JET TESTING CRIPPLED BY MALTON FIRE

Brunt Of Storm Misses Townships

Eastern Township residents may not be happy with the blow dealt them by Mr. Spring last night, but they fared considerably better than did many other sections of Canada and the United States.

W. S. Richardson, of the Dominion Experimental Farm in Lennoxville, reported that six inches of snow fell last night after rain and sleet had made a giant skating rink out of Eastern Township roads.

Winds at the height of the storm were recorded at 25 mph, with guests estimated at 40 mph. This morning, however, winds had dropped to a mere four mph. Lowest temperature was 25 degrees.

Nothing worse than a few bent bumpers was reported by police.

But this is what other sections were experiencing:

The storm dumped six inches of snow on Montreal. Scores of motorists were bogged down by wind-whipped snow in the Ottawa area.

Quebec City traffic was blocked by winds and heavy snow. There, an isolated flash of lightning struck the transmission tower of a television station and blocked out receiving sets for 35 minutes.

Damage, not likely to be fully assayed for weeks, is expected to run into millions of dollars in the wake of the March lion's thunderous growl across southern Ontario and Quebec.

High winds with gusts up to 70 miles an hour hit southern Ontario in the worst storm since hurricane Hazel struck the area last October.

Chief forecaster Fred Turnbull, of the Malton weather office said, that at one point conditions were ripe for breeding a hurricane or tornado, but did not materialize. The storm blew itself out over the northeastern part of the province.

In three hours the storm lashed its way from southern Michigan across Windsor and Chatham to Toronto.

Two persons died in the Ottawa valley during heavy snow storms. Joseph Bertrand, 67, of Wendover, Ont., 50 miles east of Ottawa, was killed when struck by a bus as he crossed the village highway. At Pembroke, nine-year-old Irvine Clarke was struck and killed by a train.

Three fishermen were missing on storm-swept Lake Erie, somewhere off Leamington, 30 miles southwest of Windsor. Seven other fishermen were admitted to hospital last night suffering exposure after two fishing boats were caught in Lake Erie.

Provincial police said Carl Fraser and Lloyd Molotte of Kingsville, Ont., managed to swim 400 yards to shore after their boat overturned and sank while they tried to reach safety on Point Pelee, 50 miles south of Windsor. The men wore lifebelts.

Winds lashed six-foot waves over hundreds of lakeshore cottages and homes along Lakes Erie, St. Clair and Ontario. Three homes were washed into the Detroit river.

At Port Stanley, near St. Thomas, the Lake Erie storm tossed a cottage up on the tip of the lighthouse pier, about a quarter-mile offshore. The cottage was believed to have been carried from the U.S. side of the lake.

Heavy rain made highway traffic extremely hazardous. High

TWO CF-100 JETS LIKE THIS ONE WERE LOST IN MALTON FIRE

Storm Causes Blaze

Malton, Ont. — (CP) — A $5,000,000 fire, fanned out of control by high winds, Tuesday razed a hangar at Malton airport, destroying three of Canada's most-advanced aircraft as well as top-secret aviation equipment.

The blaze crippled the engine test development program of A. V. Roe of Canada Ltd., the country's major military aircraft manufacturer, setting it back six months.

Burned in the hangar were three jet aircraft—two Mark IV rocket-firing CF-100s and a Sabre, described as so new that information on it is restricted—and a converted Lancaster bomber, known as a "flying testbed."

Also destroyed were experimental engines, company-designed ground-handling equipment valued at $250,000 and the latest in flying instruments.

Fire broke out in the hangar, leased to A. V. Roe by the Department of Transport, while winds up to 80 miles an hour buffetted the airport.

A short circuit in a switch box, followed by a small explosion, set the building ablaze. Firemen said the wind shook the hangar and it is believed the structure's wiring broke loose from the constant pulling and stretching, causing the short in the switch box.

The flames, whipped by the wind, spread so rapidly that firemen could do nothing to save the building. The roof caved in 15 minutes after the fire started.

A number of aircraft were damaged when flipped over by the wind.

Ron Williams, chief Avro public relations officer, said loss to Avro Aircraft Ltd., and Orenda Engines, Ltd., subsidiaries of A. V. Roe, would total $5,000,000. No estimate of the value of the hangar was available.

Williams said the companies' development program was set back six months by the loss, but production would not be affected. The destroyed hangar was used to house the experimental aircraft and engines and other equipment.

Greatest loss, the company said, was the flying testbed, loaded with the latest in high-flying and other types of instruments, the company said.

Malton is 15 miles northwest of Toronto.

Capital Hill Roundup

Government Rapped On Unemployment

Ottawa — (CP) — Donald Fleming charged yesterday the federal government has shown "complete evidence of irresponsibility" in meeting rising unemployment.

The Progressive Conservative member for Toronto Eglinton said in the Commons that unemployment has become "a stark, ugly fact" with more than 600,000 jobless. Some unemployed men were deliberately deserting their families so that their dependents could qualify for municipal relief assistance.

Mr. Fleming, speaking in the sixth day of a spasmodic Commons debate on unemployment which started March 1, said the country still is waiting to hear a concrete government proposal for meeting the situation.

"It is complete evidence of irresponsibility on the part of those who occupy the treasury benches."

Wants Deficit

Ottawa. —(CP)— A $400,000,000 plunge into deficit financing, the benefits going to income tax payers, has been suggested to the government by one of its supporters.

J. W. G. Hunter (L—Toronto Parkdale) made the proposal Tuesday night as a measure to boost employment.

He said in the Commons that if Finance Minister Harris deliberately plans for a $400,000,000 deficit in his 1955-56 budget and passes the amount on the purchasers through income tax cuts, the actual deficit probably would be about $60,000,000.

Can't Shut Out

Ottawa. —(CP)— Canada will make representations to the United States if that country decides to continue restrictions against imports of Canadian farm products after existing curbs expire this year.

Trade Minister Howe, making this statement in the Commons yesterday said, however, that the U. S. is not free under a new agreement of the 34-country General Agreement on Tariffs and Trade "to shut out Canadian products whenever it suits them."

The agreement gives the U.S. freedom to restrict farm imports whenever they threaten to interfere with domestic price-support programs for agriculture..

Exports Unaffected

Ottawa— (CP) —Australia's new import restrictions will not affect Canadian exports, trade officials said yesterday.

They said they had received an initial report from Canadian trade officials in Australia who were of the opinion the restrictions would affect exports from Britain and other sterling area countries but not those from Canada.

A Canberra dispatch Monday reported that Australia reduced import quotas on essential goods by 15 per cent and on less essential goods by 33 per cent.

Back Limitation

Ottawa— (CP) —The Canadian government will support "any reasonable proposal" to enforce the limitation of arms in Communist North Korea under the Korean armistice, External Affairs Minister Pearson said Tuesday.

He was commenting in the Commons on reports of a U.S. proposal to repudiate the clauses of the armstice prohibiting increases in war potential in either North or South Korea.

Record Reporter Aboard Plane In Minor Crash

Montreal — (Special) — A Sherbrooke Daily Record reporter, Carol Witty, was one of 40 newspaper men and women aboard a TCA Vickers Viscount that plowed into a snowbank on takeoff here this morning.

Nobody was injured.

The plane was headed for New York on a special flight. The turbo-jet liner, one of several recently delivered for service here, suffered only a damaged propeller.

The flight was originally scheduled for Tuesday morning but was delayed by weather conditions. They'll try again tomorrow morning.

Tax News Is Expected April 5th

Ottawa. —(CP)— Taxpayers: If you keep an ear cocked towards Parliament Hill, you might hear good news the night of April 5.

That's the night expense-cutting Walter Harris, new finance minister, presents his first federal budget. There's more than a suspicion that he will reduce some taxes.

The cuts—if they do materialize—won't be big, and nobody except the minister and a few close advisers knows in what direction they may strike. However, what cuts there are and what taxes aren't reduced will affect the family budget in the fiscal year starting April 1.

Mr. Harris, the 50-year-old minister who took over the finance portfolio last summer, announced yesterday he plans to bring down the government's budget at 8 p.m. EST Tuesday, April 5. That's the evening before Parliament starts a 12-day Easter recess.

Charlotte Dreamy Over Archbishop

Ottawa — (CP) — Mayor Charlotte Whitton says she dreamt of being married to an archbishop.

The spinster mayor confided to the board of control Tuesday that she had the dream Monday night.

"I dreamt that I was being married to an archbishop, a widower, in Christ Church Cathedral.

"You boys, the Controllers, were all there and the archbishop turned to me and observed: 'I thought this was going to be a church wedding — not a civic affair.'"

Bevan Given Reprieve

London. —(Reuters)— Labor party leaders today voted 14 to 13 to give left-wing rebel Aneurin Bevan a last-ditch chance to argue against his expulsion from the party for defying Labor leader Clement Attlee.

Ironically, the narrow vote, saving the rebellious Welshman from immediate expulsion, resulted from Attlee's suggestion to give him another chance.

The party's national executive then voted for Attlee's proposal to set up a special committee where Bevan must assure party leaders he will no longer violate their rulings and general policy.

An earlier motion demanding Bevan's immediate expulsion was not put to the vote because of Attlee's internvention. Attlee, 28th member of the national executive, did not cast a ballot since he serves as chairman.

The party chief also will serve on the special committee to hear Bevan's argument—if he wants to make one. The eight-member committee includes Mrs. Barbara Castle, a firm Bevan supporter.

A tense atmosphere hung over London's Transport House, Labor party headquarters, as the 22 men and six women of the national executive gathered for the vote.

Labor quarters said the narrowness of the vote, granting a temporary reprieve, means Bevan still is in grave danger of expulsion. Some Labor leaders forecast Bevan will be unwilling to make a fully satisfactory "confession" to the party's right wing.

Quebec—(CP)—Frank Owen, veteran British newspaper editor, says a split in the British Labor party might lead "within a few years" to a new Labor party, more to the left but not necessarily pro-Communist.

Mr. Owen said in an address to the English Speaking Union of Quebec that if the expulsion of left-winger Aneurin Bevan is approved by the Labor party's general council, many Laborites will follow him.

He said Bevan is neither pro-Communist nor anti-American and is "much disturbed" over his support by Communists. He described him as a radical-socialist.

Mr. Owen, former editor of the London Daily Express, is on a lecture tour of Canada.

Student-Riot In Belgium

Brussels— (CP) —Roman Catholic students demonstrated here, and in Louvain Tuesday against proposed government school reforms which, they say, are aimed at "destroying Catholic education in Belgium."

Police squads kept about 100 shouting students away from the Parliament building here as the lower house heard Theo Lefevre, Catholic party president, declare the government's policy "criminal at a time when all our energy should be devoted to meeting the danger from the east."

Amid government interruptions, he called on Prime Minister Achille Van Acker to withdraw the reforms and "allow Belgium to live."

The reforms would cut subsidies to the none-state Catholic schools by 500,000,000 francs ($9,800,000) this year.

Sweater For Charles

Richard's Followers Continue Campaign

Montreal — (CP) — A cable to the Queen asking Her Majesty to intercede on behalf of Maurice (Rocket) Richard was sent yesterday by a Montreal Canadien hockey fan.

Managing Director Frank Selke of Canadiens said he knew the fan and his name but preferred not to release it. He said the cable asked Her Majesty to request Clarence Campbell of the National Hockey League to reinstate Richard.

The Rocket was suspended by Campbell because of a rampage he staged on Boston ice March 13.

Sorel, Que. — (CP) — A telegram with 1,100 signatures was sent yesterday to Clarence Campbell, president of the National Hockey League, asking him to revise his punishment of Maurice (Rocket) Richard and make him eligible for the Stanley Cup series.

The telegram was signed by the fans on invitation of Sorel radio station CJSO. The telegram was 30-feet long.

Montreal — (CP) — Prince Charles will soon get a Montreal Canadien uniform — his size — from four-year-old Norman Richard who hopes the two of them will some day play together with the Montreal National Hockey League club.

Managing director Frank Selke of Canadiens said Tuesday night the unifrom and note will be sent along with the gold-encased puck with which "Rocket" Richard scored the 400th goal of his NHL career last November.

Selke had previously announced his intention to send the puck to Her Majesty, who attended a game in Montreal in the fall of 1950 when she was Princess Elizabeth. The occasion was during the royal tour when she and her husband, the Duke of Edinburgh, visited Canada.

Storm Whips British Isles

London. —(AP)— Gales ranging up to 85 miles an hour swept the British Isles today, casting two small freighters crazily adrift in stormy seas and driving a luxury liner aground.

The 400-ton Dutch coaster Anna Henny and the 1,288-ton Panamanian freighter Agios Georgios sent distress calls after reporting themselves blown out of control.

The Norwegian luxury liner Venus ran aground in Plymouth Bay, but was not believed in danger.

The 6,269-ton Venus, out of Bergen, ran aground with 60-mile winds blowing across Plymouth Sound shortly after landing 248 passengers from the Canary Islands.

Evaluation Soon On Salk Vaccine

Ann Arbor, Mich. — (AP) — The success or failure of the Salk polio vaccine will be disclosed at the University of Michigan in Ann Arbor Tuesday, April 12.

Dr. Thomas Francis Jr., chief of the Vaccine Evaluation Centre at the university, will release the official report on the effectiveness of the vaccine in the light of a field study, involving two million children, made last spring.

Arrest 7 In Plot To Kill President

Seoul. — (Reuters) — South Korean police today said they had arrested seven agents, including a woman, who were plotting to assassinate President Syngman Rhee.

The agents, under the leadership of Lee Lung Jai, 28, smuggled themselves into South Korea from the Communist north last year, police said.

Paris Pacts' Approval Nearing Final Round

Paris — (AP) — West German rearmament comes up for debate in the French Senate today in what the British and United States governments hoped would be the final parliamentary step in France's ratification of the Paris treaties.

Observers generally predicted that the pacts to enlist West German troops in Western defence would be approved without change in the Senate vote expected late Friday. The treaties then would go to President Rene Coty for his signature. The National Assembly approved them Dec. 30.

If the council accepts the treaties as they stand, the Western allies will have topped one of the biggest hurdles in bringing the Bonn Republic into their defence alignment. Four smaller signatories have been waiting for a French decision before committing themselves on ratification.

Biggest fight is expected to come over an amendment proposed by Senator Yvon Coude du Foresto on behalf of the industrial production committee. This would seek to postpone ratification until France and the Saar conclude a new economic agreement now in the works.

The complex of Paris treaties includes a French-German agreement for Europeanizing the German-speaking Saar. The small frontier industrial area has been autonomous but economically tied to France since the war.

French and Saar negotiators reached agreement last weekend on the main provisions of a future economic convention which would preserve a great deal of French economic control over the area. Experts now are working on the full text.

Baldies Seek Reduced Price

Columbus, O.—(AP)—Bald members of the Ohio House of Representatives called for an inquiry into the price of haircuts.

Their resolution Tuesday noted that barbers charge 25 cents extra for crew haircuts and suggested barbers could shave their prices for those with little, if any, hair on top.

The resolution read:

"In view of the premium . . . it is altogether commensurate with justice, equity and fair play that a reciprocal reduction of price be effected for those of us who through no fault of our own, are endowed with that badge of experience and ability called baldness."

Town's Mayor Denies Guilt In Fraud Case

Joliette, Que. — (CP) — Mayor Rosaire Deschamps of Repentigny, Que., pleaded not guilty here Tuesday to a charge of concealing the town records for fraudulent purposes.

He was ordered for trial March 30 and was released without bail.

Mayor Deschamps gave himself up Monday, two weeks after the town's former secretary-treasurer, M. S. Senecal, had been picked up on a charge of juggling the town books.

Senecal, who also pleaded not guilty, was released on bail pending trial March 20

Egypt Preparing Protest On Burns' Israel Report

United Nations, N.Y.—(AP)— Egypt prepared a strong protest today against the Gaza report made last week by the United Nation's Canadian truce chief.

An Egyptian spokesman said Ambassador Omar Loutfi would voice his government's complaint at a meeting of the security council this afternoon at 3 p.m. EST. Israeli representative Abba Eban also was expected to speak.

The report dealt with the Feb. 28 clash at Gaza in which 38 Egyptians and eight Israelis were killed. The truce chief, Maj.-Gen. E. L. M. Burns of Ottawa, blamed Israel for the actual attack but said continued Egyptian infiltration across the Israeli border was a major cause of Holy Land tension.

Israel was said to have been generally satisfied with the report, but Egyptians have been steaming ever since it was presented at the council meeting last Thursday. An Egyptian spokesman, Abdul Mohamed Hassan, said Tuesday night that the Egyptian delegation heard Burns' report in "utter amazement."

The Egyptians had expected a strong condemnation of Israel. They resented especially that Burns had little to say about the Gaza clash itself except to report that the Egyptian-Israeli mixed armistice commission had found Israel to blame.

Burns made a special appeal to the Egyptians to tighten their border guard to prevent roving bands from making forays across the frontier into Israel. If Egypt would do this, he said, "tendencies to demand retaliatory action could be restrained."

The Doofer Family

By ALMA SIOUX SCARBERRY

WILD ANIMAL!

Sammie Spoofer wasn't too sure his wild plan to get all his good friends away from their work and out into the woods to enjoy the first day of Spring would succeed. But he would try. Daddie Doofer was busy in the grocery store when Sammie ran in puffing from his long run.

"Mister Doofer, Mister Doofer," he yelled wildly, "come quick! Come to the woods back of the Moofer farm. Hurry! Hurry!"

Daddie grinned. "What's all the excitement about, Sammie?" For everyone knew what a teller of tall tales Sammie was.

But Sammie really looked upset. He pointed to the woods and pleaded, "Mister Doofer—would I kid you? I'm tellin' you, you better listen. There's a—there's a-a- gg-great big ole wild animal loose in the woods. It-it's awful big—and it's roarin' and makin' the most awful sounds. Hammie heard it too!" Could be a killie-djillie. A fire-spittin' killie-dillie. I'm goin' to get Perfessor Zoofer at the zoo. And you better just close the store and come. Hurry!"

And Sammie ran out, puffing his way to the zoo. Of course Daddie Doofer didn't believe the silly supersitition about the killie-dillie. But Sammie looked so serious he decided there really might be an animal loose in the woods. The circus was a few miles away on its way to Dooferville. One of the animals might have escaped. And it was a beautiful day!

At the zoo, Professor Zoolie Zoofer was feeding his collection when Sammie arrived. Professor Zoofer listened—then grabbed the pith helmet he had worn when he was hunting animals many years before in far off Gonna Ginna. Then he picked up the butterfly net he always used to catch things—and ran toward the woods. Ah, this was the life! An animal hunt— and

on the first day of Spring. What luck!

Sheriff Guttum Hoofer was sitting on his front porch polishing his many tin badges when he noticed the excitement. And when he saw his old rival Professor Zoofer heading a crowd of neighbors on their way to the woods—he let out one of his mightiest roars. What was that Perfusser up to now? He'd soon find out!

Danville Club Presents Play At Wales Home

Danville, March 23.—The residents of the Wales Home, Richmond, were entertained recently by members of the Danville Players Club, assisted by the Six Lads orchestra.

The Players Club presented the one act play, "Sleeping Dogs," which was recently entered in competition in the Richmond Drama Festival. The cast included, Richard Hinch, Ronald Evans, Marion Gifford, Barbara Leet and Ruth Hill with Marion Barlow as prompter.

The Six Lads orchestra, recently organized by a group of younger musicians of the community and composed of, Barrington Barlow, saxophonist, Guy Reed, trumpet, Eddie Gelinas, pianist, Bobby Barlow, drums, Jimmy Barrett, trombone, and Donald Hill, guitar, supplied lively music both before and after the presentation of the play.

The entertainment proved a complete success and was greatly appreciated by the inmates of the home. It is hoped that the Players Club may be in a position to repeat this type of entertainment for the pleasure of the residents at some time in the near future.

The play, "Sleeping Dogs," and the Six Lads orchestra are scheduled to take part in a presentation in Danville on March 28th, when "Finders Keepers" the trophy winning play of the Richmond Drama Festival, will be presented by the Richmond St. Patrick's Society, and "Leave It to Mother," another play from the Drama Festival, will be presented by St. Patrick's Sub-Division of C.W.L., Richmond.

Local Family Welfare Court Facilities Condemned

Poor Equipment, Inadequate Personnel Hit By Salvationist

By ALAN OXLEY

Captain Frank Taboika, Commanding Officer of the City's Salvation Army Citadel, merged forces with an official of Sherbrooke's Social Welfare Court today to censure "inadequate facilities" at the city's Welfare Centre.

Charging that "humiliating circumstances" centre round the Welfare Court, the Captain took a swing at what he called "a wicked place with a very bad locale." He tabbed the centre "merely a kangaroo affair."

He emphasized that he laid no blame for the shortcomings on the local judge who, he said, has too much on his shoulders.

A court official, who declined use of his name, reported, "this state of affairs makes no sense at all. We haven't got the facilities we need and people are waiting in a small foyer where everybody can see them going in and out."

He also disclosed that the Court has no Protestant personel on the payroll. Delinquents of Protestant religion are handled by unpaid volunteer workers. He added that they do an extremely good job.

The official explained that authorities are waiting for the Dufferin Avenue Income Tax offices to be moved into a new building on King Street West so that the Court can be moved upstairs.

CAPTAIN TABOIKA

But he added that he didn't have any idea when that would be. He said that was why authorities "were not bothering" about the present situation.

Captain Taboika emphasized that the City needed more trained guidance officers to help youngsters in trouble. Delinquents needed somebody to understand the other side of the story, he said.

He said the most difficult problem facing youth today was ignorance. "Far too many people live in a fool's paradise. And a lot come from the so-called better class," he continued.

While he disagreed with those who thought Sherbrooke didn't have enough clubs for young folk he said far more people were needed to take an interest in existing clubs.

"A number of these clubs are completely empty," he said.

"But the problem of trying to find a youth group leader is serious," he said. "It's like trying to find a needle in a haystack. We need more than money. We need competent men, because today's youth is more exposed than ever."

The Captain attributed most of the current delinquency to lack of tact at home and elsewhere.

Eastman Miner Killed 960 Feet Below Surface

Eastman, March 23. — Claude Lambert, 24-year-old miner was crushed to death under some 250 tons of rock, 960 feet below the surface at the Quebec Copper Mines in Eastman yesterday afternoon about 1:45.

Lambert was assisted in a timbering operation when the braces gave way. He succeeded in getting partly out before the waste debris being banked up broke the timbering and fell on him. He leaves a wife and two small children.

Dr. John A. Bryant of Magog was called to the scene of the mishap, and Ledoux's Ambulance of Magog answered the call.

Dr. Rioux of Sutton, district coroner, presided at the inquest held this morning in Eastman.

Jurors Ordered From Court Room As Bordeleau Hearing Enters Second Day

Jurors hearing the case of Georges Bordeleau, 27, of Asbestos, charged with manslaughter in connection with the death of his wife in a shooting incident at Windsor Mills on November 14, 1954, were removed from the court room this morning as the trial before Court of Queen's Bench opened its second day.

The order to have the jurors vacate the court was made by Mr. Justice Louis-Philippe Cliche after Defence Attorney Richard Crepeau objected to a question asked a witness by the Crown Prosecutor, Roland Dugre.

The defence objection came shortly after the first witness for the day, Jean Nicholas, a boarder in the home of Mrs. Bordeleau's mother, where the shooting occurred, took the stand

Nicholas was not a direct witness of the shooting but the Crown sought his opinion on the ability of Bordeleau to handle the gun properly.

When Mr. Dugre asked Nicholas if he had ever seen the defendant handle a gun prior to the incident, a protest was entered by Mr. Crepeau against the line the questioning was taking.

Judge Cliche ordered the jury out so the evidence of Nicholas could be heard and a decision made as to whether it was admissible as evidence.

Under questioning before the judge, Nicholas stated that about two weeks prior to the shooting he had seen Bordeleau handling a gun and that he was doing so in a negligent manner — waving it in all directions and generally showing lack of proper care.

After reviewing the evidence, Judge Cliche, decided to permit the questioning of Nicholas before the jurors, and the trial proper was resumed shortly before the lunch hour adjournment.

The chief witnesses heard at yesterday's afternoon session were Mrs. Lucien Dion, of Windsor Mills, mother of the victim, and Dr. Rosario Fontaine, provincial police medico-legal expert.

Mrs. Dion declared that the shooting occurred on the afternoon after Bordeleau returned from a hunting trip in the vicinity of Brompton Lake.

She described to the court the position of Bordeleau and his wife who were sitting in the kitchen of the house—Mrs. Bordeleau sitting in a rocking chair with their baby in her arms, while Bordeleau was sitting a tew feet away handling the rifle, the muzzle of which was pointed in the general direction of the victim.

Mrs. Dion stated that her daughter had asked the accused at least once to stop pointing the rifle at her but, stated Mrs. Dion, Bordeleau had given her no direct answer.

The witness could give no details of the actual shooting, as she was busy preparing the supper when the explosion occurred

Under questioning by Defence Attorney Richard Crepeau, she said that Bordeleau appeared normal on his return from the hunting trip and that she believed the family relations of the accused and the victim were good previous to the shooting.

After giving the results of his autopsy, which revealed that Mrs. Bordeleau died from a bullet wbund in the vicinity of the heart, Dr. Fontaine then explained the operation of the rifle involved in the affair.

The rifle, a .30-.30 Savage repeater, was in good condition he said, and it was unlikely that it would have gone off unless something touched the trigger.

In addition to the five cartridges in the magazine, the gun could also hold one in the firing chamber. As the indicator on the rifle barrel only told of the number of cartridges remaining in the magazine, there could be one in the firing chamber after the indicator registered zero, Dr. Fontaine stated.

Questioned both by Crown Prosecutor Roland Dugre and Mr. Crepeau, Dr. Fontaine declined to give his opinion as to the possible position of the rifle in relation to the victim. The woman was in a rocking chair at the time and all evidence pointed to the fact she was rocking, so her position would be constantly changing.

Other witnesses included Sgt. Eugene Morin, of the Sherbrooke detachment, provincial police, Constable Guy Blanchette of the Windsor Mills police, and Dr. Hector Lambert, of Windsor Mills, who told of being called to the scene of the tragedy and finding the woman dead. They also identified certain photographs as indicating the position of the furniture in the room.

The rectangular white cross on a red ground which was the emblem of the Order of St. John, the founder of the St. John Ambulance Association, has probably given national flags to three countries — Denmark, Italy and Switzerland.

Lucky Scouts

Fourteen From District To Attend Big Jamboree

Fourteen fortunate boy scouts from the Sherbrooke district have been chosen to attend the Eighth World Scout Jamboree to be held at Niagara-on-the-Lake, August 18 to 28.

It is the first such jamboree ever to be held outside Europe, a fact that makes it an additional honor for those chosen to attend.

A 330-Scout Quebec Province contingent will include the following:

From the First Waterville Troop—Edward Bishop.

From the Bulwer-Birchton Troop—W. Gordon Laberee and Sanford W. McCallum.

From the Cookshire Troop—Michael Morse and Rodger Heatherington.

From the first Lennoxville Troop—Ralph Burt, William Bruce Clarke, Neville Hamilton, John Robert Cowans, Robert B. Montgomery, Walter Sarrasin, Michael R. Gage and Dale Munkittrick.

From the Third Sherbrooke Troop—George Thomas Beaulieu.

The International Conference, which invited some 10,000 scouts from 56 countries, has as its purpose: "Through co-operation, to promote world unity of purpose and common understanding in the fundamental principle of Scouting, as founded by the Chief Scout of the world, the late Lord Baden-Powell."

The Jamboree will be officially opened by His Excellency, The Rt. Hon. Vincent Massey, C. H., Governor General of Canada. Maj-Gen. D. C. Spry, Director of the Boy Scouts International Bureau in London, Eng., will officially close it.

Some 3,500 Canadian scouts will have the opportunity to live with and exchange ideas with scouts from all parts of the world.

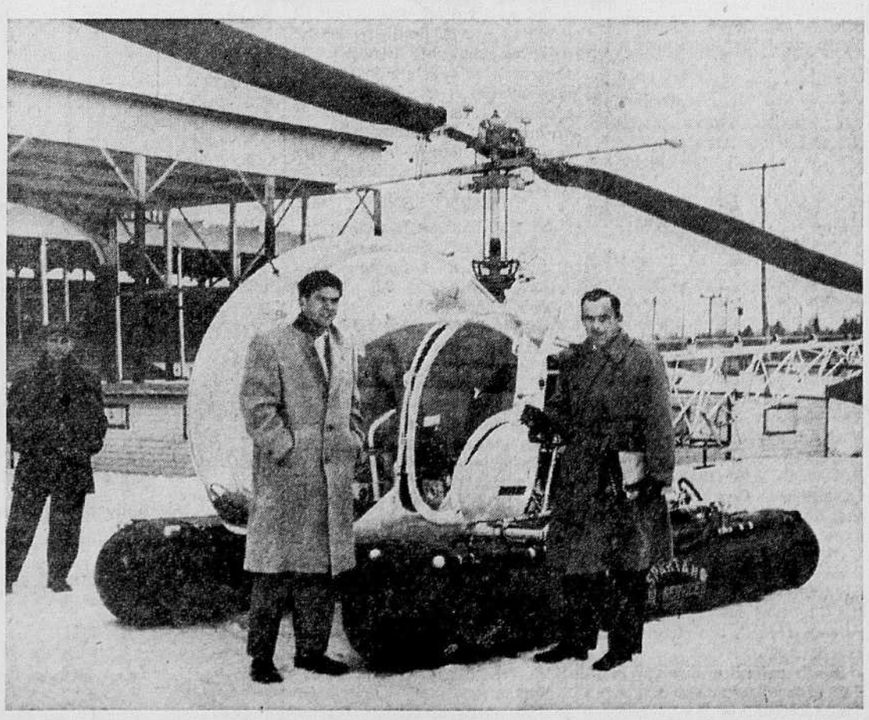

The biggest air-lift in scouting history will bring about 1,000 from and through Great Britain.

A special postage stamp is even being issued by Canadian Postal authorities to mark the historic affair.

Following is the list of countries which already have signified their intention to send rep-

Fine Reports

Bruce Bishop, Dr. L. Laberge Re-Named Presidents Of Victorian Order Group

Dr. LaSalle Laberge and Bruce A. Bishop yesterday afternoon again accepted the offices of joint presidents for the local Victorian Order of Nurses organization for 1955 at the annual meeting, held in the MacKinnon Memorial building.

Before Gordon LeBaron, a past president and chairman of the nominating committee, presented the new slate of officers, the annual business meeting was held, with the respective chairmen reading their reports.

The secretary's report was delivered by Mrs. E. T. Webster, who gave a general review of all the year's activities, including the five meetings held since the last annual meeting. Her report was seconded by Miss Clara Aitkenhead, director of nursing at the Sherbrooke Hospital.

Harry Blain, honorary treasurer, read the financial report, stating the V.O.N. had ended its year with a surplus of $1,475.94, a marked improvement over the 1953 standing. A complete financial statement was issued to the members present. A suggestion offered by Mr. Blain that the Thrift Shop money be used for car expenses, will be discussed at the next meeting.

The tag day report was delivered by Mrs. D. A. Howard, showing $384.39 had been taken in by the fifteen taggers and school children, who had worked with the tag committee. In the closing remarks of her report, Mrs. Howard, who will be replaced by Mrs. Jane Campbell as chairman, extended her thanks to all who had helped her throughout the year.

Mrs. E. T. Webster read the Thrift Shop committee report, stating the shop, which had been held two days, October 20 and 21, in Plymouth Church hall, had yielded $1,005, less $23.60 cost of sale, resulting in a net of $981.40. The next Thrift Shop will be held in the church hall this fall, October 19 and 20.

Miss Laure Germain, the new nurse - in - charge, reviewed the nursing activities for 1954. General bedside care was given in 2,942 cases, while educational visits numbered 1,105 and other visits 151. The total number of trips for Sherbrooke and Lennoxville was 4,106, of which 2,122 were to French-speaking patients and 1,984 to English. Ten home deliveries were attended.

Following Miss Germain's report, the joint presidents each delivered a few words, Mr. Bishop in English and Dr. Laberge in French, in which they both thanked the officers and committees for their co-operation and help during the past year.

The slate of officers for 1955, delivered by Mr. LeBaron, is as follows: Joint presidents, Mr. Bishop and Dr. Laberge; vice-presidents, D. A. Howard, H. L. Gagnon, Leonce Cote, F. A. Simpson; honorary treasurer, Harry A. Blain; secretary, Mrs. E. T. Webster.

Mrs. Lorne Campbell has been elected as the new tag day convener, while W. J. Fuller, John Dunn, C. L. Norwood and L. Memory have been added as finance committee members.

At the close of the meeting, Mr. Bishop announced that the V.O.N. annual meeting would be held in Ottawa May 4 and 5, and any who wanted to attend would be welcome to go along with him, as representatives from Sherbrooke.

Following the meeting, appropriate slides, entitled "The VON Story," were shown, with Mrs. J. A. Donald acting as commentator.

India Now Thoroughly Committed To Democracy, Y.M.C.A. Official Claims

"India is the largest democracy that mankind has ever known," Jack Dunderdale, secretary of the Y.M.C.A.'s International Service in India told the members of the Sherbrooke Rotary Club last evening. He called India " a country thoroughly committed to democracy," and attributed this to the vast numbers actively involved in making it a working thing.

In explaining a few of the recent developments in India, he declared that "the country stands as a vigorous, well-knit nation handling its own affairs as capably as any other in the world."

He added: "Of course, they've made their mistakes. But what country hasn't?"

Mr. Dunderdale, who said he liked to think of India as a continent, said that today's India is not the country we merely associate with the mythical rope trick, but a country of 375,000,000 people, of vastly different religions and speaking a variety of languages.

India has 14 different official languages and Mr. Dunderdale called this "truly continental."

He explained briefly how the country had faced largescale emergencies since 1947 and how it had had to use funds otherwise earmarked to feed some 9,000,000 refugees, creating new communities and fighting drought and flood.

Mr. Dunderdale, who grinned that "the microphone bothered him," - - it didn't seem to - - surprised his listeners when he told them that "out of 176,000,000 people eligible to vote in the 1952 national vote, over 107,000,000 went to the polls.

"In some rural areas," he added, "polling booths registered a 90 per cent attendance."

Somebody gasped and said something—it wasn't clear what—when the speaker said that some voters walking 18 miles to the polls. Some waited at the polls for three days before opening time, he added.

Mr. Dunderdale emphasized India's belief in her right to make her own domestic and international policy.

Although today's India does somewhat resemble the country of yesterday, he said, the people have a new determination, a new sense of achievement and of

Domestic Market Basis For Prosperity

The announcement of R. B. Jennings, president of Socony Vacuum Oil Company, that his firm would cut Canadian oil imports for its Ferndale, Washington, refinery by 16,000 barrels a day is another indication that the only basis for a permanent prosperity in Canada is the development of the domestic market. At the present time, a substantial portion of Canada's natural and manufactured production finds its way to foreign countries.

While it may be a matter of pride for Canadians that they are the greatest per capita international traders in the world, the condition is an extremely unhealthy one. It places the commerce and industry of this country at the mercy of groups over which they have no control.

During past years, Canada has seen many of its apparently prosperous industries thrown into a condition of chaos because the importing nations felt it desirable to restrict its purchases from this country — either to develop its home industries or in more recent years to conserve its slim foreign exchange reserves.

Older Eastern Townships farmers can recall the day when locally-produced milk and cream totalling several express cars daily found their way to the Boston and New York market. Then, almost overnight, this market was closed through the provisions of the Hawley-Smoot tariff which was designed to preserve these valuable markets for the New England producers.

Employees in the local hosiery mills can remember when the large proportion of their production was shipped to Australia, New Zealand, South Africa and even Great Britain. When this export market was suddenly cut off because of exchange difficulties, many of the mills suffered a recession from which they have never fully recovered. Even today, many of these plants in the Eastern Townships are operating only two or three days a week with reduced staffs.

The only real hope for an effective remedy for this situation is to increase the domestic market with an active policy of immigration so that the productive capacity of these plants can be absorbed at home.

Even were the sales of Canadian goods not restricted by quotas or heavy import duties, the high wage costs of the Canadian plants make them highly vulnerable to foreign competition.

Export trade has its place in the Canadian economy, but lasting prosperity depends upon the home market.

M.P.'s Independence

The very basis for the British form of representative government is that each elected representative of the people must be free to use his own judgment on all matters that come before parliament and that he must answer to his constituents and to no one else for his actions.

The older political parties have a traditional respect for this principle and regard any departure from it as an attempt to usurp the rights of the voters.

When Mr. Lewis, one-time secretary of the C.C.F. party, publicly apologized for the action of some C.C.F. members in voting against the party line on a question before the House of Commons, he revealed the cleavage between the principles of his party and the older groups in Parliament.

The older parties recognize the electors as supreme, to whom all elected members are answerable, but the C.C.F. insists on the supremacy of the party hierarchy over its members, the same doctrine the Communist party practises in Russia, where the Supreme Soviet tells the members how to vote.

Admittedly, most Members of Parliament vote the party line on major issues, but Hansard almost every day records that some Government supporter voted with the Opposition on less-contentious issues, or vice-versa, and it is on record that during the administration of Mackenzie King, a group of Liberals from industrial centres of Ontario and Quebec — including the then Liberal member for Sherbrooke — voted against the budget.

They were not read out of the party. Some of them did quit the political field at the next general elections, but others remained members of the party and at least one subsequently was named a cabinet minister.

Off Limits

We read that the White House grounds are now off limits to all squirrels. It seems our furry friends have been taking divots on President Eisenhower's back-yard putting green and now they've all been deported.

Since exile is a far distant patch of woods and their homes have been demolished, the squirrels are unlikely to return in protest. However, perhaps the Democrats will take up their case. They could argue cruelty to animals.

But the GOP might snap back and say it's just the reverse. Who knows how many squirrels might have been saved from a conk with the presidential putter?

Ready For Seaway

Chicago Plans Big Harbor Project

By RUSSELL LANE

Chicago—(AP)—Chicago is moving rapidly to make the most of an enhanced seaport potential expected with completion of the deep-water St. Lawrence seaway during 1958.

Negotiations for issuance of $25,000,000 in revenue bonds for initial development of Lake Calumet harbor by the Chicago regional port district are under way.

Maxim M. Cohen, general manager of the port district, said that the sea cargo handled at Chicago, about 150,000 tons last year, is expected to jump about 1,000,000 tons during the 1959 Great Lakes shipping season.

This figure includes export and import tonnage. It is based on an expectation of a rise from 218 combined in and out shippings last year to between 800 and 1,000 in 1959, not including regular inland lakes shipments of coal, iron ore and limestone.

It would mean some 400 to 500 ocean-ship arrivals during the first full season after the St. Lawrence seaway improvement under the joint Canadian-American program is completed.

Chicago's present ocean shipping is limited to traffic in small freighters of approximately 1,500-ton cargo capacity by the 14-foot minimum depth of the present waterway.

The St. Lawrence channel improvement on which the United States will spend $105,000,000 and Canada $190,000,000 will provide clearance for vessels of drafts up to 27 feet. The present 22 small locks will be replaced by seven of 800-by-8-feet dimensions.

However, pending deepening of the present connecting channels in the Detroit and Mackinac straits areas, draft limitations for Chicago traffic—that is, how deeply the load ship rests in the water—will be limited to 21 feet for Chicago-bound ships and 25 feet for those heading toward the sea.

Cohen said that despite limitations at the Lakes Michigan-Huron and Huron-Erie connecting channels, Chicago would be opened to a vast fleet of medium-sized freighters carrying 7,500 to 10,000 tons.

The port program for Chicago centres on development of some 2,200 acres of land and water at Lake Calumet, south of the city and connected to Lake Michigan by the Calumet river.

The first stage of development, Cohen said, will be construction of docks, warehouses, cranes and trackage for a 200-acre port area which will be expanded in future years.

STORY FROM CZECHOSLOVAKIA.

Philadelphia Inquirer.

—The United States information agency recently picked up this story from a Czechoslovak refugee:

A professor of literature asked a student who wrote "War and Peace," one of Tolstoy's greatest novels.

"I don't know," the student replied nervously, "but I can assure you I didn't."

The professor told a friend about the student's reply. The friend quickly said, "Well, I didn't write it, either."

To a member of the secret police the professor told the story about both the student and the friend. The secret policeman merely jotted down the names and addresses of the student and the friend.

A few days later the professor got a telephone call from the police official:

"Don't worry about that student or your friend. We arrested them both yesterday and they confessed."

Churchill Apparently Sees Big Four Parley Unlikely

By J. M. ROBERTS

Associated Press News Analyst

Confident-sounding reports from London that Winston Churchill finally is about to retire suggest strongly that he, at least, expects no early Big Four conference.

Churchill would hold on to the last ditch if he thought there was any chance of balancing his place in history as a great war leader with a final appearance as a great peacemaker.

Not everyone is convinced that he's going to quit anyway. The London press is full of it. One of the chief foundations for the belief is the fact he plans to be away on vacation when the budget is being prepared for Parliament. The budget is one of the chief ways through which a British government announces its plans and the Prime Minister usually takes a big hand in it. Churchill has fooled them all before. But the press in general now gives him only a matter of weeks.

Those weeks could hardly produce a top-level conference even if Senator Walter George is right about the time being ripe.

Indeed, there is a broad doubt as to whether the time is ripe.

In Washington Monday there were many who asked why George, the chairman of the Senate foreign relations committee, thought on Sunday that the time was ripe when on Friday he had said the possibilities of getting any benefits out of negotiations had been badly damaged by publication of the Yalta reports.

The more general view is that the first steps toward negotiations with Russia, after Europe has ratified Western European Union, will be for another foreign ministers' meeting.

If the ministers seemed to get anywhere, then the time for a top-level conference would indeed be ripe. A good many people still think, however, that mere ratification of the alliance will not give the Allies the position of strength they have always thought they would need before Russia could be brought to truly realistic negotiations. These believe the actual fact of German rearmament will be necessary.

HERE'S AN EXAMPLE OF 'REVERSE' BID

South's rebid of two hearts, in today's hand, was a "reverse," showing a minimum count of 17 points (including distribution). The normal method of bidding hearts and diamonds is to show the higher suit first; and bidding them in the reverse order, as in today's hand, shows strength.

The reason is that the reverse bid may well compel North to show a preference for diamonds at the nine-trick level even though North may have a very poor hand. South himself must have a strong hand if he can afford to push the bidding up to so high a level.

North naturally went right for a slam when he added his own points to those shown by South's strong bidding. North had 16 points in high cards alone, together with a splendid fit for hearts and good distribution. North used the Blackwood Convention to find out that South had two aces and two kings. Since it was clear that one king was missing, North prudently stopped at a small slam.

West opened the eight of spades, and South looked for the safest way to play for his slam contract. After some thought he decided on a cross-ruff.

Dummy took the first trick with the ace of spades and cashed the king of diamonds. South next took the two top clubs and then the ace of diamonds, discarding dummy's last club.

South now had to ruff either a club or a diamond in dummy. The choice was very close, practically a guess, but South finally decided to ruff a club. (Either suit would have worked, actually, since East couldn't overruff the dummy; but South couldn't know this.)

One more small ruff was necessary, so declarer led a spade from the dummy and ruffed with the eight of hearts. When this ruff succeeded, the slam was assured.

South ruffed a diamond with dummy's queen of hearts, a spade with his own jack of hearts, another diamond with dummy's ace of hearts, and another spade with his own king of hearts. These plays were safe, of course, since the ruff were made with master trumps.

Finally, South led his last diamond and ruffed with dummy's seven of hearts. South no longer worried about an overruff. If the seven of hearts won (as was actually the case), it would furnish declarer's 12th trick; and if an opponent overruffed with the ten, South's nine of hearts would give him the vital 12th trick.

power.

They feel confident that they can go on increasing India's standard of living, he said.

While speaking of India's desire to increase her present level of democracy, the speaker added that "Some countries have a tendency to be content with their present measure of democracy. And this can only mean a deterioration of their present level."

Mr Dunderdale also emphasized that while many criticize Great Britain's part in the country, "the prestige of Britain in India has never been better."

India is sold on democracy. But it is impossible, he said, to sell democracy to any Asian country if it contains the slightest trace of racial descrimination or exploitation.

India needs more men with a strong passion for the well-being of their country, he concluded, and the future of India rests with this generation of youth.

Mr. Dunderdale, a native of Ottawa, was introduced by J. Edward Shortt, and thanked by George Morgan.

At the head table were: W. H. Griffith, who presided, Jack Dunderdale, J. E. Shortt, George Morgan, H. J. Moffat, H. E. Walker, J. H. Wark, W. S. Sutherland, Lee M. Watson, J. R. Sangster, C. E. Joslin and G. E. Ewing.

Good Teachers Basic Problem Of Education

"The most important problem in education through the last 100 years has been the provision of good teachers," was the opening remark of Dr. J. D. Jefferis, professor of Education at Bishop's University, when he addressed a gathering of the Sherbrooke County Teachers' Association last evening in the Sherbrooke High School.

The topic discussed by Dr. Jefferis was entitled Teaching as a Profession. In his short address, he disclosed the origins of teacher-training and reviewed the different developments in the history of the training in the Province of Quebec.

Discussing the qualities of teaching as a chosen career, he listed the five criteria of a profession and pointed out how teaching measured up to them.

The most important feature of an occupation is that it should render high, specialized type of service to a community. This, stated the professor, was one of the outstanding characteristics of teaching.

A second criteria is that teaching is entered by a person only after a great amount of professional training, following on a liberal education. This is one of the requisites of a teacher, enabling him to give to the best of his ability, the adequate training for today's youth.

An important point of any profession is that it has sufficient solidarity to enforce the professional code of ethics. Here, as in the other cases, teaching is a definite example of this standard.

One main advantage of teaching is that it has a relatively stable personnel. Unlike many other means of employment, very seldom does a teacher consider his job a stepping stone to other careers.

Reviewing the salary scale of Protestant teachers, Dr. Jefferis stated, even if the teachers did not feel themselves that they were overpaid, their income provided was in fact high enough to support a cultured standard of living. This was an important feature for those seeking an occupation.

In the conclusion of his address, the speaker pointed out the essence of a profession is that the welfare of those it serves is its primary responsibility. Teaching's main aim is concerned with the good of the pupil. This is their prime responsibility, one which is of the greatest importance in any community.

Dr. Jefferis closed by saying that a teacher exists for the benefit of his pupils. It is a profession that does not aim at a personal trade, and therefore every teacher should be justly proud of the fact that he is a teacher, playing one of the most necessary roles in the community.

The speaker was thanked by Horst Rothfels, president of the Association.

Prior to Dr. Jefferis' speech, a short business meeting was held with Mr. Rothfels in the chair. At this time, the various committee reports were delivered by the conveners, with Mrs. Gordon Peabody, secretary of the Association, delivering the secretary's report.

Fine Love Story Opens Today At Premier Cinema

Capturing the glorious colors of its natural setting for the very first time, "Romeo and Juliet," which opens at the Premier Cinema today, has a wealth and richness of atmosphere that could never have been secured inside studio walls.

All Italy was its studio, Verona itself and the majestic countryside beyond. These provide the throbbing beauty inherent in Shakespeare's famous tale, the towering buildings and the shadow-cloaked backgrounds against which he sets his "star-crossed lovers."

Yet "Romeo and Juliet" is startingly unorthodox in concept and casting. Juliet herself is unknown to either stage or screen. Romeo rose only recently to stardom. An Italian architect plays Mercutio. A Venetian gondolier is Montague. A novelist is seen as the Prince of Verona.

It is unconventional, daring and fiercely individualistic filmmaking with an approach fresh and vital enough to make "Romeo and Juliet" a production to remember.

But graced in addition by its fine performances, sweeping photography and timeless story, it becomes truly unforgettable.

ALTAR SOCIETY

Rev. Father George Murtagh, of Barton, Vt., was the guest speaker at a regular meeting of the Altar Society, when he gave an address on his mission and explained the meaning of the National Council Catholic Women, which is made up of the councils throughout the nation. With General Council headquarters in Washington, D.C., this group does a great amount of relief work among refugees.

The General Council is made up of divisions in each diocese, with Rev. Father Murtagh, district director of this division. The Altar society of Derby Line has recently affiliated with the General Council and will carry on with a contribution towards its objectives. Committee chairmen are to be appointed on youth, parents, librarians, home life, legislature, civil defence, membership and other groups, and at each meeting a different chairman will speak briefly on one subject.

Each year two district meetings of the Divisional Council will be held and a state Convention held annually, said the speaker, these meetings being open to the officers and any members who may care to attend. In conclusion, Father Murtagh showed a film, "The Holy Shroud," in keeping with the Lenten season.

Regional Meeting Of Home, School At Cowansville

Cowansville, March 23. — A meeting of the Bedford district regional Home and School Association was held in the High School with representatives present from Cowansville, Knowlton, Bedford, Farnham and St. Johns.

Among the resolutions to be forwarded to the conference of the Quebec Home and School Associations, was one expressing the opinion that the health and family welfare committee should be more active. A resolution regarding an amendment to the Education Act, changing the hours of voting for members of local school boards, was dropped as the proposal was found too difficult to carry out.

It was felt that regional councils should have definite jobs to do in their districts. The district of Bedford council is now used as a clearing house for ideas to be presented at the Federation's annual conference and ideas on action projects should be submitted to the president.

The report of the "Quarters for Headquarters" showed that Bedford, Cowansville, St. Johns and Farnham had completed the payment of their quota.

The matter of the Quebec Home and School magazine was discussed, the opinion being reached that that the present policy of issuing the publication would probably be continued. The St. Johns association includes a magazine subscription with each family membership.

It was resolved that all correspondence or reports be sent to the secretaries of associations as well as the president. Correspondence should also be sent to secretaries of regional councils.

Roy Cook of Farnham, was named as chairman of the nominating committee, with members to be appointed from the other associations. The date of the annual meeting was set for June 1, at the Bedford High School.

St. Anthony's Society Sponsors Shamrock Tea

Inclement weather proved no barrier to the success of the second St. Patrick's Day tea held on Thursday by St. Anthony's Ladies Society of Lennoxville, which has been organized scarcely more than a year. Financially, results were most gratifying, and socially it was a very attractive affair.

The traditional shillelagh and top hats held prominence in the booth offering gentlemen's hand knitted socks and handkerchiefs, in charge of Mrs. A. McMullen and Mrs. H. Watkins, who also oversaw the table of food and potted plants, nearby.

A department well patronized was the appetizing cafeteria table supervised by Mrs. J. Lessard, Mrs. A. Dallaire and Miss Stella Cryan.

Corsage Designer Shares Sorrows, Joys Of Wearer

Kitchener, Ont.—(CP)—Floral designer Dolores Scherer says designing corsages is not just a business for her—she can't help sharing someone else's happiness and sorrows in her work.

"Working with flowers you must be able to express the emotion of the occasion in design," she said. "A florist must also combine the arts of milliner, dressmaker and jeweler—we get orders for bracelets, necklaces, earrings, hats and bandeaux."

The designer advises wrist corsages for dancing because they don't get crushed. Ordinary corsages should always be worn on the right shoulder out of the man's way.

"On Mother's Day she wore her flowers over her heart," she said, "but after all mother went waltzing."

For the stout woman a streamlined blossom like a camellia is best, minus bulky ribbon. For the slim woman a large cluster of carnations looks well. Oval designs are best on medium-sized women.

Miss Scherer said flowers should be worn the way they grow, with blossoms up. She sees no point in looking at the underside of a flower.

She has found that men like bright red carnations best but Canadians in general favor pastel colors. She noted that California florists sell more vividly colored flowers than Canadian.

Manners MAKE FRIENDS

When they get to a party a husband and wife often have a hard time deciding when to leave. In order to avoid public wrangling over whether to go now or later, it is a good idea for a husband and wife to agree on a going-home time before they arrive at a party.

It will save a lot of arguments —both at the party and on the way home.

STORM-PROOF TRAP — The federal fisheries research bureau believes this steel-wire contraption may be the answer to the annual storm losses suffered by lobster fishermen along Nova Scotia's south and western shores. Thousands of the time-honored wooden traps each year are destroyed by pounding seas. Fishermen Dick Tanner of Stonehurst, near Lunenburg, grips one of the new traps inside which the bait is speared on a wooden sliver. Lobster enter through hinged top. (CP Photo)

OBITUARIES

ERNEST BORIGHT, OF ABERCORN

On February 27th, at the Brome Missisquoi hospital, Sweetsburg, Ernest R. Boright, of Abercorn passed away. He had been in poor health for over a year, but had been around the house until six weeks before his death.

Mr. Boright was born in Sutton on December 25th, 1873, the oldest son of Dennis Boright and Christine Sheperd. He married Margaret Ann Logan, of Mansonville on November 3rd, 1897, of this union one son was born, Clinton, who has always worked on the farm with his father.

Mr. Boright and family lived with his parents until their death in 1917, when he moved to Abercorn to the farm where he was living when he passed away. He was a faithful husband, a kind father, a successful farmer, very ambitious and energetic, a friend to all and respected by those who knew him. He was a member of the Sutton Valley Lodge, I.O.-O.F., a member of All Saints Anglican Church, of which he served as warden for many years. He had been mayor of Abercorn and served a number of years on the council.

Services were conducted in All Saints Church in Abercorn on March 1st, with Rev. Mr. Brett officiating. Two favorite hymns of the deceased were sung, "There is no night in Heaven" and "I need Thee every hour." The remains were laid to rest in the family lot in Abercorn by six of his brother Odd Fellows, Wanton Hall, Lloyd Cook, Walter Ingalls, David Staines, Hale Reid and Jack Shepherd. The many beautiful floral tributes from relatives and friends included wreaths from Abercorn Village and the I.O.-O.F.

Left to mourn his loss are his wife; one son, Clinton Boright and wife; a grandson and wife, Mr. and Mrs. Dennis Boright and daughter Wendy; a granddaughter, Miss Judy Boright; his brother, Percy Boright, of Waterloo. Other relatives included, Mr. Charles Boright, of Waterloo, Mr. Ralph Boright, of Montreal, Mrs. Kavanagh and son Curtis, of Farnham, Mr. and Mrs. C. Rielle, of Mansonville and Mr. George Shepherd, Sutton.

Among those from a distance who attended were, Mr. George Logan, Mr. and Mrs. Gordon Logan, Harold Logan, of Glenn Sutton; Mr. and Mrs. R. F. Cowan of Mansonville, Mrs. Ethel Bailey of Mansonville, Mrs. S. Cowan, Mr. K. J. Cowan, Ronald Cowan, Mr. and Mrs. H. Hoyt, Mr. and Mrs. Earle Bresee, of Sutton. Mr. and Mrs. Stanley and Mr. Ted Walsh of Enosburg, Vt. and many others.

CHARLES B. LODGE, OF MANCHESTER, N.H., Formerly Of Danville

Danville, March 23. — Mrs. James McCallum has received word of the death of her only brother, Charles B. Lodge, in Manchester, N.H.

Mr. Lodge, who was a retired carpenter and a resident of Manchester for the past 45 years, died Wednesday, March 9th, at a local hospital. He was a native of Kingsey, Quebec, and was a parishioner of Grace Episcopal Church.

Members of the family include his wife, Mrs. Daisy L. Lodge, of Beebe, Que.; a son, Kenneth Lodge, of Manchester; two sisters, Mrs. James A. McCallum and Blanche M. Lodge, both of Danville, two grandchildren, two nieces and a nephew.

Service was held on Saturday, March 12th, at the Goodwin Funeral Home, Manchester.

Bulwer, March 16 — In the sudden passing of Mrs. Margaret Elizabeth Hill at the McKeage Nursing Home, Sherbrooke, on February 17, this community lost a highly respected citizen.

Mrs. Hill was born at Kinnear's Mills on April 30, 1885, the daughter of Mr. and Mrs. Thomas Bailey. On June 6, 1906, she was married to Wilder H. Hill, who predeceased her in September, 1951. There were three children of this marriage, Alice of Bulwer, Allen, of Lennoxville, and Thomas, who died in infancy in 1925.

Although Mrs Hill's failing health had kept her confined to her home for several years she will be remembered as one who, when she was able, took an active part in the work of the church and the community. She was a good neighbor and friend to everyone. The largely attended funeral and the many floral offerings spoke of the love and respect in which she was held by relatives and friends.

The funeral was held at the Bishop Funeral Chapel in Sherbrooke on Sunday afternoon, February 20, with Rev. T. D. F. Everett, of Sherbrooke, conducting the service. Miss Thelma Crawford, of Lennoxville, sang the Lord's Prayer and the Twenty-Third Psalm. Bearers were Lindsay Nutbrown, Lloyd Johnston, Ralph Todd, Kenneth Johnston, of Bulwer, and Raymond Stevenson, of Sherbrooke.

Attending the funeral were relatives from Montreal, East Angus, Coaticook, Stanstead, Sherbrooke, Lennoxville, Sawyerville, Cookshire Birchton and Bulwer.

IRON HILL—

Mr. and Mrs. John Chapman and children, of Waterloo, Mr. and Mrs. Stanley Mount and children, of Brome Centre, Mr. and Mrs. Floyd Sanborn, Mr. and Mrs. Gordon Chapman and children, Mr. and Mrs. William Chapman and Tibbitts celebrated the anniversary of Mr. and Mrs. Sydney Chapman at their home. Greetings were also extended to Mr. S. Chapman, who was observing his birthday on the same day.

The school children sent in $8.50 to the Junior Red Cross which has been accumulated by collections and candy sales.

Mrs. Sarah Tibbitts is not as well as her many friends would wish.

Miss S. Beattie, of Trenton, Ont., spent a few days with her sister, Mrs. Selwyn Mason.

The Ladies' Guild recently held a card party at the home of Mr. and Mrs. Sydney Chapman.

Mr. Fred Rumsby had the misfortune to cut his foot with an axe, necessitating thirty-three stitches. He is under the care of Dr. Drolet, of Cowansville at the Sweetsburg Hospital.

Meteors Rally To Nip Paper Makers 5-4; Even Series

Despite Edgar Gendron's Hat-Trick Asbestos Comes Through With Late Drive To Emerge Winners In Tilt

Despite the switching of the game site at the last hour and Edgar Gendron's hat-trick the Paper Makers came out on the short end of a 5-4 count as the Meteors of Asbestos posted their first win in the best-of-seven finals of the Massawippi Valley Hockey League playoffs.

The executive of the Windsor club pulled a "Houdini" just before game time in moving the game to the Canada Paper Arena at Windsor. Several hundred fans journeyed to the local Arena in hopes of seeing the game but their hopes didn't realize. The referees also were on hand at the local ice-house with several players from the Asbestos club.

President Mac Wilson of the loop announced in the morning that the game would be played in Sherbrooke but the Windsor executive pulled their disappearing act at the last hour and failed to put in an appearance. Both papers carried the story according to the information given by President Wilson but Windsor just side-stepped the issue with their own plans.

They must have figured that playing at home they could take the measure of the Meteors but even with their home-town surroundings this failed to materialize. The third game of the series is slated for Asbestos tomorrow evening while for the following one, the fourth, the site has yet to be decided.

Couture opened the scoring for the Paper Makers in the first frame just after the half-way mark. It was the only goal of the period although both teams were short-handed several times.

In the middle session Tessier batted home a tally just after the first minute to even the count. Edgar Gendron posted his first marker of the evening a couple of minutes later to complete the scoring. Four penalties were handed to Asbestos while Windsor picked up two.

In the last period both teams went all out as six tallies were registered. Gendron made it 3-1 for the home club but when Couture drew a tripping penalty the Meteors rapped home two quick goals to even the count. Spenard and Dubuc were the marksmen.

Carpentier drew the nod for tripping and during his enforced rest in the sin-bin playing coach Gendron completed his hat-trick effort. A couple of minutes later Meteors came up with two quick goals by Spenard and Jacques to move into the lead 5-4.

The Paper Makers tried with an all-out effort to knot the count but the Meteors held onto their slim advantage until the final siren to come through the winners and even the series at a game each.

CLOSE CALL --- Sugar Jim Henry, Boston goalie, is seen deflecting the puck from Ken Mosdell, number 18, on a close call during last night's game in which the Canadiens blanked Boston 2-0 in the opener. Calum "Baldy" MacKay, number 11, is standing by while Bill Quackenbush is down on the ice and Cal Gardner is rushing to the rescue.

Canadiens, Red Wings Win Openers

MONTREAL 2, BOSTON 0.

Montreal — (CP) — Mystery cleared away and an alarming sag in effectiveness seemingly righted, Montreal Canadiens today took on new confidence that they can turn back the Boston Bruins.

In the opening game of the best-of-seven Stanley Cup semi-finals Tuesday night, Canadiens came up with a solid defensive display and dunked the Bruins in a 2-0 white-washing on second-period goals by Bernie (Boom Boom) Geoffrion and big Jean Beliveau.

The mysterious "something new" promised by coach Dick Irvin materialized when he sent two goalies, working in relays, to face the Bruin shots. It was a stunt never pulled before in Stanley Cup play. Jacques Plante, regular netminder and rookie Charlie Hodge were shuttled into and out of the game.

With this innovation for the fans to chatter about, the presence of Clarence Campbell, National Hockey League president, was almost an anti-climax.

Few Boos

There was only mild, scattered booing for Campbell, whose suspension of Maurice (Rocket) Richard had the fans in such a dither last week that their riotous outbreaks ended a regular scheduled game Thursday with Detroit Red Wings.

Large police details were again assigned to the Forum, their number estimated between 200 and 300. Those stationed outside, about 50 feet apart, stood in a driving snowstorm.

Inside the building both uniformed and plainclothes police were placed at all exit points and scattered throughout the crowd. Ten police ranged themselves in front of Campbell's box. They stood in the main promenance, on the ice-surface level, their faces turned toward Campbell and away from the game.

As on Saturday night, no standing-room tickets were sold.

Arrived Early

There wasn't a ripple when Campbell took his seat two minutes before the game started. There were a few boos and shouts of "boo Campbell" after the first period.

No attempt was made to molest him at any time. When he mixed with the spectators in leaving the Forum he was preceded by two policemen and followed by two more.

Booing of Hal Laycote, the Boston player Richard attacked March 13, came in bursts—the first chorus coming from all over the rink. When he was spilled once with a solid bodycheck by Jean Beliveau, the booing changed to elated cheering.

The hard, close-checking game and the dozen penalties, evenly divided between the two teams, brought only one flare-up. Leo Labine of Boston and Bert Olmstead of Montreal engaged in a slugging match in the final minute of play and were each given major penalties of five minutes and ordered to their dressing rooms by referee Bill Chadwick.

More Assurance

The game was tightly played and close checking was by far the rule rather than a wide-open style.

Canadiens were more effective and played with more assurance than they did Sunday night in Detroit against the Red Wings and were shellacked 6-0 in the game that decided the NHL championship.

They had an edge in offensive play and the dangerous shots that Plante and Hodge were called on to handle were fewer than those tossed at "Sugar" Jim Henry in the Boston net.

While maintaining a strong defensive stand of their own when short-handed—at one time minus two men for 48 seconds—Canadiens capitalized on Boston penalties in the second period to score both goals.

A partly screened, low shot by Floyd Curry skimmed into the Boston net off Geoffrion at 6:23, and at 12:35 Beliveau deflected another shot by Curry past Henry.

Replaced Richard

Curry, hard-working right-winger who usually works on a defensive line, was a two-way man Tuesday night. He took over Richard's place on the Montreal power plays and worked in his defensive role as well.

Henry played well in the Boston goal while Flaman was the most effective defenceman for the Bruins. Fleming Mackell and Leo Labine were the pick of the Boston forwards, although the nearest thing to a goal was supplied in the first period by defenceman Bob Armstrong. His looping shot struck the ice just outside the crease and took a weird bounce, but Hodge moved fast to grab the puck.

Plante did most of the work in the double-platoon goalie parade. He started each period and was in the nets for a total of 45 minutes and 16 seconds. Hodge worked 14 minutes and 44 seconds.

Plante had 16 shots to handle; Hodge only four. Jim Henry faced 25 shots, including the two that got by him.

DETROIT 7, TORONTO. 4.

Detroit — (AP) — Detroit Red Wings played a "bad" game but were still good enough to overwhelm Toronto Maple Leafs Tuesday night in the opening game of the Stanley Cup playoffs.

In a dull, undramatic contest, Red Wings trounced the Leafs 7-4 at Olympia Stadium to take a 1-0 lead in the best-of-seven semi-final series.

The game was completely devoid of emotion — a striking contrast to last Sunday's throbbing windup when Red Wings trounced Montreal Canadiens in hockey's "game of the year."

Jack Adams, general-manager of the Red Wings, had insisted there would be no letdown in the playoffs, but the Detroiters were as flat as the new Dior look.

No Resistance

Fortunately for them, Maple Leafs offered little resistance and the game was played at a loose, wide-open pace—a perfect setup for Detroit's sharpshooters.

Dutch Reibel and Gordie Howe scored two goals apiece as the Red Wings riddled goalie Harry Lumley from start to finish.

"We haven't played that bad in a long, long time," Adams said after the game. "I hope that this was the bad game to get out of our system.

"Actually, it's hard to keep a club 'up' after a game like last Sunday's."

After the game Adams made a grand tour of the Detroit's dressing room, pointing out the mistakes, blunders and poor plays to his players.

The game was an anti-climax to Sunday's thriller. The suspense which filled Olympia for the Montreal game was gone, leaving a drab, unexciting atmosphere.

Fans Silent

Even the police went back to their old routine of watching the game instead of the crowd. Not even so much as a peanut shell was tossed onto the ice.

Each team scored twice in the first period—Vic Stasiuk and Reibel for Detroit and Brian Cullen and George Armstrong for Toronto.

Glen Skov and Reibel tallied second-period goals to break the game wide open for Detroit. Skov scored on a jab shot, while Reibel whipped in a partially screened 20-footer.

There were five goals in the free-wheeling third period. Howe scored two of Detroit's goals while Ted Lindsay got the other. Sid Smith and Ted Kennedy scored for Toronto.

The crowd was announced as 12,190, somewhat smaller than usual because of the day-long storm which whipped Detroit.

Canadian Swimmers Get Another Chance At Elusive Gold Medal; Toronto's Virginia Grant Leads

Mexico City— (CP) —Canadian swimmers got another chance today to go after an elusive gold medal at the Pan-American Games.

Led by Virginia Grant, a six-foot Toronto girl, Canada qualified three swimmers for the finals of the women's 100-metre free style and the men's 100-metre backstroke and entered a duet in the synchronized swimming.

Miss Grant, 17-year-old runner-up in the 110-metre free style swim at the British Empire Games last summer, and 16-year-old Helen Stewart of Vancouver faced a strong field in the women's free style headed by Shelley Mann of Arlington, Va.

Miss Mann broke the Games record in winning her qualifying heat last Saturday and Miss Grant also finished first in another trial. The American girl was clocked in 1:07.1, Miss Grant in 1:80.4.

Ted Simpson of Vancouver was among the eight finalists in the men's backstroke and the Canadian pair of Eila Lindell and Louise Genereux were entered in the synchronized swimming. The Canadian girls are 20-year-old Montrealers who performed at the British Empire Games in exhibitions.

Still Ninth

With the games heading into the homstretch after 10 days of competition, Canada remained in ninth place in the unofficial team standing with a total of 34 points.

Tuesday night despite shivering weather and an unruly crowd, Irene Macdonald of Hamilton, turned in a solid all around performance to capture fourth place in the women's three metre diving championships.

The 21-year-old Miss Macdonald, third in springboard diving at the 1954 British Empire Games, scored three points for Canada in finishing behind three Americans.

In the preliminary heats of the men's 20-metre butterfly stroke, two Vancouver swimmers, Simpson and Bob Gair, finished fifth and seventh respectively and were eliminated.

The Dominican Republic captured the baseball championship Tuesday night defeating the Dutch West Indies 13-8 to wind up with a record of six wins and two defeats. The United States was second with a 5-3 record.

The U.S. clinched the women's basketball round-robin by chalking up its seventh straight victory.

Argentina won the soccer championship with a record of five victories and one tie and Mexico took the women's volleyball tournament.

Idea Of Two Goalies Was To Win Game, Says Coach Dick Irvin; Fans Present Painting To Beliveau

Montreal—(CP)—Coach Dick Irvin, happy over his Montreal Canadiens' 2-0 win over Boston Bruins in the opening game of their Stanley Cup semi-final, said his idea of using two goalies was "to win the game."

Talking in the dressing room after the game, that was as far as Irvin would go about his "mystery" stunt. He said he hasn't decided yet if he will use the two-goalie system in the second game here Thursday.

Irvin was high in his praise of Floyd Curry, hard-working right winger. He described him as a "very valuable man especially in killing off penalties, but we used him also tonight on power plays."

Managing Director Frank Selke of Canadiens said the club played solid hockey and "it was gratifying to see them come out of their slump." He thought rookie Don Marshall played "a great game."

A delegation of fans from Quebec City presented Jean Beliveau with an oil painting. The presentation was made in the dressing room. The painting, of Beliveau in action, was done by Raymond Roy of Quebec.

In the Boston room coach Milt Schmidt had only one comment on Irvin's use of two goalies: "The way we played in the first two periods Irvin could have played goal himself."

Schmidt said he thought the Bruins outplayed Montreal in the final period.

Both coaches said their clubs will have a rest today but Schmidt said his farm hands called up for the series from Hershey of the American Hockey League will have a workout. None was dressed for Tuesday's game.

The only addition to Montreal strength, except for Hodge, was defenceman Al Dewsbury, formerly of the Chicago Black Hawks, who wasn't used in the game.

Ralph Olin Of Calgary Is Expected To Earn Top Berth On Four-Man Speed-Skating Team For Canada

Saskatoon. — (CP) — Ralph Olin of Calgary looks on speed-skating—particularly the long races—as "mainly a question of determination and will power."

Olin, 29-year-old Calgary policeman, is expected to earn top berth on the four-man Canadian speedskating team which will compete in the 1956 Olympic winter games in Italy.

His determination has resulted in the preparation of his own six-lap speedskating track 10 miles from the Calgary city limits. His will-power has taken him there twice daily for practice runs.

And the two forces combined earlier this month when he finished first in three events at the Olympic trials here, thus duplicating his feat in the 1951 trials.

BATTLED WIND

Despite a 15-mile-an-hour wind, Olin bettered the 1951 trials times in each event.

He won the 10,000-metre event in 18 minutes, 22.5 seconds—an improvement of one minute and 17 seconds. He finished first in the 5,000-metre event with a time of eight minutes, 55.2 seconds, faster by 26 seconds than the 1951 time.

In the 1,500-metre race, his specialty, he was timed in two minutes, 31.7 seconds, 2 3/10 seconds faster than the 1951 time. His fastest practice time is 2:26.

A qualified performer in all events, Olin believes there's an extra smattering of technique involved in the 1,500-metre race.

"Your skates must touch the ice lightly and there are other tactics which must be considered," he says. "In the longer races, it is mainly a question of determination and will-power."

Ottawa District Hockey Association Protests To CAHA Regarding Decision To Have Flyers Play All Games Away

Ottawa. —(CP)— The Ottawa District Hockey Association is protesting to the Canadian Amateur Hockey Association a decision to have Ottawa Flyers play all their Allan Cup games against Moncton Hawks in the Maritimes city.

"We have taken the matter up with George Dudley, the CAHA's secretary-manager," said ODHA secretary-manager Cecil Duncan Tuesday night, "and definitely will appeal the order which has cost the Ottawa public the opportunity to see at least a couple of Allan Cup games."

The Maritimes Senior Hockey League representatives currently lead the ODHA champions 2-0 in games in their best-of-seven series. With the third game scheduled for tonight, there would be time for a CAHA change of mind.

Originally, the Ottawa team was to play two or three games in the Maritimes, depending on the outcome of the first two. The remainder were set for Ottawa.

W. B. George, CAHA president, changed this, however, on economy grounds after getting the approval of both Lloyd Davis, president of the ODHA, and J. P. McDougall, MSHL president.

A decision on the schedule-change demand is expected in a day or two.

Some 3,000 fans saw defenceman Jean-Guy Talbot score what proved to be the winning goal late in the second period. Jean-Paul Denis, Claude Provost and Jacques Deslauriers accounted for the other Shawinigan Falls tallies.

Stan Smrke and defenceman Gerry Glaude counted for the Saguenneens. The second game of the series will be played here tonight.

Mike Souchak Cops Top Money In Pro-Am Event

His individual score was good for $1,800 and his share of the pro-amateur money was $1,750 for a total of $3,550.

Wants NCAA To Check On Canadian Players

Providence, R.I. —(AP)—Paul F. MacKesey, regional vice-president of the National Collegiate Athletic Association and athletic director at Brown University, said Tuesday he has recommended that an NCAA committee be appointed to investigate the amateur status of Canadians playing American college hockey.

Speaking at an informal hockey dinner at the university, MacKesey said that current criticism of Canadians in the American college game had "missed the boat."

"The issue isn't one of nationality, but whether Canadian boys can qualify as amateurs under American rules," he said.

Bronco Horvath Sets New Scoring Record In WHL

Seattle— (CP) —Bronco Horvath, high-scoring forward with Edmonton Flyers, set Western Hockey League records for both total points and three-goal efforts this season.

The final statistics for regular season play issued from WHL headquarters here Tuesday showed Horvath collected 50 goals and 60 assists for a total of 110 points, well ahead of the former mark of 11 points set by Bobby Love of New Westminster during the 1948-49 season.

Horvath's total of five hat-tricks for the season also eclipsed the former mark of four set by Alan Kuntz of Vancouver in 1948-49.

Ken Wharram Plays Hero's Role As Bisons Edge Barons In Overtime; Hornets Blank Springfield Indians

Young Ken Wharram, Buffalo's brilliant centre, and veteran goalie Gil Mayer of Pittsburgh Hornets stole the show as the American Hockey League's Calder Cup playoffs began Tuesday night.

The 21-year-old Wharram collected all three goals including the winning one at 7:30 of a sudden-death second overtime period —as Bisons edged the defending champion Cleveland Barons 3-2.

Mayer, in his fifth season with Pittsburgh, recorded a shutout as Hornets, the regular-season titlists, turned back Springfield Indians 2-0.

CONTINUE TODAY

Each game was the opener in the best-of-five semi-final series. The teams resume the playoffs today with Buffalo still at Cleveland, while Pittsburgh again is host to Springfield.

Buffalo and Cleveland had played more than 77 minutes when Wharram scored the tie-breaker from close range while Barons were shorthanded. It was scored at the expense of Emil (The Cat) Francis, who took over as Cleveland goalie after rookie Roy McKeekin retired with a knee injury in the opening minutes of the third period.

Mayer made only 23 saves against Springfield as Hornets' displayed a tight defence. Bob Hassard put Pittsburgh in front 1-0 in the second period and rookie Jack Caffer added the clincher later in the same stanza.

Beau Jack Just Loves To Fight; After Title Again

New York. —(AP)— Beau Jack, the storybook fighter who began as a shoeshine boy in his native Georgia, is back in town, a man of 33 who speaks in soft southern tones of his beautiful condition and his love to fight.

"Fighting is my life. I love it," the Beau said. "I'm gonna break history. Yes sir, no man ever came out of retirement to regain the title."

The fighter they called the "little champ" when he held the New York version of the lightweight title 4½ years ago is signed to box Ike Williams, former world lightweight champion, at Augusta, Ga., April 9.

Jack boxed in Madison Square Garden more times than any other man—18 main events, three in one month, and four of these grossed better than $100,000.

The Beau's last fight before retiring with a bad knee was April 15, 1951, when Gil Turner stopped him in eight rounds.

Baseball In Brief

Chuck Dressen, the manager who walked out on a pennant winner, figures Brooklyn Dodgers would have won the National League flag again last season if he had been around. And this season, says he, they'll do it even though he's still not with them "unless they break their arms."

Dressen, back in the major leagues after sitting out the 1954 season at Oakland, now bosses Washington Senators in the American League. But his faith still is with the Brooks.

BUT DUMP BROOKS

"They should win it easy," said Dressen Tuesday. "They've got all the stuff they need. A lot depends on the pitchers, of course. They've there and you've got to get it out of them."

And with those compliments out of the war, Dressen and the Senators proceeded to nudge Brooklyn 4-3 in a 10-inning exhibition game.

The Brooklyns tied it at 3-3 in the ninth when Junior Gilliam came home on Duke Snider's squeeze bunt. But Jesse Levan's pinch single broke it up in the 10th after singles by Roy Sievers and Tom Umphlett and an intentional pass had loaded the bases.

Boston Red Sox got going late, breaking a 1-1 tie with four eight-inning runs to beat Pittsburgh Pirates 5-4.

Cleveland held Chicago Cubs to two hits, but walks and errors gave the Bruins a 3-2 decision.

Cincinnati Redlegs got to Bobby Tiefenauer for four runs in the ninth, but couldn't catch St. Louis Cardinals, who scored five on five hits in the last two innings for a 7-6 victory.

Rain washed out the Milwaukee-Philadelphia, Detroit-Baltimore games. The other clubs were not scheduled.

Bert Bell Calls Special Meeting At Lions' Request

Philadelphia —(AP)—Commissioner Bert Bell Tuesday summoned members of the National Football League executive committee to a special meeting in New York Monday to discuss the current dispute with the Canadian football league over player contracts, and to consider a 1955 NFL schedule.

An NFL spokesman confirmed that the discussion of relations with the Canadians was at the request of the Detroit club. The Lions Monday obtained a temporary court order seeking to restrain quarterback Tom Dublinski from jumping to the Toronto Argonauts of the Big Four.

Minor Body Asks Suspension On Coach & Players

Quebec—(C)—The committee of minor hockey leagues decided Monday night to recommend that coach Jean-Louis Desnoyers of the midget "B" Cap Blanc Indians be suspended for life from organized hockey for an attack last Thursday night on a referee.

The recommendation will be forwarded to the Quebec Amateur Hockey Association for consideration.

The committee heard game officials testify that Desnoyers and a dozen Cap Blanc players and supporters attacked referee Paul Cazeau after a game in Quebec's Victoria Park Arena.

Cazeau was knocked to the ground as he left the ice and kicked and punched in the face and body.

The committee also recommended a three-year suspension for a Cap Blanc player, and five-year suspensions for two juvenile players who were among spectators to join in the attack.

Detroit Lions Buy Quarterback From Pittsburgh

Detroit — (AP) — Detroit Lions, hoping to cushion the loss of quarterback Tom Dublinski to Toronto Argonauts, repurchased a quarterback prospect from Pittsburgh Steelers Monday.

He is Paul Held, who served as an understudy to Jim Finks last season. The Lions traded Held to Pittsburgh last year, but kept an option on his return.

Held, a former San Diego state star whose football career was interrupted by navy service, is expected to serve as Detroit's No. 2 quarterback behind Bobby Layne.

Sports Roundup

By GAYLE TALBOT

Tampa, Fla.— (AP) —"We do not," the man said forcefully, "intend to go any lower. We'd better not, anyway, or they'll have to start reorganizing the American League into a 10-team outfit quicker than they've been planning."

In other words, Lou Boudreau, the first manager the Kansas City Athletics ever had, is cheerful about it. If, as some men claim, he is directing the worst ball club ever gathered in one uniform, Lou has no intention of letting it get him down.

"I don't think the Kansas City fans will be expecting any miracles," he said. "On the contrary, I think they will be ready to encourage us to do our best with what we have, and that might make a greater improvement in this club than you can imagine. These boys have been taking an awful riding in Philadelphia and I really think they will react to better treatment.

Sees Difference

"I know all of them, of course, from managing against them either at Cleveland or in Boston the past three years. I can see the difference in them this spring. Every one of them is hustling, which is something you don't see too often. They feel they have been given a new lease on life."

Was there one single player around whom his hopes for making an improvement revolved?

"Yes," Lou said, "Bobby Shantz. Everything is wrapped up in Bobby's ability to come back and pitch the way he did —before all his arm trouble started two years ago. I know he's not going to win 24 games, as he did in '52, but if he should win even 15 it would mean a lot."

Farm Forum Activities

BEDFORD

The weekly meeting of the Bedford Farm Forum was held at the home of Mr. and Mrs. William Taylor. The Green Leaf was read by the secretary, Mrs. Neil Creller, and Mr. William Taylor acted as chairman of the meeting.

The topic for the evening's discussion was, "Education for Farming," which was divided into three sections.

1.—How far should young people who plan to farm go in school? It was decided that they should go through high school, then, after farming for one year, they decided to make farming their lives work, could go on to an agricultural college.

2.—What special agricultural training is necessary for modern farming? Among positions opened in this field are those of farm managers, instructors in manual training and agricultural engineers.

3.—Is the high school the place for agricultural education? It was decided that the high school was definitely the place for the teaching of agricultural. The study to commence in Grade IX, and to be compulsory in both city and country schools. The instructor to be one of the regular staff members. The course could include theory of farming, composition of soils and growth of plants and animals.

A social hour was spent, following the discussion period. The hostess was assisted in serving by the co-hostesses, Mrs. Hannibal Sheltus and Mrs. Neil Creller.

The next meeting will be at the home of Mr. and Mrs. Clayton Muncaster.

EAST FARNHAM

The East Farnham Farm Forum met on March 14 at the home of Mr. and Mrs. Stewart Strange with Gordon Shufelt as chairman.

Mr. Shufelt had collected about $40 to help a fellow-farmer in the loss of his home by fire.

There was just one question to be answered, "How can farmers compete with higher wages and shorter hours in industries?" Perhaps by insuring a permanent position to the hired help the year round and a reasonable number of holidays and Sundays off. Also the purchase of labor-saving machinery and using it co-operatively with other farmers because of its high cost.

Lunch was served by the hostesses and Mr. and Mrs. D. F. Shufelt offered her home for the next Forum meeting.

BULWER

Mr. and Mrs. Ralph Todd entertained the Bulwer Farm Forum on March 14th when the question of what the farmer could do to offset industry's shorter working hours and higher wages in order to obtain help on the farm was discussed. The answers, to follow the Golden Rule, — "Do unto others as ye would they should do unto you," have regular and reasonable working hours, bring to the farm laborer the realization that the pay envelope represents more than appears on the surface, have better management, more modern buildings, equipment and methods and more mechanization.

The Greenleaf letter was read, the topics for next year discussed and an annual paper was filled in. A nominating committee consisting of Mrs. Everett Parker, Mr. Curtiss Ross and Mrs. Roberta Richardson was chosen to draw up a slate of officers for next year.

At the close of the meeting, lunch was provided by Mrs. William Hall and Mrs. Douglas Grapes.

Proper Reading Methods Told To Teaching Group

European children, particularly Germans, master the mechanics of reading in an excellent manner but without gaining a knowledge or understanding of what they have read, Miss Blanche Stewart told members of the Sherbrooke County Teachers' Association.

Meeting in Lennoxville High School for the "In Service Training Conference," teachers were present from North Hatley, Magog and Ayer's Cliff to hear Miss Stewart, a representative of the Department of Education and other speakers.

The conference was divided into four sections including "Primary Reading," "Senior reading," "Senior Elementary Arithmetic," and "Guidance."

Miss Stewart stressed the need for readiness in the first grade and pointed out that teachers must keep a close watch on their pupils so that they do not spend too much time on readiness program. The latter situation may result in the child becoming bored and uninterested. "The success of the pupil in developing reading skill depends on 'work'," she added. "All children do not learn to read at the same rate, thus it is the job of the alert teacher to see that her pupils' minds are kept active and satisfied."

Mrs. Donald McCabe, also a representative of the Department of Education, and speaker in the senior reading group, suggested that teachers use oral reading as a means of diagnosing children's reading problems. She indicated a few remedies to help those particular problems. "Teachers can and should help their pupils to select library books suited to their taste and ability," she added.

On the topic of senior elementary arithmetic, Miss Frances Crook, lecturer in mathematics at Macdonald College, put the emphasis on oral work in arithmetic. It is difficult to make children understand why certain rules must be followed in solving problems, and whenever possible, she said, they should be led to discover for themselves rather than be told.

K. H. Annett, guidance director of Richmond-Danville-Asbestos Schools, outlined the guidance program that is in operation in R.D.A. Schools.

"Pupils may be confronted with certain problems," he said, "but if a pupil has ability and ambition, financial assistance is available to him through bursaries and scholarships," said Mr. Annett. In guidance work, he added, counselling is the most interesting and valuable part but also the most time consuming.

Miss E. M. Ennals, Mrs. E. D. MacLeod, and M. Stefano acted as chairman during the conference.

Speakers were introduced by Mrs. M. C. Knapp, Miss D. Nicholson, Mrs. M. E. Brown, and E. E. Denison, and thanked by Miss D. F. Bennett, Mrs. M. F. Mayhew, Mrs. K. Little and G. McElroy.

The conference was organized by E. E. Denison on behalf of the Sherbrooke County Teacher's Association.
