July 9, 1 a.m.—The Henley regatta yesterday was the most beautiful water fete imaginable. One bank of the river was lined almost continuously from the bridge to Temple Island with house boats converted into gardens, and there was a joyous revel of thousands of punts, skiffs and launches up and down the course. The houseboats were more numerous and more artistically decorated than for several years past, and there was a larger and gayer flotilla. The dresses of the women were mainly of white, pink or blue muslin, and were more graceful than are usually seen at Henley. Phyllis Court and club-land were filled with visitors, and the river spectacle, with its environments of verdant meadows and woodland, was one of entrancing beauty and variety. There were thirteen races in perfect weather.

The Leander crew, which ordinarily secure the grand challenge cup with ease, will be forced to work for it this week. They won their first heat with Kingston comfortably, but the Argonauts of Toronto made better time in the second heat, which was taken in a most workmanlike way from University College, Oxford. Titus, from New York, spurting midway in the course, was three lengths ahead of the field of Oxford in the finish of the heat for the Diamond sculls, but the time was so much behind that of the winners in the other heats that his success in the final round seems unlikely. There was a large attendance of American and Canadian visitors.

SCHOLES FOUGHT TITUS HARD.

The press comments on the sculling race at Henley between Scholes, of Toronto, and Titus, of New York, are agreed that it was a well fought and well won contest.

The Times says it was a hard struggle, and a splendid, well-judged race.

The Sporting Life says it was a grand race to the upper end of Phyllis Court, then Titus fairly spurted in front; Scholes responded gamely, but could never get on even terms again.

The Leader says it was as great a race as has ever been witnessed at Henley.

The Daily Telegraph says at half-way Scholes seemed labouring more than Titus, still both were doing their best. At Phyllis Court Titus began one of the finest spurts ever seen, and won. He had the Canadian beaten at the grand stand, one hundred feet from the finish. If Scholes had not stopped before the finish, completely rowed out, the margin would not have been a length. The time shows how hard was the struggle. Both men steered beautifully.

Tom Sullivan, in a talk over the race, said that if to Scholes' strength was added the tact of Titus the Canadian would have beaten a dozen like the latter. It was the superior skill and judgment of the New Yorker that won him the race. Messenger, the Australian, who trained Scholes, says that a couple of months' systematic training would make Scholes the cleverest kind of a sculler. Scholes, himself, says he never rowed so hard a race and that on reaching within two hundred yards of home he remembers nothing after.

Titus said he thought it was a case of "gone" with him after the three-quarter mile was reached, but looking round later he thought Scholes wore a worried look, which prompted him to make the spurt he did. He admitted that he was clean rowed out at the finish.

YACHT LA RITA THE LIPTON CUP WINNER.

Over a Twelve Mile Course Like for Seawanhaka Cup.

CHICAGO, July 9. — La Rita, George R. Peare's 20-foot cabin yacht, took the third and final race of the series for the Lipton trophy. La Rita captured the entire series, finishing with a percentage of 300. She won Monday's race easily, although on actual sailing time she was only 3 minutes and 13 seconds faster than Sprite, the only other contestant.

La Rita's time for the 12 miles was [illegible] hours 35 minutes and 15 seconds, Arab [illegible] in the series, was second, with 130 per cent.

Arab IV., which had won second in the preceding races, did not appear for final contest, as her skipper and crew dissatisfied with the percentage all them in Saturday's contest.

Wavelets.

On Saturday afternoon the St. [illegible] Boating Club will hold their seventeenth annual regatta, when the following events will be pulled off: Three-mile sailing skiff; single paddle canoe; half-mile, with turn; single canoe, green, half-mile, with turn; tandem canoe; green; half-mile, with turn; tandem canoe, junior, under 17 years; half-mile, with turn; tandem canoe, open; half-mile, with turn; canoe, six paddles; half-mile, with turn; canoe, four paddles; half-mile, with turn; canoe, four paddles; junior, 17 years and under; double scull, green; pleasure boats, half-mile, with turn; canoe tournament; bamboo lances; canoe, single; paddling in bow; single canoe, double blade paddle; war canoe, half-mile, with turn.

Entries close to-morrow at noon, with Mr. R. T. Hooper, room 30, Windsor Station.

The judges are: W. Cuthbert, G. T. B. C.; W. S. Walker, Longueuil B. C.; F. A. C. Bickerdike, Lachine B. C.; J. B. Tressider, St. Johns, B.C.

Starter—H. C. Bourne.

The Pointe Claire Boating Club's first concert and bonnet-hop of the season will be held this evening at the boat-house. The programme is as follows:

Overture.. .. .. Miss Riley-McIntyre.
Song.... ....Mr. H. A. Fromings.
Song .. ..Miss Charlotte Bacon.
Violin Solo............ .. .. Miss Tooke.
Song .... Miss Marie Terroux.
Instrumental Duet.. ....
Messrs. Walker and Hanson.
Musical Sketch .. .. Mr. W. R. Spence.
Original Turn . . . .Messrs. Skill and Chilas.

A 'bus load of pleasure-seekers are expected from Lachine, also one from Beaurepaire and St. Anne's, and as the summer residents at Pointe Claire and Beaconsfield are more numerous than ever this year, the officers of the club expect that this evening's concert and dance will be the most successful in the club's history.

GOLF

THE CHAMPIONSHIPS.

Entries for United States Amateur Event Close.

NEW YORK, July 9. — The entries for the amateur championship will close to-day, and enough names have come in to assure the success of the event from a numerical point of view. As was to be expected, considering where the championship is to be held, the western entry will be a large one, no golfer of that section who has the slightest chance having refrained from entering.

There will be some notable absentees, as there always are. In all probability Finley S. Douglas will not be among the players, business reasons interfering with his presence. Douglas has played in the last five championships, having the enviable record of one win, and runner-up on two occasions. So far he has not sent in his name, but there are still twenty-four hours in which he can change his mind, and it is to be hoped he will do so. On Wednesday the committee of the United States Golf Association will pair the players.

TENNIS.

CANADIAN TOURNAMENT.

NIAGARA-ON-THE-LAKE, Ont., July 9. — The Canadian championship lawn tennis tournament opened here yesterday afternoon on the courts of the Queen's Royal Hotel. The green is in fine condition, weather fine, and everything points to a most successful meeting. The feature in yesterday's event, the men's single, was the match between Reuben Hunt, of California, and E. R. Paterson, of Toronto, Paterson finally winning after a very close and exciting game. The scores for the day's play follow:

Men's single, preliminary round—E. R. Paterson, Toronto, beat R. S. Hunt, Sanford University, 7—5, 2—6, 10—8; A. C. McMaster Toronto, beat H. C. Boultbee, Toronto, 6—3, 6—3; E. P. Fischer, New York, beat E. S. Glaseo, Hamilton, 6—2, 6—1.

First round Beals Wright, Boston, beat A. N. MacDonald, 6—2, 6—4.

Rain and sweat have no effect on harness treated with Eureka Harness Oil. It resists the damp, keeps the leather soft and pliable. Stitches do not break. No rough surface to chafe and cut. The harness not only keeps looking like new, but wears twice as long by the use of Eureka Harness Oil.

Sold everywhere in cans—all sizes. Made by Imperial Oil Company.

THE TURF

CANADIAN HORSE WAS DEFEATED

Harold H. Could Not Keep Up With Dan Patch.

SOME GOOD RACES AT WINDSOR

Ethics Won at Brighton Beach in a Desperate Race With Kilogram Yesterday Afternoon.

WINDSOR, Ont., July 9—Fully five thousand attended the second day's racing of the Windsor Driving Park Association yesterday. The weather was perfect, and the track in good condition, despite the heavy rain of yesterday afternoon.

In the match race between Dan Patch and Harold H., the horses got away evenly after the third score, with Harold H. leading at the quarter. There Dan Patch overtook him and led by an open length all the way around, winning the first heat in a pull. The second heat was Dan's race from start to finish.

First race, 2.17 trot (unfinished yesterday)—
The Roman, R. C. Benson & Co., Kansas City 1 1 1
Prince Selma, M. E. McHenry, New York 2 2 3
Silver Heart, Kansas City 8 5 5
Sybil H., J. E. Goldberg, Detroit .. 4 4 2
Nut Bearer, W. O. Foote, Dallas, Texas 5 3 4
Time—2.12 1-4, 2.10 1-2, 2.14.

Second race, 2.15 pace—
Frank A. C., Pennock, Glenville, Ohio 1 1 1
Major C. F. J. Marvin, Fort Wayne, Ind... .. .. 2 4 4

Time—2.15 3-4, 2.15, 2.13 1-2, 2.17 1-4.

SOME GREAT WORK AT BRIGHTON BEACH.

Ethics Came in Lively in Jamaica Stakes.

NEW YORK, July 9.—In a hurricane finish C. F. Dwyer's Ethics won the Jamaica Selling Stakes by a nose yesterday at Brighton Beach. The race was at one mile and a sixteenth, and Tommy Burns rode his best finish of this year. Kilogram was favourite, and Wonderly let him go to the front. Rounding into the home stretch Ethics challenged, and it was a desperate drive between the two, with the result in doubt until the numbers were posted. Ethics won, with Kilogram second and The Rival third. Blues, at 1 to 20, won the third race in a gallop. Summary:

First race, 3-year-olds and up, 6 furlongs—The Amazon, 110, Doggett, 7 to 1 and 5 to 2, won; Belle of Lexington, 110, Odom, 7 to 2 and 6 to 5, 2; Star of the West, 100, McFadden, 40 to 1 and 12 to 1, 3. Time, 1.13 1-5. Barouche, Torchlight, Petra II., Moranda, Vesuvia, Hebron, King's Favourite, Avis, Wissendine and Biserta also ran.

Second race, for 2-year-olds, selling, 5 furlongs—Cinquevalli, 107, O'Connor, 2 to 1 and 7 to 10, won; Fort Wayne, 105, Wonderly, 3 to 1 and even, 2; Pardarm, 107, Rice, 8 to 1 and 3 to 1, 3. Time, 1.00 3-5. Right and True, Red Knight, Northern Light, Cincinnatus, Petit Blue, Australia and *Ann Daly also ran. *Ann Daly fell.

Third race, 3-year-olds and upwards, 1 1-8 miles—Blues, 126, Shaw, 1 to 20 and out, won; The Regent, 103, H Michaels, 12 to 1 and 1 to 8, 2; Military, 106, Hyland, 200 to 1 and 4 to 1, 3. Time, 1.53 3-5. Anna Darling also ran.

Fourth race, the Jamaica Stakes, selling, for 3-year-olds and up, selling, 1 1-16 miles—Ethics, 106, T. Burns, 2 to 1 and 2 to 5, won; Kilogram, 101, Wonderly, 11 to 10 and 1 to 3, 2; The Rival, 109, O'Connor, 3 to 1 and 4 to 5, 3. Time, 1.45 4-5. Rightaway also ran.

Fifth race, 2-year-olds, 6 furlongs — Hurstbourne, 112, O'Connor, 4 to 5 and 1 to 3, won; Prediction, 112, Shaw, 9 to 5 and 1 to 2, 2; Athelroy, 112, Landry, 12 to 1 and 4 to 1, 3. Time, 1.13 2-5. Dr. Saylor and Toscan also ran.

Sixth race, 3-year-olds and up, selling, 1 1-16 miles—Potente, 107, Wonderly, 11 to 5 and 6 to 5, won; Henry Clay Rice, 110, T. Burns, 6 to 1 and 5 to 2, 2; Lone Fisherman, 110, O'Connor, 8 to 1 and 3 to 1, 3. Time, 1.47 3-5. Philippine, C. Rosenfeld, Gulden, Nionia, General Mart Gary, Candling, Goldilla, Alsike, Cigar, Kinnikinnic and Bounteous also ran.

The Racing at Fort Erie.

FORT ERIE, Ont., July 9.—Weather clear and track slow. Summary:

First race, 6 furlongs, for 3-year-olds and up, selling—Bob Baker, 109, L. Thompson, 8 to 1, won by a length; Ocie Brooks, 104, McClusky, 6 to 5, second; Little Chico, 104, Minder, 2 to 1, third. Time, 1.16. Also Ran II, Vitura, Nannie J. and Maggie W. finished as named.

Second race, 4 furlongs, for maiden two-year-olds, fillies—Heroine, 105, L. Thompson, 8 to 7, won by 2 lengths; Hallucination, 103, Adams, 2½ to 1, second; Enhance, 103, Gormley, 6 to 1, third. Time, 50¼. Trapean, Samie Mac, Flora Hopper, Jet, Dusky Secret, Indian Child, Edna Fitzallen, Sir Foam, Bessie Simpson, Mamie Rielly and Dinero finished as named.

Third race, 6½ furlongs, for 3-year-olds and up, selling—Taxman, 105, Adams, 4 to 1, won by a length; Carrie I, 101, Minder, 4 to 1, second; Cad Hazel, 109, McCluskey, 1 to 2, third. Time, 1.22¼. The Bronze Demon, Picktime, Cormac, Anhaga and Earl Fonso finished as named.

Fourth race, 6 furlongs, for 4-year-olds and up, selling—Oconee, 104, McQuade, 8 to 5, won by five lengths; Arachue, 102, Castro, 8 to 5, second; Ecome, 109, Brennan, 5 to 1, third. Time, 1.16¼. Sister Kate II, Maria Bolton, St. Sidney, Cherry Wild and Horse Shoe Tobacco finished as named. Horse Shoe Tobacco barred in betting on account of bad actions at post.

Fifth race, 5 furlongs, for 2-year-olds—Shina, 100, J. Jones, 10 to 1, won by a head; All Souls, 100, Gormley, even, second; Sir Gallant, 108, McQuade, 2 to 1 third. Time, 1.02½. Dinksie, Flora, Willoughby, Blanco, Stunts, Gorrie and Shay finished as named.

Sixth race, one mile, for 3-year-olds and up, selling—Sprung, 104, M[illegible] 10 to 1, won by a length and a half; W. Curtis, 111, [illegible] J. T. Wood, 10 to 1, second; [illegible] Buffalo [illegible] C. Kelly, 15 to 1, third. Time, [illegible] lence, Lathrop, Colonel And[illegible] chuck, John Potter, Bell Co[illegible] Pretty Rosie and Rathlin finished as named.

Hoofbeats.

There is a possibility that Gold Heels, the champion horse of this season, may yet race in England, together with Major Dangerfield and others of the McLewee string.

There were 108 races run during the Sheepshead Bay meeting. Of these 51 were won by the first choices, and 26 by the second choices, a record that is not likely to be equalled again during the season.

Sydney Paget is the owner for whom John J. McCafferty will train a string of horses, and among those in his charge will be the yearlings recently purchased at the Haggin sale. It is understood that he will receive a salary of $10,000.

Gold Heels and Major Dangerfield have won a lot of money in stakes this year for Gen. F. C. McLewee and his racing partner, James Brady. Major Dangerfield won the $10,000 Brooklyn Derby, the $20,000 Tidal Stakes and the Realization, the winner's share of which was about $13,000 Gold Heels won the $10,000 Suburban Handicap, the $5,000 Advance Stakes and the $10,000 Brighton Handicap. In round figures these two horses turned over close to $70,000 to their owners, which in itself is something of a record.

Aladdin, winner of the Oakwood handicap and the Sheridan stakes, added the Drexel stakes to his list of victories yesterday afternoon, when he defeated a small and rather ordinary field at Washington Park, Chicago. The best 3-year-olds eligible for the event, Aladdin excepting, failed to accept the issue, and perhaps the heavy track was responsible. Aladdin was a 3 to 5 favourite, but he did not look like such until the stretch was reached, inasmuch as he was back in the bunch until that part of the race. In the home run, however, Aladdin responded to the whip, and passed Jack Rattlin and South Terrible without difficulty. Hunter Raine also came fast through the stretch, and but for swerving badly, which necessitated Lyne pulling him up, he might have given Aladdin a stout argument at the finish. He captured second money from South Terrible.

ATHLETICS

POLICE ATHLETES

The Official Programme and Races for the Games on the 23rd of This Month.

The sixth annual tournament of the Montreal Police Amateur Athletic Association will take place on the 23rd inst., on the M. A. A. A. grounds. As will be seen the programme of events is a long one, and a fine day's sport should be guaranteed. Following are the events.

1—Throwing the 56 lbs. high throw) open to Canadian police forces.
2—Running broad jump, open to Canadian police forces.
3—200 yards run, 20 years service and over.
4—100 yards run, open to Canadian police forces.
5—Throwing the 16 lbs. shot, open to Canadian police forces.
6—Two mile bicycle, race, open to Canadian police forces.
7—Quarter mile run, open to Canadian police forces.
8—100 yards run, open to fat men, 225 lbs., and over.
9—Throwing the 56 lbs. (long throw), open to Canadian police forces.
10—Three mile bicycle race, open to all amateurs.
11—Half mile run, open to Canadian police forces.
12—Throwing the 16 lb. hammer, open to Canadian police forces.
13—Three mile bicycle race, open to Montreal police force.
14—Running hop-step-and-jump, open to Canadian police forces.
15—Throwing the 7 lb. weight, open to Canadian police forces.
16—Standing broad jump, open to Canadian police forces.
17—100 yards run, open to Montreal police force.
18—Wrestling match, open to Montreal police force. (Catch-as-catch-can.)
19—One mile run, open to Canadian police forces.
20—Consolation race, open to Canadian police forces.

REGULATIONS.

Competitions will be governed by the rules of the Canadian Amateur Athletic Union, except the bicycle races, which will be governed by the rules of the Canadian Wheelmen's Association.

A championship gold medal will be given to the competitor making the highest number of points in the following events: 1, 2, 4, 5, 6, 7, 9, 11, 12, 14, 15, 16 and 19, which are open to all Canadian police forces. A first prize will count three points, a second two, and a third one.

All entries must be registered with the secretary not later than 6 p.m. Wednesday, the 16th July.

Games will commence at 2 p.m. sharp, and the order of events as recorded on programme will be strictly adhered to.

The committee reserves the right to reject any entry, or to call upon any competitor for proof of amateur standing, should they deem it necessary.

Competitors must appear dressed in proper athletic costume. Numbers will be furnished on the grounds.

An entrance fee of 50 cents will be charged to event No. 10.

All other events free.

Consolation race open to members of Canadian police forces who have competed and failed to win a prize.

A championship gold medal, value $25.

Consolation race, 4 prizes, value $6, $4, $3 and $2.

Event No. 10, 3 prizes, value $10, $7 and $5.

All other events, 3 prizes, value $7, $5 and $3.

N.B.—Visitors and competitors from outside police forces will be the guests of the Montreal P. A. A. A., while attending the games.

MISCELLANEOUS

TO BUILD A SPECIAL AMPHITHEATRE FOR MATCH.

Work of Constructing Structure for Jeffries-Fitzsimmons Match Begins To-day.

SAN FRANCISCO, July 9. — The feeling of uncertainty experienced by James J. Jeffries and Robert Fitzsimmons as to the selection of a site for the holding of the championship battle has been dispersed by the positive announcement of the club people that the contest would be held in a specially constructed amphitheatre at Fourteenth and Valencia streets.

Plans covering every detail of the structure, for the increase in the number of boxes and seats, have been concluded. The ground has been cleared, and the work of erection will commence to-day.

The amphitheatre will accommodate 8,000 spectators, every one of whom, under the arrangement of seats, will have an unobstructed view of the ring. On wooden sides, rising from the ground to a height of 20 feet, will be spread an immense canvas covering, culminating in a peak, supported by an iron post from each four corners of the ring.

WILL BE READY JULY 21.

Alex. Greggains, for the San Francisco Club, said that the building will be up and everything in readiness by Monday, July 21, four days before the match, heavy bonds having been given by the contractor, Gus Faber, to insure this result.

The sale of tickets to the fight, for which there already has been much demand, will not commence until Monday, July 18.

At the end of the week Alex. Greggains will visit the respective camps of Jeffries and Fitzsimmons to acquaint himself with the physical condition of both pugilists. While there he will put on the gloves in short bouts with them both.

BIT OF CRAPE SCARES MAN IN FITZ'S CAMP.

The Big Cornishman Training for All He is Worth.

SKAGGS SPRINGS, Cal., July 9.—"Bob" Fitzsimmons took a new route yesterday morning. He went up toward General Dickinson's ranch. He found the road in a bad condition, and will hereafter hold to his old route. Monday he rested, but yesterday he was back in harness in great shape. After the run and rub-down yesterday morning all hands got together and proceeded to put up a 24-foot ring.

All went well until "Hank" Griffin commenced to stretch the canvas in his corner, when suddenly he sent up a yell that would wake the dead. Every one rushed over to see what was the matter. They found him staring at a black object. His eyes were of the pop-out order.

"Look! look!" said "Hank" under his breath.

"Yes, we see it; it's a piece of rag," said Dawson.

"No," murmured "Hank," "crape."

He has been blue ever since. He thinks there is a hoodoo starting to follow him.

Fitz caught a little cold in his bones during the Fourth of July celebration, but during the rest since that time he has managed to get rid of it, and is feeling in good form again. Yesterday afternoon he was in the "gym" again punching the bag and sparring the boys.

Jeffries' Fine Condition.

HARBIN SPRINGS, Cal., July 9.—Jeffries has now adopted a regular schedule of exercise that, with the exception of Sunday, he intends to adhere to right up to the day of the contest. In the morning, about 6 o'clock, he takes to the road, often going for a stretch of ten miles, and gymnasium work fills in his afternoons.

So earnest has been the champion's work since going into training at Harbin Springs that now, nearly three weeks previous to the contest, he is announced by his trainers as having already attained perfect physical condition.

"Kid" Eagan, representing Jeffries, will leave Harbin Springs in a day or two, en route for San Francisco, for a conference with the club managers having the contest in hand.

McGovern and Corbett.

NEW LONDON, Conn., July 9. — The battle for the featherweight championship between Young Corbett, of Denver, and Terry McGovern, of New York, is assured, so far as the mayor and aldermen of New London are concerned.

CORRECT STYLE.

The Slater Shoe for Women, is as safe to wear, as a "Worth" gown, or a "Poole of London" coat.

Each model is faithfully copied from an original as great, in its line, as the product of "Worth" or "Poole."

Sold in 210 Slater Shoe Stores and Agencies three months after the originals are on view in the highest priced "Custom shops" of London, Paris and New York.

Stamped on the Shoe with Makers price, in a Slate frame,—$3.50 and $5.00.

3 MILES OF PERMANENT WALKS LAID IN CITY DURING PAST YEAR.

Ald. Laporte, chairman of the Finance Committee, has been urging, for a couple of years, the laying of permanent sidewalks in the city. He claims the old wooden walk is a thing of the past; that it is dangerous to health and, in the long run, more costly than the permanent walks. The agitation for permanent walks has led to three miles of them being laid during the past year; this is considered satisfactory in the extreme. In order to encourage proprietors to get permanent walks laid, the city pays half the cost of same. It also advances the money for the work. After it is done proprietors are given a certain time in which to refund their half.

Mr. Donald Downie Explains.

Mr. Donald Downie, of the "Anglo-American Travellers' Exchange, Paris," writes to the Star to declare that the report cabled from Paris a few weeks since, and published in the Canadian papers concerning an attack by a mob upon his premises, was exaggerated. "This exchange never experienced an hour's inconvenience from the assembled mob nor closed its doors for a moment, nor ceased its role of public usefulness," says Mr. Downie in his letter. "I have been told lately that all my enemies are dead. I hope not," is the way in which he expresses his desire that all his former acquaintances in Montreal should be his friends.

Saturday Half Holiday for Bankers.

Merchants and other business men who wish to do banking business on Saturday must reach their bank before twelve o'clock as upon that day the Saturday half holiday for banks will be inaugurated. It is expected that all the larger cities of Canada will follow Montreal's lead in the matter of giving the bank employes a clear half holiday each Saturday.

Canadians and the Coronation.

The London Express prints a diagram of the manner in which the seats were to have been allotted at the Coronation ceremony in Westminster Abbey. Among the names appear the following: "Hon. W. S. Fielding," "Miss Fielding," "Hon. W. P. Borden," "Mrs. Borden," "Sir Wilfrid Laurier," "Lady Laurier."

ST. LOUIS COUNCIL PASSES BREAD BY-LAW LIKE MONTREAL'S.

At last night's meeting of the council, Mayor Gelinas presiding, a by-law was read a first time, fixing the weight of bread at 1, 2 and 4-pound loaves, corresponding to the weight of loaves sold in Montreal.

The question as to whether the amended traders' license by-law could be enforced this year came in for a good deal of discussion. The licenses being issued from May 1 to May 1, several members contended that as the by-law was only passed in the present month of July, it could not have a retroactive effect and could not be enforced during the present year. The clerk explained that he had accepted the license fee conditionally, and issued licenses subject to the passing of the amended by-law.

A petition for incandescent lamps from a large number of citizens on the north side gave rise to a lively debate.

Councillor Godon thought that if the council was powerless to compel the companies now lighting the streets to distribute their lights in a reasonable manner, the streets on the north side should be lighted with coal oil lamps. This would be better than leaving the streets in total darkness.

Councillor Martin said the streets were so dark in some places that he would not attempt to pass there at night.

Councillors Daze and others suggested that the Royal Electric Company be requested to distribute its lights differently, so as to light the town more equally. Others suggested that the town attorney be asked to advise the council as to what steps should be taken to secure an equitable distribution of the light. The matter was referred to the general committee.

A TREATISE ON CANCER

To any one who is suffering from Cancer, tumour or any malignant growth, we will be pleased to send our book "Cancer, Its Cause and Cure," on receipt of two stamps.

This brochure explains fuly the new Constitutional remedy for Cancer, that does away with the necessity of painful operations, pastes and plasters. D. S. Stott and Jury, Bowmanville, Ont. 160 1

British Peers Discuss the Shipping Situation

LONDON, July 9.—Naval matters were a topic of discussion in the House of Lords on Tuesday; Lord Brassey (Liberal) deplored the fact that Great Britain had lost the place she once held with her mercantile marine. The question of subsidies, he thought, must depend on the action of the other powers. All the naval powers of Europe, the speaker asserted, gave liberal subsidies, while President Roosevelt and ex-Secretary Gage had recommended this policy. It was contrary to British policy to foster industries by bounties or protection, but to pay for reserve of auxiliary vessels would certainly be to the public advantage.

THE ADMIRALTY'S DEFENCE.

Lord Selborne, the first lord of the Admiralty, in the course of a reply, referred to the Atlantic shipping combine. He said it seemed to him that the balance was one of disadvantage to the combination, because it necessarily placed very large powers in the hands of a few men. The Government disclaimed any sort of jealousy of the intention of the Americans here. They had an American marine of their own and they had a perfect right to a full share of the Atlantic trade. It should not be an almost British monopoly.

On the other hand, Great Britain could not afford to see herself squeezed out of the Atlantic trade. The Imperial Government's attitude therefore, was not one of hostility but of anxiety, and not until they had formed a final opinion of the whole question could they wisely or fairly enter into agreements with one party or the other. It could never do to rely in time of war on merchant ships of other nations for the purposes of British carrying trade.

VESSELS OF HIGH SPEED.

Great Britain had fallen behind in regard to vessels of high speed because she had not given heavy subsidies like other nations. The expense of so large a subsidy policy was so enormous that, in his opinion the subsidizing of commercial corporations should and must be confined to a limited number and for a special and definite purpose. While merchant cruisers had their proper place in time of war they could never be substituted for naval cruisers, nor would the possession of merchant cruisers ever diminish the ship building vote for the navy.

Morgan's Offer to The Admiralty.

(Special to the Montreal Star.)

LONDON, July 9.—There was considerable speculation in the House of Commons lobby last night with regard to Mr. Morgan's offer to the British Admiralty. Mr. Arnold Forster, stated definitely that Mr. Morgan had offered to place certain British ships in the shipping combine at the disposal of the Admiralty for the next fifty years, but he declined to communicate the terms to the House. Right Hon. J. W. Pirrie, when questioned the other day on this topic by the steamship subsidies committee, simply shrugged his shoulders, but it is clear from the Admiralty Secretary's statement that the combines proposal is now under consideration, as it has not been promptly declined, the shipping members of the Commons are convinced that its terms must be of a tempting nature. At the same time, they consider it beneath the dignity of the greatest sea power in the world to be dependent upon another nation for cruisers.

Lord Selbourne, in the House of Lords, said that the American people had a perfect right to a full share of the Atlantic trade. It was to England's interest that they should have it, and the British Government, accordingly, would not be jealous of an American marine. The Atlantic trade ought not to be an almost British monopoly, but he added, with some significance, that Englishmen could not afford to see themselves squeezed out altogether.

A FURNESS SHIPPING SCHEME.

Meanwhile, there is apparently no limit to the shipping schemes. Sir Christopher Furness only two or three weeks ago acquired a controlling interest in the Gulf Line, and now it is said that he has just secured four ocean liners with the intention of developing the existing service of Furness, Withy & Co., between London and Halifax.

Tells of the Death Of Corporal Howard

The following is an extract from a letter written by Trooper Galt, of the Canadian Mounted Rifles, to a relative of his in this city. It is dated Klerksdorp, South Africa, May 31st, 1902:

"I will devote a few lines in describing our life. Oh, how it jars me to think what a nonentity I am. A notice on the railway station adequately describes our position in society. It says: 'Kaffirs, soldiers or dogs not allowed inside.' All saloons and billiard rooms have the following notice: 'For officers and civilians only.' I really believe a horse is thought more of than a private. They certainly cost more and when we camp at night after trekking all day, we must look after our horses before we feed ourselves.

"I have not been a day sick since landing and I really expected a much harder time than we have had. But, because I speak thus you must not think that we have had a cinch, for some of the men who were out here before with the other contingents say, that, although we have been a little more regularly rationed, we have had just as hard a time as they had. The fight we were in (Hart's River) was just as fierce as Paardeberg, while it lasted, and we also made the record march of the war by covering 100 miles on the same horses in 24 hours—a wonderful feat. A rough estimate of our loss through sickness, killed and wounded or invalided home, would be between 200 and 300. Out of the Montreal quota of 35 we have one dead, and five others either in hospital or on their way home. So you can see that up to date I have been very lucky.

DEATH OF CORPORAL HOWARD.

"I now come to the saddest part of my letter—the death of poor Corporal Howard, which happened on April 27th in Klerksdorp Hospital. He died of enteric fever and not from the results of the wound he received on March 31st. He told me himself that the spot where the bullet had entered had healed up entirely and that where it came out there was only a scab to be seen. I visited him constantly after he was wounded. He was always cheerful, and two days before he died he did not have the least suspicion that he was on his death bed (nor did he look it.) The afternoon before he expired, however, I went in to see him as usual, but all he could say was, 'I can't talk to you to-day, Galt, I am too weak.' The next time I saw him he was sewed up in a blanket and covered with the Union Jack. I had the sad honour of being one of his pall-bearers. I can safely say he was mourned more sincerely than any other man in the company would have been, for in life he was easily the most popular man in the troop. I am proud to be able to say that I was one of his chums. I can only say in closing that I do not think he had an enemy in our regiment. We fixed the grave to the best of our ability, and a couple of days after were photographed around it. The Montreal boys are putting up a monument at a cost of £16.

WAITING FOR INFORMATION.

"We are daily expecting some definite information with respect to our future movements. For quite a while we expected to go to the coronation, but, of course, that is off now as we have not time to get there. We have also had the most persistent rumours of peace for the past month, and I really believe that it is practically arranged in the Transvaal, as we have not taken the aggressive for the past 15 or 20 days. On our last march we took about 400 Boers prisoners, and captured some 1,700 head of cattle. The weather now is quite cold, and it is quite an ordinary thing to wake up in the morning coverd with hoar frost. At the present moment a large prairie fire is raging and it is a grand sight—quite beyond my power to describe it. It looks like a city in flames, and you might as well try to stop the onward flow of the St. Lawrence as try to check its progress.'

IMPERIAL BAZAAR OPENS ON THURSDAY.

Mrs. Adair Will Dispose of One of the Largest Diamonds in the World.

LONDON, July 9.—The Imperial bazaar in aid of the Children's Hospital, will open on July 10. Mrs. Adair, an American, will have for disposal one of the largest diamonds in the world. Mr. J. Pierpont Morgan will lend his recently purchased Gutman collection, which will then be on view in England for the first time.

Belguim's Queen Very Ill.

BRUSSELS, July 9.—La Chronique says that Marie Henrietta, Queen of the Belgians, who has been ill for some time past at Spa, Belgium, has suddenly grown worse, and is in an alarming condition.

Cape Colony Parliament.

CAPE TOWN, July 9.—The Parliament of Cape Colony has been summoned to meet August 20.

AUTHORITIES FAVOUR SURRENDER OF METCALF.

WASHINGTON, D. C., July 9.—The Secretary of State has issued a request for the surrender to the Canadian authorities of Gilbert Metcalf, formerly a railroad operator at Sault Ste. Marie, Canada, who is charged with embezzling about $200, and is now under committment in New Haven, Conn.

Pumping Plant for Cornwall.

CORNWALL, Ont., July 9.—At a special meeting of the Cornwall Town Council, the contract for the new hydraulic pumping plant was awarded to the Goulds Manufacturing Company, of New York and Boston, who agree to furnish a pump with a capacity of one and a half million gallons per day and a Jenckes water wheel set up for $7,490.

Canadian Ill in South Africa.

OTTAWA, July 9.—A message received by the Governor-General, announces that Richard M. Player, a member of the Second C. M. R., is dangerously ill with enteric fever at Johannesburg. Player enlisted at Quebec.

THE NATIONAL COUNCIL OF WOMEN.

Business Concluded at St. John, N. B., and This Afternoon the Delegates Departed for Home.

(Special to the Montreal Star.)

ST. JOHN, N. B., July 9.—At the meeting of the Council of Women, on Tuesday Mrs. Marion B. Baxter, Seattle, Washington, spoke on provident schemes and told of the branches in the United States, British Columbia, North-West Territories, Manitoba, Ontario and Quebec, and she hoped to see branches in the Maritime Provinces.

Miss Weston presented a paper prepared by Mrs. Rose Holden, on old age provisions, superannuations or endowments for women, and presented a resolution that steps be taken to procure the best possible system and for the council to do what it could to bring it into force. An amendment was passed that the National Council, is not ready at present to take up any scheme of insurance for women.

Mrs. McNaughton read a paper, prepared by Mrs. McLean, Montreal, on the benefits of penny saving banks. There was quite a favourable discussion on the question.

Miss Eglaugh introduced a plea for a better inspection by the government of the standard banks. Several other speakers gave their opinions in favour of penny savings banks, but no action was taken.

Mrs. Denard, Toronto, read a paper on the teaching of purity to the young in schools and Mrs. Nicholson Cutler, Toronto, a paper on the highest physical culture.

The council unanimously adopted resolution regretting the resignation of Miss Wilson, as secretary; also appreciating her work and zeal in promoting the work of the council and wishing her success and pleasure during her life.

Miss Wilson thanked the council for the good feelings towards her.

Last night a mass meeting was held in connection with the Victorian order of nurses. Judge Forbes, presided. Dr. Worcester, Walton, Mass., delivered an able address on the work of the order and paid a high tribute to Charlotte McLeod. Reports were read from the different branches in Canada and all showed the order was appreciated and growing. More money is wanted. Mrs. McNaughton gave an account of the work performed in Montreal and returned thanks to the people of Montreal for their generous support.

Miss Schofield, New York, spoke very interestingly on the work of Victorian nurses. Dr. Walker, St. John, also spoke favourably of the work.

Refreshments were afterwards served by the nurses of St. John. This practically ended the work of the council. Secret meetings were held yesterday. The delegates left for home this afternoon. The council will meet in Toronto next July.

Jury Wouldn't Listen to Play.

LONDON, July 9. — Augustus Moore, the author of the play "The Giddy Goat," sued the publishers of the Era, a leading theatrical newspaper for a libel contained in reference to the play. The judge, after the scenes and dialogue had been discussed at great length, expressed surprise at the Lord Chamberlain licensing such a piece. Later on the jury refused to hear the further reading of the play. The plaintiff was awarded damages of a farthing, but the judge refused to allow the plaintiff costs.

Straw Hats at the Opera.

PARIS, July 9.—Owing to the intense heat frequenters of the opera house are allowed to wear straw hats instead of the silk hats, the use of which has hitherto been compulsory.

He Executed Louis Riel.

GLASGOW, Mont., July 9.—John Henderson, who 17 years ago was executioner in the North-West, and who hanged Louis Riel, the leader of the rebellion in 1885, is dead, as the result of an operation.

That nasty feeling of "WHAT A DIFFERENCE IN THE MORNING"

will soon vanish if you take a John Collins made with "Club" Old Tom Gin.

No other Old Tom will settle your stomach and clear your head as quickly as the "CLUB" OLD TOM GIN.

CLUB OLD TOM GIN

It's a *strictly pure* and wholesome Spirit, distilled with aromatic herbs having medicinal properties especially adapted for stomach disorders.

RIDING TO SAFETY OVER ROUGH ROADS

Starlight and Dick Continue to Enjoy the Delights of Freedom.

STEERING BY THE STARS

Cold Weather Did Not Detract From the Pleasures of the Race for Liberty.

(By Rolf Boldrewood.)

CHAPTER XX.—Continued.

"I must bring you something," says he, "next time we call. What shall it be? Now's the time to ask. I'm like the fellow in the Arabian Nights, the slave of the ring—your ring." Here he took the girl's hand, and pretending to look at a ring she wore, took it up and kissed it. It wasn't a very ugly one, neither. "What will you have, Bella?"

"I'd like a watch and chain," she said, pretending to look a little offended. "I suppose I may as well ask for a good thing at once."

Starlight pulled out a pocket-book, and, quite solemn and regular, made a note of it.

"It's yours," he said, within a month. If I cannot conveniently call and present it in person, I'll send it by a sure hand, as they used to say; and now, Jim, boot and saddle."

The horses were out by this time; the groom was walking Rainbow up and down; he'd put a regular French polish on his coat and the old horse was arching his neck and chawing his bit as if he thought he was going to start for the Bargo Town Plate. Jonathan himself was holding our two horses, but looking at him.

"My word!" he said, "that's a real picture of a horse; he's too good for a—well—these roads; he ought to be in Sydney carrying some swell about and never knowing what a day's hardship feels like. Isn't he a regular out-and-outer to look at? And they tell me his looks is about the worst of him. Well—here's luck!" Starlight had called for drinks all round before we started. "Here's luck to roads and coaches, and them as lives by 'em. They'll miss the old coaching system some day—mark my word. I don't hold with these railways they're talkin' about—all steam and hurry-scurry; it starves the country."

"Quite right, Jonathan," says Starlight, throwing his leg over Rainbow, and chucking the old groom a sovereign. "The times have never been half as good as in the old coaching days, before we ever smelt a funnel in New South Wales. But there's a coach or two left yet, isn't there? and sometimes they're worth attending to."

OVER ROUGH ROADS.

He bowed and smiled to the girls, and Rainbow sailed off with his beautiful easy, springy stride. He always put me in mind of the deer I once saw at Mulgoa, near Penrith; I'd never seen any before. My word! how one of them sailed over a farmer's wheat paddock fence. He'd been in there all night, and when he saw us coming he just up and made for the fence, and flew it like a bird. I never saw any horse have the same action, only Rainbow. You couldn't tire him, and he was just the same the end of the day as the beginning. If he hadn't fallen into Starlight's hands as a colt, he'd have been a second-class racehorse, and wore out his life among touts and ringmen. He was better where he was. Off he went; what a ride we had that night! Just as well we'd fed and rested before we started, else we should never have held out. All that night long we had to go, and keep going. A deal of the road was rough—near the Shoalhaven country, across awful deep gullies with a regular climb-up the other side, like the side of a house. Through dismal ironbark forests that looked as black by night as if all the tree-trunks were cast-iron and the leaves gun-metal. The night wasn't as dark as it might have been, but now and again there was a storm, and the whole sky turned as black as a wolf's throat, as father used to say. We got a few knocks and scrapes against the trees, but, partly through the horses being pretty clever in their kind of way, and having sharpish eyesight of our own, we pulled through. It's no use talking, sometimes I thought Jim must lose his way. Starlight told us he'd made up his mind that we were going round and round, and would fetch up about where we'd started from, and find the Moss Vale police waiting there for us.

"All right, Captain," says Jim; "don't you flurry yourself. I've been along this track pretty often this last few months, and I can steer by the stars. Look at the Southern Cross there; you keep him somewhere on the right shoulder, and you'll pull up not so very far off that black range above old Rocky Flat."

"You're not going to be so mad as to call at your own place, Jim, are you?" says he. "Goring's sure to have a greyhound or two ready to slip in case the hare makes for her old form."

"Trust old dad for that," says Jim; "he knows Dick and you are on the grass again. He'll meet us before we get to the place and have fresh horses. I'll bet he's got a chap or two that he can trust to smell out the traps if they are close handy the old spot. They'll be mighty clever if they get on the blind side of father."

"Well, we must chance it, I suppose," I said; "but we were sold once, and I've not much fancy for going back again."

"They're all looking for you the other way this blessed minute, I'll go bail," says Jim. "Most of the coves that bolt from Berrima takes down the southern road to get across the border into Port Philip as soon as they can work it. They always fancy they are safer there."

"So they are in some ways; I wouldn't mind if we were back there again," I said. "There's worse places than Melbourne; but once we get to the Hollow, and that'll be some time to-day, we may take it easy and spell for a week or two. How they'll wonder what the deuce has become of us."

DELIGHTS OF FREEDOM.

The night was long, and that cold that Jim's beard was froze as stiff as a board; but I sat on my horse, I declare to heaven, and never felt anything but pleasure and comfort to think I was loose again. You've seen a dog that's been chained up. Well, when he's let loose, don't he go chevying and racing about over everything and into everything that's next or anigh him? He'll jump into water or over a fence, and turn aside for nothing. He's mad with joy and the feeling of being off the chain; he can't hardly keep from barking till he's hoarse, and rushing through and over everything till he's winded and done up. Then he lies down with his tongue out and considers it all over.

Well, a man's just like that when he's been on the chain. He mayn't jump about so much, though I've seen foreign fellows do that when their collar was unbuckled; but he feels the very same things in his heart as that dog does, you take my word for it.

So, as I said, though I was sitting on a horse all that long cold winter's night through, and had to mind my eye a bit for the road and the rocks and the hanging branches, I felt my heart swell that much and my courage rise that I didn't care whether the night was going to turn into a snowstorm like we'd been in Kiandra way, or whether we'd have frozen rivers to swim, like the head-waters of the M'Alister, in Gippsland, as nearly drowned the pair of us. There I sat in my saddle like a man in a dream, lettin' my horse follow Jim's up hill and down dale, and half the time lettin' go his head and givin' him his own road. Everything, too, I seemed to notice and to be pleased with somehow. Sometimes it was a rock wallaby out on the feed that we'd come close on before we saw one another, and it would jump away almost under the horse's neck, taking two or three awful long springs and lighting square and level among the rocks after a drop-leaf of a dozen feet, like a cat jumping out of a window. But the cat's got four legs to balance on and the kangaroo only two. How they manage it and measure the distance so well, God only knows. Then an old 'possum would sing out, or a black-furred flying squirrel—pongos, the blacks call 'em—would come sailing down from the top of an ironbark tree, with all his stern sails spread, as the sailors say, and into the branches of another, looking as big as an eagle-hawk. And then we'd come round the corner of a little creek flat and be into the middle of a mob of wild horses that had come down from the mountain to feed at night. How they'd scurry off through the scrub and up the range, where it was like the side of a house, and that full of slate bars all upon edge that you could smell the hoofs of the brumbies as the sharp stones rasped and tore and struck sparks out of them like you do the parings in a blacksmith's shop.

Then, just as I thought daybreak was near, a great mopoke flits close over our heads without any rustling or noise, like the ghost of a bird, and begins to hoot in a big, bare, hollow tree just ahead of us. Hoo-noo! hoo-hoo! The last time I heard it, it made me shiver a bit. Now I didn't care. I was a desperate man that had done bad things, and was likely to do worse. But I was free of the forest again, and had a good horse under me! so I laughed at the bird and rode on.

(To be Continued.)

Weak Action of the Heart

Nervous Exhaustion and Dizziness — Hospital Treatment Failed to Help —Cure Brought About by

Dr. Chase's Nerve Food.

Rich blood above all things is necessary to health and strength. Without it the nerves are starved and depleted, the action of the heart, as well as of the other bodily organs, becomes weak and irregular, and gradually health and vitality waste away. That Dr. Chase's Nerve Food is effectual treatment in such cases is evidenced by this letter from Mr. Lidgate:

Mr. Joseph Lidgate, laundryman, 21 Anderson street, Montreal, Que., states:

"My whole nervous system seemed exhausted and unstrung, and I was so bad at times and I would become so dizzy that I could hardly stand on my feet. The least extra excitement brought on weak action of the heart and palpitation. I went to the hospital several times, but did not seem to derive any benefit. Hearing of Dr. Chase's Nerve Food, I resolved to try this remedy, and although I have only taken a few boxes I can say that I have derived more benefit from this preparation than from all the other medicines which I got from the doctors at the hospital."

Dr. Chase's Nerve Food, 50 cents a box, six boxes for $2.50, at all dealers, or Edmanson, Bates & Co., Toronto. 160 1

THE NEW FRENCH REMEDY

TRADE THERAPION MARK.

This successful and highly popular remedy, as employed in the Continental Hospitals by Ricord, Rostan, Jobert, Velpeau, and others, combines all the desiderata to be sought in a medicine of the kind and surpasses everything hitherto employed.

THERAPION No. 1 in a remarkably short time, often a few days only removes all discharges from the urinary organs, superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases.

THERAPION No. 2 for impurity of the blood scurvy, pimples, spots, blotches, pains and swelling of the joints, secondary symptoms, gout, rheumatism, and all diseases for which it has been too much a fashion to employ mercury, sarsaparilla, &c., to the destruction of sufferers' teeth and ruin of health. This preparation purifies the whole system through the blood, and thoroughly eliminates every poisonous matter from the body.

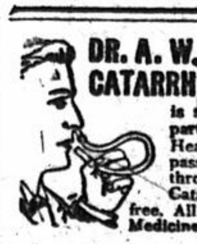
THERAPION No. 3 for nervous exhaustion, impaired vitality, sleeplessness, and all the distressing consequences of early error, excess residence in hot, unhealthy climates, &c. It possesses surprising power in restoring strength and vigour to the debilitated.

THERAPION is sold by all the principal Chemists and Merchants throughout the World. Price in England 2/9 & 4/6. In ordering, state which of the three numbers is required, and observe above Trade Mark, which is a fac-simile of word "THERAPION" as it appears on the Government Stamp in white letters on a red ground affixed to every package by order of Her Majesty's Hon. Commissioners, and without which it is a forgery.

For further particulars of Therapion send addressed envelope for pamphlet to Mr. R. Johnson, 43 Holford square, London, W. C., England. Large Edition (152 pages), post free, for twelve cents stamps.

Sold by Lyman Bros., and Co., Ltd., Toronto.

1 104 2aw



DR. A. W. CHASE'S CATARRH CURE ... 25c.

is sent direct to the diseased parts by the Improved Blower. Heals the ulcers, clears the air passages, stops droppings in the throat and permanently cures Catarrh and Hay Fever. Blower free. All dealers, or Dr. A. W. Chase Medicine Co., Toronto and Buffalo.

From the above figures are excluded several thousand subscriptions regarded as more or less ephemeral.

WEDNESDAY, JULY 9, 1902.

The Star at Summer Resorts.

The Star is mailed to any address in Canada or the United States direct from the office of publication for any period desired at city rates.

Orders for the Star by the week, fortnight, month or year may be left at either the head office, St. James street, or at the branch office, corner Peel and St. Catherine.

Cash must accompany all mail orders. No extra charge for postage. tf

THE WALLS OF MONTREAL.

The Coronation Tattoo held on the M. A. A. A. grounds last night has had one good effect. It has, we rather think, staggered the world by its revelation of Montreal's military strength. The programme shows that on the General Committee were no less than forty Montreal lieutenant-colonels, besides four honorary lieutenant-colonels. It is just as well for Uncle Sam to know what he is up against if he gets sassy on the Yukon boundary question. The Ancient and Honourable Artillery Company of Massachusetts will soon have to take up a sedentary position at the rear. Our gallant lieutenant-colonels are the walls of Montreal and every man is a brick.

A CANADIAN HALL OF FAME.

Rev. S. G. Bland, of Ottawa, wants a Canadian Pantheon where we may erect tablets to our heroes.

This is, probably, as near an approach to a Colonial Westminster Abbey or St. Paul's as we can hope for until Canada is very much older; and it would certainly have a stimulating effect on patriotism and other civic virtues if there were a Hall of Fame in the national Capital, where the Canadian great were remembered. Toronto has something of the kind in its Normal School building, where they erect busts to the leading sons of Ontario; but what is needed is a national institution where men who deserve well of their country shall have a place.

When we leave it all to statue-raising in the public squares, few are apt to secure recognition save great warriors or politicians; but, in a Hall of Fame, tablets could appear to heroes in private life, such as young Harper, who died for his companions in the icy Ottawa last winter, and to poets, such as Archibald Lampman, and to generous philanthropists, such as several whose names are happily not yet ready for inscription on any mural memorial. Many a Briton has been spurred to great deeds by the spirit of the historic cry—"Victory or Westminster Abbey!" and it would be an inspiring thought to many a Canadian to remember that if he wrought well in the public weal, his name would endure in marble in the calm halls where Canada enshrines her worthiest.

TROUBLE FOR THE TRUSTS.

President Roosevelt's speech at Pittsburg on the Fourth was a pretty fair intimation that the Democratic party will not have the undivided advantage of being the anti-trust party in the next Presidential campaign. Mr. Roosevelt's speech was marked by moderation. Yet there was a firm tone in it and an intimation that legislation was being prepared by the administration to protect the people against the possible evils of the great combinations of capital, which are causing so much apprehension.

He sounded an ominous note of warning when he said, speaking of the Attorney-General, "We need what Mr. Knox has shown—the character that will refuse to be hurried into any unwise or precipitate movement by any clamour, whether hysterical or demagogic, and, on the other hand, the character that will refuse to be frightened out of the movement which he thinks it right to undertake by any pressure, still less by any threat, expressed or implied."

The new conditions required not revolutionary, not radical treatment, but to be approached in a spirit of common sense, common honesty, and a resolute desire to face facts as they are. "We will need," he said, "new legislation, but, while laws are important, it is infinitely more important that they should be administered in accordance with the principles that have marked honest administration from the beginning of history."

It is no easy task to deal with great industrial tendencies. To deal with them in a spirit of rash folly, and above all to deal with them in a spirit of envy, hatred and malice, would be to invite disaster, a disaster which would be so widespread that the country would rock to its foundations. The Government could do nothing or only do damage by trying to achieve the impossible. But his fact, in Mr. Roosevelt's view, would not excuse them for failure to strive to do what was possible. Legislation is necessary, legislation of municipal, state and national bodies, but above and beyond all legislation what was needed was honest and fearless administration of the laws, in the interests of neither the rich nor the poor as such, but in the interest of exact and equal justice to all alike.

The fact that such an administration as that of Mr. Roosevelt has undertaken to grapple with so momentous a question as this, and that the bill to be introduced by Mr. Littlefield at the opening of next session will have the stamp of the administration's approval, cannot fail to attract world wide attention. Mr. Roosevelt has won the reputation of being a fearlessly sincere man, and his speech on this occasion was certainly not mere "flapdoodle," to catch the popular ear for the moment.

THE BURDEN OF CHARITY.

Let no one suppose that we speak of charity as a burden. Charity may, indeed, sometimes involve burdensome efforts; but, where the spirit of charity exists, the burden is not felt. It is where alleged "charity" is wrought to satisfy the opinion of others that there is secret groaning over the burden. What we refer to is the burden that charity has to bear in doing its work, owing to the crowding in on it of persons who have no claim whatever to the help dispensed. Every one who has practical acquaintance with charitable effort knows to what extent this crowding in takes place. In a certain city coal was being distributed by some benevolent organization; and a committee of ladies was formed to visit the houses of the recipients. In one case two particularly strong, healthy women, sisters, both of whom were earning good wages, had been supplied. When asked why they had made application for a relief that was only intended for the poor and helpless, they said that some one else had got it who was just about as well off as they were, and that they thought they might as well get it too. The visitor then said she thought their pride would have stood in the way of their taking what was given simply as alms; to which the reply was: "You can have the pride, Miss, and we'll take the coal."

SOWING SEEDS OF POVERTY.

"Somebody else had got it"—that was the key of the situation; and that somebody else would doubtless have referred to another somebody else. It is no wonder under such circumstances that the work of charity should be like the interminable task of the Danaids of the Greek mythology, who had to fill pails out of which the water flowed as fast as it went in. Then think of the blank assertion of indifference to all but material considerations. The idea of a pride that should restrain them from any act of self-abasement when gain is in question excites only contempt. It has not always been so; there have been times when the very poor would struggle might and main to avoid taking relief in any form, and when attempts at private beneficence had to be made in the most guarded way to avoid giving offence. What has made the difference? One can hardly err in tracing it to the great increase of philanthropic sentiment and activity within the last half century. Charity has been so pervasive and so insinuating, so lovingly aggressive that not only has the citadel of pride in the poor themselves been stormed, but a spirit of dependence and of readiness to grasp every thing in sight has been developed in a large area far outside the region of poverty. This is, perhaps, a yet more serious burden of charity. It is bad enough to have the leaks; but it is worse to reflect that every leak represents a decayed self-respect, a virtual repudiation of all higher principles of conduct. The stories told of the ruses that people in good positions in society adopt to obtain advantages supplied by charity and meant only for the very poor are almost past belief. In face of the facts we are compelled to believe that the charity which, in some cases, helps to build up the poor and raise them to a better life, in others, many others, tends to unbuild and disintegrate character and thus to sow the seeds of future poverty. Which of these two tendencies is the more powerful? Who can say?

TRUE CHARITY.

Charity is beautiful when it is sincere. We are told that a man may give all his goods to feed the poor, and yet not have charity; and amongst the characteristics given of charity in that most memorable description of it in which this statement occurs, there is not one word said about alms-giving. There is much, on the other hand, said about patience, self-restraint, modesty. Charity does not "vaunt itself." How much of modern "charity"—which we must put in quotation marks—does vaunt itself! To come back to our main point, however, the burdens of charity, as administered in the modern world, are very serious. It may be said to rob Peter to pay Paul. The remedy would seem to be—more charity. Not more charity in the shape of more abundant funds for distribution, for that would only mean an increase in the number of illegitimate claimants; but more charity in the true apostolic sense, more subjugation of self, more faithfulness to duty, a stronger sense for truth. For the most part it is the organized machine-made charity that encounters disastrous reactive movements we have spoken of. Charity in its purity knows little or nothing of such burdens, for what burden can attach itself to simple kindliness, free from all inferior motive, and speaking from heart to heart!

Prof Newell, of the Moody Institute, who is conducting Bible classes in Toronto, says that the present age is marked by two things—"a breaking down of the lines between denominations and an ignorance of the Bible even among church-going people." It would almost seem from this that, in the days when the denominations were accustomed to hammer one another more than they do now, the Bible was more resorted to as an arsenal of proofs. Now that theological rivalry has in a great measure ceased, men are seemingly content to let their ministers enjoy a monopoly of Biblical knowledge. The change is not a happy one; be the ministers never so faithful they cannot answer for the civilization or religion of a nation.

The United States Secretary of State has issued a request for the surrender to the Canadian police of Gilbert Metcalf, formerly a railway employe at Sault Ste. Marie. He is charged with embezzling $200. As the man is only accused of taking $200, it may be inferred that he is poor and there seems to be nothing in the way of his extradition. Now if he had been accused of helping himself to a few millions he would have had a better chance. Justice is so blind.

The Canadian teachers sent to the South African concentration camps are not likely to die of starvation. One of them writes back to the Toronto Star that they get seven meals a day, beginning with a delicious cup of coffee brought to the tent at 6.30 a.m. and ending with cocoa and scones at 9 p. m. Still they manage to get time for four hours' teaching during the day, and a dance once a week. The only persons who seem to have any real grounds of complaint against the concentration camps are the British tax-payers who have to foot the bills.

Mr. Joseph A. Choate, United States Ambassador to England, has been informally nominated by an enthusiastic admirer for the Presidency of the United States. We fear Mr. Choate has put himself out of the running. He has been seen in London wearing knee-breeches.

PUBLIC OPINION

As Represented by the Political Papers.

POLITICIANS AND TITLES.

(Toronto Telegram—Ind.)

There is not a Canadian in politics at Ottawa or Toronto who is not eaten up by anxiety to have his name decorated at both ends.

We are a nation of Sim Tippertits. We have "innard workings above our station." Australia is far enough away from the United States to be really democratic. Canada is so close to the United States that the pure and holy standards of our early democracy have been corrupted by the ideals of American plutocracy.

Every Canadian politician is just as anxious to be the recipient of a title as every American girl is to be the bride of an English duke.

ENGLISH LIBERALS AND THE COLONIES.

(Vancouver Province—Lib.)

The policy of the English Liberals towards the position adopted by the Government in regard to the colonies is passing from an attitude of passive opposition to one of active hostility. The English Liberal of the ordinary type, in his desire to make a point against the Government with the people at large, is assailing more and more violently the tax on corn, which he claims is intended as a sop to the colonies, and is a precursor of further burdens, with the same intention, to be imposed upon the British workingman. The English Liberal is therefore assuming an attitude more and more decidedly anti-colonial, and if it continues, we may before long expect its members to reach the same conclusion which was arrived at by the Liberals during the early part of the last century—that Great Britain would be better without her colonies.

THE ONTARIO CONSERVATIVES.

(Toronto Mail and Empire—Con.)

Enthusiasm pervaded the Liberal-Conservative convention. The gathering was an assembly, not of defeated men, but of victors who have fought a good fight for the people, who have the majority of the electors with them, and who are determined to continue the contest until the twin evils, machine domination and minority rule, shall be no more. While the convention was enthusiastic for the popular cause, it was especially so for its leader, Mr. Whitney. It recognizes in him the statesman to whom Ontario looks in this crisis. Chosen by the people to reform the administration of their affairs, and to give a progressive policy, he is as yet excluded from the duties and responsibilities to which he has been called; but it is felt that this unparalleled situation cannot last long. When the machine work so prominent in the recent contest is traced, and is undone, as it surely will be, the usurpation will end, and the command of the electorate will be obeyed.

THE COLONIAL CONFERENCE.

(N. Y. Commercial Advertiser.)

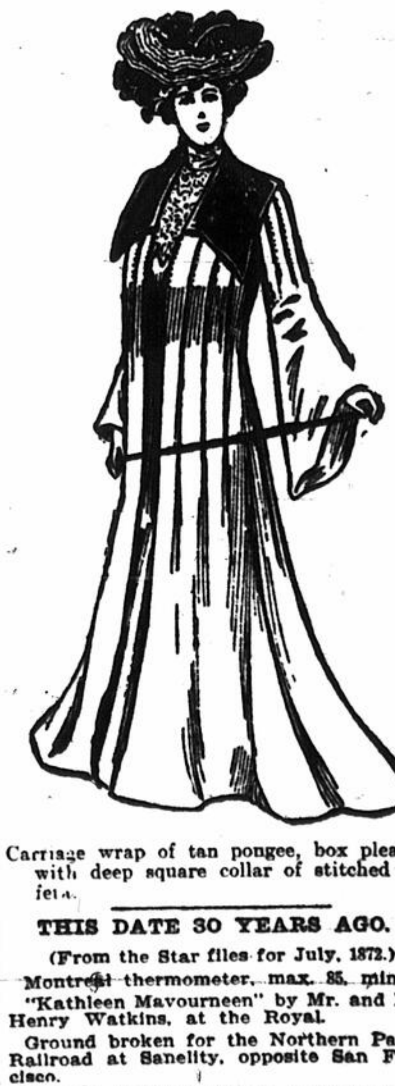
The conference of colonial Premiers in London promises to be a very important gathering, with far-reaching results. Even if it adjourns without any momentous conclusion being reached in regard to preferential tariffs, provision is likely to be made for a continued consideration of the question. It has been widely reported in the colonies that this conference is to be only one of a series, and that a permanent council may be developed from the efforts now being made to bind the colonies and the mother country more closely together in regard to trade matters. It is evident from the list of topics proposed for the conference that the preferential idea is, on the whole, favoured by the colonies, who have in this respect a strong sympathizer in Mr. Chamberlain. They would all like to get a preferred footing in the British market, and it remains to be seen whether their many clashing interests, as represented by differing tariff systems, can be harmonized so as to permit of being considered as an intelligible whole. Mr. Chamberlain evidently intends to pursue his own course in spite of the opposition that may be expected from Sir Michael Hicks-Beach, and, so far as he can encourage the preferential idea, all the influence of his official position and of his reputation as an imperial statesman will unquestionably be exercised in its behalf.

THAT SETTLES IT.

(New York World.)

The World, and Americans generally, favour arbitration of every open, unsettled question, but the eastern boundary of Alaska is as clear, as definite and until recently as unquestioned by all the world as the northern border of Vermont.

A DAILY HINT FROM PARIS.



Carriage wrap of tan pongee, box pleated, with deep square collar of stitched taffeta.

THIS DATE 30 YEARS AGO.

(From the Star files for July, 1872.)

Montreal thermometer, max. 85, min. 64.

"Kathleen Mavourneen" by Mr. and Mrs. Henry Watkins, at the Royal.

Ground broken for the Northern Pacific Railroad at Sanelity, opposite San Francisco.

The old military church, Gosford street, opened by M. Larin, with a variety troupe. The place has been fitted up with mirrors, statuary, etc.

Municipality of St. Jean Baptiste Village, in consequence of a notification that Montreal was going to shut off their water supply, resolve to excavate a reservoir of their own upon Louis Beaubien's property.

Appointments This Evening.

PROCTOR'S—"Lord Chumley."
THEATRE FRANCAIS—"Held by the Enemy."
SOHMER PARK—Ballet and Vaudeville.

THE PASSING HOUR.

If a Canadian contingent is to go to the Coronation when it does occur, General "Larry" Wilson should be commissioned to select a waterproof one.

The cheese we have been sending to England is too "green." They like cheese over there that knows its way about.

The London correspondent who tells of an interview between the court authorities and a leading London hotelkeeper as to the best date for the postponed Coronation, probably saw this item of news "as through a glass darkly."

The figure of Justice on the new Yukon stamps is not blindfolded. Justice probably has to have her eyes about her up in the great mining camp.

They are preparing in London to give Kitchener the liveliest time of his life, if he succeeds in dodging a reception.

There are to be four additional stories on the Windsor Hotel. That's nothing to the stories that are on that hostelry already.

Thirty-two new lawyers have been graduated at Quebec. This is probably with a view to get some men into the business who are not retained in the Gaynor-Greene case.

It is now a question whether a Londoner proves his prominence or his poverty when he mentions in a casual manner that he has "dined with the King."

The Council is bound that if people have to walk the streets with scarlet fever, diphtheria and other social ailments, for lack of a hospital to go to, they will, at least, have some permanent sidewalks on which to promenade.

Apparently some of the Filipinos have not yet heard that peace is declared. The President should take note that a peace can only expect to succeed by the help of judicious advertising.

Perhaps we could borrow the South African censor for our library when they get through with him down there. He is accustomed to shutting out all the most interesting literature.

It is a curious thing that Chamberlain's horse threw him at the Canadian arch. It was Canada that threw him down hard on two of his three questions.

The only real difference between riding a "hansom" and a bicycle is, that you are sometimes to blame yourself when you are thrown over the front of the latter.

Our Coronation contingent went over there prepared to endure most things; but when they found that it rained in England they came right home.

What religion may be perverted into is seen when Indians talk of going on the war-path because they are not permitted to torture themselves as a part of a religious festival.

Call a Westmount woman a duck and she doesn't seem to mind, but call her a hen and she will at once resent the fowl aspersion.

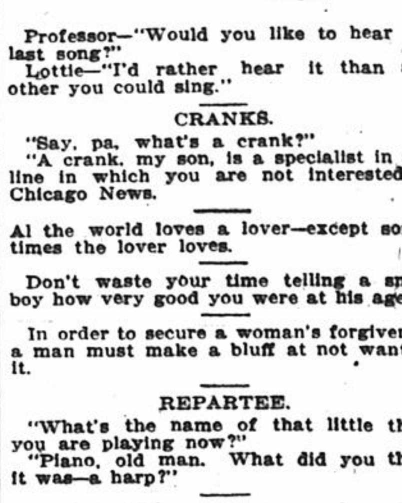
At last the men who have had soda water turning sour on their hands and those who were prepared to put iced lager on the bargain counter are beginning to take heart.

The only thing good about the new potatoes this season is the price, and the green grocers' carrots blush to find themselves above ground.

SAME OLD SEA SERPENT.

ST. VINCENT DE PAUL, Que., July 9.—(Very Special.)—It is rumoured that the sea serpent has been seen in Back River near Casco Beach, Maine, and that the Emperor of Japan has requested an expert Russian anarchist and bomb-thrower, named Gazetsky, to go after the serpent in one of Santos Dumont's airships, place the torpedo on the extreme tip of his dorsal fin, and blow him out of the water.

EQUIVOCAL.



Professor—"Would you like to hear my last song?"
Lottie—"I'd rather hear it than any other you could sing."

CRANKS.

"Say, pa, what's a crank?"
"A crank, my son, is a specialist in any line in which you are not interested."—Chicago News.

Al the world loves a lover—except sometimes the lover loves.

Don't waste your time telling a small boy how very good you were at his age.

In order to secure a woman's forgiveness a man must make a bluff at not wanting it.

REPARTEE.

"What's the name of that little thing you are playing now?"
"Piano, old man. What did you think it was—a harp?"

Teacher—"When water is transformed into ice, what great change takes place?"
Bright Pupil—"The change in price."

Father (after chastising small son—"Next time do as I tell you and then I won't have to whip you."
Tommy—"Papa, can't you get along without telling me next time?"

A little five-year-old miss who had just returned from a month's visit with relatives in the city, said to a village playmate: "I am so used to riding on the street cars that I'll just have to learn to walk all over again."

REALLY DIFFICULT.

Goodman—"You certainly were disgracefully drunk last night."
Hardkase—"Was I? Well, it's pretty hard to do that sort of thing gracefully."
Philadelphia Press.

HOW HE LOST HER.

He hardly dared to touch her hand;
He deemed she was so far above him
That he would never have the sand
To even think that she could love him.

And so he let concealment prey
Upon the cheek he lacked so badly,
And dumbly watched her day by day,
And moped about and acted sadly.

It may be she his secret guessed;
If so, she never seemed to show it.
But then, if love is not expressed
A girl can't be supposed to know it.

She let the foolish fellow call,
He had a crude idea of spooning;
He seemed afraid to talk at all
And sat and took it out in mooning.

Another suitor came at last,
Who was not shy about his wooing;
She knew ere many minutes passed
That lover surely did not linger.

And one week from the day they met
His ring was on her second finger;
Also, the happy day was set—
Thatl over surely did not linger.

And No. 1 he drooped and pined,
Recovered, some time later mated,
And ever after was inclined
To thank his lucky stars he'd waited.

The moral is, when all is done,
Our love we should not hide nor smother,
But, anyway, it's six of one
And half a dozen of the other.
—Chicago Daily News.

THE DOMINION COLLEGE OF MUSIC EXAMINATIONS.

The following are the results of the mid-summer examinations, held in Montreal, Brockville and Ottawa by the Dominion College of Music:

PIANOFORTE PLAYING.

Elementary grade—First class honours,—Bopp, Maud; Engwell, Lillian; Ramsay, Iris; Taylor, Clare. Second class honours—Burns, Mamie; Cornell, Aughena; Duchesneau, Jeanne; Lowden, Grace; Leitch, Jessie; Robinson, Dorothy; Rowan, Jennie J.; Strachan, Eva F.; Williamson, Elsie; Wilder, Kathleen. Pass—Caverhill, Marjorie; Gauthier, Leontine; Joly, Blanche; Robertson, Helen; Smith, Douglas; Van Gilder, Claire.

Junior grade—First class honours—Cooke, Pearl. Second class honours—Aubrey, Eva; Lacombe, Marie L.; Miller, Mary L.; McGoun, Jean; Roy, Ernestine; Sheldon, Sadie. Pass—Blakemore, Gladys; Champagne, Rose; Craig, Mabel G.; Deacon, Teresa; D'Almade, M.; Feeley, Sadie; Keeler, Carrie; Kerby, Grace; Miller, Shirley; Petit, Yvonne; Rocheleau, Julia; Seguin, Eva; Steacey, R. E.; Wallace, Jessie; Watson, Edith; Beaman, Alice and Boyd, Edith.

Intermediate grade—First class honours: Deault, Delia; Echstein, Willie; Letourneau, Antonio; Roberts, Violet. Second class honours: Craig, Edna M.; Birt, Lilly; Ralph, Margaret; Stuart, Lavinia; Wright M.; Buell, Frances; Benson, Gordon H.; Frigault, Rose; Fontaine, Alice; Goodfellow, Muriel; Houghton, Maud F.; Knowles, Herbert; Lipsky, Mamie; Moran, Julia; Nairn, Alice; Patrick, Allan; Robinson, Catherine; Tupper, Fannie; second class honours, Viau, Blanche; Weber, Katie.

Senior grade—First class honours: Brewer, George M.; Belisle, Anna; Garon, Naomi; Murphy, Gertrude; Webber, Katie; Viau, Blanche. Pass: Storey, Lena; St. Louis, Alberta; Jardine L. M. Second class honours: Dixon, M.; Dupuis, Marie M.; De Bellefeuille, Marie L.; D'Amour, Beatrice Geoffrion, Marie; Rigby, M.; Roberge, Eva; Sheldon, Sadie; Yon Yvonne. Pass: Brice, Gertrude; Beaudry, Marie D.; Canavan, Hilda, N.; Deno, Rose; Lachance, Antoinette; Sutton, Lucy; Northup, M.; Richards, F. B.; Samson, Muriel; Joubert, Amelia.

Associate grade—first class honours: Elliott, Nora; Watson, Florence R. Second class honours: Milligan, Daisey, Nelson, Alice D. Pass: Greenway, Edith; Legault, Theona; Macfarlane, Grace.

THEORY OF MUSIC.

Intermediate grade — Second class honours: Morse, Judson, H.; McWood, Ruby.

SINGING.

Senior grade — Second class honours: Lunn, Jessie W.

LICENTATE IN MUSIC.

Results not yet known, as the examiners in England (Mr. C. Charlton Palmer, Mus. D., Oxon., F. R. C. O., and Mr. J. B. Lott, B. Mus., Oxon., F. R. C. O.) have not yet made their report.

Farewell to Rev. C. T. L. Bates.

At a meeting in Dominion Square Methodist Church last night, good-bye was said to Rev. C. T. L. Bates, M.A., who is to leave for China after the meeting of the Methodist General Conference.

In an earnest speech Mr. Bates urged that more earnest measures should be adopted to support missions.

Rev. Dr. Williams made an impressive farewell address to Mr. Bates. It was a solemn moment for him, this going out into a far distant land, but he knew he carried the sympathy of all with him. He was giving up all hope of worldly ease, wealth or honour, but the excellency God would bestow on him would be more than recompense for all these. He had spent years of honest toil in preparing himself for this work; and it was no easy one, and he must continue to grow in the spirit as necessity demanded of him. He went forth with the earnest prayer of all.

Union of Canadian Municipalities.

It is expected that on September 15 the Union of Canadian Municipalities will hold a meeting in this city. The corporation has extended an invitation, and Westmount has also invited members of the Union to come to Montreal for their session. Mayor Lighthall, of Westmount, said last night that the visit of this organization would be an important one. The union represents seventy cities, towns and municipalities from every part of Canada. Mayor Howland, of Toronto, is to bring forward a proposal for the union of corporations of a certain size, with the object of raising money at better rates. This will be a great boon to the smaller towns. A large number of questions about legislation and other matters affecting municipal interests, will be considered.

Sir John Power and Son's "Three Swallows" brand Irish Whisky is deliciously light, refreshing and invigorating. In great favor in London Clubs. 158 eod 42

EDUCATIONAL.

Relieve those Inflamed Eyes!
POND'S EXTRACT
Reduced one-half with pure soft water, applied frequently with dropper or eye cup, the congestion will be removed and the pain and inflammation instantly relieved.
CAUTION!—Avoid dangerous, irritating Witch Hazel preparations represented to be "the same as" Pond's Extract which easily sour and generally contain "wood alcohol," a deadly poison.
160 1

MAN PROSTRATED AND DIED YESTERDAY AS RESULT OF THE HEAT.

Xavier Martineau, carter, 50 years of age, living at 833 Sanguinet street, died yesterday afternoon as a result of the extreme heat. The deceased was engaged in driving a load of stones along Mount Royal avenue, and, when near the intersection of Papineau avenue, he was seen to fall from his waggon heavily to the pavement. Those in the vicinity ran to his assistance and on examination found that he was unconscious. The Notre Dame Hospital ambulance was telephoned for. The physician on his arrival pronounced the case as one of sunstroke. Martineau died while being conveyed to the hospital.

Coroner McMahon was notified and after hearing the circumstances, disposed of the case without summoning a jury.

Visit From Pittsburg Teachers.

Last night there arrived in the city some fifty teachers from Pittsburg. They are visiting various cities in Ontario and Quebec. To-day the visitors were shown the places of interest in the city. They will leave Montreal this evening at 7 o'clock on the Richelieu & Ontario Company's boat for Quebec, where they will spend the day, returning to Montreal to-morrow evening, by steamer. After breakfast they will leave by the 8 o'clock train for Lake Placid, in the Adirondack Mountains, staying for four days at Stevens House, located on the high ground between Lakes Mirror and Placid. Next Tuesday they will leave Lake Placid for Niagara Falls, arriving Wednesday, and after spending the day there will return to their homes.

MEETINGS AND AMUSEMENTS.

ARTIST'S DESIGNS INVITED.

Strathcona and South African Memorial Fund.

It is proposed to erect in Montreal a Monument in honour of the Canadian Soldiers who fought in South Africa, and also to commemorate the patriotic act of Lord Strathcona in the equipment of a regiment of mounted troops for the same service.

The Committee has at its disposal a sum of between Five and Six Thousand Pounds stg. (Twenty-five to Thirty Thousand Dollars), and invites designs for such a monument.

Terms of the competition may be had from Peers Davidson, Esq., London and Lancashire Building, Montreal, or at the Bank of Montreal, 22 Abchurch Lane, London, E.C. 154*8 1aw

Fresh Air Home.

The River Bank Home.

The Home on the Richelieu River at Chambly is now open. Applications for admission may be made to the committee at the Star office, 165 St. James street, on the afternoons of Monday, Tuesday and Wednesday of each week, during the season, between the hours of 2 and 4 o'clock. Every application must be accompanied with a certificate from the clergyman to whose church the applicant belongs. Blank certificate forms may be obtained from the secretary at the Star office.

The Fresh Air Fund is administered by a volunteer committee of men and women, including the city missionaries, interested in the welfare and suffering of children. It is established to take away from the city for a longer or shorter period children and mothers whom the visiting doctor advises to send. It is:

1. For the sick children of the poor.
2. For tired working mothers with children.
3. For children threatened with sickness, and whose parents have not the means to enable them to leave the city.

Five dollars will send a mother and sick child to the country for a fortnight, and larger amounts will do proportionate good. Contributions may be sent to the Star office, 165 St. James street; Star Branch office, corner of Peel and St. Catherine streets, or to Charles Alexander, Esq., honorary treasurer, 219 St. James street. 155 40

FELL FROM TOP OF LAVAL UNIVERSITY.

Joseph Leclerc, 30 years of age, fell from the top story of Laval University yesterday afternoon to the ground and was not injured. He was knocked unconscious, however, and the Notre Dame Hospital ambulance was summoned. Before the vehicle arrived Leclerc regained consciousness, and walked up to the top of the building and resumed his work of cleaning windows. He declared he was not hurt, and refused to allow the physician who accompanied the ambulance to examine him.

Furniture Manufacturers.

The furniture manufacturers of Montreal began the formation of an association yesterday afternoon, making it a section of the Canadian Manufacturers' Association. The meeting was of a preliminary character, and another will be held in a few days to perfect the organization and elect officers. The purpose of this organization is to promote the furniture manufacturing industry of Montreal and the province of Quebec.

PUBLIC NOTICE

is hereby given that the undermentioned Lands and Tenements have been seized, and will be sold at the respective time and place mentioned below.

CURATOR'S WARRANT.

Superior Court.—District of Joliette. Joliette, to wit: In re EUGENE TESSIER dit LAVIGNE, Insolvent, and E. GASPARD PICHE, Curator.

No. 3305.

1. A lot of land situate in the town of Joliette, Saint Louis street, being lot number twenty (20), of subdivision of lot No. 73, of the cadastre of the town of Joliette, containing one hundred and forty-six feet in front and one hundred and seventy-three feet in depth—with a factory and other buildings thereon erected, with the machinery, engines and boilers attached to the said immovable, destined for running the biscuit and candy factory of Joliette.

2. A lot of land situate in the town of Joliette, Sainte Anne street, known and described as number 2-61 of the subdivision of part of lot number 2, of the cadastre of the Town of Joliette, containing fifty feet in width by one hundred and eight and three quarters in length, having an area of 5437 feet English.

3. A lot of land situate in the town of Joliette, Sainte Anne street, being No. 2-63 of the subdivision of part of number 2, of the cadastre of the town of Joliette, containing fifty-nine feet in width by one hundred and eight feet and a quarter in depth, fronting on Sainte Anne street.

4. A lot situate at the same place, having its front on Saint Ann street, being number 2-62, of the cadastre aforesaid, containing fifty feet in width by one hundred and eight feet and a half in depth, more or less, including the warehouse erected on the two last lots herein described.

To be sold at the sheriff's office, in the town of Joliette, on the twenty-ninth day of July instant, at eleven o'clock in the forenoon.

A. M. RIVARD, Sheriff.
E. G. PICHE, Curator.

N. B. — The immovables above described are the lots belonging heretofore to the "La Manufacture de biscuits et de sucreries de Joliette. Buildings are erected on these lots, formerly used as a biscuit and candy factory and storage. The said factory contains the most modern machinery, set of tools, etc.

The fixed machineries, including the boiler and engine will be included in the sale of said immovables.

The balance of machineries and tools will be sold, by public auction, at Joliette, at the business place of the insolvent, the same day, to wit: the twenty-ninth day of July, 1902, at two o'clock p.m.

Will be sold at the same time the balance of the assets, consisting specially of a large assortment of empty boxes and barrels, labels of all kinds, bricks, cord wood and stock, comprising snuff, tobacco, essences, office furniture, etc.

The sale of the said movables and immovables will take place on the twenty-ninth day of July instant, instead of the eighth day of August next, as previously advertised.

E. G. PICHE, Curator.

An action in separation from bed and board and as to property, has been instituted by the plaintiff against the defendant, on the 12th of June, 1902.

CRESSE & DESCARRIES, Attorneys for Plaintiff.

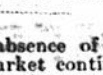
Montreal, 12th June, 1902. 149 4 1aw

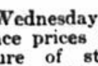
A Pig With Eight Legs.

A young pig with eight legs is the curiosity of Lacombe, N. W. T., and the surrounding district. The animal is seven weeks of age. His double quota of feet is quite perfect, and Mr. T. Wickett, the owner, says he walks well, is healthy and well developed, the biggest of the litter.

It is suggested that the honourable Minister of Agriculture might look into the matter in order to encourage the pigs feet industry in Canada.

STREET GOSSIP AND STOCK EXCHANGE ECHOES.





STAR OFFICE, Wednesday, July 9.

In the absence of unusual incidents likely to influence prices the tone of the stock market continues to evidence a generous measure of strength, although the volume of trading continues small. It is probable that after this week the days' operations will be compressed into the forenoon session, and the half-day on Saturdays abandoned until the first of September. Later in the week the members of the Exchange will take formal action in the matter, the general impression being that the majority will favour the proposition. The expectations that business would continue brisk enough through the summer to warrant two sessions daily have not been realized, the fact being that operations have only about sustained the usual small volume for the heated months, when traders are wont to evidence little interest in stocks.

Street railways are all doing better this year. The earnings of Twin City, in the face of an exceptionally large traffic in 1901, shows a larger increase the first half of 1902 than they did in 1901, as compared with 1900. The gross earnings of the several roads from June 1st to June 30th, with increases, are as follows:

	Earnings.	Increase.
Toronto Railway	$799,970	$72,815
Montreal St. Railway ..	948,730	52,996
Twin City	1,655,950	210,052

A report is current that the Dominion Bank in August will increase its capital stock by $500,000, making it $3,000,000. The directors have already the necessary legislation for doing so. Quite a good demand was experienced for the stock of this bank in Toronto, and the price is up 1 1-2 per cent. to 246.

Toronto Railway earnings for seven days, with changes:

	Earnings.	Inc.	Dec.
June 29	$2,240.10	......	$1,051
June 30	5,284.96	......	2,519
July 1	8,298.67	$2,837	......
July 2	5,182.17	368	......
July 3	5,239.87	816	......
July 4	5,370.26	789	......
July 5	6,261.95	208	......

The earnings of the Twin City Rapid Transit Company for the last nine days of June were $92,605, being an increase of $9,368, or 11.25 per cent., over the same period of last year. Total increase for the month, $31,517, or 11.39 per cent. Six months' earnings were:

January	$270,485	Inc	$36,039
February	243,150	Inc.	29,266
March	277,575	Inc.	36,938
April	261,456	Inc.	31,002
May	295,153	Inc.	45,290
June	308,131	Inc.	31,517
Total	$1,655,950	Inc.	$210,052

The London stock market report says: In an article dealing with the Canadian Pacific Railway we took the view that the shares at present prices would be somewhat dangerous to buy. The position of the market is still complicated, but since we wrote on the subject there has been evidence of a very strong support on this side, and the chances of a further rise have distinctly improved. Rightly or wrongly, it is apparently the opinion of many persons well acquainted with the business of the company that the prospects of a largely increased revenue from the sale of land are exceedingly good. After referring to the increased land sales and branch extensions, the article goes on to say: Then, again, there are substantial reasons for supposing that the next few years will see a great area of the North-West Territory taken up, and it may be accepted as certain that the prices obtained for the Canadian Pacific Company's land will not be less, but more than the average of last year. In Manitoba in particular some attractive areas will be opened up. There will be a new line, known as the Forrest extension, which will run for forty-two miles through grand agricultural country ripe for occupation.

Demand upon the New York banks for money by the West and South has excited comment in banking circles, because it is rather early for transfers to be made for crop-moving purposes. The movement to New Orleans is not very far ahead of the usual time, but the shipment of $500,000 to Chicago on Saturday by the Sub-Treasury was very unexpected. The banks have lost to the Sub-Treasury since Friday $2,028,000, principally because of the delay in transacting buseness until after the repeal of the war revenue taxes, which, on some articles, cut off a portion of the Government tax.

BEAR OPERATIONS DEPRESS STOCKS

Canadian Pacific and Dominion Coal Were the Objects of Attack.

OGILVIE ISSUES BUOYANT

The Bonds Were Especially Strong and Advanced Two Points — Montreal Street Up Points.

The correspondents of the Montreal Star in Wall Street and on the Chicago Board of Trade report that stocks were heavy while wheat was strong. In the local market stocks were heavy. Sales on the New York Stock Exchange yesterday were 573,810 shares.

In a couple of instances in connection with to-day's trading in the stock market there were evidences of bearish tactics, but apart from that condition the market was firm, with a fair degree of buoyancy in a couple of issues. C. P. R. and Dom. Coal were evidently under bear pressure, while Ogilvie Flour stocks and bonds were exceptionally strong and had good advances. Although trading was on the whole light, the market afforded more of interest than for some time past.

The early trading in Canadian Pacific brought no striking change, the initial sales being at 135 7-8, compared with 136 at the close yesterday. New York opened at 135 5-8, and rose to 136, but late in the morning a weak spot developed there, and the price dropped a full point to 135 at noon, and to 135 3-8 in this market. From the class of literature which has been appearing for some days, principally in Wall Street publications, it might be inferred that the bears are after some long stock at a lower level.

A New York message to Burnett & Co. says: "Street observers are commenting upon the failure of Canadian Pacific to advance with the rest of the market in the last week. A heavy tone has marked this issue, not only here, but in London, and the Canadian stock exchanges. It is suggested that the course of the stock may be a change of policy on the part of the management, and that some doubt is felt whether the next dividend will be increased, as expected."

Dominion Coal opened at 133 7-8, and declined to 132 3-4 on sales of 200 shares. Yesterday's sales were at 134 1-2. In this stock also the bears are believed to be exerting some influence. Information from Boston is to the effect that their operations in that market were not unexpected, that their identity might be established by placing the finger on the clique which formed the bear party in Dominion Steel some months ago. The highest price of the stock was 148, to which it rose from 54 early in the year.

Working conspicuously in the opposite direction were the Ogilvie Milling issues. The bonds jumped two points, from 113 to 115, and the preferred stock gained 1 3-8, rising from 111 1-8 to 112 1-2. There has not yet been any trading in the common stock, but 100 has been bid for it for some time, with no seller in sight. Montreal Street Railway advanced two points to 275. Detroit United Railway was unchanged at 77 1-2. Dominion Steel bonds were slightly easier under liquidation.

Advices from London to-day were to the effect that a more optimistic feeling was in evidence in that market, and that some return of interest in stocks was noticeable. It was believed that rock bottom has been reached in prices, and a better feeling was expected to ensue.

The sales of farm lands by the Canada North-West Land Company in June were 145,481 acres for $4,021,213, and for six months they were 328,918 acres for $1,444,100.

The Montreal Clearing House returns of bank clearings were $3,767,701.

Messrs. L. J. Forget & Co.'s London cable to-day quoted: Grand Trunk first, 106¼; second 90¾; third, 39; Canadian Pacific, 139.

Montreal Exchange quotations: New York funds, 1-32d to 1-64d between banks. ¼p counter; sterling, 60 days, 9⅛ to 9 3-16 between banks, 9 3-8 counter; do. demand, 9 11-16 to 9¾ between banks, 9⅞ counter; do. cables, 9 13-16 between banks, 10 counter; Paris, francs, long, 5.18⅛ between banks; do. do. long, 5.15⅝ to 5.15 1-32 between banks, 5.15 counter.

In New York at noon money on call was steady at 4 per cent. Prime mercantile paper, 4½ to 5 per cent.; sterling exchange barely steady at 4.87¾ to 4.87⅞ for demand and at 4.85¼ to 4.85½ for sixty days. Posted rates, 4.86 to 4.86½ and 4.88½ to 4.89. Commercial bills, 4.84⅝ to 4.85⅝. Bar silver, 52⅞.

Messrs. J. S. Bache and Co., New York, send the following Wall street advices through their local manager, Mr. C. D. Monk:

Americans in London steady about parity. Senator Hanna says plans are under way for the settlement of the strike satisfactory to miners and operators. Crop news mixed, mostly favourable. Moore Bros. friends claim they hold control of Northwest. No truth in rumor of closer relations between Union Pacific and St. Paul. No dividends on So. Pac. this year. Early settlement of Chicago strike expected. Phila. operators bullish on C. and O. Gold shipments this week possible, but unlikely. J. P. Morgan expected home this week. 49 roads 4th week June earnings inc. 7.03. Insiders say no increase in Hocking Valley dividend on consolidation with Pere Marquette. Senator Hanna's remarks about the possibility of early satisfactory ending of strike can hardly fail to have good effect generally.

Messrs. J. B. Picken and Co., stock and exchange brokers, to-day received the following New York advices over their special wire:

The standard shares were again leaders this morning, but it looked as though under cover of booming several issues, they were selling the market. The weekly crop report was favourably regarded and was used againse shorts. After opening firm the market hesitated and began sagging. The tone at noon is uncertain; continued liquidation in Western Union and Colorado Fuel was again erratic. Vanderbilts were also higher, but Louisville and Nashville was quiet owing to uncertainty as to dividend action. Gold is not likely to go out to-morrow, and the exchange market is easier at 4.87.75.

Messrs. Burnett and Co., stock brokers, today received the following advices from their New York correspondents:

In London American stocks closed strong. General market after being heavy, closed strong. Very heavy rain in Kansas, Neb., Iowa, Missouri Northern Ills. and general light showers in Northwest. Still raining at Atem, in Kas., Iowa and Missouri. Sub-treasury statement shows banks lost $1,058,000 since Friday. Illinois Central stock holders will meet at Chicago August 29, to vote on the proposition to increase the capital stock to $95,040,000, in accordance with the announcement made some weeks ago.

Morning Sales.

Canadian Pacific, 150 at 135 7-8, 25 at 135 1-2, 150 at 135 3-8.
New Pacific, 250 at 131.
Montreal Street, 75 at 275.
Ogilvie Flour, pfd., 50 at 112 1-8, 50 at 112 1-2.
Detroit United Railway, 100 at 77 1-2.
Richelieu, 5 at 110 3-4.
Dom. Coal, 50 at 133 7-8, 25 at 133 3-4, 100 at 133, 25 at 132 3-4.
Coloured Cotton bonds, $500 at 100 3-4.
Ogilvie bonds, $3,000 at 115.
Dom. Steel bonds, $30,000 at 90 1-2, $16,000 at 90 1-4.
Street Railway bonds, $1,100 at 107, $100 at 107 1-8.
Merchants Bank, 68 at 150 1-4.

FOR SHIPMENTS OF EARLY APPLES.

Early Apple Shipments Will be Made in Cold Air Compartments.

The prospects are good for a fairly large crop of early apples in Canada. It is reported that red Astrachans, St. Lawrence and similar varieties will be abundant enough to provide a comparatively large quantity for export.

By arrangement with the Department of Agriculture, several steamers of the different lines have been fitted for the circulation of cooled air through the spaces where cheese and apples are to be carried. The more tender varieties of apples would go into the regular cold storage compartments; those in firmer condition could be carried in the cooled air chambers.

Apple-shippers who intend to ship such varieties would do well to communicate with the Commissioner of Agriculture and Dairying at Ottawa, as the department is willing to co-operate as far as possible with the shippers to secure accommodation in the cooled air space, or in the regular cold storage chambers, for the delivery of the fruit in the very best condition in the markets of the United Kingdom.

BEST FOR THE BOWELS
Cascarets
CANDY CATHARTIC
THEY WORK WHILE YOU SLEEP

GUARANTEED CURE for all bowel troubles, appendicitis, biliousness, bad breath, bad blood, wind on the stomach, bloated bowels, foul mouth, headache, indigestion, pimples, pains after eating, liver trouble, sallow skin and dizziness. Take our advice, start with Cascarets today under absolute guarantee to cure or money refunded. The genuine tablet stamped C C C. Never sold in bulk. Sample and booklet free. Address Sterling Remedy Company, Chicago or New York. 508

OATS NOW BOOMING

But Corn and Wheat Also Show Advances This Morning— The Local Market is Dull and Steady.

The Liverpool grain markets were steady to-day, July and Sept. closing unchanged from last night's prices at 6s 0 3-4d and 6s 3 1-2d respectively, Dec. closing 1-8d up at 6s 4 1-8d. Antwerp closed steady at 17 5-8 for No. 2 red winter. Paris was weaker, July closing 5 down at 24.40; Sept. and Dec., 10 down at 20.85. London quoted No. 1 stand. Cala., prompt, 30s 4d; Sept. and Oct., 30s; Walla Walla, March and April, 29s 6d; Australian, psge., 30s 4 1-2d.

The Chicago market was very strong on July oats this morning, being 1 3-4c up at noon at 43 1-4c. July wheat was 1 5-8c up at 76 1-8c, and July corn, 1-2c up at 87 1-2c.

Weather in England is fair, and in France fine.

A despatch was lately received from the Governor-General of India, Lord Curzon of Kedleston, saying that better conditions prevail in the famine districts of India than have been indicated by the recent press reports. There have been heavy rains in the Assam, Burma and coast districts, useful showers have fallen in the Rajputana region and in Upper India, but more rain is needed in the Bombay Presidency, the Central Provinces and the Berar territory. The number of persons now given relief amounts to 430,000, which is a decrease of 20,000. A further fall of rain would probably result in a large decrease in the number now being relieved. The people receiving relief are generally in good physical condition. The advance of the monsoon in Western India is awaited with some anxiety.

LOCAL MARKET — The market is firm and unchanged. Manitoba feed, white, are quoted at 47 3-4c, and No. 2 white at 49c; No. 3 white are 47½c, and No. 2 Ontarios at 48½c, in store. No. 1 Northern Manitoba wheat is quoted at 74½c afloat at Fort William, No. 2 being 72½c.

FEED—Quotations in car lots on track: Manitoba bran in bags, $17; shorts, in bags, $23; Ontario bran, in bulk, $17 to $17.50; shorts scarce at $22 to $23 in bulk; middlings, $22 to $23; moullie, $23 to $30, according to quality.

ROLLED OATS—The market was quoted steady to-day. Quotations were $4.90 to $5.10 in wood, and $2.35 to $2.40 in bags, in car lots.

BALED HAY—Business is being done at about $9 to $9.50 for No. 1 timothy, and $8 to $8.50 for No. 2; clover, $7.50 on track.

FLOUR — Quotations in Montreal on track are $3.65 to $3.70 for straight rollers, in barrels; in bags, $1.70 to $1.80; extra bags, $1.60 to $1.65; winter patents are $3.85 to $4; Manitoba finest strong bakers, $3.70 to $3.80; patents, $4.10. Ogilvies write today that they quote Hungarian at $4.20 to $4.30, and Glenora at $3.90 to $4.00.

TORONTO, Ont., July 9.—Wheat steady; red and white, 76 1-2 to 77c, middle freights; goose, 68c, and spring, 76c east; Manitoba steady; No. 1 hard, 82c, Goderich or Port Arthur; No. 1 hard, 88c; No. 1 northern, 86c, and No. 2 northern, 84c, grinding in transit.

Flour—Steady; 90 per cent. patents, $2.92 1-2, buyers' bags, middle freights; choice brands held 15 to 20c higher; Manitoba flour steady, $3.90 to $4.25, and strong bakers, $3.60 to $3.90, bags included, on track Toronto.

Millfeed—Steady; shorts, $20 for cars, and bran, $16 in bulk, middle freights; Manitoba millfeed firm; cars of shorts, $23, and bran, $20, sacks included, Toronto freights.

Barley—Nominal; cars of No. 2, 52c east; No. 3 extra, 52 1-2c, middle freights.

Corn—Firmer; No. 2 yellow, 62c, and No. 2 mixed, 61 1-2c west.

Oats—Steady; No. 2 white, 43 1-2c west, and 44 to 44 1-2c low freights to New York.

Peas—Dull at 76c middle freights.

POTATO MARKET LOWER

Increased Receipts of New Stock Depressed the Market for Both Old and New—Other Lines Steady.

BUTTER. — Receipts reported on the Board of Trade this morning amounted to [illegible] packages.

The market is steady. Bedford sold at reasonable prices, 19 to 19¼c, and quotations on Townships in the city here are around 19½c, extra fancy goods bringing probably a shade more. Quebecs are quoted at 19 to 19¼c, and a lot of Ontarios were bought at 19c. There is said to be a good enquiry from England for all lines.

CHEESE.—Receipts reported this morning on the Board of Trade amounted to 27,793 boxes.

Some of the figures paid on the country boards yesterday gave evidence of a tendency to advance again, but on the whole prices continued fairly steady. Quotations in the local market are 9¼ to 9 3-8c for Quebecs, 9½c for Townships, and 9½ to 9⅝c for Ontarios.

EGGS.—Receipts reported on the Board of Trade this morning amounted to 770 cases.

The market is about steady these days, sellers in the country trying to get prices up and buyers in the city trying to get them down. It is hard to say whom the warm weather will favour, but some one will have to pay for the increased proportion of loss from rottenness as the warm season advances. The average price f.o.b. is 13c a dozen, while straight receipts sell at 13 to 14c here. No. 2 candled sell at 12 to 13c, and straight candled at 14½ to 14¾c, and No. 1 at 15c for the lowest quality.

POTATOES.—The market is weak to-day. A few carloads of old stock were offering on track this morning, but they were too late, and may yet have to sell at 80c or 90c a bag, as the demand is now almost entirely for new stock. New stock was selling on the market at $2.50 a barrel this morning, which was a decline of 25c from yesterday. They are selling at $2.75 from store, and a further decline may be expected any time at all.

POTASH.—Prices are $4.10 to $4.17½ for firsts and $3.65 to $3.70 for seconds. Pearl ash is very scarce and badly wanted. There have been no transactions of late, but holders would not accept $6.50.

Copper and Lead Markets.

(Special to the Montreal Star.)

NEW YORK, July 9.—Copper easy; lake, $11.90 to $12.15; electrolytic, $11.90 to $12; casting, $11.75 to $11.90; standard, $11.37½ to $11.75. London dull at £53. Lead unchanged in both markets.

Yesterday's Country Cheese Boards.

BEDFORD—Boarded, 572 butter and 104 cheese. Sold all butter at 19 to 19⅛c, and cheese at 9⅛c.

CAMPBELLFORD.—Boarded, 1860 cheese. Sold at 9¼c.

PICTON.—Boarded, 1770 coloured. Sold, 1455 at 9 7-16c.

New York Cotton Market.

NEW YORK, July 9.—Cotton futures opened barely steady. July, 8.58; August, 8.29; Sept., 7.96; Oct., 7.85; Nov., 7.76; Dec., 7.77; Jan., 7.78; Feb., 7.79; March, 7.78.

Montreal Mining Exchange.

Following were the sales at this morning's session of the Mining Exchange:

War Eagle, 1,500 at 12.
Payne, 1,000 at 17, 500 at 16.
North Star, 200 at 19.

Live Stock Markets.

The warm weather is having a depressing effect on the market for all kinds of live stock. Receipts continue fairly heavy, but the quality of the stock offered is anything but satisfactory, particularly of cattle. Receipts of these this morning amounted to about 800 head, so it was said, but at noon at least 500 remained unsold, and would have to be carried over until to-morrow in the stables. Prices were low, being about 5c for best offered, a few, perhaps, bringing a fraction more. Fair to middling stock is quoted at 3 1-2 to 4 1-2c, and common at 2 1-2 to 3 1-2c.

Receipts of sheep reported were about 300 head. These sold at 3c for butchers' stock, and 3 1-2c for exporters'. About 150 lambs were offered, and sold at 3 1-2 to 4c a pound. The receipts of calves were said to be very heavy, amounting in all to about 900 head. Prices ranged from $1 to $5 each.

PERSONALS.

Rev. Dr. MacVicar and family are at Bic.

Mr. W. A. Buchanan was in Halifax this week.

Mr. C. E. Holden, of Whitehall, is at the Queen's.

Dr. P. Boisseau, of Bedford, Conn., is a guest at the Hall.

Mr. W. J. Reddan, of Toronto, is registered at the Hall.

Mr. M. H. Fitzpatrick, of Pictou, N. S., is at the Windsor.

Mr. K. T. Eaton, of Providence, is a guest at the Queen's.

Mr. James Harper left this evening on a trip up the Saguenay.

Mrs. Berkley Powell has returned to Ottawa from Montreal.

Miss Lillian McDermott, of Chicago, is a guest at the Carslake.

Mr. Eugene Lafleur, of Ottawa, is a guest at the Place Viger.

Mrs. N. S. Honer, of New York, is a guest at the Place Viger.

Mr. and Mrs. J. C. King, of Montreal, are at the Chateau, Quebec.

The Rev. Edward Bushell and family are spending a month at Bic.

Mr. and Mrs. C. E. Seifert, Dorchester street, are at Lake Champlain.

Mr. W. O. H. Dodds, of Montreal, is a guest at the Chateau, Quebec.

Mr. E. M. Renouf has returned from a visit to his family at Ste. Agathe.

Mrs. D. MacCallum and the Misses McCallum leave shortly for Odelltown.

Miss Kitty Fletcher, of Ottawa, is visiting Miss Davison, 318 St. Urbain street.

Dr. James Stewart will shortly leave to spend his summer vacation in Winnipeg.

Mrs. William Ogilvie, accompanied by Miss Alice Ogilvie, has left for Kennebunk.

Hon. Adelard Turgeon, Minister of Agriculture, Quebec, is registered at the Place Viger Hotel.

Mrs. Bury Austin and children are spending the summer at the Manoir Richelieu, Murray Bay.

Lady Galt and the Misses Galt are at the White Mountains. Miss M. Galt leaves for England shortly.

Miss Foster, who has been visiting her parents, Canon and Mrs. Foster, in Coaticook, has returned to Montreal.

Mr. Wm. C. Barto, of the Trunk Line Association, Flushing, L.I., and Mrs. Barto are visiting friends in the city.

Mr. and Mrs. A. E. Ogilvie and their little daughter are spending the summer in Mr. Angus Hooper's country residence at Cartierville.

Mrs. Wm. J. Scullion, who has been seriously ill for some time past, has left for Cacouna, where she will remain until the end of August.

The marriage of Mr. Auguste Bolduc, of St. Joseph, Beauce, and son of Senator Bolduc, to Miss Eva Renault, of St. Francis, Beauce, will take place on July 28.

Mrs. Woodhouse and family have returned from Bermuda, where they have been spending the past six months, and have taken a cottage at Dorval for the summer.

The marriage of Miss Lillie Stewart to Mr. James Nebbs took place yesterday in St. Patrick's Church. After the ceremony breakfast was served at the home of the bride's father. Mr. and Mrs. Nebbs left on a trip to Niagara Falls, Buffalo and New York. The wedding presents were numerous and handsome.

The marriage of Miss Maude Smith-Garrison will take place in New York, upon her return from England, to Mr. W. Vaughn Dee, eastern manager of the Railway Age. Miss Garrison is the daughter of the late Mr. Wallis Robert Smith, of Montreal, and her mother is the well-known writer, Isabelle Garrison, who is now in London. After a tour of the Eastern States Mr. Dee and his bride will make their home in New York.

Miss Florence Cameron, daughter of Mr. John Cameron, who went to South Africa as a Royal Canadian Nursing Sister, in connection with the recent war, and who has been ill, is completely restored to health. Miss Cameron's engagement is announced to Mr. Samuel Blake, of London, England, son of Hon. Edward Blake, M.P. for Longford. It is understood the marriage will take place at St. Mary's Church, Johannesburg, this week.

Miss Aline de la Bruere, youngest daughter of Hon. P. Boucher de la Bruere, superintendent of education, was married yesterday at Quebec to Dr. Louis George Pinault, of Campbellton, N.B. The ceremony was performed by Abbe Lindsay in the chapel of the Sacred Heart of the Basilica. The bride was given away by her father. The groom was attended by his uncle, Lieut.-Col. Pinault, Deputy Minister of Militia. The bride received a number of handsome presents.

The marriage takes place this afternoon at five o'clock at Zion Church of Miss Edith Garlick, B.A., to the Rev. E. C. Woodley, M.A., the Rev. H. G. Rice officiating. The bride, who will be given away by her father, Mr. H. T. Garlick, will wear white organdie, much tucked, and trimmed with Valenciennes lace, tulle veil and orange blossoms, and will carry white roses. The bride's sister, Miss Carrie Garlick, will be bridesmaid. Mr. Arthur Woodley, brother of the groom, will act as best man, and the ushers will be Mr. Jacob De Witt, B.A., and Mr. H. S. Williams, B.A. The ceremony will be followed by a reception at the home of the bride's father, 66 Mance street. This evening Mr. and Mrs. Woodley will leave on a trip to Truro, N.S., the bride travelling in a tailor-made costume of navy blue cloth, a white silk blouse, and a blue and white hat. On July 31st they will sail for England en route to Calcutta, India, where they will reside.

At the marriage in Lennox, Mass., yesterday of Miss Lila Vanderbilt Sloan to Mr. W. B. O. Field, the bride wore ivory white satin with a perfectly plain skirt, with long train. The high bodice had a yoke of old point lace, and the lace veil was one previously worn by the bride's two sisters, Mrs. James A. Burden and Mrs. J. H. Hammond. The eight bridesmaids' ecru muslin gowns were trimmed with Valenciennes lace and chiffon ruffles, and were made up over taffeta. They also wore chiffon hats and sashes. The gifts from the bride to her attendants were chiffon parasols, the handles of which were thickly studded with jewels. Trinity Church, at which the ceremony was held, was tapestried in flowers. The chancel and main aisle were carpeted in white satin. After the wedding breakfast at the home of the bride's father, Mr. W. D. Sloane, Mr. and Mrs. Field drove to Pittsfield on a buckboard behind the bride's own roan hackneys. They took the afternoon train for New York, and will spend their honeymoon at Mr. George W. Vanderbilt's Biltmore estate, North Carolina. In August they leave for Europe. The bride's presents are valued at one million dollars.

LAKE BUSINESS BRISK.

Encouraging Reports of Flourishing Conditions in the North.

TORONTO, July 9.—(Special).—All of the reports received thus far from the Northern lake ports indicate an increase in business which was greater than that felt in years, and the revival in the shipping business is said to have already taxed the capacity of the transportation facilities. The business of the fleet owned by the Georgian Bay Soo Line, and now controlled by the Algoma Navigation Company, have been enjoying an unusually prosperous opening of the season, which will be good news to the holders of stock in this company. The company is now offering for sale $150,000 of six per cent. per annum First Mortgage ten-year Bonds of $100 each, redeemable at any time at $105 per bond. These bonds are being offered through the Trust and Guarantee Company, 14 King street west, Toronto, and the offer is made of a bonus of $100 of stock with every $300 bonds purchased.

Special Notice.

Umbrellas for rain, for sun, for boys, for girls, for ladies, for gentlemen, at The S. Carsley Co., Limited. Special sale Umbrellas all this week.

Why are there counterfeit Morris Pianos? The genuine Morris Pianos are sold only at Leach's, 2440 St. Catherine street.

Umbrellas for the million at The S. Carsley Co. Prices from 25c up to $12.00.

Explosion of Dynamite Causes Death of Two Men

An explosion of dynamite occurred at Bedford yesterday afternoon, which killed one man instantly and so seriously wounded another that he was brought to the General Hospital.

This man, whose name is Joseph Duval, died from his injuries a few hours after his admission to the hospital. He was brought to Montreal by Dr. Brosseau, of Bedford, Que. The unfortunate workman was terribly mangled and bruised, his chest being completely crushed in, and his face and head injured almost beyond recognition. His case was pronounced hopeless from the first, and the fact that he stood the railway journey from Bedford to Montreal and lived for several hours after his admission to the institution indicated that he was a man of great constitutional strength.

The accident occurred in this way: D. Jette and Joseph Duval were engaged in sinking a well on the premises of Mr. J. E. Lebeau, notary, of Bedford. The men prepared with a tin tube a cartridge containing about four pounds of dynamite, and, while attempting to solder a crack in the tube, an explosion that could be heard for miles occurred. It broke all the windows in the immediate vicinity and hurled the two men into the air. Jette was shockingly mutilated, and died in great agony in a few minutes. The cries of the injured men were most pitiable. The news of the accident spread rapidly, and soon a large crowd of people were on the scene of the tragedy, and everything possible was done to relieve the suffering of the men, but their injuries were so horrible that no hopes whatever could be entertained for their recovery, and it was only a matter of time until they would be released from pain by death.

Coroner McMahon will hold an inquest as soon as arrangements can be made.

SHIPPING NEWS.

Gulf Report.

FATHER POINT, July 9.—Clear, west wind. Inward at 6 a.m., Moeris; at 7 a.m., Tritonia.

SHIP LABOURERS' TROUBLES.

Leyland Line Steamers Still Being Loaded by Their Own Men.

(Special to the Montreal Star.)

QUEBEC, July 9.—There is still no change in the strike situation, though the labourers persist in claiming that there is no strike at all, and that they are simply locked out by the Leyland Line people. They state also that numbers of the Iberian's crew are deserting rather than work at ship-loading.

The Lake Erie's Passengers.

The Elder-Dempster Beaver Line steamship Lake Erie leaves port at daylight to-morrow morning for Liverpool. Following is a list of her saloon passengers:

Mrs. Ault, Mr. Arthur Barsalou, Montreal; Mr. R. T. Billing, Guildford, Eng.; Mr. Brown, Halifax, N.S.; Mr. Cameron, Calgary, N.W.T.; Captain R. S. Chaplin, Mrs. R. S. Chaplin, London, Eng.; Mr. James Cheatle, Chicago, Ill.; Mrs. Davidson, Guelph, Ont.; Mr. Ellis, Toronto; Professor H. R. Fairclough, Mrs. H. R. Fairclough and child, Stanford, Col.; Mr. J. Friers, Mr. Jefferson Hall, Mrs. Jefferson Hall, Toronto; Rev. J. Harris, Mrs. J. Harris, Guelph, Ont.; Mr. A. R. Haycock, Mrs. A. R. Haycock, Montreal; Miss Laura Haycock, Brantford, Ont.; Mr. M. Hicks, Mr. J. N. Hicks, Montreal; Mr. A. B. Holbert, Mrs. A. B. Holbert, Greeley, Iowa; Mr. B. E. Howard, Mrs. B. E. Howard, Master Grenville Howard, Miss Emily Howard, Bay City, Mich.; Miss Patti Jack, Ottawa; Rev. Bro. James, Montreal; Mr. Innes, Guelph; J. B. Kerr, Mrs. J. B. Kerr, Miss Kerr, Master Kerr, Toronto; Mr. W. Kippax, Mrs. W. Kippax, Miss Jessie Kippax, Miss Ellen Kippax, Brantford, Ont.; Mr. K. Learmont, Toronto; Mr. Henry Lobnitz, Surbiton, Eng.; the Rev. Bro. Louis Leo, the Rev. Bro. Mactalius, Montreal; Dr. J. D. Malone, Newburgh, N. Y.; Mr. J. Melady, Toronto; Mr. A. O. Morin, Montreal; Mr. Robert McGiffin, Ottawa; Mr. Angus MacMurchy, Mrs. A. MacMurchy, Toronto; Mr. John Ogilvy, Montreal; Mr. W. B. Otto, Mrs. W. B. Otto, Miss Jessie Otto, Charlotte, Mich.; the Rev. W. A. Quayle, Kansas City, Mo.; Mrs. F. R. Redpath, Montreal; Mrs. John Robertson, London, Eng.; Mr. F. A. Ritchie, Mr. J. L. Somerville, Toronto; Mr. Phillip Unitt, Mrs. Phillip Unitt and child, Seward, Neb.; Rev. J. F. Wicklund, Minneapolis, Minn.; Miss M. Wilkes, Mrs. Henry Yeigh, Miss M. Yeigh, Brantford.

For the Halifax Trade.

LONDON, July 9.—According to the Shipping Gazette, Sir Charles Furness, the well-known ship owner and ship builder, has purchased four Clan line steamers, which he intends to place in the London and Halifax trade, making a regular ten-day service.

Notes.

The tug Superior, owned by Capt. French, of Vancouver, and valued at $10,000, foundered in that harbour Monday evening.

The Hansa Shipping Company has ordered two large steamships built at the Vulcan shipbuilding yards for the East India trade.

The Allan line steamer Norwegian, Captain J. Moar, sailed this morning for Glasgow with a general cargo, 300 head of cattle and 748 sheep.

The Elder, Dempster & Co.'s Beaver line steamer Lake Megantic sailed from Liverpool for Montreal at 6 o'clock yesterday evening.

The steamship Nordkap, Capt. Rasmussen, with a cargo of sugar from Newfairwater for the St. Lawrence Sugar Refinery, has arrived in port.

The steamship Langfond, chartered by the Canadian Forwarding and Export Co., will sail from Rotterdam on Thursday with a cargo of steel rails for Montreal.

The Head line steamship Bengore Head will sail to-morrow from Maryport with a cargo of rails for Montreal.

The Manchester line steamship Manchester Commerce sailed from Manchester for Montreal on Saturday, July 5.

The Allan line steamship Mongolian, Captain A. G. Braes, from Liverpool on June 28, arrived in port yesterday with 100 first and second-class passengers.

The new Red Star line steamship Kroonland, which sailed from New York on June 28, arrived at Antwerp yesterday. Captain Doxrud and the passengers on the new boat were enthusiastic over her behaviour.

The Elder, Dempster & Co. Beaver Line steamship Lake Manitoba, from Liverpool, passed Cape Race at 1 p.m. Tuesday. She is due in Quebec on Friday morning and Montreal Saturday morning.

The Elder, Dempster & Co. steamship Lake Megantic sailed from Liverpool for Montreal on Tuesday, the 8th inst., with 50 first, 60 second and 580 steerage passengers.

The Dominion Line steamship Colonian, from Portland, passed Kinsale at 4 p.m. to-day (Tuesday).

The total attendance at the National Educational Association's meetings at Minneapolis, Minn., is 6000, and every incoming train brings fresh accessions. It is estimated that there will be close to 10,000 visitors before the end of the week.

THE CANADIAN CORONATION CONTINGENT

Reasons Why Carping Criticism of the British Authorities Should Cease.

To the Editor of the Montreal Star:

Sir,—I desire to draw attention to the statements and insinuations which have recently appeared in cable despatches regarding the treatment of our Canadian Coronation Contingent by the War Office.

Surely the presumption in all such cases must be that they were well and hospitably treated as a whole, and that carping criticism of details should not warrant some of the severe statements which have been made. Judgement should most certainly be suspended in the matter of these present allegations until they are proved or are found to be drops of discontent in an ocean of kindness. I had some reason to know the boundless nature of London hospitality to the visiting Colonial troops during the Diamond Jubilee, when our contingent was so splendidly treated. Everyone knows something of the way in which Colonel Otter and his men were welcomed in London, and of the great reception and hospitality which were extended to Colonel Steele and his Strathcona Horse. Even upon the present occasion a despatch which describes Canadian troops as being placed in a "mud hole," adds that "the English people had done everything in the way of hospitality and attention that, humanly speaking, could be done; in many cases the Colonial visitors were simply spoiled with kindness." And then again, Lt.-Col. Pellatt's farewell message to Lord Strathcona in which he says: "The Canadians are grateful for the hospitality received on all hands."

Let me explain the situation briefly: The arrangements in the hands of the authorities were simply enormous in scope and character; the weather unique in its coldness and wetness; the sudden upsetting of elaborate plans, among the greatest of their character in our history. If a few minor reasons of complaint were found by some of the guests of the occasion, is it a matter for surprise? Certainly it should not be reason for condemnation. Alexandra Palace, I am credibly informed, is a capital place for troops, and even if it had not been so, the crowded state of London would have been cause enough for its selection. The War Office was not responsible for the extraordinary weather, and as a matter of fact the arrangements at the Palace were not in the hands of the War Office, but had been transferred to the municipal authorities, who should be blamed, if any blame there was. Moreover, Canadians were not alone at the Palace: Australians, New Zealanders and other Colonial troops were there, under exactly the same conditions, and there could not, therefore, have been any special slight to the former, as some of the statements referred to have alleged. The treatment accorded was, in fact, the very reverse. The reception at Liverpool to our troops coming and going was generous and enthusiastic to a degree. The Duke of Connaught visited them on June 18th, and again four days later. The inspection by H. R. H. the Prince of Wales and the presentation of all the officers was another feature. Nothing was too good for them in the way of general hospitality, and we are told that as soon as it was found that sight-seeing was considered expensive, owing to the distance from London, the War Office issued free passes to and from the city.

Criticism has been rampant here as to the alleged intended change in the command of the Canadian contingent. So far as I can learn the procedure to be adopted at the coronation procession was arranged and known here before contingent left Canada. Cavalry were to ride in the procession, and infantry were to line the streets. Of course, at the colonial procession, to take place the next day, all were to march. No other course was possible, and the rule which applied to Imperial, Australian, South African, and Indian troops was surely not too much for the Canadian guests of the King to accept. As to the command, Lieut.-Colonel Turner, V.C., D.S.O., a Canadian militia officer, was appointed to the command of the Cavalry and other mounted units of the contingent from the time it left Quebec, and there was nothing more natural or proper than that he should retain this command in both processions. Lieut.-Colonel Pellatt would, undoubtedly, appear in both processions; on the General Staff, probably, at the first, and as commanding officer of the whole of the Canadians at the other.

Another statement made is that the authorities were making a circus attraction of the Canadians (why not also the Australians, etc.?), and charging latterly an admission fee to see them. On June 22nd a cable despatch stated that the "Tattoo at the Alexandra Palace was an utter failure, owing to the vast crowd of visitors, which became wholly unmanageable, and swarmed over the parade ground." Therefore, it would seem that in self-defence the authorities in charge decided to place a fee for admission to the grounds. It would, under these circumstances, be as fair to say that the military authorities in Toronto were making a "circus attraction" of the Royal visitors last autumn, when they charged a fee to the grand stand during the review, as to apply the statement to our troops at the Palace. Another charge made is that contained in a Toronto journal, to the effect that a British officer was to supersede Lieut.-Colonel Pellatt. There seems to be absolutely no ground for this statement. Major-General Cook was commanding officer of the colonials at Alexandra Park Camp, and, as already stated, Lieut.-Colonel Turner remained in command of the Canadian cavalry, while Lieut.-Colonel Pellatt commanded the whole Canadian contingent, of which the cavalry only formed a part. There was no change whatever from the arrangements which had been first known at Quebec.

It might also be said that it is no compliment to Canadian soldiers and to the Canadian Premier, to say that they and he would refuse to turn out to do honour to their King, and host in a sense, because arrangements for the disposition of the troops, absolutely necessary for the success of the coronation procession, did not please them. I refuse to believe this statement.

In conclusion, let me point out that heavy and extraordinary rains made usually good quarters muddy and disagreeable, and that this seems to be the only actual ground for complaint. In any case, judgment should be suspended until the facts are obtained, and the immense hospitalities of a great period not spoiled in their effect and intention by unimportant and unavoidable accidents.

J. MASON,
Lieut.-Colonel, R. O.

Toronto, July 8, 1902.

BOIL, THEN RINSE YOUR CLOTHES and with "Victorine." You need not rub them. It makes them white as snow.

SPECIAL OFFER.

A CURE GUARANTEED. I will send you a legal guarantee to cure you, and I have cured thousands of cases of Varicocele, Rheumatism, Losses, Nervousness, Indigestion, Weak Back, Kidneys and all troubles caused by abuse.

NO CURE NO PAY—Others claim this, but I am the only one who will really send a valuable belt, absolutely free, on trial, for three months. If you are cured I know you will willingly pay. If you are not cured you will pay not one cent. My latest model Electro-Galvanic Belt does not have to be charged in vinegar to get a current. This is a very great advantage. If you are using an old style belt, one that you have to charge in vinegar, one with the disks covered over, send it to me, and I will send you one of my High Power Latest Model Electric-Galvanic Belts in exchange.

FREE BOOK—Write me to-day for my free illustrated book, telling all about my wonderful belt and men's diseases. I will send it to you free, sealed in plain envelope. It costs you nothing and you will find it very interesting and an aid.

THE TWENTIETH CENTURY BELT.

My improved Belt is the most modern and the most perfect in the world. It is stronger than any other. It will last longer. It can be kept clean, an impossibility with any belt that has to be soaked in vinegar. To soak a belt in vinegar ruins it in a short time. It is always soiled and unhealthy. Mine is never out of order and is always easily kept clean. It will cost you less and last longer than any other. Write to-day for my free book.

HEAVY WIND DID DAMAGE.

Ten Buildings Destroyed Near Doucet's Landing on Tuesday.

(Special to the Montreal Star.)

DOUCET'S LANDING, Que., July 9.—A wind storm approaching the proportions of a tornado, accompanied with rain and hail, passed over here Tuesday afternoon. Ten buildings including barns, hay sheds and other outbuildings, were demolished. Fences and trees were blown down and many panes of window glass smashed. The principal sufferers and their loss are: R. Scott, $600; Jos. Bellefeuille, $200; L. Malone, $150; P. Deshaies, $100, and many others smaller amounts, bringing the total loss up to $1,500. Horse belonging to Jos. Bellefeuille, standing in his barn was killed. So far no word of serious injury to any person has been received.

Secret of New Seawanhaka Cup Defender Is Centreboard Divided Into Three Parts

The centreboard will be divided into three parts.

That is the great feature which will make the proposed Seawanhaka Cup defender, now under construction at the Yacht Club Sheds, at Dorval, unique among other sailing craft.

This is the idea which has been guarded so zealously till the present time.

The exact details of this scheme are not yet given out for obvious reasons, and the boat will be carefully guarded inside of the shed till it is advanced far enough to be launched. Previous to the launching no one will be allowed to see it.

The idea is not exactly a new one, but it is to be hoped that Mr. Duggan will prove through the boats's actions when she reaches the water, that he has been enabled to put another theory of naval architecture into successful practice.

One of the most prominent sailors of the Royal St. Lawrence Yacht Club gives the assurance that the new departure violates in no manner the agreement drawn up and signed between the Bridgeport and Royal St. Lawrence Yacht Clubs.

According to this agreement, the only restrictions placed upon centreboards, are those of weight and depth, and these are being strictly adhered to in the new boat.

The hull, as stated above, will be rather beamier than those of any previous defenders, probably by about four inches, but otherwise, it will be almost the identical shape of that of the Senneville.

It is not by any means certain that the new experiment will prove a success, but it is hoped that the boat will be launched on Saturday, the nineteenth instant, and if necessary the rigging of some of the other boats, which by that time will have been declared out of the race for Cup honours, will be put upon her temporarily, so as to give the club members an opportunity to see how she will work.

RESULTS AT HENLEY.

Titus, of the Union Boat Club, New York, Was No Match for Kelley, the Fast Oxonian.

(Continued from page one.)

(Special to the Montreal Star.)

HENLEY, July 9.—Titus, of the Union Boat Club, New York, was a warm favourite in the eighth heat for the Diamond sculls, but he was rowed to a standstill to the surprise of every one. His opponent, F. S. Kelley, Balliol College, Oxford, led away from the start and was three lengths ahead at Fawley Court. He maintained his distance and paddled home an easy victor. Kelley started with cutting down tactics. He put in 38 strokes in the first minutes to the American's 35. The wisdom of the manoeuvre was clearly evident. The Oxonian went to the front forthwith and gained a quarter of a length in the first quarter of a mile. At the half mile he was half a length to the good. Kelley's time at Fawley Court was 3 minutes, 2 seconds. He had then tacked on over a couple more lengths and Titus' fate was apparent as he was completely outrowed.

In the ninth heat for the Diamonds, R. B. Etherington-Smith, Leander Boat Club, beat J. Beresford, Kensington Rowing Club, easily. Time, 8 minutes, 58 seconds.

The second heat for the Goblets was a procession, the Londoners defeating the Reading pair in hollow fashion.

The third heat for the Ladies Challenge Plate aroused unusual enthusiasm and the Eton boys, whose special claims to this trophy is generally conceded, carried the good wishes of every one. They had the Bucks shore and took full advantage of it. Christ Church held their own for some distance, but were then rowed down and the Etonians came away and won as they liked, in excelent time, 7 minutes 29 seconds (not 20 seconds as previously bulletined.)

Christ Church started with a faster stroke and kept the nose of their boat in front for a quarter of a mile, and kept the nose of their boat in front for a quarter of a mile, but Eton hauled them hand over hand and were one third of a length in front at Fawley Court, which was reached in 3 minutes 35 seconds. Aided by their station, the Eton boys thence romped away and won by 2 1-2 lengths.

In the second heat for the Wyfold Challenge Cup, Burton Rowing Club beat London Rowing Club easily. Time 8 minutes 18 seconds.

PORTEOUS WILL PLAY.

Another Good and Tried Man Will Come to Montreal's Rescue on Saturday Afternoon Next.

It is announced that another good and tried man, and one who has upon many occasions proven his value to the Montreal Club, will play with them on Saturday next when they meet the Nationals.

This will be Mr. Porteous, who is equally well known as an umpire and a player.

The Nationals, on their part, will do without Lachapelle, who will be replaced by Brown, Dulude, Dupras, or Laviolette. The Shamrocks, at present, are still so uncertain in regard to the progress which Hoobin is making, that they are keeping Wells hard at practice for the coming match.

AN OIL PAINTING OF THE MAYOR OF THE CITY

Mayor Cochrane was astonished to-day by receiving, at the City Hall, an oil painting of himself. It is about a foot and a half long by a foot and a half square. The work of art was framed. His Worship did not know who the donor was. He was pleased, however, at the evident attempt to give him pleasure; but his gratitude was somewhat dampened by his not being able to recognize himself.

He has been painted with a pugilistic pose; while his eyes have a most ferocious look in them. During the day the friends of the Mayor, who visited the City Hall, were shown the masterpiece.

It has not yet been decided to send the painting to the Paris salon.

SCHOOL TEACHERS FROM PITTSBURG HERE.

A party of 178 school teachers and tourists from Pittsburg and vicinity reached the city last night from the west, and will remain here until this evening, when they leave for Quebec and the Lower St. Lawrence. The party is staying at the St. Lawrence Hall. To-day was spent in touring the city, and inspecting its principal points of interest, including the schools and McGill University.

On Friday the members of the party will leave for Lake Placid in the Adirondacks, where they will remain four days. They will then continue their itinerary to Niagara Falls, and thence to Rochester. From Rochester they will return to Pittsburg.

Many Brokers Favour a Two Storey Exchange

It is expected that the remaining details pertaining to the purchase of the site for the new Stock Exchange building will be completed within a day or two. It is very doubtful, however, if work on the new building is begun the present season. It will be necessary to arrange with the present tenants of the property for the remaining terms of the leases, which in one instance runs on for upwards of a year to come.

A great many of the brokers favour the erection of a two storey building, a smaller edition, perhaps, of the New York Stock Exchange. They also incline to a structure in which they will be the only occupants, or, at best, have but one other than themselves.

CONSTABLE FIRED TWO SHOTS AT A FUGITIVE PRISONER.

It took two shots from a policeman's revolver to persuade James Bradey to stop running and allow himself to be arrested on a charge of stealing a rug from a cab driven by Alphonse Renaud. The cab was standing on Dorchester street last night, when, it is claimed, Bradey seized the rug and ran. The cry of stop thief was heard by Constable Tait and he got after Bradey. Commands to stop were of no avail, and, as the pursued seemed likely to make good his escape, the officer fired. Another shot convinced Bradey that he was really wanted, so he stopped and delivered himself up. To-day Judge Choquet remanded him for trial.

A PRACTICAL TEST FOR THE FIREMEN IS PROPOSED.

The Fire Committee is to meet this afternoon and examine some thirty candidates who want to be firemen. At the present time the examinations are conducted verbally. A proposition is to be made, however, that would-be firemen should be taken to fire stations and show, by work on fire apparatus, just what they are capable of doing. It is not improbable that the suggestion may be carried out.

On a Visit to New York.

Mr. C. E. E. Ussher, passenger agent, Canadian Pacific Railway, has gone on a business trip to New York. He will return probably to-morrow.

Latest Developments in Quebec Labour Trouble

(Special to the Montreal Star.)

QUEBEC, July 9.—The loading of the steamship Iberian still proceeds with the crew as for several days past, but a new difficulty presented itself this morning, when the Longshoremen who were discharging carloads of refrigerated meat from the Armours, of Chicago, quit work out of sympathy with the ship labourers, and the steamship people say that they were intimidated, or at least talked into this action by emissaries of the labourers. This afternoon a new gang of longshoremen was secured and set to work at discharging cars.

At present the situation here is as follows: Ship labourers are working on all ships in port, with the exception of Iberian, on their own terms.

Only the Leyland line is standing out against them. This line offers them 25 cents per hour, instead of the 20 paid in Montreal, and offers to guarantee them steady work, amounting to at least ten dollars per week.

On the other hand the men demand 35 cents and decline therefore to work on company's ships. Most of the other labour unions sympathize with them and have passed resolutions supporting them, and their struggle now is to prevent the non-union men on shore from assisting them boycotted ships in any manner. The local business community is indignant at the gross exaggerations of the situation here appearing in out-of-town yellow journals.

A POISONING CASE AT COLBORNE, ONT.

Isaac Lambert is Arrested on Suspicion of Having Caused His Wife's Death.

COLBORNE, Ont., July 9.—Isaac Lambert is under arrest here charged with murdering his wife. Lambert lived with his wife and three children at Hilton, in Northumberland county, about twelve miles from here. His wife died some time ago under circumstances that led the neighbours to believe that she had been foully dealt with. The provincial authorities were communicated with, and Detective Greer was sent here to investigate the case. The body was exhumed and an autopsy held. The stomach was sent to Toronto and an analysis of the contents showed that death resulted from paris green poisoning. The eldest child states that on the day previous to her mother's death, the father quarrelled with his wife and threatened to kill her. A relative was present at the time, and, according to the child's statement, this man pried open with a knife her mother's mouth, while the father poured paris green down her throat.

The prisoner refuses to speak about his wife's death, and maintains a stolid indifference.

HALIFAX, N.S., July 9.—Patrick J. Murphy, representing the Fairbank Scale Co., Montreal, died suddenly at an hotel in Lunenburg, yesterday. He had been indisposed for some days. A coroner's jury sat all the afternoon and adjourned to July 21 in order that an autopsy might be had and the contents of the stomach analysed, the jury not being satisfied as to the cause of death.

Lightning Destroys I. C. R. Station.

(Special to the Montreal Star.)

HALIFAX, N.S., July 9.—The I.C.R. station at Milford was struck by lightning last night and destroyed. McFatridge's drug store was also destroyed.

WANT TO REVERSE ELECTRIC CONTRACT

A Squabble in Council Is Promised Over an Electric Pump.

THE LOWEST TENDERER WON

Water Committee Awarded Contract to Lowest Bidder, But Aldermen are Not Satisfied.

It transpired to-day that there is to be a bitter fight in the City Council over the action of the Water Committee yesterday in awarding an electric contract to the Lachine Hydraulic Company. When the tenders were opened there were aldermen who held the contract should be awarded to the Light, Heat and Power Company. Members dissented from this on the argument that the Lachine Company was the lowest. It is now said that a determined effort will be made in council to overthrow the decision of the Water Committee.

FRESH AIR FUND EXCURSION TO SHERRINGHAM PARK

Over a thousand eager children left this morning by the steamer "Duchess of York" for Sherringham Park. Many parents accompanied the little ones. The journey was pleasing in the extreme. During the trip the children played games on the boat, shouted and had the most delightful time.

Upon the arrival of the boat at its destination the youngsters romped through the park, and during the entire happy day made the woods ring with their excited voices. The little folks were the guests of the Fresh Air Fund, an organization that every year takes thousands of children for outings to the sweet fields and pure invigorating air. Were it not for this philanthropic body unnumbered children would have to say in the city all summer, without even getting a glimpse of the country. These picnics are given weekly. The organization is sustained by gifts from citizens of all denominations. As the hot spell has now reached the city, the organization is in need of all the funds it can possibly get. Further subscriptions will be gladly received.

NO INTERRUPTION TO TRANSCONTINENTAL TRAINS

Advices received at the head offices of the Canadian Pacific Railway to-day state that there is little if any interruption to traffic on the transcontinental line, owing to the recent western floods.

There are two short breaks near Calgary, caused by the rise of the waters of the Bow river, but passengers are being promptly transferred across them, and the railway line will be completely repaired in a few days.

A SUIT ENTERED AGAINST THE MACCABEES

Suit has been entered by Messrs. Beaudin, Cardinal, Loranger and St. Germain against the Order of the Knights of the Maccabees of the World for $2,000 The suit is taken on behalf of Dame A. Lamarche, whose son was insured in the order for that amount. It is claimed by the order that the son made certain misrepresentations in connection with his application for membership. This is denied by the plaintiff.

Fire in a Thread Factory.

The establishment of the Canada Thread Company, of 295 Visitation street, was damaged to the extent of several hundred dollars by a fire which broke out at 2.27 a.m., to-day. The blaze started in an old oil box in the second flat and spread rapidly. An alarm was turned in from box 81 which brought out the men of No. 6 and 11 stations, and the blaze was fought with two streams. The men had to use considerable water before the fire was completely under control.

Stationary Engineers.

At a meeting of the Provincial Association of Stationary Engineers, yesterday, the following officers were elected for the ensuing year: President, J. P. Murphy; 1st vice-president, J. E. James; 2nd vice-president, J. O'Rourke; treasurer, Thomas Ryan; secretary, W. Smith; financial secretary, H. Nuttal; corresponding secretary, Richard Marchand; porter, J. Jenning; conductor, A. Adams; instructor, E. Valiquette; librarian, W. Wair; trustee, James W. Wair.

The New C. P. R. Shops.

The plans of the new Canadian Pacific Railway shops, at Hochelaga, are rapidly progressing towards completion. The plans of several of the car shops are already finished and tenders will be immediately called for in order to find out the cost of construction

Research in Rocky Mountains.

Prof. Fay, of Boston, accompanied by a party of sixteen students, left Windsor street station for the Rockies by the Imperial Limited to-day. The members of the party propose to do considerable mountain climbing while in the west.

SUBURBAN NOTES.

ST. HENRI.—The annual meeting of the Protestant proprietors of St. Henri and Ste. Cunegonde was held on Monday, when Mr. George C. Nicholson was elected a member of the board for three years.

Mr. Odilon David was elected a member of the Roman Catholic School Board for a similar term.

STE. CUNEGONDE.—At the annual meeting of the Roman Catholic proprietors at Ste. Cunegonde yesterday, Mr. Narcisse Lapointe was elected a school commissioner for three years.

MONTREAL SOUTH. — At Montreal South, Mr. Gustave Favreau was elected a member of the Roman Catholic School Board for three years to replace Mr. Israel Breton, whose term expired this year.

OUTREMONT.—At the annual election of trustees for the Protestant Dissentient School at Outremont, held on Monday, Mr. Oliver Holmes was re-elected by acclamation. Mr. Holmes has always been a strong supporter of the new school project and will still continue so.

ST. LOUIS.—At St. Louis du Mile End, Messrs. Ferdinand Legault and Odessa Paquette were elected Roman Catholic school commissioners for three years.

PERSONALS.

(See also page five.)

Mrs. Arthur Hogle and family have left for Notre Dame du Portage, where they will spend the summer.

Miss Katie Manning, of Hartley, Ont., is paying a visit to Mrs. James Kent, Wood ave., Westmount.

Mrs. Perrigo, wife of Dr. Perrigo, has left with her family for Knowlton, where she will remain until September.

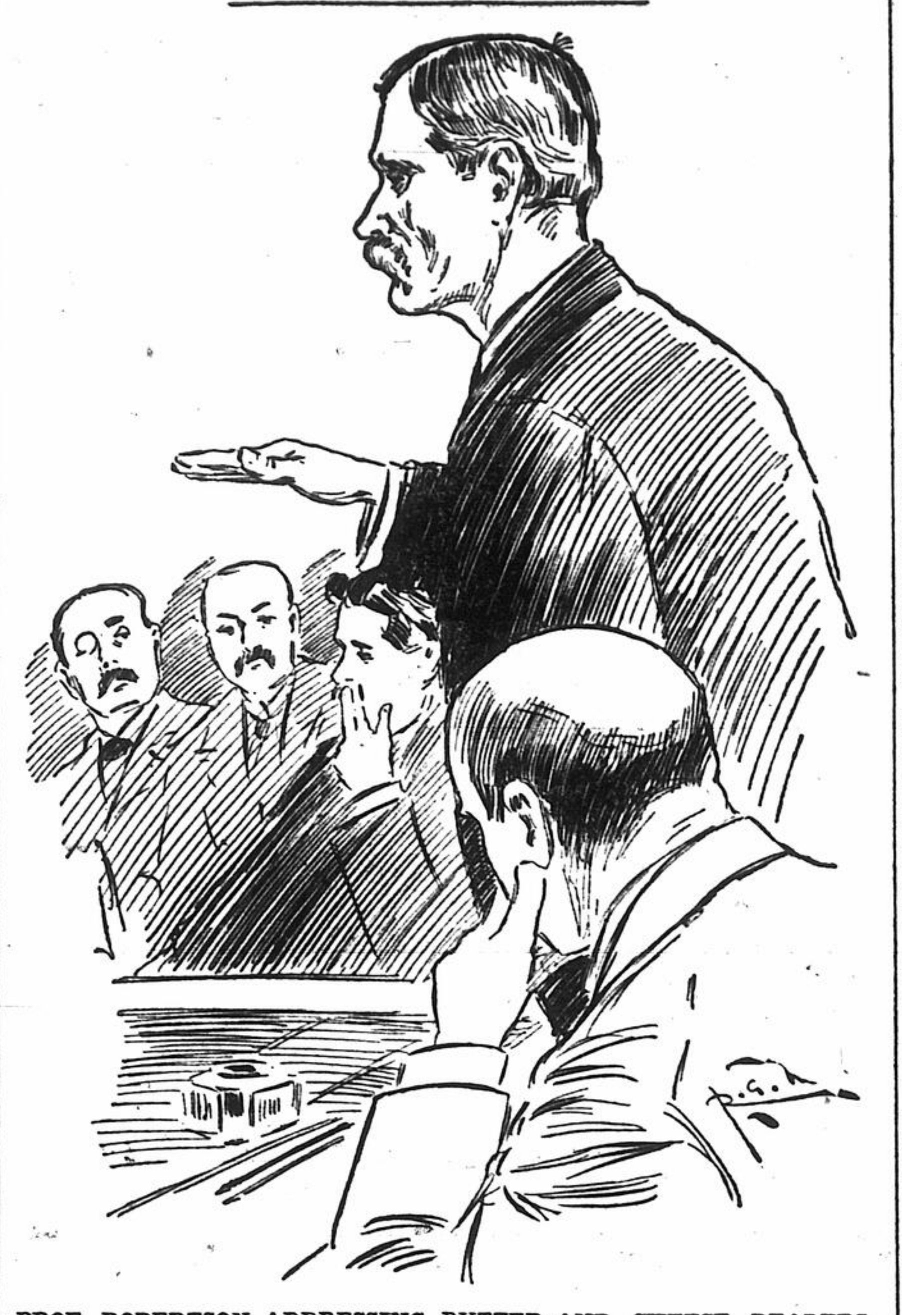
In Ottawa on Saturday the lady members of the Ottawa Tennis Club will give a tea in honour of the McGill College team.

Mr., Mrs. and Miss Ritchot and Miss Daly are leaving to-day for Cacouna, to spend the season at the St. Lawrence Hall.

Mr. and Mrs. Hendry and daughter, of Liscard, Surrey, England, are the guests of Mr. and Mrs. Farrell, Dorchester st., Westmount.

The engagement is announced of Miss Victoria Froude, the daughter of Mr. Thos. Froude, of Toronto, to Mr. Franklin Walter, jr., of Brookline, Mass.

Prof. Robertson Claims More Refrigerator Cars Needed in Butter Trade



PROF. ROBERTSON ADDRESSING BUTTER AND CHEESE DEALERS TO-DAY.

Professor Robertson, Canadian Dairy Commissioner, met the members of the butter and cheese trade at the Board of Trade at noon to-day, and with them discussed various subjects pertaining to the betterment of the trade.

Mr. P. W. McLagan, who acted as chairman, stated at the opening of the meeting that the particular subject to be discussed would include the necessity of refrigerator cars upon the different railways for the conveyance of butter from the country districts to the city. In some cases the product had to be shipped in box cars to its great detriment. For instance, in one day no less than 13,000 pounds of butter had been carried from St. Jerome to Montreal in ordinary freight cars.

Prof. Robertson, in his opening remarks, stated that refrigerator cars had been provided for butter only, but in some cases cheese had been put into the cars. This was detrimental to the butter, in Prof. Robertson's opinion, as the warm cheese tended to bring up the temperature of the cars, and thus injure the butter. The Government had warned the railways against such practices.

The butter, he said, should be kept at as low a temperature as possible. It had been found that 50 degrees was the proper temperature for butter in transportation, and in many cases it had been loaded into cars at 64. When kept at the latter temperature, the butter would taste all right here, but when sent to Europe it was found to have an "off" flavour.

Taking up the subject of cheese, the professor stated that there were some improvements needed in the transportation of this article. One railway claimed that the Montreal cheese men did not wish refrigerator cars.

MISUNDERSTANDING IN MATTER.

Mr. Charles Alexander thought that there had been a misunderstanding in this matter. The Montreal cheese men did not desire that cheese be shipped in refrigerator cars without ice. If there was no ice then a car properly ventilated was infinitely better. The cheese men certainly wished iced refrigerator cars if they could be procured.

Prof. Robertson was of the opinion that they were badly needed. Over thirty per cent. of the cheese which came out of the ships on the other side of the water were greasy looking, mainly owing to the lack of over heating in cars. The professor had arranged for some forty refrigerator cars on the Canadian Pacific Railway system, and he wished the members of the butter and cheese trade to impress upon Mr. J. W. Loud, of the Grand Trunk Railway, the necessity for that line's following the lead of the Canadian Pacific Railway. He had also arranged for specially ventilated cars. Both the Canadian Pacific Railway and the Grand Trunk Railway are now building some.

CHARGES FOR COLD STORAGE.

The question of the extra ten shillings per ton which the steamships charge for the use of their cold storage occupied considerable time. Professor Robertson explaintd that he had been obliged to allow them to charge this as a maximum in order to persuade them to build the cold storage plants. To his mind the 6d. per hundredweight was fully repaid by the butter and cheese landing abroad in so much better condition.

The Dairy Commissioner stated that the $200,000 which the Government had invested in cold storage facilities had repaid the country amply; indeed, it was probably the best investment the Government ever made.

Mr. Arthur Hodgson was of the opinion that ten shillings per ton extra freight was excessive, and that should 5 shillings be charged the refrigerator departments would be more generally utilized. As it is now the trade did not use them, except when driven to it by extreme heat. Mr. McKergow suggested that it be made five shillings, and that it be probibited to ship cheese except in refrigerator compartments.

The stations which had been opened as object lessons for the curing of cheese were working most satisfactorily. Cheese cured in the low temperature Prof. Robertson felt sure would be worth more abroad. He was satisfied that the present reforms would accomplish as much in the next five years as the cold storage has in the five which have now closed.

The question of heating butter and cheese at the railway stations then came up for very general discussion. It was the decision of all those present that to-day this was the great danger which the trade was obliged to face. Butter was very often placed upon hot railway platforms and again in an oily smelling freight shed. It was the weak link in transportation. Professor Robertson, with his usual clearsightedness, was fully aware of what was needed, and he promised to make as much reform in the matter as lay in his power. In time it is expected that cold storage plants will be erected at some half dozen points on the railway lines, and these will in time be followed by others.

Banner Manual Training School in the Dominion

"The success of the manual training school system in Canada has been very marked and gratifying."

Prof. Robertson, Canadian Dairy Commissioner, who is in town to-day, thus spoke of the work of the new system.

"It is almost impossible to conceive of the vast amount of good which these schools are now accomplishing throughout the country. Everywhere the manual schools are working to the satisfaction of all concerned. A long-felt want in our educational system is supplied by these schools, which teach the pupils to use their hands; which trains the eye and which gives a practical training, a development to the pupil, which could never be obtained under the old order of things.

"Well, as to the degree of efficiency noticeable in the various schools throughout the Dominion, I might say that nowhere are such satisfactory results being obtained as in the manual training school at Pictou, Nova Scotia. Here the quality of the work being turned out is extraordinarily good. There are four experts busily engaged in imparting instruction to the children at this point, and it is the opinion of those who have examined the work turned out at Pictou that it is unexcelled even on the Continent, and that its output proclaims it the banner manual training school of the Dominion."

Prof. Robertson stated that it was his intention to visit the manual training school at Westmount before his departure from the city.

Died From Natural Causes.

(Special to the Montreal Star.)

QUEBEC, July 9.—Mrs. Adelarde Lapoint, aged 37, who died suddenly yesterday afternoon, after a fit of vomiting, in the office of Ernest Trudel, who describes himself as a hypnotist, was proved after an exhaustive inquest to-day to have died from acute peritonitis, probably due to ulcer on the bowels. She was ill when she entered the house, where she went to enquire what she should do for pains in her bowels. As it was proved in the course of the enquiry that Trudel had hypnotized the woman five times in May and June, charging $10, therefor, his conduct is likely to form a subject of a prosecution on the part of the college of physicians and surgeons.

Large Sized Hailstones Fell.

(Special to the Montreal Star.)

QUEBEC, July 9.—Hail storms were severe yesterday at St. Laurent, Isle of Orleans, and at Point aux Trembles, Port Neuf. At the latter place, a couple of shanties are said to have been overthrown by the strong wind and much damage was caused to crops. At the Island the hailstones were as large as walnuts. Quebec escaped altogether though the hail fell on both sides of it.

TRADES UNIONS GROWING.—There are now 1000 labour unions in Canada. Three years ago there were 300.

Victim of Bull Well Known.

(Special to the Montreal Star.)

SYDNEY, N. S., July 9.—John McKeen, the highly respected citizen of Mabou, C. B., who was gored to death yesterday, by an angry bull, was well known in political circles. He was a candidate at one time for the Dominion House. He was a son of the late Hon. Mr. McKeen, and a brother of Senator McKeen, of Halifax. The deceased was 59 years of age. He leaves a wife and two children. His son is now on his way home from South Africa with the Canadian Mounted Rifles, in one of which regiments he had enlisted.

Canadian Northern Strike.

(Special to the Montreal Star.)

WINNIPEG, Man., July 9.—The Canadian Northern strike shows few developments to-day. Supt. Hanna claims that the men are beaten and that the trouble will be settled in a few days.

The general opinion is that he is correct. Other unions refuse to join the strikers, but are taking advantage of the situation to demand more pay. Trains were run to-day under great difficulties.

Special Notice.

Silk Umbrellas, Alpaca Umbrellas, Gloria Umbrellas and Cotton Umbrellas by the thousand, for the millions, at The S. Carsley Co., Limited.

IS NOT SO HOT BUT IS MOISTER

The Very High Humidity Caused Considerable Discomfort.

TEN DEGREES GREATER TO-DAY

At One O'clock This Afternoon 85 Degrees of Moisture Were Registered.

The hot wave which struck the city yesterday moderated somewhat near the close of the afternoon, and as a result citizens were able to get about with comparative comfort during the evening.

To-day the temperature, while warm, is not excessively so, and the thermometer readings are not quite as high as those of yesterday. There is a higher percentage of humidity in the air, however, and this has the effect of making the heat, such as it is, a great deal more oppressive than it otherwise would be. Yesterday the percentage of humidity reached a maximum of 75 degrees. At one o'clock this afternoon, when rain threatened, it overlapped that mark by ten degrees. The percentage of humidity, is always greatest, however, shortly before a rainstorm.

Yesterday the mercury reached a maximum of 85 degrees uptown between two and three o'clock. Down town, however, the readings of 88 degrees were commonly recorded. At four o'clock the mercury dropped to 77 degrees, but it soon went up again, until at five o'clock it touched the 81 degree point. At six it had dropped one point, and thereafter it continued to descend until at midnight it had reached the normal temperature of 71 degrees. The minimum temperature for the twenty-four hours was 63 degrees.

During the afternoon a slight thunderstorm occurred, and to this may be attributed the drop in temperature at four o'clock.

To-day the highest thermometer reading was recorded between the hours of one and two this afternoon, when 80 degrees were registered.

Yesterday's heat was more intense in Toronto and other western cities. In the former a maximum temperature of 91 degrees was reached.

It is predicted that there will be a continuance of the heat until Friday, when thunderstorms and showers are promised.

There was one fatality from yesterday's hot wave in this city, to which reference is made in another column.

THE KINGSTON ASHORE AT CHARLOTTE.

The Handsome Richelieu and Ontario Steamer Went Aground in Attempting to Turn Around.

(Special to the Montreal Star.)

KINGSTON, Ont., June 9.—The handsome steamer Kingston is ashore at Charlotte. The river at the spot is quite narrow and in attempt to turn around the steamer went aground. It is hardly thought she will arrive there to-day. It is believed there will be no difficulty in releasing her.

FRENCH PREMIER HAS A NARROW ESCAPE.

(Special to the Montreal Star.)

LONDON, July 9. — Premier Combes narrowly escaped serious injury yesterday, says the Paris correspondent of the Times. While he was returning from the Senate, his carriage collided with another vehicle. Premier Combes, who is a very active man, jumped out just in time, but the carriage was badly damaged.

THE PITTSBURG HOT WAVE.

Six Deaths and Ten Prostrations Since Yesterday.

PITTSBURG, July 9.—The mercury is still in the nineties, but thunderstorms and cooler weather are predicted for Thursday. Six deaths from the heat and ten serious prostrations have been reported since yesterday. The mill workers are the greatest sufferers and many have been obliged to stop work.

A Fire Brigade Resigns.

(Special to the Montreal Star.)

OTTAWA, July 9. — The Hintonburg Volunteer Fire Brigade, the only fire protection in the village, resigned en masse, this morning, owing to efforts made at last evening's meeting of the Council to obtain municipal control over them. It is stated that unless terms are arrived at between the brigade and the corporation, it will be very difficult to secure any fire protection for this suburb.

Gaynor's Health is Not Good.

(Special to the Montreal Star.)

QUEBEC, July 9.—Gaynor and Greene were removed to the Chateau Frontenac in consequence of a recommendation to that effect in a certificate as to Gaynor's health signed by the gaol physician.

Lady Dufferin Offers a Medal.

TORONTO, July 9.—A letter has been received at Dufferin Public School from Lady Dufferin, offering a medal to be competed by the pupils of the school, provided that the school board approves.

New Baseball Decison.

CLEVELAND, O., July 9.—Judge Wing, of the United States Circuit Court, to-day dismissed the proceedings brought by the Philadelphia National League Club against Pitcher Bernhardt to compel him to play with the Philadelphia Club or not at all. The court held that it had no jurisdiction in the case, Bernhardt being a citizen of the State of New York.

The case of Lajoie was then taken up by the court.

Wheat is Higher To-day.

(From the Montreal Star's Special Correspondent on the Chicago Board of Trade.)

CHICAGO, July 9—Wheat is higher. Sept. sold from 73 3-8 to 74 3-8 and 74½c, back to 74c. The sentiment was decidedly bullish owing to excessive rains in the West and South-West, which caused much apprehension over the harvesting outlook. The traders who sold yesterday on the favourable weather were in a scramble to get back their wheat, and commission houses did considerable buying of an investment character. A decrease of nearly nine millions in the available supply was a further help to sentiment. Corn for July sold at 86 to 88c, and September at 61½c to 62c, compared with closings last night of 87c and 61½c, respectively. The July deal was inactive, shorts being less disposed to cover and the bull forces leaving the market alone. Wet weather and the prospects of continued small receipts caused a firm feeling in the distant futures, which met with a good demand from commission people.

Wall Street Gains Lost.

NEW YORK, July 9.—Wall Street—Colorado Fuel opened off at a large fraction, and a few of the railroad stocks were shaded slightly, but the majority of stocks were higher. There was a large demand for St. Paul, and Chesapeake and Ohio and New York Central gained sharply. Secondary quotations were somewhat lower. A general decline in prices reduced the earlier gain to fractions, or wiped them out entirely. Sugar, Colorado Fuel, New York Central, Illinois Central and the active Gould stocks were sold freely, and ran off from 1 to 2 1-4. A few minor stocks showed strength. Near mid-day New York Central was rushed up rapidly to 159, but the general market responded only slightly.

KING OSCAR DOUBTS THE ANDREE STORY.

(Special to the Montreal Star.)

NEW YORK, July 9.—The New York Tribune sent a message to King Oscar of Sweden, asking his opinion of the latest story from Winnipeg about the alleged murder of Andree, the explorer, by Esquimaux. The following message was received in reply from Count Wrangel, Chamberlain to the King:

"By His Majesty's order I have to say that His Majesty has no special reason to suppose murder of Andree by Esquimaux."

Mr. C. C. Chipman, the commissioner for the Hudson Bay Company at Winnipeg, wired as follows:

"A story of three years ago, retold, for which we have reason to think there is no foundation in fact."

Small Vessel Crossing Atlantic.

NEW YORK, July 9.—The 38-foot launch Abiel Abbott Low, commanded by Captain William C. Newman, sailed from College Point, L.I., to-day, for Falmouth, Eng. Captain Newman's only companion on the trip is his son Edward, a youth of 16. The launch is equipped with a ten-horse-power kerosene oil engine, and is expected to reach Falmouth in about twenty days

PURITY is Costly

The purity of Schlitz beer doubles the cost of our brewing.

Cleanliness must be carried to extremes. We even filter the air in our plate glass cooling rooms, to keep out the germs. Then we not only filter the beer, but we sterilize every bottle after it is sealed.

Yet common beer and Schlitz cost you alike. Isn't purity worth asking for?

COTTON CRISIS IN LANCASHIRE.

Trade Believes Heavy Reduction of Output the Only Salvation.

(Special to the Montreal Star.)

LONDON, July 9.—The cotton crisis in Lancashire is growing more acute and the trade regards a heavy reduction of the output as its only salvation. A meeting has been called for July 11, to consider the replies of circulars advocating joint action of the spinners in resorting to short time, as was done during the last two summers. The general opinion is that a curtailment of the production on even a more extensive scale than heretofore will be necessary to avoid heavy losses.

President Charles W. Macara, of the Masters' Federation, says the short supply of cotton and the big discount in the price of future delivery are the main causes of the crisis. He says that speculators have obtained possession of the raw material and that the firms running full time are playing into their hands. The only hope for the Lancashire cotton industry is for the trade to act unanimously.

Some Railway Statistics.

(Special to the Montreal Star.)

OTTAWA, July 9.—From the 1st of January of this year up to the 30th of June 182,315 passengers have been carried by the Canada Atlantic Railway, the increase over the corresponding period of last year being 22,204.

In the year ending June 30th, the Ottawa and New York carried 155,606 passengers as compared with 113,000 in the previous year.

THE ALBANY RIVER DISTRICT

Will be Shortly Explored by the Geological Survey.

(Special to the Montreal Star.)

OTTAWA, July 9.—Arrangements are practically complete for the despatch of a party to explore the country north of the Albany River, which is the boundary between Keewatin and Ontario, but the date of their departure is uncertain. The party will be in charge of a first class topographical surveyor, whose qualifications fit him for the position; and will comprise experts capable of reporting authoritatively on the agricultural possibilities of the region, its timber and mineral resources and its geological features. There is said to be a considerable quantity of timber, particularly pulpwood, in the Albany river country, and the desire is to form a reliable estimate as to the quality and extent. The exploration hardly will be completed before next year, as the territory to be traversed is very large, including districts which have not been previously reported upon by the staff of the Geological Survey.

An Entire Family Murdered.

ENID, O.T., July 9.—Near Prudence, 30 miles southwest of here, the bodies of a man, a woman and two children, apparently members of one family, mutilated into almost unrecognizable shapes were found. The bodies had been stripped of all clothing, leaving no means of identification. It is supposed that the family were strangers travelling overland and that they were robbed and murdered by men who then made off with their team and belongings.

ROOSEVELT AND THE BIG TRUSTS

The President Is Determined to Have Them Regulated.

HIS PITTSBURG SPEECH

He Believes They Cannot be Suppressed But May be Controlled—A Conservative Policy Outlined.

(Special to the Montreal Star.)

WASHINGTON, July 9. — President Roosevelt's remarks on the trust question at Pittsburg on Independence Day were not without great insignificance. The fact is that the President is going to steadily hammer away at the trust question and hopes that at the next session of Congress some definite legislation may be achieved that will meet the views of the people of the country. The President and Attorney General Knox have talked over the trust question with Representative Littlefield of Maine, and have requested him to give the subject his most earnest attention during the recess of Congress, with a view of presenting to the next session of Congress a bill that will have back of it the influence of the administration.

The details of this proposed bill have not been agreed upon, but Mr. Littlefield is now working upon the subject, the President's suggestions to him being that the measure shall seek to both supervise and regulate the trusts. He believes also that the measure should provide for publicity of the business of the great combinations.

A COMPLEX PROBLEM.

In discussing the trusts in his Pittsburg speech, the President said:

"And now, my fellow citizens, I spoke of the task which has confronted those in Cuba and the Philippines as being one of the tasks which this generation had to face. It is only one. We have great problems at home to face. I am speaking in one of the great industrial centres not merely of America, but of the world. A million people stand grouped in a small radius around the spot where we now are. The growth of your cities within this radius has been one of the most striking phenomena of this day, and here, therefore, you are brought face to face with those problems which affected our entire civilization at the opening of this new century. The tremendous rush of our industrial department which has brought in its train so much that is good and also of necessity brought somewhat its evil, the very intensity of the progress that has been made, has meant that new and indefinitely difficult problems have arisen which we must strive to solve as best we may. Under our form of government, with its great decentralization of power, some of those problems must be solved through the work of private individuals working by themselves; others, by the association into organized bodies of groups of private citizens, and others yet through the various governmental agencies of municipality, state and nation. Especially great, especially difficult, are the problems caused by the growth and concentration of great individual and, above all, great corporate fortunes. It is immensely for the interests of the country that there should be such individual and corporate wealth as long as it is used right, and when not used right then it becomes a serious menace and danger.

NEW LEGISLATION NEEDED.

"The instruments and methods with which we are to meet these new problems must, in many cases themselves be new, but the purpose lying behind the use of these methods or those instruments must, if we are to succeed, be now, as in the past, simply in accordance with the immutable laws of order, of justice and right. We may need, and in my belief will need, new legislation, conceived in no radical or revolutionary spirit, but in a spirit of common sense, common honesty and a resolute desire to face facts as they are. We will need, then, new legislation, but, while laws are important, it is infinitely more important that they should be administered in accordance with the principles that have marked honest administration from the beginning of recorded history.

THE NEED OF CHARACTER.

"In the last analysis the most important department of civilized government is the department of justice. Think what it means. The department of justice—justice, which means that each man, rich or poor, big or small, strong or weak, shall have his rights and shall not be allowed to do wrong to his fellows. And you here of this city have a right to feel proud of your representative in the Cabinet, the man under whom we can guarantee that the department of justice will be such in fact as well as in name. When it comes to practical work, the ounce of performance outweighs the ton of promise. And, under Mr. Knox, there has been very much more than an ounce of performance. O my fellow-countrymen, as we face these infinite difficult problems, let us ever keep in mind that, though we need the highest qualities of the intellect in order to work out practical schemes for their solution, yet we need a thousand times more what counts for many, many, many times as much as intellect—we need character. Character, that compound of honesty and courage and common sense, will avail us more in the long run than any brilliancy on the stump or any advising legislative means and methods. The brilliancy is good. We need the intellect; we need the best intellect we can get; we need the best intelligence, but we need more still character. We need common sense, common honesty and resolute courage. We need what Mr. Knox has shown—the character that will refuse to be hurried into any unwise or precipitate movement by any clamour, whether hysterical or demagogic, and, on the other hand, the character that will refuse to be frightened out of the movement which he thinks it right to undertake by any pressure, still less by any threat, expressed or implied.

A CONSERVATIVE COURSE.

"Gentlemen, we have great problems. We can only solve them by degrees. We can only solve them by doing well each particular bit of work as it comes up for solution. Much can be done along the lines of supervision and regulation of the great industrial combinations which have become so marked a feature in our civilization; but if we recklessly try without proper thought without proper caution, to do too much, we shall do nothing, or else we shall work a ruin that will be felt most acutely among those of our citizens who are most helpless. It is no easy task to deal with great industrial tendencies. To deal with them in a spirit of presumptuous and rash folly, and above all to deal with them in a spirit of envy and hatred and malice, would be to invite disaster, a disaster which would be so widespread that this country would rock to its foundations. The Mississippi sometimes causes immense damages by flood. If you cannot dam it and stop the floods, you can regulate and control them by levees. You can regulate and control the current; you can eliminate its destructive features; but you can do it only by studying what a current is and what your own powers are. It is just exactly so in dealing with the great tendencies of our industrial civilization. We cannot turn back the wheels of progress. If we could it would mean the absolute destruction of just such industrial centres as this. We will either do nothing or we will do damage, if we strive ignorantly to achieve the impossible. But the fact does not excuse us for failure to strive to do what is possible. Special legislation is needed; some of that legislation must come through municipalities, some through State, some through the National Government, but above and beyond all legislation, we need honest and fearless administration of the laws as they are on the statute books. Honest and fearless administration of those laws in the interest of neither the rich man as such, nor of the poor man as such, but in the interest of exact and equal justice to all alike, and such administration you will surely have while Mr. Knox remains as attorney general in the cabinet at Washington."

KNOX WILL COOPERATE.

Attorney General Knox is not a public speaker, and never made a political speech in his life, but he will make two or three speeches this fall. The trust question will be the paramount one in his remarks. The Attorney General is in most hearty accord with the views of the President, and the bill to be presented to Congress at the beginning of the next session by Representative Littlefield will have upon it the official stamp of Attorney General Knox. With two such eminent lawyers as Knox and Littlefield preparing a bill there is promise of some definite legislation. The President has not hesitated to say that when he touched upon the trust question in his last annual message it was not his intention that the subject should rest with that.

BILL UNAVOIDABLY POSTPONED.

Other great questions, however, intervened during the session of Congress to prevent his conferring with the leaders as to what might be done, and he was content to let the matter go over to the next session only upon the understanding that by that time there should have been done a great deal o work in getting together a bill that woul demand strong support. The President' determination on this question is going t take away from the democrats a good pa of the material they had expected for cam paign use. The President is going to devot more attention to the subject in his speeches this fall and he intends to push the question to a settlement by Congress.

EXCITING STORY OF THE HIGH SEAS.

The Schooner Mary Sanford Arrives at Pensacola After An Eventful Voyage.

PENSACOLA, Fla., July 9. — A sensational story of mutiny and murder on the high seas is told by Captain McDonald, of the American schooner Mary Sanford, whic has arrived here after an eventful voyag from Bluefields, Nicaragua. During the vo age one man was killed and the crew we in almost contsant mutiny, clamorous for t blood of the man who murdered their shi mate. The murderer, First Mate Nicho son, was placed in gaol soon after the a rival of the Sanford in this port.

The Mary Sanford left Bluefields, June 2 and when four days out, C. G. Nicholson the first mate, killed Fred. Reed, a negro because he did not perform some duties to suit the ideas of the mate. When Captain McDonald saw what had happened, h overpowered Nicholson, took the pistol fro him and threw it overboard. The mate wa then placed in irons and kept under stric guard until the vessel reached Pensacol quarantine station, when the United State marshal's office was told of the murder an Nicholson was brought here and locked up He will be given trial before United State Commissioner Tunison. One of the cre that wanted to kill Nicholson, being a We Indian seaman, countrymen of the dea man, openly resented the murder of Ree and threatened to hang Nicholson from t yard arm. The captain, two mates and t steward were the only white men on th vessel and combined watchfulness of th quartette prevented a marine session Judge Lynch's court. Reed's body w wrapped in sails and buried at sea, a fe miles from where the shooting occurred.

MORE REINDEER FOR ALASKA

Present Government Stock of 5000 to be Increased by 15,000.

(Special to the Montreal Star.)

TACOMA, Wash., July 9. — Rev. Sheldon Jackson, educational agent for Alaska, announces that the Government has undertaken to stock northern Alaska with 15,000 Siberian reindeer. He has left for Nome on his annual tour of inspection with reference to reindeer and educational work. At Nome he will take the revenue cutter Thetis for a visit to the reindeer stations, going thence to Siberia to make further contracts with traders and merchants for supplying the Government with reindeer. His desire is to arrange for the delivery of one to two thousand each year until fifteen thousand have been obtained. He says that these, with the five thousand now in Alaska, and the natural increase, will keep the country supplied with reindeer. They are to be sold and loaned for use in transportation by white residents and natives.

Rebels Lay Down Their Arms.

PANAMA, Colombia, July 9. — General Salazar, the governor of Panama, has received a despatch from Bogota, the capital, announcing that Generals Pedroja, Benito, Ulloa Leal, and Teopilo Garcia and their staffs, together with General Marin, a most important Liberal leader of the department of Tolima, have laid down their arms on account of the guarantees offered by the Bogota Government.

At Carman General de Tacap defeated the Liberal forces under General Munoz, killing or wounding over 200 men. This general also won a victory over the forces of General Garcia Rovira, thus, it is claimed, rendering it useless to cause any more bloodshed.

Toronto Street Car Men Complain.

TORONTO, July 9.—Enquiries made at the Toronto Railway Company's offices regarding alleged dissatisfaction among the men as a result of some employes being laid off, elicited the information that certain of the employes interview President Mackenzie and General Manager Keating, and their claims were gone into carefully. Appeals were made against the decisions of the roadmasters, and the result of the interview was that some men were confirmed in their complaints, and others were sent back to their cars pending judgment.

September School of Musketry.

(Special to the Montreal Star.)

OTTAWA, July 9.—Militia orders issued to-day contain the following: "Officers, warrant officers, and non-commissioned officers desiring to attend the course at the Canadian school of musketry, Ottawa, commencing on September 8th, should forward their application to headquarters at once. It is notified for the information of all concerned, that no reduction from the cost price can be allowed on account of article of Oliver equipment found deficent at inspection. The column "1-3 off" is not applicable in this case.

The Accident on the Winnifredian.

(Special to the Montreal Star.)

OTTAWA, July 9.—The following is the only official report received concerning the accident on board the Winnifredian: "4468, 4th C. M. R., Private M. Groto was accidentally killed at sea, on board the Winnifredian on the sixth inst., the officer commanding was not requested to keep or forward any diary of the voyage, and the only record is probably contained in the ship's log."

Pawtucket Strike is Over.

PAWTUCKET, R. I., July 9.—The Street Railway employes' strike which has been in force since June 9, was last night declared off by a vote of 43 to 14, after a session lasting nearly four hours. The strikers gain absolutely nothing. Excepting five who have made themselves objectionable, all the men wil be taken back on the basis of an eleven hour day, at 18 2-3 cents an hour.

Will Tour Bonaventure.

(Special to the Montreal Star.)

OTTAWA, July 9.—Arrangements are being made by which Hon. Sidney Fisher and Prof. Robertson will make a tour of the country of Bonaventure. They will be accompanied by Mr. Charles Marcil, M.P. for the county.

CORONATION CONTINGENT RETURNS ON SATURDAY.

Militia General Order Respecting the Disembarkation of the Force.

OTTAWA, July 9.—The following general order has been issued by the Militia Department.

"The Canadian coronation contingent having embarked at Liverpool, on the steamship Tunisian, on the 3rd instant, is due to arrive at Quebec, where troops from the Maritime Provinces and eastern Quebec will disembark on Friday, the 11th instant, and at Montreal, where the remainder of the contingent will disembark the following day.

"The accountant of the Department of Militia and Defence, and an official of the Quartermaster-General's office will board the Tunisian at Rimouski. The troops will be finally settled with en route to Quebec and Montreal, and provided with transport and an allowance in lieu of subsistence from place of disembarkation to their homes.

"As soon after the disembarkation as the officer in command considers desirable officers and men will be dismissed in order that they may proceed to their respective homes by first train for which transport has been provided.

"Such arms, accoutrements and equipment as were issued to the contingent out of militia stores will be handed over to the D.O.C. at Montreal, to be returned into store.

"The officer commanding the contingent will; before dismissing his command, impress upon all ranks that they are on duty until such time as they reach their homes.

"The senior officer, or, in the event of there being no officer, the senior non-commissioned officer, will take charge of parties of men travelling with them."

Col. Cotton, quartermaster-general, who returned from Montreal yesterday, says the Tunisian is timed to reach Montreal at 3 o'clock Saturday afternoon.

Westport and Sault Ste. Marie Ry.

(Special to the Montreal Star.)

BROCKVILLE, Ont., July 9.—At the annual meeting of the shareholders of the Brockville, Westport and Sault Ste. Marie Ry., held here yesterday, a very satisfactory financial report was presented. The following directors were elected: Evans R. Dick, Philadelphia, Pa.; Col. W. H. Cole, Brockville, Ont.; Samuel Hunt, Detroit, Mich.; R. Bowie, G. H. Weatherhead, D. Derbyshire, D. W. Downey; E. A. Geiger, Brockville, Ont.; W. C. Fredenburgh, Westport, Ont.; R. G. Murphy, Elgin, Ont.; J. Andrews, jr., Philadelphia, Pa. Mr. Dick is president; Col. Cole, vice-president, Mr. Hunt, general manager; Mr. Geiger, supt. and secretary-treasurer; Mr. Gogo, Brockville, auditor.

Death of Mr. James Watson.

OTTAWA, July 9.—Mr. James Watson, of the Inland Revenue Department, is dead, at the age of 61 years. Mr. Watson was food inspector of the Inland Revenue Department, and his services were highly valued. The late Mr. Watson has been connected with the civil service for fifteen years. He came here from England. A son, Mr. J. F. Watson, of the Experimental Farm staff, and five daughters mourn his loss. One of the daughters is Mrs. H. O. Hewit, of Ottawa. Mrs. Watson died some four years ago.

Pythian Knights at Stratford.

STRATFORD, Ont., July 9.—The Grand Lodge of the Knights of Pythias opened its annual session here this morning. There are about sixty delegates present. Grand Chancellor E. K. Barnstable, of this city, presided. Aldermen Bradshaw and Hamilton on behalf of the city council, extended to the delegates the freedom of the city. The various reports were presented and showed the order to be in a flourishing condition.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder is better than other soap powders, as it also acts as a disinfectant.

CANADIAN PREMIER SPEAKS ON MILITARISM.

He Declares That the British Empire Could Never be Carried Away by It.

LONDON, July 9.—Sir Wilfrid Laurier was one of the principal speakers at a meeting of the British Empire League held on Tuesday. The Canadian Premier, and those of his ministers who are in London, were entertained at a complimentary banquet at the Constitutional Club last night. They were given a grand reception, and the applause which followed Sir Wilfrid's utterances was most pronounced. He said nothing about the Imperial conference. He observed that while some thought the British Empire must be preserved by war, he believed it could be well defended by the arts of peace. Britain, Sir Wilfrid declared, is the one nation in Europe which can never be carried away by the spirit of militarism.

Referring to the conference at the meeting of the British Empire League last night, the Duke of Devonshire said it was almost impossible that the scheme of Imperial defence should be obtained until further opportunity is afforded the representatives to consult with the respective colonies. He thought the commercial relations would be solved in accordance with those economic laws which we now disregard, but which will inevitably assert themselves. Consideration must be given to the state of the Colonial forces.

DOMINION RIFLE MEET.

The Quick-Firing Competition Will be a Good Feature.

(Special to the Montreal Star.)

OTTAWA, July 9.—One of the most interesting competitions at the Dominion Rifle Association meeting will be a quick firing competition with the magazine rifle at 200, 800, 900, 1,000 and 1,100 yards. The value of the prizes, towards which Sir Charles Ross has given $500, will be $1,500. The match will be open to teams from Great Britain and the United States. A movable target match promises to afford good practice to sportsmen.

Woodstock's New Post Office.

(Special to the Montreal Star.)

WOODSTOCK, Ont., July 9. — Woodstock's new post office was formally opened last night. It is a very fine building of gray stone. The cost was $50,000. Postmaster A. McCleneghan has been in office ever since 1873. He is about the oldest postmaster in the country.

The American Exploiters.

LONDON, July 9.—The Daily Mail summing up the operations of American capitalists who are exploiting British industry declares that the members of the British Cabinet are living wholly in the past, and do not know what to do. It adds that unrestrained competition is on trial in the industrial struggle between nation and nation.

WELL KNOWN PRIEST DEAD.

Rev. Father Neville, of Gananoque, Passes Away at Kingston.

(Special to the Montreal Star.)

KINGSTON, Ont., July 9.—The death of Rev. Father Neville, of Gananoque, occurred in the Hotel Dieu hospital last evening. He was brought from Gananoque suffering from paralysis. He was born in Harnie, Ireland, 36 years ago. He received his classical instruction in that country and his theological training in an Irish College of Rome. He was for several years a member of the cathedral staff and his death is regretted by His Grace the Archbishop and others now connected with St. Mary's Cathedral. He spent several years in charge of the parish of Portsmouth, and while there was also Roman Catholic Chaplain at the Kingston Penitentiary. From Portsmouth he went to Gananoque where he had been assistant, connected with a large parish there for about a year.

VETERINARY INSPECTION.

Co-operation Between the Ottawa and Washington Authorities.

OTTAWA, July 9.—An arrangement has been effected under which the Governments of Canada and the United States, have each appointed a veterinary inspector for the purpose of testing cattle for shipment from Great Britain to either country, and it has been mutually agreed to accept certificates issued by either inspector. Dr. T. A. Geddes is the official inspector for the United States, and Dr. A. G. Hopkins is the official inspector for Canada. Collectors are notified that they may accept any certificates of tuberculin test, signed by either of these inspectors and accompanying animals shipped to Canada through United States ports.

Timber Rafts are Smaller.

(Special to the Montreal Star.)

OTTAWA, May 9.—A raft of 90 cribs is passing over the slides on its way to Quebec and is the property of the Rideau Lumber Company. The size of rafts to-day, compared with those of years ago, tends to show how the timber limits are being worked out. Years ago an ordinary raft of square timber contained some 180 cribs; to-day rafts contain only 90 or 100 cribs.

Argentina and Chili.

BUENOS AYRES, Argentina, July 9.—Argentina announces that her policy is absolute neutrality in questions concerning Chile, on the Pacific coast. The convention explains that it is not proposed that either nation shall reduce its naval equipment now afloat.

The Ogilvy Store

Indian Prince Extends Hospitality to Canadians

(Special to the Montreal Star.)

QUEBEC, July 9.—Letters received here from members of the Canadian Coronation Contingent indicate that, nothwithstanding the disappointment caused by the postponement of the coronation and the little annoyances arising from the arrangements of the War Office, the officers and men received an exceedingly warm reception from all classes of English society and had a good time in various ways.

Sergeant-Major J. Kuhring, of No. 5 Bearer Company, Quebec, writes an account of an interesting incident which occurred in a London photographing studio which he was visiting with three companions belonging to the contingent. An Indian prince happened in, and Kuhring, being the senior of his party, promptly called his companions to order, when together they saluted the Indian potentate, who entered into conversation, and after many enquiries concerning Canada, Quebec and the contingent, slipped a five pound note into the hand of the non-commissioned officer. The money was divided between the little party, and for the balance of the day the Quebec boys had a good time at the expense of the prince.

DIED FROM CHICKEN PIE.

Twelve Schoolboys Poisoned at a Meal in Cheefoo.

LONDON, July 9.—In a despatch dated Shanghai, the correspondent there of the Daily Express says that thirteen English and American boys attending the inland mission school at Chefoo, were seized with illness after partaking of chicken pie. Twelve of the boys died, says the correspondent, supposedly from ptomaine poisoning.

Roberts Was Fined $10.

BOSTON, Mass., July 9.—Chas. Roberts, an Englishman and assistant steward on the Cunarder Saxonia, was fined $10 in the East Boston District Court, on pleading guilty to a charge of desecrating the American flag.

Rev. Joseph Hogg Resigns.

WINNIPEG, July 9. — The Rev. Joseph Hogg, pastor of St. Andrew's Church, this city, has resigned from the pastorate.

RHODES' SCHOLARSHIPS.

Canada Will Stand in Same Position as United States.

(Special to the Montreal Star.)

ST. JOHN, N.B., July 9. — Dr. Bridges, Principal of the High School, and superintendent of the schools in St. John, received a letter from Dr. George H. Parkin, England, stating he had made enquiry as to the disposition of the Rhodes Scholarship regarding Canada. Earl Grey informed Dr. Parkin that Canada will stand in the same position relatively as the United States regarding the £300 scholarships to Oxford.

Argentina and Chili.

BUENOS AYRES, Argentina, July 9. — Argentina and Chili have signed a convention defining more precisely the objects of their recent treaties providing for arbitration and the limitation of armaments, with the view of averting the possibility of future complications. Public opinion approves of the new convention.

BISCUITS!

PERRIN'S GRAHAM WAFERS with a glass of pure, cold milk makes a light and refreshing lunch for the hot weather. 160ty1

1852—1902

To Our Esteemed Patrons And the Public in General.

In celebrating the fiftieth anniversary of the founding of the House, we feel it incumbent upon ourselves to express our due appreciation of the patronage so liberally bestowed upon us in the past, with the assurance that it shall be our earnest endeavor in the future to merit a continuance and extension of the same, and to maintain the world-wide reputation we have gained, for the production of strictly first class work.

WHEN KITCHENER LANDS IN BRITAIN

He Will Be Welcomed in the Way Lord Roberts Was.

AN ELABORATE RECEPTION

Has Been Planned to Take Place at Southampton—Will Dine With the Prince.

LONDON, July 9.—The programme for the reception of Lord Kitchener, on his arrival from South Africa, is similar to the one carried out upon the occasion of the home-coming of Lord Roberts, the commander-in-chief of the forces.

After his elaborate reception at Southampton, Lord Kitchener is expected to reach London at noon on July 12. He will be escorted to St. James Palace, where he will be entertained at luncheon by the Prince of Wales. The Prince will act for the King and it is said His Majesty, were it not for his illness would have honoured Lord Kitchener by entertaining him at luncheon as he did Lord Roberts when the latter returned.

The resolution adopted by the London County Council to tender Lord Kitchener the congratulations of London upon the successful termination of the South African war, was opposed by the labour members of the council and by Lord Russell (Liberal), who remarked that he could not forget or forgive the judicial murder of Commandant Scheepers. But the resolution was passed with only a dozen dissenting voices.

SOUTH AFRICAN GARRISON

Will Consist of 50,000 Men Under Lt.-General Lyttelton.

CAPE TOWN, July 9.—The British garrison in South Africa, which will be under the command of General Lyttelton, will number 50,000 men.

LONDON, July 9.—The Daily Mail says the permanent garrison in South Africa is to be 50,000 men, under the command of Lieut.-General Lyttelton. Besides this force the system of having a large number of reservists scattered throughout the country either on farms or in official positions, will be extensively followed. The reservists could be called upon for service in case of an emergency.

COLONIAL PREMIERS GUESTS OF ROYALTY.

LONDON, July 9.—The Prince and Princess of Wales gave a dinner last evening in the state apartments of St. James Palace to the colonial premiers now in London, and 50 other representatives of the colonies and their ladies. Mr. Chamberlain, of course, was unable to attend, but Mrs. Chamberlain was present. St. James Palace was handsomely decorated for the occasion, and the dinner was most pleasant and not particularly formal.

GOOD ADVICE TO MOULDERS.

President Fox Advises Them to Keep Good Faith.

TORONTO, Ont., July 9.—The chief feature of the address of President Fox to the International Iron Moulders' Association, yesterday, was his reference to the necessity of keeping good faith. In the course of a reference to the New York agreement of March, 1899, with the National Founders' Association, which had not operated very satisfactorily, the president said some members of the order had disapproved the course of the executive of the union in adhering strictly to the terms of the agreement, and continued: "I desire to impress it deeply upon the minds of the assembled delegates that no labour organization of any standing can afford to wilfully violate agreements or undertakings to which it has been a party. If it does, it loses materially both in prestige, and in the estimation of the public, and cannot expect to be regarded as a responsible party with whom to make agreements in the future. The only safe policy, the only honourable one, is to faithfully carry out all agreements regularly entered into, until they expire by time limitation or are abrogated.

In dealing with finances, the president recommended no charge in the weekly dues, 25 cents. The total income for the three years' term was $595,262, and the total disbursements $532,101, leaving a balance of $63,160. The receipts of the death, and disabilty fund were $111,916, and the disbursements, $75,631, leaving a balance of $36,285.

LENNOX APPEAL WITHDRAWN.

Mr. Carscallen Has Undisputed Possession of the Seat.

TORONTO, Ont., July 9.—Lennox is now the undisputed property of H. G. Carscallen, as M. L. A. The cross appeal was withdrawn by George H. Watson, K. C., at Osgoode Hall yesterday. Mr. Watson explained that he could only hope to change the decision on two ballots, and as Mr. Carscallen has a majority of three it would be idle to pursue the cross appeal. Both parties demanded costs. Mr. H. S. Blake, K. C., claimed that as the proceedings gave the Conservative candidate the seat the costs should be borne by the Liberals. Mr. Watson contended that as his side had won some of the disputed ballots the decision was not one way, and his clients should not be asked to shoulder the costs. Justice MacLennan reserved judgment as to costs though at first he suggested that Mr. Blake seemed to be making a reasonable request.

Two Conservatives are freed from the anxiety of two election appeals by reason of the expiration of the time allowed for making deposits. Mr. Lackner, of North Waterloo, and J. P. Downey, of South Wellington, are the fortunate parties. The accountant at Osgoode Hall had not received the deposits at noon yesterday, so North Waterloo and South Wellington enter the list of permanent assets of J. P. Whitney.

Ottawa Street Railway Wages.

OTTAWA, July 9.—The committee of employes of the Ottawa Electric Railway Company waited upon the officials of the road last night and asked that the present scale of wages be advanced to 20 cents an hour for old men and 18 cents for the new men. The request of men was refused for the present, as it was claimed that the present receipts did not allow of any increase being given.

The Daily Star.

WHAT IS THE TRUTH ABOUT THE ROYAL NAVY?

They have been having another discussion in the House of Lords on naval topics. But it is astonishing what a lot of talking can be done in Parliament about naval matters without throwing much light upon the actual condition of the navy, and without even settling such questions as have been raised by Lord Charles Beresford, and by hostile foreign critics. The Contemporary Review for July contains a translation of an article by Herr Ernst Teja Meyer, a well-known German writer an naval topics, entitled: "A German View of the British Navy." It is only right to say that the whole tone of the article is so savage and so frankly, bitterly hostile to England and everything English that it would be foolish to take Herr Meyer's criticisms at anything like their face value. According to this gentleman, the British navy is weak in everything except numbers and tonnage. The criticism is so sweeping that the general disposition in England will be to laugh it to scorn, and this will be especially the disposition at the Admiralty. But there ought to be some means of finding out and demonstrating the truth about the condition of the navy. The truth about the boilers, the armour plate, the ammunition, the personnel. Of course the first great naval war will reveal the truth about these things just as the opening of the South African war revealed some unsuspected truths about the condition of the army. Did not a member of the Government acknowledge that there was a moment previous to the war when he was nearly collapsing at the discovery of the awful fact that the army was almost destitute of ammunition. The fact that Herr Meyer declares the Royal Navy to be as little prepared for hostilities as was the British army is not of great consequence, but the fact that in saying this he is repeating Lord Charles Beresford makes the matter worth investigation. The naval wars of the future threaten to be short, sharp and decisive, and to allow little time for rectifying the blunders of the Lords of the Admiralty.

IF CHAMBERLAIN WERE GONE.

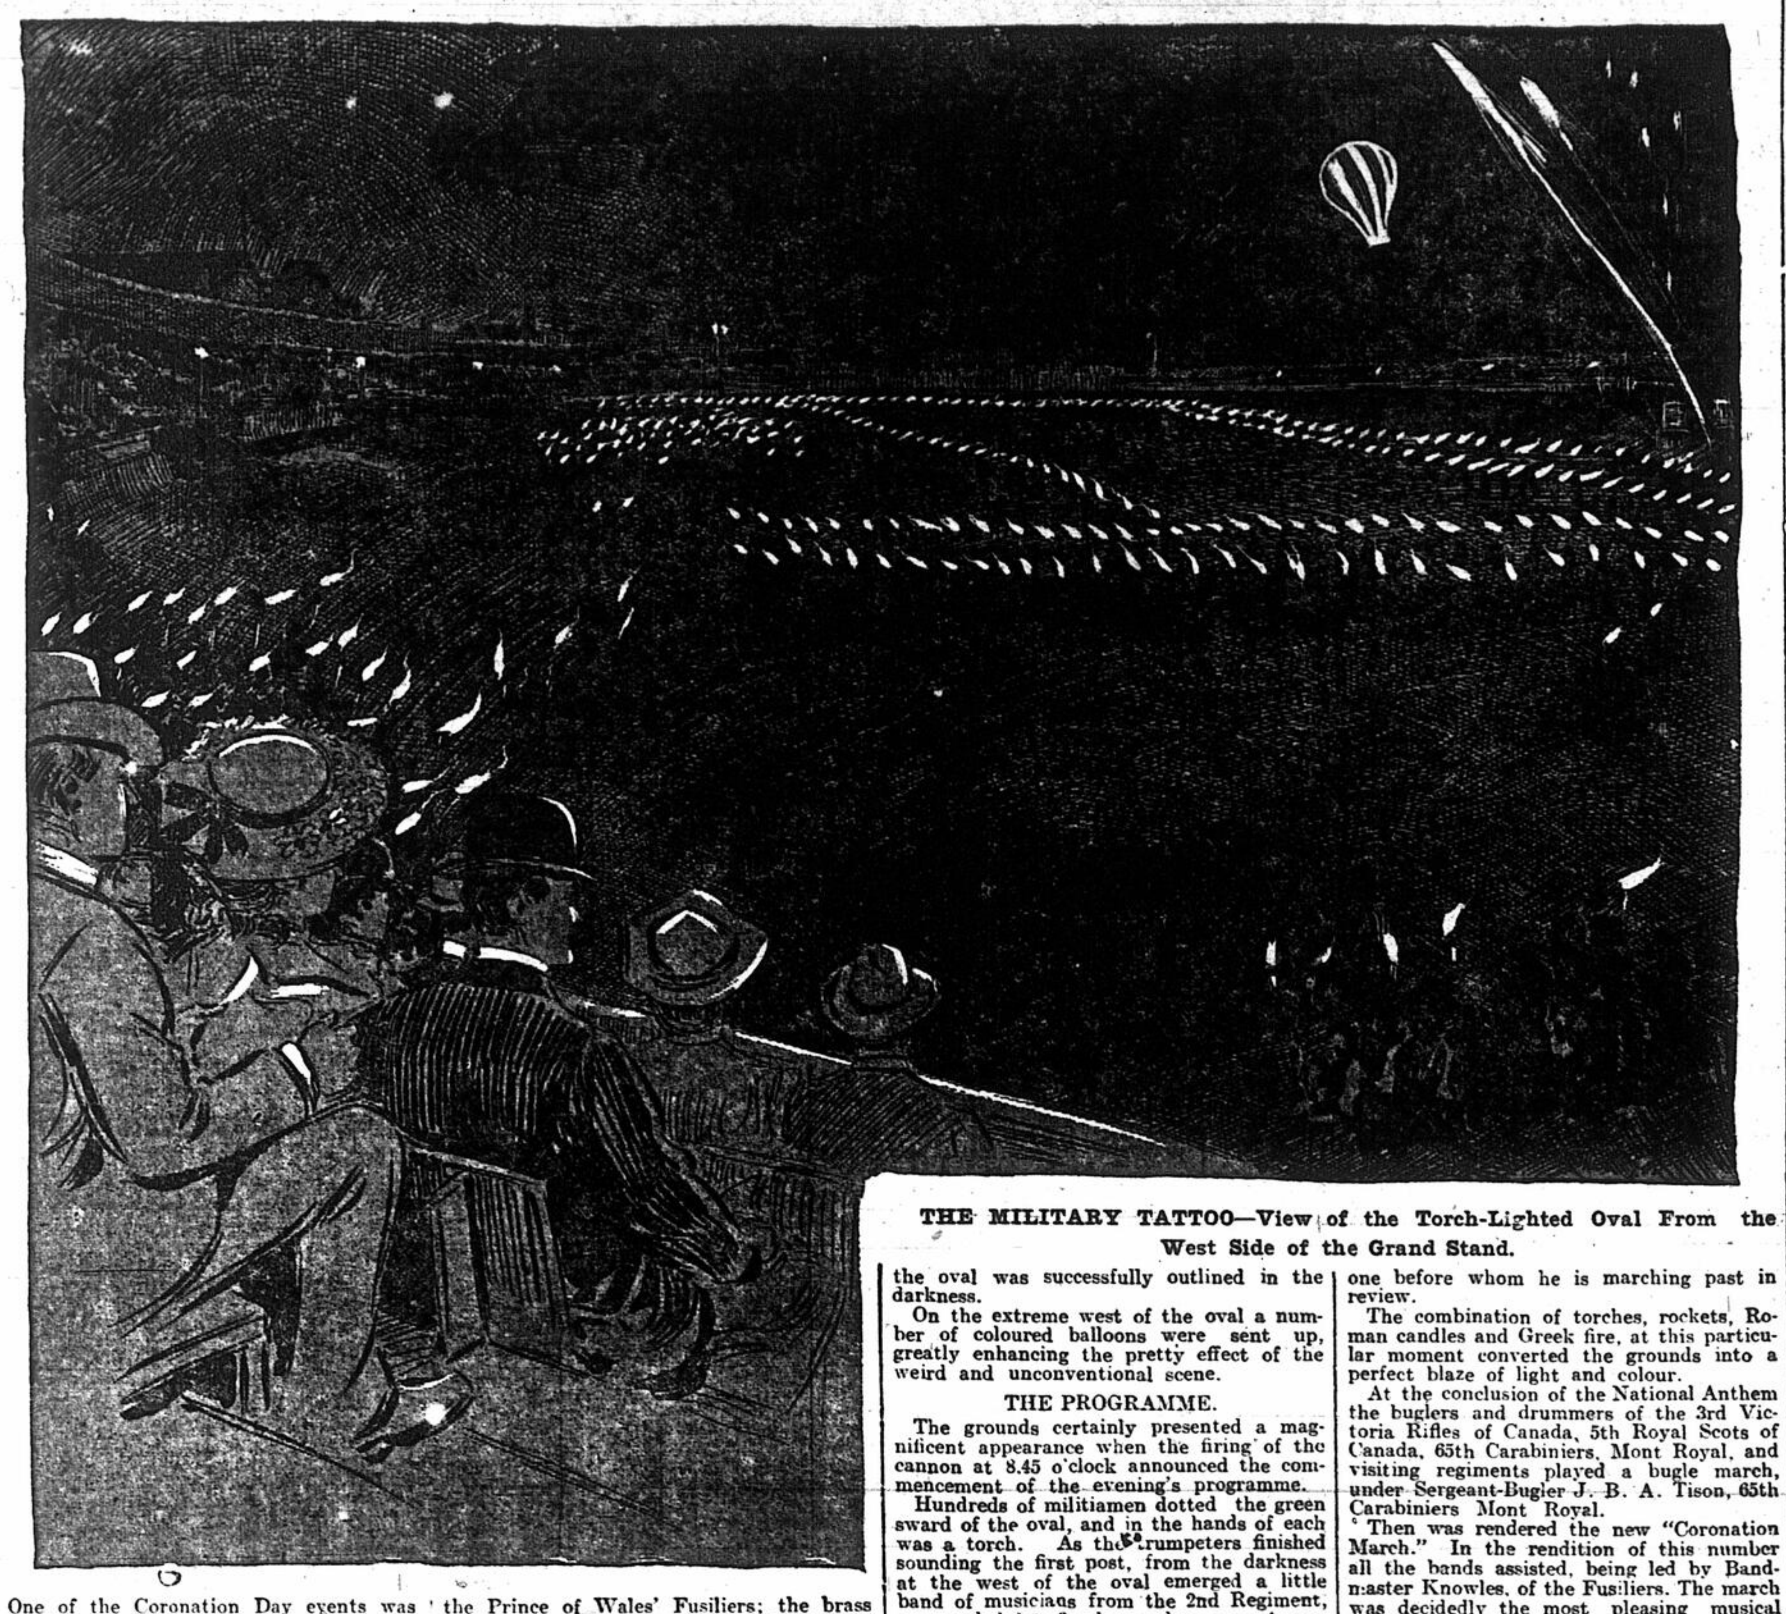
The serious accident to Mr. Chamberlain very naturally raises the question in many minds of what effect his withdrawal from the field of British politics at this time would have on the course of events. Mr. Chamberlain has long ago passed from the position of a joint leader with the Duke of Devonshire of a faction of Liberal Unionists, and has become a strong personal force in British politics, quite apart from the Irish question. The test of this is to ask one's self if the entire withdrawal of the Irish problem from the medley of issues at Westminster would necessarily mean the retiremen of Mr. Chamberlain from the Conservative Cabinet. Notoriously, it would not. Mr. Chamberlain left the Liberal party on the Irish issue; but he has made for himself an entirely new place in politics since that event. In fact Lord Rosebery is very nearly to-day what Mr. Chamberlain was then; but there is little chance of Rosebery and Chamberlain getting together. The Man from Birmingham has travelled a long distance since he made his "adieux" to Mr. Gladstone.

He is now one of the three or four strong Ministers in the existing Government. Apart from Lord Salisbury, it is a question whether he does not bring more popular strength to the Ministry than any of his colleagues. He is credited with possessing the greater share of initiative displayed somewhat sparingly by the Government and with being the man to whom the country must look now for constructive statesmanship.

If his figure were to be removed from the Government benches, two things would happen at once. Sir Michael Hicks-Beach's lead toward permanent free trade and away from colonial preference, would be seen to be almost unopposed; and Mr. Balfour's philosophic leadership of the party of "benevolent government from above," would be assured for an undisturbed future. Undoubtedly "Joe" Chamberlain is the disturbing element—the principle of movement—in the Unionist party as at present constituted. With his disappearance, movement—perhaps in the wrong direction—would become more definitely and clearly the attribute of Radicalism.

But the falling of a "hansom"—an accident which Londoners are always daring—has not proved so serious in this case; and we may indulge in these speculations without any feeling that they are near to realization.

Military Tattoo Celebrated the Recovery of His Majesty the King



THE MILITARY TATTOO—View of the Torch-Lighted Oval From the West Side of the Grand Stand.

One of the Coronation Day events was pulled off on the M. A. A. A. grounds last night.

It consisted of the military tattoo, which had been arranged for the evening of that day, but which had had to be cancelled along with other forms of Coronation celebrations, on account of the King's illness.

The tattoo was held last night to celebrate the King's recovery.

It proved to be a unique and a pretty spectacle.

It attracted thousands.

The programme, as all tattoo programmes are, was varied, and widely different from every other pageant connected with martial life.

Besides the charming spectacular effect produced by hundreds of torches, and all sorts of coloured lights, there was plenty of good music, and a great variety of fireworks.

The tattoo gave Montrealers an opportunity of hearing a pretty Coronation march, and its rendition was one of the features of the evening's musical programme.

The programme was carried out in its entirety, and from first to last everything went smoothly and in its appointed order. There was not a hitch during the entire evening.

At 8.45 o'clock the first gun was fired, and by 10.30 o'clock, when the last post was sounded by the trumpeters and buglers, the various items on the programme, including the display of fireworks, had been finished, and the only thing that remained to be done was to disperse and dismiss the military and the bands.

In the tattoo detachments from all the city regiments participated. Two cadet organizations were also represented. The bands included the brass and fife bands of the Prince of Wales' Fusiliers; the brass and pipe bands of the Royal Scots; the brass bands of the Victoria Rifles, 65th Regiment, 85th Regiment and the 2nd Regiment Canadian Artillery: and the buglers and drummers of the Victoria Rifles, Royal Scots, 65th Regiment and the Highland Cadets.

The flambeaux bearers included men from the Battery, the Duke of York's Hussars, the 2nd Regiment Canadian Artillery, the Fusiliers, the Vics., the Scots, the 65th, the Highland Cadets and the Westmount Cadets.

They numbered in all about 600.

SUPPLIED WITH TORCHES.

At eight o'clock these men were supplied with torches and assigned to positions on the ground.

They were formed up in double lines at five paces' interval, and through their ranks the bands afterwards marched.

The sight when all these men were in position and when the torches had been lighted was certainly as picturesque as one could wish for. As a spectacle it has not been equalled in this city since the tattoo of 1899.

The men were so placed that they formed three sides of a square. In the centre of the formation markers were stationed upon whom the bands as they halted were to form up. The markers carried torches.

In front of the reviewing stand a field-piece from the equipment of the 3rd Field Battery had been placed, and around it stood the firing squad at ease.

Back of and above the middle section of flambeaux bearers the features of the King and Queen were outlined in fire on a metallic screen, and hard by were a number of stands from which rockets and other forms of fire-works were subsequently set off.

On the outer edge of the oval the Highland Cadets were stationed at intervals of 15 paces, and as each cadet carried a torch, the oval was successfully outlined in the darkness.

On the extreme west of the oval a number of coloured balloons were sent up, greatly enhancing the pretty effect of the weird and unconventional scene.

THE PROGRAMME.

The grounds certainly presented a magnificent appearance when the firing of the cannon at 8.45 o'clock announced the commencement of the evening's programme.

Hundreds of militiamen dotted the green sward of the oval, and in the hands of each was a torch. As the trumpeters finished sounding the first post, from the darkness at the west of the oval emerged a little band of musicians from the 2nd Regiment, surrounded 1[illegible] flambeaux bearers. A moment later the order, "Quick march," was given, and then the strains of "The Maple Leaf Forever" burst upon the ears of the throngs which filled the spacious grand stand.

Down through the darkness and past the reviewing stand the band and its body guard made its way. When it reached the double line of flambeaux bearers on the east side of the oval it wheeled to the right and continued its course through the ranks of these men, until it had reached its marker. There it halted.

As it ceased playing the band of the Fusiliers made its appearance at the point at which the artillerymen had commenced their march, and subsequently followed in the footsteps of the latter. As it passed the reviewing stand, the artillery band united its strains with those of the Fusiliers, and to the music of both bands the latter continued its march until it, too, had been halted beside its marker.

Then followed in succession the bands of the Vics, the Scots, the 65th Regiment, and the 85th Regiment, each in turn playing its own regimental march, and each following the precedent of the artillerymen and Fusiliers.

Shortly after the bands had been lined up in the centre of the quadrangle formed by the flambeaux bearers, the strains of "God Save the King," accompanied by a splendid roll of drums and a royal salute of rockets, were wafted over the air in all directions. The spectators on the grand stand rose to their feet and uncovered their heads; the pyrotechnic man displayed pictures of the King and Queen, in lines of fire, against the darkened sky, and an endless variety of magnesia lights sprang into flame all over the grounds. Fiery fountains discharged their liquid contents, and the flambeaux bearers allowed their torches to drop to the ground in the same manner as an officer permits his sword to drop after saluting one before whom he is marching past in review.

The combination of torches, rockets, Roman candles and Greek fire, at this particular moment converted the grounds into a perfect blaze of light and colour.

At the conclusion of the National Anthem the buglers and drummers of the 3rd Victoria Rifles of Canada, 5th Royal Scots of Canada, 65th Carabiniers, Mont Royal, and visiting regiments played a bugle march, under Sergeant-Bugler J. B. A. Tison, 65th Carabiniers Mont Royal.

Then was rendered the new "Coronation March." In the rendition of this number all the bands assisted, being led by Bandmaster Knowles, of the Fusiliers. The march was decidedly the most pleasing musical number of the evening, and proved to be full of pretty harmonies. It is very different from the ordinary run of marches, and is more adapted to a concert programme than to route marching. The parts are wonderfully melodious, and the composition has a swing and a beauty that will no doubt make it extremely popular. It is to be hoped that it may be heard again on Coronation Day. The work of the bands in this number was very pleasing, and under the circumstances was beyond criticism.

Following this selection the drums and fifes of the First Prince of Wales' Regiment played a march, and then came the German tattoo music. The massed bands, under the direction of Mr. C. C. Anthony, bandmaster of the Fifth Royal Scots, gave this selection in faultless style. The players were under good control, and the manner in which the harmony was preserved was a pleasant treat. After this the pipers swung out, and the stirring skirl set every foot beating in unison. This was followed by a bugle march.

Then Mr. D. Picard, bandmaster of the Sixty-Fifth Mount Royal Rifles, assumed the direction of the musicians and a selection of national airs was given. "The Last Post," was given by the trumpeters and buglers, after which the masesd bands played "Rule Britannia," and "God Save the King."

The conclusion of the tattoo was a worthy one to the excellent entertainment which had been given previously. All the torchbearers were massed at the eastern end of the grounds. They stretched in two long lines across the big field. The lines were some distance apart and between them the regimental bands took their place. At the word of command the whole body marched off, the bands playing a patriotic air.

The proceeds of the tattoo will be devoted to the Soldiers' Monument Fund.

Pain in Stomach

It has been said that a healthy person doesn't know he has a stomach.

How unhealthy the dyspeptic must be!

He feels as if he were all stomach, and one thing that makes him feel so is that pain at the pit of the stomach—sometimes an "all-gone feeling"; sometimes a "burning sensation."

"I suffered from pains in my stomach and could not eat. An old gentleman told me to take Hood's Sarsaparilla, which I did, and after the use of four bottles I gained my appetite, and I was soon completely cured, so that now I feel like a new man. On no account would I be without Hood's Sarsaparilla in my house." Henry Callan, 71 Commercial street, Portland, Me.

Hood's Sarsaparilla and Pills

Cure dyspepsia, invigorate and tone the whole digestive system. 160 1

Securities Were Sold.

At the office of Mr. R. B. Hutchison yesterday a quantity of stocks, more or less valuable, were disposed of to the highest bidders. These securities were a portion of the estate of the late Major E. L. Bond, and the prices realized were as follows:

5000 War Eagle Copper Gold Mining Company	$20
20 Montreal Curling Club	70
10,000 Big Three Gold Mining Co.	32
15,000 Decca Mining Company	20
40 Phillipsburg Junction Railway and Quary Company	400
20 Ontario Accident Insurance Company	255
10 Royal Victoria Life Insurance Company	135
2500 Twin Silver Mining Company	1
25 Bubeck Company	1,200

Three shares of the Athletic Club House Company were sold for ten cents, a like sum being realized for two lots of five shares Montreal Cafe Company, and six shares of the Montreal Stave and Barrel Company.

The immovable property at Phillipsburg was sold this morning, the sale taking place at the door of the Episcopal Church, at that place. The sale of a lot in Mount Royal Cemetery will take place Friday, at the door of the Catholic Parish Church of St. Viatur d'Outremont.

Street Car Accident.

To the Editor of the Montreal Star:

Sir.—I wish to draw your attention to the account in Monday's "Star," of the street car accident through the breaking of the trolley wire, on St. Catherine street, Westmount, Saturday afternoon, and by which my wife was seriously injured.

When you say, that had she remained seated in the car, she would not have been injured, you have evidently been misinformed of the facts. My wife remained seated in the car after the wire broke and the motorman had deserted his post without applying the brake; in fact remained until caught by the live wire, and was dragged from the car to the ground.

Had it not been for the presence of mind of a gentleman who witnessed the accident and pluckily jumped on the car and stopped it, the result might have been appalling, as the car had just reached the top of an incline when stopped.

A. A. McCALLUM,

117 Belmont Place, Westmount.

Mrs. Blanchfield

Among visitors at present in Montreal, viewing for the first time the varied points of interest, and enjoying the scenery of mountain, river and plain, is Mrs. John Blanchfield, of Oustic, Wellington county, Ont., one of the pioneers of that county.

Mrs. Blanchfield, hale and vigorous at the age of 67, is the mother of thirteen children, six sons and seven daughters, all of the latter being married, while her six sons are conducting business in as many separate locations from Bar Harbour, Maine, to Dawson City, Yukon, and across to New Zealand.

"DRY-ROYAL" CHAMPAGNE

Is unequalled by any other Sparkling Wine at its price, and unsurpassed by many of the fancy brands at double the figure. Try it,—place it alongside the "double-the-price" Champagnes and see for yourself. 160x1

LAKE ST. LOUIS

FOR SALE—A charming summer home on the best point on Lake St. Louis; lot has 100 feet frontage on the lake shore, by about 300 feet deep; main road about three hundred yards in rear. House contains drawing room, dining room, library, kitchen, pantry and storeroom on ground floor, and six bedrooms above; hot and cold water pipes, bath and w. c.; walls and ceilings finished in natural wood. All houses in the vicinity are occupied by summer resident proprietors. Good boat house, furniture, boat, etc., and a stable lot north of the main road, included in the purchase price. Excellent train service. Owner now occupies the place and would give immediate possession. Price only $5,500, of which $3,000 can remain on mortgage if desired.

Distribution of Prizes.

There was a large crowd present at the distribution of prizes at the Reformatory of the Brothers of Charity on De Montigny street last evening. Rev. Brother Hildward made a few appropriate remarks to each prize winner. During the evening a play called the "Martyrdom of St. Sebastian" was presented. In a short address, referring to the Protestant Reformatory at Sherbrooke, which is too small, Brother Hildward said that he had been approached by the Government to allow the boys to be taken in by his institution. This he could not allow, as it would be impossible to have two religions in one establishment; and though he would be pleased to let the Protestant ministers visit the Protestant boys, he could not see his way to separate religious instruction. This was his policy towards the Jews. The Hebrew boys committed to a reformatory can elect whether they go with the Protestants to Sherbrooke or the Catholics to Montreal, and they all prefer Montreal. The rabbis may visit them, but they may not celebrate their religious rites within the institution.

ANNUAL CONVENTION—Arrangements are being made by the International 'Longshoremen's Association for their convention, which is to be opened in Chicago on July 14.

THE LAUNDRY WORKERS.—A mass meeting of the Shirt Waist and Laundry Workers' Union will be held this evening in the Oddfellows' Chambers, 1863 Notre Dame street. Arrangements will be made for the proper observance of Labour Day, and a committee will be appointed to take charge of the annual picnic. The question of being represented at the coming convention of the Trades and Labour Congress of Canada will also be discussed.

OUR $3.50 WATCH

ACTUAL SIZE.

We have had this Watch made specially to our order to enable us to offer a good timekeeper at a very moderate cost.

This Watch has a 7-jewelled lever movement with compensating balance, stem set and in a gun metal case.

R. HEMSLEY,

255 St. James St., Montreal.

Mail Orders receive prompt attention.

Our Store closes at 1 o'clock Saturday during July and August.

LACHINE RAPIDS CO. WILL SUPPLY POWER TO PUMPING STATION

When the Water Committee met yesterday afternoon tenders were opened for the supply of electric power for the high level pumping station. It was decided to accept the offer of the Lachine Rapids Company. The price was $20 a horse-power from 10 p.m. to 10 a.m. The contract is worth about $8,000 a year. A tender was received from the Montreal Light, Heat and Power Company, asking $21.50 from 7 p.m. to 7 a.m.

Ald. Ouimet wanted both tenders sent to the Council, but Chairman Clearihue thought a choice should be made, which the Council could accept, or not. This was what was decided on, Ald. Ouimet's motion to reconsider being lost.

THE CITY CHILDREN REJOICE IN THE SUMMER PLAYGROUNDS.

The summer playground at Royal Arthur school was attended last week during the afternoons by 480 boys and 338 girls. The evening session for boys employed during the day was attended by over eighty on the first night it was held. It lasts from six to half past eight o'clock, and is under the direction of a physical instructor.

At Berthelet school last week, 268 boys and 210 girls took advantage of the playground's possibilities in the way of amusement.

At both schools the children behaved admirably and gave no trouble. The committee in charge would be glad of donations of games of all sorts and especially of quoits or checkers.

A NEW PROCESS OF MAKING GAS.

There was a demonstration of gas making by a process which is entirely new and which has many admirable features, at No. 91 Inspector street, yesterday afternoon. This process of generating lighting a heating gas from gasoline was invented by two Canadians, Messrs. F. Paul and A. F. Gundlack, of Sorel, and is controlled by Mr. A. W. Morris.

Mr. Morris has had the system thoroughly tested by the McGill and other authorities, and they all agree that the process is such that it is likely to revolutionize the entire gas making process now generally in vogue. The gas is generated by passing air through gasolene in a chamber arranged so that the air becomes saturated with the vapour of gasolene.

The process has the advantage of being entirely unaffected by cold; in fact, it has been worked with absolute success in the very coldest periods in the Canadian winter, and that in an entirely unprotected location; the reason for this being that the gas is without moisture. The light is cheap. According to controlled tests made yesterday the quantity of gasolene used in producing 1,000 cubic feet of gas was calculated to be 1.83 gallons, or one gallon of gasolene produced 546 feet of gas; at a cost of 17 cents a gallon for gasolene, the gas would cost 31 cents a 1,000 feet.

An Auer burner was used, producing 150 candle power from 5 3-4 cubic feet of gas an hour. The heating quality of the gas was also successfully demonstrated to be much cheaper than coal.

PEOPLE'S MUTUAL BUILDING SOCIETY.

The quarterly meeting of the People's Mutual Building Society was held last night in the Mechanics' Institute, 204 St. James street. In the absence of Mr. C. B. Carter, the president, who is in England, the chair was occupied by Mr. J. Widmer Nelles, the vice-president, who made a short address, during which he strongly advised all young men to join the building society and erect homes for themselves. He claimed that the real estate values are lower in Montreal than in any other city of a similar size in North America. The Montreal society, he said, commenced business in 1893 and up to to-day have nearly $170,000, with over $1,000,000 subscribed and have never lost one cent. The speaker thought the people do not fully realize the great benefits to be derived from being connected with a Mutual Building Society. The state of Pennsylvania had over $110,000,000 invested in Building Societies, and Ohio is nearly as great and other states follow very closely, there being over $600,000,000 assets in the United States. In 1893, the cash income in Pennsylvania was $44,432,686, and through the efforts of the society more than one million homes were secured. In conclusion, the speaker said that it was possible for young men to accumulate money with the assistance of the saving bank, but the average person has not the courage to resist some of the very alluring get-rich-schemes that in so short a time absorb all the hard earned savings. The extremely low real estate market of Montreal, which may never again be offered, should be taken advantage of by all those who desire to get on in the world.

AMUSEMENTS.

Proctor's.

The fact that Miss Ethel Knight Mollison, late leading lady with Richard Mansfield, is to appear at Proctor's next week is arousing much interest in theatrical circles. Miss Knight is cast next week in the powerful play "Mrs. Dane's Defence." The piece has never been seen in Montreal before; it was made famous in London by Sir Charles Wyndham, one of the most capable actors of the day. No expense is to be spared in putting on the production in this city.

Theatre Francais.

"Held by the Enemy," with its stirring war scenes, is doing excellently this week at the Francais. Next week it will be succeeded by Sir Charles Young's fascinating social study, "Jim the Penman," which will give the Corse-Payton Company an opportunity of showing their versatility in a work distinct from any they have appeared in up to the present. The revival of a play admitted to be one of the masterpieces of modern stagecraft will be looked forward to with interest, especially as it has proved one of the stock company's greatest successes in other cities. Some new and high-class vaudeville specialties will be introduced between the acts.

The Baseball Match.

On account of the baseball match on Thursday afternoon (on the Montreal Baseball Grounds) between the male members of Proctor's Stock Company and the newspaper men of the city, the curtain will go up at the matinee at one o'clock. The proceeds will be given to charity.

Harbour Board Postponed.

Owing to the illness of Senator Robert Mackay, the usual weekly meeting of the Harbour Commissioners was postponed from this morning until this afternoon. It is hoped that the chairman will be able to attend the meeting.

THE WEATHER

SHOWERY

MONTREAL, July 9, 1902.

Readings by the Optical and Engineers' Supply Company's standard barometer at noon yesterday, 29.91; at 8 a.m. to-day, 29.89; 11 a.m. to-day, 29.91; temperature to-day, maximum 79, minimum 62; yesterday, maximum 85, minimum 66.

Sun rose this morning at 4.44 o'clock. Will set this evening at 8 o'clock.

Probabilities for the next twenty-four hours, specially predicted for the Montreal Star at 11 a.m. to-day:

Warm weather, becoming showery, Thursday, fresh westerly winds, local showers, but mostly fair.

Maximum and minimum temperatures during the past twenty-four hours: Victoria, 66, 48; Kamloops, 80, 50; Calgary, 64, 42; Qu'Appelle, 62, 44; Winnipeg, 66, 46; Parry Sound, 78, 58; Toronto, 91, 60; Montreal, 80, 66; Quebec, 84, 58; Halifax, 64, 58.

ST. ANDREWS, N. B., July 9. — Weather bright and warm. Wind east, light.

OLD ORCHARD, July 9.—Weather fine; temperature 78. Wind north-west, clear.

TAX FOR WOODEN AWNINGS MUST BE PAID.

The city is notifying proprietors that a new tax must be paid. It is for wooden awnings. Many large establishments have awnings that cross the sidewalk, and only end at the commencement of the street. It is held that such awnings must pay a tax. In future all persons wishing to erect such structures will have to get permits. The following are some of the establishments that will be affected by the new enactment:

The Grand Trunk Railway Station, St. James street side	$91
Windsor Hotel	7
Proctor's Theatre	14
Theatre Francais	10
Hudon, Hebert & Co., wholesale grocers, Leroyer street	28

HIS HOLINESS SENT HIS BLESSING TO THE ARTISANS.

At yesterday afternoon's session of the Societe des Artisans Canadiens Francais, a communication was read from His Holiness the Pope, in reply to a letter from Canon Archambault. He congratulated the society on the great progress made during the past few years, and offered his blessings.

The afternoon was occupied in discussing the various amendments to the constitution. It was decided to fix the monthly dues according to the age of the member. The chair was occupied by the president, Mr. Joseph Thibault, and the assembly adjourned at 11 o'clock.

Do You Know Our Store

Allan's

GOODS WELL BOUGHT ARE HALF SOLD

Goods well bought are half sold is a very old business saying, and there is a great deal of truth in it.

WE HAVE THE REPUTATION OF CLOSE BUYERS.

We only buy for cash, and quantity does not frighten us. We take every cash discount, and where there is opportunity of an extra discount for prepayment on dated goods, we take it also.

Manufacturers and jobbers are all aware of this, and when they have special values to offer they are after us. Therefore we are able and do offer the best goods in the market for the prices asked.

We cater for the Men's and Boys' Hat, Clothing and Furnishing trade, and carry the largest assortment in these lines, as we have the outlet, and we wish particularly to impress upon you the fact that we have as fine qualities in the above lines as can be procured anywhere.
