FEELING OF OPTIMISM AGAIN PREVAILS IN BRITAIN

Botha's Victory in German South West Africa Arouses People. Germans Lose Territory Larger Than That of the German Empire. Stubborn Resistance of Russians in Galicia Keep Germans from Assuming Offensive Along the Western Front. British Make Another Gain on the Yser Canal.

London, July 10.—(Special)—The feeling of optimism, which has been absent for some time, again is manifesting itself here. This feeling is chiefly due to General Botha's victory in German Southwest Africa, which alone deprives Germany of territory larger than that of the German Empire. The size of the captured territory is enormously disproportionate to that of the defending forces, which consisted of 204 officers and 3,166 men. These numbers included reservists and police, as well as the regular military.

The cheerfulness of the Entente Allies also was assisted by the stands being made by the Russians near Lublin, in Southern Russian Poland and along the Zlota Lipa River in Galicia. It is believed in London that the stubborn resistance of the Russians is doing much to postpone the German offensive along the western front.

PREDICT REPLY WILL BE UNSATISFACTORY.

Only fragmentary summaries of the German reply to the United States have so far been published here, but for several days the British press has been busy predicting that Berlin's reply to the second Lusitania note would be unsatisfactory.

COMMENT ON KITCHENER'S SPEECH.

The newspapers comment at length on the speech of Field-Marshal Earl Kitchener at the Guildhall yesterday according to their views regarding conscription, one faction maintaining that the War Secretary uttered a direct warning of the possibility of forced military service, while the other organs profess to see in his remarks a reaffirmation of the belief in the efficacy of the volunteer system.

RUSSIANS COMING BACK AT ENEMY.

Petrograd, via London, July 10.—(Special)—The following official statement was given out to-day at the headquarters of the Russian General Staff:—

"Operations in the Shavli region west of the Niemen, on the narrow front, and on the left of the Vistula, have been without important changes.

"On the Bohr below Osowetz, near the village of Brjostovo, an attempt by the enemy to bridge the river was frustrated by our fire, and the bridge was destroyed.

"We captured an enemy aeroplane in the valley of the Pissa.

"In the sector of Jednorowicz-Prasnasz there have been lively artillery duels and isolated engagements.

"In the direction of Bolimow, near the village of Goumine, the enemy was unable to advance at any point, in spite of the use by him of asphyxiating gases, and continues to occupy our original positions.

"In the direction of Lublin our offensive has developed in the entire region from the confluence of the Poblifka Brook to a point south of Bychowa (north of Krasnik). The enemy continues to retire, while trying to stop our advance, and offered particularly stubborn resistance on Hill 118, south of the village of Wikolazgorny. The number of prisoners taken by us thus far exceeds 15,000.

"From Bychowa to a point west of the Bug there have been no operations except for an attack by a German regiment, near the village of Maslomentche, which was repulsed.

"On the Bug, Zlota Lipa and Dniester Rivers there have been no changes beyond a fruitless attack on the village of Kowache, on the Bug. Our patrols have reconnoitred the entire front during the last twenty-four hours and made hundreds of prisoners. The enemy left on our front 500 killed and wounded."

STUBBORN FIGHTING IN GALLIPOLI PENINSULA.

Athens, July 10.—(Special)—It is reported from Mitylene that stubborn fighting continues on the Gallipoli Peninsula. The Turks, who have been reinforced, have made violent counter-attacks upon the Allies, without success. A German officer of the higher command and five hundred Turks were captured on Wednesday.

According to the newspaper Patria, the inhabitants of Kutaleos, on the Sea of Marmora, have been expelled on the ground that they supplied a British submarine with provisions. The officers of the submarine, by speaking German, deceived the commander of the port and obtained stores. Nevertheless, the people have been forced to leave.

BRITISH MAKE FURTHER GAINS NORTH OF YPRES

London, July 10.—Further gains north of Ypres, where the British, on July 6th, captured 200 yards of German trenches, are reported in a communication last night from Field Marshal Sir John French, commander-in-chief of the British Expeditionary Force in the west. General French states that after a bombing duel lasting two nights and two days, the Germans fell back, enabling the British to extend their gains. All reports, says the Field Marshal, indicate that the German losses were severe. The text of his statement follows:—

"Since the successful enterprise north of Ypres, reported in the communication of July 6th, the enemy has made repeated attempts to re-

take his lost trenches. All his counter-attacks have been stopped by the successful co-operation of our own and the French artillery.

"This morning, after a bombing duel which lasted two days and two nights, the enemy fell back along the canal, enabling us to extend our gains. In addition to the prisoners already reported, we captured a machine gun and three trench mortars. All reports indicate that the enemy's losses, particularly in his counter-attacks, have been severe."

SEVERE FIGHTING ON WESTERN FRONT.

London, July 10.—Severe fighting continues at several points on the western front. The British report the repulse of all the German counter-attacks that were made in an effort to regain the lost trenches north of Ypres, and state that the British gain has been extended and that the German losses were severe.

On the other hand, the Germans claim a repulse of the French attacks at Souchez and assert that the Teutonic troops have made further progress in the Woevre region, where they state, they captured some trenches and 250 prisoners. However, the French victory in the Vosges appears to be the most important that has occurred on the western front for some months.

LITTLE NEWS FROM RUSSIAN FRONT.

There was little news from the Russian front yesterday, but the announcements in the Austrian and German official reports that there was no change in the situation (Continued on page 3.)

TURKS SLAY GERMAN OFFICERS

Situation in Constantinople is Reported to be Very Alarming

Toronto, July 10.—(Special)—A Mail and Empire cable from Rome says: "From information obtained through diplomatic sources, the situation in Constantinople is alarming. The city is crowded with 90,000 wounded from the Gallipoli Peninsula, and the number is increasing daily. Turkish soldiers are refusing to fight, because they are convinced that further resistance is useless. Reinforcements from Smyrna are being hurried toward Gallipoli and weep as they set out for the zone of the fighting."

"According to this information, more than a hundred German officers have been murdered in cold blood by the Turks, including Colonel von Leipzig, the German military attaché. German officers are said to be volunteering for service with the Turkish forces in Libya in order that they may leave Turkey, where they consider themselves to be unsafe. Wholesale graft prevails in the Turkish Government, and is tolerated by the Germans, who feel that the end of their power in Turkey is near."

ITALIANS CAPTURE SUBMARINE

Boarded Neutral Vessel That Was Waiting With Naptha For Under Water Craft

TEUTONS WERE TAKEN BY SURPRISE AND THEIR CRAFT WAS TOWED INTO PORT

Turin, July 10.—The Giornale d'Italia says that a steamer belonging to one of the neutral Balkan States was caught laden with benzine and naphtha by an Italian warship. The captain of the steamer confessed that he was waiting to deliver his cargo to a German submarine. The naval commander thereupon took possession of the vessel, manned it with a crew of his own blue-jackets disguised as ordinary seamen, and armed the ship with machine guns. Then he set out to keep the appointment.

Precisely at the hour and the spot arranged a periscope was seen emerging from the surface. Greetings were being exchanged when the commander of the steamer stepped forward and cried:—

"Take your choice—surrender or be sent to the bottom."

The amazed Teutons chose to surrender and with their craft were towed to a well-known naval port.

The Gazzetta del Popolo learns from an authoritative source that during the first month of the war the Italian fleet destroyed three Austrian submarines. It is known that Germany recently forwarded nine of her new type of submarines by rail to Pola for operations in the Mediterranean.

The Italian Ministry of Marine has offered a big reward to whoever discovers or gives information regarding the submarines and their base of supplies.

RUSSIANS PURCHASE ICE BREAKER

St. John's, Nfld., July 10.—(Special)—The purchase by the Russian Government of the ice-breaking steamer Bruce, from the Reid Newfoundland Company, was announced to-day. It is understood that the Bruce, with her sister ship Lintrose, bought by Russia last winter, will be used in the White Sea during the fall and winter in an effort to keep open later than usual the channel to the port of Archangel.

TURKS THREATEN PORT OF ADEN

ENEMY, WITH ARABS AND GUNS, COMPELLED A BRITISH FORCE TO RETIRE.

London, July 10.—Turkish forces from Yemen, Southwest Arabia, supported by Arabs, are threatening Aden, the British free port, according to an official report issued by the British Press Bureau last night. The Turks, with a large number of Arabs and field guns, crossed Aden Hinterland, near Lahaj, compelling a British force to fall back on Aden. This occurred on July 5.

Hendee Manufacturing Co. sold 3,000 motorcycles for war purposes, value of which is about \$600,000.

The Bank of England released £200,000 gold for miscellaneous purposes, and £120,000 for Egypt.

"It's a Mighty Fine Thing For The Folks At Home To Do."

What the Boys at Valcartier Say of the Field Kitchen Gift.

An officer who was in town from Valcartier Camp yesterday stated that many expressions of appreciation were being heard from both officers and men regarding the proposal to equip them with a Field Kitchen. "It's a mighty fine thing for the folks at home to do," was the way they put it. The Record reaches the regiment every day, and the progress of the fund will be eagerly watched.

Subscriptions are now coming in well by mail, and the indications are that all sections of the Townships will be represented.

EASIEST PART OF THE BIG JOB.

One of the subscribers to-day, in transmitting his amount, writes: "It's a splendid move, to provide a Field Kitchen for the regiment. The Eastern Townships ought to subscribe the amount in two weeks or less. Giving money, even if one cannot afford it, is the easiest part of the big job we have on hand."

SCOTSTOWN W.M.S. SENDS \$5.00.

Societies as well as individuals are taking an interest in the Field Kitchen project. The following letter comes from Scotstown:—

"Dear Sirs:—Enclosed please find post office order for five dollars from the Woman's Missionary Society of St. Andrew's Presbyterian Church to the Field Kitchen for 5th Mounted Rifles. Sent by Mrs. R. A. Scott, Treasurer, W.M.S., Scotstown, July 8, 1915."

This morning's mail brought a goodly list of subscriptions as given below. The fund now has an excellent start, and in a very short time the required amount will no doubt be received.

The Field Kitchen is not intended to interfere with any of the other worthy funds which are being contributed to in the Townships. It is a special gift to the Eastern Townships boys who are going to the front, and not permit it to interfere with their other patriotic endeavors which will go on from month to month after this fund is completed.

\$35 FROM COOKSHIRE BOARD OF TRADE MEMBERS.

Among the contributions to the Field Kitchen acknowledged today, is \$35 from members of the Cookshire Board of Trade. The amount is transmitted by Mr. H. L. Cleveland, Secretary-Treasurer, and the individual subscriptions are given below.

MAGOG PATRIOTIC WORKERS' HELP.

The patriotic workers of Magog who have been very active along various lines of patriotic endeavor, desire to participate in this gift to the 5th Mounted Rifles, which regiment includes a very considerable contingent from Magog. The sum of \$50 is, therefore, forwarded today by the Secretary-Treasurer, Eva I. McKenna, who writes: "Please find enclosed cheque for \$50 for Field Kitchen Fund from Magog Patriotic Workers' Society. Wishing every success in this worthy undertaking."

STANSTEAD HELPING HAND SENDS CHEQUE.

The contributions include a cheque for \$25 from the Stanstead Helping Hand Society.

NOTHING TOO GOOD FOR FIGHTING MEN.

Mr. J. F. McLeod, of Bury, writes, in enclosing subscription, "We don't think there is anything too good for those fighting for our homes."

HAS A BOY WITH THE REGIMENT.

Mr. Alex. Strahan, of Montreal, writes in transmitting contribution: "The writer has a son in the regiment and appreciates the kindness shown the boys when they were in Sherbrooke."

IN MEMORY OF WATERLOO.

Among the contributions today is \$5 from M. M. Turner, of Montreal, who writes: "A bit for the Field Kitchen for 5th Mounted Rifles from the granddaughter of a veteran of Quatrebras and Waterloo."

ACKNOWLEDGMENTS.

The following are additional subscriptions received:—

MANY ITALIANS CANNOT SPEAK LANGUAGE

Udine, Italy, via Paris, July 10.—(Special)—With the arrival of fresh contingents of volunteers and soldiers, called to the colors from Canada, the United States and South America, those unable to speak Italian are so numerous that the military authorities are obliged to form special companies where military instruction is given in French, English, Spanish, and even in Arabic.

BRYAN PLEASED AT ATTITUDE OF GERMANY

San Francisco, July 10.—(Special)—"I am glad that Germany has indicated a desire to reach a satisfactory understanding in this situation." This was the only comment made last night by William Jennings Bryan, former Secretary of State, after he had heard the summary and

ROBBERS HELD UP TRAIN AND ROB PASSENGERS

Montgomery, Alabama, July 10.—(Special)—The Louisville & Nashville New York and New Orleans Limited train was held up and robbed shortly before 2 o'clock this morning by four masked men south of Greenville, Alabama, sixty miles south of Montgomery.

Conductor Phil McRae, of Montgomery, was killed by one of the bandits.

A government decree promulgated in Paris forbids the exportation of a number of chemicals used in explosives. Germany is said to be launching two submarines a week of largest type, 300 feet long, with armed upper decks and demountable rapid fire guns.

BOMBS FOUND ON STEAMER

Attempt Made to Blow Up Ship Carrying Cargo of Sugar From New York

WERE FOUND HIDDEN IN BAGS OF SUGAR WHEN DISCHARGING AT MARSEILLES.

New York, July 10.—(Special)—Nine bombs were found aboard the steamer Kirk Oswald at Marseilles when the vessel went to discharge its cargo of sugar from New York on her last outward voyage, according to the Kirk Oswald's officers, who reached here to-day on the steamer's return trip.

None of the bombs exploded, and all were hidden in bags of sugar, the Kirk Oswald's officers said.

The sugar was taken aboard, they said, at the Fabre Line pier in Brooklyn. All the bombs were found while unloading the cargo. Six of the bombs were found in one sack of sugar which burst as the steamer was discharging its cargo with slings. The bombs were round and small, and rolled on the vessel's deck. Another sack contained three bombs.

MAY DRAFT MEN FOR BRITAIN

Lord Kitchener in London Speech Points Out Serious Situation Facing Country

WHEN REGISTRATION IS COMPLETED FOR MEN THEY WILL BE APPROACHED FOR ENLISTMENT

London, July 10.—"The reasons which led me to predict a long war still hold good, and the time has come when I wish to make larger demands upon the resources of British manhood."

This striking declaration was made yesterday by War Secretary Kitchener in an appeal to the patriotism of the nation. Earl Kitchener's speech at Guildhall created tremendous public interest. Troops lined the thoroughfare traversed by Kitchener on his way from the war office to the scene of the meeting.

Earl Kitchener did not minimize the seriousness of the situation which England faces. He paid a glowing tribute to the bravery of the Australian troops at the Dardanelles, saying they had performed a feat of arms of unmitigated brilliancy.

The war secretary laid strong emphasis upon the need of "more men and then still more men," but he declared that the money situation in the theatres of war was better for the Allies than it was ten months ago.

"The recent fall of recruiting figures was due only to temporary circumstances," explained the war secretary.

"The call for men is no longer limited on account of the lack of material. The armies require a larger reserve, and from now on the requirements will continue persistently."

"The time has come when something more is required in order to insure an adequate supply of men."

"When registration is completed for men between 19 and 40, those not required for work in munition factories will be approached with a view to enlistment. Unmarried men will be preferred."

Earl Kitchener indicated by this that the government was ready to resort to actual conscription.

GERMANS WOULD MODERATE TORPEDO WAR

And Allow American Passenger Ships to Pass Freely and Safely

IN CONSIDERATION FOR THIS NO CONTRABAND OF WAR MUST BE CARRIED ON BOARD.

Berlin, July 9, via London, July 10.—Germany's offer, embodied in the reply to the American note regarding the sinking of the Lusitania and submarine warfare, which was delivered to James W. Gerard, the American ambassador, last night, is:—

First, reiterated assurance that American ships engaged in legitimate trade will not be interfered with nor the lives of Americans upon neutral ships be endangered.

Second, that German submarines will be instructed to allow American passenger ships under the American flag, Germany entertaining in return the confidence hope that the American Government will see that these ships do not carry contraband. Such ships are to be provided with distinguishing marks and their arrival announced at a reasonable time in advance. The same privilege is extended to a reasonable number of neutral passenger ships under the American flag, and should the number of ships thus available for passenger service prove inadequate, Germany is willing to permit America to place four hostile passenger steamers under the American flag to ply between North America and Europe under the same conditions.

CRISIS EXPECTED BETWEEN U.S. AND GERMANY.

Washington, July 10.—Arrivals of the press translation of the German note confirmed impressions which have been current in official quarters for several days that Germany would refuse to give the assurances asked for by the United States in her last note that the lives of Americans travelling the high seas on unarmed ships of any nationality be not endangered.

The press copy arrived too late to be read by many officials and those whom it said they could not comment until the official text from Ambassador Gerard had arrived. This probably will reach here late to-day or Sunday, and President Wilson, it is understood, will start back for Washington to consider the communication with his cabinet as soon as word is sent him that it has reached here.

The general feeling that the note would be unsatisfactory and bring to a crisis the friendly relations that have existed between the United States and Germany developed more strongly in official quarters as news of the contents of the note spread. For several days tension has been renewed, but officials have declined to manifest their displeasure or apprehension over the situation, believing that nothing could be done or said until the official version of the German reply was at hand.

16,000 STRIKERS RETURN TO WORK

Settlement of Dispute With Carpenters Which Had Tied Up Building Trade in Chicago

Chicago, July 10.—(Special)—The strike of 16,000 carpenters, which, since May 1, has tied up building operations in Chicago, was settled here early to-day. The men were given 70 cents, a five-cent increase over the old wage scale, and a "closed shop" agreement. The terms of the agreement are for three years. The carpenters had asked for a wage increase to 75 cents per hour.

The situation at Cape Hatten is quiet and greatly improved. The battleship Washington will remain there.

RETURN THANKS TO BURY LADIES

Men of the Fifth Canadian Rifles Appreciate Gifts Presented to Them

SON OF LT.-COL. DUNSMORE WHO WAS WOUNDED AT FRONT, HAS HAD RELAPSE.

Bury, July 10.—(Special)—A letter has been received from Corp. East Rose, of the 5th C.M.R., at Valcartier, in which he gratefully thanks the young people of Bury who so kindly presented each of the Bury boys that are leaving for the front with a fountain pen each. He states that the boys will never forget the many kindnesses and gifts donated to them by their friends in Bury. He further wishes to thank the Ladies Patriotic Society of Bury who sent each one of the boys from here a parcel containing many useful articles for them.

WOUNDED MAN HAS RELAPSE.
Lt.-Col. Dunsmore has been informed by his son, who is in a military hospital in Bristol, that he has suffered a slight relapse and has again been forced to take his bed after being able to be up walking about.

NOTES.
At the meeting of the Ladies' Aid, held on Thursday afternoon in the Sunday School room it was decided that they would have the roof of the Church painted and a committee was appointed to have charge of the work.

Arrivals and departures include: Mr. and Mrs. R. Gould, of Montreal, the guests of Chas. Murray at the Grand View; Mr. Sidney Pringley of the 5th C.M.R., Valcartier, a few days with his family before his departure with his regiment to the front.

NOTES OF NEWS FROM THETFORD

INSTALLATION OF OFFICERS OF I.O.O.F. LODGE — MEETING OF CITY COUNCIL.

Thetford Mines, July 10.—(Special)—The installation of officers of the local lodge of Independent Order of Odd Fellows took place this week at the Odd Fellows' Hall. The installing officers were G.M. Mr. Jamieson and Mr. Smith, of Inverness. The officers installed were Mr. T. Lloyd, Noble Grand; Mr. Henry Berwick, Vice-Grand; Mr. Archie Parker, Secretary, and Dr. P. L. Daigneault, Treasurer. After the installation a pleasant evening was spent, light refreshments being served.

COUNCIL MEETING

At the last Council meeting there were present the Mayor with Aldermen Delage, Rousseau, Genest, Vermeil, Pharo and Tanguay, and the new alderman, Mr. Nazaire Demers, who was elected by acclamation.

A proposition was made by Alderman Pharo and carried, that Dr. LaCerte should be given the necessary authority to see that the regulations of the Council are kept concerning hygiene.

Several small bills were presented and paid.

Saturday at Holmhurst. The committee has arranged an excellent programme of sports, etc., and should weather conditions prove favorable this will doubtless be a most enjoyable outing.

Next Sunday at the evening service the L.O.L. Society will be present and the sermon will be preached by the Rev. Alfred Bright, of Sherbrooke.

ALCOHOL GIVES WAY TO TEA

The restriction of the sale of spirits in England has resulted in a greatly increased consumption of tea, and even though the new laws regarding the use of alcohol should be relaxed after the war a large percentage of people will have acquired a permanent taste for nature's stimulant—tea. Undoubtedly the consumption of tea is increasing throughout the world and will continue to increase at a greater rate during the next few years, and until the supply can cope with the demand higher prices for tea must be expected.

Many firms have followed a policy of reducing quantities to meet advances in cost. But the unvarying high standard of "Salada" Teas are always sustained, no matter what increases in selling prices may become necessary.

The public look for "Salada" quality, and will never be disappointed.

SCOTSTOWN AND DISTRICT

Municipal Council Held Lengthy Session and Transacted Considerable Business

PETITION OF PROPERTY OWNERS AS TO VALUATION SET ASIDE —NEW TAXES IMPOSED.

Scotstown, July 10.—(Special)—The regular monthly meeting of the Town Council was held in the Council room on Wednesday, July 7th, the following Councillors being present: Mayor Gifford in the chair, Councillors R. D. Farley, A. M. McKenzie, W. Taylor, A. Boisvert, W. F. Bowman and Pro-Mayor F.G. Roy.

After the confirmation of the minutes of the last meeting the first business of the evening was taken up and that was the reading of letters of protest from the following taxpayers against the assessment for the present fiscal year: Messrs. Duncan Stewart, Robert Scott, Scott Bros., and Mrs. R. B. Scott.

There was considerable discussion over these protests, and upon the valuation rolls being inspected it was felt that the valuations with but two exceptions were fair and equitable, the exceptions mentioned being where the valuation was too low.

It was moved by Councillor McKenzie and seconded by Pro-Mayor Roy, that the valuation of Mr. Geo. Cowan's property be increased from \$1500 to \$1800, and that of Mrs. A. K. McKay from \$900 to \$1200.

Mr. Dan Smith's name was added to the valuation roll and Mr. Donald McKenzie's was removed.

It was moved, seconded and carried that the valuation roll be homologated with the exception of alterations passed upon at this meeting.

The appropriations for the different sections of the town work were taken up and considerable discussion arose as to ways and means for the coming year. It was finally decided that the rate would be twenty mills for the coming year.

The tax on auto livery was removed. Moving picture shows will be taxed \$15 per year for local men and any outside person will have to pay \$2 per night for the privilege of showing here. Travelling theatrical shows will have to pay a tax of \$3 per day. The tax on transient storekeepers (men who come to town to sell bankrupt stocks, etc.) was raised from \$10 to \$25. All tax rates were to be published and the Secretary was instructed to see that this was done.

The Megantic road specifications were found to need some additions, and the Secretary was instructed to write the Government of the Province and petition them to allow these changes to be made.

Several accounts were ordered paid.

The question of accepting either one of three offers made by John Rudd for a gravel pit for the use of the town was next discussed. The general feeling of the Councillors was that one of these offers should be accepted as the town would probably need a great deal of gravel in the future and with such a good offer before them as made by John Rudd, they ought to act upon it as if there was any saving per load to the town it would amount to a great deal in the large aggregate of loads required. Councillor Bowman seemed very skeptical as to the value of the idea but all other Councillors seemed in favor of it.

The Mayor suggested a delay of a month, but it was pointed out that at least one of the options expired before that time and immediate action should be taken.

Road Superintendent R. A. Scott felt that the town would not be better off itself, but this was not the feeling of the Council as they thought a trial should be made of this pit, so it was decided to accept one of Mr. Rudd's offers and Councillor Farley was instructed to see that a test was made of another part of the pit to see whether it was advisable for the town to take up a second offer or not. As it was now nearly midnight it was decided to adjourn.

NOTES

The Ladies' Guild of St. Alban's Church met at the home of Mrs. R. Goodin on the 7th inst. A very pleasant afternoon was passed and a dainty tea was served. It was decided to hold a strawberry and ice cream social on the grounds of the Rev. P. R. Roy on Wednesday, July 14th.

Divine service will be held on Sunday next as follows: St. Peter's Church, Lingwick, at 10.30 a.m.; Christ Church, Canterbury, at 3.00 p.m.; St. Alban's Church, Scotstown, at 7.00 p.m. The Rev. A. W. Reeves, of Sawyerville, will officiate at the above mentioned services.

SERIOUS ACCIDENT AT DIXVILLE

HEAVY RAIN CAUSED BULKHEAD AT DAM TO GIVE WAY—HARDWOOD WENT DOWN RIVER.

Dixville, July 10.—(Special)—Quite a serious accident occurred at Mr. J. B. Parker's Saw-mill on Thursday evening at 11.00 p.m. Owing to the heavy fall of rain the timbers in the Bulk-head became loosened and it went out taking with it practically all one side of the mill and part of the machinery. Several thousand feet of Spruce logs which were in the Pond also went down the river. This means quite a serious loss to Mr. Parker not only the damage to the mill, but to his immense pile of hardwood waiting to be sawn. Fortunately there was no one in the mill at the time of the accident.

WILL WE EVER WALK ON AIR?

Train Of Thought Inspired By A Letter About "Fruit-a-tives"

MR. D. McLEAN

Orillia, Ont., Nov. 28th, 1914

"For over two years, I was troubled with Constipation, Drowsiness, Lack of Appetite and Headaches. I tried several medicines, but got no results and my Headaches became more severe. One day I saw your sign which read 'Fruit-a-tives' make you feel like walking on air. This appealed to me, so I decided to try a box. In a very short time, I began to feel better, and now I feel fine. Now I have a good appetite, relish everything I eat, and the Headaches are gone entirely. I cannot say too much for 'Fruit-a-tives', and recommend this pleasant fruit medicine to all my friends'."

SKIN TROUBLE ALL OVER CHILD'S HEAD

Like Little Water Blisters. Itched So Could Not Sleep. Hair All Dropped Out. Cuticura Healed.

99 Foundry St., Moncton, N. B.—"My little girl's trouble started just like little water blisters on her head, which went all over her head. They itched so she could not sleep at night and she would cry by the hour and then she would scratch it. I never had any rest with her night or day she was so cross and fretful. She failed in health. All her hair dropped out."

"I was given a wash for it and a salve and I used them and they did her no good. Then I got Cuticura. I was told about Cuticura Soap and Ointment which healed her head in two months." (Signed) Mrs. James Flood, Mar. 11, 1914.

THE LATE OGDEN SWEET, NORTH
SUTTON, QUE.
(Contributed.)

The death of Mr. Ogden Sweet,
which occurred on June 9th, at the
Royal Victoria Hospital, Montreal,
and briefly reported in the Record,
removed from this place one of the
oldest and most esteemed citizens.

Mr. Sweet, had been lived until June
18th, would have been 73 years of
age. He was born in the Township of
Sutton in 1842. On Dec. 25th, 1865,
he married Miss Alma Pettes,
daughter of the late Mr. Nelson Pettes,
of Sutton Junction, and had he
lived until Dec. 25th, would have
celebrated their golden wedding. In
1866 he received a certificate from
Bryant & Stratton's Mercantile Col-
lege, but having a natural inclina-
tion for farming, he always remained
on the farm, being one of the best
farmers and breeders, having bred
Holstein cattle of which he had one
of the finest and best bred herds in
the Dominion. The late Mr. Sweet
was a kind and loving husband and
father. He took a great interest in
public affairs and an active part in
politics, being a life-long Conserva-
tive. He was a son of the late Sol-
omon Sweet, his fine farm residence
at one time being a store of his late
father's. He leaves to mourn his loss
a wife, six sons and four daughters,
Homer E. and Orville M., of Califor-
nia; Gardner H. and Roy, of Saskat-
oon; Clarence E., of Gilman, Que-
bec; and Carl, of St. John's, Nfld.

Mr. J. A. Martin, of St. John's, Nfld.,
Mrs. H. M. Salisbury, of North Sut-

(Contributed.)

The death of Mr. Ogden Sweet,
which occurred on June 9th, at the
Royal Victoria Hospital, Montreal,
and briefly reported in the Record,
removed from this place one of the
oldest and most esteemed citizens.

Mr. Sweet, had been lived until June
18th, would have been 73 years of
age. He was born in the Township of
Sutton in 1842. On Dec. 25th, 1865,
he married Miss Alma Pettes,
daughter of the late Mr. Nelson Pettes,
of Sutton Junction, and had he
lived until Dec. 25th, would have
celebrated their golden wedding. In
1866 he received a certificate from
Bryant & Stratton's Mercantile Col-
lege, but having a natural inclina-
tion for farming, he always remained
on the farm, being one of the best
farmers and breeders, having bred
Holstein cattle of which he had one
of the finest and best bred herds in
the Dominion. The late Mr. Sweet
was a kind and loving husband and
father. He took a great interest in
public affairs and an active part in
politics, being a life-long Conserva-
tive. He was a son of the late Sol-
omon Sweet, his fine farm residence
at one time being a store of his late
father's. He leaves to mourn his loss
a wife, six sons and four daughters,
Homer E. and Orville M., of Califor-

A CORRECTION

In the report of the inquest at Albert Mines, in Thursday's Record, a slight mix-up occurred in that portion of the report attributed to Philias Bilodeau. He is reported to have said that Ceminerio and Care had a conversation in which it was stated that they would have to "chop" Calero, the murdered man, up. The evidence that he did give in this connection was a conversation he had with Care two days before the murder, when the latter told him that Calero was coming in again and he (Care) would not have steady work as a result.

LETTER TO SHERBROOKE GIRL GUIDES FROM KILL-KARE CAMP.

Dear Girl Guides:

We are all enjoying our summer outing on the shore of Lake Memphremagog, but do not forget "the girls we left behind," and often wish you were with us. We are very happy, and busy, (the mosquitoes also) and though we are not on the firing line it is quite correct to report us on the hitting line. But Girl Guides never let little things annoy them, and we are all getting on swimmingly. The only casualties to be mentioned are the ducking in the lake twice in one day, of the Camps "Life Savers," the apparent reason being the overturning of their canoes. We are trying to be industrious, and to take good advantage of the fine opportunity for out door training. We are planning on having a few races and First Aid competitions Saturday afternoon as a wind up of the week's work, and will have many pleasant memories of our first experience of a Girl Guide camp. We will look forward to meeting you all soon and hope our training while here will be a help to us in our work at home. With kind regards from the Guides at Kill-Kare, and Wenonah Camps, Newport, Vt.

Freedom from Food Follies

should come with Summer vegetables and fruit combined with a whole wheat cereal. Cut out the heavy, high-proteid foods of Winter and give Nature a chance. The ideal Summer diet is

SHREDDED WHEAT

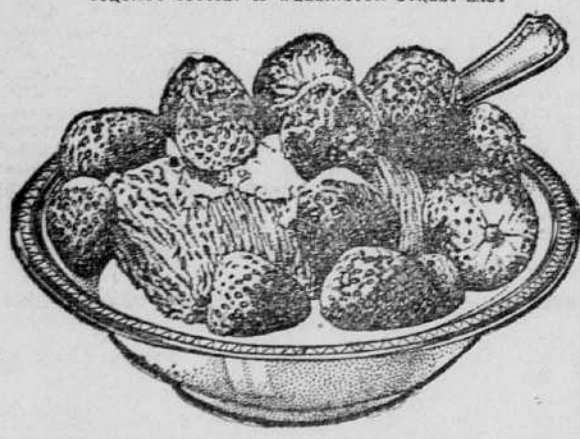

with fresh fruits and green vegetables—a food that clears the cobwebs from the brain-box and gives muscular vim and energy that enable a man or woman to do things. Being ready-cooked and ready-to-serve, Shredded Wheat is a boon to the tired housekeeper in Summer. Get the "health habit" by eating it for breakfast with milk or cream. Then try it for supper with berries or fresh fruits. Your grocer sells it.

Avoid All Danger From Cow's Milk For Baby

Not only is cow's milk, modified at home, unsuitable for baby's present needs, but in the summer months it is the cause of serious troubles. Doctors tell us, too, that the germs of various diseases are introduced into the system by cow's milk.

One must not only give baby what is best now, but consider the summer that is coming and baby's future. The difficulties of the mother who has to hand-feed baby are serious, and she cannot do better than to give him

THE ONLOOKER COMMENTS

Gas Plant Proposals

The citizens generally, there is reason to believe, will approve the action of the Council on Monday night in deciding to meet the expenditure for the new gas plant from funds already in the Gas and Electric Department treasury, rather than through an issue of debentures, borrowing more money and needlessly piling up the city debt.

The new gas plant is greatly needed. There is astonishing waste in the operation of the present gas plant, which is many years behind the times. The service is also inefficient. A new gas plant is a necessity. The department has the money—use it. If the expenditure is economically and efficiently carried out, it will be one of the best jobs the city has undertaken.

Triggering The Wheels.

It looks as though labor troubles and red tapeism had come perilously near wrecking the British cause. Viscount Haldane, in a significant statement, this week said that in October a committee, presided over by Lord Kitchener, assembled in the War Office, David Lloyd George and other Ministers were in attendance. It was decided that it would be necessary to increase the output of munitions ten-fold. The necessary orders were given to manufacturers, who undertook them. If those orders had been executed, the country would have been in a tremendous position, but labor difficulties confounded all the calculations of the manufacturers, and that explained the troubles of to-day. On the other hand, one need not go beyond Canadian experiences to show that other things have operated against the production of munitions. There have been unaccountable delays in giving out orders by the shell committee. With machine shops ready to go ahead, the order has been withheld week after week. It is a well-known fact that but for such inexplicable delays the shell production in Sherbrooke, for instance, might have been double what it has been. This is where the red tape has come in.

But there is hope ahead. Labor is said to be taking hold in the Old Country. New commissioners of the Minister of Munitions have been appointed to speed up matters on this side. The present and the future are the only concern now. "All Steam Ahead" is the slogan of the hour, and it will bring victory if pursued consistently to the end.

The Field Kitchen.

It is said that military considerations rank as follows in the matter of troops in the firing line: 1—Ammunition. 2—Reinforcements. 3—Food. 4—The wounded. All over the country, men, women and children are working to help in some way the soldiers at the front. It is in the matter of the third and fourth considerations, which by stern necessities of war in the heat of battle can receive attention only after the first and second have been met, that the people at home are able to render greatest aid. The wonderful work of the Red Cross has saved thousands of lives and brought comfort to hosts of wounded men.

The problem of three meals a day, however, is a matter of not less concern to the soldier who is still in the ranks. Nothing contributes more to the solution of the difficult question of suitably prepared meals than a good kitchen equipment. It is essential in a home, but it is more essential with an army on the march. The Eastern Townships Field Kitchen which will go with the Fifth Rifles will bring continual comfort. The people who donate it will be, in fact, providing many a good meal for the lads in the difficult days to come.

No more serviceable offering, as a token of good will and practical good wishes, could be made.

Alderman Edwards Charges

The statements made by Alderman Edwards in the Council, Monday night, with regard to matters in the Electric Department, are of sufficient gravity to warrant an official inquiry.

If the department spent large sums of money for the purchase of electric supplies in its "store venture," and conducted that branch of its operations so loosely that it can give no accounting, it is a serious matter indeed. The alderman suggests that goods may have been carried off without having been paid for, and states positively that when the city went out of the retail trade the stock was dumped into the cellar to depreciate and eventually become a loss.

Alderman Edwards points out that the city's investment in gas and electric plant is approaching the million dollar mark. Such a proposition is no playing. The public have a right to know to what extent the alderman's statements are justified. —Onlooker.

LETTERS FROM SHERBROOKE MEN

Sergt. Johnson, C.F.A., and Sergt. Wilson, 5th R.H., Send Accounts of Experiences at Front

GUNNER HURN ALSO WRITES.—AWFUL SCENES OF DESTRUCTION IMPOSSIBLE TO DESCRIBE.

Sergt. E. D. Johnston, of Sherbrooke, with the Canadian Field Artillery at the front, has written an intensely interesting letter to Rev. G. Ellery Read, of which the following are extracts:

"I am not going to try to describe the awful time we put in round St. Julien—you have read enough about that in the papers. Our battery, the 7th, had the biggest losses, both in men and horses, of the whole Canadian division. Out of about seventy men we lost forty, and seventy horses. Of the twelve men I have on the battery staff, only five of us are here now. Some are well on the road to recovery by this time, thank goodness, but you can imagine how we were placed for a time.

"After we retired from St. Julien we took up a position in front of a village called St. Jean, and in a few days the place became known as Death's Valley. I really can't describe the awfulness of the shell fire. We were in what is called a horse-shoe position, and after we retired on the afternoon of the 24th we had to cover our infantry on the left flank, and therefore the Germans were firing at us from directly in rear, front and right flank. Shells coming in front of you aren't so bad, but when you get them from all directions and the worst from the rear, well, it's more than I want to undergo again, I can assure you. How the battery managed to get out of the position I can hardly understand. On the night of the 22nd, when it started, the Germans were only four hundred yards away from our guns, and if it hadn't been for our infantry would have gone pretty badly with us. The infantry were splendid; they charged through a wood there in front of St. Julien several times, clearing the Germans out. The gas which the Germans used was awful stuff. It simply choked the fellows. The pains shoot right into the lungs until you simply can't breathe.

"However, we will get our own back at them yet, and now we are pushing them in front of us here. Yesterday I was in several of the German trenches which our boys took a few nights ago. It's awful to see the dead lying around though, and in this warm weather if the bodies lie even a single day it is too terrible a sight.

"I didn't get my letter finished last night after all, as some of our boys were broken and I, along with two other boys (Gordon Buchanan was one of them) had to start out over the lines. We repaired a few breaks, and on our way found a piano which some of the boys had taken from a ruined house and brought behind the barn to their dugout. Well, we spent a merry hour with songs and music, and I guess the Germans would wonder what was up, as they would hear us quite plainly, we being only about six hundred yards from their front trenches. The last time I touched a piano was in our observation station at St. Julien, and there were four dead men lying just outside. This is a strange life, Mr. Read.

"As I am sitting writing this in a trench, I can hear the shrapnel bursting just a little way in front of our position. I don't really hear anything looks so peaceful, and the country is looking at its best just now. It is hard for one to realize that the greatest war ever known is being fought out here. Of course, if one looks a little closer at the farm places and villages you begin to understand, as there is hardly a house left standing round this district. It was awful to see the ruins of Ypres; it is just a mass of ruins and will take years to rebuild. I'm afraid the people at home don't realize what this war means to Belgium. The country is practically destroyed, and it will take years before it can recover. I only hope we get a chance to give the Germans a taste of what they have given Belgium. Not a very Christian wish, perhaps, but I sincerely hope we give them a taste of it in their beloved Fatherland.

"Do you know Canon (Major) Almond, of Montreal? He is our chaplain. We had a fine address from him last Sunday. He is a fine man and is very popular with the boys here.

"Gordon Buchanan is sitting here just now, shavering a tailor fashion, with his legs crossed, and is making a very poor job of it."

WORSE THAN LADYSMITH. Sergt. T. C. Wilson, of Sherbrooke, a hero of the South African War, who has seen service in many parts of the globe, writes to Rev. G. Ellery Read:

"I am writing to let you know a little of our doings for the last two weeks. On our arrival here we hung around for a few days getting fixed up, and then we received our orders. After some tedious marching through quaint towns and villages we arrived on the scene of action. It was as I expected; we went into battle suddenly, almost without warning.

"From a French farmhouse, in the barns of which we had been billeted, we marched out in full kit, bound for we knew not where. On we trudged, over seven or eight miles of the hideously uncomfortable, wet, slimy clay roads and fields, until some staff officers met us, and we heard we were for the trenches. The roar of the great guns was in our ears, and frequently we caught the rattle of machine guns and rifle fire. We passed many graves, beneath whose rude wooden crosses rested British soldiers. The huge holes, which the big shells make, were on every side, and among the remains of shattered houses English fighting men, worn and soiled by battle, were resting. These turned out as we marched past and examined us critically. Many "Good lads" were shouted to us, and we felt that the men of the trenches made us welcome.

"At dusk we halted, footsore and

tired, and got some hot tea, which, with hard biscuit and jam, made an excellent meal, and after half an hour's rest we marched on. Now the noise of firing was behind us and before us, and to the left and right; we were in the midst of a sea of noise, the deafening, terrible noise of the great guns and crackle of the smaller arms.

"Dusk had faded into darkness as we marched in dead silence along strange lanes and across muddy fields, crossing wide trenches, deep in water, by way of crazy, slippery plank bridges. A drizzling rain, cold and penetrating, soaked us to the skin, and soon we were encased in a yellow covering of slimy clay. Suddenly, with a great hiss, a blue light flashed up from our front, and along the ranks came the order "Down!"

We stooped and halted, but the enemy had seen us, and the music of many bullets sounded over our heads. For a minute we remained stooping, crouching from death. Then on again, slipping in the clay, stumbling into shell holes filled with water, and slithering over the slippery bridges. The work was exhausting, and the tension of the imminence of danger made one breathe heavily. Many times the blue lights flashed, many times we crouched; always we prayed that the Germans would not turn their machine guns on us. We were in the open, exposed and unprotected, and it was the first time that many of our men had been under fire. At last the tortuous journey ended, and we entered the trenches.

"Everywhere there was darkness, except for the incessant bursting of shells and the flashing of the blue lights. Against the breastwork of the trenches we placed our rifles, with bayonets fixed and magazines charged ready.

"The rain was falling heavily now, and it was bitterly cold. Soaked to the skin, we took our places behind the wall of sandbags, facing the enemy's line 250 yards away. Every minute or two the blue flares would spring up, and the ground between the fighting lines would be illuminated by the weird, ghost-like light. The firing was incessant from the German lines; we did not waste ammunition. Absolute silence reigned in our lines, and we were glad when we were able to lie down on the wet clay at the bottom of the trenches and snatch a little sleep in spite of the terrible clatter of war around us.

"In the morning at dawn we reviewed the battlefield. The trenches! No picture, pencil, words or camera could perfectly portray to those who have not seen them the trenches. Behind us, distant twenty yards, stretched a number of shattered houses, without their roofs and minus half their supporting walls, all scarred and blackened by fire, smashed by shells, looted by Germans, the ruins showed in sickening fashion the horrors of war. Such desolation cannot be imagined; it must be seen to be realized. The earth had been battered and scarred to make the trenches just as the villages had been shattered by the Germans, to make France a hell. The place was like a huge brickfield that had been rained on for years and smashed by a series of earthquakes. The only places I have seen like this were Ladysmith and some parts of the Sudan, but I must admit that this is on a far more stupendous scale.

"Tommy likes his drop tea and conjures up all sorts of devices with the aid of old tin buckets, punctured with holes, to make a fire, when permissible. Round these fires sit men in kilts, with the tartan of many a great Scottish clan, side by side with riflemen in soiled khaki. Bits of broken furniture sometimes come our way, and Tommy can always find great comfort in a piece of table or a damaged chair. On the afternoon of the 24th our Brigade made an attack and took two lines of trenches with the bayonet. The fire was terrible, and a number of our brave fellows went under, whilst those who were wounded, but able to walk, ambled back to the dressing stations two miles away. Among the latter were several Sherbrooke boys, including Rigby, Stedman, Boulch, Haffenden and others. Half of my company were told off to bring up posts, wire and sandbags to strengthen our positions, and for nine hours we were up and down the roads with loads and exposed to the most withering shell and rifle fire I ever experienced. Every minute seemed as though it would be our last. Several casualties occurred, and the road presented some ghastly sights. Nevertheless, the Germans paid heavily and dearly for they lost their trenches and thousands of men, while several hundred were taken prisoners. We remained in the trenches seven days and nights and were then relieved for a spell by another division. Oh, what a treat to get a warm meal, a good wash by the roadside, and sleep in a very dirty farmyard. The birds are singing, the sun shining and the flowers blooming. But for the booming of guns and the desolation around, one could imagine we were at peace again.

"The boys mourn the loss of gallant comrades, but withal are extremely cheerful, and constantly re-

LETTERS TO THE EDITOR

53RD REGIMENT.

The Editor, Record, City

Dear Sir:—

Good for "A healthy Mind." Better be a booster than a knocker any day of the week. This regiment is to be congratulated not only upon the class of officers they have but on many of the rank and file who have, in spite of the fact that the Militia Department cannot under the present strain on their resources give them a proper equipment either in uniforms and rifles, turned out to drills and parades. All honour to the boys who are trying to do something to maintain the martial spirit in the people of these Eastern Townships. In spite of many discouragements which would have daunted the spirit of many a man who has gone to the front, in spite of the smirchings and sneers of the unlettered and indifferent, they have held on and done what they could. Don't let us ever forget that when the Militia Department could not pay the men as they have been in the habit of doing, for drilling, the boys have turned out and drilled. All honour to those who did this. Let the rest of the regiment who have not yet joined in these drills show up at the next parade. I would not let a sneer or a gibe turn me from what I thought to be my duty. And let those who laugh or sneer from the side walks or from the verandahs where they are lazing away their evenings, take shame to themselves that they are too lazy or too cowardly to join the ranks of men who are too good to associate with them, if they do nothing at all. Keep it up, boys, don't let either a haze or a barrage or a shirker or a slacker have the slightest effect on you. Yours truly,

Too old for the ranks.

iterate, "Are we downhearted? No!" with a mighty emphasis on the "no." We certainly have no doubt as to the issue: Victory for us at an early date.

"We are under orders again, so must now conclude. Please convey my kindest regards to all my friends."

GERMANS SCARED OF CANADIANS.

Gunner Horace Hurn, C.F.A., writes to Mr. Read:

"We've had a particularly hot time since writing my last letter to you, and none of us wish to go through the same experience again. We have sampled to our utmost satisfaction all the shells that Germany makes, and there are some big ones amongst them.

"Our boys did finely, and surely saved the situation. Against even the gas alone it is terrible, but coupled with the fire of rifle, gun and machine guns it was worse than that. Of course it was a retreat, and 'twas an exciting one. Altogether we had an awful time, but the contingent, though sadly reduced in numbers, came out with great credit and their good name is firmly established in the Old Country. I am told that the Canadians are as the Guards to the Germans, who are simply scared of them. We are having lovely weather now, so everything is all O.K."

GERMAN DOCTORS KIND TO BRITISH WOUNDED.

Scotstown, July 8.—(Special)—The following is an extract from a letter received from Lieut. Clyde A. Scott, brother of Mrs. W. L. McKee, who is at present lying wounded in a hospital in Germany. It will be noted that the Germans are at least giving every attention to the wounded in their hospitals. The letter is written from Bruderhaus Hospital, Paderborn, Germany:

"I would have written sooner, but I was moved from St. Joseph's House to this place, where I will be for two months. The reason for the move is that the doctor at St. Joseph's could not find out what was the matter with my leg, so they sent me here and it did not take the doctor long to find out all about me. He found that there was a bone broken in my left thigh. He immediately bandaged my leg tightly from heel to thigh, made me lie on my back, and put a fairly heavy weight on the leg to draw it out because it had almost a week's time in which to shrink. The doctor says I will have to be in bed for five weeks, then two more weeks to learn to walk, so you see it makes a long time in the hospital. However, if at the end of that time he turns me out O.K. I will be satisfied. My shrapnel and bullet wounds are healing nicely. We are very well treated here by the Brothers, who do all in their power to make us as comfortable as possible. I had one of my friends write this for me, as I cannot write very well yet. However, I will let you hear from me often, and please write as often as you can."

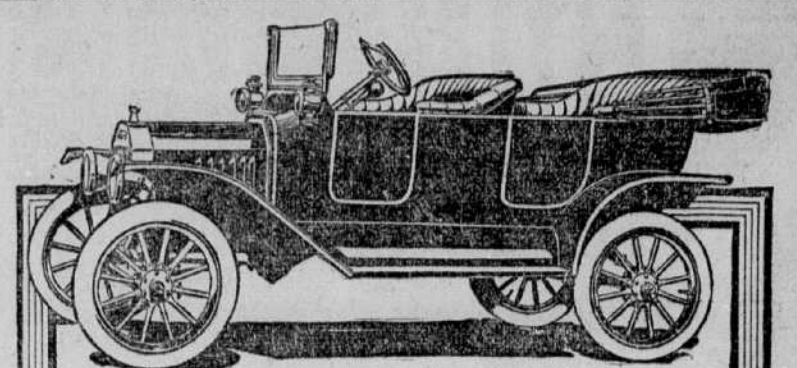

LAKE MEGANTIC

The picnic of the Marsboro Foresters that was to have been held on Thursday at Victoria Bay, had to be abandoned as far as the picnic was concerned, on account of the heavy rain which continued all day, but developed into a combined box social and entertainment in the Celtic Lodge R. T. of T. Hall in the evening, which was thoroughly enjoyed by those present. The proceeds amounted to about \$50, which would have been considerably augmented had the day been fine so that the picnic in the afternoon could have been held, as a considerable number of people from Megantic and other places at a distance would have been there.

Mr. Donald Gunn's daughter, Margaret, and her husband have arrived at the home at Marsboro and will stay during the summer in attendance on her father who is in feeble health.

SAWYERVILLE

A number of the ladies who are doing Red Cross work have issued invitations for a dance to be given in the Oddfellows' Hall, Wednesday, July 14, the proceeds to be used for Red Cross work in the vicinity.

Municipality of the City of Sherbrooke.

BY-LAW No. 345
concerning the construction of sewers and other permanent works in streets, etc.

Public notice is hereby given that at a special meeting of the Municipal Council of the City of Sherbrooke, held at the usual place of council meetings on the 8th day of July, 1915, at which were present the majority of the members of the council under the presidency of the mayor, it was ordered and decreed by-law as follows:

Whereas it is necessary to improve and extend the sewerage system on Drummond, St. Henri, Murray, Bridge, Galt, Commissioners' Mont-Pleasant, Prospect and Blouin streets at a total cost of \$9,000; to improve and repair certain streets, especially King street adjacent to "Aylmer" bridge, Brooks, Galt, Montreal, St. Edouard and Peel streets, at a total cost of \$15,200; to repair and improve certain real estate and parks in the city of Sherbrooke at a cost of \$300; and for that purpose borrow money to pay for said works by means of city debentures in denomination not less than \$500 each, amounting in all to \$25,000, payable to bearer five years from date, with interest at 5 per cent., payable semi-annually on the 1st of May and November each year, and to empower the city to borrow the said sum of \$25,000 on promissory notes, placing the said debentures as collateral security.

That a general meeting of owners of immovables in the City of Sherbrooke will be held on Tuesday, the 27th of July instant, at 7 p.m. of the clock in the council room, at the City Hall in the council room, when and where the said By-law No. 345 will be submitted for their consideration.

That the original of said By-law No. 345 is kept in the archives of the city in the City Office, where anyone can take communication thereof.

MARRIAGES
MILLER—YOUNG
Mansenville, July 9.—(Special)—At three o'clock on Wednesday, June 30, a quiet wedding took place in the presence of relatives and friends at the home of Mr. and Mrs. B. D. Young, Mansenville, Que., when their eldest daughter, Isabella Victoria, was married to Mr. Hugh Miller, of Lake Megantic. The ceremony was performed by the Rev. Mr. Rumliss, of Iroquois, Ont., assisted by Rev. Mr. Brundage of Mansenville. The bride, who was given away by her father, entered the room to the strains of the wedding march played by Miss Grace Fletcher, niece of the groom. Her gown was of Oriental lace and she carried a bouquet of bridal roses and lilies of the valley. The bride was attended by her sister, Miss Mabel Young, who wore a gown of Dresden muslin, trimmed with velvet, and carried a bouquet of pink carnations. Mr. James Miller, brother of the groom, was best man. The bridegroom's gift to the bride was a pearl and amethyst pendant, to the bridesmaid a pearl brooch, to the best man a pearl stick pin. After the ceremony a lunch was served in the dining room which was decorated with pink roses and pink and white carnations. Mr. and Mrs. Miller left by auto for Highwater where they took the train to Montreal. After the honeymoon spent in Halifax and St. John's N.B., Mr. and Mrs. Miller will reside at Lake Megantic, Que. Guests from out of town included Mr. and Mrs. D. Fletcher, their daughters, Grace and Jean, Mrs. A. Macdonald and her little sons, Angus and Ralph; Mr. F. C. Young, from Montreal, Que.; Miss Rheume and Mr. J. Miller from Farnham, Que.; Mr. and Mrs. John Miller, Mr. Greenward from Megantic; Mrs. Hazard from Abercorn; Miss Armstrong and Miss Brydges from West Berkshire, Vt.

SCOTT—START
Scottstown, July 10.—(Special)—A very pretty wedding took place here on Wednesday, July 7th, when Miss Lillian Start, daughter of Mr. Fred Start, was united in marriage to Mr. Jack Scott, son of the late R. B. and Mrs. Scott. Both of these young people are widely known in this district and Miss Start took a great interest in church affairs as well as favoring the public frequently in the use of her great gift as a musician. The wedding took place at the home of the bride's parents at 4 p.m. Shortly after this hour the bride appeared to the strains of the Wedding March played by Miss Joyce Reed, of North Hatley. The bride was beautifully gowned in a white satin charmeuse with drapery of chantilly lace. Her veil, which was arranged in mob effect, was caught with lilies of the valley and she carried a shower bouquet of roses and lilies of the valley with streamers considered in lover's knots. She also wore the groom's gift, a pearl pendant, the whole arranged in charming pictures. She was attended by her little sister, Miss Freda Start, as flower girl, and the groom's sister, Miss Pearl Scott, as bridesmaid. The flower girl was dressed in pink silk, and carried a basket of pink carnations and pink roses with pink streamers and wore the bridegroom's gift, a pearl sunburst. The bridesmaid wore a pale blue satin gown with overdress of silk shadow lace and silk and lace mob cap. She carried a bouquet of pink roses in shower effect. Mrs. Fred Start, the bride's mother, was dressed in green satin. Mrs. R. B. Scott, the groom's mother, was attired in black satin. The bride's father, who gave her away entered the room with the bride on his arm, the bridegroom waiting under an arch of ferns and roses, the stairway being decorated with ferns and marguerites. The groomsmen was Mr. W. W. Bowman. The Rev. J. R. McLeod, of St. Andrew's Presbyterian Church, was the officiating clergyman. After the ceremony a very dainty supper was served and the guests who numbered about forty, wished the young couple who had so recently plighted their troth, all happiness during their wedded life. The bride travelled in a navy blue suit and white crepe blouse and white sailor hat faced in pink silk. As was to be expected the bride received a large number of very handsome gifts. Her gift from her father and mother was a very fine piano. The gift from the bridegroom's mother was five \$20 gold pieces set in a box. Among other gifts noted were the following: A handsome salad bowl and servers (cut glass) in case, a very fine mantle clock, silver tea service, silver deposit milk, sugar and cream set, sterling silver spoons, china, cut glass, some beautiful linen, electric reading lamp and numerous other things that were at once both useful and ornamental. The newly-married couple proceeded to Sherbrooke by motor, from whence they took the train for the west, where Mr. Scott has a very fine farm. The Bank of France is receiving large deposits of gold turned in to be exchanged for notes to strengthen the bank's reserve of the precious metal.

BROOKBURY.
A reception was held on Wednesday evening, the 7th inst., at the home of Mr. Walter E. Everett and mother for Mr. and Mrs. Fred A. Everett, who were married on June 16th, and have just returned from their wedding trip. The bride received in her bridal dress of white embroidered voile, and looked very nice. Over one hundred invited guests were present, and the evening was passed with music and dancing. A most excellent repast was served at about midnight. The presents given were very numerous and beautiful, consisting of silver, glass, china, linen and many envelopes containing money and cheques. A most enjoyable evening was passed, many of the guests remaining until the early morning hours. The happy couple will make Angus their future home.

Arrivals and departures: Mr. and Mrs. S. B. Coates to Angus to attend the funeral of the late G. Bell; Mrs. H. R. Johnson and Master Grant, of Coaticook, with relatives at Enfield farm; Mrs. F. M. DEATH FROM NATURAL CAUSES

Coroner's Jury at Scotstown Re-
turn Verdict in Case of Death
of Dan McLeod

THERE WAS NO EVIDENCE TO
SHOW THAT DECEASED HAD
MET WITH FOUL PLAY AS
AT FIRST REPORTED.

Scotstown, July 10.—(Special)—Coroner Bachand and a jury held an inquest here yesterday into the death of Dan McLeod, whose body was found in a house occupied by Angus Campbell on the Dell Road, situated some distance from this place, on Wednesday. The affair had caused considerable excitement as rumors had spread that deceased had been the victim of foul play.

Four witnesses were called to give evidence at the inquest, and it was fully established by the medical evidence that death was due to natural causes. It was proved that deceased had been on a spree, but there were no signs of an attack or any foul play as at first reported.

FEELING OF OPTIMISM

(Continued from page 1)
was taken to mean that the German armies had not yet recovered from the defeat which the Russians inflicted upon them north of Krasnik where the Austrians are operating in conjunction with General von Mackensen.

It is uncertain as yet whether Grand Duke Nicholas, commander-in-chief of the Russian forces, intends to make his final stand on his present lines or to fall back to the River Dug, which might involve the evacuation of Warsaw. Military men say that this doubtless depends upon his supplies of munitions which are now reaching him through Archangel and which German submarines are trying to cut off. An under-water boat today sank the Hull steamer, Guido, bound for a Russian port, but she was loaded with coal only. A submarine also sank the Russian bark Anna, which was bound from Archangel to Hull.

BRITISH RED CROSS APPRECI-
ATES WORK CARRIED ON BY
CANADIAN BRANCH OF
ORGANIZATION.

Although it may seem premature to begin now to consider the man who is coming home—the discharged soldier, it is a problem that will doubtless look up in the face in the very near future. True, the war is only reaching its fiercest stage, and every man of military age is needed for the Empire, but it is not necessary even for the longed for Peace to become our discharged soldiers will be coming back to us. Professor D. C. Lathbury in a recent article argues that "consideration and definite

The central question at issue is this—"How to provide for our men on discharge."

The following is a copy of a letter received from Sir, Edward Boyle, Treasurer of the Serbian Relief Fund, in London.

"To the Chairman of Executive, Canadian Red Cross Society.
Dear Sir:—

"I beg that you will convey to the members of your Committee the sincere gratitude of the Serbian Relief Fund for the very handsome grant of \$5000, which the Canadian Red Cross Society has allocated to us."

"Our funds are administered in Serbia by responsible English representatives, and are applied according to the necessities of the moment appear to require between the upkeep of our four hospitals, grants in aid to the various Serbian organizations, and relief to the refugees from the areas devastated by military operations. After the installation ceremony the brothers retired to Hotel Beebe where dainty refreshments were served to all present.

DEATH OF FRED JENNE, FORMERLY OF ABERCORN.

Sutton, July 10.—(Special)—Mr. Fred Jenne died at his home in Newport, Vt., on Wednesday after a brief illness in his 49th year.

Mr. Jenne was for many years a trusted employee of the C.P.R. and for several years past had a position of trust in that company's big flour sheds at Newport. The death of Mr. Jenne came as a shock to his many friends in this section and his death will be deeply mourned by all who knew him. He was a brother of Mrs. F. E. Fyles of the Customs service at Abercorn, and he leaves many other relatives and friends there as well as wherever he was known.

The body was brought to Abercorn on Thursday night where the funeral was held.

CAUSE OF FIRE ON MINNEHAHA IS NOT KNOWN

Halifax, N.S., July 10.—"I cannot say whether the fire was caused by an explosion or not," said Captain Claret, of the North Atlantic Transport liner Minnehaha, which arrived at quarantine of this port yesterday afternoon. "But it is a remarkable coincidence that there should have been an explosion and that fire should have broken out so soon after the warning was received that bombs had been placed on out-going steamships."

DEADLY GUNCOTTON.

Efforts are being made to prevent cotton from being imported into Germany, as it is an indispensable asset to high explosives. Guncotton is used in enormous quantities for charging torpedoes and mines. Its base is raw cotton or even cotton waste such as is used in cleaning machinery. This is soaked for several hours in baths of nitric and sulphuric acid, and it is then passed between massive steel rollers. These expel every trace of acid which has not been absorbed by the cotton. Through continual soakings in water the acid-charged cotton is reduced to a mass resembling paper pulp, and it is then ready to be moulded into various shapes and sizes. Discs, cylinders, squares and tubes of guncotton are produced according to the shape of the implement in which it is to be used.

Intense shock or heat explodes guncotton, and its power can be gauged from the fact that it is the force which blows great holes in ships through the agency of mines and torpedoes. The advantages of guncotton for military purposes are that it can stay for any length of time in water without injury; its explosions are unattended by smoke, and it ignites at a temperature half that required to explode gunpowder.

A peculiar characteristic of guncotton is that a brick of it, when wet, may be placed on a bed of hot coals and as the moisture dries out, the cotton will flake and burn quietly. If dry originally, however, the guncotton will explode with terrible force at about 320 degrees of heat.—Tit-Bits.

BRITISH WAR LOANS LISTS CLOSE TONIGHT

CHANCELLOR OF THE EXCHE-
QUER WILL MAKE A STATE-
MENT IN HOUSE OF COM-
MONS

London, July 10.—The lists for the British war loan will be kept open until midnight tonight. That is, any letters posted before midnight Saturday applying for allotments will be in time.

It is understood that the Chancellor of the Exchequer will make a statement in the House of Commons on Monday on the result of the loan. It is believed that the aggregate subscriptions of the principal English joint stock banks will be about £200,000,000 (\$1,000,000,000). They subscribed £100,000,000 of the previous war loan, and at a conference of bankers held in London yesterday it was decided to make the subscription of this occasion double that of the old war loan.

GERMANS TORPEDO RUSSIAN SHIP

London, July 10.—The Russian steamer Anna, from Archangel, Russia, for Hull, was shelled by a German submarine in the North Sea. The crew abandoned the ship and landed at Peterhead, Scotland, yesterday. The Anna is reported to be still afloat.

DUAL MONARCHY'S NEW LOAN.

Berne, Switzerland, July 10.—Austria-Hungary has concluded arrangements for floating a second loan in Germany, amounting altogether to 500,000,000 marks. Of this sum 305,000,000 marks are intended for Austria and the remainder are for Hungary.

A Weighty Protest.

The following eminent American citizens have called upon the American people to stop selling munitions to the belligerents: V. J. Nemeo, W. A. Mazur, Rev. Lad. Horsanyi, F. Wyand, J. William Wendt, S. J. Tybush, Arthur Reichmann, A. A. Haddad, D. Diacomopolous, Nat. H. Strauss, and three or four hundred others, all publishers of American newspapers in foreign languages. The unhyphenated Americans would like to oblige but are too busy.

Ordinary Tires End Where "Traction" Commence

After every other tire has had its say, Dunlop Traction Tread is still on the "long distance" line because what are featured as special points in some other tires come under the head of "Taken-for-granted" in Dunlop Traction Tread. In other words, where ordinary non-skids end, Dunlop Traction Tread commences in earnest.

Dunlop Traction Tread costs us more to make. Knowing this fact, you may ask why we advertise this tire instead of "Special," "Cross-Groove," "Wire-Grip," "Rubber-Studded," or Plains, all of which are made in the Dunlop factories, and give good service.

We advertise "Traction" because it is our leader—our Sunday suit as it were—because we believe no other tire can march out a record of successes which can touch it. Where can you—in all the wide world—find a tire record like this?

Q Dunlop Traction Tread introduced to Canadian motorists in 1911 as a distinctly new-idea anti-skid tire.

Q Went across the continent on Pathfinder Aug.—Oct., 1912—a marvellous trip of road mastery.

Q With a world market to choose from, voluntarily selected by Braunwarth, Inc., New York, in 1913, as the best tire in the universe.

Q During 1914 no less than three foreign countries made a bid for the Traction agency.

Q Sales of this one type of tire alone, by 1915, sufficient in total to equip every automobile in Canada.

You can simply find no equal for the Traction record, because there is no equal to the Traction Tire.

SAFETY was an uncertain factor in motoring till Traction came.

SKIDDING lurked near in motoring till Traction came.

MILEAGE was "short" on the market till Traction came.

PUNCTURES were ever-present till Traction came.

DUST was a bane to motoring till Traction came.

LOOSENEED TREADS made tire service costly till Traction came.

And with the coming of Traction came a great increase in the number of cars driven by women. It made certain what would be eliminated in tire trouble and exactly what help autos would get from tires in making the journey comfortable and pleasurable.

You have not done justice to your car unless you have introduced it to Master Dunlop Traction Tread. 1,500 agents located in every part of Canada will see to your tire wants, on request. At least one of our agents is located in your town and you can make sure he is reliable or he wouldn't be selling the Dunlop line.

Dunlop Traction Tread is our leader, but we also make Dunlop "Special"—(the regular type of non-skid)—"Cross-Groove," "Wire-Grip," "Rubber-Studded," Plains, and the famous lines of Red and Grey Tubes.
