Chief Justice Lafontaine

Montreal Herald
AND DAILY COMMERCIAL GAZETTE.

VOLUME XLVIII. MONTREAL, WEDNDAY MORNING, JANUARY 23, 1856. NUMBER 19.

HERALD
Steam, Book & Job Printing Office,
No. 209 Notre Dame Street,
(Near St. Frs. Xavier Street.)

THE Proprietor of this Establishment begs to inform his friends and the public, that, having enlarged his Stock of PRINTING MATERIALS, STEAM PRESSES, &c. he is now prepared to undertake every description of

BOOK, JOB AND CARD PRINTING,
In his premises, "Herald" Buildings.

Having recently added one of HOE'S NEW CYLINDER PRESSES, for Job Printing, to his Stock, he hopes to be able to execute every description of JOB PRINTING at moderate rates, and with despatch.

JAMES POTTS.
Oct. 1, 1855. 263

SPECIAL NOTICES.

Anti-Quackery Medicine.

It is believed that no medicine ever recommended for the cure of Diseased Lungs will bear any comparison in worth to Dr. McCLINTOCK'S PECTORAL SYRUP. A vast trial of its virtues throughout this broad country has proven, beyond a doubt, that no medicine or combination of medicines yet known can so surely control and cure the numerous varieties of pulmonary diseases which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a remedy has at length been found, which can be relied on, to cure the most dangerous affection of the lungs. It purifies the blood of all scrofulous taint; it heals ulceration; it destroys tubercles in the lungs; it regulates the bowels, checks night-sweats, and strengthens the stomach; it stimulates the vital powers, and gives vigor to the whole system; it quiets nervous excitement, relieves pain in the chest, soothes the cough, promotes expectoration, and at the same time affords a delicate nourishment. It contains no opium in any form, and agrees perfectly with the most delicate patient.

Dr. McClintock's Pectoral Syrup is put up in elegant flint glass bottles, containing one pint, the label giving full directions for use. Price only $1 per bottle, six bottles for $5. Also Dr. McClintock's Cold and Cough Mixture, for Fresh Colds, Coughs, Sore Throat, and Croup. Price 25 cts. For sale by

Wm. Lyman & Co.; & by A. Cushman & Co., 122 Fulton Street, New York, Proprietors of Dr. Jas. McClintock's Family Medicines.

CURED BY OXYGENATED BITTERS.
A Case of Eighteen Years' Standing.
From Fitzhenry Homer, Esq., of Boston, Mass.
Boston, Sept. 28.

Dear Sir,—It is now eighteen years since I was first troubled with the water-brash and derangement of the stomach. I have taken advice of the best physicians in this city and New York, in London, Paris, Germany and Italy, and visited the several sulphur and other springs in this country, the watering places of Germany and elsewhere in Europe, and had found no relief. Since taking the Bitters I have never had a return of the water-brash, which daily troubled me of late years to a very great degree. Having found so great relief from this most discouraging disorder, I have recommended a trial of your medicine to many of my friends, who are now using it to great advantage. What little is in my scope to offer in extending the circulation of your Oxygenated Bitters, will be done with grateful pleasure at all times. Yours, very respectfully,
FITZHENRY HOMER.

To Dr. Geo. B. Green.
SETH W. FOWLE & CO., 138 Washington Street, Boston, Proprietors.
Sold by their Agents everywhere.

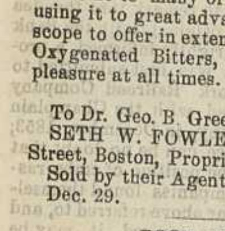
GOOD MEDICINES.



It is estimated that AYER'S CHERRY PECTORAL AND CATHARTIC PILLS have done more to promote the public health than any other one cause.—There can be no question that the Cherry Pectoral has by its thousand on thousand cures of Colds, Coughs, Asthma, Croup, Influenza, Bronchitis, &c., very much reduced the proportion of deaths from consumptive diseases in this country. The Pills are as good as the Pectoral, and will cure more complaints.

Everybody needs more or less purging. Purge the blood from its impurities. Purge the bowels, liver, and the whole visceral system from obstructions. Purge out the diseases which fasten on the body, to work its decay. But for diseases we should die only of old age. Take antidotes early and thrust it from the system, before it is yet too strong to yield.

Ayer's Pills do thrust out disease, not only while it is weak, but when it has taken a strong hold. Read the astounding statements of those who have been cured by them from dreadful Scrofula, Dropsy, Ulcers, Skin Diseases, Rheumatism, Neuralgia, Dyspepsia, Internal Pains, Bilious Complaints, Heartburn, Headache, Gout, and many less dangerous [illegible] Face, [illegible] Nervous Irritability, Loss of Appetite, Irregularities, Dizziness in the Head, Colds, Fevers, Dysentery, and indeed every variety of complaints for which a Purgative Remedy is required.

These are no random statements, but are authenticated by your own neighbors and your own physicians. Try them once, and you will never be without them.

Price 25 cts per box—5 boxes for $1.

Prepared by Dr. J. C. AYER, Lowell, Mass., and sold by WM. LYMAN & CO., S. J. LYMAN & CO., and all Druggists in Montreal.

Important Warning!

SAVE YOUR RECORDS.—At the recent fire in Vesey-st., two firms lost their books and papers, for want of "Rich & Co.'s Salamander Safes," Wilder's Patent. For evidence see the following certificate of George W. Wright, Esq., who had wisely provided himself with one:

New York, May 10, 1855.—Messrs. Stearns & Marvin—Gents, this morning my factory located on the second and third floors of the four-story building No 60 Vesey-st., was entirely destroyed by fire. On the second floor stood one of Rich & Co.'s Salamander Safes, Wilder's Patent, containing my books, papers, and a package of bank bills, which were preserved in good condition. The Safe was severely tested before and after its fall to the cellar. With full confidence in the fire-proof qualities of your Safes, I am, truly yours, GEO. W. WRIGHT.

These Safes are secured by the celebrated "La Belle" Lock, and for sale by
JAMES HUTTON,
Agent for Stearns & Marvin,
The only makers of Salamander Safes containing Rich & Wilder's Patents.

Important Notice to the Ladies.

NEW YEAR'S PRESENTS.

THE most agreeable present the LADIES could give to their HUSBANDS, Brothers, or Friends, would be a BOX OF BEAUTIFUL HAVANA SEGARS, a SUPERB TOBACCO JAR, CIGAR CASE or SNUFF BOX, in Silver or Gold, with a variety of other articles suitable for a Smoker. What greater pleasure could the Ladies desire than to see their FOND HUSBANDS enjoying his Smoke in the *Bosom of his own Family*, and more particularly when the GIFT emanates from one so dear! Therefore, Ladies, try the effect; and try one of LEVEY'S BOXES OF SUPERIOR CIGARS, imported and put up in small boxes for the occasion, at $5 each.

DR. ISAAC THOMPSON'S
Much Celebrated Eye Water!!
"Its merits stand unrivalled."

THIS old, tried and invaluable remedy for all diseases of the eyes, after having stood the test of over fifty years, and the demand for it still increasing, is now, and has been for the past two years, offered for sale in an entire new dress. Each bottle will have a Steel Plate Engraved Envelope, with a portrait of the inventor, Dr. Isaac Thompson, New London, Conn., and a *fac simile* of his signature, together with a *fac simile* of the signature of the present proprietor, John L. Thompson, No 161 and 163 River Street, Troy, New York, and none other can be genuine.

The proprietor has been compelled to make this change in the style of wrapper owing to the large quantity of counterfeit which for the past few years has been palmed upon the community and especially at the west.

Purchasers are particularly requested to buy none but the above described, and as the red label heretofore used has been called in, any found in that form the proprietor does not hesitate to pronounce counterfeit.

WALTER MACFARLAN.
Nov. 9. 266

TIRAGE AU SORT.
Grand opportunity for Investment.
Great and Rare Chance of acquiring a Stone Dwelling House and Garden, valued at £1000, for £50!!

THE undersigned having had his property at the MILE END surveyed and divided into Building Lots, offers to dispose of the same by the above mode.

There are to be Ninety-Three Tickets—ALL PRIZES, NO BLANKS—each Ticket to be FIFTY POUNDS, payable as follows:—Fifteen Pounds before the drawing takes place, and the balance in three equal annual instalments, with interest.

There will be FOUR GRAND PRIZES, one consisting of the House and Garden occupied by the subscriber. The house is built of stone, two stories in height, and in every way suited to the convenience of a large family—valued by competent judges at £1000; and the remaining THREE LARGE LOTS fronting on the Main road, valued at £150 each.

Every Ticket will draw a Prize!

And as the lowest price for similar *emplacements* in the locality is at this moment greater than that now put upon the Ticket in this *Tirage*, it follows that every subscriber is certain to receive the worth of his money, besides having the chance of gaining £1000 for his £50.

The drawing will take place so soon as the list is filled, of which notice will be given.

Plans may be seen, and information had, at the office of T. J. PELTON, N. P., Little St. James Street, H. H. MACFARLANE, P. L. S., 53 Francois Xavier Street, or WM. ADAMS, Sr., Esq., Notre Dame Street.
PETER RUTHERFORD.
Montreal, Dec. 24, '55. mwf 304

LOTTERY! LOTTERY!!

ESTABLISHMENT
FOR THE CONSTRUCTION OF
FURNACES
For the Warming of Churches, Public Buildings, and Private Dwellings.
No. 14 St Bonaventure Street.

MR. COQUERELLE, Engineer, guarantees an economy of 40 per cent. IN FUEL, (whether wood or coal,) by the use of his Furnaces, which are the only kind in America capable of this result, or which can by their perfect combinations warm the air without rendering it unhealthy for breathing.

To give confidence in the advantages here announced, M R. Coquerelle will himself undertake to furnish all the fuel which can be burned in these Furnaces during the Winter at a price which will give the 40 per cent. promised.

Price for private residences from £10 to £40.

$140 000!!
A Maryland Lottery
TO BE DRAWN ON THE
HAVANA PLAN.

{ Managers' Office of the Maryland Lotteries,
{ Baltimore, Dec. 1, 1855.

THE Managers of the Maryland Lotteries having had it suggested that the plan of drawing the HAVANA LOTTERIES has its favorites, and being desirous to gratify the public, have concluded to draw a

LOTTERY ON THE HAVANA PLAN
On the third SATURDAY in each month.

GRAND CONSOLIDATED LOTTERY OF MD.—Class 5,
To be drawn in Baltimore, Md, on Saturday, Jan. 19, 1856.
Prizes amounting to 140,000 dollars will be distributed according to the following magnificent Scheme:
20,000 Numbers!—1,000 Prizes!!
Prizes payable in full without reduction.
☞ One Prize to every Twenty Tickets. ☜
SCHEME:

1 prize	of	$50,000	is	$50,000

488 do	do	20	is	9,760

1,000 prizes, amounting to..... $140,000

APPROXIMATION PRIZES.

The two preceding and the two succeeding numbers to those winning the first 200 prizes, are entitled to Approximation Prizes as above.

The payment of all prizes is guaranteed by the State of Maryland.

All Tickets in the Lotteries authorized by the State of Maryland bear the lithographed signature of "F. X. BRENAN, General Agent for the Contractor."

PLAN OF THE LOTTERY.

There are 20,000 Tickets, numbered from 1 to 20,000. There are 1,000 prizes. The numbers from 1 to 20,000 corresponding with those on the tickets, printed on separate slips of paper, are rolled up and encircled with small tin tubes, and placed in one wheel. The amounts of the different 200 full prizes are also rolled up in the same manner, and placed in another wheel. The 800 Approximation Prizes are decided as above.

After revolving the wheels a number is drawn out of the wheel of numbers, and at the same time one is drawn from the prize wheel by boys who are blindfolded. These are opened and exhibited to the audience—the prize being credited to the number drawn by the Commissioner. This operation is repeated till all the prizes are drawn out.

Persons wishing particular numbers must send their orders early, with instructions what to do in case they are sold.

The drawing will be promptly sent to all purchasers.

PRICE OF TICKETS.
Wholes $10, Halves 5, Quarters 2.50, Eighths 1.25.

PROTESTANT POOR RELIEF ROOMS,
Old High School.

THESE ROOMS are now open DAILY, except FRIDAY, from 9 to 4 o'clock.

Applications for relief will be received on TUESDAYS and THURSDAYS, and after the applicants shall have been visited at their dwellings, relief will be given out on

WEDNESDAYS AND SATURDAYS.

A MEAL will be supplied, to be taken at the Rooms, by those needing it and worthy, DAILY, from 12 to 1 o'clock.

Tickets to be given to the poor at the doors, and which serve as a direction to the place, are obtainable at the Rooms, and at MR. PICKUP'S, at 2s 6d per dozen.

To give success to the object for which these Rooms are opened, the Protestant public are respectfully and earnestly requested,

1st,—To refuse relief to street and door beggars.

2nd.—To aid, by contributions of money, which will be received on behalf of the Committee by John Greenshields, Esq., Treasurer; and of cast-off-Clothing, material for making up Clothing, Flour, Meal, &c., which will be received at the Rooms.

3rd.—To enter upon the Register at the Rooms their names and residences, as having work to give to men or women.

4th.—To visit the Rooms, and to examine the Registers, which will be at all times open for inspection.

For the Committee,
THOS. M. TAYLOR,
Chairman,
A. N. RENNIE,
Secretary.
Montreal, Dec. 24, 1855. 304

Christmas Presents.

ALBUMS, MUSICAL KEEPSAKES,
MUSIC PORTFOLIOS,
MUSICAL INSTRUMENTS,
ILLUMINATED MUSIC CASES,
—AND,—
A [illegible] assortment of
Suitable for Presents, for Sale by the Subscriber,
HENRY PRINCE.
Montreal, Dec. 22nd, 1855. 303

GOODS FOR THE SEASON.

Snow Boots, Shoes and Hose
Ladies', Gent's and Children's Hosiery
Do do do Gloves
Ladies' and Children's Wool Polkas
Wool Gaiters, Boots, Bootakins, &c.
Gent's Fancy Flannel Shirts, Ties, Mufflers, &c
Scarfs, Stocks, Collars, Bandanas, Lamb's-wool Shirts and Drawers, &c.
SMALLWARES IN GREAT VARIETY
At RINGLAND & EWART'S,
270 Notre Dame Street.
Terms Cash. No Second Price.
Montreal, Dec. 21, 1855. 302

CHRISTMAS DINNERS.

IN providing all the necessities for the festivities of the season, there is one article which must not be forgotten. The best thing to take after spending the evening out, or after a Christmas Dinner, is our

CELEBRATED PLANTAGENET WATER.

Be sure and get in a supply of it, to be taken in the morning as you rise, if you desire to improve your digestion, and keep your system well regulated, and fit to bear all the change of weather and the variety of food partaken of.
DEPOT, No. 4 PLACE d'ARMES.

ANIMOS NOVITATE TENEBO. OVID.
THE MONTREAL HERALD

WEDNESDAY MORNING, JAN. 23, 1856.

THE WAR OF RACES.—We have lately felt it our duty to condemn the attempts of a small and, we are glad to add, a very uninfluential *clique* of *soi-disant* "Lower-Canada-British" office-seekers, in their attempts to introduce the poisonous element of national origin into our political arena. We hoped that the exposure of the selfishness of their object, and the contemptuous reception which their proposals encountered from the Upper Canada Ministerial press, would satisfy them of the delusive nature of their longings for place and emolument, without reference to their political opinions or administrative competency, but simply from the accident of their birth. Nor have our hopes been altogether deceived, for their champion of the Press keeps a profound silence on the subject and has not, apparently, one word to say in reply to the very unceremonious treatment he has met with at the hands of his "coalition" *confreres* in Kingston and Toronto. Probably, *more suo*, he has taken the matter *en délibéré*, until he has had time to communicate with his "color" in the piebald cabinet —*nous verrons*. In the meantime, however, we find, as was to be expected, that he has not thrown down his gauntlet in vain. It has been seized and borne aloft by a bevy of champions altogether worthy of his trenchant blade—Messrs. R. A. R. HUBERT (Advocate), J. U. BEAUDRY (Clerk in Appeals), T. J. J. LORANGER (M.P.P.), C. A. LEBLANC (Advocate), J. L. BEAUDRY (Merchant), F. P. POMINVILLE (Mr. Loranger's partner), L. T. MORIN (Advocate), R. BELLEMARE (Inspector of Weights and Measures), and P. H. CARPENTIER (Mr. Loranger's Clerk). We have the printed evidence before us, in the form of a "Statement of the reasons which have suggested," to this formidable phalanx of patriots, "the project of forming a National Association, to be called "*La Société Nationale des Reformes et du Progres.*" At all times, say MM. R. A. R. Hubert *et Cie.*, has the power and influence of a people depended upon their union; and this universal truth is above all evident for the Canadian people; but, in a country peopled as Canada is, by inhabitants of various national origins, the fusion of all these nationalities into one Canadian nationality, is a mere utopian dream, a social paradox, a political impossibility. What follows?—"It is necessary that we (Mess. Hubert *et Cie.*), the French Canadians, should—at whatever cost to the power and influence of Lower Canada—keep ourselves apart and separate from all our fellow-countrymen of other origins and defend *our* nationality—that precious legacy we have inherited from our fathers and which we are bound to transmit to our descendants—, against "all comers." It was accordingly determined that a society should be formed of pure Franco-Canadians, for the purpose of perpetuating their national traditions and of preventing that union of Canadians of all origins, into one homogeneous people, by which, and by which alone, their country can ever hope to assume and maintain its legitimate place on the continent of North America. According to these narrow-minded reasoners, the destiny of Lower Canada is, to remain forever a standing warning and example of the truth of the aphorism:—"Union is strength"—and of that other incontrovertible axiom:—"A house divided against itself cannot stand." We are happy, however, to learn that this Franco-Canadian response to the British-Canadian challenge of our neighbor in Great St. James Street, has, like it, met [illegible], in a singularly selected, but not unappropriate, locality, *viz*, the chamber of the Criminal Court, in the old government buildings. A French-Canadian friend of ours, seeing lights in the windows of the Court-room at that unwonted hour, was led by curiosity to enter, with others. He found Messrs. Hubert *et Cie.* in full divan and ascertained the object of the meeting. He tells us there were some thirty or forty gentlemen present, and all of his own national origin, but that the attempt to form the projected "*Société Nationale*" was an entire, almost a ludicrous failure. The head of the *firm*, Mons. Hubert, not being an orator, it was intrusted to Mons. Loranger, who is, to explain, in the most delicate manner possible, that the object of the meeting had been postponed, in consequence of—what does the reader suppose?—the presence of gentlemen who, like our friend, it was not expected would be in favor of any exclusive organization of one race of Canadians, in opposition to those of every other race. Mons Loranger, consequently, intimated that Messrs. Hubert *et Cie.* would issue cards for another and a perfectly select *réunion* of those who, with them, were willing to do in secret, what they were ashamed to acknowledge before the world—and so, the bubble burst.

We may, possibly, return to the consideration of these wicked, but most happily abortive attempts to divide our population into national-origin castes, and to resuscitate bye-gone national jealousies and enmities; but, for the present, we shall merely remark, while such attempts prove that, in a great measure, these prejudices of race are bye-gone, or, at all events, are rapidly disappearing, the present total failure to revive them must hasten the advent of that time when, in Canada, as in England and the United States, the national pedigree of a man will be valued "for antiquity's sake" alone; and when politicians will be judged of by their principles, their words and their actions, and not by the accident of their descent from Norman, Saxon, Dutch or German ancestors. *Divide et impera*, is, we admit, a good, sound rule and maxim of despotism; but on this continent, where by union, and union alone, its people have conquered their rights and liberties, they must be blind, indeed, who fail to see the object of those —be they French or British—who seek to attain political power by exciting and pandering to the national prejudices and jealousies of their fellow-Canadians.

THE DISORGANIZATION OF CONGRESS.—A New York contemporary, speaking of the present state of Congress, says it is cowardice, not courage, which has kept the House of Representatives disorganized for seven weeks—the whip of party, and not the strong convictions of duty, which has kept the members of the House in the paths marked out for them by their leaders. Men professing to be freemen and lovers of their country wear submissively the yoke which their political masters imperiously impose. They are faithless to the best interests of their constituents, and participate in bringing disgrace on republicanism, because they have not the manhood to emancipate themselves from the tyranny of King Caucus.

TO CAPITALISTS.—We may be doing a service to such of our readers as are looking for safe and advantageous investments in real estate in the business part of the city, by recalling to their remembrance that the Exchange Coffee House buildings, and the premises occupied by Messrs. Ross, Neild & Co., on St. Paul Street, will be sold at the Sheriff's Office this morning at ten o'clock. We understand that the property in question has always yielded a very handsome revenue.

SIDE WALKS.—It appears from a report of the Boston committee on claims, instituted about two years ago, that for injuries by falls upon the sidewalks, while icy or otherwise defective, the damages paid ranged from three hundred and fifty dollars down to ten dollars. A woman who fell down a cellar door way in Pleasant street, received one hundred and fifty dollars. The case of Caroline Safford, for injuries received in consequence of a defect in Hawley street, was settled after a suit by the payment to her of the sum of fifteen hundred dollars. In all, twenty nine cases were settled. In quite a number of cases, the committee refused to award any damages, and in a few, notices of suit against the city has been given.

MORE TROUBLE IN KANSAS.—FATAL ENCOUNTER BETWEEN ANTI-SLAVERY AND PRO-SLAVERY MEN.—The Kickapoo (Kansas) Pioneer, of the 18th inst., announces that a battle had taken place at Easton, between a party of "Abolitionists" and some pro-slavery men. It says the former made the attack, which may or may not be true. One pro-slavery man and several "Abolitionists" are said to have been killed, and some wounded. The Pioneer says a company from Lawrence, headed by Capt Brown, commenced the fight with the Kickapoo Rangers. A large number of persons had left for Easton. The disturbances are supposed to have been occasioned by the Free-Soil election on the 15th.

BOUQUET DE MONTREAL.—We have Eau de Cologne, Eau de Paris, Eau de Florence, but Mons. Lubin of Paris has honored our good city by naming his new perfume, Bouquet de Montreal. For exquisite delicacy of perfume it is unsurpassed, and we have no doubt of its rapid sale. The perfume bears the City Coat of Arms, on which is engraved—"Double Extrait Bouquet de Montreal, fait par Lubin, pour S. J. Lyman & Co., Montreal."

NEWSPAPERS.—The Chicago Times says, during the ninety-two days comprising the last quarter of 1855, the almost incredible number of fourteen millions, three hundred and sixty-eight thousand newspapers and printed publications has passed through the post office in Chicago.

"WHAT'S IN A NAME?"—A paper has just been started in Richmond, Indiana, called *The Broad-axe of Freedom and Grubbing Hoe of Truth.*

THE WRECK OF THE HAVRE PACKET SHIP ST. DENIS.—The *St. Denis*, Cap. Folansbee, a good vessel of 950 tons sailed from New York on the 1st instant and was lost during the gale on the 6th instant. Captain Lovell, of the ship *Naples* furnishes the annexed in memoranda:

"On the 7th inst. lat. 38,39 lon. 72, fell in with a long boat from the ship *St. Denis* (hence for Havre) and took from her the first mate, Mr. Tufts, third mate, Mr. Gardner, and nine seamen and brought them to this port. The chief mate, Mr. Tufts, makes the following report:

"The ship sailed from this port on the 1st inst., for Havre, and on the 5th took a gale from the S E. which hauld to N. W. and blew a perfect hurricane, during which the ship sprung a leak and the decks became full of water. We could not get to the pumps to work them.

"We then cut away the main and mizen masts to ease the vessel, when we discovered her fast settling down forward, and at 12 M., 6th inst., left the ship, when she immediately foundered, and the captain, the second mate, three cabin passengers, and the remainder of the crew remained—in all about 30 souls.

"Mr. Tufts also reports that he was 29 hours in the boat which had the starboard side stove in, and it kept five of them continually bailing to keep her free. They had but one barrel of bread and no water whatever to subsist on during the time they were in the boat.

"On the 7th instant, we were picked up by the the ship Naples, Captain Lovell, from Naples for New York, who readily received us on board. The St. Dennis was commanded by Captain Folansbee, and was bound hence for Havre, with a cargo of grain and flour.

The best account which we have seen of the disaster is that given by Mr. Henry Gardner, the 3rd mate. He says.

Saturday 5th, 1 A.M., wind chopped around to NW, and blue a perfect hurricane; at which time the vessel began to leak very fast, and the pumps would not work. At 4 A.M., the captain told the mate that the cabin was filling with water, and he would like to wear ship. Tried it but could not. Cut away main and mizen-masts and then wore around on the starboard tack.—She then, at about 5 A M., began to settle forward, which she continued to do all day till 11 A.M., the wind blowing furiously, and the seas running wild and high. Resort was then had to the boats, when all except the long-boat were found to be so badly stove as to be unfit for use. The long-boat was also badly damaged from having a portion of her side stove in; but she was launched, and four men sent into her to bale her and keep her alive. At this time the topgallant forecastle was under water. The mate then asked the captain if he would not get into the boat, and he shook his head in dissent, telling him at the same time, it was no use. The mate then replied that it was the last shift for such as might confide in it, and accordingly entered it in company with the third mate and nine men.

After this, and before letting go, the mate again asked the captain if he would not come with them, saying that he left the ship for the sake of his wife in New York. The captain answered that he had a wife and seven children in Brooklyn, but he thought they would not see him any sooner by his taking that boat. They laid [illegible] which was all they had to subsist on. She had also but three oars, that were lying in her at the time, together with some half-dozen brooms—Two of the oars were soon afterward lost, and the brooms were used as paddles. At 3 P. M. on Monday, saw a schooner to leeward; but she was too far off to discern them. At 4 P. M. saw an empty water-cask, also to leeward. Made for it, with the hope of obtaining something to drink, but were disappointed. They then descried the vessel, 2½ miles to leeward, which subsequently took them on board and brought them into port. A signal was made to her with a red shirt on an oar. After boarding her, they deemed the boat worthless, and let her go.

The captain, when last seen, and just previously to the vessel going down, was observed on the quarter deck, winding up his watch. He was a bold and accomplished seaman. He had been in command of the St. Denis for twelve years, and had acquired a marked popularity with owners, insurance companies, and all who knew him. Two cabin passengers (Mr. and Mrs. Weirs) who had been married but two days prior to the vessel's departure, were last seen by the second mate, who went into the cabin for an axe to cut away the masts, with a shawl over their heads, and embracing each other.

The following statement is made by one of the New York papers, but which we consider to be a libel upon the good sense of the owners:—

The bad weather prevented the ship from sailing on the regular day, and many superstitious persons will be confirmed in their prejudice against Friday, because the disaster followed so quickly upon a breach of the rule which the Agents of this ship have observed for the last twenty years, never to dispatch a vessel on that day. The Captain went to sea upon his own account, and took his leave of the office before the senior partner of the firm had come from his house.

SIXTY DAYS NOTICE FOR WAR.—One of our Washington correspondents has advised us that a government functionary there says we may have a war with England in less than sixty days. Yesterday there was a slight sensation among the bulls and lame-ducks of Wall street upon a rumor that the Senate at Washington were in executive session upon the war question; but late in the afternoon the panic had materially subsided. Perhaps they had received later advices from Marcy. We shouldn't wonder if the war were put off for ninety days. At all events, the small fry may feel easy, while the sharks of Wall street are quiescent. They will inform us of any real danger, by diving under. While they continue to bask in the sunshine, all these war cries are a sham. But let us keep an eye on Wall street.—*New York Herald, Saturday.*

Second Lecture on Astronomy at the St. Patrick's Hall.

This second lecture was delivered on Monday evening. As we intimated in our report of the previous one, it was devoted to the consideration of the Comets, Eclipses, Tides, Laws of Attraction, and the Siderial Heavens, or region of the Fixed Stars. The lecturer commenced by briefly reviewing his previous lecture and recapitulating the principal facts and principles therein elucidated. After doing this, in a brief but lucid manner, he went on to his examination of the Cometary worlds:

Comets, he said, are bodies that move in space and, like the planets, are under the influence of the sun's attraction. They generally appear to the naked eye like stars with long streaming tails. The wonderful characteristics which mark the flight of Comets through space; the suddenness with which they blaze forth; their exceeding velocity and their terrific appearance; their eccentric motions as they come sweeping towards the sun from all regions and in all directions; have rendered them objects of terror and dread in all ages and in all countries of the world While the planets pursue an undeviating course round the sun, in orbits nearly circular and all in the same direction, the Comets perform their various revolutions in orbits of every possible eccentricity. They come up from below the plane of the ecliptic, or plunge downward towards the sun from above, and, after sweeping round their great centre, they dart with incredible velocity away again into the regions of space. Hundreds of these bodies are in existence, and some have been named and the periods of their revolutions exactly calculated. The celebrated one called Halley's Comet, after the astronomer who first calculated its revolutions, approaches the sun once in 76 years; its last appearance was in 1835. Halley calculated its revolution over 100 years ago; since which time it has twice appeared, fully verifying the astronomer's prediction The periods of revolution of the Comets vary from 3½ years up to longer periods. It is calculated that some take *three thousand years* in performing one revolution round the sun! The great Comet of 1811 was remarkable for its beauty and the length of its tail, which, it was calculated, was a hundred million of miles in length; and the tail of the Comet which appeared in 1680 was calculated to be a hundred and twelve millions of miles in length! The Comet of 1744 had six tails, the longest of which was estimated at eight millions of miles. In former ages the appearance of a Comet was considered the forerunner of disastrous events, such as wars, famine, pestilence, and revolutions of kingdoms. Modern astronomy teaches us that there can be no foundation in fact for such apprehensions.

The Lecturer then went on to speak of Eclipses:—

An Eclipse of the sun is caused by an interposition of the body of the moon between the sun and the earth; this can only happen when the moon is in conjunction, or at the time of new moon. The shadow, owing to the superior size of the sun, is conical. An Eclipse of the sun may be partial or total; an eclipse of the moon, if central, must be total. Hence, there are what are called Annular Eclipses, when a ring of light appears round the edge of the moon, during an Eclipse of the sun. This kind of Eclipse is occasioned by the moon being at her greatest distance from the earth at the time of the Eclipse. It is only when the moon is nearest the earth, at the time of a central Eclipse, that it can be total —a thing of rare occurrence. When a total Eclipse of the sun does occur, total darkness cannot last more than from four to six minutes. The number of Eclipses in any one year cannot be more than seven—five of the sun and two of the moon—nor fewer than two: but the usual number is four, two for each luminary. An Eclipse of the moon is occasioned by the interposition of the earth between the sun and moon. If the moon always moved in the plane of the ecliptic, or earth's orbit, she would suffer a total Eclipse at each full moon. But as the moon's orbit is inclined about five degrees to the plane of the ecliptic there cannot be more than three lunar Eclipses in the year, and there may not be any. Eclipses of the moon may be partial or total. If the moon passes fully through the earth's shadow, the Eclipse will be total and, as the earth is much larger than the moon, the Eclipse may be of three or four hours' duration. A partial Eclipse happens when the moon does not pass fully through the earth's shadow, but passes a little above or below it. By knowing exactly what distance the moon is from the earth, and the width of the earth's shadow at that distance, and also the rate at which the moon travels, astronomers can calculate Eclipses with the greatest accuracy years before they take place.

The Lecturer then, by an easy transition, passed from the earth's satellite to the Tides of the ocean, upon which it exercises so much influence:—

The Tides, he observed, are those regular movements of the sea whereby it rises and falls on its shores twice in the twenty-four hours. The Tides are known to be dependent upon fixed laws, and are caused by the attractive powers of the sun and moon. When the moon is at the full, the parts of the sea nearest to it are attracted towards it, and rise above the level they would otherwise preserve; on the opposite side of the earth to the moon the attraction is very small, but the centrifugal force acts with full effect, and, in conjunction with the attraction of the sun, raises the waters on that side in a similar manner to that caused by the moon's attraction; this is called the sublunar Tide. Thus the mass of waters of which the Tides are composed are abstracted from the intermediate regions, consequently there are two flows and two ebbs of the Tide all over the world every twenty-four hours. The sun, though so much larger than the moon, does not exert so much influence on the waters of the ocean, owing to his greater distance from the earth—the attractive power always decreasing as the distance increases. Thus the sun only raises a Tide one-third the height of the moon. But when the sun and the moon are in conjunction, that is on the same side of the earth, the waters are raised to an extra height; hence we have what are called spring tides. Again, when the moon is in that part of her orbit where the half of her illuminated side is turned towards the earth, we have what are called neap tides; the sun and moon pulling in different directions counteract each other's influence. In open seas the tides rise but to a small extent in proportion to what they do in wide-mouthed rivers. In channels, growing narrower gradually, the water is accumulated by the contracting banks; consequently in some rivers the tide rises to a great height. At the mouth of the Indus, for instance, it rises and falls thirty feet. Lakes and inland seas are not subject to tides, every part being equally attracted

Mr. Murphy then briefly considered the laws by which the whole of the planetary system is governed and controlled, explaining the several laws pointed out by the celebrated astronomer, Kepler. From these he passed to the law of attraction, on which he was very brief, and then turned to the consideration of the fixed stars:—

All the heavenly bodies, continued the lecturer, beyond our system, are called Fixed Stars, because, with few exceptions, they never appear to move or change their places with regard to each other as the planets do. The common observer may, at all times, distinguish a planet in the sky from a fixed star. The fixed stars all twinkle; the planets do not, but shine with a steady, reflected light The fixed stars are supposed to be centres of light and heat, like our own sun, to planetary systems which surround them. The number of fixed stars visible to the naked eye, when the sky is completely unobscured, is about one thousand; but when the sky is examined through a telescope, vast numbers are brought to view which the naked eye cannot discover. The first thing that strikes [illegible] magnitude, the next brilliant, the second magnitude, and so on, as far as six magnitudes of those seen by the naked eye; but those seen by the telescope are reckoned as far as the *sixteenth* magnitude; the number and closeness of these stars increasing with every increase of power applied to the telescope.—Some of these stars, when examined through the telescope, are found to consist of two or more which revolve round one another in irregular periods. The period of revolution of many hundreds of these star systems has been exactly calculated, and some of them have been found to extend to hundreds of years. It is frequently found that one of these double stars exceeds the other in size and brilliancy, and sometimes shines with a different coloured light.—Some are blue, others red, and others, again, of a greenish colour. Another class of stars makes periodical changes in their size and lustre, caused apparently in consequence of alternate advancing and retiring. Astronomers have divided or mapped out the heavens into ninety-four Constellations, of which forty-eight were formed by the ancients. The necessity of such an arrangement is manifest; as without it, the situations of the different planets would be with difficulty described, as they are continually changing their places.—The fixed stars are very irregularly scattered over the sky, and their distance from us are immense. It has been ascertained by the aid of instruments, that the nearest of them is not less than eleven million times the distance of Uranus from the Sun. The only means astronomers have of calculating this distances is by what is called paralactic motion, and this is so small that though the observations are made at opposite sides of the earth's orbit, a circle of one hundred and ninety millions of miles in diameter, it is only with the most delicate instruments that any alteration can be observed.—As it is quite impossible by numbers to convey to the mind any idea of the immense distances of the fixed stars, we shall employ light as a mode of estimating the inconceivable space intervening between us and them. Light is the swiftest moving body with which we are acquainted It travels at the rate of twelve millions of miles in a minute. It flies from the sun to the earth in about eight minutes. But for light to wing its way across the vast distance which separates the earth from the nearest star, it requires about ten years. A ray of light from the star Sirius requires twelve years to reach us. Others of the stars are many thousand times more distant from us than Sirius, and the light from them, which reaches us through the telescope, must have left them thousands of years ago, and travelling at the rate of a million of miles every five seconds ever since.—Let us take another illustration. Suppose a cannon ball to move at 500 miles every hour without intermission, it would require fourteen millions, two hundred and fifty-five thousand years to reach the nearest of the fixed stars. Such distances are amazing, and the mind is bewildered and confounded when attempting to form a conception of the immensity of the great Creator's works.

The nebulæ, another set of peculiar telescopic objects, which are scattered over the heavens in great numbers, are clusters of stars so remote from us that they appear like clouds of hazy luminous patches of faint light, when examined by telescopes of slow powers. But when examined by more powerful instruments, many of them are found to be made up of an infinite number of distinct stars. Some of these that could not be thus resolved, were supposed to be patches of luminous matter in the course of being condensed into stars. The immense magnitudes of some of these globes, their reciprocal action on each other, the order in which they are arranged, the regularity and harmony of their movements, are subjects well calculated to fill us with admiration and wonder at the Power that created such a vast and magnificent structure as the universe. What is the solar system in all its grandeur, when compared with the starry firmament which surrounds it? It is but an atom, a mere unit, we may say, among the countless millions of shining orbs which fill the boundless regions of space. Could we but wing our flight to the regions of the fixed stars, and while standing on the Milky Way, contemplate the magnificent scene, our souls would be ravished with the glorious panorama! And worlds and systems—clusters and universes—rising in sublime perspective before us, we would read with awe the power and majesty of the great Creator.

The house was filled to overflowing, and the audience were deeply interested. The lecturer again closed the proceedings of the evening by exhibiting his interesting astronomical diagrams. We may mention that these beautiful diagrams, employed by Mr. Murphy in these lectures, were got up by the Messrs. Cutts, opticians, Sheffield, England.

ACCOUCHMENT OF MADAME GRISI.—This talented lady was confined with a daughter on Christmas-day, at Brighton and both parent and infant are doing well. Signor Mario is in Brighton; but leaves England about the 12th of next month to complete his engagement at Paris. Grisi and Mario are both engaged for the Royal Italian Opera in Paris, about the middle of February, after which it is expected that the great cantatrice and the unrivalled tenor will proceed to Florence.

The Cleopatra, screw-steamer, has been thoroughly overhauled, cleaned, and repaired at Liverpool, and will be ready for sea next week. She will be engaged in conveying troops to the Crimea for the ensuing campaign.

CITY COUNCIL PROCEEDINGS.

Reported for the Montreal Herald

ADJOURNED SPECIAL MEETING.

MONDAY, Jan. 21, 1856.

PRESENT:—His Worship the Mayor; Aldermen Valois, McCambridge, Starnes, Broosdon, Homier, Trudeau, and Whitney; Councillors Ryan, Browne, Adams, Hibbard, Lyman, Day, Bleau, Campbell, Coursol, Thompson, Montreuil, and Lynch.

The Mayor opened the proceedings by proposing that the investigation into the question of the late fire be postponed till Friday, at two o'clock, on account of the absence, from the city, of Messrs. Devlin and Clarke.—Carried.

Petition from Catherine Malloy praying for relief, her husband being long in the city employ, and now incapable of following his duties. Referred.

After several minor matters, the Council proceeded to the postponed consideration on the mutilation of the Act of Incorporation in the last session of Parliament.

The following Report of the Committee appointed, some time ago, to investigate this subject, was then read:—

TO HIS WORSHIP THE MAYOR, THE ALDERMEN AND CITIZENS OF THE CITY OF MONTREAL.

The Special Committee on Amendments to the Act of Incorporation of this city

RESPECTFULLY REPORT,

That your Committee have carefully examined the "act to amend the provisions of the several acts for the incorporation of the City of Montreal, passed by the Legislature during its last session, and regret to be compelled to report that in its passage through the Legislative Council, it was so mutilated in several of its enactments and so materially changed from what it was at the time it went up from the House of Assembly, that not only have some of its provisions been struck out or changed and in one instance so as to render the section unintelligible or contradictory; but several clauses were introduced into the Bill, whilst before the Upper House, of a character so objectionable and detrimental to the Citizens' interests, that your Committee are constrained to recommend that the Legislature be petitioned without delay to repeal these obnoxious clauses and, at the same time, to restore the Bill to the state in which it stood when it first passed the House of Assembly.

The Sections to which your Committee refer as having been exounged, and which your Committee are of opinion should be restored, are the following:—

IX And be it enacted that the Mayor of the said City for the time being shall have power to sit in the Recorder's Court of the City of Montreal, either alone or in conjunction with the Recorder thereof, or one of the Aldermen or Councillors of the said City, anything in the Seventy-ninth Section of the said Act to the contrary notwithstanding.

X. And whereas it is expedient to extend the jurisdiction of the Recorder's Court of the said City of Montreal, to all matters, complaints, or offences cognizable by one or more Justice or Justices, Commissioner or Commissioners of the Peace, or one or more magistrate or magistrates, be it therefore enacted that the said Court shall have full power and authority to hear, try, and determine all matters, complaints or offences, which heretofore, by the laws and usages now in force, were cognizable by, and within the jurisdiction of one or more Justice or Justices, Commissioner or Commissioners of the Peace, or one or more magistrates, and further that the forms of procedure, informations, complaints, summonses, warrants, recognizances, proceedings, orders, convictions, commitments, and all other orders, writs, warrants and proceedings generally, established in and by the Act of the Legislature of the Province passed in the 14th and 15th year of Her Majesty's reign, and intituled, "An Act to facilitate the performance of the duties of Justices of the Peace, out of Sessions, with respect to summary convictions and orders," and set forth and contained in the Schedules of the said last mentioned Act, shall be, and the same are hereby extended and applied to the said Recorder's Court, and *mutatis mutandis* may henceforth be used and employed in all cases of a like corresponding nature in the said Recorder's Court; and further that all and every the provisions of the said last cited Act, in regard to offences and the mode of prosecuting and punishing therefor, and all the proceedings, orders, and convictions, authorized and commanded to be made in and by the said Act, shall be incorporated with this Act, with such modifications as are necessary for their application to the said Recorder's Court.

XXIX. And whereas in cases where the said Council have purchased, or taken and entered into property for the use of, or the improvement or extension of the Water Works of the said City, in virtue of the Act passed in the 7th year of Her Majesty's reign, intituled, "An Act to au-"thorize the Mayor, Aldermen and Citizens of "Montreal to purchase, acquire and hold the [illegible] "Montreal, to borrow a certain sum of money, "and to erect therewith Water Works for the use "of the said City, and to extend and amend the "provisions of any Act relating thereto,"—doubts have been raised, as to the authority or power of the said Council, to grant mortgages, *hypothèques*, for the price of such property purchased, taken or entered into, or any part thereof, remaining unpaid by the said Council Be it thereof enacted that, in all such cases, the said Council shall have power and authority to grant mortgages, *hypothèques*, on the property so purchased, or taken, to the person or persons from whom such property may have been heretofore, or shall hereafter be purchased or taken, or to any other person or persons, having a right to receive, or accept the same, for the price or purchase money thereof, or any part thereof, remaining unpaid and owing, in the like manner as any individual purchaser of the said property might or could have done, or may or can hereafter do.

The Section of the Bill as it passed the Lower House contained the following provision for the nomination of Candidates for the Mayoralty and Council.

V. And whereas it is necessary to make provisions whereby a poll or contest may be avoided in certain cases where no division of opinion exists among the electors, in respect of the person intended to be elected Mayor of the City, or in respect of those intended to be elected Councillors in any or all of the wards thereof; and it is also necessary to provide, that the Candidates for any of the said offices shall be publicly known, and that none other but those named shall be or may be elected: Be it therefore enacted, that hereafter the twelfth day of February in each year, or if that be a holiday, then the next following not being a holiday, shall be and the same is hereby fixed as the nomination day for all candidates for the offices of Mayor of the said City and of Councillors for the several wards thereof; that at any time between the hours of ten of the clock in the forenoon and four of the clock in the afternoon, on the said twelfth day of February, any five duly qualified electors of the said City may deposit or file with the City Clerk thereof, in his office, a demand or requisition that the person therein named shall be elected Mayor of the said City for the next ensuing term of the said Office of Mayor, and that in the event of there being only one such demand or requisition filed between the hours aforesaid, or that all the demands or requisitions filed shall be for one and the same person, then the Board of Revisors shall immediately after the hour of four of the clock on the said twelfth day of February, proclaim the said person duly elected Mayor of the said City for the next ensuing term of the said Office; and any five duly qualified electors in any ward of the said City may, on the day aforesaid, between the hours aforesaid, deposit or file with the City Clerk of the said City, in his Office, a demand or requisition that the person or persons named therein be elected Councillor or Councillors for the said ward, in which the said requisitionists are electors as aforesaid; and if there be only one demand or requisition filed for the election of a Councillor or Councillors in any ward of the said City, or if all the requisitions filed in any such ward be for the election of the same person or persons as Councillor or Councillors for the said ward, then the said Board of Revisors shall, immediately after four of the clock on the said twelfth day of February proclaim the said party or parties named in the said requisition or requisitions (as the case may be), duly elected Councillor or Councillors for the said ward, for the next ensuing term or terms of the said offices; and each and every such election, made as aforesaid without dissent or division therein, shall be forthwith published in at least one English and one French newspaper in the said City, and the said Board of Revisors shall, in due course report the said elections to the Council of the said City. In the event of demands or requisitions being deposited or filed by five or more duly qualified electors as aforesaid for the election of two or more persons as Mayor of the said City, or as Councillor or Councillors thereof, a poll shall be granted for each and every such election by the said Board of Revisors, and the said election shall be proceeded with in the manner heretofore and now done in all cases of contested elections for the offices of Mayor of the said city or of Councillor or Councillors in any of the wards thereof: Provided, however, that no person may or shall be voted for, at any such election, or may or can be elected thereat, for whose election a demand or requisition shall not have been deposited or filed with the City Clerk on the twelfth day of February aforesaid; And provided also, that it shall and may be lawful for the Mayor or for any Alderman or Councillor of the said City or for the Recorder or City Clerk thereof to administer the oaths numbers one and two included in the twentieth section of this Act, or either of them, to any person signing any demand or requisition as aforesaid for the election of a Mayor or Councillors, and it shall be imperative on them, to administer the said oath, upon any requisition to that effect of the kind mentioned in the said twentieth section of this Act.

This mode of nominating the Candidates was changed in the Upper House, and the following provision substituted.

VII. And whereas it is necessary to make provisions whereby a poll or contest may be avoided in certain cases where no division of opinion exists among the electors, in respect of the person intended to be elected Mayor of the City, or in respect of those intended to be elected Councillors in any or all of the wards thereof; and it is also necessary to provide, that the Candidates for any of the said offices shall be publicly known, and that none other but those named shall be or may be elected: Be it therefore enacted, that hereafter the twelfth day of February in each year, or if that day be a holiday, then the next following not be holiday, shall be and the same is hereby fixhe nomination day for all Candidates fo offices of Mayor of the said City and of illors for the several wards thereof; and Aldermen or City Councillors as shall at th previous meeting of the City Council han named and appointed for that purpose, preside at each of the nominations of Cas for the offices of Mayor and of Councillspectively, which shall be held in the open at for the office of Mayor at the Bonsecoaket, and those for Councillors at such ple the several wards to be fixed by the saidcil, as that all the electors may have frees thereto; and at ten o'clock in the foreof the said day, the Alderman or Councilpointed to preside at each such nominatiall proceed to the place where the same is held as aforesaid, and shall then and there e the electors there present to name the a or persons whom they wish to choose as M or as Councillor or Councillors, as the casy be, and and any two duly qualified ele of the said City may open and publicly addo the Alderman or Councillor presiding a nomination for the office of Mayor a demar requisition that the person by them n be elected Mayor of the said City for the ensuing term of the said office of Mayor, an the event of there being only one such denor requisition made as aforesaid, or that al demands or requisitions so made shall b one and the same person, then the Alderor Councillor presiding shall proclaim thd person duly elected Mayor of the said Citythe next ensuing term of the said office; any two qualified electors in any ward of the City may, on the day aforesaid, openly anblicly address to the Alderman or Councillresiding at the nomination for the office of ncillor in such ward, a demand or requisitiot the person or persons named by them be ell Councillor or Councillors for the said wardwhich the said requisitionists are electors foresaid, and if there be only one demand equisition made for the election of a Counci or Councillors in any ward of the said Citif all the requisitions made in any such war for the election of the same person or person Councillors for the said ward, then the saidlerman or Councillor presiding shall proclahe said party or parties named in the said rsition or requisitions, as the case may be, delected Councillor or Councillors for the siard, for the next ensuing term of the said lo or offices; and each and every such ection, made as aforesaid without dissentr division therein, shall be forthwith pulhed in at least one English and one Fre newspaper in the said City, and the said prding Aiderman and Councillors respectively sl, in due course report the said elections to Council of the said City. In the event of dands or requisitions being made by two or m duly qualified electers as aforesaid for the etion of two or more persons as Mayor of the s City, or as Councillor or Councillors in anward thereof, a poll shall be granted for eachd every such election by the said presiding Alman and Councillors respectively, and the saidection shall be proceeded with in the man heretofore and now done, in all cases of costed elections for the offices of Mayor of the saCity, or of Councillor or Councillors in any the wards thereof: Provided, however, that person may or shall be voted for at any suchection, or may or can be elected thereat, for wse election a demand or requisition shall not be been made as aforesaid on the twelfth day oebruary aforesaid.

It must be obvious tony one of experience in electioneering proceengs that the change thus made in the Legislve Council, far from being an improvement, s many serious objections which could not sach to that provided for in the Bill sent up tthe Legislative Council. Your Committee ceive, therefore, that this Section should be stored to the state in which it was when itirst passed the Lower House.

That, rendered unintelligible or contradictory, is the twenty-fifth secth of the amended Act by the introduction beeen the words "*virtue thereof*" and "*the swoi assessors*," in the 31st and 42nd lines, of theollowing words, viz:—"the whole of the real ete in such street, square or section shall be hd to have been equally benefitted by such imrovement; and that so much of the said sectin as empowers the said Council to regulate an apply such rate, tax or assessment to and upoi any such real estate to be so rated, taxed orassessed, and according and in proportion to th amount of benefit which will be conferred theron by the said improvement, shall be and thesame is hereby repealed; and the assessed valu of all real estate in any such street, square o section, for the year in which any By-law imade under the said section, shall be held to b the assessed value thereof for the purposes of tie said section." Which have been evidently introduced by error, or, if intended to be inseted, so inconsistent with what follows as to mke it necessary to expunge or alter other parts of the section. This should be corrected and made to correspond with the Bill as it first passed the Lower House.

The clauses introduced, and which are considered so objectionable and detrimental are the following:—

X. For and notwithstanding any thing to the contrary contained in the said Act fourteenth out of the funds of the said City; and so much of the said Act as provides that the Recorder of the said City shall be assisted in holding the Recorder's Court by one or more of the Aldermen or Councillors of the said City, or that in the absence of the Recorder, from sickness or other causes, the Mayor or one of the Aldermen or Councillors of the said City shall preside in the said Court, shall be and the same is hereby repealed; and it shall be lawful for the said Recorder, from time to time, by an instrument in writing under his hand and seal, to be deposited, filed and registered in the office of the Clerk of the said Recorder's Court, to nominate and appoint some fit and proper person, being an Advocate of not less than five years standing at the Bar of Lower Canada, to be and act as his Deputy in the event of his illness or necessary absence from the said City, and any such nomination and appointment from time to time to revoke and again to make as circumstances may seem to him to require; and each and every person so nominated and appointed shall, for and during the period of time limited in the instrument containing his appointment, or if no period of time be therein limited, then from the date of registration thereof as aforesaid until the revocation thereof, have, hold, use, occupy, possess and enjoy, and be vested with all and every the jurisdiction, rights, powers, privileges and authority, and be bound to discharge all the duties of the Recorder for the said City, to the exclusion, for the time being, of the person so nominating and appointing him as aforesaid; Provided, nevertheless, that the said Recorder's Court shall not at any time be deemed to have been illegally held, nor shall the acts of any Deputy Recorder of the said city be deemed invalid, by reason of the absence of the Recorder not being deemed to be necessary within the meaning of this Act.

XI. Nothwithstanding any thing in the said Act or in any other Act or Law to the contrary, the said Recorder's Court shall have exclusive jurisdiction in all cases of complaint against or objection to the assessment returns to be made in the said City; and it shall be the duty of the Treasurer of the said City, as soon as the Assessors thereof have deposited the assessment books for any ward of the said City in any year in his Office, to cause a notice to that effect to be published in one French and in one English newspaper in the said City, and in every issue thereof, for three weeks; and all persons who may think themselves agrieved by any thing in the said assessment books contained, may, at any time within three weeks of the day of the date of the first publication of such notice, prepare, or cause to be prepared, a complaint thereof in writing, addressed to the said Recorder's Court, and file the same in the Office of the Clerk of the said Court, who shall from time to time give due and sufficient notice, by publication in one English and in one French newspaper in the said City, of the days and hours when the said Recorder's Court will proceed to hear and determine the merits of such complaints generally, or any class or number thereof, respectively; and any party aggrieved by any decision of the said Recorder's Court with respect to any such complaint, may appeal therefrom by summary petition to any one of the Judges of the Superior Court for Lower Canada, sitting at Montreal, presented either in Term or in vacation, within a delay of eight days from and after the rendering of such decision, and thereupon it shall be lawful for such Judge to order that certified copies of the entry or entries in the assessment book complained of by the Petitioner, and of the decision of the said Recorder's Court on his complaint thereof, together with such complaint itself, be transmitted to him, and upon receipt thereof he shall, after having heard the petitioner either in person or by his Attorney, make such order in the premises as to law and justice may appertain.

These clauses should be entirely repealed, or the Recorder's Court at once abolished.

Your Committee would not feel that they were doing justice to the matters entrusted to them were they to pass unnoticed the inconsistency of the existing law which permits the Recorder, a salaried officer in the appointment of the Crown, to hold a seat in the Legislative Council. Your Committee would suggest the propriety of Legislative interference in this matter.

In the draft of the Bill submitted to the Legislature provisions were made for the establishment of Houses of Reformation for Juvenile offenders, and other institutions of a like nature. Also for an extension of the powers of the Recorder's Court as to the punishment of juvenile offenders, and their committal in the discretion of the Court, for one or two years, with a view to their reformation. These provisions appear to have been omitted in the Bill as it passed the Lower House, in consequence, as your Committee have been informed, of representations made by some of the members of the Provincial Cabinet that a general reformatory measure was on the *tapis*, and would be speedily passed, under which the wants of Montreal in this respect, as well as the Province generally, would be met. Your Committee would recommend that the Council, in memorializing the Legislature for the other objects of this Report, would also draw the attention of that august body to the necessity of immediate action in this all important matter.

With reference to the other duties of your Committee, namely: the collation, revision and classification of the By-laws, your Committee have, with the able assistance of Mr. Hockmeyer, Deputy City Clerk, succeeded in so far arranging and classifying them so that so soon as certain By-laws to be framed under the amended Act and some amendments to the existing By-laws, which the Police, Road, Fire and other of the Committees have it in contemplation to recommend, shall have passed the Council, your Committee hope to be prepared to submit the result of their labors for the consideration of the Council, and if approved of, their ultimate publication for the public benefit.

The whole, nevertheless, respectfully submitted.

JOHN J. DAY,
Chairman.
R. TRUDEAU.
A. ADAMS
C. E. BELLE.

Committee Room, City Hall,
Montreal, Dec. 18, 1855.

After the reading of the Report, it was

Moved by Councillor DAY, seconded by Alderman TRUDEAU,

That the Report of the Committee be adopted.

Councillor DAY followed up his motion with a very long speech, during which he was frequently interrupted. It was wholly taken up in repeating portions of the Report just read, and commenting upon them. He said, this Report is one involving very important matters relating to the city. The Report has been read, gentlemen, and I hope you have paid serious attention to its details It is said that this Act has been so mutilated as almost to render it entirely useless. The first section of the amended Act as it passed the Lower House, empowered the Mayor to sit alone in the Recorder's Court; but this clause was struck out in the Upper House The next section related to the extension of the Recorder's Court. The necessity for this was quite apparent. There have been several instances where, owing to the want of this extension, parties have invaded the law with impunity. This also was struck out. The next section was connected with our Water Works. We framed this section that we should have power of mortgage. This power was cut off also.

Councillor COURSOL.—Allow me, Mr. Mayor, to call the member to order. This motion was submitted as a Report, and there was no opposition. Had there been, then the gentleman would have had a right to speak. The report has been received, and there is no discussion.

After some discussion relating to the interruption,

Councillor DAY again went on. The next section, he said, concerned the mode of nominating candidates for the Mayorship and City Council. We suggested that, on the 12th of February, the electors should be permitted to hand in the names, in writing, of the men they were for.—This pleased the members of the Lower House, but not of the Upper. Instead of the electors coming with their requisitions in writing, we have got to station the members of the Council here and there, in the open air, no matter what the weather may be, frost or snow, hail or rain, we must scatter ourselves over the streets of the city, in compliance with this amendment. The next section, of which we have to complain, concerns the assessing those parties who are ben fitted by city improvements, according to the amount to which they are benfitted This is a scheme we have long tried to introduce; but this also was changed. The next section, I notice, concerns the magisterial functions of the members of this Council. The Legislative Council seems to have thought that more confidence could be reposed in some young Advocate than in the Magistrates elected by the people themselves. The next section concerns the revision of the assessments. As the law formerly stood, there was an appeal to the Council by the assessed, and we were surely the best judges of these matters This has been changed; we have been stripped of the right, and the power given over to the Recorder. He alone is the individual to whom the party aggrieved may appeal. Why should this right have been taken from us and given over to a single individual? We say, that if the old powers are not restored, it would be better the Recorder's Court was abolished altogether. We asked for power to found establishments for the confinement of juvenile offenders; the reason for not granting this was that the Legislature was about to introduce a reformatory measure for the whole Province, and, of course, Montreal would be included. But nothing has been done yet, and we don't know when it will.

Councillor RYAN said, when we take into consideration the subject before us, we cannot attach too much importance to it. We drew up a code of laws and presented them to the Legislature and they were disregarded. We have a public officer here over whom we have no control, any further than giving him his pay. Are we to sit here and have a Recorder appointed and set down here in spite of us. It behoves us, and we would only be doing our duty, if we were to set at nought the acts of these gentlemen, and the Recorder they have appointed. He then read a motion which was not put, there being no seconder.

Councillor MCCAMBRIDGE said there was no proof that the act had been mutilated.

Councillor COURSOL said—I am very glad that Councillor Homier has not seconded the motion of Councillor Ryan. Of the present Report, or the greatest part of it, I cordially approve.—When I find men not satisfied with blaming the members of the Legislative Council, but blaming the Recorder himself, I consider it both corrupt and unprincipled. The law of the land says that the Government shall appoint the Recorder, and we have no way of setting that law aside; and when I hear that the Recorder has been accused of an act of which I know that he is not guilty, I cannot help de- [illegible] petition the Legislature for that purpose, and let us have no abusive discussion

Alderman HOMIER followed, speaking at great length, and was followed by the MAYOR, who made a few remarks. Councillor LYMAN also made a few remarks, among which he said,—There seems to be an incongruity in the fact that an individual may sit in one house making laws which in another place he is called upon to execute

The adoption of the Report was then put to the Council and carried, with only two dissenting voices.

The Council then adjourned at a quarter past eleven o'clock, the whole evening having been taken up with this single order of the day.

CHAMPLAIN & ST. LAWRENCE RAILWAY COMPANY.

The annual meeting of the Stockholders of this Company took place at its office on Monday afternoon. Judge Jarvis, of Cornwall, was called to the chair. Mr. A. M. Delisle, Chairman of the Board of Directors, then read the following Annual Report:—

REPORT, JANUARY 21, 1856.

To the Shareholders of the Champlain and St. Lawrence Railroad Company.

GENTLEMEN,—

In submitting the usual Annual Report, your Directors beg to lay before you Statements of the business of your Company for the past year.

These statements shew that the receipts of the year amount to £41,750, the expenses to £21,998; leaving a balance as profit of £19,752, to meet interest and reduce the floating debt.

At the commencement of the year 1855, the Company owed for—

Bonds negotiated	£220,666	0	0
Open accounts and interest	12,667	0	0
Bills payable	41,730	0	0
	£275,063	0	0

At the close of the year the debts were—

Bonds	£219,621	0	0
Bills payable	38,532	0	0
Open accounts and interest	5,600	0	0
	£263,753	0	0
Decrease in liabilities	£ 11,310	0	0

The cost of working the road, including all expenses of management, were a little over 52½ per cent. of the receipts.

The amount paid for interest within the year is £16,489.

Your Directors would call your attention to the reduction in the Liabilities of your Company since your last meeting, to the extent of £11,310.

The payment of calls on new Stock, with the balance of the profits, after payment of interest, and some debts collected, have enabled your Directors to make this reduction.

How far these results may meet the expectations of the Shareholders, your Directors cannot say.

From the gradual increase of business for many years past, and the operation of the Reciprocity Treaty, your Directors anticipated a greater return; these anticipations would have been realized, had not the present Directors of the Montreal and New York Road, without the consent or concurrence of your Board, made arrangements with the Lessee of the Plattsburgh Road, which had the effect of diverting a portion of the business of your Road to that of the Montreal and New York Company, at rates on freighting business one-third less than those of your Company, while they assured your Directors their tariff and charges were exactly similar to yours.

Your Directors have no positive means of ascertaining the precise amount of the business thus taken from their Road, but from the best data they could obtain, it may be assumed at about £4000, which, under your Company's tariff, would, it is believed, have realized not far from £5000, and that without any additional ontlay; therefore, this amount would have been so much net gain.

The large decrease in the imports for the year just ended is sufficient evidence that it has been one of commercial depression in Canada. The increase in your Company's receipts, although not heavy, is, under the circumstances, considered satisfactory by your Directors.

As compared with the year 1853, the number of pleasure travellers has fallen off very considerably, and even 1854 shews a greater number than last year, while the sum received from that branch of business in 1855, has been larger than either of the years previous. The same remark is applicable to the passenger traffic generally.

The whole number conveyed over any portion of the Road was 67,750, being 10,496 less than in 1854.

The import tonnage shews a decrease in quantity; the report varies but little.

The usual comparative statements are submitted, from which much information of the progress of the Company's business may be obtained.

Your Directors feel grateful that they can again congratulate you on the continued regularity in the working of the Road, which has been, for many years, remarked. No accident, except of the most trifling nature, has occurred, and another season has passed without loss of life or injury to passengers, which makes the twentieth year of the running of this Road without loss of life to a single passenger.

The Road and equipment are in excellent repair.

As your Directors had occasion to report to your Shareholders in July, they caused second Mortgage Bonds to be prepared and registered under the provisions of the act obtained in the last session of the Legislature. Holders of non-mortgage Bonds to the extent of £47,050 have exchanged them for second Mortgage Bonds, and there are yet unexchanged £37,400.

Your Directors would express their satisfaction at the manner in which the officers of the Company have performed their several duties.

Your Directors now approach a subject which has received their most anxious consideration, from time to time, and, they regret to say, without any favorable result.

The amalgamation of the Montreal and New York Railroad Company with your Company, as agreed upon between both nearly two years since, is not yet complete. For a long time past, some of the Directors of that Company seemed determined, if possible, to prevent it, and every effort has been made to frustrate the exertions of your Directors to bring it to a close.

So far has this opposition been carried, that the Montreal and New York Company have actually refused the enregistration of the stock exchanged with this Company, notwithstanding that a considerable portion of the stock which they received in the exchange had changed hands and passed enregistration in your books. It was hoped that the amalgamation would, ere this, have been consummated, and very recently all the preliminaries to a fusion of the Companies had been agreed upon, in which concessions were made to the other Company beyond those set forth in the agreement of amalgamation, but again they were doomed to disappointment.

The President of the Montreal and New York Railroad had agreed to the new arrangements; but influences were brought to bear which threatened the arrangements last agreed upon.

In October last, arrangements were made with the Bank of Montreal for the payment of the debt to that institution; which, while they afforded full security to the Bank, were satisfactory to your Directors.

As most of you are aware, the Bank of Montreal, seeing the difficulties in which the Montreal and New York Company were involved after the competition of 1853, strongly urged upon both the necessity of an amalgation, and powerfully aided the project with its influence. Owing to that influence, the agreement of the 10th February, 1854, was adopted by both.

Up to a recent date, the Bank continued to hold the same opinion and favoured the amalgamation.

Lately, the Directors of that Institution have changed their views in consequence of a prospect held out by some of the gentlemen connected with the Montreal and New York Road that the Municipalities between Caughnawaga and Mooer's Junction would vote their Debentures to pay off the debt due by that Road to the Bank of Montreal.

On learning that the conditions on which the Debentures were to be voted, were the exclusion of this Company from the exercise of its just right in virtue of the amalgamation agreement, the repudiation of the stock transferred to it, and the reimbursement of the large advances made by it in cash and stock, your Directors addressed a letter of remonstrance to the Bank, which, with the reply, are also submitted.

At the time of the commencement of the construction of the road from Caughnawaga, your Company owed to the Bank about £45,000; for this sum the Bank became pressing, and gave notice that the whole must be paid in four equal payments within twelve months.

To meet this unexpected and sudden demand by the Bank, the Company obtained from the Legislature, powers to negotiate a new loan, which was effected in London, and the greater part of the debt to the Bank was at once paid off. While the Bank were thus pressing this Company to pay £45,000 (26,000 of which were secured by private endorsers) at a time when this Company were banking with that institution, it was making advances to the other Company to prosecute and complete their works; and this when some of its leading Directors held seats at the Board of the other Company, and many of its Stockholders held shares in it.

The opening of that Road was followed by the most deadly competition, resulting at the end of the year in a loss to each Company of from ten to twelve thousand pounds.

Then it was that the Bank discovered its mistake in having enforced the payment of a debt by a solvent and flourishing Company, to lend it and a further large sum, amounting in all to nearly £90,000, without any other guarantee than that of a Company whose whole capital at the time fell short of £20,000, and which it was evident must always be a rival and competitor to yours for the same business to the manifest injury of both.

Your Directors have very reluctantly adverted to this subjet, but when the Bank declares that it has changed its views with reference to the amalgamation, they were left no alternative. They think they have a right to complain of a policy so injurious to the interests of all concerned, and to none more than to yours.

As the only possible means of extricating both Companies from their perilous position, the Bank urged upon them the expediency and necessity of an amalgamation, and through its influence, on the 10th of February 1854, an agreement and lease were in good faith executed; and, during [illegible] with the terms of that Agreement and Lease, your Company commenced the payment of the Debts of the other Company and exchanged with its shareholders 1311 shares of stock, which are now denied registration.

The money thus paid by your Company, and the par value of the shares thus exchanged amount to upwards of £80,000.

The Bank Directors, as before stated, have recently changed their views with respect to the amalgamation; and your Directors have reason to believe that they are now using their influence to prevent its consummation regardless of the consequences to the Companies, as they evidently expect, by that means, to secure the payment of part of the debt due them by the Montreal & New York Company, through the Agency of the Municipalities.

To the action of the Bank in 1852, when it forced the repayment of its advances to your Company, while it simultaneously made heavy advances to aid the construction of the Montreal and New York Road, are to be attributed the whole difficulties of your Company, as, without the aid of the Bank, that road could not have been built.

When too late, the bank discovered its error, and advocated the amalgamation; again, the bank altered its course, and opposed the completion of the amalgamation without apprising your company of its intention. To this course it still adheres, notwithstanding the urgent remonstrances of your Directors, who represented the serious consequences that must result from future competition, sure to be entailed upon the Companies, if their amalgamation be declared.

It is denied by the Bank that it took a leading part in furthering the amalgamation agreement in 1854.

It cannot be forgotten that some of the Directors of the Bank took a prominent part in the proceedings of the Montreal and New York Company, in which they were also Directors, previous to the ratification of the agreement, and that in reply to an application by the President of that Company to the Bank, for an extension of time, the Bank would only consent on condition that your Company were to have a controlling influence on the Board of that Company.

The President of the Bank was chairman of the meeting of Shareholders of that Company, when the agreement for amalgamation was under discussion; and as representing the bank, its largest creditor, he urged upon the shareholders the necessity of ratifying that agreement and carrying it out, as the only means of saving the company and protecting its creditors. Other directors of the bank were also present, giving their assistance and voting for the measure.

Your Directors are unable to account for the alteration in the views of the Bank, as the condition of this Company is considerably improved since that period. They are not without hopes, however, that the Directors of that Institution may yet be induced to reconsider the matter and consent to the perfect working of the agreement entered into, for the interests of both Roads.

Your Directors are informed that Reports have been circulated to the effect that your Company intended to take up the rails and destroy the Montreal and New York Road, if it became possessed of the power by amalgamation. Such an intention was never entertained by your Board—indeed, it is considered illegal to attempt it—therefore, those reports can only have been circulated for the purpose of influencing the Municipalities to vote their Debentures.

Although the financial position of your Company has improved within the year, there are difficulties still to overcome; of these, none are very important or pressing, except those occasioned by the non-fulfilment of the amalgamation agreement with the Montreal and New York Company. Your Directors, therefore, most earnestly press upon you the necessity of considering how the amalgamation or consolidation of the management of both roads is to be carried out. All of which is most respectfully submitted.

A. M. DELISLE,
President C. & St. L. R.R.

Office of the Champlain and
St. Lawrence R.R. Co.
21st January, 1856.

After which,

On motion of Major Lachlan, seconded by Wm. Watson, Esq., it was

Resolved,—That the Report just read be received, and be printed without delay for circulation among the Stockholders, and be taken into consideration at a General Meeting, to be held on Wednesday, the 20th of February next, and of which due notice be given in the public papers.

Moved by Wm. Workman, Esq., seconded by A. M. Delisle, Esq., and

Resolved,—That Augustus Heward and Henry Mulholland, Esquires, be Scrutineers.

Moved by Hon. John Molson, seconded by A. M. Delisle, Esq., and

Resolved,—That the thanks of the meeting be given to J. D. Gibb and Thos. Peck, Esquires, for the great labor they have bestowed in auditing the books and accounts of the Company, and that they each be presented with a free ticket over the road for the present year.

Moved by Hon. Jonn Molson, seconded by Benj. Hutchin,s Esq., and unanimously

Resolved,—That the President, A. M. Delisle, Esq., be requested to accept the sum of Five Hundred Pounds as some consideration for his valuable services to the Company during the past year.

Moved by Mr. Justice Gale, seconded by Major Lachlan, and

Resolved,—That when this meeting shall adjourn, it shall stand adjourned until the 20th of February next.

Moved by Wm. Workman, Esq., seconded by Benjamin Hutchins, Esq., and

Resolved,—That the thanks of the Stockholders be tendered to Mr. W. A. Merry, for his management as Secretary of the Company.

The Scrutineers made the following report:—

The undersigned, Scrutineers appointed to take the votes for the election of Directors, find the following gentlemen to have been duly elected:

BENJAMIN BREWSTER,
JOHN CARTER,
A. M. DELISLE,
WILLIAM DOW,
HON. JOHN MOLSON,
WILLIAM MOLSON,
WILLIAM MACDONALD,
CHARLES S. PIERCE,
WILLIAM WORKMAN.

The meeting then adjourned.

At a meeting of Directors of the Champlain and St. Lawrence Railroad Co., held on the 22nd instant, A. M. Delisle, Esq., was elected President, and John Carter, Esq., Vice President.

The following are the letters referred to in the above Report:—

Office of the Champlain & St. Lawrence Railroad Company

MONTREAL, January 4th, 1856.

GENTLEMEN,

The interest which the Bank of Montreal must, under present circumstances, feel in the prosperity of the Champlain & St. Lawrence Railroad Company, induces me to lay before the Directors of the Bank the state of the Company's affairs in connection with the Montreal & New York Railroad Company.

About the end of the year 1853, when the two Railroads had closed a year of severe competition for the business of the United States, it was found that both had considerably added to their debt, as the aggregate receipts from the business fell short at least £20,000 of the amount required to pay running expenses and interest.

Aware of this alarming fact, the Bank of Montreal, the largest creditor of both Companies, through some of its Directors, induced the Boards and Shareholders of both Roads to enter into an agreement for an amalgamation; by that agreement this Company assumed the debts of the Montreal and New York Company, and actually paid £15,000 on account of them—further, in accordance with that agreement, this Company exchanged 1,311 shares of its stock, amounting to £65,550, for a like number of shares of the other Company, in full confidence that the terms of the agreement would be carried out.

Permit me here to state, that the influence of the Bank, strongly brought to bear on the Board of both Companies, was *alone* instrumental in causing that agreement to be approved and executed; the imperative necessity of a full and perfect amalgamation being urgently impressed upon the Directors and Stockholders as the only means of averting their ruin, and the loss of the entire stock to the holders.

Acting in good faith, the Directors of this Company caused three of their number to retire and make way for three gentlemen, Directors of the other Company, and in every way carried out their agreement, until an unexpected opposition to a bill to legalize any informality there might be in the agreement, obliged them to decline paying any more monies on account of the others, until transfers of the shares of stock of the Montreal & New York Company, acquired by this Company, were accepted and registered.—This has not yet been done, and the consequence is, that a few gentlemen holding little more than a tenth of the stock, retain the possession and management of the road, work it at lower rates than was agreed upon, and in direct opposition to the interests of the amalgamated companies.

This state of affairs, involving a double outlay in management without inducing a corresponding increase in the receipts, has greatly impeded the prosperity of the Companies, diminished confidence, and deteriorated the value of their stock and bonds.

Should the actual and *bona fide* amalgamation be delayed another season, the most disastrous effects may be expected, as the Railroad and Steamboat Companies in the States, connecting with the Canada Roads, will not be slow to take advantage of the disagreements on this side of the lines, and will oblige both roads to make arrangements of an injurious character; indeed, the greatest fears are entertained that the Canada roads will be forced, through their intrigues, to enter into the same ruinous competition as in 1853.

To avert this evil, the only course open is the full and perfect amalgamation of both companies; if that cannot be affected without legislation, the working of both roads under one management at once, would be equally effectual and would enable the Directors to pay all expenses and interest, and gradually to reduce the debt.

Fully impressed with the influence the Bank of Montreal possesses with the Directors and the Stockholders generally of both Railroad Companies, I would beg to express these opinions in the hope that the course lately taken by individual Directors of the Bank to thwart the Directors of this company in their efforts to procure the registration of the shares, to which I have before alluded, and a partial amalgamation of the Boards of the two companies may be discon- [illegible] porate body, interferes in the matter, but I feel that the Bank influence, which carried the agreement for amalgamation, can also be used to cause its perfect fulfilment,

It is said, with what degree of truth, the Directors of the Bank better know than I can, that the object of the Bank in preventing the carrying out of the amalgamation, is to induce the Municipalities between Caughnawaga and Mooer's to issue their debentures to pay off the debt of that road to the Bank, (near £90,000,) in the fear that if the amalgamation be perfected the road would be closed.

Permit me to say, that in my opinion, if this Company had full control of that road, it would be run, and to advantage, and that there would be less difficulty in procuring the debentures after than before an amalgamation, as no adverse interest would then exist, and the Bank, as well as the Share and Bondholders, would be more fully secured by a union of the interests of both roads, as future competition would be forever avoided.

The power of the Bank to perfect what it commenced is undoubted; if the Directors see fit to draw back, after having induced this Company to make the sacrifice it has done, to the extent of £80,000, the responsibility must rest on those who so act.

Permit me further to say, that without the amalgamation the Shareholders of both roads lose every thing, and the creditors will never realise half their debt; while, if the amalgamation be carried out, the whole debt will eventually be paid, and the stock secured to the holders.

That the Directors of this Company have shewn every desire to secure the payment of the debt due by it to the Bank, you are well aware —they are equally desirous of securing the payments of the other debts of the Company, and are not unmindful of the interests of their constituents—the Stockholders.

May I hope that your Board will give this matter its grave consideration; heavy interests affecting, I may say, the credit of the country, are connected with the prosperity of the Company; and that the course the Bank intends to take, whether to advocate and urge the amalgamation, or the reverse, may be communicated to me as early as convenient, preparatory to the drawing up of the report to the Stockholders, at their annual meeting on the 21st inst.

If I appear urgent in requesting a reply as to the course the Bank may pursue, it is because other steps may, of necessity, be shortly taken to secure, through legal means, what may be effected without recourse to harsh measures.

It is, I understand, apprehended that the Municipalities would not pass a vote in favor of the issue of the Debentures, if the Directors of this Company act on the Board of the other; but it may be worth enquiry whether the real motive which would influence them now, or hereafter, be not to secure the continued working of the Road and prevent its destruction.

They think they have a guarantee for that in the presence of the existing Directors, in so far as they have it in their power, but they fear the contingency of the other road being brought to sale by the Bank, as its chief creditor, and that it may be not be in the power of the Directors to secure its working. The real inducement, then, subsists, so long as the pressure of the Bank's debt is imminent; it is that which they seem desirous of removing by becoming creditors themselves and obtaining seats at the Board to ensure the working of the line.

Now, can it be supposed to be within the influence of any men to induce popular bodies at once to vote bonds, merely because one set of Directors temporarily occupy seats which they must know are liable to be vacated by legal process so soon as this Company, as owners of the majority of the stock, take hostile action to enforce its registration?

Is it intended by the Bank of Montreal and New York Directors to keep the municipalities ignorant that such a contingency is possible, or would the Bank consent to promote the issue of and receive Bonds obtained from the Counties under an impression that this Company's Stock was, or could be, permanently excluded from all control or voice in the other Company?

If it is seriously concluded that on this understanding only the Bonds are to be obtained, and that it be intended to carry out that intention in good faith towards the municipalities, then it unmistakably amounts to this, that the Bonds are given on the condition that a permanent influence shall exist at the other Board in which the interests of this Company shall have no concern. In fact there can be no amalgamation if the impression on the minds of the municipalities (and which they are permitted to labor under) be honestly and fairly carried out.

If it be true, as it is assumed, that they will only deal with the Montreal and New York Road as an independent concern, in nowise concerned or bound up with this Company, they will not surely be so blind as to be satisfied with the present state of sufferance which, as they know, this Company tacitly yields, but they will guard against any future exercise of authority by imposing it as a condition to the issue of their Bonds.

In all my late interviews with the Bank upon this subject, the desire expressed was that the amalgamation should be postponed until the Bank could obtain these Bonds, and yet it appears they can only be obtained on conditions which entirely and absolutely frustrate all attempts at amalgamation, and I submit if the Bank could fairly receive the Bonds on conditions involving the exclusion of this Company from the Montreal and New York Company, after the part it took in effecting the agreement entered into by the two Companies.

I cannot bring myself to believe that considerations touching the *personnel* of the *management* can have much influence on the Municipalities, as compared with the other and more natural one, that it shall be guaranteed to the Municipalities that the road will be operated and that they will have a reasonable voice in its future management, if they assume the debt of the creditor who controls and may sell the whole

It will be the pressure of that debt and the apprehension of its enforcement which will influence and dictate the vote, and as that cause would still exisit after an amalgamation, it would afford conclusive reason for the co-operation of this Company to promote the vote in question.

But if the bonds are only to be granted on the condition of the permanent exclusion of this Company's interest, or rather the *stock interst* of both roads, for the most of the stock of both it now nominally owns, then their issue manifestly perpetuates a competition which experience of the past has shown must lead to the ruin of both, and all hope of averting the discredit of a judicial sale is annihilated.

It may be that a course so manifestly pernicious to the interests of both Companies, will not pass unopposed, and the Bank should well weigh the contingency and effects of such an opposition as compared with the manifest advantages of co-operation.

In bringing these considerations fully before the Bank for their mature consideration, I shall have discharged my duty, and, I trust, relieved the Company from the responsibility of a catastrophe which it has so far struggled in vain to avert

I have the honor to enclose a statement of the Company's business for the year.

I have the honor to remain,
Gentlemen,
Your most obedient servant,
A. M. DELISLE,
President Ch. & St. L. RR. Co.

Comparative Statement of Receipts, Expenditure, and Liabilities of the Champlain and St. Lawrence Railroad Company for the years 1854 and 1855:—

	1854.	1855.
Receipts	£40,000	£41,000
Expenses	28,881	21,750
Profit	£11,119	£19,250
Increase on profits		£8,131
Bills payable	£41,730	£28,532
Open accounts and interest	12,667	5,600
	£54,397	£44,132
Decrease in floating debt		£10,265
Bonds	£220,666	219,621
Decrease in Bonds		£1,045
Total liabilities	£275,063	263,753
Total decrease in liabilities		£11,310

BANK OF MONTREAL,
Montreal, Jan. 9th, 1856.

SIR,—I have to acknowledge the receipt of your letter of the 4th instant, which has received the consideration of the Board.

That communication appears to have been written under very erroneous impressions, which it shall be my endeavor to remove.

It is in the first place alleged that the Bank of Montreal induced the Boards and the Shareholders of both Railroads to enter into an arrangement for an amalgamation, and further, that the influence of the Bank was "alone instrumental in causing the agreement to be approved and executed."

Upon this point I have to remark that the idea of amalgamation did not originate with the Bank of Montreal; and if I am rightly informed, a proposition with that object was first submitted to the Montreal and New York Railroad Company by a gentleman connected with the Champlain and St. Lawrence Company, in December, 1853; but be this as it may, there can be no doubt that the scheme arose out of the position of embarrassment, in which both Companies found themselves at the close of the year above referred to, and if further proof of this is required, it may be found in the statement published last April, by yourself and Mr. Thomson, the President at that time of the Montreal and New York Railroad Company. It is therein affirmed that "less than another season would have involved both Companies in a common ruin, both roads would have fallen into other and independent hands." &c. "Seeing all these eventualities at the annual meeting, (of Montreal and New York Railroad Company) held on the 28th Feb., 1854, 1,139 shares voted in favor of the amalgation with the Champlain Company and 104 against."

The Champlain Company at a subsequent special meeting of the Proprietors unanimously affirmed it.

It would thus appear that an amalgamation suggested itself to the Directors and Shareholders as the only means of extricating the two Companies from difficulties which threatened their ruin—and that the plan proposed under such circumstances, would, no doubt, have been adopted irrespective of any influence used by the Bank of Montreal.

It is not right, therefore, to throw upon the Bank the responsibility of any consequences which may have resulted from the proceedings adopted for the object referred to

At the same time it is freely admitted that the Bank of Montreal—from the favorable impression it then had of the financial position of the Cham- [illegible] the hope that the large debt due to the Bank by the Montreal and New York Company, would be rendered more secure by the proposed amalgamation, and that such an agreement would be attended with beneficial results to both Companies.

Indeed, by these considerations the Bank, when applied to by the Montreal and New York Company in January, 1854, consented to certain propositions for the settlement of its claim against that company, with the view of facilitating the arrangement then in progress for an amalgamation.

Two years have nearly elapsed since the date of these proceedings, and the amalgamation has not taken place, neither has any progress been made towards obtaining that sanction of the Legislature under which alone can an arrangement of that character be perfected.

It is, however, asserted that the delay which has occurred as well as the non-registration of certain stock by the Montreal and New York Company, is to be attributed to interference on the part of the Bank of Montreal.

I am instructed to deny this statement, and to assert that any influence made use of by the Bank since the vote of the shareholders in 1854, down to a very recent period, has been decidedly with the object of promoting the union of the companies. *But the views of the Bank on this subject have lately undergone a decided change*, which is easily explained and understood—a change, however, which has really *had no practical* bearing upon the question of amalgamation.

The position of the two companies engaged, about two months ago, the anxious consideration of the Bank; there appeared no prospect of an amalgamation, and the seriously embarassed condition of both roads, more especially that of the Champlain and St. Lawrence Company, from its large debt and many pressing claims, seemed to forbid any expectation, *even were the amalgamation perfected*, that the companies could be released from difficulty, and enabled to discharge the claims of their creditors,

Under the most favorable circumstances and with all the advantages anticipated from an amalgamation, there seemed to the Bank no ground to warrant the belief that the revenue which might be derived from both roads would produce a larger sum than would be required to meet the interest upon their debt, and at the same time defray the cost of maintaining the efficiency of the two establishments. Neither could the Bank lose sight of the fact, that the Champlain and St. Lawrence Company is exposed to constant demands from one class of its creditors which cannot be satisfied, or at all events without injury to other interests.

Taking these circumstances into consideration, the Bank conceived it to be its duty to press its claims upon both roads to settlement.

Legal proceedings were therefore adopted and a judgment has been obtained against the Champlain and St. Lawrence Company—the suit instituted against the Montreal and New York Company is still pending—but as you are aware an effort is now being made by that company to obtain the aid of the Municipalities, with the view of discharging the claim of the Bank, and thus putting the road beyond the reach of embarrassment.

This effort has been regarded with much interest by the Bank, as legitimate in itself and as tending to relieve it from an undesirable advance of a large sum of money, as well as the Company from a debt, which if pressed would be attended with serious consequence to the Shareholders if not worthless to the Bank itself.

The Directors of the Company are naturally anxious to accomplish an arrangement which cannot fail to be beneficial to all concerned.

But it is urged that if the Champlain and St Lawrence Company had full control of the Montreal and New York Railroad, there would be no difficulty in procuring aid from the same quarter —I infer that by the control alluded to is meant the amalgamation of the companies as likely to invest the present Stockholders of the Champlain Company with a preponderating amount of influence in the event of such a union taking place.

The Bank is, however, assured that any attempt to amalgamate the Companies would be fatal to the success of the effort to secure the assistance of the Municipalities, and chiefly from the feeling which prevails that any measure calculated to give the parties interested in the Champlain and St. Lawrence Railroad, the control of the Montreal and New York Railroad, would prove prejudicial, if not destructive to the latter.

But presuming that the effort now being made to procure Municipal aid was abandoned, it becomes of the utmost importance to ascertain what prospect exists of an amalgamation being effected, and if the accomplishment of such a measure would relieve the Companies from embarrasment. Have the difficulties, already unsuccessfully encountered, been now overcome?—Are the Companies prepared to treat upon the basis of the arrangement proposed two years ago, as regards the relative amount of debt to be mutually assumed, and the interests of the respective shareholders?

Have all the parties interested concurred, and can Legislative sanction be obtained?

Admitting that all the obstacles which may arrise from these sources, have been or may be removed, there would yet remain the important question, can the creditors of the companies be so arranged with, as to secure the amalgamated Company the undisturbed possession of the two roads

Until these enquiries are satisfactorily answered, what endurement is there to reliquish the effort to obtain the aid of the Municipalities; which, if successful, by no means precludes the possibility of an amalgamation, for if it can be shewn that such a measure would not be injurious to the Montreal and New York Railroad, but would rather tend to its benefit and thus improve the security of the Municipalities, it may fairly be inferred, that no objection would arise from that quarter.

I have thus explained the reasons and motives by which the conduct of the Bank of Montreal has been actuated.

There are some matters adverted to in your letter, regarding which the Directors of the two Companies are apparently at issue,—with these the Bank has no concern, and they, therefore, remain unnoticed. Neither is the Bank called upon to reply to remarks having reference to the conditions upon which the Municipalities may be induced to issue their debentures. But of this the Bank is assured, that there has been and will be found no duplicity on the part of those gentlemen who are taking the prominent part in the effort referred to, and that the interests of the Municipalities are in safe hands, and will be carefully protected.

In concluding this letter, I have to remark that, the great practical difficulty to be grappled with by those to whom has been entrusted the management of the affairs of the two companies, is their extrication from pecuniary involvements—*a difficulty which amalgamation would not have the effect of removing*, and which would only be hopelessly incurred, by resorting to legal proceedings, as threatened in your letter.

It is hoped that the effort now being made on behalf of the New York Railroad Company may have the effect of removing the embarrassment of that Company, but should it prove unsuccessful and should the Company over which you preside be unable to effect an arrangement with its creditors, it is greatly to be apprehended that both roads will pass into other hands, and the stock of the shareholders be irretrievably lost.

I remain, Sir,
Your obedient serv't,
D. Davidson,
Cashier.

To
The President of the
Champlain & St. Lawrence
Railroad Company.

Glasgow, Dec. 31, 1855.

Small as were our imports of Grain and Flour from Canada and the United States last year, they have been still smaller for the year just closed. But the list of total importations, from all quarters, into this port, shows a heavy increase. The arrivals of Oats and Oatmeal exceed any former year, while those of Wheat are surpassed only by the year 1851.

The quantity of all descriptions of Grain at present in Granary, is also much larger than last year at this same period. Although the stock of Wheat and barrel Flour appears double that of last year, it is still comparatively small when placed by the side of the three years immediately preceding it. All other articles show a large excess. We have not had such a quantity of White Pease and Beans for the last five years; and the stock of Oats, Oatmeal and Barley is the largest that has ever been recorded.

The range of prices, during this year, has not been wide. Our present quotations for the principle articles of Grain, imported from America, and to which these remarks bear special reference, are almost the same as those of this day twelvemonth.

The trade, during the interval between the months of January and middle of August, was diversified by little variety. Fluctuations in price were few, and none of an important character; generally, although almost imperceptibly, the tendency was downwards; yet the whole decline on Wheat, Pease, Indian Corn, and Flour, was only 2s@3s per boll and barrel within the space of time just mentioned. The only exception was during a few weeks in the early part of the summer, when the unpropitious weather caused some uneasiness, and produced a temporary improvement in prices.

Towards the end of August matters took a different turn, and a period of great activity succeeded. Accounts of the yield of our home crops were generally unfavorable, although more than usually variable and sometimes conflicting. The deficiency of the harvests of Germany, some of the Baltic provinces, and more particularly of France, was admitted to be great. The French Government, earlier aware of its own wants, was said to be forestalling us in America, and other countries blessed with abundance. The requirements and devastations created by the war diminished the probability of augmenting our supplies from the Mediterranean. Prospects, certainly, were not promising; and under these circumstances a rise took place of 4s to 5s per boll on Wheat, and 4s per barrel on Flour, from the lowest point in August till the highest in Nov.

Happily, however, some of the evils which were feared have not been realised. The large purchases of our Continental neighbors have not precluded us from obtaining, from one source and another, a supply of some of the principal articles of food to an extent beyond precedent.

There were other considerations, too, tending to produce different results from those anticipated, and which had either been overlooked or unduly weighed. A much wider extent of Potatoes had been sown this season than of late years, and the yield has been excellent and tolerably free from disease. Dear prices were curtailing consumption, and the scarcity of money checking all tendency to undue speculation.—These causes have already produced a decline in prices to our present rates.

It is unsafe, at anytime, to theorise much on the Corn Trade, so many circumstances, which may awhile remain concealed, affect it; yet, unless Stocks are lighter in other Ports of the United Kingdom than in our own, and unless supplies fall off materially, it does seem difficult to see how an immediate improvement on present prices can reasonably be expected.

Provisions—Have presented little variation during the whole year. The quotation for Beef closes at 95s @ 110s. Butter of good quality brings 98s @ 100s per cwt. American Cheese has only been offering in this Market during the last two months, and brings from 52s @ 56s per cwt.

Ashes—The imports of Pot and Pearl Ashes exceed those of last year by 817 barrels. The present Stock in Warehouse is estimated at about 600 barrels Pot and 400 barrels Pearl which shows a deficiency of 2,700 barrels Pots and 3,100 Pearls from the quantity remaining on hand at this date last year; and the whole is in the hands of consumers.

During the first six months of the year the trade in Ashes was almost uniformly quiet.—Prices remained with little variation, during the whole of that period, at the same rates as those current at the end of the preceding year. From August till the end of October, Pots rose steadily 3s @ 4s per cwt; and early in November a further advance of 5s took place almost at once. Of Pearls it is more difficult to speak, as consumers themselves have been the principal importers. The rise in the value of this sort has been even more rapid, and to a greater extent, than the other, and closes about 13s per cwt, dearer than could have been obtained last December.

Timber—As will be seen from the tabular statements on the other side, Arrivals of descriptions of Timber, from British Possessions in North America, have fallen considerably short of last year. Although the Stock at the close of last season was heavy, yet, a great inroad was made upon it during the earlier months of the year.

The Trade in January last opened gloomily and during Spring and Summer showed few symptoms of improvement. Although the fall in the prices of Square Timber and Deals was inconsiderable on the whole, yet the Market throughout was heavy.

About the end of August an improved feeling manifested itself. The diminishing stocks and lightness of supplies began to attract attention, and an upward tendency—held in check by scarcity of money—set in, during September and the succeeding month. The improvement then begun still continues, and the Trade, at present, shows a promising aspect. Yellow and Red Pine are each 5d per cubic foot dearer now than in December 1854, and Deals 2d per cubic foot.

REVIEW OF THE IRON MARKET.

Glasgow, Dec. 31, 1855.

Pig Iron—The value of this article has been subject to great fluctuation during the year.—From the lowest point to the highest there has been a range of nearly 30s per ton. In February the price of No. 1 American brands fell to 55s, which was the lowest point touched, and nearly 40s under the top quotation of last year. In March and April the Market gradually stiffened; and by May a rise of 15s a ton had taken place. From this month onward, the price rose by degrees, with slight interruption, to 83s 6d, in the beginning of September. This was the highest rate made. Prices were sustained within 3s@4s per ton of this for nearly a month afterward.

The stringency of the Money Market, and the rapid rise of Bank Discounts, in October, caused a gradual decline to 74s; and, with the exception of a short rally in November, the trade has continued without much change till the present time.

In the shipments to Canada, compared with the year preceding, there was a falling off to the extent of 14,000 tons, and to the United States of 68,000 tons. The total shipments, Coastwise and Foreign, were 542,000 tons, against 582,000 tons in 1854, being less by 40,000 tons this year.

The number of Furnaces in Blast this year is 121, against 115 last; so that, with this additional number, the estimate production of the year is 850,000, against 700,000 tons in 1854.

Notwithstanding this increased make of 60,000 tons, and the diminution of shipments, the stock in Warehouse-Keepers' and Producers' hands is only 100,000 tons, against 130,000 tons last year—showing a decrease of 30,000 tons, which is accounted for by increasing local consumption.

Manufactured Iron—Has generally followed the fluctuations of Pigs more or less closely. Prices began to decline in January, and continued doing so till May, in which month Bars were quoted at £7 10s@£8. In June, an advance of 20s per ton took place, and this rise was supported during that and the following month, but was partially lost in August, when a reduction of 10s per ton was made. In September and October the highest prices of the year were paid—£9 10s@£10 per ton.

Early in November the Monetary pressure had its effect; and though makers generally were busy, prices receded to the present quotations.—The make of Malleable Iron this year was 110,000 tons.

Prices Current, 4th January, 1856.

Pig Iron—Dull at 75s 6d per ton No. 1, Ordinary Brands; "Gartsherrie," 78s; free on board, nett cash.

Bar Iron—Firm at £9 per ton, "Dundyvan," "Mossend," and "Monkland"; "Glasgow," £9 10s; "Govan," £10 per ton; 4 per ct. cash dis.

Sheets—£11 10s@£12 10s per ton, according to "make"; 4 per cent cash discount.

Hoops—"Glasgow," £11 per ton folded; Cut Hoops, 10s per ton extra; 4 per ct. cash dis.

Rails—£9 per ton; Tyre Bars, £10 10s; Hammered Axles, £12 10s per ton; 4 per ct. cash dis.

BIRTH.

In this city, on the 21st instant, at Sherbrooke Street, Mrs. Tyre, of a son.

DIED.

At North Georgetown, County of Beauharnois, on the 14th ultimo, David Bryson, Esquire, aged 78 years, much respected. He was a native of the Parish of Monedie, Perthshire, Scotland, from whence he emigrated in 1817, and settled in North Georgetown, where he lived until his death, and where his memory will be long cherished. His house was always open to supply the wants of the needy; he was a kind and affectionate friend, and has left many once disheartened emigrants to mourn his loss, who now occupy comfortable positions, as the result of his sound advice and friendly aid. He was ever ready to relieve their wants and cheer and encourage them in their new homes. The high esteem in which Mr. Bryson was held, was attested by a large number of sorrowing friends and acquaintances accompanying his remains to the grave.

ALEXANDER'S RESTAURANT!

A RAFFLE of TWO SPLENDID GOLD WATCHES will take place at ALEXANDER'S RESTAURANT, on SATURDAY EVENING, 26th instant. Drawing to take place at NINE o'clock. A FREE SUPPER will be provided.

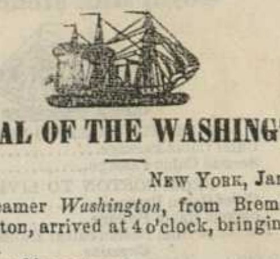
Montreal, Jan. 22, 1856. 1m 18

BY TELEGRAPH.

Reported for the Montreal Herald.

BY MONTREAL LINE

Office Merchants' Exchange, St. Sacrament St.



ARRIVAL OF THE WASHINGTON.

New York, Jan. 22.

The steamer *Washington*, from Bremen and Southampton, arrived at 4 o'clock, bringing dates to the 5th.

Nothing of importance.

Consols, at eleven o'clock on Saturday, were quoted at 87 @ 87⅛.

The Naples correspondent of the *Times* mentions a report that the King of Naples had become favorably disposed toward the Allies; and there is a further rumor that he will send a contingent to the Crimea.

The Paris correspondent of the same paper says, that assurances have been again given in an official quarter, of the resolution of France to carry on the war in the most vigorous manner, in the event of Russia not acceding to the propositions of the Allies; and that the Emperor and English Government were determined not to abate an iota of the terms on which peace would be accepted.

LONDON MONEY MARKET—Jan. 4.

The English funds opened this morning with a very unsettled appearance at the reduced prices of yesterday, and subsequently experienced a fresh decline, from which there was a partial recovery before the termination of business. Consols were first quoted at 87⅛ to ⅜, whence they receded until they touched 87. They then improved to 87⅛ to ¼, and remained without further alteration. The increased dullness was caused by the feeling of uncertainty regarding the state of the Bank bullion during the next month or two, and the subsequent rally was consequent upon a marked diminution in the pressure for money on the stocks.

Exchange lower, being obtainable at from 5 to 6 per cent; and the announcement of the arrival of the West India and Mexican steamer with £632,000 in specie, and the total absence of any foreign news calculated to influence the market, Bank Stock left off at 205½@206½, reduced 87⅛ to ⅜. New 3 per cents 87¼ to 87¾.

The specie brought by the "Tyne" steamer to-day from the West India and Mexican steamer consists of 571,000 lbs in silver and 60,000 lbs in gold.

The *Washington* left Southampton on the 6th. Her departure was delayed four days from the following causes: on the 17th ult. she arrived off Cowes *en route* to Bremen, and having transhipped her mails and passengers for England, proceed on her voyage and arrived off Bremen on the 21st. The Captain was informed by two pilots, who came on board, that the river Weser was frozen up and therefore it would not be safe for him to proceed with his ship.

The following is the report of the London Stock Exchange, dated 1 a. m., Saturday, 5th inst.: Consols, for account, 87; 87⅛ ex dividend.

A new exchange of prisoners between the French and Russians, took place recently at Odessa. Among the French prisoners given up were three officers of the Botour, who were captured by the Cossacks while out shooting in the neighborhood of Kinburn.

The Vienna correspondent of the London Times, writing on January 1st, says:—Political news there is none, but a few words must be said respecting a dinner which Prince Gortschakoff a few days since gave to Baron Hiss and other Austrian officers of high rank. Towards the end of the meal Gortschakoff proposed the health of Baron Hiss, and at the same time expressed his heartfelt satisfaction that there was such an excellent understanding between the Russian and Austrian army; in a word, the Russian Minister took an ungenerous advantage of his position as host and insinuated that the political opinions of his Majesty's principal Generals did not coincide with those entertained by his Majesty's Ministers. Baron Hiss, who is a good diplomatist as well as a skilful officer, replied that he was greatly flattered by the compliment paid him by the host; but took no notice whatever of the political part of his speech."

Naturally a public correspondent cannot mention his sources of information; but you may be perfectly sure that the Emperor expressed extreme indignation when he learned that the Minister of a Foreign Power had dared to hint that his army disapproved of his policy in the Eastern question.

Prince G. and his suite declare that they fully expect to quit Vienna soon.

The Kalisch correspondent of the Oesterresesche *Zeitung*, who is not bad authority in such matters, is of opinion that Russia will never accept such conditions as those which have now been sent by this Government to St. Petersburg.

Advices from Madrid, of January 3rd, say that some capitalists have proposed to the Government the creation of a national credit Bank.

A report, which has been current, that the Spanish cabinet intended to introduce civil marriage into the laws of the country, is unfounded.

The influence of the present war, says the London *Times* of Jan. 5, upon the trade of the country is confined to a few simple elements of easy calculation. We are not in a deadly strife, of a quarter of a century's duration, with our nearest neighbour. Our merchantmen are not watched by privateers as they leave port, nor is privateering a regular branch of national warfare. We are not madly resolved to obtain an important import from no other place than a few islands called our own. All Europe being equally resolved we shall not get it even from them. We are not waging war at once with the enemy and with ourselves, and trying whether peace or war shall do us most harm. In other respects there is all the difference in the world between 15 and 55. In the iron trade we are told the past year has been one of undoubted prosperity in this important branch of our national industry. Strangely enough the trade has been affected by the war in contradictory ways at the same time. The price of iron has risen at once with the improved prospects of peace. The tightening of the money market, and the heavy consumption for war material; the shipments to America have decreased, and those to France have proportionally increased, since the commencement of the war. The present price is high, and the stocks smaller than it has been for many years; and from the great seat of the iron shipbuilding trade on the Clyde, we are told that a greater amount has been built and launched in this than any preceding year.

Toronto, Jan. 21.

J. B. Robinson was elected Mayor this p.m. over J. Hutchinson, by 4 majority.

Weather clear annd cold. Sleighing beautiful.

NEW YORK MARKETS—Jan. 22

Flour—Market heavy; common grades of state a shade lower. Sales 5000 brls at $8@8,25 for common to extra state; $8@8,33 for mixed to fancy western; $8,37@9,25 for Canadian.

SCHEME!

Capital Prize....................$20,000
1000 Prizes! 800 Approximation Prizes!

APPROXIMATION PRIZES.

The patrons of this Lottery having evinced a preference for Schemes with approximation prizes, I have again introduced them, with the difference that there are a great many more prizes than formerly.

Price of Tickets:—Wholes, $10; Halves, $5; Quarters, $2,50.

Prizes in this Lottery are paid thirty days after the drawing, in bills of specie-paying Banks, without deduction—only on presentation of the Ticket drawing the Prize.

Bills of all solvent Banks taken at par. All communications strictly confidential.

January 8 6

THE EMPEROR OF RUSSIA'S SAUCE.

IT is impossible to particularise for what this exquisite and unrivalled Sauce is most adapted: so delicious is the flavor of it that Fish, Flesh, and Game, obtain unequalled piquancy by the use of it. To Stews, Curries, Made Dishes, and Mock Turtle Soup, a peculiarly fine zest is given; and to Beef Steaks, Cutlets, Chops, Cold Meat, &c., so exquisite a relish that can only be believed by those who have tasted it.

OPINIONS OF THE PRESS

"The ingredients of the Russian Sauce are so scientifically blended as to produce an exquisite rich mellow Sauce, which probably is obtained by age and a long voyage."—*Times*

"We ask our readers one question: are you fond of good eating? if so, try the Russian Sauce—it is excellent—*Albion*.

HOTEL TO LET,

For one or more years, the SPLENDID HOTEL, so advantageously situated in the most central and commercial part of the City of MONTREAL (Canada East).

Having been RECENTLY ERECTED, this building is internally as well as externally in perfect order.

Its LARGE PROPORTIONS, sufficient for important business, and the excellent distribution of the interior, as well as the complete state of its arrangements, render it an establishment which offers all the comfort and economy that is desirable in a first-class Hotel.

It is heated by two Hot-Air Furnaces, and lighted with Gas. There are Baths, Patent Water Closets, and the whole of the best description.

The Rooms are divided into three principal Parlors, very spacious, three smaller Parlors, one spacious Dining-room, one Bar-room in the basement, large Kitchens and, besides, about fifty Bed-rooms in the main building; there are a great number in another (brick) building, six stories high, having communication with the Hotel by corridors, which also contains the Baths, Laundry, &c.

A Platform on the top of the building offers a Promenade wherefrom the River, the Mountain and the whole City, presents a charming Panoramic View.

Situated in the immediate neighborhood of the new Court-House and the Champ de Mars, having its whole front on the beautiful Jacques Cartier Square, the best and nearest road for passengers arriving either by Railroad or by Steamboat—this building has likewise, on its front, a vast Iron Balcony, the use of which will be found extremely agreeable during the hot days of Summer.

This building can be easily converted into a Restaurant with furnished rooms.

The terms will be liberal.

As an advantage offered, the proprietor and his family—consisting of four persons—would board in the house.

Apply to the Proprietor, JOSEPH ROY, on the Premises, St. Nicholas Hotel, or the undersigned,
E. ROY,
No. 26 St. Gabriel Street.

FOR SALE,

A FARM in the Township of COMPTON. The Farm contains 300 acres of Land, of which 150 acres are well cleared and fenced—Portland Railroad passes through it. The remaining 150 acres are well wooded with maple wood of splendid growth. It joins the Village of Richardson, where there are grist and saw mills. The Coaticot River passes through the middle of the property. It is considered the best farm in that vicinity,—better known as the "Cochran Farm."

SPECIAL NOTICES.

The many cures of Dyspepsia and kindred diseases performed by the Oxygenated Bitters, after all other remedies have failed, should be sufficient to induce any one suffering from those complaints, to give the medicine a trial.
Dc29 3w

The many cures of the Toothache performed by Dr. Cummings' Nerve Anodyne, after all other remedies have failed, should be sufficient to induce all who suffer from its effects to give it a trial. For sale by druggists generally.
Dc29 DSC2wrts

Jack, the Giant Killer, has long been the wonder of children, but the modern giant, Perry Davis' Vegetable Pain Killer, is always victorious over his great antagonist, pain, in what form soever he may present himself.
Dc29 DSC2wrts

Lyon's Kathairon.

The present immense sale of this article is almost fabulous in amount, which shows the public appreciation of a preparation which rests its claims entirely upon its own merits. The astonishing results produced by the Kathairon in preserving the Hair from baldness, and restoring it when it has fallen out—cleansing from dandruff and all other impurities, and imparting to it a beautiful gloss and silken texture, together with its delightful perfume and perfect cleanness, have made it the most universably popular toilet article ever used. To guard against valueless imitations and counterfeits, always ask for LYON'S KATHAIRON.

Sold everywhere, in large bottles, for only 25 cents per bottle.
HEATH, WYNKOOP & CO.,
Proprietors, 63 Liberty-St., New York
For sale by Wm. Lyman & Co., S. J. Lyman & Co., Wm. Darling, Carter, Kerry & Co., and all other respectable dealers.

CHOLERA.

A Certain Cure for this Disease may be found in the use of PERRY DAVIS' VEGETABLE PAIN KILLER.

Dubuque, Iowa, May 5, 1855.

Gentlemen,—I feel under obligations to you for the benefit I have received from your invaluable Pain Killer.

We have had some cholera here on the Mississippi thus early in the season. A few days since I assisted in laying out and burying one of our citizens who was supposed to have died with the disease. The next morning I was taken with severe vomiting, accompanied with coldness of the extremeties. Warm covering and hot applications failed to restore warmth. My wife's family, who had used the Pain Killer with success during the cholera season in Buffalo in 1849, advised me to take it. I took two doses at intervals of fifteen minutes; a fine perspiration ensued, and the next day, barring a little weakness, I was well, and have been since. It may have been an attack of ague, but whether ague or cholera, it answered my purpose.

Since my recovery, I find that several of our citizens have used the Pain Killer as a remedy for cholera, and pronounced it good. I therefore take pleasure in recommending it to a still more extensive notice. Yours tru'y,
W. M. Crozier, Att'y at Law.
Perry Davis & Son, Providence, R. I

Perry Davis' Pain Killer as an internal remedy has no equal. In cases of Cholic, Summer Complaint, Dyspepsia, Dysentery and Asthma, it will cure in one night, by taking it internally, and bathing with it frequently. It is the best Liniment in America. Its action is like magic when externally applied to bad sores, burns, scalds and sprains. For the sick headache, and toothache, don't fail to try it. In short, it is a Pain Killer.
Sold by Druggists generally.
Dec. 11. DCS 1m rts 293

PROCLAMATION.

An article in the London *Times* having been widely copied by the press of this country, to the effect that a person was confined for mental alienation in the Lunatic Asylum of Berlin, caused by the use of Hair Dye, in which were ingredients destructive to the human system:

Therefore, the undersigned, inventor of BOGLE'S ELECTRIC HAIR DYE, begs most respectfully to assure the public that his dye is entirely void of any noxious ingredients which can in any manner injure the human system or the hair. The undersigned begs further to state that, owing to the unequalled success of BOGLE'S HYPERION in restoring the hair, he was urgently requested to invent a Hair Dye which would be both *innocent* and effective in its results. He, therefore, along with some of the most eminent Chemists in the country, analyzed all the popular Hair Dyes of the day, and upon discovering the corrosive nature of some, the *danger* of using others, and the evanescent nature of all, he was not surprised there were so many faults found with them. The consequence was the invention of the above hair dye, which he warrants to be not only *safe* in application, but the most effective in the world. Wherever it has come into competition with others, at Industrial Exhibitions, it has invariably taken the Silver Medal, and the inventor has great satisfaction in saying that, owing to its innocuous but excellent qualities, it is now fast superseding every other hair dye in London and Paris.

It is to be hoped that this explanation, and the well-known and long-established character of the undersigned, will be sufficient to do away with any fears about his Hair Dye, or any other article of his manufacture.

In corroboration of the above, names of the most eminent Chemists can be furnished if required.
WM. BOGLE.

Bleeding at the Lungs Cured!

Seth W. Fowle, Esq.:

Dear Sir—Having been attacked with hemorrhage of the lungs, which left me with a troublesome cough and the usual debility consequent upon such an attack; and having cured myself by the use of "WISTAR'S BALSAM OF WILD CHERRY," I feel it a pleasure and a duty to testify to its merits. My general faith in patent medicines is small; but for those who are suffering under pulmonary attacks I am persuaded that the Balsam is an excellent preparation. Yours, very truly,
Jona. R. Childs,
Editor Chicopee Telegraph.
Chicopee, Mass., Feb. 20, 1854.

Always signed I. BUTTS on the wrapper.

Prepared and sold, wholesale and retail, only by SETH W. FOWLE, Boston, Mass., to whom all orders should be addressed, and for sale by his agents. Wm. Lyman & Co. Agents for Montreal.

THE Subscriber has been instructed to sell FOUR LOTS OF LAND at RIVER ST. PIERRE, two miles from town, fronting upon the Lower Lachine Road, and abutting upon the Montreal Acqueduct. Three of these Lots are about ten arpents each, and the fourth about sixteen arpents. Nearly the whole of the purchase money may remain in the hands of the purchasers for a term of years, and should it be considered necessary ratification of title will be given. For beauty of situation and quality of soil these lands cannot be surpassed.

JOHN HELDER ISAACSON,
Notary Public.

Montreal, Oct. 31, '55. 258

FOR SALE,

THAT pleasantly situated property at Cote des Neiges, known as CHESTNUT GROVE, formerly the residence of JOHN MOLSON, Jr., Esquire, containing about eleven acres of Land, with a first-rate Two-Story Stone Dwelling, Stables, Coach-house, Green-house, Ice-house, Root-house, Well, &c. Also, a young Orchard, coming into bearing.

The above would be disposed of at a reasonable price. A portion of the purchase money may remain on the property.

WELCH & GRIFFITHS' SAWS.
PATENT GROUND.

HAVING purchased from Mr. WM. SOUTHWELL his Patent Right, for GRINDING CIRCULAR and other SAWS, for which we have paid him a large sum, and we are the sole proprietors of this Patent. We will reward any person giving information of infringements on the same.

THIS IS THE ONLY MACHINE EVER INVENTED, THAT WILL GRIND A SAW PERFECTLY EVEN IN THICKNESS.

They will require less sett—will not heat while running—will saw smooth—save lumber—and keep an edge longer than any other Saws made—and are not liable to become untrue.

All our Saws are made from an Extra Quality of Cast Steel, imported expressly for our own use, at much higher cost than generally used for Saws.

We respectfully inform all manufacturers of Lumber that no Saw will be sent from this Establishment but what is of superior Steel and Workmanship; the Temper will be found more even and uniform than any Saw in use.

Orders received at our Warehouse, 62 Congress Street, Boston.

WELCH & GRIFFITHS.

ALEXANDRE'S GLOVES!
NOTICE.
MORISON, CAMERON & EMPEY,

WHILE distinctly disclaiming any intention of interfering with Messrs. Wm. Benjamin & Co.'s right to the honor of being "the only direct *Retail* Importers" of ALEXANDRE'S KID GLOVES, feel bound, in justice to themselves and their customers, to assert (without fear of even Mr. Hua's contradiction,) that they have for some time been, are now, and intend to continue to be, WHOLESALE IMPORTERS of these celebrated Goods, which they offer to their customers in ANY QUANTITY at Wholesale Net Cash Prices.

PROOF:

Every Pair of ALEXANDRE'S GLOVES sold at the Establishment of MORISON, CAMERON & EMPEY, bears the following Stamp—the name "Alexandre" being a *fac simile* of that Artist's hand-writing—to imitate which is *FELONY!*

"ALEXANDRE,
"22 Rue Neuve St. Augustin, 22,
"PARIS."
"Manufactured for
"MORISON, CAMERON & EMPEY,
"MONTREAL."
"ALEXANDRE,
"22 Rue Neuve St. Augustin, 22,
"Paris"

—o—

FURTHER NOTICE.

For the satisfaction of AMERICAN LADIES who have been in the habit of purchasing Alexandre's Gloves from
Messrs. A. T. STEWART & CO.,
of New York,
M. C. & E. have imported from Paris one case of Gloves bearing, as an additional guarantee that they are ALEXANDRE'S, the initials of Messrs. A. T. Stewart & Co., as follows:

"22 Rue Neuve St. Augustin, Paris,
"ALEXANDRE,
"A. T. S. & CO."

MORISON, CAMERON & EMPEY, while devoting an entire advertisement to this *important* branch of their business, think it as well to give publicity to the following

CAUTION,

Printed on the band which encircles every dozen of KID GLOVES really manufactured by ALEXANDRE:

"To guard the Public, and my Customers in "particular, against goods of an inferior quality "being sold as manufactured by me, I have the "honor to inform them that all my Gloves will "bear, inside, my name, as undersigned, and that "I will prosecute forgery to the utmost extent of "the Law.

"ALEXANDRE,
"Rue Neuve St. Augustin, 22."

MORISON, CAMERON & EMPEY trust that the above will satisfy the Public that whoever *are not*, they are direct Wholesale Importers of the GENUINE ALEXANDRE'S GLOVES; and that they are both WHOLESALE and RETAIL vendors of the article any Lady or Gentleman with the necessary amount of cash in their hand can prove by calling at

288 Notre Dame Street.

Montreal, Dec. 10, 1855. 292

[ADVERTISEMENT.]

ALEXANDRE'S GLOVES.

NOTWITHSTANDING Mr. PAUL HUA'S assertion, we still maintain that we are the ONLY DIRECT RETAIL IMPORTERS in the City. Any person may see Mons. Alexandre's Invoices and Letters to us proving the same.

WM. BENJAMIN & Co.
Dec. 7. 290

☞ All our Gloves are Stamped with ALEXANDRE'S NAME, and MADE EXPRESSLY FOR US.

International Telegraph Line.

THE undersigned having, in August last, purchased the Grand Trunk Telegraph Line, has, in connection with Mr. Thaddeus Poucher, of the Morse and Bain Union Line, Oswego, placed it in thorough working order, and is now prepared to carry on the business of Telegraphing throughout the Provinces and the United States with efficiency and despatch.

The main Line which runs from Montreal to Buffalo, connects at the former place with the British North American Line which extends throughout the Lower Provinces, and at the latter place with House's Printing Telegraph which extends throughout the United States. It also connects at Montreal and Prescott with other American Lines. There are branches from Toronto to Collingwood along the Northern Railway Line, from Hamilton to Guelph, from Cobourg and Port Hope to Peterborough, and from Belleville to Picton, through Trenton, &c., &c.

The principal Office will be, in future, at Cobourg, and all communications must be directed to the undersigned at that place.

No person has authority to contract any debts whatever on account of the Line, except the undersigned, who will have the exclusive control and management of it.

WILLIAM WELLER,
Managing Proprietor.

BURNETT'S SUPERIOR EXTRACTS OF
Lemon, Vanilla, Rose, Nectarine, Bitter-Almond, Cinnamon,

FOR flavoring Custards, Pies, Blanc-Mange, Ice Creams, Jellies, Sauces, &c. &c.

The superiority of the above-named Extracts consists in their *Perfect Purity* and *Great Strength.*

They are warranted free from the poisonous oils and acids which enter into the composition of many of the factitious fruit flavors now in the market.

These Extracts are not only true to their names, but are prepared from fruits of the best quality, and are so highly concentrated that a comparatively small quantity only need be used. Hence it will be perceived that they are cheaper than others which are sold in larger bottles.

For sale by JOSEPH BURNETT, Manufacturer and Proprietor, 39 Tremont-st, Boston,
And LYMANS, SAVAGE & CO., Agents.
Sept. 19. 6m mwf 222

Springs, Waterfalls, Sea Bathing, Resorts, &c.

WE FIND on our table a neatly got up small volume on the above subjects: it will be a useful work. It is always gratifying to find that Canada is not second best in the productions of nature; our Mineral Springs are highly spoken of in the volume before us. We find one of them mentioned in the very highest terms, and it is set forth as the most useful and even more agreeable than the Saratoga, so well known. "It was discovered in 1832, and found to be a specific for the Cholera, and all who drank it escaped the disease, or were cured, if they had it, in all cases, of Indigestion, Dyspepsia, Rheumatism, Disarrangement of the Bowels, &c. It never fails to afford relief, and to women it is recommended as preferable to all other remedies. Persons following sedentary employments will find it invaluable for carrying off the impurities of the system, and counteracting those diseases to which they are so liable. As an agreeable, refreshing, and most wholesome summer beverage, it is strongly recommended as far preferable to the drinks usually taken during the warm season."

The above reference is made to our own well-known Plantagenet Water, which every person can use with safety at this season. Depot, No. 4 Place d'Armes.

THE BRITISH PERIODICALS
AND THE
FARMER'S GUIDE.

GREAT REDUCTION IN THE PRICE OF THE LATTER PUBLICATION.

LEONARD SCOTT & CO.,
NEW YORK,

Continue to Re-publish the following leading British Periodicals, viz.:

1. THE LONDON QUARTERLY REVIEW, Conservative.
2. THE EDINBURGH REVIEW, Whig.
3. THE NORTH BRITISH REVIEW, Free Church
4. THE WESTMINSTER REVIEW, Liberal.
5. BLACKWOOD'S EDINBURGH MAGAZINE Tory.

THE great and important events—Religious, Political, and Military—now agitating the nations of the Old World, give to these Publications an interest and value they never before possessed. They occupy a middle ground between the hastily written news-items, crude speculations, and flying rumors of the newspaper, and the ponderous Tome of the historian, written long after the living interest in the facts he records shall have passed away. The progress of the War in the East occupies a large space in their pages. Every movement is closely criticised, whether of friend or of foe, and all shortcomings fearlessly pointed out. The letters from the CRIMEA and from the BALTIC in Blackwood's Magazine, from two of its most popular contributors, give a more intelligible and reliable account of the movements of the great belligerents than can elsewhere be found.

These Periodicals ably represent the three great political parties of Great Britain—Whig, Tory, and Radical,—but politics forms only one feature of their character. As Organs of the most profound writers on Science, Literature, Morality, and Religion, they stand, as they ever have stood, unrivalled in the world of letters, being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day, throughout the world, than can be possibly obtained from any other source.

EARLY COPIES.

The receipt of ADVANCE SHEETS from the British publishers gives additional value to these Reprints, especially during the present exciting state of European affairs, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions

Payments to be made in all cases in advance. Money current in the State where issued will be received at par.

THE FARMER'S GUIDE

TO SCIENTIFIC AND PRACTICAL AGRICULTURE.

By HENRY STEPHENS, F.R.S, of Edinburgh, and the late J. P. NORTON, Professor of Scientific Agriculture in Yale College, New Haven. 2 vols. Royal Octavo. 1600 pages, and numerous Wood and Steel Engravings.

This is, confessedly, the most complete work on Agriculture ever published, and in order to give it a wider circulation the publishers have resolved to reduce the price to

FIVE DOLLARS FOR THE TWO VOLUMES!!

When sent by mail (post-paid) to California and Oregon the price will be $7. To every other part of the Union and to Canada (post-paid), $6.

☞ *This work is* NOT *the old "Book of the Farm."*

Remittances for any of the above publications should always be addressed, post-paid, to the Publishers,

TARRANT'S PREPARATIONS.

To the Medical Profession and the Public.

THE attention of the Medical Profession and Public is invited to the following preparation:

Tarrant's Effervescent Seltzer Aperient prepared on an entirely new principle, from a late and accurate analysis of the celebrated SELTZER SPRING, IN GERMANY, combining efficacy, economy, and portability, with such additions and improvements as will be found materially to increase its efficacy.

This much esteemed and highly valuable preparation will not fail to effectually remove Dyspepsia or Indigestion, Bilious Affections, Headache, Heartburn, Acidity of the Stomach, Costiveness, Gout, Rheumatism, Loss of Appetite, Gravel, Nervous Debility, Nausea of Vomiting, Affections of the Liver, &c. &c.

Tarrant's Compound Extract of Cubebs and Copabia,

Sanctioned by popular opinion and the high authority of the most distinguished of the medical faculty; it offers to the afflicted a remedy whose success has in every instance supported its deserved reputation. Being convenient and agreeable in its use, experience has proved that it retains in every climate its desirable and truly valuable character. It is in the form of a paste, is tasteless, and does not impair the digestion. It is prepared with the greatest possible care, upon well tested principles. To persons following the sea, or going long voyages, this preparation possesses qualities far surpassing any other—neat and portable in its form, speedy and efficacious in its operation, successful both in the earliest and worst stages of the severest diseases, whilst the usual and nauseous taste and unpleasant odor to copabia is wholly avoided in this preparation.

Prepared and sold, Wholesale and Retail, by JOHN A. TARRANT, successor to James Tarrant, 278 Greenwich, corner of Warren street, New York; and for sale by the principal Druggists in the United States, British Provinces, West Indies and South America.

Thorn's Compound Extract of Copabia and Sarsaparrilla possesses a few advantages not enjoyed by any other medicine, and which must, with an enlightened public, render it assuredly highly popular, and a desideratum long sought for in the medical world. It needs no confinement or change of diet. In its approved form, that of a paste, it is entirely tasteless, and causes no unpleasant sensation to the patient.

It has acquired the utmost fame in almost every part of Europe. It has been examined, approved of, and sanctioned by the faculty of medicine, and recommended by the most eminent of the profession. Prepared by J. B. Thorn, Chemist, London, and for sale wholesale and retail by J. A. TARRANT, sole agent for the United States, 278 Greenwich street, New York.

☞ The serious attention of the afflicted is respectfully invited to a trial of

Dr. Grover Coe's Standard Family Remedies.

Dr. Coe's Liquid Harmattan is guaranteed to be the most efficient external application extant, for the certain cure of Ulcers or Fever, Sores, Abscesses, including Psoas and Lumbar, Felons, Biles, Carbuncles, Chancres, Buboes, Ague in the breast, and every variety of external inflammation.

Warranted to arrest Mortification, when arising from Burns, Wounds, and other external conditions, and to prevent it when used in time.

Also warranted to check Felons, and prevent suppuration when applied before matter has commenced forming. Used early in cases of punctured wounds from nails, pitchforks, &c., it prevents all symptoms of Tetanus or Locked-jaw, and removes them when arising from want of its timely application.

Dr. Coe's Anti-Mercurial Alterative Syrup

A pleasant, safe and efficient remedy for the radical cure of Rheumatism, Erysipelas, Leucorrhea, Serofula, Gonnorrhœa, Syphillis, Mercurial Affections, Ulceration of the Kidneys & Bowels, and all diseases arising from a vitiated condition of the blood and fluids.

Dr. Coe's Family Vegetable Pills.

The best and safest Cathartic Pill for popular use ever offered to the public.

For the cure of Sick Headache, Dyspepsia, Constipation, functional derangements of the Liver, Spleen, and other viscera, they stand unrivalled. These are not crude and untried remedies, experimentally placed before the public, but they have stood the test of years. The proprietor is a practising Physician, and they are the same remedies he relies upon to sustain his wide-spread reputation as a competent and successful guardian of the public health. The Harmattan has stood the test of 50 years, the original formula having been obtained from the Indians by an ancestor of the present proprietor, who has improved and brought it to its present degree of perfection.

The Syrup and Pills originated with himself, and during 12 year's extensive practice, thousands have had cause to feel grateful for their efficacy.

For wounds and sores on Horses, the world is challenged to produce anything equal to the Harmattan.

For full directions and explanations, see pamphlets accompanying the medicines.

NOTICE

IS HEREBY GIVEN by the TRUSTEES of the MONTREAL TURNPIKE ROADS, that an application will be made at the next ensuing Session of the Provincial Parliament, for power to extend the Roads of the Montreal Turnpike Trust, and for other purposes.

Montreal, Nov. 15, 1855. 2m 272

DISSOLUTION OF CO-PARTNERSHIP.

NOTICE.

THE CO-PARTNERSHIP heretofore subsisting between the undersigned, as PUBLISHERS of "THE MONTREAL HERALD and DAILY COMMERCIAL GAZETTE," and as GENERAL PRINTERS and PUBLISHERS, was THIS DAY DISSOLVED by mutual consent. All Debts owing to the said Partnership are to be received by the continuing Partners, DAVID KINNEAR, EDWARD GOFF PENNY, and ANDREW WILSON; and all persons to whom the said Co-Partnership stands indebted are requested to send in their respective accounts to the said continuing Partners, in order that the same may be examined and paid.

DAVID KINNEAR,
By his Attorney, A. WILSON.
EDWARD GOFF PENNY,
JAMES POTTS,
ANDREW WILSON.
Montreal, October 1, 1855.

THE BUSINESS of "THE MONTREAL HERALD and DAILY COMMERCIAL GAZETTE" will in future be carried on by the undersigned, under the Firm of D. KINNEAR and COMPANY.

D. KINNEAR,
EDWARD GOFF PENNY,
ANDREW WILSON.
Montreal, October 1, 1855.

THE GENERAL JOB PRINTING heretofore carried on in connection with the publication of "THE MONTREAL HERALD," will in future be carried on by the undersigned in his own name, on his own account, IN THE SAME PREMISES.

JAMES POTTS.
Montreal, October 1, 1855. 262

NOTICE.

THE Subscribers offer for SALE the STOCK of the ESTATE of MESSRS. LEBLANC & BIENVENU, Merchant Tailors, in McGill Street, consisting mostly of Ready Made Clothing, well adapted for the Fall Trade, having all been made up by themselves in the neatest style.

The Stock will be sold either in one lot or divided, so as to suit purchasers. If these Goods are not disposed of within a limited period, they will be offered at Public Sale, of which due notice will be given. Any party desiring to examine the Stock will please apply to the undersigned assignees.

L. MARCHAND, A. MOUSSEAU, } Assignees.
Montreal, Oct. 1, 1855. 233

ALL Persons INDEBTED to the ESTATE of BIENVENU & LEBLANC will please settle without delay with one of the subscribers, otherwise their Accounts will be placed in the hands of an Attorney for collection.

CHERRY PECTORAL,

For the rapid Cure of
COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Among the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyment, and even prolong the term of human existence, none can be named of more real value to mankind than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country has proven, beyond a doubt, that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a remedy has at length been found which can be relied on to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we would present the following, and refer further enquiry to my American Almanac, which the agent below named will always be pleased to furnish free, wherein are full particulars and indisputable proof of these statements.

Office of Transportation, Laurens R.R., S.C., Aug. 4, '53.

Dr. J. C. Ayer, Dear Sir,—My little son, four years old, has just recovered from a severe attack of malignant Scarlet Fever; his throat was rotten, and every person that visited him pronounced him a dead child. Having used your Cherry Pectoral in California, in the winter of 1850, for a severe attack of bronchitis, with entire success, I was induced to try it on my little boy. I gave him a teaspoonful every three hours, commencing in the morning, and by ten o'clock at night I found a decided change for the better, and after three days use he was able to eat or drink without pain.

Its use in the above named disease will save many a child from a premature grave, and relieve the anxiety of many a fond parent. For all affections of the Throat and Lungs I believe it the best medicine extant. A feeling of the deepest gratitude prompts me in addressing you these lines;—but for your important discovery my little boy would now have been in another world.

I am yours, with great respect,
J. D. POWELL, Supt. Trans. L. R. R.

Rocky Hill, (Somerset Co.) N.J., July 21, 1852.

Dr. J. C. Ayer—Since your medicine has become known here it has a greater demand than any other cough remedy we have ever sold. It is spoken of in terms of unmeasured praise by those who have used it, and I know of some cases where the best they can say of it is not too much for the good it has done. I take pleasure in selling it, because I know that I am giving my customers the worth of their money, and I feel gratified in seeing the benefit it confers.

Please send me a further supply, and believe me
Yours, with respect, JOHN C. WHITLOCK.

P. S.—Almost any number of certificates can be sent you if you wish it.

Windsor, C.W., June 26, 1852.

Dr. J. C. Ayer. Sir—This may certify that I have used your Cherry Pectoral for upwards of one year; and it is my sincere belief that I should have been in my grave ere this time if I had not. It has cured me of a dangerous affection of the lungs, and I do not overstate my convictions when I tell you it is a priceless remedy.

Yours, very respectfully,
D. A. McCLURE, Attorney at Law.

Wilksbarre, Pa., Sept. 28, 1850.

Dr. J. C. Ayer. My Dear Sir—Your medicine is much approved of by those who have used it here, and its composition is such as to insure and maintain its reputation. I invariably recommend it for pulmonary affections, as do many of our principal physicians. I am your friend,

CHAS. STREATER, M. D.

Prepared by Dr. J. C. AYER, Practical and Analytical Chemist, Lowell, Mass.

KID GLOVES.

FOR several years past GLOVES of an inferior quality, bearing my name, have been sold as manufactured by me; in consequence I have adopted a new mode of marking my Gloves, viz., with LETTERS in addition to my ancient system of NUMBERS, in view of checking this fraud upon the public, and also to insure a more perfect regularity in the indication of sizes.

Up to this time great difficulties have been experienced in regard to any improvement in the sewing of gloves. I have however succeeded in surmounting them, and have adopted a new system of sewing which enables me to guarantee greater strength in that respect: this system consists in a knot stopping each stitch, and will be applied to black, dark and medium colors. White and light colors will be sewed as formerly, but with a stronger, and consequently more durable silk.

Thus, beside the name **"ALEXANDRE"** stamped on the inside of each pair, the absence of the following signs will detect the fraud:

1. Addition of the stamp with LETTERS to the stamp with NUMBERS, as per annexed table.
2. New mode of sewing, consisting of a knot for each stich, for black, dark and medium col'd Gloves.
3. Thicker and therefore more solid silk, with the ancient mode of sewing for white and light col'd Gloves.

Hoping that these improvements will meet with your approbation, as they are the proof of my constant efforts to deserve the continuation of general favor,

I remain,
most respectfully and sincerely yours,
ALEXANDRE.

TENTS, PAVILIONS, AND FLAGS OF ALL NATIONS.

E. C. WILLIAMS, of Rochester, New York, keeps constantly on hand to rent, also makes to order, every description of Tents, such as—

Circus Tents, Tents for Agricultural Exhibitions, and Military Tents. Also, Camp Meeting and Pic Nic Tents. My Tents are made of the very best materials, and give universal satisfaction.

I have furnished Tents to the New York State Agricultural Society, the Provincial Agricultural Association of U. C., the Pennsylvania Agricultural Society, the Wisconsin, Michigan, Illinois, and many other prominent Agricultural Associations, and I can with confidence refer those who are about purchasing or renting Tents, to any of the officers of these Associations as to the character of my work and fairness of my dealings.

FLAGS of all nations made to order, and kept on hand to rent.

I have on hand the largest assortment of Tents on the Continent, sufficient to convene seventy thousand persons. I can, therefore, always accommodate my customers to any number of Tents on short notice.

All orders by mail will meet with prompt attention.

E. C. WILLIAMS,
Rochester, New York.
